AIR WAR COLLEGE RESEARCH REPORT SUMMARY
NO. MS107-81

TITLE: Military Families with Handicapped Children: The
Reassignment Problem

AUTHOR: Walter A. Krueger, Jr., Lieutenant Colonel, USAF

✓ This report reviews the reassignment process for military members who have handicapped children and the general lack of information available with which the member can make a meaningful input into the beginning of the process. Bulk of the guide consists of self-evaluations of individual school systems that serve major United States Air Force installations in the United States. This information will allow parents to request bases, knowing in advance whether the school system(s) supporting personnel assigned to that base can support their child's needs.

BIOGRAPHICAL SKETCH

Lieutenant Colonel Walter A. Krueger, Jr. (B.A., Lebanon Valley College) has been extremely interested in special education since his youngest daughter was diagnosed as being developmentally delayed in 1978 at age four. This interest was further increased when he was assigned as a squadron commander at a base which was served by an education system rich in special education programs. Several members of his squadron were assigned there because of the availability of special programs. Lt Colonel Krueger has operational experience as a radar navigator and aircraft commander in the B-52 bomber both in the United States and in South Vietnam and as a forward air controller flying the O-2A in South Vietnam. His last assignment as a wing mobility officer followed two years during which he served as the 7th Transportation Squadron Commander. He holds the Distinguished Flying Cross, Meritorious Service Medal with one Oak Leaf Cluster, and the Air Medal with eight Oak Leaf Clusters. Lt Colonel Krueger is a graduate of the Air War College, Class of 1981.

ACKNOWLEDGEMENTS

The author would like to acknowledge that this guide could not have been compiled without the time, effort, and cooperation of the representatives of the education systems included in this guide. The Directors of Special Education, Coordinators of Exceptional Students, Supervisors of Student Services; by whatever title, they provided the information included in this guide and for that I owe them a debt of gratitude. Some of them, such as Dr. James Dyk of the Wichita, Kansas Public School System and many others, provided in-depth guidance and advice on how such a guide should be designed, perhaps more clearly worded questions, and much encouragement. I am saving all such insight and will use it in the future to prepare an updated guide, if allowed and able. All in all, the preparation of this guide was extremely interesting, very time consuming, but exceptionally worthwhile. The entire family has learned more about the programs available to help youngsters, like my daughter Melanie, grow and learn to be independent.

My last acknowledgement goes to my bride, Linda, for her sense of direction, familiarity with the various programs and terminology, and her tremendous support, for otherwise this guide may not have been completed.

INTRODUCTION

The present reassignment process for Air Force personnel with handicapped children can provide a good deal of uncertainty to the unaware member and yet is basically handled as fairly as possible under existing guidelines and procedures. A brief description of the present process is provided to help limit the uncertainty and to provide for the basis or reason for this guide. First, however, some points about the program and helpful hints.

Children Have A Potential (CHAP) conditions must be reported to the base personnel office as soon as it becomes necessary to provide special education or treatment for your dependent. Once a CHAP program is established, special assignment consideration continues as long as the program exists. It is recommended, however, that you maintain contact with your local base CHAP officer to insure this consideration. If the program or treatment cannot be established at your present base, then a CHAP assignment request to a base that can support your child should be submitted. Assistance from the base CHAP officer at the hospital is required. A one-time deferment can also be granted in order to establish a program. The last major point is that although the member must still serve his or her share of overseas assignments, options of going short tour rather than long tour if the program cannot be provided overseas as well as home-basing or return to a base that can support your child's program are available.

In general, the reassignment process is handled normally—up through the point of notification. Upon notification of an assignment, the first thought of the parent is whether or not the gaining base can support his or her child. This can be accomplished by putting together the most up-to-date medical and educational package you can on your child—to include the Individual Education Plan (IEP), if available. The base personnel office can explain the details, requirements, and how to proceed. Two copies of the package along with cover letters indicating your actual request must be turned in to the base personnel outbound assignments section. A message is normally sent to this office from the Air Force Military Personnel Center (AFMPC) with your answer. This method is normally used for deferment requests also.

The purpose of this guide is to put the military member back in to the beginning of the cycle instead of at the end. Using this guide to choose bases of preference and indicating that these bases appear to be able to provide the required treatment/special education for your child on your career objective statement or "dream sheet" will do so. It should also speed up the entire process and be of help to

those individuals working the assignment at both the major air command (MAJCOM) level and at AFMPC. I would also like to suggest that to be absolutely sure that your child's individual program can be satisfied, a letter or call with your child's pertinent information be directed to the education system(s) you are selecting. Use the "By Base" education system listing in the back of this guide. Most responses that were received in compiling this guide indicated a willingness to talk or communicate directly with the parents prior to arrival; therefore prior to requesting a base, you may find this same process quite helpful.

One last point should be made at this time. This information is current as of February, 1981. Changes, additions and deletions occur in education programs frequently and are usually improvements to the programs. The opposite, however, could occur and a program, for instance, could be dropped. When using this guide, please remember it is just that, a guide to special education, and nothing more.

NOTE: The education systems listed in this guide are, for the most part, representative of the base listed; however a few may not be the primary education system actually serving the listed base. The education systems actually serving the base listed are indicated, when known.

METHODOLOGY

One of the first things discussed in the writing of this guide was the extremely large number of Air Force installations in the United States. In the interest of time and labor, bases to be included in this guide were limited to those that had a military population of 2,000 or more. In order to insure adequate coverage, however, Goodfellow AFB and Air Training Command bases which have noncombatant missions and therefore more civilians filling traditionally military roles were included. Even after these limitations were imposed, a total of 83 installations were selected to be included in this guide.

The first objective was to get the names and addresses of the local education systems serving the selected Air Force installations. This was accomplished by writing each of the states concerned with a request for the local addresses. The state directors names and addresses were furnished by Sharon Fikes, a resource identification consultant for the Region XI Education Service Center in Fort Worth, Texas.

Some states replied with a single name and address for each base and some responded with lists of state-wide names and addresses from which were selected those that would receive questionnaires. The number of local education systems receiving the questionnaire came to 189, and some of these served more than one base. Many of those sent questionnaires did not respond to the first questionnaire and were sent follow-up packages, so the total number of mailings came close to 300. This figure also included third requests sent to critical school systems where a base had no representation in the guide.

The questionnaire package consisted of a letter of explanation and request for special education information, a page of definitions and abbreviations so that common terminology would be used, and the two-page questionnaire.

The definitions and abbreviations page contained handicapping conditions thought to be widely used and accepted. The actual definitions were drawn from three sources primarily for the sake of accuracy. The handicapping conditions were broken down into four main areas: physically handicapped (PH), developmental brain impairment (DBI), emotionally disturbed (ED), and multihandicapped (MH). The first two were further broken down to take into account severity and actual handicapping conditions. Physically handicapped was broken down into blind/deaf (B/D); visually handicapped (V) which includes those partially sighted (PS) and legally blind (LB); orthopedically handicapped (O) which includes muscular or neuro-

muscular handicaps (MN), skeletal deformities or abnormalities (SD), and general disabilities (GD); and communicably handicapped (C). Developmental brain impairment was broken down into mentally retarded (MR) which includes those educationally mentally retarded (EMR) and trainably mentally retarded (TMR), autism (AUT), and learning disabilities (LD) which includes aphasia (APH), agraphia (AGR), and hyperkinesia (HYP). The specific definitions can be found in the glossary in the back of this guide.

The actual questionnaire was very similar to the format used to describe each education system in this guide. A program status chart headed the questionnaire and allowed an easily completed picture of program availability and the completer's opinion of each program's rating from a rating of just beginning to one of exceptional. The rest of the questionnaire contained eighteen questions, some multiple part, which were phrased and abbreviated in format for the guide.

CONTRACTED OUT															

1. Program beginning age: 0 Completion age: 21
2. Normal student/teacher ratio: 10 / 1 Aides used: Yes, 1/teacher, autistic-2
3. Qualification of teachers: Must be credentialled in required discipline
Aides: Two years of college or better (most have degrees)
4. Specialized training available: Yes Speech: Yes
Adaptive physical education: Yes Times per week: IEP* Length: IEP*
5. Early childhood programs available: Yes
6. Mainstreaming offered: Yes Grades: K - 12
7. Summer programs offered: Yes School: Yes Private:
Cost involved: None Transportation provided: Yes
8. Delay anticipated before entering special ed program: Not at present time
9. Evaluations done in school: Yes Psychological: Yes Audiological: Yes
10. Required medications handled by: administered by registered nurse**
11. Diagnostic center available: Yes
12. School hours: 8:15 - 3:00 13. Field trips offered: Yes
14. Hot meals available: Yes Cost involved: Depends on parents' income
15. Busing provided: Yes Limitations: No
16. Unique programs available: *Individual Educational Program Team concept.
17. Strengths/weaknesses of program: Weaknesses due to the enactment of Proposition 13 and the sky rocketing gasoline prices causing the cost of transportation to greatly endanger actual program funding. The sparsity of population in the Yuba County geographical area in some instances requires some students to travel an excessive time to and from school. Individualized program structure is extremely impressive.
18. Additional comments: **Medication must be accompanied by a doctor's prescription and parent's written permission in order to be administered in school. Special Education Handbook for Parents is very explicit, informative. Write them if interested.

- Diagnostic center available: not yet
- School hours: 8:00 - 4:00 13. Field trips offered: Yes
- Hot meals available: Yes Cost involved: varies from 50¢ to \$1.00
- Busing provided: Yes Limitations: No
- Unique programs available: No
- Strengths/weaknesses of program: This cooperative includes 7 school districts consisting of small rural schools. Probably the greatest strength is that this district can provide personal attention to special children through mainstreaming. Being separated from so many school districts makes it difficult to zero in on those handicapping conditions that have small percentage of occurrence; programming is costly.
- Additional comments: _____

*Column changed this way on returned questionnaire.

- Program beginning age: 3 Completion age: 21
- Normal student/teacher ratio: varies, 10/1 avg Aides used: Yes
- Qualification of teachers: Credentialed by State of California
Aides: High School education and experience
- Specialized training available: _____ Speech: Yes
Adaptive physical education: Yes Times per week: varies Length: varies
- Early childhood programs available: very limited
- Mainstreaming offered: Yes Grades: All
- Summer programs offered: Yes School: Yes Private: _____
Cost involved: No Transportation provided: Yes
- Delay anticipated before entering special ed program: Minimal
- Evaluations done in school: Yes Psychological: Yes Audiological: Yes
- Required medications handled by: _____
- Diagnostic center available: No, a diagnostic team will come to the area.
- School hours: vary, reg. school length 13. Field trips offered: Yes
- Hot meals available: generally Cost involved: No
- Busing provided: Yes Limitations: only for weather
- Unique programs available: No
- Strengths/weaknesses of program: Edwards is 90 miles from major population. Mild-er handicapped children usually profit from regular class placement with resource specialist assistance or learning handicapped special classes on or near the base. Low incidence of more severely handicapped, classes may be small. Those who require a very specialized program are transported to nearest facility thru interagency agreement.
- Additional comments: Services for all handicapped children will be provided but the geographical location of Edwards AFB makes the provision an interesting logistical problem at times.

Eglin AFB, FL

- Unique programs available:
- Strengths/weaknesses of program: District provides comprehensive educational services to all handicapped children who have additional needs beyond those which can be generally met by regular classroom program. Special education programs are developed by a Child Study Team, including the parent. Teams strive for a setting as close to his/her normal classroom as possible.
- Additional comments: Speech, occupational, and physical therapy are provided as an integral part of the child's school program. To insure an appropriate education for every handicapped child, active child identification program conducted annually.

16. Unique programs available: V students in coop; transported at no cost to parent
17. Strengths/weaknesses of program: Weaknesses caused by changes in staff and budget problems in providing the programs needed, especially for older ED children.
Staff vacancies for "O" children is a serious problem. If a child cannot be placed in public school, referral is made to a residential facility at no cost to parent.
Keesler AFB Medical facility helps with dependent children as part of the team.
18. Additional comments: *Adaptive PE is jointly planned by the school and therapist from Keesler AFB. **Not with prior documentation, although local testing may be made. ***If results indicate, referral is made to a specialist at no cost to parent.

7. Summer programs offered: Yes School: Yes Private:
- Cost involved: Nominal Transportation provided: Yes
8. Delay anticipated before entering special ed program: Not with documentation
9. Evaluations done in school: Some Psychological: Yes Audiological: Screening
10. Required medications handled by: The school
11. Diagnostic center available: Yes
12. School hours: 9:15-3:15/7:45-2:15 13. Field trips offered: Yes
14. Hot meals available: Yes Cost involved: 55¢/also free & reduced rates
15. Busing provided: Yes Limitations: No
16. Unique programs available: MH class serving MH/ED; Preschool for develop. delayed
17. Strengths/weaknesses of program: A full continuum of services is offered with an exceptional preschool program for developmentally delayed children. Early identification and remediation is a definite strength. The weakness of the program involves the high degree of mobility of the area, making it difficult to adequately project increased services.
18. Additional comments: If parents would maintain a file of their child's diagnostic and evaluative data (current), it would expedite any placement for special ed services and reduce any chance of inappropriate placement.

3. Qualification of teachers: State certification in area of speciality
Aides: high school diploma
4. Specialized training available: _____ Speech: Yes
Adaptive physical education: * Times per week: 2 Length: 40 minutes
5. Early childhood programs available: No
6. Mainstreaming offered: Yes Grades: K - 12
7. Summer programs offered: Yes School: Yes Private: No
Cost involved: No Transportation provided: Yes
8. Delay anticipated before entering special ed program: Yes
9. Evaluations done in school: some Psychological: some Audiological: No
10. Required medications handled by: prescription bottle only, in office
11. Diagnostic center available: Only mental health clinic—counseling, some testing
12. School hours: ** 13. Field trips offered: a few
14. Hot meals available: Yes Cost involved: Yes
15. Busing provided: Yes Limitations: ***
16. Unique programs available: _____
17. Strengths/weaknesses of program: Part-time LD program both K-6 and 7-12 meaning 40 minutes a day for a specified number of meeting per week. EMR program for students whose I.Q.'s fall below 80. It is full time or mainstreamed. Major weakness is that there is no psychologist for testing/counseling. Local mental health center does some thru CHAMPUS. Military mental health clinic is for military primarily, not family.
18. Additional comments: System requests contact with Loring CHAP officer before arriving. *Mainstreamed. **Elementary is from 9 - 3, Jr./Sr. High is from 7:47 to 1:40. ***Physically handicapped—no provision to reg. school, yes to contracted ones.

7. Summer programs offered: No School: Private:
Cost involved: Transportation provided:
8. Delay anticipated before entering special ed program: No
9. Evaluations done in school: Yes* Psychological: Yes Audiological: Yes
10. Required medications handled by: school nurses or teacher by prescription
11. Diagnostic center available: No
12. School hours: 9:00-3:00 basically 13. Field trips offered: Usually Yes
14. Hot meals available: Yes Cost involved: Elem. = 65¢, Secondary = 85¢
15. Busing provided: Yes Limitations: No
16. Unique programs available:
17. Strengths/weaknesses of program: Services in the area of counseling and/or special work are limited within the school district due to funding. Support for military personnel by Madigan Hospital at Fort Lewis has been severely curtailed. If the individual's needs are unusual, this district recommends that an early contact be made to determine the availability of a special service.
18. Additional comments: *Educational evaluations are done annually; psychological evaluations are done every three years.

- Required medications handled by: Parents are required to administer
- Diagnostic center available: _____
- School hours: 8:00-3:00 13. Field trips offered: Yes
- Hot meals available: Yes Cost involved: Yes, unless qualify for free lunch
- Busing provided: No Limitations: _____
- Unique programs available: "Omni" model—serves several handicaps simultaneously
- Strengths/weaknesses of program: All models (resource & self-contained) employ "management system" which reduces behavior problems, increases productivity and allows for regular communication with regular educators. Plans are made to implement Parent Involvement modules for educational training in working with their handicapped child.
- Additional comments: Have "non-catagorical" special assistance where students can receive help (1) if they don't qualify for full-time program and (2) as interim help until evaluation process is completed.

10. Required medications handled by: Nurse when available, otherwise teacher
11. Diagnostic center available: No (Boystown on referral)
12. School hours: El 8:45-3:15/8-2:45 Sec 13. Field trips offered: Few
14. Hot meals available: Yes Cost involved: elem - 65¢, secondary - 75¢
15. Busing provided: Yes Limitations: elem 1 mile from school, secondary - 4 mile
16. Unique programs available: Therapies taken to children, not other way around.
17. Strengths/weaknesses of program: Children placed as response to intellectual needs not sensory or physical. Very comprehensive, especially strong in secondary levels. Guidance counselors available in all buildings. Growing district; case loads get very large at times, forcing diminished services. Most LD services are in combination class rooms with other handicapping conditions, especially ED. Some concerned.
18. Additional comments: Summer programs in school for elementary and severe/profound students. Autistic program has the benefit of being part of a three district cooperative program.

14. Hot meals available: Yes Cost involved: Yes
15. Busing provided: ** Limitations: 4 miles from school
16. Unique programs available: Non-categorical resource room in each school.
17. Strengths/weaknesses of program: This school system's program is solidly based upon the concept of mainstreaming of handicapped students. Each child's program is individually prescribed. Parent involvement is mandated. Programs deemphasize labeling of children. Very academically oriented. There is a lack of vocational training at the secondary level.
18. Additional comments: This district receives a large number of handicapped students due to their accessibility.

*Screening only **Busing provided, if needed

- Hot meals available: Yes Cost involved: 70¢-85¢, depending on grade
- Busing provided: Yes Limitations: **see comments below
- Unique programs available: No
- Strengths/weaknesses of program: The district has very good physical facilities and a strong special education staff. Resources are strained from time to time, due to the location between Randolph and Ft Sam Houston—state funding is based on the total student population rather than on the number of handicapped students. There is a special education center for early childhood classes and the severely handicapped.
- Additional comments: *for severely handicapped. **Special busing is provided for early childhood and the more severely involved students. Other students are bused with regular students if they live 2 miles from school or there is a hazard.

*District operated

1. Program beginning age: 3 Completion age: 21
2. Normal student/teacher ratio: 10 / 1 Aides used: 1
3. Qualification of teachers: 5 years elementary/special education credential in PH, DBI, communicatively/severe Hdcp Aides: High School diploma
4. Specialized training available: Yes Speech: Yes
- Adaptive physical education: Yes Times per week: need Length: based on need
5. Early childhood programs available: Yes
6. Mainstreaming offered: Yes Grades: All
7. Summer programs offered: Yes School: on need Private: No
- Cost involved: No Transportation provided: Yes
8. Delay anticipated before entering special ed program: only to extent of assessment
9. Evaluations done in school: Yes Psychological: Yes Audiological: Yes
10. Required medications handled by: established procedures
11. Diagnostic center available: Yes
12. School hours: varies, mostly 6hrs/day 13. Field trips offered: Yes
14. Hot meals available: Yes Cost involved: Yes
15. Busing provided: Yes Limitations: No
16. Unique programs available: This district is moving in Master Plan areas.
17. Strengths/weaknesses of program: Strengths include individualized programs, co-operative parents and staff, access to Travis AFB hospital, access to universities within 50 miles, and community support for the programs. Possible weakness may lie in the rural vs city programs, some services require 30-45 minute rides, and certain communication delays due to terminology used in other states.
18. Additional comments: Programs also available with Berkeley State School or Free-mont State School for severe blind/retarded, deaf/blind or junior and senior high blind or deaf. **Deaf at age 13 go to Berkeley State School.

* = Regular Education

- Program beginning age: 0 Completion age: 25
- Normal student/teacher ratio: varies Aides used: Hearing impaired only
- Qualification of teachers: Certified in special education
Aides: _____
- Specialized training available: Yes Speech: Yes
Adaptive physical education: Yes Times per week: 2 Length: ½ hour each
- Early childhood programs available: Yes, consultant and center programs available
- Mainstreaming offered: Yes Grades: K - 12
- Summer programs offered: Yes (TMR) School: Yes Private: _____
Cost involved: None Transportation provided: Yes
- Delay anticipated before entering special ed program: No
- Evaluations done in school: Yes Psychological: Yes Audiological: Yes
- Required medications handled by: School nurse with parent permission/MD statement
- Diagnostic center available: Not locally, nearest is 100 miles away
- School hours: 8-9:00 - 1:30-3:30 13. Field trips offered: Yes
- Hot meals available: Yes Cost involved: 65¢
- Busing provided: Yes Limitations: No
- Unique programs available: EMR and ED programs are all self-contained rooms.
- Strengths/weaknesses of program: The LD program is not self-contained and mainstreams students into a regular education classroom as much as the student is capable of handling. Orthopedically handicapped and visually impaired served on a consultant basis. Physical therapy is handled through the local hospital. Being a northern, rural community they have somewhat limited medical/diagnostic facilities.
- Additional comments: If the needs of the student are very unusual or require a highly specialized program, this district indicates the student's needs may be better served in a larger, metropolitan center.

GLOSSARY

AFMPC	Air Force Military Personnel Center
AGR	Agraphia: impaired ability to write (2:14)
APH	Aphasia: difficulty with language and comprehension. (2:14)
AUT	Autism: infantile withdrawal into self. (2:14)
B/D	Blind/Deaf. Students whose hearing and vision remain legally nonfunctional after medical treatment and use of hearing and/or optical aids; and/or those students who are totally blind and nonspeaking who can't be educated in the manner provided elsewhere. (3)
C	Communicably handicapped. Those students whose speech, language, voice, and/or hearing so deviates from the norm as to adversely affect that pupil's developmental and education progress. (3)
CHAP	Children Have A Potential.
DBI	Developmental brain impairment: retardation, autism, and language/learning disabilities.
ED	Emotionally disturbed: self explanatory.
EMR	Educably mentally retarded: IQ 50-75; academic levels up to a moderate level; capable of developing independent functional skills in the community and to realize vocational and occupational adequacy resulting in full or partial self-sufficiency as an adult. (1:94)
GD	General disabilities: because of temporary or chronic lack of strength, vitality, or alertness. (3)
HYP	Hyperkinesia: physical overactivity with shortened attention span. (2:14)
IEP	Individual education program: a program completely dedicated to one student with personal goals and levels of achievement in all areas.

LB Legally blind. Those students with a visual acuity of 20/200 or less in the better eye with the best corrective lenses or a visual field not exceeding 20 degrees in the best eye. (3)

LD Learning disabilities: aphasia, agraphia, hyperkinesia mainly, however there are many others. (2:14)

MAJCOM Major Air Command

MH Multihandicapped. Combination of impairments which cause such severe educational problems that they cannot be accommodated in special education programs designed just for one of the impairments. The term does not include Deaf/Blind children. (1:100)

MN Muscular or neuromuscular handicaps

MR Mentally retarded

O Orthopedically handicapped. Those students whose health impaired physical conditions and/or special health problems may require modified facilities, curriculum, or materials. Includes muscular or neuromuscular handicaps, skeletal deformities or abnormalities, and general disabilities. (3)

PH Physically handicapped: blind/deaf, visually handicapped, orthopedically handicapped, or communicably handicapped.

PS Partially-sighted. Those students with a visual acuity of 20/70 or less in the better eye with best correctional lenses. (3)

SD Skeletal deformities or abnormalities

TMR Trainably mentally retarded: IQ 30-49; academic skills to a limited level; learn self-help/self-care skills; semi-sheltered setting. (1:94-95)

V Visually handicapped
