Abstract

Documenting the history or activities of an organization can provide future researchers key insights into the organization. Army Lieutenant Colonel Michael F. Minaudo served as the Department Chair for Military Science at the University of Nevada, Reno from May 2011 until March 2015. On a monthly basis a situational report or SITREP was provided to the Commander of the 8th Reserve Officer Training Corps (ROTC) Brigade which was located at Fort Lewis Washington. The SITREP was not provided during the summer months due to the fact that most cadre and staff attended cadet summer training or “camp” during this time period. Preserving and publishing the SITREPS provides key primary documents for future researchers that are interested in exploring the mission and activities of the University of Nevada, Reno Army ROTC program. This collection was compiled in 2017 and several of the monthly SITREPs are no longer available which further strengthened the reason to preserve the information.

1. COMMANDER'S COMMENTS

1. a. EXSUM:

On 28 Sept 13 a highly successful synergy event was held in conjunction with the UNR football game against the Air Force Academy (UNR won the game 45-42). Entities from USAREC, the Nevada Army National Guard/Air Guard, and JROTC participated. BG Burks (Adjutant General for the State of Nevada), BG Hanifan (Commander, Nevada Army National Guard), and BG Snyder (Commander, Nevada Air National Guard) participated in the coin toss and a mass reenlistment ceremony at half time. The government shutdown resulted in the cancellation of the FTX planned for 4-6 October. The training schedule has been adjusted for the rest of the fall semester in order to ensure that cadets are fully trained (a detailed plan is listed in this report). Across the staff sections UNR has been abiding by the guidelines of the government shutdown and maximizing the opportunity to accomplish the mission within the constraints. LTC Minaudo received very positive feedback from UNR President Johnson after he met COL Kelly during the school visit on 1 Oct. Provost Carman, who recently arrived at UNR, visited the Military Science Department where he was given an overview of ROTC. He also met and spoke with Cadets about how the Leadership Development Program functions to produce adaptive leaders and critical thinkers.

Recent Press on UNR ROTC:

1. COMMANDER'S COMMENTS

1. a. EXSUM:

February ended with a robust crop of national level high school PMS scholarship interviews and prospective Cadet campus visits. UNR will have a strong bench for MS 18 as many of the students are committed to attending UNR even if they do not receive a national scholarship. The list of applicants for the UNLV HR position was received and applicants are currently being interviewed. Momentum and synergy continues to build for the Joint FTX between UNR and UNLV. Cadets have been using VTC capabilities for IPRs which has done an excellent job of providing a very similar environment as during a deployment when units are geographically dispersed. The UNR Ranger Challenge team returned to campus proud of the 5th place finish but the underclassmen have already started developing a training plan to improve in next year's competition. General Abizaid has been scheduled to speak with the UNR cadet about leadership on 5 May 2014.

1. COMMANDER'S COMMENTS

1. a. EXSUM:

The Joint Field Training Exercise on 11-13 Apr 14 between UNR and UNLV was highly successful and paid huge dividends in the development of the host and partnership school (and the juice was 100% worth the squeeze to use COL Kelly's analogy). The last JFTX between the two entities was conducted 10 years ago. The complexity of the planning process was valuable for both MS-IV chains of command and the training and interactions between the adjacent units served to raise the performance of both UNLV and UNR. The event was covered with positive press by multiple outlets including a teaser article in Nevada Today, a Reno Journal Gazette article, and a video posted on the Reno Gazette Journal webpage. The focus on campus has been working to posture the upcoming contracting mission sets for success. UNR was able to take advantage of unadvertised FY-14 funds that were available by submitting three MS-17 scholarship applications which were subsequently funded retroactive to the start of the Spring 2014 term. This was very advantageous for the deserving Cadets. UNR also submitted two GRFD scholarships to take advantage of the 75 GRFD first-come-first-serve scholarships that will be funded by Cadet Command and not count against allocated funds in the SUR. With the JFTX complete the focus for the remaining month of the academic year is ensuring that students excel academically and that they are prepared to depart for the various summer training opportunities.

Notable Cadet UNR performances at LDAC include:

Cadet Catherine Bandy- Overall highest Female APFT score in her platoon (340)

C. Develop Military and Civilian Leadership: Cadre leader development discussions have focused on ensuring the use of Mission Command as the driving force to facilitate MS IV Cadet development in the Battalion. The use of the orders process through the Cadet chain of command is the driving force for operations. Weekly leader development sessions are held on Thursdays. The focus this past month has been on completing Resilience, EO, and ATP Annual Training requirements.

D. JROTC: UNR continues to have a strong relationship with JROTC in Washoe County. The DAI, LTC (R) Scott Maryott is a former PMS at UNR. LTC Maryott visited UNR on 2 Sept 14 and presented Ms. Lori Beach, UNR Supply Tech, with a token of gratitude for the tremendous assistance she provided JROTC this past summer in facilitating the ordering of ASUs for the 2200 Cadets in JROTC.

3. Significant events (Past two weeks): Nine Cadets were contracted and given their oath at the Cadet Welcome Back Ceremony on 29 Aug 14. The event was well attended as multiple families travelled from California and Nevada for the ceremony. UNR's Sexual Harassment/Assault Prevention Charter was completed this Summer and as a result a university wide prevention coalition has begun with the Military Science Department designated as a primary committee member. UNR ROTC embraces university sponsored events and participated in the most recent awareness event which was conducted by Northern Nevada Green Dot on 11 Sept 14. 2LT Phoenix was commissioned on 5 Sept 14. 2LT Phoenix is a Native American and the ceremony was attended by many members of the Paiute Indian Tribe. The UNR ROTC Cannon Crew is manned at all home football games and fired after UNR scores. The 75 mm howitzer cannon is part of the fabric of the university, a very visible presence for Cadets, and a great recruiting tool. Morale on campus is high as the football team has won the first two home football games. LLAB on 12 Sept 14 used a creative and effective concept developed by MS IV Cadet William Weston where orienteering was the means to develop team cohesion and communication.

4. Significant upcoming Events (Next two Weeks): Mr. Gniotczynski, the LEO/ROO at UNR has a full schedule of high school visits. Targeted high quality schools with demonstrated performance are the priority. The goal is to educate students, faculty, and staff on the Army ROTC National Scholarship and opportunities at UNR. 1. PMS Summary:

2LT Kevin Gerow, a recent UNR ROTC graduate was recognized as the top Officer and Honor Graduate at the Infantry Officer Basic Course. LTC Minaudo conducted a productive visit to UNLV on 29-30 Sept 14 focusing on Cadet and Cadre leader development initiatives. Counseling sessions were conducted with all rated Officers using the new OER Support Form to facilitate development of goals. A question and answer session was held with the MS III class to inform Cadets of the various changes that are on the horizon for CIET, CLC, and accessions. Several Alumni, COI, and VIP outreach events were conducted as a means to create opportunities for Cadets during the month. Three Cadets were sponsored by SGM (R) Rahlf to attend the 101st Airborne Association Meeting where the Cadets spoke with a World War II veteran who was a prisoner of war. The Cadets shared their experiences and analysis in class in order to discuss how the concept of Mission Command has evolved. Cadets were placed in leadership positions and supported the Reno Edible Pedal 100 mile Bike Ride. Opportunities such as this present the framework to evaluate and develop Cadets in a non-tactical setting where they have the chance to interact with civilian organizations and provide community service. Over 225 volunteer hours were performed during the weekend of the event. The Edible Pedal has been a strong supporter of the UNR ROTC Awards Ceremony funding three scholarships that are awarded in the spring semester. LEO/ROO school visits were a top priority this month and five JROTC programs were visited. The focus of the visits was to inform students about national scholarship opportunities and the UNR ROTC program. LTC Minaudo attended the National Security Forum presentation by GEN (R) John Abizaid. GEN Abizaid expressed interested in coming to speak with the UNR Cadets again and the date is being coordinated with his staff.

B. Cadet Leader Development: One of the requirements for the senior Cadets in the MIL 401 is to complete a communications assignment where they have to develop and record a 3-5 minute presentation, share their summer training experiences, analysis of what they learned, and how it applies to being an Army Officer. The Cadets are required to post the videos on YouTube. It is a good learning tool and significantly challenging for some Cadets. Below are the links to two select videos:

C. Develop Military and Civilian Leadership: The focus this month was to inform and discuss the topics that were covered at the SLVT with all Cadre so that they are knowledgeable of the many initiatives that are on the horizon. Ensuring that there is buy-in to the changes is essential promoting success. Other training included required Cold Weather Training, TARP, and Resiliency training.

D. JROTC: LTC Minaudo and LTC (R) Scott Maryott (DAI) visited Wooster High School JROTC, met with the Principal, and toured the JROTC facilities. The LEO/ROO continues to maintain a superior relationship with the JROTC programs. Five programs in the Washoe County School District were visited this month. UNR Cadets that are alumni from each high school participated in the visits in order to provide additional public speaking and development opportunities. On 27 Sept 14 UNR ROTC Cadets supported the Regional JROTC Drill Meet by running the operations center.

3. Significant events (Past two weeks):

LTC Minaudo met with Dr. Ty Cobb, the Civilian Aide to the Secretary of the Army for the state of Nevada and discussed future initiatives. A follow on meeting has been scheduled for 28 Oct 14 to discuss initiatives for additional alumni funded scholarships and the establishment of the Military Support Center that is being constructed on the UNR campus. CPT Kim is at UNR on 14-16 Oct 14 conducting counseling with all current and perspective nurses. She will also meet with the administration of the Orvis School of Nursing. CPT Beaudry participated in the UNR SHARP/Title IX

Coalition meeting. The committee is recommending that a Sexual Misconduct statement be put into course syllabi as a solid passive approach. This will involve more faculty and make prevention a campus wide effort. An initiative to establish a 1-800 emergency number is also being worked. Also, on the agenda was a discussion of putting “safe rooms” within the residence halls. In addition to the Circle of 6 app another option that was discussed at the meeting is the Night Owl. Night Owl falls into the Army’s “I. A.M. Strong” model in the sense that it is looking for ways to intervene, and act, and the app by itself is a motivational tool to discourage inappropriate behavior:

4. Significant upcoming Events (Next two Weeks):

The focus in the next two weeks is completing the final preparation for the Leadership Training Exercise (LTX) that will be conducted in Stead, NV on 7-8 Nov 14. Leader development has been pinpointed on ensuring that the MS IVs apply the fundamentals of Mission Command learned in the MS 401 class in order to plan, resource, and execute the LTX. Nursing Cadets Todd Okazawa and Tyler Park received partial grants from National Student Nurses’ Association (NSNA) and will attend the NSNA convention in Portland, OR. The conference is a prime leadership opportunity. Outside of the curriculum a voluntary tactics club has been started by the UNR Cadets. The club has had a robust turnout and is facilitating excellent critical thinking and sharing of ideas based on doctrine. The club will meet again on 24 Oct 14 and the focus will be on reviewing terrain analysis and recon.

1. PMS Summary:

Successful Leadership Development Exercises (LDX) were conducted by UNLV on 24-25 Oct 14 at Mount Charleston, NV and by UNR at Stead, NV on 7-8 Nov 14. The focus of the exercises was to fully embrace Mission Command as an operating concept and facilitate leader development at each MS level to have Cadets stretch and reach their potential. The events were planned, coordinated, and conducted by MS IVs who encountered complex challenges that were similar to those they will face as Second Lieutenants. Thirty-three UNR Cadets applied for CULP which is the highest number in 8th Brigade. Command emphasis was placed on CULP as it is a significant broadening opportunity. UNR participated in multiple Veterans Day events including the Reno Veterans Day Parade, Color Guard support for the 1st Annual National Veterans Day Run, and the AUSA Veterans Day Dinner. Targeted recruiting and talent management are being emphasized as the recruiting focus for MSs 17-19 to ensure that the highest quality Cadets are contracted without exceeding the contract ceiling.

UNLV continues to seek out community support and philanthropic events as leadership opportunities and ways to give back. MAJ Martinez (NVARNG M-Day assigned to UNLV) coordinated through Clark County Child Protective Services to identify a family of six underprivileged children who recently returned to their parents. By way of adopting the family for the holidays, Cadets will plan and organize a campaign to make their holiday season a little more special. UNLV senior Cadets are expanding their social media presence as another way to market to local high school students potentially interested in the program.

1. PMS Summary:

The semester is off to a fast start with a full court press on MS IV Leader Development. In addition to the ROTC leadership positions Cadets are excelling in taking leadership roles outside of the program. An example is MS II Cadet Emre Basaran who has served as Student Council President of the Nevada Living Learning Community and as Vice President of the International Human Rights Club. LTC Minaudo participated in a productive session with Dr. Mridul Gautam, Vice President for Research and Innovation at UNR. This initiative is to further stimulate STEM interest as UNR establishes an Innovation Center. The center located in downtown Reno will foster the development of cutting edge scientific research and experience in technology assessment. COL (R) Jack Logan Commander of the 6th Battalion, 31st Infantry in Vietnam from July 68 to Jan 69 was a guest speaker for the MS IV Cadets and offered insights on becoming an effective leader. Posturing the MS IVs for success, SGM (R) Jon Cornett from USAA hosted a workshop on financial planning on 28 Jan 15. Incoming PMS, LTC Lee Johnson arrived on 2 Feb 15. The deliberate transition plan is in progress. LTC Minaudo and LTC Johnson will visit 8th BDE headquarters on 18 Feb 15 in order to conduct office calls.
