Steady state ice layer profile on a temperature plate in a forced convection flow [1979, p.1425-1443, eng] 34-1846
Gindoian, A.G.
Calculating electric heating of bearing ground beneath refrigerator columns [1976, p.88-107, rus] 34-2404
Deterioration and protection of industrial structures [1976, 208p., rus] 34-2402
Experimental determination of the thermal activity coefficient of floors [1976, p.108-124, rus] 34-2405
Gird, R.S.
Snow extent measurements from geostationary satellites using an interactive computer system [1980, p.255-265, eng] 34-3523
Girling, R.M.
Further field investigation on aerated lagoons in the city of Winnipeg [1974, p.99-124, eng] 34-1471
Girs, S.P.
Electron microscope studies of low temperature ice modification [1979, p.63-67, rus] 34-3572
Heterogeneous nucleation by organic crystalization nuclei [1979, p.76-82, rus] 34-2015

Gira, S.P. *(cont.)*
Isothermal changes in the structure and electrical properties of polycrystalline ice [1979, p.53-56, rus] 34-3570
Microinterferometer for studying phase transformations of water on ice-forming sublayers [1979, p.57-62, rus] 34-3571
Studying phase transformations of water when reacting with different underlying surfaces [1979, p.83-90, rus] 34-2016

Gjessing, Y.T.
Episodic variations of snow contamination of an Arctic snowfield [1977, p.643-647, eng] 34-1842

Glabina, N.K.
Discussion of scientific and economic problems of northern development [1979, p.137-146, rus] 34-1636

Gladilin, A.M.
Consolidation of a thin cutoff wall of clay soils of liquid consistency [1979, p.462-465, eng] 34-1435

Gladwell, R.W.
Field studies of the strength and physical properties of a multi-year ice pressure ridge in the southern Beaufort Sea [1977, c90p., eng] 34-3107
Statistical analysis of ice pressure ridge distribution in the southern Beaufort Sea [1976, 45p., eng] 34-417

Glass, B.P.
Meteorite recoveries in Antarctica during the field season 1977-78 [1978, p.977-987, eng] 34-3152

Glazkov, V.E.
Combinations of various means of transportation along the Punga-Vuktyl-Ukhta railroad [1980, p.15-17, rus] 34-2596

Glazkov, V.M.
Effect of deterioration rate on abrasive strength of the steel 110G13L containing admixtures, at room and low temperatures [1974, p.65-70, rus] 34-381

Glazov, M.V.
Dynamics of spruce ecosystems in the southern taiga [1978, p.70-73, rus] 34-2466

Glazovskaia, M.A.
Soil-geochemical regionalization of the non-chernozem zone for protection from pollution [1978, p.127-139, rus] 34-2612

Glazunov, E.M.
Construction of underground structures for hydroelectric power stations in the Far North [1979, 128p., rus] 34-2493

Glazyrin, F.V.
Safety rules for pipeline construction in West Siberia [1979, p.13-14, rus] 34-1257

Glazyrin, G.E.
Accuracy of using floats in measuring water discharge of small mountain rivers [1973, p.115-128, rus] 34-111
Calculating vertical ice distribution from the *Catalog of Glaciers in the USSR*, for evaluating runoff from mountain basins [1979, p.122-126, rus] 34-1134
Comparative evaluation of indirect Computation methods of determining ratios of various precipitation types [1979, p.84-89, rus] 34-3696
Determining snow cover characteristics in unstudied areas [1979, p.79-84, rus] 34-3695
Linear models for calculating drainage from glacier basins [1979, p.85-95, rus] 34-1977
Map of the second chionosphere level (Level 365) in Western Tien Shan [1979, p.138-143, rus] 34-3129
Regularities governing spatial distribution of mountain glaciers [1979, p.73-81, rus] 34-3121
Statistical approach to the study of glacier morphology in the Kamchatka Peninsula [1979, p.325-329, rus] 34-1388
Statistical characteristics of basic mass balance components of glaciers: accumulation and ablation [1979, p.43-50, rus] 34-2881
Subsistence regime of quasi-glacier snow patches [1977, p.80-91, rus] 34-3383

Glazyrina, E.L.
Calculating vertical ice distribution from the *Catalog of Glaciers in the USSR*, for evaluating runoff from mountain basins [1979, p.122-126, rus] 34-1134

Glebov, A.Z.
Optimizing working conditions of welders on northern sites [1979, p.22-24, rus] 34-2098

Glebov, F.Z.
Influence of hydro-climatic conditions on the growth of swamp stands [1978, p.59-91, rus] 34-2521
Peculiarities of forest-swamp ecosystems in West Siberia [1978, 159p., rus] 34-2518
Studying the origin and structure of forest-swamp complexes [1978, p.14-59, rus] 34-2520

Glew, K.J.
Lake ice density in the environment—practical approaches to measurement and calculation [1979, p.15-24, eng] 34-723

Gliott, S.
Accidents and damage caused by avalanches [1979, p.89-152, ger] 34-1707
Snow and avalanche conditions in the Swiss Alps [1979, p.41-88, ger] 34-1706

Global Marine, Inc.
Study of Beaufort Sea exploratory drilling systems [1971, var. p., eng] 34-574

Global radiation in Caucasus
Global radiation in Caucasus [1979, p.101-108, rus] 34-615

Gloersen, P.
Characteristics of antarctic sea ice as determined by satellite-borne microwave imagers [1976, p.94-97, eng] 34-815
Microwave brightness of polar firn as measured by Nimbus 5 and 6 ESMR [1980, p.85-91, eng] 34-3800

Glubokov, V.N.
Preliminary analysis of natural conditions in Sikhote Alin in relation to avalanche danger [1979, p.56-61, rus] 34-3565
Preliminary analysis of synoptic climatic peculiarities favoring mudflow formation in Primor'e [1979, p.31-39, rus] 34-3563

Glude, W.
Reconnaissance snow surveys of the National Petroleum Reserve in Alaska, April 1977 and April-May 1978 [1979, 31p., eng] 34-1145

Glukhov, V.G.
Calculating the icing of tall structures from indirect data [1979, p.67-73, rus] 34-1819

Glushkova, N.I.
Thermophysical properties of frozen low moor peats [1978, p.132-134, rus] 34-3361

Glushnev, V.G.
Use of radar to measure ice thickness in rivers, lakes, and reservoirs [1978, p.116-127, eng] 34-4058

Godes, E.G.
Construction of water intake and treatment structures in the north [1980, 232p., rus] 34-2516

Godfrey, J.
European hydrological system snow routine [1979, p.269-278, eng] 34-1023

Godin, A.M.
Selecting translucent enclosures of transport-associated buildings for severe climatic conditions [1978, p.159-162, rus] 34-3919
Thermophysical properties of double-layer translucent silicate glass skylights [1978, p.150-158, rus] 34-3918

Godin, G.
Variability of the tide at some sites in the Canadian Arctic [1980, p.30-37, eng] 34-3320

Gogolev, I.N.
Genetic peculiarites of gray forest soils in larch grass forests of the Krasnoyarsk area [1979, p.190-201, rus] 34-455

Gokhman, L.M.
Soil stabilization with a mixture of liquid bitumens and plastics [1979, p.108-113, rus] 34-2626

Gokhman, V.V.
Areal distribution of snow reserves over the Polar Urals [1979, p.177-182, rus] 34-3710

Gold, L.W.
Rheological behaviour of ice at small strains [1980, p.117-128, eng] 34-3737

Goldaev, I.P.
Thermal rock drill for permafrost [1973, 4 col., rus] 34-1215

Goldberg, E.D.
Depositional history of artificial radionuclides in the Ross Ice Shelf, Antarctica [1979, p.205-223, eng] 34-48

Golder, Brawner and Associates, Ltd.
1970 bottom sampling program south coast of Beaufort Sea, Mackenzie Bay to Liverpool Bay, Northwest Territories [1970, c83p., eng] 34-597

Gol'dfain, A.E.
Modernized welding assembly PAU1001V for field work [1980, p.36-37, rus] 34-3822

Goldthorpe, P.R.
Snow rollers [1979, p.455-458, eng] 34-2115

Goldthwait, R.P.
Giant grooves made by concentrated basal ice streams [1979, p.297-307, eng] 34-2240
Research by the Institute of Polar Studies in Glacier Bay National Monument, Alaska [1976, p.815-821, eng] 34-534

Golecki, I.
Intrinsic surface disorder in ice near the melting point [1978, p.4229-4237, eng] 34-408

Golego, N.N.
Friction and wear of carbon steels at low temperatures [1974, p.262-267, rus] 34-399

Golenko, N.A.
Building roadbeds along main pipelines [1979, p.10, rus] 34-2793
Construction of roadbeds on hummocky peats [1979, p.3-4, rus] 34-2856

Goleshchikhin, V.P.
Radiation regime of the Altai-Sayan mountain system [1977, p.72-79, rus] 34-3382

Golitsyn, G.S.
Convection in the ice crusts of satellites and its effect on surface relief [1979, p.466-468, eng] 34-44

Golitsynskii, D.M.
Sprayed concrete in tunnel construction in the Baykal Amur railroad area [1980, p.14-15, rus] 34-2855

Golovanova, G.F.
Lower boundary of water-ice phase transitions in frozen fines [1979, p.201-206, rus] 34-1929

Golovkin, B.N.
Significance of antarctic and subantarctic regions for plant introduction research [1979, p.30-41, rus] 34-3230

Golovko, T.S.
Using "ifzanite" explosives in the Noril'sk Mining Concern [1979, p.29-30, rus] 34-1838

Gol'tsman, Sh.L.
Assembling polyvinylchloride pipes in freezing weather [1979, p.16-17, rus] 34-244

Golubchikov, IU.N.
Changes in thermal conditions of landscapes in the monsoon-permafrost mountain taiga of the Central and Lower Amur River area [1980, p.62-73, rus] 34-3029

Golubchikova, O.G.
Heat transfer through joints in external enclosures of industrial buildings in the North [1976, p.59-75, rus] 34-2403

Golubenko, V.V.
Erection of building structures at the northern Mining and Concentration Concern No.2 [1980, p.10-12, rus] 34-3938

Golubev, G.N.
External mass transfer of mountain glaciers during degradation (the Dzhankuat glacier) [1979, p.126-132, rus] 34-3127
Glacial landscapes and their spatial variability in the temperate and subpolar latitudes [1978, p.277-282, eng] 34-795
Mass balance of the Dzhankuat Glacier from 1967-1971 and the methods used to measure and calculate it [1974, p.173-191, eng] 34-1196

Golubkov, V.N.
Results of twenty-year monitoring of silication stabilization of Odessa theater foundations [1980, p.325-327, eng] 34-3934

Goncharov, IU.M.
Design and construction of building foundations on permafrost [1980, 241p., rus] 34-3180
Strength of saw-dust reinforced ice [1976, p.101-104, rus] 34-710

Gonda, T.
Influence of the diffusion of vapor and heat on the morphology of ice crystals grown from the vapor [1980, p.173-181, eng] 34-4083

Good, W.
Influence of snow fences on deposition and quality of the snow in an avalanche starting zone [1978, p.215-225, ger] 34-1272

Goodison, B.E.
Accuracy of snow samplers for measuring shallow snowpacks: an update [1978, p.36-49, eng] 34-30
Comparability of snowfall and snow cover data in a southern Ontario basin [1979, p.34-43, eng] 34-1003

Goodman, D.J.
Critical stress intensity factors (K(Ic)) measurements at high loading rates for polycrystalline ice [1980, p.129-146, eng] 34-3738
Pressure-melting effects in basal ice of temperate glaciers: laboratory studies and field observations under Glacier d'Argentière [1979, p.259-271, eng] 34-2237

Goodman, E.
How Montreal copes with 98 inches of snow [1978, p.20-21, 26, eng] 34-777

Goodman, R.H.
Final report 1977 ocean current study [1978, 24p. + appends., eng] 34-314

Gorbachev, V.N.
Experimental study of biologic conversion of iron in soils [1979, p.53-61, rus] 34-975
Geographic studies of soil mantle in the Northern Yenisey River area and the Krasnoyarsk taiga [1978, p.5-14, rus] 34-3462
Influence of microorganisms on ferrous oxide dynamics in soils of the Angara River area [1979, p.260-265, rus] 34-461

Gorbacheva, V.M.
Influence of cities on natural and climatic factors under polar conditions [1980, p.94-99, rus] 34-3293

Gorbenko, A.F.
Physical and mechanical properties of Siberian larch wood preserved in permafrost for 24,500 years [1979, p.121-122, rus] 34-2799

Gorbeshko, M.V.
Propelling devices for all-terrain vehicles [1979, p.7, rus] 34-404

Gorbunov, A.
Discovery of the Tanymas country [1979, p.97-102, rus] 34-4139

Gorbunov, A.P.
Naleds in Central Asian and Kazakhstan mountains [1979, p.175-181, rus] 34-3136
Permafrost distribution in Tibet and the Himalaya Mountains [1978, p.3-7, rus] 34-2939
Permafrost in the mountains of Central Asia [1980, p.257-369, eng] 34-3851
Permafrost investigations in high-mountain regions [1978, p.283-294, eng] 34-796

Gorbunov, B.Z.
Studies of silver iodide ice-forming activity: verification of theory [1980, p.71-77, eng] 34-2501

Gorbunov, E.IA.
Vibrodynamic characteristics of equipment on icebreakers of the "Kapitan Sorokin" type [1970, p.68-79, rus] 34-3476

Gorbunov, IU.A.
Data on medium-scale deformations of ice covers in Arctic seas [1977, p.75-91, rus] 34-3310
Ice drift in the presence of ice hummocks [1979, 15p., eng] 34-133
New houses for Bratsk [1979, p.24, rus] 34-342
Shifting of ice edges and ice cover boundaries [1977, p.133-140, rus] 34-3316
Study of fractures in consolidated pack-ice cover from radar survey data [1979, p.30-35, eng] 34-1900
Studying grounded ice hummocks from aerial photographs [1977, p.127-132, rus] 34-3315
Studying morphometric characteristics of summer ice cover in Arctic seas [1977, p.92-103, rus] 34-3311
Variation of sea surface temperature (from airborne radiation measurements) [1979, p.47-54, rus] 34-3588

Gorbunov, V.F.
Modeling frozen ground as an abrasive medium [1974, p.8-11, rus] 34-374
Wear of heat-treated steel and alloy cutting tools in frozen peat [1974, p.213-217, rus] 34-396

Gorbunova, I.A.
Factors and forms of cryogenesis in soils of Kazakhstan [1978, p.49-53, rus] 34-339

Gorchakov, A.M.
Comparing the readings of a summary rain gage and the Tret-'iakov precipitation gage obtained in mountain taiga [1979, p.126-130, rus] 34-2900
Testing and using the AM-11 soil moisture meter in the IUzhnoe Primor'e [1979, p.51-55, rus] 34-3564

Gorchakovskii, P.L.
Changes in Subarctic and boreal highlands vegetation due to human activities [1979, p.12-13, rus] 34-4217
Large scale mapping of southern taiga vegetation in the Central Ural Mountains [1977, p.3-15, rus] 34-3363
Seasonal rhythms in alpine tundra plant communities of the Urals [1979, p.16-24, rus] 34-822
Upper forest limit in the mountains of the Boreal Zone of the USSR [1978, p.349-363, eng] 34-800

Gordeev, P.P.
Ground ice in the area of a mountain pass in the Suntar-Khayat Range [1978, p.123-130, rus] 34-2953

Gordienko, F.G.
Oxygen isotope studies of ice cores from the ice-divide of Grënfjord and Fritjof glaciers (West Spitsbergen Island) [1979, p.173-177, rus] 34-3709
Role of stable isotopes in snow and ice studies [1979, p.286-295, rus] 34-3716
Studying dust in ice covers and using it in ice age determination [1979, p.259-268, rus] 34-3151
Variation of isotope O-18 in the mass of the Marukh Glacier (Western Caucasus) [1974, p.440-454, eng] 34-1211

Gordon, A.M.
Some factors affecting spring snowmelt within Narrows Mountain Brook basin, a forested watershed in central New Brunswick [1979, p.53-67, eng] 34-4205

Gordon, J.E.
Drainage systems associated with snowmelt, South Shetland Islands, Antarctica [1980, p.57-62, eng] 34-4192
Reconstructed Pleistocene ice-sheet temperatures and glacial erosion in northern Scotland [1979, p.331-344, eng] 34-547

Gordon, R.A.
Mandatory chlorination of wastewater discharges [1975, p.163-186, eng] 34-634

Gordon, R.C.
Chlorine disinfection of treated wastewater [1974, p.438-481, eng] 34-1485

Gorelik, A.M.
Instruments for determining soil density and moisture content [1980, p.8-9, rus] 34-2851

Gorelik, I.IA.
Computer analysis of earth slope stability by the finite-element method (the RUMKE program) [1979, p.42-46, rus] 34-1523

Gorelov, A.V.
Methods of fastening reinforced concrete supports of overhead power lines in weak ground [1979, p.29-32, rus] 34-195

Cyclic nature of thermokarst on the Maritime Plain in the Upper Pleistocene and Holocene [1980, p.245-257, eng] 34-3844

Gray, D.L.
Snow accumulation and distribution [1979, p.3-33, eng] 34-1002

Grechishchev, S.E.
Cryogenic physical-geologic processes and their prediction [1980, 383p., rus] 34-3757
Forecasting changes in engineering-geocryological conditions induced by economic development of the north taiga zone in West Siberia [1980, p.12-19, rus] 34-3279
Some aspects of the mechanics of frost fracturing of soils in the permafrost zone [1980, p.259-278, eng] 34-3845
Studying static growth of cracks in sand at subzero temperatures [1976, p.158-164, rus] 34-3207

Grechuia, V.A.
Skilled workers used abroad in cold regions development [1980, p.19-21, rus] 34-2976

Grechushkina, L.I.
Geochemical structure of West Sayan foothill geosystems [1977, p.59-72, rus] 34-3815

Greene, G.
Assessment of the ecological effects of an oil spill in an offshore subarctic environment [1978, p.835-855, eng] 34-1372

Greenland, D.J.
Pore size distribution in critical point and freeze dried aggregates from clay subsoils [1979, p.499-515, eng] 34-1645

Greenway, D.R.
Role of fabric in low embankments on muskeg [1978, p.165-181, eng] 34-2914

Gregory, A.F.
Application of satellite images for monitoring snow-line in the Yukon and Northwest Territories [1979, p.473-483, eng] 34-472
Monitoring and mapping sea-ice breakup and freezeup of Arctic Canada from satellite imagery [1979, p.229-242, eng] 34-1280

Greisman, P.
Current observations in the channels of the Canadian Arctic Archipelago adjacent to Bathurst Island [1978, 127p., eng] 34-562
On upwelling driven by the melt of ice shelves and tidewater glaciers [1979, p.1051-1065, eng] 34-1882

Grenfell, T.C.
Effects of ice thickness on the exchange of solar radiation over the polar oceans [1979, p.305-320, eng] 34-545

Grenier, J.C.
Condensation-freezing mechanism at weak supersaturation in respect of ice [1979, p.81-91, fre] 34-1743
Condensation-freezing mechanism at weak supersaturation in respect to ice [1980, p.71-83, fre] 34-4246

Grey, B.J.
Spring break-up observations at proposed polar gas pipeline crossing sites of Keewatin rivers [1978, 22p., eng] 34-917

Griazin, A.D.
Slab of silicate reinforced concrete [1979, p.9, rus] 34-1942

Griaznov, G.S.
Influence of thermal regime variations on the state of wells drilled in permafrost [1973, p.21-22, rus] 34-1954

Griaznov, M.V.
Mining and the environment [1978, 191p., rus] 34-2808

Grib, S.I.
Designing pile foundations for permafrost in earthquake areas [1976, p.105-113, rus] 34-711

Gribanova, S.P.
Geocryological mapping of South Yakutia from satellite photographs [1979, p.3-16, rus] 34-2770

Gribova, S.A.
Geography and cartography of pine forests in southern taiga and the broad-leaf area of the European USSR [1979, p.38-45, rus] 34-3603

Gridasov, N.A.
Rail track snow cleaner vehicle [1976, 4 col., rus] 34-1220

Griffey, J.N.
Rock glacier and moraine-ridge complex, Lyngen Peninsula, north Norway [1979, p.117-124, eng] 34-1168

Griffis, D.L.
Earth excavator including apparatus for stabilizing performance by compensating for changes in temperature [1977, 18 col., eng] 34-267

Griffith, W.E., II
Helicopter icing handling qualities [1974, 9p., eng] 34-734

Grigg, D.J.
Laboratory studies of riming, and its relation to ice splinter production [1980, p.367-374, eng] 34-3447

Grigor'ev, A.A.
Improving the technical service system of "Moskva" type icebreakers [1979, p.28-32, rus] 34-3473

Grigor'ev, N.F.
Landscapes affected by industrial activities in permafrost areas of the northern Tyumen' region [1979, p.35-44, rus] 34-1510
Preliminary disturbance of tundra covers as a means for improving geocryological conditions [1979, p.45-50, rus] 34-1511

Grigor'ev, P.IA.
Experimental studies and determination of equivalent ambient air temperature for technical design of windows [1978, p.111-115, rus] 34-3914

Grigor'ev, R.S.
Norms for spare parts expenditure in motor vehicle transport of the Yakut ASSR [1976, p.59-65, rus] 34-3342

Grigor'eva, L.K.
Comparative evaluation of principal ecologic-systematic animal groups as components of taiga geosystems [1979, p.3-13, rus] 34-671

Grinberg, A.M.
Form and motion of the Kolka Glacier after its surge and probable mechanism of this surge [1974, p.296-311, eng] 34-1201

Grinberg, N.A.
Laboratory testing of wear resistant alloys at subzero temperatures [1974, p.140, rus] 34-385

Grinev, S.
Young Pioneer camp boarding house "Severnyi Artek" of the Bratsk lumber industry complex [1979, p.28-29, rus] 34-3925

Grinevich, O.I.
Improving machines and equipment for reloading packed cargo at low temperatures [1978, p.85-93, rus] 34-3944

Gringorten, I.I.
Estimated glaze ice and wind loads at the earth's surface for the contiguous United States [1973, 35p., eng] 34-3645

Grishpun, L.V.
Electrothermomechanical and electrodynamic excavation of grounds [1979, p.16-17, rus] 34-131

Grishchenko, N.I.
Reconstruction of the Dnepropetrovsk-Novomoskovsk highway [1979, p.15-16, rus] 34-837

Grishchenko, V.F.
All-Union seminar on the organization of avalanche service [1979, p.33-36, rus] 34-3686
Allowing for mudflows and snow avalanches when designing and building the Orenburg-west USSR boundary gas pipeline [1978, p.75-85, rus] 34-2051
Heavy snowfalls and avalanches in the 1975-76 winter season in the Ukrainian Carpathian [1978, p.86-90, rus] 34-2052

Grishin, I.S.
Relationship of snow transport to snow storm duration [1974, p.208-219, eng] 34-1198

Grishin, P.V.
Bauxite slag replaces gravel [1979, p.10, rus] 34-1943

Grishina, L.A.
Fall off and litter of coniferous forests in Valday [1979, p.15-50, rus] 34-1060
Fractional composition of humic acids in Valday pine forest soils [1979, p.51-62, rus] 34-1061
Properties of humic acids in the Valday research station soils [1979, p.63-87, rus] 34-1062

Groisman, A.G.
Heat conductivity of frozen water solutions of gases [1975, p.103-107, rus] 34-228
Thermophysical characteristics of moisture and gas-saturated sandstones at naturally low temperatures [1975, p.106-107, rus] 34-229

Gromov, N.N.
Air navigation in industrial construction of the North [1979, p.84-92, rus] 34-1628

Gromov, V.S.
Snow retention heaper and swather [1974, 4 col., rus] 34-1216

Gromov, V.V.
Design and construction of electric substations in the western section of the Baykal Amur railroad [1980, p.49-51, rus] 34-2568

Gross, D.L.
Glacial and postglacial sediments in Lakes Superior and Michigan [1979, p.781-791, eng] 34-47

Gross, G.W.
Dielectric relaxation spectrum of ice measured with linear blocking layers [1980, p.914-927, eng] 34-3089

Grossman, I.I.
Construction of underground structures for hydroelectric power stations in the Far North [1979, 128p., rus] 34-2493

Grosval'd, M.G.
Late quaternary ice cover of the Pamirs [1979, p.85-97, rus] 34-2187

Grothues-Spork, H.
Steel-ice friction coefficients from field and laboratory research [1977, p.17-24, ger] 34-1935

Groves, J.A.
Analysis of flexible pavement resilient surface deformations using the Chevron layered elastic analysis computer program [1975, 13 leaves, eng] 34-1501

Grudinina, N.A.
Seasonal variations of soil formation in the Lake Baykal area [1979, p.36-48, rus] 34-4163

Grundwaldt, J.J.
Solid waste disposal in Alaska [1975, p.331-356, eng] 34-637

Grunina, L.K.
Enrichment of cultivated tundra meadow grasses with wild legumes [1979, p.37-38, rus] 34-4222

Grushinskii, N.P.
Antarctica is a rugged continent [1975, p.638-640, ger] 34-3855

Grushko, I.M.
Experiment planning technique used for determining optimal compositions of combined admixtures for concretes [1980, p.72-75, rus] 34-3594

Grushko, V.IA.
Calculating electric heating of bearing ground beneath refrigerator columns [1976, p.88-107, rus] 34-2404

Gruzdov, A.V.
Noncoalescing perennially frozen rocks in the polar part of West Siberia [1980, p.97-101, rus] 34-2764
Regularities governing the distribution, temperature and thickness of permafrost in the northwestern part of the West Siberian platform [1980, p.85-96, rus] 34-2763

Gryte, C.C.
On the mechanism of dewatering colloidal aqueous solutions by freeze-thaw processes [1980, p.1079-1088, eng] 34-4247

Gubanov, A.A.
Thermal regime of elevated pipelines [1979, p.24, rus] 34-1711

Gubanov, B.A.
Thermal regime of elevated pipelines [1979, p.24, rus] 34-1711

Guberman, F.S.
Loads on cutting tools of excavators when digging pits in permafrost [1980, p.44-45, rus] 34-2616

Gubina, N.I.
Earth structures on peaty silts under pressure head conditions [1979, p.23-26, rus] 34-1950

Gubkin, M.P.
Rational use of natural resources in the Central Lena River area [1979, p.10-14, rus] 34-4107

Gudkovich, Z.M.
Connection between ice conditions of the Wrangel area and atmospheric circulation indices of preceding seasons [1979, p.30-39, rus] 34-2996
Testing a numerical scheme for calculating winter ice distribution in Arctic seas [1977, p.141-150, rus] 34-3317

Gudmandsen, P.
Studies of ice by means of radio echo sounding [1977, p.198-211, eng] 34-236

Gugalinskaia, L.A.
Morphogenetic profile analysis as a basis for the reconstruction of soil formation conditions (as exemplified by the permafrost soils of the Nercha Basin) [1979, p.261-273, eng] 34-3640

Guimont, P.
Drift ice features in the Caniapiscau [1979, p.9-11, fre] 34-3062

Gukov, G.V.
Taiga larch forests in Sikhote-Alin and their management [1978, p.63-70, rus] 34-2465

Guletskii, V.V.
Post-construction sagging of Baykal Amur railroad embankments [1980, p.6-7, rus] 34-3598

Gulisov, IU.N.
Length of the ice-hoarfrost accretion period [1979, p.81-85, rus] 34-1821

Gulisov, O.S.
Possible changes in thermal conditions due to land reclamation [1979, p.8-25, rus] 34-3076

Gulisov, V.P.
Resistance of ZOKhGSNA and ZOKhGSA steels at low temperatures [1975, p.120-124, rus] 34-232

Gulikov, A.E.
Environmental protection at construction sites of main pipelines [1979, p.12-13, rus] 34-2638

Gunkel, R.C.
Improved drainage and frost action criteria for New Jersey pavement design—Phase III: Structural strength of pavements with open-graded bases [1979, c82p., eng] 34-2359

Gurevich, V.G.
Dehydration of nonmetalliferous construction materials at low temperatures [1980, 70p., rus] 34-3824

Gurinchkov, I.L.
Frost protection layers made of cemented materials [1979, p.8-10, rus] 34-10
New soil stabilization technique [1979, p.10-11, rus] 34-2794

Gur'janov, I.E.
Calculating temperature fields in permafrost thawing at different temperatures (applied to mining problems) [1980, p.42-62, rus] 34-4039
Optimal configuration of a confining bed under the pressure of subpermafrost ground water [1980, p.62-70, rus] 34-4040
Structural interpretation of thawing ground compressibility [1979, p.65-84, rus] 34-4157

Gurkov, K.S.
New powerful pneumatic drift [1979, p.8-10, rus] 34-192

Gurov, V.V.
Experimental investigation of heat and moisture transfer during sublimation-desublimation of water in fine-grained soils [1980, p.143-158, eng] 34-3838

Gusaev, A.V.
Deformation properties of sea ice [1980, p.1092-1097, rus] 34-4251

Gusakov, B.P.
Modern training in frozen ground excavation [1979, p.22-23, rus] 34-1188

Gusev, A.V.
Vibration of measuring equipment in the study of the ocean microstructure under the drifting ice [1975, p.237-238, eng] 34-3433

Gusev, M.A.
Nonstationary turbulent wind flow past tall structures [1979, p.51-55, rus] 34-1087

Gushkalov, P.A.
Bundling of timber sections on ice [1980, p.12-14, rus] 34-3857

Microbiology of Altai Mountain soils [1979, p.107-153, rus] 34-1810
Khmeleva, N.V.
Mechanics of rockstream movement (from experimental and research station data) [1979, p.72-79, rus] 34-2749
Khmelevskii, V.A.
Solidification of mortars with antifreeze admixtures [1979, p.19-20, rus] 34-2700
Khodachek, E.A.
Fruiting of Arctic plants (Western Taymyr) [1979, p.1147-1158, rus] 34-1447
Khokhlov, V.A.
Adhesive scattering of energy at the contact [1974, p.11-18, rus] 34-375
Aerodynamic resistance of iced power lines [1978, p.82-86, rus] 34-2104
Khokhriakov, A.P.
Components of biogeocenoses of the tundra-forest regions of the northern Okhotsk Sea region [1980, 51p., eng] 34-3395
Components of forest tundra biogeocenoses in northern Okhotomor'e [1977, 149p., rus] 34-1158
Flora of vascular plants of the "Snow Valley" station [1980, p.48-51, eng] 34-3399
Vascular plants in the "Snow Valley" station [1977, p.44-48, rus] 34-1162
Kholin, N.N.
Determination of the stress field during thawing of frozen ground [1979, p.94-98, eng] 34-1149
Kholoden, E.E.
Role of the thermal factor in the formation of bogs in the Amur Region [1978, p.6-10, eng] 34-3960
Kholopova, R.V.
Phosphorus regime of gray forest soils in the East Siberian sub-taiga and soil formation [1979, p.287-295, rus] 34-465
Khomeniuk, IU.V.
Method of predicting snow avalanches by means of image recognition programs [1978, p.67-73, eng] 34-3967
Khomicheva, I.V.
Studying service life and phase composition of cellular concrete outer wall panels with different finish [1979, p.67-70, rus] 34-2973
Khramtsova, I.G.
Ten-day forecasts of mean air temperature anomalies for West and East Siberia, Ural Mountains and North Kazakhstan [1979, p.51-55, rus] 34-2968
Khrapatyi, N.G.
Regularities governing penetration of a hard body into ice at supercritical impact velocities [1980, p.5-9, rus] 34-4141
Khrapkov, A.A.
Versions of the fraction step method for solving two-dimensional heat conductivity problems [1979, p.47-55, rus] 34-1524
Khrebtov, N.V.
Construction of situ-cast bored piles in Krasnoyarsk [1977, p.126-131, rus] 34-993
Khrustalev, L.N.
Engineering-economic determination of optimum depth of preconstruction thawing of permafrost soils under buildings [1980, p.332-337, eng] 34-3936
Selecting a method for using permafrost bases for buildings and structures [1979, p.91-103, rus] 34-1542
Khudiakov, O.I.
Soil resources of BAM zone swamps and their agricultural development [1979, p.42-49, rus] 34-438
Khva, K.E.
Stresses in triple layer wall panels at different rates of temperature drop along thickness [1979, p.118-123, rus] 34-2847
Thermal stresses in trapezoidal layered panels with corrugated facing [1979, p.39-45, rus] 34-1719
Khvorost'ianov, V.I.
Fog dissipation with surface-active substances [1979, p.106-112, rus] 34-252
Khvorostovskaia, N.S.
Evaluating the extent of thermal regime disturbance due to pile driving into permafrost [1976, p.52-64, rus] 34-705
Thermal behavior of concrete slab on frozen ground bed [1980, 9p., eng] 34-3394
Khvorov, N.A.
Afforestation of stony slopes of the Gissar Range [1979, p.55-57, rus] 34-2111
Khvostik, I.F.
More attention to access roads [1980, p.5-6, rus] 34-2974
Kibal'chich, O.A.
Regional geomorphology of newly developed areas [1979, 120p., rus] 34-4101
Kiefte, H.
Elastic constants of ice by Brillouin spectroscopy [1980, p.159-167, eng] 34-3807
Kim, J.K.
Mathematical model to describe the behavior of a moving ice field encountering a conical structure [1973, 2 vols., eng] 34-294
Oceanographic research ship capabilities in ice [1975, p.663-667, eng] 34-1233
Kim, N.S.
Investigation of the effectiveness of the action of the full-scale pyrotechnical ice-forming aerosol generators [1979, 23p., eng] 34-1348
Kimberley, H.J.
Ice removal from concrete by high pressure water jets [1977, 28p. + 5 figs., eng] 34-4195
King, G.C.P.
Pressure-melting effects in basal ice of temperate glaciers: laboratory studies and field observations under Glacier d'Argentière [1979, p.259-271, eng] 34-2237
King, L.
Surface movement and lichen-cover studies at the active rock glacier near the Grubengletscher, Wallis, Swiss Alps [1979, p.421-441, eng] 34-1385
King, M.S.
Study of the effects of pore-water salinity on some physical properties of sedimentary rocks at permafrost temperatures [1979, p.1566-1580, eng] 34-1456
King, R.M.
Recommendation for the application of the Roche index for slab avalanche release [1979, p.547-549, eng] 34-3791
Kinman, R.N.
Ozone disinfection of wastewaters at low temperatures [1974, p.507-522, eng] 34-1487

Kurilko, A.S.
Solution of a problem of freezing of an unlimited slab of fine grained material, allowing for moisture migration [1975, p.77-82, rus] 34-225
Thermal regime of permafrost beneath structures with foundations on fill [1975, p.71-76, rus] 34-224

Kuritsyn, IU.P.
Construction material and equipment base in West Siberia [1979, p.6-8, rus] 34-166

Kuriyama, H.
On the performance of a two stage rotary snow blower [1979, p.185-191, eng] 34-79

Kurkela, T.
Effect of fertilization on winter drying of Scots pine [1979, p.139-143, eng] 34-1785

Kurnosov, A.I.
Improving the design of supports for overhead power lines of and exceeding 500 kv [1979, p.48-51, rus] 34-1851
Methods of fastening reinforced concrete supports of overhead power lines in weak ground [1979, p.29-32, rus] 34-195
Optimal structural design solutions for overhead lines in the North [1980, p.44-48, rus] 34-2575

Kurochkin, A.A.
Justification of earth-fill stages in embankment construction on permafrost [1978, p.55-59, rus] 34-3886

Kurskaia, A.A.
Airborne laboratory for studying White Sea ice [1977, p.122-126, rus] 34-3314
Characteristics of the antarctic temperature field according to *Kosmos 243* satellite radiometric measurements [1976, p.13-20, eng] 34-3273

Kurtukov, IA.M.
Preparation of industrial transportation for winter [1979, p.2-5, rus] 34-2092

Kurtz, D.D.
Glacial and glacial marine sediments of the antarctic continental shelves [1980, p.399-414, eng] 34-4189

Kurushin, A.D.
Concretes with antifreeze admixtures [1980, p.44-46, rus] 34-2975
Possibility of using sodium nitrite antifreeze in reinforced concretes of buildings and structures on railroads [1978, p.179-184, rus] 34-3920

Kurzaev, A.B.
An NMR study of the phase transition of water in models and in frozen clays [1980, p.81-96, eng] 34-3833

Kustov, S.B.
Studying noise and vibration on icebreakers of the "Kapitan Sorokin" type [1979, p.51-68, rus] 34-3475

Kutschale, H.W.
Multiple surface scattering from the ice covered Arctic Ocean [1979, 52p., eng] 34-1170

Kutsenogii, K.P.
Studies of silver iodide ice-forming activity: verification of theory [1980, p.71-77, eng] 34-2501

Kutuzova, G.B.
Infiltration into soil with precipitation of arbitrary intensity [1979, p.142-148, rus] 34-1085

Kuusisto, E.
Optimal complexity of a point snowmelt model [1979, p.205-210, eng] 34-1018

Kuvaev, V.B.
Variations in altitudinal plant distribution with longitude (Polar Urals-Putorana-Verkhoyan'e) [1979, p.6-18, rus] 34-4084

Kuvaeva, G.M.
General information on snowfall in the El'brus Mountain area in relation to catastrophic avalanches [1979, p.49-55, rus] 34-609

Kuzema, G.P.
Economic effectiveness of using high thermal insulation windows in residential buildings of the North [1972, p.153-165, rus] 34-188
Present state of translucent enclosures in industrial buildings of Yakutia [1972, p.142-151, rus] 34-187

Kuzema, I.G.
Economic effectiveness of using high thermal insulation windows in residential buildings of the North [1972, p.153-165, rus] 34-188

Kuzina, Z.G.
Distribution of factories producing sectional buildings [1972, p.137-142, rus] 34-186
Technical and economic analysis of different construction materials in modular buildings [1972, p.92-97, rus] 34-182

Kuz'menko, E.I.
Studying phytosociologic optima in the Kondo-Sos'va Ob' River geosystems [1979, p.55-73, rus] 34-675

Kuz'menko, V.V.
Tractor mounted cable laying equipment [1979, p.22-23, rus] 34-1253

Kuz'michenok, V.A.
Determining glacier areas and orientation of surfaces from topographic maps [1980, p.22-47, rus] 34-4006
Glaciers on topographic maps and in the Glacier Catalog of the USSR [1979, p.249-255, rus] 34-3148
Mappable indices of glacier surface orientation [1979, p.214-216, rus] 34-2212

Kuz'michev, V.M.
Reading unit for ice calorimeter [1979, p.1643-1644, eng] 34-719

Kuz'min, E.E.
Hydrochemistry of the northwestern part of the Central Siberian Plateau [1979, 141p., rus] 34-1192

Kuz'min, V.A.
Automorphic soils of the Baykal highlands [1979, p.5-12, rus] 34-434

Kuznetsov, A.L.
Frozen earth dam on polygonal vein ice [1979, p.198-201, rus] 34-1554
Seasonally operating units and their use in northern construction [1980, p.227-240, eng] 34-3248

Kuznetsov, E.A.
Road building performed on a self-supporting basis [1979, p.14-15, rus] 34-3939

Kuznetsov, G.I.
Using frozen ground in earth dam construction [1979, p.92-96, rus] 34-806

Kuznetsov, IU.M.
Utilizing water reservoir heat for sustaining ice-free areas around dredges [1979, p.15-17, rus] 34-1251

Kuznetsova, E.G.
Soil formation on dust loams in the taiga zone of northeastern European USSR [1978, 128p., rus] 34-3753

Kuznetsova, L.A.
Hydrogeological surveying in high mountains [1979, p.43-46, rus] 34-2126

Kuzub, G.IA.
Ice accretion beneath snow cover [1977, p.101-111, rus] 34-3178

Kvach, I.K.
Sectional buildings with bearing panels made of effective materials [1972, p.54-63, rus] 34-178

Kvachev, V.I.
Surging Didal' glacier [1979, p.170-175, rus] 34-3135

Kvantaliani, L.G.
Soil cover of the "Snow Valley" station (Explanatory list with a diagram of soil cover) [1980, p.36-47, eng] 34-3398
Soils of the "Snow Valley" research station (Explanatory note to the soil map) [1977, p.35-43, rus] 34-1161

Kvlividze, V.I.
An NMR study of the phase transition of water in models and in frozen clays [1980, p.81-96, eng] 34-3833

Kyle, T.H.
Effect of varying low level wind fields on the opening and closing of the ice cover in the western Weddell Sea [1974, 91p., eng] 34-944

Laas, Kh.IU.
Frost resistance and mechanical properties of calcareous sandstone concrete [1979, p.127-134, rus] 34-2384

LaChapelle, E.R.
Alternate methods of avalanche control. Phase 4 [1978, 62p., eng] 34-1117
Central avalanche hazard forecasting—summary of scientific investigations [1978, 203p., eng] 34-1118

Ladanyi, B.
In situ determination of creep properties of ice covers by means of bore-hole creep and relaxation tests [1979, p.44-64, eng] 34-923

Lagarec, D.
Evolution of permafrost in the taiga and in the forest-tundra, western Quebec-Labrador Peninsula [1976, p.203-220, eng] 34-1643

Laidley, T.E.
Critical survey of the application of borehole logging techniques to the study of sea ice [1980, 45p., eng] 34-4160

Laiand, N.I.
Human activities effect on the Pinus sylvestris (Pinaceae) increment in the Bratsk Region [1979, p.1187-1195, rus] 34-1448

Lake, R.A.
Current observations in the channels of the Canadian Arctic Archipelago adjacent to Bathurst Island [1978, 127p., eng] 34-562

Lakhtikova, V.G.
Gallium-Arsenide diode temperature sensors [1979, p.273-275, eng] 34-984

Lalonde, M.E.
Weather, waves and icing in the Beaufort Sea [1975, 5 parts, eng] 34-506

Lamakina, V.S.
Construction experience gained by the Trust "Uralstroimekhanizatsiia" [1980, p.2-4, rus] 34-4052

Lamb, H.H.
Basis for forecasting the Arctic sea ice over a few months to many years [1979, 84p., eng] 34-1046

Lambert, R.L.
Nitrogen-fixing moss associations in the subalpine zone of the White Mountains, New Hampshire [1979, p.325-333, eng] 34-1285

Lamb, D.B.
Seasat Gulf of Alaska Workshop report. Executive summary [1979, 42p., eng] 34-1734

Lamekhov, A.
"Inexpensive" icebreaker not so inexpensive [1979, p.41, rus] 34-2795

Lamke, R.D.
Flood-prone area maps at three sites along the Trans-Alaska Pipeline, Alaska [1980, 14p., eng] 34-2506

Landau, R.
High pressure apparatus for PVT measurements of liquids and plastic crystals at low temperature [1980, p.533-535, eng] 34-3408

Landina, M.M.
Physical properties of soils and forecasting of their changes in reclaimed lands [1979, p.77-101, rus] 34-3078

Landman, J.K.
Calculation of frostline penetration in high voltage cable trench Mt. Elbert pumped-storage powerplant [1977, 48p., eng] 34-1175

Lane, J.F.
On the strength of sea ice and a correlation between the various strength tests [1979, 29p. + 9 figs., eng] 34-4194

Lane, J.W.
Roof response to icing conditions [1979, 40p., eng] 34-625

Lang, H.
Some data on mesoclimate in glacier areas [1979, p.155-167, ger] 34-1324

Lang, T.E.
Evaluation of jet-roof geometry for snow-cornice control [1979, p.503-511, eng] 34-3787
Forces on structures impacted and enveloped by avalanches [1979, p.529-534, eng] 34-3789
Numerical simulation of jet roof geometry for snow cornice control [1979, 19p., eng] 34-778

Langway, C.C., Jr.
Dating of Ross Ice Shelf cores by chemical analysis [1979, p.345-357, eng] 34-2837
Debris-laden ice at the bottom of the Greenland ice sheet [1979, p.193-207, eng] 34-2232
Depositional history of artificial radionuclides in the Ross Ice Shelf, Antarctica [1979, p.205-223, eng] 34-48
Scanning electron microscope examination of subglacial quartz grains from Camp Century core, Greenland—a preliminary study [1980, p.125-131, eng] 34-3804

Lansing, L.
Lake effect snows off the east end of Lake Ontario [1978, p.12-16, eng] 34-28

LaPerriere, A.J.L., III
Feasibility of caribou winter habitat analysis using satellite data [1976, 181p., eng] 34-202

LaPerriere, J.
Biogeochemistry of deep lakes in the central Alaskan Range [1976, 35p., eng] 34-643
Evaluation of the trophic types of several Alaskan lakes by assessment of benthic fauna [1975, 49p., eng] 34-641

LaPerriere, J.D.
Nutrient chemistry of a large, deep lake in subarctic Alaska [1977, 128p., eng] 34-624

Lapin, M.S.
Using aircraft in cargo transportation [1979, p.92-98, rus] 34-1629

Lapina, I.IA.
Annotated list of Soviet literature on glaciology (1969) [1974, p.524-692, eng] 34-1214
Annotated list of Soviet literature on glaciology for 1976 [1979, p.217-288, rus] 34-2213
Soviet glaciological investigations in 1978 [1979, p.5-12, rus] 34-2174

Larin, B.V.
Investigation of ice drift in the southeastern part of the Barents Sea with the aid of a "Toros" peripheral scanning radar station [1980, 7p., eng] 34-3898
Using the "Toros" side-looking radar in studying ice drift in the southeastern Barents Sea [1977, p.83-89, rus] 34-358

LaRocca, A.J.
Statistical analysis of terrain and water (ice) backgrounds in a winter scene from northern Michigan [1979, 302p., eng] 34-2279

Larrimore, D.R.
Enhancing ice-melting action of rock salt by prewetting with calcium chloride [1979, p.282-288, eng] 34-93

Larson, D.A.
On the flow of polythermal glaciers. I. Model and preliminary analysis [1978, p.217-242, eng] 34-1968

Latham, J.
Laboratory studies of riming, and its relation to ice splinter production [1980, p.367-374, eng] 34-3447
Possible mechanism of ice splinter production during riming [1978, p.791-792, eng] 34-2677

Latta, J.K.
Accommodation of potential movements [1976, 9p., eng] 34-160
Design of weathertight joints [1976, 8p., eng] 34-161
Dimensional changes due to temperature [1976, 12p., eng] 34-155
Inaccuracies in construction [1976, 4p., eng] 34-163

Laursen, G.A.
Impact of crude oil on root respiration and levels of soluble soil cellulase in coastal Arctic tundra [1978, p.590-604, eng] 34-910

Lauscher, A.
Accumulation and deterioration of snow cover on Sonnblick during meteorological changes [1973, p.3-30, ger] 34-1668
Computation of snow evaporation from Sonnblick Mountain [1976, p.3-10, ger] 34-1674

Lauscher, F.
Accumulation and deterioration of snow cover on Sonnblick during meteorological changes [1973, p.3-30, ger] 34-1668
Computation of snow evaporation from Sonnblick Mountain [1976, p.3-10, ger] 34-1674

Lautridou, J.P.
Experimental studies of frost shattering at the Center for Geomorphology of the French National Center for Scientific Research [1979, p.103-110, fre] 34-2320
Principal results of frost action experiments at the Centre de Géomorphologie [1978, p.5-13, fre] 34-2024
Study of freezing mechanisms in Caen rock [1979, p.343-358, fre] 34-2337

Laverdière, C.
Drift ice features in the Caniapiscau [1979, p.9-11, fre] 34-3062

Lavkulich, L.M.
Numerical approach to terrain analysis for off-road trafficability [1979, p.635-642, eng] 34-273

Lavrenko, N.N.
Vegetational cover in areas adjacent to the Baykal Amur railroad and problems of its preservation [1979, p.36-90, rus] 34-683

Lavrov, G.E.
Development and improvement of the design of digging wheel trenching excavators [1980, p.21-23, rus] 34-2977

Law, D.A.
Automatic controls for salt and abrasive spreaders [1978, p.64-67, eng] 34-1611

Lawrence, D.B.
Primary versus secondary succession at Glacier Bay National Monument, southeastern Alaska [1979, p.213-224, eng] 34-2261

Lawrence, G.P.
Pore size distribution in critical point and freeze dried aggregates from clay subsoils [1979, p.499-515, eng] 34-1645

Lawson, D.E.
Comparison of the pebble orientation in ice and deposits of the Matanuska Glacier, Alaska [1979, p.629-645, eng] 34-2502
Drilling and coring of frozen ground in northern Alaska, Spring 1979 [1980, 14p., eng] 34-3333
Environmental analysis of the Upper Susitna River Basin using Landsat imagery [1980, 41p., eng] 34-3198
Human-induced thermokarst at old drill sites in northern Alaska [1978, p.16-23, eng] 34-872

Lawson, P.D.
Surface aeration of domestic wastes: operating experiences at Red Deer, Alberta, Section 2 [1974, p.230-240, eng] 34-1476

Laymon, B.M.
Polystyrene insulation for concrete canal lining [1978, 30p., eng] 34-1172

Lazarecky, V.
Snow remover [1977, 6 col., eng] 34-143

Lazarenko, N.N.
Aerial photographic surveys of ice cover for hydraulic engineering [1979, p.140-150, rus] 34-3009

Lazarev, E.I.
Using radar equipment for measuring ice cover thickness in ice surveys [1977, p.114-121, rus] 34-3313
Video-pulse radiometer of sea ice thickness as a promising means of ice surveying [1977, p.104-113, rus] 34-3312

Lazarev, I.V.
Hydraulic method of sanding peat soils [1979, p.21-23, rus] 34-1949

Lazareva, I.P.
Iron and organic matter migration in sandy podsols [1978, p.67-71, rus] 34-2256

Lazareva, N.A.
Effect of developing a territory on the heat balance and the thermal and moisture regime of the ground in the northern part of Western Siberia [1980, p.29-44, eng] 34-3830

Lazhintsev, V.I.
Experimental study of the "packet" type apartment cells [1972, p.43-53, rus] 34-177
Modular apartment buildings with "packet" type cells [1972, p.33-42, rus] 34-176
Sectional buildings with bearing panels made of effective materials [1972, p.54-63, rus] 34-178
Technical and economic analysis of different construction materials in modular buildings [1972, p.92-97, rus] 34-182

Lazier, J.R.N.
Recent oceanographic observations in the Labrador current [1979, p.195-204, eng] 34-2039

Le Gac, H.
Constitutive relations for the non elastic deformation of polycrystalline ice [1980, p.51-59, eng] 34-3732
Does the permanent creep-rate of polycrystalline ice increase with crystal size [1980, p.151-157, eng] 34-3806

Leaf, C.F.
LANDSAT derived snowcover as an input variable for snowmelt runoff forecasting in south central Colorado [1980, p.151-169, eng] 34-3518

Leavesley, G.H.
Mountain watershed simulation model [1979, p.379-386, eng] 34-1035

Lebedenko, IU.P.
Quantitative evaluation of heaving intensity in thawing water-saturated grounds [1980, p.59-66, rus] 34-4122
Water migration, formation of texture and ice segregation in freezing and thawing clayey soils [1980, p.159-175, eng] 34-3839

Lebedev, A.B.
Annual distribution of water balance elements through the altitudinal forest belts of the Lake Baykal Basin [1979, p.83-95, rus] 34-3774

Lebedev, A.V.
Environment-forming role of forests in the Lake Baykal Basin [1979, 256p., rus] 34-1190
Forest and hydrological regionalization of Central Siberia [1979, p.25-58, rus] 34-3770

Lebedev, O.A.
Design of casing programs [1979, 280p. (Pertinent p.85-91, 135-141), rus] 34-3070

Lebedeva, I.M.
Summer heat balance and environmental conditions of periglacial naleds in the Pamirs [1979, p.76-81, rus] 34-2185

Lebedinskaia, A.P.
Properties of forest litter in relation to natural reforestation of green-moss spruce forest in northern Sikhote-Alin [1980, p.93-95, rus] 34-2628

Lebel, B.
Porosity and gas content of recent polar ice, applications to deep core analysis [1978, 80p., fre] 34-936
Total gas content and surface elevation of polar ice sheets [1979, p.289-291, eng] 34-1426

Lebland, P.H.
Analysis of ocean currents Davis Strait—1977 [1978, 2 vols., eng] 34-307

Lebolits, M.
Preliminary feasibility study of a tanker transportation system serving the northwest coast of Alaska. Final report [1980, 3 vols., eng] 34-3947

Lechner, L.J.
Phosphorus removal by lime addition to conventional anaerobic stabilization facility [1974, p.570-586, eng] 34-1490

Aerial surveys 77-2, 77-3, 77-4. Studies of sea birds and marine mammals in Davis Strait, Hudson Strait and Ungava Bay [1977, var.p., eng] 34-494
Biological literature review of the Labrador Sea region [1977, var.p., eng] 34-491
Biological literature review of Ungava Bay and Hudson Strait [1977, var.p., eng] 34-498
Biological studies, offshore cruise 77-4 through 77-7, July-December, 1977 in the Davis Strait [1977, var.p., eng] 34-493
Biological studies, offshore cruises 77-2 and 77-3, April-June, 1977 in the Davis Strait [1978, var. p., eng] 34-428

MacLaren Atlantic, Ltd. *(cont.)*
Cruise 77-1, February, 1977. Environmental aspects of the cruise to Davis Strait and the Labrador coast [1977, var.p., eng] 34-426
Davis Strait aerial survey 77-1 [1977, 14p. + figs. and tables, eng] 34-425
Field report on the oceanographic cruises during April, July-August, October-November, 1976 [1977, var.p., eng] 34-430
Inuit natural resource use in southeast Baffin region [1978, var.p., eng] 34-496
Preliminary nearshore environmental studies on southeast Baffin Island [1977, var.p., eng] 34-495
Primary data collected for the 1977 Davis Strait biological programme and analysed prior to December 1977 [1977, 2 vols., eng] 34-492
Report on Cruise II, July 1976. Environmental aspects of Imperial Oil cruise to Flemish Pass and Davis Strait [1976, var.p., eng] 34-429
Report on Cruise III, October-November 1976 and Cruise IV, November-December, 1976. Environmental aspects of the Imperial Oil cruises to Davis Strait, Hudson Strait and Flemish Pass [1977, var.p., eng] 34-431
Revised biological literature review of the Davis Strait region [1978, var.p., eng] 34-497
Sediment analysis of cores from Davis Strait and Flemish Pass for Imperial Oil Limited [1976, n.p., eng] 34-311

MacLaren Marex, Inc.
Marine benthic invertebrates of the southern Davis Strait and Ungava Bay [1978, var.p., eng] 34-499

MacLean, S.F.
Soil Acari and Collembola from Chaun Bay, Northern Chukotka [1978, p.559-568, eng] 34-658

MacLeod, W.D.
Weathering estimations for spilled oil from *Bouchard No.65* [1978, p.217-228, eng] 34-1369

MacNeill, M.R.
Open water surface currents [1975, 113p., eng] 34-2399

Macy, R.L.
Sea ice beam tests of January 1975 [1975, 272p., eng] 34-3104

Madasova, A.A.
Computer analysis of different natural regime indices for revealing geosystem structures [1979, p.14-34, rus] 34-672

Madden, W.G.
Interpretation of the OH stretching region of the vibrational spectrum of ice I [1977, p.219-226, eng] 34-1606

Mae, S.
Basal sliding of a thinning ice sheet, Mizuho Plateau, East Antarctica [1979, p.53-61, eng] 34-2816
Recent variation of ice sheet in Mizuho Plateau [1979, p.1-7, eng] 34-2499

Maeno, N.
Antarctic ice as a ceramic [1978, p.663-669, jap] 34-1165
Compactive viscosity of snow and its climatic implications at Mizuho Station, Antarctica [1979, p.18-31, eng] 34-2148
Growth rates of crystal grains in snow at Mizuho Station, Antarctica [1979, p.11-17, eng] 34-2147
Migration of solid particles in melting snow [1979, p.81-92, jap] 34-3494

Magenheim, B.
Microwave ice detector [1977, 6 col., eng] 34-150

Magomedova, M.A.
Successions of lithophile lichen communities in the northern Ural highlands [1979, p.29-38, rus] 34-104

Magono, C.
On snow crystals of double plate type grown from ice fragments [1980, p.1-7, jap] 34-3153

Magsood, R.
Feasibility of physico-chemical treatment of raw sewage at low temperature [1974, p.523-548, eng] 34-1488

Maguire, R.J.
Effects of ice and snow cover on transmission of light in lakes [1975, 24p., eng] 34-1700

Mahringer, W.
Annual temperature in snow cover on the Upper Sonnblick (3100 m) [1973, p.31-40, ger] 34-1669
Sonnblick Station—a reporting station of the official Salzburg avalanche warning service [1976, p.85-89, ger] 34-1676

Mai, C.
Dynamic behaviour of dislocations in HF-doped ice Ih [1980, p.133-149, eng] 34-3805

Maier, D.C.
Long-term drift of icebergs in Baffin Bay and the Labrador Sea [1980, p.183-193, eng] 34-2441
Long-term tracking of Arctic icebergs [1979, 41p., eng] 34-1354

Maiorov, O.N.
Computer analysis of radar ice cover survey data [1980, p.30-34, rus] 34-4180
Investigation of ice drift in the southeastern part of the Barents Sea with the aid of a "Toros" peripheral scanning radar station [1980, 7p., eng] 34-3898
Using the "Toros" side-looking radar in studying ice drift in the southeastern Barents Sea [1977, p.83-89, rus] 34-358

Maizels, J.K.
Proglacial aggradation and changes in braided channel patterns during a period of glacial advance: an alpine example [1979, p.87-101, eng] 34-1463

Makagonov, V.A.
Calculating temperature regime of underground structures [1980, p.45-49, rus] 34-3164

Makarevich, A.K.
Direct determination of the velocity of glacier ice movement at the surface [1979, p.125-131, rus] 34-1981
Surface kinematics of a mountain valley glacier [1979, p.120-124, rus] 34-1980

Makarevich, K.G.
Direct determination of the velocity of glacier ice movement at the surface [1979, p.125-131, rus] 34-1981
Ice and meteorological regimes, mass balance and drainage from mountain glaciers of the Tuiuksu Basin [1979, p.96-109, rus] 34-1978
Workshop on the world glacier inventory and meeting of the snow and ice commission in Switzerland [1979, p.19-24, rus] 34-2176

Makarov, A.K.
Fog at Cape Schmidt [1979, p.61-68, rus] 34-3530

Makarov, A.S.
Statistical attenuation characteristics of visible and infrared radiation in a surface layer of the atmosphere [1979, 17p., eng] 34-1312

Makarov, S.V.
Comparative study of stresses in natural rock masses and in models using the artificial freezing technique [1979, p.35-43, rus] 34-3481

Makarov, V.I.
Characteristics of the construction of frozen dams in Western Yakutia [1980, p.213-226, eng] 34-3247
Construction of multi-storey buildings on cold piles in the city of Mirnyy [1980, p.241-254, eng] 34-3249
Fluid-bearing thermopiles in foundation construction in the North [1980, p.26-40, rus] 34-4037
Foundations of power transmission lines and substations [1980, p.10-22, rus] 34-4035
Impervious frozen ground screens in earth dams of the "frozen" type [1979, p.26-51, rus] 34-4154

Makarova, Z.G.
Installation for the measurement of the shear stress of solids at low temperatures and high pressures [1979, p.266-267, eng] 34-983

Makarychev, S.V.
Volume weight and thermophysical properties of soils [1978, p.10-12, rus] 34-1441

Makeev, A.M.
Prefabrication stages in building construction [1979, p.30-34, rus] 34-519

Makeev, O.M.
Influence of water transport and transfer of heat by freezing and defrosting on soil genesis [1972, p.699-712, eng] 34-2380

Makeev, O.V.
Role of vegetational cover in the development of cryogenic biogeocenoses [1975, p.164-165, rus] 34-1861
Soil resources of BAM zone swamps and their agricultural development [1979, p.42-49, rus] 34-438

Makeev, V.M.
Palynological investigations in Severnaya Zemlya related to spore and pollen transfer in the high altitude Arctic [1979, p.330-334, rus] 34-1259

Soils in pine forests of Karelia [1978, 141p., rus] 34-2252
Pick, A.R.
Further field investigation on aerated lagoons in the city of Winnipeg [1974, p.99-124, eng] 34-1471
Pigois, M.
Bituminous pavements with antiicing additives [1979, p.442-447, ger] 34-2488
Pigois, M.L.
Winter service; its influence on road planning [1977, p.46-48, fre] 34-516
Piguzova, V.M.
Evaluating chemical runoff of some continuous water springs in Central Yakutia [1978, p.163-169, rus] 34-2933
Pilu, T.Kh.
Ground lichens in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula) [1979, p.140-143, rus] 34-3044
Ground lichens of Cape Chelyuskin [1979, p.61-73, rus] 34-3038
Pikhovkin, V.
Erection of multistory brick buildings in Noril'sk [1980, p.32-35, rus] 34-3931
Prefabricated plates of ground floor framing in residential buildings of the North [1979, p.38-39, rus] 34-1771
Pikul', V.
Flying on a wheel [1979, p.26-28, rus] 34-803
Pilo, C.
Sea Ice-75. Programme [1976, 30p., eng] 34-2985
Pilon, P.J.
Square-grid spatial interpolation of snow cover for a hydrometeorological information system [1979, p.40-52, eng] 34-4204
Pimankina, N.V.
Calculating dates of stable snow in the Central Asian and Kazakhstan mountains from standard meteorological information [1979, p.71-79, rus] 34-3694
Pimenov, V.T.
Utilizing water reservoir heat for sustaining ice-free areas around dredges [1979, p.15-17, rus] 34-1251
Pinglot, F.
Determination of the stratospheric residence time from the total beta activity of antarctic and Greenland snows [1979, p.365-367, eng] 34-730
Pinglot, J.F.
Automatic apparatus for measuring low-level beta activity in snow samples [1978, 103p., fre] 34-937
Pingoes and the Northwest Passage
Pingoes and the Northwest Passage [1974, p.1-4, eng] 34-1986
Pink, A.
Winter concreting [1979, 19p., eng] 34-2513
Pinneker, E.V.
Evaluating the distribution and utilization of ground water resources in the south of East Siberia [1976, p.80-92, rus] 34-2643
Geologic and geophysical investigations [1976, 110p., rus] 34-2642
Hydrogeological problems of the Baykal Amur railroad [1977, p.66-70, rus] 34-995
Piotrovskii, M.V.
New data on geocryological structure of swamps in southern Yakutia [1979, p.134-140, rus] 34-1921

Special geomorphologic map for studying permafrost [1979, p.75-80, rus] 34-1770

Pipe bridge solves heaving problems
Pipe bridge solves heaving problems [1980, p.7, eng] 34-2408

Pisarchik, V.B.
Snow remover vehicle with balance weight [1976, 4 col., rus] 34-1219

Pisarev, G.N.
Calculating quasi-stationary temperature and seepage fields in massive hydraulic structures and foundations by the finite element and finite difference methods [1979, p.67-74, rus] 34-1526

Pisarev, IU.V.
Rock fill stability on embankment slopes [1977, p.80-87, rus] 34-2056

Pisarskii, B.I.
Evaluating the distribution and utilization of ground water resources in the south of East Siberia [1976, p.80-92, rus] 34-2643
Hydrogeological problems of the Baykal Amur railroad [1977, p.66-70, rus] 34-995

Piskarev, V.V.
Densification of soils prone to slump-type settlement by the gas-detonation method [1980, p.316-320, eng] 34-3933

Pitelka, F.A.
Seasonal trends in summer diet of the Lapland longspur near Barrow, Alaska [1978, p.295-301, eng] 34-2512
Variations in summer temperature patterns near Barrow, Alaska: analysis and ecological interpretation [1979, p.131-144, eng] 34-1277

Pivkin, V.M.
Interpreting meso- and microclimatic peculiarities of large cities for urban planning (Novosibirsk taken as an example) [1979, p.48-54, rus] 34-2620

Pivovarov, L.K.
New technology of recovering crushed ore when mining valuable metals at subzero temperatures [1979, p.22-24, rus] 34-1837

Planning: secret to winter success
Planning: secret to winter success [1979, p.5-6, eng] 34-649

Platonova, L.V.
Economic effectiveness of turboprop planes used by Yakutian passenger airlines [1976, p.66-76, rus] 34-3343

Platonova, N.N.
Thermophysical characteristics of moisture and gas-saturated sandstones at naturally low temperatures [1975, p.106-107, rus] 34-229

Platt, C.M.R.
Remote sounding of high clouds: 1. Calculation of visible and infrared optical properties from lidar and radiometer measurements [1979, p.1130-1143, eng] 34-889

Pleiss, H.
Improving snow gage accuracy [1979, p.275-283, rus] 34-2302

Plekhanov, P.A.
Calculating snow reserves in the glacial zone of Zailiyskiy Alatau [1979, p.27-36, rus] 34-1973
Formulas for calculating the ice melting temperature coefficient for Zailiyskiy Alatau glaciers [1979, p.72-85, rus] 34-1976

Ploshikov, F.I.
Interrelation between edaphic and coenotic factors of cropping power [1979, p.4-13, rus] 34-970

Pletnikova, I.P.
Hygienic evaluation of water supply and waste disposal along the Baykal Amur railroad [1979, p.7-8, rus] 34-238

Plewes, W.G.
Building deformations—deflection [1976, 11p., eng] 34-157
Building deformations—vertical movements [1976, 9p., eng] 34-158

Pliat, Sh.N.
Approximate thermal stress analysis of a concrete structure, erected block-by-block, allowing for concrete creep [1978, p.64-69, rus] 34-468
Extreme cooling curves of concrete structures [1978, p.70-72, rus] 34-469

Plissin, A.M.
Effect of cryogenic processes on the formation of gold-scattering water flows [1979, p.700-703, rus] 34-811

Plotnikov, A.A.
Construction of multi-storey buildings on cold piles in the city of Mirnyy [1980, p.241-254, eng] 34-3249
Fluid-bearing thermopiles in foundation construction in the North [1980, p.26-40, rus] 34-4037
Thermal regime of residential building foundations when there are unheated rooms beneath the building [1980, p.102-107, rus] 34-4045

Plotnikov, I.I.
Construction of alleyways and roads in freezing weather [1979, p.20, rus] 34-341

Plotnikov, M.S.
Modeling frozen ground as an abrasive medium [1974, p.8-11, rus] 34-374
Wear of heat-treated steel and alloy cutting tools in frozen peat [1974, p.213-217, rus] 34-396

Plotskii, A.S.
Building roadbeds along main pipelines [1979, p.10, rus] 34-2793
Construction of roadbeds on hummocky peats [1979, p.3-4, rus] 34-2856

Plutonium in glaciers
Plutonium in glaciers [1979, p.1419A-1422A, eng] 34-1601

Po-liang, T.
Experimental research on an embankment at the lower limit of alpine permafrost [1979, p.199-222, eng] 34-1689

Podgornyi, I.
Sectional, instead of situ-poured, cylindrical pumping stations [1979, p.40-41, rus] 34-1772

Podgornyi, V.K.
Ice breaking anti soil erosion plough [1974, 2 col., rus] 34-1217

Podkaliuk, V.P.
Borehole blasting at Baykal Amur railroad construction sites [1980, p.14-18, rus] 34-2637

Podolny, W., Jr.
Ice forces on bridge piers [1979, p.341-342, 347-348, eng] 34-700

Podval'nyi, A.M.
Analyzing some factors influencing corrosion stability of lightweight concretes [1977, p.18-26, rus] 34-347

Pogodina, A.I.
Influence of hydro-climatic conditions on the growth of swamp stands [1978, p.59-91, rus] 34-2521

Pogrebniak, IU.F.
Effect of cryogenic processes on the formation of gold-scattering water flows [1979, p.700-703, rus] 34-811

Poirer, A.
Mathematical model to describe the behavior of a moving ice field encountering a conical structure [1973, 2 vols., eng] 34-294

Poiseev, I.I.
Economic peculiarities of organizing raw material bases for Yakutian industry [1977, 121p., rus] 34-115
Environmental protection problems in the construction of gas industry objects [1977, p.99-104, rus] 34-120

Polar gas considering routes
Polar gas considering routes [1980, p.14-15, eng] 34-3019

Polar gas line would use new pipelay method
Polar gas line would use new pipelay method [1980, p.50, eng] 34-2714

Polar Group
Polar atmosphere-ice-ocean processes: a review of polar problems in climate research [1980, p.525-543, eng] 34-3633

Pol'evko, V.P.
Sectional capping for columnar bridge piers of the Baykal Amur railroad [1980, p.10-12, rus] 34-2586

Poliakov, A.P.
Vibration of measuring equipment in the study of the ocean microstructure under the drifting ice [1975, p.237-238, eng] 34-3433

Poliakov, V.A.
Microbiological studies of soils in the Magadan Region [1978, p.3-10, rus] 34-1440

Poliakov, V.I.
Construction equipment for the Baykal Amur railroad [1979, p.2-4, rus] 34-2582

Polikarpov, N.P.
Ecologic fundamentals of forestry in the Lake Baykal Basin [1979, p.52-57, rus] 34-4093

Polishchuk, A.I.
Experimental investigation of the stress-strain state of loess soils in the base of rigid plates [1979, p.140-145, eng] 34-2018

Polkanov, M.P.
Determining aquifer permeability from electrical logs in West Siberia [1979, p.50-54, rus] 34-3482

Polkoshnikova, O.V.
Origin and development of the Surgut wooded marshes [1979, p.86-91, rus] 34-2710

Polonskii, L.
Light metal structures for industrial buildings and their installation [1979, p.24-27, rus] 34-1774

Polozhii, A.V.
Periglacial flora of the Katunskiy Range [1979, p.18-23, rus] 34-4085

Polozova, T.G.
Latitudinal variations in the proportions of living vascular plants in Taymyr Peninsula [1979, p.154-159, rus] 34-3045

Poltev, N.F.
Bound water content in fine grained rocks [1979, p.193-196, rus] 34-1927
Designing gas pipeline crossings of major river valleys in the North [1979, p.30-31, rus] 34-1183
Rock stream structure in South Yakutia [1979, p.119-128, rus] 34-1919

Polushktov, V.E.
Generalizing the experience of foundation construction in complex geocryological conditions [1979, p.54-63, rus] 34-1338

Polunovskii, A.G.
Textiles used in roadbed construction on weak soils [1980, p.13-15, rus] 34-3952

Poma :kova, E.N.
Landscaping of northern cities [1978, 160p., rus] 34-582

Pomeranets, K.S.
Winter floods in Leningrad and their study by empirical and hydrodynamic methods [1978, p.246-249, eng] 34-4061

Ponomarenko, IU.V.
Experience with the drying of loess soils using radial horizontal holes [1980, p.674-677, eng] 34-3374

Ponomarev, V.D.
Determination of settlement due to thawing out of permafrost soil [1980, p.328-331, eng] 34-3935

Ponomarev, V.I.
Univariate model of the seasonal pycno-wedge and homogeneous layer in the Arctic Basin [1979, p.37-47, rus] 34-1997

Ponomareva, S.D.
Economic effectiveness of turboprop planes used by Yakutian passenger airlines [1976, p.66-76, rus] 34-3343

Ponomareva, T.G.
Reference basin method of evaluating calculated maximum river discharge in the eastern section of the Baykal Amur railroad [1977, p.123-130, rus] 34-355

Poots, G.
Icing of a cable [1976, p.203-217, eng] 34-1969

Popchenko, S.N.
Calculating service life of waterproof mastic roofings [1979, p.15-22, rus] 34-1527

Popkov, A.A.
Thermal regime of permafrost beneath structures with foundations on fill [1975, p.71-76, rus] 34-224

Poplevichev, G.
Navigation conditions of winter routes [1979, p.37-38, rus] 34-2080

Popov, A.E.
Air cushion vehicles on land [1979, p.24-26, rus] 34-2087

Popov, A.I.
Cryolithological map of the U.S.S.R. (Principles and compilation) [1980, p.391-399, eng] 34-3853
Geologic controls of the origin, characteristics and distribution of ground ice [1979, p.1-18, eng] 34-1679
Restoration of natural landscapes disturbed by human activities [1980, p.111-115, rus] 34-3297

Popov, B.A.
Biogeophysical conditions of interactions between solid precipitation and conifer forest canopy [1979, p.82-90, rus] 34-3877

Popov, B.I.
Construction of earth embankments for highways in West Siberia [1980, p.269-281, eng] 34-3251

Popov, E.G.
Modeling productivity and frost hardiness of plants [1979, 15p., rus] 34-4012

Popov, F.S.
Heat transfer between underground structures and surrounding frozen grounds [1975, p.22-29, rus] 34-217

Popov, G.M.
Specific nature of erosional processes in permafrost areas [1979, p.118-124, rus] 34-448

Popov, I.V.
Engineering geology of the U.S.S.R. Vol.5, Altai and Ural Mountains [1978, 220p., rus] 34-768

Popov, IU.A.
Calculating nonstationary temperature and moisture regimes of washed-up earth structures in a thawed state [1980, p.94-101, rus] 34-3167
Hydraulic dredging in freezing weather [1979, 184p., rus] 34-580
Ice regime of pipelines [1979, 131p., rus] 34-2871
Use of hydraulic fills under rigorous climatic conditions [1979, p.227-230, eng] 34-1391

Popov, IU.I.
Slope development dynamics in the Zeya-Bureya Plain [1979, p.15-20, rus] 34-4103

Popov, N.I.
New technology of recovering crushed ore when mining valuable metals at subzero temperatures [1979, p.22-24, rus] 34-1837

Popov, N.S.
Stand for dynamic tests of self-lubricating materials for friction and wear at low temperatures [1975, p.132-135, rus] 34-234

Popov, V.P.
Concrete failure during cyclic freezing and the development of an automatic system for forecasting concrete frost resistance [1979, p.121-124, rus] 34-2623

Popova, E.P.
Oxidation-reduction conditions and acidity of sod-podsols in the Angara River area after forest fires [1978, p.27-32, rus] 34-3464
Studying regimes of the Krasnoyarsk forest-steppe soils [1979, p.257-267, rus] 34-2745
Studying the effect of natural and experimental fires on forest soils [1979, p.23-29, rus] 34-972

Popova, I.A.
Relation between light requirements and pigmentation of tundra plants on Wrangel Island [1979, p.70-71, rus] 34-4230

Popova, L.V.
Snow cover distribution in the mountains of Tadzhikistan [1979, p.120-126, rus] 34-2191

Review of LANDSAT-D and other advanced systems relative to improving the utility of space data in water-resources management [1980, p.281-296, eng] 34-3525

Salone internazionale della montagna, 16th, Turin, Sep.29-Oct. 7, 1979
Mountain 79 [1979, p.9-93, eng] 34-1241

Salov, A.A.
Polystyrene concrete, an effective thermal insulation material for industrial buildings and block-component construction [1980, p.5-6, rus] 34-2593

Salova, T.A.
Evaluating accumulative effects of a catastrophic avalanche in the Elbrus Mountain area [1979, p.47-53, rus] 34-1758
Types of snow cover development determining avalanche formation processes in the El'brus Mountain area [1979, p.223-228, rus] 34-3145

Saltzman, B.
Time-dependent feedback system involving sea-ice extent, ocean temperature, and CO2 [1980, p.93-118, eng] 34-3366

Salukvadze, M.E.
Avalanche cadasters for Dagestan and Transcaucasia [1980, p.94-97, rus] 34-3424

Salway, A.A.
Time-series modelling of avalanche activity from meteorological data [1979, p.513-528, eng] 34-3788

Samochkin, V.M.
Experience of using an ice protection dam in the lower course of the Yenisey River [1977, p.51-55, rus] 34-3174
Forecasting naled formation on small streams crossed by the Baykal Amur railroad [1977, p.72-90, rus] 34-3176

Samson, H.
Evolution of permafrost in the taiga and in the forest-tundra, western Quebec-Labrador Peninsula [1976, p.203-220, eng] 34-1643

Samukashvili, R.D.
Diffuse radiation in the Caucasus [1980, p.123-129, rus] 34-3427
Discharge of the Kaiartasu and Sakashilsu rivers during the warm season [1980, p.130-136, rus] 34-3428
Effective radiation and radiation balance in the Caucasus [1980, p.98-110, rus] 34-3425
Glacial component in the total discharge of high mountain rivers in the Gara-Auzusu Gorge and ablation of the Kulak-Chegemschimar glacier [1979, p.87-93, rus] 34-613
Snow cover effect on annual variations of reflected radiation and albedo in the Caucasus [1980, p.111-122, rus] 34-3426

Sanders, W.M.
Russian winter pipeline construction techniques [1980, p.59-66, 71, eng] 34-3086

Sanderson, T.J.O.
Equilibrium profile of ice shelves [1979, p.435-460, eng] 34-3784
Is vertical shear in an ice shelf negligible [1979, p.285-292, eng] 34-543
Morphology and dynamics of ice rises [1980, p.33-45, eng] 34-3796

Sannikov, A.G.
Glaciological studies on Tadzhikistan glaciers [1979, p.150-155, rus] 34-3131
Snow cover distribution in the Obikhingou River basin [1979, p.24-30, rus] 34-1123

Santeford, H.S.
Snow soil interactions in interior Alaska [1979, p.311-318, eng] 34-1028

Santsevich, T.I.
Connection between ice conditions of the Wrangel area and atmospheric circulation indices of preceding seasons [1979, p.30-39, rus] 34-2996

Sapozhnikov, A.P.
Bioenergetic diagnostics of mountain-forest soils in the Amur River area [1979, p.224-230, rus] 34-459

Sapunov, N.E.
Calculating thermal regime of reservoirs in permeable rocks surrounded by ice-bearing zones [1978, p.140-146, rus] 34-255

Sapunov, V.N.
Activities of snow-carrying streams [1979, p.201-202, rus] 34-2207
Protection from glacial mudflows [1979, p.191-198, rus] 34-1553

Sapunova, G.G.
Activities of snow-carrying streams [1979, p.201-202, rus] 34-2207

Sarazin, C.L.
X- or gamma-rays from supernovae in glacial ice [1979, p.701-702, eng] 34-1746

Sasaki, H.
Preliminary study on the structure of the atmospheric surface layer in Mizuho Plateau, East Antarctica [1979, p.86-100, eng] 34-2153

Sasaki, T.
Development of a high-speed rotary snowplow (HTR-700) [1979, 27p., eng] 34-3634

Sato, Y.
Study on prevention of stone ejection from ballasted track in snowing [1977, p.178, eng] 34-2659

Satow, K.
Oxygen isotopic composition of drifting snow in Mizuho Plateau, Antarctica [1979, p.136-151, jap] 34-2155
Rate of snow accumulation determined from oxygen isotope and stratigraphic analyses of the core from Mizuho Station, East Antarctic (extended abstract) [1979, p.88-92, eng] 34-2500
Some problems in stratigraphic analysis of firn in Mizuho Plateau, East Antarctica [1979, p.32-50, jap] 34-2149

Saunders, C.P.R.
Charge separation associated with secondary ice crystal production [1979, p.2230-2235, eng] 34-1766

Saunders, R.L.
Detachment of ice from surfaces by application of high intensity light [1979, p.289-292, eng] 34-94

Sauriol, J.
Channel development in snow-filled valleys, Resolute, N.W.T., Canada [1980, p.37-56, eng] 34-4191

Savchenko, I.V.
Studying disturbed soils of reindeer grazing fields in the Messoyakha-Noril'sk pipeline area [1979, p.66-67, rus] 34-4229

Savchenko, V.G.
Instability of internal waves in an ice-covered sea [1979, p.76-84, eng] 34-1901
Results of joint Soviet-American research in the Southern Ocean during POLEX-South-77 [1979, p.5-15, rus] 34-3090

Savchenkova, E.I.
Method for the long-range forecasting of the dates of ice appearance in the rivers of the Northeastern USSR [1978, p.47-50, eng] 34-3962

Savdie, I.
Weather, waves and icing in the Beaufort Sea [1975, 5 parts, eng] 34-506

Savechenko, V.G.
Instability of internal waves as a mechanism of heat transfer from Atlantic waters to the Arctic Basin [1979, p.118-125, eng] 34-1893

Savel'ev, B.A.
Investigation of the structure and properties of bound water [1980, p.97-107, eng] 34-3834

Savel'ev, V.V.
Slab of silicate reinforced concrete [1979, p.9, rus] 34-1942

Savel'eva, I.L.
Regional types of mining-affected lands in East Siberia and trends in their restoration [1978, p.98-102, rus] 34-2247

Savenko, V.A.
System of equipment reservation for the complex column technique of construction in West Siberia [1980, p.13-15, rus] 34-2979

Savich, A.A.
Vegetational indices of precipitation in the Alpine belts of the Pamirs [1979, p.61-67, rus] 34-2182

Saville, D.B.O.
Arctic adaptations in plants [1972, 81p., eng] 34-1776

Savin, V.K.
Windows with double and triple layers of glass [1979, p.10-12, rus] 34-1752

Savina, L.K.
Forecasting spring water inflow into the Kama reservoir allowing for rainfall [1979, p.15-25, rus] 34-1077

Savitskii, A.N.
Determining concrete strength under severe climatic conditions [1977, p.98-101, rus] 34-353

Savvina, IU.A.
Concretes for roof plates [1977, p.14-17, rus] 34-346
Studying corrosion and protection of concrete and reinforced concrete structures in severe climatic conditions and corrosive media [1977, 129p., rus] 34-345

Savvinov, D.D.
Role of permafrost in the hydrothermal regime of soils [1979, p.282-287, rus] 34-464

Sayward, J.M.
Small-scale testing of soils for frost action [1979, p.223-231, eng] 34-3990

Sazonov, A.G.
Classification of elementary geosystems of the Kondo-Sos'va Uplands [1979, p.74-83, rus] 34-676
Dynamics of soil and geochemical indices in central taiga geosystems [1977, p.73-84, rus] 34-3816
Seasonal variations of soil formation in the Lake Baykal area [1979, p.36-48, rus] 34-4163
Swamp land reclamation in West Siberia [1978, p.119-122, rus] 34-2250

Sboev, V.V.
Influence of snow deformation on the traffic of low-powered amphibian airsleighs [1974, p.429-433, eng] 34-1209

Scafetta, P.
Snow and ice remover [1978, 6 col., eng] 34-277

Scarborough, T.
Evaluation of automotive engine preheaters as a technique to control cold start carbon monoxide emissions—a final report [1978, 76p., eng] 34-842

Sceats, M.D.
2500-4000/cm Raman and infrared spectra of low density amorphous solid water and of polycrystalline ice I [1977, p.212-218, eng] 34-1605

Sceats, M.G.
Enthalpy and heat capacity of liquid water and the ice polymorphs from a random network model [1980, p.3248-3259, eng] 34-2727
Interpretation of the OH stretching region of the vibrational spectrum of ice I [1977, p.219-226, eng] 34-1606

Schädler, B.
Disappearance of snowcover depending on radiation and relief [1979, p.151-158, ger] 34-1264

Schaller, R.C.
Ice nucleation by aerosol particles: experimental studies using a wedge shaped ice thermal diffusion chamber [1979, p.1788-1802, eng] 34-1382

Schallock, E.W.
Winter dissolved oxygen patterns in Arctic and sub-Arctic rivers [1975, p.141-162, eng] 34-633

Schamel, D.
Polyandry, replacement clutches, and site tenacity in the red phalarope *(Phalaropus fulicarius)* at Barrow, Alaska [1977, p.314-324, eng] 34-2497

Schaub, S.A.
Bacterial aerosols from a field source during multiple-sprinkler irrigation: Deer Creek Lake State Park, Ohio [1979, 64p., eng] 34-1381

Scheele, G.
Snow accumulation and disappearance as influenced by elevation, aspect and vegetation type in the State of Hesse, Germany [1979, p.31-42, eng] 34-1779

Schelle, H.
Should building contractors make separate provisions for winter construction [1979, p.18, 25, ger] 34-2490

Schenk, R.U.
Alternative highway deicing chemicals [1979, p.261-269, eng] 34-90

Schermerhorn, V.
Development of the operational snow band SSARR model [1979, p.369-378, eng] 34-1034
Schertler, R.J.
VHF downline communication system for SLAR data [1979, 10p., eng] 34-1575
Schleff, H.O.
Determination of local permeabilities by a freezing process, in connection with predicting the success of a filter regeneration method [1979, p.473-478, ger] 34-2724
Schlegg, H.O.
Thermoelectric drill for firn [1978, p.125-131, ger] 34-669
Schleldge, J.P.
Interactions between the atmospheric boundary layer and a snow surface [1979, p.154-166, eng] 34-1015
Schliffman, M.J.
Method of predicting road salt runoff in New Hampshire [1979, p.116-120, eng] 34-70
Schild, M.
Accidents and damage caused by avalanches [1979, p.89-152, ger] 34-1707
Snow and avalanche conditions in the Swiss Alps [1979, p.41-88, ger] 34-1706
Schindler, D.W.
Methane addition to an Arctic lake in winter [1980, p.100-113, eng] 34-1880
Schindler, J.
Nearshore environments of the North Slope and the petroleum industry [1975, p.67-75, eng] 34-1724
Schittelkopf, H.
Mixing formulas for determining the free water content of wet snow from measurements of the dielectric constant [1978, p.73-80, eng] 34-666
New results on dielectric relaxation of snow samples [1978, p.201-208, ger] 34-1270
Snow as a mixed dielectric: on the geometry of water inclusions [1979, p.65-72, ger] 34-3974
Schlodermann, P.
Polynyas and prehistoric settlement patterns [1980, p.292-302, eng] 34-3868
Schmidt, R.A.
Measuring visibility in blowing snow [1979, p.200-207, eng] 34-81
Schmutzler, R.A.
Snowmobiles in Antarctica [1979, p.189-200, eng] 34-686
Schneider, R.W.
Laser reflectivity measurements of snow/ice covered targets in the Arctic region [1979, 40p., eng] 34-1041
Schneider, S.R.
All-digital approach to snow mapping using geostationary satellite data [1980, p.267-279, eng] 34-3524
NOAA/NESS program for operational snowcover mapping: preparing for the 1980's [1980, p.21-39, eng] 34-3512
Schneider, W.
Practical trials of insulants made from plastics for frost-protection in road and railroad construction: comparison of theory and practice [1979, p.421-437, eng] 34-2344
Schnell, R.C.
Ice nucleus and aerosol measurements in the plume of the Johnstown, Pa., steel mill [1980, p.397-400, eng] 34-3779
Scholefield, P.R.
Mean and extereme semi-monthly northwestern hemispheric snow boundaries from satellite records (1966-1979) and some surface data comparisons [1979, p.68-79, eng] 34-1057
Schommer, P.
Numerical simulation of water level variations in firn and comparison with field data in the Ewigschneefeld (Swiss Alps) [1978, p.173-190, ger] 34-1268
Thermoelectric drill for firn [1978, p.125-131, ger] 34-669
Schroter, H.
Numerical approach to terrain analysis for off-road trafficability [1979, p.635-642, eng] 34-273
Schroder, M.
Use of exchange plastics for the protection and repair of concrete bridge pavements exposed to salting [1980, p.23-24, 26-27, ger] 34-2492
Schubert, G.
Role of shear heating in the dynamics of large ice masses [1979, p.195-212, eng] 34-2827
Schuh, D.
2500-4000/cm Raman and infrared spectra of low density amorphous solid water and of polycrystalline ice I [1977, p.212-218, eng] 34-1605
Schultheis, A.C.
Polar environmental monitoring: final report [1979, 94p., eng] 34-3390
Schultz, D.
Ice conditions on the Chesapeake Bay as observed from Landsat during the winter of 1977 [1978, p.89-104, eng] 34-35

Numerical modeling of the glaciers-ocean-atmosphere global system [1979, p.3191-3204, eng] 34-360
Serikov, M.I.
Load-bearing capacity of ice cover and determination of breaking strength [1979, p.152-156, eng] 34-1904
Serov, A.G.
Permafrost in the territory of the Boguchansk reservoir [1980, 9p., eng] 34-3392
Serova, M.N.
Heterogeneous nucleation by organic crystalization nuclei [1979, p.76-82, rus] 34-2015
Serson, H.V.
Mass balance of the Ward Hunt Ice Rise and Ice Shelf: an 18 year record [1979, 14p., eng] 34-2431
Seryshev, V.A.
Flood-induced transformations in soils [1979, p.237-250, rus] 34-460
Ses'kov, V.E.
Elastic and dissipative properties of peats and organic muds [1979, p.17-22, rus] 34-979
Sethi, A.J.
Stabilization of muskeg by chemical treatment [1978, p.132-150, eng] 34-2912
Sevast'ianov, V.V.
Use of tethered radiosondes in the Aktru mountain glacier basin [1973, p.82-86, rus] 34-109
Severinova, E.P.
Recommendations for loading and unloading freezing cargo [1979, p.11, rus] 34-2084
Severskii, I.V.
Calculating dates of stable snow in the Central Asian and Kazakhstan mountains from standard meteorological information [1979, p.71-79, rus] 34-3694
Dangerous phenomena on northern slopes of Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve [1979, p.146-161, rus] 34-1984
Distribution of atmospheric precipitation on northern slopes of the Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve [1979, p.37-46, rus] 34-1974
Evaluating avalanche recurrence in Zailiyskiy Alatau from dendrochronological data [1977, p.131-140, rus] 34-3386
Snow avalanches in Zailiyskiy and Dzungarskiy Alatau [1978, 256p., rus] 34-3072
Sevruk, B.
Correction of point precipitation measurements [1979, p.267-279, eng] 34-1328
Sha, K.
Countermeasures against snow accretion and icing on radomes [1979, p.303-307, eng] 34-96
Shabalin, V.P.
Road building performed on a self-supporting basis [1979, p.14-15, rus] 34-3939
Shabanov, P.P.
Optimizing working conditions of welders on northern sites [1979, p.22-24, rus] 34-2098
Shabel'nikov, V.A.
Friable zones in snow cover and their meaning in avalanche formation [1980, p.21-28, rus] 34-3414
Methods and results of artificial avalanche triggering in the El'brus Mountain area [1980, p.43-46, rus] 34-3416
Results of studying thermal regime of snow cover [1979, p.35-48, rus] 34-608
Shabtaie, S.
Ice-thickness patterns and the dynamics of the Ross Ice Shelf, Antarctica [1979, p.287-294, eng] 34-2831
Investigation of bottom mass-balance rates by electrical resistivity soundings on the Ross Ice Shelf, Antarctica [1979, p.331-343, eng] 34-2836
Shabunin, G.D.
Seasonal snow line dynamics as indication of snow reserve gradient [1978, p.22-25, rus] 34-3346
Shadunts, K.Sh.
Calculating nonstationary flow rates of landslide-mudflows [1976, p.369-376, rus] 34-3225
Shafer, B.A.
LANDSAT derived snowcover as an input variable for snowmelt runoff forecasting in south central Colorado [1980, p.151-169, eng] 34-3518
Shafrai, S.D.
Influence of thermal stresses on brittle failure of deep metal silos [1979, p.34-38, rus] 34-126
Shagimardanov, R.M.
Influence of the length of perpendicular leg of fillet welded joints on their strength at low temperatures [1979, p.18-22, rus] 34-2624
Shakesby, R.A.
Pattern of glacial dispersal and comminution of rock fragments and mineral grains from two point sources [1979, p.31-45, eng] 34-3972
Saw-tooth moraines in front of Bödalsbreen, southern Norway [1979, p.535-546, eng] 34-3790
Shakhovskoi, G.P.
Installation for the measurement of the shear stress of solids at low temperatures and high pressures [1979, p.266-267, eng] 34-983
Shamasova, I.I.
Zonal characteristics of polygonal ice-wedge relief in Western Siberia [1979, p.82-87, eng] 34-529
Shamburger, J.H.
Terrain evaluation of a portion of the Fort Greely automotive test course [1966, 33p. + 29 photos and plates, eng] 34-1562
Shamin, A.A.
Microbiological description of northern taiga bog-podzolic soils [1979, p.151-156, rus] 34-3639
Shamin, IU.
Line icebreaker Kapitan Chechkin [1979, 11p., eng] 34-1341
Shamkin, L.A.
Using Doppler hydroacoustic recorder in ice navigation [1979, p.58-63, rus] 34-3474
Shamont'ev, V.A.
Microscopic algae in Davis Sea fast ice [1979, p.126-137, eng] 34-1895
Shamshurin, V.IU.
Geothermal parameters of the Seligdar apatite deposits [1978, p.94-96, rus] 34-2925
Shantykova, L.N.
Accuracy of using floats in measuring water discharge of small mountain rivers [1973, p.115-128, rus] 34-111
Shapiro, L.H.
Long-period gravity waves in ice-covered sea [1980, p.1095-1100, eng] 34-4073
Sharafutdinov, M.I.
Large scale mapping of southern taiga vegetation in the Central Ural Mountains [1977, p.3-15, rus] 34-3363
Sharapov, N.V.
Geocryological conditions of a Baykal Amur railroad construction site in the Olongoro River Basin [1978, p.79-93, rus] 34-2924
Sharma, G.D.
Alaskan shelf hydrographic, sedimentary and geochemical environment [1979, 498p., eng] 34-2514
Sharp, P.L.
Preliminary tests of bird-scare devices on the Beaufort Sea coast [1978, 43p., eng] 34-489
Shartran, M.
Research on snow and ice [1979, p.1253-1297, eng] 34-1464
Shasherin, I.V.
Using electrical survey data in geocryologic and geologic evaluations [1978, p.131-141, rus] 34-2954
Shatkauskas, A.V.
Flora of vascular plants of the "Snow Valley" station [1980, p.48-51, eng] 34-3399
Vascular plants in the "Snow Valley" station [1977, p.44-48, rus] 34-1162
Vegetation of the "Snow Valley" station (Explanatory list with a diagram of vegetation) [1980, p.24-35, eng] 34-3397
Vegetation of the "Snow Valley" station (Explanatory note to the vegetation chart) [1977, p.24-34, rus] 34-1160
Shats, M.M.
Geocryologic zonation in Altai and Sayan mountains [1978, p.27-33, rus] 34-2943
New data on rock temperatures in the Minusinsk trough and Kuznetskiy Alatau Range [1978, p.19-26, rus] 34-2942
Shatygin, V.A.
Stabilization of artificially thawed soils on lake and river shores, by cement solutions in freezing weather [1979, p.89-91, rus] 34-2621
Shaver, G.R.
Ecotypic differentiation in *Carex aquatilis* on ice-wedge polygons in the Alaskan coastal tundra [1979, p.1025-1046, eng] 34-2496
Vertical distribution of live vascular phytomass in cottongrass tussock tundra [1979, p.335-342, eng] 34-1286
Shaw, G.E.
Arctic haze [1979, p.114-127, eng] 34-1310
Considerations on the origin and properties of the antarctic aerosol [1979, p.1983-1998, eng] 34-2372
Shaw, J.
Genesis of the Sveg tills and Rogen moraines of central Sweden: a model of basal meltout [1979, p.409-426, eng] 34-2114
Shchapova, L.N.
Soils of the central Selemdzha River area and their economic development [1979, p.49-54, rus] 34-439
Shchekin, V.A.
Physical and mechanical properties of Siberian larch wood preserved in permafrost for 24,500 years [1979, p.121-122, rus] 34-2799
Shcheikanova, R.P.
Effect of human activities on the vegetational cover of Taymyr [1979, p.139-152, rus] 34-4175
Fodder lichen increment and distribution in the northern Yenisey Region [1979, p.1111-1121, rus] 34-1446
Studying disturbed soils of reindeer grazing fields in the Messoyakha-Noril'sk pipeline area [1979, p.66-67, rus] 34-4229
Shcherbakov, E.N.
Lightweight concretes for tunnel linings [1979, p.13-15, rus] 34-1250
Shcherbakov, I.P.
Environmental protection in Yakutia [1979, 181p., rus] 34-4106
Forest fires in Yakutia and their influence on forest environments [1979, 224p., rus] 34-3601
Siberian forests and their rational development [1979, p.46-59, rus] 34-4169
Shcherbakov, N.M.
Variations of resin and lipid contents in some forest trees depending on climatic conditions [1979, p.446-451, rus] 34-2129
Shcherbakova, L.N.
Possible landscape changes in the Lower Irtysh River area [1980, p.49-53, rus] 34-3028
Shchetinnikov, A.S.
Calculating vertical ice distribution from the *Catalog of Glaciers in the USSR*, for evaluating runoff from mountain basins [1979, p.122-126, rus] 34-1134
Influence of the Indian monsoon on glaciation in the Pamirs [1979, p.143-150, rus] 34-3130
New data on recent glaciation of the Fedchenko glacier system (for the "atlas of snow-ice resources of the world") [1979, p.113-121, rus] 34-1133
Shchetnikov, A.I.
Dynamics of soil-geochemical indices in taiga permafrost geosystems [1977, p.43-58, rus] 34-3814
Soil regimes in the Chara River Basin and methods of their interpretation [1979, p.68-78, rus] 34-442
Shchugalei, L.S.
Studying regimes of the Krasnoyarsk forest-steppe soils [1979, p.257-267, rus] 34-2745
Shchukina, T.A.
Glacial runoff from the Ili River Basin [1979, p.110-120, rus] 34-1979
Shchur, IU.L.
Studying the structure of forest tundra landscapes as indicators of engineering and geological conditions for economic development in West Siberia [1979, p.88-100, rus] 34-3227
Shchurina, G.N.
Influence of cryogenic processes on clay minerals [1979, p.93-101, eng] 34-2319
Shebarshov, A.A.
Studying the freezing of water-filled blasting holes drilled in permafrost [1979, p.127-131, rus] 34-3026
Sheehy, W.
On the origin of stratified debris in ice cores from the bottom of the Antarctic ice sheet [1979, p.185-192, eng] 34-2231
Sheeran, D.E.
In situ response of muskeg to dynamic loading [1978, p.11-24, eng] 34-2906
Stabilization of muskeg by chemical treatment [1978, p.132-150, eng] 34-2912
Shelgal, I.G.
Installation of large thermal insulation structures [1979, p.18-19, rus] 34-1750
Shelkhet, I.M.
Two cements used in the silication of loess with the product of azeotropic rectification of acid waste waters [1979, p.127-130, rus] 34-854
Shelkin, A.E.
Structure and properties of cement concretes [1979, 344p., rus] 34-850
Shelngauz, A.S.
Forest resource analysis as a bioeconomical approach to studying the natural potential of taiga [1978, p.42-53, rus] 34-2462
Shelnkam, V.S.
Origin of the Verkhoyansk-Kolyma mountain glacier system [1979, p.102-107, rus] 34-3124
Shelnker, N.IA.
Approximate determination of stress relaxation coefficients in thermal creep problems [1978, p.73-76, rus] 34-470
Extreme cooling curves of concrete structures [1978, p.70-72, rus] 34-469
Shelnkman, D.R.
Forecasting deformation of thawing bearing ground [1979, p.40-53, rus] 34-1537
Ground ice and ice-rich ground as structure foundations [1980, 159p., eng] 34-3405
Ice rich soils as bases for structures [1980, p.133-147, eng] 34-3242

Sheinkman, V.S.
Development of Pleistocene-Holocene glaciation of the Verkhoyansk-Kolyma Highlands [1978, p.87-104, rus] 34-2949
Recent glaciation of the Cherskiy mountain system [1979, p.185-194, rus] 34-3138
Sheminkin, E.I.
Mining effect on natural environments [1979, p.104-111, rus] 34-4172
Sheminkin, V.N.
Protecting rivers in the Kolyma Basin from pollution with solid suspensions by electrochemical coagulation treatment of mining waste waters [1980, p.102-107, rus] 34-3295
Shender, N.I.
Nomogram for determining total ice content of frozen ground [1978, p.115-117, rus] 34-2928
Shen'kman, B.M.
Evaluating the distribution and utilization of ground water resources in the south of East Siberia [1976, p.80-92, rus] 34-2643
Geoengineering and hydrogeologic studies of the zone of influence of the Angara reservoirs and means of effective incorporation of these results in the national economy [1980, 10p., eng] 34-3393
Subsurface drainage in Siberia and methods of its investigation [1979, 136p., rus] 34-1936
Shentsis, I.D.
Optimal averaging principle and its use in hydrologic forecasts and snow surveying reorganizations [1979, p.41-50, rus] 34-1125
Reorganization of snow surveying network points in the Central Asian mountains [1979, p.15-23, rus] 34-1122
Two criteria determining the structure of snow surveying and precipitation measuring networks in mountain basins [1979, p.133-139, rus] 34-2193
Shepelev, V.V.
Regime, balance and peculiarities of talik alimentation in Central Yakutian sandstone [1978, p.145-162, rus] 34-2932
Shepherd, D.R.
Rotor ice protection systems [1976, 19p., eng] 34-1297
Sheremet'ev, A.N.
Glacier echo sounding studies around Molodezhnaya [1979, p.35-38, rus] 34-1827
Sherman, J.W., III
Seasat Gulf of Alaska Workshop report. Executive summary [1979, 42p., eng] 34-1734
Sherstiankin, P.P.
Development of hydro-optical studies of the Lake Baykal [1979, p.16-27, rus] 34-876
Horizontal irradiation in the visible spectrum under ice in the Ivano-Arakhley lakes (Transbaikal) [1979, p.274-281, rus] 34-880
Light attenuation indices in the Ivano-Arakhley lakes (Transbaikal) during winter [1979, p.281-285, rus] 34-881
Optical methods of studying oceans and inland water bodies [1979, 373p., rus] 34-875
Sherstnev, V.I.
Determining parameters of the mechanical dehydration of frozen peat in high bogs [1979, p.18-19, rus] 34-2132
Mechanical dehydration of frozen peat [1979, p.19-20, rus] 34-254
Sherstov, V.A.
Testing plastic thermoinsulative covers in placer mines [1975, p.17-21, rus] 34-216
Thermal regime of Indigirka placer mines [1975, p.9-16, rus] 34-215
Shestakov, A.N.
Thermal waves in roadbeds [1979, p.105-111, rus] 34-2622
Shestakov, V.A.
Diagram of metastable states of water [1979, p.707, eng] 34-701
Shestakov, V.N.
Standardizing the requirements for frost resistance of asphaltconcretes [1980, p.18-19, rus] 34-3760
Thermal waves in roadbeds [1979, p.105-111, rus] 34-2622
Shesterikov, V.I.
Expansion joints in highway bridges [1978, 151p., rus] 34-886
Shevchenko, B.F.
Mechanics of rockstream movement (from experimental and research station data) [1979, p.72-79, rus] 34-2749
Shevchenko, L.V.
Water migration, formation of texture and ice segregation in freezing and thawing clayey soils [1980, p.159-175, eng] 34-3839
Shevchenko, N.A.
Technical and economic indices of aluminum bearing structures of standard industrial buildings [1972, p.85-91, rus] 34-161
Shevchenko, V.I.
Organic-mineral admixtures for increasing strength and frost resistance of reinforced concretes in the Kola Peninsula [1972, p.74-84, rus] 34-180
Shevchenko, V.K.
Engineering-geomorphological peculiarities of studying the Baykal Amur railroad area [1979, p.109-120, rus] 34-2751
Origin of massive sand deposits in the Baykal Amur railroad area and their economic development [1979, p.165-169, rus] 34-2757
Shevchuk, N.P.
Fresh ground water resources and water supply of the western section of the Baykal Amur railroad area [1977, p.127-134, rus] 34-3755
Shevelev, IA.Z.
Treatment and agricultural utilization of waste water in the northwestern Russian Soviet Federated Socialist Republic [1979, p.9-11, rus] 34-2699
Shibuya, M.
On the performance of a two stage rotary snow blower [1979, p.185-191, eng] 34-79
Shifrin, K.S.
Optical methods of studying oceans and inland water bodies [1979, 373p., rus] 34-875
Shigenobu, I.
Water cock with non-freezing valve [1978, 6 col., eng] 34-276
Shiiatov, S.G.
Forecasting periodic fluctuations of larch increments in the Taz forest tundra [1979, p.22-26, rus] 34-2627
Upper forest limit in the mountains of the Boreal Zone of the USSR [1978, p.349-363, eng] 34-800
Shikula, N.K.
Ice breaking anti soil erosion plough [1974, 2 col., rus] 34-1217
Shilin, B.V.
Infrared aerial survey in studying natural resources [1980, 247p., rus] 34-3591
Recording geothermal flow by thermal aerial survey [1980, p.321-323, rus] 34-3638
Shilin, G.V.
Determining snow depth on winter crop fields from aerial gamma survey data [1980, p.77-93, rus] 34-3551
Shilov, N.N.
Field studies of Series 91 residential buildings [1979, p.5-6, rus] 34-2704
Shilov, V.A.
Reusable heating-panel frame with new types of heating units [1979, p.16-18, rus] 34-1150
Shilova, I.I.
Landscape gardening in towns and villages of oil producing areas in the Central Lena River region [1979, p.128-129, rus] 34-4236
Shilts, W.W.
Field trip No.4: Northern Manitoba—District of Keewatin [1979, 76p., eng] 34-1693
Flow patterns in the central North American ice sheet [1980, p.213-218, eng] 34-3985
Keewatin ice sheet—reevaluation of the traditional concept of the Laurentide Ice Sheet [1979, p.537-541, eng] 34-1089
Shimizu, H.
Snow cover observations at Avalanche Research Station, Toikanbetsu, northern Hokkaido, 12 (1977-1978 and 1978-1979) [1979, p.17-32, jap] 34-3454
Strain rate and stresses of snow on a mountain slope, Toikanbetsu, northern Hokkaido, Pt.2 [1979, p.33-37, jap] 34-3455
Shimkovich, V.G.
Design and construction of power supply lines for the Baykal Amur railroad area [1980, p.45-58, rus] 34-2567
Shin, R.
Theory and experiment for passive microwave remote sensing of snowpacks [1979, p.5669-5673, eng] 34-998
Shinojima, K.
Icicle formation in tunnels under train running [1973, p.121-122, eng] 34-2663
Statistical amount of snow on the regions planned for the construction of Shinkansen [1976, p.136-127, eng] 34-2655
Study on flying snow with the prototype high speed snow plough for railway [1975, p.64-69, eng] 34-2653
Shiraf, E.N.
Vibrating equipment used in mining construction [1978, 262p., rus] 34-848
Shirokikh, V.
Docks can be used in winter [1979, p.34, rus] 34-2122
Shirokov, V.M.
Study of shorelines in the building and operation of Siberian reservoirs [1980, 10p., eng] 34-3391
Shishkanova, E.F.
Water temperature beneath ice in the Bratsk reservoir [1979, p.81-86, rus] 34-1697
Shishkin, A.A.
Allowing for humidity when designing external brick walls [1970, p.120-138, rus] 34-1835
Solidification of mortars with antifreeze admixtures [1979, p.19-20, rus] 34-2700
Shishkin, N.S.
Studying freezing of large water drops in the corona discharge area [1979, p.71-75, rus] 34-2014
Shishkov, IU.:
Combined transportation systems in petroleum provinces of West Siberia [1979, p.2-3, rus] 34-2088
Shiue, J.C.
Comparative study of microwave radiometer observations over snowfields with radiative transfer model calculations [1979, 31p., eng] 34-2358
Preliminary results of passive microwave snow experiment during February and March 1978 [1979, 114p., eng] 34-1111
Theory and experiment for passive microwave remote sensing of snowpacks [1979, p.5669-5673, eng] 34-998
Shkalikov, V.A.
Landscape method of studying snow cover for land reclamation [1980, p.64-71, rus] 34-2800
Shkatov, E.P.
Structure of the Pliocene-Quaternary deposits of the Barents Sea bottom along the Rybachiy Island-Franz Joseph Land cross section [1979, p.13-19, rus] 34-3065
Shkliaev, V.G.
Brown taiga soils in the upper part of the Urkan River Basin [1979, p.78-89, rus] 34-443
Shkliarov, N.
Erection of multistory brick buildings in Noril'sk [1980, p.32-35, rus] 34-3931
Prefabricated plates of ground floor framing in residential buildings of the North [1979, p.38-39, rus] 34-1771
Shkliarov, N.D.
Building design for construction in the North [1979, 135p., rus] 34-2685
Shkundin, B.M.
Use of hydraulic fills under rigorous climatic conditions [1979, p.227-230, eng] 34-1391
Shkurenko, V.I.
Kinetics of cement hardening during thermal treatment of concrete bases of road pavements in freezing weather [1979, p.113-117, rus] 34-808
Shloen, A.G.
Determining frost resistance of concrete from the compensation factor [1979, p.37-38, rus] 34-1568
Shlotgauer, S.D.
Peculiarities of flora in the West Okhotsk Sea area [1979, p.42-47, rus] 34-4087
Vegetation of the West Okhotsk area [1978, 132p., rus] 34-967
Shlykov, V.V.
Electric field effect on crystallization of supercooled water [1979, p.65-70, rus] 34-2013
Experimental study of the freezing of water drops in a constant electric field [1979, p.68-75, rus] 34-3573
Influence of point charge electric field on homogeneous crystallization of supercooled water drops [1979, p.26-32, rus] 34-3568
Theoretical analysis of homogeneous crystallization of supercooled water droplets in a constant homogeneous electric field [1979, p.15-25, rus] 34-3567
Shmakov, V.N.
New drilling instrument for holes in frozen ground [1979, p.8-9, rus] 34-1187
Shmideberg, N.A.
Chemical composition of ground ice as an indication of ice formation conditions and origin of the enclosing rocks [1980, p.119-126, rus] 34-2767

Problems of the Arctic and the Antarctic, collection of articles, Vol.46, 1975 [1979, 166p., eng] 34-1897
Tretaikov, G.
Guiding ship caravans in ice [1979, p.42-43, rus] 34-2121
Trifonova, L.I.
Uninterrupted periods of strong winds (>15m/s) over West Siberia and Altai territory [1979, p.31-40, rus] 34-3578
Trincher, IU.K.
Wall panels with polyurethane foam thermal insulation used in power plant construction [1979, p.33-34, rus] 34-196
Trinh, E.
Sound velocity of supercooled water down to -33C using acoustic levitation [1980, p.6731-6735, eng] 34-3781
Tripol'nikov, V.P.
Contrast of electromagnetic characteristics at the marine ice-water boundary [1979, 6p., eng] 34-1397

Trofikov, S.S.
Young soils formed in placer tailings in the southern taiga of the Central Urals [1979, p.58-106, rus] 34-949
Trofimenkoff, P.N.
Island defense system tests [1976, 84p., eng] 34-306
Some iceberg statistics for the Davis Strait [1978, 43p., eng] 34-3114
Trofimov, A.S.
Expanding anchors for fastening pipelines [1979, p.16-18, rus] 34-2097
Trofimov, S.S.
Soil formation in landscapes affected by industrial activities [1979, 294p., rus] 34-946
Systems approach to studying soil formation processes in landscapes affected by industrial activities [1979, p.3-19, rus] 34-947
Trofimov, V.N.
Calculating service life of waterproof mastic roofings [1979, p.15-22, rus] 34-1527
Trofimov, V.T.
Geological aspects of use and protection of environments in northern West Siberia related to the development of oil and gas deposits [1979, p.95-103, rus] 34-4171
Temperature of Gydan Peninsula permafrost [1980, p.102-111, rus] 34-2765
Trofimova, E.B.
More exact definition of mathematical model parameters of snow cover formation in mountains [1978, p.34-40, rus] 34-3348
Results of a numerical experiment of calculating physical characteristics of dry snow [1978, p.26-33, rus] 34-3347
Second order iterative approximation scheme for calculating dry snow characteristics [1979, p.88-97, rus] 34-2885
Trofimova, I.E.
Structure of radiation and thermal fields in natural West Siberian central taiga geosystems [1979, p.101-120, rus] 34-678
Trofimova, V.T.
Regularities governing the distribution, temperature and thickness of permafrost in the northwestern part of the West Siberian platform [1980, p.85-96, rus] 34-2763
Troinin, V.K.
Forecasting ice jam conditions in front of Baykal Amur railroad structures [1977, p.18-24, rus] 34-3170
Troitskii, L.S.
Pleistocene glaciation of Spitsbergen [1979, p.204-208, rus] 34-2209
Troitskii, V.V.
Local construction materials used for linings for the Baykal Amur railroad [1979, p.22-23, rus] 34-1427
Tronov, M.V.
Glacio-climatology as a connecting scientific discipline, its problems and goals [1977, p.3-11, rus] 34-3380
Summary of theoretical results of glaciological investigations in the Altais [1967, p.3-15, rus] 34-1988
Troshkina, E.S.
Avalanches of the USSR and their influence on the formation of natural territory complexes [1978, p.223-233, eng] 34-792
Evaluating accumulative effects of a catastrophic avalanche in the Elbrus Mountain area [1979, p.47-53, rus] 34-1758
Problems and results of avalanche and mudflow studies by Moscow University geographers [1979, p.52-57, rus] 34-1639
Truesdale, R.S.
Comment and reply on "Late Quaternary extent of the West Antarctic ice sheet: new evidence from Ross Sea cores" [1979, p.518-519, eng] 34-1088
Trufanova, E.R.
Botanical objects of environmental protection near the lower Lena River [1979, p.20-23, rus] 34-4108
Trunov, O.K.
Methods for prediction of the influence of ice on aircraft flying characteristics [1977, 44p., eng] 34-773
Trupak, N.G.
Artificial freezing of ground in underground construction [1979, 344p., rus] 34-1226
Trush, N.I.
Methods of studying frozen rock properties during geocryological surveying [1980, p.67-75, rus] 34-4123
Trushkin, V.M.
Winter concreting in the Baykal Amur railroad area [1980, p.20-21, rus] 34-2587
Tryde, P.
Physics and mechanics of ice [1980, 378p., eng] 34-3727
Trzhtsinskii, IU.B.
Exogenic geologic processes and phenomena in the Angara River area [1976, p.93-101, rus] 34-2644
Geoengineering and hydrogeologic studies of the zone of influence of the Angara reservoirs and means of effective incorporation of these results in the national economy [1980, 10p., eng] 34-3393
Tsang, L.
Theory and experiment for passive microwave remote sensing of snowpacks [1979, p.5669-5673, eng] 34-998
Tsarev, B.K.
Influence of the Indian monsoon on glaciation in the Pamirs [1979, p.143-150, rus] 34-3130
Tselebrovskii, IU.V.
Electrical grounding at the Ust'-Ilim hydroelectric power plant [1978, p.111-119, rus] 34-2105
Tsentral'nyi nauchno-issledovatel'skii i proektno-eksperimental'nyi institut organizatsii, mekhanizatsii i tekhnicheskoi pomoshchi stroitel'stvu
Recommendations for using heated forms in casting monolithic concrete structures [1977, 95p., rus] 34-583
Tsernant, A.A.
Utilizing water reservoir heat for sustaining ice-free areas around dredges [1979, p.15-17, rus] 34-1251
Tsertsvadze, L.A.
Regularities governing the propagation of railroad induced oscillations in cohesive soils [1975, p.76-77, rus] 34-2063
Tsibin, A.M.
Determining heat consumption during year round pouring of earth into water [1979, p.43-44, rus] 34-1155
Tsibul'skii, V.R.
Problems in designing telemetering equipment for complex soil and climatic conditions in West Siberia [1980, p.81-84, rus] 34-4148
Tsigel'naia, I.D.
Mineralization of glacial rivers in the Pamirs [1979, p.67-70, rus] 34-2183
Tsilikin, V.F.
Studying the mechanism of ice floe entrainment into submerged openings [1978, p.98-102, rus] 34-3351
Tsimermanis, L.B.
Constructional thermal insulating blanket [1976, 2 col., rus] 34-1218
Tsitron, M.F.
Allowing for humidity when designing external brick walls [1970, p.120-138, rus] 34-1835
Tsoi, L.G.
Selecting economically feasible velocity of transport ships designed for ice navigation [1979, p.74-78, rus] 34-3187
Tsukawaki, T.
Countermeasures against snow accretion and icing on radomes [1979, p.303-307, eng] 34-96
Tsurikov, A.S.
Thermal interaction of pipelines with the ground [1980, p.103-116, eng] 34-3240
Tsurikov, V.L.
Snow density variations over ice covers [1979, p.155-161, rus] 34-3706
Tsybin, A.M.
Approximate determination of stress relaxation coefficients in thermal creep problems [1978, p.73-76, rus] 34-470
Calculating quasi-stationary temperature and seepage fields in massive hydraulic structures and foundations by the finite element and finite difference methods [1979, p.67-74, rus] 34-1526
Versions of the fraction step method for solving two-dimensional heat conductivity problems [1979, p.47-55, rus] 34-1524
Tsyganok, V.I.
Protection of mountain forests as a dependable water supply basis of Transbaikal [1973, p.135-138, rus] 34-1876
Tsyganov, S.V.
Bridge crossing the Irtysh River at Omsk [1980, p.9-11, rus] 34-2852
Tsykin, E.N.
On some rules governing the formation of ice jams and the computation of the type of preventive measures to be taken [1974, p.334-346, eng] 34-1204
Tsykina, G.A.
On some rules governing the formation of ice jams and the computation of the type of preventive measures to be taken [1974, p.334-346, eng] 34-1204
Tsytovich, N.A.
Creep as reflected in the numerical calculation of the stress-strain state of foundations [1976, p.220-227, rus] 34-3210
Design, construction and operation of earth dams in Arctic regions and under permafrost conditions [1980, p.407-428, eng] 34-3259
Design, construction and performance of earth dams on permafrost in the far north [1979, p.137-149, eng] 34-1684
Determining rheologic properties of perennially frozen hard fractured rocks [1976, p.360-368, rus] 34-3224
Experimental investigation of the stress-strain state of loess soils in the base of rigid plates [1979, p.140-145, eng] 34-2018
Nonlinear consolidation of clays allowing for aging [1976, p.346-351, rus] 34-3222
Shearing creep mechanism at variable pore pressure [1976, p.352-359, rus] 34-3223
Tucker, A.
Hardness of ice and a solar ice melter [1979, p.4-8, eng] 34-3677
Tucker, W.B.
Computer simulation of urban snow removal [1979, p.293-302, eng] 34-95
Sea ice ridging over the Alaskan continental shelf [1979, p.4885-4897, eng] 34-411
Some results from a linear-viscous model of the Arctic ice cover [1979, p.293-304, eng] 34-544
Tugunov, P.I.
Movement of freezing front inside pipelines after cessation of pumping [1979, p.67-79, rus] 34-2705
Tulina, T.U.
On the application of existing models of movement to calculating the velocity fields of mountain glaciers (for example, the Central Tujuksu Glacier) [1974, p.192-207, eng] 34-1197
Tulokhonov, A.K.
History of river valley development as a basis for designing land irrigation with ground water in Buryat-Mongol ASSR [1979, p.62-66, rus] 34-1068
Tumel', N.V.
Seasonal freezing of ground in the non-chernozem areas of the RFSFR and its mapping [1979, p.36-41, rus] 34-1757
Tunegolovets, L.A.
Preliminary analysis of natural conditions in Sikhote Alin in relation to avalanche danger [1979, p.56-61, rus] 34-3565
Turcot, P.
Mathematical model to describe the behavior of a moving ice field encountering a conical structure [1973, 2 vols., eng] 34-294
Ture, M.E.
Transport, retention, and effects of the water-soluble fraction of Cook Inlet crude oil in experimental food chains [1979, p.535-581, eng] 34-17
Tureane, R.G.
Winter concreting—Canadian practice [1980, 13p. + 9p. figs., eng] 34-2645
Turkey. Karayollari Genel Mudurlugu
Snow clearance on highways, 1968-1969 [1969, 23p., tur] 34-18
Turmanina, V.I.
Avalanches of the USSR and their influence on the formation of natural territory complexes [1978, p.223-233, eng] 34-792
Dynamics of the vegetation in the Mount Elbrus Region, USSR [1978, p.325-334, eng] 34-798
Seasonal and long-term dynamics of vegetation near the Dzhankuat glacier (Central Caucasus) [1979, p.64-75, rus] 34-1756
Turner, F.H.
Concrete and cryogenics; Part 1 [1980, p.39-40, eng] 34-3446
Turner, M.D.
Polar research [1980, p.43-44, eng] 34-1883
Tursunkhodzhaeva, V.V.
Mathematical problem of selecting pipeline diameters for aircraft deicing systems [1979, p.76-81, rus] 34-2023
Tushima, K.
Friction of ice [1979, p.245-251, jap] 34-2169
Tushinskii, G.K.
Avalanches of the USSR and their influence on the formation of natural territory complexes [1978, p.223-233, eng] 34-792
Tusima, K.
Experimental studies on regelation [1979, p.1-15, jap] 34-3487
In situ wind tunnel for snow accretion experiments using natural snowflakes [1979, p.183-187, jap] 34-3505
Tutkevich, A.A.
Computerized simulation of heat transfer in ground for improving information of geocryologic surveys [1979, p.43-52, rus] 34-1912
Tvorogov, A.I.
Heating cables for electric warming of joints and situ-cast concrete structures [1979, p.10-12, rus] 34-1432
Tylkin, M.A.
Resistance of materials to wear at subzero temperatures [1974, p.78-81, rus] 34-382
Tyrtikov, A.P.
Dynamics of vegetational cover and the development of cryogenic relief forms [1979, 116p., rus] 34-4010
Vegetation effect on ground temperature in northern West Siberia [1980, p.112-188, rus] 34-2766
Tyrtyshnyi, V.I.
MGI-58 equipment for layer-by-layer excavation of ground [1980, p.17-18, rus] 34-4054
Tzu-wang, W.
Experimental research on the principal mechanical properties of freezing and frozen soils in China (a review) [1979, p.159-177, eng] 34-1686
U.S. Army Corps of Engineers, Alaska District
Draft environmental impact statement, Prudhoe Bay Oil Field Waterflood Project [1980, 2 vols., eng] 34-3646

Regionalization of Poland's coast in terms of ice ridges piled on beaches [1978, p.3-16, pol] **34-2291**

Zakurenko, O.E.
Reading unit for ice calorimeter [1979, p.1643-1644, eng] **34-719**

Zalenskii, O.V.
Relation between light requirements and pigmentation of tundra plants on Wrangel Island [1979, p.70-71, rus] **34-4230**

Zalikhanov, M.Ch.
Avalanche and mudflow danger in areas of future economic development of the western Caucasus [1979, p.56-69, us] **34-610**

Data units for telemetering physical and mechanical properties of snow cover on slopes [1980, p.67-74, rus] **34-3420**

Friable zones in snow cover and their meaning in avalanche formation [1980, p.21-28, rus] **34-3414**

Programs for weather type indices used in the computer processing of snow and avalanche information [1979, p.70-81, rus] **34-611**

Snow and avalanche loads on remote-control snow surveying installations [1980, p.75-81, rus] **34-3421**

Snow physics, avalanches, mudflows [1980, 160p., rus] **34-3411**

Using gamma logging for snow density measurement on mountain slopes [1980, p.82-86, rus] **34-3422**

Zaliznlak, E.L.
Forecasting surface wind velocities in the Krasnoyarsk area [1979, p.114-120, rus] **34-2970**

Zamana, L.V.
Hydrogeologic and geocryological conditions of the Barguzin trough and land reclamation [1976, p.36-59, rus] **34-2054**

Hydrogeologic and land reclamation conditions of the Khotay swamp in the Barguzin depression [1979, p.24-33, rus] **34-4097**

Zamolotchikova, S.A.
Designing gas pipeline crossings of major river valleys in the North [1979, p.30-31, rus] **34-1183**

History of permafrost development on Kamchatka Peninsula [1980, p.102-110, rus] **34-4125**

Permafrost thawing beneath pipes with different pipe laying methods [1979, p.73-79, rus] **34-1916**

Rock temperatures in the Kamchatka Peninsula [1979, p.102-118, rus] **34-1918**

Zamoshchik, A.I.
Economic effectiveness of antifreeze admixtures [1972, p.177-185, rus] **34-190**

Organic-mineral admixtures for increasing strength and frost resistance of reinforced concretes in the Kola Peninsula [1972, p.74-84, rus] **34-180**

Zaniatin, S.
Local artificial freezing of thawed ground in Yakutsk [1980, p.9-11, rus] **34-3927**

Zaretskii, IU.K.
Micromechanism of ice deformation under load [1976, p.200-210, rus] **34-3208**

Rheological properties of ice [1979, p.179-191, rus] **34-1552**

Strength and stability of frozen walls of shafts and mining excavations in permafrost [1979, p.129-148, rus] **34-1547**

Zarkhina, E.S.
Erosional vulnerability of taiga soils in the eastern BAM zone during economic development [1979, p.131-136, rus] **34-450**

Zarling, J.P.
Solar energy resource potential in Alaska [1978, 79p., eng] **34-628**

Zarubin, L.I.
Semiconductor resistance thermometers for the interval 300-0.3K [1979, p.845-847, eng] **34-2355**

Zarubin, N.E.
Characteristics of the design and construction of engineering structures in seismic regions of the Baykal-Amur Main Line Railroad (BAM) [1979, 10p., eng] **34-1349**

Engineering and geological studies for seismic microregionalization of permafrost areas [1975, p.59-60, rus] **34-2059**

Experimental field studies of the seismic properties of solidly frozen ground in the zone of the Baikal-Amur mainline with the use of explosions [1980, p.202-206, eng] **34-2377**

Zaslavskaia, M.B.
Using hydrochemical data from mountain-glacier basins in glaciological and hydrological computations [1979, p.187-192, rus] **34-3712**

Zaslavskii, S.V.
Determining stability of tailings dump embankments [1978, p.76-77, rus] **34-3357**

Zavgorodniaia, R.E.
Microelement variations in peat-bog soils of the northwestern Russian Soviet Federated Socialist Republic during land development [1975, p.126-127, rus] **34-1856**

Zav'ialov, S.IA.
Freight traffic irregularities on rivers of the Yakut ASSR [1976, p.28-40, rus] **34-3339**

Zav'ialova, I.N.
Regime of high relative humidity of air in the Arctic [1979, p.44-56, eng] **34-1889**

Zawadzki, I.
Ultrasound low power sonar for snow thickness measurements [1979, p.108-116, eng] **34-4209**

Zeifman, M.I.
Thermal insulation for light-weight roofs [1979, p.12-16, rus] **34-1753**

Zelenskii, A.IA.
Classification of cryogenic structures in the aeration zone of peat deposits [1979, p.8-11, rus] **34-2131**

Zelenskii, V.IU.
Stabilization of saturated loess soils by gas silication [1979, p.65-69, eng] **34-1146**

Zelentsova, M.I.
Collected changes and supplements to the 1st, 2nd and 3rd parts of Construction Norms and Regulations (SNiP) and Instructions (SN) introduced in 1978 [1979, 64p., rus] **34-2531**

Zelinger, F.F.
Modeling frozen ground as an abrasive medium [1974, p.8-11, rus] **34-374**

Studying deformation of frozen peat and grounds under pressure of dies [1980, p.48-52, rus] **34-3592**

Wear of heat-treated steel and alloy cutting tools in frozen peat [1974, p.213-217, rus] **34-396**

Zeller, E.J.
X- or gamma-rays from supernovae in glacial ice [1979, p.701-702, eng] **34-1746**

Zemansky, G.M.
Alaska mining and water quality [1976, 113p., eng] **34-620**

Zemtsov, A.A.
Permafrost and paleogeographic problems of northwestern Siberia [1973, p.157-163, rus] **34-113**

Zenger, E.A.
Electrical grounding at the Ust'-Ilim hydroelectric power plant [1978, p.111-119, rus] **34-2105**

Zenkevich, D.I.
Experience in using radar information in forecasting visibility in snowstorms [1979, p.121-124, rus] **34-2971**

Zerche, M.
Relationship between annual snow water content maxima and elevation in medium high mountains in the German Democratic Republic [1979, p.269-273, rus] **34-2301**

Zernov, S.IA.
Extending the navigation period on Yakutian rivers [1976, p.41-51, rus] **34-33**

Zhakamikhov, Kh.M.
Correct formulation of problems on modeling physical processes and particle distribution in full-scale clouds [1979, p.3-13, rus] **34-2875**

Zharikov, O.N.
Economic effectiveness of turboprop planes used by Yakutian passenger airlines [1976, p.66-76, rus] **34-3343**

Zharov, A.A.
Break-off strength of adfreezing ground [1980, p.178-194, rus] 34-4134
Installation for the measurement of the shear stress of solids at low temperatures and high pressures [1979, p.266-267, eng] 34-983
Relation between shear strength of ground adfreezing and the surface roughness of materials [1979, p.30-39, rus] 34-1536
Zhekamukhov, M.K.
Coagulation growth effect on the freezing of supercooled drops [1979, p.14-22, rus] 34-2876
Correct formulation of problems on modeling physical processes and particle distribution in hail-storm clouds [1979, p.3-13, rus] 34-2875
Zhelezniak, F.A.
Machine for road building and maintenance [1979, p12-14, rus] 34-1944
Zheleznyi, V.I.
Thermal insulation of external walls of buildings [1979, p.4, rus] 34-2703
Zhelukevich, R.B.
Excavators with thermo-mechanical cutting tools [1977, p.86-90, rus] 34-989
Zhestkova, T.N.
Experimental studies of ice formation fields under nonunivariate frost penetration conditions [1979, p.159-167, rus] 34-1924
Freezing of ground under open system conditions [1980, p.164-177, rus] 34-4133
Results of experimental studies of the freezing process in very fine-grained soils [1980, p.119-136, eng] 34-3836
Zhevnovatyi, V.T.
Natural conditions and resources of northern seas [1977, 119p., rus] 34-356
Zhiboedov, P.M.
Correlation between physiological-biochemical indices of woody plants and hydrothermal conditions of media [1976, p.106-118, rus] 34-3614
Zhidkikh, V.M.
Ice regime of pipelines [1979, 131p., rus] 34-2871
Zhidkov, V.A.
Areal distribution of snow reserves over the Polar Urals [1979, p.177-182, rus] 34-3710
Snow survey techniques in mountain glacier basins [1979, p.159-168, rus] 34-2198
Zhigalova, O.P.
Evaluating chemical runoff of some continuous water springs in Central Yakutia [1978, p.163-169, rus] 34-2933
Zhigalovskaia, T.N.
Investigation of aerosol fallout in long-range pollutant transport [1980, p.47-51, rus] 34-3663
Zhikhovich, V.V.
More accurate experimental value of shear strength of grounds [1980, p.21-23, rus] 34-3636
Zhil'tsova, T.A.
Basic factors determining the effectiveness of scrapers designed for frozen and hard grounds [1979, p.54-58, rus] 34-1696
Zhinkin, G.N.
Electrochemical treatment of clay foundations [1980, 164p., rus] 34-3756
Zhirov, V.K.
Correlation between physiological-biochemical indices of woody plants and hydrothermal conditions of media [1976, p.106-118, rus] 34-3614

Experience of the Administration of the Ural State Control Station in using aerial snow survey data [1980, p.65-66, rus] 34-3548

SUBJECT INDEX

Ablation

Snowmelt computations for a high Arctic site. Heron, R., et al, [1978, p.162-172, eng] **34-40**

Numerical simulation of the annual cycle of sea ice in the Arctic and Antarctic. Parkinson, C.L., [1977, 191p., eng] **34-409**

Field experiment on glacier ablation under a layer of debris cover. Fujii, Y., [1977, p.20-21, eng] **34-898**

Some aspects of the ice topography of Trough Lake, southern Victoria Land, Antarctica. Lyon, G.L., [1979, p.281-284, eng] **34-945**

Ablation of an isolated snowdrift Zuzel, J.F., et al, [1979, p.135-143, eng] **34-1013**

Development of the operational snow band SSARR model. Speers, D., et al, [1979, p.369-378, eng] **34-1034**

Volume forecasts using the SSARR model in a zone mode. Kuehl, D.W., [1979, p.39-47, eng] **34-1054**

Snow cover ablation and degree days in the Weissfluhjoch test area. De Quervain, M., [1979, p.215-232, ger] **34-1326**

Mass balance of the Ward Hunt Ice Rise and Ice Shelf: an 18 year record. Serson, H.V., [1979, 14p., eng] **34-2431**

Subdivision of runoff hydrographs from mountain glacier basins. Pylev, I.V., [1979, p.202-206, rus] **34-3140**

Water-ice balance of Spitsbergen glaciers in the 1976-77 balance year. Gus'kov, A.S., [1979, p.211-214, rus] **34-3142**

Abrasion

Low temperature effects on the abrasion behaviour of coated fabrics. Tennyson, R.C., et al, [1977, p.44-59, eng] **34-206**

Working capacity of machines and their resistance to abrasive wear at low temperatures. Koval'chuk, V.A., [1974, p.5-8, rus] **34-373**

Modeling frozen ground as an abrasive medium. Gorbunov, V.F., et al, [1974, p.8-11, rus] **34-374**

Adhesive scattering of energy at the contact. Kashcheev, V.N., et al, [1974, p.11-18, rus] **34-375**

Types of wear at the impact contacts of surfaces. Sorokin, G.M., [1974, p.18-22, rus] **34-376**

Methods of studying abrasion strength of materials at low temperatures. Koval'chuk, V.A., [1974, p.26-27, rus] **34-377**

Abrasive wear at subzero temperatures. Kogan, IU.I., et al, [1974, p.27-31, rus] **34-378**

Increasing resistance of materials to dynamic abrasive wear. Evdokimov, IU.A., et al, [1974, p.48-51, rus] **34-379**

Abrasive strength of technically pure metals at low temperatures. Koval'chuk, V.A., [1974, p.56-60, rus] **34-380**

Effect of deterioration rate on abrasive strength of the steel 110G13L containing admixtures, at room and low temperatures. Glazkov, V.M., et al, [1974, p.65-70. rus] **34-381**

Abrasive strength of instrument steel rubbing or knocking against sand paper at low temperature. Tarasov, G.F., [1974, p.90-98, rus] **34-383**

Wear of steel rubbing against frozen ground. Dorodnyi, V.I., [1974, p.160-164, rus] **34-388**

Abrasive strength of polymers at low temperatures. Koval'chuk, L.P., [1974, p.164-167, rus] **34-389**

Wear of machines working at low temperatures. Kashcheev, V.N., et al, [1974, p.183-188, rus] **34-391**

Studying the process of frozen ground cutting with tools of different shapes. Sokolov, L.K., et al, [1974, p.193-200, rus] **34-392**

Increasing wear resistance of excavator cutting tools in frozen ground. Marchenko, A.I., [1974, p.200-205, rus] **34-393**

Calculating the wear of cutting tools of bucketless trench excavators in frozen ground. Basov, I.G., et al, [1974, p.210-213, rus] **34-395**

Effect of surface-active media on low temperature abrasive wear of metals. Dorodnyi, V.I., [1977, p.26-31, rus] **34-986**

Processes of glacier erosion on different substrata. Boulton, G.S., [1979, p.15-38, eng] **34-2220**

Theoretical model of glacial abrasion. Hallet, B., [1979, p.39-50, eng] **34-2221**

Simulated glacial abrasion. Mathews, W.H., [1979, p.51-56, eng] **34-2222**

Energy dissipation during subglacial abrasion at Nisqually Glacier, Washington, U.S.A. Metcalf, R.C., [1979, p.233-246, eng] **34-2235**

Thermal abrasion of seashores. Are, F.E., [1980, 159p., rus] **34-3071**

Absorption

See: Light transmission; Radiation absorption; Transparence; Turbidity

Accessibility

See: Site accessibility

Accidents

Accidents and damage caused by avalanches. Schild, M., et al, [1979, p.89-152, ger] **34-1707**

Acclimatization

Arctic adaptations in plants. Savile, D.B.O., [1972, 81p., eng] **34-1776**

Plant cold hardiness and freezing stress: mechanisms and crop implications. Li, P.H., ed, [1978, 416p., eng] **34-2426**

See also: Cold tolerance; Introduced plants

Accretion

See: Ice accretion

Accumulation

See: Snow accumulation

Accuracy

Studying errors of precipitation gages in high mountains. Sudakov, P.A., et al, [1979, p.18-27, rus] **34-1972**

Using an infrared radiometer for measuring thermal properties of clouds. Sin'kevich, A.A., [1979, p.105-111, rus] **34-3575**

Acoustic effects

See: Noise (sound)

Acoustic measurement

Investigation of sea-bed scour in the Beaufort Sea. [1971, 29p. + appends., eng] **34-338**

Investigation of sea-bed scouring in the Beaufort Sea (PHASE II). [1973, 27p., eng] **34-575**

Phenomenological description of the acoustic emission response in several polycrystalline materials. St. Lawrence, W., [1979, p.223-228, eng] **34-747**

Applications of the sonic test to experimental freeze-thaw studies in geomorphic research. Fahey, B.D., et al, [1979, p.253-260, eng] **34-1282**

Pingoes and the Northwest Passage. [1974, p.1-4, eng] **34-1986**

Notes on the acquisition of high resolution seismic reflection profiles, side-scanning sonar records, and sediment samples, from lower Cook Inlet and Kodiak Shelf, R/V Sea Sounder cruise S8-78-WG, August 1978. Hampton, M.A., et al, [1979, c60 leaves, eng] **34-2606**

Sound velocity of supercooled water down to -33C using acoustic levitation. Trinh, E., et al, [1980, p.6731-6735, eng] **34-3781**

Ultrasound low power sonar for snow thickness measurements. Caillet, A., et al, [1979, p.108-116, eng] **34-4209**

Acoustics

International Workshop on the Seasonal Sea Ice Zone, Monterey, California, Feb. 26-Mar.1, 1979. Andersen, B.G., ed, [1980, 357p., eng] **34-3624**

See also: Ice acoustics; Snow acoustics; Underwater acoustics

Active layer

Equilibrium model for hummocks (nonsorted circles), Garry Island, Northwest Territories. Mackay, J.R., [1979, p.165-167, eng] **34-287**

Frost heave at ground temperatures below 0C, Inuvik, Northwest Territories. Mackay, J.R., et al, [1979, p.403-405, eng] **34-290**

Factors and forms of cryogenesis in soils of Kazakhstan. Gorbunova, I.A., [1978, p.49-53, rus] **34-339**

Classification of soils in the far northeastern USSR. Ignatenko, I.V., [1979, p.168-176, rus] **34-452**

Thermal regime of water pipelines built in seasonally freezing ground. Pereleshin, R.S., et al, [1974, p.107-210, rus] **34-758**

Problems in swamp hydrology. Novikov, S.M., ed, [1979, 134p., rus] **34-825**

Reliability of experimental determination of basic hydrologic characteristics of swamps. Baliasova, E.L., [1979, p.96-109, rus] **34-833**

Determining the volume of measurements for calculating water permeability of active layers in swamps. Baliasova, E.L., [1979, p.110-115, rus] **34-834**

Human-induced thermokarst at old drill sites in northern Alaska. Lawson, D.E., et al, [1978, p.16-23, eng] **34-872**

Preventing corrosion on Arctic pipelines. Peabody, A.W., [1979, p.28-42, eng] **34-1290**

Investigations of possible correlations of vegetation, substrate, and topography in interior Alaska. Neiland, B.J., [1975, c120 leaves, eng] **34-1357**

Seasonal freezing effect on hydrogeological conditions of the Chul'man Basin. Buldovich, S.N., [1979, p.60-67, rus] **34-1394**

Microbiological characteristics of cryogenic meadow-chernozem soils in the Eravnin Basin, the Buryat Autonomous Republic. Nimaeva, S.Sh., et al, [1979, p.10-17, rus] **34-1439**

Changes in moisture and thermal regimes of cryogenic soils in Central Yakutia during agricultural development. Gavril'ev, P.P., [1979, p.130-147, rus] **34-1520**

Hydrothermal variations in permafrost landscapes. Anisimova, N.P., [1979, p.148-152, rus] **34-1521**

Permafrost classification according to physicomechanical properties for pipeline construction. Maksimiak, R.V., [1979, p.165-172, rus] **34-1550**

Soils of northern Yakutia Elovsk. L.G., et al, [1979, 303p., rus] **34-1652**

Vegetation and revegetation within permafrost terrain. Bliss, L.C., [1979, p.31-50, eng] **34-1681**

Geophysics in the study of permafrost. Scott, W.J., et al, [1979, p.93-115, eng] **34-1682**

Field trip No.5: Northern Quebec—Labrador. Nicholson, F.H., [1979, 96p., eng] **34-1694**

Central taiga soil cover in Eastern Transbaikal. Alifanov, V.M., [1975, p.159-161, rus] **34-1859**

Moisture transfer and ice segregation in the frozen zone of thawing ground. Ershov, E.D., et al, [1979, p.179-192, rus] **34-1926**

Reference manual for construction on permafrost. Antonov, A.F., et al, [1979, 674p., eng] **34-1966**

Hydrothermal melioration of frozen rocks in the Northeastern USSR. Perl'shteln, G.Z., [1979, 304p., rus] **34-2530**

Lithodynamics of river deltas in North Siberia. Korotaev, V.N., et al, [1980, p.138-145, rus] **34-2708**

Peculiarities of gley soils in the Yamal-Gydansk tundra. Tonkonogov, V.D., [1979, p.45-52, rus] **34-2737**

Studying regimes of the Krasnoyarsk forest-steppe soils. Bugakov, P.S., et al, [1979, p.257-267, rus] **34-2745**

Denudation of the eastern Baykal Amur railroad area caused by human activities. Sokol'skil, A.M., [1979, p.159-164, rus] **34-2756**

Origin of massive sand deposits in the Baykal Amur railroad area and their economic development. Shevchenko, V.K., [1979, p.165-169, rus] **34-2757**

Regularities governing the distribution, temperature and thickness of permafrost in the northwestern part of the West Siberian platform. Trofimova, V.T., et al, [1980, p.85-96, rus] **34-2763**

Methods of determining active layer thickness. Vasil'ev, I.S., [1979, p.27-35, rus] **34-2772**

Charts of parameters of heat transfer between soil and atmosphere in winter. Are, A.L., [1979, p.36-46, rus] **34-2773**

Length of ground thawing season in East Yakutia. Vasil'ev, I.S., [1979, p.74-83, rus] **34-2778**

Growth rate of spruces related to the thickness of permafrost active layer near Inuvok, Northwestern Canada. Sakai, A., et al, [1979, p.p.19032, eng] **34-2874**

Oats in the permafrost zone. Denisov, G.V., [1979, 184p., rus] **34-2901**

Morphology and temperature of recent perennially frozen rocks in the shore and shallow-water areas of northern Yenisey and Pyasina rivers. Karpov, E.G., [1978, p.105-114, rus] **34-2927**

Geocryologic characteristics of the central Zyryanka River basin. Vasil'ev, I.S., et al, [1978, p.66-78, rus] **34-2947**

Deformation of ice-wedge polygons, Garry Island, Northwest Territories. Mackay, J.R., [1980, p.287-291, eng] **34-2990**

Maximum heat content of the Barents Sea active layer as an indication of future hydrometeorological processes. Moskal', T.N., [1979, p.66-80, rus] **34-3000**

Construction by the method of stabilizing perennially frozen foundation soils. Porkhaev, G.V., et al, [1980, p.283-296, eng] **34-3252**

Active layer *(cont.)*
Changes in geocryological conditions and permafrost forecasting in areas of mining exploration. Shvetsov, P.F., et al, [1980, p.36-41, rus] 34-3283
Permafrost in the territory of the Boguchansk reservoir. Serov, A.G., et al, [1980, 9p., eng] 34-3392
Geographic studies of soil mantle in the Northern Yenisey River area and the Krasnoyarsk taiga. Korsunov, V.M., et al, [1978, p.5-14, rus] 34-3462
Reconstruction of paleoclimate from present day geothermal data. Balobaev, V.T., [1980, p.1-12, eng] 34-3828
Effect of developing a territory on the heat balance and the thermal and moisture regime of the ground in the northern part of Western Siberia. Moskalenko, N.G., et al, [1980, p.29-44, eng] 34-3830
Geophysical aspects of the development of permafrost. Kudriavtsev, V.A., et al, [1980, p.63-79, eng] 34-3832
Evaluating the depth of seasonal thawing for operating electric power transmission lines. Spesivtsev, V.I., et al, [1980, p.3-10, rus] 34-4034
Summer temperatures of cryosolic soils in the north-central Keewatin, N.W.T. Tarnocai, C., [1980, p.311-327, eng] 34-4070
Methods of studying frozen rock properties during geocryological surveying. Trush, N.I., [1980, p.67-75, rus] 34-4123
Mechanical properties of rocks in the active layer of the "Medvezh'e" area. Vrachev, V.V., et al, [1980, p.201-204, rus] 34-4136

Adhesion
Studies on tensile strength of wet [illegible] Wakamatsu, G., et al, [1979, p.18-22, eng] 34-53
Adhesive scattering of energy at the contact. Kashcheev, V.N., et al, [1974, p.11-18, rus] 34-375
Break-off strength of adfreezing ground. Shusherina, E.P., et al, [1980, p.178-194, rus] 34-4134
See also: Ice adhesion; Ice crystal adhesion

Admixtures
Feasibility of physico-chemical treatment of raw sewage at low temperature. Magsood, R., et al, [1974, p.523-548, eng] 34-1488
Bituminous pavements with antiicing additives. Crottaz, R., et al, [1979, p.442-447, ger] 34-2488
Stabilization of muskeg by chemical treatment. Sethi, A.J., et al, [1978, p.132-150, eng] 34-2912
Chemical composition of snow and ice of the highest Pamir glaciers. Diurgerov, M.B., et al, [1980, p.67-71, rus] 34-3902
See also: Cement admixtures; Concrete admixtures

Adsorption
Calculating the balance of Arctic Ocean pollutants. Izmailov, V.V., et al, [1979, p.486-491, rus] 34-2022

Adventive plants
See: Introduced plants

Aeration
New system for the artificial reduction of the mechanical strength and the heat conductivity of the ice covers of reservoirs. Falko, L.I., [1974, p.346-353, eng] 34-1205

Aerial surveys
Ice island count southern Beaufort Sea 1974. Spedding, L.G., [1975, 14p. + figs. and slides, eng] 34-303
Ice island count southern Beaufort Sea 1975. Spedding, L.G., [1976, 14p. + figs., eng] 34-304
Ice island count southern Beaufort Sea 1976. Spedding, L.G., [1977, 50p., eng] 34-305
Extent and growth pattern of landfast ice in the southern Beaufort Sea—winter 1972-73. Spedding, L.G., [1974, 61p. + append., eng] 34-415
Ice island count, southern Beaufort Sea—1973. Spedding, L.G., [1974, 54p., eng] 34-416
Davis Strait aerial survey 77-1. [1977, 14p. + figs. and tables, eng] 34-425
Ice island count, south Beaufort Sea, 1972. Barton, R., et al, [1972, 11p. + charts and photos., eng] 34-484
Aerial surveys 77-2, 77-3, 77-4. Studies of sea birds and marine mammals in Davis Strait, Hudson Strait and Ungava Bay. [1977, var.p., eng] 34-494
Eastern Arctic area 15- and 30-day ice forecasting guide. Mitchell, P.A., [1979, 259p., eng] 34-509
Microrelief identification criteria of palsa bogs. Novikov, S.M., et al, [1979, p.14-26, rus] 34-827
Optical methods of studying oceans and inland water bodies. Galazii, G.I., ed, [1979, 373p., rus] 34-875
Report of the International Ice Patrol services in the North Atlantic Ocean, season of 1977. Knutson, K.N., et al, [1978, 44p. + append., eng] 34-941
Soil formation in landscapes affected by industrial activities. Trofimov, S.S., ed, [1979, 294p., rus] 34-946
Aerial reconnaissance of landscapes affected by industrial activities. Solntseva, N.P., et al, [1979, p.258-278, rus] 34-956
Usefulness of aerial photography in evaluating lands in the Lake Baykal area of the BAM zone. Parshikov, V.P., [1979, p.278-285, rus] 34-957
History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, [1979, 215p., rus] 34-1067
Modeling lake landscapes of the Selenga River delta, its dynamics and development. Bogoiavlenskii, B.A., [1979, p.105-128, rus] 34-1071
Combined aerial survey of northwestern Siberia. Bogoiavlenskii, B.A., et al, [1979, p.169-192, rus] 34-1074
Aerial gamma s[illegible]ys for determining snow water reserves with unstable snow cover. Vershinina, L.K., [1979, p.68-74, rus] 34-1080
Dynamics of natur[illegible] processes in highlands. Maksimov, E.V., ed, [1977, [illegible]p., rus] 34-1093
Relation between orography and recent glaciation of Zailiyskiy Alatau. Vilesov, E.N., [1977, p.60-76, rus] 34-1094
Glaciology of mountain regions. Suslov, V.F., ed, [1979, 160p., rus] 34-1120
Helicopter gamma-survey of snow cover in West Tien Shan mountains. Getker, M.I., et al, [1979, p.3-14, rus] 34-1121
Reorganization of snow surveying network points in the Central Asian mountains. Getker, M.I., et al, [1979, p.15-23, rus] 34-1122
Avalanche activity in the Kyzylcha River Basin, West Tien Shan. Gapishko, V.G., [1979, p.85-94, rus] 34-1130
Measurement of displacements from aerial photographs. Flotron, A., [1979, p.39-44, ger] 34-1319
Amount of geocryologic information obtained from the SN-6 films used in aerial photography of the Chul'man region. Gavrilov, A.V., [1979, p.141-153, rus] 34-1922
Backscatter measurements of sea ice with a helicopter-borne scatterometer. Patel, J.S., et al, [1979, 120p., eng] 34-1965
Correlation and quantification of airborne spectrometer data to turbidity measurements at Lake Powell, Utah. Merry, C.J., [1970, p.1309-1316, eng] 34-2043
Problems in experimental landscape science. Kraukiis, A.A., [1979, 232p., rus] 34-2103
Hydrogeological surveying in high mountains. Sokolovskii, L.G., et al, [1979, p.43-46, rus] 34-2126
Radar surveying in engineering-geological studies. Valiakh, V.M., et al, [1979, p.45-49, rus] 34-2128
Satellite surveys of snow cover for calculating spring flood hydrographs. Deleur, M.S., [1979, p.146-154, rus] 34-2196
Project SAk '77 summary report. Worsfold, R.D., ed, [1979, 402p., eng] 34-2430
Meteorological sounding of the underlying surface from space. Kondrat'ev, K.IA., ed, [1979, 246p., rus] 34-2475
Peculiarities of forest-swamp ecosystems in West Siberia. Glebov, F.Z., ed, [1978, 159p., rus] 34-2518
Studying the origin and structure of forest-swamp complexes. Glebov, F.Z., et al, [1978, p.14-59, rus] 34-2520
Surveying Columbia Icefield. [1978, p.9-12, eng] 34-2646
Fundamentals of remote sensing methods of measuring water equivalent of snow and soil moisture content from terrestrial gamma radiation. Dmitriev, A.V., et al, [1979, 304p., rus] 34-2687
Operational aerial snow surveying in the United States. Peck, E.L., et al, [1980, p.51-62, eng] 34-2729
Principle and method for measurement of snow water equivalent by detection of natural gamma radiation. Endresen, G.O., [1980, p.77-83, eng] 34-2731
Engineering-geomorphological conditions of the western Baykal Amur railroad area from satellite photographs. Sladkopevtsev, S.A., [1979, p.127-138, rus] 34-2753
Space methods of studying valleys and naleds in the Chul'man region. Topchiev, A.G., [1979, p.169-175, rus] 34-2758
Naleds in the Aldan-Timpton interfluve. Chizhova, N.I., [1980, p.60-63, rus] 34-2801
Aerial photographic surveys of ice cover for hydraulic engineering. Losev, S.M., et al, [1979, p.140-150, rus] 34-3009
New glaciers on the Tel'pos-iz range. Dolgushin, L.D., et al, [1979, p.214-218, rus] 34-3143
Field studies of naleds. Alekseev, V.R., et al, [1980, 152p., rus] 34-3189
Environmental analysis of the Upper Susitna River Basin using Landsat imagery. Gatto, L.W., et al, [1980, 41p., eng] 34-3198
Accuracy of geographic correlation of *Toros* side looking radar photographs. Borisov, R.A., et al, [1977, p.58-64, rus] 34-3308
Studying morphometric characteristics of summer ice cover in Arctic seas. Losev, S.M., et al, [1977, p.92-103, rus] 34-3311
Shifting of ice edges and ice cover boundaries. Gorbunov, IU.A., et al, [1977, p.133-140, rus] 34-3316
Infrared aerial survey in studying natural resources. Shilin, B.V., [1980, 247p., rus] 34-3591
Recording geothermal flow by thermal aerial survey. Shilin, B.V., et al, [1980, p.321-323, rus] 34-3638
Aerial gamma survey of snow cover in mountains. Nikiforov, M.V., [1980, p.77-83, rus] 34-3641
Mapping Alai Range glaciers from photographs taken by the *Soyuz-22* spaceship. Kravtsova, V.I., et al, [1979, p.56-62, rus] 34-3691
Radar sounding of Spitsbergen glaciers from helicopters. Macheret, IU.IA., et al, [1979, p.109-131, rus] 34-3701
Performance of V.H.F. aerials close to a snow surface. Doake, C.S.M., et al, [1979, p.551-553, eng] 34-3792
Use of ice jam typification from aircraft observation data in forecasting maximum stages in the Lena River. Rudnev, A.S., [1978, p.53-56, eng] 34-3964
Joint analysis of satellite and aerial photographs and ground-based measurements for estimating the spatial distribution and temporal variations of snow cover. Kuprianov, V.V., [1978, p.81-88, eng] 34-4057
Discovery of the Tanymas country. Gorbunov, A., [1979, p.97-102, rus] 34-4139
Field experiments on wave-ice interaction in the Bering Sea and Greenland waters, 1979. Wadhams, P., et al, [1980, p.147-153, eng] 34-4186
See also: Infrared reconnaissance; Spaceborne photography

Aerodynamic test facilities

Aerosols
Trace element content of Greenland snows along an east-west transect. Boutron, C., [1979, p.1253-1258, eng] 34-103
Alkali and alkaline earth enrichments in aerosols deposited in antarctic snows. Boutron, C., [1979, p.919-924, eng] 34-731
Compositional difference between Arctic aerosol and snow. Rahn, K.A., et al, [1979, p.479-480, eng] 34-736
Studying atmospheric pollution from glacial deposit analysis. Voronskaia, G.N., et al, [1979, p.146-151, rus] 34-1138
Statistical attenuation characteristics of visible and infrared radiation in a surface layer of the atmosphere. Filippov, V.L., et al, [1979, 17p., eng] 34-1312
Investigation of the effectiveness of the action of the full-scale pyrotechnical ice-forming aerosol generators. Beliaev, S.P., et al, [1979, 23p., eng] 34-1348
Bacterial aerosols from a field source during multiple-sprinkler irrigation: Deer Creek Lake State Park, Ohio. Bausum, H.T., et al, [1979, 64p., eng] 34-1381
Ice nucleation by aerosol particles: experimental studies using a wedge shaped ice thermal diffusion chamber. Schaller, R.C., et al, [1979, p.1788-1802, eng] 34-1382
Laboratory examination of the ice-nucleating ability of AgI-aerosol using a low pressure filter processor. Young, K.C., [1978, 20p., eng] 34-1802
Considerations on the origin and properties of the antarctic aerosol. Shaw, G.E., [1979, p.1983-1998, eng] 34-2372
Studying dust in ice covers and using it in ice age determination. Gordienko, F.G., [1979, p.259-268, rus] 34-3151
Investigation of aerosol fallout in long-range pollutant transport. Zhigalovskaia, T.N., et al, [1980, p.47-51, rus] 34-3663
Ice nucleus and aerosol measurements in the plume of the Johnstown, Pa., steel mill. Schnell, R.C., et al, [1980, p.397-400, eng] 34-3779
Relationships among lead, iodine, trace metals and ice nuclei in a coastal urban atmosphere. Borys, R.D., et al, [1979, p.1490-1494, eng] 34-3996
See also: Smoke generators

Afforestation
See: Revegetation

Age determination
Dynamics of avalanche natural complexes: an example from the high mountain Teberda State Reserve, Caucasus Mountains, USSR. Khapaev, S.A., [1978, p.335-344, eng] 34-799
New dating technique: cyclospectrometry. Yiou, F., et al, [1979, p.1123-1129, fre] 34-2517
Age of rock glaciers in the Altai Mountains. Ivanovskii, L.N., [1977, p.125-137, rus] 34-3606
Workshop on the Status and Future of Ice Core Research and Ice Core Data (Boulder, Colorado, 24-26 September 1979). [1980, p.5-14, eng] 34-4022
See also: Ice dating; Permafrost dating; Radioactive age determination; Soil dating

Aggregates
Evaluation of freeze-thaw durability of stabilized materials. Thompson, M.R., et al, [1976, p.62-70, eng] 34-152
See also: Concrete aggregates

Agriculture
Wastewater helps the barley grow. Day, A.D., et al, [1979, p.26-28, eng] 34-698
Use of sewage effluent for production of agricultural crops. Harvey, C., et al, [1965, 20p., eng] 34-1339
Role of mineral fertilizers in the increase of productivity of cryogenic soils in Eastern Transbaikal. Gershevich, E.G., et al, [1975, p.161-162, rus] 34-1860
Pollution potential of manure spread on frozen ground. Young, R.A., et al, [1976, p.174-179, eng] 34-2045
Plant cold hardiness and freezing stress: mechanisms and crop implications. Li, P.H., ed, [1978, 416p., eng] 34-2426
Far North: nature and man. Prospects of economic development. Kriuchkov, V.V., [1979, 127p., rus] 34-3668

AIDJEX
Sea ice modeling: its testing with LANDSAT and potential use in FGGE. Hall, R.T., et al, [1976, p.104-109, eng] 34-817
Arctic odyssey: five years of data buoys in AIDJEX. Martin, P., et al, [1976, p.328-334, eng] 34-821

Air conditioning
Energy efficiency through ice storage. Stubblefield, R.R., [1979, p.43-47, eng] 34-1644

Air cushion vehicles
Snow collection by possible high speed guidway sections. Ringer, T.R., et al, [1979, p.318-327, eng] 34-99
Proceedings. [1977, 179p., eng] 34-204
Progress report on air cushion technology in Canada 1975/76. Fowler, H.S., [1977, p.7-9, eng] 34-205
Low temperature effects on the abrasion behaviour of coated fabrics. Tennyson, R.C., et al, [1977, p.44-59, eng] 34-206
Requirements for the La Crete ferry—an A.C.V. proposal. Rogers, A.R., [1977, p.66-73, eng] 34-207
Continuing advances with air cushion icebreaking. Ball, M.A., [1977, p.105-132, eng] 34-208
High-speed method of air cushion icebreaking. Robertson, B.W., [1977, p.133-140, eng] 34-209
Economic and social aspects of icebreaking on the St. Lawrence seaway. Hall, T.N., [1977, p.141-146, eng] 34-210
Yukon ferry operation. Ireland, J.E., [1977, p.176-179, eng] 34-211
Air cushion vehicle. Evans, C.G., [1977, 6 col., eng] 34-259
Surface effects air vehicle. Veldhuizen, J.V., [1978, 8 col., eng] 34-282
Special means of transportation on land in West Siberia. Vladimirskiĭ, A.B., et al, [1979, p.4-7, rus] 34-403
Report on Phase I of pressure ridge and ice island study: evaluation of hovercraft and ice reconnaissance. Hnatiuk, J., [1971, 5p., eng] 34-561
Flying on a wheel. Pikul', V., [1979, p.26-28, rus] 34-803
Designing high capacity vehicles for cross-country travel in the North. Korsak, V.K., [1979, p.59-73, rus] 34-1626
Using aircraft in cargo transportation. Lapin, M.S., [1979, p.92-98, rus] 34-1629
Passanger transport in northern population resettlement systems. Belinskiĭ, A.IU., [1979, p.98-105, rus] 34-1630
Trends in transportation development in northern Canada. Cherkasov, A.I., [1979, p.118-130, rus] 34-1634
Use of air cushion vehicles in northern Canada. Mikhallov, V.V., et al, [1979, p.130-136, rus] 34-1635
Discussion of scientific and economic problems of northern development. Glabina, N.K., et al, [1979, p.137-146, rus] 34-1636
Air cushion vehicles on land. Mikhallov, V.V., et al, [1979, p.24-26, rus] 34-2087
Selecting propulsion gear for all terrain vehicles. El'tes, M.I., et al, [1979, p.6-7, rus] 34-2090
Using air cushion vehicles. Mikhallov, V.V., [1979, p.30-31, rus] 34-2091
Air cushion vehicles in forestry. Mikhallov, V.V., [1979, p.27, rus] 34-2093
Air cushion vehicle (ACV) icebreaker test and evaluation program. Volume I. Executive summary. Buck, J., et al, [1978, 39p., eng] 34-2277
Air cushion vehicle (ACV) icebreaker test and evaluation program. Volume 2. Operational and engineering analysis. Buck, J., et al, [1978, 156p., eng] 34-2278
XV 859; the Falkland Island craft. Russell, B.J., [1978, p.13-17, eng] 34-2373
Technical and economic studies of amphibian air cushion transshipment vehicles. Milovanov, E.V., et al, [1979, p.82-89, rus] 34-3470
Evaluating ice breaking qualities of air cushion ships. Simonov, IU.A., et al, [1979, p.105-110, rus] 34-3471

Air entrainment
Optimal composition of complex powder admixtures for concretes. Gen', O.P., et al, [1977, p.45-50, rus] 34-350
Preservation of reinforcement in haydite concretes containing air entrainment admixtures. Stepanova, V.F., [1977, p.71-76, rus] 34-352
Further field investigation on aerated lagoons in the city of Winnipeg. Girling, R.M., et al, [1974, p.99-124, eng] 34-1471
Effects of water temperature and elevation on aeration. Hunter, J.S., et al, [1974, p.125-169, eng] 34-1472
Diffusion systems for cold climate lagoons. Christianson, C.D., et al, [1974, p.170-206, eng] 34-1473
Waste treatment performance data at Prince Albert Pulp Company. Aschim, O.K., [1974, p.207-219, eng] 34-1474
Surface aeration of domestic wastes, Section 1: the Bonnybrook Sewage Treatment Plant. Meckelborg, E.I., [1974, p.220-229, eng] 34-1475
Bio-processes of the oxidation ditch in a sub-arctic climate. Murphy, R.S., et al, [1974, p.332-357, eng] 34-1481
Determining frost resistance of concrete from the compensation factor. Shlaen, A.G., [1979, p.37-38, rus] 34-1568
Synopsis—ice in estuaries and harbours. Carstens, T., [1979, p.1-30, eng] 34-1959
Experiment planning technique used for determining optimal compositions of combined admixtures for concretes. Grushko, I.M., et al, [1980, p.72-75, rus] 34-3594
Frost resistant concretes with combined structure-modifying admixtures. Gen', O.P., [1980, p.58-61, rus] 34-3637

Air flow
Numerical simulation of jet roof geometry for snow cornice control. Dawson, K.L., et al, [1979, 19p., eng] 34-778
Heat loss through open doors. Johnson, P., [1978, p.4-8, eng] 34-868

Air ice interface
See: Ice air interface

Air inflated structures
See: Inflatable structures

Air pollution
Environmental quality conditions in Fairbanks, Alaska, 1972. Pearson, R.W., et al, [1976, 63p. + append., eng] 34-619
Atmospheric carbon monoxide model for Fairbanks, Alaska. Carlson, R.F., [1976, 47p. + append., eng] 34-621
Evaluation of automotive engine preheaters as a technique to control cold start carbon monoxide emissions—a final report. Leonard, L.E., et al, [1978, 76p., eng] 34-842
Carbon monoxide emissions from moving vehicles in Fairbanks, Alaska. Leonard, L.E., [1977, 45p., eng] 34-843
Studying atmospheric pollution from glacial deposit analysis. Voronskaia, G.N., et al, [1979, p.146-151, rus] 34-1138
Study of winter air pollutants at Fairbanks, Alaska. Coutts, H.J., [1979, 62p., eng] 34-1144
Alaska's weather and climate: a collection of articles written for the educated layman by staff members of the Geophysical Institute and the National Weather Service in Alaska. Wendler, G., ed, [1979, 153p., eng] 34-1302
Air pollution in Alaska. Benson, C.S., et al, [1979, p.94-113, eng] 34-1309
Arctic haze. Shaw, G.E., [1979, p.114-127, eng] 34-1310
Mapping the use of restockable natural resources for geographic forecasting. Vorob'eva, T.A., et al, [1978, p.132-139, rus] 34-2537
Mining and the environment. Moisinets, V.N., et al, [1978, 191p., rus] 34-2808
Investigation of aerosol fallout in long-range pollutant transport. Zhigalovskaia, T.N., et al, [1980, p.47-51, rus] 34-3663
Formulating mathematical models for studying the effects of human activity on the atmosphere in industrial regions. Marchuk, G.I., et al, [1979, p.28-37, rus] 34-4167
Present state and prospects for studying protection of marine environments in the Arctic. Treshnikov, A.F., [1979, p.38-45, rus] 34-4168

Air snow interface
See: Snow air interface

Air soil interface
See: Soil air interface

Air temperature
Certain characteristics of the atmospheric surface layer above snow. Elagina, L.G., et al, [1979, p.652-655, eng] 34-121
Thermal equilibrium in the upper layer of the earth's crust. Pavlov, A.V., [1979, p.5-10, rus] 34-123
Variations of heat transfer between soil and atmosphere induced by engineering activities in tundra regions. Pavlov, A.V., et al, [1979, p.12-22, rus] 34-124
Landfast ice movement—Mackenzie Delta 1972-73. Spedding, L.G., [1973, 122p. + figs., eng] 34-480
Landfast ice movement—Mackenzie Delta 1972. Crosadale, K.R., et al, [1972, 104p., eng] 34-876
Relationships of soil acidity and air temperature to the wind and vegetation at Prudhoe Bay, Alaska. Walker, D.A., et al, [1979, p.224-236, eng] 34-688
Variations in summer temperature patterns near Barrow, Alaska: analysis and ecological interpretation. Myers, J.P., et al, [1979, p.131-144, eng] 34-1277
Effects of freezing temperatures and frozen ground conditions on enclosed wire in tube response. Miller, C.A., [1979, 45p., eng] 34-1360
Microclimate of the Vilyuy reservoir in the area adjacent to the dam. Olovin, B.A., [1979, p.124-129, rus] 34-1519
Recent-year-to-year variations in seasonal temperatures and sea ice conditions in the eastern Canadian Arctic. Jacobs, J.D., et al, [1979, p.345-354, eng] 34-1617
Experimental research on an embankment at the lower limit of alpine permafrost. Kuo-tung, C., et al, [1979, p.199-222, eng] 34-1689
Cooling of the Arctic. Zakharov, V.F., [1979, p.13-22, eng] 34-1886
Dependence of Aktru glacier ablation on positive air temperature. Dushkin, M.A., et al, [1967, p.22-41, rus] 34-1990
Vertical air temperature gradients in the Pamirs. Davidovich, N.V., [1979, p.56-61, rus] 34-2181
Thermal climate regime on road and ground surface. Heiersted, R.S., [1979, p.497-509, eng] 34-2350
Ice regime and severity of winters on the Aral Sea. Temnikov, S.N., [1979, p.75-81, rus] 34-2415
Ice conditions in areas adjacent to the North Atlantic Ocean from July to September 1979. [1980, p.42-46, eng] 34-2788
Atmospheric processes and characteristics of underlying surfaces during the period preceding the formation of temperature anomalies. [1979, p.12-23, rus] 34-2965
Synoptic conditions and the formation of major mean monthly air temperature anomalies in West Siberia. Zubovich, M.G., et al, [1979, p.24-36, rus] 34-2966
Long range background forecasts of mean monthly air temperature anomalies in West Siberia. IAgudin, R.A., [1979, p.44-50, rus] 34-2967
Ten-day forecasts of mean air temperature anomalies for West and East Siberia, Ural Mountains and North Kazakhstan. Khramtsova, I.G., et al, [1979, p.51-55, rus] 34-2968
Forecasting surface wind velocities in the Krasnoyarsk area. Zalizniak, E.L., [1979, p.114-120, rus] 34-2970
Dependence of summer air temperature above the Laptev, East Siberian and Chukchi seas on ice conditions and atmospheric circulation. Teltel'baum, K.A., [1979, p.81-90, rus] 34-3001
Oceanographic characteristics in the Caspian Sea near the ice edge. Kosarev, A.N., et al, [1979, p.170-180, rus] 34-3185
Snow physics, avalanches, mudflows. Zalikhanov, M.Ch., ed, [1980, 160p., rus] 34-3411
Snow cover development and its dependence on winter temperature and slope exposition in the El'brus Mountain area. Kuzeva, G.M., et al, [1980, p.3-12, rus] 34-3412
Mechanism of a delay in melting away of a snow cover in an area with low air temperature and deep snow (the Uryu Valley) in Hokkaido. Kojima, K., et al, [1979, p.93-111, jap] 34-3495
Temperature perturbation in stable layer above a snow surface. Ishikawa, N., [1979, p.179-182, jap] 34-3504
Errors occurring in extrapolating the air temperature-wind velocity complex over the open sea area of the shelf. Borisenko, M.M., et al, [1979, p.76-78, rus] 34-3580
Relations between wind velocity and air temperature in Siberia. Drobyshev, A.D., [1979, p.79-89, rus] 34-3581
Snow depth used as a predictor in forecasting mean monthly air temperature anomalies over southern West Siberia. Eremin, V.V., et al, [1979, p.125-129, rus] 34-3582
Performance of V.H.F. aerials close to a snow surface. Doake, C.S.M., et al, [1979, p.551-553, eng] 34-3792
Conditions and geothermal consequences of the moisture exchange between the lithosphere and the atmosphere in permafrost regions. Shvetsov, P.F., [1980, p.109-117, eng] 34-3835
Experimental studies and determination of equivalent ambient air temperature for technical design of windows. Grigor'ev, P.IA., et al, [1978, p.111-115, rus] 34-3914
Keeping it cool with liquid nitrogen. [1980, p.606, 609, eng] 34-3997
Modeling productivity and frost hardiness of plants. Kurets, V.K., et al, [1979, 15p., rus] 34-4012
Life in the tundra. Chernov, IU.I., [1980, 236p., rus] 34-4015
Forecasts and calculations of hydrometeorological elements of northern seas. Terziev, F.S., ed, [1980, 140p., rus] 34-4176
Results of scientific investigations of the Murmansk branch of the Arctic and Antarctic Scientific Research Institute during 1972-1976. Terziev, F.S., [1980, p.6-12, rus] 34-4177

Air water interactions
Determining surface temperature gradient at the liquid phase boundary of the sea-atmosphere system. Mel'nikov, G.S., et al, [1979, p.212-219, rus] 34-877
Apparatus for studying radiation temperature at the ocean surface. Novogrudskiĭ, B.V., et al, [1979, p.241-245, rus] 34-879
Thermal regime of the World Ocean during the last glaciation maximum. Kagan, B.A., et al, [1979, p.716-720, rus] 34-2116
Heat content distribution in the active layer of the Barents Sea in August. Moskal', T.N., [1979, p.109-116, rus] 34-3004
Overview (International Workshop on the Seasonal Sea Ice Zone). Weeks, W.F., [1980, p.1-35, eng] 34-3625
Polar atmosphere-ice-ocean processes: a review of polar problems in climate research. [1980, p.525-543, eng] 34-3633

Airborne equipment
Arctic lead-airdrop data buoy. Buck, B.M., et al, [1979, 22p., eng] 34-1044
Collection and measurement efficiencies of the EWER cloud water meter for hydrometeors. Norment, H.G., [1979, 39p., eng] 34-1352
Airflow effects on riming measurements by a wing tip-mounted detector on MC130E research airplane. Norment, H.G., [1979, 40p., eng] 34-2370
Meteorological sounding of the underlying surface from space. Kondrat'ev, K.IA., ed, [1979, 246p., rus] 34-2475
Fundamentals of remote sensing methods of measuring water equivalent of snow and soil moisture content from terrestrial gamma radiation. Dmitriev, A.V., et al, [1979, 304p., rus] 34-2687
Water surface temperature in the eastern Arctic seas in 1974 from airborne infrared radiometer readings Arikainen, A.I., et al, [1979, p.91-99, rus] 34-3002

Airborne equipment *(cont.)*

Airborne laboratory for studying White Sea ice. Kurskaia, A.A., [1977, p.122-126, rus] **34-3314**

Studying grounded ice hummocks from aerial photographs. Losev, S.M., et al, [1977, p.127-132, rus] **34-3315**

Airborne gamma survey of soil moisture and snow cover. Nikiforov, M.V., ed, [1980, 128p., rus] **34-3541**

Introduction and development of airborne gamma surveying of snow cover and soil moisture. Bochin, N.A., [1980, p.3-5, rus] **34-3542**

Present state of airborne gamma surveys of snow cover and soil moisture. Nikiforov, M.V., [1980, p.6-27, rus] **34-3543**

Experience in conducting airborne snow surveys over the European USSR. Stroganov, A.N., [1980, p.28-45, rus] **34-3544**

Industrial application of airborne gamma surveying of snow cover in the Asiatic USSR. Markhevskaia, A.A., [1980, p.46-54, rus] **34-3545**

Using airborne snow survey data in compiling hydrologic forecasts. Dement'ev, N.F., [1980, p.55-60, rus] **34-3546**

Experience of the Administration of the Northern State Control Station in using results of airborne snow surveys. Chuvakina, Z.M., [1980, p.61-64, rus] **34-3547**

Experience of the Administration of the Ural State Control Station in using aerial snow survey data. Zykova, V.A., [1980, p.65-66, rus] **34-3548**

Some results of experimental gamma surveys of snow cover in mountains. Getker, M.I., et al, [1980, p.67-72, rus] **34-3549**

Instruments for aerial gamma survey of snow cover and soil moisture. Bogachev, A.D., et al, [1980, p.73-76, rus] **34-3550**

Determining snow depth on winter crop fields from aerial gamma survey data. Shilin, G.V., [1980, p.77-93, rus] **34-3551**

Space-time variations of snow density on fields in the European USSR. Shurupova, A.I., [1980, p.102-107, rus] **34-3553**

Airborne gamma surveys of soil moisture in agricultural fields. Andreev, F.A., et al, [1980, p.108-116, rus] **34-3554**

Variation of sea surface temperature (from airborne radiation measurements). Gorbunov, IU.A., et al, [1979, p.47-54, rus] **34-3588**

Recording geothermal flow by thermal aerial survey. Shilin, B.V., et al, [1980, p.321-323, rus] **34-3638**

Airborne UHF radio echo-sounding of three Yukon glaciers. Nirod, B.B., et al, [1980, p.23-31, eng] **34-3795**

Airborne radar

Remote estimation of the properties of sea ice, Beaufort Sea field trip report. March 1979. Rossiter, J.R., et al, [1979, 35p., eng] **34-19**

Natural conditions and resources of northern seas. Zhevnovatyi V.T., ed, [1977, 119p., rus] **34-356**

Using the "Toros" side-looking radar in studying ice drift in the southeastern Barents Sea. Zubakin, G.K., et al, [1977, p.83-89, rus] **34-358**

Air- and spaceborne remote sensing in hydrogeology and engineering geology. Sadov, A.V., et al, [1979, 223p., rus] **34-1225**

Radar surveying in engineering-geological studies. Valiakh, V.M., et al, [1979, p.45-49, rus] **34-2128**

Radar sounding of Spitsbergen glaciers from helicopters. Macheret, IU.IA., et al, [1979, p.109-131, rus] **34-3701**

Computerized solution of two-dimensional inverse problems of radar surveys of ice thickness and subglacial relief of mountain glaciers. Berikashvili, V.Sh., et al, [1979, p.131-139, rus] **34-3703**

Determining mountain glacier volumes from helicopter radar survey data. Zhuravlev, A.B., [1979, p.140-148, rus] **34-3704**

Use of radar to measure ice thickness in rivers, lakes, and reservoirs. Chizhov, A.N., et al, [1978, p.116-127, eng] **34-4058**

Aircraft

See: Airplanes

Aircraft icing

Studies related to removal of snow and ice from transportation facilities. Ringer, T.R., [1979, p.6-8, eng] **34-51**

Microwave ice detector. Magenheim, B., [1977, 6 col., eng] **34-150**

Committee on Icing Forecasts of the Aircraft Icing Specialists Workshop, 19-21 July 1978, Lewis Research Center, NASA, Cleveland, Ohio. Hilsenrod, A., et al, [1979, p.796-799, eng] **34-652**

Helicopter icing handling qualities. Griffith, W.E., II, et al, [1974, 9p., eng] **34-734**

Methods for prediction of the influence of ice on aircraft flying characteristics. Ingelman-Sundberg, M., et al, [1977, 44p., eng] **34-773**

Frost formation on an airfoil: a mathematical model. I. Dietenberger, M., et al, [1979, 80p., eng] **34-1114**

Systems for combatting aircraft icing. Dabrowski, K., [1978, 16p., eng] **34-1176**

Rotor ice protection systems. Shepherd, D.R., [1976, 19p., eng] **34-1297**

Icing tests of a UH-1H helicopter with an electrothermal ice protection system under simulated and natural icing conditions. Cotton, R.H., [1979, 81p., eng] **34-1570**

Icing of an unheated non-rotating cylinder in liquid water droplet-ice crystal clouds. Lozowski, E.P., et al, [1979, 66p. + figures, eng] **34-1739**

Mathematical problem of selecting pipeline diameters for aircraft deicing systems. IAlovkin, B.D., et al, [1979, p.76-81, rus] **34-2023**

Aircraft icing during low-level flights. Rapp, R.R., [1979, 18p., eng] **34-2280**

Gamma dose rate test report for subsystem level evaluation of the ice detector B-1 program. Richardson, T.D., [1977, 28p., eng] **34-2366**

Airflow effects on riming measurements by a wing tip-mounted detector on MC130E research airplane. Norment, H.G., [1979, 40p., eng] **34-2370**

Icing nozzle element optimization test, January 1979. Delgado, L.V., [1979, 370p., eng] **34-3083**

Helicopter icing spray system. Belte, D., [1980, 13p., eng] **34-3726**

Cloud icing visibility analysis systems (CIVAS) and forecast development plan. Mount, W.D., et al, [1980, 64p., eng] **34-3998**

Winter flying package: 3. Icing is for cakes, not carbs. Bramson, A., [1978, p.27-29, eng] **34-4064**

Aircraft landing areas

Toilet paper and tundra. Grant, R., [1979, p.47-49, eng] **34-274**

Design and construction of temporary airfields in the National Petroleum Reserve, Alaska. Crory, F.E., [1978, p.13-15, eng] **34-871**

Use of ice as an airstrip in the Thelon River valley by the Canadian Armed Forces. McCutcheon, D.M., [1979, p.224-231, eng] **34-933**

Traffic tests of expedient airfield construction concepts for possible application in the National Petroleum Reserve, Alaska. Burns, C.D., [1979, 138p., eng] **34-1361**

Aircraft rolling resistance in loose dry snow: a theoretical analysis. Lidström, M., [1979, 30p., eng] **34-1564**

Resistance of porous asphalt and antihydroplaning surfaces to environmental effects and simulated aircraft wheel loadings. Hargett, E., [1974, 56p., eng] **34-2632**

See also: Ice runways; Runways

Airplanes

Ice islands of the Arctic, Alaskan Air Command's Arctic experience. Wise, M.L., [1979, 118p., eng] **34-1315**

Aircraft rolling resistance in loose dry snow, a theoretical analysis. Lidström, M., [1979, 30p., eng] **34-1564**

Transportation, a key issue in the development of productive forces in the North. Nekrasov, N.N., [1979, p.5-13, rus] **34-1620**

Air navigation in industrial construction of the North. Gromov, N.N., et al, [1979, p.84-92, rus] **34-1628**

Using aircraft in cargo transportation. Lapin, M.S., [1979, p.92-98, rus] **34-1629**

Passanger transport in northern population resettlement systems. Belinskii, A.IU., [1979, p.98-105, rus] **34-1630**

Trends in transportation development in northern Canada. Cherkasov, A.I., [1979, p.118-130, rus] **34-1634**

Preliminary measurements of snow concentration. Stallabrass, J.R., [1972, 48 leaves, eng] **34-2400**

Arctic flying. Buck, B.M., et al, [1979, 199p., eng] **34-2987**

Operation of the CRREL prototype air transportable shelter. Flanders, S.N., [1980, 73p., eng] **34-3331**

Transportation under economic and geographic conditions of the Yakut ASSR. Belinskii, B.V., ed, [1976, 104p., rus] **34-3337**

Economic effectiveness of turboprop planes used by Yakutian passenger airlines. Zharikov, O.N., et al, [1976, p.66-76, rus] **34-3343**

Cargo to the north by transport planes. Chudnovskii, A., [1978, p.8-10, rus] **34-3900**

Transport planes in the economic development of northern USA and Canada. Chudnovskii, A., [1978, p.44-47, rus] **34-3901**

Winter flying package: 1. Ultimate winter enjoyment. Mackie, D., et al, [1978, p.22-25, eng] **34-4062**

Winter flying package: 2. Tips for flying in cold and snow. Gallagher, J.D., [1978, p.26-27, eng] **34-4063**

Airports

Snow removal and ice control standards at Canadian airports. Levitsky, W.V., [1979, p.79-81, eng] **34-63**

Meteorological visibility range of 4 km and less at airports of West Siberia. Martem'ianova, E.S., [1973, p.243-250, rus] **34-114**

Operation of airports. Maintenance and repairs. Manual. Goretskii, I.I., et al, [1979, 215p., rus] **34-769**

Traffic tests of expedient airfield construction concepts for possible application in the National Petroleum Reserve, Alaska. Burns, C.D., [1979, 138p., eng] **34-1361**

Analysis of airport snow removal and ice control. Tighe, D.J., et al, [1971, 220p., eng] **34-2508**

Surface-active admixtures for concretes of airport pavement plates. Saf'ianova, N.E., et al, [1980, p.23-24, rus] **34-2588**

Synoptic-statistical method of fog forecasting for West Siberian airports. IArkova, V.M., [1979, p.107-113, rus] **34-2969**

Airships

Development of transportation in oil and gas producing areas of Siberia and the North. Chevardov, S.I., [1979, p.2-4, rus] **34-402**

Aircraft for transporting large-size and heavy cargo. Mostovoi, IU.S., [1979, p.8-9, rus] **34-405**

Promising type of industrial transportation. Broude, B.G., [1979, p.10-12, rus] **34-406**

What can dirigibles do. Sedykh, K.G., [1979, p.12-14, rus] **34-407**

Alassy

Soil zones of Central Yakutia. Konorovskii, A.K., [1979, p.176-183, rus] **34-453**

Melioration and regionalization of cryogenic soils in Yakutia. Elovskaia, I.G., et al, [1978, 175p., rus] **34-1648**

Structure and absolute geochronology of alassy deposits in Central Yakutia. Katasonov, E.M., ed, [1979, 95p., rus] **34-1931**

Geocryologic and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, [1978, 187p., rus] **34-2915**

Lithologic and palynologic characteristics of alassy deposits in Central Yakutia. Bosikov, N.P., et al, [1978, p.66-79, rus] **34-2923**

Geocryological conditions in Asian mountains and plains. Nekrasov, I.A., ed, [1978, 164p., rus] **34-2938**

Alassy of Central Yakutia. Bosikov, N.P., [1978, p.113-118, rus] **34-2951**

Ice wedges in the alassy of Central Yakutia. Bosikov, N.P., [1978, p.119-122, rus] **34-2952**

Cyclic nature of thermokarst on the Maritime Plain in the Upper Pleistocene and Holocene. Gravis, G.F., [1980, p.245-25., eng] **34-3844**

Environmental protection in Yakutia. Andreev, V.N., ed, [1979, 181p., rus] **34-4106**

Development of vegetation at the bottom of drained thermokarst lakes in subarctic tundra. Galaktionova, T.F., [1979, p.48-50, rus] **34-4110**

Albedo

Proceedings of the Scientific Conference on Altai Glaciology Problems. [1963, 259p., rus] **34-106**

Causes of changes in glacier melting. Drozdov, O.A., et al, [1973, p.21-27, rus] **34-107**

Solar and net radiation over snow. Petzold, D.E., [1974, 77p., eng] **34-132**

Effects of ice thickness on the exchange of solar radiation over the polar oceans. Grenfell, T.C., [1979, p.305-320, eng] **34-545**

Diurnal variations of spectral brightness of a cloud layer. Kozhaev, D.A., [1979, p.94-100, rus] **34-614**

Development of hydro-optical studies of the Lake Baykal. Sherstiankin, P.P., [1979, p.16-27, rus] **34-876**

Energy mass fluxes at the snow surface in a prairie environment. Male, D.H., et al, [1979, p.101-124, eng] **34-1011**

Solar altitude effects on ice albedo. Bolsenga, S.J., [1979, 43p., eng] **34-1732**

CO2-climate sensitivity study with a mathematical model of the global climate. Manabe, S., et al, [1979, p.491-493, eng] **34-1761**

Calculating the balance of Arctic Ocean pollutants. Izmailov, V.V., et al, [1979, p.486-491, rus] **34-2022**

Space techniques of studying snow cover of the Earth. Deleur, M.S., [1980, 77p., rus] **34-2601**

Annual cycle of surface albedo. Kukla, G., et al, [1980, p.56-68, eng] **34-2787**

Melting and runoff in glaciated areas. Konovalov, V.G., [1979, p.51-63, rus] **34-2882**

Effect of ice-albedo feedback on global sensitivity in a one-dimensional radiative-convective climate model. Wang, W.-C., et al, [1980, p.545-552, eng] **34-3087**

Seasonal cycle of snow cover, sea ice and surface albedo. Robock, A., [1980, p.267-285, eng] **34-3201**

Snow cover effect on annual variations of reflected radiation and albedo in the Caucasus. Samukashvili, R.D., [1980, p.111-122, rus] **34-3426**

Experimental evaluation of polarization coefficients of light reflected from snow surfaces. Mel'kher, A.N., et al, [1979, p.113-116, rus] **34-3613**

Regularities governing the development of the topography and glaciers of Tien Shan. Zabirov, R.D., ed, [1980, 110p., rus] **34-4004**

Variations of glacier surface albedo during summer. Dikikh, L.I., [1980, p.48-57, rus] **34-4007**

Algae

Antarctic fast-ice food chain: observations on the interaction of amphipod *Pontogeneia antarctica* Chevreux with ice-associated micro-algae. Richardson, M.G., et al, [1979, p.106-115, eng] **34-13**

Biogeochemistry of deep lakes in the central Alaskan Range. LaPerriere, J., et al, [1976, 35p., eng] **34-643**

Effect of Prudhoe crude oil on carbon assimilation by planktonic algae in an Arctic pond. Miller, M.C., et al, [1978, p.833-850, eng] **34-912**

Flora and fauna of water bodies in the European North (Bol'shezemel'skaya Tundra taken as an example). Getsen, M.V., ed, [1978, 191p., rus] **34-1191**

Limnology of subarctic Canadian lakes and some effects of impoundment. Duthie, H.C., [1979, p.145-158, eng] **34-1278**

Drainage effect on algoflora of mesotrophic bogs. Antipina, G.S., [1979, p.1285-1295, rus] **34-1449**

Phosphorus removal by lime addition to conventional anaerobic stabilization facility. Lechner, L.J., et al, [1974, p.570-586, eng] 34-1490
Microscopic algae in Davis Sea fast ice. Bulnitskii, V.Kh., et al, [1979, p.126-137, eng] 34-1895
Microbiological studies of the central antarctic ice sheet. Abyzov, S.S., et al, [1979, p.828-836, rus] 34-2290
Mechanism of winter blooming of microalgae in Peter the Great Bay (Sea of Japan). Vyshkvartsev, D.I., et al, [1979, p.53-54, eng] 34-2401
Influence of human factors on phytoplankton and water quality of the Angara River. Kozhova, O.M., et al, [1980, p.61-66, rus] 34-2707
Diatomaceous algae of fresh-water bodies on the Chukotskiy Peninsula. Kharitonov, V.G., [1978, p.118-121, rus] 34-3510
Interrelationships between the seasonal sea ice and biological regimes. Alexander, V., [1980, p.157-184, eng] 34-3629
Standing crops and species composition of diatoms in sea ice from Robeson Channel to the Gulf of St. Lawrence. Dunbar, M.J., et al, [1980, p.61-72, eng] 34-4243

Alimentation

Glacial component in the total discharge of high mountain rivers in the Gara-Auzusu Gorge and ablation of the Kulak-Chegemschimar glacier. Samukashvili, R.D., [1979, p.87-93, rus] 34-613
Clearing Alaskan water supply impoundments: literature review. Justice, S.R., et al, [1976, 96p., eng] 34-642
Dynamics of natural processes in highlands. Maksimov, E.V., ed, [1977, 131p., rus] 34-1093
Hydraulic regime of glacial rivers and the controlling role of glaciers. Sokolov, D.P., [1977, p.77-83, rus] 34-1095
Electromagnetic radiation of snow and ice during dynamic processes. Kachurin, L.G., et al, [1979, p.583-585, rus] 34-1638
Distribution of atmospheric precipitation on northern slopes of the Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskii, I.V., [1979, p.37-46, rus] 34-1974
Ice and meteorological regimes, mass balance and drainage from mountain glaciers of the Tuiuksu Basin. Makarevich, K.G., et al, [1979, p.96-109, rus] 34-1978
Surface kinematics of a mountain valley glacier. Makarevich, A.K., [1979, p.120-124, rus] 34-1980
Direct determination of the velocity of glacier ice movement at the surface. Makarevich, K.G., et al, [1979, p.125-131, rus] 34-1981
Summary of theoretical results of glaciological investigations in the Altais. Tronov, M.V., [1967, p.3-15, rus] 34-1988
Mass balance of some Bish-Iirdu glaciers. Okishev, P.A., [1967, p.16-21, rus] 34-1989
Role of firn field ablation in the Bish-Iirdu Mountains in the Aktru River's alimentation. Ivanov, N.I., [1967, p.227-246, rus] 34-1995
Soviet glaciological investigations in 1978. Kotliakov, V.M., et al, [1979, p.5-12, rus] 34-2174
Glacial-nival systems of the Pamirs and Gissar-Alay. Kotliakov, V.M., et al, [1979, p.25-33, rus] 34-2177
Plotting elevations of the alimentation and accumulation lines for Gissar-Alay glaciers. Rototaeva, O.V., [1979, p.42-51, rus] 34-2179
Data on glaciological processes in the recrystallization zone of ice formation in highlands. Diurgerov, M.B., [1979, p.52-56, rus] 34-2180
Mineralization of glacial rivers in the Pamirs. Krenke, A.N., et al, [1979, p.67-70, rus] 34-2183
Geological action of glaciers in the Eastern Pamirs. Demchenko, V.V., [1979, p.81-85, rus] 34-2186
Role of Kamchatka glaciers in river alimentation and the formation of solid runoff. Stepanova, A.I., [1979, p.110-116, rus] 34-2897
Regime, balance and peculiarities of talik alimentation in Central Yakutian sandstone. Shepelev, V.V., [1978, p.145-162, rus] 34-2932
Seasonal moisture exchange dynamics between ground waters and the aeration zone of Kulunda Steppe. Sen'kov, A.A., [1979, p.183-190, rus] 34-3082
Glaciological studies on Tadzhikistan glaciers. Sannikov, A.G., et al, [1979, p.150-155, rus] 34-3131
Naleds in Central Asian and Kazakhstan mountains. Gorbunov, A.P., et al, [1979, p.175-181, rus] 34-3136
Snow patch stability in the Aktru River glaciation basin. Dudukalova, N.I., [1977, p.103-106, rus] 34-3384
Snow density variations over ice covers. Tsurikov, V.L., [1979, p.155-161, rus] 34-3706
See also: Glacier alimentation

All terrain vehicles

Propelling devices for all-terrain vehicles. Gorbeshko, M.V., et al, [1979, p.7, rus] 34-404
Preliminary Arctic engineering study of surface transport vehicles. Rymes (J.E.) Engineering, Ltd., [1970, c270p., eng] 34-424
Arctic winter tests and evaluation, mid-winter stage, Kenworth truck Model 953A. [1972, var. p., eng] 34-512
Arctic winter test and evaluation, late winter stage, Kenworth truck Model 953A. [1972, var. p., eng] 34-513
Flying on a wheel. Pikul', V., [1979, p.26-28, rus] 34-803
Peculiarities of motor transport under northern conditions. Khlebnikov, A.M., et al, [1979, p.47-59, rus] 34-1625
Designing high capacity vehicles for cross-country travel in the North. Korsak, V.K., [1979, p.59-73, rus] 34-1626
Passanger transport in northern population resettlement systems. Belinskii, A.IU., [1979, p.98-105, rus] 34-1630
Use of air cushion vehicles in northern Canada. Mikhailov, V.V., et al, [1979, p.130-136, rus] 34-1635
Discussion of scientific and economic problems of northern development. Glabina, N.K., et al, [1979, p.137-146, rus] 34-1636
Selecting propulsion gear for all terrain vehicles. El'tes, M.I., et al, [1979, p.6-7, rus] 34-2090
Operation of electric all terrain vehicles on balloon tires. Beliaev, L.V., [1979, p.37-39, rus] 34-2590
Trafficability maps for all-terrain vehicles. Wastenson, L., [1973, p.213-238, swe] 34-2718
Technical and economic studies of amphibian air cushion transshipment vehicles. Milovanov, E.V., et al, [1979, p.82-89, rus] 34-3470
Japanese develop Archimedean screw tractor. [1980, p.11, eng] 34-4068

Alluvium

Studying river bed alluvium for designing seepage water intakes. Poriadin, A.F., [1974, p.29-51, rus] 34-753
Sandy soils in the southern Taz River Basin. Ovchinnikov, S.M., [1979, p.172-180, rus] 34-2744
Ground ice and cryogenic structures of loose deposits in the Muysk Basin. An, V.V., [1979, p.118-129, rus] 34-2783
Baggin Island sandurs: a study of Arctic fluvial processes. Church, M., [1972, 208p. + maps, eng] 34-3577
Cyclic nature of thermokarst on the Maritime Plain in the Upper Pleistocene and Holocene. Gravis, G.F., [1980, p.245-257, eng] 34-3844
Geomorphologic conditions of land reclamation in the Upper Angara trough. Bazarov, D.-D.B., et al, [1979, p.77-93, rus] 34-4099

Alpine glaciation

Glaciology of mountain regions. Suslov, V.F., ed, [1979, 160p., rus] 34-1120
Holocene push-moraines in alpine permafrost. Haeberli, W., [1979, p.43-48, eng] 34-1263
Scientific basis for combined studies of Alpine regions. Nazarov, A.G., [1975, p.98-100, rus] 34-1855
Workshop on the world glacier inventory and meeting of the snow and ice commission in Switzerland. Kotliakov, V.M., et al, [1979, p.19-24, rus] 34-2176
Data on glaciological processes in the recrystallization zone of ice formation in highlands. Diurgerov, M.B., [1979, p.52-56, rus] 34-2180
Late quaternary ice cover of the Pamirs. Grosval'd, M.G., et al, [1979, p.85-97, rus] 34-2187
Physiographic regionalization of the Pamirs. Kadomtseva, T.G., [1979, p.98-100, rus] 34-2188
Regionalization of the Pamirs for tourist maps. Suprunenko, IU.P., [1979, p.101-108, rus] 34-2189
Nature and importance of mass-wasting by rock glaciers in alpine permafrost environments. Barsch, D., [1977, p.231-245, eng] 34-3260
Classical European glacial stages: correlation with deep-sea sediments. Kukla, G., [1978, p.57-93, eng] 34-3654
Interrelations and succession in the compilation of thematic sections of the World Atlas of Snow and Ice Resources. Dreier, N.N., [1979, p.37-42, rus] 34-3688
Depiction of glacier areas in the World Atlas of Snow and Ice Resources. Timofeeva, N.A., [1979, p.62-66, rus] 34-3692
Regime of the present-day glaciation of the Caucasus. Kotliakov, V.M., et al, [1979, p.7-21, eng] 34-3970
Subglacial travertine and associated deposits in the Carstensz area, Irian Jaya, Republic of Indonesia. Peterson, J.A., et al, [1979, p.23-29, eng] 34-3971
Discovery of the Tanymas country. Gorbunov, A., [1979, p.97-102, rus] 34-4139

Alpine glaciers

See: Mountain glaciers

Alpine landscapes

Pinus sibirica as an indicator of environmental conditions in the Khamar-Daban Mountains and Tunkinskiye Gol'tsy. Tarakanov, A.G., [1979, p.80-83, rus] 34-105
Periglacial vegetation of the Katun Range. Reviakina, N.V., [1973, p.136-140, rus] 34-112
Automorphic soils of the Baykal highlands. Kuz'min, V.A., [1979, p.5-12, rus] 34-434
Alpine vegetation ecology and remote sensing of Teresa Island, British Columbia. Buttrick, S.C., [1978, n.p., eng] 34-601
Global radiation in Caucasus. [1979, p.101-108, rus] 34-615
Mountain geology and land-use implications; proceedings of the symposium of the International Geographical Union, Commission on High-altitude Geoecology, Caucasus Mountains, USSR, July 1976. Ives, J.D., ed, [1978, p.159-548, eng] 34-790
Avalanches of the USSR and their influence on the formation of natural territory complexes. Akif'eva, K.V., et al, [1978, p.223-233, eng] 34-792
Permafrost investigations in high-mountain regions. Gorbunov, A.P., [1978, p.283-294, eng] 34-796
Dynamics of the vegetation in the Mount Elbrus Region, USSR. Turmanina, V.I., et al, [1978, p.325-334, eng] 34-798
Main characteristics of the ecosystems of the Pamirs, USSR. Agakhaniants, O.E., et al, [1978, p.397-407, eng] 34-801
Regularities governing altitudinal distribution of steppe plant communities in Alashsk plateau, Tuva Autonomous Region. Namzalov, B.B., [1979, p.43-52, rus] 34-823
Vegetation of the West Okhotsk area. Shlotgauer, S.D., [1978, 132p., rus] 34-967
Dynamics of natural processes in highlands. Maksimov, E.V., ed, [1977, 131p., rus] 34-1093
Geographic aspects of mountain flora evolution in Central Asia. Agakhaniants, O.E., [1977, p.93-108, rus] 34-1097
Cushion plants as indicators of climatic changes in the Central Asian highlands. Ukhacheva, V.N., [1977, p.109-119, rus] 34-1098
Regularities governing the distribution of soils and vegetational covers in southern Transbaikal. Dmitrieva, E.V., [1979, p.427-432, rus] 34-1390
Lichen synusia in Alpine phytocenoses of the northern part of Altai-Sayan Mountains. Sedel'nikova, N.V., et al, [1979, p.671-679, rus] 34-1444
Melioration and regionalization of cryogenic soils in Yakutia. Elovskaia, L.G., et al, [1978, 175p., rus] 34-1648
Soils of northern Yakutia. Elovskaia, L.G., et al, [1979, 303p., rus] 34-1652
Seasonal and long-term dynamics of vegetation near the Dzhankuat glacier (Central Caucasus). Turmanina, V.I., et al, [1979, p.64-75, rus] 34-1756
Genetic classification of rock streams. Tiurin, A.I., [1979, p.77-85, rus] 34-1760
Aims and preliminary results of French protective reforestation at the tree line on abandoned alpine pastures (Southern French Alps). Mullenbach, P., [1979, p.261-278, fre] 34-1794
Microbic associations and their functions in West Siberian soils. Klevenskaia, I.L., ed, [1979, 286p., rus] 34-1805
Microbiology of Altai Mountain soils. Klevenskaia, I.L., et al, [1979, p.107-153, rus] 34-1810
Effect of development on the biologic activity of chernozems and chernozem-meadow alpine soils of the Altais. Gauert, V.I., [1979, p.154-165, rus] 34-1811
Effect of fertilizers on the microflora of gray forest soils in the Altai Mountains. Vyblov, N.F., [1979, p.178-183, rus] 34-1813
Proceedings of the first all-union symposium Biosphere and Man. [1975, 335p., rus] 34-1852
Scientific basis for combined studies of Alpine regions. Nazarov, A.G., [1975, p.98-100, rus] 34-1855
Peculiarities of mountain landscapes in the Krasnoyarsk area and their protection. Kirillov, M.V., [1973, p.24-26, rus] 34-1865
Small scale geobotanical mapping as a basis for scientific organization of Alpine vegetation protection. Belov, A.V., [1973, p.34-37, rus] 34-1866
Scientific and practical significance of studying partial inhomogeneity of mountain taiga soils. Taranov, S.A., [1973, p.59-66, rus] 34-1867
Utilization and protection of mountain forests. Beliak, V.I., et al, [1973, p.67-70, rus] 34-1868
Vegetational indices of precipitation in the Alpine belts of the Pamirs. Agakhaniants, O.E., et al, [1979, p.61-67, rus] 34-2182
Summer heat balance and environmental conditions of periglacial naleds in the Pamirs. Lebedeva, I.M., [1979, p.76-81, rus] 34-2185
Physiographic regionalization of the Pamirs. Kadomtseva, T.G., [1979, p.98-100, rus] 34-2188
Regionalization of the Pamirs for tourist maps. Suprunenko, IU.P., [1979, p.101-108, rus] 34-2189
Snow cover of the Altai-Sayan area. Reviakin, V.S., et al, [1979, p.109-120, rus] 34-2190
Alpine and subalpine vegetation under the influence of non-native mountain goats, Olympic National Park. Olmsted, I.C., [1979, p.1143-1148, eng] 34-2266
Recent relief-forming processes in Siberia. Ivanovskii, L.N., ed, [1978, 139p., rus] 34-2293
Bald peaks in the Lake Baykal area and northern Transbaikal, their boundaries and distribution. Vyrkin, V.B., [1978, p.63-68, rus] 34-2295
Slope denudation in the bald peak zone of western Sayan. Rashba, I.N., [1978, p.69-87, rus] 34-2296
Rock streams and bald peak zones of the Lake Baykal area and northern Transbaikal. Vyrkin, V.B., [1978, p.88-108, rus] 34-2297
Floristic regions of the world. Takhtadzhian, A.L., [1978, 247p., rus] 34-2362
Characteristics in studies and classification of alpine forest soils in the western Sayan. Kochurov, B.I., [1978, p.93-98, rus] 34-2469
Special management needs of alpine ecosystems. [1979, 100p., eng] 34-2957
Alpine ecosystems of western North America. Billings, W.D., [1979, p.6-21, eng] 34-2958
Range management in the alpine zone: practices and problems. Thilenius, J.F., [1979, p.43-64., eng] 34-2960

Alpine landscapes *(cont.)*

Hydrologic aspects related to the management of alpine areas. Johnston, R.S., et al, [1979, p.65-75, eng] **34-2961**

Revegetation of disturbed alpine rangelands. Brown, R.W., et al, [1979, p.76-94, eng] **34-2962**

Future management and research needs in alpine ecosystems. Marr, J.W., [1979, p.95-100, eng] **34-2963**

Vegetation in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Matveeva, N.V., [1979, p.78-109, rus] **34-3040**

Naleds in Central Asian and Kazakhstan mountains. Gorbunov, A.P., et al, [1979, p.175-181, rus] **34-3136**

Remarks on the V.A. Kuz'michenok paper "Glaciers on topographic maps and in the Glacier Catalog of the USSR". Vinogradov, O.N., [1979, p.255-257, rus] **34-3149**

Distribution of alpine permafrost in the northern hemisphere and its relationship to the environmental condition. Fujii, Y., [1980, p.41-52, jap] **34-3158**

Bedrock freeze-thaw weathering regime in an alpine environment, Colorado Front Range. Thorn, C.E., [1979, p.211-228, eng] **34-3194**

Ecologic series technique for revealing regularities governing altitudinal distribution of vegetation. Famelis, T.V., [1977, p.22-27, rus] **34-3364**

Radiation regime of the Altai-Sayan mountain system. Goleshchikhin, V.P., [1977, p.72-79, rus] **34-3382**

Mudflows in the Kem River basin. Matveeva, F.I., et al, [1979, p.25-30, rus] **34-3562**

Large scale prognostic maps of mountain vegetation in Central Sikhote-Alin forests. Kiselev, A.N., [1979, p.8-21, rus] **34-3602**

Age of rock glaciers in the Altai Mountains. Ivanovskii, L.N., [1977, p.125-137, rus] **34-3606**

Cryogenic relief of bald peaks in Pribaykal'e and Northern Transbaykal. Vyrkin, V.B., [1977, p.138-163, rus] **34-3607**

Compiling maps for developing recreation areas in mountains. Suprunenko, IU.P., [1979, p.99-107, rus] **34-3699**

Mountain forests. Sinitsyn, S.G., et al, [1979, 200p., rus] **34-3754**

Forests of the Lake Baykal area (types of forest, microclimatology, characteristics of forest-forming species). Panarin, I.I., [1979, 263p., rus] **34-3759**

Formation and development of bald-peak ice in the mountains of Central Tien Shan, Siberia and the Far East. Tarakanov, A.G., [1980, p.96-107, rus] **34-4009**

Variations in altitudinal plant distribution with longitude (Polar Urals-Putorana-Verkhoyan'e). Kuvaev, V.B., [1979, p.6-18, rus] **34-4084**

Periglacial flora of the Katunskiy Range. Polozhii, A.V., et al, [1979, p.18-23, rus] **34-4085**

Basic characteristics of Alpine flora in North Koryakiya. Kharkevich, S.S., et al, [1979, p.33-42, rus] **34-4086**

Alpine mosses of South Siberia. Bardunov, L.V., [1979, p.86-91, rus] **34-4088**

Place of Alpine vegetation in the system of botanical-geographic mapping of high mountain regions. Sokhadze, E.V., [1979, p.104-110, rus] **34-4089**

Short review of vegetation in the Baykal-Patomskoe Nagor'ye highlands. Rusiaeva, G.G., [1979, p.110-117, rus] **34-4090**

Ecologic fundamentals of forestry in the Lake Baykal Basin. Polikarpov, N.P., et al, [1979, p.52-57, rus] **34-4093**

Regularities governing formation of rock streams in North Transbaikal (Southern Muyskiy Range). Tiurin, A.I., et al, [1980, p.138-144, rus] **34-4130**

Discovery of the Tanymas country. Gorbunov, A., [1979, p.97-102, rus] **34-4139**

Alpine soils

See: Mountain soils

Alpine tundra

Successions of lithophile lichen communities in the northern Ural highlands. Magomedova, M.A., [1979, p.29-38, rus] **34-104**

Automorphic soils of the Baykal highlands. Kuz'min, V.A., [1979, p.5-12, rus] **34-434**

Vegetational cover in areas adjacent to the Baykal Amur railroad and problems of its preservation. Belov, A.V., et al, [1979, p.36-90, rus] **34-683**

Seasonal rhythms in alpine tundra plant communities of the Urals. Gorchakovskii, P.L., et al, [1979, p.16-24, rus] **34-822**

Pipeline revegetation research: Dempster route test sites progress report - 1977. [1978, 28p., eng] **34-862**

Vegetation of the West Okhotsk area. Shlotgauer, S.D., [1978, 132p., rus] **34-967**

History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, [1979, 215p., rus] **34-1067**

Revealing stream pattern indices by spaceborne photography. Miliaeva, L.S., [1979, p.129-134, rus] **34-1072**

Morphogenetic characteristics of soils in the research station area. Ignatenko, I.V., et al, [1977, p.62-101, rus] **34-1163**

Environment-forming role of forests in the Lake Baykal Basin. Lebedev, A.V., et al, [1979, 256p., rus] **34-1190**

Lichen synusia at the upper limit of Anuy Plateau larch forests. Andreev, M.P., [1979, p.646-653, rus] **34-1443**

Melioration and regionalization of cryogenic soils in Yakutia. Elovskaia, L.G., et al, [1978, 175p., rus] **34-1648**

Microbic associations and their functions in West Siberian soils. Klevenskaia, I. ., ed, [1979, 286p., rus] **34-1805**

Microbiology of Altai Mountain soils. Klevenskaia, I.L., et al, [1979, p.107-153, rus] **34-1810**

Mountain landscape protection in Siberia. Krylov, G.V., ed, [1973, 251p., rus] **34-1863**

Peculiarities of mountain landscapes in the Krasnoyarsk area and their protection. Kirillov, M.V., [1973, p.24-26, rus] **34-1865**

Small scale geobotanical mapping as a basis for scientific organization of Alpine vegetation protection. Belov, A.V., [1973, p.34-37, rus] **34-1866**

Proceedings [1979, 1325p. (2 vols.), eng] **34-2259**

Problems of revegetation of alpine tundra. Stevens, D.R., [1979, p.241-245, eng] **34-2262**

Ecology of elk on alpine tundra in Rocky Mountain National Park. Stevens, D.R., [1979, p.421-426, eng] **34-2263**

Geography and origin of soils in the northwestern part of the West Siberian Plain and the adjacent polar Ural foothills. Liverovskaia, I.T., [1980, p.63-84, rus] **34-2762**

Special management needs of alpine ecosystems. [1979, 100p., eng] **34-2957**

Physiological responses of plants in tundra grazing systems. Tieszen, L.L., et al, [1979, p.22-42, eng] **34-2959**

Hydrologic aspects related to the management of alpine areas. Johnston, R.S., et al, [1979, p.65-75, eng] **34-2961**

Ecologic series technique for revealing regularities governing altitudinal distribution of vegetation. Famelis, T.V., [1977, p.22-27, rus] **34-3364**

Lichens in the vegetation of the Elombal Mountains (Chukot Autonomous District). Andreev, M.P., [1980, p.563-570, rus] **34-3556**

Mudflows in the Kem River basin. Matveeva, F.I., et al, [1979, p.25-30, rus] **34-3562**

Avalanche danger on Lysaya Mountain (southern Sikhote Alin range). Ratnikov, A.V., [1979, p.62-63, rus] **34-3566**

Short review of vegetation in the Baykal-Patomskoe Nagor'ye highlands. Rusiaeva, G.G., [1979, p.110-117, rus] **34-4090**

Ecologic fundamentals of forestry in the Lake Baykal Basin. Polikarpov, N.P., et al, [1979, p.52-57, rus] **34-4093**

Environmental protection in Yakutia. Andreev, V.N., ed, [1979, 181p., rus] **34-4106**

Botanical objects of environmental protection near the lower Lena River. Trufanova, E.R., [1979, p.20-23, rus] **34-4108**

Reaction of different landscapes to heat producing phenomena in the Oymyakon region. Amuzinskaia, T.P., [1979, p.55-56, rus] **34-4112**

Zonal distribution of Hepaticae in the Khibiny Mountains. Konstantinova, N.A., [1979, p.38-39, rus] **34-4223**

Pollination ecology of Alpine tundra plants on the Kolyma Highlands. Tikhmenev, E.A., [1979, p.57-58, rus] **34-4228**

Altitude

Effect of elevation on snowfall and rainfall: first results from the Mt. Mansfield network. Hendrick, R.L., et al, [1978, p.141-152, eng] **34-39**

Monitoring of thickness changes of the continental ice sheets by satellite altimetry. Brooks, R.L., [1979, p.3965-3968, eng] **34-943**

Role of elevation in determining spatial distributions of precipitation, snow, and water input at Mt. Mansfield, Vermont. Hendrick, R.L., et al, [1979, p.63-70, eng] **34-1006**

Variation of snow properties with elevation in New Hampshire and Vermont. Dingman, S.L., et al, [1979, p.93-100, eng] **34-1010**

Effects of water temperature and elevation on aeration. Hunter, J.S., et al, [1974, p.125-169, eng] **34-1472**

Antarctic ice topography and 150 mb circulation from the NIMBUS-6 TWERLE experiment. Levanon, N., et al, [1978, p.43-46, eng] **34-2035**

Calculating dates of stable snow in the Central Asian and Kazakhstan mountains from standard meteorological information. Severskii, I.V., et al, [1979, p.71-79, rus] **34-3694**

Aluminum

Sectional buildings with bearing panels made of effective materials. Lazhintsev, V.I., et al, [1972, p.54-63, rus] **34-178**

Technical and economic indices of aluminum bearing structures of standard industrial buildings. Malyshkina, I.N., et al, [1972, p.85-91, rus] **34-181**

Measurement of the intrinsic thermal expansion of irradiation defects in aluminum at low temperature. Ganne, J.P., et al, [1979, p.634-636, eng] **34-272**

Effect of specimen temperature on the breaking point for splitting off in AMG-6 aluminum alloy. Bat'kov, IU.V., et al, [1979, p.265-268, eng] **34-2379**

Ammunition

See: Small arms ammunition

Amphibious vehicles

Technical and economic studies of amphibian air cushion transshipment vehicles. Milovanov, E.V., et al, [1979, p.82-89, rus] **34-3470**

Analysis (chemistry)

See: Chemical analysis

Analysis (mathematics)

Is vertical shear in an ice shelf negligible. Sanderson, T.J.O., et al, [1979, p.285-292, eng] **34-543**

Development of a viscoelastic finite difference formulation for analysis of ice sheet-structure interactions. Praskievicz, M.W., [1979, 162p., eng] **34-1353**

Some Bessel function identities arising in ice mechanics problems. Takagi, S., [1979, 13p., eng] **34-1609**

Calculation of correlation functions for two-dimensional square ice. Yanagawa, A., [1979, 235p., eng] **34-2065**

Mathematical approach to the theory of glacier sliding. Fowler, A.C., [1979, p.131-141, eng] **34-2227**

See also Statistical analysis, Stefan problem

Anchor ice

See: Bottom ice

Anchors

Ice anchor. Chaney, P.E., et al, [1977, 6 col., eng] **34-146**

Methods of fastening reinforced concrete supports of overhead power lines in weak ground. Kurnosov, A.I., et al, [1979, p.29-32, rus] **34-195**

Testing the AR401 anchors. Brun, A.I., et al, [1979, p.19-21, rus] **34-248**

Ice anchoring method and device. Lowe, G.E., et al, [1977, 6 col., eng] **34-270**

Experimental study of anchor support performance. Danilova, N.P., [1974, p.137-147, rus] **34-761**

Towing ships through ice-blocked channels by warping and kedging. Mellor, M., [1979, 21p., eng] **34-1380**

Expanding anchors for fastening pipelines. Postnikov, V.V., et al, [1979, p.16-18, rus] **34-2097**

Animals

Ecological profile [1978, 118p. + maps, eng] **34-20**

Feasibility of caribou winter habitat analysis using satellite data. LaPerriere, A.J.L., III, [1976, 181p., eng] **34-202**

Summer environmental program Mackenzie River estuary [1975, 3 vols., eng] **34-301**

Guide to the effects of underwater shock waves on Arctic marine mammals and fish. Hill, S.H., [1978, 50p., eng] **34-369**

Environmental program Mackenzie delta, N.W.T. [1974, 9 parts, eng] **34-420**

Davis Strait aerial survey 77-1 [1977, 14p. + figs. and tables, eng] **34-425**

Preliminary tests of bird-scare devices on the Beaufort Sea coast. Sharp, P.L., [1978, 43p., eng] **34-489**

Biological literature review of the Labrador Sea region [1977, var.p., eng] **34-491**

Biological studies, offshore cruise 77-4 through 77-7, July-December, 1977 in the Davis Strait [1977, var.p., eng] **34-493**

Aerial surveys 77-2, 77-3, 77-4. Studies of sea birds and marine mammals in Davis Strait, Hudson Strait and Ungava Bay [1977, var.p., eng] **34-494**

Preliminary nearshore environmental studies on southeast Baffin Island. [1977, var.p., eng] **34-495**

Inuit natural resource use in southeast Baffin region [1978, var.p., eng] **34-496**

Revised biological literature review of the Davis Strait region. [1978, var.p., eng] **34-497**

Biological literature review of Ungava Bay and Hudson Strait. [1977, var.p., eng] **34-498**

Zoogeography of the Yamal-Gydan area, Western Siberia. Rutilevskii, G.L., [1979, p.88-117, eng] **34-530**

Factors regulating the food intake of caribou and reindeer on tundra ranges. White, R.G., [1976, p.1-227-1-233, eng] **34-564**

Evaluation of the trophic types of several Alaskan lakes by assessment of benthic fauna. LaPerriere, J., [1975, 49p., eng] **34-641**

Comparative evaluation of principal ecologic-systematic animal groups as components of taiga geosystems. Verzhutskii, B.N., et al, [1979, p.3-13, rus] **34-671**

Time-energy budget of the semipalmated sandpiper *Calidris pusilla* at Barrow, Alaska. Ashkenazie, S., et al, [1979, p.783-799, eng] **34-1561**

Ecology of elk on alpine tundra in Rocky Mountain National Park. Stevens, D.R., [1979, p.421-426, eng] **34-2263**

Alpine and subalpine vegetation under the influence of non-native mountain goats, Olympic National Park. Olmsted, I.C., [1979, p.1143-1148, eng] **34-2266**

Polyandry, replacement clutches, and site tenacity in the red phalarope *(Phalaropus fulicarius)* at Barrow, Alaska. Schamel, D., et al, [1977, p.314-324, eng] **34-2497**

Seasonal trends in summer diet of the Lapland longspur near Barrow, Alaska. Custer, T.W., et al, [1978, p.295-301, eng] **34-2512**

Boreal ecology. Pruitt, W.O., Jr., [1978, 73p., eng] **34-2581**

Construction-related impacts of the Trans-Alaska Pipeline System on terrestrial wildlife habitats. Pamplin, W.L., Jr., [1979, 132p., eng] **34-2607**

Regularities governing zonal distribution of communities in Taymyr Peninsula. Chernov, IU.I., et al, [1979, p.166-200, rus] 34-3047

Environmental assessment of the Alaskan continental shelf, Vol.6, Effects. [1979, 664p., eng] 34-3049

Components of biogeocenoses of the tundra-forest regions of the northern Okhotsk Sea region. Ignatenko, I.V., ed, [1980, 51p., eng] 34-3395

Effects of the Trans-Alaska pipeline on caribou movements. Cameron, R.D., et al, [1979, 36p., eng] 34-3923

Life in the tundra. Chernov, IU.I., [1980, 236p., rus] 34-4015

Anion exchange

See: Ion exchange

Anisotropy

Ultrasonic velocity investigations of crystal anisotropy in deep ice cores from Antarctica. Kohnen, H., et al, [1979, p.4865-4874, eng] 34-410

Observations of rapid changes in the orientation and degree of alignment of ice particles along an earth-space radio propagation path. Cox, D.C., et al, [1979, p.5003-5010, eng] 34-413

Anisotropic properties of sea ice in the 50- to 150-MHz range. Kovacs, A., et al, [1979, p.5749-5759, eng] 34-963

Anisotropic properties of sea ice in the 50-150 MHz range. Kovacs, A., et al, [1979, p.324-353, eng] 34-3054

Antarctica

Major types of antarctic ice shores. Dubrovin, L.I., [1979, p.69-74, eng] 34-527

Snow measurements on the antarctic shelf ice. Kozlovskiĭ, A.M., [1979, p.74-77, rus] 34-1830

Research on deep thermal drilling of Antarctic ice. Kudriashov, B.B., et al, [1973, p.35-36, rus] 34-1958

Preliminary mathematical model for reconstruction of past climate based on glaciological reference data on the antarctic ice sheet. Efimov, V.A., [1979, p.5-11, rus] 34-1996

Report on United States antarctic research activities for February 1976-October 1977; United States antarctic research activities planned for October 1977-September 1978. [1977, 77p., eng] 34-2159

Report on United States antarctic research activities for February 1977-October 1978; United States antarctic research activities planned for October 1978-September 1979. [1978, 87p., eng] 34-2160

Report on United States antarctic research activities for February 1978-October 1979; United States Antarctic research activities planned for October 1979-September 1980. [1979, 92p., eng] 34-2161

Moisture balance in the system Antarctic ice sheet surface-atmosphere. Aver'ianov, V.G., [1979, p.209-211, rus] 34-2210

Floristic regions of the world. Takhtadzhian, A.L., [1978, 247p., rus] 34-2362

On the size distribution of Antarctic icebergs. Neshyba, S., [1980, p.241-248, eng] 34-2446

New dating technique: cyclospectrometry. Yiou, F., et al, [1979, p.1128-1129, fre] 34-2517

ICEX: Ice and climate experiment; report of Science and Applications Working Group. [1979, c118p., eng] 34-2726

Extract from the annual report: Antarctic Division 1978-79. [1979, 23p., eng] 34-2992

Melting and surface runoff from the Antarctic ice sheet. Klokov, V.D., [1979, 128p., rus] 34-3088

Meteorological research. Borisenkov, E.P., ed, [1976, 133p., eng] 34-3271

Antarctic ice characteristics according to *Kosmos-243* satellite radiometric measurements. Matveev, D.T., [1976, p.5-12, eng] 34-3272

Characteristics of the antarctic temperature field according to *Kosmos 243* satellite radiometric measurements. Kurskaia, A.A., [1976, p.13-20, eng] 34-3273

Ice environment of the antarctic region according to *Cosmos-226* satellite data. Leont'eva, A.V., [1976, p.21-28, eng] 34-3274

Ice conditions in the Antarctic in the summer of 1968-1969. Provorkin, A.V., et al, [1976, p.29-44, eng] 34-3275

Ice on the move. Doake, C.S.M., [1977, p.65-71, eng] 34-3352

Polar environmental monitoring: final report. [1979, 94p., eng] 34-3390

USCGC Glacier cruise report: Deep Freeze 80. [1980, 106p., eng] 34-3509

Antarctica is a rugged continent. Grushinskiĭ, N.P., et al, [1975, p.638-640, ger] 34-3855

Ice cores. MacKinnon, P.K., comp., [1980, 139p., eng] 34-4020

Ice core sampling. Radok, U., [1980, p.71-76, eng] 34-4027

—Adélie Coast

Ice flow along an I.A.G.P. flow line and interpretation of data from an ice core in Terre Adélie, Antarctica. Raynaud, D., et al, [1979, p.103-115, eng] 34-2820

—Allan Hills

Glaciological survey in the bare ice area near the Allan Hills in Victoria Land, Antarctica. Fumihiko, N., et al, [1979, p.13-23, eng] 34-2792

Meteorite recoveries in Antarctica during the field season 1977-78. Yanai, K., et al, [1978, p.977-987, eng] 34-3152

Radio-echo sounding in the Allan Hills, Antarctica, in support of the meteorite field program. Kovacs, A., [1980, 9p., eng] 34-3874

—Amery Ice Shelf

Is vertical shear in an ice shelf negligible. Sanderson, T.J.O., et al, [1979, p.285-292, eng] 34-543

—Amundsen-Scott Station

Artificial tritium fall-out at the South Pole. Jouzel, J., et al, [1979, p.31-46, eng] 34-724

—Antarctic Peninsula

Morphology and dynamics of ice rises. Martin, P.J., et al, [1980, p.33-45, eng] 34-3796

West Antarctic ice sheet fluctuations in the Antarctic Peninsula area. Sugden, D.E., et al, [1980, p.378-381, eng] 34-3924

—Argentine Islands

Analyses of British Antarctic Survey tidal records. Cartwright, D.E., [1980, p.167-179, eng] 34-4115

—Black Coast

Physiography and glacial geomorphology of the central Black Coast, Palmer Land. Singleton, D.G., [1980, p.21-32, eng] 34-4113

—Byrd Station

Ultrasonic velocity investigations of crystal anisotropy in deep ice cores from Antarctica. Kohnen, H., et al, [1979, p.4865-4874, eng] 34-410

Antarctic ice as a ceramic. Maeno, N., [1978, p.663-669, jap] 34-1165

Compactive viscosity of snow and its climatic implications at Mizuho Station, Antarctica. Maeno, N., et al, [1979, p.18-31, eng] 34-2148

Ice flow along the Byrd Station strain network, Antarctica. Whillans, I.M., [1979, p.15-28, eng] 34-2813

Relationship of ultrasonic velocities to c-axis fabrics and relaxation characteristics of ice cores from Byrd Station, Antarctica. Gow, A.J., et al, [1979, p.147-153, eng] 34-2823

Studying dust in ice covers and using it in ice age determination. Gordienko, F.G., [1979, p.259-268, rus] 34-3151

Time-priority studies of deep ice cores. Gow, A.J., [1980, p.91-102, eng] 34-4030

—Campbell Glacier

Glacier echo sounding studies around Molodezhnaya. Trepov, G.V., et al, [1979, p.35-38, rus] 34-1827

—Davis Sea

Microscopic algae in Davis Sea fast ice. Bulnitskiĭ, V.Kh., et al, [1979, p.126-137, eng] 34-1895

—Dumont d'Urville Station

Porosity and gas content of recent polar ice, applications to deep core analysis. Lebel, B., [1978, 80p., fre] 34-936

—East Antarctica

New phase in the study of the glacial cover in Antarctica. Kotliakov, V.M., [1974, p.123-172, eng] 34-1195

Antarctic operations, Nov. 1977-Feb. 1978. Lorius, C., et al, [1978, 10p., fre] 34-2135

Measured velocities of interior East Antarctica and the state of mass balance within the I.A.G.P. area. Young, N.W., [1979, p.77-87, eng] 34-2818

Ice mesovortices in the nearshore regions of East Antarctica. Preobrazhenskaia, T.N., [1976, p.45-54, eng] 34-3276

Origin of the oxygen-isotope composition in the snow cover in East Antarctica. Vilenskiĭ, V.D., et al, [1978, p.180-185, eng] 34-4032

—Enderby Land

Connections in the Gamburtsev and Vernadskiy Subglacial Mountains. Koblents, IA.P., [1979, p.39-48, rus] 34-1828

—Erebus Glacier

Equilibrium profile of ice shelves. Sanderson, T.J.O., [1979, p.435-460, eng] 34-3784

—Filchner Ice Shelf

Flow lines on Antarctic ice shelves. Crabtree, R.D., et al, [1980, p.31-37, eng] 34-2809

—Folger, Cape

Ice sheet internal radio-echo reflections and associated physical property changes with depth. Ackley, S.F., et al, [1979, p.5675-5680, eng] 34-999

—George VI Ice Shelf

Recrystallisation and electrical behaviour of glacier ice. Reynolds, J.M., et al, [1980, p.63-64, eng] 34-2578

—George VI Sound

Analyses of British Antarctic Survey tidal records. Cartwright, D.E., [1980, p.167-179, eng] 34-4115

—Hays Glacier

Glacier echo sounding studies around Molodezhnaya. Trepov, G.V., et al, [1979, p.35-38, rus] 34-1827

—Lambert Glacier

Mass budget of the Lambert Glacier drainage basin, Antarctica. Allison, I., [1979, p.223-235, eng] 34-538

—Law Dome

Porosity and gas content of recent polar ice, applications to deep core analysis. Lebel, B., [1978, 80p., fre] 34-936

Ice-sheet flow properties derived from bore-hole shear measurements combined with ice-core studies. Russell-Head, D.S., et al, [1979, p.117-130, eng] 34-2821

—Little America Station

Ultrasonic velocity investigations of crystal anisotropy in deep ice cores from Antarctica. Kohnen, H., et al, [1979, p.4865-4874, eng] 34-410

—Little America V

Compactive viscosity of snow and its climatic implications at Mizuho Station, Antarctica. Maeno, N., et al, [1979, p.18-31, eng] 34-2148

—Marie Byrd Land

Investigations of surface-wave dispersion in an inhomogeneous medium by the finite difference method. Acharya, H.K., et al, [1978, p.1381-1386, eng] 34-1848

Characteristics of ice flow in Marie Byrd Land, Antarctica. Rose, K.E., [1979, p.63-75, eng] 34-2817

—Mawson Glacier

Glaciological survey in the bare ice area near the Allan Hills in Victoria Land, Antarctica. Fumihiko, N., et al, [1979, p.13-23, eng] 34-2792

—McMurdo Sound

Western Ross Sea and McMurdo Sound ice forecasting guide. Perchal, R.J., [1975, 132p., eng] 34-2453

Undulations on the McMurdo Ice Shelf near Scott Base, Antarctica. Holdsworth, G., et al, [1979, p.16-22, eng] 34-3680

—McMurdo Station

Upper crustal structure under McMurdo Station, Antarctica, deduced from blasts during nuclear power plant removal. Kaminuma, K., [1979, p.34-41, eng] 34-2287

—Menzies, Mount

Photo-geomorphic map of the Mt. Menzies nunatak, Prince Charles Mountains, Australian Antarctic Territory. Derbyshire, E., et al, [1978, p.17-26, eng] 34-662

—Mirnyy Station

Variations in the ice surface height along the Mirnyy-100 km profile. Meier, S., [1979, p.17-24 rus] 34-1824

Heat exchange between ice cover and atmosphere in East Antarctica. Aver'ianov, V.G., [1979, p.91-96, rus] 34-2215

—Mizuho Plateau

Summary of glaciological studies in Mizuho Plateau, East Antarctica, 1969-1975. Ishida, T., [1979, p.1-10, jap] 34-2146

Growth rates of crystal grains in snow at Mizuho Station, Antarctica. Narita, H., et al, [1979, p.11-17, eng] 34-2147

Compactive viscosity of snow and its climatic implications at Mizuho Station, Antarctica. Maeno, N., et al, [1979, p.18-31, eng] 34-2148

Some problems in stratigraphic analysis of firn in Mizuho Plateau, East Antarctica. Watanabe, O., et al, [1979, p.32-50, jap] 34-2149

Sublimation and condensation at the ice sheet surface of Mizuho Station, Antarctica. Fujii, Y., [1979, p.51-63, eng] 34-2150

Some characteristics of turbulence in katabatic winds over Mizuho Plateau, East Antarctica. Kobayashi, S., et al, [1979, p.75-85, eng] 34-2152

Preliminary study on the structure of the atmospheric surface layer in Mizuho Plateau, East Antarctica. Sasaki, H., [1979, p.86-100, eng] 34-2153

Oxygen isotopic composition of drifting snow in Mizuho Plateau, Antarctica. Kato, K., et al, [1979, p.136-151, jap] 34-2155

Oxygen isotopic composition of snow formed under an antarctic anticyclone. Kato, K., et al, [1979, p.152-163, jap] 34-2156

Thinning of the ice sheet in Mizuho Plateau, East Antarctica. Naruse, R., [1979, p.45-52, eng] 34-2815

Basal sliding of a thinning ice sheet, Mizuho Plateau, East Antarctica. Mae, S., [1979, p.53-61, eng] 34-2816

Studies on interaction between wind and dry snow surfaces. Kobayashi, S., [1979, 64p., eng] 34-3191

—Mizuho Station

Antarctic ice as a ceramic. Maeno, N., [1978, p.663-669, jap] 34-1165

Rate of snow accumulation determined from oxygen isotope and stratigraphic analyses of the core from Mizuho Station, East Antarctic (extended abstract). Kato, K., et al, [1979, p.88-92, eng] 34-2500

—Molodezhnaya Station

Glacier echo sounding studies around Molodezhnaya. Trepov, G.V., et al, [1979, p.35-38, rus] 34-1827

Snow cover metamorphism on the glacier slope near the Molodezhnaya oasis. Voĭtkovskiĭ, K.F., [1979, p.97-105, rus] 34-2216

—Novolazarevskaya Station

Drilling of the Antarctic Ice Sheet in the Novolazarevskaya Station area. Morev, V.A., et al, [1979, p.198-200, rus] 34-3714

—Onyx River

Impact of "extreme" events on the Dry Valleys area. Chinn, T.J.H., [1979, p.9-13, eng] 34-3678

—Palmer Land

Physiography of part of north-eastern Palmer Land. Anckorn, J.F., [1980, p.157-166, eng] 34-4114

Antarctica *(cont.)*
—Prince Charles Mountains
Mass budget of the Lambert Glacier drainage basin, Antarctica. Allison, I., [1979, p.223-235, eng] **34-538**
—Queen Maud Land
Glacier discharge in the Sör-Rondane, a contribution to the mass balance of Dronning Maud Land, Antarctica. Autenboer, T. van, et al, [1978, p.1-16 + map, eng] **34-661**
Glaciological and marine biological studies at perimeter of Dronning Maud Land, Antarctica. Final report. Orheim, O., [1977, 17p., eng] **34-772**
Snow accumulation and snow stratigraphy on Riiser-Larsenisen, Dronning Maud Land, Antarctica. Repp, K., [1978, p.81-92, eng] **34-3988**
—Ronne Ice Shelf
Flow lines on Antarctic ice shelves. Crabtree, R.D., et al, [1980, p.31-37, eng] **34-2809**
—Ross Ice Shelf
Depositional history of artificial radionuclides in the Ross Ice Shelf, Antarctica. Koide, M., et al, [1979, p.205-223, eng] **34-48**
In-s.itu measurements of the activation energy for D.C. conduction in polar ice. Bentley, C.R., [1979, p.237-246, eng] **34-539**
Flame drilling through the Ross Ice Shelf. Browning, J.A., [1978, p.4-8, eng] **34-865**
Discussions on problems of the study of the Antarctic glacial cover at the twelfth session of the Scientific Committee for Antarctic Research (SCAR), and at the meetings of the Council of the International Antarctic Glaciological Project (IAGP). Korotkevich, E.S., [1974, p.103-118, eng] **34-1194**
Ross Ice Shelf temperatures support a history of ice-shelf thickening. MacAyeal, D.R., et al, [1979, p.703-705, eng] **34-1747**
Studies of heat and mass transfer at the lower surface of the Ross Ice Shelf. Zotikov, I.A., et al, [1979, p.178, rus] **34-2201**
Core drilling through the Ross Ice Shelf (Antarctica) confirmed basal freezing. Zotikov, I.A., et al, [1980, p.1463-1465, eng] **34-2485**
Ice-thickness patterns and the dynamics of the Ross Ice Shelf, Antarctica. Bentley, C.R., et al, [1979, p.287-294, eng] **34-2831**
Dynamics of the Ross Ice Shelf revealed by radio echo-sounding. Neal, C.S., [1979, p.295-307, eng] **34-2832**
Lateral density differences from seismic measurements at a site on the Ross Ice Shelf, Antarctica. Kirchner, J.F., et al, [1979, p.309-312, eng] **34-2833**
Seismic short-refraction studies on the Ross Ice Shelf, Antarctica. Kirchner, J.F., et al, [1979, p.313-319, eng] **34-2834**
Electromagnetic sounding of bottom crevasses on the Ross Ice Shelf, Antarctica. Jezek, K.C., et al, [1979, p.321-330, eng] **34-2835**
Investigation of bottom mass-balance rates by electrical resistivity soundings on the Ross Ice Shelf, Antarctica. Shabtaie, S., et al, [1979, p.331-343, eng] **34-2836**
Dating of Ross Ice Shelf cores by chemical analysis. Herron, M.M., et al, [1979, p.345-357, eng] **34-2837**
—Ross Island
Concreting in Antarctica. Varcoe, G.E., [1979, p.14-15, eng] **34-3679**
—Ross Sea
Comment and reply on "Late Quaternary extent of the West Antarctic ice sheet: new evidence from Ross Sea cores". Fillon, R.H., et al, [1979, p.518-519, eng] **34-1088**
Western Ross Sea and McMurdo Sound ice forecasting guide. Perchal, R.J., [1975, 132p., eng] **34-2453**
Würmian "Ross Ice Sheet" hypothesis and facts. Miagkov, S.M., [1979, p.235-242, rus] **34-3147**
Glacial and glacial marine sediments of the antarctic continental shelves. Anderson, J.B., et al, [1980, p.399-414, eng] **34-4189**
—Shirase Glacier
Recent variation of ice sheet in Mizuho Plateau. Mae, S., [1979, p.1-7, eng] **34-2499**
—Showa Station
Numerical simulation of katabatic wind profile at Syowa Station, Antarctica. Adachi, T., [1979, p.64-74, eng] **34-2151**
Oxygen isotopic composition of fallen snow in Antarctica. Kato, K., [1979, p.124-135, jap] **34-2154**
Axial flow wind air-turbine NU-102 with electric eddy-current brake. Awano, S., et al, [1979, 57p., eng] **34-2157**
—South Pole
Continuous record of artificial tritium fallout at the South Pole (1954-1978). Jouzel, J., et al, [1979, p.188-200, eng] **34-1000**
911 years of microparticle deposition at the South Pole: a climatic interpretation. Thompson, E.M., [1979, 200p., eng] **34-2455**
—Taylor Glacier
Gravity survey of the Taylor Glacier, Victoria Land, Antarctica. Stern, T.A., [1978, 12p., eng] **34-2993**
Petrographic observations of ice samples from Taylor Glacier, Antarctica. Robinson, P.H., [1979, p.17-19, eng] **34-3674**
Saline discharge at the snout of Taylor Glacier, Antarctica. Keys, J.R., [1979, p.20-21, eng] **34-3675**
—Vanda, Lake
Impact of "extreme" events on the Dry Valleys area. Chinn, T.J.H., [1979, p.9-13, eng] **34-3678**
—Victoria Land
Some aspects of the ice topography of Trough Lake, southern Victoria Land, Antarctica. Lyon, G.L., [1979, p.281-284, eng] **34-945**
—Vostok Station
Long-term accumulation characteristics at Vostok Station, Antarctica. Aver'ianov, V.G., [1978, p.93-99, rus] **34-1298**
Results of temperature measurements in Vostok boreholes. Vostretsov, R.N., et al, [1979, p.25-31, rus] **34-1825**
Determining horizontal ice flow gradients in the Vostok Station area down to 800 m. Dmitriev, D.N., et al, [1979, p.32-34, rus] **34-1826**
Heat exchange between ice cover and atmosphere in East Antarctica. Aver'ianov, V.G., [1979, p.91-96, rus] **34-2215**
Microbiological studies of the central antarctic ice sheet. Abyzov, S.S., et al, [1979, p.828-836, rus] **34-2290**
Gravity determinations at Vostok. Bentley, C.R., [1980, p.193-195, eng] **34-4188**
—Wilkes Land
Results from the I.A.G.P. flow-line study in and of Casey, Wilkes Land, Antarctica. Budd, W.F., et al, [1979, p.89-101, eng] **34-2819**
—Wright Valley
Ice core and ice cement effects on soil development, eastern Wright Valley, Antarctica. Bockheim, J.G., [1979, p.487-493, eng] **34-3623**
Eastward ice advances in Wright Valley, Antarctica (Comment). Robinson, P.H., [1979, p.22-24, eng] **34-3676**
Impact of "extreme" events on the Dry Valleys area. Chinn, T.J.H., [1979, p.9-13, eng] **34-3678**
Antennas
Deicing a satellite communication antenna. Hanamoto, B., et al, [1980, 14p., eng] **34-3451**
Antifreezes
Mortars with sodium acetate admixtures. Nikulin, V.T., et al, [1979, p.18, rus] **34-340**
Solidification of mortars with antifreeze admixtures. Shishkin, A.A., et al, [1979, p.19-20, rus] **34-2700**
Concretes with antifreeze admixtures. Kostiaev, P.S., et al, [1980, p.44-46, rus] **34-2975**
Studying rheological properties of mortars containing new antifreeze admixtures. Petropavlovskaia, T.A., [1978, p.98-104, rus] **34-3887**
Possibility of using sodium nitrite antifreeze in reinforced concretes of buildings and structures on railroads. Kostiaev, P.S., et al, [1978, p.179-184, rus] **34-3920**
Arctic landscapes
Vegetational successions and other ecosystemic changes in two Arctic tundras. Peterson, K.M., [1978, 305p., eng] **34-1**
Environmental program Mackenzie delta, N.W.T. [1974, 9 parts, eng] **34-420**
Evaluation of LANDSAT data for geographical applications: a survey of an Arctic/Subarctic mountain area, Varanger Peninsula, northern Norway. Helldén, U., et al, [1979, p.57-70, eng] **34-657**
Vegetation and climate on Coburg Island, N.W.T. Muller, H., [1979, p.139-147, eng] **34-767**
Prognosis of rational use and protection of renewable natural resources in the Far North. Gel'berg, M.G., et al, [1979, p.14-51, rus] **34-958**
Components of forest tundra biogeocenoses in northern Okhotomor'e. Ignatenko, I.V., ed, [1977, 149p., rus] **34-1158**
Flora and fauna of water bodies in the European North (Bol'shezemel'skaya Tundra taken as an example). Getsen, M.V., ed, [1978, 191p., rus] **34-1191**
Properties and relative age of soils of southwestern Cumberland Peninsula, Baffin Island, N.W.T., Canada. Bockheim, J.G., [1979, p.289-306, eng] **34-1283**
Fruiting of Arctic plants (Western Taymyr). Khodachek, E.A., [1979, p.1147-1158, rus] **34-1447**
Soils and relief in western Greenland. Stäblein, G., [1979, p.232-245, ger] **34-1494**
Nearshore environments of the North Slope and the petroleum industry. Schindler, J., et al, [1975, p.67-75, eng] **34-1724**
Arctic adaptations in plants. Savile, D.B.O., [1972, 81p., eng] **34-1776**
Plant reproduction in a High Arctic environment. Bell, K.L., et al, [1980, p.1-10, eng] **34-2272**
Floristic regions of the world. Takhtadzhian, A.L., [1978, 247p., rus] **34-2362**
Ecological and phytocenological complexes of Asiatic Russia (Experience in mapping). Sochava, V.B., ed, [1977, 70p. + map, rus] **34-2437**
Method of compiling and brief analysis of a correlative ecological and phytocenological map of Asiatic Russia, scale of 1:7,500,000. Buks, I.I., [1977, p.15-54, rus] **34-2438**
Geographic studies of soil mantle in the Northern Yenisey River area and the Krasnoyarsk taiga. Korsunov, V.M., et al, [1978, p.5-14, rus] **34-3462**
Diatomaceous algae of fresh-water bodies on the Chukotskiy Peninsula. Kharitonov, V.G., [1978, p.118-121, rus] **34-3510**
Vascular plant species ratio in northern taiga and forest tundra of the Central Anadyr River Basin. Kozhevnikov, IU.P., [1980, p.361-367, rus] **34-3555**
Root system of the Gmelinii larch at its extreme distribution line in the Far North (Taymyr). Dem'ianov, V.A., [1980, p.570-573, rus] **34-3557**
Timan-Pechora Complex. Construction problems. Kochurin, N.N., [1979, 167p., rus] **34-3666**
Far North: nature and man. Prospects of economic development. Kriuchkov, V.V., [1979, 127p., rus] **34-3668**
Dynamics of vegetational cover and the development of cryogenic relief forms. Tyrtikov, A.P., [1979, 116p., rus] **34-4010**
Life in the tundra. Chernov, IU.I., [1980, 236p., rus] **34-4015**
Analyzing temperature dependence of photosynthesis in closely related plants of Arctic and temperate latitudes. P'iankov, V.I., [1980, p.37-41, rus] **34-4145**
Plant introduction and landscape gardening in the Far North. Andreev, G.N., et al, [1979, p.6-8, rus] **34-4215**
Arctic Ocean
Numerical investigation of Arctic Ocean circulation. Semtner, A.J., Jr., [1973, 251p., eng] **34-2**
Arctic Ocean heat budget; report from SCOR Working Group 58. Aagaard, K., et al, [1979, 98p., eng] **34-722**
Hydrochemical regime of the Arctic Ocean. Rusanov, V.P., et al, [1979, 144p., rus] **34-1092**
Variations in snow distribution over Arctic Ocean ice. Buzuev, A.IA., et al, [1979, p.76-85, rus] **34-1387**
Beneath the armor of ice. Mikhailovskii, A., [1979, p.67-70, rus] **34-1754**
Univariate model of the seasonal pycno-wedge and homogeneous layer in the Arctic Basin. Ponomarev, V.I., [1979, p.37-47, rus] **34-1997**
Modeling annual variations in ice conditions of the Arctic Basin. Baranov, G.I., et al, [1979, p.48-56, rus] **34-1998**
Calculating the balance of Arctic Ocean pollutants. Izmailov, V.V., et al, [1979, p.486-491, rus] **34-2022**
Arctic seafloor: past and present. Sweeney, J.F., [1979, p.2-5, eng] **34-2650**
Late Quaternary history and the formation of sediments in the marginal and inland seas. Gershanovich, D.E., ed, [1979, 212p., rus] **34-3064**
Structure of the Pliocene-Quaternary deposits of the Barents Sea bottom along the Rybachiy Island-Franz Joseph Land cross section. Blazhchishin, A.I., et al, [1979, p.13-19, rus] **34-3065**
Telemeasurement of ice cover parameters. [1977, 154p., rus] **34-3301**
Automatically controlled ice information system for the Arctic (ALISA). Bushuev, A.V., et al, [1977, p.6-16, rus] **34-3302**
Testing a numerical scheme for calculating winter ice distribution in Arctic seas. Appel', I.L., et al, [1977, p.141-150, rus] **34-3317**
History of the Pevek Regional Administration of Hydrometeorology and Environmental Monitoring. Vlasov, E.G., et al, [1979, p.4-12, rus] **34-3526**
Fog at Cape Schmidt. Makarov, A.K., et al, [1979, p.61-68, rus] **34-3530**
Wind swell regime of the eastern Arctic shelf zone. IAgubov, I.M., [1979, p.133-134, rus] **34-3538**
Stability of inertial bonds among massive ice areas. Furmanov, O.M., [1979, p.135-136, rus] **34-3539**
Variations of heat content of deep Atlantic waters in the Arctic Basin over a period of years. Bulatov, L.V., et al, [1979, p.6-13, rus] **34-3583**
Si-S analysis of surface waters in the Arctic Basin. Rusanov, V.P., et al, [1979, p.14-23, rus] **34-3584**
Seasonal and annual fluctuations in Atlantic water and heat inflow into the Arctic Basin through the Fram Strait. Mandel', S.Z., [1979, p.24-29, rus] **34-3585**
Heat transfer in Atlantic waters on the continental slope of the Laptev Sea. Belinkov, L.N., et al, [1979, p.30-36, rus] **34-3586**
Variation of sea surface temperature (from airborne radiation measurements). Gorbunov, IU.A., et al, [1979, p.47-54, rus] **34-3588**
Offshore permafrost in the Asiatic Arctic. Are, F.E., [1980, p.311-326, eng] **34-3848**
Aspects of radar signal interpretation in Arctic seashore areas. Kotlukh, A.A., [1979, p.66-74, rus] **34-3875**
Regularities of sea ice distribution in Arctic waters outside the USSR. Smirnov, V.I., [1979, p.109-112, rus] **34-3884**
Present state and prospects for studying protection of marine environments in the Arctic. Treshnikov, A.F., [1979, p.38-45, rus] **34-4168**
Forecasts and calculations of hydrometeorological elements of northern seas. Terziev, F.S., ed, [1980, 140p., rus] **34-4176**
Results of scientific investigations of the Murmansk branch of the Arctic and Antarctic Scientific Research Institute during 1972-1976. Terziev, F.S., [1980, p.6-12, rus] **34-4177**
Arctic regions
See Polar regions

Artesian water
Hydrogeological conditions of Yelanskiy artesian basin (Transbaikal). Bakhlov, A.S., [1979, p.53-58, rus] 34-717

Artificial freezing
Shaft sinking by blasting artificially frozen rocks. Oksanich, I.F., et al, [1979, p.10-12, rus] 34-344
Vibrating equipment used in mining construction. Shiral, E.N., [1978, 262p., rus] 34-848
Temporary tunnel support by artificial ground freezing. Discussion. Brahma, C.S., [1979, p.1260-1262, eng] 34-961
Artificial freezing of ground. Buchko, N.A., [1979, p.38-40, rus] 34-1153
Artificial freezing of ground in underground construction Trupak, N.G., [1979, 344p., rus] 34-1226
Pipelines in adverse environments; a state of the art, Vol.2. [1979, p.395-548, eng] 34-1398
Artificial cooling of ground with thermopiles. Vialov, S.S., et al, [1979, p.72-91, rus] 34-1541
Experimental study of heat transfer in fluid thermopiles. Konovalov, A.A., et al, [1979, p.109-117, rus] 34-1544
Strength and stability of frozen walls of shafts and mining excavations in permafrost. Vialov, S.S., et al, [1979, p.129-148, rus] 34-1547
Design and specification bid package for a 2,500 gpd eutectic freezing pilot plant. [1979, 167p., eng] 34-1574
Heat transfer problems applied to the theory of well drilling. Pudovkin, M.A., et al, [1979, 182p., rus] 34-1650
Practical advantages and prospects of drilling with simultaneous freezing of weakly consolidated rocks. Afanas'ev, I.S., et al, [1973, p.25-26, rus] 34-1956
Control of blasting effects on rocks and grounds. Vovk, A.A., ed, [1979, 224p., rus] 34-2307
Stress waves in artificially frozen water-saturated ground, studied after fuse detonation on test-benches and in mining shafts. Oksanich, I.F., et al, [1979, p.142-148, rus] 34-2311
Use of heat pipes for freezing soil, Pt. 1. Vaaz, S.L., [1979, p.608, eng] 34-2416
Improving the process of drilling holes for artificial freezing. Shparber, P.A., [1979, p.22-23, rus] 34-2698
Instructions for the performance and acceptance of jobs concerning the shield technique of building collecting-tunnels in cities and industrial enterprises. [1975, 38p., rus] 34-2863
Characteristics of the construction of frozen dams in Western Yakutia. Biianov, G.F., et al, [1980, p.213-226, eng] 34-3247
Seasonally operating units and their use in northern construction. Buchko, N.A., et al, [1980, p.227-240, eng] 34-3248
Construction of multi-storey buildings on cold piles in the city of Mirnyy. Makarov, V.I., et al, [1980, p.241-254, eng] 34-3249
Construction by the method of stabilizing perennially frozen foundation soils. Porkhaev, G.V., et al, [1980, p.283-296, eng] 34-3252
Soil stabilization and water impervious screens in hydroelectric engineering. Adamovich, A.M., [1980, 319p., rus] 34-3270
Making artificial intergelisols as a means of environmental protection in petroleum provinces of West Siberia and the northern Komi ASSR. Maksimov, G.N., [1980, p.25-27, rus] 34-3281
Concentration of impurities by progressive freezing. Halde, R., [1980, p.575-580, eng] 34-3436
Desalination of brackish water by spray freezing; progress report 1978-79. Spyker, J.W., [1980, 116p., eng] 34-3673
Local artificial freezing of thawed ground in Yakutsk. Maksimov, G., et al, [1980, p.9-11, rus] 34-3927
Tunneling through quicksand. Zaidullin, N., et al, [1980, p.8, rus] 34-3937
Keeping it cool with liquid nitrogen. [1980, p.606, 609, eng] 34-3997
Development of ground ice in hydraulic earth structures. Olovin, B.A., [1980, p.80-87, rus] 34-4042
Impervious frozen ground screens in earth dams of the "frozen" type. Makarov, V.I., [1979, p.26-51, rus] 34-4154
Heat exchange of an artificially frozen dam with the atmosphere. Olovin, B.A., [1979, p.51-61, rus] 34-4155

Artificial ice
Investigations into the feasibility of producing pressure ridge/ice sheet systems with synthetic ice. Edwards, R., et al, [1975, n.p., eng] 34-298
Surface strain of artificially thickened ice drilling platforms. Allan, A.J., [1979, p.14-24, eng] 34-921
Flooding of sea ice roads. Favrat, D., et al, [1979, p.238-249, eng] 34-935
Energy efficiency through ice storage. Stubblefield, R.R., [1979, p.43-47, eng] 34-1644

Artificial islands
Arctic island. Metge, M., [1977, 6 col., eng] 34-258
Summer environmental program Mackenzie River estuary. [1975, 3 vols., eng] 34-301
Island defense system tests. Trofimenkoff, P.N., [1976, 84p., eng] 34-306
[Proceedings]. [1979, 9 papers, eng] 34-1587
Overview of design procedure Jahns, H.O., [1979, 11p. + 10 slides, eng] 34-1588
Oceanographic design criteria. Heideman, J.C., [1979, 10p. + 4 tables + 17 slides, eng] 34-1589
Sea ice statistics Wheeler, J.D., [1979, 10p. + 11 slides, eng] 34-1590
Sea ice properties Wang, Y.S., [1979, 11p. + 24 slides, eng] 34-1591
Sea ice loads. Ralston, T.D., [1979, 27p. + 34 slides, eng] 34-1592
Geotechnical criteria. Prodanovic, A., [1979, 11p. + 11 slides, eng] 34-1593
Exploration island design. Prodanovic, A., [1979, 13p. + 25 slides, eng] 34-1594
Island defence and monitoring. Templeton, J.S., III, [1979, 13p. + 20 slides, eng] 34-1595
Production islands. Jahns, H.O., [1979, 16p. + 23 slides, eng] 34-1596
How to drill and produce in the Beaufort Sea. Bleakley, W.B., [1980, p.23-32, eng] 34-2140
Floating ice platforms: offshore oil exploration. Masterson, D.M., et al, [1980, p.133-143, eng] 34-2410
Winter exploration and drilling. Sigurdson, T., comp., [1980, p.12-50, eng] 34-2562
Floating ice platforms for oil exploration in the Arctic Islands. Ekelund, M.J., et al, [1980, p.168-183, eng] 34-3323
Implications of structure width for design ice forces. Kry, P.R., [1980, p.179-193, eng] 34-3741

Artificial melting
Laws governing the thawing of an artificially dusted glacier surface. Bazhev, A.B., [1974, p.271-296, eng] 34-1200
Hydrothermal melioration of frozen rocks in the Northeastern USSR. Perl'shtein, G.Z., [1979, 304p., rus] 34-2530
Experimental study on the most reasonable amount of ground water to be sprinkled for melting the freshly fallen snow on the roads. Nakamura, H., [1979, p.117-147, jap] 34-2549
Snow melting by sprinkling ground water. Higashiura, M., [1979, p.2834-2841, jap] 34-2550
Snow melting on roofs by sprinkling ground water. Higashiura, M., [1979, p.215-225, eng] 34-2551
Basic study of snow melting on roofs. Higashiura, M., [1979, p.17-19, jap] 34-2552
On the present situation of snow removal and melting from greenhouses. Higashiura, M., [1979, p.131-140, jap] 34-2553
Study of preventive measures from the accumulation of snow on the railway track. Hikita, S., [1974, p.76-78, eng] 34-2651
Development of equipment for preventing the adhesion of ice or snow to contact wire. Mizuno, J., et al, [1974, p.81-82, eng] 34-2652
Application of fluidic devices to a sprinkling nozzle with the aim of melting snow on the track. Takeuchi, Y., et al, [1976, p.41-42, eng] 34-2654
See also: Artificial thawing

Artificial nucleation
Studying phase transformations of water when reacting with different underlying surfaces. Girs, S.P., et al, [1979, p.83-90, rus] 34-2016

Artificial satellites
See: Spacecraft

Artificial snow
Contributions from the Shinjo Branch, No.1 (1969-1979). [1979, Var.p., jap] 34-2539
New apparatus to produce fresh snow. Nakamura, H., [1979, p.229-237, jap] 34-2540
See also: Snow manufacturing

Artificial thawing
Hydraulic dredging in freezing weather. Popov, IU.A., et al, [1979, 184p., rus] 34-580
Recommendations for using heated forms in casting monolithic concrete structures. [1977, 95p., rus] 34-583
Determining thawing rate of permafrost with an alternating electrical current. Maksimenko, E.S., [1976, p.65-70, rus] 34-706
Determining the settlement of thawing coarse clastic deposits in mountains of the northeastern USSR. Tatbashev, V.N., et al, [1979, p.173-178, rus] 34-1551
Manual operation of SECT system thaws frozen line quickly. [1979, p.23, eng] 34-1614
Hot-plate field tests of frozen soils. Chubarova, N.P., et al, [1980, p.228-230, eng] 34-2378
Construction in the Arctic and the Far North. [1970, 95p., rus] 34-2867
Water thawing of frozen ground for open pit and underground mining in the northeast of the USSR. Emel'ianov, V.I., et al, [1980, p.339-354, eng] 34-3256
Simplified method of calculating frozen rock heating by an electromagnetic field, allowing for phase transformations. Rikenglaz, L.E., et al, [1980, p.15-17, rus] 34-4252
See also: Artificial melting

Ash
See: Volcanic ash

Asia
Comparative analysis of past and present glacial and permafrost relief forms in Asia. Kazakova, N.M., [1976, p.10-45, rus] 34-2010

Asphalt concretes
See: Bituminous concretes

Asphalts
See: Bitumens

Atlantic Ocean
Boundaries of ice and iceberg distribution in the North Atlantic Ocean. Kogan, B.A., et al, [1977, p.74-82, rus] 34-357
Space-time characteristics of seasonal ice conditions in the North Atlantic. Orlov, N.F., [1980, p.55-59, rus] 34-4184

Atlases
See: Maps

Atmospheric attenuation
Statistical attenuation characteristics of visible and infrared radiation in a surface layer of the atmosphere. Filippov, V.L., et al, [1979, 17p., eng] 34-1312
Experimental laser attenuation in a snow environment. Miller, J.T., [1978, 84p., eng] 34-1703

Atmospheric circulation
Satellite ice surveillance studies in the Arctic in relationship to the general circulation. Haupt, I., et al, [1976, p.179-187, eng] 34-820
Alaska's weather and climate. Bowling, S.A., [1979, p.1-25, eng] 34-1303
Arctic haze. Shaw, G.E., [1979, p.114-127, eng] 34-1310
Episodic variations of snow contamination of an Arctic snowfield. Gjessing, Y.T., [1977, p.643-647, eng] 34-1842
Interannual atmospheric variability and associated fluctuations in Arctic sea ice extent. Walsh, J.E., et al, [1979, p.6915-6928, eng] 34-2713
Synoptic climatology of the Beaufort Sea Coast of Alaska Moritz, R.E., [1979, 176p., eng] 34-2716
Long range background forecasts of mean monthly air temperature anomalies in West Siberia. IAgudin, R.A., [1979, p.44-50, rus] 34-2967
Ten-day forecasts of mean air temperature anomalies for West and East Siberia, Ural Mountains and North Kazakhstan. Khramtsova, I.G., et al, [1979, p.51-55, rus] 34-2968
Connection between ice conditions of the Wrangel area and atmospheric circulation indices of preceding seasons. Santsevich, T.I., et al, [1979, p.30-39, rus] 34-2996
Peculiarities of ice conditions in the Southern Ocean and their relation to atmospheric circulation. Romanov, A.A., [1979, p.40-46, rus] 34-2997
Dependence of summer air temperature above the Laptev, East Siberian and Chukchi seas on ice conditions and atmospheric circulation. Teltel'baum, K.A., [1979, p.81-90, rus] 34-3001
Ice mesovortices in the nearshore regions of East Antarctica. Preobrazhenskaia, T.N., [1976, p.45-54, eng] 34-3276
Meteorology and climatology of the seasonal sea ice zone. Barry, R.G., [1980, p.133-156, eng] 34-3628
Climatic peculiarities of West Yakutia. Spesivtseva, N.A., [1980, p.87-95, rus] 34-4043
Mean 700 mb circulation patterns associated with the snowiest and least snowy winter months over the eastern United States. Wagner, A.J., [1979, p.75-94, eng] 34-4207

Atmospheric composition
Depositional history of artificial radionuclides in the Ross Ice Shelf, Antarctica. Koide, M., et al, [1979, p.205-223, eng] 34-48
Study of winter air pollutants at Fairbanks, Alaska. Coutts, H.J., [1979, 62p., eng] 34-1144

Atmospheric disturbances
Effect of wind orography in the free atmosphere on air circulation above glaciers. Ni, A.A., et al, [1977, p.30-34, rus] 34-887
Vertical profile of glacier wind (numerical experiment). Ni, A.A., et al, [1977, p.35-40, rus] 34-888
Unstabilized oscillations of drifting ice cover caused by periodic disturbances in an inhomogeneous sea. Bukatov, A.E., et al, [1979, p.77-84, rus] 34-2002
Catastrophic accumulation of wet snow and gale winds at the southern cyclone exit in April 1975. Koshenko, A.M., et al, [1977, p.114-121, rus] 34-2892
Synoptic conditions and the formation of major mean monthly air temperature anomalies in West Siberia. Zubovich, M.G., et al, [1979, p.24-36, rus] 34-2966
Forecasting surface wind velocities in the Krasnoyarsk area. Zalizniak, E.L., [1979, p.114-120, rus] 34-2970
Influence of the Indian monsoon on glaciation in the Pamirs. Arushanov, M.L., et al, [1979, p.143-150, rus] 34-3130
Synoptic-statistical method of evaluating the possibility of southerly storm formation and velocity. Zimich, P.I., [1979, p.36-41, rus] 34-3529
Uninterrupted periods of strong winds (>15m/s) over West Siberia and Altai territory. Slutskil, V.I., et al, [1979, p.31-40, rus] 34-3578
Relations between wind velocity and air temperature in Siberia. Drobyshev, A.D., [1979, p.79-89, rus] 34-3581
Surge lowering of levels in the Barents and White seas. Potanin, V.A., et al, [1980, p.13-20, rus] 34-4178

Atmospheric physics

Is there liquid water on Europa. Cassen, P., et al, [1979, p.731-734, eng] **34-965**

Alaska's weather and climate: a collection of articles written for the educated layman by staff members of the Geophysical Institute and the National Weather Service in Alaska. Wendler, G., ed, [1979, 153p., eng] **34-1302**

Microphysics of clouds and precipitation. Pruppacher, H.R., et al, [1978, 714p., eng] **34-2515**

Atmospheric pressure

Basis for forecasting the Arctic sea ice over a few months to many years. Lamb, H.H., [1979, 84p., eng] **34-1046**

Vacuum sewer systems for northern applications. Averill, D.W., et al, [1974, p.258-286, eng] **34-1478**

Vacuum sewage transport and treatment in rural areas in Denmark. Jespersen, F., [1974, p.287-304, eng] **34-1479**

Secular cycle of solar activity and baric field of Earth's Northern Hemisphere. Maksimov, I.V., et al, [1979, p.31-43, eng] **34-1888**

Interannual atmospheric variability and associated fluctuations in Arctic sea ice extent. Walsh, J.E., et al, [1979, p.6915-6928, eng] **34-2713**

Ice conditions in areas adjacent to the North Atlantic Ocean from July to September 1979. [1980, p.42-46, eng] **34-2788**

Attenuation

Part 1. The effect of temperature and partial melting on velocity and attenuation in a simple binary system. Part. 2. Effect of temperature and pressure on elastic properties of polycrystalline and single crystal MgO. Spetzler, H.A.W., [1970, 258p., eng] **34-2133**

Ultrasonic study in supercooled water to -26C. Baeri, J.C., et al, [1979, p.L/403-L/405, fre] **34-2861**

See also: Atmospheric attenuation

Augers

Hand-held ice auger. Anderson, P.J., [1977, 6 col., eng] **34-262**

Austria

Secular variations of snow cover conditions in Austria. Steinhauser, F., [1970, p.3-19, ger] **34-1663**

—Alps

Glaciers of the Austrian Alps, 1976-1977. Kinzl, H., [1978, p.231-238, ger] **34-1273**

Glaciers of the Austrian Alps, 1977/78. Kinzl, H., [1979, p.105-113, ger] **34-3979**

—Gepatschferner

New map "Gepatschferner 1971", scale 1:10,000. Brunner, K., [1978, p.133-151, ger] **34-1265**

Contributions to the survey of the Gepatschferner. Finsterwalder, R., [1978, p.153-159, ger] **34-1266**

Automatic control

Automatic controls for salt and abrasive spreaders. Fitzpatrick, M.W., et al, [1978, p.64-67, eng] **34-1611**

Automobiles

See: Motor vehicles

Avalances

See also: Snow slides

Avalanche deposits

Geomorphic work of snow avalanches in the Canadian Rocky Mountains. Luckman, B.H., [1978, p.261-276, eng] **34-794**

Huge avalanche near Bucheben, Austria. Tollner, H., [1970, p.51-53, ger] **34-1667**

Evaluating accumulative effects of a catastrophic avalanche in the Elbrus Mountain area. Zolotarev, E.A., et al, [1979, p.47-53, rus] **34-1758**

Avalanche impact landforms in Troms, north Norway. Corner, G.D., [1980, p.1-10, eng] **34-4190**

Avalanche engineering

General information on snowfall in the El'brus Mountain area in relation to catastrophic avalanches. Kuvaeva, G.M., [1979, p.49-55, rus] **34-609**

Glaciology of mountain regions. Suslov, V.F., ed, [1979, 160p., rus] **34-1120**

Construction of 220 kv overhead lines in avalanche areas of the Baikal and Severo-Muyskiy ranges. Akulov, V.V., et al, [1979, p.75-84, rus] **34-1129**

Ways and means of protecting mines from avalanches. Kozhevnikov, V.S., [1979, p.104-112, rus] **34-1132**

Protection from glacial mudflows. Voitkovskii, K.F., et al, [1979, p.191-198, rus] **34-1553**

Avalanche danger in the Baykal Amur railroad area. Volodicheva, N.A., [1979, p.138-148, rus] **34-2754**

Methods and results of artificial avalanche triggering in the El'brus Mountain area. Bolov, V.R., et al, [1980, p.43-46, rus] **34-3416**

All-Union seminar on the organization of avalanche service. Grishchenko, V.F., et al, [1979, p.33-36, rus] **34-3686**

See also: Snow fences

Avalanche erosion

Evaluating accumulative effects of a catastrophic avalanche in the Elbrus Mountain area. Zolotarev, E.A., et al, [1979, p.47-53, rus] **34-1758**

Destructive avalanches in Japan (No.1) –of Yamagata-ken (1929-1975), Niigata-ken (1945-1974) and a whole country (1927-1976). [1979, p.1-92, jap] **34-2556**

Disastrous avalanches in Svanetia in Winter 1975-76. Dziuba, V.V., et al, [1979, p.228-234, rus] **34-3146**

Avalanche forecasting

Programs for weather type indices used in the computer processing of snow and avalanche information. Grakovich, V.F., et al, [1979, p.70-81, rus] **34-611**

Automated systems for collecting snow and avalanche information. Bolov, V.R., [1979, p.82-86, rus] **34-612**

Evaluation and prediction of avalanche hazard, San Juan Mountains, Colorado. Armstrong, R.L., et al, [1978, 139p., eng] **34-1110**

Central avalanche hazard forecasting: summary of scientific investigations. LaChapelle, E.R., et al, [1978, 203p., eng] **34-1118**

Glaciology of mountain regions. Suslov, V.F., ed, [1979, 160p., rus] **34-1120**

Empirical method of avalanche forecasting. Moskalev, IU.D., [1979, p.51-60, rus] **34-1126**

Methods of forecasting wet snow avalanches in the Dukant station area. Kharitonov, G.G., [1979, p.61-67, rus] **34-1127**

Evaluating avalanche danger in unexplored areas of the Pamirs. Bilialov, K.B., [1979, p.68-74, rus] **34-1128**

Construction of 220 kv overhead lines in avalanche areas of the Baikal and Severo-Muyskiy ranges. Akulov, V.V., et al, [1979, p.75-84, rus] **34-1129**

Avalanche activity in the Kyzylcha River Basin, West Tien Shan. Gapishko, V.G., [1979, p.85-94, rus] **34-1130**

Firn-ice avalanches in the Fortambek glacier basin. Freifel'd, V.IA., [1979, p.95-103, rus] **34-1131**

Problems and results of avalanche and mudflow studies by Moscow University geographers. Miagkov, S.M., et al, [1979, p.52-57, rus] **34-1639**

Sonnblick Station: a reporting station of the official Salzburg avalanche warning service. Mahringer, W., [1976, p.85-89, ger] **34-1676**

Forecasting avalanches of freshly fallen snow in the Tekeli River Basin, Dzhungarskiy Alatau. Toporkov, A.D., [1979, p.143-146, rus] **34-1983**

Landscape-geographic technique of mapping snow cover under complicated orographic conditions. Kondakova, N.L., [1979, p.139-143, rus] **34-2194**

Avalanche danger in the Baykal Amur railroad area. Volodicheva, N.A., [1979, p.138-148, rus] **34-2754**

Snow avalanches in Zailiyskiy and Dzungarskiy Alatau. Severskii, I.V., [1978, 256p., rus] **34-3072**

Probability criteria for avalanche triggering. Bozhinskii, A.N., [1979, p.107-112, rus] **34-3125**

Types of snow cover development determining avalanche formation processes in the El'brus Mountain area. Salova, T.A., [1979, p.223-228, rus] **34-3145**

Forecasting fresh snow avalanches using discriminant analysis. Drozdovskaia, N.F., et al, [1977, p.148-156, rus] **34-3388**

Evaluating avalanche danger in the Katunskiy Range, Altai. Reviakin, V.S., et al, [1977, p.157-162, rus] **34-3389**

Snow physics, avalanches, mudflows. Zalikhanov, M.Ch., ed, [1980, 160p., rus] **34-3411**

Snow cover development and its dependence on winter temperature and slope exposition in the El'brus Mountain area. Kunaeva, G.M., et al, [1980, p.3-12, rus] **34-3412**

Avalanche regime of the El'brus Mountain area. Urumbaev, N.A., [1980, p.13-20, rus] **34-3413**

Thickness of fluid film on ice crystal surfaces. Badakhov, Kh.I., [1980, p.57-66, rus] **34-3419**

Preliminary analysis of natural conditions in Sikhote Alin in relation to avalanche danger. Glubokov, V.N., et al, [1979, p.56-61, rus] **34-3565**

Workshop of the Glaciology Section and tutorial seminar, Zvenigorod, June 1979. Barbash, V.R., [1979, p.5-29, rus] **34-3684**

All-Union seminar on the organization of avalanche service. Grishchenko, V.F., et al, [1979, p.33-36, rus] **34-3686**

Calculating boundaries of avalanche danger zones of specified frequency from morphometry of avalanche foci. Zolotarev, E.A., [1979, p.193-198, rus] **34-3713**

Time-series modelling of avalanche activity from meteorological data. Salway, A.A., [1979, p.513-528, eng] **34-3788**

Method of predicting snow avalanches by means of image recognition programs. Khomeniuk, IU.V., [1978, p.67-73, eng] **34-3967**

Avalanche formation

General information on snowfall in the El'brus Mountain area in relation to catastrophic avalanches. Kuvaeva, G.M., [1979, p.49-55, rus] **34-609**

Programs for weather type indices used in the computer processing of snow and avalanche information. Grakovich, V.F., et al, [1979, p.70-81, rus] **34-611**

Empirical method of avalanche forecasting. Moskalev, IU.D., [1979, p.51-60, rus] **34-1126**

Evaluating avalanche danger in unexplored areas of the Pamirs. Bilialov, K.B., [1979, p.68-74, rus] **34-1128**

Construction of 220 kv overhead lines in avalanche areas of the Baikal and Severo-Muyskiy ranges. Akulov, V.V., et al, [1979, p.75-84, rus] **34-1129**

Avalanche activity in the Kyzylcha River Basin, West Tien Shan. Gapishko, V.G., [1979, p.85-94, rus] **34-1130**

Firn-ice avalanches in the Fortambek glacier basin. Freifel'd, V.IA., [1979, p.95-103, rus] **34-1131**

Ways and means of protecting mines from avalanches. Kozhevnikov, V.S., [1979, p.104-112, rus] **34-1132**

Influence of snow fences on deposition and quality of the snow in an avalanche starting zone. Brugger, E., et al, [1978, p.215-225, ger] **34-1272**

Problems and results of avalanche and mudflow studies by Moscow University geographers. Miagkov, S.M., et al, [1979, p.52-57, rus] **34-1639**

Huge avalanche near Bucheben, Austria. Tollner, H., [1970, p.51-53, ger] **34-1667**

Snow and avalanches in the Davos region. Fohn, P., et al, [1979, p.29-40, ger] **34-1705**

Snow and avalanche conditions in the Swiss Alps. Schild, M., et al, [1979, p.41-88, ger] **34-1706**

Accidents and damage caused by avalanches. Schild, M., et al, [1979, p.89-152, ger] **34-1707**

Proceedings of the Davos Seminar, September 1978. [1979, 258p., eng] **34-1777**

Remote assessment of snow distribution and avalanche activity. Rychetnik, J., [1979, p.81-95, ger] **34-1782**

Distribution and structure of snow cover under forest trees and full-grown forest. In der Gand, H., [1979, p.97-119, ger] **34-1783**

Assessment and analysis of snow breakage in fir trees in the Pfalz Forest, 1968 and 1975. Lessel, A., [1979, p.211-215, ger] **34-1790**

Forest and avalanches. De Quervain, M., [1979, p.219-239, ger] **34-1791**

Avalanche frequency and risk estimation in forest sites. Fohn, P.M.B., [1979, p.241-254, eng] **34-1792**

Some promising afforestation tests based on the laying out of logs on avalanche sites. Wakabayashi, R., [1979, p.255-260, eng] **34-1793**

Ecosystem of avalanche protection forests. Mayer, H., [1979, p.281-299, ger] **34-1795**

Development and structure of pine forests in Slovakia and their effectiveness as avalanche protection. Korpel', S., [1979, p.301-317, ger] **34-1796**

Present state of mountain forests, consequences for their avalanche protection function, silvicultural measures. Ott, E., [1979, p.321-330, eng] **34-1797**

Silvicultural planning in avalanching forests. Fiebiger, G., [1979, p.331-348, eng] **34-1798**

Regime of glaciers and snow avalanches in Kazakhstan. Tokmagambetov, G.A., ed, [1979, 175p., rus] **34-1970**

Forecasting avalanches of freshly fallen snow in the Tekeli River Basin, Dzhungarskiy Alatau. Toporkov, A.D., [1979, p.143-146, rus] **34-1983**

Geomorphological conditions of avalanche formation in the eastern part of the northern slope of the Terskey Alatau Range (Karkara, Tekes, U'Ken-Kokpak, Bayankol river basins). Blagoveshchenskii, V.P., [1979, p.161-169, rus] **34-1985**

Heavy snowfalls and avalanches in the 1975-76 winter season in the Ukrainian Carpathian. Grishchenko, V.F., et al, [1978, p.86-90, rus] **34-2052**

Destructive avalanches in Japan (No.1) –of Yamagata-ken (1929-1975), Niigata-ken (1945-1974) and a whole country (1927-1976). [1979, p.1-92, jap] **34-2556**

Snow avalanches in Zailiyskiy and Dzungarskiy Alatau. Severskii, I.V., [1978, 256p., rus] **34-3072**

Probability criteria for avalanche triggering. Bozhinskii, A.N., [1979, p.107-112, rus] **34-3125**

Types of snow cover development determining avalanche formation processes in the El'brus Mountain area. Salova, T.A., [1979, p.223-228, rus] **34-3145**

Disastrous avalanches in Svanetia in Winter 1975-76. Dziuba, V.V., et al, [1979, p.228-234, rus] **34-3146**

Statistical analysis of the influence of morphology and morphometry of avalanche foci on ejection distances. Blagoveshchenskii, V.P., [1977, p.141-147, rus] **34-3387**

Forecasting fresh snow avalanches using discriminant analysis. Drozdovskaia, N.F., et al, [1977, p.148-156, rus] **34-3388**

Evaluating avalanche danger in the Katunskiy Range, Altai. Reviakin, V.S., et al, [1977, p.157-162, rus] **34-3389**

Avalanche regime of the El'brus Mountain area. Urumbaev, N.A., [1980, p.13-20, rus] **34-3413**

Friable zones in snow cover and their meaning in avalanche formation. Bolov, V.R., et al, [1980, p.21-28, rus] **34-3414**

Mechanism of avalanche formation from snow slabs with friable zones. Bolov, V.R., [1980, p.29-42, rus] **34-3415**

Methods and results of artificial avalanche triggering in the El'brus Mountain area. Bolov, V.R., et al, [1980, p.43-46, rus] **34-3416**

Determining optimal time for artificial triggering of fresh snow avalanches. Khalkechev, V.A., [1980, p.47-52, rus] **34-3417**

Regularities governing snow cover stability on slopes. Mironov, V.N., et al, [1980, p.53-56, rus] **34-3418**

Compiling avalanche cadasters for the Terek River Basin. Kozhaev, D.A., [1980, p.87-93, rus] **34-3423**

Avalanche cadasters for Dagestan and Transcaucasia. Abshelishvili, K.I., et al, [1980, p.94-97, rus] **34-3424**

Preliminary analysis of natural conditions in Sikhote Alin in relation to avalanche danger. Glubokov, V.N., et al, [1979, p.56-61, rus] **34-3565**

Avalanche danger on Lysaya Mountain (southern Sikhote Alin range). Ratnikov, A.V., [1979, p.62-63, rus] **34-3566**

All-Union seminar on the organization of avalanche service. Grishchenko, V.F., et al, [1979, p.33-36, rus] 34-3686
Calculating boundaries of avalanche danger zones of specified frequency from morphometry of avalanche foci. Zolotarev, E.A., [1979, p.193-198, rus] 34-3713
Time-series modelling of avalanche activity from meteorological data. Salway, A.A., [1979, p.513-528, eng] 34-3788

Avalanche mechanics

Dynamics of avalanche natural complexes: an example from the high mountain Teberda State Reserve, Caucasus Mountains, USSR. Khapaev, S.A., [1978, p.335-344, eng] 34-799
Empirical method of avalanche forecasting. Moskalev, IU.D., [1979, p.51-60, rus] 34-1126
Evaluating avalanche danger in unexplored areas of the Pamirs. Bilialov, K.B., [1979, p.68-74, rus] 34-1128
Ways and means of protecting mines from avalanches. Kozhevnikov, V.S., [1979, p.104-112, rus] 34-1132
Evaluating accumulative effects of a catastrophic avalanche in the Elbrus Mountain area. Zolotarev, E.A., et al, [1979, p.47-53, rus] 34-1758
Statistical analysis of the influence of morphology and morphometry of avalanche foci on ejection distances. Blagoveshchenskiĭ, V.P., [1977, p.141-147, rus] 34-3387
Snow and avalanche loads on remote-control snow surveying installations. Bagov, M.M., et al, [1980, p.75-81, rus] 34-3421
Avalanche release, motion, and impact. Perla, R.I., [1980, p.397-462, eng] 34-3662
Calculating boundaries of avalanche danger zones of specified frequency from morphometry of avalanche foci. Zolotarev, E.A., [1979, p.193-198, rus] 34-3713
Forces on structures impacted and enveloped by avalanches. Pedersen, R.R., et al, [1979, p.529-534, eng] 34-3789
Recommendation for the application of the Roche index for slab avalanche release. Sommerfeld, R.A., et al, [1979, p.547-549, eng] 34-3791

Avalanche modeling

Evaluation and prediction of avalanche hazard, San Juan Mountains, Colorado. Armstrong, R.L., et al, [1978, 139p., eng] 34-1110

Avalanche triggering

Artificial release of avalanches in North America. Perla, R., [1978, p.235-240, eng] 34-793
Alternate methods of avalanche control. Phase 4. LaChapelle, E.R., et al, [1978, 62p., eng] 34-1117
Regime of glaciers and snow avalanches in Kazakhstan. Tokmagambetov, G.A., ed, [1979, 175p., rus] 34-1970
Forecasting avalanches of freshly fallen snow in the Tekeli River Basin, Dzhungarskiy Alatau. Toporkov, A.D., [1979, p.143-146, rus] 34-1983
Geomorphological conditions of avalanche formation in the eastern part of the northern slope of the Terskey Alatau Range (Karkara, Tekes, Ul'ken-Kokpak, Bayankol river basins). Blagoveshchenskiĭ, V.P., [1979, p.161-169, rus] 34-1985
Heavy snowfalls and avalanches in the 1975-76 winter season in the Ukrainian Carpathian. Grishchenko, V.F., et al, [1978, p.86-90, rus] 34-2052
Snow avalanches in Zailiyskiy and Dzungarskiy Alatau. Severskiĭ, I.V., [1978, 256p., rus] 34-3072
Probability criteria for avalanche triggering. Bozhinskiĭ, A.N., [1979, p.107-112, rus] 34-3125
Types of snow cover development determining avalanche formation processes in the El'brus Mountain area. Salova, T.A., [1979, p.223-228, rus] 34-3145
Disastrous avalanches in Svanetia in Winter 1975-76. Dziuba, V.V., et al, [1979, p.228-234, rus] 34-3146
Methods and results of artificial avalanche triggering in the El'brus Mountain area. Bolov, V.R., et al, [1980, p.43-46, rus] 34-3416
Determining optimal time for artificial triggering of fresh snow avalanches. Khalkechev, V.A., [1980, p.47-52, rus] 34-3417
Preliminary analysis of natural conditions in Sikhote Alin in relation to avalanche danger. Glubokov, V.N., et al, [1979, p.56-61, rus] 34-3565
Avalanche release, motion, and impact. Perla, R.I., [1980, p.397-462, eng] 34-3662
Calculating boundaries of avalanche danger zones of specified frequency from morphometry of avalanche foci. Zolotarev, E.A., [1979, p.193-198, rus] 34-3713

Avalanches

Determination of snow avalanche frequency through tree-ring analysis and historical records at Ophir, Colorado. Carrara, P.E., [1979, p.773-780, eng] 34-46
Snow clearance—west Himalayan road—some problems. Soin, J.S., [1979, p.141-150, eng] 34-74
Accelerating strain preceding an avalanche. Sommerfeld, R.A., [1979, p.402-404, eng] 34-555
Avalanche and mudflow danger in areas of future economic development of the western Caucasus. Zalikhanov, M.Ch., et al, [1979, p.56-69, rus] 34-610
Mountain geology and land-use implications; proceedings of the symposium of the International Geographical Union, Commission on High-altitude Geoecology, Caucasus Mountains, USSR, July 1976. Ives, J.D., ed, [1978, p.159-548, eng] 34-790
Natural hazards maps for land-use planning, San Juan Mountains, Colorado, U.S.A. Ives, J.D., et al, [1978, p.185-212, eng] 34-791
Avalanches of the USSR and their influence on the formation of natural territory complexes. Akif'eva, K.V., et al, [1978, p.223-233, eng] 34-792
Geomorphic work of snow avalanches in the Canadian Rocky Mountains. Luckman, B.H., [1978, p.261-276, eng] 34-794
Data of glaciological studies. Saidi, M.D., ed, [1974, 713p., eng] 34-1193
Engineering problems of geocryological surveying of BAM construction sites. Vialov, S.S., [1979, p.149-156, rus] 34-1548
Electromagnetic radiation of snow and ice during dynamic processes. Kachurin, L.G., et al, [1979, p.583-585, rus] 34-1638
Problems and results of avalanche and mudflow studies by Moscow University geographers. Miagkov, S.M., et al, [1979, p.52-57, rus] 34-1639
Snow and avalanches in the Swiss Alps, winter 1977-1978. [1979, 152p., ger] 34-1704
Distribution of atmospheric precipitation on northern slopes of the Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskiĭ, I.V., [1979, p.37-46, rus] 34-1974
Dangerous phenomena on northern slopes of Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskiĭ, I.V., et al, [1979, p.146-161, rus] 34-1984
Firn field types in the Aktru Basin and their relation to glaciation. Ivanov, N.I., [1967, p.205-226, rus] 34-1994
Mudflow sources in the Ukrainian Carpathians. Alzenberg, M.M., et al, [1978, p.64-70, rus] 34-2050
Allowing for mudflows and snow avalanches when designing and building the Orenburg-west USSR boundary gas pipeline. Alzenberg, M.M., et al, [1978, p.75-85, rus] 34-2051
Extreme snow conditions and their role in landscape formation. IAshina, A.V., [1979, p.143-146, rus] 34-2195
Problems in studying glaciological terminology. Kotliakov, V.M., [1979, p.179-184, rus] 34-2202
Recent relief-forming processes in Siberia. Ivanovskiĭ, L.N., ed, [1978, 139p., rus] 34-2293
Secrets of natural ice in Kazakhstan. Tokmagambetov, G.A., [1978, 151p., rus] 34-2312
Switzerland and its glaciers from the ice age to the present. [1979, 191p., ger] 34-2356
Engineering-geomorphological peculiarities of studying the Baĭkal Amur railroad area. Voskresenskiĭ, S.S., et al, [1979, p.109-120, rus] 34-2751
Glacial mudflows in the Baykal Amur railroad area. Perov, V.F., et al, [1979, p.148-159, rus] 34-2755
Snow avalanches in Zailiyskiy and Dzungarskiy Alatau. Severskiĭ, I.V., [1978, 256p., rus] 34-3072
Report on Soviet glaciological studies in 1975-1978. [1979, p.5-34, rus] 34-3116
Program and guide for compilation of the applied part of the *World atlas of snow and ice resources*. [1979, p.35-63, rus] 34-3117
Calculating avalanche alimentation of glaciers. Kharitonov, G.G., [1979, p.155-159, rus] 34-3132
Surging Didal' glacier. Uskov, IU.S., et al, [1979, p.170-175, rus] 34-3135
Problems of mountain glaciology. [1977, 212p., rus] 34-3379
Intracontinental version of earth's cryosphere. Reviakin, V.S., [1977, p.12-35, rus] 34-3381
Evaluating avalanche recurrence in Zailiyskiy Alatau from dendrochronological data. Severskiĭ, I.V., et al, [1977, p.131-140, rus] 34-3386
Snow physics, avalanches, mudflows. Zalikhanov, M.Ch., ed, [1980, 160p., rus] 34-3411
Avalanche cadasters for Dagestan and Transcaucasia. Abshelishvili, K.L., et al, [1980, p.94-97, rus] 34-3424
Snow cover observations at Avalanche Research Station, Toikanbetsu, northern Hokkaido, 12 (1977-1978 and 1978-1979). Huzioka, T., et al, [1979, p.17-32, jap] 34-3454
Dynamics of snow and ice masses. Colbeck, S.C., ed, [1980, 468p., eng] 34-3655
Avalanche release, motion, and impact. Perla, R.I., [1980, p.397-462, eng] 34-3662
Interrelations and succession in the compilation of thematic sections of the World Atlas of Snow and Ice Resources. Dreier, N.N., [1979, p.37-42, rus] 34-3688
Mountain forests. Sinitsyn, S.G., et al, [1979, 200p., rus] 34-3754
Recent exogenic processes in the southeastern Lake Baykal area and their influence on hydromeliorative construction. Imetkhenov, A.B., [1979, p.94-104, rus] 34-4100

Backscattering

Remote sounding of high clouds: 1. Calculation of visible and infrared optical properties from lidar and radiometer measurements. Platt, C.M.R., [1979, p.1130-1143, eng] 34-889
Surface-based scatterometer results of Arctic sea ice. Onstott, R.G., et al, [1979, p.78-85, eng] 34-1167
Model for space radar clutter. Tomlinson, P.G., [1979, 107p., eng] 34-1350
Backscatter measurements of sea ice with a helicopter-borne scatterometer. Patel, J.S., et al, [1979, 120p., eng] 34-1965
Imaging radar observations of frozen Arctic lakes. Elachi, C., et al, [1976, p.169-175, eng] 34-2580
Backscatter and emission of snow: literature review and recommendations for future investigations. Ulaby, F.T., et al, [1978, 138p., eng] 34-3319
Acoustic backscattering from uniform Arctic sea ice. Garrison, G.R., et al, [1975, p.34-38, eng] 34-3432
Active and passive microwave response to snow parameters. 1. Wetness. Stiles, W.H., et al, [1980, p.1037-1044, eng] 34-4071
Active passive microwave response to snow parameters. 2. Water equivalent of dry snow. Ulaby, F.T., et al, [1980, p.1045-1049, eng] 34-4072

Bacteria

Method for reducing frost damage of plants. Arny, D.C., et al, [1977, 4 col., eng] 34-148
Phosphorus regeneration in fresh-water paramecia. Buechler, D.G., et al, [1974, p.339-343, eng] 34-201
Controls on decomposition and mineral release in wet meadow tundra—a simulation approach. Barkley, S.A., et al, [1978, p.754-778, eng] 34-911
Long-term effects of land application of domestic wastewater, Roswell, New Mexico, slow rate irrigation site. Koerner, E.L., et al, [1979, 187p., eng] 34-1112
Psychrophiles in waste treatment. Henry, J.G., [1974, p.305-331, eng] 34-1480
Chlorine disinfection of treated wastewater. Gordon, R.C., et al, [1974, p.438-481, eng] 34-1485
Lime disinfection of sewage bacteria at low temperature. Morrison, S.M., et al, [1974, p.482-506, eng] 34-1486
Ozone disinfection of wastewaters at low temperatures. Kinman, R.N., [1974, p.507-522, eng] 34-1487
Productivity of Taymyr soil microflora as a criterion of biologic activity. Parinkina, O.M., [1979, p.160-165, rus] 34-3046

Bald peaks

Bald peaks in the Lake Baykal area and northern Transbaikal, their boundaries and distribution. Vyrkin, V.B., [1978, p.63-68, rus] 34-2295
Slope denudation in the bald peak zone of western Sayan. Rashba, I.N., [1978, p.69-87, rus] 34-2296

Balloons

Use of tethered radiosondes in the Aktru mountain glacier basin. Slutskiĭ, V.I., et al, [1973, p.82-86, rus] 34-109
Using balloons and dirigibles in construction. Spasskiĭ, D.S., [1979, p.29, rus] 34-2094

Baltic Sea

Regionalization of Poland's coast in terms of ice ridges piled on beaches. Zakrzewski, W., [1978, p.3-16, pol] 34-2291

Banks (waterways)

Effect of permafrost on evolution of river beds and hydraulic structures built on river beds and river banks. Levashov, A.A., et al, [1977, p.12-17, rus] 34-2436
Bank erosion in the southern Mackenzie River Delta, Northwest Territories, Canada. Outhet, D.N., [1974, 89p., eng] 34-2679
Bechevnik: a river bank feature from Siberia. Hamelin, L.E., [1979, p.70-72, eng] 34-3765

Barents Sea

Atmospheric processes and characteristics of underlying surfaces during the period preceding the formation of temperature anomalies. [1979, p.12-23, rus] 34-2965
Long range background forecasts of mean monthly air temperature anomalies in West Siberia. IAgudin, R.A., [1979, p.44-50, rus] 34-2967
Maximum heat content of the Barents Sea active layer as an indication of future hydrometeorological processes. Moskal', T.N., [1979, p.66-80, rus] 34-3000
Heat content distribution in the active layer of the Barents Sea in August. Moskal', T.N., [1979, p.109-116, rus] 34-3004
Postglacial and Holocene paleogeography of the Barents Sea. Kotenev, B.N., [1979, p.20-28, rus] 34-3066
Evolution of late and postglacial sediment accumulation in offshore areas of the Barents and White seas. Evzerov, V.IA., [1979, p.29-33, rus] 34-3067

Barges

Arctic drilling barge study. [1971, var. p., eng] 34-557

Barometric pressure

See: Atmospheric pressure

Barrier ice

See: Ice shelves

Basal sliding

Sliding of ice. Hutter, K., [1979, p.71-92, ger] 34-363
Processes of glacier erosion on different substrata. Boulton, G.S., [1979, p.15-38, eng] 34-2220
Local friction laws for glaciers: a critical review and new openings. Lliboutry, L., [1979, p.67-95, eng] 34-2224
Unsolved general glacier sliding problem. Weertman, J., [1979, p.97-115, eng] 34-2225
Mathematical approach to the theory of glacier sliding. Fowler, A.C., [1979, p.131-141, eng] 34-2227
Simulated glacier sliding over an obstacle. Brepson, R., [1979, p.143-156, eng] 34-2228
Empirical studies of ice sliding. Budd, W.F., et al, [1979, p.157-170, eng] 34-2229

Basal sliding *(cont.)*
Giant grooves made by concentrated basal ice streams. Goldthwait, R.P., [1979, p.297-307, eng] **34-2240**
Subglacial regelation water film. Hallet, B., [1979, p.321-334, eng] **34-2242**
Recent variation of ice sheet in Mizuho Plateau. Mae, S., [1979, p.1-7, eng] **34-2499**
Basal sliding of a thinning ice sheet, Mizuho Plateau, East Antarctica. Mae, S., [1979, p.53-61, eng] **34-2816**

Bases
See: Pavement bases; Permafrost bases

Basins
See: River basins

Bathymetry
Coastal environment, bathymetry, and physical oceanography along the Southern Alaska and Bering Seas. Gatto, L.W., [1980, 357p., eng] **34-3328**

Baykal Amur railroad
Hygienic evaluation of water supply and waste disposal along the Baykal Amur railroad. Pletnikova, I.P., et al, [1979, p.7-8, rus] **34-238**
Searching for water supply sources in the central BAM area. Danshin, [illegible] **34-710**
Structural-statistical regularities governing runoff variations along the eastern section of the Baykal Amur railroad. Lobanova, N.I., et al, [1977, p.77-85, rus] **34-354**
Reference basin method of evaluating calculated maximum river discharge in the eastern section of the Baykal Amur railroad. Ponomareva, T.G., [1977, p.123-130, rus] **34-355**
Evaluation and classification of soils in the Zeya-Bureya plain and areas adjacent to the BAM zone. Onishchuk, V.S., [1979, p.54-59, rus] **34-440**
Use and protection of lands in the northern Irkutsk region and the BAM zone. Belykh, A.G., et al, [1979, p.95-99, rus] **34-445**
Sewage treatment systems for the Baykal Amur railroad area. Neparidze, R.Sh., et al, [1979, p.20-21, rus] **34-500**
In the forefront of scientific and technical progress. Fedorov, D.I., [1979, p.51-54, rus] **34-521**
Structure and dynamics of geosystems. Mikheev, V.S., ed, [1979, 136p., rus] **34-670**
Geographic problems of the Baykal Amur railroad zone. Vorob'ev, V.V., ed, [1979, 143p., rus] **34-680**
Historic and geographic evaluation of economic development of mountain taiga areas of the BAM zone. Kosmachev, K.P., [1979, p.3-17, rus] **34-681**
Vegetational cover in areas adjacent to the Baykal Amur railroad and problems of its preservation. Belov, A.V., et al, [1979, p.36-90, rus] **34-683**
Water supply and sewage at the Baykal Amur railroad. Fedotov, V.P., [1975, 79p., rus] **34-847**
Usefulness of aerial photography in evaluating lands in the Lake Baykal area of the BAM zone. Parshikov, V.P., [1979, p.278-285, rus] **34-957**
Hydrogeological problems of the Baykal Amur railroad. Pinneker, E.V., et al, [1977, p.66-70, rus] **34-995**
Hydrogeochemical investigations of the BAM zone. Lomonosov, I.S., [1977, p.87-94, rus] **34-996**
Antecedent and recent stream pattern of the Amur-Zeya Plain from spaceborne photography. Muzis, A.I., [1979, p.75-80, rus] **34-1070**
Geography of Siberian resource development. Kosmachev, K.P., ed, [1979, 107p., rus] **34-1099**
Evaluating structural design of modular buildings for repair shops of the Baykal Amur railroad. Leibman, G.D., et al, [1978, p.67-72, rus] **34-1105**
Construction of 220 kv overhead lines in avalanche areas of the Baikal and Severo-Muyskiy ranges. Akulov, V.V., et al, [1979, p.75-84, rus] **34-1129**
Peculiarities of special mobile power supply stations for the Baykal Amur railroad. Talts, V.G., [1979, p.26-28, rus] **34-1254**
Allowing for seismic effects when designing reinforced concrete culverts beneath embankments. Abduzhabarov, A.Kh., [1979, p.43-44, rus] **34-1256**
Performance of BTS-150 drills on construction sites of the Baykal Amur railroad. Bardyshev, O.A., et al, [1979, p.26-27, rus] **34-1428**
Preliminary electric heating of concrete mixtures on construction sites. Kalmykov, V.A., [1979, p.50, rus] **34-1429**
Grout injection used in tunnel construction in permafrost. Fursov, L.F., [1979, p.105-110, rus] **34-1531**
Engineering problems of geocryological surveying of BAM construction sites. Vialov, S.S., [1979, p.149-156, rus] **34-1548**
Engineering and geological justifications of construction in the BAM area. Levkovich, A.I., [1979, p.157-164, rus] **34-1549**
Transportation, a key issue in the development of productive forces in the North. Nekrasov, N.N., [1979, p.5-13, rus] **34-1620**
Economic development of the northern USSR and the formation of a basic transportation pattern. Burkhanov, [illegible] **34-1621**
Baykal Amur railroad. Problems of inter-regional economic communications and natural resource development in the Near North. D'iakonov, F.V., [1979, p.33-42, rus] **34-1623**
Passanger transport in northern population resettlement systems. Belinskii, A.IU., [1979, p.98-105, rus] **34-1630**
Discussion of scientific and economic problems of northern development. Glabina, N.K., et al, [1979, p.137-146, rus] **34-1636**
Planning and construction of Tynda. Traibman, G., [1979, p.46-49, rus] **34-1775**
Rock fill stability on embankment slopes. Matveev, K.V., et al, [1977, p.80-87, rus] **34-2056**
Using integrated geophysical methods for evaluating earthquake danger in permafrost areas. Pavlov, O.V., et al, [1975, p.66-67, rus] **34-2060**
Minerals and raw material bases in the Baykal Amur railroad area. Kogan, S.I., et al, [1979, p.1-5, rus] **34-2127**
Kodar-Udokan copper ore region; geological case studies. Valiakh, V.M., et al, [1979, p.45-49, rus] **34-2128**
Baykal Amur railroad and economic development of the Transbaikal region. Nedosekov, A.A., et al, [1979, 156p., rus] **34-2483**
Pressing environmental protection problems in the Far East. Konovalenko, V.G., ed, [1978, 179p., rus] **34-2532**
Some aspects of environmental protection in the Far Eastern USSR. Konovalenko, V.G., [1978, p.3-6, rus] **34-2533**
Protection and use of biologic resources in the Baykal Amur railroad construction zone. Man'ko, IU.I., [1978, p.7-9, rus] **34-2534**
Ways of improving the construction of power supply objects for the Baykal Amur railroad. Natanov, V.G., et al, [1980, p.43-45, rus] **34-2566**
Design and construction of power supply lines for the Baykal Amur railroad area. Shimkovich, V.G., [1980, p.45-58, rus] **34-2567**
Design and construction of electric substations in the western section of the Baykal Amur railroad. Gromov, V.V., et al, [1980, p.49-51, rus] **34-2568**
Design and construction of substations and maintenance depots for the central Baykal Amur railroad area. Filatov, A.M., [1980, p.51-53, rus] **34-2569**
Construction equipment for the Baykal Amur railroad. Poliakov, V.I., et al, [1979, p.2-4, rus] **34-2582**
Winter concreting in the Baykal Amur railroad area. Bronshtein, G.L., et al, [1980, p.20-21, rus] **34-2587**
Improving the quality of bridge construction with prefabricated parts for the Baykal Amur railroad. Rasskazov, I.D., et al, [1979, p.8-11, rus] **34-2591**
Combinations of equipment for handling explosive materials at the Baykal Amur railroad construction sites. Semin, A.P., et al, [1979, p.24-25, rus] **34-2592**
Captive of perpetual cold. Vel'mina, N.A., [1979, 207p., rus] **34-2669**
Construction of residential buildings in the Far East. Nesterov, V.V., [1979, p.4-5, rus] **34-2701**
Geomorphology and construction. Spiridonov, A.I., ed, [1979, 190p., rus] **34-2746**
Engineering-geomorphological peculiarities of studying the Baykal Amur railroad area. Voskresenskii, S.S., et al, [1979, p.109-120, rus] **34-2751**
Engineering evaluation of the relief of the western part of the Baykal Amur railroad area. Druzhinin, M.K., [1979, p.120-127, rus] **34-2752**
Engineering-geomorphological conditions of the western Baykal Amur railroad area from satellite photographs. Sladkopevtsev, S.A., [1979, p.127-138, rus] **34-2753**
Denudation of the eastern Baykal Amur railroad area caused by human activities. Sokol'skii, A.M., [1979, p.159-164, rus] **34-2755**
Origin of massive sand deposits in the Baykal Amur railroad area and their economic development. Shevchenko, V.K., [1979, p.165-169, rus] **34-2757**
Exogenic processes in the Baykal Amur railroad construction area. Denisenko, I.S., et al, [1979, p.175-183, rus] **34-2759**
Studying ground ice in the Baykal Amur railroad area. Nekrasov, I.A., et al, [1979, p.17-26, rus] **34-2771**
Internal-flute columnar bridge piers of the Baykal Amur railroad. Ryzhenko, A.P., [1980, p.11-12, rus] **34-2853**
Heading machine complex for tunneling. Bobrovskii, L.M., et al, [1980, p.12-14, rus] **34-2854**
Sprayed concrete in tunnel construction in the Baykal Amur railroad area. Golitsynskii, D.M., [1980, p.14-15, rus] **34-2855**
Seismotectonics and seismic regionalization of the Baykal Amur railroad route and the zone of its economic influence. Solonenko, V.P., [1979, 69p., rus] **34-2872**
Mudflows in the Baykal Amur railroad area. Balabaev, F.G., [1979, p.115-117, rus] **34-2898**
Geocryological conditions of a Baykal Amur railroad construction site in the Olongoro River Basin. Sharapov, N.V., [1978, p.79-93, rus] **34-2924**
Formation of chemical composition of ground water in the Iengra River Basin (Baykal Amur railroad route) Boltsov, A.V., [1978, p.169-176, rus] **34-2934**
Cryogenic landscapes of the Baykal Amur railroad area in the Turan Range and their economic development. Nekrasov, I.A., et al, [1978, p.34-46, rus] **34-2944**
More attention to access roads. Khvostik, I.F., [1980, p.5-6, rus] **34-2974**
Changes in thermal conditions of landscapes in the monsoon-permafrost mountain taiga of the Central and Lower Amur River area. Golubchikov, IU.N., [1980, p.62-73, rus] **34-3029**
Naleds and countermeasures. Shushakov, E.V., [1979, 64p., rus] **34-3073**
Ice loads on structures of the Baykal Amur railroad. Korzhavin, K.N., ed, [1977, 121p., rus] **34-3168**
Forecasting ice jam conditions in front of Baykal Amur railroad structures. Tronin, V.K., [1977, p.18-24, rus] **34-3170**
Gramna Lakes in the Baykal Amur railroad area. Mats, V.D., et al, [1980, 87p., rus] **34-3268**
Environmental protection problems on the Baykal Amur railroad construction sites. Alekseev, V.R., et al, [1980, p.78-84, rus] **34-3290**
Structure of land reclamation complexes of the Baykal Amur railroad area and forecasts of their functioning. Naprasnikov, A.T., [1978, p.39-40, rus] **34-3355**
Evaluating mudflow dangers in the Baykal Amur railroad area and regularities of mudflow formation. Lekhatinov, A.M., [1979, p.86-92, rus] **34-3479**
Post-construction sagging of Baykal Amur railroad embankments. Gorelik, V.V., et al, [1980, p.6-7, rus] **34-3598**
Improving the effectiveness of construction of artificial structures along the Tynda-Urgal railroad. Aleksandrov, A.A., et al, [1980, p.10-12, rus] **34-3599**
Fresh ground water resources and water supply of the western section of the Baykal Amur railroad area. Blokhin, IU.I., et al, [1977, p.127-134, rus] **34-3755**
Physical, technical and functional aspects of building design for railroads. Kovrigin, S.D., ed, [1978, 202p., rus] **34-3910**
Determining additional heat losses of buildings through light appertures in the Baykal Amur railroad area. Cheremisov, K.M., et al, [1978, p.105-110, rus] **34-3913**
Thermotechnical qualities of external enclosures of Series-122 residential buildings. Efimova, M.N., [1978, p.122-127, rus] **34-3915**
Improving machines and equipment for reloading packed cargo at low temperatures. Grinevich, O.I., [1978, p.85-93, rus] **34-3944**
Management of forest resources. Timofeev, N.V., [1979, 144p., rus] **34-4011**
Effectiveness of excavating machines used on the construction of the Baykal Amur railroad and the Surgut-Urengoy line. Bardyshev, O.A., [1980, p.6-8, rus] **34-4053**
Forest fire protection in the northern Buryat ASSR. Evdokimenko, M.D., [1979, p.58-63, rus] **34-4094**
Regional geomorphology of newly developed areas. Kibal'chich, O.A., et al, [1979, 120p., rus] **34-4101**
Formation of accumulative relief of the Ogoronskaya Basin (eastern part of the Baykal Amur railroad) under permafrost conditions. Kopylov, I.F., et al, [1979, p.9-14, rus] **34-4102**
Regularities governing formation of rock streams in North Transbaikal (Southern Muyskiy Range). Tiurin, A.I., et al, [1980, p.138-144, rus] **34-4130**
Direct-current electrical prospecting methods used in solving geocryologic-hydrogeologic problems in the Baykal Amur railroad area. Bolkov, S.A., et al, [1980, p.145-153, rus] **34-4131**
Hot mineral waters in the Baykal Amur railroad area and possibilities of their effective utilization. Volkova, V.P., et al, [1980, p.154-163, rus] **34-4132**

Beach erosion
See: Shore erosion

Beaches
Arctic beach environment, south-west Devon Island, N.W.T. Owens, E.H., [1969, 152p., eng] **34-938**

Bearing strength
Method and structural support for increasing load carrying capacity in permafrost. Long, E.L., [1978, 8 col., eng] **34-279**
1970 bottom sampling program south coast of Beaufort Sea, Mackenzie Bay to Liverpool Bay, Northwest Territories. [1970, c83p., eng] **34-597**
Basic classification indices of peat soils. Koman, L.I., [1976, p.122-130, rus] **34-713**
Design of bases and foundations on subsiding soils. Mustafaev, A.A., [1979, 368p., rus] **34-720**
Insulating and load-supporting properties of sulfur foam for expedient roads in cold regions. Smith, N., et al, [1979, 21p., eng] **34-742**
Elastic and dissipative properties of peat and organic muds. [Aromko, V.N., et al, [1979, p.17-22, rus] **34-979**
Reliability of the method of centrifugal modeling of deformations of clay bases. Rudnitskii, N.IA., et al, [1979, p.91-93, eng] **34-1148**
Nature of strength and deformation properties of argillaceous rocks. Osipov, V.I., [1979, 232p., rus] **34-1237**
Evaluating bearing capacity of weak ground beneath road embankments. Solov'ev, IU.I., et al, [1979, p.40-42, rus] **34-1253**
Influence of salinity on frozen ground deformation. Pekarskaia, N.K., et al, [1979, p.5-19, rus] **34-1534**
Nondestructive testing of in-service highway pavements in Maine. Smith, N., et al, [1979, 22p., eng] **34-1843**

Earth structures on peaty silts under pressure head conditions. Tkach, V.N., et al, [1979, p.23-26, rus] 34-1950
Preparation of sagging loess bases. Ryzhov, A., et al, [1979, p.32-33, rus] 34-2117
Bearing capacity and frost. Balduzzi, F., et al, [1972, p.384-388, ger] 34-2396
Snow load analysis for structures. Rusten, A., et al, [1980, p.11-21, eng] 34-2409
Comparison on the non-slip quality among three different types on langlauf ski-plates. Nakamura, T., [1979, p.1-6, jap] 34-2543
Calculating settlement of oil tanks on inhomogeneous bases. Mangushev, R.A., [1980, p.13-15, rus] 34-2595
Role of fabric in low embankments on muskeg. Greenway, D.R., et al, [1978, p.165-181, eng] 34-2914
Load-bearing behavior of frozen earthmasses. Eckardt, H., [1979, 141p., ger] 34-2955
Deformation behaviour and strength of frozen sand. Parameswaran, V.R., [1980, p.74-88, eng] 34-2984
Static ice loading tests, Resolute Bay—winter 9173/74. Lichtenberger, G.J., et al, [1974, 99p. + 7 appends., eng] 34-3095
Vertical load bearing capacity tests of natural ice and of artificial-natural ice laminates, Resolute Bay, winter 1974/75. Lichtenberger, G.J., et al, [1976, c320p. + 6 appendices, eng] 34-3105
Design and construction of building foundations on permafrost. Goncharov, IU.M., et al, [1980, 241p., rus] 34-3180
Influence of transient processes on bearing strength of piles in weak clayey grounds. Mets, M.A., [1976, p.283-296, rus] 34-3217
Electrochemical treatment of clay foundations. Zhinkin, G.N., et al, [1980, 164p., rus] 34-3756
Seismic characteristics of loess in relation to geologic surroundings and the impact of industrial activities. Kriger, N.I., et al, [1980, 103p., rus] 34-3763
Improving the design of structures built in complex ground conditions. Meteliuk, N.S., [1980, 143p., rus] 34-3823
Justification of earth-fill stages in embankment construction on permafrost. Kurochkin, A.A., [1978, p.55-59, rus] 34-3886
Evaluating settlement and bearing strength of piles allowing for the time factor. Khamov, A.P., [1978, p.45-55, rus] 34-3890
Thawing effect on the strength of roadbeds. Poritskil, R.Z., [1978, p.14-24, rus] 34-4016
Snow studies associated with the sideways move of DYE-3. Tobiasson, W., [1979, p.117-124, eng] 34-4210
See also: Ice cover strength; Snow strength; Trafficability

Bearing tests
Bearing capacity of sea ice. Murat, J.R., [1978, 408p., fre] 34-1301
Experimental investigation of the stress-strain state of loess soils in the base of rigid plates. Tsytovich, N.A., et al, [1979, p.140-145, eng] 34-2018
Bearing capacity and frost. Balduzzi, F., et al, [1972, p.384-388, ger] 34-2396
Plate bearing tests on a fibrous peat. Lee, R.A., et al [1978, p.151-164, eng] 34-2913
Pressure meter for testing soft soils. Lushnikov, V.V., et al, [1980, p.262-265, eng] 34-3370

Beaufort Sea
Oil spill countermeasures for the southern Beaufort Sea. Logan, W.J., et al, [1975, 126p., eng] 34-151
Normal and extreme winds and waves in the Canadian southern Beaufort Sea. [1974, 81p., eng] 34-300
Ice island count southern Beaufort Sea 1974. Spedding, L.G., [1975, 14p. + figs. and slides, eng] 34-303
Ice island count southern Beaufort Sea 1975. Spedding, L.G., [1976, 14p. + figs., eng] 34-304
Ice island count southern Beaufort Sea 1976. Spedding, L.G., [1977, 50p., eng] 34-305
Ice island count, southern Beaufort Sea—1973. Spedding, L.G., [1974, 54p., eng] 34-416
Ice movements in the Beaufort Sea 1973-1975: determination by ERTS imagery. Sobczak, L.W., [1977, p.1413-1418, eng] 34-475
Biological productivity of the southern Beaufort Sea: the physical-chemical environment and the plankton. Grainger, E.H., [1975, 82p., eng] 34-504
Storm surges. Henry, R.F., [1975, 41p., eng] 34-505
Weather, waves and icing in the Beaufort Sea. Berry, M.O., et al, [1975, 5 parts, eng] 34-506
Ice climatology of the Beaufort Sea. Markham, W.E., [1975, 87p., eng] 34-507
Ice gouge obliteration and sediment redistribution event; 1977-1978, Beaufort Sea, Alaska. Barnes, P., et al, [1979, 22p., eng] 34-1559
Crude oil in cold water. Milne, A.R., et al, [1979, 119p., eng] 34-1584
[Proceedings]. [1979, 9 papers, eng] 34-1587
Effects of storm surges on the Beaufort Sea coast, northern Alaska. Reimnitz, E., et al, [1979, p.329-344, eng] 34-1616
Submarine permafrost on the Alaskan continental shelf. Vigdorchik, M.E., [1980, 118p., eng] 34-2406
Synoptic climatology of the Beaufort Sea Coast of Alaska. Moritz, R.E., [1979, 176p., eng] 34-2716
Heavy mineral analysis of southern Beaufort Sea sediments. Costaschuk, S.M., [1980, p.241-252, eng] 34-2988
Drillships press close to moving ice zone for world's most costly wells. [1977, p.16-17, eng] 34-3015
Delineation and engineering characteristics of permafrost beneath the Beaufort Sea. Sellmann, P.V., et al, [1979, p.93-115, eng] 34-3056
Buried valleys as a possible determinant of the distribution of deeply buried permafrost on the continental shelf of the Beaufort Sea. Hopkins, D.M., et al, [1979, p.135-141, eng] 34-3057
Field studies of the strength and physical properties of a multi-year ice pressure ridge in the southern Beaufort Sea. Gladwell, R.W., [1977, c90p., eng] 34-3107
Offshore pipelines in the Arctic. [1980, p.20-24, eng] 34-3989

Benthos
Preliminary survey of the benthos of Resurrection Bay and Ailalik Bay, Alaska. Feder, H.M., et al, [1979, 53p., eng] 34-3724

Bering Sea
Numerical investigation of the Bering Sea circulation using a linear homogeneous model. Han, Y.-J., et al, [1979, 37p., eng] 34-1729
Recent fluctuations in meteorological and oceanographic parameters in Alaska waters. Biebauer, H.J., [1980, 34p., eng] 34-3766

Bibliographies
Bibliography of Canadian glaciology, 1975—bibliography no.1. Glacier inventory note no.10. Ommanney, C.S.L., [1978, 117p., eng] 34-6
Biological literature review of the Labrador Sea region. [1977, var.p., eng] 34-491
Revised biological literature review of the Davis Strait region. [1978, var.p., eng] 34-497
Biological literature review of Ungava Bay and Hudson Strait. [1977, var.p., eng] 34-498
Annotated bibliography on northern environmental engineering 1976-1977. Armstrong, B.C., comp, [1979, 132p., eng] 34-739
Annotated bibliography on northern environmental engineering, 1974-75. Cameron, J.J., et al, [1977, 154p., eng] 34-892
Forest tundras of the USSR. Parmuzin, IU.P., [1979, 295p., rus] 34-968
List of publications based on materials from the Agapa Taymyr research station. [1979, p.203-206, rus] 34-1066
Geographic aspects of mountain flora evolution in Central Asia. Agakhaniants, O.E., [1977, p.93-108, rus] 34-1097
Flora and fauna of water bodies in the European North (Bol'shezemel'skaya Tundra taken as an example). Getsen, M.V., ed, [1978, 191p., rus] 34-1191
Annotated list of Soviet literature on glaciology (1969). Kotliakov, V.M., comp, [1974, p.524-692, eng] 34-1214
Snow cover: a selected bibliography. [1979, p.71-93, eng] 34-1413
Fruiting of Arctic plants (Western Taymyr). Khodachek, E.A., [1979, p.1147-1158, rus] 34-1447
Research on snow and ice. Martinelli, M., Jr., et al, [1979, p.1253-1297, eng] 34-1464
Soils of the East European tundra and forest tundra. Ignatenko, I.V., [1979, 280p., rus] 34-1649
Microbic associations in soils of biogeocenoses of the Baraba Plain. Klevenskaia, I.L., et al, [1979, p.22-60, rus] 34-1807
Earth science investigations in the United States Antarctic Research Program (USARP) for the period July 1, 1978-June 30, 1979. Craddock, C., comp, [1979, 50p., eng] 34-2158
Annotated list of Soviet literature on glaciology for 1976. Kotliakov, V.M., et al, [1979, p.217-288, rus] 34-2213
Susitna River basin resource bibliography; supplement 1979. Lockhart, D., comp., [1979, 244p., eng] 34-2482
Annotated bibliography on freshwater ice. [1971, 45p., eng] 34-2507
Arctic stream processes—an annotated bibliography. Scott, K.M., comp, [1979, 78p., eng] 34-2609
Baffin Island quaternary environments; an annotated bibliography. Andrews, M., et al, [1980, 123p., eng] 34-2722
Lands subject to reclamation in the south of the West Siberian Plain. Uglanov, I.N., [1979, p.25-76, rus] 34-3077
APOA bibliography. [1980, 74p., eng] 34-3092
Geographic studies of soil mantle in the Northern Yenisey River area and the Krasnoyarsk taiga. Korsunov, V.M., et al, [1978, p.5-14, rus] 34-3462
Annotated list of Soviet literature on glaciology for 1977. Kotliakov, V.M., et al, [1979, p.201-285, rus] 34-3715
Ice cores. MacKinnon, P.K., comp., [1980, 139p., eng] 34-4020

Bioenvironments
See: Ecology; Ecosystems

Biogeography
Zoogeography of the Yamal-Gydan area, Western Siberia. Rutilevskil, G.L., [1979, p.88-117, eng] 34-530
Polyandry, replacement clutches, and site tenacity in the red phalarope *(Phalaropus fulicarius)* at Barrow, Alaska. Schamel, D., et al, [1977, p.314-324, eng] 34-2497
Components of biogeocenoses of the tundra-forest regions of the northern Okhotsk Sea region. Ignatenko, I.V., ed, [1980, 51p., eng] 34-3395

Biology
See: Cryobiology; Marine biology; Microbiology

Biomass
Biological studies, offshore cruise 77-4 through 77-7, July-December, 1977 in the Davis Strait. [1977, var.p., eng] 34-493
Biological productivity of the southern Beaufort Sea: the physical-chemical environment and the plankton. Grainger, E.H., [1975, 82p., eng] 34-504
Classifying the northwest Siberian landscapes according to their stability under construction. Nefedova, V.B., [1979, p.42-47, rus] 34-525
Random differential equations as models of ecosystems: 3 Bayesian inference for parameters. Tiwari, J.L., et al, [1978, p.247-258, eng] 34-533
Factors regulating the food intake of caribou and reindeer on tundra ranges. White, R.G., [1976, p.1/227-1/233, eng] 34-564
Biogeochemistry of deep lakes in the central Alaskan Range. LaPerriere, J., et al, [1976, 35p., eng] 34-643
Comparative evaluation of principal ecologic-systematic animal groups as components of taiga geosystems. Verzhutskil, B.N., et al, [1979, p.3-13, rus] 34-671
Computer analysis of different natural regime indices for revealing geosystem structures. Kobeleva, N.V., et al, [1979, p.14-34, rus] 34-672
Classification of elementary geosystems of the Kondo-Sos'va Uplands. Mikheev, V.S., et al, [1979, p.74-83, rus] 34-676
Mathematical analysis of the dynamics of taiga facies. Cherkashin, A.K., [1979, p.121-133, rus] 34-679
Dynamics of the vegetation in the Mount Elbrus Region, USSR. Turmanina, V.I., et al, [1978, p.325-334, eng] 34-798
Heat accumulation and thermal cycles of oligotrophic peat bogs. Kaliuzhnyi, I.L., [1979, p.81-89, rus] 34-832
Effect of Prudhoe crude oil on carbon assimilation by planktonic algae in an Arctic pond. Miller, M.C., et al, [1978, p.833-850, eng] 34-912
Young soils formed in placer tailings in the southern taiga of the Central Urals. Nakariakov, A.V., et al, [1979, p.58-106, rus] 34-949
Prognosis of rational use and protection of renewable natural resources in the Far North. Gel'berg, M.G., et al, [1979, p.14-51, rus] 34-958
Studying and modeling soil formation in fores' biogeocenoses. Korsunov, V.M., ed, [1979, 161p., rus] 34-969
Interrelation between edaphic and coenotic factors of cropping power. Pleshikov, F.I., [1979, p.4-13, rus] 34-970
Effect of maintenance felling on soil microflora in Pinus (cembra) sibirica forests. Vishniakova, Z.V., et al, [1979, p.14-22, rus] 34-971
Model experiments for determining the role of pine in the formation of variegated forest soils. Vedrova, E.F., [1979, p.30-42, rus] 34-973
Modeling the processes reflecting the influence of trees on forest soils. Shugalei, L.S., [1979, p.79-153, rus] 34-978
Fall off and litter of coniferous forests in Valday. Grishina, L.A., et al, [1979, p.15-50, rus] 34-1060
Properties of humic acids in the Valday research station soils. Grishina, L.A., et al, [1979, p.63-87, rus] 34-1062
Microelements in the lower layer of Valday station spruce forest. Belitsyna, G.D., et al, [1979, p.87-92, rus] 34-1063
Limnology of subarctic Canadian lakes and some effects of impoundment. Duthie, H.C., [1979, p.145-158, eng] 34-1278
Ecologic and biogeochemical peculiarities of northern taiga in the Kola Peninsula. Nikonov, V.V., et al, [1979, p.33-38, rus] 34-1718
Biologic productivity and chemical element cycles in spruce-green moss central and northern taiga of the Komi Autonomous Soviet Socialist Republic. Zaboeva, I.V., et al, [1975, p.81-82, rus] 34-1853
Biologic productivity and chemical element cycles in spruce-lichens in the central taiga of the Komi ASSR. Rusanova, G.V., et al, [1975, p.83-84, rus] 34-1854
Scientific basis for combined studies of Alpine regions. Nazarov, A.G., [1975, p.98-100, rus] 34-1855
Mountain landscape protection in Siberia. Krylov, G.V., ed, [1973, 251p., rus] 34-1863
Scientific and practical significance of studying partial inhomogeneity of mountain taiga soils. Taranov, S.A., [1973, p.59-66, rus] 34-1867
Microclimatic variations and pine forest revegetation in relation to economic development of the Sayan low mountain belt. Gaas, A.A., [1973, p.78-87, rus] 34-1870
Soils in pine forests of Karelia. P'iavchenko, N.I., ed, [1978, 141p., rus] 34-2252
Biological cycle of substances in cowberry and lichen pine forests. Morozova, R.M., [1978, p.85-112, rus] 34-2258

Biomass *(cont.)*

Dynamics of microbial biomass in taiga soils of West Siberia. Antonenko, A.M., et al, [1979, p.69-72, rus] **34-2418**

Taiga geosystems and problems of interaction between man and taiga. Sochava, V.B., [1978, p.5-13, rus] **34-2458**

Influence of human factors on phytoplankton and water quality of the Angara River. Kozhova, O.M., et al, [1980, p.61-66, rus] **34-2707**

Ecosystems of swamps in the USSR. Boch, M.S., et al, [1979, 187p., rus] **34-2886**

Vegetation in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Matveeva, N.V., [1979, p.78-109, rus] **34-3040**

Heat and moisture content of taiga lands in the Irtysh River area. Nikitin, S.P., [1978, p.23-33, rus] **34-3609**

Interrelationships between the seasonal sea ice and biological regimes. Alexander, V., [1980, p.157-184, eng] **34-3629**

Geographic peculiarities of metabolism and energy exchange in pine forests of Karelia and Murmansk region. Ziabchenko, S.S., et al, [1980, p.52-60, rus] **34-3865**

Biomass volume and structure in larch forests of the northern Okhotsk Sea region. Moskaliuk, T.A., [1980, p.32-39, rus] **34-3880**

Management of forest resources. Timofeev, N.V., [1979, 144p., rus] **34-4011**

Seasonal dynamics of green biomass of the grass-shrub zone of typical plant communities on the northern slope of the Khamar-Daban Range. Vasil'chenko, Z.A., [1979, p.46-51, rus] **34-4092**

Mosses as accumulators of radionuclides. Molchanova, I.V., et al, [1980, p.42-47, rus] **34-4146**

Biota

See Ecology

Bitumens

Kinetics of cement hardening during thermal treatment of concrete bases of road pavements in freezing weather. Shkurenko, V.I., et al, [1979, p.113-117, rus] **34-808**

Increasing the reliability of waterproof asphalt facings for concrete dams. Davidenko, V.M., et al, [1979, p.23-29, rus] **34-1528**

Bituminous pavements with antiicing additives. Crottaz, R., et al, [1979, p.442-447, ger] **34-2488**

Soil stabilization with a mixture of liquid bitumens and plastics. Lukanina, T.M., et al, [1979, p.108-113, rus] **34-2626**

Resistance of porous asphalt and antihydroplaning surfaces to environmental effects and simulated aircraft wheel loadings. Hargett, E., [1974, 56p., eng] **34-2632**

Development of fillings for slab track in cold region and its various properties. Fukunaga, M., [1977, p.138, eng] **34-2658**

Bituminous concretes

Construction of an ice retardant overlay. Nittinger, R.J., [1979, 28p., eng] **34-1573**

Standardizing the requirements for frost resistance of asphalt-concretes. Barankovskii, A.S., et al, [1980, p.18-19, rus] **34-3760**

Blasting

Shaft sinking by blasting artificially frozen rocks. Oksanich, I.F., et al, [1979, p.10-12, rus] **34-344**

Scientific problems in the construction of northern gas lines. Ivantsov, O.M., [1979, p.10-15, rus] **34-1179**

Rock blasting under complex hydrogeological conditions. Mets, IU.S., [1979, 109p., rus] **34-1189**

Performance of BTS-150 drills on construction sites of the Baykal Amur railroad. Bardyshev, O.A., et al, [1979, p.26-27, rus] **34-1428**

Mechanism of blasting massive frozen ground. Balbachan, I.P., [1979, p.32-34, rus] **34-1768**

Determining optimal volume of strip-pit works for winter periods in the northeastern USSR. Potemkin, S.V., [1979, p.38-40, rus] **34-1769**

Upper crustal structure under McMurdo Station, Antarctica, deduced from blasts during nuclear power plant removal. Kaminuma, K., [1979, p.34-41, eng] **34-2287**

Control of blasting effects on rocks and grounds. Vovk, A.A., ed, [1979, 224p., rus] **34-2307**

Reversible and irreversible changes in strength of grounds compacted by blasting. Chernyl, G.I., [1979, p.41-52, rus] **34-2308**

Studying physical and mechanical properties of seasonally frozen grounds subject to blasting, for the construction of land reclamation objects. Vorob'ev, V.D., et al, [1979, p.132-138, rus] **34-2309**

Effectiveness of slotted blasting charges used in building channels in seasonally frozen grounds. Frash, G.B., et al, [1979, p.138-142, rus] **34-2310**

Stress waves in artificially frozen water-saturated ground, studied after fuse detonation on test-benches and in mining shafts. Oksanich, I.F., et al, [1979, p.142-148, rus] **34-2311**

Combinations of equipment for handling explosive materials at the Baykal Amur railroad construction sites. Semin, A.P., et al, [1979, p.24-25, rus] **34-2592**

Ways of increasing the reliability of blasting hard rocks. Basistov, M.A., [1980, p.4-6, rus] **34-2613**

Borehole blasting at Baykal Amur railroad construction sites. Balbachan, I.P., et al, [1980, p.14-18, rus] **34-2637**

Increasing the effectiveness of exploratory excavations in frozen rocks. Tregub, A.M., [1980, p.111-114, rus] **34-2797**

Slit blasting technique of trenching for the Baykal Amur railroad. Anisimov, D.I., et al, [1980, p.6-8, rus] **34-2850**

Construction in the Arctic and the Far North. [1970, 95p., rus] **34-2867**

Technology of open pit mining. Medvedev, K.D., ed, [1979, 164p., rus] **34-3023**

Container delivery of explosives to the Far North mines. Vlasov, V.M., et al, [1979, p.101-104, rus] **34-3025**

Studying the freezing of water-filled blasting holes drilled in permafrost. Shebarshov, A.A., et al, [1979, p.127-131, rus] **34-3026**

Hydrodynamic and hydrochemical assessment of explosions used in testing low-output wells in permafrost regions. Maksimov, V.M., [1980, p.313-320, eng] **34-3254**

Increased fracturing intervals in frozen and thawed zones of the Nizhne-Arkagalinskiy coal deposit. Kostenko, V.I., et al, [1974, p.111-116, rus] **34-3945**

See also Explosion effects; Ice blasting

Blowing snow

Snow accretion on traffic-control sign boards and its prevention. Takeuchi, M., [1979, p.101-105, eng] **34-68**

Measuring visibility in blowing snow. Schmidt, R.A., [1979, p.200-207, eng] **34-81**

Visibility in blowing snow and applications in traffic operations. Tabler, R.D., [1979, .208-214, eng] **34-82**

About snow drifts. Jumikis, A.R., [1979, p.254-258, eng] **34-89**

Snow blowing and snow fall on the North Slope, Alaska. Wendler, G., [1979, p.10-19, eng] **34-1051**

Relationship of snow transport to snow storm duration. Grishin, I.S., [1974, p.208-219, eng] **34-1198**

Snow rollers. Goldthorpe, P.R., et al, [1979, p.455-458, eng] **34-2115**

Borehole instruments

Method and apparatus for drilling in permafrost and the like. Skidmore, S.C., Jr., [1977, 16 col., eng] **34-268**

Pressure meter for testing soft soils. Lushnikov, V.V., et al, [1980, p.262-265, eng] **34-3370**

Boreholes

Report on laboratory testing of sea-bed samples from Davis Strait. [1977, 9p. + append., eng] **34-315**

Water in glaciers: observations and theory of the behaviour of water levels in boreholes. Engelhardt, H., [1978, p.35-60, eng] **34-664**

In situ determination of creep properties of ice covers by means of bore-hole creep and relaxation tests. Ladanyi, B., et al, [1979, p.44-64, eng] **34-923**

Scientific problems in the construction of northern gas lines. Ivantsov, O.M., [1979, p.10-15, rus] **34-1179**

Gasoline thermodrill for boreholes. Mezhenin, IU.M., [1979, p.7-8, rus] **34-1186**

New drilling instrument for holes in frozen ground. Makushkin, D.A., et al, [1979, p.8-9, rus] **34-1187**

Rock blasting under complex hydrogeological conditions. Mets, IU.S., [1979, 109p., rus] **34-1189**

Shallow core drilling and bore-hole measurements in the permafrost of an active rock glacier near the Grubengletscher, Wallis, Swiss Alps. Barsch, D., et al, [1979, p.215-228, eng] **34-1279**

Temperature profiles in boreholes at the edge of the Greenland ice sheet. Stauffer, B., et al, [1979, p.301-313, ger] **34-1330**

Performance of BTS-150 drills on construction sites of the Baykal Amur railroad. Bardyshev, O.A., et al, [1979, p.26-27, rus] **34-1428**

Direct measurement of basal water pressures: progress and problems. Hodge, S.M., [1979, p.309-319, eng] **34-2241**

Ways of increasing the reliability of blasting hard rocks. Basistov, M.A., [1980, p.4-6, rus] **34-2613**

Borehole blasting at Baykal Amur railroad construction sites. Balbachan, I.P., et al, [1980, p.14-18, rus] **34-2637**

Improving the process of drilling holes for artificial freezing. Shparber, P.A., [1979, p.22-23, rus] **34-2698**

Pile foundations in permafrost. Targulian, IU.O., [1978, 158p., rus] **34-3022**

Technology of open pit mining. Medvedev, K.D., ed, [1979, 164p., rus] **34-3023**

Studying the freezing of water-filled blasting holes drilled in permafrost. Shebarshov, A.A., et al, [1979, p.127-131, rus] **34-3026**

Delineation and engineering characteristics of permafrost beneath the Beaufort Sea. Sellmann, P.V., et al, [1979, p.93-115, eng] **34-3056**

Buried valleys as a possible determinant of the distribution of deeply buried permafrost on the continental shelf of the Beaufort Sea. Hopkins, D.M., et al, [1979, p.135-141, eng] **34-3057**

Critical survey of the application of borehole logging techniques to the study of sea ice. Laidley, T.E., [1980, 45p., eng] **34-4160**

Bottom drilling

Seasonal oil production scheme for iceberg-infested waters, Part 2. Duval, J., et al, [1980, p.19-20, 25-26, eng] **34-2423**

Bottom ice

Pingoes and the Northwest Passage. [1974, p.1-4, eng] **34-1986**

Oil pooling under sea ice. Kovacs, A., [1979, p.310-323, eng] **34-3053**

Bottom sediment

Glacial and postglacial sediments in Lakes Superior and Michigan. Lineback, J.A., et al, [1979, p.781-791, eng] **34-47**

Analytical study of ice scour on the sea bottom. [1975, 185p. + append., eng] **34-299**

Sediment analysis of cores from Davis Strait and Flemish Pass for Imperial Oil Limited. [1976, n.p., eng] **34-311**

Report on strength and deformation characteristics of sea-bed samples from Davis Strait. [1978, 28p. + append., eng] **34-313**

Report on laboratory testing of sea-bed samples from Davis Strait. [1977, 9p. + append., eng] **34-315**

Micropaleontologic-mineralogic analysis of Recent mud samples from ice-scoured surface of Beaufort shelf. Lerand, M.M., [1971, 4p., eng] **34-560**

Logistics operations APOA Beaufort Sea projects 1970. Smith, J.G., [1970, 75p., eng] **34-596**

1970 bottom sampling program south coast of Beaufort Sea, Mackenzie Bay to Liverpool Bay, Northwest Territories. [1970, c83p., eng] **34-597**

Geological sampling and analytical program, Beaufort Sea. Lerand, M.M., comp, [1971, c215p., eng] **34-598**

Overconsolidated sediments in the Beaufort Sea. Chamberlain, E., [1978, p.24-29, eng] **34-873**

Ice gouge obliteration and sediment redistribution event; 1977-1978, Beaufort Sea, Alaska. Barnes, P., et al, [1979, 22p., eng] **34-1559**

Pingos of the Tuktoyaktuk Peninsula area, Northwest Territories. Mackay, J.R., [1979, p.3-61, eng] **34-1567**

Debris-laden ice at the bottom of the Greenland ice sheet. Herron, S., et al, [1979, p.193-207, eng] **34-2232**

Discontinuous flow, ice texture, and dirt content in the basal layers of the Devon Island ice cap. Koerner, R.M., et al, [1979, p.209-222, eng] **34-2233**

Sediment transport and bed forms under ice cover. Song, G.B., [1978, 79p., eng] **34-2476**

Initial report on geological materials collected at RISP site J9, 1978-79. Webb, P.N., comp, [1979, 127p., eng] **34-2481**

Alaskan shelf hydrographic, sedimentary and geochemical environment. Sharma, G.D., [1979, 498p., eng] **34-2514**

Notes on the acquisition of high resolution seismic reflection profiles, side-scanning sonar records, and sediment samples, from lower Cook Inlet and Kodiak Shelf, R/V Sea Sounder cruise S8-78-WG, August 1978. Hampton, M.A., et al, [1979, c60 leaves, eng] **34-2606**

Measurements of bottom temperature of the Chukchi Sea. Efimov, A.V., [1979, p.56-60, rus] **34-2775**

Seasonal freezing of bottom sediments in Lake Syrdakh. Tishin, M.I., [1979, p.91-97, rus] **34-2780**

Heavy mineral analysis of southern Beaufort Sea sediments. Costaschuk, S.M., [1980, p.241-252, eng] **34-2988**

Ice gouge characteristics in the Alaskan Chukchi Sea. Toimil, L., [1979, p.863-876, eng] **34-3032**

Environmental assessment of the Alaskan continental shelf, Vol.5, Receptors—Microbiology; Contaminant baselines. [1979, 698p., eng] **34-3048**

Delineation and engineering characteristics of permafrost beneath the Beaufort Sea. Sellmann, P.V., et al, [1979, p.93-115, eng] **34-3056**

Buried valleys as a possible determinant of the distribution of deeply buried permafrost on the continental shelf of the Beaufort Sea. Hopkins, D.M., et al, [1979, p.135-141, eng] **34-3057**

Environmental assessment of the Alaskan continental shelf, Vol.10, Hazards, Data management. [1979, 517p., eng] **34-3058**

Late Quaternary history and the formation of sediments in the marginal and inland seas. Gershanovich, D.E., ed, [1979, 212p., rus] **34-3064**

Structure of the Pliocene-Quaternary deposits of the Barents Sea bottom along the Rybachiy Island-Franz Joseph Land cross section. Blazhchishin, A.I., et al, [1979, p.13-19, rus] **34-3065**

Postglacial and Holocene paleogeography of the Barents Sea. Kotenev, B.N., [1979, p.20-28, rus] **34-3066**

Cryopedometer (design and application). Tishin, M.I., [1979, p.31-33, rus] **34-3469**

Bottom topography

Ice-scour tracks in eastern Mackenzie Bay and north of Pullen Island, Beaufort Sea. Wahlgren, R.V., [1979, p.51-62, eng] **34-22**

Sliding of ice. Hutter, K., [1979, p.71-92, ger] **34-363**

Sediment transport and bed forms under ice cover. Song, G.B., [1978, 79p., eng] 34-2476

Probing with TROV: unmanned submersible reveals geology and hazards of Arctic seafloor. Blasco, S.M., [1978, p.13-15, eng] 34-2647

Arctic seafloor: past and present. Sweeney, J.F., [1979, p.2-5, eng] 34-2650

Electromagnetic sounding of bottom crevasses on the Ross Ice Shelf, Antarctica. Jezek, K.C., et al, [1979, p.321-330, eng] 34-2835

Boulders

See: Rocks

Bound water

See: Hygroscopic water

Boundaries

More precise position of the southern permafrost boundary between the Urals and the Ob' River. Dubikov, G.I., [1980, p.347-356, eng] 34-3850

Boundary layer

Certain characteristics of the atmospheric surface layer above snow. Elagina, L.G., et al, [1979, p.652-655, eng] 34-121

Thermal equilibrium in the upper layer of the earth's crust. Pavlov, A.V., [1979, p.5-10, rus] 34-123

Structure and properties of grain boundaries in ice. Hondoh, T., [1979, p.253-257, jap] 34-2170

Integral balance approach for determination of heat transfer potential in porous bodies under different types of boundary conditions. Srivastava, K.K., et al, [1979, p.447-457, eng] 34-2346

See also: Interfaces; Turbulent boundary layer

Boundary value problems

Steady in-plane deformation of noncoaxial plastic soil Takagi, S., [1979, p.1049-1072, eng] 34-860

Interactions between the atmospheric boundary layer and a snow surface. Halberstam, I.M., et al, [1979, p.154-166, eng] 34-1015

European hydrological system snow routine. Morris, E.M., et al, [1979, p.269-278, eng] 34-1023

Review of snow-soil interaction. Guymon, G.L., [1979, p.297-303, eng] 34-1026

Investigation of the two-phase, moving boundary system, with convection at the solid-liquid interface. Nansteel, M.W., [1979, 145p., eng] 34-1362

Forced-convection heat transfer from irregular melting wavy boundaries. Hsu, K.-S., et a., [1979, p.598-602, eng] 34-1500

Grain clusters in wet snow. Colbeck, S.C., [1979, p.371-384, eng] 34-1698

Application of recent results in functional analysis to the problem of water tables. Nakano, Y., [1979, p.185-190, eng] 34-1845

On the flow of polythermal glaciers. I. Model and preliminary analysis. Fowler, A.C., et al, [1978, p.217-242, eng] 34-1968

Use of a rational model in the mathematical analysis of a polythermal glacier. Fowler, A.C., [1979, p.443-456, eng] 34-2844

Application of recent results in functional analysis to the problem of wetting fronts. Nakano, Y., [1980, p.314-318, eng] 34-3948

Numerical solution of a parabolic free boundary problem via Newton's method. Baumeister, J., et al, [1980, p.99-109, eng] 34-4066

Brakes (motion arresters)

Study on occurring condition of metallic inclusions in anti-snow type composition brake shoes which cause the hollowing wear at wheel treads. Idemura, K., et al, [1977, p.45, eng] 34-2656

Breakup

See: Ice breakup

Bricks

Time effect on the strength and service life of winter laying of silicate bricks using potash and sodium nitrate as cement additives. Kotov, I.T., [1972, p.224-236, rus] 34-1831

Effect of compression on the strength of brickwork built in freezing weather. Kotov, I.T., [1972, p.236-237, rus] 34-1832

Allowing for humidity when designing external brick walls. Shishkin, A.A., et al, [1970, p.120-138, rus] 34-1835

Erection of mulistory brick buildings in Noril'sk. Shkliarov, N., et al, [1980, p.32-35, rus] 34-3931

Bridges

Heating bridge decks by electrical resistance. Havens J.H., et al, [1979, p.159-168, eng] 34-76

Geothermal heating of bridge decks. Cundy, V.A., et al, [1979, p.169-175, eng] 34-77

Present status of the bridge ice detection program at FHWA. Leifer J.C., [1979, p.215-219, eng] 34-83

Ice forces on bridge piers. Podolny, W., Jr., [1979, p.341-342, 347-348, eng] 34-700

Expansion joints in highway bridges. Shesterikov, V.I., [1978, 151p., rus] 34-886

Use of ice as structural support in the construction of the Eagle River bridge. McCutcheon, D.M., [1979, p.232-237, eng] 34-934

Preliminary electric heating of concrete mixtures on construction sites. Kalmykov, V.A., [1979, p.50, rus] 34-1429

Design and construction of pile foundations for elevated transport structures and scaffolded railroad and highway bridges in the North Burkhanov, V.F., et al, [1979, p.73-84, rus] 34-1627

Study of frost and ice prediction system on the Rouge River bridge. Final report. Crane, H.L., et al, [1974, 42p., eng] 34-1733

Steel-reinforced concrete road bridge spans exceeding 100 m Rudomazin, N.N., et al, [1979, p.16-17, rus] 34-1751

Cathodic protection of a bridge deck: preliminary investigation Stratfull, R.F., [1974, p.24-25, eng] 34-2393

Pipe bridge solves heaving problems. [1980, p.7, eng] 34-2408

Use of exchange plastics for the protection and repair of concrete bridge pavements exposed to salting. Schröder, M., [1980, p.23-24, 26-27, ger] 34-2492

Sectional capping for columnar bridge piers of the Baykal Amur railroad. Baluchik, E.A., et al, [1980, p.10-12, rus] 34-2586

Improving the quality of bridge construction with prefabricated parts for the Baykal Amur railroad. Rasskazov, I.D., et al, [1979, p.8-11, rus] 34-2591

How sub-zero weather helps a bridge contractor. [1979, p.50-51, eng] 34-2805

Bridge crossing the Irtysh River at Omsk. Vinogradov, K.P., et al, [1980, p.9-11, rus] 34-2852

Intermediate columnar bridge piers of the Baykal Amur railroad. Ryzhenko, A.P., [1980, p.11-12, rus] 34-2853

Naleds and countermeasures. Shushakov, E.V., [1979, 64p., rus] 34-3073

Ice loads on structures of the Baykal Amur railroad. Korzhavin, K.N., ed, [1977, 121p., rus] 34-3168

Ice loads on bridge piers in the Baykal Amur railroad area. Korzhavin, K.N., [1977, p.3-17, rus] 34-3169

Forecasting ice jam conditions in front of Baykal Amur railroad structures. Trofnin, V.K., [1977, p.18-24, rus] 34-3170

Selecting design values of air temperature differences when evaluating static loads of thermal ice expansion on bridge piers. Ptukhin, F.I., [1977, p.37-46, rus] 34-3172

Static ice cover loads on isolated structures. Ivchenko, A.B., [1977, p.47-56, rus] 34-3173

Methods of studying experimental prestressed concrete spans of railroad bridges designed for the North. Skopich, V.M., et al, [1979, p.54-70, rus] 34-3181

Methods of determining thermal, moisture and physical characteristics of concretes. Drobyshevskii, B.A., [1979, p.70-73, rus] 34-3182

Equivalent coefficients of moisture diffusion for concretes used in bridge construction. Drobyshevskii, B.A., [1979, p.73-79, rus] 34-3183

Improving the effectiveness of construction of artificial structures along the Tynda-Urgal railroad. Aleksandrov, A.A., et al, [1980, p.10-12, rus] 34-3599

Dynamic response of bridge piers to ice forces. Montgomery, C.J., et al, [1980, p.345-356, eng] 34-3671

Ice forces on the Yukon River bridge--1978 breakup. Johnson, P.R., et al, [1979, 40p., eng] 34-3725

Using artificial freezing in counteracting frost heave effect on supports of pile-trestle bridges. Egorov, V.V., et al, [1978, p.86-92, rus] 34-3893

Erection of building structures at the northern Mining and Concentration Concern No.2. Golubenko, V.V., et al, [1980, p.10-12, rus] 34-3938

See also: Ice crossings; River crossings

Brightness

Diurnal variations of spectral brightness of a cloud layer. Kozhaev, D.A., [1979, p.94-100, rus] 34-614

Satellite observations of snow and ice with an imaging passive microwave spectrometer. Fisher, A.D., et al, [1976, p.98-103, eng] 34-816

Microwave brightness of polar firn as measured by Nimbus 5 and 6 ESMR. Chang, A.T.C., et al, [1980, p.85-91, eng] 34-3800

Brines

Evaluation of the use of salt brine for deicing purposes. Kasinskas, M.M., [1979, p.275-281, eng] 34-92

Hydrochemical regime of the Arctic Ocean. Rusanov, V.P., et al, [1979, 144p., rus] 34-1092

New developments in winter maintenance. Hoekstra, H., [1979, p.19-29, eng] 34-1242

Oceanographic characteristics in the Caspian Sea near the ice edge. Kosarev, A.N., et al, [1979, p.170-180, rus] 34-3185

Analysis of the *In-situ* resistivity of sea ice in terms of its microstructure. Timco, G.W., [1979, p.461-471, eng] 34-3785

Field study of brine drainage and oil entrainment in first-year sea ice. Martin, S., [1979, p.473-502, eng] 34-3786

Brittleness

Influence of thermal stresses on brittle failure of deep metal silos. Shafral, S.D., [1979, p.34-38, rus] 34-126

Stress-strain relationships. Hutcheon, N.B., [1976, 10p., eng] 34-154

Resistance of ZOKhGSNA and ZOKhGSA steels at low temperatures. Vasil'ev, M.M., et al, [1975, p.120-124, rus] 34-232

Testing weldability of metals at subzero temperatures. Sleptsov, O.I., [1975, p.125-128, rus] 34-233

Evaluating the exploitational reliability of tanks at low temperatures. Bondarovich, L.A., et al, [1979, p.19-21, rus] 34-336

Possibility of using low carbon steel for overhead power line supports for low temperatures. Vinkler, O.N., et al, [1979, p.21-23, rus] 34-337

Determining concrete strength under severe climatic conditions. Savitskii, A.N., et al, [1977, p.98-101, rus] 34-353

Resistance of materials to wear at subzero temperatures Tylkin, M.A., et al, [1974, p.78-81, rus] 34-382

Abrasive strength of instrument steel rubbing or knocking against sand paper at low temperature. Tarasov, G.F., [1974, p.90-98, rus] 34-383

Developing high impact-abrasion strength fuse-on metals. Razikov, M.I., et al, [1974, p.135-139, rus] 34-384

Laboratory testing of wear resistant alloys at subzero temperatures. Grinberg, N.A., et al, [1974, p.140, rus] 34-385

Selecting fuse-on metals for rapidly wearing details of construction and excavation machines working at subzero temperatures. Suslov, A.A., [1974, p.141-143, rus] 34-386

Wear of machines working at low temperatures. Kashcheev, V.N., et al, [1974, p.183-188, rus] 34-391

Studying the process of frozen ground cutting with tools of different shapes. Sokolov, L.K., et al, [1974, p.193-200, rus] 34-392

Friction and wear of carbon steels at low temperatures. Golego, N.N., et al, [1974, p.262-267, rus] 34-399

Bubbles

Durability of concrete. Steiger, R.W., et al, [1980, p.35-39, eng] 34-2665

Deduction of glacier flow from the distribution of elongated bubbles. Nakawo, M., [1979, p.457-467, eng] 34-2845

Analysis of the performance of a 140-foot Great Lakes icebreaker: USCGC *Katmai Bay*. Vance, G.P., [1980, 28p., eng] 34-3199

See also: Gas inclusions

Bubbling

Diffusion systems for cold climate lagoons. Christianson, C.D., et al, [1974, p.170-206, eng] 34-1473

Surface aeration of domestic wastes: operating experiences at Red Deer, Alberta, Section 2. Lawson, P.D., [1974, p.230-240, eng] 34-1476

Building

See: Construction

Building codes

Snow load design criteria for steel buildings. [1978, 6 leaves, eng] 34-1240

General and applied climatology. Kobysheva, N.V., ed, [1979, 104p., rus] 34-1814

Building code requirements concerning ice loads on hydraulic structures. Kukhtina, L.P., [1979, p.17-20, rus] 34-1817

Collected changes and supplements to the 1st, 2nd and 3rd parts of Construction Norms and Regulations (SNiP) and Instructions (SN) introduced in 1978. [1979, 64p., rus] 34-2531

Building standards and regulations. Part 2 Design standards. Chapter 6: Loads and effects [1980, 92p., eng] 34-3897

More precise definitions and additions to the "Instructions for determination of the SN 435-72 design hydrologic characteristics" (Discussion of Construction Norms). Kagan, B.IA., [1979, p.1223-1226, rus] 34-4253

See also: Design criteria

Building frames

Optimal design of steel frames for modular buildings in the Far North. Volovik, A.IA., et al, [1972, p.3-15, rus] 34-173

Building materials

See: Construction materials

Buildings

Infrared thermography of buildings: 1977 Coast Guard survey. Marshall, S.J., [1979, 40p., eng] 34-138

Stress-strain relationships. Hutcheon, N.B., [1976, 10p., eng] 34-154

Dimensional changes due to temperature. Latta, J.K., [1976, 12p., eng] 34-155

Building deformations—deflection. Plewes, W.G., [1976, 11p., eng] 34-157

Building deformations—vertical movements. Plewes, W.G., [1976, 9p., eng] 34-158

Deformation due to foundation movements. Crawford, C.B., [1976, 7p., eng] 34-159

Accommodation of potential movements. Latta, J.K., [1976, 9p., eng] 34-160

Inaccuracies in construction. Latta, J.K., [1976, 4p., eng] 34-163

Joint movement and sealant selection. Handegord, G.O., et al, [1976, 4p., eng] 34-164

Construction material and equipment base in West Siberia. Kuritsyn, IU.P., [1979, p.6-8, rus] 34-166

Methods of technical and economic evaluation of modular buildings and structures. Pal'tsevich, L.P., [1972, p.64-73, rus] 34-179

Determining optimal service life of modular buildings. Pal'tsevich, L.P., [1972, p.98-107, rus] 34-183

Buildings *(cont.)*

Requirements for structural elements of sectional buildings determined by the conditions of their transportation and assembly by helicopter. Bogdanov, V.A., (1972, p.108-120, rus) **34-184**

Providing standard buildings for construction enterprises in the North. Peryshkin, E.I., et al, (1972, p.121-136, rus) **34-185**

Distribution of factories producing sectional buildings. Pal'tsevich, L.P., et al, (1972, p.137-142, rus) **34-186**

Studying the combined effect of low air temperature and wind pressure on thermal regime of walls. Orel, O.P., (1972, p.166-176, rus) **34-189**

Thermal regime of permafrost beneath structures with foundations on fill. Mal'kov, IU.K., et al, (1975, p.71-76, rus) **34-224**

Large units increase the effectiveness of segmental construction. Permikin, IU.N., et al, (1979, p.12-14, rus) **34-247**

Means of protecting foundations from frost heave. Pyshchev, N.F., (1979, p.14-15, rus) **34-333**

In the forefront of scientific and technical progress. Fedorov, D.I., (1979, p.51-54, rus) **34-521**

Arco Prudhoe Bay operations center. Crittendon, E.B., (1977, p.9-16, eng) **34-693**

Selecting modular structures for northern construction sites. Koposhko, V.S., (1977, p.138-140, rus) **34-994**

Evaluating structural design of modular buildings for repair shops of the Baykal Amur railroad. Leibman, G.D., et al, (1978, p.67-72, rus) **34-1105**

Engineering and geological justifications of construction in the BAM area. Levkovich, A.I., (1979 ; 157-164, rus) **34-1549**

Snow and ice accumulation around solar collector installations. O'Rourke, M.J., (1979, 69p., eng) **34-1647**

Thermal stresses in trapezoidal layered panels with corrugated facing. Chaplinskii, I.A., et al, (1979, p.39-45, rus) **34-1719**

Thermal insulation for light-weight roofs. Merkin, A.P., et al, (1979, p.12-16, rus) **34-1753**

Symposium on Human Settlements Planning and Development in the Arctic. (1978, c455p., eng) **34-1767**

Using climatic data in structural design. Kobysheva, N.V., et al, (1979, p.9-16, rus) **34-1816**

Generalization of experience in constructing buildings on fill. Goriainov, G.F., et al, (1980, p.185-188, eng) **34-2376**

Experimental determination of the thermal activity coefficient of floors. Gindoian, A.G., et al, (1976, p.108-124, rus) **34-2405**

Ways of improving the construction of power supply objects for the Baykal Amur railroad. Saianov, V.G., et al, (1980, p.43-45, rus) **34-2566**

Design and construction of electric substations in the western section of the Baykal Amur railroad. Gromov, V.V., et al, (1980, p.49-51, rus) **34-2568**

Cracks, movements and joints in buildings: record of the DBR Building Science Seminar, Autumn 1972. (1976, c125 leaves, eng) **34-2603**

Allowing for compacted layer thickness when designing for sagging ground. Rozenfel'd, I.A., (1979, p.19-21, rus) **34-2634**

Coal mine construction according to the projects of the Siberian State Planning Design and Experimental Institute of Mining. Materi, V.G., (1979, p.6-7, rus) **34-2697**

Energy conservation design guidelines: including mass and insulation in building walls. Dexter, M.E., (1980, p.35-38, eng) **34-2790**

Stresses in triple layer wall panels at different rates of temperature drop along thickness. Albaut, G.N., et al, (1979, p.118-123, rus) **34-2847**

Construction in the Arctic and the Far North. (1970, 95p., rus) **34-2867**

Construction of multi-storey buildings on cold piles in the city of Mirnyy. Makarov, V.I., et al, (1980, p.241-254, eng) **34-3249**

Construction by the method of stabilizing perennially frozen foundation soils. Porkhaev, G.V., et al, (1980, p.283-296, eng) **34-3252**

Influence of cities on natural and climatic factors under polar conditions. Gorbacheva, V.M., (1980, p.94-99, rus) **34-3293**

Roof leaks in cold regions' school at Chevak, Alaska. Tobiasson, W., et al, (1980, 12p., eng) **34-3327**

Designing bases and foundations of buildings on thawed permafrost in seismic regions. Chernyshev, IU.G., et al, (1980, p.113-121, rus) **34-3477**

Determining optimal resistivity of external walls to heat transfer. Odel'skii, E.Kh., et al, (1980, p.91-95, rus) **34-3595**

Modern design and construction methods for the Surgut-Urengoy railroad. Korotchaev, D.I., et al, (1980, p.3-6, rus) **34-3597**

Seismic characteristics of loess in relation to geologic surroundings and the impact of industrial activities. Kriger, N.I., et al, (1980, 103p., rus) **34-3763**

Physical, technical and functional aspects of building design for railroads. Kovrigin, S.D., ed, (1978, 202p., rus) **34-3910**

Architectural design of railroad depots in the Northern Structural Climatic zone. Ermolaeva, E.I., (1978, p.19-23, rus) **34-3911**

Determining additional heat losses of buildings through light appertures in the Baykal Amur railroad area. Cheremisov, K.M., et al, (1978, p.105-110, rus) **34-3913**

Experimental studies and determination of equivalent ambient air temperature for technical design of windows. Grigor'ev, P.IA., et al, (1978, p.111-115, rus) **34-3914**

Results of twenty-year monitoring of siltation stabilization of Odessa theater foundations. Arshakuni, D.E., et al, (1980, p.325-327, eng) **34-3934**

See also Industrial buildings, Residential buildings

Buoys

Arctic environmental buoy system. Brown, W.P., (1975, p.50-55, eng) **34-1228**

Development of a meteorological and oceanographic drifting buoy system. Hall, J.M., et al, (1975, p.56-69, eng) **34-1229**

SYNRAMS ice station. Burke, S.P., et al, (1975, p.413-417, eng) **34-1232**

Buried ice

Dynamics of natural processes in highlands. Maksimov, E.V., ed, (1977, 131p., rus) **34-1093**

Buried glaciers and their origin. Maksimov, E.V., (1977, p.84-92, rus) **34-1096**

Wurmian "Ross Ice Sheet" hypothesis and facts. Miagkov, S.M., (1979, p.235-242, rus) **34-3147**

Cables (power lines)

See Power lines, Underground cables

Cables (ropes)

Tractor mounted cable laying equipment. Kuz'menko, V.V., et al, (1979, p.22-23, rus) **34-1253**

Calorimeters

Reading unit for ice calorimeter. Zakurenko, O.E., et al, (1979, p.1643-1644, eng) **34-719**

Comparison of centrifuge and freezing calorimeter methods for measuring free water in snow. Jones, R.N., (1979, 44p., eng) **34-1174**

Calving

Major types of antarctic ice shores. Dubrovin, I.I., (1979, p.69-74, eng) **34-527**

Velocities and calving intensity at the front of Kongsbreen (West Svalbard) around Aug. 1, 1963. Vivet, R., et al, (1978, p.27-34, fre) **34-663**

Calving wave during the breakup of a flooded glacier tongue. Vischer, D.L., (1979, p.315-329, ger) **34-1331**

Ice shelves: a review. Thomas, R.H., (1979, p.273-286, eng) **34-2830**

Icebergs and oil tankers soon to mix. Hartline, B.K., (1980, p.381, eng) **34-3720**

Predicted timing of the disintegration of the lower reach of Columbia Glacier, Alaska. Meier, M.F., et al, (1980, 34p., 6 tables and graphs, eng) **34-3783**

Campbell Island

Biochemical activities of organic soils from subantarctic tussok grasslands on Campbell Island. 1. Oxygen uptakes and nitrogen mineralisation. Ross, D.J., et al, (1979, p.161-171, eng) **34-893**

Biochemical activities of organic soils from subantarctic tussock grasslands on Campbell Island. 2. Enzyme activities. Ross, D.J., et al, (1979, p.173-182, eng) **34-894**

Canada

Bibliography of Canadian glaciology, 1975 : bibliography no.1. Glacier inventory note no.10. Ommanney, C.S.L., (1978, 117p., eng) **34-6**

Snow removal and ice control standards at Canadian airports. Levitsky, W.V., (1979, p.79-81, eng) **34-63**

Building and operating winter roads in Canada and Alaska. Adam, K.M., (1978, 221p., eng) **34-532**

Inventory of Canadian research and development capabilities for engineering in cold regions. (1978, 510p., eng) **34-2005**

Ice thickness climatology for Canadian stations. Richardson, F.A., et al, (1975, 60p., eng) **34-2164**

Synoptic climatology of the Canadian High Arctic. Bradley, R.S., et al, (1979, p.187-201, eng) **34-2269**

Winter exploration and drilling. Sigurdson, T., comp., (1980, p.12-50, eng) **34-2562**

North American snowfall study; comparative through 1973-4 season. (1974, c400p., eng) **34-2630**

Skilled workers used abroad in cold regions development. Chudnovskii, A.D., et al, (1980, p.19-21, rus) **34-2976**

APOA description of research projects, index. (1979, 905p., eng) **34-3115**

Distribution of sea ice meltwater in the eastern Canadian Arctic. Tan, F.C., et al, (1980, p.1925-1932, eng) **34-3895**

—Alberta

Ice caves and permafrost zones in southwest Alberta. Harris, S.A., (1979, p.61-70, eng) **34-2032**

—British Columbia—Babine Lake

Isotherm plots of Babine Lake during the ice free season. Farmer, D.M., et al, (1975, 266p., eng) **34-503**

—British Columbia—Teresa Island

Alpine vegetation ecology and remote sensing of Teresa Island, British Columbia. Buttrick, S.C., (1978, n.p., eng) **34-601**

Newfoundland—Labrador Coast

Average spring, summer, fall and winter iceberg density distribution along the Labrador Coast. Gustajtis, K.V., et al, (1977, 4 maps, eng) **34-727**

—Newfoundland—Melville Lake

Icebreaker probes to Lake Melville, Labrador, in 1972. Bradford, J.D., (1979, 40p., eng) **34-1316**

—Northwest Territories

Application of satellite images for monitoring snow-line in the Yukon and Northwest Territories. Dey, B., et al, (1979, p.473-483, eng) **34-472**

Canadian geothermal data collection : northern wells 1976-77. Taylor, A.E., et al, (1977, 194p., eng) **34-733**

Community planning and development in Canada's Northwest Territories. Gerein, R.J.I., (1980, 175p., eng) **34-3984**

—Northwest Territories—Baffin Island

Contemporary sedimentary environments on Baffin Island, N.W.T., Canada: debris slope accumulations. Church, M., et al, (1979, p.371-402, eng) **34-1383**

Glacial erosion and ice sheet divides, northeastern Laurentide Ice Sheet, on the basis of the distribution of limestone erratics. Andrews, J.T., et al, (1979, p.592-596, eng) **34-1612**

Baffin Island quaternary environments, an annotated bibliography. Andrews, M., et al, (1980, 123p., eng) **34-2722**

Baggin Island sandurs : a study of Arctic fluvial processes. Church, M., (1972, 208p., 4 maps, eng) **34-3577**

—Northwest Territories—Barrow Strait

Oceanographic observations in Barrow Strait and Wellington Channel, N.W.T., April 1973. Herlinveaux, R.H., et al, (1978, 170p., eng) **34-367**

—Northwest Territories—Boothia Peninsula

Classification of the vegetation of Boothia Peninsula and the northern District of Keewatin, N.W.T. Thompson, D.C., (1980, p.73-99, eng) **34-3321**

—Northwest Territories—Coburg Island

Vegetation and climate on Coburg Island, N.W.T. Muller, H., (1979, p.139-147, eng) **34-767**

—Northwest Territories—Devon Island

Arctic beach environment, south-west Devon Island, N.W.T. Owens, E.H., (1969, 152p., eng) **34-938**

—Northwest Territories—Ellesmere Island

New data on an interglacial peat deposit near Makinson Inlet, Ellesmere Island, District of Franklin. Blake, W., Jr., et al, (1979, p.157-164, eng) **34-286**

—Northwest Territories—Garry Island

Equilibrium model for hummocks (monsorted circles), Garry Island, Northwest Territories. Mackay, J.R., (1979, p.165-167, eng) **34-287**

—Northwest Territories—Herschel Island

Some sea ice observations at Herschel Island in mid winter 1973. Irwin, G.J., (1974, 16p., eng) **34-1351**

—Northwest Territories—Inuvik

Frost heave at ground temperatures below 0C, Inuvik, Northwest Territories. Mackay, J.R., et al, (1979, p.403-405, eng) **34-290**

—Northwest Territories—Keewatin District

Classification of the vegetation of Boothia Peninsula and the northern District of Keewatin, N.W.T. Thompson, D.C., (1980, p.73-99, eng) **34-3321**

—Northwest Territories—Lancaster Sound

Subsurface current measurements in eastern Lancaster Sound, N.W.T., summer 1977. Fissel, D.B., et al, (1978, 72p., eng) **34-370**

—Northwest Territories—Mackenzie Bay

Orbital sensing of Mackenzie Bay ice dynamics. Dey, B., (1980, p.280-291, eng) **34-3867**

—Northwest Territories—Mackenzie River

Bank erosion in the southern Mackenzie River Delta, Northwest Territories, Canada. Outhet, D.N., (1974, 89p., eng) **34-2679**

Determining river ice frequency from the tree record. Egginton, P.A., (1980, p.265-270, eng) **34-2989**

—Northwest Territories—Mackenzie River Delta

Analysis of disturbance effects of operations of off-road vehicles on tundra. Radforth, J.R., (1973, 77p., eng) **34-1359**

—Northwest Territories—Parry Channel

LNG transport in Parry Channel: possible environmental hazards. Smiley, B.D., et al, (1979, 47p., eng) **34-165**

Surface current study of eastern Parry Channel, N.W.T. summer 1977. Fissel, D.B., et al, (1978, 66p., eng) **34-592**

—Northwest Territories—Tuktoyaktuk Peninsula

Pingos of the Tuktoyaktuk area. Burr, W., et al, (1973, p.3-12, eng) **34-1296**

—Northwest Territories—Wellington Channel

Oceanographic observations in Barrow Strait and Wellington Channel, N.W.T., April 1973. Herlinveaux, R.H., et al, (1978, 170p., eng) **34-367**

—Nova Scotia—Strait of Canso

Climate and ice in the Strait of Canso region. O'Neill, A.D.J., (1979, p.1-10, eng) **34-1502**

—Ontario

Soil resistivity : measurement and analysis. Palmer, J.D., (1974, p.41-46, eng) **34-2392**

—Quebec—Montreal
Planning: secret to winter success. [1979, p.5-6, eng] 34-649
How Montreal copes with 98 inches of snow. Goodman, E., [1978, p.20-21, 26, eng] 34-777
—Yukon Territory
Application of satellite images for monitoring snow-line in the Yukon and Northwest Territories. Dey, B., et al, [1979, p.473-483, eng] 34-472
Extra roadbuilding skills beat Arctic's winter weather. [1980, p.60-62, eng] 34-2361
—Yukon Territory—Mt. Logan
Mt. Logan field report 1975. Holdsworth, G., [1976, 21p., eng] 34-918
—Yukon Territory—Whitehorse
Thermokarst terrain near Whitehorse, Yukon Territory. Klassen, R.W., [1979, p.385-388, eng] 34-289
Capillarity
Structural criterion of concrete frost resistance. Dvorkin, L.I., et al, [1979, p.75-78, rus] 34-851
Hydrophysical properties of peat soils. Bondarenko, N.F., et al, [1979, 160p., rus] 34-1651
Investigation of vertical moisture transport in the upper layers of undrained highmoor bogs by means of radioactive isotopes. Surovov, V.I., [1978, p.1-5, eng] 34-3959
Capillary ice
Failure of capillary theory of frost damage as applied to ceramics. Blachere, J.R., et al, [1974, p.212-216, eng] 34-1299
Discussion about the freezing point depression in small pores. Haynes, J.M., et al, [1979, p.393-397, eng] 34-2341
Carbon dating
See: Radioactive age determination
Carbon dioxide
Frost streaks in the south polar cap of Mars. Thomas, P., et al, [1978, p.4621-4633, eng] 34-685
Simulation of CO2 uptake and water relations of four Arctic Bryophytes at Point Barrow, Alaska. Miller, P.C., et al, [1978, p.7-20, eng] 34-1262
Impact of CO2 on cooling of snow and water surfaces. Choudhury, B., et al, [1979, p.668-671, eng] 34-1840
Time-dependent feedback system involving sea-ice extent, ocean temperature, and CO2. Saltzman, B., et al, [1980, p.93-118, eng] 34-3366
See also: Dry ice (trademark)
Carbon monoxide
Evaluation of automotive engine preheaters as a technique to control cold start carbon monoxide emissions—a final report. Leonard, L.E., et al, [1978, 76p., eng] 34-842
Carbon monoxide emissions from moving vehicles in Fairbanks, Alaska. Leonard, L.E., [1977, 45p., eng] 34-843
Cargo
Safe working conditions on fast ice. Chuchukin, A., [1979, p.26-27, rus] 34-2292
Effectiveness of container transportation systems under the Far North conditions. Bogoliubova, O.I., et al, [1979, p.96-101, rus] 34-3024
Freight traffic irregularities on rivers of the Yakut ASSR. Zav'ialov, S.IA., [1976, p.28-40, rus] 34-3339
Improving machines and equipment for reloading packed cargo at low temperatures. Grinevich, O.I., [1978, p.85-93, rus] 34-3944
See also: Frozen cargo
Carpathian Mountains
International conference on meteorology of the Carpathian Mountains. Proceedings. [1979, 415p., rus] 34-2299
Cartography
See: Mapping
Cation exchange
See: Ion exchange
Caves
Cave glacier fluctuations in Kuznetskiy Alatau. Dmitriev, V.E., [1979, p.181-185, rus] 34-3137
See also: Ice caves; Subglacial caves
Cellular concretes
Physico-mechanical properties of autoclaved, fine grained cellular concrete. Klem, V.R., [1972, p.67-71, rus] 34-585
Making haydite foam concrete for wall panels. Azbel', L.I., [1979, p.21-22, rus] 34-1252
Quick method of forecasting frost resistance of autoclaved slate-ash cellular concrete. Kremerman, T.B., et al, [1979, p.123-126, rus] 34-2383
STYROPOR-concrete as frost protection and load-bearing layer in road construction. Hohwiller, F., [1972, p.499-508, ger] 34-2397
Studying service life and phase composition of cellular concrete outer wall panels with different finish. Bezborodov, V.A., et al, [1979, p.67-70, rus] 34-2973
Cellular materials
Insulating and load-supporting properties of sulfur foam for expedient roads in cold regions. Smith, N., et al, [1979, 21p., eng] 34-742
STYROPOR-concrete as frost protection and load-bearing layer in road construction. Hohwiller, F., [1972, p.499-508, ger] 34-2397
Cellular plastics
Wall panels with polyurethane foam thermal insulation used in power plant construction. Danenkov, V.D., et al, [1979, p.33-34, rus] 34-196
Apparatus for protecting a water faucet or the like from freezing temperatures. Carlson, C.D., [1978, 6 col., eng] 34-285
Road insulation with polystyrene foam. Gandahl, R., [1979, 32p., eng] 34-782
Thermal stresses in trapezoidal layered panels with corrugated facing. Chaplinskii, I.A., et al, [1979, p.39-45, rus] 34-1719
Practical trials of insulants made from plastics for frost-protection in road and railroad construction: comparison of theory and practice. Apostolopoulos, C., et al, [1979, p.421-437, eng] 34-2344
Construction of earth embankments for highways in West Siberia. Popov, B.I., et al, [1980, p.269-281, eng] 34-3251
See also: Thermal insulation
Cement admixtures
Influence of water temperature and setting accelerators on hardening time of frost resistant cements. Shugalel, R.T., et al, [1979, p.76-78, rus] 34-127
Cement-silicate solutions used in building grout curtains under complex hydrogeological conditions. Shugalel, R.T., et al, [1979, p.74-77, rus] 34-198
Mortars with sodium acetate admixtures. Nikulin, V.T., et al, [1979, p.18, rus] 34-340
Regularities governing properties of mortars. Ryb'ev, I.A., et al, [1979, p.64-67, rus] 34-805
Frost action on immature cement paste—effects on mechanical behavior. Kayyali, O.A., et al, [1979, p.1217-1225, eng] 34-1276
Time effect on the strength and service life of winter laying of silicate bricks using potash and sodium nitrate as cement additives. Kotov, I.T., [1972, p.224-236, rus] 34-1831
Solidification of mortars with antifreeze admixtures. Shishkin, A.A., et al, [1979, p.19-20, rus] 34-2700
Studying rheological properties of mortars containing new antifreeze admixtures. Petropavlovskaia, T.A., [1978, p.98-104, rus] 34-3887
Erection of multistory brick buildings in Noril'sk. Shkliarov, N., et al, [1980, p.32-35, rus] 34-3931
Frost action on immature cement paste—microstructural features. Kayyali, O.A., et al, [1980, p.264-268, eng] 34-4069
Cement mixers
Using concrete mixers at low temperatures. Sovalov, I.G., et al, [1979, p.17-19, rus] 34-335
Cements
Frost protection layers made of cemented materials. Guriachkov, I.L., et al, [1979, p.8-10, rus] 34-10
Influence of water temperature and setting accelerators on hardening time of frost resistant cements. Shugalel, R.T., et al, [1979, p.76-78, rus] 34-127
Silicate cements and dense concretes on a base of nepheline slag and phosphorite residues. Riumin, K.I., et al, [1972, p.196-201, rus] 34-191
Cement-silicate solutions used in building grout curtains under complex hydrogeological conditions. Shugalel, R.T., et al, [1979, p.74-77, rus] 34-198
Optimal properties of cellular concrete with alkaline slag cement. Bagrov, B.O., [1979, p.45-47, rus] 34-332
Concretes for roof plates. Savvina, IU.A., et al, [1977, p.14-17, rus] 34-346
Analyzing some factors influencing corrosion stability of lightweight concretes. Podval'nyi, A.M., [1977, p.18-26, rus] 34-347
Use of nonmetallic pipelines in construction. Borshcheva, N.I., et al, [1974, p.148-151, rus] 34-762
Regularities governing properties of mortars. Ryb'ev, I.A., et al, [1979, p.64-67, rus] 34-805
Structure and properties of cement concretes. Shelkin, A.E., et al, [1979, 344p., rus] 34-850
Two cements used in the silication of loess with the product of azeotropic rectification of acid waste waters. Petrenko, L.K., et al, [1979, p.127-130, rus] 34-854
Soil consolidation under difficult engineering-geological conditions. Baushev, V.K., et al, [1979, p.111-116, rus] 34-1532
Studying properties of G class cement and the "Permafrost" mixture according to the national standards. Kliusov, A.A., [1979, p.31-34, rus] 34-1755
Controlling temperatures of hydrating cementing mixtures in wells. Putikov, O.F., et al, [1973, p.29-30, rus] 34-1957
Frost resistant concretes with fine sands. Ivanov, F.M., et al, [1979, p.24-26, rus] 34-2099
Frost resistance and mechanical properties of calcareous sandstone concrete. Marmor, Kh.G., et al, [1979, p.127-134, rus] 34-2384
Stabilization of artificially thawed soils on lake and river shores, by cement solutions in freezing weather. Temko, IU.P., et al, [1979, p.89-91, rus] 34-2621
Soil stabilization with a mixture of liquid bitumens and plastics. Lukanina, T.V., et al, [1979, p.108-113, rus] 34-2626
Development of fillings for slab track in cold region and its various properties. Fukunaga, M., [1977, p.138, eng] 34-2658
New soil stabilization technique. Lukanina, T.M., et al, [1979, p.10-11, rus] 34-2794
Control of seepage through concrete by injection of polymer solutions. Ibragimov, M.N., [1980, p.880-882, rus] 34-3378
Results of twenty-year monitoring of silication stabilization of Odessa theater foundations. Arshakuni, D.E., et al, [1980, p.325-327, eng] 34-3934
See also: Soil cement
Centrifuges
Comparison of centrifuge and freezing calorimeter methods for measuring free water in snow. Jones, R.N., [1979, 44p., eng] 34-1174
Ceramics
Failure of capillary theory of frost damage as applied to ceramics. Blachere, J.R., et al, [1974, p.212-216, eng] 34-1299
Relation between the frost resistance and the mechanical and porometric characteristics of a terra cotta fragment. Fontaine, T., [1979, p.197-211, fre] 34-2325
Experimental studies of frost shattering of ceramic tiles. Muresan, M., [1979, p.239-249, fre] 34-2328
Chambers
See: Cloud chambers; Cold chambers; Test chambers
Changes of state
See: Phase transformations
Channels (waterways)
Frost penetration beneath black-painted concrete canal lining. Jones, C.W., [1979, 33p., eng] 34-531
Current observations in the channels of the Canadian Arctic Archipelago adjacent to Bathurst Island. Greisman, P., et al, [1978, 127p., eng] 34-562
Surface current study of eastern Parry Channel, N.W.T. summer 1977. Fissel, D.B., et al, [1978, 66p., eng] 34-592
Polystyrene insulation for concrete canal lining. Jones, C.W., et al, [1978, 30p., eng] 34-1172
Towing ships through ice-clogged channels by warping and kedging. Mellor, M., [1979, 21p., eng] 34-1380
Impervious plastic screens on butyl-rubber base. Sergeev, B.I., et al, [1979, p.20-23, rus] 34-1946
Service life of plastic linings for waterways. Gvenetadze, A.R., [1979, p.23-25, rus] 34-1947
Winter operation of sluices. Galkin, L., [1979, p.35-36, rus] 34-2079
Performance of sluices under ice conditions. Kliuev, V., et al, [1979, p.34-36, rus] 34-2119
Studying physical and mechanical properties of seasonally frozen grounds subject to blasting, for the construction of land reclamation objects. Vorob'ev, V.D., et al, [1979, p.132-138, rus] 34-2309
Effectiveness of slotted blasting charges used in building channels in seasonally frozen grounds. Frash, G.B., et al, [1979, p.138-142, rus] 34-2310
Sediment transport and bed forms under ice cover. Song, G.B., [1978, 79p., eng] 34-2476
Annotated bibliography on freshwater ice. [1971, 425p., eng] 34-2507
Ice—an ever-mounting threat to man's survival. Foulds, D.M., [1973, p.27-29, eng] 34-2629
Study of preventive measures from the accumulation of snow on the railway track. Hikita, S., [1974, p.76-78, eng] 34-2651
Winter operation of water navigation objects. Ivanov, L.V., [1978, 211p., rus] 34-2686
Modern trends in design, construction and operation of land reclamation systems under Siberian conditions. Abstracts of papers presented at a seminar. [1978, 292p., rus] 34-3353
Water conduit earth structures of land reclamation systems in Central Yakutia. Krasnov, IU.N., et al, [1978, p.82-84, rus] 34-3358
Land reclamation in winter. Surikov, V.V., [1980, 270p., rus] 34-3758
Natural overgrowth of earth dumps along irrigation channels in Central Yakutia. Nakhabtseva, S.F., [1979, p.51-54, rus] 34-4111
Channel development in snow-filled valleys, Resolute, N.W.T., Canada. Woo, M.-K., et al, [1980, p.37-56, eng] 34-4191
Drainage systems associated with snowmelt, South Shetland Islands, Antarctica. Birnie, R.V., et al, [1980, p.57-62, eng] 34-4192
Effectiveness of draining north taiga lands in Komi ASSR Gortinskii, G.B., et al, [1979, p.137, rus] 34-4238
Charts
Soil zones of Central Yakutia. Konorovskii, A.K., [1979, p.176-183, rus] 34-453
Global variation of snow and ice extent. Kukla, G.J., [1976, p.110-115, eng] 34-818
Vegetation of the "Snow Valley" station (Explanatory note to the vegetation chart). Shatkauskas, A.V., et al, [1977, p.24-34, rus] 34-1160
Combined transportation systems in petroleum provinces of West Siberia. Kobylkovskii, G.P., et al, [1979, p.2-3, rus] 34-2088
Minerals and raw material bases in the Baykal Amur railroad area. Kogan, S.I., et al, [1979, p.1-5, rus] 34-2127
Phsiographic regionalization of the Pamirs. Kadomtseva, T.G., [1979, p.98-100, rus] 34-2188

Charts *(cont.)*
Regularities governing the distribution, temperature and thickness of permafrost in the northwestern part of the West Siberian platform. Trofimova, V.T., et al, [1980, p.85-96, rus] 34-2763
Glaciers on topographic maps and in the Glacier Catalog of the USSR. Kuz'michenok, V.A., [1979, p.249-255, rus] 34-3148
Remarks on the V.A. Kuz'michenok paper "Glaciers on topographic maps and in the Glacier Catalog of the USSR". Vinogradov, O.N., [1979, p.255-257, rus] 34-3149
Principles of cryolithological regionalization of the permafrost zone. Vtiurin, B.I., [1980, p.1-9, eng] 34-3233
Compiling ice maps from photographs made by meteorological satellites. Provorkin, A.V., [1977, p.34-39, rus] 34-3305
Effect of long-term cryometamorphism of earth materials on the formation of groundwater. Fotiev, S.M., [1980, p.177-194, eng] 34-3840
See also: Maps; Meteorological charts

Chemical analysis
Study of winter air pollutants at Fairbanks, Alaska. Coutts, H.J., [1979, 62p., eng] 34-1144
Weathering estimations for spilled oil from *Bouchard No.65*. MacLeod, W.D., et al, [1978, p.217-228, eng] 34-1369
Extended aeration, clarification and anaerobic treatment cycle. Hughes, C.D., [1974, p.85-98, eng] 34-1470
Further field investigation on aerated lagoons in the city of Winnipeg. Girling, R.M., et al, [1974, p.99-124, eng] 34-1471
Waste treatment performance data at Prince Albert Pulp Company. Aschim, O.K., [1974, p.207-219, eng] 34-1474
Bio-processes of the oxidation ditch in a sub-arctic climate. Murphy, R.S., et al, [1974, p.332-357, eng] 34-1481
Description of some recent research work of particular interest for the introduction of new waste water treatment methods in Norway. Abrahamsen, J., [1974, p.403-422, eng] 34-1483
Shallow core snow chemistry of Athabsca Glacier, Alberta. Butler, D., et al, [1980, p.278-281, eng] 34-2667
Dating of Ross Ice Shelf cores by chemical analysis. Herron, M.M., et al, [1979, p.345-357, eng] 34-2837
Geocryologic and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, [1978, 187p., rus] 34-2915
Formation of chemical composition of ground water in the Iengra River Basin (Baykal Amur railroad route). Boltsov, A.V., [1978, p.169-176, rus] 34-2934
See also: Soil analysis

Chemical composition
Trace element content of Greenland snows along an east-west transect. Boutron, C., [1979, p.1253-1258, eng] 34-103
Preconcentration of dilute solutions at the 1/1,000,000 microgram/g level by nonboiling evaporation with variable variance calibration curves. Boutron, C., et al, [1979, p.140-145, eng] 34-729
Biologic productivity and chemical element cycles in spruce-green moss central and northern taiga of the Komi Autonomous Soviet Socialist Republic. Zaboeva, I.V., et al, [1975, p.81-82, rus] 34-1853
Biologic productivity and chemical element cycles in spruce-lichens in the central taiga of the Komi ASSR. Rusanova, G.V., et al, [1975, p.83-84, rus] 34-1854
Role of vegetational cover in the development of cryogenic biogeocenoses. Makeev, O.V., et al, [1975, p.164-165, rus] 34-1861
Biological cycle of substances in cowberry and lichen pine forests. Morozova, R.M., [1978, p.85-112, rus] 34-2258
Chemical composition of ground ice as an indication of ice formation conditions and origin of the enclosing rocks. Danilov, I.D., et al, [1980, p.119-126, rus] 34-2767
Chemical composition of injection ice. Anisimova, N.P., et al, [1978, p.125-137, rus] 34-2930
Evaluating chemical runoff of some continuous water springs in Central Yakutia. Piguzova, V.M., et al, [1978, p.163-169, rus] 34-2933
See also: Atmospheric composition; Frozen ground chemistry; Geochemistry; Ice composition; Snow composition; Soil chemistry; Soil composition; Water chemistry

Chemical ice prevention
Control of snow and ice on road and communication facilities in the Himalayas. Malik, S.C.L., et al, [1979, p.129-134, eng] 34-72
Alternative highway deicing chemicals. Dunn, S.A., et al, [1979, p.261-269, eng] 34-90
Evaluation of the use of salt brine for deicing purposes. Kasinskas, M.M., [1979, p.275-281, eng] 34-92
Enhancing ice-melting action of rock salt by prewetting with calcium chloride. Larrimore, D.R., et al, [1979, p.282-288, eng] 34-93
Method and formulation for preventing snow and ice accumulation. Bonnanzio, A.J., [1975, 8 col., eng] 34-502
Calcium chloride vs. snow and ice. [1979, p.14-17, eng] 34-651
Operation of airports. Maintenance and repairs. Manual. Goretskii, L.I., et al, [1979, 215p., rus] 34-769
Expansion joints in highway bridges. Shesterikov, V.I., [1978, 151p., rus] 34-886
De-icing system for hydro-pneumatic units. Baldin, V.I., et al, [1974, 4 col., rus] 34-1224
Action of de-icing salt on concrete. Wurth, E., [1978, 19p., eng] 34-1558
Report from the working group on noncorrosive methods of ice control. [1979, p.41-55, eng] 34-1585
Noncorrosive methods of ice control. Minsk, L.D., [1979, p.133-162, eng] 34-1586
Economic analysis of the environmental impact of highway deicing salts. Murray, D.M., [1977, p.29-40, eng] 34-1877
Urea as a deicing agent. Johansson, A., [1970, p.229-308, swe] 34-1879
Project: stamp out scaling. McFadden, J.E., [1980, p.139-144, eng] 34-2138
Corrosion, deicing salts, and the environment. Chance, R.L., [1974, p.16-22, eng] 34-2394
Use of exchange plastics for the protection and repair of concrete bridge pavements exposed to salting. Schröder, M., [1980, p.23-24, 26-27, ger] 34-2492
Reducing damage to roadside vegetation due to sodium ions in salt. Leisser, H., et al, [1979, p.486-487, ger] 34-2494
Swiss defroster ends salt use on Albany road. [1979, p.44-45, eng] 34-2807
Winter service and road maintenance. Suter, K., [1980, p.77, ger] 34-2862
Roads in Finland. Babkov, V.F., [1980, p.28-30, rus] 34-3954
See also: Salting

Chemical properties
Method of predicting road salt runoff in New Hampshire. Spear, P.W., et al, [1979, p.116-120, eng] 34-70
Investigation of an ozone-filter system for color and iron removal at low temperatures. Smith, D.W., et al, [1975, 71p., eng] 34-644
Relationships of soil acidity and air temperature to the wind and vegetation at Prudhoe Bay, Alaska. Walker, D.A., et al, [1979, p.224-236, eng] 34-688
Overview of the problems of disinfection. Chambers, C.W., [1974, p.423-437, eng] 34-1484

Chemistry
Nature of strength and deformation properties of argillaceous rocks. Osipov, V.I., [1979, 232p., rus] 34-1237

Chernozem
Fertility of cryogenic meadow-chernozem soils in the Yeravninskaya Basin (Buryat ASSR). Abasheeva, N.E., et al, [1979, p.159-167, rus] 34-451
Soil zones of Central Yakutia. Konorovskii, A.K., [1979, p.176-183, rus] 34-453
Structure of soils in the steppe geosystems of the Abakan and Yenisey interfluve. Kochurov, B.I., [1979, p.210-217, rus] 34-457
Microbiological characteristics of cryogenic meadow-chernozem soils in the Eravnin Basin, the Buryat Autonomous Republic. Nimaeva, S.Sh., et al, [1979, p.10-17, rus] 34-1439
Temperature and humidity effect on biological nitrogen fixation in leached chernozem with different organic additives. Mozzherin, N.M., [1979, p.174-178, rus] 34-1812

Chlorophylls
Standing crops and species composition of diatoms in sea ice from Robeson Channel to the Gulf of St. Lawrence. Dunbar, M.J., et al, [1980, p.61-72, eng] 34-4243

Chukchi Sea
Oceanographic cruise of the USCGC *Glacier* to the marginal sea-ice zone of the Chukchi Sea. MIZPAC 78. Interim report for period July 1978-May 1979. Paquette, R.G. et al, [1979, 77p., eng] 34-275
Use of satellite infrared imagery in the oceanographic study of the Chukchi Sea. Garrison, B.R., et al, [1975, p.826-834, eng] 34-1235
Evaluation of spatial scales of disturbances and determination of some characteristics of turbulence in the Chukchi Sea. Izmailov, V.V. [1979, p.22-29, eng] 34-1899
Submarine permafrost on the Alaskan continental shelf. Vigdorchik, M.E., [1980, 118p., eng] 34-2406
Measurements of bottom temperature of the Chukchi Sea. Efimov, A.V., [1979, p.56-60, rus] 34-2775
Dependence of summer air temperature above the Laptev, East Siberian and Chukchi seas on ice conditions and atmospheric circulation. Teltel'baum, K.A., [1979, p.81-90, rus] 34-3001
Ice gouge characteristics in the Alaskan Chukchi Sea. Toimil, L., [1979, p.863-876, eng] 34-3032
Synoptic-statistical method of evaluating the possibility of southerly storm formation and velocity. Zaitsev, [illegible], [1979, p.36-41, rus] 34-3529

Circulation
See: Atmospheric circulation; Drift; Ocean currents

Cirque glaciers
Glacial geology of recently deglaciated bedrock areas. Hallet, B., [1979, p.795-801, eng] 34-2264

Cirques
Physiography and glacial geomorphology of the central Black Coast, Palmer Land. Singleton, D.G., [1980, p.21-32, eng] 34-4113

City planning
See: Urban planning

Classifications
Classifying the northwest Siberian landscapes according to their stability under construction. Nefedova, V.B., [1979, p.42-47, rus] 34-525
Major types of antarctic ice shores. Dubrovin, L.I., [1979, p.69-74, eng] 34-527
Glacial landscapes and their spatial variability in the temperate and subpolar latitudes. Golubev, G.N., et al, [1978, p.277-282, eng] 34-795
Classification of cryogenic formations in Caucasus. Bondyrev, I.V., [1979, p.105-108, rus] 34-858
Snow classification in support of off-road vehicle technology. Irwin, G.J., [1979, 29p., eng] 34-1113
Soils of the "Snow Valley" research station (Explanatory note to the soil map). Bogdanov, I.E., et al, [1977, p.35-43, rus] 34-1161
Alaskan snow. Benson, C.S., [1979, p.56-69, eng] 34-1306
Icebergs: an overview. Kovacs, A., [1979, 7p., eng] 34-1597
Recent glaciation of the Kungey Alatau Range. Vilesov, E.N., [1979, p.132-142, rus] 34-1982
Synoptic climatology of the Canadian High Arctic. Bradley, R.S., et al, [1979, p.187-201, eng] 34-2269
Identification of some Norwegian mountain soil types. Ellis, S., [1979, p.201-212, eng] 34-2386
Studying the origin and structure of forest-swamp complexes. Glebov, F.Z., et al, [1978, p.14-59, rus] 34-2520
Types of snow cover development determining avalanche formation processes in the El'brus Mountain area. Salova, T.A., [1979, p.223-228, rus] 34-3145
Field studies of naleds. Alekseev, V.R., et al, [1980, 152p., rus] 34-3189
Classification of the vegetation of Boothia Peninsula and the northern District of Keewatin, N.W.T. Thompson, D.C., [1980, p.73-99, eng] 34-3321
Soil cover of the "Snow Valley" station (Explanatory list with a diagram of soil cover). Bogdanov, I.E., et al, [1980, p.36-47, eng] 34-3398
Preliminary classification system for vegetation of Alaska. Viereck, L.A., et al, [1980, 38p., eng] 34-3434
Forest and hydrological regionalization of Central Siberia. Lebedev, A.V., [1979, p.25-58, rus] 34-3770
Structure of the northern circumpolar permafrost region. Baranov, I.IA., [1980, p.327-345, eng] 34-3849
See also: Landscape types

Clay minerals
Nature of strength and deformation properties of argillaceous rocks. Osipov, V.I., [1979, 232p., rus] 34-1237
Chemistry and clay mineralogy of cores 8, 9, 10, New Harbor, Antarctica. Ugolini, F.C., et al, [1979, p.84-102, eng] 34-2288
Influence of cryogenic processes on clay minerals. Konishchev, V.N., et al, [1979, p.93-101, eng] 34-2319

Clay soils
Two cements used in the silication of loess with the product of azeotropic rectification of acid waste waters. Petrenko, L.K., et al, [1979, p.127-130, rus] 34-854
Overconsolidated sediments in the Beaufort Sea. Chamberlain, E., [1978, p.24-29, eng] 34-873
Initial and sustained strength of clay soils. Meschian, S.R., [1978, 207p., rus] 34-884
Regularities of the deformation of swelling soils with time. Meschian, S.R., et al, [1979, p.37-44, eng] 34-982
Stabilization of saturated loess soils by gas silication. Isaev, B.N., et al, [1979, p.65-69, eng] 34-1146
Deformation of stabilized, ice-saturated lumpy soil. Baliasnikov, G.G., [1979, p.41-42, rus] 34-1154
Consolidation of a thin cutoff wall of clay soils of liquid consistency. Chernyi, I.P., et al, [1979, p.462-465, eng] 34-1435
Electron microscope investigations of frozen and unfrozen bentonite. Kumai, M., [1979, 14p., eng] 34-1578
Freezing and thawing mechanisms in lime stabilized soils. Esmer, E., [1969, 204p., eng] 34-2067
Behavior of clay subgrades during melting periods. Prokudin, I.V., et al, [1979, p.40-42, rus] 34-2096
Proceedings of the All-Union symposium on the rheology of soils, 2nd, Tsakhkadzor, Oct. 7-10, 1975. [1976, 406p., rus] 34-3203
Shearing creep of clay soils due to vibration. Badahan, R.G., et al, [1976, p.117-127, rus] 34-3205
Determining creep parameters of weak clayey soils. Korolev, V.M., [1976, p.211-219, rus] 34-3207
Collapse of fluid and semi-solid clay soils. Maksimiak, R.V., [1976, p.241-246, rus] 34-3212
Strength of clay soils in time. Maslov, N.N., et al, [1976, p.247-255, rus] 34-3213
Compression creep of sagging ground. Meschian, S.R., et al, [1976, p.256-267, rus] 34-3214
Skeleton creep of weak water-saturated clay soils. Meschian, S.R., et al, [1976, p.268-277, rus] 34-3215
Determining stress relaxation in clayey grounds at shearing. Meschian, S.R., et al, [1976, p.278-282, rus] 34-3216
Influence of transient processes on bearing strength of piles in weak clayey grounds. Mets, M.A., [1976, p.283-296, rus] 34-3217

Studying stress relaxations in water-saturated clayey soils. Postolakian, R.A., et al, [1976, p.303-313, rus] 34-3218
Studying the effect of loading regime on the strength of clay soils. Sorokina, G.V., [1976, p.314-321, rus] 34-3219
Nonlinear consolidation of clays allowing for aging. Tsytovich, N.A., et al, [1976, p.346-351, rus] 34-3222
Shearing creep mechar sm at variable pore pressure. Tsytovich, N.A., et al, [1976, p.352-359, rus] 34-3223
On the role of th. components of frozen clay soils in the development of strength at different temperatures. Maksimiak, R.V., et al, [1980, p.169-183, eng] 34-3244
Factors relating to the landslide process in Canadian Quickclays. Smalley, I., [1976, p.163-172, eng] 34-3262
Pressure meter for testing soft soils. Lushnikov, V.V., et al, [1980, p.262-265, eng] 34-3370
Preconstruction consolidation of bases with vertical drains. Bel'skii, A.I., et al, [1980, p.266-272, eng] 34-3371
Determination of the parameters of the method of thermal stabilization of soils and its economic effectiveness. IUrdanov, A.P., [1980, p.272-278, eng] 34-3372
Experience with the drying of loess soils using radial horizontal holes. Anpilov, V.E., et al, [1980, p.674-677, eng] 34-3374
More accurate experimental value of shear strength of grounds. Zhikhovich, V.V., [1980, p.21-23, rus] 34-3636
Electrochemical treatment of clay foundations. Zhinkin, G.N., et al, [1980, 164p., rus] 34-3756
Organization of a natural kaolinite-iron oxide system in dry and wet states. Relationship between melting temperature of ice and pore size. Homshaw, L.G., et al, [1980, p.847-850, fre] 34-3777
Improving the design of structures built in complex ground conditions. Meteliuk, N.S., [1980, 143p., rus] 34-3823
Water migration, formation of texture and ice segregation in freezing and thawing clayey soils. Ershov, E.D., et al, [1980, p.159-175, eng] 34-3839
Studying relations between soil consolidation indices. Ksenofontov, A.I., [1978, p.26-33, rus] 34-3888
Nonlinear formulation of a univariate problem of consolidation of saturated ground gases. Votiakov, I.F., [1978, p.34-44, rus] 34-3889
Experimental testing of the compression technique of determining lower clay soil plasticity limits. Rogatkina, Zh.E., et al, [1978, p.65-72, rus] 34-3891
Determining passability of walking excavators in inhomogeneous grounds, allowing for frozen layers. Zagorulko, L.P., [1978, p.118-124, rus] 34-3905

Clays

Thermokarst terrain near Whitehorse, Yukon Territory. Klassen, R.W., [1979, p.385-388 eng] 34-289
Rheological fundamentals of soil mechanics. Vialov, S.S., [1978, 447p., rus] 34-432
Soils of the central Selemdzha River area and their economic development. Rybachuk, N.A., et al, [1979, p.49-54, rus] 34-439
Design of bases and foundations on subsiding soils. Mustafaev, A.A., [1979, 368p., rus] 34-720
Engineering geology of the U.S.S.R. Vol.5, Altai and Ural Mountains. Trepettsov, E.V., ed, [1978, 220p., rus] 34-768
Vibrating equipment used in mining construction. Shiral, E.N., [1978, 262p., rus] 34-848
Initial and sustained strength of clay soils. Meschian, S.R., [1978, 207p., rus] 34-884
Reliability of the method of centrifugal modeling of deformations of clay bases. Rudnitskii, N IA., et al, [1979, p.91-93, eng] 34-1148
Freezing effect on the strength and deformation of clays under pressure from hard stamps. Sadovskii, A.V., et al, [1979, p.20-30, rus] 34-1535
Thermal inertia of ground and the development of tangential frost heave forces. Sokolov, V.M., [1979, p.21-22, rus] 34-1710
Experimental studies of ice formation fields under nonuniviariate frost penetration conditions. Zhestkova, T.N., et al, [1979, p.159-167, rus] 34-1924
Lower boundary of water-ice phase transitions in frozen fines. Ananian, A.A., et al, [1979, p.201-206, rus] 34-1929
Regularities governing the propagation of railroad induced oscillations in cohesive soils. Chokhonelidze, G.I., et al, [1975, p.76-77, rus] 34-2063
Effectiveness of clay freezing prevention methods. Kharlamov, V.N., [1979, p.4-8, rus] 34-2082
Preparation of sagging loess bases. Ryzhov, A., et al, [1979, p.32-33, rus] 34-2117
Freeze-thaw tests and theories of frost action. Blachere, J.R., [1979, p.161-166, fre] 34-2323
Structure of the Pliocene-Quaternary deposits of the Barents Sea bottom along the Rybachiy Island-Franz Joseph Land cross section. Blazhchishin, A.I., et al, [1979, p.13-19, rus] 34-3065
Proceedings of the All-Union symposium on the rheology of soils, 2nd, Tsakhkadzor, Oct. 7-10, 1975. [1976, 406p., rus] 34-3203
Theory of shearing creep of clay and its experimental confirmation. Ter-Stepanian, G.I., [1976, p.74-97, rus] 34-3204
Creep as reflected in the numerical calculation of the stress-strain state of foundations. Kryzhanovskii, A.L., et al, [1976, p.220-227, rus] 34-3210
Factors determining rheologic properties of clays. Kul'chitskii, L.I., et al, [1976, p.228-240, rus] 34-3211
Univariate compaction of ground, allowing for viscoplastic deformations. Ter-Martirosian, Z.G., [1976, p.322-327, rus] 34-3220
Studying wave processes in linear viscoelastic media under dynamic loads. Filippov, I.G., [1976, p.328-345, rus] 34-3221
Calculating nonstationary flow rates of landslide-mudflows. Shadunts, K.Sh., et al, [1976, p.369-376, rus] 34-3225
An NMR study of the phase transition of water in models and in frozen clays. Kvlividze, V.I., et al, [1980, p.81-96, eng] 34-3833
Residential buildings on economy-type pile foundations in Murmansk. Kaloshin, I., [1980, p.14-15, rus] 34-3928
Freezing of ground under open system conditions. Zhestkova, T.N., et al, [1980, p.164-177, rus] 34-4133

Climate

Numerical modeling of the glaciers-ocean-atmosphere global system. Sergin, V.IA., [1979, p.3191-3204, eng] 34-360
Upper forest limit in the mountains of the Boreal Zone of the USSR. Gorchakovskii, P.L., et al, [1978, p.349-363, eng] 34-800
Program and abstracts. [1978, c50p., ger] 34-813
Proceedings. [1976, 424p., eng] 34-814
Global variation of snow and ice extent. Kukla, G.J., [1976, p.110-115, eng] 34-818
Climatic and synoptic study of the Weddell Sea region during the austral fall months. Komro, F.G., [1978, 46p., eng] 34-1090
Alaska's weather and climate: a collection of articles written for the educated layman by staff members of the Geophysical Institute and the National Weather Service in Alaska. Wendler, G., ed, [1979, 153p., eng] 34-1302
Alaska's weather and climate. Bowling, S.A., [1979, p.1-25, eng] 34-1303
Climate and ice in the Strait of Canso region. O'Neill, A.D.J., [1979, p.1-10, eng] 34-1502
30,000-yr isotope climatic record from antarctic ice. Lorius, C., et al, [1979, p.644-648, eng] 34-1839
Susitna River basin resource bibliography; supplement 1979. Lockhart, D., comp., [1979, 244p., eng] 34-2482
Baykal Amur railroad and economic development of the Transbaikal region. Nedeshev, A.A., et al, [1979, 158p., rus] 34-2483
Boreal ecology. Pruitt, W.O., Jr., [1978, 73p., eng] 34-2581
Winter environmental data survey of the drainage basin of the upper Susitna River, Alaska. Bilello, M.A., [1980, 30p., eng] 34-2725
ICEX: Ice and climate experiment; report of Science and Applications Working Group. [1979, c118p., eng] 34-2726
Effect of ice-albedo feedback on global sensitivity in a one-dimensional radiative-convective climate model. Wang, W.-C., et al, [1980, p.545-552, eng] 34-3087
Time-dependent feedback system involving sea-ice extent, ocean temperature, and CO2. Saltzman, B., et al, [1980, p.93-118, eng] 34-3366
Polar environmental monitoring: final report. [1979, 94p., eng] 34-3390
Components of biogeocenoses of the tundra-forest regions of the northern Okhotsk Sea region. Ignatenko, I.V., ed, [1980, 51p., eng] 34-3395
Recent fluctuations in meteorological and oceanographic parameters in Alaska waters. Niebauer, H.J., [1980, 34p., eng] 34-3483
Community planning and development in Canada's Northwest Territories. Gerein, H.J.F., [1980, 175p., eng] 34-3984
Workshop on the Status and Future of Ice Core Research and Ice Core Data (Boulder, Colorado, 24-26 September 1979). [1980, p.5-14, eng] 34-4022
Climatic peculiarities of West Yakutia. Spesivtseva, N.A., [1980, p.87-95, rus] 34-4043

Climatic changes

Nonlinear analysis of a simple sea ice-ocean temperature oscillator model. Moritz, R.E., [1979, p.4916-4920, eng] 34-412
Climate versus glacier termini behavior in the Austrian Alps: reply to comments by M. Kuhn. Posamentier, H.W., [1979, p.412-413, eng] 34-556
Satellite-derived Northern Hemisphere snowcover record for the winter of 1977-78. Wiesnet, D.R., et al, [1979, p.928-933, eng] 34-655
Current climatic changes and their impact on the ice regime of the Arctic seas. Zakharov, V.F., [1978, p.115-119, eng] 34-857
Changes in the amount of multi-year ice in arctic seas during the current cooling trend. Bulatov, L.V., et al, [1978, p.216-218, eng] 34-1417
Problems of the Arctic and the Antarctic, collection of articles, Vol.45, 1974. Treshnikov, A.F., ed, [1979, 171p., eng] 34-1884
Cooling of the Arctic. Zakharov, V.F., [1979, p.13-22, eng] 34-1886
Ice conditions as an index of recent trends of climatic cooling on the lower reaches of the Yenisei. Antonov, V.S., [1979, p.98-105, eng] 34-1902
Preliminary mathematical model for reconstruction of past climate based on glaciological reference data on the antarctic ice sheet. Efimov, V.A., [1979, p.5-11, rus] 34-1996
Annual and long-term variations in ice distribution in the Atlantic sector of Antarctica. Dobromyslov, V.N., et al, [1979, p.113-117, rus] 34-2218
Superimposed rockfalls and climatic changes in northwestern Greenland. Malaurie, J., [1979, p.117-128, fre] 34-2321
Winters of the world: Earth under ice ages. John, B.S., ed, [1979, 256p., eng] 34-2559
Sea ice and ice sheets and their role in climatic variations. Untersteiner, N., [1975, p.206-224, eng] 34-2565
Ice flow along an I.A.G.P. flow line and interpretation of data from an ice core in Terre Adélie, Antarctica. Raynaud, D., et al, [1979, p.103-115, eng] 34-2820
Catastrophe model of the paleoclimate. MacAyeal, D.R., [1979, p.245-257, eng] 34-2828
Little Ice Age: Northern Hemisphere average observations and model calculations. Robock, A., [1979, p.1402-1404, eng] 34-3648
Free oscillations in a climate model with ice-sheet dynamics. Källén, E., et al, [1979, p.2292-2303, eng] 34-3767
Crystal size and climatic record down to the last ice age from Antarctic ice. Duval, P., et al, [1980, p.59-64, eng] 34-3986

Climatic factors

Vegetational successions and other ecosystemic changes in two Arctic tundras. Peterson, K.M., [1978, 305p., eng] 34-1
Causes of changes in glacier melting. Drozdov, O.A., et al, [1973, p.21-27, rus] 34-107
Weather, waves and icing in the Beaufort Sea. Berry, M.O., et al, [1975, 5 parts, eng] 34-506
Ice climatology of the Beaufort Sea. Markham, W.E., [1975, 87p., eng] 34-507
Arctic Ocean heat budget; report from SCOR Working Group 58. Aagaard, K., et al, [1979, 98p., eng] 34-722
Biochemical activities of organic soils from subantarctic tussok grasslands on Campbell Island. 1. Oxygen uptakes and nitrogen mineralisation. Ross, D.J., et al, [1979, p.161-171, eng] 34-893
Biochemical activities of organic soils from subantarctic tussock grasslands on Campbell Island. 2. Enzyme activities. Ross, D.J., et al, [1979, p.173-182, eng] 34-894
Cold region pipeline construction. Pendarvis, R.C., [1979, p.481-485, eng] 34-1401
Variations of resin and lipid contents in some forest trees depending on climatic conditions. Fuksman, I.L., et al, [1979, p.446-451, rus] 34-2129
Oxygen isotopic composition of drifting snow in Mizuho Plateau, Antarctica. Kato, K., et al, [1979, p.136-151, jap] 34-2155
Oxygen isotopic composition of snow formed under an antarctic anticyclone. Kato, K., et al, [1979, p.152-163, jap] 34-2156
Thermal regime in road constructions; measurements and simulation. Frivik, P.E., et al, [1979, p.482-496, eng] 34-2349
Thermal climate regime on road and ground surface. Heiersted, R.S., [1979, p.497-509, eng] 34-2350
Study of climatic effects on fast ice extent and its seasonal decay along the Beaufort-Chukchi coasts. Barry, R.G., [1979, p.272-375, eng] 34-2683
Influence of the Indian monsoon on glaciation in the Pamirs. Arushanov, M.L., et al, [1979, p.143-150, rus] 34-3130
Meteorology and climatology of the seasonal sea ice zone. Barry, R.G., [1980, p.133-156, eng] 34-3628
Two models for estimating climate-glacier relationships in the North Cascades, Washington, U.S.A. Tangborn, W., [1980, p.3-21, eng] 34-3794

Climatology

Snow cover suitability percentiles for skiing and snowmobiling. Crowe, R.B., [1978, p.129-140, eng] 34-38
Ocean ice. Sobey, E., [1979, p.105-114, eng] 34-200
Environmental conditions off the east coast of Canada Sites 3 (54N, 54W), 4 (49N, 48W), and 5 (47N, 47W). Denard, M., [1977, 96p., eng] 34-308
Some sea ice cover statistics for the Canadian east coast. Fraser, J.E., [1975, 28p., eng] 34-316
Davis Strait wave climate study using the 1970 through 1977 meteorological and oceanographic centre synoptic significant wave charts. McKay, W.N., [1978, 260p., eng] 34-318
Environmental program Mackenzie delta, N.W.T. [1974, 9 parts, eng] 34-420
Documentation of soil characteristics and climatology during five years of wastewater application to CRREL test cells. Iskandar, I.K., et al, [1979, 82p., eng] 34-743
Snow blowing and snow fall on the North Slope, Alaska. Wendler, G., [1979, p.10-19, eng] 34-1051

Climatology *(cont.)*
Mean and extereme semi-monthly northwestern hemispheric snow boundaries from satellite records (1966-1979) and some surface data comparisons. Berry, M.O., et al, [1979, p.68-79, eng] **34-1057**
Variations in summer temperature patterns near Barrow, Alaska: analysis and ecological interpretation. Myers, J.P., et al, [1979, p.131-144, eng] **34-1277**
Clouds and precipitation in Alaska. Ohtake, T., [1979, p.41-55, eng] **34-1305**
CO2-climate sensitivity study with a mathematical model of the global climate. Manabe, S., et al, [1979, p.491-493, eng] **34-1761**
Methods of determining and presenting climatological data for structural design. Kobysheva, N.V., et al, [1979, p.3-8, rus] **34-1815**
Preliminary mathematical model for reconstruction of past climate based on glaciological reference data on the antarctic ice sheet. Efimov, V.A., [1979, p.5-11, rus] **34-1996**
World Ocean and Pleistocene glacial epochs. Zakharov, V.F., [1978, 64p., rus] **34-2106**
Antarctic operations, Nov. 1977-Feb. 1978. Lorius, C., et al, [1978, 10p., fre] **34-2135**
Growth rates of crystal grains in snow at Mizuho Station, Antarctica. Narita, H., et al, [1979, p.11-17, eng] **34-2147**
Compactive viscosity of snow and its climatic implications at Mizuho Station, Antarctica. Maeno, N., et al, [1979, p.18-31, eng] **34-2148**
Ice thickness climatology for Canadian stations. Richardson, F.A., et al, [1975, 60p., eng] **34-2164**
Time series analyses on the maximum depth of snow cover in Akita city. Ito, T., [1979, p.267-275, jap] **34-2172**
Synoptic climatology of the Canadian High Arctic. Bradley, R.S., et al, [1979, p.187-201, eng] **34-2269**
Oil spill scenario for the Labrador Sea. LeDrew, B.R., et al, [1979, 675p., eng] **34-2479**
Synoptic climatology of the Beaufort Sea Coast of Alaska. Moritz, R.E., [1979, 176p., eng] **34-2716**
Problems of mountain glaciology. [1977, 212p., rus] **34-3379**
Glacio-climatology as a connecting scientific discipline, its problems and goals. Tronov, M.V., [1977, p.3-11, rus] **34-3380**
International Workshop on the Seasonal Sea Ice Zone, Monterey, California, Feb. 26-Mar.1, 1979. Andersen, B.G., ed, [1980, 357p., eng] **34-3624**
Polar atmosphere-ice-ocean processes: a review of polar problems in climate research. [1980, p.525-543, eng] **34-3633**
Resolutions of the Glaciology Section workshop, June 1979. [1979, p.29-33, rus] **34-3685**
Compiling 1:3 000 000 glacioclimatic maps for the World Atlas of Snow and Ice Resources. Davidovich, N.V., et al, [1979, p.66-71, rus] **34-3693**
Hydroclimatic influence of forests. Protopopov, V.V., ed, [1979, 144p., rus] **34-3768**
Classification of the relationship between climate and permafrost-climatic regions. Gavrilova, M.K., [1980, p.13-27, eng] **34-3829**
Climatology of freezing rain in the Montreal area. Leech, M.E., [1979, p.125-140, eng] **34-4211**
See also: Microclimatology; Paleoclimatology

Clothing
Study of the clothing problems of the oil operating crews in the Arctic. Pang, S.H.H., et al, [1972, 58p., eng] **34-571**

Cloud chambers
Growth of ice discs from the vapor and the mechanism of habit change of ice crystals. Keller, V.W., et al, [1980, p.458-464, eng] **34-3407**
Helicopter icing spray system. Belte, D., [1980, 13p., eng] **34-3726**

Cloud cover
Clouds and precipitation in Alaska. Ohtake, T., [1979, p.41-55, eng] **34-1305**

Cloud droplets
Measuring the coefficients of directional light scattering in droplet and crystalline cloud media. Pavlova, L.N., [1979, p.698-701, eng] **34-122**
Observations of fall streak generation from glaciating altocumulus floccus. Black, T.L., [1979, p.157-166, eng] **34-1744**
Electric field effect on crystallization of supercooled water. Nikandrov, V.IA., et al, [1979, p.65-70, rus] **34-2013**
Studying freezing of large water drops in the corona discharge area. Bashkirova, G.M., et al, [1979, p.71-75, rus] **34-2014**
Studying phase transformations of water when reacting with different underlying surfaces. Girs, S.P., et al, [1979, p.83-90, rus] **34-2016**
Coagulation growth effect on the freezing of supercooled drops. Zhekamukhov, M.K., [1979, p.14-22, rus] **34-2876**
Preliminary study of ice grown by droplet accretion using water-insoluble particles as tracer. Prodi, F., et al, [1980, p.284-289, eng] **34-3202**
Theoretical analysis of homogeneous crystallization of supercooled water droplets in a constant homogeneous electric field. Klingo, V.V., et al, [1979, p.15-25, rus] **34-3567**
Influence of point charge electric field on homogeneous crystallization of supercooled water drops. Klingo, V.V., et al, [1979, p.26-32, rus] **34-3568**
Experimental study of the freezing of water drops in a constant electric field. Shlykov, V.V., [1979, p.68-75, rus] **34-3573**

Cloud electrification
Corona discharge of wetted hailstones as a basic mechanism of lightning initiation. Diachuk, V.A., et al, [1979, p.60-63, rus] **34-1637**
Studying freezing of large water drops in the corona discharge area. Bashkirova, G.M., et al, [1979, p.71-75, rus] **34-2014**

Cloud physics
Collection and measurement efficiencies of the EWER cloud water meter for hydrometeors. Norment, H.G., [1979, 39p., eng] **34-1352**
Ice initiation in unmixed undraft cores in northeast Colorado cumulus congestus clouds. Heymsfield, A.J., et al, [1979, p.2216-2229, eng] **34-1765**
Microphysics of clouds and precipitation. Pruppacher, H.R., et al, [1978, 714p., eng] **34-2815**
Mechanism of ice splinter production during riming. Mossop, S.C., [1980, p.167-169, eng] **34-2678**
Icing nozzle element optimization test, January 1979. Delgado, L.V., [1979, 370p., eng] **34-3083**
Studying variations in surface electrical conductivity of some ice-forming substances interacting with water vapor. Vlasov, S.A., et al, [1979, p.76-81, rus] **34-3574**
Cloud/icing/visibility analysis systems (CIVAS) and forecast development plan. Mount, W.D., et al, [1980, 64p., eng] **34-3998**

Cloud seeding
Comments on the Climax and Wolf Creek Pass cloud seeding experiments. Hobbs, P.V., et al, [1979, p.1233-1237, eng] **34-891**
Investigation of the effectiveness of the action of the full-scale pyrotechnical ice-forming aerosol generators. Beliaev, S.P., et al, [1979, 23p., eng] **34-1348**
Determining particle distribution of ice-forming reagents in clouds using the Setton diffusion model. Klingo, V.V., et al, [1979, p.41-50, rus] **34-2012**
Heterogeneous nucleation by organic crystalization nuclei. Girs, S.P., et al, [1979, p.76-82, rus] **34-2015**
Studying phase transformations of water when reacting with different underlying surfaces. Girs, S.P., et al, [1979, p.83-90, rus] **34-2016**
Evaluating the contact nucleation mechanism after introduction of crystal-forming agents into supercooled clouds. Klingo, V.V., et al, [1979, p.39-46, rus] **34-3569**
Studying variations in surface electrical conductivity of some ice-forming substances interacting with water vapor. Vlasov, S.A., et al, [1979, p.76-81, rus] **34-3574**
See also: Weather modification

Cloud seeding generators
See: Smoke generators

Clouds (meteorology)
Diurnal variations of spectral brightness of a cloud layer. Kozhaev, D.A., [1979, p.94-100, rus] **34-614**
Using an infrared radiometer for measuring thermal properties of clouds. Sin'kevich, A.A., [1979, p.105-111, rus] **34-3575**
See also: Hail clouds; Supercooled clouds

Coagulation
Coagulation growth effect on the freezing of supercooled drops. Zhekamukhov, M.K., [1979, p.14-22, rus] **34-2876**

Coal
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] **34-213**
Results of studying coal mining conditions in the North-East. Vikulov, M.A., et al, [1975, p.3-8, rus] **34-214**
Early diagenesis and growth of wild and semi-cultivated plants on tailings of the Kuzbass coal mines. Kondrashin, E.R., [1979, p.163-172, rus] **34-953**
Oxidizing activity of microorganisms in recultivated tailings of the Baydaevskiy coal mine (Kuzbass). Kulebakin, V.G., [1979, p.179-185, rus] **34-955**
Peculiarities and problems of inter-regional transportation and economic communications of the northern zone of the USSR. Puzanova, V.F., [1979, p.20-33, rus] **34-1622**
Electropulse equipment for cleaning railroad cars. Levin, I.A., et al, [1979, p.8-9, rus] **34-2083**
Protection of environments and mineral resources in mined permafrost areas. Maksimov, V.M., et al, [1980, p.27-36, rus] **34-3282**
Grouping coal deposits in permafrost areas according to geologic and mining development conditions. Gazizov, M.S., et al, [1979, p.45-50, rus] **34-3906**
Lithologic and petrographic peculiarities of rocks in the subpermafrost transition zone of the Sangarskiy coal deposit. Den'gina, N.I., et al, [1979, p.50-54, rus] **34-3907**
Increased fracturing intervals in frozen and thawed zones of the Nizhne-Arkagalinskiy coal deposit. Kostenko, V.I., et al, [1974, p.111-116, rus] **34-3945**
Studying mining effect on coal seams and the surrounding rock temperature under permafrost conditions. El'chaninov, E.A., et al, [1973, p.112-118, rus] **34-3946**
Special geocryologic-engineering-geologic regionalization of coal mining areas in South Yakutia. Kozlov, A.N., et al, [1980, p.111-115, rus] **34-4126**

Coastal topographic features
Environmental geology and geomorphology of the coastal zone of Kotzebue Sound and the Chukchi Sea forelands from Cape Prince of Wales to Cape Lisburne. Cannon, P.J., [1979, p.4-30, eng] **34-15**
Summer environmental program Mackenzie River estuary [1975, 3 vols., eng] **34-301**
Coastal environment of southern Baffin Island and northern Labrador-Ungava. Barry, R.G., et al, [1977, 166p., eng] **34-490**
Bathymetric and shoreline changes in northwestern Prudhoe Bay, Alaska. Barnes, P., et al, [1977, p.7-13, eng] **34-691**
Soils and relief in western Greenland. Stäblein, G., [1979, p.232-245, ger] **34-1494**
Sediment transport by intertidal ice. Rosen, P.S., [1979, p.133-147, eng] **34-2037**
Coastal sedimentary processes and sediments, southern Canadian Beaufort Sea. Lewis, C.P., et al, [1975, 68p., eng] **34-2398**
Coastal environment, bathymetry, and physical oceanography along the Beaufort, Chukchi and Bering Seas. Gatto, L.W., [1980, 357p., eng] **34-3328**
Shore ice pile-up and ride-up: field observations, models, theoretical analyses. Kovacs, A., et al, [1980, p.209-298, eng] **34-3631**
See also: Shoreline modification

Coasts
See: Shores

Codes
See: Building codes; Standards

Cohesion
Regularities governing the propagation of railroad induced oscillations in cohesive soils. Chokhonelidze, G.I., et al, [1975, p.76-77, rus] **34-2063**
On the buckling force of floating ice plates. Kerr, A.D., [1980, p.163-178, eng] **34-3740**

Cold chambers
Studying freezing of large water drops in the corona discharge area. Bashkirova, G.M., et al, [1979, p.71-75, rus] **34-2014**

Cold storage
Central ice core storage facility—ice core sampling procedures. [1980, p.66-68, eng] **34-4025**

Cold stress
Plant cold hardiness and freezing stress: mechanisms and crop implications. Li, P.H., ed, [1978, 416p., eng] **34-2426**

Cold tolerance
Cold tolerance of micro-arthropoda from Alaskan taiga Block, W., [1979, p.103-110, eng] **34-11**
Psychrophiles in waste treatment. Henry, J.G., [1974, p.305-331, eng] **34-1480**
Comparative mechanisms of cold adaptation. Underwood, L.S., ed, [1979, 379p., eng] **34-2144**
Plant reproduction in a High Arctic environment. Bell, K.L., et al, [1980, p.1-10, eng] **34-2272**
Plant cold hardiness and freezing stress: mechanisms and crop implications. Li, P.H., ed, [1978, 416p., eng] **34-2426**
Postglacial dynamics of the northern border of the petiolate oak area in the USSR and phylocenogenesis of oak forests in the North. Denisov, A.K., [1980, p.3-11, rus] **34-3878**
See also: Acclimatization

Cold weather concreting
See: Winter concreting

Cold weather construction
Assembling polyvinylchloride pipes in freezing weather. Alesker, IA.B., et al, [1979, p.16-17, rus] **34-244**
Mortars with sodium acetate admixtures. Nikulin, V.T., et al, [1979, p.18, rus] **34-340**
Construction of alleyways and roads in freezing weather. Zhuravel', A.F., et al, [1979, p.20, rus] **34-341**
Hydraulic dredging in freezing weather. Popov, IU.A., et al, [1979, 184p., rus] **34-580**
Arco Prudhoe Bay operations center. Crittendon, E.B., [1977, p.9-16, eng] **34-693**
Extending the useful life of DYE-2 to 1996, Part I: Preliminary findings and recommendations. Tobiasson, W., et al, [1979, 15p., eng] **34-745**
Reconstruction of the Dnepropetrovsk-Novomoskovsk highway. Grishchenko, N.I., et al, [1979, p.15-16, rus] **34-837**
Eliminating seasonal fluctuations in construction. Fedorov, V., [1979, p.31-32, rus] **34-839**
Railroad design for severe climatic conditions. Akkerman, G.L., [1978, p.29-34, rus] **34-1103**
Determining railroad construction costs in developing areas. Kopylenko, V.A., [1978, p.62-72, rus] **34-1104**
Evaluating structural design of modular buildings for repair shops of the Baykal Amur railroad. Lefbman, G.D., et al, [1978, p.67-72, rus] **34-1105**

Determining heat consumption during year round pouring of earth into water. Liberman, A.I., et al, [1979, p.43-44, rus] 34-1155

Increasing the use of helicopters in construction. Chernitskil, A.V., [1979, p.5-6, rus] 34-1249

Safety rules for pipeline construction in West Siberia. Glazyrin, F.V., [1979, p.13-14, rus] 34-1257

Characteristics of the design and construction of engineering structures in seismic regions of the Baykal-Amur Main Line Railroad (BAM). Zarubin, N.E., [1979, 10p., eng] 34-1349

Use of hydraulic fills under rigorous climatic conditions. Shkundin, B.M., et al, [1979, p.227-230, eng] 34-1391

Pipelines in adverse environments; a state of the art, Vol.2. [1979, p.395-548, eng] 34-1398

Geotechnical surveillance and monitoring of the Trans-Alaska Pipeline. Williams, R.D., et al, [1979, p.474-480, eng] 34-1400

Cold region pipeline construction. Pendarvis, R.C., [1979, p.481-485, eng] 34-1401

Pipe-soil interaction, Trans-Alaska Pipeline. Luscher, U., et al, [1979, p.486-502, eng] 34-1402

Arctic winter construction and cost estimating of the North Slope fuel gas pipeline. Bock, G.R., [1979, p.511-520, eng] 34-1403

Winter construction of roadbeds. Kostel'ov, M.P., et al, [1979, p.20-21, rus] 34-1422

Pipeline transport. IUfin, V.A., ed, [1974, 149p. (Pertinent p.38-74), rus] 34-1640

Design, construction and performance of earth dams on permafrost in the far north. Tsytovich, N.A., et al, [1979, p.137-149, eng] 34-1684

Hydromechanization of earthwork in West Siberia. Vavilov, N.G., [1979, p.4-6, rus] 34-1714

Symposium on Human Settlements Planning and Development in the Arctic. [1978, c455p., eng] 34-1767

Time effect on the strength and service life of winter laying of silicate bricks using potash and sodium nitrate as cement additives. Kotov, I.T., [1972, p.224-236, rus] 34-1831

Reference manual for construction on permafrost. Antonov, A.F., et al, [1979, 674p., eng] 34-1966

Inventory of Canadian research and development capabilities for engineering in cold regions. [1978, 510p., eng] 34-2005

Effectiveness of slotted blasting charges used in building channels in seasonally frozen grounds. Frash, G.B., et al, [1979, p.138-142, rus] 34-2310

Extra roadbuilding skills beat Arctic's winter weather. [1980, p.60-62, eng] 34-2361

Generalization of experience in constructing buildings on fill. Gorisinov, G.F., et al, [1980, p.185-188, eng] 34-2376

Should building contractors make separate provisions for winter construction. Schelle, H., [1979, p.18, 25, ger] 34-2490

Continuous construction activities more needed than ever. Kranz, D.G., [1979, p.25-26, ger] 34-2491

Construction of underground structures for hydroelectric power stations in the Far North. Grossman, I.I., et al, [1979, 128p., rus] 34-2493

Influence of preparation, storage and filling conditions on physico-mechanical properties of ground. Loseva, S.G., et al, [1980, p.60-62, rus] 34-2571

Preparing the earth for filling the watertight parts of dams in the Far North. Rasskazov, L.N., et al, [1980, p.62-65, rus] 34-2572

Building new types of concrete dams under northern conditions. Kudoiarov, L.I., [1980, p.67-69, rus] 34-2579

New equipment at the construction sites of the Ministry of Construction Planning of Industrial Establishments, USSR. Konstantinov, N.F., [1980, p.17-21, rus] 34-2584

Solidification of mortars with antifreeze admixtures. Shishkin, A.A., et al, [1979, p.19-20, rus] 34-2700

Alaska foundation hot-wired to prevent frost movement. [1980, p.20, eng] 34-2789

How sub-zero weather helps a bridge contractor. [1979, p.50-51, eng] 34-2805

Roads. Rules of construction and acceptance of jobs. Approval for operation. [1973, 87p., rus] 34-2865

System of equipment reservation for the complex column technique of construction in West Siberia. Kurbatov, N.I., et al, [1980, p.13-15, rus] 34-2979

Russian winter pipeline construction techniques. Sanders, W.M., [1980, p.59-66, 71, eng] 34-3086

Methods of investigations in engineering geocryology. Dement'ev, A.I., et al, [1967, 67p., eng] 34-3159

Design, construction and operation of earth dams in Arctic regions and under permafrost conditions. Tsytovich, N.A., et al, [1980, p.407-428, eng] 34-3259

Snow fortifications as protection against shaped charge antitank projectiles. Farrell, D.R., [1980, 19p., eng] 34-3332

Construction of a cutoff wall by the diaphgragm wall method in the foundation pit of a bank pumping station. Domarev, A.N., et al, [1980, p.255-259, eng] 34-3369

Northwest Alaskan gas line project—engineering, prebuilding, route studies. [1980, p.12-16, eng] 34-3441

Alaska gas pipeline will be great challenge for pipeliners. [1980, p.20-22, eng] 34-3442

Foothills pipelines Canadian segment Alaska Highway Gas Line Stewart, M.E., [1980, p.24-28, eng] 34-3443

Northern border pipeline plans. [1980, p.32,35, eng] 34-3444

Polar gas project. Kaustinen, O.M., [1980, p.36-39, 54, eng] 34-3445

Cold region pipeline construction. Pendarvis, R.C., [1979, p.481-485, eng] 34-3559

Modern design and construction methods for the Surgut-Urengoy railroad. Korotchaev, D.I., et al, [1980, p.3-6, rus] 34-3597

Post-construction sagging of Baykal Amur railroad embankments. Guletskil, V.V., et al, [1980, p.6-7, rus] 34-3598

Draft environmental impact statement, Prudhoe Bay Oil Field Waterflood Project. [1980, 2 vols., eng] 34-3646

Construction of an embankment with frozen soil. Botz, J.J., et al, [1980, 105p., eng] 34-3873

Introduction to town planning and related matters in the Soviet North: based upon information collected during the exchange visit by a Canadian delegation to the Soviet Union—September 25th to October 7th, 1977. Slipchenko, W., et al, [1978, 426p., eng] 34-3896

Building standards and regulations. Part 2: Design standards. Chapter 6: Loads and effects. [1980, 92p., eng] 34-3897

Erection of multistory brick buildings in Noril'sk. Shkliarov, N., et al, [1980, p.32-35, rus] 34-3931

Road construction all year round. Siniaev, N.V., [1979, p.15-16, rus] 34-3940

Community planning and development in Canada's Northwest Territories. Gerein, H.J.F., [1980, 175p., eng] 34-3984

Cold weather operation

All-weather protection for AGT guideways and stations. Stevens, R.D., et al, [1979, p.337-342, eng] 34-101

Controlling snow and ice on the Morgantown people mover system. Morgan, P.H [1979, p.343-349, eng] 34-102

Using concrete mixers at low temperatures. Sovalov, I.G., et al, [1979, p.17-19, rus] 34-335

Building and operating winter roads in Canada and Alaska. Adam, K.M., [1978, 221p., eng] 34-532

Study of the clothing problems of the oil operating crews in the Arctic. Pang, S.H.H., et al, [1972, 58p., eng] 34-571

Study of Beaufort Sea exploratory drilling systems. [1971, var. p., eng] 34-574

Hydraulic dredging in freezing weather. Popov, IU.A., et al, [1979, 184p., rus] 34-580

Engineering manual for northern gas pipelines. Sedlukha, G.A., et al, [1979, 168p., rus] 34-581

Operation of airports. Maintenance and repairs. Manual. Goretskil, L.I., et al, [1979, 215p., rus] 34-769

Railway track switch that operates in snow and ice Coveney, D.B., [1979, p.25-73, eng] 34-812

Evaluation of automotive engine preheaters as a technique to control cold start carbon monoxide emissions—a final report. Leonard, L.E., et al, [1978, 76p., eng] 34-842

Carbon monoxide emissions from moving vehicles in Fairbanks, Alaska. Leonard, L.E., [1977, 45p., eng] 34-843

Expansion joints in highway bridges. Shesterikov, V.I., [1978, 151p., rus] 34-886

Do earthwork in the cold weather. Bieganousky, W.A., et al, [1979, p.133-139, eng] 34-1141

International Symposium on Wastewater Treatment in Cold Climates, University of Saskatchewan, August 22-24, 1973. Davis, E., ed, [1974, 595p., eng] 34-1465

Bio-processes of the oxidation ditch in a sub-arctic climate. Murphy, R.S., et al, [1974, p.332-357, eng] 34-1481

Operating large dumpers at the "Tsentral'nyy" mine, the "Apatit" departure yard. Kolesnikov, V.G., et al, [1979, p.17-18, rus] 34-1836

Arctic transportation systems. Nitzki, L., [1977, p.1-6, ger] 34-1933

Winter operation of sluices. Galkin, L., [1979, p.35-36, rus] 34-2079

Battery for Arctic radio repeater systems. Armstrong, W.A., et al, [1979, 26p., eng] 34-2282

Hot Arctic. Dyson, J., [1979, 290p., eng] 34-2456

Field trial of prototype "Cyclone switch heater" on CP rail switch at Sturgeon Falls, Ontario Coveney, D.B., [1979, 15p. + 10 figs., eng] 34-2477

Marine seismic refraction data between Wainwright Inlet and Prudhoe Bay, Alaska. Bee, M., et al, [1979, 120p., eng] 34-2486

Winter exploration and drilling. Sigurdson, T., comp., [1980, p.12-50, eng] 34-2562

Winterizing the BM-21 Kuprin, G., [1979, p.22-23, rus] 34-2688

AGT guideway and station technology. Vol.8 Weather protection concepts Stevens, R.D., et al, [1979, 237p., eng] 34-2964

Snow fortifications as protection against shaped charge antitank projectiles. Farrell, D.R., [1980, 19p., eng] 34-3332

Icebreakers and coastal winter navigation in Finland. [1980, p.256-259, ger] 34-3616

Study and information meeting on winter trafficability, Nefta, Tunisia, Nov. 8 and 9, 1979. [1980, p.69-79, fre] 34-3723

Winter flying package: 1. Ultimate winter enjoyment. Mackie D., et al, [1978, p.22-25, eng] 34-4062

Winter flying package: 2. Tips for flying in cold and snow. Gallagher, J.D., [1978, p.26-27, eng] 34-4063

Winter flying package: 3. Icing is for cakes, not carbs. Bramson, A., [1978, p.27-29, eng] 34-4064

Cold weather performance

On the performance of a two stage rotary snow blower. Shibuya, M., et al, [1979, p.185-191, eng] 34-79

Engineer design test of Cold Regions Research and Engineering Laboratory (CRREL) shelter. Dollahite, M.C., [1978, 97p., eng] 34-135

Developing high impact-abrasion strength fuse-on metals. Razikov, M.I., et al, [1974, p.135-139, rus] 34-384

Wear of machines working at low temperatures. Kashcheev, V.N., et al, [1974, p.183-188, rus] 34-391

Experimental study of cutting tools of mechanical shovels working in frozen ground. Petukhov, P.Z., et al, [1974, p.218-219, rus] 34-397

Preliminary Arctic engineering study of surface transport vehicles. Rymes (J.E.) Engineering, Ltd., [1970, c270p., eng] 34-424

Arctic winter evaluation study of transportation equipment. [1973, var.p., eng] 34-479

Arctic winter test and evaluation, initial stage, Kenworth truck Model 953A. [1972, var. p., eng] 34-511

Arctic winter tests and evaluation, mid-winter stage, Kenworth truck Model 953A. [197 ., var. p., eng] 34-512

Arctic winter test and evaluation, late winter stage, Kenworth truck Model 953A. [1972, var. p., eng] 34-513

Fracture prevention in the Arctic: the role of fracture mechanics and nondestructive evaluation. Bassim, M.N., [1977, p.21-28, eng] 34-694

Dielectric properties of polymer materials in different climatic conditions. Filatov, I.S., [1979, 129p., rus] 34-749

Development test II (DT II) (PQT-G) (Cold Weather Environment) of the family of military engineer construction equipment (FAMECE). Lockwood, N.S., [1979, c190p., eng] 34-1311

Systems analysis of Arctic fuel dispensing equipment. Rosenfield, D.B., et al, [1979, 172p., eng] 34-1377

Reliability of overhead power transmission lines in the Far North. Selianin, A.I., et al, [1979, p.64-65, rus] 34-1430

Surface aeration of domestic wastes, Section 1: the Bonnybrook Sewage Treatment Plant. Meckelborg, E.I., [1974, p.220-229, eng] 34-1475

Surface aeration of domestic wastes: operating experiences at Red Deer, Alberta, Section 2. Lawson, P.D., [1974, p.230-240, eng] 34-1476

Preparation of industrial transportation for winter. Kurtukov, IA.M., et al, [1979, p.2-5, rus] 34-2092

Air cushion vehicle (ACV) icebreaker test and evaluation program. Volume I. Executive summary. Buck, J., et al, [1978, 39p., eng] 34-2277

Air cushion vehicle (ACV) icebreaker test and evaluation program. Volume 2. Operational and engineering analysis. Buck, J., et al, [1978, 156p., eng] 34-2278

Sandwich-type FLIR windows. Donadio, R., et al, [1979, 176p., eng] 34-2367

Wastewater treatment in cold regions by overland flow. Martel, C.J., et al, [1980, 14p., eng] 34-3325

Operation of the CRREL prototype air transportable shelter. Flanders, S.N., [1980, 73p., eng] 34-3331

Norms for spare parts expenditure in motor vehicle transport of the Yakut ASSR. Karasev, G.A., et al, [1976, p.59-65, rus] 34-3342

Testing and using the AM-11 soil moisture meter in the IUzhnoe Primor'e. Gorchakov, A.M., et al, [1979, p.51-55, rus] 34-3564

Using an infrared radiometer for measuring thermal properties of clouds. Sin'kevich, A.A., [1979, p.105-111, rus] 34-3575

Evaluating reliability of steel structures at low temperatures. Sil'vestrov, A.V., et al, [1980, p.9-13, rus] 34-3635

Arctic line pressure testing alternatives. Marks, A., [1980, p.126-132, eng] 34-3951

Cold weather tests

Icephobic coatings for highway pavements. Cook, J.C., [1979, p.106-115, eng] 34-69

Construction and performance of membrane encapsulated soil layers in Alaska. Smith, N., [1979, 27p., eng] 34-134

Field tests of concretes with silicon-organic oligomers. Batrakov, V.G., et al, [1977, p.41-44, rus] 34-349

Wear resistance of self-lubricating polymers under natural cold conditions. Cherskil, I.N., [1974, p.167-170, rus] 34-390

Arctic ice. Zubov, N.N., [1979, 500p., eng] 34-1115

Study of winter air pollutants at Fairbanks, Alaska. Coutts, H.J., [1979, 62p., eng] 34-1144

Frost heave tests underway for Alaska gas pipeline. Hale, D., [1979, p.24-26, eng] 34-1289

Cold weather tests *(cont.)*
Product improvement test (cold weather/snow ingestion) of the OH-58C helicopter. Niemiec, S.M., et al, [1979, 71p., eng] **34-1346**
Effects of freezing temperatures and frozen ground conditions on enclosed wire in tube response. Miller, C.A., [1979, 45p., eng] **34-1360**
Effect of fertilization on winter drying of Scots pine. Kurkela, T., [1979, p.139-143, eng] **34-1785**
Nondestructive testing of in-service highway pavements in Maine. Smith, N., et al, [1979, 22p., eng] **34-1843**
Pilot scale study of overland flow land treatment in cold climates. Jenkins, T.F., et al, [1979, p.207-214, eng] **34-2673**
Structural thermodynamics. A review. L'vov, G.N., ed, [1969, 100p., rus] **34-4046**
Field inspection of thermal properties of 1605 AM/9 series houses with multilayer external walls. Bralnina, E.IU., [1969, p.9-15, rus] **34-4048**
Field inspection and testing of thermal properties of enclosures of a 12-story residential building. Bukharova, N.V., [1969, p.16-28, rus] **34-4049**

Colloids
On the mechanism of dewatering colloidal aqueous solutions by freeze-thaw processes. Ezekwo, G., et al, [1980, p.1079-1088, eng] **34-4247**

Colored ice
Effects of ice thickness on the exchange of solar radiation over the polar oceans. Grenfell, T.C., [1979, p.305-320, eng] **34-545**

Communication cables
See: Transmission lines

Communications
See: Radio communication; Telecommunication

Compaction
Nature of strength and deformation properties of argillaceous rocks. Osipov, V.I., [1979, 232p., rus] **34-1237**
Radioactive isotope instruments for measuring bearing ground compaction. Kliushkin, V.K., et al, [1979, p.15-16, rus] **34-1721**
Preparation of sagging loess bases. Ryzhov, A., et al, [1979, p.32-33, rus] **34-2117**
Operation of electric all terrain vehicles on balloon tires. Beliaev, L.V., [1979, p.37-39, rus] **34-2590**
See also: Settlement (structural); Snow compaction; Soil compaction

Composition
See: Chemical composition

Compressive properties
Recognition of joints in the system. Baker, M.C., [1976, 9p., eng] **34-162**
High-speed method of air cushion icebreaking. Robertson, B.W., [1977, p.133-140, eng] **34-209**
Reinforced ice matrix. Hill, W.L., [1977, 4 col., eng] **34-264**
Report on strength and deformation characteristics of sea-bed samples from Davis Strait. [1978, 28p. + appends., eng] **34-313**
Small scale, in-situ ice strength tests. [1973, n.p., eng] **34-414**
Laboratory tests on fresh water ice, 1974. Morgenstern, N.E., et al, [1974, 17p. + figs. and tables, eng] **34-422**
Ice crushing tests, 1973. Taylor, T.P., [1973, p.64p. + figs., eng] **34-482**
Compression tests on fresh water ice, 1973. [1973, 15p. + tables and figs., eng] **34-483**
Compression tests on fresh water ice. Nuttall, J.B., et al, [1972, 47p., eng] **34-515**
Sea ice tests. Nuttall, J.B., [1971, 34p., eng] **34-559**
Installation for the measurement of the shear stress of solids at low temperatures and high pressures. Zharov, A.A., et al, [1979, p.266-267, eng] **34-983**
Nature of strength and deformation properties of argillaceous rocks. Osipov, V.I., [1979, 232p., rus] **34-1237**
Freezing effect on the strength and deformation of clays under pressure from hard stamps. Sadovskii, A.V., et al, [1979, p.20-30, rus] **34-1535**
Performance of piles in plastic frozen ground. Slepak, M.E., [1979, p.67-71, rus] **34-1540**
Unconfined compression test of frozen sandy soil. Hirobe, R., et al, [1979, p.167-173, jap] **34-1741**
Improved drainage and frost action criteria for New Jersey pavement design—Phase III: Structural strength of pavements with open-graded bases. Barker, W.R., et al, [1979, c82p., eng] **34-2359**
Development of fillings for slab track in cold region and its various properties. Fukunaga, M., [1977, p.138, eng] **34-2658**
Contribution of fibrous interlock to the strength of peat. Wilson, N.E., [1978, p.5-10, eng] **34-2905**
In situ response of muskeg to dynamic loading. Sheeran, D.E., et al, [1978, p.11-24, eng] **34-2906**
Stabilization of muskeg by chemical treatment. Sethi, A.J., et al, [1978, p.132-150, eng] **34-2912**
Ice platform construction, Resolute Bay, N.W.T., November-December 1974. Wasilewski, B.R., [1975, 109p., eng] **34-3103**
Compression creep of sagging ground. Meschian, S.R., et al, [1976, p.256-267, rus] **34-3214**
Univariate compaction of ground, allowing for viscoplastic deformations. Ter-Martirosian, Z.G., [1976, p.322-327, rus] **34-3220**
Nonlinear consolidation of clays allowing for aging. Tsytovich, N.A., et al, [1976, p.346-351, rus] **34-3222**
Effect of sample length on uniaxial compressive strength of sea ice. Nohguchi, Y., et al, [1979, p.129-133, jap] **34-3498**
Portable drilling equipment for shallow permafrost sampling. Veillette, J.J., et al, [1980, 35p., eng] **34-3652**
Analytical approach for the determination of ice forces using plasticity theory. Reinicke, K.M., [1980, p.325-341, eng] **34-3750**
Failure of sea ice by repeated compression. Tabata, T., et al, [1980, p.351-362, eng] **34-3752**
Morphology and dynamics of ice rises. Martin, P.J., et al, [1980, p.33-45, eng] **34-3796**
Experimental testing of the compression technique of determining lower clay soil plasticity limits. Rogatkina, Zh.E., et al, [1978, p.65-72, rus] **34-3891**
On the strength of sea ice and a correlation between the various strength tests. Lane, J.F., [1979, 29p. + 9 figs., eng] **34-4194**
See also: Frozen ground compression; Snow compression

Computer applications
Visibility in blowing snow and applications in traffic operations. Tabler, R.D., [1979, p.208-214, eng] **34-82**
Programs for weather type indices used in the computer processing of snow and avalanche information. Grakovich, V.F., et al, [1979, p.70-81, rus] **34-611**
Automated systems for collecting snow and avalanche information. Bolov, V.R., [1979, p.82-86, rus] **34-612**
Computer analysis of different natural regime indices for revealing geosystem structures. Kobeleva, N.V., et al, [1979, p.14-34, rus] **34-672**
Remote estimation of the properties of sea ice, impulse radar study of Lake Melville, Labrador. Butt, K.A., et al, [1979, c.215 leaves, eng] **34-784**
Long-term loading analysis of floating ice platforms using finite element techniques. Masterson, D.M., et al, [1979, p.159-182, eng] **34-930**
Multiple surface scattering from the ice covered Arctic Ocean. Beilis, A., et al, [1979, 52p., eng] **34-1170**
Analysis of flexible pavement resilient surface deformations using the Chevron layered elastic analysis computer program. Smith, N., et al, [1975, 13 leaves, eng] **34-1501**
Solar altitude effects on ice albedo. Bolsenga, S.J., [1979, 43p., eng] **34-1732**
Snow extent measurements from geostationary satellites using an interactive computer system. Gird, R.S., [1980, p.255-265, eng] **34-3523**
All-digital approach to snow mapping using geostationary satellite data. Tarpley, J.D., et al, [1980, p.267-279, eng] **34-3524**
Method of predicting snow avalanches by means of image recognition programs. Khomentuk, IU.V., [1978, p.67-73, eng] **34-3967**

Computer programs
Atmospheric carbon monoxide model for Fairbanks, Alaska. Carlson, R.F., [1976, 47p. + append., eng] **34-621**
Using a programmable calculator to determine thermal conductivity of mineral soils. Nidowicz, B., [1978, p.9-14, eng] **34-866**
User manual for programs VISICE and VISFIT. Katona, M.G., [1979, 60p., eng] **34-1563**
Computer analysis of freezing with water migration in time when the process is formed on snow cover surface. Medvedev, A.V., et al, [1979, p.3-23, rus] **34-1908**
SLIKTRAK simulations. East Coast. Bradfield, D., et al, [1977, 33p., eng] **34-3111**
How to compute complex interconnected district heating systems. Wehr, R., et al, [1980, 13p., eng] **34-3403**

Computerized simulation
Use of synthetic snowfalls in the evaluation of snow removal systems. Sage, J.D., [1979, p.121-128, eng] **34-71**
Computer simulation of urban snow removal. Tucker, W.B., et al, [1979, p.293-302, eng] **34-95**
Numerical modeling of the glaciers-ocean-atmosphere global system. Sergin, V.IA., [1979, p.3191-3204, eng] **34-360**
Calculating and forecasting glacier ablation in Central Asia. Konovalov, V.G., [1979, 232p., rus] **34-1139**
Computer analysis of earth slope stability by the finite-element method (the RUMKE program). Gorelik, I.IA., et al, [1979, p.42-46, rus] **34-1523**
Computerized simulation of heat transfer in ground for improving information of geocryologic surveys. Tutkevich, A.A., [1979, p.43-52, rus] **34-1912**
Monte Carlo simulation of iceberg impact probabilities. Reddy, D.V., et al, [1980, p.293-297, eng] **34-2451**
Pleistocene dynamics of West Siberian permafrost (computerized simulation). Shpolianskaia, N.A., et al, [1980, p.127-141, rus] **34-2768**
Computer simulation of Great Lakes-St. Lawrence Seaway icebreaker requirements. Kotras, T.V., et al, [1980, 195p., eng] **34-3084**
Numerical modeling of sea ice in the seasonal sea ice zone. Hibler, W.D., III, [1980, p.299-356, eng] **34-3632**
Modeling productivity and frost hardiness of plants. Kurets, V.K., et al, [1979, 15p., rus] **34-4012**

Computers
Safe ice loads computed with a pocket calculator. Nevel, D.E., [1979, p.205-223, eng] **34-932**

Concrete admixtures
Organic-mineral admixtures for increasing strength and frost resistance of reinforced concretes in the Kola Peninsula. Zamoshchik, A.I., et al, [1972, p.74-84, rus] **34-180**
Economic effectiveness of antifreeze admixtures. Modylevskii, A.B., et al, [1972, p.177-185, rus] **34-190**
Using the super-plasticizer S-3 in manufacturing reinforced concrete supports for power lines. Kolokol'nikova, E.I., et al, [1979, p.23-24, rus] **34-331**
Studying corrosion and protection of concrete and reinforced concrete structures in severe climatic conditions and corrosive media. Moskvin, V.M., ed, [1977, 129p., rus] **34-345**
Analyzing some factors influencing corrosion stability of lightweight concretes. Podval'nyi, A.M., [1977, p.18-26, rus] **34-347**
Field tests of concretes with silicon-organic oligomers. Batrakov, V.G., et al, [1977, p.41-44, rus] **34-349**
Optimal composition of complex powder admixtures for concretes. Gen', O.P., et al, [1977, p.45-50, rus] **34-350**
Protective properties of mortars and concretes with admixtures for winter concreting. Rozental', N.K., [1977, p.51-55, rus] **34-351**
Preservation of reinforcement in haydite concretes containing air entraining admixtures. Stepanova, V.F., [1977, p.71-76, rus] **34-352**
Structure and properties of cement concretes. Sheikin, A.E., et al, [1979, 344p., rus] **34-850**
Determining frost resistance of concrete from the compensation factor. Shlaen, A.G., [1979, p.37-38, rus] **34-1568**
Urea as a deicing agent. Johansson, A., [1970, p.229-308, swe] **34-1879**
Expanded polystyrene concrete bases. Hanna, A.N., [1978, p.1-6, eng] **34-1963**
Winter concreting in the Baykal Amur railroad area. Bronshtein, G.L., et al, [1980, p.20-21, rus] **34-2587**
Surface-active admixtures for concretes of airport pavement plates. Safianova, N.E., et al, [1980, p.23-24, rus] **34-2588**
Concretes with antifreeze admixtures. Kostiaev, P.S., et al, [1980, p.44-46, rus] **34-2975**
Working with concrete (technology and organization). Balitskii, V.S., et al, [1980, 350p., eng] **34-3190**
Experiment planning technique used for determining optimal compositions of combined admixtures for concretes. Grushko, I.M., et al, [1980, p.72-75, rus] **34-3594**
Water repellant plasticizing admixtures for cements, grouts and concretes. Khigerovich, M.I., et al, [1921, 125p., rus] **34-3615**
Frost resistant concretes with combined structure-modifying admixtures. Gen', O.P., [1980, p.58-61, rus] **34-3637**
Studying rheological properties of mortars containing new antifreeze admixtures. Petropavlovskaia, T.A., [1978, p.98-104, rus] **34-3887**
Possibility of using sodium nitrite antifreeze in reinforced concretes of buildings and structures on railroads. Kostiaev, P.S., et al, [1978, p.179-184, rus] **34-3920**
Petrochemical product admixtures for concretes. Cherepanov, R., et al, [1980, p.42-43, rus] **34-3930**
Hydrophobic-plasticizing admixtures to concretes used in road construction. Teshabaev, R.D., [1980, 63p., rus] **34-4013**

Concrete aggregates
Silicate cements and dense concretes on a base of nepheline slag and phosphorite residues. Riumin, K.I., et al, [1972, p.196-201, rus] **34-191**
Optimal properties of cellular concrete with alkaline slag cement. Bagrov, B.O., [1979, p.45-47, rus] **34-332**
Structural criterion of concrete frost resistance. Dvorkin, L.I., et al, [1979, p.75-78, rus] **34-851**
Development of a one-cycle slow freeze test for identifying aggregates susceptible to freeze-thaw deterioration. Pence, H.J., [1969, 273p., eng] **34-2068**
Frost resistant concretes with fine sands. Ivanov, F.M., et al, [1979, p.24-26, rus] **34-2099**
Construction research. Thermal physics. Structural durability. [1979, 180p., rus] **34-2381**
Quick method of forecasting frost resistance of autoclaved slate-ash cellular concrete. Kremerman, I.B., et al, [1979, p.123-126, rus] **34-2383**
Frost resistance and mechanical properties of calcareous sandstone concrete. Marinov, Kh.G., et al, [1979, p.127-134, rus] **34-2384**
STYROPOR-concrete as frost protection and load-bearing layer in road construction. Hohwiller, F., [1972, p.499-508, ger] **34-2397**
Operation of electric all terrain vehicles on balloon tires. Beliaev, L.V., [1979, p.37-39, rus] **34-2590**
Concreting in Antarctica. Varcoe, G.E., [1979, p.14-15, eng] **34-3679**

Concrete curing
Development of a one-cycle slow freeze test for identifying aggregates susceptible to freeze-thaw deterioration. Pence, H.J., [1969, 273p., eng] 34-2068
Winter concreting. Pink, A., [1979, 19p., eng] 34-2513
Winter concreting—Canadian practice. Turenne, R.G., et al, [1980, 13p. + 9p. figs., eng] 34-2645
Working with concrete (technology and organization) Balitskiĭ, V.S., et al, [1980, 350p., eng] 34-3190
Concrete durability
Action of de-icing salt on concrete. Wurth, E., [1978, 19p., eng] 34-1558
Development of a one-cycle slow freeze test for identifying aggregates susceptible to freeze-thaw deterioration. Pence, H.J., [1969, 273p., eng] 34-2068
Project: stamp out scaling. McFadden, J.E., [1980, p.139-144, eng] 34-2138
Durability of concrete. Steiger, R.W., et al, [1980, p.35-39, eng] 34-2665
Ice removal from concrete by high pressure water jets. Kimberley, H.J., et al, [1977, 28p. + 5 figs., eng] 34-4195
Concrete freezing
Shore protection structures in the Novosibirsk reservoir. Raspopin, G.A., et al, [1979, p.96-99, rus] 34-128
Organic-mineral admixtures for increasing strength and frost resistance of reinforced concretes in the Kola Peninsula. Zamoshchik, A.I., et al, [1972, p.74-84, rus] 34-180
Economic effectiveness of antifreeze admixtures. Modylevskiĭ, A.B., et al, [1972, p.177-185, rus] 34-190
Studying corrosion and protection of concrete and reinforced concrete structures in severe climatic conditions and corrosive media. Moskvin, V.M., ed, [1977, 129p., rus] 34-345
Analyzing some factors influencing corrosion stability of lightweight concretes. Podval'nyĭ, A.M., [1977, p.18-26, rus] 34-347
Protective properties of mortars and concretes with admixtures for winter concreting. Rozental', N.K., [1977, p.51-55, rus] 34-351
Determining concrete strength under severe climatic conditions. Savitskiĭ, A.N., et al, [1977, p.98-101, rus] 34-353
Extreme cooling curves of concrete structures. Pliat, Sh.N., et al, [1978, p.70-72, rus] 34-469
Structure and properties of cement concretes. Shelkin, A.E., et al, [1979, 344p., rus] 34-850
Hydrothermal method of cementing cold joints of concrete dams. Tetel'min, V.V., et al, [1979, p.21-23, rus] 34-1151
Allowable fracturation of large gravity dams in severe climates. Vasil'ev, P.I., et al, [1979, p.32-33, rus] 34-1152
Heating cables for electric warming of joints and situ-cast concrete structures. Astashev, V.M., et al, [1979, p.10-12, rus] 34-1432
Development of a one-cycle slow freeze test for identifying aggregates susceptible to freeze-thaw deterioration. Pence, H.J., [1969, 273p., eng] 34-2068
Winter concreting. Pink, A., [1979, 19p., eng] 34-2513
Concrete failure during cyclic freezing and the development of an automatic system for forecasting concrete frost resistance. Vorob'ev, V.A., et al, [1979, p.121-124, rus] 34-2623
Durability of concrete. Steiger, R.W., et al, [1980, p.35-39, eng] 34-2665
Thermal behavior of concrete slab on frozen ground bed. Gavrish, IU.E., et al, [1980, 9p., eng] 34-3394
Concrete and cryogenics; Part 1. Turner, F.H., [1980, p.39-40, eng] 34-3446
Frost resistant concretes with combined structure-modifying admixtures. Gen', O.P., [1980, p.58-61, rus] 34-3637
Keeping it cool with liquid nitrogen. [1980, p.606, 609, eng] 34-3997
Calculating temperature field of block-by-block upbuilt concrete structures using Laplace numerical conversion technique. Zubkov, V.I., [1980, p.92-97, rus] 34-4140
Concrete hardening
Economic effectiveness of antifreeze admixtures. Modylevskiĭ, A.B., et al, [1972, p.177-185, rus] 34-190
Studying corrosion and protection of concrete and reinforced concrete structures in severe climatic conditions and corrosive media. Moskvin, V.M., ed, [1977, 129p., rus] 34-345
Analyzing some factors influencing corrosion stability of lightweight concretes. Podval'nyĭ, A.M., [1977, p.18-26, rus] 34-347
Extreme cooling curves of concrete structures. Pliat, Sh.N., et al, [1978, p.70-72, rus] 34-469
Keeping it cool with liquid nitrogen. [1980, p.606, 609, eng] 34-3997
Concrete heating
Recommendations for using heated forms in casting monolithic concrete structures. [1977, 95p., rus] 34-583
Preliminary electric heating of concrete mixtures on construction sites. Kalmykov, V.A., [1979, p.50, rus] 34-1429
Concrete pavements
Adhesion of ice to concrete surfaces—preliminary results. Ashworth, T., et al, [1979, p.23-29, eng] 34-54
Properties of expanded polystyrene concrete and applications for pavement subbases. Hanna, A.N., [1978, 16p., eng] 34-1260
Use of exchange plastics for the protection and repair of concrete bridge pavements exposed to salting. Schröder, M., [1980, p.23-24, 26-27, ger] 34-2492
Concrete piles
Houses for the North. Dezhnova, V.K., [1979, p.28, rus] 34-343
Bearing strength of batter piles in permafrost. Roman, L.T., et al, [1976, p.114-121, rus] 34-712
Investigation of the bearing capacity of piles driven into plastic frozen soil. Cherniaev, V.I., et al, [1979, p.32-36, eng] 34-981
Generalizing the experience of foundation construction in complex geocryological conditions. Poluektov, V.E., et al, [1979, p.54-63, rus] 34-1538
Testing of pile foundations in permafrost areas. [1979, p.179-185, eng] 34-1687
Technology and equipment for building pile foundations on permafrost. Rastegaev, I.K., [1980, 128p., rus] 34-3826
Concrete placing
Approximate thermal stress analysis of a concrete structure, erected block-by-block, allowing for concrete creep. Pliat, Sh.N., et al, [1978, p.64-69, rus] 34-468
Recommendations for using heated forms in casting monolithic concrete structures. [1977, 95p., rus] 34-583
Reusable heating-panel frame with new types of heating units. Beliaev, A.M., et al, [1979, p.16-18, rus] 34-1150
Improving the organization of concrete work performed during construction of the Sayano-Sushenskoe hydroelectric plant. Zinchenko, N.A., et al, [1979, p.114-120, eng] 34-1392
Controlling temperatures of hydrating cementing mixtures in wells. Putikov, O.F., et al, [1973, p.29-30, rus] 34-1957
Cold weather concreting. [1975, 9p., eng] 34-2425
Operation of electric all terrain vehicles on balloon tires. Beliaev, L.V., [1979, p.37-39, rus] 34-2590
Working with concrete (technology and organization). Balitskiĭ, V.S., et al, [1980, 350p., eng] 34-3190
Calculating temperature field of block-by-block upbuilt concrete structures using Laplace numerical conversion technique. Zubkov, V.I., [1980, p.92-97, rus] 34-4140
See also: Winter concreting
Concrete strength
Shore protection structures in the Novosibirsk reservoir. Raspopin, G.A., et al, [1979, p.96-99, rus] 34-128
Organic-mineral admixtures for increasing strength and frost resistance of reinforced concretes in the Kola Peninsula. Zamoshchik, A.I., et al, [1972, p.74-84, rus] 34-180
Economic effectiveness of antifreeze admixtures. Modylevskiĭ, A.B., et al, [1972, p.177-185, rus] 34-190
Silicate cements and dense concretes on a base of nepheline slag and phosphorite residues. Riumin, K.I., et al, [1972, p.196-201, rus] 34-191
Studying corrosion and protection of concrete and reinforced concrete structures in severe climatic conditions and corrosive media. Moskvin, V.M., ed, [1977, 129p., rus] 34-345
Protective properties of mortars and concretes with admixtures for winter concreting. Rozental', N.K., [1977, p.51-55, rus] 34-351
Determining concrete strength under severe climatic conditions. Savitskiĭ, A.N., et al, [1977, p.98-101, rus] 34-353
Recommendations for using lightweight concrete in the construction of large panel residential buildings. [1976, 71p., rus] 34-401
Physico-mechanical properties of autoclaved, fine grained cellular concrete. Kiem, V.R., [1972, p.67-71, rus] 34-585
Structure and properties of cement concretes. Shelkin, A.E., et al, [1979, 344p., rus] 34-850
Structural criterion of concrete frost resistance. Dvorkin, L.I., et al, [1979, p.75-78, rus] 34-851
Properties of expanded polystyrene concrete and applications for pavement subbases. Hanna, A.N., [1978, 16p., eng] 34-1260
Frost action on immature cement paste—effects on mechanical behavior. Kayyali, O.A., et al, [1979, p.1217-1225, eng] 34-1276
Testing concrete for frost resistance. Sizov, V.P., [1979, p.34-35, rus] 34-1433
Controlling frost resistance of concrete during production. Voevoda, G.F., et al, [1979, p.35-37, rus] 34-1434
Determining frost resistance of concrete from the compensation factor. Shlaen, A.G., [1979, p.37-38, rus] 34-1568
Studying properties of G class cement and the "Permafrost" mixture according to the national standards. Kliusov, A.A., [1979, p.31-34, rus] 34-1755
Expanded polystyrene concrete bases. Hanna, A.N., [1978, p.1-6, eng] 34-1963
Methods of testing frost resistance of concretes. Houlsby, A., [1979, p.213-224, fre] 34-2126
What do we know about freezing of concrete. Verbeck, M., [1979, p.251-260, fre] 34-2330
Winter concreting. Pink, A., [1979, 19p., eng] 34-2513
Winter concreting in the Baykal Amur railroad area. Bronshtein, G.L., et al, [1980, p.20-21, rus] 34-2587
Surface-active admixtures for concretes of airport pavement plates. Safianova, N.E., et al, [1980, p.23-24, rus] 34-2588
Concrete failure during cyclic freezing and the development of an automatic system for forecasting concrete frost resistance. Vorob'ev, V.A., et al, [1979, p.121-124, rus] 34-2623
Winter concreting—Canadian practice. Turenne, R.G., et al, [1980, 13p. + 9p. figs., eng] 34-2645
Concrete protection from brine and frost effects. Bugrim, S.F., et al, [1980, p.17-18, rus] 34-2980
Studying properties of concretes saturated with sulfur solutions. Orlovskiĭ, IU.I., et al, [1980, p.78-81, rus] 34-3166
Methods of determining thermal, moisture and physical characteristics of concretes. Drobyshevskiĭ, B.A., [1979, p.70-73, rus] 34-3182
Equivalent coefficients of moisture diffusion for concretes used in bridge construction. Drobyshevskiĭ, B.A., [1979, p.73-79, rus] 34-3183
Working with concrete (technology and organization). Balitskiĭ, V.S., et al, [1980, 350p., eng] 34-3190
Thermal behavior of concrete slab on frozen ground bed. Gavrish, IU.E., et al, [1980, 9p., eng] 34-3394
Concrete and cryogenics; Part 1. Turner, F.H., [1980, p.39-40, eng] 34-3446
Water repellant plasticizing admixtures for cements, grouts and concretes. Khigerovich, M.I., et al, [1921, 125p., rus] 34-3615
Frost resistant concretes with combined structure-modifying admixtures. Gen', O.P., [1980, p.58-61, rus] 34-3637
Concreting in Antarctica. Varcoe, G.E., [1979, p.14-15, eng] 34-3679
Petrochemical product admixtures for concretes. Cherepanov, IU., et al, [1980, p.42-43, rus] 34-3930
Hydrophobic-plasticizing admixtures to concretes used in road construction. Teshabaev, R.D., [1980, 63p., rus] 34-4013
Concrete structures
Shore protection structures in the Novosibirsk reservoir. Raspopin, G.A., et al, [1979, p.96-99, rus] 34-128
Methods of fastening reinforced concrete supports of overhead power lines in weak ground. Kurnosov, A.I., et al, [1979, p.29-32, rus] 34-195
Layer-by-layer concreting in dam construction under severe climatic conditions. Kogan, E.A., et al, [1979, p.34-36, rus] 34-197
New houses for Bratsk. Gorbunov, IU.A., [1979, p.24, rus] 34-342
Slag concrete for building walls exposed to corrosive media. Bulgakova, M.G., et al, [1977, p.27-33, rus] 34-348
Field tests of concretes with silicon-organic oligomers. Batrakov, V.G., et al, [1977, p.41-44, rus] 34-349
Protective properties of mortars and concretes with admixtures for winter concreting. Rozental', N.K., [1977, p.51-55, rus] 34-351
Approximate thermal stress analysis of a concrete structure, erected block-by-block, allowing for concrete creep. Pliat, Sh.N., et al, [1978, p.64-69, rus] 34-468
Extreme cooling curves of concrete structures. Pliat, Sh.N., et al, [1978, p.70-72, rus] 34-469
Approximate determination of stress relaxation coefficients in thermal creep problems. Tsybin, A.M., et al, [1978, p.73-76, rus] 34-470
Frost penetration beneath black-painted concrete canal lining. Jones, C.W., [1979, 33p., eng] 34-531
Feasibility study: exploratory drilling systems, Beaufort Sea. [1971, c430p., eng] 34-570
Performance of seepage tanks with trapezoidal cross sections and impervious slopes. Bogoliubov, K.S., et al, [1974, p.23-28, rus] 34-752
Structural criterion of concrete frost resistance. Dvorkin, L.I., et al, [1979, p.75-78, rus] 34-851
Hydrothermal method of cementing cold joints of concrete dams. Tetel'min, V.V., et al, [1979, p.21-23, rus] 34-1151
Allowable fracturation of large gravity dams in severe climates. Vasil'ev, P.I., et al, [1979, p.32-33, rus] 34-1152
Polystyrene insulation for concrete canal lining. Jones, C.W., et al, [1978, 30p., eng] 34-1172
Discussion on methods of concreting in the North. Ostryi, V.M., [1979, p.34, rus] 34-1184
Design of reinforced concrete space structures for the North. Gorenshtein, B.V., [1979, 159p., rus] 34-1238
Improving the organization of concrete work performed during construction of the Sayano-Sushenskoe hydroelectric plant. Zinchenko, N.A., et al, [1979, p.114-120, eng] 34-1392
Heating cables for electric warming of joints and situ-cast concrete structures. Astashev, V.M., et al, [1979, p.10-12, rus] 34-1432
Testing concrete for frost resistance. Sizov, V.P., [1979, p.34-35, rus] 34-1433
Controlling frost resistance of concrete during production. Voevoda, G.F., et al, [1979, p.35-37, rus] 34-1434
Mathematical modeling of thermal stresses in concrete structures on rock foundations. Rukavishnikova, T.N., et al, [1979, p.56-66, rus] 34-1525

Concrete structures *(cont.)*
Calculating quasi-stationary temperature and seepage fields in massive hydraulic structures and foundations by the finite element and finite difference methods. Pisarev, G.N., et al, [1979, p.67-74, rus] **34-1526**
Increasing the reliability of waterproof asphalt facings for concrete dams. Davidenko, V.M., et al, [1979, p.23-29, rus] **34-1528**
Relation between shear strength of ground adfreezing and the surface roughness of materials. Shusherina, E.P., et al, [1979, p.30-39, rus] **34-1536**
Determining frost resistance of concrete from the compensation factor. Shlaen, A.G., [1979, p.37-38, rus] **34-1568**
Standard foundation design for structures built on permafrost. [1979, p.36, rus] **34-1713**
Tunnel construction on landslide-prone slopes. Aminov, E.Kh., [1979, p.12-14, rus] **34-1715**
Testing ice-bound columnar piles for horizontal loads. Ablogin, E.A., et al, [1979, p.42-43, rus] **34-1717**
Steel-reinforced concrete road bridge spans exceeding 100 m. Rudomazin, N.N., et al, [1979, p.16-17, rus] **34-1751**
Sectional, instead of situ-poured, cylindrical pumping stations. Podgornyi, I., [1979, p.40-41, rus] **34-1772**
Selecting design values of temperature when calculating buildings for thermal and moisture effects and settling. Emel'ianov, A.A., [1970, p.90-119, rus] **34-1834**
Improving the design of supports for overhead power lines of and exceeding 500 kv. Peterson, L.L., et al, [1979, p.48-51, rus] **34-1851**
What do we know about freezing of concrete. Venuat, M., [1979, p.251-260, fre] **34-2329**
Design and construction of electric substations in the western section of the Baykal Amur railroad. Gromov, V.V., et al, [1980, p.49-51, rus] **34-2568**
Significance of the Kislogubsk tidal power plant for hydraulic construction and power engineering. Bernshtein, L.B., et al, [1980, p.64-67, rus] **34-2578**
Building new types of concrete dams under northern conditions. Kudoiarov, L.I., [1980, p.67-69, rus] **34-2579**
Sectional capping for columnar bridge piers of the Baykal Amur railroad. Baliuchik, E.A., et al, [1980, p.10-12, rus] **34-2586**
Winter concreting in the Baykal Amur railroad area. Bronshtein, G.L., et al, [1980, p.20-21, rus] **34-2587**
Lightweight enclosures for use in the Urals and Siberia. Pavlov, V.P., et al, [1979, p.2-5, rus] **34-2589**
Polystyrene concrete, an effective thermal insulation material for industrial buildings and block-component construction. Stefurak, B.I., et al, [1980, p.5-6, rus] **34-2593**
Building design for construction in the North. Vas'kovskii, A.P., et al, [1979, 135p., rus] **34-2685**
Field studies of Series 91 residential buildings. Shilov, N.N., et al, [1979, p.5-6, rus] **34-2704**
Intermediate columnar bridge piers of the Baykal Amur railroad. Ryzhenko, A.P., [1980, p.11-12, rus] **34-2853**
Instructions for the performance and acceptance of jobs concerning the shield technique of building collecting-tunnels in cities and industrial enterprises. [1975, 38p., rus] **34-2863**
Catalog of temperature fields of standard enclosure joints. Part I, Residential buildings. Design manual. Ivashkova, V.K., et al, [1980, 111p., rus] **34-2937**
Concrete protection from brine and frost effects. Bugrim, S.F., et al, [1980, p.17-18, rus] **34-2980**
Calculating temperature regime of underground structures. Makagonov, V.A., [1980, p.45-49, rus] **34-3164**
Thermal and settlement stresses in concretes. Pechenyi, B.G., [1980, p.73-77, rus] **34-3165**
Ice loads on structures of the Baykal Amur railroad. Korzhavin, K.N., ed, [1977, 121p., rus] **34-3168**
Experimental study of river ice friction. Korzhavin, K.N., et al, [1977, p.25-36, rus] **34-3171**
Methods of determining thermal, moisture and physical characteristics of concretes. Drobyshevskii, B.A., [1979, p.70-73, rus] **34-3182**
Equivalent coefficients of moisture diffusion for concretes used in bridge construction. Drobyshevskii, B.A., [1979, p.73-79, rus] **34-3183**
Design of concrete structures for thermal effects. Pajuhesh, J., [1980, p.74-77, eng] **34-3265**
Investigation of construction-joint grouting techniques under field conditions. Zhivoderov, V.N., et al, [1980, p.872-879, eng] **34-3377**
Control of seepage through concrete by injection of polymer solutions. Ibragimov, M.N., [1980, p.880-882, rus] **34-3378**
Improving the effectiveness of construction of artificial structures along the Tynda-Urgal railroad. Aleksandrov, A.A., et al, [1980, p.10-12, rus] **34-3599**
Improving the design of structures built in complex ground conditions. Meteliuk, N.S., [1980, 143p., rus] **34-3823**
Possibility of using sodium nitrite antifreeze in reinforced concretes of buildings and structures on railroads. Kostiaev, P.S., et al, [1978, p.179-184, rus] **34-3920**
Erection of building structures at the northern Mining and Concentration Concern No.2. Golubenko, V.V., et al, [1980, p.10-12, rus] **34-3938**
Random thermal stress in concrete containments. Singh, M.P., et al, [1980, p.1481-1496, eng] **34-3950**
Field inspection and testing of thermal properties of enclosures of a 12-story residential building. Bukharova, N.V., [1969, p.16-28, rus] **34-4049**
Calculating temperature field of block-by-block upbuilt concrete structures using Laplace numerical conversion technique. Zubkov, V.I., [1980, p.92-97, rus] **34-4140**

Concretes
Silicate cements and dense concretes on a base of nepheline slag and phosphorite residues. Riumin, K.I., et al, [1972, p.196-201, rus] **34-191**
Concretes for roof plates. Savvina, IU.A., et al, [1977, p.14-17, rus] **34-346**
Field tests of concretes with silicon-organic oligomers. Batrakov, V.G., et al, [1977, p.41-44, rus] **34-349**
Optimal composition of complex powder admixtures for concretes. Gen', O.P., et al, [1977, p.45-50, rus] **34-350**
Use of nonmetallic pipelines in construction. Borshcheva, N.I., et al, [1974, p.148-151, rus] **34-762**
Kinetics of cement hardening during thermal treatment of concrete bases of road pavements in freezing weather. Shkurenko, V.I., et al, [1979, p.113-117, rus] **34-808**
Structure and properties of cement concretes. Shelkin, A.E., et al, [1979, 344p., rus] **34-850**
Structural criterion of concrete frost resistance. Dvorkin, L.I., et al, [1979, p.75-78, rus] **34-851**
Frost resistant concretes with fine sands. Ivanov, F.M., et al, [1979, p.24-26, rus] **34-2099**
Construction research. Thermal physics. Structural durability. [1979, 180p., rus] **34-2381**
Frost resistance and mechanical properties of calcareous sandstone concrete. Marmor, Kh.G., et al, [1979, p.127-134, rus] **34-2384**
Hot sand-cement mixes for road pavement bases. Vostrikov, IU.S., et al, [1979, p.105-108, rus] **34-2618**
Studying properties of concretes saturated with sulfur solutions. Orlovskii, IU.I., et al, [1980, p.78-81, rus] **34-3166**
Control of seepage through concrete by injection of polymer solutions. Ibragimov, M.N., [1980, p.880-882, rus] **34-3378**
Water repellant plasticizing admixtures for cements, grouts and concretes. Khigerovich, M.I., et al, [1921, 125p., rus] **34-3615**
Concreting in Antarctica. Varcoe, G.E., [1979, p.14-15, eng] **34-3679**
Break-off strength of adfreezing ground. Shusherina, E.P., et al, [1980, p.178-194, rus] **34-4134**
See also: Cellular concretes; Lightweight concretes; Prestressed concretes; Reinforced concretes; Slag concrete

Condensation
Sublimation and condensation at the ice sheet surface of Mizuho Station, Antarctica. Fujii, Y., [1979, p.51-63, eng] **34-2150**

Condensation nuclei
Condensation-freezing mechanism at weak supersaturation in respect of ice. Grenier, J.C., et al, [1979, p.81-91, fre] **34-1743**
Studying dust in ice covers and using it in ice age determination. Gordienko, F.G., [1979, p.259-268, rus] **34-3151**
Condensation-freezing mechanism at weak supersaturation in respect to ice. Montmory, R., [1980, p.71-83, fre] **34-4246**

Conduction
Radiative cooling of layers of pebble. Bernard, J.J., [1979, p.521-524, fre] **34-2352**
Current meter. [1975, 295p., eng] **34-3099**
Oceanographic data. [1976, 30p. + figs., eng] **34-3100**

Conductivity
See: Electrical resistivity; Thermal conductivity

Conferences
See: Meetings

Conical bodies
Plastic limit analysis of sheet ice loads on conical structures. Ralston, T.D., [1980, p.289-308, eng] **34-3748**

Conservation
See: Energy conservation

Consolidation
See: Thaw consolidation

Construction
Snow clearance—west Himalayan road—some problems. Soin, J.S., [1979, p.141-150, eng] **34-74**
Inaccuracies in construction. Latta, J.K., [1976, 4p., eng] **34-163**
Electric-heat supply for the construction region encompassing the Boguchany hydroelectric plant. Ivanova, E.V., [1978, p.1084-1087, eng] **34-324**
Drilling operations guide. [1973, c195p., eng] **34-568**
Winter season roadmaking method. Kurdenkov, B.I., et al, [1976, 4 col., rus] **34-1221**
Glaciological aspects of building the Swiss postal and telecommunication service's multipurpose telecommunication facility on Chli Titlis Mountain. Haeberli, W., et al, [1979, p.59-75, ger] **34-1320**
Developments in Soviet icebreaker construction. Peschanskii, A., [1979, 17p., eng] **34-1345**
Traffic tests of expedient airfield construction concepts for possible application in the National Petroleum Reserve, Alaska. Burns, C.D., [1979, 138p., eng] **34-1361**
Transportation. Nekrasov, N.N., ed, [1979, 147p., rus] **34-1619**
Baykal Amur railroad. Problems of inter-regional economic communications and natural resource development in the Near North. D'iakonov, F.V., [1979, p.33-42, rus] **34-1623**
Experimental roadbed in an area with a thick layer of ground ice. [1979, p.187-197, eng] **34-1688**
Methods of determining and presenting climatological data for structural design. Kobysheva, N.V., et al, [1979, p.3-8, rus] **34-1815**
Using climatic data in structural design. Kobysheva, N.V., et al, [1979, p.9-16, rus] **34-1816**
Scientific conference of geographers from Siberia and the Far East. Geography and practice. Proceedings. [1978, 253p., rus] **34-2246**
Thermal regime in road constructions; measurements and simulation. Frivik, P.E., et al, [1979, p.482-496, eng] **34-2349**
STYROPOR-concrete as frost protection and load-bearing layer in road construction. Hohwiller, F., [1972, p.499-508, ger] **34-2397**
Soil freezing and highway construction. [1978, 105p., eng] **34-2480**
Protection and use of biologic resources in the Baykal Amur railroad construction zone. Man'ko, IU.I., [1978, p.7-9, rus] **34-2534**
Environmental code of good practice for highways and railways. [1979, c80p., eng] **34-2605**
Statistical amount of snow on the regions planned for the construction of Shinkansen. Shinojima, K., et al, [1976, p.136-127, eng] **34-2655**
Construction, widening and performance of a freeway across organic terrain. Mirza, C., [1978, p.50-80, eng] **34-2909**
Design and construction experiences with fluid retaining embankments on peat. Wiesner, W.R., et al, [1978, p.81-115, eng] **34-2910**
Role of fabric in low embankments on muskeg. Greenway, D.R., et al, [1978, p.165-181, eng] **34-2914**
Scientific research in the last year of the Five-year Plan. Ivantsov, O.M., [1980, p.25-29, rus] **34-3163**
Studying the structure of forest tundra landscapes as indicators of engineering and geological conditions for economic development in West Siberia. Moskalenko, N.G., et al, [1979, p.88-100, rus] **34-3227**
Environmental protection in economic development of permafrost areas. Grave, N.A., ed, [1980, 140p., rus] **34-3277**
Rational utilization of engineering and geological resources. Demidiuk, L.M., [1980, p.42-50, rus] **34-3284**
Some technical solutions for environmental protection of construction and mining sites in permafrost areas. El'chaninov, E.A., et al, [1980, p.55-60, rus] **34-3286**
Timan-Pechora Complex. Construction problems. Kochurin, N.N., [1979, 167p., rus] **34-3666**
Far North: nature and man. Prospects of economic development. Kriuchkov, V.V., [1979, 127p., rus] **34-3668**
Transport planes in the economic development of northern USA and Canada. Chudnovskii, A., [1978, p.44-47, rus] **34-3901**
Effective use of helicopter cranes. Chernitskii, A., [1980, p.30-32, rus] **34-3929**
Engineering preparation of sites for construction on permafrost. Ivanov, V.S., [1980, p.40-42, rus] **34-4038**
See also: Cold weather construction; Concrete construction; Modular construction

Construction equipment
Improving construction equipment. Garkavi, N.G., et al, [1979, p.10-12, rus] **34-130**
Construction material and equipment base in West Siberia. Kuritsyn, IU.P., [1979, p.6-8, rus] **34-166**
Resistance of materials to wear at subzero temperatures. Tylkin, M.A., et al, [1974, p.78-81, rus] **34-382**
Developing high impact-abrasion strength fuse-on metals. Razikov, M.I., et al, [1974, p.135-139, rus] **34-384**
Wear of machines working at low temperatures. Kashcheev, V.N., et al, [1974, p.183-188, rus] **34-391**
Steel mains of the country. Melkonov, S.S., [1979, p.6-10, rus] **34-518**
Mechanization of transport construction during the past 25 years. Adashev, I.S., et al, [1979, p.34-38, rus] **34-520**
Hydraulic dredging in freezing weather Popov, IU.A., et al, [1979, 184p., rus] **34-580**
Engineering manual for northern gas pipelines. Sedlukha, G.A., et al, [1979, 168p., rus] **34-581**
Mechanization in rural construction. Lysiakov, V.E., et al, [1979, p.6-10, rus] **34-587**
New self-propelled boom cranes KS-6471, KS-2561K and KS-1562B. Volkova, A.E., [1979, p.26-27, rus] **34-590**
Investigation of the bearing capacity of piles driven into plastic frozen soil. Cherniaev, V.I., et al, [1979, p.32-36, eng] **34-981**
Methods of calculating helicopter equipment for construction and installation work. Bogdanov, V.A., [1977, p.101-111, rus] **34-992**
Artificial freezing of ground. Buchko, N.A., [1979, p.38-40, rus] **34-1153**
Construction of the Urengoi-Cheliabinsk gas pipeline. Emel'ianov, V.A., et al, [1979, p.7-8, rus] **34-1178**

Discussion on methods of concreting in the North. Ostryi, V.M., [1979, p.34, rus] 34-1184
Development test II (DT II) (PQT-G) (Cold Weather Environment) of the family of military engineer construction equipment (FAMECE). Lockwood, N.S., [1979, c190p., eng] 34-1311
Winter construction of roadbeds. Kostel'ov, M.P., et al, [1979, p.20-21, rus] 34-1422
Peculiarities and problems of inter-regional transportation and economic communications of the northern zone of the USSR. Puzanova, V.F., [1979, p.20-33, rus] 34-1622
Supplying northern enterprises with special equipment. Dashkova, T.E., [1979, p.109-112, rus] 34-1632
Machine for road building and maintenance. Matveenko, L.S., et al, [1979, pl2-14, rus] 34-1944
Using balloons and dirigibles in construction. Spasskiĭ, D.S., [1979, p.29, rus] 34-2094
Equipment for summer construction of pipelines on swamps. [1979, p.31-32, rus] 34-2100
Construction equipment for the Baykal Amur railroad. Poliakov, V.I., et al, [1979, p.2-4, rus] 34-2582
New equipment at the construction sites of the Ministry of Construction Planning of Industrial Establishments, USSR. Konstantinov, N.F., [1980, p.17-21, rus] 34-2584
Operation of electric all terrain vehicles on balloon tires. Beliaev, L.V., [1979, p.37-39, rus] 34-2590
Combinations of equipment for handling explosive materials at the Baykal Amur railroad construction sites. Semin, A.P., et al, [1979, p.24-25, rus] 34-2592
Modernized KB-100.OAS tower crane designed for the North. Al'perovich, A.I., et al, [1979, p.8-10, rus] 34-2694
Heading machine complex for tunneling. Bobrovskiĭ, L.M., et al, [1980, p.12-14, rus] 34-2854
System of equipment reservation for the complex column technique of construction in West Siberia. Kurbatov, N.I., et al, [1980, p.13-15, rus] 34-2979
Land reclamation in winter. Surikov, V.V., [1980, 270p., rus] 34-3758
Development of a specialized production base in West Siberia. Gorlashkina, G.A., et al, [1980, p.21-22, rus] 34-3819
Tunneling through quicksand. Zaĭdullin, N., et al, [1980, p.8, rus] 34-3937
Road construction all year round. Siniaev, N.V., [1979, p.15-16, rus] 34-3940
Rational use of natural resources in the Central Lena River area. Gubkin, M.P., et al, [1979, p.10-14, rus] 34-4107
Impervious frozen ground screens in earth dams of the "frozen" type. Makarov, V.I., [1979, p.26-51, rus] 34-4154

Construction materials
Dimensional changes due to temperature. Latta, J.K., [1976, 12p., eng] 34-155
Dimensional changes due to moisture. Handegord, G.O., [1976, 7p., eng] 34-156
Accommodation of potential movements. Latta, J.K., [1976, 9p., eng] 34-160
Construction material and equipment base in West Siberia. Kuritsyn, IU.P., [1979, p.6-8, rus] 34-166
Stand for dynamic tests of self-lubricating materials for friction and wear at low temperatures. Semenov, V.A., et al, [1975, p.132-135, rus] 34-234
Abrasive strength of polymers at low temperatures. Koval'chuk, L.P., [1974, p.164-167, rus] 34-389
Wear resistance of self-lubricating polymers under natural cold conditions. Cherskiĭ, I.N., [1974, p.167-170, rus] 34-390
Prefabrication stages in building construction. Makeev, A.M., et al, [1979, p.30-34, rus] 34-519
Engineering manual for northern gas pipelines. Sedlukha, G.A., et al, [1979, 168p., rus] 34-581
Dielectric properties of polymer materials in different climatic conditions. Filatov, I.S., [1979, 129p., rus] 34-749
Use of nonmetallic pipelines in construction. Borshcheva, N.I., et al, [1974, p.148-151, rus] 34-762
Construction of residential and public buildings in West Siberia. Khaĭtum, A.D., [1979, p.16-18, rus] 34-1180
Discussion on methods of concreting in the North. Ostryĭ, V.M., [1979, p.34, rus] 34-1184
Road pavements in oil producing areas of Tyumen'. Motylev, IU.L., [1979, p.21-22, rus] 34-1423
What kinds of pavements should be built in Yakutia. Sychov, V.P., [1979, p.22-24, rus] 34-1424
Local construction materials used for linings for the Baykal Amur railroad. Troitskiĭ, V.V., et al, [1979, p.22-23, rus] 34-1427
Calculating service life of waterproof mastic roofings. Popchenko, S.N., et al, [1979, p.15-22, rus] 34-1527
Peculiarities and problems of inter-regional transportation and economic communications of the northern zone of the USSR. Puzanova, V.F., [1979, p.20-33, rus] 34-1622
Installation of large thermal insulation structures. Khashev, V.M., et al, [1979, p.18-19, rus] 34-1750
Organizing the preliminary period of the Kolyma hydroelectric power plant construction. Pavlov, B.N., et al, [1979, p.44-47, rus] 34-1850
Bauxite slag replaces gravel. Kolbas, N.S., et al, [1979, p.10, rus] 34-1943
Effectiveness of clay freezing prevention methods. Kharlamov, V.N., [1979, p.4-8, rus] 34-2082
Navigating under ice conditions. Levanov, B. [1979, p.5-6, rus] 34-2118
Minerals and raw material bases in the Baykal Amur railroad area. Kogan, S.I., et al, [1979, p.1-5, rus] 34-2127
Problems raised by frost action. Fundamental and applied researches (rocks and artificial building materials). Vol.2: scientific reports. [1979, 527p., fre] 34-2313
Effect of specimen temperature on the breaking point for splitting off in AMG-6 aluminum alloy. Bat'kov, IU.V., et al, [1979, p.265-268, eng] 34-2379
Improving the organization of construction of overhead lines and substations in the North. Denisov, G.A., et al, [1980, p.31-38, rus] 34-2573
Assembly for unloading frozen construction materials, PR-188. Volkova, A.E., [1980, p.30, rus] 34-2585
Combinations of various means of transportation along the Punga-Vuktyl-Ukhta railroad. Glazkov, V.E., [1980, p.15-17, rus] 34-2596
Technical and economic characteristics of the Trans-Alaska Oil Line. Panov, IU.E., et al, [1980, p.38-39, rus] 34-2982
Heat and mass transfer in low temperature thermal insulation installations. Kaganer, M.G., [1979, 257p., rus] 34-3069
Improving the structure of management of the West Siberian Petroleum Complex. Vozniak, V.IA., [1980, p.22-24, rus] 34-3162
Effectiveness of using mineral raw materials in the Far North. Fedoseev, V.A., [1979, 215p., rus] 34-3197
Present state of research on the freezing of rocks and construction materials. Aguirre-Puente, J., [1980, p.117-132, eng] 34-3241
Effects of loading thermal and electrical resistance of cryogenic insulation materials. Mil'man, S.B., et al, [1980, p.982-985, eng] 34-3367
Concreting in Antarctica. Varcoe, G.E., [1979, p.14-15, eng] 34-3679
Development of a specialized production base in West Siberia. Gorlashkina, G.A., et al, [1980, p.21-22, rus] 34-3819
Dehydration of nonmetalliferous construction materials at low temperatures. Gurevich, V.G., et al, [1980, 70p., rus] 34-3824
Physico-technical peculiarities of inflatable structures used in the North. Mikhaĭlov, B.A., et al, [1978, p.24-28, rus] 34-3912
Textiles used in roadbed construction on weak soils. Polunovskiĭ, A.G., et al, [1980, p.13-15, rus] 34-3952
Winter testing of thermal properties of plastic mobile houses. Avdeev, G.K., [1969, p.89-92, rus] 34-4051
Rational use of natural resources in the Central Lena River area. Gubkin, M.P., et al, [1979, p.10-14, rus] 34-4107

Continuous permafrost
Three soil profiles from Elephant Island, South Shetland Islands. O'Brien, R.M.G., et al, [1979, p.1-12, eng] 34-12
Designing gas pipeline crossings of major river valleys in the North. Kondrat'ev, V.G., et al, [1979, p.30-31, rus] 34-1183
Microbiological characteristics of cryogenic meadow-chernozem soils in the Eravnin Basin, the Buryat Autonomous Republic. Nimaeva, S.Sh., et al, [1979, p.10-17, rus] 34-1439
Engineering and geological studies for seismic microregionalization of permafrost areas. Zarubin, N.E., [1975, p.59-60, rus] 34-2059
Permafrost in the mountains of Central Asia. Gorbunov, A.P., [1980, p.257-369, eng] 34-3851
How permanent is permafrost. Shvetsov, P.F., [1979, p.16-25, rus] 34-4147

Convection
Freezing controlled by natural convection. Sparrow, E.M., et al, [1979, p.578-584, eng] 34-1498
Variational analysis of freezing or melting in a finite medium subject to radiation and convection. Yeh, L.T., et al, [1979, p.592-597, eng] 34-1499
Forced-convection heat transfer from irregular melting wavy boundaries. Hsu, K.-S., et al, [1979, p.598-602, eng] 34-1500
Steady state ice layer profile on a temperature plate in a forced convection flow. Hirata, T., et al, [1979, p.1425-1443, eng] 34-1846
Influence of normal fluxes on convective transfer at an interface. Prud'homme, R., [1979, p.377-392, fre] 34-2340
Numerical sumulation of a horizontal porous layer heated from below. Caltagirone, J.P., [1979, p.467-479, fre] 34-2348
Radiative cooling of layers of pebble. Bernard, J.J., [1979, p.521-524, fre] 34-2352

Coolants
Artificial freezing of ground in underground construction. Trupak, N.G., [1979, 344p., rus] 34-1226
Experimental study of heat transfer in fluid thermopiles. Konovalov, A.A., et al, [1979, p.109-117, rus] 34-1544
Keeping it cool with liquid nitrogen. [1980, p.606, 609, eng] 34-3997

Cooling
Energy efficiency through ice storage. Stubblefield, R.R., [1979, p.43-47, eng] 34-1644
Impact of CO_2 on cooling of snow and water surfaces. Choudhury, B., et al, [1979, p.668-671, eng] 34-1840
See also: Liquid cooling; Radiant cooling; Thermopiles

Cooling rate
Extreme cooling curves of concrete structures. Pliat, Sh.N., et al, [1978, p.70-72, rus] 34-469
Artificial freezing of ground in underground construction. Trupak, N.G., [1979, 344p., rus] 34-1226

Cooling systems
Thermal alteration of groundwater caused by seepage from a cooling lake. Andrews, C.B., et al, [1979, p.595-602, eng] 34-271
Artificial freezing of ground in underground construction. Trupak, N.G., [1979, 344p., rus] 34-1226
Calculating electric heating of bearing ground beneath refrigerator columns. Gindoian, A.G., et al, [1976, p.88-107, rus] 34-2404
Seasonally operating units and their use in northern construction. Buchko, N.A., et al, [1980, p.227-240, eng] 34-3248
Construction of multi-storey buildings on cold piles in the city of Mirnyy. Makarov, V.I., et al, [1980, p.241-254, eng] 34-3249
Heat exchange of an artificially frozen dam with the atmosphere. Olovin, B.A., [1979, p.51-61, rus] 34-4155

Cooperation
See: International cooperation

Core analysis
See: Drill core analysis

Core samplers
Types of core-barrel cutting heads and their interaction with ground. Krupina, G.K., [1977, p.67-80, rus] 34-987
Practical advantages and prospects of drilling with simultaneous freezing of weakly consolidated rocks. Afanas'ev, I.S., et al, [1973, p.25-26, rus] 34-1956
Effect of prefreezing on the strength and deformation properties of granular soils. Frydman, S., et al, [1979, p.31-42, eng] 34-2139
Drilling and coring of frozen ground in northern Alaska, Spring 1979. Lawson, D.E., et al, [1980, 14p., eng] 34-3333
Portable drilling equipment for shallow permafrost sampling. Veillette, J.J., et al, [1980, 35p., eng] 34-3652
Ice core inventory. MacKinnon, P.K., [1980, p.15-57, eng] 34-4023
See also: Ice coring drills

Cores
DVDP at the Florida State University: core storage and sample distribution. Cassidy, D.S., [1979, p.240-245, eng] 34-2289
Glacial and glacial marine sediments of the antarctic continental shelves. Anderson, J.B., et al, [1980, p.399-414, eng] 34-4189
See also: Ice cores

Coring
Types of core-barrel cutting heads and their interaction with ground. Krupina, G.K., [1977, p.67-80, rus] 34-987
Practical advantages and prospects of drilling with simultaneous freezing of weakly consolidated rocks. Afanas'ev, I.S., et al, [1973, p.25-26, rus] 34-1956

Cornices
See: Snow cornices

Corrosion
Alternative highway deicing chemicals. Dunn, S.A., et al, [1979, p.261-269, eng] 34-90
Analyzing some factors influencing corrosion stability of lightweight concretes. Podval'nyĭ, A.M., [1977, p.18-26, rus] 34-347
Optimal composition of complex powder admixtures for concretes. Gen', O.P., et al, [1977, p.45-50, rus] 34-350
Preventing corrosion on Arctic pipelines. Peabody, A.W., [1979, p.28-42, eng] 34-1290
Report from the working group on noncorrosive methods of ice control. [1979, p.41-55, eng] 34-1585
Soil resistivity—measurement and analysis. Palmer, J.D., [1974, p.41-46, eng] 34-2392
Cathodic protection of a bridge deck: preliminary investigation. Stratfull, R.F., [1974, p.24-25, eng] 34-2393
Corrosion, deicing salts, and the environment. Chance, R.L., [1974, p.16-22, eng] 34-2394

Cost analysis
Model for traffic delay and its convenience and wage costs. Kennedy, W.J., et al, [1979, p.57-60, eng] **34-59**
Value engineering study of snow and ice control. Russell, G.L., et al, [1979, p.66-73, eng] **34-61**
Use of synthetic snowfalls in the evaluation of snow removal systems. Sage, J.D., [1979, p.121-128, eng] **34-71**
Overview of some of the factors influencing snow and ice control and the resultant impacts of their implementation. Belangie, M.C., [1979, p.151-158, eng] **34-75**
Methods of determining the economic effectiveness of geological surveys. Andreev, M.G., et al, [1977, p.3-10, rus] **34-116**
Economic effectiveness of using high thermal insulation windows in residential buildings of the North. Kuzema, I.G., et al, [1972, p.153-165, rus] **34-188**
Arctic drilling barge study. [1971, var. p., eng] **34-557**
Feasibility study: exploratory drilling systems, Beaufort Sea. [1971, c430p., eng] **34-570**
Beaufort Sea exploratory drilling system: review and recommendations. [1971, var. p., eng] **34-573**
Arctic offshore pipeline feasibility study in Mackenzie River delta area. [1973, c530p., eng] **34-578**
Determining railroad construction costs in developing areas. Kopylenko, V.A., [1978, p.62-72, rus] **34-1104**
Evaluating structural design of modular buildings for repair shops of the Baykal Amur railroad. Leibman, G.D., et al, [1978, p.67-72, rus] **34-1105**
Mountain 79. [1979, p.9-93, eng] **34-1241**
New developments in winter maintenance. Hoekstra, H., [1979, p.19-29, eng] **34-1242**
Maintenance costs. Hammond, J.L., [1979, p.47-55, eng] **34-1246**
Arctic winter construction and cost estimating of the North Slope fuel gas pipeline. Bock, G.R., [1979, p.511-520, eng] **34-1403**
Snow mapping and runoff forecasting: Examination of ERTS-1 capabilities and potential benefits from an operational ERS system. [1974, 180p. + 25p. appends., eng] **34-1730**
Reference manual for construction on permafrost. Antonov, A.F., et al, [1979, 674p., eng] **34-1966**
Cost/benefit analysis for the Operational Applications of Satellite Snowcover Observations (OASSO). Castruccio, P.A., et al, [1980, p.239-254, eng] **34-3522**
See also: Economic analysis

Countermeasures
Countermeasures against snow accretion and icing on radomes. Suzuki, M., et al, [1979, p.303-307, eng] **34-96**
Combatting ice on AIRTRANS and other guideways. Patton, R.J., et al, [1979, p.328-336, eng] **34-100**
All-weather protection for AGT guideways and stations. Stevens, R.D., et al, [1979, p.337-342, eng] **34-101**
Method for reducing frost damage of plants. Arny, D.C., et al, [1977, 4 col., eng] **34-148**
Reinforced ice matrix. Hill, W.L., [1977, 4 col., eng] **34-264**
Preliminary study of the fate of oil from a subsea blowout on the east coast. Telford, A.S., et al, [1977, 34p., eng] **34-312**
Proposal to evaluate an oil containment boom for use in ice-infested waters. [1975, 16p. + append., eng] **34-485**
Evaluation of the Bennett-CANMAR oil containment boom. Nadreau, J.P., et al, [1976, 37p. + append., eng] **34-486**
Method and formulation for preventing snow and ice accumulation. Bonnanzio, A.J., [1975, 8 col., eng] **34-502**
On some rules governing the formation of ice jams and the computation of the type of preventive measures to be taken. Tsykin, E.N., et al, [1974, p.334-346, eng] **34-1204**
Preventing corrosion on Arctic pipelines. Peabody, A.W., [1979, p.28-42, eng] **34-1290**
Island defence and monitoring. Templeton, J.S., III, [1979, 13p. + 20 slides, eng] **34-1595**
Proceedings of the Davos Seminar, September 1978. [1979, 258p., eng] **34-1777**
Some promising afforestation tests based on the laying out of logs on avalanche sites. Wakabayashi, R., [1979, p.255-260, eng] **34-1793**
Ecosystem of avalanche protection forests. Mayer, H., [1979, p.281-299, ger] **34-1795**
Development and structure of pine forests in Slovakia and their effectiveness as avalanche protection. Korpel', Š., [1979, p.301-317, ger] **34-1796**
Present state of mountain forests, consequences for their avalanche protection function, silvicultural measures. Ott, E., [1979, p.321-330, eng] **34-1797**
Silvicultural planning in avalanching forests. Fiebiger, G., [1979, p.331-348, eng] **34-1798**
Study on occurring condition of metallic inclusions in anti-snow type composition brake shoes which cause the hollowing wear at wheel treads. Idemura, K., et al, [1977, p.45, eng] **34-2656**
Construction-related oil spills along Trans-Alaska Pipeline. Kavanagh, N., et al, [1977, 16p., eng] **34-2860**
Use of "muskeg caps" to deter frost penetration under transmission line tower bases. Sims, R.A., [1978, p.116-131, eng] **34-2911**
Preparing counter-measures against under-ice oil spills. [1977, p.34-35, eng] **34-3017**
Ice-release coating for disconnect switches. Mundon, J.L., [1980, 24p., eng] **34-3085**
See also: Avalanche engineering; Flood control; Fog dispersal; Frost protection; Ice control; Ice prevention; Ice removal; Landslide control; Permafrost control; Safety; Slope protection; Soil stabilization; Temperature control; Waterproofing

Crack propagation
Resistance of ZOKhGSNA and ZOKhGSA steels at low temperatures. Vasil'ev, M.M., et al, [1975, p.120-124, rus] **34-232**
Evaluating the exploitational reliability of tanks at low temperatures. Bondarovich, L.A., et al, [1979, p.19-21, rus] **34-336**

Cracking (fracturing)
Introduction to the problem of cracks, movements and joints in buildings. Baker, M.C., [1976, 8p., eng] **34-153**
Stress-strain relationships. Hutcheon, N.B., [1976, 10p., eng] **34-154**
Building deformations—deflection. Plewes, W.G., [1976, 11p., eng] **34-157**
Deformation due to foundation movements. Crawford, C.B., [1976, 7p., eng] **34-159**
Accommodation of potential movements. Latta, J.K., [1976, 9p., eng] **34-160**
Resistance of ZOKhGSNA and ZOKhGSA steels at low temperatures. Vasil'ev, M.M., et al, [1975, p.120-124, rus] **34-232**
Evaluating the exploitational reliability of tanks at low temperatures. Bondarovich, L.A., et al, [1979, p.19-21, rus] **34-336**
Thermal stress intensity factors for a fixed strip containing edge cracks. Pashchenko, V.I., et al, [1978, p.53-57, rus] **34-466**
Thermal stress intensity factors for a strip with transverse internal cracks. Pashchenko, V.I., et al, [1978, p.58-63, rus] **34-467**
Effects on flexible highways of increased legal vehicle weights using VESYS IIM. Rauhut, J.B., et al, [1978, 203p., eng] **34-508**
Ice-foot processes. Observations of erosion on a rocky coast, Disko, West Greenland. Nielsen, N., [1979, p.321-331, eng] **34-966**
See also: Ice cracks

Cranes (hoists)
Tower cranes used by Glavmosstroi in large panel construction. Blokhin, V.V., [1979, p.11-13, rus] **34-193**
New self-propelled boom cranes KS-6471, KS-2561K and KS-1562B. Volkova, A.E., [1979, p.26-27, rus] **34-590**
Modernized KB-100.0AS tower crane designed for the North. Al'perovich, A.I., et al, [1979, p.8-10, rus] **34-2694**
Effective use of helicopter cranes. Chernitskiĭ, A., [1980, p.30-32, rus] **34-3929**

Crawl spaces
Construction by the method of stabilizing perennially frozen foundation soils. Porkhaev, G.V., et al, [1980, p.283-296, eng] **34-3252**

Creep
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] **34-213**
Approximate determination of stress relaxation coefficients in thermal creep problems. Tsybin, A.M., et al, [1978, p.73-76, rus] **34-470**
Influence of salinity on frozen ground deformation. Pekarskaia, N.K., et al, [1979, p.5-19, rus] **34-1534**
Performance of piles in plastic frozen ground. Slepak, M.E., [1979, p.67-71, rus] **34-1540**
Soil-ice system and the shear strength of frozen soils. Goughnour, R.R., [1968, 153p., eng] **34-2041**
Slope denudation in the bald peak zone of western Sayan. Rashba, I.N., [1978, p.69-87, rus] **34-2296**
Theory of shearing creep of clay and its experimental confirmation. Ter-Stepanian, G.I., [1976, p.74-97, rus] **34-3204**
Shearing creep of clay soils due to vibration. Badalian, R.G., et al, [1976, p.117-127, rus] **34-3205**
Determining creep parameters of weak clayey soils. Karpov, V.M., [1976, p.211-219, rus] **34-3209**
Skeleton creep of weak water-saturated clay soils. Meschian, S.R., et al, [1976, p.268-277, rus] **34-3215**
Univariate compaction of ground, allowing for viscoplastic deformations. Ter-Martirosian, Z.G., [1976, p.322-327, rus] **34-3220**
Shearing creep mechanism at variable pore pressure. Tsytovich, N.A., et al, [1976, p.352-359, rus] **34-3223**
Temperate valley glaciers. Raymond, C.F., [1980, p.79-139, eng] **34-3657**
Improving the design of structures built in complex ground conditions. Meteliuk, N.S., [1980, 143p., rus] **34-3823**
See also: Ice creep; Rheology; Snow creep; Soil creep

Crevasses
Velocities and calving intensity at the front of Kongsbreen (West Svalbard) around Aug. 1, 1963. Vivet, R., et al, [1978, p.27-34, fre] **34-663**
Electromagnetic sounding of bottom crevasses on the Ross Ice Shelf, Antarctica. Jezek, K.C., et al, [1979, p.321-330, eng] **34-2835**
Bottom crevasses. Weertman, J., [1980, p.185-188, eng] **34-3811**

Crossings
See: Bridges; Ice crossings; River crossings

Crude oil
Transport, retention, and effects of the water-soluble fraction of Cook Inlet crude oil in experimental food chains. Whipple, J.A., et al, [1979, p.535-581, eng] **34-17**
Concentration of petroleum residues in the waters and sediments of Baffin Bay and the eastern Canadian Arctic —1977. Levy, E.M., [1979, 34p., eng] **34-321**
Some aspects of weathering and burning crude oil in a water and ice environment. Belicek, J., et al, [1976, 34p., eng] **34-487**
Drilling among the icebergs. Davids, R.C., [1980, p.2-7, eng] **34-2804**
Feasibility of surface detection of oil under ice. Gill, R., [1979, 82p., eng] **34-3011**
Oil production among icebergs is target of pioneering study. [1977, p.24-25, eng] **34-3016**
Oil seep in the Arctic. Mungall, C., [1979, p.2-4, eng] **34-3061**

Crustal structure
See: Earth crust; Tectonics

Cryobiology
Microscopic algae in Davis Sea fast ice. Bulnitskiĭ, V.Kh., et al, [1979, p.126-137, eng] **34-1895**
Microbiological studies of the central antarctic ice sheet. Abyzov, S.S., et al, [1979, p.828-836, rus] **34-2290**
"Arctic" problems in the biology of the White Sea. Khlebovich, V.V., [1979, p.13-15, rus] **34-4218**
Standing crops and species composition of diatoms in sea ice from Robeson Channel to the Gulf of St. Lawrence. Dunbar, M.J., et al, [1980, p.61-72, eng] **34-4243**

Cryogenic processes
See: Geocryology

Cryogenic soils
Cryogenic sediment sampler. Walkotten, W.J., [1977, 4 col., eng] **34-145**
Factors and forms of cryogenesis in soils of Kazakhstan. Gorbunova, I.A., [1978, p.49-53, rus] **34-339**
Soils along the Baykal Amur railroad. Kovalev, R.V., ed, [1979, 304p., rus] **34-433**
Soil classification and land resources of the Irkutsk area. Kolesnichenko, V.T., et al, [1979, p.13-24, rus] **34-435**
Soils in the western section of BAM and prospects for their agricultural development. Kolesnichenko, V.T., [1979, p.24-33, rus] **34-436**
Muysk Basin soils and their agricultural development. Vtorushin, V.A., et al, [1979, p.34-42, rus] **34-437**
Soil resources of BAM zone swamps and their agricultural development. Makeev, O.V., et al, [1979, p.42-49, rus] **34-438**
Soils of the central Selemdzha River area and their economic development. Rybachuk, N.A., et al, [1979, p.49-54, rus] **34-439**
Evaluation and classification of soils in the Zeya-Bureya plain and areas adjacent to the BAM zone. Onishchuk, V.S., [1979, p.54-59, rus] **34-440**
Sod-carbonaceous soils of the Baykal Lake area. Koposov, G.F., [1979, p.60-68, rus] **34-441**
Soil regimes in the Chara River Basin and methods of their interpretation. Shchetnikov, A.I., [1979, p.68-78, rus] **34-442**
Brown taiga soils in the upper part of the Urkan River Basin. Ovchinnikov, S.M., et al, [1979, p.78-89, rus] **34-443**
Natural and economic aspects of protecting Siberian soils from erosion. Orlov, A.D., [1979, p.89-94, rus] **34-444**
Use and protection of lands in the northern Irkutsk region and the BAM zone. Belykh, A.G., et al, [1979, p.95-99, rus] **34-445**
Forecasting water erosion of soils in the western part of the BAM zone (the upper Angara River Basin). Reĭmkhe, V.V., [1979, p.111-118, rus] **34-447**
Specific nature of erosional processes in permafrost areas. Orlov, A.D., et al, [1979, p.118-124, rus] **34-448**
Deflation of Barguzin Basin soils and economic utilization. Namzhilov, N.B., [1979, p.124-130, rus] **34-449**
Fertility of cryogenic meadow-chernozem soils in the Yeravninskaya Basin (Buryat ASSR). Abasheeva, N.E., et al, [1979, p.159-167, rus] **34-451**
Classification of soils in the far northeastern USSR. Ignatenko, I.V., [1979, p.168-176, rus] **34-452**
Soil zones of Central Yakutia. Konorovskiĭ, A.K., [1979, p.176-183, rus] **34-453**
Genetic and agricultural peculiarities of gray non-podzolized cryogenic soils in Transbaikal. Ishigenov, I.A., [1979, p.184-190, rus] **34-454**
Genetic peculiarites of gray forest soils in larch grass forests of the Krasnoyarsk area. Gogolev, I.N., et al, [1979, p.190-201, rus] **34-455**

Soil structure and types of farm lands in the grassy larch forests of the Krasnoyarsk area. Krasekha, E.N., [1979, p.201-210, rus] 34-456

Structure of soils in the steppe geosystems of the Abakan and Yenisey interfluve. Kochurov, B.I., [1979, p.210-217, rus] 34-457

Mountain and forest chernozem-like soils on the eastern slope of Kuznetskiy Alatau. Tanzybaev, M.G., [1979, p.217-224, rus] 34-458

Bioenergetic diagnostics of mountain-forest soils in the Amur River area. Sapozhnikov, A.P., et al, [1979, p.224-230, rus] 34-459

Flood-induced transformations in soils. Seryshev, V.A., et al, [1979, p.237-250, rus] 34-460

Influence of microorganisms on ferrous oxide dynamics in soils of the Angara River area. Influence of microorganisms on ferrous iron dynamics in soils of the Angara River area, [1979, p.260-265, rus] 34-461

Microbiological characteristics of cryogenic sod-podsol soils (Yeravninskaya Basin, Buryat ASSR). Nimaeva, S.Sh., et al, [1979, p.266-274, rus] 34-462

Hydrothermal regime of cryogenic sod-taiga soils (Yeravninskaya Basin, Buryat ASSR). Dugarov, V.I., [1979, p.274-282, rus] 34-463

Seasonal dynamics of thermal conditions and fir growth in the Angara River taiga area. Krauklis, A.A., et al, [1979, p.45-54, rus] 34-674

Structure of radiation and thermal fields in natural West Siberian central taiga geosystems. Trofimova, I.E., [1979, p.101-120, rus] 34-678

Soil forming factors in the Rocky Mountains of Southwestern Alberta, Canada. Howell, J.D. et al, [1978, p.313-324, eng] 34-797

Soil formation in landscapes affected by industrial activities. Trofimov, S.S., ed, [1979, 294p., rus] 34-946

Combined aerial survey of northwestern Siberia. Bogoiavlenskii, B.A., et al, [1979, p.169-192, rus] 34-1074

Problems and results of studying the relief of Siberia and the Far East. Nikolaev, V.A., [1979, p.192-206, rus] 34-1075

Soils of the "Snow Valley" research station (Explanatory note to the soil map). Bogdanov, I.E., et al, [1977, p.35-43, rus] 34-1161

Morphogenetic characteristics of soils in the research station area. Ignatenko, I.V., et al, [1977, p.62-101, rus] 34-1163

Regularities governing the distribution of soils and vegetational covers in southern Transbaikal. Dmitrieva, E.V., [1979, p.427-432, rus] 34-1390

Origin of West Siberian soils containing thick light-color zones. Zonn, S.V., [1979, p.3-10, rus] 34-1438

Microbiological characteristics of cryogenic meadow-chernozem soils in the Eravnin Basin, the Buryat Autonomous Republic. Nimaeva, S.Sh., et al, [1979, p.10-17, rus] 34-1439

Microbiological studies of soils in the Magadan Region. Poliakov, V.A., [1978, p.3-10, rus] 34-1440

Volume weight and thermophysical properties of soils. Makarychev, S.V., et al, [1978, p.10-12, rus] 34-1441

Seasonal activity of invertase in drained peat soils. Efremova, T.T., [1978, p.12-18, rus] 34-1442

Lichen synusia at the upper limit of Anuy Plateau larch forests. Andreev, M.P., [1979, p.646-653, rus] 34-1443

Human activities effect on the Pinus sylvestris (Pinaceae) increment in the Bratsk Region. Lafrand, N.I., et al, [1979, p.1187-1195, rus] 34-1448

Ecologic-cenotic peculiarities of meadow-steppes cryophytes in Central Transbaikal. Dulepova, B.I., et al, [1979, p.1332-1340, rus] 34-1450

Soils and relief in western Greenland. Stäblein, G., [1979, p.232-245, ger] 34-1494

Landscapes affected by industrial activities in permafrost areas of the northern Tyumen' region. Grigor'ev, N.F., [1979, p.35-44, rus] 34-1510

Ground temperature variations during the economic development of the northern Amur River area. Balobaev, V.T., et al, [1979, p.74-88, rus] 34-1514

Changes in moisture and thermal regimes of cryogenic soils in Central Yakutia during agricultural development. Gavril'ev, P.P., [1979, p.130-147, rus] 34-1520

Thermal conductivity of natural and disturbed soils in northwestern Siberia. Mandarov, A.A., et al, [1979, p.153-157, rus] 34-1522

Melioration and regionalization of cryogenic soils in Yakutia. Elovskaia, L.G., et al, [1978, 175p., rus] 34-1648

Soils of northern Yakutia. Elovskaia, L.G., et al, [1979, 303p., rus] 34-1652

Soil cover of the world (Soil-bioclimatic areas of the world and their agro-ecologic characteristics). Rozov, N.N., et al, [1979, 287p., rus] 34-1654

Microbic associations and their functions in West Siberian soils. Klevenskaia, I.L., ed, [1979, 286p., rus] 34-1805

Microbiological processes in southern taiga soils of West Siberia. Naplekova, N.N., et al, [1979, p.3-21, rus] 34-1806

Microbic associations in soils of biogeocenoses of the Baraba Plain. Klevenskaia, I.L., et al, [1979, p.22-60, rus] 34-1807

Nitrogen compound transformations in some Baraba Plain soils. Gantimurova, N.I., [1979, p.60-86, rus] 34-1808

Biochemical productivity in soils of some biogeocenoses in the Baraba Plain, subject to continuous cultivation. Gantimurova, N.I., [1979, p.87-107, rus] 34-1809

Microbiology of Altai Mountain soils. Klevenskaia, I.L., et al, [1979, p.107-153, rus] 34-1810

Effect of development on the biologic activity of chernozems and chernozem-meadow alpine soils of the Altais. Gauert, V.I., [1979, p.154-165, rus] 34-1811

Temperature and humidity effect on biological nitrogen fixation in leached chernozem with different organic additives. Mozzherin, N.M., [1979, p.174-178, rus] 34-1812

Effect of fertilizers on the microflora of gray forest soils in the Altai Mountains. Vyblov, N.F., [1979, p.178-183, rus] 34-1813

Proceedings of the first all-union symposium Biosphere and Man. [1975, 335p., rus] 34-1852

Biologic productivity and chemical element cycles in spruce-green moss central and northern taiga of the Komi Autonomous Soviet Socialist Republic. Zaboeva, I.V., et al, [1975, p.81-82, rus] 34-1853

Biologic productivity and chemical element cycles in spruce-lichens in the central taiga of the Komi ASSR. Rusanova, G.V., et al, [1975, p.83-84, rus] 34-1854

Scientific basis for combined studies of Alpine regions. Nazarov, A.G., [1975, p.98-100, rus] 34-1855

Central taiga soil cover in Eastern Transbaikal. Alifanov, V.M., [1975, p.159-161, rus] 34-1859

Role of mineral fertilizers in the increase of productivity of cryogenic soils in Eastern Transbaikal. Gershevich, E.G., et al, [1975, p.161-162, rus] 34-1860

Role of vegetational cover in the development of cryogenic biogeocenoses. Makeev, O.V., et al, [1975, p.164-165, rus] 34-1861

Geobotanical maps and plant conservation provisions for economically developing areas of Central and Eastern Siberia. Belov, A.V., [1975, p.206-207, rus] 34-1862

Mountain landscape protection in Siberia. Krylov, G.V., ed, [1973, 251p., rus] 34-1863

Scientific and practical significance of studying partial inhomogeneity of mountain taiga soils. Taranov, S.A., [1973, p.59-66, rus] 34-1867

Forest protection in the northern Lake Baykal Basin. Tkachenko, A.I., [1973, p.93-98, rus] 34-1872

Role of mountain forests of eastern Transbaikal and the Lake Baykal problem. Panarin, I.I., [1973, p.98-102, rus] 34-1873

Resistance of some West Siberian forests. Taran, I.V., [1973, p.103-107, rus] 34-1874

Rational use and preservation of Magadan area forests. Snytkin, G.V., [1973, p.119-125, rus] 34-1875

Problems in experimental landscape science. Krauklis, A.A., [1979, 232p., rus] 34-2103

Agricultural development of the Ob'-Irtysh flood plain meadows in northern Tyumen'. Aseeva, A.I., [1978, p.123-127, rus] 34-2251

Soils in pine forests of Karelia. P'iavchenko, N.I., ed, [1978, 141p., rus] 34-2252

Soil formation on sandy deposits in Karelia. Morozova, R.M., [1978, p.4-43, rus] 34-2253

Iron and organic matter migration in sandy podsols. Lazareva, I.P., [1978, p.67-71, rus] 34-2256

Seasonal variations in chemistry of sandy podsols. Kulikova, V.K., [1978, p.71-84, rus] 34-2257

Biological cycle of substances in cowberry and lichen pine forests. Morozova, R.M., [1978, p.85-112, rus] 34-2258

Biogeocenologic studies in planted meadows of East-European tundra. Archegova, I.B., ed, [1979, 190p., rus] 34-2306

Floristic regions of the world. Takhtadzhian, A.L., [1978, 247p., rus] 34-2362

Exogenic relief forming process in the cryolithozone. Sukhodrovskii, V.L., [1979, 280p., rus] 34-2684

Lithodynamics of river deltas in North Siberia. Korotaev, V.N., et al, [1980, p.138-145, rus] 34-2708

Origin and development of the Surgut wooded marshes. Liss, O.L., et al, [1979, p.86-91, rus] 34-2710

Characteristics of soil formation in Siberia. Kovalev, R.V., ed, [1979, 294p., rus] 34-2734

Soil formation under ultracontinental cold arid conditions. Sokolov, I.A., et al, [1979, p.9-13, rus] 34-2735

Comparative characteristics of sod-forest, sod-taiga and brown forest soils of Siberia and the Far East. Gracheva, R.G., et al, [1979, p.14-29, rus] 34-2736

Peculiarities of gley soils in the Yamal-Gydansk tundra. Tonkonogov, V.D., [1979, p.45-52, rus] 34-2737

Quality indices of West Siberian soils. Tiumentsev, N.F., et al, [1979, p.53-60, rus] 34-2738

Origin of second humus zones in sod-podsol soils of West Siberia. Karavaeva, N.A., [1979, p.60-68, rus] 34-2739

Sod-gley soils of West Siberia. Karavaeva, N.A., [1979, p.69-78, rus] 34-2740

Ecologic influence on the formation of complex humus profiles of Siberian southern taiga soils. Nechaeva, E.G., [1979, p.79-87, rus] 34-2741

Physico-chemical properties of humic acids in peats of the northern Trans-Ural areas. Komissarov, I.D., et al, [1979, p.114-121, rus] 34-2742

Sandy soils in the southern Taz River Basin. Ovchinnikov, S.M., [1979, p.172-180, rus] 34-2744

Studying regimes of the Krasnoyarsk forest-steppe soils. Bugakov, P.S., et al, [1979, p.257-267, rus] 34-2745

Geomorphology and construction. Spiridonov, A.I., ed, [1979, 190p., rus] 34-2746

Thixotropic texture of Gydan Peninsula soils. Liverovskii, IU.A., et al, [1980, p.45-54, rus] 34-2761

Geography and origin of soils in the northwestern part of the West Siberian Plain and the adjacent polar Ural foothills. Liverovskaia, I.T., [1980, p.63-84, rus] 34-2762

Vegetation effect on ground temperature in northern West Siberia. Tyrtikov, A.P., [1980, p.112-188, rus] 34-2766

Methods of determining active layer thickness. Vasil'ev, I.S., [1979, p.27-35, rus] 34-2772

Oats in the permafrost zone. Denisov, G.V., [1979, 184p., rus] 34-2901

Thawing of ground under the influence of thermomechanical erosion. Khalikov, G.A., [1979, p.77-78, rus] 34-2935

Cryogenic formations in the Baian-Obo area. Ragcha, T., et al, [1978, p.8-11, rus] 34-2940

Arctic tundras and polar deserts of Taymyr Peninsula. Aleksandrova, V.D., ed, [1979, 206p., rus] 34-3033

Structure of vegetational cover in polar deserts of the Taymyr Peninsula (Cape Chelyuskin). Matveeva, N.V., [1979, p.5-27, rus] 34-3034

Vascular plants of Cape Chelyuskin. Safronova, I.N., [1979, p.50-53, rus] 34-3036

Some chemical properties of Cape Chelyuskin soils. Chugunova, M.V., [1979, p.74-77, rus] 34-3039

Microflora of Arctic tundra soils in the northeastern part of the Taymyr Peninsula. Parinkina, O.M., [1979, p.110-117, rus] 34-3041

Vegetation on specific thermokarst relief in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Sumina, O.I., [1979, p.118-132, rus] 34-3042

Latitudinal variations in the proportions of living vascular plants in Taymyr Peninsula. Polozova, T.G., [1979, p.154-159, rus] 34-3045

Regularities governing zonal distribution of communities in Taymyr Peninsula. Chernov, IU.I., et al, [1979, p.166-200, rus] 34-3047

Peculiarities of land reclamation in West Siberia. Panin, P.S., ed, [1979, 252p., rus] 34-3074

West Siberia as an object of land reclamation. Panin, P.S., et al, [1979, p.3-4, rus] 34-3075

Possible changes in thermal conditions due to land reclamation. Az'muka, T.I., et al, [1979, p.8-25, rus] 34-3076

Lands subject to reclamation in the south of the West Siberian Plain. Uglanov, I.N., [1979, p.25-76, rus] 34-3077

Physical properties of soils and forecasting of their changes in reclaimed lands. Panfilov, V.P., et al, [1979, p.77-101, rus] 34-3078

Forecasting soil erosion development in the agricultural zone of West Siberia. Orlov, A.D., [1979, p.101-113, rus] 34-3079

Regionalization of the southern West Siberian Plain for land reclamation. Uglanov, I.N., et al, [1979, p.116-133, rus] 34-3080

Seasonal moisture exchange dynamics between ground waters and the aeration zone of Kulunda Steppe. Sen'kov, A.A., [1979, p.183-190, rus] 34-3082

Geosystems of the West Sayan foothills. Antipov, A.N., et al, [1979, 319p., rus] 34-3226

Modern trends in design, construction and operation of land reclamation systems under Siberian conditions. Abstracts of papers presented at a seminar. [1978, 292p., rus] 34-3353

Structure of land reclamation complexes of the Baykal Amur railroad area and forecasts of their functioning. Naprasnikov, A.T., [1978, p.39-40, rus] 34-3355

Specifics of soil formation and soils in West Siberia near the Yenisey River. Korsunov, V.M., et al, [1978, p.73-75, rus] 34-3356

Temperature regime of southern chernozems in the Irkutsk region, subject to long seasonal freezing, and their thermal melioration. Karnaukhov, N.I., et al, [1978, p.94-95, rus] 34-3360

Influence of freezing on nutrient content of hydromorphic soils. Rudoi, N.G., et al, [1978, p.148-150, rus] 34-3362

Soil cover of the "Snow Valley" station (Explanatory list with a diagram of soil cover). Bogdanov, I.E., et al, [1980, p.36-47, eng] 34-3398

Geographic studies of soil mantle in the Northern Yenisey River area and the Krasnoyarsk taiga. Korsunov, V.M., et al, [1978, p.5-14, rus] 34-3462

Properties of soils in the autonomous landscapes of forest tundra and northern taiga of the Lower Yenisey River Uplands. Korsunov, V.M., et al, [1978, p.15-26, rus] 34-3463

Oxidation-reduction conditions and acidity of sod-podsols in the Angara River area after forest fires. Popova, E.P., [1978, p.27-32, rus] 34-3464

Dynamics of biological activity in Central Angara soils. Sorokin, N.D., [1978, p.128-139, rus] 34-3466

Structure of taiga soils in the Tomsk area of Priob'e. Geras'ko, L.I., [1978, p.144-148, rus] 34-3605

Cryogenic soils *(cont.)*

Evaluating the possibilities of forecasting swamp transformations due to land reclamation. Galeta, I.F., [1978, p.12-22, rus] **34-3608**

Biomass of microorganisms in the forest-swamp geosystems of southern taiga in the Irtysh River area. Antonenko, A.M., et al, [1978, p.74-80, rus] **34-3611**

Microflora and biological activity of flood-plain soils in the Lower Irtysh River area. Nikitina, V.G. [1978, p.81-88, rus] **34-3612**

Microbiological description of northern taiga bog-podzolic soils. Shamin, A.A., et al, [1979, p.151-156, rus] **34-3639**

Morphogenetic profile analysis as a basis for the reconstruction of soil formation conditions (as exemplified by the permafrost soils of the Nercha Basin). Gugalinskaia, L.A., et al, [1979, p.261-273, eng] **34-3640**

Far North: nature and man. Prospects of economic development. Kriuchkov, V.V., [1979, 127p., rus] **34-3668**

Soil formation on dust loams in the taiga zone of northeastern European USSR. Rusanova, G.V., et al, [1978, 128p., rus] **34-3753**

Mountain forests. Sinitsyn, S.G., et al, [1979, 200p., rus] **34-3754**

Forests of the Lake Baykal area (types of forest, microclimatology, characteristics of forest-forming species). Panarin, I.I., [1979, 263p., rus] **34-3759**

Forest and hydrological regionalization of Central Siberia. Lebedev, A.V., [1979, p.25-58, rus] **34-3770**

Hydrophysical properties of forest litter and its soil-protective role. Krasnoshchekov, IU.N., et al, [1979, p.59-68, rus] **34-3771**

Evaluating soil stability to washout. Kuklin, V.V., et al, [1979, p.79-82, rus] **34-3773**

Regimes of landscape-geochemical processes in geosystems. Snytko, V.A., ed, [1977, 120p., rus] **34-3812**

Dynamics of soil-geochemical indices in taiga permafrost geosystems. Shchetnikov, A.I., [1977, p.43-58, rus] **34-3814**

Dynamics of soil and geochemical indices in central taiga geosystems. Sazonov, A.G., [1977, p.73-84, rus] **34-3816**

Thermal physics of permafrost terrain. Pavlov, A.V., [1980, p.46-61, eng] **34-3831**

Some aspects of the mechanics of frost fracturing of soils in the permafrost zone. Grechishchev, S.E., [1980, p.259-278, eng] **34-3845**

Consequences of using new machines in the north taiga pine forests. Obydennikov, V.I., [1979, p.18-21, rus] **34-3859**

Effectiveness and quality of taiga reforestation. L'vov, P.N., [1979, p.29-30, rus] **34-3860**

Lichen pine forests of the European North. Listov, A.A., [1980, p.22-25, rus] **34-3861**

Change from pine to spruce in the northern European USSR. Melekhov, I.S., et al, [1980, p.42-51, rus] **34-3863**

Geographic peculiarities of metabolism and energy exchange in pine forests of Karelia and Murmansk region. Ziabchenko, S.S., et al, [1980, p.52-60, rus] **34-3864**

Biomass volume and structure in larch forests of the northern Okhotsk Sea region. Moskaliuk, T.A., [1980, p.32-39, rus] **34-3880**

Management of forest resources. Timofeev, N.V., [1979, 144p., rus] **34-4011**

Life in the tundra. Chernov, IU.I., [1980, 236p., rus] **34-4015**

Short review of vegetation in the Baykal-Patomskoe Nagor'ye highlands. Rusiaeva, G.G., [1979, p.110-117, rus] **34-4090**

Ecologic fundamentals of forestry in the Lake Baykal Basin. Polikarpov, N.P., et al, [1979, p.52-57, rus] **34-4093**

Salinity of soils in the Tunguy depression. Borisenko, L.V., et al, [1979, p.34-41, rus] **34-4098**

Recent exogenic processes in the southeastern Lake Baykal area and their influence on hydromeliorative construction. Imetkhenov, A.B., [1979, p.94-104, rus] **34-4100**

Regional geomorphology of newly developed areas. Kibal'chich, O.A., et al, [1979, 120p., rus] **34-4101**

Rational use of natural resources in the Central Lena River area. Gubkin, M.P., et al, [1979, p.10-14, rus] **34-4107**

Botanical objects of environmental protection near the lower Lena River. Trufanova, E.R., [1979, p.20-23, rus] **34-4108**

Reaction of different landscapes to heat producing phenomena in the Oymyakon region. Amuzinskaia, T.P., [1979, p.55-56, rus] **34-4112**

Seasonal variations of soil formation in the Lake Baykal area. Snytko, V.A., et al, [1979, p.36-48, rus] **34-4163**

Problems in rational utilization of natural resources and environmental control in North Siberia. Cherskil, N.V., ed, [1979, 158p., rus] **34-4164**

Siberian forests and their rational development. Isaev, A.S., et al, [1979, p.46-59, rus] **34-4169**

Stability of tundra ecosystems in North Siberia. Bol'shakov, V.N., et al, [1979, p.60-66, rus] **34-4170**

Effect of human activities on the vegetational cover of Taymyr. Shchelkunova, R.P., [1979, p.139-152, rus] **34-4175**

Symposium on biological problems of the North, 8th, Apatity, 1979. Abstracts of the papers [1979, 177p., rus] **34-4213**

Enrichment of cultivated tundra meadow grasses with wild legumes. Kotelina, N.S., et al, [1979, p.37-38, rus] **34-4222**

Types of East Taymyr tundras and their significance as cattle grazing grounds. Rapota, V.V., [1979, p.53-54, rus] **34-4226**

Changes in vegetational cover of Yamal arctic tundras induced by reindeer grazing. Rebristaia, O.V., [1979, p.55-56, rus] **34-4227**

Pollination ecology of Alpine tundra plants on the Kolyma Highlands. Tikhmenev, E.A., [1979, p.57-58, rus] **34-4228**

Studying disturbed soils of reindeer grazing fields in the Messoyakha-Noril'sk pipeline area. Shchelkunova, R.P., et al, [1979, p.66-67, rus] **34-4229**

Ecologic and geographic regularities governing reproduction cycles of pine and fir in the North. Basov, V.A., [1979, p.133-134, rus] **34-4237**

Effectiveness of draining north taiga lands in Komi ASSR. Gortinskii, G.B., et al, [1979, p.137, rus] **34-4238**

Metabolism of north taiga fir growing on drained and fertilized peat soil. Konovalov, V.N., [1979, p.147, rus] **34-4239**

Trends in the reforestation of light coniferous open woodlands in the Far Northeast. Kotlarov, I.I., [1979, p.148-149, rus] **34-4240**

Growing forest cultures beyond the polar circle. Pankratov, E.N., [1979, p.157-158, rus] **34-4241**

Cryogenic structures

Hydrogeological conditions of Yelanskiy artesian basin (Transbaikal). Bakhlov, A.S., [1979, p.53-58, rus] **34-717**

Computer analysis of freezing with water migration in time when the process is formed on snow cover surface. Medvedev, A.V., et al, [1979, p.3-23, rus] **34-1908**

Experimental studies of ice formation fields under nonunivariate frost penetration conditions. Zhestkova, T.N., et al, [1979, p.159-167, rus] **34-1924**

Moisture transfer and ice segregation in the frozen zone of thawing ground. Ershov, E.D., et al, [1979, p.179-192, rus] **34-1926**

Structure and absolute geochronology of alassy deposits in Central Yakutia. Kaiasonov, E.M., ed, [1979, 95p., rus] **34-1931**

Classification of cryogenic structures in the aeration zone of peat deposits. Kmitovenko, A.T., et al, [1979, p.8-11, rus] **34-2131**

Hydrothermal regime of autonomous sandy soils. Erukov, G.V., [1978, p.44-58, rus] **34-2254**

Hot-plate field tests of frozen soils. Chubarova, N.P., et al, [1980, p.228-230, eng] **34-2378**

Exogenic relief forming process in the cryolithozone. Sukhodrovskii, V.L., [1979, 280p., rus] **34-2684**

Ground ice and cryogenic structures of loose deposits in the Muysk Basin. An, V.V., [1979, p.118-129, rus] **34-2783**

Lacustrine deposits on the trap plateau of West Yakutia. Spesivtsev, V.I., [1978, p.37-42, rus] **34-2919**

Authigenic minerals in syngenetically freezing deposits of Central Yakutia. Zigert, Kh.G., [1978, p.50-57, rus] **34-2921**

Loess-ice formation of East Siberia in Late Pleistocene and Holocene. Tomirdiaro, S.V., [1980, 184p., rus] **34-3478**

Results of experimental studies of the freezing process in very fine-grained soils. Zhestkova, T.N., [1980, p.119-136, eng] **34-3836**

Structural interpretation of thawing ground compressibility. Gur'ianov, I.E., [1979, p.65-84, rus] **34-4157**

Cryogenic textures

Thermal properties of selected evacuated powder insulations at cryogenic temperatures. Knight, B.L., [1969, 322p., eng] **34-2069**

Authigenic minerals in syngenetically freezing deposits of Central Yakutia. Zigert, Kh.G., [1978, p.50-57, rus] **34-2921**

Geocryological conditions of a Baykal Amur railroad construction site in the Olongoro River Basin. Sharapov, N.V., [1978, p.79-93, rus] **34-2924**

Cryogenic structure of loose deposits in the southern part of the upper Zeya plain and the Ogoronsk Basin. Misharina, N.K., [1978, p.97-105, rus] **34-2926**

Principles of cryolithological regionalization of the permafrost zone. Vtiurin, B.I., [1980, p.1-9, eng] **34-3233**

Loess-ice formation of East Siberia in Late Pleistocene and Holocene. Tomirdiaro, S.V., [1980, 184p., rus] **34-3478**

Structural interpretation of thawing ground compressibility. Gur'ianov, I.E., [1979, p.65-84, rus] **34-4157**

Cryogenics

Engineering geocryology. Mel'nikov, P.I., ed, [1979, 208p., rus] **34-1533**

Concrete and cryogenics; Part 1. Turner, F.H., [1980, p.39-40, eng] **34-3446**

Optimized linear variable differential transformer displacement transducer for cryogenic use. Sponagle, N.C., et al, [1980, p.759-761, eng] **34-3618**

Cryopedology

See Geocryology

Cryoturbation

Earth hummocks of the Canadian Arctic and Subarctic. Tarnocai, C., et al, [1978, p.581-594, eng] **34-659**

Crystal defects

Nature of strength and deformation properties of argillaceous rocks. Osipov, V.I., [1979, 232p., rus] **34-1237**

Crystal growth

Symmetry as a methodological basis for the analysis of snow structure and metamorphism. Kolomyts, E.G., [1979, p.3-26, rus] **34-606**

Nature of strength and deformation properties of argillaceous rocks. Osipov, V.I., [1979, 232p., rus] **34-1237**

Crystallization of a supercooled liquid in a sound field steady-state dynamics of crystalline-phase nuclei in the liquid. Bulanov, V.A., [1979, p.202-207, eng] **34-1436**

See also Snow crystal growth

Crystallization

See also Recrystallization

Crystallization nuclei

See Ice crystal nuclei

Crystals

High pressure apparatus for PVT measurements of liquids and plastic crystals at low temperature. Landau, R., et al, [1980, p.533-535, eng] **34-3408**

See also Ice crystals

Culverts

Allowing for seismic effects when designing reinforced concrete culverts beneath embankments. Abduzhabarov, A.Kh., [1979, p.43-44, rus] **34-1256**

Naleds and countermeasures. Shushakov, E.V., [1979, 64p., rus] **34-3073**

Ice loads on structures of the Baykal Amur railroad. Korzhavin, K.N., ed, [1977, 121p., rus] **34-3168**

Pressure of naled ice on culvert walls in areas with severe climatic conditions. Ivchenko, A.B., [1977, p.91-100, rus] **34-3177**

Improving the effectiveness of construction of artificial structures along the Tynda-Urgal railroad. Aleksandrov, A.A., et al, [1980, p.10-12, rus] **34-3599**

Currents

See Ocean currents

Cutting

See Ice cutting

Cutting tools

Studying correlation functions of frozen ground cutting stresses. Solomonov, S.A., [1979, p.122-127, rus] **34-809**

Cyclones

See Atmospheric disturbances

Czechoslovakia

—Beskids

Hydrologic effectiveness of continuous snow cover in the Moravian-Silesian Beskids. Lednicky, V., et al, [1979, p.261-268, rus] **34-2300**

—Tatra Mountains

Hoarfrost-ice deposits in West Carpathian Uplands. Ostrožlík, M., [1979, p.363-371, rus] **34-2305**

Damage

Environmental model for predicting impacts from deicing salts. Thuet, J.H., [1979, p.61-65, eng] **34-60**

Guide to the effects of underwater shock waves on Arctic marine mammals and fish. Hill, S.H., [1978, 50p., eng] **34-369**

Arctic winter test and evaluation, late winter stage, Kenworth truck Model 953A. [1972, var. p., eng] **34-51.**

Avalanches of the USSR and their influence on the formation of natural territory complexes. Akif'eva, K.V., et al, [1978, p.223-233, eng] **34-792**

Huge avalanche near Bucheben, Austria. Tollner, H., [1970, p.51-53, ger] **34-1667**

Accidents and damage caused by avalanches. Schild, M., et al, [1979, p.89-152, ger] **34-1707**

Distribution of snow and damages by snow in an afforestation area in the subalpine zone at the "Sonnberg" near Haggen/Tyrol. Stern, R., [1979, p.145-154, eng] **34-1786**

Deformation and damage to forest plants by snow forces. Wakabayashi, R., [1979, p.205-209, eng] **34-1789**

Assessment and analysis of snow breakage in fir trees in the Pfalz Forest, 1968 and 1975. Lessel, A., [1979, p.211-215, ger] **34-1790**

Forest and avalanches. De Quervain, M., [1979, p.219-239, ger] **34-1791**

Avalanche frequency and risk estimation in forest sites. Föhn, P.M.B., [1979, p.241-254, eng] **34-1792**

Studies of the destruction mechanism at freezing of porous materials. Fagerlund, G., [1979, p.167-196, eng] **34-2324**

What do we know about freezing of concrete. Venuat, M., [1979, p.251-260, fre] **34-2329**

Physical mechanism of freezing in rocks. Aguirre-Puente, J., [1979, p.271-284, fre] **34-2331**

Effect of third generation tire studs on pavement wear reduction, 1977-1979; report of test results on wear from various tire-stud combinations. Cook, J.C., [1979, 88p., eng] 34-2432

Use of exchange plastics for the protection and repair of concrete bridge pavements exposed to salting. Schröder, M., [1980, p.23-24, 26-27, ger] 34-2492

Investigation into outages of electric power supply as the result of ice storms. [1979, 51p. + 16p. appends., eng] 34-2505

Destructive a[illegible] in Japan (No.1)—of Yamagata-ken (1929-197[illegible]-ken (1945-1974) and a whole country (1927 [illegible] 1979, p.1-92, jap] 34-2556

Undersea pipelines [illegible] ables in polar waters. Mellor, M., [1978, 34p., [illegible] 34-3448

Railroad track maintenance under northern conditions. Buzunov, Z.T., [1979, p.50-62, rus] 34-3776

Dams

Layer-by-layer concreting in dam construction under severe climatic condition. Kogan, E.A., et al, [1979, p.34-36, rus] 34-197

Boguchany hydroelectric plant. Blond, E.A., et al, [1978, p.1071-1077, eng] 34-323

Analysis of soil state in the core of the Ust-Khantaika hydroelectric plant dam. Kronik, IA.A., et al, [1978, p.1105-1112, eng] 34-325

Approximate thermal stress analysis of a concrete structure, erected block-by-block, allowing for concrete creep. Pliat, Sh.N., et al, [1978, p.64-69, rus] 34-468

Approximate determination of stress relaxation coefficients in thermal creep problems. Tsybin, A.M., et al, [1978, p.73-76, rus] 34-[illegible]

Studying stability of the algorithm of a mixed variational-pivotal method in designing arch da[illegible] temperature effects. Verkhovykh, A.A., [19[illegible] p.113-116, rus] 34-[illegible]

Hydrothermal method of cementing cold joints [illegible] dams. Tetel'min, V.V., et al, [1979, p.21-23, [illegible] 34-1151

Allowable fracturation of large gravity dams in severe climates. Vasil'ev, P.I., et al, [1979, p.32-33, rus] 34-1152

Improving the organization of concrete work performed during construction of the Sayano-Sushenskoe hydroelectric plant. Zinchenko, N.A., et al, [1979, p.114-120, eng] 34-1392

Microclimate of the Vilyuy reservoir in the area adjacent to the dam. Olovin, B.A., [1979, p.124-129, rus] 34-1519

Mathematical modeling of thermal stresses in concrete structures on rock foundations. Rukavishnikova, T.N., et al, [1979, p.56-66, rus] 34-1525

Increasing the reliability of waterproof asphalt facings for concrete dams. Davidenko, V.M., et al, [1979, p.23-29, rus] 34-1528

Significance of the Kislogubsk tidal power plant for hydraulic construction and power engineering. Bernshtein, L.B., et al, [1980, p.64-67, rus] 34-2578

Building new types of concrete dams under northern conditions. Kudoiarov, L.I., [1980, p.67-69, rus] 34-2579

Hydroelectric power generation in Siberia and the Far East. Neporozhnii, P.S., [1979, 151p., rus] 34-2600

Collection No.1 of unified regional individual estimates for construction. Earthwork. [1977, 247p. (Pertinent p.200-246), rus] 34-2868

New glaciers on the Tel'pos-iz range. Dolgushin, L.D., et al, [1979, p.214-218, rus] 34-3143

Mudflow outbursts of the Kakhab-Roson morainic lake in Dagestan. Poznanin, V.L., [1979, p.218-223, rus] 34-3144

Ice loads on structures of the Baykal Amur railroad. Korzhavin, K.N., ed, [1977, 121p., rus] 34-3168

Experience of using an ice protection dam in the lower course of the Yenisey River. Samochkin, V.M., et al, [1977, p.51-55, rus] 34-3174

Characteristics of the construction of frozen dams in Western Yakutia. Biianov, G.F., et al, [1980, p.213-226, eng] 34-3247

Modern trends in design, construction and operation of land reclamation systems under Siberian conditions. Abstracts of papers presented at a seminar. [1978, 292p., rus] 34-3353

Deformation of hydraulic structures of land reclamation systems in Central Yakutia. Seliverstov, A.P., [1978, p.7-10, rus] 34-3354

Passage of ice during construction of the Sayano-Shushenskoe hydroelectric station. Koren'kov, V.A., [1980, p.777-781, eng] 34-3376

Investigation of construction-joint grouting techniques under field conditions. Zhivoderov, V.N., et al, [1980, p.872-879, eng] 34-3377

Calculating temperature field of block-by-block upbuilt concrete structures using Laplace numerical conversion technique. Zubkov, V.I., [1980, p.92-97, rus] 34-4140

See also: Earth dams; Ice dams

Data processing

Primary data collected for the 1977 Davis Strait biological programme and analysed prior to December 1977. [1977, 2 vols., eng] 34-492

Maintenance organization and operation. Lekeux, L., [1979, p.56-59, fre] 34-1247

Ice thickness and stratigraphy at nearshore locations on the Great Lakes (metric units). Sleator, F.E., [1978, 440p., eng] 34-1460

Methods of determining and presenting climatological data for structural design. Kobysheva, N.V., et al, [1979, p.3-8, rus] 34-1815

Using climatic data in structural design. Kobysheva, N.V., et al, [1979, p.9-16, rus] 34-1816

Inventory of snow cover and sea ice data. Crane, R.G., comp., [1979, 171p., eng] 34-2136

Marine seismic refraction data between Wainwright Inlet and Prudhoe Bay, Alaska. Bee, M., et al, [1979, 120p., eng] 34-2486

Environmental assessment of the Alaskan continental shelf, Vol.10, Hazards, Data management. [1979, 517p., eng] 34-3058

Avalanche cadasters for Dagestan and Transcaucasia. Abshelishvili, K.L., et al, [1980, p.94-97, rus] 34-3424

Development of data recorder for cold condition. Oi, M., et al, [1979, p.189-191, jap] 34-3506

Space-time variations of snow density on fields in the European USSR. Shurupova, A.I., [1980, p.102-107, rus] 34-3553

Method of predicting snow avalanches by means of image recognition programs. Knomeniuk, IU.V., [1978, p.67-73, eng] 34-3967

Ice cores. MacKinnon, P.K., comp., [1980, 139p., eng] 34-4020

Status and future of ice core data. Barry, R.G., et al, [1980, p.1-4, eng] 34-4021

Workshop on the Status and Future of Ice Core Research and Ice Core Data (Boulder, Colorado, 24-26 September 1979). [1980, p.5-14, eng] 34-4022

e core information storage and exchange system. Thompson, J.M., et al, [1980, p.59-63, eng] 34-4024

[illegible]tional Environmental Satellite Service catalog of products, third edition. Dismachek, D.C., comp, [1980, 120p., eng] 34-4255

Data transmission

Application of meteor burst telemetry to snow hydrology. Burroughs, H.F., et al, [1979, p.27-37, eng] 34-1053

Dating

See: Age determination

Davis Strait

Report on strength and deformation characteristics of sea-bed samples from Davis Strait. [1978, 28p. + appends., eng] 34-313

Davis Strait surface drifter buoys program 1977. Metge, M., [1978, 69p., eng] 34-317

Davis Strait wave climate study using the 1970 through 1977 meteorological and oceanographic centre synoptic significant wave charts. McKay, W.N., [1978, 260p., eng] 34-318

Biological studies, offshore cruises 77-2 and 77-3, April-June, 1977 in the Davis Strait. [1978, var. p., eng] 34-428

Revised biological literature review of the Davis Strait region. [1978, var.p., eng] 34-497

Drilling among the icebergs. Davids, R.C., [1980, p.2-7, eng] 34-2804

East coast mooring program, analytical phase, Vols.1 and 2. [1976, 85p. + 6 appends., eng] 34-3109

Deep sea dispersion analyses. [1977, 23p., eng] 34-3113

Some iceberg statistics for the Davis Strait. Trofimenkoff, P.N., [1978, 43p., eng] 34-3114

Dead glaciers

Dynamics of natural processes in highlands. Maksimov, E.V., ed, [1977, 131p., rus] 34-1093

Buried glaciers and their origin. Maksimov, E.V., [1977, p.84-92, rus] 34-1096

Decomposition

Decomposition models based on climatic variables, substrate variables, microbial respiration and production. Flanagan, P.W., et al, [1976, p.437-457, eng] 34-2006

Decomposition of plant litter and cellulose in the tundras of the Taymyr Peninsula. Parinkina, O.M., [1979, p.676-684, eng] 34-2484

Deforestation of reservoirs. Marcotte, H., et al, [1979, p.15-17, fre] 34-3063

Decontamination

Activities of military units in winter. Shubin, B., et al, [1979, p.77-80, rus] 34-256

See also: Disinfectants

Defects

Measurement of the intrinsic thermal expansion of irradiation defects in aluminum at low temperature. Ganne, J.P., et al, [1979, p.634-636, eng] 34-272

See also: Crystal defects

Deflation

See: Wind erosion

Deflectors

Snow blowing devices. Amelin, S.V., et al, [1979, p.22-23, rus] 34-2123

Deformation

Introduction to the problem of cracks, movements and joints in buildings. Baker, M.C., [1976, 8p., eng] 34-153

Stress-strain relationships. Hutcheon, N.B., [1976, 10p., eng] 34-154

Dimensional changes due to temperature. Latta, J.K., [1976, 12p., eng] 34-155

Dimensional changes due to moisture. Handegord, G.O., [1976, 7p., eng] 34-156

Building deformations—deflection. Plewes, W.G., [1976, 11p., eng] 34-157

Building deformations—vertical movements. Plewes, W.G., [1976, 9p., eng] 34-158

Deformation due to foundation movements. Crawford, C.B., [1976, 7p., eng] 34-159

Accommodation of potential movements. Latta, J.K., [1976, 9p., eng] 34-160

Inaccuracies in construction. Latta, J.K., [1976, 4p., eng] 34-163

Flow of ice over a till bed. Jones, A.S., [1979, p.393-395, eng] 34-553

Expansion joints in highway bridges. Shesterikov, V.I., [1978, 151p., rus] 34-886

Regularities of the deformation of swelling soils with time. Meschian, S.R., et al, [1979, p.37-44, eng] 34-982

Interaction of permafrost and structures. Vialov, S.S., [1979, p.117-136, eng] 34-1683

Distribution of snow and damages by snow in an afforestation area in the subalpine zone at the "Sonnberg" near Haggen/Tyrol. Stern, R., [1979, p.145-154, eng] 34-1786

Snow forces on forest plants. Salm, B., [1979, p.157-181, eng] 34-1787

Bending of young larch stems due to snow pressure. Frey, W., [1979, p.183-203, ger] 34-1788

Deformation and damage to forest plants by snow forces. Wakabayashi, R., [1979, p.205-209, eng] 34-1789

Forest and avalanches. De Quervain, M., [1979, p.219-239, ger] 34-1791

Experimental investigation of the stress-strain state of loess soils in the base of rigid plates. Tsytovich, N.A., et al, [1979, p.140-145, eng] 34-2018

Mechanical properties of metals depending on temperature and deformation rates. Chaplinskii, I.A., et al, [1979, p.31-35, rus] 34-2617

Stability of temperate ice caps and ice sheets resting on beds of deformable sediment. Boulton, G.S., et al, [1979, p.29-43, eng] 34-2814

Deformation of ice-wedge polygons, Garry Island, Northwest Territories. Mackay, J.R., [1980, p.287-291, eng] 34-2990

Proceedings of the All-Union symposium on the rheology of soils, 2nd, Tsakhkadzor, Oct. 7-10, 1975. [1976, 406p., rus] 34-3203

Creep as reflected in the numerical calculation of the stress-strain state of foundations. Kryzhanovskii, A.L., et al, [1976, p.220-227, rus] 34-3210

Interaction between permafrost and buildings. Vialov, S.S., [1980, p.379-406, eng] 34-3258

Studying deformation of frozen peat and grounds under pressure of dies. Zelinger, F.F., et al, [1980, p.48-52, rus] 34-3592

Improving the design of structures built in complex ground conditions. Meteliuk, N.S., [1980, 143p., rus] 34-3823

Quantitative evaluation of heaving intensity in thawing water-saturated grounds. Ershov, E.D., et al, [1980, p.59-66, rus] 34-4122

See also: Ice deformation; Plastic deformation; Snow deformation; Soil deformation

Degradation

Degradation of oil by yeast and filamentous fungi in Arctic environments. Crow, S.A., et al, [1979, 13p., eng] 34-2281

Degradation of compound valley glaciers in the Caucasus in the 20th century. Panov, V.D., [1979, p.132-138, rus] 34-3128

Degree days

Winter road preparation and commencement of traffic in the Mackenzie Delta. [1972, 20p., eng] 34-292

Deltas

Modeling lake landscapes of the Selenga River delta, its dynamics and development. Bogoiavlenskii, B.A., [1979, p.105-128, rus] 34-1071

Hydrogeological conditions of paluded lands in the Ust'-Selenga trough. Adushinov, A.A., [1976, p.27-35, rus] 34-2053

Lithodynamics of river deltas in North Siberia. Korotaev, V.N., et al, [1980, p.138-145, rus] 34-2708

Morphology and temperature of recent perennially frozen rocks in the shore and shallow-water areas of northern Yenisey and Pyasina rivers. Karpov, E.G., [1978, p.105-114, rus] 34-2927

Denmark

—Faroe Islands

Environmental radioactivity in the Faroes in 1977. Aarkrog, A., et al, [1978, 27p., eng] 34-787

Density (mass/volume)

Determining density of circulating fluids for wells without casings in unstable permafrost. Abdullaev, T.B., [1978, p.21-24, rus] 34-253

Regularities of the deformation of swelling soils with time. Meschian, S.R., et al, [1979, p.37-44, eng] 34-982

Grain density of till: a potential parameter for the study of glacial transport. Puranen, R. et al, [1979, 32p., eng] 34-1378

Instruments for determining soil density and moisture content. Gorelik, A.M., et al, [1980, p.8-9, rus] 34-2851

Density (mass/volume) *(cont.)*
Radioactive isotope technique of studying density and moisture content of landslide slopes. Kornienko, N.D., et al, [1979, p.112-116, rus] 34-2972
Radioactive isotope techniques in controlling quality of work and investigations when building foundations and underground structures. Smorodinov, M.I., [1980, 168p., rus] 34-3866
Thermal conductivity of frozen and thawed sands, depending on density and moisture content. Ananian, A.A., et al, [1980, p.195-200, rus] 34-4135
See also: Ice density; Snow density

Density (number/volume)
Preliminary measurements of snow concentration. Stallabrass, J.R., [1972, 48 leaves, eng] 34-2400
See also: Particle size distribution

Deposits
See: Glacial deposits; Lacustrine deposits; Marine deposits; Quaternary deposits

Depth
See: Snow depth; Water depth

Depth hoar
Symmetry as a methodological basis for the analysis of snow structure and metamorphism. Kolomyts, E.G., [1979, p.3-26, rus] 34-606
Alaskan snow cover. Benson, C.S., [1979, p.19-25, eng] 34-1409

Desalting
Study of the vacuum-freezing high pressure ice-melting process. Cheng, C.Y., [1979, 70p., eng] 34-1142
Design and specification bid package for a 2,500 gpd eutectic freezing pilot plant. [1979, 167p., eng] 34-1574
Desalination of brackish water by spray freezing; progress report 1978-79. Spyker, J.W., [1980, 116p., eng] 34-3673

Desert soils
Microflora in polar desert soils of Cape Chelyuskin. Parinkina, O.M., [1979, p.28-34, rus] 34-3035

Deserts
Arctic tundras and polar deserts of Taymyr Peninsula. Aleksandrova, V.D., ed, [1979, 206p., rus] 34-3033
Structure of vegetational cover in polar deserts of the Taymyr Peninsula (Cape Chelyuskin). Matveeva, N.V., [1979, p.5-27, rus] 34-3034
Vascular plants of Cape Chelyuskin. Safronova, I.N., [1979, p.50-53, rus] 34-3036
Musci and Hepaticae of Cape Chelyuskin. Blagodatskikh, L.S., et al, [1979, p.54-60, rus] 34-3037
Ground lichens of Cape Chelyuskin. Pitn, T.Kh., [1979, p.61-73, rus] 34-3038
Vegetation in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Matveeva, N.V., [1979, p.78-109, rus] 34-3040
Musci and Hepaticae in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Blagodatskikh, L.S., et al, [1979, p.133-139, rus] 34-3043
Latitudinal variations in the proportions of living vascular plants in Taymyr Peninsula. Polozova, T.G., [1979, p.154-159, rus] 34-3045
Regularities governing zonal distribution of communities in Taymyr Peninsula. Chernov, Iu.I., et al, [1979, p.166-200, rus] 34-3047
Possible changes in thermal conditions due to land reclamation. Az'muka, T.I., et al, [1979, p.8-25, rus] 34-3076
Regionalization of the southern West Siberian Plain for land reclamation. Uglanov, I.N., et al, [1979, p.116-133, rus] 34-3080
Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p. (Pertinent p.230-344), rus] 34-3600
Dynamics of vegetational cover and the development of cryogenic relief forms. Tyrtikov, A.P., [1979, 116p., rus] 34-4010
Discovery of the Tanymas country. Gorbunov, A., [1979, p.97-102, rus] 34-4139

Design
Winter service; its influence on road planning. Pigois, M.L., [1977, p.46-48, fre] 34-516
General and applied climatology. Kobysheva, N.V., ed, [1979, 104p., rus] 34-1814
Methods of determining and presenting climatological data for structural design. Kobysheva, N.V., et al, [1979, p.3-8, rus] 34-1815
Using climatic data in structural design. Kobysheva, N.V., et al, [1979, p.9-16, rus] 34-1816
Roof snow loads in Canada. Taylor, D.A., [1980, p.1-18, eng] 34-2873
Design of casing programs. Bulatov, A.I., et al, [1979, 280p. (Pertinent p.85-91, 135-141), rus] 34-3070
Design of roads and railroads on natural bases in the southern permafrost distribution zone. Potatueva, T.V., [1980, p.84-90, rus] 34-3291
Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p. (Pertinent p.230-344), rus] 34-3600
Offshore pipelines in the Arctic. [1980, p.20-24, eng] 34-3989
Snowplowable raised reflective pavement markers at hazardous locations in New Jersey. Graf, C.R., et al, [1979, 55p., eng] 34-4077

Design criteria
Oceanographic design criteria. Heideman, J.C., [1979, 10p. + 4 tables + 17 slides, eng] 34-1589
See also: Building codes

Detection
Feasibility of surface detection of oil under ice. Gill, R., [1979, 82p., eng] 34-3011
CRREL roof moisture survey, Pease AFB buildings 35, 63, 93, 112, 113, 120 and 220. Korhonen, C., et al, [1980, 31p., eng] 34-3335
See also: Ice detection

Deterioration
See: Ice deterioration

Detonation waves
Rock blasting under complex hydrogeological conditions. Mets, IU.S., [1979, 109p., rus] 34-1189
Methods and results of artificial avalanche triggering in the El'brus Mountain area. Bolov, V.R., et al, [1980, p.43-46, rus] 34-3416
Densification of soils prone to slump-type settlement by the gas-detonation method. Martem'ianov, A.I., et al, [1980, p.316-320, eng] 34-3933

Deuterium oxide
See: Heavy water

Deuterium oxide ice
Dielectric properties of heavy ice Ih (D2O ice). Kawada, S., [1979, p.1850-1856, eng] 34-2526

Diamond bits
Results of testing new diamond drilling bits in Southern Yakutia. Antipin, I.N., et al, [1975, p.37-40, rus] 34-219

Dielectric properties
Electrical properties of ice-solid interfaces. Camp, P.R., et al, [1979, p.35-43, eng] 34-56
Mixing formulas for determining the free water content of wet snow from measurements of the dielectric constant. Denoth, A., et al, [1978, p.73-80, eng] 34-666
Dielectric properties of polymer materials in different climatic conditions. Filatov, I.S., [1979, 129p., rus] 34-749
Anisotropic properties of sea ice in the 50- to 150-MHz range. Kovacs, A., et al, [1979, p.5749-5759, eng] 34-963
Microwave measurements of snow stratigraphy and water equivalence. Boyne, H.S., et al, [1979, p.20-26, eng] 34-1052
Feasibility of surface detection of oil under ice. Gill, R., [1979, 82p., eng] 34-3011
Backscatter and emission of snow: literature review and recommendations for future investigations. Ulaby, F.T., et al, [1978, 138p., eng] 34-3319
Electron microscope studies of low temperature ice modification. Girs, S.P., et al, [1979, p.63-67, rus] 34-3572
Pendular-funicular liquid transition in snow. Denoth, A., [1980, p.93-97, eng] 34-3801
Permittivity of ice and water at millimeter wavelengths. Blue, M.D., [1980, p.1101-1106, eng] 34-4074

Diesel engines
On propulsion of icebreakers. Airaksinen, K., et al, [1976, p.194-202, eng] 34-1293

Diffusion
See: Ion diffusion; Thermal diffusion; Turbulent diffusion; Vapor diffusion

Dirigibles
Using dirigibles in Yakutia. Belinskiĭ, B.V., [1979, p.13-14, rus] 34-2085
Dirigibles for natural gas transportation. Nogovitsyn, V.V., et al, [1979, p.14, rus] 34-2086
Using balloons and dirigibles in construction. Spasskiĭ, D.S., [1979, p.29, rus] 34-2094

Discontinuous permafrost
Seasonal freezing effect on hydrogeological conditions of the Chul'man Basin. Buldovich, S.N., [1979, p.60-67 rus] 34-1394
Growth and decay of palsas and peat plateaus in the Macmillan Pass—Tsichu River area, Northwest Territories, Canada. Kershaw, G.P., et al, [1979, p.1362-1373, eng] 34-1453
Evolution of permafrost in the taiga and in the forest-tundra, western Quebec-Labrador Peninsula. Payette, S., et al, [1976, p.203-220, eng] 34-1643
Vegetation and revegetation within permafrost terrain. Bliss, L.C., [1979, p.31-50, eng] 34-1681
Noncoalescing perennially frozen rocks in the polar part of West Siberia. Gruzdov, A.V., [1980, p.97-101, rus] 34-2764
Lands subject to reclamation in the south of the West Siberian Plain. Uglanov, I.N., [1979, p.25-76, rus] 34-3077
Regionalization of the southern West Siberian Plain for land reclamation. Uglanov, I.N., et al, [1979, p.116-133, rus] 34-3080
Structure of land reclamation complexes of the Baykal Amur railroad area and forecasts of their functioning. Naprasnikov, A.T., [1978, p.39-40, rus] 34-3355
Permafrost in the mountains of Central Asia. Gorbunov, A.P., [1980, p.257-369, eng] 34-3851
Stratigraphy of a silt-cored palsa, Atlin region, British Columbia, Canada. Seppälä, M., [1980, p.357-365, eng] 34-3872
See also: Taliks

Disinfectants
Overview of the problems of disinfection. Chambers, C.W., [1974, p.423-437, eng] 34-1484
Chlorine disinfection of treated wastewater. Gordon, R.C., et al, [1974, p.438-481, eng] 34-1485
Lime disinfection of sewage bacteria at low temperature. Morrison, S.M., et al, [1974, p.482-506, eng] 34-1486
Ozone disinfection of wastewaters at low temperatures. Kinman, R.N., [1974, p.507-522, eng] 34-1487
See also: Decontamination

Dislocations (materials)
Charged dislocation in ice: 1. Existence and charge density measurement by X-ray topography. Itagaki, K., [1978, 12p., eng] 34-1608
Formation of edge dislocation dipoles in ice single crystals by heat treatment. Oguro, M., et al, [1979, p.1897-1907, eng] 34-1613

Disposal
See: Waste disposal

Distribution
Davis Strait aerial survey 77-1. [1977, 14p + figs. and tables, eng] 34-425
On the size distribution of Antarctic icebergs. Neshyba, S., [1980, p.241-248, eng] 34-2446
Ice nucleus and aerosol measurements in the plume of the Johnstown, Pa., steel mill. Schnell, R.C., et al, [1980, p.397-400, eng] 34-3779

Docks
Water area drift ice protection device. Ivanov, L.V., et al, [1976, 4 col., rus] 34-1223
Docks can be used in winter. Shirokikh, V., [1979, p.34, rus] 34-2122
Winter operation of water navigation objects. Ivanov, L.V., [1978, 211p., rus] 34-2686
See also: Piers

Domes (ice)
See: Pingos

Doors
Heat loss through open doors. Johnson, P., [1978, p.4-8, eng] 34-868

Doped ice
Mechanical properties of impure ice single crystals at high temperatures. Nakamura, T., [1979, p.293-324, jap] 34-2542
Chemical survey to determine potential dopants for a model ice test basin. Timco, G.W., [1979, 22p., eng] 34-3718
Dynamic behaviour of dislocations in HF-doped ice Ih. Perez, J., et al, [1980, p.133-149, eng] 34-3805
Polarization processes in the ice lattice. 1. Approach by thermodynamics of irreversible processes. New experimental verification by means of a universal relation. Hubmann, M., [1979, p.127-139, eng] 34-4001

Drainage
Accuracy of using floats in measuring water discharge of small mountain rivers. Chirkova, A.A., et al, [1973, p.115-128, rus] 34-111
Drainage network analysis of a subarctic watershed: Caribou-Poker Creeks research watershed, interior Alaska. Bredthauer, S.R., et al, [1979, 9p., eng] 34-137
Natural reforestation of conifers on dried areas of northern taiga in the Arkhangel'sk region. Fekhstov, P.A., et al, [1979, p.9-12, rus] 34-251
Structural-statistical regularities governing runoff variations along the eastern section of the Baykal Amur railroad. Lobanova, N.I., et al, [1977, p.77-85, rus] 34-354
Reference basin method of evaluating calculated maximum river discharge in the eastern section of the Baykal Amur railroad. Ponomareva, T.G., [1977, p.123-130, rus] 34-355
Calculating moisture content of unsaturated zones when draining peat bogs. Kovalenko, N.P., et al, [1979, p.51-55, rus] 34-523
Reliability of experimental determination of basic hydrologic characteristics of swamps. Baliasova, E.L., [1979, p.96-109, rus] 34-833
History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, [1979, 215p., rus] 34-1067
Spring runoff from small drainage basins of the Dubovskaya hydrometeorological station. Bystrov, A.V., [1979, p.26-38, rus] 34-1078
Study of water drainage from columns of snow. Denoth, A., et al, [1979, 19p., eng] 34-1108
Soils of the East European tundra and forest tundra. Ignatenko, I.V., [1979, 280p., rus] 34-1649
Hydrophysical properties of peat soils. Bondarenko, N.F., et al, [1979, 160p., rus] 34-1651
Changes in the runoff from reclaimed marshlands in South Karelia. Nesterenko, I.M., et al, [1975, p.127-128, rus] 34-1857
Reclamation impact on northern peat soils. Nesterenko, I.M., [1975, p.129-130, rus] 34-1858
Control of blasting effects on rocks and grounds. Vovk, A.A., ed, [1979, 224p., rus] 34-2307
Studying physical and mechanical properties of seasonally frozen grounds subject to blasting, for the construction of land reclamation objects. Vorob'ev, V.D., et al, [1979, p.132-138, rus] 34-2309

Effectiveness of slotted blasting charges used in building channels in seasonally frozen grounds. Frash, G.B., et al, [1979, p.138-142, rus] 34-2310
Local conditions and frost penetration depth. Recordon, E., [1972, p.378-383, ger] 34-2395
Drainage network analysis of a subarctic watershed. Bredthauer, S., et al, [1979, p.349-359, eng] 34-2434
Effects of swamp drainage, afforestation and nutrients on the dynamics of chemical composition of soil solutions. Melent'eva, N.V., [1978, p.131-135, rus] 34-2524
Peculiarities of road maintenance in East Siberia and the Far East. Nikitin, G.G., [1980, p 19-20, rus] 34-2802
Observations on the subsidence of drained peat soils under grassland culture in Newfoundland. Rayment, A.F., et al, [1978, p.37-48, eng] 34-2908
Deformation of hydraulic structures of land reclamation systems in Central Yakutia. Seliverstov, A.P., [1978, p.7-10, rus] 34-3354
Water conduit earth structures of land reclamation systems in Central Yakutia. Krasnov, IU.N., et al, [1978, p.82-84, rus] 34-3358
Preconstruction consolidation of bases with vertical drains. Bel'skiĭ, A.I., et al, [1980, p.266-272, eng] 34-3371
Experience with the drying of loess soils using radial horizontal holes. Anpilov, V.E., et al, [1980, p.674-677, eng] 34-3374
Discharge of the Kaiartasu and Sakashilsu rivers during the warm season. Samukashvili, R.D., [1980, p.130-136, rus] 34-3428
Lake and its drainage area as a single natural system. Drabkova, V.G., et al, [1979, 194[illegible], rus] 34-3480
Construction of urban roads under northern conditions. Galuzin, V.M., ed, [1980, [illegible] rus] 34-3762
Hydroclimatic influence of forests. Protopopov, V.V., ed, [1979, 144p., rus] 34-3768
Hydromelioration of lands in the Buryat ASSR. Borisenko, I.M., ed, [1979, 110p., rus] 34-4095
Hydrogeologic and land reclamation conditions of the Khotay swamp in the Barguzin depression. Zamana, L.V., [1979, p.24-33, rus] 34-4097
Composition and structure of vegetation in ridge-pool swamps. Boch, M.S., et al, [1980, p.22-30, rus] 34-4144
Effectiveness of draining north taiga lands in Komi ASSR. Gortinskiĭ, G.B., et al, [1979, p.137, rus] 34-4238
More precise definitions and additions to the "Instructions for determination of the SN 435-72 design hydrologic characteristics" (Discussion of Construction Norms). Kagan, B.IA., [1979, p.1223-1226, rus] 34-4253
See also: Subglacial drainage; Subsurface drainage; Surface drainage

Dredging

Experience with design and operation of bucket dredges for excavating sand-gravel-boulder soils. Freidin, V.M., [1978, p.1123-1126, eng] 34-326
Using suction dredges with an ejection device. Mishina, L.V., et al, [1979, p.17-18, rus] 34-330
Hydraulic dredging in freezing weather. Popov, IU.A., et al, [1979, 184p., rus] 34-580
Productivity of soils in meadow biogeocenoses of recultivated dredging areas in the Central Urals. Nakariakov, A.V., et al, [1979, p.106-123, rus] 34-950
Utilizing water reservoir heat for sustaining ice-free areas around dredges. Roshchupkin, D.V., et al, [1979, p.15-17, rus] 34-1251
Technology and ecological consequences of dredging. Domenik, O.P., et al, [1979, p.113-117, rus] 34-1517
Hydromechanization of earthwork in West Siberia. Vavilov, N.G., [1979, p.4-6, rus] 34-1714
Hydraulic method of sanding peat soils. Lazarev, I.V., et al, [1979, p.21-23, rus] 34-1949
Construction of underwater crossings of main pipelines. [1970, 36p., rus] 34-2866
Calculating nonstationary temperature and moisture regimes of washed-up earth structures in a thawed state. Popov, IU.A., et al, [1980, p.94-101, rus] 34-3167

Drift

Ice drift in the presence of ice hummocks. Gorbunov, IU.A., et al, [1979, 15p., eng] 34-133
Landfast ice movement—Mackenzie delta 1973-74. Spedding, L.G., [1975, 127p. + figs., eng] 34-297
Some sea ice cover statistics for the Canadian east coast. Fraser, J.E., [1975, 28p., eng] 34-316
Canadian Arctic field survey, May 17-June 23, 1969. Atwater, R.K., et al, [1969, 35p. + appends., eng] 34-322
Natural conditions and resources of northern seas. Zhevnovatyĭ, V.T., ed, [1977, 119p., rus] 34-556
Boundaries of ice and iceberg distribution in the North Atlantic Ocean. Kogan, B.A., et al, [1977, p.74-82, rus] 34-357
Using the "Toros" side-looking radar in studying ice drift in the southeastern Barents Sea. Zubakin, G.K., et al, [1977, p.83-89, rus] 34-358
Calculating basic components of ice balance in the Denmark Strait. Antropova, L.V., et al, [1977, p.90-107, rus] 34-359
Davis Strait ice and oceanographic observations, Winter 1976-77. [1977, 96p. + appends., figs., and tables, eng] 34-427
Ice movements in the Beaufort Sea 1973-1975: determination by ERTS imagery. Sobczak, L.W., [1977, p.1413-1418, eng] 34-475
Landfast ice movement—Mackenzie Delta 1972-73. Spedding, L.G., [1973, 122p. + figs., eng] 34-480
Theory of melting ice drift. Ovsienko, S.N., et al, [1979, p.1066-1070, rus] 34-524
Beaufort Sea summer ice study. Nolta, K.G., et al, [1970, c55p., eng] 34-558
Landfast ice movement—Mackenzie Delta 1972. Croasdale, K.R., et al, [1972, 104p., eng] 34-576
Studying the submergence of ice floes under log booms. IAkhontov, S.A., [1969, p.30-34, rus] 34-586
Ice and current measurements program Beaufort Sea. [1970, c.65p., eng] 34-595
Arctic odyssey—five years of data buoys in AIDJEX. Martin, P., et al, [1976, p.328-334, eng] 34-821
Movement and deformation of landfast ice in the southern Beaufort Sea. Cooper, P.F., Jr., [1975, 16p., eng] 34-916
Keewatin ice sheet—reevaluation of the traditional concept of the Laurentide Ice Sheet. Shilts, W.W., et al, [1979, p.537-541, eng] 34-1089
Water area drift ice protection device. Ivanov, L.V., et al, [1976, 4 col., rus] 34-1223
Motion of icebergs due to changes in water currents. Sodhi, D.S., et al, [1975, p.348-350, eng] 34-1231
Use of satellite infrared imagery in the oceanographic study of the Chukchi Sea. Garrison, B.R., et al, [1975, p.826-834, eng] 34-1235
Comment on "Drift of icebergs in the Grand Banks". Mountain, D.G., et al, [1979, p.549-550, eng] 34-1292
Long-term tracking of Arctic icebergs. Robe, R.Q., et al, [1979, 41p., eng] 34-1354
Meteorological aspects of the drift of ice from the Weddell Sea toward the mid-latitude westerlies. Schwerdtfeger, W., [1979, p.6321-6328, eng] 34-1404
Fall ice drift in Nares Strait, as observed by sideways-looking airborne radar. Dunbar, M., [1979, p.283-307, eng] 34-1615
Lower limit of application of hydrodynamic model of ice drift. Khelsin, D.E., et al, [1979, p.154-157, eng] 34-1894
Study of fractures in consolidated pack-ice cover from radar survey data. Gorbunov, IU.A., et al, [1979, p.30-35, eng] 34-1900
Univariate model of the seasonal pycno-wedge and homogeneous layer in the Arctic Basin. Ponomarev, V.I., [1979, p.37-47, rus] 34-1997
Modeling annual variations in ice conditions of the Arctic Basin. Baranov, G.I., et al, [1979, p.48-56, rus] 34-1998
Short range numerical forecasts of ice processes. Maslovskiĭ, M.I., [1979, p.57-62, rus] 34-1999
Selecting the relationships between stresses and deformations in drifting ice cover. Khelsin, D.E., [1979, p.63-71, rus] 34-2000
Unstabilized oscillations of drifting ice cover caused by periodic disturbances in an inhomogeneous sea. Bukatov, A.E., et al, [1979, p.77-84, rus] 34-2002
Asymmetric dynamics of ice cover. Ivchenko, V.O., et al, [1979, p.99-106, rus] 34-2003
World Ocean and Pleistocene glacial epochs. Zakharov, V.F., [1978, 64p., rus] 34-2106
Regionalization of Poland's coast in terms of ice ridges piled on beaches. Zakrzewski, W., [1978, p.3-16, pol] 34-2291
Effect of permafrost on evolution of river beds and hydraulic structures built on river beds and river banks. Levashov, A.A., et al, [1977, p.12-17, rus] 34-2436
Long-term drift of icebergs in Baffin Bay and the Labrador Sea. Robe, R.Q., et al, [1980, p.183-193, eng] 34-2441
On predicting iceberg drift. Mountain, D.G., [1980, p.273-282, eng] 34-2449
Iceberg drift observations in Lancaster Sound. Riggs, N.P., et al, [1980, p.283-291, eng] 34-2450
Dynamics of near shore ice. Colony, R., [1979, p.156-180, eng] 34-2682
Modeling sea-ice features and processes. Rothrock, D.A., [1979, p.359-375, eng] 34-2838
Satellite studies of fresh-water ice movement on Lake Erie. Wiesnet, D.R., [1979, p.415-426, eng] 34-2842
Peculiarities of ice conditions in the Southern Ocean and their relation to atmospheric circulation. Romanov, A.A., [1979, p.40-46, rus] 34-2997
Ice condition variations near the southwestern shores of Greenland in connection with hydrometeorological processes of different scales. Mironov, E.U., [1979, p.47-62, rus] 34-2998
Seasonal and interannual variations of basic ice regime elements of the Southern Ocean. Romanov, A.A., [1979, p.100-108, rus] 34-3003
Effectiveness of aerial ice surveys in navigation under ice cover contraction conditions. Voevodin, V.A., [1979, p.134-139, rus] 34-3008
Aerial photographic surveys of ice cover for hydraulic engineering. Losev, S.M., et al, [1979, p.140-150, rus] 34-3009
Some iceberg statistics for the Davis Strait. Trofimenkoff, P.N., [1978, 43p., eng] 34-3114
Studies on interaction between wind and dry snow surfaces. Kobayashi, S., [1979, 64p., eng] 34-3191
Analytic coordination of areal and route radar surveys. Bushuev, A.V., [1977, p.46-57, rus] 34-3307
Operational analysis of the drift and deformation of ice cover from repeated areal radar survey photographs. Borisov, R.A., et al, [1977, p.65-74, rus] 34-3309
Data on medium-scale deformations of ice covers in Arctic seas. Gorbunov, IU.A., et al, [1977, p.75-91, rus] 34-3310
Studying morphometric characteristics of summer ice cover in Arctic seas. Losev, S.M., et al, [1977, p.92-103, rus] 34-3311
Shifting of ice edges and ice cover boundaries. Gorbunov, IU.A., et al, [1977, p.133-140, rus] 34-3316
Testing a numerical scheme for calculating winter ice distribution in Arctic seas. Appel', I.L., et al, [1977, p.141-150, rus] 34-3317
Vibration of measuring equipment in the study of the ocean microstructure under the drifting ice. Gusev, A.V., et al, [1975, p.237-238, eng] 34-3433
Observation of oceanographic conditions in the Okhotsk Sea coast of Hokkaido in winter, 2. Aota, M., et al, [1979, p.135-142, jap] 34-3499
Studies on interaction between ice floes, 1. Takizawa, T., [1979, p.143-152, jap] 34-3500
Studies on interaction between ice floes. 2. Periodical change in horizontal divergence of an ice field accompanied by intertial periodical motion. Takizawa, T., et al, [1979, p.153-159, jap] 34-3501
On the characteristics of the movement of pack ice and the effects of wind and ocean current on ice movement. Kawamura, T., [1979, p.161-168, jap] 34-3502
Installation test of the air-filled manned undersea chamber "Sprut" under the Arctic drift ice. Mel'nikov, I.A., et al, [1978, p.737-738, eng] 34-3540
Buoy-station equipment for small ships operating under drift conditions. Volnov, G.N., et al, [1979, p.132-134, rus] 34-3590
Sea ice growth, drift, and decay. Hibler, W.D., III, [1980, p.141-209, eng] 34-3658
Iceberg drift and deterioration. Robe, R.Q., [1980, p.211-259, eng] 34-3659
Characteristics of iceberg mechanics. Dempster, R.T., [1980, p.38-50, eng] 34-3731
Opposition in ice redistribution in Arctic waters outside the USSR. Smirnov, V.I., [1980, p.73-77, rus] 34-3862
Orbital sensing of Mackenzie Bay ice dynamics. Dey, B., [1980, p.280-291, eng] 34-3867
Regularities of sea ice distribution in Arctic waters outside the USSR. Smirnov, V.I., [1979, p.109-112, rus] 34-3884
Investigation of ice drift in the southeastern part of the Barents Sea with the aid of a "Toros" peripheral scanning radar station. Zubakin, G.K., et al, [1980, 7p., eng] 34-3898
Analyses of British Antarctic Survey tidal records. Cartwright, D.E., [1980, p.167-179, eng] 34-4115
Forecasts and calculations of hydrometeorological elements of northern seas. Terziev, F.S., ed, [1980, 140p., rus] 34-4176
Results of scientific investigations of the Murmansk branch of the Arctic and Antarctic Scientific Research Institute during 1972-1976. Terziev, F.S., [1980, p.6-12, rus] 34-4177
Computer analysis of radar ice cover survey data. Zubakin, G.K., et al, [1980, p.30-34, rus] 34-4180
Calculating geometric characteristics of ice cover. Zubakin, G.K., et al, [1980, p.35-40, rus] 34-4181
Forecasting ice conditions and ice edge position in the Danish Strait for fall-winter periods. Kogan, B.A., et al, [1980, p.47-54, rus] 34-4183
Space-time characteristics of seasonal ice conditions in the North Atlantic. Orlov, N.F., [198[illegible] p.55-59, rus] 34-4184

Drift stations

Davis Strait surface drifter buoys program 1977. Metge, M., [1978, 69p., eng] 34-317
Some results from a linear-viscous model of the Arctic ice cover. Hibler, W.D., III, et al, [1979, p.293-304, eng] 34-544
Hydrochemical regime of the Arctic Ocean. Rusanov, V.P., et al, [1979, 144p., rus] 34-1092
SYNRAMS ice station. Burke, S.P., et al, [1975, p.413-417, eng] 34-1232
Lomonosov Ridge Experiment: Lorex 79. Weber, J.R., [1979, p.715-721, eng] 34-1844
Observations of position, ocean depth, ice rotation, magnetic declination and gravity taken at the Fram I drifting ice station. Hunkins, K., et al, [1979, 52p. + append., eng] 34-1967
Si-S analysis of surface waters in the Arctic Basin. Rusanov, V.P., et al, [1979, p.14-23, rus] 34-3584

Drill core analysis

Sediment analysis of cores from Davis Strait and Flemish Pass for Imperial Oil Limited. [1976, n.p., eng] 34-311
Logistics operations APOA Beaufort Sea projects 1970. Smith, J.G., [1970, 75p., eng] 34-596
1970 bottom sampling program south coast of Beaufort Sea, Mackenzie Bay to Liverpool Bay, Northwest Territories. [1970, c83p., eng] 34-597
Geological sampling and analytical program, Beaufort Sea. Lerand, M.M., comp, [1971, c.215p., eng] 34-598
20-yr cycle in Greenland ice core records. Hibler, W.D., III, et al, [1979, p.481-483, eng] 34-737

Drill core analysis *(cont.)*
Antifreeze-thermodrilling for core through the central part of the Ross Ice Shelf (J-9 Camp), Antarctica. Zotikov, I.A., [1979, 12p., eng] **34-1577**
Polar research. Turner, M.D., [1980, p.43-44, eng] **34-1883**
On the origin of stratified debris in ice cores from the bottom of the Antarctic ice sheet. Gow, A.J., et al, [1979, p.185-192, eng] **34-2231**
Discontinuous flow, ice texture, and dirt content in the basal layers of the Devon Island ice cap. Koerner, R.M., et al, [1979, p.209-222, eng] **34-2233**
Proceedings of the Seminar III on Dry Valley Drilling Project, 1978. Nagata, T., ed, [1979, 245p., eng] **34-2285**
View on the formation of saline waters in the Dry Valleys. Torii, T., et al, [1979, p.22-33, eng] **34-2286**
911 years of microparticle deposition at the South Pole: a climatic interpretation. Thompson, E.M., [1979, 200p., eng] **34-2455**
Initial report on geological materials collected at RISP site J9, 1978-79. Webb, P.N., comp, [1979, 127p., eng] **34-2481**
Rate of snow accumulation determined from oxygen isotope and stratigraphic analyses of the core from Mizuho Station, East Antarctic (extended abstract). Kato, K., et al, [1979, p.88-92, eng] **34-2500**
Shallow core snow chemistry of Athabsca Glacier, Alberta. Butler, D., et al, [1980, p.278-281, eng] **34-2667**
Ice flow along an I.A.G.P. flow line and interpretation of data from an ice core in Terre Adélie, Antarctica. Raynaud, D., et al, [1979, p.103-115, eng] **34-2820**
Relationship of ultrasonic velocities to c-axis fabrics and relaxation characteristics of ice cores from Byrd Station, Antarctica. Gow, A.J., et al, [1979, p.147-153, eng] **34-2823**
Margin of the Greenland ice sheet at Isua. Colbeck, S.C., et al, [1979, p.155-165, eng] **34-2824**
Specimen and core-sample distribution policy. U.S. National Science Foundation. Division of Polar Programs, [1980, p.69-70, eng] **34-4026**
Time-priority studies of deep ice cores. Gow, A.J., [1980, p.91-102, eng] **34-4030**
Ice core work at the Laboratoire de Glaciologie, CNRS, Grenoble. Raynaud, D., [1980, p.103-107, eng] **34-4031**
See also: Ice cores

Drilling
Economic peculiarities of organizing raw material bases for Yakutian industry. Kirillin, A.D., ed, [1977, 121p., rus] **34-115**
Cost of natural gas production in the Yakut ASSR. Popova, V.K., [1977, p.86-92, rus] **34-118**
Results of testing new diamond drilling bits in Southern Yakutia. Antipin, I.N., et al, [1975, p.37-40, rus] **34-219**
Determining density of circulating fluids for wells without casings in unstable permafrost. Abdullaev, T.B., [1978, p.21-24, rus] **34-253**
Mechanization of transport construction during the past 25 years. Adashev, I.S., et al, [1979, p.34-38, rus] **34-520**
Drilling operations guide. [1973, c195p., eng] **34-568**
Study of the clothing problems of the oil operating crews in the Arctic. Pang, S.H.H., et al, [1972, 58p., eng] **34-571**
Discussions on problems of the study of the Antarctic glacial cover at the twelfth session of the Scientific Committee for Antarctic Research (SCAR), and at the meetings of the Council of the International Antarctic Glaciological Project (IAGP). Korotkevich, E.S., [1974, p.103-118, eng] **34-1194**
Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] **34-1508**
Design and construction of pile foundations for elevated transport structures and scaffolded railroad and highway bridges in the North. Burkhanov, V.F., et al, [1979, p.73-84, rus] **34-1627**
Heat transfer problems applied to the theory of well drilling. Pudovkin, M.A., et al, [1979, 182p., rus] **34-1650**
Studying properties of G class cement and the "Permafrost" mixture according to the national standards. Kliusov, A.A., [1979, p.31-34, rus] **34-1755**
Ice-sheet glaciology. Drewry, D., [1979, p.313-328, eng] **34-1881**
Exploration and sources of ground water reserves in areas of Noril'sk-type commercial ore deposits. Roginets, I.I., [1979, p.83-87, rus] **34-1938**
Influence of thermal regime variations on the state of wells drilled in permafrost. Griaznov, G.S., [1973, p.21-22, rus] **34-1954**
Practical advantages and prospects of drilling with simultaneous freezing of weakly consolidated rocks. Afanas'ev, I.S., et al, [1973, p.25-26, rus] **34-1956**
Controlling temperatures of hydrating cementing mixtures in wells. Putikov, O.F., et al, [1973, p.29-30, rus] **34-1957**
Analysis of heat and mass exchange during thermal drilling. Kudriashov, B.B., et al, [1979, p.106-112, rus] **34-2217**
Construction of underground structures for hydroelectric power stations in the Far North. Grossman, I.I., et al, [1979, 128p., rus] **34-2493**
Fundamentals of electrothermomechanical destruction of frozen rocks. Nekrasov, L.B., [1979, 230p., rus] **34-2869**
Pile foundations in permafrost. Targulian, IU.O., [1978, 158p., rus] **34-3022**
Technology of open pit mining. Medvedev, K.D., ed, [1979, 164p., rus] **34-3023**
Design of casing programs. Bulatov, A.I., et al, [1979, 280p. (Pertinent p.85-91, 135-141), rus] **34-3070**
Alaskan field work progresses for gas pipeline. [1980, p.81, eng] **34-3160**
Making artificial intergelisols as a means of environmental protection in petroleum provinces of West Siberia and the northern Komi ASSR. Maksimov, G.N., [1980, p.25-27, rus] **34-3281**
Protection of environments and mineral resources in mined permafrost areas. Maksimov, V.M., et al, [1980, p.27-36, rus] **34-3282**
Drilling and coring of frozen ground in northern Alaska, Spring 1979. Lawson, D.E., et al, [1980, 14p., eng] **34-3333**
Pressure meter for testing soft soils. Lushnikov, V.V., et al, [1980, p.262-265, eng] **34-3370**
Comparative study of stresses in natural rock masses and in models using the artificial freezing technique. Makarov, S.V., [1979, p.35-43, rus] **34-3481**
Drilling-and-mixing method of building foundations of cemented earth piles. Tokin, A., [1980, p.5-6, rus] **34-3926**
Selecting rolling cutter bits and drilling regimes for perennially frozen boulder-gravel placers. Bragin, P.A., [1979, p.110-123, rus] **34-4105**
Drilling fluids for West Siberian fields. Kaz'min, A.V., et al, [1979, p.52-53, rus] **34-4137**
See also: Bottom drilling; Offshore drilling; Rock drilling

Drilling fluids
Determining density of circulating fluids for wells without casings in unstable permafrost. Abdullaev, T.B., [1978, p.21-24, rus] **34-253**
Heat transfer problems applied to the theory of well drilling. Pudovkin, M.A., et al, [1979, 182p., rus] **34-1650**
Rock thermophysics. Summaries of reports. [1973, 75p., rus] **34-1952**
Thermal regime of wells and its control. Kudriashov, B.B., et al, [1973, p.3-5, rus] **34-1953**
Influence of thermal regime variations on the state of wells drilled in permafrost. Griaznov, G.S., [1973, p.21-22, rus] **34-1954**
Controlling thermal regime of wells when using drilling fluids in permafrost. IAkovlev, A.M., [1973, p.23-24, rus] **34-1955**
Drilling fluids for West Siberian fields. Kaz'min, A.V., et al, [1979, p.52-53, rus] **34-4137**

Drills
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] **34-213**
Results of testing new diamond drilling bits in Southern Yakutia. Antipin, I.N., et al, [1975, p.37-40, rus] **34-219**
Method and apparatus for drilling in permafrost and the like. Skidmore, S.C., Jr., [1977, 16 col., eng] **34-268**
Excavation of hard rocks in the central section of the Baykal Amur railroad. Basistov, M.A., [1979, p.3-4, rus] **34-328**
Types of core-barrel cutting heads and their interaction with ground. Krupina, G.K., [1977, p.67-80, rus] **34-987**
New drilling instrument for holes in frozen ground. Makushkin, D.O., et al, [1979, p.8-9, rus] **34-1187**
Performance of BTS-150 drills on construction sites of the Baykal Amur railroad. Bardyshev, O.A., et al, [1979, p.26-27, rus] **34-1428**
Understanding permafrost: development and use of lightweight equipment. Veillette, J., et al, [1980, p.21-23, eng] **34-2610**
Portable drilling equipment for shallow permafrost sampling. Veillette, J.J., et al, [1980, 35p., eng] **34-3652**
Land reclamation in winter. Surikov, V.V., [1980, 270p., rus] **34-3758**
Selecting rolling cutter bits and drilling regimes for perennially frozen boulder-gravel placers. Bragin, P.A., [1979, p.110-123, rus] **34-4105**
Drilling fluids for West Siberian fields. Kaz'min, A.V., et al, [1979, p.52-53, rus] **34-4137**
See also: Ice coring drills; Ice drills; Thermal drills

Drops (liquids)
Numerical simulation of atmospheric ice accretion. Ackley, S.F., et al, [1979, p.44-52, eng] **34-57**
Mechanism of ice splinter production during riming. Mossop, S.C., [1980, p.167-169, eng] **34-2678**
See also: Cloud droplets

Dry ice (trademark)
Sublimation of a horizontal slab of dry ice: an analog of pool boiling on a flat plate. Dhir, V.K., [1980, p.380-382, eng] **34-4250**

Dry Valley Drilling Project
DVDP at the Florida State University, core storage and sample distribution. Cassidy, D.S., [1979, p.240-245, eng] **34-2289**

Drying
Mechanical dehydration of frozen peat. Gatitskii, N.V., et al, [1979, p.19-20, rus] **34-254**
Effect of fertilization on winter drying of Scots pine. Kurkela, T., [1979, p.139-143, eng] **34-1785**
Determining parameters of the mechanical dehydration of frozen peat in high bogs. Kmitovenko, A.T., et al, [1979, p.18-19, rus] **34-2132**
Possible changes in thermal conditions due to land reclamation. Az'muka, T.I., et al, [1979, p.8-25, rus] **34-3076**
Dehydration of nonmetalliferous construction materials at low temperatures. Gurevich, V.G., et al, [1980, 70p., rus] **34-3824**
See also: Freeze drying

Ducts
Improving natural ventilation of underground utility ducts under permafrost conditions. Ivont'ev, V.V., [1974, p.127-136, rus] **34-760**

Dust
Studying dust in ice covers and using it in ice age determination. Gordienko, F.G., [1979, p.259-268, rus] **34-3151**

Dusting
Laws governing the thawing of an artificially dusted glacier surface. Bazhev, A.B., [1974, p.271-296, eng] **34-1200**

Dynamic loads
Small prototype cone tests winter 1973-74. Verity, P.H., [1975, 102p. + appends., eng] **34-296**
Ice crushing tests—1974. Miller, T.W., et al, [1974, 177p., eng] **34-421**
Determining dynamic yield stresses of frozen ground and ice. Kosinskii, A.K., [1976, p.71-79, rus] **34-707**
Critical velocities of a floating ice plate subjected to in-plane forces and a moving load. Kerr, A.D., [1979, 12p., eng] **34-802**
Volumetric constitutive law for snow subjected to large strains and strain rates. Brown, R.L., [1979, 13p., eng] **34-913**
Workshop on the Bearing Capacity of Ice Covers, 16-17 October 1978, Winnipeg, Manitoba. [1979, 253p., eng] **34-919**
Field studies on the response of floating ice sheets to moving loads. Beltaos, S., [1979, p.1-13, eng] **34-920**
Laboratory investigation of circular sea-ice plates. Murat, J.R., et al, [1979, p.107-123, eng] **34-927**
Problems related to the structural modelling of ice covers. Tinawi, R., [1979, p.139-158, eng] **34-929**
Use of ice as an airstrip in the Thelon River valley by the Canadian Armed Forces. McCutcheon, D.M., [1979, p.224-231, eng] **34-933**
Elastic and dissipative properties of peats and organic muds. IAromko, V.N., et al, [1979, p.17-22, rus] **34-979**
Electromagnetic radiation of snow and ice during dynamic processes. Kachurin, L.G., et al, [1979, p.583-585, rus] **34-1638**
Behavior of clay subgrades during melting periods. Prokudin, I.V., et al, [1979, p.40-42, rus] **34-2096**
Improved drainage and frost action criteria for New Jersey pavement design—Phase III: Structural strength of pavements with open-graded bases. Barker, W.R., et al, [1979, c82p., eng] **34-2359**
In situ response of muskeg to dynamic loading. Sheeran, D.E., et al, [1978, p.11-24, eng] **34-2906**
Moving load experiments on Arctic sea ice, Resolute Bay, winter 1975/76. Lichtenberger, G.J., et al, [1976, c115p., eng] **34-3106**
Studying wave processes in linear viscoelastic media under dynamic loads. Filippov, I.G., [1976, p.328-345, rus] **34-3221**
Dynamic response of bridge piers to ice forces. Montgomery, C.J., et al, [1980, p.345-356, eng] **34-3671**
Rheological behaviour of ice at small strains. Gold, L.W., et al, [1980, p.117-128, eng] **34-3737**

Dynamic properties
Numerical simulation of the annual cycle of sea ice in the Arctic and Antarctic. Parkinson, C.L., [1977, 191p., eng] **34-409**
Field observations of the kinematics of hailstones. Matson, R., et al, [1979, 68p., eng] **34-786**
Asymmetric dynamics of ice cover. Ivchenko, V.O., et al, [1979, p.99-106, rus] **34-2003**
Proceedings. [1980, p.167-306, eng] **34-2439**
Dynamics of marine ice sheets. Thomas, R.H., [1979, p.167-177, eng] **34-2825**
Role of shear heating in the dynamics of large ice masses. Yuen, D.A., et al, [1979, p.195-212, eng] **34-2827**
Catastrophe model of the paleoclimate. MacAyeal, D.R., [1979, p.245-257, eng] **34-2828**
Dynamics of the Ross Ice Shelf revealed by radio echo-sounding. Neal, C.S., [1979, p.295-307, eng] **34-2832**
Mechanical energy considerations in sea-ice dynamics. Coon, M.D., et al, [1979, p.377-389, eng] **34-2839**
Dynamics of hailstones. Zoltán, C., [1980, p.78-82, hun] **34-3617**

Decay kinetics of excess electrons in crystalline ice. Warman, J.M., et al, [1980, p.1240-1248, eng] 34-3649
Characteristics of iceberg mechanics. Dempster, R.T., [1980, p.38-50, eng] 34-3731
Free oscillations in a climate model with ice-sheet dynamics. Källén, E., et al, [1979, p.2292-2303, eng] 34-3767

Earth crust

Thermal equilibrium in the upper layer of the earth's crust. Pavlov, A.V., [1979, p.5-10, rus] 34-123

Earth dams

Hydraulic dredging in freezing weather. Popov, IU.A., et al, [1979, 184p., rus] 34-580
Determining dynamic yield stresses of frozen ground and ice. Kosinskiĭ, A.K., [1976, p.71-79, rus] 34-707
Using frozen ground in earth dam construction. Kuznetsov, G.I., et al, [1979, p.92-96, rus] 34-806
Deformation of stabilized, ice-saturated lumpy soil. Baliasnikov, G.G., [1979, p.41-42, rus] 34-1154
Determining heat consumption during year round pouring of earth into water. Liberman, A.I., et al, [1979, p.43-44, rus] 34-1155
Artificial freezing of ground in underground construction. Trupak, N.G., [1979, 344p., rus] 34-1226
Use of hydraulic fills under rigorous climatic conditions. Shkundin, B.M., et al, [1979, p.227-230, eng] 34-1391
Calculation of the temperature regime of earth dams by the finite-element method. Kronik, IA.A., et al, [1979, p.145-152, eng] 34-1393
Calculating quasi-stationary temperature and seepage fields in massive hydraulic structures and foundations by the finite element and finite difference methods. Pisarev, G.N., et al, [1979, p.67-74, rus] 34-1526
Pressure consolidation of lumpy frozen soil dumped into water. Pekhovich, A.I., et al, [1979, p.92-98, rus] 34-1530
Soil consolidation under difficult engineering-geological conditions. Baushev, V.K., et al, [1979, p.111-116, rus] 34-1532
Frozen earth dam on polygonal vein ice. Kuznetsov, A.L., [1979, p.198-201, rus] 34-1554
Hydrogeologic studies for drainage and water supply engineering. Artsev, A.I., [1979, 285p., rus] 34-1653
Design, construction and performance of earth dams on permafrost in the far north. Tsytovich, N.A., et al, [1979, p.137-149, eng] 34-1684
Using peat in embankment construction. Shupilov, IA.M., [1979, p.18-21, rus] 34-1948
Earth structures on peaty silts under pressure head conditions. Tkach, V.N., et al, [1979, p.23-26, rus] 34-1950
Influence of preparation, storage and filling conditions on physico-mechanical properties of ground. Loseva, S.G., et al, [1980, p.60-62, rus] 34-2571
Preparing the earth for filling the watertight parts of dams in the Far North. Rasskazov, L.N., et al, [1980, p.62-65, rus] 34-2572
Melting intensity of frozen zones formed in cores of rock-fill dams during construction. Fevralev, A.V., [1979, p.88-91, rus] 34-2625
Calculating nonstationary temperature and moisture regimes of washed-up earth structures in a thawed state. Popov, IU.A., et al, [1980, p.94-101, rus] 34-3167
Recommendations for the design and construction of tailings dumps under severe climatic conditions. [1977, 152p., rus] 34-3196
Design, construction and operation of earth dams in Arctic regions and under permafrost conditions. Tsytovich, N.A., et al, [1980, p.407-428, eng] 34-3259
Soil stabilization and water impervious screens in hydroelectric engineering. Adamovich, A.M., [1980, 319p., rus] 34-3270
All-Union scientific-technical conference on hydrotechnical construction in regions of permafrost and rigorous climate (CHC-78). Kudoiarov, I.I., et al, [1980, p.724-726, eng] 34-3375
Justification of earth-fill stages in embankment construction on permafrost. Kurochkin, A.A., [1978, p.55-59, rus] 34-3886
Geocryological investigations in West Yakutia. Mel'nikov, P.I., ed, [1980, 113p., rus] 34-4033
Development of ground ice in hydraulic earth structures. Olovin, B.A., [1980, p.80-87, rus] 34-4042
Construction and operation of hydraulic structures in West Yakutia. Mel'nikov, P.I., ed, [1979, 88p., rus] 34-4149
In fruitful friendship with science. Biianov, G.F., [1979, p.7-10, rus] 34-4151
Construction of dams from local materials. Biianov, G.F., [1979, p.11-20, rus] 34-4152
Thermal regime variations in the Vilyuy hydroelectric power plant dam during operation. Medvedev, B.A., et al, [1979, p.20-26, rus] 34-4153
Impervious frozen ground screens in earth dams of the "frozen" type. Makarov, V.I., [1979, p.26-51, rus] 34-4154
Heat exchange of an artificially frozen dam with the atmosphere. Olovin, B.A., [1979, p.51-61, rus] 34-4155

Earth fills

Shallow foundations on very thick moist earth fills. Kamenev, V.P., et al, [1979, p.24-29, rus] 34-125
Determining heat consumption during year round pouring of earth into water. Liberman, A.I., et al, [1979, p.43-44, rus] 34-1155
Pressure consolidation of lumpy frozen soil dumped into water. Pekhovich, A.I., et al, [1979, p.92-98, rus] 34-1530
Hydromechanization of earthwork in West Siberia. Vavilov, N.G., [1979, p.4-6, rus] 34-1714
Influence of preparation, storage and filling conditions on physico-mechanical properties of ground. Loseva, S.G., et al, [1980, p.60-62, rus] 34-2571
Preparing the earth for filling the watertight parts of dams in the Far North. Rasskazov, L.N., et al, [1980, p.62-65, rus] 34-2572
See also: Rock fills

Earthquakes

Vibration of structures built on viscoelastic foundations. Shul'man, S.G., [1978, p.77-80, rus] 34-471
Prefabrication stages in building construction. Makeev, A.M., et al, [1979, p.30-34, rus] 34-519
Designing pile foundations for permafrost in earthquake areas. Grib, S.I., [1976, p.105-113, rus] 34-711
Allowing for seismic effects when designing reinforced concrete culverts beneath embankments. Abduzhabarov, A.Kh., [1979, p.43-44, rus] 34-1256
Environmental assessment of the Alaskan continental shelf: lower Cook Inlet interim synthesis report. [1979, 241p., eng] 34-1338
Engineering and geological justifications of construction in the BAM area. Levkovich, A.I., [1979, p.157-164, rus] 34-1549
Seismic regionalization of eastern Siberia and its geological and geophysical foundations. Solonenko, V.P., [1979, 435p., eng] 34-1571
All-Union scientific-technical conference on the engineering-geological basis of seismic microregionalization, 1st, Tashkent, Nov. 18-20, 1987. Summaries of reports. [1975, 98p, rus] 34-2057
Dependence of permafrost seismicity on ground ice content. Dzhurik, V.I., [1975, p.24-25, rus] 34-2058
Engineering and geological studies for seismic microregionalization of permafrost areas. Zarubin, N.E., [1975, p.59-60, rus] 34-2059
Using integrated geophysical methods for evaluating earthquake danger in permafrost areas. Pavlov, O.V., et al, [1975, p.66-67, rus] 34-2060
Using electric survey data in seismic microregionalization of permafrost areas. Basov, A.D., et al, [1975, p.67-68, rus] 34-2061
Composition and properties of flooded loess as a basis for seismic microregionalization. Domrachev, G.I., [1975, p.74-75, rus] 34-2062
Regularities governing natural phenomena and their forecasting. Agarkov, S.I., ed, [1980, 271p. (Pertinent p.87-162), rus] 34-2529
Coal mine construction according to the projects of the Siberian State Planning Design and Experimental Institute of Mining. Materi, V.G., [1979, p.6-7, rus] 34-2697
Sprayed concrete in tunnel construction in the Baykal Amur railroad area. Golitsynskiĭ, D.M., [1980, p.14-15, rus] 34-2855
Seismogeology and seismic regionalization of the Baykal Amur railroad route and the zone of its economic influence. Solonenko, V.P., [1979, 69p., rus] 34-2872
Environmental assessment of the Alaskan continental shelf, Vol.9, Hazards. [1979, 682p., eng] 34-3055
Geoengineering and hydrogeologic studies of the zone of influence of the Angara reservoirs and means of effective incorporation of these results in the national economy. Odintsov, M.M., et al, [1980, 10p., eng] 34-3393
Dynamics of the Baykal shore processes on the Tyya-Nizhneangarsk section. Bodenko, V.M., et al, [1980, 6p., eng] 34-3400
Differences between explosions and earthquakes. Cheng, Z.C., et al, [1980, 18p., eng] 34-3404
Designing bases and foundations of buildings on thawed permafrost in seismic regions. Chernyshev, IU.G., et al, [1980, p.113-121, rus] 34-3477
Seismic characteristics of loess in relation to geologic surroundings and the impact of industrial activities. Kriger, N.I., et al, [1980, 103p., rus] 34-3763
See also: Seismology

Earthwork

Variations in the strength of a frozen ground layer. Bass, B.A., [1979, p.23-24, rus] 34-249
Earth excavator including apparatus for stabilizing performance by compensating for changes in temperature. Griffis, D.L., [1977, 18 col., eng] 34-267
Excavation of hard rocks in the central section of the Baykal Amur railroad. Basistov, M.A., [1979, p.3-4, rus] 34-328
Construction of alleyways and roads in freezing weather Zhuravel', A.F., et al, [1979, p.20, rus] 34-341
Working capacity of machines and their resistance to abrasive wear at low temperatures. Koval'chuk, V.A., [1974, p.5-8, rus] 34-373
Steel mains of the country. Melkonov, S.S., [1979, p.6-10, rus] 34-518
Mechanization of transport construction during the past 25 years. Adashev, I.S., et al, [1979, p.34-38, rus] 34-520
Hydraulic dredging in freezing weather. Popov, IU.A., et al, [1979, 184p., rus] 34-580
Mechanization in rural construction. Lysiakov, V.E., et al, [1979, p.6-10, rus] 34-587
Excavation of ground with gas-lubricated buckets. Khmara, L.A., [1979, p.13-14, rus] 34-588
Determining thawing rate of permafrost with an alternating electrical current. Maksimenko, E.S., [1976, p.65-70, rus] 34-706
Studying correlation functions of frozen ground cutting stresses. Solomonov, S.A., [1979, p.122-127, rus] 34-809
Road construction in West Siberia. Cherednikov, IU.P., [1979, p.3-5, rus] 34-836
Reconstruction of the Dnepropetrovsk-Novomoskovsk highway. Grishchenko, N.I., et al, [1979, p.15-16, rus] 34-837
Improving the performance of construction equipment. Pankrashkin, P.V., [1979, p.11-13, rus] 34-856
Resistance of steels to abrasion under different wear conditions. Koval'chuk, V.A., [1977, p.3-20, rus] 34-985
Determining the resistance of ground to cutting tools. Pul'kis, N.D., [1977, p.81-85, rus] 34-988
Excavators with thermo-mechanical cutting tools. Zhelukevich, R.B., [1977, p.86-90, rus] 34-989
Scraper and bulldozer equipment mounted on D-9Zh and DET-250 tractors used in the North. Emelin, V.I., et al, [1977, p.95-100, rus] 34-991
Do earthwork in the cold weather. Bieganousky, W.A., et al, [1979, p.133-139, eng] 34-1141
Scientific problems in the construction of northern gas lines. Ivantsov, O.M., [1979, p.10-15, rus] 34-1179
Modernizing cutting tools of the ETR-132A and ETR-132B excavators designed for frozen ground. Bondarenko, V.P., et al, [1979, p.5-7, rus] 34-1185
Modern training in frozen ground excavation. Gusakov, B.P., [1979, p.22-23, rus] 34-1188
Artificial freezing of ground in underground construction. Trupak, N.G., [1979, 344p., rus] 34-1226
Tractor mounted cable laying equipment. Kuz'menko, V.V., et al, [1979, p.22-23, rus] 34-1253
Hydromechanization of earthwork in West Siberia. Vavilov, N.G., [1979, p.4-6, rus] 34-1714
Should building contractors make separate provisions for winter construction. Schelle, H., [1979, p.18, 25, ger] 34-2490
Continuous construction activities more needed than ever. Kranz, D.G., [1979, p.25-26, ger] 34-2491
Ways of improving the construction of power supply objects for the Baykal Amur railroad. Naianov, V.G., et al, [1980, p.43-45, rus] 34-2566
Construction equipment for the Baykal Amur railroad. Poliakov, V.I., et al, [1979, p.2-4, rus] 34-2582
New machines for the construction and maintenance of highways. Volkova, A.E., [1979, p.18-21, rus] 34-2583
New equipment at the construction sites of the Ministry of Construction Planning of Industrial Establishments, USSR. Konstantinov, N.F., [1980, p.17-21, rus] 34-2584
Combinations of equipment for handling explosive materials at the Baykal Amur railroad construction sites. Semin, A.P., et al, [1979, p.24-25, rus] 34-2592
Ways of increasing the reliability of blasting hard rocks. Basistov, M.A., [1980, p.4-6, rus] 34-2613
Roads. Rules of construction and acceptance of jobs. Approval for operation. [1973, 87p., rus] 34-2865
Collection No.1 of unified regional individual estimates for construction. Earthwork. [1977, 247p. (Pertinent p.200-246), rus] 34-2868
Stability of underground workings in permafrost. El'chaninov, E.A., et al, [1980, p.321-337, eng] 34-3255
Water thawing of frozen ground for open pit and underground mining in the northeast of the USSR. Emel'ianov, V.I., et al, [1980, p.339-354, eng] 34-3256
Construction of a cutoff wall by the diaphgragm wall method in the foundation pit of a bank pumping station. Domarev, A.N., et al, [1980, p.255-259, eng] 34-3369
Modern design and construction methods for the Surgut-Urengoy railroad. Korotchaev, D.I., et al, [1980, p.3-6, rus] 34-3597
Post-construction sagging of Baykal Amur railroad embankments. Guletskiĭ, V.V., et al, [1980, p.6-7, rus] 34-3598
Land reclamation in winter. Surikov, V.V., [1980, 270p., rus] 34-3758
Construction of urban roads under northern conditions. Galuzin, V.M., ed, [1980, 134p., rus] 34-3762
Improving work organization and quality control at a most important construction site. Pelevin, I.V., [1980, p.20-21, rus] 34-3818
Building reinforced concrete road pavement on weak grounds. Kolchanov, A.D., et al, [1979, p.22-24, rus] 34-3856
Radioactive isotope techniques in controlling quality of work and investigations when building foundations and underground structures. Smorodinov, M.I., [1980, 168p., rus] 34-3866
Construction of an embankment with frozen soil. Botz, J.J., et al, [1980, 105p., eng] 34-3873
Determining passability of walking excavators in inhomogeneous grounds, allowing for frozen layers Zagorulko, L.P., [1978, p.118-124, rus] 34-3905

Earthwork *(cont.)*
Improving the procedure for installation of antiseepage curtains by the "wall-in-the-ground" method. Burov, IU.E., et al, [1980, p.304-309, eng] 34-3932
Construction experience gained by the Trust "Uralstroimekhanizatsiia". Lamakina, V.S., [1980, p.2-4, rus] 34-4052
Effectiveness of excavating machines used on the construction of the Baykal Amur railroad and the Surgut-Urengoy line. Bardyshev, O.A., [1980, p.6-8, rus] 34-4053
MGI-58 equipment for 'ayer-by-layer excavation of ground. Zakharov, V.A., et al, [1980, p.17-18, rus] 34-4054
Effective working tool of the ETTs-165 excavator for frozen ground. Sokolov, L.K., et al, [1980, p.18-19, rus] 34-4055
Retooling bulldozers for ripping and uprooting. Prytkov, I.V., [1980, p.23-24, rus] 34-4056
Natural overgrowth of earth dumps along irrigation channels in Central Yakutia. Nakhabtseva, S.F., [1979, p.51-54, rus] 34-4111
Construction and operation of hydraulic structures in West Yakutia. Mel'nikov, P.I., ed, [1979, 88p., rus] 34-4149
Design and operation of tailing ponds. Maul', V.K., [1979, p.62-65, rus] 34-4156
Simplified method of calculating frozen rock heating by an electromagnetic field, allowing for phase transformations. Rikenglaz, L.E., et al, [1980, p.15-17, rus] 34-4252

Echo sounding
Ice-scour tracks in eastern Mackenzie Bay and north of Pullen Island, Beaufort Sea. Wahlgren, R.V., [1979, p.51-62, eng] 34-22
Investigation of sea-bed scouring in the Beaufort Sea (PHASE II). [1973, 27p., eng] 34-575
Glacier echo sounding studies around Molodezhnaya. Trepov, G.V., et al, [1979, p.35-38, rus] 34-1827
Connections in the Gamburtsev and Vernadskiy Subglacial Mountains. Koblents, IA.P., [1979, p.39-48, rus] 34-1828

Ecology
Antarctic fast-ice food chain: observations on the interaction of amphipod *Pontogeneia antarctica* Chevreux with ice-associated micro-algae. Richardson, M.G., et al, [1979, p.106-115, eng] 34-13
Ecological profile. [1978, 118p. + maps, eng] 34-20
LNG transport in Parry Channel: possible environmental hazards. Smiley, B.D., et al, [1979, 47p., eng] 34-165
Research by the Institute of Polar Studies in Glacier Bay National Monument, Alaska. Goldthwait, R.P., et al, [1976, p.815-821, eng] 34-534
Alpine vegetation ecology and remote sensing of Teresa Island, British Columbia. Buttrick, S.C., [1978, n.p., eng] 34-601
Evaluation of the trophic types of several Alaskan lakes by assessment of benthic fauna. LaPerriere, J., [1975, 49p., eng] 34-641
Biogeochemistry of deep lakes in the central Alaskan Range. LaPerriere, J., et al, [1976, 35p., eng] 34-643
Time-energy budget of the semipalmated sandpiper *Calidris pusilla* at Barrow, Alaska. Ashkenazie, S., et al, [1979, p.783-799, eng] 34-1561
Ecology of elk on alpine tundra in Rocky Mountain National Park. Stevens, D.R., [1979, p.421-426, eng] 34-2263
Environmental studies in the central Quebec-Labrador Peninsula: Finnish contributions. [1980, 89p., eng] 34-2411
Seasonal trends in summer diet of the Lapland longspur near Barrow, Alaska. Custer, T.W., et al, [1978, p.295-301, eng] 34-2512
Boreal ecology. Pruitt, W.O., Jr., [1978, 73p., eng] 34-2781
Environmental assessment of the Alaskan continental shelf, Vol.6, Effects. [1979, 664p., eng] 34-3045
Components of biogeocenoses of the tundra-forest regions of the northern Okhotsk Sea region. Ignatenko, I.V., ed, [1980, 51p., eng] 34-3395
International Workshop on the Seasonal Sea Ice Zone, Monterey, California, Feb. 26-Mar.1, 1979. Andersen, B.G., ed, [1980, 357p., eng] 34-3624
Interrelationships between the seasonal sea ice and biological regimes. Alexander, V., [1980, p.157-184, eng] 34-3629
Biological importance of polynyas in the Canadian Arctic. Stirling, I., [1980, p.303-315, eng] 34-3869
Effects of the Trans-Alaska pipeline on caribou movements. Cameron, R.D., et al, [1979, 36p., eng] 34-3923

Economic development
Problems of the North. Study and utilization of natural resources and environmental protection. Shvetsov, P.F., et al, [1979, p.31-37, rus] 34-257
Nutrient chemistry of a large, deep lake in subarctic Alaska. LaPerriere, J.D., et al, [1977, 128p., eng] 34-624
Environmental Standards for Northern Regions: a symposium, June 1974, Anchorage, Alaska. Smith, D.W., ed, [1975, 389p., eng] 34-630
Geographic problems of the Baykal Amur railroad zone. Vorob'ev, V.V., ed, [1979, 143p., rus] 34-680
Historic and geographic evaluation of economic development of mountain taiga areas of the BAM zone. Kosmachev, K.P., [1979, p.3-17, rus] 34-681
Engineering at the ends of the earth; polar ocean technology for the 1980's. [1979, 74p., eng] 34-844
Geocryological conditions in the Yenisey River Valley (the Dudinka area) and changes induced by human activities. Kondrat'ev, V.G., et al, [1979, p.89-97, rus] 34-1515
Transportation. Nekrasov, N.N., ed, [1979, 147p., rus] 34-1619
Transportation, a key issue in the development of productive forces in the North. Nekrasov, N.N., [1979, p.5-13, rus] 34-1620
Economic development of the northern USSR and the formation of a basic transportation pattern. Burkhanov, V.F., [1979, p.14-20, rus] 34-1621
Peculiarities and problems of inter-regional transportation and economic communications of the northern zone of the USSR. Puzanova, V.F., [1979, p.20-33, rus] 34-1622
Baykal Amur railroad. Problems of inter-regional economic communications and natural resource development in the Near North. D'iakonov, F.V., [1979, p.33-42, rus] 34-1623
Modeling transportation connections between starting points and economic development areas. Adzhiev, M.E., [1979, p.105-108, rus] 34-1631
Discussion of scientific and economic problems of northern development. Glabina, N.K., et al, [1979, p.137-146, rus] 34-1636
Field trip No.4: Northern Manitoba—District of Keewatin. Brown, R.J.E., et al, [1979, 76p., eng] 34-1693
Research plan for Arctic ship powering and development. Voelker, R.P., [1977, 49p., eng] 34-1800
Problems in experimental landscape science. Krauklis, A.A., [1979, 232p., rus] 34-2103
Forecasting changes in West Siberian landscapes due to pipeline construction. Moskalenko, N.G., [1978, p.115-119, rus] 34-2249
Outlook for the development of forest industry in the Baykal Amur railroad zone. Alekhin, V.G., [1978, p.80-89, rus] 34-2468
Baykal Amur railroad and economic development of the Transbaikal region. Nedeshev, A.A., et al, [1979, 158p., rus] 34-2483
Winter exploration and drilling. Sigurdson, T., comp., [1980, p.12-50, eng] 34-2562
Lowering transportation costs of gas field development in the northern Tyumen' area. Strubtsova, L.M., [1980, p.17-18, rus] 34-2597
Icebergs are a frozen asset. Reynolds, J.M., [1979, p.177-180, 185, eng] 34-2733
Skilled workers used abroad in cold regions development. Chudnovskii, A.D., et al, [1980, p.19-21, rus] 34-2976
In polar waters. [1977, 40p., eng] 34-3013
Effectiveness of using mineral raw materials in the Far North. Fedoseev, V.A., [1979, 215p., rus] 34-3197
Geocryological survey methods. Kudriavtsev, V.A., et al, [1980, p.71-84, eng] 34-3238
Cryogenic hydrogeochemical changes in alluvial deposits due to economic development of Central Yakutia. Anisimova, N.P., [1980, p.107-111, rus] 34-3296
Influence of procurement forms on magnitude of industrial supplies. Belinskii, B.V., et al, [1976, p.4-27, rus] 34-3338
Evaluating avalanche danger in the Katunskiy Range, Altai. Reviakin, V.S., et al, [1977, p.157-162, rus] 34-3389
Proceedings. [1979, 271p., eng] 34-3437
Breaking the ice with COTRA. Pallister, A.E., [1979, p.15-29, eng] 34-3438
Environmental aspects of Arctic marine transportation and development. Roots, E.F., [1979, p.69-96, eng] 34-3439
Petroleum development in northern Alaska. Bregha, F., [1979, p.223-253, eng] 34-3440
Timan-Pechora Complex. Construction problems. Kochurin, N.N., [1979, 167p., rus] 34-3666
Far North: nature and man. Prospects of economic development. Kriuchkov, V.V., [1979, 127p., rus] 34-3668
Polynyas and prehistoric settlement patterns. Schledermann, P., [1980, p.292-302, eng] 34-3868
Introduction to town planning and related matters in the Soviet North, based upon information collected during the exchange visit by a Canadian delegation to the Soviet Union—September 25th to October 7th, 1977. Slipchenko, W., et al, [1978, 426p., eng] 34-3896
Transport planes in the economic development of northern USA and Canada. Chudnovskii, A., [1978, p.44-47, rus] 34-3901
Role of the Soviets in environmental development in the polar regions. Sollie, F., [1979, 15p., nor] 34-3921
Formulating mathematical models for studying the effects of human activity on the atmosphere in industrial regions. Marchuk, G.I., et al, [1979, p.28-37, rus] 34-4167
Siberian forests and their rational development. Isaev, A.S., et al, [1979, p.46-59, rus] 34-4169
Changes in geocryological conditions of economically developing areas in the North. Shvetsov, P.F., et al, [1979, p.112-120, rus] 34-4173
Symposium on biological problems of the North, 8th, Apatity, 1979. Abstracts of the papers. [1979, 177p., rus] 34-4213
Economic development and environmental protection in the Far North. Kriuchkov, V.V., et al, [1979, p.3-4, rus] 34-4214

Economic devopment

Ecosystems
Vegetational successions and other ecosystemic changes in two Arctic tundras. Peterson, K.M., [1978, 305p., eng] 34-1
Periglacial vegetation of the Katun Range. Reviakina, N.V., [1973, p.136-140, rus] 34-112
Phosphorus regeneration in fresh-water paramecia. Buechler, D.G., et al, [1974, p.339-343, eng] 34-201
Zoogeography of the Yamal-Gydan area, Western Siberia. Rutilevskii, G.L., [1979, p.88-117, eng] 34-530
Random differential equations as models of ecosystems: 3 Bayesian inference for parameters. Tiwari, J.L., et al, [1978, p.247-258, eng] 34-533
Nutrient chemistry of a large, deep lake in subarctic Alaska. LaPerriere, J.D., et al, [1977, 128p., eng] 34-624
Structure and dynamics of geosystems. Mikheev, V.S., ed, [1979, 136p., rus] 34-670
Comparative evaluation of principal ecologic-systematic animal groups as components of taiga geosystems. Verzhutskii, B.N., et al, [1979, p.3-13, rus] 34-671
Computer analysis of different natural regime indices for revealing geosystem structures. Kobeleva, N.V., et al, [1979, p.14-34, rus] 34-672
Classification of elementary geosystems of the Kondo-Sos'va Uplands. Mikheev, V.S., et al, [1979, p.74-83, rus] 34-676
Studying structures of some landscape facies in the Koibal'sk steppe. Purdik, L.N., [1979, p.84-100, rus] 34-677
Mathematical analysis of the dynamics of taiga facies. Cherkashin, A.K., [1979, p.121-133, rus] 34-679
Dynamics of the vegetation in the Mount Elbrus Region, USSR. Turmanina, V.I., et al, [1978, p.325-334, eng] 34-798
Main characteristics of the ecosystems of the Pamirs, USSR. Agakhaniants, O.E., et al, [1978, p.397-407, eng] 34-801
Seasonal rhythms in alpine tundra plant communities of the Urals. Gorchakovskii, P.L., et al, [1979, p.16-24, rus] 34-822
Regularities governing altitudinal distribution of steppe plant communities in Alashsk plateau, Tuva Autonomous Region. Namzalov, B.B., [1979, p.43-52, rus] 34-823
Landscape-ecological basis for forest melioration and biological recultivation of lands along the Tobol'sk-Amudar'ya channel. Chibilev, A.A., [1979, p.91-93, rus] 34-824
Environmental chemistry and cycling processes. [1978, 911p., eng] 34-907
Problems of synthesis in mineral cycling studies: the tundra as an example. Miller, P.C., [1978, p.59-71, eng] 34-908
Prognosis of rational use and protection of renewable natural resources in the Far North. Gel'berg, M.G., et al, [1979, p.14-51, rus] 34-958
Vegetation of the West Okhotsk area. Shlotgauer, S.D., [1978, 132p., rus] 34-967
Soils and the productivity of plant communities. Vol.4. Kovda, V.A., ed, [1979, 205p., rus] 34-1058
Structure of moss synusiae in the spotty tundra of the Agapa research station. Tishkov, A.A., [1979, p.5-14, rus] 34-1059
Dynamics of natural processes in highlands. Maksimov, E.V., ed, [1977, 131p., rus] 34-1093
Geographic aspects of mountain flora evolution in Central Asia. Agakhanants, O.E., [1977, p.93-108, rus] 34-1097
Cushion plants as indicators of climatic changes in the Central Asian highlands. Ukhacheva, V.N., [1977, p.109-119, rus] 34-1098
Components of forest tundra biogeocenoses in northern Okhotomor'e. Ignatenko, I.V., ed, [1977, 149p., rus] 34-1158
Vegetation of the "Snow Valley" station (Explanatory note to the vegetation chart). Shatkauskas, A.V., et al, [1977, p.24-34, rus] 34-1160
Vascular plants in the "Snow Valley" station. Khokhriakov, A.P., et al, [1977, p.44-48, rus] 34-1162

Flora and fauna of water bodies in the European North (Bol'shezemel'skaya Tundra taken as an example) Getsen, M.V., ed, [1978, 191p., rus] 34-1191
Lichen synusia at the upper limit of Anuy Plateau larch forests. Andreev, M.P., [1979, p.646-653, rus] 34-1443
Lichen synusia in Alpine phytocenoses of the northern part of Altai-Sayan Mountains. Sedel'nikova, N.V., et al, [1979, p.671-679, rus] 34-1444
Willow shrub communities in the east of Chukotka Peninsula. Sekretareva, N.A., [1979, p.957-970, rus] 34-1445
Fruiting of Arctic plants (Western Taymyr). Khodachek, E.A., [1979, p.1147-1158, rus] 34-1447
Ecologic-cenotic peculiarities of meadow-steppes cryophytes in Central Transbaikal. Dulepova, B.I., et al, [1979, p.1332-1340, rus] 34-1450
Seasonal and long-term dynamics of vegetation near the Dzhankuat glacier (Central Caucasus). Turmanina, V.I., et al, [1979, p.64-75, rus] 34-1756
Vegetational indices of precipitation in the Alpine belts of the Pamirs. Agakhaniants, O.E., et al, [1979, p.61-67, rus] 34-2182
Floristic regions of the world. Takhtadzhian, A.L., [1978, 247p., rus] 34-2362
Quantitative plant ecology. Miller, P.C., [1979, p.179-231, eng] 34-2495
Peculiarities of forest-swamp ecosystems in West Siberia. Glebov, F.Z., ed, [1978, 159p., rus] 34-2518
Statistical analysis of the relation between paludification and hydrometeorological characteristics of river basins in the central and southern taiga of West Siberia. Uskova, L.M., et al, [1978, p.5-14, rus] 34-2519
Studying the origin and structure of forest-swamp complexes. Glebov, F.Z., et al, [1978, p.14-59, rus] 34-2520
Boreal ecology. Pruitt, W.O., Jr., [1978, 73p., eng] 34-2581
Ecosystems of swamps in the USSR. Boch, M.S., et al, [1979, 187p., rus] 34-2886
Special management needs of alpine ecosystems. [1979, 100p., eng] 34-2957
Alpine ecosystems of western North America. Billings, W.D., [1979, p.6-21, eng] 34-2958
Range management in the alpine zone: practices and problems. Thilenius, J.F., [1979, p.43-64., eng] 34-2960
Revegetation of disturbed alpine rangelands. Brown, R.W., et al, [1979, p.76-94, eng] 34-2962
Future management and research needs in alpine ecosystems. Marr, J.W., [1979, p.95-100, eng] 34-2963
Arctic tundras and polar deserts of Taymyr Peninsula. Aleksandrova, V.D., ed, [1979, 206p., rus] 34-3033
Ground lichens in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Pilin, T.Kh., [1979, p.140-143, rus] 34-3044
Illustration of the roles of snow in the evolution of the winter cover of a lake. Adams, W.P., et al, [1980, p.100-116, eng] 34-3322
Vegetation of the "Snow Valley" station (Explanatory list with a diagram of vegetation). Shatkauskas, A.V., et al, [1980, p.24-35, eng] 34-3397
Flora of vascular plants of the "Snow Valley" station. Khokhriakov, A.P., et al, [1980, p.48-51, eng] 34-3399
Lake and its drainage area as a single natural system. Drabkova, V.G., et al, [1979, 194p., rus] 34-3480
Vegetation of the Markovo village area (the Anadyr' River Basin). Kozhevnikov, IU.P., [1978, p.30-52, rus] 34-3486
Installation test of the air-filled manned undersea chamber "Sprut" under the Arctic drift ice. Mel'nikov, I.A., et al, [1978, p.737-738, eng] 34-3540
Geographic peculiarities of metabolism and energy exchange in pine forests of Karelia and Murmansk region. Ziabchenko, S.S., et al, [1980, p.52-60, rus] 34-3864
Forests in the Vychegda river floodplain, their distribution and dynamics. Moiseev, B.N., et al, [1980, p.12-20, rus] 34-3879
Biomass volume and structure in larch forests of the northern Okhotsk Sea region. Moskaliuk, T.A., [1980, p.32-39, rus] 34-3880
Management of forest resources. Timofeev, N.V., [1979, 144p., rus] 34-4011
Life in the tundra. Chernov, IU.I., [1980, 236p., rus] 34-4015
Variations in altitudinal plant diatribution with longitude (Polar Urals-Putorana-Verkhoyan'e). Kuvaev, V.B., [1979, p.6-18, rus] 34-4084
Periglacial flora of the Katunskiy Range. Polozhiĭ, A.V., et al, [1979, p.18-23, rus] 34-4085
Basic characteristics of Alpine flora in North Koryakiya. Kharkevich, S.S., et al, [1979, p.33-42, rus] 34-4086
Peculiarities of flora in the West Okhotsk Sea area. Shlotgauer, S.D., [1979, p.42-47, rus] 34-4087
Alpine mosses of South Siberia. Bardunov, L.V., [1979, p.86-91, rus] 34-4088
Vegetational resources of Transbaikal, their preservation and use. Bolkov, T.G., ed, [1979, 97p., rus] 34-4091
Botanical objects of environmental protection near the lower Lena River. Trufanova, E.R., [1979, p.20-23, rus] 34-4108
Effects of zonality and environmental conditions on horizontal structure of phytocenoses of flat palsa peat bogs in West Siberia. Moskalenko, N.G., [1980, p.7-12, rus] 34-4142
Composition and structure of vegetation in ridge-pool swamps. Boch, M.S., et al, [1980, p.22-30, rus] 34-4144
Stability of tundra ecosystems in North Siberia. Bol'shakov, V.N., et al, [1979, p.60-66, rus] 34-4170
Regularities governing plant distribution with respect to snow cover in the southeastern Chukotskiy Peninsula. Balandin, S.A., et al, [1979, p.24-25, rus] 34-4221
Changes in ecosystems of northern Kola Peninsula due to human activities. Kriuchkov, V.V., et al, [1979, p.39-42, rus] 34-4224
See also: Ecology; Forest ecosystems; Tundra biome

Elastic properties
Elastic and dissipative properties of peats and organic muds. [Aromko, V.N., et al, [1979, p.17-22, rus] 34-979
Study of the effects of pore-water salinity on some physical properties of sedimentary rocks at permafrost temperatures. Pandit, B.I., et al, [1979, p.1566-1580, eng] 34-1456
Analysis of flexible pavement resilient surface deformations using the Chevron layered elastic analysis computer program. Smith, N., et al, [1975, 13 leaves, eng] 34-1501
Structural steels usable at low temperature. Murry, G., [1979, p.7-17, fre] 34-2314
Bending and buckling of a wedge on an elastic foundation Nevel, D.E., [1980, p.278-288, eng] 34-3747
See also: Ice elasticity; Snow elasticity; Viscoelasticity

Elastomers
Systems analysis of Arctic fuel dispensing equipment. Rosenfield, D.B., et al, [1979, 172p., eng] 34-1377

Electric charge
Nature of strength and deformation properties of argillaceous rocks. Osipov, V.I., [1979, 232p., rus] 34-1237
Charged dislocation in ice: 1. Existence and charge density measurement by X-ray topography Itagaki, K., [1978, 12p., eng] 34-1608
Influence of point charge electric field on homogeneous crystallization of supercooled water drops. Klingo, V.V., et al, [1979, p.26-32, rus] 34-3568
Experimental study of the freezing of water drops in a constant electric field. Shlykov, V.V., [1979, p.68-75, rus] 34-3573

Electric equipment
Effects of freezing temperatures and frozen ground conditions on enclosed wire in tube response. Miller, C.A., [1979, 45p., eng] 34-1360
Battery for Arctic radio repeater systems. Armstrong, W.A., et al, [1979, 26p., eng] 34-2282
Fundamentals of electrothermomechanical destruction of frozen rocks. Nekrasov, L.B., [1979, 230p., rus] 34-2869
Optimized linear variable differential transformer displacement transducer for cryogenic use. Sponagle, N.C., et al, [1980, p.759-761, eng] 34-3618

Electric fields
Preventing corrosion on Arctic pipelines. Peabody, A.W., [1979, p.28-42, eng] 34-1290
Electric field effect on crystallization of supercooled water. Nikandrov, V.IA., et al, [1979, p.65-70, rus] 34-2013
Fundamentals of electrothermomechanical destruction of frozen rocks. Nekrasov, L.B., [1979, 230p., rus] 34-2869
Theoretical analysis of homogeneous crystallization of supercooled water droplets in a constant homogeneous electric field. Klingo, V.V., et al, [1979, p.15-25, rus] 34-3567
Experimental study of the freezing of water drops in a constant electric field. Shlykov, V.V., [1979, p.68-75, rus] 34-3573

Electric heating
Heating bridge decks by electrical resistance. Havens J.H., et al, [1979, p.159-168, eng] 34-76
Shallow pipelines heated by electric cables. Kardymon, V.F., [1979, p.9, rus] 34-240
Electric panels for heating modular houses Kazantsev, I.A., et al, [1979, p.10-11, rus] 34-241
Recommendations for using heated forms in casting monolithic concrete structures. [1977, 95p., rus] 34-583
Determining thawing rate of permafrost with an alternating electrical current. Maksimenko, E.S., [1976, p.65-70, rus] 34-706
Power transmission lines in high mountains Davidian, D.B., [1979, 188p., rus] 34-721
Transfer of heat from a surface source along pipe walls. Kardymon, V.F., [1974, p.94-106, rus] 34-757
Reusable heating-panel frame with new types of heating units. Beliaev, A.M., et al, [1979, p.16-18, rus] 34-1150
Discussion on methods of concreting in the North. Ostryl, V.M., [1979, p.34, rus] 34-1184
Heating cables for electric warming of joints and situ-cast concrete structures. Astashev, V.M., et al, [1979, p.10-12, rus] 34-1432
Development of equipment for preventing the adhesion of ice or snow to contact wire Mizuno, J., et al, [1974, p.81-82, eng] 34-2652
Development of feeding systems for preventing the adhesion of ice or snow to contact wire. Saijo, T., [1973, p.155-156, eng] 34-2664
Air heating of underground pedestrian crossings. Muftiev, A.D., [1979, p.26, rus] 34-2702
Fundamentals of electrothermomechanical destruction of frozen rocks Nekrasov, L.B., [1979, 230p., rus] 34-2869
Simplified method of calculating frozen rock heating by an electromagnetic field, allowing for phase transformations Rikenglaz, L.E., et al, [1980, p.15-17, rus] 34-4252

Electric potential
Electromagnetic radiation of snow and ice during dynamic processes. Kachurin, L.G., et al, [1979, p.583-585, rus] 34-1638

Electric power
Wall panels with polyurethane foam thermal insulation used in power plant construction. Danenkov, V.D., et al, [1979, p.33-34, rus] 34-196
Electric-heat supply for the construction region encompassing the Boguchany hydroelectric plant Ivanova, E.V., [1978, p.1084-1087, eng] 34-324
Analysis of soil state in the core of the Ust-Khantaika hydroelectric plant dam. Kronik, IA.A., et al, [1978, p.1105-1112, eng] 34-325
Power from glaciers: the hydropower potential of Greenland's glacial waters. Partl, R., [1977, 54p., eng] 34-653
Some potential ice problems associated with hydroelectric development in Alaska. Osterkamp, T.E., [1977, p.4-6, eng] 34-690
Antecedent and recent stream pattern of the Amur-Zeya Plain from spaceborne photography. Muzis, A.I., [1979, p.75-80, rus] 34-1070
Geography of Siberian resource development. Kosmachev, K.P., ed, [1979, 107p., rus] 34-1099
New features in economic development of the Angara River area near Krasnoyarsk in relation to the construction of the Boguchansk hydroelectric power plant. Medvedkova, E.A., [1979, p.19-32, rus] 34-1100
Peculiarities of special mobile power supply stations for the Baykal Amur railroad. Talts, V.G., [1979, p.26-28, rus] 34-1254
Glaciological investigations in Johan Dahl Land, South Greenland, as a basis for hydroelectric power planning Olesen, O.B., [1978, p.84-86, eng] 34-1566
Economic development of the northern USSR and the formation of a basic transportation pattern. Burkhanov, V.F., [1979, p.14-20, rus] 34-1621
Field trip No.4: Northern Manitoba District of Keewatin Brown, R.J.E., et al, [1979, 76p., eng] 34-1693
Power supply on construction sites of hydroelectric power plants. Velts, I.E., [1979, p.41-44, rus] 34-1849
Organizing the preliminary period of the Kolyma hydroelectric power plant construction. Pavlov, B.N., et al, [1979, p.44-47, rus] 34-1850
Reliability of 6 kV power lines in coal mines in glaze development areas. Manatskov, B.M., [1972, p.110-117, rus] 34-1906
Axial flow wind air-turbine NU-102 with electric eddy-current brake. Awano, S., et al, [1979, 57p., eng] 34-2157
Ecologic considerations when making decisions concerning power-fuel supply systems. Alekseeva, G.V., et al, [1978, p.103-108, rus] 34-2248
Battery for Arctic radio repeater systems. Armstrong, W.A., et al, [1979, 26p., eng] 34-2282
Construction of underground structures for hydroelectric power stations in the Far North Grossman, I.I., et al, [1979, 128p., rus] 34-2493
Investigation into outages of electric power supply as the result of ice storms [1979, 51p + 16p appends., eng] 34-2505
Annotated bibliography on freshwater ice [1971, 425p., eng] 34-2507
Ways of improving the construction of power supply objects for the Baykal Amur railroad Naianov, V.G., et al, [1980, p.43-45, rus] 34-2566
Design and construction of power supply lines for the Baykal Amur railroad area Shimkovich, V.G., [1980, p.45-58, rus] 34-2567
Design and construction of electric substations in the western section of the Baykal Amur railroad Gromov, V.V., et al, [1980, p.49-51, rus] 34-2568
Design and construction of substations and maintenance depots for the central Baykal Amur railroad area Filatov, A.M., [1980, p.51-53, rus] 34-2569
Construction of 220 kw substations under northern conditions Kolbin, S.A., et al, [1980, p.52-54, rus] 34-2577
Hydroelectric power generation in Siberia and the Far East. Neporozhnii, P.S., [1979, 151p., rus] 34-2600
Radioisotope power for polar camps [1967, p.8-9, eng] 34-2811
Forecasting hydrograph of spring water inflow into the Novosibirsk reservoir Mihukova, O.A., [1978, p.24-40, rus] 34-2893

Electric power *(cont.)*
Passage of ice during construction of the Sayano-Shushenskoe hydroelectric station. Koren'kov, V.A., [1980, p.777-781, eng] 34-3376
Geoengineering and hydrogeologic studies of the zone of influence of the Angara reservoirs and means of effective incorporation of these results in the national economy. Odintsov, M.M., et al, [1980, 10p., eng] 34-3393
See also: Tidal power plants; Wind power generation

Electric switches
Ice-release coating for disconnect switches. Mundon, J.L., [1980, 24p., eng] 34-3085

Electrical conductivity
See: Electrical resistivity

Electrical grounding
Power transmission lines in high mountains. Davidian, D.B., [1979, 188p., rus] 34-721
Electrical grounding at the Ust'-Ilim hydroelectric power plant. Zenger, E.A., et al, [1978, p.111-119, rus] 34-2105

Electrical logging
Determining aquifer permeability from electrical logs in West Siberia. Balabanov, A.P., et al, [1979, p.50-54, rus] 34-3482

Electrical properties
Determining electrical properties of grounds in petroleum regions. Kondrashov, A.G., [1980, p.10-11, rus] 34-2594
Classification of permafrost-cross section elements according to their electrochemical activity. Mel'nikov, V.P., et al, [1978, p.58-65, rus] 34-2922
Problems and possibilities of studying the processes of dynamic relaxation in frozen earth materials. Frolov, A.D., [1980, p 149-167, eng] 34-3243
Isothermal changes in the structure and electrical properties of polycrystalline ice. Girs, S.P., et al, [1979, p.53-56, rus] 34-3570
Studying variations in surface electrical conductivity of some ice-forming substances interacting with water vapor. Vlasov, S.A., et al, [1979, p.76-81, rus] 34-3574
See also: Dielectric properties; Ice electrical properties; Snow electrical properties

Electrical resistivity
In-situ measurements of the activation energy for D.C. conduction in polar ice. Bentley, C.R., [1979, p.237-246, eng] 34-539
Oceanographic observations at stations along the triangular grids during the Mixed Layer Experiment, August 1, 1978. Volume 84-C. Miyake, M., [1979, 191p., eng] 34-563
Study of the theoretical and practical determination of hydrogeological parameters in glacial outwash sands by surface geoelectrics. Urish, D.W., [1978, 336p., eng] 34-604
Frost gauges and freezing gauges. Banner, J.A., et al, [1979, 18p., eng] 34-779
Hydrochemical separation of components of discharge in alpine catchments. Collins, D.N., et al, [1979, p.1-9, eng] 34-1050
Electrolytic conductivity of water, snow and ice in the basin of the Kolka Glacier. Fleetwood, A., [1974, p.387-395, eng] 34-1207
Hydrochemistry of meltwaters draining from an alpine glacier. Collins, D.N., [1979, p.307-324, eng] 34-1284
Study of the effects of pore-water salinity on some physical properties of sedimentary rocks at permafrost temperatures. Pandit, B.I., et al, [1979, p.1566-1580, eng] 34-1456
Geophysics in the study of permafrost. Scott, W.J., et al, [1979, p.93-115, eng] 34-1682
Quantitative determination of the subglacial hydrology of two alpine glaciers. Collins, D.N., [1979, p.347-362, eng] 34-2244
Chemistry and clay mineralogy of cores 8, 9, 10, New Harbor, Antarctica. Ugolini, F.C., et al, [1979, p.84-102, eng] 34-2288
Soil resistivity—measurement and analysis. Palmer, J.D., [1974, p.41-46, eng] 34-2392
Cathodic protection of a bridge deck: preliminary investigation. Stratfull, R.F., [1974, p.24-25, eng] 34-2393
Recrystallisation and electrical behaviour of glacier ice. Reynolds, J.M., et al, [1980, p.63-64, eng] 34-2538
Investigation of bottom mass-balance rates by electrical resistivity soundings on the Ross Ice Shelf, Antarctica. Shabtaie, S., et al, [1979, p.331-343, eng] 34-2836
Analysis of the *In-situ* resistivity of sea ice in terms of its microstructure. Timco, G.W., [1979, p.461-471, eng] 34-3785
Field techniques for experimental stress analysis in Arctic sea ice. Cochran, G.V.B., [1980, p.175-182, eng] 34-3809
Break-up of the Yukon River at the Haul Road Bridge: 1979. Stephens, C.A., et al, [1979, 22p. + Figs., eng] 34-4193

Electricity
See: Cloud electrification; Dielectric properties; Geoelectricity

Electromagnetic properties
Raman studies of ice VI using a diamond anvil cell. Abebe, M., et al, [1979, p.4167-4169, eng] 34-1291
Contrast of electromagnetic characteristics at the marine ice-water boundary. Bogorodskii, V.V., et al, [1979, 6p., eng] 34-1397
Electromagnetic radiation of snow and ice during dynamic processes. Kachurin, L.G., et al, [1979, p.583-585, rus] 34-1638
Anisotropic properties of sea ice in the 50-150 MHz range. Kovacs, A., et al, [1979, p.324-353, eng] 34-3054

Electromagnetic prospecting
Microwave measurements of snow stratigraphy and water equivalence. Boyne, H.S., et al, [1979, p.20-26, eng] 34-1052
Investigation into the use of time domain reflectometry to determine the unfrozen water content of freezing soils. Smith, M.W., et al, [1979, 37p., eng] 34-1581
Geophysics in the study of permafrost. Scott, W.J., et al, [1979, p.93-115, eng] 34-1682
All-Union scientific-technical conference on the engineering-geological basis of seismic microregionalization, 1st, Tashkent, Nov. 18-20, 1987. Summaries of reports. [1975, 98p, rus] 34-2057
Using electric survey data in seismic microregionalization of permafrost areas. Basov, A.D., et al, [1975, p.67-68, rus] 34-2061
Effects of seasonal changes and ground ice on electromagnetic surveys of permafrost. Arcone, S.A., et al, [1979, 33p., eng] 34-2363
Moon, glaciers and permafrost. Strangeway, D.W., [1978, p.2-4, eng] 34-2649
Electromagnetic sounding of bottom crevasses on the Ross Ice Shelf, Antarctica. Jezek, K.C., et al, [1979, p.321-330, eng] 34-2835
Geocryological conditions in Asian mountains and plains. Nekrasov, I.A., ed, [1978, 164p., rus] 34-2938
Using electrical survey data in geocryologic and geologic evaluations. Shasherin, I.V., [1978, p.131-141, rus] 34-2954
Sea ice thickness determination using electromagnetic subsurface profiling. Orange, A., et al, [1973, 41p. + figs., eng] 34-3094
Use of AC current surveys in permafrost studies. Avetikian, IU.A., [1980, p.43-56, eng] 34-3236
Electrical state of a permafrost cross section. Mel'nikov, V.P., et al, [1980, p.85-102, eng] 34-3239

Electron microscopy
Electron microscope investigations of frozen and unfrozen bentonite. Kumai, M., [1979, 14p., eng] 34-1578
911 years of microparticle deposition at the South Pole: a climatic interpretation. Thompson, E.M., [1979, 200p., eng] 34-2455
Isothermal changes in the structure and electrical properties of polycrystalline ice. Girs, S.P., et al, [1979, p.53-56, rus] 34-3570
See also: Scanning electron microscopy

Electronic equipment
System for accurate temperature control of small fluid baths. Morgan, V.I., [1979, p.389-391, eng] 34-552
Investigation into the use of time domain reflectometry to determine the unfrozen water content of freezing soils. Smith, M.W., et al, [1979, 37p., eng] 34-1581

Electroosmosis
Electrochemical treatment of clay foundations. Zhinkin, G.N., et al, [1980, 164p., rus] 34-3756

Elephant Island
Three soil profiles from Elephant Island, South Shetland Islands. O'Brien, R.M.G., et al, [1979, p.1-12, eng] 34-12

Elevation
See: Altitude

Embankments
Use of polymer materials in embankment slope stabilization. Stafeev, P.F., et al, [1979, p.127-131, rus] 34-129
Steel mains of the country. Melkonov, S.S., [1979, p.6-10, rus] 34-518
Eliminating seasonal fluctuations in construction. Fedorov, V., [1979, p.31-32, rus] 34-839
Interaction between natural and technical systems (railroad track operation taken as an example). Kaiuchkin, N.P., [1979, p.33-46, rus] 34-1101
Evaluating bearing capacity of weak ground beneath road embankments. Solov'ev, IU.I., et al, [1979, p.40-42, rus] 34-1255
Allowing for seismic effects when designing reinforced concrete culverts beneath embankments. Abduzhabarov, A.Kh., [1979, p.43-44, rus] 34-1256
Ways of improving winter maintenance of roads. Bialobzheskii, G.V., et al, [1979, p.9-11, rus] 34-1419
Fills as soil protecting covers and foundations for structures. Konstantinov, I.P., [1979, p.62-73, rus] 34-1513
Hydrogeologic studies for drainage and water supply engineering. Artsev, A.I., [1979, 285p., rus] 34-1653
Experimental research on an embankment at the lower limit of alpine permafrost. Kuo-tung, C., et al, [1979, p.199-222, eng] 34-1689
Hydromechanization of earthwork in West Siberia. Vavilov, N.G., [1979, p.4-6, rus] 34-1714
Permafrost thawing beneath pipes with different pipe laying methods. Zamolotchikova, S.A., [1979, p.73-79, rus] 34-1916
Rock fill stability on embankment slopes. Matveev, K.V., et al, [1977, p.80-87, rus] 34-2056
Regularities governing the propagation of railroad induced oscillations in cohesive soils. Chokhonelidze, G.I., et al, [1975, p.76-77, rus] 34-2063
Difficult trip. Zhukov, P.L., [1979, p.34-36, rus] 34-2124
Peculiarities of road maintenance in East Siberia and the Far East. Nikitin, G.G., [1980, p.19-20, rus] 34-2802
Deformation of embankments built on permafrost. Ivanov, V.N., [1979, p.20-22, rus] 34-2859
Collection No.1 of unified regional individual estimates for construction. Earthwork. [1977, 247p. (Pertinent p.200-246), rus] 34-2868
Design and construction experiences with fluid retaining embankments on peat. Wiesner, W.R., et al, [1978, p.81-115, eng] 34-2910
Role of fabric in low embankments on muskeg. Greenway, D.R., et al, [1978, p.165-181, eng] 34-2914
More attention to access roads. Khvostik, I.F., [1980, p.5-6, rus] 34-2974
Recommendations for the design and construction of tailings dumps under severe climatic conditions. [1977, 152p., rus] 34-3196
Strength and stability of railway subgrades in permafrost regions. Peretrukhin, N.A., [1980, p.255-267, eng] 34-3250
Construction of earth embankments for highways in West Siberia. Popov, B.I., et al, [1980, p.269-281, eng] 34-3251
Design of roads and railroads on natural bases in the southern permafrost distribution zone. Potatueva, T.V., [1980, p.84-90, rus] 34-3291
Environmental protection problems related to the construction of embankments and porous fills on permafrost. Kaganovskaia, S.E., [1980, p.90-94, rus] 34-3292
Determining stability of tailings dump embankments. Zaslavskii, S.V., [1978, p.76-77, rus] 34-3357
Post-construction sagging of Baykal Amur railroad embankments. Guletskii, V.V., et al, [1980, p.6-7, rus] 34-3598
Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p (Pertinent p.230-344), rus] 34-3600
Heat transfer of a pipeline placed in an embankment. Furman, A.V., et al, [1979, p.116-119, rus] 34-3865
Construction of an embankment with frozen soil. Botz, J.J., et al, [1980, 105p., eng] 34-3873
Justification of earth-fill stages in embankment construction on permafrost. Kurochkin, A.A., [1978, p.55-59, rus] 34-3886
Design and operation of tailing ponds. Maul', V.K., [1979, p.62-65, rus] 34-4156

Enclosures
Selecting modular structures for northern construction sites. Koposhko, V.S., [1977, p.138-140, rus] 34-994

Energy conservation
Alaska energy project phase 2: planning energy technologies for a new Alaska community. Final report. [1978, 206p., eng] 34-2165

Engineering
Report of the Joint U.S.-Canadian Northern Civil Engineering Research Workshop. Carlson, R.F., ed, [1978, 72p., eng] 34-771
Engineering at the ends of the earth; polar ocean technology for the 1980's. [1979, 74p., eng] 34-844
Annotated bibliography on northern environmental engineering, 1974-75. Cameron, J.J., et al, [1977, 154p., eng] 34-892
Inventory of Canadian research and development capabilities for engineering in cold regions. [1978, 510p., eng] 34-2005
Non-linear theory relating to visco-compressible materials with applications to snow mechanics. Costes, N.C., [1965, 250p., eng] 34-2421
Methods of investigations in engineering geocryology. Dement'ev, A.I., et al, [1967, 67p., eng] 34-3159
English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 2. [1980, 428p., eng] 34-3232
Northwest Alaskan gas line project: engineering, prebuilding, route studies. [1980, p.12-16, eng] 34-3441
Undersea pipelines and cables in polar waters. Mellor, M., [1978, 34p., eng] 34-3448
Overview [International Workshop on the Seasonal Sea Ice Zone]. Weeks, W.F., [1980, p.1-35, eng] 34-3625
Offshore pipelines in the Arctic. [1980, p.20-24, eng] 34-3989
Assessment of Arctic offshore pipelines. Muraszew, A., et al, [1980, 6 sections, eng] 34-3991
See also: Avalanche engineering; Human factors engineering, Military engineering; Sanitary engineering

Engineering geology
Engineering geology of the U.S.S.R. Vol.5, Altai and Ural Mountains. Trepetsov, E.V., ed, [1978, 220p., rus] 34-768
History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, [1979, 215p., rus] 34-1067
Recent tectonics and river valleys in the Ilim, Ust'-Kutsk and Katanga areas in relation to land reclamation problems. Zveder, L.N., [1979, p.71-75, rus] 34-1069

Antecedent and recent stream pattern of the Amur-Zeya Plain from spaceborne photography. Muzis, A.I., [1979, p.75-80, rus] 34-1070
Chonkemin Valley terraces and the glaciation of northern Tien Shan. Bylinskaia, L.N., [1979, p.137-143, rus] 34-1073
Problems and results of studying the relief of Siberia and the Far East. Nikolaev, V.A., [1979, p.192-206, rus] 34-1075
Engineering geocryology. Mel'nikov, P.I., ed, [1979, 208p., rus] 34-1533
Engineering problems of geocryological surveying of BAM construction sites. Vialov, S.S., [1979, p.149-156, rus] 34-1548
Hydrogeologic studies for drainage and water supply engineering. Artsev, A.I., [1979, 285p., rus] 34-1653
Special geomorphologic map for studying permafrost. Gavrilov, A.V., et al, [1979, p.75-80, rus] 34-1770
Types of geocryologic forecasting. Maksimova, L.N., [1979, p.63-72, rus] 34-1915
Engineering-landscape investigations and surveys of railroad routes in mountain taiga. Popovichev, E.A., [1968, p.19-26, rus] 34-2019
Technical and economic calculations of field work for engineering surveys and landscape studies in mountain taiga. Popovichev, E.A., [1968, p.44-53, rus] 34-2020
Radar surveying in engineering-geological studies. Valiakh, V.M., et al, [1979, p.45-49, rus] 34-2128
Geomorphology and construction. Spiridonov, A.I., ed, [1979, 190p., rus] 34-2746
Ravine erosion forecasts for engineering purposes. Kosov, B.F., et al, [1979, p.59-67, rus] 34-2747
Studies and forecasts of mudflows in construction. Dumitrashko, N.V., [1979, p.67-72, rus] 34-2748
Spaceborne methods of studying exogenic relief-forming processes for construction. Revzon, A.L., et al, [1979, p.103-108, rus] 34-2750
Engineering evaluation of the relief of the western part of the Baykal Amur railroad area. Druzhinin, M.K., [1979, p.120-127, rus] 34-2752
Engineering-geomorphological conditions of the western Baykal Amur railroad area from satellite photographs. Sladkopevtsev, S.A., [1979, p.127-138, rus] 34-2753
Exogenic processes in the Baykal Amur railroad construction area. Denisenko, I.S., et al, [1979, p.175-183, rus] 34-2759
Delineation and engineering characteristics of permafrost beneath the Beaufort Sea. Sellmann, P.V., et al, [1979, p.93-115, eng] 34-3056
Infrared aerial survey in studying natural resources. Shilin, B.V., [1980, 247p., rus] 34-3591
Computer application to geocryological-engineering-geological mapping. Kozlov, A.N., et al, [1980, p.61-65, rus] 34-3904
Principles of engineering-geological regionalization of permafrost zone for construction of hydroelectric power plants. Krivonogov, M.G., [1980, p.116-119, rus] 34-4127
History of geocryological studies in West Yakutia. Mel'nikov, P.I., [1979, p.3-6, rus] 34-4150

Engines

Icing preventing device for a carburetor for two-cycle engine. Sakai, M., [1977, 4 col., eng] 34-261
Evaluation of automotive engine preheaters as a technique to control cold start carbon monoxide emissions - a final report. Leonard, L.E., et al, [1978, 76p., eng] 34-842
Carbon monoxide emissions from moving vehicles in Fairbanks, Alaska. Leonard, L.E., [1977, 45p., eng] 34-843
Product improvement test (cold weather/snow ingestion) of the OH-58C helicopter. Niemiec, S.M., et al, [1979, 71p., eng] 34-1346
Cycle diagrams of icebreaker steam-turbine plants. IUdovin, B.S., [1979, p.28-34, rus] 34-2695
See also: Diesel engines

Entrainment

See: Air entrainment

Environment simulation

Numerical simulation of atmospheric ice accretion. Ackley, S.F., et al, [1979, p.44-52, eng] 34-57
Preliminary assessment of an ice accretion system. Tattelman, P., [1979, p.53-56, eng] 34-58
Environmental model for predicting impacts from deicing salts. Thuet, J.H., [1979, p.61-65, eng] 34-60
Use of synthetic snowfalls in the evaluation of snow removal systems. Sage, J.D., [1979, p.121-128, eng] 34-71
Computer simulation of urban snow removal. Tucker, W.B., et al, [1979, p.293-302, eng] 34-95
Numerical simulation of jet roof geometry for snow cornice control. Dawson, K.L., et al, [1979, 19p., eng] 34-778
Assessment of the ecological effects of an oil spill in an offshore subarctic environment. Birchard, E.C., et al, [1978, p.835-855, eng] 34-1372
Statistical study of passage into Beaufort Sea via Point Barrow. Wilson, S.R.G., [1977, 108p., eng] 34-1763
Simulated glacial abrasion. Mathews, W.H., [1979, p.51-56, eng] 34-2222
Ice accretion studies under simulated shipboard icing conditions. Rubin, E.H., [1969, 55p., eng] 34-2604

Environmental impact

Vegetational successions and other ecosystemic changes in two Arctic tundras. Peterson, K.M., [1978, 305p., eng] 34-1
Environmental assessment of the Alaskan continental shelf. Vol.1. Physical science studies. [1979, 581p., eng] 34-14
Transport, retention, and effects of the water-soluble fraction of Cook Inlet crude oil in experimental food chains. Whipple, J.A., et al, [1979, p.535-581, eng] 34-17
Environmental model for predicting impacts from deicing salts. Thuet, J.H., [1979, p.61-65, eng] 34-60
Method of predicting road salt runoff in New Hampshire. Spear, P.W., et al, [1979, p.116-120, eng] 34-70
LNG transport in Parry Channel: possible environmental hazards. Smiley, B.D., et al, [1979, 47p., eng] 34-165
Summer environmental program Mackenzie River estuary. [1975, 3 vols., eng] 34-301
Environmental program Mackenzie delta, N.W.T. [1974, 9 parts, eng] 34-420
Community response strategies for environmental problems of water supply and wastewater disposal in Fairbanks, Alaska. Smith, D.W., et al, [1976, 28p., eng] 34-616
Alaska mining and water quality. Zemansky, G.M., et al, [1976, 113p, eng] 34-620
Impact of crude oil on root respiration and levels of soluble soil cellulase in coastal Arctic tundra. Linkins, A.E., et al, [1978, p.590-604, eng] 34-910
Variations in summer temperature patterns near Barrow, Alaska: analysis and ecological interpretation. Myers, J.P., et al, [1979, p.131-144, eng] 34-1277
Environmental assessment of the Alaskan continental shelf: lower Cook Inlet interim synthesis report. [1979, 241p., eng] 34-1338
Prudhoe Bay natural gas pipeline systems. [1976, 89p. (Pertinent p.62-82), eng] 34-1358
Analysis of disturbance effects of operations of off-road vehicles on tundra. Radforth, J.R., [1973, 77p., eng] 34-1359
Proceedings. [1978, 945p., eng] 34-1367
Fate and effect of Bunker C oil spilled by the USNS Potomac in Mellville Bay, Greenland, 1977. Petersen, H.K., [1978, p.331-343, eng] 34-1370
Physical aspects of the oil spill from the supertanker "Metula". Hann, R.W., [1978, p.354-363, eng] 34-1371
Assessment of the ecological effects of an oil spill in an offshore subarctic environment. Birchard, E.C., et al, [1978, p.835-855, eng] 34-1372
Crude oil in cold water. Milne, A.R., et al, [1979, 119p., eng] 34-1584
Report from the working group on noncorrosive methods of ice control. [1979, p.41-55, eng] 34-1585
Noncorrosive methods of ice control. Minsk, L.D., [1979, p.133-162, eng] 34-1586
Economic analysis of the environmental impact of highway deicing salts. Murray, D.M., [1977, p.29-40, eng] 34-1877
Potential interactions between pipelines and terrain in a northern environment. Van Everdingen, R.O., [1979, 7p., eng] 34-2142
Alaska energy project phase 2: planning energy technologies for a new Alaska community. Final report. [1978, 206p., eng] 34-2165
Ecology of elk on alpine tundra in Rocky Mountain National Park. Stevens, D.R., [1979, p.421-426, eng] 34-2263
Hot Arctic. Dyson, J., [1979, 290p., eng] 34-2456
Oil spill scenario for the Labrador Sea. LeDrew, B.R., et al, [1979, 675p., eng] 34-2479
Environmental code of good practice for highways and railways. [1979, c80p., eng] 34-2605
Construction-related impacts of the Trans-Alaska Pipeline System on terrestrial wildlife habitats. Pamplin, W.L., Jr., [1979, 132p., eng] 34-2607
Marine transportation systems of the Trans-Alaskan Pipeline System. [1971, 158p., eng] 34-2631
Special management needs of alpine ecosystems. [1979, 100p., eng] 34-2957
Revegetation of disturbed alpine rangelands. Brown, R.W., et al, [1979, p.76-94, eng] 34-2962
Future management and research needs in alpine ecosystems. Marr, J.W., [1979, p.95-100, eng] 34-2963
Environmental assessment of the Alaskan continental shelf. Vol.5, Receptors - Microbiology; Contaminant baselines. [1979, 698p., eng] 34-3048
Environmental assessment of the Alaskan continental shelf. Vol.6, Effects. [1979, 664p., eng] 34-3049
Environmental assessment of the Alaskan continental shelf. Vol.10, Hazards, Data management. [1979, 517p., eng] 34-3058
Recent geological processes and phenomena observed on the southern shore of Ob' Bay. Trepetsov, E.V., [1980, 4p., eng] 34-3402
Proceedings. [1979, 271p., eng] 34-3437
Draft environmental impact statement, Prudhoe Bay Oil Field Waterflood Project. [1980, 2 vols., eng] 34-3646
Biological importance of polynyas in the Canadian Arctic. Stirling, I., [1980, p.303-315, eng] 34-3869
Role of the Soviets in environmental development in the polar regions. Sollie, F., [1979, 15p., nor] 34-3921
Effects of the Trans-Alaska pipeline on caribou movements. Cameron, R.D., et al, [1979, 36p., eng] 34-3923
Fate and effects of crude oil spilled on subarctic permafrost terrain in interior Alaska. Johnson, L.A., et al, [1980, 128p., eng] 34-4079

Environmental protection

Environmental protection problems in the construction of gas industry objects. Poiseev, I.I., et al, [1977, p.99-104, rus] 34-120
Problems of the North. Study and utilization of natural resources and environmental protection. Shvetsov, P.F., et al, [1979, p.31-37, rus] 34-257
Use and protection of lands in the northern Irkutsk region and the BAM zone. Belykh, A.G., et al, [1979, p.95-99, rus] 34-445
Ecological problems of protecting taiga forests. Stadnitskii, G.V., et al, [1979, p.5-13, rus] 34-522
Classifying the northwest Siberian landscapes according to their stability under construction. Nefedova, V.B., [1979, p.42-47, rus] 34-525
Some guidelines for deciding Alaska's future; final report. [1979, 94p., eng] 34-565
End of the beginning. Coate, L.E., [1975, p.199-206, eng] 34-640
Geographic problems of the Baykal Amur railroad zone. Vorob'ev, V.V., ed, [1979, 143p., rus] 34-680
Historic and geographic evaluation of economic development of mountain taiga areas of the BAM zone. Kosmachev, K.P., [1979, p.3-17, rus] 34-681
Systems of economic development of natural resources in intermontane basins of Subarctic highlands. Mikhailov, IU.P., [1979, p.18-35, rus] 34-682
Vegetational cover in a eas adjacent to the Baykal Amur railroad and problems of its preservation. Belov, A.V., et al, [1979, p.36-[illegible], rus] 34-683
Rational use of water by Krasnoyarsk factories. Stegantsev, V.P., et al, [1974, p.152-158, rus] 34-763
Report of the Joint U.S.-Canadian Northern Civil Engineering Research Workshop. Carlson, R.F., ed, [1978, 72p., eng] 34-771
Hydrologic problems of environmental changes in West Siberia. Malik, L.K., [1978, 180p., rus] 34-845
Human influence on forest landscapes (Kan-Biryusa Plain). Rubtsov, N.I., et al, [1978, 128p., rus] 34-885
Systems approach to studying soil formation processes in landscapes affected by industrial activities. Trofimov, S.S., et al, [1979, p.3-19, rus] 34-947
Parcellar structure of phytocenoses and the inhomogeneity of young soils in industrially disturbed landscapes. Taranov, S.A., et al, [1979, p.19-57, rus] 34-948
Prognosis of rational use and protection of renewable natural resources in the Far North. Gel'berg, M.G., et al, [1979, p.14-51, rus] 34-958
Geography of Siberian resource development. Kosmachev, K.P., ed, [1979, 107p., rus] 34-1099
Interaction between natural and technical systems (railroad track operation taken as an example). Kaiuchkin, N.P., [1979, p.33-46, rus] 34-1101
Environment-forming role of forests in the Lake Baykal Basin. Lebedev, A.V., et al, [1979, 256p., rus] 34-1190
Forest land recultivation after pipeline construction. Vysotskii, A.N., [1979, p.26-27, rus] 34-1258
Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] 34-1508
Landscapes affected by industrial activities in permafrost areas of the northern Tyumen' region. Grigor'ev, N.F., [1979, p.35-44, rus] 34-1510
Preliminary disturbance of tundra covers as a means for improving geocryological conditions. Grigor'ev, N.F., [1979, p.45-50, rus] 34-1511
Studying the revegetation of tundra landscapes affected by industrial activities in the northern Yenisey River area. Skriabin, S.Z., [1979, p.51-61, rus] 34-1512
Geocryological conditions in the Yenisey River Valley (the Dudinka area) and changes induced by human activities. Kondrat'ev, V.G., et al, [1979, p.89-97, rus] 34-1515
Changes in tundra landscapes induced by mining. Olovin, B.A., [1979, p.98-112, rus] 34-1516
Technology and ecological consequences of dredging. Domenik, O.P., et al, [1979, p.113-117, rus] 34-1517
Hydrothermal variations in permafrost landscapes. Anisimova, N.P., [1979, p.148-152, rus] 34-1521
Thermal conductivity of natural and disturbed soils in northwestern Siberia. Mandarov, A.A., et al, [1979, p.153-157, rus] 34-1522
Threatened and endangered plants in selected areas of the BLM Fortymile Planning Unit, Alaska. Batten, A.R., et al, [1979, 127p., eng] 34-1557
Discussion of scientific and economic problems of northern development. Glabina, N.K., et al, [1979, p.137-146, rus] 34-1636
Proceedings of the first all-union symposium Biosphere and Man. [1975, 335p., rus] 34-1852
Geobotanical maps and plant conservation provisions for economically developing areas of Central and Eastern Siberia. Belov, A.V., [1975, p.206-207, rus] 34-1862
Mountain landscape protection in Siberia. Krylov, G.V., ed, [1973, 251p., rus] 34-1863
Scientific approaches to the problems of mountain landscape preservation. Fadeeva, N.V., et al, [1973, p.16-24, rus] 34-1864

Environmental protection *(cont.)*
Peculiarities of mountain landscapes in the Krasnoyarsk area and their protection. Kirillov, M.V., [1973, p.24-26, rus] **34-1865**
Small scale geobotanical mapping as a basis for scientific organization of Alpine vegetation protection. Belov, A.V., [1973, p.34-37, rus] **34-1866**
Scientific and practical significance of studying partial inhomogeneity of mountain taiga soils. Taranov, S.A., [1973, p.59-66, rus] **34-1867**
Utilization and protection of mountain forests. Beliak, V.I., et al, [1973, p.67-70, rus] **34-1868**
Rational utilization of Ural Mountain forests. Zubareva, R.S., et al, [1973, p.70-78, rus] **34-1869**
Microclimatic variations and pine forest revegetation in relation to economic development of the Sayan low mountain belt. Gaas, A.A., [1973, p.78-87, rus] **34-1870**
Utilization of mountain forests in the Kuznetskiy Basin. Kalinin, A.M., [1973, p.87-92, rus] **34-1871**
Forest protection in the northern Lake Baykal Basin. Tkachenko, A.I., [1973, p.93-98, rus] **34-1872**
Role of mountain forests of eastern Transbaikal and the Lake Baykal problem. Panarin, I.I., [1973, p.98-102, rus] **34-1873**
Resistance of some West Siberian forests. Taran, I.V., [1973, p.103-107, rus] **34-1874**
Rational use and preservation of Magadan area forests. Snytkin, G.V., [1973, p.119-125, rus] **34-1875**
Protection of mountain forests as a dependable water supply basis of Transbaikal. Tsyganok, V.I., [1973, p.135-138, rus] **34-1876**
Scientific conference of geographers from Siberia and the Far East. Geography and practice. Proceedings. [1978, 253p., rus] **34-2246**
Regional types of mining-affected lands in East Siberia and trends in their restoration. Savel'eva, I.L., et al, [1978, p.98-102, rus] **34-2247**
Ecologic considerations when making decisions concerning power-fuel supply systems. Alekseeva, G.V., et al, [1978, p.103-108, rus] **34-2248**
Forecasting changes in West Siberian landscapes due to pipeline construction. Moskalenko, N.G., [1978, p.115-119, rus] **34-2249**
Taiga in the global ecosystem. [1978, 112p., rus] **34-2457**
Pressing environmental protection problems in the Far East. Konovalenko, V.G., ed, [1978, 179p., rus] **34-2532**
Some aspects of environmental protection in the Far Eastern USSR. Konovalenko, V.G., [1978, p.3-6, rus] **34-2533**
Protection and use of biologic resources in the Baykal Amur railroad construction zone. Man'ko, IU.I., [1978, p.7-9, rus] **34-2534**
Mapping the use of restockable natural resources for geographic forecasting. Vorob'eva, T.A., et al, [1978, p.132-139, rus] **34-2537**
Environmental code of good practice for highways and railways. [1979, c80p., eng] **34-2605**
Environmental protection at construction sites of main pipelines. Gulikov, A.E., et al, [1979, p.12-13, rus] **34-2638**
Exogenic relief forming process in the cryolithozone. Sukhodrovskii, V.L., [1979, 280p., rus] **34-2684**
Influence of human factors on phytoplankton and water quality of the Angara River. Kozhova, O.M., et al, [1980, p.61-66, rus] **34-2707**
Drilling among the icebergs. Davids, R.C., [1980, p.2-7, eng] **34-2804**
Mining and the environment. Moisinets, V.N., et al, [1978, 191p., rus] **34-2808**
Ecosystems of swamps in the USSR. Boch, M.S., et al, [1979, 187p., rus] **34-2886**
Preparing counter-measures against under-ice oil spills. [1977, p.34-35, eng] **34-3017**
Studying the structure of forest tundra landscapes as indicators of engineering and geological conditions for economic development in West Siberia. Moskalenko, N.G., et al, [1979, p.88-100, rus] **34-3227**
English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 2. [1980, 428p., eng] **34-3232**
Geocryological survey methods. Kudriavtsev, V.A., et al, [1980, p.71-84, eng] **34-3238**
Environmental protection in economic development of permafrost areas. Grave, N.A., ed, [1980, 140p., rus] **34-3277**
Forecasting changes in geocryologic conditions during economic development of permafrost areas. Kudriavtsev, V.A., [1980, p.5-13, rus] **34-3278**
Forecasting changes in engineering-geocryological conditions induced by economic development of the north taiga zone in West Siberia. Grechishchev, S.E., et al, [1980, p.12-19, rus] **34-3279**
Studying changes in permafrost conditions due to construction in the Ust'-Ilimsk area. Maksimova, L.N., et al, [1980, p.19-25, rus] **34-3280**
Protection of environments and mineral resources in mined permafrost areas. Maksimov, V.M., et al, [1980, p.27-36, rus] **34-3282**
Changes in geocryological conditions and permafrost forecasting in areas of mining exploration. Shvetsov, P.F., et al, [1980, p.36-41, rus] **34-3283**
Rational utilization of engineering and geological resources. Demidiuk, L.M., [1980, p.42-50, rus] **34-3284**
Environmental protection problems related to placer mining in the North. Olovin, B.A., [1980, p.50-55, rus] **34-3285**
Some technical solutions for environmental protection of construction and mining sites in permafrost areas. El'chaninov, E.A., et al, [1980, p.55-60, rus] **34-3286**
Environmental protection problems on pipeline construction sites. Spiridonov, V.V., et al, [1980, p.60-66, rus] **34-3287**
Consequences of the disturbance of natural environments by the construction of linear structures in northern West Siberia. Sukhodol'skii, S.E., [1980, p.67-71, rus] **34-3288**
Typical natural environment disturbances in northern West Siberia due to construction of linear structures and forecasts of their development. Moskalenko, N.G., et al, [1980, p.71-78, rus] **34-3289**
Environmental protection problems on the Baykal Amur railroad construction sites. Alekseev, V.R., et al, [1980, p.78-84, rus] **34-3290**
Environmental protection problems related to the construction of embankments and porous fills on permafrost. Kaganovskaia, S.E., [1980, p.90-94, rus] **34-3292**
Restoration of natural landscapes disturbed by human activities. Liverovskii, IU.A., et al, [1980, p.111-115, rus] **34-3297**
Changes in the properties of soils in the eastern foothills of the Polar Ural Mountains and the adjacent plain caused by construction of linear structures. Liverovskaia, I.T., [1980, p.116-121, rus] **34-3298**
Disturbance of natural environments by construction of linear structures and the first stages of restoration of soil and vegetational covers. Smirnov, V.V., et al, [1980, p.121-127, rus] **34-3299**
Polar environmental monitoring: final report. [1979, 94p., eng] **34-3390**
Evaluating the possibilities of forecasting swamp transformations due to land reclamation. Galeta, I.F., [1978, p.12-23, rus] **34-3608**
Correlation between physiological-biochemical indices of woody plants and hydrothermal conditions of media. Zhiboedov, P.M., et al, [1976, p.106-118, rus] **34-3614**
Draft environmental impact statement, Prudhoe Bay Oil Field Waterflood Project. [1980, 2 vols., eng] **34-3646**
Timan-Pechora Complex. Construction problems. Kochurin, N.N., [1979, 167p., rus] **34-3666**
Far North: nature and man. Prospects of economic development. Kriuchkov, V.V., [1979, 127p., rus] **34-3668**
Hydroclimatic influence of forests. Protopopov, V.V., ed, [1979, 144p., rus] **34-3768**
Environmental protection, a public responsibility. Miloserdov, V.N., [1980, p.1-2, rus] **34-3955**
Vegetational resources of Transbaikal, their preservation and use. Bolkov, T.G., ed, [1979, 97p., rus] **34-4091**
Forest fire protection in the northern Buryat ASSR. Evdokimenko, M.D., [1979, p.58-63, rus] **34-4094**
Environmental protection in Yakutia. Andreev, V.N., ed, [1979, 181p., rus] **34-4106**
Rational use of natural resources in the Central Lena River area. Gubkin, M.P., et al, [1979, p.10-14, rus] **34-4107**
Botanical objects of environmental protection near the lower Lena River. Trufanova, E.R., [1979, p.20-23, rus] **34-4108**
Influence of tracked vehicles on tundra. Andreev, V.N., et al, [1979, p.42-47, rus] **34-4109**
Control of radiation-thermal balance, the basis of environmental protection in permafrost areas. Kudriavtsev, V.A., [1980, p.3-6, rus] **34-4116**
Indices used in evaluating the stability of permafrost areas to variations in natural conditions and consequences of human activities in permafrost areas. Garagulia, L.S., et al, [1980, p.53-58, rus] **34-4121**
Planning environmental protection during the development of uninhabited areas. Kukuevitskii, G.M., et al, [1979, p.50-53, rus] **34-4138**
Problems in rational utilization of natural resources and environmental control in North Siberia. Cherskii, N.V., ed, [1979, 158p., rus] **34-4164**
Studying the biosphere of North Siberia for environmental protection. Luchitskii, I.V., et al, [1979, p.3-19, rus] **34-4165**
Formulating mathematical models for studying the effects of human activity on the atmosphere in industrial regions. Marchuk, G.I., et al, [1979, p.28-37, rus] **34-4167**
Present state and prospects for studying protection of marine environments in the Arctic. Treshnikov, A.F., [1979, p.38-45, rus] **34-4168**
Siberian forests and their rational development. Isaev, A.S., et al, [1979, p.46-59, rus] **34-4169**
Geological aspects of use and protection of environments in northern West Siberia related to the development of oil and gas deposits. Sergeev, E.M., et al, [1979, p.95-103, rus] **34-4171**
Mining effect on natural environments. Shemiakin, E.I., [1979, p.104-111, rus] **34-4172**
Changes in geocryological conditions of economically developing areas in the North. Shvetsov, P.F., et al, [1979, p.112-120, rus] **34-4173**
Environmental protection in North Siberia. Gerasimov, I.P., [1979, p.122-138, rus] **34-4174**
Effect of human activities on the vegetational cover of Taymyr. Shchelkunova, R.P., [1979, p.139-152, rus] **34-4175**
Workshop on Environmental Protection of Permafrost Terrain. Brown, J., et al, [1980, p.30-36, eng] **34-4198**
Symposium on biological problems of the North, 8th, Apatity, 1979. Abstracts of the papers [1979, 177p., rus] **34-4213**
Economic development and environmental protection in the Far North. Kriuchkov, V.V., et al, [1979, p.3-4, rus] **34-4214**
Changes in Subarctic and boreal highlands vegetation due to human activities. Gorchakovskii, P.L., [1979, p.12-13, rus] **34-4217**

Environmental tests
Icing tests of a UH-1H helicopter with an electrothermal ice protection system under simulated and natural icing conditions. Cotton, R.H., [1979, 81p., eng] **34-1570**

Environments
Environmental quality conditions in Fairbanks, Alaska, 1972. Pearson, R.W., et al, [1976, 63p. + append., eng] **34-619**
Environmental Standards for Northern Regions: a symposium, June 1974, Anchorage, Alaska. Smith, D.W., ed, [1975, 389p., eng] **34-630**
Annotated bibliography on northern environmental engineering, 1974-75. Cameron, J.J., et al, [1977, 154p., eng] **34-892**
Nearshore environments of the North Slope and the petroleum industry. Schindler, J., et al, [1975, p.67-75, eng] **34-1724**
Inventory of Canadian research and development capabilities for engineering in cold regions. [1978, 510p., eng] **34-2005**
Growth of tundra vegetation in relation to Arctic microenvironments at Barrow, Alaska. Dennis, J.G., [1969, 305p., eng] **34-2042**
Ecology of alpine timberline in Olympic National Park. Fonda, R.W., [1979, p.209-212, eng] **34-2260**
Corrosion, deicing salts, and the environment. Chance, R.L., [1974, p.16-22, eng] **34-2394**
Construction-related impacts of the Trans-Alaska Pipeline System on terrestrial wildlife habitats. Pamplin, W.L., Jr., [1979, 132p., eng] **34-2607**
Exploration of the polar regions. Crary, A.P., [1973, p.246-258, eng] **34-2719**
Environmental conditions off the east coast of Canada: Sites 1 (63N, 59W) and 2 (60N, 60W). Danard, M., [1977, 75p., eng] **34-3110**
Distribution of alpine permafrost in the northern hemisphere and its relationship to the environmental condition. Fujii, Y., [1980, p.41-52, jap] **34-3158**

Eolian soils
Evolution of the soil landscape in the sand region of the Arctic coastal plain as exemplified at Atkasook, Alaska. Everett, K.R., [1979, p.207-223, eng] **34-687**
Scanning electron microscope examination of subglacial quartz grains from Camp Century core, Greenland– a preliminary study. Whalley, W.B., et al, [1980, p.125-131, eng] **34-3804**

Equilibrium diagrams
Diagram of metastable states of water. Kosiakov, V.I., et al, [1979, p.707, eng] **34-701**

Equipment
Experience with design and operation of bucket dredges for excavating sand-gravel-boulder soils. Freidin, V.M., [1978, p.1123-1126, eng] **34-326**
Arctic winter evaluation study of transportation equipment. [1973, var.p., eng] **34-479**
Arctic drilling barge study. [1971, var. p., eng] **34-557**
Logistics operations APOA Beaufort Sea projects 1970. Smith, J.G., [1970, 75p., eng] **34-596**
Thermal rock drill for permafrost. Goldaev, I.P., et al, [1973, 4 col., rus] **34-1215**
Snow retention heaper and swather. Gromov, V.S., [1974, 4 col., rus] **34-1216**
Ice breaking anti soil erosion plough. Shikula, N.K., et al, [1974, 2 col., rus] **34-1217**
Water area drift ice protection device. Ivanov, L.V., et al, [1976, 4 col., rus] **34-1223**
De-icing system for hydro-pneumatic units. Baldin, V.I., et al, [1974, 4 col., rus] **34-1224**
New developments in winter maintenance. Hoekstra, H., [1979, p.19-29, eng] **34-1242**
Maintenance techniques and equipment. Jacob, H., [1979, p.35-40, eng] **34-1244**
Systems analysis of Arctic fuel dispensing equipment. Rosenfield, D.B., et al, [1979, 172p., eng] **34-1377**
Diffusion systems for cold climate lagoons. Christianson, C.D., et al, [1974, p.170-206, eng] **34-1473**
Supplying northern enterprises with special equipment. Dashkova, T.E., [1979, p.109-112, rus] **34-1632**
Hot Arctic. Dyson, J., [1979, 290p., eng] **34-2456**
Technical Committee report on operational and winter maintenance. [1979, 120p., eng] **34-2478**
New apparatus to produce fresh snow. Nakamura, H., [1979, p.229-237, jap] **34-2540**
Clean up your snow rigs now for summer storage. Calder, R., [1980, p.24-26, eng] **34-2728**

Arctic test results, Phase 1, Task D. [1975, c500p., eng] 34-3102
Influence of procurement forms on magnitude of industrial supplies. Belinskii, B.V., et al, [1976, p.4-27, rus] 34-3338
Using Doppler hydroacoustic recorder in ice navigation. Shamkin, L.A., [1979, p.58-63, rus] 34-3474
Development of a high-speed rotary snowplow (HTR-700). Sasaki, T., et al, [1979, 27p., eng] 34-3634
Hardness of ice and a solar ice melter. Robinson, W.H., et al, [1979, p.4-8, eng] 34-3677
Dehydration of nonmetalliferous construction materials at low temperatures. Gurevich, V.G., et al, [1980, 70p., rus] 34-3824
Consequences of using new machines in the north taiga pine forests. Obydennikov, V.I., [1979, p.18-21, rus] 34-3859
Optimizing parameters of multibucket excavators of foundation pits. Solomonov, S.A., [1978, p.13-21, rus] 34-3941
Computing the speed of foundation pit excavation with chain-bucket excavators. Bass, B.A., [1978, p.22-31, rus] 34-3942
Experimental study of cutting frozen ground with percussion ground-breaking equipment. Solomonov, S.A., [1978, p.49-57, rus] 34-3943
Improving machines and equipment for reloading packed cargo at low temperatures. Grinevich, O.I., [1978, p.85-93, rus] 34-3944
MGI-58 equipment for layer-by-layer excavation of ground. Zakharov, V.A., et al, [1980, p.17-18, rus] 34-4054
Effective working tool of the ETTs-165 excavator for frozen ground. Sokolov, L.K., et al, [1980, p.18-19, rus] 34-4055
Retooling bulldozers for ripping and uprooting. Prytkov, I.V., [1980, p.23-24, rus] 34-4056
Winter flying package: 1. Ultimate winter enjoyment. Mackie, D., et al, [1978, p.22-25, eng] 34-4062

See also: Airborne equipment; Antennas; Augers; Balloons; Brakes (motion arresters); Centrifuges; Construction equipment; Core samplers; Cranes (hoists); Cutting tools; Deflectors; Drills; Electric equipment; Electric switches; Electronic equipment; Filters; Hammers; Ice booms; Infrared equipment; Machinery; Markers; Military equipment; Permafrost samplers; Portable equipment; Propellers; Pumps; Railroad equipment; Rescue equipment; Shafts (machine elements); Smoke generators; Snow fences; Snow samplers; Snow survey tools; Snowplanes; Telemetering equipment; Test equipment; Thermopiles; Valves; Wind tunnels

Erosion

Activities of snow-carrying streams. Sapunova, G.G., et al, [1979, p.201-202, rus] 34-2207
Superimposed rockfalls and climatic changes in northwestern Greenland. Malaurie, J., [1979, p.117-128, fre] 34-2321
Polar lithogenesis. Danilov, I.D., [1978, 238p., rus] 34-2902
Determining river ice frequency from the tree record. Egginton, P.A., [1980, p.265-270, eng] 34-2989
Environmental assessment of the Alaskan continental shelf, Vol.10, Hazards, Data management. [1979, 517p., eng] 34-3058

See also: Avalanche erosion; Glacial erosion; Ice erosion; Shore erosion; Snow erosion; Soil erosion; Water erosion; Wind erosion

ERTS imagery

Remote sensing and analysis of oceanographic parameters from ERTS-1. Needham, B.H., [1975, p.798-802, eng] 34-1234

Estuaries

Summer environmental program Mackenzie River estuary. [1975, 3 vols., eng] 34-304
Synopsis—ice in estuaries and harbours. Carstens, T., [1979, p.1-30, eng] 34-1959
Morphology and temperature of recent perennially frozen rocks in the shore and shallow-water areas of northern Yenisey and Pyasina rivers. Karpov, E.G., [1978, p.105-114, rus] 34-2927
Forecasting ice formation at the Kolyma River bay-mouth bar. Furmanov, O.M., [1979, p.130-132, rus] 34-3537

Eurasia

Sea ice. Part 3: ice distribution and forecast services, Eurasian waters. Wittmann, W., et al, [1974, p.219-229, eng] 34-1962

Evaporation

Preconcentration of dilute solutions at the 1/1,000,000 microgram/g level by nonboiling evaporation with variable variance calibration curves. Boutron, C., et al, [1979, p.140-145, eng] 34-729
Calculating evaporation from lakes in permafrost areas of the West Siberian Plain. Kachalova, T.V., [1979, p.50-60, rus] 34-830
Evaporation and runoff from undrained swamps in years with different moisture conditions. Bavina, L.G., [1979, p.61-73, rus] 34-831
Study of the vacuum-freezing high pressure ice-melting process. Cheng, C.Y., [1979, 70p., eng] 34-1142
Moisture balance in the system Antarctic ice sheet surface-atmosphere. Aver'ianov, V.G., [1979, p.209-211, rus] 34-2210
Heat and moisture content of taiga lands in the Irtysh River area. Nikitin, S.P., [1978, p.23-33, rus] 34-3609
Forest and hydrological regionalization of Central Siberia. Lebedev, A.V., [1979, p.25-58, rus] 34-3770
Investigation of vertical moisture transport in the upper layers of undrained highmoor bogs by means of radioactive isotopes. Surovov, V.I., [1978, p.1-5, eng] 34-3959

See also: Ice sublimation; Sublimation

Excavation

Improving construction equipment. Garkavi, N.G., et al, [1979, p.10-12, rus] 34-130
Electrothermomechanical and electrodynamic excavation of grounds. Protasov, IU.I., et al, [1979, p.16-17, rus] 34-131
New powerful pneumatic drift. Gurkov, K.S., et al, [1979, p.8-10, rus] 34-192
Earth excavator including apparatus for stabilizing performance by compensating for changes in temperature. Griffis, D.L., [1977, 18 col., eng] 34-267
Experience with design and operation of bucket dredges for excavating sand-gravel-boulder soils. Freidin, V.M., [1978, p.1123-1126, eng] 34-326
Excavation of hard rocks in the central section of the Baykal Amur railroad. Basistov, M.A., [1979, p.3-4, rus] 34-328
Using suction dredges with an ejection device. Mishina, L.V., et al, [1979, p.17-18, rus] 34-330
Modeling frozen ground as an abrasive medium. Gorbunov, V.F., et al, [1974, p.8-11, rus] 34-374
Adhesive scattering of energy at the contact. Kashcheev, V.N., et al, [1974, p.11-18, rus] 34-375
Types of wear at the impact contacts of surfaces. Sorokin, G.M., [1974, p.18-22, rus] 34-376
Methods of studying abrasion strength of materials at low temperatures. Koval'chuk, V.A., [1974, p.26-27, rus] 34-377
Abrasive wear at subzero temperatures. Kogan, IU.I., et al, [1974, p.27-31, rus] 34-378
Increasing resistance of materials to dynamic abrasive wear. Evdokimov, IU.A., et al, [1974, p.48-51, rus] 34-379
Abrasive strength of technically pure metals at low temperatures. Koval'chuk, V.A., [1974, p.56-60, rus] 34-380
Resistance of materials to wear at subzero temperatures. Tylkin, M.A., et al, [1974, p.78-81, rus] 34-382
Developing high impact-abrasion strength fuse-on metals. Razikov, M.I., et al, [1974, p.135-139, rus] 34-384
Laboratory testing of wear resistant alloys at subzero temperatures. Grinberg, N.A., et al, [1974, p.140, rus] 34-385
Selecting fuse-on metals for rapidly wearing details of construction and excavation machines working at subzero temperatures. Suslov, A.A., [1974, p.141-143, rus] 34-386
Technological means of increasing wear resistance of fused-on metals. Ermolaev, S.V., [1974, p.143-146, rus] 34-387
Wear of steel rubbing against frozen ground. Dorodnyi, V.I., [1974, p.160-164, rus] 34-388
Wear of machines working at low temperatures. Kashcheev, V.N., et al, [1974, p.183-188, rus] 34-391
Studying the process of frozen ground cutting with tools of different shapes. Sokolov, L.K., et al, [1974, p.193-200, rus] 34-392
Increasing wear resistance of excavator cutting tools in frozen ground. Marchenko, A.I., [1974, p.200-205, rus] 34-393
Studying the strength of cutting tools of trenching equipment working in frozen ground. Bondarenko, V.P., et al, [1974, p.205-210, rus] 34-394
Calculating the wear of cutting tools of bucketless trench excavators in frozen ground. Basov, I.G., et al, [1974, p.210-213, rus] 34-395
Wear of heat-treated steel and alloy cutting tools in frozen peat. Gorbunov, V.F., et al, [1974, p.213-217, rus] 34-396
Experimental study of cutting tools of mechanical shovels working in frozen ground. Petukhov, P.Z., et al, [1974, p.218-219, rus] 34-397
Wear resistance of teeth of the E-652 bucket excavator. Koval'chuk, V.A., et al, [1974, p.219-223, rus] 34-398
Wear resistance of some steels and fuse-on metals under different ground excavation conditions. IUzhakov, I.V., et al, [1974, p.276-278, rus] 34-400
Vibrating equipment used in mining construction. Shirai, E.N., [1978, 262p., rus] 34-848
Eskimo Point water supply program. Foster, R.R., et al, [1979, p.413-422, eng] 34-1157
Powerful bulldozer-scrapers. Monastyrskii, O.V., [1979, p.29-30, rus] 34-1425
Problems of transportation equipment in Yakutian mines. Vlasov, V.I., [1979, p.112-117, rus] 34-1633
Discussion of scientific and economic problems of northern development. Glabina, N.K., et al, [1979, p.137-146, rus] 34-1636
Basic factors determining the effectiveness of scrapers designed for frozen and hard grounds. Sakovich, V.L., et al, [1979, p.54-58, rus] 34-1696
Subgrade planning in freezing weather. Nedorezov, I.A., et al, [1979, p.24-26, rus] 34-1716
New road construction equipment. Volkova, A.E., [1979, p.22-23, rus] 34-1722
Earthwork on construction sites of the Baykal Amur railroad. Meshkov, V.M., [1979, p.24, rus] 34-1723
Methods of frozen ground excavation. Artemenko, M., [1979, p.32-34, 61, rus] 34-1773
New technology of recovering crushed ore when mining valuable metals at subzero temperatures. Popov, N.I., et al, [1979, p.22-24, rus] 34-1837
Hydraulic method of sanding peat soils. Lazarev, I.V., et al, [1979, p.21-23, rus] 34-1949
Equipment for summer construction of pipelines on swamps. [1979, p.31-32, rus] 34-2100
Fast performance and excellent quality. Pavlov, A.IA., [1980, p.28-31, rus] 34-2614
Loads on cutting tools of excavators when digging pits in permafrost. Bondarovich, B.A., et al, [1980, p.44-45, rus] 34-2616
Factors determining the wear of cutting tools in frozen ground. Dobzhinskii, D.P., et al, [1979, p.110-114, rus] 34-2619
Frozen ground excavation with tractor-mounted pneumatic hammers. Ivanov, R.A., et al, [1980, p.12-14, rus] 34-2636
DZ-126 Bulldozer-ripper. Zakharchuk, B.Z., et al, [1979, p.9-10, rus] 34-2689
Universal single-bucket hydraulic excavator EO-4121A. Gavrilov, N.I., et al, [1979, p.2-4, rus] 34-2690
SP-62 Hydraulic hammer for the EO-4121A hydraulic excavator. Dmitrevich, IU.V., et al, [1979, p.4-5, rus] 34-2691
Digging-wheel excavator ETR-134 for trenching. Osipenko, B.V., et a., [1979, p.5-6, rus] 34-2693
Roads. Rules of construction and acceptance of jobs. Approval for operation. [1973, 87p., rus] 34-2865
Construction in the Arctic and the Far North. [1970, 95p., rus] 34-2867
Collection No.1 of unified regional individual estimates for construction. Earthwork [1977, 247p. (Pertinent p.200-246), rus] 34-2868
Fundamentals of electrothermomechanical destruction of frozen rocks. Nekrasov, L.B., [1979, 230p., rus] 34-2869
Development and improvement of the design of digging wheel trenching excavators. Lavrov, G.E., et al, [1980, p.21-23, rus] 34-2977
Present state and prospects of excavating frozen ground and permafrost. Balbachan, I.P., et al, [1980, p.16-19, rus] 34-3184
Use of high-pressure water jets in construction. Petrosian, L.R., [1980, p.279-283, eng] 34-3373
Undersea pipelines and cables in polar waters. Mellor, M., [1978, 34p., eng] 34-3448
Comparative study of stresses in natural rock masses and in models using the artificial freezing technique. Makarov, S.V., [1979, p.35-43, rus] 34-3481
Land reclamation in winter. Surikov, V.V., [1980, 270p., rus] 34-3758
Optimizing parameters of multibucket excavators of foundation pits. Solomonov, S.A., [1978, p.13-21, rus] 34-3941
Computing the speed of foundation pit excavation with chain-bucket excavators. Bass, B.A., [1978, p.22-31, rus] 34-3942
Experimental study of cutting frozen ground with percussion ground-breaking equipment. Solomonov, S.A., [1978, p.49-57, rus] 34-3943
Effectiveness of excavating machines used on the construction of the Baykal Amur railroad and the Surgut-Urengoy line. Bardyshev, O.A., [1980, p.6-8, rus] 34-4053
MGI-58 equipment for layer-by-layer excavation of ground. Zakharov, V.A., et al, [1980, p.17-18, rus] 34-4054
Effective working tool of the ETTs-165 excavator for frozen ground. Sokolov, L.K., et al, [1980, p.18-19, rus] 34-4055
Retooling bulldozers for ripping and uprooting. Prytkov, I.V., [1980, p.23-24, rus] 34-4056
Simplified method of calculating frozen rock heating by an electromagnetic field, allowing for phase transformations. Rikenglaz, L.E., et al, [1980, p.15-17, rus] 34-4252

Expansion

See: Thermal expansion

Expeditions

Under-ice volcanoes. Miller, K., [1979, p.36-55, eng] 34-1579
Captive of perpetual cold. Vel'mina, N.A., [1979, 207p., rus] 34-2669
Grönlands Geologiske Undersögelse and Geodaetiske Institut North Greenland Expeditions, 1978-80. Higgins, A.K., [1980, p.153-156, eng] 34-4187

Expenses

See: Cost analysis

Experimentation

Evaluation of the Bennett-CANMAR oil containment boom. Nadreau, J.P., et al, [1976, 37p. + append., eng] 34-486
Experimental studies of ice formation fields under nonuniaxial frost penetration conditions. Zhestkova, T.N., et al, [1979, p.159-167, rus] 34-1924
Experimental oilspills. Metge, M., et al, [1979, p.184-189, eng] 34-2038

Experimentation *(cont.)*
Experiments involving melting of a large ice block towed in sea water. Fuhs, A.E., et al, [1980, p.249-264, eng] **34-2447**

Exploration
Oil spill countermeasures for the southern Beaufort Sea. Logan, W.J., et al, [1975, 126p., eng] **34-151**
Exploration and sources of ground water reserves in areas of Noril'sk-type commercial ore deposits. Roginets, I.I., [1979, p.83-87, rus] **34-1938**
Improving drilling equipment used under different climatic and geological conditions. Skrypnik, S.G., [1973, 123p. (Pertinent p.40-48), rus] **34-2102**
Exploration of the polar regions. Crary, A.P., [1973, p.246-258, eng] **34-2719**
Increasing the effectiveness of exploratory excavations in frozen rocks. Tregub, A.M., [1980, p.111-114, rus] **34-2797**
In polar waters. [1977, 40p., eng] **34-3013**

Explosion effects
Guide to the effects of underwater shock waves on Arctic marine mammals and fish. Hill, S.H., [1978, 50p., eng] **34-369**
Artificial release of avalanches in North America. Perla, R., [1978, p.235-240, eng] **34-793**
Alternate methods of avalanche control. Phase 4. LaChapelle, E.R., et al, [1978, 62p., eng] **34-1117**
Rock blasting under complex hydrogeological conditions. Mets, IU.S., [1979, 109p., rus] **34-1189**
Experimental field studies of the seismic properties of solidly frozen ground in the zone of the Baikal-Amur mainline with the use of explosions. Pavlenov, V.A., et al, [1980, p.202-206, eng] **34-2377**
High-explosive cratering in frozen and unfrozen soils in Alaska. Smith, N., [1980, 21p., eng] **34-3326**
Differences between explosions and earthquakes. Cheng, Z.C., et al, [1980, 18p., eng] **34-3404**
See also: Blasting; Nuclear explosions

Explosives
Design of a large shaped charge suitable for the perforation of Arctic sea-ice. Jones, J.M., [1971, 32p., eng] **34-5**
Rock blasting under complex hydrogeological conditions. Mets, IU.S., [1979, 109p., rus] **34-1189**
Using "ifzanite" explosives in the Noril'sk Mining Concern. Mamashev, IU.P., et al, [1979, p.29-30, rus] **34-1838**
Combinations of equipment for handling explosive materials at the Baykal Amur railroad construction sites. Semin, A.P., et al, [1979, p.24-25, rus] **34-2592**
Ways of increasing the reliability of blasting hard rocks. Basistov, M.A., [1980, p.4-6, rus] **34-2613**
Increasing the effectiveness of exploratory excavations in frozen rocks. Tregub, A.M., [1980, p.111-114, rus] **34-2797**
Technology of open pit mining. Medvedev, K.D., ed, [1979, 164p., rus] **34-3023**
Container delivery of explosives to the Far North mines. Vlasov, V.M., et al, [1979, p.101-104, rus] **34-3025**

Exposure
See: Orientation; Slope orientation

Extraterrestrial ice
Convection in the ice crusts of satellites and its effect on surface relief. Golitsyn, G.S., [1979, p.466-468, eng] **34-44**
Is there liquid water on Europa. Cassen, P., et al, [1979, p.731-734, eng] **34-965**
Ice in the lunar polar regions. Arnold, J.R., [1979, p.5659-5668, eng] **34-997**
Influence of a phase transition of ice on the heat and mass balance of comets. Klinger, J., [1980, p.271-272, eng] **34-3721**

Facsimiles
See: Replicas

Falkland Islands
XV 859; the Falkland Island craft. Russell, B.J., [1978, p.13-17, eng] **34-2373**

Falling bodies
Field observations of the kinematics of hailstones. Matson, R., et al, [1979, 68p., eng] **34-786**
Dynamics of hailstones. Zoltán, C., [1980, p.78-82, hun] **34-3617**

Fallout
Depositional history of artificial radionuclides in the Ross Ice Shelf, Antarctica. Koide, M., et al, [1979, p.205-223, eng] **34-48**
Activities of military units in winter. Shubin, B., et al, [1979, p.77-80, rus] **34-256**
Artificial tritium fall-out at the South Pole. Jouzel, J., et al, [1979, p.31-46, eng] **34-724**
Determination of the stratospheric residence time from the total beta activity of antarctic and Greenland snows. Pourchet, M., et al, [1979, p.365-367, eng] **34-730**
Environmental radioactivity in the Faroes in 1977. Aarkrog, A., et al, [1978, 27p., eng] **34-787**
Environmental radioactivity in Greenland in 1977. Aarkrog, A., et al, [1978, 20p., eng] **34-788**
Collected papers on sciences of atmosphere and hydrosphere, Volume 15. [1977, var.p., eng] **34-895**
Deuterium content of stream waters of glacier origin in Himalayas. Wushiki, H., [1977, p.40-42, eng] **34-902**
Deuterium content in the Himalayan precipitation at Khumbo District, observed in 1974/1975. Wushiki, H., [1977, p.50-56, eng] **34-904**
Altitude effect on the deuterium content of the local rains and snows in the Himalayas. Wushiki, H., [1977, p.57-59, eng] **34-905**
Automatic apparatus for measuring low-level beta activity in snow samples. Pinglot, J.F., [1978, 103p., fre] **34-937**
Continuous record of artificial tritium fallout at the South Pole (1954-1978). Jouzel, J., et al, [1979, p.188-200, eng] **34-1000**
Detection of fission product deposits of atmospheric fallout in firn profiles. Ambach, W., [1979, p.11-18, ger] **34-1317**
Is the environment still contaminated by radioactive fallout. Ambach, W., [1978, p.165-169, ger] **34-2075**
Nuclear fall-out in glaciers. Ambach, W., [1978, p.45-47, eng] **34-2076**
Mosses as accumulators of radionuclides. Molchanova, I.V., et al, [1980, p.42-47, rus] **34-4146**

Farming
See: Agriculture

Fast ice
Antarctic fast-ice food chain: observations on the interaction of amphipod *Pontogeneia antarctica* Chevreux with ice-associated micro-algae. Richardson, M.G., et al, [1979, p.106-115, eng] **34-13**
Landfast ice movement—Mackenzie delta 1973-74. Spedding, L.G., [1975, 127p. + figs., eng] **34-297**
Extent and growth pattern of landfast ice in the southern Beaufort Sea—winter 1972-73. Spedding, L.G., [1974, 61p. + appends., eng] **34-415**
Landfast ice movement—Mackenzie Delta 1972-73. Spedding, L.G., [1973, 122p. + figs., eng] **34-480**
Landfast ice movement—Mackenzie Delta 1972. Croasdale, K.R., et al, [1972, 104p., eng] **34-576**
Recent ice observations in the Alaskan Beaufort Sea federal-state lease area. Kovacs, A., [1978, p.7-12, eng] **34-870**
Movement and deformation of landfast ice in the southern Beaufort Sea. Cooper, P.F., Jr., [1975, 16p., eng] **34-916**
Arctic beach environment, south-west Devon Island, N.W.T. Owens, E.H., [1969, 152p., eng] **34-938**
Crystal alignments in the fast ice of Arctic Alaska. Weeks, W.F., et al, [1979, 21p., eng] **34-1379**
Temperature regime of the antarctic fast ice. Nazintsev, IU.L., [1979, p.63-68, rus] **34-1829**
Snow measurements on the antarctic shelf ice. Kozlovskiĭ, A.M., [1979, p.74-77, rus] **34-1830**
Microscopic algae in Davis Sea fast ice. Bulnitskiĭ, V.Kh., et al, [1979, p.126-137, eng] **34-1895**
Tidal flat erosion by ice at La Pocatière, St. Lawrence estuary. Dionne, J.-C., [1969, p.1174-1181, eng] **34-2044**
Study of climatic effects on fast ice extent and its seasonal decay along the Beaufort-Chukchi coasts. Barry, R.G., [1979, p.272-375, eng] **34-2683**
Varied and unpredictable faces of Arctic ice. [1977, p.8-10, eng] **34-3014**
Environmental assessment of the Alaskan continental shelf, Vol.8, Transport. [1979, 588p., eng] **34-3052**
Oil pooling under sea ice. Kovacs, A., [1979, p.310-323, eng] **34-3053**
Marine naleds in the Chaunskaya Bay. Chagulov, A.K., [1979, p.109-111, rus] **34-3534**
Winter regime of fast ice in the Chaunskaya Bay. Konstantinov, IU.B., [1979, p.112-113, rus] **34-3535**
Fast ice thickness distribution in the Chaunskaya Bay. Kosharovskiĭ, IU.E., et al, [1979, p.114-115, rus] **34-3536**
Ice characteristics in the seasonal sea ice zone. Wadhams, P., [1980, p.37-92, eng] **34-3626**
Shore ice pile-up and ride-up: field observations, models, theoretical analyses. Kovacs, A., et al, [1980, p.209-298, eng] **34-3631**
Bundling of timber sections on ice. Gushkalov, P.A., [1980, p.12-14, rus] **34-3857**

Fatigue (materials)
Introduction to the problem of cracks, movements and joints in buildings. Baker, M.C., [1976, 8p., eng] **34-153**
Friction and wear of carbon steels at low temperatures. Golego, N.N., et al, [1974, p.262-267, rus] **34-399**

Fauna

Filters
Investigation of an ozone-filter system for color and iron removal at low temperatures. Smith, D.W., et al, [1975, 71p., eng] **34-644**
Filter purification of waste waters from tire factories. Emelina, Z.G., et al, [1974, p.159-169, rus] **34-764**
Determination of local permeabilities by a freezing process, in connection with predicting the success of a filter regeneration method. Schieff, H.O., [1979, p.473-478, ger] **34-2724**

Filtration
See: Seepage

Fines
Design of bases and foundations on subsiding soils. Mustafaev, A.A., [1979, 368p., rus] **34-720**
Two cements used in the silication of loess with the product of azeotropic rectification of acid waste waters. Petrenko, L.K., et al, [1979, p.127-130, rus] **34-854**
Stabilization of saturated loess soils by gas silication. Isaev, B.N., et al, [1979, p.65-69, eng] **34-1146**
Thermal properties of selected evacuated powder insulations at cryogenic temperatures. Knight, B.L., [1969, 322p., eng] **34-2069**
Densification of soils prone to slump-type settlement by the gas-detonation method. Martem'ianov, A.I., et al, [1980, p.316-320, eng] **34-3933**
Pattern of glacial dispersal and comminution of rock fragments and mineral grains from two point sources. Shakesby, R.A., [1979, p.31-45, eng] **34-3972**
See: Frozen fines

Finland
Ice winters 1971-75 along the Finnish coast [1978, 63p., fin] **34-2270**

Fires
Some aspects of weathering and burning crude oil in a water and ice environment. Belicek, J., et al, [1976, 34p., eng] **34-487**
In-situ burning of the products of a subsea blowout [1977, 48p. + appends., eng] **34-488**
Hydrologic properties of subarctic organic soils. Kane, D.L., et al, [1978, 49p., eng] **34-627**
Classification of fire effects on the microclimate of forest and tundra ecosystems—final report. Rouse, W.R., et al, [1976, 21p., eng] **34-914**
1977 tundra fires in the Seward Peninsula, Alaska: effects and initial revegetation. Racine, C.H., [1979, 51p., eng] **34-1560**
See also: Forest fires

Firn
Rhombus and rhomboid parallelogram patterns on glaciers: natural indicators of strain. Wang, C.J., et al, [1979, p.247-261, eng] **34-540**
Investigations of the water table of Kesselwandferner (Ötztal Alps) in a 30 m deep s[illegible]mbach, W., et al, [1978, p.61-71, ger] **34-665**
Thermoelectric drill for [illegible] al [1978, p.125-131, ger] **34-669**
Antarctic ice as a ceram[illegible] p.663-669, jap] **34-1165**
Numerical simulation of water [illegible] firn and comparison with field data [illegible]felc (Swiss Alps). Schommer, P., [1978, p.[illegible] **34-1126**
Detection of fission product deposi[illegible]spheric fallo[illegible] in firn profiles. Ambach, W., [1[illegible], p.11-18, ger] **34-1317**
Glacier conditions in the Grossglockner and Sonnblick regions at the end of the summer of 1965, 1966 and 1967. Tollner, H., [1968, p.73-83, ger] **34-1662**
Mass balance of some Bish-Iirdu glaciers. Okishev, P.A., [1967, p.16-21, rus] **34-1989**
Role of firn field ablation in the Bish-Iirdu Mountains in the Aktru River's alimentation. Ivanov, N.I., [1967, p.227-246, rus] **34-1995**
Some problems in stratigraphic analysis of firn in Mizuho Plateau, East Antarctica. Watanabe, O., et al, [1979, p.32-50, jap] **34-2149**
Glacio-climatology as a connecting scientific discipline, its problems and goals. Tronov, M.V., [1977, p.3-11, rus] **34-3380**
Microwave brightness of polar firn as measured by Nimbus 5 and 6 ESMR. Chang, A.T.C., et al, [1980, p.85-91, eng] **34-3800**

Firn stratification
Palynological data for the characterization of the snow-firn strata of the Gergeti Glacier. Pseareva, T.V., et al, [1974, p.396-401, eng] **34-1208**
Variation of isotope O-18 in the mass of the Marukh Glacier (Western Caucasus). Bazhev, A.B., et al, [1974, p.440-454, eng] **34-1211**
Research on deep thermal drilling of Antarctic ice. Kudriashov, B.B., et al, [1973, p.35-36, rus] **34-1958**
Some problems in stratigraphic analysis of firn in Mizuho Plateau, East Antarctica. Watanabe, O., et al, [1979, p.32-50, jap] **34-2149**
Subsistence regime of quasi-glacier snow patches. Glazyrin, G.E., [1977, p.80-91, rus] **34-3383**

Flexural strength
Investigations into the feasibility of producing pressure ridge/ice sheet systems with synthetic ice. Edwards, R., et al, [1975, n.p., eng] **34-298**
Island defense system tests. Trofimenkoff, P.N., [1976, 84p., eng] **34-306**
Effects on flexible highways of increased legal vehicle weights using VESYS IIM. Rauhut, J.B., et al, [1978, 203p., eng] **34-508**
Model experiments to determine the forces exerted on structures by moving ice fields. Edwards, R.Y., Jr., et al, [1972, 83p. + appends., eng] **34-572**
Results of model ice sheet properties research. Edwards, R.Y., Jr., et al, [1972, c130p., eng] **34-579**
Problems related to the structural modelling of ice covers. Tinawi, R., [1979, p.139-158, eng] **34-929**

Strain measurements in floating ice platforms and their application to platform design. Masterson, D.M., et al, [1979, p.394-405, eng] 34-1156

Bearing capacity of sea ice. Murat, J.R., [1978, 408p., fre] 34-1301

Nondestructive testing of in-service highway pavements in Maine. Smith, N., et al, [1979, 22p., eng] 34-1843

Method of forecasting flexural strength of ice cover. Ryvlin, A.IA., [1979, p.99-108, eng] 34-1891

Sea ice beam tests of January 1975. Macy, R.L., [1975, 272p., eng] 34-3104

Field studies of the strength and physical properties of a multi-year ice pressure ridge in the southern Beaufort Sea. Gladwell, R.W., [1977, c90p., eng] 34-3107

Modelling the interaction between ice and ships. Edwards, R.Y., Jr., [1980, p.60-81, eng] 34-3733

Theory of floating ice sheets. Hutter, K., et al, [1980, p.147-162, eng] 34-3739

Creep and relaxation in floating platforms--an analysis of case histories. Masterson, D.M., et al, [1980, p.205-216, eng] 34-3743

Bending and buckling of a wedge on an elastic foundation. Nevel, D.E., [1980, p.278-288, eng] 34-3747

Plastic limit analysis of sheet ice loads on conical structures. Ralston, T.D., [1980, p.289-308, eng] 34-3748

On the strength of sea ice and a correlation between the various strength tests. Lane, J.F., [1979, 29p. + 9 figs., eng] 34-4194

Flight characteristics

Methods for prediction of the influence of ice on aircraft flying characteristics. Ingelman-Sundberg, M., et al, [1977, 44p., eng] 34-773

Floating ice

Critical velocities of a floating ice plate subjected to in-plane forces and a moving load. Kerr, A.D., [1979, 12p., eng] 34-802

Workshop on the Bearing Capacity of Ice Covers, 16-17 October 1978, Winnipeg, Manitoba. [1979, 253p., eng] 34-919

Field studies on the response of floating ice sheets to moving loads. Beltaos, S., [1979, p.1-13, eng] 34-920

Results of strain measurements in floating ice platforms using 3 mi-long resistance wire gauges. Masterson, D.M., et al, [1979, p.25-41, eng] 34-922

Time-dependent deflection of an ice plate. Michel, B., et al, [1979, p.80-97, eng] 34-925

Strength of ice plates. Michel, B., [1979, p.98-106, eng] 34-926

Laboratory investigation of circular sea-ice plates. Murat, J.R., et al, [1979, p.107-123, eng] 34-927

Empirical analysis of the creep of floating ice sheets. Beltaos, S., et al, [1979, p.124-138, eng] 34-928

Long-term loading analysis of floating ice platforms using finite element techniques. Masterson, D.M., et al, [1979, p.159-182, eng] 34-930

Viscoelastic finite-element analysis of floating ice islands. Swamidas, A.S.J., et al, [1979, p.183-204, eng] 34-931

Problems of offshore oil drilling in the Beaufort Sea. Weller, G., et al, [1978, p.4-11, eng] 34-942

Some aspects of the ice topography of Trough Lake, southern Victoria Land, Antarctica. Lyon, G.L., [1979, p.281-284, eng] 34-945

Study of ambient noise levels in the marginal-sea-ice zone east of Greenland. Peters, K.W., [1979, 162p., eng] 34-1048

Strain measurements in floating ice platforms and their application to platform design. Masterson, D.M., et al, [1979, p.394-405, eng] 34-1156

Bearing capacity of sea ice. Murat, J.R., [1978, 408p., fre] 34-1301

Experimental determination of melting rates of ice moving in sea water. Clifford, W.F., et al, [1979, 220p., eng] 34-1365

Oil spill behavior in ice during the 1977 Buzzards Bay oil spill. Deslauriers, P.C., [1978, p.197-215, eng] 34-1368

Fall ice drift in Nares Strait, as observed by sideways-looking airborne radar. Dunbar, M., [1979, p.283-307, eng] 34-1615

Snow measurements on the antarctic shelf ice. Kozlovskiĭ, A.M., [1979, p.74-77, rus] 34-1830

Sea ice. Part 1: major features and physical properties. Wittmann, W., et al, [1973, p.125-134, eng] 34-1960

Depolarization of radio waves can distinguish between floating and grounded ice sheets. Woodruff, A.H.W., et al, [1979, p.223-232, eng] 34-2234

Regionalization of Poland's coast in terms of ice ridges piled on beaches. Zakrzewski, W., [1978, p.3-16, pol] 34-2291

Project SAR '77 summary report. Worsfold, R.D., ed, [1979, 402p., eng] 34-2430

Proceedings. [1979, 520p., eng] 34-2812

Modeling sea-ice features and processes. Rothrock, D.A., [1979, p.359-375, eng] 34-2838

Drift ice features in the Caniapiscau. Laverdière, C., et al, [1979, p.9-11, fre] 34-3062

Floating ice platforms for oil exploration in the Arctic Islands. Ekelund, M.J., et al, [1980, p.168-183, eng] 34-3323

Experience gained by use of extensive ice laboratory facilities in solving ice problems. Frankenstein, G.E., [1980, p.93-103, eng] 34-3735

Dynamic ice forces on an inclined structure. Frederking, R., [1980, p.104-116, eng] 34-3736

Theory of floating ice sheets. Hutter, K., et al, [1980, p.147-162, eng] 34-3739

On the buckling force of floating ice plates. Kerr, A.D., [1980, p.163-178, eng] 34-3740

Creep and relaxation in floating platforms--an analysis of case histories. Masterson, D.M., et al, [1980, p.205-216, eng] 34-3743

Computation of the thickness and structure of the ice cover on rivers in the northern European USSR. Amineva, V.IA., [1978, p.51-52, eng] 34-3963

Long-period gravity waves in ice-covered sea. Bates, H.F., et al, [1980, p.1095-1100, eng] 34-4073

See also: Ice floes

Floating structures

Creep and relaxation in floating platforms--an analysis of case histories. Masterson, D.M., et al, [1980, p.205-216, eng] 34-3743

Flood control

Hydrologic problems of environmental changes in West Siberia. Malik, L.K., [1978, 180p., rus] 34-845

Water resources development. [1979, 50p., eng] 34-2134

Flood forecasting

Spring flood forecasting by conceptual models in Sweden. Bergström, S., [1979, p.397-405, eng] 34-1037

On some rules governing the formation of ice jams and the computation of the type of preventive measures to be taken. Tsykin, E.N., et al, [1974, p.334-346, eng] 34-1204

Satellite surveys of snow cover for calculating spring flood hydrographs. Deleur, M.S., [1979, p.146-154, rus] 34-2196

Forecasting hydrograph of spring water inflow into the Novosibirsk reservoir. Miliukova, O.A., [1978, p.24-40, rus] 34-2893

Long range forecasts of flood water volume in the Oka River, allowing for soil freezing irregularities in the basin. Rakhmanov, V.V., [1978, p.41-52, rus] 34-2894

More precise definitions and additions to the "Instructions for determination of the SN 435-72 design hydrologic characteristics" (Discussion of Construction Norms). Kagan, B.IA., [1979, p.1223-1226, rus] 34-4253

Flood plains

Hydrologic problems of environmental changes in West Siberia. Malik, L.K., [1978, 180p., rus] 34-845

Natural revegetation of the Tom' River flood-plain soils disturbed by industrial activities. Taranov, S.A., et al, [1979, p.156-163, rus] 34-952

Flooding

Flood-induced transformations in soils. Seryshev, V.A., et al, [1979, p.237-250, rus] 34-460

Flooding of sea ice roads. Favrat, D., et al, [1979, p.238-249, eng] 34-935

Regularities of the deformation of swelling soils with time. Meschian, S.R., et al, [1979, p.37-44, eng] 34-982

Forecasting spring water inflow into the Kama reservoir allowing for rainfall. Liapunova, I.B., et al, [1979, p.15-25, rus] 34-1077

Flood-prone area maps at three sites along the Trans-Alaska Pipeline, Alaska. Lamke, R.D., et al, [1980, 14p., eng] 34-2506

Deforestation of reservoirs. Marcotte, H., et al, [1979, p.15-17, fre] 34-3063

Floods

Mystery flood solved. Jackson, L.E., Jr., [1979, p.2-4, eng] 34-3060

Winter floods in Leningrad and their study by empirical and hydrodynamic methods. Drabkin, V.V., et al, [1978, p.246-249, eng] 34-4061

Floors

Experimental determination of the thermal activity coefficient of floors. Gindoian, A.G., et al, [1976, p.108-124, rus] 34-2405

Flora

See: Plants (botany); Vegetation

Flow measurement

Determining horizontal ice flow gradients in the Vostok Station area down to 800 m. Dmitriev, D.N., et al, [1979, p.32-34, rus] 34-1826

Calculations of velocity and temperature in a polar glacier using the finite-element method. Hooke, R.L., et al, [1979, p.131-146, eng] 34-2822

Ice-thickness patterns and the dynamics of the Ross Ice Shelf, Antarctica. Bentley, C.R., et al, [1979, p.287-294, eng] 34-2831

Flow rate

Observing rock stream movement rates on the Chul'man Plateau. Ospennikov, E.N., [1979, p.129-133, rus] 34-1920

Direct determination of the velocity of glacier ice movement at the surface. Makarevich, K.G., et al, [1979, p.125-131, rus] 34-1981

Observing surface flow rates of the Aktru glaciers. Oletnik, I.IA., [1967, p.66-97, rus] 34-1991

High accuracy phototachymeters for studying glacier movement. Volkonskiĭ, B.V., et al, [1979, p.173-178, rus] 34-2200

Results from the I.A.G.P. flow-line study inland of Casey, Wilkes Land, Antarctica. Budd, W.F., et al, [1979, p.89-101, eng] 34-2819

Opposition in ice redistribution in Arctic waters outside the USSR. Smirnov, V.I., [1980, p.73-77, rus] 34-3862

Forecasting

Procedure to incorporate snow course data into the National Weather Service river forecast system. Carroll, T.R., [1979, p.351-358, eng] 34-1032

Use of integrated hydrological models with distributed snow cover description for hydrological forecasting in Norway. Saelthun, N.R., [1979, p.406-413, eng] 34-1038

Model to predict short-term snowmelt runoff using synoptic observations of streamflow, temperature and precipitation. Tangborn, W.V., [1979, p.414-426, eng] 34-1039

Method of forecasting flexural strength of ice cover. Ryvlin, A.IA., [1979, p.99-108, eng] 34-1891

Engineering and geological studies for seismic microregionalization of permafrost areas. Zarubin, N.E., [1975, p.59-60, rus] 34-2059

Mapping of taiga vegetation for the forecasting of its variations due to possible changes in moisture conditions. Shvergunova, L.V., et al, [1978, p.74-80, rus] 34-2467

Fog at Cape Schmidt. Makarov, A.K., et al, [1979, p.61-68, rus] 34-3530

Large-scale prognostic maps of mountain vegetation in Central Sikhote-Alin forests. Kiselev, A.N., [1979, p.8-21, rus] 34-3602

Predicted timing of the disintegration of the lower reach of Columbia Glacier, Alaska. Meier, M.F., et al, [1980, 34p. + tables and graphs, eng] 34-3783

Remote snow cover measurements for forecasting the runoff of mountain rivers. Borovikova, L.N., et al, [1978, p.57-61, eng] 34-3965

Methods of geocryological forecasting and the general geocryological bases for their application. Maksimova, L.N., [1980, p.41-52, rus] 34-4120

Indices used in evaluating the stability of permafrost areas to variations in natural conditions and consequences of human activities in permafrost areas. Garagulia, L.S., et al, [1980, p.52-58, rus] 34-4121

See also: Avalanche forecasting; Frost forecasting; Ice forecasting; Long range forecasting; Permafrost forecasting, Runoff forecasting; Weather forecasting

Forest canopy

Snow cover in the USSR. Kopanev, I.D., [1978, 181p., rus] 34-846

Forest and snow cover. Charlier, C., [1979, p.43-61, fre] 34-1780

Snow interception by pine stands in the Alpine foothills of Schwyz canton. Strobel, T., [1979, p.63-79, ger] 34-1781

Effect of fertilization on winter drying of Scots pine. Kurkela, T., [1979, p.139-143, eng] 34-1785

Determination of the amount of solid precipitation under the forest canopy. Kolesov, A.F., [1979, p.113-116, eng] 34-2887

Geosystems of the West Sayan foothills. Antipov, A.N., et al, [1979, 319p., rus] 34-3226

Forest fires in Yakutia and their influence on forest environments. Shcherbakov, I.P., et al, [1979, 224p., rus] 34-3601

Hydroclimatic influence of forests. Protopopov, V.V., ed, [1979, 144p., rus] 34-3768

Forest and hydrological regionalization of Central Siberia. Lebedev, A.V., [1979, p.25-58, rus] 34-3770

Biogeophysical conditions of interactions between solid precipitation and conifer forest canopy. Kaliuzhnyĭ, I.L., et al, [1979, p.82-90, rus] 34-3877

Forest ecosystems

Finus sibirica as an indicator of environmental conditions in the Khamar-Daban Mountains and Tunkinskiye Gol'tsy. Tarakanov, A.G., [1979, p.80-83, rus] 34-105

Classification of fire effects on the microclimate of forest and tundra ecosystems--final report. Rouse, W.R., et al, [1976, 21p., eng] 34-914

Studying and modeling soil formation in forest biogeocenoses. Korsunov, V.M., ed, [1979, 161p., rus] 34-969

Forest ecosystems *(cont.)*

Interrelation between edaphic and coenotic factors of cropping power. Pleshikov, F.I., [1979, p.4-13, rus] **34-970**

Ecosystem of avalanche protection forests. Mayer, H., [1979, p.281-299, ger] **34-1795**

Silvicultural planning in avalanching forests. Fiebiger, G., [1979, p.331-348, eng] **34-1798**

Primary versus secondary succession at Glacier Bay National Monument, southeastern Alaska. Lawrence, D.B., [1979, p.213-224, eng] **34-2261**

Taiga in the global ecosystem [1978, 112p., rus] **34-2457**

Taiga geosystems and problems of interaction between man and taiga. Sochava, V.B., [1978, p.5-13, rus] **34-2458**

Taiga and its place in the global ecosystem Krauklis, A.A., et al, [1978, p.14-26, rus] **34-2459**

Remote sensing of taiga geosystems in different spectral ranges. Vinogradov, B.V., [1978, p.34-42, rus] **34-2461**

Forest resource analysis as a bioeconomical approach to studying the natural potential of taiga. Sheingauz, A.S., [1978, p.42-53, rus] **34-2462**

Spruce forests as a stabilizing component of taiga biome in the European North. Dyrenkov, S.A., [1978, p.53-58, rus] **34-2463**

Structural potential and improvement in the use of pine forests of various ages in Siberia. Verkhunov, P.M., [1978, p.58-63, rus] **34-2464**

Taiga larch forests in Sikhote-Alin and their management. Gukov, G.V., [1978, p.63-70, rus] **34-2465**

Dynamics of spruce ecosystems in the southern taiga. Glazov, M.V., et al, [1978, p.70-73, rus] **34-2466**

Natural relationships in taiga geosystems. Nechaeva, E.G., [1978, p.98-101, rus] **34-2470**

Origin and development of the Surgut wooded marshes. Liss, O.L., et al, [1979, p.86-91, rus] **34-2710**

Forest fires

Studying and modeling soil formation in forest biogeocenoses. Korsunov, V.M., ed, [1979, 161p., rus] **34-969**

Studying the effect of natural and experimental fires on forest soils. Popova, E.P., [1979, p.23-29, rus] **34-972**

Utilization and protection of mountain forests. Beliak, V.I., et al, [1973, p.67-70, rus] **34-1868**

Oxidation-reduction conditions and acidity of sod-podsols in the Angara River area after forest fires. Popova, E.P., [1978, p.27-32, rus] **34-3464**

Forest fires in Yakutia and their influence on forest environments. Shcherbakov, I.P., et al, [1979, 224p., rus] **34-3601**

Forest fire protection in the northern Buryat ASSR. Evdokimenko, M.D., [1979, p.58-63, rus] **34-4094**

Environmental protection in Yakutia. Andreev, V.N., ed, [1979, 181p., rus] **34-4106**

Reaction of different landscapes to heat producing phenomena in the Oymyakon region. Amuzinskaia, T.P., [1979, p.55-56, rus] **34-4112**

Symposium on biological problems of the North, 8th, Apatity, 1979. Abstracts of the papers. [1979, 177p., rus] **34-4213**

Forest fire hazard in the North. Filippov, A.V., [1979, p.163-164, rus] **34-4242**

Forest land

Solar and net radiation over snow. Petzold, D.E., [1974, 77p., eng] **34-132**

Pipeline revegetation research: Dempster route test sites progress report—1977. [1978, 28p., eng] **34-862**

Energy balance and snowmelt in a deciduous forest. Hendrie, L.K., et al, [1979, p.211-221, eng] **34-1019**

Differences in the formation of spring runoff in forests of the European USSR. Krestovskiĭ, O.I., et al, [1979, p.3-14, rus] **34-1076**

Distribution of snow cover water reserves in the northeast European USSR. Vershinina, L.K., et al, [1979, p.58-67, rus] **34-1079**

Human activities effect on the Pinus sylvestris (Pinaceae) increment in the Bratsk Region. Lalrand, N.I., et al, [1979, p.1187-1195, rus] **34-1448**

Snow cover in forest stands. Keller, H.M., [1979, p.17-29, eng] **34-1778**

Distribution and structure of snow cover under forest trees and full-grown forest. In der Gand, H., [1979, p.97-119, ger] **34-1783**

Forest and avalanches. De Quervain, M., [1979, p.219-239, ger] **34-1791**

Utilization and protection of mountain forests. Beliak, V.I., et al, [1973, p.67-70, rus] **34-1868**

Rational utilization of Ural Mountain forests. Zubareva, R.S., et al, [1973, p.70-78, rus] **34-1869**

Protection of mountain forests as a dependable water supply basis of Transbaikal. Tsyganok, V.I., [1973, p.135-138, rus] **34-1876**

Classification of forest-steppe landscapes in the Angara River area. Filippova, S.A., [1976, p.114-120, rus] **34-2009**

Effects of swamp drainage, afforestation and nutrients on the dynamics of chemical composition of soil solutions. Melent'eva, N.V., [1978, p.131-135, rus] **34-2524**

Origin and development of the Surgut wooded marshes. Liss, O.L., et al, [1979, p.86-91, rus] **34-2710**

Lands subject to reclamation in the south of the West Siberian Plain. Uglanov, I.N., [1979, p.25-76, rus] **34-3077**

Forecasting soil erosion development in the agricultural zone of West Siberia. Orlov, A.D., [1979, p.101-113, rus] **34-3079**

Use of satellite data in runoff forecasting in the heavily-forested, cloud-covered Pacific Northwest Dillard, J.P., et al, [1980, p.127-150, eng] **34-3517**

Infrared aerial survey in studying natural resources. Shilin, B.V., [1980, 247p., rus] **34-3591**

Preservation, utilization and transformation of forest landscapes within residential areas (Novosibirsk, Akademgorodok). Arbatskiĭ, V.P., [1980, p.62-66, rus] **34-3593**

Large-scale prognostic maps of mountain vegetation in Central Sikhote-Alin forests. Kiselev, A.N., [1979, p.8-21, rus] **34-3602**

Morphogenetic profile analysis as a basis for the reconstruction of soil formation conditions (as exemplified by the permafrost soils of the Nercha Basin). Gugalinskaia, L.A., et al, [1979, p.261-273, eng] **34-3640**

Mountain forests. Sinitsyn, S.G., et al, [1979, 200p., rus] **34-3754**

Forests of the Lake Baykal area (types of forest, microclimatology, characteristics of forest-forming species). Panarin, I.I., [1979, 263p., rus] **34-3759**

Hydroclimatic influence of forests. Protopopov, V.V., ed, [1979, 144p., rus] **34-3768**

Forest and hydrological regionalization of Central Siberia. Lebedev, A.V., [1979, p.25-58, rus] **34-3770**

Postglacial dynamics of the northern border of the petiolate oak area in the USSR and phylocenogenesis of oak forests in the North. Denisov, A.K., [1980, p.3-11, rus] **34-3878**

Young Pioneer camp boarding house "Severnyi Artek" of the Bratsk lumber industry complex. Grinev, S., [1979, p.28-29, rus] **34-3925**

Road building performed on a self-supporting basis. Shabalin, V.P., et al, [1979, p.14-15, rus] **34-3939**

Road construction all year round. Siniaev, N.V., [1979, p.15-16, rus] **34-3940**

Management of forest resources. Timofeev, N.V., [1979, 144p., rus] **34-4011**

Zonal and regional peculiarities of geocryological conditions in the southern part of the permafrost distribution area Belopukhova, E.B., et al, [1980, p.120-126, rus] **34-4128**

Accelerated growing of pine seedlings introduced beyond the polar circle. Daiasova, N.P., et al, [1979, p.107-108, rus] **34-4235**

Trends in the reforestation of light coniferous open woodlands in the Far Northeast. Kotliarov, I.I., [1979, p.148-149, rus] **34-4240**

Growing forest cultures beyond the polar circle. Pankratov, E.N., [1979, p.157-158, rus] **34-4241**

Forest lines

Upper forest limit in the mountains of the Boreal Zone of the USSR. Gorchakovskiĭ, P.L., et al, [1978, p.349-363, eng] **34-800**

Effects on timber cutting and revegetation on snow accumulation and melt in North Idaho. Haupt, H.F., [1979, 14p., eng] **34-840**

Ecology of alpine timberline in Olympic National Park. Fonda, R.W., [1979, p.209-212, eng] **34-2260**

Alpine and subalpine vegetation under the influence of non-native mountain goats, Olympic National Park. Olmsted, I.C., [1979, p.1143-1148, eng] **34-2266**

Recent relief-forming processes in Siberia. Ivanovskiĭ, L.N., ed, [1978, 139p., rus] **34-2293**

Bald peaks in the Lake Baykal area and northern Transbaikal, their boundaries and distribution. Vyrkin, V.B., [1978, p.63-68, rus] **34-2295**

Snowbreak effect of deciduous shelterbelts. Kobayashi, D., et al, [1979, p.53-61, jap] **34-3491**

Root system of the Gmelinii larch at its extreme distribution line in the Far North (Taymyr). Dem'ianov, V.A., [1980, p 570-573, rus] **34-3557**

Forest soils

Pinus sibirica as an indicator of environmental conditions in the Khamar-Daban Mountains and Tunkinskiye Gol'tsy. Tarakanov, A.G., [1979, p.80-83, rus] **34-105**

Fertility of cryogenic meadow-chernozem soils in the Yeravninskaya Basin (Buryat ASSR). Abasheeva, N.E., et al, [1979, p.159-167, rus] **34-451**

Genetic and agricultural peculiarities of gray non-podzolized cryogenic soils in Transbaikal. Ishigenov, I.A., [1979, p.184-190, rus] **34-454**

Genetic peculiarites of gray forest soils in larch grass forests of the Krasnoyarsk area. Gogolev, I.N., et al, [1979, p.190-201, rus] **34-455**

Soil structure and types of farm lands in the grassy larch forests of the Krasnoyarsk area. Krasekha, E.N., [1979, p.201-210, rus] **34-456**

Mountain and forest chernozem-like soils on the eastern slope of Kuznetskiy Alatau. Tanzybaev, M.G., [1979, p.217-224, rus] **34-458**

Bioenergetic diagnostics of mountain-forest soils in the Amur River area. Sapozhnikov, A.P., et al, [1979, p.224-230, rus] **34-459**

Microbiological characteristics of cryogenic sod-podsol soils (Yeravninskaya Basin, Buryat ASSR). Nimaeva, S.Sh., et al, [1979, p.266-274, rus] **34-462**

Human influence on forest landscapes (Kan-Biryusa Plain). Rubtsov, N.I., et al, [1978, 128p., rus] **34-885**

Parcellar structure of phytocenoses and the inhomogeneity of young soils in industrially disturbed landscapes. Taranov, S.A., et al, [1979, p.19-57, rus] **34-948**

Studying the migration of chlorine-marked soil moisture Shugalei, L.S., et al, [1979, p.68-78, rus] **34-977**

Modeling the processes reflecting the influence of trees on forest soils. Shugalei, L.S., [1979, p.79-153, rus] **34-978**

Soils and the productivity of plant communities Vol.4 Kovda, V.A., ed, [1979, 205p., rus] **34-1058**

Fall off and litter of coniferous forests in Valday. Grishina, L.A., et al, [1979, p.15-50, rus] **34-1060**

Fractional composition of humic acids in Valday pine forest soils. Grishina, L.A., et al, [1979, p.51-62, rus] **34-1061**

Properties of humic acids in the Valday research station soils. Grishina, L.A., et al, [1979, p.63-87, rus] **34-1062**

Microelements in the lower layer of Valday station spruce forest. Belitsyna, G.D., et al, [1979, p.87-92, rus] **34-1063**

Microorganism dynamics in spruce forest soils. Skvortsova, I.N., [1979, p.93-99, rus] **34-1064**

Maganese oxidizing bacteria in the Valday station soils Bolotina, I.N., [1979, p.100-107, rus] **34-1065**

Human activities effect on the Pinus sylvestris (Pinaceae) increment in the Bratsk Region. Lalrand, N.I., et al, [1979, p.1187-1195, rus] **34-1448**

Effect of fertilizers on the microflora of gray forest soils in the Altai Mountains. Vyblov, N.F., [1979, p.178-183, rus] **34-1813**

Role of mineral fertilizers in the increase of productivity of cryogenic soils in Eastern Transbaikal. Gershevich, E.G., et al, [1975, p.161-162, rus] **34-1860**

Role of vegetational cover in the development of cryogenic biogeocenoses. Makeev, O.V., et al, [1975, p.164-165, rus] **34-1861**

Soils in pine forests of Karelia. P'iavchenko, N.I., ed, [1978, 141p., rus] **34-2252**

Soil formation on sandy deposits in Karelia. Morozova, R.M., [1978, p.4-43, rus] **34-2253**

Hydrothermal regime of autonomous sandy soils. Erukov, G.V., [1978, p.44-58, rus] **34-2254**

Chemical composition of natural waters and migration of chemical substances in pine forest biogeocenoses. Strelkova, A.A., [1978, p.59-67, rus] **34-2255**

Iron and organic matter migration in sandy podsols. Lazareva, I.P., [1978, p.67-71, rus] **34-2256**

Biological cycle of substances in cowberry and lichen pine forests. Morozova, R.M., [1978, p.85-112, rus] **34-2258**

Freezing in forest soil as influenced by soil properties, litter, and snow. Thorud, D.B., et al, [1969, 41p., eng] **34-2608**

Properties of forest litter in relation to natural reforestation of green-moss spruce forest in northern Sikhote-Alin. Krupskaia, L.T., et al, [1980, p.93-95, rus] **34-2628**

Oxidation-reduction conditions and acidity of sod-podsols in the Angara River area after forest fires. Popova, E.P., [1978, p.27-32, rus] **34-3464**

Thermal regime of soils in pine forests. Boboleva, E.E., [1978, p.90-98, rus] **34-3465**

Forest fires in Yakutia and their influence on forest environments. Shcherbakov, I.P., et al, [1979, 224p., rus] **34-3601**

Microbiological description of northern taiga bog podzolic soils. Shamin, A.A., et al, [1979, p.151-156, rus] **34-3639**

Mountain forests. Sinitsyn, S.G., et al, [1979, 200p., rus] **34-3754**

Hydroclimatic influence of forests. Protopopov, V.V., ed, [1979, 144p., rus] **34-3768**

Vegetational resources of Transbaikal, their preservation and use. Bolkov, T.G., ed, [1979, 97p., rus] **34-4091**

Ecologic fundamentals of forestry in the Lake Baykal Basin. Polikarpov, N.P., et al, [1979, p.52-57, rus] **34-4093**

Experimental modeling of ecological consequences of winter recreation. Balderin, V.V., [1980, p.13-21, rus] **34-4143**

Forest strips

Deflation of Barguzin Basin soils and economic utilization. Namzhilov, N.B., [1979, p.124-130, rus] **34-449**

Maintenance felling of trees in snow protection strips. Kazanskiĭ, V.D., [1979, p.11-13, rus] **34-1420**

See also: Protective vegetation

Forest trees

Forest tundra

Problems of the North. Study and utilization of natural resources and environmental protection. Shvetsov, P.F., et al, [1979, p.31-37, rus] **34-257**

Forest tundras of the USSR. Parmuzin, IU.P., [1979, 295p., rus] **34-968**

Snow accumulation and roughness changes through the winter at a forest-tundra site near Schefferville, Quebec. Granberg, H.B., [1979, p.83-92, eng] **34-1009**

Soils and the productivity of plant communities. Vol.4. Kovda, V.A., ed, [1979, 205p., rus] **34-1058**

Structure of moss synusiae in the spotty tundra of the Agapa research station. Tishkov, A.A., [1979, p.5-14, rus] **34-1059**

History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed. [1979, 215p., rus] 34-1067
Revealing stream pattern indices by spaceborne photography. Milnaeva, L.S., [1979, p.129-134, rus] 34-1072
Components of forest tundra biogeocenoses in northern Okhotomor'e. Ignatenko, I.V., ed. [1977, 149p., rus] 34-1158
Physiographic conditions of northern Okhotomor'e and hydrothermal regime of soils at the "Snow Valley" research station. Ignatenko, I.V., et al. [1977, p.5-23, rus] 34-1159
Vegetation of the "Snow Valley" station (Explanatory note to the vegetation chart). Shatkauskas, A.V., et al. [1977, p.24-34, rus] 34-1160
Vascular plants in the "Snow Valley" station. Khokhriakov, A.P., et al. [1977, p.44-48, rus] 34-1162
Current regenerative capacity of the northern Canadian trees, Keewatin, N.W.T., Canada: some preliminary observations. Elliott, D.L. [1979, p.243-251, eng] 34-1281
Lichen synusia at the upper limit of Anuy Plateau larch forests. Andreev, M.P. [1979, p.646-653, rus] 34-1443
Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed. [1979, 160p., rus] 34-1508
Thermal conductivity of natural and disturbed soils in northwestern Siberia. Mandarov, A.A., et al. [1979, p.153-157, rus] 34-1522
Evolution of permafrost in the taiga and in the forest-tundra, western Quebec-Labrador Peninsula. Payette, S., et al. [1976, p.203-220, eng] 34-1643
Soils of the East European tundra and forest tundra. Ignatenko, I.V., [1979, 280p., rus] 34-1649
Microbic associations and their functions in West Siberian soils. Klevenskaia, I.L., ed. [1979, 286p., rus] 34-1805
Microbiology of Altai Mountain soils. Klevenskaia, I.L., et al. [1979, p.107-153, rus] 34-1810
Formation of larch wood in Taymyr. Kandelaki, A.A., [1979, p.64-69, rus] 34-1951
Maximum snow depth distribution over the West Siberian Plain. Rutkovskaia, N.V., [1967, p.132-148, rus] 34-1993
Scientific conference of geographers from Siberia and the Far East. Geography and practice. Proceedings. [1978, 253p., rus] 34-2246
Forecasting changes in West Siberian landscapes due to pipeline construction. Moskalenko, N.G., [1978, p.115-119, rus] 34-2249
Soil-geochemical regionalization of the non-chernozem zone for protection from pollution. Glazovskaia, M.A., [1978, p.127-139, rus] 34-2612
Forecasting periodic fluctuations of larch increments in the Taz forest tundra. Berri, B.L., et al. [1979, p.22-26, rus] 34-2627
From quantity to quality. Antonov, A.F., et al. [1979, p.18-20, rus] 34-2635
Quality indices of West Siberian soils. Tiumentsev, N.F., et al. [1979, p.53-60, rus] 34-2738
Geography and origin of soils in the northwestern part of the West Siberian Plain and the adjacent polar Ural foothills. Liverovskaia, I.T., [1980, p.63-84, rus] 34-2762
Vegetation effect on ground temperature in northern West Siberia. Tyrtikov, A.P., [1980, p.112-188, rus] 34-2766
Growth rate of spruces related to the thickness of permafrost active layer near Inuvok, Northwestern Canada. Sakai, A., et al. [1979, p.p.19032, eng] 34-2874
Regularities governing zonal distribution of communities in Taymyr Peninsula. Chernov, Iu.I., et al. [1979, p.166-200, rus] 34-3047
Studying the structure of forest tundra landscapes as indicators of engineering and geological conditions for economic development in West Siberia. Moskalenko, N.G., et al. [1979, p.88-100, rus] 34-3227
Environmental protection in economic development of permafrost areas. Grave, N.A., ed. [1980, 140p., rus] 34-3277
Consequences of the disturbance of natural environments by the construction of linear structures in northern West Siberia. Sukhodol'skii, S.E., [1980, p.67-71, rus] 34-3288
Disturbance of natural environments by construction of linear structures and the first stages of restoration of soil and vegetational covers. Smirnov, V.V., et al. [1980, p.121-127, rus] 34-3299
Root systems of sodding plants and their role in the restoration of vegetational cover disturbed by economic activities. Vital', A.D., [1980, p.128-133, rus] 34-3300
Components of biogeocenoses of the tundra-forest regions of the northern Okhotsk Sea region. Ignatenko, I.V., ed. [1980, 51p., eng] 34-3395
Physical-geographical conditions of the northern Okhotsk Sea region and the hydrothermal state of the soils ("Snow Valley Station"). Ignatenko, I.V., et al. [1980, p.5-23, eng] 34-3396
Vegetation of the "Snow Valley" station (Explanatory list with a diagram of vegetation). Shatkauskas, A.V., et al. [1980, p.24-35, eng] 34-3397
Flora of vascular plants of the "Snow Valley" station. Khokhriakov, A.P., et al. [1980, p.48-51, eng] 34-3399
Properties of soils in the autonomous landscapes of forest tundra and northern taiga of the Lower Yenisey River Uplands. Korsunov, V.M., et al. [1978, p.15-26, rus] 34-3463
Lake and its drainage area as a single natural system. Drabkova, V.G., et al. [1979, 194p., rus] 34-3480
Vascular plant species ratio in northern taiga and forest tundra of the Central Anadyr River Basin. Kozhevnikov, IU.P., [1980, p.361-367, rus] 34-3555
Root system of the Gmelinii larch at its extreme distribution line in the Far North (Taymyr). Dem'ianov, V.A., [1980, p.570-573, rus] 34-3557
Effect of developing a territory on the heat balance and the thermal and moisture regime of the ground in the northern part of Western Siberia. Moskalenko, N.G., et al. [1980, p.29-44, eng] 34-3830
Environmental protection in Yakutia. Andreev, V.N., ed. [1979, 181p., rus] 34-4106
Reaction of different landscapes to heat producing phenomena in the Oymyakon region. Amuzinskaia, T.P., [1979, p.55-56, rus] 34-4112
Mosses as accumulators of radionuclides. Molchanova, I.V., et al. [1980, p.42-47, rus] 34-4146
Problems in rational utilization of natural resources and environmental control in North Siberia. Cherskii, N.V., ed. [1979, 158p., rus] 34-4164
Siberian forests and their rational development. Isaev, A.S., et al. [1979, p.46-59, rus] 34-4169
Stability of tundra ecosystems in North Siberia. Bol'shakov, V.N., et al. [1979, p.60-66, rus] 34-4170
Geological aspects of use and protection of environments in northern West Siberia related to the development of oil and gas deposits. Sergeev, E.M., et al. [1979, p.95-103, rus] 34-4171
Effect of human activities on the vegetational cover of Taymyr. Shchelkunova, R.P., [1979, p.139-152, rus] 34-4175
Symposium on biological problems of the North, 8th, Apatity, 1979. Abstracts of the papers. [1979, 177p., rus] 34-4213
Zonal distribution of Hepaticae in the Khibiny Mountains. Konstantinova, N.A., [1979, p.38-39, rus] 34-4223

Forest vegetation

Vascular plants in the "Snow Valley" station. Khokhriakov, A.P., et al. [1977, p.44-48, rus] 34-1162

Forestry

Natural reforestation of conifers on dried areas of northern taiga in the Arkhangel'sk region. Feklistov, P.A., et al. [1979, p.9-12, rus] 34-251
Landscape-ecological basis for forest melioration and biological recultivation of lands along the Tobol'sk-Amudar'ya channel. Chibilev, A.A., [1979, p.91-93, rus] 34-824
Human influence on forest landscapes (Kan-Biryusa Plain). Rubtsov, N.I., et al. [1978, 128p., rus] 34-885
Fall off and litter of coniferous forests in Valday. Grishina, L.A., et al. [1979, p.15-50, rus] 34-1060
Meltwater losses in forests due to absorption by tree bark. Krestovskii, O.I., et al. [1979, p.87-91, rus] 34-1081
Environment-forming role of forests in the Lake Baykal Basin. Lebedev, A.V., et al. [1979, 256p., rus] 34-1190
Forest land recultivation after pipeline construction. Vysotskii, A.N., [1979, p.26-27, rus] 34-1258
Transportation. Nekrasov, N.N., ed. [1979, 147p., rus] 34-1619
Peculiarities and problems of inter-regional transportation and economic communications of the northern zone of the USSR. Puzanova, V.F., [1979, p.20-33, rus] 34-1622
Proceedings of the Davos Seminar, September 1978. [1979, 258p., eng] 34-1777
Aims and preliminary results of French protective reforestation at the tree line on abandoned alpine pastures (Southern French Alps). Mullenbach, P., [1979, p.261-278, fre] 34-1794
Development and structure of pine forests in Slovakia and their effectiveness as avalanche protection. Korpel', S., [1979, p.301-317, ger] 34-1796
Present state of mountain forests, consequences for their avalanche protection function, silvicultural measures. Ott, E., [1979, p.321-330, eng] 34-1797
Silvicultural planning in avalanching forests. Fiebiger, G., [1979, p.331-348, eng] 34-1798
Utilization of mountain forests in the Kuznetskiy Basin. Kalinin, A.M., [1973, p.87-92, rus] 34-1871
Air cushion vehicles in forestry. Mikhailov, V.V., [1979, p.27, rus] 34-2093
Reforestation and natural vegetation changes in bilberry pine forests. Prudov, B.N., et al. [1979, p.22-25, rus] 34-2109
Reforestation of *Pinus sibirica* forests in Altai highlands. Paramonov, E.G., [1979, p.25-27, rus] 34-2110
Afforestation of stony slopes of the Gissar Range. Khvorov, N.A., et al. [1979, p.55-57, rus] 34-2111
Forest resource analysis as a bioeconomical approach to studying the natural potential of taiga. Sheingauz, A.S., [1978, p.42-53, rus] 34-2462
Structural potential and improvement in the use of pine forests of various ages in Siberia. Verkhunov, P.M., [1978, p.58-63, rus] 34-2464
Taiga larch forests in Sikhote-Alin and their management. Gukov, G.V., [1978, p.63-70, rus] 34-2465
Outlook for the development of forest industry in the Baykal Amur railroad zone. Alekhin, V.G., [1978, p.80-89, rus] 34-2468
Baykal Amur railroad and economic development of the Transbaikal region. Nedeshev, A.A., et al. [1979, 158p., rus] 34-2483
Protection and use of biologic resources in the Baykal Amur railroad construction zone. Man'ko, IU.I., [1978, p.7-9, rus] 34-2534
Mapping the use of restockable natural resources for geographic forecasting. Vorob'eva, T.A., et al. [1978, p.132-139, rus] 34-2537
Timan-Pechora Complex. Construction problems. Kochurin, N.N., [1979, 167p., rus] 34-3666
Bundling of timber sections on ice. Gushkalov, P.A., [1980, p.12-14, rus] 34-3857
Consequences of using new machines in the north taiga pine forests. Obydennikov, V.I., [1979, p.18-21, rus] 34-3859
Effectiveness and quality of taiga reforestation. L'vov, P.N., [1979, p.29-30, rus] 34-3860
Change from pine to spruce in the northern European USSR. Melekhov, I.S., et al. [1980, p.42-51, rus] 34-3863
Forests in the Vychegda river floodplain, their distribution and dynamics. Moiseev, B.N., et al. [1980, p.12-20, rus] 34-3879
Management of forest resources. Timofeev, N.V., [1979, 144p., rus] 34-4011
Vegetational resources of Transbaikal, their preservation and use. Bolkov, T.G., ed. [1979, 97p., rus] 34-4091
Ecologic fundamentals of forestry in the Lake Baykal Basin. Polikarpov, N.P., et al. [1979, p.52-57, rus] 34-4093
Rational use of natural resources in the Central Lena River area. Gubkin, M.P., et al. [1979, p.10-14, rus] 34-4107
Siberian forests and their rational development. Isaev, A.S., et al. [1979, p.46-59, rus] 34-4169
Trends in the reforestation of light coniferous open woodlands in the Far Northeast. Kotliarov, I.I., [1979, p.148-149, rus] 34-4240

Forests

Interactive model of snowpack accumulation and melt dynamics in forested conditions. Ffolliott, P.F., et al. [1979, p.359-368, eng] 34-1033
Surface erosion and sedimentation associated with forest land use in interior Alaska. Aldrich, J.W., et al. [1979, 87p., eng] 34-1314

Formwork (construction)

Recommendations for using heated forms in casting monolithic concrete structures. [1977, 95p., rus] 34-583
Reusable heating-panel frame with new types of heating units. Beliaev, A.M., et al. [1979, p.16-18, rus] 34-1150
Discussion on methods of concreting in the North. Ostryi, V.M., [1979, p.34, rus] 34-1184
Instructions for the performance and acceptance of jobs concerning the shield technique of building collecting-tunnels in cities and industrial enterprises [1975, 38p., rus] 34-2863

Fortifications

Test of snow fortifications. Farrell, D.R., [1979, 15p., eng] 34-1598
Snow fortifications as protection against shaped charge antitank projectiles. Farrell, D.R., [1980, 19p., eng] 34-3332

Fossils

Physical and mechanical properties of Siberian larch wood preserved in permafrost for 24,500 years. D'iakonov, K.F., et al. [1979, p.121-122, rus] 34-2799

Foundations

Shallow foundations on very thick moist earth fills. Kamenev, V.P., et al. [1979, p.24-29, rus] 34-125
Deformation due to foundation movements. Crawford, C.B., [1976, 7p., eng] 34-159
Small buildings of metallic folding sections. Nevenchenko, I.M., et al. [1972, p.22-32, rus] 34-175
Sectional buildings with bearing panels made of effective materials. Lazhintsev, V.I., et al. [1972, p.54-63, rus] 34-178
Thermal regime of permafrost beneath structures with foundations on fill. Mal'kov, IU.K., et al. [1975, p.71-76, rus] 34-224
Means of protecting foundations from frost heave. Pyshchev, N.F., [1979, p.14-15, rus] 34-333
Vibration of structures built on viscoelastic foundations. Shul'man, S.G., [1978, p.77-80, rus] 34-471
Prefabrication stages in building construction. Makeev, A.M., et al. [1979, p.30-34, rus] 34-519
Recommendations for using heated forms in casting monolithic concrete structures. [1977, 95p., rus] 34-583
Calculating temperature fields of bearing ground beneath rock-fill foundations. Konovalov, A.A., [1976, p.3-21, rus] 34-702
Superposition method of determining temperature fields of ground beneath a single or a group of structures with complex shapes. Konovalov, A.A., [1976, p.22-41, rus] 34-703
Structure of boiler room foundations built on permafrost. Kabanov, E.P., et al. [1976, p.140-144, rus] 34-715

Foundations *(cont.)*

Improving natural ventilation of underground utility ducts under permafrost conditions. Ivont'ev, V.V., [1974, p.127-136, rus] **34-760**

Kinetics of cement hardening during thermal treatment of concrete bases of road pavements in freezing weather. Shkurenko, V.I., et al, [1979, p.113-117, rus] **34-808**

Driving assembly KN-3-16 for vertical and inclined piles. Khalbullaev, K.A., [1977, p.91-94, rus] **34-990**

Construction of situ-cast bored piles in Krasnoyarsk. Barmin, N.I., et al, [1977, p.126-131, rus] **34-993**

Observation data on moisture-temperature regime of foundation soils. Anpilov, V.E., et al, [1979, p.74-77, eng] **34-1147**

Reliability of the method of centrifugal modeling of deformations of clay bases. Rudnitskii, N.IA., et al, [1979, p.91-93, eng] **34-1148**

Discussion on methods of concreting in the North. Ostryi, V.M., [1979, p.34, rus] **34-1184**

Evaluating bearing capacity of weak ground beneath road embankments. Solov'ev, IU.I., et al, [1979, p.40-42, rus] **34-1255**

SNiP 11-18-76. Construction norms and rules; Part II Planning norms: Chapter 18. Footings and foundations on permafrost. [1979, 111p., eng] **34-1342**

Characteristics of the design and construction of engineering structures in seismic regions of the Baykal-Amur Main Line Railroad (BAM). Zarubin, N.E., [1979, 10p., eng] **34-1349**

Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] **34-1508**

Fills as soil protecting covers and foundations for structures. Konstantinov, I.P., [1979, p.62-73, rus] **34-1513**

Engineering geocryology. Mel'nikov, P.I., ed, [1979, 208p., rus] **34-1533**

Relation between shear strength of ground adfreezing and the surface roughness of materials. Shusherina, E.P., et al, [1979, p.30-39, rus] **34-1536**

Forecasting deformation of thawing bearing ground. Dokuchaev, V.V., et al, [1979, p.40-53, rus] **34-1537**

Artificial cooling of ground with thermopiles. Vialov, S.S., et al, [1979, p.72-91, rus] **34-1541**

Selecting a method for using permafrost bases for buildings and structures. Khrustalev, L.N., [1979, p.91-103, rus] **34-1542**

Engineering and geological conditions of construction on permafrost in Transbaikal and the Baykal Amur railroad area. Mosenkis, IU.M., [1979, p.104-108, rus] **34-1543**

Reestablishing the frozen state of ground for preventing deformations of buildings and structures. Aleksandrov, IU.A., [1979, p.117-121, rus] **34-1545**

Engineering and geological justifications of construction in the BAM area. Levkovich, A.I., [1979, p.157-164, rus] **34-1549**

Permafrost classification according to physicomechanical properties for pipeline construction. Maksimiak, R.V., [1979, p.165-172, rus] **34-1550**

Determining the settlement of thawing coarse clastic deposits in mountains of the northeastern USSR. Tal'bashev, V.N., et al, [1979, p.173-178, rus] **34-1551**

Design and construction of pile foundations for elevated transport structures and scaffolded railroad and highway bridges in the North. Burkhanov, V.F., et al, [1979, p.73-84, rus] **34-1627**

Hydrogeologic studies for drainage and water supply engineering. Artsev, A.I., [1979, 285p., rus] **34-1653**

Interaction of permafrost and structures. Vialov, S.S., [1979, p.117-136, eng] **34-1683**

Testing of pile foundations in permafrost areas. [1979, p.179-185, eng] **34-1687**

Standard foundation design for structures built on permafrost. [1979, p.36, rus] **34-1713**

Testing ice-bound columnar piles for horizontal loads. Ablogin, E.A., et al, [1979, p.42-43, rus] **34-1717**

Radioactive isotope instruments for measuring bearing ground compaction. Kliushkin, V.K. et al, [1979, p.15-16, rus] **34-1721**

Symposium on Human Settlements Planning and Development in the Arctic. [1978, c455p., eng] **34-1767**

Prefabricated plates of ground floor framing in residential buildings of the North. Pikhovkin, V., et al, [1979, p.38-39, rus] **34-1771**

Allowing for temperature effect when designing large panel buildings. Emel'ianov, A.A., [1970, p.25-89, rus] **34-1833**

Selecting design values of temperature when calculating buildings for thermal and moisture effects and settling. Emel'ianov, A.A., [1970, p.90-119, rus] **34-1834**

Improving the design of supports for overhead power lines of and exceeding 500 kv. Peterson, L.L., et al, [1979, p.48-51, rus] **34-1851**

Earth structures on peaty silts under pressure head conditions. Tkach, V.N., et al, [1979, p.23-26, rus] **34-1950**

Experimental investigation of the stress-strain state of loess soils in the base of rigid plates. Tsytovich, N.A., et al, [1979, p.140-145, eng] **34-2018**

Improving drilling equipment used under different climatic and geological conditions. Skrypnik, S.G., [1973, 123p. (Pertinent p.40-48), rus] **34-2102**

Preparation of sagging loess bases. Ryzhov, A., et al, [1979, p.32-33, rus] **34-2117**

Calculating electric heating of bearing ground beneath refrigerator columns. Gindoian, A.G., et al, [1976, p.88-107, rus] **34-2404**

Ways of improving the construction of power supply objects for the Baykal Amur railroad. Naianov, V.G., et al, [1980, p.43-45, rus] **34-2566**

Design and construction of power supply lines for the Baykal Amur railroad area. Shimkovich, V.G., [1980, p.45-58, rus] **34-2567**

Design and construction of substations and maintenance depots for the central Baykal Amur railroad area. Filatov, A.M., [1980, p.51-53, rus] **34-2569**

Tynda-Prizeiskaya 220 kw overhead line crossing the Zeya reservoir. Kirillova, G.G., et al, [1980, p.53-55, rus] **34-2570**

Improving the organization of construction of overhead lines and substations in the North. Denisov, G.A., et al, [1980, p.31-38, rus] **34-2573**

Modern design of power line support foundations for Tyumen'. Kirtbaia, I.A., et al, [1980, p.38-44, rus] **34-2574**

Optimal structural design solutions for overhead lines in the North. Gabliia, IU.A., et al, [1980, p.44-48, rus] **34-2575**

Structural design of steel power line supports for northern regions. Astafeev, A.M., et al, [1980, p.49-52, rus] **34-2576**

Preparing foundations for construction on sagging loess. Ryzhov, A.M., [1979, p.14-15, rus] **34-2633**

Allowing for compacted layer thickness when designing for sagging ground. Rozenfel'd, I.A., [1979, p.19-21, rus] **34-2634**

Bearing strength of piles in structures of the petroleum industry. Kondrashov, A.G., [1980, p.4-6, rus] **34-2640**

Building design for construction in the North. Vas'kovskii, A.P., et al, [1979, 135p., rus] **34-2685**

Coal mine construction according to the projects of the Siberian State Planning Design and Experimental Institute of Mining. Materi, V.G., [1979, p.6-7, rus] **34-2697**

Alaska foundation hot-wired to prevent frost movement. [1980, p.20, eng] **34-2789**

Construction in the Arctic and the Far North. [1970, 95p., rus] **34-2867**

Concrete protection from brine and frost effects. Bug im, S.F., et al, [1980, p.17-18, rus] **34-2980**

Use of ice as the soil base for structures. Gaidaenko, E.I., [1980, 92p., eng] **34-2986**

Pile foundations in permafrost. Targulian, IU.O., [1978, 158p., rus] **34-3022**

Design and construction of building foundations on permafrost. Goncharov, IU.M., et al, [1980, 241p., rus] **34-3180**

Strength of clay soils in time. Maslov, N.N., et al, [1976, p.247-255, rus] **34-3213**

Influence of transient processes on bearing strength of piles in weak clayey grounds. Mets, M.A., [1976, p.283-296, rus] **34-3217**

Studying stress relaxations in water-saturated clayey soils. Postolakian, R.A., et al, [1976, p.303-313, rus] **34-3218**

Ice rich soils as bases for structures. Dokuchaev, V.V., et al, [1980, p.133-147, eng] **34-3242**

Construction of multi-storey buildings on cold piles in the city of Mirnyy. Makarov, V.I., et al, [1980, p.241-254, eng] **34-3249**

Construction by the method of stabilizing perennially frozen foundation soils. Porkhaev, G.V., et al, [1980, p.283-296, eng] **34-3252**

Long-term settlement of foundations on permafrost. Vialov, S.S., [1980, p.297-311, eng] **34-3253**

Interaction between permafrost and buildings. Vialov, S.S., [1980, p.379-406, eng] **34-3258**

Construction of a cutoff wall by the diaphgragm wall method in the foundation pit of a bank pumping station. Domarev, A.N., et al, [1980, p.255-259, eng] **34-3369**

Preconstruction consolidation of bases with vertical drains. Bel'skii, A.I., et al, [1980, p.266-272, eng] **34-3371**

Determination of the parameters of the method of thermal stabilization of soils and its economic effectiveness. IUrdanov, A.P., [1980, p.272-278, eng] **34-3372**

Ground ice and ice-rich ground as structure foundations. Vialov, S.S., et al, [1980, 159p., eng] **34-3405**

Designing bases and foundations of buildings on thawed permafrost in seismic regions. Chernyshev, IU.G., et al, [1980, p.113-121, rus] **34-3477**

Bending and buckling of a wedge on an elastic foundation. Nevel, D.E., [1980, p.278-288, eng] **34-3747**

Electrochemical treatment of clay foundations. Zhinkin, G.N., et al, [1980, 164p., rus] **34-3756**

Seismic characteristics of loess in relation to geologic surroundings and the impact of industrial activities. Kriger, N.I., et al, [1980, 103p., rus] **34-3763**

Improving the design of structures built in complex ground conditions. Meteliuk, N.S., [1980, 143p., rus] **34-3823**

Technology and equipment for building pile foundations on permafrost. Rastegaev, I.K., [1980, 128p., rus] **34-3826**

Radioactive isotope techniques in controlling quality of work and investigations when building foundations and underground structures. Smorodinov, M.I., [1980, 168p., rus] **34-3866**

Evaluating settlement and bearing strength of piles allowing for the time factor. Khamov, A.P., [1978, p.45-55, rus] **34-3890**

Using artificial freezing in counteracting frost heave effect on supports of pile-trestle bridges. Egorov, V.V., et al, [1978, p.86-92, rus] **34-3893**

Young Pioneer camp boarding house "Severnyi Artek" of the Bratsk lumber industry complex. Grinev, S., [1979, p.28-29, rus] **34-3925**

Drilling-and-mixing method of building foundations of cemented earth piles. Tokin, A., [1980, p.5-6, rus] **34-3926**

Local artificial freezing of thawed ground in Yakutsk. Maksimov, G., et al, [1980, p.9-11, rus] **34-3927**

Residential buildings on economy-type pile foundations in Murmansk. Kaloshin, I., [1980, p.14-15, rus] **34-3928**

Densification of soils prone to slump-type settlement by the gas-detonation method. Martem'ianov, A.I., et al, [1980, p.316-320, eng] **34-3933**

Results of twenty-year monitoring of silication stabilization of Odessa theater foundations. Arshakuni, D.E., et al, [1980, p.325-327, eng] **34-3934**

Determination of settlement due to thawing out of permafrost soil. Ponomarev, V.D., et al, [1980, p.328-331, eng] **34-3935**

Engineering-economic determination of optimum depth of preconstruction thawing of permafrost soils under buildings. Khrustalev, L.N., [1980, p.332-337, eng] **34-3936**

Optimizing parameters of multibucket excavators of foundation pits. Solomonov, S.A., [1978, p.13-21, rus] **34-3941**

Computing the speed of foundation pit excavation with chain-bucket excavators. Bass, B.A., [1978, p.22-31, rus] **34-3942**

Textiles used in roadbed construction on weak soils. Polunovskii, A.G., et al, [1980, p.13-15, rus] **34-3952**

Forecasting the strength of stabilized soils. Khabibullina, E.N., [1980, p.20-21, rus] **34-3953**

Geocryological investigations in West Yakutia. Mel'nikov, P.I., ed, [1980, 113p., rus] **34-4033**

Foundations of power transmission lines and substations. Makarov, V.I., et al, [1980, p.10-22, rus] **34-4035**

Experience in using the S.Kh.IA thermopile in Mirnyy. Molochnikov, A.D., [1980, p.23-26, rus] **34-4036**

Fluid-bearing thermopiles in foundation construction in the North. Makarov, V.I., et al, [1980, p.26-40, rus] **34-4037**

Development of ground ice in hydraulic earth structures. Olovin, B.A., [1980, p.80-87, rus] **34-4042**

Determining position and form of zero isotherms in ground thawing under pressure seepage beneath regulators. Vasil'eva, I.A., et al, [1980, p.95-102, rus] **34-4044**

Thermal regime of residential building foundations when there are unheated rooms beneath the building. Plotnikov, A.A., [1980, p.102-107, rus] **34-4045**

Temporary recommendations for the design and construction of situ-cast bored piles in permafrost. Gaidaenko, E.I., [1979, 34p., rus] **34-4104**

Planning environmental protection during the development of uninhabited areas. Kukuevitskii, G.M., et al, [1979, p.50-53, rus] **34-4138**

Snow studies associated with the sideways move of DYE-3. Tobiasson, W., [1979, p.117-124, eng] **34-4210**

See also Pavement bases; Permafrost bases

Fracture zones

Rock blasting under complex hydrogeological conditions. Mets, IU.S., [1979, 109p., rus] **34-1189**

Grout injection used in tunnel construction in permafrost. Fursov, L.F., [1979, p.105-110, rus] **34-1531**

Influence of normal fluxes on convective transfer at an interface. Prud'homme, R., [1979, p.377-392, fre] **34-2340**

Increased fracturing intervals in frozen and thawed zones of the Nizhne-Arkagalinskiy coal deposit. Kostenko, V.I., et al, [1974, p.111-116, rus] **34-3945**

Fracturing

Extreme cooling curves of concrete structures. Pliat, Sh.N., et al, [1978, p.70-72, rus] **34-469**

In-situ estimates of the tensile strength of snow utilizing large sample sizes. McClung, D.M., [1979, p.321-329, eng] **34-546**

Fracture prevention in the Arctic: the role of fracture mechanics and nondestructive evaluation. Bassim, M.N., [1977, p.21-28, eng] **34-694**

Allowable fracturation of large gravity dams in severe climates. Vasil'ev, P.I., et al, [1979, p.32-33, rus] **34-1152**

Structural steels usable at low temperature. Murry, G., [1979, p.7-17, fre] **34-2314**

Frost shattering of wet rock. Bertouille, H., [1979, p.315-328, fre] **34-2335**

Use of ultrasonic waves to monitor the propagation of the freezing front in carbonaceous rocks. Masson, M., [1979, p.359-365, fre] **34-2338**

Proceedings of the All-Union symposium on the rheology of soils, 2nd, Tsakhkadzor, Oct. 7-10, 1975. [1976, 406p., rus] **34-3203**

Studying static growth of cracks in sand at subzero temperatures. Grechishchev, S.E., [1976, p.158-164, rus] 34-3207

Determining rheologic properties of perennially frozen hard fractured rocks. Tsytovich, N.A., et al, [1976, p.360-368, rus] 34-3224

Control of seepage through concrete by injection of polymer solutions. Ibragimov, M.N., [1980, p.880-882, rus] 34-3378

Field study of the physical properties, response to swell, and subsequent fracture of a single ice floe in the winter Bering Sea. Squire, V.A., et al, [1980, 56p., eng] 34-4245

Frazil ice

Some potential ice problems associated with hydroelectric development in Alaska. Osterkamp, T.E., [1977, p.4-6, eng] 34-690

Growth rates and characteristics of ice on the Ottauquechee and Winooski Rivers of Vermont during winter 1977-78. Deck, D., [1978, 30p., eng] 34-1107

Ice characteristics in the seasonal sea ice zone. Wadhams, P., [1980, p.37-92, eng] 34-3626

Freshwater ice growth, motion, and decay. Ashton, G.D., [1980, p.261-304, eng] 34-3660

Freeze drying

Pore size distribution in critical point and freeze dried aggregates from clay subsoils. Lawrence, G.P., et al, [1979, p.499-515, eng] 34-1645

On the mechanism of dewatering colloidal aqueous solutions by freeze-thaw processes. Ezekwo, G., et al, [1980, p.1079-1088, eng] 34-4247

Freeze thaw cycles

Evaluation of freeze-thaw durability of stabilized materials. Thompson, M.R., et al, [1976, p.62-70, eng] 34-152

Evaluating the exploitational reliability of tanks at low temperatures. Bondarovich, L.A., et al, [1979, p.19-21, rus] 34-336

Analyzing some factors influencing corrosion stability of lightweight concretes. Podval'nyi, A.M., [1977, p.18-26, rus] 34-347

Field tests of concretes with silicon-organic oligomers. Batrakov, V.G., et al, [1977, p.41-44, rus] 34-349

Freeze-thaw cycles, potholes, and the winter of 1977-78. Hershfield, D.M., [1979, p.1003-1007, eng] 34-656

Insulating and load-supporting properties of sulfur foam for expedient roads in cold regions. Smith, N., et al, [1979, 21p., eng] 34-742

Dielectric properties of polymer materials in different climatic conditions. Filatov, I.S., [1979, 129p., rus] 34-749

Effect of cryogenic processes on the formation of gold-scattering water flows. Pliusnin, A.M., et al, [1979, p.700-703, rus] 34-811

Overconsolidated sediments in the Beaufort Sea. Chamberlain, E., [1978, p.24-29, eng] 34-873

Frost action on immature cement paste - effects on mechanical behavior. Kayyali, O.A., et al, [1979, p.1217-1225, eng] 34-1276

Studying frost resistance of rocks. Ben'kov, V.N., [1979, p.66-70, rus] 34-1529

Effect of compression on the strength of brickwork built in freezing weather. Kotov, I.T., [1972, p.236-237, rus] 34-1832

Role of naleds in chemical element migration in water. Ivanov, A.V., [1979, p.41-66, rus] 34-1937

Some factors that affect thaw strain. Alkire, B.D., [1978, p.6-10, eng] 34-1964

Freezing and thawing mechanisms in lime stabilized soils. Esmer, E., [1969, 204p., eng] 34-2067

Frost resistant concretes with fine sands. Ivanov, F.M., et al, [1979, p.24-26, rus] 34-2099

On the origin of stratified debris in ice cores from the bottom of the Antarctic ice sheet. Gow, A.J., et al, [1979, p.185-192, eng] 34-2231

Debris-laden ice at the bottom of the Greenland ice sheet. Herron, S., et al, [1979, p.193-207, eng] 34-2232

Problems raised by frost action. Fundamental and applied researches (rocks and artificial building materials). Vol.2: scientific reports. [1979, 527p., fre] 34-2313

Influence of cryogenic processes on clay minerals. Konishchev, V.N., et al, [1979, p.93-101, eng] 34-2319

Superimposed rockfalls and climatic changes in northwestern Greenland. Malaurie, J., [1979, p.117-128, fre] 34-2321

Correlation of rock weathering parameters. Hudec, P.P., [1979, p.147-156, eng] 34-2322

Methods of testing frost resistance of concretes. Houiou, A., [1979, p.213-224, fre] 34-2326

Methods of testing frost resistance of stone. Mamillan, M., [1979, p.225-238, fre] 34-2327

What do we know about freezing of concrete. Venuat, M., [1979, p.251-260, fre] 34-2329

Physical mechanism of freezing in rocks. Aguirre-Puente, J., [1979, p.271-284, fre] 34-2331

Experimental and numerical simulation of the thermal behavior of a road structure subjected to a freeze-thaw cycle. Caniard, L., et al, [1979, p.329-342, fre] 34-2336

Discussion about the freezing point depression in small pores. Haynes, J.M., et al, [1979, p.393-397, eng] 34-2341

Influence of water transport and transfer of heat by freezing and defrosting on soil genesis. Makeev, O.M., et al, [1972, p.699-712, eng] 34-2380

Properties of frozen base course in West Texas. Campbell, W.R., Jr., et al, [1979, 94p., eng] 34-2422

Polystyrene concrete, an effective thermal insulation material for industrial buildings and block-component construction. Stefurak, B.T., et al, [1980, p.5-6, rus] 34-2593

Concrete failure during cyclic freezing and the [illegible] concrete frost resistance. Vorob'ev, V.A., et al, [1979, p.121-124, rus] 34-2623

Resistance of porous asphalt and antihydroplaning surfaces to environmental effects and simulated aircraft wheel loadings. Hargett, E., [1974, 56p., eng] 34-2632

Development of fillings for slab track in cold region and its various properties. Fukunaga, M., [1977, p.138, eng] 34-2658

Durability of concrete. Steiger, R.W., et al, [1980, p.35-39, eng] 34-2665

Approximate solution of nonlinear Stefan problems. Danielian, IU.S., et al, [1979, p.79-82, rus] 34-2936

Calculating nonstationary temperature and moisture regimes of washed-up earth structures in a thawed state. Popov, IU.A., et al, [1980, p.94-101, rus] 34-3167

Bedrock freeze-thaw weathering regime in an alpine environment, Colorado Front Range. Thorn, C.E., [1979, p.211-228, eng] 34-3194

Present state of research on the freezing of rocks and construction materials. Aguirre-Puente, J., [1980, p.117-132, eng] 34-3241

Development of a laboratory set-up to measure creep induced by freeze-thaw cycles. Steijn, H. van, [1977, p.247-250, eng] 34-3261

Standardizing the requirements for frost resistance of asphalt-concretes. Barankovskii, A.S., et al, [1980, p.18-19, rus] 34-3760

Nivation: an arctic-alpine comparison and reappraisal. Thorn, C.E., et al, [1980, p.109-124, eng] 34-3803

Water migration, formation of texture and ice segregation in freezing and thawing clayey soils. Ershov, E.D., et al, [1980, p.159-175, eng] 34-3839

Mineral stability in the zone of cryolithogenesis. Konishchev, V.N., [1980, p.279-295, eng] 34-3846

Thawing effect on the strength of roadbeds. Poritskii, R.Z., [1978, p.14-24, rus] 34-4016

On the mechanism of dewatering colloidal aqueous solutions by freeze-thaw processes. Ezekwo, G., et al, [1980, p.1079-1088, eng] 34-4247

See also: Seasonal freeze thaw

Freeze thaw tests

Applications of the sonic test to experimental freeze-thaw studies in geomorphic research. Fahey, B.D., et al, [1979, p.253-260, eng] 34-1282

Failure of capillary theory of frost damage as applied to ceramics. Blachere, J.R., et al, [1974, p.212-216, eng] 34-1299

Action of de-icing salt on concrete. Wurth, E., [1978, 19p., eng] 34-1558

Some factors that affect thaw strain. Alkire, B.D., [1978, p.6-10, eng] 34-1964

Development of a one-cycle slow freeze test for identifying aggregates susceptible to freeze-thaw deterioration. Pence, H.J., [1969, 273p., eng] 34-2068

Effect of prefreezing on the strength and deformation properties of granular soils. Frydman, S., et al, [1979, p.31-42, eng] 34-2139

Some observations about rock weathering by frost upon the wall carvings. Fukuda, M., [1979, p.73-79, eng] 34-2317

Freeze-thaw tests and theories of frost action. Blachere, J.R., [1979, p.161-166, fre] 34-2323

Experimental studies of frost shattering of ceramic tiles. Muresan, M., [1979, p.239-249, fre] 34-2328

Freezing of water in porous materials. Blachere, J.R., [1979, p.295-303, fre] 34-2333

Frost action on immature cement paste - microstructural features. Kayyali, O.A., et al, [1980, p.264-268, eng] 34-4069

Freezeup

Freeze-up forecasting on the Great Lakes using weighted mean temperatures. Rogers, J.C., [1975, 16 leaves, eng] 34-735

Monitoring and mapping sea-ice breakup and freezeup of Arctic Canada from satellite imagery. Dey, B., et al, [1979, p.229-242, eng] 34-1280

Freeze-up and break-up dates of water bodies in Canada. Allen, W.T.R., et al, [1971, 144p., eng] 34-1504

Analysis and prediction of freeze-over dates of Minnesota lakes using LANDSAT imagery and weather information. Fu, A.Y.K., [1979, 188p., eng] 34-2474

Method for the long-range forecasting of the dates of ice appearance in the rivers of the Northeastern USSR. Savchenkova, E.I., [1978, p.47-50, eng] 34-3962

Freezing

Studying the combined effect of low air temperature and wind pressure on thermal regime of walls. Orel, O.P., [1972, p.166-176, rus] 34-189

Hydraulic system for extremely cold environments. Bridwell, J.W., et al, [1977, 4 col., eng] 34-266

Investigation of freezing of salt solutions in cells. Hayashi, Y. et al, [1979, p.459-463, eng] 34-647

Molten state of matter - melting and crystal structure. Ubbelohde, A.R., [1978, 454p., eng] 34-789

Crust behavior in simultaneous melting and freezing on a submerged flat plate. Ganguli, A., et al, [1978, 51p., eng] 34-1173

Freezing controlled by natural convection. Sparrow, E.M., et al, [1979, p.578-584, eng] 34-1498

Variational analysis of freezing or melting in a finite medium subject to radiation and convection. Yeh, L.T., et al, [1979, p.592-597, eng] 34-1499

Studies of the destructive mechanism of freezing of porous materials. Fagerlund, G., [1979, p.167-196, eng] 34-2324

Model of freezing in porous media applied to an actual case. Adler-Vignes, M., et al, [1979, p.263-269, fre] 34-2330

Freezing of water in porous materials. Blachere, J.R., [1979, p.295-303, fre] 34-2333

Exact solution for freezing of humid porous half-space. Mikhailov, M.D., [1979, p.305-313, eng] 34-2334

Study of freezing mechanisms in Caen rock. Lautridou, J.P., et al, [1979, p.343-358, fre] 34-2337

Use of ultrasonic waves to monitor the propagation of the freezing front in carbonaceous rocks. Masson, M., [1979, p.359-365, fre] 34-2338

Thermal regime in road constructions, measurements and simulation. Frivik, P.E., et al, [1979, p.482-496, eng] 34-2349

Determination of local permeabilities by a freezing process, in connection with predicting the success of a filter regeneration method. Schieff, H.O., [1979, p.473-478, ger] 34-2724

Coagulation growth effect on the freezing of supercooled drops. Zhekamukhov, M.K., [1979, p.14-22, rus] 34-2876

Formation of ice on electrical conductors during heavy falls of wet snow. Kemp, A.K., [1980, p.69-74, eng] 34-2903

Preliminary study of ice grown by droplet accretion using water-insoluble particles as tracer. Prodi, F., et al, [1980, p.284-289, eng] 34-3202

Ice nucleus and aerosol measurements in the plume of the Johnstown, Pa., steel mill. Schnell, R.C., et al, [1980, p.397-400, eng] 34-3779

Bottom crevasses. Weertman, J., [1980, p.185-188, eng] 34-3811

Climatology of freezing rain in the Montreal area. Leech, M.E., [1979, p.125-140, eng] 34-4211

Interferometric observation of natural convection during freezing from a vertical flat plate. Buren, P.D., et al, [1980, p.375-378, eng] 34-4248

Heat transfer analysis for solidification of rounds. Tien, R.H., [1980, p.378-379, eng] 34-4245

See also: Artificial freezing; Concrete freezing; Ice formation; Pipeline freezing; Regelation; Sea water freezing; Soil freezing; Vacuum freezing

Freezing depth

See: Frost penetration

Freezing indexes

Thermal climate regime on road and ground surface. Heiersted, R.S., [1979, p.497-509, eng] 34-2350

Local climatological investigation of Lake Kuttara. Ishikawa, N., et al, [1979, p.121-127, jap] 34-3497

Freezing nuclei

Ice nucleation by aerosol particles: experimental studies using a wedge shaped ice thermal diffusion chamber. Schaller, R.C., et al, [1979, p.1788-1802, eng] 34-1382

Laboratory studies of riming, and its relation to ice splinter production. Choularton, T.W., et al, [1980, p.367-374, eng] 34-3447

Freezing point depressants

See: Antifreezes

Freezing points

Investigation of rates of water movement through frozen soil. Williams, P.J., et al, [1979, 36p. + 4 appends., eng] 34-1582

Condensation-freezing mechanism at weak supersaturation in respect of ice. Grenier, J.C., et al, [1979, p.81-91, fre] 34-1743

Discussion about the freezing point depression in small pores. Haynes, J.M., et al, [1979, p.393-397, eng] 34-2341

Oceanographic data. [1976, 30p. + figs., eng] 34-3100

Pore-water pressure profile of a freezing soil. Fukuda, M., [1980, p.33-40, jap] 34-3157

Freezing temperature of aqueous solutions containing formamide, acetamide, propionamide and N,N-dimethylformamide. Lilley, T.H., et al, [1980, p.901-905, eng] 34-3264

Condensation-freezing mechanism at weak supersaturation in respect to ice. Montmory, R., [1980, p.71-83, fre] 34-4246

See also: Melting points

Freezing rate

Influence of moisture migration on ground freezing rate. Krivoshein, B.L., [1979, p.19-21, rus] 34-170

Principal results of frost action experiments at the Centre de Géomorphologie. Lautridou, J.P., [1978, p.5-13, fre] 34-2024

Proposed size classification for the texture of frozen earth materials. McGaw, R.W., [1979, p.267-275, eng] 34-2339

Freezing rate *(cont.)*

Ice platform construction, Resolute Bay, N.W.T., November-December 1974. Wasilewski, B.R., [1975, 109p., eng] **34-3103**

Concentration of impurities by progressive freezing. Halde, R., [1980, p.575-580, eng] **34-3436**

Controlling method for constant freezing front advancing rate in freezing soils. Fukuda, M., [1979, p.197-200, jap] **34-3508**

Friction

Study on the resistance of snowplowing and the running stability of a snow removal truck. Kaku, T., [1979, p.232-239, eng] **34-86**

Stand for dynamic tests of self-lubricating materials for friction and wear at low temperatures. Semenov, V.A., et al, [1975, p.132-135, rus] **34-234**

Abrasive strength of instrument steel rubbing or knocking against sand paper at low temperature. Tarasov, G.F., [1974, p.90-98, rus] **34-383**

Wear of steel rubbing against frozen ground. Dorodnyi, V.L., [1974, p.160-164, rus] **34-388**

Aircraft rolling resistance in loose dry snow, a theoretical analysis. Lidström, M., [1979, 30p., eng] **34-1564**

See also Glacier friction, Ice friction; Internal friction; Metal ice friction, Rubber ice friction; Rubber snow friction; Wood snow friction

Frost

Winter road preparation and commencement of traffic in the Mackenzie Delta. [1972, 20p., eng] **34-292**

Frost streaks in the south polar cap of Mars. Thomas, P., et al, [1978, p.4621-4633, eng] **34-685**

Mars: the wet look. Eberhart, J., [1979, p.108-110, eng] **34-738**

Frost gauges and freezing gauges. Banner, J.A., et al, [1979, 18p., eng] **34-779**

Frost action

Method for reducing frost damage of plants. Arny, D.C., et al, [1977, 4 col., eng] **34-148**

Some aspects of frost heave problems in road foundations. Jagannatha Rao, P., [1976, p.293-307, eng] **34-212**

Frost action on immature cement paste: effects on mechanical behavior. Kayyali, O.A., et al, [1979, p.1217-1225, eng] **34-1276**

Failure of capillary theory of frost damage as applied to ceramics. Blachere, J.R., et al, [1974, p.212-216, eng] **34-1299**

Results of two years of measurements of ablation and soil movement in the Mähder area, Kreuzeck group, Carinthia. Stocker, E., [1974, p.87-97, ger] **34-1673**

Expanded polystyrene concrete bases. Hanna, A.N., [1978, p.1-6, eng] **34-1963**

Principal results of frost action experiments at the Centre de Géomorphologie. Lautridou, J.P., [1978, p.5-13, fre] **34-2024**

Freezing of porous media and problems posed by frost action. Aguirre-Puente, J., [1978, p.15-43, fre] **34-2025**

Problems raised by frost action. Fundamental and applied researches (rocks and artificial building materials). Vol.2: scientific reports. [1979, 527p., fre] **34-2313**

Application of factor analysis to the study of patterned ground in polar environments. Brossard, T., [1979, p.61-71, fre] **34-2316**

Some observations about rock weathering by frost upon the wall carvings. Fukuda, M., [1979, p.73-79, eng] **34-2317**

Experimental studies of frost shattering at the Center for Geomorphology of the French National Center for Scientific Research. Lautridou, J.P., [1979, p.103-110, fre] **34-2320**

Superimposed rockfalls and climatic changes in northwestern Greenland. Malaurie, J., [1979, p.117-128, fre] **34-2321**

Freeze-thaw tests and theories of frost action. Blachere, J.R., [1979, p.161-166, fre] **34-2323**

Studies of the destruction mechanism at freezing of porous materials. Fagerlund, G., [1979, p.167-196, eng] **34-2324**

Methods of testing frost resistance of concretes. Houlou, A., [1979, p.213-224, fre] **34-2326**

Freezing of water in porous materials. Blachere, J.R., [1979, p.295-303, fre] **34-2333**

Thermal conductivity of soils and rocks. Johansen, Ö., [1979, p.407-420, eng] **34-2343**

Thermal climate regime on road and ground surface. Heiersted, R.S., [1979, p.497-509, eng] **34-2350**

Winter concreting. Pink, A., [1979, 19p., eng] **34-2513**

Frost action problem—an overview of research to provide solutions. DiMillio, A.F., et al, [1980, p.149-158, eng] **34-2558**

Alaska foundation hot-wired to prevent frost movement. [1980, p.20, eng] **34-2789**

Working with concrete (technology and organization). Balitskii, V.S., et al, [1980, 350p., eng] **34-3190**

Sorted strips orientated by wind action: some observations from sub-Antarctic Marion Island. Hall, K., [1979, p.281-289, eng] **34-3195**

Studying static growth of cracks in sand at subzero temperatures. Grechishchev, S.E., [1976, p.158-164, rus] **34-3207**

Influence of freezing on nutrient content of hydromorphic soils. Rudoi, N.G., et al, [1978, p.148-150, rus] **34-3362**

Small-scale testing of soils for frost action. Sayward, J.M., [1979, p.223-231, eng] **34-3990**

Frost action on immature cement paste: microstructural features. Kayyali, O.A., et al, [1980, p.264-268, eng] **34-4069**

Frost forecasting

Study of frost and ice prediction system on the Rouge River bridge. Final report. Crane, H.L., et al, [1974, 42p., eng] **34-1735**

Evaluating snow cover effect on temperature field of freezing rocks, allowing for the dependence of thermophysical snow characteristics on temperature. Melamed, V.G., et al, [1979, p.24-33, rus] **34-1909**

Probability and time characteristics of low air temperature regime of the atmospheric boundary layer above southwestern West Siberia. Luchitskaia, I.O., [1979, p.62-75, rus] **34-3579**

Relations between wind velocity and air temperature in Siberia. Drobyshev, A.D., [1979, p.79-89, rus] **34-3581**

Frost heave

Frost protection layers made of cemented materials. Gurnachkov, I.I., et al, [1979, p.8-10, rus] **34-10**

Mudboil activity, central District of Keewatin. Egginton, P.A., [1979, p.349-356, eng] **34-23**

Some aspects of frost heave problems in road foundations. Jagannatha Rao, P., [1976, p.293-307, eng] **34-212**

Equilibrium model for hummocks (nonsorted circles), Garry Island, Northwest Territories. Mackay, J.R., [1979, p.165-167, eng] **34-287**

Bedrock heave in the central Canadian Arctic. Dyke, L. [1979, p.241-246, eng] **34-288**

Frost heave at ground temperatures below 0C, Inuvik, Northwest Territories. Mackay, J.R., et al, [1979, p.403-405, eng] **34-290**

Methods of protecting foundations from frost heave. Fashchev, N.F., [1979, p.14-15, rus] **34-333**

Stresses beneath pilework produced by freezing of water saturated ground. Koniushenko, A.G., [1976, p.80-91, rus] **34-708**

Approximate calculation of frost heave forces acting on pilework. Koniushenko, A.G., [1976, p.92-100, rus] **34-709**

Uplift of objects by an upfreezing ice surface. Mackay, J.R., et al, [1979, p.609-613, eng] **34-780**

Road insulation with polystyrene foam. Gandahi, R., [1979, 32p., eng] **34-782**

Upward migration of moisture and heaving in frozen soils. Morel-Seytoux, H.J., [1979, p.328-335, eng] **34-1030**

Geography of Siberian resource development. Kosmachev, K.P., ed, [1979, 107p., rus] **34-1099**

Interaction between natural and technical systems (railroad track operation taken as an example). Kaiuchkin, N.P., [1979, p.33-46, rus] **34-1101**

Polystyrene insulation for concrete canal lining. Jones, C.W., et al, [1978, 30p., eng] **34-1172**

Designing gas pipeline crossings of major river valleys in the North. Kondrat'ev, V.G., et al, [1979, p.30-31, rus] **34-1183**

Properties of expanded polystyrene concrete and applications for pavement subbases. Hanna, A.N., [1978, 16p., eng] **34-1260**

Frost heave tests underway for Alaska gas pipeline. Hale, D., [1979, p.24-26, eng] **34-1289**

Geotechnical studies for freezing procedures. Huder, J., [1979, p.77-98, ger] **34-1321**

Geotechnical studies. Huder, J., [1979, p.31-42, ger] **34-1332**

SNiP 11-18-76. Construction norms and rules, Part II. Planning norms. Chapter 18. Footings and foundations on permafrost. [1979, 111p., eng] **34-1342**

Periglacial sorted circle and frost wedge formations in brownish soils of northern Germany. Blume, H.-P., et al, [1979, p.257-265, ger] **34-1495**

Periglacial research, final report. Burrous, C.M., [1979, 10 leaves, eng] **34-1505**

Permafrost classification according to physicomechanical properties for pipeline construction. Maksimiak, R.V., [1979, p.165-172, rus] **34-1550**

Cryogenic suction in partially saturated soils. Frémond, M., et al, [1979, p.57-59, fre] **34-1642**

Geologic controls of the origin, characteristics and distribution of ground ice. Mackay, J.R., et al, [1979, p.1-18, eng] **34-1679**

Experimental research on the principal mechanical properties of freezing and frozen soils in China (a review). Hsiao-pai, C., et al, [1979, p.159-177, eng] **34-1686**

Thermal inertia of ground and the development of tangential frost heave forces. Sokolov, V.M., [1979, p.21-22, rus] **34-1710**

Frost heaving of soils at two locations in southern Ontario, Canada. Fahey, B.D., [1979, p.119-126, eng] **34-1727**

Computer analysis of freezing with water migration in time when the process is formed on snow cover surface. Medvedev, A.V., et al, [1979, p.3-23, rus] **34-1908**

Road bed and surface design. Vyrko, N.P., [1979, p.18, rus] **34-1945**

Difficult trip. Zhukov, P.L., [1979, p.34-36, rus] **34-2124**

Crossings of roads with heat pipes. Nagornaia, E.A., [1979, p.37-40, rus] **34-2125**

Upper limits of heaving pressure obtained by observing pore water pressure under partial soil freezing. Takashi, T., et al, [1979, p.277-287, jap] **34-2173**

Recent relief-forming processes in Siberia. Ivanovskii, L.N., ed, [1978, 139p., rus] **34-2293**

Frost heave in Transbaikal steppes. Bazhenova, O.I., [1978, p.109-126, rus] **34-2298**

Proposed size classification for the texture of frozen earth materials. McGaw, R.W., [1979, p.267-275, eng] **34-2339**

Calculating electric heating of bearing ground beneath refrigerator columns. Gindoian, A.G., et al, [1976, p.88-107, rus] **34-2404**

Pipe bridge solves heaving problems. [1980, p.7, eng] **34-2408**

Properties of frozen base course in West Texas. Campbell, W.R., Jr, et al, [1979, 94p., eng] **34-2422**

Frost susceptibility of some gravels used in road construction in Ireland. Davitt, S., [1978, 35p., eng] **34-2435**

Pipelines and permafrost: physical geography and development in the circumpolar north. Williams, P.J., [1979, 98p., eng] **34-2498**

Osmotic method for determining rock and aggregate suction characteristics with applications to frost heave studies. Jones, R.H., et al, [1978, p.245-252, eng] **34-2525**

Design and construction of substations and maintenance depots for the central Baykal Amur railroad area. Filatov, A.M., [1980, p.51-53, rus] **34-2569**

Exogenic relief forming process in the cryolithozone. Sukhodrovskii, V.L., [1979, 280p., rus] **34-2684**

Construction of roadbeds on hummocky peats. Plotskii, A.S., et al, [1979, p.3-4, rus] **34-2856**

Use of "muskeg caps" to deter frost penetration under transmission line tower bases. Sims, R.A., [1978, p.116-131, eng] **34-2911**

Mathematical model to correlate frost heave of pavements with laboratory predictions. Berg, R.L., et al, [1980, 49p., eng] **34-3200**

Terrain-forming processes in the permafrost region and the principles of their prevention and limitation in territories under development. Grave, N.A., et al, [1980, p.11-23, eng] **34-3234**

Deformation of hydraulic structures of land reclamation systems in Central Yakutia. Selverstov, A.P., [1978, p.7-10, rus] **34-3354**

Maximum permissible values of nonuniform settlement of agricultural buildings. Zhukov, N.V., et al, [1980, p.243-248, eng] **34-3368**

Frost heave in Tomakomai (1978-1979). Kinoshita, S., et al, [1979, p.71-81, jap] **34-3457**

Frost heave under overburden pressure. Ishizaki, T., et al, [1979, p.169-178, jap] **34-3503**

Assuring frost resistance of roads under Siberian conditions. Brediuk, G.P., [1980, p.105-111, rus] **34-3596**

Electrochemical treatment of clay foundations. Zhinkin, G.N., et al, [1980, 164p., rus] **34-3756**

Cryogenic physical-geologic processes and their prediction. Grechishchev, S.E., et al, [1980, 383p., rus] **34-3757**

Using artificial freezing in counteracting frost heave effect on supports of pile-trestle bridges. Egorov, V.V., et al, [1978, p.86-92, rus] **34-3893**

Roads in Finland. Babkov, V.F., [1980, p.28-30, rus] **34-3954**

Small-scale testing of soils for frost action. Sayward, J.M., [1979, p.223-231, eng] **34-3990**

Frost mounds

Use of long-term automatic time-lapse photography to measure the growth of frost blisters. Van Everdingen, R.O., et al, [1979, p.1632-1635, eng] **34-1457**

Geologic controls of the origin, characteristics and distribution of ground ice. Mackay, J.R., et al, [1979, p.1-18, eng] **34-1679**

Rupture of an ice mound near Cape Dorset, N.W.T. Frederking, R.M.W., [1979, p.604-609, eng] **34-2047**

Palsas and other permafrost features in the lower Rock Creek Valley, west-central Alberta. Brown, G., [1980, p.31-40, eng] **34-2274**

Cryogenic formations in the Baian-Obo area. Ragcha, T., et al, [1978, p.8-11, rus] **34-2940**

Stratigraphy of a silt-cored palsa, Athin region, British Columbia, Canada. Seppälä, M., [1980, p.357-365, eng] **34-3872**

Dynamics of vegetational cover and the development of cryogenic relief forms. Tyrtikov, A.P., [1979, 116p., rus] **34-4010**

Effects of zonality and environmental conditions on horizontal structure of phytocenoses of flat palsa peat bogs in West Siberia. Moskalenko, N.G., [1980, p.7-12, rus] **34-4142**

Frost penetration

Influence of moisture migration on ground freezing rate. Krivoshein, B.L., [1979, p.19-21, rus] **34-170**

Axisymmetric freezing and creep of water-saturated rocks. Dubina, M.M., et al, [1975, p.44-48, rus] **34-220**

Solution of a problem of freezing of an unlimited slab of fine grained material, allowing for moisture migration. Kurilko, A.S., et al, [1975, p.77-82, rus] **34-225**

Similarity criterion for freezing processes in dispersed media. Kozhevnikov, N.N., [1975, p.90-93, rus] 34-227

Thermophysical characteristics of moisture and gas-saturated sandstones at naturally low temperatures. Grolsman, A.G., et al, [1975, p.106-107, rus] 34-229

Calculating thermal regime of reservoirs in permeable rocks surrounded by ice-bearing zones. Valiullin, A.N., et al, [1978, p.140-146, rus] 34-255

Means of protecting foundations from frost heave. Pyshchev, N.F., [1979, p.14-15, rus] 34-333

Factors and forms of cryogenesis in soils of Kazakhstan. Gorbunova, I.A., [1978, p.49-53, rus] 34-339

Frost penetration beneath black-painted concrete canal lining. Jones, C.W., [1979, 33p., eng] 34-531

Approximate calculation of frost heave forces acting on pilework. Koniushenko, A.G., [1976, p.92-100, rus] 34-709

Studying the migration of chlorine-marked soil moisture. Shugalei, L.S., et al, [1979, p.68-78, rus] 34-977

Spring runoff from small drainage basins of the Dubovskaya hydrometeorological station. Bystrov, A.V., [1979, p.26-38, rus] 34-1078

Accuracy of determining soil freezing depth at observation points. Sokolova, N.V., [1979, p.122-128, rus] 34-1083

Observation data on moisture-temperature regime of foundation soils. Anpilov, V.E., et al, [1979, p.74-77, eng] 34-1147

Calculation of frostline penetration in high voltage cable trench Mt. Elbert pumped-storage powerplant. Landman, J.K., [1977, 48p., eng] 34-1175

Regularities governing the distribution of soils and vegetational covers in southern Transbaikal. Dmitrieva, E.V., [1979, p.427-432, rus] 34-1390

Seasonal freezing effect on hydrogeological conditions of the Chul'man Basin. Buldovich, S.N., [1979, p.60-67, rus] 34-1394

Winter construction of roadbeds. Kostel'ov, M.P., et al, [1979, p.20-21, rus] 34-1422

Influence of salinity on frozen ground deformation. Pekarskaia, N.K., et al, [1979, p.5-19, rus] 34-1534

Heat transfer problems applied to the theory of well drilling. Pudovkin, M.A., et al, [1979, 182p., rus] 34-1650

Thermal inertia of ground and the development of tangential frost heave forces. Sokolov, V.M., [1979, p.21-22, rus] 34-1710

Calculating temperature distribution in seasonally freezing ground by the finite element method. Rudykh, O.L., et al, [1979, p.130-135, rus] 34-1720

Frost heaving of soils at two locations in southern Ontario, Canada. Fahey, B.D., [1979, p.119-126, eng] 34-1727

Seasonal freezing of ground in the non-chernozem areas of the RFSFR and its mapping. Tumel', N.V., et al, [1979, p.36-41, rus] 34-1757

Biochemical productivity in soils of some biogeocenoses in the Baraba Plain, subject to continuous cultivation. Gantimurova, N.I., [1979, p.87-107, rus] 34-1809

Computer analysis of freezing with water migration in time when the process is formed on snow cover surface. Medvedev, A.V., et al, [1979, p.3-23, rus] 34-1908

Evaluating snow cover effect on temperature field of freezing rocks, allowing for the dependence of thermophysical snow characteristics on temperature. Melamed, V.G., et al, [1979, p.24-33, rus] 34-1909

Experimental studies of ice formation fields under nonunivariate frost penetration conditions. Zhestkova, T.N., et al, [1979, p.159-167, rus] 34-1924

Moisture transfer and ice segregation in the frozen zone of thawing ground. Ershov, E.D., et al, [1979, p.179-192, rus] 34-1926

Role of seasonal ground freezing in ground water regimes of the area east of Lake Baykal. Blokhin, IU.I., [1979, p.96-101, rus] 34-1940

Road bed and surface design. Vyrko, N.P., [1979, p.18, rus] 34-1945

Peat accumulation and the formation of swamps as a physiographic process. Ivanov, K.E., [1976, p.80-90, rus] 34-2007

Influence of subzero temperatures on the erosion resistance of soils depending on their humidity. Muromtsev, N.A., [1968, p.22-25, rus] 34-2021

Difficult trip. Zhukov, P.L., [1979, p.34-36, rus] 34-2124

Classification of cryogenic structures in the aeration zone of peat deposits. Kmitovenko, A.T., et al, [1979, p.8-11, rus] 34-2131

Recent relief-forming processes in Siberia. Ivanovskiĭ, L.N., ed, [1978, 139p., rus] 34-2293

Recent exogenic relief-forming processes in Transbaikal steppes. Titova, Z.A., et al, [1978, p.3-21, rus] 34-2294

Frost heave in Transbaikal steppes. Bazhenova, O.I., [1978, p.109-126, rus] 34-2298

Thermal climate regime on road and ground surface. Heiersted, R.S., [1979, p.497-509, eng] 34-2350

Local conditions and frost penetration depth. Recordon, E., [1972, p.378-383, ger] 34-2395

Soil freezing and highway construction. [1978, 105p., eng] 34-2480

Seasonal freezing of soil and ground in the southeastern Amur area. Baulo, V.D., et al, [1978, p.100-107, rus] 34-2535

Mechanics of frozen ground disintegration. Surikov, V.V., [1979, 127p., rus] 34-2670

Movement of freezing front inside pipelines after cessation of pumping. Novoselov, V.F., et al, [1979, p.67-79, rus] 34-2705

Experimental and field observation of the ascending migration of iron and humus substances in freezing soils. Archegova, I.B., [1979, p.103-107, rus] 34-2711

Pleistocene dynamics of West Siberian permafrost (computerized simulation). Shpolianskaia, N.A., et al, [1980, p.127-141, rus] 34-2768

Alaska foundation hot-wired to prevent frost movement. [1980, p.20, eng] 34-2789

Long range forecasts of flood water volume in the Oka River, allowing for soil freezing irregularities in the basin. Rakhmanov, V.V., [1978, p.41-52, rus] 34-2894

Use of "muskeg caps" to deter frost penetration under transmission line tower bases. Sims, R.A., [1978, p.116-131, eng] 34-2911

Geocryologic and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, [1978, 187p., rus] 34-2915

Thickness of the seasonally freezing surface layer in Yakutia. Solov'ev, P.A., [1978, p.3-12, rus] 34-2916

Cryogenic formations in the Batan-Obo area. Ragcha, T., et al, [1978, p.8-11, rus] 34-2940

Forecasting soil erosion development in the agricultural zone of West Siberia. Orlov, A.D., [1979, p.101-113, rus] 34-3079

Hydrochemical runoff and the intensity of soil salinization in West Siberia. Panin, P.S., [1979, p.141-170, rus] 34-3081

Seasonal moisture exchange dynamics between ground waters and the aeration zone of Kulunda Steppe. Sen'kov, A.A., [1979, p.183-190, rus] 34-3082

Modelling the processes of river runoff formation. Kuchment, L.S., [1980, 143p., rus] 34-3188

Mathematical model to correlate frost heave of pavements with laboratory predictions. Berg, R.L., et al, [1980, 49p., eng] 34-3200

Proceedings of the All-Union symposium on the rheology of soils, 2nd, Tsakhkadzor, Oct. 7-10, 1975. [1976, 406p., rus] 34-3203

Studying static growth of cracks in sand at subzero temperatures. Grechishchev, S.E., [1976, p.158-164, rus] 34-3207

Present state of research on the freezing of rocks and construction materials. Aguirre-Puente, J., [1980, p.117-132, eng] 34-3241

Permafrost in the territory of the Boguchansk reservoir. Serov, A.G., et al, [1980, 9p., eng] 34-3392

Studying soil moisture migration toward freezing fronts. Kalinzhyĭ, I.L., et al, [1980, p.13-29, rus] 34-3459

Regularities of soil moisture migration during frost penetration. Sokolova, N.V., [1980, p.30-38, rus] 34-3460

Mobile net ... nique for numerical solution of the equations of heat and moisture transfer in soils. Khimin, N.M., [1980, p.72-81, rus] 34-3461

Controlling method for constant freezing front advancing rate in freezing soils. Fukuda, M., [1979, p.197-200, jap] 34-3508

Assuring frost resistance of roads under Siberian conditions. Brediuk, G.P., [1980, p.105-111, rus] 34-3596

Electrochemical treatment of clay foundations. Zhinkin, G.N., et al, [1980, 164p., rus] 34-3756

Cryogenic physical-geologic processes and their prediction. Grechishchev, S.E., et al, [1980, 383p., rus] 34-3757

English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 1. [1980, 399p., eng] 34-3827

Geophysical aspects of the development of permafrost. Kudriavtsev, V.A., et al, [1980, p.63-79, eng] 34-3832

Results of experimental studies of the freezing process in very fine-grained soils. Zhestkova, T.N., [1980, p.119-136, eng] 34-3836

Water migration, formation of texture and ice segregation in freezing and thawing clayey soils. Ershov, E.D., et al, [1980, p.159-175, eng] 34-3839

Construction of an embankment with frozen soil. Botz, J.J., et al, [1980, 105p., eng] 34-3873

Water permeability of frozen non-cohesive soils and analyses of its variation during the snowmelt and thawing periods. Shtykov, V.I., [1979, p.91-98, rus] 34-3885

Finite element method of calculating ground freezing depth. Rudykh, O.L., et al, [1978, p.81-85, rus] 34-3892

Role of the thermal factor in the formation of bogs in the Amur Region. Kholoden, E.E., [1978, p.6-10, eng] 34-3960

Mathematical model of water infiltration into frozen soils. Motovilov, IU.G., [1978, p.207-211, eng] 34-4060

Quantitative investigation of heat-mass transfer in rocks during phase transformations. Melamed, V.G., [1980, p.35-40, rus] 34-4119

Seasonal variations of soil formation in the Lake Baykal area. Snytko, V.A., et al, [1979, p.36-48, rus] 34-4163

Frost protection

Frost protection layers made of cemented materials. Gurtachkov, I.L., et al, [1979, p.8-10, rus] 34-10

Linköping test field 1976. Investigation of the occurrence and frequency of icing on various roadbases. 2. Investigation of icing February to April, 1977. Gustafson, K., [1977, c.110 leaves, swe] 34-43

Construction and performance of membrane encapsulated soil layers in Alaska. Smith, N., [1979, 27p., eng] 34-134

Annotated bibliography on northern environmental engineering 1976-1977. Armstrong, B.C., comp, [1979, 132p., eng] 34-739

Pressure pipelines for water supply of railroads. Dikarevskiĭ, V.S., et al, [1978, 278p. (Pertinent p 198-231), rus] 34-849

Increasing the effectiveness of freezing foams used in thermal melioration of soils. Safonov, V.F., et al, [1979, p.118-123, rus] 34-1518

Methods of frozen ground excavation. Artemenko, M., [1979, p.32-34, 61, rus] 34-1773

Expanded polystyrene concrete bases. Hanna, A.N., [1978, p.1-6, eng] 34-1963

Practical trials of insulants made from plastics for frost-protection in road and railroad construction: comparison of theory and practice. Apostolopoulos, C., et al, [1979, p.421-437, eng] 34-2344

Thermal regime in road constructions, measurements and simulation. Frivik, P.E., et al, [1979, p.482-496, eng] 34-2349

Hydrothermal melioration of frozen rocks in the Northeastern USSR. Perl'shtein, G.Z., [1979, 304p., rus] 34-2530

Alaska foundation hot-wired to prevent frost movement. [1980, p.20, eng] 34-2789

Ice regime of pipelines. Zhidkikh, V.M., et al, [1979, 131p., rus] 34-2871

Use of "muskeg caps" to deter frost penetration under transmission line tower bases. Sims, R.A., [1978, p.116-131, eng] 34-2911

Temperature regime of southern chernozems in the Irkutsk region, subject to long seasonal freezing, and their thermal melioration. Karnaukhov, N.I., et al, [1978, p.94-95, rus] 34-3360

Frost resistance

Influence of thermal stresses on brittle failure of deep metal silos. Shafrai, S.D., [1979, p.34-38, rus] 34-126

Influence of water temperature and setting accelerators on hardening time of frost resistant cements. Shugalei, R.T., et al, [1979, p.76-78, rus] 34-127

Organic-mineral admixtures for increasing strength and frost resistance of reinforced concretes in the Kola Peninsula. Zamoshchik, A.I., et al, [1972, p.74-84, rus] 34-180

Economic effectiveness of antifreeze admixtures. Modylevskiĭ, A.B., et al, [1972, p.177-185, rus] 34-190

Silicate cements and dense concretes on a base of nepheline slag and phosphorite residues. Riumin, K.I., et al, [1972, p.196-201, rus] 34-191

Using the super-plasticizer S-3 in manufacturing reinforced concrete supports for power lines. Kolokol'nikova, E.I., et al, [1979, p.23-24, rus] 34-331

Optimal properties of cellular concrete with alkaline slag cement. Bagrov, B.O., [1979, p.45-47, rus] 34-332

Mortars with sodium acetate admixtures. Nikulin, V.T., et al, [1979, p.18, rus] 34-340

Studying corrosion and protection of concrete and reinforced concrete structures in severe climatic conditions and corrosive media. Moskvin, V.M., ed, [1977, 129p., rus] 34-345

Concretes for roof plates. Savvina, IU.A., et al, [1977, p.14-17, rus] 34-346

Field tests of concretes with silicon-organic oligomers. Batrakov, V.G., et al, [1977, p.41-44, rus] 34-349

Optimal composition of complex powder admixtures for concretes. Gen', O.P., et al, [1977, p.45-50, rus] 34-350

Preservation of reinforcement in haydite concretes containing air entrainment admixtures. Stepanova, V.F., [1977, p.71-76, rus] 34-352

Determining concrete strength under severe climatic conditions. Savitskiĭ, A.N., et al, [1977, p.98-101, rus] 34-353

Abrasive strength of instrument steel rubbing or knocking against sand paper at low temperature. Tarasov, G.F., [1974, p.90-98, rus] 34-383

Technological means of increasing wear resistance of fused-on metals. Ermol ev, S.V., [1974, p.143-146, rus] 34-387

Abrasive strength of polymers at low temperatures. Koval'chuk, L.P., [1974, p.164-167, rus] 34-389

Recommendations for using lightweight concrete in the construction of large panel residential buildings. [1976, 71p., rus] 34-401

Physico-mechanical properties of autoclaved, fine grained cellular concrete. Klem, V.R., [1972, p.67-71, rus] 34-585

Regularities governing properties of mortars. Ryb'ev, I.A., et al, [1979, p.64-67, rus] 34-805

Structure and properties of cement concretes. Sheikin, A.E., et al, [1979, 344p., rus] 34-850

Structural criterion of concrete frost resistance. Dvorkin, L.I., et al, [1979, p.75-78, rus] 34-851

Frost resistance *(cont.)*

Testing concrete for frost resistance. Sizov, V.P., [1979, p.34-35, rus] **34-1433**

Controlling frost resistance of concrete during production. Voevoda, G.F., et al, [1979, p.35-37, rus] **34-1434**

Calculating service life of waterproof mastic roofings. Popchenko, S.N., et al, [1979, p.15-22, rus] **34-1527**

Increasing the reliability of waterproof asphalt facings for concrete dams. Davidenko, V.M., et al, [1979, p.23-29, rus] **34-1528**

Studying frost resistance of rocks. Ben'kov, V.N., [1979, p.66-70, rus] **34-1529**

Determining frost resistance of concrete from the compensation factor. Shlaen, A.G., [1979, p.37-38, rus] **34-1568**

Studying properties of G class cement and the "Permafrost" mixture according to the national standards. Klusov, A.A., [1979, p.31-34, rus] **34-1755**

Arctic adaptations in plants. Savile, D.B.O., [1972, 81p., eng] **34-1776**

Effect of compression on the strength of brickwork built in freezing weather. Kotov, I.T., [1972, p.236-237, rus] **34-1832**

Freezing and thawing mechanisms in lime stabilized soils. Esmer, E., [1969, 204p., eng] **34-2067**

Frost resistant concretes with fine sands. Ivanov, F.M., et al, [1979, p.24-26, rus] **34-2099**

Problems raised by frost action. Fundamental and applied researches (rocks and artificial building materials). Vol.2, scientific reports, [1979, 527p., fre] **34-2313**

Studies of the destruction mechanism at freezing of porous materials. Fagerlund, G., [1979, p.167-196, eng] **34-2324**

Relation between the frost resistance and the mechanical and porosimetric characteristics of a terra cotta fragment. Fontaine, T., [1979, p.197-211, fre] **34-2325**

Methods of testing frost resistance of concretes. Houtou, A., [1979, p.213-224, fre] **34-2326**

Methods of testing frost resistance of stone. Mamillan, M., [1979, p.225-238, fre] **34-2327**

Experimental studies of frost shattering of ceramic tiles. Muresan, M., [1979, p.239-249, fre] **34-2328**

Construction research. Thermal physics. Structural durability, [1979, 180p., rus] **34-2381**

Quick method of forecasting frost resistance of autoclaved slate-ash cellular concrete. Kremerman, T.B., et al, [1979, p.123-126, rus] **34-2383**

Frost resistance and mechanical properties of calcareous sandstone concrete. Marmor, Kh.G., et al, [1979, p.127-134, rus] **34-2384**

Bearing capacity and frost. Balduzzi, F., et al, [1972, p.384-388, ger] **34-2396**

Frost susceptibility of some gravels used in road construction in Ireland. Davitt, S., [1978, 35p., eng] **34-2435**

Frost action problems: an overview of research to provide solutions. DiMillio, A.F., et al, [1980, p.149-158, eng] **34-2558**

Significance of the Kislogubsk tidal power plant for hydraulic construction and power engineering. Bernshtein, L.B., et al, [1980, p.64-67, rus] **34-2578**

Building new types of concrete dams under northern conditions. Kudoiarov, L.I., [1980, p.67-69, rus] **34-2579**

Surface-active admixtures for concretes of airport pavement plates. Saf'ianova, N.E., et al, [1980, p.23-24, rus] **34-2588**

Polystyrene concrete, an effective thermal insulation material for industrial buildings and block-component construction. Stefurak, B.I., et al, [1980, p.5-6, rus] **34-2593**

Mechanical properties of metals depending on temperature and deformation rates. Chaplinskii, I.A., et al, [1979, p.31-35, rus] **34-2617**

Hot sand-cement mixes for road pavement bases. Vostrikov, IU.S., et al, [1979, p.105-108, rus] **34-2618**

Concrete failure during cyclic freezing and the development of an automatic system for forecasting concrete frost resistance. Vorob'ev, V.A., et al, [1979, p.121-124, rus] **34-2623**

New soil stabilization technique. Lukanina, T.M., et al, [1979, p.10-11, rus] **34-2794**

Studying properties of concretes saturated with sulfur solutions. Orlovskii, IU.I., et al, [1980, p.78-81, rus] **34-3166**

Methods of determining thermal, moisture and physical characteristics of concretes. Drobyshevskii, B.A., [1979, p.70-73, rus] **34-3182**

Equivalent coefficients of moisture diffusion for concretes used in bridge construction. Drobyshevskii, B.A., [1979, p.73-79, rus] **34-3183**

Working with concrete (technology and organization). Balitskii, V.S., et al, [1980, 350p., eng] **34-3190**

Experiment planning technique used for determining optimal compositions of combined admixtures for concretes. Grushko, I.M., et al, [1980, p.72-75, rus] **34-3594**

Water repellant plasticizing admixtures for cements, grouts and concretes. Khigerovich, M.I., et al, [1921, 125p., rus] **34-3615**

Standardizing the requirements for frost resistance of asphalt-concretes. Barankovskii, A.S., et al, [1980, p.18-19, rus] **34-3760**

New thermoplastic material for marking roads. Zadontsev, B.G., et al, [1980, p.19-20, rus] **34-3761**

Petrochemical product admixtures for concretes. Cherepanov, R., et al, [1980, p.42-43, rus] **34-3930**

Erection of multistory brick buildings in Noril'sk. Shkliarov, N., et al, [1980, p.32-35, rus] **34-3931**

Frost damage to cambium of plants introduced in Arkhangel'sk. Nilov, V.N., [1979, p.50-52, rus] **34-3958**

Modeling productivity and frost hardiness of plants. Kurets, V.K., et al, [1979, 15p., rus] **34-4012**

Hydrophobic-plasticizing admixtures to concretes used in road construction. Teshabaev, R.D., [1980, 63p., rus] **34-4013**

Low temperature effect on lipid exchange in trees and grasses and phase transformations in membranes. Rodionov, V.S., [1979, p.91-92, rus] **34-4234**

Accelerated growing of pine seedlings introduced beyond the polar circle. Daiasova, N.P., et al, [1979, p.107-108, rus] **34-4235**

Frost shattering

Soil forming factors in the Rocky Mountains of Southwestern Alberta, Canada. Howell, J.D., et al, [1978, p.313-324, eng] **34-797**

Structure and properties of cement concretes. Shetkin, A.E., et al, [1979, 344p., rus] **34-850**

Facial characteristics of rock streams in southern Yakutia and northern Transbaikal. Romanovskii, N.N., et al, [1979, p.59-73, rus] **34-1395**

Relict cryogenic microrelief of the southern Bryansk Region. Porozhniakova, O.M., [1979, p.86-93, rus] **34-1823**

Artificial freezing technique of increasing bottom zone permeability in gas-condensate wells of the Far North Govdun, V.V., [1979, p.11-13, rus] **34-2048**

Frost shattering observed on cracks at the surface of Gilman Glacier, Ellesmere Island. Brochu, M., [1979, p.55-59, fre] **34-2315**

Detection of frost shattering in high mountains by means of photography in the blue and near ultraviolet spectra. Galibert, G., [1979, p.81-92, fre] **34-2318**

Experimental studies of frost shattering at the Center for Geomorphology of the French National Center for Scientific Research. Lautridou, J.P., [1979, p.103-110, fre] **34-2320**

Experimental studies of frost shattering of ceramic tiles. Muresan, M., [1979, p.239-249, fre] **34-2328**

Frost shattering of wet rock. Bertouille, H., [1979, p.315-328, fre] **34-2335**

Wind action in frost shattering processes. Brochu, M., [1979, p.401-404, fre] **34-2342**

Deformation of hydraulic structures of land reclamation systems in Central Yakutia. Seliverstov, A.P., [1978, p.7-10, rus] **34-3354**

Some aspects of the mechanics of frost fracturing of soils in the permafrost zone. Grechishchev, S.E., [1980, p.259-278, eng] **34-3845**

Mineral stability in the zone of cryolithogenesis. Konishchev, V.N., [1980, p.279-295, eng] **34-3846**

Frost weathering

Results of two years of measurements of ablation and soil movement in the Mähder area, Kreuzeck group, Carinthia. Stocker, E., [1974, p.87-97, ger] **34-1673**

Genetic classification of rock streams. Turin, A.I., [1979, p.77-85, rus] **34-1760**

Slope denudation in the bald peak zone of western Sayan. Rashba, I.N., [1978, p.69-87, rus] **34-2296**

Some observations about rock weathering by frost upon the wall carvings. Fukuda, M., [1979, p.73-79, eng] **34-2317**

Experimental studies of frost shattering at the Center for Geomorphology of the French National Center for Scientific Research. Lautridou, J.P., [1979, p.103-110, fre] **34-2320**

Correlation of rock weathering parameters. Hudec, P.P., [1979, p.147-156, eng] **34-2322**

Exogenic geologic processes and phenomena in the Angara River area. Leshchikov, F.N., et al, [1976, p.93-101, rus] **34-2644**

Bedrock freeze-thaw weathering regime in an alpine environment, Colorado Front Range. Thorn, C.E., [1979, p.211-228, eng] **34-3194**

Terrain-forming processes in the permafrost region and the principles of their prevention and limitation in territories under development. Grave, N.A., et al, [1980, p.11-23, eng] **34-3234**

Dynamics of the Baykal shore processes on the Tyya-Nizhneangarsk section. Bodenko, V.M., et al, [1980, 6p., eng] **34-3400**

Cryogenic relief of bald peaks in Pribaykal'e and Northern Transbaykal. Vyrkin, V.B., [1977, p.138-163, rus] **34-3607**

Mineral stability in the zone of cryolithogenesis. Konishchev, V.N., [1980, p.279-295, eng] **34-3846**

Frozen cargo

Operating large dumpers at the "Tsentral'nyy" mine, the "Apatit" departure yard. Kolesnikov, V.G., et al, [1979, p.17-18, rus] **34-1836**

Infrared radiators for heating frozen cargo. Lepnev, M.I., et al, [1979, 94p., rus] **34-1932**

Transportation and unloading of freezing cargo. Lepnev, M.I., [1979, p.2-4, rus] **34-2081**

Effectiveness of clay freezing prevention methods. Kharlamov, V.N., [1979, p.4-8, rus] **34-2082**

Electropulse equipment for cleaning railroad cars. Lavin, I.A., et al, [1979, p.8-9, rus] **34-2083**

Recommendations for loading and unloading freezing cargo. Severtsova, I.P., [1979, p.11, rus] **34-2084**

Another outlook on the problem of unloading frozen cargo. Serebriakova, I.P., [1979, p.14-15, rus] **34-2089**

New technique of heating frozen cargo. Dmitriev, G.G., et al, [1979, p.20, rus] **34-2095**

Assembly for unloading frozen construction materials, PR-188. Volkova, A.F., [1980, p.30, rus] **34-2585**

Dehydration of nonmetalliferous construction materials at low temperatures. Gurevich, V.G., et al, [1980, 70p., rus] **34-3824**

Optimizing the heating of cargo frozen to walls of railroad cars. Portnov, I.G., [1978, p.53-64, rus] **34-3909**

Frozen fines

Solution of a problem of freezing of an unlimited slab of fine grained material, allowing for moisture migration. Kurilko, A.S., et al, [1975, p.77-82, rus] **34-225**

Similarity criterion for freezing processes in dispersed media. Kozhevnikov, N.N., [1975, p.90-93, rus] **34-227**

Excavation of hard rocks in the central section of the Baykal Amur railroad. Basistov, M.A., [1979, p.3-4, rus] **34-328**

Engineering geology of the USSR. Vol.5, Altai and Ural Mountains. Trepetsov, E.V., ed, [1978, 220p., rus] **34-768**

Using frozen ground in earth dam construction. Kuznetsov, G.I., et al, [1979, p.92-96, rus] **34-806**

Investigation of the bearing capacity of piles driven into plastic frozen soil. Chernaev, V.I., et al, [1979, p.32-36, eng] **34-981**

Deformation of stabilized, ice-saturated lumpy soil. Bahasnikov, G.G., [1979, p.41-42, rus] **34-1154**

Determining heat consumption during year round pouring of earth into water. Liberman, A.I., et al, [1979, p.43-44, rus] **34-1155**

Engineering geocryology. Mel'nikov, P.I., ed, [1979, 208p., rus] **34-1533**

Freezing effect on the strength and deformation of clays under pressure from hard stamps. Sadovskii, A.V., et al, [1979, p.20-30, rus] **34-1535**

Determining the settlement of thawing coarse clastic deposits in mountains of the northeastern USSR. Taibashev, V.N., et al, [1979, p.173-178, rus] **34-1551**

Thermal inertia of ground and the development of tangential frost heave forces. Sokolov, V.M., [1979, p.21-22, rus] **34-1710**

Mechanism of blasting massive frozen ground. Balbachan, I.P., [1979, p.32-34, rus] **34-1768**

Experimental studies of ice formation fields under nonuniformvariate frost penetration conditions. Zhestkova, T.N., et al, [1979, p.159-167, rus] **34-1924**

Phase composition of moisture in permafrost of different origin and age. Ershov, E.D., et al, [1979, p.168-178, rus] **34-1925**

Bound water content in fine grained rocks. Ananian, A.A., et al, [1979, p.193-196, rus] **34-1927**

Active centers at the surface of fine rock particles. Ananian, A.A., [1979, p.196-200, rus] **34-1928**

Lower boundary of water-ice phase transitions in frozen fines. Ananian, A.A., et al, [1979, p.201-206, rus] **34-1929**

Hydrothermal melioration of frozen rocks in the Northeastern USSR. Perl'shtein, G.Z., [1979, 304p., rus] **34-2530**

Experimental pipeline section with prefabricated insulation. Zinevich, A.M., et al, [1980, p.21-22, rus] **34-2598**

Studying ground ice in the Baykal Amur railroad area. Nekrasov, I.A., et al, [1979, p.17-26, rus] **34-2771**

Authigenic minerals in syngenetically freezing deposits of Central Yakutia. Zigert, Kh.G., [1978, p.50-57, rus] **34-2921**

Lithologic and palynologic characteristics of alassy deposits in Central Yakutia. Bosikov, N.P., et al, [1978, p.66-79, rus] **34-2923**

Proceedings of the All-Union symposium on the rheology of soils, 2nd, Tsakhkadzor, Oct. 7-10, 1975, [1976, 406p., rus] **34-3203**

Creep as reflected in the numerical calculation of the stress-strain state of foundations. Kryzhanovskii, A.I., et al, [1976, p.220-227, rus] **34-3210**

On the role of the components of frozen clay soils in the development of strength at different temperatures. Maksimiak, R.V., et al, [1980, p.169-183, eng] **34-3244**

Permafrost in the territory of the Boguchansk reservoir. Serov, A.G., et al, [1980, 9p., eng] **34-3392**

Cryopedometer (design and application). Tishin, M.I., [1979, p.31-33, rus] **34-3469**

Loess-ice formation of East Siberia in Late Pleistocene and Holocene. Tomirdiaro, S.V., [1980, 184p., rus] **34-3478**

Determining aquifer permeability from electrical logs in West Siberia. Balabanov, A.P., et al, [1979, p.50-54, rus] **34-3482**

Soil formation on dust loams in the taiga zone of northeastern European USSR. Rusanova, G.V., et al, [1978, 128p., rus] **34-3753**

An NMR study of the phase transition of water in models and in frozen clays. Kvlividze, V.I., et al, [1980, p.81-96, eng] 34-3833
Conditions and geothermal consequences of the moisture exchange between the lithosphere and the atmosphere in permafrost regions. Shvetsov, P.F., [1980, p.109-117, eng] 34-3835
Results of experimental studies of the freezing process in very fine-grained soils. Zhestkova, T.N., [1980, p.119-136, eng] 34-3836
Experimental investigation of heat and moisture transfer during sublimation-desublimation of water in fine-grained soils. Ershov, E.D., et al, [1980, p.143-158, eng] 34-3838
Water migration, formation of texture and ice segregation in freezing and thawing clayey soils. Ershov, E.D., et al, [1980, p.159-175, eng] 34-3839
Building reinforced concrete road pavement on weak grounds. Kolchanov, A.D., et al, [1979, p.22-24, rus] 34-3856
Determining passability of walking excavators in inhomogeneous grounds, allowing for frozen layers. Zagorulko, L.P., [1978, p.118-124, rus] 34-3905
Lithologic and petrographic peculiarities of rocks in the subpermafrost transition zone of the Sangarskiy coal deposit. Den'gina, N.I., et al, [1979, p.50-54, rus] 34-3907
Freezing of ground under open system conditions. Zhestkova, T.N., et al, [1980, p.164-177, rus] 34-4133
Break-off strength of adfreezing ground. Shusherina, E.P., et al, [1980, p.178-194, rus] 34-4134
Thermal conductivity of frozen and thawed sands, depending on density and moisture content. Ananian, A.A., et al, [1980, p.195-200, rus] 34-4135
Mechanical properties of rocks in the active layer of the "Medvezh'e" area. Vrachev, V.V., et al, [1980, p.201-204, rus] 34-4136

Frozen ground

Cryogenic sediment sampler. Walkotten, W.J., [1977, 4 col., eng] 34-145
Cement-silicate solutions used in building grout curtains under complex hydrogeological conditions. Shugalei, R.T., et al, [1979, p.74-77, rus] 34-198
Modeling frozen ground as an abrasive medium. Gorbunov, V.F., et al, [1974, p.8-11, rus] 34-374
Adhesive scattering of energy at the contact. Kashcheev, V.N., et al, [1974, p.11-18, rus] 34-375
Wear of steel rubbing against frozen ground. Dorodnyi, V.I., [1974, p.160-164, rus] 34-388
Studying the process of frozen ground cutting with tools of different shapes. Sokolov, L.K., et al, [1974, p.193-200, rus] 34-392
Wear resistance of some steels and fuse-on metals under different ground excavation conditions. IUzhakov, I.V., et al, [1974, p.276-278, rus] 34-400
Rheological fundamentals of soil mechanics. Vialov, S.S., [1978, 447p., rus] 34-432
Recommendations for using heated forms in casting monolithic concrete structures. [1977, 95p., rus] 34-583
Determining dynamic yield stresses of frozen ground and ice. Kosinskii, A.K., [1976, p.71-79, rus] 34-707
Report of the Joint U.S.-Canadian Northern Civil Engineering Research Workshop. Carlson, R.F., ed, [1978, 72p., eng] 34-771
Quantitative analysis of the relation between the main thermophysical characteristics of frozen soils. Konovalov, A.A., [1979, p.23-37, rus] 34-980
Review of snow-soil interaction. Guymon, G.L., [1979, p.297-303, eng] 34-1026
Accuracy of determining soil freezing depth at observation points. Sokolova, N.V., [1979, p.122-128, rus] 34-1083
Modernizing cutting tools of the ETR-132A and ETR-132B excavators designed for frozen ground. Bondarenko, V.P., et al, [1979, p.5-7, rus] 34-1185
Gasoline thermodrill for boreholes. Mezhenin, IU.M., [1979, p.7-8, rus] 34-1186
New drilling instrument for holes in frozen ground. Makushkin, D.O., et al, [1979, p.8-9, rus] 34-1187
Modern training in frozen ground excavation. Gusakov, B.P., [1979, p.22-23, rus] 34-1188
Artificial freezing of ground in underground construction. Trupak, N.G., [1979, 344p., rus] 34-1226
Tractor mounted cable laying equipment. Kuz'menko, V.V., et al, [1979, p.22-23, rus] 34-1253
Investigation of rates of water movement through frozen soil. Williams, P.J., et al, [1979, 36p. + 4 appends., eng] 34-1582
Geocryology. Washburn, A.L., [1980, 406p., eng] 34-1987
Effectiveness of slotted blasting charges used in building channels in seasonally frozen grounds. Frash, G.B., et al, [1979, p.138-142, rus] 34-2310
Stress waves in artificially frozen water-saturated ground, studied after fuse detonation on test-benches and in mining shafts. Oksanich, I.F., et al, [1979, p.142-148, rus] 34-2311
Understanding permafrost: development and use of lightweight equipment. Veillette, J., et al, [1980, p.21-23, eng] 34-2610
Collection No.1 of unified regional individual estimates for construction. Earthwork. [1977, 247p. (Pertinent p.230-246), rus] 34-2868
Forecasting collapse of frozen rock slopes. Vialov, S.S., et al, [1976, p.143-151, rus] 34-3206
Thermal behavior of concrete slab on frozen ground bed. Gavrish, IU.E., et al, [1980, 9p., eng] 34-3394
Influence of nose shape and L:D ratio on projectile penetration in frozen soil. Richmond, P.W., [1980, 21p., eng] 34-3450
Thermal interaction between gas line and frozen soils. Krivoshein, B.L., et al, [1980, p.1083-1088, eng] 34-3560
Post-construction sagging of Baykal-Amur railroad embankments. Guletskii, V.Y., et al, [1980, p.6-7, rus] 34-3598
Investigation of the structure and properties of bound water. Savel'ev, B.A., [1980, p.97-107, eng] 34-3834
Mathematical model of water infiltration into frozen soil. Motovilov, IU.G., [1978, p.62-66, eng] 34-3966
Mathematical model of water infiltration into frozen soils. Motovilov, IU.G., [1978, p.207-211, eng] 34-4060
Structural interpretation of thawing ground compressibility. Gur'ianov, I.E., [1979, p.65-84, rus] 34-4157
Simplified method of calculating frozen rock heating by an electromagnetic field, allowing for phase transformations. Rikenglaz, L.E., et al, [1980, p.15-17, rus] 34-4252

See also Geocryology

Frozen ground chemistry

Classification of permafrost-cross section elements according to their electrochemical activity. Mel'nikov, V.P., et al, [1978, p.58-65, rus] 34-2922

Frozen ground compression

Test apparatus for frozen soil in complex stress. Black, T.J., [1968, 244p., eng] 34-2073
Load-bearing behavior of frozen earthmasses. Eckardt, H., [1979, 141p., ger] 34-2955
Deformation behaviour and strength of frozen sand. Parameswaran, V.R., [1980, p.74-88, eng] 34-2984

Frozen ground mechanics

Determining density of circulating fluids for wells without casings in unstable permafrost. Abdullaev, T.B., [1978, p.21-24, rus] 34-253
Deformation of stabilized, ice-saturated lumpy soil. Baliasnikov, G.G., [1979, p.41-42, rus] 34-1154
Technology of frozen ground. Huder, J., [1979, p.23-30, ger] 34-1333
Effects of freezing temperatures and frozen ground conditions on enclosed wire in tube response. Miller, C.A., [1979, 45p., eng] 34-1360
Pipelines in adverse environments: a state of the art, Vol 2. [1979, p.395-548, eng] 34-1398
Pipe-soil interaction, Trans-Alaska Pipeline. Luscher, U., et al, [1979, p.486-502, eng] 34-1402
Periglacial research, final report. Burrous, C.M., [1979, 10 leaves, eng] 34-1505
Influence of salinity on frozen ground deformation. Pekarskaia, N.K., et al, [1979, p.5-19, rus] 34-1534
Results of two years of measurements of ablation and soil movement in the Mahder area, Kreuzeck group, Carinthia. Stocker, E., [1974, p.87-97, ger] 34-1673
Experimental research on the principal mechanical properties of freezing and frozen soils in China (a review). Hsiao-pai, C., et al, [1979, p.159-177, eng] 34-1686
Soil-ice system and the shear strength of frozen soils. Goughnour, R.R., [1968, 153p., eng] 34-2041
Soil freezing and highway construction. [1978, 105p., eng] 34-2480
Pipelines and permafrost: physical geography and development in the circumpolar north. Williams, P.J., [1979, 98p., eng] 34-2498
Mechanics of frozen ground disintegration. Surikov, V.V., [1979, 127p., rus] 34-2670
Kinetic theory of deformation of frozen soils. Vialov, S.S., [1980, p.185-197, eng] 34-3245
High-explosive cratering in frozen and unfrozen soils in Alaska. Smith, N., [1980, 21p., eng] 34-3326
Frost heave in Tomakomai (1978-1979). Kinoshita, S., et al, [1979, p.71-81, jap] 34-3457
Studying deformation of frozen peat and grounds under pressure of dies. Zelinger, F.F., et al, [1980, p.48-52, rus] 34-3592

Frozen ground physics

Permafrost investigations in high-mountain regions. Gorbunov, A.P., [1978, p.283-294, eng] 34-796
Using a programmable calculator to determine thermal conductivity of mineral soils. Nidowicz, B., [1978, p.9-14, eng] 34-866
Is the soil frozen or not--an algorithm using weather records. Cary, J.W., et al, [1979, p.319-327, eng] 34-1029
Engineering geocryology. Mel'nikov, P.I., ed, [1979, 208p., rus] 34-1533
Electron microscope investigations of frozen and unfrozen bentonite. Kumai, M., [1979, 14p., eng] 34-1578
Test apparatus for frozen soil in complex stress. Black, T.J., [1968, 244p., eng] 34-2073
Proposed size classification for the texture of frozen earth materials. McGaw, R.W., [1979, p.267-275, eng] 34-2339
Experimental field studies of the seismic properties of solidly frozen ground in the zone of the Baikal-Amur mainline with the use of explosions. Pavlenov, V.A., et al, [1980, p.202-206, eng] 34-2377
Hot-plate field tests of frozen soils. Chubarova, N.P., et al, [1980, p.228-230, eng] 34-2378
Soil freezing and highway construction. [1978, 105p., eng] 34-2480
Pipelines and permafrost: physical geography and development in the circumpolar north. Williams, P.J., [1979, 98p., eng] 34-2498
Physical and thermal properties of frozen soil and ice. Wolfe, L.H., et al, [1964, p.67-72, eng] 34-2602
Problems and possibilities of studying the processes of dynamic relaxation in frozen earth materials. Frolov, A.D., [1980, p.149-167, eng] 34-3243

Frozen ground settling

Preliminary disturbance of tundra covers as a means for improving geocryological conditions. Grigor'ev, N.F., [1979, p.45-50, rus] 34-1511
Forecasting deformation of thawing bearing ground. Dokuchaev, V.V., et al, [1979, p.40-53, rus] 34-1537
Using fraction-linear relationships in pile design. Mirenburg, IU.S., [1979, p.63-67, rus] 34-1539
Performance of piles in plastic frozen ground. Slepak, M.E., [1979, p.67-71, rus] 34-1540
Engineering and geological conditions of construction on permafrost in Transbaikal and the Baykal-Amur railroad area. Mosenkis, IU.M., [1979, p.104-108, rus] 34-1543
Reestablishing the frozen state of ground for preventing deformations of buildings and structures. Aleksandrov, IU.A., [1979, p.117-121, rus] 34-1545
Determining the settlement of thawing coarse clastic deposits in mountains of the northeastern USSR. Talbashev, V.N., et al, [1979, p.173-178, rus] 34-1551

Frozen ground strength

Axisymmetric freezing and creep of water-saturated rocks. Dubina, M.M., et al, [1975, p.44-48, rus] 34-220
Numerical solution of problems of soil creep with phase transformations. Lozovskii, A.S., [1975, p.49-53, rus] 34-221
Variations in the strength of a frozen ground layer. Bass, B.A., [1979, p.23-24, rus] 34-249
Temporary tunnel support by artificial ground freezing. Discussion. Brahma, C.S., [1979, p.1260-1262, eng] 34-961
Geotechnical studies. Huder, J., [1979, p.31-42, ger] 34-1332
Technology of frozen ground. Huder, J., [1979, p.23-30, ger] 34-1333
Measurements of deformation and strength of materials from the Milchbuck tunnel. Herzog, P., et al, [1979, p.31-36, ger] 34-1334
Studying frost resistance of rocks. Ben'kov, V.N., [1979, p.66-70, rus] 34-1529
Freezing effect on the strength and deformation of clays under pressure from hard stamps. Sadovskii, A.V., et al, [1979, p.20-30, rus] 34-1535
Artificial cooling of ground with thermopiles. Vialov, S.S., et al, [1979, p.72-91, rus] 34-1541
Geotechnical criteria. Prodanovic, A., [1979, 11p. + 11 slides, eng] 34-1593
Unconfined compression test of frozen sandy soil. Hirobe, R., et al, [1979, p.167-173, jap] 34-1741
Soil-ice system and the shear strength of frozen soils. Goughnour, R.R., [1968, 153p., eng] 34-2041
Experience in the construction of pile foundations under frozen-ground conditions in the Vorkuta region. Eroshenko, V.N., et al, [1980, p.180-185, eng] 34-2375
Physical and thermal properties of frozen soil and ice. Wolfe, L.H., et al, [1964, p.67-72, eng] 34-2602
Mechanics of frozen ground disintegration. Surikov, V.V., [1979, 127p., rus] 34-2670
Load bearing behavior of frozen earthmasses. Eckardt, H., [1979, 141p., ger] 34-2955
Deformation behaviour and strength of frozen sand. Parameswaran, V.R., [1980, p.74-88, eng] 34-2984
On the role of the components of frozen clay soils in the development of strength at different temperatures. Maksimiak, R.V., et al, [1980, p.169-183, eng] 34-3244
Portable drilling equipment for shallow permafrost sampling. Veillette, J.J., et al, [1980, 35p., eng] 34-3652
Construction of an embankment with frozen soil. Botz, J.J., et al, [1980, 105p., eng] 34-3873

Frozen ground temperature

Evaluating the extent of thermal regime disturbance due to pile driving into permafrost. Gavrish, IU.E., et al, [1976, p.52-64, rus] 34-705
Hydrothermal variations in permafrost landscapes. Anisimova, N.P., [1979, p.148-152, rus] 34-1521
Calculating temperature distribution in seasonally freezing ground by the finite element method. Rudykh, O.L., et al, [1979, p.130-135, rus] 34-1720
Changes in water content in and under frozen soil in Iowa, U.S.A. Willatt, S.T., [1979, p.323-331, eng] 34-1726
Heat pipes as applied to thermal control of frozen ground. Vasil'ev, L.L., et al, [1979, p.511-520, eng] 34-2351
Thermal interaction of pipelines with the ground. Garagulia, L.S., et al, [1980, p.103-116, eng] 34-3240
Kinetic theory of deformation of frozen soils. Vialov, S.S., [1980, p.185-197, eng] 34-3245
Construction of multi-storey buildings on cold piles in the city of Mirnyy. Makarov, V.I., et al, [1980, p.241-254, eng] 34-3249

Frozen ground temperature *(cont.)*
Temperature regime of southern chernozems in the Irkutsk region, subject to long seasonal freezing, and their thermal melioration. Karnaukhov, N.I., et al, [1978, p.94-95, rus] **34-3360**
Some aspects of the mechanics of frost fracturing of soils in the permafrost zone. Grechishchev, S.E., [1980, p.259-278, eng] **34-3845**
How permanent is permafrost. Shvetsov, P.F., [1979, p.16-25, rus] **34-4147**

Frozen ground thermodynamics
Soil freezing: physical study and mathematical models. Aguirre-Puente, J., et al, [1978, p.99-107, fre] **34-1261**
Technology of frozen ground. Huder, J., [1979, p.23-30, ger] **34-1333**
Mechanics of frozen ground disintegration. Surikov, V.V., [1979, 127p., rus] **34-2670**

Frozen lakes
Imaging radar observations of frozen Arctic lakes. Elachi, C., et al, [1976, p.169-175, eng] **34-2580**
See also Icebound lakes

Frozen liquids
Transient freezing of liquids in turbulent flow inside tubes. Cho, C., et al, [1979, p.465-468, eng] **34-648**

Frozen rivers
See Icebound rivers

Frozen rock temperature
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] **34-213**
Thermal regime of Indigirka placer mines. Sherstov, V.A., et al, [1975, p.9-16, rus] **34-215**
Evaluating the influence of natural conditions on temperature regime of permafrost surrounding mining excavations. Fedorov, F.M., [1975, p.54-61, rus] **34-222**
Reestablishment of temperature field in rocks around excavations after warm air flow is discontinued. Mal'kov, IU.K., et al, [1975, p.83-89, rus] **34-226**
Electric models of rock freeze-thaw. Rashkin, A.V., [1979, p.135-137, rus] **34-718**
Mechanism of blasting massive frozen ground. Balbachan, I.P., [1979, p.32-34, rus] **34-1768**
Methods of frozen ground excavation. Artemenko, M., [1979, p.32-34, 61, rus] **34-1773**
Influence of paludification and water bodies on thermal regime of rocks. Garagulia, L.S., et al, [1979, p.37-42, rus] **34-1911**
Evaluating temperature regime of ground on the basis of system analysis of the effect of variability of temperature forming factors. Parmuzin, S.IU., [1979, p.53-57, rus] **34-1913**
Novaya Zemlya map of permafrost temperature: scale 1:2,500,000. Kondrat'eva, K.A., [1979, p.80-101, rus] **34-1917**
Lower boundary of water-ice phase transitions in frozen fines. Ananian, A.A., et al, [1979, p.201-206, rus] **34-1929**
Dependence of permafrost seismicity on ground ice content. Dzhurik, V.I., [1975, p.24-25, rus] **34-2058**
Regularities governing the distribution, temperature and thickness of permafrost in the northwestern part of the West Siberian platform. Trofimova, V.T., et al, [1980, p.85-96, rus] **34-2763**
Temperature of Gydan Peninsula permafrost. Trofimov, V.T., et al, [1980, p.102-111, rus] **34-2765**
Measurements of bottom temperature of the Chukchi Sea. Efimov, A.V., [1979, p.56-60, rus] **34-2775**
Geocryologic and geothermal conditions of the Zyryanka coal province. Dorofeev, I.V., [1979, p.68-74, rus] **34-2777**
Thermal regime of rocks beneath a large thermokarst lake in Central Yakutia. Tishin, M.I., [1979, p.83-90, rus] **34-2779**
Temperature of permafrost in the Prianabarskaya denudation plain. Kunitskii, V.V., [1978, p.42-49, rus] **34-2920**
Geocryological conditions of a Baykal Amur railroad construction site in the Olongoro River Basin. Sharapov, N.V., [1978, p.79-93, rus] **34-2924**
Morphology and temperature of recent perennially frozen rocks in the shore and shallow-water areas of northern Yenisey and Pyasina rivers. Karpov, E.G., [1978, p.105-114, rus] **34-2927**
Geocryological conditions in Asian mountains and plains. Nekrasov, I.A., ed, [1978, 164p., rus] **34-2938**
Geocryologic zonation in Altai and Sayan mountains. Shats, M.M., [1978, p.27-33, rus] **34-2943**
Cryolithozone of the Asiatic Arctic shelf. Antipina, Z.N., et al, [1979, p.183-189, rus] **34-3068**
Present state of research on the freezing of rocks and construction materials. Aguirre-Puente, J., [1980, p.117-132, eng] **34-3241**
Long-term settlement of foundations on permafrost. Vialov, S.S., [1980, p.297-311, eng] **34-3253**
Stability of underground workings in permafrost. El'chaninov, E.A., et al, [1980, p.321-337, eng] **34-3255**
Sources of water supply and thermal energy resources of the Beloozerskii swamp. Starkov, V.M., [1978, p.90-92, rus] **34-3359**
Role of highly mineralized groundwater in the cooling of the lithosphere at depth. Chizhov, A.B., [1980, p.137-142, eng] **34-3837**
Permafrost in the mountains of Central Asia. Gorbunov, A.P., [1980, p.257-369, eng] **34-3851**
Studying mining effect on coal seams and the surrounding rock temperature under permafrost conditions. El'chaninov, E.A., et al, [1973, p.112-118, rus] **34-3946**
Engineering preparation of sites for construction on permafrost. Ivanov, V.S., [1980, p.40-42, rus] **34-4038**
Thermal regime of residential building foundations when there are unheated rooms beneath the building. Plotnikov, A.A., [1980, p.102-107, rus] **34-4045**
Evaluating snow cover effect on the temperature field of seasonally frozen rocks. Melamed, V.G., et al, [1980, p.7-25, rus] **34-4117**
Rapid way of finding temperature shift in homogeneous seasonally and perennially frozen strata. Il'iasov, V.G., et al, [1980, p.26-34, rus] **34-4118**
Quantitative investigation of heat-mass transfer in rocks during phase transformations. Melamed, V.G., [1980, p.35-40, rus] **34-4119**
Methods of studying frozen rock properties during geocryological surveying. Trush, N.I., [1980, p.67-75, rus] **34-4123**
Permafrost conditions of Franz Josef Land. Kondrat'eva, K.A., [1980, p.76-101, rus] **34-4124**
Thermal regime variations in the Vilyuy hydroelectric power plant dam during operation. Medvedev, B.A., et al, [1979, p.20-26, rus] **34-4153**

Frozen rocks
Bedrock heave in the central Canadian Arctic. Dyke, L., [1979, p.241-246, eng] **34-288**
Shaft sinking by blasting artificially frozen rocks. Oksanich, I.F., et al, [1979, p.10-12, rus] **34-344**
Study of the effects of pore-water salinity on some physical properties of sedimentary rocks at permafrost temperatures. Pandit, B.I., et al, [1979, p.1566-1580, eng] **34-145**
Forecasting sliding of frozen rock tailings on rocky slopes. Bondarenko, G.I., [1979, p.122-128, rus] **34-1546**
Heat transfer problems applied to the theory of well drilling. Pudovkin, M.A., et al, [1979, 182p., rus] **34-1650**
Freezing of porous media and problems posed by frost action. Aguirre-Puente, J., [1978, p.15-43, fre] **34-2025**
Problems raised by frost action. Fundamental and applied researches (rocks and artificial building materials). Vol.2: scientific reports. [1979, 527p., fre] **34-2313**
Correlation of rock weathering parameters. Hudec, P.P., [1979, p.147-156, eng] **34-2322**
Physical mechanism of freezing in rocks. Aguirre-Puente, J., [1979, p.271-284, fre] **34-2331**
Frost shattering of wet rock. Bertouille, H., [1979, p.315-328, fre] **34-2335**
Study of freezing mechanisms in Caen rock. Lautridou, J.P., et al, [1979, p.343-358, fre] **34-2337**
Use of ultrasonic waves to monitor the propagation of the freezing front in carbonaceous rocks. Masson, M., [1979, p.359-365, fre] **34-2338**
Construction of underground structures for hydroelectric power stations in the Far North. Grossman, I.I., et al, [1979, 128p., rus] **34-2493**
Hydrothermal melioration of frozen rocks in the Northeastern USSR. Perl'shtein, G.Z., [1979, 304p., rus] **34-2530**
Studying wettability of mineral grains in disperse systems. Romanov, V.P., [1979, p.143-152, rus] **34-2786**
Fundamentals of electrothermomechanical destruction of frozen rocks. Nekrasov, L.B., [1979, 230p., rus] **34-2869**
Bedrock freeze-thaw weathering regime in an alpine environment, Colorado Front Range. Thorn, C.E., [1979, p.211-228, eng] **34-3194**
Forecasting collapse of frozen rock slopes. Vialov, S.S., et al, [1976, p.143-151, rus] **34-3206**
Comparative study of stresses in natural rock masses and in models using the artificial freezing technique. Makarov, S.V., [1979, p.35-43, rus] **34-3481**

Frozen soil
See Frozen ground

Fuel transport
Ecologic considerations when making decisions concerning power-fuel supply systems. Alekseeva, G.V., et al, [1978, p.103-108, rus] **34-2248**

Fuels
Solid waste disposal in Alaska. Grundwaldt, J.J., et al, [1975, p.331-356, eng] **34-637**
Phosphonitrilic fluoroelastomer coated fabrics for collapsible fuel storage tanks. Sicka, R.W., et al, [1979, 172p., eng] **34-1043**
Systems analysis of Arctic fuel dispensing equipment. Rosenfield, D.B., et al, [1979, 172p., eng] **34-1377**
Ecologic considerations when making decisions concerning power-fuel supply systems. Alekseeva, G.V., et al, [1978, p.103-108, rus] **34-2248**
Effectiveness of using mineral raw materials in the Far North. Fedoseev, V.A., [1979, 215p., rus] **34-3197**

Fungi
Decomposition models based on climatic variables, substrate variables, microbial respiration and production. Flanagan, P.W., et al, [1976, p.437-457, eng] **34-2006**
Degradation of oil by yeast and filamentous fungi in Arctic environments. Crow, S.A., et al, [1979, 13p., eng] **34-2281**
Microbiological studies of the central antarctic ice sheet. Abyzov, S.S., et al, [1979, p.828-836, rus] **34-2290**

Gamma irradiation
Developments in snow measurements with gamma radiation. Paulin, G., [1978, p.56-62, eng] **34-32**
Aerial gamma surveys for determining snow water reserves with unstable snow cover. Vershinina, L.K., [1979, p.68-74, rus] **34-1080**
Gamma dose rate test report for subsystem level evaluation of the ice detector B-1 program. Richardson, T.D., [1977, 28p., eng] **34-2366**
Fundamentals of remote sensing methods of measuring water equivalent of snow and soil moisture content from terrestrial gamma radiation. Dmitriev, A.V., et al, [1979, 304p., rus] **34-2687**
Operational aerial snow surveying in the United States. Peck, E.L., et al, [1980, p.51-62, eng] **34-2729**
Aircraft gamma-ray spectrometry in snow water equivalent measurement. Kuittinen, R., et al, [1980, p.63-75, eng] **34-2730**
Principle and method for measurement of snow water equivalent by detection of natural gamma radiation. Endrestol, G.O., [1980, p.77-83, eng] **34-2731**
Aerial gamma survey of snow cover and soil moisture. Nikiforov, M.V., et al, [1980, p.85-91, eng] **34-2732**
Using gamma logging for snow density measurement on mountain slopes. Bagov, M.M., et al, [1980, p.82-86, rus] **34-3422**
Airborne gamma survey of soil moisture and snow cover. Nikiforov, M.V., ed, [1980, 128p., rus] **34-3541**
Introduction and development of airborne gamma surveying of snow cover and soil moisture. Bochin, N.A., [1980, p.3-5, rus] **34-3542**
Present state of airborne gamma surveys of snow cover and soil moisture. Nikiforov, M.V., [1980, p.6-27, rus] **34-3543**
Experience in conducting airborne snow surveys over the European USSR. Stroganov, A.N., [1980, p.28-45, rus] **34-3544**
Industrial application of airborne gamma surveying of snow cover in the Asiatic USSR. Markhevskaia, A.A., [1980, p.46-54, rus] **34-3545**
Using airborne snow survey data in compiling hydrologic forecasts. Dement'ev, N.F., [1980, p.55-60, rus] **34-3546**
Experience of the Administration of the Northern State Control Station in using results of airborne snow surveys. Chuvakina, Z.M., [1980, p.61-64, rus] **34-3547**
Some results of experimental gamma surveys of snow cover in mountains. Getker, M.I., et al, [1980, p.67-72, rus] **34-3549**
Instruments for aerial gamma survey of snow cover and soil moisture. Bogachev, A.D., et al, [1980, p.73-76, rus] **34-3550**
Determining snow depth on winter crop fields from aerial gamma survey data. Shilin, G.V., [1980, p.77-93, rus] **34-3551**
Airborne gamma surveys of soil moisture in agricultural fields. Andreev, F.A., et al, [1980, p.108-116, rus] **34-3554**
Aerial gamma survey of s ow cover in mountains. Nikiforov, M.V., [1980, p.77-83, rus] **34-3641**
Radioactive isotope techniques in controlling quality of work and investigations when building foundations and underground structures. Smorodinov, M.I., [1980, 168p., rus] **34-3866**

Gas chromatography
Weathering estimations for spilled oil from *Bouchard No.65*. MacLeod, W.D., et al, [1978, p.217-228, eng] **34-1369**

Gas inclusions
Glacier flow; simple mathematical models related to the gas content of glaciers. Berner, W., [1979, p.57-70, ger] **34-362**
Porosity and gas content of recent polar ice, applications to deep core analysis. Lebel, B., [1978, 80p., fre] **34-936**
Total gas content and surface elevation of polar ice sheets. Raynaud, D., et al, [1979, p.289-291, eng] **34-1426**
Methane addition to an Arctic lake in winter. Welch, H.E., et al, [1980, p.100-113, eng] **34-1880**
Antarctic operations, Nov. 1977-Feb. 1978. Lorius, C., et al, [1978, 10p., fre] **34-2135**
Debris-laden ice at the bottom of the Greenland ice sheet. Herron, S., et al, [1979, p.193-207, eng] **34-2232**

Gas liquefaction
See Liquefied gases

Gas pipelines
Economic peculiarities of organizing raw material bases for Yakutian industry. Kirillin, A.D., ed, [1977, 121p., rus] **34-115**
Cost of natural gas production in the Yakut ASSR. Popova, V.K., [1977, p.86-92, rus] **34-118**
Possibility of increasing gas supply to Central Yakutia. Emel'ianov, V.G., [1977, p.93-98, rus] **34-119**

Environmental protection problems in the construction of gas industry objects. Poiseev, I.I., et al, [1977, p.99-104, rus] 34-120

Reliability of the Yakutsk gas distribution system. L'vova, Z.M., [1975, p.114-119, rus] 34-231

Engineering manual for northern gas pipelines. Sedlukha, G.A., et al, [1979, 168p., rus] 34-581

Spring break-up observations at proposed polar gas pipeline crossing sites of Keewatin rivers. Grey, B.J., [1978, 22p., eng] 34-917

Organizing construction of the Surgut-Polotsk oil pipeline. Pavlov, N.M., [1979, p.5-6, rus] 34-1177

Construction of the Urengoi-Cheliabinsk gas pipeline. Emel'ianov, V.A., et al, [1979, p.7-8, rus] 34-1178

Scientific problems in the construction of northern gas lines. Ivantsov, O.M., [1979, p.10-15, rus] 34-1179

Freezing of above-ground low-temperature gas pipelines. Dvoiris, A.D., et al, [1979, p.28-29, rus] 34-1182

Designing gas pipeline crossings of major river valleys in the North. Kondrat'ev, V.G., et al, [1979, p.30-31, rus] 34-1183

Frost heave tests underway for Alaska gas pipeline. Hale, D., [1979, p.24-26, eng] 34-1289

Prudhoe Bay natural gas pipeline systems. [1976, 89p. (Pertinent p.62-82), eng] 34-1358

Arctic winter construction and cost estimating of the North Slope fuel gas pipeline. Bock, G.R., [1979, p.511-520, eng] 34-1403

Design of the Urengoy-Cheliabinsk pipeline. Batozskii, V.D., [1979, p.9-10, rus] 34-1437

Allowing for temperature drop when building and operating northern gas lines. Lebnar, F.F., et al, [1979, p.33-34, rus] 34-1712

Allowing for mudflows and snow avalanches when designing and building the Orenburg-west USSR boundary gas pipeline. Alizenberg, M.M., et al, [1978, p.75-85, rus] 34-2051

Pipelines and permafrost: physical geography and development in the circumpolar north. Williams, P.J., [1979, 98p., eng] 34-2498

Combinations of various means of transportation along the Punga-Vuktyl-Ukhta railroad. Glazkov, V.E., [1980, p.15-17, rus] 34-2596

Polar gas line would use new pipelay method. [1980, p.50, eng] 34-2714

Internally insulated liquid natural gas pipeline for Arctic gas recovery. Walker, G., et al, [1977, p.1-7, eng] 34-2991

Polar gas considering routes. [1980, p.14-15, eng] 34-3019

Alaskan field work progresses for gas pipeline. [1980, p.81, eng] 34-3160

Alaskan gas line planners—the elite of Arctic experts. Kelder, B., [1980, p.54, 58, 91, eng] 34-3409

Northwest Alaskan gas line project—engineering, prebuilding, route studies. [1980, p.12-16, eng] 34-3441

Alaska gas pipeline will be great challenge for pipeliners. [1980, p.20-22, eng] 34-3442

Foothills pipelines—Canadian segment Alaska Highway Gas Line. Stewart, M.E., [1980, p.24-28, eng] 34-3443

Northern border pipeline plans. [1980, p.32,35, eng] 34-3444

Polar gas project. Kaustinen, O.M., [1980, p.36-39, 54, eng] 34-3445

Thermal interaction between gas line and frozen soils. Krivoshein, B.I., et al, [1980, p.1083-1088, eng] 34-3560

Improving work organization and quality control at a most important construction site. Pelevin, I.V., [1980, p.20-21, rus] 34-3818

Heat transfer of a pipeline placed in an embankment. Furman, A.V., et al., [1979, p.116-119, rus] 34-3865

Gas production

Economic peculiarities of organizing raw material bases for Yakutian industry. Kirillin, A.D., ed, [1977, 121p., rus] 34-115

Cost of natural gas production in the Yakut ASSR. Popova, V.K., [1977, p.86-92, rus] 34-118

Possibility of increasing gas supply to Central Yakutia. Emel'ianov, V.G., [1977, p.93-98, rus] 34-119

Arun LNG plant onstream in Indonesia. Inman, H., et al, [1979, p.22-26, eng] 34-140

Dirigibles for natural gas transportation. Nogovitsyn, V.V., et al, [1979, p.14, rus] 34-2086

Gas wells

Artificial freezing technique of increasing bottom zone permeability in gas-condensate wells of the Far North. Govdun, V.V., [1979, p.11-13, rus] 34-2048

Gases

Heat conductivity of frozen water solutions of gases. Groisman, A.G., et al, [1975, p.103-107, rus] 34-228

Product improvement test (cold weather/snow ingestion) of the OH-58C helicopter. Niemiec, S.M., et al, [1979, 71p., eng] 34-1346

Increased mercury contamination of distilled and natural water samples caused by oxidizing preservatives. Cragin, J.H., [1979, p.313-319, eng] 34-2004

See also: Liquefied gases; Methane; Natural gas; Oxygen

Geobotanical interpretation

Microrelief identification criteria of palsa bogs. Novikov, S.M., et al, [1979, p.14-26, rus] 34-827

Modeling lake landscapes of the Selenga River delta, its dynamics and development. Bogoiavlenskii, B.A., [1979, p.105-128, rus] 34-1071

Geobotanical maps and plant conservation provisions for economically developing areas of Central and Eastern Siberia. Belov, A.V., [1975, p.206-207, rus] 34-1862

Small scale geobotanical mapping as a basis for scientific organization of Alpine vegetation protection. Belov, A.V., [1973, p.34-37, rus] 34-1866

Amount of geocryologic information obtained from the SN-6 films used in aerial photography of the Chul'man region. Gavrilov, A.V., [1979, p.141-153, rus] 34-1922

Studies of geobotanical indices in the medium-scale combined geocryologic survey of southern Yakutia. Melent'ev, V.S., [1979, p.154-158, rus] 34-1923

Ecological and phytocenological complexes of Asiatic Russia (Experience in mapping). Sochava, V.B., ed, [1977, 70p. + map, rus] 34-2437

Taiga geosystems and problems of interaction between man and taiga. Sochava, V.B., [1978, p.5-13, rus] 34-2458

Taiga and its place in the global ecosystem. Krauklis, A.A., et al, [1978, p.14-26, rus] 34-2459

Experiment in landscape studies for optimizing taiga landscapes of the European USSR. Isachenko, A.G., [1978, p.26-34, rus] 34-2460

Remote sensing of taiga geosystems in different spectral ranges. Vinogradov, B.V., [1978, p.34-42, rus] 34-2461

Forest resource analysis as a bioeconomical approach to studying the natural potential of taiga. Sheingauz, A.S., [1978, p.42-53, rus] 34-2462

Mapping of taiga vegetation for the forecasting of its variations due to possible changes in moisture conditions. Shvergunova, L.V., et al, [1978, p.74-80, rus] 34-2467

Natural relationships in taiga geosystems. Nechaeva, E.G., [1978, p.98-101, rus] 34-2470

[illegible] taiga and the broad-leaf area of the European USSR. Gribova, S.A., et al, [1979, p.38-45, rus] 34-3603

Geochemical cycles

Scientific basis for combined studies of Alpine regions. Nazarov, A.G., [1975, p.98-100, rus] 34-1855

Role of vegetational cover in the development of cryogenic biogeocenoses. Makeev, O.V., et al, [1975, p.164-165, rus] 34-1861

Geochemistry

Geology and geochemistry of the Ship Creek and Monashka Creek reservoirs, southcentral Alaska. Hawkins, D.B., et al, [1976, 70 p., eng] 34-618

Alaskan shelf hydrographic, sedimentary and geochemical environment. Sharma, G.D., [1979, 498p., eng] 34-2514

Geocryology

Pinus sibirica as an indicator of environmental conditions in the Khamar-Daban Mountains and Tunkinskiye Gol'tsy. Tarakanov, A.G., [1979, p.80-83, rus] 34-105

Factors and forms of cryogenesis in soils of Kazakhstan. Gorbunova, I.A., [1978, p.49-53, rus] 34-339

Specific nature of erosional processes in permafrost areas. Orlov, A.D., et al, [1979, p.118-124, rus] 34-448

Hydrogeological conditions of Yelanskiy artesian basin (Transbaikal). Bakhlov, A.S., [1979, p.53-58, rus] 34-717

Engineering geology of the U.S.S.R. Vol 5, Altai and Ural Mountains. Trepettsov, E.V., ed, [1978, 220p., rus] 34-768

Soil forming factors in the Rocky Mountains of Southwestern Alberta, Canada. Howell, J.D., et al, [1978, p.313-324, eng] 34-797

Problems in swamp hydrology. Novikov, S.M., ed, [1979, 134p., rus] 34-825

Nature and classification of palsa bogs. Novikov, S.M., et al, [1979, p.3-13, rus] 34-826

Classification of cryogenic formations in Caucasus. Bondyrev, I.V., [1979, p.105-108, rus] 34-858

Hydrologic and geothermal peculiarities of permafrost areas in the USSR. Fotiev, S.M., [1978, 236p., rus] 34-883

Geography of Siberian resource development. Kosmachev, K.P., ed, [1979, 107p., rus] 34-1099

Interaction between natural and technical systems (railroad track operation taken as an example). Kaiuchkin, N.P., [1979, p.33-46, rus] 34-1101

Facial characteristics of rock streams in southern Yakutia and northern Transbaikal. Romanovskii, N.N., et al, [1979, p.59-73, rus] 34-1395

Landscapes affected by industrial activities in permafrost areas of the northern Tyumen' region. Grigor'ev, N.F., [1979, p.35-44, rus] 34-1510

Engineering geocryology. Mel'nikov, P.I., ed, [1979, 208p., rus] 34-1533

Engineering problems of geocryological surveying of BAM construction sites. Vialov, S.S., [1979, p.149-156, rus] 34-1548

Engineering problems of geocryological surveying of BAM construction sites. Vialov, S.S., [1979, p.149-156, rus] 34-1548

Soils of the East European tundra and forest tundra. Ignatenko, I.V., [1979, 280p., rus] 34-1649

Geologic controls of the origin, characteristics and distribution of ground ice. Mackay, J.R., et al, [1979, p.1-18, eng] 34-1679

Permafrost-hydrogeological regionalization of eastern Siberia. Mel'nikov, P.I., et al, [1979, p.19-30, rus] 34-1680

Genetic classification of rock streams. Tiurin, A.I., [1979, p.77-85, rus] 34-1760

Special geomorphologic map for studying permafrost. Gavrilov, A.V., et al, [1979, p.75-80, rus] 34-1770

Relief cryogenic microrelief of the southern Bryansk Region. Porozhniakova, O.M., [1979, p.86-93, rus] 34-1823

Computerized simulation of heat transfer in ground for improving information of geocryologic surveys. Tutkevich, A.A., [1979, p.43-52, rus] 34-1912

Development stages of geocryologic forecasting. Maksimova, L.N., [1979, p.57-62, rus] 34-1914

Types of geocryologic forecasting. Maksimova, L.N., [1979, p.63-72, rus] 34-1915

Rock temperatures in the Kamchatka Peninsula. Zamolotchikova, S.A., et al, [1979, p.102-118, rus] 34-1918

Rock stream structure in South Yakutia. Tiurin, A.I., et al, [1979, p.119-128, rus] 34-1919

Amount of geocryologic information obtained from the SN-6 films used in aerial photography of the Chul'man region. Gavrilov, A.V., [1979, p.141-153, rus] 34-1922

Studies of geobotanical indices in the medium-scale combined geocryologic survey of southern Yakutia. Melent'ev, V.S., [1979, p.154-158, rus] 34-1923

Structure and absolute geochronology of alassy deposits in Central Yakutia. Katasonov, E.M., ed, [1979, 95p., rus] 34-1931

Geocryology. Washburn, A.L., [1980, 406p., eng] 34-1987

Recent relief-forming processes in Siberia. Ivanovskii, L.N., ed, [1978, 139p., rus] 34-2293

[illegible] [1978, p.109-126, rus] 34-2298

Secrets of natural ice in Kazakhstan. Tokmagambetov, G.A., [1978, 151p., rus] 34-2312

Influence of cryogenic processes on clay minerals. Konishchev, V.N., et al, [1979, p.93-101, eng] 34-2319

Geologic and geophysical investigations. Pinneker, E.V., ed, [1976, 110p., rus] 34-2642

Exogenic geologic processes and phenomena in the Angara River area. Leshchikov, F.N., et al, [1976, p.93-101, rus] 34-2644

Exogenic relief forming process in the cryolithozone. Sukhodrovskii, V.L., [1979, 280p., rus] 34-2684

Geomorphology and construction. Spiridonov, A.I., ed, [1979, 190p., rus] 34-2746

Exogenic processes in the Baykal Amur railroad construction area. Denisenko, I.S., et al, [1979, p.175-183, rus] 34-2759

Regional and cryolithologic studies in Siberia. Nekrasov, I.A., ed, [1979, 160p., rus] 34-2769

Geocryological mapping of South Yakutia from satellite photographs. Nekrasov, I.A., et al, [1979, p.3-16, rus] 34-2770

Polar lithogenesis. Danilov, I.D., [1978, 238p., rus] 34-2902

Geocryological conditions of a Baykal Amur railroad construction site in the Olongoro River Basin. Sharapov, N.V., [1978, p.79-93, rus] 34-2924

Chart of geocryologic and hydrogeologic regionalization of East Siberia. Ivanova, L.D., et al, [1978, p.137-145, rus] 34-2931

Geocryological conditions in Asian mountains and plains. Nekrasov, I.A., ed, [1978, 164p., rus] 34-2938

Cryogenic formations in the Baian-Obo area. Ragcha, T., et al, [1978, p.8-11, rus] 34-2940

Perennialy frozen lacustrine deposits of East Pamir and Central Tien Shan. Ermolin, E.D., [1978, p.11-19, rus] 34-2941

Geocryologic zonation in Altai and Sayan mountains. Shats, M.M., [1978, p.27-33, rus] 34-2943

Geocryologic-lithologic map of an interstream plateau. Klimovskii, I.V., [1978, p.105-112, rus] 34-2950

Using electrical survey data in geocryologic and geologic evaluations. Shasherin, I.V., [1978, p.131-141, rus] 34-2954

Addenda to the program and instructions for compiling mudflow maps in the regional part of the *World atlas for snow and ice resources*. Perov, V.F., [1979, p.63-66, rus] 34-3118

Glaciology at the Fourteenth Pacific Science Congress. Vtiurin, B.I., [1979, p.258, rus] 34-3150

Methods of investigations in engineering geocryology. Dement'ev, A.I., et al, [1967, 67p., eng] 34-3159

English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 2. [1980, 428p., eng] 34-3232

Terrain-forming processes in the permafrost region and the principles of their prevention and limitation in territories under development. Grave, N.A., et al, [1980, p.11-23, eng] 34-3234

Geocryological survey methods. Kudriavtsev, V.A., et al, [1980, p.71-84, eng] 34-3238

Permafrost-hydrogeological zoning of eastern Siberia. Mel'nikov, P.I., et al, [1980, p.355-378, eng] 34-3257

Permafrost in the territory of the Boguchansk reservoir. Serov, A.G., et al, [1980, 9p., eng] 34-3392

Geocryology *(cont.)*

Dynamics of the Baykal shore processes on the Tyya-Nizhneangarsk section. Bodenko, V.M., et al. [1980, 6p., eng] **34-3400**

Age of rock glaciers in the Altai Mountains. Ivanovskii, L.N., [1977, p.125-137, rus] **34-3606**

Cryogenic relief of bald peaks in Pribaykal'e and Northern Transbaykal. Vyrkin, V.B., [1977, p.138-163, rus] **34-3607**

Cryogenic physical-geologic processes and their prediction. Grechishchev, S.E., et al. [1980, 383p., rus] **34-3757**

English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers. Part 1. [1980, 399p., eng] **34-3827**

Classification of the relationship between climate and permafrost-climatic regions. Gavrilova, M.K., [1980, p.13-27, eng] **34-3829**

Cryolithogenesis as an independent hydrothermal type of sedimentary process. Gasanov, Sh.Sh., [1980, p.225-244, eng] **34-3843**

Cryolithological map of the U.S.S.R. (Principles and compilation). Popov, A.I., et al. [1980, p.391-399, eng] **34-3853**

Computer application to geocryological-engineering-geological mapping. Kozlov, A.N., et al. [1980, p.61-65, rus] **34-3904**

Recent exogenic processes in the southeastern Lake Baykal area and their influence on hydroameliorative construction. Imetkhenov, A.B., [1979, p.94-104, rus] **34-4100**

Regional geomorphology of newly developed areas. Kibal'chich, O.A., et al. [1979, 120p., rus] **34-4101**

Formation of accumulative relief of the Ogoronskaya Basin (eastern part of the Baykal-Amur railroad) under permafrost conditions. Kopylov, I.F., et al. [1979, p.9-14, rus] **34-4102**

Slope development dynamics in the Zeya-Bureya Plain. Popov, IU.I., [1979, p.15-20, rus] **34-4103**

Methods of geocryological forecasting and the general geocryological bases for their application. Maksimova, L.N., [1980, p.41-52, rus] **34-4120**

Indices used in evaluating the stability of permafrost areas to variations in natural conditions and consequences of human activities in permafrost areas. Garagulia, L.S., et al. [1980, p.53-58, rus] **34-4121**

Methods of studying frozen rock properties during geocryological surveying. Trush, N.I., [1980, p.67-75, rus] **34-4123**

Zonal and regional peculiarities of geocryological conditions in the southern part of the permafrost distribution area. Belopukhova, E.B., et al. [1980, p.120-126, rus] **34-4128**

Amount of geocryologic information obtained from local space photographs under the conditions of Aldan-Stanovoy region. Gavrilov, A.V., [1980, p.127-137, rus] **34-4129**

Direct-current electrical prospecting methods used in solving geocryologic-hydrogeologic problems in the Baykal-Amur railroad area. Bolkov, S.A., et al. [1980, p.145-153, rus] **34-4131**

Freezing of ground under open system conditions. Zhestkova, T.N., et al. [1980, p.164-177, rus] **34-4133**

History of geocryological studies in West Yakutia. Mel'nikov, P.I., [1979, p.3-6, rus] **34-4150**

Environmental protection in North Siberia. Gerasimov, I.P., [1979, p.122-138, rus] **34-4174**

Hepaticae - pioneers in matting disturbed Yamal tundra soils. Andreeva, E.N., [1979, p.21-22, rus] **34-4219**

Geoelectricity

Study of the theoretical and practical determination of hydrogeological parameters in glacial outwash sands by surface geoelectrics. Urish, D.W., [1978, 336p., eng] **34-604**

Geography

See: Biogeography

Geologic structures

Environmental assessment of the Alaskan continental shelf. Vol.1. Physical science studies. [1979, 581p., eng] **34-14**

Hydrologic and geothermal peculiarities of permafrost areas in the USSR. Fotiev, S.M., [1978, 236p., rus] **34-883**

Recent tectonics and river valleys in the Ilim, Ust'-Kutsk and Katanga areas in relation to land reclamation problems. Zveder, L.N., [1979, p.71-75, rus] **34-1069**

Keewatin ice sheet - reevaluation of the traditional concept of the Laurentide Ice Sheet. Shilts, W.W., et al. [1979, p.537-541, eng] **34-1089**

Field trip No.1: Central Yukon-Alaska. Hughes, O.L., et al. [1979, 32p., eng] **34-1690**

Field trip No.2: Upper Mackenzie River Valley. Chatwin, S.C., et al. [1979, 53p., eng] **34-1691**

Field trip No.3: Lower Mackenzie River Valley. Heginbottom, J.A., ed. [1979, 66p. + appends., eng] **34-1692**

Field trip No.4: Northern Manitoba - District of Keewatin. Brown, R.J.E., et al. [1979, 76p., eng] **34-1693**

Antarctica is a rugged continent. Grushinskii, N.P., et al. [1975, p.638-640, ger] **34-3855**

Grouping coal deposits in permafrost areas according to geologic and mining development conditions. Gazizov, M.S., et al. [1979, p.45-50, rus] **34-3906**

Physiography of part of north-eastern Palmer Land. Anckorn, J.F., [1980, p.157-166, eng] **34-4114**

Geological maps

Alassy of Central Yakutia. Bosikov, N.P., [1978, p.113-118, rus] **34-2951**

Geological surveys

Environmental geology and geomorphology of the coastal zone of Kotzebue Sound and the Chukchi Sea forelands from Cape Prince of Wales to Cape Lisburne. Cannon, P.J., [1979, p.4-30, eng] **34-15**

Economic peculiarities of organizing raw material bases for Yakutian industry. Kirillin, A.D., ed. [1977, 121p., rus] **34-115**

Methods of determining the economic effectiveness of geological surveys. Andreev, M.G., et al. [1977, p.3-10, rus] **34-116**

Improving the organization of geological surveys. Ermolaev, K.M., [1977, p.19-26, rus] **34-117**

Alaska's land - 1978, annual report. [1979, 25p., eng] **34-566**

Geologic evaluation of LANDSAT imagery in interior Alaska. Dean, K.G., [1979, 156p., eng] **34-567**

U.S. Geological Survey in Alaska: 1979 programs. Reed, K.M., ed. [1979, 94p., eng] **34-726**

Hydrogeological surveying in high mountains. Sokolovskii, L.G., et al. [1979, p.43-46, rus] **34-2126**

Geological surveys of peat fields by radio echo sounding. Bogorodskii, V.V., et al. [1980, p.316-318, rus] **34-2354**

Initial report on geological materials collected at RISP site J9, 1978-79. Webb, P.N., comp. [1979, 127p., eng] **34-2481**

Geologic and geophysical investigations. Pinneker, E.V., ed. [1976, 110p., rus] **34-2642**

Geologic framework, hydrocarbon potential, environmental conditions, and anticipated technology for exploration and development of the Beaufort Shelf north of Alaska. Grantz, A., et al. [1980, 42p., eng] **34-2721**

Increasing the effectiveness of exploratory excavations in frozen rocks. Tregub, A.M., [1980, p.111-114, rus] **34-2797**

Gronlands Geologiske Undersogelse and Geodaetiske Institut North Greenland Expeditions, 1978-80. Higgins, A.K., [1980, p.153-156, eng] **34-4187**

Geology

Rock temperatures in the Kamchatka Peninsula. Zamolotchikova, S.A., et al. [1979, p.102-118, rus] **34-1918**

Antarctica; commission reports, vol.18. [1979, 2 5p., rus] **34-2214**

See also Engineering geology; Glacial geology; Marine geology

Geomorphology

Environmental assessment of the Alaskan continental shelf. Vol.1. Physical science studies. [1979, 581p., eng] **34-14**

Forms at the base of till strata as indicators of ice movements. Ehlers, J., et al. [1979, p.345-355, eng] **34-548**

Composition, internal structures, and an hypothesis of formation for drumlins, Waukesha County, Wisconsin, U.S.A. Whittecar, G.R., et al. [1979, p.357-371, eng] **34-549**

Mechanics of drumlin formation with particular reference to the change in pore-water content of the till. Menzies, J., [1979, p.373-384, eng] **34-550**

Hydrologic interpretation of basin morphology. Fox, J.D., [1978, 14p., eng] **34-645**

Photo-geomorphic map of the Mt. Menzies nunatak, Prince Charles Mountains, Australian Antarctic Territory. Derbyshire, E., et al. [1978, p.17-26, eng] **34-662**

Reconstruction of a Late Pleistocene glacier tongue with the aid of a calculated longitudinal profile. Kerschner, H., [1978, p.119-123, ger] **34-668**

Program and abstracts. [1978, c50p., ger] **34-813**

Combined aerial survey of northwestern Siberia. Bogoyavlenskii, B.A., et al. [1979, p.169-192, rus] **34-1074**

Problems and results of studying the relief of Siberia and the Far East. Nikolaev, V.A., [1979, p.192-206, rus] **34-1075**

Surface movement and lichen-cover studies at the active rock glacier near the Grubengletscher, Wallis, Swiss Alps. Haeberli, W.H., et al. [1979, p.421-441, eng] **34-1385**

Periglacial sorted circle and frost wedge formations in brownish soils of northern Germany. Blume, H.-P., et al. [1979, p.257-265, ger] **34-1495**

Freezing of porous media and problems posed by frost action. Aguirre-Puente, J., [1978, p.15-43, fre] **34-2025**

Glaciology and glacial and periglacial morphology of Fennoscandia and Iceland. Biays, P., [1978, p.268-277, fre] **34-2028**

Submarine permafrost on the Alaskan continental shelf. Vigdorchik, M.E., [1980, 118p., eng] **34-2406**

Winters of the world: Earth under ice ages. John, B.S., ed. [1979, 256p., eng] **34-2559**

Environmental assessment of the Alaskan continental shelf. Vol.10, Hazards, Data management. [1979, 517p., eng] **34-3058**

Recent geological processes and phenomena observed on the southern shore of Ob' Bay. Trepetsov, E.V., [1980, 4p., eng] **34-3402**

Particular landforms of glacial deposition in the terminal area of the Pisgana Glacier (Rhaetian Alps, Adamello Group). Smiraglia, C., [1979, p.167-172, ita] **34-3620**

Situation: an arctic-alpine comparison and reappraisal. Thorn, C.E., et al. [1980, p.109-124, eng] **34-3803**

West Antarctic ice sheet fluctuations in the Antarctic Peninsula area. Sugden, D.E., et al. [1980, p.378-381, eng] **34-3924**

Regional geomorphology of newly developed areas. Kibal'chich, O.A., et al. [1979, 120p., rus] **34-4101**

Geophysical surveys

Geophysics in the study of permafrost. Scott, W.J., et al. [1979, p.93-115, eng] **34-1682**

Observations of position, ocean depth, ice rotation, magnetic declination and gravity taken at the Fram I drifting ice station. Hunkins, K., et al. [1979, 52p. + append., eng] **34-1967**

All-Union scientific-technical conference on the engineering-geological basis of seismic microregionalization, 1st, Tashkent, Nov. 18-20, 1987. Summaries of reports. [1975, 98p, rus] **34-2057**

Using integrated geophysical methods for evaluating earthquake danger in permafrost areas. Pavlov, O.V., et al. [1975, p.66-67, rus] **34-2060**

Using electric survey data in seismic microregionalization of permafrost areas. Basov, A.D., et al. [1975, p.67-68, rus] **34-2061**

Geologic and geophysical investigations. Pinneker, E.V., ed. [1976, 110p., rus] **34-2642**

Annual report 1978-79. [1979, 190p., eng] **34-3982**

Geothermal prospecting

Geothermal heating of bridge decks. Cundy, V.A., et al. [1979, p.169-175, eng] **34-77**

Geothermal thawing

Under-ice volcanoes. Miller, K., [1979, p.36-55, eng] **34-1579**

Snow and ice removal from pavement using stored earth energy. Long, D.C., et al. [1980, 72p., eng] **34-4081**

Geothermometry

Canadian geothermal data collection - northern wells 1976-77. Taylor, A.E., et al. [1977, 194p., eng] **34-733**

New data on rock temperatures in the Minusinsk trough and Kuznetskiy Alatau Range. Shats, M.M., [1978, p.19-26, rus] **34-2942**

Geothermy

Geothermal parameters of the Seligdar apatite deposits. Deviatkin, V.N., et al. [1978, p.94-96, rus] **34-2925**

Rock temperature in the central part of the Chersky Mountains. Dorofeev, I.V., [1978, p.79-86, rus] **34-2948**

Recording geothermal flow by thermal aerial survey. Shilin, B.V., et al. [1980, p.321-323, rus] **34-3638**

Creep of ice, geothermal heat flow, and Roosevelt Island, Antarctica. Thomas, R.H., et al. [1980, p.47-60, eng] **34-3797**

Glacial deposits

Glacial and postglacial sediments in Lakes Superior and Michigan. Lineback, J.A., et al. [1979, p.781-791, eng] **34-47**

Sediment characteristics of some small temperate glaciers. Mills, H.H., [1975, 156p., eng] **34-203**

New data on an interglacial peat deposit near Makinson Inlet, Ellesmere Island, District of Franklin. Blake, W., Jr., et al. [1979, p.157-164, eng] **34-286**

Forms at the base of till strata as indicators of ice movements. Ehlers, J., et al. [1979, p.345-355, eng] **34-548**

Composition, internal structures, and an hypothesis of formation for drumlins, Waukesha County, Wisconsin, U.S.A. Whittecar, G.R., et al. [1979, p.357-371, eng] **34-549**

Mechanics of drumlin formation with particular reference to the change in pore-water content of the till. Menzies, J., [1979, p.373-384, eng] **34-550**

Flow of ice over a till bed. Jones, A.S., [1979, p.393-395, eng] **34-553**

Study of the theoretical and practical determination of hydrogeological parameters in glacial outwash sands by surface geoelectrics. Urish, D.W., [1978, 336p., eng] **34-604**

Chonkemin Valley terraces and the glaciation of northern Tien Shan. Bylinskaia, L.N., [1979, p.137-143, rus] **34-1073**

Dynamics of natural processes in highlands. Maksimov, E.V., ed. [1977, 131p., rus] **34-1093**

Glaciology of mountain regions. Suslov, V.F., ed. [1979, 160p., rus] **34-1120**

Studying atmospheric pollution from glacial deposit analysis. Voronskaia, G.N., et al. [1979, p.146-151, rus] **34-1138**

Rock glacier and moraine-ridge complex, Lyngen Peninsula, north Norway. Griffey, J.N., et al. [1979, p.117-124, eng] **34-1168**

Runoff of suspended deposits in glacier adjacent zones. Chernov, L.P., [1974, p.220-234, eng] **34-1199**

Holocene push-moraines in alpine permafrost. Haeberli, W., [1979, p.43-48, eng] **34-1263**

Protective structures for the Fällbach in the town of Saas Balen, Wallis, Switzerland. Lichtenhahn, C., [1979, p.169-176, ger] **34-1325**

Sediment transport studies at selected Norwegian glaciers 1978. Ekman, S.R., et al, [1979, 39p., nor] 34-1335
Grain density of till: a potential parameter for the study of glacial transport. Puranen, R., et al, [1979, 32p., eng] 34-1378
Nature and distribution of glaciers, neoglacial moraines, and rock glaciers, east-central Brooks Range, Alaska. Ellis, J.M., et al, [1979, p.403-420, eng] 34-1384
Facies of supraglacial sedimentation on Icelandic and alpine temperate glaciers. Eyles, N., [1979, p.1341-1361, eng] 34-1452
Isotopic analysis of subglacial concretions of the Laurentide ice sheet and oxygen-18 content of the ice. Hillaire-Marcel, C., et al, [1979, p.1494-1498, fre] 34-1455
Relationship of glacier ice and rock glacier at Grubengletscher, Kanton Wallis, Switzerland. Whalley, W.B., [1979, p.49-61, eng] 34-1461
Progiacial aggradation and changes in braided channel patterns during a period of glacial advance: an alpine example. Maizels, J.K., [1979, p.87-101, eng] 34-1463
Field trip No.6: Rocky Mountains, Alberta foothills. Harris, S.A., et al, [1979, 43p. + 11p. append., eng] 34-1695
Groundwater movement and subsurface temperatures in a glacial complex, Cochrane District, Ontario. Parsons, M.L., [1969, 105p., eng] 34-2072
Genesis of the Sveg tills and Rogen moraines of central Sweden: a model of basal meltout. Shaw, J., [1979, p.409-426, eng] 34-2114
Sequence of glacial deformation, erosion, and deposition at the ice-rock interface during the last glaciation: Cranbrook, British Columbia, Canada. Broster, B.E., et al, [1979, p.283-295, eng] 34-2239
Irish glacial till: origin and characteristics. Hanrahan, E.T., [1977, 81p., eng] 34-2471
Comparison of the pebble orientation in ice and deposits of the Matanuska Glacier, Alaska. Lawson, D.E., [1979, p.629-645, eng] 34-2502
Glaciers and environment. Derbyshire, E., [1979, p.58-106, eng] 34-2560
Sandy soils in the southern Taz River Basin. Ovchinnikov, S.M., [1979, p.172-180, rus] 34-2744
Origin of stratified Catfish Creek till by basal melting. Gibbard, P., [1980, p.71-85, eng] 34-3021
Late Quaternary history and the formation of sediments in the marginal and inland seas. Gershanovich, D.E., ed, [1979, 212p., rus] 34-3064
Structure of the Pliocene-Quaternary deposits of the Barents Sea bottom along the Rybachiy Island-Franz Joseph Land cross section. Blazhchishin, A.I., et al, [1979, p.13-19, rus] 34-3065
Postglacial and Holocene paleogeography of the Barents Sea. Kotenev, B.N., [1979, p.20-28, rus] 34-3066
Evolution of late and postglacial sediment accumulation in offshore areas of the Barents and White seas. Evzerov, V.IA., [1979, p.29-33, rus] 34-3067
Origin of the Verkhoyansk-Kolyma mountain glacier system. Sheinkam, V.S., [1979, p.102-107, rus] 34-3124
Recent glaciation of the Cherskiy mountain system. Sheinkman, V.S., [1979, p.185-194, rus] 34-3138
Würmian "Ross Ice Sheet" hypothesis and facts. Miagkov, S.M., [1979, p.235-242, rus] 34-3147
Sorted strips orientated by wind action: some observations from sub-Antarctic Marion Island. Hall, K., [1979, p.281-289, eng] 34-3195
Natural waters, lithogenesis and relief. Zorin, L.V., [1979, 167p., rus] 34-3267
Gramna Lakes in the Baykal Amur railroad area. Mats, V.D., et al, [1980, 87p., rus] 34-3268
Mudflows in the Baksan River Basin in the summer of 1977. Gerasimov, V.A., [1980, p.137-147, rus] 34-3429
Baggin Island sandurs: a study of Arctic fluvial processes. Church, M., [1972, 208p. + maps, eng] 34-3577
Particular landforms of glacial deposition in the terminal area of the Pisgana Glacier (Rhaetian Alps, Adamello Group). Smiraglia, C., [1979, p.167-172, ita] 34-3620
Saw-tooth moraines in front of Bödalsbreen, southern Norway. Matthews, J.A., et al, [1979, p.535-546, eng] 34-3790
Scanning electron microscope examination of subglacial quartz grains from Camp Century core, Greenland—a preliminary study. Whalley, W.B., et al, [1980, p.125-131, eng] 34-3804
Subglacial travertine and associated deposits in the Carstensz area, Irian Jaya, Republic of Indonesia. Peterson, J.A., et al, [1979, p.23-29, eng] 34-3971
Pattern of glacial dispersal and comminution of rock fragments and mineral grains from two point sources. Shakesby, R.A., [1979, p.31-45, eng] 34-3972
Flow patterns in the central North American ice sheet. Shilts, W.W., [1980, p.213-218, eng] 34-3985
Formation and development of swamp systems. Kiriushkin, V.N., [1980, 88p., rus] 34-4014
Glacial stratigraphy of Koillismaa and North Kainuu, Finland. Aario, R., et al, [1979, p.1-49, eng] 34-4158
Glacial and glacial marine sediments of the antarctic continental shelves. Anderson, J.B., et al, [1980, p.399-414, eng] 34-4189

Glacial erosion

Reconstructed Pleistocene ice-sheet temperatures and glacial erosion in northern Scotland. Gordon, J.E., [1979, p.331-344, eng] 34-547
Composition, internal structures, and an hypothesis of formation for drumlins, Waukesha County, Wisconsin, U.S.A. Whittecar, G.R., et al, [1979, p.357-371, eng] 34-549
Glacial erosion and ice sheet divides, northeastern Laurentide Ice Sheet, on the basis of the distribution of limestone erratics. Andrews, J.T., et al, [1979, p.592-596, eng] 34-1612
Glacial erosion: methodological problems. Vivian, R., [1978, p.279-283, fre] 34-2030
Geological action of glaciers in the Eastern Pamirs. Demchenko, V.V., [1979, p.81-85, rus] 34-2186
Physiographic regionalization of the Pamirs. Kadomtseva, T.G., [1979, p.98-100, rus] 34-2188
Processes of glacier erosion on different substrata. Boulton, G.S., [1979, p.15-38, eng] 34-2220
Theoretical model of glacial abrasion. Hallet, B., [1979, p.39-50, eng] 34-2221
Simulated glacial abrasion. Mathews, W.H., [1979, p.51-56, eng] 34-2222
Energy dissipation during subglacial abrasion at Nisqually Glacier, Washington, U.S.A. Metcalf, R.C., [1979, p.233-246, eng] 34-2235
Sediment concentration in melt waters as an indicator of erosion processes beneath an alpine glacier. Collins, D.N., [1979, p.247-257, eng] 34-2236
Sequence of glacial deformation, erosion, and deposition at the ice-rock interface during the last glaciation: Cranbrook, British Columbia, Canada. Broster, B.E., et al, [1979, p.283-295, eng] 34-2239
Geometry of former subglacial water channels and cavities. Walder, J., et al, [1979, p.335-346, eng] 34-2243
Origin of the Verkhoyansk-Kolyma mountain glacier system. Sheinkam, V.S., [1979, p.102-107, rus] 34-3124
Observed and possible changes in the Abramov glacier tongue. Abul'khasanova, A.G., et al, [1979, p.206-210, rus] 34-3141
Natural waters, lithogenesis and relief. Zorin, L.V., [1979, 167p., rus] 34-3267
Age of rock glaciers in the Altai Mountains. Ivanovskii, L.N., [1977, p.125-137, rus] 34-3606
Glacial inception and disintegration during the last glaciation. Andrews, J.T., et al, [1978, p.205-228, eng] 34-3722

Glacial geology

Aspects of the glacial history of the north-central highlands of New Brunswick. Gauthier, R.C., [1979, p.371-377, eng] 34-24
Glacial geology of northwestern Boothia Peninsula, District of Franklin. Dyke, A.S., [1979, p.385-394, eng] 34-25
Research by the Institute of Polar Studies in Glacier Bay National Monument, Alaska. Goldthwait, R.P., et al, [1976, p.815-821, eng] 34-534
Comment and reply on "Late Quaternary extent of the West Antarctic ice sheet: new evidence from Ross Sea cores". Fillon, R.H., et al, [1979, p.518-519, eng] 34-1088
Keewatin ice sheet—reevaluation of the traditional concept of the Laurentide Ice Sheet. Shilts, W.W., et al, [1979, p.537-541, eng] 34-1089
Glacial erosion and ice sheet divides, northeastern Laurentide Ice Sheet, on the basis of the distribution of limestone erratics. Andrews, J.T., et al, [1979, p.592-596, eng] 34-1612
Ice stagnation and paleodrainage in and near an interlobate area. Rieck, R.L., [1979, p.219-235, eng] 34-1725
Ice movements and deglaciation of the central parts of Saltfjellet, Nordland, north Norway. Sveian, H., et al, [1979, p.1-20, nor] 34-1841
Geocryology. Washburn, A.L., [1980, 406p., eng] 34-1987
Ice caves and permafrost zones in southwest Alberta. Harris, S.A., [1979, p.61-70, eng] 34-2032
Genesis of the Sveg tills and Rogen moraines of central Sweden: a model of basal meltout. Shaw, J., [1979, p.409-426, eng] 34-2114
Earth science investigations in the United States Antarctic Research Program (USARP) for the period July 1, 1978-June 30, 1979. Craddock, C., comp, [1979, 50p., eng] 34-2158
Sequence of glacial deformation, erosion, and deposition at the ice-rock interface during the last glaciation: Cranbrook, British Columbia, Canada. Broster, B.E., et al, [1979, p.283-295, eng] 34-2239
Giant grooves made by concentrated basal ice streams. Goldthwait, R.P., [1979, p.297-307, eng] 34-2240
Proceedings. [1979, 1325p. (2 vols.), eng] 34-2259
Glacial geology of recently deglaciated bedrock areas. Hallet, B., [1979, p.795-801, eng] 34-2264
Proceedings of the Seminar III on Dry Valley Drilling Project, 1978. Nagata, T., ed, [1979, 245p., eng] 34-2285
Upper crustal structure under McMurdo Station, Antarctica, deduced from blasts during nuclear power plant removal. Kaminuma, K., [1979, p.34-41, eng] 34-2287
Glaciation of southeastern Jotunheimen and adjacent areas, south Norway. Carlson, A.B., et al, [1979, p.173-186, nor] 34-2385
Irish glacial till: origin and characteristics. Hanrahan, E.T., [1977, 81p., eng] 34-2471
Glacial flutings in northern Finnish Lapland. Heikkinen, O., et al, [1979, p.1-12, eng] 34-2472
Winters of the world. Earth under ice ages. John, B.S., ed, [1979, 256p., eng] 34-2559
Glaciers and environment. Derbyshire, E., [1979, p.58-106, eng] 34-2560
Baffin Island quaternary environments, an annotated bibliography. Andrews, M., et al, [1980, 123p., eng] 34-2722
Würmian "Ross Ice Sheet" hypothesis and facts. Miagkov, S.M., [1979, p.235-242, rus] 34-3147
Glacial inception and disintegration during the last glaciation. Andrews, J.T., et al, [1978, p.205-228, eng] 34-3722
West Antarctic ice sheet fluctuations in the Antarctic Peninsula area. Sugden, D.E., et al, [1980, p.378-381, eng] 34-3924
Physiography and glacial geomorphology of the central Black Coast, Palmer Land. Singleton, D.G., [1980, p.21-32, eng] 34-4113

Glacial hydrology

Proceedings of the Scientific Conference on Altai Glaciology Problems. [1969, 259p., rus] 34-106
Accuracy of using floats in measuring water discharge of small mountain rivers. Chirkova, A.A., et al, [1973, p.115-128, rus] 34-111
Variations in glacier movement. Aellen, M., et al, [1979, p.111-126, ger] 34-365
Water runoff through interglacial channels. Ulrich, S., [1979, p.127-143, ger] 34-366
Mass budget of the Lambert Glacier drainage basin, Antarctica. Allison, I., [1979, p.223-235, eng] 34-538
Mechanics of drumlin formation with particular reference to the change in pore-water content of the till. Menzies, J., [1979, p.373-384, eng] 34-550
Glacial component in the total discharge of high mountain rivers in the Gara-Auzusu Gorge and ablation of the Kulak-Chegemschinar glacier. Samukashvili, R.D., [1979, p.87-93, rus] 34-613
Power from glaciers: the hydropower potential of Greenland's glacial waters. Partl, R., [1977, 54p., eng] 34-653
Water in glaciers: observations and theory of the behaviour of water levels in boreholes. Engelhardt, H., [1978, p.35-60, eng] 34-664
Investigations of the water table of Kesselwandferner (Ötztal Alps) in a 30 m deep snow pit. Ambach, W., et al, [1978, p.61-71, ger] 34-665
Dynamics of natural processes in highlands. Maksimov, E.V., ed, [1977, 131p., rus] 34-1093
Hydraulic regime of glacial rivers and the controlling role of glaciers. Sokolov, D.P., [1977, p.77-83, rus] 34-1095
Glaciology of mountain regions. Suslov, V.F., ed, [1979, 160p., rus] 34-1120
Calculating vertical ice distribution from the *Catalog of Glaciers in the USSR*, for evaluating runoff from mountain basins. Glazyrin, G.E., et al, [1979, p.122-126, rus] 34-1134
Distribution of glaciation according to altitudinal zones. Kamalov, B.A., [1979, p.127-129, rus] 34-1135
Calculating surface melting of the Golubin glacier and its part in total runoff from the Alaarcha River basin. Aizin, B.V., [1979, p.139-145, rus] 34-1137
Calculating and forecasting glacier ablation in Central Asia. Konovalov, V.G., [1979, 232p., rus] 34-1139
Air- and spaceborne remote sensing in hydrogeology and engineering geology. Sadov, A.V., et al, [1979, 223p., rus] 34-1225
Hydrochemistry of meltwaters draining from an alpine glacier. Collins, D.N., [1979, p.307-324, eng] 34-1284
Federal hydrometric station Massa-Blatten at the front of Aletsch Glacier. Emmenegger, C., et al, [1979, p.23-38, fre] 34-1318
Some data on mesoclimate in glacier areas. Lang, H., [1979, p.155-167, ger] 34-1324
Glaciological work in connection with lake breakouts at the Gruben Glacier, town of Saas Balen, Wallis, Switzerland. Röthlisberger, H., [1979, p.233-256, ger] 34-1327
Sediment transport studies at selected Norwegian glaciers 1978. Ekman, S.R., et al, [1979, 39p., nor] 34-1335
Glaciological investigations in Norway 1978. Wold, B., ed, [1979, 71p., eng] 34-1336
Protection from glacial mudflows. Voitkovskii, K.F., et al, [1979, p.191-198, rus] 34-1553
Use of isotope tracers in glaciology. Merlivat, L., et al, [1976, p.285-289, fre] 34-1555
Glaciological investigations in Johan Dahl Land, South Greenland, as a basis for hydroelectric power planning. Olesen, O.B., [1978, p.84-86, eng] 34-1566
Effects of the retreat of Austrian glaciers on the water supply of high alpine power plants. Tollner, H., [1957, p.38-42, ger] 34-1657
Glacier conditions in the Grossglockner and Sonnblick regions at the end of the 1972/73 ice budget year. Tollner, H., [1974, p.56-67, ger] 34-1672

Glacial hydrology *(cont.)*

Conditions of glaciers in the Grossglockner and Sonnblick regions in the 1975 '6 ice budget year. Tollner, H. (1977, p.30-36, ger) **34-1677**

Scientific basis for combined studies of Alpine regions. Nazarov, A.G. (1975, p.98-100, rus) **34-1855**

Problems of the Arctic and the Antarctic; collection of articles, Vol.45, 1974. Treshnikov, A.F., ed. (1979, 171p., eng) **34-1884**

Water resources of glaciers and glacial discharge in the Arctic. Govorukha, L.S., et al. (1979, p.1-12, eng) **34-1885**

Regime of glaciers and snow avalanches in Kazakhstan. Tokmagambetov, G.A., ed. (1979, 175p., rus) **34-1970**

Linear models for calculating drainage from glacier basins. Borovikova, L.N., et al. (1979, p.85-95, rus) **34-1977**

Ice and meteorological regimes, mass balance and drainage from mountain glaciers of the Tuiuksu Basin. Makarevich, K.G., et al. (1979, p.96-109, rus) **34-1978**

Glacial runoff from the Ili River Basin. Chekhonadskaia, V.A., et al. (1979, p.110-120, rus) **34-1979**

Recent glaciation of the Kungey Alatau Range. Vilesov, E.N. (1979, p.132-142, rus) **34-1982**

Dangerous phenomena on northern slopes of Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskii, I.V., et al. (1979, p.146-161, rus) **34-1984**

Preliminary mathematical model for reconstruction of past climate based on glaciological reference data on the antarctic ice sheet. Efimov, V.A. (1979, p.5-11, rus) **34-1996**

Glacial erosion: methodological problems. Vivian, R. (1978, p.279-283, fre) **34-2030**

Models for the runoff from a glaciated catchment area using measurements of environmental isotope contents. Behrens, H., et al. (1979, p.829-846, eng) **34-2077**

Soviet glaciological investigations in 1978. Kotlyakov, V.M., et al. (1979, p.5-15, rus) **34-2174**

International symposium on computation and forecasting of runoff from glaciers and glaciated areas. Chizhov, O.P. (1979, p.15-19, rus) **34-2175**

Summer heat balance and environmental conditions of periglacial naleds in the Pamirs. Lebedeva, I.M. (1979, p.76-81, rus) **34-2185**

Geological action of glaciers in the Eastern Pamirs. Demchenko, V.V. (1979, p.81-85, rus) **34-2186**

Physiographic regionalization of the Pamirs. Kadomtseva, T.G. (1979, p.98-100, rus) **34-2188**

Problems in studying glaciological terminology. Kotlyakov, V.M. (1979, p.179-184, rus) **34-2202**

Large runoff values from glacier basins located in the dry climate zone of the Altai. Gerasimenko, O.M. (1979, p.203-204, rus) **34-2208**

Quantitative determination of the subglacial hydrology of two alpine glaciers. Collins, D.N. (1979, p.347-362, eng) **34-2244**

Secrets of natural ice in Kazakhstan. Tokmagambetov, G.A. (1978, 151p., rus) **34-2312**

Glaciation of southeastern Jotunheimen and adjacent areas, south Norway. Carlson, A.B., et al. (1979, p.173-186, nor) **34-2385**

Mystery flood solved. Jackson, L.E., Jr. (1979, p.2-4, eng) **34-3060**

Report on Soviet glaciological studies in 1975-1978. (1979, p.5-34, rus) **34-3116**

Water-ice balance of the Abramov Glacier Basin. Akbarov, A.A., et al. (1979, p.113-119, rus) **34-3126**

Degradation of compound valley glaciers in the Caucasus in the 20th century. Panov, V.D. (1979, p.132-138, rus) **34-3128**

Naleds in Central Asian and Kazakhstan mountains. Gorbunov, A.P., et al. (1979, p.175-181, rus) **34-3136**

Discharge of the Kaiartasu and Sakashilsu rivers during the warm season. Samukashvili, R.D. (1980, p.130-136, rus) **34-3428**

Mudflows in the Baksan River Basin in the summer of 1977. Gerasimov, V.A. (1980, p.137-147, rus) **34-3429**

Baggin Island sandurs: a study of Arctic fluvial processes. Church, M. (1972, 208p. + maps, eng) **34-3577**

Saline discharge at the snout of Taylor Glacier, Antarctica. Keys, J.R. (1979, p.20-21, eng) **34-3675**

Impact of "extreme" events on the Dry Valleys area. Chinn, T.J.H. (1979, p.9-13, eng) **34-3678**

Interrelations and succession in the compilation of thematic sections of the World Atlas of Snow and Ice Resources. Dreter, N.N. (1979, p.37-42, rus) **34-3688**

Compiling 1:600 000 glacier morphology maps of the eastern Pamirs and the Juneau Ice Field. Varnakova, G.M., et al. (1979, p.42-47, rus) **34-3689**

Combined method of calculating glacial runoff in mountains. Vladimirov, L.A. (1979, p.94-99, rus) **34-3698**

Possibilities of linear models for calculating glacial runoff hydrographs. Freidlin, V.S. (1979, p.149-155, rus) **34-3705**

Using hydrochemical data from mountain-glacier basins in glaciological and hydrological computations. Zaslavskaia, M.B., et al. (1979, p.187-192, rus) **34-3712**

Hydrochemical regime of the Severtsov glacier. Kamalov, L.F. (1978, p.74-76, eng) **34-3968**

National handbook of recommended methods for water-data acquisition. Chapter 9: Snow and ice (1977, 44p., eng) **34-4162**

Glacial lakes

Glaciological work in connection with lake breakouts at the Gruben Glacier, town of Saas Balen, Wallis, Switzerland. Rothlisberger, H. (1979, p.233-256, ger) **34-1327**

Ice movements and deglaciation of the central parts of Saltfjellet, Nordland, north Norway. Sveian, H., et al. (1979, p.1-20, nor) **34-1841**

International symposium on computation and forecasting of runoff from glaciers and glaciated areas. Chizhov, O.P. (1979, p.15-19, rus) **34-2175**

Mystery flood solved. Jackson, L.E., Jr. (1979, p.2-4, eng) **34-3060**

New glaciers on the Tel'pos-iz range. Dolgushin, L.D., et al. (1979, p.214-218, rus) **34-3143**

Mudflow outbursts of the Kakhab-Rosom moraine lake in Dagestan. Poznanin, V.I. (1979, p.218-223, rus) **34-3144**

Gramna Lakes in the Baykal-Amur railroad area. Mats, V.D., et al. (1980, 87p., rus) **34-3268**

Knik Glacier, Alaska, May 1979: monument and glacier survey. Trabant, D.C., et al. (1979, 20p. + 2 maps, eng) **34-4080**

Glacial meteorology

Use of tethered radiosondes in the Aktru mountain glacier basin. Slutskii, V.I., et al. (1973, p.83-86, rus) **34-109**

On the computation of heat transfer coefficients from energy-balance gradients on a glacier. Kuhn, M. (1979, p.263-271, eng) **34-541**

Conditions of glaciers in the Grossglockner and Sonnblick regions in the 1975/76 ice budget year. Tollner, H. (1977, p.30-36, ger) **34-1677**

Numerical simulation of katabatic wind profile at Syowa Station, Antarctica. Adachi, T. (1979, p.64-74, eng) **34-2151**

Preliminary study on the structure of the atmospheric surface layer in Mizuho Plateau, East Antarctica. Sasaki, H. (1979, p.86-100, eng) **34-2153**

Vertical air temperature gradients in the Pamirs. Davidovich, N.V. (1979, p.56-61, rus) **34-2181**

Glacial to interglacial changes in ocean chemistry. Broecker, W.S. (1980, 27p. + figs. + appends., eng) **34-3653**

Two models for estimating climate-glacier relationships in the North Cascades, Washington, U.S.A. Tangborn, W. (1980, p.3-21, eng) **34-3704**

Glaciological investigations of the tropical Quelccaya ice cap, Peru. Thompson, L.G. (1980, p.69-84, eng) **34-3799**

Glacial periods

See Ice age theory, Paleoclimatology, Pleistocene

Glacial rivers

Accuracy of using floats in measuring water discharge of small mountain rivers. Chirkova, A.A., et al. (1973, p.115-128, rus) **34-111**

Glacial component in the total discharge of high mountain rivers in the Gara-Auzusu Gorge and ablation of the Kulak-Chegemschimar glacier. Samukashvili, R.D. (1979, p.87-93, rus) **34-613**

Deuterium content of stream waters of glacier origin in Himalayas. Washiki, H. (1977, p.40-42, eng) **34-902**

Dynamics of natural processes in highlands. Maksimov, E.V., ed. (1977, 131p., rus) **34-1093**

Hydraulic regime of glacial rivers and the controlling role of glaciers. Sokolov, D.P. (1977, p.77-83, rus) **34-1095**

Distribution of glaciation according to altitudinal zones. Kamalov, B.A. (1979, p.127-129, rus) **34-1135**

Role of firn field ablation in the Bish-Irdu Mountains in the Aktru River's alimentation. Ivanov, N.L. (1967, p.227-246, rus) **34-1995**

Mineralization of glacial rivers in the Pamirs. Krenke, A.N., et al. (1979, p.67-70, rus) **34-2183**

Physiographic regionalization of the Pamirs. Kadomtseva, T.G. (1979, p.98-100, rus) **34-2188**

Glaciological studies on Tadzhikistan glaciers. Sannikov, A.G., et al. (1979, p.150-155, rus) **34-3131**

Snow patch stability in the Aktru River glaciation basin. Dudukalova, N.L. (1977, p.103-106, rus) **34-3384**

Discharge of the Kaiartasu and Sakashilsu rivers during the warm season. Samukashvili, R.D. (1980, p.130-136, rus) **34-3428**

Hydrochemical regime of the Severtsov glacier. Kamalov, L.F. (1978, p.74-76, eng) **34-3968**

Glaciation

Glaciations in the Khumbu Himal (1). Fushimi, H. (1977, p.60-67, eng) **34-906**

Chonkemin Valley terraces and the glaciation of northern Tien Shan. Bylinskaia, L.N. (1979, p.137-143, rus) **34-1073**

Calculating and forecasting glacier ablation in Central Asia. Konovalov, V.G. (1979, 232p., rus) **34-1139**

Energy balance model of potential glacierization of northern Canada. Williams, L.D. (1979, p.443-456, eng) **34-1386**

Rock temperatures in the Kamchatka Peninsula. Zamolotchikova, S.A., et al. (1979, p.102-118, rus) **34-1918**

Comparative analysis of past and present glacial and permafrost relief forms in Asia. Kazakova, N.M. (1976, p.10-45, rus) **34-2010**

Recent fluctuations of glaciation in the Alps. Vivian, R. (1978, p.277-279, fre) **34-2029**

Thermal regime of the World Ocean during the last glaciation maximum. Kagan, B.A., et al. (1979, p.716-720, rus) **34-2116**

Soviet glaciological investigations in 1978. Kotlyakov, V.M., et al. (1979, p.5-12, rus) **34-2174**

Extent of glaciation in the Pamirs and factors affecting it. Rototaeva, O.V. (1979, p.33-41, rus) **34-2178**

Bald peaks in the Lake Baykal area and northern Transbaikal: their boundaries and distribution. Vyrkin, V.B. (1978, p.63-68, rus) **34-2295**

Neoglaciation in western Norway: preliminary results. Hole, N., et al. (1979, p.213-215, eng) **34-2387**

Submarine permafrost on the Alaskan continental shelf. Vigdorchik, M.E. (1980, 118p., eng) **34-2406**

Winters of the world: Earth under ice ages. John, B.S., ed. (1979, 256p., eng) **34-2559**

Generalizing morphometric characteristics of glaciation in separate drainage basins. Konovalov, V.G. (1979, p.68-72, rus) **34-2884**

Role of Kamchatka glaciers in river alimentation and the formation of solid runoff. Stepanova, A.I. (1979, p.110-116, rus) **34-2897**

Development of Pleistocene-Holocene glaciation of the Verkhoyansk-Kolyma Highlands. Sheinkman, V.S. (1978, p.87-104, rus) **34-2949**

Thermohydrodynamic calculations of the Vavilov Ice Dome regime, Severnaya Zemlya. Verbitskii, M.Ia., et al. (1979, p.81-86, rus) **34-3122**

Influence of the Indian monsoon on glaciation in the Pamirs. Arushanov, M.I., et al. (1979, p.143-150, rus) **34-3130**

Glacial inception and disintegration during the last glaciation. Andrews, J.T., et al. (1978, p.205-228, eng) **34-3722**

Flow patterns in the central North American ice sheet. Shilts, W.W. (1980, p.213-218, eng) **34-3985**

See also Alpine glaciation

Glacier ablation

Proceedings of the Scientific Conference on Altai Glaciology Problems (1963, 259p., rus) **34-106**

Causes of changes in glacier melting. Drozdov, O.A., et al. (1973, p.21-27, rus) **34-107**

Glaciological and climatological significance of ablation periods. Olelmk, I.IA. (1973, p.87-92, rus) **34-110**

Mass budget of the Lambert Glacier drainage basin, Antarctica. Allison, I. (1979, p.223-235, eng) **34-538**

Patterned ground on an active medial moraine, Jotunheimen, Norway. Ballantyne, C.K. (1979, p.396-401, eng) **34-554**

Glacial component in the total discharge of high mountain rivers in the Gara-Auzusu Gorge and ablation of the Kulak-Chegemschimar glacier. Samukashvili, R.D. (1979, p.87-93, rus) **34-613**

Batura Glacier in the Karakoram Mountains and its variations. (1979, p.958-974, eng) **34-940**

Dynamics of natural processes in highlands. Maksimov, E.V., ed. (1977, 131p., rus) **34-1093**

Hydraulic regime of glacial rivers and the controlling role of glaciers. Sokolov, D.P. (1977, p.77-83, rus) **34-1095**

Calculating vertical ice distribution from the *Catalog of Glaciers in the USSR*, for evaluating runoff from mountain basins. Glazyrin, G.E., et al. (1979, p.122-126, rus) **34-1134**

Distribution of glaciation according to altitudinal zones. Kamalov, B.A. (1979, p.127-129, rus) **34-1135**

Model of snow line shifting on a glacier surface during ablation periods. Konovalov, V.G. (1979, p.130-138, rus) **34-1136**

Calculating surface melting of the Golubin glacier and its part in total runoff from the Alaarcha River basin. Azizi, B.V. (1979, p.139-145, rus) **34-1137**

Calculating and forecasting glacier ablation in Central Asia. Konovalov, V.G. (1979, 232p., rus) **34-1139**

Mass balance of the Dzhankuat Glacier from 1967-1971 and the methods used to measure and calculate it. Golubev, G.N., et al. (1974, p.173-191, eng) **34-1196**

Variation of the turbulent exchange on a mountain glacier. Davidovich, N.V., et al. (1974, p.367-379, eng) **34-1206**

Some data on mesoclimate in glacier areas. Lang, H. (1979, p.155-167, ger) **34-1324**

Energy balance model of potential glacierization of northern Canada. Williams, L.D. (1979, p.443-456, eng) **34-1386**

Statistical approach to the study of glacier morphology in the Kamchatka Peninsula. Vinogradov, V.N., et al. (1979, p.325-329, rus) **34-1388**

Glaciological investigations in Johan Dahl Land, South Greenland, as a basis for hydroelectric power planning. Olesen, O.B. (1978, p.84-86, eng) **34-1566**

Water resources of glaciers and glacial discharge in the Arctic. Govorukha, L.S., et al. (1979, p.1-12, eng) **34-1885**

Distribution of atmospheric precipitation on northern slopes of the Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskii, I.V. (1979, p.37-46, rus) **34-1974**

Possible duration of a mountain glacier surface with daily exposure to solar radiation. Cherkasov, P.A., et al, [1979, p.47-72, rus] 34-1975
Formulas for calculating the ice melting temperature coefficient for Zailiyskiy Alatau glaciers. Plekhanov, P.A., [1979, p.72-85, rus] 34-1976
Ice and meteorological regimes, mass balance and drainage from mountain glaciers of the Tuluksu Basin. Makarevich, K.G., et al, [1979, p.96-109, rus] 34-1978
Surface kinematics of a mountain valley glacier Makarevich, A.K., [1979, p.120-124, rus] 34-1980
Direct determination of the velocity of glacier ice movement at the surface Makarevich, K.G., et al, [1979, p.125-131, rus] 34-1981
Summary of theoretical results of glaciological investigations in the Altais. Tronov, M.V., [1967, p.3-15, rus] 34-1988
Mass balance of some Bish-Irdu glaciers Okishev, P.A., [1967, p.16-21, rus] 34-1989
Dependence of Aktru glacier ablation on positive air temperature. Dushkin, M.A., et al, [1967, p.22-41, rus] 34-1990
Soviet glaciological investigations in 1978. Kotlıakov, V.M., et al, [1979, p.5-12, rus] 34-2174
International symposium on computation and forecasting of runoff from glaciers and glaciated areas. Chizhov, O.P., [1979, p.13-19, rus] 34-2175
Glacial-nival systems of the Pamirs and Gissar-Alay. Kotliakov, V.M., et al, [1979, p.25-33, rus] 34-2177
Plotting elevations of the alimentation and accumulation lines for Gissar-Alay glaciers. Rototaeva, O.V., [1979, p.42-51, rus] 34-2179
Statistical characteristics of basic mass balance components of glaciers: accumulation and ablation Glazyrin, G.E., et al, [1979, p.43-50, rus] 34-2881
Melting and runoff in glaciated areas. Konovalov, V.G., [1979, p.51-63, rus] 34-2882
Generalizing morphometric characteristics of glaciation in separate drainage basins. Konovalov, V.G., [1979, p.68-77, rus] 34-2884
Role of Kamchatka glaciers in river alimentation and the formation of solid runoff. Stepanova, A.I., [1979, p.110-116, rus] 34-2897
Melting and surface runoff from the Antarctic ice sheet. Klokov, V.D., [1979, 128p., rus] 34-3088
Origin of the Verkhoyansk-Kolyma mountain glacier system. Sheinkam, V.S., [1979, p.102-107, rus] 34-3124
Degradation of compound valley glaciers in the Caucasus in the 20th century. Panov, V.D., [1979, p.132-138, rus] 34-3128
Map of the second chionosphere level (Level 365) in Western Tien Shan. Bassin, N.S., et al, [1979, p.138-143, rus] 34-3129
Glaciological studies on Tadzhikistan glaciers. Sannikov, A.G., et al, [1979 p.150-155, rus] 34-3131
Melting field of the Dzhankuat mountain valley glacier. Zhuk, V.A., et al, [1979, p.197-202, rus] 34-3139
Snow cover and precipitation in the mountains of Central Asia. Getker, M.I., ed, [1978, 98p., rus] 34-3344
Empirical formulas for calculating melting on glaciers. Konovalov, V.G., [1978, p.41-53, rus] 34-3349
Problems of mountain glaciology. [1977, 212p., rus] 34-3379
Radiation regime of the Altai-Sayan mountain system. Goleshchikhin, V.P., [1977, p.72-79, rus] 34-3382
Discharge of the Kaiartasu and Sakashilsu rivers during the warm season. Samukashvili, R.D., [1980, p.130-136, rus] 34-3428
Heat balance of the Kozel'skiy glacier surface in Kamchatka Peninsula. Vinogradov, V.N., et al, [1979, p.182-187, rus] 34-3711
Hydrochemical regime of the Severtsov glacier. Kamalov, L.F., [1978, p.74-76, eng] 34-3968
Mass budget of Stubacher Sonnblickkees in the years 1971/72 through 1977/78. Slupetzky, H., [1979, p.87-93, ger] 34-3976
New mass budget values of Hintereisferner and Kesselwandferner in the Ötztal Alps, 1975/76-1977/78. Markl, G., [1979, p.95-99, ger] 34-3977
Variations of glacier surface albedo during summer. Dikikh, L.L., [1980, p.48-57, rus] 34-4007

Glacier alimentation

Proceedings of the Scientific Conference on Altai Glaciology Problems. [1963, 259p., rus] 34-106
Mass balance of the Dzhankuat Glacier from 1967-1971 and the methods used to measure and calculate it. Golubev, G.N., et al, [1974, p.173-191, eng] 34-1196
Statistical characteristics of basic mass balance components of glaciers: accumulation and ablation. Glazyrin, G.E., et al, [1979, p.43-50, rus] 34-2881
Thermohydrodynamic calculations of the Vavilov Ice Dome regime, Severnaya Zemlya. Verbitskiĭ, M.IA., et al, [1979, p.81-86, rus] 34-3122
Origin of the Verkhoyansk-Kolyma mountain glacier system. Sheinkam, V.S., [1979, p.102-107, rus] 34-3124
Degradation of compound valley glaciers in the Caucasus in the 20th century. Panov, V.D., [1979, p.132-138, rus] 34-3128
Map of the second chionosphere level (Level 365) in Western Tien Shan. Bassin, N.S., et al, [1979, p.138-143, rus] 34-3129
Calculating avalanche alimentation of glaciers Kharitonov, G.G., [1979, p.155-159, rus] 34-3132
First observations of fluctuations of Karabatkak Glacier, Tien Shan, under a new program Bakov, E.K., et al, [1979, p.165-170, rus] 34-3134
Surging Didal' glacier Uskov, IU.S., et al, [1979, p.170-175, rus] 34-3135
Subdivision of runoff hydrographs from mountain glacier basins Pylev, I.V., [1979, p.202-206, rus] 34-3140
Water-ice balance of Spitsbergen glaciers in the 1976-77 balance year Gus'kov, A.S., [1979, p.211-214, rus] 34-3142
Glacio-climatology as a connecting scientific discipline, its problems and goals Tronov, M.V., [1977, p.3-11, rus] 34-3380
Intracontinental version of earth's cryosphere Reviakin, V.S., [1977, p.12-35, rus] 34-3381
Heat balance of the Kozel'skiy glacier surface in Kamchatka Peninsula Vinogradov, V.N., et al, [1979, p.182-187, rus] 34-3711
Mass budget of Stubacher Sonnblickkees in the years 1971/72 through 1977/78 Slupetzky, H., [1979, p.87-93, ger] 34-3976
New mass budget values of Hintereisferner and Kesselwandferner ii, the Ötztal Alps, 1975/76-1977/78 Markl, G., [1979, p.95-99, ger] 34-3977

Glacier beds

Proceedings. [1979, p.1-445, eng] 34-2219
Processes of glacier erosion on different substrata. Boulton, G.S., [1979, p.15-38, eng] 34-2220
Spectral power density and shadowing function of a glacial microrelief at the decimetre scale. Benoist, J.P., [1979, p.57-66, eng] 34-2223
Local friction laws for glaciers: a critical review and new openings. Lliboutry, L., [1979, p.67-95, eng] 34-2224
Observations within cavities at the bed of the glacier Österdalsisen, Norway Theakstone, W.H., [1979, p.273-281, eng] 34-2238
Geometry of former subglacial water channels and cavities. Walder, J., et al, [1979, p.335-346, eng] 34-2243
Glacial geology of recently deglaciated bedrock areas. Hallet, B., [1979, p.795-801, eng] 34-2264
Stability of temperate ice caps and ice sheets resting on beds of deformable sediment. Boulton, G.S., et al, [1979, p.29-43, eng] 34-2814
Scanning electron microscope examination of subglacial quartz grains from Camp Century core, Greenland a preliminary study. Whalley, W.B., et al, [1980, p.125-131, eng] 34-3804
Subglacial travertine and associated deposits in the Carstensz area, Irian Jaya, Republic of Indonesia. Peterson, J.A., et al, [1979, p.23-29, eng] 34-3971
Velocity fields of the Kara-Batkak glacier Bakov, E.K., [1980, p.3-21, rus] 34-4005
Glacial stratigraphy of Koillismaa and North Kainuu, Finland. Aario, R., et al, [1979, p.1-49, eng] 34-4158

Glacier flow

General concepts of glacier flow. Hutter, K., [1979, p.39-55, ger] 34-361
Glacier flow; simple mathematical models related to the gas content of glaciers. Berner, W., [1979, p.57-70, ger] 34-362
Sliding of ice. Hutter, K., [1979, p.71-92, ger] 34-363
Kinetic waves in glaciers Hutter, K., [1979, p.93-110, ger] 34-364
Variations in glacier movement Aellen, M., et al, [1979, p.111-126, ger] 34-365
Supraglacial debris of G2 glacier in Hidden Valley, Mukut Himal, Nepal. Nakawo, M., [1979, p.273-283, eng] 34-542
Forms at the base of till strata as indicators of ice movements. Ehlers, J., et al, [1979, p.345-355, eng] 34-548
Composition, internal structures, and an hypothesis of formation for drumlins, Waukesha County, Wisconsin, U.S.A. Whittecar, G.R., et al, [1979, p.357-371, eng] 34-549
Flow of ice over a till bed. Jones, A.S., [1979, p.393-395, eng] 34-553
Glacier discharge in the Sör-Rondane, a contribution to the mass balance of Dronning Maud Land, Antarctica. Autenboer, T. van, et al, [1978, p.1-16 + map, eng] 34-661
Velocities and calving intensity at the front of Kongsbreen (West Svalbard) around Aug. 1, 1963. Vivet, R., et al, [1978, p.27-34, fre] 34-663
Magnetic markers for glacier mass balance and velocity measurements. Harrison, W.D., et al, [1978, 45p., eng] 34-776
Structural studies of glaciers in the Khumbu region. Fushimi, H., [1977, p.30-39, eng] 34-901
On the application of existing models of movement to calculating the velocity fields of mountain glaciers (for example, the Central Tujuksu Glacier). Tulina, T.U., [1974, p.192-207, eng] 34-1197
Form and motion of the Kolka Glacier after its surge and probable mechanism of this surge. Garelik, I.S., et al, [1974, p.296-311, eng] 34-1201
Contributions to the survey of the Gepatschferner. Finsterwalder, R., [1978, p.153-159, ger] 34-1266
Verifying glacier measurements on Pasterzenkees (Glockner Group) 1977. Wakonigg, H., [1978, p.239-243, ger] 34-1274
Measurement of displacements from aerial photographs Flotron, A., [1979, p.39-44, ger] 34-1319
Glaciological aspects of building the Swiss postal and telecommunication service's multipurpose telecommunication facility on Chli Titlis Mountain. Haeberli, W., et al, [1979, p.59-75, ger] 34-1320
Distribution of stresses and velocities in an ice slope with spatially dependent material response Hutter, K., et al, [1979, p.99-122, eng] 34-1322
Surface movement and lichen-cover studies at the active rock glacier near the Grubengletscher, Wallis, Swiss Alps. Haeberli, W.H., et al, [1979, p.421-441, eng] 34-1385
Relationship of glacier ice and rock glacier at Grubengletscher, Kanton Wallis, Switzerland Whalley, W.B., [1979, p.49-61, eng] 34-1461
Determining horizontal ice flow gradients in the Vostok Station area down to 800 m Dmitriev, D.N. et al, [1979, p.32-34, rus] 34-1826
Glacier echo sounding studies around Molodezhnaya Trepov, G.V., et al, [1979, p.35-38, rus] 34-1827
On the flow of polythermal glaciers. I. Model and preliminary analysis. Fowler, A.C., et al, [1978, p.217-242, eng] 34-1968
Surface kinematics of a mountain valley glacier Makarevich, A.K., [1979, p.120-124, rus] 34-1980
Direct determination of the velocity of glacier ice movement at the surface. Makarevich, K.G., et al, [1979, p.125-131, rus] 34-1981
Observing surface flow rates of the Aktru glaciers Oleinik, I.IA., [1967, p.66-97, rus] 34-1991
Glacial erosion: methodological problems Vivian, R., [1978, p.279-283, fre] 34-2030
Geological action of glaciers in the Eastern Pamirs Demchenko, V.V., [1979, p.81-85, rus] 34-2186
Physiographic regionalization of the Pamirs. Kadomtseva, T.G., [1979, p.98-100, rus] 34-2188
High accuracy phototachymeters for studying glacier movement. Volkonskiĭ, B.V., et al, [1979, p.173-178, rus] 34-2200
Unsolved general glacier sliding problem Weertman, J., [1979, p.97-115, eng] 34-2225
Flow of ice, as a Newtonian viscous liquid, around a cylindrical obstacle near the bed of a glacier Morris, E.M., [1979, p.117-129, eng] 34-2226
Mathematical approach to the theory of glacier sliding Fowler, A.C., [1979, p.131-141, eng] 34-2227
Simulated glacier sliding over an obstacle. Brepson, R., [1979, p.143-156, eng] 34-2228
Empirical studies of ice sliding Budd, W.F., et al, [1979, p.157-170, eng] 34-2229
Seismic evidence for discrete glacier motion at the rock-ice interface. Weaver, C.S., et al, [1979, p.171-184, eng] 34-2230
Proceedings. [1979, 1325p. (2 vols.), eng] 34-2259
Glacial geology of recently deglaciated bedrock areas. Hallet, B., [1979, p.795-801, eng] 34-2264
Observations of glacier variations in Glacier Bay National Monument. Field, W.O., [1979, p.803-808, eng] 34-2265
Thermohydrodynamic model of a large ice sheet. Verbitskiĭ, M.IA., et al, [1980, p.59-61, rus] 34-2353
Switzerland and its glaciers from the ice age to the present. [1979, 191p., ger] 34-2356
Glaciation of southeastern Jotunheimen and adjacent areas, south Norway. Carlson, A.B., et al, [1979, p.173-186, nor] 34-2385
Recent variation of ice sheet in Mizuho Plateau. Mae, S., [1979, p.1-7, eng] 34-2499
Englacial temperature and deformation of a rock glacier in the Kluane Range, Yukon Territory, Canada. Johnson, J.P., Jr., et al, [1979, p.2275-2283, eng] 34-2666
Glacier flow measuring instrument. Reimann, R., [1979, p.182-186, ger] 34-2717
On the effect of topographic orientation on the variations of glacier length. Kasser, P., [1979, p.93-96, eng] 34-2723
Glaciological survey in the bare ice area near the Allan Hills in Victoria Land, Antarctica. Fumihiko, N., et al, [1979, p.13-23, eng] 34-2792
Flow lines on Antarctic ice shelves. Crabtree, R.D., et al, [1980, p.31-37, eng] 34-2809
Stability of temperate ice caps and ice sheets resting on beds of deformable sediment. Boulton, G.S., et al, [1979, p.29-43, eng] 34-2814
Characteristics of ice flow in Marie Byrd Land, Antarctica. Rose, K.E., [1979, p.63-75, eng] 34-2817
Stability of glaciers and ice sheets against flow perturbations. Thompson, D.E., [1979, p.427-441, eng] 34-2843
Use of a rational model in the mathematical analysis of a polythermal glacier. Fowler, A.C., [1979, p.443-456, eng] 34-2844
Deduction of glacier flow from the distribution of elongated bubbles. Nakawo, M., [1979, p.457-467, eng] 34-2845
Gravity survey of the Taylor Glacier, Victoria Land, Antarctica. Stern, T.A., [1978, 12p., eng] 34-2993
Thermal regime of the Antarctic ice sheet along the flow line: ice divide-Vostok Station-Byrd Glacier. Barbash, V.R., [1979, p.86-95, rus] 34-3123

Glacier flow *(cont.)*

Observed and possible changes in the Abramov glacier tongue. Abul'khasanova, A.G., et al, [1979, p.206-210, rus] **34-3141**

Meteorite recoveries in Antarctica during the field season 1977-78. Yanai, K., et al, [1978, p.977-987, eng] **34-3152**

Nature and importance of mass-wasting by rock glaciers in alpine permafrost environments. Barsch, D., [1977, p.231-245, eng] **34-3260**

Report on glaciological operations in 1978. [1979, p.129-166, ita] **34-3619**

Temperate valley glaciers. Raymond, C.F., [1980, p.79-139, eng] **34-3657**

Eastward ice advances in Wright Valley, Antarctica (Comment). Robinson, P.H., [1979, p.22-24, eng] **34-3676**

Icebergs and oil tankers soon to mix. Hartline, B.K., [1980, p.381, eng] **34-3720**

Finite element method simulation of large ice mass flow behaviour. Emery, J.J., et al, [1980, p.82-92, eng] **34-3734**

Predicted timing of the disintegration of the lower reach of Columbia Glacier, Alaska. Meier, M.F., et al, [1980, 34p. + tables and graphs, eng] **34-3783**

Equilibrium profile of ice shelves. Sanderson, T.J.O., [1979, p.435-460, eng] **34-3784**

Thermohydrodynamic model of an ice sheet. Verbitskii, M.IA., et al, [1980, p.61-67, eng] **34-3798**

Existence of multiple steady states in the flow of large ice masses. Fowler, A.C., [1980, p.183-184, eng] **34-3810**

Pattern of glacial dispersal and comminution of rock fragments and mineral grains from two point sources. Shakesby, R.A., [1979, p.31-45, eng] **34-3972**

Crystal orientation fabrics in relation to structures and strain, Griesgletscher, Valais, Switzerland. Hambrey, M.J., [1979, p.73-86, eng] **34-3975**

Flow patterns in the central North American ice sheet. Shilts, W.W., [1980, p.213-218, eng] **34-3985**

Analysis of morphological characteristics of an alpine glacier icefall. Tison, J.L., [1978, p.89-107, fre] **34-3995**

Regularities governing the development of the topography and glaciers of Tien Shan. Zabirov, R.D., ed, [1980, 110p., rus] **34-4004**

Velocity fields of the Kara-Batkak glacier. Bakov, E.K., [1980, p.3-21, rus] **34-4005**

Glacial stratigraphy of Koillismaa and North Kainuu, Finland. Aario, R., et al, [1979, p.1-49, eng] **34-4158**

Glacier fluctuations

See: Glacier oscillation

Glacier formation

Statistical approach to the study of glacier morphology in the Kamchatka Peninsula. Vinogradov, V.N., et al, [1979, p.325-329, rus] **34-1388**

Comparative analysis of past and present glacial and permafrost relief forms in Asia. Kazakova, N.M., [1976, p.10-45, rus] **34-2010**

Degradation of compound valley glaciers in the Caucasus in the 20th century. Panov, V.D., [1979, p.132-138, rus] **34-3128**

Intracontinental version of earth's cryosphere. Reviakin, V.S., [1977, p.12-35, rus] **34-3381**

Glacier friction

Local friction laws for glaciers: a critical review and new openings. Lliboutry, L., [1979, p.67-95, eng] **34-2224**

Glacier heat balance

Simultaneous investigations of ice, water and heat balance in typical glacial basins. Kotliakov, V.M., [1974, p.463-491, eng] **34-1212**

Microclimates. Wendler, G., et al, [1979, p.79-93, eng] **34-1308**

Heat exchange between ice cover and atmosphere in East Antarctica. Aver'ianov, V.G., [1979, p.91-96, rus] **34-2215**

Melting and surface runoff from the Antarctic ice sheet. Klokov, V.D., [1979, 128p., rus] **34-3088**

Regime of the present-day glaciation of the Caucasus. Kotliakov, V.M., et al, [1979, p.7-21, eng] **34-3970**

Glacier ice

SCAR Working Group on Glaciology. [1979, p.527-532, eng] **34-474**

Rhombus and rhomboid parallelogram patterns on glaciers: natural indicators of strain. Wang, C.J., et al, [1979, p.247-261, eng] **34-540**

Supraglacial debris of G2 glacier in Hidden Valley, Mukut Himal, Nepal. Nakawo, M., [1979, p.273-283, eng] **34-542**

Effect of wind orography in the free atmosphere on air circulation above glaciers. Ni, A.A., et al, [1977, p.30-34, rus] **34-887**

Vertical profile of glacier wind (numerical experiment). Ni, A.A., et al, [1977, p.35-40, rus] **34-888**

Batura Glacier in the Karakoram Mountains and its variations. [1979, p.958-974, eng] **34-940**

Relation between orography and recent glaciation of Zailiyskiy Alatau. Vilesov, E.N., [1977, p.60-76, rus] **34-1094**

Thermal emission of randomly inhomogeneous layered media. Brekhovskikh, V.L., et al, [1978, p.101-106, eng] **34-1119**

New data on recent glaciation of the Fedchenko glacier system (for the "atlas of snow-ice resources of the world"). Shchetinnikov, A.S., [1979, p.113-121, rus] **34-1133**

Calculating vertical ice distribution from the *Catalog of Glaciers in the USSR*, for evaluating runoff from mountain basins. Glazyrin, G.E., et al, [1979, p.122-126, rus] **34-1134**

Studying atmospheric pollution from glacial deposit analysis. Voronskaia, G.N., et al, [1979, p.146-151, rus] **34-1138**

Rock glacier and moraine-ridge complex, Lyngen Peninsula, north Norway. Griffey, J.N., et al, [1979, p.117-124, eng] **34-1168**

Discussions on problems of the study of the Antarctic glacial cover at the twelfth session of the Scientific Committee for Antarctic Research (SCAR), and at the meetings of the Council of the International Antarctic Glaciological Project (IAGP). Korotkevich, E.S., [1974, p.103-118, eng] **34-1194**

Electrolytic conductivity of water, snow and ice in the basin of the Kolka Glacier. Fleetwood, A., [1974, p.387-395, eng] **34-1207**

Results of gravimetric measurements of the ice thickness on the Obruchev Glacier. Macheret, IU.IA., [1974, p.434-439, eng] **34-1210**

Variation of isotope O-18 in the mass of the Marukh Glacier (Western Caucasus). Bazhev, A.B., et al, [1974, p.440-454, eng] **34-1211**

Relationship of glacier ice and rock glacier at Grubengletscher, Kanton Wallis, Switzerland. Whalley, W.B., [1979, p.49-61, eng] **34-1461**

Electromagnetic radiation of snow and ice during dynamic processes. Kachurin, L.G., et al, [1979, p.583-585, rus] **34-1638**

X- or gamma-rays from supernovae in glacial ice. Rood, R.T., et al, [1979, p.701-702, eng] **34-1746**

Research on deep thermal drilling of Antarctic ice. Kudriashov, B.B., et al, [1973, p.35-36, rus] **34-1958**

Regime of glaciers and snow avalanches in Kazakhstan. Tokmagambetov, G.A., ed, [1979, 175p., rus] **34-1970**

Ice and meteorological regimes, mass balance and drainage from mountain glaciers of the Tutuksu Basin. Makarevich, K.G., et al, [1979, p.96-109, rus] **34-1978**

Summary of theoretical results of glaciological investigations in the Altai. Tronov, M.V., [1967, p.3-15, rus] **34-1988**

Is the environment still contaminated by radioactive fallout. Ambach, W., [1978, p.165-169, ger] **34-2075**

Nuclear fall-out in glaciers. Ambach, W., [1978, p.45-47, eng] **34-2076**

Problems in studying glaciological terminology. Kotliakov, V.M., [1979, p.179-184, rus] **34-2202**

Pressure-melting effects in basal ice of temperate glaciers: laboratory studies and field observations under Glacier d'Argentière. Goodman, D.J., et al, [1979, p.259-271, eng] **34-2237**

Recrystallisation and electrical behaviour of glacier ice. Reynolds, J.M., et al, [1980, p.63-64, eng] **34-2538**

Glaciers and environment. Derbyshire, E., [1979, p.58-106, eng] **34-2560**

Gravity survey of the Taylor Glacier, Victoria Land, Antarctica. Stern, T.A., [1978, 12p., eng] **34-2993**

Program and guide for compilation of the applied part of the *World atlas of snow and ice resources*. [1979, p.35-63, rus] **34-3117**

First observations of fluctuations of Karabatkak Glacier, Tien Shan, under a new program. Bakov, E.K., et al, [1979, p.165-170, rus] **34-3134**

Water-ice balance of Spitsbergen glaciers in the 1976-77 balance year. Gus'kov, A.S., [1979, p.211-214, rus] **34-3142**

Empirical formulas for calculating melting on glaciers. Konovalov, V.G., [1978, p.41-53, rus] **34-3349**

Intracontinental version of earth's cryosphere. Reviakin, V.S., [1977, p.12-35, rus] **34-3381**

Radiation regime of the Altai-Sayan mountain system. Goleshchikhin, V.P., [1977, p.72-79, rus] **34-3382**

Petrographic observations of ice samples from Taylor Glacier, Antarctica. Robinson, P.H., [1979, p.17-19, eng] **34-3674**

Interrelations and succession in the compilation of thematic sections of the World Atlas of Snow and Ice Resources. Dreter, N.N., [1979, p.37-42, rus] **34-3688**

Field techniques for experimental stress analysis in Arctic sea ice. Cochran, G.V.B., [1980, p.175-182, eng] **34-3809**

Chemical composition of snow and ice of the highest Pamir glaciers. Diurgerov, M.B., et al, [1980, p.67-71, rus] **34-3902**

Physiography and glacial geomorphology of the central Black Coast, Palmer Land. Singleton, D.G., [1980, p.21-32, eng] **34-4113**

Permafrost conditions of Franz Josef Land. Kondrat'eva, K.A., [1980, p.76-101, rus] **34-4124**

Discovery of the Tanymas country. Gorbunov, A., [1979, p.97-102, rus] **34-4139**

Glacier mass balance

General concepts of glacier flow. Hutter, K., [1979, p.39-55, ger] **34-361**

Mass budget of the Lambert Glacier drainage basin, Antarctica. Allison, I., [1979, p.223-235, eng] **34-538**

Climate versus glacier termini behavior in the Austrian Alps: reply to comments by M. Kuhn. Patzelt, G., [1979, p.412-413, eng] **34-556**

Glacier discharge in the Sor-Rondane, a contribution to the mass balance of Dronning Maud Land, Antarctica. Autenboer, T. van, et al, [1978, p.1-16 + map, eng] **34-661**

Magnetic markers for glacier mass balance and velocity measurements. Harrison, W.D., et al, [1978, 45p., eng] **34-776**

Field experiment on glacier ablation under a layer of debris cover. Fujii, Y., [1977, p.20-21, eng] **34-898**

Effect of nocturnal precipitation on the mass balance of the Rikha Glacier, Hidden Valley, Nepal. Higuchi, K., [1977, p.43-49, eng] **34-903**

LANDSAT sensing of glaciers with application to mass-balance and runoff. Breslau, D., et al, [1979, p.77-82, eng] **34-1008**

Rock glacier and moraine-ridge complex, Lyngen Peninsula, north Norway. Griffey, J.N., et al, [1979, p.117-124, eng] **34-1168**

Mass balance of the Dzhankuat Glacier from 1967-1971 and the methods used to measure and calculate it. Golubev, G.N., et al, [1974, p.173-191, eng] **34-1196**

Simultaneous investigations of ice, water and heat balance in typical glacial basins. Kotliakov, V.M., [1974, p.463-491, eng] **34-1212**

Role of the internal seepage alimentation in the mass balance of glaciers and methods for determining it. Bazhev, A.B., [1974, p.492-521, eng] **34-1213**

Glaciers of the Austrian Alps, 1976-1977. Kinzl, H., [1978, p.231-238, ger] **34-1273**

Verifying glacier measurements on Pasterzenkees (Glockner Group) 1977. Wakonigg, H., [1978, p.239-243, ger] **34-1274**

Federal hydrometric station Massa-Blatten at the front of Aletsch Glacier. Emmenegger, C., et al, [1979, p.23-38, fre] **34-1318**

Glaciological aspects of building the Swiss postal and telecommunication service's multipurpose telecommunication facility on Chli Titlis Mountain. Haeberli, W., et al, [1979, p.59-75, ger] **34-1320**

Mass balance of Filleckkees, Hohe Tauern, 1964-1978. Slupetzky, H., [1979, p.281-299, ger] **34-1329**

Glaciological investigations in Norway 1978. Wold, B. ed, [1979, 71p., eng] **34-1336**

Nature and distribution of glaciers, neoglacial moraines, and rock glaciers, east-central Brooks Range, Alaska. Ellis, J.M., et al, [1979, p.403-420, eng] **34-1384**

Proglacial aggradation and changes in braided channel patterns during a period of glacial advance: an alpine example. Maizels, J.K., [1979, p.87-101, eng] **34-1463**

Report on ice conditions of glaciers in the Grossglockner and Sonnblick groups in early autumn. Tollner, H., [1957, p.33-38, ger] **34-1656**

Results of glacier measurements in upper Stubach valley (Hohe Tauern) in 1960-1967. Slupetzky, H., et al, [1968, p.43-51, ger] **34-1660**

Glacier conditions in the Grossglockner and Sonnblick regions at the end of the summer of 1965, 1966 and 1967. Tollner, H., [1968, p.73-83, ger] **34-1662**

Glacier measurement in the region of Tauernkraftwerke A.G. Kropatschek, E., [1970, p.36-43, ger] **34-1665**

Glacier conditions in the Grossglockner group and in the region of Rauriser Sonnblick, 1968 and 1969. Tollner, H., [1970, p.44-51, ger] **34-1666**

Glacier behavior in the Grossglockner and Goldberg groups in 1970, 1971 and 1972. Tollner, H., [1973, p.54-64, ger] **34-1670**

Glacier conditions in the Grossglockner and Sonnblick regions at the end of the 1972/73 ice budget year. Tollner, H., [1974, p.56-67, ger] **34-1672**

Glacier behavior in the Grossglockner and Sonnblick regions during the 1973/74 and 1974/75, ice budget years and long-term changes of the Gefrorene Wandkees in the Zillertal Alps. Tollner, H., [1976, p.33-46, ger] **34-1675**

Conditions of glaciers in the Grossglockner and Sonnblick regions in the 1975/76 ice budget year. Tollner, H., [1977, p.30-36, ger] **34-1677**

Field trip No.6: Rocky Mountains - Alberta foothills. Harris, S.A., et al, [1979, 43p. + 11p. append., eng] **34-1695**

Variations in the ice surface height along the Mirnyy-100 km profile. Meier, S., [1979, p.17-24, rus] **34-1824**

Water resources of glaciers and glacial discharge in the Arctic. Govorukha, L.S., et al, [1979, p.1-12, eng] **34-1885**

Regime of glaciers and snow avalanches in Kazakhstan. Tokmagambetov, G.A., ed, [1979, 175p., rus] **34-1970**

Surface kinematics of a mountain valley glacier. Makarevich, A.K., [1979, p.120-124, rus] **34-1980**

Direct determination of the velocity of glacier ice movement at the surface. Makarevich, K.G., et al, [1979, p.125-131, rus] **34-1981**

Summary of theoretical results of glaciological investigations in the Altais. Tronov, M.V., [1967, p.3-15, rus] **34-1988**

Models for the runoff from a glaciated catchment area using measurements of environmental isotope contents. Behrens, H., et al, [1979, p.829-846, eng] **34-2077**

Sublimation and condensation at the ice sheet surface of Mizuho Station, Antarctica. Fujii, Y., [1979, p.51-63, eng] 34-2150

Observations of glacier variations in Glacier Bay National Monument. Field, W.O., [1979, p.803-808, eng] 34-2265

Shallow core snow chemistry of Athabasca Glacier, Alberta. Butler, D., et al, [1980, p.278-281, eng] 34-2667

Water-ice balance of the Abramov Glacier Basin. Akbarov, A.A., et al, [1979, p.113-119, rus] 34-3126

External mass transfer of mountain glaciers during degradation (the Dzhankuat glacier). Golubev, G.N., et al, [1979, p.126-132, rus] 34-3127

Nature and importance of mass-wasting by rock glaciers in alpine permafrost environments. Barsch, D., [1977, p.231-245, eng] 34-3260

Problems of mountain glaciology. [1977, 212p., rus] 34-3379

Mass balance of Altai glaciers. Reviakin, V.S., et al, [1977, p.116-130, rus] 34-3385

Temperate valley glaciers. Raymond, C.F., [1980, p.79-139, eng] 34-3657

Predicted timing of the disintegration of the lower reach of Columbia Glacier, Alaska. Meier, M.F., et al, [1980, 34p. + tables and graphs, eng] 34-3783

Two models for estimating climate-glacier relationships in the North Cascades, Washington, U.S.A. Tangborn, W., [1980, p.3-21, eng] 34-3794

Regime of the present-day glaciation of the Caucasus. Kotliakov, V.M., et al, [1979, p.7-21, eng] 34-3970

Mass budget of Stubacher Sonnblickkees in the years 1971/72 through 1977/78. Slupetzky, H., [1979, p.87-93, ger] 34-3976

New mass budget values of Hintereisferner and Kesselwandferner in the Ötztal Alps, 1975/76-1977/78. Markl, G., [1979, p.95-99, ger] 34-3977

Reconstruction of mass budget values of Hintereisferner with climatological data. Steinacker, R., [1979, p.101-104, ger] 34-3978

Glaciers of the Austrian Alps, 1977/78. Kinzl, H., [1979, p.105-113, ger] 34-3979

Follow-up measurements in the Pasterze area (Glockner Group), 1978. Wakonigg, H., [1979, p.115-118, ger] 34-3980

Analysis of morphological characteristics of an alpine glacier icefall. Tison, J.L., [1978, p.89-107, fre] 34-3995

Velocity fields of the Kara-Batkak glacier. Bakov, E.K., [1980, p.3-21, rus] 34-4005

Glacier melting

Vertical profile of glacier wind (numerical experiment). Ni, A.A., et al, [1977, p.35-40, rus] 34-888

Laws governing the thawing of an artificially dusted glacier surface. Bazhev, A.B., [1974, p.271-296, eng] 34-1200

Verifying glacier measurements on Pasterzenkees (Glockner Group) 1977. Wakonigg, H., [1978, p.239-243, ger] 34-1274

On upwelling driven by the melt of ice shelves and tidewater glaciers. Greisman, P., [1979, p.1051-1065, eng] 34-1882

Models for the runoff from a glaciated catchment area using measurements of environmental isotope contents. Behrens, H., et al, [1979, p.829-846, eng] 34-2077

Genesis of the Sveg tills and Rogen moraines of central Sweden: a model of basal meltout. Shaw, J., [1979, p.409-426, eng] 34-2114

Thermohydrodynamic model of a large ice sheet. Verbitskiĭ, M.IA., et al, [1980, p.59-61, rus] 34-2353

Origin of stratified Catfish Creek till by basal melting. Gibbard, P., [1980, p.71-85, eng] 34-3021

Baggin Island sandurs: a study of Arctic fluvial processes. Church, M., [1972, 208p. + maps, eng] 34-3577

Saline discharge at the snout of Taylor Glacier, Antarctica. Keys, J.R., [1979, p.20-21, eng] 34-3675

Impact of "extreme" events on the Dry Valleys area. Chinn, T.J.H., [1979, p.9-13, eng] 34-3678

Glacier movement

See: Glacier flow

Glacier oscillation

Causes of changes in glacier melting. Drozdov, O.A., et al, [1973, p.21-27, rus] 34-107

Climate versus glacier termini behavior in the Austrian Alps: reply to comments by M. Kuhn. Posamentier, H.W., [1979, p.412-413, eng] 34-556

Glacier discharge in the Sör-Rondane, a contribution to the mass balance of Dronning Maud Land, Antarctica. Autenboer, T. van, et al, [1978, p.1-16 + map, eng] 34-661

West Antarctic ice sheet: present-day thinning and Holocene retreat of the margins. Thomas, R.H., [1979, p.1257-1258, eng] 34-732

Collected papers on sciences of atmosphere and hydrosphere, Volume 15. [1977, var.p., eng] 34-895

Characteristics of glaciers in the Khumbu region and their recent variations. Moribayashi, S., et al, [1977, p.3-6, eng] 34-896

Glaciations in the Khumbu Himal (1). Fushimi, H., [1977, p.60-67, eng] 34-906

Batura Glacier in the Karakoram Mountains and its variations. [1979, p.958-974, eng] 34-940

Mass balance of Filleckkees, Hohe Tauern, 1964-1978. Slupetzky, H., [1979, p.281-299, ger] 34-1329

Glacier variations in the Svartisen area, northern Norway. Karlén, W., [1979, p.11-28, eng] 34-1458

De Geer moraines in a Swedish mountain area. Borgström, I., [1979, p.35-42, eng] 34-1459

Proglacial aggradation and changes in braided channel patterns during a period of glacial advance: an alpine example. Maizels, J.K., [1979, p.87-101, eng] 34-1463

Effect of temperature variations on the length of a glacier tongue. Gamper, M., et al, [1978, p.183-189, ger] 34-1496

Report on ice conditions of glaciers in the Grossglockner and Sonnblick groups in early autumn. Tollner, H., [1957, p.33-38, ger] 34-1656

Effects of the retreat of Austrian glaciers on the water supply of high alpine power plants. Tollner, H., [1957, p.38-42, ger] 34-1657

Results of glacier measurements in upper Stuba [illegible]alley (Hohe Tauern) in 1960-1967. Slupetzky, H., et al, [1968, p.43-51, ger] 34-1660

Glacier conditions in the Grossglockner group and in the region of Rauriser Sonnblick, 1968 and 1969. Tollner, H., [1970, p.44-51, ger] 34-1666

Glacier behavior in the Grossglockner and Goldberg groups in 1970, 1971 and 1972. Tollner, H., [1973, p.54-64, ger] 34-1670

Glacier conditions in the Grossglockner and Sonnblick regions at the end of the 1972/73 ice budget year. Tollner, H., [1974, p.56-67, ger] 34-1672

Glacier behavior in the Grossglockner and Sonnblick regions during the 1973/74 and 1974/75 ice budget years and long-term changes of the Gefrorene Wandkees in the Zillertal Alps. Tollner, H., [1976, p.33-46, ger] 34-1675

Recent glaciation of the Kungey Alatau Range. Vilesov, E.N., [1979, p.132-142, rus] 34-1982

Recent fluctuations of glaciation in the Alps. Vivian, R., [1978, p.277-279, fre] 34-2029

Soviet glaciological investigations in 1978. Kotliakov, V.M., et al, [1979, p.5-12, rus] 34-2174

Observations of glacier variations in Glacier Bay National Monument. Field, W.O., [1979, p.803-808, eng] 34-2265

Switzerland and its glaciers from the ice age to the present. [1979, 191p., ger] 34-2356

On the effect of topographic orientation on the variations of glacier length. Kasser, P., [1979, p.93-96, eng] 34-2723

Cave glacier fluctuations in Kuznetskiy Alatau. Dmitriev, V.E., [1979, p.181-185, rus] 34-3137

Glacio-climatology as a connecting scientific discipline, its problems and goals. Tronov, M.V., [1977, p.3-11, rus] 34-3380

Temperate valley glaciers. Raymond, C.F., [1980, p.79-139, eng] 34-3657

Reconstruction of mass budget values of Hintereisferner with climatological data. Steinacker, R., [1979, p.101-104, ger] 34-3978

Glacier surfaces

On the computation of heat transfer coefficients from energy-balance gradients on a glacier. Kuhn, M., [1979, p.263-271, eng] 34-541

Reconstruction of a Late Pleistocene glacier tongue with the aid of a calculated longitudinal profile. Kerschner, H., [1978, p.119-123, ger] 34-668

Statistical analyses of the forms of the glaciers in the Khumbu Himal. Fujii, Y., et al, [1977, p.7-14, eng] 34-897

Model of snow line shifting on a glacier surface during ablation periods. Konovalov, V.G., [1979, p.130-138, rus] 34-1136

Application of a digital terrain model in glaciology. Peipe, J., et al, [1978, p.161-172, ger] 34-1267

Distribution of stresses and velocities in an ice slope with spatially dependent material response. Hutter, K., et al, [1979, p.99-122, eng] 34-1322

Glacier measurement in the region of Tauernkraftwerke A.G. Kropatschek, E., [1970, p.36-43, ger] 34-1665

Regime of glaciers and snow avalanches in Kazakhstan. Tokmagambetov, G.A., ed, [1979, 175p., rus] 34-1970

Direct determination of the velocity of glacier ice movement at the surface. Makarevich, K.G., et al, [1979, p.125-131, rus] 34-1981

Summary of theoretical results of glaciological investigations in the Altais. Tronov, M.V., [1967, p.3-15, rus] 34-1988

Observing surface flow rates of the Aktru glaciers. Olelnik, I.IA., [1967, p.66-97, rus] 34-1991

Radio echo sounding of the Antarctic ice sheet, 1978-79; preliminary report. Drewry, D.J., et al, [1979, 21p. + Append., eng] 34-2064

International symposium on computation and forecasting of runoff from glaciers and glaciated areas. Chizhov, O.P., [1979, p.13-19, rus] 34-2175

Extent of glaciation in the Pamirs and factors affecting it. Rototaeva, O.V., [1979, p.33-41, rus] 34-2178

Plotting elevations of the alimentation and accumulation lines for Gissar-Alay glaciers. Rototaeva, O.V., [1979, p.42-51, rus] 34-2179

Data on glaciological processes in the recrystallization zone of ice formation in highlands. Diurgerov, M.B., [1979, p.52-56, rus] 34-2180

Vertical air temperature gradients in the Pamirs. Davidovich, N.V., [1979, p.56-61, rus] 34-2181

Analyzing distributions of maximum snow reserves on glaciers and improving snow surveying techniques. Diurgerov, M.B., et al, [1979, p.155-159, rus] 34-2197

Mappable indices of glacier surface orientation. Kuz'michenok, V.A., [1979, p.214-216, rus] 34-2212

Frost shattering observed on cracks at the surface of Gilman Glacier, Ellesmere Island. Brochu, M., [1979, p.55-59, fre] 34-2315

Thermohydrodynamic model of a large ice sheet. Verbitskiĭ, M.IA., et al, [1980, p.59-61, rus] 34-2353

Snow cover of the Kirgiz Highlands. Dikikh, A.N., [1978, 101p., rus] 34-2668

Origin of the Verkhoyansk-Kolyma mountain glacier system. Sheinkam, V.S., [1979, p.102-107, rus] 34-3124

External mass transfer of mountain glaciers during degradation (the Dzhankuat glacier). Golubev, G.N., et al, [1979, p.126-132, rus] 34-3127

Map of the second chionosphere level (Level 365) in Western Tien Shan. Bassin, N.S., et al, [1979, p.138-143, rus] 34-3129

Studies of mountain glaciers by the Geography Department of Leningrad University during the IHD. Aigina, N.P., et al, [1979, p.160-165, rus] 34-3133

Surging Didal' glacier. Uskov, IU.S., et al, [1979, p.170-175, rus] 34-3135

Recent glaciation of the Cherskiy mountain system. Sheinkman, V.S., [1979, p.185-194, rus] 34-3138

Observed and possible changes in the Abramov glacier tongue. Abul'khasanova, A.G., et al, [1979, p.206-210, rus] 34-3141

Effective radiation and radiation balance in the Caucasus. Samukashvili, R.D., [1980, p.98-110, rus] 34-3425

Heat balance of the Kozel'skiy glacier surface in Kamchatka Peninsula. Vinogradov, V.N., et al, [1979, p.182-187, rus] 34-3711

Regularities governing the development of the topography and glaciers of Tien Shan. Zabirov, R.D., ed, [1980, 110p., rus] 34-4004

Velocity fields of the Kara-Batkak glacier. Bakov, E.K., [1980, p.3-21, rus] 34-4005

Determining glacier areas and orientation of surfaces from topographic maps. Kuz'michenok, V.A., [1980, p.22-47, rus] 34-4006

Variations of glacier surface albedo during summer. Dikikh, L.L., [1980, p.48-57, rus] 34-4007

Snow accumulation on Central Tien Shan glaciers. Safonova, A.A., [1980, p.58-67, rus] 34-4008

Knik Glacier, Alaska, May 1979 monument and glacier survey. Trabant, D.C., et al, [1979, 20p. + 2 maps, eng] 34-4080

Glacier surges

Variations in glacier movement. Aellen, M., et al, [1979, p.111-126, ger] 34-365

Glaciations in the Khumbu Himal (1). Fushimi, H., [1977, p.60-67, eng] 34-906

Form and motion of the Kolka Glacier after its surge and probable mechanism of this surge. Garelik, I.S., et al, [1974, p.296-311, eng] 34-1201

Electrolytic conductivity of water, snow and ice in the basin of the Kolka Glacier. Fleetwood, A., [1974, p.387-395, eng] 34-1207

Surging Didal' glacier. Uskov, IU.S., et al, [1979, p.170-175, rus] 34-3135

Observed and possible changes in the Abramov glacier tongue. Abul'khasanova, A.G., et al, [1979, p.206-210, rus] 34-3141

Temperate valley glaciers. Raymond, C.F., [1980, p.79-139, eng] 34-3657

Glacier surveys

Photo-geomorphic map of the Mt. Menzies nunatak, Prince Charles Mountains, Australian Antarctic Territory. Derbyshire, E., et al, [1978, p.17-26, eng] 34-662

Collected papers on sciences of atmosphere and hydrosphere, Volume 15. [1977, var.p., eng] 34-895

Ice cliffs and exposed stratigraphy of Kongma Glacier, Khumbu. Wushiki, H., [1977, p.22-25, eng] 34-899

New map "Gepatschferner 1971", scale 1:10,000. Brunner, K., [1978, p.133-151, ger] 34-1265

Contributions to the survey of the Gepatschferner. Finsterwalder, R., [1978, p.153-159, ger] 34-1266

Application of a digital terrain model in glaciology. Peipe, J., et al, [1978, p.161-172, ger] 34-1267

Glaciers of the Austrian Alps, 1976-1977. Kinzl, H., [1978, p.231-238, ger] 34-1273

Seismic surveys of glaciers in the Austrian Alps. Steinhauser, P., [1968, p.51-72, ger] 34-1661

Glacier measurement in the region of Tauernkraftwerke A.G. Kropatschek, E., [1970, p.36-43, ger] 34-1665

Glacier conditions in the Grossglockner group and in the region of Rauriser Sonnblick, 1968 and 1969. Tollner, H., [1970, p.44-51, ger] 34-1666

Surveying Columbia Icefield. [1978, p.9-12, eng] 34-2646

Glaciological survey in the bare ice area near the Allan Hills in Victoria Land, Antarctica. Fumihiko, N., et al, [1979, p.13-23, eng] 34-2792

Studies of mountain glaciers by the Geography Department of Leningrad University during the IHD. Aigina, N.P., et al, [1979, p.160-165, rus] 34-3133

Glacier surveys *(cont.)*

First observations of fluctuations of Karabatkak Glacier, Tien Shan, under a new program. Bakov, E.K., et al, [1979, p.165-170, rus] **34-3134**

Recent glaciation of the Cherskiy mountain system. Shelnkman, V.S., [1979, p.185-194, rus] **34-3138**

Melting field of the Dzhankuat mountain valley glacier. Zhuk, V.A., et al, [1979, p.197-202, rus] **34-3139**

New glaciers on the Tel'pos-iz range. Dolgushin, L.D., et al, [1979, p.214-218, rus] **34-3143**

Report on glaciological operations in 1978. [1979, p.129-166, ita] **34-3619**

Airborne UHF radio echo-sounding of three Yukon glaciers. Narod, B.B., et al, [1980, p.23-31, eng] **34-3795**

Glaciological investigations of the tropical Quelccaya ice cap, Peru. Thompson, L.G., [1980, p.69-84, eng] **34-3799**

Radio-echo sounding in the Allan Hills, Antarctica, in support of the meteorite field program. Kovacs, A., [1980, 9p., eng] **34-3874**

Follow-up measurements in the Pasterze area (Glockner Group), 1978. Wakonigg, H., [1979, p.115-118, ger] **34-3980**

Knik Glacier, Alaska, May 1979 monument and glacier survey. Trabant, D.C., et al, [1979, 20p. + 2 maps, eng] **34-4080**

Glacier thickness

Glacier discharge in the Sör-Rondane, a contribution to the mass balance of Dronning Maud Land, Antarctica. Autenboer, T. van, et al, [1978, p.1-16 + map, eng] **34-661**

Variation of isotope O-18 in the mass of the Marukh Glacier (Western Caucasus). Bazhev, A.B., et al, [1974, p.440-454, eng] **34-1211**

Glacier echo sounding studies around Molodezhnaya. Trepov, G.V., et al, [1979, p.35-38, rus] **34-1827**

Connections in the Gamburtsev and Vernadskiy Subglacial Mountains. Koblents, IA.P., [1979, p.39-48, rus] **34-1828**

Polar research. Turner, M.D., [1980, p.43-44, eng] **34-1883**

Equilibrium profile of ice shelves. Sanderson, T.J.O., [1979, p.435-460, eng] **34-3784**

Airborne UHF radio echo-sounding of three Yukon glaciers. Narod, B.B., et al, [1980, p.23-31, eng] **34-3795**

Radio-echo sounding in the Allan Hills, Antarctica, in support of the meteorite field program. Kovacs, A., [1980, 9p., eng] **34-3874**

See also: Ice cover thickness

Glacier tongues

Kinetic waves in glaciers. Hutter, K., [1979, p.93-110, ger] **34-364**

Is vertical shear in an ice shelf negligible. Sanderson, T.J.O., et al, [1979, p.285-292, eng] **34-543**

Velocities and calving intensity at the front of Kongsbreen (West Svalbard) around Aug. 1, 1963. Vivet, R., et al, [1978, p.27-34, fre] **34-663**

Reconstruction of a Late Pleistocene glacier tongue with the aid of a calculated longitudinal profile. Kerschner, H., [1978, p.119-123, ger] **34-668**

Calving wave during the breakup of a flooded glacier tongue. Vischer, D.L., [1979, p.315-329, ger] **34-1331**

Effect of temperature variations on the length of a glacier tongue. Gamper, M., et al, [1978, p.183-189, ger] **34-1496**

Report on ice conditions of glaciers in the Grossglockner and Sonnblick groups in early autumn. Tollner, H., [1957, p.33-38, ger] **34-1656**

Results of glacier measurements in upper Stubach valley (Hohe Tauern) in 1960-1967. Slupetzky, H., et al, [1968, p.43-51, ger] **34-1660**

Switzerland and its glaciers from the ice age to the present. [1979, 191p., ger] **34-2356**

On the effect of topographic orientation on the variations of glacier length. Kasser, P., [1979, p.93-96, eng] **34-2723**

Observed and possible changes in the Abramov glacier tongue. Abul'khasanova, A.G., et al, [1979, p.206-210, rus] **34-3141**

Equilibrium profile of ice shelves. Sanderson, T.J.O., [1979, p.435-460, eng] **34-3784**

Glacier variations

See: Glacier oscillation

Glaciers

Glacial landscapes and their spatial variability in the temperate and subpolar latitudes. Golubev, G.N., et al, [1978, p.277-282, eng] **34-795**

Data of glaciological studies. Saidi, M.D., ed, [1974, 713p., eng] **34-1193**

Air- and spaceborne remote sensing in hydrogeology and engineering geology. Sadov, A.V., et al, [1979, 223p., rus] **34-1225**

Detection of fission product deposits of atmospheric fallout in firn profiles. Ambach, W., [1979, p.11-19, ger] **34-1317**

Research on snow and ice. Martinelli, M., Jr., et al, [1979, p.1253-1297, eng] **34-1464**

Glaciology. Weertman, J., [1977, p.240-242, eng] **34-1565**

Seasonal and long-term dynamics of vegetation near the Dzhankuat glacier (Central Caucasus). Turmanina, V.I., et al, [1979, p.64-75, rus] **34-1756**

Thermal regime of glacial zone on the northern slope of Zailiyskiy Alatau during cold period. Denisova, T.IA., [1979, p.3-17, rus] **34-1971**

Workshop on the world glacier inventory and meeting of the snow and ice commission in Switzerland. Kotliakov, V.M., et al, [1979, p.19-24, rus] **34-2176**

Glacial-nival systems of the Pamirs and Gissar-Alay. Kotliakov, V.M., et al, [1979, p.25-33, rus] **34-2177**

Analyzing distributions of maximum snow reserves on glaciers and improving snow surveying techniques. Diurgerov, M.B., et al, [1979, p.155-159, rus] **34-2197**

West Greenland outlet glaciers: an inventory of the major iceberg producers. Kollmeyer, R.C., [1980, p.175-181, eng] **34-2440**

Moon, glaciers and permafrost. Strangeway, D.W., [1978, p.2-4, eng] **34-2649**

Report on Soviet glaciological studies in 1975-1978. [1979, p.5-34, rus] **34-3116**

Ice on the move. Doake, C.S.M., [1977, p.65-71, eng] **34-3352**

Dynamics of snow and ice masses. Colbeck, S.C., ed, [1980, 468p., eng] **34-3655**

Temperate valley glaciers. Raymond, C.F., [1980, p.79-139, eng] **34-3657**

Depiction of glacier areas in the World Atlas of Snow and Ice Resources. Timofeeva, N.A., [1979, p.62-66, rus] **34-3692**

Annual report 1978-79. [1979, 190p., eng] **34-3982**

Antarctic journal of the United States, Vol. 14, No.3. [1979, 23p., eng] **34-1091**

Data of glaciological studies. Saidi, M.D., ed, [1974, 713p., eng] **34-1193**

Annotated list of Soviet literature on glaciology (1969). Kotliakov, V.M., comp, [1974, p.524-692, eng] **34-1214**

Application of a digital terrain model in glaciology. Peipe, J., et al, [1978, p.161-172, ger] **34-1267**

Glaciation of Antarctica (study results and prospects). Aver'ianov, V.G., et al, [1978, p.154-163, eng] **34-1414**

Glaciology. Weertman, J., [1977, p.240-242, eng] **34-1565**

Summary of theoretical results of glaciological investigations in the Altais. Tronov, M.V., [1967, p.3-15, rus] **34-1988**

Glaciology and glacial and periglacial morphology of Fennoscandia and Iceland. Biays, P., [1978, p.268-277, fre] **34-2028**

World Ocean and Pleistocene glacial epochs. Zakharov, V.F., [1978, 64p., rus] **34-2106**

Proceedings. [1979, 180p., eng] **34-2145**

Summary of glaciological studies in Mizuho Plateau, East Antarctica, 1969-1975. Ishida, T., [1979, p.1-10, jap] **34-2146**

British Antarctic Survey, 1978-79. [1979, p.605-612, eng] **34-2162**

International symposium on computation and forecasting of runoff from glaciers and glaciated areas. Chizhov, O.P., [1979, p.13-19, rus] **34-2175**

Problems in studying glaciological terminology. Kotliakov, V.M., [1979, p.179-184, rus] **34-2202**

Problems in glaciological terminology and ways of systematization. Smoliarova, N.A., [1979, p.184-191, rus] **34-2203**

Annotated list of Soviet literature on glaciology for 1976. Kotliakov, V.M., et al, [1979, p.217-288, rus] **34-2213**

Secrets of natural ice in Kazakhstan. Tokmagambetov, G.A., [1978, 151p., rus] **34-2312**

Arctic Pleistocene history and the development of submarine permafrost. Vigdorchik, M.E., [1980, 286p., eng] **34-2407**

Exploration of the polar regions. Crary, A.P., [1973, p.246-258, eng] **34-2719**

Baffin Island quaternary environments; an annotated bibliography. Andrews, M., et al, [1980, 123p., eng] **34-2722**

Extract from the annual report: Antarctic Division 1978-79. [1979, 23p., eng] **34-2992**

Report on Soviet glaciological studies in 1975-1978. [1979, p.5-34, rus] **34-3116**

Glaciology at the Fourteenth Pacific Science Congress. Vtiurin, B.I., [1979, p.258, rus] **34-3150**

Problems of mountain glaciology. [1977, 212p., rus] **34-3379**

Glacio-climatology as a connecting scientific discipline, its problems and goals. Tronov, M.V., [1977, p.3-11, rus] **34-3380**

1979 Greenland Ice Sheet Program I: phase 1: casing operation. Rand, J.H., [1980, 18p., eng] **34-3485**

Compiling 1:3 000 000 glaciochimatic maps for the World Atlas of Snow and Ice Resources. Davidovich, N.V., et al, [1979, p.66-71, rus] **34-3693**

Annotated list of Soviet literature on glaciology for 1977. Kotliakov, V.M., et al, [1979, p.201-285, rus] **34-3715**

Glaciological investigations of the tropical Quelccaya ice cap, Peru. Thompson, L.G., [1980, p.69-84, eng] **34-3799**

Annual report 1978-79. [1979, 190p., eng] **34-3982**

Status and future of ice core data. Barry, R.G., et al, [1980, p.1-4, eng] **34-4021**

Glass fibers

Investigation of stress, temperature, and time dependent strains in a randomly oriented fiber reinforced composite with special emphasis given to thermal stress situations. Caulfield, E.M., [1979, 94p., eng] **34-605**

Glaze

Climatic chamber tests of a surface ice accretion measurement system. Tattelman, P., [1979, 50p., eng] **34-1300**

Estimated glaze ice and wind loads at the earth's surface for the contiguous United States. Tattelman, P., et al, [1973, 35p., eng] **34-3645**

Roads in Finland. Babkov, V.F., [1980, p.28-30, rus] **34-3954**

Gold

Effect of cryogenic processes on the formation of gold-scattering water flows. Pliusnin, A.M., et al, [1979, p.700-703, rus] **34-811**

Grain size

Adhesive scattering of energy at the contact. Kashcheev, V.N., et al, [1974, p.11-18, rus] **34-375**

Grain clusters in wet snow. Colbeck, S.C., [1979, p.371-384, eng] **34-1698**

Studying wettability of mineral grains in disperse systems. Romanov, V.P., [1979, p.143-152, rus] **34-2786**

Grain boundary sliding in polycrystalline materials. Sinha, N.K., [1979, p.825-842, eng] **34-2983**

Does the permanent creep-rate of polycrystalline ice increase with crystal size. Duval, P., et al, [1980, p.151-157, eng] **34-3806**

Grasses

Factors regulating the food intake of caribou and reindeer on tundra ranges. White, R.G., [1976, p.1/227-1/233, eng] **34-564**

Pipeline revegetation research: grasses, legumes and shrubs adjacent to the Alaska Highway of Yukon Territory. Vaartnou and Sons Enterprises, Ltd., [1978, 47p., eng] **34-861**

Biochemical activities of organic soils from subantarctic tussok grasslands on Campbell Island. 1. Oxygen uptakes and nitrogen mineralisation. Ross, D.J., et al, [1979, p.161-171, eng] **34-893**

Biochemical activities of organic soils from subantarctic tussock grasslands on Campbell Island. 2. Enzyme activities. Ross, D.J., et al, [1979, p.173-182, eng] **34-894**

Taking inventory of natural grasslands by large-scale surveys of the Ob'-Irtysh floodplain, Tyumen' Region. Aseeva, A.I., [1979, p.57-80, rus] **34-1102**

Graupel

See: Snow pellets

Gravel

Frost protection layers made of cemented materials. Gurischkov, I.L., et al, [1979, p.8-10, rus] **34-10**

Experience with design and operation of bucket dredges for excavating sand-gravel-boulder soils. Freidin, V.M., [1978, p.1123-1126, eng] **34-326**

Eolian sand deflation—a cause for gravel barrier islands in Arctic Alaska. Reimnitz, E., et al, [1979, p.507-510, eng] **34-1143**

Determining the settlement of thawing coarse clastic deposits in mountains of the northeastern USSR. Tatbashev, V.N., et al, [1979, p.173-178, rus] **34-1551**

[Proceedings]. [1979, 9 papers, eng] **34-1587**

Overview of design procedure. Jahns, H.O., [1979, 11p. + 10 slides, eng] **34-1588**

Oceanographic design criteria. Heideman, J.C., [1979, 10p. + 4 tables + 17 slides, eng] **34-1589**

Sea ice statistics. Wheeler, J.D., [1979, 10p. + 11 slides, eng] **34-1590**

Effectiveness of clay freezing prevention methods. Kharlamov, V.N., [1979, p.4-8, rus] **34-2082**

Radiative cooling of layers of pebble. Bernard, J.J., [1979, p.521-524, fre] **34-2352**

Frost susceptibility of some gravels used in road construction in Ireland. Davitt, S., [1978, 35p., eng] **34-2435**

Dehydration of nonmetalliferous construction materials at low temperatures. Gurevich, V.G., et al, [1980, 70p., rus] **34-3824**

Residential buildings on economy-type pile foundations in Murmansk. Kaloshin, I., [1980, p.14-15, rus] **34-3928**

Gravimetric prospecting

Gravity measurements of the ice on the Bothnian Bay. Lehmuskoski, P., et al, [1978, p.101-123, eng] **34-45**

Results of gravimetric measurements of the ice thickness on the Obruchev Glacier. Macheret, IU.IA., [1974, p.434-439, eng] **34-1210**

Lomonosov Ridge Experiment: Lorex 79. Weber, J.R., [1979, p.715-721, eng] **34-1844**

Antarctica is a rugged continent. Grushinskiĭ, N.P., et al, [1975, p.638-640, ger] 34-3855
Gravity determinations at Vostok. Bentley, C.R., [1980, p.193-195, eng] 34-4188

Gravity

Gravity determinations at Vostok. Bentley, C.R., [1980, p.193-195, eng] 34-4188

Gravity anomalies

Gravity survey of the Taylor Glacier, Victoria Land, Antarctica. Stern, T.A., [1978, 12p., eng] 34-2993

Grazing

Physiological responses of plants in tundra grazing systems. Tieszen, L.L., et al, [1979, p.22-42, eng] 34-2959
Types of East Taymyr tundras and their significance as cattle grazing grounds. Rapota, V.V., [1979, p.53-54, rus] 34-4226
Changes in vegetational cover of Yamal arctic tundras induced by reindeer grazing. Rebristaia, O.V., [1979, p.55-56, rus] 34-4227

Greenland

Trace element content of Greenland snows along an east-west transect. Boutron, C., [1979, p.1253-1258, eng] 34-103
Environmental radioactivity in Greenland in 1977. Aarkrog, A., et al, [1978, 20p., eng] 34-788
Temperature profiles in boreholes at the edge of the Greenland ice sheet. Stauffer, B., et al, [1979, p.301-313, ger] 34-1330
Soils and relief in western Greenland. Stäblein, G., [1979, p.232-245, ger] 34-1494
West Greenland outlet glaciers: an inventory of the major iceberg producers. Kollmeyer, R.C., [1980, p.175-181, eng] 34-2440
ICEX: Ice and climate experiment; report of Science and Applications Working Group. [1979, c118p., eng] 34-2726
Ice condition variations near the southwestern shores of Greenland in connection with hydrometeorological processes of different scales. Mironov, E.U., [1979, p.47-62, rus] 34-2998
Ice on the move. Doake, C.S.M., [1977, p.65-71, eng] 34-3352
1979 Greenland Ice Sheet Program. Phase 1: casing operation. Rand, J.H., [1980, 18p., eng] 34-3485
Ice core sampling. Radok, U., [1980, p.71-76, eng] 34-4027
Grönlands Geologiske Undersögelse and Geodaetiske Institut North Greenland Expeditions, 1978-80. Higgins, A.K., [1980, p.153-156, eng] 34-4187

—Johan Dahl Land

Glaciological investigations in Johan Dahl Land, South Greenland, as a basis for hydroelectric power planning. Olesen, O.B., [1978, p.84-86, eng] 34-1566

Greenland Sea

Thermal state of waters in the northern Gréenland Sea in February 1972 (from data obtained along the Barentsburg-ice edge cross-section). IAnes, A.V., [1979, p.37-42, rus] 34-3587

Ground effect machines

See: Air cushion vehicles

Ground freezing

See: Soil freezing

Ground ice

Variations of heat transfer between soil and atmosphere induced by engineering activities in tundra regions. Pavlov, A.V., et al, [1979, p.12-22, rus] 34-124
Results of studying coal mining conditions in the North-East. Vikulov, M.A., et al, [1975, p.3-8, rus] 34-214
Axisymmetric freezing and creep of water-saturated rocks. Dubina, M.M., et al, [1975, p.44-48, rus] 34-220
Mechanical dehydration of frozen peat. Gatitskiĭ, N.V., et al, [1979, p.19-20, rus] 34-254
Calculating thermal regime of reservoirs in permeable rocks surrounded by ice-bearing zones. Valiullin, A.N., et al, [1978, p.140-146, rus] 34-255
Specific nature of erosional processes in permafrost areas. Orlov, A.D., et al, [1979, p.118-124, rus] 34-448
Features indicative of permafrost. Black, R.F., [1976, p.75-94, eng] 34-510
Zonal characteristics of polygonal ice-wedge relief in Western Siberia. Shamanova, I.I., [1979, p.82-87, eng] 34-529
Earth hummocks of the Canadian Arctic and Subarctic. Tarnocai, C., et al, [1978, p.581-594, eng] 34-659
Determining dynamic yield stresses of frozen ground and ice. Kosinskiĭ, A.K., [1976, p.71-79, rus] 34-707
Engineering geology of the U.S.S.R. Vol.5, Altai and Ural Mountains. Trepettsov, E.V., ed, [1978, 220p., rus] 34-768
Growth and decay of "Katie's floeberg". Barrett, S.A., et al, [1978, 34p., eng] 34-775
Uplift of objects by an upfreezing ice surface. Mackay, J.R., et al, [1979, p.609-613, eng] 34-780
Nature and classification of palsa bogs. Novikov, S.M., et al, [1979, p.3-13, rus] 34-826
Experimental studies of the thermal regime of permafrost slopes of a stream valley at their junction with a filter dam. Belan, V.I., [1979, p.97-100, rus] 34-852
Hydrogeochemical investigations of the BAM zone. Lomonosov, I.S., [1977, p.87-94, rus] 34-996
Is the soil frozen or not an algorithm using weather records. Cary, J.W., et al, [1979, p.319-327, eng] 34-1029
Chonkemin Valley terraces and the glaciation of northern Tien Shan. Bylinskaia, L.N., [1979, p.137-143, rus] 34-1073
Spring runoff from small drainage basins of the Dubovskaya hydrometeorological station. Bystrov, A.V., [1979, p.26-38, rus] 34-1078
Buried glaciers and their origin. Maksimov, E.V., [1977, p.84-92, rus] 34-1096
Artificial freezing of ground in underground construction Trupak, N.G., [1979, 344p., rus] 34-1226
SNiP 11-18-76. Construction norms and rules; Part 11. Planning norms: Chapter 18 Footings and foundations on permafrost. [1979, 111p., eng] 34-1342
Investigations of possible correlations of vegetation, substrate, and topography in interior Alaska. Neiland, B.J., [1975, c120 leaves, eng] 34-1357
Engineering geocryology. Mel'nikov, P.I., ed, [1979, 208p., rus] 34-1533
Proceedings, Vol.2. [1979, 255p., eng] 34-1678
Geologic controls of the origin, characteristics and distribution of ground ice. Mackay, J.R., et al, [1979, p.1-18, eng] 34-1679
Experimental roadbed in an area with a thick layer of ground ice. [1979, p.187-197, eng] 34-1688
Experimental research on an embankment at the lower limit of alpine permafrost. Kuo-tung, C., et al, [1979, p.199-222, eng] 34-1689
Field trip No.2: Upper Mackenzie River Valley. Chatwin, S.C., et al, [1979, 53p., eng] 34-1691
Ice stagnation and paleodrainage in and near an interlobate area. Rieck, R.L., [1979, p.219-235, eng] 34-1725
Unconfined compression test of frozen sandy soil. Hirobe, R., et al, [1979, p.167-173, jap] 34-1741
Water erosion of frozen rocks and the evaluation of thermoerosional danger. Ershov, E.D., et al, [1979, p.67-76, rus] 34-1759
Rock temperatures in the Kamchatka Peninsula. Zamolotchikova, S.A., et al, [1979, p.102-118, rus] 34-1918
Rock stream structure in South Yakutia. Tiurin, A.I., et al, [1979, p.119-128, rus] 34-1919
Observing rock stream movement rates on the Chul'man Plateau. Ospennikov, E.N., [1979, p.129-133, rus] 34-1920
New data on geocryological structure of swamps in southern Yakutia. Chizhov, A.B., et al, [1979, p.134-140, rus] 34-1921
Active centers at the surface of fine rock particles. Ananian, A.A., [1979, p.196-200, rus] 34-1928
Structure and absolute geochronology of alassy deposits in Central Yakutia. Katasonov, E.M., ed, [1979, 95p., rus] 34-1931
Peat accumulation and the formation of swamps as a physiographic process. Ivanov, K.E., [1976, p.80-90, rus] 34-2007
Role of lake and naled ice in the formation of natural dynamic systems. Ivanets, B.S., et al, [1976, p.57-66, rus] 34-2011
Causes of the values of winter pressure of ground on walls of solid-bottom sluice chambers, exceeding the design values. Avdeeva, V.I., [1979, p.98-105, rus] 34-2049
All-Union scientific-technical conference on the engineering-geological basis of seismic microregionalization, 1st, Tashkent, Nov. 18-20, 1987. Summaries of reports. [1975, 98p, rus] 34-2057
Dependence of permafrost seismicity on ground ice content. Dzhurik, V.I., [1975, p.24-25, rus] 34-2058
Hydraulic conductivity in frozen soils. Burt, T.P., et al, [1976, p.349-360, eng] 34-2113
Classification of cryogenic structures in the aeration zone of peat deposits. Kmitovenko, A.T., et al, [1979, p.8-11, rus] 34-2131
Determining parameters of the mechanical dehydration of frozen peat in high bogs. Kmitovenko, A.T., et al, [1979, p.18-19, rus] 34-2132
Glacial-nival systems of the Pamirs and Gissar-Alay. Kotliakov, V.M., et al, [1979, p.25-33, rus] 34-2177
Ground ice and naleds in the Pamirs. Koreisha, M.M., [1979, p.71-76, rus] 34-2184
Problems in studying glaciological terminology. Kotliakov, V.M., [1979, p.179-184, rus] 34-2202
Geomorphological processes developing on artificial structures in the nivation-glaciation zone of the Khibiny Mountains. Semekhin, IU.V., et al, [1979, p.192-195, rus] 34-2204
Glacial mudflows, not related to glacier-damned lakes, in the Gerkhozhan-Su Basin, North Caucasus. Fleishman, S.M., et al, [1979, p.195-198, rus] 34-2205
Frost heave in Transbaikal steppes. Bazhenova, O.I., [1978, p.109-126, rus] 34-2298
Effects of seasonal changes and ground ice on electromagnetic surveys of permafrost. Arcone, S.A., et al, [1979, 33p., eng] 34-2363
Environmental factors affecting iceberg scour estimates. Chari, T.R., et al, [1980, p.223-230, eng] 34-2444
Exogenic relief forming process in the cryolithozone. Sukhodrovskiĭ, V.L., [1979, 280p., rus] 34-2684
Space methods of studying valleys and naleds in the Chul'man region. Topchiev, A.G., [1979, p.169-175, rus] 34-2758
Chemical composition of ground ice as an indication of ice formation conditions and origin of the enclosing rocks. Danilov, I.D., et al, [1980, p.119-126, rus] 34-2767
Studying ground ice in the Baykal Amur railroad area. Nekrasov, I.A., et al, [1979, p.17-26, rus] 34-2771
Influence of the frozen state of rocks on river shore erosion in permafrost areas. Are, F.E., [1979, p.107-117, rus] 34-2782
Ground ice and cryogenic structures of loose deposits in the Muysk Basin. An, V.V., [1979, p.118-129, rus] 34-2783
Formation of ice layers in coastal recesses of Arctic shores. Fartyshev, A.I., [1979, p.129-136, rus] 34-2784
Origin of ground ice layers in the Yenisey River Valley. Kazanskiĭ, O.A., [1979, p.136-143, rus] 34-2785
Nomogram for determining total ice content of frozen ground. Shender, N.I., [1978, p.115-117, rus] 34-2928
Naleds and injected ice in the Buordakh River valley. Klimovskiĭ, I.V., [1978, p.118-125, rus] 34-2929
Cryogenic landscapes of the Baykal Amur railroad area in the Turan Range and their economic development. Nekrasov, I.A., et al, [1978, p.34-46, rus] 34-2944
Origin of ground ice deposits in the Muysk Basin. An, V.V., [1978, p.46-57, rus] 34-2945
Ground ice in the area of a mountain pass in the Suntar-Khayat Range. Gordeev, P.P., [1978, p.123-130, rus] 34-2953
Report on Soviet glaciological studies in 1975-1978. [1979, p.5-34, rus] 34-3116
Program and guide for compilation of the applied part of the *World atlas of snow and ice resources*. [1979, p.35-63, rus] 34-3117
Glaciers on topographic maps and in the Glacier Catalog of the USSR. Kuz'michenok, V.A., [1979, p.249-255, rus] 34-3148
Glaciers on topographic maps and in the Glacier Catalog of the USSR. Kuz'michenok, V.A., [1979, p.249-255, rus] 34-3148
Remarks on the V.A. Kuz'michenok paper "Glaciers on topographic maps and in the Glacier Catalog of the USSR". Vinogradov, O.N., [1979, p.255-257, rus] 34-3149
Proceedings of the All-Union symposium on the rheology of soils, 2nd, Tsakhkadzor, Oct. 7-10, 1975. [1976, 406p., rus] 34-3203
Determining rheologic properties of perennially frozen hard fractured rocks. Tsytovich, N.A., et al, [1976, p.360-368, rus] 34-3224
Principles of cryolithological regionalization of the permafrost zone. Vtiurin, B.I., [1980, p.1-9, eng] 34-3233
Hydrogeochemical investigations in permafrost studies. Anisimova, N.P., [1980, p.25-41, eng] 34-3235
Ice rich soils as bases for structures. Dokuchaev, V.V., et al, [1980, p.133-147, eng] 34-3242
Problems and possibilities of studying the processes of dynamic relaxation in frozen earth materials. Frolov, A.D., [1980, p.149-167, eng] 34-3243
On the role of the components of frozen clay soils in the development of strength at different temperatures. Maksimiak, R.V., et al, [1980, p.169-183, eng] 34-3244
Natural waters, lithogenesis and relief. Zorin, L.V., [1979, 167p., rus] 34-3267
Drilling and coring of frozen ground in northern Alaska, Spring 1979. Lawson, D.E., et al, [1980, 14p., eng] 34-3333
Determining stability of tailings dump embankments. Zaslavskiĭ, S.V., [1978, p.76-77, rus] 34-3357
Water conduit earth structures of land reclamation systems in Central Yakutia. Krasnov, IU.N., et al, [1978 p.82-84, rus] 34-3358
Study of shorelines in the building and operation of Siberian reservoirs. Vendrov, S.L., et al, [1980, 10p., eng] 34-3391
Ground ice and ice-rich ground as structure foundations. Vialov, S.S., et al, [1980, 159p., eng] 34-3405
Crystallization-film mechanism of water migration toward frost penetration front. Kaliuzhnyĭ, I.L., et al, [1980, p.3-12, rus] 34-3458
Loess-ice formation of East Siberia in Late Pleistocene and Holocene. Tomirdiaro, S.V., [1980, 184p., rus] 34-3478
Age of rock glaciers in the Altai Mountains. Ivanovskiĭ, L.N., [1977, p.125-137, rus] 34-3606
Ice core and ice cement effects on soil development, eastern Wright Valley, Antarctica. Bockheim, J.G., [1979, p.487-493, eng] 34-3623
Interrelations and succession in the compilation of thematic sections of the World Atlas of Snow and Ice Resources. Dreler, N.N., [1979, p.37-42, rus] 34-3688
Flow of temperate ice in a vertical shaft with rough wall surfaces. Reeh, N., [1980, p.309-324, eng] 34-3749
Cryogenic physical-geologic processes and their prediction. Grechishchev, S.E., et al, [1980, 383p., rus] 34-3757
English translations of the forty-nine Soviet papers, the one French paper, and the three invited Soviet theme papers, Part 1. [1980, 399p., eng] 34-3827
An NMR study of the phase transition of water in models and in frozen clays. Kvlividze, V.I., et al, [1980, p.81-96, eng] 34-3833
Investigation of the structure and properties of bound water. Savel'ev, B.A., [1980, p.97-107, eng] 34-3834

Ground ice *(cont.)*

Results of experimental studies of the freezing process in very fine-grained soils. Zhestkova, T.N., [1980, p.119-136, eng] **34-3836**

Experimental investigation of heat and moisture transfer during sublimation-desublimation of water in fine-grained soils. Ershov, E.D., et al, [1980, p.143-158, eng] **34-3838**

Water migration, formation of texture and ice segregation in freezing and thawing clayey soils. Ershov, E.D., et al, [1980, p.159-175, eng] **34-3839**

Role of tectonics in the formation of permafrost on low plains. Baulin, V.V., et al, [1980, p.209-223, eng] **34-3842**

Principles of classification of polygonal-vein structures. Romanovskiĭ, N.N., [1980, p.297-310, eng] **34-3847**

Permafrost in the mountains of Central Asia. Gorbunov, A.P., [1980, p.257-369, eng] **34-3851**

Zonal and regional patterns of formation of the permafrost region in the U.S.S.R. Kudriavtsev, V.A., et al, [1980, p.371-389, eng] **34-3852**

Finite element method of calculating ground freezing depth. Rudykh, O.L., et al, [1978, p.81-85, rus] **34-3892**

Increasing the stability of mining excavations in permafrost. El'chaninov, E.A., [1979, p.54-62, rus] **34-3908**

Performance of support walls built on permafrost. Novikov, F.IA., [1980, p.45-46, rus] **34-3957**

Development of ground ice in hydraulic earth structures. Olovin, B.A., [1980, p.80-87, rus] **34-4042**

Geomorphologic conditions of land reclamation in the Upper Angara trough. Bazarov, D.-D.B., et al, [1979, p.77-93, rus] **34-4099**

Slope development dynamics in the Zeya-Bureya Plain. Popov, IU.I., [1979, p.15-20, rus] **34-4103**

Rational use of natural resources in the Central Lena River area. Gubkin, M.P., et al, [1979, p.10-14, rus] **34-4107**

Quantitative evaluation of heaving intensity in thawing water-saturated grounds. Ershov, E.D., et al, [1980, p.59-66, rus] **34-4122**

Regularities governing formation of rock streams in North Transbaikal (Southern Muyskiy Range). Tiurin, A.I., et al, [1980, p.138-144, rus] **34-4130**

Construction and operation of hydraulic structures in West Yakutia. Mel'nikov, P.I., ed, [1979, 88p., rus] **34-4149**

Construction of dams from local materials. Biianov, G.F., [1979, p.11-20, rus] **34-4152**

Thermal regime variations in the Vilyuy hydroelectric power plant dam during operation. Medvedev, B.A., et al, [1979, p.20-26, rus] **34-4153**

Ground temperature

See: Soil temperature

Ground thawing

Axisymmetric freezing and creep of water-saturated rocks. Dubina, M.M., et al, [1975, p.44-48, rus] **34-220**

Numerical solution of problems of soil creep with phase transformations. Lozovskiĭ, A.S., [1975, p.49-53, rus] **34-221**

Inspection of winter roads, Mackenzie Delta, following spring thaw. [1973, 16p., eng] **34-291**

Factors affecting use of winter roads during spring thaw. [1973, 15p., eng] **34-293**

Electric models of rock freeze-thaw. Rashkin, A.V., [1979, p.135-137, rus] **34-718**

Thermal regime of water pipelines built in seasonally freezing ground. Pereleshin, R.S., et al, [1974, p.107-210, rus] **34-758**

Quantitative analysis of the relation between the main thermophysical characteristics of frozen soils. Konovalov, A.A., [1979, p.23-37, rus] **34-980**

Determination of the stress field during thawing of frozen ground. Stepanov, IU.S., et al, [1979, p.94-98, eng] **34-1149**

Preventing corrosion on Arctic pipelines. Peabody, A.W., [1979, p.28-42, eng] **34-1290**

Preliminary disturbance of tundra covers as a means for improving geocryological conditions. Grigor'ev, N.F., [1979, p.45-50, rus] **34-1511**

Forecasting deformation of thawing bearing ground. Dokuchaev, V.V., et al, [1979, p.40-53, rus] **34-1537**

Reestablishing the frozen state of ground for preventing deformations of buildings and structures. Aleksandrov, IU.A., [1979, p.117-121, rus] **34-1545**

Determining the settlement of thawing coarse clastic deposits in mountains of the northeastern USSR. Tal'bashev, V.N., et al, [1979, p.173-178, rus] **34-1551**

Experimental research on the principal mechanical properties of freezing and frozen soils in China (a review). Hsiao-pai, C., et al, [1979, p.159-177, eng] **34-1686**

Permafrost thawing beneath pipes with different pipe laying methods. Zamolotchikova, S.A., [1979, p.73-79, rus] **34-1916**

Behavior of clay subgrades during melting periods. Prokudin, I.V., et al, [1979, p.40-42, rus] **34-2096**

Hot-plate field tests of frozen soils. Chubarova, N.P., et al, [1980, p.228-230, eng] **34-2378**

Length of ground thawing season in East Yakutia. Vasil'ev, I.S., [1979, p.74-83, rus] **34-2778**

Thawing of ground under the influence of thermomechanical erosion. Khalikov, G.A., [1979, p.77-78, rus] **34-2935**

Temperature regime of Baykal Lake shore deposits near Kurla Cape. Liubomirov, A.S., [1978, p.58-65, rus] **34-2946**

Water thawing of frozen ground for open pit and underground mining in the northeast of the USSR. Emel'ianov, V.I., et al, [1980, p.339-354, eng] **34-3256**

Cryogenic physical-geologic processes and their prediction. Grechishchev, S.E., et al, [1980, 383p., rus] **34-3757**

Determination of settlement due to thawing out of permafrost soil. Ponomarev, V.D., et al, [1980, p.328-331, eng] **34-3935**

Engineering-economic determination of optimum depth of preconstruction thawing of permafrost soils under buildings. Khrustalev, L.N., [1980, p.332-337, eng] **34-3936**

Mathematical model of water infiltration into frozen soil. Motovilov, IU.G., [1978, p.62-66, eng] **34-3966**

Thawing effect on the strength of roadbeds. Poritskiĭ, R.Z., [1978, p.14-24, rus] **34-4016**

Calculating temperature fields in permafrost thawing at different temperatures (applied to mining problems). Gur'ianov, I.E., [1980, p.42-62, rus] **34-4039**

Quantitative evaluation of heaving intensity in thawing water-saturated grounds. Ershov, E.D., et al, [1980, p.59-66, rus] **34-4122**

Structural interpretation of thawing ground compressibility. Gur'ianov, I.E., [1979, p.65-84, rus] **34-4157**

More precise definitions and additions to the "Instructions for determination of the SN 435-72 design hydrologic characteristics" (Discussion of Construction Norms). Kagan, B.IA., [1979, p.1223-1226, rus] **34-4253**

Ground truth

Project SAR '77 summary report. Worsfold, R.D., ed, [1979, 402p., eng] **34-2430**

Ground water

Thermal alteration of groundwater caused by seepage from a cooling lake. Andrews, C.B., et al, [1979, p.595-602, eng] **34-271**

Geology and geochemistry of the Ship Creek and Monashka Creek reservoirs, southcentral Alaska. Hawkins, D.B., et al, [1976, 70 p., eng] **34-618**

Environmental path of arsenic in groundwater. Hawkins, D.B., [1976, 7p., eng] **34-622**

Investigation of an ozone-filter system for color and iron removal at low temperatures. Smith, D.W., et al, [1975, 71p., eng] **34-644**

Development of ice by cryostatic pressure in northeastern Wisconsin and its effect on unconsolidated shore bluffs. Stieglitz, R.D., [1978, p.645-647, eng] **34-660**

Studying water level regime of palsa bogs. Moskvin, IU.P., [1979, p.27-37, rus] **34-828**

Accuracy of interpolation and averaging of soil moisture content over an area. Vershinina, L.K., et al, [1979, p.129-141, rus] **34-1084**

Infiltration into soil with precipitation of arbitrary intensity. Kutuzova, G.B., [1979, p.142-148, rus] **34-1085**

Rock blasting under complex hydrogeological conditions. Mets, IU.S., [1979, 109p., rus] **34-1189**

Phase composition of moisture in permafrost of different origin and age. Ershov, E.D., et al, [1979, p.168-178, rus] **34-1925**

Groundwater movement and subsurface temperatures in a glacial complex, Cochrane District, Ontario. Parsons, M.L., [1969, 105p., eng] **34-2072**

Pipelines and permafrost: physical geography and development in the circumpolar north. Williams, P.J., [1979, 98p., eng] **34-2698**

Contributions from the Shinjo Branch. No.1 (1969-1979). [1979, Var.p., jap] **34-2539**

Research of ground water resources to melt snow, No.1. Yuhara, K., et al, [1979, p.7-10, jap] **34-2544**

Research of ground water resources to melt snow, No.2. Higashiura, M., [1979, p.16-23, jap] **34-2545**

Ground water in the Shinjo basin. Higashiura, M., [1979, p.165-174, jap] **34-2548**

Experimental study on the most reasonable amount of ground water to be sprinkled for melting the freshly fallen snow on the roads. Nakamura, H., [1979, p.117-147, jap] **34-2549**

Snow melting by sprinkling ground water. Higashiura, M., [1979, p.2834-2841, jap] **34-2550**

Snow melting on roofs by sprinkling ground water. Higashiura, M., [1979, p.215-225, eng] **34-2551**

Observational data of ground water in the Shinjo basin (1) —Shallow ground water level and water temperature (1970-1975). Higashiura, M., et al, [1979, p.1-95, jap] **34-2557**

Evaluating the distribution and utilization of ground water resources in the south of East Siberia. Pinneker, E.V., et al, [1976, p.80-92, rus] **34-2643**

Formation of chemical composition of ground water in the Ingra River Basin (Baykal Amur railroad route). Boltsov, A.V., [1978, p.169-176, rus] **34-2934**

Seasonal moisture exchange dynamics between ground waters and the aeration zone of Kulunda Steppe. Sen'kov, A.A., [1979, p.183-190, rus] **34-3082**

Modelling the processes of river runoff formation. Kuchment, L.S., [1980, 143p., rus] **34-3188**

Role of highly mineralized groundwater in the cooling of the lithosphere at depth. Chizhov, A.B., [1980, p.137-142, eng] **34-3837**

Improving the procedure for installation of antiseepage curtains by the "wall-in-the-ground" method. Burov, IU.E., et al, [1980, p.304-309, eng] **34-3932**

Model application to urban groundwater problems of Fairbanks, Alaska. Kane, D.L., [1980, 30p., eng] **34-3992**

More precise definitions and additions to the "Instructions for determination of the SN 435-72 design hydrologic characteristics" (Discussion of Construction Norms). Kagan, B.IA., [1979, p.1223-1226, rus] **34-4253**

See also: Soil water; Subpermafrost ground water; Suprapermafrost ground water; Water table

Grounded ice

Investigation of sea-bed scouring in the Beaufort Sea (PHASE II). [1973, 27p., eng] **34-575**

Problems of offshore oil drilling in the Beaufort Sea. Weller, G., et al, [1978, p.4-11, eng] **34-942**

Comment and reply on "Late Quaternary extent of the West Antarctic ice sheet: new evidence from Ross Sea cores". Fillon, R.H., et al, [1979, p.518-519, eng] **34-1088**

Depolarization of radio waves can distinguish between floating and grounded ice sheets. Woodruff, A.H.W., et al, [1979, p.223-232, eng] **34-2234**

Grounding

See: Electrical grounding

Grouting

Influence of water temperature and setting accelerators on hardening time of frost resistant cements. Shugalet, R.T., et al, [1979, p.76-78, rus] **34-127**

Cement-silicate solutions used in building grout curtains under complex hydrogeological conditions. Shugalet, R.T., et al, [1979, p.74-77, rus] **34-198**

Mortars with sodium acetate admixtures. Nikulin, V.T., et al, [1979, p.18, rus] **34-340**

Hydrothermal method of cementing cold joints of concrete dams. Tetel'min, V.V., et al, [1979, p.21-23, rus] **34-1151**

Heating cables for electric warming of joints and situ-cast concrete structures. Astashev, V.M., et al, [1979, p.10-12, rus] **34-1432**

Consolidation of a thin cutoff wall of clay soils of liquid consistency. Chernyi, I.P., et al, [1979, p.462-465, eng] **34-1435**

Grout injection used in tunnel construction in permafrost. Fursov, L.F., [1979, p.105-110, rus] **34-1531**

Solidification of mortars with antifreeze admixtures. Shishkin, A.A., et al, [1979 p.19-20, rus] **34-2700**

Soil stabilization and water impervious screens in hydroelectric engineering. Adamovich, A.M., [1980, 319p., rus] **34-3270**

Investigation of construction-joint grouting techniques under field conditions. Zhivoderov, V.N., et al, [1980, p.872-879, eng] **34-3377**

Control of seepage through concrete by injection of polymer solutions. Ibragimov, M.N., [1980, p.880-882, rus] **34-3378**

Growth

Vertical distribution of live vascular phytomass in cottongrass tussock tundra. Shaver, G.R., et al, [1979, p.335-342, eng] **34-1286**

Temperature responses of germination of Arctic poppy (Papaver radicatum Rottb.) seeds. Olson, A.R., et al, [1979, p.343-348, eng] **34-1287**

Moss *Aongstroemia longipes*, an environmentally sensitive colonizer of sediments at Austerdalsisen, Norway. Theakstone, W.H., et al, [1979, p.353-356, eng] **34-1288**

Growth and decay of palsas and peat plateaus in the Macmillan Pass—Tsichu River area, Northwest Territories, Canada. Kershaw, G.P., et al, [1979, p.1362-1373, eng] **34-1453**

Use of long-term automatic time-lapse photography to measure the growth of frost blisters. Van Everdingen, R.O., et al, [1979, p.1632-1635, eng] **34-1457**

Influence of snow cover on physiological processes in forest plants. Tranquillini, W., [1979, p.123-137, ger] **34-1784**

Effect of fertilization on winter drying of Scots pine. Kurkela, T., [1979, p.139-143, eng] **34-1785**

Growth of tundra vegetation in relation to Arctic microenvironments at Barrow, Alaska. Dennis, J.G., [1969, 305p., eng] **34-2042**

Spruce forests as a stabilizing component of taiga biome in the European North. Dyrenkov, S.A., [1978, p.53-58, rus] **34-2463**

Dynamics of spruce ecosystems in the southern taiga. Glazov, M.V., et al, [1978, p.70-73, rus] **34-2466**

Ecotypic differentiation in *Carex aquatilis* on ice-wedge polygons in the Alaskan coastal tundra. Shaver, G.R., et al, [1979, p.1025-1046, eng] **34-2496**

Growth rate of spruces related to the thickness of permafrost active layer near Inuvok, Northwestern Canada. Sakai, A., et al, [1979, p.p.19032, eng] **34-2874**

Guideways

Snow collection by possible high speed guidway sections. Ringer, T.R., et al, [1979, p.318-327, eng] **34-99**

Combatting ice on AIRTRANS and other guideways. Patton, R.J., et al, [1979, p.328-336, eng] **34-100**

All-weather protection for AGT guideways and stations. Stevens, R.D., et al, [1979, p.337-342, eng] 34-101
Controlling snow and ice on the Morgantown people mover system. Morgan, P.H., [1979, p.343-349, eng] 34-102

Gullies
Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] 34-1508
Gully formation in the Messoiakha River Basin due to economic development of the North. Sukhodrovskii, V.L., et al, [1979, p.23-34, rus] 34-1509
Pressing environmental protection problems in the Far East. Konovalenko, V.G., ed, [1978, 179p., rus] 34-2532
Intensity of gully formation in the intermontane troughs of southern Srednee Priamur'e. Miskina, L.V., [1978, p.123-132, rus] 34-2536
Ravine erosion forecasts for engineering purposes. Kosov, B.F., et al, [1979, p.59-67, rus] 34-2747
Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p. (Pertinent p.230-344), rus] 34-3600

Hail clouds
Corona discharge of wetted hailstones as a basic mechanism of lightning initiation. Diachuk, V.A., et al, [1979, p.60-63, rus] 34-1637
Correct formulation of problems on modeling physical processes and particle distribution in hail-storm clouds. Zhekamukhov, M.K., et al, [1979, p.3-13, rus] 34-2875

Hailstone growth
Corona discharge of wetted hailstones as a basic mechanism of lightning initiation. Diachuk, V.A., et al, [1979, p.60-63, rus] 34-1637
Correct formulation of problems on modeling physical processes and particle distribution in hail-storm clouds. Zhekamukhov, M.K., et al, [1979, p.3-13, rus] 34-2875

Hailstones
Field observations of the kinematics of hailstones. Matson, R., et al, [1979, 68p., eng] 34-786
Corona discharge of wetted hailstones as a basic mechanism of lightning initiation. Diachuk, V.A., et al, [1979, p.60-63, rus] 34-1637
Microphysics of clouds and precipitation. Pruppacher, H.R., et al, [1978, 714p., eng] 34-2515
Scattering and attenuation of electromagnetic radiation by hailstones with a logarithmically normal particle distribution function. Bibilashvili, N.Sh., ed, [1979, p.60-66, rus] 34-2877
Formation of hail nuclei. Tlisov, M.I., [1979, p.100-107, rus] 34-2878
Dynamics of hailstones. Zoltán, C., [1980, p.78-82, hun] 34-3617

Hammers
High-speed tube diesel hammer URB-500. Cherviakova, G.I., et al, [1979, p.25, rus] 34-589
Tractor mounted cable laying equipment. Kuz'menko, V.V., et al, [1979, p.22-23, rus] 34-1253

Handbooks
See: Manuals

Harbors
See: Ports

Hardening
See: Concrete hardening

Hardness
See: Ice hardness; Snow hardness

Haze
Arctic haze. Shaw, G.E., [1979, p.114-127, eng] 34-1310

Health
Alaska village demonstration projects: first generation of integrated utilities for remote communities. Reid, B.H., [1974, p.549-569, eng] 34-1489
Symposium on Human Settlements Planning and Development in the Arctic. [1978, c455p., eng] 34-1767
Alaska village demonstration projects. Reid, B.H., [1980, 52p., eng] 34-4078

Heat balance
Snowmelt computations for a high Arctic site. Heron, R., et al, [1978, p.162-172, eng] 34-40
Thermal equilibrium in the upper layer of the earth's crust. Pavlov, A.V., [1979, p.5-10, rus] 34-123
Arctic Ocean heat budget; report from SCOR Working Group 58. Aagaard, K., et al, [1979, 98p., eng] 34-722
Energy budget of a snow cover. McKay, D.C., [1979, p.125-134, eng] 34-1012
Energy balance and snowmelt in a deciduous forest. Hendrie, L.K., et al, [1979, p.211-221, eng] 34-1019
CO2-climate sensitivity study with a mathematical model of the global climate. Manabe, S., et al, [1979, p.491-493, eng] 34-1761
Possible duration of a mountain glacier surface with daily exposure to solar radiation. Cherkasov, P.A., et al, [1979, p.47-72, rus] 34-1975
International symposium on computation and forecasting of runoff from glaciers and glaciated areas. Chizhov, O.P., [1979, p.13-19, rus] 34-2175
Extent of glaciation in the Pamirs and factors affecting it. Rototaeva, O.V., [1979, p.33-41, rus] 34-2178
Plotting elevations of the alimentation and accumulation lines for Gissar-Alay glaciers. Rototaeva, O.V., [1979, p.42-51, rus] 34-2179
Heat exchange between ice cover and atmosphere in East Antarctica. Aver'ianov, V.G., [1979, p.91-96, rus] 34-2215
Mass and energy exchange between the ice sheet of Antarctica and the atmosphere. Aver'ianov, V.G., [1979, p.189-202, eng] 34-2374
Studies of radiative cooling at land basins in snowy season. Ishikawa, N., [1977, p.1-46, eng] 34-2427
Heat content distribution in the active layer of the Barents Sea in August. Moskal', T.N., [1979, p.109-116, rus] 34-3004
Melting and surface runoff from the Antarctic ice sheet. Klokov, V.D., [1979, 128p., rus] 34-3088
Mechanism of a delay in melting away of a snow cover in an area with low air temperature and deep snow (the Uryu Valley) in Hokkaido. Kojima, K., et al, [1979, p.93-111, jap] 34-3495
Heat balance of the Kozel'skiy glacier surface in Kamchatka Peninsula. Vinogradov, V.N., et al, [1979, p.182-187, rus] 34-3711
Influence of a phase transition of ice on the heat and mass balance of comets. Klinger, J., [1980, p.271-272, eng] 34-3721
Effect of developing a territory on the heat balance and the thermal and moisture regime of the ground in the northern part of Western Siberia. Moskalenko, N.G., et al, [1980, p.29-44, eng] 34-3830
Control of radiation-thermal balance, the basis of environmental protection in permafrost areas. Kudriavtsev, V.A., [1980, p.3-6, rus] 34-4116
See also: Glacier heat balance; Permafrost heat balance

Heat capacity
Thermal capacity of sea ice and its effect on ice cover melting in Arctic seas. Falko, L.I., [1979, p.211-213, rus] 34-2211
Enthalpy and heat capacity of liquid water and the ice polymorphs from a random network model. Sceats, M.G., et al, [1980, p.3248-3259, eng] 34-2727

Heat conductivity
See: Thermal conductivity

Heat flux
Variation of the turbulent exchange on a mountain glacier. Davidovich, N.V., et al, [1974, p.367-379, eng] 34-1206
Thermal properties of selected evacuated powder insulations at cryogenic temperatures. Knight, B.L., [1969, 322p., eng] 34-2069
Sublimation of a horizontal slab of dry ice: an analog of pool boiling on a flat plate. Dhir, V.K., [1980, p.380-382, eng] 34-4250
See also: Ice heat flux

Heat loss
Infrared thermography of buildings: 1977 Coast Guard survey. Marshall, S.J., [1979, 40p., eng] 34-138
Modular apartment buildings with "packet" type cells. Lazhintsev, V.I., [1972, p.33-42, rus] 34-176
Experimental study of the "packet" type apartment cells. Lazhintsev, V.I., et al, [1972, p.43-53, rus] 34-177
Present state of translucent enclosures in industrial buildings of Yakutia. Braman, N.V., et al, [1972, p.142-151, rus] 34-187
Economic effectiveness of using high thermal insulation windows in residential buildings of the North. Kuzema, I.G., et al, [1972, p.153-165, rus] 34-188
Microclimates of 9-story residential buildings in Noril'sk. Vas'kovskii, A.P., et al, [1979, p.12-13, rus] 34-242
Heat loss through open doors. Johnson, P., [1978, p.4-8, eng] 34-868
Windows with double and triple layers of glass. Aleksandrov, IU.P., et al, [1979, p.10-12, rus] 34-1752
Using climatic data in structural design. Kobysheva, N.V., et al, [1979, p.9-16, rus] 34-1816
Deterioration and protection of industrial structures. Gindoian, A.G., ed, [1976, 208p., rus] 34-2402
Heat transfer through joints in external enclosures of industrial buildings in the North. Butlitskii, A.E., et al, [1976, p.59-75, rus] 34-2403
Experimental determination of the thermal activity coefficient of floors. Gindoian, A.G., et al, [1976, p.108-124, rus] 34-2405
Catalog of temperature fields of standard enclosure joints. Part I, Residential buildings. Design manual. Ivashkova, V.K., et al, [1980, 111p., rus] 34-2937
Zero-energy house: bold, low-cost breakthrough that may revolutionize housing. Dallaire, G., [1980, p.47-59, eng] 34-3266
Laboratory studies of riming, and its relation to ice splinter production. Choularton, T.W., et al, [1980, p.367-374, eng] 34-3447
Physical, technical and functional aspects of building design for railroads. Kovrigin, S.D., ed, [1978, 202p., rus] 34-3910
Determining additional heat losses of buildings through light appertures in the Baykal Amur railroad area. Cheremisov, K.M., et al, [1978, p.105-110, rus] 34-3913
Experimental studies and determination of equivalent ambient air temperature for technical design of windows. Grigor'ev, P.IA., et al, [1978, p.111-115, rus] 34-3914
Thermotechnical qualities of external enclosures of Series-122 residential buildings. Efimova, M.N., [1978, p.122-127, rus] 34-3915
Selecting translucent enclosures of transport-associated buildings for severe climatic conditions. Godin, A.M., [1978, p.159-162, rus] 34-3919
Design of lightweight multilayered panels with polystyrene foam thermal insulation. Zhuk, I.P., et al, [1978, p.65-72., rus] 34-4017
Field inspection of thermal properties of 1605 AM/9 series houses with multilayer external walls. Bralnina, E.IU., [1969, p.9-15, rus] 34-4048

Heat measurement
See: Temperature measurement

Heat pipes
Application of heat pipes on the Trans-Alaska Pipeline. Heuer, C.E., [1979, 27p., eng] 34-139
Methods of studying and accounting for interactions between two ductless heat pipes laid in permafrost. Koshelev, A.A., [1979, p.85-90, rus] 34-199
Moisture-proof thermal insulation for ductless heat pipes. Skvortsov, A.A., [1979, p.21-24, rus] 34-327
Mathematical problem of selecting pipeline diameters for aircraft deicing systems. IAlovkin, B.D., et al, [1979, p.76-81, rus] 34-2023
Crossings of roads with heat pipes. Nagornaia, E.A., [1979, p.37-40, rus] 34-2125
Heat pipes as applied to thermal control of frozen ground. Vasil'ev, L.L., et al, [1979, p.511-520, eng] 34-2351
Use of heat pipes for freezing soil, Pt. 1. Vaaz, S.L., [1979, p.608, eng] 34-2416
Snow and ice removal from pavement using stored earth energy. Long, D.C., et al, [1980, 72p., eng] 34-4081

Heat recovery
Solid waste disposal in Alaska. Grundwaldt, J.J., et al, [1975, p.331-356, eng] 34-637
Waste heat recovery for heating purposes. Phetteplace, G. [1978, p.30-33, eng] 34-874

Heat sinks
Study of the thermal structure of the antarctic ice cap. Burdecki, F., [1967, p.47-69, eng] 34-3764

Heat sources
Geothermal heating of bridge decks. Cundy, V.A., et al, [1979, p.169-175, eng] 34-77
Electric-heat supply for the construction region encompassing the Boguchany hydroelectric plant. Ivanova, E.V., [1978, p.1084-1087, eng] 34-324
Thawing of ground under the influence of thermomechanical erosion. Khalikov, G.A., [1979, p.77-78, rus] 34-2935

Heat storage
Snow and ice accumulation around solar collector installations. O'Rourke, M.J., [1979, 69p., eng] 34-1647

Heat transfer
Snowmelt computations for a high Arctic site. Heron, R., et al, [1978, p.162-172, eng] 34-40
Convection in the ice crusts of satellites and its effect on surface relief. Golitsyn, G.S., [1979, p.466-468, eng] 34-44
Thermal equilibrium in the upper layer of the earth's crust. Pavlov, A.V., [1979, p.5-10, rus] 34-123
Solar and net radiation over snow. Petzold, D.E., [1974, 77p., eng] 34-132
Application of heat pipes on the Trans-Alaska Pipeline. Heuer, C.E., [1979, 27p., eng] 34-139
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] 34-213
Heat transfer between underground structures and surrounding frozen grounds. Kapitonova, T.A., et al, [1975, p.22-29, rus] 34-217
Evaluating the influence of natural conditions on temperature regime of permafrost surrounding mining excavations. Fedorov, F.M., [1975, p.54-61, rus] 34-222
Possibility of solving a problem of radiative heat transfer. Amosov, A.A., [1979, p.1341-1344, rus] 34-250
On the computation of heat transfer coefficients from energy-balance gradients on a glacier. Kuhn, M., [1979, p.263-271, eng] 34-541
Formation of ice ripples on the underside of river ice covers. Ashton, G.D., [1971, 157p., eng] 34-600
Hydrologic properties of subarctic organic soils. Kane, D.L., et al, [1978, 49p., eng] 34-627
Investigation of freezing of salt solutions in cells. Hayashi, Y., et al, [1979, p.459-463, eng] 34-647
Superposition method of determining temperature fields of ground beneath a single or a group of structures with complex shapes. Konovalov, A.A., [1976, p.22-41, rus] 34-703
Dynamic thermodynamic sea ice model. Hibler, W.D., III, [1979, p.815-846, eng] 34-741
Sea ice modeling: its testing with LANDSAT and potential use in FGGE. Hall, R.T., et al, [1976, p.104-109, eng] 34-817
Vertical profile of glacier wind (numerical experiment). Ni, A.A., et al, [1977, p.35-40, rus] 34-888
Energy mass fluxes at the snow surface in a prairie environment. Male, D.H., et al, [1979, p.101-124, eng] 34-1011
Energy budget of a snow cover. McKay, D.C., [1979, p.125-134, eng] 34-1012
Solar radiation model for a snow surface in mountainous terrain. Dozier, J., [1979, p.144-153, eng] 34-1014

Heat transfer *(cont.)*
Interactions between the atmospheric boundary layer and a snow surface. Halberstam, I.M., et al, [1979, p.154-166, eng] 34-1015
European hydrological system snow routine. Morris, E.M., et al, [1979, p.269-278, eng] 34-1023
Analysis of coupled heat and moisture flow in an unsaturated soil. O'Neill, K., [1979, p.304-309, eng] 34-1027
Is the soil frozen or not—an algorithm using weather records. Cary, J.W., et al, [1979, p.319-327, eng] 34-1029
Study of the vacuum-freezing high pressure ice-melting process. Cheng, C.Y., [1979, 70p., eng] 34-1142
Thermal drill for making large holes in sea ice. Francois, R.E., et al, [1975, p.303-310, eng] 34-1230
Soil freezing—physical study and mathematical models. Aguirre-Puente, J., et al, [1978, p.99-107, fre] 34-1261
Investigation of the two-phase, moving boundary system, with convection at the solid-liquid interface. Nansteel, M.W., [1979, 145p., eng] 34-1362
Experimental determination of melting rates of ice moving in sea water. Clifford, W.F., et al, [1979, 220p., eng] 34-1365
Freezing controlled by natural convection. Sparrow, E.M., et al, [1979, p.578-584, eng] 34-1498
Variational analysis of freezing or melting in a finite medium subject to radiation and convection. Yeh, L.T., et al, [1979, p.592-597, eng] 34-1499
Forced-convection heat transfer from irregular melting wavy boundaries. Hsu, K.-S., et al, [1979, p.598-602, eng] 34-1500
Experimental study of heat transfer in fluid thermopiles. Konovalov, A.A., et al, [1979, p.109-117, rus] 34-1544
Heat transfer problems applied to the theory of well drilling. Pudovkin, M.A., et al, [1979, 182p., rus] 34-1650
Thermal regime of elevated pipelines. Gubanov, B.A., et al, [1979, p.24, rus] 34-1711
Icing of an unheated non-rotating cylinder in liquid water droplet-ice crystal clouds. Lozowski, E.P., et al, [1979, 66p. + figures, eng] 34-1739
Instability of internal waves as a mechanism of heat transfer from Atlantic waters to the Arctic Basin. Alekseev, G.V., et al, [1979, p.118-125, eng] 34-1893
Computerized simulation of heat transfer in ground for improving information of geocryologic surveys. Tutkevich, A.A., [1979, p.43-52, rus] 34-1912
Rock thermophysics. Summaries of reports. [1973, 75p., rus] 34-1952
Influence of thermal regime variations on the state of wells drilled in permafrost. Grianov, G.S., [1973, p.21-22, rus] 34-1954
Synopsis—ice in estuaries and harbours. Carstens, T., [1979, p.1-30, eng] 34-1959
Dependence of Aktru glacier ablation on positive air temperature. Dushkin, M.A., et al, [1967, p.22-41, rus] 34-1990
Univariate model of the seasonal pycno-wedge and homogeneous layer in the Arctic Basin. Ponomarev, V.I., [1979, p.37-47, rus] 34-1997
Radiative melting of ice layer adhering to a vertical surface. Sedi, N., et al, [1979, p.137-144, eng] 34-2046
International symposium on computation and forecasting of runoff from glaciers and glaciated areas. Chizhov, O.F., [1979, p.13-19, rus] 34-2175
Studies of heat and mass transfer at the lower surface of the Ross Ice Shelf. Zotikov, I.A., et al, [1979, p.178, rus] 34-2201
Analysis of heat and mass exchange during thermal drilling. Kudriashov, B.B., et al, [1979, p.106-112, rus] 34-2217
Suppression of river ice by thermal effluents. Ashton, G.D., [1979, 23p., eng] 34-2283
Exact solution for freezing of humid porous half-space Mikhailov, M.D., [1979, p.305-313, eng] 34-2334
Thermal conductivity of soils and rocks. Johansen, Ö., [1979, p.407-420, eng] 34-2343
Heating of moist bodies. Srivastava, K.K., et al, [1979, p.439-445, eng] 34-2345
Integral balance approach for determination of heat transfer potential in porous bodies under different types of boundary conditions. Srivastava, K.K., et al, [1979, p.447-457, eng] 34-2346
Heating of solid of simple geometry when the surrounding temperature is a harmonic function of time. Srivastava, K.K., et al, [1979, p.459-466, eng] 34-2347
Influence of water transport and transfer of heat by freezing and defrosting on soil genesis. Makeev, O.M., et al, [1972, p.699-712, eng] 34-2380
Heat and moisture transfer in experimental wall panels with the (FSP) phenol-formaldehyde plastic thermal insulation. Alumiae, A.E., [1979, p.30-39, rus] 34-2382
Deterioration and protection of industrial structures. Gindoian, A.G., ed, [1976, 208p., rus] 34-2402
Experimental determination of the thermal activity coefficient of floors. Gindoian, A.G., et al, [1976, p.108-124, rus] 34-2405
Studies of radiative cooling at land basins in snowy season. Ishikawa, N., [1977, p.1-46, eng] 34-2427
Growth of ice in a saltwater drop falling in an organic phase. Bustany, S.T., et al, [1979, p.439-446, eng] 34-2428
Measurement of thermal conduction within a large fresh water ice block being towed in sea water. Clifford, W., et al, [1980, p.265-272, eng] 34-2448
Three examples of unsolved problems in antarctic radiation research. Kuhn, M., [1975, p.66-67, eng] 34-2454
Studying temperature fields produced by heat transfer between ground and gas and oil pipelines. Bronfenbrener, L.E., [1980, p.12-15, rus] 34-2641
Movement of freezing front inside pipelines after cessation of pumping. Novoselov, V.F., et al, [1979, p.67-79, rus] 34-2705
Heat and mass transfer during melting of perennially frozen rocks surrounding producing wells. Antipov, V.I., et al, [1979, p.47-51, rus] 34-2706
Charts of parameters of heat transfer between soil and atmosphere in winter. Are, A.L., [1979, p.36-46, rus] 34-2773
Calculating global radiation. Erdiakova, I.N., [1979, p.64-67, rus] 34-2883
Second order iterative approximation scheme for calculating dry snow characteristics. Trofimova, E.B., et al, [1979, p.88-97, rus] 34-2885
Geothermal parameters of the Seligdar apatite deposits. Deviatkin, V.N., et al, [1978, p.94-96, rus] 34-2925
Approximate solution of nonlinear Stefan problems. Danielian, IU.S., et al, [1979, p.79-82, rus] 34-2936
Heat content distribution in the active layer of the Barents Sea in August. Moskal', T.N., [1979, p.109-116, rus] 34-3004
Influence of water, salt and heat transfer on the dates of stable ice formation in the Kara Sea. Stepanov, S.I., [1979, p.121-125, rus] 34-3006
Heat and mass transfer in low temperature thermal insulation installations. Kaganer, M.G., [1979, 257p., rus] 34-3069
Mathematical model to correlate frost heave of pavements with laboratory predictions. Berg, R.L., et al, [1980, 49p., eng] 34-3200
Documentation for a two-level dynamic thermodynamic sea ice model. Hibler, W.D., III, [1980, 35p., eng] 34-3329
Time-dependent feedback system involving sea-ice extent, ocean temperature, and CO2. Saltzman, B., et al, [1980, p.93-118, eng] 34-3366
Effects of loading thermal and electrical resistance of cryogenic insulation materials. Mil'man, S.B., et al, [1980, p.982-985, eng] 34-3367
Mobile net technique for numerical solution of the equations of heat and moisture transfer in soils. Khimin, N.M., [1980, p.72-81, rus] 34-3461
Temperature perturbation in stable layer above a snow surface. Ishikawa, N., [1979, p.179-182, jap] 34-3504
Thermal interaction between gas line and frozen soils. Krivoshein, B.L., et al, [1980, p.1083-1088, eng] 34-3560
Self-consistent solutions of some problems of heat and mass transfer in a saturated porous medium. Verigin, N.N., et al, [1980, p.1089-1094, eng] 34-3561
Variations of heat content of deep Atlantic waters in the Arctic Basin over a period of years. Bulatov, L.V., et al, [1979, p.6-13, rus] 34-3583
Seasonal and annual fluctuations in Atlantic water and heat inflow into the Arctic Basin through the Fram Strait. Mandel', S.Z., [1979, p.24-29, rus] 34-3585
Heat transfer in Atlantic waters on the continental slope of the Laptev Sea. Beliakov, L.N., et al, [1979, p.30-36, rus] 34-3586
Thermal state of waters in the northern Greenland Sea in February 1972 (from data obtained along the Barentsburg-ice edge cross-section). IAnes, A.V., [1979, p.37-42, rus] 34-3587
Relation between heat content and water transport in the Kara Sea. Stepanov S.I., [1979, p.55-58, rus] 34-3589
Determining optimal insitivity of external walls to heat transfer. Odel'skiĭ, E.Kh., et al, [1980, p.91-95, rus] 34-3595
Optimal Stefan type problem. IUriĭ, A.D., [1980, p.1317-1321, rus] 34-3683
Study of the thermal structure of the antarctic ice cap. Burdecki, F., [1967, p.47-69, eng] 34-3764
Creep of ice, geothermal heat flow, and Roosevelt Island, Antarctica. Thomas, R.H., et al, [1980, p.47-60, eng] 34-3797
Thermal physics of permafrost terrain. Pavlov, A.V., [1980, p.46-61, eng] 34-3831
Geophysical aspects of the development of permafrost. Kudriavtsev, V.A., et al, [1980, p.63-79, eng] 34-3832
Conditions and geothermal consequences of the moisture exchange between the lithosphere and the atmosphere in permafrost regions. Shvetsov, P.F., [1980, p.109-117, eng] 34-3835
Experimental investigation of heat and moisture transfer during sublimation-desublimation of water in fine-grained soils. Ershov, E.D., et al, [1980, p.143-158, eng] 34-3838
Heat transfer of a pipeline placed in an embankment. Furman, A.V., et al, [1979, p.116-119, rus] 34-3865
Experimental studies and determination of equivalent ambient air temperature for technical design of windows. Grigor'ev, P.IA., et al, [1978, p.111-115, rus] 34-3914
Field inspection and testing of thermal properties of enclosures of a 12-story residential building. Bukharova, N.V., [1969, p.16-28, rus] 34-4049
Numerical solution of a parabolic free boundary problem via Newton's method. Baumeister, J., et al, [1980, p.99-109, eng] 34-4066
Interferometric observation of natural convection during freezing from a vertical flat plate. Buren, P.D., et al, [1980, p.375-378, eng] 34-4248
Heat transfer analysis for solidification of rounds. Tien, R.H., [1980, p.378-379, eng] 34-4249
See also: Permafrost heat transfer

Heat transmission
How to compute complex interconnected district heating systems. Wehr, R., et al, [1980, 13p., eng] 34-3403

Heating
Physical alternatives to chemicals for highway deicing. Blackburn, R.R., et al, [1979, p.176-184, eng] 34-78
Microclimates of 9-story residential buildings in Noril'sk. Vas'kovskiĭ, A.P., et al, [1979, p.12-13, rus] 34-242
Solar energy resource potential in Alaska. Seifert, R.D., et al, [1978, 79p., eng] 34-628
Adfreeze bonding between sea ice and offshore structures: a critical examination. Sackinger, W.M., [1977, p.13-18, eng] 34-696
Evaluation of automotive engine preheaters as a technique to control cold start carbon monoxide emissions—a final report. Leonard, L.E., et al, [1978, 76p., eng] 34-842
Waste heat recovery for heating purposes. Phetteplace, G., [1978, p.30-33, eng] 34-874
Augmentation of earth heating for purposes of roadway deicing—Final report. Pravda, M.F., et al, [1978, 193p., eng] 34-1602
Formation of edge dislocation dipoles in ice single crystals by heat treatment. Oguro, M., et al, [1979, p.1897-1907, eng] 34-1613
Energy efficiency through ice storage. Stubblefield, R.R., [1979, p.43-47, eng] 34-1644
Impact of CO2 on cooling of snow and water surfaces. Choudhury, B., et al, [1979, p.668-671, eng] 34-1840
Infrared radiators for heating frozen cargo. Lepnev, M.I., et al, [1979, 94p., rus] 34-1932
Roasting loess soils to a depth of 25 m. Litvinov, I.M., et al, [1979, p.124-128, eng] 34-2017
New technique of heating frozen cargo. Dmitriev, G.G., et al, [1979, p.20, rus] 34-2095
Heating of moist bodies. Srivastava, K.K., et al, [1979, p.439-445, eng] 34-2345
Numerical sumulation of a horizontal porous layer heated from below. Caltagirone, J.P., [1979, p.467-479, fre] 34-2348
Cold weather concreting. [1975, 9p., eng] 34-2425
Field trial of prototype "Cyclone switch heater" on CP rail switch at Sturgeon Falls, Ontario. Coveney, D.B., [1979, 15p. + 10 figs., eng] 34-2477
Alaska foundation hot-wired to prevent frost movement. [1980, p.20, eng] 34-2789
Role of shear heating in the dynamics of large ice masses. Yuen, D.A., et al, [1979, p.195-212, eng] 34-2827
AGT guideway and station technology. Vol.8. Weather protection concepts. Stevens, R.D., et al, [1979, 237p., eng] 34-2964
Working with concrete (technology and organization). Balitskiĭ, V.S., et al, [1980, 350p., eng] 34-3190
Determination of the parameters of the method of thermal stabilization of soils and its economic effectiveness. IUrdanov, A.P., [1980, p.272-278, eng] 34-3372
How to compute complex interconnected district heating systems. Wehr, R., et al, [1980, 13p., eng] 34-3403
Deicing a satellite communication antenna. Hanamoto, B., et al, [1980, 14p., eng] 34-3451
Optimizing the heating of cargo frozen to walls of railroad cars. Portnov, I.G., [1978, p.53-64, rus] 34-3909
Erection of multistory brick buildings in Noril'sk. Shkliarov, N., et al, [1980, p.32-35, rus] 34-3931
Snow and ice removal from pavement using stored earth energy. Long, D.C., et al, [1980, 72p., eng] 34-4081

Helicopters
Laboratory experiments on icing of rotating blades. Ackley, S.F., et al, [1979, p.85-92, eng] 34-65
Requirements for structural elements of sectional buildings determined by the conditions of their transportation and assembly by helicopter. Bogdanov, V.A., [1972, p.108-120, rus] 34-184
Preliminary tests of bird-scare devices on the Beaufort Sea coast. Sharp, P.L., [1978, 43p., eng] 34-489
Logistics operations APOA Beaufort Sea projects 1970. Smith, J.G., [1970, 75p., eng] 34-596
Helicopter icing handling qualities. Griffith, W.E., II, et al, [1974, 9p., eng] 34-734

Methods of calculating helicopter equipment for construction and installation work. Bogdanov, V.A., [1977, p.101-111, rus] 34-992

Glaciology of mountain regions. Suslov, V.F., ed, [1979, 160p., rus] 34-1120

Helicopter gamma-survey of snow cover in West Tien Shan mountains. Getker, M.I., et al, [1979, p.3-14, rus] 34-1121

Reorganization of snow surveying network points in the Central Asian mountains. Getker, M.I., et al, [1979, p.15-23, rus] 34-1122

Increasing the use of helicopters in construction. Chernitskiĭ, A.V., [1979, p.5-6, rus] 34-1249

Rotor ice protection systems. Shepherd, D.R., [1976, 19p., eng] 34-1297

Product improvement test (cold weather/snow ingestion) of the OH-58C helicopter. Niemiec, S.M., et al, [1979, 71p., eng] 34-1346

Icing tests of a UH-1H helicopter with an electrothermal ice protection system under simulated and natural icing conditions. Cotton, R.H., [1979, 81p., eng] 34-1570

Transportation, a key issue in the development of productive forces in the North. Nekrasov, N.N., [1979, p.5-13, rus] 34-1620

Using aircraft in cargo transportation. Lapin, M.S., [1979, p.92-98, rus] 34-1629

Trends in transportation development in northern Canada. Cherkasov, A.I., [1979, p.118-130, rus] 34-1634

Icing of an unheated non-rotating cylinder in liquid water droplet-ice crystal clouds. Lozowski, E.P., et al, [1979, 66p. + figures, eng] 34-1739

Backscatter measurements of sea ice with a helicopter-borne scatterometer. Patel, J.S., et al, [1979, 120p., eng] 34-1965

Using balloons and dirigibles in construction. Spasskiĭ, D.S., [1979, p.29, rus] 34-2094

Ice adhesion tests on coatings subjected to rain erosion. Minsk, L.D., [1980, 14p., eng] 34-3484

Radar sounding of Spitsbergen glaciers from helicopters. Macheret, IU.IA., et al, [1979, p.109-131, rus] 34-3701

Helicopter icing spray system. Belte, D., [1980, 13p., eng] 34-3726

Effective use of helicopter cranes. Chernitskiĭ, A., [1980, p.30-32, rus] 34-3929

Heterogeneous nucleation

Microphysics of clouds and precipitation. Pruppacher, H.R., et al, [1978, 714p., eng] 34-2515

Water and ice nucleation sites from ion implantation of silicon. Stinebaugh, W.H., et al, [1980, p.1469-1473, eng] 34-3622

Heterogeneous nucleation of ice on surfaces of liquids. Rosinski, J., [1980, p.1829-1832, eng] 34-3922

High pressure ice

Melting curve of ice VII Mishima, O., et al, [1978, p.4417-4418, eng] 34-371

Thermal expansion anomaly of ice VI related to the order-disorder transition. Mishima, O., et al, [1979, p.2037-2038, eng] 34-372

Raman studies of ice VI using a diamond anvil cell. Abebe, M., et al, [1979, p.4167-4169, eng] 34-1291

Model for the ice VII-ice VIII transition. Haus, J.W., et al, [1977, p.2148-2153, eng] 34-1603

Enthalpy and heat capacity of liquid water and the ice polymorphs from a random network model. Sceats, M.G., et al, [1980, p.3248-3259, eng] 34-2727

Identification of ice VI on the Hugoniot of ice I(h). Gaffney, E.S., et al, [1980, p.407-409, eng] 34-3780

Water revisited. Stillinger, F.H., [1980, p.451-457, eng] 34-3854

The Haus-Tanaka model for the Ice VII-Ice VIII phase transition. Ho-Ting-Hun, J., et al, [1980, p.107-113, eng] 34-4076

High pressure tests

Interpretation of ice strength from in-situ indentation tests. Morgenstern, N.R., et al, [1971, 26p. + figs., eng] 34-514

Compression tests on fresh water ice. Nuttall, J.B., et al, [1972, 47p., eng] 34-515

Installation for the measurement of the shear stress of solids at low temperatures and high pressures. Zharov, A.A., et al, [1979, p.266-267, eng] 34-983

Highways

See: Roads

Himalaya Mountains

Control of snow and ice on road and communication facilities in the Himalayas. Malik, S.C.L., et al, [1979, p.129-134, eng] 34-72

Snow and road pavements in western Himalayas. Soin, J.S., et al, [1979, p.135-140, eng] 34-73

Snow clearance—west Himalayan road—some problems. Soin, J.S., [1979, p.141-150, eng] 34-74

Collected papers on sciences of atmosphere and hydrosphere, Volume 15. [1977, var.p., eng] 34-895

History

Baseline study of historic ice conditions in the Beaufort Sea, Chukchi Sea, and Bering Strait. Hunt, W.R., et al, [1979, p.122-534, eng] 34-16

Inuit natural resource use in southeast Baffin region. [1978, var.p., eng] 34-496

New phase in the study of the glacial cover in Antarctica. Kotliakov, V.M., [1974, p.123-172, eng] 34-1195

Ice islands of the Arctic Alaskan Air Command's Arctic experience. Wise, M.L., [1979, 118p., eng] 34-1315

Hoarfrost

Present state of translucent enclosures in industrial buildings of Yakutia. Braman, N.V., et al, [1972, p.142-151, rus] 34-187

Meteorological conditions for the formation of glaze-hoarfrost deposits in the lower 500-meter layer of the atmosphere. Degtiarev, A.D., et al, [1979, p.27-34, rus] 34-1086

Mass and density of ice-hoarfrost deposits under different physiographic conditions. Zakharov, A.G., et al, [1979, p.74-80, rus] 34-1820

Length of the ice-hoarfrost accretion period. Guliaev, IU.N., [1979, p.81-85, rus] 34-1821

International conference on meteorology of the Carpathian Mountains. Proceedings. [1979, 415p., rus] 34-2299

Hoarfrost-ice deposits in West Carpathian Uplands. Ostrožlík, M., [1979, p.363-371, rus] 34-2305

New apparatus to produce fresh snow. Nakamura, H., [1979, p.229-237, jap] 34-2540

Possible mechanism of ice splinter production during riming. Choularton, T.W., et al, [1978, p.791-792, eng] 34-2677

Laboratory studies of riming, and its relation to ice splinter production. Choularton, T.W., et al, [1980, p.367-374, eng] 34-3447

See also: Depth hoar

Homogeneous nucleation

Microphysics of clouds and precipitation. Pruppacher, H.R., et al, [1978, 714p., eng] 34-2515

Hot oil lines

Design and construction of the Alyeska pipeline. Liguori, A., et al, [1979, p.151-157, eng] 34-1685

Thermal regime of elevated pipelines. Gubanov, B.A., et al, [1979, p.24, rus] 34-1711

Pipelines and permafrost: physical geography and development in the circumpolar north. Williams, P.J., [1979, 98p., eng] 34-2498

Construction-related oil spills along Trans-Alaska Pipeline. Kavanagh, N., et al, [1977, 16p., eng] 34-2860

Russian winter pipeline construction techniques. Sanders, W.M., [1980, p.59-66, 71, eng] 34-3086

Pipeline for container transport of viscous oils and petroleum products. Ibragimov, D.B., et al, [1980, p.26-29, rus] 34-3820

Hot springs

Hot mineral waters in the Baykal Amur railroad area and possibilities of their effective utilization. Volkova, V.P., et al, [1980, p.154-163, rus] 34-4132

Houses

Environmental quality conditions in Fairbanks, Alaska, 1972. Pearson, R.W., et al, [1976, 63p. + appends., eng] 34-619

Zero-energy house: bold, low-cost breakthrough that may revolutionize housing. Dallaire, G., [1980, p.47-59, eng] 34-3266

Management of forest resources. Timofeev, N.V., [1979, 144p., rus] 34-4011

Winter testing of thermal properties of plastic mobile houses. Avdeev, G.K., [1969, p.89-92, rus] 34-4051

Hovercraft

See: Air cushion vehicles

Human factors

Vegetational successions and other ecosystemic changes in two Arctic tundras. Peterson, K.M., [1978, 305p., eng] 34-1

Inuit natural resource use in southeast Baffin region. [1978, var.p., eng] 34-496

Environmental quality conditions in Fairbanks, Alaska, 1972. Pearson, R.W., et al, [1976, 63p. + appends., eng] 34-619

Human-induced thermokarst at old drill sites in northern Alaska. Lawson, D.E., et al, [1978, p.16-23, eng] 34-872

Interaction between natural and technical systems (railroad track operation taken as an example). Kaiuchkin, N.P., [1979, p.33-46, rus] 34-1101

Human activities effect on the Pinus sylvestris (Pinaceae) increment in the Bratsk Region. Lalrand, N.I., et al, [1979, p.1187-1195, rus] 34-1448

Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] 34-1508

Landscapes affected by industrial activities in permafrost areas of the northern Tyumen' region. Grigor'ev, N.F., [1979, p.35-44, rus] 34-1510

Studying the revegetation of tundra landscapes affected by industrial activities in the northern Yenisey River area. Skriabin, S.Z., [1979, p.51-61, rus] 34-1512

Hydrothermal variations in permafrost landscapes. Anisimova, N.P., [1979, p.148-152, rus] 34-1521

Thermal conductivity of natural and disturbed soils in northwestern Siberia. Mandarov, A.A., et al, [1979, p.153-157, rus] 34-1522

Report from the working group on noncorrosive methods of ice control. [1979, p.41-55, eng] 34-1585

Forest protection in the northern Lake Baykal Basin. Tkachenko, A.I., [1973, p.93-98, rus] 34-1872

Problems in experimental landscape science. Krauklis, A.A., [1979, 232p., rus] 34-2103

Scientific conference of geographers from Siberia and the Far East. Geography and practice. Proceedings [1978, 253p., rus] 34-2246

Regional types of mining-affected lands in East Siberia and trends in their restoration. Savel'eva, I.L., et al, [1978, p.98-102, rus] 34-2247

Pressing environmental protection problems in the Far East. Konovalenko, V.G., ed, [1978, 179p., rus] 34-2532

Some aspects of environmental protection in the Far Eastern USSR Konovalenko, V.G., [1978, p.3-6, rus] 34-2533

Protection and use of biologic resources in the Baykal Amur railroad construction zone. Man'ko, IU.I., [1978, p.7-9, rus] 34-2534

Mapping the use of restockable natural resources for geographic forecasting. Vorob'eva, T.A., et al, [1978, p.132-139, rus] 34-2537

Interpreting meso- and microclimatic peculiarities of large cities for urban planning (Novosibirsk taken as an example). Pivkin, V.M., [1979, p.48-54, rus] 34-2620

Exogenic relief forming process in the cryolithozone. Sukhodrovskiĭ, V.L., [1979, 280p., rus] 34-2684

Influence of human factors on phytoplankton and water quality of the Angara River. Kozhova, O.M., et al, [1980, p.61-66, rus] 34-2707

Denudation of the eastern Baykal Amur railroad area caused by human activities. Sokol'skiĭ, A.M., [1979, p.159-164, rus] 34-2756

Ecosystems of swamps in the USSR. Boch, M.S., et al, [1979, 187p., rus] 34-2886

Studying the structure of forest tundra landscapes as indicators of engineering and geological conditions for economic development in West Siberia. Moskalenko, N.G., et al, [1979, p.88-100, rus] 34-3227

Terrain-forming processes in the permafrost region and the principles of their prevention and limitation in territories under development. Grave, N.A., et al, [1980, p.11-23, eng] 34-3234

Forecast of changes in geocryological conditions during economic development of the permafrost region. Kudriavtsev, V.A., et al, [1980, p.57-69, eng] 34-3237

Geocryological survey methods. Kudriavtsev, V.A., et al, [1980, p.71-84, eng] 34-3238

Forecasting changes in engineering-geocryological conditions induced by economic development of the north taiga zone in West Siberia. Grechishchev, S.E., et al, [1980, p.12-19, rus] 34-3279

Influence of economic development on changes in environmental conditions of Arctic regions. Neizvestnov, IA.V., et al, [1980, p.100-102, rus] 34-3294

Seismic characteristics of loess in relation to geologic surroundings and the impact of industrial activities. Kriger, N.I., et al, [1980, 103p., rus] 34-3763

Effect of developing a territory on the heat balance and the thermal and moisture regime of the ground in the northern part of Western Siberia. Moskalenko, N.G., et al, [1980, p.29-44, eng] 34-3830

Consequences of using new machines in the north taiga pine forests. Obydennikov, V.I., [1979, p.18-21, rus] 34-3859

Biological importance of polynyas in the Canadian Arctic. Stirling, I., [1980, p.303-315, eng] 34-3869

Indices used in evaluating the stability of permafrost areas to variations in natural conditions and consequences of human activities in permafrost areas. Garagulia, L.S., et al, [1980, p.53-58, rus] 34-4121

Problems in rational utilization of natural resources and environmental control in North Siberia. Cherskiĭ, N.V., ed, [1979, 158p., rus] 34-4164

Environmental protection in North Siberia. Gerasimov, I.P., [1979, p.122-138, rus] 34-4174

Effect of human activities on the vegetational cover of Taymyr. Shchelkunova, R.P., [1979, p.139-152, rus] 34-4175

Symposium on biological problems of the North, 8th, Apatity, 1979. Abstracts of the papers. [1979, 177p., rus] 34-4213

Economic development and environmental protection in the Far North. Kriuchkov, V.V., et al, [1979, p.3-4, rus] 34-4214

Changes in Subarctic and boreal highlands vegetation due to human activities. Gorchakovskiĭ, P.L., [1979, p.12-13, rus] 34-4217

Changes in ecosystems of northern Kola Peninsula due to human activities. Kriuchkov, V.V., et al, [1979, p.39-42, rus] 34-4224

Human factors engineering

Ecological problems of protecting taiga forests. Stadnitskiĭ, G.V., et al, [1979, p.5-13, rus] 34-522

Hydrologic problems of environmental changes in West Siberia. Malik, L.K., [1978, 180p., rus] 34-845

Human influence on forest landscapes (Kan-Biryusa Plain). Rubtsov, N.I., et al, [1978, 128p., rus] 34-885

Soil formation in landscapes affected by industrial activities. Trofimov, S.S., ed, [1979, 294p., rus] 34-946

Systems approach to studying soil formation processes in landscapes affected by industrial activities. Trofimov, S.S., et al, [1979, p.3-19, rus] 34-947

Human factors engineering *(cont.)*
Young soils formed in placer tailings in the southern taiga of the Central Urals. Nakariakov, A.V., et al, [1979, p.58-106, rus] 34-949
Productivity of soils in meadow biogeocenoses of recultivated dredging areas in the Central Urals. Nakariakov, A.V., et al, [1979, p.106-123, rus] 34-950
Initial soil formation processes developing on rock tailings of the Lipovskoe nickel mine. Makhonina, G.I., [1979, p.123-140, rus] 34-951
Aerial reconnaissance of landscapes affected by industrial activities. Solntseva, N.P., et al, [1979, p.258-278, rus] 34-956
Environmental protection in economic development of permafrost areas. Grave, N.A., ed, [1980, 140p., rus] 34-3277
Forecasting changes in geocryologic conditions during economic development of permafrost areas. Kudriavtsev, V.A., [1980, p.5-12, rus] 34-3278
Studying changes in permafrost conditions due to construction in the Ust'-Ilimsk area. Maksimova, L.N., et al, [1980, p.19-25, rus] 34-3280
Some technical solutions for environmental protection of construction and mining sites in permafrost areas. El'chaninov, E.A., et al, [1980, p.55-60, rus] 34-3286
Environmental protection problems on pipeline construction sites. Spiridonov, V.V., et al, [1980, p.60-66, rus] 34-3287
Influence of cities on natural and climatic factors under polar conditions. Gorbacheva, V.M., [1980, p.94-99, rus] 34-3293
Protecting rivers in the Kolyma Basin from pollution with solid suspensions by electrochemical coagulation treatment of mining waste waters. Novozhilov, V.N., et al, [1980, p.102-107, rus] 34-3295
Cryogenic hydrogeochemical changes in alluvial deposits due to economic development of Central Yakutia. Anisimova, N.P., [1980, p.107-111, rus] 34-3296
Restoration of natural landscapes disturbed by human activities. Liverovskiĭ, IU.A., et al, [1980, p.111-115, rus] 34-3297
Root systems of sodding plants and their role in the restoration of vegetational cover disturbed by economic activities. Vital', A.D., [1980, p.128-133, rus] 34-3300
Correlation between physiological-biochemical indices of woody plants and hydrothermal conditions of media. Zhiboedov, P.M., et al, [1976, p.106-113, rus] 34-3614
Formulating mathematical models for studying the effects of human activity on the atmosphere in industrial regions. Marchuk, G.I., et al, [1979, p.28-37, rus] 34-4167

Humidity
Certain characteristics of the atmospheric surface layer above snow. Elagina, L.G., et al, [1979, p.652-655, eng] 34-121
Microclimates of 9-story residential buildings in Noril'sk. Vas'kovskiĭ, A.P., et al, [1979, p.12-13, rus] 34-242
Influence of severe climatic conditions on the amount and variation of moisture in walls of buildings in Noril'sk. Vas'kovskiĭ, A.P., [1979, p.116-121, rus] 34-853
Microclimate of the Vilyuy reservoir in the area adjacent to the dam. Olovin, B.A., [1979, p.124-129, rus] 34-1519
Allowing for humidity when designing external brick walls. Shishkin, A.A., et al, [1970, p.120-138, rus] 34-1835
Regime of high relative humidity of air in the Arctic. Zav'ialova, I.N., [1979, p.44-56, eng] 34-1869
Icing of a cable. Poots, G., et al, [1976, p.203-217, eng] 34-1969

Hummocks
Ice drift in the presence of ice hummocks. Gorbunov, IU.A., et al, [1979, 15p., eng] 34-133
Equilibrium model for hummocks (nonsorted circles), Garry Island, Northwest Territories. Mackay, J.R., [1979, p.165-167, eng] 34-287
Earth hummocks of the Canadian Arctic and Subarctic. Tarnocai, C., et al, [1978, p.581-594, eng] 34-659
Nature and classification of palsa bogs. Novikov, S.M., et al, [1979, p.3-13, rus] 34-826
Microrelief identification criteria of palsa bogs. Novikov, S.M., et al, [1979, p.14-26, rus] 34-827
Studying water level regime of palsa bogs. Moskvin, IU.P., [1979, p.27-37, rus] 34-828
Calculating water level of palsa bogs from meteorological data. Novikov, S.M., et al, [1979, p.38-49, rus] 34-829
Growth and decay of palsas and peat plateaus in the Macmillan Pass—Tsichu River area, Northwest Territories, Canada. Kershaw, G.P., et al, [1979, p.1362-1373, eng] 34-1453
Determination of winter accretion of ice in leads with consideration of hummocking. Alekseev, G.V., et al, [1979, p.158-163, eng] 34-1896
Construction of roadbeds on hummocky peats. Plotskiĭ, A.S., et al, [1979, p.3-4, rus] 34-2856

Hydrates
Heat conductivity of frozen water solutions of gases. Grolsman, A.G., et al, [1975, p.103-107, rus] 34-228
Reliability of the Yakutsk gas distribution system. L'vova, Z.M., [1975, p.114-119, rus] 34-231

Hydraulic fill
Hydraulic dredging in freezing weather. Popov, IU.A., et al, [1979, 184p., rus] 34-580
Use of hydraulic fills under rigorous climatic conditions. Shkundin, B.M., et al, [1979, p.227-230, eng] 34-1391
See also: Earth fills

Hydraulic jets
Determination of local permeabilities by a freezing process, in connection with predicting the success of a filter regeneration method. Schieff, H.O., [1979, p.473-478, ger] 34-2724
Use of high-pressure water jets in construction. Petrosian, L.R., [1980, p.279-283, eng] 34-3373
Ice removal from concrete by high pressure water jets. Kimberley, H.J., et al, [1977, 28p. + 5 figs., eng] 34-4195

Hydraulic structures
Cement-silicate solutions used in building grout curtains under complex hydrogeological conditions. Shugalei, R.T., et al, [1979, p.74-77, rus] 34-198
Hydraulic system for extremely cold environments. Bridwell, J.W., et al, [1977, 4 col., eng] 34-266
Boguchany hydroelectric plant. Blond, E.A., et al, [1978, p.1071-1077, eng] 34-323
Approximate determination of stress relaxation coefficients in thermal creep problems. Tsybin, A.M., et al, [1978, p.73-76, rus] 34-470
In the forefront of scientific and technical progress. Fedorov, D.I., [1979, p.51-54, rus] 34-521
Hydraulic dredging in freezing weather. Popov, IU.A., et al, [1979, 184p., rus] 34-580
Report of the Joint U.S.-Canadian Northern Civil Engineering Research Workshop. Carlson, R.F., ed, [1978, 72p., eng] 34-771
Using frozen ground in earth dam construction. Kuznetsov, G.I., et al, [1979, p.92-96, rus] 34-806
Experimental studies of the thermal regime of permafrost slopes of a stream valley at their junction with a filter dam. Belan, V.I., [1979, p.97-100, rus] 34-852
Studying stability of the algorithm of a mixed variational-pivotal method in designing arch dams for temperature effects. Verkhovykh, A.A., [1979, p.113-116, rus] 34-859
Geography of Siberian resource development. Kosmachev, K.P., ed, [1979, 107p., rus] 34-1099
New features in economic development of the Angara River area near Krasnoyarsk in relation to the construction of the Boguchansk hydroelectric power plant. Medvedkova, E.A., [1979, p.19-32, rus] 34-1100
Deformation of stabilized, ice-saturated lumpy soil. Baliasnikov, G.G., [1979, p.41-42, rus] 34-1154
Determining heat consumption during year round pouring of earth into water. Liberman, A.I., et al, [1979, p.43-44, rus] 34-1155
Allowing for seismic effects when designing reinforced concrete culverts beneath embankments. Abduzhabarov, A.Kh., [1979, p.43-44, rus] 34-1256
Use of hydraulic fills under rigorous climatic conditions. Shkundin, B.M., et al, [1979, p.227-230, eng] 34-1391
Improving the organization of concrete work performed during construction of the Sayano-Sushenskoe hydroelectric plant. Zinchenko, N.A., et al, [1979, p.114-120, eng] 34-1392
Pipelines in adverse environments; a state of the art, Vol.2. [1979, p.395-548, eng] 34-1398
Engineering innovation for Arctic conditions. Brown, R.J., [1979, p.418-429, eng] 34-1399
Consolidation of a thin cutoff wall of clay soils of liquid consistency. Chernyĭ, I.P., et al, [1979, p.462-465, eng] 34-1435
Mathematical modeling of thermal stresses in concrete structures on rock foundations. Rukavishnikova, T.N., et al, [1979, p.56-66, rus] 34-1525
Calculating quasi-stationary temperature and seepage fields in massive hydraulic structures and foundations by the finite element and finite difference methods. Pisarev, G.N., et al, [1979, p.67-74, rus] 34-1526
Increasing the reliability of waterproof asphalt facings for concrete dams. Davidenko, V.M., et al, [1979, p.23-29, rus] 34-1528
Pressure consolidation of lumpy frozen soil dumped into water. Pekhovich, A.I., et al, [1979, p.92-98, rus] 34-1530
Soil consolidation under difficult engineering-geological conditions. Baushev, V.K., et al, [1979, p.111-116, rus] 34-1532
Frozen earth dam on polygonal vein ice. Kuznetsov, A.L., [1979, p.198-201, rus] 34-1554
Hydrogeologic studies for drainage and water supply engineering. Artsev, A.I., [1979, 285p., rus] 34-1653
General and applied climatology. Kobysheva, N.V., ed, [1979, 104p., rus] 34-1814
Building code requirements concerning ice loads on hydraulic structures. Kukhtina, L.P., [1979, p.17-20, rus] 34-1817
Impervious plastic screens on butyl-rubber base. Sergeev, B.I., et al, [1979, p.20-23, rus] 34-1946
Service life of plastic linings for waterways. Gvenetadze, A.R., [1979, p.23-25, rus] 34-1947
Using peat in embankment construction. Shupilov, IA.M., [1979, p.18-21, rus] 34-1948
Earth structures on peaty silts under pressure head conditions. Tkach, V.N., et al, [1979, p.23-26, rus] 34-1950
Effect of permafrost on evolution of river beds and hydraulic structures built on river beds and river banks. Levashov, A.A., et al, [1977, p.12-17, rus] 34-2436
Preparing the earth for filling the watertight parts of dams in the Far North. Rasskazov, L.N., et al, [1980, p.62-65, rus] 34-2572
Significance of the Kislogubsk tidal power plant for hydraulic construction and power engineering. Bernshtein, L.B., et al, [1980, p.64-67, rus] 34-2578
Building new types of concrete dams under northern conditions. Kudoiarov, L.I., [1980, p.67-69, rus] 34-2579
Hydroelectric power generation in Siberia and the Far East. Neporozhnii, P.S., [1979, 151p., rus] 34-2600
Ice strength determination allowing for climatic factors. Kukhtina, L.P., et al, [1980, p.41-42, rus] 34-2615
Construction of underwater crossings of main pipelines. [1970, 36p., rus] 34-2866
Aerial photographic surveys of ice cover for hydraulic engineering. Losev, S.M., et al, [1979, p.140-150, rus] 34-3009
Icebreaker experience as a guide to sea ice forces on structures. Gerwick, B.C., Jr., et al, [1979, p.622-637, eng] 34-3031
Report on Soviet glaciological studies in 1975-1978. [1979, p.5-34, rus] 34-3116
Calculating nonstationary temperature and moisture regimes of washed-up earth structures in a thawed state. Popov, IU.A., et al, [1980, p.94-101, rus] 34-3167
Ice loads on structures of the Baykal Amur railroad. Korzhavin, K.N., ed, [1977, 121p., rus] 34-3168
Forecasting ice jam conditions in front of Baykal Amur railroad structures. Trolnin, V.K., [1977, p.18-24, rus] 34-3170
Experience of using an ice protection dam in the lower course of the Yenisey River. Samochkin, V.M., et al, [1977, p.51-55, rus] 34-3174
Pressure of naled ice on culvert walls in areas with severe climatic conditions. Ivchenko, A.B., [1977, p.91-100, rus] 34-3177
Characteristics of the construction of frozen dams in Western Yakutia. Biianov, G.F., et al, [1980, p.213-226, eng] 34-3247
Modern trends in design, construction and operation of land reclamation systems under Siberian conditions. Abstracts of papers presented at a seminar. [1978, 292p., rus] 34-3353
Deformation of hydraulic structures of land reclamation systems in Central Yakutia. Seliverstov, A.P., [1978, p.7-10, rus] 34-3354
All-Union scientific-technical conference on hydrotechnical construction in regions of permafrost and rigorous climate (CHC-78). Kudoiarov, I.I., et al, [1980, p.724-726, eng] 34-3375
Passage of ice during construction of the Sayano-Shushenskoe hydroelectric station. Koren'kov, V.A., [1980, p.777-781, eng] 34-3376
Dynamics of the Baykal shore processes on the Tyya-Nizhneangarsk section. Bodenko, V.M., et al, [1980, 6p., eng] 34-3400
Undersea pipelines and cables in polar waters. Mellor, M., [1978, 34p., eng] 34-3448
Calculating design thickness of layered ice. Afanas'ev, V.P., [1979, p.88-92, rus] 34-3882
Strength of ice cover during its breakup period on rivers of the Baykal Amur railroad area. Zabelina, E.F., [1979, p.93-101, rus] 34-3883
Improving the procedure for installation of antiseepage curtains by the "wall-in-the-ground" method. Burov, IU.E., et al, [1980, p.304-309, eng] 34-3932
Geocryological investigations in West Yakutia. Mel'nikov, P.I., ed, [1980, 113p., rus] 34-4033
Development of ground ice in hydraulic earth structures. Olovin, B.A., [1980, p.80-87, rus] 34-4042
Determining position and form of zero isotherms in ground thawing under pressure seepage beneath regulators. Vasil'eva, I.A., et al, [1980, p.95-102, rus] 34-4044
Calculating temperature field of block-by-block upbuilt concrete structures using Laplace numerical conversion technique. Zubkov, V.I., [1980, p.92-97, rus] 34-4140
Construction and operation of hydraulic structures in West Yakutia. Mel'nikov, P.I., ed, [1979, 88p., rus] 34-4149
History of geocryological studies in West Yakutia. Mel'nikov, P.I., [1979, p.3-6, rus] 34-4150
In fruitful friendship with science. Biianov, G.F., [1979, p.7-10, rus] 34-4151
Construction of dams from local materials. Biianov, G.F., [1979, p.11-20, rus] 34-4152
Thermal regime variations in the Vilyuy hydroelectric power plant dam during operation. Medvedev, B.A., et al, [1979, p.20-26, rus] 34-4153
Impervious frozen ground screens in earth dams of the "frozen" type. Makarov, V.I., [1979, p.26-51, rus] 34-4154
Design and operation of tailing ponds. Maul', V.K., [1979, p.62-65, rus] 34-4156
Physical hydraulic model study of an ice-covered river. Johnson, R.P., et al, [1980, p.431-440, eng] 34-4161
Calculating geometric characteristics of ice cover. Zubakin, G.K., et al, [1980, p.35-40, rus] 34-4181
See also: Docks; Locks (waterways); Offshore structures; Piers; Sluices (hydraulic engineering)

Hydraulics

Hydraulic characteristics of snow lysimeters. Wankiewicz, A., [1978, p.105-116, eng] 34-36

Study of sub-seabottom permafrost in the Beaufort Sea Mackenzie Delta by hydraulic drilling methods MacAulay, H.A., et al, [1978, c.45 leaves, eng] 34-781

Method for the determination of the hydraulic conductivity of snow. Denoth, A., et al, [1978, p.209-213, ger] 34-1271

Investigation of rates of water movement through frozen soil. Williams, P.J., et al, [1979, 36p. + 4 append., eng] 34-1582

Hydraulic conductivity in frozen soils. Burt, T.P., et al, [1976, p.349-360, eng] 34-2113

Local friction laws for glaciers: a critical review and new openings. Lliboutry, L., [1979, p.67-95, eng] 34-2224

Measurement of hydraulic conductivity of unsaturated Tomakomai silt. Fukuda, M., [1979, p.193-195, jap] 34-3507

Arctic line pressure testing alternatives. Marks, A., [1980, p.126-132, eng] 34-3951

Hydrocarbons

Environmental assessment of the Alaskan continental shelf lower Cook Inlet interim synthesis report. [1979, 241p., eng] 34-1338

Weathering estimations for spilled oil from *Bouchard No.65*. MacLeod, W.D., et al, [1978, p.217-228, eng] 34-1369

Fate and effect of Bunker C oil spilled by the USNS Potomac in Mellville Bay, Greenland, 1977. Petersen, H.K., [1978, p.331-343, eng] 34-1370

Geologic framework, hydrocarbon potential, environmental conditions, and anticipated technology for exploration and development of the Beaufort Shelf north of Alaska. Grantz, A., et al, [1980, 42p., eng] 34-2721

Hydrodynamics

Power from glaciers: the hydropower potential of Greenland's glacial waters. Partl, R., [1977, 54p., eng] 34-653

Problems of the Arctic and the Antarctic, collection of articles, Vol 45, 1974. Treshnikov, A.F., ed, [1979, 171p., eng] 34-1884

Lower limit of application of hydrodynamic model of ice drift Khelsin, D.E., et al, [1979, p.154-157, eng] 34-1894

Problems of the Arctic and the Antarctic, collection of articles, Vol.46, 1975. Treshnikov, A.F., ed, [1979, 166p., eng] 34-1897

Environmental assessment of the Alaskan continental shelf, Vol.8, Transport. [1979, 588p., eng] 34-3052

Thermohydrodynamic model of an ice sheet. Verbitskii, M.IA., et al, [1980, p.61-67, eng] 34-3798

Winter floods in Leningrad and their study by empirical and hydrodynamic methods. Drabkin, V.V., et al, [1978, p.246-249, eng] 34-4061

Hydrogen bonds

Absolute rate constant of the reaction OH + H202 to HO2 + H2O from 245 to 423K. Keyser, L.F., [1980, p.1659-1663, eng] 34-3651

Water revisited. Stillinger, F.H., [1980, p.451-457, eng] 34-3854

Investigating ultraviolet photoelectron spectroscopy of ice. Abbati, I., et al, [1979, p.511-514, eng] 34-3994

Hydrogeology

Study of the theoretical and practical determination of hydrogeological parameters in glacial outwash sands by surface geoelectrics. Urish, D.W., [1978, 336p., eng] 34-604

Hydrogeologic studies for drainage and water supply engineering. Artsev, A.I., [1979, 285p., rus] 34-1653

Permafrost-hydrogeological regionalization of eastern Siberia. Mel'nikov, P.I., et al, [1979, p.19-30, rus] 34-1680

Types of geocryologic forecasting. Maksimova, L.N., [1979, p.63-72, rus] 34-1915

Chart of geocryologic and hydrogeologic regionalization of East Siberia. Ivanova, L.D., et al, [1978, p.137-145, rus] 34-2931

Permafrost-hydrogeological zoning of eastern Siberia. Mel'nikov, P.I., et al, [1980, p.355-378, eng] 34-3257

Hydrography

Current observations in the channels of the Canadian Arctic Archipelago adjacent to Bathurst Island. Greisman, P., et al, [1978, 127p., eng] 34-562

Baykal Amur railroad and economic development of the Transbaikal region. Nedeshev, A.A., et al, [1979, 158p., rus] 34-2483

Alaskan shelf hydrographic, sedimentary and geochemical environment. Sharma, G.D., [1979, 498p., eng] 34-2514

Hydrology

Physical hydrology; New Zealand experience. Murray, D.L., ed, [1979, 229p., eng] 34-3

Environmental program Mackenzie delta, N.W.T. [1974, 9 parts, eng] 34-420

Effects of seasonability and variability of streamflow on nearshore coastal areas. Carlson, R.F., et al, [1977, c.200p., eng] 34-623

Hydrologic interpretation of basin morphology. Fox, J.D., [1978, 14p., eng] 34-645

Report of the Joint U.S.-Canadian Northern Civil Engineering Research Workshop Carlson, R.F., ed, [1978, 72p., eng] 34-771

Review of the operational experience with the SSARR model Rockwood, D.M., [1979, p.387-396, eng] 34-1036

Use of integrated hydrological models with distributed snow cover description for hydrological forecasting in Norway Saelthun, N.R., [1979, p.406-413, eng] 34-1038

Applications of the SCS basin simulation model. Woodward, D.E., et al, [1979, p.427-432, eng] 34-1040

Ice-dammed lakes: a critical review of their nature and behaviour Blachut, S.P., et al, [1976, 90p., eng] 34-1607

Possibility of long-range forecasting of oceanographic conditions of the Kara Sea IAnes, A.V., [1979, p.16-21, eng] 34-1898

Rock temperatures in the Kamchatka Peninsula. Zamolotchikova, S.A., et al, [1979, p.102-118, rus] 34-1918

Hydrogeological surveying in high mountains Sokolovskii, L.G., et al, [1979, p.43-46, rus] 34-2126

Susitna River basin resource bibliography; supplement 1979. Lockhart, D., comp., [1979, 244p., eng] 34-2482

Use of the water resources of Lake Baykal and of the Angara River and an estimate of the change in their quality and elements of the hydrologic regime. Ivanov, N.I., [1977, p.307-309, eng] 34-3020

Hydroclimatic influence of forests Protopopov, V.V., ed, [1979, 144p., rus] 34-3768

Results of scientific investigations of the Murmansk branch of the Arctic and Antarctic Scientific Research Institute during 1972-1976 Terziev, F.S., [1980, p.6-12, rus] 34-4177

More precise definitions and additions to the "Instructions for determination of the SN 435-72 design hydrologic characteristics" (Discussion of Construction Norms). Kagan, B.IA., [1979, p.1223-122o, rus] 34-4253

Hydrometeors

See: Precipitation (meteorology)

Hydrothermal processes

Soils along the Baykal Amur railroad. Kovalev, R.V., ed, [1979, 304p., rus] 34-433

Hydrothermal regime of cryogenic sod-taiga soils (Yeravninskaya Basin, Buryat ASSR). Dugarov, V.I., [1979, p.274-282, rus] 34-463

Role of permafrost in the hydrothermal regime of soils. Savvinov, D.D., [1979, p.282-287, rus] 34-464

Symmetry as a methodological basis for the analysis of snow structure and metamorphism. Kolomyts, E.G., [1979, p.3-26, rus] 34-606

Energy required for the formation of liquid spherical layers on globular nuclei and thermodynamic equilibrium conditions of ice-water-vapor systems. Badakhov, Kh.I., [1979, p.27 34, rus] 34-607

Results of studying thermal regime of snow cover. Bolov, V.R., et al, [1979, p.35-48, rus] 34-608

Hygroscopic nuclei

Condensation-freezing mechanism at weak supersaturation in respect to ice. Montmory, R., [1980, p.71-83, fre] 34-4246

Hygroscopic water

Bound water content in fine grained rocks. Ananian, A.A., et al, [1979, p.193-196, rus] 34-1927

Investigation of the structure and properties of bound water. Savel'ev, B.A., [1980, p.97-107, eng] 34-3834

Hypothermia

See: Cold exposure

Ice

Heat conductivity of frozen water solutions of gases. Grolsman, A.G., et al, [1975, p.103-107, rus] 34-228

Report of the Joint U.S.-Canadian Northern Civil Engineering Research Workshop. Carlson, R.F., ed, [1978, 72p., eng] 34-771

Research on snow and ice. Martinelli, M., Jr., et al, [1979, p.1253-1297, eng] 34-1464

Antarctica; commission reports, vol.18. [1979, 215p., rus] 34-2214

APOA bibliography. [1980, 74p., eng] 34-3092

Dynamics of snow and ice masses. Colbeck, S.C., ed, [1980, 468p., eng] 34-3655

See also: Amorphous ice; Artificial ice; Bottom ice; Buried ice; Capillary ice; Colored ice; Deuterium oxide ice; Doped ice; Dry ice (trademark); Extraterrestrial ice; Fast ice; Floating ice; Frazil ice; Glacier ice; Glaze; Ground ice; Grounded ice; High pressure ice; Interstitial ice; Lake ice; Land ice; Naleds; Pack ice; Reinforced ice; River ice; Salt ice; Sea ice; Young ice

Ice accretion

Numerical simulation of atmospheric ice accretion. Ackley, S.F., et al, [1979, p.44-52, eng] 34-57

Preliminary assessment of an ice accretion system. Tattelman, P., [1979, p.53-56, eng] 34-58

Laboratory experiments on icing of rotating blades. Ackley, S.F., et al, [1979, p.85-92, eng] 34-65

Crystalline structure of ice developing by accretion of supercooled water droplets on a single wire and growth process of rime on a square board placed in the air flow containing supercooled droplets and snow flakes Abe, M., et al, [1979, p.93-94, eng] 34-66

Countermeasures against snow accretion and icing on radomes Suzuki, M., et al, [1979, p.303-307, eng] 34-96

Combatting ice on AIRTRANS and other guideways Patton, R.J., et al, [1979, p.328-336, eng] 34-100

Numerical simulation of the annual cycle of sea ice in the Arctic and Antarctic Parkinson, C.L., [1977, 191p., eng] 34-409

Weather, waves and icing in the Beaufort Sea Berry, M.O., et al, [1975, 5 parts, eng] 34-506

Climatic chamber tests of a surface ice accretion measurement system. Tattelman, P., [1979, 50p., eng] 34-1300

Further icing experiments on an unheated non-rotating cylinder Stallabrass, J.R., et al, [1979, 57 leaves, eng] 34-1506

Snow and ice accumulation around solar collector installations O'Rourke, M.J., [1979, 69p., eng] 34-1647

Icing of an unheated non-rotating cylinder in liquid water droplet-ice crystal clouds Lozowski, E.P., et al, [1979, 66p. + figures, eng] 34-1739

General and applied climatology Kobysheva, N.V., ed, [1979, 104p., rus] 34-1814

Mass and density of ice-hoarfrost deposits under different physiographic conditions Zakharov, A.G., et al, [1979, p.74-80, rus] 34-1820

Length of the ice-hoarfrost accretion period Guliaev, IU.N., [1979, p.81-85, rus] 34-1821

Regionalization of the USSR according to icing. Rudneva, A.V., [1979, p.86-91, rus] 34-1822

Determination of winter accretion of ice in leads with consideration of hummocking. Alekseev, G.V., et al, [1979, p.158-163, eng] 34-1896

Icing of a cable Poots, G., et al, [1976, p.203-217, eng] 34-1969

Univariate model of the seasonal pycno-wedge and homogeneous layer in the Arctic Basin Ponomarev, V.I., [1979, p.37-47, rus] 34-1997

Aerodynamic resistance of iced power lines. Khokhlov, V.A., [1978, p.82-86, rus] 34-2104

Studies of heat and mass transfer at the lower surface of the Ross Ice Shelf. Zotikov, I.A., et al, [1979, p.178, rus] 34-2201

Glaze-wind forces on power lines in Central Asia. Leukhina, G.N., [1979, p.67-72, rus] 34-2413

Mass balance of the Ward Hunt Ice Rise and Ice Shelf an 18 year record Serson, H.V., [1979, 14p., eng] 34-2431

Ice accretion studies under simulated shipboard icing conditions. Rubin, E.H., [1969, 55p., eng] 34-2604

Especially dangerous icings in the Crimean mountains Koshenko, A.M., [1977, p.3-12, rus] 34-2890

Calculating sea ice salinity. Smetannikova, A.V., et al, [1979, p.117-120, rus] 34-3005

Ice accretion beneath snow cover Raspopin, G.A., et al, [1977, p.101-111, rus] 34-3178

Preliminary study of ice grown by droplet accretion using water-insoluble particles as tracer. Prodi, F., et al, [1980, p.284-289, eng] 34-3202

Ship icing. Aksiutin, L.R., [1979, 127p., rus] 34-3667

Bundling of timber sections on ice. Gushkalov, P.A., [1980, p.12-14, rus] 34-3857

See also: Icing rate

Ice acoustics

Ultrasonic velocity investigations of crystal anisotropy in deep ice cores from Antarctica. Kohnen, H., et al, [1979, p.4865-4874, eng] 34-410

Study of ambient noise levels in the marginal-sea-ice zone east of Greenland. Peters, K.W., [1979, 162p., eng] 34-1048

Multiple surface scattering from the ice covered Arctic Ocean. Beilis, A., et al, [1979, 52p., eng] 34-1170

Scale model ultrasonic study of Arctic ice. Part 2. Himberger, D.E., et al, [1979, 64p., eng] 34-2371

Micromechanism of ice deformation under load. Zaretskii, IU.K., et al, [1976, p.200-210, rus] 34-3208

Acoustic backscattering from uniform Arctic sea ice. Garrison, G.R., et al, [1975, p.34-38, eng] 34-3432

Arctic hydroacoustics. Diachok, O., [1980, p.185-207, eng] 34-3630

Ice adhesion

Adhesion of ice to concrete surfaces preliminary results Ashworth, T., et al, [1979, p.23-29, eng] 34-54

Adhesive strength of contaminated ice. Yano, K., [1979, p.30-34, eng] 34-55

Icephobic coatings for highway pavements. Cook, J.C., [1979, p.106-115, eng] 34-69

Physical alternatives to chemicals for highway deicing. Blackburn, R.R., et al, [1979, p.176-184, eng] 34-78

Mathematical model to describe the behavior of a moving ice field encountering a conical structure. Kim, J.K., et al, [1973, 2 vols., eng] 34-294

Ice adhesion study. [1973, 88p., eng] 34-295

Adfreeze bonding between sea ice and offshore structures: a critical examination. Sackinger, W.M., [1977, p.13-18, eng] 34-696

Ice adhesion *(cont.)*
Investigation: of the basic forces involved in the adhesion of ice to highway surfaces. Ashworth, T., et al, [1979, 109p., eng] 34-2166
Friction of ice. Tushima, K., [1979, p.245-251, jap] 34-2169
Ice-release coating for disconnect switches. Mundon, J.L., [1980, 24p., eng] 34-3085
Ice adhesion tests on coatings subjected to rain erosion. Minsk, L.D., [1980, 14p., eng] 34-3484
Experimental studies on snow accretion at subzero temperatures. Mizuno, Y., et al, [1979, p.1[illegible]-32, jap] 34-3488

Ice age
See: Pleistocene

Ice age theory
Winters of the world: Earth under ice ages. John, B.S., ed, [1979, 256p., eng] 34-2559
Little Ice Age: Northern Hemisphere average observations and model calculations. Robock, A., [1979, p.1402-1404, eng] 34-3648

Ice air interface
Ice conditions as an index of recent trends of climatic cooling on the lower reaches of the Yenisei. Antonov, V.S., [1979, p.98-105, eng] 34-1902
Dependence of Aktru glacier ablation on positive air temperature. Dushkin, M.A., et al, [1967, p.22-41, rus] 34-1990
Sublimation and condensation at the ice sheet surface of Mizuho Station, Antarctica. Fujii, Y., [1979, p.51-63, eng] 34-2150
Moisture balance in the system Antarctic ice sheet surface-atmosphere. Aver'ianov, V.G., [1979, p.209-211, rus] 34-2210
Heat exchange between ice cover and atmosphere in East Antarctica. Aver'ianov, V.G., [1979, p.91-96, rus] 34-2215
Mass and energy exchange between the ice sheet of Antarctica and the atmosphere. Aver'ianov, V.G., [1979, p.189-202, eng] 34-2374
Meteorology and climatology of the seasonal sea ice zone. Barry, R.G., [1980, p.133-156, eng] 34-3628
Polar atmosphere-ice-ocean processes: a review of polar problems in climate research. [1980, p.525-543, eng] 34-3633

Ice bearing capacity
See: Ice cover strength

Ice booms
Copeland cut test ice boom design criteria and data analysis, winter, 1974-75; Final report. Uzuner, M.S., [1975, 2 vols., eng] 34-1799

Ice bottom surface
Formation of ice ripples on the underside of river ice covers. Ashton, G.D., [1971, 157p., eng] 34-600
Investigation of multi-year pressure ridges and shore pile-up. Kovacs, A., et al, [1975, 45p., eng] 34-774
Computation of backwater curves under ice covers. Michel, B., [1979, 24 leaves, eng] 34-1580
Physical oceanography from the Arctic ice pack: Project AIDJEX STD programs. Amos, A.J., [1975, 17p., eng] 34-1731
Scale model ultrasonic study of Arctic ice. Part 2. Himberger, D.E., et al, [1979, 64p., eng] 34-2371
Investigation of bottom mass-balance rates by electrical resistivity soundings on the Ross Ice Shelf, Antarctica. Shabtaie, S., et al, [1979, p.331-343, eng] 34-2836
Feasibility of surface detection of oil under ice. Gill, R., [1979, 82p., eng] 34-3011
Acoustic backscattering from uniform Arctic sea ice. Garrison, G.R., et al, [1975, p.34-38, eng] 34-3432

Ice breaking
LNG transport in Parry Channel: possible environmental hazards. Smiley, B.D., et al, [1979, 47p., eng] 34-165
Noise accompanying the breakup of ice by the hull of an icebreaker. Bogorodskii, P.V., et al, [1979, p.73-74, eng] 34-194
Proceedings. [1977, 179p., eng] 34-204
Progress report on air cushion technology in Canada 1975/76. Fowler, H.S., [1977, p.7-9, eng] 34-205
Continuing advances with air cushion icebreaking. Ball, M.A., [1977, p.105-132, eng] 34-208
High-speed method of air cushion icebreaking. Robertson, B.W., [1977, p.133-140, eng] 34-209
Economic and social aspects of icebreaking on the St. Lawrence seaway. Hall, T.N., [1977, p.141-146, eng] 34-210
Beaufort Sea exploratory drilling system: review and recommendations. [1971, var. p., eng] 34-573
Economic analysis of an Arctic icebreaking tanker transportation system: nuclear vs. fossil. Porter, T.J., [1977, 102p., eng] 34-725
Ice breaking anti soil erosion plough. Shikula, N.K., et al, [1974, 2 col., rus] 34-1217
Oceanographic research ship capabilities in ice. Voelker, R.P., et al, [1975, p.663-667, eng] 34-1233
Development of icebreakers and icebreaking methods; library search of Russian and European literature (Supplement). Dvorak, G.J., [1974, 3 vols., rus] 34-1737
Load-bearing capacity of ice cover and determination of breaking strength. Serikov, M.I., [1979, p.152-156, eng] 34-1904
Navigating under ice conditions. Levanov, B., [1979, p.5-6, rus] 34-2118
Arctic marine technology: a review of ship resistance in ice. Peirce, T.H., [1979, p.219-235, eng] 34-2360
Winter operation of water navigation objects. Ivanov, L.V., [1978, 211p., rus] 34-2686
Breaking the ice with COTRA. Pallister, A.E., [1979, p.15-29, eng] 34-3438
Evaluating ice breaking qualities of air cushion ships. Simonov, IU.A., et al, [1979, p.105-110, rus] 34-3471
Studying noise and vibration on icebreakers of the "Kapitan Sorokin" type. Zinchenko, V.I., et al, [1979, p.51-68, rus] 34-3475
USCGC Glacier cruise report: Deep Freeze 80. [1980, 106p., eng] 34-3509
USCGC *Polar Sea* cruise report: Deep Freeze 80. [1980, 96p., eng] 34-3665
Dynamic ice forces on an inclined structure. Frederking, R., [1980, p.104-116, eng] 34-3736

Ice breakup
Spring break-up observations at proposed polar gas pipeline crossing sites of Keewatin rivers. Grey, B.J., [1978, 22p., eng] 34-917
Monitoring and mapping sea-ice breakup and freezeup of Arctic Canada from satellite imagery. Dey, B., et al, [1979, p.229-242, eng] 34-1280
Weather and spring breakup. Nibler, G.J., [1979, p.70-78, eng] 34-1307
Glaciological work in connection with lake breakouts at the Gruben Glacier, town of Saas Balen, Wallis, Switzerland. Röthlisberger, H., [1979, p.233-256, ger] 34-1327
Calving wave during the breakup of a flooded glacier tongue. Vischer, D.L., [1979, p.315-329, ger] 34-1331
Freeze-up and break-up dates of water bodies in Canada. Allen, W.T.R., et al, [1971, 144p., eng] 34-1504
Lake Champlain ice formation and ice free dates and predictions from meteorological indicators. Bates, R.E., et al, [1979, 21p., eng] 34-1745
Rupture of an ice mound near Cape Dorset, N.W.T. Frederking, R.M.W., [1979, p.604-609, eng] 34-2047
Catalog of spring and fall ice jamming on USSR rivers. Vol. 1. The European USSR. Sokolov, A.A., ed, [1976, 260p., rus] 34-2112
Ice action in the lacustrine environment: a review with particular reference to subarctic Quebec, Canada. Dionne, J.-C., [1979, p.185-212, eng] 34-2503
Determining river ice frequency from the tree record. Egginton, P.A., [1980, p.265-270, eng] 34-2989
Winter ice jams on the Gunnison River. Burgi, P.H., [1979, 30p., eng] 34-3030
Forecasting ice jam conditions in front of Baykal Amur railroad structures. Trolnin, V.K., [1977, p.18-24, rus] 34-3170
Experience of using an ice protection dam in the lower course of the Yenisey River. Samochkin, V.M., et al, [1977, p.51-55, rus] 34-3174
Studying the mechanism of ice floe entrainment into submerged openings. Tsilikin, V.F., [1978, p.98-102, rus] 34-3351
Forecasting ice formation at the Kolyma River bay-mouth bar. Furmanov, O.M., [1979, p.130-132, rus] 34-3537
Ice conditions of rivers in the West Siberian taiga zone. Martynov, B.D., [1978, p.63-74, rus] 34-3610
Ice characteristics in the seasonal sea ice zone. Wadhams, P., [1980, p.37-92, eng] 34-3626
Freshwater ice growth, motion, and decay. Ashton, G.D., [1980, p.261-304, eng] 34-3660
Ice forces on the Yukon River bridge—1978 breakup. Johnson, P.R., et al, [1979, 40p., eng] 34-3725
Strength of ice cover during its breakup period on rivers of the Baykal Amur railroad area. Zabelina, E.F., [1979, p.93-101, rus] 34-3883
Use of ice jam typification from aircraft observation data in forecasting maximum stages in the Lena River. Rudnev, A.S., [1978, p.53-56, eng] 34-3964
Summary of Great Lakes weather and ice conditions, winter 1977-78. Assel, R.A., et al, [1979, 123p., eng] 34-4075
Break-up of the Yukon River at the Haul Road Bridge: 1979. Stephens, C.A., et al, [1979, 22p. + Figs., eng] 34-4193
Breakup of streams in the Canadian high Arctic. Woo, M., [1979, p.95-107, eng] 34-4208

Ice bridges
See: Ice crossings

Ice caps
See: Ice sheets

Ice caves
Ice caves and permafrost zones in southwest Alberta. Harris, S.A., [1979, p.61-70, eng] 34-2032

Ice composition
Depositional history of artificial radionuclides in the Ross Ice Shelf, Antarctica. Koide, M., et al, [1979, p.205-223, eng] 34-48
Glacier flow; simple mathematical models related to the gas content of glaciers. Berner, W., [1979, p.57-70, ger] 34-362
Offshore permafrost, southern Beaufort Sea. Mackay, J.R., [1971, 18p., eng] 34-599
Optical classification of natural ice. Bogorodskii, V.V., et al, [1979, p.341-347, rus] 34-882
Mt. Logan field report 1975. Holdsworth, G., [1976, 21p., eng] 34-918
Hydrogeochemical investigations of the BAM zone. Lomonosov, I.S., [1977, p.87-94, rus] 34-996
Strain features at the base of an ice-fall in Switzerland. Tison, J.L., [1978, p.191-199, ger] 34-1269
Weathering estimations for spilled oil from *Bouchard No.65*. MacLeod, W.D., et al, [1978, p.217-228, eng] 34-1369
Isotopic analysis of subglacial concretions of the Laurentide ice sheet and oxygen-18 content of the ice. Hillaire-Marcel, C., et al, [1979, p.1494-1498, fre] 34-1455
Plutonium in glaciers. [1979, p.1419A-1422A, eng] 34-1601
Ice-sheet glaciology. Drewry, D., [1979, p.313-328, eng] 34-1881
Proceedings of the Seminar III on Dry Valley Drilling Project, 1978. Nagata, T., ed, [1979, 245p., eng] 34-2285
View on the formation of saline waters in the Dry Valleys. Torii, T., et al, [1979, p.22-33, eng] 34-2286
Considerations on the origin and properties of the antarctic aerosol. Shaw, G.E., [1979, p.1983-1998, eng] 34-2372
Shallow core snow chemistry of Athabsca Glacier, Alberta. Butler, D., et al, [1980, p.278-281, eng] 34-2667
Chemical composition of injection ice. Anisimova, N.P., et al, [1978, p.125-137, rus] 34-2930
Role of stable isotopes in snow and ice studies. Gordienko, F.G., [1979, p.286-295, rus] 34-3716
Chemical composition of snow and ice of the highest Pamir glaciers. Diurgerov, M.B., et al, [1980, p.67-71, rus] 34-3902
Rock glaciers in Dagestan mountains (East Caucasus). Kozhevnikov, A.V., et al, [1980, p.14-26, rus] 34-3903
Critical survey of the application of borehole logging techniques to the study of sea ice. Laidley, T.E., [1980, 45p., eng] 34-4160

Ice conditions
Baseline study of historic ice conditions in the Beaufort Sea, Chukchi Sea, and Bering Strait. Hunt, W.R., et al, [1979, p.122-534, eng] 34-16
Remote estimation of the properties of sea ice, Beaufort Sea field trip report—March 1979. Rossiter, J.R., et al, [1979, 35p., eng] 34-19
Ice conditions on the Chesapeake Bay as observed from Landsat during the winter of 1977. Foster, J., et al, [1978, p.89-104, eng] 34-35
Requirements for the La Crete ferry—an A.C.V. proposal. Rogers, A.R., [1977, p.66-73, eng] 34-207
Yukon ferry operation. Ireland, J.E., [1977, p.176-179, eng] 34-211
Method and apparatus for conducting subaqueous operations in ice conditions. Pease, F.T., et al, [1978, 10 col., eng] 34-281
Ice and meteorological observations in the Davis Strait during April, May and June 1977 for Imperial Oil Limited. [1977, var. p., eng] 34-310
Natural conditions and resources of northern seas. Zhevnovatyi, V.T., ed, [1977, 119p., rus] 34-356
Boundaries of ice and iceberg distribution in the North Atlantic Ocean. Kogan, B.A., et al, [1977, p.74-82, rus] 34-357
Using the "Toros" side-looking radar in studying ice drift in the southeastern Barents Sea. Zubakin, G.K., et al, [1977, p.83-99, rus] 34-358
Calculating basic components of ice balance in the Denmark Strait. Antropova, L.V., et al, [1977, p.90-107, rus] 34-359
Arctic environmental observations M/V Arctic Explorer. [1974, 37p. + logs, eng] 34-423
Davis Strait ice and oceanographic observations, Winter 1976-77. [1977, 96p. + append., figs., and tables, eng] 34-427
Ice climatology of the Beaufort Sea. Markham, W.E., [1975, 87p., eng] 34-507
Eastern Arctic area 15- and 30-day ice forecasting guide. Mitchell, P.A., [1979, 259p., eng] 34-509
Arctic drilling barge study. [1971, var. p., eng] 34-557
Beaufort Sea summer ice study. Nolta, K.G., et al, [1970, c55p., eng] 34-558
Environmental conditions in Baffin Bay and Davis Strait. [1972, 144p., eng] 34-577
Average spring, summer, fall and winter iceberg density distribution along the Labrador Coast. Gustajtis, K.A., et al, [1977, 4 maps., eng] 34-727
Satellite ice surveillance studies in the Arctic in relationship to the general circulation. Haupt, I., et al, [1976, p.179-187, eng] 34-820
Current climatic changes and their impact on the ice regime of the Arctic seas. Zakharov, V.F., [1978, p.115-119, eng] 34-857
Report of the International Ice Patrol services in the North Atlantic Ocean, season of 1977. Knutson, K.N., et al, [1978, 44p. + append., eng] 34-941
Effect of varying low level wind fields on the opening and closing of the ice cover in the western Weddell Sea. Kyle, T.H., [1974, 91p., eng] 34-944

Climatic and synoptic study of the Weddell Sea region during the austral fall months. Komro, F.G., [1978, 46p., eng] 34-1090

Use of NOAA environmental satellites to remotely sense ocean phenomena. Koffler, R., [1975, p.835-839, eng] 34-1236

Icebreaker probes to Lake Melville, Labrador, in 1972. Bradford, J.D., [1979, 40p., eng] 34-1316

Some sea ice observations at Herschel Island in mid winter 1973. Irwin, G.J., [1974, 16p., eng] 34-1351

Snow and pack ice indices. Kukla, G., et al, [1979, p.9-14, eng] 34-1408

Ground control and interpretation of satellite imagery in Antarctica. Lutsenko, E.I., [1978, p.164-166, eng] 34-1415

Exploration island design. Prodanovic, A., [1979, 13p. + 25 slides, eng] 34-1504

Recent-year-to-year variations in seasonal temperatures and sea ice conditions in the eastern Canadian Arctic. Jacobs, J.D., et al, [1979, p.345-354, eng] 34-1617

Report of the International Ice Patrol Service in the North Atlantic Ocean. Season of 1978. [1979, 39p., eng] 34-1646

Sea ice off the Icelandic coasts October 1970-September 1971. [1979, 47p., ice] 34-1699

Statistical study of passage into Beaufort Sea via Point Barrow. Wilson, S.R.G., [1977, 108p., eng] 34-1763

Temperature regime of the antarctic fast ice. Nazintsev, Iu.L., [1979, p.63-68, rus] 34-1829

Choice of algorithms for numerical determination of size distribution and compactness of ice floes. Khelsin, D.E., [1979, p.109-117, eng] 34-1892

Instability of internal waves as a mechanism of heat transfer from Atlantic waters to the Arctic Basin. Alekseev, G.V., et al, [1979, p.118-125, eng] 34-1893

Problems of the Arctic and the Antarctic, collection of articles, Vol.46, 1975. Treshnikov, A.F., ed, [1979, 166p., eng] 34-1897

Ice conditions as an index of recent trends of climatic cooling on the lower reaches of the Yenisei. Antonov, V.S., [1979, p.98-105, eng] 34-1902

Importance of full scale testing in ice for designing icebreaking ships. Mäkinen, E., [1977, p.7-16, eng] 34-1934

Sea ice. Part 2: ice distribution and forecast services, North American Arctic waters. Wittmann, W., et al, [1973, p.343-355, eng] 34-1961

Sea ice. Part 3: ice distribution and forecast services, Eurasian waters. Wittmann, W., et al, [1974, p.219-229, eng] 34-1962

Univariate model of the seasonal pycno-wedge and homogeneous layer in the Arctic Basin. Ponomarev, V.I., [1979, p.37-47, rus] 34-1997

Modeling annual variations in ice conditions of the Arctic Basin. Baranov, G.I., et al, [1979, p.48-56, rus] 34-1998

Short range numerical forecasts of ice processes. Maslovskiĭ, M.I., [1979, p.57-62, rus] 34-1999

Asymmetric dynamics of ice cover. Ivchenko, V.O., et al, [1979, p.99-106, rus] 34-2003

Northern sea route (1973-1976). Armstrong, T., [1978, p.264-268, eng] 34-2027

Sea ice in the Arctic. Moign, A., [1978, p.283-288, fre] 34-2031

Docks can be used in winter. Shirokikh, V., [1979, p.34, rus] 34-2122

Soviet glaciological investigations in 1978. Kotliakov, V.M., et al, [1979, p.5-12, rus] 34-2174

Extent of glaciation in the Pamirs and factors affecting it. Rototaeva, O.V., [1979, p.33-41, rus] 34-2178

Ice winters 1971-75 along the Finnish coast. [1978, 63p., fin] 34-2270

Ice regime and severity of winters on the Aral Sea. Temnikov, S.N., [1979, p.75-81, rus] 34-2415

West Greenland outlet glaciers: an inventory of the major iceberg producers. Kollmeyer, R.C., [1980, p.175-181, eng] 34-2440

Iceberg drift observations in Lancaster Sound. Riggs, N.P., et al, [1980, p.283-291, eng] 34-2450

Western Ross Sea and McMurdo Sound ice forecasting guide. Perchal, R.J., [1975, 132p., eng] 34-2453

Oil spill scenario for the Labrador Sea. LeDrew, B.R., et al, [1979, 675p., eng] 34-2479

Eastern-western Arctic sea ice analysis. [1978, 104p., eng] 34-2511

Ice—an ever-mounting threat to man's survival. Foulds, D.M., [1973, p.27-29, eng] 34-2629

Bank erosion in the southern Mackenzie River Delta, Northwest Territories, Canada. Outhet, D.N., [1974, 89p., eng] 34-2679

Study of climatic effects on fast ice extent and its seasonal decay along the Beaufort-Chukchi coasts. Barry, R.G., [1979, p.272-375, eng] 34-2683

Interannual atmospheric variability and associated fluctuations in Arctic sea ice extent. Walsh, J.E., et al, [1979, p.6915-6928, eng] 34-2713

Ice conditions in areas adjacent to the North Atlantic Ocean from July to September 1979. [1980, p.42-46, eng] 34-2788

Forecasting hydrograph of spring water inflow into the Novosibirsk reservoir. Miliukova, O.A., [1978, p.24-40, rus] 34-2893

Operation Icemap 2, side looking radar trials, spring 1972. Hengeveld, H.G., [1973, 14p. + appends., eng] 34-2956

Atmospheric processes and characteristics of underlying surfaces during the period preceding the formation of temperature anomalies. [1979, p.12-23, rus] 34-2965

Long range background forecasts of mean monthly air temperature anomalies in West Siberia. IAgudin, R.A., [1979, p.44-50, rus] 34-2967

Ten-day forecasts of mean air temperature anomalies for West and East Siberia, Ural Mountains and North Kazakhstan. Khramtsova, I.G., et al, [1979, p.51-55, rus] 34-2968

Sea Ice-75 Programme. Blomquist, A., et al, [1976, 30p., eng] 34-2985

Determining river ice frequency from the tree record. Egginton, P.A., [1980, p.265-270, eng] 34-2989

Long range forecasting of ice conditions in Arctic seas. Kirillov, A.A., et al, [1979, p.5-20, rus] 34-2994

Ice-condition anomaly index for Arctic seas. Kovalev, E.G., [1979, p.21-29, rus] 34-2995

Connection between ice conditions of the Wrangel area and atmospheric circulation indices of preceding seasons. Santsevich, T.I., et al, [1979, p.30-39, rus] 34-2996

Peculiarities of ice conditions in the Southern Ocean and their relation to atmospheric circulation. Romanov, A.A., [1979, p.40-46, rus] 34-2997

Ice condition variations near the southwestern shores of Greenland in connection with hydrometeorological processes of different scales. Mironov, E.U., [1979, p.47-62, rus] 34-2998

Results of using cyclic oscillation data in long range forecasts of ice conditions in Arctic seas. Kovalev, E.G., [1979, p.63-65, rus] 34-2999

Maximum heat content of the Barents Sea active layer as an indication of future hydrometeorological processes. Moskal', T.N., [1979, p.66-80, rus] 34-3000

Dependence of summer air temperature above the Laptev, East Siberian and Chukchi seas on ice conditions and atmospheric circulation. Teitel'baum, K.A., [1979, p.81-90, rus] 34-3001

Heat content distribution in the active layer of the Barents Sea in August. Moskal', T.N., [1979, p.109-116, rus] 34-3004

In polar waters. [1977, 40p., eng] 34-3013

Drillships press close to moving ice zone for world's most costly wells. [1977, p.16-17, eng] 34-3015

Northern skills may go south to Antarctica within a decade. [1977, p.36-37, eng] 34-3018

Late Quaternary history and the formation of sediments in the marginal and inland seas. Gershanovich, D.E., ed, [1979, 212p., rus] 34-3064

Postglacial and Holocene paleogeography of the Barents Sea. Kotenev, B.N., [1979, p.20-28, rus] 34-3066

Evolution of late and postglacial sediment accumulation in offshore areas of the Barents and White seas. Evzerov, V.IA., [1979, p.29-33, rus] 34-3067

Oceanographic characteristics in the Caspian Sea near the ice edge. Kosarev, A.N., et al, [1979, p.170-180, rus] 34-3185

Offshore pipelines in the Arctic. Timmermans, W.J., [1980, p.20-24, eng] 34-3192

Extending the navigation period on Yakutian rivers. Zernov, S.IA., [1976, p.41-51, rus] 34-3340

Great Lakes navigation season, 1979. Wilson, E.E., [1980, p.183-195, eng] 34-3435

Recent fluctuations in meteorological and oceanographic parameters in Alaska waters. Niebauer, H.J., [1980, 34p., eng] 34-3483

History of the Pevek Regional Administration of Hydrometeorology and Environmental Monitoring. Vlasov, E.G., et al, [1979, p.4-12, rus] 34-3526

Hydrometeorological forecasting. Kupetskiĭ, V.N., [1979, p.13-22, rus] 34-3527

Forecasting ice formation at the Kolyma River bay-mouth bar. Furmanov, O.M., [1979, p.130-132, rus] 34-3537

Errors occurring in extrapolating the air temperature-wind velocity complex over the open sea area of the shelf. Borisenko, M.M., et al, [1979, p.76-78, rus] 34-3580

Variations of heat content of deep Atlantic waters in the Arctic Basin over a period of years. Bulatov, L.V., et al, [1979, p.6-13, rus] 34-3583

Si-S analysis of surface waters in the Arctic Basin. Rusanov, V.P., et al, [1979, p.14-23, rus] 34-3584

Seasonal and annual fluctuations in Atlantic water and heat inflow into the Arctic Basin through the Fram Strait. Mandel', S.Z., [1979, p.24-29, rus] 34-3585

Heat transfer in Atlantic waters on the continental slope of the Laptev Sea. Beliakov, L.N., et al, [1979, p.30-36, rus] 34-3586

Thermal state of waters in the northern Greenland Sea in February 1972 (from data obtained along the Barentsburg-ice edge cross-section). IAnes, A.V., [1979, p.37-42, rus] 34-3587

Ice conditions of rivers in the West Siberian taiga zone. Martynov, B.D., [1978, p.63-74, rus] 34-3610

Plotting through the pack: radar resistant ice. Haines, S.A., [1980, p.16-19, eng] 34-3672

Icebergs and oil tankers soon to mix. Hartline, B.K., [1980, p.381, eng] 34-3720

Physics and mechanics of ice. [1980, 378p., eng] 34-3727

Experience gained by use of extensive ice laboratory facilities in solving ice problems. Frankenstein, G.E., [1980, p.93-103, eng] 34-3735

Recent fluctuations in meteorological and oceanographic parameters in Alaska waters. Niebauer, H.J., [1980, 34p., eng] 34-3766

Hydroclimatic influence of forests. Protopopov, V.V., ed, [1979, 144p., rus] 34-3768

Thermal regime of rivers in Central and West Siberian plains. Protopopov, V.V., et al, [1979, p.4-24, rus] 34-3769

Opposition in ice redistribution in Arctic waters outside the USSR. Smirnov, V.I., [1980, p.73-77, rus] 34-3862

Regularities of sea ice distribution in Arctic waters outside the USSR. Smirnov, V.I., [1979, p.109-112, rus] 34-3864

Investigation of ice drift in the southeastern part of the Barents Sea with the aid of a "Toros" peripheral scanning radar station. Zubakin, G.K., et al, [1980, 7p., eng] 34-3898

Use of ice jam typification from aircraft observation data in forecasting maximum stages in the Lena River. Rudnev, A.S., [1978, p.53-56, eng] 34-3964

Assessment of Arctic offshore pipelines. Muraszew, A., et al, [1980, 6 sections, eng] 34-3991

Estimation of the possible changes in the ice and thermal regimes of the northern Dvina River under the effect of partial runoff withdrawal. Donchenko, R.V., et al, [1978, p.186-191, eng] 34-4059

Winter floods in Leningrad and their study by empirical and hydrodynamic methods. Drabkin, V.V., et al, [1978, p.246-249, eng] 34-4061

Summary of Great Lakes weather and ice conditions, winter 1977-78. Assel, R.A., et al, [1979, 123p., eng] 34-4075

Forecasts and calculations of hydrometeorological elements of northern seas. Terziev, F.S., ed, [1980, 140p., rus] 34-4176

Results of scientific investigations of the Murmansk branch of the Arctic and Antarctic Scientific Research Institute during 1972-1976. Terziev, F.S., [1980, p.6-12, rus] 34-4177

Surge lowering of levels in the Barents and White seas. Potanin, V.A., et al, [1980, p.13-20, rus] 34-4178

Space-time characteristics of seasonal ice conditions in the North Atlantic. Orlov, N.F., [1980, p.55-59, rus] 34-4184

Ice (construction material)

Strength of saw-dust reinforced ice. Konovalov, A.A., et al. [1976, p.101-104, rus] 34-710

Use of ice as an airstrip in the Thelon River valley by the Canadian Armed Forces. McCutcheon, D.M., [1979, p.224-231, eng] 34-933

Use of ice as structural support in the construction of the Eagle River bridge. McCutcheon, D.M., [1979, p.232-237, eng] 34-934

Flooding of sea ice roads. Favrat, D., et al, [1979, p.238-249, eng] 34-935

Ice seal for rotating shafts. Harbage, A.B., Jr., [1979, 35p., eng] 34-1042

Rheological properties of ice. Zaretskiĭ, IU.K., et al, [1979, p.179-191, rus] 34-1552

Time-dependent deformation of ice domes. Hajdo, L.E., [1979, p.261-267, eng] 34-1764

Floating ice platforms: offshore oil exploration. Masterson, D.M., et al, [1980, p.133-143, eng] 34-2410

Use of ice as the soil base for structures. Galdaenko, E.I., [1980, 92p., eng] 34-2986

Ice control

Proceedings. [1979, 355p., eng] 34-49

Value engineering study of snow and ice control. Russell, G.L., et al, [1979, p.66-73, eng] 34-61

Effects of highway design standards on snow and ice control operations. Hogan, R.A., [1979, p.74-78, eng] 34-62

Snow removal and ice control standards at Canadian airports. Levitsky, W.V., [1979, p.79-81, eng] 34-63

Overview of some of the factors influencing snow and ice control and the resultant impacts of their implementation. Belangie, M.C., [1979, p.151-158, eng] 34-75

Snow removal and ice control on the Italian turnpike network. Rocco, V., et al, [1979, p.240-244, eng] 34-87

Snow removal and ice control for ground transport channels and terminals. Huang, E.Y., [1979, p.245-253, eng] 34-88

Controlling snow and ice on the Morgantown people mover system. Morgan, P.H., [1979, p.343-349, eng] 34-102

Adfreeze bonding between sea ice and offshore structures: a critical examination. Sackinger, W.M., [1977, p.13-18, eng] 34-696

New system for the artificial reduction of the mechanical strength and the heat conductivity of the ice covers of reservoirs. Falko, L.I., [1974, p.346-353, eng] 34-1205

Report from the working group on noncorrosive methods of ice control. [1979, p.41-55, eng] 34-1585

Noncorrosive methods of ice control. Minsk, L.D., [1979, p.133-162, eng] 34-1586

Economic impact of highway snow and ice control. McBride, J.C., [1978, p.58-63, eng] 34-1610

Ice control *(cont.)*

Suppression of river ice by thermal effluents. Ashton, G.D., [1979, 23p., eng] **34-2283**

Analysis of airport snow removal and ice control. Tighe, D.J., et al, [1971, 220p., eng] **34-2508**

Ice cores

Ultrasonic velocity investigations of crystal anisotropy in deep ice cores from Antarctica. Kohnen, H., et al, [1979, p.4865-4874, eng] **34-410**

20-yr cycle in Greenland ice core records. Hibler, W.D., III, et al, [1979, p.481-483, eng] **34-737**

Mt. Logan field report 1975. Holdsworth, G., [1976, 21p., eng] **34-918**

Ice sheet internal radio-echo reflections and associated physical property changes with depth. Ackley, S.F., et al, [1979, p.5675-5680, eng] **34-999**

Total gas content and surface elevation of polar ice sheets. Raynaud, D., et al, [1979, p.289-291, eng] **34-1426**

Antifreeze-thermodrilling for core through the central part of the Ross Ice Shelf (J-9 Camp), Antarctica. Zotikov, I.A., [1979, 12p., eng] **34-1577**

X- or gamma-rays from supernovae in glacial ice. Rood, R.T., et al, [1979, p.701-702, eng] **34-1746**

Results of temperature measurements in Vostok boreholes. Vostretsov, R.N., et al, [1979, p.25-31, rus] **34-1825**

30,000-yr isotope climatic record from antarctic ice. Lorius, C., et al, [1979, p.644-648, eng] **34-1839**

Antarctic operations, Nov. 1977-Feb. 1978. Lorius, C., et al, [1978, 10p., fre] **34-2135**

British Antarctic Survey, 1978-79. [1979, p.605-612, eng] **34-2162**

On the origin of stratified debris in ice cores from the bottom of the Antarctic ice sheet. Gow, A.J., et al, [1979, p.185-192, eng] **34-2231**

Debris-laden ice at the bottom of the Greenland ice sheet. Herron, S., et al, [1979, p.193-207, eng] **34-2232**

911 years of microparticle deposition at the South Pole: a climatic interpretation. Thompson, E.M., [1979, 200p., eng] **34-2455**

Core drilling through the Ross Ice Shelf (Antarctica) confirmed basal freezing. Zotikov, I.A., et al, [1980, p.1463-1465, eng] **34-2485**

Ice flow along an I.A.G.P. flow line and interpretation of data from an ice core in Terre Adélie, Antarctica. Raynaud, D., et al, [1979, p.103-115, eng] **34-2820**

Dating of Ross Ice Shelf cores by chemical analysis. Herron, M.M., et al, [1979, p.345-357, eng] **34-2837**

Studying dust in ice covers and using it in ice age determination. Gordienko, F.G., [1979, p.259-268, rus] **34-3151**

Oxygen isotope studies of ice cores from the ice-divide of Grenfjord and Fritjof glaciers (West Spitsbergen Island). Punning, IA.M.K., et al, [1979, p.173-177, rus] **34-3709**

Drilling of the Antarctic Ice Sheet in the Novolazarevskaya Station area. Morev, V.A., et al, [1979, p.198-200, rus] **34-3714**

Crystal size and climatic record down to the last ice age from Antarctic ice. Duval, P., et al, [1980, p.59-64, eng] **34-3986**

Ice cores. MacKinnon, P.K., comp., [1980, 139p., eng] **34-4020**

Status and future of ice core data. Barry, R.G., et al, [1980, p.1-4, eng] **34-4021**

Workshop on the Status and Future of Ice Core Research and Ice Core Data (Boulder, Colorado, 24-26 September 1979). [1980, p.5-14, eng] **34-4022**

Ice core information storage and exchange system. Thompson, J.M., et al, [1980, p.59-63, eng] **34-4024**

Central ice core storage facility—ice core sampling procedures. [1980, p.66-68, eng] **34-4025**

Specimen and core-sample distribution policy. U.S. National Science Foundation. Division of Polar Programs, [1980, p.69-70, eng] **34-4026**

Ice core sampling. Radok, U., [1980, p.71-76, eng] **34-4027**

Nomenclature applied to ice cores: a geological viewpoint. Andrews, J.T., [1980, p.87-89, eng] **34-4029**

Time-priority studies of deep ice cores. Gow, A.J., [1980, p.91-102, eng] **34-4030**

Ice core work at the Laboratoire de Glaciologie, CNRS, Grenoble. Raynaud, D., [1980, p.103-107, eng] **34-4031**

Ice coring drills

Antarctic operations, Nov. 1977-Feb. 1978. Lorius, C., et al, [1978, 10p., fre] **34-2135**

Studies of heat and mass transfer at the lower surface of the Ross Ice Shelf. Zotikov, I.A., et al, [1979, p.178, rus] **34-2201**

Drilling of the Antarctic Ice Sheet in the Novolazarevskaya Station area. Morev, V.A., et al, [1979, p.198-200, rus] **34-3714**

Fast light-weight core drill. Johnsen, S.J., et al, [1980, p.169-174, eng] **34-3808**

Workshop on the Status and Future of Ice Core Research and Ice Core Data (Boulder, Colorado, 24-26 September 1979). [1980, p.5-14, eng] **34-4022**

Ice core inventory. MacKinnon, P.K., [1980, p.15-57, eng] **34-4023**

Polar Ice Coring Office ice drill status report. Kuivinen, K.C., et al, [1980, p.77-85, eng] **34-4028**

Ice cover

Ice conditions on the Chesapeake Bay as observed from Landsat during the winter of 1977. Foster, J., et al, [1978, p.89-104, eng] **34-35**

Proceedings. [1976, 424p., eng] **34-814**

Global variation of snow and ice extent. Kukla, G.J., [1976, p.110-115, eng] **34-818**

Laser reflectivity measurements of snow/ice covered targets in the Arctic region. Schneider, R.W., [1979, 40p., eng] **34-1041**

Model for space radar clutter. Tomlinson, P.G., [1979, 107p., eng] **34-1350**

Towing ships through ice-clogged channels by warping and kedging. Mellor, M., [1979, 21p., eng] **34-1380**

Variations in snow distribution over Arctic Ocean ice. Buzuev, A.IA., et al, [1979, p.76-85, rus] **34-1387**

Solar altitude effects on ice albedo. Bolsenga, S.J., [1979, 43p., eng] **34-1732**

Secular cycle of solar activity and baric field of Earth's Northern Hemisphere. Maksimov, I.V., et al, [1979, p.31-43, eng] **34-1888**

Study of fractures in consolidated pack-ice cover from radar survey data. Gorbunov, IU.A., et al, [1979, p.30-35, eng] **34-1900**

Workshop on the world glacier inventory and meeting of the snow and ice commission in Switzerland. Kotliakov, V.M., et al, [1979, p.19-24, rus] **34-2176**

Dependence of lake ice-covers on weather, snow and water. Fremling, S., [1977, 113p., swe] **34-2271**

Statistical analysis of terrain and water (ice) backgrounds in a winter scene from northern Michigan. LaRocca, A.J., [1979, 302p., eng] **34-2279**

Remote sensing of snow and ice. Meier, M.F., [1979, 54p., eng] **34-2473**

New method planned for pipe under ice. [1980, p.28-29, eng] **34-2611**

Winter environmental data survey of the drainage basin of the upper Susitna River, Alaska. Bilello, M.A., [1980, 30p., eng] **34-2725**

Effect of petroleum products on Arctic snow-ice cover. Izmaĭlov, V.V., [1980, p.147-152, rus] **34-2848**

Feasibility of surface detection of oil under ice. Gill, R., [1979, 82p., eng] **34-3011**

Installation test of the air-filled manned undersea chamber "Sprut" under the Arctic drift ice. Mel'nikov, I.A., et al, [1978, p.737-738, eng] **34-3540**

Physiography of part of north-eastern Palmer Land. Anckorn, J.F., [1980, p.157-166, eng] **34-4114**

National handbook of recommended methods for water-data acquisition. Chapter 9. Snow and ice. [1977, 34p., eng] **34-4162**

Ice cover distribution

See: Ice conditions; Sea ice distribution

Ice cover effect

Convection in the ice crusts of satellites and its effect on surface relief. Golitsyn, G.S., [1979, p.466-468, eng] **34-44**

Preliminary study of the fate of oil from a subsea blowout on the east coast. Telford, A.S., et al, [1977, 34p., eng] **34-312**

Biological productivity of the southern Beaufort Sea: the physical-chemical environment and the plankton. Grainger, E.H., [1975, 82p., eng] **34-504**

Oil spill behavior in ice during the 1977 Buzzards Bay oil spill. Deslauriers, P.C., [1978, p.197-215, eng] **34-1368**

Effects of ice and snow cover on transmission of light in lakes. Maguire, R.J., [1975, 24p., eng] **34-1700**

Instability of internal waves in an ice-covered sea. Savchenko, V.G., et al, [1979, p.76-84, eng] **34-1901**

Sediment transport and bed forms under ice cover. Song, G.B., [1978, 79p., eng] **34-2476**

Sediment transport in Norton Sound, Alaska. Cochrane, D.A., et al, [1979, 88p., eng] **34-2720**

Heavy mineral analysis of southern Beaufort Sea sediments. Costaschuk, S.M., [1980, p.241-252, eng] **34-2988**

Variability of the tide at some sites in the Canadian Arctic. Godin, G., et al, [1980, p.30-37, eng] **34-3320**

Illustration of the roles of snow in the evolution of the winter cover of a lake. Adams, W.P., et al, [1980, p.100-116, eng] **34-3322**

Time-dependent feedback system involving sea-ice extent, ocean temperature, and CO2. Saltzman, B., et al, [1980, p.93-118, eng] **34-3366**

Ice cover strength

Ice mechanics. Michel, B., [1978, 499p., eng] **34-9**

Continuing advances with air cushion icebreaking. Ball, M.A., [1977, p.105-132, eng] **34-208**

High-speed method of air cushion icebreaking. Robertson, B.W., [1977, p.133-140, eng] **34-209**

Reinforced ice matrix. Hill, W.L., [1977, 4 col., eng] **34-264**

Nutcracker ice strength tests, 1970-71. Croasdale, K.R., [1971, c190p., eng] **34-569**

Workshop on the Bearing Capacity of Ice Covers, 16-17 October 1978, Winnipeg, Manitoba. [1979, 253p., eng] **34-919**

Problems related to the structural modelling of ice covers. Tinawi, R., [1979, p.139-158, eng] **34-929**

Long-term loading analysis of floating ice platforms using finite element techniques. Masterson, D.M., et al, [1979, p.159-182, eng] **34-930**

Physical and mechanical properties of the ice cover of the Kara and Laptev Seas. Peschanskiĭ, I.S., et al, [1974, p.322-333, eng] **34-1203**

New system for the artificial reduction of the mechanical strength and the heat conductivity of the ice covers of reservoirs. Faĭko, L.I., [1974, p.346-353, eng] **34-1205**

Bearing capacity of sea ice. Murat, J.R., [1978, 408p., fre] **34-1301**

Icebreaker capability reference document. Perrini, F., [1977, c130 leaves, eng] **34-1337**

Copeland cut test ice boom design criteria and data analysis, winter, 1974-75, Final report. Uzuner, M.S., [1975, 2 vols., eng] **34-1799**

Problems of the Arctic and the Antarctic, collection of articles, Vol 45, 1974. Treshnikov, A.F., ed, [1979, 171p., eng] **34-1884**

Method of forecasting flexural strength of ice cover. Ryvlin, A.IA., [1979, p.99-108, eng] **34-1891**

Choice of algorithms for numerical determination of size distribution and compactness of ice floes. Khetsin, D.E., [1979, p.109-117, eng] **34-1892**

Load-bearing capacity of ice cover and determination of breaking strength. Serikov, M.I., [1979, p.152-156, eng] **34-1904**

Ice strength determination allowing for climatic factors. Kukhtina, L.P., et al, [1980, p.41-42, rus] **34-2615**

Static ice loading tests, Resolute Bay, winter 9173/74. Lichtenberger, G.J., et al, [1974, 99p. + 7 appends., eng] **34-3095**

Ice platform construction, Resolute Bay, N.W.T., November-December 1974. Wasilewski, B.R., [1975, 109p., eng] **34-3103**

Vertical load bearing capacity tests of natural ice and of artificial-natural ice laminates, Resolute Bay, winter 1974/75. Lichtenberger, G.J., et al, [1976, c320p. + 6 appendices, eng] **34-3105**

Calculating the safety coefficient for bearing capacity of ice covers. Ptukhin, F.I., [1977, p.56-71, rus] **34-3175**

Ice thickness-tensile stress relationship for load-bearing ice. Johnson, P.R., [1980, 11p., eng] **34-3330**

Exploring the Arctic for oil. Sklarewitz, N., [1980, p.2-5, eng] **34-3410**

Dynamic ice forces on an inclined structure. Frederking, R., [1980, p.104-116, eng] **34-3736**

Strength of ice cover during its breakup period on rivers of the Baykal Amur railroad area. Zabelina, E.F., [1979, p.93-101, rus] **34-3883**

Calculating geometric characteristics of ice cover. Zubakin, G.K., et al, [1980, p.35-40, rus] **34-4181**

Kinetic waves in glaciers. Hutter, K., [1979, p.93-110, ger] **34-364**

Beaufort Sea summer ice testing project. [1973, 16p. + figs. and tables, eng] **34-419**

Mass budget of the Lambert Glacier drainage basin, Antarctica. Allison, I., [1979, p.223-235, eng] **34-538**

Effects of ice thickness on the exchange of solar radiation over the polar oceans. Grenfell, T.C., [1979, p.305-320, eng] **34-545**

Nutcracker ice strength tests. Croasdale, K.R., [1970, c.260p., eng] **34-593**

Dynamic thermodynamic sea ice model. Hibler, W.D., III, [1979, p.815-846, eng] **34-741**

Ice cover parametrization in global models of ocean-atmosphere interactions. Belevich, M.IU., [1979, p.91-97, rus] **34-804**

Sea ice modeling: its testing with LANDSAT and potential use in FGGE. Hall, R.T., et al, [1976, p.104-109, eng] **34-817**

Monitoring earth surface characteristics important to weather and climate with earth satellites. McClain, E.P., [1976, p.129-135, eng] **34-819**

Structure of the infrared thermal radiation field of snow-ice covers on water bodies. Bogorodskiĭ, V.V., et al, [1979, p.235-241, rus] **34-878**

Horizontal irradiation in the visible spectrum under ice in the Ivano-Arakhley lakes (Transbaikal). Vologdin, M.P., et al, [1979, p.274-281, rus] **34-880**

Light attenuation indices in the Ivano-Arakhley lakes (Transbaikal) during winter. Vologdin, M.P., et al, [1979, p.281-285, rus] **34-881**

Optical classification of natural ice. Bogorodskii, V.V., et al, [1979, p.341-347, rus] 34-882
Field studies on the response of floating ice sheets to moving loads. Beltaos, S., [1979, p.1-13, eng] 34-920
Surface strain of artificially thickened ice drilling platforms. Allan, A.J., [1979, p.14-24, eng] 34-921
Monitoring of thickness changes of the continental ice sheets by satellite altimetry. Brooks, R.L., [1979, p.3965-3968, eng] 34-943
Growth rates and characteristics of ice on the Ottauquechee and Winooski Rivers of Vermont during winter 1977-78. Deck, D., [1978, 30p., eng] 34-1107
Glaciology of mountain regions. Suslov, V.F., ed, [1979, 160p., rus] 34-1120
New data on recent glaciation of the Fedchenko glacier system (for the "atlas of snow-ice resources of the world"). Shchetinnikov, A.S., [1979, p.113-121, rus] 34-1133
Calculating vertical ice distribution from the *Catalog of Glaciers in the USSR*, for evaluating runoff from mountain basins. Glazyrin, G.E., et al, [1979, p.122-126, rus] 34-1134
Results of gravimetric measurements of the ice thickness on the Obruchev Glacier. Macheret, Iu.A., [1974, p.434-439, eng] 34-1210
Air- and spaceborne remote sensing in hydrogeology and engineering geology. Sadov, A.V., et al, [1979, 223p., rus] 34-1225
Alaska's sea ice. Webster, B.D., [1979, p.29-40, eng] 34-1304
[illegible] capability reference document. Dunn, F. [1977, c130 leaves, eng] 34-1337
Contrast of electromagnetic characteristics at the marine ice-water boundary. Bogorodskii, V.V., et al, [1979, 6p., eng] 34-1397
Ice thickness and stratigraphy at nearshore locations on the Great Lakes (metric units). Sleator, F.E., [1978, 440p., eng] 34-1460
Rheological properties of ice. Zaretskii, Iu.K., et al, [1979, p.179-191, rus] 34-1552
Under-ice volcanoes. Miller, K., [1979, p.36-55, eng] 34-1579
Ross Ice Shelf temperatures support a history of ice-shelf thickening. MacAyeal, D.R., et al, [1979, p.703-705, eng] 34-1747
CO2-climate sensitivity study with a mathematical model of the global climate. Manabe, S., et al, [1979, p.491-493, eng] 34-1761
Copeland cut test ice boom design criteria and data analysis, winter, 1974-75; Final report. Uzuner, M.S., [1975, 2 vols., eng] 34-1799
Regionalization of the USSR according to icing. Rudneva, A.V., [1979, p.86-91, rus] 34-1822
Variations in the ice surface height along the Mirnyy-100 km profile. Meier, S., [1979, p.17-24, rus] 34-1824
Connections in the Gamburtsev and Vernadskiy Subglacial Mountains. Koblents, IA.P., [1979, p.39-48, rus] 34-1828
Steady state ice layer profile on a temperature plate in a forced convection flow. Hirata, T., et al, [1979, p.1425-1443, eng] 34-1846
Effect of physicomechanical properties and uneven thickness of ice on the motion of ships in the autumn-winter season. Smirnov, V.I., [1979, p.106-112, eng] 34-1903
Load-bearing capacity of ice cover and determination of breaking strength. Serikov, M.I., [1979, p.152-156, eng] 34-1904
Novaya Zemlya map of permafrost temperature; scale 1:2,500,000. Kondrat'eva, K.A., [1979, p.80-101, rus] 34-1917
Univariate model of the seasonal pycno-wedge and homogeneous layer in the Arctic Basin. Ponomarev, V.I., [1979, p.37-47, rus] 34-1997
Capture of long ocean waves by heterogeneities of ice cover. Odulo, A.B., [1979, p.72-76, rus] 34-2001
Unstabilized oscillations of drifting ice cover caused by periodic disturbances in an inhomogeneous sea. Bukatov, A.E., et al, [1979, p.77-84, rus] 34-2002
Radio echo sounding of the Antarctic ice sheet, 1978-79; preliminary report. Drewry, D.J., et al, [1979, 21p. + Append., eng] 34-2064
World Ocean and Pleistocene glacial epochs. Zakharov, V.F., [1978, 64p., rus] 34-2106
Ice thickness climatology for Canadian stations. Richardson, F.A., et al, [1975, 60p., eng] 34-2164
Thermal capacity of sea ice and its effect on ice cover melting in Arctic seas. Fafko, L.I., [1979, p.211-213, rus] 34-2211
Arctic marine technology: a review of ship resistance in ice. Peirce, T.H., [1979, p.219-235, eng] 34-2360
Scale model ultrasonic study of Arctic ice. Part 2. Himberger, D.E., et al, [1979, 64p., eng] 34-2371
Ice strength determination allowing for climatic factors. Kukhtina, L.P., et al, [1980, p.41-42, rus] 34-2615
Ice—an ever-mounting threat to man's survival. Foulds, D.M., [1973, p.27-29, eng] 34-2629
Thinning of the ice sheet in Mizuho Plateau, East Antarctica. Naruse, R., [1979, p.45-52, eng] 34-2815
Basal sliding of a thinning ice sheet, Mizuho Plateau, East Antarctica. Mae, S., [1979, p.53-61, eng] 34-2816
Results from the I.A.G.P. flow-line study inland of Casey, Wilkes Land, Antarctica. Budd, W.F., et al, [1979, p.89-101, eng] 34-2819
Ice-thickness patterns and the dynamics of the Ross Ice Shelf, Antarctica. Bentley, C.R., et al, [1979, p.287-294, eng] 34-2831
Modeling sea-ice features and processes. Rothrock, D.A., [1979, p.359-375, eng] 34-2838
Especially dangerous icings in the Crimean mountains. Koshenko, A.M., [1977, p.3-12, rus] 34-2890
Gravity survey of the Taylor Glacier, Victoria Land, Antarctica. Stern, T.A., [1978, 12p., eng] 34-2993
Calculating sea ice salinity. Smetannikova, A.V., et al, [1979, p.117-120, rus] 34-3005
Ice structure and the formation of thawed patches. Komov, N.I., [1979, p.151-157, rus] 34-3010
Dynamics of near-shore ice. Kovacs, A., et al, [1979, p.181-207, eng] 34-3051
Ice chipper for road-cutting on sea ice. Bennett, J.D., [1974, 88p., eng] 34-3093
Sea ice thickness determination using electromagnetic subsurface profiling. Orange, A., et al, [1973, 41p. + figs., eng] 34-3094
Arctic test results, Phase I, Task D. [1975, c500p., eng] 34-3102
Field studies of naleds. Alekseev, V.R., et al, [1980, 152p., rus] 34-3189
Analysis of the performance of a 140-foot Great Lakes icebreaker USCGC *Katmai Bay*. Vance, G.P., [1980, 28p., eng] 34-3199
Video pulse radiometer of sea ice thickness as a promising means of ice surveying. Finkel'shtein, M.I., et al, [1977, p.104-113, rus] 34-3312
Using radar equipment for measuring ice cover thickness in ice surveys. Bushuev, A.V., et al, [1977, p.114-121, rus] 34-3313
Testing a numerical scheme for calculating winter ice distribution in Arctic seas. Appel', I.L., et al, [1977, p.141-150, rus] 34-3317
Fast ice thickness distribution in the Chaunskaya Bay. Kosharovskii, IU.E., et al, [1979, p.114-115, rus] 34-3536
Sea ice growth, drift, and decay. Hibler, W.D., III, [1980, p.141-209, eng] 34-3658
Mapping ice thickness on rivers and lakes. Fafko, L.I., [1979, p.36, rus] 34-3687
Computerized solution of two-dimensional inverse problems of radar surveys of ice thickness and subglacial relief of mountain glaciers. Berikashvili, V.Sh., et al, [1979, p.131-139, rus] 34-3703
Determining mountain glacier volumes from helicopter radar survey data. Zhuravlev, A.B., [1979, p.140-148, rus] 34-3704
Snow density variations over ice covers. Tsurikov, V.L., [1979, p.155-161, rus] 34-3706
Opposition in ice redistribution in Arctic waters outside the USSR. Smirnov, V.I., [1980, p.73-77, rus] 34-3862
Calculating design thickness of layered ice. Afanas'ev, V.P., [1979, p.88-92, rus] 34-3882
Strength of ice cover during its breakup period on rivers of the Baykal Amur railroad area. Zabelina, E.F., [1979, p.93-101, rus] 34-3883
Computation of the thickness and structure of the ice cover on rivers in the northern European USSR. Amineva, V.IA., [1978, p.51-52, eng] 34-3963
Results of application of infrared equipment for the investigation of hydrologic objects. Bogorodskii, V.V., et al, [1978, p.77-79, eng] 34-3969
Use of radar to measure ice thickness in rivers, lakes, and reservoirs. Chizhov, A.N., et al, [1978, p.116-127, eng] 34-4058
Calculating geometric characteristics of ice cover. Zubakin, G.K., et al, [1980, p.35-40, rus] 34-4181
Break-up of the Yukon River at the Haul Road Bridge: 1979. Stephens, C.A., et al, [1979, 22p. + Figs., eng] 34-4193

See also: Glacier thickness

Ice cracks

Reinforced ice matrix. Hill, W.L., [1977, 4 col., eng] 34-264
Study of fractures in consolidated pack-ice cover from radar survey data. Gorbunov, IU.A., et al, [1979, p.30-35, eng] 34-1900
Frost shattering observed on cracks at the surface of Gilman Glacier, Ellesmere Island. Brochu, M., [1979, p.55-59, fre] 34-2315
Observed and possible changes in the Abramov glacier tongue. Abul'khasanova, A.G., et al, [1979, p.206-210, rus] 34-3141
Marine naleds in the Chaunskaya Bay. Chagulov, A.K., [1979, p.109-111, rus] 34-3534
Winter regime of fast ice in the Chaunskaya Bay. Konstantinov, IU.B., [1979, p.112-113, rus] 34-3535
Critical stress intensity factors (K(Ic)) measurements at high loading rates for polycrystalline ice. Goodman, D.J., [1980, p.129-146, eng] 34-3738
Mechanical properties of polycrystalline ice. Mellor, M., [1980, p.217-245, eng] 34-3744
Mechanical model of creep of polycrystalline ice with cracking activity. Michel, B., [1980, p.246-264, eng] 34-3745
Application of fracture mechanics to ice problems. Miller, K.J., [1980, p.265-277, eng] 34-3746
Bending and buckling of a wedge on an elastic foundation. Nevel, D.E., [1980, p.278-288, eng] 34-3747
Plastic limit analysis of sheet ice loads on conical structures. Ralston, T.D., [1980, p.289-308, eng] 34-3748
Failure of sea ice by repeated compression. Tabata, T., et al, [1980, p.351-362, eng] 34-3752

Ice creep

Ice mechanics. Michel, B., [1978, 499p., eng] 34-9
Rheology of columnar-grained ice. Sinha, N.K., [1978, p.464-470, eng] 34-535
In situ determination of creep properties of ice covers by means of bore-hole creep and relaxation tests. Ladanyi, B., et al, [1979, p.44-64, eng] 34-923
Grain-size influence on effective modulus of ice. Sinha, N.K., [1979, p.65-79, eng] 34-924
Time-dependent deflection of an ice plate. Michel, B., et al, [1979, p.80-97, eng] 34-925
Empirical analysis of the creep of floating ice sheets. Beltaos, S., et al, [1979, p.124-138, eng] 34-928
Long-term loading analysis of floating ice platforms using finite element techniques. Masterson, D.M., et al, [1979, p.159-182, eng] 34-930
Viscoelastic finite-element analysis of floating ice islands. Swamidas, A.S.J., et al, [1979, p.183-204, eng] 34-931
Failure of capillary theory of frost damage as applied to ceramics. Blachere, J.R., et al, [1974, p.212-216, eng] 34-1299
Rheological properties of ice. Zaretskii, IU.K., et al, [1979, p.179-191, rus] 34-1552
Observations within cavities at the bed of the glacier Österdalsisen, Norway. Theakstone, W.H., [1979, p.273-281, eng] 34-2238
Ice flow along the Byrd Station strain network, Antarctica. Whillans, I.M., [1979, p.15-28, eng] 34-2813
Effect of crystal size and dispersed-solid inclusions on the activation energy for creep of ice. Baker, R.W., et al, [1979, p.179-194, eng] 34-2826
Role of shear heating in the dynamics of large ice masses. Yuen, D.A., et al, [1979, p.195-212, eng] 34-2827
Formation, flow, and disintegration of ice shelves. Robin, G. de Q., [1979, p.259-271, eng] 34-2829
Grain boundary sliding in polycrystalline materials. Sinha, N.K., [1979, p.825-842, eng] 34-2983
Floating ice platforms for oil exploration in the Arctic Islands. Ekelund, M.J., et al, [1980, p.168-183, eng] 34-3323
Ground ice and ice-rich ground as structure foundations. Vialov, S.S., et al, [1980, 159p., eng] 34-3405
Physics and mechanics of ice. [1980, 378p., eng] 34-3727
Some promising trends in ice mechanics. Assur, A., [1980, p.1-15, eng] 34-3728
Numerical model of Penelope ice viscometer flows. Brepson, R., [1980, p.28-37, eng] 34-3730
Constitutive relations for the non elastic deformation of polycrystalline ice. Le Gac, H., et al, [1980, p.51-59, eng] 34-3732
Finite element method simulation of large ice mass flow behaviour. Emery, J.J., et al, [1980, p.82-92, eng] 34-3734
Rheological behaviour of ice at small strains. Gold, L.W., et al, [1980, p.117-128, eng] 34-3737
Creep and relaxation in floating platforms—an analysis of case histories. Masterson, D.M., et al, [1980, p.205-216, eng] 34-3743
Mechanical properties of polycrystalline ice. Mellor, M., [1980, p.217-245, eng] 34-3744
Mechanical model of creep of polycrystalline ice with cracking activity. Michel, B., [1980, p.246-264, eng] 34-3745
Flow of temperate ice in a vertical shaft with rough wall surfaces. Reeh, N., [1980, p.309-324, eng] 34-3749
Morphology and dynamics of ice rises. Martin, P.J., et al, [1980, p.33-45, eng] 34-3796
Creep of ice, geothermal heat flow, and Roosevelt Island, Antarctica. Thomas, R.H., et al, [1980, p.47-60, eng] 34-3797
Does the permanent creep-rate of polycrystalline ice increase with crystal size. Duval, P., et al, [1980, p.151-157, eng] 34-3806
Constitutive laws of ice. Hutter, K., [1979, p.47-63, ger] 34-3973
Flow of salt glaciers. Wenkert, D.D., [1979, p.523-526, eng] 34-3993

Ice crossings

Building and operating winter roads in Canada and Alaska. Adam, K.M., [1978, 221p., eng] 34-532
Construction of service roads in swamps. Zholobov, S.I., [1979, p.24-25, rus] 34-1181
Rheological properties of ice. Zaretskii, IU.K., et al, [1979, p.179-191, rus] 34-1552
Winter roads and ice bridges. Lefebvre, L.M., [1979, p.54-57, eng] 34-2034
How sub-zero weather helps a bridge contractor. [1979, p.50-51, eng] 34-2805
Ice loads on structures of the Baykal Amur railroad. Korzhavin, K.N., ed, [1977, 121p., rus] 34-3168
Calculating the safety coefficient for bearing capacity of ice covers. Ptukhin, F.I., [1977, p.56-71, rus] 34-3175

Ice crossings *(cont.)*
Ice thickness-tensile stress relationship for load-bearing ice. Johnson, P.R., [1980, 11p., eng] 34-3330

Ice crystal adhesion
Icing of an unheated non-rotating cylinder in liquid water droplet-ice crystal clouds. Lozowski, E.P., et al, [1979, 66p. + figures, eng] 34-1739

Ice crystal growth
Collection and measurement efficiencies of the EWER cloud water meter for hydrometeors. Norment, H.G., [1979, 39p., eng] 34-1352
Snow crystals. Perla, R., [1978, 19p., eng] 34-1356
Crystal alignments in the fast ice of Arctic Alaska. Weeks, W.F., et al, [1979, 21p., eng] 34-1379
Charge separation associated with secondary ice crystal production. Hallett, J., et al, [1979, p.2230-2235, eng] 34-1766
Electric field effect on crystallization of supercooled water. Nikandrov, V.IA., et al, [1979, p.65-70, rus] 34-2013
Ice growth at a porous plate and at a single capillarity. Biermans, M., et al, [1979, p.285-293, eng] 34-2332
Microphysics of clouds and precipitation. Pruppacher, H.R., et al, [1978, 714p., eng] 34-2515
Possible mechanism of ice splinter production during riming. Choularton, T.W., et al, [1978, p.791-792, eng] 34-2677
Mechanism of ice splinter production during riming. Mossop, S.C., [1980, p.167-169, eng] 34-2678
Studying dust in ice covers and using it in ice age determination. Gordienko, F.G., [1979, p.259-268, rus] 34-3151
On snow crystals of double plate type grown from ice fragments. Yamami, N., et al, [1980, p.1-7, jap] 34-3153
Growth of ice discs from the vapor and the mechanism of habit change of ice crystals. Keller, V.W., et al, [1980, p.458-464, eng] 34-3407
Laboratory studies of riming, and its relation to ice splinter production. Choularton, T.W., et al, [1980, p.367-374, eng] 34-3447
Influence of point charge electric field on homogeneous crystallization of supercooled water drops. Klingo, V.V., et al, [1979, p.26-32, rus] 34-3568
Evaluating the contact nucleation mechanism after introduction of crystal-forming agents into supercooled clouds. Klingo, V.V., et al, [1979, p.39-46, rus] 34-3569
Experimental study of the freezing of water drops in a constant electric field. Shlykov, V.V., [1979, p.68-75, rus] 34-3573
Studying variations in surface electrical conductivity of some ice-forming substances interacting with water vapor. Vlasov, S.A., et al, [1979, p.76-81, rus] 34-3574
Nucleation of ice by sorption on monodisperse silver iodide particles in the 20-1200A diameter size range. Rosinski, J., et al, [1980, p.1464-1468, eng] 34-3621
Water and ice nucleation sites from ion implantation of silicon. Stinebaugh, W.H., et al, [1980, p.1469-1473, eng] 34-3622
Icicles as crystallization phenomena. Knight, C.A., [1980, p.193-198, eng] 34-4003
Influence of the diffusion of vapor and heat on the morphology of ice crystals grown from the vapor. Gonda, T., [1980, p.173-181, eng] 34-4083

Ice crystal nuclei
Condensation-freezing mechanism at weak supersaturation in respect of ice. Grenier, J.C., et al, [1979, p.81-91, fre] 34-1743
Observations of fall streak generation from glaciating altocumulus floccus. Black, T.L., [1979, p.157-166, eng] 34-1744
Growth of ice discs from the vapor and the mechanism of habit change of ice crystals. Keller, V.W., et al, [1980, p.458-464, eng] 34-3407
Thickness of fluid film on ice crystal surfaces. Badakhov, Kh.I., [1980, p.57-66, rus] 34-3419
Laboratory studies of riming, and its relation to ice splinter production. Choularton, T.W., et al, [1980, p.367-374, eng] 34-3447
Water and ice nucleation sites from ion implantation of silicon. Stinebaugh, W.H., et al, [1980, p.1469-1473, eng] 34-3622
Condensation-freezing mechanism at weak supersaturation in respect to ice. Montmory, R., [1980, p.71-83, fre] 34-4246

Ice crystal optics
Remote sounding of high clouds: 1. Calculation of visible and infrared optical properties from lidar and radiometer measurements. Platt, C.M.R., [1979, p.1130-1143, eng] 34-889
Two-stream theory of reflectance of snow. Choudhury, B.J., et al, [1979, p.63-68, eng] 34-1166
Scattering of solar radiation by hexagonal ice crystals. Wendling, P., et al, [1979, p.2663-2671, eng] 34-2806

Ice crystal size
Effect of crystal size and dispersed solid inclusions on the activation energy for creep of ice. Baker, R.W., et al, [1979, p.179-194, eng] 34-2826
Does the permanent creep-rate of polycrystalline ice increase with crystal size. Duval, P., et al, [1980, p.151-157, eng] 34-3806
Crystal size and climatic record down to the last ice age from Antarctic ice. Duval, P., et al, [1980, p.59-64, eng] 34-3986

Ice crystal structure
Crystalline structure of ice developing by accretion of supercooled water droplets on a single wire and growth process of rime on a square board placed in the air flow containing supercooled droplets and snow flakes. Abe, M., et al, [1979, p.93-94, eng] 34-66
Intrinsic surface disorder in ice near the melting point. Golecki, I., et al, [1978, p.4229-4237, eng] 34-408
Ultrasonic velocity investigations of crystal anisotropy in deep ice cores from Antarctica. Kohnen, H., et al, [1979, p.4865-4874, eng] 34-410
Beaufort Sea ice sampling project, 1970. Crossdale, K.R., [1970, c.145p., eng] 34-594
Molten state of matter: melting and crystal structure. Ubbelohde, A.R., [1978, 454p., eng] 34-789
Structural studies of glaciers in the Khumbu region. Fushimi, H., [1977, p.30-39, eng] 34-901
Anisotropic properties of sea ice in the 50- to 150-MHz range. Kovacs, A., et al, [1979, p.5749-5759, eng] 34-963
Antarctic ice as a ceramic. Maeno, N., [1978, p.663-669, jap] 34-1165
Structure factors of ice crystal determined by the X-ray Pendellösung method. Yasuda, Y., et al, [1979, p.1845-1846, eng] 34-1275
Crystal alignments in the fast ice of Arctic Alaska. Weeks, W.F., et al, [1979, 21p., eng] 34-1379
Sea ice properties. Wang, Y.S., [1979, 11p. + 24 slides, eng] 34-1591
Relation between the strengths of the orientation polarization and the infrared absorption of the O-H stretching vibrations of ice. Whalley, E., [1978, p.449-451, eng] 34-1604
Charged dislocation in ice. I. Existence and charge density measurement by X-ray topography. Itagaki, K., [1978, 12p., eng] 34-1608
Twin structures in ice. Furukawa, Y., [1979, p.259-265, jap] 34-2171
Mechanical properties of impure ice single crystals at high temperatures. Nakamura, T., [1979, p.293-324, jap] 34-2542
Crystal alignments in the fast ice of Arctic Alaska. Weeks, W.F., et al, [1980, p.1137-1146, eng] 34-2671
Anisotropic properties of sea ice in the 50-150 MHz range. Kovacs, A., et al, [1979, p.324-353, eng] 34-3054
Structural analysis of the ice encountered in Ridge Camp 1975. Nadreau, J.P., [1976, c70p., eng] 34-3108
Micromechanism of ice deformation under load. Zaretskii, IU.K., et al, [1976, p.200-210, rus] 34-3208
Exploring the Arctic for oil. Sklarewitz, N., [1980, p.2-5, eng] 34-3410
Isothermal changes in the structure and electrical properties of polycrystalline ice. Girs, S.P., et al, [1979, p.53-56, rus] 34-3570
Dynamic behaviour of dislocations in HF-doped ice Ih. Perez, J., et al, [1980, p.133-149, eng] 34-3805
Elastic constants of ice by Brillouin spectroscopy. Gammon, P.H., et al, [1980, p.159-167, eng] 34-3807
Water revisited. Stillinger, F.H., [1980, p.451-457, eng] 34-3854
Crystal orientation fabrics in relation to structures and strain, Griesgletscher, Valais, Switzerland. Hambrey, M.J., [1979, p.73-86, eng] 34-3975
Influence of the diffusion of vapor and heat on the morphology of ice crystals grown from the vapor. Gonda, T., [1980, p.173-181, eng] 34-4083

Ice crystals
Measuring the coefficients of directional light scattering in droplet and crystalline cloud media. Pavlova, L.N., [1979, p.698-701, eng] 34-122
Observations of rapid changes in the orientation and degree of alignment of ice particles along an earth-space radio propagation path. Cox, D.C., et al, [1979, p.5003-5010, eng] 34-413
Optical classification of natural ice. Bogorodskii, V.V., et al, [1979, p.341-347, rus] 34-882
Comments on the Climax and Wolf Creek Pass cloud seeding experiments. Hobbs, P.V., et al, [1979, p.1233-1237, eng] 34-891
Formation of edge dislocation dipoles in ice single crystals by heat treatment. Oguro, M., et al, [1979, p.1897-1907, eng] 34-1613
Ice initiation in unmixed undraft cores in northeast Colorado cumulus congestus clouds. Heymsfield, A.J., et al, [1979, p.2216-2229, eng] 34-1765
Investigation on the solubility of hydrochloric acid in ice. Krishnan, P.N., [1969, 111p., eng] 34-2070
Part 1. The effect of temperature and partial melting on velocity and attenuation in a simple binary system. Part. 2. Effect of temperature and pressure on elastic properties of polycrystalline and single crystal MgO. Spetzler, H.A.W., [1970, 258p., eng] 34-2133
Viscosity of the ice surface layer. Mantovani, S., et al, [1980, p.1077-1083, eng] 34-2389
Grain boundary sliding in polycrystalline materials. Sinha, N.K., [1979, p.825-842, eng] 34-2983
Dynamics of near-shore ice. Kovacs, A., et al, [1979, p.181-207, eng] 34-3051
Naleds in Central Asian and Kazakhstan mountains. Gorbunov, A.P., et al, [1979, p.175-181, rus] 34-3136
Proceedings of the All-Union symposium on the rheology of soils, 2nd, Tsakhkadzor, Oct. 7-10, 1975 [1976, 406p., rus] 34-3203
Micromechanism of ice deformation under load. Zaretskii, IU.K., et al, [1976, p.200-210, rus] 34-3208
Crystallization-film mechanism of water migration toward frost penetration front. Kaluzhnyi, I.L., et al, [1980, p.3-12, rus] 34-3458
Decay kinetics of excess electrons in crystalline ice. Warman, J.M., et al, [1980, p.1240-1248, eng] 34-3649
Mechanism of formation of visible-absorbing excess electrons in crystalline ice near 273K. Gillis, H.A., et al, [1980, p.1248-1252, eng] 34-3650
Constitutive relations for the non elastic deformation of polycrystalline ice. Le Gac, H., et al, [1980, p.51-59, eng] 34-3732
Critical stress intensity factors (K(Ic)) measurements at high loading rates for polycrystalline ice. Goodman, D.J., [1980, p.129-146, eng] 34-3738
Mechanical properties of polycrystalline ice. Mellor, M., [1980, p.217-245, eng] 34-3744
Mechanical model of creep of polycrystalline ice with cracking activity. Michel, B., [1980, p.246-264, eng] 34-3745
Direct spectroscopic observation of proton exchange and Bjerrum defect migration in cubic ice. Ritzhaupt, G., et al, [1980, p.6807-6808, eng] 34-3782
Constitutive laws of ice. Hutter, K., [1979, p.47-63, ger] 34-3973
Influence of the choice of glide plane on the theory of the velocity of dislocations in ice. Whitworth, R.W., [1980, p.521-528, eng] 34-4065
On the mechanism of dewatering colloidal aqueous solutions by freeze-thaw processes. Ezekwo, G., et al, [1980, p.1079-1088, eng] 34-4247

Ice cutting
Ice anchoring method and device. Lowe, G.E., et al, [1977, 6 col., eng] 34-270
Screw-driven vehicles for Siberia. Mavlenkov, A., [1979, 9p., eng] 34-1702
Construction of underwater crossings of main pipelines. [1970, 36p., rus] 34-2866
Ice chipper for road-cutting on sea ice. Bennett, J.D., [1974, 88p., eng] 34-3093
SEDCO ICSDV. Phase 1. Preliminary design study. [1975, var.p., eng] 34-3101
Arctic test results, Phase 1, Task D. [1975, c500p., eng] 34-3102

Ice dams
Ice-dammed lakes: a critical review of their nature and behaviour. Blachut, S.P., et al, [1976, 90p., eng] 34-1607
Ice movements and deglaciation of the central parts of Saltfjellet, Nordland, north Norway. Sveian, H., et al, [1979, p.1-20, nor] 34-1841
Short-range forecasting of fall and winter ice dam levels on the lower Volga at Chernyy Yar. Bukharitsin, P.I., [1980, p.90-95, rus] 34-3664

Ice dating
30,000-yr isotope climatic record from antarctic ice. Lorius, C., et al, [1979, p.644-648, eng] 34-1839
Antarctic operations, Nov. 1977-Feb. 1978. Lorius, C., et al, [1978, 10p., fre] 34-2135
New dating technique: cyclospectrometry. Yiou, F., et al, [1979, p.1128-1129, fre] 34-2517
Dating of Ross Ice Shelf cores by chemical analysis. Herron, M.M., et al, [1979, p.345-357, eng] 34-2837
Studying dust in ice covers and using it in ice age determination. Gordienko, F.G., [1979, p.259-268, rus] 34-3151

Ice deformation
Sea ice ridging over the Alaskan continental shelf. Tucker, W.B., et al, [1979, p.4885-4897, eng] 34-411
Mt. Logan field report 1975. Holdsworth, G., [1976, 21p., eng] 34-918
Form and motion of the Kolka Glacier after its surge and probable mechanism of this surge. Garelik, I.S., et al, [1974, p.296-311, eng] 34-1201
Rheological properties of ice. Zaretskii, IU.K., et al, [1979, p.179-191, rus] 34-1552
Annual report No.11; Contract N00014-7[illegible]-C-0234; NR 307-252. [1979, 53p., eng] 34-1748
Time-dependent deformation of ice domes. Hajdo, L.E., [1979, p.261-267, eng] 34-1764
Selecting the relationships between stresses and deformations in drifting ice cover. Khelsin, D.E., [1979, p.63-71, rus] 34-2000
Movement of dislocations in ice and its plastic deformation. Fukuda, A., [1979, p.239-244, jap] 34-2168
Observations within cavities at the bed of the glacier Osterdalsisen, Norway. Theakstone, W.H., [1979, p.273-281, eng] 34-2238
Physical and thermal properties of frozen soil and ice. Wolfe, L.H., et al, [1964, p.67-72, eng] 34-2602
Ice-sheet flow properties derived from borehole shear measurements combined with ice-core studies. Russell-Head, D.S., et al, [1979, p.117-130, eng] 34-2821
Role of shear heating in the dynamics of large ice masses. Yuen, D.A., et al, [1979, p.195-212, eng] 34-2827

Mass-balance aspects of Weddell Sea pack-ice. Ackley, S.F., [1979, p.391-405, eng] 34-2840
Static ice loading tests, Resolute Bay winter 9173/74. Lichtenberger, G.J., et al, [1974, 99p. + 7 appends., eng] 34-3095
Sea ice beam tests of January 1975. Macy, R.L., [1975, 272p., eng] 34-3104
Operational analysis of the drift and deformation of ice cover from repeated areal radar survey photographs. Borisov, R.A., et al, [1977, p.65-74, rus] 34-3309
Data on medium-scale deformations of ice covers in Arctic seas. Gorbunov, IU.A., et al, [1977, p.75-91, rus] 34-3310
Studying morphometric characteristics of summer ice cover in Arctic seas. Losev, S.M., et al, [1977, p.92-103, rus] 34-3311
Floating ice platforms for oil exploration in the Arctic Islands. Ekelund, M.J., et al, [1980, p.168-183, eng] 34-3323
Undulations on the McMurdo Ice Shelf near Scott Base, Antarctica. Holdsworth, G., et al, [1979, p.16-22, eng] 34-3680
Numerical model of Penelope ice viscometer flows. Brepson, R., [1980, p.28-37, eng] 34-3730
Constitutive relations for the non elastic deformation of polycrystalline ice. Le Gac, H., et al, [1980, p.51-59, eng] 34-3732
Rheological behaviour of ice at small strains. Gold, L.W., et al, [1980, p.117-128, eng] 34-3737
Mechanical model of creep of polycrystalline ice with cracking activity. Michel, B., [1980, p.246-264, eng] 34-3745
Bending and buckling of a wedge on an elastic foundation. Nevel, D.E., [1980, p.278-288, eng] 34-3747
Plastic limit analysis of sheet ice loads on conical structures. Ralston, T.D., [1980, p.289-308, eng] 34-3748
Flow of temperate ice in a vertical shaft with rough wall surfaces. Reeh, N., [1980, p.309-324, eng] 34-3749
Morphology and dynamics of ice rises. Martin, P.J., et al, [1980, p.33-45, eng] 34-3796
Regularities governing penetration of a hard body into ice at supercritical impact velocities. Khrapatyi, N.G., et al, [1980, p.5-9, rus] 34-4141
Field study of the physical properties, response to swell, and subsequent fracture of a single ice floe in the winter Bering Sea. Squire, V.A., et al, [1980, 56p., eng] 34-4245
Deformation properties of sea ice. Bogorodskiĭ, V.V., et al, [1980, p.1092-1097, rus] 34-4251

Ice density

Lake ice density in the environment - practical approaches to measurement and calculation. Adams, W.P., et al, [1979, p.15-24, eng] 34-723
Porosity and gas content of recent polar ice, applications to deep core analysis. Lebel, B., [1978, 80p., fre] 34-936
2500-4000/cm Raman and infrared spectra of low density amorphous solid water and of polycrystalline ice I. Sivakumar, T.C., et al, [1977, p.212-218, eng] 34-1605
Mass and density of ice-hoarfrost deposits under different physiographic conditions. Zakharov, A.G., et al, [1979, p.74-80, rus] 34-1820
Investigations of surface-wave dispersion in an inhomogeneous medium by the finite difference method. Acharya, H.K., et al, [1978, p.1381-1386, eng] 34-1848
Selecting the relationships between stresses and deformations in drifting ice cover. Khelsin, D.E., [1979, p.63-71, rus] 34-2000
Internal friction of snow and ice low frequency. Nakamura, T., et al, [1979, p.285-289, eng] 34-2541
Undulations on the McMurdo Ice Shelf near Scott Base, Antarctica. Holdsworth, G., et al, [1979, p.16-22, eng] 34-3680
Identification of ice VI on the Hugoniot of ice I(h). Gaffney, E.S., et al, [1980, p.407-409, eng] 34-3780

Ice detection

Present status of the bridge ice detection program at FHWA. Leifer, J.C., [1979, p.215-219, eng] 34-83
Microwave ice detector. Magenheim, B., [1977, 6 col., eng] 34-150
Detection of ice at sea by radar. Williams, P.D.L., [1979, p.275-287, eng] 34-960
Ice detection system warns motorists. Phillips, R., [1979, p.21, eng] 34-1140
Operational research investigation of the ice-detection capability and utility of the Surface Condition Analyzer (SCAN) system and its applicability to Navy-wide use. Mack, E.J., et al, [1979, 181p., eng] 34-1171
Remote sensing and analysis of oceanographic parameters from ERTS-1. Needham, B.H., [1975, p.798-802, eng] 34-1234
Mountain 79. [1979, p.9-93, eng] 34-1241
New developments in winter maintenance. Hoekstra, H., [1979, p.19-29, eng] 34-1242
Climatic chamber tests of a surface ice accretion measurement system. Tattelman, P., [1979, 50p., eng] 34-1300
Gamma dose rate test report for subsystem level evaluation of the ice detector B-1 program. Richardson, T.D., [1977, 28p., eng] 34-2366
Airflow effects on riming measurements by a wing tip-mounted detector on MC130E research airplane. Norment, H.G., [1979, 40p., eng] 34-2370

Ice deterioration

Intrinsic surface disorder in ice near the melting point. Golecki, I., et al, [1978, p.4229-4237, eng] 34-408
Growth and decay of "Katie's floeberg". Barrett, S.A., et al, [1978, 34p., eng] 34-775
Role of lake and naled ice in the formation of natural dynamic systems. Ivanets, B.S., et al, [1976, p.57-66, rus] 34-2011
Experiments involving melting of a large ice block towed in sea water. Fuhs, A.E., et al, [1980, p.249-264, eng] 34-2447
Ice structure and the formation of thawed patches. Komov, N.I., [1979, p.151-157, rus] 34-3010
Predicted timing of the disintegration of the lower reach of Columbia Glacier, Alaska. Meier, M.F., et al, [1980, 34p. + tables and graphs, eng] 34-3783
Ice balance of the Danish Strait during anomalous glaciation years. Antropova, L.V., et al, [1980, p.41-46, rus] 34-4182

Ice distribution

See: Ice conditions; Sea ice distribution

Ice domes

See: Pingos

Ice drills

Hand-held ice auger. Anderson, P.J., [1977, 6 col., eng] 34-262
Canadian Arctic field survey, May 17-June 23, 1969. Atwater, R.K., et al, [1969, 35p. + appends., eng] 34-322
Flame drilling through the Ross Ice Shelf. Browning, J.A., [1978, p.4-8, eng] 34-865
Rock thermophysics. Summaries of reports. [1973, 75p., rus] 34-1952
Thermal regime of wells and its control. Kudriashov, B.B., et al, [1973, p.3-5, rus] 34-1953
Research on deep thermal drilling of Antarctic ice. Kudriashov, B.B., et al, [1973, p.35-36, rus] 34-1958
Soviet glaciological investigations in 1978. Kotliakov, V.M., et al, [1979, p.5-12, rus] 34-2174
Drillships press close to moving ice zone for world's most costly wells. [1977, p.16-17, eng] 34-3015
1979 Greenland Ice Sheet Program. Phase 1: casing operation. Rand, J.H., [1980, 18p., eng] 34-3485

Ice edge

Oceanographic cruise of the USCGC *Glacier* to the marginal sea-ice zone of the Chukchi Sea: MIZPAC 78. Interim report for period July 1978-May 1979. Paquette, R.G., et al, [1979, 77p., eng] 34-275
Boundaries of ice and iceberg distribution in the North Atlantic Ocean. Kogan, B.A., et al, [1977, p.74-82, rus] 34-357
Using the "Toros" side-looking radar in studying ice drift in the southeastern Barents Sea. Zubakin, G.K., et al, [1977, p.83-89, rus] 34-358
Calculating basic components of ice balance in the Denmark Strait. Antropova, L.V., et al, [1977, p.90-107, rus] 34-359
Theory of melting ice drift. Ovsienko, S.N., et al, [1979, p.1066-1070, rus] 34-524
Upwelling: oceanic structure at the edge of the Arctic ice pack in winter. Buckley, J.R., et al, [1979, p.165-167, eng] 34-959
Selecting the relationships between stresses and deformations in drifting ice cover. Khelsin, D.E., [1979, p.63-71, rus] 34-2000
Margin of the Greenland ice sheet at Isua. Colbeck, S.C., et al, [1979, p.155-165, eng] 34-2824
Ice edge dynamics on the Amudar'ya River. Abramenkov, N.M., [1979, p.100-106, rus] 34-2888
Forecasting ice edge movement during the freezing of the Amudar'ya River. Abramenkov, N.M., [1979, p.107-120, rus] 34-2889
Oceanographic characteristics in the Caspian Sea near the ice edge. Kosarev, A.N., et al, [1979, p.170-180, rus] 34-3185
Shifting of ice edges and ice cover boundaries. Gorbunov, IU.A., et al, [1977, p.133-140, rus] 34-3316
Ice spirals off Barrow as seen by satellite. Solomon, H., et al, [1980, p.184-188, eng] 34-3324
Thermal state of waters in the northern Greenland Sea in February 1972 (from data obtained along the Barentsburg-ice edge cross-section). [Anes, A.V., [1979, p.37-42, rus] 34-3587
Variation of sea surface temperature (from airborne radiation measurements). Gorbunov, IU.A., et al, [1979, p.47-54, rus] 34-3588
Physical oceanography of the seasonal sea ice zone. McPhee, M.G., [1980, p.93-132, eng] 34-3627
Arctic hydroacoustics. Diachok, O., [1980, p.185-207, eng] 34-3630
Investigation of ice drift in the southeastern part of the Barents Sea with the aid of a "Toros" peripheral scanning radar station. Zubakin, G.K., et al, [1980, 7p., eng] 34-3898
Forecasts and calculations of hydrometeorological elements of northern seas. Terziev, F.S., ed, [1980, 140p., rus] 34-4176
Ice balance of the Danish Strait during anomalous glaciation years. Antropova, L.V., et al, [1980, p.41-46, rus] 34-4182
Forecasting ice conditions and ice edge position in the Danish Strait for fall-winter periods. Kogan, B.A., et al, [1980, p.47-54, rus] 34-4183
Space-time characteristics of seasonal ice conditions in the North Atlantic. Orlov, N.F., [1980, p.55-59, rus] 34-4184
Forecasting ice edge position in the Labrador Sea for a decade. Orlov, N.F., [1980, p.60-64, rus] 34-4185

Ice elasticity

Landfast ice movement: Mackenzie delta 1973-74. Spedding, L.G., [1975, 127p. + figs., eng] 34-297
Results of model ice sheet properties research. Edwards, R.Y., Jr., et al, [1972, c130p., eng] 34-579
Moving load experiments on Arctic sea ice, Resolute Bay, winter 1975/76. Lichtenberger, G.J., et al, [1976, c115p., eng] 34-3106
Numerical model of Penelope ice viscometer flows. Brepson, R., [1980, p.28-37, eng] 34-3730
Constitutive relations for the non elastic deformation of polycrystalline ice. Le Gac, H., et al, [1980, p.51-59, eng] 34-3732
Mechanical properties of polycrystalline ice. Mellor, M., [1980, p.217-245, eng] 34-3744
Application of fracture mechanics to ice problems. Miller, K.J., [1980, p.265-277, eng] 34-3746
Elastic constants of ice by Brillouin spectroscopy. Gammon, P.H., et al, [1980, p.159-167, eng] 34-3807
Constitutive laws of ice. Hutter, K., [1979, p.47-63, ger] 34-3973
Long-period gravity waves in ice-covered sea. Bates, H.F., et al, [1980, p.1095-1100, eng] 34-4073

Ice electrical properties

Remote estimation of the properties of sea ice, Beaufort Sea field trip report: March 1979. Rossiter, J.R., et al, [1979, 35p., eng] 34-19
Electrical properties of ice-solid interfaces. Camp, P.R., et al, [1979, p.35-43, eng] 34-56
Studies of ice by means of radio echo sounding. Gudmandsen, P., [1977, p.198-211, eng] 34-236
Intrinsic surface disorder in ice near the melting point. Golecki, I., et al, [1978, p.4229-4237, eng] 34-408
In-situ measurements of the activation energy for D.C. conduction in polar ice. Bentley, C.R., [1979, p.237-246, eng] 34-539
Charged dislocation in ice: 1. Existence and charge density measurement by X-ray topography. Itagaki, K., [1978, 12p., eng] 34-1608
Charge separation associated with secondary ice crystal production. Hallett, J., et al, [1979, p.2230-2235, eng] 34-1766
Ferroelectric transition in hexagonal ice Ih. Hentschel, H.G.E., [1979, p.401-411, eng] 34-2504
Dielectric properties of heavy ice Ih (D2O ice). Kawada, S., [1979, p.1850-1856, eng] 34-2526
Recrystallisation and electrical behaviour of glacier ice. Reynolds, J.M., et al, [1980, p.63-64, eng] 34-2538
Oil pooling under sea ice. Kovacs, A., [1979, p.310-323, eng] 34-3053
Anisotropic properties of sea ice in the 50-150 MHz range. Kovacs, A., et al, [1979, p.324-353, eng] 34-3054
Dielectric relaxation spectrum of ice measured with linear blocking layers. Gross, G.W., et al, [1980, p.914-927, eng] 34-3089
Polarization processes in the ice lattice. 1. Approach by thermodynamics of irreversible processes. New experimental verification by means of a universal relation. Hubmann, M., [1979, p.127-139, eng] 34-4001
Polarization processes in the ice lattice. 2. Approach by Kirkwood's theory. Comparison with the results from thermodynamics of irreversible processes. Hubmann, M., [1979, p.141-146, eng] 34-4002
Break-up of the Yukon River at the Haul Road Bridge: 1979. Stephens, C.A., et al, [1979, 22p. + Figs., eng] 34-4193

Ice erosion

Ice-foot processes. Observations of erosion on a rocky coast, Disko, West Greenland. Nielsen, J., [1979, p.321-331, eng] 34-966
Sediment transport by intertidal ice. Rosen, P.S., [1979, p.133-147, eng] 34-2037
Geologic framework, hydrocarbon potential, environmental conditions, and anticipated technology for exploration and development of the Beaufort Shelf north of Alaska. Grantz, A., et al, [1980, 42p., eng] 34-2721
Ice gouge characteristics in the Alaskan Chukchi Sea. Toimil, L., [1979, p.863-876, eng] 34-3032

Ice evaporation

See: Ice sublimation

Ice floes

Beaufort Sea summer ice testing project. [1973, 16p. + figs. and tables, eng] 34-419
Davis Strait ice and oceanographic observations, Winter 1976-77. [1977, 96p. + appends., figs., and tables, eng] 34-427
Ice climatology of the Beaufort Sea. Markham, W.E., [1975, 87p., eng] 34-507
Studying the submergence of ice floes under log booms. [Akhontov, S.A., [1969, p.30-34, rus] 34-586

Ice floes *(cont.)*
Glaciological and marine biological studies at perimeter of Dronning Maud Land, Antarctica. Final report. Orheim, O., [1977, 17p., eng] 34-772
Use of satellite infrared imagery in the oceanographic study of the Chukchi Sea. Garrison, B.R., et al, [1975, p.826-834, eng] 34-1235
Asymmetric dynamics of ice cover. Ivchenko, V.O., et al, [1979, p.99-106, rus] 34-2003
Modeling sea-ice features and processes. Rothrock, D.A., [1979, p.359-375, eng] 34-2838
Simple model to calculate the compactness of ice floes. Neralla, V.R., et al, [1979, p.407-414, eng] 34-2841
Ice loads on bridge piers in the Baykal Amur railroad area. Korzhavin, K.N., [1977, p.3-17, rus] 34-3169
Studying the mechanism of ice floe entrainment into submerged openings. Tsilikin, V.F., [1978, p.98-102, rus] 34-3351
Studies on interaction between ice floes, 1. Takizawa, T., [1979, p.143-152, jap] 34-3500
Studies on interaction between ice floes. 2. Periodical change in horizontal divergence of an ice field accompanied by intertial periodical motion. Takizawa, T., et al, [1979, p.153-159, jap] 34-3501
Freshwater ice growth, motion, and decay. Ashton, G.D., [1980, p.261-304, eng] 34-3660
Break-up of the Yukon River at the Haul Road Bridge: 1979. Stephens, C.A., et al, [1979, 22p. + Figs., eng] 34-4193
Field study of the physical properties, response to swell, and subsequent fracture of a single ice floe in the winter Bering Sea. Squire, V.A., et al, [1980, 56p., eng] 34-4245

Ice fog
Meteorological visibility range of 4 km and less at airports of West Siberia. Martem'ianova, E.S., [1973, p.243-250, rus] 34-114
Fog dissipation with surface-active substances. Bulkov, M.V., et al, [1979, p.106-112, rus] 34-252
Solid waste disposal in Alaska. Grundwaldt, J.J., et al, [1975, p.331-356, eng] 34-637
Air pollution in Alaska. Benson, C.S., et al, [1979, p.94-113, eng] 34-1309
Fog at Cape Schmidt. Makarov, A.K., et al, [1979, p.61-68, rus] 34-3530

Ice forecasting
Icing of fishing vessels: an analysis of reports from Canadian east coast waters. Stallabrass, J.R., [1979, 23p. + 20 figs. and 9p. appends., eng] 34-8
New method of forecasting ice-hoarfrost deposits on power lines. Kolmogorova, I.M., et al, [1975, p.108-113, rus] 34-230
Boundaries of ice and iceberg distribution in the North Atlantic Ocean. Kogan, B.A., et al, [1977, p.74-82, rus] 34-357
Calculating basic components of ice balance in the Denmark Strait. Antropova, L.V., et al, [1977, p.90-107, rus] 34-359
Eastern Arctic area 15- and 30-day ice forecasting guide. Mitchell, P.A., [1979, 259p., eng] 34-509
Committee on Icing Forecasts of the Aircraft Icing Specialists Workshop, 19-21 July 1978, Lewis Research Center, NASA, Cleveland, Ohio. Hilsenrod, A., et al, [1979, p.796-799, eng] 34-652
Freeze-up forecasting on the Great Lakes using weighted mean temperatures. Rogers, J.C., [1975, 16 leaves, eng] 34-735
Batura Glacier in the Karakoram Mountains and its variations. [1979, p.958-974, eng] 34-940
Effect of varying low level wind fields on the opening and closing of the ice cover in the western Weddell Sea. Kyle, T.H., [1974, 91p., eng] 34-944
Basis for forecasting the Arctic sea ice over a few months to many years. Lamb, H.H., [1979, 84p., eng] 34-1046
Physical and mechanical properties of the ice cover of the Kara and Laptev Seas. Peschanskiĭ, I.S., et al, [1974, p.322-333, eng] 34-1203
Alaska's sea ice. Webster, B.D., [1979, p.29-40, eng] 34-1304
Ice forecasts for Arctic seas and their practical use. Kirillov, A.A., [1977, p.75-83, eng] 34-1503
Study of frost and ice prediction system on the Rouge River bridge. Final report. Crane, H.L., et al, [1974, 42p., eng] 34-1735
Choice of algorithms for numerical determination of size distribution and compactness of ice floes. Khelsin, D.E., [1979, p.109-117, eng] 34-1892
Determination of winter accretion of ice in leads with consideration of hummocking. Alekseev, G.V., et al, [1979, p.158-163, eng] 34-1896
Sea ice. Part 2: ice distribution and forecast services, North American Arctic waters. Wittmann, W., et al, [1973, p.343-355, eng] 34-1961
Sea ice. Part 3: ice distribution and forecast services, Eurasian waters. Wittmann, W., et al, [1974, p.219-229, eng] 34-1962
Short range numerical forecasts of ice processes. Maslovskiĭ, M.I., [1979, p.57-62, rus] 34-1999
On predicting iceberg drift. Mountain, D.G., [1980, p.273-282, eng] 34-2449
Western Ross Sea and McMurdo Sound ice forecasting guide. Perchal, R.J., [1975, 132p., eng] 34-2453
Analysis and prediction of freeze-over dates of Minnesota lakes using LANDSAT imagery and weather information. Fu, A.Y.K., [1979, 188p., eng] 34-2474
Eastern-western Arctic sea ice analysis. [1978, 104p., eng] 34-2511
Simple model to calculate the compactness of ice floes. Neralla, V.R., et al, [1979, p.407-414, eng] 34-2841
Long range forecasting of ice conditions in Arctic seas. Kirillov, A.A., et al, [1979, p.5-20, rus] 34-2994
Ice-condition anomaly index for Arctic seas. Kovalev, E.G., [1979, p.21-29, rus] 34-2995
Connection between ice conditions of the Wrangel area and atmospheric circulation indices of preceding seasons. Santsevich, T.I., et al, [1979, p.30-39, rus] 34-2996
Peculiarities of ice conditions in the Southern Ocean and their relation to atmospheric circulation. Romanov, A.A., [1979, p.40-46, rus] 34-2997
Results of using cyclic oscillation data in long range forecasts of ice conditions in Arctic seas. Kovalev, E.G., [1979, p.63-65, rus] 34-2999
Maximum heat content of the Barents Sea active layer as an indication of future hydrometeorological processes. Moskal', T.N., [1979, p.66-80, rus] 34-3000
Seasonal and interannual variations of basic ice regime elements of the Southern Ocean. Romanov, A.A., [1979, p.100-108, rus] 34-3003
Influence of water, salt and heat transfer on the dates of stable ice formation in the Kara Sea. Stepanov, S.I., [1979, p.121-125, rus] 34-3006
Shifting of ice edges and ice cover boundaries. Gorbunov, IU.A., et al, [1977, p.133-140, rus] 34-3316
Hydrometeorological forecasting. Kupetskiĭ, V.N., [1979, p.13-22, rus] 34-3527
Hydrosynoptic method of compiling sea ice forecasts. Kupetskiĭ, V.N., [1979, p.102-108, rus] 34-3533
Forecasting ice formation at the Kolyma River bay-mouth bar. Furmanov, O.M., [1979, p.130-132, rus] 34-3537
Stability of inertial bonds among massive ice areas. Furmanov, O.M., [1979, p.135-136, rus] 34-3539
Errors occurring in extrapolating the air temperature-wind velocity complex over the open sea area of the shelf. Borisenko, M.M., et al, [1979, p.76-78, rus] 34-3580
Ice conditions of rivers in the West Siberian taiga zone. Martynov, B.D., [1978, p.63-74, rus] 34-3610
Method for the long-range forecasting of the dates of ice appearance in the rivers of the Northeastern USSR. Savchenkova, E.I., [1978, p.47-50, eng] 34-3962
Cloud/icing/visibility analysis systems (CIVAS) and forecast development plan. Mount, W.D., et al, [1980, 64p., eng] 34-3998
Surge lowering of levels in the Barents and White seas. Potanin, V.A., et al, [1980, p.13-20, rus] 34-4178
Ice balance of the Danish Strait during anomalous glaciation years. Antropova, L.V., et al, [1980, p.41-46, rus] 34-4182
Forecasting ice conditions and ice edge position in the Danish Strait for fall-winter periods. Kogan, B.A., et al, [1980, p.47-54, rus] 34-4183
Forecasting ice edge position in the Labrador Sea for a decade. Orlov, N.F., [1980, p.60-64, rus] 34-4185

Ice formation
Icing of fishing vessels: an analysis of reports from Canadian east coast waters. Stallabrass, J.R., [1979, 23p. + 20 figs. and 9p. appends., eng] 34-8
Ice mechanics. Michel, B., [1978, 499p., eng] 34-9
Magnitude and significance of the terrestrial snowpack and white ice contribution to the phosphorus budget of a lake in the Canadian Shield region of the Kawartha Lakes. English, M.C., [1978, p.173-189, eng] 34-41
Zonal characteristics of polygonal ice-wedge relief in Western Siberia. Shamanova, I.I., [1979, p.82-87, eng] 34-529
Expansion joints in highway bridges. Shesterikov, V.I., [1978, 151p., rus] 34-886
Upward migration of moisture and heaving in frozen soils. Morel-Seytoux, H.J., [1979, p.328-335, eng] 34-1030
Ice seal for rotating shafts. Harbage, A.B., Jr., [1979, 35p., eng] 34-1042
Study of the vacuum-freezing high pressure ice-melting process. Cheng, C.Y., [1979, 70p., eng] 34-1142
Surface aeration of domestic wastes, Section 1: the Bonnybrook Sewage Treatment Plant. Meckelborg, E.I., [1974, p.220-229, eng] 34-1475
Further icing experiments on an unheated non-rotating cylinder. Stallabrass, J.R., et al, [1979, 57 leaves, eng] 34-1506
Construction of an ice-retardant overlay. Nittinger, R.J., [1979, 28p., eng] 34-1573
Electromagnetic radiation of snow and ice during dynamic processes. Kachurin, L.G., et al, [1979, p.583-585, rus] 34-1638
Lake Champlain ice formation and ice free dates and predictions from meteorological indicators. Bates, R.E., et al, [1979, 21p., eng] 34-1745
Ice conditions as an index of recent trends of climatic cooling on the lower reaches of the Yenisei. Antonov, V.S., [1979, p.98-105, eng] 34-1902
Moisture transfer and ice segregation in the frozen zone of thawing ground. Ershov, E.D., et al, [1979, p.179-192, rus] 34-1926
Sea ice. Part 1: major features and physical properties. Wittmann, W., et al, [1973, p.125-134, eng] 34-1960
Role of lake and naled ice in the formation of natural dynamic systems. Ivanets, B.S., et al, [1976, p.57-66, rus] 34-2011
World Ocean and Pleistocene glacial epochs. Zakharov, V.F., [1978, 64p., rus] 34-2106
Thermal regime of the World Ocean during the last glaciation maximum. Kagan, B.A., et al, [1979, p.716-720, rus] 34-2116
Classification of cryogenic structures in the aeration zone of peat deposits. Kmitovenko, A.T., et al, [1979, p.8-11, rus] 34-2131
Data on glaciological processes in the recrystallization zone of ice formation in highlands. Diurgerov, M.B., [1979, p.52-56, rus] 34-2180
Late quaternary ice cover of the Pamirs. Grosval'd, M.G., et al, [1979, p.85-97, rus] 34-2187
Statistical methods of probable use for understanding remote sensing data. Gaver, D.P., [1979, 40p., eng] 34-2369
Neoglaciation in western Norway—preliminary results. Hole, N., et al, [1979, p.213-215, eng] 34-2387
Studies of silver iodide ice-forming activity: verification of theory. Gorbunov, B.Z., et al, [1980, p.71-77, eng] 34-250*
Study on occurring condition of metallic inclusions in anti-snow type composition brake shoes which cause the hollowing wear at wheel treads. Idemura, K., et al, [1977, p.45, eng] 34-2656
Icicle formation in tunnels under train running. Shinojima, K., [1973, p.121-122, eng] 34-2663
Chemical composition of ground ice as an indication of ice formation conditions and origin of the enclosing rocks. Danilov, I.D., et al, [1980, p.119-126, rus] 34-2767
Formation, flow, and disintegration of ice shelves. Robin, G. de Q., [1979, p.259-271, eng] 34-2829
Formation of hail nuclei. Tlisov, M.I., [1979, p.100-107, rus] 34-2878
Formation of ice on electrical conductors during heavy falls of wet snow. Kemp, A.K., [1980, p.69-74, eng] 34-2903
Origin of ground ice deposits in the Muysk Basin. An, V.V., [1978, p.46-57, rus] 34-2945
Ground ice in the area of a mountain pass in the Suntar-Khayat Range. Gordeev, P.P., [1978, p.123-130, rus] 34-2953
Calculating sea ice salinity. Smetannikova, A.V., et al, [1979, p.117-120, rus] 34-3005
Influence of water, salt and heat transfer on the dates of stable ice formation in the Kara Sea. Stepanov, S.I., [1979, p.121-125, rus] 34-3006
Winter ice jams on the Gunnison River. Burgi, P.H., [1979, 30p., eng] 34-3030
Ice platform construction, Resolute Bay, N.W.T., November-December 1974. Wasilewski, B.R., [1975, 109p., eng] 34-3103
Cave glacier fluctuations in Kuznetsk-iy Alatau. Dmitriev, V.E., [1979, p.181-185, rus] 34-3137
Oceanographic characteristics in the Caspian Sea near the ice edge. Kosarev, A.N., et al, [1979, p.170-180, rus] 34-3185
Extending the useful life of DYE-2 to 1986. Part 2: 1979 findings and final recommendations. Tobiasson, W., et al, [1980, 37p., eng] 34-3334
Glacio-climatology as a connecting scientific discipline, its problems and goals. Tronov, M.V., [1977, p.3-11, rus] 34-3380
Loess-ice formation of East Siberia in Late Pleistocene and Holocene. Tomirdiaro, S.V., [1980, 184p., rus] 34-3478
Stability of inertial bonds among massive ice areas. Furmanov, O.M., [1979, p.135-136, rus] 34-3539
Errors occurring in extrapolating the air temperature-wind velocity complex over the open sea area of the shelf. Borisenko, M.M., et al, [1979, p.76-78, rus] 34-3580
Sea ice growth, drift, and decay. Hibler, W.D., III, [1980, p.141-209, eng] 34-3658
Freshwater ice growth, motion, and decay. Ashton, G.D., [1980, p.261-304, eng] 34-3660
Organization of a natural kaolinite-iron oxide system in dry and wet states. Relationship between melting temperature of ice and pore size. Hornshaw, L.G., et al, [1980, p.847-850, fre] 34-3777
Finite element method of calculating ground freezing depth. Rudykh, O.L., et al, [1978, p.81-85, rus] 34-3892
Results of application of infrared equipment for the investigation of hydrologic objects. Bogorodskiĭ, V.V., et al, [1978, p.77-79, eng] 34-3969
Icicles as crystallization phenomena. Knight, C.A., [1980, p.193-198, eng] 34-4003
Summary of Great Lakes weather and ice conditions, winter 1977-78. Assel, R.A., et al, [1979, 123p., eng] 34-4075
Ice balance of the Danish Strait during anomalous glaciation years. Antropova, L.V., et al, [1980, p.41-46, rus] 34-4182
See also: Freezing

Ice free reaches
See: Polynyas

Ice friction
Steel-ice friction coefficients from field and laboratory research. Grothues-Spork, H., [1977, p.17-24, ger] 34-1935

Internal friction of ice. Oguro, M., [1979, p.233-237, jap] 34-2167
Friction of ice. Tushima, K., [1979, p.245-251, jap] 34-2169
Sediment transport and bed forms under ice cover. Song, G.B., [1978, 79p., eng] 34-2476
Internal friction of snow and ice low frequency. Nakamura, T., et al, [1979, p.285-289, eng] 34-2541
Experimental study of river ice friction. Korzhavin, K.N., et al, [1977, p.25-36, rus] 34-3171
Laboratory investigation of river shoreline ice jam forces. Stewart, D.M., [1980, 172p., eng] 34-3682
Modelling the interaction between ice and ships. Edwards, R.Y., Jr., [1980, p.60-81, eng] 34-3733
Danish icebreaker design. Kure, K., et al, [1980, p.194-204, eng] 34-3742

Ice gouging

See: Ice scoring

Ice growth

Morphological characteristics of ice grown from an impure melt. Timco, G.W., [1978, 25p. + 26 figs., eng] 34-7
Extent and growth pattern of landfast ice in the southern Beaufort Sea--winter 1972-73. Spedding, L.G., [1974, 31p. + appends., eng] 34-415
Development of ice by cryostatic pressure in northeastern Wisconsin and its effect on unconsolidated shore bluffs. Stieglitz, R.D., [1978, p.645-647, eng] 34-660
Growth and decay of "Katie's floeberg". Barrett, S.A., et al, [1978, 34p., eng] 34-775
Growth rates and characteristics of ice on the Ottauquechee and Winooski Rivers of Vermont during winter 1977-78. Deck, D., [1978, 30p., eng] 34-1107
Equilibrium surface temperature climate model applied to first year sea ice growth. Miller, J.D., [1979, 183p., eng] 34-1295
Copeland cut test ice boom design criteria and data analysis, winter, 1974-75; Final report. Uzuner, M.S., [1975, 2 vols., eng] 34-1799
Steady state ice layer profile on a temperature plate in a forced convection flow. Hirata, T., et al, [1979, p.1425-1443, eng] 34-1846
Growth of ice in a saltwater drop falling in an organic phase. Bustany, S.T., et al, [1979, p.439-446, eng] 34-2428
Core drilling through the Ross Ice Shelf (Antarctica) confirmed basal freezing. Zotikov, I.A., et al, [1980, p.1463-1465, eng] 34-2485
Chemical composition of injection ice. Anisimova, N.P., et al, [1978, p.125-137, rus] 34-2930
Cryogenic landscapes of the Baykal Amur railroad area in the Turan Range and their economic development. Nekrasov, I.A., et al, [1978, p.34-46, rus] 34-2944
First observations of fluctuations of Karabatkak Glacier, Tien Shan, under a new program. Bakov, E.K., et al, [1979, p.165-170, rus] 34-3134
Preliminary study of ice grown by droplet accretion using water-insoluble particles as tracer. Prodi, F., et al, [1980, p.284-289, eng] 34-3202
Electron microscope studies of low temperature ice modification. Girs, S.P., et al, [1979, p.63-67, rus] 34-3572
Snow density variations over ice covers. Tsurikov, V.L., [1979, p.155-161, rus] 34-3706
Field study of brine drainage and oil entrainment in first-year sea ice. Martin, S., [1979, p.473-502, eng] 34-3786
Water migration, formation of texture and ice segregation in freezing and thawing clayey soils. Ershov, E.D., et al, [1980, p.159-175, eng] 34-3839

Ice hardness

Hardness of ice and a solar ice melter. Robinson, W.H., et al, [1979, p.4-8, eng] 34-3677

Ice heat flux

Thermodynamic model of sea ice. Maykut, G.A., [1969, 214p., eng] 34-2071
Heat exchange between ice cover and atmosphere in East Antarctica. Aver'ianov, V.G., [1979, p.91-96, rus] 34-2215

Ice heat loss

Heat exchange between ice cover and atmosphere in East Antarctica. Aver'ianov, V.G., [1979, p.91-96, rus] 34-2215

Ice II-IX

See: High pressure ice

Ice islands

Ice drift in the presence of ice hummocks. Gorbunov, IU.A., et al, [1979, 15p., eng] 34-133
Ice island count southern Beaufort Sea 1974. Spedding, L.G., [1975, 14p. + figs. and slides, eng] 34-303
Ice island count southern Beaufort Sea 1975. Spedding, L.G., [1976, 14p. + figs., eng] 34-304
Ice island count southern Beaufort Sea 1976. Spedding, L.G., [1977, 50p., eng] 34-305
Ice island count, southern Beaufort Sea--1973. Spedding, L.G., [1974, 54p., eng] 34-416
Ice island count, south Beaufort Sea, 1972. Barton, R., et al, [1972, 11p. + charts and photos., eng] 34-484
Feasibility study: exploratory drilling systems, Beaufort Sea. [1971, c430p., eng] 34-570
Ice islands of the Arctic: Alaskan Air Command's Arctic experience. Wise, M.L., [1979, 118p., eng] 34-1315
Floating ice platforms: offshore oil exploration. Masterson, D.M., et al, [1980, p.133-143, eng] 34-2410
Ice platform construction, Resolute Bay, N.W.T., November-December 1974. Wasilewski, B.R., [1975, 109p., eng] 34-3103
Floating ice platforms for oil exploration in the Arctic Islands. Ekelund, M.J., et al, [1980, p.168-183, eng] 34-3323

Ice jams

Studying the submergence of ice floes under log booms. IAkhontov, S.A., [1969, p.30-34, rus] 34-586
Some potential ice problems associated with hydroelectric development in Alaska. Osterkamp, T.E., [1977, p.4-6, eng] 34-690
On some rules governing the formation of ice jams and the computation of the type of preventive measures to be taken. Tsykin, E.N., et al, [1974, p.334-346, eng] 34-1204
Catalog of spring and fall ice jamming on USSR rivers. Vol. I. The European USSR. Sokolov, A.A., ed, [1976, 260p., rus] 34-2112
Ice strength determination allowing for climatic factors. Kukhtina, L.P., et al, [1980, p.41-42, rus] 34-2615
Ice protection of power line supports. Marfin, N.I., [1979, 93p., rus] 34-2870
Ice cover contraction effect on icebreaker jamming. Voevodin, V.A., et al, [1979, p.126-133, rus] 34-3007
Winter ice jams on the Gunnison River. Burgi, P.H., [1979, 30p., eng] 34-3030
Drift ice features in the Caniapiscau. Laverdière, C., et al, [1979, p.9-11, fre] 34-3062
Ice loads on structures of the Baykal Amur railroad. Korzhavin, K.N., ed, [1977, 121p., rus] 34-3168
Forecasting ice jam conditions in front of Baykal Amur railroad structures. Trofnin, V.K., [1977, p.18-24, rus] 34-3170
Experience of using an ice protection dam in the lower course of the Yenisey River. Samochkin, V.M., et al, [1977, p.51-55, rus] 34-3174
Studying the mechanism of ice floe entrainment into submerged openings. Tsilikin, V.F., [1978, p.98-102, rus] 34-3351
Ice conditions of rivers in the West Siberian taiga zone. Martynov, B.D., [1978, p.63-74, rus] 34-3610
Freshwater ice growth, motion, and decay. Ashton, G.D., [1980, p.261-304, eng] 34-3660
Short-range forecasting of fall and winter ice dam levels on the lower Volga at Chernyy Yar. Bukharitsin, P.I., [1980, p.90-95, rus] 34-3664
Laboratory investigation of river shoreline ice jam forces. Stewart, D.M., [1980, 172p., eng] 34-3682
Use of ice jam typification from aircraft observation data in forecasting maximum stages in the Lena River. Rudnev, A.S., [1978, p.53-56, eng] 34-3964
Physical hydraulic model study of an ice-covered river. Johnson, R.P., et al, [1980, p.431-440, eng] 34-4161

Ice lenses

Some aspects of frost heave problems in road foundations. Jagannatha Rao, P., [1976, p.293-307, eng] 34-212
Geotechnical studies for freezing procedures. Huder, J., [1979, p.77-98, ger] 34-1321
Geotechnical studies. Huder, J., [1979, p.31-42, ger] 34-1332
Upper limits of heaving pressure obtained by observing pore water pressure under partial soil freezing. Takashi, T., et al, [1979, p.277-287, jap] 34-2173
Glacial mudflows, not related to glacier-damned lakes, in the Gerkhozhan-Su Basin, North Caucasus. Fleishman, S.M., et al, [1979, p.195-198, rus] 34-2205
Recent relief-forming processes in Siberia. Ivanovskii, L.N., ed, [1978, 139p., rus] 34-2293
Frost heave in Transbaikal steppes. Bazhenova, O.I., [1978, p.109-126, rus] 34-2298
Proposed size classification for the texture of frozen earth materials. McGaw, R.W., [1979, p.267-275, eng] 34-2339
Stratigraphy of a silt-cored palsa, Atlin region, British Columbia, Canada. Seppälä, M., [1980, p.357-365, eng] 34-3872

Ice loads

Reinforced ice matrix. Hill, W.L., [1977, 4 col., eng] 34-264
Mathematical model to describe the behavior of a moving ice field encountering a conical structure. Kim, J.K., et al, [1973, 2 vols., eng] 34-294
Ice adhesion study. [1973, 88p., eng] 34-295
Ice forces on offshore monopods and piles. [1973, c.20p., eng] 34-481
Model experiments to determine the forces exerted on structures by moving ice fields. Edwards, R.Y., Jr., et al, [1972, 83p. + appends., eng] 34-572
Ice forces on bridge piers. Podolny, W., Jr., [1979, p.341-342, 347-348, eng] 34-700
Power transmission lines in high mountains. Davidian, D.B., [1979, 188p., rus] 34-721
Determining thickness of icing when designing 0.4 to 35 kv overhead lines. Narozhnyi, V.B., [1979, p.63-64, rus] 34-855
Meteorological conditions for the formation of glaze-hoarfrost deposits in the lower 500-meter layer of the atmosphere. Degtiarev, A.D., et al, [1979, p.27-34, rus] 34-1086
Offshore structures in ice. Schwarz, J., [1976, p.469-479, eng] 34-1164
Designing gas pipeline crossings of major river valleys in the North. Kondrat'ev, V.G., et al, [1979, p.30-31, rus] 34-1183
Water area drift ice protection device. Ivanov, L.V., et al, [1976, 4 col., rus] 34-1223
On propulsion of icebreakers. Aaraksinen, K., et al, [1976, p.194-202, eng] 34-1293
[Proceedings]. [1979, 9 papers, eng] 34-1587
Sea ice properties. Wang, Y.S., [1979, 11p. + 24 slides, eng] 34-1591
Sea ice loads. Ralston, T.D., [1979, 27p. + 34 slides, eng] 34-1592
Island defence and monitoring. Templeton, J.S., III, [1979, 13p. + 20 slides, eng] 34-1595
Production islands. Jahns, H.O., [1979, 16p. + 23 slides, eng] 34-1596
Symposium on Human Settlements Planning and Development in the Arctic. [1978, c455p., eng] 34-1767
General and applied climatology. Kobysheva, N.V., ed, [1979, 104p., rus] 34-1814
Building code requirements concerning ice loads on hydraulic structures. Kukhtina, L.P., [1979, p.17-20, rus] 34-1817
Calculating the icing of tall structures from indirect data. Glukhov, V.G., et al, [1979, p.67-73, rus] 34-1819
Regionalization of the USSR according to icing. Rudneva, A.V., [1979, p.86-91, rus] 34-1822
Reliability of 6 kV power lines in coal mines in glaze development areas. Manatskov, B.M., [1972, p.110-117, rus] 34-1906
Icing of a cable. Poots, G., et al, [1976, p.203-217, eng] 34-1969
Development and test of fiberglass low-impact resistant towers. Rogers, E.T., et al, [1979, 77p., eng] 34-2267
Glaze-wind forces on power lines in Central Asia. Leukhina, G.N., [1979, p.67-72, rus] 34-2413
Ice strength determination allowing for climatic factors. Kukhtina, L.P., et al, [1980, p.41-42, rus] 34-2615
Ice protection of power line supports. Marfin, N.I., [1979, 93p., rus] 34-2870
Especially dangerous icings in the Crimean mountains. Koshenko, A.M., [1977, p.3-12, rus] 34-2890
Icebreaker experience as a guide to sea ice forces on structures. Gerwick, B.C., Jr., et al, [1979, p.622-637, eng] 34-3031
Naleds and countermeasures. Shushakov, E.V., [1979, 64p., rus] 34-3073
Static ice loading tests, Resolute Bay, winter 9173-74. Lichtenberger, G.J., et al, [1974, 99p. + 7 appends., eng] 34-3095
Vertical load bearing capacity tests of natural ice and of artificial-natural ice laminates, Resolute Bay, winter 1974/75. Lichtenberger, G.J., et al, [1976, c320p. + 6 appendices, eng] 34-3105
Field studies of the strength and physical properties of a multi-year ice pressure ridge in the southern Beaufort Sea. Gladwell, R.W., [1977, c90p., eng] 34-3107
Report on Soviet glaciological studies in 1975-1978. [1979, p.5-34, rus] 34-3116
Ice loads on structures of the Baykal Amur railroad. Korzhavin, K.N., ed, [1977, 121p., rus] 34-3168
Ice loads on bridge piers in the Baykal Amur railroad area. Korzhavin, K.N., [1977, p.3-17, rus] 34-3169
Forecasting ice jam conditions in front of Baykal Amur railroad structures. Trofnin, V.K., [1977, p.18-24, rus] 34-3170
Selecting design values of air temperature differences when evaluating static loads of thermal ice expansion on bridge piers. Ptukhin, F.I., [1977, p.37-46, rus] 34-3172
Static ice cover loads on isolated structures. Ivchenko, A.B., [1977, p.47-50, rus] 34-3173
Experience of using an ice protection dam in the lower course of the Yenisey River. Samochkin, V.M., et al, [1977, p.51-55, rus] 34-3174
Pressure of naled ice on culvert walls in areas with severe climatic conditions. Ivchenko, A.B., [1977, p.91-100, rus] 34-3177
Ice thickness-tensile stress relationship for load-bearing ice. Johnson, P.R., [1980, 11p., eng] 34-3330
Ice loads at the Arctic shores of Chukotka. Popova, O.P., [1979, p.69-72, rus] 34-3531
Errors occurring in extrapolating the air temperature-wind velocity complex over the open sea area of the shelf. Borisenko, M.M., et al, [1979, p.76-78, rus] 34-3580
Pressure of ice field adfreezing to cylindrical supports of offshore oil well platforms with water-level fluctuations. Vershinin, S.A., et al, [1980, p.9-11, rus] 34-3642
Estimated glaze ice and wind loads at the earth's surface for the contiguous United States. Tattelman, P., et al, [1973, 35p., eng] 34-3645
Ice problems at a cooling water intake in a tidal estuary at Lingan, N.S. Skarborn, S., et al, [1980, p.225-232, eng] 34-3670
Dynamic response of bridge piers to ice forces. Montgomery, C.J., et al, [1980, p.345-356, eng] 34-3671
Laboratory investigation of river shoreline ice jam forces. Stewart, D.M., [1980, 172p., eng] 34-3682
Ice forces on the Yukon River bridge--1978 breakup. Johnson, P.R., et al, [1979, 40p., eng] 34-3725

Ice loads *(cont.)*
Modelling the interaction between ice and ships Edwards, R.Y., Jr., [1980, p.60-81, eng] **34-3733**
Experience gained by use of extensive ice laboratory facilities in solving ice problems. Frankenstein, G.E., [1980, p.93-103, eng] **34-3735**
Dynamic ice forces on an inclined structure. Frederking, R., [1980, p.104-116, eng] **34-3736**
Critical stress intensity factors (K(Ic)) measurements at high loading rates for polycrystalline ice. Goodman, D.J., [1980, p.129-146, eng] **34-3738**
Theory of floating ice sheets. Hutter, K., et al, [1980, p.147-162, eng] **34-3739**
On the buckling force of floating ice plates. Kerr, A.D., [1980, p.163-178, eng] **34-3740**
Implications of structure width for design ice forces. Kry, P.R., [1980, p.179-193, eng] **34-3741**
Creep and relaxation in floating platforms - an analysis of case histories. Masterson, D.M., et al, [1980, p.205-216, eng] **34-3743**
Plastic limit analysis of sheet ice loads on conical structures. Ralston, T.D., [1980, p.289-308, eng] **34-3748**
Calculating design thickness of layered ice. Afanas'ev, V.P., [1979, p.88-92, rus] **34-3882**
Strength of ice cover during its breakup period on rivers of the Baykal Amur railroad area. Zabelina, E.F., [1979, p.93-101, rus] **34-3883**
Building standards and regulations. Part 2: Design standards. Chapter 6: Loads and effects. [1980, 92p., eng] **34-3897**
Calculating geometric characteristics of ice cover. Zubakin, G.K., et al, [1980, p.35-40, rus] **34-4181**

Ice mechanics
Ice mechanics. Michel, B., [1978, 499p., eng] **34-9**
Laboratory tests on fresh water ice, 1974. Morgenstern, N.E., et al, [1974, 17p. + figs. and tables, eng] **34-422**
Interpretation of ice strength from in-situ indentation tests. Morgenstern, N.R., et al, [1971, 26p. + figs., eng] **34-514**
Rheology of columnar-grained ice. Sinha, N.K., [1978, p.464-470, eng] **34-535**
Model experiments to determine the forces exerted on structures by moving ice fields. Edwards, R.Y., Jr., et al, [1972, 83p. + appends., eng] **34-572**
Results of model ice sheet properties research. Edwards, R.Y., Jr., et al, [1972, c130p., eng] **34-579**
Workshop on the Bearing Capacity of Ice Covers, 16-17 October 1978, Winnipeg, Manitoba. [1979, 253p., eng] **34-919**
Offshore structures in ice. Schwarz, J., [1976, p.469-479, eng] **34-1164**
Physical and mechanical properties of the ice cover of the Kara and Laptev Seas. Peschanskiĭ, I.S., et al, [1974, p.322-333, eng] **34-1203**
Bearing capacity of sea ice. Murat, J.R., [1978, 408p., fre] **34-1301**
Summary report. [1978, 23p., eng] **34-1406**
User manual for programs VISICE and VISFIT. Katona, M.G., [1979, 60p., eng] **34-1563**
[Proceedings]. [1979, 9 papers, eng] **34-1587**
Sea ice statistics. Wheeler, J.D., [1979, 10p. + 11 slides, eng] **34-1590**
Sea ice loads. Ralston, T.D., [1979, 27p. + 34 slides, eng] **34-1592**
Production islands. Jahns, H.O., [1979, 16p. + 23 slides, eng] **34-1596**
Some Bessel function identities arising in ice mechanics problems. Takagi, S., [1979, 13p., eng] **34-1609**
Effect of physicomechanical properties and uneven thickness of ice on the motion of ships in the autumn-winter season. Smirnov, V.I., [1979, p.106-112, eng] **34-1903**
Load-bearing capacity of ice cover and determination of breaking strength. Serikov, M.I., [1979, p.152-156, eng] **34-1904**
Model of a stochastically driven ice sheet with planetary wave feedback. Oerlemans, J., [1979, p.469-477, eng] **34-2163**
Friction of ice. Tushima, K., [1979, p.245-251, jap] **34-2169**
Annotated bibliography on freshwater ice. [1971, 425p., eng] **34-2507**
Mechanical properties of impure ice single crystals at high temperatures. Nakamura, T., [1979, p.293-324, jap] **34-2542**
Ice flow along the Byrd Station strain network, Antarctica. Whillans, I.M., [1979, p.15-28, eng] **34-2813**
Results from the I.A.G.P. flow-line study inland of Casey, Wilkes Land, Antarctica. Budd, W.F., et al, [1979, p.89-101, eng] **34-2819**
Ice-sheet flow properties derived from bore-hole shear measurements combined with ice-core studies. Russell-Head, D.S., et al, [1979, p.117-130, eng] **34-2821**
Calculations of velocity and temperature in a polar glacier using the finite-element method. Hooke, R.L., et al, [1979, p.131-146, eng] **34-2822**
Relationship of ultrasonic velocities to c-axis fabrics and relaxation characteristics of ice cores from Byrd Station, Antarctica. Gow, A.J., et al, [1979, p.147-153, eng] **34-2823**
Mechanical energy considerations in sea-ice dynamics. Coon, M.D., et al, [1979, p.377-389, eng] **34-2839**
Use of ice as the soil base for structures. Gaidaenko, E.I., [1980, 92p., eng] **34-2986**
Environmental assessment of the Alaskan continental shelf, Vol.7, Transport. [1979, 560p., eng] **34-3050**
Dynamics of near-shore ice. Kovacs, A., et al, [1979, p.181-207, eng] **34-3051**
Environmental assessment of the Alaskan continental shelf, Vol.8, Transport. [1979, 588p., eng] **34-3052**
Ice movement. [1975, 333p., eng] **34-3098**
Micromechanism of ice deformation under load. Zaretskiĭ, IU.K., et al, [1976, p.200-210, rus] **34-3208**
Documentation for a two-level dynamic thermodynamic sea ice model. Hibler, W.D., III, [1980, 35p., eng] **34-3329**
Exploring the Arctic for oil. Sklarewitz, N., [1980, p.2-5, eng] **34-3410**
Studies on interaction between ice floes, 1. Takizawa, T., [1979, p.143-152, jap] **34-3500**
Studies on interaction between ice floes. 2. Periodical change in horizontal divergence of an ice field accompanied by intertial periodical motion. Takizawa, T., et al, [1979, p.153-159, jap] **34-3501**
On the characteristics of the movement of pack ice and the effects of wind and ocean current on ice movement. Kawamura, T., [1979, p.161-168, jap] **34-3502**
Ice sheets and ice shelves. Paterson, W.S.B., [1980, p.1-78, eng] **34-3656**
Laboratory investigation of river shoreline ice jam forces. Stewart, D.M., [1980, 172p., eng] **34-3682**
Ice forces on the Yukon River bridge - 1978 breakup. Johnson, P.R., et al, [1979, 40p., eng] **34-3725**
Physics and mechanics of ice. [1980, 378p., eng] **34-3727**
Some promising trends in ice mechanics. Assur, A., [1980, p.1-15, eng] **34-3728**
Development and application of multimodal ice failure theory. Bercha, F.G., [1980, p.16-27, eng] **34-3729**
Numerical model of Penelope ice viscometer flows. Brepson, R., [1980, p.28-37, eng] **34-3730**
Finite element method simulation of large ice mass flow behaviour. Emery, J.J., et al, [1980, p.82-92, eng] **34-3734**
Experience gained by use of extensive ice laboratory facilities in solving ice problems. Frankenstein, G.E., [1980, p.93-103, eng] **34-3735**
Dynamic ice forces on an inclined structure. Frederking, R., [1980, p.104-116, eng] **34-3736**
Rheological behaviour of ice at small strains. Gold, L.W., et al, [1980, p.117-128, eng] **34-3737**
Theory of floating ice sheets. Hutter, K., et al, [1980, p.147-162, eng] **34-3739**
Implications of structure width for design ice forces. Kry, P.R., [1980, p.179-193, eng] **34-3741**
Mechanical properties of polycrystalline ice. Mellor, M., [1980, p.217-245, eng] **34-3744**
Application of fracture mechanics to ice problems. Miller, K.J., [1980, p.265-277, eng] **34-3746**
Flow of temperate ice in a vertical shaft with rough wall surfaces. Reeh, N., [1980, p.309-324, eng] **34-3749**
Free oscillations in a climate model with ice-sheet dynamics. Källén, E., et al, [1979, p.2292-2303, eng] **34-3767**
Morphology and dynamics of ice rises. Martin, P.J., et al, [1980, p.33-45, eng] **34-3796**
Creep of ice, geothermal heat flow, and Roosevelt Island, Antarctica. Thomas, R.H., et al, [1980, p.47-60, eng] **34-3797**
Dynamic behaviour of dislocations in HF-doped ice Ih. Perez, J., et al, [1980, p.133-149, eng] **34-3805**
Existence of multiple steady states in the flow of large ice masses. Fowler, A.C., [1980, p.183-184, eng] **34-3810**
Orbital sensing of Mackenzie Bay ice dynamics. Dey, B., [1980, p.280-291, eng] **34-3867**
Flow patterns in the central North American ice sheet. Shilts, W.W., [1980, p.213-218, eng] **34-3985**
Long-period gravity waves in ice-covered sea. Bates, H.F., et al, [1980, p.1095-1100, eng] **34-4073**
Critical survey of the application of borehole logging techniques to the study of sea ice. Laidley, T.E., [1980, 45p., eng] **34-4160**
Physical hydraulic model study of an ice-covered river. Johnson, R.P., et al, [1980, p.431-440, eng] **34-4161**
Field experiments on wave-ice interaction in the Bering Sea and Greenland waters, 1979. Wadhams, P., et al, [1980, p.147-153, eng] **34-4186**
Deformation properties of sea ice. Bogorodskiĭ, V.V., et al, [1980, p.1092-1097, rus] **34-4251**

Ice melting
Enhancing ice-melting action of rock salt by prewetting with calcium chloride. Larrimore, D.R., et al, [1979, p.282-288, eng] **34-93**
Theory of melting ice drift. Ovsienko, S.N., et al, [1979, p.1066-1070, rus] **34-524**
Experimental studies of the thermal regime of permafrost slopes of a stream valley at their junction with a filter dam. Belan, V.I., [1979, p.97-100, rus] **34-852**
Calculating and forecasting glacier ablation in Central Asia. Konovalov, V.G., [1979, 232p., rus] **34-1139**
Study of the vacuum-freezing high pressure ice-melting process. Cheng, C.Y., [1979, 70p., eng] **34-1142**
Ross Ice Shelf temperatures support a history of ice-shelf thickening. MacAyeal, D.R., et al, [1979, p.703-705, eng] **34-1747**
Water erosion of frozen rocks and the evaluation of thermoerosional danger. Ershov, E.D., et al, [1979, p.67-76, rus] **34-1759**
Formulas for calculating the ice melting temperature coefficient for Zailiyskiy Alatau glaciers. Plekhanov, P.A., [1979, p.72-85, rus] **34-1976**
Calculating the balance of Arctic Ocean pollutants. Izmailov, V.V., et al, [1979, p.486-491, rus] **34-2022**
Radiative melting of ice layer adhering to a vertical surface. Sedi, N., et al, [1979, p.137-144, eng] **34-2046**
Part 1. The effect of temperature and partial melting on velocity and attenuation in a simple binary system. Part. 2. Effect of temperature and pressure on elastic properties of polycrystalline and single crystal MgO Spetzler, H.A.W., [1970, 258p., eng] **34-2133**
Studies of heat and mass transfer at the lower surface of the Ross Ice Shelf. Zotikov, I.A., et al, [1979, p.178, rus] **34-2201**
Glacial mudflows, not related to glacier-damned lakes, in the Gerkhozhan-Su Basin, North Caucasus. Fleishman S.M., et al, [1979, p.195-198, rus] **34-2205**
Thermal capacity of sea ice and its effect on ice cover melting in Arctic seas. Faĭko, L.I., [1979, p.211-213, rus] **34-2211**
Pressure-melting effects in basal ice of temperate glaciers: laboratory studies and field observations under Glacier d'Argentière. Goodman, D.J., et al, [1979, p.259-271, eng] **34-2237**
Arctic Pleistocene history and the development of submarine permafrost. Vigdorchik, M.E., [1980, 286p., eng] **34-2407**
Experiments involving melting of a large ice block towed in sea water. Fuhs, A.E., et al, [1980, p.249-264, eng] **34-2447**
Core drilling through the Ross Ice Shelf (Antarctica) confirmed basal freezing. Zotikov, I.A., et al, [1980, p.1463-1465, eng] **34-2485**
Ice structure and the formation of thawed patches. Komov, N.I., [1979, p.151-157, rus] **34-3010**
Glaciological studies on Tadzhikistan glaciers. Sannikov, A.G., et al, [1979, p.150-155, rus] **34-3131**
Melting field of the Dzhankuat mountain valley glacier. Zhuk, V.A., et al, [1979, p.197-202, rus] **34-3139**
Empirical formulas for calculating melting on glaciers. Konovalov, V.G., [1978, p.41-53, rus] **34-3349**
Experimental studies on regelation. Tozuka, S., et al, [1979, p.1-15, jap] **34-3487**
Stability of inertial bonds among massive ice areas. Furmanov, O.M., [1979, p.135-136, rus] **34-3539**
Iceberg drift and deterioration. Robe, R.Q., [1980, p.211-259, eng] **34-3659**
Freshwater ice growth, motion, and decay. Ashton, G.D., [1980, p.261-304, eng] **34-3660**
Hardness of ice and a solar ice melter. Robinson, W.H., et al, [1979, p.4-8, eng] **34-3677**
Selective melting of lake ice. Zimov, S.A., et al, [1979, p.121, rus] **34-3702**
Distribution of sea ice meltwater in the eastern Canadian Arctic. Tan, F.C., et al, [1980, p.1925-1932, eng] **34-3895**
Results of application of infrared equipment for the investigation of hydrologic objects. Bogorodskiĭ, V.V., et al, [1978, p.77-79, eng] **34-3969**

Ice metal friction
See: Metal ice friction

Ice microstructure
Microphysics of clouds and precipitation. Pruppacher, H.R., et al, [1978, 714p., eng] **34-2515**

Ice models
Investigations into the feasibility of producing pressure ridge/ice sheet systems with synthetic ice. Edwards, R., et al, [1975, n.p., eng] **34-298**
Model experiments to determine the ice forces exerted on structures by moving ice fields (comparison with small prototype test results). Edwards, R.Y., Jr., et al, [1975, 35p. + annex, eng] **34-302**
Numerical modeling of the glaciers-ocean-atmosphere global system. Sergin, V.IA., [1979, p.3191-3204, eng] **34-360**
Use of model ice to simulate ice action on offshore structures. Michel, B., [1972, 81p., eng] **34-478**
In-situ measurements of the activation energy for D.C. conduction in polar ice. Bentley, C.R., [1979, p.237-246, eng] **34-539**
Some results from a linear-viscous model of the Arctic ice cover. Hibler, W.D., III, et al, [1979, p.293-304, eng] **34-544**
Reconstructed Pleistocene ice-sheet temperatures and glacial erosion in northern Scotland. Gordon, J.E., [1979, p.331-344, eng] **34-547**
Results of model ice sheet properties research. Edwards, R.Y., Jr., et al, [1972, c130p., eng] **34-579**
West Antarctic ice sheet: present-day thinning and Holocene retreat of the margins. Thomas, R.H., [1979, p.1257-1258, eng] **34-732**
Satellite observations of snow and ice with an imaging passive microwave spectrometer. Fisher, A.D., et al, [1976, p.98-103, eng] **34-816**

Sea ice modeling: its testing with LANDSAT and potential use in FGGE. Hall, R.T., et al, [1976, p.104-109, eng] 34-817

Keewatin ice sheet—reevaluation of the traditional concept of the Laurentide Ice Sheet. Shilts, W.W., et al, [1979, p.537-541, eng] 34-1089

Investigation of the two-phase, moving boundary system, with convection at the solid-liquid interface. Nansteel, M.W., [1979, 145p., eng] 34-1362

Model of a stochastically driven ice sheet with planetary wave feedback. Oerlemans, J., [1979, p.469-477, eng] 34-2163

Dimensional modelling of icebergs. Benedict, C.P., [1980, p.299-306, eng] 34-2452

Catastrophe model of the paleoclimate. MacAyeal, D.R., [1979, p.245-257, eng] 34-2828

Simple model to calculate the compactness of ice floes. Neralla, V.R., et al, [1979, p.407-414, eng] 34-2841

Numerical modeling of sea ice in the seasonal sea ice zone. Hibler, W.D., III, [1980, p.299-356, eng] 34-3632

Ice sheets and ice shelves. Paterson, W.S.B., [1980, p.1-78, eng] 34-3656

Undulations on the McMurdo Ice Shelf near Scott Base, Antarctica. Holdsworth, G., et al, [1979, p.16-22, eng] 34-3680

Some promising trends in ice mechanics. Assur, A., [1980, p.1-15, eng] 34-3728

The Haus-Tanaka model for the Ice VII-Ice VIII phase transition. Ho-Ting-Hun, J., et al, [1980, p.107-113, eng] 34-4076

Ice mounds

See: Frost mounds

Ice movement poles

See: Markers

Ice navigation

LNG transport in Parry Channel: possible environmental hazard. Smiley, B.D., et al, [1979, 47p., eng] 34-165

Proceedings. [1977, 179p., eng] 34-204

Boundaries of ice and iceberg distribution in the North Atlantic Ocean. Kogan, B.A., et al, [1977, p.74-82, rus] 34-357

Using the "Toros" side-looking radar in studying ice drift in the southeastern Barents Sea. Zubakin, G.K., et al, [1977, p.83-89, rus] 34-358

Calculating basic components of ice balance in the Denmark Strait. Antropova, L.V., et al, [1977, p.90-107, rus] 34-359

Conference in Tyumen'. Nurmiev, G.N., [1979, p.26, rus] 34-501

Comment on "Drift of icebergs in the Grand Banks". Mountain, D.G., et al, [1979, p.549-550, eng] 34-1292

Icebreaker probes to Lake Melville, Labrador, in 1972. Bradford, J.D., [1979, 40p., eng] 34-1316

Long-term tracking of Arctic icebergs. Robe, R.Q., et al, [1979, 41p., eng] 34-1354

VHF downline communication system for SLAR data. Schertler, R.J., et al, [1979, 10p., eng] 34-1575

Economic development of the northern USSR and the formation of a basic transportation pattern. Burkhanov, V.F., [1979, p.14-20, rus] 34-1621

Passanger transport in northern population resettlement systems. Belinskii, A.IU., [1979, p.98-105, rus] 34-1630

Development of icebreakers and icebreaking methods; library search of Russian and European literature (Supplement). Dvorak, G.J., [1974, 3 vols., rus] 34-1737

Design of river icebreakers; library search of Russian and European literature (Supplement). Dvorak, G.J., [1972, 13 vols., rus] 34-1738

Statistical study of passage into Beaufort Sea via Point Barrow. Wilson, S.R.G., [1977, 108p., eng] 34-1763

Copeland cut test ice boom design criteria and data analysis, winter, 1974-75; Final report. Uzuner, M.S., [1975, 2 vols., eng] 34-1799

Research plan for Arctic ship powering and development. Voelker, R.P., [1977, 49p., eng] 34-1800

Effect of physicomechanical properties and uneven thickness of ice on the motion of ships in the autumn-winter season. Smirnov, V.I., [1979, p.106-112, eng] 34-1903

Arctic transportation systems. Nitzki, L., [1977, p.1-6, ger] 34-1933

Sea ice. Part 2: ice distribution and forecast services, North American Arctic waters. Wittmann, W., et al, [1973, p.343-355, eng] 34-1961

Sea ice. Part 3: ice distribution and forecast services, Eurasian waters. Wittmann, W., et al, [1974, p.219-229, eng] 34-1962

Observations of position, ocean depth, ice rotation, magnetic declination and gravity taken at the Fram I drifting ice station. Hunkins, K., et al, [1979, 52p. + append., eng] 34-1967

Voyage of the *Arktika* to the Pole and its geo-economical implications. Malaurie, J., [1978, p.205-208, fre] 34-2026

Navigation conditions of winter routes. Poplevichev, G., [1979, p.37-38, rus] 34-2080

Navigating under ice conditions. Levanov, B., [1979, p.5-6, rus] 34-2118

Performance of sluices under ice conditions. Kliuev, V., et al, [1979, p.34-36, rus] 34-2119

Squad-patrol method. Vasil'ev, V., [1979, p.39-40, rus] 34-2120

Guiding ship caravans in ice. Tretnikov, G., [1979, p.42-43, rus] 34-2121

Annotated bibliography on freshwater ice. [1971, 425p., eng] 34-2507

SA ice ship tribute to designers, builders. [1978, p.10-17, eng] 34-2561

Icebreakers with controllable propellers more reliable. Ivanov, S., [1980, p.32-33, rus] 34-2796

Ice-condition anomaly index for Arctic seas. Kovalev, E.G., [1979, p.21-29, rus] 34-2995

Connection between ice conditions of the Wrangel area and atmospheric circulation indices of preceding seasons. Santsevich, T.I., et al, [1979, p.30-39, rus] 34-2996

Peculiarities of ice conditions in the Southern Ocean and their relation to atmospheric circulation. Romanov, A.A., [1979, p.40-46, rus] 34-2997

Ice cover contraction effect on icebreaker jamming. Voevodin, V.A., et al, [1979, p.126-133, rus] 34-3007

Effectiveness of aerial ice surveys in navigation under ice cover contraction conditions. Voevodin, V.A., [1979, p.134-139, rus] 34-3008

Computer simulation of Great Lakes-St. Lawrence Seaway icebreaker requirements. Kotras, T.V., et al, [1980, 195p., eng] 34-3084

Allowing for ice cover effect when selecting an optimal way of ice navigation with icebreakers. Buzuev, A.IA., et al, [1979, p.66-74, rus] 34-3186

Selecting economically feasible velocity of transport ships designed for ice navigation. Tsoi, L.G., et al, [1979, p.74-78, rus] 34-3187

Automatically controlled ice information system for the Arctic (ALISA). Bushuev, A.V., et al, [1977, p.6-16, rus] 34-3302

Compiling ice maps from photographs made by meteorological satellites. Provorkin, A.V., [1977, p.34-39, rus] 34-3305

Using microwave satellite measurements for mapping sea ice. Loshchilov, V.S., [1977, p.40-45, rus] 34-3306

Antarctic navigation. Woodfield, T., [1979, p.234-242, eng] 34-3336

Great Lakes navigation season, 1979. Wilson, E.E., [1980, p.183-195, eng] 34-3435

Proceedings. [1979, 271p., eng] 34-3437

Breaking the ice with COTRA. Pallister, A.E., [1979, p.15-29, eng] 34-3438

Evaluating ice breaking qualities of air cushion ships. Simonov, IU.A., et al, [1979, p.105-110, rus] 34-3471

Requirements for controllable propellers of ice navigation ships. Ivanov, S.N., [1979, p.122-132, rus] 34-3472

Improving the technical service system of "Moskva" type icebreakers. Grigor'ev, A.K., et al, [1979, p.28-32, rus] 34-3473

Using Doppler hydroacoustic recorder in ice navigation. Shamkin, L.A., [1979, p.58-63, rus] 34-3474

Studying noise and vibration on icebreakers of the "Kapitan Sorokin" type. Zinchenko, V.I., et al, [1979, p.51-68, rus] 34-3475

Vibrodynamic characteristics of equipment on icebreakers of the "Kapitan Sorokin" type. Barshai, IU.S., et al, [1970, p.68-79, rus] 34-3476

USCGC Glacier cruise report: Deep Freeze 80. [1980, 106p., eng] 34-3509

Hydrometeorological forecasting. Kupetskii, V.N., [1979, p.13-22, rus] 34-3527

Hydrosynoptic method of compiling sea ice forecasts. Kupetskii, V.N., [1979, p.102-108, rus] 34-3533

Forecasting ice formation at the Kolyma River bay-mouth bar. Furmanov, O.M., [1979, p.130-132, rus] 34-3537

Stability of inertial bonds among massive ice areas. Furmanov, O.M., [1979, p.135-136, rus] 34-3539

Buoy-station equipment for small ships operating under drift conditions. Volnov, G.N., et al, [1979, p.132-134, rus] 34-3590

Icebreakers and coastal winter navigation in Finland. [1980, p.256-259, ger] 34-3616

Speed of icebreaker movement in the Azov Sea. Siniurin, IU., [1980, p.20-21, rus] 34-3643

Ice breaking rescue vessel. [1980, p.29, rus] 34-3644

USCGC *Polar Sea* cruise report: Deep Freeze 80. [1980, 96p., eng] 34-3665

Plotting through the pack; radar resistant ice. Haines, S.A., [1980, p.16-19, eng] 34-3672

Icebergs and oil tankers soon to mix. Hartline, B.K., [1980, p.381, eng] 34-3720

Physics and mechanics of ice. [1980, 378p., eng] 34-3727

Experience gained by use of extensive ice laboratory facilities in solving ice problems. Frankenstein, G.E., [1980, p.93-103, eng] 34-3735

Aspects of radar signal interpretation in Arctic seashore areas. Kotiukh, A.A., [1979, p.66-74, rus] 34-3875

Regularities of sea ice distribution in Arctic waters outside the USSR. Smirnov, V.I., [1979, p.109-112, rus] 34-3884

Physical hydraulic model study of an ice-covered river. Johnson, R.P., et al, [1980, p.431-440, eng] 34-4161

Calculating geometric characteristics of ice cover. Zubakin, G.K., et al, [1980, p.35-40, rus] 34-4181

Ice needles

Sorted strips orientated by wind action: some observations from sub-Antarctic Marion Island. Hall, K., [1979, p.281-289, eng] 34-3195

Small-scale testing of soils for frost action. Sayward, J.M., [1979, p.223-231, eng] 34-3990

Ice nuclei

Diagram of metastable states of water. Koniakov, V.I., et al, [1979, p.707, eng] 34-701

Investigation of the effectiveness of the action of the full-scale pyrotechnical ice-forming aerosol generators. Beliaev, S.P., et al, [1979, 23p., eng] 34-1348

Ice nucleation by aerosol particles: experimental studies using a wedge shaped ice thermal diffusion chamber. Schaller, R.C., et al, [1979, p.1788-1802, eng] 34-1382

Crystallization of a supercooled liquid in a sound field: steady-state dynamics of crystalline-phase nuclei in the liquid. Bulanov, V.A., [1979, p.202-207, eng] 34-1436

Ice initiation in unmixed undraft cores in northeast Colorado cumulus congestus clouds. Heymsfield, A.J., et al, [1979, p.2216-2229, eng] 34-1765

Laboratory examination of the ice-nucleating ability of AgI-aerosol using a low pressure filter processor. Young, K.C., [1978, 20p., eng] 34-1802

Determining particle distribution of ice-forming reagents in clouds using the Setton diffusion model. Klingo, V.V., et al, [1979, p.41-50, rus] 34-2012

Studying phase transformations of water when reacting with different underlying surfaces. Girs, S.P., et al, [1979, p.83-90, rus] 34-2016

Studies of silver iodide ice-forming activity: verification of theory. Gorbunov, B.Z., et al, [1980, p.71-77, eng] 34-2501

Microphysics of clouds and precipitation. Pruppacher, H.R., et al, [1978, 714p., eng] 34-2515

Formation of hail nuclei. Tlisov, M.I., [1979, p.100-107, rus] 34-2878

Influence of point charge electric field on homogeneous crystallization of supercooled water drops. Klingo, V.V., et al, [1979, p.26-32, rus] 34-3568

Experimental study of the freezing of water drops in a constant electric field. Shlykov, V.V., [1979, p.68-75, rus] 34-3573

Studying variations in surface electrical conductivity of some ice-forming substances interacting with water vapor. Vlasov, S.A., et al, [1979, p.76-81, rus] 34-3574

Nucleation of ice by sorption on monodisperse silver iodide particles in the 20-1200A diameter size range. Rosinski, J., et al, [1980, p.1464-1468, eng] 34-3621

Ice nucleus and aerosol measurements in the plume of the Johnstown, Pa., steel mill. Schnell, R.C., et al, [1980, p.397-400, eng] 34-3779

Heterogeneous nucleation of ice on surfaces of liquids. Rosinski, J., [1980, p.1829-1832, eng] 34-3922

Relationships among lead, iodine, trace metals and ice nuclei in a coastal urban atmosphere. Borys, R.D., et al, [1979, p.1490-1494, eng] 34-3996

Ice optics

Optical properties of young sea ice. Perovich, D.K., [1979, 151p., eng] 34-841

Effects of ice and snow cover on transmission of light in lakes. Maguire, R.J., [1975, 24p., eng] 34-1700

Annual report No.11; Contract N00014-76-C-0234; NR 307-252. [1979, 33p., eng] 34-1748

Annual cycle of surface albedo. Kukla, G., et al, [1980, p.56-68, eng] 34-2787

Snow cover effect on annual variations of reflected radiation and albedo in the Caucasus. Samukashvili, R.D., [1980, p.111-122, rus] 34-3426

Permittivity of ice and water at millimeter wavelengths. Blue, M.D., [1980, p.1101-1106, eng] 34-4074

Ice override

Regionalization of Poland's coast in terms of ice ridges piled on beaches. Zakrzewski, W., [1978, p.3-16, pol] 34-2291

Ice passing

Passage of ice during construction of the Sayano-Shushenskoe hydroelectric station. Koren'kov, V.A., [1980, p.777-781, eng] 34-3376

Ice physics

Some results from a linear-viscous model of the Arctic ice cover. Hibler, W.D., III, et al, [1979, p.293-304, eng] 34-544

Beaufort Sea ice sampling project, 1970. Croasdale, K.R., [1970, c.145p., eng] 34-594

Porosity and gas content of recent polar ice, applications to deep core analysis. Lebel, B., [1978, 80p., fre] 34-936

Ice sheet internal radio-echo reflections and associated physical property changes with depth. Ackley, S.F., et al, [1979, p.5675-5680, eng] 34-999

Antarctic ice as a ceramic. Maeno, N., [1978, p.663-669, jap] 34-1165

Engineering geocryology. Mel'nikov, P.I., ed, [1979, 208p., rus] 34-1533

Model for the ice VII-ice VIII transition. Haus, J.W., et al, [1977, p.2148-2153, eng] 34-1603

Relation between the strengths of the orientation polarization and the infrared absorption of the O—H stretching vibrations of ice. Whalley, E., [1978, p.449-451, eng] 34-1604

Ice physics *(cont.)*

Interpretation of the OH stretching region of the vibrational spectrum of ice I. McGraw, R., et al, [1977, p.219-226, eng] **34-1606**

Design of river icebreakers; library search of Russian and European literature (Supplement). Dvorak, G.J., [1972, 13 vols., rus] **34-1738**

Charge separation associated with secondary ice crystal production. Hallett, J., et al, [1979, p.2230-2235, eng] **34-1766**

Effect of physicomechanical properties and uneven thickness of ice on the motion of ships in the autumn-winter season. Smirnov, V.I., [1979, p.106-112, eng] **34-1903**

Calculation of correlation functions for two-dimensional square ice. Yanagawa, A., [1979, 235p., eng] **34-2065**

Annotated bibliography on freshwater ice. [1971, 425p., eng] **34-2507**

Physical and thermal properties of frozen soil and ice. Wolfe, L.H., et al, [1964, p.67-72, eng] **34-2602**

Crystal alignments in the fast ice of Arctic Alaska. Weeks, W.F., et al, [1980, p.1137-1146, eng] **34-2671**

Possible mechanism of ice splinter production during riming. Choularton, T.W., et al, [1978, p.791-792, eng] **34-2677**

Enthalpy and heat capacity of liquid water and the ice polymorphs from a random network model. Sceats, M.G., et al, [1980, p.3248-3259, eng] **34-2727**

Mechanical energy considerations in sea-ice dynamics. Coon, M.D., et al, [1979, p.377-389, eng] **34-2839**

Effect of ice-albedo feedback on global sensitivity in a one-dimensional radiative-convective climate model. Wang, W.-C., et al, [1980, p.545-552, eng] **34-3087**

Vibration measurements made on an ice platform in the vicinity of Panarctic Hecla N-52 well for Sun Oil Company, Richardson, Texas. Fix, J.E., [1974, 76p., eng] **34-3096**

Field studies of the strength and physical properties of a multi-year ice pressure ridge in the southern Beaufort Sea. Gladwell, R.W., [1977, c90p., eng] **34-3107**

Proceedings of the All-Union symposium on the rheology of soils, 2nd, Tsakhkadzor, Oct. 7-10, 1975. [1976, 406p., rus] **34-3203**

Ground ice and ice-rich ground as structure foundations. Vialov, S.S., et al, [1980, 159p., eng] **34-3405**

Physics and mechanics of ice. [1980, 378p., eng] **34-3727**

Finite element method simulation of large ice mass flow behaviour. Emery, J.J., et al, [1980, p.82-92, eng] **34-3734**

Flow of temperate ice in a vertical shaft with rough wall surfaces. Reeh, N., [1980, p.309-324, eng] **34-3749**

Analytical approach for the determination of ice forces using plasticity theory. Reinicke, K.M., [1980, p.325-341, eng] **34-3750**

Ice forces on piles. Saeki, H., et al, [1980, p.342-350, eng] **34-3751**

Identification of ice VI on the Hugoniot of ice I(h). Gaffney, E.S., et al, [1980, p.407-409, eng] **34-3780**

Direct spectroscopic observation of proton exchange and Bjerrum defect migration in cubic ice. Ritzhaupt, G., et al, [1980, p.6807-6808, eng] **34-3782**

Morphology and dynamics of ice rises. Martin, P.J., et al, [1980, p.33-45, eng] **34-3796**

Constitutive laws of ice. Hutter, K., [1979, p.47-63, ger] **34-3973**

Influence of the choice of glide plane on the theory of the velocity of dislocations in ice. Whitworth, R.W., [1980, p.521-528, eng] **34-4065**

Regularities governing penetration of a hard body into ice at supercritical impact velocities. Khrapatyi, N.G., et al, [1980, p.5-9, rus] **34-4141**

Critical survey of the application of borehole logging techniques to the study of sea ice. Laidley, T.E., [1980, 45p., eng] **34-4160**

Physical hydraulic model study of an ice-covered river. Johnson, R.P., et al, [1980, p.431-440, eng] **34-4161**

Field study of the physical properties, response to swell, and subsequent fracture of a single ice floe in the winter Bering Sea. Squire, V.A., et al, [1980, 56p., eng] **34-4245**

Ice pileup

Investigation of multi-year pressure ridges and shore pile-up. Kovacs, A., et al, [1975, 45p., eng] **34-774**

International Workshop on the Seasonal Sea Ice Zone, Monterey, California, Feb. 26-Mar.1, 1979. Andersen, B.G., ed, [1980, 357p., eng] **34-3624**

Shore ice pile-up and ride-up: field observations, models, theoretical analyses. Kovacs, A., et al, [1980, p.209-298, eng] **34-3631**

Ice plasticity

Application of fracture mechanics to ice problems. Miller, K.J., [1980, p.265-277, eng] **34-3746**

Plastic limit analysis of sheet ice loads on conical structures. Ralston, T.D., [1980, p.289-308, eng] **34-3748**

Analytical approach for the determination of ice forces using plasticity theory. Reinicke, K.M., [1980, p.325-341, eng] **34-3750**

Constitutive laws of ice. Hutter, K., [1979, p.47-63, ger] **34-3973**

Ice pressure

Ice mechanics. Michel, B., [1978, 499p., eng] **34-9**

Ice adhesion study. [1973, 88p., eng] **34-295**

Small prototype cone tests winter 1973-74. Verity, P.H., [1975, 102p. + appends., eng] **34-296**

Model experiments to determine the ice forces exerted on structures by moving ice fields (comparison with small prototype test results). Edwards, R.Y., Jr., et al, [1975, 35p. + annex, eng] **34-302**

Use of model ice to simulate ice action on offshore structures. Michel, B., [1972, 81p., eng] **34-478**

Ice forces on offshore monopods and piles. [1973, c.20p., eng] **34-481**

Interpretation of ice strength from in-situ indentation tests. Morgenstern, N.R., et al, [1971, 26p. + figs., eng] **34-514**

Feasibility study: exploratory drilling systems, Beaufort Sea. [1971, c430p., eng] **34-570**

Model experiments to determine the forces exerted on structures by moving ice fields. Edwards, R.Y., Jr., et al, [1972, 83p. + appends., eng] **34-572**

Ice forces on bridge piers. Podolny, W., Jr., [1979, p.341-342, 347-348, eng] **34-700**

In situ determination of creep properties of ice covers by means of bore-hole creep and relaxation tests. Ladanyi, B., et al, [1979, p.44-64, eng] **34-923**

Offshore structures in ice. Schwarz, J., [1976, p.469-479, eng] **34-1164**

Failure of capillary theory of frost damage as applied to ceramics. Blachere, J.R., et al, [1974, p.212-216, eng] **34-1299**

Geotechnical studies for freezing procedures. Huder, J., [1979, p.77-98, ger] **34-1321**

Development of a viscoelastic finite difference formulation for analysis of ice sheet-structure interactions. Praskievicz, M.W., [1979, 162p., eng] **34-1353**

Towing ships through ice-clogged channels by warping and kedging. Mellor, M., [1979, 21p., eng] **34-1380**

[Proceedings]. [1979, 9 papers, eng] **34-1587**

Sea ice statistics. Wheeler, J.D., [1979, 10p. + 11 slides, eng] **34-1590**

Sea ice loads. Ralston, T.D., [1979, 27p. + 34 slides, eng] **34-1592**

Exploration island design. Prodanovic, A., [1979, 13p. + 25 slides, eng] **34-1594**

Island defence and monitoring. Templeton, J.S., III, [1979, 13p. + 20 slides, eng] **34-1595**

Importance of full scale testing in ice for designing icebreaking ships. Mäkinen, E., [1977, p.7-16, eng] **34-1934**

Icebreaker experience as a guide to sea ice forces on structures. Gerwick, B.C., Jr., et al, [1979, p.622-637, eng] **34-3031**

Deforestation of reservoirs. Marcotte, H., et al, [1979, p.15-17, fre] **34-3063**

Ice forces on the Yukon River bridge—1978 breakup. Johnson, P.R., et al, [1979, 40p., eng] **34-3725**

Physics and mechanics of ice. [1980, 378p., eng] **34-3727**

Modelling the interaction between ice and ships. Edwards, R.Y., Jr., [1980, p.60-81, eng] **34-3733**

On the buckling force of floating ice plates. Kerr, A.D., [1980, p.163-178, eng] **34-3740**

Implications of structure width for design ice forces. Kry, P.R., [1980, p.179-193, eng] **34-3741**

Plastic limit analysis of sheet ice loads on conical structures. Ralston, T.D., [1980, p.289-308, eng] **34-3748**

Analytical approach for the determination of ice forces using plasticity theory. Reinicke, K.M., [1980, p.325-341, eng] **34-3750**

Ice forces on piles. Saeki, H., et al, [1980, p.342-350, eng] **34-3751**

Ice pressure ridges

See: Pressure ridges

Ice prevention

Icephobic coatings for highway pavements. Cook, J.C., [1979, p.106-115, eng] **34-69**

Freezing problems associated with spray irrigation of wastewater during the winter. Bouzoun, J.R., [1979, 12p., eng] **34-136**

Dryout, cooldown keyed Cove Point commissioning. Venendaal, B., [1979, p.28-38, eng] **34-141**

Icing preventing device for a carburetor for two-cycle engine. Sakai, M., [1977, 4 col., eng] **34-261**

Water cock with non-freezing valve. Nakajima, K., et al, [1978, 6 col., eng] **34-276**

Apparatus for protecting a water faucet or the like from freezing temperatures. Carlson, C.D., [1978, 6 col., eng] **34-285**

Winter service to the city of Bern. Bietenharder, H., [1977, p.173-174, ger] **34-537**

Unit water use in Alaskan municipal water supplies. Hansen, R.G., [1975, p.321-329, eng] **34-639**

Power transmission lines in high mountains. Davidian, D.B., [1979, 188p., rus] **34-721**

Systems for combatting aircraft icing. Dabrowski, K., [1978, 16p., eng] **34-1176**

Rotor ice protection systems. Shepherd, D.R., [1976, 19p., eng] **34-1297**

Icing of ships. Panov, V.V., [1978, p.166-186, eng] **34-1416**

Specialization of winter road maintenance, a pressing issue. Kungurtsev, A.A., et al, [1979, p.7-8, rus] **34-1418**

Ways of improving winter maintenance of roads. Bialobzheskii, G.V., et al, [1979, p.9-11, rus] **34-1419**

Ice prevention, a condition of safe driving. Titov, B.M., [1979, p.13, rus] **34-1421**

Icing tests of a UH-1H helicopter with an electrothermal ice protection system under simulated and natural icing conditions. Cotton, R.H., [1979, 81p., eng] **34-1570**

Construction of an ice-retardant overlay. Nittinger, R.J., [1979, 28p., eng] **34-1573**

Augmentation of earth heating for purposes of roadway deicing. Final report. Pravda, M.F., et al, [1978, 193p., eng] **34-1602**

Synopsis—ice in estuaries and harbours. Carstens, T., [1979, p.1-30, eng] **34-1959**

Mathematical problem of selecting pipeline diameters for aircraft deicing systems. Alovkin, B.D., et al, [1979, p.76-81, rus] **34-2023**

Field trial of prototype "Cyclone switch heater" on CP rail switch at Sturgeon Falls, Ontario. Coveney, D.B., [1979, 15p. + 10 figs., eng] **34-2477**

Technical Committee report on operational and winter maintenance. [1979, 120p., eng] **34-2478**

Bituminous pavements with antiicing additives. Crottaz, R., et al, [1979, p.442-447, ger] **34-2600**

Development of equipment for preventing the adhesion of ice or snow to contact wire. Mizuno, J., et al, [1974, p.81-82, eng] **34-2652**

Test of icicle prevention in very cold zone. Okada, K., [1977, p.135, eng] **34-2657**

Development of feeding systems for preventing the adhesion of ice or snow to contact wire. Saijo, T., [1973, p.155-156, eng] **34-2664**

Winter operation of water navigation objects. Ivanov, L.V., [1978, 211p., rus] **34-2686**

Report on model for winter hazard prevention on highway No.12 of Iwamizawa-shi, District of Okayama, Japan. Hokkaido Kaihatsukyoku. Kensetku Kiaki Kosakujo, [1978, 66p., jap] **34-2803**

Deicing a satellite communication antenna. Hanamoto, B., et al, [1980, 14p., eng] **34-3451**

Ice adhesion tests on coatings subjected to rain erosion. Minsk, L.D., [1980, 14p., eng] **34-3484**

Ship icing. Aksiutin, L.R., [1979, 127p., rus] **34-3667**

Helicopter icing spray system. Belte, D., [1980, 13p., eng] **34-3726**

Winter flying package: 3. Icing is for cakes, not carbs. Bramson, A., [1978, p.27-29, eng] **34-4064**

Ice push

Arctic beach environment, south-west Devon Island, N.W.T. Owens, E.H., [1969, 152p., eng] **34-938**

Ice action in the lacustrine environment: a review with particular reference to subarctic Quebec, Canada. Dionne, J.-C., [1979, p.185-212, eng] **34-2503**

Icebreaker experience as a guide to sea ice forces on structures. Gerwick, B.C., Jr., et al, [1979, p.622-637, eng] **34-3031**

Ice rafting

Oil spill behavior in ice during the 1977 Buzzards Bay oil spill. Deslauriers, P.C., [1978, p.197-215, eng] **34-1368**

Polar lithogenesis. Danilov, I.D., [1978, 238p., rus] **34-2902**

Ice rafting of ore minerals along the Laptev Sea shores. Efremov, K.S., [1979, p.22-26, rus] **34-3467**

Ice regime

See: Ice conditions

Ice relaxation

Relaxation processes in arctic ice fields. Bogorodskii, V.V., et al, [1980, p.589-592, rus] **34-2676**

Dielectric relaxation spectrum of ice measured with linear blocking layers. Gross, G.W., et al, [1980, p.914-927, eng] **34-3089**

Ice removal

Studies related to removal of snow and ice from transportation facilities. Ringer, T.R., [1979, p.6-8, eng] **34-51**

Icephobic coatings for highway pavements. Cook, J.C., [1979, p.106-115, eng] **34-69**

Method of predicting road salt runoff in New Hampshire. Spear, P.W., et al, [1979, p.116-120, eng] **34-70**

Heating bridge decks by electrical resistance. Havens J.H., et al, [1979, p.159-168, eng] **34-76**

Physical alternatives to chemicals for highway deicing. Blackburn, R.R., et al, [1979, p.176-184, eng] **34-78**

Alternative highway deicing chemicals. Dunn, S.A., et al, [1979, p.261-269, eng] **34-90**

Effect of chloride concentration on automobile stopping distance. Hu, A.C.H., [1979, p.270-274, eng] **34-91**

Evaluation of the use of salt brine for deicing purposes. Kasinskas, M.M., [1979, p.275-281, eng] **34-92**

Detachment of ice from surfaces by application of high intensity light. Mouat, T.W., et al, [1979, p.289-292, eng] **34-94**

Development of a snowplough/salt spreading vehicle for ice and snow clearance of motorways in England. Gould, R.J., [1979, p.314-317, eng] **34-98**

Snow and ice remover. Scafetta, P., [1978, 6 col., eng] **34-277**

Measures against skidding on icy and snow roads. Problem analysis, state-of-the-art review and need for R&D. Carlsson, G., [1979, 52p., swe] **34-783**

Economic analysis of the environmental impact of highway deicing salts. Murray, D.M., [1977, p.29-40, eng] 34-1877

Impact of highway deicing salts on rural stream water quality. Champagne, D.M., [1977, p.47-52, eng] 34-1878

Trials of the deicing equipment installed on YTB-771 (Keokuk). Kenney, W.P., [1976, 8p. + 10 figs., eng] 34-2424

Prototype test of rail on-off type snow-removing car. Tezuka, K., et al, [1971, p.180, eng] 34-2661

Removal of pressed and frozen snow at the flange way of the track. Ohyama, T., et al, [1973, p.104-105, eng] 34-2662

Arctic test results, Phase I, Task D. [1975, c500p., eng] 34-3102

Snow and ice removal from pavement using stored earth energy. Long, D.C., et al, [1980, 72p., eng] 34-4081

Ice removal from concrete by high pressure water jets. Kimberley, H.J., et al, [1977, 28p. + 5 figs., eng] 34-4195

Ice reporting

Natural conditions and resources of northern seas. Zhevnovatyi, V.T., ed, [1977, 119p., rus] 34-356

Using the "Toros" side-looking radar in studying ice drift in the southeastern Barents Sea. Zubakin, G.K., et al, [1977, p.83-89, rus] 34-358

Report of the International Ice Patrol Service in the North Atlantic Ocean. Season of 1978. [1979, 39p., eng] 34-1646

Navigation conditions of winter routes. Poplevichev, G., [1979, p.37-38, rus] 34-2080

Telemeasurement of ice cover parameters. [1977, 154p., rus] 34-3301

Automatically controlled ice information system for the Arctic (ALISA). Bushuev, A.V., et al, [1977, p.6-16, rus] 34-3302

Hydrometeorological forecasting. Kupetskii, V.N., [1979, p.13-22, rus] 34-3527

Hydrosynoptic method of compiling sea ice forecasts. Kupetskii, V.N., [1979, p.102-108, rus] 34-3533

Forecasting ice formation at the Kolyma River bay-mouth bar. Furmanov, O.M., [1979, p.130-132, rus] 34-3537

Regularities of sea ice distribution in Arctic waters outside the USSR. Smirnov, V.I., [1979, p.109-112, rus] 34-3884

Investigation of ice drift in the southeastern part of the Barents Sea with the aid of a "Toros" peripheral scanning radar station. Zubakin, G.K., et al, [1980, 7p., eng] 34-3898

Ice roads

Winter road preparation and commencement of traffic in the Mackenzie Delta. [1972, 20p., eng] 34-292

Building and operating winter roads in Canada and Alaska. Adam, K.M., [1978, 221p., eng] 34-532

Construction of service roads in swamps. Zholobov, S.I., [1979, p.24-25, rus] 34-1181

Passanger transport in northern population resettlement systems. Belinskii, A.IU., [1979, p.98-105, rus] 34-1630

Winter roads and ice bridges. Lefebvre, L.M., [1979, p.54-57, eng] 34-2034

Preparation of industrial transportation for winter. Kurtukov, IA.M., et al, [1979, p.2-5, rus] 34-2092

Optimal versions of road construction stages in Yakutia (Discussion). Zhukov, E.A., [1979, p.17-18, rus] 34-2858

Ice thickness-tensile stress relationship for load-bearing ice. Johnson, P.R., [1980, 11p., eng] 34-3330

Marine naleds in the Chaunskaya Bay. Chagulov, A.K., [1979, p.109-111, rus] 34-3534

Winter regime of fast ice in the Chaunskaya Bay. Konstantinov, IU.B., [1979, p.112-113, rus] 34-3535

Transport network of the Tyumen' forests. Dorofeev, A.G., [1980, p.7-9, rus] 34-3858

Road building performed on a self-supporting basis. Shabalin, V.P., et al, [1979, p.14-15, rus] 34-3939

Road construction all year round. Siniaev, N.V., [1979, p.15-16, rus] 34-3940

Ice rubber friction

See: Rubber ice friction

Ice runways

Operation of airports. Maintenance and repairs. Manual. Goretskii, L.I., et al, [1979, 215p., rus] 34-769

Use of ice as an airstrip in the Thelon River valley by the Canadian Armed Forces. McCutcheon, D.M., [1979, p.224-231, eng] 34-933

Ice salinity

Ocean ice. Sobey, E., [1979, p.105-114, eng] 34-200

Ice and meteorological observations in the Davis Strait during April, May and June 1977 for Imperial Oil Limited. [1977, var. p., eng] 34-310

Sea ice tests. Nuttall, J.B., [1971, 34p., eng] 34-559

Nutcracker ice strength tests. Crosdale, K.R., [1970, c.260p., eng] 34-593

Beaufort Sea ice sampling project, 1970. Crosdale, K.R., [1970, c.145p., eng] 34-594

Temperature regime of the antarctic fast ice. Nazintsev, IU.L., [1979, p.63-68, rus] 34-1829

Quantitative relations in phase composition of sea ice. Nazintsev, IU.L., [1979, p.76-83, eng] 34-1890

Method of forecasting flexural strength of ice cover. Ryvlin, A.IA., [1979, p.99-108, eng] 34-1891

Video-pulse radiometer of sea ice thickness as a promising means of ice surveying. Finkel'shtein, M.I., et al, [1977, p.104-113, rus] 34-3312

Standing crops and species composition of diatoms in sea ice from Robeson Channel to the Gulf of St. Lawrence. Dunbar, M.J., et al, [1980, p.61-72, eng] 34-4243

Ice sampling

Ice anchoring method and device. Lowe, G.E., et al, [1977, 6 col., eng] 34-270

Ice core sampling. Radok, U., [1980, p.71-76, eng] 34-4027

Ice scoring

Ice-scour tracks in eastern Mackenzie Bay and north of Pullen Island, Beaufort Sea. Wahlgren, R.V., [1979, p.51-62, eng] 34-22

Analytical study of ice scour on the sea bottom. [1975, 185p. + appends., eng] 34-299

Investigation of sea-bed scour in the Beaufort Sea. [1971, 29p. + appends., eng] 34-338

Reconstructed Pleistocene ice-sheet temperatures and glacial erosion in northern Scotland. Gordon, J.E., [1979, p.331-344, eng] 34-547

Micropaleontologic-mineralogic analysis of Recent mud samples from ice-scoured surface of Beaufort shelf. Lerand, M.M., [1971, 4p., eng] 34-560

Investigation of sea-bed scouring in the Beaufort Sea (PHASE II). [1973, 27p., eng] 34-575

Investigation of multi-year pressure ridges and shore pile-up. Kovacs, A., et al, [1975, 45p., eng] 34-774

Ice gouge obliteration and sediment redistribution event, 1977-1978, Beaufort Sea, Alaska. Barnes, P., et al, [1979, 22p., eng] 34-1559

Giant grooves made by concentrated basal ice streams. Goldthwait, R.P., [1979, p.297-307, eng] 34-2240

Geometry of former subglacial water channels and cavities. Walder, J., et al, [1979, p.335-346, eng] 34-2243

Iceberg scouring on the Labrador Shelf, Saglek Bank. Gustajtis, K.A., [1979, 89p., eng] 34-2429

Environmental factors affecting iceberg scour estimates. Chari, T.R., et al, [1980, p.223-230, eng] 34-2444

Drift ice scratches on the seafloor. Lewis, C.F.M., [1978, p.18-20, eng] 34-2648

Geologic framework, hydrocarbon potential, environmental conditions, and anticipated technology for exploration and development of the Beaufort Shelf north of Alaska. Grantz, A., et al, [1980, 42p., eng] 34-2721

Ice gouge characteristics in the Alaskan Chukchi Sea. Toimil, L., [1979, p.863-876, eng] 34-3032

Drift ice features in the Caniapiscau. Laverdière, C., et al, [1979, p.9-11, fre] 34-3062

Radio echo sounding of the Antarctic ice sheet, 1978-79: preliminary report. Drewry, D.J., et al, [1979, 21p. + Append., eng] 34-2064

Antarctic operations, Nov. 1977-Feb. 1978. Lorius, C., et al, [1978, 10p., fre] 34-2135

Summary of glaciological studies in Mizuho Plateau, East Antarctica, 1969-1975. Ishida, T., [1979, p.1-10, jap] 34-2146

Sublimation and condensation at the ice sheet surface of Mizuho Station, Antarctica. Fujii, Y., [1979, p.51-63, eng] 34-2150

Earth science investigations in the United States Antarctic Research Program (USARP) for the period July 1, 1978-June 30, 1979. Craddock, C., comp, [1979, 50p., eng] 34-2158

Model of a stochastically driven ice sheet with planetary wave feedback. Oerlemans, J., [1979, p.469-477, eng] 34-2163

Moisture balance in the system Antarctic ice sheet surface-atmosphere. Aver'ianov, V.G., [1979, p.209-211, rus] 34-2210

Debris-laden ice at the bottom of the Greenland ice sheet. Herron, S., et al, [1979, p.193-207, eng] 34-2232

Discontinuous flow, ice texture, and dirt content in the basal layers of the Devon Island ice cap. Koerner, R.M., et al, [1979, p.209-222, eng] 34-2233

Thermohydrodynamic model of a large ice sheet. Verbitskii, M.IA., et al, [1980, p.59-61, rus] 34-2353

Mass and energy exchange between the ice sheet of Antarctica and the atmosphere. Aver'ianov, V.G., [1979, p.189-202, eng] 34-2374

Glaciation of southeastern Jotunheimen and adjacent areas, south Norway. Carlson, A.B., et al, [1979, p.173-186, nor] 34-2385

Recent variation of ice sheet in Mizuho Plateau. Mae, S., [1979, p.1-7, eng] 34-2499

Sea ice and ice sheets and their role in climatic variations. Untersteiner, N., [1975, p.206-224, eng] 34-2565

Surveying Columbia Icefield. [1978, p.9-12, eng] 34-2646

ICEX: Ice and climate experiment; report of Science and Applications Working Group. [1979, c118p., eng] 34-2726

Radio echo and magnetic sounding of the Antarctic ice sheet, 1978-79. Drewry, D.J., et al, [1980, p.43-51, eng] 34-2810

Proceedings. [1979, 520p., eng] 34-2812

Ice flow along the Byrd Station strain network, Antarctica. Whillans, I.M., [1979, p.15-28, eng] 34-2813

Thinning of the ice sheet in Mizuho Plateau, East Antarctica. Naruse, R., [1979, p.45-52, eng] 34-2815

Basal sliding of a thinning ice sheet, Mizuho Plateau, East Antarctica. Mae, S., [1979, p.53-61, eng] 34-2816

Characteristics of ice flow in Marie Byrd Land, Antarctica. Rose, K.E., [1979, p.63-75, eng] 34-2817

Measured velocities of interior East Antarctica and the state of mass balance within the I.A.G.P. area. Young, N.W., [1979, p.77-87, eng] 34-2818

Ice sheets *(cont.)*
Results from the I.A.G.P. flow-line study inland of Casey, Wilkes Land, Antarctica. Budd, W.F., et al, [1979, p.89-101, eng] **34-2819**
Ice flow along an I.A.G.P. flow line and interpretation of data from an ice core in Terre Adélie, Antarctica. Raynaud, D., et al, [1979, p.103-115, eng] **34-2820**
Ice-sheet flow properties derived from bore-hole shear measurements combined with ice-core studies. Russell-Head, D.S., et al, [1979, p.117-130, eng] **34-2821**
Calculations of velocity and temperature in a polar glacier using the finite-element method. Hooke, R.L., et al, [1979, p.131-146, eng] **34-2822**
Relationship of ultrasonic velocities to c-axis fabrics and relaxation characteristics of ice cores from Byrd Station, Antarctica. Gow, A.J., et al, [1979, p.147-153, eng] **34-2823**
Margin of the Greenland ice sheet at Isua. Colbeck, S.C., et al, [1979, p.155-165, eng] **34-2824**
Dynamics of marine ice sheets. Thomas, R.H., [1979, p.167-177, eng] **34-2825**
Role of shear heating in the dynamics of large ice masses. Yuen, D.A., et al, [1979, p.195-212, eng] **34-2827**
Catastrophe model of the paleoclimate. MacAyeal, D.R., [1979, p.245-257, eng] **34-2828**
Ice shelves: a review. Thomas, R.H., [1979, p.273-286, eng] **34-2830**
Stability of glaciers and ice sheets against flow perturbations. Thompson, D.E., [1979, p.427-441, eng] **34-2843**
Melting and surface runoff from the Antarctic ice sheet. Klokov, V.D., [1979, 128p., rus] **34-3088**
Thermal regime of the Antarctic ice sheet along the flow line: ice divide-Vostok Station-Byrd Glacier. Barbash, V.R., [1979, p.86-95, rus] **34-3123**
Würmian "Ross Ice Sheet" hypothesis and facts. Miagkov, S.M., [1979, p.235-242, rus] **34-3147**
Studying dust in ice covers and using it in ice age determination. Gordienko, F.G., [1979, p.259-268, rus] **34-3151**
Characteristics of the antarctic temperature field according to *Kosmos 243* satellite radiometric measurements. Kurskaia, A.A., [1976, p.13-20, eng] **34-3273**
Ice on the move. Doake, C.S.M., [1977, p.65-71, eng] **34-3352**
Dynamics of snow and ice masses. Colbeck, S.C., ed, [1980, 468p., eng] **34-3655**
Ice sheets and ice shelves. Paterson, W.S.B., [1980, p.1-78, eng] **34-3656**
Drilling of the Antarctic Ice Sheet in the Novolazarevskaya Station area. Morev, V.A., et al, [1979, p.198-200, rus] **34-3714**
Glacial inception and disintegration during the last glaciation. Andrews, J.T., et al, [1978, p.205-228, eng] **34-3722**
Some promising trends in ice mechanics. Assur, A., [1980, p.1-15, eng] **34-3728**
Creep and relaxation in floating platforms—an analysis of case histories. Masterson, D.M., et al, [1980, p.205-216, eng] **34-3743**
Plastic limit analysis of sheet ice loads on conical structures. Ralston, T.D., [1980, p.289-308, eng] **34-3748**
Analytical approach for the determination of ice forces using plasticity theory. Reinicke, K.M., [1980, p.325-341, eng] **34-3750**
Study of the thermal structure of the antarctic ice cap. Burdecki, F., [1967, p.47-69, eng] **34-3764**
Free oscillations in a climate model with ice-sheet dynamics. Källén, E., et al, [1979, p.2292-2303, eng] **34-3767**
Thermohydrodynamic model of an ice sheet. Verbitskiĭ, M.IA., et al, [1980, p.61-67, eng] **34-3798**
Existence of multiple steady states in the flow of large ice masses. Fowler, A.C., [1980, p.183-184, eng] **34-3810**
Rock glaciers in Dagestan mountains (East Caucasus). Kozhevnikov, A.V., et al, [1980, p.14-26, rus] **34-3903**
West Antarctic ice sheet fluctuations in the Antarctic Peninsula area. Sugden, D.E., et al, [1980, p.378-381, eng] **34-3924**
Flow patterns in the central North American ice sheet. Shilts, W.W., [1980, p.213-218, eng] **34-3985**
Long-period gravity waves in ice-covered sea. Bates, H.F., et al, [1980, p.1095-1100, eng] **34-4073**
Gravity determinations at Vostok. Bentley, C.R., [1980, p.193-195, eng] **34-4188**

Ice shelves
Depositional history of artificial radionuclides in the Ross Ice Shelf, Antarctica. Koide, M., et al, [1979, p.205-223, eng] **34-48**
SCAR Working Group on Glaciology. [1979, p.527-532, eng] **34-474**
Major types of antarctic ice shores. Dubrovin, L.I., [1979, p.69-74, eng] **34-527**
Mass budget of the Lambert Glacier drainage basin, Antarctica. Allison, I., [1979, p.223-235, eng] **34-538**
In-situ measurements of the activation energy for D.C. conduction in polar ice. Bentley, C.R., [1979, p.237-246, eng] **34-539**
Is vertical shear in an ice shelf negligible. Sanderson, T.J.O., et al, [1979, p.285-292, eng] **34-543**
West Antarctic ice sheet: present-day thinning and Holocene retreat of the margins. Thomas, R.H., [1979, p. 257-1258, eng] **34-732**
Antarctic journal of the United States, Vol. 14, No.3. [1979, 23p., eng] **34-1091**
Discussions on problems of the study of the Antarctic glacial cover at the twelfth session of the Scientific Committee for Antarctic Research (SCAR), and at the meetings of the Council of the International Antarctic Glaciological Project (IAGP). Korotkevich, E.S., [1974, p.103-118, eng] **34-1194**
Meteorological aspects of the drift of ice from the Weddell Sea toward the mid-latitude westerlies. Schwerdtfeger, W., [1979, p.6321-6328, eng] **34-1404**
Antifreeze-thermodrilling for core through the central part of the Ross Ice Shelf (J-9 Camp), Antarctica. Zotikov, I.A., [1979, 12p., eng] **34-1577**
Plutonium in glaciers. [1979, p.1419A-1422A, eng] **34-1601**
Ross Ice Shelf temperatures support a history of ice-shelf thickening. MacAyeal, D.R., et al, [1979, p.703-705, eng] **34-1747**
Tidal flexure of ice shelves measured by tiltmeter. Stephenson, S.N., et al, [1979, p.496-497, eng] **34-1762**
Temperature regime of the antarctic fast ice. Nazintsev, IU.L., [1979, p.63-68, rus] **34-1829**
On upwelling driven by the melt of ice shelves and tidewater glaciers. Greisman, P., [1979, p.1051-1065, eng] **34-1882**
British Antarctic Survey, 1978-79. [1979, p.605-612, eng] **34-2162**
Studies of heat and mass transfer at the lower surface of the Ross Ice Shelf. Zotikov, I.A., et al, [1979, p.178, rus] **34-2201**
Initial report on geological materials collected at RISP site J9, 1978-79. Webb, P.N., comp, [1979, 127p., eng] **34-2481**
Core drilling through the Ross Ice Shelf (Antarctica) confirmed basal freezing. Zotikov, I.A., et al, [1980, p.1463-1465, eng] **34-2485**
Recrystallisation and electrical behaviour of glacier ice. Reynolds, J.M., et al, [1980, p.63-64, eng] **34-2538**
Icebergs are a frozen asset. Reynolds, J.M., [1979, p.177-180, 185, eng] **34-2733**
Flow lines on Antarctic ice shelves. Crabtree, R.D., et al, [1980, p.31-37, eng] **34-2809**
Proceedings. [1979, 520p., eng] **34-2812**
Dynamics of marine ice sheets. Thomas, R.H., [1979, p.167-177, eng] **34-2825**
Formation, flow, and disintegration of ice shelves. Robin, G. de Q., [1979, p.259-271, eng] **34-2829**
Ice shelves: a review. Thomas, R.H., [1979, p.273-286, eng] **34-2830**
Ice-thickness patterns and the dynamics of the Ross Ice Shelf, Antarctica. Bentley, C.R., et al, [1979, p.287-294, eng] **34-2831**
Dynamics of the Ross Ice Shelf revealed by radio echo-sounding. Neal, C.S., [1979, p.295-307, eng] **34-2832**
Lateral density differences from seismic measurements at a site on the Ross Ice Shelf, Antarctica. Kirchner, J.F., et al, [1979, p.309-312, eng] **34-2833**
Seismic short-refraction studies on the Ross Ice Shelf, Antarctica. Kirchner, J.F., et al, [1979, p.313-319, eng] **34-2834**
Electromagnetic sounding of bottom crevasses on the Ross Ice Shelf, Antarctica. Jezek, K.C., et al, [1979, p.321-330, eng] **34-2835**
Investigation of bottom mass-balance rates by electrical resistivity soundings on the Ross Ice Shelf, Antarctica. Shabtaie, S., et al, [1979, p.331-343, eng] **34-2836**
Dating of Ross Ice Shelf cores by chemical analysis. Herron, M.M., et al, [1979, p.345-357, eng] **34-2837**
Characteristics of the antarctic temperature field according to *Kosmos 243* satellite radiometric measurements. Kurskaia, A.A., [1976, p.13-20, eng] **34-3273**
Dynamics of snow and ice masses. Colbeck, S.C., ed, [1980, 468p., eng] **34-3655**
Ice sheets and ice shelves. Paterson, W.S.B., [1980, p.1-78, eng] **34-3656**
Undulations on the McMurdo Ice Shelf near Scott Base, Antarctica. Holdsworth, G., et al, [1979, p.16-22, eng] **34-3680**
Equilibrium profile of ice shelves. Sanderson, T.J.O., [1979, p.435-460, eng] **34-3784**
Morphology and dynamics of ice rises. Martin, P.J., et al, [1980, p.33-45, eng] **34-3796**
Bottom crevasses. Weertman, J., [1980, p.185-188, eng] **34-3811**
Glaciological studies by Landsat imagery of perimeter of Dronning Maud Land, Antarctica. Orheim, O., [1978, p.69-80, eng] **34-3987**
Glacial and glacial marine sediments of the antarctic continental shelves. Anderson, J.B., et al, [1980, p.399-414, eng] **34-4189**

Ice sintering
Experimental studies on snow accretion at subzero temperatures. Mizuno, Y., et al, [1979, p.17-32, jap] **34-3488**

Ice snow interface
See: Snow ice interface

Ice solid interface
Adhesion of ice to concrete surfaces preliminary results Ashworth, T., et al, [1979, p.23-29, eng] **34-54**
Electrical properties of ice-solid interfaces Camp, P.R., et al, [1979, p.35-43, eng] **34-56**
Detachment of ice from surfaces by application of high intensity light. Mouat, T.W., et al, [1979, p.289-292, eng] **34-94**
Steel-ice friction coefficients from field and laboratory research. Grothues-Spork, H., [1977, p.17-24, ger] **34-1935**
Proceedings. [1979, 291p., eng] **34-2036**
Sediment transport by intertidal ice. Rosen, P.S., [1979, p.133-147, eng] **34-2037**
Soil-ice system and the shear strength of frozen soils Goughnour, R.R., [1968, 153p., eng] **34-2041**
Proceedings. [1979, p.1-445, eng] **34-2219**
Unsolved general glacier sliding problem. Weertman, J., [1979, p.97-115, eng] **34-2225**
Sequence of glacial deformation, erosion, and deposition at the ice-rock interface during the last glaciation: Cranbrook, British Columbia, Canada. Broster, B.E., et al, [1979, p.283-295, eng] **34-2239**
Glacial geology of recently deglaciated bedrock areas. Hallet, B., [1979, p.795-801, eng] **34-2264**
Dynamic ice forces on an inclined structure. Frederking, R., [1980, p.104-116, eng] **34-3736**
Analytical approach for the determination of ice forces using plasticity theory. Reinicke, K.M., [1980, p.325-341, eng] **34-3750**
Ice forces on piles. Saeki, H., et al, [1980, p.342-350, eng] **34-3751**

Ice spectroscopy
Microwave radar and radiometric remote sensing measurements of lake ice. Swift, C.T., et al, [1980, p.243-246, eng] **34-3406**
Direct spectroscopic observation of proton exchange and Bjerrum defect migration in cubic ice. Ritzhaupt, G., et al, [1980, p.6807-6808, eng] **34-3782**
Elastic constants of ice by Brillouin spectroscopy. Gammon, P.H., et al, [1980, p.159-167, eng] **34-3807**
Investigating ultraviolet photoelectron spectroscopy of ice. Abbati, I., et al, [1979, p.511-514, eng] **34-3994**

Ice storms
Investigation into outages of electric power supply as the result of ice storms. [1979, 51p. + 16p. appends., eng] **34-2505**
Estimated glaze ice and wind loads at the earth's surface for the contiguous United States. Tattelman, P., et al, [1973, 35p., eng] **34-3645**
Climatology of freezing rain in the Montreal area. Leech, M.E., [1979, p.125-140, eng] **34-4211**

Ice strength
Morphological characteristics of ice grown from an impure melt. Timco, G.W., [1978, 25p. + 26 figs., eng] **34-7**
Mathematical model to describe the behavior of a moving ice field encountering a conical structure. Kim, J.K., et al, [1973, 2 vols., eng] **34-294**
Ice adhesion study. [1973, 88p., eng] **34-295**
Small prototype cone tests winter 1973-74. Verity, P.H., [1975, 102p. + appends., eng] **34-296**
Investigations into the feasibility of producing pressure ridge/ice sheet systems with synthetic ice. Edwards, R., et al, [1975, n.p., eng] **34-298**
Model experiments to determine the ice forces exerted on structures by moving ice fields (comparison with small prototype test results). Edwards, R.Y., Jr., et al, [1975, 35p. + annex, eng] **34-302**
Island defense system tests. Trofimenkoff, P.N., [1976, 84p., eng] **34-306**
Small scale, in-situ ice strength tests. [1973, n.p., eng] **34-414**
Beaufort Sea summer ice testing project. [1973, 16p. + figs. and tables, eng] **34-419**
Ice crushing tests—1974. Miller, T.W., et al, [1974, 177p., eng] **34-421**
Laboratory tests on fresh water ice, 1974. Morgenstern, N.E., et al, [1974, 17p. + figs. and tables, eng] **34-422**
Ice forces on offshore monopods and piles. [1973, c.20p., eng] **34-481**
Ice crushing tests, 1973. Taylor, T.P., [1973, p.64p. + figs., eng] **34-482**
Compression tests on fresh water ice, 1973. [1973, 15p. + tables and figs., eng] **34-483**
Interpretation of ice strength from in-situ indentation tests. Morgenstern, N.R., et al, [1971, 26p. + figs., eng] **34-514**
Compression tests on fresh water ice. Nuttall, J.B., et al, [1972, 47p., eng] **34-515**
Sea ice tests. Nuttall, J.B., [1971, 34p., eng] **34-559**
Results of model ice sheet properties research. Edwards, R.Y., Jr., et al, [1972, c.130p., eng] **34-579**
Beaufort Sea ice sampling project, 1970. Crossdale, K.R., [1970, c.145p., eng] **34-594**
Strength of saw-dust reinforced ice. Konovalov, A.A., et al, [1976, p.101-104, rus] **34-710**
Strength of ice plates. Michel, B., [1979, p.98-106, eng] **34-926**
Laboratory investigation of circular sea-ice plates. Murat, J.R., et al, [1979, p.107-123, eng] **34-927**

Safe ice loads computed with a pocket calculator. Nevel, D.E., [1979, p.205-223, eng] 34-932

Strain measurements in floating ice platforms and their application to platform design. Masterson, D.M., et al, [1979, p.394-405, eng] 34-1156

Geotechnical studies for freezing procedures. Huder, J., [1979, p.77-98, ger] 34-1321

User manual for programs VISICE and VISFIT. Katona, M.G., [1979, 60p., eng] 34-1563

Sea ice properties. Wang, Y.S., [1979, 11p. + 24 slides, eng] 34-1591

Load-bearing capacity of ice cover and determination of breaking strength. Serikov, M.I., [1979, p.152-156, eng] 34-1904

Calculating the balance of Arctic Ocean pollutants. Izmailov, V.V., et al, [1979, p.486-491, rus] 34-2022

Investigations of the basic forces involved in the adhesion of ice to highway surfaces. Ashworth, T., et al, [1979, 109p., eng] 34-2166

Use of ice as the soil base for structures. Galdaenko, E.I., [1980, 92p., eng] 34-2986

Arctic test results, Phase I, Task D. [1975, c500p., eng] 34-3102

Sea ice beam tests of January 1975. Macy, R.L., [1975, 272p., eng] 34-3104

Moving load experiments on Arctic sea ice, Resolute Bay, winter 1975/76. Lichtenberger, G.J., et al, [1976, c115p., eng] 34-3106

Field studies of the strength and physical properties of a multi-year ice pressure ridge in the southern Beaufort Sea. Gladwell, R.W., [1977, c90p., eng] 34-3107

Ground ice and ice-rich ground as structure foundations. Vialov, S.S., et al, [1980, 159p., eng] 34-3405

Effect of sample length on uniaxial compressive strength of sea ice. Nohguchi, Y., et al, [1979, p.129-133, jap] 34-3498

Sea ice growth, drift, and decay. Hibler, W.D., III, [1980, p.141-209, eng] 34-3658

Plotting through the pack; radar resistant ice. Haines, S.A., [1980, p.16-19, eng] 34-3672

Impact strength tests on Ottawa River ice. Timco, G.W., et al, [1979, 20p. + 15 figs., eng] 34-3717

Chemical survey to determine potential dopants for a model ice test basin. Timco, G.W., [1979, 22p., eng] 34-3718

Ice forces on the Yukon River bridge 1978 breakup. Johnson, P.R., et al, [1979, 40p., eng] 34-3725

Development and application of multimodal ice failure theory. Bercha, F.G., [1980, p.16-27, eng] 34-3729

Modelling the interaction between ice and ships. Edwards, R.Y., Jr., [1980, p.60-81, eng] 34-3733

Critical stress intensity factors (K(Ic)) measurements at high loading rates for polycrystalline ice. Goodman, D.J., [1980, p.129-146, eng] 34-3738

On the buckling force of floating ice plates. Kerr, A.D., [1980, p.163-178, eng] 34-3740

Danish icebreaker design. Kure, K., et al, [1980, p.194-204, eng] 34-3742

Mechanical properties of polycrystalline ice. Mellor, M., [1980, p.217-245, eng] 34-3744

Failure of sea ice by repeated compression. Tabata, T., et al [1980, p.351-362, eng] 34-3752

Analysis of the *In-situ* resistivity of sea ice in terms of its microstructure. Timco, G.W., [1979, p.461-471, eng] 34-3785

On the strength of sea ice and a correlation between the various strength tests. Lane, J.F., [1979, 29p. + 9 figs., eng] 34-4194

See also: Ice cover strength

Ice structure

Morphological characteristics of ice grown from an impure melt. Timco, G.W., [1978, 25p. + 26 figs., eng] 34-7

Optical classification of natural ice. Bogorodskiĭ, V.V., et al, [1979, p.341-347, rus] 34-882

Structural studies of glaciers in the Khumbu region. Fushimi, H., [1977, p.30-39, eng] 34-901

Grain-size influence on effective modulus of ice. Sinha, N.K., [1979, p.65-79, eng] 34-924

Problems of offshore oil drilling in the Beaufort Sea. Weller, G., et al, [1978, p.4-11, eng] 34-942

Ice thickness and stratigraphy at nearshore locations on the Great Lakes (metric units). Sleator, F.E., [1978, 440p., eng] 34-1460

Rheological properties of ice. Zaretskiĭ, IU.K., et al, [1979, p.179-191, rus] 34-1552

User manual for programs VISICE and VISFIT. Katona, M.G., [1979, 60p., eng] 34-1563

Interpretation of the OH stretching region of the vibrational spectrum of ice I. McGraw, R., et al, [1977, p.219-226, eng] 34-1606

Rock stream structure in South Yakutia. Tiurin, A.I., et al, [1979, p.119-128, rus] 34-1919

Sea ice. Part 1: major features and physical properties. Wittmann, W., et al, [1973, p.125-134, eng] 34-1960

Rupture of an ice mound near Cape Dorset, N.W.T. Frederking, R.M.W., [1979, p.604-609, eng] 34-2047

Presentation of sea ice ridges in general and physical characteristics of Baltic ridges for ship resistance calculations. Keinonen, A., [1978, 19p. + 14 figs., eng] 34-2141

Structure and properties of grain boundaries in ice. Hondoh, T., [1979, p.253-257, jap] 34-2170

Discontinuous flow, ice texture, and dirt content in the basal layers of the Devon Island ice cap. Koerner, R.M., et al, [1979, p.209-222, eng] 34-2233

Comparison of the pebble orientation in ice and deposits of the Matanuska Glacier, Alaska. Lawson, D.E., [1979, p.629-645, eng] 34-2502

Ferroelectric transition in hexagonal ice Ih. Hentschel, H.G.E., [1979, p.401-411, eng] 34-2504

Microphysics of clouds and precipitation. Pruppacher, H.R., et al, [1978, 714p., eng] 34-2515

Studying ground ice in the Baykal Amur railroad area. Nekrasov, I.A., et al, [1979, p.17-26, rus] 34-2771

Ice-sheet flow properties derived from bore-hole shear measurements combined with ice-core studies. Russell-Head, D.S., et al, [1979, p.117-130, eng] 34-2821

Margin of the Greenland ice sheet at Isua. Colbeck, S.C., et al, [1979, p.155-165, eng] 34-2824

Ice structure and the formation of thawed patches. Komov, N.I., [1979, p.151-157, rus] 34-3010

Dynamics of near-shore ice. Kovacs, A., et al, [1979, p.181-207, eng] 34-3051

Structural analysis of the ice encountered in Ridge Camp 1975. Nadreau, J.P., [1976, c70p., eng] 34-3108

Naleds in Central Asian and Kazakhstan mountains. Gorbunov, A.P., et al, [1979, p.175-181, rus] 34-3136

Preliminary study of ice grown by droplet accretion using water-insoluble particles as tracer. Proft, F., et al, [1980, p.284-289, eng] 34-3202

Electron microscope studies of low temperature ice modification. Girs, S.P., et al, [1979, p.63-67, rus] 34-3572

Chemical survey to determine potential dopants for a model ice test basin. Timco, G.W., [1979, 22p., eng] 34-3718

Development and application of multimodal ice failure theory. Bercha, F.G., [1980, p.16-27, eng] 34-3729

Results of experimental studies of the freezing process in very fine-grained soils. Zhestkova, T.N., [1980, p.119-136, eng] 34-3836

Permafrost in the mountains of Central Asia. Gorbunov, A.P., [1980, p.257-369, eng] 34-3851

West Antarctic ice sheet fluctuations in the Antarctic Peninsula area. Sugden, D.E., et al, [1980, p.378-381, eng] 34-3924

Computation of the thickness and structure of the ice cover on rivers in the northern European USSR. Amineva, V.IA., [1978, p.51-52, eng] 34-3963

Icicles as crystallization phenomena. Knight, C.A., [1980, p.193-198, eng] 34-4003

Ice sublimation

Proceedings of the Scientific Conference on Altai Glaciology Problems. [1963, 259p., rus] 34-106

Glaciological and climatological significance of ablation periods. Olelnik, I.IA., [1973, p.87-92, rus] 34-110

Sublimation and condensation at the ice sheet surface of Mizuho Station, Antarctica. Fujii, Y., [1979, p.51-63, eng] 34-2150

Using an infrared radiometer for measuring thermal properties of clouds. Sin'kevich, A.A., [1979, p.105-111, rus] 34-3575

Experimental investigation of heat and moisture transfer during sublimation-desublimation of water in fine-grained soils. Ershov, E.D., et al, [1980, p.143-158, eng] 34-3838

Sublimation of a horizontal slab of dry ice: an analog of pool boiling on a flat plate. Dhir, V.K., [1980, p.380-382, eng] 34-4250

Ice surface

Intrinsic surface disorder in ice near the melting point. Golecki, I., et al, [1978, p.4229-4237, eng] 34-408

Linear elements of sea-ice relief. Kupetskiĭ, V.N., [1979, p.75-81, eng] 34-528

Ice cover parametrization in global models of ocean-atmosphere interactions. Belevich, M.IU., [1979, p.91-97, rus] 34-804

Effect of wind orography in the free atmosphere on air circulation above glaciers. Ni, A.A., et al, [1977, p.30-34, rus] 34-887

Vertical profile of glacier wind (numerical experiment). Ni, A.A., et al, [1977, p.35-40, rus] 34-888

Monitoring of thickness changes of the continental ice sheets by satellite altimetry. Brooks, R.L., [1979, p.3965-3968, eng] 34-943

New data on recent glaciation of the Fedchenko glacier system (for the "atlas of snow-ice resources of the world"). Shchetinnikov, A.S., [1979, p.113-121, rus] 34-1133

Tidal flexure of ice shelves measured by tiltmeter. Stephenson, S.N., et al, [1979, p.496-497, eng] 34-1762

Impact of CO2 on cooling of snow and water surfaces. Choudhury, B., et al, [1979, p.668-671, eng] 34-1840

Antarctic ice topography and 150 mb circulation from the NIMBUS-6 TWERLE experiment. Levanon, N., et al, [1978, p.43-46, eng] 34-2035

Sublimation and condensation at the ice sheet surface of Mizuho Station, Antarctica. Fujii, Y., [1979, p.51-63, eng] 34-2150

Studies on interaction between wind and dry snow surfaces. Kobayashi, S., [1979, 64p., eng] 34-3191

Video-pulse radiometer of sea ice thickness as a promising means of ice surveying. Finkel'shtein, M.I., et al, [1977, p.104-113, rus] 34-3312

Testing a numerical scheme for calculating winter ice distribution in Arctic seas. Appel', I.L., et al, [1977, p.141-150, rus] 34-3317

Empirical formulas for calculating melting on glaciers. Konovalov, V.G., [1978, p.41-53, rus] 34-3349

Sea ice growth, drift, and decay. Hibler, W.D., III, [1980, p.141-209, eng] 34-3658

Forms created by the thermal movement of lake ice in Finland in winter 1972-73. Alestalo, J., et al, [1979, p.51-92., eng] 34-4159

See also: Glacier surfaces

Ice surveys

Canadian Arctic field survey, May 17-June 23, 1969. Atwater, R.K., et al, [1969, 35p. + appends., eng] 34-322

Natural conditions and resources of northern seas. Zhevnovatyĭ, V.I., ed, [1977, 119p., rus] 34-356

Using the "Toros" side-looking radar in studying ice drift in the southeastern Barents Sea. Zubakin, G.K., et al, [1977, p.83-89, rus] 34-358

Davis Strait aerial survey 77-1. [1977, 14p. + figs and tables, eng] 34-425

Report on Phase I of pressure ridge and ice island study: evaluation of hovercraft and ice reconnaissance. Hnatiuk, J., [1971, 5p., eng] 34-561

Aerial photographic surveys of ice cover for hydraulic engineering. Losev, S.M. et al, [1979, p.140-150, rus] 34-3009

Telemeasurement of ice cover parameters. [1977, 154p., rus] 34-3301

Automatically controlled ice information system for the Arctic (ALISA). Bushuev, A.V., et al, [1977, p.6-16, rus] 34-3302

External orientation of satellite scanning radiometer photographs. Bushuev, A.V., [1977, p.17-25, rus] 34-3303

Compiling ice maps from photographs made by meteorological satellites. Provorkin, A.V., [1977, p.34-39, rus] 34-3305

Using microwave satellite measurements for mapping sea ice. Loshchilov, V.S., [1977, p.40-45, rus] 34-3306

Analytic coordination of areal and route radar surveys. Bushuev, A.V., [1977, p.46-57, rus] 34-3307

Accuracy of geographic correlation of *Toros* side looking radar photographs. Borisov, R.A., et al, [1977, p.58-64, rus] 34-3308

Operational analysis of the drift and deformation of ice cover from repeated areal radar survey photographs. Borisov, R.A., et al, [1977, p.65-74, rus] 34-3309

Data on medium-scale deformations of ice covers in Arctic seas. Gorbunov, IU.A., et al, [1977, p.75-91, rus] 34-3310

Studying morphometric characteristics of summer ice cover in Arctic seas. Losev, S.M., et al, [1977, p.92-103, rus] 34-3311

Video-pulse radiometer of sea ice thickness as a promising means of ice surveying. Finkel'shtein, M.I., et al, [1977, p.104-113, rus] 34-3312

Using radar equipment for measuring ice cover thickness in ice surveys. Bushuev, A.V., et al, [1977, p.114-121, rus] 34-3313

Airborne laboratory for studying White Sea ice. Kurskaia, A.A., [1977, p.122-126, rus] 34-3314

Studying grounded ice hummocks from aerial photographs. Losev, S.M., et al, [1977, p.127-132, rus] 34-3315

Shifting of ice edges and ice cover boundaries. Gorbunov, IU.A., et al, [1977, p.133-140, rus] 34-3316

Testing a numerical scheme for calculating winter ice distribution in Arctic seas. Appel', I.L., et al, [1977, p.141-150, rus] 34-3317

Using statistical characteristics of radar photographs of ice covers for their recognition. Aleksandrov, V.IU., et al, [1977, p.151-154, rus] 34-3318

Fast ice thickness distribution in the Chaunskaya Bay. Kosharovskiĭ, IU.E., et al, [1979, p.114-115, rus] 34-3536

Investigation of ice drift in the southeastern part of the Barents Sea with the aid of a "Toros" peripheral scanning radar station. Zubakin, G.K., et al, [1980, 7p., eng] 34-3898

Computation of the thickness and structure of the ice cover on rivers in the northern European USSR. Amineva, V.IA., [1978, p.51-52, eng] 34-3963

Use of ice jam typification from aircraft observation data in forecasting maximum stages in the Lena River. Rudnev, A.S., [1978, p.53-56, eng] 34-3964

Results of application of infrared equipment for the investigation of hydrologic objects. Bogorodskiĭ, V.V., et al, [1978, p.77-79, eng] 34-3969

Discovery of the Tanymas country. Gorbunov, A., [1979, p.97-102, rus] 34-4139

Ice wharves

Safe working conditions on fast ice. Chuchukin, A., [1979, p.26-27, rus] **34-2292**

Iceberg towing

New role for icebergs. Quinn, K.J., [1978, p.72-95, eng] **34-1405**

Ocean eddy structure by satellite radar altimetry required for iceberg towing. Campbell, W.J., et al, [1980, p.211-221, eng] **34-2443**

High-force towing. Mellor, M., [1980, p.231-240, eng] **34-2447**

Measurement of thermal conduction within a large fresh water ice block being towed in sea water. Clifford, W., et al, [1980, p.265-272, eng] **34-2448**

Icebergs are a frozen asset. Reynolds, J.M., [1979, p.177-180, 185, eng] **34-2733**

The iceberg cometh. Weeks, W.F., et al, [1979, p.66-75, eng] **34-3793**

Bottom crevasses. Weertman, J., [1980, p.185-188, eng] **34-3811**

Icebergs

Ocean ice. Sobey, E., [1979, p.105-114, eng] **34-200**

Analytical study of ice scour on the sea bottom. [1975, 185p. + appends., eng] **34-299**

Ice and meteorological observations in the Davis Strait during April, May and June 1977 for Imperial Oil Limited. [1977, var. p., eng] **34-310**

Natural conditions and resources of northern seas. Zhevnovatyĭ, V.T., ed, [1977, 119p., rus] **34-356**

Boundaries of ice and iceberg distribution in the North Atlantic Ocean. Kogan, B.A., et al, [1977, p.74-82, rus] **34-357**

Arctic environmental observations M/V Arctic Explorer [1974, 37p. + logs, eng] **34-423**

Environmental conditions in Baffin Bay and Davis Strait. [1972, 144p., eng] **34-577**

Average spring, summer, fall and winter iceberg density distribution along the Labrador Coast. Gustajtis, K.A., et al, [1977, 4 maps., eng] **34-727**

Glaciological and marine biological studies at perimeter of Dronning Maud Land, Antarctica. Final report. Orheim, O., [1977, 17p., eng] **34-772**

Iceberg population distribution study in the Labrador Sea. Gustajtis, K.A., [1979, 41p., eng] **34-785**

Engineering at the ends of the earth; polar ocean technology for the 1980's. [1979, 74p., eng] **34-844**

Report of the International Ice Patrol services in the North Atlantic Ocean, season of 1977. Knutson, K.N., et al, [1978, 44p. + appends., eng] **34-941**

Arctic ice. Zubov, N.N., [1979, 500p., eng] **34-1115**

Recent trends in the ice cover of the Arctic Ocean. Shpaikher, A.O., [1974, p.311-322, eng] **34-1202**

Motion of icebergs due to changes in water currents. Sodhi, D.S., et al, [1975, p.348-350, eng] **34-1231**

Remote sensing and analysis of oceanographic parameters from ERTS-1. Needham, B.H., [1975, p.798-802, eng] **34-1234**

Comment on "Drift of icebergs in the Grand Banks". Mountain, D.G., et al, [1979, p.549-550, eng] **34-1292**

Long-term tracking of Arctic icebergs. Robe, R.Q., et al, [1979, 41p., eng] **34-1354**

Oceanography of the Grand Banks region of Newfoundland in 1973. Hayes, R.M., et al, [1978, 448p., eng] **34-1364**

Icebergs: an overview. Kovacs, A., [1979, 7p., eng] **34-1597**

Tabular icebergs in the South Atlantic. [1979, p.223-228, ger] **34-1618**

Choice of algorithms for numerical determination of size distribution and compactness of ice floes. Khelsin, D.E., [1979, p.109-117, eng] **34-1892**

Lower limit of application of hydrodynamic model of ice drift. Khelsin, D.E., et al, [1979, p.154-157, eng] **34-1894**

Iceberg scouring on the Labrador Shelf, Saglek Bank. Gustajtis, K.A., [1979, 89p., eng] **34-2429**

Project SAR '77 summary report. Worsfold, R.D., ed, [1979, 402p., eng] **34-2430**

Proceedings. [1980, p.167-306, eng] **34-2439**

West Greenland outlet glaciers: an inventory of the major iceberg producers. Kollmeyer, R.C., [1980, p.175-181, eng] **34-2440**

Long-term drift of icebergs in Baffin Bay and the Labrador Sea. Robe, R.Q., et al, [1980, p.183-193, eng] **34-2441**

Potential of SAR in detecting and monitoring icebergs. Parashar, S., et al, [1980, p.195-210, eng] **34-2442**

Environmental factors affecting iceberg scour estimates. Chari, T.R., et al, [1980, p.223-230, eng] **34-2444**

On the size distribution of Antarctic icebergs. Neshyba, S., [1980, p.241-248, eng] **34-2446**

Experiments involving melting of a large ice block towed in sea water. Fuhs, A.E., et al, [1980, p.249-264, eng] **34-2447**

On predicting iceberg drift. Mountain, D.G., [1980, p.273-282, eng] **34-2449**

Iceberg drift observations in Lancaster Sound. Riggs, N.P., et al, [1980, p.283-291, eng] **34-2450**

Monte Carlo simulation of iceberg impact probabilities. Reddy, D.V., et al, [1980, p.293-297, eng] **34-2451**

Dimensional modelling of icebergs. Benedict, C.P., [1980, p.299-306, eng] **34-2452**

Oil spill scenario for the Labrador Sea. LeDrew, B.R., et al, [1979, 675p., eng] 34-2479
Glaciers and environment. Derbyshire, E., [1979, p.58-106, eng] 34-2560
ICEX: Ice and climate experiment; report of Science and Applications Working Group. [1979, c118p., eng] 34-2726
Drilling among the icebergs. Davids, R.C., [1980, p.2-7, eng] 34-2804
Varied and unpredictable faces of Arctic ice. [1977, p.8-10, eng] 34-3014
Some iceberg statistics for the Davis Strait. Trofimenkoff, P.N., [1978, 43p., eng] 34-3114
Report on Soviet glaciological studies in 1975-1978. [1979, p.5-34, rus] 34-3116
Dynamics of snow and ice masses. Colbeck, S.C., ed, [1980, 468p., eng] 34-3655
Iceberg drift and deterioration. Robe, R.Q., [1980, p.211-259, eng] 34-3659
Workshop of the Glaciology Section and tutorial seminar, Zvenigorod, June 1979. Barbash, V.R., [1979, p.5-29, rus] 34-3684
Icebergs and oil tankers soon to mix. Hartline, B.K., [1980, p.381, eng] 34-3720
Characteristics of iceberg mechanics. Dempster, R.T., [1980, p.38-50, eng] 34-3731
Icebergs: technology for the future. Huppert, H.E., [1980, p.67-68, eng] 34-3899
Glaciological studies by Landsat imagery of perimeter of Dronning Maud Land, Antarctica. Orheim, O., [1978, p.69-80, eng] 34-3987

Icebound lakes

Water temperature beneath ice in the Bratsk reservoir. Shishkanova, E.F., [1979, p.81-86, rus] 34-1697
Ice loads on structures of the Baykal Amur railroad. Korzhavin, K.N., ed, [1977, 121p., rus] 34-3168
Selecting design values of air temperature differences when evaluating static loads of thermal ice expansion on bridge piers. Ptukhin, F.I., [1977, p.37-46, rus] 34-3172
Static ice cover loads on isolated structures. Ivchenko, A.B., [1977, p.47-50, rus] 34-3173
Calculating the safety coefficient for bearing capacity of ice covers. Ptukhin, F.I., [1977, p.56-71, rus] 34-3175
Ice accretion beneath snow cover. Raspopin, G.A., et al, [1977, p.101-111, rus] 34-3178
Use of radar to measure ice thickness in rivers, lakes, and reservoirs. Chizhov, A.N., et al, [1978, p.116-127, eng] 34-4058

Icebound rivers

Catalog of spring and fall ice jamming on USSR rivers. Vol. 1. The European USSR. Sokolov, A.A., ed, [1976, 260p., rus] 34-2112
Ice edge dynamics on the Amudar'ya River. Abramenkov, N.M., [1979, p.100-106, rus] 34-2888
Forecasting ice edge movement during the freezing of the Amudar'ya River. Abramenkov, N.M., [1979, p.107-120, rus] 34-2889
Minimum winter drainage of Sakhalin rivers. Bykadorova, A.IA. [1979, p.107-109, rus] 34-2896
Ice loads on structures of the Baykal Amur railroad. Korzhavin, K.N., ed, [1977, 121p., rus] 34-3168
Forecasting ice jam conditions in front of Baykal Amur railroad structures. Trolnin, V.K., [1977, p.18-24, rus] 34-3170
Calculating the safety coefficient for bearing capacity of ice covers. Ptukhin, F.I., [1977, p.56-71, rus] 34-3175
Forecasting naled formation on small streams crossed by the Baykal Amur railroad. Samochkin, V.M., [1977, p.72-90, rus] 34-3176
Ice accretion beneath snow cover. Raspopin, G.A., et al, [1977, p.101-111, rus] 34-3178
Forecasting ice formation at the Kolyma River bay-mouth bar. Furmanov, O.M., [1979, p.130-132, rus] 34-3537
Ice conditions of rivers in the West Siberian taiga zone. Martynov, B.D., [1978, p.63-74, rus] 34-3610
Annual distribution of water balance elements through the altitudinal forest belts of the Lake Baykal Basin. Lebedev, A.B., et al, [1979, p.83-95, rus] 34-3774
Strength of ice cover during its breakup period on rivers of the Baykal Amur railroad area. Zabelina, E.F., [1979, p.93-101, rus] 34-3883
Computation of the thickness and structure of the ice cover on rivers in the northern European USSR. Amineva, V.IA., [1978, p.51-52, eng] 34-3963
Use of radar to measure ice thickness in rivers, lakes, and reservoirs. Chizhov, A.N., et al, [1978, p.116-127, eng] 34-4058
Physical hydraulic model study of an ice-covered river. Johnson, R.P., et al, [1980, p.431-440, eng] 34-4161

Icebreakers

On propulsion of icebreakers. Airaksinen, K., et al, [1976, p.194-202, eng] 34-1293
Icebreaker probes to Lake Melville, Labrador, in 1972. Bradford, J.D., [1979, 40p., eng] 34-1316
Icebreaker capability reference document. Perrini, F., [1977, c130 leaves, eng] 34-1337
Line icebreaker Kapitan Chechkin. Shamin, IU., [19?9, 11p., eng] 34-1341
From Yermak to Sibir. Beyer, S., [1979, 20p., eng] 34-1343
Mechanical technology in ice research. Schwarz, J., et al, [1979, 24p., eng] 34-1344
Developments in Soviet icebreaker construction. Peschanskii, A., [1979, 17p., eng] 34-1345
Arctic terminal for icebreaking tankers, conceptual design. Lewis, A.E., [1979, 6p. + figs., eng] 34-1507
Arctic terminal for icebreaking tankers study: conceptual design, final report. Lewis, A.E., [1979, 245p., eng] 34-1576
Icegoing drill ships. [1979, p.1460-1461, eng] 34-1600
Economic development of the northern USSR and the formation of a basic transportation pattern. Burkhanov, V.F., [1979, p.14-20, rus] 34-1621
Ice-breaking drillship for Arctic exploration. [1973, p.30-36, eng] 34-1728
Development of icebreakers and icebreaking methods, library search of Russian and European literature (Supplement). Dvorak, G.J., [1974, 3 vols., rus] 34-1737
Design of river icebreakers, library search of Russian and European literature (Supplement). Dvorak, G.J., [1972, 13 vols., rus] 34-1738
Arctic transportation systems. Nitzki, L., [1977, p.1-6, ger] 34-1933
Importance of full scale testing in ice for designing icebreaking ships. Makinen, E., [1977, p.7-16, eng] 34-1934
Voyage of the *Arktika* to the Pole and its geo-economical implications. Malaurie, J., [1978, p.205-208, fre] 34-2026
Northern sea route (1973-1976). Armstrong, T., [1978, p.264-268, eng] 34-2027
Sectional propellers for icebreakers. Vysokorodov, N., et al, [1979, p.32-33, rus] 34-2078
Guiding ship caravans in ice. Tretnikov, G., [1979, p.42-43, rus] 34-2121
Air cushion vehicle (ACV) icebreaker test and evaluation program. Volume I. Executive summary. Buck, J., et al, [1978, 39p., eng] 34-2277
Air cushion vehicle (ACV) icebreaker test and evaluation program. Volume 2. Operational and engineering analysis. Buck, J., et al, [1978, 156p., eng] 34-2278
Hot Arctic. Dyson, J., [1979, 290p., eng] 34-2456
Cycle diagrams of icebreaker steam-turbine plants. IUdovin, B.S., [1979, p.28-34, rus] 34-2695
Calculation of working conditions of the propulsion plant of icebreakers and of their movement in the "running-on" mode. IArovenko, V.A., [1979, p.36-38, rus] 34-2696
"Inexpensive" icebreaker not so inexpensive. Lamekhov, A., [1979, p.41, rus] 34-2795
Icebreakers with controllable propellers more reliable. Ivanov, S., [1980, p.32-33, rus] 34-2796
Ice cover contraction effect on icebreaker jamming. Voevodin, V.A., et al, [1979, p.126-133, rus] 34-3007
Computer simulation of Great Lakes-St. Lawrence Seaway icebreaker requirements. Kotras, T.V., et al, [1980, 195p., eng] 34-3084
Allowing for ice cover effect when selecting an optimal way of ice navigation with icebreakers. Buzuev, A.IA., et al, [1979, p.66-74, rus] 34-3186
Analysis of the performance of a 140-foot Great Lakes icebreaker: USCGC *Katmai Bay*. Vance, G.P., [1980, 28p., eng] 34-3199
Requirements for controllable propellers of ice navigation ships. Ivanov, S.N., [1979, p.122-132, rus] 34-3472
Improving the technical service system of "Moskva" type icebreakers. Grigor'ev, A.K., et al, [1979, p.28-32, rus] 34-3473
Using Doppler hydroacoustic recorder in ice navigation. Shamkin, L.A., [1979, p.58-63, rus] 34-3474
Studying noise and vibration on icebreakers of the "Kapitan Sorokin" type. Zinchenko, V.I., et al, [1979, p.51-68, rus] 34-3475
Vibrodynamic characteristics of equipment on icebreakers of the "Kapitan Sorokin" type. Barshal, IU.S., et al, [1970, p.68-79, rus] 34-3476
Icebreakers and coastal winter navigation in Finland. [1980, p.256-259, ger] 34-3616
Speed of icebreaker movement in the Azov Sea. Siniurin, IU., [1980, p.20-21, rus] 34-3643
Ice breaking rescue vessel. [1980, p.29, rus] 34-3644
USCGC *Polar Sea* cruise report: Deep Freeze 80. [1980, 96p., eng] 34-3665
Modelling the interaction between ice and ships. Edwards, R.Y., Jr., [1980, p.60-81, eng] 34-3733
Danish icebreaker design. Kure, K., et al, [1980, p.194-204, eng] 34-3742
Preliminary feasibility study of a tanker transportation system serving the northwest coast of Alaska. Final report. Halebsky, M., et al, [1980, 3 vols., eng] 34-3947
A.R.A. Almirante Irizar. [1979, p.76, eng] 34-4019
Internal ducted propulsion system applicable to ice conditions. Burnett, R.F., [1980, p.53-54, eng] 34-4067

Icefalls

Strain features at the base of an ice-fall in Switzerland. Tison, J.L., [1978, p.191-199, ger] 34-1269
Analysis of morphological characteristics of an alpine glacier icefall. Tison, J.L., [1978, p.89-107, fre] 34-3995

Iceland

Sea ice off the Icelandic coasts October 1970-September 1971. [1979, 97p., ice] 34-1699

Icequakes

Seismic evidence for discrete glacier motion at the rock-ice interface. Weaver, C.S., et al, [1979, p.171-184, eng] 34-2230

Icing

Linköping test field 1976. Investigations of the occurrence and frequency of icing on various roadbases 1. Test field construction. Gustafson, K., [1977, 12p. + 21 figs., swe] 34-42
Protection methods for railway switches in snow conditions. Ringer, T.R., [1979, p.308-313, eng] 34-97
All-weather protection for AGT guideways and stations. Stevens, R.D., et al, [1979, p.337-342, eng] 34-101
Roof response to icing conditions. Lane, J.W., et al, [1979, 40p., eng] 34-625
Automatic weather station for operating in severe icing climates. Baker, B., et al, [1979, p.734-738, eng] 34-699
Meteorological conditions for the formation of glaze-hoarfrost deposits in the lower 500-meter layer of the atmosphere. Degtiarev, A.D., et al, [1979, p.27-34, rus] 34-1086
De-icing system for hydro-pneumatic units. Baldin, V.I., et al, [1974, 4 col., rus] 34-1224
Climatic chamber tests of a surface ice accretion measurement system. Tattelman, P., [1979, 50p., eng] 34-1300
Icing of ships. Panov, V.V., [1978, p.166-186, eng] 34-1416
General and applied climatology. Kobysheva, N.V., ed, [1979, 104p., rus] 34-1814
Calculating the icing of tall structures from indirect data. Glukhov, V.G., et al, [1979, p.67-73, rus] 34-1819
Mass and density of ice-hoarfrost deposits under different physiographic conditions. Zakharov, A.G., et al, [1979, p.74-80, rus] 34-1820
Length of the ice-hoarfrost accretion period. Guliaev, IU.N., [1979, p.81-85, rus] 34-1821
Regionalization of the USSR according to icing. Rudneva, A.V., [1979, p.86-91, rus] 34-1822
Performance of sluices under ice conditions. Kliuev, V., et al, [1979, p.34-36, rus] 34-2119
Docks can be used in winter. Shirokikh, V., [1979, p.34, rus] 34-2122
Ice and landing surface demoulding – replica fabrication. Lundström, G., [1973, 12p., eng] 34-2143
International conference on meteorology of the Carpathian Mountains. Proceedings. [1979, 415p., rus] 34-2299
Hoarfrost-ice deposits in West Carpathian Uplands. Ostrožlík, M., [1979, p.363-371, rus] 34-2305
Deterioration and protection of industrial structures. Gindoian, A.G., ed, [1976, 208p., rus] 34-2402
Using an infrared radiometer for measuring thermal properties of clouds. Sin'kevich, A.A., [1979, p.105-111, rus] 34-3575

Structural studies of glaciers in the Khumbu region. Fushimi, H., [1977, p.30-39, eng] **34-901**
Nuclear fall-out in glaciers. Ambach, W., [1978, p.45-47, eng] **34-2076**
Ferroelectric transition in hexagonal ice Ih. Hentschel, H.G.E., [1979, p.401-411, eng] **34-2504**
Recrystallisation and electrical behaviour of glacier ice. Reynolds, J.M., et al, [1980, p.63-64, eng] **34-2538**
Concentration of impurities by progressive freezing. Halde, R., [1980, p.575-580, eng] **34-3436**
See also: Gas inclusions; Snow impurities

Indonesia
Subglacial travertine and associated deposits in the Carstensz area, Irian Jaya, Republic of Indonesia. Peterson, J.A., et al, [1979, p.23-29, eng] **34-3971**

Industrial buildings
Reconstruction of enterprises for the expansion of complete unit construction. Drobiazko, V.A., [1979, p.10-11, rus] **34-167**
Selection of design schemes for standard industrial buildings. Arshinin, A.A., [1972, p.16-21, rus] **34-174**
Small buildings of metallic folding sections. Nevenchenko, I.M., et al, [1972, p.22-32, rus] **34-175**
Technical and economic indices of aluminum bearing structures of standard industrial buildings. Malyshkina, I.N., et al, [1972, p.85-91, rus] **34-181**
Present state of translucent enclosures in industrial buildings of Yakutia. Braman, N.V., et al, [1972, p.142-151, rus] **34-187**
Ventilation in the Nickel Plant foundry of the Noril'sk mining-metallurgical combine. Titov, V.P., et al, [1979, p.14-15, rus] **34-243**
Design of pile foundations for the Tobol'sk petrochemical complex. Babichev, Z.V., et al, [1979, p.16-17, rus] **34-334**
Slag concrete for building walls exposed to corrosive media. Bulgakova, M.G., et al, [1977, p.27-33, rus] **34-348**
Rational use of water by Krasnoyarsk factories. Stegantsev, V.P., et al, [1974, p.152-158, rus] **34-763**
Air navigation in industrial construction of the North. Gromov, N.N., et al, [1979, p.84-92, rus] **34-1628**
Implementing progressive methods of structural design. Barskii, B.L., et al, [1979, p.13-14, rus] **34-1708**
Standard foundation design for structures built on permafrost. [1979, p.36, rus] **34-1713**
Planning and construction of Tynda. Trafbman, G., [1979, p.46-49, rus] **34-1775**
Allowing for humidity when designing external brick walls. Shishkin, A.A., et al, [1970, p.120-138, rus] **34-1835**
Power supply on construction sites of hydroelectric power plants. Velts, I.E., [1979, p.41-44, rus] **34-1849**
Organizing the preliminary period of the Kolyma hydroelectric power plant construction. Pavlov, B.N., et al, [1979, p.44-47, rus] **34-1850**
Deterioration and protection of industrial structures. Gindoian, A.G., ed, [1976, 208p., rus] **34-2402**
Heat transfer through joints in external enclosures of industrial buildings in the North. Butlitskii, A.E., et al, [1976, p.59-75, rus] **34-2403**
Improving the design of structures built in complex ground conditions. Meteliuk, N.S., [1980, 143p., rus] **34-3823**
Selecting translucent enclosures of transport-associated buildings for severe climatic conditions. Godin, A.M., [1978, p.159-162, rus] **34-3919**
Erection of building structures at the northern Mining and Concentration Concern No.2. Golubenko, V.V., et al, [1980, p.10-12, rus] **34-3938**

Industrial development
See Economic development

Industrial plants
Distribution of factories producing sectional buildings. Pal'tsevich, L.P., et al, [1972, p.137-142, rus] **34-186**

Infiltration
See Seepage

Inflatable structures
Alternate methods of avalanche control. Phase 4. LaChapelle, E.R., et al, [1978, 62p., eng] **34-1117**
Fabrication and testing of pressurized rib tents. Steeves, E.C., [1979, 103p., eng] **34-1363**
Physico-technical peculiarities of inflatable structures used in the North. Mikhailov, B.A., et al, [1978, p.24-28, rus] **34-3912**

Infrared equipment
Air- and spaceborne remote sensing in hydrogeology and engineering geology. Sadov, A.V., et al, [1979, 223p., rus] **34-1225**
Infrared radiators for heating frozen cargo. Lepnev, M.I., et al, [1979, 94p., rus] **34-1932**
Telemeasurement of ice cover parameters. [1977, 134p., rus] **34-3301**
Determining ice cover characteristics from spaceborne photographs of scanning infrared radiometers. Masanov, A.D., [1977, p.26-33, rus] **34-3304**
Using an infrared radiometer for measuring thermal properties of clouds. Sin'kevich, A.A., [1979, p.105-111, rus] **34-3575**
Results of application of infrared equipment for the investigation of hydrologic objects. Bogorodskii, V.V., et al, [1978, p.77-79, eng] **34-3969**

Infrared mapping
Sea Ice-75. Programme. Blomquist, A., et al, [1976, 30p., eng] **34-2985**

Infrared photography
Infrared thermography of buildings: 1977 Coast Guard survey. Marshall, S.J., [1979, 40p., eng] **34-138**
Statistical analysis of terrain and water (ice) backgrounds in a winter scene from northern Michigan. LaRocca, A.J., [1979, 302p., eng] **34-2279**
Infrared aerial survey in studying natural resources. Shilin, B.V., [1980, 247p., rus] **34-3591**
Recording geothermal flow by thermal aerial survey. Shilin, B.V., et al, [1980, p.321-323, rus] **34-3638**

Infrared radiation
Determining surface temperature gradient at the liquid phase boundary of the sea-atmosphere system. Mel'nikov, G.S., et al, [1979, p.212-219, rus] **34-877**
Remote sounding of high clouds: 1. Calculation of visible and infrared optical properties from lidar and radiometer measurements. Platt, C.M.R., [1979, p.1130-1143, eng] **34-889**
Statistical attenuation characteristics of visible and infrared radiation in a surface layer of the atmosphere. Filippov, V.L., et al, [1979, 17p., eng] **34-1312**
Relation between the strengths of the orientation polarization and the infrared absorption of the O—H stretching vibrations of ice. Whalley, E., [1978, p.449-451, eng] **34-1604**

Infrared reconnaissance
Optical methods of studying oceans and inland water bodies. Galazii, G.I., ed, [1979, 373p., rus] **34-875**
Structure of the infrared thermal radiation field of snow-ice covers on water bodies. Bogorodskii, V.V., et al, [1979, p.235-241, rus] **34-878**
Use of satellite infrared imagery in the oceanographic study of the Chukchi Sea. Garrison, B.R., et al, [1975, p.826-834, eng] **34-1235**
Selected hydrologic applications of LANDSAT-2 data: an evaluation, final report. Wiesnet, D.R., et al, [1978, 205p., eng] **34-1497**
Results of application of infrared equipment for the investigation of hydrologic objects. Bogorodskii, V.V., et al, [1978, p.77-79, eng] **34-3969**

Infrared spectroscopy
2500-4000/cm Raman and infrared spectra of low density amorphous solid water and of polycrystalline ice I. Sivakumar, T.C., et al, [1977, p.212-218, eng] **34-1605**
CRREL roof moisture survey, Pease AFB buildings 35, 63, 93, 112, 113, 120 and 220. Korhonen, C., et al, [1980, 31p., eng] **34-3335**
Direct spectroscopic observation of proton exchange and Bjerrum defect migration in cubic ice. Ritzhaupt, G., et al, [1980, p.6807-6808, eng] **34-3782**

Insolation
Experimental roadbed in an area with a thick layer of ground ice. [1979, p.187-197, eng] **34-1688**
See also: Solar radiation

Instrument errors
See Accuracy

Instruments
See Measuring instruments; Recording instruments

Insulation
Ideal Arctic window. Palmroda, S.C., [1977, p.3-10, eng] **34-689**
Design and construction of temporary airfields in the National Petroleum Reserve, Alaska. Crory, F.E., [1978, p.13-15, eng] **34-871**
Cold weather concreting. [1975, 9p., eng] **34-2425**
See also Pipeline insulation; Thermal insulation

Intake systems
See Water intakes

Interfaces
Influence of normal fluxes on convective transfer at an interface. Prud'homme, R., [1979, p.377-392, fre] **34-2340**
Studies on interaction between ice floes. 1. Takizawa, T., [1979, p.143-152, jap] **34-3500**
Studies on interaction between ice floes. 2. Periodical change in horizontal divergence of an ice field accompanied by intertial periodical motion. Takizawa, T., et al, [1979, p.153-159, jap] **34-3501**
See also Ice air interface; Ice solid interface; Ice vapor interface; Ice water interface; Liquid solid interface; Snow air interface; Snow ice interface; Soil air interface

Interfacial tension
Investigations of the basic forces involved in the adhesion of ice to highway surfaces. Ashworth, T., et al, [1979, 109p., eng] **34-2166**

Internal friction
Internal friction of ice. Oguro, M., [1979, p.233-237, jap] **34-2167**
Internal friction of snow and ice low frequency. Nakamura, T., et al, [1979, p.285-289, eng] **34-2541**
Dynamic behaviour of dislocations in HF-doped ice Ih. Perez, J., et al, [1980, p.133-149, eng] **34-3805**

International cooperation
Subarctic watershed research in the Soviet Union. Slaughter, C.W., et al, [1978, p.305-313, eng] **34-2390**
Collecting data for the World Atlas of Snow and Ice Resources in the USA and Canada. Dreier, N.N., et al, [1979, p.107, rus] **34-3700**

Interstitial ice
Mineral stability in the zone of cryolithogenesis. Konishchev, V.N., [1980, p.279-295, eng] **34-3846**

Introduced plants
Introduction of indigenous plants in the northern Kola Peninsula. Andreev, G.N., [1979, p.3-14, rus] **34-3228**
Acclimatization of introduced plants and ways to hasten it in high latitudes. Agaev, M.G., [1979, p.15-25, rus] **34-3229**
Significance of antarctic and subantarctic regions for plant introduction research. Golovkin, B.N., [1979, p.30-41, rus] **34-3230**
Frost damage to cambium of plants introduced in Arkhangel'sk. Nilov, V.N., [1979, p.50-57, rus] **34-3958**
Plant introduction and landscape gardening in the Far North. Andreev, G.N., et al, [1979, p.6-8, rus] **34-4215**
Low temperature effect on lipid exchange in trees and grasses and phase transformations in membranes. Rodionov, V.S., [1979, p.91-92, rus] **34-4234**
Accelerated growing of pine seedlings introduced beyond the polar circle. Daiasova, N.P., et al, [1979, p.107-108, rus] **34-4235**
Landscape gardening in towns and villages of oil producing areas in the Central Lena River region. Shilova, I.I., [1979, p.128-129, rus] **34-4236**
Growing forest cultures beyond the polar circle. Pankratov, E.N., [1979, p.157-158, rus] **34-4241**

Inversions
See: Temperature inversions

Ion density (concentration)
Chemistry and clay mineralogy of cores 8, 9, 10, New Harbor, Antarctica. Ugolini, F.C., et al, [1979, p.84-102, eng] **34-2288**

Ion diffusion
Investigation on the solubility of hydrochloric acid in ice. Krishnan, P.N., [1969, 111p., eng] **34-2070**

Ion exchange
Organic and color removal from water supplies by synthetic resinous absorbants. Tilsworth, T., [1974, 53p., eng] **34-602**
Prototype overland flow test data: June 1977-May 1978. Jenkins, T.F., et al, [1979, 91p., eng] **34-1599**

Ions
Reducing damage to roadside vegetation due to sodium ions in salt. Leisser, H., et al, [1979, p.486-487, ger] **34-2494**
Water and ice nucleation sites from ion implantation of silicon. Stinebaugh, W.H., et al, [1980, p.1469-1473, eng] **34-3622**
Decay kinetics of excess electrons in crystalline ice. Warman, J.M., et al, [1980, p.1240-1248, eng] **34-3649**
Mechanism of formation of visible-absorbing excess electrons in crystalline ice near 273K. Gillis, H.A., et al, [1980, p.1248-1252, eng] **34-3650**

Ireland
Frost susceptibility of some gravels used in road construction in Ireland. Davitt, S., [1978, 35p., eng] 34-2435

Irrigation
Freezing problems associated with spray irrigation of wastewater during the winter. Bouzoun, J.R., [1979, 12p., eng] 34-136
Status of inorganic phosphorus in soils irrigated with municipal wastewater. Sommers, L.E., et al, [1979, p.340-350, eng] 34-697
Wastewater helps the barley grow. Day, A.D., et al, [1979, p.26-28, eng] 34-698
History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, [1979, 215p., rus] 34-1067
History of river valley development as a basis for designing land irrigation with ground water in Buryat-Mongol ASSR. Bazarov, D.B., et al, [1979, p.62-66, rus] 34-1068
Long-term effects of land application of domestic wastewater, Roswell, New Mexico, slow rate irrigation site. Koerner, E.L., et al, [1979, 187p., eng] 34-1112
Use of sewage effluent for production of agricultural crops. Harvey, C., et al, [1965, 20p., eng] 34-1339
Long-term effects of land application of domestic wastewater: Vineland, New Jersey, rapid infiltration site. Koerner, E.L., et al, [1979, 183p., eng] 34-1373
History of land application as a treatment alternative. Jewell, W.J., et al, [1979, 97p., eng] 34-1374
Bacterial aerosols from a field source during multiple-sprinkler irrigation: Deer Creek Lake State Park, Ohio. Bausum, H.T., et al, [1979, 64p., eng] 34-1381
Prototype overland flow test data: June 1977-May 1978. Jenkins, T.F., et al, [1979, 91p., eng] 34-1599
Mass water balance during spray irrigation with wastewater at Deer Creek Lake land treatment site. Abele, G., et al, [1978, 43p., eng] 34-2284
Use of 15N to study nitrogen transformations in land treatment. Jenkins, T.F., et al, [1979, 32p., eng] 34-2364
Pilot scale study of overland flow land treatment in cold climates. Jenkins, T.F., et al, [1979, p.207-214, eng] 34-2673
Possible changes in thermal conditions due to land reclamation. Az'muka, T.I., et al, [1979, p.8-25, rus] 34-3076
Wastewater treatment in cold regions by overland flow. Martel, C.J., et al, [1980, 14p., eng] 34-3325
Water conduit earth structures of land reclamation systems in Central Yakutia. Krasnov, IU.N., et al, [1978, p.82-84, rus] 34-3358
Hydromelioration of lands in the Buryat ASSR. Borisenko, I.M., ed, [1979, 110p., rus] 34-4095
Natural overgrowth of earth dumps along irrigation channels in Central Yakutia. Nakhabtseva, S.F., [1979, p.51-54, rus] 34-4111

Islands
See: Artificial islands

Isotherms
Isotherm plots of Babine Lake during the ice free season. Farmer, D.M., et al, [1975, 266p., eng] 34-503

Isotope analysis
Artificial tritium fall-out at the South Pole. Jouzel, J., et al, [1979, p.31-46, eng] 34-724
20-yr cycle in Greenland ice core records. Hibler, W.D., III, et al, [1979, p.481-483, eng] 34-737
Effect of cryogenic processes on the formation of gold-scattering water flows. Pliusnin, A.M., et al, [1979, p.700-703, rus] 34-811
Continuous record of artificial tritium fallout at the South Pole (1954-1978). Jouzel, J., et al, [1979, p.188-200, eng] 34-1000
Study of snowmelt-runoff components using isotope measurements. Herrmann, A., et al, [1979, p.288-296, eng] 34-1025
Variation of isotope O-18 in the mass of the Marukh Glacier (Western Caucasus). Bazhev, A.B., et al, [1974, p.440-454, eng] 34-1211
Long-term accumulation characteristics at Vostok Station, Antarctica. Aver'ianov, V.G., [1978, p.93-99, rus] 34-1298
Total gas content and surface elevation of polar ice sheets. Raynaud, D., et al, [1979, p.289-291, eng] 34-1426
Delta 18-O variations in snow on the Devon Island ice cap, Northwest territories, Canada. Koerner, R., et al, [1979, p.1419-1427, eng] 34-1454
Isotopic analysis of subglacial concretions of the Laurentide ice sheet and oxygen-18 content of the ice. Hillaire-Marcel, C., et al, [1979, p.1494-1498, fre] 34-1455
Use of isotope tracers in glaciology. Merlivat, L., et al, [1976, p.285-289, fre] 34-1555
Plutonium in glaciers. [1979, p.1419A-1422A, eng] 34-1601
30,000-yr isotope climatic record from antarctic ice. Lorius, C., et al, [1979, p.644-648, eng] 34-1839
Deuterium and snow hydrology. Judy, C.H., [1971, 107p., eng] 34-2066
Models for the runoff from a glaciated catchment area using measurements of environmental isotope contents. Behrens, H., et al, [1979, p.829-846, eng] 34-2077
Antarctic operations, Nov. 1977-Feb. 1978. Lorius, C., et al, [1978, 10p., fre] 34-2135
Some problems in stratigraphic analysis of firn in Mizuho Plateau, East Antarctica. Watanabe, O., et al, [1979, p.32-50, jap] 34-2149
Oxygen isotopic composition of fallen snow in Antarctica. Kato, K., [1979, p.124-135, jap] 34-2154
Oxygen isotopic composition of drifting snow in Mizuho Plateau, Antarctica. Kato, K., et al, [1979, p.136-151, jap] 34-2155
Oxygen isotopic composition of snow formed under an antarctic anticyclone. Kato, K., et al, [1979, p.152-163, jap] 34-2156
Rate of snow accumulation determined from oxygen isotope and stratigraphic analyses of the core from Mizuho Station, East Antarctic (extended abstract). Kato, K., et al, [1979, p.88-92, eng] 34-2500
Oxygen isotope studies of ice cores from the ice-divide of Grenfjord and Fritjof glaciers (West Spitsbergen Island). Punning, IA.M.K., et al, [1979, p.173-177, rus] 34-3709
Drilling of the Antarctic Ice Sheet in the Novolazarevskaya Station area. Morev, V.A., et al, [1979, p.198-200, rus] 34-3714
Role of stable isotopes in snow and ice studies. Gordienko, F.G., [1979, p.286-295, rus] 34-3716
Origin of the oxygen-isotope composition in the snow cover in East Antarctica. Vilenskii, V.D., et al, [1978, p.180-185, eng] 34-4032

Isotopes
Laboratory and field studies to investigate isotope effects occurring during the formation of permafrost. Michel, F., et al, [1979, 64p., eng] 34-1583
See also: Oxygen isotopes; Radioactive isotopes

Italy
Snow removal and ice control on the Italian turnpike network. Rocco, V., et al, [1979, p.240-244, eng] 34-87
Report on glaciological operations in 1978. [1979, p.129-166, ita] 34-3619

—Alps
Particular landforms of glacial deposition in the terminal area of the Pisgana Glacier (Rhaetian Alps, Adamello Group). Smiraglia, C., [1979, p.167-172, ita] 34-3620

Japan
Local features of snow cover of Japan in January. Nakamura, T., [1979, p.175-177, eng] 34-1742

—Shinjo
Contributions from the Shinjo Branch, No.1 (1969-1979). [1979, Var.p., jap] 34-2539
Profile observations of snow cover on level land in Shinjo City during the winter of 1973-1974. Higashiura, M., et al, [1979, p.37-54, jap] 34-2554

—Shinjo City
Observation on vertical profiles of physical properties of snow cover on the ground surface at Shinjo City during the winter of 1974 to 1975. Higashiura, M., et al, [1979, p.1-26, jap] 34-2555

Joints (junctions)
Introduction to the problem of cracks, movements and joints in buildings. Baker, M.C., [1976, 8p., eng] 34-153
Accommodation of potential movements. Latta, J.K., [1976, 9p., eng] 34-160
Design of weathertight joints. Latta, J.K., [1976, 8p., eng] 34-161
Recognition of joints in the system. Baker, M.C., [1976, 9p., eng] 34-162
Joint movement and sealant selection. Handegord, G.O., et al, [1976, 4p., eng] 34-164
Heating pipeline joints. Prilipko, V.M., [1979, p.29, rus] 34-171
Testing weldability of metals at subzero temperatures. Sleptsov, O.I., [1975, p.125-128, rus] 34-233
Testing welded pipe joints at low temperatures. Sil'vestrov, A.V., et al, [1979, p.133-136, rus] 34-810
Expansion joints in highway bridges. Shesterikov, V.I., [1978, 151p., rus] 34-886
Hydrothermal method of cementing cold joints of concrete dams. Tetel'min, V.V., et al, [1979, p.21-23, rus] 34-1151
Heating cables for electric warming of joints and situ-cast concrete structures. Astashev, V.M., et al, [1979, p.10-12, rus] 34-1432
Heat transfer through joints in external enclosures of industrial buildings in the North. Butlitskii, A.E., et al, [1976, p.59-75, rus] 34-2403
Cracks, movements and joints in buildings: record of the DBR Building Science Seminar, Autumn 1972. [1976, c125 leaves, eng] 34-2603
Influence of the length of perpendicular leg of fillet welded joints on their strength at low temperatures. Semenovich, M.D., et al, [1979, p.18-22, rus] 34-2624
Calculating combined end- and side-lap welds at low temperature. Semenovich, M.D., [1979, p.17-22, rus] 34-2846
Catalog of temperature fields of standard enclosure joints. Part I, Residential buildings. Design manual. Ivashkova, V.K., et al, [1980, 111p., rus] 34-2937
Investigation of construction-joint grouting techniques under field conditions. Zhivoderov, V.N., et al, [1980, p.872-879, eng] 34-3377
Control of seepage through concrete by injection of polymer solutions. Ibragimov, M.N., [1980, p.880-882, rus] 34-3378
Structural thermodynamics: A review. L'vov, G.N., ed, [1969, 100p., rus] 34-4046
Experimental study of air and water permeability of external wall panel joints. Roslaia, G.I., [1969, p.3-8, rus] 34-4047
Field inspection of thermal properties of 1605 AM/9 series houses with multilayer external walls. Bratnina, E.IU., [1969, p.9-15, rus] 34-4048
Thermoinsulative properties of lightweight concrete external wall panel joints in buildings of the series II-57 and II-60. Surkov, V.I., et al, [1969, p.29-35, rus] 34-4050

Kara Sea
Possibility of long-range forecasting of oceanographic conditions of the Kara Sea. IAnes, A.V., [1979, p.16-21, eng] 34-1898
Influence of water, salt and heat transfer on the dates of stable ice formation in the Kara Sea. Stepanov, S.I., [1979, p.121-125, rus] 34-3006
Relation between heat content and water transport in the Kara Sea. Stepanov, S.I., [1979, p.55-58, rus] 34-3589

Karst
Hydrogeologic studies for drainage and water supply engineering. Artsev, A.I., [1979, 285p., rus] 34-1653
Cave glacier fluctuations in Kuznetskiy Alatau. Dmitriev, V.E., [1979, p.181-185, rus] 34-3137
Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p. (Pertinent p.230-344), rus] 34-3600
Improving the design of structures built in complex ground conditions. Meteliuk, N.S., [1980, 143p., rus] 34-3823
See also: Thermokarst

Laboratories
Environmental Standards for Northern Regions, a Symposium, June 1974, Anchorage, Alaska. Smith, D.W., ed, [1975, 389p., eng] 34-630
Research activities of U.S. Army Cold Regions Research and Engineering Laboratory. Buzzell, T.D., [1975, p.9-12, eng] 34-631
Cold Regions Research and Engineering Laboratory. Freitag, D.R., [1978, p.4-6, eng] 34-869
Increased mercury contamination of distilled and natural water samples caused by oxidizing preservatives. Cragin, J.H., [1979, p.313-319, eng] 34-2004
Installation test of the air-filled manned undersea chamber "Sprut" under the Arctic drift ice. Mel'nikov, I.A., et al, [1978, p.737-738, eng] 34-3540
Ice core work at the Laboratoire de Glaciologie, CNRS, Grenoble. Raynaud, D., [1980, p.103-107, eng] 34-4031

Laboratory techniques
Laboratory experiments on icing of rotating blades. Ackley, S.F., et al, [1979, p.85-92, eng] 34-65
Mechanical dehydration of frozen peat. Gatitskii, N.V., et al, [1979, p.19-20, rus] 34-254
Laboratory investigation of circular sea-ice plates. Murat, J.R., et al, [1979, p.107-123, eng] 34-927
Testing concrete for frost resistance. Sizov, V.P., [1979, p.34-35, rus] 34-1433
Freezing controlled by natural convection. Sparrow, E.M., et al, [1979, p.578-584, eng] 34-1498
Preliminary investigations of the kinetics of nitrogen transformation and nitrosamine formation in land treatment of wastewater. Jacobson, S., et al, [1979, 59p., eng] 34-3231
National handbook of recommended methods for water-data acquisition. Chapter 9. Snow and ice. [1977, 34p., eng] 34-4162

Labrador Sea
Environmental conditions off the east coast of Canada: Sites 3 (54N, 54W), 4 (49N, 48W), and 5 (47N, 47W). Denard, M., [1977, 96p., eng] 34-308
Oil spill scenario for the Labrador Sea. LeDrew, B.R., et al, [1979, 675p., eng] 34-2479

Lacustrine deposits
Glacial and postglacial sediments in Lakes Superior and Michigan. Lineback, J.A., et al, [1979, p.781-791, eng] 34-47
Soils of the central Selemdzha River area and their economic development. Rybachuk, N.A., et al, [1979, p.49-54, rus] 34-439
Deflation of Barguzin Basin soils and economic utilization. Namzhilov, N.B., [1979, p.124-130, rus] 34-449
Pingos of the Tuktoyaktuk Peninsula area, Northwest Territories. Mackay, J.R., [1979, p.3-61, eng] 34-1567
Lacustrine deposits on the trap plateau of West Yakutia. Spesivtsev, V.I., [1978, p.37-42, rus] 34-2919
Cryogenic structure of loose deposits in the southern part of the upper Zeya plain and the Ogoronsk Basin. Misharina, N.K., [1978, p.97-105, rus] 34-2926
Perennialy frozen lacustrine deposits of East Pamir and Central Tien Shan. Ermolin, E.D., [1978, p.11-19, rus] 34-2941
Cyclic nature of thermokarst on the Maritime Plain in the Upper Pleistocene and Holocene. Gravis, G.F., [1980, p.245-257, eng] 34-3844

Lake effects
Development of a forecast guidance product for lake-effect snowstorms. Dewey, K.F., [1978, p.4-11, eng] 34-27

Lake effects *(cont.)*

Lake effect snows off the east end of Lake Ontario
Lansing, L., (1978, p.12-16, eng) **34-28**

Current forecast procedures for lake effect snows in western New York especially related to 1976-1977 and 1977-1978 winters. Kolker, B., (1978, p.17-35, eng) **34-29**

Wind features of Moshiri basin. Ishikawa, N., et al, (1979, p.113-119, jap) **34-3496**

Lake ice

Observations on special characteristics of lake snowcover
Adams, W.P., et al, (1978, p.117-128, eng) **34-37**

Magnitude and significance of the terrestrial snowpack and white ice contribution to the phosphorus budget of a lake in the Canadian Shield region of the Kawartha Lakes
English, M.C., (1978, p.173-189, eng) **34-41**

Island defense system tests. Trofimenkoff, P.N., (1976, 84p., eng) **34-306**

Small scale, in-situ ice strength tests. (1973, n.p., eng) **34-414**

Ice crushing tests, 1974. Miller, T.W., et al, (1974, 177p., eng) **34-421**

Laboratory tests on fresh water ice, 1974. Morgenstern, N.E., et al, (1974, 17p. + figs and tables, eng) **34-422**

Ice crushing tests, 1973. Taylor, T.P., (1973, p.64p + figs., eng) **34-482**

Compression tests on fresh water ice, 1973. (1973, 15p + tables and figs., eng) **34-483**

Nutcracker ice strength tests, 1970-71. Croasdale, K.R., (1971, c190p., eng) **34-569**

Lake ice density in the environment: practical approaches to measurement and calculation. Adams, W.P., et al, (1979, p.15-24, eng) **34-723**

Freeze-up forecasting on the Great Lakes using weighted mean temperatures. Rogers, J.C., (1975, 16 leaves, eng) **34-735**

Optical methods of studying oceans and inland water bodies. Galazii, G.I., ed, (1979, 373p., rus) **34-875**

Development of hydro-optical studies of the Lake Baykal. Sherstiankin, P.P., (1979, p.16-27, rus) **34-876**

Horizontal irradiation in the visible spectrum under ice in the Ivano-Arakhley lakes (Transbaikal). Vologdin, M.P., et al, (1979, p.274-281, rus) **34-880**

Light attenuation indices in the Ivano-Arakhley lakes (Transbaikal) during winter. Vologdin, M.P., et al, (1979, p.281-285, rus) **34-881**

Optical classification of natural ice. Bogorodskii, V.V., et al, (1979, p.341-347, rus) **34-882**

Some aspects of the ice topography of Trough Lake, southern Victoria Land, Antarctica. Lyon, G.L., (1979, p.281-284, eng) **34-945**

Limnology of subarctic Canadian lakes and some effects of impoundment. Duthie, H.C., (1979, p.145-158, eng) **34-1278**

Ice thickness and stratigraphy at nearshore locations on the Great Lakes (metric units). Sleator, F.E., (1978, 440p., eng) **34-1460**

Visual observations of floating ice from Skylab. Campbell, W.J., et al, (1977, p.353-379, eng) **34-1493**

VHF downline communication system for SLAR data. Schertler, R.J., et al, (1979, 10p., eng) **34-1575**

Ice-dammed lakes: a critical review of their nature and behaviour. Blachut, S.P., et al, (1976, 90p., eng) **34-1607**

Effects of ice and snow cover on transmission of light in lakes. Maguire, R.J., (1975, 24p., eng) **34-1700**

Lake Champlain ice formation and ice free dates and predictions from meteorological indicators. Bates, R.E., et al, (1979, 21p., eng) **34-1745**

Role of lake and naled ice in the formation of natural dynamic systems. Ivanets, B.S., et al, (1976, p.57-66, rus) **34-2011**

Rupture of an ice mound near Cape Dorset, N.W.T.
Frederking, R.M.W., (1979, p.604-609, eng) **34-2047**

Dependence of lake ice-covers on weather, snow and water. Fremling, S., (1977, 113p., swe) **34-2271**

Analysis and prediction of freeze-over dates of Minnesota lakes using LANDSAT imagery and weather information. Fu, A.Y.K., (1979, 188p., eng) **34-2474**

Ice action in the lacustrine environment: a review with particular reference to subarctic Quebec, Canada.
Dionne, J.-C., (1979, p.185-212, eng) **34-2503**

Ice—an ever-mounting threat to man's survival. Foulds, D.M., (1973, p.27-29, eng) **34-2629**

Satellite studies of fresh-water ice movement on Lake Erie.
Wiesnet, D.R., (1979, p.415-426, eng) **34-2842**

Program and guide for compilation of the applied part of the *World atlas of snow and ice resources*. (1979, p.35-63, rus) **34-3117**

Illustration of the roles of snow in the evolution of the winter cover of a lake. Adams, W.P., et al, (1980, p.100-116, eng) **34-3322**

Microwave radar and radiometric remote sensing measurements of lake ice. Swift, C.T., et al, (1980, p.243-246, eng) **34-3406**

Great Lakes navigation season, 1979. Wilson, E.E., (1980, p.183-195, eng) **34-3435**

Local climatological investigation of Lake Kuttara.
Ishikawa, N., et al, (1979, p.121-127, jap) **34-3497**

Freshwater ice growth, motion, and decay. Ashton, G.D., (1980, p.261-304, eng) **34-3660**

Mapping ice thickness on rivers and lakes. Fatko, I.I., (1979, p.46, rus) **34-3687**

Interrelations and succession in the compilation of thematic sections of the World Atlas of Snow and Ice Resources. Dreier, N.N., (1979, p.37-42, rus) **34-3688**

Summary of Great Lakes weather and ice conditions, winter 1977-78. Assel, R.A., et al, (1979, 123p., eng) **34-4075**

Forms created by the thermal movement of lake ice in Finland in winter 1972-73. Alestalo, J., et al, (1979, p.51-92, eng) **34-4159**

Lake water

Oceanographic survey of Porters Lake, N.S. Elliott, J.A., (1978, 24p., eng) **34-320**

Isotherm plots of Babine Lake during the ice free season
Farmer, D.M., et al, (1975, 266p., eng) **34-503**

Evaluation of the trophic types of several Alaskan lakes by assessment of benthic fauna. LaPerriere, J., (1975, 49p., eng) **34-641**

Biogeochemistry of deep lakes in the central Alaskan Range. LaPerriere, J., et al, (1976, 35p., eng) **34-643**

Tundra lakes as a source of fresh water: Kipnuk, Alaska
Bredthauer, S.R., et al, (1979, 16p., eng) **34-740**

Determination of dissolved nitrogen and oxygen in water by headspace gas chromatography. Leggett, D.C., (1979, 5p., eng) **34-744**

Optical methods of studying oceans and inland water bodies. Galazii, G.I., ed, (1979, 373p., rus) **34-875**

Development of hydro-optical studies of the Lake Baykal
Sherstiankin, P.P., (1979, p.16-27, rus) **34-876**

Horizontal irradiation in the visible spectrum under ice in the Ivano-Arakhley lakes (Transbaikal). Vologdin, M.P., et al, (1979, p.274-281, rus) **34-880**

Light attenuation indices in the Ivano-Arakhley lakes (Transbaikal) during winter. Vologdin, M.P., et al, (1979, p.281-285, rus) **34-881**

Impact of waste diversion on water quality in lakes
Freedman, P.L., et al, (1979, p.867-881, eng) **34-964**

Correlation and quantification of airborne spectrometer data to turbidity measurements at Lake Powell, Utah
Merry, C.J., (1970, p.1309-1316, eng) **34-2043**

Use of the water resources of Lake Baykal and of the Angara River and an estimate of the change in their quality and elements of the hydrologic regime. Ivanov, N.I., (1977, p.307-309, eng) **34-3020**

Lakes

Flood-induced transformations in soils. Seryshev, V.A., et al, (1979, p.237-250, rus) **34-460**

Performance of seepage tanks with trapezoidal cross sections and impervious slopes. Bogoliubov, K.S., et al, (1974, p.23-28, rus) **34-752**

Calculating evaporation from lakes in permafrost areas of the West Siberian Plain. Kachalova, T.V., (1979, p.50-60, rus) **34-830**

Optical methods of studying oceans and inland water bodies. Galazii, G.I., ed, (1979, 373p., rus) **34-875**

Flora and fauna of water bodies in the European North (Bol'shezemel'skaya Tundra taken as an example)
Getsen, M.V., ed, (1978, 191p., rus) **34-1191**

Microclimate of the Vilyuy reservoir in the area adjacent to the dam. Olovin, B.A., (1979, p.124-129, rus) **34-1519**

Calculating water balance of the Kola River basin.
Antonova, T.S., (1979, p.107-119, rus) **34-2055**

Stabilization of artificially thawed soils on lake and river shores, by cement solutions in freezing weather
Temko, Iu.P., et al, (1979, p.89-91, rus) **34-2621**

Lacustrine deposits on the trap plateau of West Yakutia
Spesivtsev, V.I., (1978, p.37-42, rus) **34-2919**

Cryopedometer (design and application). Tishin, M.I., (1979, p.31-33, rus) **34-3469**

Lake and its drainage area as a single natural system.
Drabkova, V.G., et al, (1979, 194p., rus) **34-3480**

Diatomaceous algae of fresh-water bodies on the Chukotskiy Peninsula. Kharitonov, V.G., (1978, p.118-121, rus) **34-3510**

Bundling of timber sections on ice. Gushkalov, P.A., (1980, p.12-14, rus) **34-3857**

See also: Glacial lakes; Icebound lakes; Limnology; Ponds; Reservoirs; Thermokarst lakes

Laminar flow

Steady state ice layer profile on a temperature plate in a forced convection flow. Hirata, T., et al, (1979, p.1425-1443, eng) **34-1846**

Lancaster Sound

Iceberg drift observations in Lancaster Sound. Riggs, N.P., et al, (1980, p.283-291, eng) **34-2450**

Land development

Erosional vulnerability of taiga soils in the eastern BAM zone during economic development. Zarkhina, E.S., (1979, p.131-136, rus) **34-450**

Some guidelines for deciding Alaska's future; final report
(1979, 94p., eng) **34-565**

Alaska's land, 1978; annual report. (1979, 25p., eng) **34-566**

Systems of economic development of natural resources in intermontane basins of Subarctic highlands. Mikhailov, IU.P., (1979, p.18-35, rus) **34-682**

Usefulness of aerial photography in evaluating lands in the Lake Baykal area of the BAM zone. Parshikov, V.P., (1979, p.278-285, rus) **34-957**

Land ice

World Ocean and Pleistocene glacial epochs. Zakharov, V.F., (1978, 64p., rus) **34-2106**

Moisture balance in the system Antarctic ice sheet surface-atmosphere. Averianov, V.G., (1979, p.209-211, rus) **34-2210**

Glaciology at the Fourteenth Pacific Science Congress
Vtiurin, B.I., (1979, p.258, rus) **34-3150**

Land reclamation

Soil resources of BAM zone swamps and their agricultural development. Makeev, O.V., et al, (1979, p.42-49, rus) **34-438**

Forecasting water erosion of soils in the western part of the BAM zone (the upper Angara River Basin)
Reimkhe, V.V., (1979, p.111-118, rus) **34-447**

Landscape-ecological basis for forest melioration and biological recultivation of lands along the Tobol'sk-Amudar'ya channel. Chibilev, A.A., (1979, p.91-93, rus) **34-824**

Hydrologic problems of environmental changes in West Siberia. Malik, L.K., (1978, 180p., rus) **34-845**

History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, (1979, 215p., rus) **34-1067**

History of river valley development as a basis for designing land irrigation with ground water in Buryat-Mongol ASSR. Bazarov, D.B., et al, (1979, p.62-66, rus) **34-1068**

Recent tectonics and river valleys in the Ilim, Ust'-Kutsk and Katanga areas in relation to land reclamation problems. Zveder, L.N., (1979, p.71-75, rus) **34-1069**

Modeling lake landscapes of the Selenga River delta, its dynamics and development. Bogoiavlenskii, B.A., (1979, p.105-128, rus) **34-1071**

Chonkemin Valley terraces and the glaciation of northern Tien Shan. Bylinskaia, L.N., (1979, p.137-143, rus) **34-1073**

Combined aerial survey of northwestern Siberia
Bogoiavlenskii, B.A., et al, (1979, p.169-192, rus) **34-1074**

Problems and results of studying the relief of Siberia and the Far East. Nikolaev, V.A., (1979, p.192-206, rus) **34-1075**

History of land application as a treatment alternative
Jewell, W.J., et al, (1979, 97p., eng) **34-1374**

Changes in moisture and thermal regimes of cryogenic soils in Central Yakutia during agricultural development
Gavril'ev, P.P., (1979, p.130-147, rus) **34-1520**

Melioration and regionalization of cryogenic soils in Yakutia. Elovskaia, L.G., et al, (1978, 175p., rus) **34-1648**

Feasibility study of land treatment of wastewater at a subarctic Alaskan location. Sletten, R.S., et al, (1977, p.533-547, eng) **34-1749**

Proceedings of the first all-union symposium Biosphere and Man. (1975, 335p., rus) **34-1852**

Microelement variations in peat-bog soils of the northwestern Russian Soviet Federated Socialist Republic during land development. Zavgorodniaia, R.E., et al, (1975, p.126-127, rus) **34-1856**

Hydraulic method of sanding peat soils. Lazarev, I.V., et al, (1979, p.21-23, rus) **34-1949**

Hydrogeological conditions of paluded lands in the Ust'-Selenga trough. Adushinov, A.A., (1976, p.27-35, rus) **34-2053**

Hydrogeologic and geocryological conditions of the Barguzin trough and land reclamation. Adushinov, A.A., et al, (1976, p.36-59, rus) **34-2054**

Scientific conference of geographers from Siberia and the Far East. Geography and practice. Proceedings
(1978, 253p., rus) **34-2246**

Regional types of mining-affected lands in East Siberia and trends in their restoration. Savel'eva, I.L., et al, (1978, p.98-102, rus) **34-2247**

Swamp land reclamation in West Siberia. Sazonov, A.G., (1978, p.119-122, rus) **34-2250**

Control of blasting effects on rocks and grounds. Vovk, A.A., ed, (1979, 224p., rus) **34-2307**

Studying physical and mechanical properties of seasonally frozen grounds subject to blasting, for the construction of land reclamation objects. Vorob'ev, V.D., et al, (1979, p.132-138, rus) **34-2309**

Effectiveness of slotted blasting charges used in building channels in seasonally frozen grounds. Frash, G.B., et al, (1979, p.138-142, rus) **34-2310**

Peculiarities of forest-swamp ecosystems in West Siberia
Glebov, F.Z., ed, (1978, 159p., rus) **34-2518**

Landscape method of studying snow cover for land reclamation. Pashkang, K.V., et al, (1980, p.64-71, rus) **34-2800**

Peculiarities of land reclamation in West Siberia. Panin, P.S., ed, (1979, 252p., rus) **34-3074**

West Siberia as an object of land reclamation. Panin, P.S., et al, (1979, p.3-4, rus) **34-3075**

Possible changes in thermal conditions due to land reclamation. Az'muka, T.I., et al, (1979, p.8-25, rus) **34-3076**

Lands subject to reclamation in the south of the West Siberian Plain. Uglanov, I.N., (1979, p.25-76, rus) **34-3077**

Physical properties of soils and forecasting of their changes in reclaimed lands. Panfilov, V.P., et al, (1979, p.77-101, rus) **34-3078**

Regionalization of the southern West Siberian Plain for land reclamation. Uglanov, I.N., et al, [1979, p.116-133, rus] 34-3080
Modern trends in design, construction and operation of land reclamation systems under Siberian conditions. Abstracts of papers presented at a seminar. [1978, 292p., rus] 34-3353
Deformation of hydraulic structures of land reclamation systems in Central Yakutia. Seliverstov, A.P., [1978, p.7-10, rus] 34-3354
Structure of land reclamation complexes of the Baykal Amur railroad area and forecasts of their functioning. Naprasnikov, A.T., [1978, p.39-40, rus] 34-3355
Water conduit earth structures of land reclamation systems in Central Yakutia. Krasnov, IU.N., et al, [1978, p.82-84, rus] 34-3358
Five-year performance of CRREL land treatment test cells; water quality plant yields and nutrient uptake. Jenkins, T.F., et al, [1978, 24p., eng] 34-3449
Evaluating the possibilities of forecasting swamp transformations due to land reclamation. Galeta, I.F., [1978, p.12-22, rus] 34-3608
Land reclamation in winter. Surikov, V.V., [1980, 270p., rus] 34-3758
Hydromelioration of lands in the Buryat ASSR. Borisenko, I.M., ed, [1979, 110p., rus] 34-4095
Hydrogeologic-land reclamation regionalization of the Lake Baykal area and Western Transbaikal. Borisenko, I.M., [1979, p.5-15, rus] 34-4096
Hydrogeologic and land reclamation conditions of the Khotay swamp in the Barguzin depression. Zamana, L.V., [1979, p.24-33, rus] 34-4097
Geomorphologic conditions of land reclamation in the Upper Angara trough. Bazarov, D.-D.B., et al, [1979, p.77-93, rus] 34-4099
Effectiveness of draining north taiga lands in Komi ASSR. Gortinskil', G.B., et al, [1979, p.137, rus] 34-4238
Metabolism of north taiga fir growing on drained and fertilized peat soil. Konovalov, V.N., [1979, p.147, rus] 34-4239

Landforms

Environmental geology and geomorphology of the coastal zone of Kotzebue Sound and the Chukchi Sea forelands from Cape Prince of Wales to Cape Lisburne. Cannon, P.J., [1979, p.4-30, eng] 34-15
Environmental program Mackenzie delta, N.W.T. [1974, 9 parts, eng] 34-420
Geomorphic processes on the north slope of Alaska. Hall, D.K., [1979, 25p., eng] 34-1169
Pingos of the Tuktoyaktuk area. Barr, W., et al, [1973, p.3-12, eng] 34-1296
Field trip No.3: Lower Mackenzie River Valley. Heginbottom, J.A., ed, [1979, 66p. + appends., eng] 34-1692
Ice stagnation and paleodrainage in and near an interlobate area. Rieck, R.L., [1979, p.219-235, eng] 34-1725
Glacial flutings in northern Finnish Lapland. Heikkinen, O., et al, [1979, p.1-12, eng] 34-2472
Particular landforms of glacial deposition in the terminal area of the Pisgana Glacier (Rhaetian Alps, Adamello Group). Smiraglia, C., [1979, p.167-172, ita] 34-3620
Bechevnik: a river bank feature from Siberia. Hamelin, L.E., [1979, p.70-72, eng] 34-3765
Periglacial features from Morfee Mountain, North-Central British Columbia. Revel, R.D., [1980, p.349-356, eng] 34-3871
Glacial stratigraphy of Koillismaa and North Kainuu, Finland. Aario, R., et al, [1979, p.1-49, eng] 34-4158
Avalanche impact landforms in Troms, north Norway. Corner, G.D., [1980, p.1-10, eng] 34-4190

LANDSAT

Ice conditions on the Chesapeake Bay as observed from Landsat during the winter of 1977. Foster, J., et al, [1978, p.89-104, eng] 34-35
Feasibility of caribou winter habitat analysis using satellite data. LaPerriere, A.J.L., III, [1976, 181p., eng] 34-202
Geologic evaluation of LANDSAT imagery in interior Alaska. Dean, K.G., [1979, 156p., eng] 34-567
Evaluation of LANDSAT data for geographical applications: a survey of an Arctic/Subarctic mountain area, Varanger Peninsula, northern Norway. Helldén, U., et al, [1979, p.57-70, eng] 34-657
Snow mapping in Alpine basins using satellite imagery. Rott, H., [1978, p.81-93, ger] 34-667
LANDSAT sensing of glaciers with application to mass-balance and runoff. Breslau, D., et al, [1979, p.77-82, eng] 34-1008
Selected hydrologic applications of LANDSAT-2 data: an evaluation, final report. Wiesnet, D.R., et al, [1978, 205p., eng] 34-1497
Analysis and prediction of freeze-over dates of Minnesota lakes using LANDSAT imagery and weather information. Fu, A.Y.K., [1979, 188p., eng] 34-2474
Synoptic climatology of the Beaufort Sea Coast of Alaska. Moritz, R.E., [1979, 176p., eng] 34-2716
Flow lines on Antarctic ice shelves. Crabtree, R.D., et al, [1980, p.31-37, eng] 34-2809
Environmental analysis of the Upper Susitna River Basin using Landsat imagery. Gatto, L.W., et al, [1980, 41p., eng] 34-3198
Proceedings [1980, 301p., eng] 34-3511
Mapping New Zealand and Antarctic snowpack from LANDSAT. Thomas, I.L., et al, [1980, p.53-72, eng] 34-3514
Satellite snowcover and runoff monitoring in central Arizona. Schumann, H.H., et al, [1980, p.107-126, eng] 34-3516
LANDSAT derived snowcover as an input variable for snowmelt runoff forecasting in south central Colorado. Shafer, B.A., et al, [1980, p.151-169, eng] 34-3518
Graphical method of stream runoff prediction from LANDSAT derived snowcover data for watersheds in the upper Rio Grande basin of Colorado. Moravec, G.F., et al, [1980, p.171-183, eng] 34-3519
Review of LANDSAT-D and other advanced systems relative to improving the utility of space data in water-resources management. Salomonson, V.V., et al, [1980, p.281-296, eng] 34-3525

Landscape development

Evolution of the soil landscape in the sand region of the Arctic coastal plain as exemplified at Atkasook, Alaska. Everett, K.R., [1979, p.207-223, eng] 34-687
Avalanches of the USSR and their influence on the formation of natural territory complexes. Akif'eva, K.V., et al, [1978, p.223-233, eng] 34-792
Geomorphic work of snow avalanches in the Canadian Rocky Mountains. Luckman, B.H., [1978, p.261-276, eng] 34-794
Glacial landscapes and their spatial variability in the temperate and subpolar latitudes. Golubev, G.N., et al, [1978, p.277-282, eng] 34-795
Forest tundras of the USSR. Parmuzin, IU.P., [1979, 295p., rus] 34-968
Soils and the productivity of plant communities. Vol.4. Kovda, V.A., ed, [1979, 205p., rus] 34-1058
Landscapes affected by industrial activities in permafrost areas of the northern Tyumen' region. Grigor'ev, N.F., [1979, p.35-44, rus] 34-1510
Hydrothermal variations in permafrost landscapes. Anisimova, N.P., [1979, p.148-152, rus] 34-1521
Problems in experimental landscape science. Krauklis, A.A., [1979, 232p., rus] 34-2103
Extreme snow conditions and their role in landscape formation. IAshina, A.V., [1979, p.143-146, rus] 34-2195
Landscape structure of the forest-swamp zone in Western Siberia. Mikhallov, N.I., [1980, p.40-48, rus] 34-3027

Landscape types

Soil regimes in the Chara River Basin and methods of their interpretation. Shchetnikov, A.I., [1979, p.68-78, rus] 34-442
Use and protection of lands in the northern Irkutsk region and the BAM zone. Belykh, A.G., et al, [1979, p.95-99, rus] 34-445
Classifying the northwest Siberian landscapes according to their stability under construction. Nefedova, V.B., [1979, p.42-47, rus] 34-525
Landscaping of northern cities. Pomazkova, E.N., [1978, 160p., rus] 34-582
Structure and dynamics of geosystems. Mikheev, V.S., ed, [1979, 136p., rus] 34-670
Classification of elementary geosystems of the Kondo-Sos'va Uplands. Mikheev, V.S., et al, [1979, p.74-83, rus] 34-676
Studying structures of some landscape facies in the Koibal'sk steppe. Purdik, L.N., [1979, p.84-100, rus] 34-677
Mathematical analysis of the dynamics of taiga facies. Cherkashin, A.K., [1979, p.121-133, rus] 34-679
Geographic problems of the Baykal Amur railroad zone. Vorob'ev, V.V., ed, [1979, 143p., rus] 34-680
Systems of economic development of natural resources in intermontane basins of Subarctic highlands. Mikhailov, IU.P., [1979, p.18-35, rus] 34-682
Landscape-ecological basis for forest melioration and biological recultivation of lands along the Tobol'sk-Amudar'ya channel. Chibilev, A.A., [1979, p.91-93, rus] 34-824
Soil formation in landscapes affected by industrial activities. Trofimov, S.S., ed, [1979, 294p., rus] 34-946
Systems approach to studying soil formation processes in landscapes affected by industrial activities. Trofimov, S.S., et al, [1979, p.3-19, rus] 34-947
Aerial reconnaissance of landscapes affected by industrial activities. Solntseva, N.P., et al, [1979, p.258-278, rus] 34-956
Forest tundras of the USSR. Parmuzin, IU.P., [1979, 295p., rus] 34-968
Studying and modeling soil formation in forest biogeocenoses. Korsunov, V.M., ed, [1979, 161p., rus] 34-969
Interrelation between edaphic and coenotic factors of cropping power. Pleshikov, F.I., [1979, p.4-13, rus] 34-970
Chemical composition and migration of soil moisture in Salair Range landscapes. Korsunov, V.M., [1979, p.62-67, rus] 34-976
Fall off and litter of coniferous forests in Valday. Grishina, L.A., et al, [1979, p.15-50, rus] 34-1060
Fractional composition of humic acids in Valday pine forest soils. Grishina, L.A., et al, [1979, p.51-62, rus] 34-1061
History of river valley development and land reclamation problems in Siberia and the Far East. Florensov, N.A., ed, [1979, 215p., rus] 34-1067
Modeling lake landscapes of the Selenga River delta, its dynamics and development. Bogoiavlenskii, B.A., [1979, p.105-128, rus] 34-1071
Combined aerial survey of northwestern Siberia. Bogoiavlenskii, B.A., et al, [1979, p.169-192, rus] 34-1074
Problems and results of studying the relief of Siberia and the Far East. Nikolaev, V.A., [1979, p.192-206, rus] 34-1075
Components of forest tundra biogeocenoses in northern Okhotomor'e. Ignatenko, I.V., ed, [1977, 149p., rus] 34-1158
Physiographic conditions of northern Okhotomor'e and hydrothermal regime of soils at the "Snow Valley" research station. Ignatenko, I.V., et al, [1977, p.5-23, rus] 34-1159
Soils of the "Snow Valley" research station (Explanatory note to the soil map). Bogdanov, I.E., et al, [1977, p.35-43, rus] 34-1161
Vascular plants in the "Snow Valley" station. Khokhriakov, A.P., et al, [1977, p.44-48, rus] 34-1162
Morphogenetic characteristics of soils in the research station area. Ignatenko, I.V., et al, [1977, p.62-101, rus] 34-1163
Periglacial sorted circle and frost wedge formations in brownish soils of northern Germany. Blume, H.-P., et al, [1979, p.257-265, ger] 34-1495
Landscapes affected by industrial activities in permafrost areas of the northern Tyumen' region. Grigor'ev, N.F., [1979, p.35-44, rus] 34-1510
Ecologic and biogeochemical peculiarities of northern taiga in the Kola Peninsula. Nikonov, V.V., et al, [1979, p.33-38, rus] 34-1718
Microbiological processes in southern taiga soils of West Siberia. Naplekova, N.N., et al, [1979, p.3-21, rus] 34-1806
Microbic associations in soils of biogeocenoses of the Baraba Plain. Klevenskaia, I.L., et al, [1979, p.22-60, rus] 34-1807
Proceedings of the first all-union symposium Biosphere and Man. [1975, 335p., rus] 34-1852
Scientific basis for combined studies of Alpine regions. Nazarov, A.G., [1975, p.98-100, rus] 34-1855
Mountain landscape protection in Siberia. Krylov, G.V., ed, [1973, 251p., rus] 34-1863
Scientific approaches to the problems of mountain landscape preservation. Fadeeva, N.V., et al, [1973, p.16-24, rus] 34-1864
Rational utilization of Ural Mountain forests. Zubareva, R.S., et al, [1973, p.70-78, rus] 34-1869
Microclimatic variations and pine forest revegetation in relation to economic development of the Sayan low mountain belt. Gaas, A.A., [1973, p.78-87, rus] 34-1870
Role of mountain forests of eastern Transbaikal and the Lake Baykal problem. Panarin, I.I., [1973, p.98-102, rus] 34-1873
Resistance of some West Siberian forests. Taran, I.V., [1973, p.103-107, rus] 34-1874
Rational use and preservation of Magadan area forests. Snytkin, G.V., [1973, p.119-125, rus] 34-1875
Classification of forest-steppe landscapes in the Angara River area. Filippova, S.A., [1976, p.114-120, rus] 34-2009
Engineering-landscape investigations and surveys of railroad routes in mountain taiga. Popovichev, E.A., [1968, p.19-26, rus] 34-2019
Technical and economic calculations of field work for engineering surveys and landscape studies in mountain taiga. Popovichev, E.A., [1968, p.44-53, rus] 34-2020
Organic matter in soddy-podsolic soils with the second humus horizons occurring in taiga landscapes, left bank of the Yenisey River. Lopukhina, O.V., et al, [1979, p.24-29, rus] 34-2101
Problems in experimental landscape science. Krauklis, A.A., [1979, 232p., rus] 34-2103
Extreme snow conditions and their role in landscape formation. IAshina, A.V., [1979, p.143-146, rus] 34-2195
Forecasting changes in West Siberian landscapes due to pipeline construction. Moskalenko, N.G., [1978, p.115-119, rus] 34-2249
Taiga in the global ecosystem. [1978, 112p., rus] 34-2457
Taiga geosystems and problems of interaction between man and taiga. Sochava, V.B., [1978, p.5-13, rus] 34-2458
Experiment in landscape studies for optimizing taiga landscapes of the European USSR. Isachenko, A.G., [1978, p.26-34, rus] 34-2460
Remote sensing of taiga geosystems in different spectral ranges. Vinogradov, B.V., [1978, p.34-42, rus] 34-2461
Peculiarities of forest-swamp ecosystems in West Siberia. Glebov, F.Z., ed, [1978, 159p., rus] 34-2518
Studying the origin and structure of forest-swamp complexes. Glebov, F.Z., et al, [1978, p.14-59, rus] 34-2520

Landscape types *(cont.)*
Influence of hydro-climatic conditions on the growth of swamp stands. Glebov, F.Z., et al, [1978, p.5[illegible], rus] **34-2521**
Pressing environmental protection problems in the Far East. Konovalenko, V.G., ed, [1978, 179p., rus] **34-2532**
Some aspects of environmental protection in the Far Eastern USSR. Konovalenko, V.G., [1978, p.3-6, rus] **34-2533**
Soil-geochemical regionalization of the non-chernozem zone for protection from pollution. Glazovskaia, M.A., [1978, p.127-139, rus] **34-2612**
Captive of perpetual cold. Vel'mina, N.A., [1979, 207p., rus] **34-2669**
Origin and development of the Surgut wooded marshes. Liss, O.L., et al, [1979, p.86-91, rus] **34-2710**
Characteristics of soil formation in Siberia. Kovalev, R.V., ed, [1979, 294p., rus] **34-2734**
Soil formation under ultracontinental cold arid conditions. Sokolov, I.A., et al, [1979, p.9-13, rus] **34-2735**
Comparative characteristics of sod-forest, sod-taiga and brown forest soils of Siberia and the Far East. Gracheva, R.G., et al, [1979, p.14-29, rus] **34-2736**
Peculiarities of gley soils in the Yamal-Gydansk tundra. Torkonogov, V.D., [1979, p.45-52, rus] **34-2737**
Ecologic influence on the formation of complex humus profiles of Siberian southern taiga soils. Nechaeva, E.G., [1979, p.79-87, rus] **34-2741**
Geography and origin of soils in the northwestern part of the West Siberian Plain and the adjacent polar Ural foothills. Liverovskaia, I.T., [1980, p.63-84, rus] **34-2762**
Vegetation effect on ground temperature in northern West Siberia. Tyrtikov, A.P., [1980, p.112-188, rus] **34-2766**
Revegetation of fir forests in the southern taiga of the Central Ural Mountains and Predural'e. Konovalov, N.A., et al, [1979, p.5-7, rus] **34-2798**
Landscape structure of the forest-swamp zone in Western Siberia. Mikhallov, N.I., [1980, p.40-48, rus] **34-3027**
Possible landscape changes in the Lower Irtysh River area. Maslennikova, V.V., et al, [1980, p.49-53, rus] **34-3028**
Changes in thermal conditions of landscapes in the monsoon-permafrost mountain taiga of the Central and Lower Amur River area. Golubchikov, IU.N., [1980, p.62-73, rus] **34-3029**
Arctic tundras and polar deserts of Taymyr Peninsula. Aleksandrova, V.D., ed, [1979, 206p., rus] **34-3033**
Vegetation in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Matveeva, N.V., [1979, p.78-109, rus] **34-3040**
Peculiarities of land reclamation in West Siberia. Panin, P.S., ed, [1979, 252p., rus] **34-3074**
Physical properties of soils and forecasting of their changes in reclaimed lands. Panfilov, V.P., et al, [1979, p.77-101, rus] **34-3078**
Geosystems of the West Sayan foothills. Antipov, A.N., et al, [1979, 319p., rus] **34-3226**
Studying the structure of forest tundra landscapes as indicators of engineering and geological conditions for economic development in West Siberia. Moskalenko, N.G., et al, [1979, p.88-100, rus] **34-3227**
Physical-geographical conditions of the northern Okhotsk Sea region and the hydrothermal state of the soils ("Snow Valley Station"). Ignatenko, I.V., et al, [1980, p.5-23, eng] **34-3396**
Soil cover of the "Snow Valley" station (Explanatory list with a diagram of soil cover). Bogdanov, I.E., et al, [1980, p.36-47, eng] **34-3398**
Flora of vascular plants of the "Snow Valley" station. Khokhriakov, A.P., et al, [1980, p.48-51, eng] **34-3399**
Thermal regime of soils in pine forests. Boboleva, E.E., [1978, p.90-98, rus] **34-3465**
Dynamics of biological activity in Central Angara soils. Sorokin, N.D., [1978, p.128-139, rus] **34-3466**
Vegetation of the Markovo village area (the Anadyr' River Basin). Kozhevnikov, IU.P., [1978, p.30-52, rus] **34-3486**
Geography and cartography of pine forests in southern taiga and the broad-leaf area of the European USSR. Gribova, S.A., et al, [1979, p.38-45, rus] **34-3603**
Structure of taiga soils in the Tomsk area of Priob'e. Geras'ko, L.I., [1978, p.144-148, rus] **34-3605**
Microbiological description of northern taiga bog-podzolic soils. Shamin, A.A., et al, [1979, p.151-156, rus] **34-3639**
Soil formation on dust loams in the taiga zone of northeastern European USSR. Rusanova, G.V., et al, [1978, 128p., rus] **34-3753**
Hydrophysical properties of forest litter and its soil-protective role. Krasnoshchekov, IU.N., et al, [1979, p.59-68, rus] **34-3771**
Dynamics of soil-geochemical indices in taiga permafrost geosystems. Shichetnikov, A.I., [1977, p.43-58, rus] **34-3814**
Dynamics of soil and geochemical indices in central taiga geosystems. Sazonov, A.G., [1977, p.73-84, rus] **34-3816**
Formation and development of swamp systems. Kiriushkin, V.N., [1980, 88p., rus] **34-4014**
Life in the tundra. Chernov, IU.I., [1980, 236p., rus] **34-4015**
Peculiarities of flora in the West Okhotsk Sea area. Shlotgauer, S.D., [1979, p.42-47, rus] **34-4087**
Place of Alpine vegetation in the system of botanical-geographic mapping of high mountain regions. Sokhadze, E.V., [1979, p.104-110, rus] **34-4089**
Vegetational resources of Transbaikal, their preservation and use. Bolkov, T.G., ed, [1979, 97p., rus] **34-4091**
Ecologic fundamentals of forestry in the Lake Baykal Basin. Polikarpov, N.P., et al, [1979, p.52-57, rus] **34-4093**
Botanical objects of environmental protection near the lower Lena River. Trufanova, E.R., [1979, p.20-23, rus] **34-4108**
Reaction of different landscapes to heat producing phenomena in the Oymyakon region. Amuzinskaia, T.P., [1979, p.55-56, rus] **34-4112**
Symposium on biological problems of the North, 8th, Apatity, 1979. Abstracts of the papers. [1979, 177p., rus] **34-4213**
Natural reestablishment of vegetational cover in Central Yakutia. Nakhabtseva, S.F., [1979, p.48-49, rus] **34-4225**
Types of East Taymyr tundras and their significance as cattle grazing grounds. Rapota, V.V., [1979, p.53-54, rus] **34-4226**
Changes in vegetational cover of Yamal arctic tundras induced by reindeer grazing. Rebristaia, O.V., [1979, p.55-56, rus] **34-4227**
Landscape gardening in towns and villages of oil producing areas in the Central Lena River region. Shilova, I.I., [1979, p.128-129, rus] **34-4236**
See also Alpine landscapes; Arctic landscapes; Deserts, Forest tundra; Karst; Steppes, Subarctic landscapes; Taiga, Tundra

Landslide control
Radioactive isotope technique of studying density and moisture content of landslide slopes. Kornienko, N.D., et al, [1979, p.112-116, rus] **34-2972**

Landslides
Natural hazards maps for land-use planning, San Juan Mountains, Colorado, U.S.A. Ives, J.D., et al, [1978, p.185-212, eng] **34-791**
Hydrogeologic studies for drainage and water supply engineering. Artsev, A.I., [1979, 285p., rus] **34-1653**
Field trip No.2. Upper Mackenzie River Valley. Chatwin, S.C., et al, [1979, 53p., eng] **34-1691**
Tunnel construction on landslide-prone slopes. Aminov, E.Kh., [1979, p.12-14, rus] **34-1715**
Regime of glaciers and snow avalanches in Kazakhstan. Tokmagambetov, G.A., ed, [1979, 175p., rus] **34-1970**
Distribution of atmospheric precipitation on northern slopes of the Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskii, I.V., [1979, p.37-46, rus] **34-1974**
Dangerous phenomena on northern slopes of Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskii, I.V., et al, [1979, p.146-161, rus] **34-1984**
Mudflow sources in the Ukrainian Carpathians. Alzenberg, M.M., et al, [1978, p.64-70, rus] **34-2050**
Calculating nonstationary flow rates of landslide-mudflows. Shadunts, K.Sh., et al, [1976, p.369-376, rus] **34-3225**
Geoengineering and hydrogeologic studies of the zone of influence of the Angara reservoirs and means of effective incorporation of these results in the national economy. Odintsov, M.M., et al, [1980, 10p., eng] **34-3393**
Mountain forests. Sinitsyn, S.G., et al, [1979, 200p., rus] **34-3754**

Laptev Sea
Dependence of summer air temperature above the Laptev, East Siberian and Chukchi seas on ice conditions and atmospheric circulation. Teltel'baum, K.A., [1979, p.81-90, rus] **34-3001**
Heat transfer in Atlantic waters on the continental slope of the Laptev Sea. Beliakov, L.N., et al, [1979, p.30-36, rus] **34-3586**

Large panel buildings
Technical and economic indices of aluminum bearing structures of standard industrial buildings. Malyshkina, I.N., et al, [1972, p.85-91, rus] **34-181**
Technical and economic analysis of different construction materials in modular buildings. Kuzina, Z.G., et al, [1972, p.92-97, rus] **34-182**
Tower cranes used by Glavmosstroi in large panel construction. Blokhin, V.V., [1979, p.11-13, rus] **34-193**
New houses for Bratsk. Gorbunov, IU.A., [1979, p.24, rus] **34-342**
Houses for the North. Dezhnova, V.K., [1979, p.28, rus] **34-343**
Recommendations for using lightweight concrete in the construction of large panel residential buildings. [1976, 71p., rus] **34-401**
Prefabrication stages in building construction. Makeev, A.M., et al, [1979, p.30-34, rus] **34-519**
Shrinking deformation of large panel building walls from field observations. Emel'ianov, A.A., [1972, p.36-45, rus] **34-584**
Construction of residential and public buildings in West Siberia. Khaltum, A.D., [1979, p.16-18, rus] **34-1180**
Combined design technique in large panel construction. [Akushev, A.A., et al, [1979, p.7-8, rus] **34-1431**
Allowing for temperature effect when designing large panel buildings. Emel'ianov, A.A., [1970, p.25-89, rus] **34-1833**
Selecting design values of temperature when calculating buildings for thermal and moisture effects and settling. Emel'ianov, A.A., [1970, p.90-119, rus] **34-1834**
Construction research. Thermal physics. Structural durability. [1979, 180p., rus] **34-2381**
Heat and moisture transfer in experimental wall panels with the (FSP) phenol-formaldehyde plastic thermal insulation. Alumiae, A.E., [1979, p.30-39, rus] **34-2382**
Building design for construction in the North. Vas'kovskii, A.P., et al, [1979, 135p., rus] **34-2685**
Field studies of Series 91 residential buildings. Shilov, N.N., et al, [1979, p.5-6, rus] **34-2704**
Catalog of temperature fields of standard enclosure joints. Part I, Residential buildings. Design manual. Ivashkova, V.K., et al, [1980, 111p., rus] **34-2937**
Studying service life and phase composition of cellular concrete outer wall panels with different finish. Bezbotodov, V.A., et al, [1979, p.67-70, rus] **34-2973**
Local artificial freezing of thawed ground in Yakutsk. Maksimov, G., et al, [1980, p.9-11, rus] **34-3927**
Structural thermodynamics. A review. L'vov, G.N., ed, [1969, 100p., rus] **34-4046**
Experimental study of air and water permeability of external wall panel joints. Roslaia, G.L., [1969, p.3-8, rus] **34-4047**
Field inspection of thermal properties of 1605 AM-9 series houses with multilayer external walls. Brainina, E.IU., [1969, p.9-15, rus] **34-4048**
Field inspection and testing of thermal properties of enclosures of a 12-story residential building. Bukharova, N.V., [1969, p.16-28, rus] **34-4049**
Thermoinsulative properties of lightweight concrete external wall panel joints in buildings of the series II-57 and II-60. Surkov, V.I., et al, [1969, p.29-35, rus] **34-4050**

Large unit construction
See Modular construction

Lasers
Laser reflectivity measurements of snow/ice covered targets in the Arctic region. Schneider, R.W., [1979, 40p., eng] **34-1041**
Experimental laser attenuation in a snow environment. Miller, J.T., [1978, 84p., eng] **34-1703**

Lattice models
Polarization processes in the ice lattice. 1. Approach by thermodynamics of irreversible processes. New experimental verification by means of a universal relation. Hubmann, M., [1979, p.127-139, eng] **34-4001**
Polarization processes in the ice lattice. 2. Approach by Kirkwood's theory. Comparison with the results from thermodynamics of irreversible processes. Hubmann, M., [1979, p.141-146, eng] **34-4002**

Latticed structures
Thermal expansion anomaly of ice VI related to the order-disorder transition. Mishima, O., et al, [1979, p.2037-2038, eng] **34-372**
Some promising afforestation tests based on the laying out of logs on avalanche sites. Wakabayashi, R., [1979, p.255-260, eng] **34-1793**
Internal friction of ice. Oguro, M., [1979, p.233-237, jap] **34-2167**
Ferroelectric transition in hexagonal ice Ih. Hentschel, H.G.E., [1979, p.401-411, eng] **34-2504**

Layers
Upward migration of moisture and heaving in frozen soils. Morel-Seytoux, H.J., [1979, p.328-335, eng] **34-1030**
Origin of ground ice deposits in the Muysk Basin. An, V.V., [1978, p.46-57, rus] **34-2945**
See also Stratification

Leaching
Clearing Alaskan water supply impoundments: management, laboratory study, and literature review. Smith, D.W., et al, [1976, 126p., eng] **34-617**

Leakage
Roof leaks in cold regions, school at Chevak, Alaska. Tobiasson, W., et al, [1980, 12p., eng] **34-3327**

Legislation
End of the beginning. Coate, L.E., [1975, p.199-206, eng] **34-640**
Analysis of Alaska's water use act and its interaction with Federal reserved water rights. Curran, H.J., et al, [1979, 33p., eng] **34-646**
Federal snow removal reimbursement policy: improvements needed. [1979, 76p., eng] **34-3576**
Draft environmental impact statement, Prudhoe Bay Oil Field Waterflood Project. [1980, 2 vols., eng] **34-3646**

Level
See Sea level, Water level

Lichens
Successions of lithophile lichen communities in the northern Ural highlands. Magomedova, M.A., [1979, p.29-38, rus] **34-104**
Feasibility of caribou winter habitat analysis using satellite data. LaPerriere, A.J.L., III, [1976, 181p., eng] **34-202**
Lichen synusia at the upper limit of Anuy Plateau larch forests. Andreev, M.P., [1979, p.646-653, rus] **34-1443**

Lichen synusia in Alpine phytocenoses of the northern part of Altai-Sayan Mountains. Sedel'nikova, N.V., et al, [1979, p.671-679, rus] 34-1444

Fodder lichen increment and distribution in the northern Yenisey Region. Shchelkunova, R.P., [1979, p.111-112[, rus] 34-1446

Glacier variations in the Svartisen area, northern Norway. Karlén, W., [1979, p.11-28, eng] 34-1458

Biologic productivity and chemical element cycles in spruce-lichens in the central taiga of the Komi ASSR. Rusanova, G.V., et al, [1975, p.83-84, rus] 34-1854

Hydrothermal regime of autonomous sandy soils. Erukov, G.V., [1978, p.44-58, rus] 34-2254

Problem of lichen-free zones in Arctic Canada. Koerner, R.M., [1980, p.87-94, eng] 34-2275

Ground lichens of Cape Chelyuskin. Pitn, T.Kh., [1979, p.61-73, rus] 34-3038

Ground lichens in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Pitn, T.Kh., [1979, p.140-143, rus] 34-3044

Lichens in the vegetation of the Elombal Mountains (Chukot Autonomous District). Andreev, M.P., [1980, p.563-570, rus] 34-3556

Lichen pine forests of the European North. Listov, A.A., [1980, p.22-25, rus] 34-3861

Short review of vegetation in the Baykal-Patomskoe Nagor'ye highlands. Rusiaeva, G.G., [1979, p.110-117, rus] 34-4090

Composition and structure of vegetation in ridge-pool swamps. Boch, M.S., et al, [1980, p.22-30, rus] 34-4144

Lidar

Remote sounding of high clouds: 1. Calculation of visible and infrared optical properties from lidar and radiometer measurements. Platt, C.M.R., [1979, p.1130-1143, eng] 34-889

Light effects

Detachment of ice from surfaces by application of high intensity light. Mouat, T.W., et al, [1979, p.289-292, eng] 34-94

Biological productivity of the southern Beaufort Sea: the physical-chemical environment and the plankton. Grainger, E.H., [1975, 82p., eng] 34-504

Light scattering

Measuring the coefficients of directional light scattering in droplet and crystalline cloud media. Pavlova, L.N., [1979, p.698-701, eng] 34-122

Snowpack optical properties in the infrared. Berger, R.H., [1979, 16p., eng] 34-1366

2500-4000/cm Raman and infrared spectra of low density amorphous solid water and of polycrystalline ice I. Sivakumar, T.C., et al, [1977, p.212-218, eng] 34-1605

Experimental laser attenuation in a snow environment. Miller, J.T., [1978, 84p., eng] 34-1703

Scattering of solar radiation by hexagonal ice crystals. Wendling, P., et al, [1979, p.2663-2671, eng] 34-2806

Light transmission

Present state of translucent enclosures in industrial buildings of Yakutia. Braman, N.V., et al, [1972, p.142-151, rus] 34-187

Horizontal irradiation in the visible spectrum under ice in the Ivano-Arakhley lakes (Transbaikal). Vologdin, M.P., et al, [1979, p.274-281, rus] 34-880

Light attenuation indices in the Ivano-Arakhley lakes (Transbaikal) during winter. Vologdin, M.P., et al, [1979, p.281-285, rus] 34-881

Effects of ice and snow cover on transmission of light in lakes. Maguire, R.J., [1975, 24p., eng] 34-1700

Correlation and quantification of airborne spectrometer data to turbidity measurements at Lake Powell, Utah. Merry, C.J., [1970, p.1309-1316, eng] 34-2043

Lightweight concretes

Optimal properties of cellular concrete with alkaline slag cement. Bagrov, B.O., [1979, p.45-47, rus] 34-332

Analyzing some factors influencing corrosion stability of lightweight concretes. Podval'nyi, A.M., [1977, p.18-26, rus] 34-347

Recommendations for using lightweight concrete in the construction of large panel residential buildings. [1976, 71p., rus] 34-401

Physico-mechanical properties of autoclaved, fine grained cellular concrete. Klem, V.R., [1972, p.67-71, rus] 34-585

Lightweight concretes for tunnel linings. Shcherbakov, E.N., et al, [1979, p.13-15, rus] 34-1250

Properties of expanded polystyrene concrete and applications for pavement subbases. Hanna, A.N., [1978, 16p., eng] 34-1260

Expanded polystyrene concrete bases. Hanna, A.N., [1978, p.1-6, eng] 34-1963

Lightweight enclosures for use in the Urals and Siberia. Pavlov, V.P., et al, [1979, p.2-5, rus] 34-2589

Field studies of Series 91 residential buildings. Shilov, N.N., et al, [1979, p.5-6, rus] 34-2704

Structural thermodynamics. A review. L'vov, G.N., ed, [1969, 100p., rus] 34-4046

Field inspection and testing of thermal properties of enclosures of a 12-story residential building. Bukharova, N.V., [1969, p.16-28, rus] 34-4049

Thermoinsulative properties of lightweight concrete external wall panel joints in buildings of the series II-57 and II-60. Surkov, V.I., et al, [1969, p.29-35, rus] 34-4050

Liming

Frost resistance and mechanical properties of calcareous sandstone concrete. Marmor, Kh.G., et al, [1979, p.127-134, rus] 34-2384

Limnology

Development of hydro-optical studies of the Lake Baykal. Shtershankin, P.P., [1979, p.16-27, rus] 34-876

Limnology of subarctic Canadian lakes and some effects of impoundment. Duthie, H.C., [1979, p.145-158, eng] 34-1278

Gramna Lakes in the Baykal Amur railroad area. Mats, V.D., et al, [1980, 87p., rus] 34-3268

See also Lakes

Linings

Lightweight concretes for tunnel linings. Shcherbakov, E.N., et al, [1979, p.13-15, rus] 34-1250

Local construction materials used for linings for the Baykal Amur railroad. Troitskii, V.V., et al, [1979, p.22-23, rus] 34-1427

Increasing the reliability of waterproof asphalt facings for concrete dams. Davidenko, V.M., et al, [1979, p.23-29, rus] 34-1528

Impervious plastic screens on butyl-rubber base. Sergeev, B.I., et al, [1979, p.20-23, rus] 34-1946

Service life of plastic linings for waterways. Gvenetadze, A.R., [1979, p.23-25, rus] 34-1947

Sprayed concrete in tunnel construction in the Baykal Amur railroad area. Golitsynskii, D.M., [1980, p.14-15, rus] 34-2855

1979 Greenland Ice Sheet Program. Phase 1: casing operation. Rand, J.H., [1980, 18p., eng] 34-3485

Liquefied gases

Economic peculiarities of organizing raw material bases for Yakutian industry. Kirillin, A.D., ed, [1977, 121p., rus] 34-115

Possibility of increasing gas supply to Central Yakutia. Emel'ianov, V.G., [1977, p.93-98, rus] 34-119

Arun LNG plant onstream in Indonesia. Inman, H., et al, [1979, p.22-26, eng] 34-140

Dryout, cooldown keyed Cove Point commissioning. Venendaal, B., [1979, p.28-38, eng] 34-141

Calculating thermal regime of reservoirs in permeable rocks surrounded by ice-bearing zones. Valiullin, A.N., et al, [1978, p.140-146, rus] 34-255

Artificial freezing of ground in underground construction. Trupak, N.G., [1979, 344p., rus] 34-1226

Determination of local permeabilities by a freezing process, in connection with predicting the success of a filter regeneration method. Schieff, H.O., [1979, p.473-478, ger] 34-2724

Instructions for designing underground low temperature storage for liquefied hydrocarbon gases. [1977, 29p., rus] 34-2864

Internally insulated liquid natural gas pipeline for Arctic gas recovery. Walker, G., et al, [1977, p.1-7, eng] 34-2991

Calculating temperature regime of underground structures. Makagonov, V.A., [1980, p.45-49, rus] 34-3164

Liquid cooling

Quick freeze plug performed successfully on lined pipe. Buckman, D., [1980, p.52-54, eng] 34-2760

Liquid solid interfaces

Molten state of matter: melting and crystal structure. Ubbelohde, A.R., [1978, 454p., eng] 34-789

Investigation of the two-phase, moving boundary system, with convection at the solid-liquid interface. Nansteel, M.W., [1979, 145p., eng] 34-1362

Investigation on the solubility of hydrochloric acid in ice. Krishnan, P.N., [1969, 111p., eng] 34-2070

Environmental assessment of the Alaskan continental shelf. Vol.7, Transport. [1979, 560p., eng] 34-3050

Field study of brine drainage and oil entrainment in first-year sea ice. Martin, S., [1979, p.473-502, eng] 34-3786

Pendular-funicular liquid transition in snow. Denoth, A., [1980, p.93-97, eng] 34-3801

Heterogeneous nucleation of ice on surfaces of liquids. Rosinski, J., [1980, p.1829-1832, eng] 34-3922

Interferometric observation of natural convection during freezing from a vertical flat plate. Buren, P.D., et al, [1980, p.375-378, eng] 34-4248

Sublimation of a horizontal slab of dry ice: an analog of pool boiling on a flat plate. Dhir, V.K., [1980, p.380-382, eng] 34-4250

Liquids

High pressure apparatus for PVT measurements of liquids and plastic crystals at low temperature. Landau, R., et al, [1980, p.533-535, eng] 34-3408

See also Frozen liquids

Lithology

Lithologic and palynologic characteristics of alassy deposits in Central Yakutia. Bosikov, N.P., et al, [1978, p.66-79, rus] 34-2923

Geocryologic-lithologic map of an interstream plateau. Kim[illegible]skii, I.V., [1978, p.105-112, rus] 34-2950

Cryolithological map of the U.S.S.R. (Principles and compilation). Popov, A.I., et al, [1980, p.391-399, eng] 34-3853

Lithologic and petrographic peculiarities of rocks in the subpermafrost transition zone of the Sangarskiy coal deposit. Den'gina, N.I., et al, [1979, p.50-54, rus] 34-3907

Litter

Fall off and litter of coniferous forests in Valday. Grishina, L.A., et al, [1979, p.15-50, rus] 34-1060

Fractional composition of humic acids in Valday pine forest soils. Grishina, L.A., et al, [1979, p.51-62, rus] 34-1061

Properties of humic acids in the Valday research station soils. Grishina, L.A., et al, [1979, p.63-87, rus] 34-1062

Microelements in the lower layer of Valday station spruce forest. Belitsyna, G.D., et al, [1979, p.87-92, rus] 34-1063

Microorganism dynamics in spruce forest soils. Skvortsova, I.N., [1979, p.93-99, rus] 34-1064

Maganese oxidizing bacteria in the Valday station soils. Bolotina, I.N., [1979, p.100-107, rus] 34-1065

Soils in pine forests of Karelia. Plavchenko, N.I., ed, [1978, 141p., rus] 34-2252

Chemical composition of natural waters and migration of chemical substances in pine forest biogeocenoses. Strelkova, A.A., [1978, p.59-67, rus] 34-2255

Iron and organic matter migration in sandy podsols. Lazareva, I.P., [1978, p.67-71, rus] 34-2256

Biological cycle of substances in cowberry and lichen pine forests. Morozova, R.M., [1978, p.85-112, rus] 34-2258

Properties of forest litter in relation to natural reforestation of green-moss spruce forest in northern Sikhote-Alin. Krupskaia, L.T., et al, [1980, p.93-95, rus] 34-2628

Forest fires in Yakutia and their influence on forest environments. Shcherbakov, I.P., et al, [1979, 224p., rus] 34-3601

Hydroclimatic influence of forests. Protopopov, V.V., ed, [1979, 144p., rus] 34-3768

Hydrophysical properties of forest litter and its soil-protective role. Krasnoshchekov, IU.N., et al, [1979, p.59-68, rus] 34-3771

Mosses as accumulators of radionuclides. Molchanova, I.V., et al, [1980, p.42-47, rus] 34-4146

Loading

Recommendations for loading and unloading freezing cargo. Severinova, E.P., [1979, p.11, rus] 34-2084

See also Unloading

Loads (forces)

Stress-strain relationships. Hutcheon, N.B., [1976, 10p., eng] 34-154

Building deformations: deflection. Plewes, W.G., [1976, 11p., eng] 34-157

Building deformations: vertical movements. Plewes, W.G., [1976, 9p., eng] 34-158

Deformation due to foundation movements. Crawford, C.B., [1976, 7p., eng] 34-159

Localized deformation of polymers at low temperatures and high loading rates. Williams, J.D., III, [1978, 293p., eng] 34-603

Long-term loading analysis of floating ice platforms using finite element techniques. Masterson, D.M., et al, [1979, p.159-182, eng] 34-930

Safe ice loads computed with a pocket calculator. Nevel, D.E., [1979, p.205-223, eng] 34-932

User manual for programs VISICE and VISFIT. Katona, M.G., [1979, 60p., eng] 34-1563

Aircraft rolling resistance in loose dry snow; a theoretical analysis. Lidström, M., [1979, 30p., eng] 34-1564

Overview of design procedure. Jahns, H.O., [1979, 11p. + 10 slides, eng] 34-1588

Sea ice statistics. Wheeler, J.D., [1979, 10p. + 11 slides, eng] 34-1590

Copeland cut test ice boom design criteria and data analysis, winter, 1974-75; Final report. Uzuner, M.S., [1975, 2 vols., eng] 34-1799

Effect of specimen temperature on the breaking point for splitting off in AMG-6 aluminum alloy. Bat'kov, IU.V., et al, [1979, p.265-268, eng] 34-2379

High-force towing. Mellor, M., [1980, p.231-240, eng] 34-2445

Analysis of plastic shock waves in snow. Brown, R.L., [1979, 14p., eng] 34-2528

Cracks, movements and joints in buildings: record of the DBR Building Science Seminar, Autumn 1972. [1976, c125 leaves, eng] 34-2603

Resistance of porous asphalt and antihydroplaning surfaces to environmental effects and simulated aircraft wheel loadings. Hargett, E., [1974, 56p., eng] 34-2632

Effects of volume change and alkalinity of water on the permeability of peat. Lieszkowszky, I.P., et al, [1978, p.25-36, eng] 34-2907

Design and construction experiences with fluid retaining embankments on peat. Wiesner, W.R., et al, [1978, p.81-115, eng] 34-2910

Plate bearing tests on a fibrous peat. Lee, R.A., et al, [1978, p.151-164, eng] 34-2913

Load-bearing behavior of frozen earthmasses. Eckardt, H., [1979, 141p., ger] 34-2955

Extending the useful life of DYE-2 to 1986. Part 2: 1979 findings and final recommendations. Tobiasson, W., et al, [1980, 37p., eng] 34-3334

Loads (forces) *(cont.)*

Estimated glaze ice and wind loads at the earth's surface for the contiguous United States. Tattelman, P., et al, [1973, 35p., eng] **34-3645**

Cross-section, velocity, and bedload data at two erosion sites on the Tanana River near Fairbanks, Alaska, 1979. Burrows, R.L., [1980, 32p., eng] **34-3669**

Physics and mechanics of ice. [1980, 378p., eng] **34-3727**

Some promising trends in ice mechanics. Assur, A., [1980, p.1-15, eng] **34-3728**

Bending and buckling of a wedge on an elastic foundation. Nevel, D.E., [1980, p.278-288, eng] **34-3747**

Analytical approach for the determination of ice forces using plasticity theory. Reinicke, K.M., [1980, p.325-341, eng] **34-3750**

Ice forces on piles. Saeki, H., et al, [1980, p.342-350, eng] **34-3751**

Pressure waves in snow. Brown, R.L., [1980, p.99-107, eng] **34-3802**

Building standards and regulations. Part 2: Design standards. Chapter 6: Loads and effects. [1980, 92p., eng] **34-3897**

See also: Dynamic loads; Ice loads; Snow loads; Static loads

Loams

Initial and sustained strength of clay soils. Meschian, S.R., [1978, 207p., rus] **34-884**

Deformation of stabilized, ice-saturated lumpy soil. Baliasnikov, G.G., [1979, p.41-42, rus] **34-1154**

Gleying effect on dark gray heavy loam forest soils in West Siberia. Firsova, V.P., et al, [1979, p.143-156, rus] **34-2743**

Soil formation on dust loams in the taiga zone of northeastern European USSR. Rusanova, G.V., et al, [1978, 128p., rus] **34-3753**

Regularities governing microelement content in the soils of the southwestern taiga area (The Ordovician Plateau). Dvornikova, L.L., [1979, p.74-82, rus] **34-3876**

Break-off strength of adfreezing ground. Shusherina, E.P., et al, [1980, p.178-194, rus] **34-4134**

Locks (waterways)

Winter operation of water navigation objects. Ivanov, L.V., [1978, 211p., rus] **34-2686**

Loess

Design of bases and foundations on subsiding soils. Mustafaev, A.A., [1979, 368p., rus] **34-720**

Initial and sustained strength of clay soils. Meschian, S.R., [1978, 207p., rus] **34-884**

Stabilization of saturated loess soils by gas silication. Isaev, B.N., et al, [1979, p.65-69, eng] **34-1146**

Roasting loess soils to a depth of 25 m. Litvinov, I.M., et al, [1979, p.124-128, eng] **34-2017**

Experimental investigation of the stress-strain state of loess soils in the base of rigid plates. Tsytovich, N.A., et al, [1979, p.140-145, eng] **34-2018**

All-Union scientific-technical conference on the engineering-geological basis of seismic microregionalization, 1st, Tashkent, Nov. 18-20, 1987. Summaries of reports. [1975, 98p, rus] **34-2057**

Composition and properties of flooded loess as a basis for seismic microregionalization. Domrachev, G.I., [1975, p.74-75, rus] **34-2062**

Preparation of sagging loess bases. Ryzhov, A., et al, [1979, p.32-33, rus] **34-2117**

Preparing foundations for construction on sagging loess. Ryzhov, A.M., [1979, p.14-15, rus] **34-2633**

Allowing for compacted layer thickness when designing for sagging ground. Rozenfel'd, I.A., [1979, p.19-21, rus] **34-2634**

Determination of the parameters of the method of thermal stabilization of soils and its economic effectiveness. IUrdanov, A.P., [1980, p.272-278, eng] **34-3372**

Experience with the drying of loess soils using radial horizontal holes. Anpilov, V.E., et al, [1980, p.674-677, eng] **34-3374**

Loess-ice formation of East Siberia in Late Pleistocene and Holocene. Tomirdiaro, S.V., [1980, 184p., rus] **34-3478**

Seismic characteristics of loess in relation to geologic surroundings and the impact of industrial activities. Kriger, N.I., et al, [1980, 103p., rus] **34-3763**

Results of twenty-year monitoring of silication stabilization of Odessa theater foundations. Arshakuni, D.E., et al, [1980, p.325-327, eng] **34-3934**

Logging

See: Electric logging; Radioactive logging

Logistics

Final report 1977 ocean current study. Goodman, R.H., et al, [1978, 24p. + appends., eng] **34-314**

Canadian Arctic field survey, May 17-June 23, 1969. Atwater, R.K., et al, [1969, 35p. + appends., eng] **34-322**

Beaufort Sea exploratory drilling system: review and recommendations. [1971, var. p., eng] **34-573**

Study of Beaufort Sea exploratory drilling systems. [1971, var. p., eng] **34-574**

Arctic offshore pipeline feasibility study in Mackenzie River delta area. [1973, c530p., eng] **34-578**

Logistics operations APOA Beaufort Sea projects 1970. Smith, J.G., [1970, 75p., eng] **34-596**

Cold region pipeline construction. Pendarvis, R.C., [1979, p.481-485, eng] **34-1401**

Minerals and raw material bases in the Baykal Amur railroad area. Kogan, S.I., et al, [1979, p.1-5, rus] **34-2127**

Safe working conditions on fast ice. Chuchukin, A., [1979, p.26-27, rus] **34-2292**

Oil spill scenario for the Labrador Sea. LeDrew, B.R., et al, [1979, 675p., eng] **34-2479**

SA ice ship tribute to designers, builders. [1978, p.10-17, eng] **34-2561**

Engineering at the ends of the earth: polar ocean technology for the 1980's. [1979, 74p., eng] **34-2712**

Arctic flying. Buck, B.M., et al, [1979, 199p., eng] **34-2987**

Environmental assessment of the Alaskan continental shelf. Vol 10, Hazards, Data management. [1979, 517p., eng] **34-3058**

Russian winter pipeline construction techniques. Sanders, W.M., [1980, p.59-66, 71, eng] **34-3086**

USCGC Glacier cruise report: Deep Freeze 80. [1980, 106p., eng] **34-3509**

Development of a specialized production base in West Siberia. Gorlashkina, G.A., et al, [1980, p.21-22, rus] **34-3819**

Cargo to the north by transport planes. Chudnovskii, A., [1978, p.8-10, rus] **34-3900**

Grönlands Geologiske Undersögelse and Geodaetiske Institut North Greenland Expeditions, 1978-80. Higgins, A.K., [1980, p.153-156, eng] **34-4187**

Long range forecasting

Basis for forecasting the Arctic sea ice over a few months to many years. Lamb, H.H., [1979, 84p., eng] **34-1046**

Ice forecasts for Arctic seas and their practical use. Kirillov, A.A., [1977, p.75-83, eng] **34-1503**

Possibility of long-range forecasting of oceanographic conditions of the Kara Sea. IAnes, A.V., [1979, p.16-21, eng] **34-1898**

Western Ross Sea and McMurdo Sound ice forecasting guide. Perchal, R.J., [1975, 132p., eng] **34-2453**

Long range background forecasts of mean monthly air temperature anomalies in West Siberia. IAgudin, R.A., [1979, p.44-50, rus] **34-2967**

Ten-day forecasts of mean air temperature anomalies for West and East Siberia, Ural Mountains and North Kazakhstan. Khramtsova, I.G., et al, [1979, p.51-55, rus] **34-2968**

Long range forecasting of ice conditions in Arctic seas. Kirillov, A.A., et al, [1979, p.5-20, rus] **34-2994**

Results of using cyclic oscillation data in long range forecasts of ice conditions in Arctic seas. Kovalev, E.G., [1979, p.63-65, rus] **34-2999**

Information content of observations on precipitation and snow cover in the Uryadar'ya River Basin for long range forecasts of runoff. Akhundzhanov, Sh.M., et al, [1978, p.3-21, rus] **34-3345**

Method for the long-range forecasting of the dates of ice appearance in the rivers of the Northeastern USSR. Savchenkova, E.I., [1978, p.47-50, eng] **34-3962**

Low temperature research

Lime disinfection of sewage bacteria at low temperature. Morrison, S.M., et al, [1974 p.482-506, eng] **34-1486**

Ozone disinfection of wastewaters at low temperatures. Kinman, R.N., [1974, p.507-522, eng] **34-1487**

Development of data recorder for cold condition. Oi, M., et al, [1979, p.189-191, jap] **34-3506**

Optimized linear variable differential transformer displacement transducer for cryogenic use. Sponagle, N.C., et al, [1980, p.759-761, eng] **34-3618**

Absolute rate constant of the reaction OH + H202 to HO2 + H2O from 245 to 423K. Keyser, L.F., [1980, p.1659-1663, eng] **34-3651**

Low temperature tests

Engineer design test of Cold Regions Research and Engineering Laboratory (CRREL) shelter. Dollahite, M.C., [1978, 97p., eng] **34-135**

Dryout, cooldown keyed Cove Point commissioning. Venendaal, B., [1979, p.28-38, eng] **34-141**

Low temperature effects on the abrasion behaviour of coated fabrics. Tennyson, R.C., et al, [1977, p.44-59, eng] **34-206**

Measurement of the intrinsic thermal expansion of irradiation defects in aluminum at low temperature. Ganne, J.P., et al, [1979, p.634-636, eng] **34-272**

Determining concrete strength under severe climatic conditions. Savitskii, A.N., et al, [1977, p.98-101, rus] **34-353**

Effect of deterioration rate on abrasive strength of the steel 110G13L containing admixtures, at room and low temperatures. Glazkov, V.M., et al, [1974, p.65-70, rus] **34-381**

Abrasive strength of instrument steel rubbing or knocking against sand paper at low temperature. Tarasov, G.F., [1974, p.90-98, rus] **34-383**

Laboratory testing of wear resistant alloys at subzero temperatures. Grinberg, N.A., et al, [1974, p.140, rus] **34-385**

Effects on flexible highways of increased legal vehicle weights using VESYS IIM. Rauhut, J.B., et al, [1978, 203p., eng] **34-508**

Arctic winter test and evaluation, initial stage, Kenworth truck Model 953A. [1972 var. p., eng] **34-511**

Arctic winter test and evaluation, late winter stage, Kenworth truck Model 953A. [1972, var. p., eng] **34-513**

Localized deformation of polymers at low temperatures and high loading rates. Williams, J.D., III, [1978, 293p., eng] **34-603**

Installation for the measurement of the shear stress of solids at low temperatures and high pressures. Zharov, A.A., et al, [1979, p.266-267, eng] **34-983**

Effect of surface-active media on low temperature abrasive wear of metals. Dorodnyi, V.I., [1977, p.26-31, rus] **34-986**

Phosphonitrilic fluoroelastomer coated fabrics for collapsible fuel storage tanks. Sicka, R.W., et al, [1979, 172p., eng] **34-1043**

Development test II (DT II) (PQT-G) (Cold Weather Environment) of the family of military engineer construction equipment (FAMECE). Lockwood, N.S., [1979, c190p., eng] **34-1311**

First article test of lightweight camouflage screening system, snow (radar scattering). Nelson, J.D., [1979, 14p., eng] **34-1340**

Testing concrete for frost resistance. Sizov, V.P., [1979, p.34-35, rus] **34-1433**

Controlling frost resistance of concrete during production. Voevoda, G.F., et al, [1979, p.35-37, rus] **34-1434**

Feasibility of physico-chemical treatment of raw sewage at low temperature. Magsood, R., et al, [1974, p.523-548, eng] **34-1488**

Structural steels usable at low temperature. Murry, G., [1979, p.7-17, fre] **34-2314**

Semiconductor resistance thermometers for the interval 300-0.3K. Zinov'eva, K.N., et al, [1979, p.845-847, eng] **34-2355**

Mechanical properties of metals depending on temperature and deformation rates. Chaplinskii, I.A., et al, [1979, p.31-35, rus] **34-2617**

Durability of concrete. Steiger, R.W., et al, [1980, p.35-39, eng] **34-2665**

High pressure apparatus for PVT measurements of liquids and plastic crystals at low temperature. Landau, R., et al, [1980, p.533-535, eng] **34-3408**

Metallurgical examination of some ice screws. Redfern, R.M., [1979, p.23-29, eng] **34-3681**

Petrochemical product admixtures for concretes. Cherepanov, IU., et al, [1980, p.42-43, rus] **34-3930**

Lubricants

Research on an air lubricated snow plow. Ringer, T.R., et al, [1979, p.226-231, eng] **34-85**

Icing preventing device for a carburetor for two-cycle engine. Sakai, M., [1977, 4 col., eng] **34-261**

Lubrication

See: Self lubrication

Machinery

Vibration measurements made on an ice platform in the vicinity of Panarctic Hecla N-52 well for Sun Oil Company, Richardson, Texas. Fix, J.E., [1974, 76p., eng] **34-3096**

Magnetic resonance

See: Nuclear magnetic resonance

Magnetic surveys

Magnetic markers for glacier mass balance and velocity measurements. Harrison, W.D., et al, [1978, 45p., eng] **34-776**

Radio echo and magnetic sounding of the Antarctic ice sheet, 1978-79. Drewry, D.J., et al, [1980, p.43-51, eng] **34-2810**

Maintenance

Clean up your snow rigs now for summer storage. Calder, R., [1980, p.24-26, eng] **34-2728**

Railroad track maintenance under northern conditions. Buzunov, Z.T., [1979, p.50-62, rus] **34-3776**

See also: Road maintenance; Winter maintenance

Maintenance personnel

New Jersey Department of Transportation model for winter equipment and manpower allocations. Cifelli, N.J., et al, [1979, p.82-84, eng] **34-64**

Management

Maintenance organization and operation. Lekeux, I., [1979, p.56-59, fre] **34-1247**

Manuals

Drilling operations guide. [1973, c195p., eng] **34-568**

Engineering manual for northern gas pipelines. Sedlukha, G.A., et al, [1979, 168p., rus] **34-581**

Environmental code of good practice for highways and railways. [1979, c80p., eng] **34-2605**

Catalog of temperature fields of standard enclosure joints. Part I, Residential buildings. Design manual. Ivashkova, V.K., et al, [1970, 111p., rus] **34-2937**

Manual for designing water supply and sewage systems in permafrost areas. Fedorov, N.F., et al, [1979, 159p., rus] **34-3269**

Antarctic forecasters handbook. [1970, c125 leaves, eng] **34-3431**

Manufacturing

Arun LNG plant onstream in Indonesia. Inman, H., et al, [1979, p.22-26, eng] **34-140**

Mapping

Soil classification and land resources of the Irkutsk area. Kolesnichenko, V.T., et al, [1979, p.13-24, rus] **34-435**

Evaluation and classification of soils in the Zeya-Bureya plain and areas adjacent to the BAM zone. Onishchuk, V.S., [1979, p.54-59, rus] **34-440**

Application of satellite images for monitoring snow-line in the Yukon and Northwest Territories. Dey, B., et al, [1979, p.473-483, eng] 34-472

Coastal environment of southern Baffin Island and northern Labrador-Ungava. Barry, R.G., et al, [1977, 166p., eng] 34-490

Snow mapping in Alpine basins using satellite imagery. Rott, H., [1978, p.81-93, ger] 34-667

Glaciological and marine biological studies at perimeter of Dronning Maud Land, Antarctica. Final report. Orheim, O., [1977, 17p., eng] 34-772

Natural hazards maps for land-use planning, San Juan Mountains, Colorado, U.S.A. Ives, J.D., et al, [1978, p.185-212, eng] 34-791

Classification of cryogenic formations in Caucasus. Bondyrev, I.V., [1979, p.105-108, rus] 34-858

Hydrologic and geothermal peculiarities of permafrost areas in the USSR. Fotiev, S.M., [1978, 236p., rus] 34-883

Batura Glacier in the Karakoram Mountains and its variations. [1979, p.958-974, eng] 34-940

Combined aerial survey of northwestern Siberia. Bogoiavlenskii, B.A., et al, [1979, p.169-192, rus] 34-1074

Taking inventory of natural grasslands by large-scale surveys of the Ob'-Irtysh floodplain, Tyumen' Region. Aseeva, A.I., [1979, p.57-80, rus] 34-1102

Vegetation of the "Snow Valley" station (Explanatory note to the vegetation chart). Shatkauskas, A.V., et al, [1977, p.24-34, rus] 34-1160

Soils of the "Snow Valley" research station (Explanatory note to the soil map). Bogdanov, I.E., et al, [1977, p.35-43, rus] 34-1161

Monitoring and mapping sea-ice breakup and freezeup of Arctic Canada from satellite imagery. Dey, B., et al, [1979, p.229-242, eng] 34-1280

Ground control and interpretation of satellite imagery in Antarctica. Lutsenko, E.I., [1978, p.164-166, eng] 34-1415

Snow-mapping experiment. Barnes, J.C., et al, [1977, p.191-224, eng] 34-1492

Problems and results of avalanche and mudflow studies by Moscow University geographers. Miagkov, S.M., et al, [1979, p.52-57, rus] 34-1639

Soil cover of the world (Soil-bioclimatic areas of the world and their agro-ecologic characteristics). Rozov, N.N., et al, [1979, 287p., rus] 34-1654

Snow mapping and runoff forecasting: Examination of ERTS-1 capabilities and potential benefits from an operational ERS system. [1974, 180p. + 25p. appends., eng] 34-1730

Seasonal freezing of ground in the non-chernozem areas of the RFSFR and its mapping. Tumel', N.V., et al, [1979, p.36-41, rus] 34-1757

Special geomorphologic map for studying permafrost. Gavrilov, A.V., et al, [1979, p.75-80, rus] 34-1770

General and applied climatology. Kobysheva, N.V., ed, [1979, 104p., rus] 34-1814

Regionalization of the USSR according to icing. Rudneva, A.V., [1979, p.86-91, rus] 34-1822

Small scale geobotanical mapping as a basis for scientific organization of Alpine vegetation protection. Belov, A.V., [1973, p.34-37, rus] 34-1866

Studies of geobotanical indices in the medium-scale combined geocryologic survey of southern Yakutia. Melent'ev, V.S., [1979, p.154-158, rus] 34-1923

All-Union scientific-technical conference on the engineering-geological basis of seismic microregionalization, 1st, Tashkent, Nov. 18-20, 1987. Summaries of reports. [1975, 98p, rus] 34-2057

Using electric survey data in seismic microregionalization of permafrost areas. Basov, A.D., et al, [1975, p.67-68, rus] 34-2061

Hydrogeological surveying in high mountains. Sokolovskii, L.G., et al, [1979, p.43-46, rus] 34-2126

Radar surveying in engineering-geological studies. Valiakh, V.M., et al, [1979, p.45-49, rus] 34-2128

Vertical air temperature gradients in the Pamirs. Davidovich, N.V., [1979, p.56-61, rus] 34-2181

Regionalization of the Pamirs for tourist maps. Suprunenko, IU.P., [1979, p.101-108, rus] 34-2189

Snow cover distribution in the mountains of Tadzhikistan. Burichenko, A.I., et al, [1979, p.120-126, rus] 34-2191

Landscape-geographic technique of mapping snow cover under complicated orographic conditions. Kondakova, N.L., [1979, p.139-143, rus] 34-2194

Ecological and phytocenological complexes of Asiatic Russia (Experience in mapping). Sochava, V.B., ed, [1977, 70p. + map, rus] 34-2437

Method of compiling and brief analysis of a correlative ecological and phytocenological map of Asiatic Russia, scale of 1:7,500,000. Buks, I.I., [1977, p.15-54, rus] 34-2438

Mapping of taiga vegetation for the forecasting of its variations due to possible changes in moisture conditions. Shvergunova, L.V., et al, [1978, p.74-80, rus] 34-2467

Peculiarities of forest-swamp ecosystems in West Siberia. Glebov, F.Z., ed, [1978, 159p., rus] 34-2518

Studying the origin and structure of forest-swamp complexes. Glebov, F.Z., et al, [1978, p.14-59, rus] 34-2520

Mapping the use of restockable natural resources for geographic forecasting. Vorob'eva, T.A., et al, [1978, p.132-139, rus] 34-2537

Soil-geochemical regionalization of the non-chernozem zone for protection from pollution. Glazovskaia, M.A., [1978, p.127-139, rus] 34-2612

Quality indices of West Siberian soils. Tiumentsev, N.F., et al, [1979, p.53-60, rus] 34-2738

Geomorphology and construction. Spiridonov, A.I., ed, [1979, 190p., rus] 34-2746

Spaceborne methods of studying exogenic relief-forming processes for construction. Revzon, A.L., et al, [1979, p.103-108, rus] 34-2750

Engineering-geomorphological conditions of the western Baykal Amur railroad area from satellite photographs. Sladkopevtsev, S.A., [1979, p.127-138, rus] 34-2753

Exogenic processes in the Baykal Amur railroad construction area. Denisenko, I.S., et al, [1979, p.175-183, rus] 34-2759

Regional and cryolithologic studies in Siberia. Nekrasov, I.A., ed, [1979, 160p., rus] 34-2769

Geocryological mapping of South Yakutia from satellite photographs. Nekrasov, I.A., et al, [1979, p.3-16, rus] 34-2770

Geocryologic-hydrologic regionalization of the northeastern Magadan region. Ivanova, L.D., [1979, p.60-68, rus] 34-2776

Seismogeology and seismic regionalization of the Baykal Amur railroad route and the zone of its economic influence. Solonenko, V.P., [1979, 69p., rus] 34-2872

Ecosystems of swamps in the USSR. Boch, M.S., et al, [1979, 187p., rus] 34-2886

Geocryologic and hydrogeologic investigations in Yakutia. Anisimova, N.P., ed, [1978, 187p., rus] 34-2915

Geocryological conditions in Asian mountains and plains. Nekrasov, I.A., ed, [1978, 164p., rus] 34-2938

Alassy of Central Yakutia. Bosikov, N.P., [1978, p.113-118, rus] 34-2951

Operation Icemap 2; side looking radar trials, spring 1972. Hengeveld, H.G., [1973, 14p. + appends., eng] 34-2956

Sea Ice-75. Programme. Blomquist, Å., et al, [1976, 30p., eng] 34-2985

Regionalization of the southern West Siberian Plain for land reclamation. Uglanov, I.N., et al, [1979, p.116-133, rus] 34-3080

Studies of mountain glaciers by the Geography Department of Leningrad University during the IHD. Aigina, N.P., et al, [1979, p.160-165, rus] 34-3133

Glaciers on topographic maps and in the Glacier Catalog of the USSR. Kuz'michenok, V.A., [1979, p.249-255, rus] 34-3148

Remarks on the V.A. Kuz'michenok paper "Glaciers on topographic maps and in the Glacier Catalog of the USSR". Vinogradov, O.N., [1979, p.255-257, rus] 34-3149

Environmental analysis of the Upper Susitna River Basin using Landsat imagery. Gatto, L.W., et al, [1980, 41p., eng] 34-3198

Principles of cryolithological regionalization of the permafrost zone. Vtiurin, B.I., [1980, p.1-9, eng] 34-3233

Using microwave satellite measurements for mapping sea ice. Loshchilov, V.S., [1977, p.40-45, rus] 34-3306

Large scale mapping of southern taiga vegetation in the Central Ural Mountains. Gorchakovskii, P.L., et al, [1977, p.3-15, rus] 34-3363

Evaluating avalanche danger in the Katunskiy Range, Altai. Reviakin, V.S., et al, [1977, p.157-162, rus] 34-3389

Proceedings. [1980, 301p., eng] 34-3511

NOAA/NESS program for operational snowcover mapping: preparing for the 1980's. Schneider, S.R., [1980, p.21-39, eng] 34-3512

New goals for snow monitoring by satellite. Wiesnet, D.R., [1980, p.41-51, eng] 34-3513

Mapping New Zealand and Antarctic snowpack from LANDSAT. Thomas, I.L., et al, [1980, p.53-72, eng] 34-3514

Application of satellite data for snow mapping in Norway. Odegaard, H.A., et al, [1980, p.93-106, eng] 34-3515

All-digital approach to snow mapping using geostationary satellite data. Tarpley, J.D., et al, [1980, p.267-279, eng] 34-3524

Resolutions of the Glaciology Section workshop, June 1979. [1979, p.29-33, rus] 34-3685

Mapping ice thickness on rivers and lakes. Falko, L.I., [1979, p.36, rus] 34-3687

Mapping Alai Range glaciers from photographs taken by the *Soyuz-22* spaceship. Kravtsova, V.I., et al, [1979, p.56-62, rus] 34-3691

Depiction of glacier areas in the World Atlas of Snow and Ice Resources. Timofeeva, N.A., [1979, p.62-66, rus] 34-3692

Determining snow cover characteristics in unstudied areas. Getker, M.I., et al, [1979, p.79-84, rus] 34-3695

Duration and intensity of solid precipitation in North America (indirect calculations and mapping). Bogdanova, E.G., et al, [1979, p.89-94, rus] 34-3697

Compiling maps for developing recreation areas in mountains. Suprunenko, IU.P., [1979, p.99-107, rus] 34-3699

Calculating boundaries of avalanche danger zones of specified frequency from morphometry of avalanche foci. Zolotarev, E.A., [1979, p.193-198, rus] 34-3713

Forest and hydrological regionalization of Central Siberia. Lebedev, A.V., [1979, p.25-58, rus] 34-3770

Effect of long-term cryometamorphism of earth materials on the formation of groundwater. Fotiev, S.M., [1980, p.177-194, eng] 34-3840

Cryolithological map of the U.S.S.R. (Principles and compilation). Popov, A.I., et al, [1980, p.391-399, eng] 34-3853

Computer application to geocryological-engineering-geological mapping. Kozlov, A.N., et al, [1980, p.61-65, rus] 34-3904

Formation and development of swamp systems. Kirliushkin, V.N., [1980, 88p., rus] 34-4014

Place of Alpine vegetation in the system of botanical-geographic mapping of high mountain regions. Sokhadze, E.V., [1979, p.104-110, rus] 34-4089

Hydromelioration of lands in the Buryat ASSR. Borisenko, I.M., ed, [1979, 110p., rus] 34-4095

Hydrogeologic-land reclamation regionalization of the Lake Baykal area and Western Transbaikal. Borisenko, I.M., [1979, p.5-15, rus] 34-4096

Methods of studying frozen rock properties during geocryological surveying. Trush, N.I., [1980, p.67-75, rus] 34-4123

See also: Infrared mapping

Maps

Components of forest tundra biogeocenoses in northern Okhotomor'e. Ignatenko, I.V., ed, [1977, 149p., rus] 34-1158

New map "Gepatschferner 1971", scale 1:10,000. Brunner, K., [1978, p.133-151, ger] 34-1265

Scientific basis for combined studies of Alpine regions. Nazarov, A.G., [1975, p.98-100, rus] 34-1855

Geobotanical maps and plant conservation provisions for economically developing areas of Central and Eastern Siberia. Belov, A.V., [1975, p.206-207, rus] 34-1862

Novaya Zemlya map of permafrost temperature; scale 1:2,500,000. Kondrat'eva, K.A., [1979, p.80-101, rus] 34-1917

Rock temperatures in the Kamchatka Peninsula. Zamolotchikova, S.A., et al, [1979, p.102-118, rus] 34-1918

Late quaternary ice cover of the Pamirs. Grosval'd, M.G., et al, [1979, p.85-97, rus] 34-2187

Mappable indices of glacier surface orientation. Kuz'michenok, V.A., [1979, p.214-216, rus] 34-2212

Pressing environmental protection problems in the Far East. Konovalenko, V.G., ed, [1978, 179p., rus] 34-2532

Charts of parameters of heat transfer between soil and atmosphere in winter. Arc, A.L., [1979, p.36-46, rus] 34-2773

Thickness of the seasonally freezing surface layer in Yakutia. Solov'ev, P.A., [1978, p.3-12, rus] 34-2916

Chart of geocryologic and hydrogeologic regionalization of East Siberia. Ivanova, L.D., et al, [1978, p.137-145, rus] 34-2931

Geocryologic characteristics of the central Zyryanka River basin. Vasil'ev, I.S., et al, [1978, p.66-78, rus] 34-2947

Rock temperature in the central part of the Cherskiy Mountains. Dorofeev, I.V., [1978, p.79-86, rus] 34-2948

Geocryologic-lithologic map of an interstream plateau. Klimovskii, I.V., [1978, p.105-112, rus] 34-2950

Using electrical survey data in geocryologic and geologic evaluations. Shasherin, I.V., [1978, p.131-141, rus] 34-2954

Program and guide for compilation of the applied part of the *World atlas of snow and ice resources*. [1979, p.35-63, rus] 34-3117

Addenda to the program and instructions for compiling mudflow maps in the regional part of the *World atlas for snow and ice resources*. Perov, V.F., [1979, p.63-66, rus] 34-3118

Order of preparation and checking of author's documentation to the maps of the *World atlas of snow and ice resources*. [1979, p.66-69, rus] 34-3119

Fourth meeting of the Editorial Board of the *World atlas on snow and ice resources*. [1979, p.69-72, rus] 34-3120

Map of the second chionosphere level (Level 365) in Western Tien Shan. Bassin, N.S., et al, [1979, p.138-143, rus] 34-3129

Infrared aerial survey in studying natural resources. Shilin, B.V., [1980, 247p., rus] 34-3591

Large-scale prognostic maps of mountain vegetation in Central Sikhote-Alin forests. Kiselev, A.N., [1979, p.8-21, rus] 34-3602

Geography and cartography of pine forests in southern taiga and the broad-leaf area of the European USSR. Gribova, S.A., et al, [1979, p.38-45, rus] 34-3603

Workshop of the Glaciology Section and tutorial seminar, Zvenigorod, June 1979. Barbash, V.R., [1979, p.5-29, rus] 34-3684

Interrelations and succession in the compilation of thematic sections of the World Atlas of Snow and Ice Resources. Dreier, N.N., [1979, p.37-42, rus] 34-3688

Compiling 1:600 000 glacier morphology maps of the eastern Pamirs and the Juneau Ice Field. Varnakova, G.M., et al, [1979, p.42-47, rus] 34-3689

Maps *(cont.)*

Morphological properties of the Tien Shan glacier system in the 1:1 500 000 maps of the World Atlas of Snow and Ice Resources. Vinogradov, O.N., et al, [1979, p.47-56, rus] 34-3690

Compiling 1:3 000 000 glacioclimatic maps for the World Atlas of Snow and Ice Resources. Davidovich, N.V., et al, [1979, p.66-71, rus] 34-3693

Collecting data for the World Atlas of Snow and Ice Resources in the USA and Canada. Dreier, N.N., et al, [1979, p.107, rus] 34-3700

Zonal and regional patterns of formation of the permafrost region in the U.S.S.R. Kudriavtsev, V.A., et al, [1980, p.371-389, eng] 34-3852

Cryolithological map of the U.S.S.R. (Principles and compilation). Popov, A.I., et al, [1980, p.391-399, eng] 34-3853

Computer application to geocryological-engineering-geological mapping. Kozlov, A.N., et al, [1980, p.61-65, rus] 34-3904

Marine biology

Transport, retention, and effects of the water-soluble fraction of Cook Inlet crude oil in experimental food chains. Whipple, J.A., et al, [1979, p.535-581, eng] 34-17

Summer environmental program Mackenzie River estuary [1975, 3 vols., eng] 34-301

Guide to the effects of underwater shock waves on Arctic marine mammals and fish. Hill, S.H., [1978, 50p., eng] 34-369

Environmental program Mackenzie delta, N.W.T. [1974, 9 parts, eng] 34-420

Davis Strait aerial survey 77-1. [1977, 14p. + figs and tables, eng] 34-425

Cruise 77-1, February, 1977. Environmental aspects of the cruise to Davis Strait and the Labrador coast. [1977, var.p., eng] 34-426

Biological studies, offshore cruises 77-2 and 77-3, April-June, 1977 in the Davis Strait. [1978, var. p., eng] 34-428

Report on Cruise II, July 1976. Environmental aspects of Imperial Oil cruise to Flemish Pass and Davis Strait. [1976, var.p., eng] 34-429

Field report on the oceanographic cruises during April, July-August, October-November, 1976. [1977, var.p., eng] 34-430

Report on Cruise III, October-November 1976 and Cruise IV, November-December, 1976. Environmental aspects of the Imperial Oil cruises to Davis Strait, Hudson Strait and Flemish Pass. [1977, var.p., eng] 34-431

Biological literature review of the Labrador Sea region. [1977, var.p., eng] 34-491

Primary data collected for the 1977 Davis Strait biological programme and analysed prior to December 1977. [1977, 2 vols., eng] 34-492

Biological studies, offshore cruise 77-4 through 77-7, July-December, 1977 in the Davis Strait. [1977, var.p., eng] 34-493

Aerial surveys 77-2, 77-3, 77-4. Studies of sea birds and marine mammals in Davis Strait, Hudson Strait and Ungava Bay. [1977, var.p., eng] 34-494

Preliminary nearshore environmental studies on southeast Baffin Island. [1977, var.p., eng] 34-495

Revised biological literature review of the Davis Strait region. [1978, var.p., eng] 34-497

Biological literature review of Ungava Bay and Hudson Strait. [1977, var.p., eng] 34-498

Marine benthic invertebrates of the southern Davis Strait and Ungava Bay. [1978, var.p., eng] 34-499

Biological productivity of the southern Beaufort Sea: the physical-chemical environment and the plankton. Grainger, E.H., [1975, 82p., eng] 34-504

Program and abstracts. [1978, c50p., ger] 34-813

Environmental assessment of the Alaskan continental shelf: lower Cook Inlet interim synthesis report. [1979, 241p., eng] 34-1338

Environmental assessment of the Alaskan continental shelf. Vol. 6. Biological studies. [1979, 852p., eng] 34-2680

Environmental assessment of the Alaskan continental shelf, Vol.5, Receptors - Microbiology; Contaminant baselines. [1979, 698p., eng] 34-3048

Environmental assessment of the Alaskan continental shelf, Vol.6, Effects. [1979, 664p., eng] 34-3049

Installation test of the air-filled manned undersea chamber "Sprut" under the Arctic drift ice. Mel'nikov, I.A., et al, [1978, p.737-738, eng] 34-3540

Preliminary survey of the benthos of Resurrection Bay and Aialik Bay, Alaska. Feder, H.M., et al, [1979, 53p., eng] 34-3724

"Arctic" problems in the biology of the White Sea. Khlebovich, V.V., [1979, p.13-15, rus] 34-4218

Marine deposits

Initial report on geological materials collected at RISP site J9, 1978-79. Webb, P.N., comp, [1979, 127p., eng] 34-2481

Late Quaternary history and the formation of sediments in the marginal and inland seas. Gershanovich, D.E., ed, [1979, 212p., rus] 34-3064

Structure of the Pliocene-Quaternary deposits of the Barents Sea bottom along the Rybachiy Island-Franz Joseph Land cross section. Blazhchishin, A.I., et al, [1979, p.13-19, rus] 34-3065

Glacial to interglacial changes in ocean chemistry. Broecker, W.S., [1980, 27p. + figs. + append., eng] 34-3653

Classical European glacial stages: correlation with deep-sea sediments. Kukla, G., [1978, p.57-93, eng] 34-3654

Cyclic nature of thermokarst on the Maritime Plain in the Upper Pleistocene and Holocene. Gravis, G.F., [1980, p.245-257, eng] 34-3844

See also: Sediments

Marine geology

Geological sampling and analytical program, Beaufort Sea. Lerand, M.M., comp, [1971, c.215p., eng] 34-598

Geotechnical criteria. Prodanovic, A., [1979, 11p. + 11 slides, eng] 34-1593

Oil spill scenario for the Labrador Sea. LeDrew, B.R., et al, [1979, 675p., eng] 34-2479

Marine seismic refraction data between Wainwright Inlet and Prudhoe Bay, Alaska. Bee, M., et al, [1979, 120p., eng] 34-2486

Alaskan shelf hydrographic, sedimentary and geochemical environment. S'arma, G.D., [1979, 498p., eng] 34-2514

Submarine fluting and end moraine features in the fresh water reservoir Uusikaupunki, on the SW coast of Finland. Ström, O., [1979, p.231-234, fin] 34-2563

Probing with TROV: unmanned submersible reveals geology and hazards of Arctic seafloor. Blasco, S.M., [1978, p.13-15, eng] 34-2647

Arctic seafloor: past and present. Sweeney, J.F., [1979, p.2-5, eng] 34-2650

Baffin Island quaternary environments, an annotated bibliography. Andrews, M., et al, [1980, 123p., eng] 34-2722

Heavy mineral analysis of southern Beaufort Sea sediments. Costaschuk, S.M., [1980, p.241-252, eng] 34-2988

Oil seep in the Arctic. Mungall, C., [1979, p.2-4, eng] 34-3061

Coastal environment, bathymetry, and physical oceanography along the Beaufort, Chukchi and Bering Seas. Gatto, L.W., [1980, 357p., eng] 34-3328

Glacial and glacial marine sediments of the antarctic continental shelves. Anderson, J.B., et al, [1980, p.399-414, eng] 34-4189

Marine meteorology

Oceanography of the Grand Banks region of Newfoundland in 1973. Hayes, R.M., et al, [1978, 448p., eng] 34-1364

Environmental assessment of the Alaskan continental shelf, Vol.7, Transport. [1979, 560p., eng] 34-3050

Marine sediments

Postglacial and Holocene paleogeography of the Barents Sea. Kotenev, B.N., [1979, p.20-28, rus] 34-3066

Evolution of late and postglacial sediment accumulation in offshore areas of the Barents and White seas. Evzerov, V.IA., [1979, p.29-33, rus] 34-3067

Marine transportation

Statistical study of passage into Beaufort Sea via Point Barrow. Wilson, S.R.G., [1977, 108p., eng] 34-1763

Arctic transportation systems. Nitzki, L., [1977, p.1-6, ger] 34-1933

Marine transportation systems of the Trans-Alaska Pipeline System. [1971, 158p., eng] 34-2357

Marine transportation systems of the Trans-Alaskan Pipeline System. [1971, 158p., eng] 34-2631

Engineering at the ends of the earth: polar ocean technology for the 1980's. [1979, 74p., eng] 34-2712

Proceedings. [1979, 271p., eng] 34-3437

Environmental aspects of Arctic marine transportation and development. Roots, E.F., [1979, p.69-96, eng] 34-3439

Petroleum development in northern Alaska. Bregha, F., [1979, p.223-253, eng] 34-3440

Preliminary feasibility study of a tanker transportation system serving the northwest coast of Alaska. Final report. Halebsky, M., et al, [1980, 3 vols., eng] 34-3947

Marion Island

Sorted strips orientated by wind action: some observations from sub-Antarctic Marion Island. Hall, K., [1979, p.281-289, eng] 34-3195

Markers

Magnetic markers for glacier mass balance and velocity measurements. Harrison, W.D., et al, [1978, 45p., eng] 34-776

Equipment for marking road pavements. Nisnevich, A.IA., et al, [1979, p.19-20, rus] 34-838

Studying the migration of chlorine-marked soil moisture. Shugalet, L.S., et al, [1979, p.68-78, rus] 34-977

Field testing of a snowplowable raised marker. McNaught, E.D., [1977, 33p., eng] 34-1116

Snowplowable raised reflective pavement markers at hazardous locations in New Jersey. Graf, C.R., et al, [1979, 55p., eng] 34-4077

Recessed snowplowable markers. Niessner, C.W., [1980, 22p., eng] 34-4082

Mars (planet)

Global seasonal variation of water vapor on Mars and the implications for permafrost. Farmer, C.B., et al, [1979, p.2881-2888, eng] 34-654

Frost streaks in the south polar cap of Mars. Thomas, P., et al, [1978, p.4621-4633, eng] 34-685

Mars: the wet look. Eberhart, J., [1979, p.108-110, eng] 34-738

Marshes

See: Swamps

Masonry

Local construction materials used for linings for the Baykal Amur railroad. Troitskii, V.V., et al, [1979, p.22-23, rus] 34-1427

Mass balance

Sea ice modeling: its testing with LANDSAT and potential use in FGGE. Hall, R.T., et al, [1976, p.104-109, eng] 34-817

Annual report No.11, Contract N00014-76-C-0234, NR 307-252. [1979, 33p., eng] 34-1748

Variations in the ice surface height along the Mirnyy-100 km profile. Meier, S., [1979, p.17-24, rus] 34-1824

Ice and meteorological regimes, mass balance and drainage from mountain glaciers of the Tuiuksu Basin. Makarevich, K.G., et al, [1979, p.96-109, rus] 34-1978

Mass balance of some Bish-Irdu glaciers. Okishev, P.A., [1967, p.16-21, rus] 34-1989

Extent of glaciation in the Pamirs and factors affecting it. Rototaeva, O.V., [1979, p.33-41, rus] 34-2178

Plotting elevations of the alimentation and accumulation lines for Gissar-Alay glaciers. Rototaeva, O.V., [1979, p.42-51, rus] 34-2179

Moisture balance in the system Antarctic ice sheet surface-atmosphere. Aver'ianov, V.G., [1979, p.209-211, rus] 34-2210

Mass and energy exchange between the ice sheet of Antarctica and the atmosphere. Aver'ianov, V.G., [1979, p.189-202, eng] 34-2374

Mass balance of the Ward Hunt Ice Rise and Ice Shelf: an 18 year record. Serson, H.V., [1979, 14p., eng] 34-2431

Measured velocities of interior East Antarctica and the state of mass balance within the I.A.G.P. area. Young, N.W., [1979, p.77-87, eng] 34-2818

Dynamics of marine ice sheets. Thomas, R.H., [1979, p.167-177, eng] 34-2825

Investigation of bottom mass-balance rates by electrical resistivity soundings on the Ross Ice Shelf, Antarctica. Shabtaie, S., et al, [1979, p.331-343, eng] 34-2836

Mass-balance aspects of Weddell Sea pack-ice. Ackley, S.F., [1979, p.391-405, eng] 34-2840

Statistical characteristics of basic mass balance components of glaciers: accumulation and ablation. Glazyrin, G.E., et al, [1979, p.43-50, rus] 34-2881

Report on Soviet glaciological studies in 1975-1978. [1979, p.5-34, rus] 34-3116

Thermohydrodynamic calculations of the Vavilov Ice Dome regime, Severnaya Zemlya. Verbitskii, M.IA., et al, [1979, p.81-86, rus] 34-3122

Water-ice balance of Spitsbergen glaciers in the 1976-77 balance year. Gus'kov, A.S., [1979, p.211-214, rus] 34-3142

Influence of a phase transition of ice on the heat and mass balance of comets. Klinger, J., [1980, p.271-272, eng] 34-3721

Regularities governing the development of the topography and glaciers of Tien Shan. Zabirov, R.D., ed, [1980, 110p., rus] 34-4004

See also: Glacier mass balance

Mass transfer

Evaluating the influence of natural conditions on temperature regime of permafrost surrounding mining excavations. Fedorov, F.M., [1975, p.54-61, rus] 34-222

Energy mass fluxes at the snow surface in a prairie environment. Male, D.H., et al, [1979, p.101-124, eng] 34-1011

Soil freezing: physical study and mathematical models. Aguirre-Puente, J., et al, [1978, p.99-107, fre] 34-1261

Diffusion systems for cold climate lagoons. Christianson, C.D., et al, [1974, p.170-206, eng] 34-1473

Waste treatment performance data at Prince Albert Pulp Company. Aschim, O.K., [1974, p.207-219, eng] 34-1474

Numerical investigation of the Bering Sea circulation using a linear homogeneous model. Han, Y.-J., et al, [1979, 37p., eng] 34-1729

Analysis of heat and mass exchange during thermal drilling. Kudriashov, B.B., et al, [1979, p.106-112, rus] 34-2217

Growth of ice in a saltwater drop falling in an organic phase. Bustany, S.T., et al, [1979, p.439-446, eng] 34-2428

Heat and mass transfer during melting of perennially frozen rocks surrounding producing wells. Antipov, V.I., et al, [1979, p.47-51, rus] 34-2706

Second order iterative approximation scheme for calculating dry snow characteristics. Trofimova, E.B., et al, [1979, p.88-97, rus] 34-2885

Heat and mass transfer in low temperature thermal insulation installations. Kaganer, M.G., [1979, 257p., rus] 34-3069

External mass transfer of mountain glaciers during degradation (the Dzhankuat glacier). Golubev, G.N., et al, [1979, p.126-132, rus] 34-3127

Mobile net technique for numerical solution of the equations of heat and moisture transfer in soils. Khimin, N.M., [1980, p.72-81, rus] 34-3461

Self-consistent solutions of some problems of heat and mass transfer in a saturated porous medium. Verigin, N.N., et al, [1980, p.1089-1094, eng] 34-3561
Optimal Stefan type problem. IUril, A.D., [1980, p.1317-1321, rus] 34-3683
Geophysical aspects of the development of permafrost. Kudriavtsev, V.A., et al, [1980, p.63-79, eng] 34-3832
An NMR study of the phase transition of water in models and in frozen clays. Kvlividze, V.I., et al, [1980, p.81-96, eng] 34-3833
Conditions and geothermal consequences of the moisture exchange between the lithosphere and the atmosphere in permafrost regions. Shvetsov, P.F., [1980, p.109-117, eng] 34-3835
Experimental investigation of heat and moisture transfer during sublimation-desublimation of water in fine-grained soils. Ershov, E.D., et al, [1980, p.143-158, eng] 34-3838

See also: Permafrost mass transfer

Materials

Influence of procurement forms on magnitude of industrial supplies. Belinskii, B.V., et al, [1976, p.4-27, rus] 34-3338
Influence of railroads on motor vehicle transport in Yakutia. Shtyrev, I.N., [1976, p.52-58, rus] 34-3341
Break-off strength of adfreezing ground. Shusherina, E.P., et al, [1980, p.178-194, rus] 34-4134

Mathematical analysis

Mathematical models

Icing of fishing vessels an analysis of reports from Canadian east coast waters. Stallabrass, J.R., [1979, 23p. + 20 figs. and 9p. appends., eng] 34-8
Numerical simulation of atmospheric ice accretion. Ackley, S.F., et al, [1979, p.44-52, eng] 34-57
Use of synthetic snowfalls in the evaluation of snow removal systems. Sage, J.D., [1979, p.121-128, eng] 34-71
Similarity criterion for freezing processes in dispersed media. Kozhevnikov, N.N., [1975, p.90-93, rus] 34-227
Mathematical model to describe the behavior of a moving ice field encountering a conical structure. Kim, J.K., et al, [1973, 2 vols., eng] 34-294
Ice adhesion study. [1973, 88p., eng] 34-295
Analytical study of ice scour on the sea bottom. [1975, 185p. + appends., eng] 34-299
Numerical modeling of the glaciers-ocean-atmosphere global system. Sergin, V.IA., [1979, p.3191-3204, eng] 34-360
Glacier flow; simple mathematical models related to the gas content of glaciers. Berner, W., [1979, p.57-70, ger] 34-362
Sliding of ice. Hutter, K., [1979, p.71-92, ger] 34-363
Nonlinear analysis of a simple sea ice-ocean temperature oscillator model. Moritz, R.E., [1979, p.4916-4920, eng] 34-412
Theory of melting ice drift. Ovsienko, S.N., et al, [1979, p.1066-1070, rus] 34-524
Random differential equations as models of ecosystems 3. Bayesian inference for parameters. Tiwari, J.L., et al, [1978, p.247-258, eng] 34-533
Dynamic thermodynamic sea ice model. Hibler, W.D., III, [1979, p.815-846, eng] 34-741
Numerical simulation of jet roof geometry for snow cornice control. Dawson, K.L., et al, [1979, 19p., eng] 34-778
Ice cover parametrization in global models of ocean-atmosphere interactions. Belevich, M.IU., [1979, p.91-97, rus] 34-804
Grain-size influence on effective modulus of ice. Sinha, N.K., [1979, p.65-79, eng] 34-924
Infiltration into soil with precipitation of arbitrary intensity. Kutuzova, G.B., [1979, p.142-148, rus] 34-1085
Frost formation on an airfoil: a mathematical model 1. Dietenberger, M., et al, [1979, 80p., eng] 34-1114
Model of snow line shifting on a glacier surface during ablation periods. Konovalov, V.G., [1979, p.130-138, rus] 34-1136
Calculating and forecasting glacier ablation in Central Asia. Konovalov, V.G., [1979, 232p., rus] 34-1139
Crust behavior in simultaneous melting and freezing on a submerged flat plate. Ganguli, A., et al, [1978, 51p., eng] 34-1173
On the application of existing models of movement to calculating the velocity fields of mountain glaciers (for example, the Central Tujuksu Glacier). Tulina, T.U., [1974, p.192-207, eng] 34-1197
Soil freezing—physical study and mathematical models. Aguirre-Puente, J., et al, [1978, p.99-107, fre] 34-1261
Bearing capacity of sea ice. Murat, J.R., [1978, 408p., fre] 34-1301
Investigation of the two-phase, moving boundary system, with convection at the solid-liquid interface. Nansteel, M.W., [1979, 145p., eng] 34-1362
Mathematical modeling of thermal stresses in concrete structures on rock foundations. Rukavishnikova, T.N., et al, [1979, p.56-66, rus] 34-1525
Modeling transportation connections between starting points and economic development areas. Adzhiev, M.E., [1979, p.105-108, rus] 34-1631
Numerical investigation of the Bering Sea circulation using a linear homogeneous model. Han, Y.-J., et al, [1979, 37p., eng] 34-1729
CO2-climate sensitivity study with a mathematical model of the global climate. Manabe, S., et al, [1979, p.491-493, eng] 34-1761
Lower limit of application of hydrodynamic model of ice drift. Khelsin, D.E., et al, [1979, p.154-157, eng] 34-1894
Determination of winter accretion of ice in leads with consideration of hummocking. Alekseev, G.V., et al, [1979, p.158-163, eng] 34-1896
Preliminary mathematical model for reconstruction of past climate based on glaciological reference data on the antarctic ice sheet. Efimov, V.A., [1979, p.5-11, rus] 34-1996
Univariate model of the seasonal pyeno-wedge and homogeneous layer in the Arctic Basin. Ponomarev, V.I., [1979, p.37-47, rus] 34-1997
Modeling annual variations in ice conditions of the Arctic Basin. Baranov, G.I., et al, [1979, p.48-56, rus] 34-1998
Short range numerical forecasts of ice processes. Maslovskii, M.I., [1979, p.57-62, rus] 34-1999
Capture of long ocean waves by heterogeneities of ice cover. Odulo, A.B., [1979, p.72-76, rus] 34-2001
Unstabilized oscillations of drifting ice cover caused by periodic disturbances in an inhomogeneous sea. Bukatov, A.E., et al, [1979, p.77-84, rus] 34-2002
Asymmetric dynamics of ice cover. Ivchenko, V.O., et al, [1979, p.99-106, rus] 34-2003
Radiative melting of ice layer adhering to a vertical surface. Sedi, N., et al, [1979, p.137-144, eng] 34-2046
Growth of ice in a saltwater drop falling in an organic phase. Bustany, S.T., et al, [1979, p.439-446, eng] 34-2428
Monte Carlo simulation of iceberg impact probabilities. Reddy, D.V., et al, [1980, p.293-297, eng] 34-2451
Dimensional modelling of icebergs. Benedict, C.P., [1980, p.299-306, eng] 34-2452
Soil freezing and highway construction. [1978, 105p., eng] 34-2480
Ferroelectric transition in hexagonal ice Ih. Hentschel, H.G.E., [1979, p.401-411, eng] 34-2504
Mechanical energy considerations in sea-ice dynamics. Coon, M.D., et al, [1979, p.377-389, eng] 34-2839
Use of a rational model in the mathematical analysis of a polythermal glacier. Fowler, A.C., [1979, p.443-456, eng] 34-2844
Correct formulation of problems on modeling physical processes and particle distribution in hail-storm clouds. Zhekamukhov, M.K., et al, [1979, p.3-13, rus] 34-2875
Searching for optimal parameters of a problem in soil moisture transfer. Islamov, K.A., [1979, p.18-22, rus] 34-2880
Second order iterative approximation scheme for calculating dry snow characteristics. Trofimova, E.B., et al, [1979, p.88-97, rus] 34-2885
Thermal regime of the Antarctic ice sheet along the flow line: ice divide-Vostok Station-Byrd Glacier. Barbash, V.R., [1979, p.86-95, rus] 34-3123
Modelling the processes of river runoff formation. Kuchment, L.S., [1980, 143p., rus] 34-3188
Mathematical model to correlate frost heave of pavements with laboratory predictions. Berg, R.L., et al, [1980, 49p., eng] 34-3200
Snow cover and precipitation in the mountains of Central Asia. Getker, M.I., ed, [1978, 98p., rus] 34-3344
More exact definition of mathematical model parameters of snow cover formation in mountains. Borovikova, L.N., et al, [1978, p.34-40, rus] 34-3348
Time-dependent feedback system involving sea-ice extent, ocean temperature, and CO2. Saltzman, B., et al, [1980, p.93-118, eng] 34-3366
Using gamma logging for snow density measurement on mountain slopes. Bagov, M.M., et al, [1980, p.82-86, rus] 34-3422
Mobile net technique for numerical solution of the equations of heat and moisture transfer in soils. Khimin, N.M., [1980, p.72-81, rus] 34-3461
Shore ice pile-up and ride-up: field observations, models, theoretical analyses. Kovacs, A., et al, [1980, p.209-298, eng] 34-3631
Numerical modeling of sea ice in the seasonal sea ice zone. Hibler, W.D., III, [1980, p.299-356, eng] 34-3632
Possibilities of linear models for calculating glacial runoff hydrographs. Freidlin, V.S., [1979, p.149-155, rus] 34-3705
Mathematical model of water infiltration into frozen soil. Motovilov, IU.G., [1978, p.62-66, eng] 34-3966

Meadow soils

Ecological profile. [1978, 118p. + maps, eng] 34-20
Fertility of cryogenic meadow-chernozem soils in the Yeravninskaya Basin (Buryat ASSR). Abasheeva, N.E., et al, [1979, p.159-167, rus] 34-451
Productivity of soils in meadow biogeocenoses of recultivated dredging areas in the Central Urals. Nakariakov, A.V., et al, [1979, p.106-123, rus] 34-950
Taking inventory of natural grasslands by large-scale surveys of the Ob'-Irtysh floodplain, Tyumen' Region. Aseeva, A.I., [1979, p.57-80, rus] 34-1102
Microbiological characteristics of cryogenic meadow-chernozem soils in the Eravnin Basin, the Buryat Autonomous Republic. Nimaeva, S.Sh., et al, [1979, p.10-17, rus] 34-1439
Ecologic-cenotic peculiarities of meadow-steppes cryophytes in Central Transbaikal. Dulepova, B.I., et al, [1979, p.1332-1340, rus] 34-1450
Changes in moisture and thermal regimes of cryogenic soils in Central Yakutia during agricultural development. Gavril'ev, P.P., [1979, p.130-147, rus] 34-1520
Microbic associations and their functions in West Siberian soils. Klevenskaia, I.L., ed, [1979, 286p., rus] 34-1805
Microbic associations in soils of biogeocenoses of the Baraba Plain. Klevenskaia, I.L., et al, [1979, p.22-60, rus] 34-1807
Effect of development on the biologic activity of chernozems and chernozem-meadow alpine soils of the Altais. Gauert, V.I., [1979, p.154-165, rus] 34-1811
Role of mineral fertilizers in the increase of productivity of cryogenic soils in Eastern Transbaikal. Gershevich, E.G., et al, [1975, p.161-162, rus] 34-1860
Role of vegetational cover in the development of cryogenic biogeocenoses. Makeev, O.V., et al, [1975, p.164-165, rus] 34-1861
Agricultural development of the Ob'-Irtysh flood plain meadows in northern Tyumen'. Aseeva, A.I., [1978, p.123-127, rus] 34-2251
Biogeocenologic studies in planted meadows of East-European tundra. Archegova, I.B., ed, [1979, 190p., rus] 34-2306
Ecologic fundamentals of forestry in the Lake Baykal Basin. Polikarpov, N.P., et al, [1979, p.52-57, rus] 34-4093
Enrichment of cultivated tundra meadow grasses with wild legumes. Kotelina, N.S., et al, [1979, p.37-38, rus] 34-4222

Measurement

Committee on Icing Forecasts of the Aircraft Icing Specialists Workshop, 19-21 July 1978, Lewis Research Center, NASA, Cleveland, Ohio. Hilsenrod, A., et al, [1979, p.796-799, eng] 34-652
Snow accumulation and distribution. Gray, D.L., et al, [1979, p.3-33, eng] 34-1002
Comparability of snowfall and snow cover data in a southern Ontario basin. Goodison, B.E., [1979, p.34-43, eng] 34-1003
Proceedings of the 47th annual meeting. [1979, 118p., eng] 34-1049
Mass balance of the Dzhankuat Glacier from 1967-1971 and the methods used to measure and calculate it. Golubev, G.N., et al, [1974, p.173-191, eng] 34-1196
Role of the internal seepage alimentation in the mass balance of glaciers and methods for determining it. Bazhev, A.B., [1974, p.492-521, eng] 34-1213
Direct measurement of basal water pressures: progress and problems. Hodge, S.M., [1979, p.309-319, eng] 34-2241

See also: Acoustic measurement; Bathymetry; Calorimetry; Flow measurement; Geothermometry; Laboratory techniques; Radiometry; Remote sensing; Spectroscopy; Temperature measurement; Velocity measurement

Measuring instruments

Accuracy of snow samplers for measuring shallow snowpacks an update. Goodison, B.E., [1978, p.36-49, eng] 34-30
Hydraulic characteristics of snow lysimeters. Wankiewicz, A., [1978, p.105-116, eng] 34-36
Gravity measurements of the ice on the Bothnian Bay. Lehmuskoski, P., et al, [1978, p.101-123, eng] 34-45
Preliminary assessment of an ice accretion system. Tattelman, P., [1979, p.53-56, eng] 34-58
Measuring visibility in blowing snow. Schmidt, R.A., [1979, p.200-207, eng] 34-81
Use of tethered radiosondes in the Aktru mountain glacier basin. Slutskii, V.I., et al, [1978, p.82-86, rus] 34-109
Accuracy of using floats in measuring water discharge of small mountain rivers. Chirkova, A.A., et al, [1973, p.115-128, rus] 34-111
Analysis of ocean currents Davis Strait 1977. Osborn, T.R., et al, [1978, 2 vols., eng] 34-307
Ice and current measurements program Beaufort Sea [1970, c.65p., eng] 34-595
Automatic weather station for operating in severe icing climates. Baker, B., et al, [1979, p.734-738, eng] 34-699
Frost gauges and freezing gauges. Banner, J.A., et al, [1979, 18p., eng] 34-779
Arctic odyssey: five years of data buoys in AIDJEX. Martin, P., et al, [1976, p.328-334, eng] 34-821
Snow cover in the USSR. Kopanev, I.D., [1978, 181p., rus] 34-846
Optical methods of studying oceans and inland water bodies. Galazii, G.I., ed, [1979, 373p., rus] 34-875
Apparatus for studying radiation temperature at the ocean surface. Novogrudskii, B.V., et al, [1979, p.241-245, rus] 34-879
Horizontal irradiation in the visible spectrum under ice in the Ivano-Arakhley lakes (Transbaikal). Vologdin, M.P., et al, [1979, p.274-281, rus] 34-880
Deployment and retrieval of linear hydrophone arrays and seismometers under Arctic ice. Gay, S.M., Jr, et al, [1976, 97p., eng] 34-1376

Measuring instruments *(cont.)*

Radioactive isotope instruments for measuring bearing ground compaction. Kliushkin, V.K., et al, [1979, p.15-16, rus] **34-1721**

Tidal flexure of ice shelves measured by tiltmeter. Stephenson, S.N., et al, [1979, p.496-497, eng] **34-1762**

Steel-ice friction coefficients from field and laboratory research. Grothues-Spork, H., [1977, p.17-24, ger] **34-1935**

High accuracy phototachymeters for studying glacier movement. Volkonskii, B.V., et al, [1979, p.173-178, rus] **34-2200**

Simulated glacier sliding over an obstacle. Brepson, R., [1979, p.143-156, eng] **34-2228**

International conference on meteorology of the Carpathian Mountains. Proceedings. [1979, 415p., rus] **34-2299**

Hoarfrost-ice deposits in West Carpathian Uplands. Ostrožlík, M., [1979, p.363-371, rus] **34-2305**

Gamma dose rate test report for subsystem level evaluation of the ice detector B-1 program. Richardson, T.D., [1977, 28p., eng] **34-2366**

Airflow effects on riming measurements by a wing tip-mounted detector on MC130E research airplane. Norment, H.G., [1979, 40p., eng] **34-2370**

Remote sensing of snow and ice. Meier, M.F., [1979, 54p., eng] **34-2473**

Glacier flow measuring instrument. Reimann, R., [1979, p.182-186, ger] **34-2717**

Instruments for determining soil density and moisture content. Gorelik, A.M., et al, [1980, p.8-9, rus] **34-2851**

Radioactive isotope technique of studying density and moisture content of landslide slopes. Kornienko, N.D., et al, [1979, p.112-116, rus] **34-2972**

Equipment report. [1975, 21p., eng] **34-3097**

Ice movement. [1975, 333p., eng] **34-3098**

Use of AC current surveys in permafrost studies. Avetikian, IU.A., [1980, p.43-56, eng] **34-3236**

Data units for telemetering physical and mechanical properties of snow cover on slopes. Bagov, M.M., et al, [1980, p.67-74, rus] **34-3420**

Snow and avalanche loads on remote-control snow surveying installations. Bagov, M.M., et al, [1980, p.75-81, rus] **34-3421**

Using gamma logging for snow density measurement on mountain slopes. Bagov, M.M., et al, [1980, p.82-86, rus] **34-3422**

Vibration of measuring equipment in the study of the ocean microstructure under the drifting ice. Gusev, A.V., et al, [1975, p.237-238, eng] **34-3433**

D-type snow depth recorder using optical fibers. Aburakawa, H., [1979, p.73-79, jap] **34-3493**

Instruments for aerial gamma survey of snow cover and soil moisture. Bogachev, A.D., et al, [1980, p.73-76, rus] **34-3550**

Determining snow depth on winter crop fields from aerial gamma survey data. Shilin, G.V., [1980, p.77-93, rus] **34-3551**

Method and instruments for measuring snow water reserves in mountains based on cosmic ray records. Avdiushin, S.I., et al, [1980, p.94-101, rus] **34-3552**

Airborne gamma surveys of soil moisture in agricultural fields. Andreev, F.A., et al, [1980, p.108-116, rus] **34-3554**

Using an infrared radiometer for measuring thermal properties of clouds. Sin'kevich, A.A., [1979, p.105-111, rus] **34-3575**

Radioactive isotope techniques in controlling quality of work and investigations when building foundations and underground structures. Smorodinov, M.I., [1980, 168p., rus] **34-3866**

See also: Borehole instruments; Lasers; Lidar; Moisture meters; Penetrometers; Precipitation gages; Radar; Radiation measuring instruments; Telemetering equipment

Mechanical ice prevention

See: Ice removal

Mechanical properties

Investigation of stress, temperature, and time dependent strains in a randomly oriented fiber reinforced composite with special emphasis given to thermal stress situations. Caulfield, E.M., [1979, 94p., eng] **34-605**

Relation between the frost resistance and the mechanical and petrometric characteristics of a terra cotta fragment. Fontaine, T., [1979, p.197-211, fre] **34-2325**

Mechanical properties of rocks in the active layer of the "Mirnyi" [illegible] Vyalov, V.V. [illegible] [1979, p.201-204, rus] **34-4136**

See also: Ice mechanics; Rock mechanics; Snow mechanics

Mechanical tests

Ice crushing tests, 1973. Taylor, T.P., [1973, p.64p. + figs., eng] **34-482**

Preliminary tests of bird-scare devices on the Beaufort Sea coast. Sharp, P.L., [1978, 43p., eng] **34-489**

Metallurgical examination of some ice screws. Redfern, R.M., [1979, p.23-29, eng] **34-3681**

Meetings

Proceedings of the 35th annual meeting. [1978, 218p., eng] **34-26**

Proceedings. [1979, 355p., eng] **34-49**

Improvement and development of water supply and waste drainage systems in Siberia, the Far East, Far North and BAM area. [1979, p.30-31, rus] **34-246**

Workshop on coastal research and planning in Labrador. Rosen, P.R., ed, [1978, 66p., eng] **34-319**

Conference in Tyumen' Nurmiev, G.N., [1979, p.26, rus] **34-501**

Environmental Standards for Northern Regions: a symposium, June 1974, Anchorage, Alaska. Smith, D.W., ed, [1975, 389p., eng] **34-630**

Committee on Icing Forecasts of the Aircraft Icing Specialists Workshop, 19-21 July 1978, Lewis Research Center, NASA, Cleveland, Ohio. Hilsenrod, A., et al, [1979, p.796-799, eng] **34-652**

Alaska Mining and Water Quality: proceedings of the symposium. [1979, 82p., eng] **34-770**

Report of the Joint U.S.-Canadian Northern Civil Engineering Research Workshop. Carlson, R.F., ed, [1978, 72p., eng] **34-771**

Mountain geology and land-use implications, proceedings of the symposium of the International Geographical Union, Commission on High-altitude Geoecology, Caucasus Mountains, USSR, July 1976. Ives, J.D., ed, [1978, p.159-548, eng] **34-790**

Program and abstracts [1978, c50p., ger] **34-813**

Eliminating seasonal fluctuations in construction. Fedorov, V., [1979, p.31-32, rus] **34-839**

Workshop on the Bearing Capacity of Ice Covers, 16-17 October 1978, Winnipeg, Manitoba [1979, 253p., eng] **34-919**

Proceedings of a Meeting on Modeling of Snow Cover Runoff, 26-28 September 1978, Hanover, New Hampshire. [1979, 432p., eng] **34-1001**

Proceedings of the 47th annual meeting. [1979, 118p., eng] **34-1049**

Discussion on methods of concreting in the North. Ostryi, V.M., [1979, p.34, rus] **34-1184**

Modern training in frozen ground excavation. Gusakov, B.P., [1979, p.22-23, rus] **34-1188**

Mountain 79. [1979, p.9-93, eng] **34-1241**

Proceedings. [1978, 945p., eng] **34-1367**

International Symposium on Wastewater Treatment in Cold Climates, University of Saskatchewan, August 22-24, 1973. Davis, E., ed, [1974, 595p., eng] **34-1465**

Report from the working group on noncorrosive methods of ice control. [1979, p.41-55, eng] **34-1585**

Proceedings, Vol.2. [1979, 255p., eng] **34-1678**

Highway ice and snow removal and deicing salt problems at Lake Tahoe. Foster, D., [1975, p.3-17, eng] **34-1753**

Proceedings. [1979, 180p., eng] **34-2145**

International symposium on computation and forecasting of runoff from glaciers and glaciated areas. Chizhov, O.P., [1979, p.13-19, rus] **34-2175**

Workshop on the world glacier inventory and meeting of the snow and ice commission in Switzerland. Kotliakov, V.M., et al, [1979, p.19-24, rus] **34-2176**

Proceedings. [1979, p.1-445, eng] **34-2219**

Permafrost research activities: a worashop. Péwé, T.L., [1978, p.321-326, eng] **34-2391**

Plant cold hardiness and freezing stress: mechanisms and crop implications. Li, P.H., ed, [1978, 416p., eng] **34-2426**

Proceedings. [1980, p.167-306, eng] **34-2439**

Cracks, movements and joints in buildings: record of the DBR Building Science Seminar, Autumn 1972. [1976, c125 leaves, eng] **34-2603**

Proceedings. [1979, 520p., eng] **34-2812**

Report on Soviet glaciological studies in 1975-1978. [1979, p.5-34, rus] **34-3116**

Fourth meeting of the Editorial Board of the *World atlas on snow and ice resources.* [1979, p.69-72, rus] **34-3120**

Glaciology at the Fourteenth Pacific Science Congress. Vtiurin, B.I., [1979, p.258, rus] **34-3150**

All-Union scientific-technical conference on hydrotechnical construction in regions of permafrost and rigorous climate (CHC-78). Kudoiarov, I.I., et al, [1980, p.724-726, eng] **34-3375**

International Workshop on the Seasonal Sea Ice Zone, Monterey, California, Feb. 26-Mar.1, 1979. Andersen, B.G., ed, [1980, 357p., eng] **34-3624**

Overview (International Workshop on the Seasonal Sea Ice Zone). Weeks, W.F., [1980, p.1-35, eng] **34-3625**

Workshop of the Glaciology Section and tutorial seminar, Zvenigorod, June 1979. Barbash, V.R., [1979, p.5-29, rus] **34-3684**

Resolutions of the Glaciology Section workshop, June 1979. [1979, p.29-33, rus] **34-3685**

All-Union seminar on the organization of avalanche service. Grishchenko, V.F., et al, [1979, p.33-36, rus] **34-3686**

Icebergs: technology for the future. Huppert, H.E., [1980, p.67-68, eng] **34-3899**

Permafrost in Western Canada: a report of the Third International Permafrost Conference. Péwé, T.L., [1979, p.119-125, eng] **34-3981**

Workshop on the Status and Future of Ice Core Research and Ice Core Data (Boulder, Colorado, 24-26 September 1979). [1980, p.5-14, eng] **34-4022**

Workshop on Environmental Protection of Permafrost Terrain. Brown, J., et al, [1980, p.30-36, eng] **34-4198**

Proceedings of the 36th annual meeting. [1979, 149p., eng] **34-4201**

Results of Snow Survey Schedule Committee Questionnaire. Hansen, P.L., et al, [1979, p.141-147, eng] **34-4212**

Melting

Roof response to icing conditions. Lane, J.W., et al, [1979, 40p., eng] **34-625**

Molten state of matter: melting and crystal structure. Ubbelohde, A.R., [1978, 454p., eng] **34-789**

Crust behavior in simultaneous melting and freezing on a submerged flat plate. Ganguli, A., et al, [1978, 51p., eng] **34-1173**

Variational analysis of freezing or melting in a finite medium subject to radiation and convection. Yeh, L.T., et al, [1979, p.592-597, eng] **34-1499**

Forced-convection heat transfer from irregular melting wavy boundaries. Hsu, K.-S., et al, [1979, p.598-602, eng] **34-1500**

Melting points

Melting curve of ice VII. Mishima, O., et al, [1978, p.4417-4418, eng] **34-371**

Intrinsic surface disorder in ice near the melting point. Golecki, I., et al, [1978, p.4229-4237, eng] **34-408**

Meltwater

Thermal regime of a prairie snowcover. Granger, R.J., et al, [1977, p.839-842, eng] **34-476**

Flow of ice over a till bed. Jones, A.S., [1979, p.393-395, eng] **34-553**

Power from glaciers: the hydropower potential of Greenland's glacial waters. Partl, R., [1977, 54p., eng] **34-653**

Effect of cryogenic processes on the formation of gold-scattering water flows. Plusnin, A.M., et al, [1979, p.700-703, rus] **34-811**

Differences in the formation of spring runoff in forests of the European USSR. Krestovskii, O.I. et al, [1979, p.3-14, rus] **34-1076**

Forecasting spring water inflow into the Kama reservoir allowing for rainfall. Liapunova, I.B., et al, [1979, p.15-25, rus] **34-1077**

Spring runoff from small drainage basins of the Dubovskaya hydrometeorological station. Bystrov, A.V., [1979, p.26-38, rus] **34-1078**

Meltwater losses in forests due to absorption by tree bark. Krestovskii, O.I., et al, [1979, p.87-91, rus] **34-1081**

Accuracy of determining soil freezing depth at observation points. Sokolova, N.V., [1979, p.122-128, rus] **34-1083**

Electrolytic conductivity of water, snow and ice in the basin of the Kolka Glacier. Fleetwood, A., [1974, p.387-395, eng] **34-1207**

Hydrochemistry of meltwaters draining from an alpine glacier. Collins, D.N., [1979, p.307-324, eng] **34-1284**

Some data on mesoclimate in glacier areas. Lang, H., [1979, p.155-167, ger] **34-1324**

Subsurface drainage in Siberia and methods of its investigation. Shen'kman, B.M., ed, [1979, 136p., rus] **34-1936**

Role of naleds in chemical element migration in water. Ivanov, A.V., [1979, p.41-66, rus] **34-1937**

Deuterium and snow hydrology. Judy, C.H., [1971, 107p., eng] **34-2066**

Deuterium and tritium concentrations in the runoff from a glaciated basin in relation to weather. Ambach, W., et al, [1978, p.581-585, ger] **34-2074**

Models for the runoff from a glaciated catchment area using measurements of environmental isotope contents. Behrens, H., et al, [1979, p.829-846, eng] **34-2077**

Sediment concentration in melt waters as an indicator of erosion processes beneath an alpine glacier. Collins, D.N., [1979, p.247-257, eng] **34-2236**

Subglacial constructions and investigations at Bondhusbreen, Norway. Wold, B., et al, [1979, p.363-379, eng] **34-2245**

Contributions from the Shinjo Branch, No.1 (1969-1979) [1979, Var.p., jap] **34-2539**

Climatological water balance in the Shinjo basin. Higashiura, M., [1979, p.95-109, jap] **34-2547**

Ground water in the Shinjo basin. Higashiura, M., [1979, p.165-174, jap] **34-2548**

Observational data of ground water in the Shinjo basin (1): Shallow ground water level and water temperature. Higashiura, M. et al [1979, p.1-64, jap] **34-2557**

Modelling the processes of river runoff formation. Kuchment, L.S., [1980, 143p., rus] **34-3188**

Roof leaks in cold regions: school at Chevak, Alaska. Tobiasson, W., et al, [1980, 12p., eng] **34-3327**

Application of satellite data for snow mapping in Norway. Odegaard, H.A., et al, [1980, p.93-106, eng] **34-3515**

Graphical method of stream runoff prediction from LANDSAT derived snowcover data for watersheds in the upper Rio Grande basin of Colorado. Moravec, G.F., et al, [1980, p.171-183, eng] **34-3519**

Saline discharge at the snout of Taylor Glacier, Antarctica. Keys, J.R., [1979, p.20-21, eng] **34-3675**

Using hydrochemical data from mountain-glacier basins in glaciological and hydrological computations. Zaslavskaia, M.B., et al, [1979, p.187-192, rus] **34-3712**

Distribution of sea ice meltwater in the eastern Canadian Arctic. Tan, F.C., et al, [1980, p.1925-1932, eng] 34-3895

Mathematical model of water infiltration into frozen soil. Motovilov, IU.G., [1978, p.62-66, eng] 34-3966

Hydrochemical regime of the Severtsov glacier. Kamalov, L.F., [1978, p.74-76, eng] 34-3968

Channel development in snow-filled valleys, Resolute, N.W.T., Canada. Woo, M.-K., et al, [1980, p.37-56, eng] 34-4191

Drainage systems associated with snowmelt, South Shetland Islands, Antarctica. Birnie, R.V., et al, [1980, p.57-62, eng] 34-4192

More precise definitions and additions to the "Instructions for determination of the SN 435-72 design hydrologic characteristics" (Discussion of Construction Norms). Kagan, B.IA., [1979, p.1223-1226, rus] 34-4253

See also: Snowmelt

Metal ice friction

Expansion joints in highway bridges. Shesterikov, V.I., [1978, 151p., rus] 34-886

Study on occurring condition of metallic inclusions in anti-snow type composition brake shoes which cause the hollowing wear at wheel treads. Idemura, K., et al, [1977, p.45, eng] 34-2656

Effect of sample length on uniaxial compressive strength of sea ice. Nohguchi, Y., et al, [1979, p.129-133, jap] 34-3498

Modelling the interaction between ice and ships. Edwards, R.Y., Jr., [1980, p.60-81, eng] 34-3733

Metals

Influence of thermal stresses on brittle failure of deep metal silos. Shafrai, S.D., [1979, p.34-38, rus] 34-126

Testing weldability of metals at subzero temperatures. Sleptsov, O.I., [1975, p.125-128, rus] 34-233

Methods of studying abrasion strength of materials at low temperatures. Koval'chuk, V.A., [1974, p.26-27, rus] 34-377

Abrasive wear at subzero temperatures. Kogan, IU.I., et al, [1974, p.27-31, rus] 34-378

Abrasive strength of technically pure metals at low temperatures. Koval'chuk, V.A., [1974, p.56-60, rus] 34-380

Developing high impact-abrasion strength fuse-on metals. Razikov, M.I., et al, [1974, p.135-139, rus] 34-384

Laboratory testing of wear resistant alloys at subzero temperatures. Grinberg, N.A., et al, [1974, p.140, rus] 34-385

Selecting fuse-on metals for rapidly wearing details of construction and excavation machines working at subzero temperatures. Suslov, A.A., [1974, p.141-143, rus] 34-386

Technological means of increasing wear resistance of fused-on metals. Ermolaev, S.V., [1974, p.143-146, rus] 34-387

Wear of machines working at low temperatures. Kashcheev, V.N., et al, [1974, p.183-188, rus] 34-391

Relation between shear strength of ground adfreezing and the surface roughness of materials. Shusherina, E.P., et al, [1979, p.30-39, rus] 34-1536

Thermal stresses in trapezoidal layered panels with corrugated facing. Chaplinskiĭ, I.A., et al, [1979, p.39-45, rus] 34-1719

Light metal structures for industrial buildings and their installation. Abramovich, K., et al, [1979, p.24-27, rus] 34-1774

Improving the design of supports for overhead power lines of and exceeding 500 kv. Peterson, L.L., et al, [1979, p.48-51, rus] 34-1851

Mechanical properties of metals depending on temperature and deformation rates. Chaplinskiĭ, I.A., et al, [1979, p.31-35, rus] 34-2617

Metallurgical examination of some ice screws. Redfern, R.M., [1979, p.23-29, eng] 34-3681

See also: Aluminum; Gold; Steels

Metamorphism (snow)

Symmetry as a methodological basis for the analysis of snow structure and metamorphism. Kolomyts, E.G., [1979, p.3-26, rus] 34-606

Energy required for the formation of liquid spherical layers on globular nuclei and thermodynamic equilibrium conditions of ice-water-vapor systems. Badakhov, Kh.I., [1979, p.27-34, rus] 34-607

Results of studying thermal regime of snow cover. Bolov, V.R., et al, [1979, p.35-48, rus] 34-608

Snow classification in support of off-road vehicle technology. Irwin, G.J., [1979, 29p., eng] 34-1113

Deuterium and snow hydrology. Judy, C.H., [1971, 107p., eng] 34-2066

Snow cover metamorphism on the glacier slope near the Molodezhnaya oasis. Voĭtkovskiĭ, K.F., [1979, p.97-105, rus] 34-2216

Snow cover of the Kirgiz Highlands. Dikikh, A.N., [1978, 101p., rus] 34-2668

Origin of ground ice deposits in the Muysk Basin. An, V.V., [1978, p.46-57, rus] 34-2945

Program and guide for compilation of the applied part of the *World atlas of snow and ice resources.* [1979, p.35-63, rus] 34-3117

Water-ice balance of Spitsbergen glaciers in the 1976-77 balance year. Gus'kov, A.S., [1979, p.211-214, rus] 34-3142

Results of a numerical experiment of calculating physical characteristics of dry snow. Trofimova, E.B., [1978, p.26-33, rus] 34-3347

Subsistence regime of quasi-glacier snow patches. Glazyrin, G.E., [1977, p.80-91, rus] 34-3383

Snow physics, avalanches, mudflows. Zalikhanov, M.Ch., ed, [1980, 160p., rus] 34-3411

Snow cover development and its dependence on winter temperature and slope exposition in the El'brus Mountain area. Kunaeva, G.M., et al, [1980, p.3-12, rus] 34-3412

Friable zones in snow cover and their meaning in avalanche formation. Bolov, V.R., et al, [1980, p.21-28, rus] 34-3414

Thickness of fluid film on ice crystal surfaces. Badakhov, Kh.I., [1980, p.57-66, rus] 34-3419

See also: Snow recrystallization

Meteorological charts

Daily snow accumulation in Belorussia. Volobueva, G.V., [1979, p.58-66, rus] 34-1818

Regionalization of the USSR according to icing. Rudneva, A.V., [1979, p.86-91, rus] 34-1822

Classifying synoptic processes in East Arctic regions during cold periods. Dmitriev, A.A., [1979, p.23-25, rus] 34-3528

Calculating regime characteristics of surge waves from standard wind field data. Dzheniuk, S.L., [1980, p.21-29, rus] 34-4179

Meteorological data

Snow cover suitability percentiles for skiing and snowmobiling. Crowe, R.B., [1978, p.129-140, eng] 34-38

Environmental conditions off the east coast of Canada: Sites 3 (54N, 54W), 4 (49N, 48W), and 5 (47N, 47W). Denard, M., [1977, 96p., eng] 34-308

Environmental conditions off the east coast of Canada: Godthaab, Greenland. Danard, M., [1978, 13p., eng] 34-309

Ice and meteorological observations in the Davis Strait during April, May and June 1977 for Imperial Oil Limited. [1977, var. p., eng] 34-310

Canadian Arctic field survey, May 17-June 23, 1969. Atwater, R.K., et al, [1969, 35p. + append., eng] 34-322

Arctic environmental observations M/V Arctic Explorer. [1974, 37p. + logs, eng] 34-423

Davis Strait ice and oceanographic observations, Winter 1976-77. [1977, 96p. + append., figs., and tables, eng] 34-427

Programs for weather type indices used in the computer processing of snow and avalanche information. Grakovich, V.F., et al, [1979, p.70-81, rus] 34-611

Automated systems for collecting snow and avalanche information. Bolov, V.R., [1979, p.82-86, rus] 34-612

Documentation of soil characteristics and climatology during five years of wastewater application to CRREL test cells. Iskandar, I.K., et al, [1979, 82p., eng] 34-743

Interactions between the atmospheric boundary layer and a snow surface. Halberstam, I.M., et al, [1979, p.154-166, eng] 34-1015

Energy balance and snowmelt in a deciduous forest. Hendrie, L.K., et al, [1979, p.211-221, eng] 34-1019

Is the soil frozen or not—an algorithm using weather records. Cary, J.W., et al, [1979, p.319-327, eng] 34-1029

Development of a meteorological and oceanographic drifting buoy system. Hall, J.M., et al, [1975, p.56-69, eng] 34-1229

SYNRAMS ice station. Burke, S.P., et al, [1975, p.413-417, eng] 34-1232

Alaska's weather and climate: a collection of articles written for the educated layman by staff members of the Geophysical Institute and the National Weather Service in Alaska. Wendler, G., ed, [1979, 153p., eng] 34-1302

Glaciological investigations in Norway 1978. Wold, B., ed, [1979, 71p., eng] 34-1336

Prototype overland flow test data: June 1977-May 1978. Jenkins, T.F., et al, [1979, 91p., eng] 34-1599

Seasat Gulf of Alaska Workshop report. Executive summary. Born, G.H., et al, [1979, 42p., eng] 34-1734

Lake Champlain ice formation and ice free dates and predictions from meteorological indicators. Bates, R.E., et al, [1979, 21p., eng] 34-1745

Methods of determining and presenting climatological data for structural design. Kobysheva, N.V., et al, [1979, p.3-8, rus] 34-1815

Using climatic data in structural design. Kobysheva, N.V., et al, [1979, p.9-16, rus] 34-1816

Calculating the icing of tall structures from indirect data. Glukhov, V.G., et al, [1979, p.67-73, rus] 34-1819

Possibility of long-range forecasting of oceanographic conditions of the Kara Sea. IAnes, A.V., [1979, p.16-21, eng] 34-1898

Analysis and prediction of freeze-over dates of Minnesota lakes using LANDSAT imagery and weather information. Fu, A.Y.K., [1979, 188p., eng] 34-2474

Winter environmental data survey of the drainage basin of the upper Susitna River, Alaska. Bilello, M.A., [1980, 30p., eng] 34-2725

Multiple causes of the North American abnormal winter 1976-77. Namias, J., [1978, p.279-295, eng] 34-3719

Recent fluctuations in meteorological and oceanographic parameters in Alaska waters. Biebauer, H.J., [1980, 34p., eng] 34-3766

Time-series modelling of avalanche activity from meteorological data. Salway, A.A., [1979, p.513-528, eng] 34-3788

Reconstruction of mass budget values of Hintereisferner with climatological data. Steinacker, R., [1979, p.101-104, ger] 34-3978

Summary of Great Lakes weather and ice conditions, winter 1977-78. Assel, R.A., et al, [1979, 123p., eng] 34-4075

Estimating water equivalent snow depth from related meteorological variables. Steyaert, L.T., et al, [1980, 39p., eng] 34-4199

Meteorological factors

Beaufort Sea summer ice study. Nolta, K.G., et al, [1970, c57p., eng] 34-558

Study of Beaufort Sea exploratory drilling systems. [1971, var. p., eng] 34-574

Arctic offshore pipeline feasibility study in Mackenzie River delta area. [1973, c530p., eng] 34-578

Effects of the annual migration of the antarctic pack-ice border on cyclonic storm activity over the Southern Ocean. Kachelhoffer, S.J., [1973, 49p., eng] 34-684

Snow accumulation and distribution. Gray, D.L., et al, [1979, p.3-33, eng] 34-1002

Antarctic ice topography and 150 mb circulation from the NIMBUS-6 TWERLE experiment. Levanon, N., et al, [1978, p.43-46, eng] 34-2035

Dependence of lake ice-covers on weather, snow and water. Fremling, S., [1977, 113p., swe] 34-2271

Palsas and other permafrost features in the lower Rock Creek Valley, west-central Alberta. Brown, G., [1980, p.31-40, eng] 34-2274

Western Ross Sea and McMurdo Sound ice forecasting guide. Perchal, R.J., [1975, 132p., eng] 34-2453

Recommendations for forecasting especially dangerous airmass icings in the Ukraine. Koshenko, A.M., [1977, p.13-20, rus] 34-2891

Ice condition variations near the southwestern shores of Greenland in connection with hydrometeorological processes of different scales. Mironov, E.U., [1979, p.47-62, rus] 34-2998

More exact definition of mathematical model parameters of snow cover formation in mountains. Borovikova, L.N., et al, [1978, p.34-40, rus] 34-3348

Forecasting fresh snow avalanches using discriminant analysis. Drozdovskaia, N.F., et al, [1977, p.148-156, rus] 34-3388

Some factors affecting spring snowmelt within Narrows Mountain Brook basin, a forested watershed in central New Brunswick. Gordon, A.M., [1979, p.53-67, eng] 34-4205

Mean 700 mb circulation patterns associated with the snowiest and least snowy winter months over the eastern United States. Wagner, A.J., [1979, p.75-94, eng] 34-4207

Meteorology

Environmental program Mackenzie delta, N.W.T. [1974, 9 parts, eng] 34-420

Problems of the Arctic and the Antarctic, collection of articles, Vol.46, 1975. Treshnikov, A.F., ed, [1979, 166p., eng] 34-1897

Antarctica; commission reports, vol.18. [1979, 215p., rus] 34-2214

Results of joint Soviet-American research in the Southern Ocean during POLEX-South-77. Savchenko, V.G., et al, [1979, p.5-15, rus] 34-3090

History of the Pevek Regional Administration of Hydrometeorology and Environmental Monitoring. Vlasov, E.G., et al, [1979, p.4-12, rus] 34-3526

Overview (International Workshop on the Seasonal Sea Ice Zone). Weeks, W.F., [1980, p.1-35, eng] 34-3625

Meteorology and climatology of the seasonal sea ice zone. Barry, R.G., [1980, p.133-156, eng] 34-3628

Annual report 1978-79. [1979, 190p., eng] 34-3982

Results of scientific investigations of the Murmansk branch of the Arctic and Antarctic Scientific Research Institute during 1972-1976. Terziev, F.S., [1980, p.6-12, rus] 34-4177

See also: Glacial meteorology; Marine meteorology; Synoptic meteorology; Weather

Methane

Methane addition to an Arctic lake in winter. Welch, H.E., et al, [1980, p.100-113, eng] 34-1880

Microanalysis

Sea ice tests. Nuttall, J.B., [1971, 34p., eng] 34-559

Microbiology

Cruise 77-1, February, 1977. Environmental aspects of the cruise to Davis Strait and the Labrador coast. [1977, var.p., eng] 34-426

Biological studies, offshore cruises 77-2 and 77-3, April-June, 1977 in the Davis Strait. [1978, var. p., eng] 34-428

Biological literature review of the Labrador Sea region. [1977, var.p., eng] 34-491

Primary data collected for the 1977 Davis Strait biological programme and analysed prior to December 1977. [1977, 2 vols., eng] 34-492

Preliminary nearshore environmental studies on southeast Baffin Island. [1977, var.p., eng] 34-495

Microbiology *(cont.)*
Long-term effects of land application of domestic wastewater, Roswell, New Mexico, slow rate irrigation site. Koerner, E.L., et al, [1979, 187p., eng] 34-1112
Limnology of subarctic Canadian lakes and some effects of impoundment. Duthie, H.C., [1979, p.145-158, eng] 34-1278
Bacterial aerosols from a field source during multiple-sprinkler irrigation: Dec Creek Lake State Park, Ohio. Bausum, H.T., et al, [1979, 64p., eng] 34-1381
Swedish experiences in sewage treatment. Ulmgren, L., [1974, p.45-63, eng] 34-1468
Extended aeration, clarification and anaerobic treatment cycle. Hughes, C.D., [1974, p.85-98, eng] 34-1470
Further field investigation on aerated lagoons in the city of Winnipeg. Girling, R.M., et al, [1974, p.99-124, eng] 34-1471
Psychrophiles in waste treatment. Henry, J.G., [1974, p.305-331, eng] 34-1480
Microbiological studies of the central antarctic ice sheet. Abyzov, S.S., et al, [1979, p.828-836, rus] 34-2290
Mechanism of winter blooming of microalgae in Peter the Great Bay (Sea of Japan). Vyshkvartsev, D.I., et al, [1979, p.53-54, eng] 34-2401
Environmental assessment of the Alaskan continental shelf, Vol.5, Receptors—Microbiology; Contaminant baselines. [1979, 698p., eng] 34-3048

Microclimatology
Microclimates of 9-story residential buildings in Noril'sk. Vas'kovskii, A.P., et al, [1979, p.12-13, rus] 34-242
Seasonal dynamics of thermal conditions and fir growth in the Angara River taiga area. Krauklis, A.A., et al, [1979, p.45-54, rus] 34-674
Classification of fire effects on the microclimate of forest and tundra ecosystems—final report. Rouse, W.R., et al, [1976, 21p., eng] 34-914
Microclimates. Wendler, G., et al, [1979, p.79-93, eng] 34-1308
Windows with double and triple layers of glass. Aleksandrov, IU.P., et al, [1979, p.10-12, rus] 34-1752
Using climatic data in structural design. Kobysheva, N.V., et al, [1979, p.9-16, rus] 34-1816
Role of vegetational cover in the development of cryogenic biogeocenoses. Makeev, O.V., et al, [1975, p.164-165, rus] 34-1861
Mountain landscape protection in Siberia. Krylov, G.V., ed, [1973, 251p., rus] 34-1863
Microclimatic variations and pine forest revegetation in relation to economic development of the Sayan low mountain belt. Gaas, A.A., [1973, p.78-87, rus] 34-1870
Problems in experimental landscape science. Krauklis, A.A., [1979, 232p., rus] 34-2103
Interpreting meso- and microclimatic peculiarities of large cities for urban planning (Novosibirsk taken as an example). Pivkin, V.M., [1979, p.48-54, rus] 34-2620
Cave glacier fluctuations in Kuznetskiy Alatau. Dmitriev, V.E., [1979, p.181-185, rus] 34-3137
Studying changes in permafrost conditions due to construction in the Ust'-Ilimsk area. Maksimova, L.N., et al, [1980, p.19-25, rus] 34-3280
Impact of "extreme" events on the Dry Valleys area. Chinn, T.J.H., [1979, p.9-13, eng] 34-3678
Compiling 1:3 000 000 glacioclimatic maps for the World Atlas of Snow and Ice Resources. Davidovich, N.V., et al, [1979, p.66-71, rus] 34-3693
Forests of the Lake Baykal area (types of forest, microclimatology, characteristics of forest-forming species). Panarin, I.I., [1979, 263p., rus] 34-3759
Classification of the relationship between climate and permafrost-climatic regions. Gavrilova, M.K., [1980, p.13-27, eng] 34-3829
Modeling productivity and frost hardiness of plants. Kurets, V.K., et al, [1979, 15p., rus] 34-4012
Microelement content
Microphysics of clouds and precipitation. Pruppacher, H.R., et al, [1978, 714p., eng] 34-2515
Regularities governing microelement content in the soils of the southwestern taiga area (The Ordovician Plateau). Dvornikova, L.L., [1979, p.74-82, rus] 34-3876
Microrelief
Studying structures of some landscape facies in the Koibal'sk steppe. Purdik, L.N., [1979, p.84-100, rus] 34-677
Problems in swamp hydrology. Novikov, S.M., ed, [1979, 134p., rus] 34-825
Nature and classification of palsa bogs. Novikov, S.M., et al, [1979, p.3-13, rus] 34-826
Studying water level regime of palsa bogs. Moskvin, IU.P., [1979, p.27-37, rus] 34-828
Reliability of experimental determination of basic hydrologic characteristics of swamps. Balissova, E.L., [1979, p.96-109, rus] 34-833
Spectral power density and shadowing function of a glacial microrelief at the decimetre scale. Benoist, J.P., [1979, p.57-66, eng] 34-2223
Geomorphologic conditions of land reclamation in the Upper Angara trough. Bazarov, D.-D.B., et al, [1979, p.77-93, rus] 34-4099
Effects of zonality and environmental conditions on horizontal structure of phytocenoses of flat palsa peat bogs in West Siberia. Moskalenko, N.G., [1980, p.7-12, rus] 34-4142
Microscopy
See: Electron microscopy; Scanning electron microscopy
Microstructure
Snow crystals. Perla, R., [1978, 19p., eng] 34-1356
Influence of cryogenic processes on clay minerals. Konishchev, V.N., et al, [1979, p.93-101, eng] 34-2319
On the role of the components of frozen clay soils in the development of strength at different temperatures. Maksimiak, R.V., et al, [1980, p.169-183, eng] 34-3244
Vibration of measuring equipment in the study of the ocean microstructure under the drifting ice. Gusev, A.V., et al, [1975, p.237-238, eng] 34-3433
Analysis of the *In-situ* resistivity of sea ice in terms of its microstructure. Timco, G.W., [1979, p.461-471, eng] 34-3785
Frost action on immature cement paste—microstructural features. Kayyali, O.A., et al, [1980, p.264-268, eng] 34-4069
Microwaves
Physical alternatives to chemicals for highway deicing. Blackburn, R.R., et al, [1979, p.176-184, eng] 34-78
Microwave ice detector. Magenheim, B., [1977, 6 col., eng] 34-150
Theory and experiment for passive microwave remote sensing of snowpacks. Kong, J.A., et al, [1979, p.5669-5673, eng] 34-998
Preliminary results of passive microwave snow experiment during February and March 1978. Chang, A.T.C., et al, [1979, 114p., eng] 34-1111
Selected hydrologic applications of LANDSAT-2 data: an evaluation, final report. Wiesnet, D.R., et al, [1978, 205p., eng] 34-1497
Passive microwave applications to snowpack monitoring using satellite data. Hall, D.K., et al, [1979, 15p., eng] 34-1569
Seasat Gulf of Alaska Workshop report. Executive summary. Born, G.H., et al, [1979, 42p., eng] 34-1734
Comparative study of microwave radiometer observations over snowfields with radiative transfer model calculations. Chang, A.T.C., et al, [1979, 31p., eng] 34-2358
Meteorological sounding of the underlying surface from space. Kondrat'ev, K.IA., ed, [1979, 246p., rus] 34-2475
Backscatter and emission of snow: literature review and recommendations for future investigations. Ulaby, F.T., et al, [1978, 138p., eng] 34-3319
Microwave radar and radiometric remote sensing measurements of lake ice. Swift, C.T., et al, [1980, p.243-246, eng] 34-3406
Microwave brightness of polar firn as measured by Nimbus 5 and 6 ESMR. Chang, A.T.C., et al, [1980, p.85-91, eng] 34-3800
Utilization of spaceborne microwave radiometers for monitoring snowpack properties. Rango, A., et al, [1979, p.25-40, eng] 34-4000
Active and passive microwave response to snow parameters. 1. Wetness. Stiles, W.H., et al, [1980, p.1037-1044, eng] 34-4071
Active passive microwave response to snow parameters. 2. Water equivalent of dry snow. Ulaby, F.T., et al, [1980, p.1045-1049, eng] 34-4072
Migration
Migration of solid particles in melting snow. Kohno, S., et al, [1979, p.81-92, jap] 34-3494
Postglacial dynamics of the northern border of the petiolate oak area in the USSR and phylocenogenesis of oak forests in the North. Denisov, A.K., [1980, p.3-11, rus] 34-3878
Military engineering
Test of snow fortifications. Farrell, D.R., [1979, 15p., eng] 34-1598
Military equipment
Activities of military units in winter. Shubin, B., et al, [1979, p.77-80, rus] 34-256
Effects of freezing temperatures and frozen ground conditions on enclosed wire in tube response. Miller, C.A., [1979, 45p., eng] 34-1360
Winterizing the BM-21. Kuprin, G., [1979, p.22-23, rus] 34-2688
Preparing radar equipment for winter operation. Udot, B., [1979, p.60-63, rus] 34-2709
Military operation
Activities of military units in winter. Shubin, B., et al, [1979, p.77-80, rus] 34-256
Use of ice as an airstrip in the Thelon River valley by the Canadian Armed Forces. McCutcheon, D.M., [1979, p.224-231, eng] 34-933
Military supplies
See: Logistics
Mine shafts
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] 34-213
Thermal regime of Indigirka placer mines. Sherstov, V.A., et al, [1975, p.9-16, rus] 34-215
Heat transfer between underground structures and surrounding frozen grounds. Kapitonova, T.A., et al, [1975, p.22-29, rus] 34-217
Axisymmetric freezing and creep of water-saturated rocks. Dubina, M.M., et al, [1975, p.44-48, rus] 34-220
Numerical solution of problems of soil creep with phase transformations. Lozovskii, A.S., [1975, p.49-53, rus] 34-221
Evaluating the influence of natural conditions on temperature regime of permafrost surrounding mining excavations. Fedorov, F.M., [1975, p.54-61, rus] 34-222
Influence of mining conditions on temperature regime of permafrost around separate excavations. Fedorov, F.M., [1975, p.62-70, rus] 34-223
Reestablishment of temperature field in rocks around excavations after warm air flow is discontinued. Mal'kov, IU.K., et al, [1975, p.83-89, rus] 34-226
Strength and stability of frozen walls of shafts and mining excavations in permafrost. Vialov, S.S., et al, [1979, p.129-148, rus] 34-1547
Flow of temperate ice in a vertical shaft with rough wall surfaces. Reeh, N., [1980, p.309-324, eng] 34-3749
Grouping coal deposits in permafrost areas according to geologic and mining development conditions. Gazizov, M.S., et al, [1979, p.45-50, rus] 34-3906
Increasing the stability of mining excavations in permafrost. El'chaninov, E.A., [1979, p.54-62, rus] 34-3908
Calculating temperature fields in permafrost thawing at different temperatures (applied to mining problems). Gur'ianov, I.E., [1980, p.42-62, rus] 34-4039
Mineralogy
Micropaleontologic-mineralogic analysis of Recent mud samples from ice-scoured surface of Beaufort shelf. Lerand, M.M., [1971, 4p., eng] 34-560
Authigenic minerals in syngenetically freezing deposits of Central Yakutia. Zigert, Kh.G., [1978, p.50-57, rus] 34-2921
Minerals
Values and resource analysis, Vol.2. [1978, c.200p. + maps, eng] 34-21
Controls on decomposition and mineral release in wet meadow tundra—a simulation approach. Barkley, S.A., et al, [1978, p.754-778, eng] 34-911
Grain density of till: a potential parameter for the study of glacial transport. Puranen, R., et al, [1979, 32p., eng] 34-1378
Study of trace elements in waters of two Alaskan reservoir sites. Smith, D.W., et al, [1975, 81p., eng] 34-1804
Relationships between snow cover and winter losses of dissolved substances from a mountain watershed. Lewis, W.M., Jr., et al, [1980, p.11-17, eng] 34-2273
Heavy mineral analysis of southern Beaufort Sea sediments. Costaschuk, S.M., [1980, p.241-252, eng] 34-2988
Effectiveness of using mineral raw materials in the Far North. Fedoseev, V.A., [1979, 215p., rus] 34-3197
Ice rafting of ore minerals along the Laptev Sea shores. Efremov, K.S., [1979, p.22-26, rus] 34-3467
Mineral precipitation in North Slope river icings. Hall, D.K., [1980, p.343-348, eng] 34-3870
See also: Clay minerals
Mines (excavations)
Alaska mining and water quality. Zemansky, G.M., et al, [1976, 113p., eng] 34-620
See also: Quarries
Mining
New powerful pneumatic drift. Gurkov, K.S., et al, [1979, p.8-10, rus] 34-192
Studies of physico-technical problems of the North (rock mechanics and thermal properties, materials technology). Bondarev, E.A., ed, [1975, 145p., rus] 34-213
Results of studying coal mining conditions in the North-East. Vikulov, M.A., et al, [1975, p.3-8, rus] 34-214
Classification of the means of radio communication in mines. Elshin, V.K., et al, [1975, p.30-36, rus] 34-218
Results of testing new diamond drilling bits in Southern Yakutia. Antipin, I.N., et al, [1975, p.37-40, rus] 34-219
Axisymmetric freezing and creep of water-saturated rocks. Dubina, M.M., et al, [1975, p.44-48, rus] 34-220
Numerical solution of problems of soil creep with phase transformations. Lozovskii, A.S., [1975, p.49-53, rus] 34-221
Influence of mining conditions on temperature regime of permafrost around separate excavations. Fedorov, F.M., [1975, p.62-70, rus] 34-223
Reestablishment of temperature field in rocks around excavations after warm air flow is discontinued. Mal'kov, IU.K., et al, [1975, p.83-89, rus] 34-226
Ventilation in the Nickel Plant foundry of the Noril'sk mining-metallurgical combine. Titov, V.P., et al, [1979, p.14-15, rus] 34-243
Shaft sinking by blasting artificially frozen rocks. Oksanich, I.F., et al, [1979, p.10-12, rus] 34-344
Developing high impact-abrasion strength fuse-on metals. Razikov, M.I., et al, [1974, p.135-139, rus] 34-384
Hydraulic dredging in freezing weather. Popov, IU.A., et al, [1979, 184p., rus] 34-580

Environmental path of arsenic in groundwater. Hawkins, D.B., [1976, 7p., eng] 34-622
Systems of economic development of natural resources in intermontane basins of Subarctic highlands. Mikhailov, IU.P., [1979, p.18-35, rus] 34-682
Alaska Mining and Water Quality: proceedings of the symposium. [1979, 82p., eng] 34-770
Effect of cryogenic processes on the formation of gold-scattering water flows. Pliusnin, A.M., et al, [1979, p.700-703, rus] 34-811
Vibrating equipment used in mining construction. Shiral, E.N., [1978, 262p., rus] 34-848
Soil formation in landscapes affected by industrial activities. Trofimov, S.S., ed, [1979, 294p., rus] 34-946
Systems approach to studying soil formation processes in landscapes affected by industrial activities. Trofimov, S.S., et al, [1979, p.3-19, rus] 34-947
Parcellar structure of phytocenoses and the inhomogeneity of young soils in industrially disturbed landscapes. Taranov, S.A., et al, [1979, p.19-57, rus] 34-948
Productivity of soils in meadow biogeocenoses of recultivated dredging areas in the Central Urals. Nakariakov, A.V., et al, [1979, p.106-123, rus] 34-950
Initial soil formation processes developing on rock tailings of the Lipovskoe nickel mine. Makhonina, G.I., [1979, p.123-140, rus] 34-951
Natural revegetation of the Tom' River flood-plain soils disturbed by industrial activities. Taranov, S.A., et al, [1979, p.156-163, rus] 34-952
Early diagenesis and growth of wild and semi-cultivated plants on tailings of the Kuzbass coal mines. Kondrashin, E.R., [1979, p.163-172, rus] 34-953
Reforestation of coal mine tailings in the southern Kuzbass. Barannik, L.P., et al, [1979, p.172-179, rus] 34-954
Oxidizing activity of microorganisms in recultivated tailings of the Baydaevskiy coal mine (Kuzbass). Kulebakin, V.G., [1979, p.179-185, rus] 34-955
Aerial reconnaissance of landscapes affected by industrial activities. Solntseva, N.P., et al, [1979, p.258-278, rus] 34-956
Ways and means of protecting mines from avalanches. Kozhevnikov, V.S., [1979, p.104-112, rus] 34-1132
Artificial freezing of ground. Buchko, N.A., [1979, p.38-40, rus] 34-1153
Rock blasting under complex hydrogeological conditions. Mets, IU.S., [1979, 109p., rus] 34-1189
Northern landscapes affected by industrial activities and their revegetation. Pavlov, A.V., ed, [1979, 160p., rus] 34-1508
Changes in tundra landscapes induced by mining. Olovin, B.A., [1979, p.98-112, rus] 34-1516
Increasing the effectiveness of freezing foams used in thermal melioration of soils. Safonov, V.F., et al, [1979, p.118-123, rus] 34-1518
Engineering geocryology. Mel'nikov, P.I., ed, [1979, 208p., rus] 34-1533
Transportation. Nekrasov, N.N., ed, [1979, 147p., rus] 34-1619
Peculiarities and problems of inter-regional transportation and economic communications of the northern zone of the USSR. Puzanova, V.F., [1979, p.20-33, rus] 34-1622
Problems of transportation equipment in Yakutian mines. Vlasov, V.I., [1979, p.112-117, rus] 34-1633
Field trip No.5: Northern Quebec—Labrador. Nicholson, F.H., [1979, 96p., eng] 34-1694
Symposium on Human Settlements Planning and Development in the Arctic. [1978, c455p., eng] 34-1767
Operating large dumpers at the "Tsentral'nyy" mine, the "Apatit" departure yard. Kolesnikov, V.G., et al, [1979, p.17-18, rus] 34-1836
New technology of recovering crushed ore when mining valuable metals at subzero temperatures. Popov, N.I., et al, [1979, p.22-24, rus] 34-1837
Using "ifzanite" explosives in the Noril'sk Mining Concern. Mamashev, IU.P., et al, [1979, p.29-30, rus] 34-1838
Reliability of 6 kV power lines in coal mines in glaze development areas. Manatskov, B.M., [1972, p.110-117, rus] 34-1906
Exploration and sources of ground water reserves in areas of Noril'sk-type commercial ore deposits. Roginets, I.I., [1979, p.83-87, rus] 34-1938
Minerals and raw material bases in the Baykal Amur railroad area. Kogan, S.I., et al, [1979, p.1-5, rus] 34-2127
Scientific conference of geographers from Siberia and the Far East. Geography and practice. Proceedings. [1978, 253p., rus] 34-2246
Regional types of mining-affected lands in East Siberia and trends in their restoration. Savel'eva, I.L., et al, [1978, p.98-102, rus] 34-2247
Control of blasting effects on rocks and grounds. Vovk, A.A., ed, [1979, 224p., rus] 34-2307
Stress waves in artificially frozen water-saturated ground, studied after fuse detonation on test-benches and in mining shafts. Oksanich, I.F., et al, [1979, p.142-148, rus] 34-2311
Coal mine construction according to the projects of the Siberian State Planning Design and Experimental Institute of Mining. Materi, V.G., [1979, p.6-7, rus] 34-2697
Improving the process of drilling holes for artificial freezing. Shparber, P.A., [1979, p.22-23, rus] 34-2698
Mining and the environment. Moisinets, V.N., et al, [1978, 191p., rus] 34-2808
Instructions for the performance and acceptance of jobs concerning the shield technique of building collecting-tunnels in cities and industrial enterprises [1975, 38p., rus] 34-2814
Geothermal parameters of the Seligdar apatite deposits. Deviatkin, V.N., et al, [1978, p.94-96, rus] 34-2925
Technology of open pit mining. Medvedev, K.D., ed, [1979, 164p., rus] 34-3023
Effectiveness of container transportation systems under the Far North conditions. Bogoliubova, O.I., et al, [1979, p.96-101, rus] 34-3024
Container delivery of explosives to the Far North mines. Vlasov, V.M., et al, [1979, p.101-104, rus] 34-3025
Studying the freezing of water-filled blasting holes drilled in permafrost. Shebarshov, A.A., et al, [1979, p.127-131, rus] 34-3026
Recommendations for the design and construction of tailings dumps under severe climatic conditions. [1977, 152p., rus] 34-3196
Effectiveness of using mineral raw materials in the Far North. Fedoseev, V.A., [1979, 215p., rus] 34-3197
Stability of underground workings in permafrost. El'chaninov, E.A., et al, [1980, p.321-337, eng] 34-3255
Water thawing of frozen ground for open pit and underground mining in the northeast of the USSR. Emel'ianov, V.I., et al, [1980, p.339-354, eng] 34-3256
Environmental protection in economic development of permafrost areas. Grave, N.A., ed, [1980, 140p., rus] 34-3277
Protection of environments and mineral resources in mined permafrost areas. Maksimov, V.M., et al, [1980, p.27-36, rus] 34-3282
Changes in geocryological conditions and permafrost forecasting in areas of mining exploration. Shvetsov, P.F., et al, [1980, p.36-41, rus] 34-3283
Rational utilization of engineering and geological resources. Demidiuk, L.M., [1980, p.42-50, rus] 34-3284
Some technical solutions for environmental protection of construction and mining sites in permafrost areas. El'chaninov, E.A., et al, [1980, p.55-60, rus] 34-3286
Protecting rivers in the Kolyma Basin from pollution with solid suspensions by electrochemical coagulation treatment of mining waste waters. Novozhilov, V.N., et al, [1980, p.102-107, rus] 34-3295
Determining stability of tailings dump embankments. Zaslavskii, S.V., [1978, p.76-77, rus] 34-3357
Ice rafting of ore minerals along the Laptev Sea shores. Efremov, K.S., [1979, p.22-26, rus] 34-3467
Comparative study of stresses in natural rock masses and in models using the artificial freezing technique. Makarov, S.V., [1979, p.35-43, rus] 34-3481
Timan-Pechora Complex. Construction problems. Kochurin, N.N., [1979, 167p., rus] 34-3666
Grouping coal deposits in permafrost areas according to geologic and mining development conditions. Gazizov, M.S., et al, [1979, p.45-50, rus] 34-3906
Lithologic and petrographic peculiarities of rocks in the subpermafrost transition zone of the Sangarskiy coal deposit. Den'gina, N.I., et al, [1979, p.50-54, rus] 34-3907
Increasing the stability of mining excavations in permafrost. El'chaninov, E.A., [1979, p.54-62, rus] 34-3908
Role of the Soviets in environmental development in the polar regions. Sollie, F., [1979, 15p., nor] 34-3921
Erection of building structures at the northern Mining and Concentration Concern No.2. Golubenko, V.V., et al, [1980, p.10-12, rus] 34-3938
Increased fracturing intervals in frozen and thawed zones of the Nizhne-Arkagalinskiy coal deposit. Kostenko, V.I., et al, [1974, p.111-116, rus] 34-3945
Studying mining effect on coal seams and the surrounding rock temperature under permafrost conditions. El'chaninov, E.A., et al, [1973, p.112-118, rus] 34-3946
Optimal configuration of a confining bed under the pressure of subpermafrost ground water. Gur'ianov, I.E., [1980, p.62-70, rus] 34-4040
Rational use of natural resources in the Central Lena River area. Gubkin, M.P., et al, [1979, p.10-14, rus] 34-4107
Special geocryologic-engineering-geologic regionalization of coal mining areas in South Yakutia. Kozlov, A.N., et al, [1980, p.111-115, rus] 34-4126
History of geocryological studies in West Yakutia. Mel'nikov, P.I., [1979, p.3-6, rus] 34-4150
Influence of water management practices on environments of the North. Voropaev, G.V., [1979, p.20-27, rus] 34-4166
Mining effect on natural environments. Shemiakin, E.I., [1979, p.104-111. rus] 34-4172

Models

Environmental model for predicting impacts from deicing salts. Thuet, J.H., [1979, p.61-65, eng] 34-60
Thermal regime of permafrost beneath structures with foundations on fill. Mal'kov, IU.K., et al, [1975, p.71-76, rus] 34-224
Reestablishment of temperature field in rocks around excavations after warm air flow is discontinued Mal'kov, IU.K., et al, [1975, p.83-89, rus] 34-226
Small prototype cone tests winter 1973-74. Verity, P.H., [1975, 102p. + appends., eng] 34-296
Modeling frozen ground as an abrasive medium. Gorbunov, V.F., et al, [1974, p.8-11, rus] 34-374
Rheological fundamentals of soil mechanics. Vialov, S.S., [1978, 447p., rus] 34-432
Application of satellite images for monitoring snow-line in the Yukon and Northwest Territories. Dey, B., et al, [1979, p.473-483, eng] 34-472
Model experiments to determine the forces exerted on structures by moving ice fields. Edwards, R.Y., Jr., et al, [1972, 83p. + appends., eng] 34-572
Atmospheric carbon monoxide model for Fairbanks, Alaska. Carlson, R.F., [1976, 47p + append., eng] 34-621
Nutrient chemistry of a large, deep lake in subarctic Alaska. LaPerriere, J.D., et al, [1977, 128p., eng] 34-624
Excerpts from *Rheological Fundamentals of Soil Mechanics*. Vialov, S.S., [1979, 134p., eng] 34-629
Hydrologic interpretation of basin morphology. Fox, J.D., [1978, 14p., eng] 34-645
Electric models of rock freeze-thaw. Rashkin, A.V., [1979, p.135-137, rus] 34-718
Phenomenological description of the acoustic emission response in several polycrystalline materials. St. Lawrence, W., [1979, p.223-228, eng] 34-747
Experimental studies of the thermal regime of permafrost slopes of a stream valley at their junction with a filter dam. Belan, V.I., [1979, p.97-100, rus] 34-852
Time-dependent deflection of an ice plate. Michel, B., et al, [1979, p.80-97, eng] 34-925
Modeling the processes reflecting the influence of trees on forest soils. Shugalei, L.S., [1979, p.79-153, rus] 34-978
Proceedings of a Meeting on Modeling of Snow Cover Runoff, 26-28 September 1978, Hanover, New Hampshire. [1979, 432p., eng] 34-1001
Square grid system for modeling snow cover in small watersheds. Dickison, R.B.B., et al, [1979, p.71-76, eng] 34-1007
Ablation of an isolated snowdrift. Zuzel, J.F., et al, [1979, p.135-143, eng] 34-1013
Solar radiation model for a snow surface in mountainous terrain. Dozier, J., [1979, p.144-153, eng] 34-1014
Interactions between the atmospheric boundary layer and a snow surface. Halberstam, I.M., et al, [1979, p.154-166, eng] 34-1015
Atmospheric radiation model for general alpine application. Marks, D., [1979, p.167-178, eng] 34-1016
Review of snow melt in the mountain environment. Obled, C., et al, [1979, p.179-204, eng] 34-1017
Optimal complexity of a point snowmelt model. Kuusisto, E., [1979, p.205-210, eng] 34-1018
Energy balance and snowmelt in a deciduous forest. Hendrie, L.K., et al, [1979, p.211-221, eng] 34-1019
Review of water movement in snow. Wankiewicz, A., [1979, p.222-252a, eng] 34-1020
Controls on the production of snowmelt runoff. Price, A.G., et al, [1979, p.257-268, eng] 34-1022
European hydrological system snow routine. Morris, E.M., et al, [1979, p.269-278, eng] 34-1023
Upward migration of moisture and heaving in frozen soils. Morel-Seytoux, H.J., [1979, p.328-335, eng] 34-1030
Streamflow simulation models for use on snow covered watersheds. Anderson, E.A., [1979, p.336-350, eng] 34-1031
Procedure to incorporate snow course data into the National Weather Service river forecast system. Carroll, T.R., [1979, p.351-358, eng] 34-1032
Interactive model of snowpack accumulation and melt dynamics in forested conditions. Ffolliott, P.F., et al, [1979, p.359-368, eng] 34-1033
Development of the operational snow band SSARR model. Speers, D., et al, [1979, p.369-378, eng] 34-1034
Mountain watershed simulation model. Leavesley, G.H., et al, [1979, p.379-386, eng] 34-1035
Review of the operational experience with the SSARR model. Rockwood, D.M., [1979, p.387-396, eng] 34-1036
Spring flood forecasting by conceptual models in Sweden. Bergström, S., [1979, p.397-405, eng] 34-1037
Use of integrated hydrological models with distributed snow cover description for hydrological forecasting in Norway. Saelthun, N.R., [1979, p.406-413, eng] 34-1038
Model to predict short-term snowmelt runoff using synoptic observations of streamflow, temperature and precipitation. Tangborn, W.V., [1979, p.414-426, eng] 34-1039
Applications of the SCS basin simulation model. Woodward, D.E., et al, [1979, p.427-432, eng] 34-1040
Volume forecasts using the SSARR model in a zone mode. Kuehl, D.W., [1979, p.38-47, eng] 34-1054
Evaluation of streamflow forecasting methods. Lettenmaier, D.P., et al, [1979, p.48-55, eng] 34-1055

Models *(cont.)*

Modeling lake landscapes of the Selenga River delta, its dynamics and development. Bogoiavlenskii, B.A., [1979, p.105-128, rus] 34-1071

Nonstationary turbulent wind flow past tall structures. Gusev, M.A., [1979, p.51-55, rus] 34-1087

Reliability of the method of centrifugal modeling of deformations of clay bases. Rudnitskii, N.IA., et al, [1979, p.91-93, eng] 34-1148

Comment on "Drift of icebergs in the Grand Banks". Mountain, D.G., et al, [1979, p.549-550, eng] 34-1292

Model for space radar clutter. Tomlinson, P.G., [1979, 107p., eng] 34-1350

Development of a viscoelastic finite difference formulation for analysis of ice sheet-structure interactions. Praskievicz, M.W., [1979, 162p., eng] 34-1353

De Geer moraines in a Swedish mountain area. Borgström, I., [1979, p.35-42, eng] 34-1459

Model for the ice VII-ice VIII transition. Haus, J.W., et al, [1977, p.2148-2153, eng] 34-1603

Hydrophysical properties of peat soils. Bondarenko, N.F., et al, [1979, 160p., rus] 34-1651

Experimental laser attenuation in a snow environment. Miller, J.T., [1978, 84p., eng] 34-1703

Ice-sheet glaciology. Drewry, D., [1979, p.313-328, eng] 34-1881

Forecasting seasonal snowmelt runoff: a summary of experience with two models applied to three drainages in the Cascade Mountains of Washington. Lettenmaier, D.P., et al, [1978, 109p., eng] 34-1905

Synopsis—ice in estuaries and harbours. Carstens, T., [1979, p.1-30, eng] 34-1959

On the flow of polythermal glaciers. I. Model and preliminary analysis. Fowler, A.C., et al, [1978, p.217-242, eng] 34-1968

Genesis of the Sveg tills and Rogen moraines of central Sweden: a model of basal meltout. Shaw, J., [1979, p.409-426, eng] 34-2114

Comparative mechanisms of cold adaptation. Underwood, L.S., ed, [1979, 379p., eng] 34-2144

International symposium on computation and forecasting of runoff from glaciers and glaciated areas. Chizhov, O.P., [1979, p.13-19, rus] 34-2175

Processes of glacier erosion on different substrata. Boulton, G.S., [1979, p.15-38, eng] 34-2220

Theoretical model of glacial abrasion. Hallet, B., [1979, p.39-50, eng] 34-2221

Volumetric constitutive law for snow based on a neck growth model. Brown, R.L., [1980, p.161-165, eng] 34-2388

Environmental factors affecting iceberg scour estimates. Chari, T.R., et al, [1980, p.223-230, eng] 34-2444

On the size distribution of Antarctic icebergs. Neshyba, S., [1980, p.241-248, eng] 34-2446

On predicting iceberg drift. Mountain, D.G., [1980, p.273-282, eng] 34-2449

Studying wettability of mineral grains in disperse systems. Romanov, V.P., [1979, p.143-152, rus] 34-2786

Ice flow along the Byrd Station strain network, Antarctica. Whillans, I.M., [1979, p.15-28, eng] 34-2813

Modeling sea-ice features and processes. Rothrock, D.A., [1979, p.359-375, eng] 34-2838

Effect of ice-albedo feedback on global sensitivity in a one-dimensional radiative-convective climate model. Wang, W.-C., et al, [1980, p.545-552, eng] 34-3087

Factors determining rheologic properties of clays. Kul'chitskii, L.I., et al, [1976, p.228-240, rus] 34-3211

Studying the mechanism of ice floe entrainment into submerged openings. Tsilikin, V.F., [1978, p.98-102, rus] 34-3351

Comparative study of stresses in natural rock masses and in models using the artificial freezing technique. Makarov, S.V., [1979, p.35-43, rus] 34-3481

Overview [International Workshop on the Seasonal Sea Ice Zone]. Weeks, W.F., [1980, p.1-35, eng] 34-3625

Ice characteristics in the seasonal sea ice zone. Wadhams, P., [1980, p.37-92, eng] 34-3626

Polar atmosphere-ice-ocean processes: a review of polar problems in climate research. [1980, p.525-543, eng] 34-3633

Sea ice growth, drift, and decay. Hibler, W.D., III, [1980, p.141-209, eng] 34-3658

Seismic characteristics of loess in relation to geologic surroundings and the impact of industrial activities. Kriger, N.I., et al, [1980, 103p., rus] 34-3763

Two models for estimating climate-glacier relationships in the North Cascades, Washington, U.S.A. Tangborn, W., [1980, p.3-21, eng] 34-3794

Passenger transportation in Urban planning of the North. Belinskii, A.IU., et al, [1980, 146p., rus] 34-3825

Experimental study of cutting frozen ground with percussion ground-breaking equipment. Solomonov, S.A., [1978, p.49-57, rus] 34-3943

Modeling productivity and frost hardiness of plants. Kurets, V.K., et al, [1979, 15p., rus] 34-4012

Experimental modeling of ecological consequences of winter recreation. Balderin, V.V., [1980, p.13-21, rus] 34-4143

See also: Avalanche modeling; Ice models; Lattice models; Matematical models; Simulation

Modular construction

Optimal design of steel frames for modular buildings in the Far North. Volovik, A.IA., et al, [1972, p.3-15, rus] 34-173

Modular apartment buildings with "packet" type cells. Lazhintsev, V.I., [1972, p.33-42, rus] 34-176

Experimental study of the "packet" type apartment cells. Lazhintsev, V.I., et al, [1972, p.43-53, rus] 34-177

Large units increase the effectiveness of segmental construction. Permikin, IU.N., et al, [1979, p.12-14, rus] 34-247

Prefabrication stages in building construction. Makeev, A.M., et al, [1979, p.30-34, rus] 34-519

Arco Prudhoe Bay operations center. Crittendon, E.B., [1977, p.9-16, eng] 34-693

Selecting modular structures for northern construction sites. Koposhko, V.S., [1977, p.138-140, rus] 34-994

Evaluating structural design of modular buildings for repair shops of the Baykal Amur railroad. Leĭbman, G.D., et al, [1978, p.67-72, rus] 34-1105

Construction of residential and public buildings in West Siberia. Khaltum, A.D., [1979, p.16-18, rus] 34-1180

Light metal structures for industrial buildings and their installation. Abramovich, K., et al, [1979, p.24-27, rus] 34-1774

New type of feeder road surface. Sokolov, S.A., et al, [1979, p.8-9, rus] 34-1941

Moisture

Design of weathertight joints. Latta, J.K., [1976, 8p., eng] 34-161

Shrinking deformation of large panel building walls from field observations. Emel'ianov, A.A., [1972, p.36-45, rus] 34-584

Interactions between the atmospheric boundary layer and a snow surface. Halberstam, I.M., et al, [1979, p.154-166, eng] 34-1015

Further icing experiments on an unheated non-rotating cylinder. Stallabrass, J.R., et al, [1979, 57 leaves, eng] 34-1506

Exact solution for freezing of humid porous half-space. Mikhailov, M.D., [1979, p.305-313, eng] 34-2334

Study of freezing mechanisms in Caen rock. Lautridou, J.P., et al, [1979, p.343-358, fre] 34-2337

Heating of moist bodies. Srivastava, K.K., et al, [1979, p.439-445, eng] 34-2345

Heat and moisture transfer in experimental wall panels with the (FSP) phenol-formaldehyde plastic thermal insulation. Alumiae, A.E., [1979, p.30-39, rus] 34-2382

Mapping of taiga vegetation for the forecasting of its variations due to possible changes in moisture conditions. Shvergunova, L.V., et al, [1978, p.74-80, rus] 34-2467

Cracks, movements and joints in buildings: record of the DBR Building Science Seminar, Autumn 1972. [1976, c125 leaves, eng] 34-2603

Numerical solution of a parabolic free boundary problem via Newton's method. Baumeister, J., et al, [1980, p.99-109, eng] 34-4066

See also: Humidity; Soil water

Moisture meters

Moisture transport in the atmosphere during abundant precipitation in the Zeravshan and Kashkadarya basins in winter and spring. Volnova, T.A., et al, [1979, p.79-84, rus] 34-2414

Testing and using the AM-11 soil moisture meter in the IUzhnoe Primor'e. Gorchakov, A.M., et al, [1979, p.51-55, rus] 34-3564

Moisture transfer

Moisture balance in the system Antarctic ice sheet surface-atmosphere. Aver'ianov, V.G., [1979, p.209-211, rus] 34-2210

Heat transfer through joints in external enclosures of industrial buildings in the North. Butlitskii, A.E., et al, [1976, p.59-75, rus] 34-2403

Thermal waves in roadbeds. Shestakov, V.N., et al, [1979, p.105-111, rus] 34-2622

CRREL roof moisture survey, Pease AFB buildings 35, 63, 93, 112, 113, 120 and 220. Korhonen, C., et al, [1980, 31p., eng] 34-3335

Nonlinear formulation of a univariate problem of consolidation of saturated ground gases. Votiakov, I.F., [1978, p.34-44, rus] 34-3889

Investigation of vertical moisture transport in the upper layers of undrained highmoor bogs by means of radioactive isotopes. Surovov, V.I., [1978, p.1-5, eng] 34-3959

On the mechanism of dewatering colloidal aqueous solutions by freeze-thaw processes. Ezekwo, G., et al, [1980, p.1079-1088, eng] 34-4247

See also: Soil water migration

Molecular energy levels

Adhesive scattering of energy at the contact. Kashcheev, V.N., et al, [1974, p.11-18, rus] 34-375

Molecular structure

Molten state of matter—melting and crystal structure. Ubbelohde, A.R., [1978, 454p., eng] 34-789

Bound water content in fine grained rocks. Ananian, A.A., et al, [1979, p.193-196, rus] 34-1927

Active centers at the surface of fine rock particles. Ananian, A.A., [1979, p.196-200, rus] 34-1928

Crystallization-film mechanism of water migration toward frost penetration front. Kaliuzhnyĭ, I.L., et al, [1980, p.3-12, rus] 34-3458

Polarization processes in the ice lattice. 2. Approach by Kirkwood's theory. Comparison with the results from thermodynamics of irreversible processes. Hubmann, M., [1979, p.141-146, eng] 34-4002

Monitors

System monitors Trans-Alaska pipeline curvature. Anderson, D.R., [1979, p.129-134, eng] 34-1294

Geotechnical surveillance and monitoring of the Trans-Alaska Pipeline. Williams, R.D., et al, [1979, p.474-480, eng] 34-1400

Polar environmental monitoring final report. [1979, 94p., eng] 34-3390

Characteristics of automatic snow depth monitoring. Vodop'ianova, L.S., et al, [1978, p.40-42, eng] 34-3961

See also: Warning systems

Moon

Ice in the lunar polar regions. Arnold, J.R., [1979, p.5659-5668, eng] 34-997

Moon, glaciers and permafrost. Strangeway, D.W., [1978, p.2-4, eng] 34-2649

Moorings

East coast mooring program, analytical phase, Vols 1 and 2. [1976, 85p. + 6 appends., eng] 34-3101

Ice loads on structures of the Baykal Amur railroad. Korzhavin, K.N., ed, [1977, 121p., rus] 34-3168

Experience of using an ice protection dam in the lower course of the Yenisey River. Samochkin, V.M., et al, [1977, p.51-55, rus] 34-3174

Morainal lakes

See: Glacial lakes

Moraines

Glacial geology of northwestern Boothia Peninsula, District of Franklin. Dyke, A.S., [1979, p.385-394, eng] 34-25

Sediment characteristics of some small temperate glaciers. Mills, H.H., [1975, 156p., eng] 34-203

Patterned ground on an active medial moraine, Jotunheimen, Norway. Ballantyne, C.K., [1979, p.396-401, eng] 34-554

Photo-geomorphic map of the Mt. Menzies nunatak, Prince Charles Mountains, Australian Antarctic Territory. Derbyshire, E., et al, [1978, p.17-26, eng] 34-662

Reconstruction of a Late Pleistocene glacier tongue with the aid of a calculated longitudinal profile. Kerschner, H., [1978, p.119-123, ger] 34-668

Chonkemin Valley terraces and the glaciation of northern Tien Shan. Bylinskaia, L.N., [1979, p.137-143, rus] 34-1073

Holocene push-moraines in alpine permafrost. Haeberli, W., [1979, p.43-48, eng] 34-1263

Nature and distribution of glaciers, neoglacial moraines, and rock glaciers, east-central Brooks Range, Alaska. Ellis, J.M., et al, [1979, p.403-420, eng] 34-1384

Facies of supraglacial sedimentation on Icelandic and alpine temperate glaciers. Eyles, N., [1979, p.1341-1361, eng] 34-1452

Glacier variations in the Svartisen area, northern Norway. Karlén, W., [1979, p.11-28, eng] 34-1458

De Geer moraines in a Swedish mountain area. Borgström, I., [1979, p.35-42, eng] 34-1459

Periglacial sorted circle and frost wedge formations in brownish soils of northern Germany. Blume, H.-P., et al, [1979, p.257-265, ger] 34-1495

Ice stagnation and paleodrainage in and near an interlobate area. Rieck, R.L., [1979, p.219-235, eng] 34-1725

Ice movements and deglaciation of the central parts of Saltfjellet, Nordland, north Norway. Sveian, H., et al, [1979, p.1-20, nor] 34-1841

Genesis of the Sveg tills and Rogen moraines of central Sweden: a model of basal meltout. Shaw, J., [1979, p.409-426, eng] 34-2114

Soviet glaciological investigations in 1978. Kotliakov, V.M., et al, [1979, p.5-12, rus] 34-2174

Summer heat balance and environmental conditions of periglacial naleds in the Pamirs. Lebedeva, I.M., [1979, p.76-81, rus] 34-2185

Geological action of glaciers in the Eastern Pamirs. Demchenko, V.V., [1979, p.81-85, rus] 34-2186

Pleistocene glaciation of Spitsbergen. Punning, IA.-M.K., et al, [1979, p.204-208, rus] 34-2209

Soils in pine forests of Karelia. Pĭavchenko, N.I., ed, [1978, 141p., rus] 34-2252

Soil formation on sandy deposits in Karelia. Morozova, R.M., [1978, p.4-43, rus] 34-2253

Glacial flutings in northern Finnish Lapland. Heikkinen, O., et al, [1979, p.1-12, eng] 34-2472

Submarine fluting and end moraine features in the fresh water reservoir Uusikaupunki, on the SW coast of Finland. Ström, O., [1979, p.231-234, fin] 34-2563

Cave glacier fluctuations in Kuznetskiy Alatau. Dmitriev, V.E., [1979, p.181-185, rus] 34-3137

Recent glaciation of the Cherskiy mountain system. Shelnkman, V.S., [1979, p.185-194, rus] 34-3138

Observed and possible changes in the Abramov glacier tongue. Abul'khasanova, A.G., et al, [1979, p.206-210, rus] 34-3141

New glaciers on the Tel'pos-iz range. Dolgushin, L.D., et al, [1979, p.214-218, rus] 34-3143

Mudflow outbursts of the Kakhab-Roson morainic lake in Dagestan. Poznanin, V.L., [1979, p.218-223, rus] 34-3144
Würmian "Ross Ice Sheet" hypothesis and facts. Miagkov, S.M., [1979, p.235-242, rus] 34-3147
Glaciers on topographic maps and in the Glacier Catalog of the USSR. Kuz'michenok, V.A., [1979, p.249-255, rus] 34-3148
Remarks on the V.A. Kuz'michenok paper "Glaciers on topographic maps and in the Glacier Catalog of the USSR". Vinogradov, O.N., [1979, p.255-257, rus] 34-3149
Natural waters, lithogenesis and relief. Zorin, L.V., [1979, 167p., rus] 34-3267
Gramna Lakes in the Baykal Amur railroad area. Mats, V.D., et al, [1980, 87p., rus] 34-3268
Age of rock glaciers in the Altai Mountains. Ivanovskii, L.N., [1977, p.125-137, rus] 34-3606
Saw-tooth moraines in front of Bödalsbreen, southern Norway. Matthews, J.A., et al, [1979, p.535-546, eng] 34-3790
Geomorphologic conditions of land reclamation in the Upper Angara trough. Bazarov, D.-D B., et al, [1979, p.77-93, rus] 34-4099

Morphogenesis

See: Geomorphology

Mortars

Mortars with sodium acetate admixtures. Nikulin, V.T., et al, [1979, p.18, rus] 34-340
Regularities governing properties of mortars Ryb'ev, I.A., et al, [1979, p.64-67, rus] 34-805
Time effect on the strength and service life of winter laying of silicate bricks using potash and sodium nitrate as cement additives. Kotov, I.T., [1972, p.224-236, rus] 34-1831
Effect of compression on the strength of brickwork built in freezing weather. Kotov, I.T., [1972, p.236-237, rus] 34-1832
Development of fillings for slab track in cold region and its various properties. Fukunaga, M., [1977, p.138, eng] 34-2658
Solidification of mortars with antifreeze admixtures. Shishkin, A.A., et al, [1979, p.19-20, rus] 34-2700
Studying rheological properties of mortars containing new antifreeze admixtures. Petropavlovskaia, T.A., [1978, p.98-104, rus] 34-3887
Erection of multistory brick buildings in Noril'sk. Shkliarov, N., et al, [1980, p.32-35, rus] 34-3931

Mosses

Soil resources of BAM zone swamps and their agricultural development. Makeev, O.V., et al, [1979, p.42-49, rus] 34-438
Snow soil interactions in interior Alaska. Santeford, H.S., [1979, p.311-318, eng] 34-1028
Structure of moss synusiae in the spotty tundra of the Agapa research station. Tishkov, A.A., [1979, p.5-14, rus] 34-1059
Flora and fauna of water bodies in the European North (Bol'shezemel'skaya Tundra taken as an example). Getsen, M.V., ed, [1978, 191p., rus] 34-1191
Simulation of CO2 uptake and water relations of four Arctic Bryophytes at Point Barrow, Alaska. Miller, P.C., et al, [1978, p.7-20, eng] 34-1262
Nitrogen-fixing moss associations in the subalpine zone of the White Mountains, New Hampshire. Lambert, R.L., et al, [1979, p.325-333, eng] 34-1285
Moss *Aongstroemia longipes*, an environmentally sensitive colonizer of sediments at Austerdalsisen, Norway. Theakstone, W.H., et al, [1979, p.353-356, eng] 34-1288
Biologic productivity and chemical element cycles in spruce-green moss central and northern taiga of the Komi Autonomous Soviet Socialist Republic. Zaboeva, I.V., et al, [1975, p.81-82, rus] 34-1853
Hydrothermal regime of autonomous sandy soils. Erukov, G.V., [1978, p.44-58, rus] 34-2254
Musci and Hepaticae of Cape Chelyuskin. Blagodatskikh, L.S., et al, [1979, p.54-60, rus] 34-3037
Musci and Hepaticae in the vicinity of Marii Pronchishchevoy Bay (Northeastern Taymyr Peninsula). Blagodatskikh, L.S., et al, [1979, p.133-139, rus] 34-3043
Lichens in the vegetation of the Elombal Mountains (Chukot Autonomous District). Andreev, M.P., [1980, p.563-570, rus] 34-3556
Hydrophysical properties of forest litter and its soil-protective role. Krasnoshchekov, IU.N., et al, [1979, p.59-68, rus] 34-3771
Alpine mosses of South Siberia. Bardunov, L.V., [1979, p.86-91, rus] 34-4088
Short review of vegetation in the Baykal-Patomskoe Nagor'ye highlands. Rusiaeva, G.G., [1979, p.110-117, rus] 34-4090
Composition and structure of vegetation in ridge-pool swamps. Boch, M.S., et al, [1980, p.22-30, rus] 34-4144
Mosses as accumulators of radionuclides. Molchanova, I.V., et al, [1980, p.42-47, rus] 34-4146
Hepaticae—pioneers in matting disturbed Yamal tundra soils. Andreeva, E.N., [1979, p.21-22, rus] 34-4219
Zonal distribution of Hepaticae in the Khibiny Mountains. Konstantinova, N.A., [1979, p.38-39, rus] 34-4223

Motor vehicles

Effect of chloride concentration on automobile stopping distance. Hu, A.C.H., [1979, p.270-274, eng] 34-91
Development of transportation in oil and gas producing areas of Siberia and the North. Chevardov, S.I., [1979, p.2-4, rus] 34-402
Preliminary Arctic engineering study of surface transport vehicles. Rymes (J.E.) Engineering, Ltd., [1970, c270p., eng] 34-424
Arctic winter tests and evaluation, mid-winter stage, Kenworth truck Model 953A [1972, var. p., eng] 34-512
Evaluation of automotive engine preheaters as a technique to control cold start carbon monoxide emissions - a final report. Leonard, L.E., et al, [1978, 76p., eng] 34-842
Carbon monoxide emissions from moving vehicles in Fairbanks, Alaska. Leonard, L.E., [1977, 45p., eng] 34-843
Improving the economic effectiveness of transportation in the Komi Autonomous Soviet Socialist Republic. Kuratova, E.S., [1979, p.42-46, rus] 34-1624
Peculiarities of motor transport under northern conditions Khlebnikov, A.M., et al, [1979, p.47-59, rus] 34-1625
Passanger transport in northern population resettlement systems. Belinskii, A.IU., [1979, p.98-105, rus] 34-1630
Trends in transportation development in northern Canada. Cherkasov, A.I., [1979, p.118-130, rus] 34-1634
Operating large dumpers at the "Tsentral'nyy" mine, the "Apatit" departure yard Kolesnikov, V.G., et al, [1979, p.17-18, rus] 34-1836
Preparation of industrial transportation for winter. Kurtukov, IA.M., et al, [1979, p.2-5, rus] 34-2092
Norms for spare parts expenditure in motor vehicle transport of the Yakut ASSR. Karasev, G.A., et al, [1976, p.59-65, rus] 34-3342

Mountain glaciers

Proceedings of the Scientific Conference on Altai Glaciology Problems. [1963, 259p., rus] 34-106
Use of tethered radiosondes in the Aktru mountain glacier basin. Slutskii, V.I., et al, [1973, p.82-86, rus] 34-109
Glaciological and climatological significance of ablation periods. Olelnik, I.IA., [1973, p.87-92, rus] 34-110
Sediment characteristics of some small temperate glaciers. Mills, H.H., [1975, 156p., eng] 34-203
Glacial component in the total discharge of high mountain rivers in the Gara-Auzusu Gorge and ablation of the Kulak-Chegemschimar glacier. Samukashvili, R.D., [1979, p.87-93, rus] 34-613
Collected papers on sciences of atmosphere and hydrosphere, Volume 15. [1977, var.p., eng] 34-895
Statistical analyses of the forms of the glaciers in the Khumbu Himal. Fujii, Y., et al, [1977, p.7-14, eng] 34-897
Field experiment on glacier ablation under a layer of debris cover. Fujii, Y., [1977, p.20-21, eng] 34-898
Structural studies of glaciers in the Khumbu region. Fushimi, H., [1977, p.30-39, eng] 34-901
Dynamics of natural processes in highlands. Maksimov, E.V., ed, [1977, 131p., rus] 34-1093
Relation between orography and recent glaciation of Zailiyskiy Alatau. Vilesov, E.N., [1977, p.60-76, rus] 34-1094
Hydraulic regime of glacial rivers and the controlling role of glaciers. Sokolov, D.P., [1977, p.77-83, rus] 34-1095
Glaciology of mountain regions. Suslov, V.F., ed, [1979, 160p., rus] 34-1120
Firn-ice avalanches in the Fortambek glacier basin. Fretfel'd, V.IA., [1979, p.95-103, rus] 34-1131
New data on recent glaciation of the Fedchenko glacier system (for the "atlas of snow-ice resources of the world"). Shchetinnikov, A.S., [1979, p.113-121, rus] 34-1133
Calculating vertical ice distribution from the *Catalog of Glaciers in the USSR*, for evaluating runoff from mountain basins. Glazyrin, G.E., et al, [1979, p.122-126, rus] 34-1134
Distribution of glaciation according to altitudinal zones. Kamalov, B.A., [1979, p.127-129, rus] 34-1135
Model of snow line shifting on a glacier surface during ablation periods. Konovalov, V.G., [1979, p.130-138, rus] 34-1136
Calculating surface melting of the Goiubin glacier and its part in total runoff from the Alaarcha River basin. Alzin, B.V., [1979, p.139-145, rus] 34-1137
Studying atmospheric pollution from glacial deposit analysis. Voronskaia, G.N., et al, [1979, p.146-151, rus] 34-1138
Calculating and forecasting glacier ablation in Central Asia. Konovalov, V.G., [1979, 232p., rus] 34-1139
Variation of the turbulent exchange on a mountain glacier. Davidovich, N.V., et al, [1974, p.367-379, eng] 34-1206
Palynological data for the characterization of the snow-firn strata of the Gergeti Glacier. Psareva, T.V., et al, [1974, p.396-406, eng] 34-1208
New map "Gepatschferner 1971", scale 1:10,000. Brunner, K., [1978, p.133-151, ger] 34-1265
Statistical approach to the study of glacier morphology in the Kamchatka Peninsula. Vinogradov, V.N., et al, [1979, p.325-329, rus] 34-1388
Regime of glaciers and snow avalanches in Kazakhstan. Tokmagambetov, G.A., ed, [1979, 175p., rus] 34-1970
Distribution of atmospheric precipitation on northern slopes of the Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskii, I.V., [1979, p.37-46, rus] 34-1974
Formulas for calculating the ice melting temperature coefficient for Zailiyskiy Alatau glaciers. Plekhanov, P.A., [1979, p.72-85, rus] 34-1976
Linear models for calculating drainage from glacier basins Borovikova, L.N., et al, [1979, p.85-95, rus] 34-1977
Ice and meteorological regimes, mass balance and drainage from mountain glaciers of the Tuiuksu Basin. Makarevich, K.G., et al, [1979, p.96-109, rus] 34-1978
Glacial runoff from the Ili River Basin. Chekhonadskaia, V.A., et al, [1979, p.110-120, rus] 34-1979
Surface kinematics of a mountain valley glacier. Makarevich, A.K., [1979, p.120-124, rus] 34-1980
Direct determination of the velocity of glacier ice movement at the surface Makarevich, K.G., et al, [1979, p.125-131, rus] 34-1981
Recent glaciation of the Kungey Alatau Range. Vilesov, E.N., [1979, p.132-142, rus] 34-1982
Mass balance of some Bish-Iirdu glaciers. Okishev, P.A., [1967, p.16-21, rus] 34-1989
Dependence of Aktru glacier ablation on positive air temperature. Dushkin, M.A., et al, [1967, p.22-41, rus] 34-1990
Observing surface flow rates of the Aktru glaciers Olelnik, I.IA., [1967, p.66-97, rus] 34-1991
Soviet glaciological investigations in 1978. Kotliakov, V.M., et al, [1979, p.5-12, rus] 34-2174
Plotting elevations of the alimentation and accumulation lines for Gissar-Alay glaciers Rototaeva, O.V., [1979, p.42-51, rus] 34-2179
Vertical air temperature gradients in the Pamirs. Davidovich, N.V., [1979, p.56-61, rus] 34-2181
Geological action of glaciers in the Eastern Pamirs. Demchenko, V.V., [1979, p.81-85, rus] 34-2186
Late quaternary ice cover of the Pamirs. Grosval'd, M.G., et al, [1979, p.85-97, rus] 34-2187
Snow survey techniques in mountain glacier basins Zhidkov, V.A., [1979, p.159-168, rus] 34-2198
Using distribution functions in calculating seasonal snow melting on slopes around the Dzhankuat glacier. Pylev, I.V., et al, [1979, p.169-173, rus] 34-2199
Problems in studying glaciological terminology. Kotliakov, V.M., [1979, p.179-184, rus] 34-2202
Large runoff values from glacier basins located in the dry climate zone of the Altai. Gerasimenko, O.M., [1979, p.203-204, rus] 34-2208
Mappable indices of glacier surface orientation. Kuz'michenok, V.A., [1979, p.214-216, rus] 34-2212
Switzerland and its glaciers from the ice age to the present. [1979, 191p., ger] 34-2356
Statistical characteristics of basic mass balance components of glaciers: accumulation and ablation. Glazyrin, G.E., et al, [1979, p.43-50, rus] 34-2881
Melting and runoff in glaciated areas. Konovalov, V.G., [1979, p.51-63, rus] 34-2882
Role of Kamchatka glaciers in river alimentation and the formation of solid runoff. Stepanova, A.I., [1979, p.110-116, rus] 34-2897
Regularities governing spatial distribution of mountain glaciers. Glazyrin, G.E., et al, [1979, p.73-81, rus] 34-3121
Origin of the Verkhoyansk-Kolyma mountain glacier system. Sheinkam, V.S., [1979, p.102-107, rus] 34-3124
Water-ice balance of the Abramov Glacier Basin. Akbarov, A.A., et al, [1979, p.113-119, rus] 34-3126
External mass transfer of mountain glaciers during degradation (the Dzhankuat glacier). Golubev, G.N., et al, [1979, p.126-132, rus] 34-3127
Calculating avalanche alimentation of glaciers. Kharitonov, G.G., [1979, p.155-159, rus] 34-3132
Studies of mountain glaciers by the Geography Department of Leningrad University during the IHD. Aigina, N.P., et al, [1979, p.160-165, rus] 34-3133
Surging Didal' glacier. Uskov, IU.S., et al, [1979, p.170-175, rus] 34-3135
Recent glaciation of the Cherskiy mountain system. Sheinkman, V.S., [1979, p.185-194, rus] 34-3138
Melting field of the Dzhankuat mountain valley glacier. Zhuk, V.A., et al, [1979, p.197-202, rus] 34-3139
Subdivision of runoff hydrographs from mountain glacier basins. Pylev, I.V., [1979, p.202-206, rus] 34-3140
New glaciers on the Tel'pos-iz range. Dolgushin, L.D., et al, [1979, p.214-218, rus] 34-3143
Glaciers on topographic maps and in the Glacier Catalog of the USSR. Kuz'michenok, V.A., [1979, p.249-255, rus] 34-3148
Remarks on the V.A. Kuz'michenok paper "Glaciers on topographic maps and in the Glacier Catalog of the USSR". Vinogradov, O.N., [1979, p.255-257, rus] 34-3149
Snow cover and precipitation in the mountains of Central Asia. Getker, M.I., ed, [1978, 98p., rus] 34-3344
Seasonal snow line dynamics as indication of snow reserve gradient. Bassin, N.S., et al, [1978, p.22-25, rus] 34-3346
Problems of mountain glaciology. [1977, 212p., rus] 34-3379

Mountain glaciers *(cont.)*
Glacio-climatology as a connecting scientific discipline, its problems and goals. Tronov, M.V., [1977, p.3-11, rus] 34-3380
Intracontinental version of earth's cryosphere. Reviakin, V.S., [1977, p.12-35, rus] 34-3381
Mass balance of Altai glaciers. Reviakin, V.S., et al, [1977, p.116-130, rus] 34-3385
Workshop of the Glaciology Section and tutorial seminar, Zvenigorod, June 1979. Barbash, V.R., [1979, p.5-29, rus] 34-3684
Interrelations and succession in the compilation of thematic sections of the World Atlas of Snow and Ice Resources. Dreier, N.N., [1979, p.37-42, rus] 34-3688
Morphological properties of the Tien Shan glacier system in the 1:1 500 000 maps of the World Atlas of Snow and Ice Resources. Vinogradov, O.N., et al, [1979, p.47-56, rus] 34-3690
Mapping Alai Range glaciers from photographs taken by the *Soyuz-22* spaceship. Kravtsova, V.I., et al, [1979, p.56-62, rus] 34-3691
Compiling 1:3 000 000 glacioclimatic maps for the World Atlas of Snow and Ice Resources. Davidovich, N.V., et al, [1979, p.66-71, rus] 34-3693
Combined method of calculating glacial runoff in mountains. Vladimirov, L.A., [1979, p.94-99, rus] 34-3698
Radar sounding of Spitsbergen glaciers from helicopters. Macheret, IU.IA., et al, [1979, p.109-1[illegible] rus] 34-3701
Computerized solution of two-dimensional inverse problems of radar surveys of ice thickness and subglacial relief of mountain glaciers. Berikashvili, V.Sh., et al, [1979, p.131-139, rus] 34-3703
Determining mountain glacier volumes from helicopter radar survey data. Zhuravlev, A.B., [1979, p.140-148, rus] 34-3704
Possibilities of linear models for calculating glacial runoff hydrographs. Fretdlin, V.S., [1979, p.149-155, rus] 34-3705
Using hydrochemical data from mountain-glacier basins in glaciological and hydrological computations. Zaslavskaia, M.B., et al, [1979, p.187-192, rus] 34-3712
Glaciological investigations of the tropical Quelccaya ice cap, Peru. Thompson, L.G., [1980, p.69-84, eng] 34-3799
Hydrochemical regime of the Severtsov glacier. Kamalov, L.F., [1978, p.74-76, eng] 34-3968
Regime of the present-day glaciation of the Caucasus. Kotliakov, V.M., et al, [1979, p.7-21, eng] 34-3970
Glaciers of the Austrian Alps, 1977/78. Kinzl, H., [1979, p.105-113, ger] 34-3979
Flow of salt glaciers. Wenkert, D.D., [1979, p.523-526, eng] 34-3993
Regularities governing the development of the topography and glaciers of Tien Shan. Zabirov, R.D., ed, [1980, 110p., rus] 34-4004
Snow accumulation on Central Tien Shan glaciers. Safonova, A.A., [1980, p.58-67, rus] 34-4008
Periglacial flora of the Katunskiy Range. Polozhii, A.V., et al, [1979, p.18-23, rus] 34-4085

Mountain soils
Mountain and forest chernozem-like soils on the eastern slope of Kuznetskiy Alatau. Tanzybaev, M.G., [1979, p.217-224, rus] 34-458
Bioenergetic diagnostics of mountain-forest soils in the Amur River area. Sapozhnikov, A.P., et al, [1979, p.224-230, rus] 34-459
Soil forming factors in the Rocky Mountains of Southwestern Alberta, Canada. Howell, J.D., et al, [1978, p.313-324, eng] 34-797
Central taiga soil cover in Eastern Transbaikal. Alifanov, V.M., [1975, p.159-161, rus] 34-1859
Mountain landscape protection in Siberia. Krylov, G.V., ed, [1973, 251p., rus] 34-1863
Microclimatic variations and pine forest revegetation in relation to economic development of the Sayan low mountain belt. Gaas, A.A., [1973, p.78-87, rus] 34-1870
Utilization of mountain forests in the Kuznetskiy Basin. Kalinin, A.M., [1973, p.87-92, rus] 34-1871
Role of mountain forests of eastern Transbaikal and the Lake Baykal problem. Panarin, I.I., [1973, p.98-102, rus] 34-1873
Resistance of some West Siberian forests. Taran, I.V., [1973, p.103-107, rus] 34-1874
Rational use and preservation of Magadan area forests. Snytkin, G.V., [1973, p.119-125, rus] 34-1875
Identification of some Norwegian mountain soil types. Ellis, S., [1979, p.201-212, eng] 34-2386
Intensity of gully formation in the intermontane troughs of southern Srednee Priamur'e. Miskina, L.V., [1978, p.123-132, rus] 34-2536
Geochemical structure of West Sayan foothill geosystems. Kochurov, B.I., et al, [1977, p.59-72, rus] 34-3815
Botanical objects of environmental protection near the lower Lena River. Trufanova, E.R., [1979, p.20-23, rus] 34-4108

Mountain tundra
See: Alpine tundra

Mountains
Snow and road pavements in western Himalayas. Soin, J.S., et al, [1979, p.135-140, eng] 34-73
Numerical simulation of jet roof geometry for snow cornice con[illegible]. Dawson, K.L., et al, [1979, 19p., eng] 34-778
Mountain geology and land-use implications, proceedings of the symposium of the International Geographical Union, Commission on High-altitude Geoecology, Caucasus Mountains, USSR, July 1976. Ives, J.D., ed, [1978, p.159-548, eng] 34-790
Review of snow melt in the mountain environment. Obled, C., et al, [1979, p.179-204, eng] 34-1017
Proceedings of the Davos Seminar, September 1978, [1979, 258p., eng] 34-1777
Allowing for mudflows and snow avalanches when designing and building the Orenburg-west USSR boundary gas pipeline. Alzenberg, M.M., et al, [1978, p.75-85, rus] 34-2051
Hydrogeological surveying in high mountains. Sokolovskii, L.G., et al, [1979, p.43-46, rus] 34-2126
Landscape-geographic technique of mapping snow cover under complicated orographic conditions. Kondakova, N.L., [1979, p.139-143, rus] 34-2194
Hydrometeorological conditions of the formation of snow-loaded streams. Freidlin, V.S., [1979, p.198-200, rus] 34-2206
Regional types of mining-affected lands in East Siberia and trends in their restoration. Savel'eva, I.L., et al, [1978, p.98-102, rus] 34-2247
Seasonal variations in the relationship between the number of days with snow cover and elevation in high mountains. Steinhauser, F., [1979, p.313-322, rus] 34-2303
Detection of frost shattering in high mountains by means of photography in the blue and near ultraviolet spectra. Galibert, G., [1979, p.81-92, fre] 34-2318
Studies of radiative cooling at land basins in snowy season. Ishikawa, N., [1977, p.1-46, eng] 34-2427
Regularities governing natural phenomena and their forecasting. Agarkov, S.I., ed, [1980, 271p. (Pertinent p.87-162), rus] 34-2529
Especially dangerous icings in the Crimean mountains. Koshenko, A.M., [1977, p.3-12, rus] 34-2890
Route snow surveys in Siberian mountains. Kharshan, A.A., [1978, p.124-127, rus] 34-2895
Changes in thermal conditions of landscapes in the monsoon-permafrost mountain taiga of the Central and Lower Amur River area. Golubchikov, IU.N., [1980, p.62-73, rus] 34-3029
Airborne gamma survey of soil moisture and snow cover. Nikiforov, M.V., ed, [1980, 128p., rus] 34-3541
Present state of airborne gamma surveys of snow cover and soil moisture. Nikiforov, M.V., [1980, p.6-27, rus] 34-3543
Highway design. Pt. 2. Babkov, V.F., et al, [1979, 407p. (Pertinent p.230-344), rus] 34-3600
Possibility of indirect determination of solid precipitation intensity. Bogdanova, E.G., [1979, p.161-165, rus] 34-3707
Computing precipitation in mountains using precipitation gages. Sudakov, P.A., et al, [1979, p.166-172, rus] 34-3708
Water regime of plants in the medium altitude belts of Khamar-Daban and West Sayan Mountains. Kozlova, L.N., [1979, p.96-115, rus] 34-3775
Dynamics of soil-geochemical indices in taiga permafrost geosystems. Shchetnikov, A.I., [1977, p.43-58, rus] 34-3814
Periglacial features from Morfee Mountain, North-Central British Columbia. Revel, R.D., [1980, p.349-356, eng] 34-3871

Mud
Preconstruction consolidation of bases with vertical drains. Bel'skii, A.I., et al, [1980, p.266-272, eng] 34-3371

Mud circulation
See: Drilling fluids

Mudflows
Avalanche and mudflow danger in areas of future economic development of the western Caucasus. Zalikhanov, M.Ch., et al, [1979, p.56-69, rus] 34-610
Protection from glacial mudflows. Voitkovskii, K.F., et al, [1979, p.191-198, rus] 34-1553
Problems and results of avalanche and mudflow studies by Moscow University geographers. Miagkov, S.M., et al, [1979, p.52-57, rus] 34-1639
Dangerous phenomena on northern slopes of Sarydzhas and Terskey Alatau ranges in the Narynkol-Karkara interfluve. Severskii, I.V., et al, [1979, p.146-161, rus] 34-1984
Mudflow sources in the Ukrainian Carpathians. Alzenberg, M.M., et al, [1978, p.64-70, rus] 34-2050
Allowing for mudflows and snow avalanches when designing and building the Orenburg-west USSR boundary gas pipeline. Alzenberg, M.M., et al, [1978, p.75-85, rus] 34-2051
Afforestation of stony slopes of the Gissar Range. Khvorov, N.A., et al, [1979, p.55-57, rus] 34-2111
Glacial mudflows, not related to glacier-damned lakes, in the Gerkhozhan-Su Basin, North Caucasus. Fleishman, S.M., et al, [1979, p.195-198, rus] 34-2205
Secrets of natural ice in Kazakhstan. Tokmagambetov, G.A., [1978, 151p., rus] 34-2312
Regularities governing natural phenomena and their forecasting. Agarkov, S.I., ed, [1980, 271p. (Pertinent p.87-162), rus] 34-2529
Studies and forecasts of mudflows in construction. Dumitrashko, N.V., [1979, p.67-72, rus] 34-2748
Engineering-geomorphological peculiarities of studying the Baykal Amur railroad area. Voskresenskii, S.S., et al, [1979, p.109-120, rus] 34-2751
Glacial mudflows in the Baykal Amur railroad area. Perov, V.F., et al, [1979, p.148-159, rus] 34-2755
Mudflows in the Baykal Amur railroad area. Balabaev, F.G., [1979, p.115-117, rus] 34-2898
Mystery flood solved. Jackson, L.E., Jr., [1979, p.2-4, eng] 34-3060
Program and guide for compilation of the applied part of the *World atlas of snow and ice resources*. [1979, p.35-63, rus] 34-3117
Addenda to the program and instructions for compiling mudflow maps in the regional part of the *World atlas for snow and ice resources*. Perov, V.F., [1979, p.63-66, rus] 34-3118
Mudflow outbursts of the Kakhab-Roson morainic lake in Dagestan. Poznanin, V.L., [1979, p.218-223, rus] 34-3144
Calculating nonstationary flow rates of landslide-mudflows. Shadunts, K.Sh., et al, [1976, p.369-376, rus] 34-3225
Mudflows in the Baksan River Basin in the summer of 1977. Gerasimov, V.A., [1980, p.137-147, rus] 34-3429
Mudflow damage to the village of Nizhniy Chegem on July 7, 1977. Gerasimov, V.A., [1980, p.148-151, rus] 34-3430
Possibility of mudflows in the Angarakan River valley. Murzin, IU.A., [1979, p.27-31, rus] 34-3468
Evaluating mudflow dangers in the Baykal Amur railroad area and regularities of mudflow formation. Lekhatinov, A.M., [1979, p.86-92, rus] 34-3479
Mudflows in the Kem River basin. Matveeva, F.I., et al, [1979, p.25-30, rus] 34-3562
Preliminary analysis of synoptic climatic peculiarities favoring mudflow formation in Primor'e. Glubokov, V.N., et al, [1979, p.31-39, rus] 34-3563
Recent exogenic processes in the southeastern Lake Baykal area and their influence on hydromeliorative construction. Imetkhenov, A.B., [1979, p.94-104, rus] 34-4100

Muskeg
Proceedings of the seventeenth Muskeg Research Conference, 4 October 1977. Williams, G.P., ed, [1978, 187p., eng] 34-2904
In situ response of muskeg to dynamic loading. Sheeran, D.E., et al, [1978, p.11-24, eng] 34-2906
Construction, widening and performance of a freeway across organic terrain. Mirza, C., [1978, p.50-80, eng] 34-2909
Use of "muskeg caps" to deter frost penetration under transmission line tower bases. Sims, R.A., [1978, p.116-131, eng] 34-2911
Stabilization of muskeg by chemical treatment. Sethi, A.J., et al, [1978, p.132-150, eng] 34-2912
Role of fabric in low embankments on muskeg. Greenway, D.R., et al, [1978, p.165-181, eng] 34-2914

Naleds
Hydrogeological problems of the Baykal Amur railroad. Pinneker, E.V., et al, [1977, p.66-70, rus] 34-995
Hydrogeochemical investigations of the BAM zone. Lomonosov, I.S., [1977, p.87-94, rus] 34-996
Geography of Siberian resource development. Kosmachev, K.P., ed, [1979, 107p., rus] 34-1099
Interaction between natural and technical systems (railroad track operation taken as an example). Kaiuchkin, N.P., [1979, p.33-46, rus] 34-1101
Geomorphic processes on the north slope of Alaska. Hall, D.K., [1979, 25p., eng] 34-1169
Subsurface drainage in Siberia and methods of its investigation. Shen'kman, B.M., ed, [1979, 136p., rus] 34-1936
Role of naleds in chemical element migration in water. Ivanov, A.V., [1979, p.41-66, rus] 34-1937
Role of lake and naled ice in the formation of natural dynamic systems. Ivanets, B.S., et al, [1976, p.57-66, rus] 34-2011
Glacial-nival systems of the Pamirs and Gissar-Alay. Kotliakov, V.M., et al, [1979, p.25-33, rus] 34-2177
Ground ice and naleds in the Pamirs. Korelsha, M.M., [1979, p.71-76, rus] 34-2184
Summer heat balance and environmental conditions of periglacial naleds in the Pamirs. Lebedeva, I.M., [1979, p.76-81, rus] 34-2185
Problems in studying glaciological terminology. Kotliakov, V.M., [1979, p.179-184, rus] 34-2202
Regularities governing natural phenomena and their forecasting. Agarkov, S.I., ed, [1980, 271p. (Pertinent p.87-162), rus] 34-2529
Space methods of studying valleys and naleds in the Chul'man region. Topchiev, A.G., [1979, p.169-175, rus] 34-2758
Development of permafrost and ground water naleds in the Iengra River Basin (the Baykal Amur railroad area). Boltsov, A.V., [1979, p.98-107, rus] 34-2781
Naleds in the Aldan-Timpton interfluve. Chizhova, N.I., [1980, p.60-63, rus] 34-2801
Naleds and injected ice in the Buordakh River valley. Klimovskii, I.V., [1978, p.118-125, rus] 34-2929

Naleds and countermeasures. Shushakov, E.V., [1979, 64p., rus] 34-3073
Naleds in Central Asian and Kazakhstan mountains. Gorbunov, A.P., et al, [1979, p.175-181, rus] 34-3136
Forecasting naled formation on small streams crossed by the Baykal Amur railroad. Samochkin, V.M., [1977, p.72-90, rus] 34-3176
Pressure of naled ice on culvert walls in areas with severe climatic conditions. Ivchenko, A.B., [1977, p.91-100, rus] 34-3177
Field studies of naleds. Alekseev, V.R., et al, [1980, 152p., rus] 34-3189
Intracontinental version of earth's cryosphere. Reviakin, V.S., [1977, p.12-35, rus] 34-3381
Marine naleds in the Chaunskaya Bay. Chagulov, A.K., [1979, p.109-111, rus] 34-3534
Workshop of the Glaciology Section and tutorial seminar, Zvenigorod, June 1979. Barbash, V.R., [1979, p.5-29, rus] 34-3684
Resolutions of the Glaciology Section workshop, June 1979. [1979, p.29-33, rus] 34-3685
Interrelations and succession in the compilation of thematic sections of the World Atlas of Snow and Ice Resources. Dreier, N.N., [1979, p.37-42, rus] 34-3688
Long term dynamics of groundwater icings. Romanovskiĭ, N.N., et al, [1980, p.195-207, eng] 34-3841
Mineral precipitation in North Slope river icings. Hall, D.K., [1980, p.343-348, eng] 34-3870
Formation of accumulative relief of the Ogoronskaya Basin (ea rn part of the Baykal Amur railroad) under permafrost conditions. Kopylov, I.F., et al, [1979, p.9-14, rus] 34-4102

Natural gas
Cost of natural gas production in the Yakut ASSR. Popova, V.K., [1977, p.86-92, rus] 34-118
Arun LNG plan onstream in Indonesia. Inman, H., et al, [1979, p.22-26, eng] 34-140
Dryout, cooldown keyed Cove Point commissioning. Venendaal, B., [1979, p.28-38, eng] 34-141
Thermophysical characteristics of moisture and gas-saturated sandstones at naturally low temperatures. Grolsman, A.G., et al, [1975, p.106-107, rus] 34-229
Prudhoe Bay natural gas pipeline systems. [1976, 89p. (Pertinent p.62-82), eng] 34-1358

Natural resources
Values and resource analysis, Vol.2. [1978, c.200p. + maps, eng] 34-21
Inuit natural resource use in southeast Baffin region. [1978, var.p., eng] 34-496
Report of the Joint U.S.-Canadian Northern Civil Engineering Research Workshop. Carlson, R.F., ed, [1978, 72p., eng] 34-771
Susitna River basin resource bibliography; supplement 1979. Lockhart, D., comp., [1979, 244p., eng] 34-2482
Baykal Amur railroad and economic development of the Transbaikal region. Nedeshev, A.A., et al, [1979, 158p., rus] 34-2483
Engineering at the ends of the earth: polar ocean technology for the 1980's. [1979, 74p., eng] 34-2712
Proceedings. [1979, 271p., eng] 34-3437
Far North: nature and man. Prospects of economic development. Kriuchkov, V.V., [1979, 127p., rus] 34-3668

Navigation
Water resources development. [1979, 50p., eng] 34-2134
Marine transportation systems of the Trans-Alaska Pipeline System. [1971, 158p., eng] 34-2357
Arctic flying. Buck, B.M., et al, [1979, 199p., eng] 34-2987
Accuracy in determining ship position with the Transit navigational satellite system. Abramov, B.I., et al, [1979, p.136-142, rus] 34-3091
Transportation under economic and geographic conditions of the Yakut ASSR. Belinskiĭ, B.V., ed, [1976, 104p., rus] 34-3337
Extending the navigation period on Yakutian rivers. Zernov, S.IA., [1976, p.41-51, rus] 34-3340
See also: Ice navigation; Subglacial navigation

Needle ice
See: Ice needles

Neutron irradiation
Measurement of the intrinsic thermal expansion of irradiation defects in aluminum at low temperature. Ganne, J.P., et al, [1979, p.634-636, eng] 34-272

New Zealand
Physical hydrology; New Zealand experience. Murray, D.L., ed, [1979, 229p., eng] 34-3
Snow hydrology. Fitzharris, B.B., [1979, p.23-43, eng] 34-4

Nivation
Firn field types in the Aktru Basin and their relation to glaciation. Ivanov, N.I., [1967, p.205-226, rus] 34-1994
Nivation: an arctic-alpine comparison and reappraisal. Thorn, C.E., et al, [1980, p.109-124, eng] 34-3803

Noise (sound)
Noise accompanying the breakup of ice by the hull of an icebreaker. Bogorodskiĭ, P.V., et al, [1979, p.73-74, eng] 34-194
Study of ambient noise levels in the marginal-sea-ice zone east of Greenland. Peters, K.W., [1979, 162p., eng] 34-1048
Studying noise and vibration on icebreakers of the "Kapitan Sorokin" type. Zinchenko, V.I., et al, [1979, p.51-68, rus] 34-3475
Arctic hydroacoustics. Diachok, O., [1980, p.185-207, eng] 34-3630

Nomenclature
See: Terminology

Nomographs
Nomogram for determining total ice content of frozen ground. Shender, N.I., [1978, p.115-117, rus] 34-2928

North America
Sea ice. Part 2: ice distribution and forecast services, North American Arctic waters. Wittmann, W., et al, [1973, p.343-355, eng] 34-1961

North Atlantic Ocean
Report of the International Ice Patrol Service in the North Atlantic Ocean. Season of 1978. [1979, 39p., eng] 34-1646

Northern Passage
Petroleum development in northern Alaska. Bregha, F., [1979, p.223-253, eng] 34-3440

Norway
Sediment transport studies at selected Norwegian glaciers 1978. Ekman, S.R., et al, [1979, 39p., nor] 34-1335
Identification of some Norwegian mountain soil types. Ellis, S., [1979, p.201-212, eng] 34-2386

—Bödalsbre Glacier
Saw-tooth moraines in front of Bödalsbreen, southern Norway. Matthews, J.A., et al, [1979, p.535-546, eng] 34-3790

—Spitsbergen
Water-ice balance of Spitsbergen glaciers in the 1976-77 balance year. Gus'kov, A.S., [1979, p.211-214, rus] 34-3142
Thermal state of waters in the northern Greenland Sea in February 1972 (from data obtained along the Barentsburg-ice edge cross-section). IAnes, A.V., [1979, p.37-42, rus] 34-3587
Radar sounding of Spitsbergen glaciers from helicopters. Macheret, IU.IA., et al, [1979, p.109-131, rus] 34-3701
Oxygen isotope studies of ice cores from the ice-divide of Grønfjord and Fritjof glaciers (West Spitsbergen Island). Punning, IA.M.K., et al, [1979, p.173-177, rus] 34-3709

Nuclear explosions
Activities of military units in winter. Shubin, B., et al, [1979, p.77-80, rus] 34-256

Nuclear magnetic resonance
An NMR study of the phase transition of water in models and in frozen clays. Kvlividze, V.I., et al, [1980, p.81-96, eng] 34-3833

Nuclear wastes
See: Radioactive wastes

Nucleating agents
Ice nucleation by aerosol particles: experimental studies using a wedge shaped ice thermal diffusion chamber. Schaller, R.C., et al, [1979, p.1788-1802, eng] 34-1382
Laboratory examination of the ice-nucleating ability of AgI-aerosol using a low pressure filter processor. Young, K.C., [1978, 20p., eng] 34-1802
Determining particle distribution of ice-forming reagents in clouds using the Setton diffusion model. Klingo, V.V., et al, [1979, p.41-50, rus] 34-2012
Heterogeneous nucleation by organic crystalization nuclei. Girs, S.P., et al, [1979, p.76-82, rus] 34-2015
Evaluating the contact nucleation mechanism after introduction of crystal-forming agents into supercooled clouds. Klingo, V.V., et al, [1979, p.39-46, rus] 34-3569
Studying variations in surface electrical conductivity of some ice-forming substances interacting with water vapor. Vlasov, S.A., et al, [1979, p.76-81, rus] 34-3574
Nucleation of ice by sorption on monodisperse silver iodide particles in the 20-1200A diameter size range. Rosinski, J., et al, [1980, p.1464-1468, eng] 34-3621
Relationships among lead, iodine, trace metals and ice nuclei in a coastal urban atmosphere. Borys, R.D., et al, [1979, p.1490-1494, eng] 34-3996
See also: Dry ice (trademark); Silver iodide

Nucleation
See: Artificial nucleation; Heterogeneous nucleation; Homogeneous nucleation

Nuclei
See: Condensation nuclei; Freezing nuclei; Hygroscopic nuclei; Ice nuclei; Organic nuclei; Snow crystal nuclei

Numerical analysis
See: Analysis (mathematics)

Numerical models
See: Mathematical models

Nunataks
Photo-geomorphic map of the Mt. Menzies nunatak, Prince Charles Mountains, Australian Antarctic Territory. Derbyshire, E., et al, [1978, p.17-26, eng] 34-662

Nutrient cycle
Transport, retention, and effects of the water-soluble fraction of Cook Inlet crude oil in experimental food chains. Whipple, J.A., et al, [1979, p.535-581, eng] 34-17
Phosphorus regeneration in fresh-water paramecia. Buechler, D.G., et al, [1974, p.339-343, eng] 34-201
Biological productivity of the southern Beaufort Sea: the physical-chemical environment and the plankton. Grainger, E.H., [1975, 82p., eng] 34-504
Nutrient chemistry of a large, deep lake in subarctic Alaska. LaPerriere, J.D., et al, [1977, 128p., eng] 34-624
Environmental chemistry and cycling processes. [1978, 911p., eng] 34-907
Problems of synthesis in mineral cycling studies: the tundra as an example. Miller, P.C., [1978, p.59-71, eng] 34-908
Phosphorus dynamics of wet coastal tundra soils near Barrow, Alaska. Barèl, D., et al, [1978, p.516-536, eng] 34-909
Controls on decomposition and mineral release in wet meadow tundra—a simulation approach. Barkley, S.A., et al, [1978, p.754-778, eng] 34-911
Effect of Prudhoe crude oil on carbon assimilation by planktonic algae in an Arctic pond. Miller, M.C., et al, [1978, p.833-850, eng] 34-912
Nitrogen-fixing moss associations in the subalpine zone of the White Mountains, New Hampshire. Lambert, R.L., et al, [1979, p.325-333, eng] 34-1285
Low temperature biological denitrification of wastewater. Sutton, P.M., et al, [1974, p.380-402, eng] 34-1482
Phosphorus removal by lime addition to conventional anaerobic stabilization facility. Lechner, L.J., et al, [1974, p.570-586, eng] 34-1490
Nitrogen compound transformations in some Baraba Plain soils. Gantimurova, N.I., [1979, p.60-86, rus] 34-1808
Temperature and humidity effect on biological nitrogen fixation in leached chernozem with different organic additives. Mozzherin, N.M., [1979, p.174-178, rus] 34-1812
Role of mineral fertilizers in the increase of productivity of cryogenic soils in Eastern Transbaikal. Gershevich, E.G., et al, [1975, p.161-162, rus] 34-1860
Relationships between snow cover and winter losses of dissolved substances from a mountain watershed. Lewis, W.M., Jr., et al, [1980, p.11-17, eng] 34-2273
Biogeocenologic studies in planted meadows of East-European tundra. Archegova, I.B., ed, [1979, 190p., rus] 34-2306
Ecotypic differentiation in *Carex aquatilis* on ice-wedge polygons in the Alaskan coastal tundra. Shaver, G.R., et al, [1979, p.1025-1046, eng] 34-2496
Effects of swamp drainage, afforestation and nutrients on the dynamics of chemical composition of soil solutions. Melent'eva, N.V., [1978, p.131-135, rus] 34-2524
Simplified model for prediction of nitrogen behavior in land treatment of wastewater. Selim, H.M., et al, [1980, 49p., eng] 34-3263
Influence of freezing on nutrient content of hydromorphic soils. Rudol, N.G., et al, [1978, p.148-1 0, rus] 34-3362
Nitrogen transformations in a simulated overland flow wastewater treatment system. Chen, R.L., et al, [1980, 33p., eng] 34-3365
Geographic peculiarities of metabolism and energy exchange in pine forests of Karelia and Murmansk region. Ziabchenko, S.S., et al, [1980, p.52-60, rus] 34-3864

Ocean atmosphere interactions
See: Air water interactions

Ocean bottom
Polar gas project. Kaustinen, O.M., [1980, p.36-39, 54, eng] 34-3445

Ocean currents
Numerical investigation of Arctic Ocean circulation. Semtner, A.J., Jr., [1973, 251p., eng] 34-2
Analysis of ocean currents Davis Strait—1977. Osborn, T.R., et al, [1978, 2 vols., eng] 34-307
Final report 1977 ocean current study. Goodman, R.H., et al, [1978, 24p. + appends., eng] 34-314
Some sea ice cover statistics for the Canadian east coast. Fraser, J.E., [1975, 28p., eng] 34-316
Davis Strait surface drifter buoys program 1977. Metge, M., [1978, 69p., eng] 34-317
Canadian Arctic field survey, May 17-June 23, 1969. Atwater, R.K., et al, [1969, 35p. + appends., eng] 34-322
Oceanographic observations in Barrow Strait and Wellington Channel, N.W.T., April 1973. Herlinveaux, R.H., et al, [1978, 170p., eng] 34-367
Subsurface current measurements in eastern Lancaster Sound, N.W.T., summer 1977. Fissel, D.B., et al, [1978, 72p., eng] 34-370
Field report on the oceanographic cruises during April, July-August, October-November, 1976. [1977, var.p., eng] 34-430
Some results from a linear-viscous model of the Arctic ice cover. Hibler, W.D., III, et al, [1979, p.293-304, eng] 34-544
Environmental conditions in Baffin Bay and Davis Strait. [1972, 144p., eng] 34-577

Ocean currents *(cont.)*
Surface current study of eastern Parry Channel, N.W.T. summer 1977. Fissel, D.B., et al, [1978, 66p., eng] 34-592
Ice and current measurements program Beaufort Sea. [1970, c.65p., eng] 34-595
Characteristics of antarctic sea ice as determined by satellite-borne microwave imagers. Zwally, H.J., et al, [1976, p.94-97, eng] 34-815
Anisotropic properties of sea ice in the 50- to 150-MHz range. Kovacs, A., et al, [1979, p.5749-5759, eng] 34-963
Basis for forecasting the Arctic sea ice over a few months to many years. Lamb, H.H., [1979, 84p., eng] 34-1046
Motion of icebergs due to changes in water currents. Sodhi, D.S., et al, [1975, p.348-350, eng] 34-1231
Long-term tracking of Arctic icebergs. Robe, R.Q., et al, [1979, 41p., eng] 34-1354
Finestructure, fronts and currents in the Pacific marginal sea-ice zone-MIZPAC. Small, W.E., [1979, 85p., eng] 34-1355
Oceanography of the Grand Banks region of Newfoundland in 1973. Hayes, R.M., et al, [1978, 448p., eng] 34-1364
Crystal alignments in the fast ice of Arctic Alaska. Weeks, W.F., et al, [1979, 21p., eng] 34-1379
Fall ice drift in Nares Strait, as observed by sideways-looking airborne radar. Dunbar, M., [1979, p.283-307, eng] 34-1615
Numerical investigation of the Bering Sea circulation using a linear homogeneous model. Han, Y.-J., et al, [1979, 37p., eng] 34-1729
Physical oceanography from the Arctic ice pack: Project AIDJEX STD programs. Amos, A.J., [1975, 17p., eng] 34-1731
Instability of internal waves as a mechanism of heat transfer from Atlantic waters to the Arctic Basin. Alekseev, G.V., et al, [1979, p.118-125, eng] 34-1893
Evaluation of spatial scales of disturbances and determination of some characteristics of turbulence in the Chukchi Sea. Izmailov, V.V., [1979, p.22-29, eng] 34-1899
Univariate model of the seasonal pycno-wedge and homogeneous layer in the Arctic Basin. Ponomarev, V.I., [1979, p.37-47, rus] 34-1997
Asymmetric dynamics of ice cover. Ivchenko, V.O., et al, [1979, p.99-106, rus] 34-2003
Proceedings. [1979, 291p., eng] 34-2036
Recent oceanographic observations in the Labrador current. Lazier, J.R.N., [1979, p.195-204, eng] 34-2039
Geostrophic calculations for the Labrador current. Keeley, J.R., [1979, p.201-218, eng] 34-2040
Studies of heat and mass transfer at the lower surface of the Ross Ice Shelf. Zotikov, I.A., et al, [1979, p.178, rus] 34-2201
Open water surface currents. MacNeill, M.R., et al, [1975, 113p., eng] 34-2399
Ocean eddy structure by satellite radar altimetry required for iceberg towing. Campbell, W.J., et al, [1980, p.211-221, eng] 34-2443
Iceberg drift observations in Lancaster Sound. Riggs, N.P., et al, [1980, p.283-291, eng] 34-2450
Crystal alignments in the fast ice of Arctic Alaska. Weeks, W.F., et al, [1980, p.1137-1146, eng] 34-2671
ICEX: Ice and climate experiment; report of Science and Applications Working Group. [1979, c118p., eng] 34-2726
Formation, flow, and disintegration of ice shelves. Robin, G. de Q., [1979, p.259-271, eng] 34-2829
Environmental assessment of the Alaskan continental shelf, Vol.7, Transport. [1979, 560p., eng] 34-3050
Results of joint Sovie. American research in the Southern Ocean during POLEX-South-77. Savchenko, V.G., et al, [1979, p.5-15, rus] 34-3090
Current meter. [1975, 295p., eng] 34-3099
Oceanographic data. [1976, 30p. + figs., eng] 34-3100
East coast mooring program, analytical phase, Vols.1 and 2. [1976, 85p. + 6 appends., eng] 34-3109
Deep sea dispersion analyses. [1977, 23p., eng] 34-3113
Ice mesovortices in the nearshore regions of East Antarctica. Preobrazhenskaia, T.N., [1976, p.45-54, eng] 34-3276
Ice spirals off Barrow as seen by satellite. Solomon, H., et al, [1980, p.184-188, eng] 34-3324
Observation of oceanographic conditions in the Okhotsk Sea coast of Hokkaido in winter, 2. Aota, M., et al, [1979, p.135-142, jap] 34-3499
Studies on interaction between ice floes. 2. Periodical change in horizontal divergence of an ice field accompanied by intertial periodical motion. Takizawa, T., et al, [1979, p.153-159, jap] 34-3501
Seasonal and annual fluctuations in Atlantic water and heat inflow into the Arctic Basin through the Fram Strait. Mandel', S.Z., [1979, p.24-29, rus] 34-3585
Relation between heat content and water transport in the Kara Sea. Stepanov, S.I., [1979, p.55-58, rus] 34-3589
Opposition in ice redistribution in Arctic waters outside the USSR. Smirnov, V.I., [1980, p.73-77, rus] 34-3862
Calculating regime characteristics of surge waves from standard wind field data. Dzheniuk, S.L., [1980, p.21-29, rus] 34-4179

Ocean environments
Optical methods of studying oceans and inland water bodies. Galazii, G.I., ed, [1979, 373p., rus] 34-875
Apparatus for studying radiation temperature at the ocean surface. Novogrudskii, B.V., et al, [1979, p.241-245, rus] 34-879
Experimental oilspills. Metge, M., et al, [1979, p.184-189, eng] 34-2038
Alaskan shelf hydrographic, sedimentary and geochemical environment. Sharma, G.D., [1979, 498p., eng] 34-2514
Environmental assessment of the Alaskan continental shelf, Vol.9, Hazards. [1979, 682p., eng] 34-3055
Environmental aspects of Arctic marine transportation and development. Roots, E.F., [1979, p.69-96, eng] 34-3439

Ocean sediments
See: Marine sediments

Ocean waves
Analytical study of ice scour on the sea bottom. [1975, 185p. + appends., eng] 34-299
Normal and extreme winds and waves in the Canadian southern Beaufort Sea. [1974, 81p., eng] 34-300
Davis Strait wave climate study using the 1970 through 1977 meteorological and oceanographic centre synoptic significant wave charts. McKay, W.N., [1978, 260p., eng] 34-318
Environmental conditions in Baffin Bay and Davis Strait. [1972, 144p., eng] 34-577
Arctic beach environment, south-west Devon Island, N.W.T. Owens, E.H., [1969, 152p., eng] 34-938
Instability of internal waves as a mechanism of heat transfer from Atlantic waters to the Arctic Basin. Alekseev, G.V., et al, [1979, p.118-125, eng] 34-1893
Instability of internal waves in an ice-covered sea. Savchenko, V.G., et al, [1979, p.76-84, eng] 34-1901
Capture of long ocean waves by heterogeneities of ice cover. Odulo, A.B., [1979, p.72-76, rus] 34-2001
East coast mooring program, analytical phase, Vols.1 and 2. [1976, 85p. + 6 appends., eng] 34-3109
Long-period gravity waves in ice-covered sea. Bates, H.F., et al, [1980, p.1095-1100, eng] 34-4073
Calculating regime characteristics of surge waves from standard wind field data. Dzheniuk, S.L., [1980, p.21-29, rus] 34-4179
Field experiments on wave-ice interaction in the Bering Sea and Greenland waters, 1979. Wadhams, P., et al, [1980, p.147-153, eng] 34-4186

Oceanographic ships
Final report 1977 ocean current study. Goodman, R.H., et al, [1978, 24p. + appends., eng] 34-314
Oceanographic research ship capabilities in ice. Voelker, R.P., et al, [1975, p.663-667, eng] 34-1233
Pingoes and the Northwest Passage. [1974, p.1-4, eng] 34-1986
Accuracy in determining ship position with the Transit navigational satellite system. Abramov, B.I., et al, [1979, p.136-142, rus] 34-3091

Oceanographic surveys
Oceanographic observations in Barrow Strait and Wellington Channel, N.W.T., April 1973. Herlinveaux, R.H., et al, [1978, 170p., eng] 34-367
Cruise 77-1, February, 1977. Environmental aspects of the cruise to Davis Strait and the Labrador coast. [1977, var.p., eng] 34-426
Davis Strait ice and oceanographic observations, Winter 1976-77. [1977, 96p. + appends., figs., and tables, eng] 34-427
Biological studies, offshore cruises 77-2 and 77-3, April-June, 1977 in the Davis Strait. [1978, var. p., eng] 34-428
Report on Cruise II, July 1976. Environmental aspects of Imperial Oil cruise to Flemish Pass and Davis Strait. [1976, var.p., eng] 34-429
Field report on the oceanographic cruises during April, July-August, October-November, 1976. [1977, var.p., eng] 34-430
Report on Cruise III, October-November 1976 and Cruise IV, November-December, 1976. Environmental aspects of the Imperial Oil cruises to Davis Strait, Hudson Strait and Flemish Pass. [1977, var.p., eng] 34-431
Biological literature review of the Labrador Sea region. [1977, var.p., eng] 34-491
Primary data collected for the 1977 Davis Strait biological programme and analysed prior to December 1977. [1977, 2 vols., eng] 34-492
Marine benthic invertebrates of the southern Davis Strait and Ungava Bay. [1978, var.p., eng] 34-499
Oceanographic observations at stations along the triangular grids during the Mixed Layer Experiment, August 1, 1978. Volume 84-C. Miyake, M., [1979, 191p., eng] 34-563
Ocean 75 record. [1975, 952p., eng] 34-1227
Development of a meteorological and oceanographic drifting buoy system. Hall, J.M., et al, [1975, p.56-69, eng] 34-1229
SYNRAMS ice station. Burke, S.P., et al, [1975, p.413-417, eng] 34-1232
Remote sensing and analysis of oceanographic parameters from ERTS-1. Needham, B.H., [1975, p.798-802, eng] 34-1234
Use of satellite infrared imagery in the oceanographic study of the Chukchi Sea. Garrison, B.R., et al, [1975 p.826-834, eng] 34-1235
Use of NOAA environmental satellites to remotely sense ocean phenomena. Koffler, R., [1975, p.835-839, eng] 34-1236
Finestructure, fronts and currents in the Pacific marginal sea-ice zone-MIZPAC. Small, W.E., [1979, 85p., eng] 34-1355
Oceanographic design criteria. Heideman, J.C., [1979, 10p. + 4 tables + 17 slides, eng] 34-1589
Lomonosov Ridge Experiment. Lorex 79. Weber, J.R., [1979, p.715-721, eng] 34-1844
Possibility of long-range forecasting of oceanographic conditions of the Kara Sea. IAnes, A.V., [1979, p.16-21, eng] 34-1898
Recent oceanographic observations in the Labrador current. Lazier, J.R.N., [1979, p.195-204, eng] 34-2039
Geologic framework, hydrocarbon potential, environmental conditions, and anticipated technology for exploration and development of the Beaufort Shelf north of Alaska. Grantz, A., et al, [1980, 42p., eng] 34-2721
Recent fluctuations in meteorological and oceanographic parameters in Alaska waters. Biebuer, H.J., [1980, 34p., eng] 34-3766
Assessment of Arctic offshore pipelines. Muraszew, A., et al, [1980, 6 sections, eng] 34-3991

Oceanography
Oceanographic cruise of the USCGC *Glacier* to the marginal sea-ice zone of the Chukchi Sea - MIZPAC 78 Interim report for period July 1978-May 1979. Paquette, R.G., et al, [1979, 77p., eng] 34-275
Summer environmental program Mackenzie River estuary. [1975, 3 vols., eng] 34-301
Analysis of ocean currents Davis Strait 1977. Osborn, T.R., et al, [1978, 2 vols., eng] 34-307
Workshop on coastal research and planning in Labrador. Rosen, P.R., ed, [1978, 66p., eng] 34-319
Beaufort Sea exploratory drilling system: review and recommendations. [1971, var. p., eng] 34-573
Geological sampling and analytical program, Beaufort Sea. Lerand, M.M., comp, [1971, c.215p., eng] 34-598
Upwelling: oceanic structure at the edge of the Arctic ice pack in winter. Buckley, J.R., et al, [1979, p.165-167, eng] 34-959
Portable data collection winch without slip rings for Arctic use. Richards, D., [1979, p.1-3, eng] 34-1045
Arctic ice. Zubov, N.N., [1979, 500p., eng] 34-1115
Oceanography of the Grand Banks region of Newfoundland in 1973. Hayes, R.M., et al, [1978, 448p., eng] 34-1364
Crude oil in cold water. Milne, A.R., et al, [1979, 119p., eng] 34-1584
Physical oceanography from the Arctic ice pack: Project AIDJEX STD programs. Amos, A.J., [1975, 17p., eng] 34-1731
Observations of position, ocean depth, ice rotation, magnetic declination and gravity taken at the Fram I drifting ice station. Hunkins, K., et al, [1979, 52p. + append., eng] 34-1967
Proceedings. [1979, 291p., eng] 34-2036
Antarctica; commission reports, vol.18 [1979, 215p., rus] 34-2214
Northern Smith Sound oceanography summer 1977 Tooma, S.G., [1978, 28p., eng] 34-2368
Oil spill scenario for the Labrador Sea. LeDrew, B.R., et al, [1979, 675p., eng] 34-2479
Environmental assessment of the Alaskan continental shelf, Vol.5, Receptors - Microbiology, Contaminant baselines [1979, 698p., eng] 34-3048
Environmental assessment of the Alaskan continental shelf, Vol.6, Effects. [1979, 664p., eng] 34-3049
Environmental assessment of the Alaskan continental shelf, Vol.7, Transport. [1979, 560p., eng] 34-3050
Environmental assessment of the Alaskan continental shelf, Vol.8, Transport. [1979, 588p., eng] 34-3052
APOA bibliography [1980, 74p., eng] 34-3092
APOA description of research projects, index. [1979, 905p., eng] 34-3115
Coastal environment, bathymetry, and physical oceanography along the Beaufort, Chukchi and Bering Seas. Gatto, L.W., [1980, 357p., eng] 34-3328
Vibration of measuring equipment in the study of the ocean microstructure under the drifting ice. Gusev, A.V., et al, [1975, p.237-238, eng] 34-3433
International Workshop on the Seasonal Sea Ice Zone, Monterey, California, Feb. 26-Mar. 1 1979. Andersen, B.G., ed, [1980, 357p., eng] 34-3624
Overview (International Workshop on the Seasonal Sea Ice Zone). Weeks, W.F., [1980, p.1-35, eng] 34-3625
Physical oceanography of the seasonal sea ice zone. McPhee, M.G., [1980, p.93-132, eng] 34-3627
Polar atmosphere-ice-ocean processes: a review of polar problems in climate research. [1980, p.525-543, eng] 34-3633
Resolutions of the Glaciology Section workshop, June 1979. [1979, p.29-33, rus] 34-3685
Multiple causes of the North American abnormal winter 1976-77. Namias, J., [1978, p.279-295, eng] 34-3719

Oceans
Nonlinear analysis of a simple sea ice-ocean temperature oscillator model. Moritz, R.E., [1979, p.4916-4920, eng] 34-412

Offshore drilling
Arctic drilling barge study. [1971, var. p., eng] 34-557
Feasibility study: exploratory drilling systems, Beaufort Sea. [1971, c430p., eng] 34-570
Beaufort Sea exploratory drilling system: review and recommendations. [1971, var. p., eng] 34-573
Study of Beaufort Sea exploratory drilling systems. [1971, var. p., eng] 34-574
Probabilities of blowouts in Canadian Arctic waters. [1978, 139p., eng] 34-748
Study of sub-seabottom permafrost in the Beaufort Sea Mackenzie Delta by hydraulic drilling methods. MacAulay, H.A., et al, [1978, c.45 leaves, eng] 34-781
Surface strain of artificially thickened ice drilling platforms. Allan, A.J., [1979, p.14-24, eng] 34-921
Problems of offshore oil drilling in the Beaufort Sea. Weller, G., et al, [1978, p.4-11, eng] 34-942
Assessment of the ecological effects of an oil spill in an offshore subarctic environment. Birchard, E.C., et al, [1978, p.835-855, eng] 34-1372
Icegoing drill ships. [1979, p.1460-1461, eng] 34-1600
Ice-breaking drillship for Arctic exploration. [1973, p.30-36, eng] 34-1728
How to drill and produce in the Beaufort Sea. Bleakley, W.B., [1980, p.23-32, eng] 34-2140
Floating ice platforms: offshore oil exploration. Masterson, D.M., et al, [1980, p.133-143, eng] 34-2410
Seasonal oil production scheme for iceberg-infested waters, Part 2. Duval, J., et al, [1980, p.19-20, 25-26, eng] 34-2423
Winter exploration and drilling. Sigurdson, T., comp., [1980, p.12-50, eng] 34-2562
Geologic framework, hydrocarbon potential, environmental conditions, and anticipated technology for exploration and development of the Beaufort Shelf north of Alaska. Grantz, A., et al, [1980, 42p., eng] 34-2721
Drilling among the icebergs. Davids, R.C., [1980, p.2-7, eng] 34-2804
In polar waters. [1977, 40p., eng] 34-3013
Drillships press close to moving ice zone for world's most costly wells. [1977, p.16-17, eng] 34-3015
Oil production among icebergs is target of pioneering study. [1977, p.24-25, eng] 34-3016
Northern skills may go south to Antarctica within a decade. [1977, p.36-37, eng] 34-3018
Delineation and engineering characteristics of permafrost beneath the Beaufort Sea. Sellmann, P.V., et al, [1979, p.93-115, eng] 34-3056
SEDCO ICSDV. Phase 1. Preliminary design study. [1975, var.p., eng] 34-3101
Arctic test results, Phase 1, Task D. [1975, c500p., eng] 34-3102
APOA description of research projects; index. [1979, 905p., eng] 34-3115
Floating ice platforms for oil exploration in the Arctic Islands. Ekelund, M.J., et al, [1980, p.168-183, eng] 34-3323
Overview [International Workshop on the Seasonal Sea Ice Zone]. Weeks, W.F., [1980, p.1-35, eng] 34-3625

Offshore landforms
Eolian sand deflation—a cause for gravel barrier islands in Arctic Alaska. Reimnitz, E., et al, [1979, p.507-510, eng] 34-1143
Environmental geology and geomorphology of the barrier island-lagoon system along the Beaufort Sea coastal plain from Prudhoe Bay to the Colville River. Cannon, P.J., et al, [1979, p.335-345, eng] 34-2433
Forecasting ice formation at the Kolyma River bay-mouth bar. Furmanov, O.M., [1979, p.130-132, rus] 34-3537

Offshore permafrost
See: Subsea permafrost

Offshore structures
Method and apparatus for conducting subaqueous operations in ice conditions. Pease, F.T., et al, [1978, 10 col., eng] 34-281
Mathematical model to describe the behavior of a moving ice field encountering a conical structure. Kim, J.K., et al, [1973, 2 vols., eng] 34-294
Ice adhesion study. [1973, 88p., eng] 34-295
Small prototype cone tests winter 1973-74. Verity, P.H., [1975, 102p. + appends., eng] 34-296
Model experiments to determine the ice forces exerted on structures by moving ice fields (comparison with small prototype test results). Edwards, R.Y., Jr., et al, [1975, 35p. + annex, eng] 34-302
Use of model ice to simulate ice action on offshore structures. Michel, B., [1972, 8 p., eng] 34-478
Ice forces on offshore monopods and piles. [1973, c.20p., eng] 34-481
Interpretation of ice strength from in-situ indentation tests. Morgenstern, N.R., et al, [1971, 26p. + figs., eng] 34-514
Feasibility study: exploratory drilling systems, Beaufort Sea. [1971, c430p., eng] 34-570
Model experiments to determine the forces exerted on structures by moving ice fields. Edwards, R.Y., Jr., et al, [1972, 83p. + appends., eng] 34-572
Arctic offshore pipeline feasibility study in Mackenzie River delta area. [1973, c530p., eng] 34-578
Investigation of multi-year pressure ridges and shore pile-up. Kovacs, A., et al, [1975, 45p., eng] 34-774
Iceberg population distribution study in the Labrador Sea. Gustajtis, K.A., [1979, 41p., eng] 34-785
Strain measurements in floating ice platforms and their application to platform design. Masterson, D.M., et al, [1979, p.394-405, eng] 34-1156
Offshore structures in ice. Schwarz, J., [1976, p.469-479, eng] 34-1164
Development of a viscoelastic finite difference formulation for analysis of ice sheet-structure interactions. Praskievicz, M.W., [1979, 162p., eng] 34-1353
Vibrational response and structural integrity of deep water structures. Doelling, N., [1978, 19p., eng] 34-1801
Engineering at the ends of the earth: polar ocean technology for the 1980's. [1979, 74p., eng] 34-2712
In polar waters. [1977, 40p., eng] 34-3013
Icebreaker experience as a guide to sea ice forces on structures. Gerwick, B.C., Jr., et al, [1979, p.622-637, eng] 34-3031
Offshore pipelines in the Arctic. Timmermans, W.J., [1980, p.20-24, eng] 34-3192
Offshore innovations. [1980, p.25-28, 34, eng] 34-3193
Pressure of ice field adfreezing to cylindrical supports of offshore oil well platforms with water-level fluctuations. Vershinin, S.A., et al, [1980, p.9-11, rus] 34-3642
Ice problems at a cooling water intake in a tidal estuary at Lingan, N.S. Skarborn, S., et al, [1980, p.225-232, eng] 34-3670
Characteristics of iceberg mechanics. Dempster, R.T., [1980, p.38-50, eng] 34-3731
Experience gained by use of extensive ice laboratory facilities in solving ice problems. Frankenstein, G.E., [1980, p.93-103, eng] 34-3735
Ice forces on piles. Saeki, H., et al, [1980, p.342-350, eng] 34-3751
Offshore pipelines in the Arctic. [1980, p.20-24, eng] 34-3989
Assessment of Arctic offshore pipelines. Muraszew, A., et al, [1980, 6 sections, eng] 34-3991

Oil

Oil products
See: Petroleum products

Oil recovery
Assessment of the ecological effects of an oil spill in an offshore subarctic environment. Birchard, E.C., et al, [1978, p.835-855, eng] 34-1372
Floating ice platforms: offshore oil exploration. Masterson, D.M., et al, [1980, p.133-143, eng] 34-2410
Seasonal oil production scheme for iceberg-infested waters, Part 2. Duval, J., et al, [1980, p.19-20, 25-26, eng] 34-2423
Winter exploration and drilling. Sigurdson, T., comp., [1980, p.12-50, eng] 34-2562
Drilling among the icebergs. Davids, R.C., [1980, p.2-7, eng] 34-2804
Feasibility of surface detection of oil under ice. Gill, R., [1979, 82p., eng] 34-3011
Floating ice platforms for oil exploration in the Arctic Islands. Ekelund, M.J., et al, [1980, p.168-183, eng] 34-3323
Exploring the Arctic for oil. Sklarewitz, N., [1980, p.2-5, eng] 34-3410

Oil spills
Environmental assessment of the Alaskan continental shelf. Vol.1. Physical science studies. [1979, 581p., eng] 34-14
Transport, retention, and effects of the water-soluble fraction of Cook Inlet crude oil in experimental food chains. Whipple, J.A., et al, [1979, p.535-581, eng] 34-17
Oil spill countermeasures for the southern Beaufort Sea. Logan, W.J., et al, [1975, 126p., eng] 34-151
Preliminary study of the fate of oil from a subsea blowout on the east coast. Telford, A.S., et al, [1977, 34p., eng] 34-312
Proposal to evaluate an oil containment boom for use in ice-infested waters [1975, 16p. + append., eng] 34-485
Evaluation of the Bennett-CANMAR oil containment boom. Nadreau, J.P., et al, [1976, 37p. + append., eng] 34-486
In-situ burning of the products of a subsea blowout. [1977, 48p. + appends., eng] 34-488
Preliminary tests of bird-scare devices on the Beaufort Sea coast. Sharp, P.L., [1978, 43p., eng] 34-489
Storm surges. Henry, R.F., [1975, 41p., eng] 34-505
Probabilities of blowouts in Canadian Arctic waters. [1978, 139p., eng] 34-748
Impact of crude oil on root respiration and levels of soluble soil cellulase in coastal Arctic tundra. Linkins, A.E., et al, [1978, p.590-604, eng] 34-910
Effect of Prudhoe crude oil on carbon assimilation by planktonic algae in an Arctic pond. Miller, M.C., et al, [1978, p.833-850, eng] 34-912
Canadian oil industry's scientific activities in the Arctic offshore. Pallister, A.E., [1977, 14p. + append., eng] 34-915
Environmental assessment of the Alaskan continental shelf: lower Cook Inlet interim synthesis report. [1979, 241p., eng] 34-1338
Proceedings. [1978, 945p., eng] 34-1367
Oil spill behavior in ice during the 1977 Buzzards Bay oil spill. Deslauriers, P.C., [1978, p.197-215, eng] 34-1368
Weathering estimations for spilled oil from *Bouchard No.65*. MacLeod, W.D., et al, [1978, p.217-228, eng] 34-1369
Fate and effect of Bunker C oil spilled by the USNS Potomac in Mellville Bay, Greenland, 1977. Petersen, H.K., [1978, p.331-343, eng] 34-1370
Physical aspects of the oil spill from the supertanker "Metula". Hann, R.W., [1978, p.354-363, eng] 34-1371
Assessment of the ecological effects of an oil spill in an offshore subarctic environment. Birchard, E.C., et al, [1978, p.835-855, eng] 34-1372
Crude oil in cold water. Milne, A.R., et al, [1979, 119p., eng] 34-1584
Calculating the balance of Arctic Ocean pollutants. Izmaflov, V.V., et al, [1979, p.486-491, rus] 34-2022
Sea ice in the Arctic. Moign, A., [1978, p.283-288, fre] 34-2031
Experimental oilspills. Metge, M., et al, [1979, p.184-189, eng] 34-2038
Degradation of oil by yeast and filamentous fungi in Arctic environments. Crow, S.A., et al, [1979, 13p., eng] 34-2281
Marine transportation systems of the Trans-Alaska Pipeline System. [1971, 158p., eng] 34-2357
Coastal sedimentary processes and sediments, southern Canadian Beaufort Sea. Lewis, C.P., et al, [1975, 68p., eng] 34-2398
Hot Arctic. Dyson, J., [1979, 290p., eng] 34-2456
Oil spill scenario for the Labrador Sea. LeDrew, B.R., et al, [1979, 675p., eng] 34-2479
Marine transportation systems of the Trans-Alaskan Pipeline System. [1971, 158p., eng] 34-2631
Environmental assessment of the Alaskan continental shelf. Vol.2. Physical science studies. [1979, 745p., eng] 34-2681
Construction-related oil spills along Trans-Alaska Pipeline. Kavanagh, N., et al, [1977, 16p., eng] 34-2860
In polar waters. [1977, 40p., eng] 34-3013
Preparing counter-measures against under-ice oil spills. [1977, p.34-35, eng] 34-3017
Environmental assessment of the Alaskan continental shelf, Vol.5, Receptors—Microbiology; Contaminant baselines. [1979, 698p., eng] 34-3048
Environmental assessment of the Alaskan continental shelf, Vol.6, Effects. [1979, 664p., eng] 34-3049
Environmental assessment of the Alaskan continental shelf, Vol.7, Transport. [1979, 560p., eng] 34-3050
Environmental assessment of the Alaskan continental shelf, Vol.8, Transport. [1979, 588p., eng] 34-3052
Oil pooling under sea ice. Kovacs, A., [1979, p.310-323, eng] 34-3053
SLIKTRAK simulations—East Coast. Bradfield, D., et al, [1977, 33p., eng] 34-3111
Oil in pack ice cold room tests. Metge, M., [1978, 30p., eng] 34-3112
Field study of brine drainage and oil entrainment in first-year sea ice. Martin, S., [1979, p.473-502, eng] 34-3786
Fate and effects of crude oil spilled on subarctic permafrost terrain in interior Alaska. Johnson, L.A., et al, [1980, 128p., eng] 34-4079

Oil storage
Arctic terminal for icebreaking tankers study: conceptual design, final report. Lewis, A.E., [1979, 245p., eng] 34-1576

Oil transportation
See: Petroleum transportation

Oil wells
Oil spill countermeasures for the southern Beaufort Sea. Logan, W.J., et al, [1975, 126p., eng] 34-151
Oil production among icebergs is target of pioneering study. [1977, p.24-25, eng] 34-3016
Pressure of ice field adfreezing to cylindrical supports of offshore oil well platforms with water-level fluctuations Vershinin, S.A., et al, [1980, p.9-11, rus] 34-3642

Okhotsk Sea
Distribution of pack ice off Okhotsk Sea coast of Hokkaido observed with sea ice radar network, January-May, 1979. Tabata, T., et al, [1979, p.37-70, jap] 34-3456

Ontario, Lake
Lake effect snows off the east end of Lake Ontario. Lansing, L., [1978, p.12-16, eng] 34-28

Operating costs
See: Cost analysis

Optical properties
Optical methods of studying oceans and inland water bodies. Galazii, G.I., ed, [1979, 373p., rus] 34-875
Development of hydro-optical studies of the Lake Baykal Sherstiankin, P.P., [1979, p.16-27, rus] 34-876
See also: Ice crystal optics; Ice optics; Snow optics

Organic nuclei
Heterogeneous nucleation by organic crystalization nuclei. Gits, S.P., et al, [1979, p.76-82, rus] 34-2015
Organic soils
Hydrologic properties of subarctic organic soils. Kane, D.L., et al, [1978, 49p., eng] 34-627
Biochemical activities of organic soils from subantarctic tussok grasslands on Campbell Island. 1. Oxygen uptakes and nitrogen mineralisation. Ross, D.J., et al, [1979, p.161-171, eng] 34-893
Biochemical activities of organic soils from subantarctic tussock grasslands on Campbell Island. 2. Enzyme activities. Ross, D.J., et al, [1979, p.173-182, eng] 34-894
Seasonal activity of invertase in drained peat soils. Efremova, T.T., [1978, p.12-18, rus] 34-1442
Hydraulic method of sanding peat soils. Lazarev, I.V., et al, [1979, p.21-23, rus] 34-1949
Proceedings of the seventeenth Muskeg Research Conference, 4 October 1977. Williams, G.P., ed, [1978, 187p., eng] 34-2904
Effects of volume change and alkalinity of water on the permeability of peat. Lieszkowszky, I.P., et al, [1978, p.25-36, eng] 34-2907
Observations on the subsidence of drained peat soils under grassland culture in Newfoundland. Rayment, A.F., et al, [1978, p.37-48, eng] 34-2908
Construction, widening and performance of a freeway across organic terrain. Mirza, C., [1978, p.50-80, eng] 34-2909
Orientation
Mappable indices of glacier surface orientation. Kuz'michenok, V.A., [1979, p.214-216, rus] 34-2212
External orientation of satellite scanning radiometer photographs. Bushuev, A.V., [1977, p.17-25, rus] 34-3303
Crystal orientation fabrics in relation to structures and strain, Griesgletscher, Valais, Switzerland. Hambrey, M.J., [1979, p.73-86, eng] 34-3975
Icicles as crystallization phenomena. Knight, C.A., [1980, p.193-198, eng] 34-4003
Regularities governing the development of the topography and glaciers of Tien Shan. Zabirov, R.D., ed, [1980, 110p., rus] 34-4004
Determining glacier areas and orientation of surfaces from topographic maps. Kuz'michenok, V.A., [1980, p.22-47, rus] 34-4006
See also: Slope orientation
Origin
Late quaternary ice cover of the Pamirs. Grosval'd, M.G., et al, [1979, p.85-97, rus] 34-2187
Orographic effects
See: Topographic effects
Oscillations
Nonlinear analysis of a simple sea ice-ocean temperature oscillator model. Moritz, R.E., [1979, p.4916-4920, eng] 34-412
Unstabilized oscillations of drifting ice cover caused by periodic disturbances in an inhomogeneous sea. Bukatov, A.E., et al, [1979, p.77-84, rus] 34-2002
Regularities governing the propagation of railroad induced oscillations in cohesive soils. Chokhonelidze, G.I., et al, [1975, p.76-77, rus] 34-2063
Free oscillations in a climate model with ice-sheet dynamics. Källén, E., et al, [1979, p.2292-2303, eng] 34-3767
See also: Vibration
Outwash
Baggin Island sandurs: a study of Arctic fluvial processes. Church, M., [1972, 208p. + maps, eng] 34-3577
Oxygen
Winter dissolved oxygen patterns in Arctic and sub-Arctic rivers. Schallock, E.W., [1975, p.141-162, eng] 34-633
Further field investigation on aerated lagoons in the city of Winnipeg. Girling, R.M., et al, [1974, p.99-124, eng] 34-1471
Diffusion systems for cold climate lagoons. Christianson, C.D., et al, [1974, p.170-206, eng] 34-1473
Waste treatment performance data at Prince Albert Pulp Company. Aschim, O.K., [1974, p.207-219, eng] 34-1474
On the combined treatment of domestic sewage and waste water from wood industries. Airaksinen, J.U., [1974, p.241-257, eng] 34-1477
Methane addition to an Arctic lake in winter. Welch, H.E., et al, [1980, p.100-113, eng] 34-1880
Oxygen isotopes
Some problems in stratigraphic analysis of firn in Mizuho Plateau, East Antarctica. Watanabe, O., et al, [1979, p.32-50, jap] 34-2149
Oxygen isotopic composition of fallen snow in Antarctica. Kato, K., [1979, p.124-135, jap] 34-2154
Oxygen isotopic composition of drifting snow in Mizuho Plateau, Antarctica. Kato, K., et al, [1979, p.136-151, jap] 34-2155
Oxygen isotopic composition of snow formed under an antarctic anticyclone. Kato, K., et al, [1979, p.152-163, jap] 34-2156
Recent variation of ice sheet in Mizuho Plateau. Mae, S., [1979, p.1-7, eng] 34-2499
Rate of snow accumulation determined from oxygen isotope and stratigraphic analyses of the core from Mizuho Station, East Antarctic (extended abstract). Kato, K., et al, [1979, p.88-92, eng] 34-2500
Oxygen isotope studies of ice cores from the ice-divide of Grenfjord and Fritjof glaciers (West Spitsbergen Island). Punning, IA.M.K., et a' [1979, p.173-177, rus] 34-3709
Role of stable isotopes in snow and ice studies. Gordienko, F.G., [1979, p.286-295, rus] 34-3716
Origin of the oxygen-isotope composition in the snow cover in East Antarctica. Vilenskil, V.D., et al, [1978, p.180-185, eng] 34-4032
Pack ice
Mathematical model to describe the behavior of a moving ice field encountering a conical structure. Kim, J.K., et al, [1973, 2 vols., eng] 34-294
Feasibility study: exploratory drilling systems, Beaufort Sea. [1971, c430p., eng] 34-570
Model experiments to determine the forces exerted on structures by moving ice fields. Edwards, R.Y., Jr., et al, [1972, 83p. + appends., eng] 34-572
Landfast ice movement--Mackenzie Delta 1972. Crossdale, K.R., et al, [1972, 104p., eng] 34-576
Effects of the annual migration of the antarctic pack-ice border on cyclonic storm activity over the Southern Ocean. Kachelhoffer, S.J., [1973, 49p., eng] 34-684
Growth and decay of "Katie's floeberg". Barrett, S.A., et al, [1978, 34p., eng] 34-775
Upwelling: oceanic structure at the edge of the Arctic ice pack in winter. Buckley, J.R., et al, [1979, p.165-167, eng] 34-959
Climatic and synoptic study of the Weddell Sea region during the austral fall months. Komro, F.G., [1978, 46p., eng] 34-1090
Icebreaker probes to Lake Melville, Labrador, in 1972. Bradford, J.D., [1979, 40p., eng] 34-1316
Snow and pack ice indices. Kukla, G., et al, [1979, p.9-14, eng] 34-1408
Sea ice. Part 1: major features and physical properties. Wittmann, W., et al, [1973, p.125-134, eng] 34-1960
Univariate model of the seasonal pycno-wedge and homogeneous layer in the Arctic Basin. Ponomarev, V.I., [1979, p.37-47, rus] 34-1997
Modeling annual variations in ice conditions of the Arctic Basin. Baranov, G.I., et al, [1979, p.48-56, rus] 34-1998
Selecting the relationships between stresses and deformations in drifting ice cover. Khetsin, D.E., [1979, p.63-71, rus] 34-2000
Experimental oilspills. Metge, M., et al, [1979, p.184-189, eng] 34-2038
Western Ross Sea and McMurdo Sound ice forecasting guide. Perchal, R.J., [1975, 132p., eng] 34-2453
Dynamics of near shore ice. Colony, R., [1979, p.156-180, eng] 34-2682
Geologic framework, hydrocarbon potential, environmental conditions, and anticipated technology for exploration and development of the Beaufort Shelf north of Alaska. Grantz, A., et al, [1980, 42p., eng] 34-2721
Ice conditions in areas adjacent to the North Atlantic Ocean from July to September 1979. [1980, p.42-46, eng] 34-2788
Arctic flying. Buck, B.M., et al, [1979, 199p., eng] 34-2987
Varied and unpredictable faces of Arctic ice. [1977, p.8-10, eng] 34-3014
Oil in pack ice cold room tests. Metge, M., [1978, 30p., eng] 34-3112
Ice spirals off Barrow as seen by satellite. Solomon, H., et al, [1980, p.184-188, eng] 34-3324
Distribution of pack ice off Okhotsk Sea coast of Hokkaido observed with sea ice radar network, January-May, 1979. Tabata, T., et al, [1979, p.37-70, jap] 34-3456
On the characteristics of the movement of pack ice and the effects of wind and ocean current on ice movement. Kawamura, T., [1979, p.161-168, jap] 34-3502
International Workshop on the Seasonal Sea Ice Zone, Monterey, California, Feb. 26-Mar.1, 1979. Andersen, B.G., ed, [1980, 357p., eng] 34-3624
Meteorology and climatology of the seasonal sea ice zone. Barry, R.G., [1980, p.133-156, eng] 34-3628
Arctic hydroacoustics. Diachok, O., [1980, p.185-207, eng] 34-3630
Plotting through the pack; radar resistant ice. Haines, S.A., [1980, p.16-19, eng] 34-3672
Japanese develop Archimedean screw tractor. [1980, p.11, eng] 34-4068
Paints
See: Protective coatings
Paleoclimatology
Permafrost and paleogeographic problems of northwestern Siberia. Zemtsov, A.A., [1973, p.157-163, rus] 34-113
Comparative analysis of past and present glacial and permafrost relief forms in Asia. Kazakova, N.M., [1976, p.10-45, rus] 34-2010
Thermal regime of the World Ocean during the last glaciation maximum. Kagan, B.A., et al, [1979, p.716-720, rus] 34-2116
Switzerland and its glaciers from the ice age to the present. [1979, 191p., ger] 34-2356
Submarine permafrost on the Alaskan continental shelf. Vigdorchik, M.E., [1980, 118p., eng] 34-2406
Arctic Pleistocene history and the development of submarine permafrost. Vigdorchik, M.E., [1980, 286p., eng] 34-2407
911 years of microparticle deposition at the South Pole: a climatic interpretation. Thompson, E.M., [1979, 200p., eng] 34-2455
Late Quaternary history and the formation of sediments in the marginal and inland seas. Gershanovich, D.E., ed, [1979, 212p., rus] 34-3064
Evolution of late and postglacial sediment accumulation in offshore areas of the Barents and White seas. Evzerov, V.IA., [1979, p.29-33, rus] 34-3067
Glaciology at the Fourteenth Pacific Science Congress. Vtiurin, B.I., [1979, p.258, rus] 34-3150
Glacial to interglacial changes in ocean chemistry. Broecker, W.S., [1980, 27p. + figs. + appends., eng] 34-3653
Classical European glacial stages: correlation with deep-sea sediments. Kukla, G., [1978, p.57-93, eng] 34-3654
Glacial inception and disintegration during the last glaciation. Andrews, J.T., et al, [1978, p.205-228, eng] 34-3722
Reconstruction of paleoclimate from present day geothermal data. Balobaev, V.T., [1980, p.1-12, eng] 34-3828
Flow patterns in the central North American ice sheet. Shilts, W.W., [1980, p.213-218, eng] 34-3985
Paleoecology
Permafrost and paleogeographic problems of northwestern Siberia. Zemtsov, A.A., [1973, p.157-163, rus] 34-113
Micropaleontologic-mineralogic analysis of Recent mud samples from ice-scoured surface of Beaufort shelf. Lerand, M.M., [1971, 4p., eng] 34-560
Postglacial and Holocene paleogeography of the Barents Sea. Kotenev, B.N., [1979, p.20-28, rus] 34-3066
Glaciology at the Fourteenth Pacific Science Congress. Vtiurin, B.I., [1979, p.258, rus] 34-3150
Paludification
Hydrogeological conditions of paluded lands in the Ust'-Selenga trough. Adushinov, A.A., [1976, p.27-35, rus] 34-2053
Hydrogeologic and geocryological conditions of the Barguzin trough and land reclamation. Adushinov, A.A., et al, [1976, p.36-59, rus] 34-2054
Peculiarities of forest-swamp ecosystems in West Siberia. Glebov, F.Z., ed, [1978, 159p., rus] 34-2518
Statistical analysis of the relation between paludification and hydrometeorological characteristics of river basins in the central and southern taiga of West Siberia. Uskova, L.M., et al, [1978, p.5-14, rus] 34-2519
Studying the origin and structure of forest-swamp complexes. Glebov, F.Z., et al, [1978, p.14-59, rus] 34-2520
Ecologic effect on the formation of conifer crowns and combined offshoots in drained bogs. Efremov, S.P., [1978, p.91-111, rus] 34-2522
Origin and development of the Surgut wooded marshes. Liss, O.L., et al, [1979, p.86-91, rus] 34-2710
Sod-gley soils of West Siberia. Karavaeva, N.A., [1979, p.69-78, rus] 34-2740
Landscape structure of the forest-swamp zone in Western Siberia. Mikhallov, N.I., [1980, p.40-48, rus] 34-3027
Lands subject to reclamation in the south of the West Siberian Plain. Uglanov, I.N., [1979, p.25-76, rus] 34-3077
Pressure meter for testing soft soils. Lushnikov, V.V., et al, [1980, p.262-265, eng] 34-3370
Experience with the drying of loess soils using radial horizontal holes. Anpilov, V.E., et al, [1980, p.674-677, eng] 34-3374
Structure of taiga soils in the Tomsk area of Priob'e. Geras'ko, L.I., [1978, p.144-148, rus] 34-3605
Soil formation on dust loams in the taiga zone of northeastern European USSR. Rusanova, G.V., et al, [1978, 128p., rus] 34-3753
Dynamics of soil and geochemical indices in central taiga geosystems. Sazonov, A.G., [1977, p.73-84, rus] 34-3816
Regularities governing microelement content in the soils of the southwestern taiga area (The Ordovician Plateau). Dvornikova, L.L., [1979, p.74-82, rus] 34-3876
Forests in the Vychegda river floodplain, their distribution and dynamics. Moiseev, B.N., et al, [1980, p.12-20, rus] 34-3879
Role of the thermal factor in the formation of bogs in the Amur Region. Kholoden, E.E., [1978, p.6-10, eng] 34-3960
Formation and development of swamp systems. Kiriushkin, V.N., [1980, 88p., rus] 34-4014
Paludification of land in the North European USSR. P'iavchenko, N.I., [197 , p.9-11, rus] 34-4216
Effectiveness of draining north taiga lands in Komi ASSR. Gortinskil, G.B., et al, [1979, p.137, rus] 34-4238
Metabolism of north taiga fir growing on drained and fertilized peat soil. Konovalov, V.N., [1979, p.147, rus] 34-4239
Palynology
Palynological investigations in Severnaya Zemlya related to spore and pollen transfer in the high altitude Arctic. K...ugina, L.V., et al, [1979, p.330-334, rus] 34-1389

Lithologic and palynologic characteristics of alassy deposits in Central Yakutia. Bosikov, N.P., et al, [1978, p.66-79, rus] 34-2923

Panels

Reconstruction of enterprises for the expansion of complete unit construction. Drobiazko, V.A., [1979, p.10-11, rus] 34-167

Optimal design of steel frames for modular buildings in the Far North. Volovik, A.IA., et al, [1972, p.3-15, rus] 34-173

Small buildings of metallic folding sections. Nevenchenko, I.M., et al, [1972, p.22-32, rus] 34-175

Sectional buildings with bearing panels made of effective materials. Lazhintsev, V.I., et al, [1972, p.54-63, rus] 34-178

Methods of technical and economic evaluation of modular buildings and structures. Pal'tsevich, L.P., [1972, p.64-73, rus] 34-179

Technical and economic indices of aluminum bearing structures of standard industrial buildings. Malyshkina, I.N., et al, [1972, p.85-91, rus] 34-181

Technical and economic analysis of different construction materials in modular buildings. Kuzina, Z.G., et al, [1972, p.92-97, rus] 34-182

Determining optimal service life of modular buildings. Pal'tsevich, L.P., [1972, p.98-107, rus] 34-183

Wall panels with polyurethane foam thermal insulation used in power plant construction. Danenkov, V.D., et al, [1979, p.33-34, rus] 34-196

Electric panels for heating modular houses. Kazantsev, I.A., et al, [1979, p.10-11, rus] 34-241

Slag concrete for building walls exposed to corrosive media. Bulgakova, M.G., et al, [1977, p.27-33, rus] 34-348

Recommendations for using lightweight concrete in the construction of large panel residential buildings. [1976, 71p., rus] 34-401

Reusable heating-panel frame with new types of heating units. Beliaev, A.M., et al, [1979 p.16-18, rus] 34-1150

Combined design technique in large panel construction. IAkushev, A.A., et al, [1979, p.7-8, rus] 34-1431

Performance and construction properties of glass-phenol-formaldehyde plastic SF1. Stefurak, B.I., et al, [1979, p.14-15, rus] 34-1709

Thermal stresses in trapezoidal layered panels with corrugated facing. Chaplinskiĭ, I.A., et al, [1979, p.39-45, rus] 34-1719

Sectional, instead of situ-poured, cylindrical pumping stations. Podgornyĭ, I., [1979, p.40-41, rus] 34-1772

Light metal structures for industrial buildings and their installation. Abramovich, K., et al, [1979, p.24-27, rus] 34-1774

Heat and moisture transfer in experimental wall panels with the (FSP) phenol-formaldehyde plastic thermal insulation. Alumiae, A.E., [1979, p.30-39, rus] 34-2382

Lightweight enclosures for use in the Urals and Siberia. Pavlov, V.P., et al, [1979, p.2-5, rus] 34-2589

Reducing heat loss through window retrofitting. Hager, N.E., Jr., et al, [1980, p.55-57, eng] 34-2791

Stresses in triple layer wall panels at different rates of temperature drop along thickness. Albaut, G.N., et al, [1979, p.118-123, rus] 34-2847

Construction in the Arctic and the Far North. [1970, 95p., rus] 34-2867

Catalog of temperature fields of standard enclosure joints. Part I, Residential buildings. Design manual. Ivashkova, V.K., et al, [1980, 111p., rus] 34-2937

Studying service life and phase composition of cellular concrete outer wall panels with different finish. Bezborodov, V.A., et al, [1979, p.67-70, rus] 34-2973

Design of lightweight multilayered panels with polystyrene foam thermal insulation. Zhuk, I.P., et al, [1978, p.65-72., rus] 34-4017

Structural thermodynamics. A review. L'vov, G.N., ed, [1969, 100p., rus] 34-4046

Experimental study of air and water permeability of external wall panel joints. Roslaia, G.I., [1969, p.3-8, rus] 34-4047

Field inspection of thermal properties of 1605 AM/9 series houses with multilayer external walls. Bralnina, E.IU., [1969, p.9-15, rus] 34-4048

Field inspection and testing of thermal properties of enclosures of a 12-story residential building. Bukharova, N.V., [1969, p.16-28, rus] 34-4049

Thermoinsulative properties of lightweight concrete external wall panel joints in buildings of the series II-57 and II-60. Surkov, V.I., et al, [1969, p.29-35, rus] 34-4050

Winter testing of thermal properties of plastic mobile houses. Avdeev, G.K., [1969, p.89-92, rus] 34-4051

Particle size distribution

Numerical simulation of atmospheric ice accretion. Ackley, S.F., et al, [1979, p.44-52, eng] 34-57

Sediment analysis of cores from Davis Strait and Flemish Pass for Imperial Oil Limited. [1976, n.p., eng] 34-311

Supraglacial debris of G2 glacier in Hidden Valley, Mukut Himal, Nepal. Nakawo, M., [1979, p.273-283, eng] 34-542

Grain density of till: a potential parameter for the study of glacial transport. Puranen, R., et al, [1979, 32p., eng] 34-1378

Pore size distribution in critical point and freeze dried aggregates from clay subsoils. Lawrence, G.P., et al, [1979, p.499-515, eng] 34-1645

Size distribution and Z-R relationship of snow particles observed in Nagaoka, Pt. 1. Yagi, T., et al, [1979, p.49-61, jap] 34-1740

Ice initiation in unmixed undraft cores in northeast Colorado cumulus congestus clouds. Heymsfield, A.J., et al, [1979, p.2216-2229, eng] 34-1765

Considerations on the origin and properties of the antarctic aerosol. Shaw, G.E., [1979, p.1983-1998, eng] 34-2372

Possible mechanism of ice splinter production during riming. Choularton, T.W., et al, [1978, p.791-792, eng] 34-2677

Mechanism of ice splinter production during riming. Mossop, S.C., [1980, p.167-169, eng] 34-2678

Laboratory studies of riming, and its relation to ice splinter production. Choularton, T.W., et al, [1980, p.367-374, eng] 34-3447

Migration of solid particles in melting snow. Kohno, S., et al, [1979, p.81-92, jap] 34-3494

Cross-section, velocity, and bedload data at two erosion sites on the Tanana River near Fairbanks, Alaska, 1979. Burrows, R.L., [1980, 32p., eng] 34-3669

Size distribution and Z-R relationship of snow particles observed in Nagaoka, Pt.2. Yagi, T., et al, [1980, p.29-38, jap] 34-4196

Measurement of the fall velocity of snowflakes in Nagaoka and its application to the Z-R relation. Uyeda, H., et al, [1980, p.39-46, jap] 34-4197

Particles

Supraglacial debris of G2 glacier in Hidden Valley, Mukut Himal, Nepal. Nakawo, M., [1979, p.273-283, eng] 34-542

Continuous record of artificial tritium fallout at the South Pole (1954-1978). Jouzel, J., et al, [1979, p.188-200, eng] 34-1000

911 years of microparticle deposition at the South Pole: a climatic interpretation. Thompson, E.M., [1979, 200p., eng] 34-2455

Preliminary study of ice grown by droplet accretion using water-insoluble particles as tracer. Prodi, F., et al, [1980, p.284-289, eng] 34-3202

Glaciological investigations of the tropical Quelccaya ice cap, Peru. Thompson, L.G., [1980, p.69-84, eng] 34-3799

Relationships among lead, iodine, trace metals and ice nuclei in a coastal urban atmosphere. Borys, R.D., et al, [1979, p.1490-1494, eng] 34-3996

Patterned ground

Mudboil activity, central District of Keewatin. Egginton, P.A., [1979, p.349-356, eng] 34-23

Equilibrium model for hummocks (nonsorted circles), Garry Island, Northwest Territories. Mackay, J.R., [1979, p.165-167, eng] 34-287

Features indicative of permafrost. Black, R.F., [1976, p.75-94, eng] 34-510

Zonal characteristics of polygonal ice-wedge relief in Western Siberia. Shamanova, I.I., [1979, p.82-87, eng] 34-529

Patterned ground on an active medial moraine, Jotunheimen, Norway. Ballantyne, C.K., [1979, p.396-401, eng] 34-554

Photo-geomorphic map of the Mt. Menzies nunatak, Prince Charles Mountains, Australian Antarctic Territory. Derbyshire, E., et al, [1978, p.17-26, eng] 34-662

Evolution of the soil landscape in the sand region of the Arctic coastal plain as exemplified at Atkasook, Alaska. Everett, K.R., [1979, p.207-223, eng] 34-687

Classification of cryogenic formations in Caucasus. Bondyrev, I.V., [1979, p.105-108, rus] 34-858

Soils and the productivity of plant communities. Vol.4. Kovda, V.A., ed, [1979, 205p., rus] 34-1058

Structure of moss synusiae in the spotty tundra of the Agapa research station. Tishkov, A.A., [1979, p.5-14, rus] 34-1059

Geomorphic processes on the north slope of Alaska. Hall, D.K., [1979, 25p., eng] 34-1169

Proglacial aggradation and changes in braided channel patterns during a period of glacial advance: an alpine example. Maizels, J.K., [1979, p.87-101, eng] 34-1463

Relict cryogenic microrelief of the southern Bryansk Region. Porozhniakova, O.M., [1979, p.86-93, rus] 34-1823

Geocryology. Washburn, A.L., [1980, 406p., eng] 34-1987

Recent geomorphological processes in the periglacial zone of the southeastern Altai (the Tete River valley). Petkevich, M.V., [1967, p.98-107, rus] 34-1992

Comparative analysis of past and present glacial and permafrost relief forms in Asia. Kazakova, N.M., [1976, p.10-45, rus] 34-2010

Application of factor analysis to the study of patterned ground in polar environments. Brossard, T., [1979, p.61-71, fre] 34-2316

Ecotypic differentiation in *Carex aquatilis* on ice-wedge polygons in the Alaskan coastal tundra. Shaver, G.R., et al, [1979, p.1025-1046, eng] 34-2496

Exogenic relief forming process in the cryolithozone. Sukhodrovskiĭ, V.L., [1979, 280p., rus] 34-2684

Cryogenic sediments of the Muostakh Island. Ivanov, M.S., et al, [1978, p.12-25, rus] 34-2917

Cryogenic formations in the Baian-Obo area. Ragcha, T., et al, [1978, p.8-11, rus] 34-2940

Arctic tundras and polar deserts of Taymyr Peninsula. Aleksandrova, V.D., ed, [1979, 206p., rus] 34-3033

Structure of vegetational cover in polar deserts of the Taymyr Peninsula (Cape Chelyuskin). Matveeva, N.V., [1979, p.5-27, rus] 34-3034

Cryogenic relief of bald peaks in Pribaykal'e and Northern Transbaykal. Vyrkin, V.B., [1977, p.138-163, rus] 34-3607

Dynamics of vegetational cover and the development of cryogenic relief forms. Tyrtikov, A.P., [1979, 116p., rus] 34-4010

Physiography and glacial geomorphology of the central Black Coast, Palmer Land. Singleton, D.G., [1980, p.21-32, eng] 34-4113
