## INTRODUCTION

This bibliography was prepared to assist the participants in the Eighth AFA Assembly to be held 30 March to 2 April 1966. It represents a selected portion of the Academy Library holdings and does in no way attempt to include all the ramifications of the topic. Materials such as the Hearings of Congressional Committees, which cover several phases of the topic, will be found in Part I. The user may find it expedient, also, in consideration of the interrelation of many programs, to look under more than one part for a particular phase of the topic.

A list of journals which regularly publish articles on these subjects will be found at the end of the bibliography.

A list of reference sources, which may be consulted, is also appended. Because of the many subject headings under which material pertinent to the Assembly topic may be found, a list of specific headings in each reference source is not included.

This bibliography was compiled by Mrs. Evelyn Myers, Reference Librarian, in conjunction with members of the Department of Political Science.
