SECTION 2 - INTRODUCTION
RESERVE PERSONNEL. MARINE CORPS

Sharing fully in the Total Force concept, the Marine Corps Reserve provides one-third of the Manpower and one-fourth of the structure available for mobilization. Our Ready Reserve, consisting of the Selected Marine Corps Reserve (SMCR), and Individual Ready Reserve (IRR), is the primary source of this manpower. The preponderance of SMCR personnel form the Fourth Marine Division (MarDiv), Fourth Marine Aircraft Wing (MAW) and Fourth Force Service Support Group (FSSG), Balancing combat, combat support and combat service support forces which are ready to provide the trained units and individuals needed to bring the Active Fleet Marine Force to full wartime capability. The remainder of the SMCR consists of Individual Mobilization Augmentees (IMA's) who fill mobilization billets within the Active Force which are considered critical requirements within the first 10 days of mobilization. The IRR consists of members of the Ready Reserve who are not required to attend mandatory drill or training but may attend on a voluntary basis. IRR are subject to mobilization.

The Reserve Personnel, Marine Corps (RPMC) appropriation provides the required funding to assure accomplishment of the Marine Corps Reserve mission which is to provide trained units to selectively augment and reinforce the Active Forces, to provide a Marine Amphibious Brigade (MAB) Headquarters, or if augmentation/reinforcement is not ordered, to provide a Fourth Division, Fourth Wing, and Fourth FSSG.

In addition to employment of SMCR units, IMA's will support key mobilization billets within the Active Force on, or shortly after, Mobilization Day (M-Day). Members of the IRR serve as the prime source of qualified individuals to fill shortfalls in Active and Reserve Units.

The FY 1987 RPMC Budget included increased funding for a 000 directed annual, one day, involuntary recall of the Individual Ready Reserve for screening. This annual screening program is continued using a "go slow" approach in this budget.

The strength increases in FY 1988 will support structure and training readiness enhancements. The increase will support the standup of two (2) Light Armored Vehicle (LAV) companies, a Target Acquisition Battery, an AH-1J Helicopter Squadron, a Light Anti-Aircraft Missile (LAAM) Battery; continued fill of FTS/SMCR bill in the new Aerial/Helicopter Transport (Anter) Squadron, medical/dental units and the Adversary Aircraft (Kfir) Squadron; and continued fill of billet deficiencies several SMCR units initiated in previous years. Additional personnel increases are required to support pay, disbursing, and administrative functions, training/instruction for SMCR units, headquarters management functions, and individual mobilization augmentee requirements in the RAU/SMU programs.

The end strength for FY 1989 in this budget submission was frozen at the FY 1988 level. Planned structure enhancements, the continued fill of new units in previous years, coupled with training and management improvements will slow down substantially or be eliminated.

The RPMC appropriation specifically provides for pay, allowances, clothing subsistence gratuities, travel, and related expenses for personnel of the Marine Corps Reserve on active duty under section 265 of title 10, United States Code, or serving on active duty under section 672(d) of title 10, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or undergoing reserve training, or performing drills or equivalent duty for members of the Marine Corps platoon leaders class, expenses authorized by section 2131 of title 10, United States Code, as authorized by law. (10 U.S.C. 600, 685, 1475-80, 2031, 2101-11, 5456, 5458, 6061-86, 6146; 37 U.S.C. 206, 301, 305, 309, 402-04, 415-18, 1602; Department of Defense Appropriation Action, 1982; additional authorizing legislation to be proposed).

SECTION 2 - INTRODUCTION (Cont.)
RESERVE PERSONNEL, MARINE CORPS

New legislation in the FY 1984 Defense Authorization Act (P.L. 98-94) provided for the establishment of accrual accounting for the military retirement system effective 1 October 1984 (FY 1985). Under the retired pay accrual concept, the defense budget no longer reflects payments to retirees. These payments are made from a Military Retirement Trust Fund under the Income Security function of the Federal budget. The military service budgets now include only the accruing liability of military personnel not yet retired. This legislative change increased the Marine Corps' budget submission dramatically in FY 1985 and beyond. Effective 1 October, 1986, and continuing through FY 1991, retired pay accrual is applied at a substantially lower rate for all paid SMCR personnel, except FTS.

Effective 1 January 1988, Federal Insurance Contribution Allowance (FICA) is being withheld from Reservist Base Pay for Drill as a result of Congressional action.

Finally, effective with this budget submission, all Individual Mobilization Augmentees (IMA) are reflected in Pay Group B after FY 1987.

Part I - Purpose and Scope

Pay Group A identifies Selected Marine Corps Reserve personnel authorized to attend 48 Unit Training Assemblies (drills) and 15 days Annual Training. Additional Paid Drills and Additional Flight Training Periods are authorized for improvement of individual skills and increased mobilization readiness.

Unit Training assemblies provide for classroom training, practical application, and specialist training. Unit Training assemblies are conducted as multiple drills of a minimum of eight hours duration (counting as two drills) or a minimum of sixteen hours in one weekend (counting as four drills). Scheduling of multiple drills provides a greater opportunity for field training. Funds requested are based on 99% and 94% attendance at training assemblies for officers and enlisted personnel respectively. Personnel in the Selected Marine Corps Reserve are authorized 14 days annual training, exclusive of travel time. Reservists normally accomplish this training with the units to which they are assigned for mobilization. Funds requested are based on an average tour length of 15 days for 99% of the average officer strength and 94% of the enlisted strength.

Additional Paid Drills are used for the following purposes:

- (1) Training exercise planning
- (2) Preparation of lesson plans and training aids for training rehearsals
- (3) Unit training administration

Funds requested include 18,310 additional paid drills for FY 1989, for ground personnel to be used for the above listed purposes.

Additional Flight Training Periods (AFTP's) are used by reservists to maintain and improve flight proficiency. A total of 25,900 AFTP's are programmed during FY 1989, for use by officer and enlisted reservists.

In FY 1987, Pay Group A included Selected Marine Corps Reserve personnel authorized to attend 48 training assemblies (drills) and 15 days annual training as individual Mobilization Augmentees (IMA). These personnel are preassigned to fill mobilization billets on or shortly after M-day. Billets to be filled are broadly categorized to Fleet Marine Force augmentation, non-Fleet Marine Force augmentation, SNCR unit augmentation, and mobilization support. Effective with this budget suballocation, all IMA's are reflected in Pay Group B after FY 1987.

Part 1 - Purpose and Scope

Title 10, United States Code, Section 311, authorizes a program whereby non-prior service personnel may enlist in the Marine Corps Reserve for a period of eight years, of which not less than twelve weeks must be spent on initial active duty for training. Funds requested in Pay Group "F" are used for pay and allowances and other personnel costs incurred during this period of initial active duty for training. All trainees are enlisted for a pre-identified Military Occupational Specialty (MOS) and receive recruit training at Marine Corps Recruit Depots, during which time they are integrated with Regular Marine Corps Recruits. Aviation trainees proceed to formal schools conducted by the Marine Corps and other services. Ground trainees proceed to either technical, specialist, or Military Occupational Specialty Training.

This program augments initial active duty training and other previously attained skills by providing additional instruction in a broad range of subjects to Ready Reserve personnel. Career development courses such as Command and Staff, Amphibious Warfare, Staff MCD Academy, and Amphibious Planning keep the reservists proficient with new weapons, doctrine and techniques. Refresher programs bring a reservist up-to-date in his particular Military Occupational Speciality (MOS). This program also provides necessary formal training for individuals assigned a different MOS or for units assigned a new mission. Aviators in tactical flying units receive biennial refresher training and training for transition to new aircraft through this program. Individual Ready Reservists receive professional and occupational field training through this program as well.

Change from FY 1988 to FY 1989: The increase of \$1,542 from \$19,815 in FY 1988 to \$21,337 in FY 1989 is the result of an increase in average officer strength of 10 and the annualization of the FY 1988 pay raise and the initiation of the FY 1989 pay raise, offset by a reduction in the retired pay accrual rate. The increase is required to continue structure and training readiness enhancements initiated in previous years and to support initiation of administration and management improvements.

Pay and Allowances, Enlisted:

These funds are requested to provide for pay and allowances for enlisted personnel serving on active duty as authorized by section 265, 6720/678 of title 10 U.S.C. The rate used in computing these requirements includes basic pay, retired pay accrual, government's contribution for social security, subsistence, quarters allowance, clothing maintenance allowance, and special and incentive pays, as authorized.

Change from FY 1988 to FY 1989: The increase of \$4,996 from \$45,720 in FY 1988 to \$50,716 in FY 1989 is the result of an increase in enlisted average strength of 107 and the annualization of the FY 1988 pay raise and the initiation of the FY 1989 pay raise, off set by the reduction in the retired pay accrual rate. The majority of the increase is required to continue the structure and training readiness enhancements initiated in FY 1988 and to support initiation of administrative improvements which will contribute to increased training time available to SHCA personnel.

Permanent Change of Station Travel: These funds are requested to provide travel costs for those members taking a permanent change of station. In addition, military member travel costs include movement and storage of household goods, relocation allowance, and dependent travel.

Change from FY 1988 to FY 1989: The increase of \$26 from \$590 in FY 1988 to \$616 in FY 1989 is the result of the approved inflation applied to the rates, coupled with a greater percentage of PCS moves for higher grade personnel.

Change from FY 1988 to FY 1989: The increase of \$2 from \$28 in FY 1988 to \$30 in FY 1989 is the result of an increase in the number of the individuals eligible for the supplementary issue, offset by the approved decrease in the supplementary issue rate.

Death Gratuities, Disability and Hospitalization Benefits: Death gratuities are provided to beneficiaries of deceased military personnel. Death gratuities are composed of six months basic pay and incentive and special pay if authorized, the sum of which is not to exceed \$3,000. Members of the Reserve Component who suffer injury or disability or contract disease in line of duty, active or inactive, are entitled to hospitalization and pay and allowances during such hospitalization.

Educational Assistance: An incentive for individuals who enlist for 6 years in the SNCR in a designated critical skill or unit may enlist for the Educational Assistance Program. This program reimburses Marines who have completed Initial Active Duty for Training for educational expenses up to \$1,000 a year for a maximum of \$4,000 over 4 years. It provides for payment of educational expenses (tuition, fees, books, laboratory fees and shop fees for consumable material used as part of classroom or shop instruction) incurred by a member at an accredited institution until the member completes a course of instruction required for the award of a baccalaureate degree, or the equivalent evidence of completion of study in a non-degree program. Payment of tuition and fees may be effected by a check co-payable to the school and member. Other authorized expenses will be reimbursed to the member upon presentation of receipts. This incentive program was terminated in FY 1985 with the introduction of the new "G.I. Bill."

Part I - Purpose and Scope

Funds are for the payment to the Department of Defense Education Benefits Fund, a trust fund. The program is governed by Title 10 U.S.C., Chapter 104. This program will fund educational benefit payments in their entirety for eligible individuals in the Selected Reserve. This program is budgeted on an accrual basis. The Veterans Administration pays individuals from funds transferred from the Trust account.

Part II - Justification of Funds Requested

All individuals enlisting, reenlisting, or extending for not less than six years in the Selected Reserve after June 30, 1985, except those who have received a commission from a Service academy or completed an ROTC scholarship program are eligible to receive educational assistance unless they are entitled to assistance under Chapter 30 of Title 38 U.S.C.. The individuals must also meet initial training and high school diploma or equivalency requirements. Cost estimates are actuarially based and reflect eligibility estimates adjusted by an estimate of ultimate benefit utilization and partially offset by an estimate of interest earned on investments of the Education Benefits Fund. The program will provide for funds adequate to allow for one of three levels of assistance. These levels are \$140.00 per month for full-time educational pursuit, \$105.00 for three quarter time pursuit and \$70.00 for half time pursuit. The maximum total benefit that can be paid is \$5,040.

Provides for pay, subsistence, travel, and clothing for the Platoon Leaders Class (PLC) and the Marine Officers Candidate Class. These personnel attend two periods of summer training and upon completion of training and graduation from college are commissioned in the Marine Corps Reserve and assigned to active duty for three years. Pay and subsistence rates are based on the actual number of days trainees are on board during the applicable fiscal year. Travel and clothing costs are based on the number of students entering training during the applicable fiscal year. Funds to cover PLC subsidy authorized by Public Law 92-172 are also included. This category also provides for clothing for Naval Academy and Naval ROTC students, under the Marine option program, who receive a clothing issue while attending their single period of Marine Corps summer training - Officer Candidates' School (OCS). Pay and subsistence for these personnel is not included in this category because as Naval ROTC students, they are paid with Navy funds.
