14. ABSTRACT This document describes the FY 2024 Update to the DCPH-A's Taxonomy of Injuries and non-injury categorizations used in DCPH-A public health reports. The Taxonomy of Injuries provides categories for injury medical encounters based on causal energy sources (e.g., mechanical, environmental, poisonings, etc.). The injury definition consists of over 13,000 specific medical diagnostic codes from the <i>International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM)</i> . The other non-injury ICD-CM-10 medical conditions are also categorized for medical utilization reporting. The original report can be found at https://apps.dtic.mil/sti/citations/AD1039481 , and the most recent previous update is at https://apps.dtic.mil/sti/citations/AD1177880 . Each year, the Centers for Disease Control and Prevention (CDC) updates the ICD-10-CM codes. For transparency, the DCPH-A annually documents the associated changes to the DCPH-A diagnosis classification categories and any associated methodology updates. The FY24 CDC ICD-10-CM update included a total of 442 code changes: 395 new codes, 22 revised codes, and 25 deactivated codes. There were four new injury diagnosis codes; no injury codes were revised or deactivated. The updated codes are presented in attached Tables. The CDC's FY24 code updates are not substantial and align with prior DCPH-A code categories; all codes aligned with or replaced prior codes established in previous reports. The complete updated DCPH-A diagnosis code categorizations and Taxonomy of Injuries spreadsheets are available upon request from: dha.apg.Pub-Health-A.mbx.injuryprevention@health.mil

INFORMATION PAPER

DCPH-AMIP-IPB
27 November 2023

SUBJECT: Fiscal year (FY) 2024 Update to the Defense Centers for Public Health–Aberdeen (DCPH-A) Taxonomy of Injuries

1. Purpose: To document the FY24 Update to the DCPH-A's Taxonomy of Injuries and non-injury categorizations used in DCPH-A public health reports.

2. Facts:

a. Each year the Centers for Disease Control and Prevention (CDC) updates its International Classification of Diseases (ICD) codes for medical encounter documentation. DCPH-A annually reviews the CDC's fiscal year (FY) updates and documents resulting changes to the DCPH-A Taxonomy of Injuries, medical condition classification categories, and associated methodology.

b. In 2018, the DCPH-A (formerly Army Public Health Center) originally documented the Taxonomy of Injuries in Public Health Information Paper (PHIP) No. 12-01-0717: *A Taxonomy of Injuries for Public Health Monitoring and Reporting* (<https://apps.dtic.mil/docs/citations/AD1039481>). The last update was for FY23 (<https://apps.dtic.mil/sti/citations/AD1177880>). Other previous updates are also available:

- FY2019 Update: <https://apps.dtic.mil/sti/citations/AD1064894>
- FY2020 Update: <https://apps.dtic.mil/sti/citations/AD1084570>
- FY2021 Update: <https://apps.dtic.mil/sti/citations/AD1112319>
- FY2022 Update: <https://apps.dtic.mil/sti/citations/AD1150155>

c. The DCPH-A Taxonomy of Injuries provides categories for injury medical encounters based on causal energy sources (e.g., mechanical, environmental, poisonings, etc.). The injury definition consists of over 13,000 specific medical diagnostic codes from the *International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM)*. The non-injury ICD-10-CM medical conditions are also categorized for medical utilization reporting, such as in the *2022 Health of the Force* report: <https://phc.amedd.army.mil/Periodical%20Library/2022-hof-report-web.pdf#page=15>.

d. The FY24 CDC ICD-10-CM update included a total of 442 code changes: 395 new codes, 22 revised codes, and 25 deactivated codes. There were four new injury diagnosis codes. The CDC's FY24 updates were not substantial; all codes aligned with or replaced prior codes in previous Taxonomy of Injuries updates.

e. The FY24 updated codes are presented in Tables 1 – 3 of the Enclosure.

f. The complete updated DCPH-A diagnosis code categorizations and Taxonomy of Injuries spreadsheets are available from dha.apg.Pub-Health-A.mbx.injuryprevention@health.mil

Modification	Energy Category	ICD-10-CM Diagnosis Codes added to Taxonomy	Justification
Add	OTHER- Medical Complications	E8940 Asymptomatic postprocedural ovarian failure	Consistent with categorization for other post-procedural bodily damage
Remove		T7431XA Adult psychological abuse, suspected, initial encounter T7432XA Child psychological abuse, suspected, initial encounter T7631XA Adult psychological abuse, suspected, initial encounter T7632XA Child psychological abuse, suspected, initial encounter	While reviewing new similar codes for financial abuse, these codes were re-categorized as "Mental, Behavioral" for medical utilization reporting and removed from the Injury Taxonomy. These codes do not explicitly refer to physical bodily damage and therefore do not meet the definition of injury.
