2016 WORKPLACE AND GENDER RELATIONS SURVEY OF ACTIVE DUTY MEMBERS: TABULATIONS OF RESPONSES

Office of People Analytics
Defense Research, Surveys, and Statistics Center
4800 Mark Center Drive, Suite 06E22, Alexandria, VA 22350-4000

Acknowledgments

The Office of People Analytics (OPA) is indebted to numerous people for their assistance with the *2016 Workplace and Gender Relations Survey of Active Duty Members* (*2016 WGRA*), which was conducted on behalf of the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). The survey is conducted under the leadership of Ms. Kristin Williams, Acting Director of the Defense Research, Surveys, and Statistics Center for Health and Resilience (RSSC[H&R]).

Policy officials contributing to the development of this survey include Dr. Nathan Galbreath, Sexual Assault Prevention and Response Office (SAPRO), and Ms. Shirley Raguindin, Office of Diversity Management and Equal Opportunity (ODMEO).

The lead survey design analyst and project manager is Ms. Lisa Davis, supported by Ms. Amanda Grifka, Abt SRBI. Ms. Davis also designed the unique presentation of complex items used in this tabulation volume. Ms. Margaret Coffey, Team Lead of Survey Operations, is responsible for the survey database construction and archiving. The lead operations analyst, Mr. Michael Siebel, Fors Marsh Group, supported by Mr. Hunter Peebles and Mr. William Klauberg, Fors Marsh Group, used OPA's Statistical Analysis Macros to calculate the estimates presented in this tabulation volume.

OPA's Statistical Methods Branch, under the guidance of Mr. David McGrath, Branch Chief, is responsible for all statistical aspects of this survey, including, sampling, weighting, nonresponse bias analysis, and the implementation of statistical hypothesis testing used in the survey program. Mr. Eric Falk, Team Lead of the Statistical Methods Branch, was responsible for the sampling for the *2016 WGRA*. Mr. Jeff Schneider used the OPA Sampling Tool to design the sample. Ms. Sue Reinhold provided the data processing support. Data Recognition Corporation (DRC) performed data collection and editing. Dr. Bob Fay and Dr. Minsun Riddles, Westat, consulted on statistical weighting methods.

Ms. Kelly Dengler, Fors Marsh Group, formatted and assembled this tabulation volume using OPA's Survey Reporting Tool. A team consisting of Ms. Lisa Davis, Mr. Michael Siebel, Mr. Hunter Peebles, Ms. Amanda Grifka, Ms. Margaret Coffey, Dr. Maia Hurley, and Ms. Kimberly Hylton, Fors Marsh Group, completed quality control for this tabulation volume.

190. Are you currently in a work environment where female coworkers are uncommon (less than 25% of your military coworkers)? 592
191. Are you currently serving in a unit or career field that has been opened up to women in the past 12 months? 594
192. How has opening this unit or career field to women affected the climate in your unit? 596
193. During the past 12 months, how often have you experienced any of the following behaviors, where coworkers or supervisors 598
a. Intentionally interfered with your work performance? 598
b. Did not provide information or assistance when you needed it? 600
c. Were excessively harsh in their criticism of your work performance? 602
d. Took credit for work or ideas that were yours? 604
e. Gossiped/talked about you? 606
f. Used insults, sarcasm, or gestures to humiliate you? 608

g. Yelled when they were angry with you? 610
h. Swore at you in a hostile manner? 612
i. Damaged or stole your property or equipment? 614
193. Workplace Hostility Scale. Workplace Hostility can be defined as the degree to which people in the workplace act in an angry or hostile manner toward personnel. Constructed from Q193. 616
194. Suppose that you have to decide whether to stay on active duty. Assuming you could stay, how likely is it you would choose to do so? 618
195. In general, would you say your health is...? 620
196. Experienced a Potentially Traumatic Event: Sometimes things happen to people that are unusually or especially frightening, horrible, or traumatic. For example, a serious accident or fire, physical or sexual assault or abuse, earthquake or flood, war, seeing someone be killed or seriously injured, or having a loved one die through homicide or suicide. Have you ever experienced this kind of event? 622
197. In the past month, have you 624
a. Had nightmares about the event(s) or thought about the event(s) when you did not want to? 624
b. Tried hard not to think about the event(s) or went out of your way to avoid situations that reminded you of the event(s)? 626
c. Been constantly on guard, watchful, or easily startled? 628
d. Felt numb or detached from people, activities, or your surroundings? 630
e. Felt guilty or unable to stop blaming yourself or others for the event(s) or any problems the event(s) may have caused? 632
197. Posttraumatic Stress Disorder (PTSD) Score. PTSD is a type of trauma and stress-related disorder that can be triggered by experiencing or witnessing a traumatic event that causes fear, helplessness, or horror and is characterized by persistent frightening thoughts and memories, emotional detachment or numbness, sleep problems, and a tendency to be easily startled. Constructed from Q196–Q197 634
198. Over the last two weeks, how often have you been bothered by any of the following problems? 636
a. Little interest or pleasure in doing things 636
b. Feeling down, depressed, or hopeless 638
c. Trouble falling or staying asleep, or sleeping too much 640
d. Feeling tired or having little energy 642
e. Poor appetite or overeating 644

f. Feeling bad about yourself—or that you are a failure or have let yourself or your family down 646

g. Trouble concentrating on things, such as reading the newspaper or watching television 648

h. Moving or speaking so slowly that other people could have noticed. Or the opposite—being so fidgety or restless that you have been moving around a lot more than usual 650

198. Depression Scale. Depression is a common mood disorder characterized by depressed mood, loss of interest or pleasure, feelings of guilt or low self-worth, disturbed sleep or appetite, low energy, and poor concentration. Constructed from Q198 652

199. Have you had any military training during the past 12 months on topics related to sexual assault? 654

200. My Service's sexual assault training 656

a. Provides a good understanding of what actions are considered sexual assault 656

b. Teaches that the consumption of alcohol may increase the likelihood of sexual assault 658

c. Teaches how to avoid situations that might increase the risk of being a victim of sexual assault 660

d. Teaches how to intervene when you witness a situation involving a fellow Service member (bystander intervention) 662

e. Teaches how to obtain medical care following a sexual assault 664

f. Explains the role of the chain of command in handling sexual assault allegations 666

g. Explains the reporting options available if a sexual assault occurs 668

h. Identifies the points of contact for reporting sexual assault (for example, SARC, Victim Advocate) 670

i. Explains how sexual assault is a mission readiness problem 672

j. Explains the resources available to victims (for example, Safe Helpline) 674

k. Explains that, in addition to women, men can experience sexual assault 676

l. Highlights engagement of chain of command outside of formal training 678

m. Explains use of social media and the community to engage with Sexual Assault Prevention and Response (SAPR) prevention (for example, Facebook messages, "fun runs," organized events) 680

n. Is taught by knowledgeable SAPR professionals 682
o. Is taught by professionals with adequate training, skills, and abilities 684
p. Provides information about sexual assault that is relevant to my rank and career stage 686
q. Makes me feel empowered to intervene when I recognize high risk situations and behaviors that may lead to a sexual assault 688
201. Have you had any military training during the past 12 months on topics related to sexual harassment? 690
202. My Service's sexual harassment training... 692
a. Explains the role of the chain of command in handling sexual harassment complaints 692
b. Identifies the points of contact for reporting sexual harassment complaints 694
c. Explains how sexual harassment is a mission readiness problem 696
d. Explains that, in addition to women, men can experience sexual harassment 698
203. How much do you agree with the following statements? 700
a. When you are in a social setting, it is your duty to confront a fellow Service member from doing something potentially harmful to themselves or others 700
b. If you are sexually assaulted, you can trust the military system to protect your privacy 702
c. If you are sexually assaulted, you can trust the military system to ensure your safety following the incident 704
d. If you are sexually assaulted, you can trust the military system to treat you with dignity and respect 706
e. You believe you will be treated differently by your supervisor or chain of command if you report you were sexually harassed 708
f. You believe you will be treated differently by your supervisor or chain of command if you report someone else was sexually harassed 710
204. To what extent are you willing to 712
a. Point out to someone when you think they "crossed the line" with gender-related comments or jokes? 712
b. Encourage others to point out to someone when they think he or she "crossed the line" with gender-related comments or jokes? 714

c. Seek help from the chain of command in confronting other Service members who continue to engage in sexual harassment after having been previously spoken to? 716

205. Are you aware of a Service member misusing social media sites to ridicule, abuse, stalk, or harm... 718

206. Did you notify any of the following individuals of this misuse of social media? 720

207. Does your workplace have a formal policy explaining appropriate or inappropriate uses of social media sites? 722

208. Do members of your work group generally comply with the policy on uses of social media? 724

209. In your opinion, has sexual harassment in the military become more or less of a problem over the last 2 years? 726

210. In your opinion, has sexual assault in the military become more or less of a problem over the last 2 years? 728

211. Do you consider yourself to be 730

212. Do you consider yourself to be transgender? 732

224. Did you respond to this survey via the web or paper survey questionnaire? Constructed from administrative data 734

300. In the past 12 months, did you have any unwanted experiences in which someone intentionally touched ANY area of your body (either directly or through clothing)? 736

300. In the past 12 months, did you have any unwanted experiences in which someone made you touch ANY area of their body or someone else's body (either directly or through clothing)? 738

300. Before the past 12 months, had anyone intentionally touched ANY area of your body (either directly or through clothing) when you did not want it and did not consent? 740

300. Before the past 12 months, had anyone made you touch ANY area of their body or someone else's body (either directly or through clothing) when you did not want it and did not consent? 742

2016 WORKPLACE AND GENDER RELATIONS SURVEY OF ACTIVE DUTY MEMBERS: TABULATIONS OF RESPONSES

Introduction to the Survey

The *Defense Research, Surveys, and Statistics Center*, Office of People Analytics (OPA), conducts surveys to support the personnel information needs of the Under Secretary of Defense for Personnel and Readiness (USD[P&R]). These surveys assess the attitudes and opinions of the entire Department of Defense (DoD) community on a wide range of personnel issues. Health and Resilience (H&R) Surveys are in-depth studies of sensitive topics and specialized populations, often requiring use of both paper-and-pen and web-based surveys.

This report contains tabulations of responses from the *2016 Workplace and Gender Relations Survey of Active Duty Members* (*2016 WGRA*) conducted from July 25 to October 14, 2016. The *2016 WGRA* continues a line of military sexual assault and sexual harassment research begun in 1988. OPA[1] conducted Joint Service surveys of active duty members on gender issues in 1988, 1995, 2002, 2006, 2010, and 2012. OPA expanded this line of research to the Reserve Components in 2004, 2008, 2012, and 2015 and to the Service Academies in 2005, 2006, 2008, 2010, 2012, 2014, and 2016.

This introduction (1) summarizes the measurement constructs and survey content, (2) defines the total population surveyed and the subgroups used in tabulations of responses, (3) summarizes the survey methodology,[2] and (4) provides details on how to use the tabulations. The tabulations and a copy of the survey instrument follow this introduction.[3]

Measurement Constructs

Historically, OPA gender relations surveys have been designed to estimate the perceived experiences of sexual harassment and sexual assault in the Services, and to provide new information on a variety of consequences of these sexual harassment and sexual assault experiences (Bastian, Lancaster, & Reist, 1996). The OPA gender relations surveys captured experiences of sexual assault through its Unwanted Sexual Contact (USC) measure and experiences of sexual harassment, a survey construct derived from the Sexual Experiences Questionnaire[4] (SEQ; Fitzgerald et al., 1988;

[1] Prior to 2016, the Defense Research Surveys, and Statistics Center resided within the Defense Manpower Data Center (DMDC). In 2016, DHRA reorganized and moved RSSC under the newly established Office of People Analytics (OPA).
[2] Details on survey methodology are reported in OPA (2016a).
[3] Refer to OPA (2016b) to view a version of the survey as it appeared on the web and the paper survey form.
[4] SEQ-DoD was adapted for a military population and has been the DoD-approved data collection method for measuring sexual harassment experiences since 2002.

Fitzgerald, Gelfand, & Drasgow, 1995). These measures were used on surveys conducted in 2006, 2010, and 2012 of active duty members, in 2008 and 2012 of Reserve component members, and in 2005, 2006, 2008, 2010, 2012, 2014, and 2016 of Service Academies.

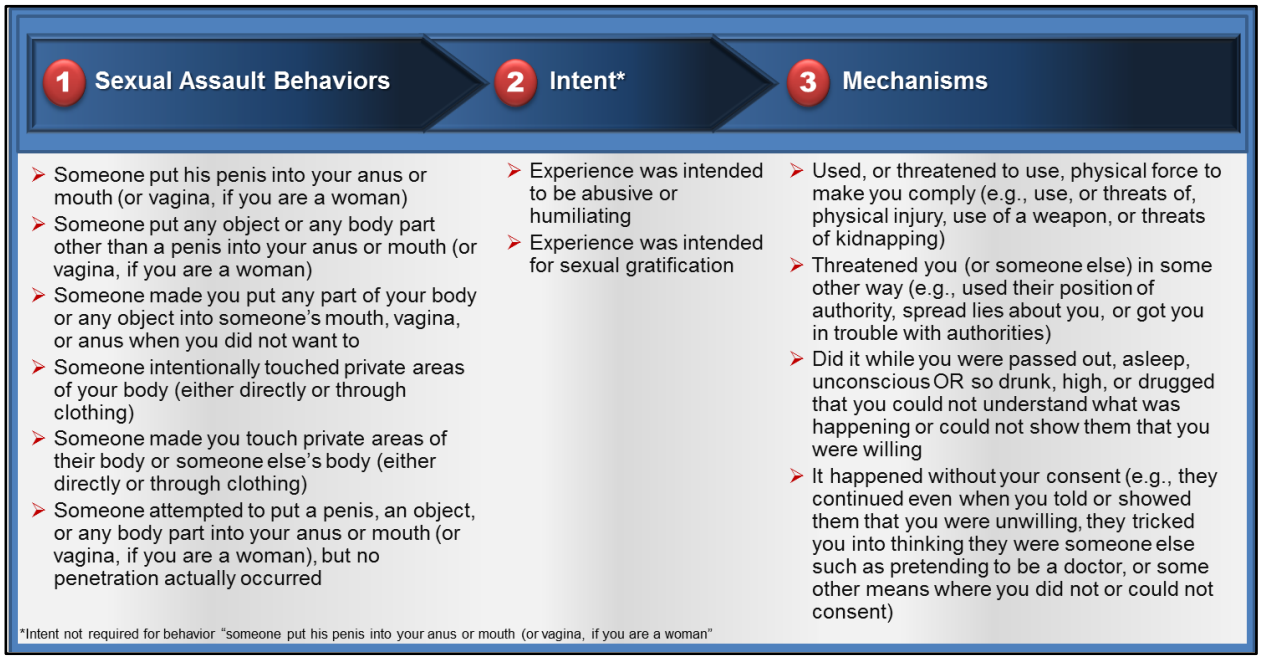
Per congressional request for an external evaluation, DoD contracted with RAND Corporation in 2014 to conduct the *RAND Military Workplace Survey* (*2014 RMWS*), a large-scale survey of active duty and Reserve component members on issues of sexual assault and Military Equal Opportunity (MEO) violations. The measures for sexual assault and MEO violations developed by RAND for use in the *2014 RMWS* will be used in Workplace and Gender Relations (WGR) surveys hereafter as described in detail below.

Sexual Assault. In 2014, Senate leadership and an independent, Congressionally-mandated panel of DoD and civilian experts requested that DoD update its survey methodology to be more specific with regard to the types of crimes military members' experience. RAND Corporation developed a new measure of sexual assault that incorporates UCMJ-prohibited behaviors and consent factors to derive prevalence rates of crimes committed against military members (Morral, Gore, & Schell, 2014). This new 96-item measure of sexual assault aligned with the elements of proof required for sexual assault under Article 120, UCMJ, and meets the requirements outlined by Congress and the panel of experts. This measure was approved by the Secretary of Defense and the Service Chiefs as the crime victimization measure of sexual assault for DoD.

To determine the UCMJ-based sexual assault prevalence rate, respondents must experience at least one of the behaviors in line with sexual assault and also two follow-up criteria, as shown in Figure 1. As shown in Figure 1, within the *2016 WGRA*, the sexual assault measure is constructed from Q65–Q106 and contains three requirements: (1) the member must experience at least one of the six UCMJ-based sexual assault **behaviors**, (2) at least one UCMJ-based **intent** behavior where required[5], and (3) at least one UCMJ-based coercive **mechanism** that indicated consent was not freely given.

[5] Intent items were not a requirement for "someone put his penis into your anus or mouth (or vagina, if you are a woman)."

Figure 1.
Sexual Assault Prevalence Rate Metrics



This criteria was maintained between the *2014 RMWS* and *2016 WGRA*. However, based on respondents concerns and to minimize burden, OPA consolidated the consent factors (coercive mechanisms) for the sexual assault behaviors from eleven consent questions to four questions in the *2016 WGRA*. Similar factors were grouped together, thus reducing the number of sexual assault behavior follow-up consent questions while maintaining the range of behaviors captured on the *2014 RMWS*. This change to the construct was approved by the Sexual Assault Prevention and Response Office (SAPRO). See Figure 2 for the comparison of consent items between the *2014 RMWS* and *2016 WGRA*.

Survey Content

The content of the *2016 WGRA* largely aligns with content of the *2014 RMWS*, and contains additional topics of interest that were included on the *2015 Workplace and Gender Relations Survey of Reserve Component Members* (*2015 WGRR*). The survey is subdivided into the following 15 topic areas:

1. *Background Information*—Active duty status,[6] gender, deployment status, and deployment location.

2. *Time Reference*—Important key events to provide frame of reference for respondents on the time frame of "12 months prior to taking the survey."[7]

[6] This item is not included in these tabulations.
[7] These items are is not included in these tabulations.

3. *Gender-Related Experiences in the Military*—Experiences of MEO violations (sexual harassment and gender discrimination) in the 12 months prior to the survey.

4. *Gender-Related Experiences in the Military With Biggest Effect*—Circumstances pertaining to the experience of MEO violation(s) in the past 12 months that had the greatest impact on the respondent, including characteristics of the alleged offender(s); the length of time of the situation; location where it occurred; outcome of the situation; situation as part of hazing and/or bullying; to whom behaviors were discussed/reported and resulting actions; members' satisfaction with the complaint process and outcomes; and reasons for not reporting to someone in their chain of command with expectation of action or a person who enforces Equal Opportunity regulations.

5. *Gender-Related Experiences*—Experiences of UCMJ-based sexual assault in the 12 months prior to the survey, frequency of experiences, and verification the event occurred in the 12 months prior to the survey.[8]

6. *Gender-Related Experiences With Biggest Effect*—Circumstances pertaining to the experience of sexual assault in the past 12 months that had the greatest effect on the respondent, including characteristics of the alleged offender(s); where and when the event occurred; unwanted event as part of hazing and/or bullying; experiences of sexual harassment or stalking by alleged offender(s); involvement of alcohol/drugs; satisfaction with services received; official reporting of the event; type of report made; extent provided services/resources after reporting; extent leadership provided support after reporting; received expedited transfer and effects of transfer; reasons for reporting and recommendation for others to report; reasons for not reporting; and whether the respondent would make the same reporting decision.

7. *Outcomes Associated with Reporting*—Behaviorally-based questions designed to capture examples of perceived professional reprisal, ostracism, and maltreatment as a result of reporting a sexual assault, along with questions regarding who took the action(s), overall perceived impact of these experiences on the respondent's career, involvement of social media, actions that may have occurred as a result of these perceived behaviors, reporting of these behaviors, actions taken as a result of reporting, reasons for not reporting, and relationship between those who took the actions and the perpetrator(s).

8. *Prior Experiences*—Prior experiences of sexual assault.

9. *Additional Background Information*—Relationship status and race/ethnicity.

[8] This item is not included in these tabulations.

10. *Your Military Workplace*—Likelihood sexual harassment or sexual assault would be reported, likelihood the respondent would encourage someone to report or the respondent would report if they had experienced sexual harassment or sexual assault, bystander intervention, efforts of military members to promote appropriate unit climate/environment, access to resources when deployed, presence of women in the work environment, experiences of workplace hostility, and retention intentions.

11. *Stress, Health, and Well-Being*—Overall health, experience of a significant negative event, and experience of symptoms of posttraumatic stress disorder (PTSD) and depression.

12. *Training and Culture*—Military training received in the past 12 months on sexual assault and perceived effectiveness of training on sexual assault prevention and response; military training received in the past 12 months on sexual harassment and perceived effectiveness of training on sexual harassment prevention and response; and agreement with statements about individual responsibilities and trust in military system.

13. *Social Media Use*—Service member misuse of social media sites, notification of misuse, availability of formal policy on social media use, and general workplace compliance with policy.

14. *How Are We Doing?*—Perceptions of gender relations within the military and in the nation and how they have changed over the past two years.

15. *Additional Information*—Sexual orientation and transgender identification.

The *2016 WGRA* used both short form (paper-and-pen) and long form (web) surveys. The short form survey content was seen by all respondents (both paper-and-pen and web respondents). Figure 3 specifies the survey content areas included on each form.

The *2016 WGRA* web-based survey used "dynamic text" in the sections for sexual harassment and gender discrimination to tailor question stems and survey responses to each respondent based on his/her gender. In these tabulations, we use "[ ]" to indicate questions and descriptions where dynamic text was used for specifying gender. The first bracket was seen by men and the second bracket was seen by women. Dynamic text was also used to ask questions regarding the past 12 months. The prior year's date is inserted based on when the respondent started the survey (for example, if the respondent started the survey on July 25, 2016, the prior year date would be July 25, 2015). For ease of reading, the specified time period referenced in these tabulations is "past 12 months."

Population and Reporting Categories

The target population for the *2016 WGRA* consisted of active duty members from the Army, Navy, Marine Corps, Air Force, and Coast Guard who were below flag rank and had been on active duty for approximately four months.[9] Per DoD regulations, members who had separated from the force after the sample was drawn, but prior to the opening of the survey were excluded from the survey administration process as they are considered "members of the public" and require additional approvals to include survey efforts.

[9] The sampling frame was developed four months prior to fielding the survey. Therefore, the sampling population including those active duty members with approximately four months of service at the start of survey fielding.

Survey results are presented for the total DoD population (Army, Navy, Marine Corps, and Air Force) and Coast Guard by a variety of reporting categories. To form the reporting categories for the tabulations, respondents are classified primarily by their responses to survey items. If the self-reported data are missing, then the Defense Manpower Data Center's (DMDC) *Active Duty Master Edit File* (*ADMF*) is used to impute the subgroup classification at the time of sampling. Survey results are tabulated by Service, paygrade, gender, deployment status, and race/ethnicity. Definitions for reporting categories follow:

- *Total DoD*—This category includes results at the overall level for all DoD Services.
  - *Service*—The categories include *Army*, *Navy*, *Marine Corps*, and *Air Force*.
  - *Paygrade*—The *Enlisted* subgroup includes all enlisted paygrades (E1–E9). The *Enlisted* subgroup is broken into junior enlisted members (*E1–E4*) and senior enlisted members (*E5–E9*). The *Officers* subgroup includes commissioned officers (*O1–O3* and *O4–O6*) and warrant officers (*W1–W5*).[10] The *Officers* subgroup is broken into junior officers and warrant officers (*O1–O3/W1–W5*) and senior officers (*O4–O6*).
  - *Deployment Status*—The categories include *Deployed Past 12 Months* and *Not Deployed Past 12 Months*.
  - *Race/Ethnicity*— Respondents are classified based on self-reported categories consistent with requirements of the *OMB Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity* (1997). *Non-Hispanic White* includes respondents marking only White and not indicating they are Spanish/Hispanic/Latino. *Total Minority* includes all respondents marking one or more of the races other than White and/or marking that they are Spanish/Hispanic/Latino.
  - *Gender—Women* and *Men* are presented separately and broken into the following categories: paygrade, deployment status, race/ethnicity, experienced sexual harassment, experienced gender discrimination, not experienced sexual harassment/gender discrimination, experienced sexual assault, not experienced sexual assault, and Service by paygrade. Gender is based on self-report categories. If self-report information is missing, administrative data are used.

[10] Throughout the survey, when asking respondents to answer questions regarding specific ranks (e.g., rank of offender), warrant officers were all grouped together and did not allow for selection between lower ranking warrant officers and more senior ranking warrant officers. Future survey will aim to distinguish these categories.

- *Coast Guard*—This category includes all active duty Coast Guard members and is broken down by paygrade and gender, with men and women presented separately and broken into the following categories: paygrade, experienced sexual harassment, experienced gender discrimination, not experienced sexual harassment/gender discrimination, experienced sexual assault, and not experienced sexual assault.

Survey Methodology

OPA conducts cross-component surveys that provide DoD with fast, accurate assessments of attitudes and opinions of the entire DoD community using standard scientific methods. Although OPA has used industry standard scientific survey methodology for many years, it is important to continue to clearly describe how scientific practices employed by large survey organizations control for bias and allow for generalizability to populations. Specifically, OPA's survey methodology meets industry standards that are used by government statistical agencies (for example, the Census Bureau and Bureau of Labor Statistics), private survey organizations, and well-known polling organizations. OPA adheres to the survey methodology best practices promoted by the American Association for Public Opinion Research (AAPOR).[11] The Government Accountability Office (GAO) reviewed OPA's survey methods in 2010 and determined OPA uses valid scientific survey methods. In 2013, the Joint Program and Survey Methodology (JPSM) confirmed OPA's scientific weighting methods were appropriate, as did RAND Corporation in 2014. The survey procedures were reviewed by a DoD Human Subjects Protection Officer as part of the DoD survey approval and licensing process.

The survey administration for the *2016 WGRA* process began on July 21, 2016 with the mailing of an announcement letter to sample members. On July 22, 2016 the survey website opened and on July 25, 2016 e-mail announcements were sent to sample members. The announcement letter and e-mail explained why the survey was being conducted, how the survey information would be used, why participation was important, and opt-out information for those who did not want to participate. Throughout the administration period, up to an additional ten e-mails and one postal reminder were sent to encourage survey participation. The survey was administered via the web (long form of the survey) and paper-and-pen surveys (short form of the survey). If sample members had not responded within the first month of the fielding period, they were sent the paper-and-pen survey. Data were collected between July 22 and October 14, 2016.

Single-stage, nonproportional stratified random sampling procedures were used to achieve precise estimates for important reporting categories. In stratified random

[11] AAPOR's "Best Practices" state that, "virtually all surveys taken seriously by social scientists, policy makers, and the informed media use some form of random or probability sampling, the methods of which are well grounded in statistical theory and the theory of probability" (http://aapor.org/Best_Practices1/4081.htm#best3). OPA has conducted surveys of the military and DoD community using stratified random sampling for over 25 years.

sampling, all members of a population are categorized into homogeneous groups. For example, members might be grouped by gender and Service (e.g., all male Army personnel in one group, all female Army personnel in another). Members are chosen at random within each group. Small groups are oversampled in comparison to their proportion of the population so there will be enough responses from small groups to analyze. The sample consisted of 735,329 individuals drawn from the sample frame constructed from DMDC's *ADMF*. Members of the sample became ineligible if they indicated in the survey or by other contact (for example, e-mails or telephone calls to the data collection contractor) that they were not a member of the active duty as of the first day of the survey, July 25, 2016 (1.2% of sample).[12]

Completed surveys are defined as answering at least one of the survey questions asked of all participants, and 50% of the critical items, which are the sexual assault behaviors: Q65, Q70, Q77, Q84, Q86, Q92, Q94, and Q100. Completed surveys were received from 151,010 eligible respondents and the overall weighted response rate for eligible sample members was 24%.[13]

OPA scientifically weighted the *2016 WGRA* respondents to be generalizable to the larger population using the generalized boosted modeling (GBM) approach. Within this process, statistical adjustments are made to ensure the sample respondents accurately reflect the characteristics of the population from which it was drawn, and provides a more rigorous accounting to reduce non-response bias in estimates. This ensures oversampling within any one subgroup does not result in overrepresentation in the total force estimates. For the *2016 WGRA*, OPA mirrored a modeling process used by RAND Corporation in the *2014 RMWS* (Morral, Gore, & Schell, 2014) and Westat in the *2015 WGRR*. The process involved the following: 1) assigning a base weight based on a selection probability, 2) adjusting for nonresponse which included modeling the characteristics of a respondent to six critical constructs on the survey[14] and using the model-predicted probabilities to adjust weights by balancing the weights associated with the respondents and nonrespondents, and 3) adjusting for raking/ poststratification to known population totals. These forms of weighting produce survey estimates of population totals, proportions, and means (as well as other statistics) that are representative of their respective populations. Unweighted survey data, in

[12] See OPA (2016b) for more information on how OPA samples and weights data to construct estimates generalizable to the full force.

[13] There has been concern that a 20% weighted response rate cannot give accurate results. Ultimately, the accuracy of a survey is most dependent on whether the sample used is randomly drawn and appropriately weighted to be representative of the population it is studying. OPA uses state-of-the-art scientific statistical techniques to draw conclusions from random, representative samples of the active duty population to ensure accuracy of estimations to the full active duty population. As the characteristics of the military population are known, this allows for better accuracy and reduces bias in the estimates compared to civilian populations. Response rates under 25% are common in military surveys. Details on survey methodology are reported in OPA (2016b). The response rate for the *2014 RMWS* for active duty was 28.8% and for the *2012 WGRA* was 24%.

[14] The six critical constructs on the survey are gender discrimination, sexual quid pro quo, hostile work environment, penetrative sexual assault, non-penetrative sexual assault, and attempted penetrative sexual assault.

contrast, are likely to produce biased estimates of population statistics. The process of weighting for the *2016 WGRA* consists of the following steps:

- *Adjustment for selection probability*. Probability samples, such as the sample for this survey, are selected from lists and each member of the list has a known nonzero probability of selection. For example, if a list contained 10,000 members in a demographic subgroup and the desired sample size for the subgroup was 1,000, one in every tenth member of the list would be selected. During weighting, this selection probability (1/10) is taken into account. The base, or first weight, used to adjust the sample is the reciprocal of the selection probability. In this example, the adjustment for selection probability (base weight) is 10 for members of this subgroup.

- *Adjustment for nonresponse*. This adjustment develops a model for predicting an outcome to a critical question. OPA used GBM to model the propensity that each sample members experienced the six characteristics (e.g. penetrative sexual assault). For example, a female/E1–E4/Army/ minority may have a predicted probability of experiencing sexual assault of 4% while a female/E1–E4/Navy/non-minority has a predicted probability of 2%. Next, OPA used GBM to model the response propensity of each member using the six characteristics modeled in step one. Details regarding the criteria used for selecting the best model are found in the *2016 Workplace and Gender Relations Survey of Active Duty Members: Statistical Methods Report* (OPA 2016a).

- *Adjustment to known population values*. After the nonresponse adjustments from step two, weighted estimates will differ from known population totals (e.g., number of members in the Army). It is standard practice to adjust the weighted estimates to the known population totals to reduce both the variance and bias in survey estimates. Therefore, OPA performed a final weighting adjustment that exactly matches weighted estimates and known population totals for important demographics. Suppose the population for the subgroup was 8,500 men and 1,500 women but the nonresponse-adjusted weighted estimates from the respondents were 7,000 men and 3,000 women. To reduce this possible bias and better align with known population totals, we would adjust the weights by 1.21 for men and 0.5 for women so that the final weights for men and women applied to the survey estimates would be 24.3 and 10, which provide unbiased estimates of the total and of women and men in the subgroup.

The demographic information for the *2016 WGRA* is provided in two demographic tables:

- Table 1 (pages 13–14) includes all respondents (both paper-and-pen and web respondents) who completed the short form of the survey (see Figure 3 for details on survey forms), and

- Table 2 (Appendix C) includes web-only respondents who completed the long form of the survey.

Both tables display the total number and estimated percentage of eligible respondents who completed the survey for each reporting category. Differences in the percentages of respondents and estimated populations for the reporting categories in these tables reflect differences in the number sampled in each group, as well as differences in response rates between modes of administration.

Table 1 shows the number of survey respondents and the response rate by subgroups. The weighted response rate for the *2016 WGRA* was 24% (including DoD and Coast Guard), and the weighted response rate for total DoD was 23%, both of which are typical for large DoD-wide surveys. This response rate was lower than the 29% response rate for the *2014 RMWS* and comparable with the 24% response rate in *2012 WGRA*. Differences in the percentages of respondents and population for the reporting categories reflect differences in the number of members included in the sample, as well as differences in response rates.

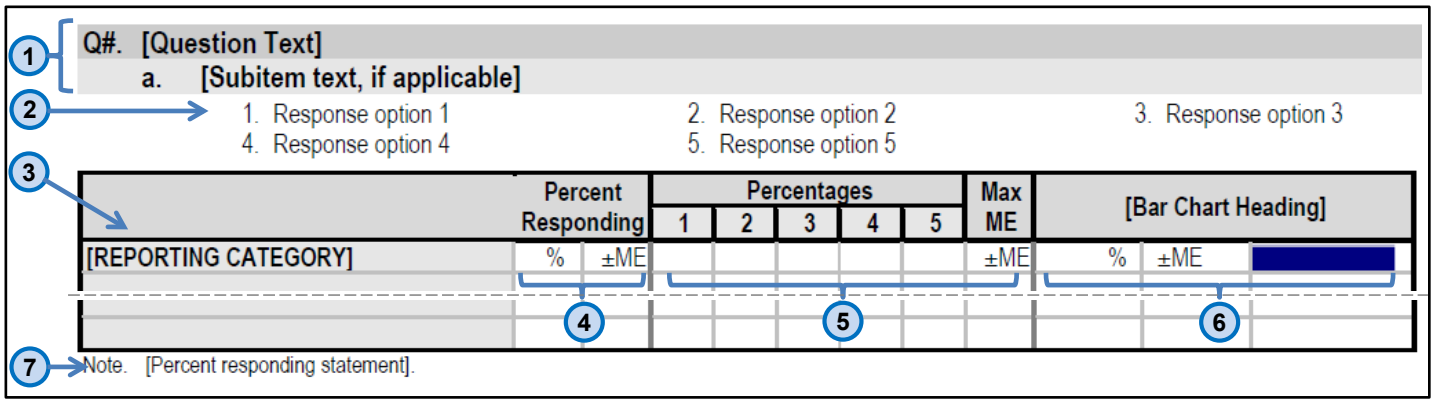
How to Use the Tabulations

Each survey question is presented on facing pages in the tabulations. [15] Tabulation pages include the question text (or composite measure description, if applicable), subitem text (if applicable), response options, reporting categories, percent responding, estimates for each response option and bar chart (if applicable), and a table note. Each of these elements is shown in Figure 4 and described in detail below.

Figure 4.
How to Read a Tabulation Page



1. **Question Text and Subitem Text**: This contains the question text from the survey or composite measure description, if the item was constructed.

2. **Response Options**: Shown at the top of the even-numbered pages. To compress the width of columns in the tables, the response options are shown with a number or letter, which is used as the column heading for the response percentages.

3. **Reporting Category**: This column lists the reporting group for each row (see pages 8–9 for a description of the reporting categories).

4. **Percent Responding**: The proportion of members who answered the question. These are the members represented in the estimates for that reporting group. The means of each item's Percent Responding is described in a table note, described below.

5. **Response Option Percentages**: Estimates are placed into columns that correspond to the response options. For the majority of survey items, these

[15] Details of data editing and preparation are provided by OPA (2016b).

columns contain the percentage of members choosing the response options indicated by the column heading. Within a set of response options, percentages may not add to 100% due to rounding. Where there is a simple binomial response, such as "Yes" and "No," only the "Yes" percentage is presented. In some instances, mean scale scores are presented (for example, Depression score). In some questions respondents were asked to "Mark all that apply" for a list of responses. For example, in Q143 respondents were asked about behaviors experienced in-line with potential professional reprisal from their leadership. Because respondents were able to select more than one option, the tabulations show the percentage who marked each response option, and the sum across the subitems does not equal 100%. For example, if a respondent indicated, "Demoted you or denied you a promotion" and "Denied you an award you were previously eligible to receive," they were counted in the percentage for both options.

6. **Bar Chart**: Displays a bar chart for chosen response options. For binomial responses such as "Yes," the bar chart represents that percentage with the heading "Percentage Reporting Yes." When multi-level response scales (e.g., Q3 contains responses of "Yes, currently deployed," "Yes, deployed in the past 12 months, but not currently deployed," and "No") can be dichotomized, the bar chart may represent the sum of the percentages in multiple columns (e.g., both "Yes" options). Additionally, for scales with ranges (e.g., Q189 contains a scale from "Not at all" to "Very large extent"), the bar charts represents the sum of the percentages for one side of the extent scale (e.g., "Large extent" and "Very large extent").

7. **Table Note**: Describes the percent responding for the tabulation item. The percent responding is impacted by skip patterns and item nonresponse. Not all questions will apply to every respondent, and where possible, the survey is programmed to skip respondents over questions that are not applicable. For example, Q200a ("My Service's sexual assault training provides a good understanding of what actions are considered sexual assault.") does not apply to those who indicated they had not received any military training on topics related to sexual assault in the past 12 months in Q199. The table note for this question would then indicate, "Percent responding are active duty members who answered the question and who had military training during the past 12 months on topics related to sexual assault (Q199)." OPA does not force respondents to answer each item. Hence we will have item nonresponse. The percent responding may not equal 100%, and therefore the table note indicates, "Percent responding are active duty members who answered the question."

Combining Information from Multiple Items

Tabulations in this volume generally present data for individual survey questions. There are two exceptions: results for multiple items presented on a single set of pages and constructed composite measures. Examples for the first exception,

where results for multiple items are presented on a single set of pages, are provided below.

- In Q64 (a–w), members who experienced MEO violations and did not discuss/report it, were asked the reasons for not discussing it with someone above them in their chain of command with expectation of action and not reporting it to a person who enforces sexual harassment regulations. Members were presented a list of reasons and asked to "Mark all that apply" as to reasons for not discussing. The tabulations for this question show percentages who *Marked* Q64 (a–w) on a single set of pages to allow comparison between the percentages. Hence, percentages may not sum to 100%.

- For sexually hostile work environment behaviors, the percent of respondents who answered *Yes* to experiencing behaviors in-line with a hostile work environment (Q8–Q22) are shown on a single set of pages to allow comparison between the percentages. Because there is variation in item nonresponse, for each reporting group row, the *Percent Responding* shows the range of percent responding for the estimates in each row.

- In Q58 (a–l), members who indicated experiencing a sex-based MEO violation were asked if the upsetting behavior ever occurred at the locations listed. Members were asked to indicate "Yes" or "No" for each item. The tabulation for this question shows percentages who marked "Yes" on a single set of pages to allow for comparison between the percentages. Hence, percentages may not sum to 100%.

Constructed Composite Measures. The second exception pertains to constructed composite measures (e.g., scales, indices, and summary variables). Individual items in each measure are presented first, followed by tabulation pages showing composite measure results. Where applicable, Cronbach's coefficient alpha, a measure of scale reliability, is provided for the scale overall and by gender in the table notes. Cronbach's coefficient alpha ranges in values from 0 to 1. Values of 0.70 or greater indicate the scale has high reliability and the items are internally consistent. Composite measures presented in this tabulation volume are described below.

- *Workplace Hostility*: The composite measure includes survey items on the degree to which coworkers or supervisors act in an angry or hostile manner toward them (Q193). Examples include intentionally interfering with other's work performance; taking credit for other's work or ideas; and using insults, sarcasm, or gestures to humiliate others. Response options range from 1 (never) to 5 (very often). Higher scores on this measure indicate members more frequently perceived hostile behaviors in their workplace.

- *Posttraumatic Stress Disorder (PTSD)*: PTSD is a type of anxiety disorder that can be triggered by experiencing or witnessing a traumatic event that causes fear, helplessness, and/or horror, and is characterized by persistent

frightening thoughts and memories, emotional detachment or numbness, sleep problems, and/or a tendency to be easily startled. The Posttraumatic Stress Disorder Check List–Civilian (PCL-C) is a 5-item screening tool used to provide information regarding the relative severity of PTSD symptoms that individuals experienced over the past month (Q196–Q197). Response options were *Yes/No*. If the respondent marked "Yes" to any subitem within Q197, then he/she is coded as "Experienced" on the scale. If the respondent marked "No" to Q196 or "No" to all Q197 subitems, then he/she is coded as "Not Experienced" on the scale. PTSD scores range from 0 to 100. Higher scores on this measure indicate greater experiences of PTSD symptoms.

- *Depression Scale*: Depression is a common mental disorder characterized by depressed mood, loss of interest or pleasure, feelings of guilt or low self-worth, including symptoms such as disturbed sleep or appetite, low energy, and poor concentration. The first eight questions from the Patient Health Questionnaire (PHQ-9) Depression Scale (Spitzer, et al. 1999) were used to measure the presence of depression-related thoughts and behaviors (Q198). The PHQ-9 is a unidimensional measure used for diagnosing depression and assessing its severity (Kroenke, Spitzer, & Williams, 2001). The eight questions are averaged and scores range from 1 to 4.[16] Higher scores on this measure indicate higher levels of depression-related thoughts and behaviors.

Metrics for Prevalence Rates[17]

Prevalence rates reflect whether members indicated experiencing a Military Equal Opportunity (MEO) Violation (sexual harassment [hostile work environment or sexual *quid pro quo* behaviors] and gender discrimination) and/or sexual assault. The *2016 WGRA* prevalence rates comprise the percentage of members who indicated experiencing at least one of the behaviors during the 12 months prior to the survey and endorsed follow-up items meeting the criteria for MEO violations and/or sexual assault victimization. For each of these composite measures, the tabulations are presented in the following order:

1. Grouped presentation of the percentage of members who indicated experiencing the behaviors comprising the measure

[16] One item, "Thoughts that you would be better off dead, or of hurting yourself in some way," on the PHQ-9 Depression Scale was excluded from this survey.

[17] The treatment of missing answers when coding composite measures of sexual assault and MEO violations aligns with the *2014 RMWS* conducted by RAND Corporation. The *2014 RMWS* required answers to 50% or more of the items to be included in the composite measures and, if this criteria was met, missing responses were hard coded to "Not Experienced." For example, with the sexual assault measure, if a respondent had three "No" answers and three "Missing" responses across the behavior items, they were coded as "Not experienced" in the final composite.

2. Grouped presentation of the percentage of members who indicated experiencing the behaviors and also met the legal criteria to be included in the composite measure

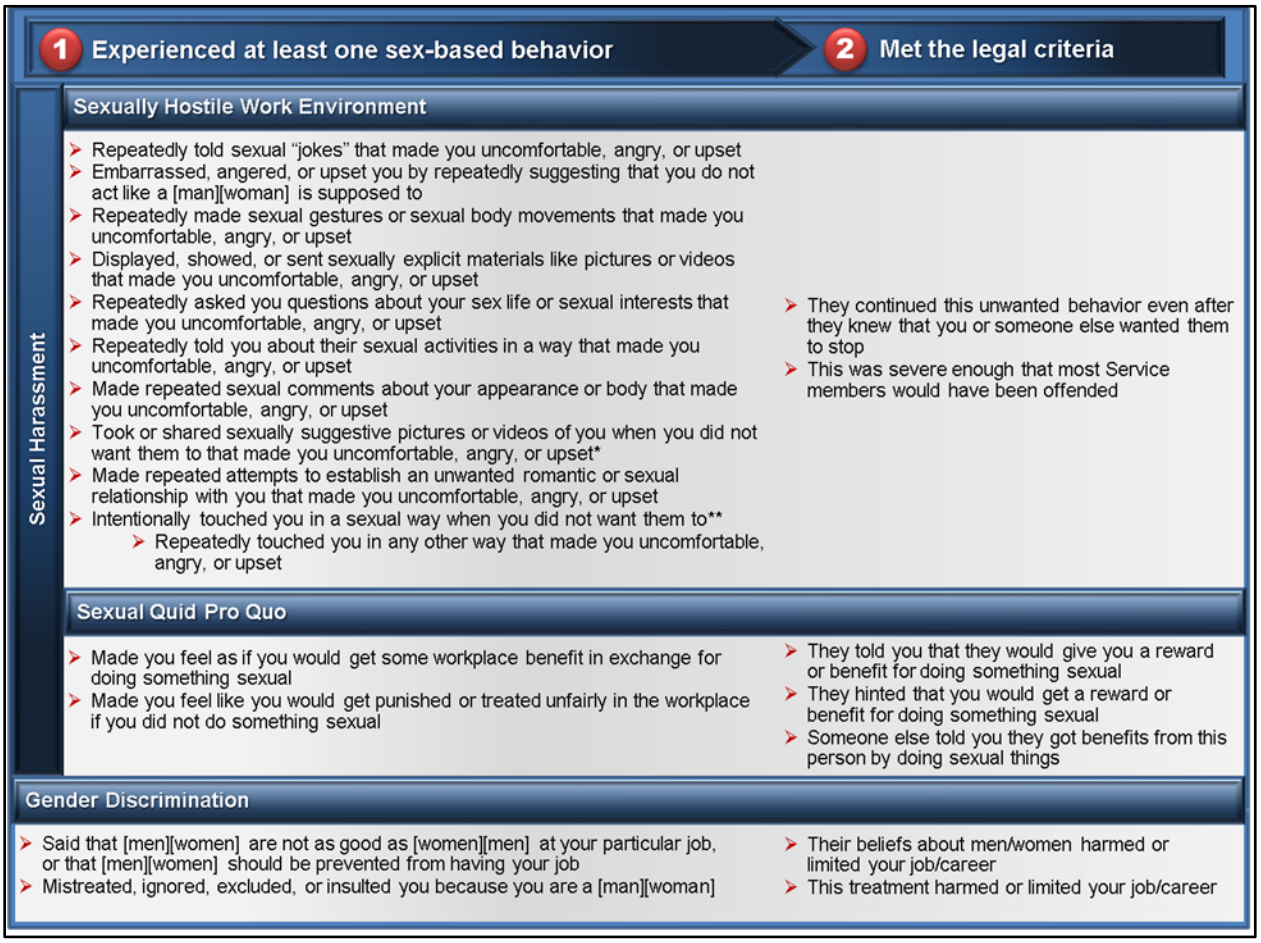
3. The overall prevalence rate for the composite measure

4. Grouped presentation of the prevalence rate for each type of behavior experienced

MEO Violations. Prevalence rates of sex-based MEO violations were derived from items Q8–Q47 and represent a continuum of behaviors including sexual harassment (sexually hostile work environment and sexual *quid pro quo*) and gender discrimination. The behaviors comprising each of the MEO violations are described below, with details on prevalence rate construction depicted in Figure 5.

- *Sexual Harassment* (Q8–Q22 and Q25–Q45) includes two behaviors:
  - *Sexually Hostile Work Environment* (Q8–Q22 and Q25–Q43): Includes unwelcome sexual conduct or comments that interfere with a person's work performance or creates an intimidating, hostile, or offensive work environment, or where the conduct is a condition of a person's job, pay, or career. Additionally, most of the behaviors have to either continue after the offender knew to stop or were so severe that most Service members would have found them offensive to meet the legal criteria for inclusion in the prevalence rate. See Figure 5 for details.
  - *Sexual Quid Pro Quo* (Q21–Q22 and Q44–Q45): Includes instances of job benefits or losses conditioned on sexual cooperation.
- *Gender Discrimination* (Q23–Q24 and Q46–Q47): Includes comments and behaviors directed at someone because of his/her gender and these experiences harmed or limited his/her career.

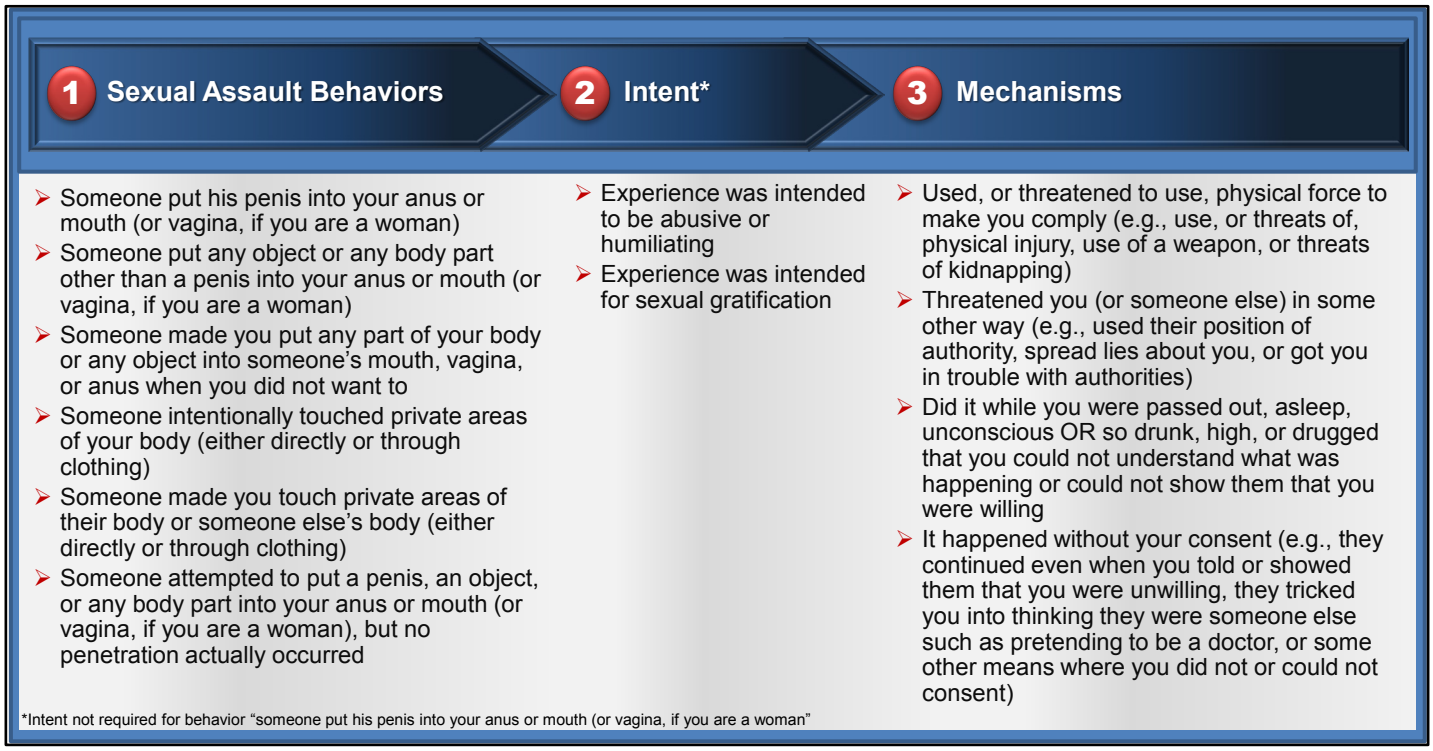
Figure 5.
Sex-Based MEO Violation Prevalence Rate Metrics[18]



Sexual Assault. Prevalence rates of sex-based MEO violations were derived from items Q65–Q85, Q87–Q93, and Q95–Q106 and represent a continuum of sexual assault behaviors prohibited by Article 120 of the UCMJ and the circumstances of those experiences. To be included in the prevalence rate for sexual assault, the respondent must have indicated the sexual assault behaviors were done with the intent to either gratify a sexual desire or to abuse, humiliate, or degrade (exceptions noted in Figure 6), and mechanisms such as force or threats must have been used or, in instances where the assault happened while the victim was unconscious or drugged, the offender behaved fraudulently, or the victim was unable to provide consent. The specific behaviors and intent and consent mechanisms are depicted in Figure 6.

[18] *Only required the legal criteria of being severe enough that most Service members would have been offended.
**Did not require any legal criteria follow-up.

Figure 6.
Sexual Assault Prevalence Rate Metrics



If a respondent experienced any sexual assault behavior classified as meeting the legal criteria for a sexual assault, they would only see questions for the remaining sexual assault behaviors–they would not see the follow-up questions on intentions and consent mechanisms for additional behaviors experienced. Additionally, respondents who indicated the incident occurred outside of the past 12 months (Q167, Q169) are coded as "No" for the sexual assault behaviors and prevalence rates and they are excluded from the sexual assault one situation experienced throughout the tabulations (Q108, Q166).

- Sexual Assault prevalence rates are also shown in three hierarchical, mutually-exclusive categories from the items shown in Figure 7:[19]

  – *Penetrative Sexual Assault* includes individuals who indicated *Yes* to any of the items that assess penetration of the vagina, anus, or mouth (Q65, Q70, and/or Q77), and met the legal criteria for a sexual assault.

  – *Non-Penetrative Sexual Assault* includes individuals who indicated *Yes* to either of the items that assess unwanted sexual touching (Q84 and/or

[19] These are hierarchical-based rates—if the respondent met the criteria for the first behavior (penetrative sexual assault), then he/she would not be included in either of the remaining sexual assault rates. OPA followed the coding structure used in the *2014 RMWS*.

Q92), and met the legal criteria for a sexual assault. Individuals who were previously counted as having experienced penetrative sexual assault are excluded from this rate.

– *Attempted Penetrative Sexual Assault* includes individuals who indicated *Yes* to the item that assesses attempted sexual assault (Q100) and met the legal criteria for a sexual assault. Individuals who were previously counted as having experienced penetrative sexual assault or non-penetrative sexual assault are excluded from this rate.

- *Composite measures of sexual assault*. Three additional "roll-up" composite measures are constructed to provide additional rates of sexual assault to include experiences of sexual assault that occurred prior to the past 12 months. Respondents are shown the list of behaviors in-line with sexual assault and if at least one behavior is endorsed, are asked if the behavior(s) occurred before or after joining the military (Q171–Q172). These questions do not require the respondent to meet legal criteria for intent and/or consent.

  – *Lifetime Sexual Assault Prevalence Rate* includes experiences of sexual assault that occurred in the past year as well as those that occurred more than a year ago (Q65–Q85, Q87–Q93, Q95–Q106, and Q171a–d, f).

  – *Sexual Assault Prevalence Rate Since Joining the Military* includes experiences of sexual assault that occurred since joining the military including experiences in the past 12 months (Q65–Q85, Q87–Q93, Q95–Q106, Q171 a–d, f, and Q172b).

  – *Sexual Assault Prevalence Rate Prior to Joining the Military* includes experiences of sexual assault that occurred more than a year ago and before joining the military (Q171a–d, f, and Q172).

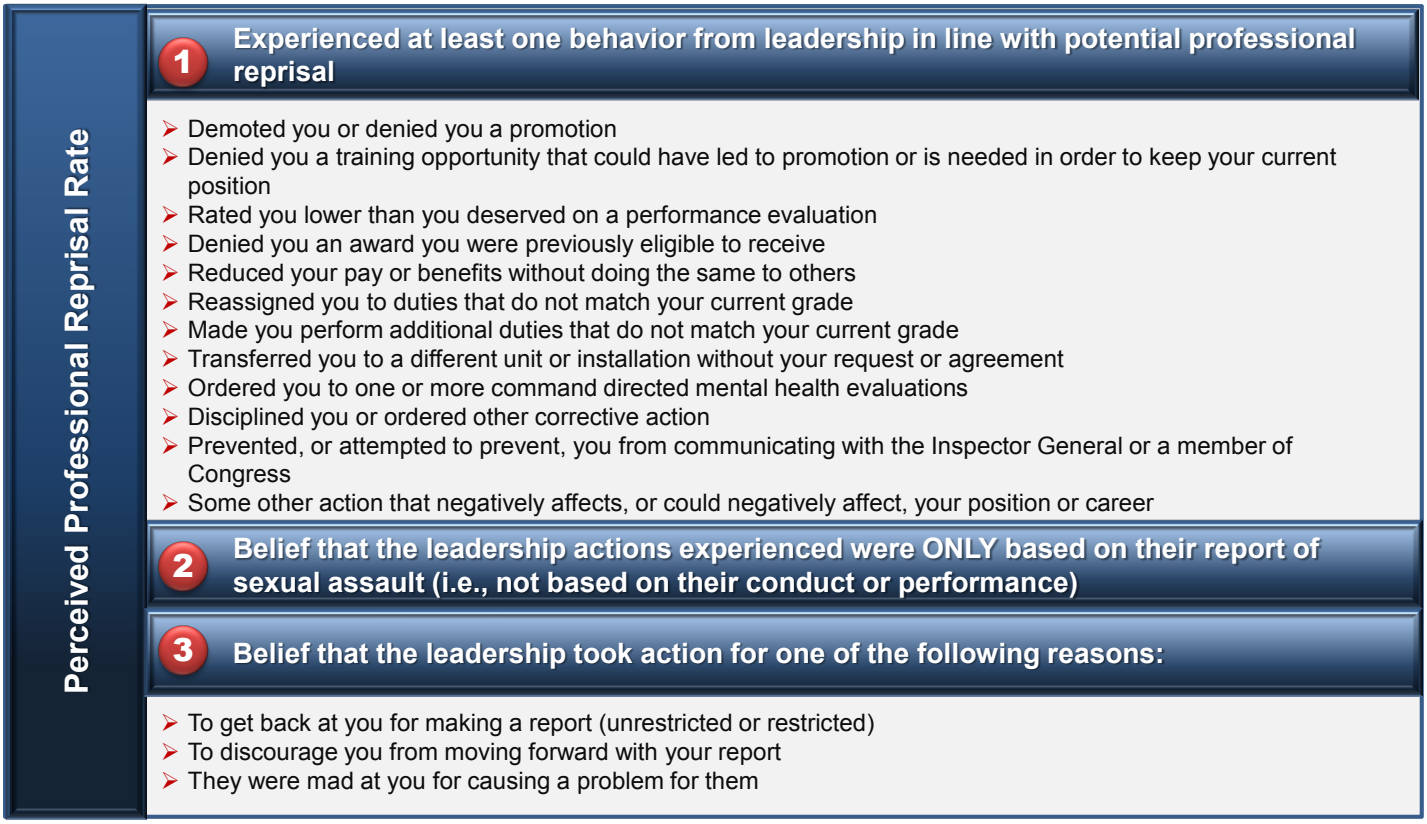
Retaliation Metrics. Measures of perceived professional reprisal, ostracism, and maltreatment are used to capture retaliatory behaviors experienced by active duty members as a result of reporting a sexual assault. These measures reflect member perceptions and should not be interpreted as meeting the elements of proof for official retaliation. Retaliatory behaviors, as per DoD policy, can only be determined via formal investigation. However, the items used in the *2016 WGRA* align with the legal elements of professional reprisal, ostracism, and maltreatment in the UCMJ and can provide DoD with estimates of possible prohibited behaviors.

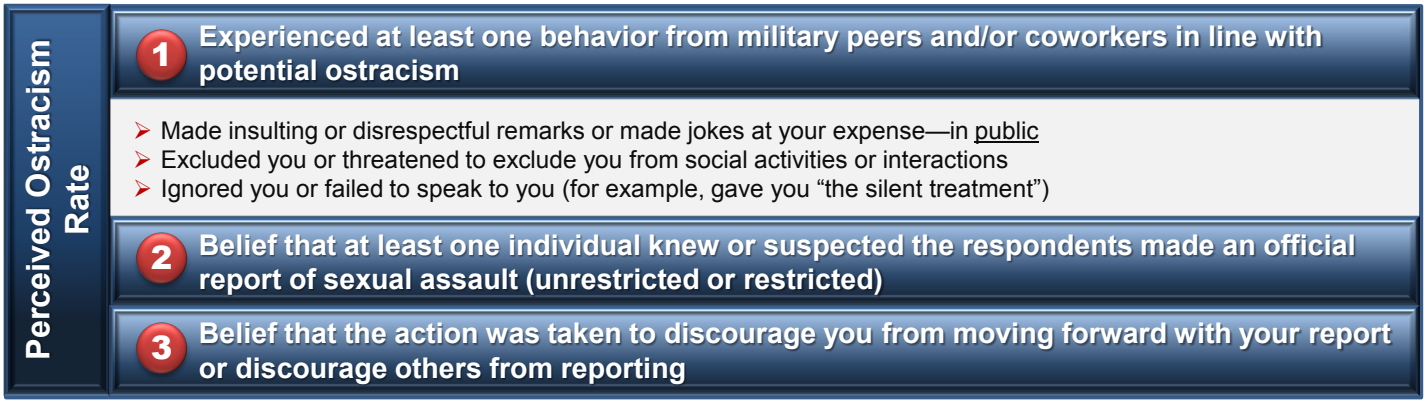
- *Perceived Professional Reprisal* (Q143–Q145): Under the UCMJ, reprisal is defined as "Taking or threatening to take an adverse personnel action, or withholding or threatening to withhold a favorable personnel action, with respect to a member of the Armed Forces because the member reported a criminal offense." The rate of perceived professional reprisal is a summary measure reflecting whether respondents indicated they experienced unfavorable actions taken by leadership (or an individual with the authority to affect a personnel decision) as a result of reporting a sexual assault (not based on conduct or performance) and met the legal criteria for elements of proof for an investigation to occur. Figure 8 shows the behaviors and two follow-up criteria required to be included in the metric.

Figure 8.
Perceived Professional Reprisal Metrics



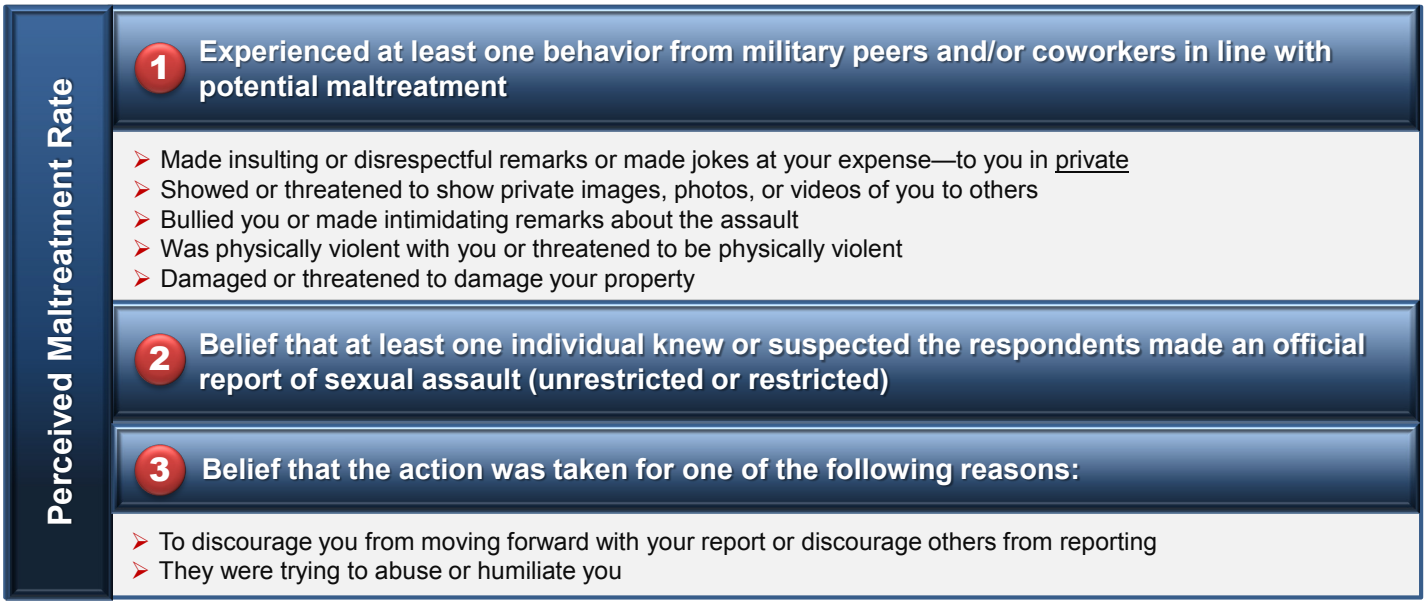
- *Perceived Ostracism* (Q149–Q151): The rate of perceived ostracism is a summary measure reflecting whether, as a result of reporting a sexual assault, respondents indicated experiencing negative behaviors from military peers and/or coworkers to make them feel excluded or ignored and met the legal criteria for elements of proof for an investigation to occur. Figure 9 shows the behaviors and two follow-up criteria required to be included in the metric.

Figure 9.
Perceived Ostracism Metrics



- *Perceived Maltreatment* (Q154–Q156): The rate of perceived maltreatment is a summary measure reflecting whether, as a result of reporting a sexual assault, respondents indicated experiencing negative behaviors from military peers and/or coworkers that occurred without a valid military purpose, and may include physical or psychological force, threats, or abusive or unjustified treatment that results in physical or mental harm and met the legal criteria for elements of proof for an investigation to occur. Figure 10 shows the behaviors and two follow-up criteria required to be included in the metric.

Figure 10.
Perceived Maltreatment Metrics



- *Composite Measures of Retaliation*: Two additional "roll-up" composite measures are constructed to provide additional rates of perceived retaliatory behaviors.

  – *Perceived Ostracism and/or Maltreatment* is an overall measure showing whether members reported experiencing behaviors or actions by military peers and/or coworkers meeting the requirements for inclusion in the estimates of *Perceived Ostracism and/or Maltreatment*.

  – *Perceived Professional Reprisal, Ostracism, and/or Maltreatment* is an overall measure reflecting whether respondents experienced either *Perceived Professional Reprisal*, *Perceived Ostracism*, and/or *Perceived Maltreatment* by leadership, other military members, or DoD civilians for reporting a sexual assault.

Margins of Error

The complex sample design in *2016 WGRA* required weighting to produce population estimates (e.g., percent female who experienced sexual assault).[20] Because of this weighting strategy, conventional formulas for calculating the margin of error will overstate the reliability of the estimate. For this tabulation volume, variance estimates were calculated using SUDAAN® PROC DESCRIPT (Research Triangle Institute, Inc., 2013).

By definition, sample surveys are subject to sampling error from nonresponse. Standard errors are estimates of the variance around population parameters (such as percentages or means) and are used to construct margins of error (i.e., confidence interval half-widths). Estimated percentages and means in these tabulations are reported with margins of error based on 95% confidence intervals. In order to compress the data display, only the maximum margin of error (*Max ME*) for each reporting category is shown. That is, the tabulation volume shows only the largest margin of error for the percentages or means in each row. For each average shown in these tabulations, its margin of error is also printed. The following reporting conventions are used:

- "0" indicates that no one in any reporting group selected the response option,

- *NR* indicates the estimate is *Not Reportable* and is suppressed because of low reliability. Estimates of low reliability are suppressed based on criteria defined in terms of nominal sample size (less than 5), effective sample size (less than 15), or relative standard error (greater than 0.225). An "NR"

[20] As a result of differential weighting, only certain statistical software procedures, such as SUDAAN® PROC DESCRIPT, correctly calculate standard errors, variances, or tests of statistical significance for stratified samples.

presentation protects DoD, and the reader, from presenting potentially inaccurate findings due to instability of the specific estimate. The cause of instability is due to high variability (large relative standard error) usually associated with a small number of respondents contributing to the estimate,

- *NA* indicates the question was *Not Applicable* because the question did not apply to respondents in the reporting category based on answers to previous questions,
- *no Max ME* is printed when all percentages in the row are shown as *NR*,
- *no margin of error* is printed for an average when it is shown as *NR*.

Note. Percent responding and the grouped presentation of estimates represent active duty members who answered the questions. Questions 8, 10–14, and 20 all included text indicating the behavior made them "uncomfortable, angry, or upset." Questions 15 and 17 include endorsement of the behavior and follow-up question "that made you uncomfortable, angry, or upset" (Questions 16 and 18, respectively). Members who indicated "Yes" to Question 19 did not see Question 20.

Note. Percent responding and the grouped presentation of estimates represent active duty members who indicated experiencing at least one gender-related behavior in the past 12 months consistent with a sexually hostile work environment. Follow-up questions establish whether the behavior met the criteria to be considered a sexually hostile work environment (Q25–Q43). Question 19 has no additional legal criteria to be considered an MEO violation; therefore the estimate is 100%.

47. Sex-Based MEO Violation Prevalence Rate. Rate includes members who experienced at least one of the sexual harassment (sexually hostile work environment and/or sexual quid pro quo) and/or gender discrimination behaviors in the past 12 months and met legal criteria for an MEO violation. Constructed from Q8–Q47.

Note. Percent responding are active duty members who answered the question, who indicated experiencing a sex-based MEO violation (Q8–Q47), and indicated at least one person who acted this way was a military member (Q54). Members were allowed to mark more than one option, and therefore, the sum of subitems does not equal 100%.

Note. Percent responding are active duty members who answered at least one item in the question (Q61a–e) and who indicated experiencing a sex-based MEO violation (Q8–Q47). These mutually-exclusive responses are created hierarchically. "Reported/Disclosed to someone officially" includes respondents who discussed the situation either with a work supervisor or someone up their chain of command, or reported to any person tasked with enforcing Equal Opportunity regulations. "Disclosed to someone unofficially" includes respondents who discussed the situation with friends, family or coworkers or a chaplain, counselor, or medical person. "Did not disclose to anyone" includes all respondents who did not tell anyone about the situation.

Note. Percent responding are active duty members who answered the questions. These mutually-exclusive responses are created hierarchically. Members who indicated the experience occurred outside of the past 12 months are coded as "No" for the behaviors they indicated experiencing (Q167, Q169). See introduction for details on metric construction.

Note. Percent responding are active duty members who answered the question and who indicated within the past 12 months they experienced an unwanted behavior and met the criteria for a sexual assault (Q65–Q106). These mutually-exclusive responses are created hierarchically. Those who indicated experiencing a penetrative sexual assault in "Penetrative sexual assault." Those who who are not in penetrative sexual assault, and indicated experiencing attempted sexual assault, are included in "Attempted sexual assault." Those who did not catigoried as penetrative or attempted sexual assault, and indicated experiencing non-penetrative sexual assault, are included in "Non-penetrative sexual assault."

Note. Percent responding are active duty members who answered the question, who indicated within the past 12 months they experienced an unwanted behavior and met the criteria for a sexual assault (Q65–Q106), and who indicated at least one person who did this was a military member (Q114). Members were allowed to mark more than one option, and therefore, the sum of subitems does not equal 100%.

Note. Percent responding are active duty members who answered the question and who indicated within the past 12 months they experienced an unwanted behavior and met the criteria for a sexual assault (Q65–Q106). Members were allowed to mark more than one option, and therefore, the sum of subitems does not equal 100%. *Percentage in Chain of Command* includes members who marked either Q117a or Q117b.

Note. Percent responding are active duty members who answered the question and who indicated within the past 12 months they experienced an unwanted behavior and met the criteria for a sexual assault (Q65–Q106). Members were allowed to mark more than one option, and therefore, the sum of subitems does not equal 100%.

Percent responding are active duty members who answered the questions, who indicated within the past 12 months they experienced an unwanted behavior and met the criteria for a sexual assault (Q65–Q106), and who did not make an official report to the military (Q129). Members were allowed to mark more than one option, and therefore, the sum of subitems does not equal 100%.

Note. Percent responding are active duty members who answered the questions, who indicated within the past 12 months they experienced an unwanted behavior and met the criteria for a sexual assault (Q65–Q106), and who did not make an official report to the military (Q129). Members were allowed to mark more than one option, and therefore, the sum of subitems does not equal 100%.

Note. Percent responding are active duty members who answered the question, who indicated within the past 12 months they experienced an unwanted behavior and met the criteria for a sexual assault (Q65–Q106), who made an official report to the military (Q129), and who indicated experiencing negative outcomes from their leadership (Q143a–l) and met the criteria for perceived professional reprisal (Q144–Q145). Members were allowed to mark more than one option, and therefore, the sum of subitems does not equal 100%.

Note. Percent responding are active duty members who answered the question, who indicated within the past 12 months they experienced an unwanted behavior and met the criteria for a sexual assault (Q65–Q106), and who made an official report to the military (Q129). Members were allowed to mark more than one option, and therefore, the sum of subitems does not equal 100%.

Note. Percent responding are active duty members who answered the questions, who indicated within the past 12 months they experienced an unwanted behavior and met the criteria for a sexual assault (Q65–Q106), who made an official report to the military (Q129), and who indicated experiencing negative actions from their leadership and/or military peers and/or coworkers (Q143a–l/Q149a–c/Q154a–f) and met the criteria for perceived professional reprisal, ostracism, and/or maltreatment (Q144–Q145/Q150–Q151/Q155–Q156). Members were allowed to mark more than one option, and therefore, the sum of subitems does not equal 100%.

Note. Percent responding are active duty members who answered the question, who indicated within the past 12 months they experienced an unwanted behavior and met the criteria for a sexual assault (Q65–Q106), who made an official report to the military (Q129), who indicated experiencing negative actions from their leadership and/or military peers and/or coworkers (Q143a–l/Q149a–c/Q154a–f) and met the criteria for perceived professional reprisal, ostracism, and/or maltreatment (Q144–Q145/Q150–Q151/Q155–Q156), and who discussed with someone in their chain of command with the expectation that some action would be taken (Q161). Members were allowed to mark more than one option, and therefore, the sum of subitems does not equal 100%.

Note. Percent responding are active duty members who answered the question, who indicated within the past 12 months they experienced an unwanted behavior and met the criteria for a sexual assault (Q65–Q106), who made an official report to the military (Q129), and who indicated experiencing negative actions from their leadership and/or military peers and/or coworkers (Q143a–l/Q149a–c/Q154a–f) and met the criteria for perceived professional reprisal, ostracism, and/or maltreatment (Q144–Q145/Q150–Q151/Q155–Q156). Members were allowed to mark more than one option, and therefore, the sum of subitems does not equal 100%.

Frequently Asked Questions / How to Contact Us

PRIVACY ACT STATEMENT & INFORMED CONSENT INFORMATION

Your name and contact information have been used only for the distribution of this survey. Your responses to the demographic questions will allow DoD to better analyze all responses among varying demographic groups. Responding to this survey is voluntary. The survey is confidential. DoD is promising confidentiality to those who were selected to participate in this important survey. Therefore, any responses you provide regarding experiences of unwanted gender-related behaviors will not impact your reporting options. Defense Manpower Data Center (DMDC) has received a federal "Certificate of Confidentiality" that provides DMDC with additional protection against any attempt to subpoena confidential survey records. Most people can complete the survey in 30 minutes. There is no penalty to you if you choose not to respond. However, maximum participation is encouraged so the data will be complete and representative. This survey assesses the respondent's perspective regarding experiences of sexual harassment and sexual assault. Any reference to a perpetrator is not intended to convey guilt or innocence of any person.

Additional Information

10 USC Sections 136, 481, 1782, 2358, 14 USC 1 and Section 570 of the FY13 NDAA, authorize the Department of Defense to conduct this survey. Reports will be provided to the Department of Defense (DoD), each Military Department, and the Joint Chiefs of Staff.

DMDC uses well-established, scientific procedures to randomly select a sample representing the Defense community based on combinations of demographic characteristics (for example, Service and gender).

Identifying information will be used only by government and contractor staff engaged in, and for purposes of, survey research. In no case will individual identifiable survey responses be reported.

The data collection procedures are not expected to involve any risk or discomfort to you.

Survey data may be shared with DoD researchers or organizations outside the DoD who are conducting research on DoD personnel. DMDC performs a disclosure avoidance analysis to reduce the risk of there being a combination of demographic variables which can single out an individual.

Your responses could be used in future research. Results from these surveys will be posted on the web: https://www.dmdc.osd.mil/appj/dwp/dwp_surveys.jsp

If you answer any items or indicate distress or being upset, etc., you will not be contacted for follow-up purposes. However, if you indicate a direct threat to harm yourself or others within responses or communications about the survey, because of concern for your welfare, DMDC may notify an office in your area for appropriate action.

A respondent who experienced sexual harassment or sexual assault may experience discomfort and/or other emotions while completing the survey. Contact information is provided below for those who experience such discomfort.

- If you are a victim of sexual assault, or a person who wishes to prevent or respond to this crime, you may want to contact a Sexual Assault Response Coordinator (SARC) or Victim Advocate (VA).
    - To reach Military OneSource 24/7 for restricted/unrestricted reporting and established DoD Sexual Assault Services, call a hotline number:

      Stateside: 1-800-342-9647
      Overseas: 00-800-3429-6477 or call collect 1-484-530-5908
      Worldwide: http://www.militaryonesource.com/ or www.sapr.mil/
- If you are a victim of sexual harassment, or a person who wishes to prevent or respond to it, you may want to contact your Service's local sexual harassment or equal opportunity office.
    - To reach a hotline for your Service, call:

Army:	1-800-267-9964	**Marine Corps:**	703-784-9371
Navy:	1-800-253-0931	**Air Force:**	1-800-616-3775
Coast Guard:	1-888-992-7387		

If you experience any difficulties while taking the survey, please contact the Survey Processing Center by sending an e-mail to wgr-survey@mail.mil or calling, 1-800-881-5307. If you have concerns about your rights as a research participant, please contact the OUSD(P&R) Research Regulatory Oversight Office at 703-681-6522/ 703-681-8320 or e-mail DHRA.R202.PR@mail.mil.

Once you start answering the survey, if you desire to withdraw your answers, please notify the Survey Processing Center prior to September 28, 2016. Please include in the e-mail or phone message your name and Ticket Number. Unless withdrawn, partially completed survey data may be used after that date.

Click *Continue* if you agree to take the survey.

FREQUENTLY ASKED QUESTIONS

What is Defense Manpower Data Center (DMDC)?

- DMDC maintains the largest archive of personnel, manpower, training, and financial data in the Department of Defense (DoD). DMDC also conducts Joint-Service surveys including the Status of Forces Surveys, QuickCompass Surveys, and Health and Resilience Surveys for the DoD. To learn more, visit the DMDC website.

http://www.dmdc.osd.mil/

What is the Health and Resilience Program?

- Health and Resilience is a DoD personnel program that features paper and web-based surveys sponsored by the Under Secretary of Defense for Personnel and Readiness (USD[P&R]).
- These surveys enable DoD to regularly assess the attitudes and opinions of the DoD community, including active duty and Reserve component members, on the full range of personnel issues.

How do I know this is an official, approved DoD survey?

- In accordance with DoD Instruction 8910.01, all data collection in DoD must be licensed and show that license as a Report Control Symbol (RCS). The RCS for this survey is RCS# DD-P&R(QD)1947.

How did you pick me?

- DMDC uses well-established, scientific procedures to randomly select a sample that represents the Defense community based on combinations of demographic characteristics (e.g., Service and gender).

Why should I participate?

- This is your chance to be heard on issues that directly affect you, including policies and practices regarding general workplace respect issues as well as sexual assault, and other gender-related issues.
- Your responses on this survey ***make a difference***.

What is wgr-survey@mail.mil?

- The official e-mail address for communicating with active duty members about Health and Resilience. "WGR-Survey" is short for Workplace and Gender Relations Survey.

Why am I being asked to use the web?

- Web administration enables us to get survey results to senior Defense leaders faster.

Why are you using a .net instead of a .mil domain to field your survey?

- The survey is administered by our contractor, Data Recognition Corporation, an experienced survey operations company. The survey collection tool starts on a .mil site within DMDC. Once you enter your ticket number, you are redirected to a contractor site which uses a .net domain. This allows everyone to access the survey, even from a non-government computer.

Do I have to answer all questions?

- No, it is not necessary to answer every question. Within the survey screen, you have four control buttons: *Next Page* (→), *Previous Page* (←), *Clear Responses*, and *Save and Return Later*. Use these buttons to navigate through the survey or skip questions. Use *Save and Return Later* to give yourself flexibility to complete the survey at a convenient time. When you return to the survey website, enter your Ticket Number and PIN to get to the place in the survey where you had stopped.

Why does the survey ask personal questions?

- DMDC reports overall results, as well as by other characteristics, such as race (minority/not minority), gender, etc. To complete these analyses, we must ask demographic information from respondents.
- Analyzing results in this way provides Defense leaders information about the attitudes and concerns of all subgroups of personnel so that no groups are overlooked.
- Sometimes sensitive questions are asked in order to improve personnel policies, programs, and practices. As with all questions on the surveys, your responses will be held in confidence.

Will my answers be kept private?

- All data will be reported in the aggregate and no individual data will be reported.
- We encourage you to safeguard your Ticket Number to prevent unauthorized access to your survey. In addition, to ensure your privacy, be aware of the environment in which you take the survey (e.g., take the survey when no one else is home, take care to not leave the survey unattended).
- If you answer any items or indicate distress or being upset, etc., you will not be contacted for follow-up purposes. However, if you indicate a direct threat to harm yourself or others within responses or communications about the survey, because of concern for your welfare, DMDC may notify an office in your area for appropriate action.

Can I withdraw my answers once I have started the survey?

- If you wish to withdraw your answers, please notify the Survey Processing Center prior to September 28, 2016 by sending an e-mail to wgr-survey@mail.mil or calling, toll-free 1-800-881-5307. Include your name and Ticket Number.

Will I ever see the results of the survey?

GLOSSARY

Term	Description
OPA	Prior to the launch of this survey, the Defense Research Surveys, and Statistics Center (RSSC) resided within the Defense Manpower Data Center (DMDC) under the Defense Human Resources Activity (DHRA). In Fall 2016, DHRA reorganized and moved RSSC from DMDC to the newly established Office of People Analytics (OPA). Any references to DMDC within this document should be understood to reference OPA hereafter.
[Ask if…]	All [Ask if] text refers to the survey skip logic. Any question that has this text will only be shown to those who meet the criteria within the brackets based on their previous responses. Any question that does not have [Ask if] text was seen by all respondents.
Day_of_Week	The web survey was programmed to display the current day of the week for each individual participant based on when he or she first accessed the survey.
X_Date	The web survey was programmed to display the current date minus one year to accurately reflect the previous 12 months for each individual participant based on when he or she first accessed the survey.
[man][woman] or [men][women]	The web survey used dynamic text tailored to each respondent based on his or her gender. The first bracket contains the text shown to men and the second bracket contains the text shown to women.
MEO_FLAG	Flag created from positive endorsement of at least one of the following questions, including meeting [Ask if] criteria to see these questions: Q19, Q25, Q26, Q27, Q28, Q29, Q30, or Q31, Q32, Q33, Q34, Q35, Q36, Q37, Q38, Q39, Q40, Q41, Q42, Q43, Q44 a, Q44 b, Q44 c, Q45 a, Q45 b, Q45 c, Q46, or Q47. Endorsement of at least one of these items indicates meeting the survey's criteria to be considered sexual harassment or gender discrimination.
SA1FLAG	Flag created from positive endorsement of at least one of the following questions, including meeting [Ask if] criteria to see these questions: Q66–Q69. Endorsement of at least one of these items indicates meeting the survey's criteria to be considered sexual assault based on Q65.
SA2FLAGCUM	Flag created from positive endorsement of at least one item from any of the following sets of questions, including meeting [Ask if] criteria to see these question sets: Q66–Q69 or Q73–Q76. Endorsement of one item within either question set indicates meeting the survey's criteria to be considered sexual assault based on Q65 or Q70, respectively.
SA3FLAGCUM	Flag created from positive endorsement of at least one item from any of the following sets of questions, including meeting [Ask if] criteria to see these question sets: Q66–Q69, Q73–Q76, or Q80–Q83. Endorsement of at least one item within any question set indicates meeting the survey's criteria to be considered sexual assault based on Q65, Q70, or Q77, respectively.
SA4FLAGCUM	Flag created from positive endorsement of at least one item from any of the following sets of questions, including meeting [Ask if] criteria to see these question sets: Q66–Q69, Q73–Q76, Q80–Q83, or Q88–Q91. Endorsement of at least one item within any question set indicates meeting the survey's criteria to be considered sexual assault based on Q65, Q70, Q77, or Q84 or Q86, respectively.
SAFLAG	Flag created from positive endorsement of at least one item from any of the following sets of questions, including meeting [Ask if] criteria to see these question sets: Q66–Q69, Q73–Q76, Q80–Q83, Q88–Q91, Q96–Q99, or Q103–Q106. Endorsement of at least one item within any question set indicates meeting the survey's criteria to be considered sexual assault based on Q65, Q70, Q77, Q84 or Q86, Q92 or Q94, or Q100, respectively.
SACOUNT	Flag created from positive endorsement of at least one of the following questions: Q65, Q70, Q77, Q84 or Q86, Q92 or Q94, or Q100.

BACKGROUND INFORMATION

Thank you for agreeing to participate in this important study.

Please answer each question thoughtfully and truthfully. This will allow us to provide an accurate picture of the different experiences of today's military members. If you prefer not to answer a specific question for any reason, just leave it blank.

Some of the questions in this survey will be personal. For your privacy, you may want to take this survey where other people won't see your screen.

1. Were you on active duty on [OPEN DATE]?

- ☒ Yes
- ☒ No, I was separated or retired

2. Are you...?

- ☒ Male
- ☒ Female

3. In the past 12 months, have you been deployed longer than 30 consecutive days?

- ☒ Yes, currently deployed

- ☒ No
- ☒ Do not remember

7. Were you married or dating someone on [X Date]?

- ☒ Yes
- ☒ No
- ☒ Do not remember

GENDER-RELATED EXPERIENCES IN THE MILITARY

In this section, you will be asked about several things that someone from work might have done to you that were upsetting or offensive, and that happened AFTER [X Date].

When the questions say "someone from work," please include any person(s) you have contact with as part of your military duties. "Someone from work" could be a supervisor, someone above or below you in rank, or a civilian employee/contractor. They could be in your unit or in other units.
These things may have occurred on-duty or off-duty, on-base or off-base. Please include them as long as the person who did them to you was someone from work.
Remember, all the information you share will be kept confidential.

GENDER-RELATED EXPERIENCES

Please read the following special instructions before continuing the survey.

Questions in this next section ask about unwanted experiences of an abusive, humiliating, or sexual nature. These types of unwanted experiences vary in severity. Some of them could be viewed as an assault. Others could be viewed as hazing or some other type of unwanted experience.

They can happen to both women and men.

The next questions include some graphic words. They describe events that DoD regulations define with precise anatomical language. It is important to use the same names of the specific body parts the DoD uses. This is the best way to determine whether or not people have had these types of experiences.

When answering these questions, please include experiences no matter who did it to you or where it happened. It could be done to you by a male or female, Service member or civilian, someone you knew or a stranger.

Please include experiences even if you or others had been drinking alcohol, using drugs, or were intoxicated.

The following questions will ask you about events that happened AFTER [X Date].

You will have an opportunity to describe experiences that happened BEFORE [X Date] later in the survey.

Remember, all the information you share will be kept confidential.

65. **Since [X Date], did you have any unwanted experiences in which someone put his penis into your anus or mouth (or vagina, if you are a woman)?**

GENDER-RELATED EXPERIENCES

Earlier in the survey you indicated that you experienced an unwanted event.

It can be difficult to remember the exact date when events occurred. In this study, it is important to know which events happened in the last 12 months, and which events happened earlier.

167. [Ask if [SAFLAG] = "True"] **Thinking about when the event occurred, how certain are you that it occurred in the last 12 months?** If the event occurred over a long time, think about whether it ever happened after [X Date].

PRIOR EXPERIENCES

The questions so far have been about things that occurred in the past year. For the next questions, please think about events that happened more than one year ago, BEFORE [X Date]. These are all experiences that you did not tell us about earlier in the survey.

These questions assess experiences of an abusive, humiliating, or sexual nature, and that occurred even though you did not want it and did not consent.

Please include an experience regardless of who did it to you or where it happened.

"Did not consent" means that you told or showed them that you were unwilling, that they used physical force or threats to make you do it, or that they did it to you when you were unconscious, asleep, or so high or drunk that you could not understand what was happening.

171. Before [X Date], had anyone... ***Mark "Yes" or "No" for each item.***

2016 Workplace and Gender Relations Survey of Active Duty Members

PRIVACY ADVISORY

Your name and contact information have been used only for the distribution of this survey. Your responses to the demographic questions will allow DoD to better analyze all responses among varying demographic groups. Responding to this survey is voluntary. The survey is confidential. DoD is promising confidentiality to those who were selected to participate in this important survey. Therefore, any responses you provide regarding experiences of unwanted gender-related behaviors will not impact your reporting options. Defense Manpower Data Center (DMDC) has received a federal "Certificate of Confidentiality" that provides DMDC with additional protection against any attempt to subpoena confidential survey records. Most people can complete the survey in 30 minutes. There is no penalty to you if you choose not to respond. However, maximum participation is encouraged so the data will be complete and representative. This survey assesses the respondent's perspective regarding experiences of sexual harassment and sexual assault. Any reference to a perpetrator is not intended to convey guilt or innocence of any person.

ADDITIONAL INFORMATION

10 USC Sections 136, 1782, 2358, 14 USC 1 and Section 570 of the FY13 NDAA, authorize the Department of Defense to conduct this survey. Reports will be provided to the Department of Defense (DoD), each Military Department, and the Joint Chiefs of Staff.

Your responses could be used in future research. Results from these surveys will be posted on the web: https://www.dmdc.osd.mil/appj/dwp/dwp_surveys.jsp

DMDC uses well-established, scientific procedures to randomly select a sample representing the Defense community based on combinations of demographic characteristics (for example, Service and gender).

Identifying information will be used only by government and contractor staff engaged in, and for purposes of, survey research. In no case will individual identifiable survey responses be reported. The data collection procedures are not expected to involve any risk or discomfort to you. Survey data may be shared with DoD researchers or organizations outside the DoD who are conducting research on DoD personnel. DMDC performs a disclosure avoidance analysis to reduce the risk of there being a combination of demographic variables which can single out an individual.

If you answer any items or indicate distress or being upset, etc., you will not be contacted for follow-up purposes. However, if you indicate a direct threat to harm yourself or others within responses or communications about the survey, because of concern for your welfare, DMDC may notify an office in your area for appropriate action.

If you experience any difficulties while taking the survey, please contact the Survey Processing Center by sending an e-mail to wgr-survey@mail.mil or calling, 1-800-881-5307. If you have concerns about your rights as a research participant, please contact the OUSD(P&R) Research Regulatory Oversight Office at 703-681-6522/703-681-8320 or e-mail DHRA.R202.PR@mail.mil.

Once you return the survey, if you desire to withdraw your answers, please notify the Survey Processing Center prior to September 28, 2016. Please include in the e-mail or phone message your name and Ticket Number. Unless withdrawn, partially completed survey data may be used after that date.

TIME REFERENCE

Most of this survey asks about experiences that have happened within the past 12 months. When answering these questions, please do NOT include any events that occurred before one year ago from today.

Please try to think of any important events in your life that occurred exactly one year ago such as birthdays, weddings, or family activities. These events can help you remember which things happened before one year ago from today and which happened after as you answer the rest of the survey questions.

The following questions will help you think about your life one year ago.

5. Do you currently live in the same house or building that you did one year ago today?

☒ Yes ☒ No ☒ Do not remember

6. Are you the same rank today that you were one year ago today?

☒ Yes ☒ No ☒ Do not remember

7. Were you married or dating someone one year ago today?

☒ Yes ☒ No ☒ Do not remember

GENDER-RELATED EXPERIENCES IN THE MILITARY

In this section, you will be asked about several things that someone from work might have done to you that were upsetting or offensive, and that happened AFTER one year ago from today.

When the questions say "someone from work," please include any person(s) you have contact with as part of your military duties. "Someone from work" could be a supervisor, someone above or below you in rank, or a civilian employee/ contractor. They could be in your unit or in other units.

These things may have occurred on-duty or off-duty, on-base or off-base. Please include them as long as the person who did them to you was someone from work.

Remember, all the information you share will be kept confidential.

GENDER-RELATED EXPERIENCES

Please read the following special instructions before continuing the survey.

Questions in this next section ask about unwanted experiences of an abusive, humiliating, or sexual nature. These types of unwanted experiences vary in severity. Some of them could be viewed as an assault. Others could be viewed as hazing or some other type of unwanted experience.

They can happen to both women and men.

The next questions include some graphic words. They describe events that DoD regulations define with precise anatomical language. It is important to use the same names of the specific body parts the DoD uses. This is the best way to determine whether or not people have had these types of experiences.

When answering these questions, please include experiences no matter who did it to you or where it happened. It could be done to you by a male or female, Service member or civilian, someone you knew or a stranger.

Please include experiences even if you or others had been drinking alcohol, using drugs, or were intoxicated.

The following questions will ask you about events that happened AFTER one year ago from today.

You will have an opportunity to describe experiences that happened BEFORE one year ago from today later in the survey.

Remember, all the information you share will be kept confidential.

25. Since one year ago today, did you have any unwanted experiences in which someone put his penis into your anus or mouth (or vagina, if you are a woman)?

- ☒ Same person(s)
- ☒ Friends with the identified perpetrator(s)
- ☒ In same chain of command
- ☒ No relationship
- ☒ Not sure

GENDER-RELATED EXPERIENCES

Earlier in the survey you indicated that you experienced an unwanted event. It can be difficult to remember the exact date when events occurred. In this study, it is important to know which events happened in the last 12 months, and which events happened earlier.

89. Thinking about when the event occurred, how certain are you that it occurred in the last 12 months? *Mark one.* If the event occurred over a long time, think about whether it ever happened after one year ago from today.

- ☒ Definitely occurred AFTER one year ago from today ⇨ GO TO Q91
- ☒ Not sure if it occurred BEFORE or AFTER one year ago from today ⇨ GO TO Q91
- ☒ Definitely occurred BEFORE one year ago from today

90. What was the date of your MOST RECENT unwanted event like this?

M M / Y Y Y Y

PRIOR EXPERIENCES

The questions so far have been about things that occurred in the past year. For the next questions, please think about events that happened more than one year ago today. These are all experiences that you did not tell us about earlier in the survey.

These questions assess experiences of an abusive, humiliating, or sexual nature, and that occurred even though you did not want it and did not consent.

Please include an experience regardless of who did it to you or where it happened.

"Did not consent" means that you told or showed them that you were unwilling, that they used physical force or threats to make you do it, or that they did it to you when you were unconscious, asleep, or so high or drunk that you could not understand what was happening.

91. Before one year ago from today, had anyone...
Mark "Yes" or "No" for each item.

	Yes	No
a. Put a penis, an object, or any body part into your anus or mouth (or vagina, if you are a woman) when you did not want it and did not consent?	☒	☒
b. Made you insert an object or body part into someone's mouth, vagina, or anus when you did not want to and did not consent?	☒	☒
c. Tried to put a penis, an object, or any body part into your anus or mouth (or vagina, if you are a woman), against your will but it did not happen?	☒	☒
d. Intentionally touched private areas of your body (either directly or through clothing) when you did not want it and did not consent? *Private areas include buttocks, inner thigh, breasts, groin, anus, vagina, penis, or testicles.*	☒	☒
e. Intentionally touched ANY area of your body (either directly or through clothing) when you did not want it and did not consent?	☒	☒
f. Made you touch private areas of their body or someone else's body (either directly or through clothing) when you did not want it and did not consent? *This might have involved the person pressing their private areas on you. Private areas include buttocks, inner thigh, breasts, groin, anus, vagina, penis, or testicles.*	☒	☒
g. Made you touch ANY area of their body or someone else's body (either directly or through clothing) when you did not want it and did not consent?	☒	☒

If you experienced any behavior in Q91, then continue. Otherwise ⇨ GO TO Q94.

92. Did any of these unwanted experiences happen...
Mark "Yes" or "No" for each item.

	Yes	No
a. Before you joined the military?	☒	☒
b. After you joined the military?	☒	☒

If the unwanted experiences happened after you joined the military, then continue. Otherwise ⇨ GO TO Q94.

93. Did you make an official report to a military authority for any of these unwanted experiences that happened prior to one year ago from today while you were in the military? This could have been either a restricted or unrestricted report.

☒ Yes ☒ No
