FOREWORD

This report presents the U. S. geographical distribution of military prime contract awards over \$10,000 for fiscal years 1975, 1976, and 1977 by census region and state.

The data are presented in two sections:

1. Section A provides information for all types of procurement: research, development, test and evaluation (RDT&E) work; other services and construction; and supplies and equipment. Individual tables are provided for each state which break down the awards into 25 major procurement programs.
2. Section B provides information confined to awards for RDT&E work. In this section, the RDT&E total for each state is subdivided to show awards to educational institutions, other non-profit institutions, and business firms.

It is emphasized that prime contract data are not a measure of the total volume of defense work that is performed within a state, because they do not reflect the very substantial amount of subcontract funds that may flow into and out of the state. About half of the prime contract dollars for major hard goods, and unknown proportions of other types of procurement, are subcontracted by the prime contractor.

In general, the state data are based on the location of the plant where the product will be finally processed or assembled. For contracts where companies assign the work to more than one plant, the location is the address of the plant where the greater part of the work is done or where the management responsibility is centered. When this cannot be determined, the contracts are assigned

to a "not distributed by state" category and are excluded from this report. The amounts not distributed by state consist principally of all contracts and purchases of \$10,000 or less but also include other contracts which for security reasons could not be assigned to a state. In addition, contracts for the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS), foreign military sales contracts entered into overseas and other contracts for work outside the U. S. are excluded from this report.

Some special characteristics of the data on prime contract awards by procurement program category should be noted.

The Electronics category includes all electronics and communications equipment which is separately procured under prime contract. In the case of missiles and aircraft, electronics work is often an integral part of the assembly prime contract, and, therefore, is not separately identified as electronics in the prime contract statistics.

Weapons, whether for use in ships, tanks, or aircraft, are separately procured and separately reported.

Contracts for all other types of equipment and parts, and for repair, maintenance, overhaul, modification and other services, which can be identified with one of the specified program categories, are assigned to that category. For example, the installation or check-out of equipment at ballistic missile sites is recorded as missile work in the state where the site is located. (The contract for manufacture of such equipment is reported according to the location of the manufacturer's plant.)

Aircraft, missile, or other program contracts, therefore, may be reported in states where there are no weapon assembly plants, but where bases, laboratories, or suppliers of instruments, parts, or support equipment may be located.

The dollar volume shown for each category includes RDT&E work associated with it. The scope of RDT&E includes research, exploratory development, advanced development, engineering development, operational systems development, and management and support. The effort performed under each of these activities is described in the Armed Services Procurement Regulation 4-101.

In the tables in this report, figures may not add due to rounding.

Note: Beginning with fiscal year 1977, the fiscal year period changed from July-June to October-September; therefore, fiscal year 1976 covered the period July 1975-June 1976, and fiscal year 1977 covered October 1976-September 1977. Data for the transition period (July-September 1976) are not included in this report.

HIGHLIGHTS

Total military prime contract awards in fiscal year 1977 amounted to \$55,572 million, an increase of \$8,638 million, or 18 percent, over fiscal year 1976.

Awards over \$10,000 for performance within the United States, whose distribution by census region and state is shown in this report, totalled \$45,540 million in fiscal year 1977. As may be noted from the following tabulation, these awards were \$6,591 million or 17 percent more than in fiscal year 1976 and represented 82 percent of total military prime contract awards as against 83 percent in fiscal year 1976. The nature of the awards not included in this report is described in the foreword to the report.

	<u>FY 1975</u>		<u>FY 1976</u>		<u>FY 1977</u>

Not Included in Report						
Work in U. S.						
Actions of \$10,000 or Less	4,635	10	4,746	10	4,953	9
Other	1,401	3	984	2	2,259	4
Work Outside U. S.	2,403	5	2,255	5	2,820	5

Table I and Chart I

The three regions that received the largest share of the awards in fiscal year 1977 were the Pacific (26.9%), Middle Atlantic (15.7%), and South Atlantic (15.4%). These regions that comprise the eastern part of the United States (see map on inside of back cover) received a total of 53.6 percent of the awards as against 46.4 percent for the Western regions.

The three regions whose awards in fiscal year 1977 show the largest increases over fiscal year 1976 were the Middle Atlantic, up \$1,639 million or 30 percent; Pacific, up \$1,443 million or 13 percent; and South Atlantic, up \$1,023 million or 20 percent. Only the East South Central Region experienced a decrease, down \$37 million or 2 percent.

States with major increases were California (+\$1,129 million or 13 percent), New York (+\$596 million or 30 percent), and Texas (+\$683 million or 33 percent). States with major decreases were Mississippi (-\$441 million or 47 percent), Hawaii (-\$140 million or 39 percent), and North Dakota (-\$111 million or 72 percent).

Table II and Chart II

This table and chart show the U. S. geographical distribution of awards for the seven major military hard goods programs which, as indicated in the following tabulation, accounted for over 90 percent of the total awards represented in this report during fiscal years 1975, 1976 and 1977. Although the awards for these hard goods programs in fiscal year 1977 were 19 percent higher than in

fiscal year 1976, as compared to 17 percent for all programs, the percentage distribution among the hard goods programs changed but little during the three year period.

	<u>FY 1975</u>		<u>FY 1976</u>		<u>FY 1977</u>	
	<u>Millions</u>	<u>%</u>	<u>Millions</u>	<u>%</u>	<u>Millions</u>	<u>%</u>

Aircraft	8,547	33	9,622	34	10,748	32
Missiles and Space Systems	5,313	20	5,653	20	6,270	19
Ships	3,799	14	4,274	15	4,700	14
Tank-Automotive	1,249	5	1,657	6	1,901	6
Weapons	505	2	581	2	775	2
Ammunition	1,576	6	1,109	4	1,598	5
Electronics & Communication Equipment	5,286	20	5,003	18	7,135	21

Chart II shows the three regions which received the largest dollar volume of awards in each of the seven major hard goods programs in fiscal year 1977 and their share of these awards in fiscal year 1976. For fiscal year 1977, the regional rankings were as follows:

The Pacific Region was first in Missiles and Space Systems, Weapons, and Electronics and Communications Equipment; second in Aircraft and Ships; and third in Tank-Automotive and Ammunition.

The Middle Atlantic Region ranked first in Aircraft; second in Tank-Automotive, Weapons, and Electronics and Communications Equipment; third in Ships.

The East North Central Region was first in Tank-Automotive; second in Ammunition.

The South Atlantic Region was first in Ships; third in Electronics and Communications Equipment.

The West North Central Region was first in Ammunition.

The New England Region was second in Missiles and Space Systems; third in Aircraft and Weapons.

The Mountain Region ranked third in Missiles and Space Systems.

Table IIIA

This table shows for fiscal year 1977 the five leading states in each of the 25 major procurement programs. While California was first in 11 of the programs, there was a broad representation of states in the five leading rankings. A total of 31 states and the District of Columbia appear in the table. Twelve states ranked first in one or more of the programs, 11 ranked second, 13 ranked third, 12 ranked fourth, and 17 ranked fifth.

Tables IV, V, and VI

These tables show for fiscal years 1975, 1976, and 1977, respectively, the U. S. geographical distribution of prime contract awards over \$10,000 for RDT&E work. As may be noted from the following tabulation, these awards totalled \$7,804 million in fiscal year 1977, an increase of \$1,034 million or 15 percent over fiscal year 1976. However, the ratio of RDT&E awards to total awards and the percentage distribution of the RDT&E awards among the three types of contractors (educational institutions, other non-profit institutions, and business firms) changed but little over the three-year period.

	<u>FY 1975</u>		<u>FY 1976</u>		<u>FY 1977</u>	
	<u>Millions</u>	<u>%</u>	<u>Millions</u>	<u>%</u>	<u>Millions</u>	<u>%</u>
TOTAL	\$37,319	100	\$38,949	100	\$45,540	100
RDT&E	6,223	17	6,770	17	7,804	17
<u>RDT&E</u>	<u>\$ 6,223</u>	<u>100</u>	<u>\$ 6,770</u>	<u>100</u>	<u>\$ 7,804</u>	<u>100</u>
Educational Institutions	352	6	388	6	437	6
Other Non-profit Institutions	308	5	325	5	283	4
Business Firms	5,562	89	6,057	89	7,084	91

The three regions received the largest share of the RDT&E awards in fiscal year 1977: the Pacific (42%), New England (23%), and South Atlantic (11%). These same regions had the highest ratio of RDT&E awards to total awards; Pacific (33%), New England (27%), and South Atlantic (14%).

All regions received more RDT&E awards in fiscal year 1977 than in fiscal year 1976. The three regions that had the largest dollar increases were the West North Central (\$190 million or 67%), East North Central (\$185 million or 54%), and South Atlantic (\$180 million or 26%).

The five states that received the largest share of the RDT&E awards in fiscal year 1977 were California (35%), Massachusetts (11%), Washington (6%), Texas (6%), and New York (5%). With respect to the three types of contractors, Massachusetts ranked first in both awards to educational institutions (28%) and awards to other non-profit institutions (27%). California ranked first in awards to business firms (37%).

TABLE IV

AMOUNTS OF \$10,000 TO MORE FOR RESEARCH, DEVELOPMENT, TEST AND EVALUATION WORK, BY REGION AND STATE AND BY TYPE OF CONTRACTOR.

APR 10 1978

[illegible]

1. The first part of the document is a list of names and their corresponding dates of birth. The names are listed in a column, and the dates are listed in a column next to them. The names are: John Doe, Jane Doe, and John Doe. The dates are: 1950, 1950, and 1950.

Note: See page 74 for footnotes.
