Improved drainage and frost action criteria for New Jersey pavement design—Phase III: Structural strength of pavements with open-graded bases. Barker, W.R., et al, [1979, c82p., eng] 34-2359

Properties of frozen base course in West Texas. Campbell, W.R., Jr., et al, [1979, 94p., eng] 34-2422

Pavement heaving

See: Frost heave

Pavement icing

See: Road icing

Pavements

Linköping test field 1976. Investigations of the occurrence and frequency of icing on various roadbases. 1. Test field construction. Gustafson, K., [1977, 12p. + 21 figs., swe] 34-42

Icephobic coatings for highway pavements. Cook, J.C., [1979, p.106-115, eng] 34-69

Evaluation of freeze-thaw durability of stabilized materials. Thompson, M.R., et al, [1976, p.62-70, eng] 34-152

Construction of alleyways and roads in freezing weather. Zhuravel', A.F., et al, [1979, p.20, rus] 34-341

Effects on flexible highways of increased legal vehicle weights using VESYS IIM. Rauhut, J.B., et al, [1978, 203p., eng] 34-508

Kinetics of cement hardening during thermal treatment of concrete bases of road pavements in freezing weather. Shkurenko, V.I., et al, [1979, p.113-117, rus] 34-808

Equipment for marking road pavements. Nisnevich, A.IA., et al, [1979, p.19-20, rus] 34-838

Selecting modular structures for northern construction sites. Koposhko, V.S., [1977, p.138-140, rus] 34-994

Road pavements in oil producing areas of Tyumen'. Motylev, IU.L., [1979, p.21-22, rus] 34-1423

What kinds of pavements should be built in Yakutia. Sychov, V.P., [1979, p.22-24, rus] 34-1424

Analysis of flexible pavement resilient surface deformations using the Chevron layered elastic analysis computer program. Smith, N., et al, [1975, 13 leaves, eng] 34-1501

Nondestructive testing of in-service highway pavements in Maine. Smith, N., et al, [1979, 22p., eng] 34-1843

New type of feeder road surface. Sokolov, S.A., et al, [1979, p.8-9, rus] 34-1941

Slab of silicate reinforced concrete. Griazin, A.D., et al, [1979, p.9, rus] 34-1942

Bauxite slag replaces gravel. Kolbas, N.S., et al, [1979, p.10, rus] 34-1943

Road bed and surface design. Vyrko, N.P., [1979, p.18, rus] 34-1945

Practical trials of insulants made from plastics for frost-protection in road and railroad construction: comparison of theory and practice. Apostolopoulos, C., et al, [1979, p.421-437, eng] 34-2344

Thermal climate regime on road and ground surface. Heiersted, R.S., [1979, p.497-509, eng] 34-2350

Effect of third generation tire studs on pavement wear reduction, 1977-1979; report of test results on wear from various tire-stud combinations. Cook, J.C., [1979, 88p., eng] 34-2432

Bituminous pavements with antiicing additives. Crottaz, R., et al, [1979, p.442-447, ger] 34-2488

Surface-active admixtures for concretes of airport pavement plates. Saf'ianova, N.E., et al, [1980, p.23-24, rus] 34-2588

Hot sand-cement mixes for road pavement bases. Vostrikov, IU.S., et al, [1979, p.105-108, rus] 34-2618

Thermal waves in roadbeds. Shestakov, V.N., et al, [1979, p.105-111, rus] 34-2622

Air heating of underground pedestrian crossings. Muftiev, A.D., [1979, p.26, rus] 34-2702

Roads. Rules of construction and acceptance of jobs. Approval for operation. [1973, 87p., rus] 34-2865

Construction, widening and performance of a freeway across organic terrain. Mirza, C., [1978, p.50-80, eng] 34-2909

Pavements *(cont.)*
Thermal and settlement stresses in concretes. Pechenyi, B.G., [1980, p.73-77, rus] 34-3165
Mathematical model to correlate frost heave of pavements with laboratory predictions. Berg, R.L., et al, [1980, 49p., eng] 34-3200
Construction of earth embankments for highways in West Siberia. Popov, B.I., et al, [1980, p.269-281, eng] 34-3251
Technology of preparing and storing oil-stabilized soils. Bogomolov, IU.N., et al, [1980, p.6-8, rus] 34-3558
New thermoplastic material for marking roads. Zadontsev, B.G., et al, [1980, p.19-20, rus] 34-3761
Construction of urban roads under northern conditions. Galuzin, V.M., ed, [1980, 134p., rus] 34-3762
Building reinforced concrete road pavement on weak grounds. Kolchanov, A.D., et al, [1979, p.22-24, rus] 34-3856
Roads in Finland. Babkov, V.F., [1980, p.28-30, rus] 34-3954
Hydrophobic-plasticizing admixtures to concretes used in road construction. Teshabaev, R.D., [1980, 63p., rus] 34-4013
Snowplowable raised reflective pavement markers at hazardous locations in New Jersey. Graf, C.R., et al, [1979, 55p., eng] 34-4077
Snow and ice removal from pavement using stored earth energy. Long, D.C., et al, [1980, 72p., eng] 34-4081
Recessed snowplowable markers. Niessner, C.W., [1980, 22p., eng] 34-4082
See also: Concrete pavements

Peat
Mechanical dehydration of frozen pea.. Gatitskii, N.V., et al, [1979, p.19-20, rus] 34-254
New data on an interglacial peat deposit near Makinson Inlet, Ellesmere Island, District of Franklin. Blake, W., Jr., et al, [1979, p.157-164, eng] 34-286
Roadbed design for cold regions. Merenkov, N.D., [1979, p.8-9, rus] 34-329
Wear of heat-treated steel and alloy cutting tools in frozen peat. Gorbunov, V.F., et al, [1974, p.213-217, rus] 34-396
Muysk Basin soils and their agricultural development. Vtorushin, V.A., et al, [1979, p.34-42, rus] 34-437
Soil resources of BAM zone swamps and their agricultural development. Makeev, O.V., et al, [1979, p.42-49, rus] 34-438
Calculating moisture content of unsaturated zones when draining peat bogs. Kovalenko, N.P., et al, [1979, p.51-55, rus] 34-523
Basic classification indices of peat soils. Roman, L.T., [1976, p.122-130, rus] 34-713
Microrelief identification criteria of palsa bogs. Novikov, S.M., et al, [1979, p.14-26, rus] 34-827
Heat accumulation and thermal cycles of oligotrophic peat bogs. Kaliuzhnyi, I.L., [1979, p.81-89, rus] 34-832
Reliability of experimental determination of basic hydrologic characteristics of swamps. Baliasova, E.L., [1979, p.96-109, rus] 34-833
Determining the volume of measurements for calculating water permeability of active layers in swamps. Baliasova, E.L., [1979, p.110-115, rus] 34-834
Elastic and dissipative properties of peats and organic muds. IAromko, V.N., et al, [1979, p.17-22, rus] 34-979
Microelements in the lower layer of Valday station spruce forest. Belitsyna, G.D., et al, [1979, p.87-92, rus] 34-1063
Forest land recultivation after pipeline construction. Vysotskii, A.N., [1979, p.26-27, rus] 34-1258
SNiP 11-18-76. Construction norms and rules; Part 11. Planning norms: Chapter 18. Footings and foundations on permafrost. [1979, 111p., eng] 34-1342
Microbiological studies of soils in the Magadan Region. Poliakov, V.A., [1978, p.3-10, rus] 34-1440
Seasonal activity of invertase in drained peat soils. Efremova, T.T., [1978, p.12-18, rus] 34-1442
Drainage effect on algoflora of mesotrophic bogs. Antipina, G.S., [1979, p.1285-1295, rus] 34-1449
Studying the revegetation of tundra landscapes affected by industrial activities in the northern Yenisey River area. Skriabin, S.Z., [1979, p.51-61, rus] 34-1512
Changes in tundra landscapes induced by mining. Olovin, B.A., [1979, p 98-112, rus] 34-1516
Thermal conductivity of natural and disturbed soils in northwestern Siberia. Mandarov, A.A., et al, [1979, p.153-157, rus] 34-1522
Evolution of permafrost in the taiga and in the forest-tundra, western Quebec-Labrador Peninsula. Payette, S., et al, [1976, p.203-220, eng] 34-1643
Hydrophysical properties of peat soils. Bondarenko, N.F., et al, [1979, 160p., rus] 34-1651
Field trip No.2: Upper Mackenzie River Valley. Chatwin, S.C., et al, [1979, 53p., eng] 34-1691
Proceedings of the first all-union symposium Biosphere and Man. [1975, 335p., rus] 34-1852
Microelement variations in peat-bog soils of the northwestern Russian Soviet Federated Socialist Republic during land development. Zavgorodniaia, R.E., et al, [1975, p.126-127, rus] 34-1856
Changes in the runoff from reclaimed marshlands in South Karelia. Nesterenko, I.M., et al, [1975, p.127-128, rus] 34-1857
Reclamation impact on northern peat soils. Nesterenko, I.M., [1975, p.129-130, rus] 34-1858
Using peat in embankment construction. Shupilov, IA.M., [1979, p.18-2', rus] 34-1948
Hydraulic method of sanding peat soils. Lazarev, I.V., et al, [1979, p.21-23, rus] 34-1949
Earth structures on peaty silts under pressure head conditions. Tkach, V.N., et al, [1979, p.23-26, rus] 34-1950
Peat accumulation and the formation of swamps as a physiographic process. Ivanov, K.E., [1976, p.80-90, rus] 34-2007
Classification of cryogenic structures in the aeration zone of peat deposits. Kmitovenko, A.T., et al, [1979, p.8-11, rus] 34-2131
Determining parameters of the mechanical dehydration of frozen peat in high bogs. Kmitovenko, A.T., et al, [1979, p.18-19, rus] 34-2132
Studying physical and mechanical properties of seasonally frozen grounds subject to blasting, for the construction of land reclamation objects. Vorob'ev, V.D., et al, [1979, p.132-138, rus] 34-2309
Geological surveys of peat fields by radio e:no sounding. Bogorodskii, V.V., et al, [1980, p.316-31!, rus] 34-2354
Peculiarities of forest-swamp ecosystems in West Siberia. Glebov, F.Z., ed, [1978, 159p., rus] 34-2518
Regression analysis of fermentation in drained peat soils. Efremova, T.T., et al, [1978, p.111-131, rus] 34-2523
Calculating settlement of oil tanks on inhomogeneous bases. Mangushev, R.A., [1980, p.13-15, rus] 34-2595
Origin and development of the Surgut wooded marshes. Liss, O.L., et al, [1979, p.86-91, rus] 34-2710
Physico-chemical properties of humic acids in peats of the northern Trans-Ural areas. Komissarov, I.D., et al, [1979, p.114-121, rus] 34-2742
Construction of roadbeds on hummocky peats. Plotskii, A.S., et al, [1979, p.3-4, rus] 34-2856
Ecosystems of swamps in the USSR. Boch, M.S., et al, [1979, 187p., rus] 34-2886
Proceedings of the seventeenth Muskeg Research Conference, 4 October 1977. Williams, G.P., ed, [1978, 187p., eng] 34-2904
Contribution of fibrous interlock to the strength of peat. Wilson, N.E., [1978, p.5-10, eng] 34-2905
Effects of volume change and alkalinity of water on the permeability of peat. Lieszkowszky, I.P., et al, [1978, p.25-36, eng] 34-2907
Observations on the subsidence of drained peat soils under grassland culture in Newfoundland. Rayment, A.F., et al, [1978, p.37-48, eng] 34-2908
Design and construction experiences with fluid retaining embankments on peat. Wiesner, W.R., et al, [1978, p.81-115, eng] 34-2910
Plate bearing tests on a fibrous peat. Lee, R.A., et al, [1978, p.151-164, eng] 34-2913
Cryogenic structure of loose deposits in the southern part of the upper Zeya plain and the Ogoronsk Basin. Misharina, N.K., [1978, p.97-105, rus] 34-2926
Nonlinear consolidation of clays allowing for aging. Tsytovich, N.A., et al, [1976, p.346-351, rus] 34-3222
Construction of earth embankments for highways in West Siberia. Popov, B.I., et al, [1980, p.269-281, eng] 34-3251
Making artificial intergelisols as a means of environmental protection in petroleum provinces of West Siberia and the northern Komi ASSR. Maksimov, G.N., [1980, p.25-27, rus] 34-3281
Modern trends in design, construction and operation of land reclamation systems under Siberian conditions. Abstracts of papers presented at a seminar. [1978, 292p., rus] 34-3353
Water conduit earth structures of land reclamation systems in Central Yakutia. Krasnov, IU.N., et al, [1978, p.82-84, rus] 34-3358
Thermophysical properties of frozen low moor peats. Bushina, O.N., et al, [1978, p.132-134, rus] 34-3361
Preconstruction consolidation of bases with vertical drains. Bel'skii, A.I., et al, [1980, p.266-272, eng] 34-3371
Permafrost in the territory of the Boguchansk reservoir. Serov, A.G., et al, [1980, 9p., eng] 34-3392
Studying deformation of frozen peat and grounds under pressure of dies. Zelinger, F.F., et al, [1980, p.48-52, rus] 34-3592
Evaluating the possibilities of forecasting swamp transformations due to land reclamation. Galeta, I.F., [1978, p.12-22, rus] 34-3608
Biomass of microorganisms in the forest-swamp geosystems of southern taiga in the Irtysh River area. Antonenko, A.M., et al, [1978, p.74-80, rus] 34-3611
Role of the thermal factor in the formation of bogs in the Amur Region. Kholoden, E.E., [1978, p.6-10, eng] 34-3960
Formation and development of swamp systems. Kiriushkin, V.N., [1980, 88p., rus] 34-4014
Zonal and regional peculiarities of geocryological conditions in the southern part of the permafrost distribution area. Belopukhova, E.B., et al, [1980, p.120-126, rus] 34-4128
Accelerated growing of pine seedlings introduced beyond the polar circle. Daiasova, N.P., et al, [1979, p.107-108, rus] 34-4235
Metabolism of north taiga fir growing on drained and fertilized peat soil. Konovalov, V.N., [1979, p.147, rus] 34-4239

Pedogenesis
See: Soil formation

Pedology
See: Soil science

Pellets
See: Snow pellets

Penetration tests
Design of a large shaped charge suitable for the perforation of Arctic sea-ice. Jones, J.M., [1971, 32p., eng] 34-5
Bullet penetration in snow. Cole, D.M., et al, [1979, 23p., eng] 34-626
Test of snow fortifications. Farrell, D.R., [1979, 15p., eng] 34-1598
See also: Projectile penetration

Penetrometers
Snow classification in support of off-road vehicle technology Irwin, G.J., [1979, 29p., eng] 34-1113

Performance
Evaluation of streamflow forecasting methods. Lettenmaier, D.P., et al, [1979, p.48-55, eng] 34-1055
See also: Cold weather performance

Periglacial processes
Proceedings of the Scientific Conference on Altai Glaciology Problems. [1963, 259p., rus] 34-106
Periglacial vegetation of the Katun Range. Reviakina, N.V., [1973, p.136-140, rus] 34-112
Features indicative of permafrost. Black, R.F., [1976, p.75-94, eng] 34-510
Glacial landscapes and their spatial variability in the temperate and subpolar latitudes. Golubev, G.N., et al, [1978, p.277-282, eng] 34-795
Classification of cryogenic formations in Caucasus. Bondyrev, I.V., [1979, p.105-108, rus] 34-858
Applications of the sonic test to experimental freeze-thaw studies in geomorphic research. Fahey, B.D., et al, [1979, p.253-260, eng] 34-1282
Slope recession in the Onefour Badlands, Alberta, Canada: an initial appraisal of contrasted moisture regimes. Barendregt, R.W., et al, [1979, p.224-229, eng] 34-1451
Periglacial sorted circle and frost wedge formations in brownish soils of northern Germany. Blume, H.-P., et al, [1979, p.257-265, ger] 34-1495
Field trip No.1: Central Yukon-Alaska. Hughes, O.L., et al, [1979, 32p., eng] 34-1690
Field trip No.5: Northern Quebec—Labrador. Nicholson, F.H., [1979, 96p., eng] 34-1694
Field trip No.6: Rocky Mountains—Alberta foothills. Harris, S.A., et al, [1979, 43p. + 11p. append., eng] 34-1695
Ice stagnation and paleodrainage in and near an interlobate area. Rieck, R.L., [1979, p.219-235, eng] 34-1725
Seasonal and long-term dynamics of vegetation near the Dzhankuat glacier (Central Caucasus). Turmanina, V.I., et al, [1979, p.64-75, rus] 34-1756
Geocryology. Washburn, A.L., [1980, 406p., eng] 34-1987
Geocryology. Washburn, A.L., [1980, 406p., eng] 34-1987
Recent geomorphological processes in the periglacial zone of the southeastern Altai (the Tete River valley). Petkevich, M.V., [1967, p.98-107, rus] 34-1992
Glaciology and glacial and periglacial morphology of Fennoscandia and Iceland. Biays, P., [1978, p.268-277, fre] 34-2028
Problems in studying glaciological terminology. Kotliakov, V.M., [1979, p.179-184, rus] 34-2202
Geomorphological processes developing on artificial structures in the nivation-glaciation zone of the Khibiny Mountains. Semekhin, IU.V., et al, [1979, p.192-195, rus] 34-2204
Captive of perpetual cold. Vel'mina, N.A., [1979, 207p., rus] 34-2669
Sorted strips orientated by wind action: some observations from sub-Antarctic Marion Island. Hall, K., [1979, p.281-289, eng] 34-3195
Periglacial features from Morfee Mountain, North-Central British Columbia. Revel, R.D., [1980, p.349-356, eng] 34-3871
Periglacial flora of the Katunskiy Range. Polozhii, A.V., et al, [1979, p.18-23, rus] 34-4085

Periodic variations
20-yr cycle in Greenland ice core records. Hibler, W.D., III, et al, [1979, p.481-483, eng] 34-737
Upper forest limit in the mountains of the Boreal Zone of the USSR. Gorchakovskii, P.L., et al, [1978, p.349-363, eng] 34-800
Recent trends in the ice cover of the Arctic Ocean. Shpalkher, A.O., [1974, p.311-322, eng] 34-1202
Lake Champlain ice formation and ice free dates and predictions from meteorological indicators. Bates, R.E., et al, [1979, 21p., eng] 34-1745
Recent fluctuations of glaciation in the Alps. Vivian, R., [1978, p.277-279, fre] 34-2029
Time series analyses on the maximum depth of snow cover in Akita city Ito, T., [1979, p.267-275, jap] 34-2172

Permafrost
Heat transfer between underground structures and surrounding frozen grounds. Kapitonova, T.A., et al, [1975, p.22-29, rus] 34-217
Results of testing new diamond drilling bits in Southern Yakutia. Antipin, I.N., et al, [1975, p.37-40, rus] 34-219
Evaluating the influence of natural conditions on temperature regime of permafrost surrounding mining excavations. Fedorov, F.M., [1975, p.54-61 rus] 34-222
Method and apparatus for drilling in permafrost and the like. Skidmore, S.C., Jr., [1977, 16 col., eng] 34-268
Intensifying the performance of incomplete dug-out wells. IAkunin, IU.V., [1974, 14-22, rus] 34-751
Thermal rock drill for permafrost. Goldaev, I.P., et al, [1973, 4 col., rus] 34-1215
Holocene push-moraines in alpine permafrost. Haeberli, W., [1979, p.43-48, eng] 34-1263
Pingos of the Tuktoyaktuk area. Barr, W., et al, [1973, p.3-12, eng] 34-1296
Seismic regionalization of eastern Siberia and its geological and geophysical foundations. Solonenko, V.P., [1979, 435p., eng] 34-1571
New road construction equipment. Volkova, A.E., [1979, p.22-23, rus] 34-1722
Earthwork on construction sites of the Baykal Amur railroad. Meshkov, V.M., [1979, p.24, rus] 34-1723
Determining optimal volume of strip-pit works for winter periods in the northeastern USSR. Potemkin, S.V., [1979, p.38-40, rus] 34-1769
Polar research. Turner, M.D., [1980, p.43-44, eng] 34-1883
Rock thermophysics. Summaries of reports. [1973, 75p., rus] 34-1952
Using electric survey data in seismic microregionalization of permafrost areas. Basov, A.D., et al, [1975, p.67-68, rus] 34-2061
Permafrost research activities: a workshop. Péwé, T.L., [1978, p.321-326, eng] 34-2391
Boreal ecology. Pruitt, W.O., Jr., [1978, 73p., eng] 34-2581
Ways of increasing the reliability of blasting hard rocks. Basistov, M.A., [1980, p.4-6, rus] 34-2613
Environmental protection at construction sites of main pipelines. Gulikov, A.E., et al, [1979, p.12-13, rus] 34-2638
Moon, glaciers and permafrost. Strangeway, D.W., [1978, p.2-4, eng] 34-2649
Bank erosion in the southern Mackenzie River Delta, Northwest Territories, Canada. Outhet, D.N., [1974, 89p., eng] 34-2679
Physical and mechanical properties of Siberian larch wood preserved in permafrost for 24,500 years. D'iakonov, K.F., et al, [1979, p.121-122, rus] 34-2799
Instructions for designing underground low temperature storage for liquefied hydrocarbon gases. [1977, 29p., rus] 34-2864
Technology of open pit mining. Medvedev, K.D., ed, [1979, 164p., rus] 34-3023
Studying the freezing of water-filled blasting holes drilled in permafrost. Shebarshov, A.A., et al, [1979, p.127-131, rus] 34-3026
APOA bibliography. [1980, 74p., eng] 34-3092
Present state and prospects of excavating frozen ground and permafrost. Balbachan, I.P., et al, [1980, p.16-19, rus] 34-3184
Nature and importance of mass-wasting by rock glaciers in alpine permafrost environments. Barsch, D., [1977, p.231-245, eng] 34-3260
Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p. (Pertinent p.230-344), rus] 34-3600
Bechevnik: a river bank feature from Siberia. Hamelin, L.E., [1979, p.70-72, eng] 34-3765
Permafrost in Western Canada—a report of the Third International Permafrost Conference. Péwé, T.L., [1979, p.119-125, eng] 34-3981
Annual report 1978-79. [1979, 190p., eng] 34-3982
Community planning and development in Canada's Northwest Territories. Gerein, H.J.F., [1980, 175p., eng] 34-3984
Temporary recommendations for the design and construction of situ-cast bored piles in permafrost. Galdaenko, E.I., [1979, 34p., rus] 34-4104
See also: Continuous permafrost; Discontinuous permafrost; Sporadic permafrost; Subsea permafrost

Permafrost bases
Superposition method of determining temperature fields of ground beneath a single or a group of structures with complex shapes. Konovalov, A.A., [1976, p.22-41, rus] 34-703
Designing pile foundations for permafrost in earthquake areas. Grib, S.I., [1976, p.105-113, rus] 34-711
SNiP 11-18-76. Construction norms and rules; Part 11. Planning norms: Chapter 18. Footings and foundations on permafrost. [1979, 111p., eng] 34-1342
Traffic tests of expedient airfield construction concepts for possible application in the National Petroleum Reserve, Alaska. Burns, C.D., [1979, 138p., eng] 34-1361
Engineering geocryology. Mel'nikov, P.I., ed, [1979, 208p., rus] 34-1533
Forecasting deformation of thawing bearing ground. Dokuchaev, V.V., et al, [1979, p.40-53, rus] 34-1537
Selecting a method for using permafrost bases for buildings and structures. Khrustalev, L.N., [1979, p.91-103, rus] 34-1542
Engineering and geological conditions of construction on permafrost in Transbaikal and the Baykal Amur railroad area. Mosenkis, IU.M., [1979, p.104-108, rus] 34-1543
Reestablishing the frozen state of ground for preventing deformations of buildings and structures. Aleksandrov, IU.A., [1979, p.117-121, rus] 34-1545
Determining the settlement of thawing coarse clastic deposits in mountains of the northeastern USSR. Tal'bashev, V.N., et al, [1979, p.173-178, rus] 34-1551
Frozen earth dam on polygonal vein ice. Kuznetsov, A.L., [1979, p.198-201, rus] 34-1554
Standard foundation design for structures built on permafrost. [1979, p.36, rus] 34-1713
Design and construction of building foundations on permafrost. Goncharov, IU.M., et al, [1980, 241p., rus] 34-3180
Determining rheologic properties of perennially frozen hard fractured rocks. Tsytovich, N.A., et al, [1976, p.360-368, rus] 34-3224
Design of roads and railroads on natural bases in the southern permafrost distribution zone. Potatueva, T.V., [1980, p.84-90, rus] 34-3291
Ground ice and ice-rich ground as structure foundations. Vialov, S.S., et al, [1980, 159p., eng] 34-3405
Designing bases and foundations of buildings on thawed permafrost in seismic regions. Chernyshev, IU.G., et al, [1980, p.113-121, rus] 34-3477
Justification of earth-fill stages in embankment construction on permafrost. Kurochkin, A.A., [1978, p.55-59, rus] 34-3886
Geocryological investigations in West Yakutia. Mel'nikov, P.I., ed, [1980, 113p., rus] 34-4033
Impervious frozen ground screens in earth dams of the "frozen" type. Makarov, V.I., [1979, p.26-51, rus] 34-4154
Heat exchange of an artificially frozen dam with the atmosphere. Olovin, B.A., [1979, p.51-61, rus] 34-4155

Permafrost beneath lakes
Calculating evaporation from lakes in permafrost areas of the West Siberian Plain. Kachalova, T.V., [1979, p.50-60, rus] 34-830
Influence of paludification and water bodies on thermal regime of rocks. Garagulia, L.S., et al, [1979, p.37-42, rus] 34-1911
Thermal regime of rocks beneath a large thermokarst lake in Central Yakutia. Tishin, M.I., [1979, p.83-90, rus] 34-2779
Seasonal freezing of bottom sediments in Lake Syrdakh. Tishin, M.I., [1979, p.91-97, rus] 34-2780
Perennialy frozen lacustrine deposits of East Pamir and Central Tien Shan. Ermolin, E.D., [1978, p.11-19, rus] 34-2941
Study of shorelines in the building and operation of Siberian reservoirs. Vendrov, S.L., et al, [1980, 10p., eng] 34-3391
Loess-ice formation of East Siberia in Late Pleistocene and Holocene. Tomirdiaro, S.V., [1980, 184p., rus] 34-3478

Permafrost beneath oceans
See: Subsea permafrost

Permafrost beneath rivers
Studying river bed alluvium for designing seepage water intakes. Poriadin, A.F., [1974, p.29-51, rus] 34-753
Hydrogeological problems of the Baykal Amur railroad. Pinneker, E.V., et al, [1977, p.66-70, rus] 34-995
Influence of paludification and water bodies on thermal regime of rocks. Garagulia, L.S., et al, [1979, p.37-42, rus] 34-1911
Permafrost thickness and distribution in the low-mountain Amur River region. Lisitsyna, O.M., et al, [1979, p.207-214, rus] 34-1930
Water resourses of the Yenisey River basin and their mapping. Cherkasov, A.E., [1976, p.91-98, rus] 34-2008
Squad-patrol method. Vasil'ev, V., [1979, p.39-40, rus] 34-2120
Effect of permafrost on evolution of river beds and hydraulic structures built on river beds and river banks. Levashov, A.A., et al, [1977, p.12-17, rus] 34-2436
Influence of human factors on phytoplankton and water quality of the Angara River. Kozhova, O.M., et al, [1980, p.61-66, rus] 34-2707
Geocryologic characteristics of the central Zyryanka River basin. Vasil'ev, I.S., et al, [1978, p.66-78, rus] 34-2947
Extending the navigation period on Yakutian rivers. Zernov, S.IA., [1976, p.41-51, rus] 34-3340
Thermal regime of rivers in Central and West Siberian plains. Protopopov, V.V., et al, [1979, p.4-24, rus] 34-3769
Engineering and geological peculiarities of the Vilyuy River valley at the inflow of the Malaya Botuobiya tributary. Beliakov, L.P., et al, [1980, p.71-80, rus] 34-4041
Hydrogeologic and land reclamation conditions of the Khotay swamp in the Sarguzin depression. Zamana, L.V., [1979, p.24-33 rus] 34-4097

Permafrost beneath roads
Use of polymer materials in embankment slope stabilization. Stafeev, P.F., et al, [1979, p.127-131, rus] 34-129
Roadbed design for cold regions. Merenkov, N.D., [1979, p.8-9, rus] 34-329
Road construction in West Siberia. Cherednikov, IU.P., [1979, p.3-5, rus] 34-836
Eliminating seasonal fluctuations in construction. Fedorov, V., [1979, p.31-32, rus] 34-839
Construction of service roads in swamps. Zholobov, S.I., [1979, p.24-25, rus] 34-1181
Road pavements in oil producing areas of Tyumen'. Motylev, IU.L., [1979, p.21-22, rus] 34-1423
What kinds of pavements should be built in Yakutia. Sychov, V.P., [1979, p.22-24, rus] 34-1424
Improving the economic effectiveness of transportation in the Komi Autonomous Soviet Socialist Republic. Kuratova, E.S., [1979, p.42-46, rus] 34-1624
Peculiarities of motor transport under northern conditions. Khlebnikov, A.M., et al, [1979, p.47-59, rus] 34-1625
Technology of preparing and storing oil-stabilized soils. Bogomolov, IU.N., et al, [1980, p.6-8, rus] 34-3558
Assuring frost resistance of roads under Siberian conditions. Brediuk, G.P., [1980, p.105-111, rus] 34-3596
Building reinforced concrete road pavement on weak grounds. Kolchanov, A.D., et al, [1979, p.22-24, rus] 34-3856

Permafrost beneath structures
Economic peculiarities of organizing raw material bases for Yakutian industry. Kirillin, A.D., ed, [1977, 121p., rus] 34-115
Cost of natural gas production in the Yakut ASSR. Popova, V.K., [1977, p.86-92, rus] 34-118
Possibility of increasing gas supply to Central Yakutia. Emel'ianov, V.G., [1977, p.93-98, rus] 34-119
Environmental protection problems in the construction of gas industry objects. Poiseev, I.I., et al, [1977, p.99-104, rus] 34-120
Construction material and equipment base in West Siberia. Kuritsyn, IU.P., [1979, p.6-8, rus] 34-166
Planning and prospects of the development of residential construction industry. Sokolov, A.V., [1979, p.11-12, rus] 34-168
Evaluating social and economic effectiveness of mobile residential complexes. Galdukova, N.I., [1979, p.16-17, rus] 34-169
Subdividing linear parts of main pipelines into sections of different categories. Borodavkin, P.P., et al, [1979, p.31-32, rus] 34-172
Optimal design of steel frames for modular buildings in the Far North. Volovik, A.IA., et al, [1972, p.3-15, rus] 34-173
Selection of design schemes for standard industrial buildings. Arshinin, A.A., [1972, p.16-21, rus] 34-174
Small buildings of metallic folding sections. Nevenchenko, I.M., et al, [1972, p.22-32, rus] 34-175
Modular apartment buildings with "packet" type cells. Lazhintsev, V.I., [1972, p.33-42, rus] 34-176
Experimental study of the "packet" type apartment cells. Lazhintsev, V.I., et al, [1972, p.43-[illegible], rus] 34-177
Sectional buildings with bearing panels made of effective materials. Lazhintsev, V.I., et al, [1972, p.54-63, rus] 34-178
Methods of technical and economic evaluation of modular buildings and structures. Pal'tsevich, L.P., [1972, p.64-73, rus] 34-179
Determining optimal service life of modular buildings. Pal'tsevich, L.P., [1972, p.98-107, rus] 34-183
Requirements for structural elements of sectional buildings determined by the conditions of their transportation and assembly by helicopter. Bogdanov, V.A., [1972, p.108-120, rus] 34-184
Providing standard buildings for construction enterprises in the North. Peryshkin, E.I., et al, [1972, p.121-136, rus] 34-185
Present state of translucent enclosures in industrial buildings of Yakutia. Braman, N.V., et al, [1972, p.142-151, rus] 34-187
Thermal regime of permafrost beneath structures with foundations on fill. Mal'kov, IU.K., et al, [1975, p.71-76, rus] 34-224
Reliability of the Yakutsk gas distribution system. L'vova, Z.M., [1975, p.114-119, rus] 34-231
Hygienic evaluation of water supply and waste disposal along the Baykal Amur railroad. Pletnikova, I.P., et al, [1979, p.7-8, rus] 34-238
Shallow pipelines heated by electric cables. Kardymon, V.F., [1979, p.9, rus] 34-240
Electric panels for heating modular houses. Kazantsev, I.A., et al, [1979, p.10-11, rus] 34-241
Microclimates of 9-story residential buildings in Noril'sk. Vas'kovskiĭ, A.P., et al, [1979, p.12-13, rus] 34-242
Ventilation in the Nickel Plant foundry of the Noril'sk mining-metallurgical combine. Titov, V.P., et al, [1979, p.14-15, rus] 34-243
Water supply and drainage systems and waste water treatment in the Noril'sk area. Okhrimenko, S.S., [1979, p.28-29, rus] 34-245

Permafrost beneath structures *(cont.)*

Improvement and development of water supply and waste drainage systems in Siberia, the Far East, Far North and BAM area. [1979, p.30-31, rus] **34-246**

Boguchany hydroelectric plant. Blond, E.A., et al, [1978, p.1071-1077, eng] **34-323**

Analysis of soil state in the core of the Ust-Khantaika hydroelectric plant dam. Kronik, IA.A., et al, [1978, p.1105-1112, eng] **34-325**

Design of pile foundations for the Tobol'sk petrochemical complex. Babichev, Z.V., et al, [1979, p.16-17, rus] **34-334**

New houses for Bratsk. Gorbunov, IU.A., [1979, p.24, rus] **34-342**

Houses for the North. Dezhnova, V.K., [1979, p.28, rus] **34-343**

Sewage treatment systems for the Baykal Amur railroad area. Neparidze, R.Sh., et al, [1979, p.20-21, rus] **34-500**

Steel mains of the country. Melkonov, S.S., [1979, p.6-10, rus] **34-518**

Prefabrication stages in building construction. Makeev, A.M., et al, [1979, p.30-34, rus] **34-519**

In the forefront of scientific and technical progress. Fedorov, D.I., [1979, p.51-54, rus] **34-521**

Engineering manual for northern gas pipelines. Sedlukha, G.A., et al, [1979, 168p., rus] **34-581**

Calculating temperature fields of bearing ground beneath rock-fill foundations. Konovalov, A.A., [1976, p.3-21, rus] **34-702**

Evaluating the extent of thermal regime disturbance due to pile driving into permafrost. Gavrish, IU.E., et al, [1976, p.52-64, rus] **34-705**

Designing pile foundations for permafrost in earthquake areas. Grib, S.I., [1976, p.105-113, rus] **34-711**

Observing thermal regime of ground beneath an experimental building. Kabanov, E.P., et al, [1976, p.131-139, rus] **34-714**

Structure of boiler room foundations built on permafrost. Kabanov, E.P., et al, [1976, p.140-144, rus] **34-715**

Observation of building settlement in Magadan. Gorskii, V.F., et al. [1976, p.145-150, rus] **34-716**

Power transmission lines in high mountains. Davidian, D.B., [1979, 188p., rus] **34-721**

Water supply and sewage in areas of permafrost and severe climate. Stegantsev, V.P., [1974, p.3-13, rus] **34-750**

Thermal regime of water pipelines built in seasonally freezing ground. Pereleshin, R.S., et al, [1974, p.107-210, rus] **34-758**

Improving natural ventilation of underground utility ducts under permafrost conditions. Ivont'ev, V.V., [1974, p.127-136, rus] **34-760**

Experimental study of anchor support performance. Danilova, N.P., [1974, p.137-147, rus] **34-761**

Use of nonmetallic pipelines in construction. Borshcheva, N.I., et al, [1974, p.148-151, rus] **34-762**

Experimental project of sewage systems for the *Pionerskaia Rechka* sanatorium. Mochalov, I.P., et al, [1974, p.170-177, rus] **34-765**

Using frozen ground in earth dam construction. Kuznetsov, G.I., et al, [1979, p.92-96, rus] **34-806**

Water supply and sewage at the Baykal Amur railroad. Fedotov, V.P., [1975, 79p., rus] **34-847**

Pressure pipelines for water supply of railroads. Dikarevskii, V.S., et al, [1978, 278p. (Pertinent p. 198-231), rus] **34-849**

Experimental studies of the thermal regime of permafrost slopes of a stream valley at their junction with a filter dam. Belan, V.I., [1979, p.97-100, rus] **34-852**

Influence of severe climatic conditions on the amount and variation of moisture in walls of buildings in Noril'sk. Vas'kovskii, A.P., [1979, p.116-121, rus] **34-853**

Construction of situ-cast bored piles in Krasnoyarsk. Barmin, N.I., et al, [1977, p.126-131, rus] **34-993**

Hydrogeochemical investigations of the BAM zone. Lomonosov, I.S., [1977, p.87-94, rus] **34-996**

Interaction between natural and technical systems (railroad track operation taken as an example). Kaiuchkin, N.P., [1979, p.33-46, rus] **34-1101**

Railroad design for severe climatic conditions. Akkerman, G.L., [1978, p.29-34, rus] **34-1103**

Determining railroad construction costs in developing areas. Kopylenko, V.A., [1978, p.62-72, rus] **34-1104**

Evaluating structural design of modular buildings for repair shops of the Baykal Amur railroad. Leĭbman, G.D., et al, [1978, p.67-72, rus] **34-1105**

Organizing construction of the Surgut-Polotsk oil pipeline. Pavlov, N.M., [1979, p.5-6, rus] **34-1177**

Construction of the Urengoi-Cheliabinsk gas pipeline. Emel'ianov, V.A., et al, [1979, p.7-8, rus] **34-1178**

Scientific problems in the construction of northern gas lines. Ivantsov, O.M., [1979, p.10-15, rus] **34-1179**

Construction of residential and public buildings in West Siberia. Khaltum, A.D., [1979, p.16-18, rus] **34-1180**

Freezing of above-ground low-temperature gas pipelines. Dvoĭris, A.D., et al, [1979, p.28-29, rus] **34-1182**

Designing gas pipeline crossings of major river valleys in the North. Kondrat'ev, V.G., et al, [1979, p.30-31, rus] **34-1183**

Discussion on methods of concreting in the North. Ostryl, V.M., [1979, p.34, rus] **34-1184**

Design of reinforced concrete space structures for the North. Gorenshteĭn, B.V., [1979, 159p., rus] **34-1238**

Allowing for seismic effects when designing reinforced concrete culverts beneath embankments. Abduzhabarov, A.Kh., [1979, p.43-44, rus] **34-1256**

Safety rules for pipeline construction in West Siberia. Glazyrin, F.V., [1979, p.13-14, rus] **34-1257**

Forest land recultivation after pipeline construction. Vysotskii, A.N., [1979, p.26-27, rus] **34-1258**

SNiP 11-18-76. Construction norms and rules; Part 11. Planning norms: Chapter 18. Footings and foundations on permafrost. [1979, 11p., eng] **34-1342**

Performance of BTS-150 drills on construction sites of the Baykal Amur railroad. Bardyshev, O.A., et al, [1979, p.26-27, rus] **34-1428**

Design of the Urengoy-Cheliabinsk pipeline. Batozskii, V.D., [1979, p.9-10, rus] **34-1437**

Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] **34-1508**

Preliminary disturbance of tundra covers as a means for improving geocryological conditions. Grigor'ev, N.F., [1979, p.45-50, rus] **34-1511**

Fills as soil protecting covers and foundations for structures. Konstantinov, I.P., [1979, p.62-73, rus] **34-1513**

Engineering geocryology. Mel'nikov, P.I., ed, [1979, 208p., rus] **34-1533**

Relation between shear strength of ground adfreezing and the surface roughness of materials. Shusherina, E.P., et al, [1979, p.30-39, rus] **34-1536**

Generalizing the experience of foundation construction in complex geocryological conditions. Poluektov, V.E., et al, [1979, p.54-63, rus] **34-1538**

Using fraction-linear relationships in pile design. Mirenburg, IU.S., [1979, p.63-67, rus] **34-1539**

Performance of piles in plastic frozen ground. Slepak, M.E., [1979, p.67-71, rus] **34-1540**

Permafrost classification according to physicomechanical properties for pipeline construction. Maksimiak, R.V., [1979, p.165-172, rus] **34-1550**

Design and construction of pile foundations for elevated transport structures and scaffolded railroad and highway bridges in the North. Burkhanov, V.F., et al, [1979, p.73-84, rus] **34-1627**

Pipeline transport. IUfin, V.A., ed, [1974, 149p. (Pertinent p.38-74), rus] **34-1640**

Pipeline transport. IUfin, V.A., ed, [1976, 123p. (Pertinent p.30-60), rus] **34-1641**

Hydrogeologic studies for drainage and water supply engineering. Artsev, A.I., [1979, 285p., rus] **34-1653**

Proceedings, Vol.2 [1979, 255p., eng] **34-1678**

Interaction of permafrost and structures. Vialov, S.S., [1979, p.117-136, eng] **34-1683**

Design, construction and performance of earth dams on permafrost in the far north. Tsytovich, N.A., et al, [1979, p.137-149, eng] **34-1684**

Testing of pile foundations in permafrost areas. [1979, p.179-185, eng] **34-1687**

Experimental research on an embankment at the lower limit of alpine permafrost. Kuo-tung, C., et al, [1979, p 199-222, eng] **34-1689**

Allowing for temperature drop when building and operating northern gas lines. Lelman, P.P., et al, [1979, p.33-34, rus] **34-1712**

Testing ice-bound columnar piles for horizontal loads. Ablogin, E.A., et al, [1979, p.42-43, rus] **34-1717**

Symposium on Human Settlements Planning and Development in the Arctic. [1978, c455p., eng] **34-1767**

Prefabricated plates of ground floor framing in residential buildings of the North. Pikhovkin, V., et al, [1979, p.38-39, rus] **34-1771**

Sectional, instead of situ-poured, cylindrical pumping stations. Podgornyĭ, I., [1979, p.40-41, rus] **34-1772**

Planning and construction of Tynda. Trafbman, G., [1979, p.46-49, rus] **34-1775**

Organizing the preliminary period of the Kolyma hydroelectric power plant construction. Pavlov, B.N., et al, [1979, p.44-47, rus] **34-1850**

Improving the design of supports for overhead power lines of and exceeding 500 kv. Peterson, L.L., et al, [1979, p.48-51, rus] **34-1851**

Approximate calculation of permafrost thickness beneath underground pipelines. Kondrat'ev, V.G., [1979, p.34-36, rus] **34-1910**

Permafrost thawing beneath pipes with different pipe laying methods. Zamolotchikova, S.A., [1979, p.73-79, rus] **34-1916**

Reference manual for construction on permafrost. Antonov, A.F., et al, [1979, 674p., eng] **34-1966**

Rock fill stability on embankment slopes. Matveev, K.V., et al, [1977, p.80-87, rus] **34-2056**

Improving drilling equipment used under different climatic and geological conditions. Skrypnik, S.G. [1973, 123p. (Pertinent p.40-48), rus] **34-2102**

Electrical grounding at the Ust'-Ilim hydroelectric power plant. Zenger, E.A., et al, [1978, p.111-119, rus] **34-2105**

Ecologic considerations when making decisions concerning power-fuel supply systems. Alekseeva, G.V., et al, [1978, p.103-108, rus] **34-2248**

Forecasting changes in West Siberian landscapes due to pipeline construction. Moskalenko, N.G., [1978, p.115-119, rus] **34-2249**

Heat pipes as applied to thermal control of frozen ground. Vasil'ev, L.L., et al, [1979, p.511-520, eng] **34-2351**

Experience in the construction of pile foundations under frozen-ground conditions in the Vorkuta region. Eroshenko, V.N., et al, [1980, p.180-185, eng] **34-2375**

Generalization of experience in constructing buildings on fill. Gorianov, G.F., et al, [1980, p.185-188, eng] **34-2376**

Experimental field studies of the seismic properties of solidly frozen ground in the zone of the Baikal-Amur mainline with the use of explosions. Pavlenov, V.A., et al, [1980, p.202-206, eng] **34-2377**

Effect of permafrost on evolution of river beds and hydraulic structures built on river beds and river banks. Levashov, A.A., et al, [1977, p.12-17, rus] **34-2436**

Construction of underground structures for hydroelectric power stations in the Far North. Grossman, I.I., et al, [1979, 128p., rus] **34-2493**

Construction of water intake and treatment structures in the north. Godes, E.G., et al, [1980, 232p., rus] **34-2516**

Pressing environmental protection problems in the Far East. Konovalenko, V.G., ed, [1978, 179p., rus] **34-2532**

Protection and use of biologic resources in the Baykal Amur railroad construction zone. Man'ko, IU.I., [1978, p.7-9, rus] **34-2534**

Ways of improving the construction of power supply objects for the Baykal Amur railroad. Naianov, V.G., et al, [1980, p.43-45, rus] **34-2566**

Design and construction of power supply lines for the Baykal Amur railroad area. Shimkovich, V.G., [1980, p.45-58, rus] **34-2567**

Design and construction of electric substations in the western section of the Baykal Amur railroad. Gromov, V.V., et al, [1980, p.49-51, rus] **34-2568**

Design and construction of substations and maintenance depots for the central Baykal Amur railroad area. Filatov, A.M., [1980, p.51-53, rus] **34-2569**

Tynda-Prizeĭskaya 220 kv overhead line crossing the Zeya reservoir. Kirillova, G.G., et al, [1980, p.53-55, rus] **34-2570**

Preparing the earth for filling the watertight parts of dams in the Far North. Rasskazov, L.N., et al, [1980, p.62-65, rus] **34-2572**

Improving the organization of construction of overhead lines and substations in the North. Denisov, G.A., et al, [1980, p.31-38, rus] **34-2573**

Modern design of power line support foundations for Tyumen'. Kirtbaia, I.A., et al, [1980, p.38-44, rus] **34-2574**

Optimal structural design solutions for overhead lines in the North. Gablia, IU.A., et al, [1980, p.44-48, rus] **34-2575**

Structural design of steel power line supports for northern regions. Astafeev, A.M., et al, [1980, p.49-52, rus] **34-2576**

Construction of 220 kv substations under northern conditions. Kolbin, S.A., et al, [1980, p.52-54, rus] **34-2577**

Building new types of concrete dams under northern conditions. Kudoiarov, L.I., [1980, p.67-69, rus] **34-2579**

Determining electrical properties of grounds in petroleum regions. Kondrashov, A.G., [1980, p.10-11, rus] **34-2594**

Hydroelectric power generation in Siberia and the Far East. Neporozhnii, P.S., [1979, 151p., rus] **34-2600**

Melting intensity of frozen zones formed in cores of rock-fill dams during construction. Fevralev, A.V., [1979, p.88-91, rus] **34-2625**

From quantity to quality. Antonov, A.F., et al, [1979, p.18-20, rus] **34-2635**

Bearing strength of piles in structures of the petroleum industry. Kondrashov, A.G., [1980, p.4-6, rus] **34-2640**

Building design for construction in the North. Vas'kovskii, A.P., et al, [1979, 135p., rus] **34-2685**

Coal mine construction according to the projects of the Siberian State Planning Design and Experimental Institute of Mining. Materi, V.G., [1979, p.6-7, rus] **34-2697**

Construction of residential buildings in the Far East. Nesterov, V.V., [1979, p.4-5, rus] **34-2701**

Building roadbeds along main pipelines. Plotskii, A.S., et al, [1979, p.10, rus] **34-2793**

New soil stabilization technique. Lukanina, T.M., et al, [1979, p.10-11, rus] **34-2794**

Peculiarities of road maintenance in East Siberia and the Far East. Nikitin, G.G., [1980, p.19-20, rus] **34-2802**

Transport engineers and the economic development of West Siberia. Melkonov, S.S., [1980, p.3-6, rus] **34-2849**

Intermediate columnar bridge piers of the Baykal Amur railroad. Ryzhenko, A.P., [1980, p.11-12, rus] **34-2853**

Optimal versions of road construction stages in Yakutia (Discussion). Zhukov, E.A., [1979, p.17-18, rus] **34-2858**

Deformation of embankments built on permafrost. Ivanov, V.N., [1979, p.20-22, rus] **34-2859**

Roads. Rules of construction and acceptance of jobs. Approval for operation. [1973, 87p., rus] 34-2865
Construction in the Arctic and the Far North. [1970, 95p., rus] 34-2867
Use of "muskeg caps" to deter frost penetration under transmission line tower bases. Sims, R.A., [1978, p.116-131, eng] 34-2911
Cryogenic landscapes of the Baykal Amur railroad area in the Turan Range and their economic development. Nekrasov, I.A., et al, [1978, p.34-46, rus] 34-2944
Temperature regime of Baykal Lake shore deposits near Kurla Cape. Liubomirov, A.S., [1978, p.58-65, rus] 34-2946
More attention to access roads. Khvostik, I.F., [1980, p.5-6, rus] 34-2974
Concretes with antifreeze admixtures. Kostiaev, P.S., et al, [1980, p.44-46, rus] 34-2975
System of equipment reservation for the complex column technique of construction in West Siberia. Kurbatov, N.I., et al, [1980, p.13-15, rus] 34-2979
Concrete protection from brine and frost effects. Bugrim, S.F., et al, [1980, p.17-18, rus] 34-2980
Thermopiles for pipeline construction. Petrov, B.G., et al, [1980, p.34-36, rus] 34-2981
Pile foundations in permafrost. Targulian, IU.O., [1978, 158p., rus] 34-3022
Naleds and countermeasures. Shushakov, E.V., [1979, 64p., rus] 34-3073
Russian winter pipeline construction techniques. Sanders, W.M., [1980, p.59-66, 71, eng] 34-3086
Development of natural resources in Subarctic regions. Malakhova, M.M., [1980, p.20-21, rus] 34-3161
Scientific research in the last year of the Five-year Plan. Ivantsov, O.M., [1980, p.25-29, rus] 34-3163
Calculating nonstationary temperature and moisture regimes of washed-up earth structures in a thawed state. Popov, IU.A., et al, [1980, p.94-101, rus] 34-3167
Selecting the system and determining water exchange regime for swimming pools in regions with severe climatic conditions. Artemenok, N.D., et al, [1977, p.112-117, rus] 34-3179
Methods of studying experimental prestressed concrete spans of railroad bridges designed for the North. Skopich, V.M., et al, [1979, p.54-70, rus] 34-3181
Recommendations for the design and construction of tailings dumps under severe climatic conditions. [1977, 152p., rus] 34-3196
Ice rich soils as bases for structures. Dokuchaev, V.V., et al, [1980, p.133-147, eng] 34-3242
Permafrost investigations in pipeline construction. Baulin, V.V., et al, [1980, p.199-212, eng] 34-3246
Characteristics of the construction of frozen dams in Western Yakutia. Biianov, G.F., et al, [1980, p.213-226, eng] 34-3247
Seasonally operating units and their use in northern construction. Buchko, N.A., et al, [1980, p.227-240, eng] 34-3248
Construction of multi-storey buildings on cold piles in the city of Mirnyy. Makarov, V.I., et al, [1980, p.241-254, eng] 34-3249
Strength and stability of railway subgrades in permafrost regions. Peretrukhin, N.A., [1980, p.255-267, eng] 34-3250
Construction of earth embankments for highways in West Siberia. Popov, B.I., et al, [1980, p.269-281, eng] 34-3251
Construction by the method of stabilizing perennially frozen foundation soils. Porkhaev, G.V., et al, [1980, p.283-296, eng] 34-3252
Long-term settlement of foundations on permafrost. Vialov, S.S., [1980, p.297-311, eng] 34-3253
Interaction between permafrost and buildings. Vialov, S.S., [1980, p.379-406, eng] 34-3258
Design, construction and operation of earth dams in Arctic regions and under permafrost conditions. Tsytovich, N.A., et al, [1980, p.407-428, eng] 34-3259
Manual for designing water supply and sewage systems in permafrost areas. Fedorov, N.F., et al, [1979, 159p., rus] 34-3269
Protection of environments and mineral resources in mined permafrost areas. Maksimov, V.M., et al, [1980, p.27-36, rus] 34-3282
Rational utilization of engineering and geological resources. Demidiuk, L.M., [1980, p.42-50, rus] 34-3284
Environmental protection problems on pipeline construction sites. Spiridonov, V.V., et al, [1980, p.60-66, rus] 34-3287
Consequences of the disturbance of natural environments by the construction of linear structures in northern West Siberia. Sukhodol'skiĭ, S.E., [1980, p.67-71, rus] 34-3288
Typical natural environment disturbances in northern West Siberia due to construction of linear structures and forecasts of their development. Moskalenko, N.G., et al, [1980, p.71-78, rus] 34-3289
Environmental protection problems on the Baykal Amur railroad construction sites. Alekseev, V.R., et al, [1980, p.78-84, rus] 34-3290
Environmental protection problems related to the construction of embankments and porous fills on permafrost. Kaganovskaia, S.E., [1980, p.90-94, rus] 34-3292
Influence of cities on natural and climatic factors under polar conditions. Gorbacheva, V.M., [1980, p.94-99, rus] 34-3293
Changes in the properties of soils in the eastern foothills of the Polar Ural Mountains and the adjacent plain caused by construction of linear structures. Liverovskaia, I.T., [1980, p.116-121, rus] 34-3298
Influence of railroads on motor vehicle transport in Yakutia. Shtyrev, I.N., [1976, p.52-58, rus] 34-3341
Modern trends in design, construction and operation of land reclamation systems under Siberian conditions. Abstracts of papers presented at a seminar. [1978, 292p., rus] 34-3353
Deformation of hydraulic structures of land reclamation systems in Central Yakutia. Seliverstov, A.P., [1978, p.7-10, rus] 34-3354
Determining stability of tailings dump embankments. Zaslavskiĭ, S.V., [1978, p.76-77 rus] 34-3357
Water conduit earth structures of land reclamation systems in Central Yakutia. Krasnov, IU.N., et al, [1978, p.82-84, rus] 34-3358
All-Union scientific-technical conference on hydrotechnical construction in regions of permafrost and rigorous climate (CHC-78). Kudoiarov, I.I., et al, [1980, p.724-726, eng] 34-3375
Dynamics of the Baykal shore processes on the Tyya-Nizhneangarsk section. Bodenko, V.M., et al, [1980, 6p., eng] 34-3400
Ground ice and ice-rich ground as structure foundations. Vialov, S.S., et al, [1980, 159p., eng] 34-3405
Alaskan gas line planners—the elite of Arctic experts. Kelder, B., [1980, p.54, 58, 91, eng] 34-3409
Modern design and construction methods for the Surgut-Urengoy railroad. Korotchaev, D.I., et al, [1980, p.3-6, rus] 34-3597
Post-construction sagging of Baykal Amur railroad embankments. Guletskiĭ, V.V., et al, [1980, p.6-7, rus] 34-3598
Improving the effectiveness of construction of artificial structures along the Tynda-Urgal railroad. Aleksandrov, A.A., et al, [1980, p.10-12, rus] 34-3599
Construction of urban roads under northern conditions. Galuzin, V.M., ed, [1980, 134p., rus] 34-3762
Railroad track maintenance under northern conditions. Buzunov, Z.T., [1979, p.50-62, rus] 34-3776
Residential complexes for oil and gas field workers in West Siberia. Kravets, V.A., [1979, p.52-58, rus] 34-3817
Improving work organization and quality control at a most important construction site. Pelevin, I.V., [1980, p.20-21, rus] 34-3818
Development of a specialized production base in West Siberia. Gorlashkina, G.A., et al, [1980, p.21-22, rus] 34-3819
Pipeline for container transport of viscous oils and petroleum products. Ibragimov, D.B., et al, [1980, p.26-29, rus] 34-3820
Eliminating breakdowns during the testing of the Surgut-Polotsk oil pipeline. Riabov, G.N., [1980, p.32-33, rus] 34-3821
Technology and equipment for building pile foundations on permafrost. Rastegaev, I.K., [1980, 128p., rus] 34-3826
Heat transfer of a pipeline placed in an embankment. Furman, A.V., et al, [1979, p.116-119, rus] 34-3865
Physical, technical and functional aspects of building design for railroads. Kovrigin, S.D., ed, [1978, 202p., rus] 34-3910
Architectural design of railroad depots in the Northern Structural Climatic zone. Ermolaeva, E.I., [1978, p.19-23, rus] 34-3911
Physico-technical peculiarities of inflatable structures used in the North. Mikhailov, B.A., et al, [1978, p.24-28, rus] 34-3912
Young Pioneer camp boarding house "Severnyĭ Artek" of the Bratsk lumber industry complex. Grinev, S., [1979, p.28-29, rus] 34-3925
Local artificial freezing of thawed ground in Yakutsk. Maksimov, G., et al, [1980, p.9-11, rus] 34-3927
Determination of settlement due to thawing out of permafrost soil. Ponomarev, V.D., et al, [1980, p.328-331, eng] 34-3935
Engineering-economic determination of optimum depth of preconstruction thawing of permafrost soils under buildings. Khrustalev, L.N., [1980, p.332-337, eng] 34-3936
Performance of support walls built on permafrost. Novikov, F.IA., [1980, p.45-46, rus] 34-3957
Management of forest resources. Timofeev, N.V., [1979, 144p., rus] 34-4011
Evaluating the depth of seasonal thawing for operating electric power transmission lines. Spesivtsev, V.I., et al, [1980, p.3-10, rus] 34-4034
Foundations of power transmission lines and substations. Makarov, V.I., et al, [1980, p.10-22, rus] 34-4035
Experience in using the S.Kh.IA thermopile in Mirnyy. Molochnikov, A.D., [1980, p.23-26, rus] 34-4036
Determining position and form of zero isotherms in ground thawing under pressure seepage beneath regulators. Vasil'eva, I.A., et al, [1980, p.95-102, rus] 34-4044
Thermal regime of residential building foundations when there are unheated rooms beneath the building. Plotnikov, A.A., [1980, p.102-107, rus] 34-4045
Construction experience gained by the Trust "Uralstroimekhanizatsiia". Lamakina, V.S., [1980, p.2-4, rus] 34-4052
Special geocryologic-engineering-geologic regionalization of coal mining areas in South Yakutia. Kozlov, A.N., et al, [1980, p.111-115, rus] 34-4126
Planning environmental protection during the development of uninhabited areas. Kukuevitskiĭ, G.M., et al, [1979, p.50-53, rus] 34-4138
Problems in designing telemetering equipment for complex soil and climatic conditions in West Siberia. Tsibul'skiĭ, V.R., [1980, p.81-84, rus] 34-4148
Construction and operation of hydraulic structures in West Yakutia. Mel'nikov, P.I., ed, [1979, 88p., rus] 34-4149
In fruitful friendship with science. Biianov, G.F., [1979, p.7-10, rus] 34-4151
Construction of dams from local materials. Biianov, G.F., [1979, p.11-20, rus] 34-4152
Thermal regime variations in the Vilyuy hydroelectric power plant dam during operation. Medvedev, B.A., et al, [1979, p.20-26, rus] 34-4153
Accelerated roadbed construction method used at the Surgut-Urengoy railroad line. Meshkov, V.M., [1980, p.21-22, rus] 34-4244

Permafrost control

Economic peculiarities of organizing raw material bases for Yakutian industry. Kirillin, A.D., ed, [1977, 121p., rus] 34-115
Environmental protection problems in the construction of gas industry objects. Poiseev, I.I., et al, [1977, p.99-104, rus] 34-120
Testing plastic thermoinsulative covers in placer mines. Sherstov, V.A., et al, [1975, p.17-21, rus] 34-216
Reestablishment of temperature field in rocks around excavations after warm air flow is discontinued. Mal'kov, IU.K., et al, [1975, p.83-89, rus] 34-226
Houses for the North. Dezhnova, V.K., [1979, p.28, rus] 34-343
Observing thermal regime of ground beneath an experimental building. Kabanov, E.P., et al, [1976, p.131-139, rus] 34-714
Structure of boiler room foundations built on permafrost. Kabanov, E.P., et al, [1976, p.140-144, rus] 34-715
Improving natural ventilation of underground utility ducts under permafrost conditions. Ivont'ev, V.V., [1974, p.127-136, rus] 34-760
SNiP 11-18-76. Construction norms and rules; Part II. Planning norms: Chapter 18. Footings and foundations on permafrost. [1979, 111p., eng] 34-1342
Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] 34-1508
Ground temperature variations during the economic development of the northern Amur River area. Balobaev, V.T., et al, [1979, p.74-88, rus] 34-1514
Artificial cooling of ground with thermopiles. Vialov, S.S., et al, [1979, p.72-91, rus] 34-1541
Engineering and geological conditions of construction on permafrost in Transbaikal and the Baykal Amur railroad area. Mosenkis, IU.M., [1979, p.104-108, rus] 34-1543
Reestablishing the frozen state of ground for preventing deformations of buildings and structures. Aleksandrov, IU.A., [1979, p.117-121, rus] 34-1545
Strength and stability of frozen walls of shafts and mining excavations in permafrost. Vialov, S.S., et al, [1979, p.129-148, rus] 34-1547
Design and construction of pile foundations for elevated transport structures and scaffolded railroad and highway bridges in the North. Burkhanov, V.F., et al, [1979, p.73-84, rus] 34-1627
Heat transfer problems applied to the theory of well drilling. Pudovkin, M.A., et al, [1979, 182p., rus] 34-1650
Prefabricated plates of ground floor framing in residential buildings of the North. Pikhovkin, V., et al, [1979, p.38-39, rus] 34-1771
Reference manual for construction on permafrost. Antonov, A.F., et al, [1979, 674p., eng] 34-1966
Ecologic considerations when making decisions concerning power-fuel supply systems. Alekseeva, G.V., et al, [1978, p.103-108, rus] 34-2248
Heat pipes as applied to thermal control of frozen ground. Vasil'ev, L.L., et al, [1979, p.511-520, eng] 34-2351
Use of heat pipes for freezing soil, Pt. 1. Vasz, S.L., [1979, p.608, eng] 34-2416
Hydrothermal melioration of frozen rocks in the Northeastern USSR. Perl'shteĭn, G.Z., [1979, 304p., rus] 34-2530
Modern design of power line support foundations for Tyumen'. Kirtbaia, I.A., et al, [1980, p.38-44, rus] 34-2574
Artificial freezing of thawed ground around thermopiles. Kuramin, V.P., [1980, p.24-26, rus] 34-2599
Bearing strength of piles in structures of the petroleum industry. Kondrashov, A.G., [1980, p.4-6, rus] 34-2640
Thermopiles for pipeline construction. Petrov, B.G., et al, [1980, p.34-36, rus] 34-2981
Pile foundations in permafrost. Targulian, IU.O., [1978, 158p., rus] 34-3022
English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 2. [1980, 428p., eng] 34-3232

Permafrost control *(cont.)*

Forecast of changes in geocryological conditions during economic development of the permafrost region. Kudriavtsev, V.A., et al, [1980, p.57-69, eng] **34-3237**

Characteristics of the construction of frozen dams in Western Yakutia. Biianov, G.F., et al, [1980, p.213-226, eng] **34-3247**

Seasonally operating units and their use in northern construction. Buchko, N.A., et al, [1980, p.227-240, eng] **34-3248**

Construction by the method of stabilizing perennially frozen foundation soils. Porkhaev, G.V., et al, [1980, p.283-296, eng] **34-3252**

Protection of environments and mineral resources in mined permafrost areas. Maksimov, V.M., et al, [1980, p.27-36, rus] **34-3282**

Changes in geocryological conditions and permafrost forecasting in areas of mining exploration. Shvetsov, P.F., et al, [1980, p.36-41, rus] **34-3283**

Rational utilization of engineering and geological resources. Demidiuk, L.M., [1980, p.42-50, rus] **34-3284**

Influence of cities on natural and climatic factors under polar conditions. Gorbacheva, V.M., [1980, p.94-99, rus] **34-3293**

Cryogenic hydrogeochemical changes in alluvial deposits due to economic development of Central Yakutia. Anisimova, N.P., [1980, p.107-111, rus] **34-3296**

Increasing the stability of mining excavations in permafrost. El'chaninov, E.A., [1979, p.54-62, rus] **34-3908**

Local artificial freezing of thawed ground in Yakutsk. Maksimov, G., et al, [1980, p.9-11, rus] **34-3927**

Determination of settlement due to thawing out of permafrost soil. Ponomarev, V.D., et al, [1980, p.328-331, eng] **34-3935**

Experience in using the S.Kh.IA thermopile in Mirnyy. Molochnikov, A.D., [1980, p.23-26, rus] **34-4036**

Fluid-bearing thermopiles in foundation construction in the North. Makarov, V.I., et al, [1980, p.26-40, rus] **34-4037**

Control of radiation-thermal balance, the basis of environmental protection in permafrost areas. Kudriavtsev, V.A., [1980, p.3-6, rus] **34-4116**

Indices used in evaluating the stability of permafrost areas to variations in natural conditions and consequences of human activities in permafrost areas. Garagulia, L.S., et al, [1980, p.53-58, rus] **34-4121**

Planning environmental protection during the development of uninhabited areas. Kukuevitskiĭ, G.M., et al, [1979, p.50-53, rus] **34-4138**

Impervious frozen ground screens in earth dams of the "frozen" type. Makarov, V.I., [1979, p.26-51, rus] **34-4154**

See also: Permafrost preservation

Permafrost dating

Structure and absolute geochronology of alassy deposits in Central Yakutia. Katasonov, E.M., ed, [1979, 95p., rus] **34-1931**

Permafrost depth

Soils along the Baykal Amur railroad. Kovalev, R.V., ed, [1979, 304p., rus] **34-433**

Classification of soils in the far northeastern USSR. Ignatenko, I.V., [1979, p.168-176, rus] **34-452**

Genetic and agricultural peculiarities of gray non-podzolized cryogenic soils in Transbaikal. Ishigenov, I.A., [1979, p.184-190, rus] **34-454**

Soil structure and types of farm lands in the grassy larch forests of the Krasnoyarsk area. Krasekha, E.N., [1979, p.201-210, rus] **34-456**

Microbiological characteristics of cryogenic sod-podsol soils (Yeravninskaya Basin, Buryat ASSR). Nimaeva, S.Sh., et al, [1979, p.266-274, rus] **34-462**

Hydrothermal regime of cryogenic sod-taiga soils (Yeravninskaya Basin, Buryat ASSR). Dugarov, V.I., [1979, p.274-282, rus] **34-463**

Role of permafrost in the hydrothermal regime of soils. Savvinov, D.D., [1979, p.282-287, rus] **34-464**

Earth hummocks of the Canadian Arctic and Subarctic. Tarnocai, C., et al, [1978, p.581-594, eng] **34-659**

Arctic beach environment, south-west Devon Island, N.W.T. Owens, E.H., [1969, 152p., eng] **34-938**

Changes in moisture and thermal regimes of cryogenic soils in Central Yakutia during agricultural development. Gavril'ev, P.P., [1979, p.130-147, rus] **34-1520**

Central taiga soil cover in Eastern Transbaikal. Alifanov, V.M., [1975, p.159-161, rus] **34-1859**

Permafrost thickness and distribution in the low-mountain Amur River region. Lisitsyna, O.M., et al, [1979, p.207-214, rus] **34-1930**

Studying regimes of the Krasnoyarsk forest-steppe soils. Bugakov, P.S., et al, [1979, p.257-267, rus] **34-2745**

Noncoalescing perennially frozen rocks in the polar part of West Siberia. Gruzdov, A.V., [1980, p.97-101, rus] **34-2764**

Pleistocene dynamics of West Siberian permafrost (computerized simulation). Shpolianskaia, N.A., et al, [1980, p.127-141, rus] **34-2768**

Methods of determining active layer thickness. Vasil'ev, I.S., [1979, p.27-35, rus] **34-2772**

Charts of parameters of heat transfer between soil and atmosphere in winter. Are, A.L., [1979, p.36-46, rus] **34-2773**

Oats in the permafrost zone. Denisov, G.V., [1979, 184p., rus] **34-2901**

Geocryologic and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, [1978, 187p., rus] **34-2915**

Thickness of the seasonally freezing surface layer in Yakutia. Solov'ev, P.A., [1978, p.3-12, rus] **34-2916**

Permafrost distribution in Tibet and the Himalaya Mountains. Gorbunov, A.P., [1978, p.3-7, rus] **34-2939**

Geocryologic characteristics of the central Zyryanka River basin. Vasil'ev, I.S., et al, [1978, p.66-78, rus] **34-2947**

Cryolithozone of the Asiatic Arctic shelf. Antipina, Z.N., et al, [1979, p.183-189, rus] **34-3068**

West Siberia as an object of land reclamation. Panin, P.S., et al, [1979, p.3-4, rus] **34-3075**

Geographic studies of soil mantle in the Northern Yenisey River area and the Krasnoyarsk taiga. Korsunov, V.M., et al, [1978, p.5-14, rus] **34-3462**

Grouping coal deposits in permafrost areas according to geologic and mining development conditions. Gazizov, M.S., et al, [1979, p.45-50, rus] **34-3906**

Rational use of natural resources in the Central Lena River area. Gubkin, M.P., et al, [1979, p.10-14, rus] **34-4107**

Methods of studying frozen rock properties during geocryological surveying. Trush, N.I., [1980, p.67-75, rus] **34-4123**

Permafrost conditions of Franz Josef Land. Kondrat'eva, K.A., [1980, p.76-101, rus] **34-4124**

Permafrost distribution

Permafrost and paleogeographic problems of northwestern Siberia. Zemtsov, A.A., [1973, p.157-163, rus] **34-113**

Methods of determining the economic effectiveness of geological surveys. Andreev, M.G., et al, [1977, p.3-10, rus] **34-116**

Improving the organization of geological surveys. Ermolaev, K.M., [1977, p.19-26, rus] **34-117**

Evaluation and classification of soils in the Zeya-Bureya plain and areas adjacent to the BAM zone. Onishchuk, V.S., [1979, p.54-59, rus] **34-440**

Global seasonal variation of water vapor on Mars and the implications for permafrost. Farmer, C.B., et al, [1979, p.2881-2888, eng] **34-654**

Hydrogeological conditions of Yelanskiy artesian basin (Transbaikal). Bakhlov, A.S., [1979, p.53-58, rus] **34-717**

Mars: the wet look. Eberhart, J., [1979, p.108-110, eng] **34-738**

Engineering geology of the U.S.S.R. Vol.5, Altai and Ural Mountains. Trepettsov, E.V., ed, [1978, 220p., rus] **34-768**

Permafrost investigations in high-mountain regions. Gorbunov, A.P., [1978, p.283-294, eng] **34-796**

Problems in swamp hydrology. Novikov, S.M., ed, [1979, 134p., rus] **34-825**

Hydrologic and geothermal peculiarities of permafrost areas in the USSR. Fotiev, S.M., [1978, 236p., rus] **34-883**

Combined aerial survey of northwestern Siberia. Bogoiavlenskiĭ, B.A., et al, [1979, p.169-192, rus] **34-1074**

Geomorphic processes on the north slope of Alaska. Hall, D.K., [1979, 25p., eng] **34-1169**

Hydrochemistry of the northwestern part of the Central Siberian Plateau. Kuz'min, E.E., et al, [1979, 141p., rus] **34-1192**

Seasonal freezing effect on hydrogeological conditions of the Chul'man Basin. Buldovich, S.N., [1979, p.60-67, rus] **34-1394**

Landscapes affected by industrial activities in permafrost areas of the northern Tyumen' region. Grigor'ev, N.F., [1979, p.35-44, rus] **34-1510**

Geocryological conditions in the Yenisey River Valley (the Dudinka area) and changes induced by human activities. Kondrat'ev, V.G., et al, [1979, p.89-97, rus] **34-1515**

Evolution of permafrost in the taiga and in the forest-tundra, western Quebec-Labrador Peninsula. Payette, S., et al, [1976, p.203-220, eng] **34-1643**

Permafrost-hydrogeological regionalization of eastern Siberia. Mel'nikov, P.I., et al, [1979, p.19-30, rus] **34-1680**

Vegetation and revegetation within permafrost terrain. Bliss, L.C., [1979, p.31-50, eng] **34-1681**

Field trip No.1: Central Yukon-Alaska. Hughes, O.L., et al, [1979, 32p., eng] **34-1690**

Field trip No.2: Upper Mackenzie River Valley. Chatwin, S.C., et al, [1979, 53p., eng] **34-1691**

Field trip No.3: Lower Mackenzie River Valley. Heginbottom, J.A., ed, [1979, 66p. + appends., eng] **34-1692**

Field trip No.4: Northern Manitoba—District of Keewatin. Brown, R.J.E., et al, [1979, 76p., eng] **34-1693**

Field trip No.5: Northern Quebec—Labrador. Nicholson, F.H., [1979, 96p., eng] **34-1694**

Special geomorphologic map for studying permafrost. Gavrilov, A.V., et al, [1979, p.75-80, rus] **34-1770**

Rational use and preservation of Magadan area forests. Snytkin, G.V., [1973, p.119-125, rus] **34-1875**

Rock temperatures in the Kamchatka Peninsula. Zamolotchikova, S.A., et al, [1979, p.102-118, rus] **34-1918**

New data on geocryological structure of swamps in southern Yakutia. Chizhov, A.B., et al, [1979, p.134-140, rus] **34-1921**

Permafrost thickness and distribution in the low-mountain Amur River region. Lisitsyna, O.M., et al, [1979, p.207-214, rus] **34-1930**

Subsurface drainage in Siberia and methods of its investigation. Shen'kman, B.M., ed, [1979, 136p., rus] **34-1936**

Temporary variations in subsurface drainage of southwestern Transbaikal. Khaustov, A.P., [1979, p.91-96, rus] **34-1939**

Water resources of the Yenisey River basin and their mapping. Cherkasov, A.E., [1976, p.91-98, rus] **34-2008**

Comparative analysis of past and present glacial and permafrost relief forms in Asia. Kazakova, N.M., [1976, p.10-45, rus] **34-2010**

Ice caves and permafrost zones in southwest Alberta. Harris, S.A., [1979, p.61-70, eng] **34-2032**

Minerals and raw material bases in the Baykal Amur railroad area. Kogan, S.I., et al, [1979, p.1-5, rus] **34-2127**

Radar surveying in engineering-geological studies. Valiakh, V.M., et al, [1979, p.45-49, rus] **34-2128**

Ground ice and naleds in the Pamirs. Koreisha, M.M., [1979, p.71-76, rus] **34-2184**

Swamp land reclamation in West Siberia. Sazonov, A.G., [1978, p.119-122, rus] **34-2250**

Palsas and other permafrost features in the lower Rock Creek Valley, west-central Alberta. Brown, G., [1980, p.31-40, eng] **34-2274**

Recent relief-forming processes in Siberia. Ivanovskiĭ, L.N., ed, [1978, 139p., rus] **34-2293**

Slope denudation in the bald peak zone of western Sayan Rashba, I.N., [1978, p.69-87, rus] **34-2296**

Secrets of natural ice in Kazakhstan. Tokmagambetov, G.A., [1978, 151p., rus] **34-2312**

Effects of seasonal changes and ground ice on electromagnetic surveys of permafrost. Arcone, S.A., et al, [1979, 33p., eng] **34-2363**

Regularities governing natural phenomena and their forecasting. Agarkov, S.I., ed, [1980, 271p. (Pertinent p.87-162), rus] **34-2529**

Evaluating the distribution and utilization of ground water resources in the south of East Siberia. Pinneker, E.V., et al, [1976, p.80-[illegible], rus] **34-2643**

Captive of perpetual cold. Vel'mina, N.A., [1979, 207p., rus] **34-2669**

Engineering evaluation of the relief of the western part of the Baykal Amur railroad area. Druzhinin, M.K., [1979, p.120-127, rus] **34-2752**

Regularities governing the distribution, temperature and thickness of permafrost in the northwestern part of the West Siberian platform. Trofimova, V.T., et al, [1980, p.85-96, rus] **34-2763**

Regional and cryolithologic studies in Siberia. Nekrasov, I.A., ed, [1979, 160p., rus] **34-2769**

Studying ground ice in the Baykal Amur railroad area. Nekrasov, I.A., et al, [1979, p.17-26, rus] **34-2771**

Geocryologic-hydrologic regionalization of the northeastern Magadan region. Ivanova, L.D., [1979, p.60-68, rus] **34-2776**

Seismogeology and seismic regionalization of the Baykal Amur railroad route and the zone of its economic influence. Solonenko, V.P., [1979, 69p., rus] **34-2872**

Geocryologic and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, [1978, 187p., rus] **34-2915**

Thickness of the seasonally freezing surface layer in Yakutia. Solov'ev, P.A., [1978, p.3-12, rus] **34-2916**

Cryogenic structure of loose deposits in the southern part of the upper Zeya plain and the Ogoronsk Basin. Misharina, N.K., [1978, p.97-105, rus] **34-2926**

Geocryological conditions in Asian mountains and plains. Nekrasov, I.A., ed, [1978, 164p., rus] **34-2938**

Permafrost distribution in Tibet and the Himalaya Mountains. Gorbunov, A.P., [1978, p.3-7, rus] **34-2939**

Geocryologic zonation in Altai and Sayan mountains. Shats, M.M., [1978, p.27-33, rus] **34-2943**

Geocryologic characteristics of the central Zyryanka River basin. Vasil'ev, I.S., et al, [1978, p.66-78, rus] **34-2947**

Rock temperature in the central part of the Cherskiy Mountains. Dorofeev, I.V., [1978, p.79-86, rus] **34-2948**

Development of Pleistocene-Holocene glaciation of the Verkhoyansk-Kolyma Highlands. Shelnkman, V.S., [1978, p.87-104, rus] **34-2949**

Geocryologic-lithologic map of an interstream plateau. Klimovskiĭ, I.V., [1978, p.105-112, rus] **34-2950**

Ground ice in the area of a mountain pass in the Suntar-Khayat Range. Gordeev, P.P., [1978, p.123-130, rus] **34-2953**

Changes in thermal conditions of landscapes in the monsoon-permafrost mountain taiga of the Central and Lower Amur River area. Golubchikov, IU.N., [1980, p.62-73, rus] **34-3029**

Delineation and engineering characteristics of permafrost beneath the Beaufort Sea. Sellmann, P.V., et al, [1979, p.93-115, eng] **34-3056**

Buried valleys as a possible determinant of the distribution of deeply buried permafrost on the continental shelf of the Beaufort Sea. Hopkins, D.M., et al, [1979, p.135-141, eng] 34-3057
Late Quaternary history and the formation of sediments in the marginal and inland seas. Gershanovich, D.E., ed, [1979, 212p., rus] 34-3064
Cryolithozone of the Asiatic Arctic shelf. Antipina, Z.N., et al, [1979, p.183-189, rus] 34-3068
Thermal abrasion of seashores. Are, F.E., [1980, 159p., rus] 34-3071
Distribution of alpine permafrost in the northern hemisphere and its relationship to the environmental condition. Fujii, Y., [1980, p.41-52, jap] 34-3158
Studying the structure of forest tundra landscapes as indicators of engineering and geological conditions for economic development in West Siberia. Moskalenko, N.G., et al, [1979, p.88-100, rus] 34-3227
Geocryological survey methods. Kudriavtsev, V.A., et al, [1980, p.71-84, eng] 34-3238
Permafrost-hydrogeological zoning of eastern Siberia. Mel'nikov, P.I., et al, [1980, p.355-378, eng] 34-3257
Structure of land reclamation complexes of the Baykal Amur railroad area and forecasts of their functioning. Naprasnikov, A.T., [1978, p.39-40, rus] 34-3355
Specifics of soil formation and soils in West Siberia near the Yenisey River. Korsunov, V.M., et al, [1978, p.73-75, rus] 34-3356
Sources of water supply and thermal energy resources of the Beloozerskiĭ swamp. Starkov, V.M., [1978, p.90-92, rus] 34-3359
Permafrost in the territory of the Boguchansk reservoir. Serov, A.G., et al, [1980, 9p., eng] 34-3392
Geoengineering and hydrogeologic studies of the zone of influence of the Angara reservoirs and means of effective incorporation of these results in the national economy. Odintsov, M.M., et al, [1980, 10p., eng] 34-3393
Evaluating mudflow dangers in the Baykal Amur railroad area and regularities of mudflow formation. Lekhatinov, A.M., [1979, p.86-92, rus] 34-3479
Cryogenic relief of bald peaks in Pribaykal'e and Northe.n Transbaykal. Vyrkin, V.B., [1977, p.138-163, rus] 34-3607
Microbiological description of northern taiga bog-podzolic soils. Shamin, A.A., et al, [1979, p.151-156, rus] 34-3639
Fresh ground water resources and water supply of the western section of the Baykal Amur railroad area. Blokhin, IU.I., et al, [1977, p.127-134, rus] 34-3755
Forests of the Lake Baykal area (types of forest, microclimatology, characteristics of forest-forming species). Panarin, I.I., [1979, 263p., rus] 34-3759
Selective felling effect on water-controlling properties of Khamar-Daban pine forests. Biziukin, V.V., [1979, p.69-78, rus] 34-3772
Annual distribution of water balance elements through the altitudinal forest belts of the Lake Baykal Basin. Lebedev, A.B., et al, [1979, p.83-95, rus] 34-3774
English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 1. [1980, 399p., eng] 34-3827
Offshore permafrost in the Asiatic Arctic. Are, F.E., [1980, p.311-326, eng] 34-3848
More precise position of the southern permafrost boundary between the Urals and the Ob' River. Dubikov, G.I., [1980, p.347-356, eng] 34-3850
Permafrost in the mountains of Central Asia. Gorbunov, A.P., [1980, p.257-369, eng] 34-3851
Zonal and regional patterns of formation of the permafrost region in the U.S.S.R. Kudriavtsev, V.A., et al, [1980, p.371-389, eng] 34-3852
Cryolithological map of the U.S.S.R. (Principles and compilation). Popov, A.I., et al, [1980, p.391-399, eng] 34-3853
Periglacial features from Morfee Mountain, North-Central British Columbia. Revel, R.D., [1980, p.349-356, eng] 34-3871
Introduction to town planning and related matters in the Soviet North: based upon information collected during the exchange visit by a Canadian delegation to the Soviet Union—September 25th to October 7th, 1977. Slipchenko, W., et al, [1978, 426p., eng] 34-3896
Lithologic and petrographic peculiarities of rocks in the subpermafrost transition zone of the Sangarskiy coal deposit. Den'gina, N.I., et al, [1979, p.50-54, rus] 34-3907
Formation and development of swamp systems. Kiriushkin, V.N., [1980, 88p., rus] 34-4014
Hydromelioration of lands in the Buryat ASSR. Borisenko, I.M., ed, [1979, 110p., rus] 34-4095
Hydrogeologic-land reclamation regionalization of the Lake Baykal area and Western Transbaikal. Borisenko, I.M., [1979, p.5-15, rus] 34-4096
Geomorphologic conditions of land reclamation in the Upper Angara trough. Bazarov, D.-D.B., et al, [1979, p.77-93, rus] 34-4099
Regional geomorphology of newly developed areas. Kibal'chich, O.A., et al, [1979, 120p., rus] 34-4101
Methods of studying frozen rock properties during geocryological surveying. Trush, N.I., [1980, p.67-75, rus] 34-4123
Permafrost conditions of Franz Josef Land. Kondrat'eva, K.A., [1980, p.76-101, rus] 34-4124
History of permafrost development on Kamchatka Peninsula. Zamolotchikova, S.A., [1980, p.102-110, rus] 34-4125
Zonal and regional peculiarities of geocryological conditions in the southern part of the permafrost distribution area. Belopukhova, E.B., et al, [1980, p.120-126, rus] 34-4128
Hot mineral waters in the Baykal Amur railroad area and possibilities of their effective utilization. Volkova, V.P., et al, [1980, p.154-163, rus] 34-4132
How permanent is permafrost. Shvetsov, P.F., [1979, p.16-25, rus] 34-4147
Economic development and environmental protection in the Far North. Kriuchkov, V.V., et al, [1979, p.3-4, rus] 34-4214
Natural reestablishment of vegetational cover in Central Yakutia. Nakhabtseva, S.F., [1979, p.48-49, rus] 34-4225

Permafrost forecasting

Engineering and geological justifications of construction in the BAM area. Levkovich, A.I., [1979, p.157-164, rus] 34-1549
Computerized simulation of heat transfer in ground for improving information of geocryologic surveys. Tutkevich, A.A., [1979, p.43-52, rus] 34-1912
Development stages of geocryologic forecasting. Maksimova, L.N., [1979, p.57-62, rus] 34-1914
Types of geocryologic forecasting. Maksimova, L.N., [1979, p.63-72, rus] 34-1915
Permafrost thawing beneath pipes with different pipe laying methods. Zamolotchikova, S.A., [1979, p.73-79, rus] 34-1916
All-Union scientific-technical conference on the engineering-geological basis of seismic microregionalization, 1st, Tashkent, Nov. 18-20, 1987. Summaries of reports. [1975, 98p, rus] 34-2057
Using integrated geophysical methods for evaluating earthquake danger in permafrost areas. Pavlov, O.V., et al, [1975, p.66-67, rus] 34-2060
English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 2. [1980, 428p., eng] 34-3232
Forecast of changes in geocryological conditions during economic development of the permafrost region. Kudriavtsev, V.A., et al, [1980, p.57-69, eng] 34-3237
Geocryological survey methods. Kudriavtsev, V.A., et al, [1980, p.71-84, eng] 34-3238
Permafrost investigations in pipeline construction. Baulin, V.V., et al, [1980, p.199-212, eng] 34-3246
Environmental protection in economic development of permafrost areas. Grave, N.A., ed, [1980, 140p., rus] 34-3277
Forecasting changes in geocryologic conditions during economic development of permafrost areas. Kudriavtsev, V.A., [1980, p.5-12, rus] 34-3278
Forecasting changes in engineering-geocryological conditions induced by economic development of the north taiga zone in West Siberia. Grechishchev, S.E., et al, [1980, p.12-19, rus] 34-3279
Studying changes in permafrost conditions due to construction in the Ust'-Ilimsk area. Maksimova, L.N., et al, [1980, p.19-25, rus] 34-3280
Changes in geocryological conditions and permafrost forecasting in areas of mining exploration. Shvetsov, P.F., et al, [1980, p.36-41, rus] 34-3283

Permafrost heat balance

Geophysical aspects of the development of permafrost. Kudriavtsev, V.A., et al, [1980, p.63-79, eng] 34-3832

Permafrost heat transfer

Methods of studying and accounting for interactions between two ductless heat pipes laid in permafrost. Koshelev, A.A., [1979, p.85-90, rus] 34-199
Axisymmetric freezing and creep of water-saturated rocks. Dubina, M.M., et al, [1975, p.44-48, rus] 34-220
Thermal interaction of pipelines with the ground. Garagulia, L.S., et al, [1980, p.103-116, eng] 34-3240

Permafrost hydrology

Hygienic evaluation of water supply and waste disposal along the Baykal Amur railroad. Pletnikova, I.P., et al, [1979, p.7-8, rus] 34-238
Searching for water supply sources in the central BAM area. Durachenko, P.I., et al, [1979, p.8-9, rus] 34-239
Thermokarst terrain near Whitehorse, Yukon Territory. Klassen, R.W., [1979, p.385-388, eng] 34-289
Structural-statistical regularities governing runoff variations along the eastern section of the Baykal Amur railroad. Lob.nova, N.I., et al, [1977, p.77-85, rus] 34-354
Reference basin method of evaluating calculated maximum river discharge in the eastern section of the Baykal Amur railroad. Ponomareva, T.G., [1977, p.123-130, rus] 34-355
Sewage treatment systems for the Baykal Amur railroad area. Neparidze, R.Sh., et al, [1979, p.20-21, rus] 34-500
Hydrologic properties of subarctic organic soils. Kane, D.L., et al, [1978, 49p., eng] 34-627
Hydrogeological conditions of Yelanskiy artesian basin (Transbaikal). Bakhlov, A.F., [1979, p.53-58, rus] 34-717
Water supply and sewage in areas of permafrost and severe climate. Stegantsev, V.P., [1974, p.3-13, rus] 34-750
Problems in swamp hydrology. Novikov, S.M., ed, [1979, 134p., rus] 34-825
Nature and classification of palsa bogs. Novikov, S.M., et al, [1979, p.3-13, rus] 34-826
Studying water level regime of palsa bogs. Moskvin, IU.P., [1979, p.27-37, rus] 34-828
Calculating water level of palsa bogs from meteorological data. Novikov, S.M., et al, [1979, p.38-49, rus] 34-829
Reliability of experimental determination of basic hydrologic characteristics of swamps. Baliasova, E.L., [1979, p.96-109, rus] 34-833
Hydrologic and geothermal peculiarities of permafrost areas in the USSR. Fotiev, S.M., [1978, 236p., rus] 34-883
Hydrogeological problems of the Baykal Amur railroad. Pinneker, E.V., et al, [1977, p.66-70, rus] 34-995
Hydrogeochemical investigations of the BAM zone. Lomonosov, I.S., [1977, p.87-94, rus] 34-996
Hydrochemistry of the northwestern part of the Central Siberian Plateau. Kuz'min, E.E., et al, [1979, 141p., rus] 34-1192
Seasonal freezing effect on hydrogeological conditions of the Chul'man Basin. Buldovich, S.N., [1979, p.60-67, rus] 34-1394
Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] 34-1508
Hydrothermal variations in permafrost landscapes. Anisimova, N.P., [1979, p.148-152, rus] 34-1521
Engineering problems of geocryological surveying of BAM construction sites. Vialov, S.S., [1979, p.149-156, rus] 34-1548
Laboratory and field studies to investigate isotope effects occurring during the formation of permafrost. Michel, F., et al, [1979, 64p., eng] 34-1583
Soils of northern Yakutia. Elovskaia, L.G., et al, [1979, 303p., rus] 34-1652
Field trip No.3: Lower Mackenzie River Valley. Heg nbottom, J.A., ed, [1979, 66p. + appends., eng] 34-1692
Central taiga soil cover in Eastern Transbaikal. Alifanov, V.M., [1975, p.159-161, rus] 34-1859
Approximate calculation of permafrost thickness beneath underground pipelines. Kondrat'ev, V.G., [1979, p.34-36, rus] 34-1910
Influence of paludification and water bodies on thermal regime of rocks. Garagulia, L.S., et al, [1979, p.37-42, rus] 34-1911
Types of geocryologic forecasting. Maksimova, L.N., [1979, p.63-72, rus] 34-1915
New data on geocryological structure of swamps in southern Yakutia. Chizhov, A.B., et al, [1979, p.134-140, rus] 34-1921
Phase composition of moisture in permafrost of different origin and age. Ershov, E.D., et al, [1979, p.168-178, rus] 34-1925
Permafrost thickness and distribution in the low-mountain Amur River region. Lisitsyna, O.M., et al, [1979, p.207-214, rus] 34-1930
Subsurface drainage in Siberia and methods of its investigation. Shen'kman, B.M., ed, [1979, 136p., rus] 34-1936
Exploration and sources of ground water reserves in areas of Noril'sk-type commercial ore deposits. Roginets, I.I., [1979, p.83-87, rus] 34-1938
Temporary variations in subsurface drainage of southwestern Transbaikal. Khaustov, A.P., [1979, p.91-96, rus] 34-1939
Water resourses of the Yenisey River basin and their mapping. Cherkasov, A.E., [1976, p.91-98, rus] 34-2008
Role of lake and naled ice in the formation of natural dynamic systems. Ivanets, B.S., et al, [1976, p.57-66, rus] 34-2011
Hydrogeologic and geocryological conditions of the Barguzin trough and land reclamation. Adushinov, A.A., et al, [1976, p.36-59, rus] 34-2054
Ground ice and naleds in the Pamirs. Korelsha, M.M., [1979, p.71-76, rus] 34-2184
Regularities governing natural phenomena and their forecasting. Agarkov, S.I., ed, [1980, 271p. (Pertinent p.87-162), rus] 34-2529
Hydrothermal melioration of frozen rocks in the Northeastern USSR. Perl'shtein, G.Z., [1979, 304p., rus] 34-2530
Improving the quality of bridge construction with prefabricated parts for the Baykal Amur railroad. Rasskazov, I.D., et al, [1979, p.8-11, rus] 34-2591
Artificial freezing of thawed ground around thermopiles. Kuramin, V.P., [1980, p.24-26, rus] 34-2599
Geologic and geophysical investigations. Pinneker, E.V., ed, [1976, 110p., rus] 34-2642
Evaluating the distribution and utilization of ground water resources in the south of East Siberia. Pinneker, E.V., et al, [1976, p.80-92, rus] 34-2643
Captive of perpetual cold. Vel'mina, N.A., [1979, 207p., rus] 34-2669
Sandy soils in the southern Taz River Basin. Ovchinnikov, S.M., [1979, p.172-180, rus] 34-2744
Studying regimes of the Krasnoyarsk forest-steppe soils. Bugakov, P.S., et al, [1979, p.257-267, rus] 34-2745
Geomorphology and construction. Spiridonov, A.I., ed, [1979, 190p., rus] 34-2746

Permafrost hydrology *(cont.)*

Engineering evaluation of the relief of the western part of the Baykal Amur railroad area. Druzhinin, M.K., [1979, p.120-127, rus] **34-2752**

Denudation of the eastern Baykal Amur railroad area caused by human activities. Sokol'skii, A.M., [1979, p.159-164, rus] **34-2756**

Space methods of studying valleys and naleds in the Chul'man region. Topchiev, A.G., [1979, p.169-175, rus] **34-2758**

Regional and cryolithologic studies in Siberia. Nekrasov, I.A., ed, [1979, 160p., rus] **34-2769**

Geocryologic-hydrologic regionalization of the northeastern Magadan region. Ivanova, L.D., [1979, p.60-68, rus] **34-2776**

Development of permafrost and ground water naleds in the Iengra River Basin (the Baykal Amur railroad area). Boltsov, A.V., [1979, p.98-107, rus] **34-2781**

Calculating the interrelation of surface and ground water in permafrost areas. Ipat'eva, A.I., [1979, p.118-125, rus] **34-2899**

Geocryologic and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, [1978, 187p., rus] **34-2915**

Lacustrine deposits on the trap plateau of West Yakutia. Spesivtsev, V.I., [1978, p.37-42, rus] **34-2919**

Temperature of permafrost in the Prianabarskaya denudation plain. Kunitskii, V.V., [1978, p.42-49, rus] **34-2920**

Naleds and injected ice in the Buordakh River valley. Klimovskii, I.V., [1978, p.118-125, rus] **34-2929**

Chart of geocryologic and hydrologic regionalization of East Siberia. Ivanova, L.D., et al, [1978, p.137-145, rus] **34-2931**

Regime, balance and peculiarities of talik alimentation in Central Yakutian sandstone. Shepelev, V.V., [1978, p.145-162, rus] **34-2932**

Evaluating chemical runoff of some continuous water springs in Central Yakutia. Piguzova, V.M., et al, [1978, p.163-169, rus] **34-2933**

Formation of chemical composition of ground water in the Iengra River Basin (Baykal Amur railroad route). Boltsov, A.V., [1978, p.169-176, rus] **34-2934**

Possible landscape changes in the Lower Irtysh River area. Maslennikova, V.V., et al, [1980, p.49-53, rus] **34-3028**

Naleds and countermeasures. Shushakov, E.V., [1979, 64p., rus] **34-3073**

Regionalization of the southern West Siberian Plain for land reclamation. Uglanov, I.N., et al, [1979, p.116-133, rus] **34-3080**

Report on Soviet glaciological studies in 1975-1978. [1979, p.5-34, rus] **34-3116**

Program and guide for compilation of the applied part of the *World atlas of snow and ice resources*. [1979, p.35-63, rus] **34-3117**

Forecasting naled formation on small streams crossed by the Baykal Amur railroad. Samochkin, V.M., [1977, p.72-90, rus] **34-3176**

Pressure of naled ice on culvert walls in areas with severe climatic conditions. Ivchenko, A.B., [1977, p.91-100, rus] **34-3177**

Studying the structure of forest tundra landscapes as indicators of engineering and geological conditions for economic development in West Siberia. Moskalenko, N.G., et al, [1979, p.88-100, rus] **34-3227**

Hydrogeochemical investigations in permafrost studies. Anisimova, N.P., [1980, p.25-41, eng] **34-3235**

Natural waters, lithogenesis and relief. Zorin, L.V., [1979, 167p., rus] **34-3267**

Protection of environments and mineral resources in mined permafrost areas. Maksimov, V.M., et al, [1980, p.27-36, rus] **34-3282**

Rational utilization of engineering and geological resources. Demidiuk, L.M., [1980, p.42-50, rus] **34-3284**

Cryogenic hydrogeochemical changes in alluvial deposits due to economic development of Central Yakutia. Anisimova, N.P., [1980, p.107-111, rus] **34-3296**

Modern trends in design, construction and operation of land reclamation systems under Siberian conditions. Abstracts of papers presented at a seminar. [1978, 292p., rus] **34-3353**

Sources of water supply and thermal energy resources of the Beloozerskii swamp. Starkov, V.M., [1978, p.90-92, rus] **34-3359**

Lake and its drainage area as a single natural system. Drabkova, V.G., et al, [1979, 194p., rus] **34-3480**

Fresh ground water resources and water supply of the western section of the Baykal Amur railroad area. Blokhin, IU.I., et al, [1977, p.127-134, rus] **34-3755**

Forests of the Lake Baykal area (types of forest, microclimatology, characteristics of forest-forming species). Panarin, I.I., [1979, 263p., rus] **34-3759**

Annual distribution of water balance elements through the altitudinal forest belts of the Lake Baykal Basin. Lebedev, A.B., et al, [1979, p.83-95, rus] **34-3774**

Improving work organization and quality control at a most important construction site. Pelevin, I.V., [1980, p.20-21, rus] **34-3818**

English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 1. [1980, 399p., eng] **34-3827**

Conditions and geothermal consequences of the moisture exchange between the lithosphere and the atmosphere in permafrost regions. Shvetsov, P.F., [1980, p.109-117, eng] **34-3835**

Role of highly mineralized groundwater in the cooling of the lithosphere at depth. Chizhov, A.B., [1980, p.137-142, eng] **34-3837**

Effect of long-term cryometamorphism of earth materials on the formation of groundwater. Fotiev, S.M., [1980, p.177-194, eng] **34-3840**

Long term dynamics of groundwater icings. Romanovskii, N.N., et al, [1980, p.195-207, eng] **34-3841**

Model application to urban groundwater problems of Fairbanks, Alaska. Kane, D.L., [1980, 30p., eng] **34-3992**

Geocryological investigations in West Yakutia. Mel'nikov, P.I., ed, [1980, 113p., rus] **34-4033**

Fluid-bearing thermopiles in foundation construction in the North. Makarov, V.I., et al, [1980, p.26-40, rus] **34-4037**

Hydromelioration of lands in the Buryat ASSR. Borisenko, I.M., ed, [1979, 110p., rus] **34-4095**

Hydrogeologic-land reclamation regionalization of the Lake Baykal area and Western Transbaikal. Borisenko, I.M., [1979, p.5-15, rus] **34-4096**

Salinity of soils in the Tunguy depression. Borisenko, L.V., et al, [1979, p.34-41, rus] **34-4098**

Regularities governing formation of rock streams in North Transbaikal (Southern Muyskiy Range). Tiurin, A.I., et al, [1980, p.138-144, rus] **34-4130**

Hot mineral waters in the Baykal Amur railroad area and possibilities of their effective utilization. Vinkova, V.F., et al, [1980, p.154-163, rus] **34-4132**

How permanent is permafrost. Shvetsov, P.F., [1979, p.16-25, rus] **34-4147**

National handbook of recommended methods for water-data acquisition. Chapter 9. Snow and ice. [1977, 34p., eng] **34-4162**

Influence of water management practices on environments of the North. Voropaev, G.V., [1979, p.20-27, rus] **34-4166**

Stability of tundra ecosystems in North Siberia. Bol'shakov, V.N., et al, [1979, p.60-66, rus] **34-4170**

Environmental protection in North Siberia. Gerasimov, I.P., [1979, p.122-138, rus] **34-4174**

Paludification of land in the North European USSR. Pilavchenko, N.I., [1979, p.9-11, rus] **34-4216**

Permafrost mass transfer

Axisymmetric freezing and creep of water-saturated rocks. Dubina, M.M., et al, [1975, p.44-48, rus] **34-220**

Deformation of ice-wedge polygons, Garry Island, Northwest Territories. Mackay, J.R., [1980, p.287-291, eng] **34-2990**

Permafrost origin

Permafrost and paleogeographic problems of northwestern Siberia. Zemtsov, A.A., [1973, p.157-163, rus] **34-113**

Thermal equilibrium in the upper layer of the earth's crust. Pavlov, A.V., [1979, p.5-10, rus] **34-123**

Offshore permafrost, southern Beaufort Sea. Mackay, J.R., [1971, 18p., eng] **34-599**

Hydrologic and geothermal peculiarities of permafrost areas in the USSR. Fotiev, S.M., [1978, 236p., rus] **34-883**

Comparative analysis of past and present glacial and permafrost relief forms in Asia. Kazakova, N.M., [1976, p.10-45, rus] **34-2010**

Chemical composition of ground ice as an indication of ice formation conditions and origin of the enclosing rocks. Danilov, I.D., et al, [1980, p.119-126, rus] **34-2767**

Pleistocene dynamics of West Siberian permafrost (computerized simulation). Shpolianskaia, N.A., et al, [1980, p.127-141, rus] **34-2768**

Development of permafrost and ground water naleds in the Iengra River Basin (the Baykal Amur railroad area). Boltsov, A.V., [1979, p.98-107, rus] **34-2781**

Cryogenic sediments of the Muostakh Island. Ivanov, M.S., et al, [1978, p.12-25, rus] **34-2917**

Permafrost dynamics on the shores of the Sannikov Strait. Fartyshev, A.I., [1978, p.25-37, rus] **34-2918**

Glaciology at the Fourteenth Pacific Science Congress. Vtiurin, B.I., [1979, p.258, rus] **34-3150**

Hydrogeochemical investigations in permafrost studies. Anisimova, N.P., [1980, p.25-41, eng] **34-3235**

Natural waters, lithogenesis and relief. Zorin, L.V., [1979, 167p., rus] **34-3267**

English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 1. [1980, 399p., eng] **34-3827**

Classification of the relationship between climate and permafrost-climatic regions. Gavrilova, M.K., [1980, p.13-27, eng] **34-3829**

Geophysical aspects of the development of permafrost. Kudriavtsev, V.A., et al, [1980, p.63-79, eng] **34-3832**

Role of tectonics in the formation of permafrost on low plains. Baulin, V.V., et al, [1980, p.209-223, eng] **34-3842**

Cryolithogenesis as an independent hydrothermal type of sedimentary process. Gasanov, Sh.Sh., [1980, p.225-244, eng] **34-3843**

History of permafrost development on Kamchatka Peninsula. Zamolotchikova, S.A., [1980, p.102-110, rus] **34-4125**

How permanent is permafrost. Shvetsov, P.F., [1979, p.16-25, rus] **34-4147**

Permafrost physics

Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] **34-213**

Classification of the means of radio communication in mines. Elshin, V.K., et al, [1975, p.30-36, rus] **34-218**

Equilibrium model for hummocks (nonsorted circles), Garry Island, Northwest Territories. Mackay, J.R., [1979, p.165-167, eng] **34-287**

Frost heave at ground temperatures below 0C, Inuvik, Northwest Territories. Mackay, J.R., et al, [1979, p.403-405, eng] **34-290**

Shallow core drilling and bore-hole measurements in the permafrost of an active rock glacier near the Grubengletscher, Wallis, Swiss Alps. Barsch, D., et al, [1979, p.215-228, eng] **34-1279**

Permafrost classification according to physicomechanical properties for pipeline construction. Maksimiak, R.V., [1979, p.165-172, rus] **34-1550**

Proceedings. Vol.2. [1979, 255p., eng] **34-1678**

Geophysics in the study of permafrost. Scott, W.J., et al, [1979, p.93-115, eng] **34-1682**

All-Union scientific-technical conference on the engineering-geological basis of seismic microregionalization, 1st, Tashkent, Nov. 18-20, 1987. Summaries of reports. [1975, 98p. rus] **34-2057**

Dependence of permafrost seismicity on ground ice content. Dzhurik, V.I., [1975, p.24-25, rus] **34-2058**

Engineering and geological bases for seismic microregionalization of permafrost areas. Zarubin, N.E., [1975, p.59-60, rus] **34-2059**

Using integrated geophysical methods for evaluating earthquake danger in permafrost areas. Pavlov, O.V., et al, [1975, p.66-67, rus] **34-2060**

Submarine permafrost on the Alaskan continental shelf. Vigdorchik, M.E., [1980, 118p., eng] **34-2406**

Determining electrical properties of grounds in petroleum regions. Kondrashov, A.G., [1980, p.10-11, rus] **34-2594**

Classification of permafrost-cross section elements according to their electrochemical activity. Mel'nikov, V.P., et al, [1978, p.58-65, rus] **34-2922**

Deformation behaviour and strength of frozen sand. Parameswaran, V.R., [1980, p.74-88, eng] **34-2984**

Dielectric relaxation spectrum of ice measured with linear blocking layers. Gross, G.W., et al, [1980, p.914-927, eng] **34-3089**

Methods of investigations in engineering geocryology. Dement'ev, A.I., et al, [1967, 67p., eng] **34-3159**

English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 2. [1980, 428p., eng] **34-3232**

Use of AC current surveys in permafrost studies. Avetikian, IU.A., [1980, p.43-56, eng] **34-3236**

Electrical state of a permafrost cross section. Mel'nikov, V.P., et al, [1980, p.85-102, eng] **34-3239**

Portable drilling equipment for shallow permafrost sampling. Veillette, J.J., et al, [1980, 35p., eng] **34-3652**

English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 1. [1980, 399p., eng] **34-3827**

Methods of studying frozen rock properties during geocryological surveying. Trush, N.I., [1980, p.67-75, rus] **34-4123**

Permafrost preservation

Method and structural support for increasing load carrying capacity in permafrost. Long, E.L., [1978, 8 col., eng] **34-279**

Proceedings, Vol.2. [1979, 255p., eng] **34-1678**

Experimental research on an embankment at the lower limit of alpine permafrost. Kuo-tung, C., et al, [1979, p.199-222, eng] **34-1689**

Environmental protection problems on the Baykal Amur railroad construction sites. Alekseev, V.R., et al, [1980, p.78-84, rus] **34-3290**

Workshop on Environmental Protection of Permafrost Terrain. Brown, J., et al, [1980, p.30-36, eng] **34-4198**

See also. Permafrost control

Permafrost samplers

Cryogenic sediment sampler. Walkotten, W.J., [1977, 4 col., eng] **34-145**

Understanding permafrost: development and use of lightweight equipment. Veillette, J., et al, [1980, p.21-23, eng] **34-2610**

Drilling and coring of frozen ground in northern Alaska, Spring 1979. Lawson, D.E., et al, [1980, 14p., eng] **34-3333**

Permafrost structure

Results of studying coal mining conditions in the North-East. Vikulov, M.A., et al, [1975, p.3-8, rus] **34-214**

Features indicative of permafrost. Black, R.F., [1976, p.75-94, eng] **34-510**

Problems in swamp hydrology. Novikov, S.M., ed, [1979, 134p., rus] **34-825**

Studying water level regime of palsa bogs. Moskvin, IU.P., [1979, p.27-37, rus] **34-828**

Hydrologic and geothermal peculiarities of permafrost areas in the USSR. Fotiev, S.M., [1978, 236p., rus] 34-883
Forest tundras of the USSR. Parmuzin, IU.P., [1979, 295p., rus] 34-968
Shallow core drilling and bore-hole measurements in the permafrost of an active rock glacier near the Grubengletscher, Wallis, Swiss Alps. Barsch, D., et al, [1979, p.215-228, eng] 34-1279
Landscapes affected by industrial activities in permafrost areas of the northern Tyumen' region. Grigor'ev, N.F., [1979, p.35-44, rus] 34-1510
Engineering problems of geocryological surveying of BAM construction sites. Vialov, S.S., [1979, p.149-156, rus] 34-1548
Engineering and geological justifications of construction in the BAM area. Levkovich, A.I., [1979, p.157-164, rus] 34-1549
Determining the settlement of thawing coarse clastic deposits in mountains of the northeastern USSR. Tal'bashev, V.N., et al, [1979, p.173-178, rus] 34-1551
Frozen earth dam on polygonal vein ice. Kuznetsov, A.L., [1979, p.198-201, rus] 34-1554
Field trip No.6: Rocky Mountains - Alberta foothills. Harris, S.A., et al, [1979, 43p. + 11p. append., eng] 34-1695
Computerized simulation of heat transfer in ground for improving information of geocryologic surveys. Tutkevich, A.A., [1979, p.43-52, rus] 34-1912
Novaya Zemlya map of permafrost temperature; scale 1:2,500,000. Kondrat'eva, K.A., [1979, p.80-101, rus] 34-1917
New data on geocryological structure of swamps in southern Yakutia. Chizhov, A.B., et al, [1979, p.134-140, rus] 34-1921
Phase composition of moisture in permafrost of different origin and age. Ershov, E.D., et al, [1979, p.168-178, rus] 34-1925
Permafrost thickness and distribution in the low-mountain Amur River region. Lisitsyna, O.M., et al, [1979, p.207-214, rus] 34-1930
Subsurface drainage in Siberia and methods of its investigation. Shen'kman, B.M., ed, [1979, 136p., rus] 34-1936
Exploration and sources of ground water reserves in areas of Noril'sk-type commercial ore deposits. Roginets, I.I., [1979, p.83-87, rus] 34-1938
Temporary variations in subsurface drainage of southwestern Transbaikal. Khaustov, A.P., [1979, p.91-96, rus] 34-1939
All-Union scientific-technical conference on the engineering-geological basis of seismic microregionalization, 1st, Tashkent, Nov. 18-20, 1987. Summaries of reports. [1975, 98p, rus] 34-2057
Dependence of permafrost seismicity on ground ice content. Dzhurik, V.I., [1975, p.24-25, rus] 34-2058
Engineering and geological studies for seismic microregionalization of permafrost areas. Zarubin, N.E., [1975, p.59-60, rus] 34-2059
Using electric survey data in seismic microregionalization of permafrost areas. Basov, A.D., et al, [1975, p.67-68, rus] 34-2061
Proceedings of the Seminar III on Dry Valley Drilling Project, 1978. Nagata, T., ed, [1979, 245p., eng] 34-2285
Chemistry and clay mineralogy of cores 8, 9, 10, New Harbor, Antarctica. Ugolini, F.C., et al, [1979, p.84-102, eng] 34-2288
Captive of perpetual cold. Vel'mina, N.A., [1979, 207p., rus] 34-2669
Noncoalescing perennially frozen rocks in the polar part of West Siberia. Gruzdov, A.V., [1980, p.97-101, rus] 34-2764
Studying ground ice in the Baykal Amur railroad area. Nekrasov, I.A., et al, [1979, p.17-26, rus] 34-2771
Methods of determining active layer thickness. Vasil'ev, I.S., [1979, p.27-35, rus] 34-2772
Geocryological conditions of the Anadyr liman shores. Liubomirov, A.S., [1979, p.47-56, rus] 34-2774
Geocryologic-hydrologic regionalization of the northeastern Magadan region. Ivanova, L.D., [1979, p.60-68, rus] 34-2776
Geocryologic and geothermal conditions of the Zyryanka coal province. Dorofeev, I.V., [1979, p.68-74, rus] 34-2777
Influence of the frozen state of rocks on river shore erosion in permafrost areas. Are, F.E., [1979, p.107-117, rus] 34-2782
Formation of ice layers in coastal recesses of Arctic shores. Fartyshev, A.I., [1979, p.129-136, rus] 34-2784
Origin of ground ice layers in the Yenisey River Valley. Kazanskiĭ, O.A., [1979, p.136-143, rus] 34-2785
Cryogenic sediments of the Muostakh Island. Ivanov, M.S., et al, [1978, p.12-25, rus] 34-2917
Temperature of permafrost in the Prianabarskaya denudation plain. Kunitskiĭ, V.V., [1978, p.42-49, rus] 34-2920
Geocryological conditions of a Baykal Amur railroad construction site in the Olongoro River Basin. Sharapov, N.V., [1978, p.79-93, rus] 34-2924
Cryogenic structure of loose deposits in the southern part of the upper Zeya plain and the Ogoronsk Basin. Misharina, N.K., [1978, p.97-105, rus] 34-2926
Nomogram for determining total ice content of frozen ground. Shender, N.I., [1978, p.115-117, rus] 34-2928
Naleds and injected ice in the Buordakh River valley. Klimovskiĭ, I.V., [1978, p.118-125, rus] 34-2929
Geocryological conditions in Asian mountains and plains. Nekrasov, I.A., ed, [1978, 164p., rus] 34-2938
Cryogenic landscapes of the Baykal Amur railroad area in the Turan Range and their economic development. Nekrasov, I.A., et al, [1978, p.34-46, rus] 34-2944
Geocryologic-lithologic map of an interstream plateau. Klimovskiĭ, I.V., [1978, p.105-112, rus] 34-2950
Alassy of Central Yakutia. Bosikov, N.P., [1978, p.113-118, rus] 34-2951
Ice wedges in the alassy of Central Yakutia. Bosikov, N.P., [1978, p.119-122, rus] 34-2952
Ground ice in the area of a mountain pass in the Suntar-Khayat Range. Gordeev, P.P., [1978, p.123-130, rus] 34-2953
Vegetation specific thermokarst relief in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Sumina, O.I., [1979, p.118-132, rus] 34-3042
Thermal abrasion of seashores. Are, F.E., [1980, 159p., rus] 34-3071
Peculiarities of land reclamation in West Siberia. Panin, P.S., ed, [1979, 252p., rus] 34-3074
West Siberia as an object of land reclamation. Panin, P.S., et al, [1979, p.3-4, rus] 34-3075
Report on Soviet glaciological studies in 1975-1978. [1979, p.5-34, rus] 34-3116
Principles of cryolithological regionalization of the permafrost zone. Vtiurin, B.I., [1980, p.1-9, eng] 34-3233
Geocryological survey methods. Kudriavtsev, V.A., et al, [1980, p.71-84, eng] 34-3238
Electrical state of a permafrost cross section. Mel'nikov, V.P., et al, [1980, p.85-102, eng] 34-3239
Drilling and coring of frozen ground in northern Alaska, Spring 1979. Lawson, D.E., et al, [1980, 14p., eng] 34-3333
Recent geological processes and phenomena observed on the southern shore of Ob' Bay. Trepetsov, E.V., [1980, 4p., eng] 34-3402
English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 1. [1980, 399p., eng] 34-3827
Effect of long-term cryometamorphism of earth materials on the formation of groundwater. Fotiev, S.M., [1980, p.177-194, eng] 34-3840
Role of tectonics in the formation of permafrost on low plains. Baulin, V.V., et al, [1980, p.209-223, eng] 34-3842
Structure of the northern circumpolar permafrost region. Baranov, I.IA., [1980, p.327-345, eng] 34-3849
More precise position of the southern permafrost boundary between the Urals and the Ob' River. Dubikov, G.I., [1980, p.347-356, eng] 34-3850
Permafrost in the mountains of Central Asia. Gorbunov, A.P., [1980, p.257-369, eng] 34-3851
Zonal and regional patterns of formation of the permafrost region in the U.S.S.R. Kudriavtsev, V.A., et al, [1980, p.371-389, eng] 34-3852
Cryolithological map of the U.S.S.R. (Principles and compilation). Popov, A.I., et al, [1980, p.391-399, eng] 34-3853
Grouping coal deposits in permafrost areas according to geologic and mining development conditions. Gazizov, M.S., et al, [1979, p.45-50, rus] 34-3906
Lithologic and petrographic peculiarities of rocks in the subpermafrost transition zone of the Sangarskiy coal deposit. Den'gina, N.I., et al, [1979, p.50-54, rus] 34-3907
Increasing the stability of mining excavations in permafrost. El'chaninov, E.A., [1979, p.54-62, rus] 34-3908
Increased fracturing intervals in frozen and thawed zones of the Nizhne-Arkagalinskiy coal deposit. Kostenko, V.I., et al, [1974, p.111-116, rus] 34-3945
Formation of accumulative relief of the Ogoronskaya Basin (eastern part of the Baykal Amur railroad) under permafrost conditions. Kopylov, I.F., et al, [1979, p.9-14, rus] 34-4102
Methods of studying frozen rock properties during geocryological surveying. Trush, N.I., [1980, p.67-75, rus] 34-4123
History of permafrost development on Kamchatka Peninsula. Zamolotchikova, S.A., [1980, p.102-110, rus] 34-4125
Zonal and regional peculiarities of geocryological conditions in the southern part of the permafrost distribution area. Belopukhova, E.B., et al, [1980, p.120-126, rus] 34-4128
How permanent is permafrost. Shvetsov, P.F., [1979, p.16-25, rus] 34-4147
Economic development and environmental protection in the Far North. Kriuchkov, V.V., et al, [1979, p.3-4, rus] 34-4214
Paludification of land in the North European USSR. P'iavchenko, N.I., [1979, p.9-11, rus] 34-4216

Permafrost thermal properties

Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] 34-213
Testing plastic thermoinsulative covers in placer mines. Shpatov, V.A., et al, [1975, p.17-21, rus] 34-216
Evaluating the influence of natural conditions on temperature regime of permafrost surrounding mining excavations. Fedorov, F.M., [1975, p.54-61, rus] 34-222
Influence of mining conditions on temperature regime of permafrost around separate excavations. Fedorov, F.M., [1975, p.62-70, rus] 34-223
Determining thawing rate of permafrost with an alternating electrical current. Maksimenko, E.S., [1976, p.65-70, rus] 34-706
Hydrologic and geothermal peculiarities of permafrost areas in the USSR. Fotiev, S.M., [1978, 236p., rus] 34-883
Water erosion of frozen rocks and the evaluation of thermoerosional danger. Ershov, E.D., et al, [1979, p.67-76, rus] 34-1759
Influence of paludification and water bodies on thermal regime of rocks. Garagulia, L.S., et al, [1979, p.37-42, rus] 34-1911
Computerized simulation of heat transfer in ground for improving information of geocryologic surveys. Tutkevich, A.A., [1979, p.43-52, rus] 34-1912
Evaluating temperature regime of ground on the basis of system analysis of the effect of variability of temperature forming factors. Parmuzin, S.IU., [1979, p.53-57, rus] 34-1913
Effect of permafrost on evolution of river beds and hydraulic structures built on river beds and river banks. Levashov, A.A., et al, [1977, p.12-17, rus] 34-2436
Construction of underground structures for hydroelectric power stations in the Far North. Grossman, I.I., et al, [1979, 128p., rus] 34-2493
Heat and mass transfer during melting of perennially frozen rocks surrounding producing wells. Antipov, V.I., et al, [1979, p.47-51, rus] 34-2706
Temperature of Gydan Peninsula permafrost. Trofimov, V.T., et al, [1980, p.102-111, rus] 34-2765
Length of ground thawing season in East Yakutia. Vasil'ev, I.S., [1979, p.74-83, rus] 34-2778
Temperature of permafrost in the Prianabarskaya denudation plain. Kunitskiĭ, V.V., [1978, p.42-49, rus] 34-2920
Geothermal parameters of the Seligdar apatite deposits. Deviatkin, V.N., et al, [1978, p.94-96, rus] 34-2925
Thawing of ground under the influence of thermomechanical erosion. Khalikov, G.A., [1979, p.77-78, rus] 34-2935
Geocryologic zonation in Altai and Sayan mountains. Shats, M.M., [1978, p.27-33, rus] 34-2943
Reconstruction of paleoclimate from present day geothermal data. Balobaev, V.T., [1980, p.1-12, eng] 34-3828
Effect of developing a territory on the heat balance and the thermal and moisture regime of the ground in the northern part of Western Siberia. Moskalenko, N.G., et al, [1980, p.29-44, eng] 34-3830
Thermal physics of permafrost terrain. Pavlov, A.V., [1980, p.46-61, eng] 34-3831
Some aspects of the mechanics of frost fracturing of soils in the permafrost zone. Grechishchev, S.E., [1980, p.259-278, eng] 34-3845
More precise position of the southern permafrost boundary between the Urals and the Ob' River. Dubikov, G.I., [1980, p.347-356, eng] 34-3850
Calculating temperature fields in permafrost thawing at different temperatures (applied to mining problems). Gur'ianov, I.E., [1980, p.42-62, rus] 34-4039
Summer temperatures of cryosolic soils in the north-central Keewatin, N.W.T. Tarnocai, C., [1980, p.311-327, eng] 34-4070
Fate and effects of crude oil spilled on subarctic permafrost terrain in interior Alaska. Johnson, L.A., et al, [1980, 128p., eng] 34-4079
Control of radiation-thermal balance, the basis of environmental protection in permafrost areas. Kudriavtsev, V.A., [1980, p.3-6, rus] 34-4116
Rapid way of finding temperature shift in homogeneous seasonally and perennially frozen strata. Il'iasov, V.G., et al, [1980, p.26-34, rus] 34-4118
How permanent is permafrost. Shvetsov, P.F., [1979, p.16-25, rus] 34-4147

Permafrost thickness

Permafrost and paleogeographic problems of northwestern Siberia. Zemtsov, A.A., [1973, p.157-163, rus] 34-113
Canadian geothermal data collection - northern wells, 1976-77. Taylor, A.E., et al, [1977, 194p., eng] 34-733
Engineering geology of the U.S.S.R. Vol.5, Altai and Ural Mountains. Trepettsov, E.V., ed, [1978, 220p., rus] 34-768
Approximate calculation of permafrost thickness beneath underground pipelines. Kondrat'ev, V.G., [1979, p.34-36, rus] 34-1910
Permafrost thickness and distribution in the low-mountain Amur River region. Lisitsyna, O.M., et al, [1979, p.207-214, rus] 34-1930
Exploration and sources of ground water reserves in areas of Noril'sk-type commercial ore deposits. Roginets, I.I., [1979, p.83-87, rus] 34-1938

Permafrost thickness *(cont.)*

Engineering and geological studies for seismic microregionalization of permafrost areas. Zarubin, N.E., [1975, p.59-60, rus] **34-2059**

Engineering evaluation of the relief of the western part of the Baykal Amur railroad area. Druzhinin, M.K., [1979, p.120-127, rus] **34-2752**

Regularities governing the distribution, temperature and thickness of permafrost in the northwestern part of the West Siberian platform. Trofimova, V.T., et al, [1980, p.85-96, rus] **34-2763**

Noncoalescing perennially frozen rocks in the polar part of West Siberia. Gruzdov, A.V., [1980, p.97-101, rus] **34-2764**

Pleistocene dynamics of West Siberian permafrost (computerized simulation). Shpolianskaia, N.A., et al, [1980, p.127-141, rus] **34-2768**

Geocryologic and geothermal conditions of the Zyryanka coal province. Dorofeev, I.V., [1979, p.68-74, rus] **34-2777**

Length of ground thawing season in East Yakutia Vasil'ev, I.S., [1979, p.74-83, rus] **34-2778**

Geocryologic and hydrogeologic investigations in Yakutia Anisimova, N.P., ed, [1978, 187p., rus] **34-2915**

Thickness of the seasonally freezing surface layer in Yakutia. Solov'ev, P.A., [1978, p.3-12, rus] **34-2916**

Geothermal parameters of the Seligdar apatite deposits. Deviatkin, V.N., et al, [1978, p.94-96, rus] **34-2925**

Permafrost distribution in Tibet and the Himalaya Mountains. Gorbunov, A.P., [1978, p.3-7, rus] **34-2939**

Geocryologic zonation in Altai and Sayan mountains. Shats, M.M., [1978, p.27-33, rus] **34-2943**

Geocryologic characteristics of the central Zyryanka River basin. Vasil'ev, I.S., et al, [1978, p.66-78, rus] **34-2947**

Rock temperature in the central part of the Cherskiy Mountains. Dorofeev, I.V., [1978, p.79-86, rus] **34-2948**

Late Quaternary history and the formation of sediments in the marginal and inland seas. Gershanovich, D.E., ed, [1979, 212p., rus] **34-3064**

Cryolithozone of the Asiatic Arctic shelf. Antipina, Z.N., et al, [1979, p.183-189, rus] **34-3068**

Methods of investigations in engineering geocryology. Dement'ev, A.I., et al, [1967, 67p., eng] **34-3159**

Cryogenic relief of bald peaks in Pribaykal'e and Northern Transbaykal. Vyrkin, V.B., [1977, p.138-163, rus] **34-3607**

Reconstruction of paleoclimate from present day geothermal data. Balobaev, V.T., [1980, p.1-12, eng] **34-3828**

Offshore permafrost in the Asiatic Arctic. Are, F.E., [1980, p.311-326, eng] **34-3848**

Cryolithological map of the U.S.S.R. (Principles and compilation). Popov, A.I., et al, [1980, p.391-399, eng] **34-3853**

Lithologic and petrographic peculiarities of rocks in the subpermafrost transition zone of the Sangarskiy coal deposit. Den'gina, N.I., et al, [1979, p.50-54, rus] **34-3907**

Permafrost conditions of Franz Josef Land. Kondrat'eva, K.A., [1980, p.76-101, rus] **34-4124**

Permafrost transformation

Permafrost dynamics on the shores of the Sannikov Strait. Fartyshev, A.I., [1978, p.25-37, rus] **34-2918**

Late Quaternary history and the formation of sediments in the marginal and inland seas. Gershanovich, D.E., ed, [1979, 212p., rus] **34-3064**

Cryolithozone of the Asiatic Arctic shelf. Antipina, Z.N., et al, [1979, p.183-189, rus] **34-3068**

Thermal abrasion of seashores. Are, F.E., [1980, 159p., rus] **34-3071**

Terrain-forming processes in the permafrost region and the principles of their prevention and limitation in territories under development. Grave, N.A., et al, [1980, p.11-23, eng] **34-3234**

Hydrogeochemical investigations in permafrost studies. Anisimova, N.P., [1980, p.25-41, eng] **34-3235**

Forecast of changes in geocryological conditions during economic development of the permafrost region. Kudriavtsev, V.A., et al, [1980, p.57-69, eng] **34-3237**

Geocryological survey methods. Kudriavtsev, V.A., et al, [1980, p.71-84, eng] **34-3238**

Environmental protection in economic development of permafrost areas. Grave, N.A., ed, [1980, 140p., rus] **34-3277**

Studying changes in permafrost conditions due to construction in the Ust'-Ilimsk area. Maksimova, L.N., et al, [1980, p.19-25, rus] **34-3280**

Some technical solutions for environmental protection of construction and mining sites in permafrost areas. El'chaninov, E.A., et al, [1980, p.55-60, rus] **34-3286**

Problems in rational utilization of natural resources and environmental control in North Siberia. Cherskil, N.V., ed, [1979, 158p., rus] **34-4164**

Changes in geocryological conditions in economically developing areas in the North. Shvetsov, P.F., et al, [1979, p.112-120, rus] **34-4173**

Environmental protection in North Siberia. Gerasimov, I.P., [1979, p.122-138, rus] **34-4174**

Effect of human activities on the vegetational cover of Taymyr. Shchelkunova, R.P., [1979, p.139-152, rus] **34-4175**

Permafrost weathering

Engineering geology of the U.S.S.R. Vol.5, Altai and Ural Mountains. Trepettsov, E.V., ed, [1978, 220p., rus] **34-768**

Water erosion of frozen rocks and the evaluation of thermoerosional danger. Ershov, E.D., et al, [1979, p.67-76, rus] **34-1759**

Hydrogeologic and geocryological conditions of the Barguzin trough and land reclamation. Adushinov, A.A., et al, [1976, p.36-59, rus] **34-2054**

Exogenic relief forming process in the cryolithozone Sukhodrovskii, V.L., [1979, 280p., rus] **34-2684**

Thawing of ground under the influence of thermomechanical erosion. Khalikov, G.A., [1979, p.77-78, rus] **34-2935**

Cryogenic landscapes of the Baykal Amur railroad area in the Turan Range and their economic development Nekrasov, I.A., et al, [1978, p.34-46, rus] **34-2944**

Natural waters, lithogenesis and relief. Zorin, L.V., [1979, 167p., rus] **34-3267**

Cryogenic hydrogeochemical changes in alluvial deposits due to economic development of Central Yakutia Anisimova, N.P., [1980, p.107-111, rus] **34-3296**

Recent geological processes and phenomena observed on the southern shore of Ob' Bay. Trepetsov, E.V., [1980, 4p., eng] **34-3402**

Engineering and geological peculiarities of the Vilyuy River valley at the inflow of the Malaya Botuobiya tributary. Belikov, L.P., et al, [1980, p.71-80, rus] **34-4041**

Recent exogenic processes in the southeastern Lake Baykal area and their influence on hydromeliorative construction. Imetkhenov, A.B., [1979, p.94-104, rus] **34-4100**

Methods of studying frozen rock properties during geocryological surveying. Trush, N.I., [1980, p.67-75, rus] **34-4123**

Permeability

Some aspects of frost heave problems in road foundations Jagannatha Rao, P., [1976, p.293-307, eng] **34-212**

Study of the theoretical and practical determination of hydrogeological parameters in glacial outwash sands by surface geoelectrics. Urish, D.W., [1978, 336p., eng] **34-604**

Determining the volume of measurements for calculating water permeability of active layers in swamps. Baliasova, E.L., [1979, p.110-115, rus] **34-834**

Accuracy of determining soil freezing depth at observation points. Sokolova, N.V., [1979, p.122-128, rus] **34-1083**

Numerical simulation of water level variations in firn and comparison with field data in the Ewigschneefeld (Swiss Alps). Schommer, P., [1978, p.173-190, ger] **34-1268**

Consolidation of a thin cutoff wall of clay soils of liquid consistency. Chernyi, I.P., et al, [1979, p.462-465, eng] **34-1435**

Investigation of rates of water movement through frozen soil. Williams, P.J., et al, [1979, 36p. + 4 appends., eng] **34-1582**

Artificial freezing technique of increasing bottom zone permeability in gas-condensate wells of the Far North. Govdun, V.V., [1979, p.11-13, rus] **34-2048**

Determination of local permeabilities by a freezing process, in connection with predicting the success of a filter regeneration method. Schieff, H.O., [1979, p.473-478, ger] **34-2724**

Effects of volume change and alkalinity of water on the permeability of peat. Lieszkowszky, I.P., et al, [1978, p.25-36, eng] **34-2907**

Determining aquifer permeability from electrical logs in West Siberia. Balabanov, A.P., et al, [1979, p.50-54, rus] **34-3482**

Measurement of hydraulic conductivity of unsaturated Tomakomai silt. Fukuda, M., [1979, p.193-195, jap] **34-3507**

Water permeability of frozen non-cohesive soils and analyses of its variation during the snowmelt and thawing periods. Shtykov, V.I., [1979, p.91-98, rus] **34-3885**

Mathematical model of water infiltration into frozen soil. Motovilov, IU.G., [1978, p.62-66, eng] **34-3966**

See also: Seepage; Snow permeability

Petroleum

See: Crude oil

Petroleum industry

Construction material and equipment base in West Siberia Kuritsyn, IU.P., [1979, p.6-8, rus] **34-166**

Reconstruction of enterprises for the expansion of complete unit construction. Drobiazko, V.A., [1979, p.10-11, rus] **34-167**

Large units increase the effectiveness of segmental construction. Permikin, IU.N., et al, [1979, p.12-14, rus] **34-247**

Design of pile foundations for the Tobol'sk petrochemical complex. Dubelier, [illegible] et al, [1979, p.16-17 rus] **34-334**

Filter purification of waste waters from tire factories. Emelina, Z.G., et al, [1974, p.159-169, rus] **34-764**

Peculiarities and problems of inter-regional transportation and economic communications of the northern zone of the USSR. Puzanova, V.F., [1979, p.20-33, rus] **34-1622**

Pipeline transport. IUfin, V.A., ed, [1974, 149p. (Pertinent p.38-74), rus] **34-1640**

Pipeline transport. IUfin, V.A., ed, [1976, 123p (Pertinent p.30-60), rus] **34-1641**

Implementing progressive methods of structural design Barskii, B.I., et al, [1979, p.13-14, rus] **34-1708**

Standard foundation design for structures built on permafrost [1979, p.36, rus] **34-1713**

Studying properties of G class cement and the "Permafrost" mixture according to the national standards. Khusov, A.A., [1979, p.31-34, rus] **34-1755**

Determining electrical properties of grounds in petroleum regions. Kondrashov, A.G., [1980, p.10-11, rus] **34-2594**

Technology and organization of the Trans Alaska pipeline construction. Panov, IU.E., et al, [1979, p.30-33, rus] **34-2639**

Studying temperature fields produced by heat transfer between ground and gas and oil pipelines Bronfenbrener, L.E., [1980, p.12-15, rus] **34-2641**

Heat and mass transfer during melting of perennially frozen rocks surrounding producing wells. Antipov, V.I., et al, [1979, p.47-51, rus] **34-2706**

Technical and economic characteristics of the Trans-Alaska Oil Line. Panov, IU.E., et al, [1980, p.38-39, rus] **34-2982**

Northern skills may go south to Antarctica within a decade [1977, p.36-37, eng] **34-3018**

Design of casing programs. Bulatov, A.I., et al, [1979, 280p. (Pertinent p.85-91, 135-141), rus] **34-3070**

Improving the structure of management of the West Siberian Petroleum Complex. Vozniak, V.IA., [1980, p.22-24, rus] **34-3162**

Scientific research in the last year of the Five-year Plan Ivantsov, O.M., [1980, p.25-29, rus] **34-3163**

Studying the structure of forest tundra landscapes as indicators of engineering and geological conditions for economic development in West Siberia. Moskalenko, N.G., et al, [1979, p.88-100, rus] **34-3227**

Protection of environments and mineral resources in mined permafrost areas. Maksimov, V.M., et al, [1980, p.27-36, rus] **34-3282**

Timan-Pechora Complex. Construction problems Kochurin, N.N., [1979, 167p., rus] **34-3666**

Residential complexes for oil and gas field workers in West Siberia. Kravets, V.A., [1979, p.52-58, rus] **34-3817**

Development of a specialized production base in West Siberia. Gorlashkina, G.A., et al, [1980, p.21-22, rus] **34-3819**

Cargo to the north by transport planes. Chudnovskii, A., [1978, p.8-10, rus] **34-3900**

Drilling fluids for West Siberian fields. Kaz'min, A.V., et al, [1979, p.52-53, rus] **34-4137**

Planning environmental protection during the development of uninhabited areas. Kukuevitskii, G.M., et al, [1979, p.50-53, rus] **34-4138**

Problems in designing telemetering equipment for complex soil and climatic conditions in West Siberia. Tsibul'skii, V.R., [1980, p.81-84, rus] **34-4148**

Influence of water management practices on environments of the North. Voropaev, G.V., [1979, p.20-27, rus] **34-4166**

Petroleum products

In-situ burning of the products of a subsea blowout. [1977, 48p. + appends., eng] **34-488**

Geologic framework, hydrocarbon potential, environmental conditions, and anticipated technology for exploration and development of the Beaufort Shelf north of Alaska. Grantz, A., et al, [1980, 42p., eng] **34-2721**

Petrochemical product admixtures for concretes. Cherepanov, IU., et al, [1980, p.42-43, rus] **34-3970**

Petroleum transportation

Economic analysis of an Arctic icebreaking tanker transportation system: nuclear vs. fossil. Porter, T.J., [1977, 107p., eng] **34-725**

Organizing construction of the Surgut-Polotsk oil pipeline Pavlov, N.M., [1979, p.5-6, rus] **34-1177**

Marine transportation systems of the Trans-Alaskan Pipeline System [1971, 158p., eng] **34-2631**

Environmental assessment of the Alaskan continental shelf, Vol.8, Transport [1979, 588p., eng] **34-3052**

Development of natural resources in Subarctic regions Malakhova, M.M., [1980, p.20-21, rus] **34-3161**

Proceedings. [1979, 271p., eng] **34-3437**

Petroleum development in northern Alaska. Bregha, F., [1979, p.223-253, eng] **34-3440**

Pipeline for container transport of viscous oils and petroleum products. Ibragimov, D.B., et al, [1980, p.26-29, rus] **34-3820**

Eliminating breakdowns during the testing of the Surgut-Polotsk oil pipeline. Riabov, G.N., [1980, p.32-33, rus] **34-3821**

Mechanical welding [illegible] Borutskii, A.I., et al, [1980, p.36-37, rus] **34-3822**

Heat transfer of a pipeline placed in an embankment Furman, A.V., et al, [1979, p.116-119, rus] **34-3865**

Preliminary feasibility study of a tanker transportation system serving the northwest coast of Alaska. Final report. Halebsky, M., et al, [1980, 3 vols., eng] **34-3947**

Phase transformations
Solution of a problem of freezing of an unlimited slab of fine grained material, allowing for moisture migration. Kurilko, A.S., et al, [1975, p.77-82, rus] 34-225
Similarity criterion for freezing processes in dispersed media. Kozhevnikov, N.N., [1975, p.90-93, rus] 34-227
Critical exponents and scaling laws for a zero-temperature phase transition in some rigorously solvable models. Georgiev, G.I., et al, [1978, p.L877-L879, eng] 34-477
Energy required for the formation of liquid spherical layers on globular nuclei and thermodynamic equilibrium conditions of ice-water-vapor systems. Badakhov, Kh.I., [1979, p.27-34, rus] 34-607
Investigation of freezing of salt solutions in cells. Hayashi, Y., et al, [1979, p.459-463, eng] 34-647
Diagram of metastable states of water. Kosiakov, V.I., et al, [1979, p.707, eng] 34-701
Determining unfrozen water content from the relation of phase transformation temperature to moisture content of freezing ground. Konovalov, A.A., et al, [1976, p.42-51, rus] 34-704
Effect of cryogenic processes on the formation of gold-scattering water flows. Pliusnin, A.M., et al, [1979, p.700-703, rus] 34-811
Determining surface temperature gradient at the liquid phase boundary of the sea-atmosphere system. Mel'nikov, G.S., et al, [1979, p.212-219, rus] 34-877
Quantitative analysis of the relation between the main thermophysical characteristics of frozen soils. Konovalov, A.A., [1979, p.23-37, rus] 34-980
Model for the ice VII-ice VIII transition. Haus, J.W., et al, [1977, p.2148-2153, eng] 34-1603
Electromagnetic radiation of snow and ice during dynamic processes. Kachurin, L.G., et al, [1979, p.583-585, rus] 34-1638
Heat transfer problems applied to the theory of well drilling. Pudovkin, M.A., et al, [1979, 182p., rus] 34-1650
Phase composition of moisture in permafrost of different origin and age. Ershov, E.D., et al, [1979, p.168-178, rus] 34-1925
Active centers at the surface of fine rock particles. Ananian, A.A., [1979, p.196-200, rus] 34-1928
Lower boundary of water-ice phase transitions in frozen fines. Ananian, A.A., et al, [1979, p.201-206, rus] 34-1929
Studying phase transformations of water when reacting with different underlying surfaces. Girs, S.P., et al, [1979, p.83-90, rus] 34-2016
Studies of heat and mass transfer at the lower surface of the Ross Ice Shelf. Zotikov, I.A., et al, [1979, p.178, rus] 34-2201
Integral balance approach for determination of heat transfer potential in porous bodies under different types of boundary conditions. Srivastava, K.K., et al, [1979, p.447-457, eng] 34-2346
Crystallization-film mechanism of water migration toward frost penetration front. Kaliuzhnyĭ, I.L., et al, [1980, p.3-12, rus] 34-3458
Thermal interaction between gas line and frozen soils. Krivoshein, B.L., et al, [1980, p.1083-1088, eng] 34-3560
Theoretical analysis of homogeneous crystallization of supercooled water droplets in a constant homogeneous electric field. Klingo, V.V., et al, [1979, p.15-25, rus] 34-3567
Influence of point charge electric field on homogeneous crystallization of supercooled water drops. Klingo, V.V., et al, [1979, p.26-32, rus] 34-3568
Microinterferometer for studying phase transformations of water on ice-forming sublayers. Girs, S.P., et al, [1979, p.57-62, rus] 34-3571
Electron microscope studies of low temperature ice modification. Girs, S.P., et al, [1979, p.63-67, rus] 34-3572
Experimental study of the freezing of water drops in a constant electric field. Shlykov, V.V., [1979, p.68-75, rus] 34-3573
Optimal Stefan type problem. IUrĭl, A.D., [1980, p.1317-1321, rus] 34-3683
Influence of a phase transition of ice on the heat and mass balance of comets. Klinger, J., [1980, p.271-272, eng] 34-3721
An NMR study of the phase transition of water in models and in frozen clays. Kvlividze, V.I., et al, [1980, p.81-96, eng] 34-3833
Water permeability of frozen non-cohesive soils and analyses of its variation during the snowmelt and thawing periods. Shtykov, V.I., [1979, p.91-98, rus] 34-3885
Finite element method of calculating ground freezing depth. Rudykh, O.L., et al, [1978, p.81-85, rus] 34-3892
Heterogeneous nucleation of ice on surfaces of liquids. Rosinski, J., [1980, p.1829-1832, eng] 34-3922
The Haus-Tanaka model for the Ice VII-Ice VIII phase transition. Ho-Ting-Hun, J., et al, [1980, p.107-113, eng] 34-4076
Thermal conductivity of frozen and thawed sands, depending on density and moisture content. Ananian, A.A., et al, [1980, p.195-200, rus] 34-4135
Interferometric observation of natural convection during freezing from a vertical flat plate. Buren, P.D., et al, [1980, p.375-378, eng] 34-4248
Heat transfer analysis for solidification of rounds. Tien, R.H., [1980, p.378-379, eng] 34-4249
Photogrammetric surveys
New map "Gepatschferner 1971", scale 1:10,000. Brunner, K., [1978, p.133-151, ger] 34-1265
Contributions to the survey of the Gepatschferner. Finsterwalder, R., [1978, p.153-159, ger] 34-1266
Measurement of displacements from aerial photographs. Flotron, A., [1979, p.39-44, ger] 34-1319
Glacier measurement in the region of Tauernkraftwerke A.G. Kropatschek, E., [1970, p.36-43, ger] 34-1665
Photographic reconnaissance
Amount of geocryologic information obtained from the SN-6 films used in aerial photography of the Chul'man region. Gavrilov, A.V., [1979, p.141-153, rus] 34-1922
Naleds in the Aldan-Timpton interfluve. Chizhova, N.I., [1980, p.60-63, rus] 34-2801
Aerial photographic surveys of ice cover for hydraulic engineering. Losev, S.M., et al, [1979, p.140-150, rus] 34-3009
Photographic techniques
Detection of frost shattering in high mountains by means of photography in the blue and near ultraviolet spectra. Galibert, G., [1979, p.81-92, fre] 34-2318
Photography
Modeling lake landscapes of the Selenga River delta, its dynamics and development. Bogoiavlenskiĭ, B.A., [1979, p.105-128, rus] 34-1071
Studying grounded ice hummocks from aerial photographs. Losev, S.M., et al, [1977, p.127-132, rus] 34-3315
See also: Infrared photography; Radar photography; Space-borne photography; Stereophotography
Photointerpretation
Evaluation of LANDSAT data for geographical applications: a survey of an Arctic/Subarctic mountain area, Varanger Peninsula, northern Norway. Helldén, U., et al, [1979, p.57-70, eng] 34-657
Microrelief identification criteria of palsa bogs. Novikov, S.M., et al, [1979, p.14-26, rus] 34-827
Aerial reconnaissance of landscapes affected by industrial activities. Solntseva, N.P., et al, [1979, p.258-278, rus] 34-956
Usefulness of aerial photography in evaluating lands in the Lake Baykal area of the BAM zone. Parshikov, V.P., [1979, p.278-285, rus] 34-957
History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, [1979, 215p., rus] 34-1067
Air- and spaceborne remote sensing in hydrogeology and engineering geology. Sadov, A.V., et al, [1979, 223p., rus] 34-1225
Use of NOAA environmental satellites to remotely sense ocean phenomena. Koffler, R., [1975, p.835-839, eng] 34-1236
Summary report. [1978, 23p., eng] 34-1406
Ground control and interpretation of satellite imagery in Antarctica. Lutsenko, E.I., [1978, p.164-166, eng] 34-1415
Space techniques of studying snow cover of the Earth. Deleur, M.S., [1980, 77p., rus] 34-2601
Regional and cryolithologic studies in Siberia. Nekrasov, I.A., ed, [1979, 160p., rus] 34-2769
External orientation of satellite scanning radiometer photographs. Bushuev, A.V., [1977, p.17-25, rus] 34-3303
Determining ice cover characteristics from spaceborne photographs of scanning infrared radiometers. Masanov, A.D., [1977, p.26-33, rus] 34-3304
Using statistical characteristics of radar photographs of ice covers for their recognition. Aleksandrov, V.IU., et al, [1977, p.151-154, rus] 34-3318
Recording geothermal flow by thermal aerial survey. Shilin, B.V., et al, [1980, p.321-323, rus] 34-3638
Mapping Alai Range glaciers from photographs taken by the *Soyuz-22* spaceship. Kravtsova, V.I., et al, [1979, p.56-62, rus] 34-3691
Glaciological studies by Landsat imagery of perimeter of Dronning Maud Land, Antarctica. Orheim, O., [1978, p.69-80, eng] 34-3987
Photometry
Space techniques of studying snow cover of the Earth. Deleur, M.S., [1980, 77p., rus] 34-2601
Photosynthesis
Modeling productivity and frost hardiness of plants. Kurets, V.K., et al, [1979, 15p., rus] 34-4012
Analyzing temperature dependence of photosynthesis in closely related plants of Arctic and temperate latitudes. P'iankov, V.I., [1980, p.37-41, rus] 34-4145
Relation between light requirements and pigmentation of tundra plants on Wrangel Island. Aleksandrova, N.M., et al, [1979, p.70-71, rus] 34-4230
Specifics of photosynthesis and photosynthetic metabolism in Arctic plants. Mokronosov, A.T., et al, [1979, p.85-86, rus] 34-4233
Physical properties
Thermophysical characteristics of moisture and gas-saturated sandstones at naturally low temperatures. Grolsman, A.G., et al, [1975, p.106-107, rus] 34-229
Quantitative analysis of the relation between the main thermophysical characteristics of frozen soils. Konovalov, A.A., [1979, p.23-37, rus] 34-980
Volume weight and thermophysical properties of soils. Makarychev, S.V., et al, [1978, p.10-12, rus] 34-1441
Ice-dammed lakes: a critical review of their nature and behaviour. Blachut, S.P., et al, [1976, 90p., eng] 34-1607
Physical mechanism of freezing in rocks. Aguirre-Puente, J., [1979, p.271-284, fre] 34-2331
Construction, widening and performance of a freeway across organic terrain. Mirza, C., [1978, p.50-80, eng] 34-2909
Mechanism of formation of visible-absorbing excess electrons in crystalline ice near 273K. Gillis, H.A., et al, [1980, p.1248-1252, eng] 34-3650

New powerful pneumatic drift. Gurkov, K.S., et al, [1979, p.8-10, rus] 34-192
High-speed tube diesel hammer URB-500. Cherviakova, G.I., et al, [1979, p.25, rus] 34-589
Evaluating the extent of thermal regime disturbance due to pile driving into permafrost. Gavrish, IU.E., et al, [1976, p.52-64, rus] 34-705
Vibrating equipment used in mining construction. Shiral, E.N., [1978, 262p., rus] 34-848
Investigation of the bearing capacity of piles driven into plastic frozen soil. Cherniaev, V.I., et al, [1979, p.32-36, eng] 34-981
Driving assembly KN-3-16 for vertical and inclined piles. Khalbullaev, K.A., [1977, p.91-94, rus] 34-990
Generalizing the experience of foundation construction in complex geocryological conditions. Poluektov, V.E., et al, [1979, p.54-63, rus] 34-1538
Experience in the construction of pile foundations under frozen-ground conditions in the Vorkuta region. Eroshenko, V.N., et al, [1980, p.180-185, eng] 34-2375
Construction in the Arctic and the Far North. [1970, 95p., rus] 34-2867
Use of ice as the soil base for structures. Galdaenko, E.I., [1980, 92p., eng] 34-2986
Pile foundations in permafrost. Targulian, IU.O., [1978, 158p., rus] 34-3022
Technology and equipment for building pile foundations on permafrost. Rastegaev, I.K., [1980, 128p., rus] 34-3826
Pile extraction
Technology and equipment for building pile foundations on permafrost. Rastegaev, I.K., [1980, 128p., rus] 34-3826
Pile load tests
Testing of pile foundations in permafrost areas. [1979, p.179-185, eng] 34-1687
Technology and equipment for building pile foundations on permafrost. Rastegaev, I.K., [1980, 128p., rus] 34-3826
Pile structures
Design of pile foundations for the Tobol'sk petrochemical complex. Babichev, Z.V., et al, [1979, p.16-17, rus] 34-334
Houses for the North. Dezhnova, V.K., [1979, p.28, rus] 34-343
High-speed tube diesel hammer URB-500. Cherviakova, G.I., et al, [1979, p.25, rus] 34-589
Stresses beneath pilework produced by freezing of water saturated ground. Koniushenko, A.G., [1976, p.80-91, rus] 34-708
Approximate calculation of frost heave forces acting on pilework. Koniushenko, A.G., [1976, p.92-100, rus] 34-709
Designing pile foundations for permafrost in earthquake areas. Grib, S.I., [1976, p.105-113, rus] 34-711

Pile structures *(cont.)*

Observing thermal regime of ground beneath an experimental building. Kabanov, E.P., et al, [1976, p.131-139, rus] 34-714

Experience in the construction of pile foundations under frozen-ground conditions in the Vorkuta region. Eroshenko, V.N., et al, [1980, p.180-185, eng] 34-2375

Bearing strength of piles in structures of the petroleum industry. Kondrashov, A.G., [1980, p.4-6, rus] 34-2640

Pile foundations in permafrost. Targulian, IU.O., [1978, 158p., rus] 34-3022

Design and construction of building foundations on permafrost. Goncharov, IU.M., et al, [1980, 241p., rus] 34-3180

Ice rich soils as bases for structures. Dokuchaev, V.V., et al, [1980, p.133-147, eng] 34-3242

Construction of multi-storey buildings on cold piles in the city of Mirnyy. Makarov, V.I., et al, [1980, p.241-251, eng] 34-3249

Piles

Method and structural support for increasing load carrying capacity in permafrost. Long, E.L., [1978, 8 col., eng] 34-279

Bearing strength of batter piles in permafrost. Roman, L.T., et al, [1976, p.114-121, rus] 34-712

Observation of building settlement in Magadan. Gorskil, V.F., et al, [1976, p.145-150, rus] 34-716

Design of bases and foundations on subsiding soils. Mustafaev, A.A., [1979, 368p., rus] 34-720

Vibrating equipment used in mining construction. Shiral, E.N., [1978, 262p., rus] 34-848

Construction of situ-cast bored piles in Krasnoyarsk. Barmin, N.I., et al, [1977, p.126-131, rus] 34-993

Offshore structures in ice. Schwarz, J., [1976, p.469-479, eng] 34-1164

Using fraction-linear relationships in pile design. Mirenburg, IU.S., [1979, p.63-67, rus] 34-1539

Performance of piles in plastic frozen ground. Slepak, M.E., [1979, p.67-71, rus] 34-1540

Design and construction of pile foundations for elevated transport structures and scaffolded railroad and highway bridges in the North. Burkhanov, V.F., et al, [1979, p.73-84, rus] 34-1627

Interaction of permafrost and structures. Vialov, S.S., [1979, p.117-136, eng] 34-1683

Standard foundation design for structures built on permafrost. [1979, p.36, rus] 34-1713

Testing ice-bound columnar piles for horizontal loads. Ablogin, E.A., et al, [1979, p.42-43, rus] 34-1717

Building design for construction in the North. Vas'kovskil, A.P., et al, [1979, 135p., rus] 34-2685

Strength of clay soils in time. Maslov, N.N., et al, [1976, p.247-255, rus] 34-3213

Influence of transient processes on bearing strength of piles in weak clayey grounds. Mets, M.A., [1976, p.283-296, rus] 34-3217

Interaction between permafrost and buildings. Vialov, S.S., [1980, p.379-406, eng] 34-3258

Ice forces on piles. Saeki, H., et al, [1980, p.342-350, eng] 34-3751

Evaluating settlement and bearing strength of piles allowing for the time factor. Khamov, A.P., [1978, p.45-55, rus] 34-3890

Using artificial freezing in counteracting frost heave effect on supports of pile-trestle bridges. Egorov, V.V., et al, [1978, p.86-92, rus] 34-3893

Drilling-and-mixing method of building foundations of cemented earth piles. Tokin, A., [1980, p.5-6, rus] 34-3926

Local artificial freezing of thawed ground in Yakutsk. Maksimov, G., et al, [1980, p.9-11, rus] 34-3927

Temporary recommendations for the design and construction of situ-cast bored piles in permafrost. Galdaenko, E.I., [1979, 34p., rus] 34-4104

See also: Concrete piles; Thermopiles

Pingos

Features indicative of permafrost. Black, R.F., [1976, p.75-94, eng] 34-510

Pingos of the Tuktoyaktuk area. Barr, W., et al, [1973, p.3-12, eng] 34-1296

Growth and decay of palsas and peat plateaus in the Macmillan Pass—Tsichu River area, Northwest Territories, Canada. Kershaw, G.P., et al, [1979, p.1362-1373, eng] 34-1453

Pingos of the Tuktoyaktuk Peninsula area, Northwest Territories. Mackay, J.R., [1979, p.3-61, eng] 34-1567

Soils of northern Yakutia. Elovskaia, L.G., et al, [1979, 303p., rus] 34-1652

Geologic controls of the origin, characteristics and distribution of ground ice. Mackay, J.R., et al, [1979, p.1-18, eng] 34-1679

Pingoes and the Northwest Passage. [1974, p.1-4, eng] 34-1986

Recent relief-forming processes in Siberia. Ivanovskil, L.N., ed, [1978, 139p., rus] 34-2293

Frost heave in Transbaikal steppes. Bazhenova, O.I., [1978, p.109-126, rus] 34-2298

Possible late Quaternary pingo remnants in central London. Hutchinson, J.N., [1980, p.253-255, eng] 34-2487

Chemical composition of injection ice. Anisimova, N.P., et al, [1978, p.125-137, rus] 34-2930

Role of tectonics in the formation of permafrost on low plains. Baulin, V.V., et al, [1980, p.209-223, eng] 34-3842

Stratigraphy of a silt-cored palsa, Atlin region, British Columbia, Canada. Seppälä, M., [1980, p.357-365, eng] 34-3872

Pipe laying

Methods of studying and accounting for interactions between two ductless heat pipes laid in permafrost. Koshelev, A.A., [1979, p.85-90, rus] 34-199

Arctic offshore pipeline feasibility study in Mackenzie River delta area. [1973, c530p., eng] 34-578

Pressure pipelines for water supply of railroads. Dikarevskil, V.S., et al, [1978, 278p. (Pertinent p. 198-231), rus] 34-849

Scientific problems in the construction of northern gas lines. Ivantsov, O.M., [1979, p.10-15, rus] 34-1179

Pipelines in adverse environments; a state of the art, Vol.2 [1979, p.395-548, eng] 34-1398

Engineering innovation for Arctic conditions. Brown, R.J., [1979, p.418-429, eng] 34-1399

Expanding anchors for fastening pipelines. Postnikov, V.V., et al, [1979, p.16-18, rus] 34-2097

Optimizing working conditions of welders on northern sites. Shabanov, P.P., et al, [1979, p.22-24, rus] 34-2098

Equipment for summer construction of pipelines on swamps. [1979, p.31-32, rus] 34-2100

New method planned for pipe under ice. [1980, p.28-29, eng] 34-2611

Polar gas line would use new pipelay method. [1980, p.50, eng] 34-2714

Construction of underwater crossings of main pipelines. [1970, 36p., rus] 34-2866

Offshore pipelines in the Arctic. Timmermans, W.J., [1980, p.20-24, eng] 34-3192

Offshore innovations. [1980, p.25-28, 34, eng] 34-3193

Manual for designing water supply and sewage systems in permafrost areas. Fedorov, N.F., et al, [1979, 159p., rus] 34-3269

Alaska gas pipeline will be great challenge for pipeliners. [1980, p.20-22, eng] 34-3442

Polar gas project. Kaustinen, O.M., [1980, p.36-39, 54, eng] 34-3445

Improving work organization and quality control at a most important construction site. Pelevin, I.V., [1980, p.20-21, rus] 34-3818

Offshore pipelines in the Arctic. [1980, p.20-24, eng] 34-3989

Assessment of Arctic offshore pipelines. Muraszew, A., et al, [1980, 6 sections, eng] 34-3991

Pipeline freezing

Reliability of the Yakutsk gas distribution system. L'vova, Z.M., [1975, p.114-119, rus] 34-231

Transfer of heat from a surface source along pipe walls. Kardymon, V.F., [1974, p.94-106, rus] 34-757

Thermal regime of water pipelines built in seasonally freezing ground. Pereleshin, R.S., et al, [1974, p.107-210, rus] 34-758

Field studies of temperature regime of water pipelines in deep seasonally freezing ground. Pereleshin, R.S., et al, [1974, p.121-126, rus] 34-759

Water supply and sewage at the Baykal Amur railroad. Fedotov, V.P., [1975, 79p., rus] 34-847

Pressure pipelines for water supply of railroads. Dikarevskil, V.S., et al, [1978, 278p. (Pertinent p. 198-231), rus] 34-849

Freezing of above-ground low-temperature gas pipelines. Dvoiris, A.D., et al, [1979, p.28-29, rus] 34-1182

Designing gas pipeline crossings of major river valleys in the North. Kondrat'ev, V.G., et al, [1979, p.30-31, rus] 34-1183

Manual operation of SECT system thaws frozen line quickly. [1979, p.23, eng] 34-1614

Movement of freezing front inside pipelines after cessation of pumping. Novoselov, V.F., et al, [1979, p.67-79, rus] 34-2705

Quick freeze plug performed successfully on lined pipe. Buckman, D., [1980, p.52-54, eng] 34-2760

Ice regime of pipelines. Zhidkikh, V.M., et al, [1979, 131p., rus] 34-2871

Offshore innovations. [1980, p.25-28, 34, eng] 34-3193

Pipeline heating

Pressure pipelines for water supply of railroads. Dikarevskil, V.S., et al, [1978, 278p. (Pertinent p. 198-231), rus] 34-849

Pipeline insulation

Insulated pipe structure. Hoeman, T.E., et al, [1977, 8 col., eng] 34-149

Annotated bibliography on northern environmental engineering 1976-1977. Armstrong, B.C., comp, [1979, 132p., eng] 34-739

Installation of large thermal insulation structures. Khashev, V.M., et al, [1979, p.18-19, rus] 34-1750

Pipeline supports

Experimental study of anchor support performance. Danilova, N.P., [1974, p.137-147, rus] 34-761

Pipelines

Application of heat pipes on the Trans-Alaska Pipeline. Heuer, C.E., [1979, 27p., eng] 34-139

Dryout, cooldown keyed Cove Point commissioning. Venendaal, B., [1979, p.28-38, eng] 34-141

Construction material and equipment base in West Siberia. Kuritsyn, IU.P., [1979, p.6-8, rus] 34-166

Reconstruction of enterprises for the expansion of complete unit construction. Drobiazko, V.A., [1979, p.10-11, rus] 34-167

Heating pipeline joints. Prilipko, V.M., [1979, p.29, rus] 34-171

Subdividing linear parts of main pipelines into sections of different categories. Borodavkin, P.P., et al, [1979, p.31-32, rus] 34-172

Assembling polyvinylchloride pipes in freezing weather. Alesker, IA.B., et al, [1979, p.16-17, rus] 34-244

Testing the AR401 anchors. Brun, A.I., et al, [1979, p.19-21, rus] 34-248

Water supply and sewage in areas of permafrost and severe climate. Stegantsev, V.P., [1974, p.3-13, rus] 34-750

Experimental study of anchor support performance. Danilova, N.P., [1974, p.137-147, rus] 34-761

Use of nonmetallic pipelines in construction. Borshcheva, N.I., et al, [1974, p.148-151, rus] 34-762

Organizing construction of the Surgut-Polotsk oil pipeline. Pavlov, N.M., [1979, p.5-6, rus] 34-1177

Construction of service roads in swamps. Zholobov, S.I., [1979, p.24-25, rus] 34-1181

Artificial freezing of ground in underground construction. Trupak, N.G., [1979, 344p., rus] 34-1226

Safety rules for pipeline construction in West Siberia. Glazyrin, F.V., [1979, p.13-14, rus] 34-1257

Preventing corrosion on Arctic pipelines. Peabody, A.W., [1979, p.28-42, eng] 34-1290

System monitors Trans-Alaska pipeline curvature. Anderson, D.R., [1979, p.129-134, eng] 34-1294

Pipelines in adverse environments, a state of the art, Vol.2 [1979, p.395-548, eng] 34-1398

Geotechnical surveillance and monitoring of the Trans-Alaska Pipeline. Williams, R.D., et al, [1979, p.474-480, eng] 34-1400

Cold region pipeline construction. Pendarvis, R.C., [1979, p.481-485, eng] 34-1401

Permafrost classification according to physicomechanical properties for pipeline construction. Maksimiak, R.V. [1979, p.165-172, rus] 34-1550

Transportation, a key issue in the development of productive forces in the North. Nekrasov, N.N., [1979, p.5-13, rus] 34-1620

Design and construction of pile foundations for elevated transport structures and scaffolded railroad and highway bridges in the North. Burkhanov, V.F., et al, [1979, p.73-84, rus] 34-1627

Trends in transportation development in northern Canada. Cherkasov, A.I., [1979, p.118-130, rus] 34-1634

Pipeline transport. IUfin, V.A., ed, [1974, 149p. (Pertinent p.38-74), rus] 34-1640

Pipeline transport. IUfin, V.A., ed, [1976, 123p. (Pertinent p.30-60), rus] 34-1641

Design and construction of the Alyeska pipeline. Liguori, A., et al, [1979, p.151-157, eng] 34-1685

Permafrost thawing beneath pipes with different pipe laying methods. Zamolotchikova, S.A., [1979, p.73-79, rus] 34-1916

Potential interactions between pipelines and terrain in a northern environment. Van Everdingen, R.O., [1979, 7p., eng] 34-2142

Ecologic considerations when making decisions concerning power-fuel supply systems. Alekseeva, G.V., et al, [1978, p.103-108, rus] 34-2248

Forecasting changes in West Siberian landscapes due to pipeline construction. Moskalenko, N.G., [1978, p.115-119, rus] 34-2249

Hot Arctic. Dyson, J., [1979, 290p., eng] 34-2456

Flood-prone area maps at three sites along the Trans-Alaska Pipeline, Alaska. Lamke, R.D., et al, [1980, 14p., eng] 34-2506

Experimental pipeline section with prefabricated insulation. Zinevich, A.M., et al, [1980, p.21-22, rus] 34-2598

Construction-related impacts of the Trans-Alaska Pipeline System on terrestrial wildlife habitats. Pamplin, W.L., Jr., [1979, 132p., eng] 34-2607

Marine transportation systems of the Trans-Alaskan Pipeline System. [1971, 158p., eng] 34-2631

Environmental protection at construction sites of main pipelines. Gulikov, A.E., et al, [1979, p.12-13, rus] 34-2638

Technology and organization of the Trans Alaska pipeline construction. Panov, IU.E., et al, [1979, p.30-33, rus] 34-2639

Studying temperature fields produced by heat transfer between ground and gas and oil pipelines. Bronfenbrener, L.E., [1980, p.12-15, rus] 34-2641

Building roadbeds along main pipelines. Plotskil, A.S., et al, [1979, p.10, rus] 34-2793

Construction of underwater crossings of main pipelines. [1970, 36p., rus] 34-2866

Development and improvement of the design of digging wheel trenching excavators. Lavrov, G.F., et al, [1980, p.21-23, rus] 34-2977

Cost of log roads built in swamps on pipeline construction sites. Suvorov, L.N., et al, [1980, p.11-12, rus] 34-2978
System of equipment reservation for the complex column technique of construction in West Siberia. Kurbatov, N.I., et al, [1980, p.13-15, rus] 34-2979
Thermopiles for pipeline construction. Petrov, B.G., et al, [1980, p.34-36, rus] 34-2981
Technical and economic characteristics of the Trans-Alaska Oil Line. Panov, IU.E., et al, [1980, p.38-39, rus] 34-2982
Development of natural resources in Subarctic regions. Malakhova, M.M., [1980, p.20-21, rus] 34-3161
Scientific research in the last year of the Five-year Plan. Ivantsov, O.M., [1980, p.25-29, rus] 34-3163
Thermal interaction of pipelines with the ground. Garagulia, L.S., et al, [1980, p.103-116, eng] 34-3240
Permafrost investigations in pipeline construction. Baulin, V.V., et al, [1980, p.199-212, eng] 34-3246
Manual for designing water supply and sewage systems in permafrost areas. Fedorov, N.F., et al, [1979, 159p., rus] 34-3269
Undersea pipelines and cables in polar waters. Mellor, M., [1978, 34p., eng] 34-3448
Cold region pipeline construction. Pendarvis, R.C., [1979, p.481-485, eng] 34-3559
Draft environmental impact statement, Prudhoe Bay Oil Field Waterflood Project. [1980, 2 vols., eng] 34-3646
Pipeline for container transport of viscous oils and petroleum products. Ibragimov, D.B., et al, [1980, p.26-29, rus] 34-3820
Eliminating breakdowns during the testing of the Surgut-Polotsk oil pipeline. Riabov, G.N., [1980, p.32-33, rus] 34-3821
Modernized welding assembly PAU1001V for field work. Borutskiĭ, A.I., et al, [1980, p.36-37, rus] 34-3822
Introduction to town planning and related matters in the Soviet North: based upon information collected during the exchange visit by a Canadian delegation to the Soviet Union—September 25th to October 7th, 1977. Slipchenko, W., et al, [1978, 426p., eng] 34-3896
Effects of the Trans-Alaska pipeline on caribou movements. Cameron, R.D., et al, [1979, 36p., eng] 34-3923
Arctic line pressure testing alternatives. Marks, A., [1980, p.126-132, eng] 34-3951
Problems in designing telemetering equipment for complex soil and climatic conditions in West Siberia. Tsibul'skiĭ, V.R., [1980, p.81-84, rus] 34-4148
See also: Gas pipelines; Hot oil lines; Underground pipelines; Water pipelines

Pipes (tubes)
Geothermal heating of bridge decks. Cundy, V.A., et al, [1979, p.169-175, eng] 34-77
Transient freezing of liquids in turbulent flow inside tubes. Cho, C., et al, [1979, p.465-468, eng] 34-648
Testing welded pipe joints at low temperatures. Sil'vestrov, A.V., et al, [1979, p.133-136, rus] 34-810
Allowing for temperature drop when building and operating northern gas lines. Lelman, P.P., et al, [1979, p.33-34, rus] 34-1712
Pipe bridge solves heaving problems. [1980, p.7, eng] 34-2408
See also: Heat pipes

Pits (excavations)
Determining optimal volume of strip-pit works for winter periods in the northeastern USSR. Potemkin, S.V., [1979, p.38-40, rus] 34-1769

Placer mining
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] 34-213
Thermal regime of Indigirka placer mines. Sherstov, V.A., et al, [1975, p.9-16, rus] 34-215
Testing plastic thermoinsulative covers in placer mines. Sherstov, V.A., et al, [1975, p.17-21, rus] 34-216
Heat transfer between underground structures and surrounding frozen grounds. Kapitonova, T.A., et al, [1975, p.22-29, rus] 34-217
Young soils formed in placer tailings in the southern taiga of the Central Urals. Nakariakov, A.V., et al, [1979, p.58-106, rus] 34-949
Technology and ecological consequences of dredging. Domenik, O.P., et al, [1979, p.113-117, rus] 34-1517
Field trip No.1: Central Yukon-Alaska. Hughes, O.L., et al, [1979, 32p., eng] 34-1690
Determining optimal volume of strip-pit works for winter periods in the northeastern USSR. Potemkin, S.V., [1979, p.38-40, rus] 34-1769
Hydrothermal melioration of frozen rocks in the Northeastern USSR. Perl'shteĭn, G.Z., [1979, 304p., rus] 34-2530
Protection of environments and mineral resources in mined permafrost areas. Maksimov, V.M., et al, [1980, p.27-36, rus] 34-3282
Environmental protection problems related to placer mining in the North. Olovin, B.A., [1980, p.50-55, rus] 34-3285
Selecting rolling cutter bits and drilling regimes for perennially frozen boulder-gravel placers. Bragin, P.A., [1979, p.110-123, rus] 34-4105

Plains
Energy mass fluxes at the snow surface in a prairie environment. Male, D.H., et al, [1979, p.101-124, eng] 34-1011
Temperature of permafrost in the Prianabarskaya denudation plain. Kunitskiĭ, V.V., [1978, p.42-49, rus] 34-2920
Thermal regime of rivers in Central and West Siberian plains. Protopopov, V.V., et al, [1979, p.4-24, rus] 34-3769
Geomorphologic conditions of land reclamation in the Upper Angara trough. Bazarov, D.-D.B., et al, [1979, p.77-93, rus] 34-4099
Slope development dynamics in the Zeya-Bureya Plain. Popov, IU.I., [1979, p.15-20, rus] 34-4103
See also: Flood plains

Planetary environments
Convection in the ice crusts of satellites and its effect on surface relief. Golitsyn, G.S., [1979, p.466-468, eng] 34-44
See also: Mars (planet)

Plankton
Biological productivity of the southern Beaufort Sea: the physical-chemical environment and the plankton. Grainger, E.H., [1975, 82p., eng] 34-504
"NIPR-I," a new plankton sampler under sea ice. Fukuchi, M., et al, [1979, p.104-109, eng] 34-3059
Standing crops and species composition of diatoms in sea ice from Robeson Channel to the Gulf of St. Lawrence. Dunbar, M.J., et al, [1980, p.61-72, eng] 34-4243

Plant ecology
Vegetational successions and other ecosystemic changes in two Arctic tundras. Peterson, K.M., [1978, 305p., eng] 34-1
Successions of lithophile lichen communities in the northern Ural highlands. Magomedova, M.A., [1979, p.29-38, rus] 34-104
Periglacial vegetation of the Katun Range. Reviakina, N.V., [1973, p.136-140, rus] 34-112
Vegetation and climate on Coburg Island, N.W.T. Muller, H., [1979, p.139-147, eng] 34-767
Dynamics of the vegetation in the Mount Elbrus Region, USSR. Turmanina, V.I., et al, [1978, p.325-334, eng] 34-798
Seasonal rhythms in alpine tundra plant communities of the Urals. Gorchakovskiĭ, P.L., et al, [1979, p.16-24, rus] 34-822
Vegetation of the West Okhotsk area. Shlotgauer, S.D., [1978, 132p., rus] 34-967
Soils and the productivity of plant communities. Vol.4. Kovda, V.A., ed, [1979, 205p., rus] 34-1058
Structure of moss synusiae in the spotty tundra of the Agapa research station. Tishkov, A.A., [1979, p.5-14, rus] 34-1059
Geographic aspects of mountain flora evolution in Central Asia. Agakhaniants, O.E., [1977, p.93-108, rus] 34-1097
Cushion plants as indicators of climatic changes in the Central Asian highlands. Ukhacheva, V.N., [1977, p.109-119, rus] 34-1098
Components of forest tundra biogeocenoses in northern Okhotomor'e. Ignatenko, I.V., ed, [1977, 149p., rus] 34-1158
Physiographic conditions of northern Okhotomor'e and hydrothermal regime of soils at the "Snow Valley" research station. Ignatenko, I.V., et al, [1977, p.5-23, rus] 34-1159
Vegetation of the "Snow Valley" station (Explanatory note to the vegetation chart). Shatkauskas, A.V., et al, [1977, p.24-34, rus] 34-1160
Lichen synusia at the upper limit of Anuy Plateau larch forests. Andreev, M.P., [1979, p.646-653, rus] 34-1443
Lichen synusia in Alpine phytocenoses of the northern part of Altai-Sayan Mountains. Sedel'nikova, N.V., et al, [1979, p.671-679, rus] 34-1444
Willow shrub communities in the east of Chukotka Peninsula. Sekretareva, N.A., [1979, p.957-970, rus] 34-1445
Fruiting of Arctic plants (Western Taymyr). Khodachek, E.A., [1979, p.1147-1158, rus] 34-1447
Ecologic-cenotic peculiarities of meadow-steppes cryophytes in Central Transbaikal. Dulepova, B.I., et al, [1979, p.1332-1340, rus] 34-1450
Ecologic and biogeochemical peculiarities of northern taiga in the Kola Peninsula. Nikonov, V.V., et al, [1979, p.33-38, rus] 34-1718
Seasonal and long-term dynamics of vegetation near the Dzhankuat glacier (Central Caucasus). Turmanina, V.I., et al, [1979, p.64-75, rus] 34-1756
Effect of fertilization on winter drying of Scots pine. Kurkela, T., [1979, p.139-143, eng] 34-1785
Scientific basis for combined studies of Alpine regions. Nazarov, A.G., [1975, p.98-100, rus] 34-1855
Growth of tundra vegetation in relation to Arctic microenvironments at Barrow, Alaska. Dennis, J.G., [1969, 305p., eng] 34-2042
Variations of resin and lipid contents in some forest trees depending on climatic conditions. Fuksman, I.L., et al, [1979, p.446-451, rus] 34-2129
Vegetational indices of precipitation in the Alpine belts of the Pamirs. Agakhaniants, O.E., et al, [1979, p.61-67, rus] 34-2182
Proceedings. [1979, 1325p. (2 vols.), eng] 34-2259
Ecology of alpine timberline in Olympic National Park Fonda, R.W., [1979, p.209-212, eng] 34-2260
Primary versus secondary succession at Glacier Bay National Monument, southeastern Alaska. Lawrence, D.B., [1979, p.213-224, eng] 34-2261
Problems of revegetation of alpine tundra. Stevens, D.R., [1979, p.241-245, eng] 34-2262
Floristic regions of the world. Takhtadzhian, A.L., [1978, 247p., rus] 34-2362
Ecological and phytocenological complexes of Asiatic Russia (Experience in mapping). Sochava, V.B., ed, [1977, 70p. + map, rus] 34-2437
Method of compiling and brief analysis of a correlative ecological and phytocenological map of Asiatic Russia, scale of 1:7,500,000. Buks, I.I., [1977, p.15-54, rus] 34-2438
Quantitative plant ecology. Miller, P.C., [1979, p.179-231, eng] 34-2495
Ecotypic differentiation in *Carex aquatilis* on ice-wedge polygons in the Alaskan coastal tundra. Shaver, G.R., et al, [1979, p.1025-1046, eng] 34-2496
Ecologic effect on the formation of conifer crowns and combined offshoots in drained bogs. Efremov, S.P., [1978, p.91-111, rus] 34-2522
Forecasting periodic fluctuations of larch increments in the Taz forest tundra. Berri, B.L., et al, [1979, p.22-26, rus] 34-2627
Ecosystems of swamps in the USSR. Boch, M.S., et al, [1979, 187p., rus] 34-2886
Alpine ecosystems of western North America. Billings, W.D., [1979, p.6-21, eng] 34-2958
Physiological responses of plants in tundra grazing systems. Tieszen, L.L., et al, [1979, p.22-42, eng] 34-2959
Range management in the alpine zone: practices and problems. Thilenius, J.F., [1979, p.43-64., eng] 34-2960
Arctic tundras and polar deserts of Taymyr Peninsula. Aleksandrova, V.D., ed, [1979, 206p., rus] 34-3033
Vascular plants of Cape Chelyuskin. Safronova, I.N., [1979, p.50-53, rus] 34-3036
Vegetation in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Matveeva, N.V., [1979, p.78-109, rus] 34-3040
Ground lichens in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Pitn, T.Kh., [1979, p.140-143, rus] 34-3044
Latitudinal variations in the proportions of living vascular plants in Taymyr Peninsula. Polozova, T.G., [1979, p.154-159, rus] 34-3045
Regularities governing zonal distribution of communities in Taymyr Peninsula. Chernov, IU.I., et al, [1979, p.166-200, rus] 34-3047
Introduction of indigenous plants in the northern Kola Peninsula. Andreev, G.N., [1979, p.3-14, rus] 34-3228
Acclimatization of introduced plants and ways to hasten it in high latitudes. Agaev, M.G., [1979, p.15-25, rus] 34-3229
Significance of antarctic and subantarctic regions for plant introduction research. Golovkin, B.N., [1979, p.30-41, rus] 34-3230
Physical-geographical conditions of the northern Okhotsk Sea region and the hydrothermal state of the soils ("Snow Valley" Station"). Ignatenko, I.V., et al, [1980, p.5-23, eng] 34-3396
Vegetation of the "Snow Valley" station (Explanatory list with a diagram of vegetation). Shatkauskas, A.V., et al, [1980, p.24-35, eng] 34-3397
Lake and its drainage area as a single natural system. Drabkova, V.G., et al, [1979, 194p., rus] 34-3480
Vegetation of the Markovo village area (the Anadyr' River Basin). Kozhevnikov, IU.P., [1978, p.30-52, rus] 34-3486
Vascular plant species ratio in northern taiga and forest tundra of the Central Anadyr River Basin. Kozhevnikov, IU.P., [1980, p.361-367, rus] 34-3555
Water regime of plants in the medium altitude belts of Khamar-Daban and West Sayan Mountains. Kozlova, L.N., [1979, p.96-115, rus] 34-3775
Lichen pine forests of the European North. Listov, A.A., [1980, p.22-25, rus] 34-3861
Change from pine to spruce in the northern European USSR. Melekhov, I.S., et al, [1980, p.42-51, rus] 34-3863
Geographic peculiarities of metabolism and energy exchange in pine forests of Karelia and Murmansk region. Ziabchenko, S.S., et al, [1980, p.52-60, rus] 34-3864
Postglacial dynamics of the northern border of the petiolate oak area in the USSR and phytocenogenesis of oak forests in the North. Denisov, A.K., [1980, p.3-11, rus] 34-3878
Forests in the Vychegda river floodplain, their distribution and dynamics. Moiseev, B.N., et al, [1980, p.12-20, rus] 34-3879
Biomass volume and structure in larch forests of the northern Okhotsk Sea region. Moskaliuk, T.A., [1980, p.32-39, rus] 34-3880
Management of forest resources. Timofeev, N.V., [1979, 144p., rus] 34-4011
Modeling productivity and frost hardiness of plants. Kurets, V.K., et al, [1979, 15p., rus] 34-4012

Plant ecology *(cont.)*
Life in the tundra. Chernov, IU.I., [1980, 236p., rus] 34-4015
Variations in altitudinal plant distribution with longitude (Polar Urals-Putorana-Verkhoyan'e). Kuvaev, V.B., [1979, p.6-18, rus] 34-4084
Basic characteristics of Alpine flora in North Koryakiya. Kharkevich, S.S., et al, [1979, p.33-42, rus] 34-4086
Peculiarities of flora in the West Okhotsk Sea area. Shlotgauer, S.D., [1979, p.42-47, rus] 34-4087
Alpine mosses of South Siberia. Bardunov, L.V., [1979, p.86-91, rus] 34-4088
Vegetational resources of Transbaikal, their preservation and use. Bolkov, T.G., ed, [1979, 97p., rus] 34-4091
Ecologic fundamentals of forestry in the Lake Baykal Basin. Polikarpov, N.P., et al, [1979, p.52-57, rus] 34-4093
Botanical objects of environmental protection near the lower Lena River. Trufanova, E.R., [1979, p.20-23, rus] 34-4108
Effects of zonality and environmental conditions on horizontal structure of phytocenoses of flat palsa peat bogs in West Siberia. Moskalenko, N.G., [1980, p.7-12, rus] 34-4142
Composition and structure of vegetation in ridge-pool swamps. Boch, M.S., et al, [1980, p.22-30, rus] 34-4144
Stability of tundra ecosystems in North Siberia. Bol'shakov, V.N., et al, [1979, p.60-66, rus] 34-4170
"Arctic" problems in the biology of the White Sea. Khlebovich, V.V., [1979, p.13-15, rus] 34-4218
Regularities governing plant distribution with respect to snow cover in the southeastern Chukotskiy Peninsula. Balandin, S.A., et al, [1979, p.24-25, rus] 34-4221
Zonal distribution of Hepaticae in the Khibiny Mountains. Konstantinova, N.A., [1979, p.38-39, rus] 34-4223
Changes in ecosystems of northern Kola Peninsula due to human activities. Kriuchkov, V.V., et al, [1979, p.39-42, rus] 34-4224
Pollination ecology of Alpine tundra plants on the Kolyma Highlands. Tikhmenev, E.A., [1979, p.57-58, rus] 34-4228
Low temperature effect on lipid exchange in trees and grasses and phase transformations in membranes. Rodionov, V.S., [1979, p.91-92, rus] 34-4234
Accelerated growing of pine seedlings introduced beyond the polar circle. Daiasova, N.P., et al, [1979, p.107-108, rus] 34-4235

Plant physiology
Simulation of CO2 uptake and water relations of four Arctic Bryophytes at Point Barrow, Alaska. Miller, P.C., et al, [1978, p.7-20, eng] 34-1262
Temperature responses of germination of Arctic poppy (Papaver radicatum Rottb.) seeds. Olson, A.R., et al, [1979, p.343-348, eng] 34-1287
Fruiting of Arctic plants (Western Taymyr). Khodachek, E.A., [1979, p.1147-1158, rus] 34-1447
Influence of snow cover on physiological processes in forest plants. Tranquillini, W., [1979, p.123-137, ger] 34-1784
Formation of larch wood in Taymyr. Kandelaki, A.A., [1979, p.64-69, rus] 34-1951
Growth of tundra vegetation in relation to Arctic microenvironments at Barrow, Alaska. Dennis, J.G., [1969, 305p., eng] 34-2042
Variations of resin and lipid contents in some forest trees depending on climatic conditions. Fuksman, I.L., et al, [1979, p.446-451, rus] 34-2129
Floristic regions of the world. Takhtadzhian, A.L., [1978, 247p., rus] 34-2362
Plant cold hardiness and freezing stress: mechanisms and crop implications. Li, P.H., ed, [1978, 416p., eng] 34-2426
Quantitative plant ecology. Miller, P.C., [1979, p.179-231, eng] 34-2495
Ecologic effect on the formation of conifer crowns and combined offshoots in drained bogs. Efremov, S.P., [1978, p.91-111, rus] 34-2522
Forecasting periodic fluctuations of larch increments in the Taz forest tundra. Berri, B.L., et al, [1979, p.22-26, rus] 34-2627
Special management needs of alpine ecosystems [1979, 100p., eng] 34-2957
Alpine ecosystems of western North America. Billings, W.D., [1979, p.6-21, eng] 34-2958
Physiological responses of plants in tundra grazing systems. Tieszen, L.L., et al, [1979, p.22-42, eng] 34-2959
Acclimatization of introduced plants and ways to hasten it in high latitudes. Agaev, M.G., [1979, p.15-25, rus] 34-3229
Water regime of plants in the medium altitude belts of Khamar-Daban and West Sayan Mountains. Kozlova, L.N., [1979, p.96-115, rus] 34-3775
Frost damage to cambium of plants introduced in Arkhangel'sk. Nilov, V.N., [1979, p.50-57, rus] 34-3958
Modeling productivity and frost hardiness of plants. Kurets, V.K., et al, [1979, 15p., rus] 34-4012
Pollination ecology of Alpine tundra plants on the Kolyma Highlands. Tikhmenev, E.A., [1979, p.57-58, rus] 34-4228
Relation between light requirements and pigmentation of tundra plants on Wrangel Island. Aleksandrova, N.M., et al, [1979, p.70-71, rus] 34-4230
Respiration of Subarctic plants. Govorov, P.M., et al, [1979, p.74-75, rus] 34-4231
Study of Arctic plant respiration. Ivanova, T.I., et al, [1979, p.77-78, rus] 34-4232
Specifics of photosynthesis and photosynthetic metabolism in Arctic plants. Mokronosov, A.T., et al, [1979, p.85-86, rus] 34-4233
Low temperature effect on lipid exchange in trees and grasses and phase transformations in membranes. Rodionov, V.S., [1979, p.91-92, rus] 34-4234

Plant tissues
Decomposition of plant litter and cellulose in the tundras of the Taymyr Peninsula. Parinkina, O.M., [1979, p.676-684, eng] 34-2484

Plants (botany)
Main characteristics of the ecosystems of the Pamirs, USSR. Agakhaniants, O.E., et al, [1978, p.397-407, eng] 34-801
Pipeline revegetation research: grasses, legumes and shrubs adjacent to the Alaska Highway of Yukon Territory. Vaartnou and Sons Enterprises, Ltd., [1978, 47p., eng] 34-861
Pipeline revegetation research: Dempster route test sites progress report 1977. [1978, 28p., eng] 34-862
Pipeline revegetation research: Haines Junction test site progress report 1977. [1978, 41p., eng] 34-863
Pipeline revegetation research: Northern British Columbia test sites progress report - 1977. Vaartnou and Sons Enterprises, Ltd., [1978, 56p., eng] 34-864
Threatened and endangered plants in selected areas of the BLM Fortymile Planning Unit, Alaska. Batten, A.R., et al, [1979, 127p., eng] 34-1557
Comparative mechanisms of cold adaptation. Underwood, L.S., ed, [1979, 379p., eng] 34-2144
Plant reproduction in a High Arctic environment. Bell, K.L., et al, [1980, p.1-10, eng] 34-2272
Plant cold hardiness and freezing stress: mechanisms and crop implications. Li, P.H., ed, [1978, 416p., eng] 34-2426
Regularities governing zonal distribution of communities in Taymyr Peninsula. Chernov, IU.I., et al, [1979, p.166-200, rus] 34-3047
Preliminary classification system for vegetation of Alaska. Viereck, L.A., et al, [1980, 38p., eng] 34-3434
Vascular plant species ratio in northern taiga and forest tundra of the Central Anadyr River Basin. Kozhevnikov, IU.P., [1980, p.361-367, rus] 34-3555
Modeling productivity and frost hardiness of plants. Kurets, V.K., et al, [1979, 15p., rus] 34-4012
Life in the tundra. Chernov, IU.I., [1980, 236p., rus] 34-4015

Plastic coatings
See: Protective coatings

Plastic deformation
Excerpts from *Rheological Fundamentals of Soil Mechanics*. Vialov, S.S., [1979, 134p., eng] 34-629
Movement of dislocations in ice and its plastic deformation. Fukuda, A., [1979, p.239-244, jap] 34-2168
Sequence of glacial deformation, erosion, and deposition at the ice-rock interface during the last glaciation: Cranbrook, British Columbia, Canada. Broster, B.E., et al, [1979, p.283-295, eng] 34-2239
Internal friction of snow and ice low frequency. Nakamura, T., et al, [1979, p.285-289, eng] 34-2541
Collapse of fluid and semi-solid clay soils. Maksimiak, R.V., [1976, p.241-246, rus] 34-3212
Univariate compaction of ground, allowing for viscoplastic deformations. Ter-Martirosian, Z.G., [1976, p.322-327, rus] 34-3220
Undulations on the McMurdo Ice Shelf near Scott Base, Antarctica. Holdsworth, G., et al, [1979, p.16-22, eng] 34-3680

Plastic flow
Collapse of fluid and semi-solid clay soils. Maksimiak, R.V., [1976, p.241-246, rus] 34-3212

Plastic properties
Steady in-plane deformation of noncoaxial plastic soil. Takagi, S., [1979, p.1049-1072, eng] 34-860
Studying the effect of loading regime on the strength of clay soils. Sorokina, G.V., [1976, p.314-321, rus] 34-3219
Water repellant plasticizing admixtures for cements, grouts and concretes. Khigerovich, M.I., et al, [1921, 125p., rus] 34-3615
See also: Ice plasticity

Plasticity tests
Experimental testing of the compression technique of determining lower clay soil plasticity limits. Rogatkina, Zh.E., et al, [1978, p.65-72, rus] 34-3891

Plastics
Testing plastic thermoinsulative covers in placer mines. Sherstov, V.A., et al, [1975, p.17-21, rus] 34-216
Stand for dynamic tests of self-lubricating materials for friction and wear at low temperatures. Semenov, V.A., et al, [1975, p.132-135, rus] 34-234
Assembling polyvinylchloride pipes in freezing weather. Alesker, IA.B., et al, [1979, p.16-17, rus] 34-244
Wear resistance of self-lubricating polymers under natural cold conditions. Cherskii, I.N., [1974, p.167-170, rus] 34-390
Dielectric properties of polymer materials in different climatic conditions. Filatov, I.S., [1979, 129p., rus] 34-749
Use of nonmetallic pipelines in construction. Borshcheva, N.I. et al, [1974, p.148-151, rus] 34-762
Equipment for marking road pavements. Nisnevich, A.IA., et al, [1979, p.19-20, rus] 34-838
Performance and construction properties of glass-phenol-formaldehyde plastic SFI. Stefurak, B.I., et al, [1979, p.14-15, rus] 34-1709
Impervious plastic screens on butyl-rubber base. Sergeev, B.I., et al, [1979, p.20-23, rus] 34-1946
Service life of plastic linings for waterways. Gvenetadze, A.R., [1979, p.23-25, rus] 34-1947
Use of exchange plastics for the protection and repair of concrete bridge pavements exposed to salting. Schröder, M., [1980, p.23-24, 26-27, ger] 34-2492
Soil stabilization with a mixture of liquid bitumens and plastics. Lukanina, T.M., et al, [1979, p.108-113, rus] 34-2626
High pressure apparatus for PVT measurements of liquids and plastic crystals at low temperature. Landau, R., et al, [1980, p.533-535, eng] 34-3408
New thermoplastic material for marking roads. Zadontsev, B.G., et al, [1980, p.19-20, rus] 34-3761
Winter testing of thermal properties of plastic mobile houses. Avdeev, G.K., [1969, p.89-92, rus] 34-4051
See also: Cellular plastics

Plates
Construction of alleyways and roads in freezing weather. Zhuravel', A.F., et al, [1979, p.20, rus] 34-341
Concretes for roof plates. Savvina, IU.A., et al, [1977, p.14-17, rus] 34-346
Thermal stress intensity factors for a fixed strip containing edge cracks. Pashchenko, V.I., et al, [1978, p.53-57, rus] 34-466
Local construction materials used for linings for the Baykal Amur railroad. Troitskii, V.V., et al, [1979, p.22-23, rus] 34-1427
Standard foundation design for structures built on permafrost. [1979, p.36, rus] 34-1713
Prefabricated plates of ground floor framing in residential buildings of the North. Pikhovkin, V., et al, [1979, p.38-39, rus] 34-1771
Surface-active admixtures for concretes of airport pavement plates. Safianova, N.E., et al, [1980, p.23-24, rus] 34-2588
Plate bearing tests on a fibrous peat. Lee, R.A., et al, [1978, p.151-164, eng] 34-2913

Pleistocene
Reconstructed Pleistocene ice-sheet temperatures and glacial erosion in northern Scotland. Gordon, J.E., [1979, p.331-344, eng] 34-547
World Ocean and Pleistocene glacial epochs. Zakharov, V.F., [1978, 64p., rus] 34-2106
Arctic Pleistocene history and the development of submarine permafrost. Vigdorchik, M.E., [1980, 286p., eng] 34-2407
Pleistocene dynamics of West Siberian permafrost (computerized simulation). Shpolianskaia, N.A., et al, [1980, p.127-141, rus] 34-2768
Authigenic minerals in syngenetically freezing deposits of Central Yakutia. Zigert, Kh.G., [1978, p.50-57, rus] 34-2921
Development of Pleistocene-Holocene glaciation of the Verkhoyansk-Kolyma Highlands. Shelnkman, V.S., [1978, p.87-104, rus] 34-2949
See also: Ice age theory

Podsol
Soils in the western section of BAM and prospects for their agricultural development. Kolesnichenko, V.T., [1979, p.24-33, rus] 34-436
Muysk Basin soils and their agricultural development. Vtorushin, V.A., et al, [1979, p.34-42, rus] 34-437
Soil regimes in the Chara River Basin and methods of their interpretation. Shchetnikov, A.I., [1979, p.68-78, rus] 34-442
Brown taiga soils in the upper part of the Urkan River Basin. Ovchinnikov, S.M., et al, [1979, p.78-89, rus] 34-443
Genetic peculiarities of gray forest soils in larch grass forests of the Krasnoyarsk area. Gogolev, I.N., et al, [1979, p.190-201, rus] 34-455
Soil structure and types of farm lands in the grassy larch forests of the Krasnoyarsk area. Krasekha, E.N., [1979, p.201-210, rus] 34-456
Application methods for determining biologic activity of paluded sod-podsol soils. IAkovlev, A.S., [1979, p.63-67, rus] 34-526
Classification of elementary geosystems of the Kondo-Sos'va Uplands. Mikheev, V.S., et al, [1979, p.74-83, rus] 34-676
Human influence on forest landscapes (Kan-Biryusa Plain). Rubtsov, N.I., et al, [1978, 128p., rus] 34-885

Soils and the productivity of plant communities. Vol.4. Kovda, V.A., ed, [1979, 205p., rus] 34-1058

Fall off and litter of coniferous forests in Valday. Grishina, L.A., et al, [1979, p.15-50, rus] 34-1060

Fractional composition of humic acids in Valday pine forest soils. Grishina, L.A., et al, [1979, p.51-62, rus] 34-1061

Microelements in the lower layer of Valday station spruce forest. Belitsyna, G.D., et al, [1979, p.87-92, rus] 34-1063

Maganese oxidizing bacteria in the Valday station soils. Bolotina, I.N., [1979, p.100-107, rus] 34-1065

Properties and relative age of soils of southwestern Cumberland Peninsula, Baffin Island, N.W.T., Canada. Bockheim, J.G., [1979, p.289-306, eng] 34-1283

Origin of West Siberian soils containing thick light-color zones. Zonn, S.V., [1979, p.3-10, rus] 34-1438

Microbiological studies of soils in the Magadan Region. Poliakov, V.A., [1978, p.3-10, rus] 34-1440

Soils of the East European tundra and forest tundra. Ignatenko, I.V., [1979, 280p., rus] 34-1649

Microbiological processes in southern taiga soils of West Siberia. Naplekova, N.N., et al, [1979, p.3-21, rus] 34-1806

Soils in pine forests of Karelia. P'iavchenko, N.I., ed, [1978, 141p., rus] 34-2252

Soil formation on sandy deposits in Karelia. Morozova, R.M., [1978, p.4-43, rus] 34-2253

Hydrothermal regime of autonomous sandy soils. Erukov, G.V., [1978, p.44-58, rus] 34-2254

Chemical composition of natural waters and migration of chemical substances in pine forest biogeocenoses. Strelkova, A.A., [1978, p.59-67, rus] 34-2255

Seasonal variations in chemistry of sandy podsols. Kulikova, V.K., [1978, p.71-84, rus] 34-2257

Population dynamics of microorganisms in podsol in Kola Peninsula. Pereverzev, V.N., et al, [1979, p.73-76, rus] 34-2419

Soil-geochemical regionalization of the non-chernozem zone for protection from pollution. Glazovskaia, M.A., [1978, p.127-139, rus] 34-2612

Origin and development of the Surgut wooded marshes. Liss, O.L., et al, [1979, p.86-91, rus] 34-2710

Origin of second humus zones in sod-podsol soils of West Siberia. Karavaeva, N.A., [1979, p.60-68, rus] 34-2739

Sandy soils in the southern Taz River Basin. Ovchinnikov, S.M., [1979, p.172-180, rus] 34-2744

Regularities governing microelement content in the soils of the southwestern taiga area (The Ordovician Plateau). Dvornikova, L.L., [1979, p.74-82, rus] 34-3876

Organic substances of soddy-podsolic soils with a second humus zone in the Smolensk area. Tereshenkova, I.A., et al, [1979, p.90-96, rus] 34-3881

Seasonal variations of soil formation in the Lake Baykal area. Snytko, V.A., et al, [1979, p.36-48, rus] 34-4163

Poland

Spatial distribution of water content in the snow cover in Poland. Sadowski, M., [1980, 148p., pol] 34-3983

Polar atmospheres

Polar environmental monitoring: final report. [1979, 94p., eng] 34-3390

Polar regions

Evolution of the soil landscape in the sand region of the Arctic coastal plain as exemplified at Atkasook, Alaska. Everett, K.R., [1979, p.207-223, eng] 34-687

Annotated bibliography on northern environmental engineering, 1974-75. Cameron, J.J., et al, [1977, 154p., eng] 34-892

Arctic ice. Zubov, N.N., [1979, 500p., eng] 34-1115

Nearshore environments of the North Slope and the petroleum industry. Schindler, J., et al, [1975, p.67-75, eng] 34-1724

Studying properties of G class cement and the "Permafrost" mixture according to the national standards. Kliusov, A.A., [1979, p.31-34, rus] 34-1755

Sea ice. Part 2: ice distribution and forecast services, North American Arctic waters. Wittmann, W., et al, [1973, p.343-355, eng] 34-1961

Sea ice. Part 3: ice distribution and forecast services, Eurasian waters. Wittmann, W., et al, [1974, p.219-229, eng] 34-1962

Soviet glaciological investigations in 1978. Kotliakov, V.M., et al, [1979, p.5-12, rus] 34-2174

Thermal capacity of sea ice and its effect on ice cover melting in Arctic seas. Fafko, L.I., [1979, p.211-213, rus] 34-2211

Boreal ecology. Pruitt, W.O., Jr., [1978, 73p., eng] 34-2581

Arctic stream processes—an annotated bibliography. Scott, K.M., comp, [1979, 78p., eng] 34-2609

Engineering at the ends of the earth: polar ocean technology for the 1980's. [1979, 74p., eng] 34-2712

Polar lithogenesis. Danilov, I.D., [1978, 238p., rus] 34-2902

Skilled workers used abroad in cold regions development. Chudnovskii, A.D., et al, [1980, p.19-21, rus] 34-2976

Long range forecasting of ice conditions in Arctic seas. Kirillov, A.A., et al, [1979, p.5-20, rus] 34-2994

Classification of the vegetation of Boothia Peninsula and the northern District of Keewatin, N.W.T. Thompson, D.C., [1980, p.73-99, eng] 34-3321

Symposium on biological problems of the North, 8th, Apatity, 1979. Abstracts of the papers. [1979, 177p., rus] 34-4213

Growing forest cultures beyond the polar circle. Pankratov, E.N., [1979, p.157-158, rus] 34-4241

Polarization (charge separation)

Charge separation associated with secondary ice crystal production. Hallett, J., et al, [1979, p.2230-2235, eng] 34-1766

Polarization processes in the ice lattice. 1. Approach by thermodynamics of irreversible processes. New experimental verification by means of a universal relation. Hubmann, M., [1979, p.127-139, eng] 34-4001

Polarization processes in the ice lattice. 2. Approach by Kirkwood's theory. Comparison with the results from thermodynamics of irreversible processes. Hubmann, M., [1979, p.141-146, eng] 34-4002

Pollen

Palynological data for the characterization of the snow-firn strata of the Gergeti Glacier. Psareva, T.V., et al, [1974, p.396-406, eng] 34-1208

See also: Palynology

Pollution

Oil spill countermeasures for the southern Beaufort Sea. Logan, W.J., et al, [1975, 126p., eng] 34-151

Altitude effect on the deuterium content of the local rains and snows in the Himalayas. Wushiki, H., [1977, p.57-59, eng] 34-905

Detection of fission product deposits of atmospheric fallout in firn profiles. Ambach, W., [1979, p.11-18, ger] 34-1317

Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] 34-1508

Hydrothermal variations in permafrost landscapes. Anisimova, N.P., [1979, p.148-152, rus] 34-1521

Increased mercury contamination of distilled and natural water samples caused by oxidizing preservatives. Cragin, J.H., [1979, p.313-319, eng] 34-2004

Effect of petroleum products on Arctic snow-ice cover. Izmailov, V.V., [1980, p.147-152, rus] 34-2848

See also: Air pollution; Oil spills; Soil pollution; Thermal pollution; Water pollution

Polygonal topography

Zonal characteristics of polygonal ice-wedge relief in Western Siberia. Shamanova, I.I., [1979, p.82-87, eng] 34-529

Relict cryogenic microrelief of the southern Bryansk Region. Porozhniakova, O.M., [1979, p.86-93, rus] 34-1823

Recent geomorphological processes in the periglacial zone of the southeastern Altai (the Tete River valley). Petkevich, M.V., [1967, p.98-107, rus] 34-1992

Polyandry, replacement clutches, and site tenacity in the red phalarope *(Phalaropus fulicarius)* at Barrow, Alaska. Schamel, D., et al, [1977, p.314-324, eng] 34-2497

Deformation of ice-wedge polygons, Garry Island, Northwest Territories. Mackay, J.R., [1980, p.287-291, eng] 34-2990

Periglacial features from Morfee Mountain, North-Central British Columbia. Revel, R.D., [1980, p.349-356, eng] 34-3871

Dynamics of vegetational cover and the development of cryogenic relief forms. Tyrtikov, A.P., [1979, 116p., rus] 34-4010

Formation of accumulative relief of the Ogoronskaya Basin (eastern part of the Baykal Amur railroad) under permafrost conditions. Kopylov, I.F., et al, [1979, p.9-14, rus] 34-4102

See also: Patterned ground

Polymers

Use of polymer materials in embankment slope stabilization. Stafeev, P.F., et al, [1979, p.127-131, rus] 34-129

Stand for dynamic tests of self-lubricating materials for friction and wear at low temperatures. Semenov, V.A., et al, [1975, p.132-135, rus] 34-234

Abrasive strength of polymers at low temperatures. Koval'chuk, L.P., [1974, p.164-167, rus] 34-389

Wear resistance of self-lubricating polymers under natural cold conditions. Cherskii, I.N., [1974, p.167-170, rus] 34-390

Localized deformation of polymers at low temperatures and high loading rates. Williams, J.D., III, [1978, 293p., eng] 34-603

Dielectric properties of polymer materials in different climatic conditions. Filatov, I.S., [1979, 129p., rus] 34-749

Phosphonitrilic fluoroelastomer coated fabrics for collapsible fuel storage tanks. Sicka, R.W., et al, [1979, 172p., eng] 34-1043

Polystyrene insulation for concrete canal lining. Jones, C.W., et al, [1978, 30p., eng] 34-1172

Soil consolidation under difficult engineering-geological conditions. Baushev, V.K., et al, [1979, p.111-116, rus] 34-1532

Polystyrene concrete, an effective thermal insulation material for industrial buildings and block-component construction. Stefurak, B.I., et al, [1980, p.5-6, rus] 34-2593

Role of fabric in low embankments on muskeg. Greenway, D.R., et al, [1978, p.165-181, eng] 34-2914

Ice-release coating for disconnect switches. Mundon, J.L., [1980, 24p., eng] 34-3085

Blow molded polyethylene snow scoop improves on 300-year-old idea. [1979, p.38-39, eng] 34-3999

Polynyas

Some sea ice cover statistics for the Canadian east coast. Fraser, J.E., [1975, 28p., eng] 34-316

Characteristics of antarctic sea ice as determined by satellite-borne microwave imagers. Zwally, H.J., et al, [1976, p.94-97, eng] 34-815

Arctic lead-airdrop data buoy. Buck, B.M., et al, [1979, 22p., eng] 34-1044

Utilizing water reservoir heat for sustaining ice-free areas around dredges. Roshchupkin, D.V., et al, [1979, p.15-17, rus] 34-1251

Northern Smith Sound oceanography—summer 1977. Tooma, S.G., [1978, 28p., eng] 34-2368

Winter régime of the North Water. Dunbar, M., [1973, p.275-281, eng] 34-2527

Winter operation of water navigation objects. Ivanov, L.V., [1978, 211p., rus] 34-2686

Construction of underwater crossings of main pipelines. [1970, 36p., rus] 34-2866

Seasonal and interannual variations of basic ice regime elements of the Southern Ocean. Romanov, A.A., [1979, p.100-108, rus] 34-3003

Ice structure and the formation of thawed patches. Komov, N.I., [1979, p.151-157, rus] 34-3010

Heat transfer in Atlantic waters on the continental slope of the Laptev Sea. Beliakov, L.N., et al, [1979, p.30-36, rus] 34-3586

Physical oceanography of the seasonal sea ice zone. McPhee, M.G., [1980, p.93-132, eng] 34-3627

Meteorology and climatology of the seasonal sea ice zone. Barry, R.G., [1980, p.133-156, eng] 34-3628

Selective melting of lake ice. Zimov, S.A., et al, [1979, p.121, rus] 34-3702

Polynyas and prehistoric settlement patterns. Schledermann, P., [1980, p.292-302, eng] 34-3868

Biological importance of polynyas in the Canadian Arctic. Stirling, I., [1980, p.303-315, eng] 34-3869

Calculating geometric characteristics of ice cover. Zubakin, G.K., et al, [1980, p.35-40, rus] 34-4181

Ponds

Effect of Prudhoe crude oil on carbon assimilation by planktonic algae in an Arctic pond. Miller, M.C., et al, [1978, p.833-850, eng] 34-912

Further field investigation on aerated lagoons in the city of Winnipeg. Girling, R.M., et al, [1974, p.99-124, eng] 34-1471

Diffusion systems for cold climate lagoons. Christianson, C.D., et al, [1974, p.170-206, eng] 34-1473

On the combined treatment of domestic sewage and waste water from wood industries. Airaksinen, J.U., [1974, p.241-257, eng] 34-1477

Design and operation of tailing ponds. Maul', V.K., [1979, p.62-65, rus] 34-4156

Porosity

Structural criterion of concrete frost resistance. Dvorkin, L.I., et al, [1979, p.75-78, rus] 34-851

Porosity and gas content of recent polar ice, applications to deep core analysis. Lebel, B., [1978, 80p., fre] 34-936

Relation between the frost resistance and the mechanical and porometric characteristics of a terra cotta fragment. Fontaine, T., [1979, p.197-211, fre] 34-2325

Methods of testing frost resistance of stone. Mamillan, M., [1979, p.225-238, fre] 34-2327

Frost shattering of wet rock. Bertouille, H., [1979, p.315-328, fre] 34-2335

Use of ultrasonic waves to monitor the propagation of the freezing front in carbonaceous rocks. Masson, M., [1979, p.359-365, fre] 34-2338

Control of seepage through concrete by injection of polymer solutions. Ibragimov, M.N., [1980, p.880-882, rus] 34-3378

Self-consistent solutions of some problems of heat and mass transfer in a saturated porous medium. Verigin, N.N., et al, [1980, p.1089-1094, eng] 34-3561

Organization of a natural kaolinite-iron oxide system in dry and wet states. Relationship between melting temperature of ice and pore size. Homshaw, L.G., et al, [1980, p.847-850, fre] 34-3777

Pendular-funicular liquid transition in snow. Denoth, A., [1980, p.93-97, eng] 34-3801

Structural interpretation of thawing ground compressibility. Gur'ianov, I.E., [1979, p.65-84, rus] 34-4157

Porous materials

Study of the effects of pore-water salinity on some physical properties of sedimentary rocks at permafrost temperatures. Pandit, B.I., et al, [1979, p.1566-1580, eng] 34-1456

Freezing of porous media and problems posed by frost action. Aguirre-Puente, J., [1978, p.15-43, fre] 34-2025

Studies of the destruction mechanism at freezing of porous materials. Fagerlund, G., [1979, p.167-196, eng] 34-2324

Model of freezing in porous media applied to an actual case. Adler-Vignes, M., et al, [1979, p.263-269, fre] 34-2330

Porous materials *(cont.)*
Ice growth at a porous plate and at a single capillarity. Biermans, M., et al, [1979, p.285-293, eng] 34-2332
Freezing of water in porous materials. Blachere, J.R., [1979, p.295-303, fre] 34-2333
Exact solution for freezing of humid porous half-space. Mikhailov, M.D., [1979, p.305-313, eng] 34-2334
Discussion about the freezing point depression in small pores. Haynes, J.M., et al, [1979, p.393-397, eng] 34-2341
Integral balance approach for determination of heat transfer potential in porous bodies under different types of boundary conditions. Srivastava, K.K., et al, [1979, p.447-457, eng] 34-2346
Numerical sumulation of a horizontal porous layer heated from below. Caltagirone, J.P., [1979, p.467-479, fre] 34-2348
Improved drainage and frost action criteria for New Jersey pavement design—Phase III: Structural strength of pavements with open-graded bases. Barker, W.R., et al, [1979, c82p., eng] 34-2359
Resistance of porous asphalt and antihydroplaning surfaces to environmental effects and simulated aircraft wheel loadings. Hargett, E., [1974, 56p., eng] 34-2632
Application of recent results in functional analysis to the problem of wetting fronts. Nakano, Y., [1980, p.314-318, eng] 34-3948

Portable equipment
Portable data collection winch without slip rings for Arctic use. Richards, D., [1979, p.1-3, eng] 34-1045

Portable shelters
Engineer design test of Cold Regions Research and Engineering Laboratory (CRREL) shelter. Dollahite, M.C., [1978, 97p., eng] 34-135
Fabrication and testing of pressurized rib tents. Steeves, E.C., [1979, 103p., eng] 34-1363
Time-dependent deformation of ice domes. Hajdo, L.E., [1979, p.261-267, eng] 34-1764
Operation of the CRREL prototype air transportable shelter. Flanders, S.N., [1980, 73p., eng] 34-3331

Ports
Arctic terminal for icebreaking tankers: conceptual design. Lewis, A.E., [1979, 6p. + figs., eng] 34-1507
Arctic terminal for icebreaking tankers study: conceptual design, final report. Lewis, A.E., [1979, 245p., eng] 34-1576
Synopsis—ice in estuaries and harbours. Carstens, T., [1979, p.1-30, eng] 34-1959
Winter operation of water navigation objects. Ivanov, L.V., [1978, 211p., rus] 34-2686

Power generation
See: Electric power; Tidal power plants; Wind power generation

Power line icing
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] 34-213
New method of forecasting ice-hoarfrost deposits on power lines. Kolmogorova, I.M., et al, [1975, p.108-113, rus] 34-230
Power transmission lines in high mountains. Davidian, D.B., [1979, 188p., rus] 34-721
Determining thickness of icing when designing 0.4 to 35 kv overhead lines. Narozhnyĭ, V.B., [1979, p.63-64, rus] 34-855
Reliability of overhead power transmission lines in the Far North. Selianin, A.I., et al, [1979, p.64-65, rus] 34-1430
Reliability of 6 kV power lines in coal mines in glaze development areas. Manatskov, B.M., [1972, p.110-117, rus] 34-1906
Aerodynamic resistance of iced power lines. Khokhlov, V.A., [1978, p.82-86, rus] 34-2104
Glaze-wind forces on power lines in Central Asia. Leukhina, G.N., [1979, p.67-72, rus] 34-2413
Development of equipment for preventing the adhesion of ice or snow to contact wire. Mizuno, J., et al, [1974, p.81-82, eng] 34-2652
Development of feeding systems for preventing the adhesion of ice or snow to contact wire. Saijo, T., [1973, p.155-156, eng] 34-2664
Especially dangerous icings in the Crimean mountains. Koshenko, A.M., [1977, p.3-12, rus] 34-2890
Recommendations for forecasting especially dangerous airmass icings in the Ukraine. Koshenko, A.M., [1977, p.13-20, rus] 34-2891
Formation of ice on electrical conductors during heavy falls of wet snow. Kemp, A.K., [1980, p.69-74, eng] 34-2903
Experimental studies on snow accretion at subzero temperatures. Mizuno, Y., et al, [1979, p.17-32, jap] 34-3488
Ice loads at the Arctic shores of Chukotka. Popova, O.P., [1979, p.69-72, rus] 34-3531

Power line supports
Methods of fastening reinforced concrete supports of overhead power lines in weak ground. Kurnosov, A.I., et al, [1979, p.29-32, rus] 34-195
Using the super-plasticizer S-3 in manufacturing reinforced concrete supports for power lines. Kolokol'nikova, E.I., et al, [1979, p.23-24, rus] 34-331
Possibility of using low carbon steel for overhead power line supports for low temperatures. Vinkler, O.N., et al, [1979, p.21-23, rus] 34-337
Power transmission lines in high mountains. Davidian, D.B., [1979, 188p., rus] 34-721
Improving the design of supports for overhead power lines of and exceeding 500 kv. Peterson, L.L., et al, [1979, p.48-51, rus] 34-1851
Glaze-wind forces on power lines in Central Asia. Leukhina, G.N., [1979, p.67-72, rus] 34-2413
Design and construction of power supply lines for the Baykal Amur railroad area. Shimkovich, V.G., [1980, p.45-58, rus] 34-2567
Modern design of power line support foundations for Tyumen'. Kirtbaia, I.A., et al, [1980, p.38-44, rus] 34-2574
Optimal structural design solutions for overhead lines in the North. Gabliia, IU.A., et al, [1980, p.44-48, rus] 34-2575
Structural design of steel power line supports for northern regions. Astafeev, A.M., et al, [1980, p.49-52, rus] 34-2576
Ice protection of power line supports. Marfin, N.I., [1979, 93p., rus] 34-2870
Use of "muskeg caps" to deter frost penetration under transmission line tower bases. Sims, R.A., [1978, p.116-131. eng] 34-2911
Geocryological investigations in West Yakutia. Mel'nikov, P.I., ed, [1980, 113p., rus] 34-4033
Foundations of power transmission lines and substations. Makarov, V.I., et al, [1980, p.10-22, rus] 34-4035

Power lines
Experimental studies of snow accretion on power lines. Fujino, K., et al, [1979, p.95-100, eng] 34-67
Construction of 220 kv overhead lines in avalanche areas of the Baikal and Severo-Muyskiy ranges. Akulov, V.V., et al, [1979, p.75-84, rus] 34-1129
Reliability of overhead power transmission lines in the Far North. Selianin, A.I., et al, [1979, p.64-65, rus] 34-1430
Ways of improving the construction of power supply objects for the Baykal Amur railroad. Naianov, V.G., et al, [1980, p.43-45, rus] 34-2566
Tynda-Prizeĭskaya 220 kw overhead line crossing the Zeya reservoir. Kirillova, G.G., et al, [1980, p.53-55, rus] 34-2570
Improving the organization of construction of overhead lines and substations in the North. Denisov, G.A., et al, [1980, p.31-38, rus] 34-2573
Evaluating the depth of seasonal thawing for operating electric power transmission lines. Spesivtsev, V.I., et al, [1980, p.3-10, rus] 34-4034

Power supply
See: Electric power

Precipitation gages
Developments in snow measurements with gamma radiation. Paulin, G., [1978, p.56-62, eng] 34-32
Correction of point precipitation measurements. Sevruk, B., [1979, p.267-279, eng] 34-1328
Snow depth measurements in the Sonnblick region, 1927-1956. Roller, M., [1957, p.43-45, ger] 34-1658
Precipitation on the karst plateau of the Höllen Mountains in Upper Austria. Tollner, H., [1970, p.19-33, ger] 34-1664
Size distribution and Z-R relationship of snow particles observed in Nagaoka, Pt. 1. Yagi, T., et al, [1979, p.49-61, jap] 34-1740
Studying errors of precipitation gages in high mountains. Sudakov, P.A., et al, [1979, p.18-27, rus] 34-1972
International conference on meteorology of the Carpathian Mountains. Proceedings. [1979, 415p., rus] 34-2299
Improving snow gage accuracy. Pleiss, H., [1979, p.275-283, rus] 34-2302
Determination of the amount of solid precipitation under the forest canopy. Kolesov, A.F., [1979, p.113-116, eng] 34-2887
Comparing the readings of a summary rain gage and the Tret'iakov precipitation gage obtained in mountain taiga. Gorchakov, A.M., et al, [1979, p.126-130, rus] 34-2900
Computing precipitation in mountains using precipitation gages. Sudakov, P.A., et al, [1979, p.166-172, rus] 34-3708
Size distribution and Z-R relationship of snow particles observed in Nagaoka, Pt.2 Yagi, T., et al, [1980, p.29-38, jap] 34-4196

Precipitation (meteorology)
Effect of elevation on snowfall and rainfall: first results from the Mt. Mansfield network. Hendrick, R.L., et al, [1978, p.141-152, eng] 34-39
Effect of nocturnal precipitation on the mass balance of the Rikha Glacier, Hidden Valley, Nepal. Higuchi, K., [1977, p.43-49, eng] 34-903
Deuterium content in the Himalayan precipitation at Khumbo District, observed in 1974/1975. Wushiki, H., [1977, p.50-56, eng] 34-904
Role of elevation in determining spatial distributions of precipitation, snow, and water input at Mt. Mansfield, Vermont. Hendrick, R.L., et al, [1979, p.63-70, eng] 34-1006
Infiltration into soil with precipitation of arbitrary intensity. Kutuzova, G.B., [1979, p.142-148, rus] 34-1085
Hydraulic regime of glacial rivers and the controlling role of glaciers. Sokolov, D.P., [1977, p.77-83, rus] 34-1095
Clouds and precipitation in Alaska. Ohtake, T., [1979, p.41-55, eng] 34-1305
Use of isotope tracers in glaciology. Merlivat, L., et al, [1976, p.285-289, fre] 34-1555
Glacier behavior in the Grossglockner and Sonnblick regions during the 1973/74 and 1974/75, ice budget years and long-term changes of the Gefrorene Wandkees in the Zillertal Alps. Tollner, H., [1976, p.33-46, ger] 34-1675
Distribution of atmospheric precipitation on northern slopes of the Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskiĭ, I.V., [1979, p.37-46, rus] 34-1974
Oxygen isotopic composition of fallen snow in Antarctica. Kato, K., [1979, p.124-135, jap] 34-2154
Oxygen isotopic composition of snow formed under an antarctic anticyclone. Kato, K., et al, [1979, p.152-163, jap] 34-2156
Vegetational indices of precipitation in the Alpine belts of the Pamirs. Agakhaniants, O.E., et al, [1979, p.61-67, rus] 34-2182
Statistical structure of the fields of precipitation and snow cover in mountains. Getker, M.I., [1979, p.40-51, rus] 34-2412
Moisture transport in the atmosphere during abundant precipitation in the Zeravshan and Kashkadarya basins in winter and spring. Volnova, T.A., et al, [1979, p.79-84, rus] 34-2414
Information content of observations on precipitation and snow cover in the Uryadar'ya River Basin for long range forecasts of runoff. Akhundzhanov, Sh.M., et al, [1978, p.3-21, rus] 34-3345
Comparative evaluation of indirect Computation methods of determining ratios of various precipitation types. Bogdanova, E.G., et al, [1979, p.84-89, rus] 34-3696
Duration and intensity of solid precipitation in North America (indirect calculations and mapping). Bogdanova, E.G., et al, [1979, p.89-94, rus] 34-3697
Possibility of indirect determination of solid precipitation intensity. Bogdanova, E.G., [1979, p.161-165, rus] 34-3707
Computing precipitation in mountains using precipitation gages. Sudakov, P.A., et al, [1979, p.166-172, rus] 34-3708
Estimating water equivalent depth from related meteorological variables. Steyaert, L.T., et al, [1979, p.26-39, eng] 34-4203
See also: Rain; Snowfall

Prefabrication
Reconstruction of enterprises for the expansion of complete unit construction. Drobiazko, V.A., [1979, p.10-11, rus] 34-167
Planning and prospects of the development of residential construction industry. Sokolov, A.V., [1979, p.11-12, rus] 34-168
Optimal design of steel frames for modular buildings in the Far North. Volovik, A.IA., et al, [1972, p.3-15, rus] 34-173
Small buildings of metallic folding sections. Nevenchenko, I.M., et al, [1972, p.22-32, rus] 34-175
Modular apartment buildings with "packet" type cells. Lazhintsev, V.I., [1972, p.33-42, rus] 34-176
Experimental study of the "packet" type apartment cells. Lazhintsev, V.I., et al, [1972, p.43-53, rus] 34-177
Sectional buildings with bearing panels made of effective materials. Lazhintsev, V.I., et al, [1972, p.54-63, rus] 34-178
Methods of technical and economic evaluation of modular buildings and structures. Pal'tsevich, L.P., [1972, p.64-73, rus] 34-179
Determining optimal service life of modular buildings. Pal'tsevich, L.P., [1972, p.98-107, rus] 34-183
Requirements for structural elements of sectional buildings determined by the conditions of their transportation and assembly by helicopter. Bogdanov, V.A., [1972, p.108-120, rus] 34-184
Distribution of factories producing sectional buildings. Pal'tsevich, L.P., et al, [1972, p.137-142, rus] 34-186
Electric panels for heating modular houses. Kazantsev, I.A., et al, [1979, p.10-11, rus] 34-241
Large units increase the effectiveness of segmental construction. Permikin, IU.N., et al, [1979, p.12-14, rus] 34-247
Construction of alleyways and roads in freezing weather. Zhuravel', A.F., et al, [1979, p.20, rus] 34-341
Concretes for roof plates. Savvina, IU.A., et al, [1977, p.14-17, rus] 34-346
Slag concrete for building walls exposed to corrosive media. Bulgakova, M.G., et al, [1977, p.27-33, rus] 34-348
Recommendations for using lightweight concrete in the construction of large panel residential buildings. [1976, 71p., rus] 34-401
Prefabrication stages in building construction. Makeev, A.M., et al, [1979, p.30-34, rus] 34-519
Selecting modular structures for northern construction sites. Koposhko, V.S., [1977, p.138-140, rus] 34-994
Construction of residential and public buildings in West Siberia. Khaitum, A.D., [1979, p.16-18, rus] 34-1180

Making haydite foam concrete for wall panels. Azbel', L.I., [1979, p.21-22, rus] 34-1252
Combined design technique in large panel construction. [Akushev, A.A., et al, [1979, p.7-8, rus] 34-1431
Controlling frost resistance of concrete during production. Voevoda, G.F., et al, [1979, p.35-37, rus] 34-1434
Standard foundation design for structures built on permafrost. [1979, p.36, rus] 34-1713
Thermal stresses in trapezoidal layered panels with corrugated facing. Chaplinskii, I.A., et al, [1979, p.39-45, rus] 34-1719
Prefabricated plates of ground floor framing in residential buildings of the North. Pikhovkin, V., et al, [1979, p.38-39, rus] 34-1771
Sectional, instead of situ-poured, cylindrical pumping stations. Podgornyi, I., [1979, p.40-41, rus] 34-1772
Light metal structures for industrial buildings and their installation. Abramovich, K., et al, [1979, p.24-27, rus] 34-1774
New type of feeder road surface. Sokolov, S.A., et al, [1979, p.8-9, rus] 34-1941
Slab of silicate reinforced concrete. Griazin, A.D., et al, [1979, p.9, rus] 34-1942
Surface-active admixtures for concretes of airport pavement plates. Saf'ianova, N.E., et al, [1980, p.23-24, rus] 34-2588
Lightweight enclosures for use in the Urals and Siberia. Pavlov, V.P., et al, [1979, p.2-5, rus] 34-2589
Improving the quality of bridge construction with prefabricated parts for the Baykal Amur railroad. Raskazov, I.D., et al, [1979, p.8-11, rus] 34-2591
Experimental pipeline section with prefabricated insulation. Zinevich, A.M., et al, [1980, p.21-22, rus] 34-2598
Construction in the Arctic and the Far North. [1970, 95p., rus] 34-2867
Design of lightweight multilayered panels with polystyrene foam thermal insulation. Zhuk, I.P., et al, [1978, p.65-72., rus] 34-4017

Pressure

Development of ice by cryostatic pressure in northeastern Wisconsin and its effect on unconsolidated shore bluffs. Stieglitz, R.D., [1978, p.645-647, eng] 34-660
Causes of the values of winter pressure of ground on walls of solid-bottom sluice chambers, exceeding the design values. Avdeeva, V.I., [1979, p.98-105, rus] 34-2049
High pressure apparatus for PVT measurements of liquids and plastic crystals at low temperature. Landau, R., et al, [1980, p.533-535, eng] 34-3408
Experimental studies on regelation. Tozuka, S., et al, [1979, p.1-15, jap] 34-3487
Frost heave under overburden pressure. Ishizaki, T., et al, [1979, p.169-178, jap] 34-3503
Arctic line pressure testing alternatives. Marks, A., [1980, p.126-132, eng] 34-3951
See also: Atmospheric pressure; Ice pressure; Soil pressure; Water pressure; Wind pressure

Pressure ridges

Mathematical model to describe the behavior of a moving ice field encountering a conical structure. Kim, J.K., et al, [1973, 2 vols., eng] 34-294
Ice adhesion study. [1973, 88p., eng] 34-295
Investigations into the feasibility of producing pressure ridge/ice sheet systems with synthetic ice. Edwards, R., et al, [1975, n.p., eng] 34-298
Sea ice ridging over the Alaskan continental shelf. Tucker, W.B., et al, [1979, p.4885-4897, eng] 34-411
Extent and growth pattern of landfast ice in the southern Beaufort Sea—winter 1972-73. Spedding, L.G., [1974, 61p. + appends., eng] 34-415
Statistical analysis of ice pressure ridge distribution in the southern Beaufort Sea. Gladwell, R.W., [1976, 45p., eng] 34-417
Recent ice observations in the Alaskan Beaufort Sea federal-state lease area. Kovacs, A., [1978, p.7-12, eng] 34-870
Arctic beach environment, south-west Devon Island, N.W.T. Owens, E.H., [1969, 152p., eng] 34-938
Variations in snow distribution over Arctic Ocean ice. Buzuev, A.IA., et al, [1979, p.76-85, rus] 34-1387
Presentation of sea ice ridges in general and physical characteristics of Baltic ridges for ship resistance calculations. Keinonen, A., [1978, 19p. + 14 figs., eng] 34-2141
Description of a thrust of sea ice. Hanson, A., [1980, p.101-104, eng] 34-2276
Statistical methods of probable use for understanding remote sensing data. Gaver, D.P., [1979, 40p., eng] 34-2369
Effectiveness of aerial ice surveys in navigation under ice cover contraction conditions. Voevodin, V.A., [1979, p.134-139, rus] 34-3008
Aerial photographic surveys of ice cover for hydraulic engineering. Losev, S.M., et al, [1979, p.140-150, rus] 34-3009
Dynamics of near-shore ice. Kovacs, A., et al, [1979, p.181-207, eng] 34-3051
Field studies of the strength and physical properties of a multi-year ice pressure ridge in the southern Beaufort Sea. Gladwell, R.W., [1977, c90p., eng] 34-3107
Structural analysis of the ice encountered in Ridge Camp 1975. Nadreau, J.P., [1976, c70p., eng] 34-3108
Testing a numerical scheme for calculating winter ice distribution in Arctic seas. Appel', I.L., et al, [1977, p.141-150, rus] 34-3317
Shore ice pile-up and ride-up: field observations, models, theoretical analyses. Kovacs, A., et al, [1980, p.209-298, eng] 34-3631
Ice pressure ridges. Kraus, E., [1980, 59p., eng] 34-3894
Forms created by the thermal movement of lake ice in Finland in winter 1972-73. Alestalo, J., et al, [1979, p.51-92., eng] 34-4159
Critical survey of the application of borehole logging techniques to the study of sea ice. Laidley, T.E., [1980, 45p., eng] 34-4160

Prestressed concretes

Methods of studying experimental prestressed concrete spans of railroad bridges designed for the North. Skopich, V.M., et al, [1979, p.54-70, rus] 34-3181

Prevention

Primary productivity

See: Biomass

Production

See: Manufacturing

Profiles

Sea ice ridging over the Alaskan continental shelf. Tucker, W.B., et al, [1979, p.4885-4897, eng] 34-411
Reconstruction of a Late Pleistocene glacier tongue with the aid of a calculated longitudinal profile. Kerschner, H., [1978, p.119-123, ger] 34-668
Profile observations of snow cover on level land in Shinjo City during the winter of 1973-1974. Higashiura, M., et al, [1979, p.37-54, jap] 34-2554
Observation on vertical profiles of physical properties of snow cover on the ground surface at Shinjo City during the winter of 1974 to 1975. Higashiura, M., et al, [1979, p.1-26, jap] 34-2555
Equilibrium profile of ice shelves. Sanderson, T.J.O., [1979, p.435-460, eng] 34-3784
Airborne UHF radio echo-sounding of three Yukon glaciers. Narod, B.B., et al, [1980, p.23-31, eng] 34-3795
Knik Glacier, Alaska, May 1979 monument and glacier survey. Trabant, D.C., et al, [1979, 20p. + 2 maps, eng] 34-4080
See also: Soil profiles; Stratigraphy

Projectile penetration

Bullet penetration in snow. Cole, D.M., et al, [1979, 23p., eng] 34-626
Influence of nose shape and L/D ratio on projectile penetration in frozen soil. Richmond, P.W., [1980, 21p., eng] 34-3450

Projects

See: Research projects

Propellers

Propelling devices for all-terrain vehicles. Gorbeshko, M.V., et al, [1979, p.7, rus] 34-404
Mechanical technology in ice research. Schwarz, J., et al, [1979, 24p., eng] 34-1344
Sectional propellers for icebreakers. Vysokorodov, N., et al, [1979, p.32-33, rus] 34-2078
Calculation of working conditions of the propulsion plant of icebreakers and of their movement in the "running-on" mode. [Arovenko, V.A., [1979, p.36-38, rus] 34-2696
"Inexpensive" icebreaker not so inexpensive. Lamekhov, A., [1979, p.41, rus] 34-2795
Icebreakers with controllable propellers more reliable. Ivanov, S., [1980, p.32-33, rus] 34-2796
Requirements for controllable propellers of ice navigation ships. Ivanov, S.N., [1979, p.122-132, rus] 34-3472
Internal ducted propulsion system applicable to ice conditions. Burnett, R.F., [1980, p.53-54, eng] 34-4067

Prospecting

See: Electromagnetic prospecting; Exploration; Gravimetric prospecting; Geothermal prospecting; Seismic prospecting

Protection

Water area drift ice protection device. Ivanov, L.V., et al, [1976, 4 col., rus] 34-1223
Protective structures for the Fällbach in the town of Saas Balen, Wallis, Switzerland. Lichtenhahn, C., [1979, p.169-176, ger] 34-1325
Use of exchange plastics for the protection and repair of concrete bridge pavements exposed to salting. Schröder, M., [1980, p.23-24, 26-27, ger] 34-2492
Winter concreting. Pink, A., [1979, 19p., eng] 34-2513
Experience of using an ice protection dam in the lower course of the Yenisey River. Samochkin, V.M., et al, [1977, p.51-55, rus] 34-3174

Protective coatings

Icephobic coatings for highway pavements. Cook, J.C., [1979, p.106-115, eng] 34-69
Low temperature effects on the abrasion behaviour of coated fabrics. Tennyson, R.C., et al, [1977, p.44-59, eng] 34-206
Adfreeze bonding between sea ice and offshore structures: a critical examination. Sackinger, W.M., [1977, p.13-18, eng] 34-695
Phosphonitrilic fluoroelastomer coated fabrics for collapsible fuel storage tanks. Sicka, R.W., et al, [1979, 172p., eng] 34-1043
Construction of an ice-retardant overlay. Nittinger, R.J., [1979, 28p., eng] 34-1573
Development of icebreakers and icebreaking methods; library search of Russian and European literature (Supplement). Dvorak, G.J., [1974, 3 vols., rus] 34-1737
Design of river icebreakers; library search of Russian and European literature (Supplement). Dvorak, G.J., [1972, 13 vols., rus] 34-1738
Importance of full scale testing in ice for designing icebreaking ships. Mäkinen, E., [1977, p.7-16, eng] 34-1934
Ice-release coating for disconnect switches. Mundon, J.L., [1980, 24p., eng] 34-3085
Analysis of the performance of a 140-foot Great Lakes icebreaker: USCGC *Katmai Bay*. Vance, G.P., [1980, 28p., eng] 34-3199
Deicing a satellite communication antenna. Hanamoto, B., et al, [1980, 14p., eng] 34-3451
Ice adhesion tests on coatings subjected to rain erosion. Minsk, L.D., [1980, 14p., eng] 34-3484
See also: Surfactants

Protective vegetation

Natural and economic aspects of protecting Siberian soils from erosion. Orlov, A.D., [1979, p.89-94, rus] 34-444
Deflation of Barguzin Basin soils and economic utilization. Namzhilov, N.B., [1979, p.124-130, rus] 34-449
Landscaping of northern cities. Pomazkova, E.N., [1978, 160p., rus] 34-582
Maintenance felling of trees in snow protection strips. Kazanskii, V.D., [1979, p.11-13, rus] 34-1420
Proceedings of the Davos Seminar, September 1978. [1979, 258p., eng] 34-1777
Aims and preliminary results of French protective reforestation at the tree line on abandoned alpine pastures (Southern French Alps). Mullenbach, P., [1979, p.261-278, fre] 34-1794
Ecosystem of avalanche protection forests. Mayer, H., [1979, p.281-299, ger] 34-1795
Development and structure of pine forests in Slovakia and their effectiveness as avalanche protection. Korpel', S., [1979, p.301-317, ger] 34-1796
Present state of mountain forests, consequences for their avalanche protection function, silvicultural measures. Ott, E., [1979, p.321-330, eng] 34-1797
Silvicultural planning in avalanching forests. Fiebiger, G., [1979, p.331-348, eng] 34-1798
Afforestation of stony slopes of the Gissar Range. Khvorov, N.A., et al, [1979, p.55-57, rus] 34-2111
Hydroclimatic influence of forests. Protopopov, V.V., ed, [1979, 144p., rus] 34-3768
Evaluating soil stability to washout Kuklin, V.V., et al, [1979, p.79-82, rus] 34-3773
Tracked vehicle effect on subarctic tundra vegetation. Andreev, V.N., et al, [1979, p.22-24, rus] 34-4220
See also: Forest strips

Proton transport

Thermal expansion anomaly of ice VI related to the order-disorder transition. Mishima, O., et al, [1979, p.2037-2038, eng] 34-372
Direct spectroscopic observation of proton exchange and Bjerrum defect migration in cubic ice. Ritzhaupt, G., et al, [1980, p.6807-6808, eng] 34-3782
Influence of the choice of glide plane on the theory of the velocity of dislocations in ice. Whitworth, R.W., [1980, p.521-528, eng] 34-4065

Pumps

Hydraulic system for extremely cold environments. Bridwell, J.W., et al, [1977, 4 col., eng] 34-266
Combined portable fluid-level warning device. Zhukov, B.P., et al, [1974, p.89-93, rus] 34-756
Waste heat recovery for heating purposes. Phetteplace, G., [1978, p.30-33, eng] 34-874
Construction of a cutoff wall by the diaphragm wall method in the foundation pit of a bank pumping station. Domarev, A.N., et al, [1980, p.255-259, eng] 34-3369

Quarries

Geomorphological processes developing on artificial structures in the nivation-glaciation zone of the Khibiny Mountains. Semekhin, IU.V., et al, [1979, p.192-195, rus] 34-2204

Quaternary deposits

Recent tectonics and river valleys in the Ilim, Ust'-Kutsk and Katanga areas in relation to land reclamation problems. Zveder, L.N., [1979, p.71-75, rus] 34-1069
Possible late Quaternary pingo remnants in central London. Hutchinson, J.N., [1980, p.253-255, eng] 34-2487

Radar

Preparing radar equipment for winter operation. Udot, B., [1979, p.60-63, rus] 34-2709
Laboratory studies of dipole reflector wetting and freezing in aqueous aerosols. Evstratov, V.V., et al, [1979, p.117-121, rus] 34-2879
Extending the useful life of DYE-2 to 1986. Part 2: 1979 findings and final recommendations. Tobiasson, W., et al, [1980, 37p., eng] 34-3334

Radar echoes

Current forecast procedures for lake effect snows in western New York especially related to 1976-1977 and 1977-1978 winters. Kolker, B., [1978, p.17-35, eng] 34-29

Radar echoes *(cont.)*
Remote estimation of the properties of sea ice, impulse radar study of Lake Melville, Labrador. Butt, K.A., et al, [1979, c.215 leaves, eng] 34-784
Recent ice observations in the Alaskan Beaufort Sea federal-state lease area. Kovacs, A., [1978, p.7-12, eng] 34-870
Detection of ice at sea by radar. Williams, P.D.L., [1979, p.275-287, eng] 34-960
Anisotropic properties of sea ice in the 50- to 150-MHz range. Kovacs, A., et al, [1979, p.5749-5759, eng] 34-963
Surface-based scatterometer results of Arctic sea ice. Onstott, R.G., et al, [1979, p.78-85, eng] 34-1167
Air- and spaceborne remote sensing in hydrogeology and engineering geology. Sadov, A.V., et al, [1979, 223p., rus] 34-1225
First article test of lightweight camouflage screening system, snow (radar scattering). Nelson, J.D., [1979, 14p., eng] 34-1340
Model for space radar clutter. Tomlinson, P.G., [1979, 107p., eng] 34-1350
Contrast of electromagnetic characteristics at the marine ice-water boundary. Bogorodskiĭ, V.V., et al, [1979, 6p., eng] 34-1397
Under-ice volcanoes. Miller, K., [1979, p.36-55, eng] 34-1579
Size distribution and Z-R relationship of snow particles observed in Nagaoka, Pt. 1. Yagi, T., et al, [1979, p.49-61, jap] 34-1740
Backscatter measurements of sea ice with a helicopter-borne scatterometer. Patel, J.S., et al, [1979, 120p., eng] 34-1965
Geological surveys of peat fields by radio echo sounding. Bogorodskiĭ, V.V., et al, [1980, p.316-318, rus] 34-2354
Project SAR '77 summary report. Worsfold, R.D., ed, [1979, 402p., eng] 34-2430
Potential of SAR in detecting and monitoring icebergs. Parashar, S., et al, [1980, p.195-210, eng] 34-2442
Imaging radar observations of frozen Arctic lakes. Elachi, C., et al, [1976, p.169-175, eng] 34-2580
Scattering and attenuation of electromagnetic radiation by hailstones with a logarithmically normal particle distribution function. Bibilashvili, N.Sh., ed, [1979, p.60-66, rus] 34-2877
Formation of hail nuclei. Tlisov, M.I., [1979, p.100-107, rus] 34-2878
Experience in using radar information in forecasting visibility in snowstorms. Zenkevich, D.I., [1979, p.121-124, rus] 34-2971
Sea Ice-75. Programme. Blomquist, Å., et al, [1976, 30p., eng] 34-2985
Field studies of naleds. Alekseev, V.R., et al, [1980, 152p., rus] 34-3189
Video-pulse radiometer of sea ice thickness as a promising means of ice surveying. Finkel'shteĭn, M.I., et al, [1977, p.104-113, rus] 34-3312
Using radar equipment for measuring ice cover thickness in ice surveys. Bushuev, A.V., et al, [1977, p.114-121, rus] 34-3313
Distribution of pack ice off Okhotsk Sea coast of Hokkaido observed with sea ice radar network, January-May, 1979. Tabata, T., et al, [1979, p.37-70, jap] 34-3456
Radar sounding of Spitsbergen glaciers from helicopters. Macheret, IU.IA., et al, [1979, p.109-131, rus] 34-3701
Computerized solution of two-dimensional inverse problems of radar surveys of ice thickness and subglacial relief of mountain glaciers. Berikashvili, V.Sh., et al, [1979, p.131-139, rus] 34-3703
Determining mountain glacier volumes from helicopter radar survey data. Zhuravlev, A.B., [1979, p.140-148, rus] 34-3704
Aspects of radar signal interpretation in Arctic seashore areas. Kotiukh, A.A., [1979, p.66-74, rus] 34-3875
Use of radar to measure ice thickness in rivers, lakes, and reservoirs. Chizhov, A.N., et al, [1978, p.116-127, eng] 34-4038
Active and passive microwave response to snow parameters. 1. Wetness. Stiles, W.H., et al, [1980, p.1037-1044, eng] 34-4071
Active passive microwave response to snow parameters. 2. Water equivalent of dry snow. Ulaby, F.T., et al, [1980, p.1045-1049, eng] 34-4072
Size distribution and Z-R relationship of snow particles observed in Nagaoka, Pt.2. Yagi, T., et al, [1980, p.29-38, jap] 34-4196
Measurement of the fall velocity of snowflakes in Nagaoka and its application to the Z-R relation. Uyeda, H., et al, [1980, p.39-46, jap] 34-4197

Radar photography
VHF downline communication system for SLAR data. Schertler, R.J., et al, [1979, 10p., eng] 34-1575
Study of fractures in consolidated pack-ice cover from radar survey data. Gorbunov, IU.A., et al, [1979, p.30-35, eng] 34-1900
Telemeasurement of ice cover parameters. [1977, 154p., rus] 34-3301
External orientation of satellite scanning radiometer photographs. Bushuev, A.V., [1977, p.17-25, rus] 34-3303
Determining ice cover characteristics from spaceborne photographs of scanning infrared radiometers. Masanov, A.D., [1977, p.26-33, rus] 34-3304
Using microwave satellite measurements for mapping sea ice. Loshchilov, V.S., [1977, p.40-45, rus] 34-3306
Analytic coordination of areal and route radar surveys. Bushuev, A.V., [1977, p.46-57, rus] 34-3307
Operational analysis of the drift and deformation of ice cover from repeated areal radar survey photographs. Borisov, R.A., et al, [1977, p.65-74, rus] 34-3309
Using statistical characteristics of radar photographs of ice covers for their recognition. Aleksandrov, V.IU., et al, [1977, p.151-154, rus] 34-3318
Forecasts and calculations of hydrometeorological elements of northern seas. Terziev, F.S., ed, [1980, 140p., rus] 34-4176
Computer analysis of radar ice cover survey data. Zubakin, G.K., et al, [1980, p.30-34, rus] 34-4180

Radar tracking
Potential of SAR in detecting and monitoring icebergs. Parashar, S., et al, [1980, p.195-210, eng] 34-2442

Radiant cooling
Radiative cooling of layers of pebble. Bernard, J.J., [1979, p.521-524, fre] 34-2352
Studies of radiative cooling at land basins in snowy season. Ishikawa, N., [1977, p.1-46, eng] 34-2427

Radiant heating
Possibility of solving a problem of radiative heat transfer. Amosov, A.A., [1979, p.1341-1344, rus] 34-250

Radiation
Snowmelt computations for a high Arctic site. Heron, R., et al, [1978, p.162-172, eng] 34-40
Energy budget of a snow cover. McKay, D.C., [1979, p.125-134, eng] 34-1012
Variational analysis of freezing or melting in a finite medium subject to radiation and convection. Yeh, L.T., et al, [1979, p.592-597, eng] 34-1499
Electromagnetic radiation of snow and ice during dynamic processes. Kachurin, L.G., et al, [1979, p.583-585, rus] 34-1638
X- or gamma-rays from supernovae in glacial ice. Rood, R.T., et al, [1979, p.701-702, eng] 34-1746
See also: Gamma irradiation; Infrared radiation; Neutron irradiation; Solar radiation; Thermal radiation; Ultraviolet radiation

Radiation absorption
Possibility of solving a problem of radiative heat transfer. Amosov, A.A., [1979, p.1341-1344, rus] 34-250
Impact of CO2 on cooling of snow and water surfaces. Choudhury, B., et al, [1979, p.668-671, eng] 34-1840
Three examples of unsolved problems in antarctic radiation research. Kuhn, M., [1975, p.66-67, eng] 34-2454
Scattering and attenuation of electromagnetic radiation by hailstones with a logarithmically normal particle distribution function. Bibilashvili, N.Sh., ed, [1979, p.60-66, rus] 34-2877

Radiation balance
Solar and net radiation over snow. Petzold, D.E., [1974, 77p., eng] 34-132
Global radiation in Caucasus. [1979, p.101-108, rus] 34-615
Structure of radiation and thermal fields in natural West Siberian central taiga geosystems. Trofimova, I.E., [1979, p.101-120, rus] 34-678
Mass and energy exchange between the ice sheet of Antarctica and the atmosphere. Aver'ianov, V.G., [1979, p.189-202, eng] 34-2374
Radiation regime of the Altai-Sayan mountain system. Goleshchikhin, V.P., [1977, p.72-79, rus] 34-3382
Effective radiation and radiation balance in the Caucasus. Samukashvili, R.D., [1980, p.98-110, rus] 34-3425
Diffuse radiation in the Caucasus. Samukashvili, R.D., [1980, p.123-129, rus] 34-3427
Geophysical aspects of the development of permafrost. Kudriavtsev, V.A., et al, [1980, p.63-79, eng] 34-3832
Control of radiation-thermal balance, the basis of environmental protection in permafrost areas. Kudriavtsev, V.A., [1980, p.3-6, rus] 34-4116
Some factors affecting spring snowmelt within Narrows Mountain Brook basin, a forested watershed in central New Brunswick. Gordon, A.M., [1979, p.53-67, eng] 34-4205

Radiation measurement
See: Radiometry

Radiation measuring instruments
Present status of the bridge ice detection program at FHWA. Leifer, J.C., [1979, p.215-219, eng] 34-83

Radio communication
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] 34-213
Classification of the means of radio communication in mines. Elshin, V.K., et al, [1975, p.30-36, rus] 34-218
Battery for Arctic radio repeater systems. Armstrong, W.A., et al, [1979, 26p., eng] 34-2282
Low-frequency surface impedance measurements at some glacial areas in the United States. Arcone, S.A., et al, [1980, p.1-9, eng] 34-2674

Radio echo soundings
Proceedings of the Scientific Conference on Altai Glaciology Problems. [1963, 259p., rus] 34-106
Remote sensing in glaciology and the physics of echoes. Nye, J.F., [1977, p.189-197, eng] 34-235
Studies of ice by means of radio echo sounding. Gudmandsen, P., [1977, p.198-211, eng] 34-236
Fifty-second annual report on the work of the Scott Polar Research Institute. [1979, p.519-526, eng] 34-473
Ice sheet internal radio-echo reflections and associated physical property changes with depth. Ackley, S.F., et al, [1979, p.5675-5680, eng] 34-999
Ice-sheet glaciology. Drewry, D., [1979, p.313-328, eng] 34-1881
Radio echo sounding of the Antarctic ice sheet, 1978-79; preliminary report. Drewry, D.J., et al, [1979, 21p. + Append., eng] 34-2064
Depolarization of radio waves can distinguish between floating and grounded ice sheets. Woodruff, A.H.W., et al, [1979, p.223-232, eng] 34-2234
Radio echo and magnetic sounding of the Antarctic ice sheet, 1978-79. Drewry, D.J., et al, [1980, p.43-51, eng] 34-2810
Characteristics of ice flow in Marie Byrd Land, Antarctica. Rose, K.E., [1979, p.63-75, eng] 34-2817
Dynamics of the Ross Ice Shelf revealed by radio echo-sounding. Neal, C.S., [1979, p.295-307, eng] 34-2832
Airborne UHF radio echo-sounding of three Yukon glaciers. Narod, B.B., et al, [1980, p.23-31, eng] 34-3795
Radio-echo sounding in the Allan Hills, Antarctica, in support of the meteorite field program. Kovacs, A., [1980, 9p., eng] 34-3874

Radio waves
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology) Bondarev, E.A., ed, [1975, 145p., rus] 34-213
Classification of the means of radio communication in mines. Elshin, V.K., et al, [1975, p.30-36, rus] 34-218
Low-frequency surface impedance measurements at some glacial areas in the United States. Arcone, S.A., et al, [1980, p.1-9, eng] 34-2674

Radioactive age determination
Glacier variations in the Svartisen area, northern Norway. Karlén, W., [1979, p.11-28, eng] 34-1458
Pleistocene glaciation of Spitsbergen. Punning, IA.-M.K., et al, [1979, p.204-208, rus] 34-2209
Classical European glacial stages: correlation with deep-sea sediments. Kukla, G., [1978, p.57-93, eng] 34-3654
Cyclic nature of thermokarst on the Maritime Plain in the Upper Pleistocene and Holocene. Gravis, G.F., [1980, p.245-257, eng] 34-3844

Radioactive fallout
See: Fallout

Radioactive isotopes
Artificial tritium fall-out at the South Pole. Jouzel, J., et al, [1979, p.31-46, eng] 34-724
Radioactive isotope instruments for measuring bearing ground compaction. Klushkin, V.K., et al, [1979, p.15-16, rus] 34-1721
Deuterium and tritium concentrations in the runoff from a glaciated basin in relation to weather. Ambach, W., et al, [1978, p.58/1-58/10, ger] 34-2074
Some problems in stratigraphic analysis of firn in Mizuho Plateau, East Antarctica. Watanabe, O., et al, [1979, p.32-50, jap] 34-2149
Radioisotope power for polar camps. [1967, p.8-9, eng] 34-2811
Radioactive isotope technique of studying density and moisture content of landslide slopes. Kornienko, N.D., et al, [1979, p.112-116, rus] 34-2972
Investigation of vertical moisture transport in the upper layers of undrained highmoor bogs by means of radioactive isotopes. Surovov, V.I., [1978, p.1-5, eng] 34-3959
Mosses as accumulators of radionuclides. Molchanova, I.V., et al, [1980, p.42-47, rus] 34-4146

Radioactive logging
Shallow core drilling and bore-hole measurements in the permafrost of an active rock glacier near the Grubengletscher, Wallis, Swiss Alps. Barsch, D., et al, [1979, p.215-228, eng] 34-1279

Radioactivity
Determination of the stratospheric residence time from the total beta activity of antarctic and Greenland snows. Pourchet, M., et al, [1979, p.365-367, eng] 34-730
Environmental radioactivity in the Faroes in 1977. Aarkrog, A., et al, [1978, 27p., eng] 34-787
Environmental radioactivity in Greenland in 1977. Aarkrog, A., et al, [1978, 20p., eng] 34-788
Automatic apparatus for measuring low-level beta activity in snow samples. Pinglot, J.F., [1978, 103p., fre] 34-937
Is the environment still contaminated by radioactive fallout. Ambach, W., [1978, p.165-169, ger] 34-2075
Nuclear fall-out in glaciers. Ambach, W., [1978, p.45-47, eng] 34-2076
Influence of loose deposits on radioactive anomalies in mountain taiga. Zima, A.F., et al, [1979, p.103-110, rus] 34-2130

Radiocarbon dating
See: Radioactive age determination

Radiometers
See: Radiation measuring instruments

Radiometry
Theory and experiment for passive microwave remote sensing of snowpacks. Kong, J.A., et al, [1979, p.5669-5673, eng] 34-998
Atmospheric radiation model for general alpine application. Marks, D., [1979, p.167-178, eng] 34-1016
Thermal emission of randomly inhomogeneous layered media. Brekhovskikh, V.L., et al, [1978, p.101-106, eng] 34-1119
Use of NOAA environmental satellites to remotely sense ocean phenomena. Koffler, R., [1975, p.835-839, eng] 34-1236
Passive microwave applications to snowpack monitoring using satellite data. Hall, D.K., et al, [1979, 15p., eng] 34-1569
Comparative study of microwave radiometer observations over snowfields with radiative transfer model calculations. Chang, A.T.C., et al, [1979, 31p., eng] 34-2358
Meteorological sounding of the underlying surface from space. Kondrat'ev, K.IA., ed, [1979, 246p., rus] 34-2475
Antarctic ice characteristics according to *Kosmos-243* satellite radiometric measurements. Matveev, D.T., [1976, p.5-12, eng] 34-3272
Characteristics of the antarctic temperature field according to *Kosmos 243* satellite radiometric measurements. Kurskaia, A.A., [1976, p.13-20, eng] 34-3273
Determining ice cover characteristics from spaceborne photographs of scanning infrared radiometers. Masanov, A.D., [1977, p.26-33, rus] 34-3304
Polar environmental monitoring: final report. [1979, 94p., eng] 34-3390
Microwave radar and radiometric remote sensing measurements of lake ice. Swift, C.T., et al, [1980, p.243-246, eng] 34-3406
Utilization of spaceborne microwave radiometers for monitoring snowpack properties. Rango, A., et al, [1979, p.25-40, eng] 34-4000
Investigations on snow parameters by radiometry in the 3- to 60-mm wavelength region. Hofer, R., et al, [1980, p.453-460, eng] 34-4018
Radomes
Countermeasures against snow accretion and icing on radomes. Suzuki, M., et al, [1979, p.303-307, eng] 34-96
Rafting
See: Ice rafting
Railroad cars
Development of a snow loader with longitudinal troughs. Ishibashi, T., et al, [1971, p.141-143, eng] 34-2660
Prototype test of rail on-off type snow-removing car. Tezuka, K., et al, [1971, p.180, eng] 34-2661
Optimizing the heating of cargo frozen to walls of railroad cars. Portnov, I.G., [1978, p.53-64, rus] 34-3909
Railroad equipment
Railway track switch that operates in snow and ice. Coveney, D.B., [1979, p.23-73, eng] 34-812
Field trial of prototype "Cyclone switch heater" on CP rail switch at Sturgeon Falls, Ontario. Coveney, D.B., [1979, 15p. + 10 figs., eng] 34-2477
Railroad tracks
Protection methods for railway switches in snow conditions. Ringer, T.R., [1979, p.308-313, eng] 34-97
Steel mains of the country. Melkonov, S.S., [1979, p.6-10, rus] 34-518
Geography of Siberian resource development. Kosmachev, K.P., ed, [1979, 107p., rus] 34-1099
Interaction between natural and technical systems (railroad track operation taken as an example). Kaiuchkin, N.P., [1979, p.33-46, rus] 34-1101
Rail track snow cleaner vehicle. Gridasov, N.A., et al, [1976, 4 col., rus] 34-1220
Specialization of winter road maintenance, a pressing issue. Kungurtsev, A.A., et al, [1979, p.7-8, rus] 34-1418
Difficult trip. Zhukov, P.L., [1979, p.34-36, rus] 34-2124
Experimental field studies of the seismic properties of solidly frozen ground in the zone of the Baikal-Amur mainline with the use of explosions. Pavlenov, V.A., et al, [1980, p.202-206, eng] 34-2377
Study of preventive measures from the accumulation of snow on the railway track. Hikita, S., [1974, p.76-78, eng] 34-2681
Application of fluidic devices to a sprinkling nozzle with the aim of melting snow on the track. Takeuchi, Y., et al, [1976, p.41-42, eng] 34-2684
Development of fillings for slab track in cold region and its various properties. Fukunaga, M., [1977, p.138, eng] 34-2658
Study on prevention of stone ejection from ballasted track in snowing. Sato, Y., et al, [1977, p.178, eng] 34-2659
Prototype test of rail on-off type snow-removing car. Tezuka, K., et al, [1971, p.180, eng] 34-2661
Removal of pressed and frozen snow at the flange way of the track. Ohyama, T., et al, [1973, p.104-105, eng] 34-2662
Railroad track maintenance under northern conditions. Buzunov, Z.T., [1979, p.50-62, rus] 34-3776
Railroad tunnels
Test of icicle prevention in very cold zone. Okada, K., [1977, p.135, eng] 34-2657
Icicle formation in tunnels under train running. Shinojima, K., [1973, p.121-122, eng] 34-2663
Railroads
Pressure pipelines for water supply of railroads. Dikarevskii, V.S., et al, [1978 278p (Pertinent p. 198-231), rus] 34-849
New features in economic development of the Angara River area near Krasnoyarsk in relation to the construction of the Boguchansk hydroelectric power plant. Medvedkova, E.A., [1979, p.19-32, rus] 34-1100
Interaction between natural and technical systems (railroad track operation taken as an example). Kaiuchkin, N.P., [1979, p.33-46, rus] 34-1101
Railroad design for severe climatic conditions. Akkerman, G.L., [1978, p.29-34, rus] 34-1103
Determining railroad construction costs in developing areas. Kopylenko, V.A., [1978, p.62-72, rus] 34-1104
Characteristics of the design and construction of engineering structures in seismic regions of the Baykal-Amur Main Line Railroad (BAM). Zarubin, N.E., [1979, 10p., eng] 34-1349
Improving the economic effectiveness of transportation in the Komi Autonomous Soviet Socialist Republic. Kuratova, E.S., [1979, p.42-46, rus] 34-1624
Design and construction of pile foundations for elevated transport structures and scaffolded railroad and highway bridges in the North. Burkhanov, V.F., et al, [1979, p.73-84, rus] 34-1627
Trends in transportation development in northern Canada. Cherkasov, A.I., [1979, p.118-130, rus] 34-1634
Field trip No.4: Northern Manitoba--District of Keewatin. Brown, R.J.E., et al, [1979, 76p., eng] 34-1693
Hydromechanization of earthwork in West Siberia. Vavilov, N.G., [1979, p.4-6, rus] 34-1714
Tunnel construction on landslide-prone slopes. Aminov, E.Kh., [1979, p.12-14, rus] 34-1715
Engineering-landscape investigations and surveys of railroad routes in mountain taiga. Popovichev, E.A., [1968, p 19-26, rus] 34-2019
Regularities governing the propagation of railroad induced oscillations in cohesive soils. Chokhonelidze, G.I., et al, [1975, p.76-77, rus] 34-2063
Combined transportation systems in petroleum provinces of West Siberia. Kobylkovskii, G.P., et al, [1979, p.2-3, rus] 34-2088
Another outlook on the problem of unloading frozen cargo. Serebriakova, L.P., [1979, p.14-15, rus] 34-2089
Difficult trip. Zhukov, P.L., [1979, p.34-36, rus] 34-2124
Practical trials of insulants made from plastics for frost-protection in road and railroad construction: comparison of theory and practice. Apostolopoulos, C., et al, [1979, p.421-437, eng] 34-2344
Combinations of various means of transportation along the Punga-Vuktyl-Ukhta railroad. Glazkov, V.E., [1980, p.15-17, rus] 34-2596
Environmental code of good practice for highways and railways. [1979, c80p., eng] 34-2605
Development of equipment for preventing the adhesion of ice or snow to contact wire. Mizuno, J., et al, [1974, p.81-82, eng] 34-2652
Study on flying snow with the prototype high speed snow plough for railway. Shinojima, K., [1975, p.64-69, eng] 34-2653
Statistical amount of snow on the regions planned for the construction of Shinkansen. Shinojima, K., et al, [1976, p.136-127, eng] 34-2655
Study on occurring condition of metallic inclusions in anti-snow type composition brake shoes which cause the hollowing wear at wheel treads. Idemura, K., et al, [1977, p.45, eng] 34-2656
Transport engineers and the economic development of West Siberia. Melkonov, S.S., [1980, p.3-6, rus] 34-2849
AGT guideway and station technology. Vol.8. Weather protection concepts. Stevens, R.D., et al, [1979, 237p., eng] 34-2964
Methods of studying experimental prestressed concrete spans of railroad bridges designed for the North. Skopich, V.M., et al, [1979, p.54-70, rus] 34-3181
Strength and stability of railway subgrades in permafrost regions. Peretrukhin, N.A., [1980, p.255-267, eng] 34-3250
Transportation under economic and geographic conditions of the Yakut ASSR. Belinskii, B.V., ed, [1976, 104p., rus] 34-3337
Influence of railroads on motor vehicle transport in Yakutia. Shtyrev, I.N., [1976, p.52-58, rus] 34-3341
Modern design and construction methods for the Surgut-Urengoy railroad. Korotchaev, D.I., et al, [1980, p.3-6, rus] 34-3597
Railroad track maintenance under northern conditions. Buzunov, Z.T., [1979, p.50-62, rus] 34-3776
Justification of earth-fill stages in embankment construction on permafrost. Kurochkin, A.A., [1978, p.55-59, rus] 34-3886
Physical, technical and functional aspects of building design for railroads. Kovrigin, S.D., ed, [1978, 202p., rus] 34-3910
Architectural design of railroad depots in the Northern Structural Climatic zone. Ermolaeva, E.I., [1978, p.19-23, rus] 34-3911
Erection of building structures at the northern Mining and Concentration Concern No.2. Golubenko, V.V., et al, [1980, p.10-12, rus] 34-3938
Increasing transportation capacity of planned latitudinal lines. Engel'ke, V.A., et al, [1980, p.42-44, rus] 34-3956
Construction experience gained by the Trust "Uralstroimekhanizatsiia". Lamakina, V.S., [1980, p.2-4, rus] 34-4052
Accelerated roadbed construction method used at the Surgut-Urengoy railroad line. Meshkov, V.M., [1980, p.21-22, rus] 34-4244
See also: Baykal Amur railroad
Rain
Development of the operational snow band SSARR model. Speers, D., et al, [1979, p.369-378, eng] 34-1034
Forecasting spring water inflow into the Kama reservoir allowing for rainfall. Liapunova, I.B., et al, [1979, p.15-25, rus] 34-1077
Surface erosion and sedimentation associated with forest land use in interior Alaska. Aldrich, J.W., et al, [1979, 87p., eng] 34-1314
Pollution characteristics of stormwater runoff. Bennett, E.R., et al, [1978, 226p., eng] 34-1572
Comparative evaluation of indirect Computation methods of determining ratios of various precipitation types. Bogdanova, E.G., et al, [1979, p.84-89, rus] 34-3696
Climatology of freezing rain in the Montreal area. Leech, M.E., [1979, p.125-140, eng] 34-4211
Reclamation
See: Land reclamation
Reconnaissance
See: Infrared reconnaissance
Recording
Critical survey of the application of borehole logging techniques to the study of sea ice. Laidley, T.E., [1980, 45p., eng] 34-4160
Recording instruments
Automatic apparatus for measuring low-level beta activity in snow samples. Pinglot, J.F., [1978, 103p., fre] 34-937
Equipment report. [1975, 21p., eng] 34-3097
Recreation
Values and resource analysis, Vol.2. [1978, c.200p + maps, eng] 34-21
Recrystallization
Rhombus and rhomboid parallelogram patterns on glaciers: natural indicators of strain. Wang, C.J., et al, [1979, p.247-261, eng] 34-540
Recrystallisation and electrical behaviour of glacier ice. Reynolds, J.M., et al, [1980, p.63-64, eng] 34-2538
See also: Snow recrystallization
Recycling
See: Heat recovery; Waste disposal
Reflection
Experimental evaluation of polarization coefficients of light reflected from snow surfaces. Mel'kher, A.N., et al, [1979, p.113-116, rus] 34-3613
See also: Seismic reflection
Reflectivity
Laser reflectivity measurements of snow/ice covered targets in the Arctic region. Schneider, R.W., [1979, 40p., eng] 34-1041
Two-stream theory of reflectance of snow. Choudhury, B.J., et al, [1979, p.63-68, eng] 34-1166
Model for space radar clutter. Tomlinson, P.G., [1979, 107p., eng] 34-1350
Snowpack optical properties in the infrared. Berger, R.H., [1979, 16p., eng] 34-1366
Three examples of unsolved problems in antarctic radiation research. Kuhn, M., [1975, p.66-67, eng] 34-2454
Permittivity of ice and water at millimeter wavelengths. Blue, M.D., [1980, p.1101-1106, eng] 34-4074
Reforestation
See: Forestry; Revegetation
Refraction
See: Seismic refraction
Refrigeration
Arun LNG plant onstream in Indonesia. Inman, H., et al, [1979, p.22-26, eng] 34-140
Calculating electric heating of bearing ground beneath refrigerator columns. Gindoian, A.G., et al, [1976, p.88-107, rus] 34-2404
Refuse
See: Wastes
Regelation
Snow cover metamorphism on the glacier slope near the Molodezhnaya oasis. Voitkovskii, K.F., [1979, p.97-105, rus] 34-2216
Subglacial regelation water film. Hallet, B., [1979, p.321-334, eng] 34-2242
Experimental studies on regelation. Tozuka, S., et al, [1979, p.1-15, jap] 34-3487
Petrographic observations of ice samples from Taylor Glacier, Antarctica. Robinson, P.H., [1979, p.17-19, eng] 34-3674
Regional planning
Some guidelines for deciding Alaska's future; final report [1979, 94p., eng] 34-565

Regional planning *(cont.)*
Alaska's land—1978; annual report. [1979, 25p., eng] **34-566**

Reinforced concretes
Small buildings of metallic folding sections. Nevenchenko, I.M., et al, [1972, p.22-32, rus] **34-175**
Organic-mineral admixtures for increasing strength and frost resistance of reinforced concretes in the Kola Peninsula. Zamoshchik, A.I., et al, [1972, p.74-84, rus] **34-180**
Using the super-plasticizer S-3 in manufacturing reinforced concrete supports for power lines. Kolokol'nikova, E.I., et al, [1979, p.23-24, rus] **34-331**
Concretes for roof plates. Savvina, IU.A., et al, [1977, p.14-17, rus] **34-346**
Protective properties of mortars and concretes with admixtures for winter concreting. Rozental', N.K., [1977, p.51-55, rus] **34-351**
Preservation of reinforcement in haydite concretes containing air entrainment admixtures. Stepanova, V.F., [1977, p.71-76, rus] **34-352**
Determining concrete strength under severe climatic conditions. Savitskiĭ, A.N., et al, [1977, p.98-101, rus] **34-353**
Use of nonmetallic pipelines in construction. Borshcheva, N.I., et al, [1974, p.148-151, rus] **34-762**
Investigation of the bearing capacity of piles driven into plastic frozen soil. Cherniaev, V.I., et al, [1979, p.32-36, eng] **34-981**
Discussion on methods of concreting in the North. Ostryi, V.M., [1979, p.34, rus] **34-1184**
Design of reinforced concrete space structures for the North. Gorenshteln, B.V., [1979, 159p., rus] **34-1238**
Allowing for seismic effects when designing reinforced concrete culverts beneath embankments. Abduzhabarov, A.Kh., [1979, p.43-44, rus] **34-1256**
Combined design technique in large panel construction [Akushev, A.A., et al, [1979, p.7-8, rus] **34-1431**
Controlling frost resistance of concrete during production. Voevoda, G.F., et al, [1979, p.35-37, rus] **34-1434**
Generalizing the experience of foundation construction in complex geocryological conditions. Poluektov, V.E., et al, [1979, p.54-63, rus] **34-1538**
Testing ice-bound columnar piles for horizontal loads. Ablogin, E.A., et al, [1979, p.42-43, rus] **34-1717**
Steel-reinforced concrete road bridge spans exceeding 100 m. Rudomazin, N.N., et al, [1979, p.16-17, rus] **34-1751**
Prefabricated plates of ground floor framing in residential buildings of the North. Pikhovkin, V., et al, [1979, p.38-39, rus] **34-1771**
Sectional, instead of situ-poured, cylindrical pumping stations. Podgornyĭ, I., [1979, p.40-41, rus] **34-1772**
Slab of silicate reinforced concrete. Griazin, A.D., et al, [1979, p.9, rus] **34-1942**
Improving the quality of bridge construction with prefabricated parts for the Baykal Amur railroad. Rasskazov, I.D., et al, [1979, p.8-11, rus] **34-2591**
Sprayed concrete in tunnel construction in the Baykal Amur railroad area. Golitsynskiĭ, D.M., [1980, p.14-15, rus] **34-2855**
Calculating temperature regime of underground structures. Makagonov, V.A., [1980, p.45-49, rus] **34-3164**
Improving the design of structures built in complex ground conditions. Meteliuk, N.S., [1980, 143p., rus] **34-3823**
Building reinforced concrete road pavement on weak grounds. Kolchanov, A.D., et al, [1979, p.22-24, rus] **34-3856**
Studying rheological properties of mortars containing new antifreeze admixtures. Petropavlovskaia, T.A., [1978, p.98-104, rus] **34-3887**
Possibility of using sodium nitrite antifreeze in reinforced concretes of buildings and structures on railroads. Kostiaev, P.S., et al, [1978, p.179-184, rus] **34-3920**
Erection of building structures at the northern Mining and Concentration Concern No.2. Golubenko, V.V., et al, [1980, p.10-12, rus] **34-3938**
Design of lightweight multilayered panels with polystyrene foam thermal insulation. Zhuk, I.P., et al, [1978, p.65-72, rus] **34-4017**
Field inspection of thermal properties of 1605 AM/9 series houses with multilayer external walls. Bralnina, E.IU., [1969, p.9-15, rus] **34-4048**

Reinforced ice
Strength of saw-dust reinforced ice. Konovalov, A.A., et al, [1976, p.101-104, rus] **34-710**

Relaxation (mechanics)
Approximate thermal stress analysis of a concrete structure, erected block-by-block, allowing for concrete creep. Pliat, Sh.N., et al, [1978, p.64-69, rus] **34-468**
Approximate determination of stress relaxation coefficients in thermal creep problems. Tsybin, A.M., et al, [1978, p.73-76, rus] **34-470**
In situ determination of creep properties of ice covers by means of bore-hole creep and relaxation tests. Ladanyi, B., et al, [1979, p.44-64, eng] **34-923**
New results on dielectric relaxation of snow samples. Ambach, W., et al, [1978, p.201-208, ger] **34-1270**
Relaxation processes in arctic ice fields. Bogorodskiĭ, V.V., et al, [1980, p.589-592, rus] **34-2676**
Relationship of ultrasonic velocities to c-axis fabrics and relaxation characteristics of ice cores from Byrd Station, Antarctica. Gow, A.J., et al, [1979, p.147-153, eng] **34-2823**
Determining stress relaxation in clayey grounds at shearing. Meschian, S.R., et al, [1976, p.278-282, rus] **34-3216**
Studying stress relaxations in water-saturated clayey soils. Postolakian, R.A., et al, [1976, p.303-313, rus] **34-3218**
Design of concrete structures for thermal effects. Pajuhesh, J., [1980, p.74-77, eng] **34-3265**
See also: Ice relaxation

Relaxation spectroscopy
Problems and possibilities of studying the processes of dynamic relaxation in frozen earth materials. Frolov, A.D., [1980, p.149-167, eng] **34-3243**

Relief
See: Microrelief; Topographic features

Remote sensing
Proceedings of the 35th annual meeting. [1978, 218p., eng] **34-26**
NOAA satellite monitoring of snow cover in the northern hemisphere during the winter of 1977. Wiesnet, D.R., et al, [1978, p.63-80, eng] **34-33**
Future U.S. satellite programs of interest to snow scientists. Wiesnet, D.R., [1978, p.81-88, eng] **34-34**
Ice conditions on the Chesapeake Bay as observed from Landsat during the winter of 1977. Foster, J., et al, [1978, p.89-104, eng] **34-35**
Oil spill countermeasures for the southern Beaufort Sea. Logan, W.J., et al, [1975, 126p., eng] **34-151**
Remote sensing in glaciology and the physics of echoes. Nye, J.F., [1977, p.189-197, eng] **34-235**
Numerical approach to terrain analysis for off-road trafficability. Schreier, H., et al, [1979, p.635-642, eng] **34-273**
Davis Strait surface drifter buoys program 1977. Metge, M., [1978, 69p., eng] **34-317**
Ice movements in the Beaufort Sea 1973-1975: determination by ERTS imagery. Sobczak, L.W., [1977, p.1413-1418, eng] **34-475**
Landfast ice movement—Mackenzie Delta 1972-73. Spedding, L.G., [1973, 122p. + figs., eng] **34-480**
Geologic evaluation of LANDSAT imagery in interior Alaska. Dean, K.G., [1979, 156p., eng] **34-567**
Landfast ice movement—Mackenzie Delta 1972. Croasdale, K.R., et al, [1972, 104p., eng] **34-576**
Surface current study of eastern Parry Channel, N.W.T.—summer 1977. Fissel, D.B., et al, [1978, 66p., eng] **34-592**
Alpine vegetation ecology and remote sensing of Teresa Island, British Columbia. Buttrick, S.C., [1978, n.p., eng] **34-601**
Snow mapping in Alpine basins using satellite imagery. Rott, H., [1978, p.81-93, ger] **34-667**
Automatic weather station for operating in severe icing climates. Baker, B., et al, [1979, p.734-738, eng] **34-699**
Glaciological and marine biological studies at perimeter of Dronning Maud Land, Antarctica. Final report. Orheim, O., [1977, 17p., eng] **34-772**
Remote estimation of the properties of sea ice, impulse radar study of Lake Melville, Labrador. Butt, K.A., et al, [1979, c.215 leaves, eng] **34-784**
Sea ice modeling: its testing with LANDSAT and potential use in FGGE. Hall, R.T., et al, [1976, p.104-109, eng] **34-817**
Remote sounding of high clouds: 1. Calculation of visible and infrared optical properties from lidar and radiometer measurements. Platt, C.M.R., [1979, p.1130-1143, eng] **34-889**
Theory and experiment for passive microwave remote sensing of snowpacks. Kong, J.A., et al, [1979, p.5669-5673, eng] **34-998**
LANDSAT sensing of glaciers with application to mass-balance and runoff. Breslau, D., et al, [1979, p.77-82, eng] **34-1008**
Atmospheric radiation model for general alpine application. Marks, D., [1979, p.167-178, eng] **34-1016**
Arctic lead-airdrop data buoy. Buck, B.M., et al, [1979, 22p., eng] **34-1044**
Preliminary results of passive microwave snow experiment during February and March 1978. Chang, A.T.C., et al, [1979, 114p., eng] **34-1111**
Air- and spaceborne remote sensing in hydrogeology and engineering geology. Sadov, A.V., et al, [1979, 223p., rus] **34-1225**
Ocean 75 record. [1975, 952p., eng] **34-1227**
Arctic environmental buoy system. Brown, W.P., [1975, p.50-55, eng] **34-1228**
Remote sensing and analysis of oceanographic parameters from ERTS-1. Needham, B.H., [1975, p.798-802, eng] **34-1234**
Use of NOAA environmental satellites to remotely sense ocean phenomena. Koffler, R., [1975, p.835-839, eng] **34-1236**
Long-term tracking of Arctic icebergs. Robe, R.Q., et al, [1979, 41p., eng] **34-1354**
Remote sensing of snow and ice: a review of the research in the United States 1975-1978. Rango, A., [1979, 35p., eng] **34-1375**
Summary report. [1978, 23p., eng] **34-1406**
NOAA satellite-derived continental snow cover data base. Wiesnet, D.R., et al, [1979, p.3-8, eng] **34-1407**
Research on snow and ice. Martinelli, M., Jr., et al, [1979, p.1253-1297, eng] **34-1464**
Selected hydrologic applications of LANDSAT-2 data: an evaluation, final report. Wiesnet, D.R., et al, [1978, 205p., eng] **34-1497**
Snow mapping and runoff forecasting: Examination of ERTS-1 capabilities and potential benefits from an operational ERS system. [1974, 180p. + 25p. appends., eng] **34-1730**
Seasat Gulf of Alaska Workshop report. Executive summary. Born, G.H., et al, [1979, 42p., eng] **34-1734**
Remote assessment of snow distribution and avalanche activity. Rychetnik, J., [1979, p.81-95, ger] **34-1782**
Study of fractures in consolidated pack-ice cover from radar survey data. Gorbunov, IU.A., et al, [1979, p.30-35, eng] **34-1900**
Sea ice in the Arctic. Moign, A., [1978, p.283-288, fre] **34-2031**
Statistical methods of probable use for understanding remote sensing data. Gaver, D.P., [1979, 40p., eng] **34-2369**
Long-term drift of icebergs in Baffin Bay and the Labrador Sea. Robe, R.Q., et al, [1980, p.183-193, eng] **34-2441**
Potential of SAR in detecting and monitoring icebergs. Parashar, S., et al, [1980, p.195-210, eng] **34-2442**
Remote sensing of taiga geosystems in different spectral ranges. Vinogradov, B.V., [1978, p.34-42, rus] **34-2461**
Remote sensing of snow and ice. Meier, M.F., [1979, 54p., eng] **34-2473**
Analysis and prediction of freeze-over dates of Minnesota lakes using LANDSAT imagery and weather information. Fu, A.Y.K., [1979, 188p., eng] **34-2474**
Meteorological sounding of the underlying surface from space. Kondrat'ev, K.IA., ed, [1979, 246p., rus] **34-2475**
Imaging radar observations of frozen Arctic lakes. Elachi, C., et al, [1976, p.169-175, eng] **34-2580**
Analysis of circulation patterns in Grays Harbor, Washington, using remote sensing techniques. Gatto, L.W., [1980, p.289-323, eng] **34-2675**
Dynamics of near shore ice. Colony, R., [1979, p.156-180, eng] **34-2682**
Study of climatic effects on fast ice extent and its seasonal decay along the Beaufort-Chukchi coasts. Barry, R.G., [1979, p.272-375, eng] **34-2683**
Sediment transport in Norton Sound, Alaska. Cacchione, D.A., et al, [1979, 88p., eng] **34-2720**
ICEX: Ice and climate experiment; report of Science and Applications Working Group. [1979, c118p., eng] **34-2726**
Aircraft gamma-ray spectrometry in snow water equivalent measurement. Kuittinen, R., et al, [1980, p.63-75, eng] **34-2730**
Principle and method for measurement of snow water equivalent by detection of natural gamma radiation. Endrestöl, G.O., [1980, p.77-83, eng] **34-2731**
Flow lines on Antarctic ice shelves. Crabtree, R.D., et al, [1980, p.31-37, eng] **34-2809**
Satellite studies of fresh-water ice movement on Lake Erie. Wiesnet, D.R., [1979, p.415-426, eng] **34-2842**
Operation Icemap 2; side looking radar trials, spring 1972. Hengeveld, H.G., [1973, 34p. + append., eng] **34-2956**
Sea Ice-75. Programme. Blomquist, A., et al, [1976, 30p., eng] **34-2985**
Dynamics of near-shore ice. Kovacs, A., et al, [1979, p.181-207, eng] **34-3051**
Environmental assessment of the Alaskan continental shelf, Vol.10, Hazards, Data management. [1979, 517p., eng] **34-3058**
Environmental analysis of the Upper Susitna River Basin using Landsat imagery. Gatto, L.W., et al, [1980, 41p., eng] **34-3198**
Seasonal cycle of snow cover, sea ice and surface albedo. Robock, A., [1980, p.267-285, eng] **34-3201**
Ice spirals off Barrow as seen by satellite. Solomon, H., et al, [1980, p.184-188, eng] **34-3324**
Polar environmental monitoring: final report. [1979, 94p., eng] **34-3390**
Microwave radar and radiometric remote sensing measurements of lake ice. Swift, C.T., et al, [1980, p.243-246, eng] **34-3406**
Data units for telemetering physical and mechanical properties of snow cover on slopes. Bagov, M.M., et al, [1980, p.67-74, rus] **34-3420**
Snow and avalanche loads on remote-control snow surveying installations. Bagov, M.M., et al, [1980, p.75-81, rus] **34-3421**
Using gamma logging for snow density measurement on mountain slopes. Bagov, M.M., et al, [1980, p.82-86, rus] **34-3422**
Great Lakes navigation season, 1979. Wilson, E.E., [1980, p.183-195, eng] **34-3435**
Proceedings. [1980, 301p., eng] **34-3511**
NOAA/NESS program for operational snowcover mapping: preparing for the 1980's. Schneider, S.R., [1980, p.21-39, eng] **34-3512**
New goals for snow monitoring by satellite. Wiesnet, D.R., [1980, p.41-51, eng] **34-3513**

Mapping New Zealand and Antarctic snowpack from LANDSAT. Thomas, I.L., et al, [1980, p.53-72, eng] 34-3514

Application of satellite data for snow mapping in Norway. Odegaard, H.A., et al, [1980, p.93-106, eng] 34-3515

Satellite snowcover and runoff monitoring in central Arizona. Schumann, H.H., et al, [1980, p.107-126, eng] 34-3516

LANDSAT derived snowcover as an input variable for snowmelt runoff forecasting in south central Colorado. Shafer, B.A., et al, [1980, p.151-169, eng] 34-3518

Graphical method of stream runoff prediction from LANDSAT derived snowcover data for watersheds in the upper Rio Grande basin of Colorado. Moravec, G.F., et al, [1980, p.171-183, eng] 34-3519

Application of snowcovered area to runoff forecasting in selected basins of the Sierra Nevada, California. Brown, A.J., et al, [1980, p.185-200, eng] 34-3520

Application of satellite imagery to hydrologic modeling snowmelt runoff in the southern Sierra Nevada. Hannaford, J.F., et al, [1980, p.201-222, eng] 34-3521

Cost/benefit analysis for the Operational Applications of Satellite Snowcover Observations (OASSO). Castruccio, P.A., et al, [1980, p.239-254, eng] 34-3522

Snow extent measurements from geostationary satellites using an interactive computer system. Gird, R.S., [1980, p.255-265, eng] 34-3523

All-digital approach to snow mapping using geostationary satellite data. Tarpley, J.D., et al, [1980, p.267-279, eng] 34-3524

Review of LANDSAT-D and other advanced systems relative to improving the utility of space data in water-resources management. Salomonson, V.V., et al, [1980, p.281-296, eng] 34-3525

Infrared aerial survey in studying natural resources. Shilin, B.V., [1980, 247p., rus] 34-3591

Plotting through the pack; radar resistant ice. Haines, S.A., [1980, p.16-19, eng] 34-3672

Remote sensing of snow covered area for runoff modelling. Rango, A., [1980, p.291-297, eng] 34-3778

Microwave brightness of polar firn as measured by Nimbus 5 and 6 ESMR. Chang, A.T.C., et al, [1980, p.85-91, eng] 34-3800

Orbital sensing of Mackenzie Bay ice dynamics. Dey, B., [1980, p.280-291, eng] 34-3867

Remote snow cover measurements for forecasting the runoff of mountain rivers. Borovikova, L.N., et al, [1978, p.57-61, eng] 34-3965

Annual report 1978-79. [1979, 190p., eng] 34-3982

Utilization of spaceborne microwave radiometers for monitoring snowpack properties. Rango, A., et al, [1979, p.25-40, eng] 34-4000

Investigations on snow parameters by radiometry in the 3- to 60-mm wavelength region. Hofer, R., et al, [1980, p.453-460, eng] 34-4018

Joint analysis of satellite and aerial photographs and ground-based measurements for estimating the spatial distribution and temporal variations of snow cover. Kupriianov, V.V., [1978, p.81-[illegible], eng] 34-4057

National handbook of recommended methods for water-data acquisition. Chapter 9: Snow and ice. [1977, 34p., eng] 34-4162

Field experiments on wave-ice interaction in the Bering Sea and Greenland waters, 1979. Wadhams, P., et al, [1980, p.147-153, eng] 34-4186

National Environmental Satellite Service catalog of products, third edition. Dismachek, D.C., comp, [1980, 120p., eng] 34-4255

Replicas

Ice and landing surface demoulding—replica fabrication. Lundström, G., [1973, 12p., eng] 34-2143

Rescue equipment

Arctic transportation systems. Nitzki, L., [1977, p.1-6, ger] 34-1933

Ice breaking rescue vessel. [1980, p.29, rus] 34-3644

Rescue operations

Ice breaking rescue vessel. [1980, p.29, rus] 34-3644

Research institutions

See: Laboratories

Research projects

Environmental assessment of the Alaskan continental shelf. Vol.1. Physical science studies. [1979, 581p., eng] 34-14

Future U.S. satellite programs of interest to snow scientists. Wiesnet, D.R., [1978, p.81-88, eng] 34-34

Studies related to removal of snow and ice from transportation facilities. Ringer, T.R., [1979, p.6-8, eng] 34-51

Workshop on coastal research and planning in Labrador. Rosen, P.R., ed, [1978, 66p., eng] 34-319

Research by the Institute of Polar Studies in Glacier Bay National Monument, Alaska. Goldthwait, R.P., et al, [1976, p.815-821, eng] 34-534

Research activities of U.S. Army Cold Regions Research and Engineering Laboratory. Buzzell, T.D., [1975, p.9-12, eng] 34-631

Report of the Joint U.S.-Canadian Northern Civil Engineering Research Workshop. Carlson, R.F., ed, [1978, 72p., eng] 34-771

Engineering at the ends of the earth; polar ocean technology for the 1980's. [1979, 74p., eng] 34-844

List of publications based on materials from the Agapa Taymyr research station. [1979, p.203-206, rus] 34-1066

Central avalanche hazard forecasting—summary of scientific investigations. LaChapelle, E.R., et al, [1978, 203p., eng] 34-1118

Discussions on problems of the study of the Antarctic glacial cover at the twelfth session of the Scientific Committee for Antarctic Research (SCAR), and at the meetings of the Council of the International Antarctic Glaciological Project (IAGP). Korotkevich, E.S., [1974, p.103-118, eng] 34-1194

New phase in the study of the glacial cover in Antarctica. Kotlıakov, V.M., [1974, p.123-172, eng] 34-1195

Developments in Soviet icebreaker construction. Peschanskii, A., [1979, 17p., eng] 34-1345

Remote sensing of snow and ice: a review of the research in the United States 1975-1978. Rango, A., [1979, 35p., eng] 34-1375

Focus on U.S. snow research. Colbeck, S.C., [1979, p.41-52, eng] 34-1411

Snow and the organization of snow research in the United States. Colbeck, S.C., [1979, p.55-58, eng] 34-1412

Research on snow and ice. Martinelli, M., Jr., et al, [1979, p.1253-1297, eng] 34-1464

Description of some recent research work of particular interest for the introduction of new waste water treatment methods in Norway. Abrahamsen, J., [1974, p.403-422, eng] 34-1483

Periglacial research, final report. Burrous, C.M., [1979, 10 leaves, eng] 34-1505

Discussion of scientific and economic problems of northern development. Glabina, N.K., et al, [1979, p.137-146, rus] 34-1636

Field trip No.5: Northern Quebec—Labrador. Nicholson, F.H., [1979, 96p., eng] 34-1694

Research plan for Arctic ship powering and development. Voelker, R.P., [1977, 49p., eng] 34-1800

Research annual report 1978-79. [1979, 129p., eng] 34-1847

Ice-sheet glaciology. Drewry, D., [1979, p.313-328, eng] 34-1881

Problems of the Arctic and the Antarctic, collection of articles, Vol.45, 1974. Treshnikov, A.F., ed, [1979, 171p., eng] 34-1884

Problems of the Arctic and the Antarctic, collection of articles, Vol.46, 1975. Treshnikov, A.F., ed, [1979, 166p., eng] 34-1897

Steel-ice friction coefficients from field and laboratory research. Grothues-Spork, H., [1977, p.17-24, ger] 34-1935

Rock thermophysics. Summaries of reports. [1973, 75p., rus] 34-1952

Thermal regime of wells and its control. Kudriashov, B.B., et al, [1973, p.3-5, rus] 34-1953

Pingoes and the Northwest Passage. [1974, p.1-4, eng] 34-1986

Inventory of Canadian research and development capabilities for engineering in cold regions. [1978, 510p., eng] 34-2005

Research and development work in the Division of Mechanical Engineering 1978. [1979, 88p., eng] 34-2137

Summary of glaciological studies in Mizuho Plateau, East Antarctica, 1969-1975. Ishida, T., [1979, p.1-[illegible]0, jap] 34-2146

Earth science investigations in the United States Antarctic Research Program (USARP) for the period July 1, 1978-June 30, 1979. Craddock, C., comp, [1979, 50p., eng] 34-2158

Report on United States antarctic research activities for February 1976-October 1977; United States antarctic research activities planned for October 1977-September 1978. [1977, 77p., eng] 34-2159

Report on United States antarctic research activities for February 1977-October 1978; United States antarctic research activities planned for October 1978-September 1979. [1978, 87p., eng] 34-2160

Report on United States antarctic research activities for February 1978-October 1979; United States Antarctic research activities planned for October 1979-September 1980. [1979, 92p., eng] 34-2161

British Antarctic Survey, 1978-79. [1979, p.605-612, eng] 34-2162

Workshop on the world glacier inventory and meeting of the snow and ice commission in Switzerland. Kotliakov, V.M., et al, [1979, p.19-24, rus] 34-2176

Proceedings of the Seminar III on Dry Valley Drilling Project, 1978. Nagata, T., ed, [1979, 245p., eng] 34-2285

Subarctic watershed research in the Soviet Union. Slaughter, C.W., et al, [1978, p.305-313, eng] 34-2390

Permafrost research activities: a workshop. Péwé, T.L., [1978, p.321-326, eng] 34-2391

Environmental studies in the central Quebec-Labrador Peninsula: Finnish contributions. [1980, 89p., eng] 34-2411

Frost action problem—an overview of research to provide solutions. DiMillio, A.F., et al, [1980, p.149-158, eng] 34-2558

Engineering at the ends of the earth: polar ocean technology for the 1980's. [1979, 74p., eng] 34-2712

Exploration of the polar regions. Crary, A.P., [1973, p.246-258, eng] 34-2719

ICEX: Ice and climate experiment; report of Science and Applications Working Group. [1979, c118p., eng] 34-2726

Proceedings of the seventeenth Muskeg Research Conference, 4 October 1977. Williams, G.P., ed, [1978, 187p., eng] 34-2904

Future management and research needs in alpine ecosystems. Marr, J.W., [1979, p.95-100, eng] 34-2963

Extract from the annual report: Antarctic Division 1978-79. [1979, 23p., eng] 34-2992

Environmental assessment of the Alaskan continental shelf, Vol.9, Hazards. [1979, 682p., eng] 34-3055

Results of joint Soviet-American research in the Southern Ocean during POLEX-South-77. Savchenko, V.G., et al, [1979, p.5-15, rus] 34-3090

APOA description of research projects; index. [1979, 905p., eng] 34-3115

Report on Soviet glaciological studies in 1975-1978. [1979, p.5-34, rus] 34-3116

Problems of mountain glaciology. [1977, 212p., rus] 34-3379

Glacio-climatology as a connecting scientific discipline, its problems and goals. Tronov, M.V., [1977, p.3-11, rus] 34-3380

Alaskan gas line planners—the elite of Arctic experts. Kelder, B., [1980, p.54, 58, 91, eng] 34-3409

History of the Pevek Regional Administration of Hydrometeorology and Environmental Monitoring. Vlasov, E.G., et al, [1979, p.4-12, rus] 34-3526

Polar atmosphere-ice-ocean processes: a review of polar problems in climate research. [1980, p.525-543, eng] 34-3633

Introduction to town planning and related matters in the Soviet North: based upon information collected during the exchange visit by a Canadian delegation to the Soviet Union—September 25th to October 7th, 1977. Slipchenko, W., et al, [1978, 426p., eng] 34-3896

Annual report 1978-79. [1979, 190p., eng] 34-3982

Status and future of ice core data. Barry, R.G., et al, [1980, p.1-4, eng] 34-4021

Workshop on the Status and Future of Ice Core Research and Ice Core Data (Boulder, Colorado, 24-26 September 1979). [1980, p.5-14, eng] 34-4022

Ice core sampling. Radok, U., [1980, p.71-76, eng] 34-4027

Results of scientific investigations of the Murmansk branch of the Arctic and Antarctic Scientific Research Institute during 1972-1976. Terziev, F.S., [1980, p.6-12, rus] 34-4177

Research vessels

See: Oceanographic ships

Reservoirs

Shore protection structures in the Novosibirsk reservoir. Raspopin, G.A., et al, [1979, p.96-99, rus] 34-128

Clearing Alaskan water supply impoundments: management, laboratory study, and literature review. Smith, D.W., et al, [1976, 126p., eng] 34-617

Geology and geochemistry of the Shir Creek and Monashka Creek reservoirs, southcentral Alaska. Hawkins, D.B., et al, [1976, 70 p., eng] 34-618

Clearing Alaskan water supply impoundments: literature review. Justice, S.R., et al, [1976, 96p., eng] 34-642

Some potential ice problems associated with hydroelectric development in Alaska. Osterkamp, T.E., [1977, p.4-6, eng] 34-690

Forecasting spring water inflow into the Kama reservoir allowing for rainfall. Liapunova, I.B., et al, [1979, p.15-25, rus] 34-1077

Eskimo Point water supply program. Foster, R.R., et al, [1979, p.413-422, eng] 34-1157

New system for the artificial reduction of the mechanical strength and the heat conductivity of the ice covers of reservoirs. Faĭko, L.I., [1974, p.346-353, eng] 34-1205

Management guidelines for water resources development, Prudhoe Bay development area. [1978, 39p., eng] 34-1491

Study of trace elements in waters of two Alaskan reservoir sites. Smith, D.W., et al, [1975, 81p., eng] 34-1804

Winter ice jams on the Gunnison River. Burgi, P.H., [1979, 30p., eng] 34-3030

Study of shorelines in the building and operation of Siberian reservoirs. Vendrov, S.L., et al, [1980, 10p., eng] 34-3391

Geoengineering and hydrogeologic studies of the zone of influence of the Angara reservoirs and means of effective incorporation of these results in the national economy. Odintsov, M.M., et al, [1980, 10p., eng] 34-3393

Studying the effect of water reservoirs on slope processes on their shores. Kachugin, E.G., [1980, 3p., eng] 34-3401

Use of radar to measure ice thickness in rivers, lakes, and reservoirs. Chizhov, A.N., et al, [1978, p.116-127, eng] 34-4058

Residential buildings

Reconstruction of enterprises for the expansion of complete unit construction. Drobiazko, V.A., [1979, p.10-11, rus] 34-167

Planning and prospects of the development of residential construction industry. Sokolov, A.V., [1979, p.11-12, rus] 34-168

Residential buildings *(cont.)*
Evaluating social and economic effectiveness of mobile residential complexes. Gaidukova, N.I., [1979, p.16-17, rus] **34-169**
Modular apartment buildings with "packet" type cells. Lazhintsev, V.I., [1972, p.33-42, rus] **34-176**
Experimental study of the "packet" type apartment cells. Lazhintsev, V.I., et al, [1972, p.43-53, rus] **34-177**
Sectional buildings with bearing panels made of effective materials. Lazhintsev, V.I., et al, [1972, p.54-63, rus] **34-178**
Economic effectiveness of using high thermal insulation windows in residential buildings of the North. Kuzema, I.G., et al, [1972, p.153-165, rus] **34-188**
Microclimates of 9-story residential buildings in Noril'sk. Vas'kovskii, A.P., et al, [1979, p.12-13, rus] **34-242**
Water supply and drainage systems and waste water treatment in the Noril'sk area. Okhrimenko, S.S., [1979, p.28-29, rus] **34-245**
New houses for Bratsk. Gorbunov, IU.A., [1979, p.24, rus] **34-342**
Houses for the North. Dezhnova, V.K., [1979, p.28, rus] **34-343**
Recommendations for using lightweight concrete in the construction of large panel residential buildings. [1976, 71p., rus] **34-401**
New self-propelled boom cranes KS-6471, KS-2561K and KS-1562B. Volkova, A.E., [1979, p.26-27, rus] **34-590**
Construction of residential and public buildings in West Siberia. Khaltum, A.D., [1979, p.16-18, rus] **34-1180**
Implementing progressive methods of structural design. Barskii, B.L., et al, [1979, p.13-14, rus] **34-1708**
Windows with double and triple layers of glass. Aleksandrov, IU.P., et al, [1979, p.10-12, rus] **34-1752**
Prefabricated plates of ground floor framing in residential buildings of the North. Pikhovkin, V., et al, [1979, p.38-39, rus] **34-1771**
Planning and construction of Tynda. Tralbman, G., [1979, p.46-49, rus] **34-1775**
Heat and moisture transfer in experimental wall panels with the (FSP) phenol-formaldehyde plastic thermal insulation. Alumiae, A.E., [1979, p.30-39, rus] **34-2382**
From quantity to quality. Antonov, A.F., et al, [1979, p.18-20, rus] **34-2635**
Building design for construction in the North. Vas'kovskii, A.P., et al, [1979, 135p., rus] **34-2685**
Construction of residential buildings in the Far East. Nesterov, V.V., [1979, p.4-5, rus] **34-2701**
Catalog of temperature fields of standard enclosure joints. Part I, Residential buildings. Design manual. Ivashkova, V.K., et al, [1980, 111p., rus] **34-2937**
Preservation, utilization and transformation of forest landscapes within residential areas (Novosibirsk, Akademgorodok). Arbatskii, V.P., [1980, p.62-66, rus] **34-3593**
Residential complexes for oil and gas field workers in West Siberia. Kravets, V.A., [1979, p.52-58, rus] **34-3817**
Improving the design of structures built in complex ground conditions. Meteliuk, N.S., [1980, 143p., rus] **34-3823**
Thermotechnical qualities of external enclosures of Series-122 residential buildings. Efimova, M.N., [1978, p.122-127, rus] **34-3915**
Young Pioneer camp boarding house "Severnyi Artek" of the Bratsk lumber industry complex. Grinev, S., [1979, p.28-29, rus] **34-3925**
Drilling-and-mixing method of building foundations of cemented earth piles. Tokin, A., [1980, p.5-6, rus] **34-3926**
Residential buildings on economy-type pile foundations in Murmansk. Kaloshin, I., [1980, p.14-15, rus] **34-3928**
Erection of multistory brick buildings in Noril'sk. Shkliarov, N., et al, [1980, p.32-35, rus] **34-3931**
Thermal regime of residential building foundations when there are unheated rooms beneath the building. Plotnikov, A.A., [1980, p.102-107, rus] **34-4045**

Resistance thermometers
Semiconductor resistance thermometers for the interval 300-0.3K. Zinov'eva, K.N., et al, [1979, p.845-847, eng] **34-2355**

Resources
See: Natural resources

Retention
See: Snow retention; Water retention

Revegetation
Natural reforestation of conifers on dried areas of northern taiga in the Arkhangel'sk region. Feklistov, P.A., et al, [1979, p.9-12, rus] **34-251**
Landscaping of northern cities. Pomazkova, E.N., [1978, 160p., rus] **34-582**
Effects on timber cutting and revegetation on snow accumulation and melt in North Idaho. Haupt, H.F., [1979, 14p., eng] **34-840**
Pipeline revegetation research: grasses, legumes and shrubs adjacent to the Alaska Highway of Yukon Territory. Vaartnou and Sons Enterprises, Ltd., [1978, 47p., eng] **34-861**
Pipeline revegetation research: Dempster route test sites progress report--1977. [1978, 28p., eng] **34-862**
Pipeline revegetation research: Haines Junction test site progress report--1977. [1978, 41p., eng] **34-863**
Pipeline revegetation research: Northern British Columbia test sites progress report--1977. Vaartnou and Sons Enterprises, Ltd., [1978, 56p., eng] **34-864**
Soil formation in landscapes affected by industrial activities. Trofimov, S.S., ed, [1979, 294p., rus] **34-946**
Productivity of soils in meadow biogeocenoses of recultivated dredging areas in the Central Urals. Nakariakov, A.V., et al, [1979, p.106-123, rus] **34-950**
Natural revegetation of the Tom' River flood-plain soils disturbed by industrial activities. Taranov, S.A., et al, [1979, p.156-163, rus] **34-952**
Early diagenesis and growth of wild and semi-cultivated plants on tailings of the Kuzbass coal mines. Kondrashin, E.R., [1979, p.163-172, rus] **34-953**
Reforestation of coal mine tailings in the southern Kuzbass. Barannik, L.P., et al, [1979, p.172-179, rus] **34-954**
Oxidizing activity of microorganisms in recultivated tailings of the Baydaevskiy coal mine (Kuzbass). Kulebakin, V.G., [1979, p.179-185, rus] **34-955**
Aerial reconnaissance of landscapes affected by industrial activities. Solntseva, N.P., et al, [1979, p.258-278, rus] **34-956**
Forest land recultivation after pipeline construction. Vysotskii, A.N., [1979, p.26-27, rus] **34-1258**
Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] **34-1508**
Studying the revegetation of tundra landscapes affected by industrial activities in the northern Yenisey River area. Skriabin, S.Z., [1979, p.51-61, rus] **34-1512**
Technology and ecological consequences of dredging. Domenik, O.P., et al, [1979, p.113-117, rus] **34-1517**
1977 tundra fires in the Seward Peninsula, Alaska: effects and initial revegetation. Racine, C.H., [1979, 51p., eng] **34-1560**
Some promising afforestation tests based on the laying out of logs on avalanche sites. Wakabayashi, R., [1979, p.255-260, eng] **34-1793**
Aims and preliminary results of French protective reforestation at the tree line on abandoned alpine pastures (Southern French Alps). Mullenbach, P., [1979, p.261-278, fre] **34-1794**
Silvicultural planning in avalanching forests. Fiebiger, G., [1979, p.331-348, eng] **34-1798**
Mountain landscape protection in Siberia. Krylov, G.V., ed, [1973, 251p., rus] **34-1863**
Microclimatic variations and pine forest revegetation in relation to economic development of the Sayan low mountain belt. Gaas, A.A., [1973, p.78-87, rus] **34-1870**
Utilization of mountain forests in the Kuznetskiy Basin. Kalinin, A.M., [1973, p.87-92, rus] **34-1871**
Reforestation and natural vegetation changes in bilberry pine forests. Prudov, B.N., et al, [1979, p.22-25, rus] **34-2109**
Reforestation of *Pinus sibirica* forests in Altai highlands. Paramonov, E.G., [1979, p.25-27, rus] **34-2110**
Proceedings. [1979, 1325p. (2 vols.), eng] **34-2259**
Problems of revegetation of alpine tundra. Stevens, D.R., [1979, p.241-245, eng] **34-2262**
Properties of forest litter in relation to natural reforestation of green-moss spruce forest in northern Sikhote-Alin. Krupskaia, L.T., et al, [1980, p.93-95, rus] **34-2628**
Revegetation of fir forests in the southern taiga of the Central Ural Mountains and Predural'e. Konovalov, N.A., et al, [1979, p.5-7, rus] **34-2798**
Mining and the environment. Moisinets, V.N., et al, [1978, 191p., rus] **34-2808**
Special management needs of alpine ecosystems. [1979, 100p., eng] **34-2957**
Revegetation of disturbed alpine rangelands. Brown, R.W., et al, [1979, p.76-94, eng] **34-2962**
Restoration of natural landscapes disturbed by human activities. Liverovskii, IU.A., et al, [1980, p.111-115, rus] **34-3297**
Changes in the properties of soils in the eastern foothills of the Polar Ural Mountains and the adjacent plain caused by construction of linear structures. Liverovskaia, I.T., [1980, p.116-121, rus] **34-3298**
Disturbance of natural environments by construction of linear structures and the first stages of restoration of soil and vegetational covers. Smirnov, V.V., et al, [1980, p.121-127, rus] **34-3299**
Root systems of sodding plants and their role in the restoration of vegetational cover disturbed by economic activities. Vital', A.D., [1980, p.128-133, rus] **34-3300**
Forest fires in Yakutia and their influence on forest environments. Shcherbakov, I.P., et al, [1979, 224p., rus] **34-3601**
Consequences of using new machines in the north taiga pine forests. Obydennikov, V.I., [1979, p.18-21, rus] **34-3859**
Effectiveness and quality of taiga reforestation. L'vov, P.N., [1979, p.29-30, rus] **34-3860**
Change from pine to spruce in the northern European USSR. Melekhov, I.S., et al, [1980, p.42-51, rus] **34-3863**
Environmental protection in Yakutia. Andreev, V.N., ed, [1979, 181p., rus] **34-4106**
Natural overgrowth of earth dumps along irrigation channels in Central Yakutia. Nakhabtseva, S.F., [1979, p.51-54, rus] **34-4111**
Hepaticae--pioneers in matting disturbed Yamal tundra soils. Andreeva, E.N., [1979, p.21-22, rus] **34-4219**
Natural reestablishment of vegetational cover in Central Yakutia. Nakhabtseva, S.F., [1979, p.48-49, rus] **34-4225**
Types of East Taymyr tundras and their significance as cattle grazing grounds. Rapota, V.V., [1979, p.53-54, rus] **34-4226**
Changes in vegetational cover of Yamal arctic tundras induced by reindeer grazing. Rebristaia, O.V., [1979, p.55-56, rus] **34-4227**
Studying disturbed soils of reindeer grazing fields in the Messoyakha-Noril'sk pipeline area. Shchelkunova, R.P., et al, [1979, p.66-67, rus] **34-4229**
Trends in the reforestation of light coniferous open woodlands in the Far Northeast. Kotlarov, I.I., [1979, p.148-149, rus] **34-4240**
Growing forest cultures beyond the polar circle. Pankratov, E.N., [1979, p.157-158, rus] **34-4241**

Rheology
Rheological fundamentals of soil mechanics. Vialov, S.S., [1978, 447p., rus] **34-432**
Rheology of columnar-grained ice. Sinha, N.K., [1978, p.464-470, eng] **34-535**
Mechanics of drumlin formation with particular reference to the change in pore-water content of the till. Menzies, J., [1979, p.373-384, eng] **34-550**
In situ determination of creep properties of ice covers by means of bore-hole creep and relaxation tests. Ladanyi, B., et al, [1979, p.44-64, eng] **34-923**
Regularities of the deformation of swelling soils with time. Meschian, S.R., et al, [1979, p.37-44, eng] **34-982**
Measurements of deformation and strength of materials from the Milchbuck tunnel. Herzog, P., et al, [1979, p.31-36, ger] **34-1334**
Engineering geocryology. Mel'nikov, P.I., ed, [1979, 208p., rus] **34-1533**
Influence of salinity on frozen ground deformation. Pekarskaia, N.K., et al, [1979, p.5-19, rus] **34-1534**
Rheological properties of ice. Zaretskii, IU.K., et al, [1979, p.179-191, rus] **34-1552**
Soil-ice system and the shear strength of frozen soils. Goughnour, R.R., [1968, 153p., eng] **34-2041**
Radio echo sounding of the Antarctic ice sheet, 1978-79, preliminary report. Drewry, D.J., et al, [1979, 21p + Append., eng] **34-2064**
Load-bearing behavior of frozen earthmasses. Eckardt, H., [1979, 141p., ger] **34-2955**
Grain boundary sliding in polycrystalline materials. Sinha, N.K., [1979, p.825-842, eng] **34-2983**
Use of ice as the soil base for structures. Gaidaenko, E.I., [1980, 92p., eng] **34-2986**
Proceedings of the All-Union symposium on the rheology of soils, 2nd, Tsakhkadzor, Oct. 7-10, 1975. [1976, 406p., rus] **34-3203**
Theory of shearing creep of clay and its experimental confirmation. Ter-Stepanian, G.I., [1976, p.74-97, rus] **34-3204**
Shearing creep of clay soils due to vibration. Badalian, R.G., et al, [1976, p.117-127, rus] **34-3205**
Determining creep parameters of weak clayey soils. Karpov, V.M., [1976, p.211-219, rus] **34-3209**
Creep as reflected in the numerical calculation of the stress-strain state of foundations. Kryzhanovskii, A.L., et al, [1976, p.220-227, rus] **34-3210**
Factors determining rheologic properties of clays. Kul'chitskii, L.I., et al, [1976, p.228-240, rus] **34-3211**
Compression creep of sagging ground. Meschian, S.R., et al, [1976, p.256-267, rus] **34-3214**
Skeleton creep of weak water-saturated clay soils. Meschian, S.R., et al, [1976, p.268-277, rus] **34-3215**
Determining stress relaxation in clayey grounds at shearing. Meschian, S.R., et al, [1976, p.278-282, rus] **34-3216**
Nonlinear consolidation of clays allowing for aging. Tsytovich, N.A., et al, [1976, p.346-351, rus] **34-3222**
Determining rheologic properties of perennially frozen hard fractured rocks. Tsytovich, N.A., et al, [1976, p.360-368, rus] **34-3224**
Development of a laboratory set-up to measure creep induced by freeze-thaw cycles. Steijn, H. van, [1977, p.247-250, eng] **34-3261**
Factors relating to the landslide process in Canadian Quickclays. Smalley, I., [1976, p.163-172, eng] **34-3262**
Temperate valley glaciers. Raymond, C.F., [1980, p.79-139, eng] **34-3657**
Physics and mechanics of ice. [1980, 378p., eng] **34-3727**
Rheological behaviour of ice at small strains. Gold, L.W., et al, [1980, p.117-128, eng] **34-3737**
Does the permanent creep-rate of polycrystalline ice increase with crystal size. Duval, P., et al, [1980, p.151-157, eng] **34-3806**
Improving the design of structures built in complex ground conditions. Meteliuk, N.S., [1980, 143p., rus] **34-3823**
Some aspects of the mechanics of frost fracturing of soils in the permafrost zone. Grechishchev, S.E., [1980, p.259-278, eng] **34-3845**

See Hoarfrost
River basins
Structural-statistical regularities governing runoff variations along the eastern section of the Baykal Amur railroad. Lobanova, N.I., et al, [1977, p.77-85, rus] 34-354
Reference basin [illegible] evaluating calculated maximum river discharge in the eastern section of the Baykal Amur railroad. Ponomarev[illegible] G., [1977, p.123-130, rus] 34-355
Soil regimes in the Chara River Basin and methods of their interpretation. Shchetnikov, A.I., [1979, p.68-78, rus] 34-442
Forecasting water erosion of soils in the western part of the BAM zone (the upper Angara River Basin). Relmkhe, V.V., [1979, p.111-118, rus] 34-447
Avalanche and mudflow danger in areas of future economic development of the western Caucasus. Zalikhanov, M.Ch., et al, [1979, p.56-69, rus] 34-610
Hydrologic interpretation of basin morphology. Fox, J.D., [1978, 14p., eng] 34-645
History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, [1979, 215p., rus] 34-1067
History of river valley development as a basis for designing land irrigation with ground water in Buryat-Mongol ASSR. Bazarov, D.B., et al, [1979, p.62-66, rus] 34-[illegible]
Recent tectonics and river valleys in the Ilim, Ust'-Ku[illegible] and Katanga areas in relation to land reclamation problems. Zveder, L.N., [1979, p.71-75, rus] 34-[illegible]
Spring runoff from small drainage basins of the Dubovskaya hydrometeorological station. Bystrov, A.V., [1979, p.26-38, rus] 34-1078
Reorganization of snow surveying network points in the Central Asian mountains. Getker, M.I., et al, [1979, p.15-23, rus] 34-1122
Snow cover distribution in the Obikhingou River basin. Sannikov, A.G., [1979, p.24-30, rus] 34-1123
Optimal averaging principle and its use in hydrologic forecasts and snow surveying reorganizations. Getker, M.I., et al, [1979, p.41-50, rus] 34-1125
New data on recent glaciation of the Fedchenko glacier system (for the "atlas of snow-ice resources of the world"). Shchetinnikov, A.S., [1979, p.113-121, rus] 34-1133
Calculating surface melting of the Golubin glacier and its part in total runoff from the Alaarcha River basin. Alzin, B.V., [1979, p.139-145, rus] 34-1137
Calculating and forecasting glacier ablation in Central Asia. Konovalov, V.G., [1979, 232p., rus] 34-1139
Protective structures for the Fällbach in the town of Saas Balen, Wallis, Switzerland. Lichtenhahn, C., [1979, p.169-176, ger] 34-1325
Regime of glaciers and snow avalanches in Kazakhstan. Tokmagambetov, G.A., ed, [1979, 175p., rus] 34-1970
Glacial runoff from the Ili River Basin. Chekhonadskaia, V.A., et al, [1979, p.110-120, rus] 34-1979
Forecasting avalanches of freshly fallen snow in the Tekeli River Basin, Dzhungarskiy Alatau. Toporkov, A.D., [1979, p.143-146, rus] 34-1983
Geomorphological conditions of avalanche formation in the eastern part of the northern slope of the Terskey Alatau Range (Karkara, Tekes, Ul'ken-Kokpak, Bayankol river basins). Blagoveshchenskii, V.P., [1979, p.161-169, rus] 34-1985
Recent geomorphological processes in the periglacial zone of the southeastern Altai (the Tete River valley). Petkevich, M.V., [1967, p.98-107, rus] 34-1992
Firn field types in the Aktru Basin and their relation to glaciation. Ivanov, N.I., [1967, p.205-226, rus] 34-1994
Role of firn field ablation in the Bish-Iirdu Mountains in the Aktru River's alimentation. Ivanov, N.I., [1967, p.227-246, rus] 34-1995
Calculating water balance of the Kola River basin. Antonova, T.S., [1979, p.107-119, rus] 34-2055
Snow cover of the Altai-Sayan area. Reviakin, V.S., et al, [1979, p.109-120, rus] 34-2190
Snow cover distribution in the mountains of Tadzhikistan. Burichenko, A.I., et al, [1979, p.120-126, rus] 34-2191
Topographic effect on snow cover distribution in mountains. Chirkova, A.A., [1979, p.126-133, rus] 34-2192
Two criteria determining the structure of snow surveying and precipitation measuring networks in mountain basins. Getker, M.I., et al, [1979, p.133-139, rus] 34-2193
Snow survey techniques in mountain glacier basins. Zhidkov, V.A., [1979, p.159-168, rus] 34-2198
Hydrometeorological conditions of the formation of snow-loaded streams. Freidlin, V.S., [1979, p.198-200, rus] 34-2206
Large runoff values from glacier basins located in the dry climate zone of the Altai. Gerasimenko, O.M., [1979, p.203-204, rus] 34-2208
Effect of permafrost on evolution of river beds and hydraulic structures built on river beds and river banks. Levashov, A.A., et al, [1977, p.12-17, rus] 34-2436
Susitna River basin resource bibliography; supplement 1979. Lockhart, D., comp., [1979, 244p., eng] 34-2482
Regularities governing natural phenomena and their forecasting. Agarkov, S.I., ed, [1980, 271p. (Pertinent p.87-162), rus] 34-2529
Origin of ground ice layers in the Yenisey River Valley. Kazanskii, O.A., [1979, p.136-143, rus] 34-2785
Generalizing morphometric characteristics of glaciation in separate drainage basins. Konovalov, V.G., [1979, p.68-77, rus] 34-2884
Forecasting hydrograph of spring water inflow into the Novosibirsk reservoir. Miliukova, O.A., [1978, p.24-40, rus] 34-2893
Long range forecasts of flood water volume in the Oka River, allowing for soil freezing irregularities in the basin. Rakhmanov, V.V., [1978, p.41-52, rus] 34-2894
Geocryologic characteristics of the central Zyryanka River basin. Vasil'ev, I.S., et al, [1978, p.66-78, rus] 34-2947
Buried valleys as a possible determinant of the distribution of deeply buried permafrost on the continental shelf of the Beaufort Sea. Hopkins, D.M., et al, [1979, p.135-141, eng] 34-3057
Hydrochemical runoff and the intensity of soil salinization in West Siberia. Panin, P.S., [1979, p.141-170, rus] 34-3081
Snow cover and precipitation in the mountains of Central Asia Getker, M.I., ed, [1978, 98p., rus] 34-3344
Information content of observations on precipitation and [illegible]ver in the Uryadar'ya River Basin for long range [illegible]s of runoff. Akhundzhanov, Sh.M., et al, [1978, [illegible]] 34-3345
[illegible]xact definition of mathematical model parameters [illegible] snow cover formation in mountains. Borovikova, L.N., et al, [1978, p.34-40, rus] 34-3348
Influence of slope orientation and dissected topography on the statistical structure of snow depth. Chirkova, A.A., [1978, p.64-77, rus] 34-3350
Compiling avalanche cadasters for the Terek River Basin. Kozhaev, D.A., [1980, p.87-93, rus] 34-3423
Possibility of mudflows in the Angarakan River valley. Murzin, IU.A., [1979, p.27-31, rus] 34-3468
Vegetation of the Markovo village area (the Anadyr' River Basin). Kozhevnikov, IU.P., [1978, p.30-52, rus] 34-3486
Experience of the Administration of the Ural State Control Station in using aerial snow survey data. Zykova, V.A., [1980, p.65-66, rus] 34-3548
Some results of experimental gamma surveys of snow cover in mountains. Getker, M.I., et al, [1980, p.67-72, rus] 34-3549
Mudflows in the Kem River basin. Matveeva, F.I., et al, [1979, p.25-30, rus] 34-3562
Areal distribution of snow reserves over the Polar Urals. Gokhman, V.V., et al, [1979, p.177-182, rus] 34-3710
Using hydrochemical data from mountain-glacier basins in glaciological and hydrological computations. Zaslavskaia, M.B., et al, [1979, p.187-192, rus] 34-3712
Annual distribution of water balance elements through the altitudinal forest belts of the Lake Baykal Basin. Lebedev, A.B., et al, [1979, p.83-95, rus] 34-3774
Biogeophysical conditions of interactions between solid precipitation and conifer forest canopy. Kaliuzhnyi, I.L., et al, [1979, p.82-90, rus] 34-3877
Remote snow cover measurements for forecasting the runoff of mountain rivers. Borovikova, L.N., et al, [1978, p.57-61, eng] 34-3965
Geomorphologic conditions of land reclamation in the Upper Angara trough. Bazarov, D.-D.B., et al, [1979, p.77-93, rus] 34-4099

River crossings
Subdividing linear parts of main pipelines into sections of different categories. Borodavkin, P.P., et al, [1979, p.31-32, rus] 34-172
Proceedings. [1977, 179p., eng] 34-204
Requirements for the La Crete ferry—an A.C.V. proposal. Rogers, A.R., [1977, p.66-73, eng] 34-207
Yukon ferry operation. Ireland, J.E., [1977, p.176-179, eng] 34-211
Spring break-up observations at proposed polar gas pipeline crossing sites of Keewatin rivers. Grey, B.J., [1978, 22p., eng] 34-917
Designing gas pipeline crossings of major river valleys in the North. Kondrat'ev, V.G., et al, [1979, p.30-31, rus] 34-1183
Tynda-Prizelskaya 220 kw overhead line crossing the Zeya reservoir. Kirillova, G.G., et al, [1980, p.53-55, rus] 34-2570
Construction of underwater crossings of main pipelines. [1970, 36p., rus] 34-2866
Ice protection of power line supports. Marfin, N.I., [1979, 93p., rus] 34-2870
See also: Bridges; Ice crossings
River flow
Procedure to incorporate snow course data into the National Weather Service river forecast system. Carroll, T.R., [1979, p.351-358, eng] 34-1032
Bank erosion in the southern Mackenzie River Delta, Northwest Territories, Canada. Outhet, D.N., [1974, 89p., eng] 34-2679
Use of the water resources of Lake Baykal and of the Angara River and an estimate of the change in their quality and elements of the hydrologic regime. Ivanov, N.I., [1977, p.307-309, eng] 34-3020
Baggin Island sandurs: a study of Arctic fluvial processes Church, M., [1972, 208p. + maps, eng] 34-3577
Cross-section, velocity, and bedload data at two erosion sites on the Tanana River near Fairbanks, Alaska, 1979 Burrows, R.L., [1980, 32p., eng] 34-3669
River ice
Studying the submergence of ice floes under log booms. IAkhontov, S.A., [1969, p.30-34, rus] 34-586
Formation of ice ripples on the underside of river ice covers. Ashton, G.D., [1971, 157p., eng] 34-600
Growth rates and characteristics of ice on the Ottauquechee and Winooski Rivers of Vermont during winter 1977-78. Deck, D., [1978, 30p., eng] 34-1107
Designing gas pipeline crossings of major river valleys in the North. Kondrat'ev, V.G., et al, [1979, p.30-31, rus] 34-1183
Weather and spring breakup. Nibler, G.J., [1979, p.70-78, eng] 34-1307
Visual observations of floating ice from Skylab. Campbell, W.J., et al, [1977, p.353-379, eng] 34-1493
Computation of backwater curves under ice covers. Michel, B., [1979, 24 leaves, eng] 34-1580
Copeland cut test ice boom design criteria and data analysis, winter, 1974-75; Final report. Uzuner, M.S., [1975, 2 vols., eng] 34-1799
Ice conditions as an index of recent trends of climatic cooling on the lower reaches of the Yenisei. Antonov, V.S., [1979, p.98-105, eng] 34-1902
Synopsis—ice in estuaries and harbours. Carstens, T., [1979, p.1-30, eng] 34-1959
Role of lake and naled ice in the formation of natural dynamic systems. Ivanets, B.S., et al, [1976, p.57-66, rus] 34-2011
Tidal flat erosion by ice at La Pocatière, St. Lawrence estuary. Dionne, J.-C., [1969, p.1174-1181, eng] 34-2044
Navigation conditions of winter routes. Poplevichev, G., [1979, p.37-38, rus] 34-2080
Navigating under ice conditions. Levanov, B., [1979, p.5-6, rus] 34-2118
Suppression of river ice by thermal effluents. Ashton, G.D., [1979, 23p., eng] 34-2283
Sediment transport and bed forms under ice cover. Song, G.B., [1978, 79p., eng] 34-2476
Ice strength determination allowing for climatic factors. Kukhtina, L.P., et al, [1980, p.41-42, rus] 34-2615
Construction of underwater crossings of main pipelines [1970, 36p., rus] 34-2866
Ice edge dynamics on the Amudar'ya River. Abramenkov, N.M., [1979, p.100-106, rus] 34-2888
Forecasting ice edge movement during the freezing of the Amudar'ya River. Abramenkov, N.M., [1979, p.107-120, rus] 34-2889
Determining river ice frequency from the tree record. Egginton, P.A., [1980, p.265-270, eng] 34-2989
Use of the water resources of Lake Baykal and of the Angara River and an estimate of the change in their quality and elements of the hydrologic regime. Ivanov, N.I., [1977, p.307-309, eng] 34-3020
Drift ice features in the Caniapiscau. Laverdière, C., et al, [1979, p.9-11, fre] 34-3062
Program and guide for compilation of the applied part of the *World atlas of snow and ice resources*. [1979, p.35-63, rus] 34-3117
Experimental study of river ice friction. Korzhavin, K.N., et al, [1977, p.25-36, rus] 34-3171
Ice conditions of rivers in the West Siberian taiga zone. Martynov, B.D., [1978, p.63-74, rus] 34-3610
Freshwater ice growth, motion, and decay. Ashton, G.D., [1980, p.261-304, eng] 34-3660
Laboratory investigation of river shoreline ice jam forces. Stewart, D.M., [1980, 172p., eng] 34-3682
Mapping ice thickness on rivers and lakes. Faĭko, L.I., [1979, p.36, rus] 34-3687
Interrelations and succession in the compilation of thematic sections of the World Atlas of Snow and Ice Resources. Dreter, N.N., [1979, p.37-42, rus] 34-3688
Impact strength tests on Ottawa River ice. Timco, G.W., et al, [1979, 20p. + 15 figs., eng] 34-3717
Bechevnik: a river bank feature from Siberia. Hamelin, L.E., [1979, p.70-72, eng] 34-3765
Mineral precipitation in North Slope river icings. Hall, D.K., [1980, p.343-348, eng] 34-3870
Method for the long-range forecasting of the dates of ice appearance in the rivers of the Northeastern USSR. Savchenkova, E.I., [1978, p.47-50, eng] 34-3962
Results of application of infrared equipment for the investigation of hydrologic objects. Bogorodskiĭ, V.V., et al, [1978, p.77-79, eng] 34-3969
Estimation of the possible changes in the ice and thermal regimes of the northern Dvina River under the effect of partial runoff withdrawal. Donchenko, R.V., et al, [1978, p.186-191, eng] 34-4059
Physical hydraulic model study of an ice-covered river. Johnson, R.P., et al, [1980, p.431-440, eng] 34-4161
Break-up of the Yukon River at the Haul Road Bridge: 1979. Stephens, C.A., et al, [1979, 22p. + Figs., eng] 34-4193
Rivers
Studying river bed alluvium for designing seepage water intakes. Poriadin, A.F., [1974, p.29-51, rus] 34-753

Rivers *(cont.)*

Calculating water inflow into incomplete dug-out wells allowing for riverbed silting. IAkunin, IU.V., [1974, p.52-81, rus] **34-754**

Use of ice as an airstrip in the Thelon River valley by the Canadian Armed Forces. McCutcheon, D.M., [1979, p.224-231, eng] **34-933**

Transportation, a key issue in the development of productive forces in the North. Nekrasov, N.N., [1979, p.5-13, rus] **34-1620**

Combined transportation systems in petroleum provinces of West Siberia. Kobylkovskii, G.P., et al, [1979, p.2-3, rus] **34-2088**

Squad-patrol method. Vasil'ev, V., [1979, p.39-40, rus] **34-2120**

Guiding ship caravans in ice. Tretnikov, G., [1979, p.42-43, rus] **34-2121**

Stabilization of artificially thawed soils on lake and river shores, by cement solutions in freezing weather. Temko, IU.P., et al, [1979, p.89-91, rus] **34-2621**

Influence of the frozen state of rocks on river shore erosion in permafrost areas. Are, F.E., [1979, p.107-117, rus] **34-2782**

Role of Kamchatka glaciers in river alimentation and the formation of solid runoff. Stepanova, A.I., [1979, p.110-116, rus] **34-2897**

Transportation under economic and geographic conditions of the Yakut ASSR. Belinskii, B.V., ed, [1976, 104p., rus] **34-3337**

Freight traffic irregularities on rivers of the Yakut ASSR. Zav'ialov, S.IA., [1976, p.28-40, rus] **34-3339**

Extending the navigation period on Yakutian rivers. Zernov, S.IA., [1976, p.41-51, rus] **34-3340**

Freshwater ice growth, motion, and decay. Ashton, G.D., [1980, p.261-304, eng] **34-3660**

Hydroclimatic influence of forests. Protopopov, V.V., ed, [1979, 144p., rus] **34-3768**

Thermal regime of rivers in Central and West Siberian plains. Protopopov, V.V., et al, [1979, p.4-24, rus] **34-3769**

See also: Glacial rivers; Icebound rivers

Road icing

Augmentation of earth heating for purposes of roadway deicing—Final report. Pravda, M.F., et al, [1978, 193p., eng] **34-1602**

Thermal regime in road constructions; measurements and simulation. Frivik, P.E., et al, [1979, p.482-496, eng] **34-2349**

Technical Committee report on operational and winter maintenance. [1979, 120p., eng] **34-2478**

Reducing damage to roadside vegetation due to sodium ions in salt. Leisser, H., et al, [1979, p.486-487, ger] **34-2494**

Air heating of underground pedestrian crossings. Muftiev, A.D., [1979, p.26, rus] **34-2702**

Report on model for winter hazard prevention on highway No.12 of Iwamizawa-shi, District of Okayama. Japan. Hokkaido Kaihatsukyoku. Kensetku Kiaki Kosakujo, [1978, 66p., jap] **34-2803**

Swiss defroster ends salt use on Albany road. [1979, p.44-45, eng] **34-2807**

Road maintenance

Effects of highway design standards on snow and ice control operations. Hogan, R.A., [1979, p.74-78, eng] **34-62**

Control of snow and ice on road and communication facilities in the Himalayas. Malik, S.C.L., et al, [1979, p.129-134, eng] **34-72**

Snow and road pavements in western Himalayas. Soin, J.S., et al, [1979, p.135-140, eng] **34-73**

Snow clearance—west Himalayan road—some problems. Soin, J.S., [1979, p.141-150, eng] **34-74**

Alternative highway deicing chemicals. Dunn, S.A., et al, [1979, p.261-269, eng] **34-90**

Wind tunnel analysis of the effects of planting at highway grade separation structures. Final report. [1979, 210p., eng] **34-368**

Effects on flexible highways of increased legal vehicle weights using VESYS IIM. Rauhut, J.B., et al, [1978, 203p., eng] **34-508**

Building and operating winter roads in Canada and Alaska. Adam, K.M., [1978, 221p., eng] **34-532**

Winter service to the city of Bern. Bietenharder, H., [1977, p.173-174, ger] **34-537**

Maintenance standards and criteria. Hintikka, J., et al, [1979, p.29-35, eng] **34-1243**

Maintenance techniques and equipment. Jacob, H., [1979, p.35-40, eng] **34-1244**

Maintenance compounds and methods. Depuis, J.D., [1979, p.41-46, eng] **34-1245**

Maintenance costs. Hammond, J.L., [1979, p.47-55, eng] **34-1246**

Maintenance organization and operation. Lekeux, L., [1979, p.56-59, fre] **34-1247**

Automatic controls for salt and abrasive spreaders. Fitzpatrick, M.W., et al, [1978, p.64-67, eng] **34-1611**

Technical Committee report on operational and winter maintenance. [1979, 120p., eng] **34-2478**

Report on model for winter hazard prevention on highway No.12 of Iwamizawa-shi, District of Okayama. Japan. Hokkaido Kaihatsukyoku. Kensetku Kiaki Kosakujo, [1978, 66p., jap] **34-2803**

Increasing the effectiveness of snow removal patrols on roads (Discussion). Kungurtsev, A.A., et al, [1979, p.8-9, rus] **34-2857**

Winter service and road maintenance. Suter, K., [1980, p.77, ger] **34-2862**

Study and information meeting on winter trafficability, Nefta, Tunisia, Nov. 8 and 9, 1979. [1980, p.69-79, fre] **34-3723**

Roadbeds

Use of polymer materials in embankment slope stabilization. Stafeev, P.F., et al, [1979, p.127-131, rus] **34-129**

Some aspects of frost heave problems in road foundations. Jagannatha Rao, P., [1976, p.293-307, eng] **34-212**

Roadbed design for cold regions. Merenkov, N.D., [1979, p.8-9, rus] **34-329**

Road construction in West Siberia. Cherednikov, IU.P., [1979, p.3-5, rus] **34-836**

Reconstruction of the Dnepropetrovsk-Novomoskovsk highway. Grishchenko, N.I., et al, [1979, p.15-16, rus] **34-837**

Winter season roadmaking method. Kurdenkov, B.I., et al, [1976, 4 col., rus] **34-1221**

Evaluating bearing capacity of weak ground beneath road embankments. Solov'ev, IU.I., et al, [1979, p.40-42, rus] **34-1255**

Winter construction of roadbeds. Kostel'ov, M.P., et al, [1979, p.20-21, rus] **34-1422**

Experimental roadbed in an area with a thick layer of ground ice. [1979, p.187-197, eng] **34-1688**

Road bed and surface design. Vyrko, N.P., [1979, p.18, rus] **34-1945**

Thermal waves in roadbeds. Shestakov, V.N., et al, [1979, p.105-111, rus] **34-2622**

Building roadbeds along main pipelines. Plotskii, A.S., et al, [1979, p.10, rus] **34-2793**

Construction of roadbeds on hummocky peats. Plotskii, A.S., et al, [1979, p.3-4, rus] **34-2856**

Roads. Rules of construction and acceptance of jobs. Approval for operation. [1973, 87p., rus] **34-2865**

Design of roads and railroads on natural bases in the southern permafrost distribution zone. Potatueva, T.V., [1980, p.84-90, rus] **34-3291**

Assuring frost resistance of roads under Siberian conditions. Brediuk, G.P., [1980, p.105-111, rus] **34-3596**

Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p. (Pertinent p.230-344), rus] **34-3600**

Construction of urban roads under northern conditions. Galuzin, V.M., ed, [1980, 134p., rus] **34-3762**

Textiles used in roadbed construction on weak soils. Polunovskii, A.G., et al, [1980, p.13-15, rus] **34-3952**

Forecasting the strength of stabilized soils. Khabibullina, E.N., [1980, p.20-21, rus] **34-3953**

Roads in Finland. Babkov, V.F., [1980, p.28-30, rus] **34-3954**

Thawing effect on the strength of roadbeds. Poritskii, R.Z., [1978, p.14-24, rus] **34-4016**

Construction experience gained by the Trust "Uralstrolmekhanizatsiia". Lamakina, V.S., [1980, p.2-4, rus] **34-4052**

Accelerated roadbed construction method used at the Surgut-Urengoy railroad line. Meshkov, V.M., [1980, p.21-22, rus] **34-4244**

Roads

Snow clearance on highways, 1968-1969. [1969, 23p., tur] **34-18**

Linköping test field 1976. Investigations of the occurrence and frequency of icing on various roadbases. 1. Test field construction. Gustafson, K., [1977, 12p. + 21 figs., swe] **34-42**

Linköping test field 1976. Investigation of the occurrence and frequency of icing on various roadbases. 2 Investigation of icing February to April, 1977. Gustafson, K., [1977, c.110 leaves, swe] **34-43**

Inspection of winter roads, Mackenzie Delta, following spring thaw. [1973, 16p., eng] **34-291**

Factors affecting use of winter roads during spring thaw. [1973, 15p., eng] **34-293**

Construction of alleyways and roads in freezing weather. Zhuravel', A.F., et al, [1979, p.20, rus] **34-341**

Winter service; its influence on road planning. Pigois, M.L., [1977, p.46-48, fre] **34-516**

Groti-Stryn, a new winter road. Dudler, J., [1977, p.54-56, fre] **34-517**

In the forefront of scientific and technical progress. Fedorov, D.I., [1979, p.51-54, rus] **34-521**

New self-propelled boom cranes KS-6471, KS-2561K and KS-1562B. Volkova, A.E., [1979, p.26-27, rus] **34-590**

Calcium chloride vs. snow and ice. [1979, p.14-17, eng] **34-651**

Freeze-thaw cycles, potholes, and the winter of 1977-78. Hershfield, D.M., [1979, p.1003-1007, eng] **34-656**

Insulating and load-supporting properties of sulfur foam for expedient roads in cold regions. Smith, N., et al, [1979, 21p., eng] **34-742**

Road maintenance equipment. Smirennyi, I., et al, [1979, p.32-33, rus] **34-835**

Road construction in West Siberia. Cherednikov, IU.P., [1979, p.3-5, rus] **34-836**

Reconstruction of the Dnepropetrovsk-Novomoskovsk highway. Grishchenko, N.I., et al, [1979, p.15-16, rus] **34-837**

Equipment for marking road pavements. Nisnevich, A.IA., et al, [1979, p.19-20, rus] **34-838**

Eliminating seasonal fluctuations in construction. Fedorov, V., [1979, p.31-32, rus] **34-839**

Eliminating seasonal fluctuations in construction. Fedorov, V., [1979, p.31-32, rus] **34-839**

Flooding of sea ice roads. Favrat, D., et al, [1979, p.238-249, eng] **34-935**

Selecting modular structures for northern construction sites. Koposhko, V.S., [1977, p.138-140, rus] **34-994**

Field testing of a snowplowable raised marker. McNaught, E.D., [1977, 33p., eng] **34-1116**

Construction of service roads in swamps. Zholobov, S.I., [1979, p.24-25, rus] **34-1181**

Information for motorists on road conditions. Eyrolles, M., [1979, p.60-62, fre] **34-1248**

Construction of an ice-retardant overlay. Nittinger, R.J., [1979, 28p., eng] **34-1573**

Noncorrosive methods of ice control. Minsk, L.D., [1979, p.133-162, eng] **34-1586**

Economic impact of highway snow and ice control. McBride, J.C., [1978, p.58-63, eng] **34-1610**

Improving the economic effectiveness of transportation in the Komi Autonomous Soviet Socialist Republic. Kuratova, E.S., [1979, p.42-46, rus] **34-1624**

Peculiarities of motor transport under northern conditions. Khlebnikov, A.M., et al, [1979, p.47-59, rus] **34-1625**

Design and construction of pile foundations for elevated transport structures and scaffolded railroad and highway bridges in the North. Burkhanov, V.F., et al, [1979, p.73-84, rus] **34-1627**

Hydromechanization of earthwork in West Siberia. Vavilov, N.G., [1979, p.4-6, rus] **34-1714**

Subgrade planning in freezing weather. Nedorezov, I.A., et al, [1979, p.24-26, rus] **34-1716**

Highway ice and snow removal and deicing salt problems at Lake Tahoe. Foster, D., [1975, p.3-17, eng] **34-1733**

Steel-reinforced concrete road bridge spans exceeding 100 m. Rudomazin, N.N., et al, [1979, p.16-17, rus] **34-1751**

Nondestructive testing of in-service highway pavements in Maine. Smith, N., et al, [1979, 22p., eng] **34-1843**

Impact of highway deicing salts on rural stream water quality. Champagne, D.M., [1977, p.47-52, eng] **34-1878**

Thermal insulation of roads with moderate traffic. Dysli, M., [1979, p.399-406, fre] **34-1907**

New type of feeder road surface. Sokolov, S.A., et al, [1979, p.8-9, rus] **34-1941**

Bauxite slag replaces gravel. Kolbas, N.S., et al, [1979, p.10, rus] **34-1943**

Machine for road building and maintenance. Matveenko, L.S., et al, [1979, p12-14, rus] **34-1944**

Reference manual for construction on permafrost. Antonov, A.F., et al, [1979, 674p., eng] **34-1966**

Combined transportation systems in petroleum provinces of West Siberia. Kobylkovskii, G.P., et al, [1979, p.2-3, rus] **34-2088**

Practical trials of insulants made from plastics for frost-protection in road and railroad construction: comparison of theory and practice. Apostolopoulos, C., et al, [1979, p.421-437, eng] **34-2344**

Thermal climate regime on road and ground surface. Heiersted, R.S., [1979, p.497-509, eng] **34-2350**

Extra roadbuilding skills beat Arctic's winter weather. [1980, p.60-62, eng] **34-2361**

Local conditions and frost penetration depth. Recordon, E., [1972, p.378-383, ger] **34-2395**

Bearing capacity and frost. Balduzzi, F., et al, [1972, p.384-388, ger] **34-2396**

Frost susceptibility of some gravels used in road construction in Ireland. Davitt, S., [1978, 35p., eng] **34-2435**

Irish glacial till: origin and characteristics. Hanrahan, E.T., [1977, 81p., eng] **34-2471**

Soil freezing and highway construction. [1978, 105p., eng] **34-2480**

Experimental study on the most reasonable amount of ground water to be sprinkled for melting the freshly fallen snow on the roads. Nakamura, H., [1979, p.117-147, jap] **34-2549**

Frost action problem—an overview of research to provide solutions. DiMillio, A.F., et al, [1980, p.149-158, eng] **34-2558**

New machines for the construction and maintenance of highways. Volkova, A.E., [1979, p.18-21, rus] **34-2583**

Environmental code of good practice for highways and railways. [1979, c80p., eng] **34-2605**

New soil stabilization technique. Lukanina, T.M., et al, [1979, p.10-11, rus] **34-2794**

Peculiarities of road maintenance in East Siberia and the Far East. Nikitin, G.G., [1980, p.19-20, rus] **34-2802**

Transport engineers and the economic development of West Siberia. Melkonov, S.S., [1980, p.3-6, rus] **34-2849**

Optimal versions of road construction stages in Yakutia (Discussion). Zhukov, E.A., [1979, p.17-18, rus] **34-2858**

Roads. Rules of construction and acceptance of jobs Approval for operation. [1973, 87p., rus] 34-2865

Design and construction experiences with fluid retaining embankments on peat. Wiesner, W.R., et al, [1978, p.81-115, eng] 34-2910

Role of fabric in low embankments on muskeg. Greenway, D.R., et al, [1978, p.165-181, eng] 34-2914

More attention to access roads. Khvostik, I.F., [1980, p.5-6, rus] 34-2974

Cost of log roads built in swamps on pipeline construction sites. Suvorov, L.N., et al, [1980, p.11-12, rus] 34-2978

Scientific research in the last year of the Five-year Plan. Ivantsov, O.M., [1980, p.25-29, rus] 34-3163

Thermal and settlement stresses in concretes. Pechenyi, B.G., [1980, p.73-77, rus] 34-3165

Construction of earth embankments for highways in West Siberia. Popov, B.I., et al, [1980, p.269-281, eng] 34-3251

Making artificial intergelisols as a means of environmental protection in petroleum provinces of West Siberia and the northern Komi ASSR. Maksimov, G.N., [1980, p.25-27, rus] 34-3281

Environmental protection problems related to the construction of embankments and porous fills on permafrost. Kaganovskaia, S.E., [1980, p.90-94, rus] 34-3292

Influence of cities on natural and climatic factors under polar conditions. Gorbacheva, V.N., [1980, p.94-99, rus] 34-3293

Transportation under economic and geographic conditions of the Yakut ASSR. Belinskiĭ, B.V., ed, [1976, 104p., rus] 34-3337

Influence of railroads on motor vehicle transport in Yakutia. Shtyrev, I.N., [1976, p.52-58, rus] 34-3341

Technology of preparing and storing oil-stabilized soils. Bogomolov, IU.N., et al, [1980, p.6-8, rus] 34-3558

Assuring frost resistance of roads under Siberian conditions. Brediuk, G.P., [1980, p.105-111, rus] 34-3596

Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p. (Pertinent p.230-344), rus] 34-3600

Construction of urban roads under northern conditions. Galuzin, V.M., ed, [1980, 134p., rus] 34-3762

Transport network of the Tyumen' forests. Dorofeev, A.G., [1980, p.7-9, rus] 34-3858

Introduction to town planning and related matters in the Soviet North: based upon information collected during the exchange visit by a Canadian delegation to the Soviet Union—September 25th to October 7th, 1977. Slipchenko, W., et al, [1978, 426p., eng] 34-3896

Young Pioneer camp boarding house "Severnyĭ Artek" of the Bratsk lumber industry complex. Grinev, S., [1979, p.28-29, rus] 34-3925

Erection of building structures at the northern Mixing and Concentration Concern No.2. Golubenko, V.V., et al, [1980, p.10-12, rus] 34-3938

Road construction all year round. Siniaev, N.V., [1979, p.15-16, rus] 34-3940

Roads in Finland. Babkov, V.F., [1980, p.28-30, rus] 34-3954

Management of forest resources. Timofeev, N.V., [1979, 144p., rus] 34-4011

Evaluating the depth of seasonal thawing for operating electric power transmission lines. Spesivtsev, V.I., et al, [1980, p.3-10, rus] 34-4034

Construction experience gained by the Trust "Uralstroĭmekhanizatsiia". Lamakina, V.S., [1980, p.2-4, rus] 34-4052

Rational use of natural resources in the Central Lena River area. Gubkin, M.P., et al, [1979, p.10-14, rus] 34-4107

See also: Ice roads; Snow roads

Rock creep

See: Talus

Rock drilling

Thermal rock drill for permafrost. Goldaev, I.P., et al, [1973, 4 col., rus] 34-1215

Shallow core drilling and bore-hole measurements in the permafrost of an active rock glacier near the Grubengletscher, Wallis, Swiss Alps. Barsch, D., et al, [1979, p.215-228, eng] 34-1279

Rock excavation

Parcellar structure of phytocenoses and the inhomogeneity of young soils in industrially disturbed landscapes. Taranov, S.A., et al, [1979, p.19-57, rus] 34-948

Strength and stability of frozen walls of shafts and mining excavations in permafrost. Vialov, S.S., et al, [1979, p.129-148, rus] 34-1547

Construction of underground structures for hydroelectric power stations in the Far North. Grossman, I.I., et al, [1979, 128p., rus] 34-2493

Rock fills

Thermal regime of permafrost beneath structures with foundations on fill. Mal'kov, IU.K., et al, [1975, p.71-76, rus] 34-224

Analysis of soil state in the core of the Ust-Khantaika hydroelectric plant dam. Kronik, IA.A., et al, [1978, p.1105-1112, eng] 34-325

Prefabrication stages in building construction. Makeev, A.M., et al, [1979, p.30-34, rus] 34-519

Calculating temperature fields of bearing ground beneath rock-fill foundations. Konovalov, A.A., [1976, p.3-21, rus] 34-702

Observing thermal regime of ground beneath an experimental building. Kabanov, E.P., et al, [1976, p.131-139, rus] 34-714

Structure of boiler room foundations built on permafrost. Kabanov, E.P., et al, [1976, p.140-144, rus] 34-715

Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] 34-1508

Fills as soil protecting covers and foundations for structures. Konstantinov, I.P., [1979, p.62-73, rus] 34-1513

Ground temperature variations during the economic development of the northern Amur River area. Balobaev, V.T., et al, [1979, p.74-88, rus] 34-1514

Calculating quasi-stationary temperature and seepage fields in massive hydraulic structures and foundations by the finite element and finite difference methods. Pisarev, G.N., et al, [1979, p.67-74, rus] 34-1526

Rock fill stability on embankment slopes. Matveev, K.V., et al, [1977, p.80-87, rus] 34-2056

Generalization of experience in constructing buildings on fill. Goriainov, G.F., et al, [1980, p.185-188, eng] 34-2376

Melting intensity of frozen zones formed in cores of rock-fill dams during construction. Fevralev, A.V., [1979, p.88-91, rus] 34-2625

Environmental protection problems related to the construction of embankments and porous fills on permafrost. Kaganovskaia, S.E., [1980, p.90-94, rus] 34-3292

Construction and operation of hydraulic structures in West Yakutia. Mel'nikov, P.I., ed, [1979, 88p., rus] 34-4149

In fruitful friendship with science. Biianov, G.F., [1979, p.7-10, rus] 34-4151

Construction of dams from local materials. Biianov, G.F., [1979, p.11-20, rus] 34-4152

Thermal regime variations in the Vilyui hydroelectric power plant dam during operation. Iefvedev, B.A., et al, [1979, p.20-26, rus] 34-4153

Rock glaciers

Dynamics of natural processes in highlands. Maksimov, E.V., ed, [1977, 131p., rus] 34-1093

Buried glaciers and their origin. Maksimov, E.V., [1977, p.84-92, rus] 34-1096

Rock glacier and moraine-ridge complex, Lyngen Peninsula, north Norway. Griffey, J.N., et al, [1979, p.117-124, eng] 34-1168

Shallow core drilling and bore-hole measurements in the permafrost of an active rock glacier near the Grubengletscher, Wallis, Swiss Alps. Barsch, D., et al, [1979, p.215-228, eng] 34-1279

Contemporary sedimentary environments on Baffin Island, N.W.T., Canada: debris slope accumulations. Church, M., et al, [1979, p.371-402, eng] 34-1383

Surface movement and lichen-cover studies at the active rock glacier near the Grubengletscher, Wallis, Swiss Alps. Haeberli, W.H., et al, [1979, p.421-441, eng] 34-1385

Relationship of glacier ice and rock glacier at Grubengletscher, Kanton Wallis, Switzerland. Whalley, W.B., [1979, p.49-61, eng] 34-1461

Rock stream structure in South Yakutia. Tiurin, A.I., et al, [1979, p.119-128, rus] 34-1919

Recent geomorphological processes in the periglacial zone of the southeastern Altai (the Tete River valley). Petkevich, M.V., [1967, p.98-107, rus] 34-1992

Geomorphological processes developing on artificial structures in the nivation-glaciation zone of the Khibiny Mountains. Semekhin, IU.V., et al, [1979, p.192-195, rus] 34-2204

Englacial temperature and deformation of a rock glacier in the Kluane Range, Yukon Territory, Canada. Johnson, J.P., Jr., et al, [1979, p.2275-2283, eng] 34-2666

Nature and importance of mass-wasting by rock glaciers in alpine permafrost environments. Barsch, D., [1977, p.231-245, eng] 34-3260

Age of rock glaciers in the Altai Mountains. Ivanovskiĭ, L.N., [1977, p.125-137, rus] 34-3606

Rock glaciers in Dagestan mountains (East Caucasus). Kozhevnikov, A.V., et al, [1980, p.14-26, rus] 34-3903

Rock mechanics

Bedrock heave in the central Canadian Arctic. Dyke, L., [1979, p.241-246, eng] 34-288

Problems raised by frost action. Fundamental and applied researches (rocks and artificial building materials). Vol.2: scientific reports. [1979, 527p., fre] 34-2313

Experimental studies of frost shattering at the Center for Geomorphology of the French National Center for Scientific Research. Lautridou, J.P., [1979, p.103-110, fre] 34-2320

Superimposed rockfalls and climatic changes in northwestern Greenland. Malaurie, J., [1979, p.117-128, fre] 34-2321

Correlation of rock weathering parameters. Hudec, P.P., [1979, p.147-156, eng] 34-2322

Frost shattering of wet rock. Bertouille, H., [1979, p.315-328, fre] 34-2335

Rock properties

Some observations about rock weathering by frost upon the wall carvings. Fukuda, M., [1979, p.73-79, eng] 34-2317

Rock streams

Buried glaciers and their origin. Maksimov, E.V., [1977, p.84-92, rus] 34-1096

Facial characteristics of rock streams in southern Yakutia and northern Transbaikal. Romanovskiĭ, N.N., et al, [1979, p.59-73, rus] 34-1395

Genetic classification of rock streams. Tiurin, A.I., [1979, p.77-85, rus] 34-1760

Rock stream structure in South Yakutia. Tiurin, A.I., et al, [1979, p.119-128, rus] 34-1919

Observing rock stream movement rates on the Chul'man Plateau. Ospennikov, E.N., [1979, p.129-133, rus] 34-1920

Recent geomorphological processes in the periglacial zone of the southeastern Altai (the Tete River valley). Petkevich, M.V., [1967, p.98-107, rus] 34-1992

Recent relief-forming processes in Siberia. Ivanovskiĭ, L.N., ed, [1978, 139p., rus] 34-2293

Bald peaks in the Lake Baykal area and northern Transbaikal, their boundaries and distribution. Vyrkin, V.B., [1978, p.63-68, rus] 34-2295

Slope denudation in the bald peak zone of western Sayan. Rashba, I.N., [1978, p.69-87, rus] 34-2296

Rock streams and bald peak zones of the Lake Baykal area and northern Transbaikal. Vyrkin, V.B., [1978, p.88-108, rus] 34-2297

Exogenic relief forming process in the cryolithozone. Sukhodrovskiĭ, V.L., [1979, 280p., rus] 34-2684

Mechanics of rockstream movement (from experimental and research station data). Shevchenko, B.F., et al, [1979, p.72-79, rus] 34-2749

Engineering-geomorphological peculiarities of studying the Baykal Amur railroad area. Voskresenskiĭ, S.S., et al, [1979, p.109-120, rus] 34-2751

Avalanche danger on Lysaya Mountain (southern Sikhote Alin range). Ratnikov, A.V., [1979, p.62-63, rus] 34-3566

Cryogenic relief of bald peaks in Pribaykal'e and Northern Transbaykal. Vyrkin, V.B., [1977, p.138-163, rus] 34-3607

Mountain forests. Sinitsyn, S.G., et al, [1979, 200p., rus] 34-3754

Regularities governing the development of the topography and glaciers of Tien Shan. Zabirov, R.D., ed, [1980, 110p., rus] 34-4004

Formation and development of bald-peak ice in the mountains of Central Tien Shan, Siberia and the Far East. Tarakanov, A.G., [1980, p.96-107, rus] 34-4009

Basic characteristics of Alpine flora in North Koryakiya. Kharkevich, S.S., et al, [1979, p.33-42, rus] 34-4086

Regularities governing formation of rock streams in North Transbaikal (Southern Muyskiy Range). Tiurin, A.I., et al, [1980, p.138-144, rus] 34-4130

Rock temperature

Temperature regime of Baykal Lake shore deposits near Kurla Cape. Liubomirov, A.S., [1978, p.58-65, rus] 34-2946

See also: Frozen rock temperature

Rock weathering

Sorted strips orientated by wind action: some observations from sub-Antarctic Marion Island. Hall, K., [1979, p.281-289, eng] 34-3195

Rocks

Ice-foot processes. Observations of erosion on a rocky coast, Disko, West Greenland. Nielsen, N., [1979, p.321-331, eng] 34-966

Rock blasting under complex hydrogeological conditions. Mets, IU.S., [1979, 109p., rus] 34-1189

Methods of testing frost resistance of stone Mamillan, M., [1979, p.225-238, fre] 34-2327

Influence of normal fluxes on convective transfer at an interface. Prud'homme, R., [1979, p.377-392, fre] 34-2340

Thermal conductivity of soils and rocks. Johansen, Ö., [1979, p.407-420, eng] 34-2343

Study on prevention of stone ejection from ballasted track in snowing. Sato, Y., et al, [1977, p.178, eng] 34-2659

Petrographic observations of ice samples from Taylor Glacier, Antarctica. Robinson, P.H., [1979, p.17-19, eng] 34-3674

Pattern of glacial dispersal and comminution of rock fragments and mineral grains from two point sources. Shakesby, R.A., [1979, p.31-45, eng] 34-3972

Break-off strength of adfreezing ground. Shusherina, E.P., et al, [1980, p.178-194, rus] 34-4134

See also: Frozen rocks

Roofs

Sectional buildings with bearing panels made of effective materials. Lazhintsev, V.I., et al, [1972, p.54-63, rus] 34-178

Building roof insulation. Bellem, N.A., [1977, 8 col., eng] 34-265

Concretes for roof plates Savvina, IU.A., et al, [1977, p.14-17, rus] 34-346

Roof response to icing conditions. Lane, J.W., et al, [1979, 40p., eng] 34-625

Design snow loads. [1968, 4 leaves, eng] 34-1239

Roofs *(cont.)*
Snow load design criteria for steel buildings. [1978, 6 leaves, eng] **34-1240**
Calculating service life of waterproof mastic roofings. Popchenko, S.N., et al, [1979, p.15-22, rus] **34-1527**
Thermal insulation for light-weight roofs. Merkin, A.P., et al, [1979, p.12-16, rus] **34-1753**
Winter roof collapses: bad luck, bad construction or bad design. Seltz-Petrash, A., [1979, p.42-45, eng] **34-2033**
Snow load analysis for structures. Rusten, A., et al, [1980, p.11-21, eng] **34-2409**
Snow melting on roofs by sprinkling ground water. Higashiura, M., [1979, p.215-225, eng] **34-2551**
Basic study of snow melting on roofs. Higashiura, M., [1979, p.17-19, jap] **34-2552**
On the present situation of snow removal and melting from greenhouses. Higashiura, M., [1979, p.131-140, jap] **34-2553**
Building design for construction in the North. Vas'kovskiĭ, A.P., et al, [1979, 135p., rus] **34-2685**
Roof snow loads in Canada. Taylor, D.A., [1980, p.1-18, eng] **34-2873**
Roof leaks in cold regions: school at Chevak, Alaska. Tobiasson, W., et al, [1980, 12p., eng] **34-3327**
CRREL roof moisture survey, Pease AFB buildings 35, 63, 93, 112, 113, 120 and 220. Korhonen, C., et al, [1980, 31p., eng] **34-3335**
Evaluation of jet-roof geometry for snow-cornice control. Dawson, K.L., et al, [1979, p.503-511, eng] **34-3787**
Physical, technical and functional aspects of building design for railroads. Kovrigin, S.D., ed, [1978, 202p., rus] **34-3910**
Melting of snow on attic roofs of railroad buildings. Cheremisov, K.M., et al, [1978, p.128-136, rus] **34-3916**
Temperature regime of snow covering attic roofs. Paniutin, A.A., et al, [1978, p.137-144, rus] **34-3917**
Thermophysical properties of double-layer translucent silicate glass skylights. Godin, A.M., [1978, p.150-158, rus] **34-3918**

Roots
Impact of crude oil on root respiration and levels of soluble soil cellulase in coastal Arctic tundra. Linkins, A.E., et al, [1978, p.590-604, eng] **34-910**
Meltwater losses in forests due to absorption by tree bark. Krestovskiĭ, O.I., et al, [1979, p.87-91, rus] **34-1081**

Ross Sea
Glacial and glacial marine sediments of the antarctic continental shelves. Anderson, J.B., et al, [1980, p.399-414, eng] **34-4189**

Roughness
See: Surface roughness

Route surveys
Prudhoe Bay natural gas pipeline systems. [1976, 89p. (Pertinent p.62-82), eng] **34-1358**
Design and construction of the Alyeska pipeline. Liguori, A., et al, [1979, p.151-157, eng] **34-1685**
Voyage of the *Arktika* to the Pole and its geo-economical implications. Malaurie, J., [1978, p.205-208, fre] **34-2026**
Northern sea route (1973-1976). Armstrong, T., [1978, p.264-268, eng] **34-2027**
Fundamentals of remote sensing methods of measuring water equivalent of snow and soil moisture content from terrestrial gamma radiation. Dmitriev, A.V., et al, [1979, 304p., rus] **34-2687**
Route snow surveys in Siberian mountains. Kharshan, A.A., [1978, p.124-127, rus] **34-2895**
Polar gas considering routes. [1980, p.14-15, eng] **34-3019**
Northwest Alaskan gas line project—engineering, prebuilding, route studies. [1980, p.12-16, eng] **34-3441**
Northern border pipeline plans. [1980, p.32,35, eng] **34-3444**
Industrial application of airborne gamma surveying of snow cover in the Asiatic USSR. Markhevskaia, A.A., [1980, p.46-54, rus] **34-3545**
Using airborne snow survey data in compiling hydrologic forecasts. Dement'ev, N.F., [1980, p.55-60, rus] **34-3546**
Experience of the Administration of the Northern State Control Station in using results of airborne snow surveys. Chuvakina, Z.M., [1980, p.61-64, rus] **34-3547**

Rubber ice friction
Peculiarities of motor transport under northern conditions. Khlebnikov, A.M., et al, [1979, p.47-59, rus] **34-1625**

Rubber snow friction
Peculiarities of motor transport under northern conditions. Khlebnikov, A.M., et al, [1979, p.47-59, rus] **34-1625**

Runoff
Method of predicting road salt runoff in New Hampshire. Spear, P.W., et al, [1979, p.116-120, eng] **34-70**
Structural-statistical regularities governing runoff variations along the eastern section of the Baykal Amur railroad. Lobanova, N.I., et al, [1977, p.77-85, rus] **34-354**
Water runoff through interglacial channels. Ulrich, S., [1979, p.127-143, ger] **34-366**
Effects of seasonability and variability of streamflow on nearshore coastal areas. Carlson, R.F., et al, [1977, c.200p., eng] **34-623**
Evaporation and runoff from undrained swamps in years with different moisture conditions. Bavina, L.G., [1979, p.61-73, rus] **34-831**
Proceedings of a Meeting on Modeling of Snow Cover Runoff, 26-28 September 1978, Hanover, New Hampshire. [1979, 432p., eng] **34-1001**
LANDSAT sensing of glaciers with application to mass-balance and runoff. Breslau, D., et al, [1979, p.77-82, eng] **34-1008**
Review of snow melt in the mountain environment. Obled, C., et al, [1979, p.179-204, eng] **34-1017**
Review of water movement in snow. Wankiewicz, A., [1979, p.222-252a, eng] **34-1020**
European hydrological system snow routine. Morris, E.M., et al, [1979, p.269-278, eng] **34-1023**
Study of snowmelt-runoff components using isotope measurements. Herrmann, A., et al, [1979, p.288-296, eng] **34-1025**
Development of the operational snow band SSARR model. Speers, D., et al, [1979, p.369-378, eng] **34-1034**
Model to predict short-term snowmelt runoff using synoptic observations of streamflow, temperature and precipitation. Tangborn, W.V., [1979, p.414-426, eng] **34-1039**
Differences in the formation of spring runoff in forests of the European USSR. Krestovskiĭ, O.I., et al, [1979, p.3-14, rus] **34-1076**
Spring runoff from small drainage basins of the Dubovskaya hydrometeorological station. Bystrov, A.V., [1979, p.26-38, rus] **34-1078**
Accuracy of determining soil freezing depth at observation points. Sokolova, N.V., [1979, p.122-128, rus] **34-1083**
Calculating vertical ice distribution from the *Catalog of Glaciers in the USSR*, for evaluating runoff from mountain basins. Glazyrin, G.E., et al, [1979, p.122-126, rus] **34-1134**
Calculating surface melting of the Golubin glacier and its part in total runoff from the Alaarcha River basin. Afzin, B.V., [1979, p.139-145, rus] **34-1137**
Runoff of suspended deposits in glacier adjacent zones. Chernov, L.P., [1974, p.220-234, eng] **34-1199**
Surface erosion and sedimentation associated with forest land use in interior Alaska. Aldrich, J.W., et al, [1979, 87p., eng] **34-1314**
Statistical study of relationships between snow reserves and summer runoff in alpine regions. Jensen, H., [1979, p.123-144, ger] **34-1323**
Snow cover ablation and degree days in the Weissfluhjoch test area. De Quervain, M., [1979, p.215-232, ger] **34-1326**
Sediment transport studies at selected Norwegian glaciers 1978. Ekman, S.R., et al, [1979, 39p., nor] **34-1335**
Pollution characteristics of stormwater runoff. Bennett, E.R., et al, [1978, 226p., eng] **34-1572**
Changes in the runoff from reclaimed marshlands in South Karelia. Nesterenko, I.M., et al, [1975, p.127-128, rus] **34-1857**
Water resources of glaciers and glacial discharge in the Arctic. Govorukha, L.S., et al, [1979, p.1-12, eng] **34-1885**
Deuterium and tritium concentrations in the runoff from a glaciated basin in relation to weather. Ambach, W., et al, [1978, p.58/1-58/10, ger] **34-2074**
Models for the runoff from a glaciated catchment area using measurements of environmental isotope contents. Behrens, H., et al, [1979, p.829-846, eng] **34-2077**
Characterization and treatment of snowmelt runoff from an urban catchment. Kronis, H., [1978, 35p., eng] **34-2108**
Geological action of glaciers in the Eastern Pamirs. Demchenko, V.V., [1979, p.81-85, rus] **34-2186**
Hydrometeorological conditions of the formation of snow-loaded streams. Freĭdlin, V.S., [1979, p.198-200, rus] **34-2206**
Activities of snow-carrying streams. Sapunova, G.G., et al, [1979, p.201-202, rus] **34-2207**
Large runoff values from glacier basins located in the dry climate zone of the Altai. Gerasimenko, O.M., [1979, p.203-204, rus] **34-2208**
Comparative study of microwave radiometer observations over snowfields with radiative transfer model calculations. Chang, A.T.C., et al, [1979, 31p., eng] **34-2358**
Water balance in the Shinjo basin. Higashiura, M., [1979, p.490-496, jap] **34-2546**
Climatological water balance in the Shinjo basin. Higashiura, M., [1979, p.95-109, jap] **34-2547**
Calculating the interrelation of surface and ground water in permafrost areas. Ipat'eva, A.I., [1979, p.118-125, rus] **34-2899**
Melting and surface runoff from the Antarctic ice sheet. Klokov, V.D., [1979, 128p., rus] **34-3088**
Modelling the processes of river runoff formation. Kuchment, L.S., [1980, 143p., rus] **34-3188**
Information content of observations on precipitation and snow cover in the Uryadar'ya River Basin for long range forecasts of runoff. Akhundzhanov, Sh.M., et al, [1978, p.3-21, rus] **34-3345**
Combined method of calculating glacial runoff in mountains. Vladimirov, L.A., [1979, p.94-99, rus] **34-3698**
Possibilities of linear models for calculating glacial runoff hydrographs. Freĭdlin, V.S., [1979, p.149-155, rus] **34-3705**
Areal distribution of snow reserves over the Polar Urals. Gokhman, V.V., et al, [1979, p.177-182, rus] **34-3710**
Remote sensing of snow covered area for runoff modelling. Rango, A., [1980, p.291-297, eng] **34-3778**
Remote snow cover measurements for forecasting the runoff of mountain rivers. Borovikova, L.N., et al, [1978, p.57-61, eng] **34-3965**
Estimation of the possible changes in the ice and thermal regimes of the northern Dvina River under the effect of partial runoff withdrawal. Donchenko, R.V., et al, [1978, p.186-191, eng] **34-4059**
Channel development in snow-filled valleys, Resolute, N.W.T., Canada. Woo, M.-K., et al, [1980, p.37-56, eng] **34-4191**
Breakup of streams in the Canadian high Arctic. Woo, M., [1979, p.95-107, eng] **34-4208**

Runoff forecasting
Value of snow course data in forecasting snowmelt runoff. Lettenmaier, D.P., [1979, p.44-55, eng] **34-1004**
Controls on the production of snowmelt runoff. Price, A.G., et al, [1979, p.257-268, eng] **34-1022**
Proceedings of the 47th annual meeting. [1979, 118p., eng] **34-1049**
Volume forecasts using the SSARR model in a zone mode. Kuehl, D.W., [1979, p.38-47, eng] **34-1054**
Evaluation of streamflow forecasting methods. Lettenmaier, D.P., et al, [1979, p.48-55, eng] **34-1055**
Application of snow covered area to runoff forecasting in the southern Sierra Nevada. Hannaford, J.F., et al, [1979, p.56-67, eng] **34-1056**
Spring runoff forecasts from snow assessments in the Malmagen area at 62N in Sweden. Zakrisson, K., [1979, p.63-66, eng] **34-1462**
Snow mapping and runoff forecasting: Examination of ERTS-1 capabilities and potential benefits from an operational ERS system. [1974, 180p. + 25p. appends., eng] **34-1730**
Forecasting seasonal snowmelt runoff: a summary of experience with two models applied to three drainages in the Cascade Mountains of Washington. Lettenmaier, D.P., et al, [1978, 109p., eng] **34-1905**
Linear models for calculating drainage from glacier basins. Borovikova, L.N., et al, [1979, p.85-95, rus] **34-1977**
Subdivision of runoff hydrographs from mountain glacier basins. Pylev, I.V., [1979, p.202-206, rus] **34-3140**
Proceedings. [1980, 301p., eng] **34-3511**
Application of satellite data for snow mapping in Norway. Odegaard, H.A., et al, [1980, p.93-106, eng] **34-3515**
Satellite snowcover and runoff monitoring in central Arizona. Schumann, H.H., et al, [1980, p.107-126, eng] **34-3516**
Use of satellite data in runoff forecasting in the heavily-forested, cloud-covered Pacific Northwest. Dillard, J.P., et al, [1980, p.127-150, eng] **34-3517**
LANDSAT derived snowcover as an input variable for snowmelt runoff forecasting in south central Colorado. Shafer, B.A., et al, [1980, p.151-169, eng] **34-3518**
Graphical method of stream runoff prediction from LANDSAT derived snowcover data for watersheds in the upper Rio Grande basin of Colorado. Moravec, G.F., et al, [1980, p.171-183, eng] **34-3519**
Application of snowcovered area to runoff forecasting in selected basins of the Sierra Nevada, California. Brown, A.J., et al, [1980, p.185-200, eng] **34-3520**
Application of satellite imagery to hydrologic modeling snowmelt runoff in the southern Sierra Nevada. Hannaford, J.F., et al, [1980, p.201-222, eng] **34-3521**
Cost/benefit analysis for the Operational Applications of Satellite Snowcover Observations (OASSO). Castruccio, P.A., et al, [1980, p.239-254, eng] **34-3522**
Snowmelt runoff forecasting using state estimation techniques. O'Hayre, A.P., [1979, p.68-74, eng] **34-4206**

Runways
Toilet paper and tundra. Grant, R., [1979, p.47-49, eng] **34-274**
Operational research investigation of the ice-detection capability and utility of the Surface Condition Analyzer (SCAN) system and its applicability to Navy-wide use. Mack, E.J., et al, [1979, 181p., eng] **34-1171**
Ice and landing surface demoulding replica fabrication. Lundström, G., [1973, 12p., eng] **34-2143**
See also Aircraft landing areas; Ice runways

Safety
Safe operation control for a snowblower. Dobberpuhl, D.R., [1977, 6 col., eng] **34-269**
Drilling operations guide. [1973, c195p., eng] **34-568**
Study of Beaufort Sea exploratory drilling systems [1971, var. p., eng] **34-574**
Arctic offshore pipeline feasibility study in Mackenzie River delta area. [1973, c530p., eng] **34-578**
Measures against skidding on icy and snow roads. Problem analysis, state-of-the-art review and need for R&D. Carlsson, G., [1979, 52p., swe] **34-783**
Safety rules for pipeline construction in West Siberia. Glazyrin, F.V., [1979, p.13-14, rus] **34-1257**
Safe working conditions on fast ice. Chuchukin, A., [1979, p.26-27, rus] **34-2292**

Assessment of Arctic offshore pipelines. Muraszew, A., et al, [1980, 6 sections, eng] 34-3991
See also: Accidents

Saline soils

Structure of soils in the steppe geosystems of the Abakan and Yenisey interfluve. Kochurov, B.I., [1979, p.210-217, rus] 34-457
History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, [1979, 215p., rus] 34-1067
History of river valley development as a basis for designing land irrigation with ground water in Buryat-Mongol ASSR. Bazarov, D.B., et al, [1979, p.62-66, rus] 34-1068
SNiP 11-18-76. Construction norms and rules; Part 11. Planning norms: Chapter 18. Footings and foundations on permafrost. [1979, 111p., eng] 34-1342
Influence of salinity on frozen ground deformation. Pekarskaia, N.K., et al, [1979, p.5-19, rus] 34-1534
Roads. Rules of construction and acceptance of jobs. Approval for operation. [1973, 87p., rus] 34-2865
Oats in the permafrost zone. Denisov, G.V., [1979, 184p., rus] 34-2901
Concrete protection from brine and frost effects. Bugrim, S.F., et al, [1980, p.17-18, rus] 34-2980
Regionalization of the southern West Siberian Plain for land reclamation. Uglanov, I.N., et al, [1979, p.116-133, rus] 34-3080
Hydrochemical runoff and the intensity of soil salinization in West Siberia. Panin, P.S., [1979, p.141-170, rus] 34-3081
Seasonal moisture exchange dynamics between ground waters and the aeration zone of Kulunda Steppe. Sen'kov, A.A., [1979, p.183-190, rus] 34-3082
Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p. (Pertinent p.230-344), rus] 34-3600
Salinity of soils in the Tunguy depression. Borisenko, L.V., et al, [1979, p.34-41, rus] 34-4098

Salinity

Numerical investigation of Arctic Ocean circulation. Semtner, A.J., Jr., [1973, 251p., eng] 34-2
Compaction of wet snow on highways. Colbeck, S.C., [1979, p.14-17, eng] 34-52
Oceanographic cruise of the USCGC *Glacier* to the marginal sea-ice zone of the Chukchi Sea—MIZPAC 78. Interim report for period July 1978-May 1979. Paquette, R.G., et al, [1979, 77p., eng] 34-275
Analysis of ocean currents Davis Strait—1977. Osborn, T.R., et al, [1978, 2 vols., eng] 34-307
Oceanographic survey of Porters Lake, N.S. Elliott, J.A., [1978, 24p., eng] 34-320
Oceanographic observations in Barrow Strait and Wellington Channel, N.W.T., April 1973. Herlinveaux, R.H., et al, [1978, 170p., eng] 34-367
Subsurface current measurements in eastern Lancaster Sound, N.W.T., summer 1977. Fissel, D.B., et al, [1978, 72p., eng] 34-370
Cruise 77-1, February, 1977. Environmental aspects of the cruise to Davis Strait and the Labrador coast. [1977, var.p., eng] 34-426
Davis Strait ice and oceanographic observations, Winter 1976-77. [1977, 96p. + appends., figs., and tables, eng] 34-427
Report on Cruise II, July 1976. Environmental aspects of Imperial Oil cruise to Flemish Pass and Davis Strait. [1976, var.p., eng] 34-429
Field report on the oceanographic cruises during April, July-August, October-November, 1976. [1977, var.p., eng] 34-430
Primary data collected for the 1977 Davis Strait biological programme and analysed prior to December 1977. [1977, 2 vols., eng] 34-492
Biological productivity of the southern Beaufort Sea: the physical-chemical environment and the plankton. Grainger, E.H., [1975, 82p., eng] 34-504
Oceanographic observations at stations along the triangular grids during the Mixed Layer Experiment, August 1, 1978. Volume 84-C. Miyake, M., [1979, 191p., eng] 34-563
Winter and spring oceanographic conditions in and under the ice of the Bering Sea. Lohrman, W.R., et al, [1979, 66p., eng] 34-1047
Arctic ice. Zubov, N.N., [1979, 500p., eng] 34-1115
Physical oceanography from the Arctic ice pack: Project AIDJEX STD programs. Amos, A.J., [1975, 17p., eng] 34-1731
Univariate model of the seasonal pycno-wedge and homogeneous layer in the Arctic Basin. Ponomarev, V.I., [1979, p.37-47, rus] 34-1997
Proceedings. [1979, 291p., eng] 34-2036
Recent oceanographic observations in the Labrador current. Lazier, J.R.N., [1979, p.195-204, eng] 34-2039
Geostrophic calculations for the Labrador current. Keeley, J.R., [1979, p.201-218, eng] 34-2040
Mass-balance aspects of Weddell Sea pack-ice. Ackley, S.F., [1979, p.391-405, eng] 34-2840
Calculating sea ice salinity. Smetannikova, A.V., et al, [1979, p.117-120, rus] 34-3005
Oceanographic data. [1976, 30p. + figs., eng] 34-3100
Oceanographic characteristics in the Caspian Sea near the ice edge. Kosarev, A.N., et al, [1979, p.170-180, rus] 34-3185
Physical oceanography of the seasonal sea ice zone. McPhee, M.G., [1980, p.93-132, eng] 34-3627
Saline discharge at the snout of Taylor Glacier, Antarctica. Keys, J.R., [1979, p.20-21, eng] 34-3675
See also: Ice salinity

Salt extraction

See: Desalting

Salt ice

Flow of salt glaciers. Wenkert, D.D., [1979, p.523-526, eng] 34-3993

Salt spray

See: Sea spray

Salt water

Investigation of freezing of salt solutions in cells. Hayashi, Y., et al, [1979, p.459-463, eng] 34-647
View on the formation of saline waters in the Dry Valleys. Torii, T., et al, [1979, p.22-33, eng] 34-2286
Growth of ice in a saltwater drop falling in an organic phase. Bustany, S.T., et al, [1979, p.439-446, eng] 34-2428
Saline discharge at the snout of Taylor Glacier, Antarctica. Keys, J.R., [1979, p.20-21, eng] 34-3675
See also: Sea water

Salting

New European views on snow and ice control development. Elsenaar, P.M.W., [1979, p.1-5, eng] 34-50
Environmental model for predicting impacts from deicing salts. Thuet, J.H., [1979, p.61-65, eng] 34-60
Method of predicting road salt runoff in New Hampshire. Spear, P.W., et al, [1979, p.116-120, eng] 34-70
Enhancing ice-melting action of rock salt by prewetting with calcium chloride. Larrimore, D.R., et al, [1979, p.282-288, eng] 34-93
Calcium chloride vs. snow and ice. [1979, p.14-17, eng] 34-651
New developments in winter maintenance. Hoekstra, H., [1979, p.19-29, eng] 34-1242
Noncorrosive methods of ice control. Minsk, L.D., [1979, p.133-162, eng] 34-1586
Highway ice and snow removal and deicing salt problems at Lake Tahoe. Foster, D., [1975, p.3-17, eng] 34-1733
Economic analysis of the environmental impact of highway deicing salts. Murray, D.M., [1977, p.29-40, eng] 34-1877
Impact of highway deicing salts on rural stream water quality. Champagne, D.M., [1977, p.47-52, eng] 34-1878
Corrosion, deicing salts, and the environment. Chance, R.L., [1974, p.16-22, eng] 34-2394
Technical Committee report on operational and winter maintenance. [1979, 120p., eng] 34-2478
Use of exchange plastics for the protection and repair of concrete bridge pavements exposed to salting. Schröder, M., [1980, p.23-24, 26-27, ger] 34-2492
Reducing damage to roadside vegetation due to sodium ions in salt. Leisser, H., et al, [1979, p.486-487, ger] 34-2494
Winter service and road maintenance. Suter, K., [1980, p.77, ger] 34-2862

Samplers

"NIPR-I," a new plankton sampler under sea ice. Fukuchi, M., et al, [1979, p.104-109, eng] 34-3059
See also: Permafrost samplers; Snow samplers

Sampling

Reduction of contamination problems in sampling of antarctic snows for trace element analysis. Boutron, C., [1979, p.127-130, eng] 34-728
See also: Ice sampling

Sanding

Highway ice and snow removal and deicing salt problems at Lake Tahoe. Foster, D., [1975, p.3-17, eng] 34-1733

Sands

Frost protection layers made of cemented materials. Guriachkov, I.L., et al, [1979, p.8-10, rus] 34-10
Thermophysical characteristics of moisture and gas-saturated sandstones at naturally low temperatures. Grolsman, A.G., et al, [1975, p.106-107, rus] 34-229
Experience with design and operation of bucket dredges for excavating sand-gravel-boulder soils. Freidin, V.M., [1978, p.1123-1126, eng] 34-326
Deflation of Barguzin Basin soils and economic utilization. Namzhilov, N.B., [1979, p.124-130, rus] 34-449
Study of the theoretical and practical determination of hydrogeological parameters in glacial outwash sands by surface geoelectrics. Urish, D.W., [1978, 336p., eng] 34-604
Initial and sustained strength of clay soils. Meschian, S.R., [1978, 207p., rus] 34-884
Eolian sand deflation—a cause for gravel barrier islands in Arctic Alaska. Reimnitz, E., et al, [1979, p.507-510, eng] 34-1143
Studying frost resistance of rocks. Ben'kov, V.N., [1979, p.66-70, rus] 34-1529
Thermal inertia of ground and the development of tangential frost heave forces. Sokolov, V.M., [1979, p.21-22, rus] 34-1710
Mechanism of blasting massive frozen ground. Balbachan, I.P., [1979, p.32-34, rus] 34-1768
Artificial freezing technique of increasing bottom zone permeability in gas-condensate wells of the Far North. Govdun, V.V., [1979, p.11-13, rus] 34-2048
Effectiveness of clay freezing prevention methods. Kharlamov, V.N., [1979, p.4-8, rus] 34-2082
Frost resistant concretes with fine sands. Ivanov, F.M., et al, [1979, p.24-26, rus] 34-2099
Iron and organic matter migration in sandy podsols. Lazareva, I.P., [1978, p.67-71, rus] 34-2256
Frost resistance and mechanical properties of calcareous sandstone concrete. Marmor, Kh.G., et al, [1979, p.127-134, rus] 34-2384
Sandy soils in the southern Taz River Basin. Ovchinnikov, S.M., [1979, p.172-180, rus] 34-2744
Origin of massive sand deposits in the Baykal Amur railroad area and their economic development. Shevchenko, V.K., [1979, p.165-169, rus] 34-2757
Studying wettability of mineral grains in disperse systems. Romanov, V.P., [1979, p.143-152, rus] 34-2786
Regime, balance and peculiarities of talik alimentation in Central Yakutian sandstone. Shepelev, V.V., [1978, p.145-162, rus] 34-2932
Studying static growth of cracks in sand at subzero temperatures. Grechishchev, S.E., [1976, p.158-164, rus] 34-3207
Determining aquifer permeability from electrical logs in West Siberia. Balabanov, A.P., et al, [1979, p.50-54, rus] 34-3482
Dehydration of nonmetalliferous construction materials at low temperatures. Gurevich, V.G., et al, [1980, 70p., rus] 34-3824
Residential buildings on economy-type pile foundations in Murmansk. Kaloshin, I., [1980, p.14-15, rus] 34-3928
Break-off strength of adfreezing ground. Shusherina, E.P., et al, [1980, p.178-194, rus] 34-4134
Thermal conductivity of frozen and thawed sands, depending on density and moisture content. Ananian, A.A., et al, [1980, p.195-200, rus] 34-4135

Sanitary engineering

Developing systems of communal water supply and waste discharge in Siberia and the Far East. Poriadin, A.F., et al, [1979, p.4-6, rus] 34-237
Hygienic evaluation of water supply and waste disposal along the Baykal Amur railroad. Pletnikova, I.P., et al, [1979, p.7-8, rus] 34-238
Assembling polyvinylchloride pipes in freezing weather. Alesker, I.A.B., et al, [1979, p.16-17, rus] 34-244
Water supply and drainage systems and waste water treatment in the Noril'sk area. Okhrimenko, S.S., [1979, p.28-29, rus] 34-245
Improvement and development of water supply and waste drainage systems in Siberia, the Far East, Far North and BAM area. [1979, p.30-31, rus] 34-246
Environmental quality conditions in Fairbanks, Alaska, 1972. Pearson, R.W., et al, [1976, 63p. + appends., eng] 34-619
Environmental Standards for Northern Regions: a symposium, June 1974, Anchorage, Alaska. Smith, D.W., ed, [1975, 389p., eng] 34-630
Individual wastewater treatment systems in Alaska. Johnson, R.A., [1977, p.29-36, eng] 34-692
Water and sanitation in the Northwest Territories: an overview of the setting, policies and technology. Cameron, J.J., et al, [1977, p.4-12, eng] 34-695
Experimental project of sewage systems for the *Pionerskaia Rechka* sanatorium. Mochalov, I.P., et al, [1974, p.170-177, rus] 34-765
Waste water purification in small northern settlements. Mochalov, I.P., [1974, p.178-188, rus] 34-766
Reference manual for construction on permafrost. Antonov, A.F., et al, [1979, 674p., eng] 34-1966

Satellites

See: Spacecraft

Saturation

Regularities of the deformation of swelling soils with time. Meschian, S.R., et al, [1979, p.37-44, eng] 34-982
Study of the effects of pore-water salinity on some physical properties of sedimentary rocks at permafrost temperatures. Pandit, B.I., et al, [1979, p.1566-1580, eng] 34-1456
Cryogenic suction in partially saturated soils. Frémond, M., et al, [1979, p.57-59, fre] 34-1642
Studies of the destruction mechanism at freezing of porous materials. Fagerlund, G., [1979, p.167-196, eng] 34-2324
Methods of testing frost resistance of concretes. Houtou, A., [1979, p.213-224, fre] 34-2326
Methods of testing frost resistance of stone. Mamillan, M., [1979, p.225-238, fre] 34-2327
Freezing of water in porous materials. Blachere, J.R., [1979, p.295-303, fre] 34-2333
Frost shattering of wet rock. Bertouille, H., [1979, p.315-328, fre] 34-2335
Wind action in frost shattering processes. Brochu, M., [1979, p.401-404, fre] 34-2342

Saturation *(cont.)*
Water movement in a land treatment system of wastewater by overland flow. Nakano, Y., et al, [1979, p.185-206, eng] **34-3949**
See also: Supersaturation
Scanning electron microscopy
Scanning electron microscope examination of subglacial quartz grains from Camp Century core, Greenland - a preliminary study. Whalley, W.B., et al, [1980, p.125-131, eng] **34-3804**
Scattering
Possibility of solving a problem of radiative heat transfer Amosov, A.A., [1979, p.1341-1344, rus] **34-250**
Scattering and attenuation of electromagnetic radiation by hailstones with a logarithmically normal particle distribution function. Bibilashvili, N.Sh., ed, [1979, p.60-66, rus] **34-2877**
Diffuse radiation in the Caucasus. Samukashvili, R.D., [1980, p.123-129, rus] **34-3427**
Radioactive isotope techniques in controlling quality of work and investigations when building foundations and underground structures. Smorodinov, M.I., [1980, 168p., rus] **34-3866**
See also: Backscattering; Light scattering
Sea air interaction
See: Air water interactions
Sea currents

Sea ice
Design of a large shaped charge suitable for the perforation of Arctic sea-ice. Jones, J.M., [1971, 32p., eng] **34-5**
Ice mechanics. Michel, B., [1978, 499p., eng] **34-9**
Antarctic fast-ice food chain: observations on the interaction of amphipod *Pontogeneia antarctica* Chevreux with ice-associated micro-algae. Richardson, M.G., et al, [1979, p.106-115, eng] **34-13**
Environmental assessment of the Alaskan continental shelf. Vol.1. Physical science studies. [1979, 581p., eng] **34-14**
Baseline study of historic ice conditions in the Beaufort Sea, Chukchi Sea, and Bering Strait. Hunt, W.R., et al, [1979, p.122-534, eng] **34-16**
Gravity measurements of the ice on the Bothnian Bay. Lehmuskoski, P., et al, [1978, p.101-123, eng] **34-45**
Ice drift in the presence of ice hummocks. Gorbunov, IU.A., et al, [1979, 15p., eng] **34-133**
Ocean ice. Sobey, E., [1979, p.105-114, eng] **34-200**
Oceanographic cruise of the USCGC *Glacier* to the marginal sea-ice zone of the Chukchi Sea--MIZPAC 78. Interim report for period July 1978-May 1979. Paquette, R.G., et al, [1979, 77p., eng] **34-275**
Analytical study of ice scour on the sea bottom. [1975, 185p. + append., eng] **34-299**
Normal and extreme winds and waves in the Canadian southern Beaufort Sea. [1974, 81p., eng] **34-300**
Summer environmental program Mackenzie River estuary. [1975, 3 vols., eng] **34-301**
Ice island count southern Beaufort Sea 1974. Spedding, L.G., [1975, 14p. + figs. and slides, eng] **34-303**
Ice island count southern Beaufort Sea 1975. Spedding, L.G., [1976, 14p. + figs., eng] **34-304**
Ice and meteorological observations in the Davis Strait during April, May and June 1977 for Imperial Oil Limited. [1977, var. p., eng] **34-3,0**
Canadian Arctic field survey, May 17-June 23, 1969 Atwater, R.K., et al, [1969, 35p. + appends., eng] **34-32**
Investigation of sea-bed scour in the Beaufort Sea. [1971, 29p. + appends., eng] **34-33,**
Natural conditions and resources of northern seas. Zhevnovatyĭ, V.T., ed, [1977, 119p., rus] **34-356**
Calculating basic components of ice balance in the Denmark Strait. Antropova, L.V., et al, [1977, p.90-107, rus] **34-359**
Numerical simulation of the annual cycle of sea ice in the Arctic and Antarctic. Parkinson, C.L., [1977, 191p., eng] **34-409**
Nonlinear analysis of a simple sea ice-ocean temperature oscillator model. Moritz, R.E., [1979, p.4916-4920, eng] **34-412**
Statistical analysis of ice pressure ridge distribution in the southern Beaufort Sea. Gladwell, R.W., [1976, 45p., eng] **34-417**
Beaufort Sea summer ice testing project. [1973, 16p. + figs. and tables, eng] **34-419**
Arctic environmental observations M/V Arctic Explorer. [1974, 37p. + logs, eng] **34-423**
Davis Strait ice and oceanographic observations, Winter 1976-77. [1977, 96p. + appends., figs., and tables, eng] **34-427**
Fifty-second annual report on the work of the Scott Polar Research Institute. [1979, p.519-526, eng] **34-473**
SCAR Working Group on Glaciology. [1979, p.527-532, eng] **34-474**
Some aspects of weathering and burning crude oil in a water and ice environment. Belicek, J., et al, [1976, 34p., eng] **34-487**
Coastal environment of southern Baffin Island and northern Labrador-Ungava Barry, R.G., et al, [1977, 166p., eng] **34-490**
Eastern Arctic area 15- and 30-day ice forecasting guide. Mitchell, P.A., [1979, 259p., eng] **34-509**
Theory of melting ice drift. Ovsienko, S.N., et al, [1979, p.1066-1070, rus] **34-524**
Linear elements of sea-ice relief. Kupetskiĭ, V.N., [1979, p.75-81, eng] **34-528**
Some results from a linear-viscous model of the Arctic ice cover. Hibler, W.D., III, et al, [1979, p.293-304, eng] **34-544**
Effects of ice thickness on the exchange of solar radiation over the polar oceans Grenfell, T.C., [1979, p.305-320, eng] **34-545**
Arctic drilling barge study [1971, var. p., eng] **34-557**
Beaufort Sea summer ice study Nolta, K.G., et al, [1970, c55p., eng] **34-558**
Sea ice tests. Nuttall, J.B., [1971, 34p., eng] **34-559**
Nutcracker ice strength tests, 1970-71 Croasdale, K.R., [1971, c190p., eng] **34-569**
Beaufort Sea exploratory drilling system: review and recommendations. [1971, var. p., eng] **34-573**
Study of Beaufort Sea exploratory drilling systems [1971, var. p., eng] **34-574**
Arctic offshore pipeline feasibility study in Mackenzie River delta area. [1973, c530p. eng] **34-578**
Nutcracker ice strength tests. Croasdale, K.R., [1970, c.260p., eng] **34-593**
Beaufort Sea ice sampling project, 1970. Croasdale, K.R., [1970, c.145p., eng] **34-594**
Ice and current measurements program Beaufort Sea. [1970, c.65p., eng] **34-595**
Logistics operations APOA Beaufort Sea projects 1970. Smith, J.G., [1970, 75p., eng] **34-596**
Effects of seasonability and variability of streamflow on nearshore coastal areas. Carlson, R.F., et al, [1977, c.200p., eng] **34-623**
Bathymetric and shoreline changes in northwestern Prudhoe Bay, Alaska. Barnes, P., et al, [1977, p.7-13, eng] **34-691**
Adfreeze bonding between sea ice and offshore structures: a critical examination. Sackinger, W.M., [1977, p.13-18, eng] **34-696**
Arctic Ocean heat budget; report from SCOR Working Group 58. Aagaard, K., et al, [1979, 98p., eng] **34-722**
Dynamic thermodynamic sea ice model Hibler, W.D., III, [1979, p.815-846, eng] **34-741**
Investigation of multi-year pressure ridges and shore pile-up. Kovacs, A., et al, [1975, 45p., eng] **34-774**
Remote estimation of the properties of sea ice, impulse radar study of Lake Melville, Labrador. Butt, K.A., et al, [1979, c.215 leaves, eng] **34-784**
Ice cover parametrization in global models of ocean-atmosphere interactions. Belevich, M.IU., [1979, p.91-97, rus] **34-804**
Proceedings [1976, 424p., eng] **34-814**
Satellite observations of snow and ice with an imaging passive microwave spectrometer. Fisher, A.D., et al, [1976, p.98-103, eng] **34-816**
Sea ice modeling, its testing with LANDSAT and potential use in FGGE. Hall, R.T., et al, [1976, p.104-109, eng] **34-817**
Global variation of snow and ice extent. Kukla, G.J., [1976, p.110-115, eng] **34-818**
Arctic odyssey five years of data buoys in AIDJEX Martin, P., et al, [1976, p.328-334, eng] **34-821**
Optical properties of young sea ice. Perovich, D.K., [1979, 151p., eng] **34-841**
Engineering at the ends of the earth, polar ocean technology for the 1980's. [1979, 74p., eng] **34-844**
Recent ice observations in the Alaskan Beaufort Sea federal-state lease area. Kovacs, A., [1978, p.7-12, eng] **34-870**
Optical methods of studying oceans and inland water bodies. Galazii, G.I., ed, [1979, 373p., rus] **34-875**
Optical classification of natural ice. Bogorodskiĭ, V.V., et al, [1979, p.341-347, rus] **34-882**
Canadian oil industry's scientific activities in the Arctic offshore. Pallister, A.E., [1977, 14p. + append., eng] **34-915**
Movement and deformation of landfast ice in the southern Beaufort Sea. Cooper, P.F., Jr., [1975, 16p., eng] **34-916**
Flooding of sea ice roads Favrat, D., et al, [1979, p.238-249, eng] **34-935**
Arctic beach environment, south-west Devon Island, N.W.T. Owens, E.H., [1969, 152p., eng] **34-938**
Report of the International Ice Patrol services in the North Atlantic Ocean, season of 1977 Knutson, K.N., et al, [1978, 44p. + appends., eng] **34-941**
Effect of varying low level wind fields on the opening and closing of the ice cover in the western Weddell Sea Kyle, T.H., [1974, 91p., eng] **34-944**
Anisotropic properties of sea ice in the 50- to 150-MHz range. Kovacs, A., et al, [1979, p.5749-5759, eng] **34-963**
Arctic lead-airdrop data buoy Buck, B.M., et al, [1979, 22p., eng] **34-1044**
Winter and spring oceanographic conditions in and under the ice of the Bering Sea. Lohrman, W.R., et al, [1979, 66p., eng] **34-1047**
Study of ambient noise levels in the marginal-sea-ice zone east of Greenland. Peters, K.W., [1979, 162p., eng] **34-1048**
Antarctic journal of the United States, Vol. 14, No.3 [1979, 23p., eng] **34-1091**
Arctic ice Zubov, N.N., [1979, 500p., eng] **34-1115**
Surface-based scatterometer results of Arctic sea ice Onstott, R.G., et al, [1979, p.78-85, eng] **34-1167**
Multiple surface scattering from the ice covered Arctic Ocean. Beilis, A., et al, [1979, 52p., eng] **34-1170**
Physical and mechanical properties of the ice cover of the Kara and Laptev Seas. Peschanskiĭ, I.S., et al, [1974, p.322-333, eng] **34-1203**
Thermal drill for making large holes in sea ice. Francois, R.E., et al, [1975, p.303-310, eng] **34-1230**
Monitoring and mapping sea-ice breakup and freezeup of Arctic Canada from satellite imagery Dey, B., et al, [1979, p.229-242, eng] **34-1280**
Equilibrium surface temperature climate model applied to first year sea ice growth. Miller, J.D., [1979, 183p., eng] **34-1295**
Bearing capacity of sea ice. Murat, J.R., [1978, 408p., fre] **34-1301**
Alaska's weather and climate: a collection of articles written for the educated layman by staff members of the Geophysical Institute and the National Weather Service in Alaska Wendler, G., ed, [1979, 153p., eng] **34-1302**
Alaska's weather and climate Bowling, S.A., [1979, p.1-25, eng] **34-1303**
Icebreaker capability reference document Perrini, F., [1977, c130 leaves, eng] **34-1337**
Mechanical technology in ice research. Schwarz, J., et al, [1979, 24p., eng] **34-1344**
Development of a viscoelastic finite difference formulation for analysis of ice sheet-structure interactions. Praskievicz, M.W., [1979, 162p., eng] **34-1353**
Finestructure, fronts and currents in the Pacific marginal sea-ice zone-MIZPAC. Small, W.E., [1979, 85p., eng] **34-1355**
Proceedings [1978, 945p., eng] **34-1367**
Fate and effect of Bunker C oil spilled by the USNS Potomac in Mellville Bay, Greenland, 1977. Petersen, H.K., [1978, p.331-343, eng] **34-1370**
Remote sensing of snow and ice: a review of the research in the United States 1975-1978 Rango, A., [1979, 35p., eng] **34-1375**
Crystal alignments in the fast ice of Arctic Alaska Weeks, W.F., et al, [1979, 21p., eng] **34-1379**
Engineering innovation for Arctic conditions. Brown, R.J., [1979, p.418-429, eng] **34-1399**
Meteorological aspects of the drift of ice from the Weddell Sea toward the mid-latitude westerlies Schwerdtfeger, W., [1979, p.6321-6328, eng] **34-1404**
Changes in the amount of multi-year ice in arctic seas during the current cooling trend Bulatov, L.V., et al, [1978, p.216-218, eng] **34-1417**
Visual observations of floating ice from Skylab. Campbell, W.J., et al, [1977, p.353-379, eng] **34-1493**
Climate and ice in the Strait of Canso region. O'Neill, A.D.J., [1979, p.1-10, eng] **34-1502**
Ice forecasts for Arctic seas and their practical use Kirillov, A.A., [1977, p.75-83, eng] **34-1503**
Ice gouge obliteration and sediment redistribution event 1977-1978, Beaufort Sea, Alaska Barnes, P., et al, [1979, 22p., eng] **34-1559**
User manual for programs VISICE and VISFIT. Katona, M.G., [1979, 60p., eng] **34-1563**
Crude oil in cold water Milne, A.R., et al, [1979, 119p., eng] **34-1584**
Sea ice properties. Wang, Y.S., [1979, 11p + 24 slides, eng] **34-1591**
Sea ice loads. Ralston, T.D., [1979, 27p + 34 slides, eng] **34-1592**
Recent-year-to-year variations in seasonal temperatures and sea ice conditions in the eastern Canadian Arctic Jacobs, J.D., et al, [1979, p.345-354, eng] **34-1617**
Report of the International Ice Patrol Service in the North Atlantic Ocean Season of 1978. [1979, 39p., eng] **34-1646**
Sea ice off the Icelandic coasts October 1970-September 1971. [1979, 97p., ice] **34-1699**
Nearshore environments of the North Slope and the petroleum industry Schindler, J., et al, [1975, p.67-75, eng] **34-1724**
Physical oceanography from the Arctic ice pack Project AIDJEX STD programs Amos, A.J., [1975, 17p., eng] **34-1731**

CO2-climate sensitivity study with a mathematical model of the global climate Manabe, S., et al, [1979, p.491-493, eng] **34-1761**
Statistical study of passage into Beaufort Sea via Point Barrow Wilson, S.R.G., [1977, 108p., eng] **34-1763**
Research plan for Arctic ship powering and development Voelker, R.P., [1977, 49p., eng] **34-1800**
Snow measurements on the antarctic shelf ice Kozlovskiĭ, A.M., [1979, p.74-77, rus] **34-1830**
Impact of CO2 on cooling of snow and water surfaces Choudhury, B., et al, [1979, p.668-671, eng] **34-1840**
Lomonosov Ridge Experiment Lorex 79 Weber, J.R., [1979, p.715-721, eng] **34-1844**

Problems of the Arctic and the Antarctic, collection of articles, Vol.45, 1974. Treshnikov, A.F., ed, [1979, 171p., eng] 34-1884

Quantitative relations in phase composition of sea ice. Nazintsev, IU.L., [1979, p.76-83, eng] 34-1890

Method of forecasting flexural strength of ice cover. Ryvlin, A.IA., [1979, p.99-108, eng] 34-1891

Lower limit of application of hydrodynamic model of ice drift. Khetsin, D.E., et al, [1979, p.154-157, eng] 34-1894

Determination of winter accretion of ice in leads with consideration of hummocking. Alekseev, G.V., et al, [1979, p.158-163, eng] 34-1896

Synopsis—ice in estuaries and harbours. Carstens, T., [1979, p.1-30, eng] 34-1959

Sea ice. Part 1: major features and physical properties. Wittmann, W., et al, [1973, p.125-134, eng] 34-1960

Backscatter measurements of sea ice with a helicopter-borne scatterometer. Patel, J.S., et al, [1979, 120p., eng] 34-1965

Observations of position, ocean depth, ice rotation, magnetic declination and gravity taken at the Fram I drifting ice station. Hunkins, K., et al, [1979, 52p. + append., eng] 34-1967

Selecting the relationships between stresses and deformations in drifting ice cover. Khetsin, D.E., [1979, p.63-71, rus] 34-2000

Capture of long ocean waves by heterogeneities of ice cover. Odulo, A.B., [1979, p.72-76, rus] 34-2001

Unstabilized oscillations of drifting ice cover caused by periodic disturbances in an inhomogeneous sea. Bukatov, A.E., et al, [1979, p.77-84, rus] 34-2002

Asymmetric dynamics of ice cover. Ivchenko, V.O., et al, [1979, p.99-106, rus] 34-2003

Calculating the balance of Arctic Ocean pollutants. Izmailov, V.V., et al, [1979, p.486-491, rus] 34-2022

Sea ice in the Arctic. Moign, A., [1978, p.283-288, fre] 34-2031

Thermodynamic model of sea ice. Maykut, G.A., [1969, 214p., eng] 34-2071

Thermal regime of the World Ocean during the last glaciation maximum. Kagan, B.A., et al, [1979, p.716-720, rus] 34-2116

Inventory of snow cover and sea ice data. Crane, R.G., comp., [1979, 171p., eng] 34-2136

How to drill and produce in the Beaufort Sea. Bleakley, W.B., [1980, p.23-32, eng] 34-2140

Presentation of sea ice ridges in general and physical characteristics of Baltic ridges for ship resistance calculations. Keinonen, A., [1978, 19p. + 14 figs., eng] 34-2141

Thermal capacity of sea ice and its effect on ice cover melting in Arctic seas. Faĭko, L.I., [1979, p.211-213, rus] 34-2211

Ice winters 1971-75 along the Finnish coast. [1978, 63p., fin] 34-2270

Description of a thrust of sea ice. Hanson, A., [1980, p.101-104, eng] 34-2276

Arctic marine technology: a review of ship resistance in ice. Peirce, T.H., [1979, p.219-235, eng] 34-2360

Scale model ultrasonic study of Arctic ice. Part 2. Himberger, D.E., et al, [1979, 64p., eng] 34-2371

Ice regime and severity of winters on the Aral Sea. Temnikov, S.N., [1979, p.75-81, rus] 34-2415

Project SAR '77 summary report. Worsfold, R.D., ed, [1979, 402p., eng] 34-2430

Western Ross Sea and McMurdo Sound ice forecasting guide. Perchal, R.J., [1975, 132p., eng] 34-2453

Oil spill scenario for the Labrador Sea. LeDrew, B.R., et al, [1979, 675p., eng] 34-2479

Core drilling through the Ross Ice Shelf (Antarctica) confirmed basal freezing. Zotikov, I.A., et al, [1980, p.1463-1465, eng] 34-2485

Eastern-western Arctic sea ice analysis. [1978, 104p., eng] 34-2511

Glaciers and environment. Derbyshire, E., [1979, p.58-106, eng] 34-2560

Parameterization of sub-grid scale processes. [1972, 120p. (Pertinent p.97-101), eng] 34-2564

Sea ice and ice sheets and their role in climatic variations. Untersteiner, N., [1975, p.206-224, eng] 34-2565

Drift ice scratches on the seafloor. Lewis, C.F.M., [1978, p.18-20, eng] 34-2648

Crystal alignments in the fast ice of Arctic Alaska. Weeks, W.F., et al, [1980, p.1137-1146, eng] 34-2671

Environmental assessment of the Alaskan continental shelf. Vol.2. Physical science studies. [1979, 745p., eng] 34-2681

Dynamics of near shore ice. Colony, R., [1979, p.156-180, eng] 34-2682

Engineering at the ends of the earth: polar ocean technology for the 1980's. [1979, 74p., eng] 34-2712

ICEX: Ice and climate experiment; report of Science and Applications Working Group. [1979, c118p., eng] 34-2726

Modeling sea-ice features and processes. Rothrock, D.A., [1979, p.359-375, eng] 34-2838

Mechanical energy considerations in sea-ice dynamics. Coon, M.D., et al, [1979, p.377-389, eng] 34-2839

Ten-day forecasts of mean air temperature anomalies for West and East Siberia, Ural Mountains and North Kazakhstan. Khramtsova, I.G., et al, [1979, p.51-55, rus] 34-2968

Sea Ice-75. Programme. Blomquist, Å., et al, [1976, 30p., eng] 34-2985

Arctic flying. Buck, B.M., et al, [1979, 199p., eng] 34-2987

Long range forecasting of ice conditions in Arctic seas. Kirillov, A.A., et al, [1979, p.5-20, rus] 34-2994

Ice-condition anomaly index for Arctic seas. Kovalev, E.G., [1979, p.21-29, rus] 34-2995

Ice condition variations near the southwestern shores of Greenland in connection with hydrometeorological processes of different scales. Mironov, E.U., [1979, p.47-62, rus] 34-2998

Results of using cyclic oscillation data in long range forecasts of ice conditions in Arctic seas. Kovalev, E.G., [1979, p.63-65, rus] 34-2999

Seasonal and interannual variations of basic ice regime elements of the Southern Ocean. Romanov, A.A., [1979, p.100-108, rus] 34-3003

Calculating sea ice salinity. Smetannikova, A.V., et al, [1979, p.117-120, rus] 34-3005

Ice cover contraction effect on icebreaker jamming. Voevodin, V.A., et al, [1979, p.126-133, rus] 34-3007

Effectiveness of aerial ice surveys in navigation under ice cover contraction conditions. Voevodin, V.A., [1979, p.134-139, rus] 34-3008

Aerial photographic surveys of ice cover for hydraulic engineering. Losev, S.M., et al, [1979, p.140-150, rus] 34-3009

Ice structure and the formation of thawed patches. Komov, N.I., [1979, p.151-157, rus] 34-3010

Varied and unpredictable faces of Arctic ice. [1977, p.8-10, eng] 34-3014

Icebreaker experience as a guide to sea ice forces on structures. Gerwick, B.C., Jr., et al, [1979, p.622-637, eng] 34-3031

Ice gouge characteristics in the Alaskan Chukchi Sea. Toimil, L., [1979, p.863-876, eng] 34-3032

Environmental assessment of the Alaskan continental shelf, Vol.7, Transport. [1979, 560p., eng] 34-3050

Dynamics of near-shore ice. Kovacs, A., et al, [1979, p.181-207, eng] 34-3051

Oil pooling under sea ice. Kovacs, A., [1979, p.310-323, eng] 34-3053

Anisotropic properties of sea ice in the 50-150 MHz range. Kovacs, A., et al, [1979, p.324-353, eng] 34-3054

Environmental assessment of the Alaskan continental shelf, Vol.9, Hazards. [1979, 682p., eng] 34-3055

APOA bibliography. [1980, 74p., eng] 34-3092

Ice chipper for road-cutting on sea ice. Bennett, J.D., [1974, 88p., eng] 34-3093

Sea ice thickness determination using electromagnetic subsurface profiling. Orange, A., et al, [1973, 41p. + figs., eng] 34-3094

Sea ice beam tests of January 1975. Macy, R.L., [1975, 272p., eng] 34-3104

Vertical load bearing capacity tests of natural ice and of artificial-natural ice laminates, Resolute Bay, winter 1974/75. Lichtenberger, G.J., et al, [1976, c320p. + 6 appendices, eng] 34-3105

Moving load experiments on Arctic sea ice, Resolute Bay, winter 1975/76. Lichtenberger, G.J., et al, [1976, c115p., eng] 34-3106

Field studies of the strength and physical properties of a multi-year ice pressure ridge in the southern Beaufort Sea. Gladwell, R.W., [1977, c90p., eng] 34-3107

Report on Soviet glaciological studies in 1975-1978. [1979, p.5-34, rus] 34-3116

Program and guide for compilation of the applied part of the *World atlas of snow and ice resources*. [1979, p.35-63, rus] 34-3117

Characteristics of the antarctic temperature field according to *Kosmos 243* satellite radiometric measurements. Kurskaia, A.A., [1976, p.13-20, eng] 34-3273

Using microwave satellite measurements for mapping sea ice. Loshchilov, V.S., [1977, p.40-45, rus] 34-3306

Operational analysis of the drift and deformation of ice cover from repeated areal radar survey photographs. Borisov, R.A., et al, [1977, p.65-74, rus] 34-3309

Data on medium-scale deformations of ice covers in Arctic seas. Gorbunov, IU.A., et al, [1977, p.75-91, rus] 34-3310

Studying morphometric characteristics of summer ice cover in Arctic seas. Losev, S.M., et al, [1977, p.92-103, rus] 34-3311

Video-pulse radiometer of sea ice thickness as a promising means of ice surveying. Finkel'shteln, M.I., et al, [1977, p.104-113, rus] 34-3312

Using radar equipment for measuring ice cover thickness in ice surveys. Bushuev, A.V., et al, [1977, p.114-121, rus] 34-3313

Airborne laboratory for studying White Sea ice. Kurskaia, A.A., [1977, p.122-126, rus] 34-3314

Studying grounded ice hummocks from aerial photographs. Losev, S.M., et al, [1977, p.127-132, rus] 34-3315

Shifting of ice edges and ice cover boundaries. Gorbunov, IU.A., et al, [1977, p.133-140, rus] 34-3316

Testing a numerical scheme for calculating winter ice distribution in Arctic seas. Appel', I.L., et al, [1977, p.141-150, rus] 34-3317

Using statistical characteristics of radar photographs of ice covers for their recognition. Aleksandrov, V.IU., et al, [1977, p.151-154, rus] 34-3318

Documentation for a two-level dynamic thermodynamic sea ice model. Hibler, W.D., III, [1980, 35p., eng] 34-3329

Antarctic navigation. Woodfield, T., [1979, p.234-242, eng] 34-3336

Time-dependent feedback system involving sea-ice extent, ocean temperature, and CO2. Saltzman, B., et al, [1980, p.93-118, eng] 34-3366

Polar environmental monitoring: final report. [1979, 94p., eng] 34-3390

Exploring the Arctic for oil. Sklarewitz, N., [1980, p.2-5, eng] 34-3410

Acoustic backscattering from uniform Arctic sea ice. Garrison, G.R., et al, [1975, p.34-38, eng] 34-3432

Breaking the ice with COTRA. Pallister, A.F., [1979, p.15-29, eng] 34-3438

Effect of sample length on uniaxial compressive strength of sea ice. Nohguchi, Y., et al, [1979, p.129-133, jap] 34-3498

Studies on interaction between ice floes, 1. Takizawa, T., [1979, p.143-152, jap] 34-3500

Studies on interaction between ice floes. 2. Periodical change in horizontal divergence of an ice field accompanied by intertial periodical motion. Takizawa, T., et al, [1979, p.153-159, jap] 34-3501

Hydrometeorological forecasting. Kupetskiĭ, V.N., [1979, p.13-22, rus] 34-3527

Hydrosynoptic method of compiling sea ice forecasts. Kupetskiĭ, V.N., [1979, p.102-108, rus] 34-3533

Marine naleds in the Chaunskaya Bay. Chagulov, A.K., [1979, p.109-111, rus] 34-3534

Winter regime of fast ice in the Chaunskaya Bay. Konstantinov, IU.B., [1979, p.112-113, rus] 34-3535

Fast ice thickness distribution in the Chaunskaya Bay. Kosharovskiĭ, IU.E., et al, [1979, p.114-115, rus] 34-3536

Errors occurring ir extrapolating the air temperature-wind velocity complex over the open sea area of the shelf. Borisenko, M.M., et al, [1979, p.76-78, rus] 34-3580

International Workshop on the Seasonal Sea Ice Zone, Monterey, California, Feb. 26-Mar.1, 1979. Andersen, B.G., ed, [1980, 357p., eng] 34-3624

Physical oceanography of the seasonal sea ice zone. McPhee, M.G., [1980, p.93-132, eng] 34-3627

Meteorology and climatology of the seasonal sea ice zone. Barry, R.G., [1980, p.133-156, eng] 34-3628

Interrelationships between the seasonal sea ice and biological regimes. Alexander, V., [1980, p.157-184, eng] 34-3629

Arctic hydroacoustics. Diachok, O., [1980, p.185-207, eng] 34-3630

Shore ice pile-up and ride-up: field observations, models, theoretical analyses. Kovacs, A., et al, [1980, p.209-298, eng] 34-3631

Numerical modeling of sea ice in the seasonal sea ice zone. Hibler, W.D., III, [1980, p.299-356, eng] 34-3632

Polar atmosphere-ice-ocean processes: a review of polar problems in climate research. [1980, p.525-543, eng] 34-3633

Dynamics of snow and ice masses. Colbeck, S.C., ed, [1980, 468p., eng] 34-3655

Sea ice growth, drift, and decay. Hibler, W.D., III, [1980, p.141-209, eng] 34-3658

Hardness of ice and a solar ice melter. Robinson, W.H., et al, [1979, p.4-8, eng] 34-3677

Workshop of the Glaciology Section and tutorial seminar, Zvenigorod, June 1979. Barbash, V.R., [1979, p.5-29, rus] 34-3684

Resolutions of the Glaciology Section workshop, June 1979. [1979, p.29-33, rus] 34-3685

Snow density variations over ice covers. Tsurikov, V.L., [1979, p.155-161, rus] 34-3706

Failure of sea ice by repeated compression. Tabata, T., et al, [1980, p.351-362, eng] 34-3752

Analysis of the *In-situ* resistivity of sea ice in terms of its microstructure. Timco, G.W., [1979, p.461-471, eng] 34-3785

Field study of brine drainage and oil entrainment in first-year sea ice. Martin, S., [1979, p.473-502, eng] 34-3786

Field techniques for experimental stress analysis in Arctic sea ice. Cochran, G.V.B., [1980, p.175-182, eng] 34-3809

Calculating design thickness of layered ice. Afanas'ev, V.P., [1979, p.88-92, rus] 34-3882

Ice pressure ridges. Kraus, E., [1980, 59p., eng] 34-3894

Distribution of sea ice meltwater in the eastern Canadian Arctic. Tan, F.C., et al, [1980, p.1925-1932, eng] 34-3895

Results of application of infrared equipment for the investigation of hydrologic objects. Bogorodskiĭ, V.V., et al, [1978, p.77-79, eng] 34-3969

Constitutive laws of ice. Hutter, K., [1979, p.47-63, ger] 34-3973

Glaciological studies by Landsat imagery of perimeter of Dronning Maud Land, Antarctica. Orheim, O., [1978, p.69-80, eng] 34-3987

Assessment of Arctic offshore pipelines. Muraszew, A., et al, [1980, 6 sections, eng] 34-3991

Sea ice *(cont.)*
Analyses of British Antarctic Survey tidal records. Cartwright, D.E., [1980, p.167-179, eng] **34-4115**
Critical survey of the application of borehole logging techniques to the study of sea ice. Laidley, T.E., [1980, 45p., eng] **34-4160**
Forecasts and calculations of hydrometeorological elements of northern seas. Terziev, F.S., ed, [1980, 140p., rus] **34-4176**
Computer analysis of radar ice cover survey data. Zubakin, G.K., et al, [1980, p.30-34, rus] **34-4180**
Calculating geometric characteristics of ice cover. Zubakin, G.K., et al, [1980, p.35-40, rus] **34-4181**
Ice balance of the Danish Strait during anomalous glaciation years. Antropova, L.V., et al, [1980, p.41-46, rus] **34-4182**
Forecasting ice conditions and ice edge position in the Danish Strait for fall-winter periods. Kogan, B.A., et al, [1980, p.47-54, rus] **34-4183**
Forecasting ice edge position in the Labrador Sea for a decade. Orlov, N.F., [1980, p.60-64, rus] **34-4185**
Field experiments on wave-ice interaction in the Bering Sea and Greenland waters, 1979. Wadhams, P., et al, [1980, p.147-153, eng] **34-4186**
On the strength of sea ice and a correlation between the various strength tests. Lane, J.F., [1979, 29p. + 9 figs., eng] **34-4194**
Standing crops and species composition of diatoms in sea ice from Robeson Channel to the Gulf of St. Lawrence. Dunbar, M.J., et al, [1980, p.61-72, eng] **34-4243**
Field study of the physical properties, response to swell, and subsequent fracture of a single ice floe in the winter Bering Sea. Squire, V.A., et al, [1980, 56p., eng] **34-4245**
Deformation properties of sea ice. Bogorodskii, V.V., et al, [1980, p.1092-1097, rus] **34-4251**

Sea ice distribution
Oil spill countermeasures for the southern Beaufort Sea. Logan, W.J., et al, [1975, 126p., eng] **34-151**
Ice island count southern Beaufort Sea 1976. Spedding, L.G., [1977, 50p., eng] **34-305**
Some sea ice cover statistics for the Canadian east coast. Fraser, J.E., [1975, 28p., eng] **34-316**
Davis Strait wave climate study using the 1970 through 1977 meteorological and oceanographic centre synoptic significant wave charts. McKay, W.N., [1978, 260p., eng] **34-318**
Sea ice ridging over the Alaskan continental shelf. Tucker, W.B., et al, [1979, p.4885-4897, eng] **34-411**
Extent and growth pattern of landfast ice in the southern Beaufort Sea—winter 1972-73. Spedding, L.G., [1974, 61p. + appends., eng] **34-415**
Ice movements in the Beaufort Sea 1973-1975: determination by ERTS imagery. Sobczak, L.W., [1977, p.1413-1418, eng] **34-475**
Ice island count, south Beaufort Sea, 1972. Barton, R., et al, [1972, 11p. + charts and photos., eng] **34-484**
Storm surges. Henry, R.F., [1975, 41p., eng] **34-505**
Ice climatology of the Beaufort Sea. Markham, W.E., [1975, 87p., eng] **34-507**
Environmental conditions in Baffin Bay and Davis Strait. [1972, 144p., eng] **34-577**
Effects of the annual migration of the antarctic pack-ice border on cyclonic storm activity over the Southern Ocean. Kachelhoffer, S.J., [1973, 49p., eng] **34-684**
Average spring, summer, fall and winter iceberg density distribution along the Labrador Coast. Gustajtis, K.A., et al, [1977, 4 maps., eng] **34-727**
Glaciological and marine biological studies at perimeter of Dronning Maud Land, Antarctica. Final report. Orheim, O., [1977, 17p., eng] **34-772**
Characteristics of antarctic sea ice as determined by satellite-borne microwave imagers. Zwally, H.J., et al, [1976, p.94-97, eng] **34-815**
Monitoring earth surface characteristics important to weather and climate with earth satellites. McClain, E.P., [1976, p.129-135, eng] **34-819**
Satellite ice surveillance studies in the Arctic in relationship to the general circulation. Haupt, I., et al, [1976, p.179-187, eng] **34-820**
Current climatic changes and their impact on the ice regime of the Arctic seas. Zakharov, V.F., [1978, p.115-119, eng] **34-857**
Problems of offshore oil drilling in the Beaufort Sea. Weller, G., et al, [1978, p.4-11, eng] **34-942**
Detection of ice at sea by radar. Williams, F.L., [1971, p.275-287, eng] **34-960**
Climatic and synoptic study of the Weddell Sea region during the austral fall months. Komro, F.G., [1978, 46p. eng] **34-1090**
Recent trends in the ice cover of the Arctic Ocean. Shpaikher, A.O., [1974, p.311-322, eng] **34-1202**
Ocean 75 record. [1975, 952p., eng] **34-1227**
Arctic environmental buoy system. Brown, W.F., [1977, p.50-55, eng] **34-1228**
Development of a meteorological and oceanographic drifting buoy system. Hall, J.M., et al, [1975, p.56-69, eng] **34-1229**
Remote sensing and analysis of oceanographic parameters from ERTS-1. Needham, B.H., [1975, p.798-802, eng] **34-1234**
Use of satellite infrared imagery in the oceanographic study of the Chukchi Sea. Garrison, B.R., et al, [1975, p.826-834, eng] **34-1235**
Alaska's sea ice. Webster, B.D., [1979, p.29-40, eng] **34-1304**
Some sea ice observations at Herschel Island in mid winter 1973. Irwin, G.J., [1974, 16p., eng] **34-1351**
Summary report. [1978, 23p., eng] **34-1406**
Sea ice statistics. Wheeler, J.D., [1979, 10p. + 11 slides, eng] **34-1590**
Temperature regime of the antarctic fast ice. Nazintsev, IU.L., [1979, p.63-68, rus] **34-1829**
Choice of algorithms for numerical determination of size distribution and compactness of ice floes. Khelsin, D.E., [1979, p.109-117, eng] **34-1892**
Study of fractures in consolidated pack-ice cover from radar survey data. Gorbunov, IU.A., et al, [1979, p.30-35, eng] **34-1900**
Sea ice. Part 2: ice distribution and forecast services, North American Arctic waters. Wittmann, W., et al, [1973, p.343-355, eng] **34-1961**
Sea ice. Part 3: ice distribution and forecast services, Eurasian waters. Wittmann, W., et al, [1974, p.219-229, eng] **34-1962**
World Ocean and Pleistocene glacial epochs. Zakharov, V.F., [1978, 64p., rus] **34-2106**
Annual and long-term variations in ice distribution in the Atlantic sector of Antarctica. Dobromyslov, V.N., et al, [1979, p.113-117, rus] **34-2218**
Arctic Pleistocene history and the development of submarine permafrost. Vigdorchik, M.E., [1980, 286p., eng] **34-2407**
Winter régime of the North Water. Dunbar, M., [1973, p.275-281, eng] **34-2527**
Interannual atmospheric variability and associated fluctuations in Arctic sea ice extent. Walsh, J.E., et al, [1979, p.6915-6928, eng] **34-2713**
Synoptic climatology of the Beaufort Sea Coast of Alaska. Moritz, R.E., [1979, 176p., eng] **34-2716**
Ice conditions in areas adjacent to the North Atlantic Ocean from July to September 1979. [1980, p.42-46, eng] **34-2788**
Mass-balance aspects of Weddell Sea pack-ice. Ackley, S.F., [1979, p.391-405, eng] **34-2840**
Simple model to calculate the compactness of ice floes. Neralla, V.R., et al, [1979, p.407-414, eng] **34-2841**
In polar waters. [1977, 40p., eng] **34-3013**
Drillships press close to moving ice zone for world's most costly wells. [1977, p.16-17, eng] **34-3015**
Oil production among icebergs is target of pioneering study. [1977, p.24-25, eng] **34-3016**
Northern skills may go south to Antarctica within a decade. [1977, p.36-37, eng] **34-3018**
Environmental assessment of the Alaskan continental shelf, Vol.8, Transport. [1979, 588p., eng] **34-3052**
Some iceberg statistics for the Davis Strait. Trofimenkoff, P.N., [1978, 43p., eng] **34-3114**
Seasonal cycle of snow cover, sea ice and surface albedo. Robock, A., [1980, p.267-285, eng] **34-3201**
Meteorological research. Borisenkov, E.P., ed, [1976, 133p., eng] **34-3271**
Antarctic ice characteristics according to *Kosmos-243* satellite radiometric measurements. Matveev, D.T., [1976, p.5-12, eng] **34-3272**
Ice environment of the antarctic region according to *Cosmos-226* satellite data. Leont'eva, A.V., [1976, p.21-28, eng] **34-3274**
Ice conditions in the Antarctic in the summer of 1968-1969. Provorkin, A.V., et al, [1976, p.29-44, eng] **34-3275**
Ice mesovortices in the nearshore regions of East Antarctica. Preobrazhenskaia, T.N., [1976, p.45-54, eng] **34-3276**
Ice spirals off Barrow as seen by satellite. Solomon, H., et al, [1980, p.184-188, eng] **34-3324**
Distribution of pack ice off Okhotsk Sea coast of Hokkaido observed with sea ice radar network, January-May, 1979. Tabata, T., et al, [1979, p.37-70, jap] **34-3456**
Recent fluctuations in meteorological and oceanographic parameters in Alaska waters. Niebauer, H.J., [1980, 34p., eng] **34-3483**
Observation of oceanographic conditions in the Okhotsk Sea coast of Hokkaido in winter, 2. Aota, M., et al, [1979, p.135-142, jap] **34-3499**
On the characteristics of the movement of pack ice and the effects of wind and ocean current on ice movement. Kawamura, T., [1979, p.161-168, jap] **34-3502**
Mapping New Zealand and Antarctic snowpack from LANDSAT. Thomas, I.L., et al, [1980, p.53-72, eng] **34-3514**
Icebreakers and coastal winter navigation in Finland [1980, p.256-259, ger] **34-3616**
Overview [International Workshop on the Seasonal Sea Ice Zone]. Weeks, W.F., [1980, p.1-35, eng] **34-3625**
Recent fluctuations in meteorological and oceanographic parameters in Alaska waters. Biebauer, H.J., [1980, 34p., eng] **34-3766**
Free oscillations in a climate model with ice-sheet dynamics. Källén, E., et al, [1979, p.2292-2303, eng] **34-3767**
Orbital sensing of Mackenzie Bay ice dynamics. Dey, B., [1980, p.280-291, eng] **34-3867**

Sea level
Storm surges. Henry, R.F., [1975, 41p., eng] **34-505**
Problems of the Arctic and the Antarctic, collection of articles, Vol.45, 1974. Treshnikov, A.F., ed, [1979, 171p., eng] **34-1884**
Statistical structure of large-scale sea level oscillations in the high latitudes of the Northern Hemisphere. Bannov-Balkov, IU.L., [1979, p.23-30, eng] **34-1887**
Surge lowering of levels in the Barents and White seas. Potanin, V.A., et al, [1980, p.13-20, rus] **34-4178**

Sea spray
Desalination of brackish water by spray freezing; progress report 1978-79. Spyker, J.W., [1980, 116p., eng] **34-3673**

Sea transportation
See: Marine transportation

Sea water
Oceanographic cruise of the USCGC *Glacier* to the marginal sea-ice zone of the Chukchi Sea: MIZPAC 78 Interim report for period July 1978-May 1979. Paquette, R.G., et al, [1979, 77p., eng] **34-275**
Concentration of petroleum residues in the waters and sediments of Baffin Bay and the eastern Canadian Arctic 1977. Levy, E.M., [1979, 34p., eng] **34-321**
Oceanographic observations in Barrow Strait and Wellington Channel, N.W.T., April 1973. Herlinveaux, R.H., et al, [1978, 170p., eng] **34-367**
Subsurface current measurements in eastern Lancaster Sound, N.W.T., summer 1977. Fissel, D.B., et al, [1978, 72p., eng] **34-370**
Some aspects of weathering and burning crude oil in a water and ice environment. Belicek, J., et al, [1976, 34p., eng] **34-487**
Marine benthic invertebrates of the southern Davis Strait and Ungava Bay. [1978, var.p., eng] **34-499**
Landfast ice movement: Mackenzie Delta 1972. Croasdale, K.R., et al, [1972, 104p., eng] **34-576**
Arctic Ocean heat budget, report from SCOR Working Group 58. Aagaard, K., et al, [1979, 98p., eng] **34-722**
Optical methods of studying oceans and inland water bodies. Galazii, G.I., ed, [1979, 373p., rus] **34-875**
Determining surface temperature gradient at the liquid phase boundary of the sea-atmosphere system. Mel'nikov, G.S., et al, [1979, p.212-219, rus] **34-877**
Apparatus for studying radiation temperature at the ocean surface. Novogrudskii, B.V., et al, [1979, p.241-245, rus] **34-879**
Snow measurements on the antarctic shelf ice. Kozlovskii, A.M., [1979, p.74-77, rus] **34-1830**
Environmental assessment of the Alaskan continental shelf, Vol.5, Receptors—Microbiology; Contaminant baselines [1979, 698p., eng] **34-3048**
Environmental assessment of the Alaskan continental shelf, Vol.6, Effects. [1979, 664p., eng] **34-3049**
Deep sea dispersion analyses. [1977, 23p., eng] **34-3113**
Time-dependent feedback system involving sea-ice extent, ocean temperature, and CO2. Saltzman, B., et al, [1980, p.93-118, eng] **34-3366**
Recent fluctuations in meteorological and oceanographic parameters in Alaska waters. Niebauer, H.J., [1980, 34p., eng] **34-3483**
Glacial to interglacial changes in ocean chemistry. Broecker, W.S., [1980, 27p. + figs. + appends., eng] **34-3653**

Sea water freezing
Water surface temperature in the eastern Arctic seas in 1974 from airborne infrared radiometer readings. Arikainen, A.I., et al, [1979, p.91-99, rus] **34-3002**
Calculating sea ice salinity. Smetannikova, A.V., et al, [1979, p.117-120, rus] **34-3005**
Influence of water, salt and heat transfer on the dates of stable ice formation in the Kara Sea. Stepanov, S.I., [1979, p.121-125, rus] **34-3006**
Oceanographic characteristics in the Caspian Sea near the ice edge. Kosarev, A.N., et al, [1979, p.170-180, rus] **34-3185**

Sea waves
See: Ocean waves

Sealing
Design of weathertight joints. Latta, J.K., [1976, 8p., eng] **34-161**
Joint movement and sealant selection. Hancgaard, G.O., et al, [1976, 4p., eng] **34-164**
Ice seal for rotating shafts. Harbage, A.B., Jr., [1979, 35p., eng] **34-1042**
Structural thermodynamics: A review. Urov, G.N., ed, [1969, 100p., rus] **34-4046**
Experimental study of air and water permeability of external wall panel joints. Roslaia, G.I., [1969, p.3-8, rus] **34-4047**
Field inspection of thermal properties of 1605 AM/9 series houses with multilayer external walls. Bratmna, E.U., [1969, p.9-15, rus] **34-4048**
Thermoinsulative properties of lightweight concrete external wall panel joints in buildings of the series II-57 and II-60. Surkov, V.I., et al, [1969, p.29-35, rus] **34-4050**

Seasonal freeze thaw
Field studies of temperature regime of water pipelines in deep seasonally freezing ground. Pereleshin, R.S., et al, [1974, p.121-126, rus] 34-759
Regularities governing properties of mortars. Ryb'ev, I.A., et al, [1979, p.64-67, rus] 34-805
SNiP 11-18-76. Construction norms and rules; Part 11. Planning norms: Chapter 18. Footings and foundations on permafrost. [1979, 111p., eng] 34-1342
Seasonal freezing effect on hydrogeological conditions of the Chul'man Basin. Buldovich, S.N., [1979, p.60-67, rus] 34-1394
Slope recession in the Onefour Badlands, Alberta, Canada: an initial appraisal of contrasted moisture regimes. Barendregt, R.W., et al, [1979, p.224-229, eng] 34-1451
Engineering geocryology. Mel'nikov, P.I., ed, [1979, 208p., rus] 34-1533
Results of two years of measurements of ablation and soil movement in the Mähder area, Kreuzeck group, Carinthia. Stocker, E., [1974, p.87-97, ger] 34-1673
Calculating temperature distribution in seasonally freezing ground by the finite element method. Rudykh, O.L., et al, [1979, p.130-135, rus] 34-1720
Seasonal freezing of ground in the non-chernozem areas of the RFSFR and its mapping. Tumel', N.V., et al, [1979, p.36-41, rus] 34-1757
Observing rock stream movement rates on the Chul'man Plateau. Ospennikov, E.N., [1979, p.129-133, rus] 34-1920
Role of seasonal ground freezing in ground water regimes of the area east of Lake Baykal. Blokhin, IU.I., [1979, p.96-101, rus] 34-1940
Influence of subzero temperatures on the erosion resistance of soils depending on their humidity. Muromtsev, N.A., [1968, p.22-25, rus] 34-2021
Control of blasting effects on rocks and grounds. Vovk, A.A., ed, [1979, 224p., rus] 34-2307
Seasonal freezing of soil and ground in the southeastern Amur area. Baulo, V.D., et al, [1978, p.100-107, rus] 34-2535
Exogenic geologic processes and phenomena in the Angara River area. Leshchikov, F.N., et al, [1976. p.93-101, rus] 34-2644
Gleying effect on dark gray heavy loam forest soils in West Siberia. Firsova, V.P., et al, [1979, p.143-156, rus] 34-2743
Seasonal freezing of bottom sediments in Lake Syrdakh. Tishin, M.I., [1979, p.91-97, rus] 34-2780
Geocryologic and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, [1978, 187p., rus] 34-2915
Thickness of the seasonally freezing surface layer in Yakutia. Solov'ev, P.A., [1978, p.3-12, rus] 34-2916
Cryogenic formations in the Baian-Obo area. Ragcha, T., et al, [1978, p.8-11, rus] 34-2940
Thermal and settlement stresses in concretes. Pechenyĭ, B.G., [1980, p.73-77, rus] 34-3165
Thermal interaction of pipelines with the ground. Garagulia, L.S., et al, [1980, p.103-116, eng] 34-3240
High-explosive cratering in frozen and unfrozen soils in Alaska. Smith, N., [1980, 21p., eng] 34-3326
Cryopedometer (design and application). Tishin, M.I., [1979, p.31-33, rus] 34-3469
Water permeability of frozen non-cohesive soils and analyses of its variation during the snowmelt and thawing periods. Shtykov, V.I., [1979, p.91-98, rus] 34-3885
Summer temperatures of cryosolic soils in the north-central Keewatin, N.W.T. Tarnocai, C., [1980, p.311-327, eng] 34-4070
Evaluating snow cover effect on the temperature field of seasonally frozen rocks. Melamed, V.G., et al, [1980, p.7-25, rus] 34-4117
Rapid way of finding temperature shift in homogeneous seasonally and perennially frozen strata. Il'iasov, V.G., et al, [1980, p.26-34, rus] 34-4118
Mechanical properties of rocks in the active layer of the "Medvezh'e" area. Vrachev, V.V., et al, [1980, p.201-204, rus] 34-4136
Experimental modeling of ecological consequences of winter recreation. Balderin, V.V., [1980, p.[illegible] 34-4143

Seasonal thaw layer
See: Active layer

Seasonal variations
Oceanographic survey of Porters Lake, N.S. Elliott, J.A., [1978, 24p., eng] 34-320
Effects of seasonability and variability of streamflow on nearshore coastal areas. Carlson, R.F., et al, [1977, c.200p., eng] 34-623
Global seasonal variation of water vapor on Mars and the implications for permafrost. Farmer, C.B., et al, [1979, p.2881-2888, eng] 34-654
Snow accumulation and roughness changes through the winter at a forest-tundra site near Schefferville, Quebec. Granberg, H.B., [1979, p.83-92, eng] 34-1009
Winter and spring oceanographic conditions in and under the ice of the Bering Sea. Lohrman, W.R., et al, [1979, 66p., eng] 34-1047
Variations in summer temperature patterns near Barrow, Alaska: analysis and ecological interpretation. Myers, J.P., et al, [1979, p.131-144, eng] 34-1277
Recent-year-to-year variations in seasonal temperatures and sea ice conditions in the eastern Canadian Arctic. Jacobs, J.D., et al, [1979, p.345-354, eng] 34-1617
Changes in water content in and under frozen soil in Iowa, U.S.A. Willatt, S.T., [1979, p.323-331, eng] 34-1726
Numerical investigation of the Bering Sea circulation using a linear homogeneous model. Han, Y.-J., et al, [1979, 37p., eng] 34-1729
Effect of physicomechanical properties and uneven thickness of ice on the motion of ships in the autumn-winter season. Smirnov, V.I., [1979, p.106-112, eng] 34-1903
Effects of seasonal changes and ground ice on electromagnetic surveys of permafrost. Arcone, S.A., et al, [1979, 33p., eng] 34-2363
Winter régime of the North Water. Dunbar, M., [1973, p.275-281, eng] 34-2527
Study of climatic effects on fast ice extent and its seasonal decay along the Beaufort-Chukchi coasts. Barry, R.G., [1979, p.272-375, eng] 34-2683
Distribution of pack ice off Okhotsk Sea coast of Hokkaido observed with sea ice radar network, January-May, 1979. Tabata, T., et al, [1979, p.37-70, jap] 34-3456
Overview [International Workshop on the Seasonal Sea Ice Zone]. Weeks, W.F., [1980, p.1-35, eng] 34-3625
Physical oceanography of the seasonal sea ice zone. McPhee, M.G., [1980, p.93-132, eng] 34-3627
Meteorology and climatology of the seasonal sea ice zone. Barry, R.G., [1980, p.133-156, eng] 34-3628
Numerical modeling of sea ice in the seasonal sea ice zone. Hibler, W.D., III, [1980, p.299-356, eng] 34-3632
Ice balance of the Danish Strait during anomalous glaciation years. Antropova, L.V., et al, [1980, p.41-46, rus] 34-4182

Sediment transport
Calculating sediments washed out by streams on slopes during spring melt. Zubkova, K.M., [1979, p.26-35, rus] 34-1106
Sediment transport studies at selected Norwegian glaciers 1978. Ekman, S.R., et al, [1979, 39p., nor] 34-1335
Contemporary sedimentary environments on Baffin Island, N.W.T., Canada: debris slope accumulations. Church, M., et al, [1979, p.371-402, eng] 34-1383
Sediment transport in the Tanana River in the vicinity of Fairbanks, Alaska, 1977-78. Burrows, R.L., et al, [1979, 37p., eng] 34-1556
Effects of storm surges on the Beaufort Sea coast, northern Alaska. Reimnitz, E., et al, [1979, p.329-344, eng] 34-1616
Sediment transport by intertidal ice. Rosen, P.S., [1979, p.133-147, eng] 34-2037
Influence of loose deposits on radioactive anomalies in mountain taiga. Zima, A.F., et al, [1979, p.103-110, rus] 34-2130
Subglacial constructions and investigations at Bondhusbreen, Norway. Wold, B., et al, [1979, p.363-379, eng] 34-2245
Coastal sedimentary processes and sediments, southern Canadian Beaufort Sea. Lewis, C.P., et al, [1975, 68p., eng] 34-2398
Environmental geology and geomorphology of the barrier island-lagoon system along the Beaufort Sea coastal plain from Prudhoe Bay to the Colville River. Cannon, P.J., et al, [1979, p.335-345, eng] 34-2433
Sediment transport and bed forms under ice cover. Song, G.B., [1978, 79p., eng] 34-2476
Comparison of the pebble orientation in ice and deposits of the Matanuska Glacier, Alaska. Lawson, D.E., [1979, p.629-645, eng] 34-2502
Sediment transport in Norton Sound, Alaska. Cacchione, D.A., et al, [1979, 88p., eng] 34-2720
Polar lithogenesis. Danilov, I.D., [1978, 238p., rus] 34-2902
Environmental assessment of the Alaskan continental shelf, Vol.10, Hazards, Data management. [1979, 517p., eng] 34-3058
Late Quaternary history and the formation of sediments in the marginal and inland seas. Gershanovich, D.E., ed, [1979, 212p., rus] 34-3064
Structure of the Pliocene-Quaternary deposits of the Barents Sea bottom along the Rybachiy Island-Franz Joseph Land cross section. Blazhchishin, A.I., et al, [1979, p.13-19, rus] 34-3065
Baggin Island sandurs: a study of Arctic fluvial processes. Church, M., [1972, 208p. + maps, eng] 34-3577
Cross-section, velocity, and bedload data at two erosion sites on the Tanana River near Fairbanks, Alaska, 1979. Burrows, R.L., [1980, 32p., eng] 34-3669

Sedimentation
Facies of supraglacial sedimentation on Icelandic and alpine temperate glaciers. Eyles, N., [1979, p.1341-1361, eng] 34-1452
On the origin of stratified debris in ice cores from the bottom of the Antarctic ice sheet. Gow, A.J., et al, [1979, p.185-192, eng] 34-2231
Polar lithogenesis. Danilov, I.D., [1978, 238p., rus] 34-2902
Cryogenic sediments of the Muostakh Island. Ivanov, M.S., et al, [1978, p.12-25, rus] 34-2917
Authigenic minerals in syngenetically freezing deposits of Central Yakutia. Zigert, Kh.G., [1978, p.50-57, rus] 34-2921
Late Quaternary history and the formation of sediments in the marginal and inland seas. Gershanovich, D.E., ed, [1979, 212p., rus] 34-3064
Structure of the Pliocene-Quaternary deposits of the Barents Sea bottom along the Rybachiy Island-Franz Joseph Land cross section. Blazhchishin, A.I., et al, [1979, p.13-19, rus] 34-3065
Postglacial and Holocene paleogeography of the Barents Sea. Kotenev, B.N., [1979, p.20-28, rus] 34-3066
Evolution of late and postglacial sediment accumulation in offshore areas of the Barents and White seas. Evzerov, V.IA., [1979, p.29-33, rus] 34-3067
Natural waters, lithogenesis and relief. Zorin, L.V., [1979, 167p., rus] 34-3267
Mineral precipitation in North Slope river icings. Hall, D.K., [1980, p.343-348, eng] 34-3870

Sediments
Sediment characteristics of some small temperate glaciers. Mills, H.H., [1975, 156p., eng] 34-203
Concentration of petroleum residues in the waters and sediments of Baffin Bay and the eastern Canadian Arctic – 1977. Levy, E.M., [1979, 34p., eng] 34-321
Coastal environment of southern Baffin Island and northern Labrador-Ungava. Barry, R.G., et al, [1977, 166p., eng] 34-490
Marine benthic invertebrates of the southern Davis Strait and Ungava Bay. [1978, var.p., eng] 34-499
Moss *Aongstroemia longipes*, an environmentally sensitive colonizer of sediments at Austerdalsisen, Norway. Theakstone, W.H., et al, [1979, p.353-356, eng] 34-1288
Isotopic analysis of subglacial concretions of the Laurentide ice sheet and oxygen-18 content of the ice. Hillaire-Marcel, C., et al, [1979, p.1494-1498, fre] 34-1455
Environmental assessment of the Alaskan continental shelf. Vol.2. Physical science studies. [1979, 745p., eng] 34-2681
Ground ice and cryogenic structures of loose deposits in the Muysk Basin. An, V.V., [1979, p.118-129, rus] 34-2783
Origin of stratified Catfish Creek till by basal melting. Gibbard, P., [1980, p.71-85, eng] 34-3021
Preliminary survey of the benthos of Resurrection Bay and Aialik Bay, Alaska. Feder, H.M., et al, [1979, 53p., eng] 34-3724
Subglacial travertine and associated deposits in the Carstensz area, Irian Jaya, Republic of Indonesia. Peterson, J.A., et al, [1979, p.23-29, eng] 34-3971
Glacial stratigraphy of Koillismaa and North Kainuu, Finland. Aario, R., et al, [1979, p.149, eng] 34-4158
Glacial and glacial marine sediments of the antarctic continental shelves. Anderson, J.B., et al, [1980, p.399-414, eng] 34-4189

Trials of the deicing equipment installed on YTB-771 (Keokuk). Kenney, W.P., [1976, 8p. + 10 figs., eng] 34-2424

Ice accretion studies under simulated shipboard icing conditions. Rubin, E.H., [1969, 55p., eng] 34-2604

Ship icing. Aksiutin, L.R., [1979, 127p., rus] 34-3667

Ships

Feasibility study: exploratory drilling systems, Beaufort Sea. [1971, c430p., eng] 34-570

Beaufort Sea exploratory drilling system: review and recommendations. [1971, var. p., eng] 34-573

Study of Beaufort Sea exploratory drilling systems. [1971, var. p., eng] 34-574

Oceanographic research ship capabilities in ice. Voelker, R.P., et al, [1975, p.663-667, eng] 34-1233

Icebreaker capability reference document. Perrini, F., [1977, c130 leaves, eng] 34-1337

Line icebreaker Kapitan Chechkin. Shamin, IU., [1979, 11p., eng] 34-1341

Developments in Soviet icebreaker construction. Peschanskii, A., [1979, 17p., eng] 34-1345

Towing ships through ice-clogged channels by warping and kedging. Mellor, M., [1979, 21p., eng] 34-1380

Icegoing drill ships. [1979, p.1460-1461, eng] 34-1600

Ice-breaking drillship for Arctic exploration. [1973, p.30-36, eng] 34-1728

Research plan for Arctic ship powering and development. Voelker, R.P., [1977, 49p., eng] 34-1800

Arctic transportation systems. Nitzki, L., [1977, p.1-6, ger] 34-1933

Docks can be used in winter. Shirokikh, V., [1979, p.34, rus] 34-2122

Arctic marine technology: a review of ship resistance in ice. Peirce, T.H., [1979, p.219-235, eng] 34-2360

SA ice ship tribute to designers, builders. [1978, p.10-17, eng] 34-2561

Winter operation of water navigation objects. Ivanov, L.V., [1978, 211p., rus] 34-2686

SEDCO ICSDV. Phase 1. Preliminary design study. [1975, var.p., eng] 34-3101

Selecting economically feasible velocity of transport ships designed for ice navigation. Tsoi, L.G., et al, [1979, p.74-78, rus] 34-3187

Requirements for controllable propellers of ice navigation ships. Ivanov, S.N., [1979, p.122-132, rus] 34-3472

USCGC Glacier cruise report. Deep Freeze 80. [1980, 106p., eng] 34-3509

Buoy-station equipment for small ships operating under drift conditions. Volnov, G.N., et al, [1979, p.132-134, rus] 34-3590

USCGC *Polar Sea* cruise report: Deep Freeze 80. [1980, 96p., eng] 34-3665

A.R.A. Almirante Irizar. [1979, p.76, eng] 34-4019

See also: Barges; Icebreakers; Oceanographic ships; Submarines; Tanker ships

Shock waves

Guide to the effects of underwater shock waves on Arctic marine mammals and fish. Hill, S.H., [1978, 50p., eng] 34-369

Effect of specimen temperature on the breaking point for splitting off in AMG-6 aluminum alloy. Bat'kov, IU.V., et al, [1979, p.265-268, eng] 34-2379

Analysis of plastic shock waves in snow. Brown, R.L., [1979, 14p., eng] 34-2528

Pressure waves in snow. Brown, R.L., [1980, p.99-107, eng] 34-3802

Shore erosion

Shore protection structures in the Novosibirsk reservoir. Raspopin, G.A., et al, [1979, p.96-99, rus] 34-128

Bathymetric and shoreline changes in northwestern Prudhoe Bay, Alaska. Barnes, P., et al, [1977, p.7-13, eng] 34-691

Ice-foot processes. Observations of erosion on a rocky coast, Disko, West Greenland. Nielsen, N., [1979, p.321-331, eng] 34-966

Tidal flat erosion by ice at La Pocatière, St. Lawrence estuary. Dionne, J.-C., [1969, p.1174-1181, eng] 34-2044

Coastal sedimentary processes and sediments, southern Canadian Beaufort Sea. Lewis, C.P., et al, [1975, 68p., eng] 34-2398

Environmental geology and geomorphology of the barrier island-lagoon system along the Beaufort Sea coastal plain from Prudhoe Bay to the Colville River. Cannon, P.J., et al, [1979, p.335-345, eng] 34-2433

Ice action in the lacustrine environment: a review with particular reference to subarctic Quebec, Canada. Dionne, J.-C., [1979, p.185-212, eng] 34-2503

Bank erosion in the southern Mackenzie River Delta, Northwest Territories, Canada. Outhet, D.N., [1974, 89p., eng] 34-2679

Influence of the frozen state of rocks on river shore erosion in permafrost areas. Are, F.E., [1979, p.107-117, rus] 34-2782

Thermal abrasion of seashores. Are, F.E., [1980, 159p., rus] 34-3071

Study of shorelines in the building and operation of Siberian reservoirs. Vendrov, S.L., et al, [1980, 10p., eng] 34-3391

Geoengineering and hydrogeologic studies of the zone of influence of the Angara reservoirs and means of effective incorporation of these results in the national economy. Odintsov, M.M., et al, [1980, 10p., eng] 34-3393

Studying the effect of water reservoirs on slope processes on their shores. Kachugin, E.G., [1980, 3p., eng] 34-3401

Loess-ice formation of East Siberia in Late Pleistocene and Holocene. Tomirdiaro, S.V., [1980, 184p., rus] 34-3478

Cross-section, velocity, and bedload data at two erosion sites on the Tanana River near Fairbanks, Alaska, 1979. Burrows, R.L., [1980, 32p., eng] 34-3669

Bechevnik: a river bank feature from Siberia. Hamelin, L.E., [1979, p.70-72, eng] 34-3765

Engineering and geological peculiarities of the Vilyuy River valley at the inflow of the Malaya Botuobiya tributary. Beliakov, L.P., et al, [1980, p.71-80, rus] 34-4041

Forms created by the thermal movement of lake ice in Finland in winter 1972-73. Alestalo, J., et al, [1979, p.51-92., eng] 34-4159

Surge lowering of levels in the Barents and White seas. Potanin, V.A., et al, [1980, p.13-20, rus] 34-4178

Shore ice

See: Fast ice

Shoreline modification

Evolution of the soil landscape in the sand region of the Arctic coastal plain as exemplified at Atkasook, Alaska. Everett, K.R., [1979, p.207-223, eng] 34-687

Bathymetric and shoreline changes in northwestern Prudhoe Bay, Alaska. Barnes, P., et al, [1977, p.7-13, eng] 34-691

Arctic beach environment, south-west Devon Island, N.W.T. Owens, E.H., [1969, 152p., eng] 34-938

Arctic ice. Zubov, N.N., [1979, 500p., eng] 34-1115

Effects of storm surges on the Beaufort Sea coast, northern Alaska. Reimnitz, E., et al, [1979, p.329-344, eng] 34-1616

Submarine permafrost on the Alaskan continental shelf. Vigdorchik, M.E., [1980, 118p., eng] 34-2406

Arctic Pleistocene history and the development of submarine permafrost. Vigdorchik, M.E., [1980, 286p., eng] 34-2407

Bank erosion in the southern Mackenzie River Delta, Northwest Territories, Canada. Outhet, D.N., [1974, 89p., eng] 34-2679

Environmental assessment of the Alaskan continental shelf. Vol.2. Physical science studies. [1979, 745p., eng] 34-2681

Environmental assessment of the Alaskan continental shelf, Vol.9, Hazards. [1979, 682p., eng] 34-3055

Coastal environment, bathymetry, and physical oceanography along the Beaufort, Chukchi and Bering Seas. Gatto, L.W., [1980, 357p., eng] 34-3328

Study of shorelines in the building and operation of Siberian reservoirs. Vendrov, S.L., et al, [1980, 10p., eng] 34-3391

Dynamics of the Baykal shore processes on the Tyya-Nizhneangarsk section. Bodenko, V.M., et al, [1980, 6p., eng] 34-3400

Forms created by the thermal movement of lake ice in Finland in winter 1972-73. Alestalo, J., et al, [1979, p.51-92., eng] 34-4159

Shores

Environmental assessment of the Alaskan continental shelf. Vol.1. Physical science studies. [1979, 581p., eng] 34-14

Regionalization of Poland's coast in terms of ice ridges piled on beaches. Zakrzewski, W., [1978, p.3-16, pol] 34-2291

Stabilization of artificially thawed soils on lake and river shores, by cement solutions in freezing weather. Temko, IU.P., et al, [1979, p.89-91, rus] 34-2621

Synoptic climatology of the Beaufort Sea Coast of Alaska. Moritz, R.E., [1979, 176p., eng] 34-2716

Geocryological conditions of the Anadyr liman shores. Liubomirov, A.S., [1979, p.47-56, rus] 34-2774

Formation of ice layers in coastal recesses of Arctic shores. Fartyshev, A.I., [1979, p.129-136, rus] 34-2784

Temperature regime of Baykal Lake shore deposits near Kurla Cape. Liubomirov, A.S., [1978, p.58-65, rus] 34-2946

Fog at Cape Schmidt. Makarov, A.K., et al, [1979, p.61-68, rus] 34-3530

Ice loads at the Arctic shores of Chukotka. Popova, O.P., [1979, p.69-72, rus] 34-3531

Shore ice pile-up and ride-up: field observations, models, theoretical analyses. Kovacs, A., et al, [1980, p.209-298, eng] 34-3631

Aspects of radar signal interpretation in Arctic seashore areas. Kotiukh, A.A., [1979, p.66-74, rus] 34-3875

Forecasts and calculations of hydrometeorological elements of northern seas. Terziev, F.S., ed, [1980, 140p., rus] 34-4176

See also: Banks (waterways); Beaches; Coastal topographic features

Side looking radar

VHF downline communication system for SLAR data. Schertler, R.J., et al, [1979, 10p., eng] 34-1575

Fall ice drift in Nares Strait, as observed by sideways-looking airborne radar. Dunbar, M., [1979, p.283-307, eng] 34-1615

Operation Icemap 2; side looking radar trials, spring 1972 Hengeveld, H.G., [1973, 14p. + appends. eng] 34-2956

Telemeasurement of ice cover parameters. [1977, 154p., rus] 34-3301

Analytic coordination of areal and route radar surveys Bushuev, A.V., [1977, p.46-57, rus] 34-3307

Accuracy of geographic correlation of *Toros* side looking radar photographs. Borisov, R.A., et al, [1977, p.58-64, rus] 34-3308

Studying morphometric characteristics of summer ice cover in Arctic seas. Losev, S.M., et al, [1977, p.92-103, rus] 34-3311

Using statistical characteristics of radar photographs of ice covers for their recognition. Aleksandrov, V.IU., et al, [1977, p.151-154, rus] 34-3318

Investigation of ice drift in the southeastern part of the Barents Sea with the aid of a "Toros" peripheral scanning radar station. Zubakin, G.K., et al, [1980, 7p., eng] 34-3898

Silication

Stabilization of saturated loess soils by gas silication. Isaev, B.N., et al, [1979, p.65-69, eng] 34-1146

Silos

Influence of thermal stresses on brittle failure of deep metal silos. Shafral, S.D., [1979, p.34-38, rus] 34-126

Silting

Calculating water inflow into incomplete dug-out wells allowing for riverbed silting. IAkunin, IU.V., [1974, p.52-81, rus] 34-754

Silver iodide

Laboratory examination of the ice-nucleating ability of AgI-aerosol using a low pressure filter processor. Young, K.C., [1978, 20p., eng] 34-1802

Silver iodide *(cont.)*
Studies of silver iodide ice-forming activity: verification of theory. Gorbunov, B.Z., et al, [1980, p.71-77, eng] **34-2501**
Evaluating the contact nucleation mechanism after introduction of crystal-forming agents into supercooled clouds. Klingo, V.V., et al, [1979, p.39-46, rus] **34-3569**
Nucleation of ice by sorption on monodisperse silver iodide particles in the 20-1200A diameter size range. Rosinski, J., et al, [1980, p.1464-1468, eng] **34-3621**

Simulation
Use of model ice to simulate ice action on offshore structures. Michel, B., [1972, 81p., eng] **34-478**
Analysis of airport snow removal and ice control. Tighe, D.J., et al, [1971, 220p., eng] **34-2508**
Sea ice growth, drift, and decay. Hibler, W.D., III, [1980, p.141-209, eng] **34-3658**
See also: Computerized simulation; Environment simulation

Sintering
See: Ice sintering

Site accessibility
Power supply on construction sites of hydroelectric power plants. Velts, I.E., [1979, p.41-44, rus] **34-1849**

Site surveys
Engineering problems of geocryological surveying of BAM construction sites. Vialov, S.S., [1979, p.149-156, rus] **34-1548**
Engineering and geological justifications of construction in the BAM area. Leskovich, A.I., [1979, p.157-164, rus] **34-1549**
Terrain evaluation of a portion of the Fort Greely automotive test course. Shamburger, J.H., [1966, 33p. + 29 photos and plates, eng] **34-1562**
Geomorphology and construction. Spiridonov, A.I., ed, [1979, 190p., rus] **34-2746**
Exogenic processes in the Baykal Amur railroad construction area. Denisenko, I.S., et al, [1979, p.175-183, rus] **34-2759**
Geocryological conditions of a Baykal Amur railroad construction site in the Olongoro River Basin. Sharapov, N.V., [1978, p.79-93, rus] **34-2924**
Geothermal parameters of the Seligdar apatite deposits. Deviatkin, V.N., et al, [1978, p.94-96, rus] **34-2925**
Engineering preparation of sites for construction on permafrost. Ivanov, V.S., [1980, p.40-42, rus] **34-4038**
Formation of accumulative relief of the Ogoronskaya Basin (eastern part of the Baykal Amur railroad) under permafrost conditions. Kopylov, I.F., et al, [1979, p.9-14, rus] **34-4102**
Direct-current electrical prospecting methods used in solving geocryologic-hydrogeologic problems in the Baykal Amur railroad area. Bolkov, S.A., et al, [1980, p.145-153, rus] **34-4131**

Skid resistance
Effect of chloride concentration on automobile stopping distance. Hu, A.C.H., [1979, p.270-274, eng] **34-91**
Measures against skidding on icy and snow roads. Problem analysis, state-of-the-art review and need for R&D. Carlsson, G., [1979, 52p., swe] **34-783**
Resistance of porous asphalt and antihydroplaning surfaces to environmental effects and simulated aircraft wheel loadings. Hargett, E., [1974, 56p., eng] **34-2632**

Slab avalanches
See: Snow slides

Slag concrete
Slag concrete for building walls exposed to corrosive media. Bulgakova, M.G., et al, [1977, p.27-33, rus] **34-348**

Sleds
Finnish motorized sled. [1979, 2p., eng] **34-1347**
Slab of silicate reinforced concrete. Griazin, A.D., et al, [1979, p.9, rus] **34-1942**
Arctic flying. Buck, B.M., et al, [1979, 199p., eng] **34-2987**

Sliding
Forecasting sliding of frozen rock tailings on rocky slopes. Bondarenko, G.I., [1979, p.122-128, rus] **34-1546**
Forecasting collapse of frozen rock slopes. Vialov, S.S., et al, [1976, p.143-151, rus] **34-3206**
Strength of clay soils in time. Maslov, N.N., et al, [1976, p.247-255, rus] **34-3213**
See also: Basal sliding

Slope orientation
Pinus sibirica as an indicator of environmental conditions in the Khamar-Daban Mountains and Tunkinskiye Gol'tsy. Tarakanov, A.G., [1979, p.80-83, rus] **34-105**
Roof response to icing conditions. Lane, J.W., et al, [1979, 40p., eng] **34-625**
Relation between orography and recent glaciation of Zailiyskiy Alatau. Vilesov, E.N., [1977, p.60-76, rus] **34-1094**
Distribution of stresses and velocities in an ice slope with spatially dependent material response. Hutter, K., et al, [1979, p.99-122, eng] **34-1322**
Thermal regime of glacial zone on the northern slope of Zailiyskiy Alatau during cold period. Denisova, T.IA., [1979, p.3-17, rus] **34-1971**
Recent glaciation of the Kungey Alatau Range. Vilesov, E.N., [1979, p.132-142, rus] **34-1982**
Dangerous phenomena on northern slopes of Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskii, I.V., et al, [1979, p.146-161, rus] **34-1984**
Using distribution functions in calculating seasonal snow melting on slopes around the Dzhankuat glacier. Pylev, I.V., et al, [1979, p.169-173, rus] **34-2199**
Application of factor analysis to the study of patterned ground in polar environments. Brossard, T., [1979, p.61-71, fre] **34-2316**
Detection of frost shattering in high mountains by means of photography in the blue and near ultraviolet spectra. Galibert, G., [1979, p.81-92, fre] **34-2318**
On the effect of topographic orientation on the variations of glacier length. Kasser, P., [1979, p.93-96, eng] **34-2723**
Influence of slope orientation and dissected topography on the statistical structure of snow depth. Chirkova, A.A., [1978, p.64-77, rus] **34-3350**
Avalanche regime of the El'brus Mountain area. Urumbaev, N.A., [1980, p.13-20, rus] **34-3413**
Data units for telemetering physical and mechanical properties of snow cover on slopes. Bagov, M.M., et al, [1980, p.67-74, rus] **34-3420**
Selective felling effect on water-controlling properties of Khamar-Daban pine forests. Biziukin, V.V., [1979, p.69-78, rus] **34-3772**
Evaluation of jet-roof geometry for snow-cornice control. Dawson, K.L., et al, [1979, p.503-511, eng] **34-3787**
Seasonal dynamics of green biomass of the grass-shrub zone of typical plant communities on the northern slope of the Khamar-Daban Range. Vasil'chenko, Z.A., [1979, p.46-51, rus] **34-4092**

Slope processes
Drainage network analysis of a subarctic watershed: Caribou-Poker Creeks research watershed, interior Alaska. Bredthauer, S.R., et al, [1979, 9p., eng] **34-137**
Avalanche and mudflow danger in areas of future economic development of the western Caucasus. Zalikhanov, M.Ch., et al, [1979, p.56-69, rus] **34-610**
Natural hazards maps for land-use planning, San Juan Mountains, Colorado, U.S.A. Ives, J.D., et al, [1978, p.185-212, eng] **34-791**
Calculating sediments washed out by streams on slopes during spring melt. Zubkova, K.M., [1979, p.26-35, rus] **34-1106**
Contemporary sedimentary environments on Baffin Island, N.W.T., Canada: debris slope accumulations. Church, M., et al, [1979, p.371-402, eng] **34-1383**
Facial characteristics of rock streams in southern Yakutia and northern Transbaikal. Romanovskii, N.N., et al, [1979, p.59-73, rus] **34-1395**
Slope recession in the Onefour Badlands, Alberta, Canada: an initial appraisal of contrasted moisture regimes. Barendregt, R.W., et al, [1979, p.224-229, eng] **34-1451**
Computer analysis of earth slope stability by the finite-element method (the RUMKE program). Gorelik, I.IA., et al, [1979, p.42-46, rus] **34-1523**
Forecasting sliding of frozen rock tailings on rocky slopes. Bondarenko, G.I., [1979, p.122-128, rus] **34-1546**
Protection from glacial mudflows. Voitkovskii, K.F., et al, [1979, p.191-198, rus] **34-1553**
Problems and results of avalanche and mudflow studies by Moscow University geographers. Miagkov, S.M., et al, [1979, p.52-57, rus] **34-1639**
Tunnel construction on landslide-prone slopes. Aminov, E.Kh., [1979, p.12-14, rus] **34-1715**
Observing rock stream movement rates on the Chul'man Plateau. Ospennikov, F.N., [1979, p.129-133, rus] **34-1920**
Regime of glaciers and snow avalanches in Kazakhstan. Tokmagambetov, G.A., ed, [1979, 175p., rus] **34-1970**
Distribution of atmospheric precipitation on northern slopes of the Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskii, I.V., [1979, p.37-46, rus] **34-1974**
Dangerous phenomena on northern slopes of Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskii, I.V., et al, [1979, p.146-161, rus] **34-1984**
Distribution of avalanche formation in the eastern part of the northern slope of the Terskey Alatau Range (Karkara, Tekes, Ul'ken-Kokpak, Bayankol river basins). Blagoveshchenskii, V.P., [1979, p.161-169, rus] **34-1985**
Comparative analysis of past and present glacial and permafrost relief forms in Asia. Kazakova, N.M., [1976, p.10-45, rus] **34-2010**
Mudflow sources in the Ukrainian Carpathians. Alzenberg, M.M., et al, [1978, p.64-70, rus] **34-2050**
Allowing for mudflows and snow avalanches when designing and building the Orenburg-west USSR boundary gas pipeline. Alzenberg, M.M., et al, [1978, p.75-85, rus] **34-2051**
Afforestation of stony slopes of the Gissar Range. Khvorov, N.A., et al, [1979, p.55-57, rus] **34-2111**
Influence of loose deposits on radioactive anomalies in mountain taiga. Zima, A.F., et al, [1979, p.103-110, rus] **34-2130**
Geomorphological processes developing on artificial structures in the nivation-glaciation zone of the Khibiny Mountains. Semekhin, IU.V., et al, [1979, p.192-195, rus] **34-2204**
Glacial mudflows, not related to glacier-dammed lakes, in the Gerkhozhan-Su Basin, North Caucasus. Fleishman, S.M., et al, [1979, p.195-198, rus] **34-2205**
Hydrometeorological conditions of the formation of snow-loaded streams. Freidlin, V.S., [1979, p.198-200, rus] **34-2206**
Activities of snow-carrying streams. Sapunova, G.G., et al, [1979, p.201-202, rus] **34-2207**
Recent relief-forming processes in Siberia. Ivanovskii, L.N., ed, [1978, 139p., rus] **34-2293**
Slope denudation in the bald peak zone of western Sayan Rashba, I.N., [1978, p.69-87, rus] **34-2296**
Rock streams and bald peak zones of the Lake Baykal area and northern Transbaikal. Vyrkin, V.B., [1978, p.88-108, rus] **34-2297**
Regularities governing natural phenomena and their forecasting. Agarkov, S.I., ed, [1980, 271p. (Pertinent p.87-162), rus] **34-2529**
Geologic and geophysical investigations. Pinneker, E.V., ed, [1976, 110p., rus] **34-2642**
Exogenic geologic processes and phenomena in the Angara River area. Leshchikov, F.N., et al, [1976, p.93-101, rus] **34-2644**
Exogenic relief forming process in the cryolithozone. Sukhodrovskii, V.L., [1979, 280p., rus] **34-2684**
Geomorphology and construction. Spiridonov, A.I., ed, [1979, 190p., rus] **34-2746**
Studies and forecasts of mudflows in construction. Dumitrashko, N.V., [1979, p.67-72, rus] **34-2748**
Mechanics of rockstream movement (from experimental and research station data). Shevchenko, B.F., et al, [1979, p.72-79, rus] **34-2749**
Spaceborne methods of studying exogenic relief-forming processes for construction. Revzon, A.I., et al, [1979, p.103-108, rus] **34-2750**
Engineering-geomorphological peculiarities of studying the Baykal Amur railroad area. Voskresenskii, S.S., et al, [1979, p.109-120, rus] **34-2751**
Glacial mudflows in the Baykal Amur railroad area. Perov, V.F., et al, [1979, p.148-159, rus] **34-2755**
Exogenic processes in the Baykal Amur railroad construction area. Denisenko [illegible] [illegible] p.175-183, rus] **34-2759**
Geocryological condition[illegible] [illegible]orges. Liubomirov, A.S., [illegible] **34-2774**
Mudflows in the Baykal A[illegible] [illegible]alat'ev, F.G., [1979, p.115-117, rus] **34-2858**
Polar lithogenesis. Danilo[illegible] [illegible] rus] **34-2902**
Radioactive isotope technique of study[illegible] [illegible]ty and moisture content of landslide slope[illegible] [illegible]ormicko, N.D., et al, [1979, p.112-116, rus] **34-2951**
Addenda to the program and instructions for compiling mudflow maps in the regional part of the *World atlas for snow and ice resources*. Perov, V.F., [1979, p.63-66, rus] **34-3118**
Forecasting collapse of frozen rock slopes. Vialov, S.S., et al, [1976, p.143-151, rus] **34-3206**
Calculating nonstationary flow rates of landslide-mudflows. Shadunts, K.Sh., et al, [1976, p.369-376, rus] **34-3225**
Geosystems of the West Sayan foothills. Antipov, A.N., et al, [1979, 319p., rus] **34-3226**
Geoengineering and hydrogeologic studies of the zone of influence of the Angara reservoirs and means of effective incorporation of these results in the national economy. Odintsov, M.M., et al, [1980, 10p., eng] **34-3393**
Dynamics of the Baykal shore processes on the Tyya-Nizhneangarsk section. Bodenko, V.M., et al, [1980, 6p., eng] **34-3400**
Studying the effect of water reservoirs on slope processes on their shores. Kachugin, E.G., [1980, 3p., eng] **34-3401**
Recent geological processes and phenomena observed on the southern shore of Ob' Bay. Trepetsov, E.V., [1980, 4p., eng] **34-3402**
Determining optimal time for artificial triggering of fresh snow avalanches. Khalkechev, V.A., [1980, p.47-52, rus] **34-3417**
Regularities governing snow cover stability on slopes. [illegible] **34-3418**
Compiling avalanche cadasters for the Terek River Basin. Kozhaev, D.A., [1980, p.87-93, rus] **34-3423**
Possibility of mudflows in the Angarakan River valley. Murzin, IU.A., [1979, p.27-31, rus] **34-3468**
Evaluating mudflow dangers in the Baykal Amur railroad area and regularities of mudflow formation. Leshatinov, A.M., [1979, p.86-92, rus] **34-3479**
Mudflows in the Kem River basin. Matveeva, F.I., et al, [1979, p.25-30, rus] **34-3562**
Preliminary analysis of synoptic climatic peculiarities favoring mudflow formation in Primor'e. Glubokov, V.N., et al, [1979, p.31-39, rus] **34-3563**
Age of rock glaciers in the Altai Mountains. Ivanovskii, L.N., [1977, p.125-137, rus] **34-3606**
Cryogenic relief of bald peaks in Pribaykal'e and Northern Transbaykal. Vyrkin, V.B., [1977, p.138-163, rus] **34-3607**
Mountain forests. Sinitsyn, S.G., et al, [1979, 200p., rus] **34-3754**
Rock glaciers in Dagestan mountains (East Caucasus). Kozhevnikov, A.V., et al, [1980, p.14-26, rus] **34-3903**

Recent exogenic processes in the southeastern Lake Baykal area and their influence on hydromeliorative construction. Imetkhenov, A.B., [1979, p.94-104, rus] 34-4100
Regional geomorphology of newly developed areas. Kibal'chich, O.A., et al, [1979, 120p., rus] 34-4101
Formation of accumulative relief of the Ogoronskaya Basin (eastern part of the Baykal Amur railroad) under permafrost conditions. Kopylov, I.F., et al, [1979, p.9-14, rus] 34-4102
Slope development dynamics in the Zeya-Bureya Plain. Popov, IU.I., [1979, p.15-20, rus] 34-4103

Slope protection

Shore protection structures in the Novosibirsk reservoir. Raspopin, G.A., et al, [1979, p.96-99, rus] 34-128
Pipeline revegetation research: Haines Junction test site progress report—1977. [1978, 41p., eng] 34-863
Pipeline revegetation research: Northern British Columbia test sites progress report—1977. Vaartnou and Sons Enterprises, Ltd., [1978, 56p., eng] 34-864
Impervious plastic screens on butyl-rubber base. Sergeev, B.I., et al, [1979, p.20-23, rus] 34-1946
Service life of plastic linings for waterways. Gvenetadze, A.R., [1979, p.23-25, rus] 34-1947
Intensity of gully formation in the intermontane troughs of southern Srednee Priamur'e. Miskina, L.V., [1978, p.123-132, rus] 34-2536

Slope stability

Use of polymer materials in embankment slope stabilization. Stafeev, P.F., et al, [1979, p.127-131, rus] 34-129
Experimental studies of the thermal regime of permafrost slopes of a stream valley at their junction with a filter dam. Belan, V.I., [1979, p.97-100, rus] 34-852
Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] 34-1508
Studying the revegetation of tundra landscapes affected by industrial activities in the northern Yenisey River area. Skriabin, S.Z., [1979, p.51-61, rus] 34-1512
Geocryological conditions in the Yenisey River Valley (the Dudinka area) and changes induced by human activities. Kondrat'ev, V.G., et al, [1979, p.89-97, rus] 34-1515
Computer analysis of earth slope stability by the finite-element method (the RUMKE program). Gorelik, I.IA., et al, [1979, p.42-46, rus] 34-1523
Tunnel construction on landslide-prone slopes. Aminov, E.Kh., [1979, p.12-14, rus] 34-1715
Rock fill stability on embankment slopes. Matveev, K.V., et al, [1977, p.80-87, rus] 34-2056
All-Union scientific-technical conference on the engineering-geological basis of seismic microregionalization, 1st, Tashkent, Nov. 18-20, 1987. Summaries of reports. [1975, 98p, rus] 34-2057
Regularities governing the propagation of railroad induced oscillations in cohesive soils. Chokhonelidze, G.I., et al, [1975, p.76-77, rus] 34-2063
Reversible and irreversible changes in strength of grounds compacted by blasting. Chernyi, G.I., [1979, p.41-52, rus] 34-2308
Collection No.1 of unified regional individual estimates for construction. Earthwork. [1977, 247p. (Pertinent p.230-246), rus] 34-2868
Factors relating to the landslide process in Canadian Quickclays. Smalley, I., [1976, p.163-172, eng] 34-3262
Studying the effect of water reservoirs on slope processes on their shores. Kachugin, E.G., [1980, 3p., eng] 34-3401
Mudflows in the Kem River basin. Matveeva, F.I., et al, [1979, p.25-30, rus] 34-3562
Preliminary analysis of synoptic climatic peculiarities favoring mudflow formation in Primor'e. Glookov, V.N., et al, [1979, p.31-39, rus] 34-3563
Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p. (Pertinent p.230-344), rus] 34-3600
Evaluating soil stability to washout. Kuklin, V.V., et al, [1979, p.79-82, rus] 34-3773
Performance of support walls built on permafrost. Novikov, F.IA., [1980, p.45-46, rus] 34-3957

Sludges

Utilization of sewage sludge for terrain stabilization in cold regions, Part 2. Gaskin, D.A., et al, [1979, 36p., eng] 34-746
Land application of domestic sludge in cold climates. Johnson, R.A., [1978, 27p., eng] 34-1313
Bio-processes of the oxidation ditch in a sub-arctic climate. Murphy, R.S., et al, [1974, p.332-357, eng] 34-1481
Description of some recent research work of particular interest for the introduction of new waste water treatment methods in Norway. Abrahamsen, J., [1974, p.403-422, eng] 34-1483
Concentration of impurities by progressive freezing. Halde, R., [1980, p.575-580, eng] 34-3436

Sluices (hydraulic engineering)

Causes of the values of winter pressure of ground on walls of solid-bottom sluice chambers, exceeding the design values. Avdeeva, V.I., [1979, p.98-105, rus] 34-2049
Winter operation of sluices. Galkin, L., [1979, p.35-36, rus] 34-2079
Performance of sluices under ice conditions. Kliuev, V., et al, [1979, p.34-36, rus] 34-2119
Winter operation of water navigation objects. Ivanov, L.V., [1978, 211p., rus] 34-2686

Slush

Hydrometeorological conditions of the formation of snow-loaded streams. Freidlin, V.S., [1979, p.198-200, rus] 34-2206
Activities of snow-carrying streams. Sapunova, G.G., et al, [1979, p.201-202, rus] 34-2207
See also. Wet snow

Small arms ammunition

Test of snow fortifications. Farrell, D.R., [1979, 15p., eng] 34-1598

Smith Sound

Northern Smith Sound oceanography—summer 1977. Tooma, S.G., [1978, 28p., eng] 34-2368

Smoke generators

Investigation of the effectiveness of the action of the full-scale pyrotechnical ice-forming aerosol generators. Beliaev, S.P., et al, [1979, 23p., eng] 34-1348

Snow

Report of the Joint U.S.-Canadian Northern Civil Engineering Research Workshop Carlson, R.F., ed, [1978, 72p., eng] 34-771
Theory and experiment for passive microwave remote sensing of snowpacks. Kong, J.A., et al, [1979, p.5669-5673, eng] 34-998
Study of water drainage from columns of snow. Denoth, A., et al, [1979, 19p., eng] 34-1108
Electrolytic conductivity of water, snow and ice in the basin of the Kolka Glacier. Fleetwood, A., [1974, p.387-395, eng] 34-1207
First article test of lightweight camouflage screening system, snow (radar scattering). Nelson, J.D., [1979, 14p., eng] 34-1340
Product improvement test (cold weather/snow ingestion) of the OH-58C helicopter. Niemiec, S.M., et al, [1979, 71p., eng] 34-1346
Research on snow and ice. Martinelli, M., Jr., et al, [1979, p.1253-1297, eng] 34-1464
Antarctica; commission reports, vol.18. [1979, 215p., rus] 34-2214
APOA bibliography. [1980, 74p., eng] 34-3092
Dynamics of snow and ice masses. Colbeck, S.C., ed, [1980 468p., eng] 34-3655
See also: Artificial snow; Blowing snow; Slush; Wet snow

Snow accumulation

Studies on tensile strength of wet snow. Wakahama, G., et al, [1979, p.18-22, eng] 34-53
Experimental studies of snow accretion on power lines. Fujino, K., et al, [1979, p.95-100, eng] 34-67
Snow accretion on traffic-control sign boards and its prevention. Takeuchi, M., [1979, p.101-105, eng] 34-68
Countermeasures against snow accretion and icing on radomes. Suzuki, M., et al, [1979, p.303-307, eng] 34-96
Snow collection by possible high speed guidway sections. Ringer, T.R., et al, [1979, p.318-327, eng] 34-99
Structure of Altai snow cover. Reviakin, V.S., et al, [1973, p.28-30, rus] 34-108
Method and formulation for preventing snow and ice accumulation. Bonnanzio, A.J., [1975, 8 col., eng] 34-502
Fighting snow disasters on roads in Schleswig-Holstein in the 1978/79 winter. Richter, K., [1979, p.237-243, ger] 34-536
Effects on timber cutting and revegetation on snow accumulation and melt in North Idaho. Haupt, H.F., [1979, 14p., eng] 34-840
Automatic apparatus for measuring low-level beta activity in snow samples. Pinglo', J.F., [1978, 103p., fre] 34-937
Snow accumulation and distribution. Gray, D.L., et al, [1979, p.3-33, eng] 34-1002
Snow accumulation and roughness changes through the winter at a forest-tundra site near Schefferville, Quebec. Granberg, H.B., [1979, p.83-92, eng] 34-1009
Interactive model of snowpack accumulation and melt dynamics in forested conditions. Ffolliott, P.F., et al, [1979, p.359-368, eng] 34-1033
Development of the operational snow band SSARR model. Speers, D., et al, [1979, p.369-378, eng] 34-1034
Volume forecasts using the SSARR model in a zone mode. Kuehl, D.W., [1979, p.38-47, eng] 34-1054
Snow cover distribution in the Obikhingou River basin. Sannikov, A.G., [1979, p.24-30, rus] 34-1123
Methods of forecasting wet snow avalanches in the Dukant station area. Kharitonov, G.G., [1979, p.61-67, rus] 34-1127
Calculating surface melting of the Golubin glacier and its part in total runoff from the Alaarcha River basin. Alzin, B.V., [1979, p.139-145, rus] 34-1137
Role of the internal seepage alimentation in the mass balance of glaciers and methods for determining it. Bazhev, A.B., [1974, p.492-521, eng] 34-1213
Snow load design criteria for steel buildings. [1978, 6 leaves, eng] 34-1240
Long-term accumulation characteristics at Vostok Station, Antarctica. Aver'ianov, V.G., [1978, p.93-99, rus] 34-1298
Statistical study of relationships between snow reserves and summer runoff in alpine regions. Jensen, H., [1979, p.123-144, ger] 34-1323
Snow cover ablation and degree days in the Weissfluhjoch test area. De Quervain, M., [1979, p.215-232, ger] 34-1326
Variations in snow distribution over Arctic Ocean ice. Buzuev, A.IA., et al, [1979, p.76-85, rus] 34-1387
Delta 18-O variations in snow on the Devon Island ice cap, Northwest territories, Canada. Koerner, R., et al, [1979, p 1419-1427, eng] 34-1454
Snow and ice accumulation around solar collector installations. O'Rourke, M.J., [1979, 69p., eng] 34-1647
Snow depth measurements in the Sonnblick region, 1927-1956 Roller, M., [1957, p.43-45, ger] 34-1658
Precipitation on the karst plateau of the Höllen Mountains in Upper Austria. Tollner, H., [1970, p.19-33, ger] 34-1664
Accumulation and deterioration of snow cover on Sonnblick during meteorological changes Lauscher, A., et al, [1973, p.3-30, ger] 34-1668
Snow cover in forest stands. Keller, H.M., [1979, p.17-29, eng] 34-1778
Snow accumulation and disappearance as influenced by elevation, aspect and vegetation type in the State of Hesse, Germany. Brechtel, H.M., et al, [1979, p.31-42, eng] 34-1779
General and applied climatology. Kobysheva, N.V., ed, [1979, 104p., rus] 34-1814
Daily snow accumulation in Belorussia. Volobueva, G.V., [1979, p.58-66, rus] 34-1818
Snow measurements on the antarctic shelf ice. Kozlovskii, A.M., [1979, p.74-77, rus] 34-1830
30,000-yr isotope climatic record from antarctic ice. Lorius, C., et al, [1979, p.644-648, eng] 34-1839
Thermal regime of glacial zone on the northern slope of Zailiyskiy Alatau during cold period. Denisova, T.IA., [1979, p.3-17, rus] 34-1971
Calculating snow reserves in the glacial zone of Zailiyskiy Alatau. Sudakov, P.A., et al, [1979, p.27-36, rus] 34-1973
Forecasting avalanches of freshly fallen snow in the Tekeli River Basin, Dzhungarskiy Alatau. Toporkov, A.D., [1979, p.143-146, rus] 34-1983
Role of firn field ablation in the Bish-Iirdu Mountains in the Aktru River's alimentation. Ivanov, N.I., [1967, p.227-246, rus] 34-1995
Preliminary mathematical model for reconstruction of past climate based on glaciological reference data on the antarctic ice sheet. Efimov, V.A., [1979, p.5-11, rus] 34-1996
Growth rates of crystal grains in snow at Mizuho Station, Antarctica. Narita, H., et al, [1979, p.11-17, eng] 34-2147
Compactive viscosity of snow and its climatic implications at Mizuho Station, Antarctica. Maeno, N., et al, [1979, p.18-31, eng] 34-2148
Some problems in stratigraphic analysis of firn in Mizuho Plateau, East Antarctica. Watanabe, O., et al, [1979, p.32-50, jap] 34-2149
Data on glaciological processes in the recrystallization zone of ice formation in highlands. Diurgerov, M.B., [1979, p.52-56, rus] 34-2180
Topographic effect on snow cover distribution in mountains. Chirkova, A.A., [1979, p.126-133, rus] 34-2192
Landscape-geographic technique of mapping snow cover under complicated orographic conditions. Kondakova, N.L., [1979, p.139-143, rus] 34-2194
Thermohydrodynamic model of a large ice sheet. Verbitskii, M.IA., et al, [1980, p.59-61, rus] 34-2353
Moisture transport in the atmosphere during abundant precipitation in the Zeravshan and Kashkadarya basins in winter and spring. Volnova, T.A., et al, [1979, p.79-84, rus] 34-2414
Rate of snow accumulation determined from oxygen isotope and stratigraphic analyses of the core from Mizuho Station, East Antarctic (extended abstract). Kato, K., et al, [1979, p.88-92, eng] 34-2500
North American snowfall study; comparative through 1973-4 season. [1974, c400p., eng] 34-2630
Study on occurring condition of metallic inclusions in anti-snow type composition brake shoes which cause the hollowing wear at wheel treads. Idemura, K., et al, [1977, p.45, eng] 34-2656
Snow cover of the Kirgiz Highlands. Dikikh, A.N., [1978, 101p., rus] 34-2668
Thinning of the ice sheet in Mizuho Plateau, East Antarctica. Naruse, R., [1979, p.45-52, eng] 34-2815
Measured velocities of interior East Antarctica and the state of mass balance within the I.A.G.P. area. Young, N.W., [1979, p.77-87, eng] 34-2818
Melting and runoff in glaciated areas. Konovalov, V.G., [1979, p.51-63, rus] 34-2882
Determination of the amount of solid precipitation under the forest canopy. Kolesov, A.F., [1979, p.113-116, eng] 34-2887
Catastrophic accumulation of wet snow and gale winds at the southern cyclone exit in April 1975. Koshenko, A.M., et al, [1977, p.114-121, rus] 34-2892
Glaciological studies on Tadzhikistan glaciers. Sannikov, A.G., et al, [1979, p.150-155, rus] 34-3131

Snow accumulation *(cont.)*

First observations of fluctuations of Karabatkak Glacier, Tien Shan, under a new program. Bakov, E.K., et al, [1979, p.165-170, rus] 34-3134

Disastrous avalanches in Svanetia in Winter 1975-76. Dziuba, V.V., et al, [1979, p.228-234, rus] 34-3146

Extending the useful life of DYE-2 to 1986. Part 2: 1979 findings and final recommendations. Tobiasson, W., et al, [1980, 37p., eng] 34-3334

Snow cover and precipitation in the mountains of Central Asia. Getker, M.I., ed, [1978, 98p., rus] 34-3344

More exact definition of mathematical model parameters of snow cover formation in mountains. Borovikova, L.N., et al, [1978, p.34-40, rus] 34-3348

Problems of mountain glaciology. [1977, 212p., rus] 34-3379

Subsistence regime of quasi-glacier snow patches. Glazyrin, G.E., [1977, p.80-91, rus] 34-3383

Mass balance of Altai glaciers. Reviakin, V.S., et al [1977, p.116-130, rus] 34-3385

Snow cover observations at Avalanche Research Station, Toikanbetsu, northern Hokkaido, 12 (1977-1978 and 1978-1979). Huzioka, T., et al, [1979, p.17-32, jap] 34-3454

Experimental studies on snow accretion at subzero temperatures. Mizuno, Y., et al, [1979, p.17-32, jap] 34-3488

In situ wind tunnel for snow accretion experiments using natural snowflakes. Wakahama, G., et al, [1979, p.183-187, jap] 34-3505

Development of a high-speed rotary snowplow (HTR-700). Sasaki, T., et al, [1979, 27p., eng] 34-3634

Seasonal snow cover. Male, D.H., [1980, p.305-395., eng] 34-3661

Workshop of the Glaciology Section and tutorial seminar, Zvenigorod, June 1979. Barbash, V.R., [1979, p.5-29, rus] 34-3684

Calculating dates of stable snow in the Central Asian and Kazakhstan mountains from standard meteorological information. Severskiĭ, I.V., et al, [1979, p.71-79, rus] 34-3694

Study and information meeting on winter trafficability, Nefta, Tunisia, Nov. 8 and 9, 1979. [1980, p.69-79, fre] 34-3723

Evaluation of jet-roof geometry for snow-cornice control. Dawson, K.L., et al, [1979, p.503-511, eng] 34-3787

Physical, technical and functional aspects of building design for railroads. Kovrigin, S.D., ed, [1978, 202p., rus] 34-3910

Characteristics of automatic snow depth monitoring. Vodop'ianova, L.S., et al, [1978, p.40-42, eng] 34-3961

Snow accumulation and snow stratigraphy on Riiser-Larsenisen, Dronning Maud Land, Antarctica. Repp, K., [1978, p.81-92, eng] 34-3988

Utilization of spaceborne microwave radiometers for monitoring snowpack properties. Rango, A., et al, [1979, p.25-40, eng] 34-4000

Regularities governing the development of the topography and glaciers of Tien Shan. Zabirov, R.D., ed, [1980, 110p., rus] 34-4004

Snow accumulation on Central Tien Shan glaciers. Safonova, A.A., [1980, p.58-67, rus] 34-4008

Snow acoustics

Phenomenological description of the acoustic emission response in several polycrystalline materials. St. Lawrence, W., [1979, p.223-228, eng] 34-747

Ultrasound low power sonar for snow thickness measurements. Caillet, A., et al, [1979, p.108-116, eng] 34-4209

Snow air interface

Solar radiation model for a snow surface in mountainous terrain. Dozier, J., [1979, p.144-153, eng] 34-1014

Interactions between the atmospheric boundary layer and a snow surface. Halberstam, I.M., et al, [1979, p.154-166, eng] 34-1015

Heat exchange between ice cover and atmosphere in East Antarctica. Aver'ianov, V.G., [1979, p.91-96, rus] 34-2215

Studies of radiative cooling at land basins in snowy season. Ishikawa, N., [1977, p.1-46, eng] 34-2427

Calculating global radiation. Erdiakova, I.N., [1979, p.64-67, rus] 34-2883

Snow bearing strength

See: Snow strength

Snow compaction

Compaction of wet snow on highways. Colbeck, S.C., [1979, p.14-17, eng] 34-52

Inspection of winter roads, Mackenzie Delta, following spring thaw. [1973, 16p., eng] 34-291

Temperature and the density dependences on hardness of artificially compacted snow. Kobayashi, T., [1978, p.267-292, jap] 34-939

Compactive viscosity of snow and its climatic implications at Mizuho Station, Antarctica. Maeno, N., et al, [1979, p.18-31, eng] 34-2148

Snow cover metamorphism on the glacier slope near the Molodezhnaya oasis. Voltkovskiĭ, K.F., [1979, p.97-105, rus] 34-2216

Snow composition

Magnitude and significance of the terrestrial snowpack and white ice contribution to the phosphorus budget of a lake in the Canadian Shield region of the Kawartha Lakes English, M.C., [1978, p.173-189, eng] 34-41

Trace element content of Greenland snows along an east-west transect Boutron, C., [1979, p.1253-1258, eng] 34-103

Reduction of contamination problems in sampling of antarctic snows for trace element analysis. Boutron, C., [1979, p.127-130, eng] 34-728

Preconcentration of dilute solutions at the 1/1,000,000 microgram/g level by nonboiling evaporation with variable variance calibration curves. Boutron, C., et al, [1979, p.140-145, eng] 34-729

Alkali and alkaline earth enrichments in aerosols deposited in antarctic snows. Boutron, C., [1979, p.919-924, eng] 34-731

Compositional difference between Arctic aerosol and snow Rahn, K.A., et al, [1979, p.479-480, eng] 34-736

Continuous record of artificial tritium fallout at the South Pole (1954-1978). Jouzel, J., et al, [1979, p.188-200, eng] 34-1000

Use of isotope tracers in glaciology Merlivat, L., et al, [1976, p.285-289, fre] 34-1555

Episodic variations of snow contamination of an Arctic snowfield. Gjessing, Y.T., [1977, p.643-647, eng] 34-1842

Oxygen isotopic composition of fallen snow in Antarctica. Kato, K., [1979, p.124-135, jap] 34-2154

Oxygen isotopic composition of drifting snow in Mizuho Plateau, Antarctica. Kato, K., et al, [1979, p.136-151, jap] 34-2155

Oxygen isotopic composition of snow formed under an antarctic anticyclone. Kato, K., et al, [1979, p.152-163, jap] 34-2156

Relationships between snow cover and winter losses of dissolved substances from a mountain watershed. Lewis, W.M., Jr., et al, [1980, p.11-17, eng] 34-2273

Proceedings of the Seminar III on Dry Valley Drilling Project, 1978. Nagata, T., ed, [1979, 245p., eng] 34-2285

View on the formation of saline waters in the Dry Valleys. Torii, T., et al, [1979, p.22-33, eng] 34-2286

Considerations on the origin and properties of the antarctic aerosol. Shaw, G.E., [1979, p.1983-1998, eng] 34-2372

Shallow core snow chemistry of Athabsca Glacier, Alberta. Butler, D., et al, [1980, p.278-281, eng] 34-2667

Role of stable isotopes in snow and ice studies. Gordienko, F.G., [1979, p.286-295, rus] 34-3716

Chemical composition of snow and ice of the highest Pamir glaciers. Diurgerov, M.B., et al, [1980, p.67-71, rus] 34-3902

Origin of the oxygen-isotope composition in the snow cover in East Antarctica. Vilenskiĭ, V.D., et al, [1978, p.180-185, eng] 34-4032

Snow compression

Volumetric constitutive law for snow subjected to large strains and strain rates. Brown, R.L., [1979, 13p., eng] 34-913

Aircraft rolling resistance in loose dry snow; a theoretical analysis. Lidström, M., [1979, 30p., eng] 34-1564

Non-linear theory relating to visco-compressible materials with applications to snow mechanics. Costes, N.C., [1965, 250p., eng] 34-2421

Rectangular plate loading test on snow-mobility of tracked oversnow vehicle. Muro, T., et al, [1980, p.17-24, jap] 34-3155

Vane cone test of snow—mobility of tracked oversnow vehicle. Muro, T., et al, [1980, p.25-32, jap] 34-3156

Snow (construction material)

Bullet penetration in snow. Cole, D.M., et al, [1979, 23p., eng] 34-626

Test of snow fortifications. Farrell, D.R., [1979, 15p., eng] 34-1598

Non-linear theory relating to visco-compressible materials with applications to snow mechanics. Costes, N.C., [1965, 250p., eng] 34-2421

Snow fortifications as protection against shaped charge antitank projectiles. Farrell, D.R., [1980, 19p., eng] 34-3332

Snow cornices

Numerical simulation of jet roof geometry for snow cornice control. Dawson, K.L., et al, [1979, 19p., eng] 34-778

Structure and properties of snow cornices. 1. Naruse, R., et al, [1979, p.41-51, jap] 34-3490

Evaluation of jet-roof geometry for snow-cornice control. Dawson, K.L., et al, [1979, p.503-511, eng] 34-3787

Snow courses

Snow cover data, Canada, winter 1977-78. [1978, 51p., eng] 34-591

Value of snow course data in forecasting snowmelt runoff. Lettenmaier, D.P., [1979, p.44-55, eng] 34-1004

Snow cover

Future U.S. satellite programs of interest to snow scientists. Wiesnet, D.R., [1978, p.81-88, eng] 34-34

Observations on special characteristics of lake snowcover. Adams, W.P., et al, [1978, p.117-128, eng] 34-37

Snow cover suitability percentiles for skiing and snowmobiling. Crowe, R.B., [1978, p.129-140, eng] 34-38

Application of satellite images for monitoring snow-line in the Yukon and Northwest Territories Dey, B., et al, [1979, p.473-483, eng] 34-472

Effects of ice thickness on the exchange of solar radiation over the polar oceans. Grenfell, T.C., [1979, p.305-320, eng] 34-545

Proceedings [1976, 424p., eng] 34-814

Satellite observations of snow and ice with an imaging passive microwave spectrometer Fisher, A.D., et al, [1976, p.98-103, eng] 34-816

Development of hydro-optical studies of the Lake Baykal Sherstiankin, P.P., [1979, p.16-27, rus] 34-876

Proceedings of a Meeting on Modeling of Snow Cover Runoff, 26-28 September 1978, Hanover, New Hampshire. [1979, 432p., eng] 34-1001

Laser reflectivity measurements of snow/ice covered targets in the Arctic region. Schneider, R.W., [1979, 40p., eng] 34-1041

Preliminary results of passive microwave snow experiment during February and March 1978. Chang, A.T.C., et al, [1979, 114p., eng] 34-1111

Studying atmospheric pollution from glacial deposit analysis. Voronskaia, G.N., et al, [1979, p.146-151, rus] 34-1138

Alaska's weather and climate: a collection of articles written for the educated layman by staff members of the Geophysical Institute and the National Weather Service in Alaska. Wendler, G., ed, [1979, 153p., eng] 34-1302

Model for space radar clutter. Tomlinson, P.G., [1979, 107p., eng] 34-1350

Remote sensing of snow and ice: a review of the research in the United States 1975-1978. Rango, A., [1979, 35p., eng] 34-1375

Spring runoff forecasts from snow assessments in the Malmagen area at 62N in Sweden. Zakrisson, K., [1979, p.63-66, eng] 34-1462

Snow-mapping experiment. Barnes, J.C., et al, [1977, p.191-224, eng] 34-1492

Calculating the balance of Arctic Ocean pollutants Izmailov, V.V., et al, [1979, p.486-491, rus] 34-2022

Workshop on the world glacier inventory and meeting of the snow and ice commission in Switzerland. Kotliakov, V.M., et al, [1979, p.19-24, rus] 34-2176

Satellite surveys of snow cover for calculating spring flood hydrographs. Deleur, M.S., [1979, p.146-154, rus] 34-2196

Problems in studying glaciological terminology. Kotliakov, V.M., [1979, p.179-184, rus] 34-2202

Seasonal variations in the relationship between the number of days with snow cover and elevation in high mountains. Steinhauser, F., [1979, p.313-322, rus] 34-2303

Climatic-synoptic characteristics of days with snowfall and snow cover in Eastern Serbia. Rankovič, S., et al, [1979, p.335-345, rus] 34-2304

Comparative study of microwave radiometer observations over snowfields with radiative transfer model calculations. Chang, A.T.C., et al, [1979, 31p., eng] 34-2358

Remote sensing of snow and ice. Meier, M.F., [1979, 54p., eng] 34-2473

Parameterization of sub-grid scale processes. [1972, 120p. (Pertinent p.97-101), eng] 34-2564

Winter environmental data survey of the drainage basin of the upper Susitna River, Alaska. Bilello, M.A., [1980, 30p., eng] 34-2725

Effect of petroleum products on Arctic snow-ice cover. Izmailov, V.V., [1980, p.147-152, rus] 34-2848

Second order iterative approximation scheme for calculating dry snow characteristics. Trofimova, E.B., et al, [1979, p.88-97, rus] 34-2885

Empirical formulas for calculating melting on glaciers. Konovalov, V.G., [1978, p.41-53, rus] 34-3349

Effective radiation and radiation balance in the Caucasus. Samukashvili, R.D., [1980, p.98-110, rus] 34-3425

Report of pit-wall observations of snow cover in Sapporo, 1978-1979. Endo, Y., et al, [1979, p.1-5, jap] 34-3452

Regional characteristics of the snow cover in Hokkaido. Akitaya, E., et al, [1979, p.33-40, jap] 34-3489

Resolutions of the Glaciology Section workshop, June 1979. [1979, p.29-33, rus] 34-3685

Interrelations and succession in the compilation of thematic sections of the World Atlas of Snow and Ice Resources. Dreier, N.N., [1979, p.37-42, rus] 34-3688

Depiction of glacier areas in the World Atlas of Snow and Ice Resources. Timofeeva, N.A., [1979, p.62-66, rus] 34-3692

Snow cover distribution

NOAA satellite monitoring of snow cover in the northern hemisphere during the winter of 1977. Wiesnet, D.R., et al, [1978, p.63-80, eng] 34-33

Pinus sibirica as an indicator of environmental conditions in the Khamar-Daban Mountains and Tunkinskiye Gol'tsy. Tarakanov, A.G., [1979, p.80-83, rus] 34-105

Proceedings of the Scientific Conference on Altai Glaciology Problems. [1963, 259p., rus] 34-106

Structure of Altai snow cover. Reviakin, V.S., et al, [1973, p.28-36, rus] 34-108

Winter service; its influence on road planning. Pigois, M.L., (1977, p.46-48, fre) 34-516

Groti-Stryn, a new winter road. Dudler, J., (1977, p.54-56, fre) 34-517

Snow cover data, Canada, winter 1977-78 (1978, 51p., eng) 34-591

Alpine vegetation ecology and remote sensing of Teresa Island, British Columbia. Buttrick, S.C., (1978, n.p., eng) 34-601

Global radiation in Caucasus (1979, p.101-108, rus) 34-615

Satellite-derived Northern Hemisphere snowcover record for the winter of 1977-78. Wiesnet, D.R., et al, (1979, p.928-933, eng) 34-655

Snow mapping in Alpine basins using satellite imagery. Rott, H., (1978, p.81-93, ger) 34-667

Global variation of snow and ice extent. Kukla, G.J., (1976, p.110-115, eng) 34-818

Monitoring earth surface characteristics important to weather and climate with earth satellites. McClain, E.P., (1976, p.129-135, eng) 34-819

Snow cover in the USSR. Kopanev, I.D., (1978, 181p., rus) 34-846

Structure of the infrared thermal radiation field of snow-ice covers on water bodies. Bogorodskii, V.V., et al, (1979, p.235-241, rus) 34-878

Snow accumulation and distribution. Gray, D.L., et al, (1979, p.3-33, eng) 34-1002

Role of elevation in determining spatial distributions of precipitation, snow, and water input at Mt. Mansfield, Vermont. Hendrick, R.L., et al, (1979, p.63-70, eng) 34-1006

Square grid system for modeling snow cover in small watersheds. Dickison, R.B.B., et al, (1979, p.71-76, eng) 34-1007

Use of integrated hydrological models with distributed snow cover description for hydrological forecasting in Norway. Saelthun, N.R., (1979, p.406-413, eng) 34-1038

Application of snow covered area to runoff forecasting in the southern Sierra Nevada. Hannaford, J.F., et al, (1979, p.56-67, eng) 34-1056

Mean and extereme semi-monthly northwestern hemispheric snow boundaries from satellite records (1966-1979) and some surface data comparisons. Berry, M.O., et al, (1979, p.68-79, eng) 34-1057

Differences in the formation of spring runoff in forests of the European USSR. Krestovskii, O.I., et al, (1979, p.3-14, rus) 34-1076

Spring runoff from small drainage basins of the Dubovskaya hydrometeorological station. Bystrov, A.V., (1979, p.26-38, rus) 34-1078

Distribution of snow cover water reserves in the northeast European USSR. Vershinina, L.K., et al, (1979, p.58-67, rus) 34-1079

Aerial gamma surveys for determining snow water reserves with unstable snow cover. Vershinina, L.K., (1979, p.68-74, rus) 34-1080

Errors in determining snow cover characteristics in the northeast European USSR. Vershinina, L.K., et al, (1979, p.113-121, rus) 34-1082

Relation between orography and recent glaciation of Zailiyskiy Alatau. Vilesov, E.N., (1977, p.60-76, rus) 34-1094

Calculating sediments washed out by streams on slopes during spring melt. Zubkova, K.M., (1979, p.26-35, rus) 34-1106

Glaciology of mountain regions. Suslov, V.F., ed, (1979, 160p., rus) 34-1120

Helicopter gamma-survey of snow cover in West Tien Shan mountains. Getker, M.I., et al, (1979, p.3-14, rus) 34-1121

Reorganization of snow surveying network points in the Central Asian mountains. Getker, M.I., et al, (1979, p.15-23, rus) 34-1122

Snow cover distribution in the Obikhingou River basin. Sannikov, A.G., (1979, p.24-30, rus) 34-1123

Optimal averaging principle and its use in hydrologic forecasts and snow surveying reorganizations. Getker, M.I., et al, (1979, p.41-50, rus) 34-1125

Empirical method of avalanche forecasting. Moskalev, IU.D., (1979, p.51-60, rus) 34-1126

Evaluating avalanche danger in unexplored areas of the Pamirs. Bilialov, K.B., (1979, p.68-74, rus) 34-1128

Firn-ice avalanches in the Fortambek glacier basin. Freifel'd, V.IA., (1979, p.95-103, rus) 34-1131

Model of snow line shifting on a glacier surface during ablation periods. Konovalov, V.G., (1979, p.130-138, rus) 34-1136

Reconnaissance snow surveys of the National Petroleum Reserve in Alaska, April 1977 and April-May 1978. Sloan, C., et al, (1979, 31p., eng) 34-1145

Air- and spaceborne remote sensing in hydrogeology and engineering geology. Sadov, A.V., et al, (1979, 223p., rus) 34-1225

Disappearance of snowcover depending on radiation and relief. Meier, R., et al, (1979, p.151-158, ger) 34-1264

Alaskan snow. Benson, C.S., (1979, p.56-69, eng) 34-1306

Correction of point precipitation measurements. Sevruk, B., (1979, p.267-279, eng) 34-1328

Energy balance model of potential glacierization of northern Canada. Williams, L.D., (1979, p.443-456, eng) 34-1386

Variations in snow distribution over Arctic Ocean ice. Buzuev, A.IA., et al, (1979, p.76-85, rus) 34-1387

NOAA satellite-derived continental snow cover data base. Wiesnet, D.R., et al, (1979, p.3-8, eng) 34-1407

Snow and pack ice indices. Kukla, G., et al, (1979, p.9-14, eng) 34-1408

Ways of improving winter maintenance of roads. Bialobzheskii, G.V., et al, (1979, p.9-11, rus) 34-1419

Selected hydrologic applications of LANDSAT-2 data: an evaluation, final report. Wiesnet, D.R., et al, (1978, 205p., eng) 34-1497

Passive microwave applications to snowpack monitoring using satellite data. Hall, D.K., et al, (1979, 15p., eng) 34-1569

Snow redistribution by wind. Hoinkes, H., (1957, p.27-32, ger) 34-1655

Snow conditions in the Sonnblick region. Steinhauser, F., (1968, p.3-42, ger) 34-1659

Glacier conditions in the Grossglockner and Sonnblick regions at the end of the summer of 1965, 1966 and 1967. Tollner, H., (1968, p.73-83, ger) 34-1662

Secular variations of snow cover conditions in Austria. Steinhauser, F., (1970, p.3-19, ger) 34-1663

Accumulation and deterioration of snow cover on Sonnblick during meteorological changes. Lauscher, A., et al, (1973, p.3-30, ger) 34-1668

Snow behavior and its economic importance for Austria. Steinhauser, F., (1974, p.3-42, ger) 34-1671

Snow cover in forest stands. Keller, H.M., (1979, p.17-29, eng) 34-1778

Snow interception by pine stands in the Alpine foothills of Schwyz canton. Strobel, T., (1979, p.63-79, ger) 34-1781

Remote assessment of snow distribution and avalanche activity. Rychetnik, J., (1979, p.81-95, ger) 34-1782

Distribution and structure of snow cover under forest trees and full-grown forest. In der Gand, H., (1979, p.97-119, ger) 34-1783

General and applied climatology. Kobysheva, N.V., ed, (1979, 104p., rus) 34-1814

Daily snow accumulation in Belorussia. Volobueva, G.V., (1979, p.58-66, rus) 34-1818

Rock temperatures in the Kamchatka Peninsula. Zamolotchikova, S.A., et al, (1979, p.102-118, rus) 34-1918

Regime of glaciers and snow avalanches in Kazakhstan. Tokmagambetov, G.A., ed, (1979, 175p., rus) 34-1970

Thermal regime of glacial zone on the northern slope of Zailiyskiy Alatau during cold period. Denisova, T.IA., (1979, p.3-17, rus) 34-1971

Calculating snow reserves in the glacial zone of Zailiyskiy Alatau. Sudakov, P.A., et al, (1979, p.27-36, rus) 34-1973

Distribution of atmospheric precipitation on northern slopes of the Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskii, I.V., (1979, p.37-46, rus) 34-1974

Linear models for calculating drainage from glacier basins. Borovikova, L.N., et al, (1979, p.85-95, rus) 34-1977

Summary of theoretical results of glaciological investigations in the Altais. Tronov, M.V., (1967, p.3-15, rus) 34-1988

Mass balance of some Bish-Iirdu glaciers. Okishev, P.A., (1967, p.16-21, rus) 34-1989

Maximum snow depth distribution over the West Siberian Plain. Rutkovskaia, N.V., (1967, p.132-148, rus) 34-1993

Calculating water balance of the Kola River basin. Antonova, T.S., (1979, p.107-119, rus) 34-2055

Glacial-nival systems of the Pamirs and Gissar-Alay. Kotliakov, V.M., et al, (1979, p.25-33, rus) 34-2177

Plotting elevations of the alimentation and accumulation lines for Gissar-Alay glaciers. Rototaeva, O.V., (1979, p.42-51, rus) 34-2179

Data on glaciological processes in the recrystallization zone of ice formation in highlands. Diurgerov, M.B., (1979, p.52-56, rus) 34-2180

Geological action of glaciers in the Eastern Pamirs. Demchenko, V.V., (1979, p.81-85, rus) 34-2186

Snow cover of the Altai-Sayan area. Reviakin, V.S., et al, (1979, p.109-120, rus) 34-2190

Snow cover distribution in the mountains of Tadzhikistan. Burichenko, A.I., et al, (1979, p.120-126, rus) 34-2191

Topographic effect on snow cover distribution in mountains. Chirkova, A.A., (1979, p.126-133, rus) 34-2192

Two criteria determining the structure of snow surveying and precipitation measuring networks in mountain basins. Getker, M.I., et al, (1979, p.133-139, rus) 34-2193

Extreme snow conditions and their role in landscape formation. IAshina, A.V., (1979, p.143-146, rus) 34-2195

Analyzing distributions of maximum snow reserves on glaciers and improving snow surveying techniques. Diurgerov, M.B., et al, (1979, p.155-159, rus) 34-2197

Snow survey techniques in mountain glacier basins. Zhidkov, V.A., (1979, p.159-168, rus) 34-2198

Using distribution functions in calculating seasonal snow melting on slopes around the Dzhankuat glacier. Pylev, I.V., et al, (1979, p.169-173, rus) 34-2199

Characteristics of subarctic snow cover. Fitzgibbon, J.E., et al, (1979, p.465-476, eng) 34-2268

Recent relief-forming processes in Siberia. Ivanovskii, L.N., ed, (1978, 139p., rus) 34-2293

Bald peaks in the Lake Baykal area and northern Transbaikal, their boundaries and distribution. Vyrkin, V.B., (1978, p.63-68, rus) 34-2295

International conference on meteorology of the Carpathian Mountains. Proceedings (1979, 415p., rus) 34-2299

Hydrologic effectiveness of continuous snow cover in the Moravian-Silesian Beskids. Lednicky, V., et al, (1979, p.261-268, rus) 34-2300

Relationship between annual snow water content maxima and elevation in medium high mountains in the German Democratic Republic. Zerche, M., (1979, p.269-273, rus) 34-2301

Space techniques of studying snow cover of the Earth. Deleur, M.S., (1980, 77p., rus) 34-2601

Snow cover of the Kirgiz Highlands. Dikikh, A.N., (1978, 101p., rus) 34-2668

Ten-day forecasts of mean air temperature anomalies for West and East Siberia, Ural Mountains and North Kazakhstan. Khramtsova, I.G., et al, (1979, p.51-55, rus) 34-2968

Snow avalanches in Zailiyskiy and Dzungarskiy Alatau. Severskii, I.V., (1978, 256p., rus) 34-3072

Report on Soviet glaciological studies in 1975-1978 (1979, p.5-34, rus) 34-3116

Program and guide for compilation of the applied part of the *World atlas of snow and ice resources* (1979, p.35-63, rus) 34-3117

Studies of mountain glaciers by the Geography Department of Leningrad University during the IHD. Aigina, N.P., et al, (1979, p.160-165, rus) 34-3133

Surging Didal' glacier. Uskov, IU.S., et al, (1979, p.170-175, rus) 34-3135

Disastrous avalanches in Svanetia in Winter 1975-76. Dziuba, V.V., et al, (1979, p.228-234, rus) 34-3146

Physical characteristics of snow cover on the west slope of Mt. Asahidake, Hokkaido. Nishimura, H., et al, (1980, p.9-15, jap) 34-3154

Ice accretion beneath snow cover. Raspopin, G.A., et al, (1977, p.101-111, rus) 34-3178

Seasonal cycle of snow cover, sea ice and surface albedo. Robock, A., (1980, p.267-285, eng) 34-3201

Geosystems of the West Sayan foothills. Antipov, A.N., et al, (1979, 319p., rus) 34-3226

Snow cover and precipitation in the mountains of Central Asia. Getker, M.I., ed, (1978, 98p., rus) 34-3344

Information content of observations on precipitation and snow cover in the Uryadar'ya River Basin for long range forecasts of runoff. Akhundzhanov, Sh.M., et al, (1978, p.3-21, rus) 34-3345

More exact definition of mathematical model parameters of snow cover formation in mountains. Borovikova, L.N., et al, (1978, p.34-40, rus) 34-3348

Influence of slope orientation and dissected topography on the statistical structure of snow depth. Chirkova, A.A., (1978, p.64-77, rus) 34-3350

Mass balance of Altai glaciers. Reviakin, V.S., et al, (1977, p.116-130, rus) 34-3385

Snow physics, avalanches, mudflows. Zalikhanov, M.Ch., ed, (1980, 160p., rus) 34-3411

Avalanche regime of the El'brus Mountain area. Urumbaev, N.A., (1980, p.13-20, rus) 34-3413

Data units for telemetering physical and mechanical properties of snow cover on slopes. Bagov, M.M., et al, (1980, p.67-74, rus) 34-3420

Distribution of water equivalent of snow in Mt. Daisetsu, Hokkaido. Yamada, T., et al, (1979, p.63-71, jap) 34-3492

Mechanism of a delay in melting away of a snow cover in an area with low air temperature and deep snow (the Uryu Valley) in Hokkaido. Kojima, K., et al, (1979, p.93-111, jap) 34-3495

Proceedings. (1980, 301p., eng) 34-3511

NOAA/NESS program for operational snowcover mapping: preparing for the 1980's. Schneider, S.R., (1980, p.21-39, eng) 34-3512

New goals for snow monitoring by satellite. Wiesnet, D.R., (1980, p.41-51, eng) 34-3513

Mapping New Zealand and Antarctic snowpack from LANDSAT. Thomas, I.L., et al, (1980, p.53-72, eng) 34-3514

Application of satellite data for snow mapping in Norway. Odegaard, H.A., et al, (1980, p.93-106, eng) 34-3515

Satellite snowcover and runoff monitoring in central Arizona. Schumann, H.H., et al, (1980, p.107-126, eng) 34-3516

Use of satellite data in runoff forecasting in the heavily-forested, cloud-covered Pacific Northwest. Dillard, J.P., et al, (1980, p.127-150, eng) 34-3517

LANDSAT derived snowcover as an input variable for snowmelt runoff forecasting in south central Colorado. Shafer, B.A., et al, (1980, p.151-169, eng) 34-3518

Graphical method of stream runoff prediction from LANDSAT derived snowcover data for watersheds in the upper Rio Grande basin of Colorado. Moravec, G.F., et al, (1980, p.171-183, eng) 34-3519

Application of snowcovered area to runoff forecasting in selected basins of the Sierra Nevada, California. Brown, A.J., et al, (1980, p.185-200, eng) 34-3520

Snow cover distribution *(cont.)*

Application of satellite imagery to hydrologic modeling snowmelt runoff in the southern Sierra Nevada. Hannaford, J.F., et al, [1980, p.201-222, eng] **34-3521**

Cost/benefit analysis for the Operational Applications of Satellite Snowcover Observations (OASSO) Castruccio, P.A., et al, [1980, p.239-254, eng] **34-3522**

Snow extent measurements from geostationary satellites using an interactive computer system. Gird, R.S., [1980, p.255-265, eng] **34-3523**

All-digital approach to snow mapping using geostationary satellite data. Tarpley, J.D., et al, [1980, p.267-279, eng] **34-3524**

Airborne gamma survey of soil moisture and snow cover [illegible] **34-3542**

Present state of airborne gamma surveys of snow cover and soil moisture. Nikiforov, M.V., [1980, p.6-27, rus] **34-3543**

Experience of the Administration of the Ural State Control Station in using aerial snow survey data. Zykova, V.A., [1980, p.65-66, rus] **34-3548**

Some results of experimental gamma surveys of snow cover in mountains. Getker, M.I., et al, [1980, p.67-72, rus] **34-3549**

Determining snow depth on winter crop fields from aerial gamma survey data. Shihn, G.V., [1980, p.77-93, rus] **34-3551**

Avalanche danger on Lysaya Mountain (southern Sikhote Alin range). Ratnikov, A.V., [1979, p.62-63, rus] **34-3566**

Snow depth used as a predictor in forecasting mean monthly air temperature anomalies over southern West Siberia. Eremin, V.V., et al, [1979, p.125-129, rus] **34-3582**

Cryogenic relief of bald peaks in Pribaykal'e and Northern Transbaykal. Vyrkin, V.B., [1977, p.138-163, rus] **34-3607**

Heat and moisture content of taiga lands in the Irtysh River area. Nikitin, S.P., [1978, p.23-33, rus] **34-3609**

Aerial gamma survey of snow cover in mountains. Nikiforov, M.V., [1980, p.77-83, rus] **34-3641**

Workshop of the Glaciology Section and tutorial seminar, Zvenigorod, June 1979. Barbash, V.R., [1979, p.5-29, rus] **34-3684**

Determining snow cover characteristics in unstudied areas. Getker, M.I., et al, [1979, p.79-84, rus] **34-3695**

Snow density variations over ice covers. Tsurikov, V.L., [1979, p.155-161, rus] **34-3706**

Possibility of indirect determination of solid precipitation intensity. Bogdanova, E.G., [1979, p.161-165, rus] **34-3707**

Areal distribution of snow reserves over the Polar Urals. Gokhman, V.V., et al, [1979, p.177-182, rus] **34-3710**

Calculating boundaries of avalanche danger zones of specified frequency from morphometry of avalanche foci. Zolotarev, E.A., [1979, p.193-198, rus] **34-3713**

Hydroclimatic influence of forests. Protopopov, V.V., ed, [1979, 144p., rus] **34-3768**

Forest and hydrological regionalization of Central Siberia. Lebedev, A.V., [1979, p.25-58, rus] **34-3770**

Selective felling effect on water-controlling properties of Khamar-Daban pine forests. Biziukin, V.V., [1979, p.69-78, rus] **34-3772**

Remote sensing of snow covered area for runoff modelling. Rango, A., [1980, p.291-297, eng] **34-3778**

Nivation: an arctic-alpine comparison and reappraisal. Thorn, C.E., et al, [1980, p.109-124, eng] **34-3803**

Geochemical structure of West Sayan foothill geosystems. Kochurov, B.I., et al, [1977, p.59-72, rus] **34-3815**

Biogeophysical conditions of interactions between solid precipitation and conifer forest canopy. Kaliuzhnyi, I.L., et al, [1979, p.82-90, rus] **34-3877**

Chemical composition of snow and ice of the highest Pamir glaciers. Diurgerov, M.B., et al, [1980, p.67-71, rus] **34-3902**

Melting of snow on attic roofs of railroad buildings. Cheremisov, K.M., et al, [1978, p.128-136, rus] **34-3916**

Temperature regime of snow covering attic roofs. Paniutin, A.A., et al, [1978, p.137-144, rus] **34-3917**

Characteristics of automatic snow depth monitoring. Vodop'ianova, L.S., et al, [1978, p.40-42, eng] **34-3961**

Remote snow cover measurements for forecasting the runoff of mountain rivers. Borovikova, L.N., et al, [1978, p.57-61, eng] **34-3965**

Spatial distribution of water content in the snow cover in Poland. Sadowski, M., [1980, 148p., pol] **34-3983**

Utilization of spaceborne microwave radiometers for monitoring snowpack properties. Rango, A., et al, [1979, p.25-40, eng] **34-4000**

Joint analysis of satellite and aerial photographs and ground-based measurements for estimating the spatial distribution and temporal variations of snow cover. Kuprianov, V.V., [1978, p.81-88, eng] **34-4057**

Permafrost conditions of Franz Josef Land. Kondrat'eva, K.A., [1980, p.76-101, rus] **34-4124**

Channel development in snow-filled valleys, Resolute, N.W.T., Canada. Woo, M.-K., et al, [1980, p.37-56, eng] **34-4191**

Square-grid spatial interpolation of snow cover for a hydrometeorological information system. Thompstone, R.M., et al, [1979, p.40-52, eng] **34-4204**

Snow cover effect

Model for traffic delay and its convenience and wage costs. Kennedy, W.J., et al, [1979, p.57-60, eng] **34-59**

Snow and road pavements in western Himalayas. Soin, J.S., et al, [1979, p.135-140, eng] **34-73**

Protection methods for railway switches in snow conditions. Ringer, T.R., [1979, p.308-313, eng] **34-97**

Certain characteristics of the atmospheric surface layer above snow. Elagina, L.G., et al, [1979, p.652-655, eng] **34-121**

Thermal equilibrium in the upper layer of the earth's crust. Pavlov, A.V., [1979, p.5-10, rus] **34-123**

Inspection of winter roads, Mackenzie Delta, following spring thaw. [1973, 16p., eng] **34-291**

[illegible] **34-338**

Gorbunova, I.A., [1978, p.49-53, rus] **34-339**

Long period dynamics of soil moisture and the state of steppe geosystems. Kochurov, B.I., [1979, p.36-44, rus] **34-673**

Ice cover parametrization in global models of ocean-atmosphere interactions. Belevich, M.IU., [1979, p.91-97, rus] **34-804**

Horizontal irradiation in the visible spectrum under ice in the Ivano-Arakhley lakes (Transbaikal). Vologdin, M.P., et al, [1979, p.274-281, rus] **34-880**

Light attenuation indices in the Ivano-Arakhley lakes (Transbaikal) during winter. Vologdin, M.P., et al, [1979, p.281-285, rus] **34-881**

Microclimates. Wendler, G., et al, [1979, p.79-93, eng] **34-1308**

Ground temperature variations during the economic development of the northern Amur River area. Balobaev, V.T., et al, [1979, p.74-88, rus] **34-1514**

Aircraft rolling resistance in loose dry snow; a theoretical analysis. Lidström, M., [1979, 30p., eng] **34-1564**

Effects of ice and snow cover on transmission of light in lakes. Maguire, R.J., [1975, 24p., eng] **34-1700**

Experimental laser attenuation in a snow environment. Miller, J.T., [1978, 84p., eng] **34-1703**

Thermal inertia of ground and the development of tangential frost heave forces. Sokolov, V.M., [1979, p.21-22, rus] **34-1710**

Seasonal freezing of ground in the non-chernozem areas of the RFSFR and its mapping. Tumel', N.V., et al, [1979, p.36-41, rus] **34-1757**

Methods of frozen ground excavation. Artemenko, M., [1979, p.32-34, 61, rus] **34-1773**

Forest and snow cover. Charlier, C., [1979, p.43-61, fre] **34-1780**

Influence of snow cover on physiological processes in forest plants. Tranquillini, W., [1979, p.123-137, ger] **34-1784**

Distribution of snow and damages by snow in an afforestation area in the subalpine zone at the "Sonnberg" near Haggen/Tyrol. Stern, R., [1979, p.145-154, eng] **34-1786**

Bending of young larch stems due to snow pressure. Frey, W., [1979, p.183-203, ger] **34-1788**

Deformation and damage to forest plants by snow forces. Wakabayashi, R., [1979, p.205-209, eng] **34-1789**

Evaluating snow cover effect on temperature field of freezing rocks, allowing for the dependence of thermophysical snow characteristics on temperature. Melamed, V.G., et al, [1979, p.24-33, rus] **34-1909**

Evaluating temperature regime of ground on the basis of system analysis of the effect of variability of temperature forming factors. Parmuzin, S.IU., [1979, p.53-57, rus] **34-1913**

Mudflow sources in the Ukrainian Carpathians. Alzenberg, M.M., et al, [1978, p.64-70, rus] **34-2050**

Problem of lichen-free zones in Arctic Canada. Koerner, R.M., [1980, p.87-94, eng] **34-2275**

Recent exogenic relief-forming processes in Transbaikal steppes. Titova, Z.A., et al, [1978, p.3-21, rus] **34-2294**

Freezing in forest soil as influenced by soil properties, litter, and snow. Thorud, D.B., et al, [1969, 41p., eng] **34-2608**

Gleying effect on dark gray heavy loam forest soils in West Siberia. Firsova, V.P., et al, [1979, p.143-156, rus] **34-2743**

Studies and forecasts of mudflows in construction. Dumitrashko, N.V., [1979, p.67-72, rus] **34-2748**

New data on rock temperatures in the Minusinsk trough and Kuznetskiy Alatau Range. Shats, M.M., [1978, p.19-26, rus] **34-2942**

Hydrochemical runoff and the intensity of soil salinization in West Siberia. Panin, P.S., [1979, p.141-170, rus] **34-3081**

Backscatter and emission of snow: literature review and recommendations for future investigations. Ulaby, F.T., et al, [1978, 138p., eng] **34-3319**

Illustration of the roles of snow in the evolution of the winter cover of a lake. Adams, W.P., et al, [1980, p.100-116, eng] **34-3322**

Modern trends in design, construction and operation of land reclamation systems under Siberian conditions. Abstracts of papers presented at a seminar. [1978, 292p., rus] **34-3353**

Temperature regime of southern chernozems in the Irkutsk region, subject to long seasonal freezing, and their thermal melioration. Karnaukhov, N.I., et al, [1978, p.94-95, rus] **34-3360**

Evaluating snow cover effect on the temperature field of seasonally frozen rocks. Melamed, V.G., et al, [1980, p.7-25, rus] **34-4117**

Experimental modeling of ecological consequences of winter recreation. Balderin, V.V., [1980, p.13-21, rus] **34-4143**

Vegetation-snow relationships in Labrador. Adams, W.P., et al, [1979, p.1-25, eng] **34-4202**

Snow cover stability

Alternate methods of avalanche control. Phase 4. LaChapelle, E.R., et al, [1978, 62p., eng] **34-1117**

Central avalanche hazard forecasting; summary of scientific investigations. LaChapelle, E.R., et al, [1978, 203p., eng] **34-1118**

[illegible] test area. De Quervain, M., [1979, p.215-232, ger] **34-1326**

Extreme snow conditions and their role in landscape formation. IAshina, A.V., [1979, p.143-146, rus] **34-2195**

Space techniques of studying snow cover of the Earth. Deleur, M.S., [1980, 77p., rus] **34-2601**

Snow avalanches in Zailiyskiy and Dzungarskiy Alatau. Severskii, I.V., [1978, 256p., rus] **34-3072**

Problems of mountain glaciology. [1977, 212p., rus] **34-3379**

Snow patch stability in the Aktru River glaciation basin. Dudukalova, N.I., [1977, p.103-106, rus] **34-3384**

Mechanism of avalanche formation from snow slabs with friable zones. Bolov, V.R., [1980, p.29-42, rus] **34-3415**

Determining optimal time for artificial triggering of fresh snow avalanches. Khalkechev, V.A., [1980, p.47-52, rus] **34-3417**

Regularities governing snow cover stability on slopes. Mironov, V.N., et al, [1980, p.53-56, rus] **34-3418**

Data units for telemetering physical and mechanical properties of snow cover on slopes. Bagov, M.M., et al, [1980, p.67-74, rus] **34-3420**

Snow cover observations at Avalanche Research Station, Toikanbetsu, northern Hokkaido, 12 (1977-1978 and 1978-1979). Huzioka, T., et al, [1979, p.17-32, jap] **34-3454**

Snow studies associated with the sideways move of DYE-3. Tobiasson, W., [1979, p.117-124, eng] **34-4210**

Snow cover stratification

See: Snow stratigraphy

Snow cover structure

Snow hydrology. Fitzharris, B.B., [1979, p.23-43, eng] **34-4**

Abo[illegible] snow drifts. Jumikis, A.R., [1979, p.254-258, eng] **34-89**

Structure of Altai snow cover. Reviakin, V.S., et al, [1973, p.28-36, rus] **34-108**

Symmetry as a methodological basis for the analysis of snow structure and metamorphism. Kolomyts, E.G., [1979, p.3-26, rus] **34-606**

Results of studying thermal regime of snow cover. Bolov, V.R., et al, [1979, p.35-48, rus] **34-608**

Phenomenological description of the acoustic emission response in several polycrystalline materials. St. Lawrence, W., [1979, p.223-228, eng] **34-747**

Snow classification in support of off-road vehicle technology. Irwin, G.J., [1979, 29p., eng] **34-1113**

Palynological data for the characterization of the snow-firn strata of the Gergeti Glacier. Psareva, T.V., et al, [1974, p.396-406, eng] **34-1208**

Alaskan snow. Benson, C.S., [1979, p.56-69, eng] **34-1306**

Local features of snow cover of Japan in January. Nakamura, T., [1979, p.175-177, eng] **34-1742**

Distribution and structure of snow cover under forest trees and full-grown forest. In der Gand, H., [1979, p.97-119, ger] **34-1783**

Statistical structure of the fields of precipitation and snow cover in mountains. Getker, M.I., [1979, p.40-51, rus] **34-2412**

Contributions from the Shinjo Branch, No.1 (1969-1979). [1979, Var.p., jap] **34-2539**

Profile observations of snow cover on level land in Shinjo City during the winter of 1973-1974. Higashiura, M., et al, [1979, p.37-54, jap] **34-2554**

Observation on vertical profiles of physical properties of snow cover on the ground surface at Shinjo City during the winter of 1974 to 1975. Higashiura, M., et al, [1979, p.1-26, jap] **34-2555**

Snow avalanches in Zailiyskiy and Dzungarskiy Alatau. Severskii, I.V., [1978, 256p., rus] **34-3072**

Recent glaciation of the Cherskiy mountain system. Shelnkman, V.S., [1979, p.185-194, rus] **34-3138**

Water-ice balance of Spitsbergen glaciers in the 1976-77 balance year. Gus'kov, A.S., [1979, p.211-214, rus] **34-3142**

Results of a numerical experiment of calculating physical characteristics of dry snow. Trofimova, E.B., [1978, p.26-33, rus] **34-3347**

Snow cover development and its dependence on winter temperature and slope exposition in the El'brus Mountain area. Kunaeva, G.M., et al, [1980, p.3-12, rus] **34-3412**

Avalanche regime of the El'brus Mountain area. Urumbaev, N.A., [1980, p.13-20, rus] 34-3413
Friable zones in snow cover and their meaning in avalanche formation. Bolov, V.R., et al, [1980, p.21-28, rus] 34-3414
Mechanism of avalanche formation from snow slabs with friable zones. Bolov, V.R., [1980, p.29-42, rus] 34-3415
Regularities governing snow cover stability on slopes. Mironov, V.N., et al, [1980, p.53-56, rus] 34-3418
Structure and properties of snow cornices, 1. Naruse, R., et al, [1979, p.41-51, jap] 34-3490
Avalanche danger on Lysaya Mountain (southern Sikhote Alin range). Ratnikov, A.V., [1979, p.62-63, rus] 34-3566
Oxygen isotope studies of ice cores from the ice-divide of Grønfjord and Fritjof glaciers (West Spitsbergen Island). Punning, IA.M.K., et al, [1979, p.173-177, rus] 34-3709

Snow cover thickness

See: Snow depth

Snow crystal growth

Experimental studies of snow accretion on power lines. Fujino, K., et al, [1979, p.95-100, eng] 34-67
Energy required for the formation of liquid spherical layers on globular nuclei and thermodynamic equilibrium conditions of ice-water-vapor systems. Badakhov, Kh.I., [1979, p.27-34, rus] 34-607
Growth rates of crystal grains in snow at Mizuho Station, Antarctica. Narita, H., et al, [1979, p.11-17, eng] 34-2147
Twin structures in ice. Furukawa, Y., [1979, p.259-265, jap] 34-2171
New apparatus to produce fresh snow. Nakamura, H., [1979, p.229-237, jap] 34-2540

Snow crystal nuclei

Energy required for the formation of liquid spherical layers on globular nuclei and thermodynamic equilibrium conditions of ice-water-vapor systems. Badakhov, Kh.I., [1979, p.27-34, rus] 34-607
On snow crystals of double plate type grown from ice fragments. Yamami, N., et al, [1980, p.1-7, jap] 34-3153

Snow crystal structure

Experimental studies of snow accretion on power lines. Fujino, K., et al, [1979, p.95-100, eng] 34-67
Symmetry as a methodological basis for the analysis of snow structure and metamorphism. Kolomyts, E.G., [1979, p.3-26, rus] 34-606
Antarctic ice as a ceramic. Maeno, N., [1978, p.663-669, jap] 34-1165
Snow crystals. Perla, R., [1978, 19p., eng] 34-1356
Grain clusters in wet snow. Colbeck, S.C., [1979, p.371-384, eng] 34-1698
Twin structures in ice. Furukawa, Y., [1979, p.259-265, jap] 34-2171
Volumetric constitutive law for snow based on a neck growth model. Brown, R.L., [1980, p.161-165, eng] 34-2388
Complexity of snowflakes. Papentin, F., [1980, p.174-177, eng] 34-3012

Snow deformation

Accelerating strain preceding an avalanche. Sommerfeld, R.A., [1979, p.402-404, eng] 34-555
Phenomenological description of the acoustic emission response in several polycrystalline materials. St. Lawrence, W., [1979, p.223-228, eng] 34-747
Volumetric constitutive law for snow subjected to large strains and strain rates. Brown, R.L., [1979, 13p., eng] 34-913
Influence of snow deformation on the traffic of low-powered amphibian airsleighs. Sboev, V.V., [1974, p.429-433, eng] 34-1209
Volumetric constitutive law for snow based on a neck growth model. Brown, R.L., [1980, p.161-165, eng] 34-2388
Analysis of plastic shock waves in snow. Brown, R.L., [1979, 14p., eng] 34-2528
Space techniques of studying snow cover of the Earth. Deleur, M.S., [1980, 77p., rus] 34-2601
Rectangular plate loading test on snow-mobility of tracked oversnow vehicle. Muro, T., et al, [1980, p.17-24, jap] 34-3155
Structure and properties of snow cornices, 1. Naruse, R., et al, [1979, p.41-51, jap] 34-3490

Snow density

Developments in snow measurements with gamma radiation. Paulin, G., [1978, p.56-62, eng] 34-32
Results of studying thermal regime of snow cover. Bolov, V.R., et al, [1979, p.35-48, rus] 34-608
Mixing formulas for determining the free water content of wet snow from measurements of the dielectric constant. Denoth, A., et al, [1978, p.73-80, eng] 34-666
Snow cover in the USSR. Kopanev, I.D., [1978, 181p., rus] 34-846
Temperature and the density dependences on hardness of artificially compacted snow. Kobayashi, T., [1978, p.267-292, jap] 34-939
Variation of snow properties with elevation in New Hampshire and Vermont. Dingman, S.L., et al, [1979, p.93-100, eng] 34-1010
Errors in determining snow cover characteristics in the northeast European USSR. Vershinina, L.K., et al, [1979, p.113-121, rus] 34-1082
Preliminary results of passive microwave snow experiment during February and March 1978. Chang, A.T.C., et al, [1979, 114p., eng] 34-1111
Optimal averaging principle and its use in hydrologic forecasts and snow surveying reorganizations. Getker, M.I., et al, [1979, p.41-50, rus] 34-1125
Empirical method of avalanche forecasting. Moskalev, IU.D., [1979, p.51-60, rus] 34-1126
Methods of forecasting wet snow avalanches in the Dukant station area. Kharitonov, G.G., [1979, p.61-67, rus] 34-1127
Snowpack optical properties in the infrared. Berger, R.H., [1979, 16p., eng] 34-1366
Maximum snow depth distribution over the West Siberian Plain. Rutkovskaia, N.V., [1967, p.132-148, rus] 34-1993
Compactive viscosity of snow and its climatic implications at Mizuho Station, Antarctica. Maeno, N., et al, [1979, p.18-31, eng] 34-2148
Snow cover of the Altai-Sayan area. Reviakin, V.S., et al, [1979, p.109-120, rus] 34-2190
Internal friction of snow and ice low frequency. Nakamura, T., et al, [1979, p.285-289, eng] 34-2541
Snow cover of the Kirgiz Highlands. Dikikh, A.N., [1978, 101p., rus] 34-2668
Determination of the amount of solid precipitation under the forest canopy. Kolesov, A.F., [1979, p.113-116, eng] 34-2887
Mapping New Zealand and Antarctic snowpack from LANDSAT. Thomas, I.L., et al, [1980, p.53-72, eng] 34-3514
Airborne gamma survey of soil moisture and snow cover. Nikiforov, M.V., ed, [1980, 128p., rus] 34-3541
Space-time variations of snow density on fields in the European USSR. Shurupova, A.I., [1980, p.102-107, rus] 34-3553
Seasonal snow cover. Male, D.H., [1980, p.305-395., eng] 34-3661
Pressure waves in snow. Brown, R.L., [1980, p.99-107, eng] 34-3802
Vegetation-snow relationships in Labrador. Adams, W.P., et al, [1979, p.1-25, eng] 34-4202

Snow depth

Snow cover data, Canada, winter 1977-78. [1978, 51p., eng] 34-591
Stratigraphic study of the snow cover in Khumbu Himal. Inoue, J., et al, [1977, p.26-29, eng] 34-900
Square grid system for modeling snow cover in small watersheds. Dickison, R.B.B., et al, [1979, p.71-76, eng] 34-1007
Variation of snow properties with elevation in New Hampshire and Vermont. Dingman, S.L., et al, [1979, p.93-100, eng] 34-1010
Microwave measurements of snow stratigraphy and water equivalence. Boyne, H.S., et al, [1979, p.20-26, eng] 34-1052
Differences in the formation of spring runoff in forests of the European USSR. Krestovskii, O.I., et al, [1979, p.3-14, rus] 34-1076
Spring runoff from small drainage basins of the Dubovskaya hydrometeorological station. Bystrov, A.V., [1979, p.26-38, rus] 34-1078
Distribution of snow cover water reserves in the northeast European USSR. Vershinina, L.K., et al, [1979, p.58-67, rus] 34-1079
Errors in determining snow cover characteristics in the northeast European USSR. Vershinina, L.K., et al, [1979, p.113-121, rus] 34-1082
Reorganization of snow surveying network points in the Central Asian mountains. Getker, M.I., et al, [1979, p.15-23, rus] 34-1122
Snow cover distribution in the Obikhingou River basin. Sannikov, A.G., [1979, p.24-30, rus] 34-1123
Optimal averaging principle and its use in hydrologic forecasts and snow surveying reorganizations. Getker, M.I., et al, [1979, p.41-50, rus] 34-1125
Empirical method of avalanche forecasting. Moskalev, IU.D., [1979, p.51-60, rus] 34-1126
Methods of forecasting wet snow avalanches in the Dukant station area. Kharitonov, G.G., [1979, p.61-67, rus] 34-1127
Variations in snow distribution over Arctic Ocean ice. Buzuev, A.IA., et al, [1979, p.76-85, rus] 34-1387
Ways of improving winter maintenance of roads. Bialobzheskii, G.V., et al, [1979, p.9-11, rus] 34-1419
Passive microwave applications to snowpack monitoring using satellite data. Hall, D.K., et al, [1979, 15p., eng] 34-1569
Snow depth measurements in the Sonnblick region, 1927-1956. Roller, M., [1957, p.43-45, ger] 34-1658
Snow conditions in the Sonnblick region. Steinhauser, F., [1968, p.3-42, ger] 34-1659
Secular variations of snow cover conditions in Austria. Steinhauser, F., [1970, p.3-19, ger] 34-1663
Snow behavior and its economic importance for Austria. Steinhauser, F., [1974, p.3-42, ger] 34-1671
Conditions of glaciers in the Grossglockner and Sonnblick regions in the 1975/76 ice budget year. Tollner, H., [1977, p.30-36, ger] 34-1677
Snow and avalanches in the Swiss Alps, winter 1977-1978 [1979, 152p., ger] 34-1704
Snow and avalanches in the Davos region. Föhn, P., et al, [1979, p.29-40, ger] 34-1705
Snow and avalanche conditions in the Swiss Alps. Schild, M., et al, [1979, p.41-88, ger] 34-1706
Accidents and damage caused by avalanches. Schild, M., et al, [1979, p.89-152, ger] 34-1707
Local features of snow cover of Japan in January. Nakamura, T., [1979, p.175-177, eng] 34-1742
Remote assessment of snow distribution and avalanche activity. Rychetnik, J., [1979, p.81-95, ger] 34-1782
General and applied climatology. Kobysheva, N.V., ed, [1979, 104p., rus] 34-1814
Daily snow accumulation in Belorussia. Volobueva, G.V., [1979, p.58-66, rus] 34-1818
Snow measurements on the antarctic shelf ice. Kozlovskii, A.M., [1979, p.74-77, rus] 34-1830
Research on deep thermal drilling of Antarctic ice. Kudriashov, B.B., et al, [1973, p.35-36, rus] 34-1958
Maximum snow depth distribution over the West Siberian Plain. Rutkovskaia, N.V., [1967, p.132-148, rus] 34-1993
Heavy snowfalls and avalanches in the 1975-76 winter season in the Ukrainian Carpathian. Grishchenko, V.F., et al, [1978, p.86-90, rus] 34-2052
Ice thickness climatology for Canadian stations. Richardson, F.A., et al, [1975, 60p., eng] 34-2164
Time series analyses on the maximum depth of snow cover in Akita city. Ito, T., [1979, p.267-275, jap] 34-2172
Snow cover of the Altai-Sayan area. Reviakin, V.S., et al, [1979, p.109-120, rus] 34-2190
Snow cover distribution in the mountains of Tadzhikistan. Burichenko, A.I., et al, [1979, p.120-126, rus] 34-2191
Topographic effect on snow cover distribution in mountains. Chirkova, A.A., [1979, p.126-133, rus] 34-2192
Two criteria determining the structure of snow surveying and precipitation measuring networks in mountain basins. Getker, M.I., et al, [1979, p.133-139, rus] 34-2193
Landscape-geographic technique of mapping snow cover under complicated orographic conditions. Kondakova, N.L., [1979, p.139-143, rus] 34-2194
Extreme snow conditions and their role in landscape formation. IAshina, A.V., [1979, p.143-146, rus] 34-2195
International conference on meteorology of the Carpathian Mountains. Proceedings. [1979, 415p., rus] 34-2299
Relationship between annual snow water content maxima and elevation in medium high mountains in the German Democratic Republic. Zerche, M., [1979, p.269-273, rus] 34-2301
Statistical structure of the fields of precipitation and snow cover in mountains. Getker, M.I., [1979, p.40-51, rus] 34-2612
Destructive avalanches in Japan (No.1)—of Yamagata-ken (1929-1975), Niigata-ken (1945-1974) and a whole country (1927-1976). [1979, p.1-92, jap] 34-2556
Space techniques of studying snow cover of the Earth. Deleur, M.S., [1980, 77p., rus] 34-2601
Statistical amount of snow on the regions planned for the construction of Shinkansen. Shinojima, K., et al, [1976, p.136-127, eng] 34-2655
Snow cover of the Kirgiz Highlands. Dikikh, A.N., [1978, 101p., rus] 34-2668
Types of snow cover development determining avalanche formation processes in the El'brus Mountain area. Salova, T.A., [1979, p.223-228, rus] 34-3145
Physical characteristics of snow cover on the west slope of Mt. Asahidake, Hokkaido. Nishimura, H., et al, [1980, p.9-15, jap] 34-3154
Snow cover and precipitation in the mountains of Central Asia. Getker, M.I., ed, [1978, 98p., rus] 34-3344
Influence of slope orientation and dissected topography on the statistical structure of snow depth. Chirkova, A.A., [1978, p.64-77, rus] 34-3350
Snow survey in east slope of Mt. Teine, Hokkaido. Suizu, S., et al, [1979, p.7-15, jap] 34-3453
Regional characteristics of the snow cover in Hokkaido. Akitaya, E., et al, [1979, p.33-40, jap] 34-3489
Distribution of water equivalent of snow in Mt. Daisetsu, Hokkaido. Yamada, T., et al, [1979, p.63-71, jap] 34-3492
D-type snow depth recorder using optical fibers. Aburakawa, H., [1979, p.73-79, jap] 34-3493
Mechanism of a delay in melting away of a snow cover in an area with low air temperature and deep snow (the Uryu Valley) in Hokkaido. Kojima, K., et al, [1979, p.93-111, jap] 34-3495
Mapping New Zealand and Antarctic snowpack from LANDSAT. Thomas, I.L., et al, [1980, p.53-72, eng] 34-3514
Present state of airborne gamma surveys of snow cover and soil moisture. Nikiforov, M.V., [1980, p.6-27, rus] 34-3543
Determining snow depth on winter crop fields from aerial gamma survey data. Shilin, G.V., [1980, p.77-93, rus] 34-3551
Snow depth used as a predictor in forecasting mean monthly air temperature anomalies over southern West Siberia. Eremin, V.V., et al, [1979, p.125-129, rus] 34-3582

Snow depth *(cont.)*
Aerial gamma survey of snow cover in mountains. Nikiforov, M.V., [1980, p.77-83, rus] 34-3641
Determining snow cover characteristics in unstudied areas. Getker, M.I., et al, [1979, p.79-84, rus] 34-3695
Geochemical structure of West Sayan foothill geosystems. Kochurov, B.I., et al, [1977, p.59-77 rus] 34-3815
Characteristics of automatic snow depth monitoring. Vodop'ianova, L.S., et al, [1978, p.40-42, eng] 34-3961
Snow accumulation on Central Tien Shan glaciers. Safonova, A.A., [1980, p.58-67, rus] 34-4006
Estimating water equivalent snow depth from related meteorological variables. Steyaert, L.T., et al, [1980, 39p., eng] 34-4199
Vegetation-snow relationships in Labrador. Adams, W.P., et al, [1979, p.1-25, eng] 34-4202
Breakup of streams in the Canadian high Arctic. Woo, M., [1979, p.95-107, eng] 34-4208
Ultrasound low power sonar for snow thickness measurements. Caillet, A., et al, [1979, p.108-116, eng] 34-4209

Snow deterioration
Accumulation and deterioration of snow cover on Sonnblick during meteorological changes. Lauscher, A., et al, [1973, p.3-30, ger] 34-1668
Snow cover of the Kirgiz Highlands. Dikikh, A.N., [1978, 101p., rus] 34-2668

Snow distribution
See: Snow cover distribution

Snow drifts
See: Snowdrifts

Snow elasticity
Non-linear theory relating to visco-compressible materials with applications to snow mechanics. Costes, N.C., [1965, 250p., eng] 34-2421

Snow electrical properties
Mixing formulas for determining the free water content of wet snow from measurements of the dielectric constant. Denoth, A., et al, [1978, p.73-80, eng] 34-666
New results on dielectric relaxation of snow samples. Ambach, W., et al, [1978, p.201-208, ger] 34-1270
Backscatter and emission of snow: literature review and recommendations for future investigations. Ulaby, F.T., et al, [1978, 138p., eng] 34-3319
Snow as a mixed dielectric: on the geometry of water inclusions. Ambach, W., et al, [1979, p.65-72, ger] 34-3974

Snow erosion
Drainage systems associated with snowmelt, South Shetland Islands, Antarctica. Birnie, R.V., et al, [1980, p.57-62, eng] 34-4192

Snow evaporation
Proceedings of the Scientific Conference on Altai Glaciology Problems. [1963, 259p., rus] 34-106
Glaciological and climatological significance of ablation periods. Olelnik, I.IA., [1973, p.87-92, rus] 34-110
Computation of snow evaporation from Sonnblick Mountain. Lauscher, A., et al, [1976, p.3-10, ger] 34-1674
Snow cover of the Kirgiz Highlands. Dikikh, A.N., [1978, 101p., rus] 34-2668

Snow fences
Wind tunnel analysis of the effects of planting at highway grade separation structures. Final report. [1979, 210p., eng] 34-368
Fences help change snow from liability to asse' [1979, p.12-15, 17, eng] 34-650
Influence of snow fences on deposition and quality of the snow in an avalanche starting zone. Brugger, F., et al, [1978, p.215-225, ger] 34-1272
Water yield improvement from alpine areas: the status of our knowledge. Martinelli, M., Jr., [1975, 21p., eng] 34-2510

Snow gages
See: Precipitation gages

Snow hardness
Temperature and the density dependences on hardness of artificially compacted snow. Kobayashi, T., [1978, p.267-292, jap] 34-939
Influence of snow fences on deposition and quality of the snow in an avalanche starting zone. Brugger, F., et al, [1978, p.215-225, ger] 34-1272
Regional characteristics of the snow cover in Hokkaido. Akitaya, E., et al, [1979, p.33-40, jap] 34-3489

Snow hydrology
Snow hydrology. Fitzharris, B.B., [1979, p.23-43, eng] 34-4
Mountain watershed simulation model. Leavesley, G.H., et al, [1979, p.379-386, eng] 34-1035
Proceedings of the 47th annual meeting. [1979, 118p., eng] 34-1049
Application of meteor burst telemetry to snow hydrology. Burroughs, H.F., et al, [1979, p.27-37, eng] 34-1053
Comparison of centrifuge and freezing calorimeter methods for measuring free water in snow. Jones, R.N., [1979, 44p., eng] 34-1174
Data of glaciological studies. Saidi, M.D., ed, [1974, 713p., eng] 34-1193
Method for the determination of the hydraulic conductivity of snow. Denoth, A., et al, [1978, p.209-213, ger] 34-1271
Snow cover in forest stands. Keller, H.M., [1979, p.17-29, eng] 34-1778
Deuterium and snow hydrology. Judy, C.H., [1971, 107p., eng] 34-2066
Relationships between snow cover and winter losses of dissolved substances from a mountain watershed. Lewis, W.M., Jr., et al, [1980, p.11-17, eng] 34-2273
Hydrologic aspects related to the management of alpine areas. Johnston, R.S., et al, [1979, p.65-75, eng] 34-2961
LANDSAT derived snowcover as an input variable for snowmelt runoff forecasting in south central Colorado. Shafer, B.A., et al, [1980, p.151-169, eng] 34-3518
Application of satellite imagery to hydrologic modeling snowmelt runoff in the southern Sierra Nevada. Hannaford, J.F., et al, [1980, p.201-222, eng] 34-3521
Cost/benefit analysis for the Operational Applications of Satellite Snowcover Observations (OASSO). Castruccio, P.A., et al, [1980, p.239-254, eng] 34-3522
National handbook of recommended methods for water-data acquisition. Chapter 9. Snow and ice. [1977, 34p., eng] 34-4162
Proceedings of the 36th annual meeting. [1979, 149p., eng] 34-4201
Square-grid spatial interpolation of snow cover for a hydrometeorological information system. Thompstone, R.M., et al, [1979, p.40-52, eng] 34-4204

Snow ice interface
Equilibrium surface temperature climate model applied to first year sea ice growth. Miller, J.D., [1979, 183p., eng] 34-1295
Ice accretion beneath snow cover. Raspopin, G.A., et al, [1977, p.101-111, rus] 34-3178

Snow impurities
Trace element content of Greenland snows along an east-west transect. Boutron, C., [1979, p.1253-1258, eng] 34-103
Reduction of contamination problems in sampling of antarctic snows for trace element analysis. Boutron, C., [1979, p.127-130, eng] 34-728
Preconcentration of dilute solutions at the 1/1,000,000 microgram/g level by nonboiling evaporation with variable variance calibration curves. Boutron, C., et al, [1979, p.140-145, eng] 34-729
Determination of the stratospheric residence time from the total beta activity of antarctic and Greenland snows. Pourchet, M., et al, [1979, p.365-367, eng] 34-730
Alkali and alkaline earth enrichments in aerosols deposited in antarctic snows. Boutron, C., [1979, p.919-924, eng] 34-731
Automatic apparatus for measuring low-level beta activity in snow samples. Pinglot, J.F., [1978, 103p., fre] 34-937
Episodic variations of snow contamination of an Arctic snowfield. Gjessing, Y.T., [1977, p.643-647, eng] 34-1842
Is the environment still contaminated by radioactive fallout. Ambach, W., [1978, p.165-169, ger] 34-2075
Investigation of aerosol fallout in long-range pollutant transport. Zhigalovskaia, T.N., et al, [1980, p.47-51, rus] 34-3663

Snow line
Application of satellite images for monitoring snow-line in the Yukon and Northwest Territories. Dey, B., et al, [1979, p.473-483, eng] 34-472
Mountain geology and land-use implications; proceedings of the symposium of the International Geographical Union, Commission on High-altitude Geoecology, Caucasus Mountains, USSR, July 1976. Ives, J.D., ed, [1978, p.159-548, eng] 34-790
Upper forest limit in the mountains of the Boreal Zone of the USSR. Gorchakovskii, P.L., et al, [1978, p.349-363, eng] 34-800
Relation between orography and recent glaciation of Zailiyskiy Alatau. Vilesov, E.N., [1977, p.60-76, rus] 34-1094
New data on recent glaciation of the Fedchenko glacier system (for the "atlas of snow-ice resources of the world"). Shchetinnikov, A.S., [1979, p.113-121, rus] 34-1133
Model of snow line shifting on a glacier surface during ablation periods. Konovalov, V.G., [1979, p.130-138, rus] 34-1136
Recent glaciation of the Kungey Alatau Range. Vilesov, E.N., [1979, p.132-142, rus] 34-1982
Summary of theoretical results of glaciological investigations in the Altais. Tronov, M.V., [1967, p.3-15, rus] 34-1988
Plotting elevations of the alimentation and accumulation lines for Gissar-Alay glaciers. Rototaeva, O.V., [1979, p.42-51, rus] 34-2179
Map of the second chionosphere level (Level 365) in Western Tien Shan. Bassin, N.S., et al, [1979, p.138-143, rus] 34-3129
Snow cover and precipitation in the mountains of Central Asia. Getker, M.I., ed, [1978, 98p., rus] 34-3344
Seasonal snow line dynamics as indication of snow reserve gradient. Bassin, N.S., et al, [1978, p.22-25, rus] 34-3346
Problems of mountain glaciology. [1977, 212p., rus] 34-3379
Glacio-climatology as a connecting scientific discipline, its problems and goals. Tronov, M.V., [1977, p.3-11, rus] 34-3380
Use of satellite data in runoff forecasting in the heavily-forested, cloud-covered Pacific Northwest Dillard, J.P., et al, [1980, p.127-150, eng] 34-3517
Utilization of spaceborne microwave radiometers for monitoring snowpack properties Rango, A., et al, [1979, p.25-40, eng] 34-4000

Snow loads
Proceedings of the 35th annual meeting. [1978, 218p., eng] 34-26
Wind and snow load factors for use in LRFD. Discussion. Simiu, E., [1979, p.2130-2132, eng] 34-962
Design snow loads. [1968, 4 leaves, eng] 34-1239
Snow load design criteria for steel buildings. [1978, 6 leaves, eng] 34-1240
Fabrication and testing of pressurized rib tents. Steeves, E.C., [1979, 103p., eng] 34-1363
Electromagnetic radiation of snow and ice during dynamic processes. Kachurin, L.G., et al, [1979, p.583-585, rus] 34-1638
Snow and ice accumulation around solar collector installations. O'Rourke, M.J., [1979, 69p., eng] 34-1647
Symposium on Human Settlements Planning and Development in the Arctic. [1978, c455p., eng] 34-1767
Snow forces on forest plants. Salm, B., [1979, p.157-181, eng] 34-1787
Bending of young larch stems due to snow pressure. Frey, W., [1979, p.183-203, ger] 34-1788
Deformation and damage to forest plants by snow forces. Wakabayashi, R., [1979, p.205-209, eng] 34-1789
Assessment and analysis of snow breakage in fir trees in the Pfalz Forest, 1968 and 1975. Lessel, A., [1979, p.211-215, ger] 34-1790
Winter roof collapses: bad luck, bad construction or bad design. Seltz-Petrash, A., [1979, p.42-45, eng] 34-2033
Snow load analysis for structures. Rusten, A., et al, [1980, p.11-21, eng] 34-2409
Roof snow loads in Canada. Taylor, D.A., [1980, p.1-18, eng] 34-2873
Types of snow cover development determining avalanche formation processes in the El'brus Mountain area. Salova, T.A., [1979, p.223-228, rus] 34-3145
Rectangular plate loading test on snow-mobility of tracked oversnow vehicle. Muro, T., et al, [1980, p.17-24, jap] 34-3155
Vane cone test of snow—mobility of tracked oversnow vehicle. Muro, T., et al, [1980, p.25-32, jap] 34-3156
Snow and avalanche loads on remote-control snow surveying installations. Bagov, M.M., et al, [1980, p.75-81, rus] 34-3421
Forces on structures impacted and enveloped by avalanches. Pedersen, R.R., et al, [1979, p.529-534, eng] 34-3789
Building standards and regulations. Part 2: Design standards. Chapter 6: Loads and effects. [1980, 92p., eng] 34-3897
Estimating water equivalent snow depth from related meteorological variables. Steyaert, L.T., et al, [1980, 39p., eng] 34-4199
Estimating water equivalent depth from related meteorological variables. Steyaert, L.T., et al, [1979, p.26-39, eng] 34-4203

Snow manufacturing
New apparatus to produce fresh snow. Nakamura, H., [1979, p.229-237, jap] 34-2540
See also: Artificial snow

Snow mechanics
Snow forces on forest plants. Salm, B., [1979, p.157-181, eng] 34-1787
Volumetric constitutive law for snow based on a neck growth model. Brown, R.L., [1980, p.161-165, eng] 34-2388
Non-linear theory relating to visco-compressible materials with applications to snow mechanics. Costes, N.C., [1965, 250p., eng] 34-2421
Data units for telemetering physical and mechanical properties of snow cover on slopes. Bagov, M.M., et al, [1980, p.67-74, rus] 34-3420
Strain rate and stresses of snow on a mountain slope, Toikanbetsu, northern Hokkaido, Pt.2. Huzioka, T., et al, [1979, p.33-37, jap] 34-3455
Seasonal snow cover. Male, D.H., [1980, p.305-395., eng] 34-3661

Snow melting
Snow cover in the USSR. Kopanev, I.D., [1978, 181p., rus] 34-846
Review of snow melt in the mountain environment. Obled, C., et al, [1979, p.179-204, eng] 34-1017
Measured thermal regime within a snow cover just before the onset of melt. Granberg, H.B., [1979, p.279-287, eng] 34-1024
Interactive model of snowpack accumulation and melt dynamics in forested conditions. Ffolliott, P.F., et al, [1979, p.359-368, eng] 34-1033
Calculating sediments washed out by streams on slopes during spring melt. Zubkova, K.M., [1979, p.26-35, rus] 34-1106

Calculating and forecasting glacier ablation in Central Asia. Konovalov, V.G., [1979, 232p., rus] 34-1139
Disappearance of snowcover depending on radiation and relief. Meier, R., et al, [1979, p.151-158, ger] 34-1264
Weather and spring breakup. Nibler, G.J., [1979, p.70-78, eng] 34-1307
Protection from glacial mudflows. Voltkovskiĭ, K.F., et al, [1979, p.191-198, rus] 34-1553
Snow accumulation and disappearance as influenced by elevation, aspect and vegetation type in the State of Hesse, Germany. Brechtel, H.M., et al, [1979, p.31-42, eng] 34-1779
Using distribution functions in calculating seasonal snow melting on slopes around the Dzhankuat glacier. Pylev, I.V., et al, [1979, p.169-173, rus] 34-2199
Hydrometeorological conditions of the formation of snow-loaded streams. Freidlin, V.S., [1979, p.198-200, rus] 34-2206
Experimental study on the most reasonable amount of ground water to be sprinkled for melting the freshly fallen snow on the roads. Nakamura, H., [1979, p.117-147, jap] 34-2549
Snow melting by sprinkling ground water. Higashiura, M., [1979, p.2834-2841, jap] 34-2550
Snow melting on roofs by sprinkling ground water. Higashiura, M., [1979, p.215-225, eng] 34-2551
Basic study of snow melting on roofs. Higashiura, M. [1979, p.17-19, jap] 34-2552
On the present situation of snow removal and melting from greenhouses. Higashiura, M., [1979, p.131-140, jap] 34-2553
Observational data of ground water in the Shinjo basin (1) —Shallow ground water level and water temperature (1970-1975). Higashiura, M., et al, [1979, p.1-95, jap] 34-2557
Space techniques of studying snow cover of the Earth. Deleur, M.S., [1980, 77p., rus] 34-2601
Study of preventive measures from the accumulation of snow on the railway track. Hikita, S., [1974, p.76-78, eng] 34-2651
Application of fluidic devices to a sprinkling nozzle with the aim of melting snow on the track. Takeuchi, Y., et al, [1976, p.41-42, eng] 34-2654
Empirical formulas for calculating melting on glaciers. Konovalov, V.G., [1978, p.41-53, rus] 34-3349
Possibility of mudflows in the Angarakan River valley. Murzin, IU.A., [1979, p.27-31, rus] 34-3468
Mechanism of a delay in melting away of a snow cover in an area with low air temperature and deep snow (the Uryu Valley) in Hokkaido. Kojima, K., et al, [1979, p.93-111, jap] 34-3495
Wind features of Moshiri basin. Ishikawa, N., et al, [1979, p.113-119, jap] 34-3496
Calculating dates of stable snow in the Central Asian and Kazakhstan mountains from standard meteorological information. Severskiĭ, I.V., et al, [1979, p.71-79, rus] 34-3694
Melting of snow on attic roofs of railroad buildings. Cheremisov, K.M., et al, [1978, p.128-136, rus] 34-3916
Formation and development of bald-peak ice in the mountains of Central Tien Shan, Siberia and the Far East. Tarakanov, A.G., [1980, p.96-107, rus] 34-4009
Joint analysis of satellite and aerial photographs and ground-based measurements for estimating the spatial distribution and temporal variations of snow cover. Kupriianov, V.V., [1978, p.81-88, eng] 34-4057
Drainage systems associated with snowmelt, South Shetland Islands, Antarctica. Birnie, R.V., et al, [1980, p.57-62, eng] 34-4192
See also: Snowmelt

Snow metamorphism
See: Metamorphism (snow)

Snow morphology
Symmetry as a methodological basis for the analysis of snow structure and metamorphism. Kolomyts, E.G., [1979, p.3-26, rus] 34-606

Snow optics
Solar and net radiation over snow. Petzold, D.E., [1974, 77p., eng] 34-132
Diurnal variations of spectral brightness of a cloud layer. Kozhaev, D.A., [1979, p.94-100, rus] 34-614
Snowpack optical properties in the infrared. Berger, R.H., [1979, 16p., eng] 34-1366
Effects of ice and snow cover on transmission of light in lakes. Maguire, R.J., [1975, 24p., eng] 34-1700
Experimental laser attenuation in a snow environment. Miller, J.T., [1978, 84p., eng] 34-1703
Annual cycle of surface albedo. Kukla, G., et al, [1980, p.56-68, eng] 34-2787
Snow cover effect on annual variations of reflected radiation and albedo in the Caucasus. Samukashvili, R.D., [1980, p.111-122, rus] 34-3420
Experimental evaluation of polarization coefficients of light reflected from snow surfaces. Mel'kher, A.N., et al, [1979, p.113-116, rus] 34-3613
Microwave brightness of polar firn as measured by Nimbus 5 and 6 ESMR. Chang, A.T.C., et al, [1980, p.85-91, eng] 34-3800

Snow pellets
Microphysics of clouds and precipitation. Pruppacher, H.R., et al, [1978, 714p., eng] 34-2515

Snow permeability
Review of water movement in snow. Wankiewicz, A., [1979, p.222-252a, eng] 34-1020
Some experimental data on water percolation through homogeneous snow. Denoth, A., et al, [1979, p.253-256, eng] 34-1021
Antarctic ice as a ceramic. Maeno, N., [1978, p.663-669, jap] 34-1165
Method for the determination of the hydraulic conductivity of snow. Denoth, A., et al, [1978, p.209-213, ger] 34-1271
Pendular-funicular liquid transition in snow. Denoth, A., [1980, p.93-97, eng] 34-3801

Snow physics
Observations on special characteristics of lake snowcover. Adams, W.P., et al, [1978. p.117-128, eng] 34-37
About snow drifts. Jumikis, A.R., [1979, p.254-258, eng] 34-89
Snow accumulation and distribution. Gray, D.L., et al, [1979, p.3-33, eng] 34-1002
Energy budget of a snow cover. McKay, D.C., [1979, p.125-134, eng] 34-1012
Reconnaissance snow surveys of the National Petroleum Reserve in Alaska, April 1977 and April-May 1978. Sloan, C., et al, [1979, 31p., eng] 34-1145
Two-stream theory of reflectance of snow. Choudhury, B.J., et al, [1979, p.63-68, eng] 34-1166
Alaskan snow cover. Benson, C.S., [1979, p.19-25, eng] 34-1409
Aircraft rolling resistance in loose dry snow; a theoretical analysis. Lidström, M., [1979, 30p., eng] 34-1564
Grain clusters in wet snow. Colbeck, S.C., [1979, p.371-384, eng] 34-1698
Compactive viscosity of snow and its climatic implications at Mizuho Station, Antarctica Maeno, N., e: al, [1979, p.18-31, eng] 34-2148
Internal friction of snow and ice low frequency. Nakamura, T., et al, [1979, p.285-289, eng] 34-2541
Observation on vertical profiles of physical properties of snow cover on the ground surface at Shinjo City during the winter of 1974 to 1975. Higashiura, M., et al, [1979, p.1-26, jap] 34-2555
Study on flying snow with the prototype high speed snow plough for railway. Shinojima, K., [1975, p.64-69, eng] 34-2653
Physical characteristics of snow cover on the west slope of Mt. Asahidake, Hokkaido. Nishimura, H., et al, [1980, p.9-15, jap] 34-3154
Snow cover and precipitation in the mountains of Central Asia. Getker, M.I., ed, [1978, 98p., rus] 34-3344
Results of a numerical experiment of calculating physical characteristics of dry snow. Trofimova, E.B., [1978, p.26-33, rus] 34-3347
Forecasting fresh snow avalanches using discriminant analysis. Drozdovskaia, N.F., et al, [1977, p.148-156, rus] 34-3388
Report of pit-wall observations of snow cover in Sapporo, 1978-1979. Endo, Y., et al, [1979, p.1-5, jap] 34-3452
Snow cover observations at Avalanche Research Station, Toikanbetsu, northern Hokkaido, 12 (1977-1978 and 1978-1979). Huzioka, T., et al, [1979, p.17-32, jap] 34-3454
Strain rate and stresses of snow on a mountain slope, Toikanbetsu, northern Hokkaido, Pt.2. Huzioka, T., et al, [1979, p.33-37, jap] 34-3455
Snow as a mixed dielectric: on the geometry of water inclusions. Ambach, W., et al, [1979, p.65-72, ger] 34-3974
Snow accumulation and snow stratigraphy on Riiser-Larsenisen, Dronning Maud Land, Antarctica. Repp, K., [1978, p.81-92, eng] 34-3988

Snow recrystallization
Proceedings of the Scientific Conference on Altai Glaciology Problems. [1963, 259p., rus] 34-106
Structure of Altai snow cover. Reviakin, V.S., et al, [1973, p.28-36, rus] 34-108
Symmetry as a methodological basis for the analysis of snow structure and metamorphism. Kolomyts, E.G., [1979, p.3-26, rus] 34-606
Energy required for the formation of liquid spherical layers on globular nuclei and thermodynamic equilibrium conditions of ice-water-vapor systems. Badakhov, Kh.I., [1979, p.27-34, rus] 34-607
Data on glaciological processes in the recrystallization zone of ice formation in highlands. Diurgerov, M.B., [1979, p.52-56, rus] 34-2180
Extreme snow conditions and their role in landscape formation. IAshina, A.V., [1979, p.143-146, rus] 34-2195
Snow cover metamorphism on the glacier slope near the Molodezhnaya oasis. Voltkovskiĭ, K.F., [1979, p.97-105, rus] 34-2216
Snow physics, avalanches, mudflows. Zalikhanov, M.Ch., ed, [1980, 160p., rus] 34-3411
Snow cover development and its dependence on winter temperature and slope exposition in the El'brus Mountain area. Kunaeva, G.M., et al, [1980, p.3-12, rus] 34-3412
Avalanche regime of the El'brus Mountain area. Urumbaev, N.A., [1980, p.13-20, rus] 34-3413
See also: Metamorphism (snow)

Snow removal
Snow clearance on highways, 1968-1969 [1969, 23p., tur] 34-18
Proceedings. [1979, 355p., eng] 34-49
New European views on snow and ice control development. Elsenaar, P.M.W., [1979, p.1-5, eng] 34-50
Studies related to removal of snow and ice from transportation facilities. Ringer, T.R., [1979, p.6-8, eng] 34-51
Compaction of wet snow on highways. Colbeck, S.C., [1979, p.14-17, eng] 34-52
Value engineering study of snow and ice control. Russell, G.L., et al, [1979, p.66-73, eng] 34-61
Effects of highway design standards on snow and ice control operations. Hogan, R.A., [1979, p.74-78, eng] 34-62
Snow removal and ice control standards at Canadian airports. Levitsky, W.V., [1979, p.79-81, eng] 34-63
New Jersey Department of Transportation model for winter equipment and manpower allocations. Cifelli, N.J., et al, [1979, p.82-84, eng] 34-64
Icephobic coatings for highway pavements. Cook, J.C., [1979, p.106-115, eng] 34-69
Use of synthetic snowfalls in the evaluation of snow removal systems. Sage, J.D., [1979, p.121-128, eng] 34-71
Control of snow and ice on road and communication facilities in the Himalayas. Malik, S.C.L., et al, [1979, p.129-134, eng] 34-72
Snow clearance—west Himalayan road—some problems. Soin, J.S., [1979, p.141-150, eng] 34-74
Overview of some of the factors influencing snow and ice control and the resultant impacts of their implementation. Belangie, M.C., [1979, p.151-158, eng] 34-75
Heating bridge decks by electrical resistance. Havens J.H., et al, [1979, p.159-168, eng] 34-76
Geothermal heating of bridge decks. Cundy, V.A., et al, [1979, p.169-175, eng] 34-77
On the performance of a two stage rotary snow blower. Shibuya, M., et al, [1979, p.185-191, eng] 34-79
Systems study of snow removal. Minsk, L.D., [1979, p.220-225, eng] 34-84
Research on an air lubricated snow plow. Ringer, T.R., et al, [1979, p.226-231, eng] 34-85
Study on the resistance of snowplowing and the running stability of a snow removal truck. Kaku, T., [1979, p.232-239, eng] 34-86
Snow removal and ice control on the Italian turnpike network. Rocco, V., et al, [1979, p.240-244, eng] 34-87
Snow removal and ice control for ground transport channels and terminals. Huang, E.Y., [1979, p.245-253, eng] 34-88
Evaluation of the use of salt brine for deicing purposes. Kasinskas, M.M., [1979, p.275-281, eng] 34-92
Enhancing ice-melting action of rock salt by prewetting with calcium chloride. Larrimore, D.R., et al, [1979, p.282-288, eng] 34-93
Computer simulation of urban snow removal. Tucker, W.B., et al, [1979, p.293-302, eng] 34-95
Development of a snowplough/salt spreading vehicle for ice and snow clearance of motorways in England. Gould, R.J., [1979, p.314-317, eng] 34-98
Controlling snow and ice on the Morgantown people mover system. Morgan, P.H., [1979, p.343-349, eng] 34-102
Plow attachment for snow blower. De Brito, W.A., [1977, 6 col., eng] 34-142
Snow remover. Lazarecky, V., [1977, 6 col., eng] 34-143
Heated snow shovel. Highes, J.F., Jr., [1977, 4 col., eng] 34-144
Hydraulically operated front and rear wing hangers for snow plows. Farrell, E.A., [1977, 10 col., eng] 34-147
Snow groomer for snowmobile trails. Maxey, L.R., [1977, 8 col., eng] 34-260
Snowmobile trail leveler. Roemer, B.C., [1977, 4 col., eng] 34-263
Safe operation control for a snowblower. Dobberpuhl, D.R., [1977, 6 col., eng] 34-269
Snow and ice remover. Sc fetta, P., [1978, 6 col., eng] 34-277
Snowblower discharge guide and control arrangement therefor. Bacon, R.J., [1978, 6 col., eng] 34-280
Portable snow blower. Yakiwchuk, J., [1978, 2 col., eng] 34-284
Fighting snow disasters on roads in Schleswig-Holstein in the 1978/79 winter. Richter, K., [1979, p.237-243, ger] 34-536
Winter service to the city of Bern. Bietenharder, H., [1977, p.173-174, ger] 34-537
Planning: secret to winter success. [1979, p.5-6, eng] 34-649
Calcium chloride vs. snow and ice. [1979, p.14-17, eng] 34-651
Operation of airports. Maintenance and repairs. Manual. Goretskiĭ, L.I., et al, [1979, 215p., rus] 34-769
How Montreal copes with 98 inches of snow. Goodman, E., [1978, p.20-21, 26, eng] 34-777

Snow removal *(cont.)*
Measures against skidding on icy and snow roads. Problem analysis, state-of-the-art review and need for R&D. Carlsson, G., [1979, 52p., swe] 34-783
Road maintenance equipment. Smirennyi, I., et al, [1979, p.32-33, rus] 34-835
Field testing of a snowplowable raised marker. McNaught, E.D., [1977, 33p., eng] 34-1116
Snow remover vehicle with balance weight. Pisarchik, V.B., et al, [1976, 4 col., rus] 34-1219
Rail track snow cleaner vehicle. Gridasov, N.A., et al, [1976, 4 col., rus] 34-1220
Snow clearance vehicle with rotor. Orlov, IU.N., [1976, 2 col., rus] 34-1222
Mountain 79. [1979, p.9-93, eng] 34-1241
Specialization of winter road maintenance, a pressing issue. Kungurtsev, A.A., et al, [1979, p.7-8, rus] 34-1418
Ways of improving winter maintenance of roads. Bialobzheskiĭ, G.V., et al, [1979, p.9-11, rus] 34-1419
Ice prevention, a condition of safe driving. Titov, B.M., [1979, p.13, rus] 34-1421
Economic impact of highway snow and ice control. McBride, J.C., [1978, p.58-63, eng] 34-1610
Highway ice and snow removal and deicing salt problems at Lake Tahoe. Foster, D., [1975, p.3-17, eng] 34-1733
Economic analysis of the environmental impact of highway deicing salts. Murray, D.M., [1977, p.29-40, eng] 34-1877
Machine for road building and maintenance. Matveenko, L.S., et al, [1979, pl2-14, rus] 34-1944
Snow blowing devices. Amelin, S.V., et al, [1979, p.22-23, rus] 34-2123
Difficult trip. Zhukov, P.L., [1979, p.34-36, rus] 34-2124
Field trial of prototype "Cyclone switch heater" on CP rail switch at Sturgeon Falls, Ontario. Coveney, D.B., [1979, 15p. + 10 figs., eng] 34-2477
Technical Committee report on operational and winter maintenance. [1979, 120p., eng] 34-2478
Mechanized snow removal systems. Rigoni, R., [1980, p.20-22, ger] 34-2489
Analysis of airport snow removal and ice control. Tighe, D.J., et al, [1971, 220p., eng] 34-2508
Experimental study on the most reasonable amount of ground water to be sprinkled for melting the freshly fallen snow on the roads. Nakamura, H., [1979, p.117-147, jap] 34-2549
Snow melting by sprinkling ground water. Higashiura, M., [1979, p.2834-2841, jap] 34-2550
Snow melting on roofs by sprinkling ground water. Higashiura, M., [1979, p.215-225, eng] 34-2551
Basic study of snow melting on roofs. Higashiura, M., [1979, p.17-19, jap] 34-2552
On the present situation of snow removal and melting from greenhouses. Higashiura, M., [1979, p.131-140, jap] 34-2553
New machines for the construction and maintenance of highways. Volkova, A.E., [1979, p.18-21, rus] 34-2583
Study of preventive measures from the accumulation of snow on the railway track. Hikita, S., [1974, p.76-78, eng] 34-2651
Study on flying snow with the prototype high speed snow plough for railway. Shinojima, K., [1975, p.64-69, eng] 34-2653
Study on prevention of stone ejection from ballasted track in snowing. Sato, Y., et al, [1977, p.178, eng] 34-2659
Development of a snow loader with longitudinal troughs. Ishibashi, T., et al, [1971, p.141-143, eng] 34-2660
Prototype test of rail on-off type snow-removing car. Tezuka, K., et al, [1971, p.180, eng] 34-2661
Removal of pressed and frozen snow at the flange way of the track. Ohyama, T., et al, [1973, p.104-105, eng] 34-2662
Development of feeding systems for preventing the adhesion of ice or snow to contact wire. Saijo, T., [1973, p.155-156, eng] 34-2664
Snow plow and loader DE-228 on a wheel undercarriage. Balakin, V.N., et al, [1979, p.7-9, rus] 34-2692
Clean up your snow rigs now for summer storage. Calder, R., [1980, p.24-26, eng] 34-2728
Report on model for winter hazard prevention on highway No.12 of Iwamizawa-shi, District of Okayama. Japan. Hokkaido Kaihatsukyoku. Kensetku Kiaki Kosakujo, [1978, 66p., jap] 34-2803
Increasing the effectiveness of snow removal patrols on roads (Discussion). Kungurtsev, A.A., et al, [1979, p.8-9, rus] 34-2857
Construction of underwater crossings of main pipelines. [1970, 36p., rus] 34-2864
Federal snow removal reimbursement policy: improvements needed. [1979, 76p., eng] 34-3576
Development of a high-speed rotary snowplow (HTR-700). Sasaki, T., et al, [1979, 27p., eng] 34-3634
Study and information meeting on winter trafficability, Nefta, Tunisia, Nov. 8 and 9, 1979. [1980, p.69-79, fre] 34-3723
Roads in Finland. Babkov, V.F., [1980, p.28-30, rus] 34-3954
Blow molded polyethylene snow scoop improves on 300-year-old idea. [1979, p.38-39, eng] 34-3999
Snowplowable raised reflective pavement markers at hazardous locations in New Jersey. Graf, C.R., et al, [1979, 55p., eng] 34-4077
Snow and ice removal from pavement using stored earth energy. Long, D.C., et al, [1980, 72p., eng] 34-4081
Recessed snowplowable markers. Niessner, C.W., [1980, 22p., eng] 34-4082
Snow retention
Snow retention heaper and swather. Gromov, V.S., [1974, 4 col., rus] 34-1216
Temperature regime of southern chernozems in the Irkutsk region, subject to long seasonal freezing, and their thermal melioration. Karnaukhov, N.I., et al. [1978, p.94-95, rus] 34-3360
Snow roads
Building and operating winter roads in Canada and Alaska. Adam, K.M., [1978, 221p., eng] 34-532
Construction of service roads in swamps. Zholobov, S.I., [1979, p.24-25, rus] 34-1181
Passanger transport in northern population resettlement systems. Belinskiĭ, A.IU., [1979, p.98-105, rus] 34-1630
Machine for road building and maintenance. Matveenko, L.S., et al, [1979, pl2-14, rus] 34-1944
Winter roads and ice bridges. Lefebvre, L.M., [1979, p.54-57, eng] 34-2034
Preparation of industrial transportation for winter. Kurtukov, IA.M., et al, [1979, p.2-5, rus] 34-2092
Optimal versions of road construction stages in Yakutia (Discussion). Zhukov, E.A., [1979, p.17-18, rus] 34-2858
Transportation under economic and geographic conditions of the Yakut ASSR. Belinskiĭ, B.V., ed, [1976, 104p., rus] 34-3337
Influence of procurement forms on magnitude of industrial supplies. Belinskiĭ, B.V., et al, [1976, p.4-27, rus] 34-3338
Transport network of the Tyumen' forests. Dorofeev, A.G., [1980, p.7-9, rus] 34-3858
Road building performed on a self-supporting basis. Shabalin, V.P., et al, [1979, p.14-15, rus] 34-3939
Snow rubber friction
See: Rubber snow friction
Snow samplers
Accuracy of snow samplers for measuring shallow snowpacks: an update. Goodison, B.E., [1978, p.36-49, eng] 34-30
Snow slides
Methods and results of artificial avalanche triggering in the El'brus Mountain area. Bolov, V.R., et al, [1980, p.43-46, rus] 34-3416
Recommendation for the application of the Roche index for slab avalanche release. Sommerfeld, R.A., et al, [1979, p.547-549, eng] 34-3791
Snow stabilization
See: Snow cover stability
Snow stratigraphy
Structure of Altai snow cover. Reviakin, V.S., et al, [1973, p.28-36, rus] 34-108
Symmetry as a methodological basis for the analysis of snow structure and metamorphism. Kolomyts, E.G., [1979, p.3-26, rus] 34-606
Stratigraphic study of the snow cover in Khumbu Himal. Inoue, J., et al, [1977, p.26-29, eng] 34-900
Microwave measurements of snow stratigraphy and water equivalence. Boyne, H.S., et al, [1979, p.20-26, eng] 34-1052
Long-term accumulation characteristics at Vostok Station, Antarctica. Aver'ianov, V.G., [1978, p.93-99, rus] 34-1298
Nuclear fall-out in glaciers Ambach, W., [1978, p.45-47, eng] 34-2076
Rate of snow accumulation determined from oxygen isotope and stratigraphic analyses of the core from Mizuho Station, East Antarctic (extended abstract). Kato, K., et al, [1979, p.88-92, eng] 34-2500
Origin of ground ice deposits in the Muysk Basin. An, V.V., [1978, p.46-57, rus] 34-2945
Physical characteristics of snow cover on the west slope of Mt. Asahidake, Hokkaido. Nishimura, H., et al, [1980, p.9-15, jap] 34-3154
Glaciological investigations of the tropical Quelccaya ice cap, Peru. Thompson, L.G., [1980, p.69-84, eng] 34-3799
Snow accumulation and snow stratigraphy on Riiser-Larsenisen, Dronning Maud Land, Antarctica. Repp, K., [1978, p.81-92, eng] 34-3988
Snow strength
Physical alternatives to chemicals for highway deicing. Blackburn, R.R., et al, [1979, p.176-184, eng] 34-78
In-situ estimates of the tensile strength of snow utilizing large sample sizes. McClung, D.M., [1979, p.321-329, eng] 34-546
Aircraft rolling resistance in loose dry snow; a theoretical analysis. Lidström, M., [1979, 30p., eng] 34-1564
Comparison on the non-slip quality among three different types on langlauf ski-plates. Nakamura, T., [1979, p.1-6, jap] 34-2543
Vane cone test of snow—mobility of tracked oversnow vehicle. Muro, T., et al, [1980, p.25-32, jap] 34-3156
Snow fortifications as protection against shaped charge antitank projectiles. Farrell, D.R., [1980, 19p., eng] 34-3332
Extending the useful life of DYE-2 to 1986. Part 2. 1979 findings and final recommendations. Tobiasson, W., et al, [1980, 37p., eng] 34-3334
Pressure waves in snow. Brown, R.L., [1980, p.99-107, eng] 34-3802
Proceedings of the 36th annual meeting. [1979, 149p., eng] 34-4201
Snow studies associated with the sideways move of DYE-3. Tobiasson, W., [1979, p.117-124, eng] 34-4210
Snow structure
See: Snow cover structure
Snow surface
Impact of CO2 on cooling of snow and water surfaces. Choudhury, B., et al, [1979, p.668-671, eng] 34-1840
Some characteristics of turbulence in katabatic winds over Mizuho Plateau, East Antarctica. Kobayashi, S., et al, [1979, p.75-85, eng] 34-2152
Three examples of unsolved problems in antarctic radiation research. Kuhn, M., [1975, p.66-67, eng] 34-2454
Studies on interaction between wind and dry snow surfaces. Kobayashi, S., [1979, 64p., eng] 34-3191
Structure and properties of snow cornices, I. Naruse, R., et al, [1979, p.41-51, jap] 34-3490
Temperature perturbation in stable layer above a snow surface. Ishikawa, N., [1979, p.179-182, jap] 34-3504
See also: Glacier surfaces
Snow surface temperature
Performance of V.H.F. aerials close to a snow surface. Doake, C.S.M., et al, [1979, p.551-553, eng] 34-3792
Snow survey tools
Operational aerial snow surveying in the United States. Peck, E.L., et al, [1980, p.51-62, eng] 34-2729
Principle and method for measurement of snow water equivalent by detection of natural gamma radiation. Endrestöl, G.O., [1980, p.77-83, eng] 34-2731
Aerial gamma survey of snow cover and soil moisture. Nikiforov, M.V., et al, [1980, p.85-91, eng] 34-2732
Snow surveys
Proceedings of the 35th annual meeting. [1978, 218p., eng] 34-26
Snow surveys in the Black River drainage area. Mayhew, K.H., [1978, p.50-55, eng] 34-31
SCAR Working Group on Glaciology. [1979, p.527-532, eng] 34-474
Snow cover in the USSR. Kopanev, I.D., [1978, 181p., rus] 34-846
Comparability of snowfall and snow cover data in a southern Ontario basin. Goodison, B.E., [1979, p.34-43, eng] 34-1003
Snow soil interactions in interior Alaska. Santeford, H.S., [1979, p.311-318, eng] 34-1028
Procedure to incorporate snow course data into the National Weather Service river forecast system. Carroll, T.R., [1979, p.351-358, eng] 34-1032
Errors in determining snow cover characteristics in the northeast European USSR. Vershinina, L.K., et al, [1979, p.113-121, rus] 34-1082
Accuracy of interpolation and averaging of soil moisture content over an area. Vershinina, L.K., et al, [1979, p.129-141, rus] 34-1084
Glaciology of mountain regions. Suslov, V.F., ed, [1979, 160p., rus] 34-1120
Helicopter gamma-survey of snow cover in West Tien Shan mountains. Getker, M.I., et al, [1979, p.3-14, rus] 34-1121
Reorganization of snow surveying network points in the Central Asian mountains. Getker, M.I., et al, [1979, p.15-23, rus] 34-1122
Snow cover distribution in the Obikhingou River basin. Sannikov, A.G., [1979, p.24-30, rus] 34-1123
History of snow survey development in Central Asia. Akhundzhanov, Sh.M., [1979, p.31-40, rus] 34-1124
Optimal averaging principle and its use in hydrologic forecasts and snow surveying reorganizations. Getker, M.I., et al, [1979, p.41-50, rus] 34-1125
Empirical method of avalanche forecasting. Moskalev, IU.D., [1979, p.51-60, rus] 34-1126
Methods of forecasting wet snow avalanches in the Dukant station area. Kharitonov, G.G., [1979, p.61-67, rus] 34-1127
Evaluating avalanche danger in unexplored areas of the Pamirs. Bilialov, K.B., [1979, p.68-74, rus] 34-1128
Avalanche activity in the Kyzylcha River Basin, West Tien Shan. Gapishko, V.G., [1979, p.85-94, rus] 34-1130
Reconnaissance snow surveys of the National Petroleum Reserve in Alaska, April 1977 and April-May 1978. Sloan, C., et al, [1979, 31p., eng] 34-1145
Snow survey of Great Britain. Ogden, R.J., [1979, p.27-37, eng] 34-1410
Focus on U.S. snow research. Colbeck, S.C., [1979, p.41-52, eng] 34-1411
Snow and the organization of snow research in the United States. Colbeck, S.C., [1979, p.55-58, eng] 34-1412
Snow cover: a selected bibliography. [1979, p.71-93, eng] 34-1413
Delta 18-O variations in snow on the Devon Island ice cap, Northwest territories, Canada. Koerner, R., et al, [1979, p.1419-1427, eng] 34-1484

Snow cover surveys 1978-79. [1979, 9 leaves, eng] 34-1701
Snow and avalanches in the Swiss Alps, winter 1977-1978. [1979, 152p., ger] 34-1704
Snow and avalanches in the Davos region. Föhn, P., et al, [1979, p.29-40, ger] 34-1705
Snow and avalanche conditions in the Swiss Alps. Schild, M., et al, [1979, p.41-88, ger] 34-1706
General and applied climatology. Kobysheva, N.V., ed. [1979, 104p., rus] 34-1814
Daily snow accumulation in Belorussia. Volobueva, G.V., [1979, p.58-66, rus] 34-1818
Calculating snow reserves in the glacial zone of Zailiyskiy Alatau. Sudakov, P.A., et al, [1979, p.27-36, rus] 34-1973
Maximum snow depth distribution over the West Siberian Plain. Kurkovskaia, N.V., [1967, p.132-148, rus] 34-1993
Inventory of snow cover and sea ice data. Crane, R.G., comp., [1979, 171p., eng] 34-2136
British Antarctic Survey, 1978-79. [1979, p.605-612, eng] 34-2162
Topographic effect on snow cover distribution in mountains. Chirkova, A.A., [1979, p.126-133, rus] 34-2192
Two criteria determining the structure of snow surveying and precipitation measuring networks in mountain basins. Getker, M.I., et al, [1979, p.133-139, rus] 34-2193
Landscape-geographic technique of mapping snow cover under complicated orographic conditions. Kondakova, N.L., [1979, p.139-143, rus] 34-2194
Analyzing distributions of maximum snow reserves on glaciers and improving snow surveying techniques. Diurgerov, M.B., et al, [1979, p.155-159, rus] 34-2197
Snow survey techniques in mountain glacier basins. Zhidkov, V.A., [1979, p.159-168, rus] 34-2198
Recent exogenic relief-forming processes in Transbaikal steppes. Titova, Z.A., et al, [1978, p.3-21, rus] 34-2294
Topoclimatological and snow hydrological survey of Switzerland. Winniger, M., [1979, 6p., eng] 34-2509
Space techniques of studying snow cover of the Earth. Deleur, M.S., [1980, 77p., rus] 34-2601
Fundamentals of remote sensing methods of measuring water equivalent of snow and soil moisture content from terrestrial gamma radiation. Dmitriev, A.V., et al, [1979, 304p., rus] 34-2687
Landscape method of studying snow cover for land reclamation. Pashkang, K.V., et al, [1980, p.64-71, rus] 34-2800
Determination of the amount of solid precipitation under the forest canopy. Kolesov, A.F., [1979, p.113-116, eng] 34-2887
Long range forecasts of flood water volume in the Oka River, allowing for soil freezing irregularities in the basin. Rakhmanov, V.V., [1978, p.41-52, rus] 34-2894
Route snow surveys in Siberian mountains. Kharshan, A.A., [1978, p.124-127, rus] 34-2895
Seasonal snow line dynamics as indication of snow reserve gradient. Bassin, N.S., et al, [1978, p.22-25, rus] 34-3346
Snow and avalanche loads on remote-control snow surveying installations. Bagov, M.M., et al, [1980, p.75-81, rus] 34-3421
Using gamma logging for snow density measurement on mountain slopes. Bagov, M.M., et al, [1980, p.82-86, rus] 34-3422
Compiling avalanche cadasters for the Terek River Basin. Kozhaev, D.A., [1980, p.87-93, rus] 34-3423
Avalanche cadasters for Dagestan and Transcaucasia. Abshelishvili, K.L., et al, [1980, p.94-97, rus] 34-3424
Report of pit-wall observations of snow cover in Sapporo, 1978-1979. Endo, Y., et al, [1979, p.1-5, jap] 34-3452
Snow survey in east slope of Mt. Teine, Hokkaido. Suizu, S., et al, [1979, p.7-15, jap] 34-3453
Airborne gamma survey of soil moisture and snow cover. Nikiforov, M.V., ed, [1980, 128p., rus] 34-3541
Introduction and development of airborne gamma surveying of snow cover and soil moisture. Bochin, N.A., [1980, p.3-5, rus] 34-3542
Present state of airborne gamma surveys of snow cover and soil moisture. Nikiforov, M.V., [1980, p.6-27, rus] 34-3543
Experience in conducting airborne snow surveys over the European USSR. Stroganov, A.N., [1980, p.28-45, rus] 34-3544
Industrial application of airborne gamma surveying of snow cover in the Asiatic USSR. Markhevskaia, A.A., [1980, p.46-54, rus] 34-3545
Using airborne snow survey data in compiling hydrologic forecasts. Dement'ev, N.F., [1980, p.55-60, rus] 34-3546
Experience of the Administration of the Northern State Control Station in using results of airborne snow surveys. Chuvakina, Z.M., [1980, p.61-64, rus] 34-3547
Experience of the Administration of the Ural State Control Station in using aerial snow survey data. Zykova, V.A., [1980, p.65-66, rus] 34-3548
Some results of experimental gamma surveys of snow cover in mountains. Getker, M.I., et al, [1980, p.67-72, rus] 34-3549
Instruments for aerial gamma survey of snow cover and soil moisture. Bogachev, A.D., et al, [1980, p.73-76, rus] 34-3550
Determining snow depth on winter crop fields from aerial gamma survey data. Shilin, G.V., [1980, p.77-93, rus] 34-3551
Method and instruments for measuring snow water reserves in mountains based on cosmic ray records Avdiushin, S.I., et al, [1980, p.94-101, rus] 34-3552
Space-time variations of snow density on fields in the European USSR. Shurupova, A.I., [1980, p.102-107, rus] 34-3553
Airborne gamma surveys of soil moisture in agricultural fields. Andreev, F.A., et al, [1980, p.108-116, rus] 34-3554
Infrared aerial survey in studying natural resources. Shilin, B.V., [1980, 247p., rus] 34-3591
Aerial gamma survey of snow cover in mountains. Nikiforov, M.V., [1980, p.77-83, rus] 34-3641
All-Union seminar on the organization of avalanche service. Grishchenko, V.F., et al, [1979, p.33-36, rus] 34-3686
Determining snow cover characteristics in unstudied areas. Getker, M.I., et al, [1979, p.79-84, rus] 34-3695
Areal distribution of snow reserves over the Polar Urals. Gokhman, V.V., et al, [1979, p.177-182, rus] 34-3710
Characteristics of automatic snow depth monitoring. Vodop'ianova, L.S., et al, [1978, p.40-42, eng] 34-3961
Remote snow cover measurements for forecasting the runoff of mountain rivers. Borovikova, L.N., et al, [1978, p.57-61, eng] 34-3965
Method of predicting snow avalanches by means of image recognition programs. Khomeniuk, IU.V., [1978, p.67-73, eng] 34-3967
Snow accumulation on Central Tien Shan glaciers. Safonova, A.A., [1980, p.58-67, rus] 34-4008
Proceedings of the 36th annual meeting. [1979, 149p., eng] 34-4201
Results of Snow Survey Schedule Committee Questionnaire. Hansen, P.L., et al, [1979, p.141-147, eng] 34-4212

Snow temperature

Results of studying thermal regime of snow cover. Bolov, V.R., et al, [1979, p.35-48, rus] 34-608
Satellite observations of snow and ice with an imaging passive microwave spectrometer. Fisher, A.D., et al, [1976, p.98-103, eng] 34-816
Temperature and the density dependences on hardness of artificially compacted snow. Kobayashi, T., [1978, p.267-292, jap] 34-939
European hydrological system snow routine. Morris, E.M., et al, [1979, p.269-278, eng] 34-1023
Measured thermal regime within a snow cover just before the onset of melt. Granberg, H.B., [1979, p.279-287, eng] 34-1024
Reconnaissance snow surveys of the National Petroleum Reserve in Alaska, April 1977 and April-May 1978. Sloan, C., et al, [1979, 31p., eng] 34-1145
Passive microwave applications to snowpack monitoring using satellite data. Hall, D.K., et al, [1979, 15p., eng] 34-1569
Annual temperature in snow cover on the Upper Sonnblick (3100 m). Mahringer, W., [1973, p.31-40, ger] 34-1669
Snow and avalanches in the Davos region. Föhn, P., et al, [1979, p.29-40, ger] 34-1705
Snow physics, avalanches, mudflows. Zalikhanov, M.Ch., ed, [1980, 160p., rus] 34-3411
Snow cover development and its dependence on winter temperature and slope exposition in the El'brus Mountain area. Kunaeva, G.M., et al, [1980, p.3-12, rus] 34-3412
Snow survey in east slope of Mt. Teine, Hokkaido. Suizu, S., et al, [1979, p.7-15, jap] 34-3453
Temperature regime of snow covering attic roofs. Paniutin, A.A., et al, [1978, p.137-144, rus] 34-3917

Snow thermal properties

Seasonal snow cover. Male, D.H., [1980, p.305-395., eng] 34-3661

Snow vehicles

Snow vehicle. Cousineau, R.L., [1978, 10 col., eng] 34-283
Snowmobiles in Antarctica. Boyles, J.M., et al, [1979, p.189-200, eng] 34-686
Snow classification in support of off-road vehicle technology. Irwin, G.J., [1979, 29p., eng] 34-1113
Influence of snow deformation on the traffic of low-powered amphibian airsleighs. Sboev, V.V., [1974, p.429-433, eng] 34-1209
Snow remover vehicle with balance weight. Pisarchik, V.B., et al, [1976, 4 col., rus] 34-1219
Rail track snow cleaner vehicle. Gridasov, N.A., et al, [1976, 4 col., rus] 34-1220
Snow clearance vehicle with rotor. Orlov, IU.N., [1976, 2 col., rus] 34-1222
Finnish motorized sled. [1979, 2p., eng] 34-1347
Screw-driven vehicles for Siberia. Mavlenkov, A., [1979, 9p., eng] 34-1702
Japanese develop Archimedean screw tractor. [1980, p.11, eng] 34-4068

Snow water content

Developments in snow measurements with gamma radiation. Paulin, G., [1978, p.56-62, eng] 34-32
Hydraulic characteristics of snow lysimeters. Wankiewicz, A., [1978, p.105-116, eng] 34-36
Mixing formulas for determining the free water content of wet snow from measurements of the dielectric constant Denoth, A., et al, [1978, p.73-80, eng] 34-666
Snow cover in the USSR. Kopanev, I.D., [1978, 181p., rus] 34-846
Review of water movement in snow. Wankiewicz, A., [1979, p.222-252a, eng] 34-1020
Some experimental data on water percolation through homogeneous snow. Denoth, A., et al, [1979, p.253-256, eng] 34-1021
Review of snow-soil interaction. Guymon, G.L., [1979, p.297-303, eng] 34-1026
Comparison of centrifuge and freezing calorimeter methods for measuring free water in snow. Jones, R.N., [1979, 44p., eng] 34-1174
Relationship between annual snow water content maxima and elevation in medium high mountains in the German Democratic Republic. Zerche, M., [1979, p.269-273, rus] 34-2301
Space techniques of studying snow cover of the Earth. Deleur, M.S., [1980, 77p., rus] 34-2601
Using airborne snow survey data in compiling hydrologic forecasts. Dement'ev, N.F., [1980, p.55-60, rus] 34-3546
Experience of the Administration of the Northern State Control Station in using results of airborne snow surveys. Chuvakina, Z.M., [1980, p.61-64, rus] 34-3547
Experience of the Administration of the Ural State Control Station in using aerial snow survey data. Zykova, V.A., [1980, p.65-66, rus] 34-3548
Some results of experimental gamma surveys of snow cover in mountains. Getker, M.I., et al, [1980, p.67-72, rus] 34-3549
Instruments for aerial gamma survey of snow cover and soil moisture. Bogachev, A.D., et al, [1980, p.73-76, rus] 34-3550
Snow as a mixed dielectric: on the geometry of water inclusions. Ambach, W., et al, [1979, p.65-72, ger] 34-3974
Spatial distribution of water content in the snow cover in Poland. Sadowski, M., [1980, 148p., pol] 34-3983
Investigations on snow parameters by radiometry in the 3- to 60-mm wavelength region. Hofer, R., et al, [1980, p.453-460, eng] 34-4018
Active and passive microwave response to snow parameters. 1. Wetness. Stiles, W.H., et al, [1980, p.1037-1044, eng] 34-4071
National handbook of recommended methods for water-data acquisition. Chapter 9. Snow and ice. [1977, 34p., eng] 34-4162

Snow water equivalent

Snow hydrology. Fitzharris, B.B., [1979, p.23-43, eng] 34-4
Snow cover data, Canada, winter 1977-78. [1978, 51p., eng] 34-591
Snow cover in the USSR. Kopanev, I.D., [1978, 181p., rus] 34-846
Hydrogeological problems of the Baykal Amur railroad. Pinneker, E.V., et al, [1977, p.66-70, rus] 34-995
Square grid system for modeling snow cover in small watersheds. Dickison, R.B.B., et al, [1979, p.71-76, eng] 34-1007
Variation of snow properties with elevation in New Hampshire and Vermont. Dingman, S.L., et al, [1979, p.93-100, eng] 34-1010
Streamflow simulation models for use on snow covered watersheds. Anderson, E.A., [1979, p.336-350, eng] 34-1031
Procedure to incorporate snow course data into the National Weather Service river forecast system. Carroll, T.R., [1979, p.351-358, eng] 34-1032
Microwave measurements of snow stratigraphy and water equivalence. Boyne, H.S., et al, [1979, p.20-26, eng] 34-1052
Differences in the formation of spring runoff in forests of the European USSR. Krestovskii, O.I., et al, [1979, p.3-14, rus] 34-1076
Forecasting spring water inflow into the Kama reservoir allowing for rainfall. Liapunova, I.B., et al, [1979, p.15-25, rus] 34-1077
Spring runoff from small drainage basins of the Dubovskaya hydrometeorological station. Bystrov, A.V., [1979, p.26-38, rus] 34-1078
Distribution of snow cover water reserves in the northeast European USSR. Vershinina, L.K., et al, [1979, p.58-67, rus] 34-1079
Aerial gamma surveys for determining snow water reserves with unstable snow cover. Vershinina, L.K., [1979, p.68-74, rus] 34-1080
Errors in determining snow cover characteristics in the northeast European USSR. Vershinina, L.K., et al, [1979, p.113-121, rus] 34-1082
Glaciology of mountain regions. Suslov, V.F., ed, [1979, 160p., rus] 34-1120
Reorganization of snow surveying network points in the Central Asian mountains. Getker, M.I., et al, [1979, p.15-23, rus] 34-1122

Snow water equivalent *(cont.)*
Optimal averaging principle and its use in hydrologic forecasts and snow surveying reorganizations. Getker, M.I., et al, [1979, p.41-50, rus] 34-1125
Calculating surface melting of the Golubin glacier and its part in total runoff from the Alaarcha River basin. Alzin, B.V., [1979, p.139-145, rus] 34-1137
Air- and spaceborne remote sensing in hydrogeology and engineering geology. Sadov, A.V., et al, [1979, 223p., rus] 34-1225
Statistical study of relationships between snow reserves and summer runoff in alpine regions. Jensen, H., [1979, p.123-144, ger] 34-1323
Calculating snow reserves in the glacial zone of Zailiyskiy Alatau. Sudakov, P.A., et al, [1979, p.27-36, rus] 34-1973
Linear models for calculating drainage from glacier basins. Borovikova, L.N., et al, [1979, p.85-95, rus] 34-1977
Role of firn field ablation in the Bish-Iirdu Mountains in the Aktru River's alimentation. Ivanov, N.I., [1967, p.227-246, rus] 34-1995
Calculating water balance of the Kola River basin. Antonova, T.S., [1979, p.107-119, rus] 34-2055
Snow cover of the Altai-Sayan area. Reviakin, V.S., et al, [1979, p.109-120, rus] 34-2190
Snow cover distribution in the mountains of Tadzhikistan. Burichenko, A.I., et al, [1979, p.120-126, rus] 34-2191
Two criteria determining the structure of snow surveying and precipitation measuring networks in mountain basins. Getker, M.I., et al, [1979, p.133-139, rus] 34-2193
Satellite surveys of snow cover for calculating spring flood hydrographs. Deleur, M.S., [1979, p.146-154, rus] 34-2196
International conference on meteorology of the Carpathian Mountains. Proceedings. [1979, 415p., rus] 34-2299
Hydrologic effectiveness of continuous snow cover in the Moravian-Silesian Beskids. Lednicky, V., et al, [1979, p.261-268, rus] 34-2300
Snow cover of the Kirgiz Highlands. Dikikh, A.N., [1978, 101p., rus] 34-2668
Fundamentals of remote sensing methods of measuring water equivalent of snow and soil moisture content from terrestrial gamma radiation. Dmitriev, A.V., et al, [1979, 304p., rus] 34-2687
Operational aerial snow surveying in the United States. Peck, E.L., et al, [1980, p.51-62, eng] 34-2729
Aircraft gamma-ray spectrometry in snow water equivalent measurement. Kuittinen, R., et al, [1980, p.63-75, eng] 34-2730
Principle and method for measurement of snow water equivalent by detection of natural gamma radiation. Endrestöl, G.O., [1980, p.77-83, eng] 34-2731
Aerial gamma survey of snow cover and soil moisture. Nikiforov, M.V., et al, [1980, p.85-91, eng] 34-2732
Landscape method of studying snow cover for land reclamation. Pashkang, K.V., et al, [1980, p.64-71, rus] 34-2800
Determination of the amount of solid precipitation under the forest canopy. Kolesov, A.F., [1979, p.113-116, eng] 34-2887
Long range forecasts of flood water volume in the Oka River, allowing for soil freezing irregularities in the basin. Rakhmanov, V.V., [1978, p.41-52, rus] 34-2894
Route snow surveys in Siberian mountains. Kharshan, A.A., [1978, p.124-127, rus] 34-2895
Calculating the interrelation of surface and ground water in permafrost areas. Ipat'eva, A.I., [1979, p.118-125, rus] 34-2899
Snow cover and precipitation in the mountains of Central Asia. Getker, M.I., ed, [1978, 98p., rus] 34-3344
Information content of observations on precipitation and snow cover in the Uryadar'ya River Basin for long range forecasts of runoff. Akhundzhanov, Sh.M., et al, [1978, p.3-21, rus] 34-3345
Seasonal snow line dynamics as indication of snow reserve gradient. Bassin, N.S., et al, [1978, p.22-25, rus] 34-3346
Regional characteristics of the snow cover in Hokkaido. Akitaya, E., et al, [1979, p.33-40, jap] 34-3489
Distribution of water equivalent of snow in Mt. Daisetsu, Hokkaido. Yamada, T., et al, [1979, p.63-71, jap] 34-3492
Mechanism of a delay in melting away of a snow cover in an area with low air temperature and deep snow (the Uryu Valley) in Hokkaido. Kojima, K., et al, [1979, p.93-111, jap] 34-3495
Review of LANDSAT-D and other advanced systems relative to improving the utility of space data in water-resources management. Salomonson, V.V., et al, [1980, p.281-296, eng] 34-3525
Airborne gamma survey of soil moisture and snow cover. Nikiforov, M.V., ed, [1980, 128p., rus] 34-3541
Present state of airborne gamma surveys of snow cover and soil moisture. Nikiforov, M.V., [1980, p.6-27, rus] 34-3543
Experience in conducting airborne snow surveys over the European USSR. Stroganov, A.N., [1980, p.28-45, rus] 34-3544
Method and instruments for measuring snow water reserves in mountains based on cosmic ray records. Avdiushin, S.I., et al, [1980, p.94-101, rus] 34-3552
Heat and moisture content of taiga lands in the Irtysh River area. Nikitin, S.P., [1978, p.23-33, rus] 34-3609
Aerial gamma survey of snow cover in mountains. Nikiforov, M.V., [1980, p.77-83, rus] 34-3641
Determining snow cover characteristics in unstudied areas. Getker, M.I., et al, [1979, p.79-84, rus] 34-3695
Areal distribution of snow reserves over the Polar Urals. Gokhman, V.V., et al, [1979, p.177-182, rus] 34-3710
Forest and hydrological regionalization of Central Siberia. Lebedev, A.V., [1979, p.25-58, rus] 34-3770
Geochemical structure of West Sayan foothill geosystems. Kochurov, B.I., et al, [1977, p.59-72, rus] 34-3815
Biogeophysical conditions of interactions between solid precipitation and conifer forest canopy. Kaliuzhnyi, I.L., et al, [1979, p.82-90, rus] 34-3877
Remote snow cover measurements for forecasting the runoff of mountain rivers. Borovikova, L.N., et al, [1978, p.57-61, eng] 34-3965
Snow accumulation on Central Tien Shan glaciers. Safonova, A.A., [1980, p.58-67, rus] 34-4008
Active passive microwave response to snow parameters. 2. Water equivalent of dry snow. Ulaby, F.T., et al, [1980, p.1045-1049, eng] 34-4072
Estimating water equivalent snow depth from related meteorological variables. Steyaert, L.T., et al, [1980, 39p., eng] 34-4199
Proceedings of the 36th annual meeting. [1979, 149p., eng] 34-4201
Vegetation-snow relationships in Labrador. Adams, W.P., et al, [1979, p.1-25, eng] 34-4202
Estimating water equivalent depth from related meteorological variables. Steyaert, L.T., et al, [1979, p.26-39, eng] 34-4203

Snow wood friction
See Wood snow friction

Snowdrifts
About snow drifts. Jumikis, A.R., [1979, p.254-258, eng] 34-89
Structure of Altai snow cover. Reviakin, V.S., et al, [1973, p.28-36, rus] 34-108
Wind tunnel analysis of the effects of planting at highway grade separation structures. Final report. [1979, 210p., eng] 34-368
Winter service; its influence on road planning. Pigois, M.L., [1977, p.46-48, fre] 34-516
Fences help change snow from liability to asset. [1979, p.12-15, 17, eng] 34-650
Ablation of an isolated snowdrift. Zuzel, J.F., et al, [1979, p.135-143, eng] 34-1013
Geography of Siberian resource development. Kosmachev, K.P., ed, [1979, 107p., rus] 34-1099
Interaction between natural and technical systems (railroad track operation taken as an example). Kaiuchkin, N.P., [1979, p.33-46, rus] 34-1101
Maintenance felling of trees in snow protection strips. Kazanskii, V.D., [1979, p.11-13, rus] 34-1420
Snow redistribution by wind. Hoinkes, H., [1957, p.27-32, ger] 34-1655
Symposium on Human Settlements Planning and Development in the Arctic. [1978, c455p., eng] 34-1767
Summary of theoretical results of glaciological investigations in the Altais. Tronov, M.V., [1967, p.3-15, rus] 34-1988
Firn field types in the Aktru Basin and their relation to glaciation. Ivanov, N.I., [1967, p.205-226, rus] 34-1994
Winter roof collapses: bad luck, bad construction or bad design. Seltz-Petrash, A., [1979, p.42-45, eng] 34-2033
Snow blowing devices. Amelin, S.V., et al, [1979, p.22-23, rus] 34-2123
Extreme snow conditions and their role in landscape formation. IAshina, A.V., [1979, p.143-146, rus] 34-2195
Water yield improvement from alpine areas: the status of our knowledge. Martinelli, M., Jr., [1975, 21p., eng] 34-2510
Interpreting meso- and microclimatic peculiarities of large cities for urban planning (Novosibirsk taken as an example). Pivkin, V.M., [1979, p.48-54, rus] 34-2620
Calculating avalanche alimentation of glaciers. Kharitonov, G.G., [1979, p.155-159, rus] 34-3132
Snowbreak effect of deciduous shelterbelts. Kobayashi, D., et al, [1979, p.53-61, jap] 34-3491
Development of a high-speed rotary snowplow (HTR-700). Sasaki, T., et al, [1979, 27p., eng] 34-3634
Seasonal snow cover. Male, D.H., [1980, p.305-395., eng] 34-3661

Snowfall
Effect of elevation on snowfall and rainfall—first results from the Mt. Mansfield network. Hendrick, R.L., et al, [1978, p.141-152, eng] 34-39
Use of synthetic snowfalls in the evaluation of snow removal systems. Sage, J.D., [1979, p.121-128, eng] 34-71
Airborne snow concentration and visibility Stallabrass, J.R., [1979, p.192-199, eng] 34-80
General information on snowfall in the El'brus Mountain area in relation to catastrophic avalanches. Kuvaeva, G.M., [1979, p.49-55, rus] 34-609
Deuterium content in the Himalayan precipitation at Khumbo District, observed in 1974/1975. Wushiki, H., [1977, p.50-56, eng] 34-904
Altitude effect on the deuterium content of the local rains and snows in the Himalayas. Wushiki, H., [1977, p.57-59, eng] 34-905
Comparability of snowfall and snow cover data in a southern Ontario basin. Goodison, B.E., [1979, p.34-43, eng] 34-1003
Snow on the Great Plains. Willis, W.O., [1979, p.56-62, eng] 34-1005
Snow blowing and snow fall on the North Slope, Alaska. Wendler, G., [1979, p.10-19, eng] 34-1051
Snow conditions in the Sonnblick region. Steinhauser, F., [1968, p.3-42, ger] 34-1659
Secular variations of snow cover conditions in Austria. Steinhauser, F., [1970, p.3-19, ger] 34-1663
Precipitation on the karst plateau of the Höllen Mountains in Upper Austria. Tollner, H., [1970, p.19-33, ger] 34-1664
Snow behavior and its economic importance for Austria. Steinhauser, F., [1974, p.3-42, ger] 34-1671
Snow and avalanches in the Davos region. Föhn, P., et al, [1979, p.29-40, ger] 34-1705
Accidents and damage caused by avalanches. Schild, M., et al, [1979, p.89-152, ger] 34-1707
Snow interception by pine stands in the Alpine foothills of Schwyz canton. Strobel, T., [1979, p.63-79, ger] 34-1781
Studying errors of precipitation gages in high mountains. Sudakov, P.A., et al, [1979, p.18-27, rus] 34-1972
Difficult trip Zhukov, P.L., [1979, p.34-36, rus] 34-2124
International conference on meteorology of the Carpathian Mountains. Proceedings. [1979, 415p., rus] 34-2299
Climatic-synoptic characteristics of days with snowfall and snow cover in Eastern Serbia. Rankovič, S., et al, [1979, p.335-345, rus] 34-2304
Secrets of natural ice in Kazakhstan. Tokmagambetov, G.A., [1978, 151p., rus] 34-2312
Preliminary measurements of snow concentration. Stallabrass, J.R., [1972, 48 leaves, eng] 34-2400
North American snowfall study; comparative through 1973-4 season. [1974, c400p., eng] 34-2630
Statistical amount of snow on the regions planned for the construction of Shinkansen. Shinojima, K., et al, [1976, p.136-127, eng] 34-2655
Comparative evaluation of indirect Computation methods of determining ratios of various precipitation types. Bogdanova, E.G., et al, [1979, p.84-89, rus] 34-3696
Duration and intensity of solid precipitation in North America (indirect calculations and mapping). Bogdanova, E.G., et al, [1979, p.89-94, rus] 34-3697
Possibility of indirect determination of solid precipitation intensity. Bogdanova, E.G., [1979, p.161-165, rus] 34-3707
Measurement of the fall velocity of snowflakes in Nagaoka and its application to the Z-R relation. Uyeda, H., et al, [1980, p.39-46, jap] 34-4197
Mean 700 mb circulation patterns associated with the snowiest and least snowy winter months over the eastern United States. Wagner, A.J., [1979, p.75-94, eng] 34-4207

Snowflakes
Size distribution and Z-R relationship of snow particles observed in Nagaoka, Pt. 1. Yagi, T., et al, [1979, p.49-61, jap] 34-1740
Complexity of snowflakes. Papentin, F., [1980, p.174-177, eng] 34-3012
In situ wind tunnel fo snow accretion experiments using natural snowflakes. Wakahama, G., et al, [1979, p.183-187, jap] 34-3505
Size distribution and Z-R relationship of snow particles observed in Nagaoka, Pt.2. Yagi, T., et al, [1980, p.29-38, jap] 34-4196
Measurement of the fall velocity of snowflakes in Nagaoka and its application to the Z-R relation. Uyeda, H., et al, [1980, p.39-46, jap] 34-4197

Snowmelt
Snowmelt computations for a high Arctic site. Heron, R., et al, [1978, p.162-172, eng] 34-40
Application of satellite images for monitoring snow-line in the Yukon and Northwest Territories. Dey, B., et al, [1979, p.473-483, eng] 34-472
Thermal regime of a prairie snowcover. Granger, R.J., et al, [1977, p.839-842, eng] 34-476
Effects of seasonability and variability of streamflow on nearshore coastal areas. Carlson, R.F., et al, [1977, c.200p., eng] 34-623
Tundra lakes as a source of fresh water: Kipnuk, Alaska. Bredthauer, S.R., et al, [1979, 16p., eng] 34-740
Effects on timber cutting and revegetation on snow accumulation and melt in North Idaho. Haupt, H.F., [1979, 14p., eng] 34-840
Value of snow course data in forecasting snowmelt runoff. Lettenmaier, D.P., [1979, p.44-55, eng] 34-1004
Energy mass fluxes at the snow surface in a prairie environment. Male, D.H., et al, [1979, p.101-124, eng] 34-1011
Solar radiation model for a snow surface in mountainous terrain. Dozier, J., [1979, p.144-153, eng] 34-1014
Atmospheric radiation model for general alpine application. Marks, D., [1979, p.167-178, eng] 34-1016
Optimal complexity of a point snowmelt model. Kuusisto, E., [1979, p.205-210, eng] 34-1018

Energy balance and snowmelt in a deciduous forest. Hendrie, L.K., et al, [1979, p.211-221, eng] 34-1019
Review of water movement in snow. Wankiewicz, A., [1979, p.222-252a, eng] 34-1020
Controls on the production of snowmelt runoff. Price, A.G., et al, [1979, p.257-268, eng] 34-1022
European hydrological system snow routine. Morris, E.M., et al, [1979, p.269-278, eng] 34-1023
Study of snowmelt-runoff components using isotope measurements. Herrmann, A., et al, [1979, p.288-296, eng] 34-1025
Model to predict short-term snowmelt runoff using synoptic observations of streamflow, temperature and precipitation. Tangborn, W.V., [1979, p.414-426, eng] 34-1039
Hydrochemical separation of components of discharge in alpine catchments. Collins, D.N., et al, [1979, p.1-9, eng] 34-1050
Application of snow covered area to runoff forecasting in the southern Sierra Nevada. Hannaford, J.F., et al, [1979, p.56-67, eng] 34-1056
Slope recession in the Onefour Badlands, Alberta, Canada: an initial appraisal of contrasted moisture regimes. Barendregt, R.W., et al, [1979, p.224-229, eng] 34-1451
Selected hydrologic applications of LANDSAT-2 data: an evaluation, final report. Wiesnet, D.R., et al, [1978, 205p., eng] 34-1491
Pollution characteristics of stormwater runoff. Bennett, E.R., et al, [1978, 226p., eng] 34-1572
Snow cover in forest stands. Keller, H.M., [1979, p.17-29, eng] 34-1778
Forecasting seasonal snowmelt runoff: a summary of experience with two models applied to three drainages in the Cascade Mountains of Washington. Lettenmaier, D.P., et al, [1978, 109p., eng] 34-1905
Characterization and treatment of snowmelt runoff from an urban catchment. Kronis, H., [1978, 35p., eng] 34-2108
Activities of snow-carrying streams. Sapunova, G.G., et al, [1979, p.201-202, rus] 34-2207
Characteristics of subarctic snow cover. Fitzgibbon, J.E., et al, [1979, p.465-476, eng] 34-2268
Water yield improvement from alpine areas: the status of our knowledge. Martinelli, M., Jr., [1975, 21p., eng] 34-2510
Contributions from the Shinjo Branch, No.1 (1969-1979). [1979, Var.p., jap] 34-2539
Research of ground water resources to melt snow, No.1. Yuhara, K., et al, [1979, p.7-10, jap] 34-2544
Research of ground water resources to melt snow, No.2. Higashiura, M., [1979, p.16-23, jap] 34-2545
Water balance in the Shinjo basin. Higashiura, M., [1979, p.490-496, jap] 34-2546
Climatological water balance in the Shinjo basin. Higashiura, M., [1979, p.95-109, jap] 34-2547
Studies and forecasts of mudflows in construction. Dumitrashko, N.V., [1979, p.67-72, rus] 34-2748
Glacial mudflows in the Baykal Amur railroad area. Perov, V.F., et al, [1979, p.148-159, rus] 34-2755
Calculating global radiation. Erdiakova, I.N., [1979, p.64-67, rus] 34-2883
Forecasting hydrograph of spring water inflow into the Novosibirsk reservoir. Miliukova, O.A., [1978, p.24-40, rus] 34-2893
Mudflows in the Baykal Amur railroad area. Balabaev, F.G., [1979, p.115-117, rus] 34-2898
Seasonal moisture exchange dynamics between ground waters and the aeration zone of Kulunda Steppe. Sen'kov, A.A., [1979, p.183-190, rus] 34-3082
Program and guide for compilation of the applied part of the *World atlas of snow and ice resources*. [1979, p.35-63, rus] 34-3117
Addenda to the program and instructions for compiling mudflow maps in the regional part of the *World atlas for snow and ice resources*. Perov, V.F., [1979, p.63-66, rus] 34-3118
Migration of solid particles in melting snow. Kohno, S., et al, [1979, p.81-92, jap] 34-3494
Proceedings. [1980, 301p., eng] 34-3511
LANDSAT derived snowcover as an input variable for snowmelt runoff forecasting in south central Colorado. Shafer, B.A., et al, [1980, p.151-169, eng] 34-3518
Application of snowcovered area to runoff forecasting in selected basins of the Sierra Nevada, California. Brown, A.J., et al, [1980, p.185-200, eng] 34-3520
Application of satellite imagery to hydrologic modeling snowmelt runoff in the southern Sierra Nevada. Hannaford, J.F., et al, [1980, p.201-222, eng] 34-3521
Selective felling effect on water-controlling properties of Khamar-Daban pine forests. Biziukin, V.V., [1979, p.69-78, rus] 34-3772
Remote sensing of snow covered area for runoff modelling. Rango, A., [1980, p.291-297, eng] 34-3778
Variations of glacier surface albedo during summer. Dikikh, L.L., [1980, p.48-57, rus] 34-4007
Channel development in snow-filled valleys, Resolute, N.W.T., Canada. Woo, M.-K., et al, [1980, p.37-56, eng] 34-4191
Some factors affecting spring snowmelt within Narrows Mountain Brook basin, a forested watershed in central New Brunswick. Gordon, A.M., [1979, p.53-67, eng] 34-4205
Snowmelt runoff forecasting using state estimation techniques. O'Hayre, A.P., [1979, p.68-74, eng] 34-4206
Breakup of streams in the Canadian high Arctic. Woo, M., [1979, p.95-107, eng] 34-4208

Snowstorms
Proceedings of the 35th annual meeting. [1978, 218p., eng] 34-26
Development of a forecast guidance product for lake-effect snowstorms. Dewey, K.F., [1978, p.4-11, eng] 34-27
Lake effect snows off the east end of Lake Ontario. Lansing, L., [1978, p.12-16, eng] 34-28
Current forecast procedures for lake effect snows in western New York especially related to 1976-1977 and 1977-1978 winters. Kolker, B., [1978, p.17-35, eng] 34-29
Wind tunnel analysis of the effects of planting at highway grade separation structures. Final report. [1979, 210p., eng] 34-368
Relationship of snow transport to snow storm duration. Grishin, I.S., [1974, p.208-219, eng] 34-1198
Catastrophic accumulation of wet snow and gale winds at the southern cyclone exit in April 1975. Koshenko, A.M., et al, [1977, p.114-121, rus] 34-2892
Experience in using radar information in forecasting visibility in snowstorms. Zenkevich, D.I., [1979, p.121-124, rus] 34-2971
Multiple causes of the North American abnormal winter 1976-77. Namias, J., [1978, p.279-295, eng] 34-3719
Proceedings of the 36th annual meeting. [1979, 149p., eng] 34-4201
Soil air interface
Structure of radiation and thermal fields in natural West Siberian central taiga geosystems. Trofimova, I.E., [1979, p.101-120, rus] 34-678
Charts of parameters of heat transfer between soil and atmosphere in winter. Are, A.L., [1979, p.36-46, rus] 34-2773
Soil analysis
1970 bottom sampling program south coast of Beaufort Sea, Mackenzie Bay to Liverpool Bay, Northwest Territories. [1970, c83p., eng] 34-597
Offshore permafrost, southern Beaufort Sea. Mackay, J.R., [1971, 18p., eng] 34-599
Regression analysis of fermentation in drained peat soils. Efremova, T.T., et al, [1978, p.111-131, rus] 34-2523
Soil cement
Evaluation of freeze-thaw durability of stabilized materials. Thompson, M.R., et al, [1976, p.62-70, eng] 34-152
Drilling-and-mixing method of building foundations of cemented earth piles. Tokin, A., [1980, p.5-6, rus] 34-3926
Soil chemistry
Sediment analysis of cores from Davis Strait and Flemish Pass for Imperial Oil Limited. [1976, n.p., eng] 34-311
Soils along the Baykal Amur railroad. Kovalev, R.V., ed, [1979, 304p., rus] 34-433
Soils in the western section of BAM and prospects for their agricultural development. Kolesnichenko, V.T., [1979, p.24-33, rus] 34-436
Muysk Basin soils and their agricultural development. Vtorushin, V.A., et al, [1979, p.34-42, rus] 34-437
Soils of the central Selemdzha River area and their economic development. Rybachuk, N.A., et al, [1979, p.49-54, rus] 34-439
Sod-carbonaceous soils of the Baykal Lake area. Koposov, G.F., [1979, p.60-68, rus] 34-441
Genetic peculiarites of gray forest soils in larch grass forests of the Krasnoyarsk area. Gogolev, I.N., et al, [1979, p.190-201, rus] 34-455
Structure of soils in the steppe geosystems of the Abakan and Yenisey interfluve. Kochurov, B.I., [1979, p.210-217, rus] 34-457
Flood-induced transformations in soils. Seryshev, V.A., et al, [1979, p.237-250, rus] 34-460
Influence of microorganisms on ferrous oxide dynamics in soils of the Angara River area. Influence of microorganisms on ferrous iron dynamics in soils of the Angara River area, [1979, p.260-265, rus] 34-461
Phosphorus regime of gray forest soils in the East Siberian sub-taiga and soil formation. Kholopova, R.V., [1979, p.287-295, rus] 34-465
Geology and geochemistry of the Ship Creek and Monashka Creek reservoirs, southcentral Alaska. Hawkins, D.B., et al, [1976, 70 p., eng] 34-618
Studying phytosociologic optima in the Kondo-Sos'va Ob' River geosystems. Kuz'menko, E.I., [1979, p.55-73, rus] 34-675
Relationships of soil acidity and air temperature to the wind and vegetation at Prudhoe Bay, Alaska. Walker, D.A., et al, [1979, p.224-236, eng] 34-688
Status of inorganic phosphorus in soils irrigated with municipal wastewater. Sommers, L.E., et al, [1979, p.340-350, eng] 34-697
Documentation of soil characteristics and climatology during five years of wastewater application to CRREL test cells. Iskandar, I.K., et al, [1979, 82p., eng] 34-743
Biochemical activities of organic soils from subantarctic tussok grasslands on Campbell Island. 1. Oxygen uptakes and nitrogen mineralisation. Ross, D.J., et al, [1979, p.161-171, eng] 34-893
Biochemical activities of organic soils from subantarctic tussock grasslands on Campbell Island. 2. Enzyme activities. Ross, D.J., et al, [1979, p.173-182, eng] 34-894
Productivity of soils in meadow biogeocenoses of recultivated dredging areas in the Central Urals. Nakariakov, A.V., et al, [1979, p.106-123, rus] 34-950
Experimental study of biologic conversion of iron in soils. Sorokin, N.D., et al, [1979, p.53-61, rus] 34-975
Chemical composition and migration of soil moisture in Salair Range landscapes. Korsunov, V.M., [1979, p.62-67, rus] 34-976
Modeling the processes reflecting the influence of trees on forest soils. Shugalei, L.S., [1979, p.79-153, rus] 34-978
Fall off and litter of coniferous forests in Valday. Grishina, L.A., et al, [1979, p.15-50, rus] 34-1060
Fractional composition of humic acids in Valday pine forest soils. Grishina, L.A., et al, [1979, p.51-62, rus] 34-1061
Microelements in the lower layer of Valday station spruce forest. Belitsyna, G.D., et al, [1979, p.87-92, rus] 34-1063
Microorganism dynamics in spruce forest soils. Skvortsova, I.N., [1979, p.93-99, rus] 34-1064
Maganese oxidizing bacteria in the Valday station soils. Bolotina, I.N., [1979, p.100-107, rus] 34-1065
Morphogenetic characteristics of soils in the research station area. Ignatenko, I.V., et al, [1977, p.62-101, rus] 34-1163
Properties and relative age of soils of southwestern Cumberland Peninsula, Baffin Island, N.W.T., Canada. Bockheim, J.G., [1979, p.289-306, eng] 34-1283
Land application of domestic sludge in cold climates. Johnson, R.A., [1978, 27p., eng] 34-1313
Seasonal activity of invertase in drained peat soils. Efremova, T.T., [1978, p.12-18, rus] 34-1442
Prototype overland flow test data: June 1977-May 1978. Jenkins, T.F., et al, [1979, 91p., eng] 34-1599
Soils of the East European tundra and forest tundra. Ignatenko, I.V., [1979, 280p., rus] 34-1649
Soils of northern Yakutia. Elovskaia, L.G., et al, [1979, 303p., rus] 34-1652
Soil cover of the world (Soil-biochimatic areas of the world and their agro-ecologic characteristics). Rozov, N.N., et al, [1979, 287p., rus] 34-1654
Ecologic and biogeochemical peculiarities of northern taiga in the Kola Peninsula. Nikonov, V.V., et al, [1979, p.33-38, rus] 34-1718
Microbic associations and their functions in West Siberian soils. Klevenskaia, I.L., ed, [1979, 286p., rus] 34-1805
Microbiological processes in southern taiga soils of West Siberia. Naplekova, N.N., et al, [1979, p.3-21, rus] 34-1806
Nitrogen compound transformations in some Baraba Plain soils. Gantimurova, N.I., [1979, p.60-86, rus] 34-1808
Biochemical productivity in soils of some biogeocenoses in the Baraba Plain, subject to continuous cultivation. Gantimurova, N.I., [1979, p.87-107, rus] 34-1809
Temperature and humidity effect on biological nitrogen fixation in leached chernozem with different organic additives. Mozzherin, N.M., [1979, p.174-178, rus] 34-1812
Effect of fertilizers on the microflora of gray forest soils in the Altai Mountains. Vyblov, N.F., [1979, p.178-183, rus] 34-1813
Proceedings of the first all-union symposium Biosphere and Man. [1975, 335p., rus] 34-1852
Biologic productivity and chemical element cycles in spruce-green moss central and northern taiga of the Komi Autonomous Soviet Socialist Republic. Zaboeva, I.V., et al, [1975, p.81-82, rus] 34-1853
Biologic productivity and chemical element cycles in spruce-lichens in the central taiga of the Komi ASSR. Rusanova, G.V., et al, [1975, p.83-84, rus] 34-1854
Microelement variations in peat-bog soils of the northwestern Russian Soviet Federated Socialist Republic during land development. Zavgorodniaia, R.E., et al, [1975, p.126-127, rus] 34-1856
Changes in the runoff from reclaimed marshlands in South Karelia. Nesterenko, I.M., et al, [1975, p.127-128, rus] 34-1857
Reclamation impact on northern peat soils. Nesterenko, I.M., [1975, p.129-130, rus] 34-1858
Scientific and practical significance of studying partial inhomogeneity of mountain taiga soils. Taranov, S.A., [1973, p.59-66, rus] 34-1867
Organic matter in soddy-podsolic soils with the second humus horizons occurring in taiga landscapes, left bank of the Yenisey River. Lopukhina, O.V., et al, [1979, p.24-29, rus] 34-2101

Soil chemistry *(cont.)*

Soils in pine forests of Karelia. P'iavchenko, N.I., ed, [1978, 141p., rus] 34-2252

Soil formation on sandy deposits in Karelia. Morozova, R.M., [1978, p.4-43, rus] 34-2253

Iron and organic matter migration in sandy podsols. Lazareva, I.P., [1978, p.67-71, rus] 34-2256

Seasonal variations in chemistry of sandy podsols. Kulikova, V. K., [1978, p.71-84, rus] 34-2257

Biological cycle of substances in cowberry and lichen pine forests. Morozova, R.M., [1978, p.85-112, rus] 34-2258

Chemistry and clay mineralogy of cores 8, 9, 10, New Harbor, Antarctica. Ugolini, F.C., et al, [1979, p.84-102, eng] 34-2288

Biogeocenologic studies in planted meadows of East-European tundra. Archegova, I.B., ed. [1979, 190p., rus] 34-2306

Use of 15N to study nitrogen transformations in land treatment. Jenkins, T.F., et al, [1979, 32p., eng] 34-2364

Soil resistivity—measurement and analysis. Palmer, J.D., [1974, p.41-46, eng] 34-2392

Peculiarities of forest-swamp ecosystems in West Siberia. Glebov, F.Z., ed, [1978, 159p., rus] 34-2518

Soil-geochemical regionalization of the non-chernozem zone for protection from pollution. Glazovskaia, M.A., [1978, p.127-139, rus] 34-2612

Properties of forest litter in relation to natural reforestation of green-moss spruce forest in northern Sikhote-Alin. Krupskaia, L.T., et al, [1980, p.93-95, rus] 34-2628

Experimental and field observation of the ascending migration of iron and humus substances in freezing soils. Archegova, I.B., [1979, p.103-107, rus] 34-2711

Origin of second humus zones in sod-podsol soils of West Siberia. Karavaeva, N.A., [1979, p.60-68, rus] 34-2739

Physico-chemical properties of humic acids in peats of the northern Trans-Ural areas. Komissarov, I.D., et al, [1979, p.114-121, rus] 34-2742

Gleying effect on dark gray heavy loam forest soils in West Siberia. Firsova, V.P., et al, [1979, p.143-156, rus] 34-2743

Some chemical properties of Cape Chelyuskin soils. Chugunova, M.V., [1979, p.74-77, rus] 34-3039

Hydrochemical runoff and the intensity of soil salinization in West Siberia. Panin, P.S., [1979, p.141-170, rus] 34-3081

Preliminary investigations of the kinetics of nitrogen transformation and nitrosamine formation in land treatment of wastewater. Jacobson, S., et al, [1979, 59p., eng] 34-3231

English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 2. [1980, 428p., eng] 34-3232

Simplified model for prediction of nitrogen behavior in land treatment of wastewater. Selim, H.M., et al, [1980, 49p., eng] 34-3263

Modern trends in design, construction and operation of land reclamation systems under Siberian conditions. Abstracts of papers presented at a seminar. [1978, 292p., rus] 34-3353

Specifics of soil formation and soils in West Siberia near the Yenisey River. Korsunov, V.M., et al, [1978, p.73-75, rus] 34-3356

Influence of freezing on nutrient content of hydromorphic soils. Rudol, N.G., et al, [1978, p.148-150, rus] 34-3362

Oxidation-reduction conditions and acidity of sod-podsols in the Angara River area after forest fires. Popova, E.P., [1978, p.27-32, rus] 34-3464

Soil formation on dust loams in the taiga zone of northeastern European USSR. Rusanova, G.V., et al, [1978, 128p., rus] 34-3753

Organization of a natural kaolinite-iron oxide system in dry and wet states. Relationship between melting temperature of ice and pore size. Homshaw, L.G., et al, [1980, p.847-850, fre] 34-3777

Regimes of landscape-geochemical processes in geosystems. Snytko, V.A., ed, [1977, 120p., rus] 34-3812

Dynamics of soil-geochemical indices in taiga permafrost geosystems. Shchetnikov, A.I., [1977, p.43-58, rus] 34-3814

Dynamics of soil and geochemical indices in central taiga geosystems. Sazonov, A.G., [1977, p.73-84, rus] 34-3816

Regularities governing microelement content in the soils of the southwestern taiga area (The Ordovician Plateau). Dvornikova, L.L., [1979, p.74-82, rus] 34-3876

Organic substances of soddy-podsolic soils with a second humus zone in the Smolensk area. Tereshenkova, I.A., et al, [1979, p.90-96, rus] 34-3881

Seasonal variations of soil formation in the Lake Baykal area. Snytko, V.A., et al, [1979, p.36-48, rus] 34-4163

Soil classification

Classification of soils in the far northeastern USSR. Ignatenko, I.V., [1979, p.168-176, rus] 34-452

Soil zones of Central Yakutia. Konorovskii, A.K., [1979, p.176-183, rus] 34-453

Soil cover of the world (Soil-bioclimatic areas of the world and their agro-ecologic characteristics). Rozov, N.N., et al, [1979, 287p., rus] 34-1654

Characteristics in studies and classification of alpine forest soils in the western Sayan. Kochurov, B.I., [1978, p.93-98, rus] 34-2469

Soil compaction

Shallow foundations on very thick moist earth fills. Kamenev, V.P., et al, [1979, p.24-29, rus] 34-125

Pressure consolidation of lumpy frozen soil dumped into water. Pekhovich, A.I., et al, [1979, p.92-98, rus] 34-1530

Hydrophysical properties of peat soils. Bondarenko, N.F., et al, [1979, 160p., rus] 34-1651

Some factors that affect thaw strain. Alkire, B.D., [1978, p.6-10, eng] 34-1964

Reversible and irreversible changes in strength of grounds compacted by blasting. Chernyi, G.I., [1979, p.41-52, rus] 34-2308

Allowing for compacted layer thickness when designing for sagging ground. Rozenfel'd, I.A., [1979, p.19-21, rus] 34-2634

Univariate compaction of ground, allowing for viscoplastic deformations. Ter-Martirosian, Z.G., [1976, p.322-327, rus] 34-3220

Nonlinear consolidation of clays allowing for aging. Tsytovich, N.A., et al, [1976, p.346-351, rus] 34-3222

Preconstruction consolidation of bases with vertical drains. Bel'skii, A.I., et al, [1980, p.266-272, eng] 34-3371

Radioactive isotope techniques in controlling quality of work and investigations when building foundations and underground structures. Smorodinov, M.I., [1980, 168p., rus] 34-3866

Construction of an embankment with frozen soil. Botz, J.J., et al, [1980, 105p., eng] 34-3873

Studying relations between soil consolidation indices. Ksenofontov, A.I., [1978, p.26-33, rus] 34-3888

Nonlinear formulation of a univariate problem of consolidation of saturated ground gases. Votiakov, I.F., [1978, p.34-44, rus] 34-3889

Densification of soils prone to slump-type settlement by the gas-detonation method. Martem'ianov, A.I., et al, [1980, p.316-320, eng] 34-3933

Soil composition

Three soil profiles from Elephant Island, South Shetland Islands. O'Brien, R.M.G., et al, [1979, p.1-12, eng] 34-12

Flood-induced transformations in soils. Seryshev, V.A., et al, [1979, p.237-250, rus] 34-460

Studying phytosociologic optima in the Kondo-Sos'va Ob' River geosystems. Kuz'menko, E.I., [1979, p.55-73, rus] 34-675

Basic classification indices of peat soils. Roman, L.T., [1976, p.122-130, rus] 34-713

Model experiments for determining the role of pine in the formation of variegated forest soils. Vedrova, E.F., [1979, p.30-42, rus] 34-973

Properties of humic acids in the Valday research station soils. Grishina, L.A., et al, [1979, p.63-87, rus] 34-1062

Microorganism dynamics in spruce forest soils. Skvortsova, I.N., [1979, p.93-99, rus] 34-1064

Soils of the East European tundra and forest tundra. Ignatenko, I.V., [1979, 280p., rus] 34-1649

Hydrophysical properties of peat soils. Bondarenko, N.F., et al, [1979, 160p., rus] 34-1651

Changes in the runoff from reclaimed marshlands in South Karelia. Nesterenko, I.M., et al, [1975, p.127-128, rus] 34-1857

Chemical composition of natural waters and migration of chemical substances in pine forest biogeocenoses. Strelkova, A.A., [1978, p.59-67, rus] 34-2255

Experience in the construction of pile foundations under frozen-ground conditions in the Vorkuta region. Eroshenko, V.N., et al, [1980, p.180-185, eng] 34-2375

Freezing in forest soil as influenced by soil properties, litter, and snow. Thorud, D.B., et al, [1969, 41p., eng] 34-2608

Experimental and field observation of the ascending migration of iron and humus substances in freezing soils. Archegova, I.B., [1979, p.103-107, rus] 34-2711

Some chemical properties of Cape Chelyuskin soils. Chugunova, M.V., [1979, p.74-77, rus] 34-3039

On the role of the components of frozen clay soils in the development of strength at different temperatures. Maksimiak, R.V., et al, [1980, p.169-183, eng] 34-3244

Regimes of landscape-geochemical processes in geosystems. Snytko, V.A., ed, [1977, 120p., rus] 34-3812

Metabolism of organic matter in south taiga soils of East Siberia. Nechaeva, E.G., et al, [1977, p.9-24, rus] 34-3813

Dynamics of soil-geochemical indices in taiga permafrost geosystems. Shchetnikov, A.I., [1977, p.43-58, rus] 34-3814

Organic substances of soddy-podsolic soils with a second humus zone in the Smolensk area. Tereshenkova, I.A., et al, [1979, p.90-96, rus] 34-3881

Soil creep

Mudboil activity, central District of Keewatin. Egginton, P.A., [1979, p.349-356, eng] 34-23

Rheological fundamentals of soil mechanics. Vialov, S.S., [1978, 447p., rus] 34-432

Excerpts from *Rheological Fundamentals of Soil Mechanics*. Vialov, S.S., [1979, 134p., eng] 34-629

Steady in-plane deformation of noncoaxial plastic soil. Takagi, S., [1979, p.1049-1072, eng] 34-860

Geotechnical studies. Huder, J., [1979, p.31-42, ger] 34-1332

Measurements of deformation and strength of materials from the Milchbuck tunnel. Herzog, P., et al, [1979, p.31-36, ger] 34-1334

Load-bearing behavior of frozen earthmasses. Eckardt, H., [1979, 141p., ger] 34-2955

Development of a laboratory set-up to measure creep induced by freeze-thaw cycles. Steijn, H. van, [1977, p.247-250, eng] 34-3261

Soil dating

Evolution of the soil landscape in the sand region of the Arctic coastal plain as exemplified at Atkasook, Alaska. Everett, K.R., [1979, p.207-223, eng] 34-687

Soil deformation

Effect of prefreezing on the strength and deformation properties of granular soils. Frydman, S., et al, [1979, p.31-42, eng] 34-2139

Soil erosion

Natural and economic aspects of protecting Siberian soils from erosion. Orlov, A.D., [1979, p.89-94, rus] 34-444

Use and protection of lands in the northern Irkutsk region and the BAM zone. Belykh, A.G., et al, [1979, p.95-99, rus] 34-445

Resistance of mountain and forest sod soils of the Baykal Lake area to erosion. Kovaleva, S.R., [1979, p.100-111, rus] 34-446

Forecasting water erosion of soils in the western part of the BAM zone (the upper Angara River Basin). Relmkhe, V.V., [1979, p.111-118, rus] 34-447

Specific nature of erosional processes in permafrost areas. Orlov, A.D., et al, [1979, p.118-124, rus] 34-448

Erosional vulnerability of taiga soils in the eastern BAM zone during economic development. Zarkhina, E.S., [1979, p.131-136, rus] 34-450

Human-induced thermokarst at old drill sites in northern Alaska. Lawson, D.E., et al, [1978, p.16-23, eng] 34-872

Calculating sediments washed out by streams on slopes during spring melt. Zubkova, K.M., [1979, p.26-35, rus] 34-1106

Ice breaking anti soil erosion plough. Shikula, N.K., et al, [1974, 2 col., rus] 34-1217

Surface erosion and sedimentation associated with forest land use in interior Alaska. Aldrich, J.W., et al, [1979, 87p., eng] 34-1314

Slope recession in the Onefour Badlands, Alberta, Canada: an initial appraisal of contrasted moisture regimes. Barendregt, R.W., et al, [1979, p.224-229, eng] 34-1451

Gully formation in the Messoiakha River Basin due to economic development of the North. Sukhodrovskii, V.L., et al, [1979, p.23-34, rus] 34-1509

Landscapes affected by industrial activities in permafrost areas of the northern Tyumen' region. Grigor'ev, N.F., [1979, p.35-44, rus] 34-1510

Preliminary disturbance of tundra covers as a means for improving geocryological conditions. Grigor'ev, N.F., [1979, p.45-50, rus] 34-1511

Studying the revegetation of tundra landscapes affected by industrial activities in the northern Yenisey River area. Skriabin, S.Z., [1979, p.51-61, rus] 34-1512

Fills as soil protecting covers and foundations for structures. Konstantinov, I.P., [1979, p.62-73, rus] 34-1513

Ground temperature variations during the economic development of the northern Amur River area. Balobaev, V.T., et al, [1979, p.74-88, rus] 34-1514

Geocryological conditions in the Yenisey River Valley (the Dudinka area) and changes induced by human activities. Kondrat'ev, V.G., et al, [1979, p.89-97, rus] 34-1515

Technology and ecological consequences of dredging. Domenik, O.P., et al, [1979, p.113-117, rus] 34-1517

Thermal conductivity of natural and disturbed soils in northwestern Siberia. Mandarov, A.A., et al, [1979, p.153-157, rus] 34-1522

Proceedings of the first all-union symposium Biosphere and Man. [1975, 335p., rus] 34-1852

Reclamation impact on northern peat soils. Nesterenko, I.M., [1975, p.129-130, rus] 34-1858

Mountain landscape protection in Siberia. Krylov, G.V., ed, [1973, 251p., rus] 34-1863

Scientific approaches to the problems of mountain landscape preservation. Fadeeva, N.V., et al, [1973, p.16-24, rus] 34-1864

Utilization and protection of mountain forests. Beliak, V.I., et al, [1973, p.67-70, rus] 34-1868

Influence of subzero temperatures on the erosion resistance of soils depending on their humidity. Muromtsev, N.A., [1968, p.22-25, rus] 34-2021

Problems in experimental landscape science. Krauklis, A.A., [1979, 232p., rus] 34-2103

Afforestation of stony slopes of the Gissar Range. Khvorov, N.A., et al, [1979, p.55-57, rus] 34-2111

Pressing environmental protection problems in the Far East. Konovalenko, V.G., ed, [1978, 179p., rus] 34-2532

Lithodynamics of river deltas in North Siberia. Korotaev, V.N., et al, [1980, p.138-145, rus] 34-2708

Geomorphology and construction. Spiridonov, A.I., ed, [1979, 190p., rus] 34-2746

Denudation of the eastern Baykal Amur railroad area caused by human activities. Sokol'skiĭ, A.M., [1979, p.159-164, rus] 34-2756
Thawing of ground under the influence of thermomechanical erosion. Khalikov, G.A., [1979, p.77-78, rus] 34-2935
Forecasting soil erosion development in the agricultural zone of West Siberia. Orlov, A.D., [1979, p.101-113, rus] 34-3079
Environmental protection in economic development of permafrost areas. Grave, N.A., ed, [1980, 140p., rus] 34-3277
Environmental protection problems related to placer mining in the North. Olovin, B.A., [1980, p.50-55, rus] 34-3285
Restoration of natural landscapes disturbed by human activities. Liverovskiĭ, IU.A., et al, [1980, p.111-115, rus] 34-3297
Changes in the properties of soils in the eastern foothills of the Polar Ural Mountains and the adjacent plain caused by construction of linear structures. Liverovskaia, I.T., [1980, p.116-121, rus] 34-3298
Disturbance of natural environments by construction of linear structures and the first stages of restoration of soil and vegetational covers. Smirnov, V.V., et al, [1980, p.121-127, rus] 34-3299
Root systems of sodding plants and their role in the restoration of vegetational cover disturbed by economic activities. Vital', A.D., [1980, p.128-133, rus] 34-3300
Forest and hydrological regionalization of Central Siberia. Lebedev, A.V., [1979, p.25-58, rus] 34-3770
Hydrophysical properties of forest litter and its soil-protective role. Krasnoshchekov, IU.N., et al, [1979, p.59-68, rus] 34-3771
Regional geomorphology of newly developed areas. Kibal'chich, O.A., et al, [1979, 120p., rus] 34-4101
Slope development dynamics in the Zeya-Bureya Plain. Popov, IU.I., [1979, p.15-20, rus] 34-4103
Environmental protection in Yakutia. Andreev, V.N., ed, [1979, 181p., rus] 34-4106
Rational use of natural resources in the Central Lena River area. Gubkin, M.P., et al, [1979, p.10-14, rus] 34-4107
Influence of tracked vehicles on tundra. Andreev, V.N., et al, [1979, p.42-47, rus] 34-4109
Planning environmental protection during the development of uninhabited areas. Kukuevitskiĭ, G.M., et al, [1979, p.50-53, rus] 34-4138
Problems in rational utilization of natural resources and environmental control in North Siberia. Cherskiĭ, N.V., ed, [1979, 158p., rus] 34-4164
Changes in geocryological conditions of economically developing areas in the North. Shvetsov, P.F., et al, [1979, p.112-120, rus] 34-4173
Effect of human activities on the vegetational cover of Taymyr. Shchelkunova, R.P., [1979, p.139-152, rus] 34-4175
Hepaticae—pioneers in matting disturbed Yamal tundra soils. Andreeva, E.N., [1979, p.21-22, rus] 34-4219
Tracked vehicle effect on subarctic tundra vegetation. Andreev, V.N., et al, [1979, p.22-24, rus] 34-4220
Natural reestablishment of vegetational cover in Central Yakutia. Nakhabtseva, S.F., [1979, p.48-49, rus] 34-4225
Types of East Taymyr tundras and their significance as cattle grazing grounds. Rapota, V.V., [1979, p.53-54, rus] 34-4226
Changes in vegetational cover of Yamal arctic tundras induced by reindeer grazing. Rebristaia, O.V., [1979, p.55-56, rus] 34-4227
Studying disturbed soils of reindeer grazing fields in the Messoyakha-Noril'sk pipeline area. Shchelkunova, R.P., et al, [1979, p.66-67, rus] 34-4229

Soil fluidization

See: Thixotropy

Soil formation

Soils along the Baykal Amur railroad. Kovalev, R.V., ed, [1979, 304p., rus] 34-433
Soils of the central Selemdzha River area and their economic development. Rybachuk, N.A., et al, [1979, p.49-54, rus] 34-439
Evaluation and classification of soils in the Zeya-Bureya plain and areas adjacent to the BAM zone. Onishchuk, V.S., [1979, p.54-59, rus] 34-440
Sod-carbonaceous soils of the Baykal Lake area. Koposov, G.F., [1979, p.60-68, rus] 34-441
Soil regimes in the Chara River Basin and methods of their interpretation. Shchetnikov, A.I., [1979, p.68-78, rus] 34-442
Brown taiga soils in the upper part of the Urkan River Basin. Ovchinnikov, S.M., et al, [1979, p.78-89, rus] 34-443
Resistance of mountain and forest sod soils of the Baykal Lake area to erosion. Kovaleva, S.R., [1979, p.100-111, rus] 34-446
Deflation of Barguzin Basin soils and economic utilization. Namzhilov, N.B., [1979, p.124-130, rus] 34-449
Erosional vulnerability of taiga soils in the eastern BAM zone during economic development. Zarkhina, E.S., [1979, p.131-136, rus] 34-450
Genetic and agricultural peculiarities of gray non-podzolized cryogenic soils in Transbaikal. Ishigenov, I.A., [1979, p.184-190, rus] 34-454
Soil structure and types of farm lands in the grassy larch forests of the Krasnoyarsk area. Krasekha, E.N., [1979, p.201-210, rus] 34-456
Mountain and forest chernozem-like soils on the eastern slope of Kuznetskiy Alatau. Tanzybaev, M.G., [1979, p.217-224, rus] 34-458
Bioenergetic diagnostics of mountain-forest soils in the Amur River area. Sapozhnikov, A.P., et al, [1979, p.224-230, rus] 34-459
Microbiological characteristics of cryogenic sod-podsol soils (Yeravninskaya Basin, Buryat ASSR). Nimaeva, S.Sh., et al, [1979, p.266-274, rus] 34-462
Phosphorus regime of gray forest soils in the East Siberian sub-taiga and soil formation. Kholopova, R.V., [1979, p.287-295, rus] 34-465
Application methods for determining biologic activity of paluded sod-podsol soils. IAkovlev, A.S., [1979, p.63-67, rus] 34-526
Soil forming factors in the Rocky Mountains of Southwestern Alberta, Canada. Howell, J.D., et al, [1978, p.313-324, eng] 34-797
Human influence on forest landscapes (Kan-Biryusa Plain). Rubtsov, N.I., et al, [1978, 128p., rus] 34-885
Systems approach to studying soil formation processes in landscapes affected by industrial activities. Trofimov, S.S., et al, [1979, p.3-19, rus] 34-947
Young soils formed in placer tailings in the southern taiga of the Central Urals. Nakariakov, A.V., et al, [1979, p.58-106, rus] 34-949
Productivity of soils in meadow biogeocenoses of recultivated dredging areas in the Central Urals. Nakariakov, A.V., et al, [1979, p.106-123, rus] 34-950
Initial soil formation processes developing on rock tailings of the Lipovskoe nickel mine. Makhonina, G.I., [1979, p.123-140, rus] 34-951
Natural revegetation of the Tom' River flood-plain soils disturbed by industrial activities. Taranov, S.A., et al, [1979, p.156-163, rus] 34-952
Forest tundras of the USSR. Parmuzin, IU.P., [1979, 295p., rus] 34-968
Studying and modeling soil formation in forest biogeocenoses. Korsunov, V.M., ed, [1979, 161p., rus] 34-969
Model experiments for determining the role of pine in the formation of variegated forest soils. Vedrova, E.F., [1979, p.30-42, rus] 34-973
Modeling taiga soils formation in the Salair Range. Korsunov, V.M., et al, [1979, p.43-52, rus] 34-974
Modeling the processes reflecting the influence of trees on forest soils. Shugalei, L.S., [1979, p.79-153, rus] 34-978
Soils and the productivity of plant communities. Vol.4 Kovda, V.A., ed, [1979, 205p., rus] 34-1058
Fall off and litter of coniferous forests in Valday. Grishina, L.A., et al, [1979, p.15-50, rus] 34-1060
Fractional composition of humic acids in Valday pine forest soils. Grishina, L.A., et al, [1979, p.51-62, rus] 34-1061
Properties of humic acids in the Valday research station soils. Grishina, L.A., et al, [1979, p.63-87, rus] 34-1062
Microelements in the lower layer of Valday station spruce forest. Belitsyna, G.D., et al, [1979, p.87-92, rus] 34-1063
Regularities governing the distribution of soils and vegetational covers in southern Transbaikal. Dmitrieva, E.V., [1979, p.427-432, rus] 34-1390
Origin of West Siberian soils containing thick light-color zones. Zonn, S.V., [1979, p.3-10, rus] 34-1438
Soils of the East European tundra and forest tundra. Ignatenko, I.V., [1979, 280p., rus] 34-1649
Hydrophysical properties of peat soils. Bondarenko, N.F., et al, [1979, 160p., rus] 34-1651
Soils of northern Yakutia. Elovskaia, L.G., et al, [1979, 303p., rus] 34-1652
Soil cover of the world (Soil-bioclimatic areas of the world and their agro-ecologic characteristics). Rozov, N.N., et al, [1979, 287p., rus] 34-1654
Peat accumulation and the formation of swamps as a physiographic process. Ivanov, K.E., [1976, p.80-90, rus] 34-2007
Organic matter in soddy-podsolic soils with the second humus horizons occurring in taiga landscapes, left bank of the Yenisey River. Lopukhina, O.V., et al, [1979, p.24-29, rus] 34-2101
Problems in experimental landscape science. Krauklis, A.A., [1979, 232p., rus] 34-2103
Soils in pine forests of Karelia. P'iavchenko, N.I., ed, [1978, 141p., rus] 34-2252
Soil formation on sandy deposits in Karelia. Morozova, R.M., [1978, p.4-43, rus] 34-2253
Influence of water transport and transfer of heat by freezing and defrosting on soil genesis. Makeev, O.M., et al, [1972, p.699-712, eng] 34-2380
Characteristics in studies and classification of alpine forest soils in the western Sayan. Kochurov, B.I., [1978, p.93-98, rus] 34-2469
Origin and development of the Surgut wooded marshes. Liss, O.L., et al, [1979, p.86-91, rus] 34-2710
Characteristics of soil formation in Siberia. Kovalev, R.V., ed, [1979, 294p., rus] 34-2734
Soil formation under ultracontinental cold arid conditions. Sokolov, I.A., et al, [1979, p.9-13, rus] 34-2735
Comparative characteristics of sod-forest, sod-taiga and brown forest soils of Siberia and the Far East. Gracheva, R.G., et al, [1979, p.14-29, rus] 34-2736
Peculiarities of gley soils in the Yamal-Gydansk tundra. Tonkonogov, V.D., [1979, p.45-52, rus] 34-2737
Origin of second humus zones in sod-podsol soils of West Siberia. Karavaeva, N.A., [1979, p.60-68, rus] 34-2739
Sod-gley soils of West Siberia. Karavaeva, N.A., [1979, p.69-78, rus] 34-2740
Ecologic influence on the formation of complex humus profiles of Siberian southern taiga soils. Nechaeva, E.G., [1979, p.79-87, rus] 34-2741
Physico-chemical properties of humic acids in peats of the northern Trans-Ural areas. Komissarov, I.D., et al, [1979, p.114-121, rus] 34-2742
Gleying effect on dark gray heavy loam forest soils in West Siberia. Firsova, V.P., et al, [1979, p.143-156, rus] 34-2743
Sandy soils in the southern Taz River Basin. Ovchinnikov, S.M., [1979, p.172-180, rus] 34-2744
Geography and origin of soils in the northwestern part of the West Siberian Plain and the adjacent polar Ural foothills. Liverovskaia, I.T., [1980, p.63-84, rus] 34-2762
Microflora in polar desert soils of Cape Chelyuskin. Parinkina, O.M., [1979, p.28-34, rus] 34-3035
Productivity of Taymyr soil microflora as a criterion of biologic activity. Parinkina, O.M., [1979, p.160-165, rus] 34-3046
Modern trends in design, construction and operation of land reclamation systems under Siberian conditions. Abstracts of papers presented at a seminar. [1978, 292p., rus] 34-3353
Specifics of soil formation and soils in West Siberia near the Yenisey River. Korsunov, V.M., et al, [1978, p.73-75, rus] 34-3356
Geographic studies of soil mantle in the Northern Yenisey River area and the Krasnoyarsk taiga. Korsunov, V.M., et al, [1978, p.5-14, rus] 34-3462
Structural features of soils developed on different types of perennially frozen strata. Alifanov, V.M., [1978, p.136-141, rus] 34-3604
Structure of taiga soils in the Tomsk area of Priob'e. Geras'ko, L.I., [1978, p.144-148, rus] 34-3605
Ice core and ice cement effects on soil development, eastern Wright Valley, Antarctica. Bockheim, J.G., [1979, p.487-493, eng] 34-3623
Morphogenetic profile analysis as a basis for the reconstruction of soil formation conditions (as exemplified by the permafrost soils of the Nercha Basin). Gugalinskaia, L.A., et al, [1979, p.261-273, eng] 34-3640
Soil formation on dust loams in the taiga zone of northeastern European USSR. Rusanova, G.V., et al, [1978, 128p., rus] 34-3753
Regimes of landscape-geochemical processes in geosystems. Snytko, V.A., ed, [1977, 120p., rus] 34-3812
Metabolism of organic matter in south taiga soils of East Siberia. Nechaeva, E.G., et al, [1977, p.9-24, rus] 34-3813
Dynamics of soil and geochemical indices in central taiga geosystems. Sazonov, A.G., [1977, p.73-84, rus] 34-3316
Formation and development of swamp systems. Kiriushkin, V.N., [1980, 88p., rus] 34-4014
Salinity of soils in the Tunguy depression. Borisenko, L.V., et al, [1979, p.34-41, rus] 34-4098
Seasonal variations of soil formation in the Lake Baykal area. Snytko, V.A., et al, [1979, p.36-48, rus] 34-4163

Soil freezing

Construction and performance of membrane encapsulated soil layers in Alaska. Smith, N., [1979, 27p., eng] 34-134
Influence of moisture migration on ground freezing rate. Krivoshein, B.I., [1979, p.19-21, rus] 34-170
Some aspects of frost heave problems in road foundations. Jagannatha Rao, P., [1976, p.293-307, eng] 34-212
Calculating thermal regime of reservoirs in permeable rocks surrounded by ice-bearing zones. Valiullin, A.N., et al, [1978, p.140-146, rus] 34-255
Frost heave at ground temperatures below 0C, Inuvik, Northwest Territories. Mackay, J.R., et al, [1979, p.403-405, eng] 34-290
Winter road preparation and commencement of traffic in the Mackenzie Delta. [1972, 20p., eng] 34-292
Factors and forms of cryogenesis in soils of Kazakhstan. Gorbunova, I.A., [1978, p.49-53, rus] 34-339
Rheological fundamentals of soil mechanics. Vialov, S.S., [1978, 447p., rus] 34-432
Long period dynamics of soil moisture and the state of steppe geosystems. Kochurov, B.I., [1979, p.36-44, rus] 34-673
Determining unfrozen water content from the relation of phase transformation temperature to moisture content of freezing ground. Konovalov, A.A., et al, [1976, p.42-51, rus] 34-704
Stresses beneath pilework produced by freezing of water saturated ground. Koniushenko, A.G., [1976, p.80-91, rus] 34-708
Approximate calculation of frost heave forces acting on pilework. Koniushenko, A.G., [1976, p.92-100, rus] 34-709

Soil freezing *(cont.)*

Electric models of rock freeze-thaw. Rashkin, A.V., [1979, p.135-137, rus] 34-718

Frost gauges and freezing gauges. Benner, J.A., et al, [1979, 18p., eng] 34-779

Vibrating equipment used in mining construction. Shiral, E.N., [1978, 262p., rus] 34-848

Initial and sustained strength of clay soils. Meschian, S.R., [1978, 207p., rus] 34-884

Temporary tunnel support by artificial ground freezing. Discussion. Brahma, C.S., [1979, p.1260-1262, eng] 34-961

Quantitative analysis of the relation between the main thermophysical characteristics of frozen soils. Konovalov, A.A., [1979, p.23-37, rus] 34-980

Spring runoff from small drainage basins of the Dubovskaya hydrometeorological station. Bystrov, A.V., [1979, p.26-38, rus] 34-1078

Accuracy of determining soil freezing depth at observation points. Sokolova, N.V., [1979, p.122-128, rus] 34-1083

Observation data on moisture-temperature regime of foundation soils. Anpilov, V.E., et al, [1979, p.74-77, eng] 34-1147

Artificial freezing of ground. Buchko, N.A., [1979, p.38-40, rus] 34-1153

Deformation of stabilized, ice-saturated lumpy soil. Baliasnikov, G.G., [1979, p.41-42, rus] 34-1154

Geotechnical studies for freezing procedures. Huder, J., [1979, p.77-98, ger] 34-1321

Geotechnical studies. Huder, J., [1979, p.31-42, ger] 34-1332

Regularities governing the distribution of soils and vegetational covers in southern Transbaikal. Dmitrieva, E.V., [1979, p.427-432, rus] 34-1390

Calculation of the temperature regime of earth dams by the finite-element method. Kronik, IA.A., et al, [1979, p.145-152, eng] 34-1393

Winter construction of roadbeds. Kostel'ov, M.P., et al, [1979, p.20-21, rus] 34-1422

Increasing the effectiveness of freezing foams used in thermal melioration of soils. Safonov, V.F., et al, [1979, p.118-123, rus] 34-1518

Influence of salinity on frozen ground deformation. Pekarskaia, N.K., et al, [1979, p.5-19, rus] 34-1534

Artificial cooling of ground with thermopiles. Vialov, S.S., et al, [1979, p.72-91, rus] 34-1541

Experimental study of heat transfer in fluid thermopiles. Konovalov, A.A., et al, [1979, p.109-117, rus] 34-1544

Investigation into the use of time domain reflectometry to determine the unfrozen water content of freezing soils. Smith, M.W., et al, [1979, 37p., eng] 34-1581

Laboratory and field studies to investigate isotope effects occurring during the formation of permafrost. Michel, F., et al, [1979, 64p., eng] 34-1583

Cryogenic suction in partially saturated soils. Frémond, M., et al, [1979, p.57-59, fre] 34-1642

Pore size distribution in critical point and freeze dried aggregates from clay subsoils. Lawrence, G.P., et al, [1979, p.499-515, eng] 34-1645

Calculating temperature distribution in seasonally freezing ground by the finite element method. Rudykh, O.L., et al, [1979, p.130-135, rus] 34-1720

Frost heaving of soils at two locations in southern Ontario, Canada. Fahey, B.D., [1979, p.119-126, eng] 34-1727

Unconfined compression test of frozen sandy soil. Hirobe, R., et al, [1979, p.167-173, jap] 34-1741

Seasonal freezing of ground in the non-chernozem areas of the RFSFR and its mapping. Tumel', N.V., et al, [1979, p.36-41, rus] 34-1757

Computer analysis of freezing with water migration in time when the process is formed on snow cover surface. Medvedev, A.V., et al, [1979, p.3-23, rus] 34-1908

Evaluating snow cover effect on temperature field of freezing rocks, allowing for the dependence of thermophysical snow characteristics on temperature. Melamed, V.G., et al, [1979, p.24-33, rus] 34-1909

Experimental studies of ice formation fields under non-univariate frost penetration conditions. Zhestkova, T.N., et al, [1979, p.159-167, rus] 34-1924

Moisture transfer and ice segregation in the frozen zone of thawing ground. Ershov, E.D., et al, [1979, p.179-192, rus] 34-1926

Role of seasonal ground freezing in ground water regimes of the area east of Lake Baykal. Blokhin, IU.I., [1979, p.96-101, rus] 34-1940

Influence of subzero temperatures on the erosion resistance of soils depending on their humidity. Muromtsev, N.A., [1968, p.22-25, rus] 34-2021

Principal results of frost action experiments at the Centre de Géomorphologie. Lautridou, J.P., [1978, p.5-13, fre] 34-2024

Freezing of porous media and problems posed by frost action. Aguirre-Puente, J., [1978, p.15-43, fre] 34-2025

Hydraulic conductivity in frozen soils. Burt, T.P., et al, [1976, p.349-360, eng] 34-2113

Crossings of roads with heat pipes. Nagornaia, E.A., [1979, p.37-40, rus] 34-2125

Effect of prefreezing on the strength and deformation properties of granular soils. Frydman, S., et al, [1979, p.31-42, eng] 34-2139

Soils in pine forests of Karelia. P'iavchenko, N.I., ed, [1978, 141p., rus] 34-2252

Hydrothermal regime of autonomous sandy soils. Erukov, G.V., [1978, p.44-58, rus] 34-2254

Recent relief-forming processes in Siberia. Ivanovskii, L.N., ed, [1978, 139p., rus] 34-2293

Recent exogenic relief-forming processes in Transbaikal steppes. Titova, Z.A., et al, [1978, p.3-21, rus] 34-2294

Frost heave in Transbaikal steppes. Bazhenova, O.I., [1978, p.109-126, rus] 34-2298

Proposed size classification for the texture of frozen earth materials. McGaw, R.W., [1979, p.267-275, eng] 34-2339

Calculating electric heating of bearing ground beneath refrigerator columns. Gindoian, A.G., et al, [1976, p.88-107, rus] 34-2404

Use of heat pipes for freezing soil, Pt. 1. Vaaz, S.L., [1979, p.608, eng] 34-2416

Properties of frozen base course in West Texas. Campbell, W.R., Jr., et al, [1979, 94p., eng] 34-2422

Soil freezing and highway construction. [1978, 105p., eng] 34-2480

Hydrothermal melioration of frozen rocks in the Northeastern USSR. Perl'shtein, G.Z., [1979, 304p., rus] 34-2530

Pressing environmental protection problems in the Far East. Konovalenko, V.G., ed, [1978, 179p., rus] 34-2532

Seasonal freezing of soil and ground in the southeastern Amur area. Baulo, V.D., et al, [1978, p.100-107, rus] 34-2535

Freezing in forest soil as influenced by soil properties, litter, and snow. Thorud, D.B., et al, [1969, 41p., eng] 34-2606

Studying temperature fields produced by heat transfer between ground and gas and oil pipelines. Bronfenbrener, L.E., [1960, p.12-15, rus] 34-2641

Exogenic geologic processes and phenomena in the Angara River area. Leshchikov, F.N., et al, [1976, p.93-101, rus] 34-2644

Mechanics of frozen ground disintegration. Surikov, V.V., [1979, 127p., rus] 34-2670

Experimental and field observation of the ascending migration of iron and humus substances in freezing soils. Archegova, I.B., [1979, p.103-107, rus] 34-2711

Gleying effect on dark gray heavy loam forest soils in West Siberia. Firsova, V.P., et al, [1979, p.143-156, rus] 34-2743

Studying regimes of the Krasnoyarsk forest-steppe soils. Bugakov, P.S., et al, [1979, p.257-267, rus] 34-2745

Instruments for determining soil density and moisture content. Gorelik, A.M., et al, [1980, p.8-9, rus] 34-2851

Long range forecasts of flood water volume in the Oka River, allowing for soil freezing irregularities in the basin. Rakhmanov, V.V., [1978, p.41-52, rus] 34-2894

Use of "muskeg caps" to deter frost penetration under transmission line tower bases. Sims, R.A., [1978, p.116-131, eng] 34-2911

Geocryologic and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, [1978, 187p., rus] 34-2915

Thickness of the seasonally freezing surface layer in Yakutia. Solov'ev, P.A., [1978, p.3-12, rus] 34-2916

Approximate solution of nonlinear Stefan problems. Danielian, IU.S., et al, [1979, p.79-82, rus] 34-2936

Pore-water pressure profile of a freezing soil. Fukuda, M., [1980, p.33-40, jap] 34-3157

Present state of research on the freezing of rocks and construction materials. Aguirre-Puente, J., [1980, p.117-132, eng] 34-3241

Crystallization-film mechanism of water migration toward frost penetration front. Kaliuzhnyi, I.L., et al, [1980, p.3-12, rus] 34-3458

Studying soil moisture migration toward freezing fronts. Kaliuzhnyi, I.L., et al, [1980, p.13-29, rus] 34-3459

Regularities of soil moisture migration during frost penetration. Sokolova, N.V., [1980, p.30-38, rus] 34-3460

Mobile net technique for numerical solution of the equations of heat and moisture transfer in soils. Khimin, N.M., [1980, p.72-81, rus] 34-3461

Frost heave under overburden pressure. 'shizaki, T., et al, [1979, p.169-178, jap] 34-3503

Controlling method for constant freezing front advancing rate in freezing soils. Fukuda, M., [1979, p.197-200, jap] 34-3506

Cryogenic physical-geologic processes and their prediction. Grechishchev, S.E., et al, [1980, 383p., rus] 34-3757

Organization of a natural kaolinite-iron oxide system in dry and wet states. Relationship between melting temperature of ice and pore size. Homshaw, L.G., et al, [1980, p.847-850, fre] 34-3777

Water permeability of frozen non-cohesive soils and analyses of its variation during the snowmelt and thawing periods. Shtykov, V.I., [1979, p.91-98, rus] 34-3885

Finite element method of calculating ground freezing depth. Rudykh, O.L., et al, [1978, p.81-85, rus] 34-3892

Role of the thermal factor in the formation of bogs in the Amur Region. Kholoden, E.E., [1978, p.6-10, eng] 34-3960

Mathematical model of water infiltration into frozen soils. Motovilov, IU.G., [1978, p.207-211, eng] 34-4060

Impervious frozen ground screens in earth dams of the "frozen" type. Makarov, V.I., [1979, p.26-51, rus] 34-4154

Heat exchange of an artificially frozen dam with the atmosphere. Olovin, B.A., [1979, p.51-61, rus] 34-4155

Seasonal variations of soil formation in the Lake Baykal area. Snytko, V.A., et al, [1979, p.36-48, rus] 34-4163

Soil mechanics

Rheological fundamentals of soil mechanics. Vialov, S.S., [1978, 447p., rus] 34-432

Excerpts from *Rheological Fundamentals of Soil Mechanics*. Vialov, S.S., [1979, 134p., eng] 34-629

Initial and sustained strength of clay soils. Meschian, S.R., [1978, 207p., rus] 34-884

Field trip No.4: Northern Manitoba--District of Keewatin. Brown, R.J.E., et al, [1979, 76p., eng] 34-1693

Some factors that affect thaw strain. Alkire, B.D., [1978, p.6-10, eng] 34-1964

Mechanics of rockstream movement (from experimental and research station data). Shevchenko, B.F., et al, [1979, p.72-79, rus] 34-2749

Factors relating to the landslide process in Canadian Quickclays. Smalley, I., [1976, p.163-172, eng] 34-3262

Structural interpretation of thawing ground compressibility. Gur'ianov, I.E., [1979, p.65-84, rus] 34-4157

See also: Frozen ground mechanics

Soil microbiology

Cold tolerance of micro-arthropoda from Alaskan taiga. Block, W., [1979, p.103-110, eng] 34-11

Soils along the Baykal Amur railroad. Kovalev, R.V., ed, [1979, 304p., rus] 34-433

Influence of microorganisms on ferrous oxide dynamics in soils of the Angara River area. Influence of microorganisms on ferrous iron dynamics in soils of the Angara River area, [1979, p.260-265, rus] 34-461

Application methods for determining biologic activity of paluded sod-podsol soils. IAkovlev, A.S., [1979, p.63-67, rus] 34-526

Soil Acari and Collembola from Chaun Bay, Northern Chukotka. MacLean, S.F., et al, [1978, p.559-568, eng] 34-658

Soil formation in landscapes affected by industrial activities. Trofimov, S.S., ed, [1979, 294p., rus] 34-946

Productivity of soils in meadow biogeocenoses of recultivated dredging areas in the Central Urals. Nakariakov, A.V., et al, [1979, p.106-123, rus] 34-950

Oxidizing activity of microorganisms in recultivated tailings of the Baydaevskiy coal mine (Kuzbass). Kulebakin, V.G., [1979, p.179-185, rus] 34-955

Studying and modeling soil formation in forest biogeocenoses. Korsunov, V.M., ed, [1979, 161p., rus] 34-969

Effect of maintenance felling on soil microflora in Pinus (cembra) sibirica forests. Vishniakova, Z.V., et al, [1979, p.14-22, rus] 34-971

Experimental study of biologic conversion of iron in soils. Sorokin, N.D., et al, [1979, p.53-61, rus] 34-975

Microorganism dynamics in spruce forest soils. Skvortsova, I.N., [1979, p.93-99, rus] 34-1064

Maganese oxidizing bacteria in the Valday station soils. Bolotina, I.N., [1979, p.100-107, rus] 34-1065

Environment-forming role of forests in the Lake Baykal Basin. Lebedev, A.V., et al, [1979, 256p., rus] 34-1190

Land application of domestic sludge in cold climates. Johnson, R.A., [1978, 27p., eng] 34-1313

Microbiological characteristics of cryogenic meadow-chernozem soils in the Eravnin Basin, the Buryat Autonomous Republic. Nimaeva, S.Sh., et al, [1979, p.10-17, rus] 34-1439

Microbiological studies of soils in the Magadan Region. Poliakov, V.A., [1978, p.3-10, rus] 34-1440

Drainage effect on algoflora of mesotrophic bogs. Antipina, G.S., [1979, p.1285-1295, rus] 34-1449

Microbic associations and their functions in West Siberian soils. Klevenskaia, I.L., ed, [1979, 286p., rus] 34-1805

Microbiological processes in south taiga soils of West Siberia. Naplekova, N.N., et al, [1979, p.3-21, rus] 34-1806

Microbic associations in soils of biogeocenoses of the Baraba Plain. Klevenskaia, I.L., et al, [1979, p.22-60, rus] 34-1807

Nitrogen compound transformations in some Baraba Plain soils. Gantimurova, N.I., [1979, p.60-86, rus] 34-1808

Biochemical productivity in soils of some biogeocenoses in the Baraba Plain, subject to continuous cultivation. Gantimurova, N.I., [1979, p.87-107, rus] 34-1809

Microbiology of Altai Mountain soils. Klevenskaia, I.L., et al, [1979, p.107-153, rus] 34-1810

Effect of development on the biologic activity of chernozems and chernozem-meadow alpine soils of the Altais. Gauert, V.I., [1979, p.154-165, rus] 34-1811

Temperature and humidity effect on biological nitrogen fixation in leached chernozem with different organic additives. Mozzherin, N.M., [1979, p.174-178, rus] 34-1812

Effect of fertilizers on the microflora of gray forest soils in the Altai Mountains. Vyblov, N.F., [1979, p.178-183, rus] 34-1813
Mountain landscape protection in Siberia. Krylov, G.V., ed, [1973, 251p., rus] 34-1863
Scientific and practical significance of studying partial inhomogeneity of mountain taiga soils. Taranov, S.A., [1973, p.59-66, rus] 34-1867
Decomposition models based on climatic variables, substrate variables, microbial respiration and production. Flanagan, P.W., et al, [1976, p.437-457, eng] 34-2006
Protein-splitting microorganisms in Tuva soils. Nekrasova, V.D., [1978, p.105-115, rus] 34-2107
Biodynamics and soil productivity. [1979, 211p., rus] 34-2417
Dynamics of microbial biomass in taiga soils of West Siberia. Antonenko, A.M., et al, [1979, p.69-72, rus] 34-2418
Population dynamics of microorganisms in podsol in Kola Peninsula. Pereverzev, V.N., et al, [1979, p.73-76, rus] 34-2419
Dynamics of bacterial community growth in tundra soils of southern Taymyr. Parinkina, O.M., [1979, p.100-103, rus] 34-2420
Microflora in polar desert soils of Cape Chelyuskin. Parinkina, O.M., [1979, p.28-34, rus] 34-3035
Microflora of Arctic tundra soils in the northeastern part of the Taymyr Peninsula. Parinkina, O.M., [1979, p.110-117, rus] 34-3041
Productivity of Taymyr soil microflora as a criterion of biologic activity. Parinkina, O.M., [1979, p.160-165, rus] 34-3046
Dynamics of biological activity in Central Angara soils. Sorokin, N.D., [1978, p.128-139, rus] 34-3466
Biomass of microorganisms in the forest-swamp geosystems of southern taiga in the Irtysh River area. Antonenko, A.M., et al, [1978, p.74-80, rus] 34-3611
Microflora and biological activity of flood-plain soils in the Lower Irtysh River area. Nikitina, V.G., [1978, p.81-88, rus] 34-3612
Microbiological description of northern taiga bog-podzolic soils. Shamin, A.A., et al, [1979, p.151-156, rus] 34-3639

Soil moisture
See: Soil water

Soil patterns
Soils of the "Snow Valley" research station (Explanatory note to the soil map). Bogdanov, I.E., et al, [1977, p.35-43, rus] 34-1161
Soil cover of the "Snow Valley" station (Explanatory list with a diagram of soil cover). Bogdanov, I.E., et al, [1980, p.36-47, eng] 34-3398

Soil physics
Periglacial research, final report. Burrous, C.M., [1979, 10 leaves, eng] 34-1505
Self-consistent solutions of some problems of heat and mass transfer in a saturated porous medium. Verigin, N.N., et al, [1980, p.1089-1094, eng] 34-3561
Application of recent results in functional analysis to the problem of wetting fronts. Nakano, Y., [1980, p.314-318, eng] 34-3948
See also: Frozen ground physics

Soil pollution
Alternative highway deicing chemicals. Dunn, S.A., et al, [1979, p.261-269, eng] 34-90
Impact of crude oil on root respiration and levels of soluble soil cellulase in coastal Arctic tundra. Linkins, A.E., et al, [1978, p.590-604, eng] 34-910
Human activities effect on the Pinus sylvestris (Pinaceae) increment in the Bratsk Region. Lalrand, N.I., et al, [1979, p.1187-1195, rus] 34-1448
Pollution potential of manure spread on frozen ground. Young, R.A., et al, [1976, p.174-179, eng] 34-2045
Soil-geochemical regionalization of the non-chernozem zone for protection from pollution. Glazovskaia, M.A., [1978, p.127-139, rus] 34-2612

Soil pressure
Osmotic method for determining rock and aggregate suction characteristics with applications to frost heave studies. Jones, R.H., et al, [1978, p.245-252, eng] 34-2525

Soil profiles
Three soil profiles from Elephant Island, South Shetland Islands. O'Brien, R.M.G., et al, [1979, p.1-12, eng] 34-12
Soils in the western section of BAM and prospects for their agricultural development. Kolesnichenko, V.T., [1979, p.24-33, rus] 34-436
Muysk Basin soils and their agricultural development. Vtorushin, V.A., et al, [1979, p.34-42, rus] 34-437
Soils of the central Selemdzha River area and their economic development. Rybachuk, N.A., et al, [1979, p.49-54, rus] 34-439
Sod-carbonaceous soils of the Baykal Lake area. Koposov, G.F., [1979, p.60-68, rus] 34-441
Soil regimes in the Chara River Basin and methods of their interpretation. Shchetnikov, A.I., [1979, p.68-78, rus] 34-442
Brown taiga soils in the upper part of the Urkan River Basin. Ovchinnikov, S.M., et al, [1979, p.78-89, rus] 34-443
Resistance of mountain and forest sod soils of the Baykal Lake area to erosion. Kovaleva, S.R., [1979, p.100-111, rus] 34-446
Genetic and agricultural peculiarities of gray non-podzolized cryogenic soils in Transbaikal. Ishigenov, I.A., [1979, p.184-190, rus] 34-454
Genetic peculiarites of gray forest soils in larch grass forests of the Krasnoyarsk area. Gogolev, I.N., et al, [1979, p.190-201, rus] 34-455
Structure of soils in the steppe geosystems of the Abakan and Yenisey interfluve. Kochurov, B.I., [1979, p.210-217, rus] 34-457
Microbiological characteristics of cryogenic sod-podsol soils (Yeravninskaya Basin, Buryat ASSR). Nimaeva, S.Sh., et al, [1979, p.266-274, rus] 34-462
Human influence on forest landscapes (Kan-Biryusa Plain). Rubtsov, N.I., et al, [1978, 128p., rus] 34-885
Soil formation in landscapes affected by industrial activities. Trofimov, S.S., ed, [1979, 294p., rus] 34-946
Young soils formed in placer tailings in the southern taiga of the Central Urals. Nakariakov, A.V., et al, [1979, p.58-106, rus] 34-949
Studying and modeling soil formation in forest biogeocenoses. Korsunov, V.M., ed, [1979, 161p., rus] 34-969
Chemical composition and migration of soil moisture in Salai Range landscapes. Korsunov, V.M., [1979, p.62-67, rus] 34-976
Studying the migration of chlorine-marked soil moisture. Shugalei, L.S., et al, [1979, p.68-78, rus] 34-977
Fall off and litter of coniferous forests in Valday. Grishina, L.A., et al, [1979, p.15-50, rus] 34-1060
Fractional composition of humic acids in Valday pine forest soils. Grishina, L.A., et al, [1979, p.51-62, rus] 34-1061
Properties of humic acids in the Valday research station soils. Grishina, L.A., et al, [1979, p.63-87, rus] 34-1062
Infiltration into soil with precipitation of arbitrary intensity. Kutuzova, G.B., [1979, p.142-148, rus] 34-1085
Morphogenetic characteristics of soils in the research station area. Ignatenko, I.V., et al, [1977, p.62-101, rus] 34-1163
Origin of West Siberian soils containing thick light-color zones. Zonn, S.V., [1979, p.3-10, rus] 34-1438
Soils of northern Yakutia. Elovskaia, L.G., et al, [1979, 303p., rus] 34-1652
Soil cover of the world (Soil-bioclimatic areas of the world and their agro-ecologic characteristics). Rozov, N.N., et al, [1979, 287p., rus] 34-1654
Nitrogen compound transformations in some Baraba Plain soils. Gantimurova, N.I., [1979, p.60-86, rus] 34-1808
Organic matter in soddy-podsolic soils with the second humus horizons occurring in taiga landscapes, left bank of the Yenisey River. Lopukhina, O.V., et al, [1979, p.24-29, rus] 34-2101
Soil formation on sandy deposits in Karelia. Morozova, R.M., [1978, p.4-43, rus] 34-2253
Characteristics in studies and classification of alpine forest soils in the western Sayan. Kochurov, B.I., [1978, p.93-98, rus] 34-2469
Comparative characteristics of sod-forest, sod-taiga and brown forest soils of Siberia and the Far East. Gracheva, R.G., et al, [1979, p.14-29, rus] 34-2736
Peculiarities of gley soils in the Yamal-Gydansk tundra. Tonkonogov, V.D., [1979, p.45-52, rus] 34-2737
Origin of second humus zones in sod-podsol soils of West Siberia. Karavaeva, N.A., [1979, p.60-68, rus] 34-2739
Sod-gley soils of West Siberia. Karavaeva, N.A., [1979, p.69-78, rus] 34-2740
Ecologic influence on the formation of complex humus profiles of Siberian southern taiga soils. Nechaeva, E.G., [1979, p.79-87, rus] 34-2741
Gleying effect on dark gray heavy loam forest soils in West Siberia. Firsova, V.P., et al, [1979, p.143-156, rus] 34-2743
Sandy soils in the southern Taz River Basin. Ovchinnikov, S.M., [1979, p.172-180, rus] 34-2744
Oats in the permafrost zone. Denisov, G.V., [1979, 168p., rus] 34-2901
Properties of soils in the autonomous landscapes of forest tundra and northern taiga of the Lower Yenisey River Uplands. Korsunov, V.M., et al, [1978, p.15-26, rus] 34-3463
Morphogenetic profile analysis as a basis for the reconstruction of soil formation conditions (as exemplified by the permafrost soils of the Nercha Basin). Gugalinskaia, L.A., et al, [1979, p.261-273, eng] 34-3640
Soil formation on dust loams in the taiga zone of northeastern European USSR. Rusanova, G.V., et al, [1978, 128p., rus] 34-3753
Metabolism of organic matter in south taiga soils of East Siberia. Nechaeva, E.G., et al, [1977, p.9-24, rus] 34-3813
Regularities governing microelement content in the soils of the southwestern taiga area (The Ordovician Plateau). Dvornikova, L.L., [1979, p.74-82, rus] 34-3876
Organic substances of soddy-podsolic soils with a second humus zone in the Smolensk area. Tereshenkova, I.A., et al, [1979, p.90-96, rus] 34-3881

Soil science
Biochemical activities of organic soils from subantarctic tussok grasslands on Campbell Island. 1. Oxygen uptakes and nitrogen mineralisation. Ross, D.J., et al, [1979, p.161-171, eng] 34-893
Biochemical activities of organic soils from subantarctic tussock grasslands on Campbell Island. 2. Enzyme activities. Ross, D.J., et al, [1979, p.173-182, eng] 34-894

Soil settling
See: Settlement (structural)

Soil stabilization
Utilization of sewage sludge for terrain stabilization in cold regions, Part 2. Gaskin, D.A., et al, [1979, 36p., eng] 34-746
Two cements used in the silication of loess with the product of azeotropic rectification of acid waste waters. Petrenko, L.K., et al, [1979, p.127-130, rus] 34-854
Stabilization of saturated loess soils by gas silication. Isaev, B.N., et al, [1979, p.65-69, eng] 34-1146
Deformation of stabilized, ice-saturated lumpy soil. Baliasnikov, G.G., [1979, p.41-42, rus] 34-1154
Soil consolidation under difficult engineering-geological conditions. Baushev, V.K., et al, [1979, p.111-116, rus] 34-1532
Roasting loess soils to a depth of 25 m. Litvinov, I.M., et al, [1979, p.124-128, eng] 34-2017
Freezing and thawing mechanisms in lime stabilized soils. Esmer, E., [1969, 204p., eng] 34-2067
Preparation of sagging loess bases. Ryzhov, A., et al, [1979, p.32-33, rus] 34-2117
Utilization of sewage sludge for terrain stabilization in cold regions. Pt. 3. Rinage, S.D., et al, [1979, 33p., eng] 34-2365
Stabilization of artificially thawed soils on lake and river shores, by cement solutions in freezing weather. Temko, IU.P., et al, [1979, p.89-91, rus] 34-2621
Soil stabilization with a mixture of liquid bitumens and plastics. Lukanina, T.M., et al, [1979, p.108-113, rus] 34-2626
New soil stabilization technique. Lukanina, T.M., et al, [1979, p.10-11, rus] 34-2794
Collection No 1 of unified regional individual estimates for construction. Earthwork. [1977, 247p. (Pertinent p.200-246), rus] 34-2868
Determination of the parameters of the method of thermal stabilization of soils and its economic effectiveness. IUrdanov, A.P., [1980, p.272-278, eng] 34-3372
Technology of preparing and storing oil-stabilized soils. Bogomolov, IU.N., et al, [1980, p.6-8, rus] 34-3558
Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p. (Pertinent p.230-344), rus] 34-3600
Electrochemical treatment of clay foundations. Zhinkin, G.N., et al, [1980, 164p., rus] 34-3756
Results of twenty-year monitoring of silication stabilization of Odessa theater foundations. Arshakuni, D.E., et al, [1980, p.325-327, eng] 34-3934
Forecasting the strength of stabilized soils. Khabibullina, E.N., [1980, p.20-21, rus] 34-3953

Soil strength
Evaluation of freeze-thaw durability of stabilized materials. Thompson, M.R., et al, [1976, p.62-70, eng] 34-152
Report on strength and deformation characteristics of sea-bed samples from Davis Strait. [1978, 28p. + appends., eng] 34-313
Rheological fundamentals of soil mechanics. Vialov, S.S., [1978, 447p., rus] 34-432
Excerpts from *Rheological Fundamentals of Soil Mechanics*. Vialov, S.S., [1979, 134p., eng] 34-629
Two cements used in the silication of loess with the product of azeotropic rectification of acid waste waters. Petrenko, L.K., et al, [1979, p.127-130, rus] 34-854
Initial and sustained strength of clay soils. Meschian, S.R., [1978, 207p., rus] 34-884
Freezing and thawing mechanisms in lime stabilized soils. Esmer, E., [1969, 204p., eng] 34-2067
Effect of prefreezing on the strength and deformation properties of granular soils. Frydman, S., et al, [1979, p.31-42, eng] 34-2139
Studying the effect of loading regime on the strength of clay soils. Sorokina, G.V., [1976, p.314-321, rus] 34-3219
Forecasting the strength of stabilized soils. Khabibullina, E.N., [1980, p.20-21, rus] 34-3953

Soil structure
Rheological fundamentals of soil mechanics. Vialov, S.S., [1978, 447p., rus] 34-432
Soil structure and types of farm lands in the grassy larch forests of the Krasnoyarsk area. Krasekha, E.N., [1979, p.201-210, rus] 34-456
Phosphorus regime of gray forest soils in the East Siberian sub-taiga and soil formation. Kholopova, R.V., [1979, p.287-295, rus] 34-465
Initial and sustained strength of clay soils. Meschian, S.R., [1978, 207p., rus] 34-884
Properties and relative age of soils of southwestern Cumberland Peninsula, Baffin Island, N.W.T., Canada. Bockheim, J.G., [1979, p.289-306, eng] 34-1283
Investigations of possible correlations of vegetation, substrate, and topography in interior Alaska. Neiland, B.J., [1975, c120 leaves, eng] 34-1357

Soil structure *(cont.)*
Electron microscope investigations of frozen and unfrozen bentonite. Kumai, M., (1979, 14p., eng) 34-1578
Thixotropic texture of Gydan Peninsula soils. Liverovskii, IU.A., et al, (1980, p.45-54, rus) 34-2761
Structural features of soils developed on different types of perennially frozen strata. Alifanov, V.M., (1978, p.136-141, rus) 34-3604

Soil surveys
Soils and relief in western Greenland. Stäblein, G., (1979, p.232-245, ger) 34-1494

Soil temperature
Variations of heat transfer between soil and atmosphere induced by engineering activities in tundra regions. Pavlov, A.V., et al, (1979, p.12-22, rus) 34-124
Factors and forms of cryogenesis in soils of Kazakhstan. Gorbunova, I.A., (1978, p.49-53, rus) 34-339
Soils along the Baykal Amur railroad. Kovalev, R.V., ed, (1979, 304p., rus) 34-433
Hydrothermal regime of cryogenic sod-taiga soils (Yeravninskaya Basin, Buryat ASSR). Dugarov, V.I., (1979, p.274-282, rus) 34-463
Role of permafrost in the hydrothermal regime of soils. Savvinov, D.D., (1979, p.282-287, rus) 34-464
Thermal regime of a prairie snowcover. Granger, R.J., et al, (1977, p.839-842, eng) 34-476
Frost penetration beneath black-painted concrete canal lining. Jones, C.W., (1979, 33p., eng, 34-531
Structure and dynamics of geosystems. Mikheev, V.S., ed, (1979, 136p., rus) 34-670
Seasonal dynamics of thermal conditions and fir growth in the Angara River taiga area. Krauklis, A.A., et al, (1979, p.45-54, rus) 34-674
Structure of radiation and thermal fields in natural West Siberian central taiga geosystems. Trofimova, I.E., (1979, p.101-120, rus) 34-678
Thermal regime of water pipelines built in seasonally freezing ground. Pereleshin, R.S., et al, (1974, p.107-210, rus) 34-758
Field studies of temperature regime of water pipelines in deep seasonally freezing ground. Pereleshin, R.S., et al, (1974, p.121-126, rus) 34-759
Heat accumulation and thermal cycles of oligotrophic peat bogs. Kaliuzhnyi, I.L., (1979, p.81-89, rus) 34-832
Studying the effect of natural and experimental fires on forest soils. Popova, E.P., (1979, p.23-29, rus) 34-972
Review of snow-soil interaction. Guymon, G.L., (1979, p.297-303, eng) 34-1026
Physiographic conditions of northern Okhotomor'e and hydrothermal regime of soils at the "Snow Valley" research station. Ignatenko, I.V., et al, (1977, p.5-23, rus) 34-1159
Shallow core drilling and bore-hole measurements in the permafrost of an active rock glacier near the Grubengletscher, Wallis, Swiss Alps. Barsch, D., et al, (1979, p.215-228, eng) 34-1279
Preventing corrosion on Arctic pipelines. Peabody, A.W., (1979, p.28-42, eng) 34-1290
Pipe-soil interaction, Trans-Alaska Pipeline. Luscher, U., et al, (1979, p.486-502, eng) 34-1402
Seasonal activity of invertase in drained peat soils. Efremova, T.T., (1978, p.12-18, rus) 34-1442
Ground temperature variations during the economic development of the northern Amur River area. Balobaev, V.T., et al (1979, p.74-88, rus) 34-1514
Geophysics in the study of permafrost. Scott, W.J., et al, (1979, p.93-115, eng) 34-1682
Experimental research on the principal mechanical properties of freezing and frozen soils in China (a review). Hsiao-pai, C., et al, (1979, p.159-177, eng) 34-1686
Experimental research on an embankment at the lower limit of alpine permafrost. Kuo-tung, C., et al, (1979, p.199-222, eng) 34-1689
Microbic associations in soils of biogeocenoses of the Baraba Plain. Klevenskaia, I.L., et al, (1979, p.22-60, rus) 34-1807
Role of vegetational cover in the development of cryogenic biogeocenoses. Makeev, O.V., et al, (1975, p.164-165, rus) 34-1861
Groundwater movement and subsurface temperatures in a glacial complex, Cochrane District, Ontario. Parsons, M.L., (1969, 105p., eng) 34-2072
Problems in experimental landscape science. Krauklis, A.A., (1979, 232p., rus) 34-2103
Hydrothermal regime of autonomous sandy soils. Erukov, G.V., (1978, p.44-58, rus) 34-2254
Vegetation effect on ground temperature in northern West Siberia. Tyrtikov, A.P., (1980, p.112-118, rus) 34-2766
Oats in the permafrost zone. Denisov, G.V., (1979, 184p., rus) 34-2901
Physical-geographical conditions of the northern Okhotsk Sea region and the hydrothermal state of the soils ("Snow Valley Station"). Ignatenko, I.V., et al, (1980, p.5-23, eng) 34-3396
Thermal interaction between gas line and frozen soils. Krivoshein, B.L., et al, (1980, p.1083-1088, eng) 34-3560
Selective felling effect on water-controlling properties of Khamar-Daban pine forests. Biziukin, V.V., (1979, p.69-78, rus) 34-3772
Thermal physics of permafrost terrain. Pavlov, A.V., (1980, p.46-61, eng) 34-3831
Modeling productivity and frost hardiness of plants. Kurets, V.K., et al, (1979, 15p., rus) 34-4012
Life in the tundra. Chernov, IU.I., (1980, 236p., rus) 34-4015
Summer temperatures of cryosolic soils in the north-central Keewatin, N.W.T. Tarnocai, C., (1980, p.311-327, eng) 34-4070
See also Frozen ground temperature

Soil tests
Report on laboratory testing of sea-bed samples from Davis Strait, (1977, 9p. + appends., eng) 34-315
Small-scale testing of soils for frost action. Sayward, J.M., (1979, p.223-231, eng) 34-3990

Soil texture
Thixotropic texture of Gydan Peninsula soils. Liverovskii, IU.A., et al, (1980, p.45-54, rus) 34-2761

Soil thawing
See Ground thawing

Soil trafficability
Numerical approach to terrain analysis for off-road trafficability. Schreier, H., et al, (1979, p.635-642, eng) 34-273
Toilet paper and tundra. Grant, R., (1979, p.47-49, eng) 34-274
Factors affecting use of winter roads during spring thaw (1973, 15p., eng) 34-293
Calculating resistance to tracked vehicle movement on weak grounds. Kostogryz, S.G., (1979, p.42-46, rus) 34-1396
Trafficability maps for all-terrain vehicles. Wastenson, L., (1973, p.213-238, swe) 34-2718

Soil veins
See Patterned ground

Soil water
Shallow foundations on very thick moist earth fills. Kamenev, V.P., et al, (1979, p.24-29, rus) 34-125
Construction and performance of membrane encapsulated soil layers in Alaska. Smith, N., (1979, 27p., eng) 34-134
Thermophysical characteristics of moisture and gas-saturated sandstones at naturally low temperatures. Grolsman, A.G., et al, (1975, p.106-107, rus) 34-229
Sediment analysis of cores from Davis Strait and Flemish Pass for Imperial Oil Limited. (1976, n.p., eng) 34-311
Hydrothermal regime of cryogenic sod-taiga soils (Yeravninskaya Basin, Buryat ASSR). Dugarov, V.I., (1979, p.274-282, rus) 34-463
Thermal regime of a prairie snowcover. Granger, R.J., et al, (1977, p.839-842, eng) 34-476
Structure and dynamics of geosystems. Mikheev, V.S., ed, (1979, 136p., rus) 34-670
Studying the effect of natural and experimental fires on forest soils. Popova, E.P., (1979, p.23-29, rus) 34-972
Modeling taiga soils formation in the Salair Range. Korsunov, V.M., et al, (1979, p.43-52, rus) 34-974
Modeling the processes reflecting the influence of trees on forest soils. Shugalei, L.S., (1979, p.79-153, rus) 34-978
Quantitative analysis of the relation between the main thermophysical characteristics of frozen soils. Konovalov, A.A., (1979, p.23-37, rus) 34-980
Accuracy of interpolation and averaging of soil moisture content over an area. Vershinina, L.K., et al, (1979, p.129-141, rus) 34-1084
Physiographic conditions of northern Okhotomor'e and hydrothermal regime of soils at the "Snow Valley" research station. Ignatenko, I.V., et al, (1977, p.5-23, rus) 34-1159
Environment-forming role of forests in the Lake Baykal Basin. Lebedev, A.V., et al, (1979, 256p., rus) 34-1190
Air- and spaceborne remote sensing in hydrogeology and engineering geology. Sadov, A.V., et al, (1979, 223p., rus) 34-1225
Moss *Aongstroemia longipes*, an environmentally sensitive colonizer of sediments at Austerdalsisen, Norway. Theakstone, W.H., et al, (1979, p.353-356, eng) 34-1288
Investigations of possible correlations of vegetation, substrate, and topography in interior Alaska. Neiland, B.J., (1975, c120 leaves, eng) 34-1357
Seasonal activity of invertase in drained peat soils. Efremova, T.T., (1978, p.12-18, rus) 34-1442
Selected hydrologic applications of LANDSAT-2 data: an evaluation, final report. Wiesnet, D.R., et al, (1978, 205p., eng) 34-1497
Cryogenic suction in partially saturated soils. Frémond, M., et al, (1979, p.57-59, fre) 34-1642
Pore size distribution in critical point and freeze dried aggregates from clay subsoils. Lawrence, G.P., et al, (1979, p.499-515, eng) 34-1645
Experimental research on the principal mechanical properties of freezing and frozen soils in China (a review). Hsiao-pai, C., et al, (1979, p.159-177, eng) 34-1686
Experimental research on an embankment at the lower limit of alpine permafrost. Kuo-tung, C., et al, (1979, p.199-222, eng) 34-1689
Changes in water content in and under frozen soil in Iowa, U.S.A. Willatt, S.T., (1979, p.323-331, eng) 34-1726
Influence of subzero temperatures on the erosion resistance of soils depending on their humidity. Muromtsev, N.A., (1968, p.22-25, rus) 34-2021
Thermal conductivity of soils and rocks. Johansen, O., (1979, p.407-420, eng) 34-2343
Local conditions and frost penetration depth. Recordon, E., (1972, p.378-383, ger) 34-2395
Effects of swamp drainage, afforestation and nutrients on the dynamics of chemical composition of soil solutions. Melent'eva, N.V., (1978, p.131-135, rus) 34-2524
Osmotic method for determining rock and aggregate suction characteristics with applications to frost heave studies. Jones, R.H., et al, (1978, p.245-252, eng) 34-2525
Fundamentals of remote sensing methods of measuring water equivalent of snow and soil moisture content from terrestrial gamma radiation. Dmitriev, A.V., et al, (1979, 304p., rus) 34-2687
Aerial gamma survey of snow cover and soil moisture. Nikiforov, M.V., et al, (1980, p.85-91, eng) 34-2732
Instruments for determining soil density and moisture content. Gorelik, A.M., et al, (1980, p.8-9, rus) 34-2851
Radioactive isotope technique of studying density and moisture content of landslide slopes. Kornienko, N.P., et al, (1979, p.112-116, rus) 34-2972
Pore-water pressure profile of a freezing soil. Fukuda, M., (1980, p.33-40, jap) 34-3157
Skeleton creep of weak water-saturated clay soils. Meschian, S.R., et al, (1976, p.268-277, rus) 34-3215
Studying stress relaxations in water-saturated clayey soils. Postolakian, R.A., et al, (1976, p.303-313, rus) 34-3218
Nonlinear consolidation of clays allowing for aging. Tsytovich, N.A., et al, (1976, p.346-351, rus) 34-3222
Physical-geographical conditions of the northern Okhotsk Sea region and the hydrothermal state of the soils ("Snow Valley Station"). Ignatenko, I.V., et al, (1980, p.5-23, eng) 34-3396
Frost heave under overburden pressure. Ishizaki, T., et al, (1979, p.169-178, jap) 34-3503
Measurement of hydraulic conductivity of unsaturated Tomakomai silt. Fukuda, M., (1979, p.193-195, jap) 34-3507
Airborne gamma survey of soil moisture and snow cover. Nikiforov, M.V., ed, (1980, 128p., rus) 34-3541
Introduction and development of airborne gamma surveying of snow cover and soil moisture. Bochin, N.A., (1980, p.3-5, rus) 34-3542
Present state of airborne gamma surveys of snow cover and soil moisture. Nikiforov, M.V., (1980, p.6-27, rus) 34-3543
Experience in conducting airborne snow surveys over the European USSR. Stroganov, A.N., (1980, p.28-45, rus) 34-3544
Instruments for aerial gamma survey of snow cover and soil moisture. Bogachev, A.D., et al, (1980, p.73-76, rus) 34-3550
Airborne gamma surveys of soil moisture in agricultural fields. Andreev, F.A., et al, (1980, p.108-116, rus) 34-3554
Thermal interaction between gas line and frozen soils. Krivoshein, B.L., et al, (1980, p.1083-1088, eng) 34-3560
Testing and using the AM-11 soil moisture meter in the IUzhnoe Primor'e. Gorchakov, A.M., et al, (1979, p.51-55, rus) 34-3564
Infrared aerial survey in studying natural resources. Shilin, B.V., (1980, 247p., rus) 34-3591
Heat and moisture content of taiga lands in the Irtysh River area. Nikitin, S.P., (1978, p.23-33, rus) 34-3609
Seismic characteristics of loess in relation to geologic surroundings and the impact of industrial activities. Kriger, N.I., et al, (1980, 103p., rus) 34-3763
Organization of a natural kaolinite-iron oxide system in dry and wet states. Relationship between melting temperature of ice and pore size. Hornshaw, L.G., et al, (1980, p.847-850, fre) 34-3777
Regimes of landscape-geochemical processes in geosystems. Snytko, V.A., ed, (1977, 120p., rus) 34-3812
Geochemical structure of West Sayan foothill geosystems. Kochurov, B.I., et al, (1977, p.59-72, rus) 34-3815
Dynamics of soil and geochemical indices in central taiga geosystems. Sazonov, A.G., (1977, p.73-84, rus) 34-3816
Radioactive isotope techniques in controlling quality of work and investigations when building foundations and underground structures. Smorodinov, M.I., (1980, 168p., rus) 34-3866
Nonlinear formulation of a univariate problem of consolidation of saturated ground gases. Votinkov, I.F., (1978, p.34-44, rus) 34-3889
Water movement in a land treatment system of wastewater by overland flow. Nakano, Y., et al, (1979, p.185-206, eng) 34-3949
Investigation of vertical moisture transport in the upper layers of undrained highmoor bogs by means of radioactive isotopes. Surovov, V.I., (1978, p.1-5, eng) 34-3959
Active passive microwave response to snow parameters. 2. Water equivalent of dry snow. Ulaby, F.T., et al, (1980, p.1045-1049, eng) 34-4072

Thermal conductivity of frozen and thawed sands, depending on density and moisture content. Ananian, A.A., et al, [1980, p.195-200, rus] 34-4135

Soil water migration

Mudboil activity, central District of Keewatin Egginton, P.A., [1979, p.349-356, eng] 34-23

Influence of moisture migration on ground freezing rate Krivoshein, B.L., [1979, p.19-21, rus] 34-170

Solution of a problem of freezing of an unlimited slab of fine grained material, allowing for moisture migration. Kurilko, A.S., et al, [1975, p.77-82, rus] 34-225

Means of protecting foundations from frost heave. Pyshchev, N.F., [1979, p.14-15, rus] 34-333

Role of permafrost in the hydrothermal regime of soils. Savvinov, D.D., [1979, p.282-287, rus] 34-464

Calculating moisture content of unsaturated zones when draining peat bogs. Kovalenko, N.P., et al, [1979, p.51-55, rus] 34-523

Environmental path of arsenic in groundwater Hawkins, D.B., [1976, 7p., eng] 34-622

Hydrologic properties of subarctic organic soils. Kane, D.L., et al, [1978, 49p., eng] 34-627

Long period dynamics of soil moisture and the state of steppe geosystems. Kochurov, B.I., [1979, p.36-44, rus] 34-673

Determining unfrozen water content from the relation of phase transformation temperature to moisture content of freezing ground. Konovalov, A.A., et al, [1976, p.42-51, rus] 34-704

Stresses beneath pilework produced by freezing of water saturated ground. Koniushenko, A.G., [1976, p.80-91, rus] 34-708

Design of bases and foundations on subsiding soils. Mustafaev, A.A., [1979, 368p., rus] 34-720

Soil forming factors in the Rocky Mountains of Southwestern Alberta, Canada. Howell, J.D., et al, [1978, p.313-324, eng] 34-797

Experimental study of biologic conversion of iron in soils. Sorokin, N.D., et al, [1979, p.53-61, rus] 34-975

Chemical composition and migration of soil moisture in Salair Range landscapes. Korsunov, V.M., [1979, p.62-67, rus] 34-976

Studying the migration of chlorine-marked soil moisture. Shugaleĭ, L.S., et al, [1979, p.68-78, rus] 34-977

Review of snow-soil interaction. Guymon, G.L., [1979, p.297-303, eng] 34-1026

Analysis of coupled heat and moisture flow in an unsaturated soil. O'Neill, K., [1979, p.304-309, eng] 34-1027

Upward migration of moisture and heaving in frozen soils. Morel-Seytoux, H.J., [1979, p.328-335, eng] 34-1030

Observation data on moisture-temperature regime of foundation soils. Anpilov, V.E., et al, [1979, p.74-77, eng] 34-1147

Seasonal freezing effect on hydrogeological conditions of the Chul'man Basin. Buldovich, S.N., [1979, p.60-67, rus] 34-1394

Changes in moisture and thermal regimes of cryogenic soils in Central Yakutia during agricultural development. Gavril'ev, P.P., [1979, p.130-147, rus] 34-1520

Investigation of rates of water movement through frozen soil. Williams, P.J., et al, [1979, 36p. + 4 appends., eng] 34-1582

Hydrophysical properties of peat soils. Bondarenko, N.F., et al, [1979, 160p., rus] 34-1651

Soil cover of the world (Soil-bioclimatic areas of the world and their agro-ecologic characteristics). Rozov, N.N., et al, [1979, 287p., rus] 34-1654

Biochemical productivity in soils of some biogeocenoses in the Baraba Plain, subject to continuous cultivation. Gantimurova, N.I., [1979, p.87-107, rus] 34-1809

Selecting design values of temperature when calculating buildings for thermal and moisture effects and settling. Emel'ianov, A.A., [1970, p.90-119, rus] 34-1834

Changes in the runoff from reclaimed marshlands in South Karelia. Nesterenko, I.M., et al, [1975, p.127-128, rus] 34-1857

Reclamation impact on northern peat soils. Nesterenko, I.M., [1975, p.129-130, rus] 34-1858

Computer analysis of freezing with water migration in time when the process is formed on snow cover surface. Medvedev, A.V., et al, [1979, p.3-23, rus] 34-1908

Moisture transfer and ice segregation in the frozen zone of thawing ground. Ershov, E.D., et al, [1979, p.179-192, rus] 34-1926

Role of seasonal ground freezing in ground water regimes of the area east of Lake Baykal. Blokhin, IU.I., [1979, p.96-101, rus] 34-1940

Peat accumulation and the formation of swamps as a physiographic process. Ivanov, K.E., [1976, p.80-90, rus] 34-2007

Experimental investigation of the stress-strain state of loess soils in the base of rigid plates. Tsytovich, N.A., et al, [1979, p.140-145, eng] 34-2018

Composition and properties of flooded loess as a basis for seismic microregionalization. Domrachev, G.I., [1975, p.74-75, rus] 34-2064

Classification of cryogenic structures in the aeration zone of peat deposits. Kmitovenko, A.T., et al, [1979, p.8-[illegible], rus] 34-2131

Upper limits of heaving pressure obtained by observing pore water pressure under partial soil freezing. Takashi, T., et al, [1979, p.277-287, jap] 34-2173

Soils in pine forests of Karelia P'iavchenko, N.I., ed, [1978, 141p., rus] 34-2252

Hydrothermal regime of autonomous sandy soils Erukov, G.V., [1978, p.44-58, rus] 34-2254

Chemical composition of natural waters and migration of chemical substances in pine forest biogeocenoses Strelkova, A.A., [1978, p.59-67, rus] 34-2255

Recent relief-forming processes in Siberia. Ivanovskiĭ, L.N., ed, [1978, 139p., rus] 34-2293

Frost heave in Transbaikal steppes Bazhenova, O.I., [1978, p.109-126, rus] 34-2298

Proposed size classification for the texture of frozen earth materials. McGaw, R.W., [1979, p.267-275, eng] 34-2339

Influence of water transport and transfer of heat by freezing and defrosting on soil genesis. Makeev, O.M., et al, [1972, p.699-712, eng] 34-2380

Pipelines and permafrost: physical geography and development in the circumpolar north. Williams, P.J., [1979, 98p., eng] 34-2498

Preparing foundations for construction on sagging loess. Ryzhov, A.M., [1979, p.14-15, rus] 34-2633

Searching for optimal parameters of a problem in soil moisture transfer. Islamov, K.A., [1979, p.18-22, rus] 34-2880

Modelling the processes of river runoff formation. Kuchment, L.S., [1980, 143p., rus] 34-3188

Mathematical model to correlate frost heave of pavements with laboratory predictions. Berg, R.L., et al, [1980, 49p., eng] 34-3200

Geosystems of the West Sayan foothills. Antipov, A.N., et al, [1979, 319p., rus] 34-3226

Crystallization-film mechanism of water migration toward frost penetration front. Kaliuzhnyĭ, I.L., et al, [1980, p.3-12, rus] 34-3458

Studying soil moisture migration toward freezing fronts. Kaliuzhnyĭ, I.L., et al, [1980, p.13-29, rus] 34-3459

Regularities of soil moisture migration during frost penetration. Sokolova, N.V., [1980, p.30-38, rus] 34-3460

Electrochemical treatment of clay foundations. Zhinkin, G.N., et al, [1980, 164p., rus] 34-3756

Cryogenic physical-geologic processes and their prediction. Grechishchev, S.E., et al, [1980, 383p., rus] 34-3757

Results of experimental studies of the freezing process in very fine-grained soils. Zhestkova, T.N., [1980, p.119-136, eng] 34-3836

Water migration, formation of texture and ice segregation in freezing and thawing clayey soils. Ershov, E.D., et al, [1980, p.159-175, eng] 34-3839

Water permeability of frozen non-cohesive soils and analyses of its variation during the snowmelt and thawing periods. Shtykov, V.I., [1979, p.91-98, rus] 34-3885

Studying relations between soil consolidation indices. Ksenofontov, A.I., [1978, p.26-33, rus] 34-3888

Finite element method of calculating ground freezing depth. Rudykh, O.L., et al, [1978, p.81-85, rus] 34-3892

Application of recent results in functional analysis to the problem of wetting fronts. Nakano, Y., [1980, p.314-318, eng] 34-3948

Mathematical model of water infiltration into frozen soil. Motovilov, IU.G., [1978, p.62-66, eng] 34-3966

Small-scale testing of soils for frost action. Sayward, J.M., [1979, p.223-231, eng] 34-3990

Model application to urban groundwater problems of Fairbanks, Alaska. Kane, D.L., [1980, 30p., eng] 34-3992

Mathematical model of water infiltration into frozen soils. Motovilov, IU.G., [1978, p.207-211, eng] 34-4060

Quantitative investigation of heat-mass transfer in rocks during phase transformations. Melamed, V.G., [1980, p.35-40, rus] 34-4119

Quantitative evaluation of heaving intensity in thawing water-saturated grounds. Ershov, E.D., et al, [1980, p.59-66, rus] 34-4122

Seasonal variations of soil formation in the Lake Baykal area. Snytko, V.A., et al, [1979, p.36-48, rus] 34-4163

Soils

Using a programmable calculator to determine thermal conductivity of mineral soils. Nidowicz, B., [1978, p.9-14, eng] 34-866

Susitna River basin resource bibliography; supplement 1979. Lockhart, D., comp., [1979, 244p., eng] 34-2482

Components of biogeocenoses of the tundra-forest regions of the northern Okhotsk Sea region. Ignatenko, I.V., ed, [1980, 51p., eng] 34-3395

See also: Chernozem; Clay soils; Cryogenic soils; Desert soils; Eolian soils; Forest soils; Loams; Loess; Meadow soils; Mountain soils; Organic soils; Podsol; Saline soils; Sands; Subgrade soils

Solar activity

Secular cycle of solar activity and baric field of Earth's Northern Hemisphere. Maksimov, I.V., et al, [1979, p.31-43, eng] 34-1888

Long range background forecasts of mean monthly air temperature anomalies in West Siberia. IAgudin, R.A., [1979, p.44-50, rus] 34-2967

Ten-day forecasts of mean air temperature anomalies for West and East Siberia, Ural Mountains and North Kazakhstan Khramtsova, I.G., et al, [1979, p.51-55, rus] 34-2968

Solar radiation

Causes of changes in glacier melting Drozdov, O.A., et al, [1973, p.21-27, rus] 34-107

Thermal equilibrium in the upper layer of the earth's crust Pavlov, A.V., [1979, p.5-10, rus] 34-123

Solar and net radiation over snow. Petzold, D.E., [1974, 77p., eng] 34-132

Thermal regime of a prairie snowcover. Granger, R.J., et al, [1977, p.839-842, eng] 34-476

Frost penetration beneath black-painted concrete canal lining Jones, C.W., [1979, 33p., eng] 34-531

Effects of ice thickness on the exchange of solar radiation over the polar oceans. Grenfell, T.C., [1979, p.305-320, eng] 34-545

Global radiation in Caucasus [1979, p.101-108, rus] 34-615

Solar energy resource potential in Alaska. Seifert, R.D., et al, [1978, 79p., eng] 34-628

Horizontal irradiation in the visible spectrum under ice in the Ivano-Arakhley lakes (Transbaikal). Vologdin, M.P., et al, [1979, p.274-281, rus] 34-880

Energy mass fluxes at the snow surface in a prairie environment. Male, D.H., et al, [1979, p.101-124, eng] 34-1011

Solar radiation model for a snow surface in mountainous terrain. Dozier, J., [1979, p.144-153, eng] 34-1014

Atmospheric radiation model for general alpine application. Marks, D., [1979, p.167-178, eng] 34-1016

Disappearance of snowcover depending on radiation and relief. Meier, R., et al, [1979, p.151-158, ger] 34-1264

Augmentation of earth heating for purposes of roadway deicing--Final report. Pravda, M.F., et al, [1978, 193p., eng] 34-1602

Solar altitude effects on ice albedo. Bolsenga, S.J., [1979, 43p., eng] 34-1732

Possible duration of a mountain glacier surface with daily exposure to solar radiation. Cherkasov, P.A., et al, [1979, p.47-72, rus] 34-1975

Scattering of solar radiation by hexagonal ice crystals. Wendling, P., et al, [1979, p.2663-2671, eng] 34-2806

Water surface temperature in the eastern Arctic seas in 1974 from airborne infrared radiometer readings. Artikalnen, A.I., et al, [1979, p.91-99, rus] 34-3002

Empirical formulas for calculating melting on glaciers. Konovalov, V.G., [1978, p.41-53, rus] 34-3349

Radiation regime of the Altai-Sayan mountain system. Goleshchikhin, V.P., [1977, p.72-79, rus] 34-3382

Effective radiation and radiation balance in the Caucasus. Samukashvili, R.D., [1980, p.98-110, rus] 34-3425

Diffuse radiation in the Caucasus. Samukashvili, R.D., [1980, p.123-129, rus] 34-3427

Experimental evaluation of polarization coefficients of light reflected from snow surfaces. Mel'kher, A.N., et al, [1979, p.113-116, rus] 34-3613

Little Ice Age: Northern Hemisphere average observations and model calculations. Robock, A., [1979, p.1402-1404, eng] 34-3648

Hardness of ice and a solar ice melter. Robinson, W.H., et al, [1979, p.4-8, eng] 34-3677

Solid liquid interfaces

See: Liquid solid interfaces

Solids

Possibility of solving a problem of radiative heat transfer. Amosov, A.A., [1979, p.1341-1344, rus] 34-250

Solid waste disposal in Alaska. Grundwaldt, J.J., et al, [1975, p.331-356, eng] 34-637

Installation for the measurement of the shear stress of solids at low temperatures and high pressures. Zharov, A.A., et al, [1979, p.266-267, eng] 34-983

Heating of solid of simple geometry when the surrounding temperature is a harmonic function of time. Srivastava, K.K., et al, [1979, p.459-466, eng] 34-2347

Solifluction

Pinus sibirica as an indicator of environmental conditions in the Khamar-Daban Mountains and Tunkinskiye Gol'tsy. Tarakanov, A.G., [1979, p.80-83, rus] 34-105

Specific nature of erosional processes in permafrost areas. Orlov, A.D., et al, [1979, p.118-124, rus] 34-448

Engineering geology of the U.S.S.R. Vol.5, Altai and Ural Mountains. Trepettsov, E.V., ed, [1978, 220p., rus] 34-768

Facial characteristics of rock streams in southern Yakutia and northern Transbaikal. Romanovskiĭ, N.N., et al, [1979, p.59-73, rus] 34-1395

Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] 34-1508

Gully formation in the Messoiakha River Basin due to economic development of the North. Sukhodrovskiĭ, V.L., et al, [1979, p.23-34, rus] 34-1509

Ground temperature variations during the economic development of the northern Amur River area. Balobaev, V.T., et al, [1979, p.74-88, rus] 34-1514

Geocryological conditions in the Yenisey River Valley (the Dudinka area) and changes induced by human activities. Kondrat'ev, V.G., et al, [1979, p.89-97, rus] 34-1515

Regime of glaciers and snow avalanches in Kazakhstan. Tokmagambetov, G.A., ed, [1979, 175p., rus] 34-1970

Solifluction *(cont.)*
Distribution of atmospheric precipitation on northern slopes of the Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskii, I.V., [1979, p.37-46, rus] **34-1974**
Dangerous phenomena on northern slopes of Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskii, I.V., et al, [1979, p.146-161, rus] **34-1984**
Recent geomorphological processes in the periglacial zone of the southeastern Altai (the Tete River valley). Petkevich, M.V., [1967, p.98-107, rus] **34-1992**
Comparative analysis of past and present glacial and permafrost relief forms in Asia. Kazakova, N.M., [1976, p.10-45, rus] **34-2010**
Geomorphological processes developing on artificial structures in the nivation-glaciation zone of the Khibiny Mountains. Semekhin, IU.V., et al, [1979, p.192-195, rus] **34-2204**
Recent relief-forming processes in Siberia. Ivanovskii, L.N., ed, [1978, 139p., rus] **34-2293**
Slope denudation in the bald peak zone of western Sayan. Rashba, I.N., [1978, p.69-87, rus] **34-2296**
Rock streams and bald peak zones of the Lake Baykal area and northern Transbaikal. Vyrkin, V.B., [1978, p.88-108, rus] **34-2297**
Exogenic geologic processes and phenomena in the Angara River area. Leshchikov, F.N., et al, [1976, p.93-101, rus] **34-2644**
Exogenic relief forming process in the cryolithozone. Sukhodrovskii, V.L., [1979, 280p., rus] **34-2684**
Engineering-geomorphological peculiarities of studying the Baykal Amur railroad area. Voskresenskii, S.S., et al, [1979, p.109-120, rus] **34-2751**
Geocryological conditions of the Anadyr liman shores. Liubomirov, A.S., [1979, p.47-56, rus] **34-2774**
Terrain-forming processes in the permafrost region and the principles of their prevention and limitation in territories under development. Grave, N.A., et al, [1980, p.11-23, eng] **34-3234**
Geoengineering and hydrogeologic studies of the zone of influence of the Angara reservoirs and means of effective incorporation of these results in the national economy. Odintsov, M.M., et al, [1980, 10p., eng] **34-3393**
Recent exogenic processes in the southeastern Lake Baykal area and their influence on hydromeliorative construction. Imetkhenov, A.B., [1979, p.94-104, rus] **34-4100**
Formation of accumulative relief of the Ogoronskaya Basin (eastern part of the Baykal Amur railroad) under permafrost conditions. Kopylov, I.F., et al, [1979, p.9-14, rus] **34-4102**
Slope development dynamics in the Zeya-Bureya Plain. Popov, IU.I., [1979, p.15-20, rus] **34-4103**

Solubility
Investigation on the solubility of hydrochloric acid in ice. Krishnan, P.N., [1969, 111p., eng] **34-2070**

Solutions
Heat conductivity of frozen water solutions of gases. Grofsman, A.G., et al, [1975, p.103-107, rus] **34-228**
Effect of cryogenic processes on the formation of gold-scattering water flows. Pliusnin, A.M., et al, [1979, p.700-703, rus] **34-811**
Freezing temperature of aqueous solutions containing formamide, acetamide, propionamide and N,N-dimethylformamide. Lilley, T.H., et al, [1980, p.901-905, eng] **34-3264**
Influence of nose shape and L/D ratio on projectile penetration in frozen soil. Richmond, P.W., [1980, 21p., eng] **34-3450**
On the mechanism of dewatering colloidal aqueous solutions by freeze-thaw processes. Ezekwo, G., et al, [1980, p.1079-1088, eng] **34-4247**
Heat transfer analysis for solidification of rounds. Tien, R.H., [1980, p.378-379, eng] **34-4249**

Sonar
See: Acoustic measurement

Sonic velocity
See: Sound transmission

Sound transmission
Sound velocity of supercooled water down to -33C using acoustic levitation. Trinh, E., et al, [1980, p.6731-6735, eng] **34-3781**

Sound waves
Crystallization of a supercooled liquid in a sound field: steady-state dynamics of crystalline-phase nuclei in the liquid. Bulanov, V.A., [1979, p.202-207, eng] **34-1436**
Acoustic backscattering from uniform Arctic sea ice. Garrison, G.R., et al, [1975, p.34-38, eng] **34-3432**
Arctic hydroacoustics. Diachok, O., [1980, p.185-207, eng] **34-3630**

Sounding
Meteorological sounding of the underlying surface from space. Kondrat'ev, K.IA., ed, [1979, 246p., rus] **34-2475**
Analysis of the *In-situ* resistivity of sea ice in terms of its microstructure. Timco, G.W., [1979, p.461-471, eng] **34-3785**
Performance of V.H.F. aerials close to a snow surface. Doake, C.S.M., et al, [1979, p.551-553, eng] **34-3792**
See also: Echo sounding

South Atlantic Ocean
Annual and long-term variations in ice distribution in the Atlantic sector of Antarctica. Dobromyslov, V.N., et al, [1979, p.113-117, rus] **34-2218**

South Georgia
Tabular icebergs in the South Atlantic. [1979, p.223-228, ger] **34-1618**

South Shetland Islands
Drainage systems associated with snowmelt, South Shetland Islands, Antarctica. Birnie, R.V., et al, [1980, p.57-62, eng] **34-4192**

Spaceborne photography
NOAA satellite monitoring of snow cover in the northern hemisphere during the winter of 1977. Wiesnet, D.R., et al, [1978, p.63-80, eng] **34-33**
Application of satellite images for monitoring snow-line in the Yukon and Northwest Territories. Dey, B., et al, [1979, p.473-483, eng] **34-472**
Satellite-derived Northern Hemisphere snowcover record for the winter of 1977-78. Wiesnet, D.R., et al, [1979, p.928-933, eng] **34-655**
Glaciological and marine biological studies at perimeter of Dronning Maud Land, Antarctica. Final report. Orheim, O., [1977, 17p., eng] **34-772**
Proceedings. [1976, 424p., eng] **34-814**
Monitoring earth surface characteristics important to weather and climate with earth satellites. McClain, E.P., [1976, p.129-135, eng] **34-819**
Mean and extereme semi-monthly northwestern hemispheric snow boundaries from satellite records (1966-1979) and some surface data comparisons. Berry, M.O., et al, [1979, p.68-79, eng] **34-1057**
History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, [1979, 215p., rus] **34-1067**
Antecedent and recent stream pattern of the Amur-Zeya Plain from spaceborne photography. Muzis, A.I., [1979, p.75-80, rus] **34-1070**
Revealing stream pattern indices by spaceborne photography. Miliaeva, L.S., [1979, p.129-134, rus] **34-1072**
Air- and spaceborne remote sensing in hydrogeology and engineering geology. Sadov, A.V., et al, [1979, 223p., rus] **34-1225**
Monitoring and mapping sea-ice breakup and freezeup of Arctic Canada from satellite imagery. Dey, B., et al, [1979, p.229-242, eng] **34-1280**
Model for space radar clutter. Tomlinson, P.G., [1979, 107p., eng] **34-1350**
Ground control and interpretation of satellite imagery in Antarctica. Lutsenko, E.I., [1978, p.164-166, eng] **34-1415**
Snow-mapping experiment. Barnes, J.C., et al, [1977, p.191-224, eng] **34-1492**
Visual observations of floating ice from Skylab. Campbell, W.J., et al, [1977, p.353-379, eng] **34-1493**
Seasat Gulf of Alaska Workshop report. Executive summary. Born, G.H., et al, [1979, 42p., eng] **34-1734**
Satellite surveys of snow cover for calculating spring flood hydrographs. Deleur, M.S., [1979, p.146-154, rus] **34-2196**
Remote sensing of snow and ice. Meier, M.F., [1979, 54p., eng] **34-2473**
Space techniques of studying snow cover of the Earth. Deleur, M.S., [1980, 77p., rus] **34-2601**
ICEX: Ice and climate experiment; report of Science and Applications Working Group. [1979, c118p., eng] **34-2726**
Geomorphology and construction. Spiridonov, A.I., ed, [1979, 190p., rus] **34-2746**
Spaceborne methods of studying exogenic relief-forming processes for construction. Revzon, A.L., et al, [1979, p.103-108, rus] **34-2750**
Engineering-geomorphological conditions of the western Baykal Amur railroad area from satellite photographs. Sladkopevtsev, S.A., [1979, p.127-138, rus] **34-2753**
Space methods of studying valleys and naleds in the Chul'man region. Topchiev, A.G., [1979, p.169-175, rus] **34-2758**
Regional and cryolithologic studies in Siberia. Nekrasov, I.A., ed, [1979, 160p., rus] **34-2769**
Geocryological mapping of South Yakutia from satellite photographs. Nekrasov, I.A., et al, [1979, p.3-16, rus] **34-2770**
Satellite studies of fresh-water ice movement on Lake Erie. Wiesnet, D.R., [1979, p.415-426, eng] **34-2842**
Operation Icemap 2; side looking radar trials, spring 1972. Hengeveld, H.G., [1973, 14p. + appends., eng] **34-2956**
Field studies of naleds. Alekseev, V.R., et al, [1980, 152p., rus] **34-3189**
Environmental analysis of the Upper Susitna River Basin using Landsat imagery. Gatto, L.W., et al, [1980, 41p., eng] **34-3198**
Telemeasurement of ice cover parameters. [1977, 154p., rus] **34-3301**
External orientation of satellite scanning radiometer photographs. Bushuev, A.V., [1977, p.17-25, rus] **34-3303**
Determining ice cover characteristics from spaceborne photographs of scanning infrared radiometers. Masanov, A.D., [1977, p.26-33, rus] **34-3304**
Compiling ice maps from photographs made by meteorological satellites. Provorkin, A.V., [1977, p.34-39, rus] **34-3305**
Using microwave satellite measurements for mapping sea ice. Loshchilov, V.S., [1977, p.40-45, rus] **34-3306**
Mapping Alai Range glaciers from photographs taken by the *Soyuz-22* spaceship. Kravtsova, V.I., et al, [1979, p.56-62, rus] **34-3691**
Joint analysis of satellite and aerial photographs and ground-based measurements for estimating the spatial distribution and temporal variations of snow cover. Kuprianov, V.V., [1978, p.81-88, eng] **34-4057**
Amount of geocryologic information obtained from local space photographs under the conditions of Aldan-Stanovoy region. Gavrilov, A.V., [1980, p.127-137, rus] **34-4129**
See also: ERTS imagery; LANDSAT

Spacecraft
Future U.S. satellite programs of interest to snow scientists. Wiesnet, D.R., [1978, p.81-88, eng] **34-34**
Monitoring of thickness changes of the continental ice sheets by satellite altimetry. Brooks, R.L., [1979, p.3965-3968, eng] **34-943**
Effect of varying low level wind fields on the opening and closing of the ice cover in the western Weddell Sea. Kyle, T.H., [1974, 91p., eng] **34-944**
Passive microwave applications to snowpack monitoring using satellite data. Hall, D.K., et al, [1979, 15p., eng] **34-1569**
Ice-sheet glaciology. Drewry, D., [1979, p.313-328, eng] **34-1881**
Ocean eddy structure by satellite radar altimetry required for iceberg towing. Campbell, W.J., et al, [1980, p.211-221, eng] **34-2643**
Accuracy in determining ship position with the Transit navigational satellite system. Abramov, B.I., et al, [1979, p.136-142, rus] **34-3091**
Meteorological research. Borisenkov, E.P., ed, [1976, 133p., eng] **34-3271**
Antarctic ice characteristics according to *Kosmos-243* satellite radiometric measurements. Matveev, D.T., [1976, p.5-12, eng] **34-3272**
Characteristics of the antarctic temperature field according to *Kosmos 243* satellite radiometric measurements. Kurskaia, A.A., [1976, p.13-20, eng] **34-3273**
Polar environmental monitoring: final report. [1979, 94p., eng] **34-3390**
Deicing a satellite communication antenna. Hanamoto, B., et al, [1980, 14p., eng] **34-3451**
Mapping Alai Range glaciers from photographs taken by the *Soyuz-22* spaceship. Kravtsova, V.I., et al, [1979, p.56-62, rus] **34-3691**
Glaciological studies by Landsat imagery of perimeter of Dronning Maud Land, Antarctica. Orheim, O., [1978, p.69-80, eng] **34-3987**
National Environmental Satellite Service catalog of products, third edition. Dismachek, D.C., comp, [1980, 120p., eng] **34-4255**

Specific volume
See: Density (mass/volume)

Specifications
See: Building codes; Design criteria; Standards

Spectra
Dielectric relaxation spectrum of ice measured with linear blocking layers. Gross, G.W., et al, [1980, p.914-927, eng] **34-3089**

Spectroscopy
Diurnal variations of spectral brightness of a cloud layer. Kozhaev, D.A., [1979, p.94-100, rus] **34-614**
Satellite observations of snow and ice with an imaging passive microwave spectrometer. Fisher, A.D., et al, [1976, p.98-103, eng] **34-816**
Interpretation of the OH stretching region of the vibrational spectrum of ice I. McGraw, R., et al, [1977, p.219-226, eng] **34-1606**
Correlation and quantification of airborne spectrometer data to turbidity measurements at Lake Powell, Utah. Merry, C.J., [1970, p.1309-1316, eng] **34-2043**
Detection of frost shattering in high mountains by means of photography in the blue and near ultraviolet spectra. Galibert, G., [1979, p.81-92, fre] **34-2318**
Aircraft gamma-ray spectrometry in snow water equivalent measurement. Kuittinen, R., et al, [1980, p.63-75, eng] **34-2730**
Icing nozzle element optimization test, January 1979. Delgado, L.V., [1979, 370p., eng] **34-3083**
See also: Ice spectroscopy; Infrared spectroscopy; Relaxation spectroscopy

Sporadic permafrost
Planning and construction of Tynda. Traĭbman, G., [1979, p.46-49, rus] **34-1775**
Exogenic geologic processes and phenomena in the Angara River area. Leshchikov, F.N., et al, [1976, p.93-101, rus] **34-2644**
Origin of massive sand deposits in the Baykal Amur railroad area and their economic development. Shevchenko, V.K., [1979, p.165-169, rus] **34-2757**
Permafrost in the territory of the Boguchansk reservoir. Serov, A.G., et al, [1980, 9p., eng] **34-3392**
Modern design and construction methods for the Surgut-Urengoy railroad. Korotchaev, D.I., et al, [1980, p.3-6, rus] **34-3597**

Dynamics of soil and geochemical indices in central taiga geosystems. Sazonov, A.G., [1977, p.73-84, rus] 34-3816

Salinity of soils in the Tunguy depression. Borisenko, L.V., et al, [1979, p.34-41, rus] 34-4098

How permanent is permafrost. Shvetsov, P.F., [1979, p.16-25, rus] 34-4147

Springs (water)

Evaluating chemical runoff of some continuous water springs in Central Yakutia. Piguzova, V.M., et al, [1978, p.163-169, rus] 34-2933

See also: Hot springs

Stability

Study on the resistance of snowplowing and the running stability of a snow removal truck. Kaku, T., [1979, p.232-239, eng] 34-86

Stability of temperate ice caps and ice sheets resting on beds of deformable sediment. Boulton, G.S., et al, [1979, p.29-43, eng] 34-2814

Stability of glaciers and ice sheets against flow perturbations. Thompson, D.E., [1979, p.427-441, eng] 34-2843

Stability of underground workings in permafrost. El'chaninov, E.A., et al, [1980, p.321-337, eng] 34-3255

See also: Slope stability; Snow cover stability

Stabilization

Ice anchor. Chaney, P.E., et al, [1977, 6 col., eng] 34-146

Stabilization of muskeg by chemical treatment. Sethi, A.J., et al, [1978, p.132-150, eng] 34-2912

See also: Soil stabilization

Standards

Selection of design schemes for standard industrial buildings. Arshinin, A.A., [1972, p.16-21, rus] 34-174

Technical and economic indices of aluminum bearing structures of standard industrial buildings. Malyshkina, I.N., et al, [1972, p.85-91, rus] 34-181

Providing standard buildings for construction enterprises in the North. Peryshkin, E.I., et al, [1972, p.121-136, rus] 34-185

Environmental Standards for Northern Regions: a symposium, June 1974, Anchorage, Alaska. Smith, D.W., ed, [1975, 389p., eng] 34-630

Wastewater treatment and disposal alternatives in northern regions. Smith, D.W., et al, [1975, p.357-389, eng] 34-638

Maintenance standards and criteria. Hintikka, J., et al, [1979, p.29-35, eng] 34-1243

National standards index of the USSR, 1979. [1979, 3 vols., rus] 34-1259

Collected changes and supplements to the 1st, 2nd and 3rd parts of Construction Norms and Regulations (SNiP) and Instructions (SN) introduced in 1978. [1979, 64p., rus] 34-2531

Building standards and regulations. Part 2: Design standards. Chapter 6: Loads and effects. [1980, 92p., eng] 34-3897

More precise definitions and additions to the "Instructions for determination of the SN 435-72 design hydrologic characteristics" (Discussion of Construction Norms). Kagan, B.IA., [1979, p.1223-1226, rus] 34-4253

See also: Building codes; Design criteria

Static loads

Static ice loading tests, Resolute Bay—winter 9173/74. Lichtenberger, G.J., et al, [1974, 99p. + 7 appends., eng] 34-3095

Stations

Glaciological aspects of building the Swiss postal and telecommunication service's multipurpose telecommunication facility on Chli Titlis Mountain. Haeberli, W., et al, [1979, p.59-75, ger] 34-1320

Subarctic watershed research in the Soviet Union. Slaughter, C.W., et al, [1978, p.305-313, eng] 34-2390

Ice movement. [1975, 333p., eng] 34-3098

Extending the useful life of DYE-2 to 1986. Part 2: 1979 findings and final recommendations. Tobiasson, W., et al, [1980, 37p., eng] 34-3334

See also: Drift stations; Weather stations

Statistical analysis

Statistical analysis of ice pressure ridge distribution in the southern Beaufort Sea. Gladwell, R.W., [1976, 45p., eng] 34-417

Probabilities of blowouts in Canadian Arctic waters. [1978, 139p., eng] 34-748

Statistical attenuation characteristics of visible and infrared radiation in a surface layer of the atmosphere. Filippov, V.L., et al, [1979, 17p., eng] 34-1312

Snow cover surveys 1978-79. [1979, 9 leaves, eng] 34-1701

Statistical study of passage into Beaufort Sea via Point Barrow. Wilson, S.R.G., [1977, 108p., eng] 34-1763

Time series analyses on the maximum depth of snow cover in Akita city. Ito, T., [1979, p.267-275, jap] 34-2172

Spectral power density and shadowing function of a glacial microrelief at the decimetre scale. Benoist, J.P., [1979, p.57-66, eng] 34-2223

Ice winters 1971-75 along the Finnish coast. [1978, 63p., fin] 34-2270

Statistical analysis of terrain and water (ice) backgrounds in a winter scene from northern Michigan. LaRocca, A.J., [1979, 302p., eng] 34-2279

Statistical methods of probable use for understanding remote sensing data. Gaver, D.P., [1979, 40p., eng] 34-2369

Statistical structure of the fields of precipitation and snow cover in mountains. Getker, M.I., [1979, p.40-51, rus] 34-2412

Some iceberg statistics for the Davis Strait. Trofimenkoff, P.N., [1978, 43p., eng] 34-3114

Steam curing

See: Concrete curing

Steel structures

Optimal design of steel frames for modular buildings in the Far North. Volovik, A.IA., et al, [1972, p.3-15, rus] 34-173

Small buildings of metallic folding sections. Nevenchenko, I.M., et al, [1972, p.22-32, rus] 34-175

Resistance of ZOKhGSNA and ZOKhGSA steels at low temperatures. Vasil'ev, M.M., et al, [1975, p.120-124, rus] 34-232

Testing weldability of metals at subzero temperatures. Sleptsov, O.I., [1975, p.125-128, rus] 34-233

Small prototype cone tests winter 1973-74. Verity, P.H., [1975, 102p. + appends., eng] 34-296

Evaluating the exploitational reliability of tanks at low temperatures. Bondarovich, L.A., et al, [1979, p.19-21, rus] 34-336

Possibility of using low carbon steel for overhead power line supports for low temperatures. Vinkler, O.N., et al, [1979, p.21-23, rus] 34-337

Effect of deterioration rate on abrasive strength of the steel 110G13L containing admixtures, at room and low temperatures. Glazkov, V.M., et al, [1974, p.65-70, rus] 34-381

Extending the useful life of DYE-2 to 1986, Part 1: Preliminary findings and recommendations. Tobiasson, W., et al, [1979, 15p., eng] 34-745

Vibrating equipment used in mining construction. Shiral, E.N., [1978, 262p., rus] 34-848

Expansion joints in highway bridges. Shesterikov, V.I., [1978, 151p., rus] 34-886

Snow load design criteria for steel buildings. [1978, 6 leaves, eng] 34-1240

Implementing progressive methods of structural design. Barskil', B.L., et al, [1979, p.13-14, rus] 34-1708

Optimal structural design solutions for overhead lines in the North. Gabliia, IU.A., et al, [1980, p.44-48, rus] 34-2575

Structural design of steel power line supports for northern regions. Astafeev, A.M., et al, [1980, p.49-52, rus] 34-2576

Extending the useful life of DYE-2 to 1986. Part 2: 1979 findings and final recommendations. Tobiasson, W., et al, [1980, 37p., eng] 34-3334

Evaluating reliability of steel structures at low temperatures. Sil'vestrov, A.V., et al, [1980, p.9-13, rus] 34-3635

Erection of building structures at the northern Mining and Concentration Concern No.2. Golubenko, V.V., et al, [1980, p.10-12, rus] 34-3938

Steels

Resistance of ZOKhGSNA and ZOKhGSA steels at low temperatures. Vasil'ev, M.M., et al, [1975, p.120-124, rus] 34-232

Possibility of using low carbon steel for overhead power line supports for low temperatures. Vinkler, O.N., et al, [1979, p.21-23, rus] 34-337

Effect of deterioration rate on abrasive strength of the steel 110G13L containing admixtures, at room and low temperatures. Glazkov, V.M., et al, [1974, p.65-70, rus] 34-381

Resistance of materials to wear at subzero temperatures. Tylkin, M.A., et al, [1974, p.78-81, rus] 34-382

Abrasive strength of instrument steel rubbing or knocking against sand paper at low temperature. Tarasov, G.F., [1974, p.90-98, rus] 34-383

Studying the process of frozen ground cutting with tools of different shapes. Sokolov, L.K., et al, [1974, p.193-200, rus] 34-392

Calculating the wear of cutting tools of bucketless trench excavators in frozen ground. Basov, I.G., et al, [1974, p.210-213, rus] 34-395

Wear of heat-treated steel and alloy cutting tools in frozen peat. Gorbunov, V.F., et al, [1974, p.213-217, rus] 34-396

Friction and wear of carbon steels at low temperatures. Golego, N.N., et al, [1974, p.262-267, rus] 34-399

Resistance of steels to abrasion under different wear conditions. Koval'chuk, V.A., [1977, p.3-20, rus] 34-985

Effect of surface-active media on low temperature abrasive wear of metals. Dorodnyi, V.I., [1977, p.26-31, rus] 34-986

Steel-ice friction coefficients from field and laboratory research. Grothues-Spork, H., [1977, p.17-24, ger] 34-1935

Structural steels usable at low temperature. Murry, G., [1979, p.7-17, fre] 34-2314

Stefan problem

Heat transfer problems applied to the theory of well drilling. Pudovkin, M.A., et al, [1979, 182p., rus] 34-1650

Computer analysis of freezing with water migration in time when the process is formed on snow cover surface. Medvedev, A.V., et al, [1979, p.3-23, rus] 34-1908

Evaluating snow cover effect on temperature field of freezing rocks, allowing for the dependence of thermophysical snow characteristics on temperature. Melamed, V.G., et al, [1979, p.24-33, rus] 34-1909

Exact solution for freezing of humid porous half-space. Mikhailov, M.D., [1979, p.305-313, eng] 34-2334

Studying temperature fields produced by heat transfer between ground and gas and oil pipelines. Bronfenbrener, L.E., [1980, p.12-15, rus] 34-2641

Approximate solution of nonlinear Stefan problems. Danielian, IU.S., et al, [1979, p.79-82, rus] 34-2936

Ice accretion beneath snow cover. Raspopin, G.A., et al, [1977, p.101-111, rus] 34-3178

Optimal Stefan type problem. IUril, A.D., [1980, p.1317-1321, rus] 34-3683

Geophysical aspects of the development of permafrost. Kudriavtsev, V.A., et al, [1980, p.63-79, eng] 34-3832

Numerical solution of a parabolic free boundary problem via Newton's method. Baumeister, J., et al, [1980, p.99-109, eng] 34-4066

Interferometric observation of natural convection during freezing from a vertical flat plate. Buren, P.D., et al, [1980, p.375-378, eng] 34-4248

Steppes

Deflation of Barguzin Basin soils and economic utilization. Namzhilov, N.B., [1979, p.124-130, rus] 34-449

Fertility of cryogenic meadow-chernozem soils in the Yeravninskaya Basin (Buryat ASSR). Abasheeva, N.E., et al, [1979, p.159-167, rus] 34-451

Genetic and agricultural peculiarities of gray non-podzolized cryogenic soils in Transbaikal. Ishigenov, I.A., [1979, p.184-190, rus] 34-454

Structure and dynamics of geosystems. Mikheev, V.S., ed, [1979, 136p., rus] 34-670

Long period dynamics of soil moisture and the state of steppe geosystems. Kochurov, B.I., [1979, p.36-44, rus] 34-673

Studying structures of some landscape facies in the Koibal'sk steppe. Purdik, L.N., [1979, p.84-100, rus] 34-677

Regularities governing altitudinal distribution of steppe plant communities in Alashsk plateau, Tuva Autonomous Region. Namzalov, B.B., [1979, p.43-52, rus] 34-823

Ecologic-cenotic peculiarities of meadow-steppes cryophytes in Central Transbaikal. Dulepova, B.I., et al, [1979, p.1332-1340, rus] 34-1450

Microbic associations and their functions in West Siberian soils. Klevenskaia, I.L., ed, [1979, 286p., rus] 34-1805

Microbic associations in soils of biogeocenoses of the Baraba Plain. Klevenskaia, I.L., et al, [1979, p.22-60, rus] 34-1807

Mountain landscape protection in Siberia. Krylov, G.V., ed, [1973, 251p., rus] 34-1863

Scientific approaches to the problems of mountain landscape preservation. Fadeeva, N.V., et al, [1973, p.16-24, rus] 34-1864

Classification of forest-steppe landscapes in the Angara River area. Filippova, S.A., [1976, p.114-120, rus] 34-2009

Regional types of mining-affected lands in East Siberia and trends in their restoration. Savel'eva, I.L., et al, [1978, p.98-102, rus] 34-2247

Recent exogenic relief-forming processes in Transbaikal steppes. Titova, Z.A., et al, [1978, p.3-21, rus] 34-2294

Characteristics of soil formation in Siberia. Kovalev, R.V., ed, [1979, 294p., rus] 34-2734

Soil formation under ultracontinental cold arid conditions. Sokolov, I.A., et al, [1979, p.9-13, rus] 34-2735

Possible changes in thermal conditions due to land reclamation. Az'muka, T.I., et al, [1979, p.8-25, rus] 34-3076

Forecasting soil erosion development in the agricultural zone of West Siberia. Orlov, A.D., [1979, p.101-113, rus] 34-3079

Seasonal moisture exchange dynamics between ground waters and the aeration zone of Kulunda Steppe. Sen'kov, A.A., [1979, p.183-190, rus] 34-3082

Morphogenetic profile analysis as a basis for the reconstruction of soil formation conditions (as exemplified by the permafrost soils of the Nercha Basin). Gugalinskaia, L.A., et al, [1979, p.261-273, eng] 34-3640

Stereophotography

Use of long-term automatic time-lapse photography to measure the growth of frost blisters. Van Everdingen, R.O., et al, [1979, p.1632-1635, eng] 34-1457

Report on glaciological operations in 1978. [1979, p.129-166, ita] 34-3619

Storage

Economic peculiarities of organizing raw material bases for Yakutian industry. Kirillin, A.I., ed, [1977, 121p., rus] 34-115

Possibility of increasing gas supply to Central Yakutia. Emel'ianov, V.G., [1977, p.93-98, rus] 34-119

Selecting modular structures for northern construction sites. Koposhko, V.S., [1977, p.138-140, rus] 34-994

Influence of procurement forms on magnitude of industrial supplies. Belinskil, B.V., et al, [1976, p.4-27, rus] 34-3338

Storage *(cont.)*
Development of a specialized production base in West Siberia. Gorlashkina, G.A., et al, [1980, p.21-22, rus] 34-3819
Dehydration of nonmetalliferous construction materials at low temperatures. Gurevich, V.G., et al, [1980, 70p., rus] 34-3824
Bundling of timber sections on ice. Gushkalov, P.A., [1980, p.12-14, rus] 34-3857
See also: Cold storage; Oil storage; Underground storage; Water storage

Storage tanks
Phosphonitrilic fluoroelastomer coated fabrics for collapsible fuel storage tanks. Sicka, R.W., et al, [1979, 172p., eng] 34-1043
See also: Tanks (containers)

Storms
Storm surges. Henry, R.F., [1975, 41p., eng] 34-505
Weather, waves and icing in the Beaufort Sea. Berry, M.O., et al, [1975, 5 parts, eng] 34-506
Effects of storm surges on the Beaufort Sea coast, northern Alaska. Reimnitz, E., et al, [1979, p.329-344, eng] 34-1616
Surge lowering of levels in the Barents and White seas. Potanin, V.A., et al, [1980, p.13-20, rus] 34-4178
See also: Ice storms; Snowstorms

Strain measuring instruments
Accelerating strain preceding an avalanche. Sommerfeld, R.A., [1979, p.402-404, eng] 34-555
Results of strain measurements in floating ice platforms using 3 m-long resistance wire gauges. Masterson, D.M., et al, [1979, p.25-41, eng] 34-922

Strain tests
Laboratory tests on fresh water ice, 1974. Morgenstern, N.E., et al, [1974, 17p. + figs. and tables, eng] 34-422
Compression tests on fresh water ice. Nuttall, J.B., et al, [1972, 47p., eng] 34-515
Volumetric constitutive law for snow subjected to large strains and strain rates. Brown, R.L., [1979, 13p., eng] 34-913
Strength of ice plates. Michel, B., [1979, p.98-106, eng] 34-926
Strain measurements in floating ice platforms and their application to platform design. Masterson, D.M., et al, [1979, p.394-405, eng] 34-1156
Viscosity of the ice surface layer. Mantovani, S., et al, [1980, p.1077-1083, eng] 34-2389
Mechanical properties of impure ice single crystals at high temperatures. Nakamura, T., [1979, p.293-324, jap] 34-2542
Deduction of glacier flow from the distribution of elongated bubbles. Nakawo, M., [1979, p.457-467, eng] 34-2845
Static ice loading tests, Resolute Bay—winter 9173/74. Lichtenberger, G.J., et al, [1974, 99p. + 7 appends., eng] 34-3095

Strains
Rhombus and rhomboid parallelogram patterns on glaciers: natural indicators of strain. Waag, C.J., et al, [1979, p.247-261, eng] 34-540
Accelerating strain preceding an avalanche. Sommerfeld, R.A., [1979, p.402-404, eng] 34-555
Localized deformation of polymers at low temperatures and high loading rates. Williams, J.D., III, [1978, 293p., eng] 34-603
Investigation of stress, temperature, and time dependent strains in a randomly oriented fiber reinforced composite with special emphasis given to thermal stress situations. Caulfield, E.M., [1979, 94p., eng] 34-605
Volumetric constitutive law for snow subjected to large strains and strain rates. Brown, R.L., [1979, 13p., eng] 34-913
Movement and deformation of landfast ice in the southern Beaufort Sea. Cooper, P.F., Jr., [1975, 16p., eng] 34-916
Surface strain of artificially thickened ice drilling platforms. Allan, A.J., [1979, p.14-24, eng] 34-921
Strain features at the base of an ice-fall in Switzerland. Tison, J.L., [1978, p.191-199, ger] 34-1269
Distribution of stresses and velocities in an ice slope with spatially dependent material response. Hutter, K., et al, [1979, p.99-122, eng] 34-1322
Some factors that affect thaw strain. Alkire, B.D., [1978, p.6-10, eng] 34-1964
Ice flow along the Byrd Station strain network, Antarctica. Whillans, I.M., [1979, p.15-28, eng] 34-2813
Moving load experiments on Arctic sea ice, Resolute Bay, winter 1975/76. Lichtenberger, G.J., et al, [1976, c115p., eng] 34-3106
Strain rate and stresses of snow on a mountain slope, Toikanbetsu, northern Hokkaido, Pt.2. Huzioka, T., et al, [1979, p.33-37, jap] 34-3455
Crystal orientation fabrics in relation to structures and strain, Griesgletscher, Valais, Switzerland. Hambrey, M.J., [1979, p.73-86, eng] 34-3975
Field study of the physical properties, response to swell, and subsequent fracture of a single ice floe in the winter Bering Sea. Squire, V.A., et al, [1980, 56p., eng] 34-4245

Stratification
Clearing Alaskan water supply impoundments: literature review. Justice, S.R., et al, [1976, 96p., eng] 34-642
Thermal emission of randomly inhomogeneous layered media. Brekhovskikh, V.L., et al, [1978, p.101-106, eng] 34-1119
On the origin of stratified debris in ice cores from the bottom of the Antarctic ice sheet. Gow, A.J., et al, [1979, p.185-192, eng] 34-2231
Petrographic observations of ice samples from Taylor Glacier, Antarctica. Robinson, P.H., [1979, p.17-19, eng] 34-3674

Stratigraphy
Ice cliffs and exposed stratigraphy of Kongma Glacier, Khumbu. Washiki, H., [1977, p.22-25, eng] 34-899
Origin of stratified Catfish Creek till by basal melting. Gibbard, P., [1980, p.71-85, eng] 34-3021
Drilling and coring of frozen ground in northern Alaska, Spring 1979. Lawson, D.E., et al, [1980, 14p., eng] 34-3333
Stratigraphy of a silt-cored palsa, Atlin region, British Columbia, Canada. Seppälä, M., [1980, p.357-365, eng] 34-3872
Glacial stratigraphy of Koillismaa and North Kainuu, Finland. Aario, R., et al, [1979, p.1-49, eng] 34-4158
See also: Firn stratification; Snow stratigraphy

Stratosphere
Determination of the stratospheric residence time from the total beta activity of antarctic and Greenland snows. Pourchet, M., et al, [1979, p.365-367, eng] 34-730

Stream flow
Effects of seasonability and variability of streamflow on nearshore coastal areas. Carlson, R.F., et al, [1977, c.200p., eng] 34-623
Streamflow simulation models for use on snow covered watersheds. Anderson, E.A., [1979, p.336-350, eng] 34-1031
Mountain watershed simulation model. Leavesley, G.H., et al, [1979, p.379-386, eng] 34-1035
Proceedings of the 47th annual meeting. [1979, 118p., eng] 34-1049
Evaluation of streamflow forecasting methods. Lettenmaier, D.P., et al, [1979, p.48-55, eng] 34-1055
Protective structures for the Fällbach in the town of Saas Balen, Wallis, Switzerland. Lichtenhahn, C., [1979, p.169-176, ger] 34-1325
Drainage network analysis of a subarctic watershed. Bredthauer, S., et al, [1979, p.349-359, eng] 34-2434
Channel development in snow-filled valleys, Resolute, N.W.T., Canada. Woo, M.-K., et al, [1980, p.37-56, eng] 34-4191
More precise definitions and additions to the "Instructions for determination of the SN 435-72 design hydrologic characteristics" (Discussion of Construction Norms). Kagan, B.IA., [1979, p.1223-1226, rus] 34-4253
See also: River flow

Streams
Pollution characteristics in an unpolluted subarctic stream. Peterson, L.A., [1978, p.15-17, eng] 34-867
Revealing stream pattern indices by spaceborne photography. Milnaeva, L.S., [1979, p.129-134, rus] 34-1072
Calculating sediments washed out by streams on slopes during spring melt. Zubkova, K.M., [1979, p.26-35, rus] 34-1106
Proglacial aggradation and changes in braided channel patterns during a period of glacial advance: an alpine example. Maizels, J.K., [1979, p.87-101, eng] 34-1463
Hydrometeorological conditions of the formation of snow-loaded streams. Freidlin, V.S., [1979, p.198-200, rus] 34-2206
Activities of snow-carrying streams. Sapunova, G.G., et al, [1979, p.201-202, rus] 34-2207
Arctic stream processes—an annotated bibliography. Scott, K.M., comp, [1979, 78p., eng] 34-2609
Breakup of streams in the Canadian high Arctic. Woo, M., [1979, p.95-107, eng] 34-4208

Streets
Construction of alleyways and roads in freezing weather. Zhuravel', A.F., et al, [1979, p.20, rus] 34-341

Strength
Stress-strain relationships. Hutcheon, N.B., [1976, 10p., eng] 34-154
On propulsion of icebreakers. Airaksinen, K., et al, [1976, p.194-202, eng] 34-1293
Exploration island design. Prodanovic, A., [1979, 13p. + 25 slides, eng] 34-1594
Production islands. Jahns, H.O., [1979, 16p. + 23 slides, eng] 34-1596
Effect of compression on the strength of brickwork built in freezing weather. Kotov, I.T., [1972, p.236-237, rus] 34-1832
Effect of specimen temperature on the breaking point for splitting off in AMG-6 aluminum alloy. Bat'kov, IU.V., et al, [1979, p.265-268, eng] 34-2379
Development of fillings for slab track in cold region and its various properties. Fukunaga, M., [1977, p.138, eng] 34-2658
Experimental studies on snow accretion at subzero temperatures. Mizuno, Y., et al, [1979, p.17-32, jap] 34-3488
See also: Bearing strength; Concrete strength; Fatigue (materials); Flexural strength; Frozen ground strength; Ice cover strength; Ice strength; Impact strength; Shear strength; Snow strength; Soil strength; Tensile properties

Stress concentration
Critical stress intensity factors (K(Ic)) measurements at high loading rates for polycrystalline ice. Goodman, D.J., [1980, p.129-146, eng] 34-3738

Stress relaxation
See: Relaxation (mechanics)

Stress strain diagrams
Stress-strain relationships. Hutcheon, N.B., [1976, 10p., eng] 34-154
Report on strength and deformation characteristics of sea-bed samples from Davis Strait. [1978, 28p. + appends., eng] 34-313
Rheology of columnar-grained ice. Sinha, N.K., [1978, p.464-470, eng] 34-535
Measurements of deformation and strength of materials from the Milchbuck tunnel. Herzog, P., et al, [1979, p.1-36, ger] 34-1334
Mechanical properties of impure ice single crystals at high temperatures. Nakamura, T., [1979, p.293-324, jap] 34-2542
Contribution of fibrous interlock to the strength of peat. Wilson, N.E., [1978, p.5-10, eng] 34-2905
Load-bearing behavior of frozen earthmasses. Eckardt, H., [1979, 141p., ger] 34-2955
Deformation behaviour and strength of frozen sand. Parameswaran, V.R., [1980, p.74-88, eng] 34-2984
Sea ice beam tests of January 1975. Macy, R.L., [1975, 272p., eng] 34-3104
Vertical load bearing capacity tests of natural ice and of artificial-natural ice laminates, Resolute Bay, winter 1974/75. Lichtenberger, G.J., et al, [1976, c320p. + 6 appendices, eng] 34-3105
Application of fracture mechanics to ice problems. Miller, K.J., [1980, p.265-277, eng] 34-3746
Failure of sea ice by repeated compression. Tabata, T., et al, [1980, p.351-362, eng] 34-3752
Flow of salt glaciers. Wenkert, D.D., [1979, p.523-526, eng] 34-3993

Stresses
Introduction to the problem of cracks, movements and joints in buildings. Baker, M.C., [1976, 8p., eng] 34-153
Dimensional changes due to temperature. Latta, J.K., [1976, 12p., eng] 34-155
Dimensional changes due to temperature. Latta, J.K., [1976, 12p., eng] 34-155
Deformation due to foundation movements. Crawford, C.B., [1976, 7p., eng] 34-159
Rhombus and rhomboid parallelogram patterns on glaciers: natural indicators of strain. Waag, C.J., et al, [1979, p.247-261, eng] 34-540
Some results from a linear-viscous model of the Arctic ice cover. Hibler, W.D., III, et al, [1979, p.293-304, eng] 34-544
Extending the useful life of DYE-2 to 1986, Part 1: Preliminary findings and recommendations. Tobiasson, W., et al, [1979, 15p., eng] 34-745
Sea ice modeling: its testing with LANDSAT and potential use in FGGE. Hall, R.T., et al, [1976, p.104-109, eng] 34-817
Regularities of the deformation of swelling soils with time. Meschian, S.R., et al, [1979, p.37-44, eng] 34-982
Determination of the stress field during thawing of frozen ground. Stepanov, IU.S., et al, [1979, p.94-98, eng] 34-1149
Distribution of stresses and velocities in an ice slope with spatially dependent material response. Hutter, K., et al, [1979, p.99-122, eng] 34-1322
Selecting the relationships between stresses and deformations in drifting ice cover. Khetsin, D.E., [1979, p.63-71, rus] 34-2000
Stress waves in artificially frozen water-saturated ground, studied after fuse detonation on test-benches and in mining shafts. Oksanich, I.F., et al, [1979, p.142-148, rus] 34-2311
Moving load experiments on Arctic sea ice, Resolute Bay, winter 1975/76. Lichtenberger, G.J., et al, [1976, c115p., eng] 34-3106
Studying wave processes in linear viscoelastic media under dynamic loads. Filippov, I.G., [1976, p.328-345, rus] 34-3221
Ice thickness-tensile stress relationship for load-bearing ice. Johnson, P.R., [1980, 11p., eng] 34-3330
Extending the useful life of DYE-2 to 1986. Part 2: 1979 findings and final recommendations. Tobiasson, W., et al, [1980, 37p., eng] 34-3334
Strain rate and stresses of snow on a mountain slope Toikanbetsu, northern Hokkaido, Pt.2. Huzioka, T., et al, [1979, p.33-37, jap] 34-3455
Comparative study of stresses in natural rock masses and in models using the artificial freezing technique. Makarov, S.V., [1979, p.35-43, rus] 34-3481
Experimental studies on regelation. Tozuka, S., et al, [1979, p.1-15, jap] 34-3487
Temperate valley glaciers. Raymond, C.F., [1980, p.79-139, eng] 34-3657
Undulations on the McMurdo Ice Shelf near Scott Base, Antarctica. Holdsworth, G., et al, [1979, p.16-22, eng] 34-3680
Some promising trends in ice mechanics. Assur, A., [1980, p.1-15, eng] 34-3728

Implications of structure width for design ice forces. Kry, P.R., [1980, p.179-193, eng] 34-3741
Creep and relaxation in floating platforms - an analysis of case histories. Masterson, D.M., et al, [1980, p.205-216, eng] 34-3743
Identification of ice VI on the Hugoniot of ice I(h). Gaffney, E.S., et al, [1980, p.407-409, eng] 34-3780
Field techniques for experimental stress analysis in Arctic sea ice. Cochran, G.V.B., [1980, p.175-182, eng] 34-3809
Critical survey of the application of borehole logging techniques to the study of sea ice. Laidley, T.E., [1980, 45p., eng] 34-4160
Snow studies associated with the sideways move of DYE-3. Tobiasson, W., [1979, p.117-124, eng] 34-4210
See also: Shear stress; Thermal stresses

Striations
Forms at the base of till strata as indicators of ice movements. Ehlers, J., et al, [1979, p.345-355, eng] 34-548
See also: Ice scoring

Structural changes
Vibrational response and structural integrity of deep water structures. Doelling, N., [1978, 19p., eng] 34-1801
Cracks, movements and joints in buildings: record of the DBR Building Science Seminar, Autumn 1972. [1976, c125 leaves, eng] 34-2603

Structures
Wind and snow load factors for use in LRFD. Discussion. Simiu, E., [1979, p.2130-2132, eng] 34-962
Meteorological conditions for the formation of glaze-hoarfrost deposits in the lower 500-meter layer of the atmosphere. Degtiarev, A.D., et al, [1979, p.27-34, rus] 34-1086
Snow load analysis for structures. Rusten, A., et al, [1980, p.11-21, eng] 34-2409
Forces on structures impacted and enveloped by avalanches. Pedersen, R.R., et al, [1979, p.529-534, eng] 34-3789
Building standards and regulations. Part 2: Design standards. Chapter 6: Loads and effects. [1980, 92p., eng] 34-3897

Subarctic landscapes
Systems of economic development of natural resources in intermontane basins of Subarctic highlands. Mikhailov, IU.P., [1979, p.18-35, rus] 34-682
Scientific conference of geographers from Siberia and the Far East. Geography and practice. Proceedings. [1978, 253p., rus] 34-2246
Regional types of mining-affected lands in East Siberia and trends in their restoration. Savel'eva, I.L., et al, [1978, p.98-102, rus] 34-2247
Environmental studies in the central Quebec-Labrador Peninsula: Finnish contributions. [1980, 89p., eng] 34-2411
Properties of soils in the autonomous landscapes of forest tundra and northern taiga of the Lower Yenisey River Uplands. Korsunov, V.M., et al, [1978, p.15-26, rus] 34-3463
Lake and its drainage area as a single natural system. Drabkova, V.G., et al, [1979, 194p., rus] 34-3480
Correlation between physiological-biochemical indices of woody plants and hydrothermal conditions of media. Zhiboedov, P.M., et al, [1976, p.106-118, rus] 34-3614
Variations in altitudinal plant distribution with longitude (Polar Urals-Putorana-Verkhoyan'e). Kuvaev, V.B., [1979, p.6-18, rus] 34-4084
Planning environmental protection during the development of uninhabited areas. Kukuevitskii, G.M., et al, [1979, p.50-53, rus] 34-4138
Changes in Subarctic and boreal highlands vegetation due to human activities. Gorchakovskii, P.L., [1979, p.12-13, rus] 34-4217
Trends in the reforestation of light coniferous open woodlands in the Far Northeast. Kotliarov, I.I., [1979, p.148-149, rus] 34-4240

Subglacial caves
Mystery flood solved. Jackson, L.E., Jr., [1979, p.2-4, eng] 34-3060

Subglacial drainage
Water in glaciers: observations and theory of the behaviour of water levels in boreholes. Engelhardt, H., [1978, p.35-60, eng] 34-664
Investigations of the water table of Kesselwandferner (Ötztal Alps) in a 30 m deep snow pit. Ambach, W., et al, [1978, p.61-71, ger] 34-665
Energy dissipation during subglacial abrasion at Nisqually Glacier, Washington, U.S.A. Metcalf, R.C., [1979, p.233-246, eng] 34-2235
Sediment concentration in melt waters as an indicator of erosion processes beneath an alpine glacier. Collins, D.N., [1979, p.247-257, eng] 34-2236
Minimum winter drainage of Sakhalin rivers. Bykadorova, A.IA., [1979, p.107-109, rus] 34-2896
Mystery flood solved. Jackson, L.E., Jr., [1979, p.2-4, eng] 34-3060
Forecasting naled formation on small streams crossed by the Baykal Amur railroad. Samochkin, V.M., [1977, p.72-90, rus] 34-3176

Subglacial navigation
Beneath the armor of ice. Mikhallovskii, A., [1979, p.67-70, rus] 34-1754

Subglacial observations
Horizontal irradiation in the visible spectrum under ice in the Ivano-Arakhley lakes (Transbaikal). Vologdin, M.P., et al, [1979, p.274-281, rus] 34-880
Arctic lead-airdrop data buoy. Buck, B.M., et al, [1979, 22p., eng] 34-1044
Deployment and retrieval of linear hydrophone arrays and seismometers under Arctic ice. Gay, S.M., Jr., et al, [1976, 97p., eng] 34-1376
Computation of backwater curves under ice covers. Michel, B., [1979, 24 leaves, eng] 34-1580
Water temperature beneath ice in the Bratsk reservoir. Shishkanova, E.F., [1979, p.81-86, rus] 34-1697
Radio echo sounding of the Antarctic ice sheet, 1978-79; preliminary report. Drewry, D.J., et al, [1979, 21p. + Append., eng] 34-2064
Studies of heat and mass transfer at the lower surface of the Ross Ice Shelf. Zotikov, I.A., et al [1979, p.178, rus] 34-2201
Pressure-melting effects in basal ice of temperate glaciers: laboratory studies and field observations under Glacier d'Argentière. Goodman, D.J., et al, [1979, p.259-271, eng] 34-2237
Observations within cavities at the bed of the glacier Österdalsisen, Norway. Theakstone, W.H., [1979, p.273-281, eng] 34-2238
Direct measurement of basal water pressures: progress and problems. Hodge, S.M., [1979, p.309-319, eng] 34-2241
Subglacial regelation water film. Hallet, B., [1979, p.321-334, eng] 34-2242
Geometry of former subglacial water channels and cavities. Walder, J., et al, [1979, p.335-346, eng] 34-2243
Subglacial constructions and investigations at Bondhusbreen, Norway. Wold, B., et al, [1979, p.363-379, eng] 34-2245
Probing with TROV: unmanned submersible reveals geology and hazards of Arctic seafloor. Blasco, S.M., [1978, p.13-15, eng] 34-2647
Feasibility of surface detection of oil under ice. Gill, R., [1979, 82p., eng] 34-3011
Preparing counter-measures against under-ice oil spills. [1977, p.34-35, eng] 34-3017
Environmental assessment of the Alaskan continental shelf, Vol.8, Transport. [1979, 588p., eng] 34-3052
Oil pooling under sea ice. Kovacs, A., [1979, p.310-323, eng] 34-3053
Gramna Lakes in the Baykal Amur railroad area. Mats, V.D., et al, [1980, 87p., rus] 34-3268
Vibration of measuring equipment in the study of the ocean microstructure under the drifting ice. Gusev, A.V., et al, [1975, p.237-238, eng] 34-3433
Installation test of the air-filled manned undersea chamber "Sprut" under the Arctic drift ice. Mel'nikov, I.A., et al, [1978, p.737-738, eng] 34-3540
Computerized solution of two-dimensional inverse problems of radar surveys of ice thickness and subglacial relief of mountain glaciers. Berikashvili, V.Sh., et al, [1979, p.131-139, rus] 34-3703
Scanning electron microscope examination of subglacial quartz grains from Camp Century core, Greenland—a preliminary study. Whalley, W.B., et al, [1980, p.125-131, eng] 34-3804
Antarctica is a rugged continent. Grushinskii, N.P., et al, [1975, p.638-640, ger] 34-3855
Subglacial travertine and associated deposits in the Carstensz area, Irian Jaya, Republic of Indonesia. Peterson, J.A., et al, [1979, p.23-29, eng] 34-3971
Analysis of morphological characteristics of an alpine glacier icefall. Tison, J.L., [1978, p.89-107, fre] 34-3995

Subgrade preparation
Road insulation with polystyrene foam. Gandahl, R., [1979, 32p., eng] 34-782
Design and construction of temporary airfields in the National Petroleum Reserve—Alaska. Crory, F.E., [1978, p.13-15, eng] 34-871
Properties of expanded polystyrene concrete and applications for pavement subbases. Hanna, A.N., [1978, 16p., eng] 34-1260
Traffic tests of expedient airfield construction concepts for possible application in the National Petroleum Reserve, Alaska. Burns, C.D., [1979, 138p., eng] 34-1361
Subgrade planning in freezing weather. Nedorezov, I.A., et al, [1979, p.24-26, rus] 34-1716
Expanded polystyrene concrete bases. Hanna, A.N., [1978, p.1-6, eng] 34-1963
STYROPOR-concrete as frost protection and load-bearing layer in road construction. Hohwiller, F., [1972, p.499-508, ger] 34-2397
Irish glacial till: origin and characteristics. Hanrahan, E.T., [1977, 81p., eng] 34-2471

Subgrade soils
Behavior of clay subgrades during melting periods. Prokudin, I.V., et al, [1979, p.40-42, rus] 34-2096
Local conditions and frost penetration depth. Recordon, E., [1972, p.378-383, ger] 34-2395
Strength and stability of railway subgrades in permafrost regions. Peretrukhin, N.A., [1980, p.255-267, eng] 34-3250

Subgrades
Linköping test field 1976. Investigations of the occurrence and frequency of icing on various roadbases. 1 Test field construction. Gustafson, K., [1977, 12p. + 21 figs., swe] 34-42
Linköping test field 1976. Investigation of the occurrence and frequency of icing on various roadbases. 2 Investigation of icing February to April, 1977. Gustafson, K., [1977, c.110 leaves, swe] 34-43
In situ response of muskeg to dynamic loading. Sheeran, D.E., et al, [1978, p.11-24, eng] 34-2906

Submarines
Beneath the armor of ice. Mikhallovskii, A., [1979, p.67-70, rus] 34-1754
Probing with TROV: unmanned submersible reveals geology and hazards of Arctic seafloor. Blasco, S.M., [1978, p.13-15, eng] 34-2647

Subpermafrost ground water
Hydrochemistry of the northwestern part of the Central Siberian Plateau. Kuz'min, E.E., et al, [1979, 141p., rus] 34-1192
Pingos of the Tuktoyaktuk Peninsula area, Northwest Territories. Mackay, J.R., [1979, p.3-61, eng] 34-1567
Calculating the interrelation of surface and ground water in permafrost areas. Ipat'eva, A.I., [1979 p.118-125, rus] 34-2899
Formation of chemical composition of ground water in the Iengra River Basin (Baykal Amur railroad route). Boltsov, A.V., [1978, p.169-176, rus] 34-2934
Hydrodynamic and hydrochemical assessment of explosions used in testing low-output wells in permafrost regions. Maksimov, V.M., [1980, p.313-320, eng] 34-3254
Sources of water supply and thermal energy resources of the Beloozerskii swamp. Starkov, V.M., [1978, p.90-92, ru] 34-3359
Long term dynamics of groundwater icings. Romanovskii, N.N., et al, [1980, p.195-207, eng] 34-3841
Optimal configuration of a confining bed under the pressure of subpermafrost ground water. Gur'ianov, I.E., [1980, p.62-70, rus] 34-4040
Hydromelioration of lands in the Buryat ASSR. Borisenko, I.M., ed, [1979, 110p., rus] 34-4095

Subsea permafrost
1970 bottom sampling program south coast of Beaufort Sea, Mackenzie Bay to Liverpool Bay, Northwest Territories. [1970, c83p., eng] 34-597
Offshore permafrost, southern Beaufort Sea. Mackay, J.R., [1971, 18p., eng] 34-599
Study of sub-seabottom permafrost in the Beaufort Sea Mackenzie Delta by hydraulic drilling methods. MacAulay, H.A., et al, [1978, c.45 leaves, eng] 34-781
Pingos of the Tuktoyaktuk area. Barr, W., et al, [1973, p.3-12, eng] 34-1296
Field trip No.3: Lower Mackenzie River Valley Heginbottom, J.A., ed, [1979, 66p. + appends., eng] 34-1692
Submarine permafrost on the Alaskan continental shelf. Vigdorchik, M.E., [1980, 118p., eng] 34-2406
Arctic Pleistocene history and the development of submarine permafrost. Vigdorchik, M.E., [1980, 286p., eng] 34-2407
Geologic framework, hydrocarbon potential, environmental conditions, and anticipated technology for exploration and development of the Beaufort Shelf north of Alaska. Grantz, A., et al, [1980, 42p., eng] 34-2721
Measurements of bottom temperature of the Chukchi Sea. Efimov, A.V., [1979, p.56-60, rus] 34-2775
Geocryologic and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, [1978, 187p., rus] 34-2915
Permafrost dynamics on the shores of the Sannikov Strait. Fartyshev, A.I., [1978, p.25-37, rus] 34-2918
Morphology and temperature of recent perennially frozen rocks in the shore and shallow-water areas of northern Yenisey and Pyasina rivers. Karpov, E.G., [1978, p.105-114, rus] 34-2927
Environmental assessment of the Alaskan continental shelf, Vol.9, Hazards. [1979, 682p., eng] 34-3055

Subsea permafrost *(cont.)*

Delineation and engineering characteristics of permafrost beneath the Beaufort Sea. Sellmann, P.V., et al, [1979, p.93-115, eng] **34-3056**

Buried valleys as a possible determinant of the distribution of deeply buried permafrost on the continental shelf of the Beaufort Sea. Hopkins, D.M., et al, [1979, p.135-141, eng] **34-3057**

Environmental assessment of the Alaskan continental shelf, Vol.10, Hazards, Data management. [1979, 517p., eng] **34-3058**

Late Quaternary history and the formation of sediments in the marginal and inland seas. Gershanovich, D.E., ed, [1979, 212p., rus] **34-3064**

Cryolithozone of the Asiatic Arctic shelf. Antipina, Z.N., et al, [1979, p 183-189, rus] **34-3068**

Thermal abrasion of seashores. Are, F.E., [1980, 159p., rus] **34-3071**

Offshore pipelines in the Arctic. Timmermans, W.J., [1980, p.20-24, eng] **34-3192**

English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 2. [1980, 428p., eng] **34-3232**

English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 1. [1980, 399p., eng] **34-3827**

Offshore permafrost in the Asiatic Arctic. Are, F.E., [1980, p.311-326, eng] **34-3848**

Zonal and regional patterns of formation of the permafrost region in the U.S.S.R. Kudriavtsev, V.A., et al, [1980, p.371-389, eng] **34-3852**

Subsidence

Design of bases and foundations on subsiding soils. Mustafaev, A.A., [1979, 368p., rus] **34-720**

Human-induced thermokarst at old drill sites in northern Alaska. Lawson, D.E., et al, [1978, p.16-23, eng] **34-872**

Form and motion of the Kolka Glacier after its surge and probable mechanism of this surge. Garelik, I.S., et al, [1974, p.296-311, eng] **34-1201**

Observations on the subsidence of drained peat soils under grassland culture in Newfoundland. Rayment, A.F., et al, [1978, p.37-48, eng] **34-2908**

Subsurface drainage

Subsurface drainage in Siberia and methods of its investigation. Shen'kman, B.M., ed, [1979, 136p., rus] **34-1936**

Temporary variations in subsurface drainage of southwestern Transbaikal. Khaustov, A.P., [1979, p.91-96, rus] **34-1939**

Subsurface investigations

Subsurface current measurements in eastern Lancaster Sound, N.W.T., summer 1977. Fissel, D.B., et al, [1978, 72p., eng] **34-370**

Englacial temperature and deformation of a rock glacier in the Kluane Range, Yukon Territory, Canada. Johnson, J.P., Jr., et al, [1979, p.2275-2283, eng] **34-2666**

Sea ice thickness determination using electromagnetic subsurface profiling. Orange, A., et al, [1973, 41p. + figs., eng] **34-3094**

Subsurface structures

Method and apparatus for conducting subaqueous operations in ice conditions. Pease, F.T., et al, [1978, 10 col., eng] **34-281**

In-situ burning of the products of a subsea blowout. [1977, 48p. + appends., eng] **34-488**

Artificial freezing of ground in underground construction. Trupak, N.G., [1979, 344p., rus] **34-1226**

Construction of underground structures for hydroelectric power stations in the Far North. Grossman, I.I., et al, [1979, 128p., rus] **34-2493**

Sunshine

See: Insolation

Supercooled clouds

Remote sounding of high clouds: 1. Calculation of visible and infrared optical properties from lidar and radiometer measurements. Platt, C.M.R., [1979, p.1130-1143, eng] **34-889**

Observations of fall streak generation from glaciating altocumulus floccus. Black, T.L., [1979, p.157-166, eng] **34-1744**

Electric field effect on crystallization of supercooled water. Nikandrov, V.IA., et al, [1979, p.65-70, rus] **34-2013**

Studying freezing of large water drops in the corona discharge area. Bashkirova, G.M., et al, [1979, p.71-75, rus] **34-2014**

Possible mechanism of ice splinter production during riming. Choularton, T.W., et al, [1978, p.791-792, eng] **34-2677**

Mechanism of ice splinter production during riming. Mossop, S.C., [1980, p.167-169, eng] **34-2678**

Coagulation growth effect on the freezing of supercooled drops. Zhekamukhov, M.K., [1979, p.14-22, rus] **34-2876**

Laboratory studies of riming, and its relation to ice splinter production. Choularton, T.W., et al, [1980, p.367-374, eng] **34-3447**

Theoretical analysis of homogeneous crystallization of supercooled water droplets in a constant homogeneous electric field. Klingo, V.V., et al, [1979, p.15-25, rus] **34-3567**

Influence of point charge electric field on homogeneous crystallization of supercooled water drops. Klingo, V.V., et al, [1979, p.26-32, rus] **34-3568**

Evaluating the contact nucleation mechanism after introduction of crystal-forming agents into supercooled clouds. Klingo, V.V., et al, [1979, p.39-46, rus] **34-3569**

Experimental study of the freezing of water drops in a constant electric field. Shlykov, V.V., [1979, p.68-75, rus] **34-3573**

Supercooled fog

Laboratory studies of dipole reflector wetting and freezing in aqueous aerosols. Evstratov, V.V., et al, [1979, p.117-121, rus] **34-2879**

Supercooling

Cold tolerance of micro-arthropoda from Alaskan taiga. Block, W., [1979, p.103-110, eng] **34-11**

Crystalline structure of ice developing by accretion of supercooled water droplets on a single wire and growth process of rime on a square board placed in the air flow containing supercooled droplets and snow flakes. Abe, M., et al, [1979, p.93-94, eng] **34-66**

Crystallization of a supercooled liquid in a sound field: steady-state dynamics of crystalline-phase nuclei in the liquid. Bulanov, V.A., [1979, p.202-207, eng] **34-1436**

Action of de-icing salt on concrete. Wurth, E., [1978, 19p., eng] **34-1558**

Plant cold hardiness and freezing stress: mechanisms and crop implications. Li, P.H., ed, [1978, 416p., eng] **34-2426**

Ultrasonic study in supercooled water to -26C. Bacri, J.C., et al, [1979, p.L/403-L/405, fre] **34-2861**

Sound velocity of supercooled water down to -33C using acoustic levitation. Trinh, E., et al, [1980, p.6731-6735, eng] **34-3781**

Water revisited. Stillinger, F.H., [1980, p.451-457, eng] **34-3854**

Supersaturation

Diagram of metastable states of water. Kosiakov, V.I., et al, [1979, p.707, eng] **34-701**

Ice nucleation by aerosol particles: experimental studies using a wedge shaped ice thermal diffusion chamber. Schaller, R.C., et al, [1979, p.1788-1802, eng] **34-1382**

Condensation-freezing mechanism at weak supersaturation in respect of ice. Grenier, J.C., et al, [1979, p.81-91, fre] **34-1743**

Condensation-freezing mechanism at weak supersaturation in respect to ice. Montmory, R., [1980, p.71-83, fre] **34-4246**

Supplies

See: Logistics

Supports

Tunnel construction on landslide-prone slopes. Aminov, E.Kh., [1979, p.12-14, rus] **34-1715**

Tynda-Prizelskaya 220 kw overhead line crossing the Zeya reservoir. Kirillova, G.G., et al, [1980, p.53-55, rus] **34-2570**

Instructions for the performance and acceptance of jobs concerning the shield technique of building collecting-tunnels in cities and industrial enterprises. [1975, 38p., rus] **34-2863**

Thermopiles for pipeline construction. Petrov, B.G., et al, [1980, p.34-36, rus] **34-2981**

Strength of clay soils in time. Maslov, N.N., et al, [1976, p.247-255, rus] **34-3213**

Pressure of ice field adfreezing to cylindrical supports of offshore oil well platforms with water-level fluctuations. Vershinin, S.A., et al, [1980, p.9-11, rus] **34-3642**

Grouping coal deposits in permafrost areas according to geologic and mining development conditions. Gazizov, M.S., et al, [1979, p.45-50, rus] **34-3906**

Performance of support walls built on permafrost. Novikov, F.IA., [1980, p.45-46, rus] **34-3957**

Temporary recommendations for the design and construction of situ-cast bored piles in permafrost. Galdaenko, E.I., [1979, 34p., rus] **34-4104**

See also: Pipeline supports; Power line supports

Suprapermafrost ground water

Hydrogeochemical investigations of the BAM zone. Lomonosov, I.S., [1977, p.87-94, rus] **34-996**

Hydrochemistry of the northwestern part of the Central Siberian Plateau. Kuz'min, E.E., et al, [1979, 141p., rus] **34-1192**

Field trip No.5: Northern Quebec—Labrador. Nicholson, F.H., [1979, 96p., eng] **34-1694**

Calculating the interrelation of surface and ground water in permafrost areas. Ipat'eva, A.I., [1979, p.118-125, rus] **34-2899**

Formation of chemical composition of ground water in the Ienga River Basin (Baykal Amur railroad route). Boltsov, A.V., [1978, p.169-176, rus] **34-2934**

Hydrodynamic and hydrochemical assessment of explosions used in testing low-output wells in permafrost regions. Maksimov, V.M., [1980, p.313-320, eng] **34-3254**

Sources of water supply and thermal energy resources of the Beloozerskii swamp. Starkov, V.M., [1978, p.90-92, rus] **34-3359**

Hydromelioration of lands in the Buryat ASSR. Borisenko, I.M., ed, [1979, 110p., rus] **34-4095**

Surface drainage

Field study of brine drainage and oil entrainment in first-year sea ice. Martin, S., [1979, p.473-502, eng] **34-3786**

Surface effect vehicles

See: Air cushion vehicles

Surface properties

Adhesive scattering of energy at the contact. Kashcheev, V.N., et al, [1974, p.11-18, rus] **34-375**

Annual cycle of surface albedo. Kukla, G., et al, [1980, p.56-68, eng] **34-2787**

Undulations on the McMurdo Ice Shelf near Scott Base, Antarctica. Holdsworth, G., et al, [1979, p.16-22, eng] **34-3680**

Surface roughness

Sea ice ridging over the Alaskan continental shelf. Tucker, W.B., et al, [1979, p.4885-4897, eng] **34-411**

Snow accumulation and roughness changes through the winter at a forest-tundra site near Schefferville, Quebec. Granberg, H.B., [1979, p.83-92, eng] **34-1009**

Some characteristics of turbulence in katabatic winds over Mizuho Plateau, East Antarctica. Kobayashi, S., et al, [1979, p.75-85, eng] **34-2152**

Empirical studies of ice sliding. Budd, W.F., et al, [1979, p.157-170, eng] **34-2229**

Video-pulse radiometer of sea ice thickness as a promising means of ice surveying. Finkel'shtein, M.I., et al, [1977, p.104-113, rus] **34-3312**

Undulations on the McMurdo Ice Shelf near Scott Base, Antarctica. Holdsworth, G., et al, [1979, p.16-22, eng] **34-3680**

Surface structure

Geologic evaluation of LANDSAT imagery in interior Alaska. Dean, K.G., [1979, 156p., eng] **34-567**

Surface temperature

Ice cover parametrization in global models of ocean-atmosphere interactions. Belevich, M.IU., [1979, p.91-97, rus] **34-804**

Apparatus for studying radiation temperature at the ocean surface. Novogrudskii, B.V., et al, [1979, p.241-245, rus] **34-879**

Emissivity correction for interpreting thermal radiation from the terrestrial surface. Sutherland, R.A., et al, [1979, p.1165-1171, eng] **34-890**

Equilibrium surface temperature climate model applied to first year sea ice growth. Miller, J.D., [1979, 183p., eng] **34-1295**

Thermal climate regime on road and ground surface. Heiersted, R.S., [1979, p.497-509, eng] **34-2350**

Interannual atmospheric variability and associated fluctuations in Arctic sea ice extent. Walsh, J.E., et al, [1979, p.6915-6928, eng] **34-2713**

Variation of sea surface temperature (from airborne radiation measurements). Gorbunov, IU.A., et al, [1979, p.47-54, rus] **34-3588**

Effect of developing a territory on the heat balance and the thermal and moisture regime of the ground in the northern part of Western Siberia. Moskalenko, N.G., et al, [1980, p.29-44, eng] **34-3830**

Geophysical aspects of the development of permafrost. Kudriavtsev, V.A., et al, [1980, p.63-79, eng] **34-3832**

Conditions and geothermal consequences of the moisture exchange between the lithosphere and the atmosphere in permafrost regions. Shvetsov, P.F., [1980, p.109-117, eng] **34-3835**

Surface tension

See: Interfacial tension

Surface waters

Hydrochemistry of the northwestern part of the Central Siberian Plateau. Kuz'min, E.E., et al, [1979, 141p., rus] **34-1192**

Modelling the processes of river runoff formation. Kuchment, L.S., [1980, 143p., rus] **34-3188**

Local climatological investigation of Lake Kuttara. Ishikawa, N., et al, [1979, p.121-127, jap] **34-3497**

Surfactants

Effect of surface-active media on low temperature abrasive wear of metals. Dorodnyi, V.I., [1977, p.26-31, rus] **34-986**

Water repellant plasticizing admixtures for cements, grouts and concretes. Khigerovich, M.I., et al, [1921, 125p., rus] **34-3615**

Surveying

Permafrost investigations in pipeline construction. Baulin, V.V., et al, [1980, p.199-212, eng] **34-3246**

Surveys

Biological studies, offshore cruise 77-4 through 77-7, July-December, 1977 in the Davis Strait. [1977, var.p., eng] **34-493**

Special geomorphologic map for studying permafrost. Gavrilov, A.V., et al, [1979, p.77-80, rus] **34-1770**

Studies of geobotanical indices in the medium-scale combined geocryologic survey of southern Yakutia. Melent'ev, V.S., [1979, p.154-158, rus] **34-1923**

Engineering-landscape investigations and surveys of railroad routes in mountain taiga. Popovichev, E.A., [1968, p.19-26, rus] **34-2019**

Technical and economic calculations of field work for engineering surveys and landscape studies in mountain taiga. Popovichev, E.A., [1968, p.44-53, rus] **34-2020**

Captive of perpetual cold. Vel'mina, N.A., [1979, 207p., rus] **34-2669**

Regional and cryolithologic studies in Siberia. Nekrasov, I.A., ed, [1979, 160p., rus] 34-2769
Geocryological survey methods. Kudriavtsev, V.A., et al, [1980, p.71-84, eng] 34-3238
Methods of studying frozen rock properties during geocryological survey ig. Trush, N.I., [1980, p.67-75, rus] 34-4123
Principles of engineering-geological regionalization of permafrost zone for construction of hydroelectric power plants. Krivonogov, M.G., [1980, p.116-119, rus] 34-4127

See also: Aerial surveys; Geological surveys; Geophysical surveys; Glacier surveys; Ice surveys; Oceanographic surveys; Photogrammetric surveys; Photographic reconnaissance; Route surveys; Seismic surveys; Site surveys; Snow surveys; Soil surveys; Topographic surveys

Suspended sediments

Runoff of suspended deposits in glacier adjacent zones. Chernov, L.P., [1974, p.220-234, eng] 34-1199
Sediment transport in the Tanana River in the vicinity of Fairbanks, Alaska, 1977-78. Burrows, R.L., et al, [1979, 37p., eng] 34-1556
Correlation and quantification of airborne spectrometer data to turbidity measurements at Lake Powell, Utah. Merry, C.J., [1970, p.1309-1316, eng] 34-2043
Energy dissipation during subglacial abrasion at Nisqually Glacier, Washington, U.S.A. Metcalf, R.C., [1979, p.233-246, eng] 34-2235
Sediment concentration in melt waters as an indicator of erosion processes beneath an alpine glacier. Collins, D.N., [1979, p.247-257, eng] 34-2236
Sediment transport in Norton Sound, Alaska. Cacchione, D.A., et al, [1979, 88p., eng] 34-2720
Concentration of impurities by progressive freezing. Halde, R., [1980, p.575-580, eng] 34-3436

Swamps

Construction material and equipment base in West Siberia. Kuritsyn, IU.P., [1979, p.6-8, rus] 34-166
Evaluating social and economic effectiveness of mobile residential complexes. Galdukova, N.I., [1979, p.16-17, rus] 34-169
Subdividing linear parts of main pipelines into sections of different categories. Borodavkin, P.P., et al, [1979, p.31-32, rus] 34-172
Methods of fastening reinforced concrete supports of overhead power lines in weak ground. Kurnosov, A.I., et al, [1979, p.29-32, rus] 34-195
Testing the AR401 anchors. Brun, A.I., et al, [1979, p.19-21, rus] 34-248
Natural reforestation of conifers on dried areas of northern taiga in the Arkhangel'sk region. Feklistov, P.A., et al, [1979, p.9-12, rus] 34-251
Development of transportation in oil and gas producing areas of Siberia and the North. Chevardov, S.I., [1979, p.2-4, rus] 34-402
Special means of transportation on land in West Siberia. Vladimirskii, A.B., et al, [1979, p.4-7, rus] 34-403
Propelling devices for all-terrain vehicles. Gorbeshko, M.V., et al, [1979, p.7, rus] 34-404
Muysk Basin soils and their agricultural development. Vtorushin, V.A., et al, [1979, p.34-42, rus] 34-437
Soil resources of BAM zone swamps and their agricultural development. Makeev, O.V., et al, [1979, p.42-49, rus] 34-438
Soils of the central Selemdzha River area and their economic development. Rybachuk, N.A., et al, [1979, p.49-54, rus] 34-439
Calculating moisture content of unsaturated zones when draining peat bogs. Kovalenko, N.P., et al, [1979, p.51-55, rus] 34-523
Application methods for determining biologic activity of paluded sod-podsol soils. IAkovlev, A.S., [1979, p.63-67, rus] 34-526
Computer analysis of different natural regime indices for revealing geosystem structures. Kobeleva, N.V., et al, [1979, p.14-34, rus] 34-672
Classification of elementary geosystems of the Kondo-Sos'va Uplands. Mikheev, V.S., et al, [1979, p.74-83, rus] 34-676
Basic classification indices of peat soils. Roman, L.T., [1976, p.122-130, rus] 34-713
Landscape-ecological basis for forest melioration and biological recultivation of lands along the Tobol'sk-Amudar'ya channel. Chibilev, A.A., [1979, p.91-93, rus] 34-824
Problems in swamp hydrology. Novikov, S.M., ed, [1979, 134p., rus] 34-825
Nature and classification of palsa bogs. Novikov, S.M., et al, [1979, p.3-13, rus] 34-826
Microrelief identification criteria of palsa bogs. Novikov, S.M., et al, [1979, p.14-26, rus] 34-827
Studying water level regime of palsa bogs. Moskvin, IU.P., [1979, p.27-37, rus] 34-828
Calculating water level of palsa bogs from meteorological data. Novikov, S.M., et al, [1979, p.38-49, rus] 34-829
Evaporation and runoff from undrained swamps in years with different moisture conditions. Bavina, L.G., [1979, p.61-73, rus] 34-831
Heat accumulation and thermal cycles of oligotrophic peat bogs. Kaliuzhnyi, I.L., [1979, p.81-89, rus] 34-832
Reliability of experimental determination of basic hydrologic characteristics of swamps. Baliasova, E.L., [1979, p.96-109, rus] 34-833
Determining the volume of measurements for calculating water permeability of active layers in swamps. Baliasova, E.L., [1979, p.110-115, rus] 34-834
Hydrologic problems of environmental changes in West Siberia. Malik, L.K., [1978, 180p., rus] 34-845
Elastic and dissipative properties of peats and organic muds. IAromko, V.N., et al, [1979, p.17-22, rus] 34-979
History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, [1979, 215p., rus] 34-1067
History of river valley development as a basis for designing land irrigation with ground water in Buryat-Mongol ASSR. Bazarov, D.B., et al, [1979, p.62-66, rus] 34-1068
Recent tectonics and river valleys in the Ilim, Ust'-Kutsk and Katanga areas in relation to land reclamation problems. Zveder, L.N., [1979, p.71-75, rus] 34-1069
Combined aerial survey of northwestern Siberia. Bogoiavlenskii, B.A., et al, [1979, p.169-192, rus] 34-1074
Taking inventory of natural grasslands by large-scale surveys of the Ob'-Irtysh floodplain, Tyumen' Region. Aseeva, A.I., [1979, p.57-80, rus] 34-1102
Vascular plants in the "Snow Valley" station. Khokhriakov, A.P., et al, [1977, p.44-48, rus] 34-1162
Construction of service roads in swamps. Zholobov, S.I., [1979, p.24-25, rus] 34-1181
Forest land recultivation after pipeline construction. Vysotskii, A.N., [1979, p.26-27, rus] 34-1258
Microbiological studies of soils in the Magadan Region. Poliakov, V.A., [1978, p.3-10, rus] 34-1440
Seasonal activity of invertase in drained peat soils. Efremova, T.T., [1978, p.12-18, rus] 34-1442
Drainage effect on algoflora of mesotrophic bogs. Antipina, G.S., [1979, p.1285-1295, rus] 34-1449
Changes in tundra landscapes induced by mining. Olovin, B.A., [1979, p.98-112, rus] 34-1516
Improving the economic effectiveness of transportation in the Komi Autonomous Soviet Socialist Republic. Kuratova, E.S., [1979, p.42-46, rus] 34-1624
Peculiarities of motor transport under northern conditions. Khlebnikov, A.M., et al, [1979, p.47-59, rus] 34-1625
Passanger transport in northern population resettlement systems. Belinskii, A.IU., [1979, p.98-105, rus] 34-1630
Pipeline transport. IUfin, V.A., ed, [1976, 123p. (Pertinent p.30-60), rus] 34-1641
Melioration and regionalization of cryogenic soils in Yakutia. Elovskaia, L.G., et al, [1978, 175p., rus] 34-1648
Hydrophysical properties of peat soils. Bondarenko, N.F., et al, [1979, 160p., rus] 34-1651
Soils of northern Yakutia. Elovskaia, L.G., et al, [1979 303p., rus] 34-1652
Special geomorphologic map for studying permafrost. Gavrilov, A.V., et al, [1979, p.75-80, rus] 34-1770
Microbic associations and their functions in West Siberian soils. Klevenskaia, I.L., ed, [1979, 286p., rus] 34-1805
Microbic associations in soils of biogeocenoses of the Baraba Plain. Klevenskaia, I.L., et al, [1979, p.22-60, rus] 34-1807
Improving the design of supports for overhead power lines of and exceeding 500 kv. Peterson, L.L., et al, [1979, p.48-51, rus] 34-1851
Proceedings of the first all-union symposium Biosphere and Man. [1975, 335p., rus] 34-1852
Microelement variations in peat-bog soils of the northwestern Russian Soviet Federated Socialist Republic during land development. Zavgorodniaia, R.E., et al, [1975, p.126-127, rus] 34-1856
Changes in the runoff from reclaimed marshlands in South Karelia. Nesterenko, I.M., et al, [1975, p.127-128, rus] 34-1857
Reclamation impact on northern peat soils. Nesterenko, I.M., [1975, p.129-130, rus] 34-1858
Central taiga soil cover in Eastern Transbaikal. Alifanov, V.M., [1975, p.159-161, rus] 34-1859
Influence of paludification and water bodies on thermal regime of rocks. Garagulia, L.S., et al, [1979, p.37-42, rus] 34-1911
New data on geocryological structure of swamps in southern Yakutia. Chizhov, A.B., et al, [1979, p.134-140, rus] 34-1921
Using peat in embankment construction. Shupilov, IA.M., [1979, p.18-21, rus] 34-1948
Hydraulic method of sanding peat soils. Lazarev, I.V., et al, [1979, p.21-23, rus] 34-1949
Earth structures on peaty silts under pressure head conditions. Tkach, V.N., et al, [1979, p.23-26, rus] 34-1950
Peat accumulation and the formation of swamps as a physiographic process. Ivanov, K.E., [1976, p.80-90, rus] 34-2007
Calculating water balance of the Kola River basin. Antonova, T.S., [1979, p.107-119, rus] 34-2055
Equipment for summer construction of pipelines on swamps. [1979, p.31-32, rus] 34-2100
Determining parameters of the mechanical dehydration of frozen peat in high bogs. Kmitovenko, A.T., et al, [1979, p.18-19, rus] 34-2132
Scientific conference of geographers from Siberia and the Far East. Geography and practice. Proceedings. [1978, 253p., rus] 34-2246
Forecasting changes in West Siberian landscapes due to pipeline construction. Moskalenko, N.G., [1978, p.115-119, rus] 34-2249
Swamp land reclamation in West Siberia. Sazonov, A.G., [1978, p.119-122, rus] 34-2250
Studying physical and mechanical properties of seasonally frozen grounds subject to blasting, for the construction of land reclamation objects. Vorob'ev, V.D., et al, [1979, p.132-138, rus] 34-2309
Studying the origin and structure of forest-swamp complexes. Glebov, F.Z., et al, [1978, p.14-59, rus] 34-2520
Influence of hydro-climatic conditions on the growth of swamp stands. Glebov, F.Z., et al, [1978, p.59-91, rus] 34-2521
Regression analysis of fermentation in drained peat soils. Efremova, T.T., et al, [1978, p.111-131, rus] 34-2523
Effects of swamp drainage, afforestation and nutrients on the dynamics of chemical composition of soil solutions. Melent'eva, N.V., [1978, p.131-135, rus] 34-2524
Origin and development of the Surgut wooded marshes. Liss, O.L., et al, [1979, p.86-91, rus] 34-2710
Physico-chemical properties of humic acids in peats of the northern Trans-Ural areas. Komissarov, I.D., et al, [1979, p.114-121, rus] 34-2742
Landscape method of studying snow cover for land reclamation. Pashkang, K.V., et al, [1980, p.64-71, rus] 34-2800
Transport engineers and the economic development of West Siberia. Melkonov, S.S., [1980, p.3-6, rus] 34-2849
Construction of roadbeds on hummocky peats. Plotskii, A.S., et al, [1979, p.3-4, rus] 34-2856
Collection No.1 of unified regional individual estimates for construction. Earthwork. [1977, 247p. (Pertinent p.200-246), rus] 34-2868
Ecosystems of swamps in the USSR. Boch, M.S., et al, [1979, 187p., rus] 34-2886
Cryogenic structure of loose deposits in the southern part of the upper Zeya plain and the Ogoronsk Basin. Misharina, N.K., [1978, p.97-105, rus] 34-2926
Cost of log roads built in swamps on pipeline construction sites. Suvorov, L.N., et al, [1980, p.11-12, rus] 34-2978
Landscape structure of the forest-swamp zone in Western Siberia. Mikhallov, N.I., [1980, p.40-48, rus] 34-3027
Peculiarities of land reclamation in West Siberia. Panin, P.S., ed, [1979, 252p., rus] 34-3074
West Siberia as an object of land reclamation. Panin, P.S., et al, [1979, p.3-4, rus] 34-3075
Possible changes in thermal conditions due to land reclamation. Az'muka, T.I., et al, [1979, p.8-25, rus] 34-3076
Lands subject to reclamation in the south of the West Siberian Plain. Uglanov, I.N., [1979, p.25-76, rus] 34-3077
Regionalization of the southern West Siberian Plain for land reclamation. Uglanov, I.N., et al, [1979, p.116-133, rus] 34-3080
Construction of earth embankments for highways in West Siberia. Popov, B.I., et al, [1980, p.269-281, eng] 34-3251
Making artificial intergelisols as a means of environmental protection in petroleum provinces of West Siberia and the northern Komi ASSR. Maksimov, G.N., [1980, p.25-27, rus] 34-3281
Typical natural environment disturbances in northern West Siberia due to construction of linear structures and forecasts of their development. Moskalenko, N.G., et al, [1980, p.71-78, rus] 34-3289
Environmental protection problems related to the construction of embankments and porous fills on permafrost. Kaganovskaia, S.E., [1980, p.90-94, rus] 34-3292
Sources of water supply and thermal energy resources of the Beloozerskii swamp. Starkov, V.M., [1978, p.90-92, rus] 34-3359
Thermophysical properties of frozen low moor peats. Bushina, O.N., et al, [1978, p.132-134, rus] 34-3361
Permafrost in the territory of the Boguchansk reservoir. Serov, A.G., et al, [1980, 9p., eng] 34-3392
Flora of vascular plants of the "Snow Valley" station. Khokhriakov, A.P., et al, [1980, p.48-51, eng] 34-3399
Properties of soils in the autonomous landscapes of forest tundra and northern taiga of the Lower Yenisey River Uplands. Korsunov, V.M., et al, [1978, p.15-26, rus] 34-3463
Diatomaceous algae of fresh-water bodies on the Chukotskiy Peninsula. Kharitonov, V.G., [1978, p.118-121, rus] 34-3510
Lichens in the vegetation of the Elombal Mountains (Chukot Autonomous District). Andreev, M.P., [1980, p.563-570, rus] 34-3556
Technology of preparing and storing oil-stabilized soils. Bogomolov, IU.N., et al, [1980, p.6-8, rus] 34-3558
Infrared aerial survey in studying natural resources. Shilin, B.V., [1980, 247p., rus] 34-3591
Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p. (Pertinent p.230-344), rus] 34-3600

Swamps *(cont.)*
Evaluating the possibilities of forecasting swamp transformations due to land reclamation. Galeta, I.F., (1978, p.12-22, rus) 34-3600
Biomass of microorganisms in the forest-swamp geosystems of southern taiga in the Irtysh River area. Antonenko, A.M., et al, (1978, p.74-80, rus) 34-3611
Thermal regime of rivers in Central and West Siberian plains. Protopopov, V.V., et al, (1979, p.4-24, rus) 34-3769
Regimes of landscape-geochemical processes in geosystems. Snytko, V.A., ed, (1977, 120p., rus) 34-3812
Improving work organization and quality control at a most important construction site. Pelevin, I.V., (1980, p.20-21, rus) 34-3818
Eliminating breakdowns during the testing of the Surgut-Polotsk oil pipeline. Riabov, G.N., (1980, p.32-33, rus) 34-3821
Road building performed on a self-supporting basis. Shabalin, V.P., et al, (1979, p.14-15, rus) 34-3939
Road construction all year round. Siniaev, N.V., (1979, p.15-16, rus) 34-3940
Investigation of vertical moisture transport in the upper layers of undrained highmoor bogs by means of radioactive isotopes. Surovov, V.I., (1978, p.1-5, eng) 34-3959
Dynamics of vegetational cover and the development of cryogenic relief forms. Tyrtikov, A.P., (1979, 116p., rus) 34-4010
Formation and development of swamp systems. Kiriushkin, V.N., (1980, 88p., rus) 34-4014
Construction experience gained by the Trust "Uralstroimekhanizatsiia". Lamakins, V.S., (1980, p.2-4, rus) 34-4052
Vegetational resources of Transbaikal, their preservation and use. Bolkov, T.G., ed, (1979, 97p., rus) 34-4091
Hydromelioration of lands in the Buryat ASSR. Borisenko, I.M., ed, (1979, 110p., rus) 34-4095
Hydrogeologic-land reclamation regionalization of the Lake Baykal area and Western Transbaikal. Borisenko, I.M., (1979, p.5-15, rus) 34-4096
Hydrogeologic and land reclamation conditions of the Khotay swamp in the Barguzin depression. Zamana, L.V., (1979, p.24-33, rus) 34-4097
Salinity of soils in the Tunguy depression. Borisenko, L.V., et al, (1979, p.34-41, rus) 34-4098
Zonal and regional peculiarities of geocryological conditions in the southern part of the permafrost distribution area. Belopukhova, E.B., et al, (1980, p.120-126, rus) 34-4128
Effects of zonality and environmental conditions on horizontal structure of phytocenoses of flat palsa peat bogs in West Siberia. Moskalenko, N.G., (1980, p.7-12, rus) 34-4142
Composition and structure of vegetation in ridge-pool swamps. Boch, M.S., et al, (1980, p.22-30, rus) 34-4144
Mosses as accumulators of radionuclides. Molchanova, I.V., et al, (1980, p.42-47, rus) 34-4146
Problems in rational utilization of natural resources and environmental control in North Siberia. Cherskiĭ, N.V., ed, (1979, 158p., rus) 34-4164
Accelerated growing of pine seedlings introduced beyond the polar circle. Daissova, N.P., et al, (1979, p.107-108, rus) 34-4235
Sweden
Spring flood forecasting by conceptual models in Sweden. Bergström, S., (1979, p.397-405, eng) 34-1037
Spring runoff forecasts from snow assessments in the Malmagen area at 62N in Sweden. Zakrisson, K., (1979, p.63-66, eng) 34-1462
Switzerland
Switzerland and its glaciers from the ice age to the present. (1979, 191p., ger) 34-2356
Topoclimatological and snow hydrological survey of Switzerland. Winniger, M., (1979, 6p., eng) 34-2509
—Alps
Snow and avalanches in the Swiss Alps, winter 1977-1978. (1979, 152p., ger) 34-1704
Snow and avalanche conditions in the Swiss Alps. Schild, M., et al, (1979, p.41-88, ger) 34-1706
—Davos
Snow and avalanches in the Davos region. Föhn, P., et al, (1979, p.29-40, ger) 34-1705
Symposia
See: Meetings
Synoptic meteorology
Synoptic climatology of the Canadian High Arctic. Bradley, R.S., et al, (1979, p.187-201, eng) 34-2269
International conference on meteorology of the Carpathian Mountains. Proceedings. (1979, 413p., rus) 34-2299
Climatic-synoptic characteristics of days with snowfall and snow cover in Eastern Serbia. Ranković, S., et al, (1979, p.335-345, rus) 34-2304
Study of climatic effects on fast ice extent and its seasonal decay along the Beaufort-Chukchi coasts. Barry, R.G., (1979, p.272-375, eng) 34-2683
Atmospheric processes and characteristics of underlying surfaces during the period preceding the formation of temperature anomalies. (1979, p.12-23, rus) 34-2965
Synoptic conditions and the formation of major mean monthly air temperature anomalies in West Siberia. Zubovich, M.G., et al, (1979, p.24-36, rus) 34-2966
Classifying synoptic processes in East Arctic regions during cold periods. Dmitriev, A.A., (1979, p.23-25, rus) 34-3528
Climatic peculiarities of West Yakutia. Spesivtseva, N.A., (1980, p.87-95, rus) 34-4043
Systems analysis
Systems study of snow removal. Minsk, L.D., (1979, p.220-225, eng) 34-84
Systems approach to studying soil formation processes in landscapes affected by industrial activities. Trofimov, S.S., et al, (1979, p.3-19, rus) 34-947
Taiga
Cold tolerance of micro-arthropoda from Alaskan taiga. Block, W., (1979, p.103-110, eng) 34-11
Evaluating social and economic effectiveness of mobile residential complexes. Galdukova, N.I., (1979, p.16-17, rus) 34-169
Natural reforestation of conifers on dried areas of northern taiga in the Arkhangel'sk region. Feklistov, P.A., et al, (1979, p.9-12, rus) 34-251
Problems of the North. Study and utilization of natural resources and environmental protection. Shvetsov, P.F., et al, (1979, p.31-37, rus) 34-297
Soils along the Baykal Amur railroad. Kovalev, R.V., ed, (1979, 304p., rus) 34-433
Soil classification and land resources of the Irkutsk area. Kolesnichenko, V.T., et al, (1979, p.13-24, rus) 34-435
Soils in the western section of BAM and prospects for their agricultural development. Kolesnichenko, V.T., (1979, p.24-33, rus) 34-436
Muysk Basin soils and their agricultural development. Vtorushin, V.A., et al, (1979, p.34-42, rus) 34-437
Soil resources of BAM zone swamps and their agricultural development. Makeev, O.V., et al, (1979, p.42-49, rus) 34-438
Soils of the central Selemdzha River area and their economic development. Rybachuk, N.A., et al, (1979, p.49-54, rus) 34-439
Sod-carbonaceous soils of the Baykal Lake area. Koposov, G.F., (1979, p.60-68, rus) 34-441
Soil regimes in the Chara River Basin and methods of their interpretation. Shchetnikov, A.I., (1979, p.68-78, rus) 34-442
Brown taiga soils in the upper part of the Urkan River Basin. Ovchinnikov, S.M., et al, (1979, p.78-89, rus) 34-443
Use and protection of lands in the northern Irkutsk region and the BAM zone. Belykh, A.G., et al, (1979, p.95-99, rus) 34-445
Resistance of mountain and forest sod soils of the Baykal Lake area to erosion. Kovaleva, S.R., (1979, p.100-111, rus) 34-446
Erosional vulnerability of taiga soils in the eastern BAM zone during economic development. Zarkhina, E.S., (1979, p.131-136, rus) 34-450
Classification of soils in the far northeastern USSR. Ignatenko, I.V., (1979, p.168-176, rus) 34-452
Soil zones of Central Yakutia. Konorovskiĭ, A.K., (1979, p.176-183, rus) 34-453
Mountain and forest chernozem-like soils on the eastern slope of Kuznetskiy Alatau. Tanzybaev, M.G., (1979, p.217-224, rus) 34-458
Influence of microorganisms on ferrous oxide dynamics in soils of the Angara River area. Influence of microorganisms on ferrous iron dynamics in soils of the Angara River area, (1979, p.260-265, rus) 34-461
Microbiological characteristics of cryogenic sod-podsol soils (Yeravninskaya Basin, Buryat ASSR). Nimaeva, S.Sh., et al, (1979, p.266-274, rus) 34-462
Role of permafrost in the hydrothermal regime of soils. Savvinov, D.D., (1979, p.282-287, rus) 34-464
Phosphorus regime of gray forest soils in the East Siberian sub-taiga and soil formation. Kholopova, R.V., (1979, p.287-295, rus) 34-465
Ecological problems of protecting taiga forests. Stadnitskiĭ, G.V., et al, (1979, p.5-13, rus) 34-522
Classifying the northwest Siberian landscapes according to their stability under construction. Nefedova, V.B., (1979, p.42-47, rus) 34-525
Structure and dynamics of geosystems. Mikheev, V.S., ed, (1979, 136p., rus) 34-670
Comparative evaluation of principal ecologic-systematic animal groups as components of taiga geosystems. Verzhutskiĭ, B.N., et al, (1979, p.3-13, rus) 34-671
Computer analysis of different natural regime indices for revealing geosystem structures. Kobeleva, N.V., et al, (1979, p.14-34, rus) 34-672
Seasonal dynamics of thermal conditions and fir growth in the Angara River taiga area. Krauklis, A.A., et al, (1979, p.45-54, rus) 34-674
Studying phytosociologic optima in the Kondo-Sos'va Ob' River geosystems. Kuz'menko, E.I., (1979, p.55-73, rus) 34-675
Classification of elementary geosystems of the Kondo-Sos'va Uplands. Mikheev, V.S., et al, (1979, p.74-83, rus) 34-676
Structure of radiation and thermal fields in natural West Siberian central taiga geosystems. Trofimova, I.E., (1979, p.101-120, rus) 34-678
Mathematical analysis of the dynamics of taiga facies. Cherkashin, A.K., (1979, p.121-133, rus) 34-679
Geographic problems of the Baykal Amur railroad zone. Vorob'ev, V.V., ed, (1979, 143p., rus) 34-680
Historic and geographic evaluation of economic development of mountain taiga areas of the BAM zone. Kosmachev, K.P., (1979, p.3-17, rus) 34-681
Vegetational cover in areas adjacent to the Baykal Amur railroad and problems of its preservation. Belov, A.V., et al, (1979, p.36-90, rus) 34-683
Landscape-ecological basis for forest melioration and biological recultivation of lands along the Tobol'sk-Amudar'ya channel. Chibilev, A.A., (1979, p.91-93, rus) 34-824
Heat accumulation and thermal cycles of oligotrophic peat bogs. Kaliuzhnyi, I.L., (1979, p.81-89, rus) 34-832
Human influence on forest landscapes (Kan-Biryusa Plain). Rubtsov, N.I., et al, (1978, 128p., rus) 34-885
Young soils formed in placer tailings in the southern taiga of the Central Urals. Nakariakov, A.V., et al, (1979, p.58-106, rus) 34-949
Initial soil formation processes developing on rock tailings of the Lipovskoe nickel mine. Makhonina, G.I., (1979, p.123-140, rus) 34-951
Early diagenesis and growth of wild and semi-cultivated plants on tailings of the Kuzbass coal mines. Kondrashin, E.R., (1979, p.163-172, rus) 34-953
Reforestation of coal mine tailings in the southern Kuzbass. Barannik, L.P., et al, (1979, p.172-179, rus) 34-954
Oxidizing activity of microorganisms in recultivated tailings of the Baydaevskiy coal mine (Kuzbass). Kulebakin, V.G., (1979, p.179-185, rus) 34-955
Usefulness of aerial photography in evaluating lands in the Lake Baykal area of the BAM zone. Parshikov, V.P., (1979, p.278-285, rus) 34-957
Prognosis of rational use and protection of renewable natural resources in the Far North. Gel'berg, M.G., et al, (1979, p.14-51, rus) 34-958
Studying and modeling soil formation in forest biogeocenoses. Korsunov, V.M., ed, (1979, 161p., rus) 34-969
Interrelation between edaphic and coenotic factors of cropping power. Pleshikov, F.I., (1979, p.4-13, rus) 34-970
Effect of maintenance felling on soil microflora in Pinus (cembra) sibirica forests. Vishniakova, Z.V., et al, (1979, p.14-22, rus) 34-971
Studying the effect of natural and experimental fires on forest soils. Popova, E.P., (1979, p.23-29, rus) 34-972
Model experiments for determining the role of pine in the formation of variegated forest soils. Vedrova, E.F., (1979, p.30-42, rus) 34-973
Modeling taiga soils formation in the Salair Range. Korsunov, V.M., et al, (1979, p.43-52, rus) 34-974
Experimental study of biologic conversion of iron in soils. Sorokin, N.D., et al, (1979, p.53-61, rus) 34-975
Chemical composition and migration of soil moisture in Salair Range landscapes. Korsunov, V.M., (1979, p.62-67, rus) 34-976
Modeling the processes reflecting the influence of trees on forest soils. Shugalei, L.S., (1979, p.79-153, rus) 34-978
History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, (1979, 215p., rus) 34-1067
Revealing stream pattern indices by spaceborne photography. Mihaeva, L.S., (1979, p.129-134, rus) 34-1072
Geography of Siberian resource development. Kosmachev, K.P., ed, (1979, 107p., rus) 34-1099
Taking inventory of natural grasslands by large-scale surveys of the Ob'-Irtysh floodplain, Tyumen' Region. Aseeva, A.I., (1979, p.57-80, rus) 34-1102
Components of forest tundra biogeocenoses in northern Okhotomor'e. Ignatenko, I.V., ed, (1977, 149p., rus) 34-1158
Physiographic conditions of northern Okhotomor'e and hydrothermal regime of soils at the "Snow Valley" research station. Ignatenko, I.V., et al, (1977, p.5-23, rus) 34-1159
Vegetation of the "Snow Valley" station (Explanatory note to the vegetation chart). Shatkauskas, A.V., et al, (1977, p.24-34, rus) 34-1160
Environment-forming role of forests in the Lake Baykal Basin. Lebedev, A.V., et al, (1979, 256p., rus) 34-1190
Regularities governing the distribution of soils and vegetational covers in southern Transbaikal. Dmitrieva, E.V., (1979, p.427-432, rus) 34-1390
Lichen synusia at the upper limit of Anuy Plateau larch forests. Andreev, M.P., (1979, p.646-653, rus) 34-1443
Improving the economic effectiveness of transportation in the Komi Autonomous Soviet Socialist Republic. Kuratova, E.S., (1979, p.42-46, rus) 34-1624
Evolution of permafrost in the taiga and in the forest-tundra, western Quebec-Labrador Peninsula. Payette, S., et al, (1976, p.203-220, eng) 34-1643
Melioration and regionalization of cryogenic soils in Yakutia. Elovskaia, L.G., et al, (1978, 175p., rus) 34-1648
Soils of northern Yakutia. Elovskaia, L.G., et al, (1979, 303p., rus) 34-1652

Soil cover of the world (Soil-bioclimatic areas of the world and their agro-ecologic characteristics). Rozov, N.N., et al, [1979, 287p., rus] 34-1654
Vegetation and revegetation within permafrost terrain. Bliss, L.C., [1979, p.31-50, eng] 34-1681
Ecologic and biogeochemical peculiarities of northern taiga in the Kola Peninsula. Nikonov, V.V., et al, [1979, p.33-38, rus] 34-1718
Microbic associations and their functions in West Siberian soils. Klevenskaia, I.I., ed, [1979, 286p., rus] 34-1805
Microbiological processes in southern taiga soils of West Siberia. Naplekova, N.N., et al, [1979, p.3-21, rus] 34-1806
Proceedings of the first all-union symposium Biosphere and Man. [1975, 335p., rus] 34-1852
Biologic productivity and chemical element cycles in spruce-green moss central and northern taiga of the Komi Autonomous Soviet Socialist Republic. Zaboeva, I.V., et al, [1975, p.81-82, rus] 34-1853
Biologic productivity and chemical element cycles in spruce-lichens in the central taiga of the Komi ASSR. Rusanova, G.V., et al, [1975, p.83-84, rus] 34-1854
Central taiga soil cover in Eastern Transbaikal. Alifanov, V.M., [1975, p.159-161, rus] 34-1859
Mountain landscape protection in Siberia. Krylov, G.V., ed, [1973, 251p., rus] 34-1863
Scientific approaches to the problems of mountain landscape preservation. Fadeeva, N.V., et al, [1973, p.16-24, rus] 34-1864
Peculiarities of mountain landscapes in the Krasnoyarsk area and their protection. Kirillov, M.V., [1973, p.24-26, rus] 34-1865
Small scale geobotanical mapping as a basis for scientific organization of Alpine vegetation protection. Belov, A.V., [1973, p.34-37, rus] 34-1866
Scientific and practical significance of studying partial inhomogeneity of mountain taiga soils. Taranov, S.A., [1973, p.59-66, rus] 34-1867
Rational utilization of Ural Mountain forests. Zubareva, R.S., et al, [1973, p.70-78, rus] 34-1869
Microclimatic variations and pine forest revegetation in relation to economic development of the Sayan low mountain belt. Gaas, A.A., [1973, p.78-87, rus] 34-1870
Utilization of mountain forests in the Kuznetskiy Basin. Kalinin, A.M., [1973, p.87-92, rus] 34-1871
Forest protection in the northern Lake Baykal Basin. Tkachenko, A.I., [1973, p.93-98, rus] 34-1872
Role of mountain forests of eastern Transbaikal and the Lake Baykal problem. Panarin, I.I., [1973, p.98-102, rus] 34-1873
Resistance of some West Siberian forests. Taran, I.V., [1973, p.103-107, rus] 34-1874
Rational use and preservation of Magadan area forests. Snytkin, G.V., [1973, p.119-125, rus] 34-1875
Protection of mountain forests as a dependable water supply basis of Transbaikal. Tsyganok, V.I., [1973, p.135-138, rus] 34-1876
Amount of geocryologic information obtained from the SN-6 films used in aerial photography of the Chul'man region. Gavrilov, A.V., [1979, p.141-153, rus] 34-1922
Maximum snow depth distribution over the West Siberian Plain. Rutkovskaia, N.V., [1967, p.132-148, rus] 34-1993
Classification of forest-steppe landscapes in the Angara River area. Filippova, S.A., [1976, p.114-120, rus] 34-2009
Engineering-landscape investigations and surveys of railroad routes in mountain taiga. Popovichev, E.A., [1968, p.19-26, rus] 34-2019
Technical and economic calculations of field work for engineering surveys and landscape studies in mountain taiga. Popovichev, E.A., [1968, p.44-53, rus] 34-2020
Organic matter in soddy-podsolic soils with the second humus horizons occurring in taiga landscapes, left bank of the Yenisey River. Lopukhina, O.V., et al, [1979, p.24-29, rus] 34-2101
Problems in experimental landscape science. Krauklis, A.A., [1979, 232p., rus] 34-2103
Protein-splitting microorganisms in Tuva soils. Nekrasova, V.D., [1978, p.105-115, rus] 34-2107
Reforestation and natural vegetation changes in bilberry pine forests. Prudov, B.N., et al, [1979, p.22-25, rus] 34-2109
Reforestation of *Pinus sibirica* forests in Altai highlands. Paramonov, E.G., [1979, p.25-27, rus] 34-2110
Variations of resin and lipid contents in some forest trees depending on climatic conditions. Fuksman, I.L., et al, [1979, p.446-451, rus] 34-2129
Influence of loose deposits on radioactive anomalies in mountain taiga. Zima, A.F., et al, [1979, p.103-110, rus] 34-2130
Scientific conference of geographers from Siberia and the Far East. Geography and practice. Proceedings. [1978, 253p., rus] 34-2246
Regional types of mining-affected lands in East Siberia and trends in their restoration. Savel'eva, I.L., et al, [1978, p.98-102, rus] 34-2247
Forecasting changes in West Siberian landscapes due to pipeline construction. Moskalenko, N.G., [1978, p.115-119, rus] 34-2249
Biodynamics and soil productivity. [1979, 211p., rus] 34-2417
Dynamics of microbial biomass in taiga soils of West Siberia. Antonenko, A.M., et al, [1979, p.69-72, rus] 34-2418
Taiga in the global ecosystem. [1978, 112p., rus] 34-2457
Taiga geosystems and problems of interaction between man and taiga. Sochava, V.B., [1978, p.5-13, rus] 34-2458
Taiga and its place in the global ecosystem. Krauklis, A.A., et al, [1978, p.14-26, rus] 34-2459
Experiment in landscape studies for optimizing taiga landscapes of the European USSR. Isachenko, A.G., [1978, p.26-34, rus] 34-2460
Remote sensing of taiga geosystems in different spectral ranges. Vinogradov, B.V., [1978, p.34-42, rus] 34-2461
Forest resource analysis as a bioeconomical approach to studying the natural potential of taiga. Sheingauz, A.S., [1978, p.42-53, rus] 34-2462
Spruce forests as a stabilizing component of taiga biome in the European North. Dyrenkov, S.A., [1978, p.53-58, rus] 34-2463
Structural potential and improvement in the use of pine forests of various ages in Siberia. Verkhunov, P.M., [1978, p.58-63, rus] 34-2464
Taiga larch forests in Sikhote-Alin and their management. Gukov, G.V., [1978, p.63-70, rus] 34-2465
Dynamics of spruce ecosystems in the southern taiga. Glazov, M.V., et al, [1978, p.70-73, rus] 34-2466
Mapping of taiga vegetation for the forecasting of its variations due to possible changes in moisture conditions. Shvergunova, L.V., et al, [1978, p.74-80, rus] 34-2467
Outlook for the development of forest industry in the Baykal Amur railroad zone. Alekhin, V.G., [1978, p.80-89, rus] 34-2468
Characteristics in studies and classification of alpine forest soils in the western Sayan. Kochurov, B.I., [1978, p.93-98, rus] 34-2469
Natural relationships in taiga geosystems. Nechaeva, E.G., [1978, p.98-101, rus] 34-2470
Baykal Amur railroad and economic development of the Transbaikal region. Nedeshev, A.A., et al, [1979, 158p., rus] 34-2483
Peculiarities of forest-swamp ecosystems in West Siberia. Glebov, F.Z., ed, [1978, 159p., rus] 34-2518
Statistical analysis of the relation between paludification and hydrometeorological characteristics of river basins in the central and southern taiga of West Siberia. Uskova, L.M., et al, [1978, p.5-14, rus] 34-2519
Studying the origin and structure of forest-swamp complexes. Glebov, F.Z., et al, [1978, p.14-59, rus] 34-2520
Influence of hydro-climatic conditions on the growth of swamp stands. Glebov, F.Z., et al, [1978, p.59-91, rus] 34-2521
Ecologic effect on the formation of conifer crowns and combined offshoots in drained bogs. Efremov, S.P., [1978, p.91-111, rus] 34-2522
Regression analysis of fermentation in drained peat soils. Efremova, T.T., et al, [1978, p.111-131, rus] 34-2523
Pressing environmental protection problems in the Far East. Konovalenko, V.G., ed, [1978, 179p., rus] 34-2532
Some aspects of environmental protection in the Far Eastern USSR. Konovalenko, V.G., [1978, p.3-6, rus] 34-2533
Protection and use of biologic resources in the Baykal Amur railroad construction zone. Man'ko, IU.I., [1978, p.7-9, rus] 34-2534
Boreal ecology. Pruitt, W.O., Jr., [1978, 73p., eng] 34-2581
Soil-geochemical regionalization of the non-chernozem zone for protection from pollution. Glazovskaia, M.A., [1978, p.127-139, rus] 34-2612
From quantity to quality. Antonov, A.F., et al, [1979, p.18-20, rus] 34-2635
Captive of perpetual cold. Vel'mina, N.A., [1979, 207p., rus] 34-2669
Characteristics of soil formation in Siberia. Kovalev, R.V., ed, [1979, 294p., rus] 34-2734
Soil formation under ultracontinental cold arid conditions. Sokolov, I.A., et al, [1979, p.9-13, rus] 34-2735
Comparative characteristics of sod-forest, sod-taiga and brown forest soils of Siberia and the Far East. Gracheva, R.G., et al, [1979, p.14-29, rus] 34-2736
Quality indices of West Siberian soils. Tiumentsev, N.F., et al, [1979, p.53-60, rus] 34-2738
Origin of second humus zones in sod-podsol soils of West Siberia. Karavaeva, N.A., [1979, p.60-68, rus] 34-2739
Sod-gley soils of West Siberia. Karavaeva, N.A., [1979, p.69-78, rus] 34-2740
Ecologic influence on the formation of complex humus profiles of Siberian southern taiga soils. Nechaeva, E.G., [1979, p.79-87, rus] 34-2741
Revegetation of fir forests in the southern taiga of the Central Ural Mountains and Predural'e. Konovalov, N.A., et al, [1979, p.5-7, rus] 34-2798
Landscape structure of the forest-swamp zone in Western Siberia. Mikhailov, N.I., [1980, p.40-48, rus] 34-3027
Possible landscape changes in the Lower Irtysh River area. Maslennikova, V.V., et al, [1980, p.49-53, rus] 34-3028
Changes in thermal conditions of landscapes in the monsoon-permafrost mountain taiga of the Central and Lower Amur River area. Golubchikov, IU.N., [1980, p.62-73, rus] 34-3029
Peculiarities of land reclamation in West Siberia. Panin, P.S., ed, [1979, 252p., rus] 34-3074
Possible changes in thermal conditions due to land reclamation. Az'muka, T.I., et al, [1979, p.8-25, rus] 34-3076
Physical properties of soils and forecasting of their changes in reclaimed lands. Panfilov, V.P., et al, [1979, p.77-101, rus] 34-3078
Hydrochemical runoff and the intensity of soil salinization in West Siberia. Panin, P.S., [1979, p.141-170, rus] 34-3081
Geosystems of the West Sayan foothills. Antipov, A.N., et al, [1979, 319p., rus] 34-3226
Environmental protection in economic development of permafrost areas. Grave, N.A., ed, [1980, 140p., rus] 34-3277
Forecasting changes in engineering-geocryological conditions induced by economic development of the north taiga zone in West Siberia. Grechishchev, S.E., et al, [1980, p.12-19, rus] 34-3279
Environmental protection problems related to placer mining in the North. Olovin, B.A., [1980, p.50-55, rus] 34-3285
Consequences of the disturbance of natural environments by the construction of linear structures in northern West Siberia. Sukhodol'skii, S.E., [1980, p.67-71, rus] 34-3288
Typical natural environment disturbances in northern West Siberia due to construction of linear structures and forecasts of their development. Moskalenko, N.G., et al, [1980, p.71-78, rus] 34-3289
Modern trends in design, construction and operation of land reclamation systems under Siberian conditions. Abstracts of papers presented at a seminar. [1978, 292p., rus] 34-3353
Structure of land reclamation complexes of the Baykal Amur railroad area and forecasts of their functioning. Naprasnikov, A.T., [1978, p.39-40, rus] 34-3355
Specifics of soil formation and soils in West Siberia near the Yenisey River. Korsunov, V.M., et al, [1978, p.73-75, rus] 34-3356
Large scale mapping of southern taiga vegetation in the Central Ural Mountains. Gorchakovskii, P.L., et al, [1977, p.3-15, rus] 34-3363
Ecologic series technique for revealing regularities governing altitudinal distribution of vegetation. Famelis, T.V., [1977, p.22-27, rus] 34-3364
Physical-geographical conditions of the northern Okhotsk Sea region and the hydrothermal state of the soils ("Snow Valley Station"). Ignatenko, I.V., et al, [1980, p.5-23, eng] 34-3396
Vegetation of the "Snow Valley" station (Explanatory list with a diagram of vegetation). Shatkauskas, A.V., et al, [1980, p.24-35, eng] 34-3397
Properties of soils in the autonomous landscapes of forest tundra and northern taiga of the Lower Yenisey River Uplands. Korsunov, V.M., et al, [1978, p.15-26, rus] 34-3463
Oxidation-reduction conditions and acidity of sod-podsols in the Angara River area after forest fires. Popova, E.P., [1978, p.27-32, rus] 34-3464
Thermal regime of soils in pine forests. Boboleva, E.E., [1978, p.90-98, rus] 34-3465
Dynamics of biological activity in Central Angara soils. Sorokin, N.D., [1978, p.128-139, rus] 34-3466
Lake and its drainage area as a single natural system. Drabkova, V.G., et al, [1979, 194p., rus] 34-3480
Vegetation of the Markovo village area (the Anadyr' River Basin). Kozhevnikov, IU.P., [1978, p.30-52, rus] 34-3486
Vascular plant species ratio in northern taiga and forest tundra of the Central Anadyr River Basin. Kozhevnikov, IU.P., [1980, p.361-367, rus] 34-3555
Lichens in the vegetation of the Elombal Mountains (Chukot Autonomous District). Andreev, M.P., [1980, p.563-570, rus] 34-3556
Forest fires in Yakutia and their influence on forest environments. Shcherbakov, I.P., et al, [1979, 224p., rus] 34-3601
Geography and cartography of pine forests in southern taiga and the broad-leaf area of the European USSR. Gribova, S.A., et al, [1979, p.38-45, rus] 34-3603
Structure of taiga soils in the Tomsk area of Priob'e. Geras'ko, L.I., [1978, p.144-148, rus] 34-3605
Heat and moisture content of taiga lands in the Irtysh River area. Nikitin, S.P., [1978, p.23-33, rus] 34-3609
Ice conditions of rivers in the West Siberian taiga zone. Martynov, B.D., [1978, p.63-74, rus] 34-3610
Biomass of microorganisms in the forest-swamp geosystems of southern taiga in the Irtysh River area. Antonenko, A.M., et al, [1978, p.74-80, rus] 34-3611
Microbiological description of northern taiga bog-podzolic soils. Shamin, A.A., et al, [1979, p.151-156, rus] 34-3639
Soil formation on dust loams in the taiga zone of northeastern European USSR. Rusanova, G.V., et al, [1978, 128p., rus] 34-3753
Forests of the Lake Baykal area (types of forest, microclimatology, characteristics of forest-forming species). Panarin, I.I., [1979, 263p., rus] 34-3759
Thermal regime of rivers in Central and West Siberian plains. Protopopov, V.V., et al, [1979, p.4-24, rus] 34-3769

Taiga *(cont.)*

Forest and hydrological regionalization of Central Siberia. Lebedev, A.V., (1979, p.25-58, rus) 34-3770

Hydrophysical properties of forest litter and its soil-protective role. Krasnoshchekov, IU.N., et al, (1979, p.59-68, rus) 34-3771

Selective felling effect on water-controlling properties of Khamar-Daban pine forests. Biziukin, V.V., (1979, p.69-78, rus) 34-3772

Evaluating soil stability to washout. Kuklin, V.V., et al, (1979, p.79-82, rus) 34-3773

Water regime of plants in the medium altitude belts of Khamar-Daban and West Sayan Mountains. Kozlova, L.N., (1979, p.96-115, rus) 34-3775

Regimes of landscape-geochemical processes in geosystems. Snytko, V.A., ed, (1977, 120p., rus) 34-3812

Taiga

Metabolism of organic matter in south taiga soils of East Siberia. Nechaeva, E.G., et al, (1977, p.9-24, rus) 34-3813

Taiga

Dynamics of soil-geochemical indices in taiga permafrost geosystems. Shchetnikov, A.I., (1977, p.43-58, rus) 34-3814

Dynamics of soil and geochemical indices in central taiga geosystems. Sazonov, A.G., (1977, p.73-84, rus) 34-3816

Effect of developing a territory on the heat balance and the thermal and moisture regime of the ground in the northern part of Western Siberia. Moskalenko, N.G., et al, (1980, p.29-44, eng) 34-3830

Consequences of using new machines in the north taiga pine forests. Obydennikov, V.I., (1979, p.18-21, rus) 34-3859

Effectiveness and quality of taiga reforestation. L'vov, P.N., (1979, p.29-30, rus) 34-3860

Lichen pine forests of the European North. Listov, A.A., (1980, p.22-25, rus) 34-3861

Change from pine to spruce in the northern European USSR. Melekhov, I.S., et al, (1980, p.42-51, rus) 34-3863

Geographic peculiarities of metabolism and energy exchange in pine forests of Karelia and Murmansk region. Zlobchenko, S.S., et al, (1980, p.52-60, rus) 34-3864

Regularities governing microelement content in the soils of the southwestern taiga area (The Ordovician Plateau). Dvornikova, L.L., (1979, p.74-82, rus) 34-3876

Biogeophysical conditions of interactions between solid precipitation and conifer forest canopy. Kaliuzhnyi, I.L., et al, (1979, p.82-90, rus) 34-3877

Forests in the Vychegda river floodplain, their distribution and dynamics. Moiseev, B.N., et al, (1980, p.12-20, rus) 34-3879

Biomass volume and structure in larch forests of the northern Okhotsk Sea region. Moskaliuk, T.A., (1980, p.32-39, rus) 34-3880

Organic substances of soddy-podsolic soils with a second humus zone in the Smolensk area. Tereshenkova, I.A., et al, (1979, p.90-96, rus) 34-3881

Role of the thermal factor in the formation of bogs in the Amur Region. Kholoden, E.E., (1978, p.6-10, eng) 34-3960

Management of forest resources. Timofeev, N.V., (1979, 144p., rus) 34-4011

Formation and development of swamp systems. Kiriushkin, V.N., (1980, 88p., rus) 34-4014

Vegetational resources of Transbaikal, their preservation and use. Bolkov, T.G., ed, (1979, 97p., rus) 34-4091

Seasonal dynamics of green biomass of the grass-shrub zone of typical plant communities on the northern slope of the Khamar-Daban Range. Vasil'chenko, Z.A., (1979, p.46-51, rus) 34-4092

Ecologic fundamentals of forestry in the Lake Baykal Basin. Polikarpov, N.P., et al, (1979, p.52-57, rus) 34-4093

Forest fire protection in the northern Buryat ASSR. Evdokimenko, M.D., (1979, p.58-63, rus) 34-4094

Regional geomorphology of newly developed areas. Kibal'chich, O.A., et al, (1979, 120p., rus) 34-4101

Environmental protection in Yakutia. Andreev, V.N., ed, (1979, 181p., rus) 34-4106

Botanical objects of environmental protection near the lower Lena River. Trufanova, E.R., (1979, p.20-23, rus) 34-4108

Reaction of different landscapes to heat producing phenomena in the Oymyakon region. Amuzinskaia, T.P., (1979, p.55-56, rus) 34-4112

Mosses as accumulators of radionuclides. Molchanova, I.V., et al, (1980, p.42-47, rus) 34-4146

How permanent is permafrost. Shvetsov, P.F., (1979, p.16-25, rus) 34-4147

Problems in rational utilization of natural resources and environmental control in North Siberia. Cherskii, N.V., ed, (1979, 158p., rus) 34-4164

Siberian forests and their rational development. Isaev, A.S., et al, (1979, p.46-59, rus) 34-4169

Geological aspects of use and protection of environments in northern West Siberia related to the development of oil and gas deposits. Sergeev, E.M., et al, (1979, p.95-103, rus) 34-4171

Symposium on biological problems of the North, 8th, Apatity, 1979. Abstracts of the papers. (1979, 177p., rus) 34-4213

Landscape gardening in towns and villages of oil producing areas in the Central Lena River region. Shilova, I.I., (1979, p.128-129, rus) 34-4236

Ecologic and geographic regularities governing reproduction cycles of pine and fir in the North. Basov, V.A., (1979, p.133-134, rus) 34-4237

Effectiveness of draining north taiga lands in Komi ASSR. Gortinskii, G.B., et al, (1979, p.137, rus) 34-4238

Metabolism of north taiga fir growing on drained and fertilized peat soil. Konovalov, V.N., (1979, p.147, rus) 34-4239

Tailings

Systems approach to studying soil formation processes in landscapes affected by industrial activities. Trofimov, S.S., et al, (1979, p.3-19, rus) 34-3947

Parcellar structure of phytocenoses and the inhomogeneity of young soils in industrially disturbed landscapes. Taranov, S.A., et al, (1979, p.19-57, rus) 34-3948

Young soils formed in placer tailings in the southern taiga of the Central Urals. Nakariakov, A.V., et al, (1979, p.58-106, rus) 34-3949

Productivity of soils in meadow biogeocenoses of recultivated dredging areas in the Central Urals. Nakariakov, A.V., et al, (1979, p.106-123, rus) 34-3950

Initial soil formation processes developing on rock tailings of the Lipovskoe nickel mine. Makhonina, G.I., (1979, p.123-140, rus) 34-3951

Natural revegetation of the Tom' River flood-plain soils disturbed by industrial activities. Taranov, S.A., et al, (1979, p.156-163, rus) 34-3952

Early diagenesis and growth of wild and semi-cultivated plants on tailings of the Kuzbass coal mines. Kondrashin, E.R., (1979, p.163-172, rus) 34-3953

Reforestation of coal mine tailings in the southern Kuzbass. Baranuik, L.P., et al, (1979, p.172-179, rus) 34-3954

Oxidizing activity of microorganisms in recultivated tailings of the Baydaevskiy coal mine (Kuzbass). Kulebakin, V.G., (1979, p.179-185, rus) 34-3955

Aerial reconnaissance of landscapes affected by industrial activities. Solntseva, N.P., et al, (1979, p.258-278, rus) 34-3956

Forecasting sliding of frozen rock tailings on rocky slopes. Bondarenko, G.I., (1979, p.122-128, rus) 34-1546

Geomorphological processes developing on artificial structures in the nivation-glaciation zone of the Khibiny Mountains. Semekhin, IU.V., et al, (1979, p.192-195, rus) 34-2204

Recommendations for the design and construction of tailings dumps under severe climatic conditions. (1977, 152p., rus) 34-3196

Proceedings of the All-Union symposium on the rheology of soils, 2nd, Tsakhkadzor, Oct. 7-10, 1975. (1976, 406p., rus) 34-3203

Forecasting collapse of frozen rock slopes. Vialov, S.S., et al, (1976, p.143-151, rus) 34-3206

Determining stability of tailings dump embankments. Zaslavskii, S.V., (1978, p.76-77, rus) 34-3357

Environmental protection in Yakutia. Andreev, V.N., ed, (1979, 181p., rus) 34-4106

Natural overgrowth of earth dumps along irrigation channels in Central Yakutia. Nakhabtseva, S.F., (1979, p.51-54, rus) 34-4111

Construction and operation of hydraulic structures in West Yakutia. Mel'nikov, P.I., ed, (1979, 88p., rus) 34-4149

Design and operation of tailing ponds. Maul', V.K., (1979, p.62-65, rus) 34-4156

Talliks

Hydrogeological problems of the Baykal Amur railroad. Pinneker, E.V., et al, (1977, p.66-70, rus) 34-995

Hydrothermal variations in permafrost landscapes. Anisimova, N.P., (1979, p.148-152, rus) 34-1521

Regularities governing natural phenomena and their forecasting. Agarkov, S.I., ed, (1980, 271p. (Pertinent p.87-162), rus) 34-2529

Space methods of studying valleys and naleds in the Chul'man region. Topchiev, A.G., (1979, p.169-175, rus) 34-2758

Geocryologic and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, (1978, 187p., rus) 34-2915

Lacustrine deposits on the trap plateau of West Yakutia. Spesivtsev, V.I., (1978, p.37-42, rus) 34-2919

Regime, balance and peculiarities of talik alimentation in Central Yakutian sandstone. Shepelev, V.V., (1978, p.145-162, rus) 34-2932

Evaluating chemical runoff of some continuous water springs in Central Yakutia. Piguzova, V.M., et al, (1978, p.163-169, rus) 34-2933

Formation of chemical composition of ground water in the lengra River Basin (Baykal Amur railroad route). Boltsov, A.V., (1978, p.169-176, rus) 34-2934

Long term dynamics of groundwater icings. Romanovskii, N.N., et al, (1980, p.195-207, eng) 34-3841

Fluid-bearing thermopiles in foundation construction in the North. Makarov, V.I., et al, (1980, p.26-40, rus) 34-4037

Hot mineral waters in the Baykal Amur railroad area and possibilities of their effective utilization. Volkova, V.P., et al, (1980, p.154-163, rus) 34-4132

Talus

Contemporary sedimentary environments on Baffin Island, N.W.T., Canada: debris slope accumulations. Church, M., et al, (1979, p 371-402, eng) 34-1383

Observing rock stream movement rates on the Chul'man Plateau. Ospennikov, E.N., (1979, p.129-133, rus) 34-1920

Afforestation of stony slopes of the Gissar Range. Khvorov, N.A., et al, (1979, p.55-57, rus) 34-2111

Slope denudation in the bald peak zone of western Sayan. Rashba, I.N., (1978, p.69-87, rus) 34-2296

Nature and importance of mass-wasting by rock glaciers in alpine permafrost environments. Barsch, D., (1977, p.231-245, eng) 34-3260

Cryogenic relief of bald peaks in Pribaykal'e and Northern Transbaykal. Vyrkin, V.B., (1977, p.138-163, rus) 34-3607

Formation and development of bald-peak ice in the mountains of Central Tien Shan, Siberia and the Far East. Tarakanov, A.G., (1980, p.96-107, rus) 34-4009

Tanker ships

Economic analysis of an Arctic icebreaking tanker transportation system: nuclear vs. fossil. Porter, T.J., (1977, 102p., eng) 34-725

Arctic terminal for icebreaking tankers: conceptual design. Lewis, A.E., (1979, 6p. + figs., eng) 34-1567

Arctic terminal for icebreaking tankers study: conceptual design, final report. Lewis, A.E., (1979, 245p., eng) 34-1576

Icebergs and oil tankers soon to mix. Hartline, B.K., (1980, p.381, eng) 34-3720

Preliminary feasibility study of a tanker transportation system serving the northwest coast of Alaska. Final report. Halebsky, M., et al, (1980, 3 vols., eng) 34-3947

Tanks (containers)

Evaluating the exploitational reliability of tanks at low temperatures. Bondarovich, L.A., et al, (1979, p 19-21, rus) 34-336

Performance of seepage tanks with trapezoidal cross sections and impervious slopes. Bogoliubov, K.S., et al, (1974, p.23-28, rus) 34-752

Calculating settlement of oil tanks on inhomogeneous bases. Mangushev, R.A., (1980, p.13-15, rus) 34-2595

See also Storage tanks

Tectonics

Marine seismic refraction data between Wainwright Inlet and Prudhoe Bay, Alaska. Bee, M., et al, (1979, 120p., eng) 34-2486

Role of tectonics in the formation of permafrost on low plains. Baulin, V.V., et al, (1980, p.209-223, eng) 34-3842

Telecommunication

Control of snow and ice on road and communication facilities in the Himalayas. Malik, S.C.L., et al, (1979, p.129-134, eng) 34-72

Drilling operations guide. (1973, c195p., eng) 34-568

Information for motorists on road conditions. Eyrolles, M., (1979, p.60-62, fre) 34-1248

Telemetering equipment

Landfast ice movement—Mackenzie delta 1973-74. Spedding, L.G., (1975, 127p. + figs., eng) 34-297

Landfast ice movement—Mackenzie Delta 1972-73. Spedding, L.G., (1973, 122p. + figs., eng) 34-480

Landfast ice movement—Mackenzie Delta 1972. Crossdale, K.R., et al, (1972, 104p., eng) 34-576

Application of meteor burst telemetry to snow hydrology. Burroughs, H.F., et al, (1979, p.27-37, eng) 34-1053

Air- and spaceborne remote sensing in hydrogeology and engineering geology. Sadov, A.V., et al, (1979, 223p., rus) 34-1225

Fundamentals of remote sensing methods of measuring water equivalent of snow and soil moisture content from terrestrial gamma radiation. Dmitriev, A.V., et al, (1979, 304p., rus) 34-2687

Telemeasurement of ice cover parameters. (1977, 154p., rus) 34-3301

Automatically controlled ice information system for the Arctic (ALISA). Bushuev, A.V., et al, (1977, p.6-16, rus) 34-3302

Data units for telemetering physical and mechanical properties of snow cover on slopes. Bagov, M.M., et al, (1980, p.67-74, rus) 34-3420

Problems in designing telemetering equipment for complex soil and climatic conditions in West Siberia. Tsibul'skii, V.R., (1980, p.81-84, rus) 34-4148

Temperature

See: Air temperature; Degree days; Frozen ground temperature; Frozen rock temperature; Ice temperature; Low temperature research; Rock temperature; Snow surface temperature; Snow temperature; Soil temperature; Surface temperature; Water temperature

Temperature control

System for accurate temperature control of small fluid baths. Morgan, V.I., (1979, p.389-391, eng) 34-882

Controlling thermal regime of wells when using drilling fluids in permafrost. IAkovlev, A.M., (1973, p.23-24, rus) 34-1955

Winter concreting Canadian practice Turenne, R.G., et al, [1980, 13p. + 9p. figs., eng] 34-2645
Stability of underground workings in permafrost. El'chaninov, E.A., et al, [1980, p.321-337, eng] 34-3255

Temperature distribution
Temperature profiles in boreholes at the edge of the Greenland ice sheet. Stauffer, B., et al, [1979, p.301-313, ger] 34-1330
Annual temperature in snow cover on the Upper Sonnblick (3100 m). Mahringer, W., [1973, p.31-40, ger] 34-1669
Heating of moist bodies Srivastava, K.K., et al, [1979, p.439-445, eng] 34-2345
Heating of solid of simple geometry when the surrounding temperature is a harmonic function of time. Srivastava, K.K., et al, [1979, p.459-466, eng] 34-2347
Cryopedometer (design and application). Tishin, M.I., [1979, p.31-33, rus] 34-3469
Calculating temperature field of block-by-block upbuilt concrete structures using Laplace numerical conversion technique. Zubkov, V.I., [1980, p.92-97, rus] 34-4140

Temperature effects
Morphological characteristics of ice grown from an impure melt. Timco, G.W., [1978, 25p. + 26 figs., eng] 34-7
Adhesive strength of contaminated ice Yano, K., [1979, p.30-34, eng] 34-55
Electrical properties of ice-solid interfaces. Camp, P.R., et al, [1979, p.35-43, eng] 34-56
Laboratory experiments on icing of rotating blades. Ackley, S.F., et al, [1979, p.85-92, eng] 34-65
Compression tests on fresh water ice. Nuttall, J.B., et al, [1972, 47p., eng] 34-515
Temperature responses of germination of Arctic poppy (Papaver radicatum Rottb.) seeds. Olson, A.R., et al, [1979, p.343-348, eng] 34-1287
Evaluation of waste disposal practices in Alaskan villages. Alter, A.J., [1974, p.1-28, eng] 34-1466
Sewage treatment methods in Finland. Viitasaari, M., [1974, p.29-44, eng] 34-1467
Effects of water temperature and elevation on aeration. Hunter, J.S., et al, [1974, p.125-169, eng] 34-1472
Steady state ice layer profile on a temperature plate in a forced convection flow. Hirata, T., et al, [1979, p.1425-1443, eng] 34-1846
Part 1. The effect of temperature and partial melting on velocity and attenuation in a simple binary system. Part. 2. Effect of temperature and pressure on elastic properties of polycrystalline and single crystal MgO. Spetzler, H.A.W., [1970, 258p., eng] 34-2133
Effect of specimen temperature on the breaking point for splitting off in AMG-6 aluminum alloy. Bat'kov, IU.V., et al, [1979, p.265-268, eng] 34-2379
Studies of silver iodide ice-forming activity: verification of theory. Gorbunov, B.Z., et al, [1980, p.71-77, eng] 34-2501
Icicle formation in tunnels under train running. Shinojima, K., [1973, p.121-122, eng] 34-2663
Effect of crystal size and dispersed-solid inclusions on the activation energy for creep of ice. Baker, R.W., et al, [1979, p.179-194, eng] 34-2826
High pressure apparatus for PVT measurements of liquids and plastic crystals at low temperature. Landau, R., et al, [1980, p.533-535, eng] 34-3408
Mechanism of formation of visible-absorbing excess electrons in crystalline ice near 273K. Gillis, H.A., et al, [1980, p.1248-1252, eng] 34-3650
Absolute rate constant of the reaction OH + H202 to HO2 + H2O from 245 to 423K. Keyser, L.F., [1980, p.1659-1663, eng] 34-3651
Mean 700 mb circulation patterns associated with the snowiest and least snowy winter months over the eastern United States. Wagner, A.J., [1979, p.75-94, eng] 34-4207

Temperature variations
Linköping test field 1976. Investigation of the occurrence and frequency of icing on various roadbases. 2. Investigation of icing February to April, 1977. Gustafson, K., [1977, c.110 leaves, swe] 34-43
Thermal alteration of groundwater caused by seepage from a cooling lake. Andrews, C.B., et al, [1979, p.595-602, eng] 34-271
Effect of temperature variations on the length of a glacier tongue. Gamper, M., et al, [1978, p.183-189, ger] 34-1496
Further icing experiments on an unheated non-rotating cylinder. Stallabrass, J.R., et al, [1979, 57 leaves, eng] 34-1506
Topoclimatological and snow hydrological survey of Switzerland. Winniger, M., [1979, 6p., eng] 34-2509
Cracks, movements and joints in buildings: record of the DBR Building Science Seminar, Autumn 1972. [1976, c125 leaves, eng] 34-2603
Investigations on snow parameters by radiometry in the 3- to 60-mm wavelength region. Hofer, R., et al, [1980, p.453-460, eng] 34-4018

Tensile properties
Studies on tensile strength of wet snow. Wakahama, G., et al, [1979, p.18-22, eng] 34-53
Adhesion of ice to concrete surfaces—preliminary results. Ashworth, T., et al, [1979, p.23-29, eng] 34-54
Low temperature effects on the abrasion behaviour of coated fabrics. Tennyson, R.C., et al, [1977, p.44-59, eng] 34-206
Reinforced ice matrix. Hill, W.L., [1977, 4 col., eng] 34-264
In-situ estimates of the tensile strength of snow utilizing large sample sizes. McClung, D.M., [1979, p.321-329, eng] 34-546
Beaufort Sea ice sampling project, 1970. Croasdale, K.R., [1970, c.145p., eng] 34-594
Effect of specimen temperature on the breaking point for splitting off in AMG-6 aluminum alloy. Bat'kov, IU.V., et al, [1979, p.265-268, eng] 34-2379
Mechanical properties of impure ice single crystals at high temperatures. Nakamura, T., [1979, p.293-324, jap] 34-2542
Physical and thermal properties of frozen soil and ice. Wolfe, L.H., et al, [1964, p.67-72, eng] 34-2602
Arctic test results, Phase 1, Task D. [1975, c500p., eng] 34-3102
Ice thickness-tensile stress relationship for load-bearing ice. Johnson, P.R., [1980, 11p., eng] 34-3530
Experimental studies on snow accretion at subzero temperatures. Mizuno, Y., et al, [1979, p.17-32, jap] 34-3488
Critical survey of the application of borehole logging techniques to the study of sea ice. Laidley, T.E., [1980, 45p., eng] 34-4160
On the strength of sea ice and a correlation between the various strength tests. Lane, J.F., [1979, 29p. + 9 figs., eng] 34-4194

Tension
See: Interfacial tension

Terminology
Problems in studying glaciological terminology. Kotlikov, V.M., [1979, p.179-184, rus] 34-2202
Problems in glaciological terminology and ways of systematization. Smoliarova, N.A., [1979, p.184-191, rus] 34-2203
Varied and unpredictable faces of Arctic ice. [1977, p.8-10, eng] 34-3014
Structure of the northern circumpolar permafrost region. Baranov, I.IA., [1980, p.327-345, eng] 34-3849
Nomenclature applied to ice cores: a geological viewpoint. Andrews, J.T., [1980, p.87-89, eng] 34-4029

Terraces
Chonkemin Valley terraces and the glaciation of northern Tien Shan Bylinskaia, L.N., [1979, p.137-143, rus] 34-1073

Terrain identification
Numerical approach to terrain analysis for off-road trafficability. Schreier, H., et al, [1979, p.635-642, eng] 34-273
Evaluation of LANDSAT data for geographical applications: a survey of an Arctic/Subarctic mountain area, Varanger Peninsula, northern Norway Helldén, U., et al, [1979, p.57-70, eng] 34-657
Model for space radar clutter Tomlinson, P.G., [1979, 107p., eng] 34-1350
Terrain evaluation of a portion of the Fort Greely automotive test course. Shamburger, J.H., [1966, 33p. + 29 photos and plates, eng] 34-1562
Statistical analysis of terrain and water (ice) backgrounds in a winter scene from northern Michigan LaRocca, A.J., [1979, 302p., eng] 34-2279
Periglacial features from Morfee Mountain, North-Central British Columbia. Revel, R.D., [1980, p.349-356, eng] 34-3871

See also: Geobotanical interpretation

Test chambers
Chemical survey to determine potential dopants for a model ice test basin. Timco, G.W., [1979, 22p., eng] 34-3718

See also: Cloud chambers; Cold chambers

Test equipment
Nutcracker ice strength tests, 1970-71. Croasdale, K.R., [1971, c190p., eng] 34-569
Nutcracker ice strength tests Croasdale, K.R., [1970, c.260p., eng] 34-593
Installation for the measurement of the shear stress of solids at low temperatures and high pressures. Zharov, A.A., et al, [1979, p.266-267, eng] 34-983
Pressure meter for testing soft soils. Lushnikov, V.V., et al, [1980, p.262-263, eng] 34-3370

Tests
Proposal to evaluate an oil containment boom for use in ice-infested waters. [1975, 16p. + append., eng] 34-485
Helicopter icing handling qualities. Griffith, W.E., II, et al, [1974, 9p., eng] 34-734
Importance of full scale testing in ice for designing icebreaking ships. Mäkinen, E., [1977, p.7-16, eng] 34-1934

See also: Bearing tests; Cold weather tests; Environmental tests; Freeze thaw tests; High pressure tests; Low temperature tests; Mechanical tests; Penetration tests; Pile load tests; Plasticity tests; Soil tests; Strain tests; Ultrasonic tests

Thaw consolidation
Overconsolidated sediments in the Beaufort Sea Chamberlain, E., [1978, p.24-29, eng] 34-873

Thaw depth
Growth of tundra vegetation in relation to Arctic microenvironments at Barrow, Alaska. Dennis, J.G., [1969, 305p., eng] 34-2042
Engineering-economic determination of optimum depth of preconstruction thawing of permafrost soils under buildings. Khrustalev, L.N., [1980, p.332-337, eng] 34-3936
Evaluating the depth of seasonal thawing for operating electric power transmission lines. Spesivtsev, V.I., et al, [1980, p.3-10, rus] 34-4034

Thaw layer
See: Active layer

Thawing
Pile foundations in permafrost. Targulian, IU.O., [1978, 158p., rus] 34-3022

See also: Artificial thawing; Geothermal thawing; Ground thawing; Melting

Thawing rate
Generalizing morphometric characteristics of glaciation in separate drainage basins. Konovalov, V.G., [1979, p.68-77, rus] 34-2884

Thematic maps
Mapping the use of restockable natural resources for geographic forecasting. Vorob'eva, T.A., et al, [1978, p.132-139, rus] 34-2537

Theories
Concepts and variables in the thermal stability theory of building walls. Nasedkin, V.V., [1979, p.101-106, rus] 34-807
Steady in-plane deformation of noncoaxial plastic soil. Takagi, S., [1979, p.1049-1072, eng] 34-860
Versions of the fraction step method for solving two-dimensional heat conductivity problems. Khrapkov, A.A., et al, [1979, p.47-55, rus] 34-1524
Summary of theoretical results of glaciological investigations in the Altais. Tronov, M.V., [1967, p.3-15, rus] 34-1988
Theoretical model of glacial abrasion. Hallet, B., [1979, p.39-50, eng] 34-2221
Unsolved general glacier sliding problem. Weertman, J., [1979, p.97-115, eng] 34-2225
Mathematical approach to the theory of glacier sliding. Fowler, A.C., [1979, p.131-141, eng] 34-2227
Problems of mountain glaciology. [1977, 212p., rus] 34-3379

Theories *(cont.)*

Glacio-climatology as a connecting scientific discipline, its problems and goals. Tronov, M.V., [1977, p.3-11, rus] **34-3380**

Present state of airborne gamma surveys of snow cover and soil moisture. Nikiforov, M.V., [1980, p.6-27, rus] **34-3543**

See also: Analysis (mathematics), Ice age theory

Thermal analysis

Quantitative analysis of the relation between the main thermophysical characteristics of frozen soils. Konovalov, A.A., [1979, p.23-37, rus] **34-980**

Interaction of permafrost and structures. Vialov, S.S., [1979, p.117-136, eng] **34-1683**

Use of the water resources of Lake Baykal and of the Angara River and an estimate of the change in their quality and elements of the hydrologic regime. Ivanov, N.I., [1977, p.307-309, eng] **34-3020**

Interaction between permafrost and buildings. Vialov, S.S., [1980, p.379-406, eng] **34-3258**

Thermal balance

See: Glacier heat balance; Heat balance

Thermal conductivity

Heat conductivity of frozen water solutions of gases. Groisman, A.G., et al, [1975, p.103-107, rus] **34-228**

Formation of ice ripples on the underside of river ice covers. Ashton, G.D., [1971, 157p., eng] **34-600**

Roof response to icing conditions. Lane, J.W., et al, [1979, 40p., eng] **34-625**

Concepts and variables in the thermal stability theory of building walls. Nasedkin, V.V., [1979, p.101-106, rus] **34-807**

Using a programmable calculator to determine thermal conductivity of mineral soils. Nidowicz, B., [1978, p.9-14, eng] **34-866**

Calculation of the temperature regime of earth dams by the finite-element method. Kronik, IA.A., et al, [1979, p.145-152, eng] **34-1393**

Thermal conductivity of natural and disturbed soils in northwestern Siberia. Mandarov, A.A., et al, [1979, p.153-157, rus] **34-1522**

Versions of the fraction step method for solving two-dimensional heat conductivity problems. Khrapkov, A.A., et al, [1979, p.47-55, rus] **34-1524**

Unconfined compression test of frozen sandy soil. Hirobe, R., et al, [1979, p.167-173, jap] **34-1741**

Thermal properties of selected evacuated powder insulations at cryogenic temperatures. Knight, B.L., [1969, 322p., eng] **34-2069**

Hydraulic conductivity in frozen soils. Burt, T.P., et al, [1976, p.349-360, eng] **34-2113**

Experimental and numerical simulation of the thermal behavior of a road structure subjected to a freeze-thaw cycle. Cantard, L., et al, [1979, p.329-342, fre] **34-2336**

Thermal conductivity of soils and rocks. Johansen, Ö., [1979, p.407-420, eng] **34-2343**

Heating of solid of simple geometry when the surrounding temperature is a harmonic function of time. Srivastava, K.K., et al, [1979, p.459-466, eng] **34-2347**

Numerical sumulation of a horizontal porous layer heated from below. Caltagirone, J.P., [1979, p.467-479, fre] **34-2348**

Measurement of thermal conduction within a large fresh water ice block being towed in sea water. Clifford, W., et al, [1980, p.265-272, eng] **34-2448**

Experimental studies on regelation. Tozuka, S., et al, [1979, p.1-15, jap] **34-3487**

Thermohydrodynamic model of an ice sheet. Verbitskil, M.IA., et al, [1980, p.61-67, eng] **34-3798**

Influence of the diffusion of vapor and heat on the morphology of ice crystals grown from the vapor. Gonda, T., [1980, p.173-181, eng] **34-4083**

Thermal conductivity of frozen and thawed sands, depending on density and moisture content. Ananian, A.A., et al, [1980, p.195-200, rus] **34-4135**

Thermal diffusion

Ice nucleation by aerosol particles: experimental studies using a wedge shaped ice thermal diffusion chamber. Schaller, R.C., et al, [1979, p.1788-1802, eng] **34-1382**

Suppression of river ice by thermal effluents. Ashton, G.D., [1979, 23p., eng] **34-2283**

Icicles as crystallization phenomena. Knight, C.A., [1980, p.193-198, eng] **34-4003**

Influence of the diffusion of vapor and heat on the morphology of ice crystals grown from the vapor. Gonda, T., [1980, p.173-181, eng] **34-4083**

Thermal drills

Thermoelectric drill for firn. Schiegg, H.O., et al, [1978, p.125-131, ger] **34-669**

Flame drilling through the Ross Ice Shelf. Browning, J.A., [1978, p.4-8, eng] **34-865**

Scientific problems in the construction of northern gas lines. Ivantsov, O.M., [1979, p.10-15, rus] **34-1179**

Gasoline thermodrill for boreholes. Mezhenin, IU.M., [1979, p.7-8, rus] **34-1186**

Thermal rock drill for permafrost. Goldaev, I.P., et al, [1973, 4 col., rus] **34-1215**

Thermal drill for making large holes in sea ice. Francois, R.E., et al, [1975, p.303-310, eng] **34-1230**

Results of temperature measurements in Vostok boreholes. Vostretsov, R.N., et al, [1979, p.25-31, rus] **34-1825**

Determining horizontal ice flow gradients in the Vostok Station area down to 800 m. Dmitriev, D.N., et al, [1979, p.32-34, rus] **34-1826**

Rock thermophysics. Summaries of reports [1973, 75p., rus] **34-1952**

Research on deep thermal drilling of Antarctic ice. Kudriashov, B.B., et al, [1973, p.35-36, rus] **34-1958**

Analysis of heat and mass exchange during thermal drilling. Kudriashov, B.B., et al, [1979, p.106-112, rus] **34-2217**

Fundamentals of electrothermomechanical destruction of frozen rocks. Nekrasov, L.B., [1979, 230p., rus] **34-2869**

1979 Greenland Ice Sheet Program. Phase 1: casing operation. Rand, J.H., [1980, 18p., eng] **34-3485**

Drilling of the Antarctic Ice Sheet in the Novolazarevskaya Station area. Morev, V.A., et al, [1979, p.198-200, rus] **34-3714**

Thermal effects

Stress-strain relationships. Hutcheon, N.B., [1976, 10p., eng] **34-154**

Dimensional changes due to temperature. Latta, J.K., [1976, 12p., eng] **34-155**

Recognition of joints in the system. Baker, M.C., [1976, 9p., eng] **34-162**

Joint movement and sealant selection. Handegord, G.O., et al, [1976, 4p., eng] **34-164**

Earth excavator including apparatus for stabilizing performance by compensating for changes in temperature. Griffis, D.L., [1977, 18 col., eng] **34-267**

Viscosity of the ice surface layer. Mantovani, S., et al, [1980, p.1077-1083, eng] **34-2389**

Meteorological sounding of the underlying surface from space. Kondrat'ev, K.IA., ed, [1979, 246p., rus] **34-2475**

Design of concrete structures for thermal effects. Pajuhesh, J., [1980, p.74-77, eng] **34-3265**

See also: Temperature effects

Thermal expansion

Measurement of the intrinsic thermal expansion of irradiation defects in aluminum at low temperature. Ganne, J.P., et al, [1979, p.634-636, eng] **34-272**

Thermal expansion anomaly of ice VI related to the order-disorder transition. Mishima, O., et al, [1979, p.2037-2038, eng] **34-372**

Thermal imagery

See: Infrared photography

Thermal insulation

Linköping test field 1976. Investigations of the occurrence and frequency of icing on various roadbases. 1. Test field construction. Gustafson, K., [1977, 12p. + 21 figs., swe] **34-42**

Linköping test field 1976. Investigation of the occurrence and frequency of icing on various roadbases. 2. Investigation of icing February to April, 1977. Gustafson, K., [1977, c.110 leaves, swe] **34-43**

Insulated pipe structure. Hoeman, T.E., et al, [1977, 8 col., eng] **34-149**

Small buildings of metallic folding sections. Nevenchenko, I.M., et al, [1972, p.22-32, rus] **34-175**

Modular apartment buildings with "packet" type cells. Lazhintsev, V.I., [1972, p.33-42, rus] **34-176**

Experimental study of the "packet" type apartment cells. Lazhintsev, V.I., et al, [1972, p.43-53, rus] **34-177**

Sectional buildings with bearing panels made of effective materials. Lazhintsev, V.I., et al, [1972, p.54-63, rus] **34-178**

Methods of technical and economic evaluation of modular buildings and structures. Pal'tsevich, L.P., [1972, p.64-73, rus] **34-179**

Technical and economic analysis of different construction materials in modular buildings. Kuzina, Z.G., et al, [1972, p.92-97, rus] **34-182**

Economic effectiveness of using high thermal insulation windows in residential buildings of the North. Kuzema, I.G., et al, [1972, p.153-165, rus] **34-188**

Wall panels with polyurethane foam thermal insulation used in power plant construction. Danenkov, V.D., et al, [1979, p.33-34, rus] **34-196**

Testing plastic thermoinsulative covers in placer mines. Sherstov, V.A., et al, [1975, p.17-21, rus] **34-216**

Microclimates of 9-story residential buildings in Noril'sk. Vas'kovskil, A.P., et al, [1979, p.12-13, rus] **34-242**

Building roof insulation. Bellem, N.A., [1977, 8 col., eng] **34-265**

Thermally insulated and connected window frame members and the method of making the same. Hetman, F.W., [1978, 4 col., eng] **34-278**

Method and structural support for increasing load carrying capacity in permafrost. Long, E.L., [1978, 8 col., eng] **34-279**

Apparatus for protecting a water faucet or the like from freezing temperatures. Carlson, C.D., [1978, 6 col., eng] **34-285**

Moisture-proof thermal insulation for ductless heat pipes. Skvortsov, A.A., [1979, p.21-24, rus] **34-327**

Slag concrete for building walls exposed to corrosive media. Bulgakova, M.G., et al, [1977, p.27-33, rus] **34-348**

Recommendations for using lightweight concrete in the construction of large panel residential buildings. [1976, 71p., rus] **34-401**

Structure of boiler room foundations built on permafrost. Kabanov, E.P., et al, [1976, p.140-144, rus] **34-715**

Insulating and load-supporting properties of sulfur foam for expedient roads in cold regions. Smith, N., et al, [1979, 21p., eng] **34-742**

Road insulation with polystyrene foam. Gandahl, R., [1979, 32p., eng] **34-782**

Reconstruction of the Dnepropetrovsk-Novomoskovsk highway. Grishchenko, N.I., et al, [1979, p.15-16, rus] **34-837**

Pressure pipelines for water supply of railroads. Dikarevskil, V.S., et al, [1978, 278p. (Pertinent p. 198-231), rus] **34-849**

Polystyrene insulation for concrete canal lining. Jones, C.W., et al, [1978, 30p., eng] **34-1172**

Freezing of above-ground low-temperature gas pipelines. Dvoiris, A.D., et al, [1979, p.28-29, rus] **34-1182**

Discussion on methods of concreting in the North. Ostryl, V.M., [1979, p.34, rus] **34-1184**

Constructional thermal insulating blanket. Tsimermanis, L.B., et al, [1976, 2 col., rus] **34-1218**

Artificial freezing of ground in underground construction. Trupak, N.G., [1979, 344p., rus] **34-1226**

Properties of expanded polystyrene concrete and applications for pavement subbases. Hanna, A.N., [1978, 16p., eng] **34-1260**

Traffic tests of expedient airfield construction concepts for possible application in the National Petroleum Reserve, Alaska. Burns, C.D., [1979, 138p., eng] **34-1361**

Combined design technique in large panel construction. IAkushev, A.A., et al, [1979, p.7-8, rus] **34-1431**

Increasing the effectiveness of freezing foams used in thermal melioration of soils. Safonov, V.F., et al, [1979, p.118-123, rus] **34-1518**

Pipeline transport. IUfin, V.A., ed, [1976, 123p. (Pertinent p.30-60), rus] **34-1641**

Implementing progressive methods of structural design. Barskil, B.L., et al, [1979, p.13-14, rus] **34-1708**

Performance and construction properties of glass-phenol-formaldehyde plastic SF1. Stefurak, B.I., et al, [1979, p.14-15, rus] **34-1709**

Thermal regime of elevated pipelines. Gubanov, B.A., et al, [1979, p.24, rus] **34-1711**

Thermal stresses in trapezoidal layered panels with corrugated facing. Chaplinskil, I.A., et al, [1979, p.39-45, rus] **34-1719**

Installation of large thermal insulation structures. Khashev, V.M., et al, [1979, p.18-19, rus] **34-1750**

Thermal insulation for light-weight roofs. Merkin, A.P., et al, [1979, p.12-16, rus] **34-1753**

Thermal insulation of roads with moderate traffic. Dysli, M., [1979, p.399-406, fre] **34-1907**

Thermal properties of selected evacuated powder insulations at cryogenic temperatures. Knight, B.L., [1969, 322p., eng] **34-2069**

Practical trials of insulants made from plastics for frost-protection in road and railroad construction: comparison of theory and practice. Apostolopoulos, C., et al, [1979, p.421-437, eng] **34-2344**

Heat and moisture transfer in experimental wall panels with the (FSP) phenol-formaldehyde plastic thermal insulation. Alumiae, A.E., [1979, p.30-39, rus] **34-2382**

STYROPOR-concrete as frost protection and load-bearing layer in road construction. Hohwiller, F., [1972, p.499-508, ger] **34-2397**

Frost action problem—an overview of research to provide solutions. DiMillio, A.F., et al, [1980, p.149-158, eng] **34-2558**

Lightweight enclosures for use in the Urals and Siberia. Pavlov, V.P., et al, [1979, p.2-5, rus] **34-2589**

Polystyrene concrete, an effective thermal insulation material for industrial buildings and block-component construction. Stefurak, B.I., et al, [1980, p.5-6, rus] **34-2593**

Experimental pipeline section with prefabricated insulation. Zinevich, A.M., et al, [1980, p.21-22, rus] **34-2598**

Thermal waves in roadbeds. Shestakov, V.N., et al, [1979, p.105-111, rus] **34-2622**

Test of ice prevention in very cold zone. Okada, K., [1977, p.135, eng] **34-2657**

Building design for construction in the North. Vas'kovskil, A.P., et al, [1979, 135p., rus] **34-2685**

Thermal insulation of external walls of buildings. Zheleznyl, V.I., [1979, p.4, rus] **34-2703**

Alaska foundation hot-wired to prevent frost movement. [1980, p.20, eng] **34-2789**

Energy conservation design guidelines: including mass and insulation in building walls. Dexter, M.E., [1980, p.35-38, eng] **34-2790**

Reducing heat loss through window retrofitting. Hager, N.E., Jr., et al, [1980, p.55-57, eng] **34-2791**

Construction in the Arctic and the Far North. [1970, 95p., rus] **34-2867**

Catalog of temperature fields of standard enclosure joints. Part 1, Residential buildings. Design manual. Ivashkova, V.K., et al, [1980, 111p., rus] **34-2937**

AGT guideway and station technology. Vol.8. Weather protection concepts. Stevens, R.D., et al, [1979, 237p., eng] **34-2964**

Internally insulated liquid natural gas pipeline for Arctic gas recovery. Walker, G., et al, [1977, p.1-7, eng] **34-2991**

Heat and mass transfer in low temperature thermal insulation installations. Kaganer, M.G., [1979, 257p., rus] 34-3069
Construction of earth embankments for highways in West Siberia. Popov, B.I., et al, [1980, p.269-281, eng] 34-3251
Zero-energy house: bold, low-cost breakthrough that may revolutionize housing. Dallaire, G., [1980, p.47-59, eng] 34-3266
Effects of loading thermal and electrical resistance of cryogenic insulation materials. Mil'man, S.B., et al, [1980, p.982-985, eng] 34-3367
Vehicles for conditions in the North. [1980, 2p., eng] 34-3647
Design of lightweight multilayered panels with polystyrene foam thermal insulation. Zhuk, I.P., et al, [1978, p.65-72., rus] 34-4017
Structural thermodynamics. A review. L'vov, G.N., ed. [1969, 100p., rus] 34-4046
Field inspection of thermal properties of 1605 AM/9 series houses with multilayer external walls. Brainina, E.IU., [1969, p.9-15, rus] 34-4048
Thermoinsulative properties of lightweight concrete external wall panel joints in buildings of the series II-57 and II-60. Surkov, V.I., et al, [1969, p.29-35, rus] 34-4050
Winter testing of thermal properties of plastic mobile houses. Avdeev, G.K., [1969, p.89-92, rus] 34-4051

Thermal measurements

See: Temperature measurement

Thermal pollution

Suppression of river ice by thermal effluents. Ashton, G.D., [1979, 23p., eng] 34-2283

Thermal processes

See: Hydrothermal processes

Thermal properties

Satellite observations of snow and ice with an imaging passive microwave spectrometer. Fisher, A.D., et al, [1976, p.98-103, eng] 34-816
Volume weight and thermophysical properties of soils. Makarychev, S.V., et al, [1978, p.10-12, rus] 34-1441
Geotechnical criteria. Prodanovic, A., [1979, 11p. + 11 slides, eng] 34-1593
Physico-technical peculiarities of inflatable structures used in the North. Mikhailov, B.A., et al, [1978, p.24-28, rus] 34-3912

See also: Ice thermal properties; Permafrost thermal properties; Snow thermal properties

Thermal radiation

Structure of the infrared thermal radiation field of snow-ice covers on water bodies. Bogorodskii, V.V., et al, [1979, p.235-241, rus] 34-878
Emissivity correction for interpreting thermal radiation from the terrestrial surface. Sutherland, R.A., et al, [1979, p.1165-1171, eng] 34-890
Thermal emission of randomly inhomogeneous layered media. Brekhovskikh, V.L., et al, [1978, p.101-106, eng] 34-1119
Radiative melting of ice layer adhering to a vertical surface. Sedi, N., et al, [1979, p.137-144, eng] 34-2046

Thermal regime

Cryogenic sediment sampler. Walkotten, W.J., [1977, 4 col., eng] 34-145
Studying the combined effect of low air temperature and wind pressure on thermal regime of walls. Orel, O.P., [1972, p.166-176, rus] 34-189
Thermal regime of Indigirka placer mines. Sherstov, V.A., et al, [1975, p.9-16, rus] 34-215
Heat transfer between underground structures and surrounding frozen grounds. Kapitonova, T.A., et al, [1975, p.22-29, rus] 34-217
Thermal regime of permafrost beneath structures with foundations on fill. Mal'kov, IU.K., et al, [1975, p.71-76, rus] 34-224
Thermophysical characteristics of moisture and gas-saturated sandstones at naturally low temperatures. Groisman, A.G., et al, [1975, p.106-107, rus] 34-229
Analysis of soil state in the core of the Ust-Khantaika hydroelectric plant dam. Kronik, IA.A., et al, [1978, p.1105-1112, eng] 34-325
Thermal regime of a prairie snowcover. Granger, R.J., et al, [1977, p.839-842, eng] 34-476
Calculating temperature fields of bearing ground beneath rock-fill foundations. Konovalov, A.A., [1976, p.3-21, rus] 34-702
Superposition method of determining temperature fields of ground beneath a single or a group of structures with complex shapes. Konovalov, A.A., [1976, p.22-41, rus] 34-703
Observing thermal regime of ground beneath an experimental building. Kabanov, E.P., et al, [1976, p.131-139, rus] 34-714
Thermal regime of water pipelines built in seasonally freezing ground. Pereleshin, R.S., et al, [1974, p.107-210, rus] 34-758
Field studies of temperature regime of water pipelines in deep seasonally freezing ground. Pereleshin, R.S., et al, [1974, p.121-126, rus] 34-759
Calculating water level of palsa bogs from meteorological data. Novikov, S.M., et al, [1979, p.38-49, rus] 34-829
Heat accumulation and thermal cycles of oligotrophic peat bogs. Kaliuzhnyi, I.L., [1979, p.81-89, rus] 34-832
Environment-forming role of forests in the Lake Baykal Basin. Lebedev, A.V., et al, [1979, 256p., rus] 34-1190
Calculation of the temperature regime of earth dams by the finite-element method. Kronik, IA.A., et al, [1979, p.145-152, eng] 34-1393
Microclimate of the Vilyuy reservoir in the area adjacent to the dam. Olovin, B.A., [1979, p.124-129, rus] 34-1519
Changes in moisture and thermal regimes of cryogenic soils in Central Yakutia during agricultural development. Gavril'ev, P.P., [1979, p.130-147, rus] 34-1520
Calculating quasi-stationary temperature and seepage fields in massive hydraulic structures and foundations by the finite element and finite difference methods. Pisarev, G.N., et al, [1979, p.67-74, rus] 34-1526
Heat transfer problems applied to the theory of well drilling. Pudovkin, M.A., et al, [1979, 182p., rus] 34-1650
Hydrophysical properties of peat soils. Bondarenko, N.F., et al, [1979, 160p., rus] 34-1651
Thermal regime of elevated pipelines. Gubanov, B.A., et al, [1979, p.24, rus] 34-1711
Biochemical productivity in soils of some biogeocenoses in the Baraba Plain, subject to continuous cultivation. Gantimurova, N.I., [1979, p.87-107, rus] 34-1809
Rock thermophysics. Summaries of reports. [1973, 75p., rus] 34-1952
Thermal regime of wells and its control. Kudriashov, B.B., et al, [1973, p.3-5, rus] 34-1953
Influence of thermal regime variations on the state of wells drilled in permafrost. Griaznov, G.S., [1973, p.21-22, rus] 34-1954
Controlling thermal regime of wells when using drilling fluids in permafrost. IAkovlev, A.M., [1973, p.23-24, rus] 34-1955
On the flow of polythermal glaciers. I. Model and preliminary analysis. Fowler, A.C., et al, [1978, p.217-242, eng] 34-1968
Thermal regime of glacial zone on the northern slope of Zailiyskiy Alatau during cold period. Denisova, T.IA., [1979, p.3-17, rus] 34-1971
Thermal conductivity of soils and rocks. Johansen, Ö., [1979, p.407-420, eng] 34-2343
Thermal regime in road constructions; measurements and simulation. Frivik, P.E., et al, [1979, p.482-496, eng] 34-2349
Thermal climate regime on road and ground surface. Heiersted, R.S., [1979, p.497-509, eng] 34-2350
Thermal waves in roadbeds. Shestakov, V.N., et al, [1979, p.105-111, rus] 34-2622
Studying regimes of the Krasnoyarsk forest-steppe soils. Bugakov, P.S., et al, [1979, p.257-267, rus] 34-2745
Oats in the permafrost zone. Denisov, G.V., [1979, 184p., rus] 34-2901
Catalog of temperature fields of standard enclosure joints. Part 1. Residential buildings. Design manual. Ivashkova, V.K., et al, [1980, 111p., rus] 34-2937
Possible landscape changes in the Lower Irtysh River area. Maslennikova, V.V., et al, [1980, p.49-53, rus] 34-3028
Changes in thermal conditions of landscapes in the monsoon-permafrost mountain taiga of the Central and Lower Amur River area. Golubchikov, IU.N., [1980, p.62-73, rus] 34-3029
Peculiarities of land reclamation in West Siberia. Panin, P.S., ed. [1979, 252p., rus] 34-3074
Possible changes in thermal conditions due to land reclamation. Az'muka, T.I., et al, [1979, p.8-25, rus] 34-3076
Calculating nonstationary temperature and moisture regimes of washed-up earth structures in a thawed state. Popov, IU.A., et al, [1980, p.94-101, rus] 34-3167
Temperature regime of southern chernozems in the Irkutsk region, subject to long seasonal freezing, and their thermal melioration. Karnaukhov, N.I., et al, [1978, p.94-95, rus] 34-3360
All-Union scientific-technical conference on hydrotechnical construction in regions of permafrost and rigorous climate (CHC-78). Kudoiarov, I.I., et al, [1980, p.724-726, eng] 34-3375
Thermal behavior of concrete slab on frozen ground bed. Gavrish, IU.E., et al, [1980, 9p., eng] 34-3394
Thermal regime of soils in pine forests. Boboleva, E.E., [1978, p.90-98, rus] 34-3465
Using an infrared radiometer for measuring thermal properties of clouds. Sin'kevich, A.A., [1979, p.105-111, rus] 34-3575
Hydroclimatic influence of forests. Protopopov, V.V., ed. [1979, 144p., rus] 34-3768
Thermal regime of rivers in Central and West Siberian plains. Protopopov, V.V., et al, [1979, p.4-24, rus] 34-3769
Increasing the stability of mining excavations in permafrost. El'chaninov, E.A., [1979, p.54-62, rus] 34-3908
Estimation of the possible changes in the ice and thermal regimes of the northern Dvina River under the effect of partial runoff withdrawal. Donchenko, R.V., et al, [1978, p.186-191, eng] 34-4059
Fate and effects of crude oil spilled on subarctic permafrost terrain in interior Alaska. Johnson, L.A., et al, [1980, 128p., eng] 34-4079
Experimental modeling of ecological consequences of winter recreation. Balderin, V.V., [1980, p.13-21, rus] 34-4143

Thermal stresses

Thermal stress intensity factors for a fixed strip containing edge cracks. Pashchenko, V.I., et al, [1978, p.53-57, rus] 34-466
Thermal stress intensity factors for a strip with transverse internal cracks. Pashchenko, V.I., et al, [1978, p.58-63, rus] 34-467
Approximate thermal stress analysis of a concrete structure, erected block-by-block, allowing for concrete creep. Pliat, Sh.N., et al, [1978, p.64-69, rus] 34-468
Approximate determination of stress relaxation coefficients in thermal creep problems. Tsybin, A.M., et al, [1978, p.73-76, rus] 34-470
Shrinking deformation of large panel building walls from field observations. Emel'ianov, A.A., [1972, p.36-45, rus] 34-584
Investigation of stress, temperature, and time dependent strains in a randomly oriented fiber reinforced composite with special emphasis given to thermal stress situations. Caulfield, E.M., [1979, 94p., eng] 34-605
Studying stability of the algorithm of a mixed variational-pivotal method in designing arch dams for temperature effects. Verkhovykh, A.A., [1979, p.113-116, rus] 34-859
Expansion joints in highway bridges. Shesterikov, V.I., [1978, 151p., rus] 34-886
Mathematical modeling of thermal stresses in concrete structures on rock foundations. Rukavishnikova, T.N., et al, [1979, p.56-66, rus] 34-1525
Thermal inertia of ground and the development of tangential frost heave forces. Sokolov, V.M., [1979, p.21-22, rus] 34-1710
Allowing for temperature drop when building and operating northern gas lines. Leiman, P.P., et al, [1979, p.33-34, rus] 34-1712
Thermal stresses in trapezoidal layered panels with corrugated facing. Chaplinskii, I.A., et al, [1979, p.39-45, rus] 34-1719
Allowing for temperature effect when designing large panel buildings. Emel'ianov, A.A., [1970, p.25-89, rus] 34-1833
Selecting design values of temperature when calculating buildings for thermal and moisture effects and settling. Emel'ianov, A.A., [1970, p.90-119, rus] 34-1834
Rupture of an ice mound near Cape Dorset, N.W.T. Frederking, R.M.W., [1979, p.604-609, eng] 34-2047
Calculating combined end- and side-lap welds at low temperature. Semenovich, M.D., [1979, p.17-22, rus] 34-2846
Stresses in triple layer wall panels at different rates of temperature drop along thickness. Albaut, G.N., et al, [1979, p.118-123, rus] 34-2847
Thermal and settlement stresses in concretes. Pechenyi, B.G., [1980, p.73-77, rus] 34-3165
Random thermal stress in concrete containments. Singh, M.P., et al, [1980, p.1481-1496, eng] 34-3950

Thermodynamic properties

Arctic Pleistocene history and the development of submarine permafrost. Vigdorchik, M.E., [1980, 286p., eng] 34-2407
Documentation for a two-level dynamic thermodynamic sea ice model. Hibler, W.D., III, [1980, 35p., eng] 34-3329
Thermohydrodynamic model of an ice sheet. Verbitskii, M.IA., et al, [1980, p.61-67, eng] 34-3798
Polarization processes in the ice lattice. 1. Approach by thermodynamics of irreversible processes. New experimental verification by means of a universal relation. Hubmann, M., [1979, p.127-139, eng] 34-4001

See also: Frozen ground thermodynamics

Thermodynamics

Dynamic thermodynamic sea ice model. Hibler, W.D., III, [1979, p.815-846, eng] 34-741
Molten state of matter—melting and crystal structure. Ubbelohde, A.R., [1978, 454p., eng] 34-789
Icing of an unheated non-rotating cylinder in liquid water droplet-ice crystal clouds. Lozowski, E.P., et al, [1979, 66p. + figures, eng] 34-1739
Annual report No.11; Contract N00014-76-C-0234; NR 307-252. [1979, 33p., eng] 34-1748
Investigation on the solubility of hydrochloric acid in ice. Krishnan, P.N., [1969, 111p., eng] 34-2070
Thermodynamic model of sea ice. Maykut, G.A., [1969, 214p., eng] 34-2071
Discussion about the freezing point depression in small pores. Haynes, J.M., et al, [1979, p.393-397, eng] 34-2341
Freezing temperature of aqueous solutions containing formamide, acetamide, propionamide and N,N-dimethylformamide. Lilley, T.H., et al, [1980, p.901-905, eng] 34-3264
Forms created by the thermal movement of lake ice in Finland in winter 1972-73. Alestalo, J., et al, [1979, p.51-92., eng] 34-4159
Some factors affecting spring snowmelt within Narrows Mountain Brook basin, a forested watershed in central New Brunswick. Gordon, A.M., [1979, p.53-67, eng] 34-4205

Thermokarst
Specific nature of erosional processes in permafrost areas Orlov, A.D., et al, [1979, p.118-124, rus] 34-448
Engineering geology of the U.S.S.R. Vol.5, Altai and Ural Mountains. Trepettsov, E.V., ed, [1978, 220p., rus] 34-768
Human-induced thermokarst at old drill sites in northern Alaska. Lawson, D.E., et al, [1978, p.16-23, eng] 34-872
Hydrogeological problems of the Baykal Amur railroad. Pinneker, E.V., et al, [1977, p.66-70, rus] 34-995
Ground temperature variations during the economic development of the northern Amur River area. Balobaev, V.T., et al, [1979, p.74-88, rus] 34-1514
New data on geocryological structure of swamps in southern Yakutia. Chizhov, A.B., et al, [1979, p.134-140, rus] 34-1921
Structure and absolute geochronology of alassy deposits in Central Yakutia. Katasonov, E.M., ed, [1979, 95p., rus] 34-1931
Frost heave in Transbaikal steppes. Bazhenova, O.I., [1978, p.109-126, rus] 34-2298
Exogenic relief forming process in the cryolithozone. Sukhodrovskii, V.L., [1979, 280p., rus] 34-2684
Engineering-geomorphological peculiarities of studying the Baykal Amur railroad area. Voskresenskii, S.S., et al, [1979, p.109-120, rus] 34-2751
Regional and cryolithologic studies in Siberia. Nekrasov, I.A., ed, [1979, 160p., rus] 34-2769
Geocryological conditions of the Anadyr liman shores. Liubomirov, A.S., [1979, p.47-56, rus] 34-2774
Thermal regime of rocks beneath a large thermokarst lake in Central Yakutia. Tishin, M.I., [1979, p.83-90, rus] 34-2779
Geocryologic and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, [1978, 187p., rus] 34-2915
Geocryological conditions in Asian mountains and plains. Nekrasov, I.A., ed, [1978, 164p., rus] 34-2938
Alassy of Central Yakutia. Bosikov, N.P., [1978, p.113-118, rus] 34-2951
Ice wedges in the alassy of Central Yakutia. Bosikov, N.P., [1978, p.119-122, rus] 34-2952
Vegetation on specific thermokarst relief in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Sumina, O.I., [1979, p.118-132, rus] 34-3042
Terrain-forming processes in the permafrost region and the principles of their prevention and limitation in territories under development. Grave, N.A., et al, [1980, p.11-23, eng] 34-3234
Recent geological processes and phenomena observed on the southern shore of Ob' Bay. Trepetsov, E.V., [1980, 4p., eng] 34-3402
Loess-ice formation of East Siberia in Late Pleistocene and Holocene. Tomirdiaro, S.V., [1980, 184p., rus] 34-3478
Cryogenic physical-geologic processes and their prediction. Grechishchev, S.E., et al, [1980, 383p., rus] 34-3757
Role of tectonics in the formation of permafrost on low plains. Baulin, V.V., et al, [1980, p.209-223, eng] 34-3842
Cyclic nature of thermokarst on the Maritime Plain in the Upper Pleistocene and Holocene. Gravis, G.F., [1980, p.245-257, eng] 34-3844
Geomorphologic conditions of land reclamation in the Upper Angara trough. Bazarov, D.-D.B., et al, [1979, p.77-93, rus] 34-4099
Formation of accumulative relief of the Ogoronskaya Basin (eastern part of the Baykal Amur railroad) under permafrost conditions. Kopylov, I.F., et al, [1979, p.9-14, rus] 34-4102
How permanent is permafrost. Shvetsov, P.F., [1979, p.16-25, rus] 34-4147
Environmental protection in North Siberia. Gerasimov, I.P., [1979, p.122-138, rus] 34-4174

Thermokarst development
Thermokarst terrain near Whitehorse, Yukon Territory. Klassen, R.W., [1979, p.385-388, eng] 34-289

Thermokarst lakes
Influence of economic development on changes in environmental conditions of Arctic regions. Neizvestnov, IA.V., et al, [1980, p.100-102, rus] 34-3294
Thermokarst terrain near Whitehorse, Yukon Territory. Klassen, R.W., [1979, p.385-388, eng] 34-289
Selective melting of lake ice. Zimov, S.A., et al, [1979, p.121, rus] 34-3702
Cryogenic physical-geologic processes and their prediction. Grechishchev, S.E., et al, [1980, 383p., rus] 34-3757
Environmental protection in Yakutia. Andreev, V.N., ed, [1979, 181p., rus] 34-4106
Development of vegetation at the bottom of drained thermokarst lakes in subarctic tundra. Galaktionova, T.F., [1979, p.48-50, rus] 34-4110

Thermometers
See: Resistance thermometers

Thermometry
See: Heat measurement; Temperature measurement

Thermopiles
Artificial cooling of ground with thermopiles. Vialov, S.S., et al, [1979, p.72-91, rus] 34-1541
Experimental study of heat transfer in fluid thermopiles. Konovalov, A.A., et al, [1979, p.109-117, rus] 34-1544
Reestablishing the frozen state of ground for preventing deformations of buildings and structures Aleksandrov, IU.A., [1979, p.117-121, rus] 34-1545
Modern design of power line support foundations for Tyumen'. Kirtbaia, I.A., et al, [1980, p.38-44, rus] 34-2574
Artificial freezing of thawed ground around thermopiles. Kuramin, V.P., [1980, p.24-26, rus] 34-2599
Thermopiles for pipeline construction. Petrov, B.G., et al, [1980, p.34-36, rus] 34-2981
Construction of multi-storey buildings on cold piles in the city of Mirnyy. Makarov, V.I., et al, [1980, p.241-254, eng] 34-3249
Construction by the method of stabilizing perennially frozen foundation soils. Porkhaev, G.V., et al, [1980, p.283-296, eng] 34-3252
Geocryological investigations in West Yakutia Mel'nikov, P.I., ed, [1980, 113p., rus] 34-4033
Experience in using the S.Kh.1A thermopile in Mirnyy. Molochnikov, A.D., [1980, p.23-26, rus] 34-4036
Fluid-bearing thermopiles in foundation construction in the North Makarov, V.I., et al, [1980, p.26-40, rus] 34-4037

Thickness
Numerical simulation of the annual cycle of sea ice in the Arctic and Antarctic. Parkinson, C.L., [1977, 191p., eng] 34-409
Growth rate of spruces related to the thickness of permafrost active layer near Inuvok, Northwestern Canada. Sakai, A., et al, [1979, p.p.19032, eng] 34-2874
Sea ice growth, drift, and decay. Hibler, W.D., III, [1980, p.141-209, eng] 34-3658

Thixotropy
All-Union scientific-technical conference on the engineering-geological basis of seismic microregionalization, 1st, Tashkent, Nov. 18-20, 1987 Summaries of reports. [1975, 98p, rus] 34-2057
Composition and properties of flooded loess as a basis for seismic microregionalization. Domrachev, G.I., [1975, p.74-75, rus] 34-2062
Behavior of clay subgrades during melting periods. Prokudin, I.V., et al, [1979, p.40-42, rus] 34-2096
Thixotropic texture of Gydan Peninsula soils. Liverovskii, IU.A., et al, [1980, p.45-54, rus] 34-2761
Seismic characteristics of loess in relation to geologic surroundings and the impact of industrial activities. Kriger, N.I., et al, [1980, 103p., rus] 34-3763
Determining passability of walking excavators in inhomogeneous grounds, allowing for frozen layers. Zagorulko, L.P., [1978, p.118-124, rus] 34-3905

Tibet
Permafrost distribution in Tibet and the Himalaya Mountains. Gorbunov, A.P., [1978, p.3-7, rus] 34-2939

Tidal currents
Current observations in the channels of the Canadian Arctic Archipelago adjacent to Bathurst Island. Greisman, P., et al, [1978, 127p., eng] 34-562
Anchorage wastewater treatment. West, C.E., et al, [1975, p.187-195, eng] 34-635
Motion of icebergs due to changes in water currents. Sodhi, D.S., et al, [1975, p.348-350, eng] 34-1231
Environmental assessment of the Alaskan continental shelf: lower Cook Inlet interim synthesis report. [1979, 241p., eng] 34-1338
Physical aspects of the oil spill from the supertanker "Metula". Hann, R.W., [1978, p.354-363, eng] 34-1371
Analysis of circulation patterns in Grays Harbor, Washington, using remote sensing techniques. Gatto, L.W., [1980, p.289-323, eng] 34-2675
Sediment transport in Norton Sound, Alaska. Cacchione, D.A., et al, [1979, 88p., eng] 34-2720
Oceanographic data. [1976, 30p. + figs., eng] 34-3100

Tidal glaciers
Observations of glacier variations in Glacier Bay National Monument. Field, W.O., [1979, p.803-808, eng] 34-2265

Tidal power plants
Significance of the Kislogubsk tidal power plant for hydraulic construction and power engineering. Bernshteln, L.B., et al, [1980, p.64-67, rus] 34-2578

Tides
Storm surges. Henry, R.F., [1975, 41p., eng] 34-505
Arctic beach environment, south-west Devon Island, N.W.T. Owens, E.H., [1969, 152p., eng] 34-938
Ice-foot processes. Observations of erosion on a rocky coast, Disko, West Greenland. Nielsen, N., [1979, p.321-331, eng] 34-966
Environmental assessment of the Alaskan continental shelf, Vol.7, Transport. [1979, 560p., eng] 34-3050
Variability of the tide at some sites in the Canadian Arctic. Godin, G., et al, [1980, p.30-37, eng] 34-3320
Analyses of British Antarctic Survey tidal records. Cartwright, D.E., [1980, p.167-179, eng] 34-4115
Surge lowering of levels in the Barents and White seas. Potanin, V.A., et al, [1980, p.13-20, rus] 34-4178

Timberlines
See: Forest lines

Time factor
Numerical simulation of atmospheric ice accretion Ackley, S.F., et al, [1979, p.44-52, eng] 34-57
Empirical analysis of the creep of floating ice sheets Beltaos, S., et al, [1979, p.124-138, eng] 34-928
Freezing controlled by natural convection Sparrow, E.M., et al, [1979, p.578-584, eng] 34-1498
Evaluating settlement and bearing strength of piles allowing for the time factor. Khamov, A.P., [1978, p.45-55, rus] 34-3890

Tires
Arctic winter tests and evaluation, mid-winter stage, Kenworth truck Model 953A. [1972, var. p., eng] 34-512
Peculiarities of motor transport under northern conditions Khlebnikov, A.M., et al, [1979, p.47-59, rus] 34-1625
Selecting propulsion gear for all terrain vehicles Efi'es, M.I., et al, [1979, p.6-7, rus] 34-2090
Effect of third generation tire studs on pavement wear reduction, 1977-1979; report of test results on wear from various tire-stud combinations. Cook, J.C., [1979, 88p., eng] 34-2432

Tissues

Topographic effects
Control of snow and ice on road and communication facilities in the Himalayas Malik, S.C.L., et al, [1979, p.129-134, eng] 34-72
Snow clearance west Himalayan road some problems. Soin, J.S., [1979, p.141-150, eng] 34-74
Snow accumulation and distribution. Gray, D.L., et al, [1979, p.3-33, eng] 34-1002
Comparability of snowfall and snow cover data in a southern Ontario basin. Goodison, B.E., [1979, p.34-43, eng] 34-1003
Surface erosion and sedimentation associated with forest land use in interior Alaska. Aldrich, J.W., et al, [1979, 87p., eng] 34-1314
Investigations of possible correlations of vegetation, substrate, and topography in interior Alaska. Neiland, B.J., [1975, c120 leaves, eng] 34-1357
Mass and density of ice-hoarfrost deposits under different physiographic conditions. Zakharov, A.G., et al, [1979, p.74-80, rus] 34-1820
Geomorphological conditions of avalanche formation in the eastern part of the northern slope of the Terskey Alatau Range (Karkara, Tekes, Ul'ken-Kokpak, Bayankol river basins). Blagoveshchenskii, V.P., [1979, p.161-169, rus] 34-1985
Late quaternary ice cover of the Pamirs. Grosval'd, M.G., et al, [1979, p.85-97, rus] 34-2187
Physiographic regionalization of the Pamirs Kadomtse.a, T.G., [1979, p.98-100, rus] 34-2188
Topoclimatological and snow hydrological survey of Switzerland Winniger, M., [1979, 6p., eng] 34-2509
On the effect of topographic orientation on the variations of glacier length. Kasser, P., [1979, p.93-96, eng] 34-2723
Temperature of permafrost in the Prianabarskaya denudation plain. Kunitskii, V.V., [1978, p.42-49, rus] 34-2920
Influence of slope orientation and dissected topography on the statistical structure of snow depth Chirkova, A.A., [1978, p.64-77, rus] 34-3350
Climatic peculiarities of West Yakutia. Spesivtseva, N.A., [1980, p.87-95, rus] 34-4043

Topographic features
Statistical analyses of the forms of the glaciers in the Khumbu Himal. Fujii, Y., et al, [1977, p.7-14, eng] 34-897
Disappearance of snowcover depending on radiation and relief. Meier, R., et al, [1979, p.151-158, ger] 34-1264
Antarctic ice topography and 150 mb circulation from the NIMBUS-6 TWERLE experiment. Levanon, N., et al, [1978, p.43-46, eng] 34-2035
Baykal Amur railroad and economic development of the Transbaikal region. Nedeshev, A.A., et al, [1979, 158p., rus] 34-2483
Trafficability maps for all-terrain vehicles. Wastenson, L., [1973, p.213-238, swe] 34-2718
Ice spirals off Barrow as seen by satellite. Solomon, H., et al, [1980, p.184-188, eng] 34-3324
Physiography of part of north-eastern Pa ner Land Anckorn, J.F., [1980, p.157-166, eng] 34-4114
See also: Coastal topographic features

Topographic maps
Regularities governing the development of the topography and glaciers of Tien Shan. Zabirov, R.D., ed, [1980, 110p., rus] 34-4004
Determining glacier areas and orientation of surfaces from topographic maps. Kuz'michenok, V.A., [1980, p.22-47, rus] 34-4006

Topographic surveys
U.S. Geological Survey in Alaska; 1979 programs. Reed, K.M., ed, [1979, 94p., eng] 34-726
Terrain evaluation of a portion of the Fort Greely automotive test course. Shamburger, J.H., [1966, 33p. + 29 photos and plates, eng] 34-1562

Topography
Some aspects of the ice topography of Trough Lake, southern Victoria Land, Antarctica. Lyon, G.L., [1979, p.281-284, eng] 34-945
Alaska's weather and climate. Bowling, S.A., [1979, p.1-25 eng] 34-1303
Comparative analysis of past and present glacial and permafrost relief forms in Asia. Kazakov, N.M., [1976, p.10-45, rus] 34-2010
Submarine permafrost on the Alaskan continental shelf. Vigdorchik, M.E., [1980, 118p., eng] 34-2406
Studies on interaction between wind and dry snow surfaces. Kobayashi, S., [1979, 64p., eng] 34-3191
Compiling 1:600 000 glacier morphology maps of the eastern Pamirs and the Juneau Ice Field. Varnakova, G.M., et al, [1979, p.42-47, rus] 34-3689
See also: Bottom topography; Microrelief; Polygonal topography
Towers
Nonstationary turbulent wind flow past tall structures. Gusev, M.A., [1979, p.51-55, rus] 34-1087
Development and test of fiberglass low-impact resistant towers. Rogers, E.T., et al, [1979, 77p., eng] 34-2267
Tracked vehicles
Propelling devices for all-terrain vehicles. Gorbeshko, M.V., et al, [1979, p.7, rus] 34-404
Preliminary Arctic engineering study of surface transport vehicles. Rymes (J.E.) Engineering, Ltd., [1970, c270p., eng] 34-424
Arctic winter tests and evaluation, mid-winter stage, Kenworth truck Model 953A. [1972, var. p., eng] 34-512
Volumetric constitutive law for snow subjected to large strains and strain rates. Brown, R.L., [1979, 13p., eng] 34-913
Analysis of disturbance effects of operations of off-road vehicles on tundra. Radforth, J.R., [1973, 77p., eng] 34-1359
Calculating resistance to tracked vehicle movement on weak grounds. Kostogryz, S.G., [1979, p.42-46, rus] 34-1396
Terrain evaluation of a portion of the Fort Greely automotive test course. Shamburger, J.H., [1966, 33p. + 29 photos and plates, eng] 34-1562
Peculiarities of motor transport under northern conditions. Khlebnikov, A.M., et al, [1979, p.47-59, rus] 34-1625
Designing high capacity vehicles for cross-country travel in the North. Korsak, V.K., [1979, p.59-73, rus] 34-1626
Earthwork on construction sites of the Baykal Amur railroad. Meshkov, V.M., [1979, p.24, rus] 34-1723
Selecting propulsion gear for all terrain vehicles. El'tes, M.I., et al, [1979, p.6-7, rus] 34-2090
GSI uses tracked vibrators on Alaska's North Slope. Brooks, L.D., [1980, p.195, eng] 34-2715
Rectangular plate loading test on snow-mobility of tracked oversnow vehicle. Muro, T., et al, [1980, p.17-24, jap] 34-3155
Vane cone test of snow—mobility of tracked oversnow vehicle. Muro, T., et al, [1980, p.25-32, jap] 34-3156
Environmental protection in Yakutia. Andreev, V.N., ed, [1979, 181p., rus] 34-4106
Influence of tracked vehicles on tundra. Andreev, V.N., et al, [1979, p.42-47, rus] 34-4109
Tracked vehicle effect on subarctic tundra vegetation. Andreev, V.N., et al, [1979, p.22-24, rus] 34-4220
Studying disturbed soils of reindeer grazing fields in the Messoyakha-Noyil'sk pipeline area. Shchelkunova, R.P., et al, [1979, p.66-67, rus] 34-4229
Tracking (position)
Long-term drift of icebergs in Baffin Bay and the Labrador Sea. Robe, R.Q., et al, [1980, p.183-193, eng] 34-2441
Tractors
Tractor mounted cable laying equipment. Kuz'menko, V.V., et al, [1979, p.22-23, rus] 34-1253
Designing high capacity vehicles for cross-country travel in the North. Korsak, V.K., [1979, p.59-73, rus] 34-1626
Japanese develop Archimedean screw tractor. [1980, p.11, eng] 34-4068
Trafficability
Winter road preparation and commencement of traffic in the Mackenzie Delta. [1972, 20p., eng] 34-292
Propelling devices for all-terrain vehicles. Gorbeshko, M.V., et al, [1979, p.7, rus] 34-404
Conference in Tyumen'. Nurmiev, G.N., [1979, p.26, rus] 34-501
Terrain evaluation of a portion of the Fort Greely automotive test course. Shamburger, J.H., [1966, 33p. + 29 photos and plates, eng] 34-1562
Peculiarities of motor transport under northern conditions. Khlebnikov, A.M., et al, [1979, p.47-59, rus] 34-1625
Rectangular plate loading test on snow-mobility of tracked oversnow vehicle. Muro, T., et al, [1980, p.17-24, jap] 34-3155
Vane cone test of snow—mobility of tracked oversnow vehicle. Muro, T., et al, [1980, p.25-32, jap] 34-3156
Study and information meeting on winter trafficability, Nefta, Tunisia, Nov. 8 and 9, 1979. [1980, p.69-79, fre] 34-3723
See also: Soil trafficability
Transmission line towers
See: Power line supports
Transmission lines
Power transmission lines in high mountains. Davidian, D.B., [1979, 188p., rus] 34-721
Icing of a cable. Poots, G., et al, [1976, p.203-217, eng] 34-1969
Investigation into outages of electric power supply as the result of ice storms. [1979, 51p + 16p. appends., eng] 34-2505
Undersea pipelines and cables in polar waters. Mellor, M., [1978, 34p., eng] 34-3448
Transparence
Development of hydro-optical studies of the Lake Baykal. Sherstiankin, P.P., [1979, p.16-27, rus] 34-876
See also: Light transmission; Turbidity
Transpiration
Meltwater losses in forests due to absorption by tree bark. Krestovskii, O.I., et al, [1979, p.87-91, rus] 34-1081
Water regime of plants in the medium altitude belts of Khamar-Daban and West Sayan Mountains. Kozlova, L.N., [1979, p.96-115, rus] 34-3775
Respiration of Subarctic plants. Govorov, P.M., et al, [1979, p.74-75, rus] 34-4231
Study of Arctic plant respiration. Ivanova, T.I., et al, [1979, p.77-78, rus] 34-4232
Transportation
Model for traffic delay and its convenience and wage costs. Kennedy, W.J., et al, [1979, p.57-60, eng] 34-59
Technical and economic analysis of different construction materials in modular buildings. Kuzina, Z.G., et al, [1972, p.92-97, rus] 34-182
Requirements for structural elements of sectional buildings determined by the conditions of their transportation and assembly by helicopter. Bogdanov, V.A., [1972, p.108-120, rus] 34-184
Yukon ferry operation. Ireland, J.E., [1977, p.176-179, eng] 34-211
Large units increase the effectiveness of segmental construction. Permikin, IU.N., et al, [1979, p.12-14, rus] 34-247
Working capacity of machines and their resistance to abrasive wear at low temperatures. Koval'chuk, V.A., [1974, p.5-8, rus] 34-373
Development of transportation in oil and gas producing areas of Siberia and the North. Chevardov, S.I., [1979, p.2-4, rus] 34-402
Special means of transportation on land in West Siberia. Vladimirskii, A.B., et al, [1979, p.4-7, rus] 34-403
Aircraft for transporting large-size and heavy cargo. Mostovoi, IU.S., [1979, p.8-9, rus] 34-405
Promising type of industrial transportation. Broude, B.G., [1979, p.10-12, rus] 34-406
What can dirigibles do. Sedykh, K.G., [1979, p.12-14, rus] 34-407
Conference in Tyumen'. Nurmiev, G.N., [1979, p.26, rus] 34-501
Methods of calculating helicopter equipment for construction and installation work. Bogdanov, V.A., [1977, p.101-111, rus] 34-992
Construction of residential and public buildings in West Siberia. Khaitum, A.D., [1979, p.16-18, rus] 34-1180
Increasing the use of helicopters in construction. Chernitskii, A.V., [1979, p.5-6, rus] 34-1249
Transportation. Nekrasov, N.N., ed, [1979, 147p., rus] 34-1619
Transportation, a key issue in the development of productive forces in the North. Nekrasov, N.N., [1979, p.5-13, rus] 34-1620
Economic development of the northern USSR and the formation of a basic transportation pattern. Burkhanov, V.F., [1979, p.14-20, rus] 34-1621
Peculiarities and problems of inter-regional transportation and economic communications of the northern zone of the USSR. Puzanova, V.F., [1979, p.20-33, rus] 34-1622
Baykal Amur railroad. Problems of inter-regional economic communications and natural resource development in the Near North. D'iakonov, F.V., [1979, p.33-42, rus] 34-1623
Improving the economic effectiveness of transportation in the Komi Autonomous Soviet Socialist Republic. Kuratova, E.S., [1979, p.42-46, rus] 34-1624
Air navigation in industrial construction of the North. Gromov, N.N., et al, [1979, p.84-92, rus] 34-1628
Using aircraft in cargo transportation. Lapin, M.S., [1979, p.92-98, rus] 34-1629
Passanger transport in northern population resettlement systems. Belinskii, A.IU., [1979, p.98-105, rus] 34-1630
Modeling transportation connections between starting points and economic development areas. Adzhiev, M.E., [1979, p.105-108, rus] 34-1631
Supplying northern enterprises with special equipment. Dashkova, T.E., [1979, p.109-112, rus] 34-1632
Problems of transportation equipment in Yakutian mines. Vlasov, V.I., [1979, p.112-117, rus] 34-1633
Trends in transportation development in northern Canada. Cherkasov, A.I., [1979, p.118-130, rus] 34-1634
Use of air cushion vehicles in northern Canada. Mikhallov, V.V., et al, [1979, p.130-136, rus] 34-1635
Discussion of scientific and economic problems of northern development. Glabina, N.K., et al, [1979, p.137-146, rus] 34-1636
Operating large dumpers at the "Tsentral'nyy" mine, the "Apatit" departure yard. Kolesnikov, V.G., et al, [1979, p.17-18, rus] 34-1836
Organizing the preliminary period of the Kolyma hydroelectric power plant construction. Pavlov, B.N., et al, [1979, p.44-47, rus] 34-1850
Inventory of Canadian research and development capabilities for engineering in cold regions. [1978, 510p., eng] 34-2005
Transportation and unloading of freezing cargo. Lepnev, M.I., [1979, p.2-4, rus] 34-2081
Electropulse equipment for cleaning railroad cars. Levin, I.A., et al, [1979, p.8-9, rus] 34-2083
Recommendations for loading and unloading freezing cargo. Severinova, E.P., [1979, p.11, rus] 34-2084
Using dirigibles in Yakutia. Belinskii, B.V., [1979, p.13-14, rus] 34-2085
Dirigibles for natural gas transportation. Nogovitsyn, V.V., et al, [1979, p.14, rus] 34-2086
Air cushion vehicles on land. Mikhallov, V.V., et al, [1979, p.24-26, rus] 34-2087
Combined transportation systems in petroleum provinces of West Siberia. Kobylkovskii, G.P., et al, [1979, p.2-3, rus] 34-2088
Selecting propulsion gear for all terrain vehicles. El'tes, M.I., et al, [1979, p.6-7, rus] 34-2090
Using air cushion vehicles. Mikhallov, V.V., [1979, p.30-31, rus] 34-2091
Preparation of industrial transportation for winter. Kurtukov, IA.M., et al, [1979, p.2-5, rus] 34-2092
Air cushion vehicles in forestry. Mikhallov, V.V., [1979, p.27, rus] 34-2093
Using balloons and dirigibles in construction. Spasskii, D.S., [1979, p.29, rus] 34-2094
Navigating under ice conditions. Levanov, B., [1979, p.5-6, rus] 34-2118
Research and development work in the Division of Mechanical Engineering 1978. [1979, 88p., eng] 34-2137
Baykal Amur railroad and economic development of the Transbaikal region. Nedeshev, A.A., et al, [1979, 158p., rus] 34-2483
Improving the organization of construction of overhead lines and substations in the North. Denisov, G.A., et al, [1980, p.31-38, rus] 34-2573
Assembly for unloading frozen construction materials, PR-188. Volkova, A.E., [1980, p.30, rus] 34-2585
Combinations of various means of transportation along the Punga-Vuktyl-Ukhta railroad. Glazkov, V.E., [1980, p.15-17, rus] 34-2596
Lowering transportation costs of gas field development in the northern Tyumen' area. Strubtsova, L.M., [1980, p.17-18, rus] 34-2597
AGT guideway and station technology. Vol.8. Weather protection concepts. Stevens, R.D., et al, [1979, 237p., eng] 34-2964
Technology of open pit mining. Medvedev, K.D., ed, [1979, 164p., rus] 34-3023
Effectiveness of container transportation systems under the Far North conditions. Bogoliubova, O.I., et al, [1979, p.96-101, rus] 34-3024
Container delivery of explosives to the Far North mines. Vlasov, V.M., et al, [1979, p.101-104, rus] 34-3025
Improving the structure of management of the West Siberian Petroleum Complex. Vozniak, V.IA., [1980, p.22-24, rus] 34-3162
Effectiveness of using mineral raw materials in the Far North. Fedoseev, V.A., [1979, 215p., rus] 34-3197
Environmental protection problems related to placer mining in the North. Olovin, B.A., [1980, p.50-55, rus] 34-3285
Operation of the CRREL prototype air transportable shelter. Flanders, S.N., [1980, 73p., eng] 34-3331
Transportation under economic and geographic conditions of the Yakut ASSR. Belinskii, B.V., ed, [1976, 104p., rus] 34-3337
Influence of procurement forms on magnitude of industrial supplies. Belinskii, B.V., et al, [1976, p.4-27, rus] 34-3338
Freight traffic irregularities on rivers of the Yakut ASSR. Zav'ialov, S.IA., [1976, p.28-40, rus] 34-3339
Extending the navigation period on Yakutian rivers. Zernov, S.IA., [1976, p.41-51, rus] 34-3340
Influence of railroads on motor vehicle transport in Yakutia. Shtyrev, I.N., [1976, p.52-58, rus] 34-3341
Passenger transportation in Urban planning of the North. Belinskii, A.IU., et al, [1980, 146p., rus] 34-3825
Bundling of timber sections on ice. Gushkalov, P.A., [1980, p.12-14, rus] 34-3857
Transport network of the Tyumen' forests. Dorofeev, A.G., [1980, p.7-9, rus] 34-3858
Cargo to the north by transport planes. Chudnovskii, A., [1978, p.8-10, rus] 34-3900
Transport planes in the economic development of northern USA and Canada. Chudnovskii, A., [1978, p.44-47, rus] 34-3901
Effective use of helicopter cranes. Chernitskii, A., [1980, p.30-32, rus] 34-3929
Improving machines and equipment for reloading packed cargo at low temperatures. Grinevich, O.I., [1978, p.85-93, rus] 34-3944

Transportation *(cont.)*
Community planning and development in Canada's Northwest Territories. Gerein, H.J.F., [1980, 175p., eng] 34-3984
Management of forest resources. Timofeev, N.V., [1979, 144p., rus] 34-4011
Construction experience gained by the Trust "Uralstroimekhanizatsiia". Lamakina, V.S., [1980, p.2-4, rus] 34-4052
Influence of tracked vehicles on tundra. Andreev, V.N., et al, [1979, p.42-47, rus] 34-4109
Planning environmental protection during the development of uninhabited areas. Kukuevitskiĭ, G.M., et al, [1979, p.50-53, rus] 34-4138
See also: Fuel transport; Petroleum transportation

Traverses
Under-ice volcanoes. Miller, K., [1979, p.36-55, eng] 34-1579

Tree lines
See: Forest lines

Trees (plants)
Determination of snow avalanche frequency through tree-ring analysis and historical records at Ophir, Colorado. Carrara, P.E., [1979, p.773-780, eng] 34-46
Dynamics of avalanche natural complexes: an example from the high mountain Teberda State Reserve, Caucasus Mountains, USSR. Khapaev, S.A., [1978, p.335-344, eng] 34-799
Upper forest limit in the mountains of the Boreal Zone of the USSR. Gorchakovskiĭ, P.L., et al, [1978, p.349-363, eng] 34-800
Meltwater losses in forests due to absorption by tree bark. Krestovskiĭ, O.I., et al, [1979, p.87-91, rus] 34-1081
Current regenerative capacity of the northern Canadian trees, Keewatin, N.W.T., Canada: some preliminary observations. Elliott, D.L., [1979, p.243-251, eng] 34-1281
Human activities effect on the Pinus sylvestris (Pinaceae) increment in the Bratsk Region. Lalrand, N.I., et al, [1979, p.1187-1195, rus] 34-1448
Influence of snow cover on physiological processes in forest plants. Tranquillini, W., [1979, p.123-137, ger] 34-1784
Distribution of snow and damages by snow in an afforestation area in the subalpine zone at the "Sonnberg" near Haggen/Tyrol. Stern, R., [1979, p.145-154, eng] 34-1786
Snow forces on forest plants. Salm, B., [1979, p.157-181, eng] 34-1787
Bending of young larch stems due to snow pressure. Frey, W., [1979, p.183-203, ger] 34-1788
Deformation and damage to forest plants by snow forces. Wakabayashi, R., [1979, p.205-209, eng] 34-1789
Assessment and analysis of snow breakage in fir trees in the Pfalz Forest, 1968 and 1975. Lessel, A., [1979, p.211-215 ger] 34-1790
Forest and avalanches. De Quervain, M., [1979, p.219-239, ger] 34-1791
Avalanche frequency and risk estimation in forest sites. Föhn, P.M.B., [1979, p.241-254, eng] 34-1792
Growth rate of spruces related to the thickness of permafrost active layer near Inuvok, Northwestern Canada. Sakai, A., et al, [1979, p.p.19032, eng] 34-2874
Determining river ice frequency from the tree record. Egginton, P.A., [1980, p.265-270, eng] 34-2989
Deforestation of reservoirs. Marcotte, H., et al, [1979, p.15-17, fre] 34-3063
Frost damage to cambium of plants introduced in Arkhangel'sk. Nilov, V.N., [1979, p.50-57, rus] 34-3958

Trenching
Studying the strength of cutting tools of trenching equipment working in frozen ground. Bondarenko, V.P., et al, [1974, p.205-210, rus] 34-394
Calculation of frostline penetration in high voltage cable trench Mt. Elbert pumped-storage powerplant. Landman, J.K., [1977, 48p., eng] 34-1175
Bio-processes of the oxidation ditch in a sub-arctic climate. Murphy, R.S., et al, [1974, p.332-357, eng] 34-1481
Island defence and monitoring. Templeton, J.S., III, [1979, 13p. + 20 slides, eng] 34-1595
Permafrost thawing beneath pipes with different pipe laying methods. Zamolotchikova, S.A., [1979, p.73-79, rus] 34-1916
Slit blasting technique of trenching for the Baykal Amur railroad. Anisimov, D.I., et al, [1980, p.6-8, rus] 34-2850
Construction of underwater crossings of main pipelines. [1970, 36p., rus] 34-2866
Land reclamation in winter. Surikov, V.V., [1980, 270p., rus] 34-3758
Drilling-and-mixing method of building foundations of cemented earth piles. Tokin, A., [1980, p.5-6, rus] 34-3926

Trucks
See: Motor vehicles

Tundra
Vegetational successions and other ecosystemic changes in two Arctic tundras. Peterson, K.M., [1978, 305p., eng] 34-1
Ecological profile. [1978, 118p. + maps, eng] 34-20
Variations of heat transfer between soil and atmosphere induced by engineering activities in tundra regions. Pavlov, A.V., et al, [1979, p.12-22, rus] 34-124
Phosphorus regeneration in fresh-water paramecia. Buechler, D.G., et al, [1974, p.339-343, eng] 34-201
Feasibility of caribou winter habitat analysis using satellite data. LaPerriere, A.J.L., III, [1976, 181p., eng] 34-202
Problems of the North. Study and utilization of natural resources and environmental protection. Shvetsov, P.F., et al, [1979, p.31-37, rus] 34-257
Toilet paper and tundra. Grant, R., [1979, p.47-49, eng] 34-274
Equilibrium model for hummocks (nonsorted circles), Garry Island, Northwest Territories. Mackay, J.R., [1979, p.165-167, eng] 34-287
Inspection of winter roads, Mackenzie Delta, following spring thaw. [1973, 16p., eng] 34-291
Soils along the Baykal Amur railroad. Kovalev, R.V., ed, [1979, 304p., rus] 34-433
Role of permafrost in the hydrothermal regime of soils. Savvinov, D.D., [1979, p.282-287, rus] 34-464
Arctic winter test and evaluation, late winter stage, Kenworth truck Model 953A. [1972, var. p., eng] 34-513
Classifying the northwest Siberian landscapes according to their stability under construction. Nefedova, V.B., [1979, p.42-47, rus] 34-525
Zoogeography of the Yamal-Gydan area, Western Siberia. Rutilevskiĭ, G.L., [1979, p.88-117, eng] 34-530
Factors regulating the food intake of caribou and reindeer on tundra ranges. White, R.G., [1976, p.1/227-1/233, eng] 34-564
Soil Acari and Collembola from Chaun Bay, Northern Chukotka. MacLean, S.F., et al, [1978, p.559-568, eng] 34-658
Vegetational cover in areas adjacent to the Baykal Amur railroad and problems of its preservation. Belov, A.V., et al, [1979, p.36-90, rus] 34-683
Evolution of the soil landscape in the sand region of the Arctic coastal plain as exemplified at Atkasook, Alaska. Everett, K.R., [1979, p.207-223, eng] 34-687
Relationships of soil acidity and air temperature to the wind and vegetation at Prudhoe Bay, Alaska. Walker, D.A., et al, [1979, p.224-236, eng] 34-688
Tundra lakes as a source of fresh water: Kipnuk, Alaska. Bredthauer, S.R., et al, [1979, 16p., eng] 34-740
Program and abstracts. [1978, c50p., ger] 34-813
Human-induced thermokarst at old drill sites in northern Alaska. Lawson, D.E., et al, [1978, p.16-23, eng] 34-872
Environmental chemistry and cycling processes. [1978, 911p., eng] 34-907
Problems of synthesis in mineral cycling studies: the tundra as an example. Miller, P.C., [1978, p.59-71, eng] 34-908
Phosphorus dynamics of wet coastal tundra soils near Barrow, Alaska. Barèl, D., et al, [1978, p.516-536, eng] 34-909
Impact of crude oil on root respiration and levels of soluble soil cellulase in coastal Arctic tundra. Linkins, A.E., et al, [1978, p.590-604, eng] 34-910
Controls on decomposition and mineral release in wet meadow tundra—a simulation approach. Barkley, S.A., et al, [1978, p.754-778, eng] 34-911
Classification of fire effects on the microclimate of forest and tundra ecosystems—final report. Rouse, W.R., et al, [1976, 21p., eng] 34-914
Prognosis of rational use and protection of renewable natural resources in the Far North. Gel'berg, M.G., et al, [1979, p.14-51, rus] 34-958
Vegetation of the West Okhotsk area. Shlotgauer, S.D., [1978, 132p., rus] 34-967
Forest tundras of the USSR. Parmuzin, IU.P., [1979, 295p., rus] 34-968
Soils and the productivity of plant communities. Vol.4. Kovda, V.A., ed, [1979, 205p., rus] 34-1058
Structure of moss synusiae in the spotty tundra of the Agapa research station. Tishkov, A.A., [1979, p.5-14, rus] 34-1059
List of publications based on materials from the Agapa Taymyr research station. [1979, p.203-206, rus] 34-1066
Components of forest tundra biogeocenoses in northern Okhotomor'e. Ignatenko, I.V., ed, [1977, 149p., rus] 34-1158
Physiographic conditions of northern Okhotomor'e and hydrothermal regime of soils at the "Snow Valley" research station. Ignatenko, I.V., et al, [1977, p.5-23, rus] 34-1159
Vegetation of the "Snow Valley" station (Explanatory note to the vegetation chart). Shatkauskas, A.V., et al, [1977, p.24-34, rus] 34-1160
Vascular plants in the "Snow Valley" station. Khokhriakov, A.P., et al, [1977, p.44-48, rus] 34-1162
Environment-forming role of forests in the Lake Baykal Basin. Lebedev, A.V., et al, [1979, 256p., rus] 34-1190
Flora and fauna of water bodies in the European North (Bol'shezemel'skaya Tundra taken as an example). Getsen, M.V., ed, [1978, 191p., rus] 34-1191
Simulation of CO2 uptake and water relations of four Arctic Bryophytes at Point Barrow, Alaska. Miller, P.C., et al, [1978, p.7-20, eng] 34-1262
Properties and relative age of soils of southwestern Cumberland Peninsula, Baffin Island, N.W.T., Canada. Bockheim, J.G., [1979, p.289-306, eng] 34-1283
Vertical distribution of live vascular phytomass in cottongrass tussock tundra. Shaver, G.R., et al, [1979, p.335-342, eng] 34-1286
Analysis of disturbance effects of operations of off-road vehicles on tundra. Radforth, J.R., [1973, 77p., eng] 34-1359
Willow shrub communities in the east of Chukotka Peninsula. Sekretareva, N.A., [1979, p.957-970, rus] 34-1445
Fodder lichen increment and distribution in the northern Yenisey Region. Shchelkunova, R.P., [1979, p.1111-1121, rus] 34-1446
Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] 34-1508
Preliminary disturbance of tundra covers as a means for improving geocryological conditions. Grigor'ev, N.F., [1979, p.45-50, rus] 34-1511
Studying the revegetation of tundra landscapes affected by industrial activities in the northern Yenisey River area. Skriabin, S.Z., [1979, p.51-61, rus] 34-1512
Changes in tundra landscapes induced by mining. Olovin, B.A., [1979, p.98-112, rus] 34-1516
1977 tundra fires in the Seward Peninsula, Alaska: effects and initial revegetation. Racine, C.H., [1979, 51p., eng] 34-1560
Soils of the East European tundra and forest tundra. Ignatenko, I.V., [1979, 280p., rus] 34-1649
Soils of northern Yakutia. Elovskaia, L.G., et al, [1979, 303p., rus] 34-1652
Soil cover of the world (Soil-bioclimatic areas of the world and their agro-ecologic characteristics). Rozov, N.N., et al, [1979, 287p., rus] 34-1654
Vegetation and revegetation within permafrost terrain. Bliss, L.C., [1979, p.31-50, eng] 34-1681
Maximum snow depth distribution over the West Siberian Plain. Rutkovskaia, N.V., [1967, p.132-148, rus] 34-1993
Decomposition models based on climatic variables, substrate variables, microbial respiration and production. Flanagan, P.W., et al, [1976, p.437-457, eng] 34-2006
Growth of tundra vegetation in relation to Arctic microenvironments at Barrow, Alaska. Dennis, J.G., [1969, 305p., eng] 34-2042
Comparative mechanisms of cold adaptation. Underwood, L.S., ed, [1979, 379p., eng] 34-2144
Scientific conference of geographers from Siberia and the Far East. Geography and practice. Proceedings. [1978, 253p., rus] 34-2246
Forecasting changes in West Siberian landscapes due to pipeline construction. Moskalenko, N.G., [1978, p.115-119, rus] 34-2249
Primary versus secondary succession at Glacier Bay National Monument, southeastern Alaska. Lawrence, D.B., [1979, p.213-224, eng] 34-2261
Biogeocenologic studies in planted meadows of East-European tundra. Archegova, I.B., ed, [1979, 190p., rus] 34-2306
Biodynamics and soil productivity. [1979, 211p., rus] 34-2417
Dynamics of bacterial community growth in tundra soils of southern Taymyr. Parinkina, O.M., [1979, p.100-103, rus] 34-2420
Environmental geology and geomorphology of the barrier island-lagoon system along the Beaufort Sea coastal plain from Prudhoe Bay to the Colville River. Cannon, P.J., et al, [1979, p.335-345, eng] 34-2433
Decomposition of plant litter and cellulose in the tundras of the Taymyr Peninsula. Parinkina, O.M., [1979, p.676-684, eng] 34-2484
Ecotypic differentiation in *Carex aquatilis* on ice-wedge polygons in the Alaskan coastal tundra. Shaver, G.R., et al, [1979, p.1025-1046, eng] 34-2496
Boreal ecology. Pruitt, W.O., Jr., [1978, 73p., eng] 34-2581
Soil-geochemical regionalization of the non chernozem zone for protection from pollution. Glazovskaia, M.A., [1978, p.127-139, rus] 34-2612
Characteristics of soil formation in Siberia. Kovalev, R.V., ed, [1979, 294p., rus] 34-2734
Soil formation under ultracontinental cold arid conditions. Sokolov, I.A., et al, [1979, p.9-13, rus] 34-2735
Peculiarities of gley soils in the Yamal-Gydansk tundra. Tonkonogov, V.D., [1979, p.45-52, rus] 34-2737
Quality indices of West Siberian soils. Tiumentsev, N.F., et al, [1979, p.53-60, rus] 34-2738
Thixotropic texture of Gydan Peninsula soils. Liverovskiĭ, IU.A., et al, [1980, p.45-54, rus] 34-2761
Geography and origin of soils in the northwestern part of the West Siberian Plain and the adjacent polar Ural foothills. Liverovskaia, I.T., [1980, p.63-84, rus] 34-2762
Vegetation effect on ground temperature in northern West Siberia. Tyrtikov, A.P., [1980, p.112-188, rus] 34-2766
Arctic tundras and polar deserts of Taymyr Peninsula. Aleksandrova, V.D., ed, [1979, 206p., rus] 34-3033
Structure of vegetational cover in polar deserts of the Taymyr Peninsula (Cape Chelyuskin). Matveeva, N.V., [1979, p.5-27, rus] 34-3034

Vascular plants of Cape Chelyuskin. Safronova, I.N., [1979, p.50-53, rus] 34-3036
Musci and Hepaticae of Cape Chelyuskin. Blagodatskikh, L.S., et al, [1979, p.54-60, rus] 34-3037
Ground lichens of Cape Chelyuskin. Pitn, T.Kh., [1979, p.61-73, rus] 34-3038
Vegetation in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Matveeva, N.V., [1979, p.78-109, rus] 34-3040
Microflora of Arctic tundra soils in the northeastern part of the Taymyr Peninsula. Parinkina, O.M., [1979, p.110-117, rus] 34-3041
Musci and Hepaticae in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Blagodatskikh, L.S., et al, [1979, p.133-139, rus] 34-3043
Latitudinal variations in the proportions of living vascular plants in Taymyr Peninsula. Polozova, T.G., [1979, p.154-159, rus] 34-3045
Productivity of Taymyr soil microflora as a criterion of biologic activity. Parinkina, O.M., [1979, p.160-165, rus] 34-3046
Regularities governing zonal distribution of communities in Taymyr Peninsula. Chernov, IU I., et al, [1979, p.166-200, rus] 34-3047
Environmental protection in economic development of permafrost areas. Grave, N.A., ed, [1980, 140p., rus] 34-3277
Environmental protection problems related to placer mining in the North. Olovin, B.A., [1980, p.50-55, rus] 34-3285
Disturbance of natural environments by construction of linear structures and the first stages of restoration of soil and vegetational covers. Smirnov, V.V., et al, [1980, p.121-127, rus] 34-3299
Root systems of sodding plants and their role in the restoration of vegetational cover disturbed by economic activities. Vital', A.D., [1980, p.128-133, rus] 34-3300
Diatomaceous algae of fresh-water bodies on the Chukotskiy Peninsula. Kharitonov, V.G., [1978, p.118-121, rus] 34-3510
History of the Pevek Regional Administration of Hydrometeorology and Environmental Monitoring. Vlasov, E.G., et al, [1979, p.4-12, rus] 34-3526
Dynamics of vegetational cover and the development of cryogenic relief forms. Tyrtikov, A.P., [1979, 116p., rus] 34-4010
Life in the tundra. Chernov, IU.I., [1980, 236p., rus] 34-4015
Environmental protection in Yakutia. Andreev, V.N., ed, [1979, 181p., rus] 34-4106
Influence of tracked vehicles on tundra. Andreev, V.N., et al, [1979, p.42-47, rus] 34-4109
Development of vegetation at the bottom of drained thermokarst lakes in subarctic tundra. Galaktionova, T.F., [1979, p.48-50, rus] 34-4110
Planning environmental protection during the development of uninhabited areas. Kukuevitskiĭ, G.M., et al, [1979, p.50-53, rus] 34-4138
Mosses as accumulators of radionuclides. Molchanova, I.V., et al, [1980, p.42-47, rus] 34-4146
How permanent is permafrost. Shvetsov, P.F., [1979, p.16-25, rus] 34-4147
Problems in rational utilization of natural resources and environmental control in North Siberia. Cherskiĭ, N.V., ed, [1979, 158p., rus] 34-4164
Stability of tundra ecosystems in North Siberia. Bol'shakov, V.N., et al, [1979, p.60-66, rus] 34-4170
Geological aspects of use and protection of environments in northern West Siberia related to the development of oil and gas deposits. Sergeev, E.M., et al, [1979, p.95-103, rus] 34-4171
Effect of human activities on the vegetational cover of Taymyr. Shchelkunova, R.P., [1979, p.139-152, rus] 34-4175
Vegetation-snow relationships in Labrador. Adams, W.P., et al, [1979, p.1-25, eng] 34-4202
Symposium on biological problems of the North, 8th, Apatity, 1979. Abstracts of the papers. [1979, 177p., rus] 34-4213
Hepaticae—pioneers in matting disturbed Yamal tundra soils. Andreeva, E.N., [1979, p.21-22, rus] 34-4219
Tracked vehicle effect on subarctic tundra vegetation. Andreev, V.N., et al, [1979, p.22-24, rus] 34-4220
Regularities governing plant distribution with respect to snow cover in the southeastern Chukotskiy Peninsula. Balandin, S.A., et al, [1979, p.24-25, rus] 34-4221
Enrichment of cultivated tundra meadow grasses with wild legumes. Kotelina, N.S., et al, [1979, p.37-38, rus] 34-4222
Types of East Taymyr tundras and their significance as cattle grazing grounds. Rapota, V.V., [1979, p.53-54, rus] 34-4226
Changes in vegetational cover of Yamal arctic tundras induced by reindeer grazing. Rebristaia, O.V., [1979, p.55-56, rus] 34-4227
See also: Alpine tundra; Forest tundra

Tunneling
Instructions for the performance and acceptance of jobs concerning the shield technique of building collecting-tunnels in cities and industrial enterprises. [1975, 38p., rus] 34-2863

Tunneling (excavation)
New powerful pneumatic drift. Gurkov, K.S., et al, [1979, p.8-10, rus] 34-192
Temporary tunnel support by artificial ground freezing. Discussion. Brahma, C.S., [1979, p.1260-1262, eng] 34-961
Artificial freezing of ground. Buchko, N.A., [1979, p.38-40, rus] 34-1153
Subglacial constructions and investigations at Bondhusbreen, Norway. Wold, B., et al, [1979, p.363-379, eng] 34-2245
Heading machine complex for tunneling. Bobrovskiĭ, L.M., et al, [1980, p.12-14, rus] 34-2854
Tunneling through quicksand. Zaldullin, N., et al, [1980, p.8, rus] 34-3937

Tunnels
Ice detection system warns motorists. Phillips, R., [1979, p.21, eng] 34-1140
Lightweight concretes for tunnel linings. Shcherbakov, E.N., et al, [1979, p.13-15, rus] 34-1250
Grout injection used in tunnel construction in permafrost. Fursov, L.F., [1979, p.105-110, rus] 34-1531
Tunnel construction on landslide-prone slopes. Aminov, E.Kh., [1979, p.12-14, rus] 34-1715
Sprayed concrete in tunnel construction in the Baykal Amur railroad area. Golitsynskiĭ, D.M., [1980, p.14-15, rus] 34-2855
Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p. (Pertinent p.230-344), rus] 34-3600
See also: Railroad tunnels

Turbidity
Runoff of suspended deposits in glacier adjacent zones. Chernov, L.P., [1974, p.220-234, eng] 34-1199
Arctic haze. Shaw, G.E., [1979, p.114-127, eng] 34-1310
Correlation and quantification of airborne spectrometer data to turbidity measurements at Lake Powell, Utah. Merry, C.J., [1970, p.1309-1316, eng] 34-2043
See also: Transparence; Visibility

Turbulence
Univariate model of the seasonal pycno-wedge and homogeneous layer in the Arctic Basin. Ponomarev, V.I., [1979, p.37-47, rus] 34-1997
Asymmetric dynamics of ice cover. Ivchenko, V.O., et al, [1979, p.99-106, rus] 34-2003
Some characteristics of turbulence in katabatic winds over Mizuho Plateau, East Antarctica. Kobayashi, S., et al, [1979, p.75-85, eng] 34-2152
Deep sea dispersion analyses. [1977, 23p., eng] 34-3113

Turbulent boundary layer
Interactions between the atmospheric boundary layer and a snow surface. Halberstam, I.M., et al, [1979, p.154-166, eng] 34-1015
Experimental determination of melting rates of ice moving in sea water. Clifford, W.F., et al, [1979, 220p., eng] 34-1365
Forced-convection heat transfer from irregular melting wavy boundaries. Hsu, K.-S., et al, [1979, p.598-602, eng] 34-1500

Turbulent diffusion
Seasonal snow cover. Male, D.H., [1980, p.305-395., eng] 34-3661

Turbulent exchange
Interactions between the atmospheric boundary layer and a snow surface. Halberstam, I.M., et al, [1979, p.154-166, eng] 34-1015
Variation of the turbulent exchange on a mountain glacier. Davidovich, N.V., et al, [1974, p.367-379, eng] 34-1206

Turbulent flow
Formation of ice ripples on the underside of river ice covers. Ashton, G.D. [1971, 157p., eng] 34-600
Transient freezing of liquids in turbulent flow inside tubes. Cho, C., et al, [1979, p.465-468, eng] 34-648
Vertical profile of glacier wind (numerical experiment). Ni, A.A., et al, [1977, p.35-40, rus] 34-888
Nonstationary turbulent wind flow past tall structures. Gusev, M.A., [1979, p.51-55, rus] 34-1087
Steady state ice layer profile on a temperature plate in a forced convection flow. Hirata, T., et al, [1979, p.1425-1443, eng] 34-1846
Evaluation of spatial scales of disturbances and determination of some characteristics of turbulence in the Chukchi Sea. Izmailov, V.V., [1979, p.22-29, eng] 34-1899
Icing of a cable. Poots, G., et al, [1976, p.203-217, eng] 34-1969

Turf
See: Peat

Turkey
Snow clearance on highways, 1968-1969. [1969, 23p., tur] 34-18

Ultrasonic tests
Ultrasonic velocity investigations of crystal anisotropy in deep ice cores from Antarctica. Kohnen, H., et al, [1979, p.4865-4874, eng] 34-410
Studying frost resistance of rocks. Ben'kov, V.N., [1979, p.66-70, rus] 34-1529
Relationship of ultrasonic velocities to c-axis fabrics and relaxation characteristics of ice cores from Byrd Station, Antarctica. Gow, A.J., et al, [1979, p.147-153, eng] 34-2823
Ultrasonic study in supercooled water to -26C. Bacri, J.C., et al, [1979, p.L/403-L/405, fre] 34-2861

Ultraviolet radiation
Investigating ultraviolet photoelectron spectroscopy of ice. Abbati, I., et al, [1979, p.511-514, eng] 34-3994

Underground cables
Calculation of frostline penetration in high voltage cable trench Mt. Elbert pumped-storage powerplant. Landman, J.K., [1977, 48p., eng] 34-1175

Underground facilities
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] 34-213
Artificial freezing of ground in underground construction. Trupak, N.G., [1979, 344p., rus] 34-1226
Arctic winter construction and cost estimating of the North Slope fuel gas pipeline. Bock, G.R., [1979, p.511-520, eng] 34-1403
Radioactive isotope techniques in controlling quality of work and investigations when building foundations and underground structures. Smorodinov, M.I., [1980, 168p., rus] 34-3866
Improving the procedure for installation of antiseepage curtains by the "wall-in-the-ground" method. Burov, IU.E., et al, [1980, p.304-309, eng] 34-3932

Underground ice
See: Ground ice

Underground pipelines
Pipe-soil interaction, Trans-Alaska Pipeline. Luscher, U., et al, [1979, p.486-502, eng] 34-1402
Approximate calculation of permafrost thickness beneath underground pipelines. Kondrat'ev, V.G., [1979, p.34-36, rus] 34-1910
Russian winter pipeline construction techniques. Sanders, W.M., [1980, p.59-66, 71, eng] 34-3086
Thermal interaction between gas line and frozen soils. Krivoshein, B.L., et al, [1980, p.1083-1088, eng] 34-3560
Improving work organization and quality control at a most important construction site. Pelevin, I.V., [1980, p.20-21, rus] 34-3818

Underground storage
Calculating thermal regime of reservoirs in permeable rocks surrounded by ice-bearing zones. Valiullin, A.N., et al, [1978, p.140-146, rus] 34-255
Artificial freezing of ground in underground construction. Trupak, N.G., [1979, 344p., rus] 34-1226
Instructions for designing underground low temperature storage for liquefied hydrocarbon gases. [1977, 29p., rus] 34-2864
Calculating temperature regime of underground structures. Makagonov, V.A., [1980, p.45-49, rus] 34-3164

Underice
See: Ice bottom surface; Subglacial

Underwater acoustics
Deployment and retrieval of linear hydrophone arrays and seismometers under Arctic ice. Gay, S.M., Jr., et al, [1976, 97p., eng] 34-1376
Notes on the acquisition of high resolution seismic reflection profiles, side-scanning sonar records, and sediment samples, from lower Cook Inlet and Kodiak Shelf, R/V Sea Sounder cruise S8-78-WG, August 1978. Hampton, M.A., et al, [1979, c60 leaves, eng] 34-2606

Underwater permafrost
See: Permafrost beneath lakes; Permafrost beneath rivers; Subsea permafrost

Underwater structures
See: Hydraulic structures

Unfrozen water content
Determining unfrozen water content from the relation of phase transformation temperature to moisture content of freezing ground. Konovalov, A.A., et al, [1976, p.42-51, rus] 34-704
Quantitative analysis of the relation between the main thermophysical characteristics of frozen soils. Konovalov, A.A., [1979, p.23-37, rus] 34-980
Influence of salinity on frozen ground deformation. Pekarskaia, N.K., et al, [1979, p.5-19, rus] 34-1534
Investigation into the use of time domain reflectometry to determine the unfrozen water content of freezing soils. Smith, M.W., et al, [1979, 37p., eng] 34-1581
Phase composition of moisture in permafrost of different origin and age. Ershov, E.D., et al, [1979, p.168-178, rus] 34-1925
Bound water content in fine grained rocks. Ananian, A.A., et al, [1979, p.193-196, rus] 34-1927
Active centers at the surface of fine rock particles. Ananian, A.A., [1979, p.196-200, rus] 34-1928
Lower boundary of water-ice phase transitions in frozen fines. Ananian, A.A., et al, [1979, p.201-206, rus] 34-1929
Hydraulic conductivity in frozen soils. Burt, T.P., et al, [1976, p.349-360, eng] 34-2113
Upper limits of heaving pressure obtained by observing pore water pressure under partial soil freezing. Takashi, T., et al, [1979, p.277-287, jap] 34-2173
Mechanics of frozen ground disintegration. Surikov, V.V., [1979, 127p., rus] 34-2670

United Kingdom
Development of a snowplough/salt spreading vehicle for ice and snow clearance of motorways in England. Gould, R.J., [1979, p.314-317, eng] 34-98

United Kingdom *(cont.)*
Snow survey of Great Britain. Ogden, R.J., [1979, p.27-37, eng] 34-1410
—London
Possible late Quaternary pingo remnants in central London. Hutchinson, J.N., [1980, p.253-255, eng] 34-2487
United States
North American snowfall study; comparative through 1973-4 season. [1974, c400p., eng] 34-2630
Operational aerial snow surveying in the United States. Peck, E.L., et al, [1980, p.51-62, eng] 34-2729
Estimated glaze ice and wind loads at the earth's surface for the contiguous United States. Tattelman, P., et al, [1973, 35p., eng] 34-3645
—Alaska
Geologic evaluation of LANDSAT imagery in interior Alaska. Dean, K.G., [1979, 156p., eng] 34-567
Solar energy resource potential in Alaska. Seifert, R.D., et al, [1978, 79p., eng] 34-628
U.S. Geological Survey in Alaska; 1979 programs. Reed, K.M., ed, [1979, 94p., eng] 34-726
Feasibility study of land treatment of wastewater at a subarctic Alaskan location. Sletten, R.S., et al, [1977, p.533-547, eng] 34-1749
Water resources development. [1979, 50p., eng] 34-2134
Ecotypic differentiation in *Carex aquatilis* on ice-wedge polygons in the Alaskan coastal tundra. Shaver, G.R., et al, [1979, p.1025-1046, eng] 34-2496
Flood-prone area maps at three sites along the Trans-Alaska Pipeline, Alaska. Lamke, R.D., et al, [1980, 14p., eng] 34-2506
Alaskan shelf hydrographic, sedimentary and geochemical environment. Sharma, G.D., [1979, 498p., eng] 34-2514
Technology and organization of the Trans Alaska pipeline construction. Panov, IU.E., et al, [1979, p.30-33, rus] 34-2639
Skilled workers used abroad in cold regions development. Chudnovskiĭ, A.D., et al, [1980, p.19-21, rus] 34-2976
Technical and economic characteristics of the Trans-Alaska Oil Line. Panov, IU.E., et al, [1980, p.38-39, rus] 34-2982
Preliminary classification system for vegetation of Alaska. Viereck, L.A., et al, [1980, 38p., eng] 34-3434
Petroleum development in northern Alaska. Bregha, F., [1979, p.223-253, eng] 34-3440
Northwest Alaskan gas line project—engineering, prebuilding, route studies. [1980, p.12-16, eng] 34-3441
Effects of the Trans-Alaska pipeline on caribou movements. Cameron, R.D., et al, [1979, 36p., eng] 34-3923
Preliminary feasibility study of a tanker transportation system serving the northwest coast of Alaska. Final report. Halebsky, M., et al, [1980, 3 vols., eng] 34-3947
—Alaska—Barrow
Phosphorus regeneration in fresh-water paramecia. Buechler, D.G., et al, [1974, p.339-343, eng] 34-201
Phosphorus dynamics of wet coastal tundra soils near Barrow, Alaska. Barèl, D., et al, [1978, p.516-536, eng] 34-909
Time-energy budget of the semipalmated sandpiper *Calidris pusilla* at Barrow, Alaska. Ashkenazie, S., et al, [1979, p.783-799, eng] 34-1561
Polyandry, replacement clutches, and site tenacity in the red phalarope *(Phalaropus fulicarius)* at Barrow, Alaska. Schamel, D., et al, [1977, p.314-324, eng] 34-2497
Seasonal trends in summer diet of the Lapland longspur near Barrow, Alaska. Custer, T.W., et al, [1978, p.295-301, eng] 34-2512
Ice spirals off Barrow as seen by satellite. Solomon, H., et al, [1980, p.184-188, eng] 34-3324
—Alaska—Brooks Range
Nature and distribution of glaciers, neoglacial moraines, and rock glaciers, east-central Brooks Range, Alaska. Ellis, J.M., et al, [1979, p.403-420, eng] 34-1384
—Alaska—Columbia Glacier
Icebergs and oil tankers soon to mix. Hartline, B.K., [1980, p.381, eng] 34-3720
Predicted timing of the disintegration of the lower reach of Columbia Glacier, Alaska. Meier, M.F., et al, [1980, 34p. + tables and graphs, eng] 34-3783
—Alaska—Cook Inlet
Transport, retention, and effects of the water-soluble fraction of Cook Inlet crude oil in experimental food chains. Whipple, J.A., et al, [1979, p.535-581, eng] 34-17
—Alaska—Fairbanks
Atmospheric carbon monoxide model for Fairbanks, Alaska. Carlson, R.F., [1976, 47p. + append., eng] 34-621
Carbon monoxide emissions from moving vehicles in Fairbanks, Alaska. Leonard, L.E., [1977, 45p., eng] 34-843
—Alaska—George, Lake
Knik Glacier, Alaska, May 1979 monument and glacier survey. Trabant, D.C., et al, [1979, 20p. + 2 maps, eng] 34-4080
—Alaska—Glacier Bay National Monument
Research by the Institute of Polar Studies in Glacier Bay National Monument, Alaska. Goldthwait, R.P., et al, [1976, p.815-821, eng] 34-534
—Alaska—Gulf of Alaska
Seasat Gulf of Alaska Workshop report. Executive summary. Born, G.H., et al, [1979, 42p., eng] 34-1734
Recent fluctuations in meteorological and oceanographic parameters in Alaska waters. Biebauer, H.J., [1980, 34p., eng] 34-3766
—Alaska—Knik Glacier
Knik Glacier, Alaska, May 1979 monument and glacier survey. Trabant, D.C., et al, [1979, 20p. + 2 maps, eng] 34-4080
—Alaska—North Slope
Geomorphic processes on the north slope of Alaska. Hall, D.K., [1979, 25p., eng] 34-1169
Water/wastewater evaluation for an Arctic Alaskan industrial camp. Tilsworth, T., et al, [1973, 174p., eng] 34-1803
—Alaska—Prudhoe Bay
Prudhoe Bay natural gas pipeline systems. [1976, 89p. (Pertinent p.62-82), eng] 34-1358
Draft environmental impact statement, Prudhoe Bay Oil Field Waterflood Project. [1980, 2 vols., eng] 34-3646
—Alaska—Susitna River
Susitna River basin resource bibliography; supplement 1979. Lockhart, D., comp., [1979, 244p., eng] 34-2482
Winter environmental data survey of the drainage basin of the upper Susitna River, Alaska. Bilello, M.A., [1980, 30p., eng] 34-2725
Environmental analysis of the Upper Susitna River Basin using Landsat imagery. Gatto, L.W., et al, [1980, 41p., eng] 34-3198
—Alaska—Tanana River
Sediment transport in the Tanana River in the vicinity of Fairbanks, Alaska, 1977-78. Burrows, R.L., et al, [1979, 37p., eng] 34-1556
Cross-section, velocity, and bedload data at two erosion sites on the Tanana River near Fairbanks, Alaska, 1979. Burrows, R.L., [1980, 32p., eng] 34-3669
—Alaska—Yukon River
Break-up of the Yukon River at the Haul Road Bridge: 1979. Stephens, C.A., et al, [1979, 22p. + Figs., eng] 34-4193
—California—Monterey Bay
Experimental determination of melting rates of ice moving in sea water. Clifford, W.F., et al, [1979, 220p., eng] 34-1365
—Chesapeake Bay
Ice conditions on the Chesapeake Bay as observed from Landsat during the winter of 1977. Foster, J., et al, [1978, p.89-104, eng] 34-35
—Colorado—Gunnison River
Winter ice jams on the Gunnison River. Burgi, P.H., [1979, 30p., eng] 34-3030
—Colorado—San Juan Mountains
Evaluation and prediction of avalanche hazard, San Juan Mountains, Colorado. Armstrong, R.L., et al, [1978, 139p., eng] 34-1110
—Great Lakes
Great Lakes navigation season, 1979. Wilson, E.E., [1980, p.183-195, eng] 34-3435
—Massachusetts—Buzzards Bay
Oil spill behavior in ice during the 1977 Buzzards Bay oil spill. Deslauriers, P.C., [1978, p.197-215, eng] 34-1368
—Minnesota
Analysis and prediction of freeze-over dates of Minnesota lakes using LANDSAT imagery and weather information. Fu, A.Y.K., [1979, 188p., eng] 34-2474
—New York
Snow cover surveys 1978-79. [1979, 9 leaves, eng] 34-1701
—New York—Black River
Snow surveys in the Black River drainage area. Mayhew, K.H., [1978, p.50-55, eng] 34-31
—Ohio—Kelleys Island
Giant grooves made by concentrated basal ice streams. Goldthwait, R.P., [1979, p.297-307, eng] 34-2240
Unloading
Infrared radiators for heating frozen cargo. Lepnev, M.I., et al, [1979, 94p., rus] 34-1932
Transportation and unloading of freezing cargo. Lepnev, M.I., [1979, p.2-4, rus] 34-2081
Effectiveness of clay freezing prevention methods. Kharlamov, V.N., [1979, p.4-8, rus] 34-2082
Electropulse equipment for cleaning railroad cars. Levin, I.A., et al, [1979, p.8-9, rus] 34-2083
Recommendations for loading and unloading freezing cargo. Severinova, E.P., [1979, p.11, rus] 34-2084
Another outlook on the problem of unloading frozen cargo. Serebriakova, L.P., [1979, p.14-15, rus] 34-2089
New technique of heating frozen cargo. Dmitriev, G.G., et al, [1979, p.20, rus] 34-2095
Assembly for unloading frozen construction materials, PR-188. Volkova, A.E., [1980, p.30, rus] 34-2585
Optimizing the heating of cargo frozen to walls of railroad cars. Portnov, I.G., [1978, p.53-64, rus] 34-3909
Improving machines and equipment for reloading packed cargo at low temperatures. Grinevich, O.I., [1978, p.85-93, rus] 34-3944
Upwelling
Isotherm plots of Babine Lake during the ice free season. Farmer, D.M., et al, [1975, 266p., eng] 34-503
Upwelling: oceanic structure at the edge of the Arctic ice pack in winter. Buckley, J.R., et al, [1979, p.165-167, eng] 34-959
On upwelling driven by the melt of ice shelves and tidewater glaciers. Greisman, P., [1979, p.1051-1065, eng] 34-1882
Urban planning
Landscaping of northern cities. Pomazkova, E.N., [1978, 160p., rus] 34-582
Community response strategies for environmental problems of water supply and wastewater disposal in Fairbanks, Alaska. Smith, D.W., et al, [1976, 28p., eng] 34-616
Planning and construction of Tynda. Trafbman, G., [1979, p.46-49, rus] 34-1775
Alaska energy project phase 2: planning energy technologies for a new Alaska community. Final report. [1978, 206p., eng] 34-2165
Interpreting meso- and microclimatic peculiarities of large cities for urban planning (Novosibirsk taken as an example). Pivkin, V.M., [1979, p.48-54, rus] 34-2620
From quantity to quality. Antonov, A.F., et al, [1979, p.18-20, rus] 34-2635
AGT guideway and station technology. Vol.8. Weather protection concepts. Stevens, R.D., et al, [1979, 237p., eng] 34-2964
Environmental protection in economic development of permafrost areas. Grave, N.A., ed, [1980, 140p., rus] 34-3277
Studying changes in permafrost conditions due to construction in the Ust'-Ilimsk area. Maksimova, L.N., et al, [1980, p.19-25, rus] 34-3280
Influence of cities on natural and climatic factors under polar conditions. Gorbacheva, V.M., [1980, p.94-99, rus] 34-3293
Preservation, utilization and transformation of forest landscapes within residential areas (Novosibirsk, Akademgorodok). Arbatskiĭ, V.P., [1980, p.62-66, rus] 34-3593
Timan-Pechora Complex. Construction problems. Kochurin, N.N., [1979, 167p., rus] 34-3666
Construction of urban roads under northern conditions. Galuzin, V.M., ed, [1980, 134p., rus] 34-3762
Passenger transportation in Urban planning of the North. Belinskiĭ, A.IU., et al, [1980, 146p., rus] 34-3825
Introduction to town planning and related matters in the Soviet North: based upon information collected during the exchange visit by a Canadian delegation to the Soviet Union—September 25th to October 7th, 1977. Slipchenko, W., et al, [1978, 426p., eng] 34-3896
Community planning and developme in Canada's Northwest Territories. Gerein, H.J.F., [1980, 175p., eng] 34-3984
Landscape gardening in towns and villages of oil producing areas in the Central Lena River region. Shilova, I.I., [1979, p.128-129, rus] 34-4236
Urea
Urea as a deicing agent. Johansson, A., [1970, p.229-308, swe] 34-1879
Urethane foam
See: Cellular plastics
USA CRREL
Cold Regions Research and Engineering Laboratory. Freitag, D.R., [1978, p.4-6, eng] 34-869
USSR
Zonal and regional patterns of formation of the permafrost region in the U.S.S.R. Kudriavtsev, V.A., et al, [1980, p.371-389, eng] 34-3852
—Aktru River
Firn field types in the Aktru Basin and their relation to glaciation. Ivanov, N.I., [1967, p.205-226, rus] 34-1994
—Aldan
Amount of geocryologic information obtained from local space photographs under the conditions of Aldan-Stanovoy region. Gavrilov, A.V., [1980, p.127-137, rus] 34-4129
—Altai Mountains
Studying atmospheric pollution from glacial deposit analysis. Voronskaia, G.N., et al, [1979, p.146-151, rus] 34-1138
Microbiology of Altai Mountain soils. Klevenskaia, I.L., et al, [1979, p.107-153, rus] 34-1810
Effect of development on the biologic activity of chernozems and chernozem-meadow alpine soils of the Altais. Gauert, V.I., [1979, p.154-165, rus] 34-1811
Effect of fertilizers on the microflora of gray forest soils in the Altai Mountains. Vyblov, N.F., [1979, p.178-183, rus] 34-1813
Summary of theoretical results of glaciological investigations in the Altais. Tronov, M.V., [1967, p.3-15, rus] 34-1988
Geocryologic zonation in Altai and Sayan mountains. Shats, M.M., [1978, p.27-33, rus] 34-2943
Intracontinental version of earth's cryosphere. Reviakin, V.S., [1977, p.12-35, rus] 34-3381

Evaluating avalanche danger in the Katunskiy Range, Altai. Reviakin, V.S., et al, [1977, p.157-162, rus] 34-3389

Uninterrupted periods of strong winds (>15m/s) over West Siberia and Altai territory. Slutskii, V.I., et al, [1979, p.31-40, rus] 34-3578

Age of rock glaciers in the Altai Mountains. Ivanovskii, L.N., [1977, p.125-137, rus] 34-3606

Permafrost in the mountains of Central Asia. Gorbunov, A.P., [1980, p.257-369, eng] 34-3851

Periglacial flora of the Katunskiy Range. Polozhii, A.V., et al, [1979, p.18-23, rus] 34-4085

—Amur River

Permafrost thickness and distribution in the low-mountain Amur River region. Lisitsyna, O.M., et al, [1979, p.207-214, rus] 34-1930

Seasonal freezing of soil and ground in the southeastern Amur area. Baulo, V.D., et al, [1978, p.100-107, rus] 34-2535

Role of the thermal factor in the formation of bogs in the Amur Region. Kholoden, E.E., [1978, p.6-10, eng] 34-3960

—Angara River

New features in economic development of the Angara River area near Krasnoyarsk in relation to the construction of the Boguchansk hydroelectric power plant. Medvedkova, E.A., [1979, p.19-32, rus] 34-1100

Exogenic geologic processes and phenomena in the Angara River area. Leshchikov, F.N., et al, [1976, p.93-101, rus] 34-2644

Influence of human factors on phytoplankton and water quality of the Angara River. Kozhova, O.M., et al, [1980, p.61-66, rus] 34-2707

Use of the water resources of Lake Baykal and of the Angara River and an estimate of the change in their quality and elements of the hydrologic regime. Ivanov, N.I., [1977, p.307-309, eng] 34-3020

Permafrost in the territory of the Boguchansk reservoir. Serov, A.G., et al, [1980, 9p., eng] 34-3392

Geoengineering and hydrogeologic studies of the zone of influence of the Angara reservoirs and means of effective incorporation of these results in the national economy. Odintsov, M.M., et al, [1980, 10p., eng] 34-3393

—Aral Sea

Ice regime and severity of winters on the Aral Sea. Temnikov, S.N., [1979, p.75-81, rus] 34-2415

—Azov Sea

Speed of icebreaker movement in the Azov Sea. Siniurin, IU., [1980, p.20-21, rus] 34-3643

—Barguzin River

Hydrogeologic and land reclamation conditions of the Khotay swamp in the Barguzin depression. Zamana, L.V., [1979, p.24-33, rus] 34-4097

—Baykal Lake

Development of hydro-optical studies of the Lake Baykal. Sherstiankin, P.P., [1979, p.16-27, rus] 34-876

Modeling lake landscapes of the Selenga River delta, its dynamics and development. Bogoiavlenskii, B.A., [1979, p.105-128, rus] 34-1071

Environment-forming role of forests in the Lake Baykal Basin. Lebedev, A.V., et al, [1979, 256p., rus] 34-1190

Scientific approaches to the problems of mountain landscape preservation. Fadeeva, N.V., et al, [1973, p.16-24, rus] 34-1864

Forest protection in the northern Lake Baykal Basin. Tkachenko, A.I., [1973, p.93-98, rus] 34-1872

Role of seasonal ground freezing in ground water regimes of the area east of Lake Baykal. Blokhin, IU.I., [1979, p.96-101, rus] 34-1940

Hydrogeological conditions of paluded lands in the Ust'-Selenga trough. Adushinov, A.A., [1976, p.27-35, rus] 34-2053

Temperature regime of Baykal Lake shore deposits near Kurla Cape. Liubomirov, A.S., [1978, p.58-65, rus] 34-2946

Use of the water resources of Lake Baykal and of the Angara River and an estimate of the change in their quality and elements of the hydrologic regime. Ivanov, N.I., [1977, p.307-309, eng] 34-3020

Dynamics of the Baykal shore processes on the Tyya-Nizhneangarsk section. Bodenko, V.M., et al, [1980, 6p., eng] 34-3400

Forests of the Lake Baykal area (types of forest, microclimatology, characteristics of forest-forming species). Panarin, I.I., [1979, 263p., rus] 34-3759

Annual distribution of water balance elements through the altitudinal forest belts of the Lake Baykal Basin. Lebedev, A.B., et al, [1979, p.83-95, rus] 34-3774

Hydromelioration of lands in the Buryat ASSR. Borisenko, I.M., ed, [1979, 110p., rus] 34-4095

Seasonal variations of soil formation in the Lake Baykal area. Snytko, V.A., et al, [1979, p.36-48, rus] 34-4163

—Baykal Range

Gramna Lakes in the Baykal Amur railroad area. Mats, V.D., et al, [1980, 87p., rus] 34-3268

—Bol'shezemel'skaya Tundra

Flora and fauna of water bodies in the European North (Bol'shezemel'skaya Tundra taken as an example). Getsen, M.V., ed, [1978, 191p., rus] 34-1191

—Bratsk

Young Pioneer camp boarding house "Severnyi Artek" of the Bratsk lumber industry complex. Grinev, S., [1979, p.28-29, rus] 34-3925

—Bureya River

Slope development dynamics in the Zeya-Bureya Plain. Popov, IU.I., [1979, p.15-20, rus] 34-4103

—Carpathian Mountains

Heavy snowfalls and avalanches in the 1975-76 winter season in the Ukrainian Carpathian. Grishchenko, V.F., et al, [1978, p.86-90, rus] 34-2052

—Caspian Sea

Oceanographic characteristics in the Caspian Sea near the ice edge. Kosarev, A.N., et al, [1979, p.170-180, rus] 34-3185

—Caucasus

Seasonal and long-term dynamics of vegetation near the Dzhankuat glacier (Central Caucasus). Turmanina, V.I., et al, [1979, p.64-75, rus] 34-1756

Evaluating accumulative effects of a catastrophic avalanche in the Elbrus Mountain area. Zolotarev, E.A., et al, [1979, p.47-53, rus] 34-1758

Scientific basis for combined studies of Alpine regions. Nazarov, A.G., [1975, p.98-100, rus] 34-1855

Degradation of compound valley glaciers in the Caucasus in the 20th century. Panov, V.D., [1979, p.132-138, rus] 34-3128

Types of snow cover development determining avalanche formation processes in the El'brus Mountain area. Salova, T.A., [1979, p.223-228, rus] 34-3145

Disastrous avalanches in Svanetia in Winter 1975-76. Dziuba, V.V., et al, [1979, p.228-234, rus] 34-3146

Snow physics, avalanches, mudflows. Zalikhanov, M.Ch., ed, [1980, 160p., rus] 34-3411

Effective radiation and radiation balance in the Caucasus. Samukashvili, R.D., [1980, p.98-110, rus] 34-3425

Snow cover effect on annual variations of reflected radiation and albedo in the Caucasus. Samukashvili, R.D., [1980 p.111-122, rus] 34-3426

Diffuse radiation in the Caucasus. Samukashvili, R.D., [1980, p.123-129, rus] 34-3427

Mudflows in the Baksan River Basin in the summer of 1977. Gerasimov, V.A., [1980, p.137-147, rus] 34-3429

Mudflow damage to the village of Nizhniy Chegem on July 7, 1977. Gerasimov, V.A., [1980, p.148-151, rus] 34-3430

Compiling 1:3 000 000 glacioclimatic maps for the World Atlas of Snow and Ice Resources. Davidovich, N.V., et al, [1979, p.66-71, rus] 34-3693

Rock glaciers in Dagestan mountains (East Caucasus). Kozhevnikov, A.V., et al, [1980, p.14-26, rus] 34-3903

Regime of the present-day glaciation of the Caucasus. Kotliakov, V.M., et al, [1979, p.7-21, eng] 34-3970

—Central Asia

History of snow survey development in Central Asia. Akhundzhanov, Sh.M., [1979, p.31-40, rus] 34-1124

Calculating and forecasting glacier ablation in Central Asia. Konovalov, V.G., [1979, 232p., rus] 34-1139

—Chelyuskin Cape

Microflora in polar desert soils of Cape Chelyuskin. Parinkina, O.M., [1979, p.28-34, rus] 34-3035

Vascular plants of Cape Chelyuskin. Safronova, I.N., [1979, p.50-53, rus] 34-3036

Some chemical properties of Cape Chelyuskin soils. Chugunova, M.V., [1979, p.74-77, rus] 34-3039

—Cherskiy Mountains

Rock temperature in the central part of the Cherskiy Mountains. Dorofeev, I.V., [1978, p.79-86, rus] 34-2948

—Chukotskiy Peninsula

Geocryological conditions of the Anadyr liman shores. Liubomirov, A.S., [1979, p.47-56, rus] 34-2774

Ice loads at the Arctic shores of Chukotka. Popova, O.P., [1979, p.69-72, rus] 34-3531

Regularities governing plant distribution with respect to snow cover in the southeastern Chukotskiy Peninsula. Balandin, S.A., et al, [1979, p.24-25, rus] 34-4221

—Dvina River

Estimation of the possible changes in the ice and thermal regimes of the northern Dvina River under the effect of partial runoff withdrawal. Donchenko, R.V., et al, [1978, p.186-191, eng] 34-4059

—Dzhungarskiy Alatau

Snow avalanches in Zailiyskiy and Dzungarskiy Alatau. Severskii, I.V., [1978, 256p., rus] 34-3072

—El'brus Mountain

Avalanche regime of the El'brus Mountain area. Urumbaev, N.A., [1980, p.13-20, rus] 34-3413

—Far East

Pressing environmental protection problems in the Far East. Konovalenko, V.G., ed, [1978, 179p., rus] 34-2532

Some aspects of environmental protection in the Far Eastern USSR. Konovalenko, V.G., [1978, p.3-6, rus] 34-2533

Peculiarities of flora in the West Okhotsk Sea area. Shlotgauer, S.D., [1979, p.42-47, rus] 34-4087

—Franz Josef Land

Permafrost conditions of Franz Josef Land. Kondrat'eva, K.A., [1980, p.76-101, rus] 34-4124

—Gydan Peninsula

Temperature of Gydan Peninsula permafrost. Trofimov, V.T., et al, [1980, p.102-111, rus] 34-2765

—Iengra River

Formation of chemical composition of ground water in the Iengra River Basin (Baykal Amur railroad route) Boltsov, A.V., [1978, p.169-176, rus] 34-2934

—Irkutsk

Temperature regime of southern chernozems in the Irkutsk region, subject to long seasonal freezing, and their thermal melioration. Karnaukhov, N.I., et al, [1978, p.94-95, rus] 34-3360

—Irtysh River

Possible landscape changes in the Lower Irtysh River area. Maslennikova, V.V., et al, [1980, p.49-53, rus] 34-3028

Microflora and biological activity of flood-plain soils in the Lower Irtysh River area. Nikitina, V.G., [1978, p.81-88, rus] 34-3612

—Kama River

Forecasting spring water inflow into the Kama reservoir allowing for rainfall. Liapunova, I.B., et al, [1979, p.15-25, rus] 34-1077

—Kamchatka Peninsula

Statistical approach to the study of glacier morphology in the Kamchatka Peninsula. Vinogradov, V.N., et al, [1979, p.325-329, rus] 34-1388

Rock temperatures in the Kamchatka Peninsula. Zamolotchikova, S.A., et al, [1979, p.102-118, rus] 34-1918

Role of Kamchatka glaciers in river alimentation and the formation of solid runoff. Stepanova, A.I., [1979, p.110-116, rus] 34-2897

History of permafrost development on Kamchatka Peninsula. Zamolotchikova, S.A., [1980, p.102-110, rus] 34-4125

—Karelia

Soil formation on sandy deposits in Karelia. Morozova, R.M., [1978, p.4-43, rus] 34-2253

Iron and organic matter migration in sandy podsols. Lazareva, I.P., [1978, p.67-71, rus] 34-2256

—Kazakhstan

Secrets of natural ice in Kazakhstan. Tokmagambetov, G.A., [1978, 151p., rus] 34-2312

—Khamar Daban Range

Selective felling effect on water-controlling properties of Khamar-Daban pine forests. Biziukin, V.V., [1979, p.69-78, rus] 34-3772

Seasonal dynamics of green biomass of the grass-shrub zone of typical plant communities on the northern slope of the Khamar-Daban Range. Vasil'chenko, Z.A., [1979, p.46-51, rus] 34-4092

—Kola Peninsula

Hydrothermal regime of autonomous sandy soils. Erukov, G.V., [1978, p.44-58, rus] 34-2254

Introduction of indigenous plants in the northern Kola Peninsula. Andreev, G.N., [1979, p.3-14, rus] 34-3228

Acclimatization of introduced plants and ways to hasten it in high latitudes. Agaev, M.G., [1979, p.15-25, rus] 34-3229

Changes in ecosystems of northern Kola Peninsula due to human activities. Kriuchkov, V.V., et al, [1979, p.39-42, rus] 34-4224

—Kolyma

Development of Pleistocene-Holocene glaciation of the Verkhoyansk-Kolyma Highlands. Shelnkman, V.S., [1978, p.87-104, rus] 34-2949

Synoptic-statistical method of evaluating the possibility of southerly storm formation and velocity. Zimich, P.I., [1979, p.36-41, rus] 34-3529

—Kolyma River

Organizing the preliminary period of the Kolyma hydroelectric power plant construction. Pavlov, B.N., et al, [1979, p.44-47, rus] 34-1850

Forecasting ice formation at the Kolyma River bay-mouth bar. Furmanov, O.M., [1979, p.130-132, rus] 34-3537

—Kungey Alatau

Recent glaciation of the Kungey Alatau Range. Vilesov, E.N., [1979, p.132-142, rus] 34-1982

—Kuznetskiy Alatau

New data on rock temperatures in the Minusinsk trough and Kuznetskiy Alatau Range. Shats, M.M., [1978, p.19-26, rus] 34-2942

—Lena River

Geocryologic-lithologic map of an interstream plateau. Klimovskii, I.V., [1978, p.105-112, rus] 34-2950

Use of ice jam typification from aircraft observation data in forecasting maximum stages in the Lena River. Rudnev, A.S., [1978, p.53-56, eng] 34-3964

Botanical objects of environmental protection near the lower Lena River. Trufanova, E.R., [1979, p.20-23, rus] 34-4108

—Leningrad

Winter floods in Leningrad and their study by empirical and hydrodynamic methods. Drabkin, V.V., et al, [1978, p.246-249, eng] 34-4061

—Magadan

Rational use and preservation of Magadan area forests. Snytkin, G.V., [1973, p.119-125, rus] 34-1875

Subarctic watershed research in the Soviet Union. Slaughter, C.W., et al, [1978, p.305-313, eng] 34-2390

USSR

—Magadan *(cont.)*

Geocryologic-hydrologic regionalization of the northeastern Magadan region. Ivanova, L.D., [1979, p.60-68, rus] **34-2776**

—Muostakh Island

Cryogenic sediments of the Muostakh Island. Ivanov, M.S., et al, [1978, p.12-25, rus] **34-2917**

—Noril'sk

Using "ifzanite" explosives in the Noril'sk Mining Concern. Mamashev, IU.P., et al, [1979, p.29-30, rus] **34-1838**

—Novaya Zemlya

Palynological investigations in Severnaya Zemlya related to spore and pollen transfer in the high altitude Arctic. Kalugina, L.V., et al, [1979, p.330-334, rus] **34-1389**

Novaya Zemlya map of permafrost temperature; scale 1:2,500,000. Kondrat'eva, K.A., [1979, p.80-101, rus] **34-1917**

—Novosibirsk

Interpreting meso- and microclimatic peculiarities of large cities for urban planning (Novosibirsk taken as an example). Pivkin, V.M., [1979, p.48-54, rus] **34-2620**

—Ob' Bay

Recent geological processes and phenomena observed on the southern shore of Ob' Bay. Trepetsov, E.V., [1980, 4p., eng] **34-3402**

—Ob' River

More precise position of the southern permafrost boundary between the Urals and the Ob' River. Dubikov, G.I., [1980, p.347-356, eng] **34-3850**

—Obikhingou River

Snow cover distribution in the Obikhingou River basin. Sannikov, A.G., [1979, p.24-30, rus] **34-1123**

—Okhotsk Sea

Components of forest tundra biogeocenoses in northern Okhotomor'e. Ignatenko, I.V., ed, [1977, 149p., rus] **34-1158**

—Olenek River

Geocryologic-lithologic map of an interstream plateau. Klimovskii, I.V., [1978, p.105-112, rus] **34-2950**

—Pamirs

Evaluating avalanche danger in unexplored areas of the Pamirs. Bilialov, K.B., [1979, p.68-74, rus] **34-1128**

Firn-ice avalanches in the Fortambek glacier basin. Freifel'd, V.IA., [1979, p.95-103, rus] **34-1131**

Studying atmospheric pollution from glacial deposit analysis. Voronskaia, G.N., et al, [1979, p.146-151, rus] **34-1138**

Extent of glaciation in the Pamirs and factors affecting it. Rototaeva, O.V., [1979, p.33-41, rus] **34-2178**

Vegetational indices of precipitation in the Alpine belts of the Pamirs. Agakhaniants, O.E., et al, [1979, p.61-67, rus] **34-2182**

Ground ice and naleds in the Pamirs. Koretsha, M.M., [1979, p.71-76, rus] **34-2184**

Late quaternary ice cover of the Pamirs. Grosval'd, M.G., et al, [1979, p.85-97, rus] **34-2187**

Regionalization of the Pamirs for tourist maps. Suprunenko, IU.P., [1979, p.101-108, rus] **34-2189**

Perennialy frozen lacustrine deposits of East Pamir and Central Tien Shan. Ermolin, E.D., [1978, p.11-19, rus] **34-2941**

Influence of the Indian monsoon on glaciation in the Pamirs. Arushanov, M.L., et al, [1979, p.143-150, rus] **34-3130**

Compiling 1:600 000 glacier morphology maps of the eastern Pamirs and the Juneau Ice Field. Varnakova, G.M., et al, [1979, p.42-47, rus] **34-3689**

Permafrost in the mountains of Central Asia. Gorbunov, A.P., [1980, p.257-369, eng] **34-3851**

Chemical composition of snow and ice of the highest Pamir glaciers. Diurgerov, M.B., et al, [1980, p.67-71, rus] **34-3902**

Discovery of the Tanymas country. Gorbunov, A., [1979, p.97-102, rus] **34-4139**

—Peter the Great Bay

Mechanism of winter blooming of microalgae in Peter the Great Bay (Sea of Japan). Vyshkvartsev, D.I., et al, [1979, p.53-54, eng] **34-2401**

—Pyasina River

Morphology and temperature of recent perennially frozen rocks in the shore and shallow-water areas of northern Yenisey and Pyasina rivers. Karpov, E.G., [1978, p.105-114, rus] **34-2927**

—Sakhalin Island

Minimum winter drainage of Sakhalin rivers. Bykadorova, A.IA., [1979, p.107-109, rus] **34-2896**

—Sannikov Strait

Permafrost dynamics on the shores of the Sannikov Strait. Fartyshev, A.I., [1978, p.25-37, rus] **34-2918**

—Sayan Mountains

Microclimatic variations and pine forest revegetation in relation to economic development of the Sayan low mountain belt. Gaas, A.A., [1973, p.78-87, rus] **34-1870**

Geocryologic zonation in Altai and Sayan mountains. Shats, M.M., [1978, p.27-33, rus] **34-2943**

Geosystems of the West Sayan foothills. Antipov A.N., et al, [1979, 319p., rus] **34-3226**

Intracontinental version of earth's cryosphere. Reviakin, V.S., [1977, p.12-35, rus] **34-3381**

—Selenga River

Modeling lake landscapes of the Selenga River delta, its dynamics and development. Bogoiavlenskii, B.A., [1979, p.105-128, rus] **34-1071**

Hydrogeological conditions of paluded lands in the Ust'-Selenga trough. Adushinov, A.A., [1976, p.27-35, rus] **34-2053**

—Severnaya Zemlya

Thermohydrodynamic calculations of the Vavilov Ice Dome regime, Severnaya Zemlya. Verbitskii, M.IA., et al, [1979, p.81-86, rus] **34-3122**

—Siberia

Evaluating the distribution and utilization of ground water resources in the south of East Siberia. Pinneker, E.V., et al, [1976, p.80-92, rus] **34-2643**

—Sikhote Alin

Properties of forest litter in relation to natural reforestation of green-moss spruce forest in northern Sikhote-Alin. Krupskaia, L.T., et al, [1980, p.93-95, rus] **34-2628**

Mudflows in the Kem River basin. Matveeva, F.I., et al, [1979, p.25-30, rus] **34-3562**

Preliminary analysis of natural conditions in Sikhote Alin in relation to avalanche danger. Glubokov, V.N., et al, [1979, p.56-61, rus] **34-3565**

Avalanche danger on Lysaya Mountain (southern Sikhote Alin range). Ratnikov, A.V., [1979, p.62-63, rus] **34-3566**

—Stanovoy Range

Amount of geocryologic information obtained from local space photographs under the conditions of Aldan-Stanovoy region. Gavrilov, A.V., [1980, p.127-137, rus] **34-4129**

—Suntar-Khayat Range

Ground ice in the area of a mountain pass in the Suntar-Khayat Range. Gordeev, P.P., [1978, p.123-130, rus] **34-2953**

—Tadzhikistan

Snow cover distribution in the mountains of Tadzhikistan. Burichenko, A.I., et al, [1979, p.120-126, rus] **34-2191**

—Taymyr Peninsula

List of publications based on materials from the Agapa Taymyr research station. [1979, p.203-206, rus] **34-1066**

Fodder lichen increment and distribution in the northern Yenisey Region. Shchelkunova, R.P., [1979, p.1111-1121, rus] **34-1446**

Fruiting of Arctic plants (Western Taymyr). Khodachek, E.A., [1979, p.1147-1158, rus] **34-1447**

Formation of larch wood in Taymyr. Kandelaki, A.A., [1979, p.64-69, rus] **34-1951**

Arctic tundras and polar deserts of Taymyr Peninsula. Aleksandrova, V.D., ed, [1979, 206p., rus] **34-3033**

Structure of vegetational cover in polar deserts of the Taymyr Peninsula (Cape Chelyuskin). Matveeva, N.V., [1979, p.5-27, rus] **34-3034**

Vegetation in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Matveeva, N.V., [1979, p.78-109, rus] **34-3040**

Regularities governing zonal distribution of communities in Taymyr Peninsula. Chernov, IU.I., et al, [1979, p.166-200, rus] **34-3047**

Root system of the Gmelinii larch at its extreme distribution line in the Far North (Taymyr). Dem'ianov, V.A., [1980, p.570-573, rus] **34-3557**

Effect of human activities on the vegetational cover of Taymyr. Shchelkunova, R.P., [1979, p.139-152, rus] **34-4175**

—Terek River

Compiling avalanche cadasters for the Terek River Basin. Kozhaev, D.A., [1980, p.87-93, rus] **34-3423**

—Tien Shan

Chonkemin Valley terraces and the glaciation of northern Tien Shan. Bylinskaia, L.N., [1979, p.137-143, rus] **34-1073**

Helicopter gamma-survey of snow cover in West Tien Shan mountains. Getker, M.I., et al, [1979, p.3-14, rus] **34-1121**

Avalanche activity in the Kyzylcha River Basin, West Tien Shan. Gapishko, V.G., [1979, p.85-94, rus] **34-1150**

Snow cover of the Kirgiz Highlands. Dikikh, A.N., [1978, 101p., rus] **34-2668**

Perennialy frozen lacustrine deposits of East Pamir and Central Tien Shan. Ermolin, E.D., [1978, p.11-19, rus] **34-2941**

Some results of experimental gamma surveys of snow cover in mountains. Getker, M.I., et al, [1980, p.67-72, rus] **34-3549**

Morphological properties of the Tien Shan glacier system in the 1:1 500 000 maps of the World Atlas of Snow and Ice Resources. Vinogradov, O.N., et al, [1979, p.47-56, rus] **34-3690**

Permafrost in the mountains of Central Asia. Gorbunov, A.P., [1980, p.257-369, eng] **34-3851**

Regularities governing the development of the topography and glaciers of Tien Shan. Zabirov, R.D., ed, [1980, 110p., rus] **34-4004**

—Transbaikal

Hydrogeological conditions of Yelanskiy artesian basin (Transbaikal). Bakhlov, A.S., [1979, p.53-58, rus] **34-717**

Regularities governing the distribution of soils and vegetational covers in southern Transbaikal. Dmitrieva, E.V., [1979, p.427-432, rus] **34-1390**

Role of mineral fertilizers in the increase of productivity of cryogenic soils in Eastern Transbaikal. Gershevich, E.G., et al, [1975, p.161-162, rus] **34-1860**

Role of mountain forests of eastern Transbaikal and the Lake Baykal problem. Panarin, I.I., [1973, p.98-102, rus] **34-1873**

Protection of mountain forests as a dependable water supply basis of Transbaikal. Tsyganok, V.I., [1973, p.135-138, rus] **34-1876**

Temporary variations in subsurface drainage of southwestern Transbaikal. Khaustov, A.P., [1979, p.91-96, rus] **34-1939**

Recent relief-forming processes in Siberia. Ivanovskii, L.N., ed, [1978, 139p., rus] **34-2293**

Frost heave in Transbaikal steppes. Bazhenova, O.I., [1978, p.109-126, rus] **34-2298**

Baykal Amur railroad and economic development of the Transbaikal region. Nedeshev, A.A., et al, [1979, 158p., rus] **34-2483**

Vegetational resources of Transbaikal, their preservation and use. Bolkov, T.G., ed, [1979, 97p., rus] **34-4091**

Hydromelioration of lands in the Buryat ASSR. Borisenko, I.M., ed, [1979, 110p., rus] **34-4095**

Hydrogeologic-land reclamation regionalization of the Lake Baykal area and Western Transbaikal. Borisenko, I.M., [1979, p.5-15, rus] **34-4096**

Regularities governing formation of rock streams in North Transbaikal (Southern Muyskiy Range). Tiurin, A.I., et al, [1980, p.138-144, rus] **34-4130**

—Tyumen'

Taking inventory of natural grasslands by large-scale surveys of the Ob'-Irtysh floodplain, Tyumen' Region. Aseeva, A.I., [1979, p.57-80, rus] **34-1102**

Landscapes affected by industrial activities in permafrost areas of the northern Tyumen' region. Grigor'ev, N.F., [1979, p.35-44, rus] **34-1510**

Lowering transportation costs of gas field development in the northern Tyumen' area. Strubtsova, L.M., [1980, p.17-18, rus] **34-2597**

From quantity to quality. Antonov, A.F., et al, [1979, p.18-20, rus] **34-2635**

Sandy soils in the southern Taz River Basin. Ovchinnikov, S.M., [1979, p.172-180, rus] **34-2744**

—Ural Mountains

Rational utilization of Ural Mountain forests. Zubareva, R.S., et al, [1973, p.70-78, rus] **34-1869**

New glaciers on the Tel'pos-iz range. Dolgushin, L.D., et al, [1979, p.214-218, rus] **34-3143**

Large scale mapping of southern taiga vegetation in the Central Ural Mountains. Gorchakovskii, P.L., et al, [1977, p.3-15, rus] **34-3363**

Areal distribution of snow reserves over the Polar Urals. Gokhman, V.V., et al, [1979, p.177-182, rus] **34-3710**

More precise position of the southern permafrost boundary between the Urals and the Ob' River. Dubikov, G.I., [1980, p.347-356, eng] **34-3850**

—Verkhoyansk

Development of Pleistocene-Holocene glaciation of the Verkhoyansk-Kolyma Highlands. Shelnkman, V.S., [1978, p.87-104, rus] **34-2949**

—Vilyuy River

In fruitful friendship with science. Biianov, G.F., [1979, p.7-10, rus] **34-4151**

Thermal regime variations in the Vilyuy hydroelectric power plant dam during operation. Medvedev, B.A., et al, [1979, p.20-26, rus] **34-4153**

—Volga River

Short-range forecasting of fall and winter ice dam levels on the lower Volga at Chernyy Yar. Bukharitsin, P.I., [1980, p.90-95, rus] **34-3664**

—White Sea

"Arctic" problems in the biology of the White Sea. Khlebovich, V.V., [1979, p.13-15, rus] **34-4218**

—Wrangel Island

Connection between ice conditions of the Wrangel area and atmospheric circulation indices of preceding seasons. Santsevich, T.I., et al, [1979, p.30-39, rus] **34-2996**

Analyzing temperature dependence of photosynthesis in closely related plants of Arctic and temperate latitudes P'iankov, V.I., [1980, p.37-41, rus] **34-4145**

—Yakutia

Seasonal freezing effect on hydrogeological conditions of the Chul'man Basin. Buldovich, S.N., [1979, p.60-67, rus] **34-1394**

Changes in moisture and thermal regimes of cryogenic soils in Central Yakutia during agricultural development Gavril'ev, P.P., [1979, p.130-147, rus] **34-1520**

Melioration and regionalization of cryogenic soils in Yakutia. Elovskaia, L.G., et al, [1978, 175p., rus] **34-1648**

Soils of northern Yakutia. Elovskaia, L.G., et al, [1979, 303p., rus] **34-1652**

New data on geocryological structure of swamps in southern Yakutia. Chizhov, A.B., et al, [1979, p.134-140, rus] **34-1921**

Studies of geobotanical indices in the medium-scale combined geocryologic survey of southern Yakutia. Melent'ev, V.S., [1979, p.154-158, rus] **34-1923**

Structure and absolute geochronology of alassy deposits in Central Yakutia. Katasonov, E.M., ed, [1979, 95p., rus] 34-1931

Coal mine construction according to the projects of the Siberian State Planning Design and Experimental Institute of Mining. Materi, V.G., [1979, p.6-7, rus] 34-2697

Geocryological mapping of South Yakutia from satellite photographs. Nekrasov, I.A., et al, [1979, p.3-16, rus] 34-2770

Length of ground thawing season in East Yakutia. Vasil'ev, I.S., [1979, p.74-83, rus] 34-2778

Naleds in the Aldan-Timpton interfluve. Chizhova, N.I., [1980, p.60-63, rus] 34-2801

Geocryologic and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, [1978, 187p., rus] 34-2915

Thickness of the seasonally freezing surface layer in Yakutia. Solov'ev, P.A., [1978, p.3-12, rus] 34-2916

Characteristics of the construction of frozen dams in Western Yakutia. Biianov, G.F., et al, [1980, p.213-226, eng] 34-3247

Cryogenic hydrogeochemical changes in alluvial deposits due to economic development of Central Yakutia. Anisimova, N.P., [1980, p.107-111, rus] 34-3296

Transportation under economic and geographic conditions of the Yakut ASSR. Belinskii, B.V., ed, [1976, 104p., rus] 34-3337

Influence of procurement forms on magnitude of industrial supplies. Belinskii, B.V., et al, [1976, p.4-27, rus] 34-3338

Freight traffic irregularities on rivers of the Yakut ASSR. Zav'ialov, S.IA., [1976, p.28-40, rus] 34-3339

Extending the navigation period on Yakutian rivers. Zernov, S.IA., [1976, p.41-51, rus] 34-3340

Cryopedometer (design and application). Tishin, M.I., [1979, p.31-33, rus] 34-3469

Forest fires in Yakutia and their influence on forest environments. Shcherbakov, I.P., et al, [1979, 224p., rus] 34-3601

Climatic peculiarities of West Yakutia. Spesivtseva, N.A., [1980, p.87-95, rus] 34-4043

Special geocryologic-engineering-geologic regionalization of coal mining areas in South Yakutia. Kozlov, A.N., et al, [1980, p.111-115, rus] 34-4126

In fruitful friendship with science. Biianov, G.F., [1979, p.7-10, rus] 34-4151

Natural reestablishment of vegetational cover in Central Yakutia. Nakhabtseva, S.F., [1979, p.48-49, rus] 34-4225

—Yenisey River

Ice conditions as an index of recent trends of climatic cooling on the lower reaches of the Yenisei. Antonov, V.S., [1979, p.98-105, eng] 34-1902

Water resourses of the Yenisey River basin and their mapping. Cherkasov, A.E., [1976, p.91-98, rus] 34-2008

Morphology and temperature of recent perennially frozen rocks in the shore and shallow-water areas of northern Yenisey and Pyasina rivers. Karpov, E.G., [1978, p.105-114, rus] 34-2927

Experience of using an ice protection dam in the lower course of the Yenisey River. Samochkin, V.M., et al, [1977, p.51-55, rus] 34-3174

—Zailiyskiy Alatau

Relation between orography and recent glaciation of Zailiyskiy Alatau. Vilesov, E.N., [1977, p.60-76, rus] 34-1094

Thermal regime of glacial zone on the northern slope of Zailiyskiy Alatau during cold period. Denisova, T.IA., [1979, p.3-17, rus] 34-1971

Calculating snow reserves in the glacial zone of Zailiyskiy Alatau. Sudakov, P.A., et al, [1979, p.27-36, rus] 34-1973

Snow avalanches in Zailiyskiy and Dzungarskiy Alatau. Severskii, I.V., [1978, 256p., rus] 34-3072

—Zeya River

Vegetation of the West Okhotsk area. Shlotgauer, S.D., [1978, 132p., rus] 34-967

Antecedent and recent stream pattern of the Amur-Zeya Plain from spaceborne photography. Muzis, A.I., [1979, p.75-80, rus] 34-1070

Cryogenic structure of loose deposits in the southern part of the upper Zeya plain and the Ogoronsk Basin. Misharina, N.K., [1978, p.97-105, rus] 34-2926

Slope development dynamics in the Zeya-Bureya Plain. Popov, IU.I., [1979, p.15-20, rus] 34-4103

—Zyryanka River

Geocryologic and geothermal conditions of the Zyryanka coal province. Dorofeev, I.V., [1979, p.68-74, rus] 34-2777

Geocryologic characteristics of the central Zyryanka River basin. Vasil'ev, I.S., et al, [1978, p.66-78, rus] 34-2947

Utilities

Shallow pipelines heated by electric cables. Kardymon, V.F., [1979, p.9, rus] 34-240

Assembling polyvinylchloride pipes in freezing weather. Alesker, IA.B., et al, [1979, p.16-17, rus] 34-244

Anchorage wastewater treatment. West, C.E., et al, [1975, p.187-195, eng] 34-635

Water and sanitation in the Northwest Territories: an overview of the setting, policies and technolcgy. Cameron, J.J., et al, [1977, p.4-12, eng] 34-695

Annotated bibliography on northern environmental engineering 1976-1977. Armstrong, B.C., comp, [1979, 132p., eng] 34-739

Improving natural ventilation of underground utility ducts under permafrost conditions. Ivont'ev, V.V., [1974, p.127-136, rus] 34-760

Report of the Joint U.S.-Canadian Northern Civil Engineering Research Workshop. Carlson, R.F., ed, [1978, 72p., eng] 34-771

International Symposium on Wastewater Treatment in Cold Climates, University of Saskatchewan, August 22-24, 1973. Davis, E., ed, [1974, 595p., eng] 34-1465

Evaluation of waste disposal practices in Alaskan villages. Alter, A.J., [1974, p.1-28, eng] 34-1466

Alaska village demonstration projects: first generation of integrated utilities for remote communities. Reid, B.H., [1974, p.549-569, eng] 34-1489

Symposium on Human Settlements Planning and Development in the Arctic. [1978, c455p., eng] 34-1767

Alaska village demonstration projects. Reid, B.H., [1980, 52p., eng] 34-4078

Vacuum freezing

Dehydration of nonmetalliferous construction materials at low temperatures. Gurevich, V.G., et al, [1980, 70p., rus] 34-3824

Valleys

Experimental studies of the thermal regime of permafrost slopes of a stream valley at their junction with a filter dam. Belan, V.I., [1979, p.97-100, rus] 34-852

History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, [1979, 215p., rus] 34-1067

History of river valley development as a basis for designing land irrigation with ground water in Buryat-Mongol ASSR. Bazarov, D.B., et al, [1979, p.62-66, rus] 34-1068

Recent tectonics and river valleys in the Ilim, Ust'-Kutsk and Katanga areas in relation to land reclamation problems. Zveder, L.N., [1979, p.71-75, rus] 34-1069

Geocryological conditions in the Yenisey River Valley (the Dudinka area) and changes induced by human activities. Kondrat'ev, V.G., et al, [1979, p.89-97, rus] 34-1515

Regularities governing natural phenomena and their forecasting. Agarkov, S.I., ed, [1980, 271p. (Pertinent p.87-162), rus] 34-2529

Origin of ground ice layers in the Yenisey River Valley. Kazanskii, O.A., [1979, p.136-143, rus] 34-2785

Buried valleys as a possible determinant of the distribution of deeply buried permafrost on the continental shelf of the Beaufort Sea. Hopkins, D.M., et al, [1979, p.135-141, eng] 34-3057

Possibility of mudflows in the Angarakan River valley. Murzin, IU.A., [1979, p.27-31, rus] 34-3468

Uninterrupted periods of strong winds (>15m/s) over West Siberia and Altai territory. Slutskii, V.I., et al, [1979, p.31-40, rus] 34-3578

Temperate valley glaciers. Raymond, C.F., [1980, p.79-139, eng] 34-3657

Valves

Water cock with non-freezing valve. Nakajima, K., et al, [1978, 6 col., eng] 34-276

Vapor barriers

Snow soil interactions in interior Alaska. Santeford, H.S., [1979, p.311-318, eng] 34-1028

Vapor diffusion

Growth of ice discs from the vapor and the mechanism of habit cha..ge of ice crystals. Keller, V.W., et al, [1980, p.458-464, eng] 34-3407

Influence of the diffusion of vapor and heat on the morphology of ice crystals grown from the vapor. Gonda, T., [1980, p.173-181, eng] 34-4083

Vapor transfer

Increased mercury contamination of distilled and natural water samples caused by oxidizing preservatives. Cragin, J.H., [1979, p.313-319, eng] 34-2004

Variations

Viscoelastic finite-element analysis of floating ice islands. Swamidas, A.S.J., et al, [1979, p.183-204, eng] 34-931

See also: Glacier oscillation; Periodic variations; Seasonal variations; Temperature variations

Vegetation

Method for reducing frost damage of plants. Arny, D.C., et al, [1977, 4 col., eng] 34-148

Studying structures of some landscape facies in the Koibal'sk steppe. Purdik, L.N., [1979, p.84-100, rus] 34-677

Utilization of sewage sludge for terrain stabilization in cold regions, Part 2. Gaskin, D.A., et al, [1979, 36p., eng] 34-746

Fall off and litter of coniferous forests in Valday. Grishina, L.A., et al, [1979, p.15-50, rus] 34-1060

Microelements in the lower layer of Valday station spruce forest. Belitsyna, G.D., et al, [1979, p.87-92, rus] 34-1063

Microorganism dynamics in spruce forest soils. Skvortsova, I.N., [1979, p.93-99, rus] 34-1064

Maganese oxidizing bacteria in the Valday station soils. Bolotina, I.N., [1979, p.100-107, rus] 34-1065

Ground temperature variations during the economic development of the northern Amur River area. Balobaev, V.T., et al, [1979, p.74-88, rus] 34-1514

Geocryological conditions in the Yenisey River Valley (the Dudinka area) and changes induced by human activities. Kondrat'ev, V.G., et al, [1979, p.89-97, rus] 34-1515

Arctic adaptations in plants. Savile, D.B.O., [1972, 81p., eng] 34-1776

Agricultural development of the Ob'-Irtysh flood plain meadows in northern Tyumen'. Aseeva, A.I., [1978, p.123-127, rus] 34-2251

Biological cycle of substances in cowberry and lichen pine forests. Morozova, R.M., [1978, p.85-112, rus] 34-2258

Alpine and subalpine vegetation under the influence of non-native mountain goats, Olympic National Park. Olmsted, I.C., [1979, p.1143-1148, eng] 34-2266

Biogeocenologic studies in planted meadows of East-European tundra. Archegova, I.B., ed, [1979, 190p., rus] 34-2306

Floristic regions of the world. Takhtadzhian, A.L., [1978, 247p., rus] 34-2362

Plant cold hardiness and freezing stress: mechanisms and crop implications. Li, P.H., ed, [1978, 416p., eng] 34-2426

Susitna River basin resource bibliography; supplement 1979. Lockhart, D., comp., [1979, 244p. eng] 34-2482

Reducing damage to roadside vegetation due to sodium ions in salt. Leisser, H., et al, [1979, p.486-487, ger] 34-2494

Arctic tundras and polar deserts of Taymyr Peninsula. Aleksandrova, V.D., ed, [1979, 206p., rus] 34-3033

Structure of vegetational cover in polar deserts of the Taymyr Peninsula (Cape Chelyuskin). Matveeva, N.V., [1979, p.5-27, rus] 34-3034

Vascular plants of Cape Chelyuskin. Safronova, I.N., [1979, p.50-53, rus] 34-3036

Vegetation on specific thermokarst relief in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Sumina, O.I., [1979, p.118-132, rus] 34-3042

Latitudinal variations in the proportions of living vascular plants in Taymyr Peninsula. Polozova, T.G., [1979, p.154-159, rus] 34-3045

Classification of the vegetation of Boothia Peninsula and the northern District of Keewatin, N.W.T. Thompson, D.C., [1980, p.73-99, eng] 34-3321

Large scale mapping of southern taiga vegetation in the Central Ural Mountains. Gorchakovskii, P.L., et al, [1977, p.3-15, rus] 34-3363

Ecologic series technique for revealing regularities governing altitudinal distribution of vegetation. Famelis, T.V., [1977, p.22-27, rus] 34-3364

Components of biogeocenoses of the tundra-forest regions of the northern Okhotsk Sea region. Ignatenko, I.V., ed, [1980, 51p., eng] 34-3395

Physical-geographical conditions of the northern Okhotsk Sea region and the hydrothermal state of the soils ("Snow Valley Station"). Ignatenko, I.V., et al, [1980, p.5-23, eng] 34-3396

Vegetation of the "Snow Valley" station (Explanatory list with a diagram of vegetation). Shatkauskas, A.V., et al, [1980, p.24-35, eng] 34-3397

Flora of vascular plants of the "Snow Valley" station. Khokhriakov, A.P., et al, [1980, p.48-51, eng] 34-3399

Preliminary classification system for vegetation of Alaska. Viereck, L.A., et al, [1980, 38p., eng] 34-3434

Large-scale prognostic maps of mountain vegetation in Central Sikhote-Alin forests. Kiselev, A.N., [1979, p.8-21, rus] 34-3602

Far North: nature and man. Prospects of economic development. Kriuchkov, V.V., [1979, 127p., rus] 34-3668

Geochemical structure of West Sayan foothill geosystems. Kochurov, B.I., et al, [1977, p.59-72, rus] 34-3815

Postglacial dynamics of the northern border of the petiolate oak area in the USSR and phylocenogenesis of oak forests in the North. Denisov, A.K., [1980, p.3-11, rus] 34-3878

Community planning and development in Canada's Northwest Territories. Gerein, H.J.F., [1980, 175p., eng] 34-3984

Dynamics of vegetational cover and the development of cryogenic relief forms. Tyrnkov, A.P., [1979, 116p., rus] 34-4010

Formation and development of swamp systems. Kiriushkin, V.N., [1980, 88p., rus] 34-4014

Periglacial flora of the Katunskiy Range. Polozhii, A.V., et al, [1979, p.18-23, rus] 34-4085

Place of Alpine vegetation in the system of botanical-geographic mapping of high mountain regions. Sokhadze, E.V., [1979, p.104-110, rus] 34-4089

Short review of vegetation in the Baykal-Patomskoe Nagor'ye highlands. Rusiaeva, G.G., [1979, p.110-117, rus] 34-4090

Botanical objects of environmental protection near the lower Lena River. Trufanova, E.R., [1979, p.20-23, rus] 34-4108

Influence of tracked vehicles on tundra. Andreev, V.N., et al, [1979, p.42-47, rus] 34-4109

Development of vegetation at the bottom of drained thermokarst lakes in subarctic tundra. Galaktionova, T.F., [1979, p.48-50, rus] 34-4110

Vegetation *(cont.)*
Reaction of different landscapes to heat producing phenomena in the Oymyakon region. Amuzinskaia, T.P., [1979, p.55-56, rus] 34-4112
Analyzing temperature dependence of photosynthesis in closely related plants of Arctic and temperate latitudes. P'iankov, V.I., [1980, p.37-41, rus] 34-4145
Mosses as accumulators of radionuclides. Molchanova, I.V., et al, [1980, p.42-47, rus] 34-4146
Problems in rational utilization of natural resources and environmental control in North Siberia. Cherskiĭ, N.V., ed, [1979, 158p., rus] 34-4164
Effect of human activities on the vegetational cover of Taymyr. Shchelkunova, R.P., [1979, p.139-152, rus] 34-4175
Vegetation-snow relationships in Labrador. Adams, W.P., et al, [1979, p.1-25, eng] 34-4202
Symposium on biological problems of the North, 8th, Apatity, 1979. Abstracts of the papers. [1979, 177p., rus] 34-4213
See also: Forest vegetation

Vegetation factors
Parcellar structure of phytocenoses and the inhomogeneity of young soils in industrially disturbed landscapes. Taranov, S.A., et al, [1979, p.19-57, rus] 34-948
Soils of the East European tundra and forest tundra. Ignatenko, I.V., [1979, 280p., rus] 34-1649
Snow accumulation and disappearance as influenced by elevation, aspect and vegetation type in the State of Hesse, Germany. Brechtel, H.M., et al, [1979, p.31-42, eng] 34-1779
Forest and snow cover. Charlier, C., [1979, p.43-61, fre] 34-1780
Snow interception by pine stands in the Alpine foothills of Schwyz canton. Strobel, T., [1979, p.63-79, ger] 34-1781
Chemical composition of natural waters and migration of chemical substances in pine forest biogeocenoses. Strelkova, A.A., [1978, p.59-67, rus] 34-2255
Characteristics of subarctic snow cover. Fitzgibbon, J.E., et al, [1979, p.465-476, eng] 34-2268
Denudation of the eastern Baykal Amur railroad area caused by human activities. Sokol'skiĭ, A.M., [1979, p.159-164, rus] 34-2756
Temperature regime of Baykal Lake shore deposits near Kurla Cape. Liubomirov, A.S., [1978, p.58-65, rus] 34-2946
Thermal physics of permafrost terrain. Pavlov, A.V., [1980, p.46-61, eng] 34-3831
Formation and development of bald-peak ice in the mountains of Central Tien Shan, Siberia and the Far East. Tarakanov, A.G., [1980, p.96-107, rus] 34-4009

Vegetation patterns
Microrelief identification criteria of palsa bogs. Novikov, S.M., et al, [1979, p.14-26, rus] 34-827
Structure of moss synusiae in the spotty tundra of the Agapa research station. Tishkov, A.A., [1979, p.5-14, rus] 34-1059
Vertical distribution of live vascular phytomass in cottongrass tussock tundra. Shaver, G.R., et al, [1979, p.335-342, eng] 34-1286
Investigations of possible correlations of vegetation, substrate, and topography in interior Alaska. Neiland, B.J., [1975, c120 leaves, eng] 34-1357
Threatened and endangered plants in selected areas of the BLM Fortymile Planning Unit, Alaska. Batten, A.R., et al, [1979, 127p., eng] 34-1557
Vegetation and revegetation within permafrost terrain. Bliss, L.C., [1979, p.31-50, eng] 34-1681
Geobotanical maps and plant conservation provisions for economically developing areas of Central and Eastern Siberia. Belov, A.V., [1975, p.206-207, rus] 34-1862
Problems in experimental landscape science. Krauklis, A.A., [1979, 232p., rus] 34-2103
Ecology of alpine timberline in Olympic National Park. Fonda, R.W., [1979, p.209-212, eng] 34-2260
Plant reproduction in a High Arctic environment. Bell, K.L., et al, [1980, p.1-10, eng] 34-2272
Environmental studies in the central Quebec-Labrador Peninsula: Finnish contributions. [1980, 89p., eng] 34-2411
Ecological and phytocenological complexes of Asiatic Russia (Experience in mapping). Sochava, V.B., ed, [1977, 70p. + map, rus] 34-2437
Method of compiling and brief analysis of a correlative ecological and phytocenological map of Asiatic Russia, scale of 1:7,500,000. Buks, I.I., [1977, p.15-54, rus] 34-2438
Boreal ecology. Pruitt, W.O., Jr., [1978, 73p., eng] 34-2581
Seasonal dynamics of green biomass of the grass-shrub zone of typical plant communities on the northern slope of the Khamar-Daban Range. Vasil'chenko, Z.A., [1979, p.46-51, rus] 34-4092
Effects of zonality and environmental conditions on horizontal structure of phytocenoses of flat palsa peat bogs in West Siberia. Moskalenko, N.G., [1980, p.7-12, rus] 34-4142
Composition and structure of vegetation in ridge-pool swamps. Boch, M.S., et al, [1980, p.22-30, rus] 34-4144
Regularities governing plant distribution with respect to snow cover in the southeastern Chukotskiy Peninsula. Balandin, S.A., et al, [1979, p.24-25, rus] 34-4221

Vehicle wheels
Propelling devices for all-terrain vehicles. Gorbeshko, M.V., et al, [1979, p.7, rus] 34-404
Selecting propulsion gear for all terrain vehicles. El'tes, M.I., et al, [1979, p.6-7, rus] 34-2090
Resistance of porous asphalt and antihydroplaning surfaces to environmental effects and simulated aircraft wheel loadings. Hargett, E., [1974, 56p., eng] 34-2632

Vehicles
Hydraulic system for extremely cold environments. Bridwell, J.W., et al, [1977, 4 col., eng] 34-266
Technical specifications of a large Arctic truck for Imperial Oil Limited Calgary, Alberta. [1973, var. p., eng] 34-418
Arctic winter evaluation study of transportation equipment. [1973, var.p., eng] 34-479
Conference in Tyumen'. Nurmiev, G.N., [1979, p.26, rus] 34-501
Arctic winter test and evaluation, initial stage, Kenworth truck Model 953A. [1972, var. p., eng] 34-511
Development test II (DT II) (PQT-G) (Cold Weather Environment) of the family of military engineer construction equipment (FAMECE). Lockwood, N.S., [1979, c190p., eng] 34-1311
Under-ice volcanoes. Miller, K., [1979, p.36-55, eng] 34-1579
Screw-driven vehicles for Siberia. Mavlenkov, A., [1979, 9p., eng] 34-1702
Vehicles for conditions in the North. [1980, 2p., eng] 34-3647
See also: Air cushion vehicles; Airplanes; Airships; All terrain vehicles; Amphibious vehicles; Barges; Dirigibles; Helicopters; Motor vehicles; Ships; Sleds; Snow vehicles; Submarines; Tanker ships; Tracked vehicles; Tractors

Vein ice
See: Ice veins

Velocity
Numerical investigation of Arctic Ocean circulation. Semtner, A.J., Jr., [1973, 251p., eng] 34-2
High-speed method of air cushion icebreaking. Robertson, B.W., [1977, p.133-140, eng] 34-209
Magnetic markers for glacier mass balance and velocity measurements. Harrison, W.D., et al, [1978, 45p., eng] 34-776
Critical velocities of a floating ice plate subjected to in-plane forces and a moving load. Kerr, A.D., [1979, 12p., eng] 34-802
Selecting economically feasible velocity of transport ships designed for ice navigation. Tsoi, L.G., et al, [1979, p.74-78, rus] 34-3187
Measurement of the fall velocity of snowflakes in Nagaoka and its application to the Z-R relation. Uyeda, H., et al, [1980, p.39-46, jap] 34-4197
See also: Wind velocity

Velocity measurement
On the application of existing models of movement to calculating the velocity fields of mountain glaciers (for example, the Central Tujuksu Glacier). Tulina, T.U., [1974, p.192-207, eng] 34-1197
Empirical studies of ice sliding. Budd, W.F., et al, [1979, p.157-170, eng] 34-2229

Ventilation
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] 34-213
Thermal regime of Indigirka placer mines. Sherstov, V.A., et al, [1975, p.9-16, rus] 34-215
Testing plastic thermoinsulative covers in placer mines. Sherstov, V.A., et al, [1975, p.17-21, rus] 34-216
Heat transfer between underground structures and surrounding frozen grounds. Kapitonova, T.A., et al, [1975, p.22-29, rus] 34-217
Reestablishment of temperature field in rocks around excavations after warm air flow is discontinued. Mal'kov, IU.K., et al, [1975, p.83-89, rus] 34-226
Microclimates of 9-story residential buildings in Noril'sk. Vas'kovskiĭ, A.P., et al, [1979, p.12-13, rus] 34-242
Ventilation in the Nickel Plant foundry of the Noril'sk mining-metallurgical combine. Titov, V.P., et al, [1979, p.14-15, rus] 34-243
Improving natural ventilation of underground utility ducts under permafrost conditions. Ivont'ev, V.V., [1974, p.127-136, rus] 34-760
Prefabricated plates of ground floor framing in residential buildings of the North. Pikhovkin, V., et al, [1979, p.38-39, rus] 34-1771
Field studies of Series 91 residential buildings. Shilov, N.N., et al, [1979, p.5-6, rus] 34-2704
Construction by the method of stabilizing perennially frozen foundation soils. Porkhaev, G.V., et al, [1980, p.283-296, eng] 34-3252

Vibration
Noise accompanying the breakup of ice by the hull of an icebreaker. Bogorodskiĭ, P.V., et al, [1979, p.73-74, eng] 34-194
Vibrating equipment used in mining construction. Shiraĭ, E.N., [1978, 262p., rus] 34-848
Interpretation of the OH stretching region of the vibrational spectrum of ice I. McGraw, R., et al, [1977, p.219-226, eng] 34-1606
Vibrational response and structural integrity of deep water structures. Doelling, N., [1978, 19p., eng] 34-1801
Icing of a cable. Poots, G., et al, [1976, p.203-217, eng] 34-1969
Vibration measurements made on an ice platform in the vicinity of Panarctic Hecla N-52 well for Sun Oil Company, Richardson, Texas. Fix, J.E., [1974, 76p., eng] 34-3096
Shearing creep of clay soils due to vibration. Badalian, R.G., et al, [1976, p.117-127, rus] 34-3205
Vibration of measuring equipment in the study of the ocean microstructure under the drifting ice. Gusev, A.V., et al, [1975, p.237-238, eng] 34-3433

Viscoelasticity
Rheology of columnar-grained ice. Sinha, N.K., [1978, p.464-470, eng] 34-535
Investigation of stress, temperature, and time dependent strains in a randomly oriented fiber reinforced composite with special emphasis given to thermal stress situations. Caulfield, E.M., [1979, 94p., eng] 34-605
Grain-size influence on effective modulus of ice. Sinha, N.K., [1979, p.65-79, eng] 34-924
Time-dependent deflection of an ice plate. Michel, B., et al, [1979, p.80-97, eng] 34-925
Viscoelastic finite-element analysis of floating ice islands. Swamidas, A.S.J., et al, [1979, p.183-204, eng] 34-931
Bearing capacity of sea ice. Murat, J.R., [1978, 408p., fre] 34-1301
Development of a viscoelastic finite difference formulation for analysis of ice sheet-structure interactions. Praskievicz, M.W., [1979, 162p., eng] 34-1353
Grain boundary sliding in polycrystalline materials. Sinha, N.K., [1979, p.825-842, eng] 34-2983
Univariate compaction of ground, allowing for viscoplastic deformations. Ter-Martirosian, Z.G., [1976, p.322-327, rus] 34-3220

Viscosity
Intrinsic surface disorder in ice near the melting point. Golecki, I., et al, [1978, p.4229-4237, eng] 34-408
Some results from a linear-viscous model of the Arctic ice cover. Hibler, W.D., III, et al, [1979, p.293-304, eng] 34-544
Compactive viscosity of snow and its climatic implications at Mizuho Station, Antarctica. Maeno, N., et al, [1979, p.18-31, eng] 34-2148
Simulated glacier sliding over an obstacle. Brepson, R., [1979, p.143-156, eng] 34-2228
Viscosity of the ice surface layer. Mantovani, S., et al, [1980, p.1077-1083, eng] 34-2389
Non-linear theory relating to visco-compressible materials with applications to snow mechanics. Costes, N.C., [1965, 250p., eng] 34-2421

Viscous flow
Rheological fundamentals of soil mechanics. Vialov, S.S., [1978, 447p., rus] 34-432
Studying the effect of loading regime on the strength of clay soils. Sorokina, G.V., [1976, p.314-321, rus] 34-3219
Numerical model of Penelope ice viscometer flows. Brepson, R., [1980, p.28-37, eng] 34-3730

Visibility
Airborne snow concentration and visibility. Stallabrass, J.R., [1979, p.192-199, eng] 34-80
Measuring visibility in blowing snow. Schmidt, R.A., [1979, p.200-207, eng] 34-81
Visibility in blowing snow and applications in traffic operations. Tabler, R.D., [1979, p.208-214, eng] 34-82
Meteorological visibility range of 4 km and less at airports of West Siberia. Martem'ianova, E.S., [1973, p.243-250, rus] 34-114
Environmental conditions off the east coast of Canada: Sites 3 (54N, 54W), 4 (49N, 48W), and 5 (47N, 47W). Denard, M., [1977, 96p., eng] 34-308
Fences help change snow from liability to asset. [1979, p.12-15, 17, eng] 34-650
Statistical attenuation characteristics of visible and infrared radiation in a surface layer of the atmosphere. Filippov, V.L., et al, [1979, 17p., eng] 34-1312
Experience in using radar information in forecasting visibility in snowstorms. Zenkevich, D.I., [1979, p.121-124, rus] 34-2971
Cloud/icing/visibility analysis systems (CIVAS) and forecast development plan. Mount, W.D., et al, [1980, 64p., eng] 34-3998
See also: Turbidity

Volcanic ash
Little Ice Age: Northern Hemisphere average observations and model calculations. Robock, A., [1979, p.1402-1404, eng] 34-3648

Volcanoes
Annual report 1978-79. [1979, 190p., eng] 34-3982

Volume
Volumetric constitutive law for snow subjected to large strains and strain rates. Brown, R.L., [1979, 13p., eng] 34-913
Effects of volume change and alkalinity of water on the permeability of peat. Lieszkowszky, I.P., et al, [1978, p.25-36, eng] 34-2907
High pressure apparatus for PVT measurements of liquids and plastic crystals at low temperature. Landau, R., et al, [1980, p.533-535, eng] 34-3408
Walls
Building deformations—vertical movements. Plewes, W.G., [1976, 9p., eng] 34-158
Recognition of joints in the system. Baker, M.C., [1976, 9p., eng] 34-162
Sectional buildings with bearing panels made of effective materials. Lazhintsev, V.I., et al, [1972, p.54-63, rus] 34-178
Present state of translucent enclosures in industrial buildings of Yakutia. Braman, N.V., et al, [1972, p.142-151, rus] 34-187
Studying the combined effect of low air temperature and wind pressure on thermal regime of walls. Orel, O.P., [1972, p.166-176, rus] 34-189
Wall panels with polyurethane foam thermal insulation used in power plant construction. Danenkov, V.D., et al, [1979, p.33-34, rus] 34-196
Numerical solution of problems of soil creep with phase transformations. Lozovskiĭ, A.S., [1975, p.49-53, rus] 34-221
Evaluating the influence of natural conditions on temperature regime of permafrost surrounding mining excavations. Fedorov, F.M., [1975, p.54-61, rus] 34-222
Shrinking deformation of large panel building walls from field observations. Emel'ianov, A.A., [1972, p.36-45, rus] 34-584
Concepts and variables in the thermal stability theory of building walls. Nasedkin, V.V., [1979, p.101-106, rus] 34-807
Influence of severe climatic conditions on the amount and variation of moisture in walls of buildings in Noril'sk. Vas'kovskiĭ, A.P., [1979, p.116-121, rus] 34-853
Strength and stability of frozen walls of shafts and mining excavations in permafrost. Vialov, S.S., et al, [1979, p.129-148, rus] 34-1547
Performance and construction properties of glass-phenol-formaldehyde plastic SFI. Stefurak, B.I., et al, [1979, p.14-15, rus] 34-1709
Thermal stresses in trapezoidal layered panels with corrugated facing. Chaplinskiĭ, I.A., et al, [1979, p.39-45, rus] 34-1719
Windows with double and triple layers of glass. Aleksandrov, IU.P., et al, [1979, p.10-12, rus] 34-1752
Sectional, instead of situ-poured, cylindrical pumping stations. Podgornyĭ, I., [1979, p.40-41, rus] 34-1772
Effect of compression on the strength of brickwork built in freezing weather. Kotov, I.T., [1972, p.236-237, rus] 34-1832
Allowing for temperature effect when designing large panel buildings. Emel'ianov, A.A., [1970, p.23-89, rus] 34-1833
Selecting design values of temperature when calculating buildings for thermal and moisture effects and settling. Emel'ianov, A.A., [1970, p.90-119, rus] 34-1834
Allowing for humidity when designing external brick walls. Shishkin, A.A., et al, [1970, p.120-138, rus] 34-1835
Causes of the values of winter pressure of ground on walls of solid-bottom sluice chambers, exceeding the design values. Avdeeva, V.I., [1979, p.98-105, rus] 34-2049
Heat and moisture transfer in experimental wall panels with the (FSP) phenol-formaldehyde plastic thermal insulation. Alumiae, A.E., [1979, p.30-39, rus] 34-2382
Heat transfer through joints in external enclosures of industrial buildings in the North. Butlitskiĭ, A.E., et al, [1976, p.59-75, rus] 34-2403
Lightweight enclosures for use in the Urals and Siberia. Pavlov, V.P., et al, [1979, p.2-5, rus] 34-2589
Building design for construction in the North. Vas'kovskiĭ, A.P., et al, [1979, 135p., rus] 34-2685
Thermal insulation of external walls of buildings. Zheleznyĭ, V.I., [1979, p.4, rus] 34-2703
Energy conservation design guidelines: including mass and insulation in building walls. Dexter, M.E., [1980, p.35-38, eng] 34-2790
Stresses in triple layer wall panels at different rates of temperature drop along thickness. Albaut, G.N., et al, [1979, p.118-123, rus] 34-2847
Construction in the Arctic and the Far North. [1970, 95p., rus] 34-2867
Catalog of temperature fields of standard enclosure joints. Part I, Residential buildings. Design manual. Ivashkova, V.K., et al, [1980, 111p., rus] 34-2937
Studying service life and phase composition of cellular concrete outer wall panels with different finish. Bezborodov, V.A., et al, [1979, p.67-70, rus] 34-2973
Strength of clay soils in time. Maslov, N.N., et al, [1976, p.247-255, rus] 34-3213
Stability of underground workings in permafrost. El'chaninov, E.A., et al, [1980, p.321-337, eng] 34-3255
Determining optimal resistivity of external walls to heat transfer Odel'skiĭ, E.Kh., et al, [1980, p.91-95, rus] 34-3595
Flow of temperate ice in a vertical shaft with rough wall surfaces. Reeh, N., [1980, p.309-324, eng] 34-3749
Grouping coal deposits in permafrost areas according to geologic and mining development conditions. Gazizov, M.S., et al, [1979, p.45-50, rus] 34-3906
Physical, technical and functional aspects of building design for railroads. Kovrigin, S.D., ed, [1978, 202p., rus] 34-3910
Thermotechnical qualities of external enclosures of Series-122 residential buildings. Efimova, M.N., [1978, p.122-127, rus] 34-3915
Performance of support walls built on permafrost. Novikov, F.IA., [1980, p.45-46, rus] 34-3957
Structural thermodynamics. A review. L'vov, G.N., ed, [1969, 100p., rus] 34-4046
Field inspection and testing of thermal properties of enclosures of a 12-story residential building. Bukharova, N.V., [1969, p.16-28, rus] 34-4049
Thermoinsulative properties of lightweight concrete external wall panel joints in buildings of the series II-57 and II-60. Surkov, V.I., et al, [1969, p.29-35, rus] 34-4050
Warning systems
Combined portable fluid-level warning device. Zhukov, B.P., et al, [1974, p.89-93, rus] 34-756
Operational research investigation of the ice-detection capability and utility of the Surface Condition Analyzer (SCAN) system and its applicability to Navy-wide use. Mack, E.J., et al, [1979, 181p., eng] 34-1171

Water balance
Reliability of experimental determination of basic hydrologic characteristics of swamps. Baliasova, E.L., [1979, p.96-109, rus] 34-833
Applications of the SCS basin simulation model. Woodward, D.E., et al, [1979, p.427-432, eng] 34-1040
Calculating water balance of the Kola River basin. Antonova, T.S., [1979, p.107-119, rus] 34-2055
Analyzing distributions of maximum snow reserves on glaciers and improving snow surveying techniques. Diurgerov, M.B., et al, [1979, p.155-159, rus] 34-2197
Mass water balance during spray irrigation with wastewater at Deer Creek Lake land treatment site. Abele, G., et al, [1978, 43p., eng] 34-2284
Subarctic watershed research in the Soviet Union. Slaughter, C.W., et al, [1978, p.305-313, eng] 34-2390
Water balance in the Shinjo basin. Higashiura, M., [1979, p.490-496, jap] 34-2546
Climatological water balance in the Shinjo basin. Higashiura, M., [1979, p.95-109, jap] 34-2547
Ground water in the Shinjo basin. Higashiura, M., [1979, p.165-174, jap] 34-2548
Annual distribution of water balance elements through the altitudinal forest belts of the Lake Baykal Basin. Lebedev, A.B., et al, [1979, p.83-95, rus] 34-3774

Water chemistry
Magnitude and significance of the terrestrial snowpack and white ice contribution to the phosphorus budget of a lake in the Canadian Shield region of the Kawartha Lakes. English, M.C., [1978, p.173-189, eng] 34-41
Summer environmental program Mackenzie River estuary. [1975, 3 vols., eng] 34-301
Biological studies, offshore cruises 77-2 and 77-3, April-June, 1977 in the Davis Strait. [1978, var. p., eng] 34-428
Report on Cruise III, October-November 1976 and Cruise IV, November-December, 1976. Environmental aspects of the Imperial Oil cruises to Davis Strait, Hudson Strait and Flemish Pass. [1977, var.p., eng] 34-431
Biological studies, offshore cruise 77-4 through 77-7, July-December, 1977 in the Davis Strait. [1977, var.p., eng] 34-493
Biological productivity of the southern Beaufort Sea: the physical-chemical environment and the plankton. Grainger, E.H., [1975, 82p., eng] 34-504
Organic and color removal from water supplies by synthetic resinous absorbants. Tilsworth, T., [1974, 53p., eng] 34-602
Clearing Alaskan water supply impoundments: management, laboratory study, and literature review. Smith, D.W., et al, [1976, 126p., eng] 34-617
Geology and geochemistry of the Ship Creek and Monashka Creek reservoirs, southcentral Alaska. Hawkins, D.B., et al, [1976, 70 p., eng] 34-618
Environmental path of arsenic in groundwater. Hawkins, D.B., [1976, 7p., eng] 34-622
Nutrient chemistry of a large, deep lake in subarctic Alaska. LaPerriere, J.D., et al, [1977, 128p., eng] 34-624
Environmental Standards for Northern Regions: a symposium, June 1974, Anchorage, Alaska. Smith, D.W., ed, [1975, 389p., eng] 34-630
Winter dissolved oxygen patterns in Arctic and sub-Arctic rivers. Schallock, E.W., [1975, p.141-162, eng] 34-633
Mandatory chlorination of wastewater discharges. Gordon, R.A., et al, [1975, p.163-186, eng] 34-634
Clearing Alaskan water supply impoundments: literature review. Justice, S.R., et al, [1976, 96p., eng] 34-642
Biogeochemistry of deep lakes in the central Alaskan Range. LaPerriere, J., et al, [1976, 35p., eng] 34-643
Investigation of an ozone-filter system for color and iron removal at low temperatures. Smith, D.W., et al, [1975, 71p., eng] 34-644
Determination of dissolved nitrogen and oxygen in water by headspace gas chromatography. Leggett, D.C., [1979, 5p., eng] 34-744
Effect of cryogenic processes on the formation of gold-scattering water flows. Pliusnin, A.M., et al, [1979, p.700-703, rus] 34-811
Impact of waste diversion on water quality in lakes. Freedman, P.L., et al, [1979, p.867-881, eng] 34-964
Modeling taiga soils formation in the Salair Range. Korsunov, V.M., et al, [1979, p.43-52, rus] 34-974
Hydrogeochemical investigations of the BAM zone. Lomonosov, I.S., [1977, p.87-94, rus] 34-996
Hydrochemical separation of components of discharge in alpine catchments. Collins, D.N., et al, [1979, p.1-9, eng] 34-1050
Hydrochemical regime of the Arctic Ocean. Rusanov, V.P., et al, [1979, 144p., rus] 34-1092
Long-term effects of land application of domestic wastewater, Roswell, New Mexico, slow rate irrigation site. Koerner, E.L., et al, [1979, 187p., eng] 34-1112
Hydrochemistry of the northwestern part of the Central Siberian Plateau. Kuz'min, E.E., et al, [1979, 141p., rus] 34-1192
Limnology of subarctic Canadian lakes and some effects of impoundment. Duthie, H.C., [1979, p.145-158, eng] 34-1278
Hydrochemistry of meltwaters draining from an alpine glacier. Collins, D.N., [1979, p.307-324, eng] 34-1284
Fate and effect of Bunker C oil spilled by the USNS Potomac in Mellville Bay, Greenland, 1977. Petersen, H.K., [1978, p.331-343, eng] 34-1370
Long-term effects of land application of domestic wastewater: Vineland, New Jersey, rapid infiltration site. Koerner, E.L., et al, [1979, 183p., eng] 34-1373
Low temperature biological denitrification of wastewater. Sutton, P.M., et al, [1974, p.380-402, eng] 34-1482
Chlorine disinfection of treated wastewater. Gordon, R.C., et al, [1974, p.438-481, eng] 34-1485
Hydrothermal variations in permafrost landscapes. Anisimova, N.P., [1979, p.148-152, rus] 34-1521
Study of trace elements in waters of two Alaskan reservoir sites. Smith, D.W., et al, [1975, 81p., eng] 34-1804
Methane addition to an Arctic lake in winter. Welch, H.E., et al, [1980, p.100-113, eng] 34-1880
Subsurface drainage in Siberia and methods of its investigation. Shen'kman, B.M., ed, [1979, 136p., rus] 34-1936
Role of naleds in chemical element migration in water. Ivanov, A.V., [1979, p.41-66, rus] 34-1937
Increased mercury contamination of distilled and natural water samples caused by oxidizing preservatives. Cragin, J.H., [1979, p 313-319, eng] 34-2004
Mineralization of glacial rivers in the Pamirs. Krenke, A.N., et al, [1979, p.67-70, rus] 34-2183
Quantitative determination of the subglacial hydrology of two alpine glaciers. Collins, D.N., [1979, p.347-362, eng] 34-2244
Chemical composition of natural waters and migration of chemical substances in pine forest biogeocenoses. Strelkova, A.A., [1978, p.59-67, rus] 34-2255
View on the formation of saline waters in the Dry Valleys. Torii, T., et al, [1979, p.22-33, eng] 34-2286
Pilot scale study of overland flow land treatment in cold climates. Jenkins, T.F., et al, [1979, p.207-214, eng] 34-2673
Effects of volume change and alkalinity of water on the permeability of peat. Lieszkowszky, I.P., et al, [1978, p.25-36, eng] 34-2907
Geocryology and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, [1978, 187p., rus] 34-2915
Hydrochemical runoff and the intensity of soil salinization in West Siberia. Panin, P.S., [1979, p.141-170, rus] 34-3081
Hydrogeochemical investigations in permafrost studies. Anisimova, N.P., [1980, p.25-41, eng] 34-3235
Si-S analysis of surface waters in the Arctic Basin. Rusanov, V.P., et al, [1979, p.14-23, rus] 34-3584
Glacial to interglacial changes in ocean chemistry. Broecker, W.S., [1980, 27p. + figs. + appends., eng] 34-3653
Using hydrochemical data from mountain-glacier basins in glaciological and hydrological computations. Zaslavskaia, M.B., et al, [1979, p.187-192, rus] 34-3712
Hydrochemical regime of the Severtsov glacier. Kamalov, L.F., [1978, p.74-76, eng] 34-3968
Permittivity of ice and water at millimeter wavelengths. Blue, M.D., [1980, p.1101-1106, eng] 34-4074

Water content
Simulation of CO2 uptake and water relations of four Arctic Bryophytes at Point Barrow, Alaska. Miller, P.C., et al, [1978, p.7-20, eng] 34-1262
Collection and measurement efficiencies of the EWER cloud water meter for hydrometeors. Norment, H.G., [1979, 39p., eng] 34-1352
Changes in water content in and under frozen soil in Iowa, U.S.A. Willatt, S.T., [1979, p.323-331, eng] 34-1726
Coagulation growth effect on the freezing of supercooled drops. Zhekamukhov, M.K., [1979, p.14-22, rus] 34-2876
Radioactive isotope techniques in controlling quality of work and investigations when building foundations and underground structures. Smorodinov, M.I., [1980, 168p., rus] 34-3867
See also: Moisture; Snow water content; Soil water; Unfrozen water content

Water depth
Field studies on the response of floating ice sheets to moving loads. Beltaos, S., [1979, p.1-13, eng] 34-920
Statistical study of passage into Beaufort Sea via Point Barrow. Wilson, S.R.G., [1977, 108p., eng] 34-1763

Water erosion
Forecasting water erosion of soils in the western part of the BAM zone (the upper Angara River Basin). Relmkhe, V.V., [1979, p.111-118, rus] 34-447
Water erosion of frozen rocks and the evaluation of thermoerosional danger. Ershov, E.D., et al, [1979, p.67-76, rus] 34-1759
Glacial erosion: methodological problems. Vivian, R., [1978, p.279-283, fre] 34-2030
Pressing environmental protection problems in the Far East. Konovalenko, V.G., ed, [1978, 179p., rus] 34-2532
Intensity of gully formation in the intermontane troughs of southern Srednee Priamur'e. Miskina, L.V., [1978, p.123-132, rus] 34-2536
Hydroclimatic influence of forests. Protopopov, V.V., ed, [1979, 144p., rus] 34-3760
Evaluating soil stability to washout. Kuklin, V.V., et al, [1979, p.79-82, rus] 34-3773

Water films
Corona discharge of wetted hailstones as a basic mechanism of lightning initiation. Diachuk, V.A., et al, [1979, p.60-63, rus] 34-1637
Subglacial regelation water film. Hallet, B., [1979, p.321-334, eng] 34-2242
Scattering and attenuation of electromagnetic radiation by hailstones with a logarithmically normal particle distribution function. Bibilashvili, N.Sh., ed, [1979, p.60-66, rus] 34-2877
Thickness of fluid film on ice crystal surfaces. Badakhov, Kh.I., [1980, p.57-66, rus] 34-3419
Crystallization-film mechanism of water migration toward frost penetration front. Kaliuzhnyi, I.L., et al, [1980, p.3-12, rus] 34-3458

Water flow
Current observations in the channels of the Canadian Arctic Archipelago adjacent to Bathurst Island. Greisman, P., et al, [1978, 127p., eng] 34-562
Surface current study of eastern Parry Channel, N.W.T.—summer 1977. Fissel, D.B., et al, [1978, 66p., eng] 34-592
Unit water use in Alaskan municipal water supplies. Hansen, R.G., [1975, p.321-329, eng] 34-639
Graphic calculation of dug-out vacuum wells. Sokolova, L.V., [1974, p.82-88, rus] 34-755
Review of water movement in snow. Wankiewicz, A., [1979, p.222-252a, eng] 34-1020
Some experimental data on water percolation through homogeneous snow. Denoth, A., et al, [1979, p.253-256, eng] 34-1021
Controls on the production of snowmelt runoff. Price, A.G., et al, [1979, p.257-268, eng] 34-1022
European hydrological system snow routine. Morris, E.M., et al, [1979, p.269-278, eng] 34-1023
Snow soil interactions in interior Alaska. Santeford, H.S., [1979, p.311-318, eng] 34-1028
Study of water drainage from columns of snow. Denoth, A., et al, [1979, 19p., eng] 34-1108
Comparison of centrifuge and freezing calorimeter methods for measuring free water in snow. Jones, R.N., [1979, 44p., eng] 34-1174
Method for the determination of the hydraulic conductivity of snow. Denoth, A., et al, [1978, p.209-213, ger] 34-1271
Computation of backwater curves under ice covers. Michel, B., [1979, 24 leaves, eng] 34-1580
Synopsis—ice in estuaries and harbours. Carstens, T., [1979, p.1-30, eng] 34-1959
Groundwater movement and subsurface temperatures in a glacial complex, Cochrane District, Ontario. Parsons, M.L., [1969, 105p., eng] 34-2072

Study on prevention of stone ejection from ballasted track in snowing. Sato, Y., et al, [1977, p.178, eng] 34-2659
Traveling wave solutions of saturated-unsaturated flow through porous media. Nakano, Y., [1980, p.117-122, eng] 34-2672
Analysis of circulation patterns in Grays Harbor, Washington, using remote sensing techniques. Gatto, L.W., [1980, p.289-323, eng] 34-2675
Modelling the processes of river runoff formation. Kuchment, L.S., [1980, 143p., rus] 34-3188
Water movement in a land treatment system of wastewater by overland flow. Nakano, Y., et al, [1979, p.185-206, eng] 34-3949

Water freezing
See: Ice formation

Water ice interface
See: Ice water interface

Water intakes
Some potential ice problems associated with hydroelectric development in Alaska. Osterkamp, T.E., [1977, p.4-6, eng] 34-690
Intensifying the performance of incomplete dug-out wells. IAkunin, IU.V., [1974, 14-22, rus] 34-751
Studying river bed alluvium for designing seepage water intakes. Poriadin, A.F., [1974, p.29-51, rus] 34-753
Calculating water inflow into incomplete dug-out wells allowing for riverbed silting. IAkunin, IU.V., [1974, p.52-81, rus] 34-754
Hydrogeologic studies for drainage and water supply engineering. Artsev, A.I., [1979, 285p., rus] 34-1653
Construction of water intake and treatment structures in the north. Godes, E.G., et al, [1980, 232p., rus] 34-2516
Ice—an ever-mounting threat to man's survival. Foulds, D.M., [1973, p.27-29, eng] 34-2629
Ice problems at a cooling water intake in a tidal estuary at Lingan, N.S. Skarborn, S., et al, [1980, p.225-232, eng] 34-3670

Water jets
See: Hydraulic jets

Water level
Water in glaciers: observations and theory of the behaviour of water levels in boreholes. Engelhardt, H., [1978, p.35-60, eng] 34-664
Combined portable fluid-level warning device. Zhukov, B.P., et al, [1974, p.89-93, rus] 34-756
Numerical simulation of water level variations in firn and comparison with field data in the Ewigschneefeld (Swiss Alps). Schommer, P., [1978, p.173-190, ger] 34-1268
Observational data of ground water in the Shinjo basin (1) —Shallow ground water level and water temperature (1970-1975). Higashiura, M., et al, [1979, p.1-95, jap] 34-2557
Pressure of ice field adfreezing to cylindrical supports of offshore oil well platforms with water-level fluctuations. Vershinin, S.A., et al, [1980, p.9-11, rus] 34-3642
Winter floods in Leningrad and their study by empirical and hydrodynamic methods. Drabkin, V.V., et al [1978, p.246-249, eng] 34-4061
See also: Sea level; Water table

Water masses
Numerical investigation of the Bering Sea circulation using a linear homogeneous model. Han, Y.-J., et al, [1979, 37p., eng] 34-1729

Water pipelines
Developing systems of communal water supply and waste discharge in Siberia and the Far East. Poriadin, A.F., et al, [1979, p.4-6, rus] 34-237
Hygienic evaluation of water supply and waste disposal along the Baykal Amur railroad. Pletnikova, I.P., et al, [1979, p.7-8, rus] 34-238
Shallow pipelines heated by electric cables. Kardymon, V.F., [1979, p.9, rus] 34-240
Water supply and drainage systems and waste water treatment in the Noril'sk area. Okhrimenko, S.S., [1979, p.28-29, rus] 34-245
Improvement and development of water supply and waste drainage systems in Siberia, the Far East, Far North and BAM area. [1979, p.30-31, rus] 34-246
Water cock with non-freezing valve. Nakajima, K., et al, [1978, 6 col., eng] 34-276
Apparatus for protecting a water faucet or the like from freezing temperatures. Carlson, C.D., [1978, 6 col., eng] 34-285
Unit water use in Alaskan municipal water supplies. Hansen, R.G., [1975, p.321-329, eng] 34-639
Intensifying the performance of incomplete dug-out wells. IAkunin, IU.V., [1974, 14-22, rus] 34-751
Transfer of heat from a surface source along pipe walls. Kardymon, V.F., [1974, p.94-106, rus] 34-757
Thermal regime of water pipelines built in seasonally freezing ground. Pereleshin, R.S., et al, [1974, p.107-210, rus] 34-758
Field studies of temperature regime of water pipelines in deep seasonally freezing ground. Pereleshin, R.S., et al, [1974, p.121-126, rus] 34-759
Water supply and sewage at the Baykal Amur railroad. Fedotov, V.P., [1975, 79p., rus] 34-847
Pressure pipelines for water supply of railroads. Dikarevskii, V.S., et al, [1978, 278p. (Pertinent p. 198-231), rus] 34-849
Construction of water intake and treatment structures in the north. Godes, E.G., et al, [1980, 232p., rus] 34-2516
Ice regime of pipelines. Zhidkikh, V.M., et al, [1979, 131p., rus] 34-2871

Water pollution
Alaska mining and water quality. Zemansky, G.M., et al, [1976, 113p., eng] 34-620
Environmental path of arsenic in groundwater. Hawkins, D.B., [1976, 7p., eng] 34-622
Primary vs. secondary vs. tertiary treatment: which one. McKinney, R.E., [1975, p.113-129, eng] 34-632
Mandatory chlorination of wastewater discharges. Gordon, R.A., et al, [1975, p.163-186, eng] 34-634
Evaluation of the trophic types of several Alaskan lakes by assessment of benthic fauna. LaPerriere, J., [1975, 49p., eng] 34-641
Rational use of water by Krasnoyarsk factories. Stegantsev, V.P., et al, [1974, p.152-158, rus] 34-763
Hydrologic problems of environmental changes in West Siberia. Malik, L.K., [1978, 180p., rus] 34-845
Pollution characteristics in an unpolluted subarctic stream. Peterson, L.A., [1978, p.15-17, eng] 34-867
Deuterium content of stream waters of glacier origin in Himalayas. Wushiki, H., [1977, p.40-42, eng] 34-902
Modeling lake landscapes of the Selenga River delta, its dynamics and development. Bogoiavlenskii, B.A., [1979, p.105-128, rus] 34-1071
Eskimo Point water supply program. Foster, R.R., et al, [1979, p.413-422, eng] 34-1157
New developments in winter maintenance. Hoekstra, H., [1979, p.19-29, eng] 34-1242
Environmental assessment of the Alaskan continental shelf: lower Cook Inlet interim synthesis report. [1979, 241p., eng] 34-1338
History of land application as a treatment alternative. Jewell, W.J., et al, [1979, 97p., eng] 34-1374
Human activities effect on the Pinus sylvestris (Pinaceae) increment in the Bratsk Region. Lalrand, N.I., et al, [1979, p.1187-1195, rus] 34-1448
Technology and ecological consequences of dredging. Domenik, O.P., et al, [1979, p.113-117, rus] 34-1517
Pollution characteristics of stormwater runoff. Bennett, E.R., et al, [1978, 226p., eng] 34-1572
Water quality in Alaskan campgrounds. Murphy, R.S., [1973, 108p., eng] 34-1736
Feasibility study of land treatment of wastewater at a subarctic Alaskan location. Sletten, R.S., et al, [1977, p.533-547, eng] 34-1749
Impact of highway deicing salts on rural stream water quality. Champagne, D.M., [1977, p.47-52, eng] 34-1878
Calculating the balance of Arctic Ocean pollutants. Izmailov, V.V., et al, [1979, p.486-491, rus] 34-2022
Deuterium and tritium concentrations in the runoff from a glaciated basin in relation to weather. Ambach, W., et al, [1978, p.58/1-58/10, ger] 34-2074
Characterization and treatment of snowmelt runoff from an urban catchment. Kronis, H., [1978, 35p., eng] 34-2108
Summer heat balance and environmental conditions of periglacial naleds in the Pamirs. Lebedeva, I.M., [1979, p.76-81, rus] 34-2185
Marine transportation systems of the Trans-Alaska Pipeline System. [1971, 158p., eng] 34-2357
Hot Arctic. Dyson, J., [1979, 290p., eng] 34-2456
Mapping the use of restockable natural resources for geographic forecasting. Vorob'eva, T.A., et al, [1978, p.132-139, rus] 34-2537
Marine transportation systems of the Trans-Alaskan Pipeline System. [1971, 158p., eng] 34-2631
Mining and the environment. Moisinets, V.N., et al, [1978, 191p., rus] 34-2808
Environmental assessment of the Alaskan continental shelf, Vol.5, Receptors—Microbiology; Contaminant baselines. [1979, 698p., eng] 34-3048
Protecting rivers in the Kolyma Basin from pollution with solid suspensions by electrochemical coagulation treatment of mining waste waters. Novozhilov, V.N., et al, [1980, p.102-107, rus] 34-3295
Present state and prospects for studying protection of marine environments in the Arctic. Treshnikov, A.F., [1979, p.38-45, rus] 34-4168

Water pressure
Oceanographic observations at stations along the triangular grids during the Mixed Layer Experiment, August 1, 1978. Volume 84-C. Miyake, M., [1979, 191p., eng] 34-563
Water in glaciers: observations and theory of the behaviour of water levels in boreholes. Engelhardt, H., [1978, p.35-60, eng] 34-664
Upper limits of heaving pressure obtained by observing pore water pressure under partial soil freezing. Takashi, T., et al, [1979, p.277-287, jap] 34-2173
Pressure-melting effects in basal ice of temperate glaciers: laboratory studies and field observations under Glacier d'Argentière. Goodman, D.J., et al, [1979, p.259-271, eng] 34-2237
Direct measurement of basal water pressures: progress and problems. Hodge, S.M., [1979, p.309-319, eng] 34-2241
Pore-water pressure profile of a freezing soil. Fukuda, M., [1980, p.33-40, jap] 34-3157
Measurement of hydraulic conductivity of unsaturated Tomakomai silt. Fukuda, M., [1979, p.193-195, jap] 34-3507
Optimal configuration of a confining bed under the pressure of subpermafrost ground water. Gur'ianov, I.E., [1980, p.62-70, rus] 34-4040

Water purification
See: Water treatment

Water quality
Alaska Mining and Water Quality: proceedings of the symposium. [1979, 82p., eng] 34-770

Water reserves
Snow hydrology. Fitzharris, B.B., [1979, p.23-43, eng] 34-4
Values and resource analysis, Vol.2. [1978, c.200p. + maps, eng] 34-21
Hygienic evaluation of water supply and waste disposal along the Baykal Amur railroad. Pletnikova, I.P., et al, [1979, p.7-8, rus] 34-238
U.S. Geological Survey in Alaska; 1979 programs. Reed, K.M., ed, [1979, 94p., eng] 34-726
Forecasting spring water inflow into the Kama reservoir allowing for rainfall. Liapunova, I.B., et al, [1979, p.15-25, rus] 34-1077
Meltwater losses in forests due to absorption by tree bark. Krestovskii, O.I., et al, [1979, p.87-91, rus] 34-1081
Accuracy of interpolation and averaging of soil moisture content over an area. Vershinina, L.K., et al, [1979, p.129-141, rus] 34-1084
Statistical study of relationships between snow reserves and summer runoff in alpine regions. Jensen, H., [1979, p.123-144, ger] 34-1323
Glaciological investigations in Johan Dahl Land, South Greenland, as a basis for hydroelectric power planning. Olesen, O.B., [1978, p.84-86, eng] 34-1566
Subsurface drainage in Siberia and methods of its investigation. Shen'kman, B.M., ed, [1979, 136p., rus] 34-1936
Exploration and sources of ground water reserves in areas of Noril'sk-type commercial ore deposits. Roginets, I.I., [1979, p.83-87, rus] 34-1938
Water resourses of the Yenisey River basin and their mapping. Cherkasov, A.E., [1976, p.91-98, rus] 34-2008
Water resources development. [1979, 50p., eng] 34-2134
Research of ground water resources to melt snow, No.1 Yuhara, K., et al, [1979, p.7-10, jap] 34-2544
Research of ground water resources to melt snow, No.2. Higashiura, M., [1979, p.16-23, jap] 34-2545
Evaluating the distribution and utilization of ground water resources in the south of East Siberia. Pinneker, E.V., et al, [1976, p.80-92, rus] 34-2643
Use of the water resources of Lake Baykal and of the Angara River and an estimate of the change in their quality and elements of the hydrologic regime. Ivanov, N.I., [1977, p.307-309, eng] 34-3020
Snow cover and precipitation in the mountains of Central Asia. Getker, M.I., ed, [1978, 98p., rus] 34-3344
Seasonal snow line dynamics as indication of snow reserve gradient. Bassin, N.S., et al, [1978, p.22-25, rus] 34-3346
Review of LANDSAT-D and other advanced systems relative to improving the utility of space data in water-resources management. Salomonson, V.V., et al, [1980, p.281-296, eng] 34-3525

Water retention
Determining the volume of measurements for calculating water permeability of active layers in swamps. Baliasova, E.L., [1979, p.110-115, rus] 34-834

Water storage
Management guidelines for water resources development, Prudhoe Bay development area. [1978, 39p., eng] 34-1491

Water structure
Winter and spring oceanographic conditions in and under the ice of the Bering Sea. Lohrman, W.R., et al, [1979, 66p., eng] 34-1047
Northern Smith Sound oceanography—summer 1977. Tooma, S.G., [1978, 28p., eng] 34-2368

Water supply
Developing systems of communal water supply and waste discharge in Siberia and the Far East. Poriadin, A.F., et al, [1979, p.4-6, rus] 34-237
Hygienic evaluation of water supply and waste disposal along the Baykal Amur railroad. Pletnikova, I.P., et al, [1979, p.7-8, rus] 34-238
Searching for water supply sources in the central BAM area. Durachenko, P.I., et al, [1979, p.8-9, rus] 34-239
Improvement and development of water supply and waste drainage systems in Siberia, the Far East, Far North and BAM area. [1979, p.30-31, rus] 34-246
Sewage treatment systems for the Baykal Amur railroad area. Neparidze, R.Sh., et al, [1979, p.20-21, rus] 34-500
Community response strategies for environmental problems of water supply and wastewater disposal in Fairbanks, Alaska. Smith, D.W., et al, [1976, 28p., eng] 34-616
Clearing Alaskan water supply impoundments: management, laboratory study, and literature review. Smith, D.W., et al, [1976, 126p., eng] 34-617

Water supply *(cont.)*

Nutrient chemistry of a large, deep lake in subarctic Alaska. LaPerriere, J.D., et al, [1977, 128p., eng] 34-624

Village sanitary problems. Ryan, W.L., [1975, p.315-320, eng] 34-636

Wastewater treatment and disposal alternatives in northern regions. Smith, D.W., et al, [1975, p.357-389, eng] 34-638

Unit water use in Alaskan municipal water supplies. Hansen, R.G., [1975, p.321-329, eng] 34-639

Analysis of Alaska's water use act and its interaction with Federal reserved water rights. Curran, H.J., et al, [1979, 33p., eng] 34-646

Power from glaciers: the hydropower potential of Greenland's glacial waters. Partl, R., [1977, 54p., eng] 34-653

Water and sanitation in the Northwest Territories: an overview of the setting, policies and technology. Cameron, J.J., et al, [1977, p.4-12, eng] 34-695

Mars: the wet look. Eberhart, J., [1979, p.108-110, eng] 34-738

Annotated bibliography on northern environmental engineering 1976-1977. Armstrong, B.C., comp, [1979, 132p., eng] 34-739

Tundra lakes as a source of fresh water: Kipnuk, Alaska. Bredthauer, S.R., et al, [1979, 16p., eng] 34-740

Water supply and sewage in areas of permafrost and severe climate. Stegantsev, V.P., [1974, p.3-13, rus] 34-750

Intensifying the performance of incomplete dug-out wells. IAkunin, IU.V., [1974, 14-22, rus] 34-751

Performance of seepage tanks with trapezoidal cross sections and impervious slopes. Bogoliubov, K.S., et al, [1974, p.23-28, rus] 34-752

Studying river bed alluvium for designing seepage water intakes. Poriadin, A.F., [1974, p.29-51, rus] 34-753

Calculating water inflow into incomplete dug-out wells allowing for riverbed silting. IAkunin, IU.V., [1974, p.52-81, rus] 34-754

Graphic calculation of dug-out vacuum wells. Sokolova, L.V., [1974, p.82-88, rus] 34-755

Combined portable fluid-level warning device. Zhukov, B.P., et al, [1974, p.89-93, rus] 34-756

Transfer of heat from a surface source along pipe walls. Kardymon, V.F., [1974, p.94-106, rus] 34-757

Rational use of water by Krasnoyarsk factories. Stegantsev, V.P., et al, [1974, p.152-158, rus] 34-763

Filter purification of waste waters from tire factories. Emelina, Z.G., et al, [1974, p.159-169, rus] 34-764

Water supply and sewage at the Baykal Amur railroad. Fedotov, V.P., [1975, 79p., rus] 34-847

Pressure pipelines for water supply of railroads. Dikarevskii, V.S., et al, [1978, 278p. (Pertinent p. 198-231), rus] 34-849

Hydrogeological problems of the Baykal Amur railroad. Pinneker, E.V., et al, [1977, p.66-70, rus] 34-995

Hydrogeochemical investigations of the BAM zone. Lomonosov, I.S., [1977, p.87-94, rus] 34-996

Snow on the Great Plains. Willis, W.O., [1979, p.56-62, eng] 34-1005

Research and development towards a facility for water purification and waste treatment in the north. Day, D.R., [1978, 115p., eng] 34-1109

Eskimo Point water supply program. Foster, R.R., et al, [1979, p.413-422, eng] 34-1157

New role for icebergs. Quinn, K.J., [1978, p.72-95, eng] 34-1405

Evaluation of waste disposal practices in Alaskan villages. Alter, A.J., [1974, p.1-28, eng] 34-1466

Alaska village demonstration projects: first generation of integrated utilities for remote communities. Reid, B.H., [1974, p.549-569, eng] 34-1489

Management guidelines for water resources development, Prudhoe Bay development area. [1978, 39p., eng] 34-1491

Hydrogeologic studies for drainage and water supply engineering. Artsev, A.I., [1979, 285p., rus] 34-1653

Effects of the retreat of Austrian glaciers on the water supply of high alpine power plants. Tollner, H., [1957, p.38-42, ger] 34-1657

Snow behavior and its economic importance for Austria. Steinhauser, F., [1974, p.3-42, ger] 34-1671

Snow mapping and runoff forecasting: Examination of ERTS-1 capabilities and potential benefits from an operational ERS system. [1974, 180p. + 25p. appends., eng] 34-1730

Water quality in Alaskan campgrounds. Murphy, R.S., [1973, 108p., eng] 34-1736

Water/wastewater evaluation for an Arctic Alaskan industrial camp. Tilsworth, T., et al, [1973, 174p., eng] 34-1803

Protection of mountain forests as a dependable water supply basis of Transbaikal. Tsyganok, V.I., [1973, p.135-138, rus] 34-1876

Subsurface drainage in Siberia and methods of its investigation. Shen'kman, B.M., ed, [1979, 136p., rus] 34-1936

Exploration and sources of ground water reserves in areas of Noril'sk-type commercial ore deposits. Roginets, I.I., [1979, p.83-87, rus] 34-1938

Summer heat balance and environmental conditions of periglacial naleds in the Pamirs. Lebedeva, I.M., [1979, p.76-81, rus] 34-2185

Water yield improvement from alpine areas: the status of our knowledge. Martinelli, M., Jr., [1975, 21p., eng] 34-2510

Construction of water intake and treatment structures in the north. Godes, E.G., et al, [1980, 232p., rus] 34-2516

Ice – an ever-mounting threat to man's survival. Foulds, D.M., [1973, p.27-29, eng] 34-2629

Evaluating the distribution and utilization of ground water resources in the south of East Siberia. Pinneker, E.V., et al, [1976, p.80-92, rus] 34-2643

Selecting the system and determining water exchange regime for swimming pools in regions with severe climatic conditions. Artemenok, N.D., et al, [1977, p.112-117, rus] 34-3179

Hydrodynamic and hydrochemical assessment of explosions used in testing low-output wells in permafrost regions. Maksimov, V.M., [1980, p.313-320, eng] 34-3254

Manual for designing water supply and sewage systems in permafrost areas. Fedorov, N.F., et al, [1979, 159p., rus] 34-3269

Modern trends in design, construction and operation of land reclamation systems under Siberian conditions. Abstracts of papers presented at a seminar. [1978, 292p., rus] 34-3353

Sources of water supply and thermal energy resources of the Beloozerskii swamp. Starkov, V.M., [1978, p.90-92, rus] 34-3359

Fresh ground water resources and water supply of the western section of the Baykal Amur railroad area. Blokhin, IU.I., et al, [1977, p.127-134, rus] 34-3755

Water regime of plants in the medium altitude belts of Khamar-Daban and West Sayan Mountains. Kozlova, L.N., [1979, p.96-115, rus] 34-3775

Alaska village demonstration projects. Reid, B.H., [1980, 52p., eng] 34-4078

Hydromelioration of lands in the Buryat ASSR. Borisenko, I.M., ed, [1979, 110p., rus] 34-4095

Influence of water management practices on environments of the North. Voropaev, G.V., [1979, p.20-27, rus] 34-4166

Water table

Investigations of the water table of Kesselwandferner (Ötztal Alps) in a 30 m deep snow pit. Ambach, W., et al, [1978, p.61-71, ger] 34-665

Studying water level regime of palsa bogs. Moskvin, IU.P., [1979, p.27-37, rus] 34-828

Calculating water level of palsa bogs from meteorological data. Novikov, S.M., et al, [1979, p.38-49, rus] 34-829

Evaporation and runoff from undrained swamps in years with different moisture conditions. Bavina, L.G., [1979, p.61-73, rus] 34-831

Frost heaving of soils at two locations in southern Ontario, Canada. Fahey, B.D., [1979, p.119-126, eng] 34-1727

Application of recent results in functional analysis to the problem of water tables. Nakano, Y., [1979, p.185-190, eng] 34-1845

Study of freezing mechanisms in Caen rock. Lautridou, J.P., et al, [1979, p.343-358, fre] 34-2337

Water temperature

Numerical investigation of Arctic Ocean circulation. Semtner, A.J., Jr., [1973, 251p., eng] 34-2

Thermal alteration of groundwater caused by seepage from a cooling lake. Andrews, C.B., et al, [1979, p.595-602, eng] 34-271

Oceanographic cruise of the USCGC *Glacier* to the marginal sea-ice zone of the Chukchi Sea—MIZPAC 78. Interim report for period July 1978-May 1979. Paquette, R.G., et al, [1979, 77p., eng] 34-275

Analysis of ocean currents Davis Strait—1977. Osborn, T.R., et al, [1978, 2 vols., eng] 34-307

Oceanographic survey of Porters Lake, N.S. Elliott, J.A., [1978, 24p., eng] 34-320

Oceanographic observations in Barrow Strait and Wellington Channel, N.W.T., April 1973. Herlinveaux, R.H., et al, [1978, 170p., eng] 34-367

Subsurface current measurements in eastern Lancaster Sound, N.W.T., summer 1977. Fissel, D.B., et al, [1978, 72p., eng] 34-370

Numerical simulation of the annual cycle of sea ice in the Arctic and Antarctic. Parkinson, C.L., [1977, 191p., eng] 34-409

Cruise 77-1, February, 1977. Environmental aspects of the cruise to Davis Strait and the Labrador coast. [1977, var.p., eng] 34-426

Davis Strait ice and oceanographic observations, Winter 1976-77. [1977, 96p. + appends., figs., and tables, eng] 34-427

Biological studies, offshore cruises 77-2 and 77-3, April-June, 1977 in the Davis Strait. [1978, var. p., eng] 34-428

Report on Cruise II, July 1976. Environmental aspects of Imperial Oil cruise to Flemish Pass and Davis Strait. [1976, var.p., eng] 34-429

Field report on the oceanographic cruises during April, July-August, October-November, 1976. [1977, var.p., eng] 34-430

Primary data collected for the 1977 Davis Strait biological programme and analysed prior to December 1977 [1977, 2 vols., eng] 34-492

Isotherm plots of Babine Lake during the ice free season. Farmer, D.M., et al, [1975, 266p., eng] 34-503

Biological productivity of the southern Beaufort Sea: the physical-chemical environment and the plankton. Grainger, E.H., [1975, 82p., eng] 34-504

Oceanographic observations at stations along the triangular grids during the Mixed Layer Experiment, August 1, 1978. Volume 84-C. Miyake, M., [1979, 191p., eng] 34-563

Winter and spring oceanographic conditions in and under the ice of the Bering Sea. Lohrman, W.R., et al, [1979, 66p., eng] 34-1047

Experimental determination of melting rates of ice moving in sea water. Clifford, W.F., et al, [1979, 220p., eng] 34-1365

Surface aeration of domestic wastes: operating experiences at Red Deer, Alberta, Section 2. Lawson, P.D., [1974, p.230-240, eng] 34-1476

Computation of backwater curves under ice covers. Michel, B., [1979, 24 leaves, eng] 34-1580

Water temperature beneath ice in the Bratsk reservoir. Shishkanova, E.F., [1979, p.81-86, rus] 34-169

Physical oceanography from the Arctic ice pack: Project AIDJEX STD programs. Amos, A.J., [1975, 17p., eng] 34-1731

Seasat Gulf of Alaska Workshop report. Executive summary. Born, G.H., et al, [1979, 42p., eng] 34-1734

On upwelling driven by the melt of ice shelves and tidewater glaciers. Greisman, P., [1979, p.1051-1065, eng] 34-1882

Instability of internal waves as a mechanism of heat transfer from Atlantic waters to the Arctic Basin. Alekseev, G.V., et al, [1979, p.118-125, eng] 34-1893

Proceedings. [1979, 291p., eng] 34-2036

Recent oceanographic observations in the Labrador current. Lazier, J.R.N., [1979, p.195-204, eng] 34-2039

Geostrophic calculations for the Labrador current. Keeley, J.R., [1979, p.201-218, eng] 34-2040

Thermal regime of the World Ocean during the last glaciation maximum. Kagan, B.A., et al, [1979, p.716-720, rus] 34-2116

Thermal capacity of sea ice and its effect on ice cover melting in Arctic seas. Faiko, L.I., [1979, p.211-213, rus] 34-2211

Experimental study on the most reasonable amount of ground water to be sprinkled for melting the freshly fallen snow on the roads. Nakamura, H., [1979, p.117-147, jap] 34-2549

Observational data of ground water in the Shinjo basin (1) —Shallow ground water level and water temperature (1970-1975). Higashiura, M., et al, [1979, p.1-95, jap] 34-2557

Influence of human factors on phytoplankton and water quality of the Angara River. Kozhova, O.M., et al, [1980, p.61-66, rus] 34-2707

Maximum heat content of the Barents Sea active layer as an indication of future hydrometeorological processes. Moskal', T.N., [1979, p.66-80, rus] 34-3000

Water surface temperature in the eastern Arctic seas in 1974 from airborne infrared radiometer readings. Arikainen, A.I., et al, [1979, p.91-99, rus] 34-3002

Heat content distribution in the active layer of the Barents Sea in August. Moskal', T.N., [1979, p.109-116, rus] 34-3004

Current meter. [1975, 295p., eng] 34-3099

Oceanographic data. [1976, 30p. + figs., eng] 34-3100

Oceanographic characteristics in the Caspian Sea near the ice edge. Kosarev, A.N., et al, [1979, p.170-180, rus] 34-3185

Time-dependent feedback system involving sea-ice extent, ocean temperature, and CO2. Saltzman, B., et al, [1980, p.93-118, eng] 34-3366

Recent fluctuations in meteorological and oceanographic parameters in Alaska waters. Niebauer, H.J., [1980, 34p., eng] 34-3483

Heat transfer in Atlantic waters on the continental slope of the Laptev Sea. Beliakov, L.N., et al, [1979, p.30-36, rus] 34-3586

Thermal state of waters in the northern Greenland Sea in February 1972 (from data obtained along the Barentsburg-ice edge cross-section). IAnes, A.V., [1979, p.37-42, rus] 34-3587

Variation of sea surface temperature (from airborne radiation measurements). Gorbunov, IU.A., et al, [1979, p.47-54, rus] 34-3588

Relation between heat content and water transport in the Kara Sea. Stepanov, S.I., [1979, p.55-58, rus] 34-3589

Break-up of the Yukon River at the Haul Road Bridge: 1979. Stephens, C.A., et al, [1979, 22p. + Figs., eng] 34-4193

Water transport

Current observations in the channels of the Canadian Arctic Archipelago adjacent to Bathurst Island. Greisman, P., et al, [1978, 127p., eng] 34-562

Infiltration into soil with precipitation of arbitrary intensity. Kutuzova, G.B., [1979, p.142-148, rus] 34-1085

Hydrochemical regime of the Arctic Ocean. Rusanov, V.P., et al, [1979, 144p., rus] 34-1092

Federal hydrometric station Massa-Blatten at the front of Aletsch Glacier. Emmenegger, C., et al, [1979, p.23-38, fre] 34-1310
Vacuum sewer systems for northern applications. Averill, D.W., et al, [1974, p.258-286, eng] 34-1478
Vacuum sewage transport and treatment in rural areas in Denmark. Jespersen, F., [1974, p.287-304, eng] 34-1479
Studies of heat and mass transfer at the lower surface of the Ross Ice Shelf. Zotikov, I.A., et al, [1979, p.178, rus] 34-2201
Influence of water, salt and heat transfer on the dates of stable ice formation in the Kara Sea. Stepanov, S.I., [1979, p.121-125, rus] 34-3006
Variations of heat content of deep Atlantic waters in the Arctic Basin over a period of years. Bulatov, L.V., et al, [1979, p.6-13, rus] 34-3583
S-S analysis of surface waters in the Arctic Basin. Rusanov, V.P., et al, [1979, p.14-23, rus] 34-3584
Seasonal and annual fluctuations in Atlantic water and heat inflow into the Arctic Basin through the Fram Strait. Mandel', S.Z., [1979, p.24-29, rus] 34-3585
Heat transfer in Atlantic waters on the continental slope of the Laptev Sea. Beliakov, L.N., et al, [1979, p.30-36, rus] 34-3586
Thermal state of waters in the northern Greenland Sea in February 1972 (from data obtained along the Barentsburg-ice edge cross-section). IAnes, A.V., [1979, p.37-42, rus] 34-3587
Relation between heat content and water transport in the Kara Sea. Stepanov, S.I., [1979, p.55-58, rus] 34-3589
Model application to urban groundwater problems of Fairbanks, Alaska. Kane, D.L., [1980, 30p., eng] 34-3992

Water treatment

Freezing problems associated with spray irrigation of wastewater during the winter. Bouzoun, J.R., [1979, 12p., eng] 34-136
Developing systems of communal water supply and waste discharge in Siberia and the Far East. Poriadin, A.F., et al, [1979, p.4-6, rus] 34-237
Hygienic evaluation of water supply and waste disposal along the Baykal Amur railroad. Pletnikova, I.P., et al, [1979, p.7-8, rus] 34-238
Water supply and drainage systems and waste water treatment in the Noril'sk area. Okhrimenko, S.S., [1979, p.28-29, rus] 34-245
Improvement and development of water supply and waste drainage systems in Siberia, the Far East, Far North and BAM area. [1979, p.30-31, rus] 34-246
Organic and color removal from water supplies by synthetic resinous absorbants. Tilsworth, T., [1974, 53p., eng] 34-602
Community response strategies for environmental problems of water supply and wastewater disposal in Fairbanks, Alaska. Smith, D.W., et al, [1976, 28p., eng] 34-616
Clearing Alaskan water supply impoundments: management, laboratory study, and literature review. Smith, D.W., et al, [1976, 126p., eng] 34-617
Environmental Standards for Northern Regions: a symposium, June 1974, Anchorage, Alaska. Smith, D.W., ed, [1975, 389p., eng] 34-630
Primary vs. secondary vs. tertiary treatment: which one. McKinney, R.E., [1975, p.113-129, eng] 34-632
Mandatory chlorination of wastewater discharges. Gordon, R.A., et al, [1975, p.163-186, eng] 34-634
Anchorage wastewater treatment. West, C.E., et al, [1975, p.187-195, eng] 34-635
Wastewater treatment and disposal alternatives in northern regions. Smith, D.W., et al, [1975, p.357-389, eng] 34-638
Investigation of an ozone-filter system for color and iron removal at low temperatures. Smith, D.W., et al, [1975, 71p., eng] 34-644
Individual wastewater treatment systems in Alaska. Johnson, R.A., [1977, p.29-36, eng] 34-692
Status of inorganic phosphorus in soils irrigated with municipal wastewater. Sommers, L.E., et al, [1979, p.340-350, eng] 34-697
Wastewater helps the barley grow. Day, A.D., et al, [1979, p.26-28, eng] 34-698
Annotated bibliography on northern environmental engineering 1976-1977. Armstrong, B.C., comp, [1979, 132p., eng] 34-739
Documentation of soil characteristics and climatology during five years of wastewater application to CRREL test cells. Iskandar, I.K., et al, [1979, 82p., eng] 34-743
Rational use of water by Krasnoyarsk factories. Stegantsev, V.P., et al, [1974, p.152-158, rus] 34-763
Filter purification of waste waters from tire factories. Emelina, Z.G., et al, [1974, p.159-169, rus] 34-764
Experimental project of sewage systems for the *Pionerskaia Rechka* sanatorium. Mochalov, I.P., et al, [1974, p.170-177, rus] 34-765
Impact of waste diversion on water quality in lakes. Freedman, P.L., et al, [1979, p.867-881, eng] 34-964
Research and development towards a facility for water purification and waste treatment in the north. Day, D.R., [1978, 115p., eng] 34-1109
Long-term effects of land application of domestic wastewater, Roswell, New Mexico, slow rate irrigation site. Koerner, E.L., et al, [1979, 187p., eng] 34-1112
Study of the vacuum-freezing high pressure ice-melting process. Cheng, C.Y., [1979, 70p., eng] 34-1142
Long-term effects of land application of domestic wastewater: Vineland, New Jersey, rapid infiltration site. Koerner, E.L., et al, [1979, 183p., eng] 34-1373
History of land application as a treatment alternative. Jewell, W.J., et al, [1979, 97p., eng] 34-1374
Bacterial aerosols from a field source during multiple-sprinkler irrigation: Deer Creek Lake State Park, Ohio. Bausum, H.T., et al, [1979, 64p., eng] 34-1381
International Symposium on Wastewater Treatment in Cold Climates, University of Saskatchewan, August 22-24, 1973. Davis, E., ed, [1974, 595p., eng] 34-1465
Sewage treatment methods in Finland. Viitasaari, M., [1974, p.29-44, eng] 34-1467
Sewage treatment in the northern areas of the U.S.S.R. Alferova, L.A., et al, [1974, p.64-74, eng] 34-1469
Effects of water temperature and elevation on aeration. Hunter, J.S., et al, [1974, p.125-169, eng] 34-1472
Waste treatment performance data at Prince Albert Pulp Company. Aschim, O.K., [1974, p.207-219, eng] 34-1474
On the combined treatment of domestic sewage and waste water from wood industries. Airaksinen, J.U., [1974, p.241-257, eng] 34-1477
Low temperature biological denitrification of wastewater. Sutton, P.M., et al, [1974, p.380-402, eng] 34-1482
Description of some recent research work of particular interest for the introduction of new waste water treatment methods in Norway. Abrahamsen, J., [1974, p.403-422, eng] 34-1483
Overview of the problems of disinfection. Chambers, C.W., [1974, p.423-437, eng] 34-1484
Chlorine disinfection of treated wastewater. Gordon, R.C., et al, [1974, p.438-481, eng] 34-1485
Ozone disinfection of wastewaters at low temperatures. Kinman, R.N., [1974, p.507-522, eng] 34-1487
Feasibility of physico-chemical treatment of raw sewage at low temperature. Magsood, R., et al, [1974, p.523-548, eng] 34-1488
Alaska village demonstration projects: first generation of integrated utilities for remote communities. Reid, B.H., [1974, p.549-569, eng] 34-1489
Phosphorus removal by lime addition to conventional anaerobic stabilization facility. Lechner, L.J., et al, [1974, p.570-586, eng] 34-1490
Prototype overland flow test data: June 1977-May 1978. Jenkins, T.F., et al, [1979, 91p., eng] 34-1599
Characterization and treatment of snowmelt runoff from an urban catchment. Kronis, H., [1978, 35p., eng] 34-2108
Mass water balance during spray irrigation with wastewater at Deer Creek Lake land treatment site. Abele, G., et al, [1978, 43p., eng] 34-2284
Use of 15N to study nitrogen transformations in land treatment. Jenkins, T.F., et al, [1979, 32p., eng] 34-2364
Construction of water intake and treatment structures in the north. Godes, E.G., et al, [1980, 232p., rus] 34-2516
Preliminary investigations of the kinetics of nitrogen transformation and nitrosamine formation in land treatment of wastewater. Jacobson, S., et al, [1979, 59p., eng] 34-3231
Simplified model for prediction of nitrogen behavior in land treatment of wastewater. Selim, H.M., et al, [1980, 49p., eng] 34-3263
Manual for designing water supply and sewage systems in permafrost areas. Fedorov, N.F., et al, [1979, 159p., rus] 34-3269
Protecting rivers in the Kolyma Basin from pollution with solid suspensions by electrochemical coagulation treatment of mining waste waters. Novozhilov, V.N., et al, [1980, p.102-107, rus] 34-3295
Wastewater treatment in cold regions by overland flow. Martel, C.J., et al, [1980, 14p., eng] 34-3325
Nitrogen transformations in a simulated overland flow wastewater treatment system. Chen, R.L., et al, [1980, 33p., eng] 34-3365
Five-year performance of CRREL land treatment test cells; water quality plant yields and nutrient uptake. Jenkins, T.F., et al, [1978, 24p., eng] 34-3449
Water movement in a land treatment system of wastewater by overland flow. Nakano, Y., et al, [1979, p.185-206, eng] 34-3949
Alaska village demonstration projects. Reid, B.H., [1980, 52p., eng] 34-4078
Removal of volatile trace organics from wastewater by overland flow land treatment. Jenkins, T.F., et al, [1980, p.211-224, eng] 34-4200

Water vapor

Global seasonal variation of water vapor on Mars and the implications for permafrost. Farmer, C.B., et al, [1979, p.2881-2888, eng] 34-654
Diagram of metastable states of water. Kosiakov, V.I., et al, [1979, p.707, eng] 34-701

Water waves

High-speed method of air cushion icebreaking. Robertson, B.W., [1977, p.133-140, eng] 34-209
Weather, waves and icing in the Beaufort Sea. Berry, M.O., et al, [1975, 5 parts, eng] 34-506
Current observations in the channels of the Canadian Arctic Archipelago adjacent to Bathurst Island. Greisman, P., et al, [1978, 127p., eng] 34-562
Instability of internal waves as a mechanism of heat transfer from Atlantic waters to the Arctic Basin. Alekseev, G.V., et al, [1979, p.118-125, eng] 34-1893
Ice protection of power line supports. Marfin, N.I., [1979, 93p., rus] 34-2870
Deforestation of reservoirs. Marcotte, H., et al, [1979, p.15-17, fre] 34-3063
Wind swell regime of the eastern Arctic shelf zone. IAgubov, I.M., [1979, p.133-134, rus] 34-3538

See also: Ocean waves

Waterproofing

Construction and performance of membrane encapsulated soil layers in Alaska. Smith, N., [1979, 27p., eng] 34-134
Moisture-proof thermal insulation for ductless heat pipes. Skvortsov, A.A., [1979, p.21-24, rus] 34-327
Concretes for roof plates. Savvina, IU.A., et al, [1977, p.14-17, rus] 34-346
Field tests of concretes with silicon-organic oligomers. Batrakov, V.G., et al, [1977, p.41-44, rus] 34-349
Optimal composition of complex powder admixtures for concretes. Gen', O.P., et al, [1977, p.45-50, rus] 34-350
Recommendations for using lightweight concrete in the construction of large panel residential buildings. [1976, 71p., rus] 34-401
Calculating service life of waterproof mastic roofings. Popchenko, S.N., et al, [1979, p.15-22, rus] 34-1527
Increasing the reliability of waterproof asphalt facings for concrete dams. Davidenko, V.M., et al, [1979, p.23-29, rus] 34-1528
Studying properties of concretes saturated with sulfur solutions. Orlovskii, IU.I., et al, [1980, p.78-81, rus] 34-3166
Soil stabilization and water impervious screens in hydroelectric engineering. Adamovich, A.M., [1980, 319p., rus] 34-3270
Control of seepage through concrete by injection of polymer solutions. Ibragimov, M.N., [1980, p.880-882, rus] 34-3378
Water repellant plasticizing admixtures for cements, grouts and concretes. Khigerovich, M.I., et al, [1921, 125p., rus] 34-3615
Improving the procedure for installation of antiseepage curtains by the "wall-in-the-ground" method. Burov, IU.E., et al, [1980, p.304-309, eng] 34-3932

Watersheds

Drainage network analysis of a subarctic watershed: Caribou-Poker Creeks research watershed, interior Alaska. Bredthauer, S.R., et al, [1979, 9p., eng] 34-137
Nutrient chemistry of a large, deep lake in subarctic Alaska. LaPerriere, J.D., et al, [1977, 128p., eng] 34-624
Forecasting seasonal snowmelt runoff: a summary of experience with two models applied to three drainages in the Cascade Mountains of Washington. Lettenmaier, D.P., et al, [1978, 109p., eng] 34-1905
Relationships between snow cover and winter losses of dissolved substances from a mountain watershed. Lewis, W.M., Jr., et al, [1980, p.11-17, eng] 34-2273
Drainage network analysis of a subarctic watershed. Bredthauer, S., et al, [1979, p.349-359, eng] 34-2434
Hydrologic aspects related to the management of alpine areas. Johnston, R.S., et al, [1979, p.65-75, eng] 34-2961
Square-grid spatial interpolation of snow cover for a hydrometeorological information system. Thompstone, R.M., et al, [1979, p.40-52, eng] 34-4204
Some factors affecting spring snowmelt within Narrows Mountain Brook basin, a forested watershed in central New Brunswick. Gordon, A.M., [1979, p.53-67, eng] 34-4205

Wave propagation

High-speed method of air cushion icebreaking. Robertson, B.W., [1977, p.133-140, eng] 34-209
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] 34-213
Classification of the means of radio communication in mines. Elshin, V.K., et al, [1975, p.30-36, rus] 34-218
Kinetic waves in glaciers. Hutter, K., [1979, p.93-110, ger] 34-364
Ultrasonic velocity investigations of crystal anisotropy in deep ice cores from Antarctica. Kohnen, H., et al, [1979, p.4865-4874, eng] 34-410
Calving wave during the breakup of a flooded glacier tongue. Vischer, D.L., [1979, p.315-329, ger] 34-1331
Investigations of surface-wave dispersion in an inhomogeneous medium by the finite difference method. Acharya, H.K., et al, [1978, p.1381-1386, eng] 34-1848
Instability of internal waves in an ice-covered sea. Savchenko, V.G., et al, [1979, p.76-84, eng] 34-1901
Capture of long ocean waves by heterogeneities of ice cover. Odulo, A.B., [1979, p.72-76, rus] 34-2001
Regularities governing the propagation of railroad induced oscillations in cohesive soils. Chokhonelidze, G.I., et al, [1975, p.76-77, rus] 34-2063
Analysis of plastic shock waves in snow. Brown, R.L., [1979, 14p., eng] 34-2528

Wave propagation *(cont.)*
Traveling wave solutions of saturated-unsaturated flow through porous media. Nakano, Y., (1980, p.117-122, eng) 34-2672
Low-frequency surface impedance measurements at some glacial areas in the United States. Arcone, S.A., et al, (1980, p.1-9, eng) 34-2674
Vibration measurements made on an ice platform in the vicinity of Panarctic Hecla N-52 well for Sun Oil Company, Richardson, Texas. Fix, J.E., (1974, 76p., eng) 34-3096
Wind swell regime of the eastern Arctic shelf zone. (Agubov, I.M., (1979, p.133-134, rus) 34-3538
Ice characteristics in the seasonal sea ice zone. Wadhams, P., (1980, p.37-92, eng) 34-3626
Arctic hydroacoustics. Diachok, O., (1980, p.185-207, eng) 34-3630
Long-period gravity waves in ice-covered sea. Bates, H.F., et al, (1980, p.1095-1100, eng) 34-4073

Waves
See: Detonation waves; Microwaves; Ocean waves; Shock waves; Sound waves; Water waves

Weather
Polar environmental monitoring: final report. (1979, 94p., eng) 34-3390
Multiple causes of the North American abnormal winter 1976-77. Namias, J., (1978, p.279-295, eng) 34-3719
See also: Meteorology

Weather control
See: Cloud seeding; Fog dispersal

Weather forecasting
Development of a forecast guidance product for lake-effect snowstorms. Dewey, K.F., (1978, p.4-11, eng) 34-27
Lake effect snows off the east end of Lake Ontario. Lansing, L., (1978, p.12-16, eng) 34-28
Current forecast procedures for lake effect snows in western New York especially related to 1976-1977 and 1977-1978 winters. Kolker, B., (1978, p.17-35, eng) 34-29
Calculating the icing of tall structures from indirect data. Glukhov, V.G., et al, (1979, p.67-73, rus) 34-1819
Cooling of the Arctic. Zakharov, V.F., (1979, p.13-22, eng) 34-1886
Atmospheric processes and characteristics of underlying surfaces during the period preceding the formation of temperature anomalies. (1979, p.12-23, rus) 34-2965
Synoptic conditions and the formation of major mean monthly air temperature anomalies in West Siberia. Zubovich, M.G., et al, (1979, p.24-36, rus) 34-2966
Synoptic-statistical method of fog forecasting for West Siberian airports. (Arkova, V.M., (1979, p.107-113, rus) 34-2969
Forecasting surface wind velocities in the Krasnoyarsk area. Zalizniak, E.L., (1979, p.114-120, rus) 34-2970
Antarctic forecasters handbook. (1970, c125 leaves, eng) 34-3431
Synoptic-statistical method of evaluating the possibility of southerly storm formation and velocity. Zimich, P.I., (1979, p.36-41, rus) 34-3529
Allowing for annual groups of homogeneous development of air temperature anomalies in forecasting practices of the eastern Arctic. Dmitriev, A.A., et al, (1979, p.79-87, rus) 34-3532
Relations between wind velocity and air temperature in Siberia. Drobyshev, A.D., (1979, p.79-89, rus) 34-3581
Snow depth used as a predictor in forecasting mean monthly air temperature anomalies over southern West Siberia. Eremin, V.V., et al, (1979, p.125-129, rus) 34-3582
Results of scientific investigations of the Murmansk branch of the Arctic and Antarctic Scientific Research Institute during 1972-1976. Terziev, F.S., (1980, p.6-12, rus) 34-4177
Surge lowering of levels in the Barents and White seas. Potanin, V.A., et al, (1980, p.13-20, rus) 34-4178
Calculating regime characteristics of surge waves from standard wind field data. Dzheniuk, S.L., (1980, p.21-29, rus) 34-4179
See also: Long range forecasting

Weather maps
See: Meteorological charts

Weather modification
See: Cloud seeding; Fog dispersal

Weather observations
Environmental conditions off the east coast of Canada: Sites 1 (63N, 59W) and 2 (60N, 60W). Danard, M., (1977, 75p., eng) 34-3110
Antarctic navigation. Woodfield, T., (1979, p.234-242, eng) 34-3336

Weather stations
Automatic weather station for operating in severe icing climates. Baker, B., et al, (1979, p.734-738, eng) 34-699

Weathering
Three soil profiles from Elephant Island, South Shetland Islands. O'Brien, R.M.G., et al, (1979, p.1-12, eng) 34-12
Some aspects of weathering and burning crude oil in a water and ice environment. Belicek, J., et al, (1976, 34p., eng) 34-487
Soil forming factors in the Rocky Mountains of Southwestern Alberta, Canada. Howell, J.D., et al, (1978, p.313-324, eng) 34-797
Applications of the sonic test to experimental freeze-thaw studies in geomorphic research. Fahey, B.D., et al, (1979, p.253-260, eng) 34-1282
Baffin Island quaternary environments; an annotated bibliography. Andrews, M., et al, (1980, 123p., eng) 34-2722
Polar lithogenesis. Danilov, I.D., (1978, 238p., rus) 34-2902
Nivation: an arctic-alpine comparison and reappraisal. Thorn, C.E., et al, (1980, p.109-124, eng) 34-3803
See also: Frost weathering; Permafrost weathering; Rock weathering

Weddell Sea
Effect of varying low level wind fields on the opening and closing of the ice cover in the western Weddell Sea. Kyle, T.H., (1974, 91p., eng) 34-944
Meteorological aspects of the drift of ice from the Weddell Sea toward the mid-latitude westerlies. Schwerdtfeger, W., (1979, p.6321-6328, eng) 34-1404
Mass-balance aspects of Weddell Sea pack-ice. Ackley, S.F., (1979, p.391-405, eng) 34-2840
Glacial and glacial marine sediments of the antarctic continental shelves. Anderson, J.B., et al, (1980, p.399-414, eng) 34-4189

Wedges
Periglacial sorted circle and frost wedge formations in brownish soils of northern Germany. Blume, H. P., et al, (1979, p.257-265, ger) 34-1495

Welding
Heating pipeline joints. Prilipko, V.M., (1979, p.29, rus) 34-171
Testing weldability of metals at subzero temperatures. Sleptsov, O.I., (1975, p.125-128, rus) 34-233
Testing welded pipe joints at low temperatures. Sil'vestrov, A.V., et al, (1979, p.133-136, rus) 34-810
Scientific problems in the construction of northern gas lines. Ivantsov, O.M., (1979, p.10-15, rus) 34-1179
Allowing for temperature drop when building and operating northern gas lines. Leiman, P.P., et al, (1979, p.33-34, rus) 34-1712
Optimizing working conditions of welders on northern sites. Shabanov, P.P., et al, (1979, p.22-24, rus) 34-2098
Influence of the length of perpendicular leg of fillet welded joints on their strength at low temperatures. Semenovich, M.D., et al, (1979, p.18-22, rus) 34-2624
Calculating combined end- and side-lap welds at low temperature. Semenovich, M.D., (1979, p.17-22, rus) 34-2846
Improving work organization and quality control at a most important construction site. Pelevin, I.V., (1980, p.20-21, rus) 34-3818
Modernized welding assembly PAU1001V for field work. Borutskii, A.I., et al, (1980, p.36-37, rus) 34-3822

Well casings
Design of casing programs. Bulatov, A.I., et al, (1979, 280p. (Pertinent p.85-91, 135-141), rus) 34-3070

Wells
Determining density of circulating fluids for wells without casings in unstable permafrost. Abdullaev, T.B., (1978, p.21-24, rus) 34-253
Intensifying the performance of incomplete dug-out wells. (Akunin, IU.V., (1974, 14-22, rus) 34-751
Calculating water inflow into incomplete dug-out wells allowing for riverbed silting. (Akunin, IU.V., (1974, p.52-81, rus) 34-754
Graphic calculation of dug-out vacuum wells. Sokolova, L.V., (1974, p.82-88, rus) 34-755
Heat transfer problems applied to the theory of well drilling. Pudovkin, M.A., et al, (1979, 182p., rus) 34-1650
Studying properties of G class cement and the "Permafrost" mixture according to the national standards. Kliusov, A.A., (1979, p.31-34, rus) 34-1755
Rock thermophysics. Summaries of reports. (1973, 75p., rus) 34-1952
Thermal regime of wells and its control. Kudriashov, B.B., et al, (1973, p.3-5, rus) 34-1953
Influence of thermal regime variations on the state of wells drilled in permafrost. Griaznov, G.S., (1973, p.21-22, rus) 34-1954
Controlling thermal regime of wells when using drilling fluids in permafrost. (Akovlev, A.M., (1973, p.23-24, rus) 34-1955
Practical advantages and prospects of drilling with simultaneous freezing of weakly consolidated rocks. Afanas'ev, I.S., et al, (1973, p.25-26, rus) 34-1956
Controlling temperatures of hydrating cementing mixtures in wells. Putikov, O.F., et al, (1973, p.29-30, rus) 34-1957
Heat and mass transfer during melting of perennially frozen rocks surrounding producing wells. Antipov, V.I., et al, (1979, p.47-51, rus) 34-2706
Design of casing programs. Bulatov, A.I., et al, (1979, 280p. (Pertinent p.85-91, 135-141), rus) 34-3070
Hydrodynamic and hydrochemical assessment of explosions used in testing low-output wells in permafrost regions. Maksimov, V.M., (1980, p.313-320, eng) 34-3254
Hydromelioration of lands in the Buryat ASSR. Borisenko, I.M., ed, (1979, 110p., rus) 34-4095
Problems in designing telemetering equipment for complex soil and climatic conditions in West Siberia. Tsibul'skii, V.R., (1980, p.81-84, rus) 34-4148

Wet snow
Compaction of wet snow on highways. Colbeck, S.C., (1979, p.14-17, eng) 34-52
Studies on tensile strength of wet snow. Wakahama, G., et al, (1979, p.18-22, eng) 34-53
Mixing formulas for determining the free water content of wet snow from measurements of the dielectric constant. Denoth, A., et al, (1978, p.73-80, eng) 34-666
Methods of forecasting wet snow avalanches in the Dukant station area. Kharitonov, G.G., (1979, p.61-67, rus) 34-1127
Protection from glacial mudflows. Voltkovskii, K.F., et al, (1979, p.191-198, rus) 34-1553
Grain clusters in wet snow. Colbeck, S.C., (1979, p.371-384, eng) 34-1698
Mudflow sources in the Ukrainian Carpathians. Alzenberg, M.M., et al, (1978, p.64-70, rus) 34-2050
Catastrophic accumulation of wet snow and gale winds at the southern cyclone exit in April 1975. Koshenko, A.M., et al, (1977, p.114-121, rus) 34-2892
Formation of ice on electrical conductors during heavy falls of wet snow. Kemp, A.K., (1980, p.69-74, eng) 34-2903
See also: Slush

Wettability
Studying wettability of mineral grains in disperse systems. Romanov, V.P., (1979, p.143-152, rus) 34-2786

Wharves
See: Docks; Ice wharves; Piers

Wheels
See: Vehicle wheels

Wind chill
Forecasting surface wind velocities in the Krasnoyarsk area. Zalizniak, E.L., (1979, p.114-120, rus) 34-2970

Wind direction
Relationships of soil acidity and air temperature to the wind and vegetation at Prudhoe Bay, Alaska. Walker, D.A., et al, (1979, p.224-236, eng) 34-688
Vegetation and climate on Coburg Island, N.W.T. Muller, H., (1979, p.139-147, eng) 34-767
Variations in summer temperature patterns near Barrow, Alaska: analysis and ecological interpretation. Myers, J.P., et al, (1979, p.131-144, eng) 34-1277
Snow blowing devices. Amelin, S.V., et al, (1979, p.22-23, rus) 34-2123
Open water surface currents. MacNeill, M.R., et al, (1975, 113p., eng) 34-2399
Wind features of Moshiri basin. Ishikawa, N., et al, (1979, p.113-119, jap) 34-3496
Uninterrupted periods of strong winds (>15m/s) over West Siberia and Altai territory. Slutskii, V.I., et al, (1979, p.31-40, rus) 34-3578
Relationships among lead, iodine, trace metals and ice nuclei in a coastal urban atmosphere. Borys, R.D., et al, (1979, p.1490-1494, eng) 34-3996
Forecasts and calculations of hydrometeorological elements of northern seas. Terziev, F.S., ed, (1980, 140p., rus) 34-4176
Calculating regime characteristics of surge waves from standard wind field data. Dzheniuk, S.L., (1980, p.21-29, rus) 34-4179

Wind erosion
Deflation of Barguzin Basin soils and economic utilization. Namzhilov, N.B., (1979, p.124-130, rus) 34-449
Eolian sand deflation—a cause for gravel barrier islands in Arctic Alaska. Reimnitz, E., et al, (1979, p.507-510, eng) 34-1143
Ice action in the lacustrine environment: a review with particular reference to subarctic Quebec, Canada. Dionne, J.-C., (1979, p.185-212, eng) 34-2503
Origin of massive sand deposits in the Baykal Amur railroad area and their economic development. Shevchenko, V.K., (1979, p.165-169, rus) 34-2757

Wind factors
Vegetation and climate on Coburg Island, N.W.T. Muller, H., (1979, p.139-147, eng) 34-767
Characteristics of antarctic sea ice as determined by satellite-borne microwave imagers. Zwally, H.J., et al, (1976, p.94-97, eng) 34-815
Wind and snow load factors for use in LRFD. Discussion. Simiu, E., (1979, p.2130-2132, eng) 34-962
Snow on the Great Plains. Willis, W.O., (1979, p.56-62, eng) 34-1005
Icing of ships. Panov, V.V., (1978, p.166-186, eng) 34-1416
Microclimate of the Vilyuy reservoir in the area adjacent to the dam. Olovin, B.A., (1979, p.124-129, rus) 34-1519
Fall ice drift in Nares Strait, as observed by sideways-looking airborne radar. Dunbar, M., (1979, p.283-307, eng) 34-1615
Snow redistribution by wind. Hoinkes, H., (1957, p.27-32, ger) 34-1655
Statistical study of passage into Beaufort Sea via Point Barrow. Wilson, S.R.G., (1977, 108p., eng) 34-1763

Using climatic data in structural design. Kobysheva, N.V., et al, [1979, p.9-16, rus] 34-1816
Icing of a cable. Poots, G., et al, [1976, p.203-217, eng] 34-1969
Aerodynamic resistance of iced power lines. Khokhlov, V.A., [1978, p.82-86, rus] 34-2104
Oxygen isotopic composition of drifting snow in Mizuho Plateau, Antarctica. Kato, K., et al, [1979, p.136-151, jap] 34-2155
Oxygen isotopic composition of snow formed under an antarctic anticyclone. Kato, K., et al, [1979, p.152-163, jap] 34-2156
Wind action in frost shattering processes. Brochu, M., [1979, p.401-404, fre] 34-2342
Glaze-wind forces on power lines in Central Asia. Leukhina, G.N., [1979, p.67-72, rus] 34-2413
Interpreting meso- and microclimatic peculiarities of large cities for urban planning (Novosibirsk taken as an example). Pivkin, V.M., [1979, p.48-54, rus] 34-2620
Sediment transport in Norton Sound, Alaska. Cacchione, D.A., et al, [1979, 88p., eng] 34-2720
Ice conditions in areas adjacent to the North Atlantic Ocean from July to September 1979. [1980, p.42-46, eng] 34-2788
Satellite studies of fresh-water ice movement on Lake Erie. Wiesnet, D.R., [1979, p.415-426, eng] 34-2842
Catastrophic accumulation of wet snow and gale winds at the southern cyclone exit in April 1975. Koshenko, A.M., et al, [1977, p.114-121, rus] 34-2892
Studies on interaction between wind and dry snow surfaces. Kobayashi, S., [1979, 64p., eng] 34-3191
Snowbreak effect of deciduous shelterbelts. Kobayashi, D., et al, [1979, p.53-61, jap] 34-3491
Wind swell regime of the eastern Arctic shelf zone. IAgubov, I.M., [1979, p.133-136, rus] 34-3538
Experimental studies and determination of equivalent ambient air temperature for technical design of windows. Grigor'ev, P.IA., et al, [1978, p.111-115, rus] 34-3914

Wind (meteorology)

Normal and extreme winds and waves in the Canadian southern Beaufort Sea. [1974, 81p., eng] 34-300
Preliminary study of the fate of oil from a subsea blowout on the east coast. Telford, A.S., et al, [1977, 34p., eng] 34-312
Landfast ice movement—Mackenzie Delta 1972-73. Spedding, L.G., [1973, 122p. + figs., eng] 34-480
Landfast ice movement—Mackenzie Delta 1972. Croasdale, K.R., et al, [1972, 104p., eng] 34-576
Environmental conditions in Baffin Bay and Davis Strait. [1972, 144p., eng] 34-577
Frost streaks in the south polar cap of Mars. Thomas, P., et al, [1978, p.4621-4633, eng] 34-685
Automatic weather station for operating in severe icing climates. Baker, B., et al, [1979, p.734-738, eng] 34-699
Effect of wind orography in the free atmosphere on air circulation above glaciers. Ni, A.A., et al, [1977, p.30-34, rus] 34-887
Vertical profile of glacier wind (numerical experiment). Ni, A.A., et al, [1977, p.35-40, rus] 34-888
Effect of varying low level wind fields on the opening and closing of the ice cover in the western Weddell Sea. Kyle, T.H., [1974, 91p., eng] 34-944
Snow blowing and snow fall on the North Slope, Alaska. Wendler, G., [1979, p.10-19, eng] 34-1051
Nonstationary turbulent wind flow past tall structures. Gusev, M.A., [1979, p.51-55, rus] 34-1087
Climatic and synoptic study of the Weddell Sea region during the austral fall months. Komro, F.G., [1978, 46p., eng] 34-1090
Meteorological aspects of the drift of ice from the Weddell Sea toward the mid-latitude westerlies. Schwerdtfeger, W., [1979, p.6321-6328, eng] 34-1404
Numerical simulation of katabatic wind profile at Syowa Station, Antarctica. Adachi, T., [1979, p.64-74, eng] 34-2151
Some characteristics of turbulence in katabatic winds over Mizuho Plateau, East Antarctica. Kobayashi, S., et al, [1979, p.75-85, eng] 34-2152
Preliminary study on the structure of the atmospheric surface layer in Mizuho Plateau, East Antarctica. Sasaki, H., [1979, p.86-100, eng] 34-2153
Recent fluctuations in meteorological and oceanographic parameters in Alaska waters. Niebauer, H.J., [1980, 34p., eng] 34-3483

Wind power generation

Axial flow wind air-turbine NU-102 with electric eddy-current brake. Awano, S., et al, [1979, 57p., eng] 34-2157

Wind pressure

Design of weathertight joints. Latta, J.K., [1976, 8p., eng] 34-161
Studying the combined effect of low air temperature and wind pressure on thermal regime of walls. Orel, O.P., [1972, p.166-176, rus] 34-189
Numerical investigation of the Bering Sea circulation using a linear homogeneous model. Han, Y.-J., et al, [1979, 37p., eng] 34-1729
Development and test of fiberglass low-impact resistant towers. Rogers, E.T., et al, [1979, 77p., eng] 34-2267
Estimated glaze ice and wind loads at the earth's surface for the contiguous United States. Tattelman, P., et al, [1973, 35p., eng] 34-3645
Building standards and regulations. Part 2: Design standards. Chapter 6. Loads and effects. [1980, 92p., eng] 34-3897

Wind tunnels

Wind tunnel analysis of the effects of planting at highway grade separation structures. Final report. [1979, 210p., eng] 34-368
Further icing experiments on an unheated non-rotating cylinder. Stallabrass, J.R., et al, [1979, 57 leaves, eng] 34-1506
In situ wind tunnel for snow accretion experiments using natural snowflakes. Wakahama, G., et al, [1979, p.183-187, jap] 34-3505

Wind velocity

Experimental studies of snow accretion on power lines. Fujino, K., et al, [1979, p.95-100, eng] 34-67
Control of snow and ice on road and communication facilities in the Himalayas. Malik, S.C.L., et al, [1979, p.129-134, eng] 34-72
Visibility in blowing snow and applications in traffic operations. Tabler, R.D., [1979, p.208-214, eng] 34-82
Certain characteristics of the atmospheric surface layer above snow. Elagina, L.G., et al, [1979, p.652-655, eng] 34-121
Landfast ice movement—Mackenzie delta 1973-74. Spedding, L.G., [1975, 127p. + figs., eng] 34-297
Environmental conditions off the east coast of Canada: Sites 3 (54N, 54W), 4 (49N, 48W), and 5 (47N, 47W). Denard, M., [1977, 96p., eng] 34-308
Weather, waves and icing in the Beaufort Sea. Berry, M.O., et al, [1975, 5 parts, eng] 34-506
Nonstationary turbulent wind flow past tall structures. Gusev, M.A., [1979, p.51-55, rus] 34-1087
First article test of lightweight camouflage screening system, snow (radar scattering). Nelson, J.D., [1979, 14p., eng] 34-1340
Open water surface currents. MacNeill, M.R., et al, [1975, 113p., eng] 34-2399
Icicle formation in tunnels under train running. Shinojima, K., [1973, p.121-122, eng] 34-2663
Forecasting surface wind velocities in the Krasnoyarsk area. Zalizniak, E.L., [1979, p.114-120, rus] 34-2970
Studies on interaction between wind and dry snow surfaces. Kobayashi, S., [1979, 64p., eng] 34-3191
Wind features of Moshiri basin. Ishikawa, N., et al, [1979, p.113-119, jap] 34-3496
Synoptic-statistical method of evaluating the possibility of southerly storm formation and velocity. Zimich, P.I., [1979, p.36-41, rus] 34-3529
Uninterrupted periods of strong winds (>15m/s) over West Siberia and Altai territory. Slutskil, V.I., et al, [1979, p.31-40, rus] 34-3578
Errors occurring in extrapolating the air temperature-wind velocity complex over the open sea area of the shelf. Borisenko, M.M., et al, [1979, p.76-79, rus] 34-3580
Relations between wind velocity and air temperature in Siberia. Drobyshev, A.D., [1979, p.79-89, rus] 34-3581
Forecasts and calculations of hydrometeorological elements of northern seas. Terziev, F.S., ed, [1980, 140p., rus] 34-4176
Results of scientific investigations of the Murmansk branch of the Arctic and Antarctic Scientific Research Institute during 1972-1976. Terziev, F.S., [1980, p.6-12, rus] 34-4177
Surge lowering of levels in the Barents and White seas. Potanin, V.A., et al, [1980, p.13-20, rus] 34-4178
Calculating regime characteristics of surge waves from standard wind field data. Dzheniuk, S.L., [1980, p.21-29, rus] 34-4179

Windows

Infrared thermography of buildings: 1977 Coast Guard survey. Marshall, S.J., [1979, 40p., eng] 34-138
Modular apartment buildings with "packet" type cells. Lazhintsev, V.I., [1972, p.33-42, rus] 34-176
Present state of translucent enclosures in industrial buildings of Yakutia. Braman, N.V., et al, [1972, p.142-151, rus] 34-187
Economic effectiveness of using high thermal insulation windows in residential buildings of the North. Kuzema, I.G., et al, [1972, p.153-165, rus] 34-188
Thermally insulated and connected window frame members and the method of making the same. Hetman, F.W., [1978, 4 col., eng] 34-278
Ideal Arctic window. Paliwoda, S.C., [1977, p.3-10, eng] 34-689
Windows with double and triple layers of glass. Aleksandrov, IU.P., et al, [1979, p.10-12, rus] 34-1752
Sandwich-type FLIR windows. Donadio, R., et al, [1979, 176p., eng] 34-2367
Reducing heat loss through window retrofitting. Hager, N.E., Jr., et al, [1980, p.55-57, eng] 34-2791
Physical, technical and functional aspects of building design for railroads. Kovrigin, S.D., ed, [1978, 202p., rus] 34-3910
Determining additional heat losses of buildings through light appertures in the Baykal Amur railroad area. Cheremisov, K.M., et al, [1978, p.105-110, rus] 34-3913
Experimental studies and determination of equivalent ambient air temperature for technical design of windows. Grigor'ev, P.IA., et al, [1978, p.111-115, rus] 34-3914
Thermophysical properties of double-layer translucent silicate glass skylights. Godin, A.M., [1978, p.150-158, rus] 34-3918
Selecting translucent enclosures of transport-associated buildings for severe climatic conditions. Godin, A.M., [1978, p.159-162, rus] 34-3919

Winter

Feasibility of caribou winter habitat analysis using satellite data. LaPerriere, A.J.L., III, [1976, 181p., eng] 34-202

Winter concreting

Economic effectiveness of antifreeze admixtures. Modylevskii, A.B., et al, [1972, p.177-185, rus] 34-190
Layer-by-layer concreting in dam construction under severe climatic conditions. Kogan, E.A., et al, [1979, p.34-36, rus] 34-197
Using concrete mixers at low temperatures. Sovalov, I.G., et al, [1979, p.17-19, rus] 34-335
Studying corrosion and protection of concrete and reinforced concrete structures in severe climatic conditions and corrosive media. Moskvin, V.M., ed, [1977, 129p., rus] 34-345
Protective properties of mortars and concretes with admixtures for winter concreting. Rozental', N.K., [1977, p.51-55, rus] 34-351
Recommendations for using heated forms in casting monolithic concrete structures. [1977, 95p., rus] 34-583
Kinetics of cement hardening during thermal treatment of concrete bases of road pavements in freezing weather. Shkurenko, V.I., et al, [1979, p.113-117, rus] 34-808
Reusable heating-panel frame with new types of heating units. Beliaev, A.M., et al, [1979, p.16-18, rus] 34-1150
Hydrothermal method of cementing cold joints of concrete dams. Tetel'min, V.V., et al, [1979, p.21-23, rus] 34-1151
Discussion on methods of concreting in the North. Ostryl, V.M., [1979, p.34, rus] 34-1184
Improving the organization of concrete work performed during construction of the Sayano-Sushenskoe hydroelectric plant. Zinchenko, N.A., et al, [1979, p.114-120, eng] 34-1392
Preliminary electric heating of concrete mixtures on construction sites. Kalmykov, V.A., [1979, p.50, rus] 34-1429
Heating cables for electric warming of joints and situ-cast concrete structures. Astashev, V.M., et al, [1979, p.10-12, rus] 34-1432
Studying properties of G class cement and the "Permafrost" mixture according to the national standards. Kliusov, A.A., [1979, p.31-34, rus] 34-1755
Cold weather concreting. [1975, 9p., eng] 34-2425
Winter concreting. Pink, A., [1979, 19p., eng] 34-2513
Winter concreting in the Baykal Amur railroad area. Bronshtein, G.L., et al, [1980, p.20-21, rus] 34-2587
Winter concreting—Canadian practice. Turenne, R.G., et al, [1980, 13p. + 9p. figs., eng] 34-2645
Sprayed concrete in tunnel construction in the Baykal Amur railroad area. Golitsynskii, D.M., [1980, p.14-15, rus] 34-2855
Concretes with antifreeze admixtures. Kostiaev, P.S., et al, [1980, p.44-46, rus] 34-2975
Working with concrete (technology and organization). Balitskii, V.S., et al, [1980, 350p., eng] 34-3190
Soil stabilization and water impervious screens in hydroelectric engineering. Adamovich, A.M., [1980, 319p., rus] 34-3270
Thermal behavior of concrete slab on frozen ground bed. Gavrish, IU.E., et al, [1980, 9p., eng] 34-3394
Water repellant plasticizing admixtures for cements, grouts and concretes. Khigerovich, M.I., et al, [1921, 125p., rus] 34-3615
Frost resistant concretes with combined structure-modifying admixtures. Gen', O.P., [1980, p.58-61, rus] 34-3637
Studying rheological properties of mortars containing new antifreeze admixtures. Petropavlovskaia, T.A., [1978, p.98-104, rus] 34-3887
Calculating temperature field of block-by-block upbuilt concrete structures using Laplace numerical conversion technique. Zubkov, V.I., [1980, p.92-97, rus] 34-4140

Winter maintenance

New European views on snow and ice control development. Elsenaar, P.M.W., [1979, p.1-5, eng] 34-50
Effects of highway design standards on snow and ice control operations. Hogan, R.A., [1979, p.74-78, eng] 34-62
New Jersey Department of Transportation model for winter equipment and manpower allocations. Cifelli, N.J., et al, [1979, p.82-84, eng] 34-64
Snow and road pavements in western Himalayas. Soin, J.S., et al, [1979, p.135-140, eng] 34-73
Snow removal and ice control on the Italian turnpike network. Rocco, V., et al, [1979, p.240-244, eng] 34-87
Preliminary Arctic engineering study of surface transport vehicles. Rymes (J.E.) Engineering, Ltd., [1970, c270p., eng] 34-424
Winter service; its influence on road planning. Pigois, M.L., [1977, p.46-48, fre] 34-516

Winter maintenance *(cont.)*
Groti-Stryn, a new winter road. Dudler, J., [1977, p.54-56, fre] 34-517
Building and operating winter roads in Canada and Alaska. Adam, K.M., [1978, 221p., eng] 34-532
Fighting snow disasters on roads in Schleswig-Ho'.stein in the 1978/79 winter. Richter, K., [1979, p.237-.43, ger] 34-536
Winter service to the city of Bern. Bietenharder, H., [1977, p.173-174, ger] 34-537
Operation of airports. Maintenance and repairs. Manual. Goretskii, L.I., et al, [1979, 215p., rus] 34-769
Road maintenance equipment. Smirennyi, I., et al, [1979, p.32-33, rus] 34-835
Winter season roadmaking method. Kurdenkov, B.I., et al, [1976, 4 col., rus] 34-1221
Mountain 79. [1979, p.9-93, eng] 34-1241
New developments in winter maintenance. Hoekstra, H., [1979, p.19-29, eng] 34-1242
Maintenance standards and criteria. Hintikka, J., et al, [1979, p.29-35, eng] 34-1243
Maintenance compounds and methods. Depuis, J.D., [1979, p.41-46, eng] 34-1245
Maintenance costs. Hammond, J.L., [1979, p.47-55, eng] 34-1246
Maintenance organization and operation. Lekeux, L., [1979, p.56-59, fre] 34-1247
Information for motorists on road conditions. Eyrolles, M., [1979, p.60-62, fre] 34-1248
Specialization of winter road maintenance, a pressing issue. Kungurtsev, A.A., et al, [1979, p.7-8, rus] 34-1418
Ways of improving winter maintenance of roads. Bialobzheskii, G.V., et al, [1979, p.9-11, rus] 34-1419
Ice prevention, a condition of safe driving. Titov, B.M., [1979, p.13, rus] 34-1421
Automatic controls for salt and abrasive spreaders. Fitzpatrick, M.W., et al, [1978, p.64-67, eng] 34-1611
Supplying northern enterprises with special equipment. Dashkova, T.E., [1979, p.109-112, rus] 34-1632
Machine for road building and maintenance. Matveenko, L.S., et al, [1979, pl2-14, rus] 34-1944
Winter operation of sluices. Galkin, L., [1979, p.35-36, rus] 34-2079
Docks can be used in winter. Shirokikh, V., [1979, p.34, rus] 34-2122
Difficult trip. Zhukov, P.L., [1979, p.34-36, rus] 34-2124
Technical Committee report on operational and winter maintenance. [1979, 120p., eng] 34-2478
New machines for the construction and maintenance of highways. Volkova, A.E., [1979, p.18-21, rus] 34-2583
Winter operation of water navigation objects. Ivanov, L.V., [1978, 211p., rus] 34-2686
Winterizing the BM-21. Kuprin, G., [1979, p.22-23, rus] 34-2688
Snow plow and loader DE-228 on a wheel undercarriage. Balaklo, V.N., et al, [1979, p.7-9, rus] 34-2692
Peculiarities of road maintenance in East Siberia and the Far East. Nikitin, G.G., [1980, p.19-20, rus] 34-2802
Report on model for winter hazard prevention on highway No.12 of Iwamizawa-shi, District of Okayama. Japan. Hokkaido Kaihatsukyoku. Kensetku Kiaki Kosakujo, [1978, 66p., jap] 34-2803
Increasing the effectiveness of snow removal patrols on roads (Discussion). Kungurtsev, A.A., et al, [1979, p.8-9, rus] 34-2857
Winter service and road maintenance. Suter, K., [1980, p.77, ger] 34-2862
Norms for spare parts expenditure in motor vehicle transport of the Yakut ASSR. Karasev, G.A., et al, [1976, p.59-65, rus] 34-3342
Construction of urban roads under northern conditions. Galuzin, V.M., ed, [1980, 134p., rus] 34-3762
Roads in Finland. Babkov, V.F., [1980, p.28-30, rus] 34-3954

Wire
Experimental studies on regelation. Tozuka, S., et al, [1979, p.1-15, jap] 34-3487

Wood
Decomposition of plant litter and cellulose in the tundras of the Taymyr Peninsula. Parinkina, O.M., [1979, p.676-684, eng] 34-2484
Physical and mechanical properties of Siberian larch wood preserved in permafrost for 24,500 years. D'iakonov, K.F., et al, [1979, p.121-122, rus] 34-2799
Break-off strength of adfreezing ground. Shusherina, E.P., et al, [1980, p.178-194, rus] 34-4134

Wood snow friction
Comparison on the non-slip quality among three different types on langlauf ski-plates. Nakamura, T., [1979, p.1-6, jap] 34-2543

Wooden structures
New type of feeder road surface. Sokolov, S.A., et al, [1979, p.8-9, rus] 34-1941

X ray analysis
Structure factors of ice crystal determined by the X-ray Pendellösung method. Yasuda, Y., et al, [1979, p.1845-1846, eng] 34-1275
Charged dislocation in ice: I. Existence and charge density measurement by X-ray topography. Itagaki, K., [1978, 12p., eng] 34-1608
Movement of dislocations in ice and its plastic deformation. Fukuda, A., [1979, p.239-244, jap] 34-2168

X ray diffraction
Heavy mineral analysis of southern Beaufort Sea sediments. Costaschuk, S.M., [1980, p.241-252, eng] 34-2988

Young ice
Optical properties of young sea ice. Perovich, D.K., [1979, 151p., eng] 34-841
Ice characteristics in the seasonal sea ice zone. Wadhams, P., [1980, p.37-92, eng] 34-3626
