Object Classification Schedule

APPROPRIATION LANGUAGE

For construction, procurement, production, modification, and modernization of missiles, equipment, including ordnance, ground handling equipment, spare parts, and accessories, therefor; specialized equipmen and training devices; expansion of public and private plants, including the land necessary therefor, without regard to section 4774, title 10, United States Code, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title as required by section 355, Revised Statutes, as amended; and procurement and installation of equipment appliances, and machine tools in public and private plants; reserve plants and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; (\$1,519,800,000) \$1,650,500,000 to remain (1) available for obligation until September 30, (1983) 1984. (2)

(10 U. S. C. 2353, 3012, 4531, 31 U. S. C. 649c; Department of Defense Appropriation Act, 1980; additional authorizing legislation to be proposed.)

EXPLANATION OF LANGUAGE CHANGES

- (1) To change the amount of appropriation requested for FY 1982.
- (2) To change the obligation expiration date for the FY 1982 program.

MISSILE PROCUREMENT, ARMY

Section 2

Introductory Statement

2-10

1/15/81

DEPARTMENT OF THE ARMY
ANNUAL BUDGET ESTIMATES

FY 1982 83

Budget

Appropriation:
Missile Procurement, Army

Section 2 - INTRODUCTORY STATEMENT

This appropriation finances the acquisition of surface-to-air, surface-to-surface, and antitank/assault missile systems. Also included are major components, modifications, targets, test equipment, and depot repairable spares and repair parts; and production base support.

The FY 1982 program continues procurement of the TOW antitank/assault missile system, the Improved HAWK and CHAPARRAL replacement motors, STINGER and PATRIOT air defense systems, Multiple Launch Rocket System (MLRS), and the HELLFIRE Heliborne missile system; and production support of U.S. ROLAND missile system, funded in prior fiscal years. Procurement is initiated for the PERSHING II. Also included is procurement for the modification of the CHAPARRAL, Improved HAWK, DRAGON, and TOW Missile Systems and the AN/TSQ-73 Missile Minder System.

The FY 1983 program continues procurement of CHAPARRAL and HAWK replacement motors, the HELLFIRE missile system and PATRIOT air defense system, the STINGER manportable air defense weapon, the TOW antitank/assault missile system, the MLRS, and PERSHING II missile system; and production support of U.S. ROLAND missile systems funded in previous fiscal years. Also included is procurement for the modifications of the Improved HAWK, CHAPARRAL, and TOW missile systems, and the AN/TSQ-73 Missile Minder System.

Budget Activity Justification

Activity 1 - Antibalistic Missile System

Activity 2 - Other Missiles

Activity 3 - Modification of Missiles

Activity 4 - Spares and Repair Parts

Activity 5 - Support Equipment and Facilities

2-15 1/15/81

FORMAT J

Department of the Army Annual Budget Estimates JUSTIFICATION	Appropriation Missile Procurement, Army	FY 1982	
		Budget	
		(In Thousands of Dollars)	
Budget Program or Budget Project Account			
Activity 1 - Antibalistic Missile System (SAFEGUARD)			
	Actual Fiscal Year 1980	Estimate Fiscal Year 1981	Fiscal Year 1982
Direct Obligations or Direct Budget Plan	\$ -0-	\$ -0-	\$ -0-

Section 1 - PURPOSE AND SCOPE

These funds provide for procurement of the SAFEGUARD Antibalistic Missile System, including missile, launching and control devices, and associated equipment and related production base support.

Section 2 - JUSTIFICATION OF FUNDS REQUESTED

No funds are requested for FY 1982 and FY 1983 in this activity.

FORMAT 1

	Missile Procurement, Army		Budget
	(Thousands of Dollars)		
Budget Program or Budget Project Account	Actual	Estimate	Estimate
	FY 1980	FY 1981	FY 1982
Activity 2 - Other Missiles			
Direct Obligation or Direct Budget Plan	\$ 889,000	\$1,172,500	\$ 1,267,400

Section 1 - PURPOSE AND SCOPE

Provides for procurement of surface-to-air, antitank/assault, surface-to-surface and air-to-surface missile systems; related ground support equipment; and initial issue and replacement of losses consumed in reliability firings, crew proficiency firings, and other training activities.

Section 2 - JUSTIFICATION OF FUNDS REQUESTED

CHAPARRAL Missile System - \$4.4 million is requested for smokeless rocket motors to replace shelf life motor losses.

HAWK Air Defense Missiles - \$4.8 million is requested for replacement rocket motors.

ROLAND Missile System - \$65.0 million is requested to fund logistics support associated with ongoing production. Procures the ROLAND Institutional Trainer, Electronic Counter-Countermeasures (ECCM) modification retrofit and upgrade of technology transfer hardware to production configuration. The US ROLAND will provide quick reaction, all weather, short-range air defense protection for the Rapid Deployment Force.

PATRIOT Missile System - \$486.1 million is requested to procure 130 missiles and 6 fire units for the PATRIOT missile system. PATRIOT is an improved system which will replace NIKE-HERCULES and HAWK and is better able to meet the threat of the 1980's and beyond.

STINGER Missile System - \$132.3 million is requested for procurement of 1974 STINGER missiles and ground support equipment. The program for FY 82 represents the fifth year of a planned nine-year procurement effort designed to fill the Army inventory objective. The STINGER, which replaces the obsolete REDEYE, has greater accuracy and a significantly improved engagement capability.

TOW Missile System - \$99.1 million is requested to procure 12,000 TOW missiles to support the inventory objective and blast simulators needed for training. The 1982 procurement program will afford continuation of a cost effective warm production base, providing improved tactical missile, needed to defeat the increasing armor threat.

Department of the Army Annual Budget Estimates		FY 1982
JUSTIFICATION		Budget
Appropriation	Budget Program or Budget Project Account	
Missile Procurement, Army	Activity 2 - Other Missiles	

Multiple Launch Rocket System (MLRS) - \$184.0 million is requested to procure 2496 rockets and associated ground support equipment. The MLRS is an 8.9-inch-diameter multiple rocket launcher system with tracked self-propelled launcher/loader, disposable pods, and fire control equipment. Its mission is to neutralize or suppress enemy field artillery, air defense systems, and supplement cannon artillery when targets exceed capabilities during surge conditions.

HELLFIRE - \$ 94.8 million is requested to procure 502 missiles and associated support equipment. The purpose of the HELLFIRE missile system is to defeat the current and future armor threat at long stand-off ranges. When mounted on the Advanced Attack Helicopter, AH 64, it will increase helicopter survivability and fire power.

PERSHING - \$196.9 million is requested to procure 39 PERSHING II missiles and ground support equipment, including telemetry for the operational firing program. PERSHING II will replace the aging PERSHING Ia.

FORMAT J-1

Department of the Army Annual Budget Estimate JUSTIFICATION	Appropriation Missile Procurement, Army (Thousands of Dollars)	FY 1982	Budget
		Budget Program or Budget Project Account	
Activity 2 - Other Missiles		FY 1983	Estimate
Direct Obligation or Direct Budget Plan			\$ 1,905,000

Section 1 - PURPOSE AND SCOPE

Provides for procurement of surface-to-air, air-to-surface, antitank/assault, and surface-to-surface missile systems; related ground support equipment and initial issue and replacement of losses consumed in reliability firings, crew proficiency firings and other training activities.

Section 2 - JUSTIFICATION OF FUNDS REQUESTED

CHAPARRAL Missile System - \$4.5 million is requested to continue procurement of replacement rocket motors for CHAPARRAL missiles to improve reliability of the system.

HAWK Air Defense Missiles - \$4.1 million is requested for replacement rocket motors to improve reliability of the system.

U.S. ROLAND Missile System - \$60.0 million is requested to continue logistics support associated with ongoing production. The U.S. ROLAND will provide quick reaction all-weather, short-range air defense protection for the Rapid Deployment Force.

PATRIOT Missile System - \$678.6 million is requested for hardware procurement in FY 83. PATRIOT is a mobile air defense system consisting of a phased array radar set, engagement control station, power plant, and launching station, each mounted on a wheeled vehicle. The missile is mounted within a canister which serves both as a shipping container and launch tube.

STINGER Missile System - \$194.2 million is requested for the continuation of the procurement of the STINGER missile system. The program for FY 83 represents the sixth year of a planned nine-year procurement effort designed to fill the Army's inventory objective. The STINGER, scheduled to replace the obsolete REDEYE, has greater accuracy and a significantly improved engagement capability.

HELLFIRE Missile System - \$119.2 million is requested to procure 1213 HELLFIRE missiles and associated ground equipment. The purpose of the HELLFIRE missile system is to defeat the current and future armor threat at long stand-off ranges. When mounted on the Advanced Attack Helicopter, AH 64, it will increase helicopter survivability and fire power.

FORMAT A

Department of the Army Annual Budget Estimates		FY 1982
JUSTIFICATION		Budget
Appropriation	Budget Program or Budget Project Account	
Missile Procurement, Army	Activity 2 - Other Missiles	

TOW Missile System - \$100.1 million is requested for procurement of 12,000 improved missiles in support of the inventory objective and for blast simulators.

MULTIPLE LAUNCH ROCKET SYSTEM (MLRS) - \$410.9 million is requested to continue procurement of tactical rockets, and associated ground support equipment. This is the fourth year of a multi-year procurement designed to fill the Army inventory objective. MLRS is a self-propelled, fast-reacting, multiple rocket launcher which will provide a high volume of fire in a very short time against the surge threat.

PERSHING II - \$333.4 million is requested to procure the PERSHING II (PII) Missiles System. PII missiles have added range and accuracy and will provide nuclear fire support to Supreme Allied Command, Europe in the Quick Reaction Alert Role.

	Activity 3 - Modifications of Missiles	FY 1980	FY 1981
Direct Obligation or Direct Budget Plan	\$ 119,500	\$ 204,800	\$ 217,300

Section 1 - PURPOSE AND SCOPE

Provides for the modification of surface-to-air, surface-to-surface, and antitank missile systems.

Section 2 - JUSTIFICATION OF FUNDS REQUESTED

CHAPARRAL - \$60.9 million is requested to provide the CHAPARRAL missile system with a Forward Looking Infrared (FLIR) sight capability improvement which allows target engagements during periods of darkness and limited visibility conditions, more than doubling the systems operability. It also initiates procurement of selected items for the pneumatic systems to increase system reliability.

HAWK - \$11.3 million is requested for modifications to the Improved HAWK missile system to continue the effort to upgrade the capability of the missile to counter the advancing Electronic Countermeasures (ECM) Threat.

TOW - \$110.3 million is needed to procure and retrofit six-inch (full caliber) improved warheads for tactical missiles and guidance system hardening, needed to defeat the advanced armor threat.

GRASS BLADE - \$12.3 million is requested for GRASS BLADE. The program content is classified SECRET " Limited Distribution-Special Access Required", precluding further description. Access to GRASS BLADE is controlled by the Deputy Chief of Staff for Research, Development, and Acquisition.

MODIFICATION LESS THAN \$900,000 - \$1.5 million is requested for Forward Area Alerting Radar (FAAR) modifications to provide a Shelter Heater/Ventilator system, improve the Power Inverter and to improve the Support Maintenance Test Set.

AN/TSQ-7J - \$3.0 million is requested to provide increased memory for the Missile Minder System, permitting interface with the PATRIOT Air Defense System.

DRAGON - \$18.0 million is requested to replace defective thruster-igniters in 18,000 missiles.

FORMAT J-1

Budget Program or Budget Project Account	(Thousands of Dollars)	Estimate
Activity 3 - Modification of Missiles	FY 1983	Estimate
Direct Obligation or Direct Budget Plan	\$105,600	\$105,600

Section 1 - PURPOSE AND SCOPE

Provides for the modification of surface-to-air, surface-to-surface, and antitank missile system.

Section 2 - JUSTIFICATION OF FUNDS REQUESTED

CHAPARRAL - \$3.7 million is requested to complete procurement of improved, selected items for the pneumatic system to increase system reliability.

HAWK - \$40.9 million is requested for continuation of the Electronic Countermeasures (ECM) modification to the HAWK missile and long lead items for additional improvements designed to correct firepower deficiencies, improve computer capabilities, upgrade tracking radar electronics and provide a full capability trainer for each tactical unit.

IOW - \$58.9 million is needed to procure and retrofit six-inch (full caliber) improved warheads for tactical missiles, and guidance system hardening, needed to defeat the advanced armor threat.

MODIFICATIONS LESS THAN \$900,000 - \$0.6 million is requested to complete the Forward Area Alerting Radar (FAAR) Support Maintenance Test Set improvement and to improve the reliability of the CHAPARRAL radio.

AN/TSQ-73 - \$1.5 million is requested to complete the improved memory capacity.

Direct Obligations or Direct Budget Plan		\$ 112,000	\$ 100,300
			\$ 131,100

Section 1 - PURPOSE AND SCOPE

Provides for the procurement of initial provisioning and peacetime replenishment of repairable major assemblies and repair parts for surface-to-air and surface-to-surface and antitank missile systems and other support items.

Section 2 - JUSTIFICATION OF FUNDS REQUESTED

Required for the procurement of initial provisioning and peacetime replenishment requirements of centrally managed, high dollar value depot repairable components, assemblies, and repair parts which are not carried in Army Stock Fund inventories.

INITIAL PROVISIONING - \$92.2 million is requested for initial provisioning spares to support major item procurements as follows: \$41.0 million for PATRIOT spares, \$0.4 million for STINGER spares; \$1.7 million for HELLFIRE spares; \$26.7 million for Multiple Launch Rocket System (MLRS) spares; \$4.3 million for TOX modifications spares; \$0.2 million for Air Defense Target spares; \$0.2 million for AN/TSQ-73 Modifications spares; \$12.9 million for PERSHING II spares; and \$4.8 million for CHAPARRAL modifications spares.

REPLENISHMENT REPAIR PARTS - \$38.9 million is requested for peacetime replenishment repair parts.

FORMAT J-1

Section 1 - PURPOSE AND SCOPE

Provides for the procurement of initial provisioning, peacetime replenishment, and mobilization reserve of repairable major assemblies and repair parts for surface-to-air, air-to-surface, surface-to-surface, and antitank missile systems and other support items.

Section 2 - JUSTIFICATION OF FUNDS REQUESTED

Required for the procurement of initial provisioning, peacetime replenishment, and mobilization reserve requirements of centrally managed, high dollar value depot repairable components, assemblies, and repair parts which are not carried in Army Stock Fund inventories.

INITIAL PROVISIONING - \$108.7 million is requested for initial provisioning spares to support major item procurements as follows: \$76.8 million for PATRIOT spares; \$1.5 million for HELLFIRE spares; \$18.7 million for PERSHING spares; \$8.9 million for Multiple Launch Rocket System (MLRS) spares; \$0.4 million for CHAPARRAL modifications spares; \$1.9 million for TOW modifications spares. \$0.3 million for AN/TSQ-73 modifications spares and \$0.2 million for Air Defense Target spares.

REPLENISHMENT REPAIR PARTS - \$48.7 million is requested for peacetime replenishment repair parts.

Section 1 - PURPOSE AND SCOPE

Provides for the procurement of support equipment, items less than \$900,000 and production base support for the Army missile system.

Section 2 - JUSTIFICATION OF FUNDS REQUESTED

Air Defense Targets - \$8.3 million is requested for Ballistic Aerial Target System (BATS) and for continued production of the Variable Speed Training Target (VSTT) and procurement of other target missiles, towed targets, and ground support equipment. This program provides target missiles for training of air defense personnel and for evaluation of air defense weapons systems.

Items less Than \$900,000 - \$0.3 million for procurement of tool and test sets peculiar to missile system hardware maintenance and repair.

Production-Base Support - \$26.1 million is requested to fund 33 projects. Twenty-eight projects totaling \$9.0 million are in the area of manufacturing methods and technology, and deal with the advancement of manufacturing techniques for various missile components. Four projects totaling \$3.5 million are related to Provision of Industrial Facilities (PIF) consisting of providing replacement or new equipment used for production testing of weapon systems and associated materials at White Sands Missile Range, rehabilitation of buildings at a Government-owned contractor-operated (GOCO) facility at Redstone Arsenal, and preparation of design criteria and specifications for submission to Corps of Engineers for execution of concept/final design and specification for construction. \$6.4 million is requested for procurement of capital plant equipment required to support the depot maintenance mission. Additionally, \$7.2 million is requested for Productivity Enhancing Capital Investments to procure a ROLAND missile system Maintenance Trainer Simulator.

BUDGET AUTHORITY	\$ 1,514,400	1,519,800	+ 5,400
Appropriation	1,514,400	1,519,800	+ 5,400

EXPLANATION OF CHANGES IN FINANCING.

The Fiscal year 1981 program has increased \$225.7 million since preparation of the Fiscal Year 1981 budget for Congress. Adjustments to financing categories are explained below:

1. Anticipated reimbursements; \$220.3 million increase in Foreign Military Sales Program.
2. Budget Authority: \$5.4 million increase by Congressional action.

2-29 1/15/81

COMPARISON OF FY 1980 PROGRAM REQUIREMENTS
AS REFLECTED IN FY 1981 BUDGET WITH
FY 1980 PROGRAM REQUIREMENTS AS SHOWN IN FY 1982 BUDGET

SUMMARY OF REQUIREMENTS (In Thousands of Dollars)

Appropriation:	Total Program Requirements		Increase (+) or Decrease (-)
	Per FY 81 Budget	Per FY 1982 Budget	
Activity 1 - Antiballistic Missile system	-0-	-0-	-0-
Activity 2 - Other Missiles	896,100	889,000	- 7,100
Activity 3 - Modification of Missiles	104,700	119,500	+ 14,800
Activity 4 - Spares and Repair Parts	114,500	112,000	- 2,500
Activity 5 - Support Equipment and Facilities	27,200	29,824	+ 2,624
TOTAL	1,142,500	1,150,324	+ 7,824

Explanation by Activity

Activity 2 - Other Missiles (-\$7,100) - A reduction of \$4.0 million in HAWK reprogrammed to Military Personnel, Army. A reduction of \$3.1 million inflation denied by Congress.

Activity 3 - Modification of Missiles (+\$14,800) - An increase in HAWK Modifications of \$20.4 million by congress. An increase of \$0.8 million in CHAPARRAL Modifications was reprogrammed from Spares and Repair Parts. A reduction of \$3.0 million in LANCE Modifications was reprogrammed to Military Personnel, Army. A reduction of \$3.0 million in LCSS Modifications was reprogrammed to other appropriations. A reduction of \$0.4 million inflation denied by Congress.

Activity 4 - Spares and Repair Parts (-\$2,500) - A reduction of \$1.6 million was reprogrammed to Military Personnel, Army. \$0.8 million was reprogrammed to CHAPARRAL Modifications and \$0.1 million was reprogrammed to Production Base Support.

Activity 5 - Support Equipment and Facilities (+\$2,624) - An increase of \$0.1 million reprogrammed from Spares and Repair Parts. An increase of \$2.5 million as a result of the FY 1980 Supplemental Budget Action.

EXPLANATION OF CHANGES IN FINANCING

The Fiscal Year 1980 program has increased \$160.1 million since preparation of the Fiscal Year 1981 budget to Congress. Adjustments to financing categories are explained below:

1. Anticipated Reimbursements: \$172.3 million increase in Foreign Military Sales Program.
2. Budget Authority: \$2.4 million increase as a result of FY 1980 supplemental budget action by Congress. \$5.4 million transferred from other accounts.

MISSILE PROCUREMENT, ARMY

Section 7

Analysis of Unobligated Balances

2-32 1/15/81

MISSILE PROCUREMENT, ARMY

Analysis of Unobligated Balances - FY 1982 PROGRAM
Summary by Category

Category	Estimated Unobligated Dollars (Millions)	% of Total Unobligated
1. Reserved to support contracts	\$283.8	71.0
2. Engineering changes	54.8	13.7
3. Other	61.1	15.3
TOTAL Unobligated FY 1982	\$399.7	100 %

Based on past experience, it is predicted that the above amounts will remain unobligated at the end of FY 82. Reasons for the unobligated balance have been grouped into three general categories, and are detailed below. These unobligated amounts will therefore be required in subsequent years to complete the procurement of the FY 82 program.

1. Reserved to Support Contracts:
- a. Held pending award of firm contracts as opposed to letter orders.
 - b. Amounts reserved for incentive contract payments.
 - c. Amounts held to support Product Component Improvement Programs; modification of missiles during production; modification ordered by customers.
 - d. Contractor claims, amounts required to cover liabilities for contracts containing escalation clauses for labor or material cost increases and price redeterminations.
 - e. Contract close-out costs; packing, crating, handling, and packaging and loading charges.
 - f. Government-furnished equipment breakout procurements; preparation of manuals and technical data; reserve for completion of construction elements of production base support facilities projects.
 - g. Delay due to design or testing difficulties.
 - h. Update technical data or procurement package.

MISSILE PROCUREMENT, ARMY (Continued)

2. Engineering Changes:
 - a. Engineering services in support of production (unobligated only as expenses are incurred).
 - b. Validated engineering change orders to be incorporated into the current manufacturing process.
 - c. Engineering changes as a result of acceptance testing.
 - d. Amounts reserved to support engineering changes and value engineering proposals.

3. Other:
 - a. Additional time required to complete audits of cost data and to obtain contract cost data.
 - b. Unfavorable preaward surveys and extended negotiations with contractors.

MISSILE MODIFICATION
(\$ in Millions)

Appropriation: Missile Procurement, Army

Missile Type: CHAPARRAL Guided Missile Intercept, Aerial NIM-72-A/C

Missile Modification Title:

Night Capability - PIP 1-80-03-0306
Pneumatic System - PIP 1-80-03-0309

Description/Justification:

PIP 1-80-03-0306 - The night capability improvement when added to the CHAPARRAL Fire Unit will enable the operator to detect and engage aircraft during periods of darkness and limited visibility conditions. The principle elements of this improvement are a Forward Looking Infrared (FLIR) thermal imaging device, optics, display, autotrack and controls. Note: The present system missiles have the capability to track and engage aircraft during darkness and limited visibility, but the system is presently limited by the necessity for the operator to visually detect and acquire aircraft for the missiles. The night sight will more than double the percent of a 24-hour day in which the system may operate.

PIP 1-80-03-0309 - This Reliability Improvement of Selected Equipments (RISE) PIP results from the low Mean Time Between Failure (MTBF) of the CHAPARRAL Air Compressor and its associated pneumatic system and the consequent excessive depot overhaul requirements and logistics costs. Selected items from the entire pneumatic system, as well as the compressor itself, will be improved or replaced with more suitable and reliable items. To the maximum extent possible, program will consist of improvements to existing items or replacement with items currently designed and in production.

MISSILE MODIFICATION
(\$ in Millions)

Appropriation: Missile Procurement, Army

Missile Type: DRAGON (FGM-77A, FTM-77A) (Medium Antitank Guided Missile System)

Missile Modification Title: Replacement of Defective DRAGON Thruster-Igniters

Description/Justification: Approximately 18,000 DRAGON missiles in Army inventory were identified to have defective thruster-igniters, which will preclude proper guidance of missile to the target, while in flight. Unless these are replaced with new thruster-igniters, the missiles will become unserviceable. New thruster-igniters can be readily procured

Basis of Cost Estimate: FY 79 actual costs for thruster-igniters; estimated transportation costs to and from contractors' plant; Government/Contractors estimates for installation/retrofit labor and repacking costs at contractors' plant.

Method of Implementation: At contractors' plant (contractor to be selected on a competitive bid), retrofit to be applied between 2d, 3rd, and 4th Quarters, FY 1982.

Scope of Program:

FY 1982
