^{##} The FY 2014 OCO Request will be submitted at a later date												
Note												
FY14 funding decrease to support higher priority efforts.												
A. Mission Description and Budget Item Justification												
This Program Element (PE) develops and demonstrates selected technology enabled capabilities to support advanced ground and aviation systems, precision weapons, and soldier equipment. Funding facilitates demonstration of relatively mature technologies and systems in relevant environments and tactical / operational scenarios, taking technologies through and beyond Technology Readiness Level (TRL) 6. Efforts include competitive prototyping earlier in development to facilitate transition of new capabilities into acquisition programs of record. Efforts funded will be selected by an Army Senior Executive Steering Group to ensure that demonstrations have high potential for filling capability gaps and transition. This PE provides the Army an improved mechanism for fulfilling the goals of the Weapon Systems Acquisition Reform Act (WSARA) of 2009 by enabling greater competition in the latter stages of technology maturation and establishes a closer alignment between Science and Technology (S&T) programs and acquisition programs. This PE also provides analytical support for Analysis of Alternatives (AoA). It is used to centrally funds AoAs for new program starts that require an material development decision and do not yet have a Program Manager assigned for material development.												
The cited work is consistent with the Assistant Secretary of Defense, Research and Engineering science and technology priority focus areas and the Army Modernization Strategy.												
Work in this PE is performed by the Research, Development and Engineering Command (RDECOM), Engineering Research Development Center (ERDC), U.S. Army TRADOC Analysis Center (TRAC), U.S. Army Material Systems Analysis Activity (AMSAA), and/or Space and Missile Defense Command (SMDC).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## The FY 2014 OCO Request will be submitted at a later date												
Note N/A												
A. Mission Description and Budget Item Justification												
This Project develops and demonstrates selected technology enabled capabilities to support advanced ground and aviation systems, precision weapons, and soldier equipment. Funding facilitates demonstration of relatively mature technologies and systems in relevant environments and tactical/operations scenarios, taking technologies through and beyond Technology Readiness Level (TRL) 6. Efforts include competitive prototyping earlier in development to facilitate transition of new capabilities into acquisition programs of record. Efforts funded will be selected by an Army Senior Executive Steering Group (ESG) to ensure that demonstrations have high potential for filling capability gaps and transitioning. This PE provides the Army an improved mechanism for fulfilling the goals of the Weapon Systems Acquisition Reform Act (WSARA) of 2009 by enabling greater competition in the latter stages of technology maturation and establishing a closer alignment between Science and Technology (S&T) programs and acquisition programs. This project also provides analytical support for AoAs in FY 13. To qualify for funding, a material development decision will be required. The cited work is consistent with the Assistant Secretary of Defense, Research and Engineering science and technology priority focus areas and the Army Modernization Strategy.												
Work in the PE is performed by the Research, Development and Engineering Command (RDECOM), Engineering Research Development Center (ERDC), the Space and Missile Defense Command (SMDC), U.S Army TRADOC Analysis Center (TRAC) and U.S. Army Materiel Systems Analysis Activity (AMSAA).												
B. Accomplishments/Planned Programs (\$ in Millions, Article Quantities in Each)									FY 2012	FY 2013	FY 2014	
Title: Design, Fabricate, Evaluate, and Demonstrate									8.339	13.997	46.116	
									0	0		
Description: This effort selects technologies in advanced ground systems, aviation systems, precision weapons, and/or soldier equipment that show high promise for achieving full potential to execute the necessary continuation of design, fabrication, evaluation, and demonstration within a high fidelity and realistic operating environment to transition into formal programs of record.												
FY 2012 Accomplishments:												

UNCLASSIFIED

Exhibit R-2A, RDT&E Project Justification: PB 2014 Army		DATE: April 2013	
APPROPRIATION/BUDGET ACTIVITY 2040: <i>Research, Development, Test & Evaluation, Army</i> BA 4: <i>Advanced Component Development & Prototypes (ACD&P)</i>		R-1 ITEM NOMENCLATURE PE 0604115A: <i>TECHNOLOGY MATURATION INITIATIVES</i>	PROJECT DS3: <i>TECHNOLOGY MATURATION INITIATIVES</i>
B. Accomplishments/Planned Programs (\$ in Millions, Article Quantities in Each)		FY 2012	FY 2013
Initiated five technology maturation and/or prototyping efforts: Integrated Soldier Power and Data Systems (\$1.4 million); Azimuth and Vertical Angle Module (AVAM) for the Joint Effects Targeting System (\$1.9 million); Next Generation Wireless Communications for Logistics (\$1.9 million); Tier 1 Soldier Battery Charger (\$1.1 million); and Advanced Weapon Sight Technology for Family of Weapon Sights (\$1.9 million).			
FY 2013 Plans: Matures five technology-enabled capability prototyping efforts initiated with FY12 funds; develops test parameters and assessment criteria and transitions these efforts to Programs of Record. Initiates five technology maturation and/or prototyping efforts: Small Aperture X-Band Antenna (SAXBA)-Broadband; Common Fire Extinguishing System; Efficient Power Takeoff; High Performance Lightweight Track; Load-Distributing Expandable Armor System (LEXAS).			
FY 2014 Plans: Will mature one or more technology-enabled capability maturation/prototyping efforts initiated with FY13 funds; will develop test parameters and assessment criteria and transition these efforts to Programs of Record. Will select one or more technology maturation/prototyping efforts and initiate with FY14 funds			
Title: Analytical Support for Analysis of Alternatives (AoA) Articles: Description: This effort provides FY 13 analytical support for Analysis of Alternatives (AoA). FY 2013 Plans: Centrally fund the analysis of alternatives for new programs that have a material development decision.		0.000	10.871 0
Accomplishments/Planned Programs Subtotals		8.339	24.868
C. Other Program Funding Summary (\$ in Millions) N/A Remarks D. Acquisition Strategy Multiple competitive contracts will be awarded based on selection of efforts from the Senior ESC. The various developmental programs in this project will continue to exercise competitively awarded contracts using best value source selection procedures. E. Performance Metrics Performance metrics used in the preparation of this justification material may be found in the FY 2010 Army Performance Budget Justification Book, dated May 2010.

A. Mission Description and Budget Item Justification This effort provides analytical support for Analysis of Alternatives (AoA). To qualify for funding a material development decision will be required and none of the funds can be obligated or expended to initiate an AoA without 30-day prior notification to the Congressional Defense Committees identifying the purpose of the AoA and certifying its full funding. Work in the PE is performed by U.S. Army TRADOC Analysis Center (TRAC) and the U.S. Army Materiel Systems Analysis Activity (AMSAA).
