**SUMMER 1980 DIRECTORY OF NAVY
ELECTRO-OPTICAL PROFESSIONALS
5th EDITION**

INTRODUCTION

This document is a revised edition of the Navy-Wide Directory of Electro-Optical Professionals compiled under the auspices of the Navy Material Command (NAVMAT-07/EOTPO). The Navy Electro-Optical Technology Program Office (EOTPO) is chartered by the Deputy Chief of Naval Material/Chief of Naval Development (DCNM(T)/CND) to serve as scientific and technical advisor to the CNM on all Navy electro-optical technology. EOTPO has prepared this revised directory to facilitate and encourage coordination among key management and research professional personnel in the rapidly expanding technology of electro-optics.

The original edition of this directory was published in July 1974 in two volumes. Volume I listed Navy E-O professionals, and Volume II provided a preliminary listing of non-Navy professionals. The current revision is an update of Volume I. It lists Navy E-O professionals grouped by Navy Command or Facility. The EOTPO has made use of its representatives at Naval Commands and Laboratories in an effort to make this directory complete and accurate.

Reassignments, reorganizations, and retirements will degrade accuracy of the directory. An errata sheet has been included so that recipients may note any changes, additions, or deletions and forward them to the EOTPO.
