Introduction

The description and analysis of the mobility of training program graduates is important for the evaluation of the effects of these programs. This bibliography lists citations from economic, sociological, and statistical literature which have application to this evaluation problem. Much of this literature contains applications of Markov and other stochastic models and is, in most cases, technically sophisticated.

- Bartholomew, D. J. Note on the measurement and prediction of labor turnover. Journal of the Royal Statistical Society (Series A), 1959, 122, 232-239.
- Bartholomew, D. J. The statistical approach to manpower planning. Statistician, 1971, 20, 3-26.
- Bartholomew, D. J. The effects of changes in quits and hires on the length of service composition of employed workers: A comment on Stoikov's paper. British Journal of Industrial Relations, 1972, 10, 130-133.
- Bartholomew, D. J. Stochastic models for social processes. (2nd Ed.) New York: Wiley, 1973.
- Bartholomew, D. J. & Morris, B. R. (Eds.) Aspects of manpower planning. London: English Universities Press, 1971.
- Bartholomew, D. J. & Smith, A. R. (Eds.) Manpower and management science. Lexington, Massachusetts: D. C. Heath, 1971.
- Belinsky, W. & Reisman, A. Some manpower planning models based on levels of educational attainment. Management Science, 1972, 18, 691-705.
- Belinsky, A. W. & Reisman, A. A taxonomy of manpower-educational planning models. Socio-Economic Planning Sciences, 1973, 7, 13-18.
- Blumen, I., Kogan, M., & McCarthy, P. J. The industrial mobility of labor as a probability process. Ithaca, New York: Cornell University Press, 1955.
- Boudon, R. Mathematical structures of social mobility. New York: America Elsevier, 1973.

- Bowey, A. M. Labour stability curves and labour stability. British Journal of Industrial Relations, 1969, 7, 69-84.
- Brissenden, P. F. & Frankel, E. Labor turnover in industry: A statistical analysis. New York: MacMillan, 1922.
- Bryant, D. T. A survey of the development of manpower policies. British Journal of Industrial Relations, 1965, 3, 279-290.
