DDC AVAILABILITY NOTICE

Distribution of this publication is unlimited; it has been cleared for release to the general public. Non-DOD agencies may purchase this publication from Clearinghouse, ATTN: Storage and Dissemination Section, Springfield, Virginia, 22151.

DISPOSITION INSTRUCTIONS

Destroy this publication when it is no longer needed. Do not return it to the originator.

FOREWORD

This bibliography is a supplement to Miscellaneous Publication 10, Fort Detrick, Frederick, Maryland entitled "Bibliography on Tissue Cultures: Invertebrates and Cold-Blooded Chordates," which was compiled as a result of increased interest and emphasis on the in vitro cultivation of tissues of invertebrates and poikilothermic chordates. Efforts have been concentrated on literature published since 1964, but reference to earlier works not appearing in the original bibliography have been included for those interested in the historical development of invertebrate tissue cultures. Listings are grouped into Phyla, further into Class and Order where appropriate. Articles are arranged alphabetically by senior author within each grouping. No articles appear in more than one division.

ABSTRACT

This volume contains a bibliographic listing of 151 literature references concerning tissue culture studies of invertebrates and cold-blooded chordates. A complete author index is included.

10. DISTRIBUTION STATEMENT

Distribution of this publication is unlimited; it has been cleared for release to the general public. Non-DOD agencies may purchase this publication from Clearinghouse, Springfield, Va., 22151.

11. SUPPLEMENTARY NOTES	12. SPONSORING MILITARY ACTIVITY
	Department of the Army Fort Detrick, Frederick, Maryland, 21701

13. ABSTRACT

This volume contains a bibliographic listing of 151 literature references concerning tissue culture studies of invertebrates and cold-blooded chordates. A complete author index is included.

14. Key Words

*Bibliographies
*Tissue Cultures
*Invertebrates
*Mammalia
*Poikilothermic
