LABORATORY ANIMALS part II

ANIMALS FOR RESEARCH

**A Directory of Sources of
Laboratory Animals, Tissues and Fluids,
Equipment, and Materials**

Revised August 1966

**A Report of the
INSTITUTE OF LABORATORY ANIMAL RESOURCES
National Academy of Sciences
National Research Council**

**Publication 1413
NATIONAL ACADEMY OF SCIENCES - NATIONAL RESEARCH COUNCIL
Washington, D. C.
1966**

This publication was supported in part by Contract PH43-64-44 from the U.S. Public Health Service; Grant #RC-1H from the American Cancer Society, Inc.; Contract Nonr-2300(24) with the Office of Naval Research, U.S. Army, and U.S. Air Force; and Contract AT(49-1)643 with the U.S. Atomic Energy Commission.

The Institute of Laboratory Animal Resources of the National Academy of Sciences—National Research Council presents this directory as a service to the scientific community. It makes no claims for the animal stocks, laboratory animal equipment, or materials listed herein. The Institute does not recommend or endorse any breeder, supplier, importer, collector, or manufacturer, nor does it recommend or endorse any product. No claim is made for the authenticity of either scientific or vernacular names. The information in this directory is essentially that submitted by the various commercial organizations listed.

INSTITUTE OF LABORATORY ANIMAL RESOURCES

The Institute of Laboratory Animal Resources, established in 1952 under the Division of Biology and Agriculture of the National Academy of Sciences—National Research Council, serves as an advisory body in the field of laboratory animal supply and quality. It acts as an information center and prepares reports on laboratory animal subjects. The Institute, its Advisory Council and Committees, may act on their own initiative or on request from public or private agencies.

The members of the Advisory Council and the Committees are appointed from among leaders in biological research, veterinary medicine, and the breeding industry on the basis of their qualifications of experience and judgment to deal with the broad problems that come before them. Members of the Advisory Council and Committees serve without compensation beyond their actual expenses.

Financial support for the activities and publications of the Institute is provided by grants from and contracts with the Office of Naval Research, U.S. Army, U.S. Air Force, U.S. Atomic Energy Commission, U.S. Public Health Service, American Cancer Society, Inc., and the pharmaceutical and related industries.

FOREWORD

Established in 1952, the Institute of Laboratory Animal Resources has, since its inception, served as a focal point for information on the supply and quality of experimental animals. Five previous issues of this directory have contributed greatly to the proper provisioning of animals for research, testing, and teaching programs in the United States. The Institute's information center has assisted biological and medical scientists in obtaining appropriate animal species for experimental programs. Continuous surveys of available supplies of the common laboratory animals have made possible the matching of research demand with commercial supply. In the area of animal quality, the Institute has developed standards for the production, procurement, care, maintenance, shipment, and utilization of experimental animals.

This directory was edited by Mary B. Sundborg. Staff contributions to the preparation of this publication were made by Robert H. Yager, Executive Secretary, and Francis J. Judge, Assistant Executive Secretary.

DIRECTIONS FOR USE OF THE DIRECTORY

The directory is divided into the following sections:

1. Section I, pages 3 to 20, comprises the listings for the common domestic animals (chickens, turkeys, non-inbred mice, inbred mice, hybrid mice, rats, hamsters, guinea pigs, dogs, cats, cattle, goats, sheep, and swine). Species are arranged by strain designation, strain origin, breeding system, and coded name and address of supplier.
2. Section II, pages 23 to 53, lists the commercially available animals obtained from nature in phylogenetic order, beginning with the Protozoa and ending with the Chordata. Scientific name, common name, and coded name and address of supplier are given.
3. Section III, page 57 lists sources of tissues, organs, and fluids of various species used in research.
4. Section IV, pages 61 to 70, indicates suppliers and manufacturers of ancillary laboratory equipment, cages, feed, germ-free equipment, and washing machines. Species of animals for which they can be used, and coded name and address of supplier are provided.
5. Section V, pages 73 to 89, gives the coded names, addresses, and telephone numbers of suppliers whose animals, equipment, and materials are listed in the directory.
6. Section VI, pages 93 to 95, is composed of two indexes—common animal name and scientific name.

CONTENTS

I. COMMON DOMESTIC LABORATORY ANIMALS

Chickens and chick embryos	3
Turkeys and turkey embryos	4
Rabbits	4
Mice, non-inbred	6
Mice, inbred	8
Mice, hybrid of inbred strains	13
Rats	14
Hamsters	16
Guinea pigs	16
Dogs	19
Cats	20
Cattle, goats, sheep, swine	20

II. ANIMALS OBTAINED FROM NATURE

Protozoa	23
Porifera	23
Coelenterata	23
Ctenophora	24
Platyhelminthes	24
Aschelminthes	24
Bryozoa	25
Sipunculoidea	25
Echinodermata	25
Mollusca	26
Annelida	26
Arthropoda	27
Chordata	30

III. TISSUES AND FLUIDS	57
IV. LABORATORY ANIMAL EQUIPMENT AND MATERIALS	
Animal feed	61
Washing machines	61
Animal cages	62
Ancillary laboratory equipment	66
Germ-free laboratory equipment	70
V. SUPPLIER AND MANUFACTURER ADDRESS CODES	73
VI. INDEXES	
Common name index	93
Scientific name index	95

Strain Designation	Strain Origin	Breeding System	Code
SEC/IReJ	E. S. Russell, from SEC/1Gn, to JAX 1964	BxS	JAX
SJL/J	Developed from Swiss-Webster stock, 3 sources brought to JAX between 1938 and 1943. Between 1943 and 1955 no regular breeding system. In 1955 stock sent to FS. Maintained BxS since then	BxS	JAX
SM/J	MacArthur to Runner in 1948; Rr. to JAX in 1964 at F14	BxS	JAX
ST/bJ	Engelbreth-Holm, to Heston at F23. He to JAX in 1948 at F25	BxS	JAX
Swiss-Webster		BxS	LEM, ZAR
Swiss-Webster	Rockefeller Inst.	BxS	SUO
SWR/J	A strain of "Swiss" mice from A. de Coulon, Lausanne, Inbred by Lynch; to Parker to JAX in 1947 at F28+	BxS	JAX
101/Cum	ORNL	BxS	CUM
129/J	Dunn, to R1, to Rr. R1 sent mice to Hunt spring of 1947 and Rr to Wynder in Aug. 1947. After Bar Harbor fire, 1948, Hunt returned to JAX a <u>c^{chp}/o^{chp}</u> subline, and Wynder a <u>op/op</u> subline. Original genotype reconstituted by crossing ♀♀ of former and a ♂ of latter. Offspring used in 1948 to establish Rr, Re, and R1 sublines. Rr subline subsequently distributed to other members of JAX staff

III

TISSUES AND
FLUIDS

TISSUES AND FLUIDS

Pituitary and other glands from 34 species of marine life.

HAN

Serum: Available from 21 inbred strains and 6 hybrids (mice). Serum prepared from pooled blood collected by terminal bleeding of a particular strain of mice.

Whole Blood: Available from 21 inbred strains and 6 hybrids (mice). All requests processed to order.

Fresh Frozen Organs from Inbred Strains of Mice: Organs collected from exsanguinated, healthy, mature mice of various ages, refrigerated during collection, and immediately frozen to -20°F. All requests processed to order. Details on above on request.

JAX

Tissues from cows and sheep.

LEM

Embryos, blood, body fluids, glands (thymus, adrenal, mammary, etc.), eyes, brains, liver, spleen, hide, joints, horns of: bovine, sheep, horses, goats, and calves (except embryos). All parts and blood of turkeys, chickens, rabbits.

MAZ

Tissues from rabbits, guinea pigs, hamsters, mice, rats, cats, dogs, chickens, monkeys, frogs, and turtles. Sterile and nonsterile rabbit serums. Over 700 items.

PEL

Tissue of various mammalian forms in special fixatives.

SCIENTIFIC NAME INDEX

- PROTOZOA**—Unicellular Animals, 23
Macrophora—Flagellates, 23
Sarcodina—Amoebas, etc., 23
Ciliata—Ciliates, 23
PORIFERA—Sponges, 23
COELENTERATA—Coelenterates, 23
CTENOPHORA—Comb jellies, 24
PLATYHELMINTHES—Flatworms, 24
ASCHELMINTHES, 24
Rotifera—Rotifers, 24
Gastrotricha—Gastrotrichs, 24
Nematoda—Roundworms, 25
BRYOZOA—Moss Animals, 25
SIPUNCULOIDEA—"Peanut Worms", 25
ECHINODERMATA—Echinoderms, 25
MOLLUSCA—Mollusks, 25
Gastropoda—Snails, etc., 25
Pelecypoda—Clams, Mussels, etc., 26
Cephalopoda—Nautilus, Squid, etc., 26
ANNELIDA—Segmented Worms, 26
Polychaeta—Sandworms, 26
Oligochaeta—Earthworms, etc., 27
Hirudinea—Leeches, 27
ARTHROPODA—Joint-footed Animals, 27
Merostomata—King crabs, 27
Arachnida—Spiders, Scorpions, 27
Crustacea—Crustaceans, 27
Insecta—Insects, 28
Other Arthropoda, 29
CHORDATA—Chordates, 30
Tunicata—Tunicates, 30
Cyclostomata—Lamprey, Hagfish, 30
Condriichthyes—Cartilaginous Fishes, 30
Optichthyes—Bony Fishes, 30
Amphibia—Amphibians, 32
Urodela—Newts, Salamanders, 32
Anura—Frogs, Toads, 33
Other Amphibia, 34
Reptilia—Reptiles, 34
Testudinata—Terrapins, Turtles, 34
Sauria—Lizards, 35
Ophidia—Snakes, 36
Loricata—Alligators, Crocodiles, 39
Aves—Birds, 40
Sphenisciformes—Penguins, 40
Struthioniformes—Ostriches, 40
Rheiformes—Rheas, 40
Pelecaniformes—Pelicans, 40
Ciconiiformes—Hérons, Storks, 40
Phoenicopteriformes—Flamingos, 41
Anseriformes—Ducks, Geese, Swans, 41
Falconiformes—Eagles, Hawks, Vultures, etc., 41
Galliformes—Chickens, Quail, Pheasants, 42
Gruiformes—Rail, etc., 42
Charadriiformes—Shore birds, 42
Columbiformes—Doves, Pigeons, 42
Psittaciformes—Parrots, 43
Cuculiformes—Touracos, 43
Strigiformes—Owls, 43
Trogoniformes—Trogons, 43
Coraciiformes—Kingfishers, 43
Piciformes—Barbets, Toucans, 43
Passeriformes—Perching Birds, 44
Mammalia—Mammals, 45
Marsupialia—Pouched Mammals, 45
Insectivora—Shrews, Moles, etc., 45
Chiroptera—Bats, 45
Primates—Monkeys, etc., 45
(Tupaiaidae)—Tree Shrews, 45
(Lemuridae)—Lemurs, 45
(Lorisidae)—Lorises, Galagos, 45
(Tarsiidae)—Tarsiers, 46
(Cebidae)—Monkeys, 46
(Callithricidae)—Marmosets, 46
(Cercopithecoidea)—Guenons, Rhesus Monkeys, Mangabeys, 47
(Pongidae)—Chimpanzees, Orangutangs, 48
(Other Primates), 48
Edentata—Anteaters, Armadillos, Sloths, 49
Pholidota—Manis, 49
Lagomorpha—Rabbits, 49
(for domestic rabbits, see p. 4)
Rodentia—Rodents, 49
(for mice, see p. 6; rats, p. 14; hamsters, p. 16; guinea pigs, p. 18)
Cetacea—Dolphins, 50
Carnivora—Carnivores, 50
(for dogs, see p. 19; cats, p. 20)
Tubulidentata—Aardvarks, 52
Proboscidea—Elephants, 52
Hyracoidea—Hyrax, 52
Perissodactyla—Odd-toed Hoofed Mammals, 52
Artiodactyla—Even-toed Hoofed Mammals, 53
Other Mammals, 53
