ANNUAL REPORTS INDEX

	<u>PAGE</u>
Burn Studies	
Anemia	5
Animal Experimentation	6
Antibiotics (See also Clinical Studies)	8
Bacteriology and Immunology	20
Biochemical and Pathophysiological Studies	9
Bone and Joint Studies	10
Cleansing (See Clinical Studies)	
Clinical Studies (See also Statistics)	11
Convalescent Burn Serum (See Bacteriology and Immunology)	
Deaths (See Statistics)	
Debriding Agents (See also Clinical Studies)	14
Drug Studies (See also Clinical Studies)	15
Hypothermia	16
Immunology (See Bacteriology and Immunology)	
Local Therapy (See Clinical Studies)	
Mass Casualty Treatment (See Disaster and Mass Casualty Care)	
Metabolic and Nutrition Studies	17
Psychological Studies (See Clinical Studies)	
Skin Grafts (See Clinical Studies)	
Statistics	18
Supportive Therapy (See Clinical Studies)	
Therapy (See Clinical Studies)	
Time and Motion Analysis of Operating Room Procedures	19
 Bacteriology and Immunology (See also Studies in Burns)	 20
 Disaster and Mass Casualty Care and Planning (See also Clinical Studies)	 22
 Homotransplantation Studies	 23
 Lymphatic Studies	 25
 Radioisotope and Nuclear Cytology	 26
 Reports on Medical Trips and Meetings	 27
 Tissue Culture Studies	 28

	<u>PAGE</u>
Trauma Studies (See also Disaster and Mass Casualty Care and Planning)	29
Wound Healing Studies	30

Note that 1950-1953 refers to Volume 7, a Summary of Work on U.S. Army Contract DA-49-007-MD-447 from May 1950 through April, 1953, For more detailed accounts of studies see separate volumes 1-6.

Note also that 1954 and 1958 reports are two sections.

ANEMIA IN BURNS

<u>YEAR</u>		<u>PAGE</u>
<u>1953</u>	Studies on Burn Anemia	25
<u>1954 II</u>	Studies on Burn Anemia	10
	1. Erythrophagocytosis	11
	2. Trypsin-Anti-Trypsin and Trypsin Titters of Serum	13
	3. Erythrophagocytosis and Trypsin-Anti-Trypsin Titters in Experimental Animals	14
<u>1955</u>	Studies on Burn Anemia	10
	1. Radiochromium-51 Method for the Study of Erythrocyte Survival in Burn Patients with Late Anemia	11
	2. The Fate of Autologous Hemoglobin and Plasma Tagged with Chromium-51 in Rabbits	30
	3. Erythrophagocytosis	35
<u>1958</u>	Studies in Burn Anemia: Progress Report	395

ANIMAL EXPERIMENTATION

I. RATS

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Animal Experimentation with Regard to the Protective Influence of Antibiotics in Burns	29
<u>1954 II</u>	Experimental Burns in Rats	20
<u>1955</u>	Experimental Hypothermia in Burns	101
<u>1956</u>	The Effect of Pre-Treatment with Zymosen on Survival Rate of Experimentally Burned Rats	141
<u>1960</u>	Establishment of a Standardized Control Burn and Evaluation of the Effect of Total Excision of Third Degree Burns in Rats	242
<u>1961</u>	Standardization of Experimental Burns in the Laboratory Rat	45
<u>1961</u>	Observation on the Validity of Surface Area Calculations of Rats in the Laboratory	65
<u>1961</u>	Experimental Study with Reference to Convalescent Burn Serum	138
<u>1961</u>	Evaluation of Certain Laboratory Anesthesia and Environmental Factors in Experimental Work with the Burned Rat	202

II. RABBITS

<u>YEAR</u>		<u>PAGE</u>
<u>1955</u>	The Fate of Autologous Hemoglobin and Plasma Tagged with Chromium-51 in Rabbits	30
<u>1960</u>	Experimental Evaluation of Salcolan for Local Burn Therapy	148

<u>YEAR</u>		<u>PAGE</u>
<u>1960</u>	Experimental Study of Effects of Heparin on Deep Thermal Burns	236

III. DOGS

<u>YEAR</u>		<u>PAGE</u>
<u>1956</u>	Experimental Hypothermia in Burns	149
<u>1959</u>	Studies in the Physiological Response of Fluid Therapy and to Hypothermia in Dogs with Extensive Standardized Burns	221
<u>1961</u>	Experimental Evaluation of Oliguria and Edema in Burns with the Use of Urea (A Preliminary Report)	210

ANTIBIOTICS

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Animal Experimentation with Regard to the Protective Influence of Antibiotics in Burns	29
<u>1950-53</u>	Clinical Studies	32
<u>1950-53</u>	Use of Local Antibiotic in Burns	90
<u>1953</u>	Antibiotic and Staphylococcal Resistance	8
<u>1953</u>	The Disc Method as a Method of Choice for Determining Antibiotic Sensitivity of an Organism	15
<u>1954 I&II</u>	Studies on Bacterial Flora and Susceptibility to Antibiotics	1
<u>1956</u>	The Use of Antibiotics in the Post-Operative Period as a Prophylactic Measure	183
<u>1958</u>	Massive Penicillin Therapy in Burns	353
<u>1960</u>	Combined Antibiotic-Antitoxin Therapy of Experimental Staphylococcal Infection in Mice	256

BIOCHEMICAL AND PATHOPHYSIOLOGICAL STUDIES

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Blood and Urine Chemistry Studies	80
<u>1954 I</u>	Histochemical Aspects of Burned Human Skin with Special Reference to the Healing Phase	7
<u>1954 I</u>	Electrophoretic Studies	26
<u>1955</u>	Alterations in the Serum Proteolytic Inhibitor Titre in Burns	43
<u>1956</u>	Observations on Sodium and Potassium Excretion in Clinical Burns	196
<u>1956</u>	Histochemical Studies of the Dermis During the Process of Wound Healing Following Thermal Trauma	108
<u>1959</u>	Studies in the Physiological Response to Fluid Therapy and to Hypothermia in Dogs with Extensive Standardized Burns	221
<u>1960</u>	The Problem of Protein Disequilibrium Following Severe Thermal Trauma	134

BONE AND JOINT STUDIES

<u>YEAR</u>		<u>PAGE</u>
<u>1958</u>	Bone and Joint Changes	406
<u>1959</u>	Bone and Joint Changes Following Burns (Reprint)	303

CLINICAL STUDIES ON BURNS

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Clinical Facilities	37
<u>1950-53</u>	Early Supportive Therapy	39
<u>1950-53</u>	Experiences with the Exposure Method of Burn Therapy	42
<u>1950-53</u>	One-Piece Absorbent Burn Dressings	58
<u>1956</u>	Local Burn Therapy After the Acute Phase	6
<u>1956</u>	Methods of Evaluating Bacteria on a Granulating Surface	14
<u>1956</u>	Topical Antibacterial Drug Study	34
<u>1956</u>	Neosporin as a Topical Antimicrobial Agent in Burns, Wounds, and Ulcers	42
<u>1956</u>	Debriding Agents	61
<u>1956</u>	Observations on Sodium and Potassium Excretion in Clinical Burns	196
<u>1957</u>	Evaluation of Semi-Open Method in the Management of Severe Burns After Acute Phase	8
<u>1957</u>	General Aspects of Microbial Growth in the Burn Wound	41
<u>1957</u>	The Effects of Antibiotics on the Organisms Colonizing Burn Wounds and on the Success of Skin Grafts	52
<u>1957</u>	A Study of Clinical Criteria for Success of Skin Grafting	69
<u>1957</u>	Reasons for Failure of Take on Skin Grafting of Burned Areas	73

<u>YEAR</u>		<u>PAGE</u>
<u>1957</u>	The Relationship Between Granulation Tissues Bacteria and Skin Grafts on Burn Patients	85
<u>1957</u>	Debriding Agents	117
<u>1958</u>	Burn Statistics and Summary of Local Therapy	330
<u>1958</u>	High Protein Feeding in the Severely Burned Patient	340
<u>1958</u>	Massive Penicillin Therapy in Burns	353
<u>1958</u>	General Summary of the Technique and Complications of Enzymatic Debridement of Burns	355
<u>1958</u>	A Clinical Evaluation to Determine the Effectiveness of Clostridial Enzyme Lot H-4-35, 0-22 as a Debriding Agent Following Thermal Trauma	369
<u>1958</u>	The Care of Patients with Burns	389
<u>1958</u>	Studies in Burn Anemia	395
<u>1958</u>	Local Therapy of Burns: An Improved Method of Cleansing Burns	399
<u>1958</u>	Bone and Joint Changes Following Burns	406
<u>1958</u>	Solubilized Keratin as a Plasma Expander	436
<u>1959</u>	An Emergency Burn Center	89
<u>1959</u>	The Local Leukocytic Response to Skin Grafting	210
<u>1959</u>	Antibody Studies in Burn Patients	258
<u>1959</u>	Bone and Joint Changes (Reprint)	303
<u>1960</u>	Experiences in the Management of the Burn Wounds	52
<u>1960</u>	Evaluation of a Semipen Method in the Management of Severe Burns After the Acute Phase	78

<u>YEAR</u>		<u>PAGE</u>
<u>1960</u>	A Practical Approach to Cleansing of the Burned Patient	105
<u>1960</u>	Leukocytic Patterns in Granulating Burns	143
<u>1960</u>	Experimental Evaluation of Salcolan for Local Burn Therapy	148
<u>1960</u>	Physical Therapy Program for Burn Patients	233
<u>1960</u>	Experimental Study of Effects of Heparin on Deep Dermal Burns	236
<u>1961</u>	Studies of Burn Wound Flora	248
<u>1961</u>	Persistent Graft Failure Following Burns: Report of a Case and Analysis of Causes	257
<u>1961</u>	Psychological Studies in Burn Patients	281
<u>1961</u>	Medical Sculpture as an Aid to the Burn Patient	325

DEBRIDING AGENTS

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Enzymatic Debriding Agents	93
<u>1956</u>	Debriding Agents	61
<u>1957</u>	Debriding Agents	117
<u>1958</u>	General Summary of the Technique and Complications of Enzymatic Debridement of Burns	355
<u>1958</u>	A Clinical Evaluation to Determine the Effectiveness of Clostridial Enzyme Lot H-4-36, 0-22 as a Debriding Agent Following Thermal Trauma	369
<u>1958</u>	An Improved Method of Cleansing Burns	399
<u>1960</u>	A Practical Approach to Cleansing of the Burned Patient	105

DRUG STUDIES

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Drug Toxicity Studies	12
<u>1950-53</u>	Keloid Studies	18
<u>1950-53</u>	Proteinase	28
<u>1950-53</u>	Keloid Studies	92
<u>1953</u>	Testing the Efficacy of Arquad-S as a Sanitizing Agent	4
<u>1953</u>	ACTH and Cortisone	88
<u>1954 II</u>	Preliminary Report on the Topical Use of Neosporin Ointment	3
<u>1955</u>	Phenyl Ethyl Alcohol as a Topical Antimicrobial Agent	65
<u>1956</u>	Topical Antibacterial Drug Study	34
<u>1956</u>	Neosporin as a Topical Antimicrobial Agent in Burns, Wounds, and Ulcers	42
<u>1956</u>	The Effect of Pre-Treatment with Zymosen on Survival Rate of Experimentally Burned Rats	191
<u>1958</u>	The Clinical Trial of Pasteurized Pooled Plasma	120
<u>1958</u>	Solubilized Keratin as a Plasma Expander	436
<u>1960</u>	Experimental Study of Effects of Heparin on Deep Dermal Burns	236
<u>1960</u>	Experimental Evaluation of Salcolan for Local Burn Therapy	148
<u>1961</u>	Experimental Evaluation of Oliguria and Edema in Burns with the Use of Urea (Preliminary Report)	210

HYPOTHERMIA

<u>YEAR</u>		<u>PAGE</u>
<u>1955</u>	Experimental Hypothermia in Burns	101
<u>1956</u>	Experimental Hypothermia in Burns	149
<u>1959</u>	Studies in the Physiological Response to Fluid Therapy and to Hypothermia in Dogs with Extensive Standardized Burns	221

METABOLIC AND NUTRITION STUDIES

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Nutrition Studies	60
<u>1953</u>	Nutrition Studies	29
<u>1954 I</u>	Electrophoretic Studies with Case Reports	26
<u>1954 I</u>	Case Reports	29
<u>1954 II</u>	Nutrition Studies in the Severely Burned	32
<u>1955</u>	Nutrition Studies in the Severely Burned (Reprint)	90
<u>1955</u>	The Effects of High Protein Feeding Upon Colonic Motility	91
<u>1955</u>	Electrophoretic Studies	99
<u>1958</u>	High Protein Feeding in the Severely Burned Patient	340

STATISTICS

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Burn Deaths	83
<u>1953</u>	Burn Statistics (April-September, 1953)	1
<u>1954 I</u>	Burn Statistics (January, 1950-January, 1954)	23
<u>1955</u>	Burn Statistics and Summary of Local Therapy	1
<u>1956</u>	Burn Statistics	1
<u>1957</u>	Burn Statistics	1
<u>1958</u>	Burn Statistics and Summary of Local Therapy	330
<u>1959</u>	Burn Statistics (1958-1959)	44
<u>1959</u>	A Statistical Study of 1,000 Burn Patients Admitted to the Plastic Surgery Service of the University of Texas Medical Branch (1950-1959)	54
<u>1960</u>	Burn Statistics	117
<u>1961</u>	Burn Statistics and Analysis (1960-1961)	227

TIME AND MOTION ANALYSIS OF OPERATING PROCEDURES

<u>YEAR</u>		<u>PAGE</u>
<u>1958</u>	Motion and Time Analysis of Operating Room Procedures	215
<u>1960</u>	Motion - Time Analysis of Operation Room Procedures. Re-evaluation	304

BACTERIOLOGY AND IMMUNOLOGY

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Clinical Studies	32
<u>1950-53</u>	Proteolytic and Anti-Tryptic Activity of Serum. A Preliminary Study	35
<u>1953</u>	Testing the Efficacy of Arquad-3 as a Sanitizing Agent	4
<u>1953</u>	Antibiotic and Staphylococcal Resistance	8
<u>1953</u>	The Disc Method as a Method of Choice for Determining Antibiotic Sensitivity of an Organism	15
<u>1954 I&II</u>	Study on Bacterial Flora and Susceptibility to Antibiotic	1
<u>1954 II</u>	Preliminary Report on Topical Use of Neosporin Ointment	3
<u>1954 II</u>	Studies on Cross-Contamination	8
	1. Air Sampling of the New John Sealy Hospital	8
	2. Patient to Patient Cross-Contamination	9
<u>1955</u>	Alterations in the Serum Proteolytic Inhibitor Titre in Burns	43
<u>1955</u>	Phenyl Ethyl Alcohol as a Topical Antimicrobial Agent	65
<u>1956</u>	Topical Antibacterial Study	34
<u>1957</u>	General Aspects of Microbial Growth in the Burn Wound	41
<u>1958</u>	The Antimicrobial Activity of Serum	1
<u>1958</u>	Staphylococcal Infection and the Phage 81 Problems	91
<u>1958</u>	Antibody Studies in Burn Patients	95

<u>YEAR</u>		<u>PAGE</u>
<u>1959</u>	Antibody Studies in Burn Patients	258
<u>1960</u>	The Role of Auto-Contamination in Post Operative Infection	250
<u>1960</u>	Staphylokinase Levels in Staphylococci from Clinical Sources	
<u>1960</u>	Combine Antibiotic-Antitoxin Therapy of Experimental Staphylococcal Infection in Mice	
<u>1961</u>	Study of Burn Wound Flora	248

DISASTER AND MASS CASUALTIES

<u>YEAR</u>		<u>PAGE</u>
<u>1955</u>	Mass Disaster Treatment of Burns	112
<u>1957</u>	Follow-Up Medical Survey of the Texas City Disaster	215
<u>1958</u>	The Clinical Trial of Pasteurized Pooled Plasma	120
<u>1958</u>	Civilian Medical Facilities in Disaster	138
<u>1958</u>	Follow-Up Medical Survey of the Texas City Disaster	149
<u>1959</u>	An Emergency Burn Center	89

HOMOTRANSPLANTATION

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Studies on the Survival of Skin Homografts	23
<u>1950-53</u>	Skin Bank Studies	9
	1. Skin Banks	9
	2. Viability of Skin in Relation to Various Methods of Storage	9
	3. Lyophilized Skin	10
<u>1953</u>	Homograft Studies	95
	1. ACTH and Cortisone	95
	2. Lyophilized Skin	96
	3. Foreskin	97
<u>1954 II</u>	Homograft Studies	16
<u>1955</u>	Report of Case with Frozen Homotransplants	73
<u>1955</u>	Experiments on the Acquired Tolerance Phenomenon of Skin Homografts in Mice	82
<u>1956</u>	Homograft Studies	171
	1. Experimental Study	171
	2. Clinical Study: Follow-Up Report of Patient with 85% Burns	176
<u>1957</u>	The Effects of Antibiotics on the Organisms Colonizing Burn Wounds and on the Success of Skin Grafting	52
<u>1957</u>	A Study of Clinical Criteria for Success of Skin Grafting	69

<u>YEAR</u>		<u>PAGE</u>
<u>1957</u>	Reasons for Failure of Take on Skin Grafting of Burned Areas	73
<u>1957</u>	The Relationship Between Granulation Tissue, Bacteria, and Skin Grafts on Burned Patients	85
<u>1957</u>	An Evaluation on Non-viable Skin Homografts	131
<u>1958</u>	The Use of Keratin Film as a Synthetic Homograft Substitute	296
<u>1958</u>	Preparation of a Vinyl Plastic Membrane for Trial as a Synthetic Homograft	315
<u>1958</u>	A Method for Obtaining and Grafting Finely Divided Autologous Skin	317
<u>1959</u>	Studies on the Survival of Skin Homografts	23
<u>1959</u>	The Local Leukocytic Response to Skin Grafting	210
<u>1960</u>	Study of the Relationship Between Area and Persistence of Homografts in Rats	264
<u>1961</u>	Observations on the Validity of Surface Area Calculations of Rats in the Laboratory	65
<u>1961</u>	Influence of Thermal Trauma <u>Per Se</u> on Homograft Survival. An Experimental Study	80
<u>1961</u>	Homograft Studies in the Rat with Specific Reference to Size of Transplants in Relation to Survival Time	102

LYMPHATIC STUDIES

<u>YEAR</u>		<u>PAGE</u>
<u>1953</u>	Study of the Disappearance of Radioactive Sodium from the Skin of the Lower Extremities	28
<u>1954 I</u>	Study of the Disappearance of Radioactive Sodium from the Skin of the Lower Extremities: Progress Report	21
<u>1958</u>	Hydrodynamics of the Lower Extremity Lymphatics Following Trauma	264
<u>1958</u>	Cannulation of the Lymphatics of the Lower Extremity	283
<u>1959</u>	Studies of Ulceration and Edema of the Lower Extremity by Lymphatic Cannulation	2
<u>1959</u>	Photograph of Lymphatic Exhibit	42
<u>1959</u>	Cannulation of the Lymphatics of the Lower Extremity	303
<u>1960</u>	Lymphodynamics	269
<u>1960</u>	Experimental Perfusion of the Lymphatics	294
<u>1960</u>	Experimental Study of the Effects of Burns on the Characteristics of Lymph Fluid	296

RADIOISOTOPE AND NUCLEAR CYTOLOGY

I. RADIOACTIVE ISOTOPE STUDIES

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Radioactive Isotope Studies	98
<u>1953</u>	Study of the Disappearance of Radioactive Sodium from the Skin of the Lower Extremities	28
<u>1954 I</u>	Study of the Disappearance of Radioactive Sodium from the Skin of the Lower Extremities	21

II. NUCLEAR CYTOLOGY STUDIES

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Studies in Nuclear Cytology	19

REPORTS ON MEDICAL TRIPS AND MEETINGS

<u>YEAR</u>		<u>PAGE</u>
<u>1955</u>	Report on First International Congress of Plastic Surgery	142
<u>1959</u>	Notes on Visit to the U.S.S.R., June 27 - July 10, 1959, to Observe Surgical Techniques and Research	271
<u>1960</u>	Report of International Symposium in Plastic Surgery Marianske Lazne, June 28-30, 1960, and Tour of Various European Burn Centers	1

TISSUE CULTURE STUDIES

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Tissue Culture Studies as Related to Burns and Wound Healing	1
<u>1950-53</u>	Effects of Extracts of Burned Skin on Tissue Culture Epithelial Outgrowth	11

TRAUMA STUDIES

<u>YEAR</u>		<u>PAGE</u>
<u>1955</u>	Mass Disaster Treatment of Burns	112
<u>1955</u>	Physiology and Treatment of Shock (Reprint)	126
<u>1955</u>	Acute Injuries of the Face	127
<u>1957</u>	Follow-Up on Medical Survey of the Texas City Disaster	215
<u>1958</u>	Follow-Up on Medical Survey of the Texas City Disaster	149
<u>1961</u>	Trauma - A Neglected Specialty?	1
<u>1961</u>	The Unreliability of T.A.T. Skin Tests After Trauma	10
<u>1961</u>	Distal Extremity Necrosis Following Snake Bite	16

WOUND HEALING STUDIES

<u>YEAR</u>		<u>PAGE</u>
<u>1950-53</u>	Optimum Conditions for Growth of Epithelium; Wound Healing Agents	4
	1. The Effects of Ascitic Fluid and of Blood Serum on the Outgrowth of Epidermal Cells from the Human Skin in Tissue Culture	4
	2. Free Amino-Acids in Malignant and Non-Malignant Ascitic and Pleural Fluids	5
	3. The Influence of Normal Serum: Its Derivatives, and of "Wound Healing Agents" on Human Epidermis <u>In Vitro</u>	6
<u>1953</u>	Cellular Differentiation in Tissue Culture: Undifferentiated and Differentiated Elements of the Triturus Viridescens Blastema in Tissue Culture: A Preliminary Study with Amphibian Tissue	30
<u>1954 I</u>	Cellular Differentiation in Tissue Culture: Undifferentiated and Differentiated Elements of the Triturus Viridescens Blastema in Tissue Culture: A Preliminary Study with Amphibian Tissue	59
<u>1955</u>	Comparative Histochemical Observations on Wound Healing in Adult Rats and Cultured Adult Human Epithelium (Reprint)	141
	1. Method and Glycogen Distribution	
	2. Ribonucleic Acid and Thymonucleic Acid	
	3. Alkaline and Acid Phosphatase	
<u>1956</u>	Histochemical Studies of the Dermis During the Process of Wound Healing Following Thermal Trauma	108
<u>1956</u>	Keloid and Hypertrophic Scars: A Clinical Review	116

<u>YEAR</u>		<u>PAGE</u>
<u>1956</u>	Experimental Keloid Formation: A Preliminary Report	136
<u>1957</u>	Wound Healing as a Problem in Growth	142
<u>1958</u>	Colostomy Junctions as Related to the Problem of Wound Healing	97
<u>1958</u>	Microbiological and Histological Studies in Wound Healing	115
<u>1960</u>	Leukocytic Patterns in Granulating Burns	143
