AWARDS BY TYPE OF CONTRACTOR

DoD Procurement by Type of Contractor (Tables 1 and 2). Total DoD procurement of \$83,686 million during fiscal year 1980 was an increase of \$12,730 million (17.9%) from the \$70,956 million during fiscal year 1979. Contract awards to U.S. business firms increased by \$8,159 million, awards to or through Other Government Agencies by \$2,872 million, awards for work outside the U.S. by \$1,490 million, and awards to educational and nonprofit institutions by \$210 million.

Small Business Performance. As also shown in Table 1, small business firms received \$13,588 million during fiscal year 1980, an increase of \$1,417 million from the fiscal year 1979 total of \$12,171 million.

Small business firms received 20.4 percent of the value of prime contracts awarded to all business firms in the United States during fiscal year 1980 compared with 20.8 percent in fiscal year 1979.

As shown in Chart 1, 7,042,812 contract actions or 68.8 percent of the total 10,240,232 actions placed with business firms were awarded to small business firms.

Trends in Procurement. Fiscal year 1967 procurement, which reached a total of \$44.6 billion, established a new high since the peak Korean War year of fiscal year 1952 when procurement totaled \$43.6 billion. Following Korea, the post-war cutbacks and adjustments reduced net procurement to \$13.3 billion in fiscal year 1954, after which there was a steady increase in annual procurement to \$25.3 billion in fiscal year 1959. Declining to \$23.7 billion in fiscal year 1960, procurement again increased in each of the next three fiscal years reaching \$29.4 billion in fiscal year 1963. Following

declines to \$28.8 billion in fiscal year 1964 and to \$28.0 billion in fiscal year 1965, the increase in military activity in Southeast Asia brought about a sharp increase in procurement which totaled \$38.2 billion in fiscal year 1966 and a high of \$44.6 billion in fiscal year 1967. Following declines in the next four years to \$34.5 billion in fiscal year 1971, procurement increased in fiscal year 1972 to \$38.3 billion, declined to \$36.9 billion during fiscal year 1973, and increased each year thereafter from \$40.1 billion during fiscal year 1974 to \$83.7 billion during fiscal year 1980. The long-term trend in procurement to business firms is also shown in Table 3 and Chart 11.

Foreign Military Sales Contracts. Intragovernmental orders for fiscal year 1980 include \$8,221 million in foreign military sales contracts (reimbursable sales to foreign governments) as follows: Army, \$3,417 million; Navy, \$974 million; Air Force, \$3,794 million; and Defense Logistics Agency, \$35 million.

AWARDS BY PROCUREMENT PROGRAM

Data on the net value of prime contract awards to business firms in the United States by procurement program are shown in Table 5 and Chart III for fiscal years 1979 and 1980, and in Table 6 for fiscal years 1955 through 1980. Table 6A further subdivides awards by procurement program by purchasing department for fiscal years 1963 through 1980. The procurement program definitions are identical with those prescribed for use in the Defense Materials System.

Total procurement from United States business firms for work performed in the United States during fiscal year 1980 totaled \$66,704 million, \$8,160 million (13.9%) higher than last year. A comparison of fiscal year 1979 and 1980 totals shows the principal change to be a \$3,497 million increase for major hard goods. The procurement programs with the largest increases were petroleum, \$1,548 million; services, \$1,387 million; missile and space systems, \$1,230 million; and electronics and communications equipment, \$1,215 million. The only major procurement program with a decrease was ships for \$84 million.

A/ FOR DEFINITIONS AND COVERAGE, SEE NOTES ON COVERAGE.

B/ INCLUDES OTHER DEFENSE AGENCY AWARDS NOT INCLUDED ELSEWHERE IN THIS TABLE.

AWARDS PUBLICIZED TO SMALL BUSINESS

The extent to which the small business community was notified of pending procurement actions and its success in competing for the publicized procurement is shown in Table 4.

The following types of procurement are included in the category "Publicized to Small Business": (1) proposed procurements which are synopsized and listed in the Department of Commerce publication Commerce Business Daily; (2) modifications to contracts which were synopsized; (3) formally advertised procurements which were not published in the Commerce Business Daily; and (4) all other procurements on which small firms were specifically requested to submit proposals. For the most part, nonpublicized procurements relate to classified work, goods, or services involving an unusual or compelling emergency, modifications of contracts which were not synopsized, and delivery orders under not-synopsized contracts.

As shown in Table 4, during fiscal year 1980, 84.8 percent of the total awards to business firms were publicized to small business compared with 84.2 percent during fiscal year 1979. Small business did not submit bids on 69.3 percent of these publicized procurements compared with 67.8 percent in the preceding year. They were successful in bidding on 24.0 percent (24.7 percent last year) of the publicized total and were unsuccessful bidders on 6.6 percent (7.3 percent last year).

The portion of procurement synopsized amounted to 76.1 percent compared to 76.0 percent for last year.

b/ Includes "Other Defense Agencies" from fiscal year 1972 through 1979. Beginning with FY 1980, Other Defense Agencies and Civil Functions will be included in TOTAL only.

AWARDS FOR RESEARCH, DEVELOPMENT, TEST AND EVALUATION WORK

The net value of prime contract awards for research, development, test, and evaluation (RDT&E) work by type of contractor for fiscal years 1959 through 1980 are shown in Table 7.

The total dollar value of RDT&E awards, excluding awards for work outside the United States and orders to other government agencies, amounted to \$9,374 million during fiscal year 1980 and accounted for 13.8 percent of all DoD procurement (Table 1). During fiscal year 1979, the comparable dollar amount was \$8,481 million for RDT&E, which was 14.2 percent of the total awards.

Between fiscal years 1959 and 1963 there was an annual increase in the dollar value of awards for RDT&E work. Following two years of decline, awards for RDT&E procurement continued to increase to \$6,436 million in fiscal year 1968. After two years of decline to \$5,399 million in fiscal year 1970, awards for RDT&E increased in each subsequent year to \$6,266 million in fiscal year 1973, declined in fiscal year 1974 to \$5,775 million, again increased to \$6,257 million in fiscal year 1975, to \$6,726 million in fiscal year 1976, to \$7,826 million in fiscal year 1977, to \$8,612 million in fiscal year 1978, declined to \$8,481 million in fiscal year 1979, and increased significantly to \$9,374 in fiscal year 1980. Although there has been a general upward trend in both total and RDT&E awards since fiscal year 1975, the relative share of RDT&E procurement to total procurement has declined from 17.5 percent in FY 1976 to 13.8 percent in FY 1980.

Contract awards for RDT&E by procurement program are shown for fiscal years 1959 through 1980 in Table 8. The percentages shown represent the proportions the RDT&E awards in each program are of the totals shown in Table 6.

COMPETITION IN PROCUREMENT

FISCAL YEAR 1980

Statutory Authority. Tables 13, 14, and 15 present data on the detailed types of procurement authority specified in Title 10, Section 2304(a) of the United States Code.

The five clauses, based on total dollar value, used most extensively to negotiate contracts during fiscal year 1980 were (10) "Impractical to Secure Competition by Formal Advertising"; (14) "Technical or Specialized Supplies Requiring Substantial Initial Investment or Extended Period of Preparation for Manufacture"; (11) "Experimental, Developmental, Test, or Research"; (1) "National Emergency"; and (6) "Purchases Outside U.S."

Small business and labor surplus set-asides totaled \$4,936 million during fiscal year 1980 and represents 6.7 percent of the total. This compares with \$4,304 million and 6.8 percent of total in the previous year.

Table 14 shows a total of 12,071,805 procurement actions during fiscal year 1980, an increase of 666,317 in the total number from last year. Of this year's total, 97.3 percent or 11,746,636 were for \$10,000 or less. Last year, actions of \$10,000 or less numbered 11,104,722, accounting for 97.4 percent of all actions.

Of the 325,169 larger actions over \$10,000 in the current year, 35,395 were for intra-governmental awards. Of the remaining 289,774 actions, 44.9 percent were for new contracts or supplemental awards for additional supplies or services, while the remainder were delivery orders or modifications such as price redeterminations or incremental funding actions which were pursuant to the terms of existing contracts. Five negotiation clauses accounted for 72.5 percent of the total number of contract actions over \$10,000: (10) "Impractical to Secure Competition by Formal Advertising," 36.8 percent; (1) "National Emergency," 14.8 percent; (9) "Perishable or Non-Perishable Subsistence," 9.8 percent; (11) "Experimental, Developmental, Test, and Research," 5.9 percent; and (6) "Purchases Outside the U.S.," 5.2 percent.

experimental, developmental, test or research work, and industrial mobilization in the interest of national defense. Table 10 provides a general indication of the type of items for which only one source was solicited, and further demonstrates that substantial use of competitive procedures is made even when sealed-bid (formally advertised) methods are not employed.

Formally Advertised and Other Awards. Table 11 shows the dollar volume of procurement placed with small business and other contractors through unrestricted formal advertising and other statutory authority during fiscal years 1979 and 1980, and Table 12 shows similar information for fiscal years 1951 through 1980. During 1980, 7.6 percent of total procurement was obtained by unrestricted formal advertising methods, compared to 7.9 percent in the preceding year.

If small business restricted advertising (not separately displayed in these tables) and balance of payments restricted advertising are included in the total of advertised awards, the comparable dollar values and percentages of fiscal years 1979 and 1980 are as follows:

(Dollar Amounts in Millions)

	FY 1979		FY 1980	
	Amount	%	Amount	%
TOTAL PROCUREMENT, EXCEPT INTRAGOVERNMENTAL	\$63,668	100.0	\$73,527	100.0
All Advertising	8,046	12.6	8,916	12.1
Unrestricted Formal Advertising	5,058	7.9	5,598	7.6
Small Business Restricted Advertising	2,986	4.7	3,310	4.5
Balance of Payments Restricted Advertising	2	*	8	*

AWARDS BY METHOD OF PROCUREMENT

In connection with the discussions relating to "Competition" and "Formally Advertised and Other Awards," it should be noted that sealed-bid procedures are used not only for unrestricted formal advertising but also for procurements made under balance of payments restricted advertising (restricted to U.S. end products and services) and small business restricted advertising (restricted to small business firms). These procurements are conducted in the same manner as prescribed for formal advertising; however, they are classified as negotiated procurements. The effect of including small business restricted advertising and balance of payments restricted advertising in the advertised total is shown under paragraph Formally Advertised and Other Awards.

As shown in Table 9, prime contracts awarded after solicitation and receipt of two or more responsive offers for competitive price, design, or technical proposals totaled \$25,142 million and represented 35.7 percent of the net amount of procurement (excluding intragovernmental orders) during fiscal year 1980 compared to \$23,802 million and 39.0 percent for last year. Competitive methods accounted for 39.7 percent of the total number of procurement transactions during this period. In fiscal year 1979, competitive transactions accounted for 36.3 percent of the total.

Table 10 shows that approximately 32 percent of the value of awards during fiscal year 1980 involving solicitation of one procurement source (non-competitive total) was for supplemental or follow-on contracts placed with companies which had previously competed successfully for the price, design, or technical phase of a project or weapon system. The remaining one-source solicitations included such types of goods and services as utilities, patented or other proprietary items,

AWARDS BY TYPE OF CONTRACT PRICING PROVISION

Tables 16 and 17 show the types of contract pricing clauses used in military procurement actions over \$10,000. During fiscal year 1980, awards over \$10,000 (excluding intragovernmental) totaled \$67,341 million, of which \$50,736 million or 75.3 percent was awarded under fixed-price procedures, and \$15,995 million, or 23.8 percent, under cost reimbursement procedures. Other types, time and materials and labor hours, accounted for \$610 million and 0.9 percent of total.

Cost-plus-a-fixed fee (CPFF) contracts accounted for 10.6 percent of total contract awards of over \$10,000 in fiscal year 1980. Use of CPFF contracts since fiscal year 1964 have ranged from a low of 9.4 percent in fiscal year 1965 to a high of 12.9 percent in fiscal year 1973. The use of incentive contracts (both fixed and cost types combined) decreased from 25.5 percent of total contract dollars in fiscal year 1979 to 20.3 percent in fiscal year 1980. The use of firm fixed-price contracts increased from 45.4 percent during fiscal year 1979 to 46.1 percent during fiscal year 1980.

The total of 289,774 actions over \$10,000 during this period, shown in Table 16, is divided into 130,132 original contract actions and modifications calling for additional work, and 159,642 actions representing delivery orders and modifications made pursuant to the terms of existing contracts. The overall number of procurement actions over \$10,000 increased during the current period by 8.9 percent compared with the previous year. Actions for new work increased by 5.5 percent and actions representing delivery orders and modifications pursuant to the terms of the original contract by 11.8 percent.

(a)For definitions and coverage, see Notes on Coverage. Excludes data for the Armed Services Petroleum Purchasing Agency (ASPPA) from July 1950 through December 1956, but includes data for the Military Petroleum Supply Agency, the successor to ASPPA, beginning 1 January 1957. Excludes Army Procurement overseas prior to fiscal year 1958 and also excludes some Navy letters of Intent in fiscal years 1951 and 1952 for which type of pricing was not determined.

(b)Represents procurement actions over \$10,000 excluding intragovernmental, except for fiscal year 1951 which included Navy actions of \$5,000 or more and Army actions of \$100,000 or more.

(c)Includes Time and Materials and Labor Hour contracts.

SUBCONTRACTS

Commitments for subcontract work by 1,023 reporting large military contractors totaled \$25,499 million in fiscal year 1980 which was a 20.0 percent increase from the \$21,245 million reported by 832 large contractors in fiscal year 1979.

Small business firms received 42.4 percent of the total committed for subcontract work during fiscal year 1980 compared with 42.7 percent for fiscal year 1979. Comparative data for fiscal years 1971 through 1980 are shown in Table 18.

NOTES ON COVERAGE AND GLOSSARY OF TERMS

Business Firms - Companies, individuals, and partnerships organized for profit.

Civil Functions - Non-military activities such as those administered by the Army Corps of Engineers for rivers and harbors, and flood control work. Civil Functions are included in this report.

Coverage Compared with Fiscal Reports - Amounts in this contract report are shown for the Military Department or Defense Agency that awards the prime contracts and not the department or agency that budgets for the supplies or services. In addition, data for Army, Navy, and Air Force include prime contracts awarded on behalf of the National Aeronautics and Space Administration and other Federal agencies, as well as for foreign countries whose defense purchases are bought on a cash basis. Military Assistance Program (MAP) contracts for grant aid also are included in the awarding department's figures.

This contract report does not include obligations for "in-house" work performed at military-owned and-operated establishments, such as Navy shipyards, Army arsenals, and Air Force research laboratories, except to the extent that such establishments place contracts for supplies and services with industry or other Federal agencies.

Obligations for subsistence, clothing, petroleum, and various maintenance and operating supplies are neither included in the Procurement, Construction, and Research, Development, Test, and Evaluation categories of fiscal reports, nor are they shown separately in such reports.

Category definitions of the contract and fiscal reports are not comparable. For example, fiscal reports provide complete costs of end items, such as aircraft and missiles whereas contract reports for these categories exclude separately procured electronics and weapons.

Defense Logistics Agency - Defense Supply Agency (DSA) was established on 1 January 1962 to manage, procure, and distribute certain common supplies formerly the responsibility of the Army, Navy, and Air Force. The name changed on 1 January 1977 to Defense Logistics Agency (DLA).

Educational and Nonprofit Institutions - Any corporation, foundation, trust, or institution operating on a "not-for-profit" basis. Included are educational and scientific institutions, hospitals of a nonprofit nature, and state, local, and other non-Federal government agencies. If the work of these institutions was not performed in the United States, its possessions, Puerto Rico, or the Trust Territories of the Pacific Islands, it is included in the category "For Work Outside the U.S."

Intragovernmental Purchase - An order written by a Military Department or Defense Agency purchasing office requesting a non-defense Federal agency to furnish supplies or services from its stocks, in-house manufacturing facilities, or contracts to be executed by the other Federal agency. Prior to fiscal year 1963 and after fiscal year 1967, the term "Intragovernmental" also included orders written against indefinite quantity contracts executed by the General Services Administration (GSA) schedules. Prior to 1963, also included orders written by one office of the Department of Defense against contracts awarded by another office of the Department of Defense. Effective in fiscal year 1964, contracts made for foreign governments under military assistance sales arrangements are included in intragovernmental. Beginning in fiscal year 1968, procurements from GSA Stores Depot and procurements under the GSA Consolidated Purchasing Program are excluded. Starting in fiscal year 1971, orders against contracts placed by the Small Business Administration were excluded from intragovernmental.

Location of Work - The place where the item is to be manufactured, assembled, or otherwise supplied by the prime contractor, the place where the service is to be performed, or the site of a construction project.

Net Value - The net amount of debit and credit procurement actions recorded during the period.

Prime Contract Award - A legally binding instrument executed by a Military Department or an Agency of the Department of Defense to obtain supplies, services, or construction. Indefinite quantity, open-end or call contracts are binding obligations. Indefinite quantity petroleum contracts are excepted from this definition in that the estimated dollar amount of such contracts is included in this report, and the orders written against the contracts are excluded.

Procurement Action - An action involving the obligation or deobligation of funds which officially awards or changes a prime contract. This may be the award of a new prime contract, a debit or credit change to an existing prime contract, or an order written against an indefinite quantity, open-end, or term prime contract. Changes may be amendments, job orders, task orders, work orders, supplemental agreements, funding actions, engineering changes, cancellations, or terminations.

Small Business Concerns - A firm as defined by the Small Business Administration in the Federal Register (Title 13, Chapter 1, Part 121). The definition also is published in the Defense Acquisition Regulation (1-701). Generally, a small business concern is one that is independently owned and operated, is not dominant in its field of operations, and with its affiliates does not employ more than a specified number of employees (usually not more than 500, 750, or 1,000) depending on the type of product called for by the contract. For construction and some service industries, the criterion is a specified annual dollar volume of sales or receipts instead of employment.

Subcontract Payment - A cash payment made by one contractor to another for supplies, services, or construction required to fulfill a prime contract.

Subcontract Commitment - A legal instrument drawn up between contractors establishing the value of goods and services required to fulfill a prime contract.

Work Outside the United States - An award to U.S. or foreign business firms, educational or nonprofit institutions, or Government agencies with a place of performance outside the United States, its possessions, Puerto Rico, or the Trust Territories of the Pacific Islands.

United States - The fifty (50) states and the District of Columbia, U.S. possessions, the Canal Zone, the Commonwealth of Puerto Rico, the Trust Territories, and other areas subject to the complete sovereignty of the United States.

Percentages - These may not add due to rounding.

NOTE: All DoD totals in this publication include the Civilian Health and Medical Program of the Uniform Services (CHAMPUS), and Other Defense Agencies.
