Library of Congress

**MICROMETEOROLOGY,
AEROSOLS, AND AIR POLLUTION**

Bibliography

The publication of this report does not constitute approval by any U. S. Government organization of the inferences, findings, and conclusions contained herein. It is published solely for the exchange and stimulation of ideas.

**Aerospace Information Division
Library of Congress**

FOREWORD

This bibliography has been prepared in response to AID Work Assignment No. 50. It is based on Soviet and Soviet-bloc open-source materials available at the Aerospace Information Division and the Library of Congress. The bibliography is divided into two parts: Part I. Micrometeorology and Part II. Aerosols and Air Pollution. Titles of monographs are given in transliterated form, followed by the English translation. Library of Congress call numbers are included at the end of an entry when the item is cataloged and available in the collections of the Library. The 108 entries are arranged alphabetically by author. An author index is provided.

PART I. MICROMETEOROLOGY

1. Akademiya nauk SSSR. Institut geografii. Rol' snezhnogo pokrova v prirodnykh protsessakh (The role of snow cover in natural processes). Moskva, 1961. 270 p. GB2403.A53
