## DEPARTMENT OF DEFENSE INDEX OF SPECIFICATIONS AND STANDARDS

### FOREWORD

The Department of Defense Index of Specifications and Standards (DODISS) and related standardization documents is comprised of four separate parts as follows:

PART 1 - An alphabetic listing of all current standardization documents in order by the title of the document, plus all standardization documents cancelled since the last basic DODISS.

PART 2 - A numerical listing of all current standardization documents in order by document identifier number, plus all standardization documents cancelled since the last basic DODISS.

PART 3 - A Federal Supply Class (FSC) listing of all current standardization documents in alphabetical order within each FSC, plus all standardization documents cancelled since the last basic DODISS. FSC's are identified in the Cataloging Handbook H2-1. To order, contact the DODSSP Subscription Services desk.

PART 4 - A numerical listing of all standardization documents cancelled from 1964 to date of the current edition. This is a triennial publication.

The cancellation listing may be kept current by adding thereto the cumulative cancellation listing of the DODISS Part 2 until the next basic revision of Part 4, 1 July 1996.

The Department of Defense Index of Specifications and Standards (DODISS) is published under authority of the Office of the Assistant Secretary of Defense for Production and Logistics, and is issued annually 1 July with supplements effective 1 September, 1 November, 1 January, 1 March and 1 May.

Comments or suggestions pertaining to the maintenance of this index should be addressed to:

Defense Printing Service Detachment Office
Bldg 4D NPM-DODSSP
700 Robbins Avenue
Philadelphia, PA 19111-5094

COLUMN 1
ACTION - Indicates the type of computer transaction.

A - Indicates a change since the last published Index.
C - Indicates the document has been cancelled.
D - Indicates a DD1865 change/correction to the Index.
M - Indicates a modification to an existing document.
N - Indicates a new document being entered.

COLUMN 2
QPL/QML - Q - Indicates that the document has a QPL/QML established for that document.

COLUMN 3
COORDINATION - L - Indicates that the document has limited coordination.

COLUMN 4
STATUS - I - Indicates that the document is inactive.

COLUMN 5
DOCUMENT NUMBER - Contains the document number, revision, amendment number, notice number, supplement number and interim amendment or notice.

COLUMN 6
DOCUMENT TITLE - Contains the document title and identifies any interest for that document.

** CANCELLED DOCUMENTS will either have the replacement document after the title or the phrase (NO S/S document)

COLUMN 7
DIST STMT - Indicates the distribution statement for that document.

COLUMN 8
FSC/AREA - Contains the Federal Supply Class or Area Assignment for that Document.

COLUMN 9
MCA SYMBOL - These symbols identify the degree of interest DOD has in Federal Specifications or Standards.

COLUMN 10
PREPARING ACTY - Identifies the DOD activity which prepared the document.

COLUMN 11
DATE - Contains the document date (DDMMYY).

COLUMN 12
CUSTODIANS - Identifies the activity within each service that is the custodian for that document.

"The Department of Defense Index of Specifications and Standards is available as follows:

Military Activities:

DODSSP
Standardization Documents Order Desk
700 Robbins Avenue Bldg. 4D
Philadelphia, PA 19111-5094

Government Civil Agencies and Non -Governmental Activities (subscription basis only):

Superintendent of Documents
U.S. Government Printing Office
Washington, DC 20402

## GENERAL PROVISIONS

1. This publication lists the unclassified Federal and Military specifications, standards, and related standardization documents, and those non-government standards adopted for DOD use.

2. Revisions are indicated by a suffix letter to the basic number, except for Air Force-Navy Aeronautical Standards (Sheet Form) and Qualified Products Lists which indicate revisions by a suffix number.

3. Amendments are indicated by a suffix number in parenthesis to the basic number. Interim amendments or changes appear as seperate documents after the coordinated document.

4. The number of Qualified Products List is the number of the specification to which it is related. Specifications for which Qualified Products Lists are required are indicated to the left of the Specification number as follows:

Q - Qualified Products List issued.

N - Qualified Products List **NOT** yet issued.

5. In the active section under the column headed "DATE" the date listed in that of the latest document issue. In the active section under the column headed "Date" the date listed for Non-Government Standards is the date of the Adoption Notice (date of DOD adoption). The Adoption Notice is part of or attached to the Non-Government Standard adopted. The date appearing after title is the date of Specific Issue Adopted. In the cancelled section under the column headed "Date" the date listed is normally the date of cancellation.

6. "L" to the left of the document number indicates a limited coordination document.

7. The following control symbols pertain to Federal Specifications, Standards, and Qualified Products Lists only and appear immediately preceding the "Preparing Activity" column in the parts of this index indicated:

# - The pound symbol (#) identifies Federal Documents for which no official DOD interest has been registered.

* - The asterisk (*) identifies Federal Documents for which DOD has a coordination interest.

% - The percent symbol (%) identifies Federal Documents for which DOD has waived coordination interest.

/ - The slash symbol (/) identifies Federal Documents prepared by a DOD activity.

8. Distribution Statements on Technical Documents

In accordance with the Department of Defense Directive 5230.24 of 20 November 1984, a Distribution Statement is required on all standardization documents.

Documents listed in this index with other than distribution statement "A" require release approval. To request copies of these documents all requests must be submitted via the preparing activity.

9. The codes listed in paragraph 16 are assigned to identify the activities of the military services and appear in column 10 headed "Preparin ctivity" indicating preparing activities and column 12 headed istodians" designating custodians of specifications or standards. These codes will also identify Reviewer and User activities as explained in paragraph 11. Military Coordinating Activity for a Federal document which was prepared outside the Department of Defense is denoted by an asterisk "*" preceding the Preparing Activity column.

10. Review and User Information is now included after all the title parts of the DOD Index of Specifications and Standards (DODISS).

11. Federal Standardization Documents are available for reference at General service Administration Business Service Center and some Federal Government Depository Libraries. Federal Standardization Documents (single copies, priced or otherwise) are available from:

GSA Spec Activity
Room 6039
7th and D Street
Washington, DC 20407

NOTE: International Standardization Documents listed in the Department of Defense Index of Specifications and Standards (DODISS) are not available on a subscription basis. These documents will be issued to private industry upon approval of the preparing activity. These documents are identified in the DODISS as ISDD, ISDA, ISDN and ISDF under the column FSC.

NOTE: To obtain a subscription to the documents listed in this index with an FSC symbol of two numeric characters suffixed with GP (EX: 16GP), the requester should subscribe to the first numeric FSC listed under each group in DOD Handbook H2-1.

NOTE: Subscription to this Service does not relieve contractors of the responsibility for application of specification of appropriate data in complying with military contracts.

12. Federal Supply Classification (FSC) Codes (numeric) reflected in this index are listed and described in DOD Handbook H2-1. In addition, the following alpha symbols reflected in this index as an FSC indicate standardization areas (not listed in DOD Handbook H2-1) and are defined as follows:

| SYMBOL | DESCRIPTION |
|---|---|
| ATTS | Automatic Test Technology Standards |
| AVCS | Avionics |
| CDNC | Computer Aided Design Numerical Control |
| CMAN | Configuration Management |
| CMPS | Composites Technology |
| DCPS | Data Communication Protocol Standards |
| DRPR | Drawing Practices |
| EDRS | DOD Engineering Data Reproduction Systems |
| EGDS | Engineering Data Systems |
| EMCS | Electromagnetic Compatibility |
| ENVR | Environmental Requirements and Related Test Methods |
| FACR | Facilities Engineering and Design Requirements |
| FORG | Forgings |
| GDRQ | General Design Requirements |
| HFAC | Human Factors |
| ILSS | Integrated Logistics Support Standards |
| IPSC | Information Processing Standards for Computers |

| | |
|---|---|
| MCCR | Mission Critical Computer Resources |
| MCGT | Mapping, Charting and Geodesy Technology |
| MECA | Metal Castings |
| MFFP | Metal Finishes & Finishing Processes & Procedures |
| MISC | Miscellaneous |
| MNTY | Maintainability |
| NDTI | Nondestructive Testing and Inspection |
| NUOR | Nuclear Ordnance |
| PACK | Packing, Packaging, Preservation and Transportability |
| QCIC | Quality Control/Assurance and Inspection |
| RELI | Reliability |
| SAFT | System Safety |
| SDMP | Standardization and Data Management Programs |
| SLHC | Long Haul Communications |
| SOLD | Soldering |
| TCTS | Tactical Communications Systems Technical Standards |
| *TELE | Federal Telecommunications Standards |
| THDS | Screw Threads |
| THJM | Thermal Joining of Metals (except soldering) |
| TMSS | Technical Manual Specifications and Standards |

"Copies of approved program plans are available on request from the DODSSP. They are not issued on a subscription basis".

* AREA "TELE" is for indexing purposes only. It is *not* a DOD AREA Assignment.

13. International Standardization Documents have been included in the DOD Index of Specifications and Standards. They are identified under areas, ISDD, ISDA, ISDN and ISDF (International Standardization Documents sponsored by DOD, Army, navy and Air Force respectively). However, ISDD, ISDA, ISDN and ISDF are symbols identifying the documents as being other than those in the FSC Classes and Areas reflected in the Standardization Directory (SD-1).

14. DODISS lists those non-government standards which have been adopted officially by the Department of Defense. Other standardization documents developed by Industry, which may contain useful information, are listed in "An Index of U.S. Voluntary Engineering Standards" prepared by the National Institute of Standards and Technology (NIST).

15. A form for requisitioning standardization documents, DD Form 1425, Specifications and Standards Requisition, is available through the forms distribution systems of the Army, Navy and Air Force. However, all requests will be honored despite the requisition form. All Requests for Specifications, Standards, handbooks, Qualified Products List, International Standardization Documents and other DOD, Army, Navy and Air Force Standardization documents listed in this index, except as noted below, should state the identifying number and title of the document and be submitted to:

DODSSP
Standardization Documents Order Desk
700 Robbins Avenue Bldg. 4D
Philadelphia, PA 19111-5094

Exceptions:

a. Military activities having a requirement for automatic distribution of standardization documents in specific FSC's and Areas should refer to Defense Standardization Manual 4120.3-M (Chapter III, Section 9) for information.

b. Copies of cancelled or superseded documents required for contractual purposes will have to be obtained from the contracting officer of the concerned service.

c. Industry standardization documents adopted by DOD will not be furnished by the DODSSP to commercial concerns. Copies of these documents may be purchased from the appropriate Industry Association.

d. Security Classified documents are available only through the proper releasing authorities within the military services on a "need to know" basis. Departments of the Navy and Air Force classified standardization documents are stocked by Naval Publications and Forms Center Directorate Philadelphia. Request for the specification should be submitted via the preparing activity of the document. Not all Department of the Army Classified standardization documents are stocked by naval Publications and Forms Center, Directorate, Philadelphia. Army activities requiring classified documents should normally be made aware of the source upon determination of their "need to know". If the source is unknown, submit requests to Commander, U.S. Army Material Command, Attn: AMCRD-IC, 5001 Eisenhower Avenue, Alexandria, VA 22333-0001.

## HOW TO ORDER SPECIFICATIONS AND STANDARDS

### Two Methods of Obtaining Documents

1. Private industry has two ways to obtain standardization documents from the DODSSP subscription to automatic distribution; or on an ad hoc basis. Automatic distribution provides new and /or revised documents on a "push" basis, whereas ad hoc needs are fulfilled on a "pull" basis in that specific document requests are made by private industry to the DODSSP. The method which is best for you is dependent on your needs. If your needs for Military Specifications and Standards documents are infrequent and limited in size, the ad hoc request method is recommended. For document needs on a recurring basis and broader in scope, the automatic distribution method would be best suited for you.

### AD Hoc Requests

2. All ad hoc standardization document requests are handled through an automated system called the Navy Publishing on Demand System (NPODS). NPODS stores most Standardization documents as images on optical discs. As document requests are received, the appropriate document images are retrieved form optical storage and printed "on demand" by high speed laser output devices, packaged and then shipped. For special documents (such as color or oversized) that cannot be optically stored and are warehouse maintained, NPODS retains inventory data for efficient management. NPODS generates status letters to customers if an order cannot be completed as requested. NPODS retains records of completed orders for customer follow-up for a limited time only. No confirmation of orders received/processed is provided.

### COST

Specifications and standards are generally issued to private industry without charge; however, a handling charge may be required for large orders.

### TELEPHONE

The fastest and most accurate way to obtain ad hoc documents is through TeleSpecs (previously called TOES). TeleSpecs is open for business from 7:00 A.M. to 8:00 P.M. Monday thru Friday (Eastern Time). We have twelve telephone lines (215) 697-1187 thru 1198 to serve you.

This automated system is your direct connection to the Navy Publishing on Demand System (NPODS), eliminating mail delays and putting you in control of the document request process. TeleSpecs requires only a touch tone phone, working similar to a bank's customer account information system.

To use TeleSpecs you first obtain a customer number. If you have placed an ad hoc document request within the last several years, a customer number was assigned and was shown on the shipping invoice or the status letter. If you have not been assigned a customer number and you request is urgent, you may obtain one from the Special Assistance Desk, (215) 697-2667/2179. TeleSpecs also allows you to receive immediate status or follow up on a previous order.

TELESPECS DOCUMENT ORDERING HINTS

Substitute the numbers "7" and "9" for letters "Q" or "Z" not found on touch tone phone. Example: to order MIL Q 9858, input MIL 7 9858.

Eliminate all document identifier special characters such as slashes, dashes, periods.

On-Line "Assistance Help" is available at any time during the call by pressing # key.

Maximum of 5 document requests per order.

Eliminate document identifier revision level as system always supplies current version. Example: input MIL STD 1840A as MIL STD 1840.

If a document cannot be furnished as requested, TeleSpecs provides on-line status only, i.e., no status letters are provided.

MAIL OF FAX

Requests may also be made by mail or FAX in any form, although we prefer to receive requests on the DOD Specification and Standards order form (DD Form 1425) or company letter head. Every order shipped will include a blank copy of the ordering form.

All requests shall include the following information:

1. Your assigned customer number or your CAGE (Commercial And Government Entity) number (formerly FSCM). If this is your first order and you do not have a CAGE number, a customer number will be assigned for future orders.

2. Indicate your complete mailing address, including any specific information required to identify and direct the order when received.

3. List each desired specification or standard by document identifier as recorded in the Department of Defense Index of Specifications and Standards (DODISS), e.g., MIL STD, MS, QPL, etc. document titles are also helpful.

4. Indicate the quantity desired. The maximum quantity issued per item is five (5).

5. Reproduction of Specifications and Standards

Firms desiring to reproduce and redistribute unclassified and unrestricted specifications and standards may do so without reference to the Navy Department or any other element of the Department of Defense since these documents are in the public domain.

Mail order to:

DODSSP
Standardization Document Order Desk
700 Robbins Avenue, Bldg. 4D
Philadelphia, PA 19111-5094

FAX:

(215) 697-2978

TURNAROUND TIME

Document requests or status letters produced from mail and FAX requests are usually shipped within 1 to 5 days of request receipt. Because requests placed through TeleSpecs or FAX reach the DODSSP faster, turnaround is less than mailed requests. Orders are shipped from the DODSSP by several different carriers, depending on factors such as weight and destination. Be sure to allow 1 to 2 weeks for shipping.

IMPORTANT ORDERING INFORMATION FOR ALL AD HOC REQUESTS

Only the specification requested will be issued. Documents referenced within a specification must be requested individually.

All amendments and revisions will be automatically issued with the basic specification.

When submitting multiple mail requests, place the mailing address on each request form.

If handwritten requests are to submitted, please use black or dark blue ink only.

Specification sheets, such as MIL-E-1/306 must be individually requested by document number. Specification sheets will not be issued as a set.

The DODSSP supplies the current version of the document. Superseded or canceled documents must be requested through the procurement or contracting officer of the military activity citing the need for the document.

Do not submit a request for a specification citing a national stock number of an item covered by the specification. DODSSP has no method to cross reference a national stock number to the applicable specification number.

Non-Government/Industry standards stocked at the DODSSP are not available to private industry and must be ordered form the preparing technical societies.

The DODSSP issues only printed documents. We do not maintain microfiche copies of standardization documents for issue.

The DODSSP does not maintain a file of Invitations for Bid. Requests for Proposals, contracts, etc., so each individual request must list the document identifier desired.

## Automatic Distribution Subscription Service

A subscription service is available to private industry providing automatic distribution of new and/or revised unrestricted and unclassified standardization documents. Upon payment of a subscription fee, the subscriber will receive one copy each of any new or revised documents for a one year period after the effective subscription date. (Documents ordered prior to the subscription date must be ordered individually using the Ad Hoc request method).

Subscriptions will be accepted on a Federal Supply Class basis for a single class or for as many individual classes as the subscriber chooses. The cost per class is $16.00.

The Catalog Handbook H2-1 lists all Federal Supply Classes according to subject (example: under group 47, the title of FSC 4710 is "Pipe and Tube"). Copies of this publication can be obtained at no charge form the Subscription Desk.

A subscription service is available to private industry providing automatic distribution of new and/or revised unrestricted and unclassified Data Item Description (DID's). Upon payment of a subscription fee, the subscriber will receive one copy each of any new or revised documents for a one year period after the effective subscription date. (AMSDL 5010.12L the index that list all active and cancelled DID's is included with this subscription). The AMSDL 5010.12L is issued twice a year with notices as needed. The cost is $16.00 per year.

## The Procedure

The simple procedure for submitting a subscription request is simple:

1. Address your request in letter form, to the Subscription Services Desk address.

2. List the desired Federal Supply Class(es) or Area Assignment(s).

3. Enclose a check or money order (do not send cash) payable to DPSDO, Philadelphia for $16.00 for each Federal Supply Class desired.

The Catalog Handbook H2-1 lists all Federal Supply Classes according to subject (example: under Group 47, the title of FSC 4710 is "Pipe and Tube"). Copies of this Publication can be obtained at no charge from the Subscription Desk.

Mail Subscription Request to :

DODSSP
Subscription Services Desk
700 Robbins Avenue, Bldg. 4D
Philadelphia, PA 19111-5094

Phone:

(215) 697-2569

For further information about or questions concerning subscription services, contact the Subscription Services Desk.

Contractors using the subscription service are not relieved of any responsibilities in complying with military contracts.

Special Assistance desk is available Monday thru Friday 7:30 A.M. to 4:30 P.M. (Eastern Time) to assist you in matters such as:

Inquiries about our services;
Status of orders previously placed;
Establishing a Customer Account;
Sources for documents not at the DODSSP;
Researching special requests, such as obtaining a complete set of documents; and
Assistance determining document identifiers.

We are also interested in your comments about the quality of our service, and any suggestions you may have to assist us in making future improvements to serve you better. Comments or suggestions may be forwarded to the following address:

Special Assistance Desk
(215) 697-2667/2179)
Note: Orders not accepted on these lines.
7:30 A.M. to 4:30 P.M.
