500 CONTRACTORS LISTED ACCORDING TO NET VALUE OF
MILITARY PRIME CONTRACT AWARDS FOR RESEARCH,
DEVELOPMENT, TEST, AND EVALUATION WORK

FISCAL YEAR 1978

This report lists the leading 500 military prime contractors according to the net value of awards over \$10,000 for research, development, test, and evaluation (RDT&E) work during fiscal year 1978. This list is arranged in four sections: U.S. Business Firms; Educational and Nonprofit Institutions; Foreign Contractors; and U.S. Government Agencies.

Contractors in all sections are ranked in a single sequence so that only one contractor in the report is number one. The alphabetical index shows the section in which each contractor is located and his rank. The geographic locations shown are those where the work was expected to be performed. Generally, the location is a contractor's plant, laboratory, or other facility. However, if the work was scheduled to be performed at a Defense activity, such as an Air Force Base, the location is the Defense activity rather than the contractor's plant.

The following table shows the distribution of RDT&E awards for all contractors and for the top 500. The 1978 distribution is comparable to that for 1977. In 1977, the top 500 consisted of 386 U.S. firms (194 of which were small business firms); 104, educational and nonprofit institutions; 3, foreign contractors; and 7, U.S. government agencies. There are 88 contractors on the fiscal year 1978 list who did not appear on the fiscal year 1977 list.

(1) Includes 8(a) awards totaling \$8,120,000 made through Small Business Administration.

In addition to the 500 listed contractors, there were 1,437 other contractors who were awarded prime contracts over \$10,000 for RDT&E work during fiscal year 1978 making a total of 1,937 contractors in all compared with 1,898 contractors during fiscal year 1977. In 1978, RDT&E awards totaling \$8,520 million were awarded to the top 500 contractors compared to \$7,751 million in 1977, for an increase of \$769 million, or 10 percent. The \$8,520 million represents 98.1 percent of the \$8,683 million total prime contract awards of over \$10,000 for RDT&E work in fiscal year 1978.

Of the 19 contractors with RDT&E awards of \$100 million or more in fiscal year 1978, 17 were large U.S. businesses and 2 were educational institutions. These 19 contractors had a total of \$5,600 million in RDT&E awards. In fiscal year 1977, of the 17 contractors who attained the \$100 million plateau, 15 were large U.S. businesses and 2 were educational institutions with total awards of \$4,898 million. The amount of awards for the \$100 million group showed an increase of \$702 million, or 14 percent, between fiscal years 1977 and 1978.

The RDT&E contractors with the largest value of awards were engaged in research, development, test, or evaluation of missile and space systems, electronic and communications equipment, and aircraft programs. In fiscal year 1978, \$6,126 million or 70.6 percent of all RDT&E awards of over \$10,000 was for work connected with the above programs. As shown below, engineering development accounted for the majority (51.9%) of RDT&E awards. Within this category, aircraft programs received \$1,495 million, or 17 percent, of the total RDT&E awards. The next largest expenditure, also for engineering development, was missile systems (\$1,375 million, or 15.8 percent).
