Operations and Reports

FOREWORD

Prime Contract Awards by Region and State is published annually by the Office of the Secretary of Defense, Washington Headquarters Services, Directorate for Information Operations and Reports (WHS/DIOR). This issue provides information on the geographical distribution of Department of Defense prime contract awards over \$10,000 for Fiscal Years (FY) 1980, 1981, and 1982 by the United States census region and state.

This information is detailed in ten tables and three figures showing:

1. The net value and percent distribution of awards, by region and state, for FY 1980, 1981, and 1982;
2. The net value and percent distribution of awards within the seven major hard goods programs, by region, for FY 1980, 1981, and 1982;
3. The net value and percent distribution of awards in the 25 major procurement programs for each state for FY 1980, 1981, and 1982; and
4. Data on research, development, test, and evaluation (RDT&E) awards by region and state according to the type of contractor for FY 1980, 1981, and 1982.

Requests for additional information should be addressed to the WHS/DIOR Special Projects Division, Room 1C535, The Pentagon, Washington, D.C., 20301.

The contents of this publication may be reprinted without permission.

Please Note: Since the first printing of this report, tables in Part III-1 have been updated to correct the FY 82 total line percent of U.S. computation.

IV-2 Net Value and Percent Distribution of DOD Prime Contract Awards Over \$10,000 for RDT&E, by Region: FY 1981 and 1982	73
IV-3 Net Value and Percent Distribution of DOD Prime Contract Awards Over \$10,000 for RDT&E, by Region and State, According to Type of Contractor: FY 1980	74
IV-4 Net Value and Percent Distribution of DOD Prime Contract Awards Over \$10,000 for RDT&E, by Region and State, According to Type of Contractor: FY 1981	77
IV-5 Net Value and Percent Distribution of DOD Prime Contract Awards Over \$10,000 for RDT&E, by Region and State, According to Type of Contractor: FY 1982	80

INTRODUCTION

This report contains a variety of data on the distribution of prime contract awards over \$10,000 within the United States, by census region and state, for Fiscal Years (FY) 1980, 1981, and 1982.

This publication is divided into four Parts: Part I, Distribution of Prime Contract Awards Over \$10,000 by Region and State; Part II, Distribution of Prime Contract Awards Over \$10,000 for Major Hard Goods; Part III, Distribution of Prime Contract Awards Over \$10,000 by State; and Part IV, Distribution of Prime Contract Awards Over \$10,000 for Research, Development, Test, and Evaluation (RDT&E).

Prime contract data are not a means of measuring the total volume of defense work performed within a state, as a substantial amount of the work may be subcontracted.

NOTES ON COVERAGE

Contract work is not necessarily performed in the state where the contract is awarded. Most manufacturing contracts have been attributed to the contractor's location where the product will be processed and assembled. When contract work has been performed at more than one plant, the contract has been attributed to the location where the largest dollar amount of work was produced. Both construction and service contracts have been attributed to the state where the work is to be performed. Contracts for transportation and communications services in most cases have been attributed to the state where the contrac-

tor's home office is located. For purchases from wholesale or other distribution firms, the location is the contractor's business address.

In cases where more than one plant is involved and a determination cannot be made as to which location produced the largest dollar amount of work, these contracts are assigned to a "not distributed by state" category and are excluded from this report. Amounts not distributed by state also include contract actions of \$10,000 or less, contract actions performed in classified locations, Foreign Military Sales (FMS) contract actions entered into overseas, and other contracts for work performed outside the United States.

Some special characteristics of the data on prime contract awards by procurement program category should be noted:

1. The Electronics and Communication Equipment category includes all electronics procured separately under prime contract. However, in the case of Missiles and Space Systems or Aircraft Engines and Related Spares, electronics work is often a basic part of the assembly prime contract; therefore, awards for electronics are included in the statistics for these categories.
2. Contracts for all other types of equipment and parts for repair, maintenance, overhaul, modification, and other services, which can be identified with a specific category, are assigned to that category. As an example, the installation or inspection of equipment at ballistic missile sites is recorded

as missile work in the state where the site is located. However, the contract for manufacturing such equipment is reported according to the location of the manufacturer's plant. Therefore, aircraft, missile, or other program contracts may be reported in states where there are no weapon assembly plants but where bases, laboratories, or suppliers of instruments, parts, or support equipment may be located.

3. The dollar value shown for each category includes the RDT&E work associated with it. RDT&E coverage includes research, exploratory development, advanced development, engineering development, operational systems development, and management and support. Full definitions for each of these categories are provided in Defense Acquisition Regulation 4-101.

4. Figures in these tables may not add up due to rounding.

HIGHLIGHTS OF FY 1982 DATA

Total prime contract awards in FY 1982 totaled \$124,725 million, an increase of \$19,502 or 18.5 percent over FY 1981. Awards over \$10,000 for work performed within the United States, by census region and state, are shown in this report. These awards totaled \$103,858 million in FY 1982. The kinds of awards not included in this report (see Notes on Coverage) are distributed as follows:

Type of Awards	Awards in FY 1980		Awards in FY 1981		Awards in FY 1982	
	Millions	Percent	Millions	Percent	Millions	Percent
TOTAL — Prime Contract Awards	\$83,686	100	\$105,223	100	\$124,725	100
LESS						
Work Outside the United States	\$ 5,367	6	\$ 6,559	6	\$ 7,522	6
Actions of \$10,000 or Less	6,519	8	7,394	7	7,629	6
Not Assigned to a State	3,730	4	3,509	3	5,716	4
SUBTOTAL	\$15,616	18	\$ 17,462	17	\$ 20,867	17
TOTAL — Awards Distributed to Regions and States	\$68,070	82	\$ 87,761	83	\$103,858	83

PART I
DISTRIBUTION OF PRIME CONTRACT AWARDS OVER \$10,000 BY REGION AND STATE

The U.S. census regions are shown in Figure I-1 (page 4). The three regions that received the largest share of the awards in FY 1982 were the Pacific (25.7 percent), the South Atlantic (14.9 percent), and the Middle Atlantic (13.2 percent). (See Figure I-2, page 5.) Those regions that make up the eastern part of the United States received a total of 52.7 percent of the awards. The western regions received the remaining 47.3 percent of the awards.

Table I-1 shows the net value and percent distribution of awards, by region and state, for FY 1980, 1981, and 1982. The three regions with the largest increases in the net value of total awards over FY 1981 were the Pacific (up \$6,052 million or 29.4 percent); the Mountain (up \$832 million or 26.9 percent); and New England (up \$2,664 million or 25.7 percent). One region, the West South Central, showed a decrease in awards (down \$1,822 million or 15.9 percent) between FY 1981 and FY 1982. The remaining regions had award increases in FY 1982 ranging from 3.9 to 22.4 percent.

In individual states, Arkansas and Idaho more than doubled their awards from FY 1981 to FY 1982. Fifteen other states

showed award increases of between 30 and 65 percent. Twenty-three states had award increases of less than 30 percent. The remaining thirteen states all had award decreases from FY 1981 to FY 1982; these states had all shown increases from FY 1980 to FY 1981.

The following table shows those states with the largest percentage change in awards from FY 1981 to FY 1982.

State	Percent Change	Dollar Change (\$000)
Arkansas	140.4	\$ 306,810
Idaho	133.8	54,545
Maine	65.5	312,045
Kansas	47.7	468,822
Kentucky	31.3 -	127,367 -
North Dakota	35.0 -	37,474 -
Louisiana	46.7 -	1,423,533 -

PART III
DISTRIBUTION OF PRIME CONTRACT AWARDS OVER \$10,000 BY STATE

The net value and percent distribution of awards in each of the 25 major procurement programs for the fiscal years 1980 through 1982 for individual states are provided in Tables III-1, beginning on page 17. Table III-2 (page 69) shows the five leading states in each of these 25 procurement programs for FY 1982. While California ranked first in ten of the programs,

there was a broad representation of other states in the top five rankings. A total of 35 states appear in the table, up by four from FY 1981. In FY 1982, 12 states ranked first in one or more of the programs, 18 ranked second, 13 ranked third, 15 ranked fourth, and 17 ranked fifth.

FIGURE II-1 (Concluded)
**REGIONS WITH THE HIGHEST PROPORTION OF PRIME
 CONTRACT AWARDS OVER \$10,000 FOR MAJOR
 HARD GOODS: FY 1981 AND 1982**

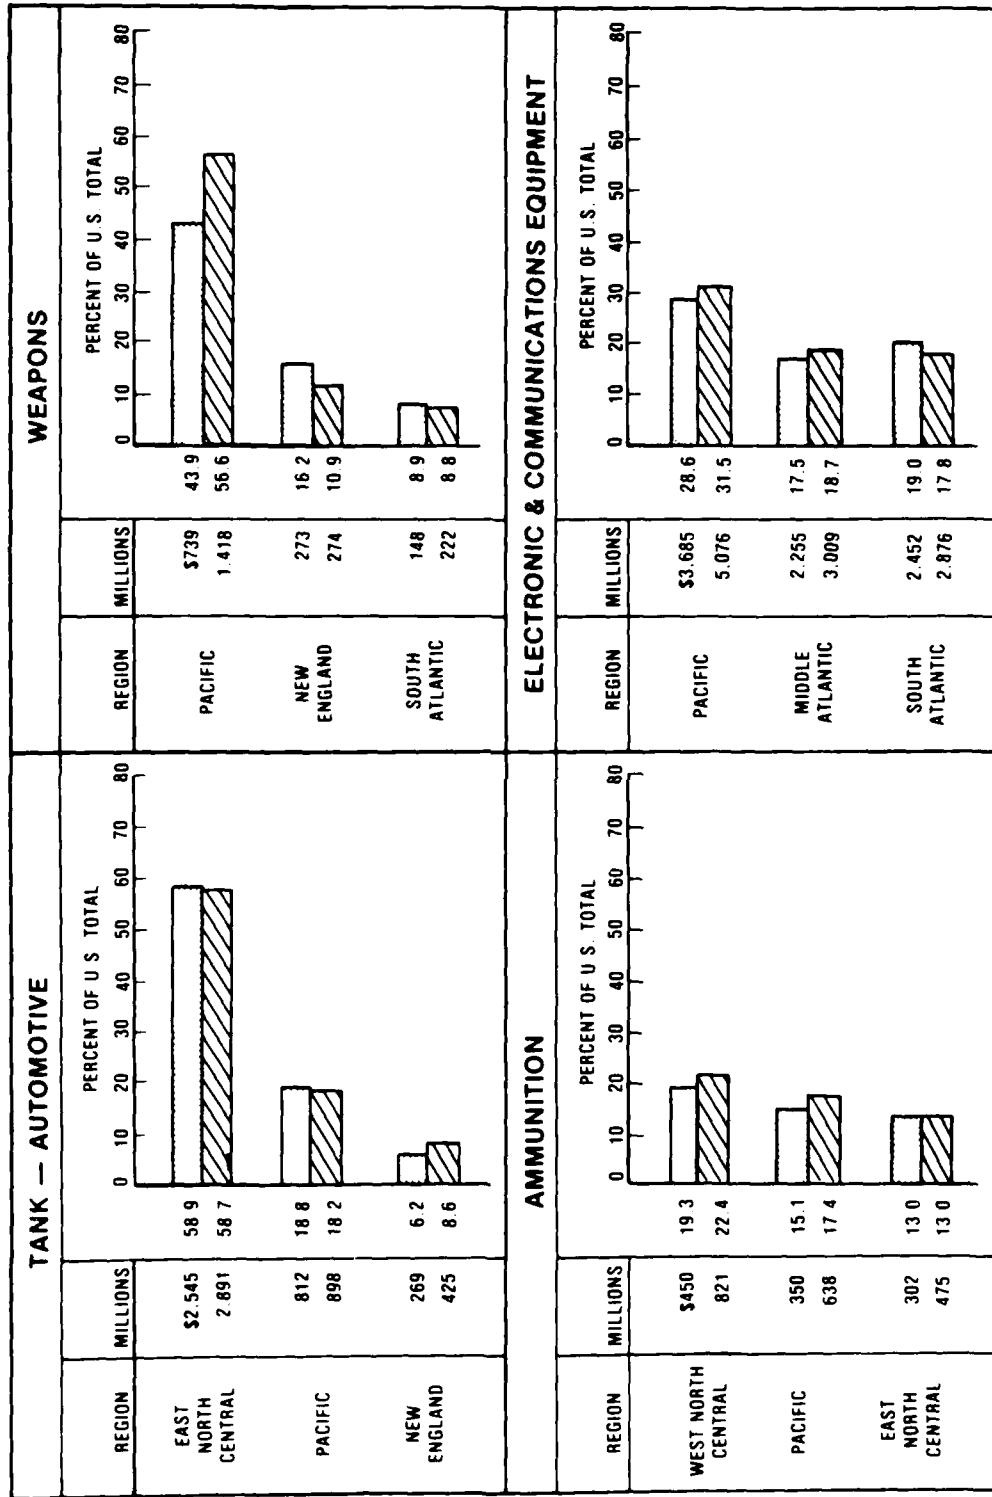

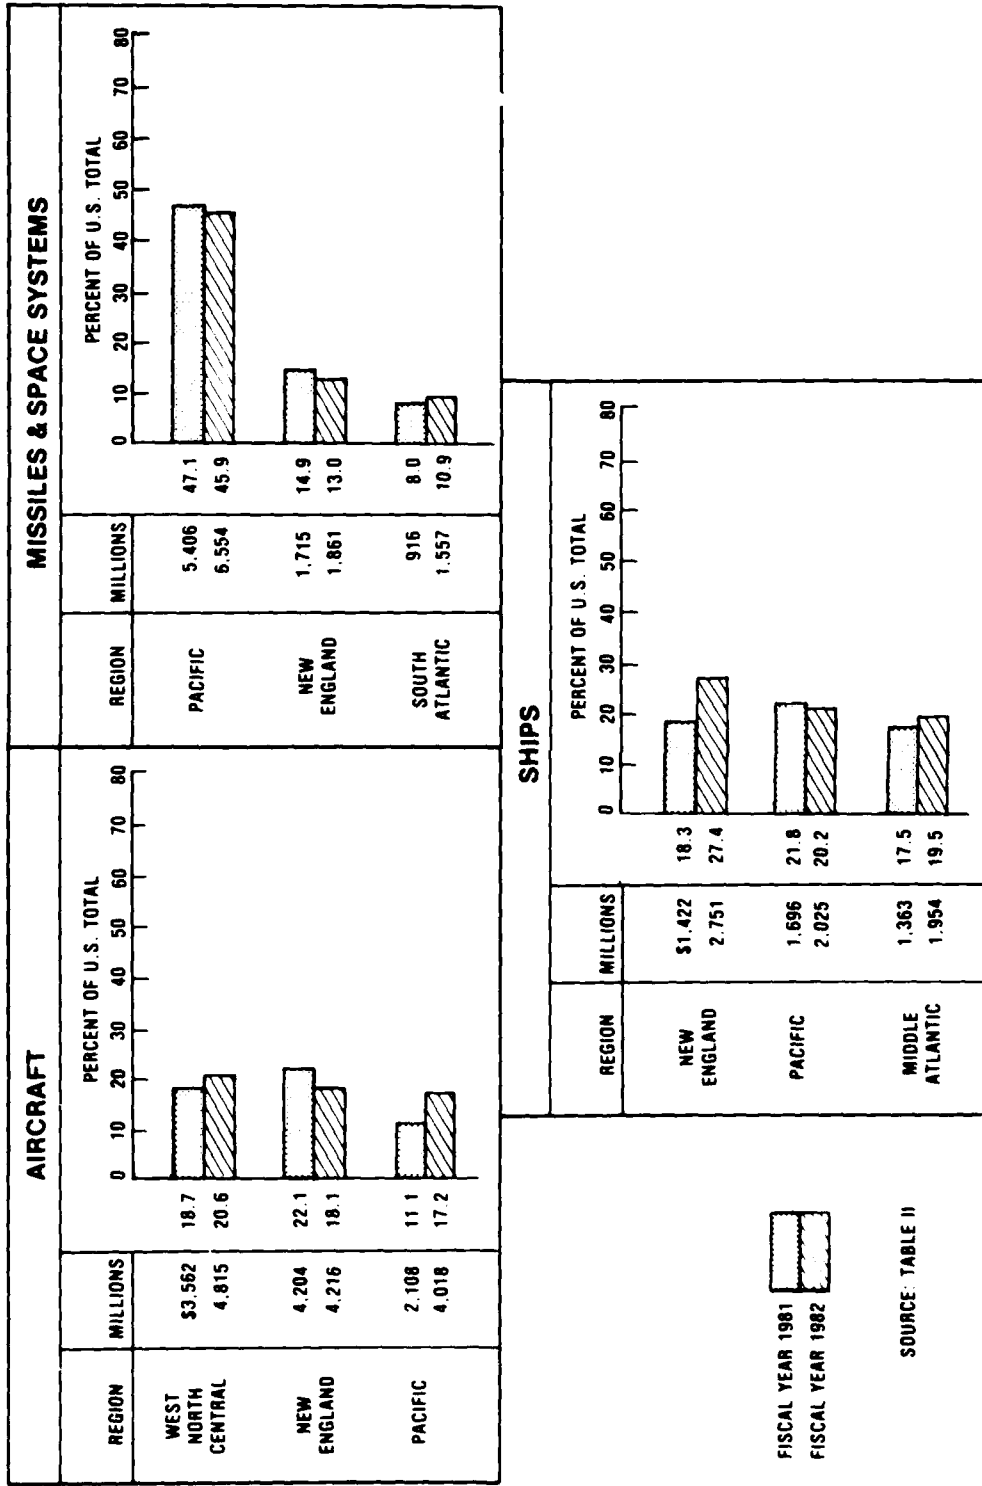

FIGURE II-1
**REGIONS WITH THE HIGHEST PROPORTION OF PRIME
 CONTRACT AWARDS OVER \$10,000 FOR MAJOR
 HARD GOODS: FY 1981 AND 1982**

PART II
DISTRIBUTION OF PRIME CONTRACT AWARDS OVER \$10,000 FOR MAJOR HARD GOODS

Figure II-1 (page 10) shows the top three regions for FY 1982 in each of the seven major hard goods programs as well as the net value and percent distribution of awards in each region for FY 1981 and 1982. The Pacific region ranked as one of the top three regions most frequently, placing in the top three for six of the seven programs.

Table II-1 (page 12) shows the net value and percent distribution of awards within the seven major hard goods programs, by region, for FY 1980, 1981, and 1982. Table II-2 (page

14) shows that awards within these hard goods programs accounted for 72 percent of all prime contract awards in FY 1982, a 5.9 percent increase over the FY 1981 figure. However, the net value of awards in all hard goods programs experienced a 25.5 percent increase in FY 1982. The percentage distribution of awards within the seven major hard goods programs, both as a percentage of all awards and as a percentage of all hard goods awards, remained relatively steady during the 3-year period.

PART IV
**DISTRIBUTION OF PRIME CONTRACT AWARDS OVER \$10,000 FOR RESEARCH,
DEVELOPMENT, TEST, AND EVALUATION**

As shown in Table IV-1 (page 72), RDT&E awards totaled \$14,757 million in FY 1982, an increase of \$4,426 million or 40.9 percent over the FY 1981 figure. The ratio of RDT&E awards to total awards was 14 percent in FY 1982, as compared to 12 percent in FY 1981, and 14 percent in FY 1980. Table IV-1 also shows that the distribution of RDT&E awards among the three types of contractors did not change significantly from FY 1981 to FY 1982.

Table IV-2 (page 73) shows the net value and percent distribution for both total awards and RDT&E awards, by region, and the percent distribution of RDT&E awards within each region for FY 1982. Seven of the nine regions received more RDT&E awards in FY 1982 than in FY 1981. The three regions that had the largest dollar increases were the Pacific (\$2,587 million), West North Central (\$756 million), and South Atlantic (\$359 million).

In terms of the distribution of RDT&E awards, the West North Central region showed the most significant change. In FY 1981, 2.2 percent of all RDT&E awards were in this region; this percentage increased more than threefold to 6.7 percent in FY 1982. The only other region which increased from FY 1981 to FY 1982 was the Pacific, which rose from 40.4 to 45.8 per-

cent. The relative share of RDT&E dollars for all other regions fell by between .1 and 2.4 percent, although the percent distribution remained relatively constant.

The ratio of RDT&E awards to total awards showed an increase from FY 1981 to FY 1982. Regional RDT&E awards as a percent of regional total awards, changed significantly. The four regions that experienced increases were the West North Central (7.9 percent), Pacific (5.2 percent), East South Central (1.5 percent), and West South Central (1.1 percent). The South Atlantic region showed no change in its R&D awards as a percentage of regional total awards. The remaining four regions showed decreases ranging from .3 to 1.1 percent.

Tables IV-3, IV-4, and IV-5 (pages 74, 77, and 80, respectively) show the net value and percent distribution of prime contract awards over \$10,000 for RDT&E work, by region and state, according to type of contractor (educational and nonprofit institutions, other nonprofit institutions, and business firms), for FY 1980, 1981, and 1982, respectively. As shown in Table IV-5, the four states receiving the largest share of RDT&E awards remains unchanged from FY 1981 (California, Massachusetts, Washington, and Florida).
