13. ABSTRACT

This Index is designed to identify all scientific and technical reports published by the various OAR subordinate units during 1967-1968, as well as the results of research sponsored by OAR at the AFSC laboratories during this same period. It is also intended to furnish a ready reference for the identification of technical reports produced under certain contracts, grants or projects.

The publication includes a Bibliography (Section I) of research results organized into subsections and cross referenced by a Corporate-Author Index, an Author Index, a Contract/Grant-Number Index, a Project-Number Index, an AD-Number Index, and a KWIC (Keyword-in-Context)-Type Subject Index (Sections II-VII).

In addition, there are three Appendices to assist the user to reference pertinent reports to the relevant Air Force R&D organizations and projects.
