USFET-SOP 77

1. Column 3, List 1, Appendix "E", "Clothing and Equipment to Accompany Enlisted Personnel Returning to US", of Standing Operating Procedure 77, "Overseas Movement of Individuals", Hq USFET, 28 Dec 1946, is amended to increase the allowance of the following listed individual clothing taken on return to the US by EM:

From 1 ea insignia, US to 2 ea
" 1 " " EM, arm or service, to 2 ea
1 pr shoes, low quarter

2. These increases will be considered optional. If the subject items have not been previously issued, they will not be issued solely to prepare EM for return to the US.

OVERSEAS MOVEMENT OF INDIVIDUALS

PART I - GENERAL

1. SUPERSESSSION. This directive supersedes Standing Operating Procedure No 77, this headquarters, "Overseas Movement of Individuals", 10 Apr 1946, as amended.
2. PURPOSE. The purpose of this publication is to assist command echelons and supply, administrative and transportation agencies in the prompt and uniform preparation for movement of individuals to the US under policies and procedures prescribed in Readjustment Regulations 1-2, subject: "Procedures for Readjustment Movements", 11 Apr 1945, referred to in this SOP as RR 1-2.
3. RESPONSIBILITIES. It is the responsibility of the major commands to insure that all personnel concerned with the processing of troops are familiar with these instructions. Instructions will be practical and will include directions for packing, marking and leading of individual equipment and baggage.
4. DISTRIBUTION. This publication will be distributed to all units down to and including companies or similar organizations, separate units smaller than companies, and to all camps, stations, airfields and air bases.
5. DEFINITIONS.
 - a. Assembly Date: The date by which a quota of personnel of a major command will report to a designated assembly point.
 - b. Call-up: The order to a major command for movement of an individual or packets into the port staging area.
 - c. Candidate Personnel: Officer or enlisted personnel, male or female, eligible for return to the US.
 - d. Code Designation: Shipment numbers and letters assigned to identify movement of casual packets or of individuals will be formed as follows:
 - (1) The code designation for a separation center packet will include the letters "RE" followed by a movement number.
 - (2) The code designation for a reception station packet will include the letter "E" followed by a movement number.
 - (3) Particular separation center or reception station groups forming integral parts of a packet will be designated by adding the separation center or reception station code number to the code designation for the packet, separated by a dash (example: RE2317-7).
 - e. Enlisted Personnel includes enlisted men and enlisted women.
 - f. Impediments: A general term covering all baggage, equipment and supplies which pertain to a particular packet and which either have been shipped by it or have come under its control for further shipment.
 - g. Individuals includes officer and enlisted personnel, unless otherwise specified.
 - h. Major Commands: For the purpose of this publication, the major commands will be considered to be: Headquarters and Headquarters Command, US Forces, European Theater; Third US Army Area; US Forces, Austria; US Air Forces in Europe; American Graves Registration Command, European Theater Area; Western Base Section; Continental Base Section and Office of Military Government for Germany (US).
 - i. Officer Personnel includes Warrant and Flight Officers, WAC, Nurses and other commissioned women of the Medical Department.
 - j. Personnel includes officer and enlisted personnel, unless otherwise specified.
 - k. Personnel Roster. A roster of all personnel scheduled for out-shipment with a unit, separation center packet or reception station packet.
 - l. Port: A water port of embarkation.
 - m. Readiness Date: That date by which the personnel of a casual packet will have completed processing and be prepared to answer call-up of the port commander.
 - n. Reception Station Group: A group of candidate personnel to be referred to one reception station in the US, not for discharge.
 - o. Reception Station Packet: A packet consisting of one or more reception station groups formed for the purpose of moving candidate personnel to the US.
 - p. Separation Center Group: A group of candidate personnel to be returned to one separation center in the US for discharge.
 - q. Separation Center Packet: A packet consisting of one or more separation center groups for the purpose of moving candidate personnel to the US.
 - r. Staging Area: An installation in the immediate vicinity of the port for the accommodation of individuals and packets until move to ship side for loading.
 - s. Group is a number of redeployed personnel who are formed into a group (on personnel rosters only) for the purpose of moving to the same reception station or separation center in the US. The personnel in these groups will actually return as part of a packet and will be broken down into their respective groups, according to their reception station or separation center, only at the disposition centers in the US. Groups are of two kinds - Reception Station and Separation Center.

t. Packet is a number of reception station groups or separation center groups formed by the port staging area or the AAF Replacement Depot for the purpose of administration while at the port and while en route to the US. Upon arrival in the US all packets are broken down into the respective reception station or separation center groups as listed on the personnel roster.

u. A Reception Station is one of a class of personnel centers formed for the purpose of disposing of personnel not scheduled for separation from the service upon their arrival in the US.

v. A Separation Center is one of a class of personnel centers formed for the purpose of discharging candidate personnel from the military service.

6. APPLICATION: a. This SOP applies specifically to the preparation and to the movement of units, packets and individuals being returned to the US.

b. The instructions contained in this directive are designed to conform to War Department policies as of the date of publication. Changes in this procedure necessitated by revisions in policy will be disseminated to all concerned, through command channels, by the most expeditious means. Procedure established by this SOP will not be changed without approval of this headquarters.

c. When movement orders refer to this publication, all instructions contained herein are applicable, unless specific modifications are contained in such orders. In case of conflict between movement orders and other current instructions, including this SOP, movement orders will govern. In case of conflict between this SOP and other current instructions, such as theater circulars, this SOP will govern.

7. ORIENTATION. It is directed that all troops returning to the US be informed prior to separation from their unit, that:

a. Individuals en route to the US, whether aboard troop trains, transports or aircraft, in casual depots or staging areas, while traveling in this theater or in the US, are on a duty status. They will be subject to the performance of details, such as kitchen police and fatigue, which will be limited to necessity only.

b. Normal issues of clothing will not be made in theater or US ports or staging areas. Replacement of torn and unsightly clothing will be made by the unit commander prior to the individual's movement to the casual depot or staging area.

c. Replacement issues of clothing rendered unserviceable en route will be made, individuals will be paid, and other necessary processing prior to departure from the reception station or separation center will be carried out at reception stations or separation centers located in the vicinity of the homes of the individuals.

d. Officers and/or NCOs traveling with, or placed in command or in charge of, military personnel returning to the US are responsible for the maintenance of order, control and discipline of this personnel in accordance with the Articles of War, and all other applicable current regulations. The above will apply both in this theater, en route to the US, and in the US. Any officer or NCO who allows any violation of regulations on the part of other personnel subject to military law is subject to trial by court martial.

e. Existing directives prohibit the transport of classified documents and carrying of German civilian mail except for authorized personnel. (See Letters, this headquarters, AG 312.3 GRI-AGP, "Transmittal of Communications on behalf of Unauthorized Persons", 2 Oct and 3 Nov 1945, and AG 311.4 GIB-AGP, "Carriage of Official Documents by Personnel leaving this Theater", 25 Oct 1945.)

PART II

GENERAL PROCEDURE EQUALLY APPLICABLE TO MOVEMENT OF SEPARATION CENTER PACKETS, RECEPTION STATION PACKETS, AND UNITS TO US UNDER READJUSTMENT REGULATIONS 1-2

8. PURPOSE: The purpose of this section is to outline the detailed procedures required for organization prior to the movement of individuals to the 17th major port staging area and to their movement aboard ship.

9. PLAN OF MOVEMENT. a. Personnel eligible for separation will be formed into separation center packets by the port staging area commander under policies and priority schedules established by this headquarters. All candidate personnel will be transferred to port staging area on an attached unassigned basis.

b. Separation center packets will be composed of individuals to be returned to the US for discharge under current War Department or theater discharge criteria.

c. Officer personnel eligible for separation will be assigned to separation center packets as outlined in Par 38 below, for the purpose of control and maintenance of discipline.

10. PREPARATION OF INDIVIDUALS. Preparation of individuals to be accomplished at the unit station:

a. Records. All personnel records will be checked for completeness and accuracy of entries and brought up-to-date prior to departure of the individuals from unit station, with attention particularly directed to entries on military occupational specialty, record of current service, physical profiles and assignment limitations appearing in WD AGO Forms 20, 66-1, 66-2, and 66-3; and pay data, awards and decorations, terminal entries on overseas stripes, immunization, and record of service, appearing in WD AGO Form 24. Reference is made to TM 12-230, 18 Oct 1944; TM 12-230A, 28 Sep 1945; TM 12-425, 17 Jun 1944; Personnel Classification June 1944

and Cir 137, this headquarters, 8 Oct 1945.

b. (1) Clothing and Equipment. The unit station commander will be responsible for providing enlisted personnel with serviceable clothing and individual equipment as prescribed in Appendix E. All clothing and individual equipment in excess of that prescribed, except personally owned property of individuals, will be turned in to the unit station supply officer before moving to the port staging area. Clothing and equipment accounts will be adjusted in accordance with AR 615-40, 1 Feb 1945. Serviceable clothing and equipment includes Class "B" items, C and E adjustment forms will be reproduced locally as required and completed at the unit station.

(2) Standards of classification of clothing and equipment will be prescribed in Sec I, Cir 211, WD, 1946.

(3) (a) Baggage of officers, WD employees and civilians will be limited on troop transports to:

Cabin or troop space baggage

2 pieces of hand baggage or, for personnel on flying status traveling by air, one B-4 bag (not over 40 pounds)
1 field or musette bag
1 bag, flyers, medium type A-3 for flying equipment for personnel on flying status traveling by water.

Hold Baggage

General officers - 800 pounds
Field Grade officers - 600 pounds
Company Grade officers - 400 pounds
Civilians - 400 pounds

Special equipment, authorized for movement, not included in above.

(b) Hold baggage includes duffle-bags, barracks bags, trunk lockers, wardrobe trunks, bedding rolls and other similar containers. One trunk locker from hold baggage may be stowed in the cabin or troop space, depending on space limitations of the vessel. General officers will be allowed an additional trunk locker or wardrobe trunk in their cabin.

(c) Chaplains will be permitted to carry a chaplain's kit with them in their staterooms.

(d) Baggage in addition to the above allowance may be transported in accordance with the provisions of Par 12, AR 55-160, 26 Apr 1943. However, such additional baggage will be shipped only as cargo space comes available and not necessarily on the same vessel as the individual.

(4) Enlisted personnel are authorized baggage as follows:

Troop space baggage

1 Duffel bag
1 Musette bag or pack, field, cargo
1 additional piece not over 25 pounds in weight

For personnel on flying status:

1 B-4 bag in lieu of duffel bag
1 bag, flyers, kit, type 3

Hold baggage

Enlisted personnel - 200 pounds

(5) Hold baggage for personnel other than general officers on temporary duty will be limited to 175 pounds.

General officers will be allowed one additional trunk locker or wardrobe trunk.

c. Medical Requirements. (1) Identification tags of all individuals will show full name, army serial number, blood type, basic tetanus immunization and, when applicable, stimulating dose (see AR 40-210, 25 Apr 1945, and AR 600-35, 31 Mar 1944).

(2) Service records of all enlisted personnel will carry up-to-date data as follows, except when such data are entered in WD Form 8-117, "Immunization Register and other Medical Data" (Par (3) below), and filed with the Service Record, WD AGO Form 24:

(a) Record of all immunization (Cir 141, this headquarters, 13 Oct 1945).

(b) Prescription and other data concerning spectacles as required in WD Pamphlet

8-5.

(c) Date of insertions of artificial dentures.

(3) Immunization Registers (WD MD Form 81, "Immunization Register", or WD AGO Form 8-117, "Immunization Register and other Medical Data") of all personnel when the form is available, will be brought up-to-date and new entries made when necessary. All required immunizations will

be given prior to departure from unit station.

(a) All data directed in (b) and (c) above, will be entered on WD AGO Form 8-117 when the form is available.

(b) When prepared, WD AGO Form 8-117 will be furnished to each individual and a copy retained with the enlisted individual's Service Record, WD AGO Form 24, or the officer's or warrant officer's Qualification Card, WD AGO Form 66-1, 66-2 or 66-3.

(4) All officers and enlisted personnel will carry the immunization register on their persons.

(5) Prior to departure from unit station each individual will be given a physical examination for communicable and infectious diseases. Any individual who is infected will be retained at unit station until such time as he is rendered non-infectious.

11. PAY. All individuals will be paid in full at the unit station for the month prior to their departure from the unit station. Only those individuals who will lack sufficient funds to purchase Post Exchange supplies will be paid at port staging areas, through custodian of their records, a partial payment not to exceed \$10. (Appendix G)

12. INDIVIDUALS NOT ELIGIBLE FOR MOVEMENT TO A PORT STAGING AREA. Individuals who fall under the following classifications will not be eligible for movement from unit station to port staging area until they are released from the classification which caused their retention at unit station:

a. Individuals awaiting trial, who are to be witnesses, or who are under investigation. These individuals will be retained until such time as trial or investigation has been completed. Where possible, depositions of expected testimony should be taken and witnesses released.

b. Individuals who, upon physical examination at unit station, are found to be infected with communicable or infectious diseases. Those individuals will be retained at unit station until rendered non-infectious.

c. Individuals not cleared of property or other responsibilities. These individuals will be retained until such time as a certificate of clearance can be made. A certificate of clearance will be rendered for, and carried by, each officer to be returned to the US.

13. MAILING ADDRESS. a. (1) Prior to departure from unit station each individual who is returning to ZI for reassignment or separation will complete and mail ~~WD~~ AGO Forms 971-1 to notify all correspondents and publishers to discontinue mailing letters, parcels and publications until further notice.

(2) Complete three locator cards, PD Forms 46-BB, showing a non-military forwarding address in the US. In lieu of a forwarding address, the individual may indicate that all mail be returned to the senders. One form will be addressed and mailed to the Central Postal Directory, 25th Base Post Office, APO 800, US Army, one to the APO serving the unit of the individual and one retained at the individual's organization.

(3) Air Force personnel will also complete and dispatch one additional PD Form 46-BB to the Postal Officer, APO 633, US Army.

(4) Individuals leaving this theater for the US who do not anticipate returning (as personnel returning for rotation) will be compelled to accomplish (1) (2) and (3) above.

b. Prior to the departure from unit station each individual who will return to this theater after a short period of leave will make arrangements with unit mail clerk for the disposition of his mail.

c. Mail received at unit station after departure of individual will be forwarded or not in accordance with his desires. Mail will not be forwarded to the port staging area in this theater or reception stations in the US.

14. QUOTA AND MOVEMENT. Filling of the allotted quota, and movement to the port staging area so as to arrive on assembly dates as announced by this headquarters, will be the responsibility of the major commands concerned. Personnel en route from unit stations to the port staging area will be under competent leadership of officers and/or NCOs. (Reference, Par 7d above.)

15. MOVEMENT ORDERS: a. Orders will be issued by the major command upon direction from this headquarters for individuals or groups to be moved to the port staging area. Major commands will be responsible to see that all records are correct and that all enlisted personnel have only authorized clothing and equipment prior to their reporting to the port staging area.

b. Each major command will, 48 hours prior to departure, report to the port staging area and to this headquarters (Attention: AC of S, G-1), the day of departure, the strength of personnel being shipped broken down by officers and enlisted personnel, male and female, white and colored, the expected date and hour of arrival in the port staging area, by telephone, confirmed by the most expeditious written form to the port staging area commander concerned.

16. PREPARATION AND DISPOSITION OF MOVEMENT ORDERS AND PERSONNEL HOSTERS. As prescribed in Appendix B.

17. PERSONNEL RECORDS. The list of personnel records and the procedures outlined in Appendix C will apply in every detail to records to be returned with personnel of separation center packets.

18. PREPARATION AND DISPOSITION OF WD AGO FORMS 66-1, 66-2, 66-3. As prescribed in Appendix D.

15FET-SOI 77

Part II

19. LEAVES AND PASSES. The port staging area commander will determine, within existing policies, the extent to which leaves and passes will be granted to the candidate personnel during their stay within the port staging area.

20. CLOTHING, EQUIPMENT AND BAGGAGE INSPECTION. a. The commanding officer of the port staging area will be responsible, after the formation of packets, for inspection of clothing and equipment in possession of individuals to insure that it is within the authorized allowances as indicated in Par 10b, and Appendix E, this directive, and that it is serviceable (See Par 10b for standards of serviceability). Shortages will be filled and unserviceable items will be replaced prior to departure of the group from the port staging area. Letter, AG 420 GDS-AGO, this headquarters, "Issues of Clothing", 30 Nov 1945, indicates the policy to be followed in holding individuals responsible for shortages of items which appear to be the result of sale or willful negligence. Report will be made by the commanding officer of the port staging area to this headquarters (Attn: AC of S, G-1), of individuals found by above inspection to have been improperly equipped at unit station.

b. Each unit and packet will be furnished sufficient chests, record for administrative purposes, by the port staging area supply agency. Necessary administrative expendables will also be furnished, based on a maximum of two pounds per individual and will include such items as blank forms, envelopes, pencils, paper, etc.

21. PACKING, TAGGING AND MARKING. The baggage of each individual in the unit or packet will be packed, tagged and marked as prescribed in ETO-SOP No 45, "Baggage", 1 Jul 1945 as amended. A sample identification tag is included as Appendix S. Procedures for customs clearance and attachment of the customs clearance tag will be accomplished in the port staging area. (See Par 25 below)

22. PERSONAL AFFAIRS. a. Individuals under movement orders to return to the US will have in their possession at all times identification cards as prescribed in Cir 119, this headquarters, 28 Aug 1946.

b. Personnel will be encouraged to dispose of all excess personal funds by use of Soldier's Deposit, Personal Transfer Account, Postal Money Order or United States Military Payment Orders.

c. Non-settlement of personal affairs will not act to delay the return of any individual to the US.

d. Bank accounts. Personnel desiring to close their accounts in banks in the United Kingdom or on the Continent may accomplish this by:

(1) Cashing a personal check at the bank or requesting the bank to transfer the balance, by mail or cable, to a given address.

(2) Obtaining a cashier's check which can be cashed prior to departure from this theater and converted into US blue or yellow seal currency in a staging area.

23. FISCAL PROCEDURES. As prescribed in Appendix G.

24. MACHINE RECORDS UNITS OR STATISTICAL CONTROL UNITS REPORT. As prescribed by current instructions of this headquarters.

25. PROCEDURES FOR CUSTOMS CLEARANCE. The procedures prescribed in Appendix H relative to customs clearance apply to movement through staging areas.

26. PASSENGER LISTS. As prescribed by Appendix I.

27. BEDDING FOR OFFICERS. The commander of the port staging area will determine, prior to the sailing time of a packet, whether blankets will be available aboard the designated ship to provide bedding for officers. In the event that blankets are not available, they will be issued by the port staging area on the basis of two per individual. It is the responsibility of the packet commander to insure that blankets so issued are turned in at the port of debarkation.

28. PRE-EMBARKATION REPORT. Pre-embarkation reports relative to impending movement will be made as outlined in Appendix J.

29. PHYSICAL INSPECTION. As prescribed in Appendix K.

30. MOVEMENT TO SHIP-SIDE. Time of movement from staging areas to ship-side will be prescribed by the port commander in accordance with established transportation schedules and the movement priority of the groups concerned.

31. TIME OF MOVEMENT TO THE US. Time of loading of packets or units aboard ship or transportation facilities under the control of the Chief of Transportation, this headquarters, will be effected in accordance with transportation schedules established for the purpose and the movement priority of packets concerned.

32. TRANSMITTAL OF STENCILS AND PERSONNEL RECORDS. As prescribed in Appendix L. It is essential for the speedy disposition of personnel in the US that the stencils and records be forwarded to the US in the time allotted, as outlined in Appendix L.

33. EMBARKATION AND SAILING REPORT AND PASSENGER LIST. As prescribed in Appendix M.

34. INFORMATION ON PROCEDURES ABOARD SHIP. Port commanders will inform transport commanders, prior to sailing, of the following requirements which must be met prior to debarkation of personnel in the US:

a. Within 24 hours before scheduled debarkation, the ship surgeon will conduct a physical inspection of each individual to be debarked, for the detection of acute communicable diseases and vermin infestation. Following the inspection, a health certificate, substantially in the form indicated in Appendix N, will be prepared and signed by the ship surgeon. This health certificate is of paramount importance in speeding up processing of personnel in the US. (See Change 1, AR 55-435, 1 Sep 1942.)

b. The transport commander will execute the blanket declaration necessary for customs clearance of personnel and baggage in the US. The form of the blanket declaration is included in this SOP as Appendix O.

35. LOADING OF BAGGAGE AND IMPEDIMENTS ABOARD SHIP. a. Only those individuals determined by the port and transport commander are authorized to carry arms and ammunition required for guard purposes during the voyage.

b. Personnel and administrative records of packets and units must be loaded aboard ship so as to be readily accessible during the voyage and immediately upon debarkation in the US. All "Hold Baggage" of the packet will be loaded on the vessel carrying the personnel.

c. Electric razors may not be used aboard ship.

d. Pets and mascots will not be taken aboard ship.

36. CONTROL EN ROUTE. Upon embarkation for movement to the US, packets and units pass to the control of the Chief of Transportation and will remain in his control until the personnel are delivered at reception stations or centers in the US. Strength accountability will be maintained by theater MRU until date of embarkation for the US. The commander of the US port will notify this theater of arrival of packets at that port. (See AR 345-60, 16 Apr 1946.)

37. COMPOSITION OF SEPARATION CENTER PACKETS. Insofar as possible, each separation center packet will be composed of personnel returning to the same separation center in the US. The separation center and the area they serve for personnel returning in separation center packets, and separation center codes are set forth in Appendix A. Packets will be organized as follows:

a. The city and state in the US will be ascertained to which, under current laws and regulations, each individual is entitled to transportation upon separation from active service. In this connection, reference is made to Pars 78-84, inclusive, TM 14-502, 1 Jan 1945, indicating the address (city and state only) to which enlisted personnel are entitled to transportation upon separation, and to Sec III, Chapter I, Change I, TM 14-5503, dated 13 Oct 1944, showing the address to which officer personnel are entitled to transportation upon separation.

b. The separation center will be determined from those shown in Appendix A, serving the designated city and state. In establishing the proper separation station to which individuals are to be move, the designation of particular states to be served by separation centers will be adhered to strictly.

c. Individuals will be assigned to separation center groups, insuring that all members assigned to a particular group are destined for the same separation center.

d. The least number of groups possible will be combined to form a separation center packet of strength and organization indicated in Par 39 below.

e. Female personnel will not be included in packets composed of male personnel and will be assigned to packets destined for separation centers in the US specifically indicated by column 3, Appendix A.

38. PACKET ORGANIZATION. a. Each separation center packet will consist of 250 individuals (plus or minus increments of fifty, except for packets of female personnel and medical officers), including sufficient officers and/or NCO personnel for adequate control and discipline. The individual who is senior in grade of the selected personnel will be the packet commander, and will be so designated in movement orders of the packet, provided such individual is qualified by training and experience for this type of assignment; otherwise the next senior who is qualified will be chosen.

b. The mission of command personnel assigned to packets is to deliver the members of the packet, together with all records, to the commander of the appropriate separation center in the US and to be responsible for the control, discipline and conduct of such personnel until completion of their mission. Command personnel will be instructed in their responsibilities for the actions of their packet.

c. Medical enlisted personnel may be assigned to separation center packets as deemed necessary by the commander of the port staging area, subject to availability of such personnel. It is suggested that two medical enlisted men be assigned to each group of 100 men and that they be issued equipment listed in Appendix F.

39. TROOP INFORMATION PROGRAM FOR RETURNING SOLDIERS. a. All military personnel returning to the US are required to complete a special nine-hour troop information program.

b. Discussion materials for this information program will be distributed to packet commanders upon organization of the packet by the commander of the port staging area.

c. Discussion leaders will be chosen from personnel within the packet, on the basis of 1 per 50 men, or will be provided from among the permanent personnel at the port staging area.

d. Materials are to be used by discussion leaders as a basis for discussion, not lectures, in small groups of not to exceed 50 men.

e. Port staging area commanders are responsible that ALL personnel being returned complete program as outlined above before departure of personnel for port of embarkation.

40. CODE DESIGNATIONS. a. Separation center. (1) Each separation center packet returning to the US will be assigned a code designation as outlined below. These designations are similar to those prescribed in letter, AG 370.5 OB-S-SPMOT-M, WD, "Procedure for Return of Individuals (PRI)", 16 Aug 1944, as amended. The letter "R" is added to the initial character to distinguish personnel for discharge from others. The first character will consist of the letters "RE" (indicating the fact that the particular movement involved originates from this theater) and a shipment number.

(2) To designate a particular separation center group returning as an integral part of a packet, the code designation of the packet will be followed by a dash(-) and the code number of the separation center in the US to which the group is destined, as indicated in Appendix A.

(3) An example of a code designation prepared in accordance with the above, is:

"RE 2346-26". In this instance "RE" represents personnel returning for a discharge from this theater as the origin of the movement; "2346" is the shipment number of the separation center packet; and 26 represents the separation center in the US for which a group of the packet is destined as indicated in Appendix A.

(4) To prevent duplication of assignments of shipment numbers this headquarters (AC of S, G-1) will control assignment of those numbers.

b. Reception center. (1) Each reception station packet returning to the US will be assigned a code designation as outlined below. These designations are similar to those prescribed in letter, AG 370.5 OB-S-SPMOT-M, WD, "Procedure for Return of Individuals (PRI)", 16 Aug 1944, as amended. The first character will consist of the letter "E" (indicating the fact that the particular movement involved originates from this theater), and a number indicating the particular shipment from this theater.

(2) To designate a particular reception station group, returning as an integral part of a packet, the code designation of the packet will be followed by a dash (-) and the code number of the reception station in the US to which the group is destined, as indicated in Appendix A.

(3) An example of a code designation prepared in accordance with the above is:

"E2346-2". In this instance "E" represents this theater as the origin of the movement; "2346" is the shipment number of the reception station packet; and "2" represents the reception station in the US for which a group of the packet is destined. (As indicated in Appendix A)

(4) To prevent duplication of assignments of movement numbers, this headquarters (AC of S, G-1) will control the assignment of these numbers.

41. MOVEMENT ORDERS. a. Movement Orders will contain the code designation of the packet (as prescribed in Par 40 above) and will indicate the custodians of records for each group, and the packet commander, by name.

b. Personnel Rosters will be as prescribed in Par 42 below, and will be attached to each movement order.

42. PERSONNEL ROSTERS. a. Separation Center Group. (1) The personnel rosters will be a separate inclosure to packet movement orders. Separate personnel rosters will be made for each separation center group. They will indicate the group code designation as indicated in Appendix A and will provide the following information for each individual:

(a) Name
(b) Grade
(c) Army serial number. (The symbol "RA" will precede the serial number of all Regular Army enlisted men as required by Sec II, Cir 58, WD, 28 Feb 1946.)
(d) Arm or service
(e) Address to which each individual is entitled transportation (See Par 37 above).

(f) Military occupational specialty number.
(g) Company of port staging area to which assigned.
(h) Applicable discharge regulations for personnel to be separated under current regulations only; for example, AR 615-365, 15 Dec 1944, or AR 615-368, 7 Mar 1945. (See Par 3v, RRI-1 and 1-5)

(2) Individuals who have been assigned to duty with the Army Air Forces, including arms and services, will be listed in a separate section under the heading "AAF Personnel". AAF combat crew personnel will be designated by the letters "CC".

(3) Negro personnel will be so indicated by the letter "N" immediately following their names.

b. Reception Station Group. (1) The personnel roster will be a separate inclosure to movement orders. Separate personnel rosters will be made for each reception station group of a packet. They will indicate the group code designation and will provide the following information for each individual:

- (a) Name
- (b) Grade
- (c) Army serial number. (The symbol "RA" will precede the serial number for all Regular Army enlisted men as required by Cir 58, WD, 28 Feb 1946)
- (d) Arm or service.
- (e) Address to which each individual desires transportation.
- (f) Military occupational specialty serial number.
- (g) Company of port staging area to which assigned.
- (h) Authority for return.

(2) Individuals who have been assigned to duty with the Army Air Forces, including arms and services, will be listed in a separate section under the heading, "AAF Personnel". AAF combat crew personnel will be designated by the letters "CC".

(3) Negro personnel will be so designated by the letter "N" immediately following their names.

43. COMPOSITION OF RECEPTION STATION PACKETS. a. Each reception station packet will be composed of personnel returning to the same reception station in the US.

b. The basis for determining the proper reception station for individuals being returned for reasons other than discharge will be the port of debarkation of the individual concerned. All personnel debarking at the New York port will be sent to Fort Dix, New Jersey. Personnel debarking at San Francisco will be sent to Camp Beale, California; personnel debarking at Seattle will be sent to Fort Lewis, Washington and personnel debarking at New Orleans will be processed at the New Orleans port.

c. Female personnel will not be included in packets of male personnel.

44. PACKET ORGANIZATION. a. Each reception station packet will consist of 1 to 250 individuals, including sufficient officers and/or non-commissioned officers for adequate control and discipline. The individual who is senior in grade of the selected personnel will be the packet commander and will be so designated in movement orders of the packet, provided such individual is qualified by training and experience for this type of assignment; otherwise, the next senior who is qualified will be chosen. Officers selected will be furnished from those destined for the same reception center as the rest of the packet.

b. The mission of the command personnel assigned to packets is to deliver the members, together with all records, to the commander of the appropriate reception station in the US and to be responsible for the control, discipline and conduct of such personnel until completion of their mission. Command personnel will be instructed in their responsibilities for the actions of their packets.

c. Medical personnel may be assigned to reception station packets as deemed necessary by the commander of the staging area, subject to availability of such candidate personnel. It is suggested that candidate medical non-commissioned officers be assigned each packet on a basis of one per 100 individuals and that they be issued equipment listed in Appendix F.

PART III

MOVEMENT OF UNITS BY WATER TRANSPORTATION TO THE UNITED STATES

Section 1 - GENERAL

45. PURPOSE. The purpose of this section is to outline the detailed procedures required for the organization and proper preparation of units composed of various theater personnel eligible for return to the US as authorized by War Department directives.

46. PLAN OF MOVEMENT. a. Persons being returned to the US for reasons other than discharge will be placed on reception station personnel rosters under procedures indicated in Par 42. Such personnel may include:

- (1) Personnel on rotation (due within 30 days from date of movement order).
- (2) Enlistees for other theaters.
- (3) Short term enlistees (1, 1½, 2 year).
- (4) Three year enlistees (with shorttime to complete).

b. Persons being returned to the US for discharge under current War Department or theater discharge criteria will be placed on separation center rosters under procedures indicated in Par 42.

c. Personnel with AGCT score below 70 will not be outshipped except those included in a and b above.

Section 2 - RESPONSIBILITY OF MAJOR COMMANDS & UNITS

47. STRENGTH AND MOVEMENT. It will be the responsibility of the major command concerned to bring the unit up to strength designated by movement orders or alert orders and movement to the port staging area so as to arrive on the assembly date as announced by this headquarters. Movement to the port staging area will be by rail and/or motor transportation as provided by the Theater Chief of Transportation.

48. ORGANIZATIONAL EQUIPMENT. a. T/O and E equipment will not accompany units but will be turned in to collecting points. The chief of the supply branch concerned will be contacted for information as to the location of the appropriate collecting point.

b. The following items will accompany units to the ZI.

- (1) Chest, records, fiber.
- (2) Colors, standards and guidons.
- (3) Kit, barber, w/case.
- (4) Sling, color, web, OD.
- (5) Typewriter, portable or non-portable.
- (6) Equipment listed in Appendix "F".

c. Prior to turn in, all equipment will be returned to serviceable condition to the extent possible with available maintenance facilities and prepared for temporary storage.

Section 3 - RESPONSIBILITY OF THEATER AGENCIES

49. CODE DESIGNATIONS. Each unit returning to the US will be assigned a code designation as outlined below:

a. The first character will consist of the letters "RE" indicating the fact that the particular movement indicated originates from this theater, for redeployment.

b. The second character will be a dash (-).

c. The third character will be the code designation of the particular unit or group or units involved. Each unit in the group will have a letter following the code designations to distinguish it from any other unit in the group. Letter will commence with the letter "A" and will continue successively through the alphabet.

d. An example of the above is "RE-8596-B", which means that a certain unit is the second of a group of units having the same code designation of 8596, originating from this theater for redeployment to another. Units departing for the US to be employed for a special purpose, as designated by the War Department, will have a five digit number such as 10281-A, the "A" representing a component of the parent unit. The shipment number and letter will be used in referring to movements in lieu of any unit designation or destinations and will also be used in marking of equipment and supplies.

50. MOVEMENT ORDERS. Orders will be issued by this headquarters for each unit to be moved to the US.

a. Movement orders will contain the code designation of the unit (as described above in Par 49) and will indicate the authorized strength, point of origin, responsibility for preparation for departure, and various supply, personnel and administrative instructions to be followed.

b. Personnel rosters will be as described in Par 42 and attached to movement orders as an integral part of the order.

BY COMMAND OF GENERAL McNARNEY:

George F. Herbert
GEORGE F. HERBERT
Colonel, AGD,
Adjutant General.

BREMERHAVEN STAGING AREA
APO 751 US ARMY

6 February 1946

SUBJECT: Movement Orders RE-2612 (Priority No 1768-B)

TO : See Distribution

1. The Officers and EM of the Separation Center packet listed on this Movement Order and attached personnel rosters are held fr atch unasgd organizations as indicated, Bremerhaven Staging Area and are assigned for movement purposes to Shipment RE 3376. Authority: RR 1-1, RR 1-2, AR 615-362, AR 615-363, AR 615-365, AR 615-368, AR 615-369, and AGWAR Cable No 90169, dtd 26 Dec 1945. Tvl by rail, motor and/or surface transportation is authorized. PCS.TDN. TCNT, 60-105, 500-P 431/02, O3A, 212/60425, EDCMR: 9 February 1946.

2. Following Officers and EM whose names also appear on personnel rosters of component shipments they are to accompany are assigned to duty as Group Commanders as indicated:

<u>NAME</u>	<u>GR & ARM</u>	<u>ASN</u>	<u>GROUP COMMANDER SHIPMENT NO.</u>
MILLER, Frank T.	Lt Col FA	043211	RE2612-26
KEELER, Robert J.	Capt Ch C	0475976	RE2612-27
SACKS, Johnston C.	T/Sgt BI	33723016	RE2612-32
ROBERTS, Henry M.	S/Sgt CAC	44036373	RE2612-33
SHEEN, Robert V.	Capt Inf	01283155	RE2612-42

Officers and EM shown above will be responsible for the control, discipline and conduct of the personnel they are escorting until such time as they deliver such personnel and their records to the appropriate Separation Center Commanders in the ZI.

3. Shipment RE2612 will move on or about 9 February 1946 from present overseas station to Separation Centers in the United States as indicated. This is a permanent change of station.

4. Lt Col Frank T. Miller, 043211, FA, is designated packet commander for shipment RE2612 during the actual movement of this packet from time of departure until arrival in the United States. Each subordinate group commander is designated Custodian of Records for his group.

5. Shipment RE2612 will be under the control of the Chief of Transportation from time of departure from overseas station until relieved of assignment in the United States.

INSTRUCTIONS FOR PREPARING PERSONNEL ROSTERS

(See Model Forms Attached)

1. The physical layout of the roster will be precisely as shown in the model form.
2. On the No 1 (unused) stencil only, type the words "Advance Copy" immediately above "Personnel Roster".
3. Below the heading on each page show the reception station or separation center to which the group is being sent.
4. The heading, name, grade, arm or service, ASN, company, MOS number, and address are to be shown on each page of the roster in exactly the same order as shown in the attached model.
5. Name: for all names, both officers and enlisted men, type the surname in capital letters, given name in lower case.
6. Grade and arm or service: show the grade and immediately below it the arm or service of both officers and enlisted men.
7. a. The address for separation center groups requires only the city and state TO WHICH AN INDIVIDUAL IS ENTITLED TO transportation upon discharge (as modified by teletype message EX 71043, this headquarters, 21 July 1945); the address for reception station groups requires the street and number in addition to city and state.
b. The separation center for personnel to be discharged and the separation center code number (column 5) will be selected from Appendix A.
c. The authority for discharge will be included in the personnel separation center roster, but not reception station roster.
8. Repeat the heading in full on each page exactly the same as for the first page.
9. The pages are to be serially numbered at the bottom of each page including rosters which consist of only one page.
10. Rosters will be reproduced on 8" x 13" paper only.
11. Only one side of the paper will be used.
12. An "N" will be placed behind the name of each Negro and a "W" behind the name of each female. An explanatory legend will be placed at the bottom of each page to denote symbols used.
13. All typing on stencils will be between lines 5 to 74 inclusive and a minimum right hand margin of 1½" will be left where practicable to permit re-use of the stencils at installations in the US.
14. Care will be exercised to insure legibility in every detail.
15. Officers will be listed alphabetically by grade.
16. Enlisted men will be listed alphabetically by grade.
17. A double space will be left between each name on the roster.
18. Officers names will be separated from names of enlisted men by asterisks.
19. Rosters will contain the list of names of only one shipment number, accounting for all members of that shipment.
20. No two shipment numbers and names will be placed on the same stencil.
21. If additional names are to be placed on a stencil already completed, the Notation "Not previously entered on this roster" will be placed immediately above the additional list.

INSTRUCTIONS FOR PREPARATION OF GROUP PERSONNEL RECORDS

The perfection of personnel records is a continuing responsibility. Individual records will be checked and brought up-to-date in the manner prescribed by current directives.

1. All personnel records will be checked for completeness and accuracy of entries and brought up-to-date prior to individuals' departure from unit station, with attention particularly directed to entries on military occupational specialty, record of current service, physical profiles, and assignment limitations appearing in WD AGO Forms 20, 66-1, 66-2, and 66-3; and pay data, awards and decorations, terminal entries on overseas stripes, immunization, adjusted service rating score, physical profile, and record of service, appearing in WD AGO Form 24. Reference is made to TM-12-425 "Personnel Classification", June 1944, Headquarters, European Theater of Operations, 7 May 1945; and Cir 137, this headquarters, 8 Oct 1945.

2. Prior to departure from the assembly point, the personnel records, as listed below, of each individual will be carefully checked and the individual concerned interviewed to determine that the records are available, are accurate and are posted up-to-date. Such records will be carried with the packet in the custody of the packet commander. A copy of "Records Check List" in the form prescribed in Appendix C-1 will be accomplished and attached as the top sheet with the records of each individual. Records may then be checked at various stages of movement as shown on the form.

a. **All Officers.**

- *Form 65 or 65-1 (Officers' Identification Card)
- Form 66-1, 66-2, or 66-3, (Officers' and Warrant Officers' Classification Card)
- *Form 77 (Officers' Pay Data Card)
- *Record of leave accrued and granted.

*To be carried by Officers as prescribed in AR 605-115.

b. **All enlisted personnel.**

- Form 20 (Soldiers' Classification Card)
- Form 24 (Service Record) with allied papers required by current directives.
- C&E Adjustment Form as prescribed in AR 615-40, 1 Feb 1945.

c. **All Personnel.**

Form 8-114 (formerly Form 78) (Syphilis Register--for individuals under syphilis treatment).

*Form 8-115 (formerly Form 78a) (Treatment Record--for individuals under treatment for syphilis).

*Form 8-117 (formerly Form 81) (Immunization Register, in duplicate; original carried on person) (where Form 8-117 is not available, Form 81 may be used).

Copy of Board proceedings such as reclassification, disposition, AR 615-369 proceedings. When applicable, such copy will contain indorsement made by convening authority and approval of officers having discharge authority.

WD AGO Form 65-10 (carried by all protected personnel).

d. Records to accompany air force personnel will be in accordance with the provisions of USSTAF Regulations 80-10 and current revisions of these regulations.

e. **Parachute and glider personnel.**

*Copy of orders announcing parachutist or glider rating.

*Copy of orders or certificates placing personnel on parachutist or glider status, as required by current regulations.

*To be carried by each individual as applicable.

3. In the event any of the above records are missing and cannot be located, duplicates will be prepared. Where service records are missing, ETO Form 30 (Temporary Service Record) will be used for this purpose. If missing records cannot be replaced or can be only partially reconstructed, a certified statement giving the facts in the case will be forwarded in lieu of the missing record or will be attached to the partially completed duplicate.

4. In each case where determination has been made that separation is to be effected under current separation regulations (as distinguished from readjustment separation standards), entry will be made under "Remarks Administrative" in the Service Record for enlisted personnel as prescribed in Technical Manual 12-230, or under "Remarks" on Form 66-1, 66-2, or 66-3 for officers, indicating the regulation applicable, and specific cause for separation; for example: AR 615-365, "Below Minimum Standards for Induction"; or AR 615-368, "Habits and Traits of Character which Render Retention in the Service Undesirable"; or AR 605-230, "Reclassification". This applies only to those individuals being returned to the US who are to be separated from the service under current separation regulations after arrival thereat.

5. The above list is not to be considered as an all-inclusive list of records pertaining to personnel returning to the US. This list, however, indicates the forms and records which must be processed and forwarded when personnel are moved to the US. Commanders are responsible that all pertinent documents, forms, records, allied papers, duplicate copies of allotments, insurance records, and other pertinent information usually retained in the records files of individuals, are forwarded at time of movement of personnel to the US.

PREPARATION AND DISPOSITION OF WD AGO FORMS NO 66-1, 66-2 AND 66-3

1. To permit advance planning for the determination of essentiality of officers permanently returning to the US for purposes other than demobilization, and for their expeditious disposition after arrival there, the staging area commander will cause to be forwarded to the Adjutant General, Washington 25, D.C. (Attention: Officer's Branch (PO-A), a certified copy of the WD AGO Form 66-1 (Use WD AGO Form 66-4 for this purpose), 66-2 and 66-3, for each officer being returned. If a supply of WD AGO Forms No 66-4 is not available a certified copy of the WD AGO Form No 66-1 will be used (see RR 1-5).
2. These copies will be dispatched by air courier or air mail, whichever will provide more rapid shipment, three days before departure of officers from the theater. The forms will be accompanied by a letter of transmittal indicating the number of forms inclosed and the estimated date of the departure of the officers from this theater. A copy of the movement orders of the packet and a complete personnel roster (including all groups containing officers) will be included. All papers will be securely fastened to insure their receipt in one unit by the Adjutant General. Prior to dispatch, a careful check will be made to insure that a copy of the WD AGO Form 66-2, 66-3 or 66-4 is provided for each officer listed on the unit personnel roster.
3. It is of paramount importance that these papers and the Forms 66-2, 66-3 or 66-4 be dispatched to the Adjutant General in accordance with this procedure, so that there will be no delay in the disposition of officers being returned.
4. See Appendix L for further action with respect to Form 66-4.
5. The procedures contained in this paragraph relating to the preparation and disposition of WD AGO Forms 66-1 (using WD AGO Form 66-4 for this purpose), 66-2 or 66-3 are not applicable to these officers being returned to the US for separation.

CLOTHING AND EQUIPMENT FOR PERSONNEL RETURNING TO US

1. a. All US Army personnel returning from this theater to the US will be accompanied by the items of minimum essential clothing and equipment prescribed in the applicable scales set forth in Lists I and II of this appendix, or as prescribed by current T/E 21 (see Par 6 below). Such scales are subject to modification only by the provisions of movement orders published by this headquarters. No additional items will accompany the individual enlisted man, unless specified in the movement orders. The clothing allowances prescribed for officers represent the minimum quantities which should be taken and are included in this directive to serve only as a guide for the individual officer. The allowances of individual equipment specified for officers will not be exceeded, unless additional quantities or items are authorized in the movement orders published by this headquarters.

b. The provisions of this appendix apply to the clothing and equipment of individuals returning as casualls, as members of groups or as members of packets returning under existing regulations except when specifically directed otherwise by this headquarters.

2. Air Force Flight Personnel. a. Air force flight personnel may, if they have such items in their possession and so desire, take with them these items of Air Corps supply flying clothing and equipment:

Type B-4 flying bag	Type E-1 bombardier's case
Type A-3 parachute bag	Type A-2 flying jacket

b. Any such items so taken will be listed on the individual's AAF Form 121, indicating that they are being carried as personal equipment. Any such items not so taken and all other items of Air Corps equipment, will be turned in to the Air Corps supply office at the returnee's last permanent station.

3. Personnel Traveling by Air. a. Enlisted men and women returning to the US by air will be accompanied by the clothing allowances indicated in columns (4) and (9) respectively, of List I of this appendix. Male and female officers returning to the US by air will be accompanied by the clothing and equipment allowances indicated in columns (4) and (9) respectively, of List II, this appendix.

b. The baggage accompanying an individual on a return journey by air will not exceed 65 pounds, unless specifically authorized in his travel orders. All additional baggage will be forwarded in accordance with USFET-SOP 45, 1 Jul 1945, as amended by Cable SC-21442, 7 Nov 1946.

4. Excess Items. All items in excess of the prescribed allowances will be turned in to the unit supply officer, unless otherwise specified in movement orders.

5. Adjustment of Clothing and Equipment Accounts. The adjustment of individual clothing and equipment accounts will be accomplished at the returnee's last permanent station, in accordance with AR 615-40, 1 Feb 1945.

6. Personnel for New Permanent Station. All personnel being returned to the US for assignment to a new permanent station will be shipped in accordance with the current T/E 21.

7. Explanation of numbers at head of columns in Lists I and II follows:

- (1) Item of clothing or equipment
- (2) Unit of (1)
- (3) Male returning by sea
- (4) Male returning by air
- (5) Male litter
- (6) Male not litter on hospital ship
- (7) Male not litter on troop ship
- (8) Female returning by sea
- (9) Female returning by air
- (10) Female litter
- (11) Female not litter on hospital ship
- (12) Female not litter on troop ship
- (13) Male US general prisoners

LIST OF MEDICAL SUPPLIES AND EQUIPMENT TO BE ISSUED TO EACH
MEDICAL ENLISTED MAN ASSIGNED TO ACCOMPANY MOVEMENT OF PACKET.

NUMBER	ITEM	UNIT	QUANTITY
9711000	Kit, Medical, Non-commissioned Officer's, Complete	Each	1
7947000	Vial, (prescription bottle), 2 oz for the following:	1 vial	
1418000	Sodium, Bicarbonate & Peppermint, 1000 tablets	180 tablets	
7948000	Vial, (prescription bottle), 4 oz for the following:	1 vial	
1010000	Acid, Acetylsalicylic, 1000 tablets	250 tablets	
9101000	Acid, Boric, Ointment, 1 oz	Each	2

(Additional medical supplies and equipment should be designated for issue to the medical personnel accompanying movement of casual groups as required by the nature of the journey, geographical location and any other factors which dictate the need for supplementary issue.)

FISCAL PROCEDURES

I-- FISCAL PROCEDURES TO BE COMPLETED PRIOR TO READINESS DATE

1. Payment of Troops.
 - a. Officer's Pay Data card (WD AGO Form 77) will show complete and current information.
 - b. All military personnel will be paid in full at unit station for the month prior to their departure from unit station. Only those individuals who will lack sufficient funds to purchase Post Exchange supplies will be paid at the Bremerhaven staging area, through custodian of their records, a partial payment of not to exceed \$10.
2. Reduction of Funds. All military personnel will be encouraged to reduce excess funds by the purchase of personnel transmission accounts of War Bonds prior to readiness date.
3. Conversion of Funds.
 - a. No limit will be placed on sums of money that individuals may carry so long as the amount requested for conversion does not exceed the amount that the individual could have received through normal pay and allowances. Where excessive amounts are presented for conversion disbursing officer will require the execution of certificates establishing the source as pay and allowances and in the event that the certificate is not satisfactory, a request for an investigation should be made to the individual's commanding officer.
 - b. Currency conversions for all personnel will be accomplished at port staging area, after readiness date, from rosters prepared by packet commanders prior to readiness date. Each packet commander will prepare a list in duplicate of the individuals under his control and will include the names of officers and enlisted personnel. Spaces should be allowed opposite each name for two columns headed respectively "Local Currency Collected" and "Dollar Equivalent".

II-- FISCAL PROCEDURES TO BE COMPLETED IN PORT STAGING AREA

1. Reduction of funds. The only finance service available in the staging area for the reductions of excess personal funds will be the purchase of War Bonds, through the headquarters finance office.
2. Currency conversion.
 - a. Currency conversions for troops will be accomplished in the staging area from rosters by shipment commanders prior to readiness date. Each packet commander will turn in list as outlined in Par 3b, Sec I, this appendix, completed to include amounts of local currency collected from each individual together with the currency to the finance officer at the staging area. Finance officers will effect the conversion and deliver blue and yellow seal US currency to packet commander for payment to the individual concerned, together with a copy of the rosters on which the conversions are shown.
 - b. Personnel will be required to exchange all local currency in their possession for US blue or yellow seal currency. Attention is directed to Par 3a, Sec I, this appendix.

III-- FISCAL PROCEDURES ABOARD SHIP

When a special disbursing agent of the War Department is aboard the transport a partial payment of \$10.00 may be authorized to be made to troops in transit. Personnel Officers who certify such partial payment rolls will examine pertinent parts of AR 345-155 (including current changes thereto) on significance of individuals right to partial payment, the necessity for such individuals to have pay credit at least equal to the proposed partial payment, and concerning the obligation of personnel or certifying officers to record accomplished partial payments in the Service Records of payees.

I-- BAGGAGE INSPECTION

1. Each individual will have certificates executed prior to their reporting at Bremerhaven staging area when the baggage includes any of the following items:

- a. Government property purchased by an individual.
- b. War trophy (as prescribed by current theater directives)
- c. Allied Nations material.
- d. Clothing and textile items brought from area where louse-borne typhus fever exists, only where proper disinfection has not been accomplished.

2. In all cases, the individual will accomplish the customs declaration provided on the same form. The form of the certificate is shown in Appendix P.

3. On all baggage, in addition to the customs declaration prescribed above, the individual will accomplish a customs declaration tag and attach it to each container. The form of the tag, which will be furnished by the staging area for this purpose, is shown in Appendix Q.

4. One copy of the accomplished certificates and customs declaration will be retained by the owner. The original and one copy will be placed in the container in such a manner as to be readily accessible when the container is opened. Upon inspection and prior to movement to port, one copy will be withdrawn and retained by the inspecting officer.

5. Following the above procedure, baggage containers will be inspected by a commissioned officer designated by the staging area commander as inspecting officer, to insure compliance with baggage limitations and disease prevention requirements and to withdraw items not authorized for shipment. All ammunition, inflammable materials, items listed as prohibited in Sec II, this appendix, and unauthorized "war trophies" will be withdrawn. Inspecting officers must realize that these inspections are vitally necessary in complying with laws of the US in preventing entry of disease into the US and in securing speedy clearance of individuals from US ports.

NOTE: Current theater policy is that troops leaving the theater are allowed to retain war trophies to the fullest extent consistent with safety to life and property. Unauthorized war trophies are items which contain explosives, non-military articles removed from enemy dead, name plates removed from captured military equipment, firearms of automatic type (or component parts) or any other firearms in excess of one per individual, radios or radar equipment (or component parts) of all types, or any inflammable material of any nature. Authority is not granted by this policy to exceed limitations prescribed elsewhere in this document or to import into the US items listed as prohibited in Sec II, this appendix. All commands, agencies and installations processing personnel for return to the US are responsible for furnishing proper certification facilities. The staging area commander will maintain a record of the name of the officer inspecting each packet.

6. Wherever possible, owners should be present at the inspection of their baggage. The inspecting officer will make an inventory, in duplicate, of all items withdrawn from the baggage, including unauthorized US government items, with a brief description of each item removed. The original copy of the inventory of withdrawals certified by the inspecting officer, will be placed in the container from which the items have been withdrawn, or handed to the owner of the baggage, and one copy retained by the inspecting officer.

7. Following the above, the certificate on the reverse side of the customs declaration tag will be signed by the inspecting officer. In no case will baggage to be loaded in the holds of vessels be returned to owners after the inspection above. The inspection, therefore, should be accomplished as near the time of movement to the port as possible. The same inspecting officer will sign the customs declaration tag and the baggage tag of each individual.

8. a. Each individual embarking for shipment to the US will be furnished and required to sign, prior to departure for the port, a statement as follows:

AMMUNITION AND EXPLOSIVES

I am aware of the prohibition against introducing live ammunition and explosives into the United States. There is no live ammunition or explosives in my baggage or upon my person. I fully understand that my personal effects will be inspected upon arrival in the United States, and that I am personally responsible and subject to severe disciplinary action upon arrival in the United States if any live ammunition or explosives are discovered in my baggage or upon my person.

s/ _____
t/ _____
Name, Rank, ASN

Organization
Appendix H

b. The above signed statement will be turned over to a commissioned officer immediately prior to loading aboard ship and retained in the files of the packet commander until reception authorities in the US have indicated satisfaction that this regulation has not been violated, after which they will be destroyed.

c. The above statement will be reproduced locally as required.

II-- PROCEDURES FOR CUSTOMS CLEARANCE

1. Articles acquired abroad by individuals for use by them as gifts after they are brought to the US are for the personal use of the owners and are, therefore, entitled to duty-free admission under ACT, 27 June 1942 (Public Law 633, 77th Congress). Articles acquired abroad for resale or for the use of persons other than the owner, except those intended for use as gifts, are not entitled to duty-free admission under the provisions of the act cited above. However, attention is directed to the specific prohibitions and restrictions on certain items, listed in Par 4 and 5 below.

2. The procedures for the clearing with customs officers stationed at US ports, of all items of government and personal property of individuals returning to the US are contained in letter, WD, AGC 524 (13 Aug 45) OS-S-D-M, 23 Aug 1945 (not now available but contents of which will be disseminated as soon as available).

3. In addition to the above, the inspecting officer will execute a declaration and certificate for the packet in accordance with the form contained in Appendix R. The declaration and certificate of each packet will, prior to sailing, be delivered to the transport commander for action as outlined in Pars 34b and 35b.

4. For the information of all individuals, importation of the following items into the US is prohibited, except in specific cases where a clearance to import items for scientific, educational or military purposes is obtained from a proper civilian agency through military channels, prior to its shipment from a theater:

a. Smoking opium and narcotic drugs.

b. The following plants and plant products:

(1) Fresh fruits and vegetables, including sweet potatoes and yams.

(2) Bamboo seeds or plants and unhusked rice.

(3) Sugar cane, citrus plants or cuttings and banana plants.

(4) Raw cotton and cotton seed hulls, including seed cotton and cotton bolls, etc,

as such; or, when used as a packing material, lint containing seed; cotton seed hulls; rice straw and rice hulls, including such products as packing material; leaves or plants used as packing material; or dried grasses used as packing material.

NOTE: Dried, cured or processed fruits and vegetables, such as cured figs, dates, dried peas and beans are unrestricted. Processed cotton lint, such as absorbent cotton, cotton batting or other forms of lint, free from seeds, is not prohibited as a packing material.

c. Articles bearing names or marks which copy or simulate registered and recorded trade-marks or recorded trade names, except that such articles are not prohibited from importation if the name or mark is completely removed before the articles enter the US.

d. Birds of paradise, aligrettes, osprey plumes and feathers, heads, wings, skins, etc. of wild birds, raw or manufactured. This prohibition does not apply to ostriches or domestic fowl of any kind.

e. Skins of fur seals or sea otters, taken in the open waters of the North Pacific Ocean, and garments made in whole or in part of such skins, unless the skins have been legally procured under the Act of February 1944.

f. The mongoose, the so-called "flying fox" or fruit bat, the English sparrow, the starling and all other birds injurious to agriculture or horticulture.

g. Live insects, including eggs, pupae, larvae and adults.

h. Eggs of wild birds.

i. Goods made by convict labor, forced labor or indentured labor under penal sanctions.

j. Lottery tickets and advertisements of any lottery.

k. Obscene and immoral articles, books, pictures, films or publications, and seditious or treasonable matter.

l. Articles or medicine for the prevention of conception or causing abortion.

m. Counterfeits of coins, securities or postage stamps and colored illustrations of postage stamps.

n. Gold, except to the extent permitted by the Provisional Gold Regulations issued under the Gold Reserve Act of 1934.

NOTE: Fabricated gold (gold manufactured for customary industrial, professional or artistic uses, not including gold coin), such as jewelry, may be imported into the US. Gold coin of recognized special value to collectors of rare and unusual coins may also be imported.

o. Hay and straw for packing, unless disinfected.

p. Tea in packages exceeding five pounds each and not conforming to fixed standards.
q. Arms and ammunition (when not specifically issued or when not war souvenirs or relics (not to exceed one firearm per individual covered by permit from owner's commanding officer)).
r. Liqueur candy.
s. Absinthe.
t. Matches, white phosphorous.
u. Domestic ruminants or swine, or chilled or frozen fresh meats derived from such animals from countries where either foot and mouth disease or rinder-pest has been determined to exist. (See Section 94.1, United States Department of Agriculture Bureau of Animal Industry Order 373).

5. The importation of certain other items into the US is restricted and requires special authorization by US government agencies concerned. Any of these items being taken to the US, if packed, will be packed in such a manner as to be readily accessible for customs inspection at a US port. Restricted items are as follows:

a. Category 1. Plants, including trees, shrubs and herbaceous plants, bulbs, roots, cuttings or other parts of plants and seeds, for or capable of propagation. (Authorization by Bureau of Entomology and Plant Quarantine, Department of Agriculture, required. Normally, inspectors for this Bureau are on duty at US ports and can assist in obtaining authorizations and make the required inspection).

b. Category 2.
(1) Domestic animals. (Inspection and authorization by the Bureau of Animal Industry, Department of Agriculture, required).

(2) Viruses, serums, toxine, and analogous products for treatment of animals. (Permit from Bureau of Animal Industry, Department of Agriculture, for the specific product required).

c. Category 3.
(1) Viruses, serums, toxins, antitoxins and analogous products for the treatment of men when such articles are brought in for sale, barter or exchange. (Inspection and specific authorization by the US Public Health Service required).

(2) All birds of the parrot family. (Authorization by US Public Health Service required. Not more than three in number permitted, must have been in possession of owner for two years prior to importation, and must be accompanied by owner).

(3) Canaries. (Authorization by US Public Health Service required).
d. Category 4. Wild animals or birds, except natural history specimens for museums or scientific collections and certain cage birds, such as those of the parrot family (see Par 5c (2), above). (Authorization by the Department of the Interior required, if not specifically exempted).

e. Category 5. Art objects, archives and other cultural material as defined in Treasury Department Regulations TD 11072, except importations from the United Kingdom, the British Dominions or British Colonies. Before such articles can be imported into the US a license for their import must be obtained from the Secretary of the Treasury. Applications for such license will be made on Form TFE-1 and Form FFC-168, which may be obtained from US collectors of customs at US ports or from Federal Reserve Banks.

f. Category 6. All troops departing this theater by water transportation will be instructed, prior to departure from unit station or casual depot, that intoxicating liquor will not be permitted to be carried aboard an Army vessel even if stowed in hold baggage. Inspecting officers will confiscate all such liquor found in the possession of troops at the regular customs baggage check.

PASSENGER LISTS

1. Passenger lists are required for embarkation. It is essential that they be accurately prepared and available immediately upon arrival at the port, in order to insure rapid and orderly embarkation and an accurate record of the personnel departing. They will be unclassified.

2. As near to the embarkation date as practical, passenger list stencils will be prepared for each packet precisely in the form illustrated in Appendix I-1.

3. Deletions from the passenger list stencils will not be made but after copies have been mimeographed, entries covering personnel transferred from the shipment will be redlined on all copies. Personnel assigned to the shipment after the preparation of the list will be added in red pencil on all copies.

4. 31 copies of the list and a recapitulation of the contents showing the code shipment number and separate totals for officers, nurses, enlisted men and women, and civilians, together with a recapitulation of the total number of enlisted personnel above the critical score, will be delivered to the port commander upon arrival in the port area.

(EXAMPLE)

PASSENGER LIST

Vessel _____ Sailed from _____ Staged at _____

Shipment Number		Statistical Code			
List Number	Name	Grade or Rank	ASN	Arm of Service	MOS
	(BODAREUX, FRED B.	(3) Capt	0-241109	Inf Co Comdr	
	(REYNOLDS, WILLIAM C.	(2) 1st Lt	0-1233096	Inf)	
	(WEIRCH, HENRY R.	(3) 1st Lt	0-1508732	Inf)	
1.	DOLAN, JOHN J.	(3) S/Sgt	25412219	Inf	245

10.	WEBER, THOMAS H.	(1) Pvt	39121539	Inf	245
11.	WOODS, EDWARD J.	(8) Pvt	38751123	Inf	245

INSTRUCTIONS FOR PREPARATION

1. Double spacing between names.
 2. Use 3" x 13½" paper.
 3. Use one side of paper.
 4. Place reception station number in parentheses immediately preceding rank or grade. (See Appendix A for numbers.)
 5. List officers in parentheses alphabetically by rank un-numbered.
 6. Enlisted personnel should be numbered consecutively and listed alphabetically by grade.
 7. Names should be written in capital letters, surname first.
 8. Indicate Negro personnel by symbol "N" after name.
- Units with US destination only.

PRE-EMBARKATION REPORT

1. Three days prior to embarkation of packets on any vessel, the port commander will report by UNCLASSIFIED PRIORITY radio (book message) to the Adjutant General, Washington 25, D.C. (Attention: Operations Branch) and to the commander of the US port at which debarkation is scheduled, the data indicated below. These reports will be transmitted in the tabulated form indicated in Par 3 below.

- a. Code designation (shipment number) and the strength of each packet.
- b. Total number of personnel in above packets destined for reception station and separation center.
- c. Strength and numbers of personnel reported in accordance with above will be broken down to show various categories of personnel, (Off, EM, female personnel).

2. The following symbols will be used to identify classes of personnel in these reports:

N - Negro personnel	Off - Officers
W - Female personnel	Civ - Civilians
EM - Enlisted men	NU - Negro unit
EW - Enlisted women	

NOTE: Absence of symbol for color will indicate personnel are white. Absence of symbol of sex will indicate male personnel. An explanatory legend will be placed at the bottom of each page to denote symbols used on that page.

3. The form shown in the following example will be used in forwarding these reports:

"IT IS EXPECTED THAT THE FOLLOWING WILL BE EMBARKED ON NAN
YOKE SEVEN TWO THREE:

<u>Packet</u>	<u>Officer</u>	<u>EM</u>	<u>Civ</u>	<u>Total</u>
RE 3320-26	4	246		250
E 2201-2	28 W	103 EW		131
USA PATIENTS			Total Patients	158
Class IA	1	3		
Class IB	2	3		
Class IC	2	3		
Class II	3 Incl 1 W	38 Incl 3 EW		
Class III	10	73		
Class IV	3	18		
US Navy	15	325		340
CIVILIANS				
ARC			10	
American Field Service			2	
Other Civilians (including 18 dependent Army wives and 12 children under 3 years old)			97	
USA 341 MHSP		2		19
USA 543 MHSP		5 Incl 2 N		37
<u>Total on Vessel</u>				935

4. A copy of the above report will be furnished this headquarters (Attn: OTCOT).

5. It will be noted that the above report includes all personnel to be embarked on any vessel. Separate reports for various categories of personnel embarked are not required.

PRE-EMBARKATION PHYSICAL INSPECTION

1. Within 24 hours of departure for the port for loading aboard ship, each member of packet will be given a physical inspection for communicable and infectious disease. Requirements for embarkation are set forth in AR 615-250.

2. Upon completion of the inspection of packet, a certificate in the form outlined in Par 6 below, will be accomplished, certifying the state of health of the unit in general, and indicating any circumstances which should be invited to the attention of the ship surgeon. In this respect, attention is invited to Par 5 below. A list of individuals requiring treatment aboard ship will be included in the certificate. Two copies of the certificate will be turned over to the packet commander for delivery to the ship surgeon.

3. Persons in the infectious stages of venereal disease will not be embarked. The 10-day restriction period required by Par 3, Cir 92, this headquarters, 18 Jun 1946, need not delay embarkation since it is considered that the restriction incident to presence on shipboard meets the requirement.

4. The following is a suggested form for the packet health certificates:

PRE-EMBARKATION HEALTH CERTIFICATE

DESIGNATION OF PACKET

For the information of the transport command and of quarantine officers at foreign ports, and for transmittal to responsible commanders en route at destination the following statements are herewith certified:

1. These infections and parasitic diseases to which the personnel concerned have been exposed, or which are known to be present among them (or the infectious or parasitic diseases prevalent in the areas from which the personnel are drawn) are as follows:

2. The exposure to or incidence of vermin among the personnel (or the incidence of vermin infection in the areas from which the personnel are drawn) is as follows:

Disinfection (was) (was not) performed. Date of disinfection, if performed.

3. The personnel concerned have been physically inspected _____ (Place) _____ (Date) and are free of acute communicable disease which, if introduced aboard the vessel, might reasonably be expected to result in a serious epidemic. They include no case of quarantinable disease (cholera, leprosy, smallpox, plague, epidemic typhus and yellow fever) except as follows:

4. All personnel concerned satisfy immunization requirements of AR 40-210 and other War Department and pertinent theater directives concerning special immunizations. Special cognizance is taken in this regard of the requirements of land areas to or through which personnel will be transported. Persons not properly immunized are the following:

Name	Character of exception	Reasons therefor	Evidence of necessity to travel and waiver of requirements
------	------------------------	------------------	--

(Continue on reverse side if necessary)

Date _____ For the Commanding Officer,

Place _____ Name of Officer, Grade, Position _____

(The sample above is a suggested form; its use is not mandatory, provided the information required is given.)

DISPOSITION OF RECORDS AND FINAL PERSONNEL REPORTS

1. Dual stencils and rosters for casual packets returned to the US receive the following treatment:

a. Five days prior to embarkation, packet commander will deliver to the commanding officer of the port of embarkation from which the packet is scheduled to sail, the No 1 stencil marked "Advance Copy", corrected up to the date of delivery, and a complete set of the movement order and personnel rosters. This stencil (unused) and movement orders with personnel rosters (produced from No 2 stencils) will be immediately dispatched via air courier by the port commander to the US port of embarkation. Stencils will be securely packaged, each envelope being marked with three red "X" marks, each one-inch high, and will bear the words, "Air Service Required". Responsibility for insuring compliance with these instructions by the packet commander is allocated to:

(1) The commanding officer of the assembly point for personnel processed through assembly points.

(2) The commanding officer of the port for personnel processed through port staging areas.

b. The No 2 stencils of the personnel roster for casual packets will be corrected at the time of embarkation to reflect personnel actually embarked and any other necessary changes. This can be accomplished by use of correction fluid and typing the correction on the stencil. Where operational necessity prevents the typing of additions on the No 2 stencil, such additions may be typed on a separate (single) stencil to accompany the No 2 stencil. When all corrections have been made, the statement "Corrected as of Embarkation" will be typed on the No 2 stencil, which can then be used to reproduce the number of corrected copies required. Each stencil will then be placed in a self-cleaning file folder, marked to identify the stencil which it contains by running the folder through the mimeograph machine before the stencil is removed.

2. Within 24 hours after embarkation of packets, a copy of the movement orders and the personnel roster produced from the No 2 stencils, corrected as of embarkation with a letter of transmittal for additional certified copies of WD AGO Forms 66-1, 66-2, and 66-3 (for officers who have joined the packet for whom no WD AGO Forms 66-1, 66-2, or 66-3, have previously been forwarded) will be forwarded by air courier or air mail, whichever will provide more rapid delivery, to The Adjutant General, Washington 25, D.C. (Attention: Officers' Branch (PO-A)). A copy of movement orders and personnel rosters, corrected as of embarkation, will be forwarded via air courier to the port of debarkation commander within 24 hours after embarkation.

3. The No 2 stencils, two copies of the personnel roster corrected as of embarkation and two copies of movement orders, will be given to the packet commander who will be instructed to retain them in his personal possession to be readily available when called for at the US port. The No 2 stencil will be corrected aboard ship to agree with the transport commander's certified list and to reflect such changes as may occur en route. Extreme care must be exercised in handling stencils while en route. Each stencil will be kept in a self-cleaning file folder. It is suggested that the stencil (in file folders) be carried in a large container to minimize the amount of folding required. The stencils will not be placed in hand or hold baggage.

4. Since the No 2 stencils will be corrected as of embarkation, it is contemplated that amendments will not be necessary; however, if circumstances necessitate changes in rosters after personnel have embarked, these changes will be prepared on a dual stencil, both copies of which will be forwarded by air courier or air mail to the commanding general of the US port at which debarkation is scheduled. A copy of each change, produced from the No 2 stencil, will be forwarded to The Adjutant General (Attention: Officers' Branch (PO-A)), Washington 25, D.C., accompanied by a transmittal letter and Form 6604 if officers have joined the packet and no Form 66-4 has previously been forwarded.

5. The port commander will insure that all prescribed personnel records are available for personnel of the packet embarked. Records of personnel not embarked will be withdrawn and will be disposed of in accordance with current instructions relative to the nature of the individual's absence (i.e. death, desertion, sick in hospital, etc.). Records of personnel absent without leave or in desertion at the time of the publication of the movement orders will be disposed of in accordance with the provisions of Cir 23, this headquarters, 21 Feb 1946, as amended. Reception station groups and separation center groups will be established on paper and, prior to debarkation in the US, personnel records will be broken down by separation center groups and reception station groups, and will be arranged in roster order, packaged and made ready for immediate delivery to the group leader of the appropriate reception station group and separation center group upon debarkation. Specific responsibility for this action will be assigned to the senior officer returning in packets aboard each vessel.

6. AAF packets will file two copies of Final Report of AAF Personnel (WD AAF Form 127), with two copies of passenger lists attached, with the port air officer. The port air officer will audit reports against corrected passenger lists, make necessary additions or deletions to the passenger lists attached and corresponding corrections to the summary totals, and enter the date of departure. The original, with one copy of the passenger list, will be dispatched by air courier within 24 hours of sailing, addressed to Commanding General, Army Air Forces, (Attention: Statistical Control Division), Washington 25, DC. The other copy with passenger list attached will be forwarded by courier to Headquarters, US Air Forces in Europe, (Attention: Statistical Control Office). Packet will retain one copy for files and three copies for use at the port of debarkation.

EMBARKATION AND SAILING REPORT, AND PASSENGER-LIST

1. Within 24 hours after sailing, the port commander will report, by UNCLASSIFIED PRIORITY radio (book message) to The Adjutant General, Washington 25, D.C. (Attention: Operations Branch) and to the US port at which debarkation is scheduled, the actual personnel embarked on each vessel. Normally this report will include only the strength changes in the pre-embarkation report prescribed in Appendix J, and a statement as to baggage, special equipment and health of passengers aboard. Baggage will be shown by packet and storage location in the vessel. In addition, the US port serial number currently assigned to the vessel, date of departure and expected date and time of arrival will be included.

2. The following is a sample radio dispatched in accordance with Par 1, above:

"NAN YOKE SEVEN TWO THREE SAILED FIFTEENTH APRIL FOR YOUR PORT ESTIMATED ARRIVAL TWENTY FIFTH APRIL ZERO THREE ZERO ZONE PD CARRIES PERSONNEL AS PREVIOUSLY INDICATED IN PRE EMBARKATION REPORT RADIO FOUR FIVE SIX SEVEN EIGHT DATED ONE ZERO APRIL ONE NINE FOUR FIVE EXCEPT THE FOLLOWING CORRECTIONS

<u>Group</u>	<u>Officer</u>	<u>EM</u>	<u>Total</u>
E1011-2	Change 6 to read 5		Change to 250 to read 249
E1011-8	Change 2 to read 1		Change 100 to read 99
REL442-26		Change 103 EW to read 110 EW	Change 131 to read 138
			Change the total on Vessel of 1,020 to read 1,025

#Baggage as follows:

E1011-2	Hold #2	275 pcs
E1011-8	Hold #3	180 pcs
REL442-26	Hold #2	139 pcs
Class I	Hold #2	63 pcs
Patients		
Other Patients	Hold #2	125 pcs
US Navy	Hold #3	340 Sea Bags
ARC	Hold #4	10 pcs
American Field Service	Hold #4	2 pcs
Other Civilians	Hold #4	125 pcs
MHSP	None	
Special Navy Equipment	Hold #3	three long tons
All passengers free from contagious disease and vermin."		

3. A copy of the above report will be forwarded to this headquarters (Attn: OTCOT).

4. Where the number of changes in the strength data reported on the pre-embarkation report are numerous, the personnel actually embarked may be completely retabulated in the embarkation report in the form indicated in Appendix J.

5. Two copies of passenger lists will be checked and corrected at the gangplank as personnel embark. One corrected copy will be reserved for the transport commander and the other utilized by the port commander for the purpose of correcting additional copies to be distributed with the remaining uncorrected copies as follows:

Port of Embarkation	1 (corrected copy)
AG MRS Servicing Port of Embarkation	1 (corrected copy)
Port of Embarkation Air Officer	1 (corrected copy) (AAF units only)
Transport Commander	
Navy	16 (on Naval transports)

Embarkation and Sailing Report, and Passenger-List (Contd)

Army	16 (including two corrected copies)
COT, Washington (Attn: Mov Div)	2 (1 corrected copy)
AGO, Washington (Attn: EM Branch)	1 (corrected copy)
Port of Discharge	1 (corrected copy)
US Navy, Overseas Transportation, Paris	2 (1 corrected copy)
WSA, Paris	1 (corrected copy when Merchant Seamen embark)
C/Surgeon, US Forces, European Theater	1 (corrected copy when Patients embark)
TPM, POW Div, US Forces, European Theater	1 (corrected copy when POW embark)
MCYT, London	1 (corrected copy when British vessel is used)

f. Each corrected copy of the passenger list will be broken down by sections (i.e., and index tab on a blank sheet between each organization or category of personnel) and contain index and cover sheets as illustrated in Appendix M-1. All other copies (uncorrected) will contain only the cover sheets.

PRE-DEBARKATION HEALTH CERTIFICATE*

Designation of Unit or Group

Designation of Vessel (US Port Serial Number)

This is to certify that:

1. The above designated personnel have been physically inspected at _____ (hour) _____ (Date) :
and have been found free from acute communicable diseases, quarantinable diseases (cholera, leprosy, smallpox, plague, epidemic typhus and yellow fever) and vermin.

2. No quarantinable disease has been aboard this vessel during the present voyage.

3. This vessel, has during the present voyage, entered no port in which there was present any quarantinable disease, or which was not considered clean by the US Public Health Service; or if such entry has been made, the action of the vessel and personnel aboard while in port was such as to preclude the danger of acquiring quarantinable disease.

4. The sanitary condition of the vessel is satisfactory, its rodent colony is not excessive, and it possesses a valid deratization exemption certificate.

5. Exceptions to the above are as follows: _____
(Continue on back if necessary)

6. Recommendations: _____

Commissioned Medical Officer	Grade	Title	Date
------------------------------	-------	-------	------

Master of Vessel

"To be completed by a commissioned medical officer. This certificate, together with the pre-embarkation Health Certificate, comprise the evidence upon which quarantine procedure will be determined. Copies of both will be held available for inspection by the Quarantine Office of the US Public Health Service, or in the event of exemption from inspection, will be forwarded to that officer within 24 hours. Copies will also be given US port commander.

(The sample above is a suggested form; its use is not mandatory, provided the information required is given)

H
