CONFIDENTIAL

AVCA-ON-GO-0 (13 February 1968)

SUBJECT: Operational Report for Quarterly Period Ending 31 January 1968
(FCS CSFOR-65) (IC: VZ11111)

(b) Military Injuries: (Rate per 100,000 man days)

<u>Month</u>	<u>Number</u>	<u>Rate</u>
November	21	4.72
December	15	3.23
January	26	5.59

(c) Average Rates for Period 1 November 1967 through 31 January 1968:

1. MW 1.21

2. PI 4.52 (Personal Injury)

(d) The increase in the Army Vehicle accident rate during the month of December is attributable in part to greatly expanded demands on the transportation system, including the battle of DUK TO, which resulted in the use of many inexperienced drivers. The main contributory factors in the January rise in the injury rate were Army Vehicle and gunshot accidents. These types of accidents continue to receive intense corrective efforts.

(10) Education

(a) The tables below reflect cumulative figures for the months of November, December, and January:

1. Correspondence Courses: (new enrollments)

b. (U) Administration:

(1) A comptroller activity was organized within the US Army Support Command, Qui Nhon in response to Department of the Army and Hq, 1st Logistical Command studies conducted in 1967.

(2) The comptroller organization was activated on 25 November 1967 as an Assistant Chief of Staff element.

(3) The mission of the ACofS, Comptroller is to provide staff capability for management and utilization of command resources.

(4) In view of limited personnel availability, the ACofS, Comptroller was assigned the following initial functions:

- (a) Command Management Improvement and Cost Reduction.
- (b) Review and Analysis.
- (c) General Accounting Office and US Army Audit Agency Liaison.
- (d) Internal Review Program.
- (e) Staff Finance.
- (f) Progress and Statistical Reporting.

(5) Significant Controller accomplishments:

(a) Completion of the US SUTCOM, ON Management Improvement/Cost Reduction Plan for Fiscal Year 1968.

(b) Establishment of a Review and Analysis Program and Publication of the US SUTCOM, ON Regulation 11-1.

(c) Introduction of US Army Audit Agency personnel to the command who arrived, 15 Dec 67, to audit maintenance organizations within US SUTCOM, ON.

(d) Audit of command non-appropriated funds, i.e., welfare funds, open mess funds and sundry funds.

c. (U) Morale: No unusual or serious problems of morale occurred during the reporting period. A new Post Exchange with enlarged capacity

opened in Chu Lai on 25 December 1967 and on 1 January 1968 in the Qui Nhon Area. The Connie Francis show was staged in Hanger Number 1 on 10 December 1967 with 3,000 in attendance from personnel in the Qui Nhon area.

d. (C) Discipline; Summary of Military Justice Activities:

Article 32 Investigations:	9
Special Courts-Martial:	70
Summary Courts-Martial:	10
Article 15's:	1,114

3. (C) Operations:

a. (C) Support Operations. Logistical support was provided in support of combat operations in I and II Corps Tactical Zones during the reporting period. During the period, this command provided a total of ten (10) task forces organized as Forward Support Activity (FSA's) and Forward Support Teams (FST's) in support of ground operations. At the close of the period, five (5) FSA's and three (3) FST's were actively supporting the following operations:

- (1) Operation Pershing
- (2) Operation MacArthur
- (3) Operation Oregon-American
- (4) Operation Whaler-Willow
- (5) Operation Saline
- (6) Operation Muscatine

b. (C) Unit Movements: During the reporting period, the Plans Section of Assistant Chief of Staff for Security, Plans and Operations of the US Army Support Command, Qui Nhon, processed several units through the port of Qui Nhon. The units listed below were processed and moved to their final destination as indicated. All units arriving in Qui Nhon Support Command that required transportation to places other than Qui Nhon were moved in convoy to their final destinations.

<u>UNIT</u>	<u>STRENGTH</u>	<u>DESTINATION</u>	<u>DATE</u>

355th Hel Spt Co	138	Pleiku	22 Jan 68

4. (C) TRAINING AND ORGANIZATION:

a. (U) Training. During the period 1 November 1967 through 31 January 1968, the training section of SP&O, USASUPCOM, ON monitored approximately 52 hours of training per unit within USASUPCOM, ON. Other actions during this period were:

(1) Cpt Emery Teoli was assigned as Training Officer of USASUPCOM, ON on 1 November 1967.

(2) The Training Officer and Training NCO attended a training briefing conducted by the 1st Logistical Command, Saigon, on 6-9 Nov 67.

(3) The Gas Chamber exercise was conducted for all personnel by all subordinate units.

(4) A Medium Truck Driver Training Program was established for selected units of the 8th Transportation Group.

(5) Formal Training Inspections were conducted by the Training Officer and Training NCO, USASUPCOM, ON on the following units:

UNIT	DATE
184th Ordnance Battalion (Amo)	13 Nov 67
An Khe Sub-Area Command	19 Nov 67
Da Nang Sub-Area Command	26-29 Nov 67
5th Maintenance Battalion	1 Dec 67
Pleiku Sub-Area Command	18-20 Dec 67
86th Maintenance Battalion	2 Jan 68

(6) Unannounced training inspections were conducted on the 184th Ordnance Battalion (Amo) during the month of January.

(7) Training Liaison visits were made to An Khe Sub-Area Command during the month of January 1968.

b. (C) Plans: Operation plans that were written during the report period were:

- (1) OPLAN 35-67 Reception of Unit, dtd 23 Nov 67 (11th Inf Bde)
- (2) OPLAN 36-67 Movement of Unit, dtd 9 Dec 67. (11th Inf Bde)
- (3) OPLAN 37-67 Operation Frostbite, 13 Dec 67

CONFIDENTIAL

(RCS CSFOR-65) (UTC: WZ1MAAA)

(4) OPLAN 38-67 Contingency Plan PATTON, dtd 22 Dec 67

(5) OPLAN 39-67 Contingency Plan PATRICK, dtd 22 Dec 67

5. (C) INTELLIGENCE:

a. (C) Counter-intelligence Inspections. CI inspections were performed by 514th Military Intelligence Detachment (CI) during:

<u>MONTH</u>	<u>SCHEDULED</u> <u>(During Duty Hours)</u>	<u>NON-SCHEDULED</u> <u>(During non-duty hours)</u>
November 67	3	6
December 67	5	8
January 68	3	8

b. (c) Clearances. Clearances were processed as follows:

<u>MONTH</u>	<u>REQUEST FOR</u> <u>VALIDATION</u>	<u>CLEARANCES</u> <u>VALIDATED</u>
November 67	174	82
December 67	147	178
January 67	146	174

c. (C) War Trophy. Twelve (12) war trophies were processed during the reporting period.

d. (C) Security:

(1) Security Inspections. Physical Security Inspections have been scheduled and conducted by the local Provost Marshal. In addition, unannounced physical security inspections were conducted by this headquarters on installations in the Qui Nhon area.

(2) Security Force. A Conference was held at An Khe on 2 November 1967 on Convoy Communications with Security Forces on Route 19 between Qui Nhon and Pleiku, by IFFORCEV. The result of this meeting was to establish a single emergency frequency published for the 4th Infantry Division AO, the 1st Cavalry Division AO and the ROK Tiger Division AO. This eliminates the problem of continual frequency change required by the convoy commander as he travels on Route 19 through the various AO's of the Security Forces along the route.

(3) Enemy Activity Increased. Ammunition Supply Points, Airfields, Class III storage areas, and Port Facilities are considered the most critical installations in the Qui Nhon Support Command. Enemy activity against these installations has increased during this reporting period, especially during the month of January. The command as a result, bolstered the reaction forces, improved fencing and detection devices, and provided security in depth in the

CONFIDENTIAL

SUBJECT: Operational Report for Quarterly Period Ending 31 January 1968
(ACS CSAR-65) (LIC: VZINMA)

critical areas.

6. (C) LOGISTICS:

a. (C) Supply:

(1) The Closed Loop Program (CLSP) has incorporated tanks (M48A3), armored personnel carriers (M113 and M113A1), and artillery pieces (M102-M123). The intent is to exchange over aged or high mileage items before complete breakdown occurs, which in turn provides for considerable savings in time and repair parts. In addition, it provides for intensive management of the items to insure constant supply and prevent any reduction of the combat effectiveness of our fighting forces.

(2) Approval has been granted by the Deputy Chief of Staff for Logistics, Department of the Army (DOSLOG, DA) for furtherance of Project Counter type assistance for the 1st Logistical Command units for 180 days. This team will be known as Project Counter III and is scheduled to arrive in the Qui Nhon area on or about 8 February 1968. The task of the team will be that of training supply personnel in establishing and maintaining PILL's. Moreover, instructions will be given in supply operations at direct support, service, and supply units. A depot assistance team will assist the 58th Depot with inventories and location surveys.

(3) During this reporting period, the Qui Nhon Support Command processed 105 Reports of Survey with a total face value of \$333,135.00. Approximately eighty percent (80%) of the total was for vehicles lost or damaged and fifteen per cent (15%) for weapons lost or damaged.

(4) A staff study is being made to determine the feasibility of creating a Directorate of Food and eliminating the existing Subsistence and Food Services Branch under the Directorate of Supply. The Directorate of Food will have the mission of directing and controlling the US/SUPCOM, CN food supply system in providing all Class I supplies to support units. In addition, supervise, requisition, receive, store and distribute all food items in support of operations.

(5) Construction of the Meadow Gold Dairy milk plant continued through this quarter and the dairy will begin full scale production in the Qui Nhon area on 1 February 1968. A limited amount of milk (white and chocolate) was produced during January. Production of cottage cheese and ice cream will begin 15 March 1968. Initial issues will be to the An Khe and Pleiku Hospitals and the units in the Qui Nhon area until such time as reefer vans become available allowing line haul to other areas in the US/SUPCOM, CN.

b. (C) Maintenance:

(1) During the reporting period, an engineer maintenance unit move was made to adjust to changing support requirements. The 196th Engineer Detachment was Detached from Pleiku (62d Maint Bn (DS)) and attached to Chu Lai (588th Maint Co (DIV) (DS)). This move was to supplement heavy engineer maintenance capability.

CONFIDENTIAL

CONFIDENTIAL

AVCA-CN-GO-0 (13 February 1968)

SUBJECT: Operational Report for Quarterly Period Ending 31 January 1968
(RCS CSFOR-65) (LIC: 1211111)

and to provide backup support to the Americal Division and direct support maintenance to the 45th Engineer group units moving into the Chu Lai area. The arrival of the 510th Eng Maint Co in Pleiku from Cam Ranh Bay during the last reporting period made this move feasible and contributed to equal support coverage.

(2) The 11th Lt Inf Bde arrived in-country in December 1967. It moved to Duc Pho to become a part of the Americal Division and received backup maintenance support from the 588th Maint Co (DIV) (DS) in Chu Lai.

(3) Effective 1 January 1968, the 5th Maint Bn (DS) assumed maintenance and repair parts supply support of FSA Lathrop. This action has relieved the FSA commander of this responsibility and will enable the 5th Maint Bn (DS) to enhance its mission performance through direct communications and control.

(4) (C) During the reporting period, the 86th Maint Bn initiated action to include the fuel drum repair facility in the management cost reduction program. This repair process eliminated salvaging of punctured 5000 gallon collapsible drums and 10,000 gallon collapsible bags for a total FY67 savings of \$5,821,000. The replacement of unservicable 500 gallon collapsible drum carcasses netted a FY67 savings of \$132,000. Savings for FY68 is estimated at \$10,027,000 for drums and bags, and \$620,000 for carcass replacement.

(5) (C) During this period, the 1st Log Comd directed this command to assume complete maintenance support of 419 2½ ton trucks that are currently being issued to RVN units on a loan basis. Support responsibility will include driver operation procedures, operation of the multifuel engine, organizational maintenance and DS maintenance. This support will continue for a minimum of 90 days until RVN has trained its personnel and special tools are available. In addition, 72 M151 ½ ton vehicles have been issued to RVN advisors and will be maintained completely for an indefinite period of time by Qui Nhon Support Command maintenance units. This increased density has been distributed among the command maintenance units and is not expected to seriously hamper other mission operations.

(6) (C) The 3rd and 4th quarter FY68 GS overhaul program was adjusted by the 1st Log Comd. It is expected that required repair parts for major changes will not be available due to the short requisitioning lead time. The FY69 GS overhaul program has also been approved by the 1st Log Comd. This headquarters is presently conducting a review of the program for possible adjustments based on demand history experience and repair parts availability.

(7) (C) All maintenance units within the Qui Nhon Support Command conducted a complete density survey to update the previously submitted Combat Support Survey. The survey again confirmed the DS short fall indicated in the previous report. The MTOE's submitted in October to correct this shortfall have been forwarded to DA for approval.

(8) (C) Maintenance elements from the 86th and 5th Maint Bn's were integrated into the formulation of two FSA's which moved to ICTZ to support operations being conducted by the 1st Cav Div. This move also included the radar team from the 554th LEM Co, 5th Maint Bn that was previously located with the 27th Maint Bn,

SUBJECT: Operational Report for Quarterly Period Ending 31 January 1968
(RCS 000000) (RCS 021000)

1st Cav Div at An Khe.

(9) (C) Deadline rates of the 1st Log Comd critical items remained below the acceptable levels established by the 1st Log Comd. Accomplishment of reduced deadline levels is attributed to intensive management at all levels of command, utilization of MRE and other forms or parts expediting, use of organic transportation for parts movement and improved deadline reporting systems. Deadline percentages at the end of the quarter are as follows:

<u>ITEM</u>	<u>PERCENTAGE</u>
Artillery	6.8%
Truck Tractor, 5T, TC	5.9%
Truck Tractor, 5T, Non-TC	7.3%
Forklift (Commercial)	3.0%
Forklift (RT)	8.0%
Crane	10.0%
Reefer Vans	2.0%
Counter-Mortar Radar	8.0%

c. (U) Retrograde and Disposal:

(1) Retrograde Operations:

(a) During the reporting period 23,000 short tons of retrograde cargo was shipped by this command. Of this total, 18,7000 short tons were unserviceable repair items. Other categories of retrograde cargo included excess materiel, station returns, suspended ammunition and ammunition components. The breakout of shipments by mode of transportation shows that 95% of the total cargo was shipped by surface and 5% by air.

(b) Retrograde Project Officers were established in sub-area commands to monitor the evacuation of unserviceable material and increase responsiveness in retrograde operations.

(2) Property Disposal:

(a) Property disposal facilities located in Qui Nhon and Da Nang had a total of 18,000 short tons of useable and scrap property on hand at the end of the reporting period. Of this total; 15,400 short tons were sold pending removal; 1,100 short tons were reported to the Sales Officer, and contractor removals during the reporting period totaled 3,200 short tons. During the period one-year term contracts were awarded for all on-hand quantities of scrap plus estimated annual generations of scrap for both Da Nang and Qui Nhon Property Disposal yards.

(b) During the reporting period, equipment and minimum essential personnel to open the new property disposal facilities at Chu Lai moved on site. The facility will serve the lower I Corps area and will become operational upon

CONFIDENTIAL

(RUS CSFOH-65) (RUC: 121111)

construction of access roads and minimum horizontal site preparation. The necessary yard improvements are scheduled to be accomplished by Navy Construction Battalion personnel in the near future as part of the base development program.

d. (C) Ammunition:

(1) The Battle of Dak To and resultant loss of all Class V resources when the MSI was destroyed on 15 November 1967 demonstrated the requirement for practical logistical planning. In order to recover for the loss, land LOC's of all classes of supply other than Class V were seriously backlogged. As much as 1,000 S/T were direct thruput to Dak To on occasion. The resultant EOM of large numbers of vehicles further degraded Transportation's ability to move tonnages required to support the operation. The air re-supply of 300 S/T of Class V daily (75 S/T from CKB and 225 S/T from Qui Nhon) enabled this command to adequately support combat operations and to re-establish the stockage objective within about 10 days.

(2) On 31 Jan 68, at approximately 0300 H, the QNABD received 12 rds of 75 mm RH fire which resulted in destruction of propellant and large quantities of small arms. Only a heroic effort by some members of the 184th Ordnance Bn prevented all of the small arms storage area A from being destroyed. They used bulldozers and all available water sources in confining fires to approximately one half of the small arms in the area. This was done within 10-12 meters of the fiercely burning propellant. At 2130 H, 31 Jan 68, a pad of 90mm and 105mm ammunition was detonated by an undetermined means. All ammunition on the pad was destroyed. Again only heroic efforts prevented complete destruction of small arms area C. A pad of 105mm HE ammunition containing 54,000 rds was immediately threatened by this explosion. In some places, boxes were burned almost completely through. 184th Ord Bn personnel prevented any loss on this pad. Approximately 5,000 gallons of water were used to prevent it from being destroyed.

(3). Ammunition:

(a) Short tons Class V received at QNABD:

NOV	- TOTAL	- 22,538	- Daily Average	727.0
DEC	- TOTAL	- 35,887	- Daily Average	1157.6
JAN	- TOTAL	- 33,968	- Daily Average	1087.6

(b) Short tons Class V shipped from QNABD

SUBJECT: Operational Report for Quarterly Period Ending 31 January 1968
(RCS GORH-65) (UIC: 121 111)

e. (C) Petroleum:

(1) Operations:

(a) Product Received - Qui Nhon:

November	17,259,000 gallons
December	22,184,000 gallons
January	20,778,000 gallons

(b) Product Shipped to An Khe by Pipeline:

November	6,122,926 gallons
December	6,893,670 gallons
January	4,940,264 gallons

(c) Product Shipped to Chu Lai Air Force Base:

November	2,626,860 gallons
December	2,738,039 gallons
January	2,149,316 gallons

(d) Total Command Consumption: 66,761,645 gallons

(2) Facilities:

(a) Tank Farm at Duc Pho has a total capacity of 16,000 barrels. Construction was complete 15 November 1967.

(b) The construction of the T-2 POL jetty anchorage at Qui Nhon has been completed. This system permits off loading of T-2 class tankers and has the result of releasing two T-1 tankers and one Y-Boat for service elsewhere.

(c) Tank Farm, OF #3. 153,000 bbls of 193,000 is complete and operational. Remaining 40,000 bbls is expected to be completed a/o 15 March 1968. Upon completion, this additional tank farm will provide this command with a total storage capacity of 305,000 barrels.

(d) Tank Farm construction PK project is scheduled for completion by 31 March 1968. A phased utilization of completed tanks will be constructed to replace the collapsible tanks.

(e) An Khe - Pleiku pipeline is scheduled for completion by 31 March 1968.

f. (C) Transportation:

(1) Continued expansion and refinement of the command's transportation facilities occurred during the reporting period. Major accomplishments were as follows.

CONFIDENTIAL

CONFIDENTIAL

AVCA-QN-GO-O (13 February 1968)

SUBJECT: Operational Report for Quarterly Period Ending 31 January 1968
(RCS GSFOM-65) (CIC: LZ1211A)

(a) An in-transit storage area in QNH port is nearing completion. The area has been leveled and soil treated in preparation for a gravel topping. The storage area will provide sufficient space for holding intransit cargo until port clearance can be effected. The new facility is scheduled for completion in February 1968 and will relieve much of the congestion now existing along both causeways leading to the De Long Pier.

(b) Sea-Land container operation officially began on 13 November 1967 with the discharge of the first Sea-Land vessel. Since that date, an average of 300 Sea-Land trailer containers per month have been received by the QNH Port. Some difficulty has been experienced with the method of loading containers. On occasion, a single van is used for multi- consignees thereby increasing the chance for loss or damage of cargo. Negotiations with Sea-Land Corporation has greatly reduced this problem.

(c) During the reporting period, considerable emphasis has been placed on improving convoy security. Major accomplishments were achieved in convoy security by increasing the amount of fire power available within each convoy. Armored gun trucks have been developed by adding automatic weapons and applying armor kits to $\frac{1}{2}$ ton Jeeps, $2\frac{1}{2}$ ton and 5 ton Cargo Trucks. Organization and procedures for immediate reaction in the event of ambush have been developed from experience gained in actual operations. The success of improved convoy security can be measured in part by the resulting increased kill ratio between enemy and friendly forces. Even though improvements have been made, convoy security still remains a problem. TO&E task vehicles are being converted to armored vehicles for security purposes thereby reducing the total lift capability available. Additional weapons that have been obtained are held on an emergency loan basis. None of the equipment utilized for convoy security purposes is presently authorized as such by either TOE or MTOE. Therefore, replacement for combat losses are not automatically programmed and available through supply channels. A question of continuous air cover remains unsettled. The critical period during each ambush is considered to be the first five to seven minutes. Continuous armed air cover would provide immediate tactical response and possible even advance warning in some cases. To date, tactical units have been unable to provide the required aircraft for this purpose.

(d) A new section has been established within the office of the Director of Transportation and will be called the Cargo Security and Documentation Section. The new section was established due to the Commanding General's concern over standardizing the procedures governing the safeguarding of cargo enroute to the consignee. The function of the new section will be to publish guidance on correct MILSTAMP procedures and to conduct periodic inspections to insure that MILSTAMP documentation and applicable cargo security procedures are executed to account for all cargo from the time it enters the port until receipted for by the consignee.

(e) One of the most significant accomplishments during the reporting period was the utilization of the command's transportation capabilities to support intensive combat operations during the battle of Dak To. Even though long lines of communication had to be traversed through enemy infested areas, a total

CONFIDENTIAL

CONFIDENTIAL

AVCA-ON-GO-0 (13 February 1968)

SUBJECT: Operational Report for Quarterly Period 31 January 1968
(RCS CSOR-65)(INFO: WFMH)

of 2,287,000 gallons of CL III and 22,235 S/T of CL V, were delivered to Dak TC over a 26 day period. Transportation was accomplished by highway and air movement.

(2) The following programs and plans have been initiated during the reporting period:

(a) Plans have been made and schedules established for accomplishing dredging operations in the ONH Port. Plans include maintenance dredging, development to T-2 Anchorage, and preparation for an Ammunition Channel for discharging deep draft ammunition vessels. Dredging is scheduled to begin 15 March 1968, and is to be completed by 15 October 1968.

(b) Due to a critical shortage of CONEX containers in CONUS, each command in RVN has been directed to unstuff and return to Transportation Channels 20% of all CONEX's on hand. During the months of January, February and March, the ONH Support Command is preparing to ship 710 CONEX's per month.

(3) Activity Accomplishments:

(a) The ONH, TWP traveled a total of 520,316 miles during the reporting period.

(b) The ONH, Hold Baggage facility processed 7,105 pieces or 855,368 lbs of unaccompanied baggage during the period.

(c) Line haul transportation units transported a total of 175,476 S/T forward and 35,431 S/T in back haul.

(d) The ONH Port discharged 419,405 S/T and back loaded a total of 68,025 S/T of cargo during the reporting period.

(e) The Vietnamese National Railway operated between ONH Port, LST Beach and Phu Cat Air Base and transported 5,414 S/T of CL V and 2,624 S/T of GPMOS.

7. (C) Special Staff Sections:

a. (C) Engineer:

(1) Real Estate:

(a) Direct coordination effected with Binh Dinh Province Administrative Office yield approval for expansion of Lone Army Airfield for security. Verbal approval was obtained to increase land area. Written request followed the approval.

(b) Land Request for expansion of contentment of Qui Nhon Sub-Area Command was approved by II Corps. Action is still pending at Binh Dinh Province.

(c) Several letters were received from Province and RVNAF units referring to compliance with commitments made by individual officers or units while

CONFIDENTIAL

CONFIDENTIAL

AVCA-OM-CO-C (13 February 1968)

SUBJECT: Operational Report for Quarterly Period Ending 31 January 1968
(RCS CS OR-65) (INFO: 11111111)

coordinating directly in securing land or support from RVN. Such direct coordination and agreements create an aura of poor relations when commitments made cannot be fulfilled. An example of this is when land is released which the condition that a structure be built for RVN.

(d) A program of continuous education is required to keep occupants of leased facilities educated on their responsibilities and limitations. Coordination is necessary between Area Real Estate Office, Post Engineer, and Occupants to maintain the facilities in good condition.

(e) The need for a Real Estate Coordinator appears to be necessary at the Sub-Area Command Engineer. Pleiku SAC has been requested to provide an officer which will be trained and used as a test to determine the need at other Sub-Areas.

(f) Coordination is being effected with Provinces to organize a team of surveyors composed of representatives from the Province Land Office and a survey team from PA&E to determine exact land boundaries of the land in dispute.

(2) Construction:

(a) Major MCA construction projects progressed at a good pace throughout the NSC area. Projects of command interest included the An Khe to Pleiku pipeline, the Long Depot complex at Pleiku, the tank farm at Pleiku, the ASP at Pleiku, maintenance facilities in Qui Nhon, depot facilities in Qui Nhon, and dredging and other port construction in Qui Nhon. Dredging is presently programmed to begin during March 1968.

(b) No significant operational facilities were constructed during this period with C&MA funds, as emphasis to channel R&U work has become effective.

(3) Power generation:

(a) This command continues to have problems maintaining the large number of 100 KW generators used for contention power. This problem stems mainly from the almost continuous operation of those in place, additional power requirements, and difficulty in obtaining repair parts.

(b) Vinnel power ships, now operating at about 80% capacity, and programmed central power systems will serve to alleviate present power problems in the near future.

(4) Laundry and Bath:

(a) The 221st Supply and Service Company was inactivated on 15 January 1968, thereby reducing command assets by three sections of laundry and five bath teams.

(b) At the end of the reporting period, the command was providing laundry and bath services at four base camp locations and seven field locations with 23 sections of laundry and 21 bath teams.

CONFIDENTIAL

CONFIDENTIAL

AVCA-QN-GO-0 (13 February 1968)

SUBJECT: Operational Report for Quarterly Period Ending 31 January 1968
(RCS CSFOR-65) (PIC: W21M1AA)

(c) During the reporting period, the Fidel Laundry trailers were sent to the field for the first time. It was determined that the power source organic to the unit is not capable of providing sufficient power for sustained operations. Presently, there is not a sufficient stock of repair parts for the Fidel laundry units in the supply system, which has resulted in some machines deadlined for over 30 days.

b. (U) Civil Affairs (G-5)

(1) All civil affairs/civic action projects are now being approved by the Province Revolutionary Development Council to insure Vietnamese interests and participation. The acquisition of supplies has been slowed down because the supplies must now come through RVN logistical units. However, the USASUPCOM, ON-MICV Civic Action Imprest Fund of 100,000 \$VN has still allowed civil affairs the flexibility to react swiftly to immediate civic action needs.

(2) All units within the Support Command, including the SIG's of Pleiku, An Khe, Da Nang and Qui Nhon have maintained their active interests in their civic action projects.

(a) During the Christmas and TET holidays, all military units gave parties and distributed gifts to orphanages, hospitals, schools, refugee camps and dependents of RF/PF units. Such activities do much to enhance the rapport between US military units and the Vietnamese people.

(b) A wide selection of Vietnamese books, newspapers, pamphlets and educational charts were distributed to sponsoring units.

(c) The current command program of RF/PF units sponsorship in Binh Dinh Province by USASUPCOM, QN military units is meeting with success. Some 10 battalions and 1 group are now actively working with the RF/PF Advisor and District Representative of the Province level MACCORDS organization.

(d) Through the facilities of our office, large quantities of damage lumber, paint, cement, surplus Red Cross and USO gifts were distributed to "self-help" projects in Binh Dinh Province.

(e) The USASUPCOM, CA is now the distributing agent for Catholic Relief service in Binh Dinh Province.

(f) A good working relationship continues to exist between Binh Dinh Province officials, US Advisors, MACCORDS and this office. This coordination and mutual understanding has been beneficial in accomplishing projects quickly and successfully.

c. (U) Information Office

(1) For the reporting period, the Information Office accomplished the following in the area of Public Information:

(a) Army Hometown News Releases: 3,299. Photos: 105.

CONFIDENTIAL

CONFIDENTIAL

SUBJECT: Operational Report for Quarterly Period Ending 31 January 1968
(RCS CSEC-6) (IC: 141114)

(b) New Releases: 64. News Photos: 84.

(c) Photos processed for the period:

1. Pictures taken: 304

2. Prints made: 1,749

(d) Major Projects:

1. Provided extensive coverage, in coordination with Civil Affairs Division, of the National Day athletic activities.

2. Covered change of command ceremonies for subordinate units.

3. Provided coverage of the Thanksgiving at Dak To and Qui Nhon.

4. Covered USO shows, to include that of Connie Francis

5. Provided coverage of visits of the Chief of Staff of the Army. General Harold K. Johnson.

6. Provided coverage of Christmas activities, to include Operation Santa Claus efforts by elements of the command.

7. Photographic coverage of opening ceremonies of the new post exchange and building at the airport.

8. Escorted Department of the Army Chief of Information, Major General Cortes.

9. Took aerial photographs throughout USMACV, ON area of responsibility.

(2) The following was accomplished in the area of Command Information:

(a) Instructed classes on TET holidays in the Qui Nhon area.

(b) Distributed monthly CI topics from 1st Log, USARV, and MACV.

(c) Supervised monthly CI classes.

d. (C) Staff Judge Advocate

(1) During the reporting period, the office of the Command Judge Advocate had the following personnel assigned, attached or detailed for duty.

(a) Three (3) officers (JAGC) assigned or attached to the Command Judge Advocate.

CONFIDENTIAL

(b) Nine (9) enlisted personnel assigned or attached to the Command Judge Advocate.

(c) One Vietnamese Interpreter.

(2) Summary of Legal Assistance:

Total Number of Cases: 1,993

(3) Summary of Claim Activities:

(a) Number of Vietnamese Claims Filed: 110

1. Number of Vietnamese Claims Forwarded: 84

2. Number of Vietnamese Claims Paid: 28

(b) Number of US Claims Filed: 61

1. Number of US Claims Forwarded: 74

2. Number of Claims Paid: 69

e. (U) Chaplains Office, Activities for the Reporting Period:

(1) The visit of Chaplain (MG) Francis L. Sampson, USA, Chief of Chaplains who was PG George H. McBride's guest during the day and a half stay in the Qui Nhon area. While in Qui Nhon, Chaplain (MG) Sampson spoke with all the Chaplains of the Qui Nhon area and their commanders.

(2) The planning and execution of Christmas parties by the Chaplains for orphanages, hospitals, aged people, dependents of the RVN forces and refugee children. Candy, clothes, toys and other gifts from home were distributed by the Chaplains.

(3) Preparation of special invocations and blessings by all the Chaplains for Thanksgiving and Christmas dinners.

(4) Continuation of search for an efficient area coverage in the First Field Force Area under the technical advice of the Staff Chaplain, IFFV.

(5) Continuation of Projects in the region of civic action and community relationships, with the Chaplains working in close cooperation with their unit Civic Action Officers and the G-5, HQ, USASUPCOM, VN.

(6) Achievements: In the Qui Nhon Support Command there are twenty Chaplains, and in the units based in our area of operation there are thirteen Chaplains. The following information concerning the Support Command Chaplains is furnished to indicate the activities during the reporting period:

CONFIDENTIAL

21
AVCA-ON-OC-C (13 February 1968)

SUBJECT: Operational Report for Quarterly Period Ending 31 January 1968
(RCS 05707-65) (CIC:1471411)

(a) Discussion: Mess personnel are too frequently disregarding the requirement to inspect food items at the time of delivery to mess halls. Due to the handling in shipping and storage, items are damaged which are not inspected at time of receipt at mess hall.

(b) Observation: Any abnormal appearing cans should be returned to Class I points for replacement. All fresh fruits and vegetables should be sorted and defective items should be removed prior to storing the goods. This will assist in preventing further loss. All frozen meats should be inspected for state of freeze and contamination from external sources prior to storing.

(2) Item: Armored Plating Kits:

(a) Discussion: There is a critical shortage of armored plating kits for 2 1/2 and 5 ton trucks. In addition, armored kits for 1/4 ton trucks are insured items with a delivery date of July 1968 from COMUS.

(b) Observation: In an effort to overcome the existing problem, the US SUPCOM, ON has undertaken the task of fabricating armored plating kits out of sheets of titanium made available from the Saigon depot. The US SUPCOM specifications and drawing are being adhered to in the construction of the kits.

(3) Item: Multifuel Engines (FSN 2815-911-3645)

(a) Discussion: There is a large quantity of subject items being retrograded out of the country to existing overhaul and rebuild facilities. During the month of December 1967, 167 serviceable engines were received by US SUPCOM, ON and 211 were retrograded.

(b) Observations: Based on an informal study, the engines are providing limited use. Some of the engines are averaging about 500 miles before maintenance problems develop. Informal sources assume the problem is attributed to design and mass production.

6. (U) Special Staff:

a. Civil Affairs (G-5):

(1) Item: Appreciation for the Vietnamese Culture.

(2) Discussion and Observation: The greater the contact between the US military personnel and the Vietnamese through civic projects, the greater will be the understanding and respect by Americans for the Vietnamese culture. Our participation in self-help projects with the Vietnamese and sponsorship of Vietnamese charitable institutions afford such a contact. Our dissemination of Vietnamese reading material also makes the Vietnamese aware of their own government's efforts on their behalf and makes them more conscious of their national identity.

(RCS CSFOR-65) (UIC: 77111)

b. Chaplain:

(1) Item: Area Coverage

(2) Discussion: The assignment of Chaplains in units with TD authorization for Chaplains along with the disposition of the units which have assigned Chaplains makes it imperative that proper Chaplains' coverage be extended through the concept of area coverage. It is not sufficient to just cover the unit to which the Chaplain may be assigned. There may be military units in the surrounding area not covered by a chaplain.

(3) Observation: Area Coverage concept has been utilized to a great degree by the Catholic Chaplains. The present area situation calls for the understanding of this area coverage concept by unit Commanders for their Protestant Chaplains. There still exist in the minds of some Chaplains and unit Commanders that the Chaplain assigned works "only" for that particular unit and no one else. Only through the cooperation and understanding of the unit Commanders and the Chaplains, may there be adequate and proper coverage for all personnel. To this end, the Staff Chaplain of JTFV has discussed the guide-lines for area coverage with the Commanding General of the Qui Nhon Support Command. There will be discussions, clarifications and amplifications of this in the near future.

SECTION II, PART II

(U) RECOMMENDATIONS

1. (U) Personnel, Administration, Morale and Discipline: None
2. (U) Operations: None
3. (U) Training and Organization: None
4. (U) Intelligence: None
5. (U) Logistics: None
6. (U) Special Staff:

a. Civil Affairs, G-5:

(1) All our military victories in Vietnam are for naught unless the populace develops a loyalty towards their government. By working with the Vietnamese, our aim is to build credit to the GVN and a pride in what they, the Vietnamese people, have accomplished. This is not an easy task nor are there quick solutions. It requires great tact and patience on our part. Many times we become the "givers" rather than the "encouragers" or "co-builders". The Vietnamese

see the large divergence between our wealth and easily accept our munificence. This is not our aim and defeats our ultimate purpose. All our aims must be directed at synchronizing, incorporating and accelerating the GVN and the ARVN civic action efforts without losing the US Army civic action participation - no easy task.

(2) The Civil Affairs Office is also encouraging through Command Information classes and cultural notes in the Daily Bulletin, a greater understanding and appreciation of the Vietnamese culture by US military personnel.

b. Chaplain Office:

(1) Chaplains would be educated to the fact that their responsibility as Chaplains are first and foremost those of a Pastor. This would encompass all the personnel within their general area and not just their specific assigned unit.

(2) Unit Commanders should encourage Chaplains' coverage of other unit's personnel in nearby locale. In addition, the rating of a Chaplain's efficiency would be based partly on the adequacy of his coverage for personnel other than those of his assigned units.

TO: Headquarters, 1st Logistical Command, APO 96584

FM: Commanding General, United States Army Vietnam, VTC: 100-00-0, APO 96375

1. (U) The Operational Report - Lessons Learned submitted by Headquarters, US Army Support Command, Qui Nhon (VTC: 100-00-0) for the quarterly period ending 31 January 1968 is forwarded.

2. (C) Pertinent comments follow:

a. Reference Section II, Part I, Paragraph 5a(2). In addition to the armor kits for 1 ton trucks already under the USMIL program this headquarters requisitioned 600 kits for 2 and 5 ton trucks in January 1968.

b. Reference Section II, Part I, Paragraph 5a(3). Non-concur with observation. Failure of multifuel engines is a result of failure of the cooling system which is attributed to the lack of operator and organizational maintenance.

c. Reference Section II, Part I, Paragraph 6b and Section II, Part II, Paragraph 6b. The Staff Chaplain, 1st Logistical Command, supports the area coverage concept. He will visit US Army Support Command, Qui Nhon, to obtain information on specific areas which are not being serviced by a chaplain.

3. (U) Concur with basic report as modified by this indorsement. The report is considered adequate.
