INTRODUCTION

Health Manpower Statistics is an annual publication containing data on health and medical personnel employed by the military departments within the Department of Defense (DOD). The publication is produced from a health manpower data base designed, established, and maintained by the Manpower Management Information Division (MMID) of the Washington Headquarters Services/Directorate for Information Operations and Reports (WHS/DIOR) in support of the Office of the Assistant Secretary of Defense for Health Affairs, OASD(HA).

Data are submitted annually,¹ as of the end of the fiscal year, by the military departments to the Director, Health Information Systems, OASD(HA), in accordance with DOD Instruction 7730.36. Data submitted by the Army (USA), Navy (USN), and the Air Force (USAF) on each of 32 different formats have been consolidated and are presented in this volume. Data include personnel (both officer and enlisted) and civilian personnel.

The report includes comparison data for the end of the fiscal year by requirements and authorizations and assignments by corps level and selected specialties. Other formats present recruiting summaries, gains by program source, force strength projections, and extensive displays of rank, years of service, and primary and duty specialties for medical and dental officers. Education summaries show recruiting sources and projections for Armed Forces Health Professions Scholarship Program (AFHPSP) and graduate medical and dental education programs.

¹Seven formats are required semiannually as of the end of March.
