PREFACE

This list was compiled in the Special Projects Branch, Technical Information Center, U. S. Army Engineer Waterways Experiment Station (WES), as a convenient reference tool for Technical Information Center personnel and Library users.

The list was compiled by Alfrieda S. Clark, Paul A. Taccarino, Carol E. McMillin, and Rose Mary T. Peck. Copy preparation support was provided by Kathleen B. Barnes and Sheila E. Franco.

Mr. Alan G. Skelton was Chief of the Technical Information Center during the compilation and publication of this list. COL John L. Cannon, CE, was Commander and Director of WES, and Mr. Fred R. Brown was Technical Director.

EXPLANATORY NOTES

The bibliographic information comprising this periodicals holdings list is presented alphabetically in three columns. The first column consists of titles and frequencies of issue; the second column gives holdings information; and the third column lists the library call numbers.

The title entered is the complete title, e.g.,

> AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS. BULLETIN.;
> not AAPG BULLETIN.

In cases in which a journal is often referred to by an abbreviation, a "see" reference to the full title is used, e.g.,

> AAPG BULLETIN. See AMERICAN ASSOCIATION OF PETROLEUM
> GEOLOGISTS. BULLETIN.

When a journal has undergone a title change it is noted in the entry, e.g.,

> AMERICAN ENGINEER. Currently called PROFESSIONAL ENGINEER.
> PROFESSIONAL ENGINEER. Formerly called AMERICAN ENGINEER. (M)

Frequency of issue is given in parentheses at the end of each title as follows: A = annually; B = bimonthly; BA = biennally; BW = biweekly; I = irregularly; M = monthly; Q = quarterly; S = semimonthly; SA = semi-annually; and W = weekly, e.g.,

> ACCOUSTICAL SOCIETY OF AMERICA. JOURNAL. (M)

WES periodicals holdings are indicated by volume numbers and dates, e.g.,

> NEW ZEALAND ENGINEERING. (M) v 1+ 1946+

For a title that is currently being taken and has inclusive holdings, only the first volume taken and the date (year only) of the publication are given, e.g.,

OCEANS. (B) v 1+ 1969+

For a title that is no longer published or no longer taken, the beginning and ending volumes, as well as the beginning and ending dates of publication are included, e.g.,

PEDOLOGIE. (3/yr) v 1-23, 1951-1973

Additional holdings information is expressed by the following symbols:

v A v indicates volume number.

\- A dash between volumes indicates inclusive or complete holdings.

\+ A plus sign following volumes indicates continuing receipt of the periodical.

, A comma between issue numbers within volumes indicates missing issues. A comma also separates dates from volumes.

; A semicolon separates volumes and indicates incomplete volumes, lacking volumes, or change in form (hard copy or microform).

( ) Parentheses indicate microform holdings, on microcard (MC), microfilm (MF), microfilm cartridge (MFC), or microfiche (MFI).

Example:

(v 1-61, 1943-1973 MF); v 62, 1974; v 64, 1975;
v 65 nos. 1-12,14-26, 1975; v 66+ 1976+

The example above indicates that the library has volumes 1-61 on microfilm, a complete volume 62, volume 63 is lacking, volume 64 is complete, volume 65 is incomplete, and contains nos. 1-12 and 14-26, volumes 66 forward are complete and the title is currently being received.

The call number of periodical is a unique number used to represent the subject area of a journal. The Library of Congress system of classification for call numbers is used in the WES Library. The call number for each title is included as part of the entry, e.g.,

CEMENT AND CONCRETE RESEARCH. (B) v 1+ 1971+ TA434.C385
