STANDARDIZED PLANS - 1890 to 1917

Numbers OQ-47 thru 144

****

This volume contains the standardized plans for family housing that have been identified from the second period of standardization. Plan numbers that begin with OQ-, NCO-, or HSQ- have been assigned by the author, the remainder are official Army designations called "Regualr Numbers" and "Special Numbers". "Plan Type" lists the type of quarters (officer's quarters- double set. non-commissioned officer's quarters- triple set. etc.). its size. and the building material assigned to that number. "Basic Unit" relates the plan number to the Plan Analysis in Volume I. "Known Locations" lists those Army posts where the plan was known or planned to have been built but it is by no means a complete listing of the locations where a particular design was built.

PLAN No: OQ-47, Official No. 7

PLAN TYPE: Officer's Quarters, single set
2 stories

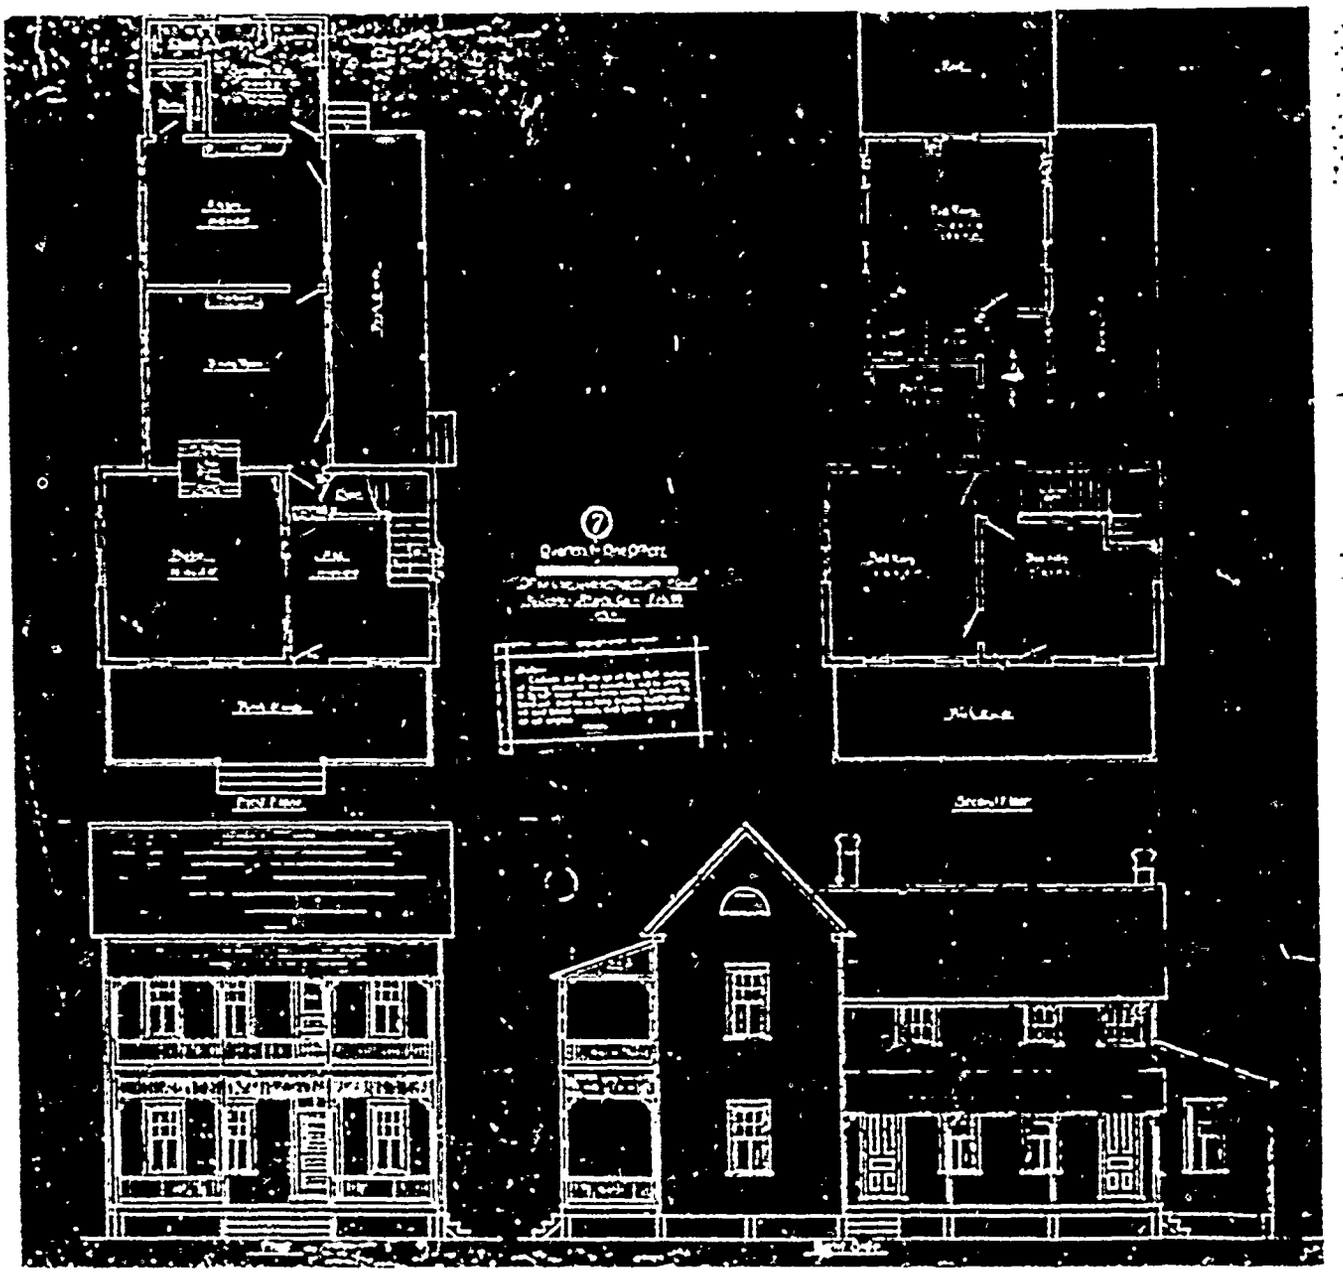

DATE: 1899

BASIC UNIT: --

KNOWN LOCATIONS: Egmont Key, Florida, 1899

COMMENTS: Issued by the Department of the Gulf.
OQ-47 and NCO-8 are good examples of both methods of distinguishing an officer's grade. The first floor plans are basically the same but the room sizes in the officer's quarters are larger. In addition, the officer's quarters has a second story to accommodate the additional space given to
commissioned officer versus a non-commissioned officer.

PLAN No: OQ-45

PLAN TYPE: Officer's Quarters, single set
2 stories + cellar + attic

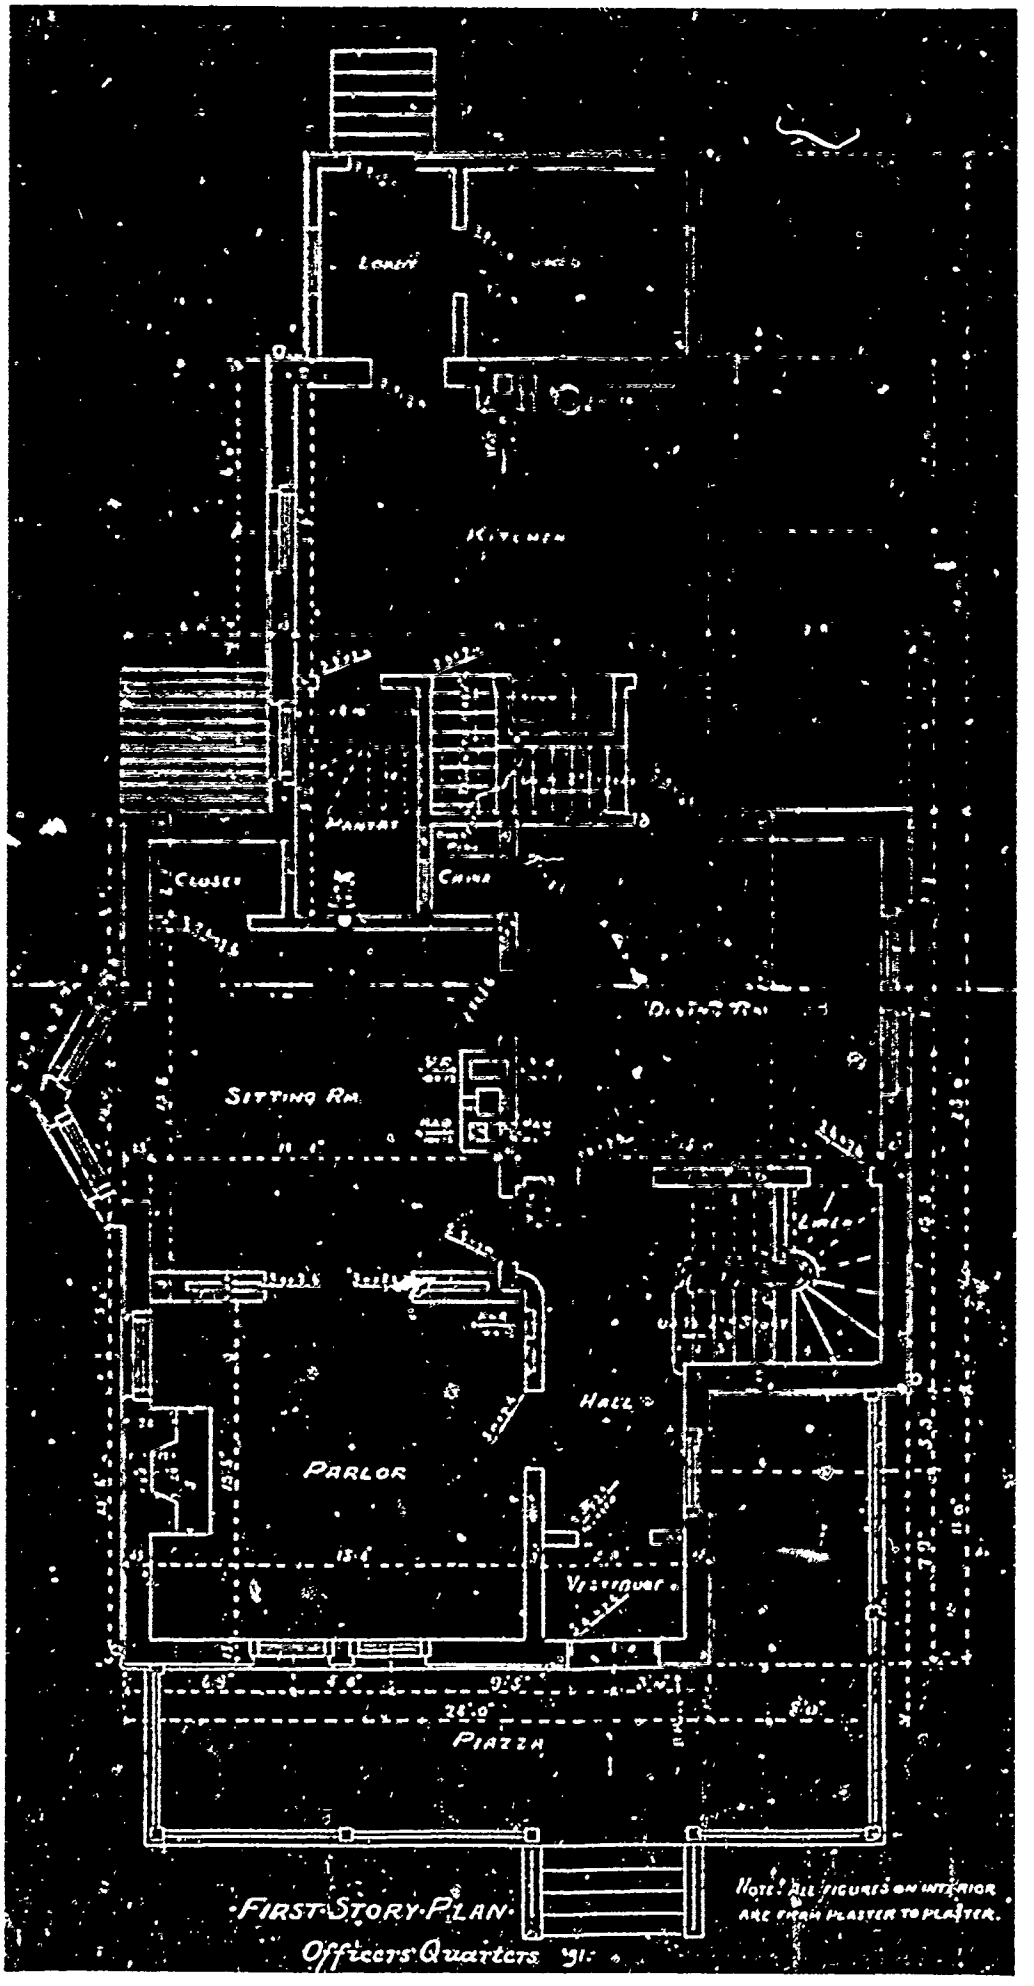

DATE: 1891

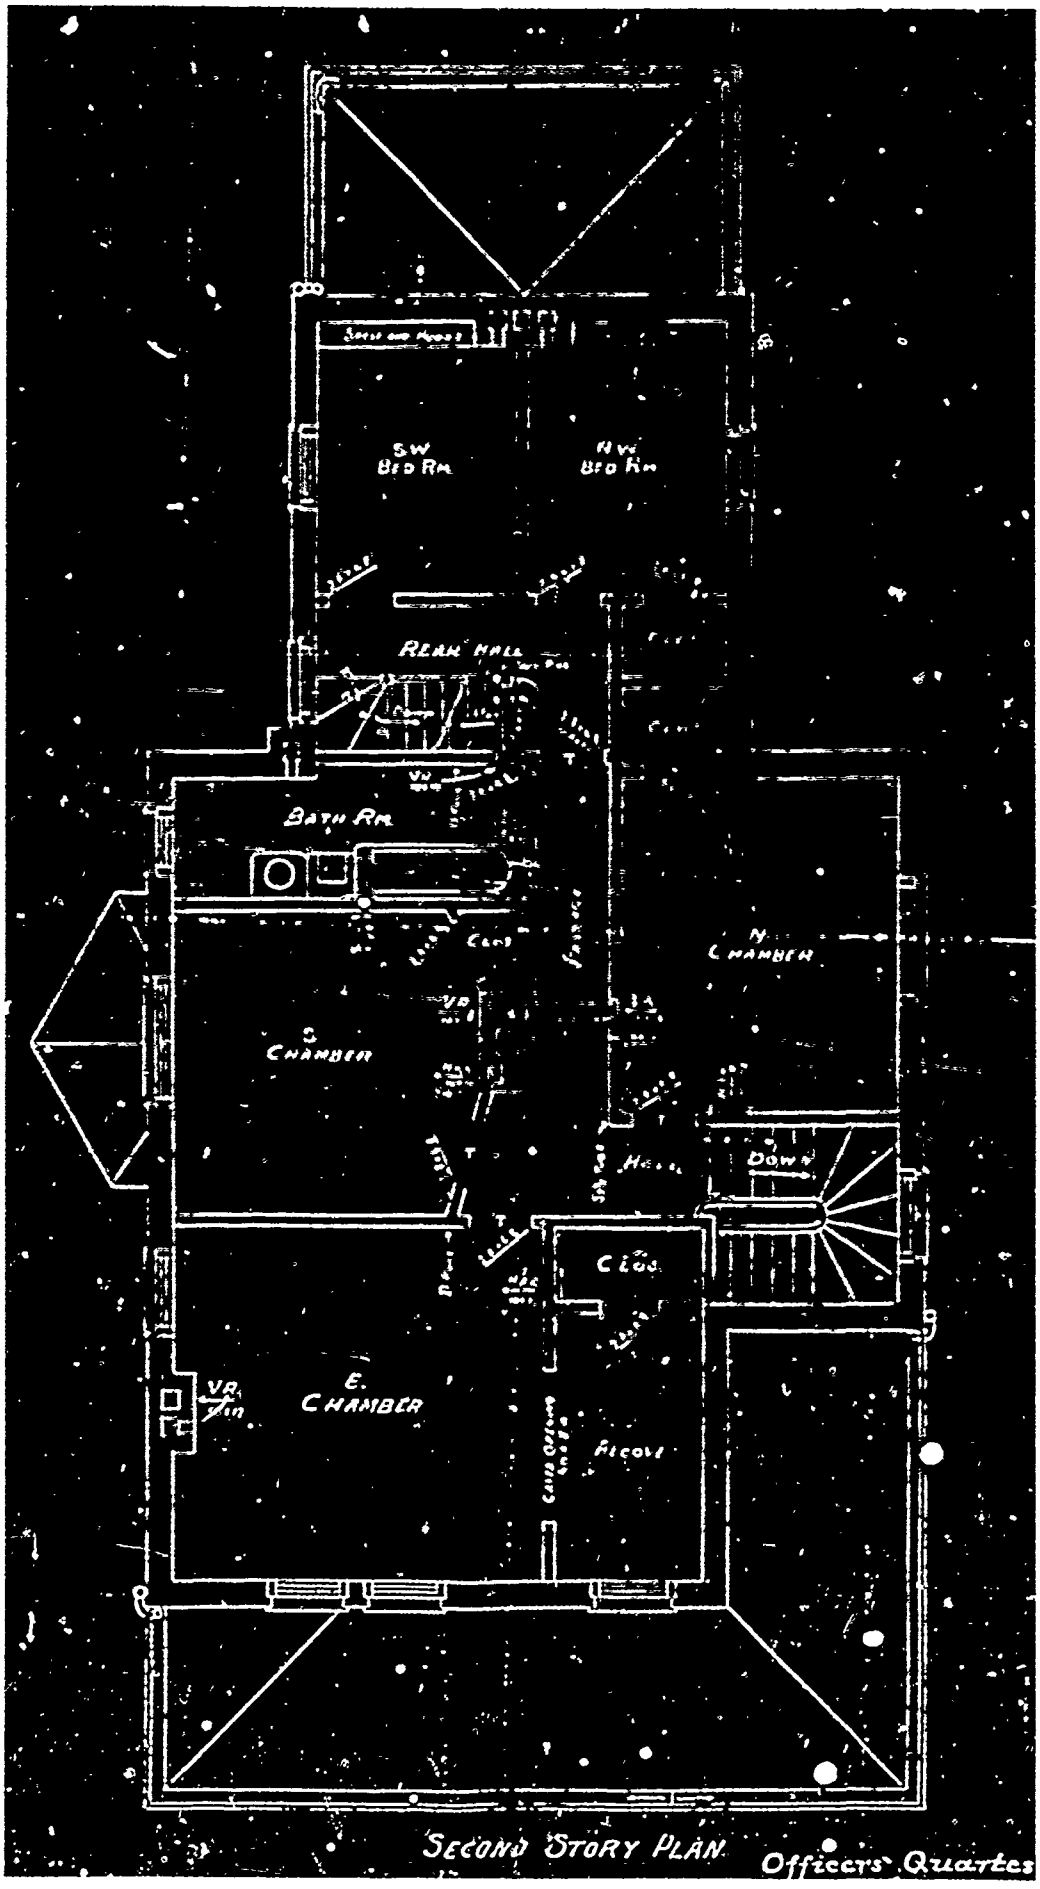

BASIC UNIT: Q

KNOWN LOCATIONS: Ft. Greble, Rhode Island, 1900
Ft. Rodman, Massachusetts, 1891

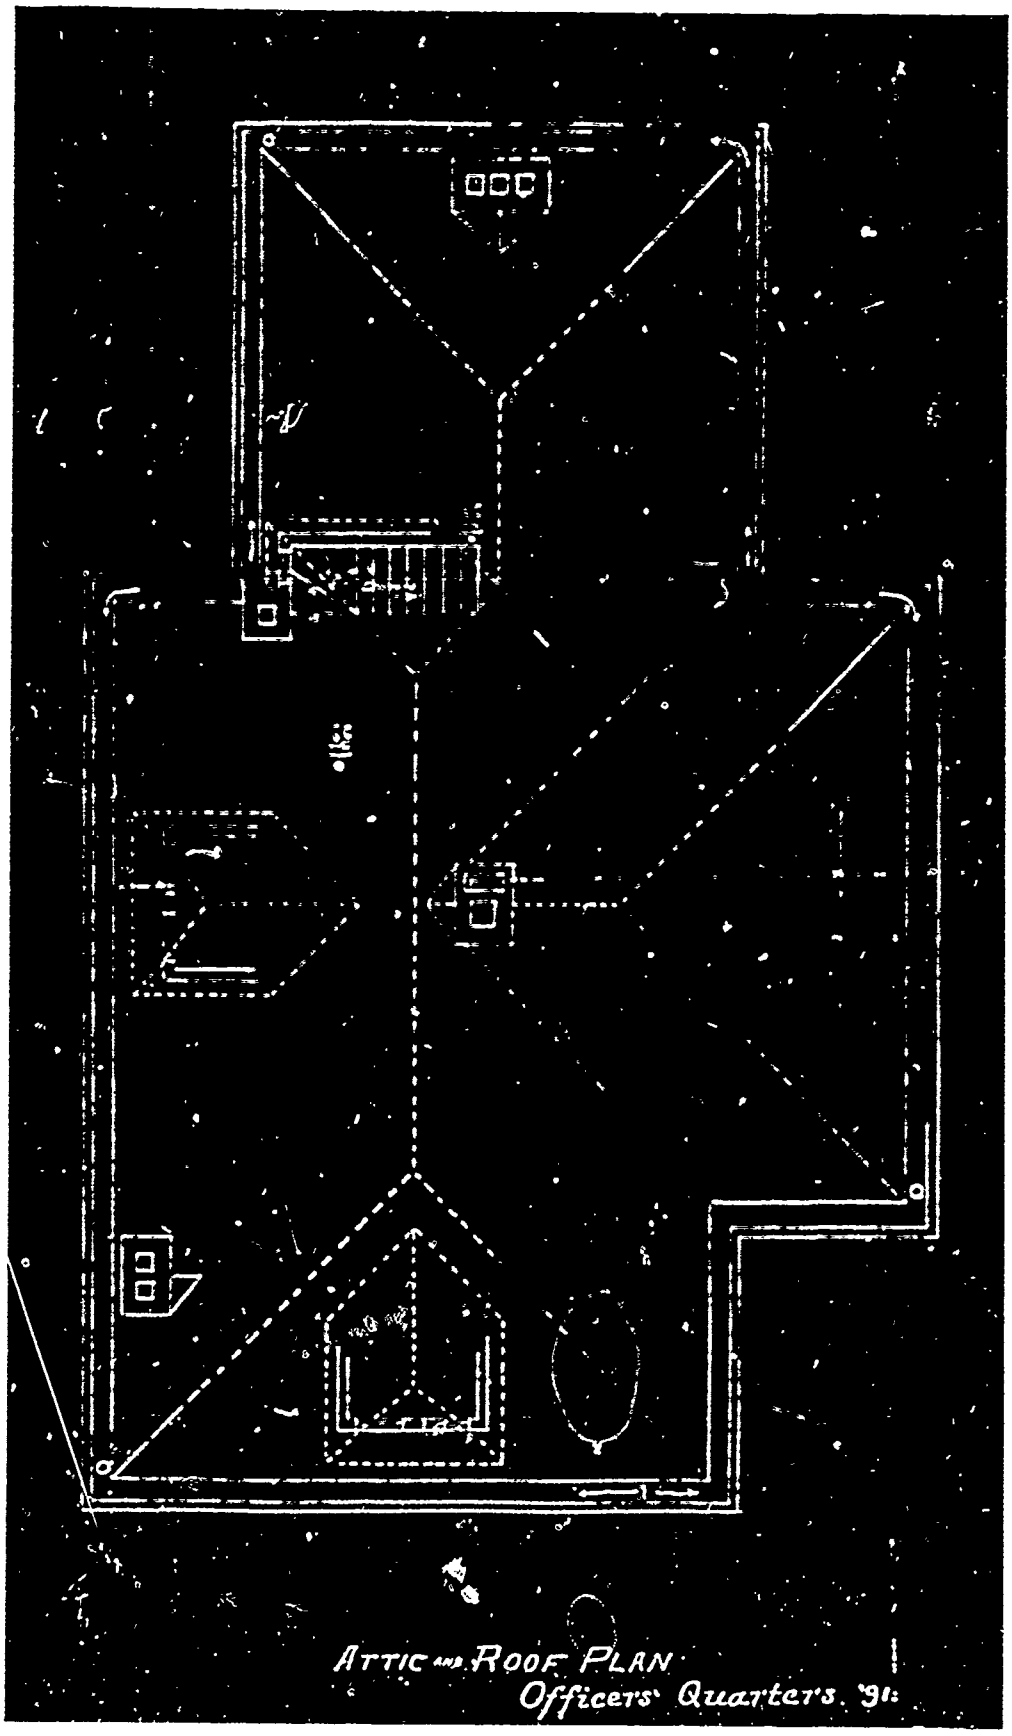

COMMENTS: The plan organization is similar to Regular No. 3, but the elevations have different characters.

KNOWN LOCATIONS: Davids Island, New York

COMMENTS: Drawings missing from file, however, a file at NARS- Military History Branch lists Davids Island as having Commanding Officer's Quarters built from QMGO #69 (RG 92 E. 1061). A photo, located at NARS- Still Photos Division (RG 92-F-19-3) from Davids Island shows a Commanding Officer's Quarters, included here as #69. This building is similar to several buildings at Ft. Sheridan, Illinois designed by Holabird and Roche. The plan used to illustrate this design is one of Holabird and Roche's designs for Ft. Sheridan which generally matches the quarters illustrated at Davids Island.
