| Note                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                 |         |                      |              |                                                            |               |         |         |         |                  |                  |            |
| In FY 2012, Project 65412A, Life Support Systems, two projects were terminated: Modular Aircrew Common Helmet (MACH) and Flash Blindness Goggles. Funds were realigned from MACH, Flash Blindness Goggles, and Body Armor System to support an Urgent Operational Need (UON) for development of a Ballistic Aircrew Helmet. This Air Forces Central UON was validated by Air Combat Command in May 2012.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                 |         |                      |              |                                                            |               |         |         |         |                  |                  |            |
| In FY 2014, Project 65412A, Life Support Systems, includes a New Start for Aircrew Laser Eye Protection Block III.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                 |         |                      |              |                                                            |               |         |         |         |                  |                  |            |
| A. Mission Description and Budget Item Justification                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                 |         |                      |              |                                                            |               |         |         |         |                  |                  |            |
| This Program Element (BPAC 65412A) provides recapitalization, continuing research and analysis, development, integration, test and certification for aircrew flight equipment and airmen combat systems to satisfy joint operational requirements focused on improved and enhanced airmen performance capabilities. Aircrew flight equipment and airmen combat systems consist of human-centered programs that enable weapon systems to optimize full mission envelopes, maximize combat capabilities, and protect airmen. Such efforts include, but are not limited to, the following projects: directed energy protective equipment; flight helmets and visors; oxygen breathing systems for aircrew; radios and locator beacons; support equipment; nuclear flash blindness protection; night vision devices; noise reduction devices; anti-g suits; flame resistant, retardant and blast protective gear; aircraft seating; impact protection equipment; flotation devices; parachutes; ejection seats; and other life support systems required by the warfighter. This project assesses deficiencies and conditions of currently fielded equipment; evaluates and demonstrates feasibility of new technologies; facilitates transition of new technologies to development programs; conducts business case analyses; assesses suitability of commercially available items; and provides other RDT&E support to aircrew flight equipment and airmen combat systems programs. |                 |         |                      |              |                                                            |               |         |         |         |                  |                  |            |
| BA5 - This program is in Budget Activity 5, Engineering and Manufacturing Development (EMD) because it has passed Milestone B approval and is conducting engineering and manufacturing development tasks aimed at meeting validated requirements prior to full-rate production.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                 |         |                      |              |                                                            |               |         |         |         |                  |                  |            |

| Description: This project is a small-dollar, generic effort that evaluates the feasibility of using commercial-off-the-shelf (COTS) and non-developmental item technologies for life support equipment capabilities that may/may not require robust Engineering and Manufacturing Development. The current effort under the AFE project is a COTS Low Profile Parachute (LPP), which aims to replace antiquated Vietnam-era flight equipment to meet Air Force Special Operation Command requirements. The AFE project may include tasks associated with equipment engineering, modification, integration, testing, and procurement of test articles for certification. |  |                                                            |         |                  |             |               |
| FY 2012 Accomplishments:<br>Conducted analysis and testing of LPP at Edwards AFB.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  |                                                            |         |                  |             |               |
| FY 2013 Plans:<br>Complete testing at Edwards AFB; provide safe-to-fly certifications for users.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |                                                            |         |                  |             |               |

| <b>Title:</b> Integrated Aircrew Ensemble (IAE)<br><br><b>Description:</b> This effort develops an IAE to replace the existing aircrew flight ensemble to improve acceleration protection and mitigate thermal burden. An IAE will replace multiple layers of flight gear such as flight suit, G-suit, survival vest and other equipment used during flight operations. This IAE will improve safety, survivability and performance through the use of modern materials to address the full spectrum of aircrew requirements.<br><br><b>FY 2012 Accomplishments:</b><br>Completed preliminary design review; developed and tested multiple garment layers; redesigned integrated flight layer.<br><br><b>FY 2013 Plans:</b><br>Complete Critical Design Review; continue Developmental Testing and Evaluation (DT&E); complete component level testing; start system level testing.<br><br><b>FY 2014 Plans:</b><br>Continue DT&E; conduct Milestone C decision prior to Low Rate Initial Production. |  | 4.755                                                                    | 7.406          | 3.106          |

| <b>Title:</b> Aircrew Laser Eye Protection (ALEP) Block III - New Start<br><br><b>Description:</b> This effort develops capabilities to protect aircrew members susceptible to the harmful effects of visible threats, i.e., hazardous lasers. It specifically improves upon ALEP Block II (spectacles) capability through development of a visor solution.<br><br><b>FY 2012 Accomplishments:</b><br>N/A<br><br><b>FY 2013 Plans:</b><br>N/A<br><br><b>FY 2014 Plans:</b><br>Initiate Requests for Information; undergo market research; accomplish Business Case Analysis and Analysis of Alternatives.                                                                                                                                                                                                                                                           |  | 0.000                                                                    | 0.000          | 1.000          |
| <b>Title:</b> Ballistic Helmet Urgent Operational Need<br><br><b>Description:</b> This effort provides capability in support of an Air Forces Central (AFCENT) Urgent Operational Need (UON) for improved ballistic protection for aircrew members. The ballistic helmet will replace existing HGU-56/P helmets used for rotary aircrew. The design will factor impact protection, weight trade-offs and integration with sensors, visor-mounted displays and existing devices required for Combat Search and Rescue operations.<br><br><b>FY 2012 Accomplishments:</b><br>Conducted course of action (COA) planning, market research; industry studies, and COA selection; initiated contract awards for prototype development, delivery and testing.<br><br><b>FY 2013 Plans:</b><br>Finish test and evaluation; provide production recommendation to warfighter. |  | 0.075                                                                    | 0.150          | 0.000          |

| <b>E. Acquisition Strategy</b><br>The majority of efforts funded in this project employ a streamlined acquisition approach. Whenever practical, GOTS/COTS items are tested and evaluated as candidates for solutions to user needs. This normally involves characterization, verification, and qualification testing to ensure GOTS/COTS equipment is properly certified and adapted for military purposes. However, acquisition strategies may be carried out at the project level for traditional EMD, e.g., IAE and ALEP Block III. |                |                |                         |                        |                                                                   |                |                |                |                |                             |                   |         |
| <b>F. Performance Metrics</b><br>Please refer to the Performance Base Budget Overview Book for information on how Air Force resources are applied and how those resources are contributing to Air Force performance goals and most importantly, how they contribute to our mission.                                                                                                                                                                                                                                                    |                |                |                         |                        |                                                                   |                |                |                |                |                             |                   |         |
