A. Mission Description and Budget Item Justification

The National Cyber Security Initiative will foster a revolution in the Nation's ability to protect and defend its cyber operations. DARPA's responsibility as part of the overall Cyber Security Initiative (CSI) is to create a cyber test range that will become a National resource for testing the resiliency of cyber programs in the face of hostile action. The Cyber Range will be capable of supporting multiple, simultaneous, segmented tests in realistically configured or simulated testbed environments.

Description: The goal of the Cyber Security Initiative was to revolutionize the Nation's ability to conduct cyber operations by developing a persistent and cost-effective cyber testing environment. The National Cyber Range (NCR) program developed a network testbed that allows for research experimentation on diverse hardware and software topologies to produce qualitative and

quantitative assessments of cyber security research and development programs through a safe, instrumented experimentation environment. The range is designed to replicate complex, heterogeneous networks. It will revolutionize cyber testing to enable efficient cyber experimentation and facilitate realistic testing of tools and techniques to enable high fidelity assessments of cyber tools and techniques and the rapid transition of research programs to operations. This program is available for leverage or use by all Federal Government organizations. FY 2012 Accomplishments: - Completed NCR prototype testing and cyber experimentation. - Continued to develop and test relevant technologies to improve the functionality of the NCR. - Initiated transition of the NCR to the Test Resource Management Center (TRMC). FY 2013 Plans: - Complete transition of the NCR to TRMC.
