Summary

This document is a selective bibliography of literature in socioeconomic analysis of regulated and health industries. The material was compiled over a period of two years and represents extensive literature search.

The first part of the document is alphabetical by author in a general listing. The middle part is categorized by each part of the bibiographic citation, i.e., facts of publication for journals lists all the citations by journal title, volume, date, and pages. This area is of particular utility in the library in reviewing the actual documents. The last part of the document is the classified by topic listing. In this section, the cross-classification codes are listed for ease of reference to other areas and titles.
