| 20. ABSTRACT (Continue on reverse side if necessary and identify by block number)<br>This report contains a frequency count of the basic vocabulary contained in the Army Soldier's Manual for the MOS/Skill Level designated in the title (item 4). This frequency count reflects only skill levels I/II and excludes the common tasks and those sections which are redundant/incidental to vocabulary analysis (e.g. table of contents, appendices, references, charts, etc). This vocabulary is only a sampling of the entire MOS vocabulary and is subject to change with MOS changes. |                                         |                                                                |

## Contents and General Information

1. The Word Frequency Analysis (WFA) reports were reproduced exactly as generated via computer printout. The prime users of this document were fully cognizant of its contents and required no special instructions for interpretation. However, for the sake of other readers, the following brief description of contents is provided.

2. The WFA reports for most MOS are divided as follows:

- o Skill Level I
- o Skill Level II

However, due to the way some Soldier's Manuals are constructed, the WFA for some MOS have both Skill Levels merged into one report. Each Skill Level is subdivided into two sections.

a. Alphabetic Rank: this section lists all terms in alphabetical order (left to right). To the left of each term is the frequency which that term appears in the text submitted for word frequency count.

b. Frequency Rank: this section lists the same terms contained in the first section of the report but reranked in accordance with their frequency of appearance from highest to lowest. Also, the terms are ranked alphabetically within the same frequency level.

3. It should be noted that the basis of this WFA is the Soldier's Manual. Consequently, this vocabulary set is only a sampling of the entire MOS vocabulary and is subject to change.

TEXT  
42 NIGHT  
1 NIGHT-FIRING  
1-1-50

[illegible]

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1. Introduction  
2. Methodology  
3. Results and Discussion  
4. Conclusion

6. PERMITTING THE POLICE TO OBTAIN A POLICE LICENSE

1. 1997年12月，某市发生一起重大交通事故，造成多人伤亡。事故发生后，交警部门立即启动应急预案，迅速开展救援工作。在救援过程中，发现部分伤员伤情严重，急需送往医院救治。然而，由于事发地点偏远，道路狭窄，救护车难以通行。交警部门立即向上级部门报告，请求支援。上级部门接到报告后，立即调派大型救护车和医护人员前往现场。同时，交警部门还组织人员清理事故现场，疏导交通，防止发生二次事故。经过紧张的救援，所有伤员均被成功送往医院救治。事故原因正在进一步调查中。
