MEMORANDUM FOR SGOM

ATTN: CAPT ANDREW J ORMOND

FROM: 59 MDW/SGVU

SUBJECT: Professional Presentation Approval

1. Your paper, entitled Clinical Effectiveness and Changes in Care Utilization Derived from a Military Adolescent Multi-Disciplinary Headache Clinic presented at 2016 Military Health System Research Symposium, City & State TBD, Date of Meeting TBD with MDWI 41-108, and has been assigned local file #16144.
2. Pertinent biographic information (name of author(s), title, etc.) has been entered into our computer file. Please advise us (by phone or mail) that your presentation was given. At that time, we will need the date (month, day and year) along with the location of your presentation. It is important to update this information so that we can provide quality support for you, your department, and the Medical Center commander. This information is used to document the scholarly activities of our professional staff and students, which is an essential component of Wilford Hall Ambulatory Surgical Center (WHASC) internship and residency programs.
3. Please know that if you are a Graduate Health Sciences Education student and your department has told you they cannot fund your publication, the 59th Clinical Research Division may pay for your basic journal publishing charges (to include costs for tables and black and white photos). We cannot pay for reprints. If you are 59 MDW staff member, we can forward your request for funds to the designated wing POC.
4. Congratulations, and thank you for your efforts and time. Your contributions are vital to the medical mission. We look forward to assisting you in your future publication/presentation efforts.

CLINICAL EFFECTIVENESS AND CHANGES IN CARE UTILIZATION DERIVED FROM A MILITARY ADOLESCENT MULTIDISCIPLINARY HEADACHE CLINIC

Capt Andrew Ormond, MD¹, LtCol Brian Faux, MD¹

¹Pediatrics Department, San Antonio Uniformed Services Health Education
Consortium, San Antonio Military Medical Center

Multiple studies have been conducted addressing intensive educational programs to determine clinical outcomes in migraine patients in headache clinics. Chronic headaches within the adolescent population have been shown to have great morbidity on patient lives, including but not limited to missed school/work days, and loss of parental work time getting to appointments. Some studies have been completed regarding chronic adolescent headaches, but at this time nothing has been published regarding multi-disciplinary chronic headache clinics for adolescent children of military personnel. The purpose of this study is to describe chronic adolescent headache patient demographics in a military dependent population. Also, this study will determine the outcome of whether participation in educational and/or clinical interventions as part of a multidisciplinary adolescent headache clinic in the military health system helps to reduce patient morbidity through retrospective chart review. Ultimately, this study will help to establish the efficacy of a multidisciplinary adolescent headache clinic and to discuss the utility for development of such clinics at additional MTFs as well as discern if any differences in the military health care population. Participants will include all 12-17 year-old children of active duty/retired Tricare beneficiaries with chronic headaches (at least 3 months) who were referred to the multi-disciplinary Adolescent Headache Clinic at a single military training facility (MTF) from Jan 2011 to Jul 2015 and followed for at least 6 months (N=155). Data will be collected from standard-of-care intake surveys as well as clinical data from archived clinical records in the military electronic health record.

There are no acknowledgements or funding support to disclose for this study.

The views expressed are those of the [author(s)] [presenter(s)] and do not reflect the official views or policy of the Department of Defense or its Components.

MEMORANDUM FOR 59 MDW/SGVU

FROM: 502 ISG/JA

SUBJECT: Ethics Review for Presentation Approval Request

1. The poster titled "Clinical Effectiveness and Changes in Care Utilization Derived from a Military Adolescent Multi-Disciplinary Headache Clinic" was submitted for legal review. There are no apparent conflicts of interests and the abstract includes the required disclaimer. This poster may be presented at the society meeting.
2. **FACTS:** The poster titled "Clinical Effectiveness and Changes in Care Utilization Derived from a Military Adolescent Multi-Disciplinary Headache Clinic" was submitted by Captain Andrew Ormand. Captain Ormand is a member of 959CSPS. Captain Ormand plans to present this research at the 2016 Military Health System Research Symposium.
3. **LAWS AND REGULATIONS:** DoD 5500.07-R, Joint Ethics Regulation (JER), section 3-305 lays out rules governing "Teaching, Speaking and Writing." If the poster will include the service member's rank or title and "deal in significant part with any ongoing or announced policy, program or operation" of the Air Force, the presenter is required to include a disclaimer that states the "views presented are those of the speaker or author and do not necessarily represent the views of DoD or its Components."
4. **ANALYSIS:** Although the presentation does not deal "in significant part with any ongoing or announced policy, program or operation" of the Air Force, the presenters' affiliation and/or ranks will be included in the abstract and poster presentation. Additionally, the information research to be discussed was obtained as part of military medical practice. Captain Ormond properly includes the required disclaimer that the views presented are those of the author and do not necessarily represent the views of DoD or its Components on the poster. Any secondary poster, slide or oral presentation must also include the required disclaimer. A Public Affairs review will be needed if it has not already been obtained. There are no apparent conflicts of interest that would prohibit presentation of this research at this professional meeting.

5. **CONCLUSION:** The poster presented for review included the disclaimer required by the JER. There do not appear to be any conflicts of interest. Any poster, slide or verbal presentation must also include disclaimer language. If you have any questions, please call the undersigned at 671-3362.
