BIBLIOGRAPHY ON  
BOTULISM AND CLOSTRIDIUM BOTULINUM

Published By  
TECHNICAL LIBRARY  
CAMP DETRICK, FREDERICK, MARYLAND  
1 October 1952

\$7.60 (71p)

ASTIA AVAILABILITY NOTICE

Qualified requestors may obtain copies of this document from ASTIA.

This publication has been cleared for release to the general public. Non-DOD agencies may purchase this publication from the Office of Technical Services, U. S. Department of Commerce, Washington 25, D. C.

BIBLIOGRAPHY ON BOTULISM  
AND CLOSTRIDIUM BOTULINUM

	Page
Introduction . . . . .	1
I. General . . . . .	1
II. Clinical Picture. Case Histories . . . . .	2
III. Pathologic Pictures . . . . .	6
IV. Diagnosis & Serology . . . . .	7
V. Clostridium botulinum. Culture. Metabolism. . . . .	11
VI. Botulinum Spores . . . . .	19
VII. Pathogenicity. Experimental Botulism . . . . .	22
VIII. Botulinum Toxin. Production & Purification . . . . .	26
IX. Botulinum Toxin. Physiological Action . . . . .	30
X. Botulinum Toxin. Physicochemical Properties. Toxicity . . . . .	32
XI. Immunization. Toxoids. Antitoxins . . . . .	38
XII. Therapy . . . . .	44
XIII. Epidemiology. Responsible Foods. . . . .	46
XIV. Distribution of Spores in Nature . . . . .	51
XV. Botulism in Animals . . . . .	53
Author Index . . . . .	58

References marked with an asterisk (\*) are those which are available for loan in the Camp Detrick Technical Library. This bibliography is being kept up to date by a file of current references which is available in the library.

This bibliography was compiled from a search of the journal literature covering the years from 1930 to about September 1952, and including many earlier references. Sources of the references were: Agriculture Index, Bibliography of Agriculture, Biological Abstracts, Bulletin of Hygiene, Chemical Abstracts, Current List of Medical Literature, Index Catalogue of the Library of the Surgeon General's Office, Fourth Series, and the Quarterly Cumulative Index Medicus. Reference to an abstract has been made in many cases where the Camp Detrick Technical Library does not have the original paper.

The references have been divided into fifteen subject groupings, and one title has been repeated under as many groups as seemed appropriate. Since many of the titles are not in the Camp Detrick Technical Library, classification of those titles under the subject groups was based only on the title of the paper.

It cannot be claimed that this bibliography contains all papers published during the years covered, but it is hoped that no serious omissions have occurred.

BIBLIOGRAPHY ON BOTULISM  
AND CLOSTRIDIUM BOTULINUM.

I. GENERAL

- Alisov, P. A.; and Hremenko, M. I.
