FOREWORD

This bibliography covers various world battles dating from 490 B. C. to 1975 as written about in twelve periodicals. Arrangement is alphabetical followed by the generic association with which a given battle is historically recorded. Where used, the term, "War," refers to mini or pocket actions on a localized scale. As in the case of "666 World Battles Revisited," issued in January, 1978, and available for \$4.50 in paper copy format as ADA046121 from the National Technical Information Service, 5285 Port Royal Rd., Springfield, VA 22161, this number has only one article for any given action. Too, this listing comprises a second series to that bibliography. Materials listed have been selected from periodical holdings of the Morris Swett Library. Attention is called to the fact that assistance in the preparation of all special bibliographies since October, 1974 has been performed by fellow staffers; Mrs. Foster or Marburger.

Inclusion of an item or omission does not imply USAFAS indorsement or sanction of the compiler's point-of-view nor does it guarantee accuracy of content. Comment and criticism concerning this list is solicited.
