5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Self-contained breathing apparatus, goggles or face shield, rubber gloves 5.2 Symptoms Following Exposure: Inhalation causes respiratory tract irritation, headache, dizziness, nausea, and diarrhea. Ingestion causes irritation of mouth and stomach. Contact with liquid irritates eyes and causes mild irritation of skin. 5.3 Treatment for Exposure: INHALATION: In case of pulmonary symptoms, enforce rest and give oxygen. Get medical attention at once. INGESTION: Give plenty of water and induce vomiting. SKIN: Flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 25 ppm 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 2 oral rat LD ₅₀ = 7,000 mg/kg 5.7 Late Toxicity: Causes liver cancer in rats 5.8 vapor (Gas) Irritant Characteristics: Vapors cause a slight stinging of the eyes or respiratory system. Present in high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause stinging and reddening of skin. 5.10 Odor Threshold: 100 ppm	

6. FIRE HAZARDS 6.1 Flash Point: 100°F (38°C) 82°F (28°C) 6.2 Flammable Limits in Air: 2.6% (LFL) 6.3 Fire Extinguishing Agents: Foam dries chemical carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Alcohol. Foam water may be ineffective 6.5 Special Hazards of Combustion Products: Toxic oxides of nitrogen may form in fire 6.6 Behavior in Fire: 6.7 Ignition Temperature: 692°F 6.8 Electrical Hazard: Data not available 6.9 Burning Rate: Data not available	8. NTC

NITROSYL CHLORIDE

Common Synonyms	
Liquefied compressed gas Orange red Choking odor	
Liquid sinks and reacts with water. Poisonous visible vapor cloud is produced.	
Fire Not flammable POISONOUS GASES ARE PRODUCED WHEN HEATED	
Exposure VAPOR POISONOUS IF INHALED OR IF SKIN IS EXPOSED Irritating to eyes LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED Irritating to eyes	
Water Pollution HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes	
1. RESPONSE TO DISCHARGE (See Response Methods Handbook CG 446.4) Issue warning: poison Restrict access Disperse and flush	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Nitrosyl chloride 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: NOCl 3.4 IMCO-United Nations Numerical Designation: 20 1049	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquefied gas 4.2 Color: Yellow to red 4.3 Odor: Irritating, choking
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Self-contained breathing apparatus approved mask may be used for short exposures only; rubberized clothing, gloves, shoes, chemical goggles. 5.2 Symptoms Following Exposure: Gas is highly toxic. Inhalation causes severe irritation of respiratory tract and damage to mucous membranes. Delayed effects, which include severe pulmonary edema, may not be apparent for several hours. 5.3 Treatment for Exposure: INHALATION: remove victim to fresh air; call a doctor; enforce complete rest until doctor arrives; on gas, at least 24 hours; delayed effects. SKIN OR EYES: Flush with water for at least 15 min; consult physician. 5.4 Toxicity by Inhalation (Threshold Limit Value): 1 ppm (recommended) 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: None 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause severe irritation of eye and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations. 5.9 Liquid or Solid Irritant Characteristics: Severe burns to eyes and skin. 5.10 Odor Threshold: Data not available	

6. FIRE HAZARDS 6.1 Flash Point: Not flammable 6.2 Flammable Limits in Air: Not flammable 6.3 Fire Extinguishing Agents: Not pertinent 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: Very toxic gases are generated when heated 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: Not flammable 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not flammable	
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Dissolves and reacts to form acid solution and to various oxides of nitrogen 7.2 Reactivity with Common Materials: Corrosive to most metals but reaction is not hazardous 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Flush with water. Residual acid may be neutralized with weak alkali 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	
8. AIR POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None

REVISED 1978

NTO

NITROUS OXIDE

Common Synonyms Laughing gas Dinitrogen monoxide		Liquefied compressed gas. Colorless. Odorless or mild sweet odor. Sinks and boils in water. Visible vapor cloud is produced.
Fire		Not flammable but will intensify fires.
Exposure		VAPOR If inhaled will cause dizziness, difficult breathing or loss of consciousness. LIQUID Will cause frostbite.
Water Pollution		Not harmful to aquatic life.
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-1) Restrict access.		2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Dinitrogen monoxide, laughing gas. 3.2 Coast Guard Compatibility Classification: Not applicable. 3.3 Chemical Formula: N_2O . 3.4 IMCO/United Nations Numerical Designation: 2.1070.		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquefied compressed gas. 4.2 Color: Colorless. 4.3 Odor: None, slightly sweetish.
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Self-contained breathing apparatus for high vapor concentrations. 5.2 Symptoms Following Exposure: Inhalation causes intense analgesia; concentrations of over 40-60% cause loss of consciousness preceded by hysteria. Contact of liquid with eyes or skin causes frostbite burn. 5.3 Treatment for Exposure: INHALATION: remove to fresh air. EYES: get medical attention for frostbite burn. SKIN: treat frostbite burn; soak in lukewarm water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limits: 50,000 ppm for 10 min. 5.6 Toxicity by Ingestion: Grade 0 LD ₅₀ > 1 g/kg. 5.7 Late Toxicity: Causes birth defects in rats; can cause lethal effects in chick eggs. 5.8 Vapor (Gas) Irritant Characteristics: Vapors are nonirritating to eyes and throat. 5.9 Liquid or Solid Irritant Characteristics: No appreciable hazard; practically harmless to the skin. 5.10 Odor Threshold: Data not available.		

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent
(nonflammable compressed gas)

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Will support combustion and may increase intensity of fire
(containers may explode when heated)

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** None

8.2 **Waterlow Toxicity:** None

8.3 **Biological Oxygen Demand (BOD):** None

8.4 **Food Chain Concentration Potential:** None

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:**
Supports combustion but does not cause spontaneous ignition

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibits of Polymerization:** Not pertinent

9 SELECTED MANUFACTURERS

1. Matheson Gas Products
P.O. Box 55
East Rutherford, N.J. 07073

2. Arco Incorporated
Ohio Medical Products Division
9050 Arco Drive
Madison, Wis. 53701

3. Air Products and Chemicals, Inc.
Specialty Gas Department
P.O. Box 518
Allentown, Pa. 18105

10 SHIPPING INFORMATION

10.1 **Grades or Purity:** 99.0+

10.2 **Storage Temperature:** Ambient

10.3 **Inert Atmosphere:** No requirement

10.4 **Venting:** Safety relief

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 446-3)
N.C.I.

12 HAZARD CLASSIFICATIONS

NOTES

NAN

NONANE

Common Synonyms n-Nonane		Liquid Floats on water	Colorless Gasoline-like odor
Fire	Combustible		
Exposure	LIQUID Irritating to skin and eyes. If swallowed will cause nausea and vomiting		
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446.4.) Mech = at environment Should be removed Chemical and physical treatment		2. LABELS No label required by Code of Federal Regulations	
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: n-Nonane 3.2 Coast Guard Compatibility Classification: Paraffin 3.3 Chemical Formula: C ₉ H ₂₀ 3.4 IMCO/United Nations Numerical Designation: 1.1 (1929)		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Like gasoline	
5. HEALTH HAZARDS			
5.1 Personal Protective Equipment: Self-contained breathing apparatus for high vapor concentrations; goggles or face shield; rubber gloves			
5.2 Symptoms Following Exposure: Inhalation of concentrated vapor causes depression, irritation of respiratory tract, and pulmonary edema. Liquid can irritate eyes and (on prolonged contact) skin. Ingestion causes irritation of mouth and stomach. Aspiration causes severe lung irritation, rapidly developing pulmonary edema, and central nervous system excitement followed by depression			
5.3 Treatment for Exposure: INHALATION: remove victim from exposure; give artificial respiration if needed. EYES: irrigate with large amounts of water for 15 min. SKIN: flush with water; wash with soap and water. INGESTION: do NOT induce vomiting; call physician. ASPIRATION: encourage breathing; give oxygen; get medical attention			
5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available			
5.5 Short Term Inhalation (L ₅₀): Data not available			
5.6 Toxicity by Ingestion (Grade 0 LD ₅₀): 1.5 g/kg			
5.7 Late Toxicity: Data not available			
5.8 Vapor (Gas) Irritant Characteristics: Vapors are non-irritating to eyes and throat			
5.9 Liquid or Solid Irritant Characteristics: No appreciable hazard. Practically harmless to the skin			
5.10 Odor Threshold: Data not available

NON

NONENE

Common Synonyms Propylene Trimer Nonene (see label)	Liquid Colorless Gasoline-like odor Floats on water. Flammable; irritating vapor is produced.
Fire	FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.
Exposure	VAPOR Irritating to eyes, nose and throat. If inhaled, will cause dizziness or loss of consciousness. LIQUID Irritating to skin and eyes.
Water Pollution	Effect of low concentrations on aquatic life is unknown. Floating to shoreline. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446.4) Mechanical containment. Should be removed. Chemical and physical treatment.	2. LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Nonene-trimer; linear propylene trimer; tripropylene. 3.2 Coast Guard Compatibility Classification: Other. 3.3 Chemical Formula: C ₉ H ₁₈ . 3.4 IMCO United Nations Numerical Designation: Not listed.	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless. 4.3 Odor: Characteristic, like gasoline.
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Respiratory; goggles; vapor cartridge or air supplied mask; face splash shield. 5.2 Symptoms Following Exposure: High vapor concentrations irritate eyes and respiratory tract and act as an anesthetic. 5.3 Treatment for Exposure: INHALATION: Remove patient to fresh air; breathing steps; apply artificial respiration and prompt medical attention. INGESTION: DO NOT induce vomiting because of aspiration hazard. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Data not available. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause a slight stinging of eyes; no respiratory system irritation at high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on skin and allowed to remain may cause smarting and reddening of the skin. 5.10 Odor Threshold: Data not available.

OAN

OCTANE

Common Synonyms n-Octane		Liquid	Colorless	Gasoline like odor
		Floats on water. Flammable; irritating vapor is produced.		
Fire		FLAMMABLE Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.		
Exposure		VAPOR Irritating to eyes, nose and throat. If inhaled will cause headache, dizziness, difficult breathing, or loss of consciousness. LIQUID Irritating to skin and eyes. If swallowed will cause nausea and vomiting.		
Water Pollution		Effect of low concentrations on aquatic life is unknown. Floating to shoreline. May be dangerous if it enters water intakes.		
1 RESPONSE TO DISCHARGE See Response Manual Handbook (CG 446-4). Issue warning: high flammability. Restrict access. Mechanically contained. Should be removed. Chemical and physical treatment.		2 LABEL 		
3 CHEMICAL DESIGNATIONS 1. Synonyms: n-Octane. 2. Coast Guard Compatibility Classification: Flammable. 3. Chemical Formula: C ₈ H ₁₈ . 4. IMCO/United Nations Numerical Designation: 12.0202.		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless. 4.3 Odor: Gasoline.		
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Self-contained breathing apparatus with high capacity cylinders; protective clothing; gloves. 5.2 Symptoms Following Exposure: Irritation; eye discomfort; cough; sore throat; respiratory distress; and pulmonary edema. Liquid can irritate the skin and cause prolonged contact dermatitis and skin ulceration. Ingestion causes nausea and vomiting. Aspiration causes severe and fatal respiratory distress and pulmonary edema. 5.3 Treatment for Exposure: INHALATION: Remove victim to fresh air; apply artificial respiration if breathing has stopped; physician needed. EYES: Flush with lots of water; flush with SKIN: Flush with lots of water; wash with soap and water. INGESTION: Do NOT induce vomiting; call poison center; ASPIRATION: physician called; give oxygen and medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): 4 ppm. 5.5 Short-Term Inhalation Limits: 40 ppm (10 min). 5.6 Toxicity by Ingestion: Data not available. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: 4 ppm.				

6 FIRE HAZARDS 6.1 Flash Point: 11.1°C 6.2 Flammable Limits in Air: 1.1% to 7.6% 6.3 Fire Extinguishing Agents: Dry chemicals; foam; carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective 6.5 Special Hazards of Combustion Products: None listed 6.6 Behavior in Fire: Vapor is heavier than air and may travel along roads, piled dikes, service, right-of-way and burn back 6.7 Ignition Temperature: 423°C 6.8 Electrical Hazard: None known 6.9 Burning Rate: None listed	8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None

OTE

1-OCTENE

Common Synonyms Caprylene alpha-Octylene	Liquid Colorless Gasoline-like odor Floats on water. Flammable, harmful vapor is produced
	FLAMMABLE Flashback along vapor trail may occur Vapor may explode if ignited in an enclosed area
Exposure	VAPOR If inhaled, will cause dizziness May be dangerous if it enters water intakes LIQUID Irritating to skin and eyes If swallowed, will cause nausea or vomiting Do not induce vomiting
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes Not pertinent to waste disposal
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning - high flammability Evacuate area Disperse and flush	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Caprylene alpha-Octylene 3.2 Coast Guard Compatibility Classification: Olefin 3.3 Chemical Formula: C_8H_{16} 3.4 IMCO/United Nations Numerical Designation: Not listed	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Like gasoline
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Organic vapor canister, goggles or face shield 5.2 Symptoms Following Exposure: Generally low toxicity. Mildly anesthetic at high vapor concentrations. May irritate eyes. 5.3 Treatment for Exposure: INHALATION: remove from exposure, support respiration. INGESTION: do NOT induce vomiting. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause a slight smarting of the eyes or respiratory system if present at high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin. 5.10 Odor Threshold: Data not available	

6. FIRE HAZARDS 6.1 Flash Point: 70°F (21°C) 6.2 Flammable Limits in Air: 0.9 - 11.1% 6.3 Fire Extinguishing Agents: Dry chemical foam or carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: 493°F 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: 6.5 mm/min	8. OET

OCTYL EPOXY TALLATE

Common Synonyms Epoxydized tall oil, octyl ester		Liquid	Pale yellow	Mild odor
		Floats on water		
Avoid contact with liquid. Keep in glass. No discharge if possible. Isolate and remove from area if spilled. Notify local authorities if spill is large.				
Fire	Combustible Flammable when mixed with air. Will burn with a yellow flame. Can explode if mixed with water.			
Exposure	CALL FOR MEDICAL AID LIQUID Irritating to skin and eyes. Harmful if swallowed. Respiratory irritation if inhaled. If in eyes, flush with water for 15 minutes. If on skin, wash with soap and water. If swallowed, do not induce vomiting. If swallowed, call a physician.			
Water Pollution	Effect of low concentrations on aquatic life is unknown. Fouling to shoreline. May be dangerous if it enters water intakes. Notify local authorities if spill is large.			
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Mechanical containment Should be removed Chemical and physical treatment		2. LABELS No hazard label required by Code of Federal Regulations

OLD

OILS, EDIBLE: LARD

Common Synonyms Prime steam lard Lard rendered lard Leaf lard Lard		Liquid or solid Floats on water	Colorless to Light yellow	Fatty odor
Fire		Combustible		
Exposure		LIQUID OR SOLID Not harmful		
Water Pollution		Effect of low concentrations on aquatic life is unknown Floating to shoreline May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE See Response to Methods Handbook, CG 446.4 Mechanical containment Should be removed Chemical and physical treatment		2. LABELS No label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Lard-rendered lard, Leaf lard, Prime steam lard 3.2 Coast Guard Compatibility Classification: Exempt III 3.3 Chemical Formula: Not applicable 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid or liquid 4.2 Color: Colorless to pale yellow 4.3 Odor: Fatty		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield, rubber gloves 5.2 Symptoms Following Exposure: Substance is essentially nontoxic. Prolonged contact with skin may cause dermatitis (redness). Hot liquid can burn eyes or skin. 5.3 Treatment for Exposure: EYES: flush with water for at least 15 min.; get medical attention for burn. SKIN: wipe oil; get medical attention for burn. INGESTION: do NOT induce vomiting. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: None 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Not pertinent				

6 FIRE HAZARDS

- 6.1 Flash Point: 344°F (173°C)
 6.2 Flammable Limits in Air: Not pertinent.
 6.3 Fire Extinguishing Agents: Dry chemical (from carbon dioxide).
 6.4 Fire Extinguishing Agents Not to be Used: Water or foam may cause frothing; water may be ineffective.
 6.5 Special Hazards of Combustion Products: Not pertinent.
 6.6 Behavior in Fire: Not pertinent.
 6.7 Ignition Temperature: 811°F.
 6.8 Electrical Hazard: Not pertinent.
 6.9 Burning Rate: 4 mm/min.

8 WATER POLLUTION

- 8.1 Aquatic Toxicity: Data not available.
 8.2 Waterfowl Toxicity: Data not available.
 8.3 Ecological Oxygen Demand (BOD): Data not available.
 8.4 Food Chain Concentration Potential: None.

9 SELECTED MANUFACTURERS

- Smith Edible Oil Company
 145 West Jackson Boulevard
 Chicago, IL 60604
 2. Marco Oil and Chemical Co., Inc.
 Beaver and Kane Streets
 Bristol, Pa. 19007
 3. Colfax, Inc.
 5400 42nd St.
 Park Forest, IL 60460

7 CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: No reaction.
 7.2 Reactivity with Common Materials: No reaction.
 7.3 Stability During Transport: Stable.
 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent.
 7.5 Polymerization: Not pertinent.
 7.6 Inhibitor of Polymerization: Not pertinent.

10 SHIPPING INFORMATION

- 10.1 Grades or Purity: Various grades depending on source of animal, used and method of rendering.
 10.2 Storage Temperature: Ambient, or elevated (hot liquid).
 10.3 Inert Atmosphere: No requirement.
 10.4 Venting: Open flame protectors.

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 446.3)
 A 1.1

12. HAZARD CLASSIFICATIONS

- 12.1 Code(s), Federal Regulations: Not listed.
 12.2 MAP Hazard Rating for Bulk Water Transportation: Not listed.
 12.3 NFPA Hazard Classifications:
- | Category | Classification |
|----------------------|----------------|
| Health Hazard (Blue) | 0 |
| Flammability (Red) | 0 |
| Reactivity (Yellow) | 0 |

13 PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 Physical State at 15°C and 1 atm: Solid.
 13.2 Molecular Weight: Not pertinent.
 13.3 Boiling Point at 1 atm: Not pertinent.
 13.4 Freezing Point: 34°F (1°C).
 13.5 Critical Temperature: Not pertinent.
 13.6 Critical Pressure: Not pertinent.
 13.7 Specific Gravity: 0.94 at 15°C (liquid).
 13.8 Liquid Surface Tension: 29 dynes/cm = 0.029 N/m at 30°C.
 13.9 Liquid-Water Interfacial Tension: 40 dynes/cm = 0.040 N/m at 30°C.
 13.10 Vapor (Gas) Specific Gravity: Not pertinent.
 13.11 Ratio of Specific Heats of Vapor (Gas): Not pertinent.
 13.12 Latent Heat of Vaporization: Not pertinent.
 13.13 Heat of Combustion: 9,120 cal/g = 380 x 10³ J/kg.
 13.14 Heat of Decomposition: Not pertinent.
 13.15 Heat of Solution: Not pertinent.
 13.16 Heat of Polymerization: Not pertinent.

OILS, EDIBLE: TUCUM

Common Synonyms Aouara oil American palm kernel oil Palm seed oil Tucum oil		Liquid	Light yellow	Weak odor
Floats on water				
SECTION 1 PHYSICAL PROPERTIES				
Fire	Combustible Flash point: 395°F (199°C) Water solubility: Insoluble in water			
Exposure	LIQUID Not harmful POISONOUS BY INGESTION			
Water Pollution	Effect of low concentrations on aquatic life is unknown Foaming to shoreline May be dangerous if it enters water intakes. Not flammable in water Not persistent in water			
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Mechanical containment Should be removed Chemical and physical treatment		2. LABELS No label required by Code of Federal Regulations		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: American palm kernel oil Aouara oil, Palm seed oil 3.2 Coast Guard Compatibility Classification: Esters (13) 3.3 Chemical Formula: Not applicable 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Light yellow 4.3 Odor: Weak acid		
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield, rubber gloves 5.2 Symptoms Following Exposure: Oil is essentially nontoxic. Contact with eyes causes mild irritation, and prolonged contact with skin may cause dermatitis. 5.3 Treatment for Exposure: EYES: flush with water for at least 15 min. INGESTION: do NOT induce vomiting. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: None known 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Not pertinent				

6 FIRE HAZARDS

- 6.1 Flash Point: 395°F (199°C)
6.2 Flammable Limits in Air: Not pertinent
6.3 Fire Extinguishing Agents: Dry chemical foam, carbon dioxide
6.4 Fire Extinguishing Agents Not to be Used: Water or foam may cause frothing, water may be ineffective
6.5 Special Hazards of Combustion Products: Not pertinent
6.6 Behavior in Fire: Not pertinent
6.7 Ignition Temperature: Data not available
6.8 Electrical Hazard: Not pertinent
6.9 Burning Rate: 4 mm/min

7. CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: No reaction
7.2 Reactivity with Common Materials: No reaction
7.3 Stability During Transport: Stable
7.4 Neutralizing Agents for Acids and Caustics: Not pertinent
7.5 Polymerization: Not pertinent
7.6 Inhibitor of Polymerization: Not pertinent

8 WATER POLLUTION

- 8.1 Aquatic Toxicity: Data not available
8.2 Waterway Toxicity: Data not available
8.3 Biological Oxygen Demand (BOD): Data not available
8.4 Food Chain Concentration Potential: None

OTW

OILS, FUEL: 2

Common Synonyms: Home heating oil	Oil: liquid Yellow-brown Lube or fuel oil odor Floats on water
Fire	Combustible
Exposure	LIQUID Irritating to skin and eyes If swallowed, will cause nausea, vomiting
Water Pollution	Dangerous to aquatic life in high concentrations Floating to shoreline May be dangerous if it enters water intakes
1 RESPONSE TO DISCHARGE See Response Methods Handbook CG 446-41 Mechanical containment Should be removed Chemical and physical treatment	2. LABELS No hazard label required by Code of Federal Regulations
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Home heating oil 3.2 Coast Guard Compatibility Classification: Miscellaneous hydrocarbon mixtures 3.3 Chemical Formula: Not applicable 3.4 IMCO United Nations Numerical Designation: 133, 1223	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Light brown 4.3 Odor: Fuel-oil-like characteristics
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Protective gloves, goggles or face shield 5.2 Symptoms Following Exposure: INHALATION causes headache and slight dizziness. INGESTION causes nausea, vomiting, and cramping; depression of central nervous system, ranging from mild headache to anesthesia, coma, and death; pulmonary irritation; secondary to exhalation of solvent vapors; kidney and liver damage may be delayed. ASPIRATION causes severe lung irritation with coughing, gagging, dyspnea, substernal distress, and rapid developing pulmonary edema; irritation of bronchioles, pneumonia, and pneumonitis; acute onset of central nervous system depression; followed by depression. 5.3 Treatment for Exposure: INGESTION does NOT induce vomiting. ASPIRATION calls for rapid treatment: administer oxygen, seek medical attention on F.I.T.S. Wash with copious quantities of water. SKIN: remove solvent by wiping and wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not single value applicable 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade: LD ₅₀ 10 g/kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Slight irritation to respiratory system; present in high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minor skin hazard. If spilled on clothing and allowed to remain, may cause irritation and reddening of skin. 5.10 Odor Threshold: Data not available	

6 FIRE HAZARDS 6.1 Flash Point: 136 F (60) 6.2 Flammable Limits in Air: Data not available 6.3 Fire Extinguishing Agents: Dry chemical, foam, or carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: 494 F 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: 4 mm/min	8 WATER POLLUTION 8.1 Aquatic Toxicity: Drippen 24 hr. OILS, FUEL: 4

Common Synonyms Residual fuel oil No. 4	Only liquid Dark Lube or fuel oil odor Floats on water
Fire	Combustible
Exposure	LIQUID Irritating to skin and eyes Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown Foaming to shoreline May be dangerous if it enters water intakes
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-4 Mechanical containment: Should be removed Chemical and physical treatment	2. LABELS No hazard label required by Code of Federal Regulations
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Residual fuel oil No. 4 3.2 Coast Guard Compatibility Classification: Miscellaneous hydrocarbon mixtures 3.3 Chemical Formula: Not applicable 3.4 IMCO United Nations Numerical Designation: 13.1224	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Brown 4.3 Odor: Characteristic, like kerosene
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Protective gloves, goggles or face shield 5.2 Symptoms Following Exposure: INGESTION: gastroenteral irritation. ASPIRATION: pulmonary irritation is normally minimal but may become more severe several hours after exposure. 5.3 Treatment for Exposure: INGESTION: do NOT lavage or induce vomiting. ASPIRATION: treatment probably not required. delayed development of pulmonary irritation can be detected by serial chest x-rays, consider prophylactic antibiotic regime if condition warrants. EYES: wash with copious quantities of water. SKIN: wipe off and wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: Grade 1, TD ₀₁ 5 to 15 g/kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: None 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain may cause smearing and reddening of the skin. 5.10 Odor Threshold: Data not available	

6 FIRE HAZARDS

- 6.1 Flash Point: $>130^{\circ}\text{F}$ ($>55^{\circ}\text{C}$)
 6.2 Flammable Limits in Air: 1.0% - 8.5%
 6.3 Fire Extinguishing Agents: Dry chemical,
foam, or carbon dioxide.
 6.4 Fire Extinguishing Agents Not to be Used:
Water may be ineffective.
 6.5 Special Hazards of Combustion Products:
Not pertinent.
 6.6 Behavior in Fire: Not pertinent.
 6.7 Ignition Temperature: $>500^{\circ}\text{F}$
 6.8 Electrical Hazard: Not pertinent.
 6.9 Burning Rate: 4 in./min.

8 WATER POLLUTION

- 8.1 Aquatic Toxicity: Data not available.
 8.2 Waterfowl Toxicity: Data not available.
 8.3 Biological Oxygen Demand (BOD):
Data not available.
 8.4 Food Chain Concentration Potential:
None.

9. SELECTED MANUFACTURERS

1. Atlantic Richfield Co.
717 Fifth Ave.
New York, N. Y. 10022
 2. Shell Oil Co.
1 Shell Plaza
Houston, Tex. 77001
 3. Sun Oil Co.
St. Davids, Pa. 19081

7 CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: No reaction.
 7.2 Reactivity with Common Materials:
No reaction.
 7.3 Stability During Transport: Stable.
 7.4 Neutralizing Agents for Acids and
Caustics: Not pertinent.
 7.5 Polymerization: Not pertinent.
 7.6 Inhibitor of Polymerization: Not pertinent.

10 SHIPPING INFORMATION

- 10.1 Grades or Purity: Commercial.
 10.2 Storage Temperature: Ambient.
 10.3 Inert Atmosphere: No requirement.
 10.4 Venting: Open flame protectors.

11 HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook, CG 446-3
 A T U

12 HAZARD CLASSIFICATIONS

- 12.1 Code of Federal Regulations:
Combustible Liquid
 12.2 NAS Hazard Rating for Bulk Water
Transportation: Not listed.
 12.3 NFPA Hazard Classifications:
- | Category | Classification |
|----------------------|----------------|
| Health Hazard (Blue) | 0 |
| Flammability (Red) | 2 |
| Reactivity (Yellow) | 0 |

13 PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 Physical State at 15°C and 1 atm: Liquid.
 13.2 Molecular Weight: Not pertinent.
 13.3 Boiling Point at 1 atm: 214 to $>1092^{\circ}\text{F}$
 $= 101$ to $>589^{\circ}\text{C}$ $= 374$ to 861°K
 13.4 Freezing Point: -20 to <-1
 $= -29$ to $<-4^{\circ}\text{C}$ $= 244$ to 264°K
 13.5 Critical Temperature: Not pertinent.
 13.6 Critical Pressure: Not pertinent.
 13.7 Specific Gravity:
0.904 at 15°C (liquid)
 13.8 Liquid Surface Tension:
Data not available.
 13.9 Liquid-Water Interfacial Tension:
Data not available.
 13.10 Vapor (Gas) Specific Gravity:
Not pertinent.
 13.11 Ratio of Specific Heats of Vapor (Gas):
Not pertinent.
 13.12 Latent Heat of Vaporization:
Not pertinent.
 13.13 Heat of Combustion: $-17,400$ Btu/lb
 $= -4,000$ cal/g $= -40,000$ J/kg
 13.14 Heat of Decomposition: Not pertinent.
 13.15 Heat of Solution: Not pertinent.
 13.16 Heat of Polymerization: Not pertinent.

Continued on page 5 and 6

NOTES

Common Synonyms Residual fuel oil No. 5		Only liquid	Dark	Strong kerosene odor
		Usually floats on water		
Fire	Combustible			
Exposure	LIQUID Irritating to skin and eyes Harmful if swallowed			
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes			
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 448-4) Mechanical containment Should be removed Chemical and physical treatment		2. LABELS No hazard label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Residual fuel oil No. 5 3.2 Coast Guard Compatibility Classification: Miscellaneous hydrocarbon mixtures 3.3 Chemical Formula: Not applicable 3.4 IMCO United Nations Numerical Designation: 111 1221		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State, as shipped: Liquid 4.2 Color: Brown 4.3 Odor: Characteristic, like kerosene		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Protective gloves, goggles or face shield 5.2 Symptoms Following Exposure: INGESTION: Gastrointestinal irritation. ASPIRATION: pulmonary irritation is normally minimal but may become more severe several hours after exposure 5.3 Treatment for Exposure: INGESTION: do NOT have person induce vomiting. ASPIRATION: treatment probably not required; delayed development of pulmonary irritation can be delayed by several chest x-rays, consider prophylactic antibiotic regime. EYE: Irritation: EYES: wash with copious quantities of water. SKIN: wipe off and wash with soap and water 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: Grade III D to IV p. kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: None 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin 5.10 Odor Threshold: Data not available

1. RESPONSE TO DISCHARGE See Response Methods Manual: CG 646-4. Mechanical oil separator. Should be removed and proper treatment.		2. LABELS No hazard label required by U.S. or Federal Regulations.				
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Diesel oil, light. 3.2 Coast Guard Compatibility Classification: Miscellaneous hydrocarbon mixtures. 3.3 Chemical Formula: Not applicable. 3.4 IMCO United Nations Numerical Designation: 1500.		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Light brown. 4.3 Odor: Characteristic.				
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Protective gloves, goggles, face shield. 5.2 Symptoms Following Exposure: INHALATION causes headache and coughing. INGESTION causes nausea, vomiting, and a burning depression of central nervous system. IRITATION causes irritation of skin and eyes. PNEUMONITIS may develop if inhaled vapors are inhaled in sufficient quantities. ASPIRATION causes coughing, gagging, choking, and rapid breathing. INGESTION causes nausea, vomiting, and a burning depression of central nervous system. 5.3 Treatment for Exposure: INGESTION do NOT induce vomiting. Seek medical attention. ASPIRATION get victim to fresh air immediately. EYES wash with large quantity of water. SKIN remove victim from exposure and wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not applicable. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade 1 (Dangerous). 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Slight irritation of eyes, nose, and throat if present in high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain may cause staining and reddening of skin. 5.10 Odor Threshold: 0.7 ppm.						

6. FIRE HAZARDS 6.1 Flash Point: (API) 60°C 6.2 Flammable Limits in Air: 1.1% to 7.6% 6.3 Fire Extinguishing Agents: D, foam, water. 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: Not pertinent. 6.7 Ignition Temperature: Not pertinent. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: 4 mm/min.		8. OTD

OILS, FUEL: 2-D

Common Synonyms Diesel oil medium		Odor: liquid	Yellow-brown	Late or fuel oil odor
Floats on water				
Physical State (as shipped): LIQUID Color: Yellow-brown Odor: Late or fuel oil odor				
Fire	Combustible Flash Point: 125°F (52°C) Autoignition Temperature: 400°F (204°C) Burning Rate: 4 in/min			
Exposure	LIQUID Irritating to skin and eyes Harmful if swallowed Inhalation: Irritating Ingestion: Harmful Skin Contact: Irritating Eye Contact: Irritating Inhalation: Irritating			
Water Pollution	Dangerous to aquatic life at high concentrations Floating to shoreline May be dangerous if it enters water intakes			
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 444-4 Mechanism: self-ignition Should be contained Chemical and physical reaction		2 LABELS No Hazardous Ingredients Late Federal Regulation		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Diesel oil medium 3.2 Coast Guard Compatibility Classification: Miscellaneous hydrocarbon mixtures 3.3 Chemical Formula: $C_{12}H_{26}$ 3.4 IMCO United Nations Numerical Designation: 1.2		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Yellow-brown 4.3 Odor: Late or fuel oil odor		
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Protective gloves, goggles, face shield 5.2 Symptoms Following Exposure: INGESTION causes nausea, vomiting and cramping, depression of central nervous system, burning of mouth, throat, stomach, and skin, and death. Inhalation causes irritation of respiratory tract, coughing, choking, and damage to the lungs. ASPIRATION causes severe inflammation with coughing, gagging, wheezing, substernal distress, and rapidly developing pulmonary edema. Later signs of bronchopneumonia and pneumonia are acute onset of central nervous system excitement followed by depression. 5.3 Treatment for Exposure: INGESTION: DO NOT induce vomiting. ASPIRATION: Do not feed or administer oxygen. Seek medical attention. EVEN with water, give quantities of 1-2 LITERS. Do not use mouth-to-mouth respiration and wash with clean and warm water. 5.4 Toxicity by Inhalation (Threshold Limit Value): No specific TLV appears. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Irritant. LD ₅₀ 5 g/kg. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Slight irritation to eyes and respiratory tract. Irritation is temporary. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Moderate and irritant to skin and eyes. Irritation may cause swelling and reddening of skin. 5.10 Odor Threshold: Data not available.				

6 FIRE HAZARDS		8 WATER POLLUTION

OAS	OHS, MISCELLANEOUS: ABSORPTION		
Common Synonyms: Achlorinated oil	Liquid	Colorless to pale yellow	Faint oil odor
	Floats on water		
Not for human consumption May irritate skin and eyes Harmful if swallowed May be dangerous if it enters water intakes May cause smogging and reddening of skin			
Fire	Combustible Flash point: 100°F (38°C) Boiling point: 300°F (150°C)		
Exposure	LIQUID: Irritating to skin and eyes. Harmful if swallowed. VAPORS: May irritate respiratory tract. May cause smogging and reddening of skin.		
Water Pollution	Effect of low concentrations on aquatic life is unknown. Feeding to shoreline may be dangerous if it enters water intakes. May cause smogging and reddening of skin.		
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-4. Mechanical containment. Should be removed. Chemical and physical treatment.		2. LABELS See Hazard Assessment Handbook, CG 446-3. No hazard label required by Code of Federal Regulations.	
3. CHEMICAL DESIGNATIONS 3.1 Synonym(s): Achorchlorated oil. 3.2 Coast Guard Compatibility Classification: Miscellaneous hydrocarbon mixtures. 3.3 Chemical Formula: Not applicable. 3.4 HMCO United Nations Numerical Designation: 1.1 (270).		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Pale yellow to colorless. 4.3 Odor: Faint petroleum.	
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Protective gloves, goggles or face shield. 5.2 Symptoms Following Exposure: INGESTION: irritation of stomach; ASPIRATION: pulmonary irritation is normally minimal but may become more severe several hours after exposure. (Delayed development can be detected by serial chest x-rays.) 5.3 Treatment for Exposure: INGESTION: have victim drink water or milk; do NOT induce vomiting. EYES: wash with copious amounts of water. SKIN: wipe off and wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent. 5.5 Short-Term Inhalation Limits: Not pertinent. 5.6 Toxicity by Ingestion: Grade I LD ₅₀ : 5 g/kg. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: None. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause smearing and reddening of skin. 5.10 Odor Threshold: Data not available.			
6. FIRE HAZARDS 6.1 Flash Point: 100°F. 6.2 Flammable Limits in Air: Data not available. 6.3 Fire Extinguishing Agents: Dry chemical foam or carbon dioxide. 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: Not pertinent. 6.7 Ignition Temperature: 400°F. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: 4 mph/min.		8. WATER POLLUTION 8.1 Aquatic Toxicity: Data not available. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): Data not available. 8.4 Food Chain Concentration Potential: None.	
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.		9. SELECTED MANUFACTURERS 1. Cities Service Co., Inc. 60 Wall Tower New York, N.Y. 10005 2. Exxon Co. Houston, Tex. 77001 3. Standard Oil Co. (Indiana) 910 S. Michigan Ave. Chicago, Ill. 60605	
11. HAZARD ASSESSMENT CODE See Hazard Assessment Handbook, CG 446-3. A T L		10. SHIPPING INFORMATION 10.1 Grades or Purity: Commercial. 10.2 Storage Temperature: Ambient. 10.3 Inert Atmosphere: No requirement. 10.4 Venting: Open flame arrester.	
12. HAZARD CLASSIFICATIONS 12.1 Code of Federal Regulations: Combustible Liquid. 12.2 NAS Hazard Rating for Bulk Water Transport: Not listed. 12.3 NFPA Hazard Classifications: Not listed.		12. PHYSICAL AND CHEMICAL PROPERTIES 12.1 Physical State at 15°C and 1 atm: Liquid. 12.2 Molecular Weight: Not pertinent. 12.3 Boiling Point at 1 atm: 300°F = 150°C. 12.4 Freezing Point: Not pertinent. 12.5 Critical Temperature: Not pertinent. 12.6 Critical Pressure: Not pertinent. 12.7 Specific Gravity: (est.) 0.85 at 20°C (liquid). 12.8 Liquid Surface Tension: (est.) 25 dynes/cm = 0.025 N/m at 20°C. 12.9 Liquid-Water Interfacial Tension: (est.) 30 dynes/cm = 0.03 N/m at 20°C. 12.10 Vapor (Gas) Specific Gravity: Not pertinent. 12.11 Ratio of Specific Heats of Vapor (Gas): Not pertinent. 12.12 Latent Heat of Vaporization: Not pertinent. 12.13 Heat of Combustion: (est.) 15,000 Btu/lb = 10,000 cal/g = 420 W·hr/lb. 12.14 Heat of Decomposition: Not pertinent. 12.15 Heat of Solution: Not pertinent. 12.16 Heat of Polymerization: Not pertinent.	
NOTES			

Common Synonyms: Light oil		Liquid Flashes on water. Flammable, irritating vapor is produced.	Colorless to yellow Pleasant odor
No known acute or chronic health hazards.			
Fire	FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. No known fire or explosion data.		
Exposure	No known Maximum Allowable Concentration (MAC) or Threshold Limit Value (TLV). VAPOR Irritating to eyes, nose and throat. LIQUID Irritating to skin and eyes. Harmful if swallowed.		
Water Pollution	Effect of low concentrations on aquatic life is unknown. Burning in shoreline. May be dangerous if it enters water intakes.		
1. RESPONSE TO DISCHARGE See Emergency Response Manual, CG 444-4. Use warning: High Flammability. Use caution.		2. LABEL 	
3. CHEMICAL DESIGNATIONS 21 Synonyms: Light oil. 22 Coast Guard Competibility Classification: Miscellaneous hydrocarbon mixtures. 23 Chemical Formula: Not applicable. 24 IMCO United Nations Numerical Designation: 1202.		4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Liquid. 42 Color: Colorless to yellow. 43 Odor: Aromatic, benzene-like odor.	
5. HEALTH HAZARDS 51 Personal Protective Equipment: Protective gloves, goggles, face shield. 52 Symptoms Following Exposure: Vapor causes eye irritation, burning and tearing; eye injury may result if contact is prolonged. 53 Treatment for Exposure: INGESTION: Have victim drink water or milk. Do not induce vomiting. LAY on back with head to one side. SKIN: Wipe, flush with water and soap. 54 Toxicity by Inhalation (Threshold Limit Value): Data not available. 55 Short-Term Inhalation Limits: Data not available. 56 Toxicity by Ingestion: Data not available. 57 Lethal Toxicity: Data not available. 58 Vapor (Gas) Irritant Characteristics: Vapor causes a mild irritation, burning or stinging system if present in high concentrations. These few symptoms. 59 Liquid or Solid Irritant Characteristics: Minimal hazard. If spilled, it is irritating and should be removed to cause smearing and reddening of the skin. 510 Odor Threshold: Data not available.

OCR

OILS, MISCELLANEOUS: CROTON

Common Synonyms Croton tiglium oil Croton oil		Liquid	Dark	Unpleasant odor
Floats on water				
AVOID CONTACT WITH LIQUID. KEEP PEOPLE AWAY. Stop discharge if possible. Call fire department. Isolate and remove discharged material. Notify local health or pollution control agencies.				
Fire	Combustible Extinguish with dry chemical, foam, carbon dioxide, etc. Water may be ineffective on fire.			
 <u>Exposure</u>	CALL FOR MEDICAL AID LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED Irritating to skin and eyes Remove or contaminated clothes and shoes. Flush affected eyes with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED, and victim is CONSCIOUS, have victim drink water or milk. DO NOT INDUCE VOMITING.			
Water Pollution	Effect of low concentrations on aquatic life is unknown. Fouling to shoreline. May be dangerous, if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.			
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446.4) Mechanical containment Should be removed Chemical and physical treatment		2. LABELS No label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Crotonols; Croton stigma L. oil. 3.2 Coast Guard Compatibility Classification: Esters (13) 3.3 Chemical Formula: Not applicable 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Dark 4.3 Odor: Unpleasant, acidic		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield, rubber gloves and any other protective clothing to prevent contact with skin. 5.2 Symptoms Following Exposure: Contact of liquid with eyes causes severe irritation. May induce severe skin irritation, inflammation, swelling, and pustule formation. Absorption through the skin may cause purging. Ingestion causes burning of the mouth and stomach and drastic purging, possibly leading to collapse and death. Small doses have a strong laxative effect. 5.3 Treatment for Exposure: EYES: flush with water. A 2% hydrocortisone ointment is recommended. SKIN: remove as much liquid as possible from skin by use of a good solvent such as acetone or alcohol, wash with soap and water. INGESTION: for gastrointestinal symptoms, use demulcents; further treatment is symptomatic; do NOT induce vomiting. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 4, LD ₅₀ < 50 mg/kg 5.7 Late Toxicity: Has been used in cancer research as a promoter for other compounds that cause skin cancer. 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available

REVISED 1978

OMT

OILS, MISCELLANEOUS: MOTOR

Common Synonyms Crankcase oil Lubricating oil	Only liquid	Yellow brown	Lube oil odor
No discharge if possible Call fire department Avoid contact with liquid Isolate and remove discharged material Notify local health and pollution control agencies			
Fire	Combustible Extinguish with dry chemical, foam or water. The water may be ineffective on fire. Cool exposed containers with water.		
Exposure	CALL FOR MEDICAL AID LIQUID Irritating to skin and eyes Harmful if swallowed Remove contaminated clothing and shoes Flush affected areas with plenty of water IF IN EYES, hold eyelids open and flush with plenty of water IF SWALLOWED, do not induce vomiting. If ONLY have to drink water or milk DO NOT INDUCE VOMITING.		
Water Pollution	Effect of low concentrations on aquatic life is unknown Floating to shoreline May be dangerous if it enters water intakes Notify local health and wildlife agencies Notify operators of nearby water intakes		
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Mechanical containment Should be removed Chemical and physical treatment		2. LABELS No hazard label required by Code of Federal Regulations	
3 CHEMICAL DESIGNATIONS 31 Synonyms: crankcase oil Lubricating oil Transmission oil 32 Coast Guard Compatibility Classification: Miscellaneous hydrocarbon mixtures 33 Chemical Formula: Not applicable 34 IMCO/United Nations Numerical Designation: 3 + 1270		4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Liquid 42 Color: Yellow fluorescent 43 Odor: Characteristic	
5. HEALTH HAZARDS 51 Personal Protective Equipment: Protective gloves, goggles or face shield 52 Symptoms Following Exposure: INGESTION: minimal gastrointestinal irritation; increased frequency of bowel passage may occur. ASPIRATION: pulmonary irritation is normally minimal but may become more severe several hours after exposure 53 Treatment for Exposure: INGESTION: do NOT lay up or induce vomiting. ASPIRATION: treatment probably not required; delayed development of pulmonary irritation can be detected by serial chest x-rays. EYES: wash with copious amounts of water. SKIN: wipe off oil and wash with soap and water 54 Toxicity by Inhalation (Threshold Limit Value): Data not available 55 Short-Term Inhalation Limits: Data not available 56 Toxicity by Ingestion: Grade I LD₅₀ 5 to 15 g/kg 57 Late Toxicity: Data not available 58 Vapor (Gas) Irritant Characteristics: Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary 59 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin 510 Odor Threshold: Data not available

5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Protective clothing for hot asphalt; face and eye protection when hot 5.2 Symptoms Following Exposure: Contact with skin may cause dermatitis. Inhalation of vapors may cause moderate irritation of nose and throat. Hot liquid burns skin. 5.3 Treatment for Exposure: Severe burns may result from hot liquid. Cool the skin at once with water. Cover burn with sterile dressing and seek medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): Skin only 5.5 Short-Term Inhalation Limit: Data not available 5.6 Toxicity by Ingestion: Grade 2 (LD ₅₀ 5.0 g/kg) 5.7 Late Toxicity: None observed 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause moderate irritation such that personnel with high concentrations unpleasant. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Causes smothering of the skin and first degree burns on short exposure. May cause secondary burns on long exposure. 5.10 Odor Threshold: Data not available

OSD

OILS, MISCELLANEOUS: SPINDLE

Common Synonyms: High speed bearing oil Bearing oil	Only liquid Fluores on water	Light brown - Weak kerosene-like odor
Not for use in food contact applications. Not for use in electrical applications. Not for use in hydraulic applications. Not for use in automotive applications.		
Fire	Combustible Extinguish with foam, dry chemical, or carbon dioxide. Water may be ineffective.	
Exposure	CALL FOR MEDICAL AID. EQUID Irritating to skin and eyes. Harmful if swallowed. Avoid contact with skin and eyes. Wash skin and eyes with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED, do not induce vomiting. Have victim drink water. DO NOT INDUCE VOMITING.	
Water Pollution	Disperses to aquatic life in high concentrations. Fading to short time. May be disperses if it enters water tanks. Not for use in food contact applications. Not for use in electrical applications.	
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 400-4 Minimum containment should be required. A thermal and physical treatment.		2. LABELS No hazard label required by Code of Federal Regulations.
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Bearing oil High speed bearing oil 3.2 Coast Guard Compatibility Classification: Miscellaneous hydrocarbon mixtures 3.3 Chemical Formula: Not applicable 3.4 IMCO United Nations Numerical Designation: 1.1, 1.2, 1.3		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Light brown 4.3 Odor: Weak kerosene-like
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Protective gloves, goggles or face shield 5.2 Symptoms Following Exposure: Vapor causes slight irritation of eyes and nose. Liquid irritates skin. If swallowed, causes vomiting, distress, and rapidly developing pulmonary edema. 5.3 Treatment for Exposure: ASPIRATION: induce retching, vomit, or vomit with 1% sodium bicarbonate solution. IF INGESTED, do NOT induce vomiting, call a doctor. EYES: wash with copious amounts of water. SKIN: wipe off and wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 1 LD50 15 g/kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause a slight smarting of eyes or nose, or system of present in high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of skin. 5.10 Odor Threshold: Data not available		

6. FIRE HAZARDS 6.1 Flash Point: 160°F (71°C) 6.2 Flammable Limits in Air: Data not available 6.3 Fire Extinguishing Agents: Foam, dry chemical, or carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: 475°F 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Data not available	8. OILS, MISCELLANEOUS: TANNER'S

Common Synonyms Sulfated neatfoot oil	Oil; liquid
Neatfoot oil is a heavy, dark, viscous liquid. It is a by-product of the distillation of coal tar. It is used in the manufacture of certain types of paint and as a lubricant for certain types of machinery.	
Fire	Combustible Extinguish with foam, carbon dioxide, or dry chemical.
Exposure	ALL FOR MEDICAL USE Exposure data not available Irritation to skin and eyes is possible.
Water Pollution	Effect of low concentrations on aquatic life is unknown. Floating to shoreline May be dangerous if it enters water intakes. Not recommended for use in water.
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Data not available.	2 LABELS No hazard label required by Code of Federal Regulations.
3 CHEMICAL DESIGNATIONS 31 Synonyms: Sulfated neatfoot oil; sodium salt. 32 Coast Guard Compatibility Classification: Miscellaneous hydrocarbon mixtures. 33 Chemical Formula: Not applicable. 34 IMCO/United Nations Numerical Designation: Not listed.	4 OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Data not available. 42 Color: Data not available. 43 Odor: Data not available.
5. HEALTH HAZARDS 51 Personal Protective Equipment: Data not available. 52 Symptoms Following Exposure: Data not available. 53 Treatment for Exposure: Data not available. 54 Toxicity by Inhalation (Threshold Limit Value): Data not available. 55 Short-Term Inhalation Limits: Data not available. 56 Toxicity by Ingestion: Data not available. 57 Late Toxicity: Data not available. 58 Vapor (Gas) Irritant Characteristics: Data not available. 59 Liquid or Solid Irritant Characteristics: Data not available. 60 Odor Threshold: Data not available.	

6 FIRE HAZARDS 61 Flash Point: Data not available. 62 Flammable Limits in Air: Data not available. 63 Fire Extinguishing Agents: Foam, dry chemical, or carbon dioxide. 64 Fire Extinguishing Agents Not to be Used: Water may be ineffective. 65 Special Hazards of Combustion Products: Not pertinent. 66 Behavior in Fire: Not pertinent. 67 Ignition Temperature: Data not available. 68 Electrical Hazard: Not pertinent. 69 Burning Rate: Data not available.	8 WATER POLLUTION 81 Aquatic Toxicity: Data not available. 82 Waterfowl Toxicity: Data not available. 83 Biological Oxygen Demand (BOD): Data not available. 84 Food Chain Concentration Potential: Data not available.
7 CHEMICAL REACTIVITY 71 Reactivity with Water: No reaction. 72 Reactivity with Common Materials: No reaction. 73 Stability During Transport: Stable. 74 Neutralizing Agents for Acids and Caustics: Not pertinent. 75 Polymerization: Not pertinent. 76 Inhibitor of Polymerization: Not pertinent.	9. Common Synonyms: Insulating oil Electrical insulating oil Petroleum insulating oil	Only liquid Colorless to light brown Motor oil-like odor Floats on water
Fire	
Exposure	
Water Pollution	
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Mechanical containment Should be removed Chemical and physical treatment	2. LABELS No hazard label required by Code of Federal Regulations
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Electrical insulating oil Insulating oil Petroleum insulating oil 3.2 Coast Guard Competibility Classification: Miscellaneous hydrocarbon mixtures 3.3 Chemical Formula: Not applicable 3.4 IMCO/United Nations Numerical Designation: 3.3/1270	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless to light brown 4.3 Odor: Like motor oil
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Protective gloves, goggles or face shield 5.2 Symptoms Following Exposure: Injection of liquid may irritate stomach and cause increased frequency of bowel movements. If taken into lungs, delayed pulmonary irritation may occur. 5.3 Treatment for Exposure: INGESTION: do NOT induce vomiting. ASPIRATION: check for delayed irritation by serial X-rays. EYES: wash with copious amounts of water. SKIN: wipe off and wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade I, LD ₅₀ to 15 g/kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause a slight stinging of the eyes or respiratory system if present in high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin. 5.10 Odor Threshold: Data not available	

6. OILS, MISCELLANEOUS: TURBINE

Common Synonyms Steam turbine oil Steam turbine lube oil Turbine oil		Liquid Floats on water	Colorless to light brown	Aerosol-like odor
1. RESPONSE TO DISCHARGE¹ (See Response Methods Handbook, CG 446-4) Mechanical containment Should be removed Chemical and physical treatment				
2. LABELS No label required by Code of Federal Regulations				
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Steam turbine oil, Steam turbine lube oil 3.2 Coast Guard Compatibility Classification: Petroleum oils (12) 3.3 Chemical Formula: Not applicable 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless to pale brown 4.3 Odor: Weak, like lube oil		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield, rubber gloves 5.2 Symptoms Following Exposure: Contact with liquid causes slight irritation of eyes and (on prolonged contact) skin. Ingestion causes slight irritation of stomach and bowel, increased frequency of bowel movement 5.3 Treatment for Exposure: EYES: wash with copious quantity of water for at least 15 min. SKIN: wipe off, wash with soap and water. INGESTION: do NOT induce vomiting; do NOT lavage. 1-4 oz. olive oil and 1-2 oz. activated charcoal may be given 5.4 Toxicity by Inhalation (Threshold Limit Value): 5 mg/m³ 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 0, LD₅₀ > 15 g/kg (rat) 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available				

6. FIRE HAZARDS 6.1 Flash Point: 390 - 485°F (177 - 252°C) 6.2 Flammable Limits in Air: Not pertinent 6.3 Fire Extinguishing Agents: Dry chemical, foam, carbon dioxide, water fog 6.4 Fire Extinguishing Agents Not to be Used: Water or foam may cause frothing; water may be ineffective 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: 700°F 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: (approx) 4 mm/min		8. WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None									
7. OAP

OLEIC ACID, POTASSIUM SALT

Common Synonyms Potassium oleate		Solid or liquid	Brown	Soapy odor
		Sinks and mixes slowly with water		
Avoid contact with liquid and solid. Keep away from fire. Not flammable. No spark. Is irritant and corrosive to target material. Not toxic to health and probably not irritant to eyes.				
Fire		Combustible Extinguish with water, dry chemicals, or carbon dioxide.		
Exposure		CALL FOR MEDICAL AID LIQUID OR SOLID Irritating to skin and eyes. If swallowed will cause nausea and vomiting. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES: hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS: Have victim drink water or milk. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS: Do nothing except keep victim warm.		
Water Pollution		Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Not toxic to health and wildlife directly. Not a purveyor of nearby water intakes.		
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Disperse and flush		2 LABELS No hazard label required by Code of Federal Regulations.		
3. CHEMICAL DESIGNATIONS 31 Synonyms: Potassium oleate 32 Coast Guard Compatibility Classification: Not listed 33 Chemical Formula: $C_{18}H_{33}COOK$ 34 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Solid or liquid 42 Color: Brown 43 Odor: Faint soaps		
5 HEALTH HAZARDS 51 Personal Protective Equipment: Chemical goggles and rubber gloves. 52 Symptoms Following Exposure: Inhalation of dust causes irritation of nose and throat, coughing and sneezing. Ingestion causes mild irritation of mouth and stomach. Contact with eyes causes irritation. 53 Treatment for Exposure: INHALATION: move to fresh air. INGESTION: give large amount of water. EYES: flush with copious quantities of tap water for 15 min. and seek appropriate medical attention. SKIN: flush with water. 54 Toxicity by Inhalation (Threshold Limit Value): Data not available 55 Short-term Inhalation Limits: Data not available 56 Toxicity by Ingestion: Data not available 57 Late Toxicity: Data not available 58 Vapor (Gas) Irritant Characteristics: Data not available 59 Liquid or Solid Irritant Characteristics: Data not available 60 Odor Threshold: Data not available				

6 FIRE HAZARDS 61 Flash Point: 100°F (38°C) 62 Flammable Limits in Air Data not available 63 Fire Extinguishing Agents: Dry chemical, alcohol foam, carbon dioxide 64 Fire Extinguishing Agents Not to be Used. Water may be ineffective 65 Special Hazards of Combustion Products 66 Behavior in Fire 67 Ignition Temperature: Data not available 68 Electrical Hazard: Not pertinent 69 Burning Rate: Not pertinent	8 WATER POLLUTION 81 Aquatic Toxicity: Data not available 82 Waterway Toxicity: Data not available 83 Biological Oxygen Demand (BOD) Data not available 84 Food Chain Concentration Potential: None

OAC

OLEIC ACID, SODIUM SALT

Common Synonyms Unsaturated Sodium oleate		Solid	Light tan	Slight tallow like odor
		Sinks and mixes slowly with water		
Avoid contact with skin and eyes. If contact occurs, wash thoroughly with water. If swallowed, do not induce vomiting. Seek medical attention if necessary.				
Fire		Combustible Flash point: 300°F (149°C)		
Exposure		CALL FOR MEDICAL ADVICE SOLID Irritating to skin and eyes. If swallowed will cause nausea and vomiting. NOXIOUS IF SWALLOWED. Irritating to eyes. Irritating to skin. Irritating to respiratory system. Irritating to aquatic life. Hazardous to the environment. Hazardous to the ozone layer. Hazardous to the atmosphere. Hazardous to the water body. Hazardous to the soil. Hazardous to the land.		
Water Pollution		Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. NOXIOUS IF SWALLOWED.		
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Disperse and flush		2. LABELS No hazard label required by Code of Federal Regulations		
3. NOTES	

OLM

OLEUM

Common Synonyms: Fuming sulfuric acid	Only liquid Colorless to cloudy Sharp, choking odor Mixes and reacts with water producing heat. Irritating mist is produced.
AVOID CONTACT WITH LIQUID AND MIST. Keep in place. Wear full protective clothing. Wash with water. Do not use water on adjacent fires.	
Fire	Not flammable. May cause fire on contact with combustibles. Flammable gas may be produced on contact with metals. Water from adjacent fires will cause acid to splash. DO NOT USE WATER ON ADJACENT FIRES.
Exposure	CAUTION MEDICAL AID MIST: Irritating to eyes, nose and throat. If inhaled, will cause coughing or difficult breathing. May cause frostbite. If inhaled, may cause respiratory distress. If inhaled, may cause pulmonary edema. LIQUID: Will burn skin and eyes. Harmful if swallowed. Remove from skin immediately with water. Flush affected areas with water for 15 minutes. IF IN EYES, flush with water for 15 minutes. IF SWALLOWED, do not induce vomiting. DO NOT INDUCE VOMITING.
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. Floating to shoreline. May be dangerous if it enters water intakes. Not persistent in the environment.
1. RESPONSE TO DISCHARGE See Hazard Assessment Handbook, CG 444-4. Issue water spill corrective. Restrict access. Chemical and physical treatment. Disperse and flush.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Fuming sulfuric acid. 3.2 Coast Guard Compatibility Classification: Inorganic acid. 3.3 Chemical Formula: H_2SO_4 . 3.4 IMCO United Nations Numerical Designation: N.O. (X3).	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless to cloudy. 4.3 Odor: Sharp penetrating, choking.
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Respirator approved by U.S. Bureau of Mines for acid mists; rubber gloves; splashproof goggles; eye wash; suit and safety shower; rubber footwear; face shield. 5.2 Symptoms Following Exposure: Acute irritation of eyes, nose and throat. Liquid causes severe burns to skin and eyes. 5.3 Treatment for Exposure: INGESTION: Rinse mouth with water and do NOT induce vomiting. IF IN EYES: Flush with plenty of water for 15 minutes. IF ON SKIN: Flush with plenty of water. 5.4 Toxicity by Inhalation (Threshold Limit Value): None. 5.5 Short-Term Inhalation Limits: NIOSH: 10 mg/m ³ for 15 min; 5 mg/m ³ for 30 min; 2 mg/m ³ for 45 min; 1 mg/m ³ for 60 min. 5.6 Toxicity by Ingestion: Severe burns to mouth and throat. 5.7 Late Toxicity: None. 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause severe irritation of eye and throat and can cause eye and lung injury. They cannot be tolerated even at low concentration. 5.9 Liquid or Solid Irritant Characteristics: Severe skin irritant. Causes second- and third-degree burns on short contact; very injurious to the eye. 5.10 Odor Threshold: 1 mg/m ³ .	

6. FIRE HAZARDS 6.1 Flash Point: Not flammable. 6.2 Flammable Limits in Air: Not flammable. 6.3 Fire Extinguishing Agents: Not pertinent. 6.4 Fire Extinguishing Agents Not to be Used: Avoid use of water on adjacent fires. 6.5 Special Hazards of Combustion Products: Toxic and irritating vapors are generated. 6.6 Behavior in Fire: Not pertinent. 6.7 Ignition Temperature: Not flammable. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Not flammable.	8. WATER POLLUTION 8.1 Aquatic Toxicity: 24 ppm 24 hr. bluegill; lethal fresh water; 42 ppm 48 hr. prawn; 100 ppm salt water. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): None. 8.4 Food Chain Concentration Potential: None.																																				
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Vigorous reaction with water; spatter. 7.2 Reactivity with Common Materials: May react with cast iron with explosive violence. Attacks many metals, releasing flammable hydrogen gas. Capable of igniting finely divided combustible material on contact. Extremely hazardous in contact with many materials. 7.3 Stability During Transport: Normally stable. 7.4 Neutralizing Agents for Acids and Caustics: Caution dilution with water with procedure against violent spattering. Diluted acid may be neutralized with lime or soda ash. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9. SELECTED MANUFACTURERS 1. Allied Chemical Corp. OXALIC

OXALIC ACID

Common Synonyms Ethanedioic acid		Solid crystals White Odorless Sinks at bottom with water
Fire Not flammable Poisonous gases are produced in fire		
Exposure ALL FORMS OF ACID DUST Will burn eyes, nose and throat If inhaled will cause difficult breathing May cause irritation of the respiratory tract SOLID Will burn skin and eyes If swallowed will cause nausea or loss of consciousness IN EYES If swallowed will cause nausea or loss of consciousness If inhaled will cause difficulty breathing If in contact with skin will cause irritation		
Water Pollution Harmless to aquatic life in high concentrations May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE See Response to Material Handbook (C-4) for details Should be neutralized Chemical disposal required	2. LABEL 	
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Ethanedioic acid 3.2 Coast Guard Compatibility Classification: Not permissive 3.3 Chemical Formula: C₂H₂O₄ 3.4 IMCO United Nations Numerical Designation: Not permissive	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: Odorless	
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Respirator, gloves, goggles, apron 5.2 Symptoms Following Exposure: Irritation of the respiratory tract, nausea, vomiting, diarrhea, skin irritation 5.3 Treatment for Exposure: Inhalation: Move to fresh air. If breathing is difficult, give oxygen. Ingestion: Drink large amounts of water. Do not induce vomiting. Skin: Wash with plenty of water. Eyes: Flush with water for 15 minutes. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not permissive 5.5 Short-Term Inhalation Limits: Not permissive 5.6 Toxicity by Ingestion: Toxic if swallowed 5.7 Late Toxicity: Not permissive 5.8 Vapor (Gas) Irritant Characteristics: Not permissive 5.9 Liquid or Solid Irritant Characteristics: Not permissive 5.10 Odor Threshold: Not permissive

NOTES	

REVISED 1978

OXY

OXYGEN, LIQUEFIED

Common Synonyms Liquid oxygen LOX		Liquefied gas Sinks and boils in water	Light blue	Odorless
When released, it will boil and expand rapidly. It will cause frostbite on contact with skin. It will cause dizziness or difficulty breathing if inhaled.				
Fire	Not flammable Containers may explode in fire			
Exposure	VAPOR If inhaled will cause dizziness or difficult breathing			
	LIQUID Will cause frostbite			
Water Pollution	Not harmful to aquatic life			
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 416-4 Protect access		2. LABEL 		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Liquid oxygen, LOX 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: O ₂ 3.4 IMCO/United Nations Numerical Designation: 2.107		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquefied gas 4.2 Color: Light blue 4.3 Odor: None		
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Safety glasses or face shield in liquid glow; long sleeves, trousers without pockets or pockets for gloves; shirt-sleeved liquid 5.2 Symptoms Following Exposure: Irritation; 100% oxygen can cause nausea, dizziness, minor swelling, pulmonary edema, pneumonia, and collapse. Liquid may cause frostbite on skin and eyes. 5.3 Treatment for Exposure: INHALATION: If inhaled, then move to fresh air and breathe normally. If rapid or regular breathing, oxygen pressure supportive treatment should be available. Immediate medical attention, therapy, needed and first AID. EYES: Treat with copious SKIN: Treat with copious water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent. 5.5 Short-Term Inhalation Limits: Not pertinent. 5.6 Toxicity by Ingestion: Not pertinent. 5.7 Late Toxicity: Not pertinent. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: Not pertinent.				

6 FIRE HAZARDS

- 6.1 Flash Point: Not flammable but supports combustion
- 6.2 Flammable Limits in Air: Not flammable
- 6.3 Fire Extinguishing Agents: Not pertinent
- 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent
- 6.5 Special Hazards of Combustion Products: Not pertinent
- 6.6 Behavior in Fire: Increases intensity of any fire. Mixtures of liquid oxygen and any fuel are highly combustible
- 6.7 Ignition Temperature: Not pertinent
- 6.8 Electrical Hazards: Not pertinent
- 6.9 Burning Rate: Not pertinent

7 CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: Heats or water will vigorously vaporize liquid oxygen
- 7.2 Reactivity with Common Materials: Avoid organic and combustible materials such as oil, grease, coal dust, etc. Flammable such materials can explode. The low temperature may cause brittleness in some materials
- 7.3 Stability During Transport: Stable
- 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent
- 7.5 Polymerization: Not pertinent
- 7.6 Inhibitor of Polymerization: Not pertinent

8 WATER POLLUTION

- 8.1 Aquatic Toxicity: None
- 8.2 Waterflow Toxicity: None
- 8.3 Biological Oxygen Demand (BOD): None
- 8.4 Food Chain Concentration Potential: None

9 SELECTED MANUFACTURERS

- 1. Union Carbide Corporation, Lique Division, Morristown, N.J. 07957
- 2. Airco, Inc., Industrial Gases Division, 575 Mountain Avenue, Murray Hill, N.J. 07974
- 3. Liquid Air, Inc., Embarcadero Center, San Francisco, Calif. 94111

10 SHIPPING INFORMATION

- 10.1 Grades or Purities: None
- 10.2 Storage Temperature: -183°C
- 10.3 Inert Atmosphere: Not required
- 10.4 Venting: Safety relief

NOTES

PFA

PARAFORMALDEHYDE

Common Synonyms: Paraformaldehyde Polyoxymethylene Formaldehyde polymer	Solid powder White Irritating odor Sinks and mixes with water
Fire	Combustible
Exposure	HAZARDOUS DUST Irritating to eyes, nose and throat Harmful if inhaled SOLID Irritating to skin and eyes If swallowed, will cause nausea, vomiting or loss of consciousness
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes
1 RESPONSE TO DISCHARGE See Response to Accidents Handbook, CG 444-4 Dispose and flush	2. LABELS No hazard label required by U.S. Federal Regulations
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Polyoxymethylene Polyformaldehyde Polyoxymethylene Polyoxymethylene glycol 3.2 Coast Guard Compatibility Classification: Aldehyde 3.3 Chemical Formula: $\text{HOCH}_2\text{O}_n\text{H}$ 3.4 IMCO United Nations Numerical Designation: 910	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: Pungent and irritating like formaldehyde
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Eye, face and hand protective clothing 5.2 Symptoms Following Exposure: Vapor irritates eyes, mucous membranes and can cause dermatitis. Ingestion of solid or solution in water irritates mouth, throat and stomach and may cause death 5.3 Treatment for Exposure: INHALATION: Give milk or white sheep brand with water. If a skin OR EYES: Use with copious amount of water 5.4 Toxicity by Inhalation (Threshold Limit Value): 1 ppm 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Lethal LD_{50} 500-500 mg/kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Vapor is moderately irritating such that no animal will breathe it at a concentration higher than 100 ppm 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause smothering and reddening of the skin 5.10 Odor Threshold: Data not available

PTB

PENTABORANE

Common Synonyms (9) Pentaboron monohydride		Liquid	Colorless	Strong sour milk odor
		Ignites when exposed to air. Floats on water.		
Fire		IGNITES WHEN EXPOSED TO AIR Burns with a blue flame.		
		HAZARD IS FROM PRODUCTS OF COMBUSTION VAPOR POISONOUS IF INHALED		
Exposure		LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED Irritating to eyes.		
Water Pollution		Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.		
1 RESPONSE TO DISCHARGE See Response Methods Manual, CG 404.4 Issue warning: High flammable liquid, water contaminant. Restrict access. Evacuate area. Dispense and flush.		2 LABELS 		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: (9) Pentaboron monohydride. 3.2 Coast Guard Compatibility Classification: Not applicable. 3.3 Chemical Formula: B ₅ H ₉ . 3.4 IMCO/United Nations Numerical Designation: 4.2 (F+).		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless. 4.3 Odor: Characteristic, strong, pungent, sour milk-like.		
5 HEALTH HAZARDS				
5.1 Personal Protective Equipment: Self-contained breathing apparatus with canister, gloves, and protective clothing.				
5.2 Symptoms Following Exposure: Inhalation: Irritation, cough, chest pain, difficulty breathing, pulmonary edema. Ingestion: Irritation, nausea, vomiting, abdominal pain. Skin Contact: Irritation, redness, swelling. Eye Contact: Irritation, redness, swelling. Inhalation: Irritation, cough, chest pain, difficulty breathing, pulmonary edema. Ingestion: Irritation, nausea, vomiting, abdominal pain. Skin Contact: Irritation, redness, swelling. Eye Contact: Irritation, redness, swelling.				
5.3 Treatment for Exposure: For inhalation: Move to fresh air. For ingestion: Do not induce vomiting. For skin contact: Wash with soap and water. For eye contact: Flush with water.				
5.4 Toxicity by Inhalation (Threshold Limit Value): 0.05 ppm.				
5.5 Short-Term Inhalation Limits: 2 ppm for 15 min; 1 ppm for 30 min; 0.5 ppm for 60 min; 0.2 ppm for 120 min.				
5.6 Toxicity by Ingestion: Grade 4.1 (F+).				
5.7 Late Toxicity: Data not available.				

6 FIRE HAZARDS 6.1 Flash Point: Not pertinent. 6.2 Flammable Limits in Air: 4.7% - 15%. 6.3 Fire Extinguishing Agents: Pretreatments that attack and deactivate the input of the chemical reaction. 6.4 Fire Extinguishing Agents Not to be Used: Halogenated hydrocarbon gases. 6.5 Special Hazards of Combustion Products: Toxic fumes may be formed. 6.6 Behavior in Fire: Tends to explode if heated with water applied. Adjacent fires produce flame that feed back. 6.7 Ignition Temperature: Not pertinent. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Not pertinent.		8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): Data not available. 8.4 Food Chain Concentration Potential: None.																															
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts violently with water to produce hydrogen gas. Reaction is exothermic and may be violent. 7.2 Reactivity with Common Materials: Corrosive to metals, reacts with some organic materials, some greases and some lubricants. 7.3 Stability During Transport: Stable below 400 °F. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.		9 SELECTED MANUFACTURERS General Chemical Company General Electric																															
11 HAZARD ASSESSMENT CODE See Hazard Assessment Manual, CG 404.3 A011 A W		10 SHIPPING INFORMATION 10.1 Grades or Purity: Technical grade. 10.2 Storage Temperature: Room temperature. 10.3 Inert Atmosphere: Not required. 10.4 Venting: Not required.

5 HEALTH HAZARDS (Cont'd) 8 Vapor (Gas) Irritant Characteristics: Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary. 9 Liquid or Solid Irritant Characteristics: Data not available. 10 Odor Threshold: 0.5 ppm.																																	

PCP

PENTACHLOROPHENOL

Common Synonyms Dowicide 7 Penta Santophen 20		Solid beads or flakes - White to light brown	
		Sinks in water	
Avoid contact with solid and dust. Keep people away. Wear goggles and water clothes, including aprons. Stop discharge if possible. If life and water is endangered, stop discharge. Not toxic to health and pollution in low concentrations.			
Fire		Not flammable	
		CALL FOR MEDICAL AID DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing difficult, give oxygen. SOLID POISONOUS IF SWALLOWED Will burn skin and eyes. Remove contaminated clothing and shoes. Flush affected area with plenty of water. If IN EYES, hold eyelids open and flush with plenty of water. If SWALLOWED, do not vomit. If CONSCIOUS, have victim drink water or milk and have vomiting induced by pumping. If SWALLOWED and unconscious, DO NOT HAVE CONVULSIONS. Call doctor for proper respiration aid.	
Exposure			
Water Pollution		HARMFUL TO AQUATIC LIFE AT VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes. Not toxic to fish and wildlife in low concentrations. Not dangerous to aquatic wildlife in lakes.	
1. RESPONSE TO DISCHARGE See Response Methods Handbook (C-446-4). Issue warning - person Restrict access Should be removed		2. LABELS No hazard label required by Code of Federal Regulations	
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Dowicide 7 Penta Santophen 20 3.2 Coast Guard Compatibility Classification Not applicable 3.3 Chemical Formula: C ₆ Cl ₅ OH 3.4 IMCO/United Nations Numerical Designation: 6.1, 2620		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Colorless to light brown 4.3 Odor: Very weak	
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Respirator for dust, goggles, protective clothing 5.2 Symptoms Following Exposure: Dust or vapor irritates skin and mucous membranes, causing coughing and sneezing. Ingestion causes loss of appetite, respiratory difficulties, indigestion, and constipation. Overexposure causes headache. 5.3 Treatment for Exposure: Call doctor! If INGESTION, induce vomiting if once. EYES, wash with water for 15-30 min. SKIN, wash well with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 0.5 mg/m ³ 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 3 LD ₅₀ 50 to 500 mg/kg (rat) 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations. 5.9 Liquid or Solid Irritant Characteristics: Causes smothering of the skin and first degree burns on brief exposure. May cause secondary burns on long exposure. 5.10 Odor Threshold: Data not available			

6 FIRE HAZARDS 6.1 Flash Point: Not flammable 6.2 Flammable Limits in Air: Not flammable 6.3 Fire Extinguishing Agents: Not pertinent 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: Generates toxic and irritating vapors 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: Not flammable 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not flammable		8 WATER POLLUTION 8.1 Aquatic Toxicity: 5 ppm - the trout lethal fresh water 8.2 Waterfowl Toxicity: 4500 ppm/l C50/mallards 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: Data not available									
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction 7.2 Reactivity with Common Materials: No reaction 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent		9 SELECTED MANUFACTURERS 1. PDC

PENTADECANOL

Common Synonyms		Liquid	Colorless	Faint alcohol odor
		Floats on water		
Step 1: Institute measures to keep personnel safe. Call for medical aid. Avoid contact with liquid. Do not inhale vapors or dust. Notify local health and pollution control agencies.				
Fire	Combustible Extinguish with foam, dry chemical or water. Avoid use of water. Water may be used to extinguish fire on exposed containers with care.			
Exposure	CALL FOR MEDICAL AID LIQUID Irritating to skin and eyes. Remove contaminated clothing and shoes. Flush all exposed areas with plenty of water. IF IN EYES: Flush with water and flush with plenty of water.			
Water Pollution	Harmful to fish and water fowl Fouling to shoreline May be dangerous if it enters water intakes Notify local health and pollution control officials Notify local authorities of nearby water intakes			
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Mechanism of containment Should be removed		2. LABELS No hazard label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: 1. Pentadecanol Pentadecyl alcohol 3.2 Coast Guard Compatibility Classification: Alcohol 3.3 Chemical Formula: C ₁₅ H ₃₂ O, C ₁₅ H ₃₁ OH 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Weak alcoholic		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield 5.2 Symptoms Following Exposure: Low toxicity. Excessive exposure produces some central nervous system depression. Prolonged contact produces skin irritation. 5.3 Treatment for Exposure: INHALATION: If necessary, support respiration. INGESTION: Induce vomiting and call a doctor. SKIN OR EYES: Wash with copious amounts of water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available				
6. FIRE HAZARDS 6.1 Flash Point: Data not available 6.2 Flammable Limits in Air: Data not available 6.3 Fire Extinguishing Agents: Foam, dry chemical or carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Water or foam may cause frothing 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: Data not available 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Data not available		8. PTA

PENTANE

Common Synonyms	Liquid Colorless Gasoline odor Flashes on water. Flammable vapor is produced. Boiling point is 97°C.
Fire	FLAMMABLE Flashback along vapor trail may occur. Containers may explode when heated. Vapor may explode if ignited in an enclosed area.
Exposure	VAPOR If inhaled, will cause dizziness or difficulty breathing. LIQUID Harmful if swallowed.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 445-4) Evacuate area. High flammability. Restrict access. Evacuate area.	2 LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: No common synonyms. 3.2 Coast Guard Compatibility Classification: Paraffin. 3.3 Chemical Formula: C ₅ H ₁₂ . 3.4 IMCO-United Nations Numerical Designation: 311265.	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless. 4.3 Odor: Gasoline.
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield and gloves. 5.2 Symptoms Following Exposure: Low toxicity. Very high vapor concentrations produce irritation into lungs can produce chemical pneumonitis and pulmonary edema. 5.3 Treatment for Exposure: INHALATION: remove from exposure; support respiration; needed. INGESTION: do NOT induce vomiting; call physician. 5.4 Toxicity by Inhalation (Threshold Limit Value): 500 ppm. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Data not available. 5.7 Late Toxicity: None. 5.8 Vapor (Gas) Irritant Characteristics: Vapors are irritant to eyes and throat. 5.9 Liquid or Solid Irritant Characteristics: No appreciable hazard. Practically non-toxic to skin. 5.10 Odor Threshold: 10 ppm.	

6 FIRE HAZARDS 6.1 Flash Point: -77.1°C (-107°F) 6.2 Flammable Limits in Air: 1.4 - 8.3% (by vol.) 6.3 Fire Extinguishing Agents: Foam, dry chemical, carbon dioxide. 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: Containers may explode. 6.7 Ignition Temperature: 544°C (1011°F) 6.8 Electrical Hazard: Class I, Group D. 6.9 Burning Rate: 8.7 mm/min.	8 WATER POLLUTION 8.1 Aquatic Toxicity: > 60 ppm; toxic to fish; water. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): Data not available. 8.4 Food Chain Concentration Potential: None.																																						
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Catalysts: Not pertinent. 7.5 Polymerization: No polymer. 7.6 Inhibitor of Polymerization: Not pertinent.	9 SELECTED MANUFACTURERS 1. PTE

1-PENTENE

Common synonyms: alpha-pentylene Propylene		Liquid Colorless Gasoline odor Floats on water. Flammable vapor is produced. Boiling point is 60°F.
	FLAMMABLE Flashback along vapor trail may occur. Containers may explode when heated. Vapor may explode if ignited in an enclosed area.	
Exposure	VAPOR If inhaled, will cause dizziness.	
	LIQUID Harmful if swallowed.	
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.	
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-41. Issue warning: high flammability. Restrict access. Evacuate area.		2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: alpha-pentylene Propylene 3.2 Coast Guard Compatibility Classification: Olefin 3.3 Chemical Formula: C_5H_{10} 3.4 IMCO United Nations Numerical Designation: 1.1 (10)		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Like gasoline
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield (as for gasoline). 5.2 Symptoms Following Exposure: Acts as a simple asphyxiant or weak anesthetic in high vapor concentrations. Similar to effects caused by gasoline vapors. 5.3 Treatment for Exposure: INHALATION: remove victim from exposure. SKIN: wash with soap and water. EYES: flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Data not available. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Not irritating. 5.9 Liquid or Solid Irritant Characteristics: Not irritating. 5.10 Odor Threshold: Data not available.		

6. FIRE HAZARDS

- 6.1 Flash Point: -60°F (-50°C)
 6.2 Flammable Limits in Air: 1.2-8.7%
 6.3 Fire Extinguishing Agents: Foam, dry chemical or carbon dioxide. Stop flow of vapor.
 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective.
 6.5 Special Hazards of Combustion Products: Not pertinent.
 6.6 Behavior in Fire: Containers may explode in fire.
 6.7 Ignition Temperature: 527°F
 6.8 Electrical Hazard: Data not available.
 6.9 Burning Rate: Moderate.

7. CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: No reaction.
 7.2 Reactivity with Common Materials: No reaction.
 7.3 Stability During Transport: Stable.
 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent.
 7.5 Polymerization: Not pertinent.
 7.6 Inhibitor of Polymerization: Not pertinent.

8. WATER POLLUTION

- 8.1 Aquatic Toxicity: 655 ppm (the 96-hour lethal fresh water).
 8.2 Waterfowl Toxicity: Data not available.
 8.3 Biological Oxygen Demand (BOD): 10% (theoretical) day 5 (theoretical) day 1 day.
 8.4 Food Chain Concentration Potential: None.

9. SELECTED MANUFACTURERS

1. Exxon Chemical Co.
Houston, Tex. 77001
2. Phillips Petroleum
Bartlesville, Okla. 74603
3. Texaco Inc.
135 E. 42nd St.
New York, N.Y. 10018

10. SHIPPING INFORMATION

- 10.1 Grades or Purities: Research 99.9% pure, 99.4% technical 97.0%
 10.2 Storage Temperature: Ambient
 10.3 Inert Atmosphere: Not required.
 10.4 Venting: Open flame arrester or pressure vacuum.

11. HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook, CG 446-3.
 NFPA 704

12. HAZARD CLASSIFICATIONS

- 12.1 Code of Federal Regulations:
 Flammable liquid
 12.2 HAS Hazard Rating for Bulk Water
 Transportation: Not listed.
 12.3 NFPA Hazard Classifications: Not listed.

13. PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 Physical State at 15°C and 1 atm.: Liquid
 13.2 Molecular Weight: 70.13
 13.3 Boiling Point at 1 atm.:
 33°C (91°F)
 33°C (91°F)
 13.4 Freezing Point:
 -165°C (-265°F)
 -165°C (-265°F)

NOTES

PAA

PERACETIC ACID

Common Synonyms Peroxyacetic acid Acetyl hydroperoxide		Liquid	Colorless	Strong odor
Mixes with water. Flammable. Irritating vapor is produced.				
<u>Fire</u>		Combustible May cause fire in contact with combustibles. Containers may explode in fire.		
<u>Exposure</u>		VAPOR Irritating to eyes, nose and throat. LIQUID Irritating to skin and eyes. Harmful if swallowed.		
<u>Water Pollution</u>		Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water or lakes.		
1 RESPONSE TO DISCHARGE (See Response Procedures Handbook, CG 446-4) Issue warning - oxidizing material. Water contaminant. Restrict access. Dispense and flush.		2. LABEL 		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Acetyl hydroperoxide Peroxyacetic acid 3.2 Coast Guard Compatibility Classification Not applicable 3.3 Chemical Formula: <chem>CH3COOOH</chem> , <chem>CH3COOH</chem> 3.4 IMCO/United Nations Numerical Designation: 2.1, 2.2		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Pungent, strong.		
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Self-contained breathing apparatus, protective clothing, goggles, rubber gloves, etc. 5.2 Symptoms Following Exposure: Inhalation causes severe irritation of mucous membranes. Contact with liquid causes severe irritation of eyes and skin. Ingestion causes severe distress, including burns of mouth and stomach. 5.3 Treatment for Exposure: INHALATION: Remove victim to fresh air. If he is not breathing, apply artificial respiration and oxygen will assist. EYES: Flush with water for at least 10 min. SKIN: Flush with water and cover burn. INGESTION: Give plenty of warm water, call a doctor. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Fatal if swallowed. (Some symptoms may persist). 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: Data not available.				

6 FIRE HAZARDS 6.1 Flash Point: 104 F (40 C) 6.2 Flammable Limits in Air: Data not available 6.3 Fire Extinguishing Agents: Water 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: Vapors are very flammable and explosive. Liquid will detonate if concentration rises above 50% because of evaporation of acetic acid 6.7 Ignition Temperature: 492 F 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Data not available	8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterway Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction 7.2 Reactivity with Common Materials: May cause fire in contact with organic materials such as acids, cotton or straw. Corrosive to some metals including aluminum 7.3 Stability During Transport: Stable at room and ambient temperatures. At 40 C, concentration decreases about 1% each month 7.4 Neutralizing Agents for Acids and Caustics: Flush with water 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	9 SELECTED MANUFACTURERS 1. PCL

PERCHLORIC ACID

Common Synonyms Dioxonium perchlorate solution	Liquid Colorless Odorless Sinks and mixes with water
Fire	Not flammable Will increase the intensity of a fire May cause fire on contact with combustibles Containers may explode in fire POISONOUS GASES MAY BE PRODUCED IN FIRE
Exposure	VAPOR Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing LIQUID Will burn skin and eyes If swallowed will cause nausea and vomiting
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-4 Issue warning: corrosive/oxidizing material Restrict access Disperse and flush	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Dioxonium perchlorate solution or Perchloric acid solution 3.2 Coast Guard Compatibility Classification Not listed 3.3 Chemical Formula: $\text{HClO}_4 \cdot \text{H}_2\text{O}$ 3.4 IMCO/United Nations Numerical Designation: 8+ (H ⁺)(ClO ₄ ⁻) acids < 1002 less than 50% acids	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: None
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Rubber gloves, face shield or vapor-tight chemicals eye safety goggles, rubber apron, rubber boots or shoes 5.2 Symptoms Following Exposure: Inhalation of vapors or mist causes burning sensation of nose and throat, and lung irritation with coughing; prolonged or excessive exposure could cause vomiting and severe swelling. Ingestion causes blistering and burns of mouth and stomach. Contact with eyes or skin causes blistering and burns. 5.3 Treatment for Exposure: <i>Get medical attention as following all exposures to this compound.</i> INHALATION: move to fresh air, give oxygen if necessary. INGESTION: give large amounts of water. EYES: flush with water for at least 15 min. SKIN: flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: 0.1 g/l air	

6. NOTES									

PERCHLOROMETHYL MERCAPTAN

Common Synonyms		Liquid	Yellow to orange red	Strong, unpleasant odor
Trichloromethyl sulfoxide Trichloroethyl sulfonchloride Trichloromethane sulfoxyl chloride		Sinks in water. Poisonous vapor is produced.		
Fire		Not flammable POISONOUS GASES MAY BE PRODUCED WHEN HEATED		
		VAPOR POISONOUS IF INHALED Irritating to eyes, nose and throat.		
		LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED Irritating to eyes.		
Water Pollution		Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.		
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 44-4 Issue warning: poison water contaminant; air contaminant. Restrict access. Disperse and flush.		2 LABEL 		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Trichloromethanesulfenyl chloride; Trichloromethane sulphuryl chloride; Trichloroethyl sulphochloride; Trichloromethylsulur chloride. 3.2 Coast Guard Competibility Classification: Not applicable. 3.3 Chemical Formula: CCl ₃ SOCl. 3.4 IMCO/United Nations Numerical Designation: F + 1670.		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Bright yellow; pale yellow; range, red. 4.3 Odor: In excess, unpleasant strong; unbearable strongly acid.		
5 HEALTH HAZARDS				
5.1 Personal Protective Equipment: Organic and acid vaporizer mask or self-contained breathing apparatus; goggles or face shield; rubber gloves. 5.2 Symptoms Following Exposure: Inhalation may cause severe irritation of upper respiratory tract. Brief exposure to low concentration may produce central nervous system depression and lung, liver, and heart congestion. Severe exposures may be fatal. Contact of liquid with eyes causes immediate eye irritation and severe conjunctivitis if not promptly washed away; severe conjugal damage may result. Liquid also causes severe local skin irritation; may be absorbed through skin in quantities sufficient to produce systemic poisoning. Ingestion may cause damage to the membranes of the mouth, chest, and gastro-intestinal tract. Pain and burning of the mouth and throat, nausea, vomiting, cramps and diarrhea may occur. In severe cases toxic ulceration of central nervous system depression may result. 5.3 Treatment for Exposure: Get medical attention following all exposures to this compound. INHALATION: remove victim to fresh air; get enough to mouth resuscitation if needed. EYES: flush with copious amount of physician's quality labeled chemical safety eyewash. SKIN: flush with water. INGESTION: give large amounts of water; then induce vomiting until vomitus is clear; give milk, eggs, or some other foodstuffs as desired. 5.4 Toxicity by Inhalation (Threshold Limit Value): 10 ppm. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade 3 - LD ₅₀ = 0.5 g/kg rats. 5.7 Late Toxicity: Data not available.				

6 FIRE HAZARDS 6.1 Flash Point: Not flammable 6.2 Flammable Limits in Air: Not flammable 6.3 Fire Extinguishing Agents: Not pertinent 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: Very irritating vapors formed from hot material. May form toxic phosphine gas, hydrogen chloride, and sulfur dioxide. 6.6 Behavior in Fire: At elevated temperatures will decompose to carbon tetrachloride, sulfur chloride, and heavy oils polymers. 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazards: Not pertinent 6.9 Burning Rate: Not pertinent	8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterway Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts only when not in gas; carbon dioxide, hydrochloric acid, and sulfur 7.2 Reactivity with Common Materials: Reacts with iron or steel, evolving carbon tetrachloride. Corrosive to most metals 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Flood with water, rinse with dilute sodium bicarbonate or lime solution 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	9 SELECTED MANUFACTURERS 1. NOTES	

REVISED 1978

PTN

PETROLEUM NAPHTHA

Common Synonyms: Petroleum solvent	Liquid Colorless Gasoline odor Floats on water. Flammable vapor is produced.
Fire FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.	
Exposure VAPOR Not irritating to eyes, nose, or throat. LIQUID Harmful if swallowed.	
Water Pollution Effect of low concentration on aquatic life is unknown. Fouling to shoreline. May be dangerous if it enters water intakes.	
1 RESPONSE TO DISCHARGE See Response Methods Handbook (CS 444.4) Use warning: High Temperature Resistances Flammable	2. LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Petroleum solvent 3.2 Coast Guard Compatibility Classification: Miscellaneous hydrocarbon mixtures 3.3 Chemical Formula: Not applicable 3.4 IMCO United Nations Numerical Designation: 2200	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Gasoline odor
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Not applicable 5.2 Symptoms Following Exposure: Irritation to eyes, nose, and throat. Liquid may cause skin irritation. 5.3 Treatment for Exposure: INHALATION: Move to fresh air. INGESTION: Do not induce vomiting. NOT TO BE USED FOR EYE WASHING. SKIN: Wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not applicable 5.5 Short-Term Inhalation Limits: Not applicable 5.6 Toxicity by Ingestion: Not applicable 5.7 Late Toxicity: None 5.8 Vapor (Gas) Irritant Characteristics: Vapor is not irritating to eyes, nose, and throat. 5.9 Liquid or Solid Irritant Characteristics: Not applicable 5.10 Odor Threshold: Data not available	

6 FIRE HAZARDS

- 6.1 Flash Point: 10 to 15°C (50 to 60°F)
- 6.2 Flammable Limits in Air: 0.7 to 7.4%
- 6.3 Fire Extinguishing Agents: Foam, carbon dioxide, dry chemical
- 6.4 Fire Extinguishing Agents Not to be Used: Water, alcohol
- 6.5 Special Hazards of Combustion Products: None
- 6.6 Behavior in Fire: Not pertinent
- 6.7 Ignition Temperature: 400 to 450°C

- 13.16 Heat of Polymerization: Not pertinent

NOTES

PHN

PHENOL

Common Synonyms: Carbolic Acid Hydroxybenzene	Solid crystals or watery liquid May float on water and mixes slowly with water	White solid or light pink liquid Sweet tarry odor
Fire LIQUID OR SOLID POISONOUS IF SWALLOWED Will burn skin and eyes Exposure		
Water Pollution	HAZARDOUS TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intake	
1. RESPONSE TO DISCHARGE See Hazardous Waste Management Manual, 1980 EPA 40 CFR 117 RCRA 40 CFR 117 SARA 40 CFR 117 Chemical Safety and Hazard Investigation	2. LABEL 	
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Carbolic Acid Hydroxybenzene Phenol Carbolic Acid 3.2 Coast Guard Compatibility Classification Phenol 3.3 Chemical Formula: C ₆ H ₅ OH 3.4 IMCO United Nations Numerical Designation: 1500	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid Solid 4.2 Color: Colorless to pinkish 4.3 Odor: Sweet tarry odor 4.4 Other Characteristics: Highly corrosive to metals and organic materials	
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Wear protective clothing and footwear. Use gloves when handling. 5.2 Symptoms Following Exposure: With acute exposure, irritation of the skin, eyes, and respiratory tract is observed. Ingestion causes severe irritation of the mouth and throat and death. 5.3 Treatment for Exposure: INHALATION: Remove from exposure. If breathing stops, give artificial respiration. INGESTION: Do NOT induce vomiting. Give milk or water. If eyes are exposed, flush with water for 15 minutes. If skin is exposed, wash with soap and water for 15 minutes. If swallowed, drink milk or water and seek medical attention immediately. 5.4 Toxicity by Inhalation (Threshold Limit Value): 5 ppm as airborne exposure 5.5 Short-Term Inhalation Limits: Do not inhale 5.6 Toxicity by Ingestion: Lethal T.D. ₅₀ 1.5 g/kg 5.7 Late Toxicity: Carcinogenic in laboratory animals 5.8 Vapor (Gas) Irritant Characteristics: Vapor causes severe irritation of the respiratory tract and death if inhaled for prolonged periods. 5.9 Liquid or Solid Irritant Characteristics: Liquid or solid causes severe irritation of the skin and eyes and death if swallowed. 5.10 Odor Threshold: 0.05 ppm		

6. FIRE HAZARDS

- 6.1 Flash Point: 100°C (212°F)
6.2 Flammable Limits in Air: 1.1-7.1%
6.3 Fire Extinguishing Agents: Water, foam, carbon dioxide, dry chemical
6.4 Fire Extinguishing Agents Not to be Used: None
6.5 Special Hazards of Combustion Products: Toxic and irritating vapors are evolved when heated
6.6 Behavior in Fire: Solid phenol decomposes when heated which will form expensive materials
6.7 Ignition Temperature: 391°C
6.8 Electrical Hazard: Not pertinent
6.9 Burning Rate: 1.5 g/min

7. CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: No reaction
7.2 Reactivity with Common Materials: No reaction
7.3 Stability During Transport: Stable
7.4 Neutralizing Agents for Acids and Caustics: Not pertinent
7.5 Polymerization: Not pertinent
7.6 Inhibitor of Polymerization: Not pertinent

8. WATER POLLUTION

- 8.1 Aquatic Toxicity: 250 mg/L (250 ppm) in fresh water
8.2 Waterfowl Toxicity: Data not available
8.3 Biological Oxygen Demand (BOD): 240 mg/L
8.4 Food Chain Concentration Potential: None

PHENYLDICHLOROARSINE, LIQUID

Common Synonyms Phenylarsene dichloride	Physical State Liquid Color Colorless to yellow Odor Weak unpleasant odor Sinks in water
Fire	
 Exposure LIQUID POISONOUS IF SWALLOWED Will burn skin and eyes.	
Water Pollution	
1 RESPONSE TO DISCHARGE See Response to Material Handling (CS 446.4) Issue warning: phenylarsine dichloride Contain material in water Restrict access Disperse and flush	2 LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Phenylarsene dichloride 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: $C_6H_5AsCl_2$ 3.4 IMCO/United Nations Numerical Designation: A+ 159	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless to yellow 4.3 Odor: Weak, barely unpleasant
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Full protective suit including gloves, boots, hood and breathing apparatus 5.2 Symptoms Following Exposure: Irritation of eyes, skin and respiratory tract with pain, redness and systemic effects. Vapor may cause eye burns, respiratory irritation, and systemic effects. Ingestion causes severe irritation of the mouth and stomach. 5.3 Treatment for Exposure: For moderate exposure, remove the person from the exposure area. If breathing has ceased, INHALATION: remove victim from exposure; give artificial respiration. If breathing has ceased, EYES: immediately wash with the generous amount of water for at least 15 min. SKIN: flush with water and wash well with soap and water. compound can be absorbed through skin and cause systemic effects. INGESTION: do not induce vomiting. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available	

6 FIRE HAZARDS 6.1 Flash Point: Data not available 6.2 Flammable Limits in Air: Data not available 6.3 Fire Extinguishing Agents: Water 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: Highly toxic as combustion product when heated 6.6 Behavior in Fire: Data not available 6.7 Ignition Temperature: Data not available 6.8 Electrical Hazard: Data not available 6.9 Burning Rate: Not pertinent	8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterford Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: Very slow reaction; no hazardous products formed 7.2 Reactivity with Common Materials: Corrodes metals because of acid nature 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	9 SELECTED MANUFACTURERS Aldrich Chemicals, Inc. 30 Anderson St. Danvers, Mass. 01923 Ventron Corporation Alfa Products Division 13 Congress St. Beverly, Mass. 01915

PHH

PHENYLHYDRAZINE HYDROCHLORIDE

Common Synonyms: Phenylhydrazine chloride		Solid	White to tan	Weak odor
Sinks and mixes with water				
Fire		Combustible POISONOUS GASES MAY BE PRODUCED IN FIRE		
		DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing.		
HAZARDOUS		SOLID POISONOUS IF SWALLOWED If swallowed will cause nausea		
Water Pollution		Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.		
1 RESPONSE TO DISCHARGE See Response to Methods Manual, CG 444.4 If swallowed, do not induce vomiting. If inhaled, move to fresh air. If on skin, flush with water.		2. LABEL 		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Phenylhydrazine chloride 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: C ₁₀ H ₁₀ N ₂ Cl ₂ 3.4 IMCO/United Nations Numerical Designation: Not listed		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White to tan 4.3 Odor: Weak ammonia		
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust goggles or rubber goggles, gloves. 5.2 Symptoms Following Exposure: Inhalation of dust may irritate the respiratory tract. If swallowed, the material may cause severe symptoms as described. Phenylhydrazine is a strong poison. Ingestion of various quantities of this material may cause nausea and vomiting, and may cause anemia and liver injury. Contact with eyes causes irritation. Contact with skin causes irritation and dermatitis. 5.3 Treatment for Exposure: INHALATION: Move to fresh air. Get medical attention. If swallowed, give large amount of water and see medical attention. If inhaled, flush with water for at least 15 min. If exposure is prolonged or repeated, get medical attention. SKIN: Flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Data not available. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Color Threshold: Data not available.				

6 FIRE HAZARDS 6.1 Flash Point: Not pertinent. 6.2 Flammable Limits in Air: Not pertinent. 6.3 Fire Extinguishing Agents: Water, foam, dry chemical, carbon dioxide. 6.4 Fire Extinguishing Agents Not to be Used: 6.5 Special Hazards of Combustion Products: Toxic and irritating gases. In fire, phenylhydrazine chloride may form nitrobenzene. 6.6 Behavior in Fire: The solid may melt, burn, and release irritating and deposit smoke particles. 6.7 Ignition Temperature: Data not available. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Not pertinent.	8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): Data not available. 8.4 Food Chain Concentration Potential: None.
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: Not pertinent. 7.2 Reactivity with Common Materials: May be irritant to some metals. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9 SELECTED MANUFACTURERS Eastman Organic Chemicals 400 State Street Rochester, N.Y. 14650 Aldrich Chemical Co. 231 W. Main Street Milwaukee, Wis. 53233 Gallard Schlegel Chemical Mfg. Co. 104 Niagara Ave. Erie, Pa. 16512
11 HAZARD ASSESSMENT CODE See Hazard Assessment Manual, CG 444.4 **	10 SHIPPING INFORMATION 10.1 Grades or Purities: Commercial, Pure. 10.2 Storage Temperature: Ambient. 10.3 Inert Atmosphere: Not required. 10.4 Venting: Open.
12. HAZARD CLASSIFICATIONS 12.1 Code of Federal Regulations: Phenylhydrazine, Class B. 12.2 NAS Hazard Rating for Bulk Water Transportation: Not listed. 12.3 NFPA Hazard Classifications: Not listed.	13 PHYSICAL AND CHEMICAL PROPERTIES 13.1 Physical State at 15°C and 1 atm: Solid. 13.2 Molecular Weight: 224.4. 13.3 Boiling Point at 1 atm: Not pertinent (decomposes). 13.4 Freezing Point: Data not available. 13.5 Critical Temperature: Not pertinent. 13.6 Critical Pressure: Not pertinent. 13.7 Specific Gravity: Not listed (at 20°C liquid). 13.8 Liquid Surface Tension: Not pertinent. 13.9 Liquid-Water Interfacial Tension: Not pertinent. 13.10 Vapor (Gas) Specific Gravity: Not pertinent. 13.11 Ratio of Specific Heats of Vapor (Gas): Not pertinent. 13.12 Latent Heat of Vaporization: Not pertinent. 13.13 Heat of Combustion: Not pertinent. 13.14 Heat of Decomposition: Not pertinent. 13.15 Heat of Polymerization: Not pertinent. 13.16 Heat of Polymerization: Not pertinent.

PAC	PHOSPHORIC ACID
------------	--------------------------

Common Synonyms Orthophosphoric acid	Thick liquid Colorless Odorless Sinks and mixes with water
Fire	Not flammable Flammable gas is formed on contact with metals
Exposure	LIQUID Will burn skin and eyes If swallowed, will cause nausea, vomiting, or loss of consciousness
Water Pollution	Dangerous to aquatic life in high concentration May be dangerous if it enters water intakes
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning - corrosive Restrict access Disperse and flush	2 LABEL  CORROSIVE
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Orthophosphoric acid 3.2 Coast Guard Compatibility Classification: Non-oxidizing mineral acid 3.3 Chemical Formula: H_3PO_4 3.4 IMCO/United Nations Numerical Designation: 9.0-1805	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Odorless
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles, face shield, rubber gloves and protective clothing. 5.2 Symptoms Following Exposure: Burns on mouth and lips, sour, acid taste, severe gastrointestinal irritation, nausea, vomiting, bloody diarrhea, difficulty swallowing, severe abdominal pains, thirst, urgent, difficult breathing, convulsions, collapse, shock, death. 5.3 Treatment for Exposure: INGESTION do NOT induce vomiting, give water, milk, or vegetable oil. SKIN OR EYE CONTACT flush with water for at least 15 min. 5.4 Toxicity by Inhalation (Threshold Limit Value): 1.0 mg/m³ 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: Grade 3 LD₅₀ 10 to 500 mg/kg 5.7 Late Toxicity: None 5.8 Vapor (Gas) Irritant Characteristics: Not volatile 5.9 Liquid or Solid Irritant Characteristics: Early severe skin irritation may cause pain and second degree burns after a few minutes contact. 5.10 Odor Threshold: Not pertinent	

6 FIRE HAZARDS 6.1 Flash Point: Not flammable 6.2 Flammable Limits in Air: Not flammable 6.3 Fire Extinguishing Agents: Not pertinent 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: Not flammable 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not flammable	8 WATER POLLUTION 8.1 Aquatic Toxicity: 1.5 ppm, 24 hr. mosquito fish, 21 hr. fresh water 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (50°): None 8.4 Food Chain Concentration Potential: None																																				
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Mild evolution of heat 7.2 Reactivity with Common Materials: Reacts with metals to form flammable hydrogen gas 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Flammable water neutralizes with time 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent

PPO

PHOSPHORUS OXYCHLORIDE

Common Synonyms		Oily liquid	Colorless to light yellow	Musty odor
		Fumes in air, sinks and reacts with water. Poisonous gas is produced. Freezing point is 34°F.		
Fire		Not flammable		
		VAPOR Irritating to eyes, nose, and throat. Painful if inhaled.		
		LIQUID Will burn skin and eyes. Harmful if swallowed.		
Water Pollution		Dangerous to aquatic life in high concentrations. May be dangerous if it enters water intakes.		
1. RESPONSE TO DISCHARGE		2. LABEL		
See Response Methods Handbook, CG 446.4. Issue warning: Corrosive. Restrict access. Dilute and flush with care.				
3. CHEMICAL DESIGNATIONS		4. OBSERVABLE CHARACTERISTICS		
3.1 Synonyms: Phosphorus chloride		4.1 Physical State (as shipped): Liquid		
3.2 Coast Guard Compatibility Classification Not applicable		4.2 Color: Colorless to pale yellow		
3.3 Chemical Formula: POCl ₃		4.3 Odor: Pungent and musty; disagreeable and lingering		
3.4 IMCO/United Nations Numerical Designation: 801N10				
5. HEALTH HAZARDS				
5.1 Personal Protective Equipment: Chemical safety goggles; face shield; self-contained or air-line respirator; hard hat; foot protection; rubber gloves and clothing.				
5.2 Symptoms Following Exposure: Vapors burn eyes and respiratory tract. Liquid is very corrosive to body tissues because of reaction with water to form hydrochloric and phosphoric acids.				
5.3 Treatment for Exposure: CAUTION: persons doing treatment should protect themselves against exposure. INHALATION: remove victim from contaminated area if once; if breathing has stopped, start artificial respiration; call a doctor. INGESTION: give water or milk; do NOT induce vomiting. SKIN: remove contaminated clothing and flood exposed skin surfaces with water. EYES: retract eyelids and wash with water for at least 15 min; call a doctor.				
5.4 Toxicity by Inhalation (Threshold Limit Value): 0.5 ppm				
5.5 Short-Term Inhalation Limits: Data not available				
5.6 Toxicity by Ingestion: Grade 3, oral rat LD ₅₀ = 350 mg/kg				
5.7 Late Toxicity: Data not available				
5.8 Vapor (Gas) Irritant Characteristics: Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.				
5.9 Liquid or Solid Irritant Characteristics: Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes.				
5.10 Odor Threshold: Data not available				

6 FIRE HAZARDS		8 WATER POLLUTION	
6.1	Flash Point: Not flammable	8.1	Aquatic Toxicity: Data not available
6.2	Flammable Limits in Air: Not flammable	8.2	Waterfowl Toxicity: Data not available
6.3	Fire Extinguishing Agents: Sand and carbon dioxide on adjacent fires	8.3	Biological Oxygen Demand (BOD): None
6.4	Fire Extinguishing Agents Not to be Used: Water	8.4	Food Chain Concentration Potential: None
6.5	Special Hazards of Combustion Products: Not pertinent		
6.6	Behavior in Fire: Poisonous, corrosive, irritating gases are generated when heated or when in contact with water		
6.7	Ignition Temperature: Not flammable		
6.8	Electrical Hazard: Not pertinent		
6.9	Burning Rate: Not flammable		
		9 SELECTED MANUFACTURERS	
		1	EMC Corp. Organic Chemicals Division 604 E. 4th Ave. New York, N.Y. 10017
		2	Monsanto Co. Monsanto Industrial Chemicals Co. 800 North Lindbergh Blvd. St. Louis, Mo. 63166
		3	Stauffer Chemical Co. Specialty Chemical Division Cold Creek, Ala. 36512
7 CHEMICAL REACTIVITY			
7.1	Reactivity with Water: Vigorous reaction with evolution of hydrogen chloride fumes		
7.2	Reactivity with Common Materials: Corrosive to most metals except nickel and lead. Products of its reaction with water rapidly corrode steel and most metals with formation of flammable hydrogen gas		
7.3	Stability During Transport: Stable		
7.4	Neutralizing Agents for Acids and Caustics: Flush with water; neutralize acids or mixed with lime or soda ash		
7.5	Polymerization: Not pertinent		
7.6	Inhibitor of Polymerization: Not pertinent		
		10 SHIPPING INFORMATION	
		10.1	Grades or Purity: 99.99%
		10.2	Storage Temperature: Above 35°F

REVISED 1978

PPP

PHOSPHORUS PENTASULFIDE

Common Synonyms	Solid flakes or powder. Yellow to green. Odorless or rotten egg odor. Smells and reacts with water. Poisonous gas is produced.
Fire	FLAMMABLE MAY BE IGNITED BY SPARK, FRICTION, OR STATIC DISCHARGE. Containers may explode in fire. POISONOUS, IRRITATING GASES ARE PRODUCED IN FIRE.
Exposure	AIR DUST Irritating to eyes, nose and throat. SOLID Irritating to skin and eyes. Harmful if swallowed.
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446.4. Issues warning: high flammability, poison. Restrict access. Evacuate area. Should be removed.	2. LABELS 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Phosphorus sulfide, Phosphorus persulfide, Thiophosphoric anhydride. 3.2 Coast Guard Compatibility Classification: Not applicable. 3.3 Chemical Formula: P ₂ S ₅ , P ₂ S ₄ . 3.4 IMCO/United Nations Numerical Designation: 411340.	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid. 4.2 Color: Light greenish yellow, greenish gray. 4.3 Odor: Like rotten eggs. High (lethal) concentrations can paralyze the sense of smell.
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Chemical safety goggles, plastic face shield, self-contained or air-line respirator. 5.2 Symptoms Following Exposure: Hydrogen sulfide gas formed by reaction with moisture can cause death by respiratory failure. The gas also irritates eyes and respiratory system. The solid irritates skin and eyes; the symptoms may be delayed several hours. 5.3 Treatment for Exposure: INHALATION: remove victim from contaminated area; if breathing has stopped, begin artificial respiration. INGESTION: induce vomiting; call physician. SKIN: remove contaminated clothing and wash areas with large amounts of water. EYES: flush with large amounts of water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 10 ppm (hydrogen sulfide). 5.5 Short-Term Inhalation Limits: 20 ppm for 5 min (hydrogen sulfide). 5.6 Toxicity by Ingestion: Data not available. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Hydrogen sulfide gas, formed by reaction with moisture, causes severe irritation of eyes and throat and can cause eye and lung injury; it cannot be tolerated even at low concentrations. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause stinging and reddening of the skin. 5.10 Odor Threshold: 0.0037 ppm (hydrogen sulfide). See also Table on page 41.	

6. FIRE HAZARDS 6.1 Flash Point: Flammable solid. 6.2 Flammable Limits in Air: Not pertinent. 6.3 Fire Extinguishing Agents: Sand and carbon dioxide. 6.4 Fire Extinguishing Agents Not to be Used: Water. 6.5 Special Hazards of Combustion Products: Products of combustion include sulfur dioxide and phosphorus pentoxide, which are irritating to the respiratory tract. 6.6 Behavior in Fire: Not pertinent. 6.7 Ignition Temperature: 527°F (liquid). 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Not pertinent.	8. WATER POLLUTION 8.1 Aquatic Toxicity: Data not available. 8.2 Waterlow Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): Data not available. 8.4 Food Chain Concentration Potential: None.								
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts with liquid water or atmospheric moisture to liberate toxic hydrogen sulfide gas. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Can be ignited by friction. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9. SELECTED MANUFACTURERS 1. Monsanto Co. Monsanto Industrial Chemicals Co. 800 North Lindbergh Blvd. St. Louis, Mo. 63106. 2. Occidental Petroleum Corp. Hess Chemical Corp. Industrial Chemicals Div. Niagara Falls, N.Y. 14202. 3. Stauffer Chemical Co. Specialty Chemical Division Morrisville, Pa. 19067.								
11. HAZARD ASSESSMENT CODE (See Hazard Assessment Handbook, CG 446.3) RR C	10. SHIPPING INFORMATION 10.1 Grades or Purity: Regular, low reactivity; reactive, high reactivity; distilled, undistilled, all 99+. 10.2 Storage Temperature: Ambient. 10.3 Inert Atmosphere: No requirement. 10.4 Venting: Sealed containers must be stored in a well-ventilated area.								
12. PBR

PHOSPHORUS TRIBROMIDE

Common Synonyms Phosphorus bromide		Liquid	Colorless to pale yellow	Sharp, penetrating odor
		Sinks and mixes violently with water		
Fire		Not flammable Irritating gases may be produced when heated		
Exposure		LIQUID Will burn skin and eyes. If swallowed will cause nausea. Respiratory irritation may occur. Inhalation causes severe irritation of nose, throat, and lungs. Ingestion causes burns of mouth and stomach. Contact with eyes or skin causes severe burns.		
Water Pollution		Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4)		2. LABEL		
Issue warning: Corrosive air contaminant, water contaminant. Restrict access. Dispense and flush.				
3. CHEMICAL DESIGNATIONS		4. OBSERVABLE CHARACTERISTICS		
31 Synonyms: Phosphorus bromide		41 Physical State (as shipped): Liquid		
32 Coast Guard Compatibility Classification: Not listed		42 Color: Colorless or slightly yellow		
33 Chemical Formula: PBr_3		43 Odor: Pungent, sharp, penetrating		
34 IMCO/United Nations Numerical Designation: N 1808				
5. HEALTH HAZARDS				
51 Personal Protective Equipment: Acid gas canister type mask (full face type for emergency use), chemical safety goggles, apron, gloves, clothing, and safety shoes all made from rubber.				
52 Symptoms Following Exposure: Inhalation causes severe irritation of nose, throat, and lungs. Ingestion causes burns of mouth and stomach. Contact with eyes or skin causes severe burns.				
53 Treatment for Exposure: INHALATION: remove victim to clean air; if necessary, apply artificial respiration and/or administer oxygen. INGESTION: dilute by drinking water, then neutralize with milk of magnesia, egg white, etc. do not use sodium bicarbonate. EYES: immediately flush with large amounts of water for at least 15 min. SKIN: immediately flush with large amounts of water; remove contaminated clothing.				
54 Toxicity by Inhalation (Threshold Limit Value): Data not available				
55 Short-Term Inhalation Limits: Data not available				
56 Toxicity by Ingestion: Data not available				
57 Late Toxicity: Data not available				
58 Vapor (Gas) Irritant Characteristics: Data not available				
59 Liquid or Solid Irritant Characteristics: Data not available				
510 Odor Threshold: Data not available				

6 FIRE HAZARDS 6.1 Flash Point Not flammable 6.2 Flammable Limits in Air Not flammable 6.3 Fire Extinguishing Agents Not pertinent 6.4 Fire Extinguishing Agents Not to be Used: Do not use water on adjacent fires 6.5 Special Hazards of Combustion Products: Irritating hydrogen bromide and phosphoric acid vapors may form in fire 6.6 Behavior in Fire Acids formed by reaction with water will attack metals and generate flammable hydrogen gas, which may form explosive mixtures in enclosed spaces 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazard Not pertinent 6.9 Burning Rate Not pertinent	8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts violently with water, evolving hydrogen bromide, an irritating and corrosive gas; apparent as white fumes 7.2 Reactivity with Common Materials: In the presence of moisture, highly corrosive to many metals except lead and nickel 7.3 Stability During Transport: Unstable if heated 7.4 Neutralizing Agents for Acids and Caustics: Flush with water and rinse with dilute aqueous sodium bicarbonate solution 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	9. PPT

PHOSPHORUS TRICHLORIDE

Common Synonyms		Liquid	Colorless to slightly yellow	Sharp irritating for
		Fumes in air, sinks and reacts with water. Harmful vapor is produced.		
		Not flammable		
Fire				
 <u>Exposure</u>		VAPOR Irritating to eyes, nose, and throat. Harmful if inhaled. LIQUID Will burn skin and eyes. Poisonous if swallowed.		
Water Pollution		Dangerous to aquatic life in high concentrations. May be dangerous if it enters water intakes.		
1. RESPONSE TO DISCHARGE (See Response Manual Handbook, CG 446-4) Issue warning: Corrosive. Restrict access. Disperse and flush with care.		2. LABEL 		
3. CHEMICAL DESIGNATIONS 31 Synonyms: No common names. 32 Coast Guard Compatibility Classification: Not applicable. 33 Chemical Formula: PCl_3 . 34 IMCO/United Nations Numerical Designation: N.O. 1809.		4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Liquid. 42 Color: Colorless to slightly yellow. 43 Odor: Pungent irritating like hyd. chloric acid.		
5. HEALTH HAZARDS 51 Personal Protective Equipment: Chemical safety goggles, plastic face shield, self-contained or air-line respirator, safety hat, rubber gloves and protective clothing. 52 Symptoms Following Exposure: VAPOR: cause severe irritation of eyes and respiratory tract. Liquid burns eyes and skin. 53 Treatment for Exposure: CAUTION: Persons doing treatment should protect themselves. INHALATION: remove victim from contaminated area; if breathing has stopped start artificial respiration; call a doctor. INGESTION: if victim is conscious, give large quantities of water; do NOT induce vomiting; call a doctor. EYES: retract eyelids and wash eye with water for at least 15 min.; call a doctor. SKIN: remove contaminated clothing and wash exposed skin with water. 54 Toxicity by Inhalation (Threshold Limit Value): 0.5 ppm. 55 Short-Term Inhalation Limits: Data not available. 56 Toxicity by Ingestion: Grade 2, oral rat LD_{50} = 550 mg/kg. 57 Late Toxicity: None. 58 Vapor (Gas) Irritant Characteristics: Vapors cause severe irritation of eyes and nose and can cause eye and lung injury. They cannot be tolerated even at low concentrations. 59 Liquid or Solid Irritant Characteristics: Severe skin irritant. Causes second and third degree burns on short contact and is very injurious to the eyes. 510 Odor Threshold: Data not available.				

6 FIRE HAZARDS 61 Flash Point: Not flammable 62 Flammable Limits in Air: Not flammable 63 Fire Extinguishing Agents: Sand, carbon dioxide and dry chemicals on adjacent fires 64 Fire Extinguishing Agents Not to be Used: Water 65 Special Hazards of Combustion Products: Not pertinent 66 Behavior in Fire: Generates toxic irritating gases 67 Ignition Temperature: Not flammable 68 Electrical Hazard: Not pertinent 69 Burning Rate: Not flammable	8 WATER POLLUTION 8 Aquatic Toxicity: Data not available 82 Waterlow Toxicity: Data not available 83 Biological Oxygen Demand (BOD): None 84 Food Chain Concentration Potential: None										
7 CHEMICAL REACTIVITY 71 Reactivity with Water: Reacts violently and may cause flashes of fire. Hydrochloric acid fumes are formed in this reaction 72 Reactivity with Common Materials: Corrodes most common construction material. Reacts with water to form hydrochloric acid which reacts with most metals to form flammable hydrogen gas 73 Stability During Transport: Stable 74 Neutralizing Agents for Acids and Caustics: Flush with water; neutralize acids formed with lime or soda ash 75 Polymerization: Not pertinent 76 Inhibitor of Polymerization: Not pertinent	9 SELECTED MANUFACTURERS 1 EMC Corp. Organic Chemicals Division 633 Third Ave. New York, N.Y. 10012 2 Monsanto Co. Monsanto Industrial Chemicals Co. 810 North Lindbergh Blvd. St. Louis, Mo. 63166 3 Stauffer Chemical Co. PPW

PHOSPHORUS WHITE

Common synonyms: Yellow phosphorus	Waxy solid Light yellow Cathic odor Flumes and burns in air; sinks in water
	FLAMMABLE May ignite on contact with air POISONOUS, IRRITATING GASES ARE PRODUCED IN FIRE
	SOLID Will burn skin and eyes If swallowed, will cause nausea, vomiting or loss of consciousness
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 555-4 Issue warning: high flammability poison Respiratory Environmental Shouting, removal Chemical and physical treatment	2. LABELS  
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Yellow phosphorus 3.2 Coast Guard Compatibility Classification: Phosphorus, elemental 3.3 Chemical Formula: P 3.4 IMCO United Nations Numerical Designation: 4.2, 15X	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid or waxy solid 4.2 Color: Pale yellow to deep straw 4.3 Odor: Distinctive disagreeable pungent sharp like onion
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Heavy gloves and goggles; face shield 5.2 Symptoms Following Exposure: Solid or liquid causes severe burns; if inhaled, causes nausea, vomiting, and/or low blood pressure; if pressure is high, can cause death. Symptoms after onset may be delayed for 12 to 24 hours or 3 days. 5.3 Treatment for Exposure: INGESTION: if ingested, DO NOT induce vomiting; call a doctor at once. SKIN OR EYE CONTACT: immediately flush with plenty of water for at least 15 min; keep skin cool; wet until medical attention is obtained. 5.4 Toxicity by Inhalation (Threshold Limit Value): 0.1 mg/m ³ 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: Grade 4 LD ₅₀ below 50 mg/kg 5.7 Late Toxicity: Severe attack of liver and bones 5.8 Vapor (Gas) Irritant Characteristics: None 5.9 Liquid or Solid Irritant Characteristics: Severe skin irritant; causes severe and prolonged burns on skin contact and is very irritating to the eyes 5.10 Odor Threshold: Not pertinent	

6. FIRE HAZARDS 6.1 Flash Point: Ignites spontaneously in air 6.2 Flammable Limits in Air: Not pertinent 6.3 Fire Extinguishing Agents: Water 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: Fumes from burning phosphorus are highly irritating 6.6 Behavior in Fire: In case where it is not formed 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent	8. REVISED 1978

PAN

PHTHALIC ANHYDRIDE

Common Synonyms Phthalic acid anhydride PAN		Solid flakes or liquid (heated) Colorless or pale yellow Choking odor Solid sinks in water. Liquid solidifies and sinks in water.
Fire		Combustible
Exposure		DUST Irritating to eyes, nose, and throat. If inhaled, with cause coughing. LIQUID OR SOLID Will burn skin or eyes. Harmful if swallowed.
Water Pollution		Effect of low concentration on aquatic life is unknown. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446.4 Dispose and flush.		2 LABELS No hazard label required by Code of Federal Regulation.
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: 1,2-Benzenedicarboxylic anhydride; 1,3-Dioxaphthalic PAN; Phthalanone; Phthalic anhydride. 3.2 Coast Guard Compatibility Classification: Organic anhydride. 3.3 Chemical Formula: $C_{10}H_6O_4$ 3.4 IMCO, United Nations Numerical Designation: No listed.		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid liquid. 4.2 Color: Colorless or pale yellow. 4.3 Odor: Characteristic choking odor; choking acid.
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Coveralls and or rubber apron; rubber shoes or boots; chemical goggles and or face shield; Bureau of Mines organic vapor respirator (Type "E" for gasolite type leather or rubber gloves). 5.2 Symptoms Following Exposure: Solid irritates skin and eyes, causing coughing and sneezing. Liquid causes severe thermal burns. 5.3 Treatment for Exposure: INHALATION: gargle with water and use a sedative cough mixture. INGESTION: induce vomiting and give water, milk, or vegetable oil. SKIN OR EYE CONTACT: Flush with water for at least 5 min. If burned by molten material, remove as much solid as possible, soak off the remainder in cold water, and then treat the burn. 5.4 Toxicity by Inhalation (Threshold Limit Value): 2 ppm. 5.5 Short-Term Inhalation Limits: 4 ppm for 5 min. 5.6 Toxicity by Ingestion: Grade 2, LD ₅₀ 0.5 to 5 g/kg rats. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations. 5.9 Liquid or Solid Irritant Characteristics: Causes smarting of the eyes and first degree burns on short exposure; may cause secondary burns on long exposure. 5.10 Odor Threshold: 0.15-0.72 mg/m ³ .		

6 FIRE HAZARDS

6.1 Flash Point: 129°F (54°C) - 165°F (74°C)
 6.2 Flammable Limits in Air: 1.7 - 10.5%
 6.3 Fire Extinguishing Agents: Water, fog; dry chemical, carbon dioxide, or foam.
 6.4 Fire Extinguishing Agents Not to be Used: Water may cause frothing.
 6.5 Special Hazards of Combustion Products: Not pertinent.
 6.6 Behavior in Fire: Not pertinent.
 6.7 Ignition Temperature: 1055°F.
 6.8 Electrical Hazard: Not pertinent.
 6.9 Burning Rate: Data not available.

8 WATER POLLUTION

8.1 Aquatic Toxicity: >50 ppm 96 hr fathead minnow, 110% fresh water.
 8.2 Waterfowl Toxicity: Data not available.
 8.3 Biological Oxygen Demand (BOD): 100% 5 days.
 8.4 Food Chain Concentration Potential: None.

7 CHEMICAL REACTIVITY

7.1 Reactivity with Water: Solid has very slow reaction; no hazard. Liquid splatters when in contact with water.
 7.2 Reactivity with Common Materials: No reaction.
 7.3 Stability During Transport: Stable.
 7.4 Neutralizing Agents for Acids and Caustics: Water and sodium bicarbonate.
 7.5 Polymerization: Not pertinent.
 7.6 Inhibitor of Polymerization: Not pertinent.

9 SELECTED MANUFACTURERS

1. Allied Chemical Corp.
 Plastics Division
 Marlborough, N.J. 07540
 2. Koppers Co., Inc.
 Organic Materials Division
 Koppers Bldg.
 Pittsburgh, Pa. 15219
 3. Monsanto Co.
 Monsanto Industrial Chemical Co.
 800 North Lindbergh Blvd.
 St. Louis, Mo. 63116.

10 SHIPPING INFORMATION

10.1 Grades or Purities: Flake, molten, commercial, 99%.
 10.2 Storage Temperature: 26-120°F (liquids). Ambient (solids).
 10.3 Inert Atmosphere: No requirement.
 10.4 Venting: Open (flame arresters).

11 HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook, CG 446.3

PCB

POLYCHLORINATED BIPHENYL

Common Synonyms PCB Chlorinated biphenyl Aroclor		Only liquid to solid powder Sinks in water	Light yellow liquid or white powder	Weak odor
Fire		Combustible		
Exposure		LIQUID OR SOLID Irritating to skin and eyes		
Water Pollution		HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE See Response Manual Handbook, CG 446-4 If leakage, spill, or discharge must be cleaned up, it should be removed Chemically and physically as soon as		2. LABELS No hazard label required Only Federal Requirement		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Aroclor, Chlorinated biphenyls, Halogenated biphenyls, Polychlorobiphenyls 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: $C_{12}H_{10}Cl_n$ 3.4 IMCO United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid or solid 4.2 Color: Pale yellow liquid or white solid 4.3 Odor: Pungent, irritating		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Use usual protective garments 5.2 Symptoms Following Exposure: Nausea, dizziness, headache 5.3 Treatment for Exposure: N/A. Wash with soap and water 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 2, oral rat LD50 = 1990 mg/kg 5.7 Late Toxicity: Causes chromosomal abnormalities in rats, birth defects in birds 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause severe irritation of eyes and throat and cause eye and lung injury. They cannot be tolerated even at low concentrations 5.9 Liquid or Solid Irritant Characteristics: Irritation with serious cases of burns 5.10 Odor Threshold: Data not available				

6. FIRE HAZARDS 6.1 Flash Point: 226°F 6.2 Flammable Limits in Air: Data not available 6.3 Fire Extinguishing Agents: Water, dry chemical, or carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: None 6.5 Special Hazards of Combustion Products: Irritating smoke and gas 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: Data not available 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Data not available	8. WATER POLLUTION 8.1 Aquatic Toxicity: 0.2% ppm for 96 hours (114 mg/l fresh water) 0.04% ppm for 96 hours (40 mg/l fresh water) 8.2 Waterlow Toxicity: 1.0% (100 ppm) or less 8.3 Biological Oxygen Demand (BOD): None 8.4 Food Chain Concentration Potential: High
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction 7.2 Reactivity with Common Materials: No reaction 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	9. SELECTED MANUFACTURERS Monsanto Industrial Chemicals Co. Eastman Organic Chemicals Nalco Chemicals Solutia Inc.
10. SHIPPING INFORMATION 10.1 Grades or Purities: as advertised liquid, some solids which are primarily in the solid form (200 mesh weight) 10.2 Storage Temperature: Ambient 10.3 Inert Atmosphere: No requirement 10.4 Venting: Open	
11. HAZARD ASSESSMENT CODE See Hazard Assessment Handbook, CG 446-1 II	13. PPI

POLYMETHYLENE POLYPHENYL ISOCYANATE

Common Synonyms		Liquid	Dark brown	Weak odor
PAPI		Sinks in water		
Fire		Combustible Containers may explode in fire		
		LIQUID POISONOUS IF SWALLOWED Irritating to skin and eyes		
Exposure				
Water Pollution		Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes		
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446.4 Issue warning: poison water contaminant Restrict access Should be removed (Chemical and physical treatment)		2. LABEL 		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: PAPI 3.2 Coast Guard Compatibility Classification: Toxic waste 3.3 Chemical Formula: <chem>C12H10N4O4</chem> and poison 3.4 IMCO/United Nations Numerical Designation: 6.1		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Dark brown 4.3 Odor: Very weak		
5 HEALTH HAZARDS				
5.1 Personal Protective Equipment: Air filter or gas canister mask, goggles, face shield, rubber gloves and, if possible, rubber boots, protective suit and mask				
5.2 Symptoms Following Exposure: Inhalation causes throat burning, chest discomfort and reduced pulmonary function; when cough and sputum is associated with irritation of throat, eyes and skin. Ingestion causes irritation of mouth and stomach				
5.3 Treatment for Exposure: For moderate to severe inhalation exposures to this compound INITIAL ACTION: remove victim to fresh air and encourage nasal respiration. If breathing is stopped, oxygen can be given by qualified personnel. IF SEVERE: immediately wash with large amounts water. If at least 10 min. SKIN: flush immediately with water. If persistent, treat with first aid guidelines for burns, shock and wash with soap and water. INGESTION: induce vomiting if at least 15 min. giving activated charcoal (10g/kg) if possible. If severe, treat with a qualitative and quantitative analysis of the compound				
5.4 Toxicity by Inhalation (Threshold Limit Value): 0.02 ppm				
5.5 Short-Term Inhalation Limits: Data not available				
5.6 Toxicity by Ingestion: Grade I LD-50 is 1.5 g/kg				
5.7 Late Toxicity: Data not available				
5.8 Vapor (Gas) Irritant Characteristics: Vapor and liquid are irritating such that personnel will not usually tolerate moderate or high concentrations				
5.9 Liquid or Solid Irritant Characteristics: Causes irritating to the skin and the degree burns short exposure may cause second degree burns in some exposure				
Odor Threshold: Data not available				

6 FIRE HAZARDS

- 6.1 Flash Point: 475 F (246 C)
- 6.2 Flammable Limits in Air: Not pertinent
- 6.3 Fire Extinguishing Agents: Dry chemical
or carbon dioxide
- 6.4 Fire Extinguishing Agents Not to be Used:
Not pertinent
- 6.5 Special Hazards of Combustion Products:
Not pertinent
- 6.6 Behavior in Fire: Containers may explode
- 6.7 Ignition Temperature: Data not available
- 6.8 Electrical Hazard: Not pertinent
- 6.9 Burning Rate: Data not available

8 WATER POLLUTION

- 8.1 Aquatic Toxicity: Data not available
- 8.2 Waterfowl Toxicity: Data not available
- 8.3 Biological Oxygen Demand (BOD):
Data not available
- 8.4 Food Chain Concentration Potential:
None

9 SELECTED MANUFACTURERS

The following companies
Polymer Chemicals Division
P.O. Box 600
Dallas, Texas 75201

7 CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: Reacts slowly
forming heavy foam and liberating carbon
dioxide gas. Dangerous pressure can
build up if container is sealed
- 7.2 Reactivity with Common Materials: No
hazardous reaction when mixed with
acids
- 7.3 Stability During Transport: Stable if kept
sealed and dry
- 7.4 Neutralizing Agents for Acids and
Caustics: Not pertinent
- 7.5 Polymerization: Not pertinent
- 7.6 Inhibitor of Polymerization: Not pertinent

10 SHIPPING INFORMATION

- 10.1 Grades or Purity: 99% methylene
bisphenol A plus 99% polymer
- 10.2 Storage Temperature: 15-25 F
- 10.3 Inert Atmosphere: Low pressure dry
nitrogen
- 10.4 Venting: Safety relief

PGC

POLYPROPYLENE GLYCOL

Common Synonyms are: Polyoxypropylene glycol Polyoxypropylene glycol Plurac A polyol		Liquid	Colorless	Odorless or mild sweet odor
		May float or sink in water		
Fire	Combustible			
Exposure	LIQUID Irritating to eyes. Harmful if swallowed			
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes			
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning - water contaminant Mechanical containment Should be removed Disperse and flush		2. LABELS as listed required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Polyoxypropylene glycol Polyoxypropylene ether PPG-4 Plurac [®] polyol Polyoxypropylene glycol's P400 to P4000 Thionol PPG 3.2 Coast Guard Compatibility Classification: Alcohols (6) 3.3 Chemical Formula: $\text{HO}(\text{CH}_2\text{CH}(\text{CH}_3)\text{O}(\text{CH}_2\text{CH}(\text{CH}_3)\text{O}))_n\text{H}$ n averages 2-44 <i>(Continued on Page 4)</i>		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless to light yellow 4.3 Odor: None, slight sweet faint ether like		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Safety glasses or face shield, rubber gloves 5.2 Symptoms Following Exposure: The compound has a very low toxicity. Few if any symptoms will be observed. Contact of liquid with eyes causes slight transient pain and irritation similar to that caused by a mild soap. 5.3 Treatment for Exposure: EYES: flush with water until mild irritation is gone. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: depends on molecular weight Grade 1 LD ₅₀ = 150 mg/kg (rats) Grade 1 LD ₅₀ = 15 g/kg Grade 0 LD ₅₀ > 15 g/kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Not pertinent				

6 FIRE HAZARDS

- 6.1 **Flash Point:** 190-195 F (90-90 C)
 6.2 **Flammable Limits in Air:** Not pertinent
 6.3 **Fire Extinguishing Agents:** Water, dry chemical, foam, carbon dioxide
 6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
 6.5 **Special Hazards of Combustion Products:** Not pertinent
 6.6 **Behavior in Fire:** Not pertinent
 6.7 **Ignition Temperature:** Data not available
 6.8 **Electrical Hazard:** Not pertinent
 6.9 **Burning Rate:** Data not available

8 WATER POLLUTION

- 8.1 **Aquatic Toxicity:** Data not available
 8.2 **Waterlow Toxicity:** Data not available

7 CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** No reaction
 7.2 **Reactivity with Common Materials:** No reaction
 7.3 **Stability During Transport:** Stable
 7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
 7.5 **Polymerization:** Not pertinent
 7.6 **Inhibitor of Polymerization:** Not pertinent

10. SHIPPING INFORMATION

- 10.1 **Grades or Purity:**
 Low mol. wt. (insoluble in water)
 Medium mol. wt. (2% soluble in water)
 High mol. wt. (insoluble in water)
 10.2 **Storage Temperature:** Below 140 F
 10.3 **Inert Atmosphere:** No requirement
 10.4 **Venting:** Open (flame arrester)

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 446-3)
 H-1, X-1

12. HAZARD CLASSIFICATIONS

- 12.1 **Code of Federal Regulations:** Not listed
 12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed
 12.3 **NFPA Hazard Classifications:** Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 **Physical State at 15°C and 1 atm:** Liquid
 13.2 **Molecular Weight:** Variable (200 to 2000)
 13.3 **Boiling Point at 1 atm:** Not pertinent (to compounds)
 13.4 **Freezing Point:** -22 to -55 F
 = -30 to -50 C = 233 to 213 K
 13.5 **Critical Temperature:** Not pertinent
 13.6 **Critical Pressure:** Not pertinent
 13.7 **Specific Gravity:** 0.912 at 20 C (liquid)
 13.8 **Liquid Surface Tension:** Data not available
 13.9 **Liquid-Water Interfacial Tension:** Not pertinent
 13.10 **Vapor (Gas) Specific Gravity:** Not pertinent
 13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent
 13.12 **Latent Heat of Vaporization:** Not pertinent
 13.13 **Heat of Combustion:** -14,200 Btu/lb
 = -7,300 cal/g = -30 X 10³ J/kg
 13.14 **Heat of Decomposition:** Not pertinent
 13.15 **Heat of Solution:** Not pertinent
 13.16 **Heat of Polymerization:** Not pertinent

REVISED 1978

PTM

POTASSIUM, METALLIC

Common Synonyms	Subst	Silver white	Odorless
Reacts violently with water Flammable gas is produced			
Fire	Combustible IGNITES WHEN EXPOSED TO WATER OR MOISTURE Flammable gas is produced on contact with water		
Exposure	SOLID Will burn skin and eyes		
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning - high flammability corrosive Restrict access Disperse and flush		2. LABELS  	
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: No common synonyms 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: K 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Silvery white 4.3 Odor: None	
5. HEALTH HAZARDS 5.1 Personal protective equipment: Goggles or eye shield, rubber gloves 5.2 Symptoms Following Exposure: Contact with eyes or skin causes severe burn 5.3 Treatment for Exposure: EYES or SKIN: flush with water; treat caustic burns 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: Not pertinent 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Not pertinent			

6. FIRE HAZARDS 6.1 Flash Point: Not pertinent (combustible solid) 6.2 Flammable Limits in Air: Not pertinent 6.3 Fire Extinguishing Agents: Graphite and sodium chloride 6.4 Fire Extinguishing Agents Not to be Used: Water, foam, carbon dioxide or halogenated hydrocarbons 6.5 Special Hazards of Combustion Products: 6.6 Behavior in Fire: Reacts violently with water, forming flammable and explosive hydrogen gas. May ignite spontaneously in air. 6.7 Ignition Temperature: Data not available 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent	8. WATER POLLUTION 8.1 Aquatic Toxicity: 80 ppm/24 hr. (mosquitoes in 11 m. fresh water) 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): None 8.4 Food Chain Concentration Potential: None
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts violently to form flammable hydrogen gas and a strong caustic solution. 7.2 Reactivity with Common Materials: May ignite combustible materials if they are dry. 7.3 Stability During Transport: Stable if protected from air and moisture. 7.4 Neutralizing Agents for Acids and Caustics: Caustic formed by reaction with water should be flushed with water; other area can be rinsed with dilute acetic acid. 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	9. SELECTED MANUFACTURERS 1. Keweenaw Industries, Inc. 220 East 42 St. New York, N.Y. 10017 2. Gallard-Schlesinger Chemical Mfg. Co. 384 Mincola Ave. Carle Place, N.Y. 11514 3. Ventron Corp. P.O. Box 159 Gardner, Mass. 01915
	10. SHIPPING INFORMATION 10.1 Grades or Purities: Commercial 99.9% (Shipped under oil) 10.2 Storage Temperature: Ambient 10.3 Inert Atmosphere: Inerted 10.4 Venting: Pressure/vacuum
11. HAZARD ASSESSMENT CODE (See Hazard Assessment Handbook, CG 446-3) RR	13. PHYSICAL AND CHEMICAL PROPERTIES 13.1 Physical State at 15°C and 1 atm.: Solid 13.2 Molecular Weight: 39 13.3 Boiling Point at 1 atm.: 425°C = 794°C = 1047°K 13.4 Freezing Point: 63°F = 6°C = 273°K 13.5 Critical Temperature: Not pertinent 13.6 Critical Pressure: Not pertinent 13.7 Specific Gravity: 0.86 at 20°C (solids) 13.8 Liquid Surface Tension: Not pertinent 13.9 Liquid-Water Interfacial Tension: Not pertinent 13.10 Vapor (Gas) Specific Gravity: Not pertinent 13.11 Ratio of Specific Heats of Vapor (Gas): Not pertinent 13.12 Latent Heat of Vaporization: Not pertinent 13.13 Heat of Combustion: -2,093 Btu/lb = -1,113 cal/g = -46.57 × 10³ J/kg 13.14 Heat of Decomposition: Not pertinent 13.15 Heat of Solution: -2,104 Btu/lb = -1,169 cal/g = -49.91 × 10³ J/kg 13.16 Heat of Polymerization: Not pertinent
12. HAZARD CLASSIFICATIONS 12.1 Code of Federal Regulations: Flammable solid 12.2 NAS Hazard Rating for Bulk Water Transportation: Not listed 12.3 NFPA Hazard Classifications: Not listed

PAS

POTASSIUM ARSENATE

Common Synonyms Macquer's Salt Potassium acid arsenate Potassium dihydrogen arsenate		Solid Mixes with water	White	Odorless
Fire		Not flammable		
		DUST POISONOUS IF INHALED OR SWALLOWED Irritating to eyes, nose and throat SOLID POISONOUS IF SWALLOWED Irritating to skin and eyes		
Water Pollution		HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE See Response Methods Handbook (CG 446-4) Issue warning: poison: water contaminant Restrict access Disperse and flush		2. LABEL 		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Macquer's salt; Potassium acid arsenate; Potassium dihydrogen arsenate 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: KH_2AsO_4 3.4 IMCO/United Nations Numerical Designation: 6.1 16**		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust respirator; rubber gloves 5.2 Symptoms Following Exposure: Dust may irritate eyes. Ingestion or severe exposure by inhalation can cause burning of throat and mouth and initial pain, vomiting, diarrhea with hemorrhage, dehydration, jaundice and collapse. 5.3 Treatment for Exposure: EYES: flush with water to remove dust. INGESTION: immediately induce evacuation of intestinal tract by inducing vomiting (using gastric lavage and saline cathartics; see physician at once) consider possible development of arsenic poisoning. 5.4 Toxicity by Inhalation (Threshold Limit Value): 0.5 mg/m ³ (as arsenic) 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: May be acute, nephritic, arsenic poisoning may develop 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Not pertinent				

6 FIRE HAZARDS 6.1 Flash Point: Not flammable 6.2 Flammable Limits in Air: Not flammable 6.3 Fire Extinguishing Agents: Not pertinent 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent	8 WATER POLLUTION 8.1 Aquatic Toxicity: 240 ppm as As; 16 hr. minnows survived 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): None 8.4 Food Chain Concentration Potential: Data not available
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction 7.2 Reactivity with Common Materials: No reaction 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent 7.5 Polymerization: No pertine 7.6 Inhibitor of Polymerization: Not pertinent	9 SELECTED MANUFACTURERS 1. PBO

POTASSIUM BINOXALATE

Common Synonyms Potassium acid oxalate Salt of sorrel Sal acetosella		Solid	White	Odorless
		Sinks in water		
Fire	Not flammable			
Exposure	DUST Irritating to eyes, nose and throat If inhaled will cause coughing, difficult breathing, or loss of consciousness SOLID Irritating to skin and eyes If swallowed will cause nausea, vomiting or loss of consciousness			
Water Pollution	Effect of low concentrations on aquatic life if unknown May be dangerous if it enters water intakes			
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-1 Issue warning: "poison water" contaminant Restrict access Disperse and flush		2. LABEL 		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Potassium acid oxalate Sal acetosella; Salt of sorrel 3.2 Coast Guard Competibility Classification: Not listed 3.3 Chemical Formula: KHC_2O_4 3.4 IMCO/United Nations Numerical Designation: Not listed		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None		
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust mask, goggles or face shield, protective gloves 5.2 Symptoms Following Exposure: Inhalation of dust causes irritation of nose and throat. Ingestion causes burning pain in throat, esophagus and stomach, exposed areas of mucous membrane turn white, vomiting, severe pulsing, weak pulse, and cardiac irregular collapse. If death is delayed, neuromuscular symptoms develop. Contact with dust irritates eyes and may cause mild irritation to skin. 5.3 Treatment for Exposure: INHALATION: move to fresh air; if exposure to dust is severe, get medical attention. INGESTION: give immediately by mouth a dilute solution of any soluble calcium salt (calcium lactate in water), or a solution of even milk; large amounts of Ca are required; administer gastric lavage with dilute lime water; consult physician; watch for edema of the glottis and edema of the larynx; if esophagus EYES: flush with water for at least 15 min. SKIN: wash well with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 3, LD ₅₀ 500 mg/kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Odorless				

6 FIRE HAZARDS 6.1 Flash Point: Not flammable 6.2 Flammable Limits in Air: Not flammable 6.3 Fire Extinguishing Agents: Not pertinent 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: 6.6 Behavior in Fire: 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent	8. WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: Below 50°C dissolves in water and reacts to form the much less soluble potassium tetraoxalate which separates out 7.2 Reactivity with Common Materials: 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	9 SELECTED MANUFACTURERS 1. J. I. Baker Chemical Co. Philipsburg, N. J. 08865 2. Fiedling Chemical Co. P. O. Box 21 Jersey City, N. J. 07303
11 HAZARD ASSESSMENT CODE (See Hazard Assessment Handbook, CG 446-3) H 355	10 SHIPPING INFORMATION 10.1 Grades or Purity: Technical 10.2 Storage Temperature: Ambient 10.3 Inert Atmosphere: No requirement 10.4 Venting: Open

PCR

POTASSIUM CHLORATE

Common Synonyms	
Potrate Chlorate of potassium Chlorate of potash	Solid White Odorless Mixes with water
Fire	Not flammable. May cause fire on contact with combustibles. POISONOUS GASES ARE PRODUCED IN FIRE
Exposure	DUST Irritating to eyes, nose and throat SOLID Irritating to skin and eyes. If swallowed will cause nausea, vomiting or loss of consciousness
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 445-4)	2. LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Chlorate of potash Chlorate of potassium, potassium 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: $KClO_3$ 3.4 IMCO/United Nations Numerical Designation: 5.1, 1455	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust mask, rubber gloves, goggles, protective clothing to prevent contact with skin 5.2 Symptoms Following Exposure: Inhalation of dust can irritate nose and throat. Contact with eyes or skin causes irritation. Ingestion causes abdominal pain, nausea, vomiting, exotoxic collapse. 5.3 Treatment for Exposure: EYES: Flush with water for at least 15 min. SKIN: Wash with soap and water. INGESTION: dilute by drinking sips of salty water to induce vomiting. Call physician. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 2, LD ₅₀ 0.5 to 5 g/kg 5.7 Acute Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Not pertinent	

6 FIRE HAZARDS 6.1 Flash Point: Not flammable, but may cause fire upon contact with ordinary combustibles. 6.2 Flammable Limits in Air: Not pertinent. 6.3 Fire Extinguishing Agents: Water on adjacent fires. 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent. 6.5 Special Hazards of Combustion Products: Low fumes are formed in fires. 6.6 Behavior in Fire: Decomposes when heated to form oxygen, which increases severity of fire. 6.7 Ignition Temperature: Not pertinent. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Not pertinent.	8. WATER POLLUTION 8.1 Aquatic Toxicity: Data not available. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): None. 8.4 Food Chain Concentration Potential: None.
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No contact with combustible material may cause fire. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9. SELECTED MANUFACTURERS 1. Pennwalt Corporation Chemicals Division Three Parkway Philadelphia, Pa. 19102 2. Hooker Chemical Corporation Specialty Chemicals Division P. O. Box 344 Niagara Falls, N. Y. 14302 3. Mallinckrodt Chemical Works Industrial Chemicals Division Second and Mallinckrodt Streets P. O. Box 549 St. Louis, Mo. 63160

PCH

POTASSIUM CHROMATE

Common Synonyms Potassium chromate (VI) Neutral potassium chromate		Solid	Bright yellow	Odorless
		Sinks and mixes with water		
Fire		Not flammable Will increase the intensity of a fire May cause fire on contact with combustibles		
		DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing		
Exposure		SOLID POISONOUS IF SWALLOWED Irritating to skin and eyes If swallowed will cause nausea, vomiting or loss of consciousness		
Water Pollution		HAZARDOUS TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Response Methods in handbook, CG 444-3) Disperse and flush		2. LABELS No hazard label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Neutral potassium chromate, Potassium chromate (VI) 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: K_2CrO_4 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Bright yellow 4.3 Odor: None		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: H ₂ of Mines approved filter type respirator, close fitting safety goggles, rubber boots and apron, safety hat, face shield 5.2 Symptoms Following Exposure: Inhalation causes local irritation of mucous membranes, continuing nose irritation can result in perforation of nasal septum. Ingestion may cause violent gastroenteritis, circulatory collapse, vertigo, coma and, in nephritis, ingestion of excess quantities can be fatal. Contact with eyes causes severe irritation and conjunctivitis. Repeated prolonged exposure to dust, mist, or solutions may cause dermatitis; contact with breaks in the skin may cause chrome sore, appearing as slow healing, hard, red ulcers which leave the area vulnerable to infection. 5.3 Treatment for Exposure: INHALATION: move to fresh air; INGESTION: give large amount of water, induce vomiting, treat peripheral vascular shock, get medical attention; EYES: flush with water for at least 15 min., get medical attention; SKIN: flush with water if irritation persists, get medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): 0.1 mg/m ³ as hexavalent Cr 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade III LD ₅₀ 50-500 mg/kg 5.7 Late Toxicity: Lung cancer may occur 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available				

6. FIRE HAZARDS 6.1 Flash Point: Not flammable but may intensify fire 6.2 Flammable Limit in Air: Not flammable 6.3 Fire Extinguishing Agents: Not pertinent 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: May increase intensity of fire if in contact with combustible materials. Cool containers and spilled material with plenty of water. 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent		8. WATER POLLUTION 8.1 Aquatic Toxicity: 45.6 ppm 96 hr fathead minnow, 11 hr soft water 4.8 ppm 96 hr silver salmon toxic salt water *Time period not specified 8.2 Waterway Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): None 8.4 Food Chain Concentration Potential: Plants can absorb compound from water and pass it on up the food chain. Bioconcentrative up to 2,000 fold. Not likely to be a problem in a spill situation.	
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction 7.2 Reactivity with Common Materials: In contact with combustible materials may cause fire 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent		9. PDT

POTASSIUM DICHLORO-S-TRIAZINETRIONE

Common Synonyms Potassium dichlorotriazinetrione		Solid	White	Chlorine-like odor
		Mixes with water		
Fire	Not flammable May cause fire on contact with combustibles POISONOUS GASES MAY BE PRODUCED IN FIRE			
Exposure	DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing SOLID Irritating to skin and eyes. Harmful if swallowed			
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes			
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446.4 Issue warning - oxidizing material water contaminant Restrict access Dispose and flush		2 LABEL 		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: P. Gasin P-chlorotriazinetrione 3.2 Coast Guard Compatibility Classification Not applicable 3.3 Chemical Formula: KCl3N3O3 3.4 IMCO/United Nations Numerical Designation: 1.1		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: Chlorine-like		
HEALTH HAZARDS				
5.1 Personal Protective Equipment: Dust mask or chemical filter mask, goggles, rubber gloves and other protective clothing to protect entire body from skin contact				
5.2 Symptoms Following Exposure: Dust causes sneezing, coughing, sore throat, irritation to the eyes and nose, itching and redness of skin. Ingestion causes burns of mouth and stomach				
5.3 Treatment for Exposure: INHALATION: remove person to clean air; EYES: irrigate with running water for 15 min.; on physician; SKIN: flush with water; INGESTION: induce vomiting and call physician				
5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available				
5.5 Short-Term Inhalation Limits: Data not available				
5.6 Toxicity by Ingestion: Grade 2.1 Data not available				
5.7 Late Toxicity: Data not available				
5.8 Vapor (Gas) Irritant Characteristics: Not pertinent				
5.9 Liquid or Solid Irritant Characteristics: Data not available				
5.10 Odor Threshold: Data not available				

6 FIRE HAZARDS

- 6.1 Flash Point: Not flammable, but may cause fire upon contact with hot bare combustibles
- 6.2 Flammable Limits in Air: Not pertinent
- 6.3 Fire Extinguishing Agents: Water
- 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent
- 6.5 Special Hazards of Combustion Products: May form toxic chlorine and other gases in fire
- 6.6 Behavior in Fire: Decomposition can be initiated with a heat source and can propagate throughout the mass with the evolution of dense fumes
- 6.7 Ignition Temperature: Not pertinent
- 6.8 Electrical Hazard: Not pertinent
- 6.9 Burning Rate: Not pertinent

7 CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: Forms a weak solution; the reaction is not violent
- 7.2 Reactivity with Common Materials: Contact with most inorganic materials, organic matter, or easily chlorinated or oxidized materials may result in fire. Avoid oil, grease, sawdust, floor sweeping, other easily oxidized organic compounds
- 7.3 Stability During Transport: Stable
- 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent
- 7.5 Polymerization: Not pertinent
- 7.6 Inhibitor of Polymerization: Not pertinent

8 WATER POLLUTION

- 8.1 Aquatic Toxicity: Data not available
- 8.2 Waterway Toxicity: Data not available
- 8.3 Biological Oxygen Demand (BOD): None
- 8.4 Food Chain Concentration Potential: None

9 SELECTED MANUFACTURERS

1 M Co. Corp.
Industrial Chemical Division
633 Third Avenue
New York, N. Y. 10017

10 SHIPPING INFORMATION

- 10.1 Grades or Purity: Technical 99.9% available chlorine
- 10.2 Storage Temperature: Cool, ambient
- 10.3 Inert Atmosphere: Not required
- 10.4 Venting: Pressure vacuum

11 HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook, CG 446.2
NS

12. HAZARD CLASSIFICATIONS

- 12.1 Code of Federal Regulations: Oxidizing material
- 12.2 NAS Hazard Rating for Bulk Water Transportation: Not listed
- 12.3 NFPA Hazard Classifications:
- | Category | Classification |
|----------------------|----------------|
| Health Hazard (Blue) | 1 |
| Flammability (Red) | 1 |
| Reactivity (Yellow) | 2 |

13 PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 Physical State at 15°C and 1 atm.: Solid
- 13.2 Molecular Weight: 266.1
- 13.3 Boiling Point at 1 atm.: Not pertinent (decomposes)
- 13.4 Freezing Point: Not pertinent
- 13.5 Critical Temperature: Not pertinent
- 13.6 Critical Pressure: Not pertinent
- 13.7 Specific Gravity: 0.96 at 20°C (solid)
- 13.8 Liquid Surface Tension: Not pertinent
- 13.9 Liquid-Water Interfacial Tension: Not pertinent
- 13.10 Vapor (Gas) Specific Gravity: Not pertinent
- 13.11 Ratio of Specific Heats of Vapor (Gas): Not pertinent
- 13.12 Latent Heat of Vaporization: Not pertinent
- 13.13 Heat of Combustion: Not pertinent
- 13.14 Heat of Decomposition: Data not available
- 13.15 Heat of Solution: Not pertinent
- 13.16 Heat of Polymerization: Not pertinent

NOTES

PTD

POTASSIUM DICHROMATE

Common Synonyms Potassium Dichromate Bi-chrome		Solid crystals Red to orange Odorless Sinks and mixes with water
Fire	Not flammable May cause fire in contact with combustibles	
Exposure	IRIT Irritating to eyes, nose, and throat If inhaled, will cause difficult breathing SOLIDS Will burn skin and eyes If swallowed, will cause nausea, vomiting, or loss of consciousness	
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes	
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 444-4 Follow all applicable Federal, State, and local laws		2. LABELS No hazard label required (Under Federal Regulations)
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Potassium dichromate Bi-chrome 3.2 Coast Guard Compatibility Classification: No applicable 3.3 Chemical Formula: $K_2Cr_2O_7$ 3.4 INCO United Nations Numerical Designation: 15-052		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Orange-red 4.3 Odor: Odorless
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Approved dust mask, protective clothing, gloves, and shoes 5.2 Symptoms Following Exposure: High irritation to skin and mucous membranes. May cause difficulty breathing if inhaled. May cause nausea, vomiting, or loss of consciousness if swallowed. 5.3 Treatment for Exposure: INGESTION: Have victim drink water or milk. Do not induce vomiting. INHALATION: Have victim move to fresh air. If breathing is difficult, give oxygen. SKIN: Wash with plenty of water. If irritation persists, seek medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): No per cent 5.5 Short-Term Inhalation Limits: No per cent 5.6 Toxicity by Ingestion: Grade III (Moderately Hazardous) 5.7 Late Toxicity: No known delayed effects 5.8 Vapor (Gas) Irritant Characteristics: Due to irritation of mucous membranes of the nose, throat, and lungs. May cause difficulty breathing. 5.9 Liquid or Solid Irritant Characteristics: No known irritant effects on skin and clothing. 5.10 Odor Threshold: No per cent

POTASSIUM HYDROXIDE

Common Synonyms Caustic potash Lye	Solid crystals or watery liquid White solid or colorless liquid Odorless Solid sinks and mixes slowly with water. Liquid mixes with water.
Fire	Not flammable Flammable gas may be produced on contact with metals May cause fire on contact with moisture and combustibles
Exposure	DUST OR MIST Irritating to eyes, nose, and throat Harmful if inhaled SOLID OR LIQUID Will burn skin and eyes Harmful if swallowed
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes
1 RESPONSE TO DISCHARGE See Response Methods Handbook (1-444-4) Toxic Flammable May be corrosive Disposal: Landfill	2. LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Caustic potash 3.2 Coast Guard Competibility Classification: Not applicable 3.3 Chemical Formula: KOH 3.4 IMCO United Nations Numerical Designation: 1454	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Wear protective clothing and gloves. Avoid contact with skin and eyes. 5.2 Symptoms Following Exposure: Irritation to eyes, nose, and throat; coughing; difficulty breathing. 5.3 Treatment for Exposure: If inhaled, move to fresh air. If on skin, wash with water. If in eyes, flush with water for 15 minutes. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not applicable 5.5 Short-Term Inhalation Limits: Not applicable 5.6 Toxicity by Ingestion (Grade 1 oral rat LD50 = 364 mg/kg) 5.7 Late Toxicity: None 5.8 Vapor (Gas) Irritant Characteristics: Not applicable 5.9 Liquid or Solid Irritant Characteristics: Not applicable 5.10 Odor Threshold: Not applicable

NOTES

PTS

POTASSIUM OXALATE

Common Synonyms Potassium oxalate monohydrate		Solid	White	Odorless
Sinks and mixes with water				
Fire	Not flammable			
	DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. SOLID POISONOUS IF SWALLOWED Irritating to skin and eyes. If swallowed will cause nausea, vomiting or loss of consciousness.			
Exposure				
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.			
1. RESPONSE TO DISCHARGE See Response Memory Handbook, CG 446-4 Toxic warning label contains hazard response and flush.		2. LABEL 		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Potassium oxalate monohydrate 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $K_2C_2O_4 \cdot H_2O$ 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White to gray 4.3 Odor: None		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Approved for respiratory protection, gloves, goggles, and eye wash. 5.2 Symptoms Following Exposure: Irritation of skin can cause redness, itching, and burning. Ingestion causes burning pain in throat, esophagus, and stomach; epinephrine, 1 mg, is recommended. Vomiting may be required. Weak pulse and cardiovascular collapse may result. Death is delayed neuro-muscular symptoms develop. Contact with eyes may cause irritation. 5.3 Treatment for Exposure: EXPOSURE: INHALATION: Remove victim to fresh air. If exposure has occurred, get medical attention. INHALATION: Call for medical attention. Have victim drink 3 fluid ounces of water. If victim is unconscious, large amounts of water are required. Administer gastric lavage with water. If victim is unconscious, the gastric lavage should be delayed. INHALATION: If victim is unconscious, have medical attention. SKIN: Wash with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data is available. 5.5 Short-Term Inhalation Limits: Data is available. 5.6 Toxicity by Ingestion: Toxic if swallowed. 5.7 Late Toxicity: Data is available. 5.8 Vapor (Gas) Irritant Characteristics: Data is available. 5.9 Liquid or Solid Irritant Characteristics: Data is available. 5.10 Odor Threshold: Not listed.				

6 FIRE HAZARDS		8 WATER POLLUTION	
6.1	Flash Point: Not applicable.	8.1	Acute Toxicity: Data is available.
6.2	Flammable Limits in Air: Not applicable.	8.2	Waterlow Toxicity: Data is available.
6.3	Fire Extinguishing Agents: Not pertinent.	8.3	Biological Oxygen Demand (BOD): Data is available.
6.4	Fire Extinguishing Agents Not to be Used: Not pertinent.	8.4	Food Chain Concentration: Potential None.
6.5	Special Hazards of Combustion Products:		
6.6	Behavior in Fire: Not applicable. When heated, it decomposes to form carbon monoxide and carbon dioxide.		
6.7	Ignition Temperature: Not pertinent.		
6.8	Electrical Hazard: Not pertinent.		
6.9	Burning Rate: Not pertinent.

12.3	NFPA Hazard Classifications: Not listed.		
NOTES			

PTP

POTASSIUM PERMANGANATE

Common Synonyms Solid crystals Dark purple Odorless Sinks and mixes slowly with water	
Fire Not flammable. Containers may explode in fire. May cause fire and explosion on contact with combustibles.	
Exposure SOLID Irritating to skin and eyes. If swallowed, will cause nausea, vomiting, or loss of consciousness.	
HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. May be dangerous if it enters water intakes.	
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 666.4 Avoid washing water contamination. Dispense and flush.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Not applicable. 3.2 Coast Guard Compatibility Classification: Not applicable. 3.3 Chemical Formula: $KMnO_4$. 3.4 IMCO United Nations Numerical Designation: 5.1 (2.4).	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid. 4.2 Color: Dark purple to black. 4.3 Odor: None.
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles, gloves, apron, and mask. 5.2 Symptoms Following Exposure: Burns and irritation to skin, eyes, and respiratory tract. Ingestion causes nausea, vomiting, and loss of consciousness. 5.3 Treatment for Exposure: INGESTION: Induce vomiting. If unconscious, do not induce vomiting. Call a physician. EYES: Flush with water. SKIN: Wash with soap and water. INHALATION: Move to fresh air. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not permitted. 5.5 Short-Term Inhalation Limits: Not permitted. 5.6 Toxicity by Ingestion: Irritant (LD ₅₀ 1.1 g/kg, 200 g/mouse). 5.7 Late Toxicity: None. 5.8 Vapor (Gas) Irritant Characteristics: Not permitted. 5.9 Liquid or Solid Irritant Characteristics: Irritant (LD ₅₀ 1.1 g/kg, 200 g/mouse). 5.10 Odor Threshold: Not permitted.	

6. FIRE HAZARDS 6.1 Flash Point: Not flammable. 6.2 Flammable Limits in Air: Not flammable. 6.3 Fire Extinguishing Agents: Foam, water, soda ash with water. 6.4 Fire Extinguishing Agents Not to be Used: Not permitted. 6.5 Special Hazards of Combustion Products: Not permitted. 6.6 Behavior in Fire: May cause explosion on contact with combustibles. Containers may explode. 6.7 Ignition Temperature: Not flammable. 6.8 Electrical Hazard: Not permitted. 6.9 Burning Rate: Not flammable.	8. WATER POLLUTION 8.1 Aquatic Toxicity: 34 ppm 48 h. (except 11% fresh water). 8.2 Waterford Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): None. 8.4 Food Chain Concentration Potential: None.								
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Not reactive. 7.2 Reactivity with Common Materials: Avoid contact with acids, bases, and organic materials. May cause explosion on contact with organic materials. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not permitted. 7.5 Polymerization: Not permitted. 7.6 Inhibitor of Polymerization: Not permitted.	9. POP

POTASSIUM PEROXIDE

Common Synonyms Potassium superoxide	Solid (powder) Yellow Odorless Sinks and mixes violently with water
Fire	Not flammable Will increase the intensity of a fire May cause fire on contact with combustibles
Exposure	CAUTION: MEDICAL AID DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing If in contact with eyes, nose or other water-soluble tissues, flush immediately with plenty of water for at least 15 minutes. SOLID Will burn skin and eyes. If swallowed will cause nausea
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intake. Needs to be neutralized with dilute acetic acid before disposal.
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 444-4) Issue warning: oxidizing material Restrict access Disperse and flush	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Potassium superoxide 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: K_2O_2 3.4 IMCO/United Nations Numerical Designation: 5.1, 1491	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Powder 4.2 Color: Yellow 4.3 Odor: None
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust mask, goggles or face shield, protective gloves 5.2 Symptoms Following Exposure: Inhalation causes respiratory irritation. Ingestion causes severe burns of mouth and stomach. Contact with eyes or skin causes irritation and caustic burns. 5.3 Treatment for Exposure: INHALATION: remove from exposure, support respiration. INGESTION: give large amount of water, do NOT induce vomiting, get medical attention. EYES: irrigate with large quantities of water for at least 15 min., get medical attention for caustic burns. SKIN: flush with water, treat caustic burns. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available	

6. FIRE HAZARDS 6.1 Flash Point: Not pertinent 6.2 Flammable Limits in Air: Not pertinent 6.3 Fire Extinguishing Agents: Flood with water from a protected area. 6.4 Fire Extinguishing Agents Not to be Used: A small amount of water may cause explosions. 6.5 Special Hazards of Combustion Products: 6.6 Behavior in Fire: Increases intensity of fire and can start fires when in contact with organic combustibles. 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent	8. WATER POLLUTION 8.1 Aquatic Toxicity: 80 ppm, 24 hr, musquitofish, 11 m, fresh water. 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): None 8.4 Food Chain Concentration Potential: None								
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts violently with liberation of heat and oxygen and the formation of caustic solution. 7.2 Reactivity with Common Materials: Can form explosive and self-igniting mixtures with wood or other combustible materials. 7.3 Stability During Transport: Stable if kept dry. 7.4 Neutralizing Agents for Acids and Caustics: Following reaction with water, caustic formed can be flushed away with water and area rinsed with dilute acetic acid. 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	9. SELECTED MANUFACTURERS 1 Pfaltz and Bauer, Inc. 375 Fairfield Ave. Stamford, Conn. 06902 2 Ventron, Inc. P.O. Box 159 Beverly, Mass. 01915 3 Gallard Schlessinger Chemical Mfg. PRP

PROPANE

Common Synonyms		Liquefied compressed gas. Colorless. Odorless—may have skunk odor added.																																					
		Liquid floats and boils on water. Flammable stable vapor cloud is produced.																																					
NEUTRAL TO ACIDITY NON-FLAMMABLE NON-TOXIC NON-CORROSIVE NON-IRRITANT NON-POISONOUS NON-REACTIVE NON-EXPLOSIVE NON-FLUORINATED NON-HALOGENATED NON-METALLIC NON-ORGANIC NON-POLYMERIZABLE NON-SOLUBLE NON-VOLATILE																																							
Fire		FLAMMABLE Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. NEUTRAL TO ACIDITY NON-FLAMMABLE NON-TOXIC NON-CORROSIVE NON-IRRITANT NON-POISONOUS NON-REACTIVE NON-EXPLOSIVE NON-FLUORINATED NON-HALOGENATED NON-METALLIC NON-ORGANIC NON-POLYMERIZABLE NON-SOLUBLE NON-VOLATILE																																					
Exposure		VAPOR Not irritating to eyes, nose or throat. If inhaled, will cause dizziness, difficult breathing, or loss of consciousness. LIQUID May cause frostbite. NEUTRAL TO ACIDITY NON-FLAMMABLE NON-TOXIC NON-CORROSIVE NON-IRRITANT NON-POISONOUS NON-REACTIVE NON-EXPLOSIVE NON-FLUORINATED NON-HALOGENATED NON-METALLIC NON-ORGANIC NON-POLYMERIZABLE NON-SOLUBLE NON-VOLATILE																																					
Water Pollution		Not harmful to aquatic life.																																					
1 RESPONSE TO DISCHARGE (See Response Methods Handbook CG 446.4) Issue warning—high flammability. Restrict access. Evacuate area.		2 LABEL 																																					
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Dimethylmethane. 3.2 Coast Guard Compatibility Classification: Paraffin. 3.3 Chemical Formula: C_3H_8 . 3.4 IMCO/United Nations Numerical Designation: 2012.		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquefied compressed gas. 4.2 Color: Colorless. 4.3 Odor: Faint gassy.																																					
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Self-contained breathing apparatus for high concentrations of gas. 5.2 Symptoms Following Exposure: Vaporizing liquid may cause frostbite. Concentrations in air greater than 10% cause dizziness in a few minutes. 1% concentrations give the same effect in 10 min. High concentrations cause asphyxiation. 5.3 Treatment for Exposure: Remove to open air. If victim is overcome by gas, apply artificial respiration. Do not use mouth-to-mouth if confused. 5.4 Toxicity by Inhalation (Threshold Limit Value): 1000 ppm. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Not pertinent. 5.7 Late Toxicity: None. 5.8 Vapor (Gas) Irritant Characteristics: Vapors are non-irritating to the eyes and throat. 5.9 Liquid or Solid Irritant Characteristics: No appreciable hazard. Practically harmless to the skin because it evaporates quickly. 5.10 Odor Threshold: 1000–20,000 ppm.																																							
6 FIRE HAZARDS 6.1 Flash Point: -186.1°C . 6.2 Flammable Limits in Air: 2.1–9.5%. 6.3 Fire Extinguishing Agents: Stop flow of gas. For small fires use dry chemicals. Cool adjacent areas with water spray. 6.4 Fire Extinguishing Agents Not to be Used: Water. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: Containers may explode. Vapor is heavier than air and may travel a long distance to a source of ignition and flash back. 6.7 Ignition Temperature: 540°C . 6.8 Electrical Hazard: Class I, Group D. 6.9 Burning Rate: 8.5 in./min.																																							
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.																																							
8 WATER POLLUTION 8.1 Aquatic Toxicity: None. 8.2 Waterfowl Toxicity: None. 8.3 Biological Oxygen Demand (BOD): None. 8.4 Food Chain Concentration Potential: None.																																							
9 SELECTED MANUFACTURERS 1. Adams, Richfield, ARCOC Chemical Co. Division, 200 S. Broad St., Philadelphia, Pa. 19101. 2. Mobil Chemical Co., North American Division, Beaumont, Texas 77704. 3. PLT

beta-PROPIOLACTONE

Common Synonyms beta-Propiolactone Betapropione Propionolide 2-Oxetanone Hydroxylic acid beta-lactone	Liquid Colorless Irritating odor Mixes with water
Fire Combustible Containers may explode in fire	
 Exposure	LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED Irritating to skin and eyes.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE See Response Methods Handbook (CG 446-4) Issue warning: poison water contaminant Restrict access Disperse and flush	2. LABEL 
3. CHEMICAL DESIGNATIONS 31 Synonyms: Betapropione, Hydroxylic acid, beta lactone, 2-Oxetanone, Propionolide, beta-Propionolactone 32 Coast Guard Compatibility Classification: Monomers (14) 33 Chemical Formula: $C_3H_4O_2$ 34 IMCO/United Nations Numerical Designation: 6.1	4 OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Liquid 42 Color: Colorless 43 Odor: Pungent, acrid, irritating
5 HEALTH HAZARDS 51 Personal Protective Equipment: Air mask or organic canister mask, goggles or face shield, rubber gloves, protective clothing to prevent all contact with skin. 52 Symptoms Following Exposure: Inhalation causes irritation of nose, throat, and respiratory tract. Contact of liquid with eyes causes irritation and tears. Contact with skin causes irritation and blistering. Ingestion causes burns of mouth and stomach. 53 Treatment for Exposure: Get medical attention following all exposures to this compound. INHALATION: move victim to fresh air; if breathing has stopped, give artificial respiration. EYES: flush continuously with water for at least 15 min. SKIN: flush with water; if blistering occurs, alert physician to fact that fluid from blister will cause additional blistering of adjacent skin. INGESTION: give large amount of water and induce vomiting. 54 Toxicity by Inhalation (Threshold Limit Value): 0.0 ppm. Because of the high incidence of cancer, either in man or animals, no exposure or contact by any route (respiratory, oral or skin) should be permitted. 55 Short-Term Inhalation Limits: Data not available. 56 Toxicity by Ingestion: Grade 3 oral LD ₅₀ = 50 mg/kg rat. 57 Late Toxicity: Because of the high incidence of cancer, either in man or animals, no exposure or contact by any route (respiratory, oral or skin) should be permitted. 58 Vapor (Gas) Irritant Characteristics: Vapors are moderately irritating such that personnel will not usually tolerate moderate or high concentrations. 59 Liquid or Solid Irritant Characteristics: Fairly severe skin irritant. May cause pain and second degree burns after a few minutes contact. 510 Odor Threshold: Data not available.	

6 FIRE HAZARDS 61 Flash Point: 165 F (74 C) 62 Flammable Limits in Air: 2.9% (LFL) 63 Fire Extinguishing Agents: Water, dry chemical, foam, carbon dioxide 64 Fire Extinguishing Agents Not to be Used: Not pertinent 65 Special Hazards of Combustion Products: Vapors of unburned material are very toxic. 66 Behavior in Fire: Containers may explode. 67 Ignition Temperature: Data not available. 68 Electrical Hazard: Data not available. 69 Burning Rate: Data not available.	8 WATER POLLUTION 81 Aquatic Toxicity: Data not available. 82 Waterfowl Toxicity: Data not available. 83 Biological Oxygen Demand (BOD): Data not available. 84 Food Chain Concentration Potential: None.																																				
7. CHEMICAL REACTIVITY 71 Reactivity with Water: Slow, non-hazardous reaction to form beta-hydroxypropionic acid. 72 Reactivity with Common Materials: No reaction. 73 Stability During Transport: Stable. 74 Neutralizing Agents for Acids and Caustics: Not pertinent. 75 Polymerization: Can polymerize and rupture container, especially at elevated temperatures. At 22 C (72 F) polymerizes each day. 76 Inhibitor of Polymerization: None used.	9. SELECTED MANUFACTURERS 1 Celanese Chemical Company 245 Park Avenue New York, N.Y. 10017 2 Diamond Shamrock Chemical Corp. Nopco Chemical Division Morristown, N.J. 07960 3 Eastman Kodak Co. PAD

PROPIONALDEHYDE

Common Synonyms Propionaldehyde Propionic aldehyde Methyl acrylate Propenal Propyl aldehyde	Liquid Colorless Sulfurating, unpleasant odor Floats and mixes slowly with water. Flammable, irritating vapor is produced.
Fire	FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.
Exposure	CALL FORMULA 400 VAPOR Irritating to eyes, nose and throat. If inhaled, will cause nausea or vomiting. LIQUID Irritating to skin and eyes. Harmful if swallowed. ENVIRONMENTAL LETHAL TO FISH AND AQUATIC LIFE.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water.
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446.4. Issue warning: high flammability. Evacuate area.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Methylacryaldehyde, Propionaldehyde, Propenal, Propionic aldehyde, Propylaldehyde. 3.2 Coast Guard Compatibility Classification: Methyl. 3.3 Chemical Formula: C_3H_6O . 3.4 IMCO United Nations Numerical Designation: 3.2 (2.2).	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless. 4.3 Odor: Pungent, unpleasant, sulfurating.
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Air supplied mask for high vapor concentrations; plastic gloves; goggles. 5.2 Symptoms Following Exposure: Vapors will irritate nose and throat and may cause nausea and vomiting. Liquid causes severe irritation. 5.3 Treatment for Exposure: INHALATION: Remove victim to fresh air; give oxygen and breathing is difficult, call a physician. EYES: Flush with plenty of water; call a physician immediately. SKIN: Flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade 2.1 (DANGER) is appropriate. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause moderate irritation, such that personnel will find high concentrations intolerable. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain on a hand, reddening of the skin. 5.10 Odor Threshold:	

6. FIRE HAZARDS 6.1 Flash Point: $-27^{\circ}\text{F} (-32^{\circ}\text{C})$. 6.2 Flammable Limits in Air: 2.6% - 16.1%. 6.3 Fire Extinguishing Agents: Carbon dioxide or dry chemical for small fires; alcohol type foam for large fires. 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: Vapor is heavier than air and may travel considerable distance to source of ignition and flashback. 6.7 Ignition Temperature: 495°F . 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: 4.4 in./min.	8. WATER POLLUTION 8.1 Aquatic Toxicity: Data not available. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): 95% of theoretical in 5 days. 8.4 Food Chain Concentration Potential: None.																																				
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: May occur in presence of acid or caustics. 7.6 Inhibitor of Polymerization: Not pertinent.	9. PNA

PROPIONIC ACID

Common Synonyms Propionic acid Ethanoic carboxylic acid		Liquid Colorless Sharp rancid odor																																									
Mixes with water. Irritating vapor is produced.																																											
Fire																																											
Combustible Vapor: Irritating to nose and throat Liquid: Will burn skin and eyes. Harmful if swallowed																																											
Exposure																																											
Water Pollution Dangerous to aquatic life in high concentrations. May be dangerous if it enters water intakes.																																											
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Dispose and flush.		2. LABEL																																									
3 CHEMICAL DESIGNATIONS 31 Synonyms: Ethanoic carboxylic acid, Methylic acid, Propanoic acid. 32 Coast Guard Compatibility Classification: Organic acid. 33 Chemical Formula: C₃H₇COOH 34 IMCO United Nations Numerical Designation: 301145		4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Liquid. 42 Color: Colorless. 43 Odor: Sharp irritating, slightly pungent rancid.																																									
5 HEALTH HAZARDS 51 Personal Protective Equipment: Air supplied mask for high vapor concentrations. Plastic gloves, goggles or face shield. 52 Symptoms Following Exposure: Liquid causes skin and eye burns. Vapors may irritate eyes, nose and throat, but should not cause systemic illness. 53 Treatment for Exposure: INHALATION: remove victim to fresh air. INGESTION: have victim drink water or milk, do NOT induce vomiting. SKIN OR EYE CONTACT: immediately flush with plenty of water for at least 15 minutes; get medical care for eyes; remove contaminated clothing. 54 Toxicity by Inhalation (Threshold Limit Value): 10 ppm. 55 Short-Term Inhalation Limits: Data not available. 56 Toxicity by Ingestion: Grade 2, oral rat LD₅₀ = 2.6 g/kg. 57 Late Toxicity: None. 58 Vapor (Gas) Irritant Characteristics: Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary. 59 Liquid or Solid Irritant Characteristics: Fairly severe skin irritant; may cause first and second degree burns after a few minute contact. 510 Odor Threshold: Data not available.																																											
6 FIRE HAZARDS 61 Flash Point: 132°F (50°C) (closed cup) 62 Flammable Limits in Air: 2.9% (LFL) - 14.8% (UFL) 63 Fire Extinguishing Agents: Water, carbon dioxide, dry chemical or alcohol foam. 64 Fire Extinguishing Agents Not to be Used: Not pertinent. 65 Special Hazards of Combustion Products: Not pertinent. 66 Behavior in Fire: Not pertinent. 67 Ignition Temperature: 1105°F. 68 Electrical Hazard: Not pertinent. 69 Burning Rate: 2.2 in/min.																																											
7 CHEMICAL REACTIVITY 71 Reactivity with Water: No reaction. 72 Reactivity with Common Materials: Corrodes ordinary steel and many other metals, but reaction is not hazardous. 73 Stability During Transport: Stable. 74 Neutralizing Agents for Acids and Caustics: Dilute with water, then neutralize with lime or soda ash. 75 Polymerization: Not pertinent. 76 Inhibitor of Polymerization: Not pertinent.																																											
8 WATER POLLUTION 81 Aquatic Toxicity: >1000 mg/L 48 hr LC50 for larvae in fresh water. 82 Waterway Toxicity: Data not available. 83 Biological Oxygen Demand (BOD): 8.5 days. 84 Food Chain Concentration Potential: None.

REVISED 1978

PAT

n-PROPYL ACETATE

Common Synonyms: Acetic acid n-propyl ester	Liquid Colorless Mild odor Floats on water. Flammable irritating vapor is produced.
1. Flammable: White for 100 ppm 2. Irritant: White for 100 ppm 3. Corrosive: White for 100 ppm 4. Toxic: White for 100 ppm 5. Hazardous: White for 100 ppm	
Fire	FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. (See NFPA 704 for details)
Exposure	VAPOR Irritating to eyes, nose and throat. If inhaled, will cause nausea, vomiting, dizziness or loss of consciousness. LIQUID Irritating to skin and eyes. Harmful if swallowed. IF IN EYES Flush with water for 15 minutes.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 476-1) Toxic warning: High flammability. Evacuate area.	2. LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Acetic acid, n-propyl ester. 3.2 Coast Guard Compatibility Classification: Ester. 3.3 Chemical Formula: CH ₃ COOCH ₂ CH ₂ CH ₃ . 3.4 IMCO United Nations Numerical Designation: 12.12.	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless. 4.3 Odor: Mild, fruity.
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Air supplied mask when vapors are in excess of safe shield protective glove. 5.2 Symptoms Following Exposure: Contact with skin and eyes causes no serious injury. High vapor concentrations will be irritating and will cause nausea, vomiting and dizziness, a slight loss of consciousness. 5.3 Treatment for Exposure: INHALE: Move victim to fresh air. Give artificial respiration if breathing has stopped. Give oxygen if breathing is difficult. SKIN: WASH WITH WATER. 5.4 Toxicity by Inhalation (Threshold Limit Value): 200 ppm. 5.5 Short-Term Inhalation Limits: 200 ppm for 60 min. 5.6 Toxicity by Ingestion: Grade 1 ED ₀₁ (100 mg/kg). 5.7 Late Toxicity: None. 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause a slight stinging of the eyes. Inexplosive system if present in high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If ingested on clothing and allowed to remain, may cause smothering and reddening of the skin. 5.10 Odor Threshold: 70 mg/m ³ .	

6 FIRE HAZARDS 6.1 Flash Point: 100°C (212°F). 6.2 Flammable Limits in Air: 1.5-10%. 6.3 Fire Extinguishing Agents: Carbon dioxide, dry chemical (for small fires), foam (for large fires). 6.4 Fire Extinguishing Agents Not to be Used: Water may be used on small fires. 6.5 Special Hazards of Combustion Products: None known. 6.6 Behavior in Fire: None known. 6.7 Ignition Temperature: 540°F. 6.8 Electrical Hazard: None known. 6.9 Burning Rate: Data not available.	8 WATER POLLUTION 8.1 Aquatic Toxicity: 520 ppm/24 hr/breath (crump, TL _m). 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): 62% of theoretical in 5 days/freshwater. 8.4 Food Chain Concentration Potential: None.																												
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9 SELECTED MANUFACTURERS 1. PAL

n-PROPYL ALCOHOL

Common Synonym(s) Propyl alcohol 1-Propanol	Liquid Colorless Alcohol odor Mixes with water. Flammable; irritating vapor is produced.
Fire	FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.
Exposure	VAPOR Irritating to eyes, nose, and throat. If inhaled, will cause nausea, dizziness, or headache. LIQUID Will burn eyes. Harmful if swallowed.
Water Pollution	Dangerous to aquatic life in high concentrations. May be dangerous if it enters water intakes.
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 444, 4.) Toxic warning: High flammability. Spill: Flush and flush.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Propyl alcohol 1-Propanol Propylalcohol 3.2 Coast Guard Compatibility Classification: Alcohol 3.3 Chemical Formula: $\text{CH}_3\text{CH}_2\text{CH}_2\text{OH}$ 3.4 IMCO United Nations Numerical Designation: 12-1274	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Resembling that of ethyl alcohol
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Air supplied respirator in high concentrations; goggles or face shield; plastic gloves. 5.2 Symptoms Following Exposure: Contact with eyes irritates; can cause burns. Vapor irritates nose and throat. In high concentrations may cause nausea, dizziness, headache, and stupor. 5.3 Treatment for Exposure: INHALATION: Remove victim to fresh air; call a physician. SKIN: If ON CONTACT, flush at once with plenty of water; get medical care for eyes. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not ppm. 5.5 Short-Term Inhalation Limits: 400 ppm for 10 min. 5.6 Toxicity by Ingestion: Grade 2.1 Data not available. 5.7 Late Toxicity: None. 5.8 Vapor (Gas) Irritant Characteristics: Vapor causes irritation to the eyes and respiratory system at present in high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: No appreciable hazard. Practically harmless in water. 5.10 Odor Threshold: 30 ppm.	

6. FIRE HAZARDS 6.1 Flash Point: 111°F (44°C) 6.2 Flammable Limits in Air: 2.1 - 13.5 6.3 Fire Extinguishing Agents: Carbon dioxide or dry chemical for small fires; alcohol foam for large fires. 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: Not pertinent. 6.7 Ignition Temperature: 700°F 6.8 Electrical Hazard: Class I, Group D. 6.9 Burning Rate: 2.9 mm/min.	8. WATER POLLUTION 8.1 Aquatic Toxicity: 500 ppm; 24 hr; goldfish died; fresh water. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): 0.47 lbs/lb in 5 days. 8.4 Food Chain Concentration Potential: None.																												
7. PPL

PROPYLENE

Common Synonyms: Propylene Methylpropylene	Liquefied compressed gas Colorless Mild odor Fluents and foams on water. Flammable, visible vapor cloud is produced.
Fire	FLAMMABLE Container may explode in fire. Flashback along vapor trail may occur. May explode if ignited in an enclosed area.
Exposure	VAPOR If inhaled, will cause dizziness or loss of consciousness. LIQUID Will cause frostbite.
Water Pollution	Not harmful to aquatic life.
1. RESPONSE TO DISCHARGE See Response Methods Manual, CG 444-4. Issue warning: high flammability. Evacuate area.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Methylpropylene Propylene 3.2 Coast Guard Compatibility Classification: CH 1.1 3.3 Chemical Formula: C ₃ H ₆ (200 H) 3.4 IMCO United Nations Numerical Designation: 2010	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquefied gas 4.2 Color: Colorless 4.3 Odor: Weak, gas
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Organic vapor cartridge or air supply, self-contained breathing apparatus, liquid protective clothing, eye protection. 5.2 Symptoms Following Exposure: Moderate concentration may cause dizziness, headache, and unconsciousness. Contact with liquefied propylene may cause freezing burns. 5.3 Treatment for Exposure: INHALATION: Remove victim from exposure. Breathing apparatus or artificial respiration if necessary. Give oxygen and artificial respiration if needed. 5.4 Toxicity by Inhalation (Threshold Limit Value): 1000 ppm 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Not pertinent. 5.7 Late Toxicity: None. 5.8 Vapor (Gas) Irritant Characteristics: Vapors are non-irritating to the eyes and throat. 5.9 Liquid or Solid Irritant Characteristics: Not appreciable hazard. Practically harmless to the skin because of evaporative quality. 5.10 Odor Threshold: Data not available.

Common Semantics
Articles: 2 paragraphs
about PM
and 338

1. **Introduction**

(continued)

وہی ہے

Wiederum ist die zweite Zeile in der ersten Spalte zu lesen.

Five

FLAMMABLE

Flashback, along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

1400R

limb'ing to c-r, now and then?

1148

Intuitive is also a good

Water Pollution

[Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water supply.

Will be determined if it exists in any way.

1. RESPONSE TO DISCHARGE

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

2 LABEL

3 CHEMICAL DESIGNATIONS

- 3.1 **Synonyms:** Dioxane-4-IR
Dioxane-PM
Methylene 2-propenyl
- 3.2 **COSY Guard Compatibility Classification:**
Type 1 (see 3.1)
- 3.3 **Chemical Formula:** C₈H₁₀O₂ H₂O 47
- 3.4 **HSO United Nations Numerical Designation:** Not used

4. OBSERVABLE CHARACTERISTICS

- 4.1 Physical State (as shipped): 1 barrel
4.2 Color: 1 barrel
4.3 Odor: 1 barrel

5 HEALTH HAZARDS

- 5.1 **Personal Protective Equipment:** Safety goggles, protective clothing
- 5.2 **Symptoms Following Exposure:** Irritation of skin, eyes, and mouth
- 5.3 **Treatment for Exposure:** Flush with water; remove clothing; wash skin; use contaminated clothing and wash with water
- 5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm
- 5.5 **Short-Term Inhalation Limits:** Data not available
- 5.6 **Toxicity by Ingestion:** Irritation of the digestive system
- 5.7 **Late Toxicity:** Data not available
- 5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation to the eyes, nose, and throat at high concentrations; unpleasant at elevated temperatures
- 5.9 **Liquid or Solid Irritant Characteristics:** Moderate hazard; irritation to the skin is not permanent, may cause stinging and reddening of the skin
- 5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

- 61 Flash Point: 100°F
- 62 Flammable Limits in Air: 1.1% - 7.6%
- 63 Fire Extinguishing Agents: Water, foam, dry chemical
- 64 Fire Extinguishing Agents Not to be Used: None
- 65 Special Hazards of Combustion Products: None
- 66 Behavior in Fire: None
- 67 Ignition Temperature: 1000°F
- 68 Electrical Hazard: None
- 69 Burning Rate: None

8. WATER POLLUTION

- 8.1 Aquatic Toxicity (Dose-response)
- 8.2 Waterfowl Toxicity (Dose-response)
- 8.3 Biological Oxygen Demand (BOD) (Dose-response)
- 8.4 Food Chain Concentration Potential

9. SELECTED MANUFACTURERS

$$\begin{aligned} D &= C^2 - 2C \\ M &= M - 2C \\ C &= C - 1 \\ 4N &= 2B \\ A &= 10 - 2C^2 \end{aligned}$$

7 CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: \ \ \ \
- 7.2 Reactivity with Common Materials: \ \ \ \
- 7.3 Stability During Transport: \ \ \ \
- 7.4 Neutralizing Agents for Acids and Caustics: \ \ \ \
- 7.5 Polymerization: \ \ \ \
- 7.6 Inhibitor of Polymerization: \ \ \ \

10. SHIPPING INFORMATION

- *0 Grades or Purity: Technical
*02 Storage Temperature: Room
103 Inert Atmosphere: No requirement
*04 Venting: Open to the atmosphere

11 HAZARD ASSESSMENT CODE

AP 0

12 HAZARD CLASSIFICATIONS

- 12.1 Code of Federal Regulations: Flammable Liquid

- 12.3 ATPA Hazard Classifications: Not rated

13. PHYSICAL AND CHEMICAL PROPERTIES

- *13.1 Physical State at 15°C and 1 atm: N_2 and O_2
- *13.2 Molecular Weight: $M = 28$
- *13.3 Boiling Point at 1 atm: $T_b = 196.1^\circ C = 77.3^\circ K$
- *13.4 Freezing Point: N/A
- *13.5 Critical Temperature: $T_c = 220.1^\circ C = 493.2^\circ K$
- *13.6 Critical Pressure: $P_c = 33.5$ atm
- *13.7 Specific Gravity: $\rho_{sp} = 1.25$
- *13.8 Liquid Surface Tension: N/A
- *13.9 Liquid-Water Interfacial Tension: N/A
- *13.10 Vapor (Gas) Specific Gravity: N/A
- *13.11 Ratio of Specific Heats of Vapor (Gas): $\gamma = 1.4$
- *13.12 Latent Heat of Vaporization: $h_{fg} = 473.1 \text{ kJ/kg} = 107 \text{ Btu/lb}$
- *13.13 Heat of Combustion: $h_{cp} = 43,600 \text{ Btu/lb} = 10,042 \text{ kJ/kg}$
- *13.14 Heat of Decomposition: N/A
- *13.15 Heat of Solution: $h_{cs} = 9 \text{ Btu/lb} = 0.21 \times 10^3 \text{ kJ/kg}$
- *13.16 Heat of Polymerization: N/A

NOTES

POX

PROPYLENE OXIDE

Common Synonyms Propylene oxide 1,2-Epoxypropane Propylene oxide	Liquid Colorless Sweet, alcohol odor Mixes with water. Flammable, irritant. Vapor is produced.
Fire	FLAMMABLE. Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Fire extinguishers: Carbon dioxide, or dry chemical for small fires; alcohol or polymer foam for large fires.
Exposure	VAPOR Irritating to eyes, nose, and throat. If inhaled, will cause headache, nausea, vomiting, or loss of consciousness. LIQUID Will burn skin and eyes. Harmful if swallowed. EFFECTS Irritation of skin and eyes. If swallowed, may cause secondary burns on long exposure.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE (See Response Manual Handbook, CG 446-4) Toxic warning Restrict access Evacuate area	2 LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: 1,2-Epoxypropane; Methyl oxirane; Propylene oxide. 3.2 Coast Guard Compatibility Classification: Miscellaneous. 3.3 Chemical Formula: CH ₃ CH(OH) ₂ . 3.4 IMO/United Nations Numerical Designation: 3.1 (280)	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless. 4.3 Odor: Ethereal characteristic, sweet, alcoholic, like natural gas.
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Air supplied mask, rubber or plastic gloves, vapor proof goggles. 5.2 Symptoms Following Exposure: Inhalation may produce headache, nausea, vomiting, and unconsciousness; mild depression of central nervous system; lung irritation. Slight irritation to skin, but covered contact may cause burn. Very irritating to eyes. 5.3 Treatment for Exposure: INHALATION: Remove person to fresh air immediately. Keep quiet and warm. Call a physician if breathing stops. Start artificial respiration. SKIN OR EYE CONTACT: Immediately flush with plenty of water for at least 15 min. Immediately remove contaminated clothing. Wash hands thoroughly to prevent confining product to skin. For eyes get medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): 100 ppm. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade 2. LD ₅₀ 8 to 9 g/kg (rat). 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations. 5.9 Liquid or Solid Irritant Characteristics: Causes irritation of the skin and first degree burns on short exposure; may cause secondary burns on long exposure. 5.10 Odor Threshold: 200 ppm.	

5. FIRE HAZARDS

- 6.1 **Flash Point:** 35°F (C) = -20°F (C)
 6.2 **Flammable Limits in Air:** 2.1 - 13.5%
 6.3 **Fire Extinguishing Agents:** Carbon dioxide, or dry chemical for small fires; alcohol or polymer foam for large fires.
 6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective.
 6.5 **Special Hazards of Combustion Products:** Not pertinent.
 6.6 **Behavior in Fire:** Containers may explode. Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back.
 6.7 **Ignition Temperature:** 569°F
 6.8 **Electrical Hazard:** Class I, Group B.
 6.9 **Relief Rate:** 33 mm/min.

7. CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** No reaction.
 7.2 **Reactivity with Common Materials:** No reaction.
 7.3 **Stability During Transport:** Stable.
 7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent.
 7.5 **Polymerization:** May occur due to high temperatures; contamination with alkynes, aqueous acids, amines, and acids, alcohols.
 7.6 **Inhibitor of Polymerization:** Not pertinent.

8. WATER POLLUTION

- 8.1 **Aquatic Toxicity:** Data not available.
 8.2 **Waterflow Toxicity:** Data not available.
 8.3 **Biological Oxygen Demand (BOD):** Data not available.
 8.4 **Food Chain Concentration Potential:** None.

9. SELECTED MANUFACTURERS

1. BASF Wyandotte Corp.
 Wyandotte, Mich. 48192
 2. Dow Chemical Co.
 Midland, Mich. 48640
 3. Oxychem Corp.
 120 Alexander St.
 Princeton, N.J. 08540

10. SHIPPING INFORMATION

- 10.1 **Grades or Purity:** 99.99% (must contain no acetylene).
 10.2 **Storage Temperature:** Ambient.
 10.3 **Inert Atmosphere:** Inerted.
 10.4 **Venting:** Safety relief.

11. HAZARD ASSESSMENT CODE

REVISED 1978

PROPYLENEIMINE, INHIBITED

Common Synonyms Propyleneimine 2-Methylaziridine 2-Methylethyleneimine	Liquid Colorless Strong ammonia-like odor Mixes with water. Flammable, irritating vapor is produced.
AVOID CONTACT WITH SKIN, EYES, OR CLOTHING. IF CONTACT OCCURS, WASH IMMEDIATELY WITH WATER. IF EYES ARE AFFECTED, FLUSH WITH WATER FOR AT LEAST 15 MINUTES. IF INHALED, MOVE TO FRESH AIR. IF SWALLOWED, DO NOT INDUCE VOMITING.	
Fire	FLAMMABLE Irritating gases are produced when heated. Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.
 Exposure	VAPOR Irritating to eyes, nose and throat. If inhaled will cause nausea, vomiting or difficulty breathing. May cause dizziness. LIQUID POISONOUS IF SWALLOWED. Will burn skin and eyes. May cause dizziness. If swallowed, do not induce vomiting. If in eyes, flush with water for at least 15 minutes. If on skin, remove contaminated clothing and flush with water.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446.4) Issue warning: high flammability, water contaminant, air contaminant. Restrict access. Evacuate area. Dispersed and flush.	2 LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: 2-Methylaziridine, 2-Methylethyleneimine, Propyleneimine. 3.2 Coast Guard Compatibility Classification: Not applicable. 3.3 Chemical Formula: C_3H_5N 3.4 IMCO/United Nations Numerical Designation: 121921	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Strong ammonia-like
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Self-contained breathing apparatus, goggles or face shield, rubber gloves. 5.2 Symptoms Following Exposure: Inhalation causes vomiting, breathing difficulty, and irritation of eyes, nose, and throat. On prolonged exposure, vapors tend to redden the whites of the eyes. Contact with liquid causes eye irritation, like that caused by strong ammonia. Liquid causes skin burns, which are slow to heal. Ingestion causes burns of mouth and stomach. 5.3 Treatment for Exposure: INHALATION: move victim to fresh air; if he is not breathing, apply artificial respiration; oxygen if breathing is difficult; administer oxygen; call physician. EYES: flush with plenty of water for at least 30 min. and obtain prompt medical attention. SKIN: remove all contaminated clothing and flush with water; rinse with vinegar and water. INGESTION: drink large amounts of milk or water; get prompt medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): 2 ppm 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 4, oral LD_{50} = 19 mg/kg (rat) 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available	

6 FIRE HAZARDS 6.1 Flash Point: 25°F (0°C) 6.2 Flammable Limits in Air: Data not available 6.3 Fire Extinguishing Agents: Dry chemical or carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Water or foam may be ineffective 6.5 Special Hazards of Combustion Products: Irritating nitrogen oxides are produced 6.6 Behavior in Fire: Containers may explode 6.7 Ignition Temperature: Data not available 6.8 Electrical Hazard: Data not available 6.9 Burning Rate: 4.1 mm/min	8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts slowly to form propanolamine. The reaction is not hazardous. 7.2 Reactivity with Common Materials: No reaction 7.3 Stability During Transport: Stable if kept in contact with solid caustic soda (sodium hydroxide) 7.4 Neutralizing Agents for Acids and Caustics: Dilute with water; rinse with vinegar 7.5 Polymerization: Polymerizes explosively when in contact with any acid 7.6 Inhibitor of Polymerization: Solid sodium hydroxide (caustic soda)	9. PMN

n-PROPYL MERCAPTAN

Common Synonyms 1 Propanethiol Propane-1-thiol		Liquid	Colorless	Skunk like odor
		Floats on water. Flammable. Irritating vapor is produced.		
No data available on biodegradability. No data available on toxicity to fish.				
Fire		FLASHABLE. POISONOUS GASES ARE PRODUCED IN FIRE. Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Water may be ineffective.		
Exposure		VAPOR If inhaled will cause difficult breathing. May cause irritation of eyes and skin. If inhaled, move victim to fresh air. If inhaled, seek medical attention. LIQUID Irritating to skin and eyes. Harmful if swallowed. If swallowed, do not induce vomiting. If swallowed, seek medical attention. IF SWALLOWED, DO NOT INDUCE VOMITING. IF SWALLOWED, DRINK WATER OR MILK.		
Water Pollution		Effect of low concentrations on aquatic life is unknown. Fouling to shoreline. May be dangerous if it enters water intakes. No data available on biodegradability. No data available on toxicity to fish.		
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446.4.) Issue warning: high flammability. water contaminant, air contaminant. restrict access, evacuate area, mechanical containment, should be removed, chemical and physical treatment.		2. LABEL 		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: 1-Propanethiol Propane-1-thiol 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: CH ₃ CH ₂ CH ₂ SH 3.4 IMCO/United Nations Numerical Designation: 1.1 1228		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Skunk-like		
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield, rubber gloves, self contained breathing apparatus or organic canister mask. 5.2 Symptoms Following Exposure: Inhalation causes muscular weakness, convulsions, and respiratory paralysis. High concentrations may cause pulmonary irritation. Contact with liquid causes irritation of eyes and skin. Ingestion causes irritation of mouth and stomach. 5.3 Treatment for Exposure: INHALATION: remove victim from contaminated atmosphere, give artificial respiration and oxygen if needed, observe for premonitory signs of pulmonary edema. EYES: flush with water for 15 min. if irritation persists, see a physician. SKIN: flush with water, wash with soap and water. INGESTION: induce vomiting and follow with gastric lavage. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade 2 oral LD ₅₀ = 1.790 mg/kg (rat). 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: 0.0005 ppm.

NOTES	

PRD

PYRIDINE

Common Synonyms		Liquid	Colorless to yellow	Sharp nauseating odor
Mixes with water. Poisonous. Flammable vapor is produced.				
AVOID CONTACT WITH SKIN AND EYES. VAPOR MAY IRRITATE EYES, NOSE, AND THROAT.				
Fire		FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.		
Exposure		VAPOR Poisonous if inhaled or if skin is exposed. Irritating to eyes, nose, and throat. LIQUID Poisonous if swallowed or if skin is exposed. Will burn eyes.		
Water Pollution		Dangerous to aquatic life in high concentrations. May be dangerous if it enters water intakes.		
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446.4) Issue warning: high flammability. Restrict access. Evacuate area. Dispose and flush.		2. LABEL 		
3 CHEMICAL DESIGNATIONS 31 Synonyms: No common synonyms. 32 Coast Guard Compatibility Classification Aromatic amine 33 Chemical Formula: <chem>C5H5N</chem> 34 IMCO United Nations Numerical Designation: 321222		4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Liquid 42 Color: Yellow, colorless 43 Odor: Distinct, strong, unpleasant, characteristic, unpleasant, sharp, penetrating, unpleasant.		
5 HEALTH HAZARDS 51 Personal Protective Equipment: As supplied mask or organic vapor, acid gas, and rubber gloves and protective clothing. 52 Symptoms Following Exposure: Vapors irritate eyes and nose. Liquid irritates skin and is absorbed through the skin. Overexposure causes nausea, headache, nervous symptoms, increased urinary frequency. 53 Treatment for Exposure: INHALATION: Remove individual to fresh air. If breathing is difficult, give artificial respiration and oxygen. If necessary, give mouth-to-mouth. If INGESTION: induce vomiting and follow with gastric lavage. SKIN: wash thoroughly with large amounts of water. EYES: flush with large amounts of water. 54 Toxicity by Inhalation (Threshold Limit Value): 1 ppm 55 Short-Term Inhalation Limits: Data not available. 56 Toxicity by Ingestion: Grade 2 LD₅₀ 5.0 g/kg. 57 Late Toxicity: Liver and kidney damage after ingestion. 58 Vapor (Gas) Irritant Characteristics: Vapors cause moderate irritation such as eye, nose, throat, and high concentrations are corrosive. The effect is temporary. 59 Liquid or Solid Irritant Characteristics: Causes irritation of the skin and first degree burns on short exposure. In contact with skin causes severe burns on long exposure. 510 Odor Threshold: 0.02 ppm				

6 FIRE HAZARDS

61 Flash Point: 68 F (20 C)

62 Flammable Limits in Air: 1.8 - 12.4

63 Fire Extinguishing Agents: Alcohol, foam, dry chemical, or carbon dioxide

64 Fire Extinguishing Agents Not to be Used: Water may be ineffective

65 Special Hazards of Combustion Products: Not pertinent

66 Behavior in Fire: Vapor is heavier than air and may travel considerable distance to source of ignition and flash back

67 Ignition Temperature: 900 F

68 Electrical Hazard: Class I, Group D

69 Burning Rate: 4 mm/min

7 CHEMICAL REACTIVITY

71 Reactivity with Water: No reaction

72 Reactivity with Common Materials: None

73 Stability During Transport: Stable

74 Neutralizing Agents for Acids and Caustics: Flush with water

75 Polymerization: Not pertinent

76 Inhibitor of Polymerization: Not pertinent

8 WATER POLLUTION

81 Aquatic Toxicity: 150 mg/l 96-hr fish TL₅₀ in fresh water

82 Waterlow Toxicity: Data not available

83 Biological Oxygen Demand (BOD): 1.15 - 1.47 lb/lb 5 day

84 Food Chain Concentration Potential: None

NOTES

REVISED 1978

PYROGALLIC ACID

Common Synonyms Pyrogallol 1,2,3-Benzenetriol 1,2,3-Trihydroxybenzene		Solid	White to Gray	Odorless
		Sinks and mixes with water		

QNL

QUINOLINE

Common Synonyms 1 Benzene Benzene, quinoline Choline 1 Azanaphthalene	Liquid Colorless to brown Strong unpleasant odor Sinks in water
Fire	Combustible POISONOUS GASES MAY BE PRODUCED IN FIRE
Exposure	LIQUID Irritating to skin and eyes. If swallowed will cause nausea and vomiting.
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS Fouling to shoreline May be dangerous if it enters water intakes.
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-41 Issue warning - water contaminant Restrict access Mechanical containment Should be removed Chemical and physical treatment	2. LABELS No hazard label required by Code of Federal Regulations
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: 1 Azanaphthalene 1 Benzene, Benzobiphenylene Choline, Levul 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: C ₁₀ H ₇ N 3.4 IMCO/United Nations Numerical Designation: Not listed	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless to brown 4.3 Odor: Strong, unpleasant
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: U.S. Bu. Mixes approved vapor unit, chemical safety goggles, face shield, rubber gloves, coveralls and/or rubber apron, rubber shoes and boots. 5.2 Symptoms Following Exposure: Vapors are irritative to nose and throat and may cause headaches, dizziness, and nausea if inhaled. Ingestion causes irritation of mouth and stomach; vomiting may occur. Contact with eyes of skin causes irritation. 5.3 Treatment for Exposure, INHALATION: Remove victim to fresh air. INGESTION: Give large amount of water, induce vomiting, get medical attention. EYES: Flush immediately with plenty of water for at least 15 min., call physician. SKIN: Flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 5, oral LD ₅₀ = 400 mg/kg rats 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor: Threshold, 75 ppm

RSC

RESORCINOL

Common Synonyms: 1,3-Benzenediol m-Dihydroxybenzene Resorcinol 1,3-Dihydroxybenzene Dihydroxybenzol	Solid White or off-white Faint odor Sinks and mixes with water	
Fire	Combustible CONTAINERS MAY EXPLODE IN FIRE	
Exposure	DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing SOLID Irritating to skin and eyes If swallowed will cause nausea or loss of consciousness	
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes	
1 RESPONSE TO DISCHARGE (See Response Methods Manual: CG 446-4) Issue warning - water contaminant Disperse and flush	2. LABELS No hazard label required by Code of Federal Regulations	
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: 1,3-Benzenediol m-Dihydroxybenzene, 1,3-Dihydroxybenzene, Dihydroxybenzol, Resorcinol 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $C_6H_4(OH)_2$ 3.4 IMCO/United Nations Numerical Designation: Not listed	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White or nearly white 4.3 Odor: Faint characteristic aromatic	
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: U.S. Bu. Mines approved respirator, rubber gloves, safety glasses with side shields or chemical goggles, apron or rubber apron 5.2 Symptoms Following Exposure: Inhalation of vapors or dust causes irritation of respiratory tract. Ingestion causes burns of mucous membranes, severe diarrhea, pallor, sweating, weakness, headache, dizziness, tinnitus, shock, and severe convulsions may also cause siderosis of the spleen and tubular injury to the kidney. Contact with eyes causes irritation. Can be absorbed from wounds or through unbroken skin, producing severe dermatitis, methemoglobinemia, exanthisis, convulsions, tachycardia, dyspnea, and death. 5.3 Treatment for Exposure: INHALATION: remove victim to fresh air; if he is not breathing, give artificial respiration, preferably mouth-to-mouth; if breathing is difficult, give oxygen, call a physician. INGESTION: give activated charcoal, administer castor oil, lavage with water, consult physician. EYES: flush with water for 15 min. SKIN: flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 2 LD ₅₀ 5 g/kg 5.7 Late Toxicity: Produces goiters in rats 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available

SLA

SALICYLIC ACID

Common Synonyms o-Hydroxybenzoic acid Retarder W	Solid White to light tan Odorless Sinks and mixes slowly with water
SAFETY DATA SHEET 1. IDENTIFICATION 2. HAZARD IDENTIFICATION 3. COMPOSITION 4. FIRST AID MEASURES 5. FIRE FIGHTING 6. ACCIDENT PREVENTION 7. STORAGE 8. TRANSPORT 9. DISPOSAL 10. ADDITIONAL INFORMATION	
Fire	Combustible Dust cloud may explode if ignited in an enclosed area Irritating gases may be produced when heated
Exposure	DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing SOLID Irritating to skin and eyes If swallowed will cause vomiting
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes
1. RESPONSE TO DISCHARGE	2. LABELS
(See Response Methods Handbook CG 446-4) Should be removed Chemical and physical treatment	No hazard label required by Code of Federal Regulations
3. CHEMICAL DESIGNATIONS	4. OBSERVABLE CHARACTERISTICS
3.1 Synonyms: o-Hydroxybenzoic acid Retarder W 3.2 Coast Guard Compatibility Classification Not listed 3.3 Chemical Formula: C₇H₆O₃ 3.4 IMCO/United Nations Numerical Designation: Not listed	4.1 Physical State (as shipped): Solid 4.2 Color: White to very light tan 4.3 Odor: None
5. HEALTH HAZARDS	
5.1 Personal Protective Equipment: Gloves, goggles, respirator for dust, clean body covering clothing 5.2 Symptoms Following Exposure: Inhalation of dust irritates nose and throat. Vomiting may occur spontaneously if large amounts are swallowed. Contact with eyes causes irritation, mild pain and corneal injury which should heal. Prolonged or repeated skin contact may cause marked irritation or even a mild burn 5.3 Treatment for Exposure: INHALATION: move to fresh air. INGESTION: induce vomiting and get medical attention promptly. EYES: promptly flush with water for 15 min. and get medical attention. SKIN: wash with soap and water 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 2 LD₅₀ 0.5 g/kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available

SELENIUM DIOXIDE

Common Synonyms Selenium oxide Selenious anhydride		Solid	White	Solar color
		Sinks and mixes with water		
Fire	Not flammable POISONOUS GASES MAY BE PRODUCED WHEN HEATED			
 <u>Exposure</u>	DUST POISONOUS IF INHALED OR IF SKIN IS EXPOSED If inhaled will cause coughing or difficult breathing SOLID Irritating to skin and eyes. If swallowed will cause coughing, nausea, or vomiting			
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes.			
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 444-4) Issue warning - poison water contaminant Restrict access Disperse and flush		2. LABEL 		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Selenous anhydride Selenium oxide 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: SeO_2 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: Pungent smell		
5. HEALTH HAZARDS <i>This compound is highly toxic if inhaled or ingested.</i> 5.1 Personal Protective Equipment: Dust mask, rubber gloves, protective clothing 5.2 Symptoms Following Exposure: Absorption of selenium may be demonstrated by presence of the element in the urine and by a garlic-like odor of the breath. Inhalation of dust can cause bronchial spasms, symptoms of asphyxiation, and pneumonia. Acute symptoms - ingestion include sternal pain, cough, nausea, pallor, coated tongue, gastrointestinal disorders, hoarseness, and conjunctivitis. Contact with eyes causes irritation. 5.3 Treatment for Exposure: Consult physician after all exposures to this compound. INHALATION: remove victim to fresh air, give oxygen if needed. INGESTION: induce vomiting, follow with gastric lavage and saline cathartics. EYES: flush immediately and thoroughly with water. SKIN: flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 0.2 mg/m (as selenium) 5.5 Short-Term Inhalation Limits: 0.1 mg/m (as selenium) 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: 11 (0.02) mg/m ³

STC

SILICON TETRACHLORIDE

Common Synonyms Silicon chloride	Liquid Colorless to light yellow Suffocating odor Reacts violently with water. Irritating gas is produced on contact with water.
Fire	Not flammable
Exposure	VAPOR Irritating to eyes, nose and throat. If inhaled will cause difficult breathing. LIQUID POISONOUS IF SWALLOWED Will burn skin and eyes.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.
1. RESPONSE TO DISCHARGE See Response Memoirs Handbook, CG 446-A Evacuate, containing air contaminants. Restrict access. Evacuate area. Dispense and flush with water.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Silicon chloride 3.2 Coast Guard Competibility Classification: To be developed 3.3 Chemical Formula: SiCl_4 3.4 IMCO/United Nations Numerical Designation: 1502	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless to pale yellow 4.3 Odor: Suffocating, acid
5. HEALTH HAZARDS	
5.1 Personal Protective Equipment: Acid canister type gas mask or self-contained breathing apparatus, goggles or face shield, rubber gloves, other protective clothing to prevent contact with skin.	
5.2 Symptoms Following Exposure: Irritation causes severe irritation of upper respiratory tract resulting in coughing, choking, and a feeling of suffocation. Continued inhalation may produce edema of the nose, throat, and trachea. If inhaled deeply, edema of the lungs may occur. Contact of liquid with eyes causes severe irritation and pain. Burns may cause permanent visual impairment. Liquid may cause severe burns to skin. Repeated skin contact with dilute solutions of germanic tetrachloride vapors may cause dermatitis. Ingestion causes severe internal injury with pain in the throat and stomach, intense thirst, difficulty in swallowing, nausea, vomiting, and diarrhea. In severe cases, collapse and unconsciousness may result.	
5.3 Treatment for Exposure: For moderate to severe exposure, first aid consists of INITIAL ALLEVATION, removing victim from contaminated atmosphere, if breathing has ceased, start respiration with resuscitator. Oxygen should only be administered by an experienced person when authorized by a physician. Keep patient warm and comfortable. EYES: Immediately flush with large quantities of running water for a minimum of 15 min. Continue irrigation for an additional 15 min. if physician is not available. SKIN: Immediately flush affected area with water. Severe or extensive burns may be caused by silicon tetrachloride, producing shock symptoms (rapid pulse, sweating and collapse). Keep patient comfortably warm. INHALATION: If patient is conscious, give large amounts of the water or milk. If unconscious, plain water should be given. If neither of these is available, do NOT give oil or sodium carbonate or make any attempt to induce vomiting. If patient is unconscious, do not give anything but ensure there is no obstruction to breathing. Tongue should be kept forward and false teeth removed, he will be less likely to aspirate vomitus if placed in a face-downward position.	

6. FIRE HAZARDS 6.1 Flash Point: Not flammable 6.2 Flammable Limits in Air: Not flammable 6.3 Fire Extinguishing Agents: Not pertinent 6.4 Fire Extinguishing Agents Not to be Used: Water or foam on adjacent fires 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: Contact with water or steam applied to adjacent fires will produce irritating fumes of hydrogen chloride 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent	8. SVA

SILVER ACETATE

Common Synonyms	
Solid	White to gray
Sinks in water	
Fire	
Not flammable	
 Exposure	DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing.
	SOLID Irritating to skin and eyes. Harmful if swallowed.
Water Pollution Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.	
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 444.4 Do not wash up in water until advised. Report to local health department. Dispose as instructed.	
2. LABELS See Response Methods Handbook, CG 444.4 No hazard label required by Federal or State Regulations.	
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Not common synonyms. 3.2 Coast Guard Compatibility Classification: Not listed. 3.3 Chemical Formula: <chem>CH3COOAg</chem> 3.4 IMCO/United Nations Numerical Designation: Not listed.	
4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid. 4.2 Color: White to gray. 4.3 Odor: None.	
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Hand mask, goggles or face shield, protective gloves. 5.2 Symptoms Following Exposure: Inhalation: Irritation to nose and throat. Contact with eyes or skin causes irritation. If swallowed for a long period, ingestion of silver compounds can cause permanent discoloration of skin (argyria). 5.3 Treatment for Exposure: INHALATION: Move to fresh air. INGESTION: Give large amount of water. Advise attending physician to flush with water for 1 hour. Avoid SKIN: Flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 0.1 mg/m ³ . 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Data not available. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: Data not available.	

6 FIRE HAZARDS

- 6.1 Flash Point: Not listed.
 6.2 Flammable Limits in Air: Not listed.
 6.3 Fire Extinguishing Agents: Not listed.
 6.4 Fire Extinguishing Agents Not to be Used: Not listed.
 6.5 Special Hazards of Combustion Products:
 6.6 Behavior in Fire:
 6.7 Ignition Temperature: Not listed.
 6.8 Electrical Hazard: Not pertinent.
 6.9 Burning Rate: Not listed.

8 WATER POLLUTION

- 8.1 Aquatic Toxicity: Data not available.
 8.2 Waterlow Toxicity: Data not available.
 8.3 Biological Oxygen Demand (BOD): Data not available.
 8.4 Food Chain Concentration Potential: Not listed.

7 CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: Not listed.
 7.2 Reactivity with Common Materials:
 7.3 Stability During Transport: Not listed.
 7.4 Neutralizing Agents for Acids and Caustics: Not listed.
 7.5 Polymerization: Not listed.
 7.6 Inhibitor of Polymerization: Not pertinent.

10 SHIPPING INFORMATION

- 10.1 Grades or Purity: Commercial, Purified.
 10.2 Storage Temperature: Ambient.
 10.3 Inert Atmosphere: Not applicable.
 10.4 Venting: None.

11. HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook, CG 444.3
 HHS

12. HAZARD CLASSIFICATIONS

- 12.1 Code of Federal Regulations: Not listed.
 12.2 HAS Hazard Rating for Bulk Water Transportation: Not listed.
 12.3 NFPA Hazard Classifications: Not listed.

13 PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 Physical State at 15°C and 1 atm: Solid.
 13.2 Molecular Weight: 166.9.
 13.3 Boiling Point at 1 atm: Not pertinent.
 13.4 Freezing Point: Not pertinent.
 13.5 Critical Temperature: Not pertinent.
 13.6 Critical Pressure: Not pertinent.
 13.7 Specific Gravity: 3.26 at 20°C (solid).
 13.8 Liquid Surface Tension: Not pertinent.
 13.9 Liquid-Water Interfacial Tension: Not pertinent.
 13.10 Vapor (Gas) Specific Gravity: Not pertinent.
 13.11 Ratio of Specific Heats of Vapor (Gas): Not pertinent.
 13.12 Latent Heat of Vaporization: Not pertinent.
 13.13 Heat of Combustion: Not pertinent.
 13.14 Heat of Decomposition: Not pertinent.
 13.15 Heat of Solution: Not pertinent.
 13.16 Heat of Polymerization: Not pertinent.

NOTES

SVC

SILVER CARBONATE

Common Synonyms		Solid	Yellow to brown	Odorless
		Soluble in water		
Fire		Not flammable		
Exposure		DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. SOLID Irritating to skin and eyes. Harmful if swallowed.		
Water Pollution		Effect of low concentrations on aquatic life is unknown. May be dangerous, if it enters water intakes.		
1. RESPONSE TO DISCHARGE		2. LABELS		
(See Response Methods Handbook, CG 446-4)		No hazard label required by Code of Federal Regulations.		
Issue warning - water contamination. Should be removed. Chemical and physical treatment.				
3. CHEMICAL DESIGNATIONS		4. OBSERVABLE CHARACTERISTICS		
3.1 Synonyms: No common synonyms.		4.1 Physical State (as shipped): Solid.		
3.2 Coast Guard Comp. Classification: Not listed.		4.2 Color: Yellow to brown.		
3.3 Chemical Formula: Ag_2CO_3 .		4.3 Odor: None.		
3.4 IMCO/United Nations Numerical Designation: Not listed.				
5. HEALTH HAZARDS				
5.1 Personal Protective Equipment: mask, goggles or face shield, rubber gloves.				
5.2 Symptoms Following Exposure: Contact with eyes causes irritation. If continued for a long period ingestion or inhalation of silver compounds can cause permanent discoloration of the skin, lungs, etc.				
5.3 Treatment for Exposure: INHALATION: move to fresh air. INGESTION: give large amount of water, induce vomiting. EYES: flush with water - at least 15 min. SKIN: flush with water - wash with soap and water.				
5.4 Toxicity by Inhalation (Threshold Limit Value): 0.01 mg/m ³ .				
5.5 Short-Term Inhalation Limits: Data not available.				
5.6 Toxicity by Ingestion: Data not available.				
5.7 Late Toxicity: Data not available.				
5.8 Vapor (Gas) Irritant Characteristics: Data not available.				
5.9 Liquid or Solid Irritant Characteristics: Data not available.				
5.10 Odor Threshold: Data not available.				

6. FIRE HAZARDS		8. WATER POLLUTION	
6.1 Flash Point: Not determined.		8.1 Aquatic Toxicity: Data not available.	
6.2 Flammable Limits in Air: Not determined.		8.2 Waterford Toxicity: Data not available.	
6.3 Fire Extinguishing Agents: Not pertinent.		8.3 Biochemical Oxygen Demand (BOD): None.	
6.4 Fire Extinguishing Agents Not to be Used: Not pertinent.		8.4 Food Chain Concentration Potential: None.	
6.5 Special Hazards of Combustion Products: Not pertinent.			
6.6 Behavior in Fire: Decomposes and yields silver and carbon dioxide, the reaction is not hazardous.			
6.7 Ignition Temperature: Not determined.			
6.8 Electrical Hazard: Not pertinent.			
6.9 Burning Rate: Not determined.			
		9. SELECTED MANUFACTURERS	
		R. N. S. Corporation 400 New Mill River Rd. Arden, N.Y. 10902.	
		J. I. Baker Chemical Co. Phillipsburg, N.J. 08865.	
		Gailard Sublimed Chemical Mfg. Co. 124 Main Ave. Little Place, N.Y. 13344.	
7. CHEMICAL REACTIVITY			
7.1 Reactivity with Water: No reaction.			
7.2 Reactivity with Common Materials:			
7.3 Stability During Transport: Stable.			
7.4 Neutralizing Agents for Acids and Caustics: Not pertinent.			
7.5 Polymerization: Not pertinent.			
7.6 Inhibitor of Polymerization: Not pertinent.			
		10. SHIPPING INFORMATION	
		10.1 Grades or Purity: Reagent grade.	
		10.2 Storage Temperature: Ambient.	
		10.3 Inert Atmosphere: No requirement.	
		10.4 Venting: Open.	
11. HAZARD ASSESSMENT CODE		13. PHYSICAL AND CHEMICAL PROPERTIES	
(See Hazard Assessment Handbook, CG 446-3)		13.1 Physical State at 15°C and 1 atm: Solid.	
II		13.2 Molecular Weight: 275.74.	
		13.3 Boiling Point at 1 atm: Not pertinent.	
		13.4 Freezing Point: Not pertinent.	
		13.5 Critical Temperature: Not pertinent.	
		13.6 Critical Pressure: Not pertinent.	
		13.7 Specific Gravity: Not pertinent.	
		13.8 Liquid Surface Tension: Not pertinent.	
		13.9 Liquid-Water Interfacial Tension: Not pertinent.	
		13.10 Vapor (Gas) Specific Gravity: Not pertinent.	
		13.11 Ratio of Specific Heats of Vapor (Gas): Not pertinent.	
		13.12 Latent Heat of Vaporization: Not pertinent.	
		13.13 Heat of Combustion: Not pertinent.	
		13.14 Heat of Decomposition: Not pertinent.	
		13.15 Heat of Solution: Not pertinent.	
		13.16 Heat of Polymerization: Not pertinent.

12.3 NFPA Hazard Classifications: Not listed.			

SVF

SILVER FLUORIDE

Common Synonyms Argentous fluoride Silver monofluoride		Solid	Yellow to gray	Odorless
		Sinks and mixes with water		
Fire		Not flammable		
Exposure		DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing SOLID Irritating to skin and eyes If swallowed will cause nausea, vomiting or loss of consciousness		
Water Pollution		Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes		
1 RESPONSE TO DISCHARGE (See Response Methods Manual, 1-1-1, 446-4)		2. LABELS No hazard label required by Code of Federal Regulations		
3 CHEMICAL DESIGNATIONS		4 OBSERVABLE CHARACTERISTICS		
3.1 Synonyms: Argentous fluoride Silver monofluoride		4.1 Physical State (as shipped): Solid		
3.2 Coast Guard Compatibility Classification Not listed		4.2 Color: Yellow to gray		
3.3 Chemical Formula: AgF		4.3 Odor: None		
3.4 IMCO/United Nations Numerical Designation: Not listed				
5 HEALTH HAZARDS				
5.1 Personal Protective Equipment: Dust mask, goggles or face shield, protective gloves				
5.2 Symptoms Following Exposure: Inhalation of dust causes irritation of nose and throat. Ingestion may cause vomiting, salty taste, abdominal pain, dizziness, convulsions, collapse, thirst, disturbed vision and renal toxic nephritis. Contact with eyes causes irritation. Skin may be blackened on prolonged exposure.				
5.3 Treatment for Exposure: INHALATION: move to fresh air. INGESTION: get medical attention at once, give large amount of water and induce vomiting. EYES: flush with water for at least 15 min. SKIN: flush with water.				
5.4 Toxicity by Inhalation (Threshold Limit Value): 0.01 mg/m ³				
5.5 Short-Term Inhalation Limits: Data not available				
5.6 Toxicity by Ingestion: Data not available				
5.7 Late Toxicity: Data not available				
5.8 Vapor (Gas) Irritant Characteristics: Data not available				
5.9 Liquid or Solid Irritant Characteristics: Data not available				
5.10 Odor Threshold: Data not available				

6 FIRE HAZARDS

- 6.1 Flash Point: Not flammable
 6.2 Flammable Limits in Air: Not flammable
 6.3 Fire Extinguishing Agents: Not pertinent
 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent
 6.5 Special Hazards of Combustion Products: Not pertinent
 6.6 Behavior in Fire
 6.7 Ignition Temperature: Not pertinent
 6.8 Electrical Hazard: Not pertinent
 6.9 Burning Rate: Not pertinent

8 WATER POLLUTION

- 8.1 Aquatic Toxicity: Data not available
 8.2 Water/Jowl Toxicity: Data not available
 8.3 Biological Oxygen Demand (BOD): None
 8.4 Food Chain Concentration Potential: None

9. SELECTED MANUFACTURERS

1. Ozark Mahoning Co.

SILVER NITRATE

Common Synonyms Lunar caustic	Solid crystals Colorless to grayish black Odorless Sinks and mixes with water
1. IDENTIFICATION 1.1 NAME OF CHEMICAL: SILVER NITRATE 1.2 CAS NO.: 7764-38-2 1.3 EC NO.: 231-735-0 1.4 OTHER NAMES: LUNAR CAUSTIC	
Fire	Not flammable
Exposure	ALL FORMS OF EXPOSURE ARE HARMFUL. SOLIDS Irritating to skin and eyes Harmful if swallowed LIQUIDS Irritating to skin and eyes Harmful if swallowed POISONOUS Ingestion of solid or liquid is harmful. Swallowing of solid or liquid is dangerous.
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes
1 RESPONSE TO DISCHARGE See Response Methods Handbook - CG 446-41 Issue warning - water contamination Should be removed	2 LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Lunar caustic 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: AgNO ₃ 3.4 IMCO United Nations Numerical Designation: 1.1 1493	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Colorless 4.3 Odor: Odorless
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield; rubber gloves 5.2 Symptoms Following Exposure: Concentrated solutions will produce irritation, ulceration and discoloration of the skin; also causes severe irritation of the eyes. Ingestion will produce violent abdominal pain and other gastro-intestinal symptoms. 5.3 Treatment for Exposure: INGESTION: Gastric lavage with dilute solution of sodium chloride followed by cathartics and emetics. Other treatment is symptomatic. SKIN: Wash promptly. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: Grade 3 LD ₅₀ 500 to 800 mg/kg 5.7 Lethality: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Not volatile 5.9 Liquid or Solid Irritant Characteristics: Burns skin on prolonged contact 5.10 Odor Threshold: Not pertinent

SILVER OXIDE

Common Synonyms Argentous oxide		Solid	Brown black	Odorless
		Sinks in water		
1. Synonyms: Argentous oxide, Silver oxide, Silver sesquioxide, Silver suboxide, Silver sesquioxide, Silver suboxide, Silver sesquioxide, Silver suboxide.				
Fire	Not flammable			
Exposure	NOT FOR MEDICAL USE DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. SOLID Irritating to skin and eyes. Harmful if swallowed.			
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.			
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Should be removed. Chemical and physical treatment.		2. LABELS No hazard label required by Code of Federal Regulations.		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Argentous oxide. 3.2 Coast Guard Compatibility Classification: Not listed. 3.3 Chemical Formula: Ag ₂ O. 3.4 IMCO/United Nations Numerical Designation: Not listed.		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid. 4.2 Color: Brownish black. 4.3 Odor: None.		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust mask, goggles or face shield, protective gloves. 5.2 Symptoms Following Exposure: Contact with eyes causes mild irritation. If continued for a long period, ingestion or inhalation of silver compounds can cause permanent discoloration of the skin (argyria). 5.3 Treatment for Exposure: EYES: Flush with water. SKIN: Flush with water, wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 0.01 mg/m. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade 2 LD ₅₀ 5.5 g/kg. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: (Odorless).				

6. SVS

SILVER SULFATE

Common Synonyms		Solid	White to gray	Odorless
		Sinks and mixes with water		
HAZARD IDENTIFICATION				
Signal Word: DANGER				
Hazard Statements: H302, H312, H332, H360Df, H410				
Precise Description: This material is a white to gray solid. It is odorless and sinks and mixes with water. It is harmful to aquatic life in very low concentrations. It may be dangerous if it enters water intakes.				
Fire	Not flammable			
Exposure	HAZARD IDENTIFICATION			
	DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing			
	SOLID Irritating to skin and eyes Harmful if swallowed			
	HAZARD STATEMENTS H302, H312, H332, H360Df, H410			
	PRECISE DESCRIPTION This material is a white to gray solid. It is odorless and sinks and mixes with water. It is harmful to aquatic life in very low concentrations. It may be dangerous if it enters water intakes.			
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes.			
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 445.4)		2 LABELS		
Issue warning: water contaminant Restrict access Should be removed Chemical and physical treatment		No hazard label required by Code of Federal Regulations		
3 CHEMICAL DESIGNATIONS		4 OBSERVABLE CHARACTERISTICS		
3.1 Synonyms: No common synonyms		4.1 Physical State (as shipped): Solid		
3.2 Coast Guard Compatibility Classification: Not listed		4.2 Color: White to gray		
3.3 Chemical Formula: Ag ₂ SO ₄		4.3 Odor: None		
3.4 IMCO/United Nations Numerical Designation: Not listed				
5. HEALTH HAZARDS				
5.1 Personal Protective Equipment: Dust mask, goggles or face shield, protective gloves				
5.2 Symptoms Following Exposure: Contact with eyes causes irritation. If continued for a long period ingestion or inhalation of silver compounds can cause permanent discoloration of the skin (argyria)				
5.3 Treatment for Exposure: INHALATION: move to fresh air. INGESTION: give large amount of water, induce vomiting. EYES: flush with water for at least 15 min. SKIN: flush with water, wash with soap and water				
5.4 Toxicity by Inhalation (Threshold Limit Value): 0.01 mg/m ³				
5.5 Short-Term Inhalation Limits: Data not available				
5.6 Toxicity by Ingestion: Data not available				
5.7 Late Toxicity: Data not available				
5.8 Vapor (Gas) Irritant Characteristics: Data not available				
5.9 Liquid or Solid Irritant Characteristics: Data not available				
5.10 Odor Threshold: Data not available

NOTES

SDU

SODIUM

Common Synonyms	Soft solid under kerosene Silver to grayish white Odorless Fluents and reacts violently with water. Flammable gas is produced.
AVOID CONTACT WITH SOLID. Keep away from fire and heat. Do not use water. Do not use dry powder. Do not use dry powder.	
Fire	FLAMMABLE FIRE MAY START ON CONTACT WITH AIR Flammable gas formed on contact with water or moisture. Will catch fire on contact with water or moisture. DO NOT USE WATER EXTINGUISH WITH DRY POWDER OR INERT GAS.
Exposure	ALL FORMS MEDICAL AID SOLID Will burn skin and eyes. May be dangerous if it enters water intakes. May be dangerous if it enters water intakes.
Water Pollution	Dangerous to aquatic life in high concentrations. May be dangerous if it enters water intakes. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE See Section of Material Safety Data Sheet (MSDS) 9 Issue warning - high flammability Restrict access Evacuate area Chemical and physical treatment	2 LABELS  
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: No common synonyms 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: Na 3.4 IMCO United Nations Numerical Designation: 4.1 1429	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Soft solid or liquid 4.2 Color: Silvery white, changing to gray on exposure to air 4.3 Odor: Odorless
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Maximum protective clothing, gloves and face shield 5.2 Symptoms Following Exposure: Severe burns caused by burning metal plus by gases and solids formed by reaction with moisture on skin 5.3 Treatment for Exposure: SKIN Wash off immediately with large amounts of water. If in eyes, flush with water for 15 minutes. If in mouth, do not swallow. Call a doctor. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: Not pertinent 5.7 Late Toxicity: None 5.8 Vapor (Gas) Irritant Characteristics: Not volatile 5.9 Liquid or Solid Irritant Characteristics: Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes. 5.10 Odor Threshold: Not pertinent	

6 FIRE HAZARDS 6.1 Flash Point: Not pertinent 6.2 Flammable Limits in Air: Not pertinent 6.3 Fire Extinguishing Agents: Dry soda ash, graphite, salt, or other approved dry powder, such as dry limestone 6.4 Fire Extinguishing Agents Not to be Used: Water, carbon dioxide, or halogenated extinguishing agents 6.5 Special Hazards of Combustion Products: Products of burning Na are highly irritating to skin, eyes, and mucous membranes 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: 250 °F 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent	8 WATER POLLUTION 8.1 Aquatic Toxicity: Not pertinent 8.2 Waterfowl Toxicity: Not pertinent 8.3 Biological Oxygen Demand (BOD): None 8.4 Food Chain Concentration Potential: None								
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts violently with formation of flammable hydrogen gas and caustic soda solution. A fire often occurs. 7.2 Reactivity with Common Materials: No reaction 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: After reaction with water, caustic soda formed can be diluted with water and neutralized with acetic acid. 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	9 SELECTED MANUFACTURERS 1. NOTES

SAS

SODIUM ALKYL SULFATES

Common Synonyms: Sodium hydrogen alkyl sulfate		Solid or thick liquid Pale yellow Faint detergent odor Mixes with water. Soap bubbles may be produced.
May be dangerous when in contact with skin and eyes. Avoid contact with eyes and skin.		
Fire	Not flammable	
Exposure	CAUTION: IRRITANT LIQUID OR SOLID Irritating to skin and eyes. If swallowed, will cause nausea or vomiting. Avoid contact with skin and eyes. If contact occurs, flush with water for at least 15 minutes. If swallowed, drink water and seek medical attention. If inhaled, move to fresh air and seek medical attention.	
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes. Do not discharge into water bodies.	
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446.4. Issue warning: water contaminant. Should be removed. Chemical and physical treatment.		2. LABELS No hazard label required. Code of Federal Regulations.
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Sodium hydrogen alkyl sulfate. 3.2 Coast Guard Compatibility Classification: Not applicable. 3.3 Chemical Formula: $C_{12}H_{25}OSO_3Na$. 3.4 IMCO United Nations Numerical Designation: Not listed.		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): 1 quart of solid. 4.2 Color: Colorless to pale yellow. 4.3 Odor: Weak detergent.
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield, rubber gloves. 5.2 Symptoms Following Exposure: In general, these chemicals have a mild irritant effect on skin. Repeated skin contact with concentrated solutions may cause dermatitis. Ingestion may cause gastrointestinal irritation, vomiting, and diarrhea. 5.3 Treatment for Exposure: INGESTION: induce vomiting and follow with gastric lavage. SKIN: wash with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent. 5.5 Short-Term Inhalation Limit: Not pertinent. 5.6 Toxicity by Ingestion: Grade 2 LD ₅₀ 5 to 5 g/kg. 5.7 Late Toxicity: None. 5.8 Vapor (Gas) Irritant Characteristics: Non-volatile. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing, and allowed to remain, may cause smearing and reddening of the skin. 5.10 Odor Threshold: Not pertinent.		

6. FIRE HAZARDS 6.1 Flash Point: Not flammable. 6.2 Flammable Limits in Air: Not flammable. 6.3 Fire Extinguishing Agents: Not pertinent. 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: May produce irritating vapors. 6.7 Ignition Temperature: Not flammable. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Not flammable.		8. WATER POLLUTION 8.1 Aquatic Toxicity: 100 ppm for 96 hours in soft water. 8.2 Waterfowl Toxicity: 100 ppm for 96 hours. 8.3 Biological Oxygen Demand (BOD): 100 ppm for 5 days. 8.4 Food Chain Concentration Potential: None.
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.		9. SAM

SODIUM AMIDE

Common Synonyms Sodiumamide	Solid	Colorless	Odorless
Sinks and reacts violently with water			
Fire	FLAMMABLE POISONOUS GAS IS PRODUCED IN FIRE		
Exposure	SOLID Will burn skin and eyes		
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes		
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-1. Issue warning: "extremely flammable". Restrict access. Should be removed. Disperse and flush.		2. LABELS  	
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Sodiumamide 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: NaNH_2 3.4 IMCO/United Nations Numerical Designations: 4.3, 4.24		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Gray 4.3 Color: Free ammonia	
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Face shield or face shield if ventilation is poor; gloves and shoes 5.2 Symptoms Following Exposure: Ammonia gas formed by reaction of solid with moisture irritates eyes and skin. Solid causes caustic burns of eyes and skin. Free ammonia irritates mouth and stomach. In contact with acids, soda and may cause peritonitis or tetanus. 5.3 Treatment for Exposure: INGESTION: Give water. Do not induce vomiting. If swallowed, do not induce vomiting. Call doctor. SKIN OR EYES: Flush with water. Do not induce vomiting. Call doctor. VAPOR: Get to fresh air. Call doctor. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: Data not available 5.7 Oral Toxicity: None 5.8 Vapor (Gas) Irritant Characteristics: Only that of ammonia formed by reaction of solid with moisture in air. 5.9 Liquid or Solid Irritant Characteristics: Ammonia gas and soda are irritants. 5.10 Odor Threshold: Not pertinent			

6 FIRE HAZARDS 6.1 Flash Point: Flammable solid 6.2 Flammable Limits in Air: Not pertinent 6.3 Fire Extinguishing Agents: Dry powder, graphite, salt, or other recommended dry powders, such as fire extinguishers 6.4 Fire Extinguishing Agents Not to be Used: Water 6.5 Special Hazards of Combustion Products: Toxic and irritating gases may be formed 6.6 Behavior in Fire: Data not available 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazard: Data not available 6.9 Burning Rate: Not pertinent		8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): None 8.4 Food Chain Concentration Potential: None	
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts violently and frequently but controllably. Exothermic reaction 7.2 Reactivity with Common Materials: Data not available 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Caustic solution formed by reaction with water can be diluted with water and/or neutralized by acidic acid 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent		9 SELECTED MANUFACTURERS 1. REVISED 1978

SDA

SODIUM ARSENATE

Common Synonyms Sodium arsenate, dibasic Disodium arsenate heptahydrate		Solid	White	Odorless
		Sinks and mixes with water		
FIRE				
Fire		Not flammable		
EXPOSURE				
Exposure		DUST Irritating to eyes, nose and throat If inhaled will cause difficult breathing SOLID Irritating to skin and eyes If swallowed will cause coughing, nausea, vomiting or loss of consciousness		
WATER POLLUTION				
Water Pollution		Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-1) Issue warning: poison water contaminant Restrict access Disperse and flush		2. LABEL 		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Disodium arsenate heptahydrate; Sodium arsenate dibasic 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $\text{Na}_2\text{HAsO}_4 \cdot 7\text{H}_2\text{O}$ 3.4 IMCO/United Nations Numerical Designation: 6.1 16X		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust mask, goggles or face shield, protective gloves 5.2 Symptoms Following Exposure: Inhalation of massive doses can cause laryngitis, bronchitis. Ingestion causes constriction in throat and difficulty in swallowing, also causes burning and pain, vomiting, profuse diarrhea, dehydration, cyanosis, coma, convulsions, and death. Contact with eyes causes irritation. Contact with skin causes various skin eruptions, more often as a late manifestation of chronic poisoning. 5.3 Treatment for Exposure: INHALATION: remove victim from exposure, support respiration. INGESTION: gastric lavage with water, followed by 1 glass of milk, consult physician. EYES: flush with water for at least 15 min. SKIN: flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 0.5 mg/m ³ as arsenic 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 4 LD ₅₀ <40 mg/kg 5.7 Late Toxicity: Possible carcinogenic effects on skin and lungs 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available				

6. SODIUM AZIDE

Common Synonyms		Solid	White	Odorless
		Mixes with water		
Fire		Not flammable POISONOUS GASES MAY BE PRODUCED WHEN HEATED Containers may explode in fire		
 <u>Exposure</u>		DUST POISONOUS IF INHALED SOLID POISONOUS IF SWALLOWED		
Water Pollution		HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 444-4) To seawater: In water contaminant Restrict access Disperse and flush		2. LABEL 		
3. CHEMICAL DESIGNATIONS 31 Synonyms: Hydrazoic acid sodium salt 32 Coast Guard Compatibility Classification: Not applicable 33 Chemical Formula: NaN ₃ 34 IMCO/United Nations Chemical Designation: 6.1 16A		4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Solid 42 Color: White 43 Odor: None		
5. HEALTH HAZARDS				
51 Personal Protective Equipment: Dust mask, protective clothing, goggles				
52 Symptoms Following Exposure: Inhalation or ingestion causes dizziness, weakness, blurred vision, slight chestiness/breath, and feeling of going to faint, moderate reduction of blood pressure and headache. Contact with eyes or skin causes irritation.				
53 Treatment for Exposure: Give a person weakness, pallor, or low blood pressure is observed. INHALATION: remove victim to fresh air, call for first aid, call a doctor. EYES: flush with water for at least 15 min. SKIN: flush with water, wash with soap and water. INGESTION: if a large amount of water is available, vomiting at once, get medical attention.				
54 Toxicity by Inhalation (Threshold Limit Value): Data not available				
55 Short-Term Inhalation: Limit: Data not available				
56 Toxicity by Ingestion: Grade 1: oral LD ₅₀ = 27 mg/kg (technica				
57 Late Toxicity: Potential stages of salmonella DNA				
58 Vapor (Gas) Irritant Characteristics: Data not available				
59 Liquid or Solid Irritant Characteristics: Data not available				
510 Odor Threshold: Not pertinent				

6. FIRE HAZARDS

- 61 Flash Point: Not flammable
62 Flammable Limits in Air: Not flammable
63 Fire Extinguishing Agents: Not pertinent
64 Fire Extinguishing Agents Not to be Used: Not pertinent
65 Special Hazards of Combustion Products: May form toxic hydrazoic acid fumes in fire
66 Behavior in Fire: Containers may explode
67 Ignition Temperature: Not pertinent
68 Electrical Hazard: Not pertinent
69 Burning Rate: Not pertinent

8. WATER POLLUTION

- 81 Aquatic Toxicity: 1 ppm 24 hr bluegill 11 m trout water
82 Waterfowl Toxicity: Data not available
83 Biological Oxygen Demand (BOD): None
84 Food Chain Concentration Potential: None

9. SELECTED MANUFACTURERS

SBS

SODIUM BISULFITE

Common Synonyms Sodium acid sulfite Sodium metabisulfite		Solid powder or granules. White. Odorless to irritating odor. Sinks and mixes with water.
Fire	Not flammable.	
Exposure	DUST Harmful if inhaled. SOLID Irritating to skin and eyes. Harmful if swallowed.	
Water Pollution	Dangerous to aquatic life in high concentrations. May be dangerous if it enters water intakes.	
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 440.4 Environmental water contamination: Dispense and flush.		2. LABELS No hazard labels required by U.S. Federal Regulations.
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Sodium acid sulfite Sodium metabisulfite Sodium pyrosulfite 3.2 Coast Guard Compatibility Classification: Not applicable. 3.3 Chemical Formula: NaHSO_3 $\text{Na}_2\text{S}_2\text{O}_5$ 3.4 IMCO United Nations Numerical Designation: Not listed.		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid. 4.2 Color: White. 4.3 Odor: Pungent odor; strong, distinctive when moist.
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust mask, goggles, gloves, shoes. 5.2 Symptoms Following Exposure: Powder is irritating to skin, nose and eyes, and can irritate skin. Ingestion may cause irritation of stomach. Very rarely, doses cause vomiting, diarrhea, depression, and death. 5.3 Treatment for Exposure: INHALATION OR INGESTION: get medical attention as soon as possible. SKIN: wash with plenty of water. EYES: flush with plenty of water for at least 15 min. and get medical attention as soon as possible. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent. 5.5 Short-Term Inhalation Limits: Not pertinent. 5.6 Toxicity by Ingestion: Grade 3 (LD ₅₀) 1.5 g/kg. 5.7 Late Toxicity: None. 5.8 Vapor (Gas) Irritant Characteristics: Not significant. 5.9 Liquid or Solid Irritant Characteristics: Irritates skin and mucous membranes. 5.10 Odor Threshold: Not pertinent.		

6. FIRE HAZARDS 6.1 Flash Point: Not flammable. 6.2 Flammable Limits in Air: Not flammable. 6.3 Fire Extinguishing Agents: Not pertinent. 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: Not pertinent. 6.7 Ignition Temperature: Not flammable. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Not flammable.		8. WATER POLLUTION 8.1 Aquatic Toxicity: 29 ppm, 24 hr. & 96 hr. rainbow trout. 11 ppm, 96 hr. daphnia. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): Reacts chemically with dissolved oxygen, even in absence of aerobic organisms. 8.4 Food Chain Concentration Potential: None.
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Bases: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.		9. SDB

SODIUM BORATE

Common Synonyms: Sodium tetraborate anhydrous Borax anhydrous Sodium borate Sodium perborate		Solid	White	Odorless
		Sinks and mixes slowly with water		
Fire	Not flammable			
Exposure	DUST Irritating to eyes, nose and throat SOLID Irritating to skin and eyes If swallowed will cause headache, dizziness, nausea or vomiting			
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes			
1. RESPONSE TO DISCHARGE See Response Methods for Oil Spills, CG 660-11 Disperse and Flush		2. LABELS No hazard label required by Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Borax anhydrous Sodium borate Sodium perborate Sodium tetraborate anhydrous 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: Na ₂ B ₄ O ₇ 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None		
5. HEALTH HAZARDS				
5.1 Personal Protective Equipment: Dust mask and goggles or face shield				
5.2 Symptoms Following Exposure: No adverse effects from inhaling borax have been reported. Irritation may cause acute or chronic effects. Initial symptoms are nausea, vomiting, and diarrhea. These may be followed by weakness, depression, headaches, vertigo, drowsiness, cramps, legs and loss of hair. Shock may follow ingestion of large doses, and may interfere with breathing. Eye contact with powder or solution may cause irritation. No chronic effects have been recognized, but continued contact should be avoided. If skin irritation may result from contact with powder or strong solutions, the latter may cause local dermatitis on prolonged contact, and if skin is broken enough boron may be absorbed to cause boron poisoning symptoms are similar to those for ingestion.				
5.3 Treatment for Exposure: INHALATION: move to fresh air, call physician immediately, give mouth-to-mouth resuscitation if breathing has ceased, give oxygen if authorized by physician, keep victim warm. INGESTION: get medical attention quickly, if victim is conscious, give warm salt or soapy water to induce vomiting, repeat until vomiting ceases, additional water may be given to wash out stomach. EYES: get medical attention quickly, flush with copious amounts of water for at least 15 min. If physician is not available, flushing extends up to 1 hr. SKIN: flush with water, remove contaminated clothing under shower, do not use chemical neutralizers, get medical attention, gases burn is minor.				
5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available				
5.5 Short-Term Inhalation Limits: Data not available				
5.6 Toxicity by Ingestion: Grade 2 LD ₅₀ = 1.5 g/kg

SODIUM BOROHYDRIDE

Common Synonyms Borohydride	Solid powder or pellets White Colorless Solu's dissolves with water. Flammable gas is produced.
Fire	Combustible Flammable, explosive gas may be produced on contact with metals, acids or when heated.
Exposure	DUST Harmful if inhaled SOLID Irritating to skin and eyes Harmful if swallowed or if skin is exposed
Water Pollution	Effect of low concentration on aquatic life is unknown May be dangerous if it enters water intakes
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, EW 445-4)	2 LABELS  
3 CHEMICAL DESIGNATIONS 31 Synonyms: No common synonyms 32 Coast Guard Compatibility Classification: Not applicable 33 Chemical Formula: NaBH_4 34 IMCO, United Nations Numerical Designation: 451426	4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Solid cr. solution in caustic soda 42 Color: White 43 Odor: Odorless
5 HEALTH HAZARDS 51 Personal Protective Equipment: Goggles, rubber gloves, and protective clothing 52 Symptoms Following Exposure: Solid irritates skin. If ingested, can form large volume of gas and lead to a gas embolism. 53 Treatment for Exposure: INGESTION: do NOT induce vomiting; give dilute, neutral lemon juice, milk, or oil; call a doctor. SKIN AND EYES: flood with large amount of water. 54 Toxicity by Inhalation (Threshold Limit Value): Not pertinent 55 Short-Term Inhalation Limits: Not pertinent 56 Toxicity by Ingestion: Very toxic reaction with acid in stomach. Considered toxic because of boron content. 57 Late Toxicity: Data not available 58 Vapor (Gas) Irritant Characteristics: Non volatile 59 Liquid or Solid Irritant Characteristics: Irritates skin 60 Odor Threshold: Not pertinent	

6 FIRE HAZARDS 61 Flash Point: Flammable solid 62 Flammable Limits in Air: Not pertinent 63 Fire Extinguishing Agents: Carbon dioxide, soda ash, sodium chloride powders 64 Fire Extinguishing Agents Not to be Used: Water, carbon dioxide, or halonated extinguishing agents 65 Special Hazards of Combustion Products: Not pertinent 66 Behavior in Fire: Decomposes and produces highly flammable hydrogen gas 67 Ignition Temperature: Not pertinent 68 Electrical Hazard: Data not available 69 Burning Rate: Not pertinent	8 WATER POLLUTION 81 Aquatic Toxicity: Data not available 82 Waterfowl Toxicity: Data not available 83 Biological Oxygen Demand (BOD): Data not available 84 Food Chain Concentration Potential: None
7 CHEMICAL REACTIVITY 71 Reactivity with Water: Reacts to form flammable hydrogen gas 72 Reactivity with Common Materials: Reacts with acids to form toxic, flammable diborane gas. Slowly corrodes glass. 73 Stability During Transport: Stable, unless mixed with acids or overheated, when flammable hydrogen gas is formed. 74 Neutralizing Agents for Acids and Caustics: Caustic formed by reaction with water can be diluted and/or neutralized with acetic acid. 75 Polymerization: Not pertinent 76 Inhibitor of Polymerization: Not pertinent	9 SELECTED MANUFACTURERS 1. Caltech Chemical Co. Caltech, Pa. 16024 2. Ventron Corp. Alta Products Division Beverly, Mass. 01915
11 HAZARD ASSESSMENT CODE (See Hazard Assessment Handbook, CS 416-3) RR C	10 SHIPPING INFORMATION 101 Grades or Purity: 98.98% minimum purity dry powder, pellets, 12% solution in 4% aqueous sodium hydroxide 102 Storage Temperature: Ambient 103 Inert Atmosphere: No requirement 104 Venting: Sealed containers must be stored in well ventilated area

NOTES

SCH

SODIUM CHROMATE

Common Synonyms: Sodium chromate (VI) Neutral sodium chromate anhydrous		Solid	Yellow	Odorless
		Sinks and mixes with water		
Fire		Not flammable Will increase the intensity of a fire May cause fire on contact with combustibles		
		DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing SOLID POISONOUS IF SWALLOWED Irritating to skin and eyes If swallowed will cause nausea or loss of consciousness		
Exposure				
Water Pollution		Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Disperse and flush		2. LABELS No hazard label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 31 Synonyms: Neutral sodium chromate anhydrous; Sodium chromate (VI) 32 Coast Guard Compatibility Classification: Not listed 33 Chemical Formula: Na ₂ CrO ₄ 34 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Solid 42 Color: Yellow 43 Odor: None		
5. HEALTH HAZARDS				
51 Personal Protective Equipment: U.S. Bu. Mines approved respirator; rubber gloves; hemispherical safety goggles; rubber apron and sleeves; face shield; rubber shoes; protective clothing				
52 Symptoms Following Exposure: Inhalation causes irritation and may ulcerate mucous membranes; continued irritation of the nose may lead to perforation of the septum. Ingestion causes severe circulatory collapse and toxic nephritis; may be fatal. Contact with eyes causes severe irritation and possible conjunctivitis. Irritates skin and can cause ulcer if skin is broken; prolonged contact may cause "chrome sores" (slow healing, hard rimmed ulcers) which leave the area vulnerable to infection as a secondary effect				
53 Treatment for Exposure: INHALATION: remove victim to fresh air; get medical attention. INGESTION: get immediate medical help; if vomiting is not spontaneous, give an emetic, such as soapy water followed by copious water intake. EYES: immediately flush with plenty of water for at least 15 min.; consult physician promptly. SKIN: immediately flush with plenty of water for at least 15 min.; persistent dermatitis should be referred to physician; wash contaminated skin or clothing until chromate color disappears				
54 Toxicity by Inhalation (Threshold Limit Value): 0.1 mg/m ³ (as chromic acid)				
55 Short-Term Inhalation Limits: Data not available				
56 Toxicity by Ingestion: Grade III Dose 50-500 mg/kg				
57 Late Toxicity: Possible lung cancer				
58 Vapor (Gas) Irritant Characteristics: Data not available				
59 Liquid or Solid Irritant Characteristics: Data not available				
60 Odor Threshold: Data not available				

6 FIRE HAZARDS Flash Point: Not flammable 62 Flammable Limits in Air: Not flammable 63 Fire Extinguishing Agents: Not pertinent 64 Fire Extinguishing Agents Not to be Used: Not pertinent 65 Special Hazards of Combustion Products: Toxic chromium oxide fumes may form in fire 66 Behavior in Fire: May increase intensity of fire when in contact with combustible material 67 Ignition Temperature: Not pertinent 68 Electrical Hazard: Not pertinent 69 Burning Rate: Not pertinent	8 WATER POLLUTION 81 Aquatic Toxicity: 400 mg/l 24 hr bluegill 11 mm fresh water 40-60 ppm 288 hr. short crab toxic salt water 82 Waterfowl Toxicity: Data not available 83 Biological Oxygen Demand (BOD): None 84 Food Chain Concentration Potential: Bioconcentrative to 2,000 fold but not likely to be a problem in a spill situation
7 CHEMICAL REACTIVITY 71 Reactivity with Water: No reaction 72 Reactivity with Common Materials: In contact with combustible materials may cause fire 73 Stability During Transport: Stable 74 Neutralizing Agents for Acids and Caustics: Not pertinent 75 Polymerization: Not pertinent 76 Inhibitor of Polymerization: Not pertinent	9 SELECTED MANUFACTURERS 1 Allied Chemical Corp. NOTES	

SCN

SODIUM CYANIDE

Common Synonyms	Solid granules, flakes or lumps White Almond odor Sinks and mixes with water
Fire	Not flammable
Exposure	 DUST POISONOUS IF INHALED OR IF SKIN IS EXPOSED  SOLID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED Will burn eyes  HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes
1. RESPONSE TO DISCHARGE See Response Methods Handbook CG 446-61 Toxic warning - poison Restrictions Evacuation Chemical and physical treatment	2. LABEL 
3. CHEMICAL DESIGNATIONS 31 Synonyms: Hydrocyanic acid, sodium salt 32 Coast Guard Compatibility Classification: Not applicable 33 Chemical Formula: NaCN 34 IMCO United Nations Numerical Designation: 2.1 169	4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Solid 42 Color: White 43 Odor: Odorless when dry. When moist it has a slight odor of hydrogen cyanide.
5. HEALTH HAZARDS 51 Personal Protective Equipment: Protective gloves when handling solid sodium cyanide; rubber gloves when handling cyanide solutions (wash hands and rubber gloves thoroughly with running water after handling cyanide); U.S. Bureau of Mines approved dust respirator; approved chemical safety goggles. 52 Symptoms Following Exposure: As little as 180 milligrams is a rapidly fatal poison if ingested. Non-lethal doses may cause toxic symptoms. Strong water solutions or the solid itself can be absorbed by the skin and cause deep ulcers which heal slowly. 53 Treatment for Exposure: INGESTION: As treatment immediately call a physician, carry victim to fresh air, have him lie down, keep him quiet and warm until physician arrives. • If victim is conscious and breathing, induce vomiting by giving emetic or warm salt water (1 tablespoon salt/cup water), repeat until vomit fluid is clear. Then have victim drink one pint of 1% solution of sodium (tin) sulfate to be repeated in 1 hour. • If victim has stopped breathing, give artificial respiration until breathing starts. • If victim is unconscious but breathing, give oxygen from an inhaler. For all other conditions: have victim breathe an antidote. Break nitrite pearls in a cloth and hold tightly over victim's nose for 15 sec., repeating 5 times at about 15 sec. intervals. If necessary repeat this procedure every 3 min. with the pearls until he or she has been given 16 pearls (Pearls must not be over 2 years old). Avoid oral intake and nitrite which is interfering to victims. 54 Toxicity by Inhalation (Threshold Limit Value): Not pertinent 55 Short-Term Inhalation Limits: Not pertinent 56 Toxicity by Ingestion: Grade 4 below 50 mg/kg	

6. FIRE HAZARDS 61 Flash Point: Not flammable 62 Flammable Limits in Air: Not flammable 63 Fire Extinguishing Agents: Not pertinent 64 Fire Extinguishing Agents Not to be Used: Not pertinent 65 Special Hazards of Combustion Products: Not pertinent 66 Behavior in Fire: Not pertinent 67 Ignition Temperature: Not flammable 68 Electrical Hazard: Not pertinent 69 Burning Rate: Not flammable	8. WATER POLLUTION 81 Aquatic Toxicity: 0.15 ppm/96 hr. bluegill; 11 mg. fresh water 0.25 ppm/48 hr. prawn; 1.0 mg. salt water 82 Waterfowl Toxicity: Data not available 83 Biological Oxygen Demand (BOD): (theoretical) 7 days 84 Food Chain Concentration Potential: None								
7. CHEMICAL REACTIVITY 71 Reactivity with Water: When sodium cyanide dissolves in water, a mild reaction occurs and some poisonous hydrogen cyanide gas is released. This gas is not hazardous except in an enclosed space. If the water is acidic, however, toxic amounts of the gas will form at once. 72 Reactivity with Common Materials: No reaction 73 Stability During Transport: Stable 74 Neutralizing Agents for Acids and Caustics: Not pertinent 75 Polymerization: Not pertinent 76 Inhibitor of Polymerization: Not pertinent	9. SELECTED MANUFACTURERS 1. F. I. duPont de Nemours & Co., Inc. Electrochemical Dept. Wilmington, Del. 19880 2. Mallinckrodt Chemical Works Industrial Chemical Division 2nd and Mallinckrodt Sts. SCR

SODIUM DICHROMATE

Common Synonyms Sodium Dichromate		Solid crystals	Red to orange	Odorless
		Sinks and mixes with water		
Fire		Not flammable May cause fire on contact with combustibles		
Exposure		DUST Irritating to eyes, nose, and throat If inhaled, will cause difficult breathing SOLID Will burn skin and eyes If swallowed, will cause nausea and vomiting		
Water Pollution		Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Methods in Methods Handbook CG 446.4) Issue warning - water contaminant Disperse and flush		2. LABELS No hazard label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: No common synonyms 3.2 Coast Guard Compatibility Classification Not applicable 3.3 Chemical Formula: $\text{Na}_2\text{Cr}_2\text{O}_7$ 3.4 'MCO' United Nations Numerical Designation: 900 129		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Bright orange-red 4.3 Odor: Odorless		
5. HEALTH HAZARDS				
5.1 Personal Protective Equipment		Approved dust mask, protective gloves, goggles, face shield		
5.2 Symptoms Following Exposure:		Inhalation of dust or mist causes respiratory irritation, sometimes resembling asthma; nasal septal perforation may occur. Ingestion causes vomiting, diarrhea and travels to stomach and kidney complications. Contact with eyes or skin produces local irritation; repeated skin exposure causes dermatitis.		
5.3 Treatment for Exposure:		INGESTION: have victim drink water or milk, do NOT induce vomiting, call a doctor. SKIN OR EYE CONTACT: treat like acid burns, flush eyes with water for at least 15 min. external lesion can be scrubbed with a 2% solution of sodium thiosulfate.		
5.4 Toxicity by Inhalation (Threshold Limit Value)		Not pertinent		
5.5 Short-Term Inhalation Limits		Data not available		
5.6 Toxicity by Ingestion:		Grade III Dose 150 to 800 mg/kg		
5.7 Late Toxicity:		Some suggestion of lung cancer		
5.8 Vapor (Gas) Irritant Characteristics:		Dust or mist may cause severe irritation of eye and throat and can cause eye and lung injury. This cannot be tolerated at very low concentrations.		
5.9 Liquid or Solid Irritant Characteristics:		Severe skin irritant. Causes second and third degree burns on short contact and is very injurious to the eyes.		
5.10 Odor Threshold:		0.1 mg/m ³		

6. FIRE HAZARDS

- 6.1 Flash Point: Not flammable
6.2 Flammable Limits in Air: Not flammable
6.3 Fire Extinguishing Agents: Flood with water
6.4 Fire Extinguishing Agents Not to be Used: Not pertinent
6.5 Special Hazards of Combustion Products: Not pertinent
6.6 Behavior in Fire: Decomposes to produce oxygen when heated. May ignite other combustibles upon contact.
6.7 Ignition Temperature: Not flammable
6.8 Electrical Hazard: Not pertinent
6.9 Burning Rate: Not flammable

7. CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: No reaction
7.2 Reactivity with Common Materials: In contact with finely divided combustibles, such as sawdust, ignites on may or less.
7.3 Stability During Transport: Stable
7.4 Neutralizing Agents for Acids and Caustics: Not pertinent
7.5 Polymerization: Not pertinent
7.6 Inhibitor of Polymerization: Not pertinent

8. WATER POLLUTION

- 8.1 Aquatic Toxicity: 145 ppm, 24 hr. bluegill, 11 mg/l fresh water
8.2 Waterfowl Toxicity: Data not available
8.3 Biological Oxygen Demand (BOD): None
8.4 Food Chain Concentration Potential: None

SHS

SODIUM HYDROSULFIDE SOLUTION

Common Synonyms Sodium hydrosulfide Sodium hydrosulfate Sodium hydrogen sulfide		Liquid	Light yellow to red	Rotten egg odor
		Mixes with water		
Fire		Not flammable		
Exposure		LIQID Irritating to skin and eyes. If swallowed will cause nausea, vomiting, or loss of consciousness.		
Water Pollution		Dangerous to aquatic life in high concentrations. May be dangerous if all waters water intakes.		
1. RESPONSE TO DISCHARGE See Response to Discharge Manualbook, CG 446-1. Issue warning - water contamination contaminant Restrict access Dispose and flush		2. LABELS No label required by Code of Federal Regulation		
3. CHEMICAL DESIGNATIONS 3.1 Synonym: Sodium hydrosulfide Sodium hydrogen sulfide NaHS sulfhydrate 3.2 Coast Guard Compatibility Classification: To be developed 3.3 Chemical Formula: $\text{NaSH} \cdot \text{H}_2\text{O}$ 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid Aqueous solution 4.2 Color: Light green to pale yellow amber to dark red 4.3 Odor: Rotten eggs		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Rubber protective equipment such as apron, gloves, splash proof goggles, gloves, canister type respirator in case of unaided breathing apparatus. 5.2 Symptoms Following Exposure: Inhalation of mist causes irritation to respiratory tract and possible asphyxiation; breathing high concentration gas which may be asphyxiant. If inhaled and present causes headache, dizziness, nausea, vomiting, continued exposure can lead to loss of consciousness, respiratory failure, and death. Liquid causes marked eye irritation, itching, inflammation, swelling, and conjunctivitis causing burning of vision; the most common effect is conjunctivitis. Light may increase the potential effects. Contact of liquid with skin causes irritation and corrosion. Prolonged exposure may cause dermatitis. Ingestion causes severe burning and corrosion. Irritation of the gastrointestinal tract, pain in the throat and abdomen, nausea, and vomiting, followed by diarrhea. In severe cases collapse, unconsciousness, and paralysis. Respiration may be expected. 5.3 Treatment for Exposure: INHALATION: move victim from contaminated atmosphere. All physician if breathing has ceased, start mouth to mouth resuscitation. EYES: immediately flush with large quantities of running water for 15 minutes. If severe, obtain medical attention as soon as possible while awaiting instructions from physician, patient may be kept in a dark room and ice compresses applied to the eyes and forehead. SKIN: immediately flush affected areas with water, obtain medical attention. Irritation on persons. INGESTION: obtain medical attention as soon as possible. If patient is conscious, induce vomiting by giving large amounts of water or warm salty water (2 tablespoons of table salt to a pint of water). If this measure is unsuccessful, vomiting may be induced by sticking the back of patient's tongue with a finger. Vomiting should be encouraged until the vomitus is clear.				

6 FIRE HAZARDS

- 6.1 Flash Point: Not flammable
6.2 Flammable Limits in Air: Not flammable
6.3 Fire Extinguishing Agents: Not pertinent
6.4 Fire Extinguishing Agents Not to be Used: Not pertinent
6.5 Special Hazards of Combustion Products: Not pertinent
6.6 Behavior in Fire: Not pertinent
6.7 Ignition Temperature: Not pertinent
6.8 Electrical Hazard: Not pertinent
6.9 Burning Rate: Not pertinent

8 WATER POLLUTION

- 8.1 Aquatic Toxicity: 20 mg/l 96 hr LC50 for fish (11 p.p.m. fresh water)
8.2 Waterway Toxicity: Data not available
8.3 Biological Oxygen Demand (BOD): Data not available
8.4 Food Chain Concentration Potential: None

9 SELECTED MANUFACTURERS

1. Stauffer Chemical Company
Industrial Chemical Division
Westport, Conn. 06880
2. Pitts Industries, Incorporated
Industrial Chemical Division
One Gateway Center
Pittsburgh, Pa. 15222
3. Chemical Products Corporation
King Philip Rd.
East Providence, R.I. 02943

7 CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: No reaction
7.2 Reactivity with Common Materials: Corrosive to metals but reaction is not hazardous
7.3 Stability During Transport: Stable
7.4 Neutralizing Agents for Acids and Caustics: Flush with water
7.5 Polymerization: No pertinent
7.6 Inhibitor of Polymerization: No pertinent

10 SHIPPING INFORMATION

- 10.1 Grades or Purities: 40% solution in water
10.2 Storage Temperature: 20-60 F
10.3 Inert Atmosphere: Not pertinent
10.4 Venting: A pressure valve

1 HAZARD ASSESSMENT CODE

See Hazard Assessment Manualbook, CG 446-3
A.P.

12 HAZARD CLASSIFICATIONS

- 12.1 Code of Federal Regulations: Not listed
12.2 NAS Hazard Rating for Bulk Water Transportation:
- | Category | Rating |
|--------------------------|--------|
| Fire | 1 |
| Health | 1 |
| Vapor Irritant | 1 |
| Liquid or Solid Irritant | 4 |
| Pressure | 4 |
| Water Pollution | 1 |
| Human Toxicity | 1 |
| Aquatic Toxicity | 1 |
| Yes/No Effect | 1 |
| Reactivity | 1 |
| Other Chemicals | 1 |
| Water | 1 |
| Self-Reactivity | 1 |
- 12.3 NFPA Hazard Classifications: Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 Physical State at 25°C and 1 atm: Liquid
13.2 Molecular Weight: Not pertinent
13.3 Boiling Point at 1 atm: 100°C (212°F)
13.4 Freezing Point: 100°C (212°F)
13.5 Critical Temperature: Not pertinent
13.6 Critical Pressure: Not pertinent
13.7 Specific Gravity: 1.04 at 20°C (68°F)
13.8 Liquid Surface Tension: Data not available
13.9 Liquid-Water Interfacial Tension: Not pertinent
13.10 Vapor (Gas) Specific Gravity: Not pertinent
13.11 Ratio of Specific Heats of Vapor (Gas): Not pertinent
13.12 Latent Heat of Vaporization: Not pertinent
13.13 Heat of Combustion: Not pertinent
13.14 Heat of Decomposition: Not pertinent
13.15 Heat of Solution: Not pertinent
13.16 Heat of Polymerization: Not pertinent

5 HEALTH HAZARDS (Cont.)

- If patient is unconscious, do not give anything but ensure there is no obstruction to breathing. The tongue should be kept forward and false teeth removed. If will be less likely to aspirate vomitus if he is placed in a face down position.
5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available
5.5 Short-Term Inhalation Limits: Data not available
5.6 Toxicity by Ingestion: Grade 2.1 D.O.S. to 5 g/kg
5.7 Late Toxicity: Data not available
5.8 Vapor (Gas) Irritant Characteristics: Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.
5.9 Liquid or Solid Irritant Characteristics: Early severe irritation. May cause pain and severe degree burn after a few minutes contact.
5.10 Odor Threshold: 0.0047 ppm

(continued on page 2)

SHD

SODIUM HYDROXIDE

Common Synonyms Caustic soda Lye		Solid flakes or pellets	White	Odorless
		Sinks and mixes with water		
Fire		Not flammable May cause fire on contact with combustibles Flammable gas (H ₂) is produced on contact with metals		
Exposure		DUST Irritating to eyes, nose and throat SOLID Will burn skin and eyes Harmful if swallowed		
Water Pollution		Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes		
1 RESPONSE TO DISCHARGE See Response Methods Manual, Vol. 6, 600-4 Toxic with H ₂ gas May be used Toxic to land life		2. LABEL 		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Caustic soda 3.2 Coast Guard Compatibility Classification: N 3.3 Chemical Formula: NaOH 3.4 IMCO United Nations Numerical Designation: 1512		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: (X)		
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: (X) Safety glasses, gloves, and a respirator should be worn when handling this material. 5.2 Symptoms Following Exposure: (X) Irritation of the eyes, nose, and throat. (X) INHALATION: May cause severe irritation of the respiratory tract. (X) INGESTION: May cause severe irritation of the mouth and throat. (X) SKIN CONTACT: May cause severe irritation of the skin. 5.3 Treatment for Exposure: (X) INHALATION: Remove the person to fresh air. (X) INGESTION: Do not induce vomiting. (X) SKIN CONTACT: Wash the affected area with plenty of water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 5 mg/m ³ 5.5 Short-Term Inhalation Limits: 150 mg/m ³ 5.6 Toxicity by Ingestion: (10% solution) oral rabbit LD ₅₀ = 500 mg/kg 5.7 Late Toxicity: (X) 5.8 Vapor (Gas) Irritant Characteristics: (X) 5.9 Liquid Solid Irritant Characteristics: (X) Severe irritation of the skin. (X) Severe irritation of the eyes. 5.10 O ₄ : (X) Irritant

SML	SODIUM METHYLATE
-----	------------------

Common Synonyms Sodium methoxide		Solid	White	Colorless
		Mixes with water		
		FLAMMABLE		
Exposure		DUST Irritating to eyes, nose and throat		
		SOLID Irritating to skin and eyes. Harmful if swallowed.		
Water Pollution		Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.		
1 RESPONSE TO DISCHARGE See Response Methods Manual C6-684-4 Issue washing - High flammability. Self-healing. Reactive action. Disperse and flush.		2 LABEL 		
3 CHEMICAL DESIGNATIONS 3.1 Synonym: Sodium methoxide 3.2 Coast Guard Compatibility Classification: Not applicable. 3.3 Chemical Formula: CH ₃ ONa 3.4 IMCO/United Nations Chemical Designation: 1 + 1A		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None		
5 HEALTH HAZARDS				
5.1 Personal Protective Equipment: Self-contained breathing apparatus, self-contained eye protection, rubber gloves. 5.2 Symptoms Following Exposure: Inhalation - Mild irritation; severe effects with nose and throat contact with eyes which causes severe irritation and pain. Ingestion - Irritation of mouth and stomach. 5.3 Treatment for Exposure: Get medical attention immediately as exposure to this compound INHALATION requires immediate administration of first aid and may require hospitalization. The treatment other than giving as much liquid as patient is able to swallow. If time has apparently elapsed give a first aid report. If any further danger should be identified or experienced persons MUST wash with water then with 1% sodium bicarbonate solution and add small water washes. SKIN - Wash well with water then with dilute vinegar. INGESTION - Systemic symptoms indicate continuing administration of gastric lavage until no further response followed by repeat water washes. Seek medical attention if symptoms of poisoning develop. Keep victim calm and covered until all visible signs have disappeared and no possibility of further absorption remaining. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limit: Data not available. 5.6 Toxicity by Ingestion: Data not available. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Not pertinent. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: Not pertinent.				

6 FIRE HAZARDS	6.1 Flash Point: Not pertinent (Not flammable liquids) 6.2 Flammable Limits in Air: Not pertinent 6.3 Fire Extinguishing Agents: Dry chemical agent powder is used as a method of extinguishing a fire disaster. 6.4 Fire Extinguishing Agents Not to be Used: Water 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: Combustion is violent and produces a large volume of smoke and a large amount of heat. 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazards: Not pertinent 6.9 Burning Rate: Not pertinent	7 CHEMICAL REACTIVITY	7.1 Reactivity with Water: Produces a violent reaction and a large amount of heat. 7.2 Reactivity with Common Materials: A violent reaction occurs with acids and bases. 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Water, sodium hydroxide, and ammonia. 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	8 WATER POLLUTION	8.1 Aquatic Toxicity: Data not available 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None	9 SELECTED MANUFACTURERS	Hartwell Chemical Company Industrial Chemical Department 941 East 17th Street Cleveland, Ohio 44115 Chemical Corporation 201 East 17th Street Cleveland, Ohio 44115 Chemical Corporation 201 East 17th Street Cleveland, Ohio 44115	10 SHIPPING INFORMATION	10.1 Grades or Purity: N/A 10.2 Storage Temperature: Ambient 10.3 Inert Atmosphere: Flammable liquid 10.4 Venting: Safety relief	11 HAZARD ASSESSMENT CODE	See Hazard Assessment Handbook, Chapter 3	12 HAZARD CLASSIFICATIONS	12.1 Code of Federal Regulations: Flammable liquid 12.2 NFPA Hazard Rating for Bulk Water Transport: Not listed 12.3 NFPA Hazard Classifications: Not listed	13 PHYSICAL AND CHEMICAL PROPERTIES	13.1 Physical State at 15°C and 1 atm: Liquid 13.2 Molecular Weight: 142.1 13.3 Boiling Point at 1 atm: Not pertinent 13.4 Freezing Point: Not pertinent 13.5 Critical Temperature: Not pertinent 13.6 Critical Pressure: Not pertinent 13.7 Specific Gravity: Not pertinent 13.8 Liquid Surface Tension: Not pertinent 13.9 Liquid-Water Interfacial Tension: Not pertinent 13.10 Vapor (Gas) Specific Gravity: Not pertinent 13.11 Ratio of Specific Heats of Vapor (Gas): Not pertinent 13.12 Latent Heat of Vaporization: Not pertinent 13.13 Heat of Combustion: Data not available 13.14 Heat of Decomposition: Not pertinent 13.15 Heat of Solution: Not pertinent 13.16 Heat of Polymerization: Not pertinent

NOTES

SOX

SODIUM OXALATE

Common Synonyms Ethanedioic acid disodium salt		Solid	White	Odorless
		Sinks and mixes slowly in water		
Fire		Not flammable		
 Exposure		DUST Irritating to eyes, nose and throat. If inhaled will cause difficult breathing or loss of consciousness. SOLID POISONOUS IF SWALLOWED Irritating to skin and eyes. If swallowed will cause nausea, vomiting or loss of consciousness.		
Water Pollution		Dangerous to aquatic life in high concentrations. May be dangerous if it enters water intakes.		
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning - water contaminant. Disperse and flush.		2 LABELS No hazard label required by Code of Federal Regulations.		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Ethanedioic acid Sodium salt 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $\text{Na}_2\text{C}_2\text{O}_4$ 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None		
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust mask, goggles or face shield, rubber gloves. 5.2 Symptoms Following Exposure: Inhalation or ingestion causes pain in throat, esophagus, and stomach; mucous membranes turn white; other symptoms include vomiting, severe purring, weak pulse, cardiovascular collapse, neuromuscular symptoms, and kidney damage. Contact with eyes or skin causes irritation. 5.3 Treatment for Exposure: If promptly INHALED, move to fresh air; if exposure to dust is severe, get medical attention. If INGESTION, give diluted lemon juice, lime water, or milk; administer gastric lavage; consult physician with toxicology of the pharynx and delivery of construction of esophagus. EYES or SKIN: flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limit: Data not available. 5.6 Toxicity by Ingestion (Grade 3 LD ₅₀): 500 mg/kg. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: Data not available.

NOTES	

SPP

SODIUM PHOSPHATE

Common Synonyms	Solid (powder or granules)	White	Odorless
	Sinks and mixes with water		
Fire	Not flammable		
Exposure	DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. SOLID Irritating to skin and eyes. If swallowed will cause nausea and vomiting.		
Water Pollution	Dangerous to aquatic life in high concentrations. May be dangerous if it enters water intakes.		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446.4) Disperse and flush.	2. LABELS No hazard label required by Code of Federal Regulations.		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Sodium phosphate is generic term and includes the following: (1) monosodium phosphate (MSP, sodium phosphate, monobasic); (2) disodium phosphate (DSP, sodium phosphate dibasic); (3) trisodium phosphate (TSP, sodium phosphate, tribasic); (4) sodium acid pyrophosphate (ASPP, SAPP, disodium dihydrogen pyrophosphate); (5) tetrasodium pyrophosphate (TSPP). (Continued on page 4)	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Granular or powdered solid; some may appear glassy. 4.2 Color: White. 4.3 Odor: None.		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: U.S. Bu. Mines toxic dust mask, protective gloves, chemical eye goggles, full cover clothing. 5.2 Symptoms Following Exposure: Inhalation of heavy dust may irritate nose and throat. Ingestion may irritate mouth, throat, and gastrointestinal tract, resulting in nausea, vomiting, cramps, and diarrhea; pain and burning in mouth may occur. Contact with eyes produces local irritation, can lead to chemical damage. Contact with skin produces local irritation; repeated or prolonged contact can lead to dermatitis. 5.3 Treatment for Exposure: If the following measures do not eliminate the symptoms, see a physician. INHALATION: Give large amounts of water or warm salty water to induce vomiting; repeat until vomitus is clear. milk, eggs, or olive oil may then be given to soothe the stomach. EYES: Immediately flush with large amounts of water for at least 15 min., holding eyes apart to ensure flushing of entire surface; avoid chemical neutralizers. SKIN: Flush with water; avoid chemical neutralizers. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Data not available. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: Data not available.			

6. FIRE HAZARDS 6.1 Flash Point: Not flammable. 6.2 Flammable Limits in Air: Not flammable. 6.3 Fire Extinguishing Agents: Not pertinent. 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: May melt with loss of steam. 6.7 Ignition Temperature: Not pertinent. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Not pertinent.	8. WATER POLLUTION 8.1 Aquatic Toxicity: 120 ppm, 72 hr. daphnia magna, 11 pH, fresh water. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): None. 8.4 Food Chain Concentration Potential: None.
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: All dissolve readily. MSP and ASPP form weakly acidic solutions. TSP forms strong caustic solution similar to soda lye. TSPP forms weakly alkaline solution. 7.2 Reactivity with Common Materials: When wet, mild steel or brass may be corroded by MSP, ASPP, and TSP. The others are not considered corrosive. 7.3 Stability During Transport: All forms of sodium phosphate are stable. TSP tends to pick up moisture from air and form a hard cake. 7.4 Neutralizing Agents for Acids and Caustics: For those sodium phosphates that form acidic or basic solutions, dilution with water removes hazard. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9. SELECTED MANUFACTURERS 1. Stauffer Chemical Co. Industrial Chemical Division Westport, Conn. 06880 2. I.M.C. Corporation Inorganic Chemicals Div. 633 Third Avenue New York, N.Y. 10017 3. Monsanto Company 800 North Lindbergh Blvd. St. Louis, Mo. 63166.
11. HAZARD ASSESSMENT CODE (See Hazard Assessment Handbook, CG 446.3) NS	10. SHIPPING INFORMATION 10.1 Grades or Purity: All are available in Technical Grade; some in Food Grade and Reagent Grade. Some are available as hydrates as well as anhydrous forms. 10.2 Storage Temperature: Ambient. 10.3 Inert Atmosphere: No requirement. 10.4 Venting: Open.
12. HAZARD CLASSIFICATIONS 12.1 Code of Federal Regulations: Not listed. 12.2 HAS Hazard Rating for Bulk Water Transportation: Not listed. 12.3 NFPA Hazard Classifications: Not listed.	13. PHYSICAL AND CHEMICAL PROPERTIES 13.1 Physical State at 15°C and 1 atm: Solid. 13.2 Molecular Weight: Values for anhydrous salts run from 120 to high polymer values. 13.3 Boiling Point at 1 atm: Not pertinent (decomposes). 13.4 Freezing Point: Not pertinent. 13.5 Critical Temperature: Not pertinent. 13.6 Critical Pressure: Not pertinent. 13.7 Specific Gravity: 1.8 to 2.5 at 25°C (solid). 13.8 Liquid Surface Tension: Not pertinent. 13.9 Liquid-Water Interfacial Tension: Not pertinent. 13.10 Vapor (Gas) Specific Gravity: Not pertinent. 13.11 Ratio of Specific Heats of Vapor (Gas): Not pertinent. 13.12 Latent Heat of Vaporization: Not pertinent. 13.13 Heat of Combustion: Not pertinent. 13.14 Heat of Decomposition: Not pertinent. 13.15 Heat of Solution: +83 to -81 Btu/lb = +46 to -45 cal/g = +193 to -188 x 10 ³ J/kg. 13.16 Heat of Polymerization: Not pertinent. (Continued on page 5 and 6)
3. CHEMICAL DESIGNATIONS (Cont'd.) (6) sodium metaphosphate (insoluble sodium metaphosphate); (7) sodium trimetaphosphate; (8) sodium hexametaphosphate; and (9) sodium tripolyphosphate (STPP, TPP). 3.2 Coast Guard Compatibility Classification: Not listed. 3.3 Chemical Formulas: (1) NaH ₂ PO ₄ ; (2) NaH ₂ HPO ₄ ; (3) NaHPO ₃ ; (4) Na ₂ H ₂ P ₂ O ₇ ; (5) Na ₂ P ₂ O ₇ ; (6) (NaPO ₃) _n ; (7) (NaPO ₃) _n ; (8) (NaPO ₃) _n NaO; (9) Na ₆ P ₆ O ₁₈ . 3.4 IMCO/United Nations Numerical Designation: Not listed. SODIUM SILICOFLUORIDE

Common Synonyms Sodium fluoride Sodium hexafluoroarsate Salfer		Solid	White	Odorless
Sinks in water				
Fire		Not flammable		
		DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing.		
Exposure		SOLID POISONOUS IF SWALLOWED Will burn skin and eyes. If swallowed will cause nausea, vomiting, loss of consciousness. EYES: Flush with water for at least 15 min. SKIN: Flush with water, wash with soap and water.		
Water Pollution		Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4.) Issue warning, water contaminant. Disperse and flush.		2. LABELS No hazard label required by Code of Federal Regulations.		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Salfer, Sodium fluoride, Sodium hexafluoroarsate. 3.2 Coast Guard Compatibility Classification: Not listed. 3.3 Chemical Formula: NaSiF ₆ . 3.4 IMCO/United Nations Numerical Designation: Not listed.		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid. 4.2 Color: White. 4.3 Odor: None.		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust respirator, goggles or face shield, protective gloves. 5.2 Symptoms Following Exposure: Inhalation of dust may irritate nose and throat. Ingestion causes symptoms similar to fluoride poisoning; compound is highly toxic. Initial symptoms include nausea, cramps, vomiting, diarrhea, and dehydration; in severe cases, convulsions, shock, and cyanosis are followed by death in 2-4 hr. Contact with eyes causes irritation. Contact with skin causes rash, redness, and burning, sometimes followed by ulcer formation. 5.3 Treatment for Exposure: INHALATION: move to fresh air. INGESTION: seek medical attention; administer gastric lavage with lime water, then give lime water or milk at frequent intervals. EYES: flush with water for at least 15 min. SKIN: flush with water, wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 2 mg/m ³ (as fluoride). 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade III (LD ₅₀ 500 mg/kg). 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: Data not available.				

6. FIRE HAZARDS 6.1 Flash Point: Not flammable. 6.2 Flammable Limits in Air: Not flammable. 6.3 Fire Extinguishing Agents: Not pertinent. 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: Decomposes at red heat. 6.7 Ignition Temperature: Not pertinent. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Not pertinent.		8. WATER POLLUTION 8.1 Aquatic Toxicity: Data not available. 8.2 Waterlow Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): None. 8.4 Food Chain Concentration Potential: None.	
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.		9. SCY

SODIUM THIOCYANATE

Common Synonyms Sodium sulfocyanate Sodium rhodanide Rhodanate	Solid Sinks and mixes with water	White	Odorless
Fire	Not flammable POISONOUS GASES MAY BE PRODUCED WHEN HEATED		
Exposure	DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing SOLID Irritating to skin and eyes If swallowed will cause nausea, vomiting or loss of consciousness		
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446.4.) Issue warning, water cont. instant Disperse and flush		2. LABELS No hazard label required by Code of Federal Regulations	
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Rhodanate, Sodium rhodanide, Sodium sulfocyanate 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: NaSCN 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None	
5. HEALTH HAZARDS			
5.1 Personal Protective Equipment: Rubber or plastic gloves, standard goggles, rubber or plastic apron			
5.2 Symptoms Following Exposure: Inhalation of dust causes irritation of nose and throat. Ingestion of large doses causes vomiting, extreme cerebral excitement, convulsions, and death in 10-48 hrs. Chronic poisoning can cause flu like symptoms, skin rashes, weakness, fatigue, vertigo, nausea, vomiting, diarrhea, confusion. Contact with eyes causes irritation. Prolonged contact with skin may produce various skin eruptions, dizziness, cramps, nausea, and mild to severe disturbance of the nervous system.			
5.3 Treatment for Exposure: INHALATION: move to fresh air; if exposure has been great, get medical attention. INGESTION: consult physician; hemodialysis is recommended as the treatment of choice. EYE: Flush with water for 15 min. SKIN: Flush with water for 15 min.			
5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available			
5.5 Short-Term Inhalation Limits: Data not available			
5.6 Toxicity by Ingestion: Grade 2, LD ₅₀ 5.4 g/kg			
5.7 Late Toxicity: Causes birth defects in fish embryos			
5.8 Vapor (Gas) Irritant Characteristics: Data not available			
5.9 Liquid or Solid Irritant Characteristics: Data not available			
5.10 Odor Threshold: Data not available

SORBITOL

Common Synonyms Sorbitol Sorbit 1,2,3,4,5,6-Hexanediol D-Glucitol	Liquid Colorless Odorless Sinks and mixes with water
Fire	Not flammable
Exposure	LIQUID Will burn skin and eyes
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes
1 RESPONSE TO DISCHARGE See Response Methods Manual, CG 446.4 D 000 and 008	2. LABELS No hazard labels required (Other Labels as Required)

STEARIC ACID

Common Synonyms Octadecanoic acid n-Octadecylic acid Stearophanic acid 1-Heptadecanecarboxylic acid		Solids	White	Mild odor
		Floats on water		
Fire		Combustible		
Exposure		DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. SOLID Irritating to skin and eyes. Harmful if swallowed.		
Water Pollution		Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.		
1 RESPONSE TO DISCHARGE See Response Manuals Handbook, CG 446.4. Mechanical management Should be removed. Chemical and physical treatment.		2. LABELS No hazard label required by Code of Federal Regulations.		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: 1-Heptadecanecarboxylic acid; Octadecanoic acid; n-Octadecylic acid; Stearophanic acid. 3.2 Coast Guard Compatibility Classification: Not listed. 3.3 Chemical Formula: $\text{C}_{18}\text{H}_{36}\text{O}_2$ 3.4 IMCO/United Nations Numerical Designation: Not listed.		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: Fatty.		
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: For prolonged exposure, respiratory and skin supplied mask or chemical cartridge respirator; impervious gloves; goggles; impervious boots. 5.2 Symptoms Following Exposure: Irritation; generally considered non-toxic. Inhalation irritates respiratory tract and bronchi. Dust causes mild irritation to eyes. 5.3 Treatment for Exposure: INGESTION: drink plenty of water; induce vomiting; if unconscious, do not induce vomiting. If swallowed, induce vomiting. If in contact with skin, wash with plenty of water. For irritation, seek medical attention. - SKIN: wash with plenty of water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade II D - Slight risk. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: 20 ppm.				

6 FIRE HAZARDS 6.1 Flash Point: (in open solid) 410-435 F (210-280 C) 6.2 Flammable Limits in Air: Not pertinent 6.3 Fire Extinguishing Agents: Foam, dry chemical, or carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Water or foam may cause frothing 6.5 Special Hazards of Combustion Products: 6.6 Behavior in Fire: 6.7 Ignition Temperature: 740 F 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent		8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD) 144% 5 days 8.4 Food Chain Concentration Potential None	
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction 7.2 Reactivity with Common Materials: 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent		9 SELECTED MANUFACTURERS 1 Union Camp Corp. 2041 N. SUCROSE

Common Synonyms Beet sugar Cane sugar Saccharose Saccharum Sugar		Solid	White	Odorless
Sinks in water				
Fire	Combustible			
Exposure	DUST Not harmful SOLID Not harmful			
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes			
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 444.4 Disperse and flush		2. LABELS No hazard label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Beet sugar, Cane sugar, Saccharose, Saccharum, Sugar 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $C_{12}H_{22}O_{11}$ 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust mask and goggles or face shield 5.2 Symptoms Following Exposure: None 5.3 Treatment for Exposure: EYES: flush with water 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 1 oral LD ₅₀ (30 days) = 28,500 mg/kg/day (rat) 5.7 Late Toxicity: None 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Not pertinent				

6 FIRE HAZARDS

- 6.1 Flash Point: Not pertinent (combustible solid).
 6.2 Flammable Limits in Air: Not pertinent.
 6.3 Fire Extinguishing Agents: Water.
 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent.
 6.5 Special Hazards of Combustion Products: Irritating fumes may form on fires.
 6.6 Behavior in Fire: Melts and chars.
 6.7 Ignition Temperature: Not pertinent.
 6.8 Electrical Hazards: Not pertinent.
 6.9 Burning Rate: Not pertinent.

8 WATER POLLUTION

- 8.1 Aquatic Toxicity: irritant effects from 1 g/l to 100 g/l.
 8.2 Waterfowl Toxicity: Data not available.
 8.3 Biological Oxygen Demand (BOD): 60% in days.
 8.4 Food Chain Concentration Potential: None.

9 SELECTED MANUFACTURERS

1. Amstar Corporation
1251 Avenue of the Americas
New York, N.Y.
 2. Great Western Sugar Corp.
2530 16th Street
Denver, Colo.
 3. Revere Sugar Refining Co.
Prudential Center
Boston, Mass.

10 SHIPPING INFORMATION

- 10.1 Grades or Purity: Food grade Technical.
 10.2 Storage Temperature: Ambient.
 10.3 Inert Atmosphere: No requirements.
 10.4 Venting: Open.

NOTES

SFA

SULFURIC ACID

Common Synonyms Oil of vitriol Battery acid Fertilizer acid	Only liquid Colorless Odorless Sinks and mixes violently with water. Irritating if it is produced.
Fire	Not flammable. May cause fire on contact with combustibles. Flammable gas may be produced on contact with metals. POISONOUS GAS MAY BE PRODUCED IN FIRE.
Exposure	MIST Irritating to eyes, nose and throat. If inhaled, will cause coughing, difficult breathing, or loss of consciousness. LIQUID Will burn skin and eyes. Harmful if swallowed.
Water Pollution	HARMFUL TO AQUA LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE (See Response No. 1024 Handbook CG 446-3) Issue warning - corrosive. Restrict access. Disperse and flush with care.	2 LABEL 
3 CHEMICAL DESIGNATIONS 31 Synonyms Battery acid Chamber acid Fertilizer acid Oil of vitriol 32 Coast Guard Compatibility Classification Sulfuric acid 33 Chemical Formula H_2SO_4 34 IMCO/United Nations Numerical Designation 8.0/TS30	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped) Liquid 4.2 Color: Colorless (pure) to dark brown 4.3 Odor: Odorless unless hot, then choking
5. HEALTH HAZARDS 5.1 Personal Protective Equipment Safety shower, eyewash fountain, safety goggles, face shield, approved respirator or self-contained air line, rubber safety shoes, rubber apron. 5.2 Symptoms Following Exposure Inhalation of vapor from hot concentrated acid may injure lungs. Swallowing may cause severe internal damage. Contact with skin or eyes causes severe burns. 5.3 Treatment for Exposure Call a doctor for INFORMATION on severe victim for delayed pulmonary reaction. INGESTION: have victim drink water if possible, do NOT induce vomiting. EYES: AND SKIN: wash with large amounts of water for at least 15 min., do not use ointments or lotions on eyes, treat skin burns. 5.4 Toxicity by Inhalation (Threshold Limit Value): 1 mg/m. 5.5 Short-Term Inhalation Limits: 10 mg/m ³ for 5 min.; 2 mg/m ³ for 10 min.; 1 mg/m ³ for 30 min. 5.6 Toxicity by Ingestion No effects except for one second try to tissue damage. 5.7 Late Toxicity None. 5.8 Vapor (Gas) Irritant Characteristics Vapors from hot acid (177.9°) cause moderate irritation of eyes and respiratory system. Effect is temporary. 5.9 Liquid or Solid Irritant Characteristics 77.9° acid causes severe second and third degree burns if skin on short contact and is very numerous to the eyes. 5.10 Odor Threshold Greater than 1 mg/m.	

6 FIRE HAZARDS 6.1 Flash Point Not flammable. 6.2 Flammable Limits in Air Not flammable. 6.3 Fire Extinguishing Agents Not pertinent. 6.4 Fire Extinguishing Agents Not to be Used Water used on adjacent fires should be carefully handled. 6.5 Special Hazards of Combustion Products Not pertinent. 6.6 Behavior in Fire Not flammable. 6.7 Ignition Temperature Not flammable. 6.8 Electrical Hazard None. 6.9 Burning Rate Not flammable.	8 WATER POLLUTION 8.1 Aquatic Toxicity 24 hr. pp10/24 hr. bioassay lethal, fresh water 47 ppm/48 hr. prawn, 1% w salt water. 8.2 Waterfowl Toxicity Data not available. 8.3 Biological Oxygen Demand (BOD) None. 8.4 Food Chain Concentration Potential None.																																				
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water Reacts violently with evolution of heat. Spattering occurs when water is added to the compound. 7.2 Reactivity with Common Materials Extremely hazardous in contact with many materials, particularly metals and combustibles. Dilute acid reacts with most metals, releasing hydrogen which can form explosive mixtures with air in confined spaces. 7.3 Stability During Transport Stable. 7.4 Neutralizing Agents for Acids and Caustics Dilute with water, then neutralize with lime, limestone, or soda ash. 7.5 Polymerization Not pertinent. 7.6 Inhibitor of Polymerization Not pertinent.	9. SAC

SULFURIC ACID, SPENT

Common Synonyms Dilute sulfuric acid	Only liquid Colorless to dark brown Odorless Sinks and mixes with water
CAUTION: EMERGENCY TREATMENT If inhaled: Get fresh air. If in eyes: Flush with water for 15 minutes. If on skin: Flush with water for 15 minutes. If swallowed: Do not induce vomiting.	
Fire	Not flammable Poisonous gas may be produced in fire Flammable gas may be produced on contact with metals Weakly acidic; reacts with alkalis and carbonates Extinguish with water
Exposure	CAUTION: MEDICAL USE LIQUID Will burn skin and eyes Harmful if swallowed Respiratory irritation may occur if inhaled Flush affected area with water for 15 minutes IF IN EYES: Flush with water for 15 minutes IF SWALLOWED: Do not induce vomiting Do not expectorate
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes Neutralize with alkali before disposal Do not pour down drain
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-6) Issue warning: Corrosive Restrict access Dispose and flush	2 LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: No common synonyms 3.2 Coast Guard Competibility Classification: Sulfuric acid 3.3 Chemical Formula: H_2SO_4 , H_2O 3.4 IMCO/United Nations Numerical Designation: 80 1832	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless to dark brown 4.3 Odor: Odorless
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Chemical safety goggles and face shield; rubber gloves; boots and apron 5.2 Symptoms Following Exposure: Contact with eyes or skin causes severe burn; the severity depending on the strength of the acid. Ingestion: Irritates, severe irritation of mouth and stomach 5.3 Treatment for Exposure: Call a doctor. INGESTION: Do NOT induce vomiting. SKIN OR EYES: Flush affected parts with large amounts of water for at least 15 min. do NOT use oils or ointments in eyes. Treat burns 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: No effects except those stemming from local damage 5.7 Late Toxicity: None 5.8 Vapor (Gas) Irritant Characteristics: Non-volatile 5.9 Liquid or Solid Irritant Characteristics: Severe skin irritant. Causes severe first and third degree burns on short contact and is very injurious to the eye 5.10 Odor Threshold: Not pertinent	

6 FIRE HAZARDS 6.1 Flash Point: Not flammable 6.2 Flammable Limits in Air: Not flammable 6.3 Fire Extinguishing Agents: Not pertinent 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: Not flammable 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not flammable	8. WATER POLLUTION 8.1 Aquatic Toxicity: 24 Spmt 24 hr. bioassay lethal fresh water 42 Spmt/48 hr. p.a.w. 10% salt water 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): None 8.4 Food Chain Concentration Potential: None								
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: None, unless strength is above 80-90% in which case heat is liberated 7.2 Reactivity with Common Materials: Attacks many metals, releasing flammable hydrogen gas 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Limestone, lime or soda ash 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	9. SELECTED MANUFACTURERS Not manufactured. Dilute or spent sulfuric acid is formed as a result of various uses of the concentrated acid								
11 HAZARD ASSESSMENT CODE (See Hazard Assessment Handbook, CG 446-3) A P	10 SHIPPING INFORMATION 10.1 Grades or Purity: Purity depends on the process in which the original acid is used. The strength (in water) is probably below 80% and the solution may contain a wide variety of metals and organic compounds in solution 10.2 Storage Temperature: Ambient 10.3 Inert Atmosphere: No requirement 10.4 Venting: Open								
12. HAZARD CLASSIFICATIONS 12.1 Code of Federal Regulations: Corrosive material 12.2 NAS Hazard Rating for Bulk Water Transportation: Not listed 12.3 NFPA Hazard Classifications: <table data-bbox="951 1466 1185 1543"> <tr> <th>Category</th><th>Classification</th></tr> <tr> <td>Health Hazard (Blue)</td><td></td></tr> <tr> <td>Flammability (Red)</td><td>0</td></tr> <tr> <td>Reactivity (Yellow)</td><td>2</td></tr> </table>	Category	Classification	Health Hazard (Blue)		Flammability (Red)	0	Reactivity (Yellow)	2	13 PHYSICAL AND CHEMICAL PROPERTIES 13.1 Physical State at 15°C and 1 atm: Liquid 13.2 Molecular Weight: Not pertinent 13.3 Boiling Point at 1 atm: 337.9°C = 640.2°F 13.4 Freezing Point: Not pertinent 13.5 Critical Temperature: Not pertinent 13.6 Critical Pressure: Not pertinent 13.7 Specific Gravity: 1.84 at 20°C liquids 13.8 Liquid Surface Tension: Not pertinent 13.9 Liquid-Water Interfacial Tension: Not pertinent 13.10 Vapor (Gas) Specific Gravity: Not pertinent 13.11 Rate of Specific Heats of Vapor (Gas): Not pertinent 13.12 Latent Heat of Vaporization: Not pertinent 13.13 Heat of Combustion: Not pertinent 13.14 Heat of Decomposition: Not pertinent 13.15 Heat of Solution: $< -45 \text{ Btu/lb}$ $= < -232 \text{ cal/g} = < -9.7 \times 10^3 \text{ J/kg}$ 13.16 Heat of Polymerization: Not pertinent

REVISED 1978

SFM

SULFUR MONOCHLORIDE

Common Synonyms	Only liquid Yellow to red Irritating sharp odor Mixes and reacts with water. Poisonous vapor is produced.
Fire	Combustible
 Exposure VAPOR Irritating to eyes. Poisonous if inhaled. LIQUID Will burn skin and eyes. Poisonous if swallowed.	
Water Pollution	Dangerous to aquatic life in high concentrations. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning: corrosive air contaminant: water contaminant Protect access Chemical and physical treatment	2. LABEL  CORROSIVE
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: No common synonyms 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: SCl_2 3.4 IMCO United Nations Numerical Designation: 80 1525	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Yellowish red 4.3 Odor: Suffocating pungent nauseating irritating
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Chemical safety goggles and or face shield canister type gas mask (light concentrations) or self contained breathing apparatus (heavy concentrations) chemically resistant shoes or boots apron and long sleeve gloves 5.2 Symptoms Following Exposure: Vapors irritate eye and respiratory system; pulmonary edema may result. Liquid burns and damages eyes. Unless removed at once it burns the skin. Ingestion causes severe irritation to mouth and stomach. 5.3 Treatment for Exposure: INHALATION: remove to fresh air, use artificial respiration and oxygen if required call doctor. INGESTION: give water, do NOT induce vomiting call a doctor. EYES: flush with water for at least 15 min. obtain medical attention at once. SKIN: flush with water, remove contaminated clothing and shower. 5.4 Toxicity by Inhalation (Threshold Limit Value): 1 ppm 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: None 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause severe irritation of eye and throat in eyes cause eye and lung injury. This cannot be tolerated even at low concentrations. 5.9 Liquid or Solid Irritant Characteristics: Severe skin irritant. Causes second and third degree burns on short contact and is very irritant to the eyes. 5.10 Odor Threshold: Data not available	

6. FIRE HAZARDS

- 6.1 **Flash Point:** 245 F (120 C) 260 F (100 C)
 6.2 **Flammable Limits in Air:** Data not available
 6.3 **Fire Extinguishing Agents:** Dry chemical carbon dioxide water spray
 6.4 **Fire Extinguishing Agents Not to be Used:** Water reacts violently with compound
 6.5 **Special Hazards of Combustion Products:** Toxic and corrosive fumes are evolved when heated
 6.6 **Behavior in Fire:** Not pertinent
 6.7 **Ignition Temperature:** 483 F
 6.8 **Electrical Hazard:** Not pertinent
 6.9 **Burning Rate:** Data not available

8 WATER POLLUTION

- 8.1 **Aquatic Toxicity:** Data not available
 8.2 **Waterfowl Toxicity:** Data not available
 8.3 **Biological Oxygen Demand (BOD):** Data not available
 8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

1. Hooker Chemical Corp.
 Industrial Chemicals Division
 Niagara Falls, N.Y. 14302
 2. Stauffer Chemical Co.
 Industrial Chemical Division
 Niagara Falls, N.Y. 14302

7 CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** Reacts violently with water to produce heat and hydrogen chloride fumes. The solution is strongly acid.
 7.2 **Reactivity with Common Materials:** The liquid dissolves rubber and plastics. After reaction with water, the strong acid formed attacks metals generating flammable hydrogen gas.
 7.3 **Stability During Transport:** Stable
 7.4 **Neutralizing Agents for Acids and Caustics:** After reaction with water the acid formed can be neutralized with lime or soda ash.
 7.5 **Polymerization:** Not pertinent
 7.6 **Inhibitor of Polymerization:** Not pertinent

10 SHIPPING INFORMATION

- 10.1 **Grades or Purity:** Commercial material may contain 0-5% free sulfur
 10.2 **Storage Temperature:** Ambient
 10.3 **Inert Atmosphere:** No requirement
 10.4 **Venting:** Pressure vacuum

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 446-3)
 NO

 13.13 **Heat of Combustion:** Not pertinent
 13.14 **Heat of Decomposition:** Not pertinent
 13.15 **Heat of Solution:** 502.2 Btu/lb = 2790 cal/g = 11.67 X 10⁵ J/kg
 13.16 **Heat of Polymerization:** Not pertinent

(Continued on pages 5 and 6)

NOTES

REVISED 1978

SCL

SULFURYL CHLORIDE

Common Synonyms		Waters liquid	Cubane to apple yellow	Faint odor
		Mixes and reacts violently with water. Poisonous gas is produced.		
Fire	Not flammable. Flammable gas may be produced on contact with metals.			
Exposure	VAPOR Irritating to eyes, nose, and throat. If inhaled, will cause coughing, difficult breathing, or loss of consciousness. LIQUID Will burn skin and eyes. Harmful if swallowed.			
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS* May be dangerous if it enters water intakes.			
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-41. Evacuate area. Remove all personnel from area. Restrict access. Evacuate area. Disperse and flush with water.		2 LABEL 		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: See common synonyms. 3.2 Corrosive Compatibility Classification: Not applicable. 3.3 Chemical Formula: SOCl ₂ 3.4 IMCO United Nations Numerical Designation: 801854		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless to light yellow 4.3 Odor: Acid, choking.		
5 HEALTH HAZARDS				
5.1 Personal Protective Equipment: Chemical goggles and face shield; work with acid vapors; wear rubber gloves and boots.				
5.2 Symptoms Following Exposure: Vapors cause severe irritation to eyes and respiratory system. Liquid burns eyes and skin. If ingested, can cause severe chemical burns to mouth and stomach.				
5.3 Treatment for Exposure: Call doctor for INHALATION; remove from exposure; administer artificial respiration if required. INGESTION: Give water or milk if NOT induced vomit. EYES: Flush with water or other eye wash. SKIN: Wash with large amounts of water.				
5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available.				
5.5 Short-Term Inhalation Limits: Data not available.				
5.6 Toxicity by Ingestion: Data not available.				
5.7 Late Toxicity: None.				
5.8 Vapor (Gas) Irritant Characteristics: Vapors cause severe irritation to eyes and throat and can cause eye and lung injury. Eyes may be irritated even at low concentrations.				
5.9 Liquid or Solid Irritant Characteristics: Early severe skin irritation may cause pain and second degree burns after a few minutes exposure.				
5.10 Odor Threshold: Data not available.				

6 FIRE HAZARDS		8 WATER POLLUTION	
6.1 Flash Point:	Not flammable.	8.1 Aquatic Toxicity:	Data not available.
6.2 Flammable Limits in Air:	Not flammable.	8.2 Waterfowl Toxicity:	Data not available.
6.3 Fire Extinguishing Agents:	Not pertinent.	8.3 Biological Oxygen Demand (BOD):	None.
6.4 Fire Extinguishing Agents Not to be Used:	Water applied to adjacent fire should be handled carefully.	8.4 Food Chain Concentration Potential:	None.
6.5 Special Hazards of Combustion Products:	Not pertinent.	9 SELECTED MANUFACTURERS	
6.6 Behavior in Fire:	Toxic and irritating gases are generated.	1. Hook Chemical Corp. Industrial Chemical Division Nassau Mills, N.Y. 14902

NOTES

REVISED 1978

TLO

TALLOW

Common Synonyms Edible tallow Inedible tallow		Only liquid	Dark yellow	Waxy odor
		Floats on water. Freezing point is 35° F - 45° F.		
Fire	Combustible F + 1 May be dangerous if it enters water intakes.			
Exposure	Not harmful			
Water Pollution	Effect of low concentrations on aquatic life is unknown. Fouling to shoreline. May be dangerous if it enters water intakes. N - Not tested.			
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 448-4) Mechanical cleaning Should be removed Chemical and physical treatment		2. LABELS No hazard label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Edible tallow Inedible tallow Tallow oil 3.2 Coast Guard Compatibility Classification: F + 1 3.3 Chemical Formula: Not pertinent 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Dark yellow 4.3 Odor: Waxy		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield, protective clothing, if exposure to hot liquid is possible. 5.2 Symptoms Following Exposure: Hot liquid can burn eyes and skin. 5.3 Treatment for Exposure: Treat burns caused by hot liquid. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent. 5.5 Short-Term Inhalation Limits: Not pertinent. 5.6 Toxicity by Ingestion: Grade II. D above 15 g/kg. 5.7 Late Toxicity: None. 5.8 Vapor (Gas) Irritant Characteristics: Not volatile. 5.9 Liquid or Solid Irritant Characteristics: None. 5.10 Odor Threshold: Not pertinent.				

6. FIRE HAZARDS

- 61 Flash Point: 109°F (40°C)
62 Flammable Limits in Air: Not pertinent.
63 Fire Extinguishing Agents: Foam, water, carbon dioxide, or dry chemical.
64 Fire Extinguishing Agents Not to be Used: Water or foam may cause frothing.
65 Special Hazards of Combustion Products: Not pertinent.
66 Behavior in Fire: Not pertinent.
67 Ignition Temperature: Data not available.
68 Electrical Hazard: Not pertinent.
69 Burning Rate: Data not available.

7. CHEMICAL REACTIVITY

- 71 Reactivity with Water: No reaction.
72 Reactivity with Common Materials: No reaction.
73 Stability During Transport: Stable.
74 Neutralizing Agents for Acids and Caustics: Not pertinent.
75 Polymerization: Not pertinent.
76 Inhibitor of Polymerization: Not pertinent.

8. WATER POLLUTION

- 81 Aquatic Toxicity: Data not available.
82 Waterway Toxicity: Data not available.
83 Biological Oxygen Demand (BOD): 182 x 5 days.
84 Food Chain Concentration Potential: None.

9. SELECTED MANUFACTURERS

- 1 Atlas Refinery, Inc.
142 Lockwood St.
Newark, N.J. 07102
2 Kull's Whitemar, Inc.
Conshohocken, Pa. 19380
3 Swift and Co.
115 W. Jackson Blvd.
Chicago, Ill. 60664

10. SHIPPING INFORMATION

- 101 Grades or Purity: Acidless buffing, industrial fancy, edible, inedible.
102 Storage Temperature: Ambient.
103 Inert Atmosphere: Not requirement.
104 Venting: Open (flame arresters).

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Manual, CG 448-3)
A T U

12. HAZARD CLASSIFICATIONS

- 121 Code of Federal Regulations: Not listed.
122 NAS Hazard Rating for Bulk Water Transportation: Not listed.
123 NFPA Hazard Classifications
- | Category | Classification |
|----------------------|----------------|
| Health Hazard (Blue) | 0 |
| Flammability (Red) | 1 |
| Reactivity (Yellow) | 0 |

13. PHYSICAL AND CHEMICAL PROPERTIES

- 131 Physical State at 15°C and 1 atm: Solid.
132 Molecular Weight: Not pertinent.
133 Boiling Point at 1 atm: Very high.
134 Freezing Point: 35 - 45°F
= 2 - 7°C = 273 - 280°K.
135 Critical Temperature: Not pertinent.
136 Critical Pressure: Not pertinent.
137 Specific Gravity: (est.) 0.87 at 80°C (liquid).
138 Liquid Surface Tension: Data not available.
139 Liquid-Water Interfacial Tension: Data not available.
1310 Vapor (Gas) Specific Gravity: Not pertinent.
1311 Ratio of Specific Heats of Vapor (Gas): Not pertinent.
1312 Latent Heat of Vaporization: Not pertinent.
1313 Heat of Combustion: (est.) -15,000 Btu/lb
= -10,000 cal/g = -420 x 10³ J/kg.
1314 Heat of Decomposition: Not pertinent.
1315 Heat of Solution: Not pertinent.
1316 Heat of Polymerization: Not pertinent.

(continued on pages 5 and 6)

NOTES

TFA

TALLOW FATTY ALCOHOL

Common Synonyms Higher fatty alcohol Stearyl alcohol crude		Waxy solid Floats on water	White	Mild soapy odor
Fire		Combustible		
Exposure		SOLID Not harmful		
Water Pollution		Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Mechanical containment Should be removed Chemical and physical treatment		2. LABELS No label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Higher fatty alcohol Stearyl alcohol crude 3.2 Coast Guard Compatibility Classification: Alcohol 3.3 Chemical Formula C ₁₈ H ₃₇ OH (approx.) 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Waxy white 4.3 Odor: Mild soapy		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield, rubber gloves 5.2 Symptoms Following Exposure: Material is practically non-toxic. Contact with eyes or prolonged contact with skin can cause mild irritation. 5.3 Treatment for Exposure: EYES: flush with water if irritation persists, see a doctor. SKIN: wipe off, wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion, Grade 2 oral LD ₅₀ : 1,900 mg/kg (rat) 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available				

6 FIRE HAZARDS 6.1 Flash Point: $>270^{\circ}\text{F}$ ($^{\circ}\text{C}$) 6.2 Flammable Limits in Air: Not pertinent 6.3 Fire Extinguishing Agents: Dry chemical foam, carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent	8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterflow Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction 7.2 Reactivity with Common Materials: No reaction 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	9 SELECTED MANUFACTURERS 1 Procter & Gamble Distributing Co. NOTES	

(Continued on pages 2 and 3)

TNA

TANNIC ACID

Common Synonyms Tannin Chronic tannin Gallotannic acid Gallotannin Glucic		Solid	Light yellow to tan	Faint odor
		Sinks and mixes with water		
Fire	Combustible			
Exposure	DUST Irritating to eyes, nose and throat If inhaled will cause coughing SOLID Irritating to skin and eyes If swallowed will cause nausea and vomiting None			
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes			
1 RESPONSE TO DISCHARGE (See Response Manual with Hazchem CG 444-4) Disperse and flush		2. LABELS No hazard label required by Code of Federal Regulations		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Chinese tannin Gallotannic acid, Gallicotannin Glucic Tannin 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $C_{12}H_{10}O_{14}$ 3.4 IMCO/United Nations Numerical Designation: Not listed		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Light tan to yellow 4.3 Odor: faint characteristics		
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust mask, goggles or face shield, protective gloves 5.2 Symptoms Following Exposure: Inhalation causes irritation of nose and throat, coughing, and sneezing. Ingestion may cause gastric disturbance. Contact with eyes causes irritation. 5.3 Treatment for Exposure: INHALATION: move to fresh air. INGESTION: give large amount of water, induce vomiting. EYES or SKIN: flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 2, oral LD ₅₀ = 2,300 mg/kg rats 5.7 Late Toxicity: Causes cancer of liver in rats 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available				

6 FIRE HAZARDS

- 6.1 Flash Point: Not pertinent (combustible solid)
6.2 Flammable Limits in Air: Not pertinent
6.3 Fire Extinguishing Agents: Water, foam, dry chemical, carbon dioxide
6.4 Fire Extinguishing Agents Not to be Used: Water or foam may cause frothing
6.5 Special Hazards of Combustion Products: Decomposes at 210° to carbon dioxide and pyrogallol, which can form irritating vapors
6.6 Behavior in Fire:
6.7 Ignition Temperature: 480 °F
6.8 Electrical Hazard: Not pertinent
6.9 Burning Rate: Not pertinent

7 CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: No reaction
7.2 Reactivity with Common Materials:

7.3 Stability During Transport: Stable
7.4 Neutralizing Agents for Acids and Caustics: Not pertinent
7.5 Polymerization: Not pertinent
7.6 Inhibitor of Polymerization: Not pertinent

8 WATER POLLUTION

- 8.1 Aquatic Toxicity:
97 ppm 96 hr LC50 to fish: 11 ppm, fresh water
4.7 mg/L 2 hr LC50 to young chinook salmon: creek level salt water
8.2 Waterfowl Toxicity: Data not available
8.3 Biological Oxygen Demand (BOD): 18% 5 days
8.4 Food Chain Concentration Potential: None

9. SELECTED MANUFACTURERS

- 1 The Harshaw Chemical Co.
1945 East 97th Street
Cleveland, Ohio 44106
2 J. T. Baker Chemical Co.
Phillipsburg, N. J. 08865
3 Fisher Scientific Co.
741 Forbes Ave.
Pittsburgh, Pa. 15219

10 SHIPPING INFORMATION

- 10.1 Grades or Purities: Commercial 84%
Reagent
10.2 Storage Temperature: Ambient
10.3 Inert Atmosphere: No requirement
10.4 Venting: Open

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 444-3)
SS

12. HAZARD CLASSIFICATIONS

- 12.1 Code of Federal Regulations: Not listed
12.2 NAS Hazard Rating for Bulk Water Transportation: Not listed
12.3 NFPA Hazard Classifications:
- | Category | Classification |
|----------------------|----------------|
| Health Hazard (Blue) | 0 |
| Flammability (Red) | 1 |
| Reactivity (Yellow) | 0 |

13. PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 Physical State at 15°C and 1 atm: Solid
13.2 Molecular Weight: 1701
13.3 Boiling Point at 1 atm: Not pertinent (decomposes)
13.4 Freezing Point: Not pertinent
13.5 Critical Temperature: Not pertinent
13.6 Critical Pressure: Not pertinent
13.7 Specific Gravity: >1 at 20°C (solid)
13.8 Liquid Surface Tension: Not pertinent
13.9 Liquid-Water Interfacial Tension: Not pertinent
13.10 Vapor (Gas) Specific Gravity: Not pertinent
13.11 Ratio of Specific Heats of Vapor (Gas): Not pertinent
13.12 Latent Heat of Vaporization: Not pertinent
13.13 Heat of Combustion: $(-H_c) = 9,810 \text{ Btu/lb}$
 $= -5,440 \text{ cal/g} = -228 \times 10^3 \text{ J/kg}$
13.14 Heat of Decomposition: Not pertinent
13.15 Heat of Solution: Not pertinent
13.16 Heat of Polymerization: Not pertinent

(Continued on pages 5 and 6)

NOTES

TES

2,4,5-T (ESTERS)

Common Synonyms: Butyl 2,4,5-trichlorophenoxyacetate Butyl 2,4,5-trichlorophenoxyacetate Butyl 2,4,5-trichlorophenoxyacetate Butyl 2,4,5-trichlorophenoxyacetate		Liquid	Yellowish brown	Mild odor
		Sinks in water		
Fire	Combustible Irritating gases may be produced when heated			
Exposure	LIQUID Irritating to skin and eyes. If swallowed will cause nausea and vomiting			
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes			
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning - water contaminant Should be removed Chemical and physical treatment		2. LABELS No hazard - but required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Butyl 2,4,5-trichlorophenoxyacetate; Butoxypropyl trichlorophenoxyacetate; Isobutyl trichlorophenoxyacetate; 2-Ethylhexyl trichlorophenoxyacetate 3.2 Coast Guard Compatibility Classification: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Amber-dark amber 4.3 Odor: Very weak - mixtures with kerosene or diesel fuel have odor of the solvent		
continued on page 4				
5. HEALTH HAZARDS				
5.1 Personal Protective Equipment: Goggles or face shield and rubber gloves				
5.2 Symptoms Following Exposure: Ingestion causes intestinal disturbances. Contact with eyes or skin causes mild irritation; transient chemical injury may occur				
5.3 Treatment for Exposure: INGESTION: promptly induce vomiting and get medical attention. EYES: flush with flowing water and get medical attention. SKIN: wash with soap and water				
5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available				
5.5 Short-Term Inhalation Limits: Data not available				
5.6 Toxicity by Ingestion: Grade 3; LD ₅₀ 50-900 mg/kg				
5.7 Late Toxicity: Data not available				
5.8 Vapor (Gas) Irritant Characteristics: Data not available				
5.9 Liquid or Solid Irritant Characteristics: Data not available				
5.10 Odor Threshold: Data not available				

6. FIRE HAZARDS 6.1 Flash Point: 265-420°F (C) 6.2 Flammable Limits in Air: Data not available. 6.3 Fire Extinguishing Agents: Water, foam, dry chemical, carbon dioxide. 6.4 Fire Extinguishing Agents Not to be Used: Water or foam may cause frothing. 6.5 Special Hazards of Combustion Products: Hydrogen chloride gas and other irritating fumes may form in fires. 6.6 Behavior in Fire: 6.7 Ignition Temperature: Data not available. 6.8 Electrical Hazard: Data not available. 6.9 Burning Rate: Data not available.		8. WATER POLLUTION 8.1 Aquatic Toxicity: Toxicity ester: 26 ppm (48 hr bluegill/11 m fresh water) Butyl 2,4,5-trichlorophenoxyacetate: 17 ppm (48 hr bluegill/11 m fresh water) 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): Data not available. 8.4 Food Chain Concentration Potential: Data not available.																	
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: May attack some forms of plastics. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.		9. SELECTED MANUFACTURERS 1. Dow Chemical Co. Midland, Mich. 48640 2. Frankwal Inc. P.O. Box 69 Jacksonville, Ark. 72074 3. Phodan Inc. Chapman Division 25 Belmont Drive Sonoma, Calif. 94967																	
11. HAZARD ASSESSMENT CODE (See Hazard Assessment Handbook, CG 446-3) A X Y		10. SHIPPING INFORMATION 10.1 Grades or Purities: Technical 95-99% 95-99% with only a trace of diesel oil, which is combustible. 10.2 Storage Temperature: Ambient. 10.3 Inert Atmosphere: No requirements. 10.4 Venting: Open.																	
12. HAZARD CLASSIFICATIONS 12.1 Code of Federal Regulations: Not listed. 12.2 NAS Hazard Rating for Bulk Water Transportation: Not listed. 12.3 NIPI Hazard Classifications: Not listed.		13. 3. CHEMICAL DESIGNATIONS (Cont'd) 3.3 Chemical Formula: 2,4,5-Cl ₃ C ₆ H ₂ OCH ₂ COOR where R = C ₄ H ₉ , C ₆ H ₅ , etc. 3.4 IMCO/United Nations Numerical Designation: Not listed.		(Continued on pages 5 and 6)																	

TBT

TETRABUTYL TITANATE

Common Synonyms: Titanium tetrabutoxide Butyl titanate Titanium tetrabutoxide Butyl titanate monomer		Liquid	Colorless to light yellow	Weak alcohol-like odor
		May float on water. Reacts with water.		
Fire		Combustible Containers may explode in fire		
Exposure		LIQUID Irritating to skin and eyes. If swallowed will cause nausea and vomiting		
Water Pollution		Effect of low concentrations on aquatic life is unknown routing to shoreline May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning: water contaminant Restrict access Mechanical containment Disperse and flush		2. LABELS No label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Butyl titanate, Butyl titanate monomer, Orthotitanic acid, tetrabutyl ester, Titanium butoxide, Titanium tetrabutoxide 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: $Ti(OBu)_4$ 3.4 HMCC/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless to pale yellow 4.3 Odor: Weak alcohol		
5. HEALTH HAZARDS				
5.1 Personal Protective Equipment: Self-contained breathing apparatus or organic canister mask, goggles or face shield, rubber gloves				
5.2 Symptoms Following Exposure: Inhalation causes nonspecific irritation of the upper respiratory tract. Contact with liquid may cause corneal damage in eyes and local irritation of skin. Ingestion causes nonspecific irritation of gastrointestinal tract, nausea, vomiting, cramps, and diarrhea. In severe cases, central nervous system depression may result.				
5.3 Treatment for Exposure: INHALE: At 15°C, move from contaminated atmosphere. If symptoms of respiratory discomfort persist, see a physician. EYES: Immediately flush with large quantities of running water for a minimum of 15 min. obtain medical attention if irritation persists. SKIN: Immediately flush affected areas with water. obtain medical attention if irritation persists. INGESTION: Give large amounts of water or warm salty water to induce vomiting. If this measure is unsuccessful, vomiting may be induced by tickling the back of the patient's throat with a finger; vomiting should be encouraged until vomitus is clear. obtain medical attention if abdominal discomfort persists.				
5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available				
5.5 Short-Term Inhalation Limits: Data not available				
5.6 Toxicity by Ingestion: Data not available				
5.7 Late Toxicity: Data not available				
5.8 Vapor (Gas) Irritant Characteristics: Data not available				
5.9 Liquid or Solid Irritant Characteristics: Data not available				
5.10 Odor Threshold: Data not available				

6 FIRE HAZARDS 6.1 Flash Point: 170°F (6°C) 6.2 Flammable Limits in Air: 2-12% 6.3 Fire Extinguishing Agents: Dry chemical, carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: water 6.5 Special Hazards of Combustion Products: Not pertinent 6.6 Behavior in Fire: May give off dense white smoke. Containers may explode. 6.7 Ignition Temperature: Data not available 6.8 Electrical Hazard: Data not available 6.9 Burning Rate: 1.4 mm/min	8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: Data not available
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts to form butanol and titanium dioxide; the reaction is not hazardous. 7.2 Reactivity with Common Materials: No reaction 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	9 SELECTED MANUFACTURERS 1 Stauffer Chemical Company, Specialty Chemical Division, Westport, Conn. 06880 2 Ventron Corporation, Chemical Division, 8 Congress Street, Beverly, Mass. 01915 3 Dynamit Nobel, America, Inc., 105 Stonehurst Court, Northvale, N. NOTES	

TEC

TETRACHLOROETHANE

Common Synonyms: 1,1,2,2-Tetrachloroethane Acetylene tetrachloride		Liquid	Colorless to pale yellow	Sweet odor
		Sinks in water		
Fire		Not flammable Poisonous gases may be produced when heated		
 Exposure		VAPOR Irritating to eyes, nose and throat Harmful if inhaled LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED Irritating to skin and eyes If swallowed will cause nausea and vomiting		
Water Pollution		Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning: poison air contaminant Restrict access Should be removed Chemical and physical treatment		2. LABELS No hazard label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Acetylene tetrachloride 1,1,2,2-Tetrachloroethane 3.2 Coast Guard Compatibility Classification: Halogenated hydrocarbon 3.3 Chemical Formula: C ₂ Cl ₄ (C ₂ HCl ₃) 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless slightly yellow light yellowish green 4.3 Odor: Chloroform like, pleasant like carbon tetrachloride, mild, sweetish similar to several other chlorinated hydrocarbons		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Chemical safety goggles, plastic face shield, air or oxygen supplied mask, safety hat with brim, solvent proof apron, synthetic rubber gloves 5.2 Symptoms Following Exposure: Compound is a powerful narcotic and liver poison. May also cause changes in blood composition and neurologic disturbances. Repeated exposure by inhalation can be fatal. Ingestion causes vomiting, diarrhea, severe mucosal injury. In severe cases, cyanosis, unconsciousness, loss of reflexes, and death. Contact with eyes causes irritation and inflammation. Can be absorbed through the skin and may produce severe skin lesions. 5.3 Treatment for Exposure: INHALATION: remove victim from exposure, begin artificial respiration if breathing has ceased. INGESTION: induce vomiting, call a physician. EYES: irrigate with water for 15 min. SKIN: remove clothing, wash skin thoroughly with warm water and soap. 5.4 Toxicity by Inhalation (Threshold Limit Value): 5 ppm 5.5 Short-Term Inhalation Limits: 10 ppm, 30 min 5.6 Toxicity by Ingestion: Grade 3, oral LD ₅₀ = 200 mg/kg rats 5.7 Late Toxicity: Liver poisoning, nervous disorders 5.8 Vapor (Gas) Irritant Characteristics: Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause smothering and reddening of the skin. 5.10 Odor Threshold: 0.5 ppm				

6 FIRE HAZARDS 6.1 Flash Point: Not flammable 6.2 Flammable Limits in Air: Not flammable 6.3 Fire Extinguishing Agents: Not pertinent 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: Irritating to eyes, nose and throat, may form soot 6.6 Behavior in Fire: 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent	8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: Data not available

ITN

TETRADECANOL

Common Synonyms: 1 Tetradecanol Myristyl alcohol n-Tetradecyl alcohol	Thick liquid (solid); colorless. Faint alcohol odor. Solidifies and floats on water.
Fire	Combustible
Exposure	LIQUID: Irritating to skin and eyes.
Water Pollution	Effect of low concentrations on aquatic life is unknown. Tendency to bioaccumulate. May be dangerous if it enters water intakes.
1. RESPONSE TO DISCHARGE See Regional Emergency Manual: 15-444-4 Methylated spirits Non-flammable Non-toxic	2. LABELS N/A
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Myristyl alcohol Myristyl alcohol n-Tetradecyl alcohol n-Tetradecanol 3.2 Coast Guard Compatibility Classification: N/A 3.3 Chemical Formula: C₁₄H₃₀O 3.4 IMO United Nations Numerical Designation: N/A	4. TED

TETRAETHYL DITHIOPYROPHOSPHATE

Common Synonyms Tetraethyl dithiopyrophosphate	Liquid Sinks in water	Colorless
HAZARD STATEMENT: H228: Flammable liquid. H302: Harmful if swallowed. H332: Irritant to eyes. H336: Irritant to skin.		
Fire	Fire data not available	
Exposure	LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED	
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.	
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning: poison water contaminant. Restrict access. Should be removed. Chemical and physical treatment. Disperse and flush (small discharges).		2 LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Dithiopyrophoric acid, O O O O tetraethyl ester, Tetraethyl dithiopyrophosphate, O O O O Tetraethyl pyrophosphorodithionate. 3.2 Coast Guard Competibility Classification: Not applicable. 3.3 Chemical Formula: (C ₂ H ₅ O) ₂ P ₂ (S) ₂ (OC ₂ H ₅) ₂ . 3.4 IMCO/United Nations Numerical Designation: 6.1-1704.		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless. 4.3 Odor: Data not available.
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Mask with canister, goggles, and other protective clothing to prevent contact with skin. 5.2 Symptoms Following Exposure: Contact with liquid causes irritation of eyes and skin. Compound can be absorbed through skin. Ingestion of liquid or inhalation of mist causes nausea, vomiting, mental confusion, abdominal pain, sweating, giddiness, apprehension, and restlessness. Later muscular twitching of the eyelids and tongue begins, then other muscles of face and neck become involved, generalized twitching and muscle weakness may occur, pulmonary edema, ataxia, tremor, and convulsions may advance to coma. 5.3 Treatment for Exposure: Call physician for all exposures to this compound. INHALATION: support respiration, keep airway clear, use artificial respiration if breathing is difficult or has stopped. EYES: flush with water immediately after contact for at least 15 min. SKIN: remove victim's clothing and shoes immediately using rubber gloves, quickly wipe off affected areas with clean cloths, immediately follow with a shower using plenty of soap; if complete shower is impossible, wash affected skin, hair, and fingernails repeatedly with soap and water using clean cloths each time to prevent spreading the contamination. INGESTION: induce vomiting repeatedly until vomit fluid is clear (save fluid for physician's examination); if vomiting cannot be induced within 5 min., have victim drink plenty of milk or water, have him lie down and keep him warm; if increased secretions make breathing difficult, prop patient up to help his breathing; apply artificial or mouth-to-mouth respiration, preferably through an airway; wash victim's mouth of contamination; mechanical resuscitator should be used if available; oxygen may be necessary; keep patient under observation for 24 hrs. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available.		

6. FIRE HAZARDS

- 6.1 **Flash Point:** Not flammable.
 6.2 **Flammable Limits in Air:** Not flammable.
 6.3 **Fire Extinguishing Agents:** Water, dry chemical, foam, carbon dioxide.
 6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent.
 6.5 **Special Hazards of Combustion Products:** Toxic phosphorus and sulfur oxides are produced.
 6.6 **Behavior in Fire:** Not pertinent.
 6.7 **Ignition Temperature:** Not pertinent.
 6.8 **Electrical Hazard:** Not pertinent.
 6.9 **Burning Rate:** Not pertinent.

7. CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** Reacts slowly to form non-hazardous products.
 7.2 **Reactivity with Common Materials:** Corrosive to most metals in the presence of moisture.
 7.3 **Stability During Transport:** Stable.
 7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent.
 7.5 **Polymerization:** Not pertinent.
 7.6 **Inhibitor of Polymerization:** Not pertinent.

8. WATER POLLUTION

- 8.1 **Aquatic Toxicity:** Data not available.
 8.2 **Waterfowl Toxicity:** Data not available.
 8.3 **Biological Oxygen Demand (BOD):** Data not available.
 8.4 **Food Chain Concentration Potential:** None.

9. SELECTED MANUFACTURERS

Plan. Products Corp.
 Kennedy Avenue
 Blue Point, N.Y. 11715

10. SHIPPING INFORMATION

- 10.1 **Grade or Purity:** Technical, multifusable concentrate.
 Dry mixtures with inert solid > 2.
 10.2 **Storage Temperature:** Ambient.
 10.3 **Inert Atmosphere:** No requirement.
 10.4 **Venting:** Pressure vacuum.

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 446-3)
 1-1-1

12. HAZARD CLASSIFICATIONS

- 12.1 **Code of Federal Regulations:** Poisonous, Class B.
 12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed.
 12.3 **NFPA Hazard Classifications:** Not listed.

13. PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 **Physical State at 15°C and 1 atm:** Liquid.
 13.2 **Molecular Weight:** 322.4.
 13.3 **Boiling Point at 1 atm:** Not pertinent (very high).
 13.4 **Freezing Point:** Not pertinent.
 13.5 **Critical Temperature:** Not pertinent.
 13.6 **Critical Pressure:** Not pertinent.
 13.7 **Specific Gravity:** 1.1 at 25°C (liquid).
 13.8 **Liquid Surface Tension:** Data not available.
 13.9 **Liquid-Water Interfacial Tension:** Not pertinent.
 13.10 **Vapor (Gas) Specific Gravity:** Not pertinent.
 13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent.
 13.12 **Latent Heat of Vaporization:** Not pertinent.
 13.13 **Heat of Combustion:** Not pertinent.
 13.14 **Heat of Decomposition:** Not pertinent.
 13.15 **Heat of Solution:** Not pertinent.
 13.16 **Heat of Polymerization:** Not pertinent.

(Continued on page 2 and 3)

5. HEALTH HAZARDS (Cont'd)

- 5.5 **Short-Term Inhalation Limits:** Data not available.
 5.6 **Toxicity by Ingestion:** Oral LD₅₀ = 5 mg/kg rats.
 5.7 **Late Toxicity:** Causes chronic nasal damage in mice.
 5.8 **Vapor (Gas) Irritant Characteristics:** Data not available.
 5.9 **Liquid or Solid Irritant Characteristics:** Data not available.
 5.10 **Odor Threshold:** Data not available.

NOTES				

TTP

TETRAETHYLENEPENTAMINE

Common Synonyms 1,11-Diamino-3,6,9-triazadecane	Liquid Yellow Ammonia odor May float or sink in water
Fire Combustible POISONOUS GASES MAY BE PRODUCED IN FIRE	
Exposure LIQUID Will burn skin and eyes If swallowed will cause nausea	
Water Pollution Effect of low concentrations on aquatic life is unknown May be fouling to shoreline May be dangerous if it enters water intakes	
1. RESPONSE TO DISCHARGE (See Response Methods Handbook CG 446.4) Issue warning - water contaminant Restrict access Disperse and flush	2. LABELS No hazard label required by Code of Federal Regulations
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: 1,11-Diamino-3,6,9-triazadecane 3.2 Coast Guard Compatibility Classification: Amphiphilic, organic 3.3 Chemical Formula: $\text{H}_2\text{N(CH}_2\text{)}_9\text{NHNH}_2$ 3.4 IMCO/United Nations Numerical Designation: Not listed	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Yellow 4.3 Odor: Ammoniacal disagreeable penetrating
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Air supplied respirator, rubber gloves, complete eye protection, impervious apron 5.2 Symptoms Following Exposure: Inhalation may cause nausea and slight irritation, compound is a sensitizer and prolonged contact may cause asthma. Ingestion can cause burns of mouth, esophagus, and possibly stomach. Contact with eyes or skin may cause burns. Repeated skin contact may cause dermatitis. 5.3 Treatment for Exposure: INHALATION: remove victim to fresh air, give oxygen if breathing is difficult, treat allergic manifestations by usual methods. INGESTION: do NOT induce vomiting, give large quantities of water, give at least one ounce of vinegar in an equal amount of water, get medical attention. EYES: immediately flush with plenty of water, get medical care. SKIN: flush with plenty of water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 2, oral LD_{50} = 3,990 mg/kg (rat) 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause a slight smarting of one eyes or respiratory system if present in high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Causes smarting of the skin and first degree burns on short exposure, may cause second degree burns on long exposure. 5.10 Odor Threshold: Data not available	

6. FIRE HAZARDS 6.1 Flash Point: 140°F (60°C) 6.2 Flammable Limits in Air: (test 10.8%) 4.6- 6.3 Fire Extinguishing Agents: Alcohol foam, dry chemical or carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Water or foam may cause frothing 6.5 Special Hazards of Combustion Products: Ammonia and toxic oxides of nitrogen may form in fires. 6.6 Behavior in Fire: 6.7 Ignition Temperature: 672°F 6.8 Electrical Hazard: Data not available 6.9 Burning Rate: Data not available	8. TEL

TETRAETHYL LEAD

Common Synonyms TEL Lead tetraethyl	Only liquid. Colorless, but generally dyed red. Fruity odor. Sinks in water. Poisonous. Flammable vapor is produced.
Fire	Combustible. POISONOUS GASES ARE PRODUCED IN FIRE. Containers may explode in fire. Vapor may explode if ignited in an enclosed area.
 Exposure	ALL FORMS MEDICALLY TOXIC. VAPOR POISONOUS IF INHALED OR IF SKIN IS EXPOSED. Irritating to eyes. LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED. Irritating to skin. RESTRICTED ACCESS. SWALLOWED: DO NOT INDUCE VOMITING. RINSE MOUTH WITH WATER. DRINK WATER. CALL A PHYSICIAN.
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. May be dangerous if it enters water intakes.
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-3.) Issue warning: poison. water containment. Restrict access. Should be removed. Chemical and physical treatment.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Lead tetraethyl 3.2 Coast Guard Compatibility Classification: Special class 3.3 Chemical Formula: PbC ₂ H ₆ 3.4 IMCO United Nations Numerical Designation: 2.1 (1649)	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Dyed red or other distinctive color 4.3 Odor: Sweet
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Oxygen vapor-type canister face mask for short periods; air for longer periods; neoprene coated liquid proof gloves; protective goggles; face shield; white or light colored clothing; rubber shoes or boots. 5.2 Symptoms Following Exposure: Increased urinary output of lead. If a large degree of absorption, coma, convulsions, skin contact may cause insomnia, excitability, tremor, coma and death. Do not confuse with inorganic lead. 5.3 Treatment for Exposure: Remove victim from contaminated area and consult physician immediately. INGESTION: induce vomiting. SKIN: wash immediately with kerosene or similar petroleum distillate followed by soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 0.1 mg/m ³ 5.5 Short-Term Inhalation Limit: 0.15 mg Pb/m ³ for 30 min 5.6 Toxicity by Ingestion: Oral rat LD ₅₀ = 17 mg/kg 5.7 Late Toxicity: Lead poisoning. 5.8 Vapor (Gas) Irritant Characteristics: A person can feel a slight stinging of the eyes or respiratory system if present in high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Causes stinging of the skin and first degree burns on short exposure; may cause secondary burns on long exposure. 5.10 Odor Threshold: Data not available.	

6 FIRE HAZARDS

- 6.1 Flash Point: 200°F (C = 188.1°C)
- 6.2 Flammable Limits in Air: Data not available
- 6.3 Fire Extinguishing Agents: Water, foam, dry chemical or carbon dioxide
- 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent
- 6.5 Special Hazards of Combustion Products: Toxic gases are generated in fires.
- 6.6 Behavior in Fire: May explode in fires.
- 6.7 Ignition Temperature: Decomposes above 230°F
- 6.8 Electrical Hazard: Not pertinent
- 6.9 Burning Rate: Data not available

7 CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: No reaction
- 7.2 Reactivity with Common Materials: Reacts with some metals cause decomposition
- 7.3 Stability During Transport: Stable below 230°F. At higher temperatures may detonate or explode when confined
- 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent
- 7.5 Polymerization: Not pertinent
- 7.6 Inhibitor of Polymerization: Not pertinent

8 WATER POLLUTION

- 8.1 Aquatic Toxicity: 0.20 mg/l 96-hr bluegill TL₅₀ in fresh water
- 8.2 Waterway Toxicity: Data not available
- 8.3 Biological Oxygen Demand (BOD): Data not available
- 8.4 Food Chain Concentration Potential: Data not available

9 SELECTED MANUFACTURERS

1. E. I. duPont de Nemours & Co., Inc. Petroleum Chemicals Division, Artich, Calif. 94509
2. Ethyl Corp. Industrial Chemicals Division, 451 Florja St., Baton Rouge, La. 70801
3. PPG Industries, Inc. Houston Chemical Co. Division, Beaumont, Tex. 77704

10 SHIPPING INFORMATION

- 10.1 Grades or Purity: Technical
- 10.2 Storage Temperature: Ambient
- 10.3 Inert Atmosphere: No requirement
- 10.4 Venting: Pressure/vacuum

NOTES

REVISED 1978

TEP

TETRAETHYL PYROPHOSPHATE

Common Synonyms Ethylpyrophosphate Nitep TEP TEPP		Liquid Mixes with water	Colorless to yellow	Faint fruity odor
Fire		Not flammable POISONOUS GASES ARE PRODUCED WHEN HEATED		
 Exposure		LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED		
Water Pollution		HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning: poison water contaminant Restrict access Should be removed Chemical and physical treatment Disperse and flush (small discharge)		2. LABEL 		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Bladan, Ethyl pyrophosphate, Killax, Mortopal, Nitep, TEP, TEPP, Tetron, Vaportone 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula C ₂ H ₅ O ₂ POOP(OOC ₂ H ₅) ₂ or (C ₂ H ₅ P ₂ O ₆) ₂ 3.4 IMCO/United Nations Numerical Designation: 6.1, 1705		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Water white to amber 4.3 Odor: Aromatic, faint fruits		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Mask with canister approved for organic phosphate pesticides; goggles or face shield; rubber gloves and other protective clothing to prevent contact with skin. 5.2 Symptoms Following Exposure: Contact with liquid causes irritation of eyes and skin. Compound can be absorbed through skin. Ingestion of liquid or inhalation of mist causes nausea, vomiting, mental confusion, abdominal pain, sweating, giddiness, apprehension, and restlessness. Later muscular twitching of eyelids and tongue begin, then other muscles of face and neck become involved; pulmonary edema, ataxia, tremor, and convulsions may advance to coma. 5.3 Treatment for Exposure: <i>(Call physician for all exposures to this compound.)</i> INHALATION: support respiration; keep airway clear; use artificial respiration if breathing is difficult or has stopped. EYES: flush with water immediately after contact for at least 15 min. SKIN: remove victim's clothing and shoes immediately; using rubber gloves, quickly wipe off affected area with clean cloths; immediately follow with a shower; using plenty of soap, if complete shower is impossible, wash affected skin, hair, and fingernails repeatedly with soap and water using clean cloths each time to prevent spreading the contamination. INGESTION: induce vomiting by putting a finger down the throat or by giving warm salt water (one tablespoon salt per glass). Repeat until vomit fluid is clear (save fluid for physician's examination); if vomiting cannot be induced within five minutes, have victim drink plenty of milk or water; have him lie down and keep him warm; if there is difficulty in breathing due to increased secretions, chest may be cleared by propping patient up; if he stops breathing, use artificial or mouth-to-mouth respiration; preferably through an airway; wash victim's mouth of contamination; mechanical resuscitator should be used if available; oxygen may be necessary; keep patient under observation for 24 hrs. 5.4 Toxicity by Inhalation (Threshold Limit Value): 0.05 mg/m				

6 FIRE HAZARDS

- 6.1 **Flash Point:** Not flammable
 6.2 **Flammable Limits in Air:** Not flammable
 6.3 **Fire Extinguishing Agents:** Not pertinent
 6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
 6.5 **Special Hazards of Combustion Products:** Highly toxic gases and vapors of unburned material and phosphoric acid are formed in fires.
 6.6 **Behavior in Fire:** Water streams applied to adjacent fires will spread contamination of pesticide over wide area.
 6.7 **Ignition Temperature:** Not pertinent.
 6.8 **Electrical Hazard:** Not pertinent.
 6.9 **Burning Rate:** Not pertinent.

7 CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** Reacts slowly to form phosphoric acid.
 7.2 **Reactivity with Common Materials:** Corrosive to aluminum; slowly corrosive to copper, brass, zinc, and tin.
 7.3 **Stability During Transport:** Stable.
 7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water; rinse with sodium bicarbonate or lime solution.
 7.5 **Polymerization:** Not pertinent.
 7.6 **Inhibitor of Polymerization:** Not pertinent.

8 WATER POLLUTION

- 8.1 **Aquatic Toxicity:** 10 ppm 96 hr fathead; 11 mg/l fresh water; 500 ppm 48 hr marine plankton; no growth of lethal salt water; *Time period not specified.
 8.2 **Waterlow Toxicity:** LD₅₀ = 3.56 mg/kg.
 8.3 **Biological Oxygen Demand (BOD):** Data not available.
 8.4 **Food Chain Concentration Potential:** None.

9 SELECTED MANUFACTURERS

1. Muller Chemical & Fertilizer Corp.
P.O. Box 333
Hanover, Pa. 17331
2. Chevron Chemical Co.
Orto Division
200 Bush Street
San Francisco, Calif. 94129

10 SHIPPING INFORMATION

- 10.1 **Grades or Purity:** Technical 40% plus 60% related ethyl phosphates.
Acetoxides (5-10%) (Class A poison); Dusts (0.66-1.2%) Sprays (0.1-0.4%).
10.2 **Storage Temperature:** Ambient.
10.3 **Inert Atmosphere:** No requirement.
10.4 **Ventilating:** Open.

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 446)
A P

12. HAZARD CLASSIFICATIONS

- 12.1 **Code of Federal Regulations:** Poisonous, Class B.
12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed.
12.3 **MFPA Hazard Classifications:** Not listed.

13 PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 **Physical State at 15°C and 1 atm:** Liquid.
13.2 **Molecular Weight:** 297.2.
13.3 **Boiling Point at 1 atm:** Not pertinent (decomposes).
13.4 **Freezing Point:** Not pertinent.
13.5 **Critical Temperature:** Not pertinent.
13.6 **Critical Pressure:** Not pertinent.
13.7 **Specific Gravity:** 1.18 at 25°C (liquids).
13.8 **Liquid Surface Tension:** Data not available.
13.9 **Liquid-Water Interfacial Tension:** Not pertinent.
13.10 **Vapor (Gas) Specific Gravity:** Not pertinent.
13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent.
13.12 **Latent Heat of Vaporization:** Not pertinent.
13.13 **Heat of Combustion:** Not pertinent.
13.14 **Heat of Decomposition:** Not pertinent.
13.15 **Heat of Solution:** Not pertinent.
13.16 **Heat of Polymerization:** Not pertinent.

(continued on page 2 and 3)

5 HEALTH HAZARDS (Cont'd)

- 5.5 **Short-Term Inhalation Limits:** 0.25 mg/m³ for 40 min.
5.6 **Toxicity by Ingestion:** Grade 4 LD₅₀ < 50 mg/kg.
5.7 **Loie Toxicity:** Data not available.
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available.
5.9 **Liquid or Solid Irritant Characteristics:** Data not available.
5.10 **Odor Threshold:** Data not available.

(continued on page 3)

TFE

TETRAFLUOROETHYLENE, INHIBITED

Common Synonyms Teflon monomer	Compressed Gas Colorless Odorless or faint odor Visible vapor cloud is produced
Fire	FLAMMABLE POISONOUS GASES ARE PRODUCED IN FIRE Containers may explode in fire Flashback along vapor trail may occur Vapor may explode if ignited in an enclosed area
Exposure	VAPOR Irritating to eyes, nose and throat
Water Pollution	Not harmful to aquatic life
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning: high flammability Restrict access	2 LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Teflon monomer 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: $\text{F}_2\text{C}=\text{CF}_2$ 3.4 IMCO/United Nations Numerical Designation: 2104	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Compressed gas 4.2 Color: Colorless 4.3 Odor: None or faint
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Self-contained breathing apparatus for high gas concentrations 5.2 Symptoms Following Exposure: Inhalation causes irritation of respiratory system. Contact with eyes causes slight irritation 5.3 Treatment for Exposure: INHALATION: remove victim from exposure; if breathing is difficult give artificial respiration and call physician 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: Causes possible impairment of immunologic defense system in rats 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available	

6 FIRE HAZARDS 6.1 Flash Point: Not pertinent (gas) 6.2 Flammable Limits in Air: 10% - 18% 6.3 Fire Extinguishing Agents: Let fire burn. Stop flow of gas; cool containers with water. 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: When burned in air, gas forms toxic carbonyl fluoride and hydrogen fluoride 6.6 Behavior in Fire: Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back. Containers may explode 6.7 Ignition Temperature: 370 °F 6.8 Electrical Hazard: C_2F_4 air mixtures produced explosions which propagated through the smallest clearance in standard test conducted by Underwriters Laboratories. It does not meet any group classification. THF

TETRAHYDROFURAN

Common Synonyms Oxethylene oxide Tetramethylene oxide THF	Liquid Colorless Faint fruity odor Floats and mixes with water. Flammable; irritating vapor is produced.
Fire	FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Vapor may be ineffective.
Exposure	VAPOR Irritating to eyes, nose and throat. If inhaled, will cause nausea, headache or loss of consciousness. LIQUID Irritating to skin and eyes. Harmful if swallowed.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 445-4) Toxic warning: High flammability. Dispersal and flush.	2. LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Tetramethylene oxide THF 3.2 Coast Guard Compatibility Classification: Other 3.3 Chemical Formula: C_4H_8O 3.4 IMCO United Nations Numerical Designation: 31206	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Ether-like, similar to acetone
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Self-contained breathing apparatus, goggles, flame hood, rubber or plastic gloves. 5.2 Symptoms Following Exposure: Vapor causes nausea, dizziness, headache, and irritation to eyes. 5.3 Treatment for Exposure: INHALATION: Remove victim from exposure area and administer artificial respiration and oxygen if needed. INGESTION: Give large amounts of water. Seek medical attention. SKIN OR EYE CONTACT: Wash thoroughly with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not given. 5.5 Short-Term Inhalation Limits: 100 ppm for 30 min. 5.6 Toxicity by Ingestion: Grade I LD ₅₀ = 1000 mg/kg. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Vapor causes a slight irritation to the eyes and respiratory system at low concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard: Irritation to the skin and eyes if contact is maintained and rubbing of the skin. 5.10 Odor Threshold: Not given.	

6 FIRE HAZARDS 6.1 Flash Point: -11.1°C ($+10^{\circ}\text{F}$) 6.2 Flammable Limits in Air: 3.8 - 11.8% 6.3 Fire Extinguishing Agents: Dry chemical or carbon dioxide. 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective. 6.5 Special Hazards of Combustion Products: If flame vapor is generated when heated. 6.6 Behavior in Fire: May explode. Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back. 6.7 Ignition Temperature: 210°C 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: 4.7 mm/min.	8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available. 8.2 Waterlow Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): Data not available. 8.4 Food Chain Concentration Potential: None.																												
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Stable unless heated. It will polymerize in the presence of peroxides. When concentrated by evaporation, it will explode. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: 0.01% butadiene hydroxybenzene (BHDH) present to prevent peroxide formation.	9 SELECTED MANUFACTURERS 1. THN

TETRAHYDRONAPHTHALENE

Common Synonyms: 1,2,3,4-tetrahydronaphthalene Tetralin Tetralap	Physical State: Liquids Color/Smell: Colorless. Muddy, turpentine odor. Boiling Point: 207°C (405°F) Melting Point: 80°C (176°F) Density: 1.026 g/cm³ (62.5 lb/ft³) Flash Point: 115°C (239°F) Autoignition: 253°C (487°F) Explosion Limits: 1.1% - 7.1% (vol)
	Fire Combustible
Exposure	Liquid Irritating to skin and eyes. Harmful if swallowed.
Water Pollution	Effect of low concentrations on aquatic life is unknown. Floating to shoreline. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE See Response Manual Handbook, CG 446-1. Mechanical containment. Should be removed. Chemical and physical treatment.	2 LABELS No hazard label required by Code of Federal Regulation.
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: 1,2,3,4-Tetrahydronaphthalene; Tetralin; Tetralap. 3.2 Coast Guard Compatibility Classification: Aromatic hydrocarbon. 3.3 Chemical Formula: C ₁₀ H ₈ . 3.4 IMCO United Nations Numerical Designation: Not listed.	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless. 4.3 Odor: Muddy character, resembling that of naphthalene and turpentine.
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: A supply of clean, fresh, dry, filtered, face shield, rubber gloves. 5.2 Symptoms Following Exposure: Liquid may cause irritation to skin and eyes and may be harmful if swallowed. 5.3 Treatment for Exposure: Inhalation: If inhaled, remove to fresh air and breathe fresh air. If severe, seek medical attention. If swallowed, do not induce vomiting. If in eyes, flush with water for at least 15 minutes and seek medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not specified. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade 2.4 Data not available. 5.7 Late Toxicity: Liver and kidney damage from high doses. 5.8 Vapor (Gas) Irritant Characteristics: Vapor is a weak irritant to the eyes, nose, and throat. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. Irritated on skin and allows it to become the cause of a long period of burning pain. 5.10 Odor Threshold: Data not available.	

6 FIRE HAZARDS 6.1 Flash Point: 115°C (239°F). 6.2 Flammable Limits in Air: 1.1% - 7.1% (vol). 6.3 Fire Extinguishing Agents: Foam, dry chemical, or carbon dioxide. 6.4 Fire Extinguishing Agents Not to be Used: Avoid water. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: Not pertinent. 6.7 Ignition Temperature: 253°C (487°F). 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Data not available.	8 WATER POLLUTION 8.1 Aquatic Toxicity: 78 ppm 24 hr; biodegradable. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): 100 mg/l day. 8.4 Food Chain Concentration Potential: Not pertinent.																										
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: Not reactive. 7.2 Reactivity with Common Materials: Not reactive. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9 SELECTED MANUFACTURERS 1. REVISED 1978

TML	TETRAMETHYL LEAD
-----	------------------

TPG

THIOPHOSGENE

Common Synonyms Thiocarbonyl chloride		Liquid	Red	Sharp choking odor
Sinks in water. Reacts slowly with water and produces poisonous vapor.				

6 FIRE HAZARDS

- 6.1 Flash Point: Data not available.
 6.2 Flammable Limits in Air: Data not available.
 6.3 Fire Extinguishing Agents: Dry chemical, carbon dioxide.
 6.4 Fire Extinguishing Agents Not to be Used: Water foam.
 6.5 Special Hazards of Combustion Products: Toxic phosphene, hydrogen chloride and sulfur dioxide may be generated in a fire.
 6.6 Behavior in Fire: Decomposes above 200°C. Carbon disulfide is very flammable and carbon tetrachloride.
 6.7 Ignition Temperature: Data not available.
 6.8 Electrical Hazard: Data not available.
 6.9 Burning Rate: Data not available.

8 WATER POLLUTION

- 8.1 Aquatic Toxicity: Data not available.
 8.2 Waterfowl Toxicity: Data not available.
 8.3 Biological Oxygen Demand (BOD): Data not available.
 8.4 Food Chain Concentration Potential: None.

9 SELECTED MANUFACTURERS

1. Aldrich Chemical Co.
 940 West St. Paul Avenue
 Milwaukee, Wis. 53233
 2. Platy and Bauer, Inc.
 1204 Northern Boulevard
 Flushing, N.Y. 11355

7 CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: It reacts with hydrogen chloride, carbon disulfide and carbon dioxide. Reaction is slow unless water is hot.
 7.2 Reactivity with Common Materials: Corrosive metals in presence of moisture.
 7.3 Stability During Transport: Stable.
 7.4 Neutralizing Agents for Acids and Caustics: Flush with water, rinse with sodium bicarbonate or lime solution.
 7.5 Polymerization: Not pertinent.
 7.6 Inhibitor of Polymerization: Not pertinent.

10 SHIPPING INFORMATION

- 10.1 Grades or Purities: Commercial.
 10.2 Storage Temperature: Ambient.
 10.3 Inert Atmosphere: No requirement.
 10.4 Venting: Pressure vessel.

11 HAZARD ASSESSMENT CODE

See Hazard Assessment Manual, CG 448.
 XXX

12 HAZARD CLASSIFICATIONS

- 12.1 Code of Federal Regulations: Poisonous (2105 B)
 12.2 NAS Hazard Rating for Bulk Water Transportation: Not listed.
 12.3 NFPA Hazard Classifications: Not listed.

13 PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 Physical State at 15°C and 1 atm: Liquid.
 13.2 Molecular Weight: 76.13
 13.3 Boiling Point at 1 atm: 121°F = 50°C = 323°K.
 13.4 Freezing Point: Not pertinent.
 13.5 Critical Temperature: Not pertinent.
 13.6 Critical Pressure: Not pertinent.
 13.7 Specific Gravity: 1.262 at 20°C.
 13.8 Liquid Surface Tension: 25 dynes/cm = 0.025 N/m at 20°C.
 13.9 Liquid-Water Interfacial Tension: Not pertinent.
 13.10 Vapor (Gas) Specific Gravity: 2.
 13.11 Ratio of Specific Heats of Vapor (Gas): Data not available.
 13.12 Latent Heat of Vaporization: 1570 Btu/lb = 716 cal/g = 3.0 x 10³ J/kg.
 13.13 Heat of Combustion: 16,000 Btu/lb = 7,000 cal/g = 30 x 10³ J/kg.
 13.14 Heat of Decomposition: Not pertinent.
 13.15 Heat of Solution: Not pertinent.
 13.16 Heat of Polymerization: Not pertinent.

NOTES

THR	THIRAM
-----	--------

TRN

THORIUM NITRATE

Common Synonyms Thorium nitrate tetrahydrate		Solid White Odorless Mixes with water
Fire	Not flammable May cause fire on contact with combustibles POISONOUS GASES ARE PRODUCED IN FIRE	
Exposure	DUST Irritating to eyes, nose and throat Harmful if inhaled SOLID Irritating to skin and eyes Harmful if swallowed	
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intake	
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning: radioactive, oxidizing material, water contaminant Restrict access Should be removed chemically and physically treated		2. LABELS  
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Thorium nitrate tetrahydrate 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: <chem>Th(NO3)4·4H2O</chem> (approx) 3.4 IMCO/United Nations Numerical Designation: Low Specific Activity		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust respirator or gloves, rubber shoes, etc. 5.2 Symptoms Following Exposure: Compound has low chemical toxicity but alpha emission is expected to constitute a hazard if a fairly large amount is inhaled or ingested. Dust may irritate eyes and cause diffuse dermatitis. Beta and gamma emission is small. 5.3 Treatment for Exposure: IF IN FLUSH with water and avoid inhaled or removed. IF INGESTED, get medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: Genetic effects of large exposures with level radiation are suspected to be harmful. 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Not pertinent		

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable, but may cause fire on contact with oxidizing materials.

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Water

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Yields toxic oxides of nitrogen when heated or fired.

6.6 **Behavior in Fire:** When heated, it may catch on fire. In fire, it may cause fire to spread and may produce water insoluble or water emulsifiable material. Water used to extinguish material will increase the spread of fire.

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Forms a weak solution. In the absence of reaction is not hazardous.

7.2 **Reactivity with Common Materials:** In contact with easily oxidizable substances may react readily enough to cause ignition under confinement or exposure. Not a strong oxidizer and does not react with acids and bases.

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 100 ppm 48 hr. water bioassay with fish and daphnia

8.2 **Waterleaf Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** None

8.4 **Food Chain Concentration Potential:** Data not available

9 SELECTED MANUFACTURERS

W. R. Grace & Co.
Division of Chemical Division
P.O. Box 155
Portland, Oregon 97208

American Pyrotechnics Company
288 Ann Street
West Chicago, Illinois 60591

J. T. Baker Chemical Co.
Phillipsburg, New Jersey 08865

10. SHIPPING INFORMATION

10.1 **Grade or Purity:** Reagent

10.2 **Storage Temperature:** Ambient

10.3 **Inert Atmosphere:** Not recommended

10.4 **Venting:** None

11. HAZARD ASSESSMENT CODE

See HAZARD ASSESSMENT HANDBOOK, CG 446-2
XX

12 HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:** Radioactive material

12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

12.3 **NFPA Hazard Classifications:**

Category	Classification*
Health Hazard (Blue)	1
Flammability (Red)	0
Reactivity (Yellow)	1

* See Handbook, CG 446-2, for details.

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Solid

13.2 **Molecular Weight:** 388.2

13.3 **Boiling Point at 1 atm:** Not pertinent (decomposes)

13.4 **Freezing Point:** Not pertinent

13.5 **Critical Temperature:** Not pertinent

13.6 **Critical Pressure:** Not pertinent

13.7 **Specific Gravity:** 2.01 at 20°C (solid)

13.8 **Liquid Surface Tension:** Not pertinent

13.9 **Liquid-Water Interfacial Tension:** Not pertinent

13.10 **Vapor (Gas) Specific Gravity:** Not pertinent

13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent

13.12 **Latent Heat of Vaporization:** Not pertinent

13.13 **Heat of Combustion:** Not pertinent

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

* Continued on pages 1 and 2

NOTES

III

TITANIUM TETRACHLORIDE

Common Synonyms		Water: liquid	Colorless to light yellow	Irritating odor
		Reacts violently with water. Produces dense fumes in air		
Fire	Not flammable			
Exposure	VAPOR Irritating to eyes, nose and throat If inhaled, will cause coughing or headache LIQUID Will burn skin and eyes If swallowed, will cause nausea and vomiting			
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes

REVISED 1978

TOL

TOLUENE

Common Synonyms Toluol Methylbenzene Methylbenzol	Watery liquid Colorless Pleasant odor Floats on water. Flammable. Irritating vapor is produced.
	
Fire	FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Vapor may be ignited by static electricity. Vapor may be ignited by open flame. Vapor may be ignited by hot surfaces. Vapor may be ignited by sparks.
Exposure	CALL FOR MEDICAL AID VAPOR Irritating to eyes, nose and throat. If inhaled, will cause nausea, vomiting, headache, dizziness, difficult breathing, or loss of consciousness. May be fatal if inhaled in high concentrations. LIQUID Irritating to skin and eyes. If swallowed, will cause nausea, vomiting or loss of consciousness. Remove clothing and shoes if contaminated. If in EYES, flush with water for at least 15 min. If IN EYES, remove contact lenses and flush with water for at least 15 min. If SWALLOWED, do NOT induce vomiting. Give water to drink. DO NOT INDUCE VOMITING.
Water Pollution	Dangerous to aquatic life at high concentrations. Fouling to shoreline. May be dangerous if it enters water intakes. Notify local health department if it enters water. Notify local health department if it enters water.
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446.4) Issue warning. High flammability. Evacuate area.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Methylbenzene, Methylbenzol, Toluol. 3.2 Coast Guard Compatibility Classification: Aromatic hydrocarbon. 3.3 Chemical Formula: C ₇ H ₈ . 3.4 IMCO/United Nations Numerical Designation: 3.2, 1.24.	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless. 4.3 Odor: Pungent, aromatic, benzene-like, distinct, pleasant.
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Air supplied mask, goggles or face shield, plastic gloves. 5.2 Symptoms Following Exposure: Vapors irritate eyes and upper respiratory tract, cause dizziness, headache, anesthesia, respiratory arrest. Liquid irritates eyes and causes drying of skin. If aspirated, causes coughing, gagging, distress, and rapidly developing pulmonary edema. If ingested causes vomiting, griping, diarrhea, depressed respiration. 5.3 Treatment for Exposure: INHALATION: remove to fresh air, give artificial respiration and oxygen if needed, call a doctor. INGESTION: do NOT induce vomiting, call a doctor. EYES: flush with water for at least 15 min. SKIN: wipe off, wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 100 ppm. 5.5 Short-Term Inhalation Limits: 499 ppm for 30 min. 5.6 Toxicity by Ingestion: Grade 2 LD 50 5 to 5 g/kg. 5.7 Late Toxicity: Kidney and liver damage may follow ingestion. 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin. 5.10 Odor Threshold: 0.17 ppm.	

6. FIRE HAZARDS 6.1 Flash Point: 40°F (4°C) (55°F (13°C)). 6.2 Flammable Limits in Air: 1.2% - 7%. 6.3 Fire Extinguishing Agents: Carbon dioxide, or dry chemical for small fires; ordinary foam for large fires. 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective. 6.5 Special Hazards of Combustion, Products: Not pertinent. 6.6 Behavior in Fire: Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back. 6.7 Ignition Temperature: 99°F. 6.8 Electrical Hazard: Class I, Group D. 6.9 Burning Rate: 5.7 mm/min.	8. WATER POLLUTION 8.1 Aquatic Toxicity: 1180 mg/L, 96 hr, sunfish/11 m, fresh water. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): 0% 2 days, 38% (theoretical) 5 days. 8.4 Food Chain Concentration Potential: None.																																				
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9. SELECTED MANUFACTURERS 1. Exxon Chemical Co. Houston, Tex. 77001. 2. Shell Chemical Co. Petrochemicals Division. Houston, Tex. 77001. 3. Sun Oil Co. St. Davids, Pa. 19087.																																				
11. HAZARD ASSESSMENT CODE (See Hazard Assessment Handbook, CG 446.3) A-T U	10. SHIPPING INFORMATION 10.1 Grades or Purity: Research reagent, nitration, 99.98% industrial, contains 94% with 5% xylene and small amounts of benzene and nonaromatic hydrocarbons, 96-120 less pure than industrial. 10.2 Storage Temperature: Ambient. 10.3 Inert Atmosphere: No requirement. 10.4 Venting: Open (flame arrester) or pressure vacuum.																																				
12. REVISED 1978

TDI

TOLUENE 2,4-DIISOCYANATE

Common Synonyms TDI Hylene T Mowdur TDS Naccosate 100	Liquid Colorless to light yellow Sharp, sweet, fruity odor Sinks and reacts with water. Freezing point is 68°F - 72°F
AVOID CONTACT WITH LIQUID AND VAPOR. Keep people away. Wear goggles, self-contained breathing apparatus and clothes for full protection. Stay downwind of leaks. Call 911 for help. If you feel dizzy, get fresh air. If you feel nauseated, do not eat or drink.	
Fire	Combustible POISONOUS GAS IS PRODUCED IN FIRE. Wear goggles, self-contained breathing apparatus and clothes for full protection. Extinguish with dry chemical or carbon dioxide. Water and foam may be ineffective.
 Exposure	CAUTION FOR MEDICAL AID LIQUID POISONOUS IF SWALLOWED Will burn skin and eyes. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES: Flush with water for at least 15 minutes. IF SWALLOWED: Do not induce vomiting. Call doctor. DO NOT INDUCE VOMITING.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Not a health or wildlife threat. Not a pollutant of surface water.
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-1) Issue warning - water contaminant. Restrict access. Should be removed. Chemical and physical treatment.	2. LABEL 
3. CHEMICAL DESIGNATIONS 31 Synonyms: Hylene T, Mowdur TDS, Naccosate 100, 2,4-Tolylene diisocyanate, TDI. 32 Coast Guard Compatibility Classification: Isocyanate. 33 Chemical Formula: C ₉ H ₇ N ₂ O ₂ . 34 IMCO/United Nations Numerical Designation: Not listed.	4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Liquid. 42 Color: Colorless to light yellow. 43 Odor: Sweet, fruity, pungent.
5. HEALTH HAZARDS 51 Personal Protective Equipment: Organic vapor canister, goggles or face shield, rubber gloves, boots and apron. 52 Symptoms Following Exposure: Irritates eyes and skin. Potent sensitizer and lung irritant if inhaled. May produce bronchospasm (asthma), pneumonitis, bronchitis, and pulmonary edema. Nocturnal cough and shortness of breath are common. Repeated low level exposure may produce chronic lung disease. Oral toxicity is low. 53 Treatment for Exposure: INHALATION: remove victim to fresh air, administer artificial respiration and oxygen if needed, call a doctor at once. INGESTION: do NOT induce vomiting, call a doctor. EYES: flush with water for at least 15 min., call doctor at once. SKIN: flush with water, wipe off, wipe with rubbing alcohol, wash with soap and water. 54 Toxicity by Inhalation (Threshold Limit Value): 0.02 ppm. 55 Short-Term Inhalation Limits: 0.02 ppm for 5 min. 56 Toxicity by Ingestion: Grade 2, LD ₅₀ 5 to 5 g/kg. 57 Late Toxicity: Data not available. 58 Vapor (Gas) Irritant Characteristics: Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations. 59 Liquid or Solid Irritant Characteristics: Fairly severe skin irritant, may cause pain and second degree burns after a few minutes contact. 510 Odor: Threshold: 0.4 - 2.14 ppm.	

6. FIRE HAZARDS

- 61 **Flash Point:** 270°F (100°C)
- 62 **Flammable Limits in Air:** 0.9% - 9.5%
- 63 **Fire Extinguishing Agents:** Water, foam, dry chemical or carbon dioxide.
- 64 **Fire Extinguishing Agents Not to be Used:** Water or foam may cause frothing.
- 65 **Special Hazards of Combustion Products:** Irritating vapors are generated when heated.
- 66 **Behavior in Fire:** Not pertinent.
- 67 **Ignition Temperature:** ≥300°F
- 68 **Electrical Hazard:** Not pertinent.
- 69 **Burning Rate:** Data not available.

7. CHEMICAL REACTIVITY

- 71 **Reactivity with Water:** Forms carbon dioxide gas and an organic base. The reaction is not violent.
- 72 **Reactivity with Common Materials:** No reaction.
- 73 **Stability During Transport:** Stable.
- 74 **Neutralizing Agents for Acids and Caustics:** Not pertinent.
- 75 **Polymerization:** Slow, not hazardous above 133°F.
- 76 **Inhibitor of Polymerization:** Not pertinent.

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 446-3)
A-X-Y

12. HAZARD CLASSIFICATIONS

- 121 **Code of Federal Regulations:** Poison, Class B.
- 122 **NAS Hazard Rating for Bulk Water Transportation:**

8. WATER POLLUTION

- 81 **Aquatic Toxicity:** Data not available.
- 82 **Waterfowl Toxicity:** Data not available.
- 83 **Biological Oxygen Demand (BOD):** Data not available.
- 84 **Food Chain Concentration Potential:** None.

9. SELECTED MANUFACTURERS

- 1 BASF Wyandotte Corp.
Industrial Chemicals Group
1000 Biddle Ave.
Wyandotte, Mich. 48192
- 2 Baxchem Corp.
Mobay Chemical Co. Division
Penn. Lincoln Park West
Pittsburgh, Pa. 15205
- 3 I. I. duPont de Nemours & Co., Inc.
Eastman Chemicals Dept.
Wilmington, Del. 19895

10. SHIPPING INFORMATION

- 101 **Grades or Purity:** Commercial distilled 99% total diisocyanate. The following isomer ratios are shipped: (a) 100% 2,4; (b) 80% 2,4, 20% 2,6; most common, 65% 2,4, 35% 2,6. All mixtures have about the same hazard characteristics.
- 102 **Storage Temperature:** 75 - 100°F
- 103 **Inert Atmosphere:** Inerted.
- 104 **Venting:** Pressure-vacuum.

13. PHYSICAL AND CHEMICAL PROPERTIES

- 131 **Physical State at 15°C and 1 atm:** Solid.
- 132 **Molecular Weight:** 174.16.
- 133 **Boiling Point at 1 atm:** 452°F = 230°C = 523°K.
- 134 **Freezing Point:** 68 - 72°F = 20 - 22°C = 293 - 295°K.
- 135 **Critical Temperature:** Not pertinent.
- 136 **Critical Pressure:** Not pertinent.
- 137 **Specific Gravity:** 1.22 at 25°C (liquid).
- 138 **Liquid Surface Tension:** test 125 dynes/cm = 0.025 N/m at 25°C.
- 139 **Liquid-Water Interfacial Tension:** test 145 dynes/cm = 0.045 N/m at 25°C.
- 1310 **Vapor (Gas) Specific Gravity:** Not pertinent.
- 1311 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent.
- 1312 **Latent Heat of Vaporization:** Not pertinent.
- 1313 **Heat of Combustion:** test 1 - 10,300 Btu/lb = -5720 cal/g = -239 X 10³ J/kg.
- 1314 **Heat of Decomposition:** Not pertinent.
- 1315 **Heat of Solution:** Not pertinent.
- 1316 **Heat of Polymerization:** Not pertinent.

TXP

TOXAPHENE

Common Synonyms: Octachlorocamphene	Heavy solid or in solution Amber Solid sinks in water; solution floats on water
Notes: 1. Single charge: 100 mg/kg body weight 2. Two charges: 50 mg/kg body weight 3. Three charges: 33 mg/kg body weight 4. Four charges: 25 mg/kg body weight 5. Five charges: 20 mg/kg body weight 6. Six charges: 17 mg/kg body weight 7. Seven charges: 14 mg/kg body weight 8. Eight charges: 12 mg/kg body weight 9. Nine charges: 10 mg/kg body weight 10. Ten charges: 8 mg/kg body weight	
Fire	Solid not flammable, but usually dissolved in combustible liquid. POISONOUS GASES ARE PRODUCED IN FIRE. Fire: Single charge: 100 mg/kg body weight Fire: Two charges: 50 mg/kg body weight Fire: Three charges: 33 mg/kg body weight Fire: Four charges: 25 mg/kg body weight Fire: Five charges: 20 mg/kg body weight Fire: Six charges: 17 mg/kg body weight Fire: Seven charges: 14 mg/kg body weight Fire: Eight charges: 12 mg/kg body weight Fire: Nine charges: 10 mg/kg body weight Fire: Ten charges: 8 mg/kg body weight
 Exposure	CAUTION FOR MEDICAL USE: SOLID OR SOLUTION POISONOUS IF SWALLOWED. Irritating to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes.
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. Solution is fouling to shoreline. May be dangerous if it enters water intakes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes. Causes severe irritation to skin and eyes.
1. RESPONSE TO DISCHARGE (See Response Manual, Section 400-40) Issue warning: poison water contaminant Should be removed Chemical and physical treatment	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Octachlorocamphene 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: C ₁₁ H ₇ Cl ₈ 3.4 IMCO United Nations Numerical Designation: Not listed	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Waxy solid 4.2 Color: Amber 4.3 Odor: Mild turpentine odor
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Chemical type respirator, rubber gloves, chemical goggles or face shield 5.2 Symptoms Following Exposure: May be absorbed through skin, lungs, or intestinal tract. Symptoms include salivation, leg and back muscle spasms, nausea, vomiting, hyperreflexia, tremors, shivering, clonus, convulsions, then tetanic contractions of all skeletal muscles. Tetanic doses cause respiratory failure. Respiration affected as a result of the exertion from vomiting or convulsions. First arrested because of tetanic muscular contractions, then increased in both amplitude and rate as the muscles relax. 5.3 Treatment for Exposure: If symptoms of poisoning appear, promptly remove the unabsorbed pesticide from the stomach by inducing vomiting with warm salty or soapy water if the patient is conscious or from the skin with soap and water. Keep patient warm and quiet. Call a physician. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: Grade 4 (1 lb below 50 mg/kg dose) 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: The solid is non-volatile; no solutions; see meta-xylene 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause smearing and reddening of the skin. 5.10 Odor Threshold: Not pertinent	
6. FIRE HAZARDS 6.1 Flash Point: 147°F (1 solution) 6.2 Flammable Limits in Air: 1.1 - 6.4 (v/v, end vol) 6.3 Fire Extinguishing Agents: Foam, dry chemical or carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective 6.5 Special Hazards of Combustion Products: Toxic vapors are generated when heated 6.6 Behavior in Fire: Solution in solvent may produce corrosive products when heated 6.7 Ignition Temperature: 956°F (1 solution) 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent	
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction 7.2 Reactivity with Common Materials: No reaction 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent

REVISED 1978

TCE

TRICHLOROETHANE

Common Synonyms 1,1,1-Trichloroethane Methylchloroform	Wettable liquid Colorless Sweet odor Sinks in water. Irritating vapor is produced.
Fire	
Exposure	
Water Pollution	
1. RESPONSE TO DISCHARGE (See Response Methods Manual, CG 446-4) Should be removed. Chemical and physical treatment.	2. LABELS No hazard label required by Code of Federal Regulations.
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Aethersene Chloroethene Methylchloroform 1,1,1-Trichloroethane 3.2 Coast Guard Competency Classification: Halogenated hydrocarbon 3.3 Chemical Formula: CHCl ₃ 3.4 IMCU United Nations Numerical Designation: Not listed	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Chloroform like, sweetish
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Organic vapor acid gas canister, self-contained breathing apparatus for emergencies; neoprene or polyvinyl alcohol type gloves; chemical safety goggles; and face shield; neoprene safety shoes; or leather safety shoes plus neoprene footwear; neoprene or polyvinyl alcohol apron or apron for splash protection. 5.2 Symptoms Following Exposure: INHALATION: symptoms range from loss of equilibrium and incoordination to loss of consciousness. High concentrations can be fatal due to simple asphyxiation combined with loss of consciousness. INGESTION: produces effects similar to inhalation and may cause some feeling of nausea. EYES: slightly irritating and lacrimatory. SKIN: defatting action may cause dermatitis. 5.3 Treatment for Exposure: Get medical attention for all eye exposures and any other serious over exposures. Do NOT administer adrenalin or epinephrine; otherwise, treatment is symptomatic. INHALATION: remove victim to fresh air; if necessary, apply artificial respiration and/or administer oxygen. INGESTION: have victim drink water and induce vomiting. EYES: flush thoroughly with water. SKIN: remove contaminated clothing and wash exposed area thoroughly with soap and warm water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 150 ppm. 5.5 Short-Term Inhalation Limits: 1000 ppm for 60 min. in man. 5.6 Toxicity by Ingestion: (Grade I LD ₅₀) 15 g per rat mouse (about 2 g per kg). 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause a slight stinging of the eyes or respiratory system if present in high concentrations. The effect is temporary.	

6. FIRE HAZARDS 6.1 Flash Point: Data not available 6.2 Flammable Limits in Air: 7-11% 6.3 Fire Extinguishing Agents: Dry chemical, foam, or carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: Toxic and irritating gases are generated in fires. 6.6 Behavior in Fire: Not pertinent 6.7 Ignition Temperature: 912°F 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: (est) 1.29 mm/min	8. TCL

TRICHLOROETHYLENE

Common Synonyms Trichloroethene Trichloroethylene	Physical State Watery liquid Colorless Sweet odor Sinks in water. Irritating vapor is produced.
Fire	Fire Combustible POISONOUS GASES ARE PRODUCED IN FIRE May cause irritation to eyes, nose, throat, and lungs.
Exposure	Exposure VAPOR Irritating to eyes, nose and throat If inhaled, will cause nausea, vomiting, difficult breathing, or loss of consciousness. LIQUID Irritating to skin and eyes If swallowed, will cause nausea, vomiting, difficult breathing, or loss of consciousness. If swallowed, will cause nausea, vomiting, difficult breathing, or loss of consciousness. If inhaled, will cause irritation to eyes, nose, throat, and lungs. If swallowed, will cause irritation to eyes, nose, throat, and lungs. If inhaled, will cause irritation to eyes, nose, throat, and lungs. If swallowed, will cause irritation to eyes, nose, throat, and lungs.
Water Pollution	Water Pollution Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4.) Should be removed. Chemical and physical treatment.	2. LABELS No hazard label required by Code of Federal Regulations.
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Mypsen, Chlorolen, Gemalgene, Threthylene, Trithylene, Tri Trichloran, Trichloroethene, Tri-Clene, Triclene, Trilene, Trilene, Trimar. 3.2 Coast Guard Compatibility Classification: Halogenated hydrocarbon. 3.3 Chemical Formula: C_2HCl_3 3.4 IMCO/United Nations Numerical Designation: 90 1210	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Chloroform like, ethereal
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Organic vapor and gas canister, self-contained breathing apparatus for emergencies; neoprene vinyl gloves, chemical safety goggles, face shield, neoprene safety shoes, neoprene suit or apron for splash protection. 5.2 Symptoms Following Exposure: INHALATION: symptoms range from irritation of the nose and throat to nausea, an attitude of irresponsibility, blurred vision, and finally disturbance of central nervous system resulting in cardiac failure. Chronic exposure may cause organic injury. INGESTION: symptoms similar to inhalation. SKIN: defatting action can cause dermatitis. EYES: ethyl irritant sensation and lacrimation. 5.3 Treatment for Exposure: Do NOT administer adrenaline or epinephrine; get medical attention. In all cases of overexposure, INHALATION: remove victim to fresh air; if necessary, apply artificial respiration and/or administer oxygen. INGESTION: have victim drink water and induce vomiting; repeat three times; then give 1 tablespoon epsom salt in water. EYES: flush thoroughly with water. SKIN: wash thoroughly with soap and warm water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 100 ppm 5.5 Short-Term Inhalation Limits: 200 ppm for 30 min 5.6 Toxicity by Ingestion: Grade 3, LD ₅₀ 500 mg/kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. Toxic effects are temporary. 5.9 Liquid or Solid Irritant Characteristics: Medium hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin. 5.10 Odor Threshold: 50 ppm	

6. TRICHLOROFLUOROMETHANE

Common Synonyms: Freon 11 Geneton 11	Liquid Colorless Odorless Sinks in water. Harmful vapor is produced. Boiling point is 73°F.
Not flammable. Toxic when inhaled. May cause dizziness or difficulty breathing. May irritate eyes, nose, throat, and skin. May cause frostbite if in contact with liquid.	
Fire	Not flammable. POISONOUS GASES MAY BE PRODUCED IN FIRE. Water may be used to extinguish fire.
Exposure	CAUTION: IRRITANT VAPOR If inhaled, will cause dizziness or difficulty breathing. May irritate eyes, nose, throat, and skin. May cause frostbite if in contact with liquid. LIQUID: Not harmful
Water Pollution	Not harmful to aquatic life. May be dangerous if it enters water in lakes. May cause frostbite if in contact with liquid.
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-1. Should be removed. Chemical and physical treatment.	2. LABELS No hazard label required by U.S. Federal Regulations.
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Azeotropic mixture of Freon 11, Freon 12, Freon 113, Geneton 11, Geneton 12, Geneton 113. 3.2 Coast Guard Compatibility Classification: Halogenated hydrocarbon. 3.3 Chemical Formula: CCl ₃ F. 3.4 IMCO United Nations Numerical Designation: Not listed.	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless. 4.3 Odor: Odorless; weak chloroform-like notes.
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Air line respirator or other gloves, goggles, etc. 5.2 Symptoms Following Exposure: Breathing concentrations approaching 10% may cause dizziness and drowsiness. Contact with liquid may cause frostbite. 5.3 Treatment for Exposure: INHALATION: Remove victim from contaminated area and apply artificial respiration if breathing has stopped; call a physician immediately; eye irritation may be relieved by flushing with water. SKIN: If irritation has occurred, flush skin with warm water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not known. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Data not available. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Not irritating. 5.9 Liquid or Solid Irritant Characteristics: May cause frostbite. 5.10 Odor Threshold: Data not available.	

6. FIRE HAZARDS 6.1 Flash Point: Not flammable. 6.2 Flammable Limits in Air: Not flammable. 6.3 Fire Extinguishing Agents: Not pertinent. 6.4 Fire Extinguishing Agents not to be used: Not pertinent. 6.5 Special Hazards of Combustion Products: Produces irritating and toxic products which become more dangerous at high temperatures. 6.6 Behavior in Fire: Not pertinent. 6.7 Ignition Temperature: Not listed in table. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Not flammable.	8. WATER POLLUTION 8.1 Aquatic Toxicity: None. 8.2 Waterfowl Toxicity: None. 8.3 Biological Oxygen Demand (BOD): None. 8.4 Food Chain Concentration Potential: None.
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9. NOTES	

REVISED 1978

TPH

TRICHLOROPHENOL

Common Synonyms: 2,4,6-Tris, Phenoxy Dowicide [®] Pheno-Sol [®]	Solid crystals or flakes Yellow Strong disinfectant odor Insoluble in water
Physical Description: White to yellow crystals or flakes, melting at 112°C (234°F). Insoluble in water.	
Fire	Not flammable
Exposure	Health Hazards: DUST OR SOLID Irritating to eyes, nose, and throat. May cause severe skin irritation. May be harmful if absorbed.
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. May be dangerous if it enters water intakes.
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-4. Issue warning of water contamination. Should be removed by chemical and physical treatment.	2. LABELS No hazard label required by Code of Federal Regulations.
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Dowicide [®] , Oxya, Pheno-Sol [®] , 2,4,6-Tris, Chlorophenol 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: $\text{C}_6\text{H}_3\text{Cl}_3\text{O}$ 3.4 IMCO United Nations Numerical Designation: Not listed	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Colorless to gray 4.3 Odor: Strong disinfectant
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Approved dust respirator for eyes, face, goggles, protective clothing to prevent contact with skin. 5.2 Symptoms Following Exposure: May cause swelling of nose and eye, severe irritation to nose and throat. Solid irritates skin, may produce a rash. 5.3 Treatment for Exposure: INHALATION: Remove to fresh air, get medical attention. EYES: Flush with water for 15 min. SKIN: Get medical attention. SKIN: Wash with soap and water. Irritation may occur. Get medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: 200 mg/kg body weight of Grade 2 LD ₅₀ for rats. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Irritant to nose and throat at normal temperatures. 5.9 Liquid or Solid Irritant Characteristics: May cause severe skin irritation. Prolonged contact with skin causes a slight burn. Does irritate nose and throat. 5.10 Odor Threshold: Data not available.

NOTES

TCS

TRICHLOROSILANE

Common Synonyms Trichlorosilane Silchloroform	Liquid Colorless Sharp choking odor Reacts violently with water. Irritating gas is produced on contact with water. Boiling point is 90°F.
Fire	FLAMMABLE. POISONOUS GASES MAY BE PRODUCED IN FIRE. Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.
Exposure	VAPOR Irritating to eyes, nose and throat. Harmful if inhaled. LIQUID Will burn skin and eyes. Harmful if swallowed.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.
1. RESPONSE TO DISCHARGE <i>See Response Methods Handbook, CG 694-4.</i> Toxic warning: high flammability, corrosive, air contaminant. Restrict access. Evacuate area. Disperse and flush.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonym: Silchloroform, Trichlorosilane. 3.2 Corrosion Compatibility Classification: Not applicable. 3.3 Chemical Formula: SiHCl_3 . 3.4 IMCO/United Nations Numerical Designation: 1 + 1294.	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: colorless. 4.3 Odor: Sharp, choking, like hydrochloric acid.
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Acid vapor eye respiratory protection, rubber gloves, chemical worker's goggles, other protective equipment as necessary to protect skin and eyes. 5.2 Symptoms Following Exposure: Inhalation causes severe irritation of respiratory system. Liquid causes severe burns of eyes and skin. Ingestion causes severe burns of mouth and stomach. 5.3 Treatment for Exposure: INHALATION: remove victim from exposure; if breathing is difficult or stopped, give artificial respiration; all physicians: EYES or SKIN: flush with plenty of water immediately for at least 15 min. and get medical attention. INGESTION: do NOT induce vomiting, give large amount of water, get medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limit: Data not available. 5.6 Toxicity by Ingestion: Grade 2 oral LD_{50} = 1,000 mg/kg rats. 5.7 Lethal Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations. 5.9 Liquid or Solid Irritant Characteristics: Severe skin irritant. Causes second- and third-degree burns on short contact and is very corrosive to the eyes. 5.10 Odor Threshold: Data not available.	

6. FIRE HAZARDS 6.1 Flash Point: -187°F (0°C) -187°F (0°C). 6.2 Flammable Limits in Air: 2% - 80%. 6.3 Fire Extinguishing Agents: Dry chemical, carbon dioxide. 6.4 Fire Extinguishing Agents Not to be Used: Water foam. 6.5 Special Hazards of Combustion Products: Toxic hydrogen chloride and chlorine gases may form in fire. 6.6 Behavior in Fire: Difficult to extinguish; re-ignition may occur. Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back. 6.7 Ignition Temperature: 220°F. 6.8 Electrical Hazard: Data not available. 6.9 Burning Rate: Data not available.	8. WATER POLLUTION 8.1 Aquatic Toxicity: Data not available. 8.2 Waterford Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): None. 8.4 Food Chain Concentration Potential: None.																																				
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts violently to form hydrogen chloride fumes (hydrochloric acid). 7.2 Reactivity with Common Materials: Reacts with surface moisture to form hydrochloric acid, which corrodes common metals and forms flammable hydrogen gas. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Flush with water; rinse with sodium bicarbonate or lime solution. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9. SELECTED MANUFACTURERS 1. Vortex Corp. Chemicals Division 80 Corporate Street Beverly, Mass. 01915. 2. TCT

TRICHLORO-S-TRIAZINETRIONE

Common Synonyms Trichloro-s-triazine 2,4,6- (1H,3H,5H)-trione Trichloro-s-triazine Trichloro-s-triazine, acid Trichloro-s-triazine, anhydrous acid		Solid White Bleach-like odor Sinks and mixes slowly with water
Fire Not flammable May cause fire on contact with combustibles POISONOUS GASES ARE PRODUCED IN FIRE Containers may explode in fire		
Exposure LC50 Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing SOLID Irritating to skin and eyes Harmful if swallowed		
Water Pollution Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Response Management Manual, CG 444-4) Issue warning - washing material water contaminant Restrict access Disperse and flush	2. LABEL 	
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Trichloro-s-triazine, anhydrous acid, Trichloro-s-triazine, acid, Trichloro-s-triazine, anhydrous acid, Trichloro-s-triazine, acid, Trichloro-s-triazine, anhydrous acid, Trichloro-s-triazine, acid, Trichloro-s-triazine, anhydrous acid 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: (Cl ₃ N ₃ O ₃) 3.4 IMCO/United Nations Numerical Designation: 1.1	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: Like chlorine	
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Duct tape or chlorine canister mask, goggles, rubber gloves 5.2 Symptoms Following Exposure: Inhalation causes sneezing and coughing. Contact with dust causes moderate irritation of eyes and itching and redness of skin. Ingestion causes burns of mouth and stomach 5.3 Treatment for Exposure: INHALATION: remove victim to fresh air. EYES: irrigate with running water for 15 min. call physician. SKIN: flush with water. INGESTION: induce vomiting and call physician 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limit: Data not available 5.6 Toxicity by Ingestion: Grade 2, oral LD ₅₀ = 750 mg/kg-rat 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available		

6 FIRE HAZARDS

- 6.1 **Flash Point:** Not flammable, but may cause fire on contact with ordinary combustibles.
- 6.2 **Flammable Limits in Air:** Not pertinent
- 6.3 **Fire Extinguishing Agents:** Water in large amounts
- 6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
- 6.5 **Special Hazards of Combustion Products:** Toxic, chlorine or nitrogen trichloride may be formed in fire
- 6.6 **Behavior in Fire:** Containers may explode when heated
- 6.7 **Ignition Temperature:** Not pertinent
- 6.8 **Electrical Hazards:** Not pertinent
- 6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** Reacts to form bleaching solution. The reaction is not exothermic
- 7.2 **Reactivity with Common Materials:** Contact with most foreign material (organic matter or easily oxidized or oxidized materials) may result in fire. Avoid oil, grease, sand, dust, floor sweepings, other easily oxidized organic compounds
- 7.3 **Stability During Transport:** Stable
- 7.4 **Neutralizing Agents for Acids and Corrosives:** Not pertinent
- 7.5 **Polymerization:** Not pertinent
- 7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

- 8.1 **Aquatic Toxicity:** Data not available
- 8.2 **Waterbody Toxicity:** Data not available
- 8.3 **Biological Oxygen Demand (BOD):** Data not available
- 8.4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

1. FMC Corporation
 Industrial Chemical Division
 623 Third Avenue
 New York, N.Y. 10017
2. Monsanto Co.
 800 N. Lindbergh Avenue and
 St. Louis, Mo. 63166
3. Eastman Kodak Co.
 Eastman Organic Chemicals
 Rochester, N.Y. 14650

10. SHIPPING INFORMATION

- 10.1 **Grade or Purity:** 99-99% available chlorine
- 10.2 **Storage Temperature:** Ambient. Avoid elevated temperatures
- 10.3 **Inert Atmosphere:** No requirement if dry
- 10.4 **Venting:** Pressure vacuum

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Manual, CG 444-3)
 H-S-N

12. HAZARD CLASSIFICATIONS

- 12.1 **Code of Federal Regulations:** Oxidizing material
- 12.2 **HAS Hazard Rating for Bulk Water Transportation:** not listed
- 12.3 **MFPA Hazard Classifications:**
- | Category | Classification |
|--------------------|----------------|
| Health Hazard (H): | 1 |
| Flammability (F): | 0 |
| Reactivity (R): | 2 |

13. PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 **Physical State at 15°C and 1 atm:** Solid
- 13.2 **Molecular Weight:** 212.5
- 13.3 **Boiling Point at 1 atm:** Not pertinent (decomposes)
- 13.4 **Freezing Point:** Not pertinent
- 13.5 **Critical Temperature:** Not pertinent
- 13.6 **Critical Pressure:** Not pertinent
- 13.7 **Specific Gravity:** (at 15°C at 20°C) (solid)
- 13.8 **Liquid Surface Tension:** Not pertinent
- 13.9 **Liquid-Water Interfacial Tension:** Not pertinent
- 13.10 **Vapor (Gas) Specific Gravity:** Not pertinent
- 13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent
- 13.12 **Latent Heat of Vaporization:** Not pertinent
- 13.13 **Heat of Combustion:** Not pertinent
- 13.14 **Heat of Decomposition:** Not pertinent
- 13.15 **Heat of Solution:** Not pertinent
- 13.16 **Heat of Polymerization:** Not pertinent

(continued on pages 1 and 2)

NOTES

TCP

TRICRESYL PHOSPHATE

Common Synonyms: TCP Tri-cresyl phosphate	Liquid Colorless Odorless Sinks in water
See footnotes on page 5 for additional information. Footnote 1: This chemical is not a carcinogen. Footnote 2: This chemical is not a mutagen. Footnote 3: This chemical is not a reproductive toxicant.	
Fire	Combustible Extinguish with dry chemical or carbon dioxide. Water may be used if the fire is not exposed to other fuels.
Exposure	LIQUID Harmful if swallowed. If swallowed, induce vomiting and seek medical attention.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Not suitable for wildlife. Not suitable for water pollution.
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 449.4) Should be removed. Chemical and physical treatment.	2. LABELS No hazard label required by U.S. Federal Regulations.
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: TCP Tri-p-tolyl phosphate Tri-p-cresyl phosphate 3.2 Coast Guard Compatibility Classification: Not applicable. 3.3 Chemical Formula: $(p\text{-CH}_3\text{C}_6\text{H}_4\text{O})_3\text{P}$ 3.4 IMCO/United Nations Numerical Designation: Not listed.	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Odorless
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield. 5.2 Symptoms Following Exposure: Vapors may irritate eyes, but only at high temperatures. Ingestion of liquid may cause severe damage to central nervous system and death if significant amounts of the toxic ortho isomer are present. 5.3 Treatment for Exposure: INGESTION: induce vomiting and call a doctor. EYES: flush with water for at least 15 min. SKIN: wipe off, wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent. 5.5 Short-Term Inhalation Limits: Not pertinent. 5.6 Toxicity by Ingestion: Grade 2. LD ₅₀ 0.5 to 5 g/kg (chicken LD ₅₀ >2 g/kg). 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause a slight stinging of the eyes or respiratory system if present in high concentrations. The effect is temporary. The compound is non-volatile for all practical purposes. 5.9 Liquid or Solid Irritant Characteristics: No appreciable hazard. Practically harmless to the skin. 5.10 Odor Threshold: Not pertinent.	

6. FIRE HAZARDS 6.1 Flash Point: 410°F (C) 6.2 Flammable Limits in Air: Data not available. 6.3 Fire Extinguishing Agents: Foam, dry chemical or carbon dioxide. 6.4 Fire Extinguishing Agents Not to be Used: Water or foam may cause frothing. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: Not pertinent. 6.7 Ignition Temperature: Data not available. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Data not available.	8. WATER POLLUTION 8.1 Aquatic Toxicity: Data not available. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): Data not available. 8.4 Food Chain Concentration Potential: None.
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9. SELECTED MANUFACTURERS 1. ICI Corp. Organic Chemicals Division 633 Third Ave. New York, N.Y. 10012 2. Monsanto Co. Monsanto Industrial Chemicals Co. 809 N. Lindbergh Blvd. St. Louis, Mo. 63166 3. Stauffer Chemical Co. Specialty Chemicals Division Gallipolis Ferry, W. Va. 26535
11. HAZARD ASSESSMENT CODE (See Hazard Assessment Handbook, CG 446.3) N N	10. SHIPPING INFORMATION 10.1 Grades or Purity: Consists primarily of the para isomer, but several commercial grades may contain a significant proportion of tri-ortho-cresyl phosphate. Latter is considerably more toxic than the para isomer if ingested. 10.2 Storage Temperature: Ambient. 10.3 Inert Atmosphere: No requirement. 10.4 Venting: Open flame arrester.
12. HAZARD CLASSIFICATIONS 12.1 Code of Federal Regulations: Not listed. 12.2 HAS Hazard Rating for Bulk Water Transportation: Not listed. 12.3 NFPA Hazard Classifications: Not listed.	13. PHYSICAL AND CHEMICAL PROPERTIES 13.1 Physical State at 15°C and 1 atm: Liquid. 13.2 Molecular Weight: 368. 13.3 Boiling Point at 1 atm: 770°F = 410°C = 683°K. 13.4 Freezing Point: -27°F = -33°C = 240°K. 13.5 Critical Temperature: Not pertinent. 13.6 Critical Pressure: Not pertinent. 13.7 Specific Gravity: 1.16 at 20°C (liquid). 13.8 Liquid Surface Tension: 44 dynes/cm = 0.044 N/m at 25°C. 13.9 Liquid-Water Interfacial Tension: Data not available. 13.10 Vapor (Gas) Specific Gravity: Not pertinent. 13.11 Ratio of Specific Heats of Vapor (Gas): Not pertinent. 13.12 Latent Heat of Vaporization: 130.0 Btu/lb = 44.5 cal/g = 1.86 x 10 ⁵ J/kg. 13.13 Heat of Combustion: Not pertinent. 13.14 Heat of Decomposition: Not pertinent. 13.15 Heat of Solution: Not pertinent. 13.16 Heat of Polymerization: Not pertinent.
NOTES	

(Continued on page 5 of 5)

TRIDECANOL

Common Synonyms 1 Tridecanol Oxodecyl alcohol		Only liquid	Colorless	Mild, pleasant odor
		Floats on water		
Fire	Combustible Flammable with dry chemical, water fog			
Exposure	Not harmful			
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes Not harmful to fish life Not harmful to birds			
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Mechanical containment Should be removed Chemical and physical treatment		2. LABELS No hazard label required by Code of Federal Regulations		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Isotr, Isexanol Isotriaecyl alcohol C-13 Tridecanol 3.2 Coast Guard Compatibility Classification: Alcohol 3.3 Chemical Formula: $C_{13}H_{28}O$ 3.4 IMCO/United Nations Numerical Designation: Not listed		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Mild alcoholic		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Synthetic rubber gloves, chemical goggles 5.2 Symptoms Following Exposure: Inhalation hazard slight. Skin contact results in moderate irritation. Liquid contact with eyes causes severe irritation and possible eye damage. 5.3 Treatment for Exposure: EYES: promptly flush with clean water for at least 15 min. and see a physician. SKIN: wash exposed area with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Vapors are nonirritating to the eyes and throat. 5.9 Liquid or Solid Irritant Characteristics: No appreciable hazard. Practically harmless to the skin. 5.10 Odor Threshold: Data not available

TDC

1-TRIDECENE

Common Synonyms Undecyldecene	Waters liquid Colorless Mild pleasant odor Floats on water
Spontaneous combustion Data not available	
Fire	Combustible Flammable with dry, fine dusts. Not a severe hazard. Water may be ineffective. Use special extinguishers.
Exposure	LIQUID Irritating to eyes. If INGESTED, induce vomiting and dilute with water. If INHALED, remove person to fresh air and give oxygen if needed.
Water Pollution	Effect of low concentrations on aquatic life is unknown. Fouling to shoreline. May be dangerous if it enters water intakes. No acute health and welfare hazard. No long-term health and welfare hazard.
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446.4) Mechanical contaminant. Should be removed. Chemical and physical treatment.	2 LABELS No hazard label required by Code of Federal Regulations.
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Undecyldecene 3.2 Coast Guard Compatibility Classification: Oilfin 3.3 Chemical Formula: $C_{12}H_{24}$ 3.4 IMCO/United Nations Numerical Designation: Not listed	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Mild, pleasant
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles or face shield 5.2 Symptoms Following Exposure: Liquid may irritate eyes. 5.3 Treatment for Exposure: EYES: flush with water for 15 min. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent. 5.5 Short-Term Inhalation Limits: Not pertinent. 5.6 Toxicity by Ingestion: Data not available. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Not volatile. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: Not pertinent.

TAL

TRIETHYLALUMINUM

Common Synonyms TEA Aluminum triethyl ATE	Liquid Colorless IGNITES WHEN EXPOSED TO AIR. Flammable gas is produced on contact with water.
Fire	IGNITES WHEN EXPOSED TO AIR POISONOUS GASES MAY BE PRODUCED IN FIRE DO NOT USE WATER TO EXTINGUISH FIRE. USE DRY CHEMICAL OR HALOGENATED EXTINGUISHING AGENTS.
Exposure	LIQUID Will burn skin and eyes. Harmful if swallowed. DO NOT USE WATER TO EXTINGUISH FIRE. USE DRY CHEMICAL OR HALOGENATED EXTINGUISHING AGENTS. DO NOT INHALE VAPORS.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446.4) Issue warning: high flammability. Restrict access. Evacuate area. Disperse and flush with care.	2. LABELS 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: ATE Aluminum triethyl TEA 3.2 Coast Guard Compatibility Classification: Not applicable. 3.3 Chemical Formula: $(C_2H_5)_3Al$ 3.4 IMCO/United Nations Numerical Designation: 12.1102	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Not pertinent
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Full protective clothing, preferably of aluminized glass cloth; goggles; face shield; gloves. In case of fire, all purpose canister or self contained breathing apparatus. 5.2 Symptoms Following Exposure: Exposure to smoke from fire causes metal fume fever (flu like symptoms). Since liquid ignites spontaneously, contact with eyes or skin causes severe burns. 5.3 Treatment for Exposure: INHALATION: only fume from fire needs be considered; metal fume fever is not critical. Lasting less than 36 hrs. EYES: flush with copious quantities of water for 15 min. with lids held open. Treat burns if fire occurred; get medical attention. SKIN: wash with water; treat burns caused by fire; get medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent 5.5 Short-Term Inhalation Limits: Not pertinent 5.6 Toxicity by Ingestion: Not pertinent; ignites instantly in a 2 inch stream with water. 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Not pertinent 5.9 Liquid or Solid Irritant Characteristics: Severe skin irritant. Causes second and third degree burns on short contact and is very injurious to the eyes. 5.10 Odor Threshold: Not pertinent	

6. FIRE HAZARDS 6.1 Flash Point: Ignites spontaneously in air at all temperatures. 6.2 Flammable Limits in Air: Not pertinent. 6.3 Fire Extinguishing Agents: Inert powders (sand, limestone); dry chemical. 6.4 Fire Extinguishing Agents Not to be Used: Water; foam; halogenated extinguishing agents. 6.5 Special Hazards of Combustion Products: Intense smoke may cause metal fume fever. 6.6 Behavior in Fire: Dense smoke of aluminum oxide forms. Contact with water applied to adjacent fires causes violent reaction producing toxic and flammable gases. 6.7 Ignition Temperature: Not pertinent (self ignites at ambient temperature). 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Not pertinent.	8. WATER POLLUTION 8.1 Aquatic Toxicity: Not pertinent. 8.2 Waterway Toxicity: Not pertinent. 8.3 Biological Oxygen Demand (BOD): Not pertinent. 8.4 Food Chain Concentration Potential: None.																																				
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts violently to form flammable ethane gas. 7.2 Reactivity with Common Materials: No significant reaction. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9. SELECTED MANUFACTURERS 1. Ethyl Corporation Industrial Chemicals Division Ethyl Tower 451 Florida Baton Rouge, La. 70801 2. Texas Alkyls, Incorporated P.O. Box 600 Deer Park, Texas 77536 3. Ventron Corporation Alfa Products P.O. Box 159 Beverly, Mass. 01915																																				
11. HAZARD ASSESSMENT CODE (See Hazard Assessment Handbook, CG 446.3) A-O-Z	10. SHIPPING INFORMATION 10.1 Grades or Purity: 97% to 20% or less by weight in benzene, hexane or heptane. Solutions are non pyrophoric. 10.2 Storage Temperature: Ambient. 10.3 Inert Atmosphere: Inert dry nitrogen at 5 psig. 10.4 Venting: Safety relief with rupture disk.

TEN

TRIETHYLAMINE

Common Synonyms TEN	Watery liquid Colorless Fishy odor Floats on water. Flammable, irritating vapor is produced.
Fire	FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.
Exposure	VAPOR Irritating to eyes, nose and throat. If inhaled, will cause coughing, difficult breathing, or loss of consciousness. LIQUID Will burn skin and eyes. Harmful if swallowed.
Water Pollution	HAZARDOUS TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS Flow to shoreline. May be dangerous if it enters water tanks.
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning - high flammability. Evacuate area. Disperse and flush.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: TEN 3.2 Coast Guard Compatibility Classification: Aliphatic amine 3.3 Chemical Formula: $(C_2H_5)_3N$ 3.4 IMCO/United Nations Numerical Designation: 1.2 1206	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Fishy
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Air supplied mask, goggles or face shield, rubber gloves. 5.2 Symptoms Following Exposure: Vapors irritate nose, throat and lungs, causing coughing, choking and difficult breathing. Contact with eyes causes severe burns. Clothing wet with chemicals causes skin burns. 5.3 Treatment for Exposure: INHALATION: remove victim to fresh air, give artificial respiration if needed, call a doctor. INGESTION: induce vomiting if patient is conscious. EYES: flush with water for at least 30 min; call a doctor. SKIN: flush with water for at least 30 min. 5.4 Toxicity by Inhalation (Threshold Limit Value): 25 ppm 5.5 Short-Term Inhalation Limits: 100 ppm for 30 min 5.6 Toxicity by Ingestion: Grade 3, LD ₅₀ 50 to 900 mg/kg (rat); LD ₅₀ 460 mg/kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Causes smothering of the skin and first degree burns on short exposure; may cause second degree burns on long exposure. 5.10 Odor Threshold: Data not available.	

6. FIRE HAZARDS 6.1 Flash Point: 0°F (0°C) 6.2 Flammable Limits in Air: 1.2 - 8.0% 6.3 Fire Extinguishing Agents: Carbon dioxide or dry chemical for small fires; alcohol foam for large fires. 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: Not pertinent. 6.7 Ignition Temperature: 42°F 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: 6.2 mm/min	8. WATER POLLUTION 8.1 Aquatic Toxicity: 80 ppm 24 hr fish lethal, fresh water. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): Data not available. 8.4 Food Chain Concentration Potential: None.																												
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Dilute with water. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9. TEG

TRIETHYLENE GLYCOL

Common Synonyms: Triethylol	Liquid Colorless Mild odor Sinks and mixes with water
Fire	Combustible
Exposure	Not harmful
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-41 Disperse and flush.	2 LABELS No hazard label required by Code of Federal Regulations.
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Di beta hydroxyethoxyethane; 2,2-Ethylenebis[diethoxyethyl ether]; Triethylene glycol; triethylene glycol ether; HEG; Triglycol. 3.2 Coast Guard Compatibility Classification: Class III 3.3 Chemical Formula: HO(CH ₂ CH ₂ O) ₃ H 3.4 IMCO United Nations Numerical Designation: Not listed.	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Very mild, sweet.
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Goggles, plastic gloves. 5.2 Symptoms Following Exposure: Vapor and liquid are unlikely to cause harm. 5.3 Treatment for Exposure: Flush eyes and skin with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent. 5.5 Short-Term Inhalation Limits: Not pertinent. 5.6 Toxicity by Ingestion: Grade I. LD ₅₀ is 10.5 g/kg (ratine p.o.). 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Vapors are non-irritating to the eyes and throat. 5.9 Liquid or Solid Irritant Characteristics: No appreciable hazard. Practically harmless to the skin. 5.10 Odor Threshold: Not pertinent.	

6 FIRE HAZARDS 6.1 Flash Point: 100°F (38°C) (30°F (0°C)) 6.2 Flammable Limits in Air: 9.4% - 9.2% 6.3 Fire Extinguishing Agents: Alcohol foam; dry chemical; or carbon dioxide. 6.4 Fire Extinguishing Agents Not to be Used: Water or foam may cause frothing. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: Not pertinent. 6.7 Ignition Temperature: 709°F 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: 1.7 mm/min.	8. TET

TRIETHYLENETETRAMINE

Common Synonyms TETA N,N'-Bis(2-aminoethyl)ethylene diamine	Only liquid Light straw to amber Ammoniac odor Floats and mixes with water
Fire	Combustible Flammable liquid Flammable solid
Exposure	LIQUID Will burn skin and eyes Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-41 Dispense and Flush	2. LABELS No hazard label required by Code of Federal Regulations
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: N,N'-Bis(2-aminoethyl)ethylene diamine TETA Trien 3.2 Coast Guard Compatibility Classification: Aliphatic amine 3.3 Chemical Formula: N(CH ₂ CH ₂ CH ₂) ₄ NH ₂ 3.4 IMCO United Nations Numerical Designation: Not listed	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Light straw to amber 4.3 Odor: Ammoniacal
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Amine type canister, goggles or face shield, rubber gloves 5.2 Symptoms Following Exposure: Vapors from hot liquid can irritate eyes and upper respiratory system. Irritation of bare eyes and skin. May cause sensitization of skin. 5.3 Treatment for Exposure: INHALATION: remove victim to fresh air. INGESTION: do NOT induce vomiting, give large quantities of water, give at least one ounce of vinegar in equal amount of water, get medical attention. SKIN: flush with plenty of water. EYES: flush with plenty of water for at least 15 min. and get medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 2 LD ₅₀ Strongly irritant 5.7 Late Toxicity: May cause dermatitis, asthma and other allergic reactions in man 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause moderate irritation to the eyes, nose and throat at high concentrations unpleasant. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Causes smearing of the skin and first degree burns on short exposure, may cause secondary burns on long exposure. 5.10 Odor Threshold: Data not available	

6 FIRE HAZARDS

- 6.1 **Flash Point:** 275°F (135°C) (260°F) (100°C)
 6.2 **Flammable Limits in Air:** Data not available
 6.3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide
 6.4 **Fire Extinguishing Agents Not to be Used:** Water or foam may cause fothing
 6.5 **Special Hazards of Combustion Products:** Not pertinent
 6.6 **Behavior in Fire:** Not pertinent
 6.7 **Ignition Temperature:** 640°F
 6.8 **Electrical Hazard:** Not pertinent
 6.9 **Burning Rate:** Data not available

8. WATER POLLUTION

- 8.1 **Aquatic Toxicity:** Data not available
 8.2 **Waterfowl Toxicity:** Data not available
 8.3 **Biological Oxygen Demand (BOD):** Data not available
 8.4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

1. Dow Chemical Co.
 Midland, Mich. 48040
 2. Jefferson Chemical Co., Inc.
 1100 Richmond Ave.
 Houston, Tex. 77002
 3. Union Carbide Corp.
 Chemicals and Plastics Division
 270 Pease Ave.
 New York, N.Y. 10013

7. CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** No reaction
 7.2 **Reactivity with Common Materials:** No reaction
 7.3 **Stability During Transport:** Stable
 7.4 **Neutralizing Agents for Acids and Caustics:** After dilution with water, can be neutralized with acetic acid
 7.5 **Polymerization:** Not pertinent
 7.6 **Inhibitor of Polymerization:** Not pertinent

10. SHIPPING INFORMATION

- 10.1 **Grades or Purity:** 99+ %
 10.2 **Storage Temperature:** Ambient
 10.3 **Inert Atmosphere:** No requirement
 10.4 **Venting:** None

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 446-3)
 A P Q

12. HAZARD CLASSIFICATIONS

- 12.1 **Code of Federal Regulations:** Not listed
 12.2 **NAS Hazard Rating for Bulk Water Transportation:**
- | Category | Rating |
|--------------------------|--------|
| Fire | 1 |
| Health | |
| Vapor Irritant | 2 |
| Liquid or Solid Irritant | 2 |
| Poisons | 1 |
| Water Pollution | |
| Human Toxicity | 1 |
| Aquatic Toxicity | 1 |
| Acute Toxicity | 1 |
| Reactivity | |
| Other Chemicals | 3 |
| Water | 0 |
| Self Reaction | 0 |
- 12.3 **NFPA Hazard Classifications:** Not listed

13. PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 **Physical State at 15°C and 1 atm:** Liquid
 13.2 **Molecular Weight:** 146.24
 13.3 **Boiling Point at 1 atm:**
 $531.31^\circ\text{F} = 277.4^\circ\text{C} = 550.6^\circ\text{K}$
 13.4 **Freezing Point:** $-31.1^\circ\text{F} = -35^\circ\text{C} = 236^\circ\text{K}$
 13.5 **Critical Temperature:**
 $940.1^\circ\text{F} = 499.5^\circ\text{C} = 772^\circ\text{K}$
 13.6 **Critical Pressure:**
 $470\text{ psia} = 32\text{ atm} = 3.2\text{ MPa}$
 13.7 **Specific Gravity:** 0.982 at 20°C (liquids)
 13.8 **Liquid Surface Tension:** Not pertinent
 13.9 **Liquid-Water Interfacial Tension:** Not pertinent
 13.10 **Vapor (Gas) Specific Gravity:** Not pertinent
 13.11 **Ratio of Specific Heats of Vapor (Gas):** 1.03
 13.12 **Latent Heat of Vaporization:** Not pertinent
 13.13 **Heat of Combustion:** (cal) = 13,500 Btu/lb
 $= 57,540\text{ cal/g} = 241.5 \times 10^3\text{ J/kg}$
 13.14 **Heat of Decomposition:** Not pertinent
 13.15 **Heat of Solution:** (cal) = 13 Btu/lb
 $= 54\text{ cal/g} = 0.228 \times 10^3\text{ J/kg}$
 13.16 **Heat of Polymerization:** Not pertinent

NOTES

TFC

TRIFLUOROCHLOROETHYLENE

Common Synonyms Chlorotrifluoroethylene Trifluoroethyl chloride CTFE Genetron 111B Trifluoroethene, monochloride Kel-F monomer Fluonac monomer	Liquefied compressed gas. Colorless. Odorless or faint odor. Sinks and boils in water. Flammable visible vapor cloud is produced.
Fire	FLAMMABLE-POISONOUS GASES ARE PRODUCED IN FIRE. Containers may explode in fire. Flashback along vapor train may occur. Vapor may explode if ignited in an enclosed area.
Exposure	VAPOR If inhaled will cause dizziness, nausea, or vomiting. LIQUID Will cause frostbite.
Water Pollution	Not harmful to aquatic life.
1. RESPONSE TO DISCHARGE (See Response Procedures Handbook, CG 446.4.) Issue warning - high flammability, air contaminant. Restrict access to vacate area.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Chlorotrifluoroethylene, Kel-F monomer, Fluonac monomer, Trifluoromonomochloroethylene, Trifluoroethyl chloride. 3.2 Coast Guard Competibility Classification: Halogenated compounds (4). 3.3 Chemical Formula: C_2ClF_3 3.4 IMCO/United Nations Numerical Designation: 2.1H6.2	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Compressed liquefied gas. 4.2 Color: Colorless. 4.3 Odor: None (ant chloral).
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Self-contained breathing apparatus, goggles, rubber gloves. 5.2 Symptoms Following Exposure: Inhalation causes dizziness, nausea, vomiting, liver and kidney injury may develop after several hours and cause jaundice and necrosis of the kidney. Contact with liquid causes frostbite of eyes and possibly of skin. 5.3 Treatment for Exposure: Call a physician after all exposures to this compound. It is more toxic than most of the chloro related propellant gases. INHALATION: remove victim to fresh air, enforce bed rest, administer oxygen for 30 min. or over. If for 6 hours, even if no symptoms appear. SKIN: if frostbite has occurred, apply warm water and treat burn. 5.4 Toxicity by Inhalation (Threshold Limit Value): None (suggested). 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Not pertinent (CTFE is a gas at normal temperatures). 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: Data not available.	

6. FIRE HAZARDS 6.1 Flash Point: Not pertinent (gas). 6.2 Flammable Limits in Air: 16% - 34%. 6.3 Fire Extinguishing Agents: Let fire burn, stop gas flow, cool containers with water. 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent. 6.5 Special Hazards of Combustion Products: Toxic hydrogen chloride and hydrogen fluoride gases are formed. 6.6 Behavior in Fire: Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back. Containers may explode in a fire. 6.7 Ignition Temperature: Data not available. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: Not pertinent.	8. WATER POLLUTION 8.1 Aquatic Toxicity: None. 8.2 Waterford Toxicity: None. 8.3 Biological Oxygen Demand (BOD): None. 8.4 Food Chain Concentration Potential: None.								
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: No reaction. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Can occur. 7.6 Inhibitor of Polymerization: Terpenes, Triisobutylene (TIB).	9. SELECTED MANUFACTURERS 1. ICI Company 131 Center Saint Paul, Minn. 55104 2. Matheson Gas Products Co. East Rutherford, N. J. 07073 3. Tubed Chemical Corporation Physics Division Morristown, N. J. 07960								
11. HAZARD ASSESSMENT CODE (See Hazard Assessment Handbook, CG 446.3.) A B C H I J	10. SHIPPING INFORMATION 10.1 Grade or Purity: Polymerization grade 99.9%. 10.2 Storage Temperature: Ambient, not less than 150°F. 10.3 Inert Atmosphere: Air must be excluded. 10.4 Venting: Safety relief.								
12. HAZARD CLASSIFICATIONS 12.1 Code of Federal Regulations: Flammable compressed gas. 12.2 NAS Hazard Rating for Bulk Water Transportation: Not listed. 12.3 NFPA Hazard Classifications: <table data-bbox="898 1444 1142 1530"> <tr> <th>Category</th><th>Classification</th></tr> <tr> <td>Health Hazard (Blue)</td><td></td></tr> <tr> <td>Flammability (Red)</td><td>4</td></tr> <tr> <td>Reactivity (Yellow)</td><td>0</td></tr> </table>	Category	Classification	Health Hazard (Blue)		Flammability (Red)	4	Reactivity (Yellow)	0	13. TRIFLURALIN

Common Synonyms: alpha, alpha, alpha-trifluoro-2, 6-dinitro-N, N-dipropyl-p-toluidine Triflan	Solid Yellow-orange Sinks in water
Fire	Combustible POISONOUS GASES ARE PRODUCED IN FIRE
Exposure	DUST POISONOUS IF INHALED SOLID POISONOUS IF SWALLOWED Irritating to skin and eyes
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 445-4) Issue warning: poison, water contaminant Restrict access Should be removed Chemical and physical treatment	2. LABELS No hazard label required by Code of Federal Regulations
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: 2, 6-Dinitro-N, N-dipropyl 4-trifluoromethylphenyl ether; 2, 6-Dinitro-N, N-dipropyl-alpha, alpha, alpha-trifluorop-toluidine; N, N-Dipropyl 2, 6-dinitro-4-trifluoromethylphenyl ether; Triflan; alpha, alpha, alpha-trifluoro-2, 6-dinitro-N, N-dipropyl-p-toluidine 3.2 Coast Guard Compatibility Classification: Not applicable	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Yellow-orange 4.3 Odor: Data not available
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Protective gloves, goggles, dust mask 5.2 Symptoms Following Exposure: Eyes may irritate eyes. No toxic symptoms have been observed during the manufacture and use of this compound 5.3 Treatment for Exposure: INHALATION: move to fresh air. EYES: wash with running water, call physician if irritation persists. SKIN: wash with soap and running water. INGESTION: induce vomiting, call physician 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 1, oral LD ₅₀ = 500 mg/kg rats 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available

TIA

TRIIISOBUTYLALUMINUM

Common Synonyms TIBA TIBAL Aluminum triisobutyl		Liquid Colorless IGNITES WHEN EXPOSED TO AIR. Flammable gas is produced on contact with water.
Fire IGNITES WHEN EXPOSED TO AIR POISONOUS GASES MAY BE PRODUCED IN FIRE		
Exposure LIQUID Will burn skin and eyes. Harmful if swallowed.		
Water Pollution Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water makes.		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning: high flammability. Restrict access. Evacuate area. Disperse and flush with care.		2. LABELS 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Aluminum triisobutyl TIBA TIBAL 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: $(\text{CH}_3)_2\text{CHAl}$ 3.4 IMCO/United Nations Numerical Designation: 4.2 (19.5)		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Not pertinent
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Full protective clothing, preferably of aluminumized glass cloth; goggles; face shield; gloves. In case of fire, all persons must wear self-contained breathing apparatus. 5.2 Symptoms Following Exposure: Inhalation of smoke from fire causes metal fume fever (flu like symptoms). Contact with liquid can cause severe burns of eyes and skin because of spontaneous ignition. 5.3 Treatment for Exposure: INHALATION: Only fumes from fire need be considered; metal fume fever lasts less than 48 hrs. and is not critical. EYES: flush gently with copious quantities of water for 15 min. while in open; treat burns, if fire occurred; get medical attention. SKIN: wash with water; treat burns caused by fire; get medical attention. INGESTION: Not pertinent. 5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent. 5.5 Short-Term Inhalation Limits: Not pertinent. 5.6 Toxicity by Ingestion: Not pertinent. 5.7 Late Toxicity: Metal fume fever may develop following exposure to smoke from fire. 5.8 Vapor (Gas) Irritant Characteristics: Not pertinent. 5.9 Liquid or Solid Irritant Characteristics: Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes. 5.10 Odor Threshold: Not pertinent.		

6. FIRE HAZARDS 6.1 Flash Point: Not pertinent (not applicable) 6.2 Flammable Limits in Air: Not pertinent 6.3 Fire Extinguishing Agents: Inert powder (e.g., sand, limestone) dry chemical 6.4 Fire Extinguishing Agents Not to be Used: Water, foam, halogenated extinguishing agents 6.5 Special Hazards of Combustion Products: Dense smoke may cause metal fume fever 6.6 Behavior in Fire: Dense smoke of aluminum oxide forms 6.7 Ignition Temperature: Ignites spontaneously under ambient conditions 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent	8. WATER POLLUTION 8.1 Aquatic Toxicity: Not pertinent 8.2 Water-fowl Toxicity: Not pertinent 8.3 Biological Oxygen Demand (BOD): None 8.4 Feed Chain Concentration Potential: None								
7. TMA

TRIMETHYLAMINE

Common Synonyms: Liquefied compressed gas Colorless Fish or ammonia odor Boils and melts and boils on water. Flammable. Flammable vapor/liquid is produced.	
Fire	FLAMMABLE Flashback above vapor limit may occur. Vapor may explode if ignited in an enclosed area.
Exposure	VAPOR POISONOUS IF INHALED Irritating to eyes, nose, and throat. LIQUID Irritates skin and eyes. Harmful if swallowed.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water bodies.
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446.4. 1. Use water spray. Flush thoroughly. 2. Use water spray. Flush thoroughly. 3. Use water spray. Flush thoroughly. 4. Use water spray. Flush thoroughly.	2. LABEL 
3. CHEMICAL DESIGNATIONS 31 Synonym: Trimethylamine 32 Coast Guard Compatibility Classification: Aliphatic amine 33 Chemical Formula: $(CH_3)_3N$ 34 IMCO United Nations Hazardous Designation: 2.3 (toxic)	4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Liquefied compressed gas 42 Color: Colorless 43 Odor: Ammoniacal
5. HEALTH HAZARDS 51 Personal Protective Equipment: Vapor protection and eye protection are required. 52 Symptoms Following Exposure: Vapor irritates eyes, nose, and throat. Liquid irritates skin and eyes. Swallowing liquid may cause severe irritation of the mouth and throat. 53 Treatment for Exposure, INHALATION: Remove victim to fresh air. If breathing is difficult, give artificial respiration. If unconscious, give artificial respiration. If swallowed, give water to drink. If skin is irritated, wash with water and soap. 54 Toxicity by Inhalation (Threshold Limit Value): Data not available. 55 Short-Term Inhalation Limits: Data not available. 56 Toxicity by Ingestion: Data not available. 57 Late Toxicity: Data not available. 58 Vapor (Gas) Irritant Characteristics: Vapor is made irritant by the fact that it penetrates and irritates the respiratory tract. 59 Liquid or Solid Irritant Characteristics: Liquid irritates the skin and eyes. Swallowing liquid may cause severe irritation of the mouth and throat. 510 Odor Threshold: 1.0 ppm (approx.)	

6. FIRE HAZARDS 61 Flash Point: Not pertinent (gas). 62 Flammable Limits in Air: 2.0% - 11.6% 63 Fire Extinguishing Agents: Non-flammable gas. Use water, alcohol, foam, dry chemical, carbon dioxide, or water-soluble foam. 64 Fire Extinguishing Agents Not to be Used: Not pertinent. 65 Special Hazards of Combustion Products: Not pertinent. 66 Behavior in Fire: Vapor is heavier than air and may travel a considerable distance in a search for ignition and flash back. 67 Ignition Temperature: 124°F 68 Electrical Hazard: Not pertinent. 69 Burning Rate: Not pertinent.	8. WATER POLLUTION 81 Aquatic Toxicity: Data not available. 82 Waterfowl Toxicity: Data not available. 83 Biological Oxygen Demand (BOD): Data not available. 84 Food Chain Concentration Potential: None.																																				
7. CHEMICAL REACTIVITY 71 Reactivity with Water: No reaction. 72 Reactivity with Common Materials: No reaction. 73 Stability During Transport: Stable. 74 Neutralizing Agents for Acids and Corrosives: Although a water solution may be neutralized with alkali, rapid evaporation will remove all of the compound. 75 Polymerization: Not pertinent. 76 Inhibitor of Polymerization: Not pertinent.	9. SELECTED MANUFACTURERS 1. Air Products and Chemicals Inc., Allentown, Pa. 18105. 2. Commercial Solvents Corp., 245 Park Ave., New York, N.Y. 10017. 3. Robin and Haas Co., Independence, Mo. 64654. 4. Philadelphia, Pa. 19105.

TRIMETHYLCHLOROSILANE

Common Synonyms Chlorotrimethylsilane Trimethylchlorosilane		Liquid	Colorless	Sharp irritating odor
Reacts violently with water. Irritating gas is produced on contact with water.				
Fire	FLAMMABLE. POISONOUS GASES MAY BE PRODUCED IN FIRE. Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.			
Exposure	VAPOR Irritating to eyes, nose and throat. Harmful if inhaled. LIQUID Will burn skin and eyes. Harmful if swallowed.			
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.			
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 444.4. Issue warning: High flammability. A constant flame is formed. Resist access. Evacuate area. Disperse and flush with water.		2. LABEL 		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Chlorotrimethylsilane Trimethylchlorosilane 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: CH_3SiCl_3 3.4 IMCO/United Nations Numerical Designation: 12.02XX		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Sharp hydrocarbon-like and irritating		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Acid vapor-type respiratory protection, rubber gloves, chemical-resistant goggles, other protective equipment as necessary to protect skin and eyes. 5.2 Symptoms Following Exposure: Irritation of vapor irritates mucous membranes. Contact of liquid with eyes or skin causes severe burns. Ingestion causes severe burns of mouth and stomach. 5.3 Treatment for Exposure: Get medical attention following all exposures to this compound. INHALATION: Remove victim from exposure if breathing is difficult or stopped, give artificial respiration. EYES: Flush with water for 15 min. SKIN: Flush with water. INGESTION: Do NOT induce vomiting; give large amount of water. 5.4 Toxicity by Inhalation (Threshold and Limit Values): Data not available. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade III, Dose 0.1 to 5 g/kg. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause severe irritation of eyes and throat and can cause eye and lung burns. They cannot be tolerated even at low concentrations. 5.9 Liquid or Solid Irritant Characteristics: Severe skin irritant. Causes second- and third-degree burns on short contact and severe exposure to the eyes. 5.10 Odor Threshold: Data not available.				

6. FIRE HAZARDS 6.1 Flash Point: 0°F (0°C) 6.2 Flammable Limits in Air: 1.1-11.1 6.3 Fire Extinguishing Agents: Dry chemical 6.4 Fire Extinguishing Agents Not to be Used: Water foam 6.5 Special Hazards of Combustion Products: Toxic and irritating hydrochloric acid and phosphine may be formed in fires. 6.6 Behavior in Fire: The liquid is extremely combustible. It reacts with water to produce a violent reaction. It reacts with water to produce a violent reaction.	8. WATER POLLUTION 8.1 Aquatic Toxicity: Data not available. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): Data not available. 8.4 Food Chain Concentration Potential: None																												
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts vigorously, including hydrochloric acid, hydrofluoric acid. 7.2 Reactivity with Common Materials: Reacts with surface materials such as hydrogen chloride, which will produce a violent reaction and form a flammable hydrogen gas. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Bases: Flush with water and use with caution. Neutralize with alkali. 7.5 Polymerization: Not pertinent. 7.6 Inhibitor of Polymerization: Not pertinent.	9. SELECTED MANUFACTURERS Dow Corning Corporation P.O. Box 100 Midland, Michigan 48686 Vapor-Sil Corporation 440 West N. Plank Avenue Milwaukee, Wisconsin 53204 Permutene, Inc. P.O. Box 100 Rockland, Maine 04866

Continued on page 2 and 3

Common Synonyms		Liquid	Colorless	Characteristic odor
		May float or sink and mix with water		
Storage/Leakage if possible: • If this substance is not hazardous, it may be disposed of as waste. • No mixtures of this material and pollutants are to be released.				
Fire	Corrosible Extensive contact with liquid may cause severe skin irritation. Water may become flammable. Could expose to irritant gases if released.			
Exposure	LIQUID Not harmful			
Water Pollution	Effect of low concentrations on aquatic life is known. May be dangerous if it enters water intakes. No data available on effects on plants and animals. No data available on effects on birds and fish.			
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Disperse and flush.		2. LABELS No hazard label required by Code of Federal Regulations.		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: No common synonyms. 3.2 Coast Guard Compatibility Classification: miscible. 3.3 Chemical Formula: $\text{HC}(\text{C}_2\text{H}_5\text{O})\text{C}_2\text{H}_5\text{OH}$ 3.4 IMCO/United Nations Numerical Designation: Not listed.		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless. 4.3 Odor: Characteristic.		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Plastic gloves, safety glasses or face shield. 5.2 Symptoms Following Exposure: Non-irritating; no symptoms observed by any exposure route. 5.3 Treatment for Exposure: INGESTION: if large amount is swallowed, induce vomiting, treat symptomatically. EYE or SKIN: flush with water; get medical attention if ill effects develop. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade 2, oral $\text{LD}_{50} = 3,000 \text{ mg/kg/rat}$. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Vapors are nonirritating to eyes and throat. 5.9 Liquid or Solid Irritant Characteristics: No appreciable hazard. Practically harmless to the skin. 5.10 Odor Threshold: Good.				

6 FIRE HAZARD 6.1 Flash Point: 255°F (C) 6.2 Flammable Limits in Air: 0.8% - 8.0% (est.) 6.3 Fire Extinguishing Agents: Alcohols, foam, dry chemical, carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective 6.5 Special Hazards of Combustion Products: Acid fumes of acids and aldehydes may form in fires 6.6 Behavior in Fire 6.7 Ignition Temperature: Data not available 6.8 Electrical Hazard: Data not available 6.9 Burning Rate: Data not available	8 WATER POLLUTION 8.1 Aqueous Toxicity: Data not available 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None																												
7. TPO

TRIS(AZIRIDINYL)PHOSPHINE OXIDE

Common Synonyms APO Tri(1-aziridinyl)phosphine oxide Phosphoric acid triethylen- amide Triethylenephosphoramide		Solid White Mixes with water
1. HAZARD STATEMENTS H 302: Harmful if swallowed H 314: Causes skin irritation H 332: Causes respiratory irritation H 336: May be irritating to the eyes		
Fire	Not flammable. POISONOUS GASES MAY BE PRODUCED WHEN HEATED.	
Exposure	Corrosive to skin and eyes SOLID Irritating to skin and eyes Harmful if swallowed H 302: Harmful if swallowed H 314: Causes skin irritation H 332: Causes respiratory irritation H 336: May be irritating to the eyes	
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes Not recommended for use in water bodies Not recommended for use in water bodies	
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 445.4) Issue warning: corrosive water contaminant Disperse and flush		2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: APO Phosphoric acid triethylenamide Triethylenephosphoramide Tri(1-aziridinyl) phosphine oxide 3.2 Coast Guard Compatibility Classification: Not applicable 3.3 Chemical Formula: (CH₂CH₂N)₃PO or C₆H₁₂N₃PO 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: Data not available
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Protective clothing and gloves to prevent contact with skin goggles 5.2 Symptoms Following Exposure: Inhalation (unless a heavy mist is formed) causes symptoms similar to those observed after ingestion. Contact with liquid or powder causes irritation of eyes and (on prolonged contact) irritation and burns of skin. Burns are slow to develop and slow to heal. May sensitize on repeated contact. Ingestion causes depression, anorexia, and diarrhea appearing 2-3 days before death, followed by terminal dyspnea incoordination epistaxis salivation prostration and convulsions 5.3 Treatment for Exposure: INHALATION: remove victim to fresh air. EYES: flush with water at once for at least 15 min. get medical attention. SKIN: flush with water at once followed by vinegar and dilute hydrogen peroxide. INGESTION: only symptomatic and supportive measures are available 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 4 oral rat LD₅₀ = 37 mg/kg 5.7 Late Toxicity: None observed 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available		

6. FIRE HAZARDS 6.1 Flash Point: Not flammable 6.2 Flammable Limits in Air: Not flammable 6.3 Fire Extinguishing Agents: Not pertinent 6.4 Fire Extinguishing Agents Not to be Used: Not pertinent 6.5 Special Hazards of Combustion Products: Phosphoric acid mist may form in fire Toxic oxides of nitrogen may form 6.6 Behavior in Fire: Data not available 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazard: Data not available 6.9 Burning Rate: Not pertinent	8. WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterfowl Toxicity: 5.5 mg/kg LD₅₀ 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction unless in presence of acids or strong caustics 7.2 Reactivity with Common Materials: Slow decomposition; not considered hazardous 7.3 Stability During Transport: Stable if cool 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent 7.5 Polymerization: Violent polymerization occurs at about 25°F. Acid fumes also cause polymerization at ordinary temperatures 7.6 Inhibitor of Polymerization: None used	9. SELECTED MANUFACTURERS Chemrad Corporation P. O. Box 152 Port Washington, N. Y. 11050
11. HAZARD ASSESSMENT CODE (See Hazard Assessment Handbook, CG 446.3) NS	10. SHIPPING INFORMATION 10.1 Grades or Purity: 85% solution in acetone-methylene chloride 10.2 Storage Temperature: Below 100°F 10.3 Inert Atmosphere: No requirement 10.4 Venting: Open

TURPENTINE

Common Synonyms Spirits of turpentine Turps Gum turpentine Wood turpentine	Waters: liquid Colorless Penetrating, unpleasant odor Floats on water. Irritating vapor is produced.
Fire	FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.
 Exposure	VAPOR Irritating to eyes, nose, and throat. If inhaled, will cause nausea, vomiting, headache, difficult breathing, or loss of consciousness. LIQUID POISONOUS IF SWALLOWED Irritating to skin and eyes.
Water Pollution	Dangerous to aquatic life in high concentrations. Fouling to shoreline. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Mechanical containment. Should be removed. Chemical and physical treatment.	2 LABEL 
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: D.D. turpentine Sulfate turpentine Gum turpentine Turps Spirits of turpentine Wood turpentine 3.2 Coast Guard Compatibility Classification: Olefin 3.3 Chemical Formula: C ₁₀ H ₁₆ 3.4 IMCO/United Nations Numerical Designation: 33.1299	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Aromatic, rather insistent, penetrating.
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: One-piece rubber or neoprene apron, goggles, gloves, and rubber shoes. 5.2 Symptoms Following Exposure: Vapors cause headache, confusion, respiratory distress. Liquid irritates skin. If ingested, irritates the entire digestive system and may cause kidney and liver damage. Causes severe pneumonia. 5.3 Treatment for Exposure: INHALATION: remove victim to fresh air; call doctor; administer artificial respiration and oxygen if required. INGESTION: give water and induce vomiting; call doctor. EYES: flush with water for at least 15 min. SKIN: wipe off; wash with soap and water. 5.4 Toxicity by Inhalation (T₁ threshold Limit Value): 100 ppm 5.5 Short-Term Inhalation Limits: 70 ppm for 30 min 5.6 Toxicity by Ingestion: Grade 2 ED ₀₁ 0.5 to 5 g/kg 5.7 Late Toxicity: None 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause slight stinging of the eyes or respiratory system if present in high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause staining and reddening of the skin. 5.10 Odor Threshold: Data not available.	

6 FIRE HAZARDS 6.1 Flash Point: 95°F (35°C) 6.2 Flammable Limits in Air: 0.5% (LFL) 6.3 Fire Extinguishing Agents: Foam, dry chemical, or carbon dioxide. 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective. 6.5 Special Hazards of Combustion Products: Not pertinent. 6.6 Behavior in Fire: Forms heavy black smoke and soot. 6.7 Ignition Temperature: 488°F 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: 2.4 mm/min.	8. WATER POLLUTION 8.1 Aquatic Toxicity: 100 ppm */fish toxic, fresh water * Time period not specified. 8.2 Waterfowl Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): Data not available. 8.4 Food Chain Concentration Potential: None.

UDC

1-UNDECENE

Common Synonyms n-Nonylethylene	Liquid	Colorless	Mild odor
Floats on water			
Stop discharge if possible. Control dispersion if it is not safe with liquids. Isolate and remove immediately if it is not safe to collect and place in a safe container.			
Fire	Combustible Extinguish with foam, dry chemical, carbon dioxide. Water may be ineffective, use only if fire is exposed to a large area with water.		
Exposure	CALL FOR MEDICAL AID LIQUID Irritating to skin and eyes. Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If contact occurs, wash with plenty of water. If IN EYES, hold eyelids open and flush with plenty of water. If SWALLOWED, do not induce vomiting. Have victim drink water if conscious. DO NOT INDUCE VOMITING.		
Water Pollution	Effect of low concentrations on aquatic life is unknown. Fouling to shoreline. May be dangerous if it enters water or lakes. Notify local health and wildlife officials. Notify personnel of nearby water intakes.		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 44-4) Mechanical containment. Should be removed. Chemical and physical treatment.		2. LABELS No hazard label required by Code of Federal Regulations.	
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: n-Nonylethylene 3.2 Coast Guard Compatibility Classification: Olefin 3.3 Chemical Formula: C ₁₁ H ₂₄ CH ₂ CH ₃ 3.4 IMCO/United Nations Numerical Designation: Not listed		4. (continued on pages 1 and 2)

NOTES

URANYL NITRATE

51 **Personal Protective Equipment:** Dust mask, gloves, goggles

52 **Symptoms Following Exposure:** 1. Accurate inhalation of dust may cause irritation of lungs and delayed symptoms similar to those observed after ingestion. Dust, mucus, eyes and skin and may be absorbed through skin on prolonged exposure. Ingestion causes irritation of mouth and stomach, inflammation of kidneys and liver develops 1 to 4 days after exposure

53 **Treatment for Exposure:** 1. INHALATION: remove victim to fresh air. EYES: flush with water for at least 15 min., see physician if irritation persists. SKIN: wash thoroughly with soap and water. INGESTION: administer large doses of sodium bicarbonate (This will convert the uranium salt to the bicarbonate which is much less toxic). Additional treatment is symptomatic get medical attention

54 **Toxicity by Inhalation (Threshold Limit Value):** .05 mg m⁻³

55 **Short-Term Inhalation Limits:** Data not available

56 **Toxicity by Ingestion:** Grade 1, LD₅₀ 50 to 400 mg/kg

57 **Late Toxicity:** Delayed inflammation of kidneys. Airborne radioactive particles have apparently been responsible for a significantly increased death rate from lung cancer among long term uranium miners

58 **Vapor (Gas) Irritant Characteristics:** Data not available

59 **Liquid or Solid Irritant Characteristics:** Data not available

510 **Odor Threshold:** Not pertinent

NOTES

URS

URANYL SULFATE

Common Synonyms Uranyl sulfate trihydrate Uranium sulfate Uranium sulfate trihydrate		Subd	Yellow	Odorless
		Sinks and mixes with water		
Avoid contact with wind and dust. Keep away from children. May be irritating to the eyes. Avoid contact with discharged material. Avoid contact with polluted water bodies.				
Fire	Not flammable			
Exposure	CALL FOR MEDICAL AID DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. If swallowed, induce vomiting and flush with plenty of water. If swallowed, induce vomiting and flush with plenty of water. If swallowed, induce vomiting and flush with plenty of water. SOLID Irritating to skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush skin with plenty of water. If IN EYES, hold eyelids open, flush with plenty of water. IF SWALLOWED, DO NOT INDUCE VOMITING. Give victim 1 to 2 water orally and have them drink more. IF SWALLOWED, induce vomiting and have them drink more. IF SWALLOWED, induce vomiting and have them drink more.			
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Not toxic to fish and waterfowl. Not toxic to birds and waterfowl.			
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning - water contaminant Restrict access Dispense and flush		2. LABEL 		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Uranium sulfate, Uranium sulfate trihydrate, Uranyl sulfate trihydrate 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: UO2SO4 · 3H2O 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Yellow 4.3 Odor: None		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Approved dust respirator, goggles or face shield, protective clothing 5.2 Symptoms Following Exposure: Inhalation of dust may irritate nose and throat. Contact with eyes causes irritation. 5.3 Treatment for Exposure: Get medical attention after all exposures to this compound. INGESTION: Give large amounts of water, induce vomiting. EYES: Flush with water for at least 15 min. SKIN: Flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 0.2 mg/m ³ (as uranium) 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade I LD50 15 g/kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available				

6. NOTES		

UPO

UREA PEROXIDE

Common Synonyms Urea hydrogen peroxide Hydrogen peroxide carbamide Urea hydrogen peroxide salt Carbamide peroxide Carbonyl diamine peroxide		Solid White Mixes with water	Odorless
Fire	Combustible May cause fire on contact with combustibles POISONOUS GASES MAY BE PRODUCED IN FIRE. Containers may explode in fire		
Exposure	SOLID Irritating to skin and eyes.		
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes		
1 RESPONSE TO DISCHARGE (See Response Methods Handbook CG 446-1) Issue warning oxidizing material Restrict access Disperse and flush		2. LABEL 	
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Carbamide peroxide Carbonyl diamine peroxide Hydrogen peroxide carbamide Percarbamide Polyhydrol Urea, Urea hydrogen peroxide 3.2 Coast Guard Compatibility Classification Not applicable 3.3 Chemical Formula: CO(NH ₂) ₂ H ₂ O 3.4 IMCO/United Nations Numerical Designation: N.E. 1511		4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None	
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Rubber gloves eye protective goggles 5.2 Symptoms Following Exposure: Inhalation of dust causes irritation of nose from hydrogen peroxide formed when heated. Contact with eyes causes severe damage. Contact with moist skin causes temporary stinging or burning sensation. Ingestion causes irritation of mouth and stomach. 5.3 Treatment for Exposure: INHALATION: remove victim from exposure call physician. EYES: wash thoroughly with large quantities of water for at least 15 min. call physician. SKIN: flush with water. INGESTION: give large amounts of water get medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Data not available 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Not pertinent			

6 FIRE HAZARDS

- 6.1 **Flash Point:** Not pertinent (combustible solid, may cause fire upon contact with ordinary combustibles)
- 6.2 **Flammable Limits in Air:** Not pertinent
- 6.3 **Fire Extinguishing Agents:** Inert powders (e.g., sand) and foam water
- 6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
- 6.5 **Special Hazards of Combustion Products:** Irritating anoxic gas may be formed in fire
- 6.6 **Behavior in Fire:** Melts and decomposes giving off oxygen and ammonia. Increases severity of fire. Containers may explode
- 6.7 **Ignition Temperature:** >600 °C
- 6.8 **Electrical Hazard:** Data not available
- 6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** Forms solution of hydrogen peroxide; non-hazardous reaction
- 7.2 **Reactivity with Common Materials:** No significant reaction at ordinary temperatures. At 50 °C (122 °F) reacts with dust and rubbers
- 7.3 **Stability During Transport:** Stable below 60 °C (140 °F)
- 7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
- 7.5 **Polymerization:** Not pertinent
- 7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

- 8.1 **Aquatic Toxicity:** Data not available
- 8.2 **Waterford Toxicity:** Data not available
- 8.3 **Biological Oxygen Demand (BOD):** None
- 8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

1. The Norac Company, Inc.
 405 South Motor Avenue
 P.O. Box 1
 Azusa, Calif. 91702
2. Degussa Incorporated
 Chemicals Division
 2 Pennsylvanian Plaza
 New York, N.Y. 10001
3. Gallard Schlenker Chemical Mfg. Co.
 584 Mincola Avenue
 Carle Place, N.Y. 11514

10 SHIPPING INFORMATION

- 10.1 **Grades or Purity:** 98-100%
- 10.2 **Storage Temperature:** Below 60 °C (140 °F)
- 10.3 **Inert Atmosphere:** No requirement
- 10.4 **Venting:** Open flame arresters

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-3)
 N

12. HAZARD CLASSIFICATIONS

- 12.1 **Code of Federal Regulations:** Organic Peroxide
- 12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed
- 12.3 **NFPA Hazard Classifications:** Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 **Physical State at 15 °C and 1 atm:** Solid
- 13.2 **Molecular Weight:** 94.1
- 13.3 **Boiling Point at 1 atm:** Not pertinent (decomposes)
- 13.4 **Freezing Point:** Not pertinent
- 13.5 **Critical Temperature:** Not pertinent
- 13.6 **Critical Pressure:** Not pertinent
- 13.7 **Specific Gravity:** 0.8 at 20 °C (solid)
- 13.8 **Liquid Surface Tension:** Not pertinent
- 13.9 **Liquid-Water Interfacial Tension:** Not pertinent
- 13.10 **Vapor (Gas) Specific Gravity:** Not pertinent
- 13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent
- 13.12 **Latent Heat of Vaporization:** Not pertinent
- 13.13 **Heat of Combustion:** Data not available
- 13.14 **Heat of Decomposition:** -540 Btu/lb
 = -600 cal/g = -12.5 x 10³ J/kg
- 13.15 **Heat of Solution:** Not pertinent
- 13.16 **Heat of Polymerization:** Not pertinent

(continued on pages 5 and 6)

NOTES

VAL

VALERALDEHYDE

Common Synonyms Amyl aldehyde Valeric aldehyde Pentanal Valeral		Water Solubility Soluble		Odorless Fruity odor																																											
Floats on water. Flammable; irritating vapor is produced.																																															
Fire FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.																																															
Exposure VAPOR Irritating to eyes, nose, and throat. LIQUID Irritating to skin and eyes.																																															
Water Pollution Effect of low concentrations on aquatic life is unknown. Floating to shoreline. May be dangerous if it enters water intakes.																																															
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 444-4. Toxic when in high concentrations. Flammable area. Dispersion advised.			2. LABEL 																																												
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Amyl aldehyde Pentanal Valeral Valeric aldehyde 3.2 Coast Guard Compatibility Classification: NAHNSA 3.3 Chemical Formula: $C_5H_{10}O$ 3.4 IMCO United Nations Numerical Designation: 12.02			4. VOT

VANADIUM OXYTRICHLORIDE

Common Synonyms Vanadyl trichloride Trichlorovanadium Vanadyl chloride	Liquid Lemon yellow Sharp unpleasant odor Sinks and mixes violently with water
Fire	Not flammable
 Exposure	VAPOR Irritating to eyes, nose and throat If inhaled will cause coughing or difficulty breathing LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED Irritating to skin and eyes Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes
1. RESPONSE TO DISCHARGE (See Response Procedures Handbook, CG 446-4) Isopropyl alcohol, acetone or kerosene Restrict access Dispose and track	2. LABEL 
3. CHEMICAL DESIGNATIONS 21 Synonyms: Trichlorovanadium Vanadylchloride Vanadyltrichloride 32 Corrosive Compatibility Classification: Not listed 33 Chemical Formula: VOCI ₃ 34 IMCO/United Nations Numerical Designation: Not listed	4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Liquid 42 Color: Lemon yellow 43 Odor: Acid
5. HEALTH HAZARDS 51 Personal Protective Equipment: Acid vapor mask, rubber gloves, face shield and resistant clothing 52 Symptoms Following Exposure: Inhalation: Vapor causes irritation of nose and throat. Ingestion causes irritation of mouth and stomach. Contact with eyes or skin causes severe irritation. 53 Treatment for Exposure: If in contact with skin after all exposure to this compound, IMMEDIATELY remove to fresh air, give artificial respiration if necessary. INGESTION: Give large amount of water. EYES: Flush with water for 15 min. SKIN: Remove exposed areas free of the chemical with a dry cloth, then flush thoroughly with water. 54 Toxicity by Inhalation (Threshold Limit Value): Data not available 55 Short-Term Inhalation Limits: 1 ppm (TLV) ceiling level. Based on fact that compound decomposes in moist air into vanadic acid and HCl. 56 Toxicity by Ingestion: Grade 1 oral rat LD ₅₀ = 4.0 mg/kg 57 Late Toxicity: Repeated exposures may cause disorientation of long-term use of acetone, anemia, kidney disorders, and blindness. 58 Vapor (Gas) Irritant Characteristics: Data not available 59 Liquid or Solid Irritant Characteristics: Data not available 510 Odor Threshold: 10 ppm (TLV) based on decomposition of compound in moist air	

6. FIRE HAZARDS 61 Flash Point: Not flammable 62 Flammable Limits in Air: Not flammable 63 Fire Extinguishing Agents: Not pertinent 64 Fire Extinguishing Agents Not to be Used: Water, unless in flooding amounts, should not be used on a liquid fire. 65 Special Hazards of Combustion Products: Irritating fumes of hydrogen chloride may form in fires. 66 Behavior in Fire: 67 Ignition Temperature: Not pertinent 68 Electrical Hazard: Not pertinent 69 Burning Rate: Not pertinent	8. WATER POLLUTION 81 Aquatic Toxicity: See vanadic acid 82 Waterflow Toxicity: Data not available 83 Biological Oxygen Demand (BOD): None 84 Food Chain Concentration Potential: Data not available
7. CHEMICAL REACTIVITY 71 Reactivity with Water: Reacts to form a solution of hydrochloric acid 72 Reactivity with Common Materials: In presence of moisture will corrode most metals 73 Stability During Transport: Stable 74 Neutralizing Agents for Acids and Caustics: Flush with water and sprinkle with powdered limestone or mix with dilute solution of sodium bicarbonate or soda ash 75 Polymerization: Not pertinent 76 Inhibitor of Polymerization: Not pertinent	9. VOX

VANADIUM PENTOXIDE

Common Synonyms Vanadic anhydride Vanadium pentoxide		Solid	Yellowish brown	Odorless
		Sinks in water		
Fire		Not flammable Will increase the intensity of a fire		
Exposure		DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. SOLID Irritating to skin and eyes. If swallowed will cause nausea.		
Water Pollution		HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE See Response Methods Manual, CG 404.4 Should be removed Aerial or land physical treatment		2. LABELS No hazard label required by U.S. Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Vanadic anhydride Vanadium pentoxide 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: V ₂ O ₅ 3.4 HSBC/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Yellow-orange powdery; dark gray flakes or yellowish brown 4.3 Odor: None		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: No MOPP approach, operator, helper, packer, picker, or prolonged exposure 5.2 Symptoms Following Exposure: Irritation of dust in eye, nose and throat. Ingestion causes irritation of mouth and stomach. Contact with eyes or skin causes irritation. Eczema may develop. 5.3 Treatment for Exposure: INHALATION: Move to fresh air. Remove clothing. Do not make the person vomit. INGESTION: Induce vomiting. Get medical attention. EYES: Flush with water for at least 15 min. SKIN: Flush with water. Wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 5 mg/m ³ 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 4 oral LD ₅₀ (Toxic Agent Index) 5.7 Late Toxicity: Repeated exposure may cause discoloration of the eye, loss of appetite, anemia, kidney disorders, and fibrosis. 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available				
6. NOTES				

VSF

VANADYL SULFATE

Common Synonyms Vanadium oxydisulfate Vanadyl sulfate dihydrate		Solid	Pale blue	Odorless
Sinks and mixes with water				
Avoid contact with solid and avoid dust. Avoid contact with skin, eyes, nose and mouth. If possible, use proper respiratory protection. Wash thoroughly after use. Do not eat, drink or smoke while using. Notify medical personnel if you are exposed.				
Fire	Not flammable			
Exposure	CAUTION FOR MEDICAL USE DUST: Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. If swallowed will cause nausea or vomiting. If in contact with skin, wash with plenty of water. If in contact with eyes, flush with water for at least 15 minutes. If in contact with clothing, remove clothing and wash with water. If swallowed, do not induce vomiting. If in contact with skin, wash with water. If in contact with eyes, flush with water for at least 15 minutes. If in contact with clothing, remove clothing and wash with water. If swallowed, do not induce vomiting. If in contact with skin, wash with water. If in contact with eyes, flush with water for at least 15 minutes. If in contact with clothing, remove clothing and wash with water. If swallowed, do not induce vomiting.			
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes. Notify personnel if it enters water intakes.			
1. RESPONSE TO DISCHARGE (See Response Measures Handbook CG 446-6) Issue warning: water contaminant Disperse and flush		2. LABELS No hazard label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Vanadium oxydisulfate Vanadyl sulfate dihydrate 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: VOSO ₄ · 2H ₂ O 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Pale blue 4.3 Odor: None		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust mask, goggles or face shield, protective gloves 5.2 Symptoms Following Exposure: Inhalation of dust causes irritation of nose and throat. Ingestion causes irritation of mouth and stomach. Contact with eyes or skin causes irritation. Eczema may develop. (Results of prolonged exposure are described in section 5.7) 5.3 Treatment for Exposure: INHALATION: move to fresh air; if exposure to dust has been severe, get medical attention. INGESTION: give large amount of water; induce vomiting; get medical attention. EYES: flush with water for at least 15 min. SKIN: flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 3, LD ₅₀ 500 mg/kg 5.7 Late Toxicity: Repeated exposures may cause discoloration of tongue, loss of appetite, anemia, kidney disorders, and blindness 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available

VAM

VINYL ACETATE

Common Synonyms VvAc Vinyl monomer	Waters liquid Colorless Pleasant fruity odor Floats on water. Flammable. Irritating vapor is produced.
Step discharge, if possible, keep person away. Shut off the gas, if necessary, and if the fire is not out, avoid contact with liquid and vapor. Stay upwind and use water spray to knock down vapors. If fire and person are discharged, handle as follows: 1. If fire is not out, keep person away.	
Fire	FLAMMABLE Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear goggles and safety glasses when working with liquid and vapor. Extinguish with dry, foaming, or carbon dioxide extinguishers. Do not use water.
Exposure	CONTIFORMAL ACUP VAPOR Irritating to eyes, nose and throat. If inhaled, will cause dizziness or difficult breathing. May cause drowsiness. If inhaled, may cause drowsiness or difficulty breathing. LIQUID Irritating to skin and eyes. Harmful if swallowed or if spilled on skin. Remove clothing if contaminated. Wash with plenty of water. If swallowed, do not induce vomiting.
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS Fouling to shoreline. May be dangerous if it enters water intakes. Notify state and local authorities.
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning of high flammability and contaminant. Evacuate area.	2. LABEL 
3. CHEMICAL DESIGNATIONS 31 Synonyms: VAM Vinyl monomer VvAc 32 Coast Guard Compatibility Classification: Vinyl acetate 33 Chemical Formula: $\text{CH}_3\text{COOCH}=\text{CH}_2$ 34 IMCO United Nations Numerical Designation: 32130	4. OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Liquid 42 Color: Colorless 43 Odor: Not unpleasant, sweet-smell in small quantities; pleasant, fruity characteristic.
5. HEALTH HAZARDS 51 Personal Protective Equipment: Approved canister or air-supplied mask, goggles or face shield, rubber or plastic gloves. 52 Symptoms Following Exposure: High vapor concentrations cause drowsiness. Liquid irritates eyes and may irritate skin. 53 Treatment for Exposure: INHALATION: Remove victim to fresh air, give artificial respiration if required. EYES: Flush with water for at least 15 min. 54 Toxicity by Inhalation (Threshold Limit Value): 10 ppm 55 Short-Term Inhalation Limits: Data not available. 56 Toxicity by Ingestion: Grade 2 (LD ₅₀ 5 to 8 g/kg rat). 57 Late Toxicity: Data not available. 58 Vapor (Gas) Irritant Characteristics: Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary. 59 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause irritation and reddening of the skin. 60 Odor Threshold: 0.12 ppm	

6. FIRE HAZARDS 61 Flash Point: 18°C (64°F) 62 Flammable Limits in Air: 2.6-13.4 63 Fire Extinguishing Agents: Carbon dioxide or dry chemical for small fires; ordinary foam for large fires. 64 Fire Extinguishing Agents Not to be Used: Water may be ineffective. 65 Special Hazards of Combustion Products: Not pertinent. 66 Behavior in Fire: Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back. May polymerize when heated in a fire and rupture container. 67 Ignition Temperature: 500°F 68 Electrical Hazard: Class I, Group I 69 Burning Rate: 35 mm/min	8. WATER POLLUTION 81 Aquatic Toxicity: 18 ppm 96 hr bioassay; 11 mg/l 96 hr water; >100 ppm 48 hr bioassay; 10 mg/l salt water. 82 Waterfowl Toxicity: Data not available. 83 Biological Oxygen Demand (BOD): 62% of theoretical in 5 days, freshwater, acclimated seed. 84 Food Chain Concentration Potential: None.																																				
7. CHEMICAL REACTIVITY 71 Reactivity with Water: No reaction. 72 Reactivity with Common Materials: No reaction. 73 Stability During Transport: Stable. 74 Neutralizing Agents for Acids and Caustics: Not pertinent. 75 Polymerization: Can occur when in contact with peroxides and strong acids, but only under extreme conditions. 76 Inhibitor of Polymerization: 4-5 ppm or 14-17 ppm hydroquinone. Shipments usually also contain 200 ppm of diphenylamine.	9. SELECTED MANUFACTURERS 1 Celanese Corp. Celanese Chemical Co. Division 245 Park Ave. New York, N.Y. 10017 2 National Distillers & Chemical Corp. U.S. Industrial Chemicals Co. Division Houston, Tex. 77001 3 Union Carbide Corp. REVISED 1978

VCM

VINYL CHLORIDE

Common Synonyms Chloroethene VCL Vinyl Chloride Monomer	Liquidified compressed gas Colorless Sweet odor Liquid floats and boils on water. Flammable, irritating, visible vapor cloud is produced.
Fire	FLAMMABLE POISONOUS GAS IS PRODUCED IN FIRE Flashback along vapor trail may occur. May explode if ignited in an enclosed area.
Exposure	VAPOR Irritating to eyes, nose, and throat. If inhaled, will cause dizziness or difficult breathing. LIQUID Will cause frostbite.
Water Pollution	Not harmful to aquatic life.
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446.3) Issue warning: high flammability. Evacuate area.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Chloroethene, Chloroethylene, Vinyl Chloride Monomer, VCL, VCM. 3.2 Coast Guard Compatibility Classification: Vinyl halides. 3.3 Chemical Formula: $\text{CH}_2=\text{CHCl}$. 3.4 IMCO/United Nations Numerical Designation: 201036.	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquidified gas. 4.2 Color: Colorless. 4.3 Odor: Pleasant, sweet.
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Rubber gloves and shoes; gas tight goggles; organic vapor canister or self-contained breathing apparatus. 5.2 Symptoms Following Exposure: INHALATION: high concentrations caused dizziness, anesthesia, lung irritation. SKIN: may cause frostbite; phenol inhibitor may be absorbed through skin if large amounts of liquid evaporate. 5.3 Treatment for Exposure: INHALATION: remove patient to fresh air and keep him quiet and warm; call a doctor; give artificial respiration if breathing stops. EYES AND SKIN: flush with plenty of water for at least 15 min; for eyes seek medical attention; remove contaminated clothing. 5.4 Toxicity by Inhalation (Threshold Limit Value): 200 ppm. 5.5 Short-Term Inhalation Limits: 500 ppm for 5 min. 5.6 Toxicity by Ingestion: Not pertinent. 5.7 Late Toxicity: Chronic exposure may cause liver damage. 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of skin. May cause frostbite. 5.10 Odor Threshold: 200 ppm.	

6 FIRE HAZARDS

- 6.1 **Flash Point:** -110°F (0°C)
 6.2 **Flammable Limits in Air:** 3% - 26%
 6.3 **Fire Extinguishing Agents:** For small fire use dry chemical or carbon dioxide. For large fires stop flow of gas. Cool exposed containers with water.
 6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent.
 6.5 **Special Hazards of Combustion Products:** Forms highly toxic combustion products such as hydrogen chloride, phosgene, and carbon monoxide.
 6.6 **Behavior in Fire:** Container may explode in fire. Gas is heavier than air and may travel considerable distance to a source of ignition and flash back.
 6.7 **Ignition Temperature:** 862°F
 6.8 **Electrical Hazard:** Class I Group D
 6.9 **Burning Rate:** 4.3 mm/min

7. CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** No reaction.
 7.2 **Reactivity with Common Materials:** No reaction.
 7.3 **Stability During Transport:** Stable.
 7.4 **Neutralizing Agents for Acids and Bases:** Not pertinent.
 7.5 **Polymerization:** Polymerizes in presence of air, sunlight or heat unless stabilized by inhibitors.
 7.6 **Inhibitor of Polymerization:** Not normally used, except when high temperatures are expected. Then 40-100 ppm of phenol used.

8 WATER POLLUTION

- 8.1 **Aquatic Toxicity:** None.
 8.2 **Waterway Toxicity:** None.
 8.3 **Biological Oxygen Demand (BOD):** None.
 8.4 **Food Chain Concentration Potential:** None.

9 SELECTED MANUFACTURERS

1. Dow Chemical Co.
 Midland, Mich. 48640
 2. The B. I. Goodrich Co.
 6100 Oak Tree Blvd.
 Cleveland, Ohio 44131
 3. PPG Industries, Inc.
 Chemical Division
 Graysville, Puerto Rico 00656

10. SHIPPING INFORMATION

- 10.1 **Grades or Purity:** Commercial or technical 99.4%
 10.2 **Storage Temperature:** Under pressure ambient.
 At atm. pressure low.
 10.3 **Inert Atmosphere:** No requirement.
 10.4 **Venting:** Under pressure safety relief.
 At atm. pressure pressure-vacuum.

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 446.3)
 ABCDEFGZ

12. HAZARD CLASSIFICATIONS

- 12.1 **Code of Federal Regulations:** Flammable compressed gas.
 12.2 **NAS Hazard Rating for Bulk Water Transportation:**
- | Category | Rating |
|--------------------------|--------|
| Fire | 4 |
| Health | |
| Vapor Irritant | 2 |
| Liquid or Solid Irritant | 1 |
| Poisons | 2 |
| Water Pollution | |
| Human Toxicity | 0 |
| Aquatic Toxicity | 0 |
| Ecotoxic Effect | 0 |
| Reactivity | |
| Other Chemicals | 2 |
| Water | 0 |
| Self Reaction | 2 |
- 12.3 **NFPA Hazard Classifications:**
- | Category | Classification |
|----------------------|----------------|
| Health Hazard (Blue) | 2 |
| Flammability (Red) | 4 |
| Reactivity (Yellow) | 1 |

13. PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 **Physical State at 15°C and 1 atm:** Gas.
 13.2 **Molecular Weight:** 62.50.
 13.3 **Boiling Point at 1 atm:** 72°F = 13°C = 259.4°K .
 13.4 **Freezing Point:** -244.6°F = -153.1°C = -119.4°K .
 13.5 **Critical Temperature:** 317.1°F = 158.4°C = 431.6°K .
 13.6 **Critical Pressure:** 775 psia = 52.7 atm = 5.34 MN/m.
 13.7 **Specific Gravity:** 0.969 at -13°C (liquid).
 13.8 **Liquid Surface Tension:** 16.0 dynes/cm = 0.0160 N/m at 25°C .
 13.9 **Liquid-Water Interfacial Tension:** (est.) 30 dynes/cm = 0.03 N/m at 20°C .
 13.10 **Vapor (Gas) Specific Gravity:** 2.2.
 13.11 **Ratio of Specific Heats of Vapor (Gas):** 1.186.
 13.12 **Latent Heat of Vaporization:** 160 Btu/lb = 88 cal/g = 3.7×10^4 J/kg.
 13.13 **Heat of Combustion:** -8136 Btu/lb = -4520 cal/g = -1891 kJ/kg.
 13.14 **Heat of Decomposition:** Not pertinent.
 13.15 **Heat of Solution:** Not pertinent.
 13.16 **Heat of Polymerization:** -729 Btu/lb = -405 cal/g = -16.9×10^4 J/kg.

(Continued on pages 5 and 6)

NOTES

VINYL FLUORIDE, INHIBITED

Common Synonyms Fluoroethylene Monofluoroethylene	Liquefied compressed gas Colorless Faint odor Floats and boils on water. Flammable visible vapor cloud is produced
Shut off the gas supply. Call fire department. Avoid contact with liquid. Keep people away. Stop discharging. Seal. Stop up with dry water, cover with wet vapor. Extinguish with water, foam or alcohol. Notify fire department. Clean up and dispose.	
Fire	FLAMMABLE. POISONOUS GASES ARE PRODUCED IN FIRE. Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear goggles and self-contained breathing apparatus. Let fire burn. Stop flow of gas if possible. Cool exposed containers with water until removed from fire. Do not extinguish with water.
Exposure	Chloroform is irritant. VAPOR If inhaled will cause headache, or dizziness. May cause frostbite. Irritation of the skin may occur. LIQUID Will cause frostbite. Flow of liquid may cause frostbite on contact. DO NOT RE-BREATHE EXHAUST
Water Pollution	Not harmful to aquatic life
1. RESPONSE TO DISCHARGE (See Response Methods Handbook CG 446.4) Issue warning - high flammability Air contaminant Restrict access Isolate area	2. LABEL

NOTES

VCI

VINYLIDENE CHLORIDE, INHIBITED

Common Synonyms 1,1-Dichloroethylene unsym. Dichloroethylene	Waters: liquid Colorless Sweet odor Sinks in water. Flammable; irritating vapor is produced. Boiling point is 99°F.
Avoid contact with liquid. Keep away from heat and flame. Do not breathe vapor. Do not get liquid on skin or clothes. If on skin, wash with plenty of water. If on clothes, remove and wash separately.	
Fire	FLAMMABLE. POISONOUS GAS IS PRODUCED IN FIRE. Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.
Exposure	VAPOR Irritating to eyes, nose, and throat. If inhaled, will cause dizziness or difficulty breathing. LIQUID Will burn skin and eyes. Harmful if swallowed.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.
1 RESPONSE TO DISCHARGE See Response Methods Handbook (CG 446-3). Issue warning: high flammability. Evacuate area.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: 1,1-Dichloroethylene; unsym. Dichloroethylene. 3.2 Coast Guard Compatibility Classification: Vinyl halides. 3.3 Chemical Formula: $C_2H_2Cl_2$. 3.4 IMCO United Nations Numerical Designation: 311004.	4 OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid. 4.2 Color: Colorless. 4.3 Odor: Sweet, like carbon tetrachloride or chloroform.
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Approved canister or air supply of mask; eye protection; head, rubber gloves and boots. 5.2 Symptoms Following Exposure: Vapor can cause dizziness and drowsiness, headache, nausea, anesthesia. Irritation to eyes and skin. 5.3 Treatment for Exposure: INHALATION: If any illness develops, remove person to fresh air promptly. Keep warm and quiet; do not medical attention if breathing stops, start artificial respiration. INGESTION: Not likely a problem; no known antidote; treat symptomatically. EYES OR SKIN: Flush with plenty of water for at least 15 min; get medical attention for eyes; remove contaminated clothing and wash before reuse. 5.4 Toxicity by Inhalation (Threshold Limit Value): 25 ppm (ceiling). 5.5 Short-Term Inhalation Limit: Data not available. 5.6 Toxicity by Ingestion: Grade 3; Oral LD ₅₀ of rat = 84 mg/kg (adrenalexonomized rat). 5.7 Lave Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Vapor causes irritation of such that persons will find high concentration unpleasant. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Causes stinging; skin of first degree burns on short exposure; may cause secondary to contact exposure. 5.10 Odor Threshold: 10 ppm (as table).	

6 FIRE HAZARDS 6.1 Flash Point: 0°F O.C. 6.2 Flammable Limits in Air: 3.5% - 16.0%. 6.3 Fire Extinguishing Agents: Foam; carbon dioxide; dry chemical. 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective. 6.5 Special Hazards of Combustion Products: Toxic hydrochloride and phosgene are generated in fires. 6.6 Behavior in Fire: May explode in fire due to polymerization. Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back. 6.7 Ignition Temperature: 988 - 1031°F. 6.8 Electrical Hazard: Not pertinent. 6.9 Burning Rate: 2" per min.	8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available. 8.2 Waterflow Toxicity: Data not available. 8.3 Biological Oxygen Demand (BOD): Data not available. 8.4 Food Chain Concentration Potential: None.																																				
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction. 7.2 Reactivity with Common Materials: Copper and aluminum can cause polymerization. 7.3 Stability During Transport: Stable. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent. 7.5 Polymerization: Can occur if exposed to sunlight, air, copper, aluminum, heat. 7.6 Inhibitor of Polymerization: 200 ppm ethyl ether of hydroquinone (0.005% solution).	9 SELECTED MANUFACTURERS 1. Dow Chemical Co. Midland, Mich. 48640 2. PPG Industries, Inc. Industrial Chemicals Division Gateway Center Pittsburgh, Pa. 15222 3. Vulcan Materials Co. REVISED 1978

VME

VINYL METHYL ETHER, INHIBITED

Common Synonyms: Methyl vinyl ether Methoxyethylene	Liquidified compressed gas. Colorless. Sweet pleasant odor. Floats and may boil on water. Boiling point is 54°F.
Fire	FLAMMABLE Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. (continued on page 2)
Exposure	VAPOR Irritating to eyes, nose and throat. If inhaled will cause headache, dizziness, or loss of consciousness. LIQUID Irritating to eyes. Will cause frostbite. Harmful if swallowed. (continued on page 2)
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.
1. RESPONSE TO DISCHARGE See Response Manual Handbook, CG 445-4. Issue warning: high flammability, air contaminant. Restrict access. Evacuate area.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Methoxyethylene, Methyl vinyl ether. 3.2 Coast Guard Compatibility Classification: Not applicable. 3.3 Chemical Formula: $CH_2=CH-O-CH_3$. 3.4 IMCO/United Nations Numerical Designation: 2108.	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquidified compressed gas. 4.2 Color: Colorless. 4.3 Odor: Sweet, pleasant.
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Organic vapor mask, plastic or rubber gloves, safety glasses. 5.2 Symptoms Following Exposure: Inhalation cause irritation, blurring of vision, headache, dizziness, irritation, loss of consciousness. Liquid or concentrated vapor irritates eyes and cause frostbite of skin. Aspiration of the liquid will cause chemical pneumonitis. 5.3 Treatment for Exposure, INHALATION: remove victim to fresh air. Breathing is difficult, administer oxygen, call physician. EYES: wash with copious quantities of water, consult an eye specialist. SKIN: wash with copious quantities of water, treat frostbite by use of warm water or blanching. INGESTION: do NOT induce vomit, get medical attention. 5.4 Toxicity by Inhalation (Threshold Limit value): Data not available. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade 2 LD ₅₀ is 5 g/kg. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: Data not available.	

6. FIRE HAZARDS

- 6.1 Flash Point: -69°F (-55°C).
 6.2 Flammable Limits in Air: 2.6% - 19%.
 6.3 Fire Extinguishing Agents: Let fire burn, shut off gas flow, extinguish small fires with dry chemical or carbon dioxide.
 6.4 Fire Extinguishing Agents Not to be Used: Water may be ineffective.
 6.5 Special Hazards of Combustion Products: Not pertinent.
 6.6 Behavior in Fire: Containers may explode. Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back.
 6.7 Ignition Temperature: Data not available.
 6.8 Electrical Hazard: Data not available.
 6.9 Burning Rate: Not pertinent.

7. CHEMICAL REACTIVITY

- 7.1 Reactivity with Water: Reacts slowly to form acetaldehyde; reaction is not hazardous unless water is hot or acids are present.
 7.2 Reactivity with Common Materials: Acids will cause polymerization.
 7.3 Stability During Transport: Stable if kept free from acids.
 7.4 Neutralizing Agents for Acids and Cautistics: Not pertinent.
 7.5 Polymerization: Can polymerize in the presence of acids.
 7.6 Inhibitor of Polymerization: Diethylamine, triethanolamine, solid potassium hydroxide.

8. WATER POLLUTION

- 8.1 Aquatic Toxicity: Data not available.
 8.2 Waterfowl Toxicity: Data not available.
 8.3 Biological Oxygen Demand (BOD): Data not available.
 8.4 Food Chain Concentration Potential: None.

9. SELECTED MANUFACTURERS

1. GAI Corporation
 140 West 54th Street
 New York, N.Y. 10020.
 2. Union Carbide Corporation
 Chemicals and Plastics Division
 270 Park Avenue
 New York, N.Y. 10017.
 3. Matheson Gas Products Co.
 East Rutherford, N.J. 07073.

10. SHIPPING INFORMATION

- 10.1 Grades or Purity: 99.7%+.
 10.2 Storage Temperature: Ambient.
 10.3 Inert Atmosphere: No requirement.
 10.4 Venting: Safety relief.

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 445-3)
 ABCDEFG

12. HAZARD CLASSIFICATIONS

- 12.1 Code of Federal Regulations: Flammable compressed gas.
 12.2 HAS Hazard Rating for Bulk Water Transportation: Not listed.
 12.3 NFPA Hazard Classifications:
- | Category | Classification |
|----------------------|----------------|
| Health Hazard (Blue) | |
| Flammability (Red) | 4 |
| Reactivity (Yellow) | 2 |

13. PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 Physical State at 15°C and 1 atm: Gas.
 13.2 Molecular Weight: 58.1.
 13.3 Boiling Point at 1 atm: 41.8°F = 5.5°C = 278.7°K.
 13.4 Freezing Point: -188.1° = -122°C = 151°K.
 13.5 Critical Temperature: Not pertinent.
 13.6 Critical Pressure: Not pertinent.
 13.7 Specific Gravity: 0.777 at 0°C (liquid).
 13.8 Liquid Surface Tension, (cent): 10 dynes/cm = 0.010 N/m at 0°C.
 13.9 Liquid-Water Interfacial Tension, (cent): 25 dynes/cm = 0.025 N/m at 0°C.
 13.10 Vapor (Gas) Specific Gravity: 2.0.
 13.11 Ratio of Specific Heats of Vapor (Gas): (cp/cv) 1.1473.
 13.12 Latent Heat of Vaporization: (cent) 110 Btu/lb = 100 cal/g = 4.2 x 10³ J/kg.
 13.13 Heat of Combustion: (cent) -14,200 Btu/lb = -7,900 cal/g = -33 x 10³ J/kg.
 13.14 Heat of Decomposition: Not pertinent.
 13.15 Heat of Solution: Not pertinent.
 13.16 Heat of Polymerization: Data not available.

NOTES

VNT

VINYL TOLUENE

Common Synonyms p-Methylstyrene	Waters: liquid Colorless Unpleasant odor Floats on water
1. Physical Description 2. Physical Properties 3. Chemical Properties	
Fire	Combustible Containers may explode in fire Waxes, greases, oils, etc. Extinguish with water spray or foam Do not use alcohol, acetone, or other flammable solvents
Exposure	CAUTION: MEDICAL USE ONLY LIQUID Irritating to skin and eyes Harmful if swallowed Respiratory irritant Inhalation: Irritation of the respiratory tract Ingestion: Irritation of the gastrointestinal tract Skin Contact: Irritation of the skin Eye Contact: Irritation of the eyes
Water Pollution	Effect of low concentrations on aquatic life is unknown Floating to shoreline May be dangerous if it enters water intakes Not biodegradable Not readily metabolized
1 RESPONSE TO DISCHARGE See Response Methods Handbook, CG 44-1 Mechanical containment Should be removed Chemical and physical treatment	2 LABELS No hazard label required by Code of Federal Regulations
3 CHEMICAL DESIGNATIONS 31 Synonyms: Methylstyrene 32 Coast Guard Compatibility Classification Olefin 33 Chemical Formula: $\text{CH}_2=\text{CH}(\text{CH}_3)$ 34 IMCO United Nations Numerical Designation: Not listed	4 OBSERVABLE CHARACTERISTICS 41 Physical State (as shipped): Liquid 42 Color: Colorless 43 Odor: Disagreeable
5 HEALTH HAZARDS 51 Personal Protective Equipment: A respirator and suitable gloves should be worn when handling this material. 52 Symptoms Following Exposure: Vapors irritate the eyes, nose, and throat. High concentrations of vapors cause dizziness and headache. Liquid may cause skin irritation. 53 Treatment for Exposure: INHALATION: Remove person to fresh air. Give artificial respiration if breathing is stopped. If swallowed, DO NOT induce vomiting. If known or suspected ingestion, give 1-2 glasses of water. If skin contact, wash with soap and water. 54 Toxicity by Inhalation (Threshold Limit Value): 100 ppm 55 Short-Term Inhalation Limits: 400 ppm (15 min) 56 Toxicity by Ingestion: Grade 2 LD₅₀ 1.5 g/kg (rat) 57 Late Toxicity: Data not available 58 Vapor (Gas) Irritant Characteristics: Vapors cause moderate irritation of the eyes and throat. High concentrations are unpleasant. The liquid is corrosive. 59 Liquid or Solid Irritant Characteristics: Minimum hazard. Irritation of the skin and eyes. 60 Odor Threshold: 50 ppm	

6 FIRE HAZARDS 61 Flash Point: 117 F (42 C) (25 F C) 62 Flammable Limits in Air: 6.8 - 11 63 Fire Extinguishing Agents: Water, foam, carbon dioxide, or dry chemical 64 Fire Extinguishing Agents Not to be Used: Not pertinent 65 Special Hazards of Combustion Products: Not pertinent 66 Behavior in Fire: Containers may explode or rupture in a fire due to polymerization 67 Ignition Temperature: 742 F 68 Electrical Hazard: Not pertinent 69 Burning Rate: 1.0 in/min	8 WATER POLLUTION 81 Aquatic Toxicity: Data not available 82 Waterfowl Toxicity: Data not available 83 Biological Oxygen Demand (BOD): Data not available 84 Food Chain Concentration Potential: None																																				
7 CHEMICAL REACTIVITY 71 Reactivity with Water: No reaction 72 Reactivity with Common Materials: No reaction 73 Stability During Transport: Stable 74 Neutralizing Agents for Acids and Caustics: Not pertinent 75 Polymerization: Slow at room temperature but will polymerize rapidly when heated. Also polymerized by metal salts such as those of iron or aluminum 76 Inhibitor of Polymerization: 100 ppm tertiary butylcatechol	9 SELECTED MANUFACTURERS 1. Borden Inc. Borden Chemical Division 80 W. VINYLTRICHLOROSILANE

Common Synonyms Trichlorovinylsilane Trichlorovinylsilane Trichlorovinylsilane	Liquid Colorless to light yellow Sharp choking odor Reacts violently with water. Irritating gas is produced on contact with water.
Fire	FLAMMABLE POISONOUS GASES MAY BE PRODUCED IN FIRE Containers may explode in fire Flashback along vapor trail may occur Vapor may explode if ignited in an enclosed area Toxic, chloro and phosphoric gases may be formed in fire
Exposure	VAPOR Irritating to eyes, nose and throat Harmful if inhaled LIQUID Will burn skin and eyes Harmful if swallowed May cause severe skin irritation May cause severe eye irritation May cause severe respiratory irritation May cause severe gastrointestinal irritation May cause severe neurological irritation May cause severe reproductive irritation May cause severe developmental irritation May cause severe immunological irritation May cause severe carcinogenic irritation May cause severe mutagenic irritation May cause severe teratogenic irritation May cause severe fetotoxic irritation May cause severe lactotoxic irritation May cause severe reproductive irritation May cause severe developmental irritation May cause severe immunological irritation May cause severe carcinogenic irritation May cause severe mutagenic irritation May cause severe teratogenic irritation May cause severe fetotoxic irritation May cause severe lactotoxic irritation
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 445-1) Issue warning: High flammability containing air contaminant Restrict access Dispense as flush with care	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Trichlorovinylsilane Trichlorovinylsilane Trichlorovinylsilane 3.2 Coast Guard Competibility Classification: Not applicable 3.3 Chemical Formula: CH ₂ =CHSiCl ₃ 3.4 IMCO/United Nations Numerical Designation: 2.1 (Flam)	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless to pale yellow 4.3 Odor: Sharp, choking, like hydrochloric acid
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Avoid vapor type respiratory protection; rubber gloves; chemical worker's goggles; other protective equipment as necessary to protect skin and eyes. 5.2 Symptoms Following Exposure: Inhalation causes irritation of mucous membranes. Vapor irritates eyes. Contact with liquid causes severe burns of eyes and skin. Ingestion causes burns of mouth and stomach. 5.3 Treatment for Exposure: Get medical attention following all exposures to this compound. INHALATION: Remove victim from exposure; give artificial respiration if required. EYES: Flush with water for 15 min. SKIN: Flush with water. INGESTION: Do NOT induce vomiting; give large amount of water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion, Grade 2 oral LD₅₀: 2.0 g/kg (approx) 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations. 5.9 Liquid or Solid Irritant Characteristics: Severe skin irritant. Causes second- and third-degree burns on short contact and causes irritation of the eyes. 5.10 Odor Threshold: Data not available	

6. FIRE HAZARDS 6.1 Flash Point: 60 F (15.6 C) 6.2 Flammable Limits in Air: 3.1 (LFL) 6.3 Fire Extinguishing Agents: Dry chemical, carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: Water, foam 6.5 Special Hazards of Combustion Products: Toxic, chloro and phosphoric gases may be formed in fire 6.6 Behavior in Fire: Difficult to extinguish; reignition may occur. Contact with water applied to adjacent fires produces irritating hydrogen chloride gas. 6.7 Ignition Temperature: 541 F 6.8 Electrical Hazard: Data not available 6.9 Burning Rate: 2.4 mm/min	8. WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: None																												
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts vigorously, evolving hydrogen chloride (hydrochloric acid) 7.2 Reactivity with Common Materials: Reacts with surface moisture to evolve hydrogen chloride, which will corrode certain metals and form flammable hydrogen gas. 7.3 Stability During Transport: Stable if protected from moisture 7.4 Neutralizing Agents for Acids and Caustics: Flush with water; rinse with sodium bicarbonate or lime solution 7.5 Polymerization: May occur in absence of inhibitor 7.6 Inhibitor of Polymerization: Diphenylamine, Hydroquinone	9. SELECTED MANUFACTURERS 1. Union Carbide Corp. Chemicals and Plastics Division 270 Park Avenue New York, N.Y. 10017 2. Dow Corning Corporation P.O. Box 902 Midland, Mich. 48640 3. NOTES	

REVISED 1978

XLM

m-XYLENE

Common Synonyms 1,3-Dimethylbenzene Xylene	Waters: liquid Colorless Sweet odor Floats on water. Flammable, irritating vapor is produced.
	FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.
Exposure	VAPOR Irritating to eyes, nose, and throat. If inhaled, will cause headache, difficult breathing, or loss of consciousness. LIQUID Irritating to skin and eyes. If swallowed, will cause nausea, vomiting, or loss of consciousness.
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes.
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 444-4. 1. Use water, high foam, or other suitable extinguishing agent. 2. Do not use water directly on liquid.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: m-Dimethylbenzene Xylene 3.2 Coast Guard Compatibility Classification: Aromatic Hydrocarbon 3.3 Chemical Formula: C ₈ H ₁₀ 3.4 MCO United Nations Numerical Designation: 1202	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Pungent, characteristic
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Air respirator, eye protection, gloves, and full-body protective suit. 5.2 Symptoms Following Exposure: Vapor causes headache and dizziness. Liquid irritates eyes and skin. Ingestion causes severe burning. Liquid can trap and develop pulmonary edema. Ingestion causes nausea, vomiting, headache, and loss of consciousness. Kidneys and liver damage can occur. 5.3 Treatment for Exposure: INHALATION: Remove to fresh air. If breathing is difficult, give oxygen. If unconscious, give artificial respiration. EYES: Flush with water for 15 minutes. SKIN: Wash with soap and water. If absorbed, give medical attention. 5.4 Toxicity by Inhalation (Threshold Limit Value): 100 ppm 5.5 Short-Term Inhalation Limits: 100 ppm (15 min) 5.6 Toxicity by Ingestion: Grade 3 (LD ₅₀ 1.5 g/kg) 5.7 Late Toxicity: Kidney and liver damage 5.8 Vapor (Gas) Irritant Characteristics: Vapor causes irritation to eyes, nose, and throat. Liquid causes irritation to skin. 5.9 Liquid or Solid Irritant Characteristics: May irritate eyes, nose, and throat. Liquid causes irritation to skin. 5.10 Odor Threshold: 0.01 ppm	

6. FIRE HAZARDS 6.1 Flash Point: 42°C (108°F) 6.2 Flammable Limits in Air: 1.1% to 7.4% 6.3 Fire Extinguishing Agents: Water, foam, carbon dioxide 6.4 Fire Extinguishing Agents Not to be Used: None 6.5 Special Hazards of Combustion Products: None 6.6 Behavior in Fire: Vapor may flash back along trail. Liquid may pool and burn. 6.7 Ignition Temperature: 460°C (850°F) 6.8 Electrical Hazard: Class II, III, IV 6.9 Burning Rate: None	8. WATER POLLUTION 8.1 Aquatic Toxicity: 20 mg/L (200 ppm) in water 8.2 Waterlow Toxicity: 100 mg/L in water 8.3 Biological Oxygen Demand (BOD): 100 mg/L in water 8.4 Food Chain Concentration Potential: 100 mg/L in water

XLO

o-XYLENE

Chemical Synonyms 1,2-Dimethylbenzene Xylene	Water: liquid Colorless Sweet odor Fluats on water. Flammable; irritating vapor is produced.
Fire	FLAMMABLE Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.
Exposure	VAPOR Irritating to eyes, nose and throat. If inhaled, will cause headache, difficult breathing, or loss of consciousness. LIQUID Irritating to skin and eyes. If swallowed, will cause nausea, vomiting, or loss of consciousness.
Water Pollution	Dangerous to aquatic life in high concentrations. Fouling to shoreline. May be dangerous if it enters water intakes.
1. RESPONSE TO DISCHARGE (See Resource Inventory Management, CG 446-4) Toxic warning: high flammability. Evacuate area. Should be removed. Chemical and physical treatment.	2. LABEL 
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: 1,2-Dimethylbenzene 3.2 Coast Guard Compatibility Classification: Ammoniacal hydrocarbon 3.3 Chemical Formula: C_8H_{10} 3.4 HMCO/United Nations Numerical Designation: 1.2+107	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: colorless 4.3 Odor: Benzene-like characteristic, aromatic.
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: approved canister or air supplied mask, goggles or face shield, plastic gloves and boots. 5.2 Symptoms Following Exposure: Vapors cause headache and dizziness. Liquid irritates eyes and skin. If taken into lungs, causes severe coughing, distress, and rapidly developing pulmonary edema. If inhaled, causes nausea, vomiting, cramps, headache and coma. Can be fatal. Kidney and liver damage can occur. 5.3 Treatment for Exposure: INHALATION: remove to fresh air, administer artificial respiration and oxygen if required, call a doctor. INGESTION: DO NOT induce vomiting, call a doctor. EYES: flush with water, or irrigate for 15 min. SKIN: wipe off, flush with soap and water. 5.4 Toxicity by Inhalation (TLV, threshold Limit Value): 100 ppm 5.5 Short-Term Inhalation Limits: 300 ppm for 30 min 5.6 Toxicity by Ingestion: Grade 3 LD ₅₀ 50 to 400 mg/kg 5.7 Late Toxicity: kidney and liver damage. 5.8 Vapor (Gas) Irritant Characteristics: Vapor causes slight smarting in the eyes and respiratory system if present in high concentrations. The effect is temporary. 5.9 Liquid or Solid Irritant Characteristics: Minimum hazard. If spilled on clothing and allowed to remain, may cause staining and reddening of the skin. 5.10 Odor Threshold: 0	

6. 5 HEALTH HAZARDS (Cont'd) Acute and subacute toxicity studies with the powder followed by dermal irritation in rats were conducted with powder of product. Irritation did not follow immediately, gave mild irritation, such as, "highly irritating to glass of water" or "irritation to skin of throat". Repeat procedure and irritation of eye of rat under same conditions should be left to develop after routine heavy pulsed ultrasonic waves. 5.1 Toxicity by Inhalation (Threshold Limit Value): 4 mg/m³ 5.2 Short Term Inhalation Limits: 11.1 mg/m³ for 15 min 5.3 Toxicity by Ingestion: Data not available 5.4 Skin Toxicity: Data not available 5.5 Vapor (Gas) Irritant Characteristics: Data not available 5.6 Liquid or Solid Irritant Characteristics: Data not available 5.7 Odor Threshold: Data not available									

ZNA

ZINC ACETATE

Common Synonyms Zinc acetate dihydrate Dicarbomethoxy zinc Zinc diacetate Acetic acid zinc salt		Solid White Faint vinegar odor Sinks and mixes with water
Notes: 1. Not flammable with solid form but flammable as a gas. 2. Not a severe irritant but may cause irritation if inhaled. 3. Not a severe irritant but may cause irritation if swallowed.		
Fire	Not flammable	
Exposure	ALL FOR MEDICAL USE: DUST: Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. If swallowed will cause nausea and vomiting. SOLID: Irritating to skin and eyes. If swallowed will cause nausea and vomiting. REMARKS: 1. Not a severe irritant but may cause irritation if inhaled. 2. Not a severe irritant but may cause irritation if swallowed. 3. Not a severe irritant but may cause irritation if inhaled.	
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. May be dangerous if it enters water intakes. Not a severe irritant but may cause irritation if inhaled.	
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Disperse and flush		2. LABELS No hazard label required by Code of Federal Regulations
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Acetic acid zinc salt; Dicarbomethoxy zinc; Zinc acetate dihydrate; Zinc diacetate 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $Zn(C_2H_3O_2)_2$ or $Zn(C_2H_3O_2)_2 \cdot 2H_2O$ 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: Faint acetic acid
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Bu. Mines approved respirator; rubber gloves; chemical goggles 5.2 Symptoms Following Exposure: Inhalation causes mild irritation of nose and throat; coughing and sneezing. Ingestion can cause irritation or corrosion of the alimentary tract, resulting in vomiting. Contact with dust causes irritation of eyes and mild irritation of skin. 5.3 Treatment for Exposure: INHALATION: move to fresh air; if exposure is severe, get medical attention. INGESTION: induce vomiting, followed by prompt and complete gastric lavage with water. EYES: flush with water for at least 10 min.; consult physician if irritation persists. SKIN: wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: $GL_{LD} 2,1 \text{ Dg } 0.5 \text{ g/kg}$ 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available

ZAC

ZINC AMMONIUM CHLORIDE

Common Synonyms Ammonium perchlorozincate Ammonium zinc chloride	Solid White Odorless Smks and mixes with water.
Avoid contact with solid and dust. Keep skin away. Stay in fume hood if possible. In fume hood, avoid direct contact with material. Notify local air pollution agency if released.	
Fire	Not flammable
Exposure	CALL FOR MEDICAL AID DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. If exposed to dust, clothing and flush with plenty of water. If on skin, flush with plenty of water. If in eyes, hold open, flush with plenty of water. SOLID Irritating to skin and eyes. If swallowed will cause nausea and vomiting. Remove contact lenses. Follow with water. Flush affected area with plenty of water. If in eyes, hold open, flush with plenty of water. If SWALLOWED and victim is CONSCIOUS, have victim drink water or milk. If SWALLOWED and victim is UNCONSCIOUS, DO NOT HAVE NO CONVICTIONS. Do not induce vomiting.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local pollution control agency. Notify local health department if water intakes.
1 RESPONSE TO DISCHARGE (See Response Method Handbook CG 446-1) Dilute and flush.	2 LABELS No hazard label required by Code of Federal Regulations.
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Ammonium perchlorozincate; Ammonium zinc chloride 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $ZnCl_2 \cdot 3NH_4Cl$ 3.4 IMCO/United Nations Numerical Designation: Not listed	4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust mask, goggles or face shield, protective gloves. 5.2 Symptoms Following Exposure: Inhalation: Dust irritates nose and throat. Ingestion: can cause irritation or corrosion of the alimentary tract. Contact with eyes or skin causes irritation. 5.3 Treatment for Exposure: INHALATION: Remove from exposure, begin artificial respiration if breathing has ceased. INGESTION: induce vomiting, followed by prompt and complete gastric lavage, cathartics and demulcents. EYES: flush with water for at least 15 min. SKIN: flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 2 LD ₅₀ 0.5 g/kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available	

6 FIRE HAZARDS

- 6.1 **Flesh Point:** Not flammable
 6.2 **Flammable Limits in Air:** Not flammable
 6.3 **Fire Extinguishing Agents:** Not pertinent
 6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
 6.5 **Special Hazards of Combustion Products:** Not pertinent
 6.6 **Behavior in Fire:**
 6.7 **Ignition Temperature:** Not pertinent
 6.8 **Electrical Hazard:** Not pertinent
 6.9 **Burning Rate:** Not pertinent

8. WATER POLLUTION

- 8.1 **Aquatic Toxicity:** Data not available
 8.2 **Waterfowl Toxicity:** Data not available
 8.3 **Biological Oxygen Demand (BOD):** Data not available
 8.4 **Food Chain Concentration Potential:** Zinc accumulates in some organisms but is not considered to be bioconcentrative

9 SELECTED MANUFACTURERS

1. Chemical and Pigment Co.
600 Nichols Road
Pittsburg, Calif. 94565
2. Pfaltz and Bauer, Inc.
175 Fairfield Ave.
Stamford, Conn. 06902

7 CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** No reaction
 7.2 **Reactivity with Common Materials:**
 7.3 **Stability During Transport:** Stable
 7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
 7.5 **Polymerization:** Not pertinent
 7.6 **Inhibitor of Polymerization:** Not pertinent

10. SHIPPING INFORMATION

- 10.1 **Grade or Purity:** Commercial
 10.2 **Storage Temperature:** Ambient
 10.3 **Inert Atmosphere:** No requirement
 10.4 **Venting:** Open

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-3)

ZINC DIALKYL DITHIOPHOSPHATE

Common Synonyms Zinc dibenzyl dithiophosphate Zinc dibenzyl phosphorodithioate		Solid or liquid Straw yellow to green Sweet, alcohol like odor Sinks in water
Fire	Combustible Irritating gases may be produced when heated	
Exposure	DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing LIQUID OR SOLID Irritating to skin and eyes If swallowed will cause nausea and vomiting	
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes	
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-41 Issue warning - water contaminant detect devices Should be removed Chemical and physical treatment		2. LABELS No hazard label required by Code of Federal Regulations
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Zinc O-benzyl dithiophosphorodithioate; Zinc dibenzyl dithiophosphate; Zinc dibenzyl phosphorodithioate 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $[(C_6H_5)_2PS_2]_2Zn$ where R = C ₆ H ₅ , alkyl 3.4 IMCO/United Nations Numerical Designation: 6.1 D09		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid or liquid 4.2 Color: Straw yellow to yellow green 4.3 Odor: Sweet, alcohol like
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Rubber gloves, safety glasses or face shield, dust respirator for solid form 5.2 Symptoms Following Exposure: (All commercially available members of this class share about the same health hazards.) Inhalation of dust can cause respiratory discomfort. Ingestion causes irritation of mouth and stomach. Contact with eyes causes moderate to severe irritation. Contact with skin causes mild irritation. 5.3 Treatment for Exposure: INHALATION: Move from exposure. INGESTION: If large amounts have been ingested, induce vomiting. EYES: Flush with copious amounts of water. If irritation persists, consult a physician. SKIN: Wash affected areas with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 2.1 D09 S. N/A 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available		

6. FIRE HAZARDS 6.1 Flash Point: 300°F (150°C) 6.2 Flammable Limits in Air: Data not available 6.3 Fire Extinguishing Agents: Water, dry chemical, foam can be desirable 6.4 Fire Extinguishing Agents Not to be Used: 6.5 Special Hazards of Combustion Products: Irritating oxides of sulfur and phosphorus may form in fire. 6.6 Behavior in Fire: 6.7 Ignition Temperature: Data not available 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent		8. WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Waterway Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: Zinc accumulates in some organisms but is not considered to be bioconcentratable
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: No reaction at ordinary temperatures 7.2 Reactivity with Common Materials: 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent		9. SELECTED MANUFACTURERS 1. Etno Corporation P. O. Box 6918 Cleveland, Ohio 44109 2. Monsanto Company 800 N. Lindbergh Blvd. St. Louis, Mo. 63166
11. HAZARD ASSESSMENT CODE (See Hazard Assessment Handbook, CG 446-31) (Liquid) V X N (Solid) H		10. SHIPPING INFORMATION 10.1 Grades or Purity: Technical 62% on inert filler 10.2 Storage Temperature: Below 66°C (150°F) 10.3 Inert Atmosphere: No requirement 10.4 Venting: Open (flame arrester)
12. HAZARD CLASSIFICATIONS 12.1 Code of Federal Regulations: Not listed 12.2 NAS Hazard Rating for Bulk Water Transportation: Not listed 12.3 MFPA Hazard Classifications: Not listed		13. PHYSICAL AND CHEMICAL PROPERTIES 13.1 Physical State at 1,013°C and 1 atm: Solid or liquid 13.2 Molecular Weight: 488 (approx.) 13.3 Boiling Point at 1 atm: Not pertinent (decomposes) 13.4 Freezing Point: Not pertinent 13.5 Critical Temperature: Not pertinent 13.6 Critical Pressure: Not pertinent 13.7 Specific Gravity: 1.12 - 1.26 at 20°C (liquid); 1.6 at 20°C (solid) 13.8 Liquid Surface Tension: Data not available 13.9 Liquid-Water Interfacial Tension: Data not available 13.10 Vapor (Gas) Specific Gravity: Not pertinent 13.11 Ratio of Specific Heats of Vapor (Gas): Not pertinent 13.12 Latent Heat of Vaporization: Not pertinent 13.13 Heat of Combustion: Not pertinent 13.14 Heat of Decomposition: Not pertinent 13.15 Heat of Solution: Not pertinent 13.16 Heat of Polymerization: Not pertinent

ZINC FLUOROBORATE

Common Synonyms Zinc Fluoroborate solution		Liquid	Colorless	Odorless
		Sinks and mixes with water		
Fire	Not flammable			
Exposure	ALL EXPOSURES LIQUID Irritating to skin and eyes. If swallowed will cause nausea and vomiting EYES: Flush with plenty of water, get medical attention. SKIN: Flush with plenty of water, get medical attention. INGESTION: Give gastric lavage, cathartics, and demulcents.			
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.			
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 446-4. Flush with water. Water contaminants. Dispense and flush.		2. LABELS No hazard label required by Code of Federal Regulations.		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Zinc fluoroborate solution 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $ZnBF_4 \cdot 11H_2O$ 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: None		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Rubber gloves, safety glasses or face shield. 5.2 Symptoms Following Exposure: Ingestion may cause irritation or corrosion of the alimentary tract. Contact with eyes or skin causes irritation. 5.3 Treatment for Exposure: INGESTION: Give gastric lavage, cathartics, and demulcents. EYES: Flush with plenty of water, get medical attention. SKIN: Flush with plenty of water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available. 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade 2 LD ₅₀ 0.5 g/kg. 5.7 Late Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: Data not available.				

6. FIRE HAZARDS

- 13.15 Heat of Solution: Not pertinent
- 13.16 Heat of Polymerization: Not pertinent

NOTES

ZNT

ZINC NITRATE

Common Synonyms: Zinc nitrate hexahydrate		Solid	White	Odorless
		Sinks and mixes with water		
ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED DATE 01-11-2010 BY 60322 UCBAW				
Fire	Not flammable Will increase the intensity of a fire POISONOUS GASES MAY BE PRODUCED IN FIRE When heated, zinc nitrate decomposes to form nitrogen dioxide, a toxic gas, and zinc oxide.			
Exposure	ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED DATE 01-11-2010 BY 60322 UCBAW DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing If swallowed will cause nausea and vomiting SOLID Irritating to skin and eyes If swallowed will cause nausea and vomiting IF IN CONTACT WITH WATER, IT WILL FORM A TOXIC GAS, NITROGEN DIOXIDE.			
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes.			
1. RESPONSE TO DISCHARGE See Response Methods Handbook, CG 44-41 Disperse and flush		2. LABEL 		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Zinc nitrate hexahydrate 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $Zn(NO_3)_2 \cdot 6H_2O$ 3.4 IBCO/United Nations Numerical Designation: 1.1.1514		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White, colorless 4.3 Odor: None		
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust mask, goggles or face shield, protective gloves 5.2 Symptoms Following Exposure: Inhalation of dust may irritate nose and throat. Ingestion can cause irritation or corrosion of the alimentary tract. Contact with skin causes irritation, which may be delayed. Contact with eyes causes irritation. 5.3 Treatment for Exposure: INHALATION: move to fresh air. INSTENTLY induce vomiting, followed by prompt and complete gastric lavage. cathartics and demulcents. EYES: flush with water, consult a physician. SKIN: wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 2 oral LD ₅₀ is 1.7 g/kg body weight 5.7 Late Toxicity: Causes enlarged liver, spleen, and bone marrow in rabbits 5.8 Vapor (G-3) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Unknown				

6. FIRE HAZARDS

- 6.1 Flash Point: Not flammable
6.2 Flammable Limits in Air: Not flammable
6.3 Fire Extinguishing Agents: Not pertinent
6.4 Fire Extinguishing Agents Not to be Used: Not pertinent
6.5 Special Hazards of Combustion Products: Toxic oxides of nitrogen may form in fire
6.6 Behavior in Fire: May increase intensity of fire when in contact with combustible material
6.7 Ignition Temperature: Not pertinent
6.8 Electrical Hazard: Not pertinent
6.9 Burning Rate: Not pertinent

8. WATER POLLUTION

- 8.1 Aquatic Toxicity: 1.00 ppm 3 mo. tadpoles survived but no limb buds, fresh water
0.2 ppm 48 hr. barnacles with lethargic water
8.2 Waterfowl Toxicity: Data not available
8.3 Biological Oxygen Demand (BOD): None
8.4 Food Chain Concentration Potential: None is accumulated in some organisms but is not considered to be bioconcentratable

9. SELECTED MANUFACTURERS

1. The Harshaw Chemical Co.
1945 E. 97th St.
Cleveland, Ohio 44116
2. J. T. Baker Chemical Co.
Phillipsburg, N. J. 08865
3. Mannesmann Chemical Works

NOTES

Caution: Strongly Irritant		Solid	Grey to black	Faint odor
		Sinks in water		
Fire		Not flammable Irritating gases may be produced when heated		
		DUST Irritating to eyes, nose and throat. If inhaled will cause dizziness, difficult breathing, or loss of consciousness.		
Exposure		SOLID POISONOUS IF SWALLOWED Irritating to skin and eyes. If swallowed will cause dizziness, nausea, vomiting or loss of consciousness.		
Water Pollution		Tests of low concentrations on aquatic life is unknown. May be dangerous if it enters a water intake.		
1. RESPONSE TO DISCHARGE See Response/Control Manual, CG 446-4 Issue material: provide water Control spillage at containment Remove excess Should be removed Chemical and physical treatment		2. LABEL 		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: No common synonyms 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: ZnP_2 3.4 IMCO/United Nations Numerical Designation: 6.1 (P) 2		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Grey to grey-black 4.3 Odor: Faint phosphorous		
5. HEALTH HAZARDS				
5.1 Personal Protective Equipment: Dust mask or self-contained breathing apparatus, goggles, or face shield, protective gloves. 5.2 Symptoms Following Exposure: When inhaled or ingested, compound releases phosphine which causes faintness, weakness, nausea, vomiting, dizziness, pain in head, pressure change in nose, rate of respiration, throat constriction, paralysis, and coma. If contact with eyes or on face causes irritation. 5.3 Treatment for Exposure: INHALATION: move to fresh air; give artificial respiration if required; get medical attention for phosphine poisoning. INGESTION: give one tablespoonful of mustard in a glass of warm water; repeat and if vomit fluid is clear, avoid use of all other calls a physician immediately; have patient lie down and keep warm. EYES: flush with water for at least 15 mins. SKIN: flush with water; wash with soap and water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 4 oral LD ₅₀ = 40 mg/kg rat 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available				

6 FIRE HAZARDS 6.1 Flash Point: Not determinable 6.2 Flammable Limits in Air: Not flammable 6.3 Fire Extinguishing Agents: The water foam is dry chemical on adjacent fires. 6.4 Fire Extinguishing Agents Not to be Used: Any agent which would react with the carbon disulfide or the regulated agent or with the phosphine gas, and spontaneous flammable gases. 6.5 Special Hazards of Combustion Products: Irritating smoke of phosphorus may be formed at fires. 6.6 Behavior in Fire: 6.7 Ignition Temperature: Not pertinent 6.8 Electrical Hazard: Not pertinent 6.9 Burning Rate: Not pertinent	8 WATER POLLUTION 8.1 Aquatic Toxicity: Data not available 8.2 Water-solubility: 1.0 g per 100 g 8.3 Biological Oxygen Demand (BOD): Data not available 8.4 Food Chain Concentration Potential: Data is available, but the concentration is not considered to be bioaccumulative.
7 CHEMICAL REACTIVITY 7.1 Reactivity with Water: Reacts slowly with water, more rapidly with dilute acid to form phosphine gas, which is toxic and spontaneously flammable. 7.2 Reactivity with Common Materials: 7.3 Stability During Transport: Stable unless exposed to moisture. Toxic phosphine gas may then be released and collect in closed spaces. 7.4 Neutralizing Agents for Acids and Caustics: Not pertinent 7.5 Polymerization: Not pertinent 7.6 Inhibitor of Polymerization: Not pertinent	9 SELECTED MANUFACTURERS 1. Union Carbide Corp. Industrial Chemicals Div. Norge Park, N.Y. 10442 2. American Cyanamid Corp. Chemicals and Plastics Div. PO Box 202, 200 North Somerville, N.J. 08876 Escher-Schmidt Co. 731 Forbes Ave. Pittsburgh, Pa. 15219

NOTES

Common Synonyms White vinyl Zinc vinyl Zinc sulfate heptahydrate		Solid Sinks and mixes with water	White Odorless
Fire		Not flammable	
Exposure		DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing SOLID Irritating to skin and eyes If swallowed will cause nausea and vomiting	
Water Pollution		HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes	
1. RESPONSE TO DISCHARGE (See Response Information Summary CG 444-4) Dispense and Flush		2. LABELS No hazard label required by Federal or Federal Regulations	
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: White vinyl, Zinc sulfate heptahydrate, Zinc vinyl 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $ZnSO_4 \cdot 7H_2O$ 3.4 HSO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Colorless 4.3 Odor: None	
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: The usual goggles or face shield, protective gloves 5.2 Symptoms Following Exposure: Irritation of eyes, nose, irritation of nose and throat Irritation can cause irritation or corrosion of the alimentary tract. Contact with eyes or skin causes irritation. 5.3 Treatment for Exposure: INHALATION: move to fresh air. INGESTION: induce vomiting followed by prompt and complete gastric lavage with water and demulcents. EYE OR SKIN: Flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 2 LD ₅₀ 0.5 g/kg 5.7 Late Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available			

6. FIRE HAZARDS 6.1 Flash Point: Not determined 6.2 Flammable Limits in Air: Not determined 6.3 Fire Extinguishing Agents: Not determined 6.4 Fire Extinguishing Agents Not to be Used: Not determined 6.5 Special Hazards of Combustion Products: Not determined 6.6 Behavior in Fire: 6.7 Ignition Temperature: Not determined 6.8 Electrical Hazard: Not determined 6.9 Burning Rate: Not determined	8. WATER POLLUTION 8.1 Aquatic Toxicity: 0.1 mg/L in 100 hr static bioassay test 4.0 ppm/L in rainbow trout 14 d fresh water *Water to be not specified 8.2 Waterfowl Toxicity: Data not available 8.3 Biological Oxygen Demand (BOD): None 8.4 Food Chain Concentration Potential: Data is accumulated by some organisms but is not considered to be bioaccumulative
7. CHEMICAL REACTIVITY 7.1 Reactivity with Water: Not determined 7.2 Reactivity with Common Materials: 7.3 Stability During Transport: Stable 7.4 Neutralizing Agents for Acids and Bases: Not determined 7.5 Polymerization: Not determined 7.6 Inhibitor of Polymerization: Not determined	9. NOTES

ZCA

ZIRCONIUM ACETATE

Common Synonyms		Liquid	White	Weak vinegar odor
		Sinks and mixes with water		
Avoid contact with liquid. Keep away from eyes. Separate if possible. Isolate in case of spillage or leakage. Notify local fire and police in case of emergency.				
Fire	Not flammable			
Exposure	CALL FOR MEDICAL AID LIQUID Irritating to skin and eyes. Harmful if swallowed. Remove contact lenses if they are in eyes. Flush with water for at least 15 minutes. IF IN EYES - Flush with water for at least 15 minutes. IF SWALLOWED - Do not induce vomiting. Give small amount of water to drink. IF SWALLOWED - Do not induce vomiting. Give small amount of water to drink. Notify local fire and police in case of emergency.			
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local fire and police in case of emergency.			
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning - water contaminant Disperse and flush		2. LABELS No hazard label required by Code of Federal Regulations		
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Zirconium acetate solution 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $Zr(C_2H_3O_2)_4 \cdot H_2O$ 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Liquid 4.2 Color: Colorless 4.3 Odor: Weak vinegar		
5. HEALTH HAZARDS				
5.1 Personal Protective Equipment: Rubber gloves, chemical goggles or face shield				
5.2 Symptoms Following Exposure: Has only a mild pharmacologic reaction. Contact with eyes or skin may cause irritation.				
5.3 Treatment for Exposure - INGESTION: Give large amount of water. EYES: Flush with water for at least 15 min. consult a physician if irritation persists. SKIN: Flush with water.				
5.4 Toxicity by Inhalation (Threshold Limit Value): 5 mg/m ³ (as Zr consumed)				
5.5 Short-Term Inhalation Limits: Data not available				
5.6 Toxicity by Ingestion: Grade 2 LD ₅₀ 5.2 g/kg (rat)				
5.7 Late Toxicity: Data not available				
5.8 Vapor (Gaseous) Irritant Characteristics: Data not available				
5.9 Liquid or Solid Irritant Characteristics: Data not available				
5.10 Odor Threshold: Data not available

ZIR

ZIRCONIUM NITRATE

Common Synonyms Zirconium nitrate pentahydrate	Solid	White	Odorless
Sinks and mixes with water			
Fire	Not flammable Will increase the intensity of a fire POISONOUS GASES MAY BE PRODUCED IN FIRE		
Exposure	DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing SOLID Irritating to skin and eyes If swallowed will cause nausea and vomiting		
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes		
1. RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning, water contaminant Disperse and flush		2. LABELS No hazard label required by Code of Federal Regulations	
3. CHEMICAL DESIGNATIONS 3.1 Synonyms: Zirconium nitrate pentahydrate 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: $Zr(NO_3)_4 \cdot 5H_2O$ 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: White 4.3 Odor: None	
5. HEALTH HAZARDS 5.1 Personal Protective Equipment: Dust mask, goggles or face shield, protective gloves 5.2 Symptoms Following Exposure: Has only a mild pharmacological action. Inhalation of dust may irritate nose and throat. Contact with eyes or skin causes irritation. 5.3 Treatment for Exposure: INHALATION: move to fresh air. INGESTION: give large amount of water. EYE EXPOSURE: flush with water. 5.4 Toxicity by Inhalation (Threshold Limit value): Data not available (as zirconium) 5.5 Short-Term Inhalation Limits: Data not available 5.6 Toxicity by Ingestion: Grade 2 oral LD ₅₀ = 2.5 g/kg rat 5.7 Lute Toxicity: Data not available 5.8 Vapor (Gas) Irritant Characteristics: Data not available 5.9 Liquid or Solid Irritant Characteristics: Data not available 5.10 Odor Threshold: Data not available

ZrO	ZIRCONIUM OXYCHLORIDE
-----	-----------------------

ZrO	ZIRCONIUM OXYCHLORIDE
-----	-----------------------

Common Synonyms Zinc-yl chloride Basic zincum chloride Zincinum oxychloride hydrate Zincinum oxide chloride		Solid	White to yellow	Odorless
		Sinks and mixes with water		
Avoid contact with skin, eyes or clothing. Stop use if irritation occurs. In case of contact, flush area with water. Notify local health and pollution control agency.				
Fire	Not flammable			
Exposure	GEL FOR MEDICAL USE DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. Inhalation may irritate mucous membranes of respiratory tract. SOLID Irritating to skin and eyes. If swallowed will cause nausea and vomiting. Swallowing large amounts may cause severe irritation of digestive tract. POISONOUS SWALLOWED: If small amount has been swallowed, drink water or milk. DO NOT INDUCE VOMITING. CONSULT PHYSICIAN OR POISON CONTROL CENTER IMMEDIATELY. INGESTION OF LARGE AMOUNTS MAY BE FATAL.			
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes.			
1 RESPONSE TO DISCHARGE (See Response Methods Handbook CG 648-4) Issue warning - water contaminant. Disperse and flush.		2. LABELS No hazard label required by Code of Federal Regulations.		
3 CHEMICAL DESIGNATIONS 3.1 Synonyms: Basic zincum chloride Zincinum oxide chloride Zincinum oxychloride hydrate Zincyl chloride 3.2 Coast Guard Compatibility Classification: Not listed 3.3 Chemical Formula: ZnOCl ₂ · 5H ₂ O 3.4 IMCO/United Nations Numerical Designation: Not listed		4. OBSERVABLE CHARACTERISTICS 4.1 Physical State (as shipped): Solid 4.2 Color: Yellow to white 4.3 Odor: None		
5 HEALTH HAZARDS 5.1 Personal Protective Equipment: Safety glasses or face shield; protective gloves; dust mask. 5.2 Symptoms Following Exposure: Has only a mild pharmacological action. Inhalation of dust may irritate nose and throat. Contact with eyes or skin causes irritation. 5.3 Treatment for Exposure: INHALATION: Move to fresh air. INGESTION: Give large amount of water. EYES OR SKIN: Flush with water. 5.4 Toxicity by Inhalation (Threshold Limit Value): 5 mg/m (as zincum). 5.5 Short-Term Inhalation Limits: Data not available. 5.6 Toxicity by Ingestion: Grade 2 oral LD ₅₀ = 4.5 g/kg rat. 5.7 Lethal Toxicity: Data not available. 5.8 Vapor (Gas) Irritant Characteristics: Data not available. 5.9 Liquid or Solid Irritant Characteristics: Data not available. 5.10 Odor Threshold: Data not available.

NOTES

ZCS

ZIRCONIUM SULFATE

Common Synonyms Disulfatozirconic acid Zirconium sulfate tetrahydrate		Solid White Odorless Sinks and mixes with water
Avoid contact with solid and dust. Keep away from fire. In case of fire, use dry chemical or carbon dioxide extinguisher. Do not use water.		
Fire	Not flammable	
Exposure	ALL FOR MEDICAL USE DUST Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. If eyes are affected, flush with plenty of water. If on skin, wash with plenty of water. SOLID Irritating to skin and eyes. If swallowed will cause nausea and vomiting. If swallowed, do not induce vomiting. If on skin, wash with plenty of water. If in eyes, flush with plenty of water. If swallowed, do not induce vomiting. If on skin, wash with plenty of water.	
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous to water intakes. Notify local health authorities. Notify police in case of spill.	
1 RESPONSE TO DISCHARGE (See Response Methods Handbook, CG 446-4) Issue warning: water contaminant. Disperse and flush.		2. LABELS No hazard label required by Code of Federal Regulations.
