PREFACE

The purpose of this AGARD publication is to assist members of the Aeronautical and Space Community by :

- Informing them about many International Scientific and Technical Meetings scheduled
- Avoiding the need for them to consult several sources in order to find out what meetings have been planned, their dates and locations.

It is intended that the AGARD Calendar be published every six months, in June and December, and each issue will cover the forthcoming 18 month period.

Details concerning the meetings listed in this particular issue of the Calendar have been obtained from National and International Organizations which sponsor Aeronautical and Space Meeting and from other sources (journals, periodicals, etc.).

Although care has been taken to ensure that information appearing in the booklet is correct, AGARD cannot be held responsible for an inaccurate entry or omission.

AGARD will be pleased to receive any information about future aeronautical and aerospace meetings for inclusion in the next issue, at least two months in advance. Also, comments regarding the usefulness and suggestions for improvement of this publication would be welcome. Contributions should be sent to :

Director, Plans and Programmes
AGARD, 7 rue Ancelle
92200 Neuilly sur Seine, France

or, for US residents, to :

APO New York 09777

(Remember to send full information, suitable for inclusion under the various column headings which appear in Part 2 of the calendar).

INSTRUCTIONS FOR USE

Three kinds of events are covered by this calendar :

- Technical meetings, conferences, and symposia, held in all parts of the world, in the field of *aerospace research and development* as well as in other directly-related scientific fields, such as energy, geophysics, and acoustics. These meetings are listed in chronological order under ten topics, (see Part 1).
- Exhibitions and technical ^{displays; and} displays covering the same fields of interest (Topic 11).
- Educational courses, short or long, given by certain specialized institutions, (Topic 12).

For each meeting, exhibition, or course, the following information is given :

Reference number
Date
Location (see Country Code in Part 4)
Title and sponsor
Keywords indicating main topics covered (Part 3)
Contact code for inquiries (see List of organizations in Part 5)

* following the code letters indicates that attendance at the meeting is strictly by invitation.

x in the left-band margin indicates a new entry.

A subject index in the form of keywords is given in Part 3, each keyword being followed by the reference numbers of all the meetings relevant to that particular keyword. (For example : Aeroelasticity 06-23 means that the 23rd meeting listed under Topic 06 «Thermodynamics, combustion, propulsion and energetics» deals with Aeroelasticity).

NOTE : AGARD *cannot undertake to handle enquiries* from readers concerning the various meetings. These should always be addressed to the contact listed in the last column of each entry.
