A. Mission Description and Budget Item Justification

The DAI mission is to deliver auditable Chief Financial Officer (CFO) Act compliant business environments for Defense Agencies providing accurate, timely, authoritative financial data supporting the DoD goal of standardizing financial management practices improving financial decision support, and supporting audit readiness. Currently, Defense Agencies use more than 10 different non-compliant financial management systems supporting diverse operational functions and the warfighter in decision making and financial reporting. These disparate, non-integrated systems do not meet statutory requirements to produce timely, auditable reports.

The DAI program modernizes the Defense Agencies' financial management processes by streamlining financial management capabilities, addressing financial reporting material weaknesses, and supporting financial statement auditability for the majority of agencies and field activities across the DoD. DAI will support a transformation of budget, finance, and accounting processes across participating defense agencies to help improve the quality of financial information, supporting financial auditability and decision making. The DAI business solution, once implemented, will provide a near real-time, web-based system from a ".mil" environment of integrated business processes that will enable in excess of 84,000 Defense Agency financial managers, program managers, auditors, and Defense Finance and Accounting Service (DFAS) representatives to make sound financial business decisions.

The DAI implementation approach is to deploy a standardized system solution that is consistent with requirements in the Federal Financial Management Improvement Act (FFMIA) and the DoD Business Enterprise Architecture (BEA), while leveraging the out-of-the-box capabilities of the selected Commercial-Off-the-Shelf (COTS) product, Oracle e-Business Suite (EBS), version 11i (R11). DAI implemented an Office of Management and Budget Financial Systems Integration Office (FSIO) qualified COTS financial management business solution with common business processes and data standards. The Program Management Office (PMO) will not develop any objects that are included in core COTS software or services (i.e. vendor data from Federal authoritative source).

DAI supports the Quadrennial Defense Review (QDR) Strategy 5, "Reform the business and support functions of the Defense enterprise". DAI is also aligned to the FY 2014/FY 2015 DOD Strategic Management Plan Business Goal 2: "Strengthen DoD financial management to respond to warfighter needs and sustain public confidence through auditable financial statements". The objective of the Defense Agencies Initiative is to achieve auditable, CFO Act compliant business environments for the Defense Agencies with accurate, timely, authoritative financial data.

UNCLASSIFIED

Exhibit R-2A, RDT&E Project Justification: PB 2016 Defense Logistics Agency		Date: February 2015
Appropriation/Budget Activity 0400 / 5	R-1 Program Element (Number/Name) PE 0605080S / <i>Defense Agency Initiatives (DAI) - Financial System</i>	Project (Number/Name) 1 / <i>Defense Agency Initiatives (DAI) - Financial System</i>
The primary goal is to deploy a standardized system solution to improve overall financial management and comply with BEA, Standard Financial Information Structure (SFIS), and Office of Federal Financial Management (OFFM) requirements. Common business functions within budget execution include the Department's BEA End to End (E2E) business processes: Cost Management; Budget to Report; Procure to Pay; Acquire to Retire (real property lifecycle accounting only); Hire to Retire (Time and Labor reporting only); and Order to Cash. Future capabilities will support Defense Working Capital Fund accounting, Budget Formulation, Grants Financial Management, and Re-Sale Accounting (for Defense Commissary Agency (DeCA)) as well as a Contract Writing capability. DAI is currently implemented at 11 Defense Agencies and the Office of the Under Secretary of Defense, Comptroller, (OUSD(C)) (Time and Labor only) and supporting over 9,200 users. In addition, since Oracle is phasing out maintenance of Oracle EBS, Release 11i, the program is required to migrate to EBS Release 12 (R12). The program office is also responsible for operational sustainment of the system. Funds are required for additional government and contractor support, licenses, maintenance, and hardware to accomplish the remaining capability developments and organizational deployments, complete the R12 upgrade, initiate the annual Statement on Standards for Attestation Engagements (SSAE 16) assertion packages, and sustain the system. The benefits of DAI are: - Common business processes and data standards; - Access to real-time financial data transactions; - Significantly reduced data reconciliation requirements; - Enhanced analysis and decision support capabilities; Standardized line of accounting with the use of SFIS; and - Use of United States Standard General Ledger (USSGL) Chart of Accounts to resolve DoD material weaknesses and deficiencies. The DAI PMO will provide the R12 Upgrade system integration services that include: acquisition management, project management; blueprinting; design, build, and unit test; developing required Reports, Interfaces, Conversions, Extensions, Forms and Workflows (RICEFW) objects; testing (information assurance, integration, functional, performance, conversion, security, user acceptance, operational); end-user training (train the trainer/change management preparing the users for the cross functional skills and awareness needed to perform well with an integrated enterprise resource planning system); system deployment; conversion; information assurance; sustainment; data service; help desk support; as well as studies and analysis support.		
B. Accomplishments/Planned Programs (\$ in Millions)		
Title: Defense Agency Initiatives (DAI) - Financial System		
FY 2014 Accomplishments: In FY14, the DAI PMO procured new user licenses and Technology Software Licenses. DAI was granted Authority to Operate (ATO) from the Designated Accrediting Authority. The PMO developed a Release 1 Workforce Preparation Strategy; R12 Analysis/ Planning and Reporting Strategy Definition; and a study of hardware hosting options. A plan for a Test & Development

Appropriation/Budget Activity 0400 / 5	R-1 Program Element (Number/Name) PE 0605080S / <i>Defense Agency Initiatives (DAI) - Financial System</i>	Project (Number/Name) 1 / <i>Defense Agency Initiatives (DAI) - Financial System</i>	
B. Accomplishments/Planned Programs (\$ in Millions)		FY 2014	FY 2015
(T&D) environment at DISA Defense Enterprise Computing Center (DECC) Mechanicsburg, PA was initiated. A Release 1 pre-deployment planning and Business Process Reengineering (BPR) was conducted, as well as, Release 1 Systems Engineering (SE) Technical Reviews. Five Release 1 simulation mocks with the agencies were conducted. The DAI PMO also conducted R12 Analysis/ Planning and Pre-Deployment planning at using/projected new Defense Agencies . Received DAI Release 3.0 Joint Interoperability Certification. Awarded an Acquisition Milestone B decision by Acquisition Decision Memorandum (ADM) April 18, 2014 and an Acquisition Program Baseline on July 7, 2014. Received Full Deployment Decision Criteria by ADM on 28 September, 2014. Successfully completed first independent audit, Statement of Standards for an Attestation Engagement (SSAE), No. 16 report, with a qualified opinion – only 3 Notices of Finding. Successfully completed an independent review of 1,026 applicable Federal Financial Management Improvement Act (FFMIA) requirements – 96% compliant. Successfully completed an independent Federal Information System Controls Audit Manual (FISCAM) Test of Design/Test of Effectiveness. FY 2015 Plans: In FY2015, the PMO will: • Conduct Business Process Re-engineering. • Resolve critical software errors and critical statutory/regulatory enhancements that impact operations and incorporate changes identified during BPR and the Audit generated corrective action plans. • Conduct BEA version 12.0 compliance assessment. • Support the DIACAP process maintaining activity to support actions included in the DAA required POA&M resulting in a decision to award an Authority to Operate. • Conduct testing to include: unit testing on developed items; monthly release testing that includes regression; annual release development testing that includes a SIT and UAT; Oracle R12 upgrade developmental testing including a SIT and UAT; as well as an operational test event in conjunction with DOT&E following the annual release at using Defense Agencies. • Develop ability to send/receive the Department's Purchase Request and Procurement Data Standards (PRDS/PDS). • Conduct contract renewal competitions and exercise options on existing contracts and monitor contractor performance and billing. • Migrate all existing DAI users and their data to the DAI Increment 2 DAI production baseline in 2Q FY 2015. • Complete migration of some of the October 2016 deploying Defense Agencies users to DAI Time and Labor. • Conduct October 2016 deploying Defense Agencies implementation activities including data conversion. • Develop, test and release Electronic Funds Distribution (EFD) to DAI production. • Support the Audit Readiness Office in developing service provider assertion packages supporting the SSAE 16 Service SOC 1 Report and resolve any NOFs pertaining to DAI. • Configure Grants Financial Management capability; • Conduct development lifecycle for internal controls automation. • Prepare to migrate and stabilize DAI user base during upgrade to Oracle R12.

Appropriation/Budget Activity 0400 / 5	R-1 Program Element (Number/Name) PE 0605080S / Defense Agency Initiatives (DAI) - Financial System	Project (Number/Name) 1 / Defense Agency Initiatives (DAI) - Financial System		
B. Accomplishments/Planned Programs (\$ in Millions)		FY 2014	FY 2015	FY 2016
• Monitor the operations of the DISA DECCs at Ogden, UT (Production and T&D to include training); Columbus, OH (COOP) and Mechanicsburg (T&D). The PMO operates database servers, application servers and web servers, leveraging the DECC for infrastructure support and host site related IA and internal controls. DECC services are governed by an annually negotiated Service Level Agreement (SLA). The DAI PMO will use the DECC SSAE 16 SOC 1 Report as the basis for its input for the annual DLA SOC 1 Report that Agencies will use in their audits. DECCs maintain all the operations software and hardware in the suite. • Maintain currency with existing Federal, DFAS and target Enterprise systems including the SAM web services, as SAM assumes the functionality of the Federal Integrated Acquisition Environment (IAE) systems. • Maintain the DAI master data leveraging feeds from the authoritative data sources. • Maintain a sufficient Information Assurance posture and support the DIACAP process maintaining activity to support actions included in the Designated Approval Authority required actions included in the POA&M including maintaining currency of documentation in EMASS and the VMS. This includes maintaining the operational and application software currency and security patches. • Maintain the program’s DODAF views in accordance with DLA guidance and in DLA systems. • Administer all of the databases: production; T&D/training; and COOP. • Maintain the system configuration leveraging the best of DLA’s Gold Standard for documentation. • Maintain currency with functional policy with regard to function and data standards. • Maintain the technical side of the system including the internal processes and the operation of several interfaces with external systems leveraging DLA Transaction Services as well as established Federal Enterprise system web services. • Maintain and monitor user roles and responsibilities at the system level and guide using Agencies at the Component level. • Conduct an Acquisition In-Process Review (IPR) with the MDA. • Conduct Release 2 Systems Engineering (SE) Physical Configuration Audit (PCA) technical review for new Agency implementation activities FY 2016 Plans: In FY16, the DAI PMO will procure required hardware, software and licenses for new Agency’s personnel. Release 3 gaps will be defined and new RICFW objects will be finalized. Authority to Operate (ATO) and Interoperability Certification will be obtained. Migration of October 2015 Defense Agencies to DAI T&L will be completed. The DAI PMO will develop Release 3 Budget Formulation and Direct Treasury Disbursing, work instructions and training materials and RICEFW objects. Pre-deployment planning and BPR, with new Agencies targeted for Release 3, will be conducted, as well as, new Agency implementation activities’ preparation, Release 3 mocks with the Agencies and Release 4 SE technical reviews. Release 2 SE technical review will be conducted, as well as, deployment of Release 2 software at DISA DECCs and Release 2 T&L to new Agencies.

C. Other Program Funding Summary (\$ in Millions) N/A		
Remarks D. Acquisition Strategy DAI is being developed and implemented using an evolutionary/incremental strategy including major annual software releases to accommodate upgrades as required by changes to the Department's BEA including new laws, regulations and policies as governed by its Functional Sponsor and Milestone Decision Authority (MDA). In the Acquisition Decision Memorandum (ADM) of September 23, 2013, the MDA placed DAI Increment 1 in sustainment. Increment 2 will address the Commercial Off The Shelf (COTS) application upgrade. When the upgrade is completed (January 2015), Increment 2 Release 1 will overwrite Increment 1 for all users.		
E. Performance Metrics The following performance metrics will be performed on the DAI system: Functionality: Financial system performance. PEO will determine substantial compliance with the annual Investment Review of PMO assertion of compliance with the latest version of the Department's BEA in scope requirements for Defense Financial Management Improvement Guidance (DFMIG) and other laws regulations and policy. Objective: Substantial compliance. Program Conformance to BEA Processes, Data Standards, and Business Rules. The PEO will determine substantial compliance with the annual Investment Review of PMO assertion of compliance with the latest version of the Department's BEA. Objective: Substantial compliance. Net Ready Key Performance Parameter (NR-KPP) Attribute (Att) A - Support net-centric DoD military operations Mission: Transform the budget, finance, and accounting operations of the DoD Agencies to achieve accurate and reliable financial information in support of financial accountability and effective and efficient decision making throughout the Defense Agencies in support of the missions of the warfighter. A.1. Budget to Report (B2R). DAI provides General Ledger, Trial Balance, Budget Execution, and Financial Reporting Capabilities. DAI will measure the percentage of successful attempts to: * Generate and transmit Trial Balance Reports. Objective-95%; * Receive budget information from agency-specific systems, to support budget execution. Objective-95%; and * Generate and transmit reports to support period end processing procedures. Objective-95% A.2 Procure to Pay (P2P). DAI provides the capability to Order Materials and Services (Commitments), Record Purchases and Contract Information (Obligations) Pay Bills (Accounts Payable), and Create Ready to Pay File. DAI will measure the percentage of successful attempts to:

* Exchange contract, obligation, receipt and invoice information with external systems to support procurement processes. Objective-95%; * Receive Purchase Card information from external systems to manage government purchase cards (P-Cards). Objective-95%; * Exchange data across agencies to support intergovernmental Purchase Request (PR) processes. Objective-95%; * Receive travel related data from external systems to support travel financial accounting events. Objective-95%; and * Exchange miscellaneous payment information with trading partners. Objective-95%. A.3. Order to Cash (O2C). DAI provides the capability to Receive Customer Orders, Record Work Performed on the orders, Bill Customers, and Track Accounts Receivable. DAI will measure the percentage of successful attempts to: * Exchange data with external systems to support management of customer orders. Objective-95%; * Exchange receivables data with external systems. Objective-95%; and * Manage exchange collections data with external systems. Objective-95%. A.4. Acquire to Retire (A2R). DAI provides the capability to record Asset Acquisition, Depreciation, and Disposal DAI will measure the percentage of successful attempts to: * Receive asset creation information from external systems. Objective-95%; * Accumulate and transmit costs incurred for Capital Assets on Construction in Progress (CIP) and Work in Progress (WIP) projects. Objective-95%; * Generate and transmit property accounting information. Objective-95%; * Receive property maintenance data from external systems. Objective-95%; and * Receive disposal of assets information from external systems. Objective-95%. A.5. Cost Management (formerly Cost Accounting). DAI provides Cost Accounting and Allocation Capabilities DAI will measure the percentage of successful attempts to: * Receive Project Budgets from external systems. Objective-95%; and * Receive cost data to support cost collection processes. Objective-95%. A. 6. Hire to Retire (H2R). DAI provides Civilian, Military, and Contractor Time and Labor capabilities DAI will measure the percentage of successful attempts to: * Exchange employee and timekeeping information with external systems. Objective-95%; and * Process and send payroll data to external systems. Objective-95%. NR-KPP Att B - Managed in the Network 1) Type of Networks that are connected: - The DAI application supports multiple Defense Agencies, and thus is accessible from multiple network points. A typical user accesses the application via the web browser from his/her agency specific LAN/WAN and/or local site firewall configurations, traversing through the Non-Classified Internet Protocol Routing Network (NIPRNet) to reach the secure DAI application hosted within the DoD Demilitarized Zone (DMZ) which is controlled and managed by DISA.
