This report provides information on Department of Defense (DoD) personnel by operating location. This information is provided in two sections showing: (1) The percent distribution of DoD active duty military and direct hire civilian personnel, by state, according to Defense component; and (2) DoD active duty military and direct hire civilian personnel, by installation or selected city, according to Defense component. The earliest report of this series is date 30 June 1956.

DEPARTMENT OF DEFENSE

**DISTRIBUTION OF PERSONNEL
BY STATE - BY SELECTED LOCATIONS**

AS OF SEPTEMBER 30, 1977

WASHINGTON HEADQUARTERS SERVICES
Directorate for Information Operations and Reports

FOREWARD

This publication is prepared from Military Department and Agency submissions under DoD-wide instructions for reporting of personnel by operating location. An asterisk indicates a principal military installation. It reflects a planned transition toward future publications based upon consistent city or military installations/activity locations by county and state. Because of the transition aspects, users of this document should be aware of the limitations outlined below.

Within states, the major concentrations of personnel are shown by city or installation location. However, in a few locations, the Military Department report personnel at a parent installation rather than at their operating location. Such variations tend to occur in metropolitan areas where military activities are scattered physically among multiple political jurisdictions or sub areas thereof. Personnel on limited TDY on September 30, 1977, may be reported at their assigned location.

Special attention is called to the following:

1. The Department of the Army civilians for each state include Corps of Engineers Civil Functions personnel as well as National Guard Technicians.
2. The Department of the Navy military personnel includes Marine Corps. Navy personnel are shore-based only and exclude afloat and temporary shore-based military personnel (who are reported with afloat units).
3. Not included in the civilian data are 9,272 special youth employees not subject to statutory limitations (largely "Stay-in-School") most of whom are part-time employees. Of these, 1,022 were in the Washington Metropolitan Area.

Questions concerning this publication or requests for copies should be referred to the Directorate for Information Operations and Reports, Washington Headquarters Services.
