A. Mission Description and Budget Item Justification

In accordance with Title 10 United States Code, Section 2350a, this Program Element (PE) provides funding for research and development (R&D) programs with approved allies under international agreements. These funds can only be applied to work efforts in the U.S., and the Under Secretary of Defense, Acquisition and Technology and Logistics (USD, AT&L) must approve each international agreement. The program provides funds for multiple projects under separately approved international agreements as well as funds that support the establishment of such agreements. Each international agreement is summarized in a separate Summary Statement of Intent (SSOI) that also states why the project serves to increase the defense capabilities of the U.S. The SSOI is used to obtain Project approval by the Department of the Navy and the Office of the Secretary of Defense.

This program historically does not meet established execution benchmarks. NATO R&D cooperative programs differ from other Research, Development, Test and Evaluation (RDT&E) programs because issuance of funding from this PE coincides with the signature of international agreements. These signatures occur throughout the fiscal year and often encounter unexpected delays during the staffing and negotiation phases of agreement processing prior to signature.

B. Program Change Summary (\$ in Millions)	FY 2010	FY 2011	FY 2012 Base	FY 2012 OCO	FY 2012 Total

A. Mission Description and Budget Item Justification											
In accordance with Title 10 U.S. Code Section 2350a, this project provides funding for research and development projects with approved allies under international agreements. These funds can only be applied to work efforts in the U.S., and the Office of Secretary of Defense must approve each international agreement. The program provides funds for multiple projects under separately approved international agreements as well as funds that support the establishment of such agreements. Each international agreement is summarized in a separate SSOI which also states why the project serves to increase the conventional defense capabilities of the U.S. The SSOI is used to obtain project approval by the Department of the Navy and the Office of the Secretary of Defense.											
B. Accomplishments/Planned Programs (\$ in Millions, Article Quantities in Each)								FY 2010	FY 2011	FY 2012	
Title: NATO Cooperative R & D								9.804	9.196	9.140	
Articles:								0	0	0	
FY 2010 Accomplishments:											
- Continued to plan and/or support approved cooperative projects.											
- Continued support for Advanced Non-Acoustic Sensing Technologies cooperative project between the U.S. and Sweden.											
- Continued support for the Defensive Aids Suite/Next Generation Torpedo Defense cooperative project between the U.S. and the U.K.											
- Continued support for Enhancing and Validating the Dynamic System Mechanics Advanced Simulation (DYSMAS) to meet Emerging Modeling and Simulation Changes cooperative project between the U.S. and Germany.											
- Continued support for the Failure Prediction of Composite and Hybrid Naval Structures (DYCOSS-3D) cooperative project between the U.S. and the Netherlands.											
- Continued support for the Surface Combatant Aluminum Structure Design cooperative project between the U.S., Finland and Germany.											
- Continued support for the Submarine Hydrodynamics Maneuvering & Control cooperative project between the U.S. and the U.K.											
- Continued support for Torpedo Guidance and Control; False Targets cooperative project between the U.S. and the U.K.											
- Completed support for the Next Generation Infra-Red Search and Track (NGIRST) project among the U.S. and multiple nations.											
- Completed support for the Coalition Maritime Missile Defense Battle Management C4I (BMC4A PA2) Architecture Definition cooperative project between the U.S. and multiple nations.											
- Initiated support for the Submarine Sonar Telemetry cooperative project between the U.S. and the U.K.											
- Initiated support for the Defensive Aids Suite project between the U.S. and the U.K.

B. Accomplishments/Planned Programs (\$ in Millions, Article Quantities in Each)		FY 2010	FY 2011
- Initiated support for the Advanced Electromagnetic Silencing project between the U.S. and the U.K. - Initiated support for the Submarine Communication Buoy project between the U.S. and the U.K. - Initiated support for the Maritime Missile Defense Modeling and Simulation Synthetic Interoperability Testing and Evaluation (Site) cooperative project between the U.S. and multiple nations. - Planned support for the Alternate Material Propeller cooperative project between the U.S. and Australia. - Planned support for the Coalition Distributed Engineering Plant Baseline Architecture (CDEP-BA) cooperative project between the U.S. and multiple nations. - Planned support for the Coalition Network for Secure Information Sharing (CoNSIS) cooperative project between the U.S. and multiple nations. - Planned support for the Six Degrees of Freedom (6DOF) Amendment 1 cooperative project between the U.S. and Italy. - Planned support for the Submarine Advanced Autopilot project between the U.S. and U.K. - Planned support for the Ice Capable Surface Combatant project between the U.S. and Finland. - Planned support for the Ultra Heavy-Lift Amphibious Connector (UHAC) project between the U.S. and Singapore. FY 2011 Plans: - Continue to plan and/or support FY10 approved cooperative projects less those noted as completed above. - Plan support for the Submarine Composite Structures project between the U.S. and the U.K. - Plan support for the Fiber Optic Mini Acoustic project between the U.S. and Australia. - Plan support of Ballistic Missile Defense Open Architecture Research project between the U.S. and Japan. FY 2012 Plans: - Continue to plan and/or support FY11 approved cooperative projects.			
Accomplishments/Planned Programs Subtotals		9.804	9.196
C. Other Program Funding Summary (\$ in Millions)			
N/A			
D. Acquisition Strategy			
Not applicable.			
E. Performance Metrics			
The intent of the North Atlantic Treaty Organization (NATO) cooperative R&D program is to provide "start-up" funds for projects seeking allied contributions into cooperative research and development projects with the U.S. The primary metric used in the program is foreign contributions into projects supported by the program. The performance goal is met if total foreign contributions into projects exceed total NATO cooperative R&D program funds by over 100%.
