The FY 2015 OCO Request will be submitted at a later date.

A. Mission Description and Budget Item Justification

Defense-wide Electronic Procurement Capabilities is designed to provide an avenue for the development of increased ebusiness capabilities critical to meet the enterprise-wide needs of the procurement community. The requirement for increased ebusiness capabilities may result from statute, regulation or internal control requirements. This program provides opportunities for the introduction of innovative, time-saving, and cost-saving technologies into procurement processes across the Department. This RDT&E PE provides resources to conduct software development and testing on new or modified ebusiness applications to ensure mature system development, integration and demonstration of production representative systems and capabilities.

• FY 13 CMS Program Congressional Add	16.342	-	-	-	-
• Reduction Adjustments	-	-	-1.632	-	-1.632

Change Summary Explanation

Ref \$16.342M adjustment- In FY13 the Consolidated and Further Continuing Appropriations Act of 2013, signed by the President on March 26, 2013, included a FY13 RDT&E plus up for the Contract Management Services Program this was a one time congressional add for an Ability One Contract Closeout effort that was initiated as a pilot in FY11. The CMS Program increase is to expand the pilot program to close out services for cost-type contracts, and a portion is to be used

A. Mission Description and Budget Item Justification												
Defense-wide Electronic Procurement Capabilities is designed to provide an avenue for the development of increased ebusiness capabilities critical to meet the enterprise-wide needs of the procurement community. The requirement for increased ebusiness capabilities may result from statute, regulation or internal control requirements. This program provides opportunities for the introduction of innovative, time-saving, and cost-saving technologies into procurement processes across the Department. This RDT&E PE provides resources to conduct software development and testing on new or modified ebusiness applications to ensure mature system development, integration and demonstration of production representative systems and capabilities.												
B. Accomplishments/Planned Programs (\$ in Millions)									FY 2013	FY 2014	FY 2015	
Title: Defense-Wide Electronic Procurement Capabilities- Contingency									26.580	6.184	9.546	
FY 2013 Accomplishments: Continued funding will be used to develop an end to end paperless reconciliation process for Government Furnished Property (GFP); develop a data standard for warranty information; ensure that contract systems are modified to send data to personnel and readiness systems to account for logical and physical access to DoD systems; and to fully implement a fraud and misuse data mining detection capability for purchase cards in DoD. These funds will also support development of contingency contracting and financial management business tools for the warfighter that are currently in an immature development stage, or do not exist and to implement initiatives/tools in theater.												
FY 2014 Plans: Continued funding will be used to continue development of an end to end paperless reconciliation process for Government Furnished Property (GFP); continued development of a data standard for warranty information; ensure that contract systems are modified to send data to personnel and readiness systems to account for logical and physical access to DoD systems; and to implement a fraud and misuse data mining detection capability for purchase cards in DoD. These funds will also be used to develop an initial end to end purchase request data standard process (including intergovernmental transactions). Additionally, these funds will support development of contingency contracting and financial management business tools for the warfighter that are currently in an immature development stage, or do not exist and to implement initiatives/tools in theater. Efficiency Reductions

B. Accomplishments/Planned Programs (\$ in Millions)		FY 2013	FY 2014
were taken at 2% per year for PB14 along with additional PB14 adjustments to a total of 3.012M from the original President's Budget. <i>FY 2015 Plans:</i> To mitigate fiscal reductions funding will be focused on the continued development of an end to end paperless reconciliation process for Government Furnished Property (GFP) and to complete implementation of a fraud and misuse data mining detection capability for purchase cards in DoD. These funds will also be used to strengthen existing vendor identification systems in DoD to combat counterfeiting and cyber intrusion. Moderate risk will be taken in reducing efforts to support continued development of contingency contracting and financial management business tools for the warfighter that do not exist, rather funds will focus on improving tools currently in immature development stages, and implement those initiatives/tools in theater. Funds will also focus on developing enterprise mapping capabilities to streamline existing procure to pay exchanges and achieve efficiencies through data standards and auditability in partnership with the Comptroller.

# The FY 2015 OCO Request will be submitted at a later date. A. Mission Description and Budget Item Justification The Synchronized Pre-Deployment and Operational Tracker - Enterprise Suite (SPOT-ES) is the joint enterprise suite of products employed for the management, tracking and visibility of contracted capability and contractors authorized to accompany U.S. forces in support of overseas contingency operations (OCO), humanitarian assistance and disaster relief efforts both domestic and abroad. SPOT-ES assists the Combatant Commander (CCDR) in maintaining awareness of the nature, extent, and potential risks and capabilities associated with the contracted support in contingency, humanitarian or peacekeeping operations, or military exercises designated by the CCDR. As such, SPOT- ES: Serves as the central repository for up-to-date status and reporting on contingency contractor personnel; provides by-name accountability of DoD-funded contingency contractor personnel and other personnel as directed by Public Law, USD (AT&L), or by the CCDR; tracks contract capability information for all DoD-funded contracts supporting contingencies or designated military exercises; contains contract information necessary to establish and maintain accountability and visibility of contractors and contract capabilities for operational contract support.												
B. Accomplishments/Planned Programs (\$ in Millions)										FY 2013	FY 2014	FY 2015
Title: SPOT-ES Contingency										-	-	-
FY 2013 Accomplishments: The SPOT program was transferred from OSD to DHRA/DMDC beginning in FY 2013.

E. Performance Metrics There are a several metrics in-place to monitor the performance of the SPOT-ES system. A comparison between JAMMS scans by individuals and those same individuals registered in SPOT provides a compliance metric. Feedback surveys are used to determine customer satisfaction and user interface issues. Helpdesk metrics are used to determine and usability issues.
