SUBJECT: Lessons Learned Index FOR OT RD RUN 2

SEE DISTRIBUTION

1. This index, prepared by Headquarters, United States Army Combat Developments Command, is designed to indicate where specific items of information may be found within Operational Reports - Lessons Learned and Combat After Action Reports previously reproduced and distributed. This index is updated and distributed periodically. It is a cumulative document; therefore, this edition supersedes RUN 15, 15 April 1968, which should be destroyed.
2. A record copy of each listed report is available for reference at Operational Reports Branch, OACSFOR, Room 3B476, The Pentagon. Each document may be identified by its OACSFOR log number, which appears in this index.
3. Operational Reports - Lessons Learned and Combat After Action Reports are being filed with the Defense Documentation Center (DDC). These reports may be obtained by members of the Defense and scientific communities registered with DDC. Reports presently filed with DDC can be identified by the DDC accession document (AD) number which appears in the right-hand column of this index. Addressees not presently registered with DDC may obtain information and registration applications from: Defense Documentation Center, Cameron Station, Alexandria, Virginia 22314 (Autovon 22-47067 or Area Code 202 974-7067).
4. Future indexes will contain more complete listings of ACSFOR log numbers and DDC accession document numbers as they become available. Recommendations concerning the index distribution or format should be forwarded to The Office of the Assistant Chief of Staff for Force Development, Headquarters, Department of the Army, Washington, D.C. 20310. Recipients are encouraged to submit recommendations for additional subject title index entries. Forms are provided for that purpose at the end of this index and at the end of all reports published subsequent to this index.

KENNETH G. WICKHAM
