DEFENSE SMALL BUSINESS SUBCONTRACT PROGRAM

18. Fiscal Years 1969 Through 1978	71
APPENDIX TABLES	
TABLE A. Awards by Month (World-Wide Total), 1951 to Date	75, 76, & 77
TABLE B. Awards to U. S. Business Firms by Month, 1951 to Date	78, 79, & 80
TABLE C. DoD Orders Placed Against General Services Administration Supply Schedules	81, 82, & 83

AWARDS BY TYPE OF CONTRACTOR

Military Procurement by Type of Contractor. Total military procurement of \$65,185 million during fiscal year 1978 was an increase of \$9,613 million (17.3%) from the \$55,572 million during fiscal year 1977. Contract awards to U.S. business firms increased by \$7,020 million, awards for work outside the U.S. by \$1,191 million, awards to educational and non-profit institutions by \$144 million, and awards to or through other Government agencies by \$1,259 million.

Trends in Military Procurement. Fiscal year 1967 procurement, which reached a total of \$44.6 billion, established a new high since the peak Korean War year of fiscal year 1952 when military procurement totaled \$43.6 billion. Following Korea, the post-war cutbacks and adjustments reduced net procurement to \$13.3 billion in fiscal year 1954, after which there was a steady increase in annual procurement to \$25.3 billion in fiscal year 1959. Declining to \$23.7 billion in fiscal year 1960, procurement again increased in each of the next three fiscal years reaching \$29.4 billion in fiscal year 1963. Following declines to \$28.8 billion in fiscal year 1964 and to \$28.0 billion in fiscal year 1965, the increase in military activity in Southeast Asia brought about a sharp increase in procurement which reached \$38.2 billion in fiscal year 1966 and a high of \$44.6 billion in fiscal year 1967. Following declines in the next four years to \$34.5 billion in fiscal year 1971, procurement increased in fiscal year 1972 to \$38.3 billion, declined to \$36.9 billion during fiscal year 1973, increased to \$40.1 billion during fiscal year 1974, to \$45.8 billion during fiscal year 1975, to \$46.9 billion during fiscal year 1976, to \$55.6 billion during fiscal year 1977, and to \$65.2 billion during fiscal year 1978. The long-term trend in military procurement to business firms is shown in Table 3 and Chart II.

Small Business Performance. Small business firms received \$10,101 million during fiscal year 1978, an increase of \$1,188 million from the fiscal year 1977 total of \$8,913 million.

Small business firms received 19.2 percent of the value of military prime contracts awarded to all United States business firms during fiscal year 1978 compared with 19.6 percent in fiscal year 1977.

As shown in Chart I, 5,913,863 contract actions or 66.3 percent of the total 8,916,604 actions placed with business firms were awarded to small business firms.

Civil Functions Excluded. It should be noted that prime contracts for civil functions are not included in any of the tables in this pamphlet. If data for civil functions under the management of the Army Corps of Engineers (flood control, rivers, and harbors work) were included with those for military functions, the combined results for fiscal year 1978 would be as follows:

(Amounts in Millions)

	<u>All Business Concerns</u>	<u>Small Business Concerns</u>
	<u>Amount</u>	<u>% of Total</u>
All Prime Contracts	\$54,359	19.7
Military Functions	52,615	19.2
Civil Functions	1,744	36.3

Foreign Military Sales Contracts. Intragovernmental orders for fiscal year 1978 include \$5,805 million in foreign military sales contracts (reimbursable sales to foreign governments) as follows: Army, \$1,938 million; Navy, \$1,186 million; Air Force, \$2,650 million, and Defense Logistics Agency, \$31 million.

CHART II

AWARDS TO SMALL AND OTHER BUSINESS FIRMS

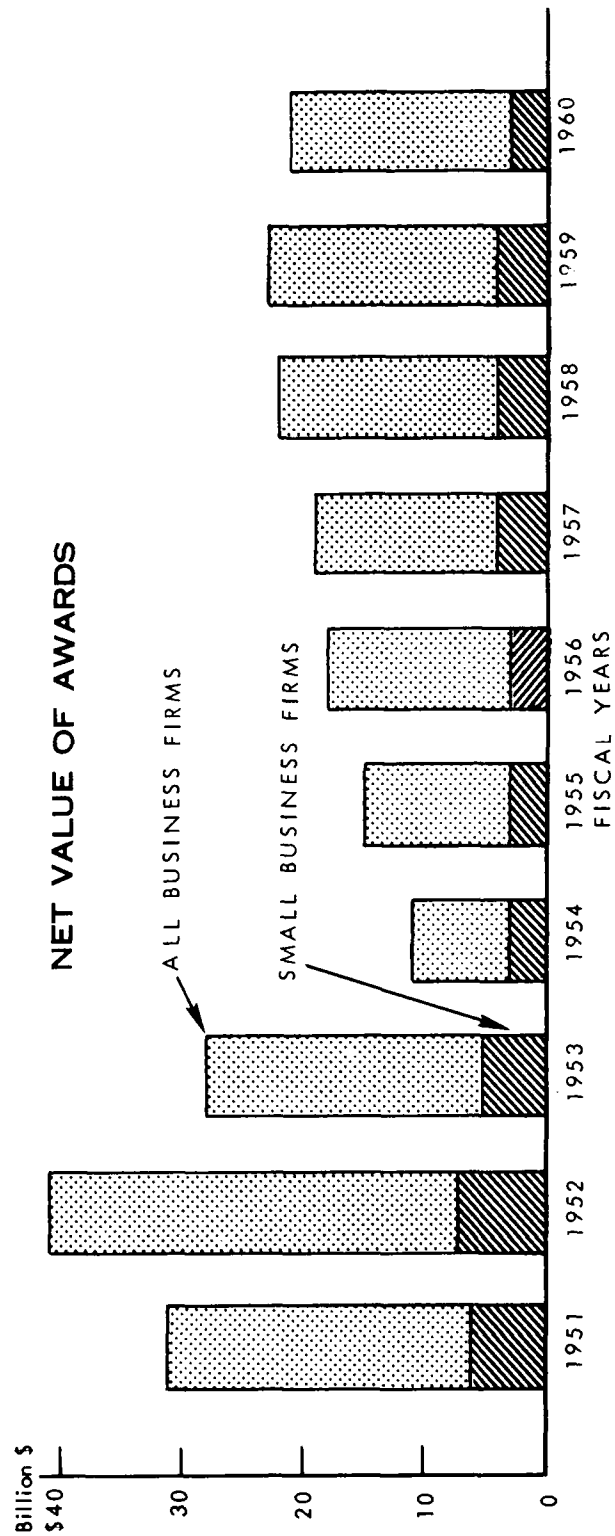

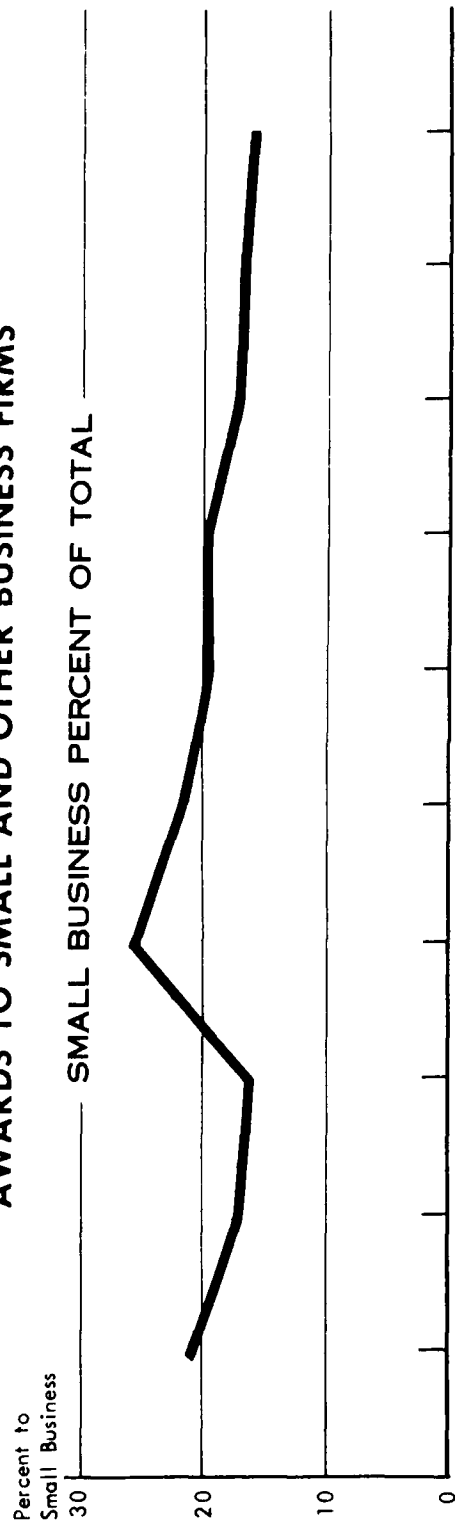

CHART II (Continued)

AWARDS TO SMALL AND OTHER BUSINESS FIRMS

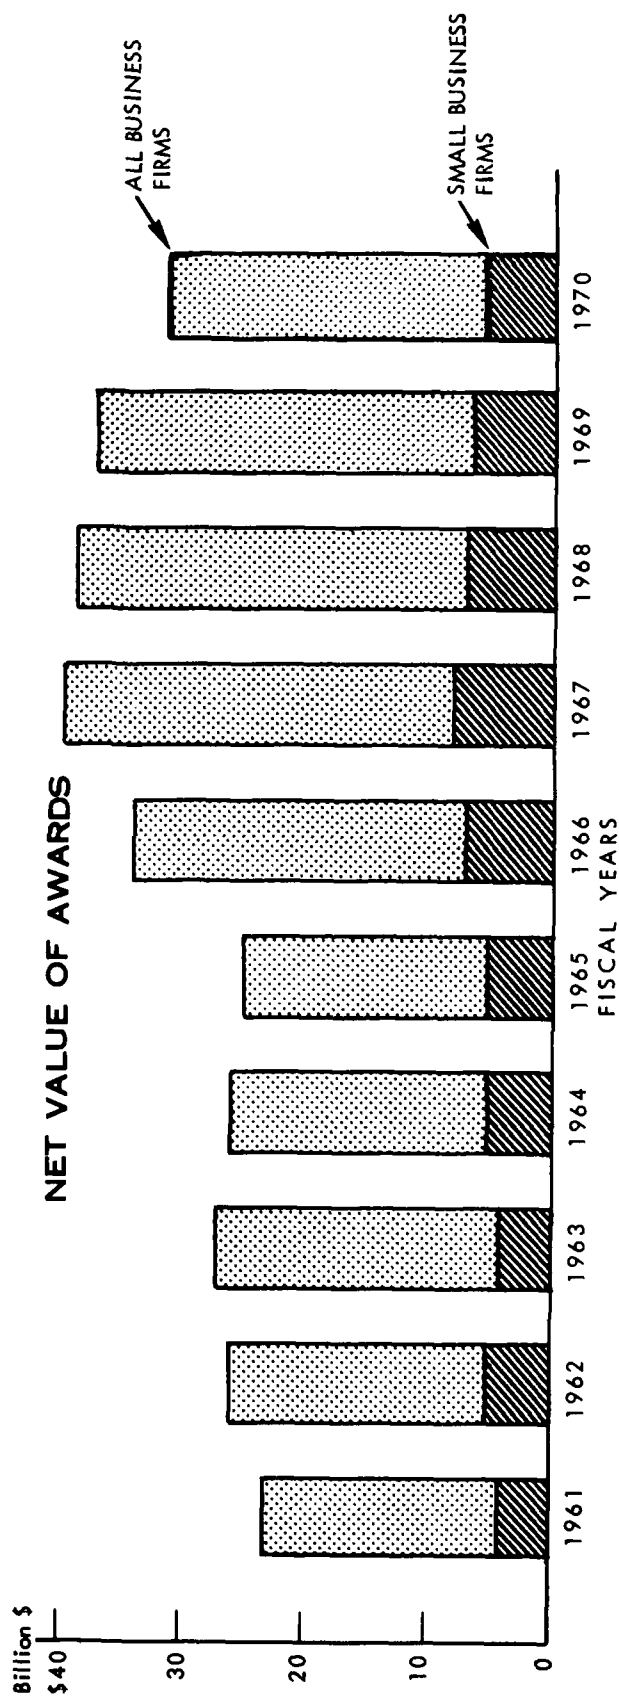

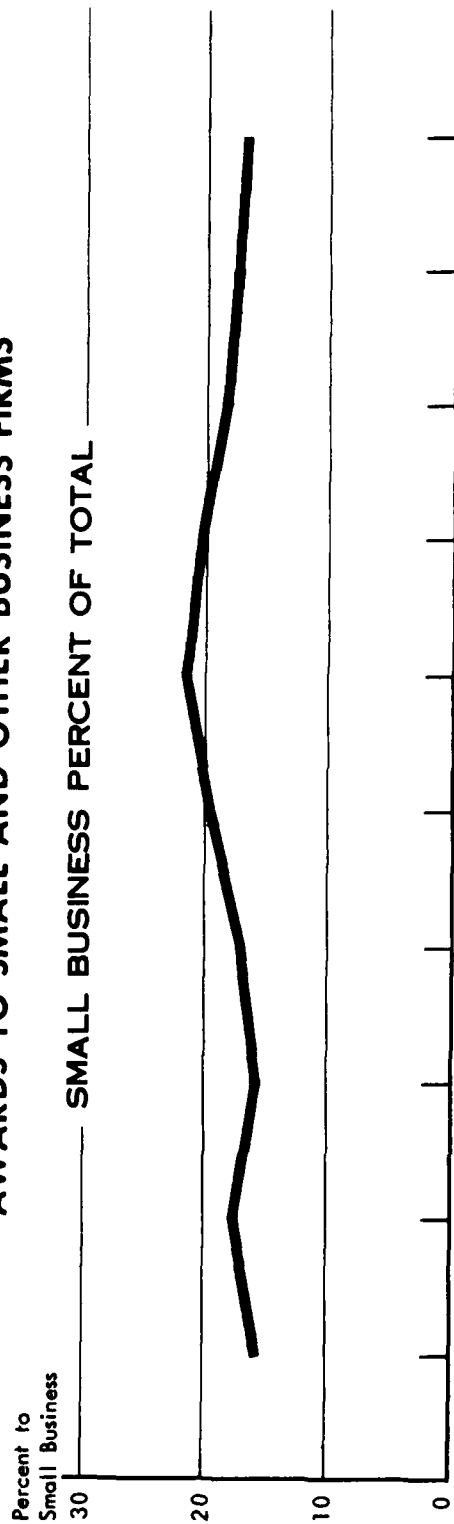

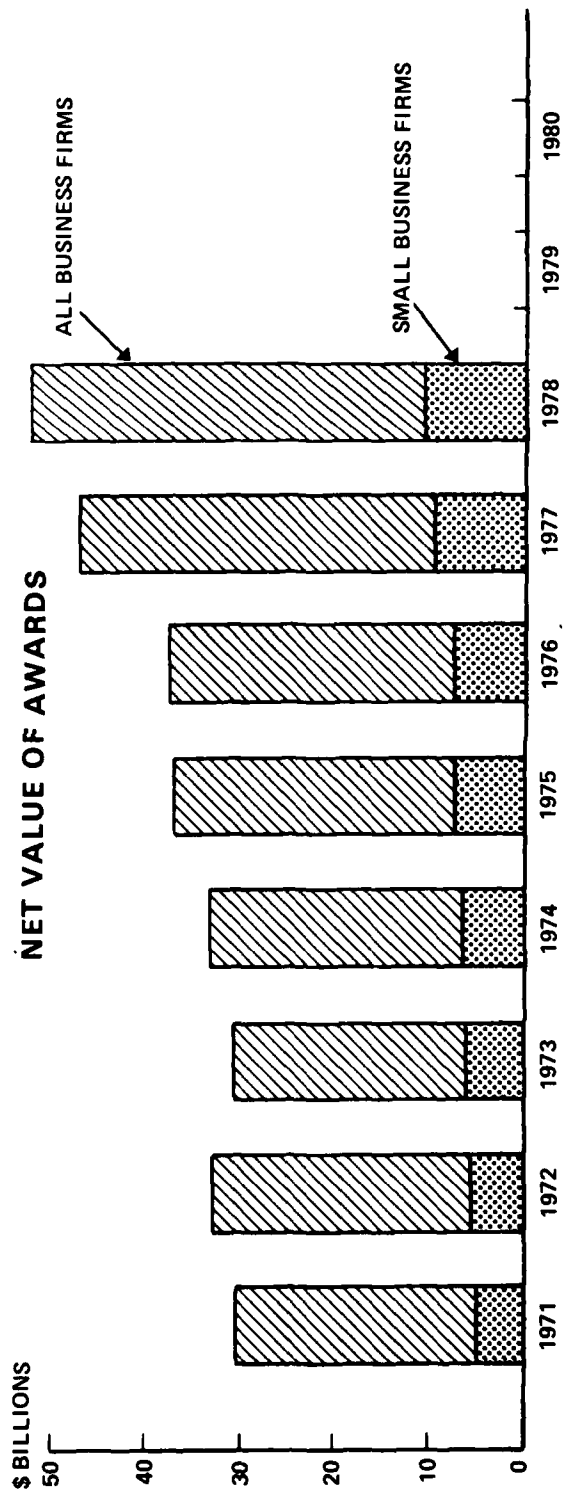

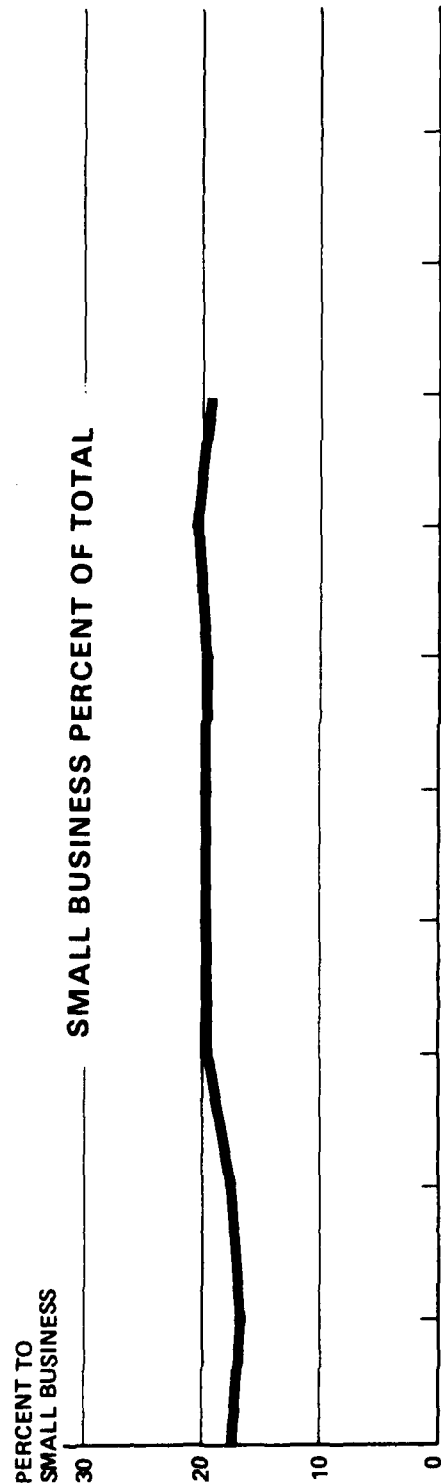

CHART II (Continued)

AWARDS TO SMALL AND OTHER BUSINESS FIRMS

AWARDS PUBLICIZED TO SMALL BUSINESS

The extent to which the small business community was notified of pending procurement actions and its success in competing for the publicized procurement is shown in Table 4.

The following types of procurement are included in the category "Publicized to Small Business": (1) proposed procurements which are synopsized and listed in the Department of Commerce publication Commerce Business Daily; (2) modifications to contracts which were synopsized; (3) formally advertised procurements which were not published in the Commerce Business Daily; and (4) all other procurements on which small firms were specifically requested to submit proposals. For the most part, not-publicized procurements relate to classified work, goods, or services involving an unusual or compelling emergency, modifications of contracts which were not synopsized, and delivery orders under not-synopsized contracts.

During fiscal year 1978, 83.3 percent of the total awards to business firms were publicized to small business compared with 82.5 percent during fiscal year 1977. Small business did not submit bids on 69.0 percent of these publicized procurements compared with 68.5 percent in the preceding year. They were successful in bidding on 23.1 percent (23.7 percent last year) of the publicized total and were unsuccessful bidders on 7.8 percent (7.7 percent last year).

The portion of military procurement synopsized amounted to 75.4 percent compared to 73.7 percent for last year.

AWARDS BY PROCUREMENT PROGRAM

Data on the net value of military prime contract awards to business firms in the United States by procurement program are shown in Table 5 and Chart III for fiscal years 1977 and 1978 and in Table 6 for fiscal years 1955 through 1978. Table 6A further subdivides awards by procurement program by purchasing department for fiscal years 1963 through 1978. The procurement program definitions are identical with those prescribed for use in the Defense Materials System.

Total military procurement from United States business firms for work performed in the United States during fiscal year 1978 totaled \$52,615 million, \$7,020 million (15.4%) higher than in fiscal year 1977. A comparison of fiscal year 1977 and 1978 totals shows the principal change to be a \$5,003 million increase for major hard goods. The procurement programs with the largest increases were ships (\$1,217 million), services (\$1,171 million), missiles and space systems (\$1,005 million), and aircraft engines and spares (\$939 million). The procurement program with the largest decrease was construction (\$179 million).

AWARDS FOR RESEARCH, DEVELOPMENT, TEST AND EVALUATION WORK

The net value of military prime contract awards for research, development, test, and evaluation work (RDT&E) for fiscal years 1959 through 1978 are shown in Table 7.

The total dollar value of RDT&E awards, excluding awards for work outside the United States and orders to other government agencies, amounted to \$8,612 million in fiscal year 1978 and accounted for 16.0 percent of all military procurement. In fiscal year 1977, the comparable dollar amount was \$7,826 million which was 16.8 percent of the total awards.

Between fiscal years 1959 and 1963 there was an annual increase in the dollar value of awards for RDT&E work. Following two years of decline, awards for RDT&E procurement increased to \$6,436 million in fiscal year 1968. After two years of decline to \$5,399 million in fiscal year 1970, awards for RDT&E increased in each subsequent year to \$6,266 million in fiscal year 1973, declined in fiscal year 1974 to \$5,775 million, again increased to \$6,257 million in fiscal year 1975, to \$6,726 million during fiscal year 1976, to \$7,826 million in fiscal year 1977, and to \$8,612 million during fiscal year 1978.

Contract awards for RDT&E by procurement program are shown for fiscal years 1959 through 1978 in Table 8. The percentages shown represent the proportions the RDT&E awards in each program are of the totals shown in Table 6.

The following table distributes the RDT&E dollars awarded to business firms and educational and non-profit institutions for fiscal year 1978 and shows that 3.9 percent was awarded for research, 88.5 percent for development, and 7.6 percent for management and support. Corresponding percentages for fiscal year 1977, respectively, were 4.3 percent, 87.6 percent, and 8.1 percent.

Small business firms in fiscal year 1978 acquired 6.1 percent of all prime contracts for RDT&E work receiving 29.2 percent of all research contracts, 5.1 percent of the development contracts, and 13.6 percent of the contracts for management and support.

AWARDS BY METHOD OF PROCUREMENT

In connection with the discussions relating to "Competition" and "Formally Advertised and Other Awards," it should be noted that sealed-bid procedures are used not only for unrestricted formal advertising but also for procurements made under balance of payments restricted advertising (restricted to U.S. end products and services) and small business restricted advertising (restricted to small business firms). These procurements are conducted in the same manner as prescribed for formal advertising; however, they are classified as negotiated procurements. The effect of including small business restricted advertising and balance of payments restricted advertising in the advertised total is shown under paragraph Formally Advertised and Other Awards.

Military prime contracts awarded after solicitation and receipt of two or more responsive offers for competitive price, design, or technical proposals totaled \$20,871 million and represented 36.2 percent of the net amount of procurement (excluding intragovernmental orders) during fiscal year 1978 compared to \$18,564 million and 37.6 percent for fiscal year 1977. Competitive methods accounted for 37.8 percent of the total number of procurement transactions during fiscal year 1978. In fiscal year 1977, competitive transactions accounted for 37.4 percent of the total.

Approximately 27 percent of the value of awards during fiscal year 1978 involving solicitation of one procurement source was for supplemental or follow-on contracts placed with companies which had previously competed successfully for the price, design, or technical phase of a project or weapon system. The remaining one-source solicitations included such types of goods and services as utilities, patented or other proprietary items, experimental, developmental, test or research work, and industrial mobilization in the interest of national defense. Table 10 provides a general indication of the type of items for which only one source was solicited, and further demonstrates that substantial use of competitive procedures is made even when sealed-bid (formally advertised) methods are not employed.

Formally Advertised and Other Awards. Table 11 shows the dollar volume of procurement placed with small business and other contractors through unrestricted formal advertising and other statutory authority during

fiscal years 1977 and 1978, and Table 12 shows similar information for fiscal years 1951 through 1978. During fiscal year 1978, 6.8 percent of total procurement was obtained by unrestricted formal advertising methods, compared to 8.0 percent in the preceding year.

If small business restricted advertising and balance of payments restricted advertising are included in the total of advertised awards, the comparable dollar values and percentages for fiscal years 1977 and 1978 are as follows:

	(\$ Amounts in Millions)			
	FY 1977		FY 1978	
	Amount	%	Amount	%
Total Procurement Except Intragovernmental	\$49,363	100.0	\$57,718	100.0
All Advertising	5,891	12.0	6,233	10.8
Unrestricted Formal Advertising	3,927	8.0	3,918	6.8
Small Business Restricted Advertising	1,957	4.0	2,310	4.0
Balance of Payments Restricted Advertising	7	*	5	*

Statutory Authority. Tables 13, 14, and 15 present data on the detailed types of procurement authority specified in Title 10, Section 2304(a) of the United States Code.

The five clauses used most extensively to negotiate contracts during fiscal year 1978 were (10) "Impractical to Secure Competition by Formal Advertising"; (14) "Technical or Specialized Supplies Requiring Substantial Initial Investment or Extended Period of Preparation for Manufacture"; (11) "Experimental, Developmental, Test, or Research"; (1) "National Emergency"; and (2) "Public Exigency."

Small business and labor surplus set-asides totaled \$3,350 million during fiscal year 1978 and represents 5.8 percent of the total. This compares with \$2,847 million and 5.8 percent of total in the the previous year.

Table 14 shows a total of 10,500,805 procurement actions during fiscal year 1978, an increase of 180,664 in the total number from the same period last year. Of this year's total, 97.4 percent or 10,231,607 were for \$10,000 and less. Last year, actions of \$10,000 and less numbered 10,075,593, accounting for 97.6 percent of all actions.

Of the 269,198 larger actions over \$10,000 in the current year, 30,087 were for intragovernmental awards. Of the remaining 239,111 actions, 47.2 percent were for new contracts or supplemental awards for additional supplies or services, while the remainder were delivery orders or modifications such as price redeterminations or incremental funding actions which were pursuant to the terms of existing contracts. Five negotiation clauses accounted for 72.7 percent of the total number of contracts of over \$10,000: (10) "Impractical to Secure Competition by Formal Advertising," 35.2 percent; (1) "National Emergency," 14.0 percent; (9) "Perishable or Non-Perishable Subsistence," 10.2 percent; (2) "Public Exigency," 6.7 percent; and (11) "Experimental, Developmental, Test, and Research," 6.6 percent.

B/ INCLUDES JOINT SMALL BUSINESS SET-ASIDES.
C/ INCLUDES \$742 FOR "CHAMPUS" AWARDS NOT INCLUDED ELSEWHERE IN THIS TABLE.
* LESS THAN 0.05 PERCENT.
PERCENTAGES MAY NOT ADD DUE TO ROUNDING.

AWARDS BY TYPE OF CONTRACT

PRICING PROVISION

Tables 16 and 17 show the types of contract pricing clauses used in military procurement actions over \$10,000. During fiscal year 1978, awards totaled \$52,749 million, of which \$38,804 million or 73.6 percent was awarded under fixed-price procedures, and \$13,545 million, or 25.7 percent under cost reimbursement procedures. Other types, time and materials and labor hours, accounted for \$400 million and 0.8 percent of total.

Cost-plus-a-fixed fee (CPFF) contracts accounted for 10.8 percent of total contract awards of \$10,000 or more in fiscal year 1978 which was the same as recorded in fiscal year 1977. Use of CPFF contracts since fiscal year 1964 have ranged from a low of 9.4 percent in fiscal year 1965 to a high of 12.9 percent in fiscal year 1973. The use of incentive contracts (both fixed and cost types combined) decreased from 31.5 percent of total contract dollars in fiscal year 1977 to 29.6 percent in fiscal year 1978. The use of firm fixed-price contracts increased from 39.4 percent during fiscal year 1977 to 39.6 percent during fiscal year 1978.

The total of 239,111 actions over \$10,000 during fiscal year 1978 shown in Table 16 is divided into 112,849 original contract actions and modifications calling for additional work, and 126,262 actions representing delivery orders and modifications made pursuant to the terms of existing contracts. The overall number of procurement actions over \$10,000 increased during the current period by 9.9 percent compared with the previous year. Actions for new work increased by 8.2 percent and actions representing delivery orders and modifications pursuant to the terms of the original contract by 11.5 percent.

d/ Excludes Time and Materials and Labor Hour contracts.

SUBCONTRACTS

Commitments for subcontract work by 810 reporting large military contractors totaled \$17,482 million in fiscal year 1978 which was a 16.3 percent increase from the \$15,038 million reported by 737 large contractors in fiscal year 1977.

Small business firms received 40.7 percent of the total committed for subcontract work during fiscal year 1978 compared with 39.0 percent for fiscal year 1977. Comparative data for fiscal years 1969 through 1978 are shown in Table 18.

NOTES ON COVERAGE AND GLOSSARY OF TERMS

Business Firms - Companies, individuals and partnerships organized for profit.

Civil Functions - Non-military activities such as those administered by the Army Corps of Engineers for rivers and harbors, and flood control work. Civil functions are excluded from this report.

Coverage Compared with Fiscal Reports - Amounts in this contract report are shown for the Military Department or Defense Agency that awards the prime contracts, and not the department or agency that budgets for the supplies or services. In addition, data for Army, Navy, and Air Force include prime contracts awarded on behalf of the National Aeronautics and Space Administration and other federal agencies, as well as for foreign countries whose defense purchases are bought on a cash basis. Military Assistance Program (MAP) contracts for grant aid also are included in the awarding department's figures.

This contract report does not include obligations for "in-house" work performed at military-owned-and-operated establishments, such as Navy shipyards, Army arsenals, and Air Force research laboratories, except to the extent that such establishments place contracts for supplies and services with industry or other federal agencies.

Obligations for subsistence, clothing, petroleum, and various maintenance and operating supplies are not included in the Procurement, Construction, and Research, Development, Test and Evaluation categories of fiscal reports, nor are they shown separately in such reports.

Category definitions of the contract and fiscal reports are not comparable. For example, fiscal reports provide complete costs of end items, such as aircraft and missiles, whereas contract reports for these categories exclude separately procured electronics and weapons.

Defense Logistics Agency - Defense Supply Agency (DSA) was established on January 1, 1962 to manage, procure, and distribute certain common supplies formerly the responsibility of the Army, Navy and Air Force. Name changed January 1, 1977 to Defense Logistics Agency.

Educational and Non-Profit Institutions - One located in the United States. If not located in the United States, this type of institution is included in the category, "For Work Outside U. S."

Intragovernmental Purchase - An order written by a Military Department or Defense Agency purchasing office requesting a non-defense federal agency to furnish supplies or services from its stocks, from its in-house manufacturing facilities or from contracts to be executed by the other federal agency. Prior to fiscal year 1963 and after fiscal year 1967, the term "Intragovernmental" also included orders written against indefinite quantity contracts executed by the General Services Administration (GSA schedules). Prior to 1963, also included orders written by one office of the Department of Defense against contracts awarded by another office of the Department of Defense. Effective in fiscal year 1964, contracts made for foreign governments under military assistance sales arrangements are included in intragovernmental. Beginning in fiscal year 1968, procurements from GSA Stores Depots and procurements under the GSA Consolidated Purchasing Program are excluded. Starting in fiscal year 1971 orders against contracts placed by the Small Business Administration were excluded from intragovernmental.

Location of Work - The place where the item is to be manufactured, assembled or otherwise supplied by the prime contractor, the place where the service is to be performed, or the site of a construction project.

Military Departments - The Department of the Army, Navy, Air Force and the Defense Logistics Agency.

Net Value - The net amount of debit and credit procurement actions recorded during the period.

Prime Contract Award - A legally binding instrument executed by a Military Department or an Agency of the Department of Defense to obtain supplies, services or construction. Indefinite quantity, open-end or call contracts do not legally bind the Department of Defense. However, orders against such contracts are binding obligations. Indefinite quantity petroleum contracts are excepted from this definition in that the estimated dollar amount of such contracts is included in this report, and the orders written against the contracts are excluded.

Procurement Action - An action which officially awards or changes a prime contract. This may be the award of a new prime contract, a debit or credit change of \$10,000 or more to an existing prime contract, or an order written against an indefinite quantity, open-end, or term prime contract. Changes may be amendments, job orders, task orders, work orders, supplemental agreements, engineering changes, cancellations, or terminations.

Small Business Concern - A firm as defined by the Small Business Administration in the Federal Register (Title 13, Chapter I, Part 121). The definition also is published in the Armed Services Procurement Regulation (1-701). Generally, a small business concern is one that is independently owned and operated, is not dominant in its field of operations, and with its affiliates does not employ more than a specified number of employees (usually not more than 500, 750, or 1,000) depending on the type of product called for by the contract. For construction and some service industries, the criteria is a specified annual dollar volume of sales or receipts instead of employment.

Subcontract Payment - A cash payment made by one contractor to another for supplies, services or construction required to fulfill a prime contract.

Subcontract Commitment - A legal instrument drawn up between contractors establishing the value of goods and services required to fulfill a prime contract.

United States - The 50 states, the District of Columbia, U. S. possessions, the Canal Zone, the Commonwealth of Puerto Rico, and other areas subject to the complete sovereignty of the U. S., but not including trust territories.

Percentages - May not add due to rounding.

NOTE: All DoD totals in this publication include the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS), and Other Defense Agencies.
