3 November 1969

SUBJECT: Operational Report of Headquarters, 7th Battalion, 8th Field Artillery for Period Ending 31 October 1969. ASC CSFOL-65 (U)

1. (c) Section 1. Operations. Significant Activities.

a. Personnel

(1) The 7th Battalion, 8th Field Artillery remained assigned to the 54th Field Artillery Group until 17 October 1969. Effective that date the battalion became an assigned unit of Hq, II Field Force Vietnam Arty. The mission of the Battalion is General Support, II Field Force Vietnam.

(2) At the close of the reporting period the base camps of the batteries were as follows:

(a) Headquarters Battery - Bien Hoa

(b) Service Battery - Bien Hoa

(c) Battery A - Bien Hoa

(d) Battery B - Xuan Loc

(e) Battery C - Ben Luc

(3) During the reporting period the following command changes were made:

(a) CPT Dewey H. Burris assumed command of Service Battery on 8 September 1969.

(b) CPT William P. Moore III assumed command of Battery A on 25 September 1969.

(c) CPT Loyance W. Hill assumed command of Battery B on 8 October 1969.

(4) Normal S1 activities were conducted during the period 1 August 1969 thru 31 October 1969.

(5) During the reporting period the battalion did not infuse personnel to other battalions within 54th Field Artillery Group or II Field Force Vietnam Artillery.

(6) Personnel strength of command as of 31 October was as follows:

UNIT	TOE AUTHORIZATION			ASSIGNED		
	OFF	WO	EM	OFF	WO	EM
HHB	17	3	115	17	1	131
Btry A	6		112	5		111
Btry B	6		112	6		113
Btry C	6		112	6		114
SVC Btry	2	3	71	3	3	75
TOTAL	37	6	522	37	4	544

3 November 1969

SUBJECT: Operational Report of Headquarters, 7th Battalion, 8th Field Artillery for Period Ending 31 October 1969, RSC CSFQR_65 (U)

(7) Personnel changes during the period covered:

GAINS:	OFF	WO	EM	LOSSES:	OFF	WO	EM
Aug	3	1	29		5	0	39
Sep	8		38		6		17
Oct	3	1	52		2	1	16
	14	2	119		13	1	72

(8) Casualties:	TYPE	NUMBER
	Killed in Action	0
	Wounded in Action	0
	Missing in Action	0
	Non-Battle Casualties	9
	Non-Battle Dead	1

(9) Pertinent medical service statistics include:

Total Patient Visits	722
Hospital Admissions	22
IHA	0
Non-Battle Injuries	15
Infectious Hepatitis	0
Evacuated Out of Country	3
KHRA	0
Malaria	3

(10) The following awards were presented to members of this command:

Silver Star Medal	1
Bronze Star Medal	29
Army Commendation Medal	66
Air Medal	5

3 November 1969

SUBJECT: Operational Report of Headquarters, 7th Battalion, 8th Field Artillery for Period Ending 31 October 1969, RSC CSFCh-65 (U)

(1) During the reporting period the battalion received credit for the following:

(a) Enemy KIA	65
(b) Possible KIA	11
(c) Destroyed Bunkers	186
(d) Fox Holes	16
(e) Sampans	4
(f) Houses	11
(g) Supply Caches	1
(h) Secondary Explosions	53
(i) Cave Entrances Closed	34
(j) Barrels	7
(k) Fighting Positions	44
(l) Damaged Bunkers	13
(m) POL Storage	2
(n) Bridge	1
(o) Rocket Launchers Destroyed	3
(p) 80 Meter Trench Line Destroyed	1
(q) Damaged Buildings	8

(2) Normal operations consistent with the battalion mission of general support of II Field Forces were conducted.

(3) During the reporting period the following units were located in the Bien Hoa area and had their fires controlled by this headquarters.

- (a) Battery B, 7th Bn, 8th FA from 1 Aug 69 to 5 Aug 69.
- (b) Battery A, 7th Bn, 9th FA from 1 Aug 69 to 12 Aug 69
- (c) Battery C, 7th Bn, 8th FA from 5 Aug 69 to 10 Sep 69

CONFIDENTIAL

AVGAO-CO

3 November 1969

SUBJECT: Operational Report of Headquarters, 7th Battalion, 8th Field Artillery for Period Ending 31 October 1969, USC CSFO-65 (U)

- (d) Battery C, 2nd Bn, 35th FA from 1 Aug 69 to 25 Sep 69
- (e) Battery A, 7th Bn, 8th FA from 10 Sep 69 to present
- (f) Battery C, 6th Bn, 15th FA from 12 Aug to 11 Oct 69
- (g) Battery A, 2nd Bn, 35th FA from 5 Aug 69 to present
- (h) Battery C, 5th Bn, 42nd FA from 5 Aug 69 to present

(4) Battery A Unit Activities: Battery A had been located at Ben Luc until 10 September 1969. On that date the battery displaced to FSB Echo with the mission of GS, II FFV. On 8 Oct 69 a 175mm platoon displaced from FSB Echo to Nui Dat (1st Australian Task Force Base Camp) and returned to FSB Echo on 11 October 69. On 21 October 1969 a 175mm platoon displaced to FSB Libby and returned to FSB Echo on 24 October 1969. On 30 Oct the 175mm platoon again moved to FSB Libby. The Battery remains split with the 8" platoon at FSB Echo and the 175mm platoon at FSB Libby.

(5) Battery B Unit Activities: Battery B which previously had been located at FSB Echo moved to Xuan Loc on 5 August 1969, with the mission of GS II FFV. On 23 August 1969 an 8" platoon displaced from Xuan Loc to FSB Keoner and returned to Xuan Loc on 26 August 1969. The 8" howitzer platoon again moved to FSB Keoner on 2 September 1969 and moved to FSB Nancy on 3 September 1969. On 5 September 1969, the 8" platoon displaced from FSB Nancy to Xuan Loc. The howitzer platoon moved to FSB Blackhorse from Xuan Loc on 11 September 1969 and returned on 20 September 1969. Again on 24 September 1969 the same platoon displaced to FSB Libby and then moved to FSB Blackhorse on 27 September 1969. The platoon returned to Xuan Loc on 11 October 1969 where it remains at the present time.

(6) Battery C Unit Activities: On 5 August 1969, Battery C moved from Xuan Loc where it had been located since 29 March 1969 to FSB Echo with the mission of GS, II FFV. The same mission continues at the present time. An 8" howitzer platoon displaced to FSB Thrust on 8 August 1969 and returned to Nui Dat that same night. Again on 9 August, the platoon moved to FSB Thrust and returned to Nui Dat that night. The platoon returned to FSB Echo on 10 August 1969. On 26 August 1969, Battery C displaced to Nui Dat and returned to FSB Echo on 29 August 1969. On 10 September 1969 a 175mm platoon moved from FSB Echo to FSB Elaine and one 8" howitzer and one 175mm gun displaced from FSB Echo to Ben Luc. On 28 October 1969 the 175mm platoon displaced from FSB Elaine to Ben Luc where the battery remains at the present time.

(7) The following number of missions were fired with a total ammunition expenditure as listed below.

c. Training

(1) Due to the continuous turnover of experienced personnel, emphasis has been and will continue to be placed on replacement training. Replacement training has been accomplished through cyclic firing battery and fire direction center programs of instruction, battalions schools and a carefully monitored program of on-the-job training.

(2) Fire direction tests and artillery clearance procedures examinations are administered to all appropriate in-coming personnel and on a monthly basis to assigned personnel. These tests are administered to insure that personnel are completely knowledgeable of their duties, to provide refresher training and to insure the proficiency of new personnel.

(o) Fire Direction	13-18 Oct 1969	6
(p) Btry/Bn Administration	13 Oct 1969	5
(q) PLL School	12-17 Oct 1969	1

(4) In-country orientation training during the reporting period has been accomplished through the 199th Light Infantry Brigade Combat Training Center and the 101st Airborne Replacement Training School. All new replacements arriving during the reporting period, except those of pay grade E6 or higher, attended a replacement training school within one week of assignment to the battalion.

d. Intelligence: Target Acquisition.

CONFIDENTIAL

CONFIDENTIAL

AVGAO-CO

3 November 1969

SUBJECT: Operational Report of Headquarters, 7th Battalion, 8th Field artillery for Period Ending 31 October 1969. RSC CSFOR-65 (U)

(1) During this reporting period the battalion has had use of an O-1E Aircraft for visual reconnaissance missions. The battalion is responsible for conducting visual reconnaissance missions in the Long Binh/Bien Hoa area. Coordinates YT 970300, YT 150100, YT 070130, XT 970190.

(2) During the period 1 August 1969 through 31 October 1969, 79 missions were flown in 280 hours. Of the 79 missions flown, 3 were night observation flights.

(3) The following targets were detected and fired upon during this reporting period.

(a) Suspected VC locations	16
(b) Base camps	6
(c) Supply Caches	4
(d) Bunkers	37
(e) Foxholes	21
(f) Huts	6
(g) Tunnels	2
(h) Foot bridges	2
(i) Secondary explosions observed	10

(4) The daily visual reconnaissance missions are proving to be the battalion's most reliable and productive means of obtaining current surveillance and target data. Additional emphasis is being placed on night visual reconnaissance flights over known and suspected enemy assembly areas, supply routes and rocket/mortar launch sites. The timely receipt of intelligence information at the battalion level through normal intelligence channels continues as a major problem area. Many targets are 24 to 36 hours old when they are received at the battalion. In most instances the target's tactical value is considerably degraded because of the long time lapse. The majority of our targets are unobserved due to the local tactical situation at the time the target is engaged. In addition the heavy jungle canopy frequently prevents adequate aerial surveillance of the target areas. The availability of ground forces to conduct a ground sweep through the target area is minimal.

e. Logistics:

(1) The wheeled vehicles experienced 470 down days out of a possible available 7090 days. Tracked vehicles experienced 116 down days out of a possible available 1054 days. The resulting downtime rates were 6.6% for wheeled

CONFIDENTIAL

CONFIDENTIAL

AVGAG-CC

3 November 1969

SUBJECT: Operational Report of Headquarters, 7th Battalion, 8th Field Artillery for Period Ending 31 October 1969, RSC CSFOR-65 (U)

vehicles and 7.6% deadline rate for tracked vehicles. Of the 116 down days for tracked vehicles 74 days can be attributed to the M548 carrier. Of these 74 days 68 days were charged to support maintenance. This battalion's down time on its 8" howitzers and 175mm guns is primarily (52%) attributed to shortage of the required spare parts at organizational maintenance level. The 8" howitzers, 175 mm guns showed 74 down days out of a possible 1,507. Of the 74 down days 39 were chargeable to organizational supply, 20 were chargeable to organizational maintenance and 15 were chargeable to support maintenance.

(2) Ammunition resupply for the period.

<u>TYPE</u>	<u>AUGUST</u>	<u>SEPTEMBER</u>	<u>OCTOBER</u>
Proj 8" HE	5176	3632	3600
Proj 175mm HE	5245	4465	3000
Proj ICM	18	66	0
Ctg 40mm	0	1944	360
Ctg 7.62mm (Ball)	0	0	6000
Ctg 5.56mm (Ball)	0	0	0
Claymore	36	0	64
Trip Flare	64	0	36
Signal Flare	608	342	0

(3) During the reporting period the ammunition train traveled 30,751 miles.

f. Organization: MTOE 6-435G dated 11 June 1969

g. Others

(1) Civic Actions: The battalion is continuing to support registered orphanages and day schools in the local area which are not receiving adequate assistance from other sources. Additional pacification programs are being conducted by batteries located in remote fire support bases. These projects consist primarily of Medcaps and distribution of building materials.

(2) In support of the above projects the following materials and commodities were distributed to Vietnamese nationals and/or utilized for their welfare at the cost and man-days indicated.

(a) Man-days Devoted 6

(b) Cost of supplies from military sources VN\$ 25,000

CONFIDENTIAL

CONFIDENTIAL

AVGHO-CO

3 November 1969

SUBJECT: Operational Report of Headquarters, 7th Battalion, 8th Field Artillery for Period Ending 31 October 1969, RSC CSFOR-65 (U)

(c) Voluntary Donations	VN\$ 2,000
(d) Number of patients treated by Medcap	94
(e) Tin Sheets	55
(f) Cement	400 Lbs
(g) Lumber	80 Bd Ft
(h) Clothing	20 Lbs
(i) Food	120 Lbs
(j) Health items	30 Lbs

(3) During the reporting period additional emphasis was placed on conducting pacification programs at the local areas surrounding our remote firing battery locations. A program is under way to encourage Vietnamese civilians who work in local orphanages and day schools to attend free courses of instruction on first aid and sanitation conducted by the U.S. military personnel.

2. SECTION 2, Lessons Learned: Commanders Observations, Evaluation and Recommendations.

- a. Personnel. None
- b. Intelligence. None.
- c. Operations.

(1) (a) Observation: In the course of an artillery raid this battalion experienced unnecessary confusion and delay in utilizing a heavy raft to cross an unfordable river. This was a result of failure to coordinate directly between the artillery unit utilizing the raft and the engineer unit responsible for building it.

(b) Evaluation: An artillery raid and the crossing of an unfordable river, taken separately, are complex operations. When the two operations are combined the coordination requirements compound themselves. By its very nature an artillery raid is of short duration and normally executed by the unit after a very short period of preparation. The unit preparing the raft and raft site is also working with a very short preparation and execution period. In the environment that is Vietnam today a delay in getting equipment ferried across a river presents an all too vulnerable target for enemy attack.

(c) Recommendation: That executing units place more emphasis on the fundamental coordination between themselves rather than relying on someone else to do the coordinating.

CONFIDENTIAL

CONFIDENTIAL

AVGAO-CO

3 November 1969

SUBJECT: Operational Report of headquarters, 7th Battalion, 8th Field Artillery for Period Ending 31 October 1969, RSC CSFOR-65 (U)

(2) (a) **Observation:** Unnecessary confusion, lost time, and problems have resulted from the fact that survey and orientation data for previously occupied fire support bases are not reported to and recorded by the Force Artillery Survey Information Center (SIC).

(b) **Evaluation:** On numerous occasions an artillery fire unit occupies a previously active fire support base only to find the survey grid location and orientation data not readily available. This necessitates the redoing of a position area survey from a known Survey Control Point contained in the SIC Trig List for the area. If the position area survey and orientation data was provided to the SIC to be published as an annex to the Trig List considerable survey man hours of effort could be eliminated and accurate fire for effect fires could be delivered sooner than at the present time.

(c) **Recommendation:** That an annex be established for the SIC Trig List which would contain the known position area data for previously established fire support bases. As a minimum the location and description of battery (Platoon) center, all orientation stations, and the azimuth marks to the ends of the orienting lines be included.

d. **Organization.** None.

e. **Training**

(1) (a) **Observation:** While this battalion's TO&E does include an azimuth gyroscope for determining direction it is not fast or reliable enough for rapid and accurate position area survey.

(b) **Evaluation:** The present azimuth gyro must be carefully set up and checked by at least one other means to determine the acceptability of the direction control it is generating. During the monsoon season it is frequently difficult to obtain an astronomical observation due to frequent and persistent cloud cover. Thus the survey party must use an aiming circle magnetic needle or rely on azimuth marks noted in the SIC Trig List when they can be located. There have been several instances where azimuth marks have been destroyed or moved by unknown persons.

(c) **Recommendations:** As an interim measure an additional azimuth gyroscope be made available to the battalion survey section. That as soon as practical a faster and less sensitive azimuth gyroscope be procured for use by artillery surveyors. It is recommended that a prime candidate for the new gyroscope is a laser gyroscope. This type of gyroscope is less sensitive and promises to be more reliable.

(2) (a) **Observation:** It has been difficult to penetrate double and triple canopied Jungle with the M557 or M572 impact fuses set for delay action. Additionally it has an unacceptably high dud rate, when set for delay action.

CONFIDENTIAL

CONFIDENTIAL

AVG/O-CO

5 November 1969

SUBJECT: Operational Report For Headquarters, 7th Battalion, 8th Field Artillery for the Period Ending 31 October 1969, RSC CSFOR-65 (U)

(b) **Evaluation:** The M557 or M572 impact fuzes set for delay action are not good fuzes to use because of their unacceptable dud rate and inability to penetrate sufficiently to be effective on the ground. This necessitates wasting many rounds and precious time in an attempt to clear a reasonable path to the ground. The M78 Concrete Piercing Fuze series has been found to be of invaluable assistance with the 8-inch howitzer in attacking targets in double or triple canopied jungle as well as in destroying hard targets that the M557 fuze with delay action had been ineffectual against. No duds have been experienced with the M78 concrete Piercing Fuze, to date.

(c) **Recommendations:** 1 That the M78 series fuze be made available in sufficient quantities to be used in attacking hard targets and targets below double and triple canopied jungle.

2 That the required tests be conducted to certify the M78 series fuze for use with at least Zone 1 and 2 charges for the 175mm gun.

f. Logistics:

(1) (a) **Observation:** Shortages of XM1 Bore Wear Reducing Additive Jackets for the 175mm gun have been experienced.

(b) **Evaluation:** The shortage of additive jacket can be attributed to a failure to predict the rates at which Zone 3 charges have been fired by the 175mm guns. In recent months approximately 63 percent of all 175mm rounds fired by the battalion were shot at maximum charge (zone 3).

(c) **Recommendation:** That the 175mm Gun Bore Wear Reducing Additive Jackets be procured at a higher rate than is being done presently.

(2) (a) **Observation:** The battalion has experienced excessive down time on its FADAC generators awaiting repair parts in Direct Support (DS) Maintenance.

(b) **Evaluation:** During the 20 June - 20 September 1969 period the battalion experienced 186 out of a possible 722 days down time on our FADAC generators. The majority of the down time can be directly attributed to the fact that repair parts such as frequency controls, output controls, and converters were not available at the DS Maintenance facility.

(c) **Recommendation:** That an intensive examination be made of all ASL items for FADAC generators to determine why the necessary repair parts are not available. If it is determined that demand data are being reported, the problem should be investigated thoroughly by the proper CONUS logistic agencies in an effort to correct the current repair parts deficiencies.

g. **Communications.** None.

h. **Material.** None.

AVICG-DST (3 Nov 69) 3d Ind

SUBJECT: Operational Report of Headquarters, 7th Battalion, 8th Field Artillery for Period Ending 31 October 1969, RUS US/CR-65 (U)

HEADQUARTERS, UNITED STATES ARMY, VIETNAM, APO San Francisco 96375 23 DEC 1969

TO: Commander in Chief, United States Army, Pacific, ATTN: GPOF-DT, APO 96558

1. (U) This headquarters has reviewed the Operational Report-Lessons Learned for the quarterly period ending 31 October 1969 from Headquarters, 7th Battalion, 8th Field Artillery.

2. (C) Comments follow:

a. (C) Reference item concerning "Training", page 12, paragraph 2c(1); nonconcur. An additional azimuth gyroscope, artillery (line number U60046) would not serve as a valid check of another azimuth gyroscope. USARV Customer Assistance Officer has queried MECOM about the "laser gyroscope", a system currently in the developmental stage. System description data from MECOM has been requested. The unit has been requested to document the unsatisfactory equipment performance through the submission of an Elk. Recommend DA provide system performance information regarding azimuth gyroscope to USARV.

b. (C) Reference item concerning "Training", page 12, paragraph 2c(2). Both MUCOM and APSA have been queried about the feasibility of using the fuze as described. USARV G4 (Ammunition) indicates sufficient quantities of the M78 series fuze are in country at present. A request has been forwarded to APSA (SMUAP-RS) for conducting the tests necessary to certify the M78 series fuze for use with at least Zone 1 and 2 charges for the 175mm gun.

c. (C) Reference item concerning "Logistics", page 13, paragraph 2f(1); concur. Ammunition assets have been replenished and no shortage exists at present. Stockage objectives within Vietnam vary from 33% to 470% depending on depot location. No action by USARPAC or DA is required.

d. (U) Reference item concerning "Logistics", page 13, paragraph 2f(2); concur. 1st Logistical Command will be asked to contact the unit to determine the exact nature of the repair parts problem and to review theater stockage of repair parts for the FADAC generator. If necessary the CONUS NICEP will be contacted to assist in supply of necessary parts. The unit will be provided info copy of action taken.
