ITEM-1 : Waterborne Commerce of the United States(WCUS), Parts 1-5

The Waterborne Commerce of the United States (WCUS), Parts 1-4, is a series of publications which contain the statistics on the commercial movement of foreign and domestic cargo. The WCUS publications present detailed data by commodity and traffic. The statistics include commodities given in short tons (2000 lbs.) and vessel trips for the harbors and waterways. See pages 2-4 for a typical presentation for Norfolk Harbor, VA. WCUS, Parts 1-4 cover the following geographical areas:

Publication	Area
WCUS, Part 1 -	Waterways and Harbors on the Atlantic Coast
WCUS, Part 2 -	Waterways and Harbors on the Gulf Coast, Mississippi River System and Antilles
WCUS, Part 3 -	Waterways and Harbors on the Great Lakes
WCUS, Part 4 -	Waterways and Harbors on the Pacific Coast, Alaska and Hawaii

WCUS, Part 5, presents a national summary of tons and ton-miles contained in WCUS publications, Parts 1-4.

The current purchase prices for the WCUS publications are given below:

WCUS, Part 1 - \$2.75	WCUS, Part 4 - \$2.00
WCUS, Part 2 - \$3.50	WCUS, Part 5 - \$2.00
WCUS, Part 3 - \$3.25	

The Waterborne Commerce Statistics Center maintains historical copies of WCUS publications for several years. The number of historical copies of WCUS, Parts 1-5 that are available for sale will vary by calendar year and each individual publication. These copies will be made available for sale until the supply is exhausted.

Archive copies of WCUS publications are available from calendar year 1915 to the present. In the event that a particular historical copy would no longer be available, then copies of specific information contained in the archive copies can be reproduced as required.

COPIES OF THESE PUBLICATIONS ARE FOR SALE BY:

Commander
U. S. Army Engineer District, New Orleans
ATTN: LMNED-S
P. O. Box 60267-0267
New Orleans, LA 70160

NOTE: Remittance for these publications, check or money order (in U. S. funds), should accompany order and be made payable to the FAO, USAED, New Orleans.

Waterborne Commerce of the United States, 1983

NORFOLK, VA, DISTRICT

NORFOLK HARBOR, VA.

SECTION 1: CLUDED: FROM 45-FOOT CONTOUR IN HAMPTON ROADS TO NORFOLK & WESTERN (FORMERLY VIRGINIA) RAILWAY BRIDGE CROSSING SOUTHERN BRANCH OF ELIZABETH RIVER, 14.79 MILES; THENCE UPSTREAM IN SOUTHERN BRANCH, 4.61 MILES. IN EASTERN BRANCH, 2.54 MILES UPSTREAM FROM THE MOUTH OF THAT BRANCH; IN WESTERN BRANCH, 1.78 MILES UPSTREAM FROM THE MOUTH OF THAT BRANCH; AND 0.73 MILES IN SCOTTS CREEK. CONTROLLING DEPTH: FROM THE 45 FOOT CONTOUR IN HAMPTON ROADS TO LAMBERT POINT, OUTBOUND HALF 45.0 FEET, INBOUND HALF, 45.0 FEET; LAMBERT POINT TO NORFOLK & WESTERN (FORMERLY VIRGINIA) RAILWAY BRIDGE CROSSING SOUTHERN BRANCH, 40 FEET; BRANCH CHANNELS RANGE FROM 5.0 TO 35.0 FEET. PROJECT DEPTH: FROM THE 45 FOOT CONTOUR IN HAMPTON ROADS TO LAMBERT POINT, 45 FEET; FROM LAMBERT POINT TO THE NORFOLK & WESTERN (FORMERLY VIRGINIA) RAILWAY BRIDGE CROSSING SOUTHERN BRANCH, 40 FEET; BRANCH CHANNELS RANGE FROM 12 TO 35 FEET. ANCHORAGES: TWO ANCHORAGES OPPOSITE SEWELLS POINT, 45 FEET DEEP OVER A SWINGING RADIUS OF 1,200 FEET. ANCHORAGE AREA ON THE WEST SIDE OF THE 45-FOOT CHANNEL OPPOSITE LAMBERTS POINT TOTALLING 173 ACRES CONSISTING OF 1-1500 S.F. AREA 38 FT. DEEP; 1-1500 SF AREA 35 FT. DEEP; 1-3000 FT BY 1000 FT. AREA 20 FEET DEEP, AND A 45 ACRE AREA 12 FT DEEP AT PINNERS POINT.

ITEM-2 : Transportation Lines of the United States

"Transportation Lines of the United States" contains information on the vessel operators and their American Flag vessels operating or available for operation in the transportation of freight and passengers. A summary of the information contained in this publication is given below:

TABLE 1 - Vessel Operators, addresses. (See page 6.)

TABLE 2 - Vessels, type and construction, net registered tonnage, length, breadth, draft, horsepower, carrying capacity, etc. (See page 7.)

TABLE 3 - Description of operations, type of service, principal commodities carried and localities served. (See page 8.)

Prior to the 1983-84 edition the "Transportation Lines of the United States" (TLUS) was a series consisting of three volumes:

"Transportation Series 3" (TS3) listing vessels operating on the
Great Lakes

"Transportation Series 4" (TS4) listing vessels operating on the
Mississippi River System and the
Gulf Intracoastal Waterway

"Transportation Series 5" (TS5) listing vessels operating on the
Atlantic, Pacific and Gulf Coasts

The 1983-84 publication consolidated the three volumes into one. The current purchase price for the consolidated volume which includes TS3, TS4, and TS5 is \$7.00. The Waterborne Commerce Statistics Center does not maintain an extensive historical library for the Transportation publications. The prices of historical copies when available will be as follows:

TS3 - \$1.00

TS4 - \$5.00

TS5 - \$3.25

COPIES OF THESE PUBLICATIONS ARE FOR SALE BY:

Commander
U.S. Army Engineer District, New Orleans
ATTN: LMNED-S
P.O. Box 60267-0267
New Orleans, LA 70160

NOTE: Remittance for these publications, check or money order (in U.S. funds), should accompany order and be made payable to the FAO, USAED, New Orleans.

Item 3: Summary of U.S. Flag Vessels

(Exclusive of Fishing and Excursion Vessels, General Ferries, and Dredges, Derricks, etc., used in Construction Work.)

NOTE: Historic copies available from 1963

Type of Vessels	Total 1981 & 1982	Total 1983 & 1984	1 May 1983		
			Atlantic, Gulf, and Pacific Coasts	Mississippi River System and the Gulf Intracoastal Waterway	Great Lakes System
SELF-PROPELLED:					
Dry Cargo/and/or Passenger, steam or motor:					
Number of vessels	2,327	2,460	850	1,356	254
Horsepower	8,426,775	8,884,202	5,964,524	2,147,431	772,247
Cargo Capacity (short tons)	7,998,876	7,968,013	4,708,472	336,545	2,922,996
Number of passengers (cap.)	156,249	149,760	85,722	41,029	23,009
Ferries, Railroad Car, steam or motor:					
Number of vessels	78	97	88	-----	9
Horsepower	161,550	262,077	236,190	-----	25,887
Number of R.R. cars (cap.)	2,511	100	-----	-----	100
Tankers, Steam or Motor:					
Number of vessels	333	282	273	-----	9
Horsepower	4,788,303	3,831,990	3,811,055	-----	20,935
Cargo Capacity (short tons)	18,278,727	16,116,015	16,063,451	-----	52,564
Towboats:					
Number of vessels	4,890	4,993	1,556	3,289	148
Horsepower	7,601,291	7,987,881	2,481,737	5,344,675	161,469
Sailing Vessels:					
Number of vessels	3	53	13	38	2
Cargo Capacity (short tons)	-	4,400	-----	1,700	2,700
Number of passengers (cap.)	92	-----	-----	-----	-----
TOTAL, SELF-PROPELLED:					
Number of vessels	7,631	7,885	2,780	4,683	422
Horsepower	20,977,919	20,996,150	12,493,506	7,492,106	980,538
Cargo Capacity(short tons)	26,277,603	24,088,428	20,771,923	338,245	2,978,260
Number of passengers (cap.)	156,341	149,760	85,722	41,029	23,009
Number of R.R. cars (cap.)	2,511	100	-----	-----	100
NON-SELF PROPELLED:					
Barges and Scows, Dry Cargo:					
Number of vessels	29,479	29,730	4,760	24,712	258
Cargo Capacity (short tons)	38,031,076	38,720,522	4,910,796	33,381,561	428,165
Tankers:					
Number of vessels	4,909	4,114	669	3,404	41
Cargo Capacity (short tons)	11,902,371	10,426,383	3,215,557	7,122,648	88,178
Railroad Car Floats:					
Number of vessels	60	55	49	1	5
Number of R.R. cars (cap.)	666	842	689	12	141
TOTAL, NON-SELF-PROPELLED:					
Number of vessels	34,448	33,899	5,478	28,117	304
Cargo Capacity (short tons)	49,933,447	49,146,905	8,126,353	40,504,209	516,343
Number of R.R. cars (cap.)	666	842	689	12	141
GRAND TOTAL, SELF-PROPELLED AND NON-SELF-PROPELLED:					
Number of vessels	42,079	41,784	8,258	32,800	726
Horsepower	20,977,919	20,966,150	12,493,506	7,492,106	980,538
Cargo Capacity (short tons)	76,211,050	73,235,333	28,898,276	40,842,454	3,494,603
Number of Passengers(cap.)	156,341	149,760	85,722	41,029	23,009
Number of R.R. cars (cap.)	3,177	942	689	12	241

ITEM-4 : Transportation Lines - Vessel Master File Recorded on Computer Tape

The vessel descriptive information contained in Table 2 of the "Transportation Lines of the United States" publication is available on computer tape.

Tape Specifications:

Record Layout & Field Descriptions - see pages 11-16

Record Length - 326 characters per record

Recording Mode ASCII

Blocking factor - 1 record per block

Parity - Odd

Density - 800bpi or 1600bpi

Cost: \$200.00

Contact: Mr. Thomas G. Mire
Chief/Special Projects Office
(504) 862-1470

FIELD DESCRIPTIONS

TRANSPORTATION LINES - VESSEL MASTER FILE

Vessel Record Key - VSL REC KEY (Col 1-7):

File Year - FL YR (Col 1 and 2) - This field identifies the calendar year in which this inventory of vessels was compiled.

Vessel Code (Col 3-7) - This field will contain a unique vessel identification number assigned by WCSC.

Corps of Engineer District - ENG DIST (Col 8 & 9) - This field will contain a 2-digit code for the Corps District in which the vessel is domiciled. See Attachment 1 for definition of district codes.

Vessel Net Register Tonnage (NRT) (Col 10 - 15) - This field will contain 6 numeric characters that specify the NRT of a particular vessel. The NRT is defined as the volume of space available for the accommodation of passengers and the stowage of cargo expressed in units of 100 cubic feet for each net register ton. The NRT is recorded on the vessel's registration papers or it can be determined as the difference between gross tonnage and the volume of space used for the accommodation of the vessel master, officers, crew, navigation and propelling machinery expressed in units of 100 cubic feet per ton. The NRT should not be confused with a tonnage capacity because it simply expresses a volume capacity for passengers and cargo. Depending on the type of cargo being transported the tonnage that can be stowed in the volume of 100 cubic feet will vary although generally speaking the total tonnage capacity should not exceed three times the NRT of the vessel.

Vessel Type - V. TYPE (Col 16) - This field will contain a 1-digit numeric code that specifies the vessel type. These codes are defined below:

<u>Vessel Type</u>	<u>Description</u>
1	- Self-Propelled, Dry Cargo
2	- Self-Propelled, Tanker
3	- Towboat or Tugboat
4	- Non-self Propelled, Dry Cargo
5	- Non-self Propelled, Tanker
6	- Other

Vessel Name - (Col 17-38) - This field will contain 22 alphanumeric characters used to describe the vessel by name.

Vessel Number (Col 39 - 45) - This field will contain a maximum of 7 numeric characters used to describe the vessel number.

Coast Guard Number (Col 46-55) - This field will contain the official number assigned to this particular vessel by the U. S. Coast Guard at the time of registration. This number is normally retained by a vessel throughout the life of the vessel.

Vessel Operator Code (Col 56 - 60) - This field will contain a 5-digit code assigned to the vessel operator by WCSC.

Vessel Owner Name (Col 61 - 90) - This field will contain the name associated with the vessel operator code (Col 56 - 60) when the vessel has been reported in commercial trade. In the absence of such an operator identification, the field will contain the vessel owner name if available. The owner does not necessarily operate the vessel.

Operator Last Reported (Col 91 - 95) - When the vessel has been reported in commercial trade, the WCSC code for the last reporting operator will be given in this field.

Filler (Col 96 - 194) - For use by WCSC only.

Length

Register Length - Col 195 - 199) - This field will contain 5 numeric characters which specify the register length of the vessel reported in units of feet to the nearest tenth. The register length of a vessel is the length measured on the top of the tonnage deck from the fore part of the outer planking or plating at the bow to the after part of the sternpost of screw steamers and to the after part of the rudder post of other vessels.

Overall Length - Col 200 - 204) - This field will contain 5 numeric characters which specify the overall length of the vessel reported in units of feet to the nearest tenth. The overall length is the extreme length of the vessel which would include any structure which extends beyond the outer planking or plating on the bow or any structure that extends beyond the sternpost on screw steamers of the rudder post of other vessels.

Breadth

Register Breadth - (Col 205 - 208) - This field will contain 4 numeric characters which specify the register breadth of the vessel reported in units of feet to the nearest tenth. The register breadth of a vessel is the breadth at its widest part measured from the outside of the planking or plating on one side to the corresponding point on the opposite side.

Breadth (continued)

Overall Breadth - (Col 209 - 212) - This field will contain 4 numeric characters which specify the overall breadth of a vessel reported in units of feet to the nearest tenth. The overall breadth is the extreme breadth of maximum breadth to the outside of the vessel's structure. In paddle ships this includes the paddle boxes.

Draft

Loaded Draft - (Col 213 - 216) - This field will contain 4 numeric characters which specify the draft of the vessel when fully loaded reported in units of feet to the nearest tenth.

Light Draft - (Col 217 - 220) - This field will contain 4 numeric characters which specify the draft of the vessel when it is empty reported in units of feet to the nearest tenth.

Horsepower - (Col 221 - 226) - This field will contain 6 numeric characters which specify horsepower rating for that particular vessel. The figures in this field represent the horsepower rating reported when the vessel was new or when the present engine was installed.

Capacity

Ref - Reference System (Col 227) - This field will contain one alpha character which will designate a type of cargo carried by that particular vessel as defined below:

<u>Character</u>	<u>Type of Cargo</u>
Blank	General bulk cargo
+	Railroad cars
#	Autos, vehicles, trailers
%	Cargo capacity R.R. cars
@	Vans
&	Container

Cargo Tons - (Col 228 - 233) - This field will contain 6 numeric characters that specify the full load capacity in short tons (2,000 lbs).

Passengers - Pass (Col 234 - 237) This field will contain 4 numeric characters that will specify the passenger capacity of the vessel.

Highest Fixed Point - (Col 238 - 241) - This field will contain 4 numeric characters which will specify the height of the highest fixed point on the vessel. The height represents the distance between the waterline of the vessel (when light) and the highest fixed point on the vessel such as a pilot house, mast, etc. If the highest point of a vessel is a hinged stack or retractable pilot house, the distance is given to the hinge or top of pilot house in lowered position.

Rebuilt Code - RBLT (Col 242) - If this column contains an asterisk then the year given in the following field will be the year rebuilt rather than the year built.

Year Built or Rebuilt (Col 243 - 246) - This field will contain the year the vessel was built or rebuilt. If Col 242 of this vessel record contains an asterisk (*) then the year given in this field will be the year rebuilt.

Report Code - RPT C (Col 247) - For use by WCSC only.

Vessel Type, Construction and Characteristics - VTCC (Col 248 - 251). This field will contain a 4 character alphanumeric code which will describe in general terms the vessel type, construction and characteristics of its use, e.g. 2A22 represents the code for a self-propelled tanker constructed of steel which is being used as a liquid bulk tanker. See Attachment 2 for an explanation of the VTCC codes.

Cargo Handling Equipment (CHE-1 & CHE-2) (Col 252 - 283) - This field will contain 32 alphanumeric characters which describe permanent fixtures such as cranes, derricks, hoists, pumps, etc. and the handling capacity and type of power used to operate the equipment such as steam, electric, diesel, etc. CHE-1 and CHE-2 break up this descriptive data so that it can be printed in a two line format with CHE-1 over CHE-2.

Vessel Operating Base (VOB-1 & VOB-2)

State (Col 284 & 285) - This field will contain the 2 alpha character designations for states such as LA, TX, etc.

VOB-1 & VOB-2 (Col 286 - 305) - This field will contain a maximum of 20 alphanumeric characters which specify the city or locality which is the operating headquarters of the vessel. VOB-1 and VOB-2 break up this descriptive data so that it can be printed in a two line format with VOB-1 over VOB-2.

Filler (306 - 326) - For use by WCSC only.

ITEM-5 : Transportation Lines - Operator Master File Recorded on Computer Tape

The vessel operating company information contained in Tables 1 and 3 of the "Transportation Lines of the United States" publication is available on computer tape.

Tape Specifications:

Record Layout & Field Descriptions - see pages 18-22

Record Length - 768 characters per record

Recording Mode - ASCII

Blocking factor - 1 record per block

Parity - Odd

Density - 800bpi or 1600bpi

Cost: \$75.00

FIELD DESCRIPTIONS

TRANSPORTATION LINES - OPERATOR MASTER FILE

Transportation Lines Operator Code - TL OPERATOR CODE (Col 1-5) - This is a 5 digit numeric code used for internal processing.

Transportation Series - TS (Col 6) - This field will contain the digit 3, 4 or 5 to designate the series in which this operator would have appeared under the previous policy of publishing three volumes. The three volumes were compiled by geographical region as follows:

TS-3: Transportation Lines on the Great Lakes System

TS-4: Transportation lines on the Mississippi River System and the Gulf Intracoastal Waterway

TS-5: Transportation Lines on the Atlantic, Gulf and Pacific Coasts.

Corps District Number - ENG DIST (Col 7 & 8) - This field will contain a 2-digit code for the Corps District in which the vessel is domiciled. See Attachment #1.

Service-SER(COL 9)- This field specifies the type of service in which the operator transports goods. These type of services are defined below:

- 1 - Carriage performed for compensation that is regulated by the Interstate Commerce Commission (ICC).
- 2 - Carriage performed for compensation but exempt from regulation by the ICC.
- 3 - Carriage performed by a private entity where the vessel and the goods being transported are owned by the same entity.

Suspense Codes - SUS (Col 10) - For internal use only.

Operator Name [Line-1](Col 11- 41)

Operator Name [Line-2](Col 42-72)

Operator Name [Line-3](Col 73-103)

} Self-explanatory

Operator Address [Line-1](Col 104-153)

Points or Localities and Waterways [Line-5](Col 718-767)

Filler (Col 768) - For internal use only.

ITEM-6 : WCSC Manuscript Data File Recorded on Computer Tape

The data in the "Waterborne Commerce of the United States, Parts 1-4" are available on computer tape.

Tape Specifications:

Record Layout & Field Descriptions - see pages 24 & 25

Record Length - 36 characters per record

Recording Mode - ASCII

Blocking factor - 56 records per block

Parity - Odd

Density - 800bpi or 1600bpi

Cost: \$100.00 for data corresponding to any one volume

\$150.00 for data corresponding to any two volumes

\$175.00 for data corresponding to any three volumes

\$200.00 for data corresponding to all four volumes

FIELD DESCRIPTIONS

MANUSCRIPT DATA RECORDS

Wtwy - Port/Waterway (Col 1-4) - This will be a 4-digit code that specifies the entity (port or waterway) for which statistics are compiled.

Comm - Commodity (Col 5-8) - This will be a 4-digit Army Engineer Commodity Code. See Attachment # 3.

Trf - Traffic (Col 9) - This will be a 1-digit code that defines the type of traffic in which the commodity was moved. See Attachment # 4.

AL-CD - Allocation Code (Col 10 & 11) - This will be a 2-digit code that provides additional traffic information and direction.

Cargo Tons (Col 12-19) - Self-explanatory.

Cargo Ton Miles (Col 20-32) - Self-explanatory.

Dist - District (Col 33 & 34) - This will be a 2-digit code for the Corps District in which the port/waterway is geographically located. See Attachment # 1.

FILLER (Col 35 & 36) - For use by WCSC only.

ITEM - 7 : Principal Ports Tonnage

The Principal Ports Tonnage Reports provide listings of tons handled at U.S. Ports for a given calendar year. As shown below the tonnage is aggregated by total, domestic and foreign tons. The ports are ranked by total tons for one report generated by this data file. Alternatively the ports are also sorted alphabetically for a second report emanating from the data file. The two excerpts given below depict the type of information available from these reports:

PRINCIPAL PORTS CY 1984 BY TOTAL TONNAGE					PAGE 1

To obtain a copy of these reports please call one of the individuals listed below or write the Waterborne Commerce Statistics Center.

Thomas G. Mire (504) 862-1470

Pierre S. Andrus (504) 862-1404

David L. Penick (504) 862-1404

ITEM - 8 : Special Requests for Statistical Data

The Waterborne Commerce Statistics Center (WCSC) handles special requests for statistics on a case by case basis. These requests are characterized by the need for information not contained in the Waterborne Commerce of the United States, Parts 1-5, or the Transportation Lines of the United States. These requests should be directed to the following individuals:

Mr. Garrett L. Crowell, Chief/National Waterways and Harbors Office
(504) 862-1430

Mr. Thomas G. Mire, Chief/Special Projects Office (504) 862-1470

Mr. Pierre S. Andrus, Asst Chief/WCSC (504) 862-1404

Mr. David L. Penick, Chief/WCSC (504) 862-1404

In order to expedite the processing of a special request it is suggested that the data request be documented in a letter or some other transmittal. This facilitates the handling of such requests in WCSC. If computer processing or a significant number of WCSC manhours is required to satisfy the request, WCSC will prepare a cost estimate. The requesting office must send a check, money order, or government transfer of funds to WCSC before the requested data can be sent.

ITEM - 9 : The Reporting Responsibility for Commercial Waterborne Transportation

Generally, any company engaged in commercial waterborne transportation is responsible for reporting to the Waterborne Commerce Statistics Center. Companies moving vessels on U.S. waters, with the following exceptions, should report:

1. Movements of recreational vessels.
2. Fire, police and patrol vessels.
3. Movements of vessels exclusively engaged in construction (e.g. piledrivers and crane barges). Movements of supplies, materials and crews to or from a construction site must be reported.
4. Movements of dredges to or from the dredging site. However, movements of dredged material from the dredging site to the disposal site must be reported.
5. Movements of tug boats shifting large ships in channels and harbors if moves are less than one mile.
6. Movement of towboats engaged in fleeting activities if the move is less than one mile.

Except for the six cases above, all vessel moves should be reported, including all towboat moves with or without barges in tow, all empty and loaded barge moves, and movements of newly constructed vessels from the shipyard to the point of delivery.

Vessel operation reports are used by vessel operating companies to report pertinent vessel, date, origin/destination, commodity and tonnage information. These data are collected in confidence and are not released outside the Federal Government in order to maintain the confidentiality of proprietary information.

Attachment # 4

Traffic Codes

<u>CODE</u>	<u>TYPE</u>	<u>EXPLANATION</u>
3	Coastwise	Domestic traffic receiving a carriage over the ocean, or the Gulf of Mexico. Traffic between Great Lakes ports and seaports, when having a carriage over the ocean, is also termed "coastwise."
4	Lakewise	Traffic between United States ports on the Great Lakes System.
5	Internal	Traffic between ports or landings: a. Wherein the entire movement takes place on inland waterways. b. Wherein the movement is confined to a single river, waterway, or canal. This traffic is coded 5 except for movements between docks in a port area, in which case 7 is used. c. Wherein the movement involves carriage on both inland waterways and waters of the Great Lakes System. d. Wherein the movement crosses short stretches of open waters which link inland systems.
7	Local	Movements of freight within the confines of a single arm or channel of a <u>port</u> , or within the limits of a port having only one <u>project</u> , arm, or channel. The term also applies to marine products, sand, and gravel taken directly from beds of the oceans, Gulf of Mexico and important arms thereof, and from the Great Lakes.
8	Intraterritory	Traffic between ports in Puerto Rico and the Virgin Islands, which are considered as a single unit.
9	Ferry	Ferry Traffic
2	Canadian Foreign	
1	Overseas Foreign
