Acknowledgments

The Defense Manpower Data Center (DMDC) is indebted to numerous people for their assistance with the *2014 Status of Forces Survey (SOFS) of Active Duty Members*, which was conducted on behalf of the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). The survey program is conducted under the leadership of Paul Rosenfeld, Director of the *Defense Research, Surveys, and Statistics Center* (RSSC).

Policy officials contributing to the development of this survey included: Bob Clark (Military Personnel Policy); Cathy Flynn (Military Community and Family Policy); Robert Opsut (Health Affairs); Walter (“Shep”) Barge (Readiness); George Mino (Acquisition, Technology & Logistics [Installations & Environment]); and Nathan Ainspan (Transition to Veterans Program Office).

DMDC’s Survey Design, Analysis, & Operations Branch, under the guidance of Carol Newell, Branch Chief, is responsible for the development of questionnaires used in the SOFS survey program. The lead survey design analyst was Kimberly Williams. Maia Hurley and Kimberly Williams designed the unique presentation of complex items used in this tabulation volume. The lead operations analyst on this survey was Ada Harris. Carol Newell was also the Team Lead of Survey Operations, responsible for the survey database construction and archiving.

DMDC’s Statistical Methods Branch, under the guidance of David McGrath, Branch Chief, is responsible for sampling and weighting methods used in the SOFS survey program. The statistical analyst on this survey was Jeffrey Schneider, under the leadership of Eric Falk, Team Lead of Statistical Methods, who used the DMDC Sampling Tool to design the sample and develop weights for this survey. Susan Reinhold provided programming support for the sampling and weighting tasks. Data Recognition Corporation performed data collection and editing.

Rokell Person, SRA International, Inc., formatted and assembled this tabulation volume using DMDC’s Survey Reporting Tool. A team consisting of Ada Harris, Kimberly Williams, and Amy Campbell completed quality control for this tabulation volume.

182.	Do you recognize any of the following military-sponsored educational programs that inform members about and discourage them from excessive drinking of alcohol?	728
183.	During the past few months, did you hear or see anything about the importance of members not drinking an excessive number of alcoholic beverages on any one occasion?	730

SUPPLEMENTS

184.	In the past 12 months, how often have you taken the following supplements?	732
a.	Protein supplements (e.g., amino acids - leucine, B-alanine, BCAA, protein powders including 100% soy, whey)	732
b.	Body-building supplements (e.g., pro-hormones, Creatine, "Andro," anabolic/testosterone boosters, deer antler/IGF-1).....	734
c.	Performance-enhancing products (e.g., Jack3D, Hydroxymethylbutyrate/HMB, Nitric Oxide, Synephrine/Citrus aurantium, Yohimbe/Yohimbine, caffeine)	736
d.	Weight-loss products (e.g., Hydroxycut, Ripped Fuel, Dexatrim, Lipo 6, Metabolife, QuickTrim, Xenadrine, hCG drops)	738
e.	Herbal supplements (e.g., St. John's Wort, Ginkgo Biloba, Echinacea, Ginseng, Saw Palmetto)	740
185.	Have you heard, read, or seen messages or advertising on Operation Supplement Safety (OPSS)?	742
186.	When was the last time you heard, read, or saw a message or advertisement on Operation Supplement Safety (OPSS)?	744

187.	Which of the following Operation Supplement Safety (OPSS) products have you seen?	746
188.	How much do you agree or disagree with the following statement? Operation Supplement Safety (OPSS) has helped me evaluate the safety of dietary supplements and/or determine whether I need to take dietary supplements	748
189.	How familiar are you with "third-party certification" of dietary supplements?	750
190.	How often do you consider "third-party certification" when choosing a dietary supplement?	752
191.	How much do you agree or disagree with the following statement? Dietary supplements sold in stores on military installations are safer than dietary supplements sold off-base/post	754

CHILD CARE

192.	Do you have child(ren) who routinely use child care arrangements so you and your spouse can work?.....	756
193.	Do you have child(ren) who routinely use child care arrangements so you can work?	758
194.	Do you need child care arrangements so you (and/or your spouse) can work?.....	760
195.	During the work day, do you routinely use the following sources of child care?	762
196.	How many of your child(ren) in the following age group routinely use child care arrangements? 1 year old or younger.....	764
197.	How many of your child(ren) in the following age group routinely use child care arrangements? More than 1 year old to 2 years old	766
198.	How many of your child(ren) in the following age group routinely use child care arrangements? More than 2 years old to 3 years old	768
199.	How many of your child(ren) in the following age group routinely use child care arrangements? More than 3 years old to 5 years old	770
200.	How many of your child(ren) in the following age group routinely use child care arrangements? More than 5 years old.....	772
201.	During the past 12 months, how many different child care arrangements have you routinely used (e.g., child's sibling, child's grandparent, other relative, sitter, nanny, au pair, friend/neighbor, child care center, family child care home, preschool, after-school program)?	774
202.	How satisfied are you with each of the following aspects of on-base child care?	776

a.	Availability of child care.....	776
b.	Quality of child care	778
c.	Affordability of child care	780
203.	How satisfied are you with each of the following aspects of off-base child care?	782
a.	Availability of child care.....	782
b.	Quality of child care	784
c.	Affordability of child care	786
204.	What is the total amount that you spent last month on child care arrangements for your child(ren)?	788
205.	In the past 12 months, how many days of work have you (and/or your spouse) missed because of lack of child care?	790

THRIFT SAVINGS PLAN

206.	Do you contribute to the Thrift Savings Plan (TSP), a retirement savings plan for Uniformed Service members and federal civilian employees?	792
207.	How have you learned about the Thrift Savings Plan (TSP)?.....	794
208.	Have you heard of the Roth Thrift Savings Plan (TSP)?	796
209.	How have you learned about the Roth Thrift Savings Plan (TSP)?	798
210.	In the past 12 months, have you felt unduly pressured by your chain of command to contribute to the Thrift Savings Plan (TSP)?	800
211.	What is your main reason for not contributing to the Thrift Savings Plan (TSP)?	802

MILCONNECT WEBSITE

212.	In the past 12 months, have you accessed the milConnect website (www.dmdc.osd.mil/milconnect)?	804
213.	From which of the following sources did you become aware of the milConnect website (www.dmdc.osd.mil/milconnect)?	806

RELIGIOUS ACCOMMODATION

214.	How much do you agree or disagree with the following statement? My individual expressions of sincerely held beliefs (conscience, moral principles, or religious beliefs and associated practices) are usually accommodated in balance with military readiness, mission accomplishment, unit cohesion, good order and discipline, and health and safety	808

215. Which of the following requirements WERE YOU TOLD would have been impacted if your individual expressions of sincerely held beliefs had been accommodated? 810
216. Which of the following requirements DO YOU BELIEVE would have been impacted if your individual expressions of sincerely held beliefs had been accommodated? 812

TECHNOLOGY

218. Which type of device are you currently using to take this survey? 814
219. Which platform is used by the device you are using to take this survey? 816
220. How much do you agree or disagree with each of the following statements based on the appearance of the survey? 818
- a. Section headings are useful 818
 - b. Survey questions and responses are clearly displayed 820
 - c. Colors used in the survey are pleasing 822
 - d. Survey control buttons are easy to understand 824

TAKING THE SURVEY

221. Excluding this survey, how many military surveys have you been asked to complete in the past 12 months? 826
222. Excluding this survey, how many military surveys have you completed in the past 12 months? 828

2014 STATUS OF FORCES SURVEY OF ACTIVE DUTY MEMBERS: TABULATIONS OF RESPONSES

Introduction to the Survey

The *Defense Research, Surveys, and Statistics Center* (RSSC), Defense Manpower Data Center (DMDC), conducts both web-based and paper-and-pen surveys to support the personnel information needs of the Under Secretary of Defense for Personnel and Readiness (USD[P&R]). These surveys assess the attitudes and opinions of the entire Department of Defense (DoD) community on a wide range of personnel issues. A web-based survey program with postal and e-mail notifications, known as the *Status of Forces Surveys* (SOFS), provides data on active duty and Reserve component members.

This report contains tabulations of responses from the active duty SOFS web survey administered from September 24 to November 12, 2014. This introduction (1) summarizes the survey content, (2) defines the total population surveyed and the subgroups used in tabulations of responses, (3) summarizes the survey methodology,¹ and (4) provides details on how to use the tabulations. The tabulations and a copy of the survey items follow this introduction.²

Survey Content

The *2014 Status of Forces Survey of Active Duty Members (2014 SOFS-A)* was divided into three modules (A-C) to ease the burden for each respondent. Module A items were administered to the entire sample, whereas Modules B and C items were each administered to one-half of the sample. The sample size for the survey enables results for Modules B and C items to be reported at a desired level of accuracy for smaller reporting groups. Table 1 (page 2) provides detailed information (when data were collected, sample size, and response rate) on SOFS-A survey administrations.

The decision to ask the total sample or only a part of the sample was made based on two factors. First, items for which greater statistical power was needed were included in Module A. Core items were placed in Module A to enable greater statistical accuracy for this subgroup of the population. The second factor was the likelihood of analyzing the relationship between survey items. Items with an increased likelihood of being analyzed or correlated with responses to other survey items (e.g., deployments since September 11, 2001) were included in Module A. Items less likely to be analyzed or correlated with other survey items were included in Modules B or C. Because no respondent received questions across Modules B and C, analyzing the relationship of responses between items in these separate modules is not possible.

¹ Details on survey methodology are reported by Riemer and Kroeger (2003) and DMDC (2014b).

The topics covered in the 2014 SOFS-A include those in the *Status of Forces Survey of Active Duty Members Long-Term Content Plan*. The long-term content plan is on page 869. As indicated in that plan, a series of core items included on all SOFS-A cover demographics; spouse employment status; overall satisfaction; retention; tempo, including permanent change of station (PCS) moves; readiness; stress; adaptability; deployments since September 11, 2001; Military OneSource; and financial health. In addition, items were included on military life, details on OPS/PERSTEMPO, details on readiness, relatives serving in the Armed Forces, programs and services, commissaries and exchanges, education, transition assistance, health and well-being, health care, tobacco, attitudes toward drinking alcohol, child care, Thrift Savings Plan, and the milConnect website. Hot-button items were also included as requested by the following policy offices: Military Community & Family Policy to assess military-provided education centers and programs; Health Affairs to assess use of supplements and the Operation Supplement Safety program; and Military Personnel Policy to assess religious accommodation. RSSC also included items to assess technology used to take the survey and survey burden.

The survey was subdivided into the following 30 topic areas:

1. *Background Information*—Active duty status; paygrade; marital status; spouse employment status; education; dependents; race/ethnicity; and location (both geographic and on/off base) (Module A, Q1-Q23).
2. *Satisfaction*—Satisfaction with aspects of the military (e.g., compensation) and overall satisfaction with the military way of life (Module A, Q24-Q25).
3. *Retention*—Years of service; likelihood to stay on active duty; spouse/significant other/family support to stay on active duty; commitment to serve; and likelihood to join a National Guard or Reserve unit (Module A, Q26-Q31).
4. *Tempo*—PCS moves; days worked overtime; time away from permanent duty station (homeport); deployments longer than 30 consecutive days; current deployment location; and the impact of time away on career intentions (Module A, Q32-Q40).
5. *Readiness*—Individual and unit preparedness and training effectiveness (Module A, Q41-Q44).
6. *Stress*—Level of stress in work and personal life and perceived stress (Module A, Q45-Q47).
7. *Adaptability*—Individual and unit preparation to operate in new, unexpected, or uncertain situations; unit leadership allowance for innovation, creativity, and openness to new ideas; ideal work environment; likelihood to speak up in a public setting with different opinion; and preferred problem-solving approach (Module A, Q48-Q53).
8. *Deployments Since September 11, 2001*—Deployments for specific operations; number of times deployed; deployments to a combat zone or area with imminent danger pay or hostile fire pay; combat involvement; and deployment expectations (Module A, Q54-Q62).

9. *Military OneSource*—Use of Military OneSource and usefulness of Military OneSource information/services (Module A, Q63-Q64).
10. *Financial Health*—Financial problems and overall financial condition (Module A, Q65-Q66).
11. *Details on Education*—Communication with military-provided education counselor; visits to and satisfaction with local education center; and participation in off-duty, voluntary education (Module A, Q67-Q76).
12. *Military Life*—Satisfaction with tempo, job, and off-duty educational opportunities; current level of member and unit morale; unit cohesion; expectations of family and personal time; expectations of family and military life (Module B, Q77-Q85).
13. *Details on OPS/PERSTEMPO*—Reasons for being away from permanent duty station in past 12 months; satisfaction with deployment compensation and incentives; and use of and satisfaction with communication services while deployed (Module B, Q86-Q93).
14. *Details on Readiness*—Maintenance of Record of Emergency Data (Module B, Q94-Q95).
15. *Relatives Serving in Armed Forces*—Relatives who have ever served as active duty, National Guard, or Reserve members; family members currently serving on active duty; family members currently deployed to combat zones or areas that qualify for imminent danger pay or hostile fire pay; and degree of comfort with simultaneous deployments of family members to combat zones or areas that qualify for imminent danger pay or hostile fire pay (Module B, Q96-Q106).
16. *Programs and Services*—Types of and satisfaction with schools attended by children residing with member at permanent duty station, availability and use of on-base programs and services, and military-provided cultural and ethnic programs (Module B, Q107-Q116).
17. *Commissaries and Exchanges*—Use of and satisfaction with commissaries/exchanges in the past 12 months, average savings at commissaries/exchanges, comparisons with local stores, and length of time to get to closest commissary/exchange (Module B, Q117-Q128).
18. *Education*—Member's college credits and educational attainment earned since joining military, use of military-provided educational programs and services, satisfaction with opportunities to pursue an education, participation in basic skills and off-duty education courses, impact of participation on military job performance and promotion opportunities, use of military tuition assistance, and satisfaction with educational institution and military tuition assistance (Module B, Q129-Q139).
19. *Transition Assistance*—Awareness of requirements for Transition Assistance Program (TAP) participation and Career Readiness Standards requirements, post-military career planning, individual development plan,

- best time to receive information regarding transition assistance, time remaining until separation/retirement from military, plans for first six months after separation/retirement, timing of TAP participation prior to separation/retirement, and topics of most interest concerning the transition to civilian life (Module B, Q140-Q151).
20. *Health and Well-Being*—Discussions with a counselor, usefulness of counseling sources, and concerns that factor into member's decision regarding counseling (Module C, Q152-Q155).
 21. *Health Care*—Use of and satisfaction with aspects of military members' and their families' health care and dental benefits (Module C, Q156-Q167).
 22. *Tobacco*—Supervisor allowance of breaks for tobacco users versus non-users; use of tobacco products in past 12 months; steps taken in past six months and future plans to quit using tobacco products; self-classification as a tobacco user; messages or advertising heard, read, or seen on base in past month on quitting tobacco use; and "Quit Tobacco – Make Everyone Proud" messages and advertisements (Module C, Q168-Q178).
 23. *Attitudes Toward Drinking Alcohol*—Personal drinking behavior; number of days member drank any alcohol in past 30 days and drank five or more alcoholic drinks on same occasion; recognition of military-sponsored educational programs discouraging excessive drinking; and messages heard or seen in past few months about importance of members not drinking an excessive number of alcoholic beverages on same occasion (Module C, Q179-Q183).
 24. *Supplements*—Frequency of personal use of supplements in past 12 months, Operation Supplement Safety messages or advertisements, familiarity with "third-party certification" of dietary supplements, consideration of "third-party certification" when choosing dietary supplements, and perception of safety of dietary supplements sold on versus off military installations (Module C, Q184-Q191).
 25. *Child Care*—Use of child care arrangements so member and/or spouse can work, number of children routinely using child care, number of different child care arrangements routinely used, satisfaction with on- and off-base child care, amount spent on child care in previous month, and days of work missed in past 12 months due to lack of child care (Module C, Q192-Q205).
 26. *Thrift Savings Plan (TSP)*—Contributions to and awareness of TSP, sources of TSP information, awareness of Roth TSP, sources of Roth TSP information, perceived pressure by chain of command to contribute to TSP, and main reason for not contributing to TSP (Module C, Q206-Q211).
 27. *milConnect Website*—Use of and source of awareness about milConnect website (Module C, Q212-Q213).
 28. *Religious Accommodation*—Extent of religious accommodation and requirements impacted if beliefs had been accommodated (Module A, Q214-Q216).

29. *Technology*—Type of device used to take this survey, platform used by device, and survey appearance on device (Module A, Q218-Q220).³
30. *Taking the Survey*—Number of military surveys members asked to complete and surveys actually completed in past 12 months (Module A, Q221-Q222).

Population and Reporting Categories

The target population for all active duty SOFS consists of active duty members of the Army, Navy, Marine Corps, and Air Force, excluding National Guard and Reserve members and General/Flag officers. Survey results are presented for the total population and by a variety of reporting categories. To form the reporting categories for the tabulations, respondents are classified primarily by survey self-report. If the self-reported data are missing, then DMDC's *Active Duty Master File (ADMF)* data, at the time of sampling, are used to impute the subgroup classification. Survey results are tabulated by: overall and Service, paygrade, location, deployment status, education, family status, race/ethnicity, gender, officer/enlisted by gender, and Service by paygrade. Definitions for reporting categories follow:

- *Overall and Service*—The categories include *Total*, *Army*, *Navy*, *Marine Corps*, and *Air Force*.
- *Paygrade*—The *Enlisted* subgroup includes all enlisted paygrades (E1-E9). The *Enlisted* subgroup is broken into the following groups: *3 to 5 Years of Service* (i.e., first-term decision window), *6 to 9 Years of Service* (i.e., second-term decision window), *E1-E4*, and *E5-E9*. The *Officers* subgroup includes warrant officers (*W1-W5*) and commissioned officers (*O1-O3* and *O4-O6*).
- *Location*—Geographic locations (Figure 1, page 7) are collapsed into geographic regions as defined by the *Department of Defense Worldwide Manpower Distribution by Geographical Area* (DMDC, 2005). The primary classification distinguishes *Overseas* from *U.S. (Incl. Territories)*. *U.S. (Incl. Territories)* includes respondents with permanent duty stations located in the 50 states, the District of Columbia, Puerto Rico, and United States territories or possessions. Within the *Overseas* classification, two regions can be reported separately: (1) *Europe*, which includes countries such as Bosnia-Herzegovina, Germany, Italy, Serbia, and the United Kingdom; and (2) *Asia and Pacific*, which includes countries such as Australia, Japan, and Korea. Housing locations are classified based on geographic location of the housing. From self-report data, *On Base* includes living in the following at the member's permanent duty station: aboard ship; government-owned barracks, dorm, or unaccompanied enlisted or officer housing, on base; government-owned family housing, on base; or privatized housing, on base, that member rents. *Off Base* includes living in the following at the member's permanent duty station: government-owned or leased family housing, off base; privatized housing, off base, that member rents; or civilian/community housing, off base, that member owns, pays mortgage on, or rents. If the self-reported data are missing, then *On Base* and *Off Base* are imputed from personnel record data

³ Q217 is not tabulated as it contains pilot data on a test module.

indicating whether the respondent qualifies to receive either Basic Allowance for Housing or Overseas Housing Allowance.

Geographic Locations Used for Analyses

- ***Deployment Status***—Respondents are classified based on self-reported deployment status; the *ADMF* is not used for missing self-reported data. *Deployed in Past 24 Months* includes anyone who has been deployed for longer than 30 consecutive days in the past 24 months.
- ***Education***—Respondents are classified based on self-reported educational attainment. *No College* includes anyone without college credit. *Some College* includes those with some college credit, including a 2-year degree, but does not include those with a 4-year degree. *4-Year Degree* includes those with a 4-year degree and those with some graduate school, but no graduate or professional degree. *Grad/Prof Degree* includes those with masters, doctoral, and professional school degrees (e.g., MA, MS, MEd, MEng, MBA, MSW, PhD, MD, JD, DVM, EdD).
- ***Family Status***—Respondents are classified based on self-reported marital status, spouse employment, and legally dependent children (ages 22 and under). Except for *Working Spouse*, missing data can be imputed from personnel record data if the respondents do not answer these questions.⁴ *Single* includes those who have never been married or are divorced/widowed and have not remarried. *Married* includes those who are married or legally separated. *With Child(ren)* includes those with dependent child(ren) aged 22 and under, regardless of where the child(ren) live(s). *Working Spouse* includes those members whose spouse is working as measured by the U.S. Census Bureau's *Current Population Survey (CPS)* (2002) questions, and

⁴ Because there are no personnel record data for working spouses, this category cannot be imputed.

those in military service. *Dual Service Spouse* includes military members married to (including separated from) another military member (active or Reserve component).

- *Race/Ethnicity*—Respondents are classified based on self-reported categories consistent with requirements of the *Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity* (1997). *Total Minority* includes all persons marking one or more of the races other than White and/or marking that they are Spanish/Hispanic/Latino. *Non-Hispanic Black* includes persons marking only⁵ Black or African American and not reporting being Spanish/Hispanic/Latino. *Hispanic* includes anyone marking that they are Spanish/Hispanic/Latino, regardless of how they answered the question on race.
- *Gender*—This category is self-explanatory.
- *Service by Paygrade*—The categories include each of the Services by enlisted and officer paygrade groups.

Survey Methodology

The survey administration process began on September 16, 2014, with the mail-out of a notification letter. An announcement e-mail was also sent to all sample members on September 24, 2014. The letter and e-mail explained why the survey was being conducted, how the survey information would be used, and why participation was important. Throughout the administration period, three postal and seven e-mail reminders were sent to encourage survey participation from sample members who had not yet completed the survey. Data were collected on the web between September 24 and November 12, 2014.

Single-stage, nonproportional stratified random sampling⁶ procedures were used. The samples for each of the three modules were drawn from the sample frame constructed from DMDC's *May 2014 ADMF*.⁷ The sample consisted of a total of 65,097 individuals, all of whom received Module A. Of the total sample, 32,548 individuals received Module B and 32,549 individuals received Module C.

⁵ Persons marking they are Black or African American and another race are not in this category.

⁶ In stratified random sampling, all members of a population are categorized into homogeneous groups. For example, members might be grouped by gender and Service (e.g., all male Army personnel in one group, all female Navy personnel in another). Members are chosen at random within each group. Small groups are oversampled in comparison to their proportion of the population so there will be enough responses from small groups to analyze. Weights are used so that groups are correctly represented in the analyses of the population. Additional details are available in the *2014 SOFS-A Statistical Methodology Report* (DMDC, 2014b).

⁷ Auxiliary information used to develop the frame was obtained from the *August 2014 Defense Enrollment Eligibility Reporting Systems (DEERS)* and *August 2014 DEERS Medical Point in Time Extract (PITE)*, *May 2014 Active Duty Family Database File*, *May 2014 Basic Allowance for Housing (BAH) Population File*, and *May 2014 Contingency Tracking System File*. The 2014 SOFS-A contact information was provided by the *August 2014 DEERS Medical PITE* (home addresses), *August 2014 Unit Identification Code (UIC) Address File* (UIC addresses), and the *E-mail Address File* as of September 24, 2014.

Data were weighted using an industry standard process. This form of weighting produces survey estimates of population totals, proportions, and means (as well as other statistics) that are representative of their respective populations. Unweighted survey data, in contrast, are likely to produce biased estimates of population statistics. The process of weighting consists of the following steps:

- *Adjustment for selection probability*—Probability samples such as the sample for this survey are selected from lists and each member of the list has a known nonzero probability of selection. For example, if a list contained 10,000 members in a demographic subgroup and the desired sample size for the subgroup was 1,000, one in every tenth member of the list would be selected. During weighting, this selection probability (1/10) is taken into account. The base, or first weight, used to adjust the sample is the reciprocal of the selection probability. In this example, the adjustment for selection probability (base weight) is 10 for members of this subgroup.
- *Adjustments for nonresponse*—Some sampled members do not respond to the survey. Continuing the previous example, suppose only half of the sample members (i.e., 500 out of 1,000) completed and returned a survey. Because the unweighted sample size would only be 500, weights are needed to project the sample up to the subgroup population total (10,000). In this case, the base-weighted respondents would sum to only 5,000 weighted respondents. To adjust for nonresponse, the base weights are multiplied by the reciprocal of the response rate. In this example, the base weight (10) is multiplied by the reciprocal of the response rate (2) to create a new weight of 20. The weighted sample sums to the subgroup population total of 10,000.
- *Adjustment to known population values*—The first of the two previous weighting adjustments are applied according to the demographic groupings used in designing the subgroups for the sample. The second is based on population characteristics that are known to be related to whether a sample member responds to the survey. Because the sample design and adjustments for nonresponse cannot take into account all demographic differences related to who responds to a survey and how they respond, auxiliary information is used to increase the precision of survey estimates. For this reason, a final weighting adjustment is computed that reproduces population totals for important demographic groupings related to who responds to a survey and how they might answer the survey. Suppose in our example the population for the subgroup was 8,500 men and 1,500 women but the nonresponse-adjusted weighted estimates from the respondents was 7,000 men and 3,000 women. To reduce this possible bias and reproduce known population totals, the weights would be adjusted by 1.21 (8,500/7,000) for men and 0.5 (1,500/3,000) for women, which would give unbiased estimates of the total and of men and women in the subgroup.

Table 2 (pages 11-12) shows the number of eligible respondents who completed the survey and the percentage of total respondents in each reporting category. Also shown are the estimated number of eligible members and the estimated percentage of total eligible members in each reporting category. Differences in the percentages of respondents and estimated populations for the reporting categories reflect differences in the number sampled, as well as differences

in response rates. The weighted estimates are less than the population from which the survey sample is selected as some members of the population are ineligible to take the survey. Members of the sample became ineligible if they separated or retired from the military and therefore are no longer on the administrative file or if they indicated in the survey or by other contact (e.g., telephone calls to the data collection contractor) that they were not on active duty as of the first day of the survey, September 25, 2014 (1.9% of sample). Completed surveys (defined as 50% or more of the survey questions asked of all participants answered) were received from 13,447 eligible respondents (13,447 Module A; 6,715 Module B; 6,732 Module C). The overall weighted response rate for eligible sample members was 21%.⁸

Tabulation Procedures

Tabulations⁹ for each question from the survey are shown on facing pages. The text of the question and response options are shown at the top of the even-numbered pages. To compress the width of columns in the tables, the response options are shown with a number or letter; then, that number or letter is used as the column heading for the responses. The central feature of the tabulations is the percentage of members choosing the response options indicated by the column heading. Within a set of response options, percentages may not add to 100% due to rounding.

Where an item lends itself to presentation as an average, that average is also shown as both a number estimate and in a bar chart. The averages lend themselves to a quick scan for reporting groups that differ from other similarly defined groups. Where a true response continuum is available (e.g., number of children, nights away), the mean of that continuum is presented; in other cases, the responses are averages of the numeric scales presented with the response options. Where there is a simple binomial response (e.g., yes/no), only one percentage is presented. In this case, the bar chart represents that percentage.

On each page of tabulations, the first column lists the reporting group shown in that row. The second column, *Percent Responding*, lists the portion of the reporting group represented in the estimates in that row. In most cases, if this percentage is not 100, it is reflecting item nonresponse, and the table note indicates that “Percent responding are active duty members who answered the question.”

Not all questions will apply to every respondent. Where possible, the web survey is programmed to skip respondents over questions that do not apply to them.

⁸ The average response rate for other DMDC surveys is 20-25%.

⁹ Details of data editing and preparation are provided by DMDC (2014a).

For example, Q87 (How satisfied are you with deployment compensation and incentives [i.e., tax-free income, family separation pay, hazardous duty pay]?) only applies to those who reported in Q54-Q56 that they had been deployed for at least one operation since September 11, 2001. The table note for Q87 indicates, “Percent responding are active duty members who answered the question and who had been deployed for at least one operation since September 11, 2001 (Q54/Q55/Q56).”

Combining Information From Multiple Items and Presentation of Data

Tabulations in this volume generally present data for individual survey questions. There are three exceptions. The first type of exception is where the results for multiple items are presented on a single set of pages.

- In Q15-Q19, members are asked how many dependents they have in each of five age ranges. For these questions, the tabulations show the percentage of the reporting category with dependents in that age range. The averages shown on these pages are based only on those with at least one dependent and therefore, show the average number of dependents for those who have dependents.
- Deployments since September 11, 2001, were constructed from the Q54-Q56 responses to show the percentages selecting Operation Enduring Freedom (Afghanistan), Operation Iraqi Freedom/Operation New Dawn, and other operations.

The second exception is where members can provide multiple answers to a single question (e.g., race).

- In Q21, members are asked to mark one or more races. The tabulations show the percentage who responded that they were *White, Black or African American, American Indian or Alaska Native, Asian, and/or Native Hawaiian or Other Pacific Islander*. Respondents who indicated more than one race are also shown in the percentage of *More than one race*. For example, if a respondent indicated they were Asian and White, they were counted in the percentage as *Asian, White, and More than one race*.

The third exception pertains to composite measures on this survey, which include the following: spouse employment; dual Service spouse; locations of current permanent duty station (homeport); organizational commitment; impact of time away on military career intentions; finances; unit cohesion; and members who accessed counseling. With the exception of spouse employment, individual items in each measure are presented first followed by tabulation pages showing composite measure results.

- Spouse employment indicators are derived from Q5-Q11 and are comparable to employment measures used in the U.S. Census Bureau’s *Decennial Census* and *Current Population Survey (CPS)* (2002). Two sets of tabulations

are presented. In the first set, labor force participation is shown for the spouses of those in the reporting category. The four categories contain percentages of (civilian) employed, unemployed, not in the labor force, and Armed Forces member. Those not in the labor market include those who are permanently or temporarily not working or not actively looking for work.¹⁰ The second set of data shows only those in the labor market. That is, the percent responding are married Service members who answered the items and whose spouses are in the labor market (civilian employed, unemployed but looking for work, and in the Armed Forces). The unemployment rates shown in these tables are the percent of those who need or want to work and are unemployed. These rates are comparable to those reported monthly by the Bureau of Labor Statistics based on CPS (2002) data.

- Dual Service Spouse data are derived from Q5-Q7 responses from married or separated active duty members.
- Locations of current permanent duty stations (homeports) were constructed from the Q22 responses to break out the percentages selecting the 48 contiguous United States or the District of Columbia, the non-contiguous United States, Puerto Rico, or a U.S. territory or possession, and the geographic locations of non-U.S. permanent duty stations (homeports).
- Three measures of organizational commitment (Q30) are presented. *Affective Commitment* can be defined as an emotional attachment to, an identification with, and an involvement in an organization (Q30a, b, e, h, j, and m). *Continuance Commitment* can be defined as attachment based on the perceived costs of leaving an organization (Q30c, f, i, l, and n). *Normative Commitment* can be defined as a sense of obligation to remain in an organization (Q30d, g, and k). In the tabulations, individual items in this measure are presented first; after the individual items, tabulation pages show composite measure results. Lower scores on these measures indicate less organizational commitment, whereas higher scores represent more commitment.
- A two-item composite measure indicating whether desire to stay in the military decreased as a result of being away more than expected was constructed from Q39 and Q40. The tabulation shows the percentage who indicated in Q39 that they were away more than expected and who also indicated in Q40 that time away decreased their desire to stay.
- In Q65, members were asked to indicate from a list of 10 financially related problems whether they had experienced the problem. In addition to a tabulation showing the percentage of those who indicated a specific financial

¹⁰ Those who have not actively looked for work in the past four weeks are considered to be out of the labor market. This category includes some percentage of spouses who are in the midst of a PCS move and, therefore, only temporarily out of the labor market.

problem, a composite tabulation shows the total percentage of those who indicated they had at least one financial problem that affected them. Members who had to pay overdraft fees to their bank or credit union two or more times are not included in this percentage.

- A four-item measure of unit cohesion (Q80a, b, c, and d) is presented. Higher scores on this measure indicate stronger unit cohesion.
- In Q154, members were asked about the usefulness of counseling accessed through a variety of sources. In addition to tabulations for each individual item, a composite tabulation is presented to show total percentage of those who indicated they had accessed counseling through any of the listed sources.

Margins of Error

The complex sample design required weighting to produce population estimates (e.g., percent of females who are satisfied with the military way of life).¹¹ Because of the weighting, conventional formulas for calculating the margin of error will overstate the reliability of the estimate. For this report, variance estimates were calculated using SUDAAN[®] PROC DESCRIPT (Research Triangle Institute, 2013).

By definition, sample surveys are subject to error from nonresponse (eligibility and completion). Standard errors are estimates of the variance around population parameters, such as percentages or means, and are used to construct margins of error (i.e., confidence interval half-widths). Estimated percentages and means in these tabulations are reported with margins of error based on 95% confidence intervals. In order to compress the data display, only the maximum margin of error (*Max ME*) for each reporting category is shown. That is, the tabulation volume shows only the largest margin of error for the percentages or means in each row. For each average shown in these tabulations, its margin of error is also printed.

The following reporting conventions are used:

- “0” indicates that no one in any reporting group selected the response option,
- NR indicates the estimate is *Not Reportable* and is suppressed because of low reliability. Estimates of low reliability are suppressed based on criteria defined in terms of nominal sample size (less than 5), effective sample size (less than 30), or relative standard error (greater than 0.225),

¹¹ As a result of differential weighting, only certain statistical software procedures, such as SUDAAN[®] PROC DESCRIPT, correctly calculate standard errors, variances, or tests of statistical significance for stratified samples.

[®] Registered 2013 by Research Triangle Institute, P.O. Box 12194, Research Triangle Park, NC 27709-2194

- NA indicates the question was *Not Applicable* because the question did not apply to respondents in the reporting category based on answers to previous questions,
- no Max ME is printed when all percentages in the row are shown as NR,
- no margin of error is printed for an average when it is shown as NR.

53. If new ideas are being sought to solve a problem, which approach would you like to take?

1. Generate a couple of ideas and then move onto implementation
2. Generate 5 or 6 ideas, pick the best one, and implement
3. Generate many different ideas and eventually pick a couple because there is so much to do
4. Generate many different ideas, many of which might seem impractical, but I think they should all be explored

88. What was your primary reason for being dissatisfied with deployment compensation and incentives?

1. Considering risk and hardship, compensation was too little.
2. Other members facing far less risk were getting as much as I was getting.
3. Considering the risk and hardship, compensation was too high.
4. The incentives do not vary with paygrade.

PRIVACY ADVISORY

Your name and contact information have been used only for the distribution of this survey. Your responses to the demographic questions will allow DoD to better analyze all responses among varying demographic groups. Responding to this survey is voluntary. Most people can complete the survey in 45 minutes. There is no penalty to you if you choose not to respond. However, maximum participation is encouraged so the data will be complete and representative.

ADDITIONAL INFORMATION

10 United States Code (USC), Sections 136, 2358, and 1782, authorize the Department of Defense to conduct this survey. Information collected in this survey will be used to research a variety of topics, including deployment experience, retention, and satisfaction with programs and services. This information will assist in the formulation of policies which may be needed to improve programs and services for military members and their families. Reports will be provided to the Office of the Secretary of Defense, each Military Department, and the Joint Chiefs of Staff.

Some findings may be published by the Defense Manpower Data Center (DMDC) or in professional journals, or presented at scientific conferences. Your responses could be used in future research. Results from these surveys will be posted on the web: <http://www.dmdc.osd.mil/surveys/>

DMDC uses well-established, scientific procedures to randomly select a sample representing the Defense community based on combinations of demographic characteristics (e.g., gender, race and ethnicity, and paygrade). Your responses will be kept private to the extent permitted by law. This is your chance to be heard on issues that directly affect you. While there is no direct benefit for your individual participation, your responses on this survey **make a difference**.

Identifying information will be used only by government and contractor staff engaged in, and for purposes of, survey research. For example, the research oversight office of the Office of the Under Secretary of Defense (Personnel and Readiness) and representatives of the U.S. Army Medical Research and Materiel Command are eligible to review research records as a part of their responsibility to protect human subjects in research. In no case will individual identifiable survey responses be reported.

The data collection procedures are not expected to involve any risk or discomfort to you. The only risk to you is accidental or unintentional disclosure of the data you provide. However, the government and its contractors have a number of policies and procedures to ensure the survey data are safe and protected. For example, no identifying information (name, address, Social Security Number) is ever stored in the same file as survey responses.

Survey data may be shared with DoD researchers or organizations outside the DoD who are conducting research on DoD personnel. In most cases these researchers will be provided with a dataset containing limited demographic information (e.g., Service, paygrade groups, gender). DMDC performs a disclosure avoidance analysis to reduce the risk of there being a combination of demographic variables which can single out an individual. In rare instances and only with sponsor approval, DMDC may make available datasets with many more demographic variables to a small number of approved researchers. There is some risk individuals might be identified on these datasets; however, DMDC implements several procedures to protect the data. The datasets will only be available in a secure environment where they cannot be downloaded or transferred. Statistical analyses can only be performed after review and approval to ensure identifying information is not released. Access to these datasets will only be allowed on a need-to-know basis with an appropriate memorandum of understanding in place. Researchers will only have access to the dataset to conduct pre-approved analyses within an agreed-upon timeframe. After the time elapses, researchers will no longer have access to the data.

If you answer any items or indicate distress or being upset, etc., you will not be contacted for follow-up purposes. However, if you indicate a direct threat to harm yourself or others within responses or communications about the survey, because of concern for your welfare, DMDC may notify an office in your area for appropriate action.

If you experience any difficulties while taking the survey, please contact the Survey Processing Center by sending an e-mail to AD-SURVEY@mail.mil or calling, 1-800-881-5307. If you have concerns about your rights as a research participant, please contact the OUSD(P&R) Research Regulatory Oversight Office at 703-575-2677/703-575-3536 or e-mail R202@tma.osd.mil.

Once you start answering the survey, if you desire to withdraw your answers, please notify the Survey Processing Center prior to November 12, 2014. Please include in the e-mail or phone message your name, Ticket Number, and the PIN that you selected when you started this survey. Unless withdrawn, partially completed survey data may be used after that date.

FREQUENTLY ASKED QUESTIONS

What is Defense Manpower Data Center (DMDC)?

- DMDC maintains the largest archive of personnel, manpower, training, and financial data in the Department of Defense (DoD). DMDC also conducts Joint-Service surveys including the Status of Forces Surveys, QuickCompass Surveys, and Human Relations Surveys for DoD. To learn more, visit the DMDC website.

<http://www.dmdc.osd.mil/>

What is the Status of Forces Survey (SOFS) Program?

- Status of Forces Survey (SOFS) is a DoD personnel program that features web-based surveys sponsored by the Under Secretary of Defense for Personnel and Readiness (USD[P&R]).
- These surveys enable DoD to regularly assess the attitudes and opinions of the DoD community, including active duty and Reserve component members, on the full range of personnel issues.

How do I know this is an official, approved DoD survey?

- In accordance with [DoD Instruction 8910.01](#), all data collection in DoD must be licensed and show that license as a Report Control Symbol (RCS) with an expiration date. The RCS for this survey is RCS# DD-P&R(AR)2145, expiring 04/09/2016.

How did you pick me?

- DMDC uses well-established, scientific procedures to randomly select a sample that represents the Defense community based on combinations of demographic characteristics (e.g., gender, race and ethnicity, and paygrade).

Why should I participate?

- This is your chance to be heard on issues that directly affect you, including deployment experience, retention, and satisfaction with programs and services.
- Your responses on this survey **make a difference**.

How do I participate?

- The survey will be available at this website after September 25, 2014. Currently, you may (1) read the Privacy Advisory, (2) verify contact information, and (3) provide a postal and e-mail address(es) so we can notify you when the survey opens.

What is AD-SURVEY@mail.mil?

- The official e-mail address for communicating with active duty members about Status of Forces Surveys (SOFS). "AD-SURVEY@mail.mil" is short for Active Duty Survey.

Why am I being asked to use the web?

- Web administration enables us to get survey results to senior Defense leaders faster.

Why are you using a .net instead of a .mil domain to field your survey?

- The survey is administered by our contractor, Data Recognition Corporation, an experienced survey operations company. The survey collection tool starts on a .mil site within DMDC. Once you enter your ticket number, you are redirected to a contractor site which uses a .net domain. This allows everyone to access the survey, even from a non-government computer.

Do I have to answer all questions?

- No, it is not necessary to answer every question. Within the survey screen, you have four control buttons: *Next Page* (→), *Previous Page* (←), *Clear Responses*, and *Save and Return Later*. Use these buttons to navigate through the survey or skip questions. Use *Save and Return Later* to give yourself flexibility to complete the survey

at a convenient time. When you return to the survey website, enter your Ticket Number to get to the place in the survey where you had stopped.

Why does the survey ask personal questions?

- DMDC reports overall results, as well as by other characteristics, such as location, gender, etc. To complete these analyses, we must ask respondents for these types of demographic information.
- Analyzing results in this way provides Defense leaders with information about the attitudes and concerns of all subgroups of personnel so that no groups are overlooked.
- Sometimes sensitive questions are asked in order to improve personnel policies, programs, and practices. Your responses will only be reported in aggregate. Your individual data will not be reported.

Will my answers be kept private?

- Your responses will be kept private to the extent permitted by law.
- All data will be reported in the aggregate and no individual data will be reported.
- We encourage you to safeguard your Ticket Number to prevent unauthorized access to your survey. In addition, to ensure your privacy, be aware of the environment in which you take the survey (e.g., take the survey when no one else is home, take care to not leave the survey unattended).

Can I withdraw my answers once I have started the survey?

- If you wish to withdraw your answers, please notify the Survey Processing Center prior to November 12, 2014, by sending an e-mail to AD-SURVEY@mail.mil or calling, toll-free 1-800-881-5307. Include your name and Ticket Number.

Will I ever see the results of the survey?

- DMDC posts survey results on the following website:
