**Program MDAP/MAIS Code:** 198

**A. Mission Description and Budget Item Justification**

The F-35 Joint Strike Fighter (JSF) Program will develop and field an affordable, highly common family of next generation strike aircraft for the United States Navy, Air Force, Marine Corps and allies. The three variants are the F-35A Conventional Takeoff and Landing; F-35B Short Take Off and Vertical Landing; and the F-35C Aircraft Carrier suitable variant. Maximum commonality among the variants, consistent with National Disclosure Policy, will minimize life cycle costs. As Initial Operational Capability (IOC) delivers for each variant during System Development and Demonstration (SDD), planning and initial systems engineering for the Follow-on Development (FoD) continues.

FoD capability requirements were initiated through ongoing Service-led operational analysis of warfighting gaps identified in the Fifth Generation Fighter Modernization Initial Capabilities Document (ICD), and through F-35 JSF Program Block 4 Mission Decomposition analysis completed in FY2014. These analyses serve as basis for the F-35 FoD Block 4 Capabilities Development Document (CDD), staffed through the Air Force Requirements Oversight Council (AFROC) and signed by the USAF Chief of Staff in January 2015. JROC approval of the CDD is expected in FY2016. Pre-modernization activities in FY2016 and FY2017 include systems engineering, risk reduction, and FoD facility upgrades to support an initial Block 4 fleet availability in 2020.

The United Kingdom, Italy, Netherlands, Turkey, Canada, Australia, Denmark and Norway are participants in F-35 modernization. The program shown here reflects USN, USMC, USAF, and International Partner funding. Funding at the accomplishment/planned program level is reported as the total of all service and partners as these activities support all aircraft variants. Foreign Military Sales are ongoing separately.

**Change Summary Explanation**

Schedule changed to reflect direction resulting from Material Development Decision (MDD) and receipt of F-35 Lightning II Joint Strike Fighter Block 4 Acquisition Decision Memorandum (19 August 2015). As a result the schedule changes were:

Requirements: Final CDD (JROC) changed from 1st Quarter 2016 to 3rd Quarter 2016 start to end

Acquisition: EMD RFP Decision changed from 1st Quarter 2016 to 3rd Quarter 2016 start to end

Acquisition: EMD RFP Contract Decision changed from 2nd Quarter 2017 to 3rd Quarter 2017 start to end

Contracting: Pre-EMD Requirements Development (Phase 1) changed from 4th Quarter 2015 to 1st Quarter 2016

Contracting: Pre-EMD Requirements Development (Phase 2) changed from 1st Quarter 2016 to 2nd Quarter 2016

Systems Engineering: Initial Preliminary Design Review (PDR) changed from 1st Quarter 2017 to 3rd Quarter 2017

Systems Engineering: Initial Preliminary Design Review (PDR) changed from 1st Quarter 2017 to 3rd Quarter 2018

Systems Engineering: Initial Preliminary Design Review (SRR) changed from 2nd Quarter 2016 to 4th Quarter 2018

Test & Evaluation: 4.1 Test changed from 1st Quarter 2019 to 3rd Quarter 2020

UNCLASSIFIED

<b>Exhibit R-2, RDT&amp;E Budget Item Justification:</b> PB 2017 Navy		<b>Date:</b> February 2016

Test & Evaluation: 4.2 Test changed from 1st Quarter 2021 to 4th Quarter 2021		
<p>Follow-on Development (FoD) Block 4 schedule updated to reflect incremental fielding strategy focused on software-focused fleet releases of capability every two years and software plus hardware-focused fleet releases of capability every four years. Based on direction provided in current Block 4 Acquisition Decision Memorandum, the Planning and Systems Engineering phase leading up to a Block 4 system Preliminary Design Review (PDR) was updated to 3rd Quarter FY2017. The Modernization Request for Proposal (RFP) Release Decision Point and Contract Award dates were also updated to account for the program planning, requirements decomposition and systems engineering activities leading up to successful completion of these events.</p> <p>Program Changes: FY2017 Decrease: -\$6.052M was to account for the availability of prior year execution balances. -\$40.000M was for proper program alignment and funding for higher USMC priorities.</p>

**Note**

Total cost, including International partner contributions, USN, USMC, and USAF funding: FY2015 \$59.045M; FY2016 \$125.211M; FY2017 \$382.151M

R-2A table shown above reflects service funding only.

R-2A (section B)/R-3 displays combined program for JSF Follow-on Development (FoD)

JSF FoD Includes:

USAF PE 0207142F BPAC 675346

USN PE 0604810N Project Unit 2936

USMC PE 0604810M Project Unit 2935

USN PE 0604800N Project Unit 9999(FY14): \$1.500M

USMC PE 0604800M Project Unit 9999 (FY14): \$1.500M

International Partner Contributions

**A. Mission Description and Budget Item Justification**

F-35 FoD provides continuing incremental upgrades of the three F-35 variants and associated ground equipment. Upgrades are essential mission improvements for Air Interdiction and Strategic Attack, Close Air Support, Suppression and Destruction of Enemy Air Defenses, Offensive and Defensive Counter Air and expanded Surface Warfare. The Block 4 acquisition strategy is based upon incremental deliveries of capabilities in 4 sub-blocks. The strategy includes deliveries on a two year cycle with a focus on hardware and tech refresh change every four years. FoD capability planning includes an efficient transition from F-35 SDD to Follow-on Development. As SDD development activities ramp down, the FoD will assume responsibility for improvements and modernization efforts. Block 4 capability planning includes Block 4.1 through 4.4 modernization efforts with initial increment of capability available in 2020 and subsequent releases every two years.

**Remarks**

This is a joint program with no executive service. Service Acquisition Executive (SAE) authority alternates between the Department of the Navy and the Department of the Air Force and currently resides with the Navy. Program Element 0604800N/0604800M continues USN development efforts budgeted in 0603800N prior to FY2002. The United Kingdom, Italy, Netherlands, Turkey, Canada, Australia, Denmark, and Norway are participants in the SDD phase of JSF.

**D. Acquisition Strategy**

To enable the ability to adjust to potential discrepancies discovered during SDD Block 3 Test and Evaluation, the engineering and development planning support for FoD will be procured under a cost type contract. A fee provision will be used to target and motivate contractor performance. A separate Basic Ordering Agreement or Indefinite Delivery/Indefinite Quantity contract is planned to provide a long term approach to upgrading and maintaining laboratories and test aircraft. Both Development Support and Management Services will primarily use CPFF Delivery Orders.

**E. Performance Metrics**

Overall FoD Performance Metrics will reflect Key Performance Parameters established in the F-35 FoD Capability Development Document.
