20. ABSTRACT (Continue on reverse side if necessary and identify by block number) This bibliography concerns the three north eastern provinces of China and warfare which has taken place in the region during this century. Selection of materials is from book and periodical holdings of the Morris Swett Library, USAFAS.		

FOREWORD

This bibliography concerns Manchuria, the all important industrial region of northeast China. The area has been important to Chinese history at least since the eleventh century, B.C., and to the world since this twentieth century. Much of the Russo-Japanese War, 1904-05, was fought there; the Japanese practiced colonization, 1932-45; the "China Incident" of 7 Jul 37 probably precipitated WWII; the Soviet invasion in 1945 was the last large-scale combat of the war; and Manchuria was the marshalling yard for Chinese involvement in the Korean War, 1950-1953. This number presents materials which cover these historically compelling events. Selection has been made from materials owned by the Morris Swett Library. Inclusion of an item, or omission, does not imply USAFAS indorsement or sanction of the compiler's point-of-view.

LESTER L. MILLER
Supervisory Librarian
