INTRODUCTORY STATEMENT
 (Dollar in Thousands)

	FY 1987	FY 1988	FY 1989
Total direct program	63,979	69,500	77,500

Unobligated balance lapsing	188	-	-
Transfers from other appropriations	-	-	-
Appropriation	64,013	69,500	77,500

This appropriation provides the funds for the day-to-day costs of operating and maintaining the Marine Corps Reserve forces, functions, activities and facilities except for those costs related to: procurement of major items, of equipment and ammunition; military personnel pay and allowances; and those functions supported by Navy sponsored appropriations for aircraft operations and procurement, and support of aircraft and associated equipment.

The 1989 request provides for the training and operational support of an end strength of 43,600 in FY 1989 Marine Corps Reserve Personnel in the Selected Reserve.

This appropriation provides funds for equipment authorized in Marine Corps Tables of Equipment and unit allowances and used in Marine Corps Reserve training. In addition, it provides for the operations and local maintenance of equipment, depot level maintenance of major end items, and procurement of expense-type items of equipment.

DEPARTMENT OF THE NAVY
AMENDED FY 1988/1989 BIENNIAL BUDGET SUBMISSION
OPERATION AND MAINTENANCE, MARINE CORPS RESERVE

This appropriation also supports the operation and maintenance of Marine Corps facilities such as training centers for use of Reserve units. It provides resources for maintenance and repair of facilities, minor construction, purchase of utilities and communications, rental and support of data processing equipment, postal costs, recruiting, hire of passenger motor vehicles, uniform alterations, travel, operation and maintenance of assigned military vehicles, civilian personnel costs, and procurement of minor items of office equipment and other administrative support.

Program increases contained in the FY 1989 request will provide for the support of Reserve end strength needed to meet wartime requirements including increased training needed to enhance the readiness posture of these forces. Training and mobilization requirements for combat essential individual and organizational equipment continue to be filled. Efforts to provide more modern equipment continue as Improved Nuclear, Biological and Chemical (NBC) clothing and equipment and lightweight camouflage screening systems are furnished to the Selected Marine Corps Reserve. Equipment maintenance will increase as a result of larger on-hand levels of equipment allowances within the Selected Marine Corps Reserve.

Program Package: Mission Forces

Budget Activity: 1 - Mission Forces

I. Narrative Description: The Selected Marine Corps Reserve (SMCR) includes the Fourth Marine Division, the Fourth Marine Aircraft Wing, and the Fourth Force Service Support Group (FSSG). The Fourth Marine Division is comprised of 22 battalions and 11 separate units. The Fourth Marine Aircraft Wing is comprised of 40 squadrons, one battalion and three separate units. The Fourth Force Service Support Group is comprised of 8 battalions. Also included in the SMCR are individual mobilization augmentees who are not members of the Fourth Marine Division, Wing or FSSG but who are preassigned to mobilization billets and organized into Reserve Augmentation Units. Reserve Liaison Officers and Reserve Support Units at major active force commands serve to coordinate the training of SMCR units at those commands.

Description of Operations Financed: This program provides the funds to assure accomplishment of the Marine Corps Reserve mission to provide trained units to selectively augment and reinforce the active forces, provide a Marine Expeditionary Brigade (MEB), or if augmentation/reinforcement is not ordered, provide a Fourth Marine Division, Fourth Wing, and Fourth FSSG.

Training. Support of exercises; weekend training, both at and away from Reserve training centers; annual training duty; Mobilization Operational Readiness Deployment Tests (MORDT's); and individual training through formal schools, civilian institutions (VOTEC), and mobile training teams. Includes costs of travel for exercises, inspections, schools, planning conferences; transportation of training allowance equipment, supplies, and ammunition; training aids and directives; operating costs of equipment used in training; officer and enlisted billeting fees at training sites; and hire of commercial vehicles to support operations.

Materiel Readiness. Purchase and replacement of expense type items authorized by unit training allowances, local repair of equipment, second destination transportation costs related to movement of major end items of equipment between depot maintenance activities and training centers, and mount-out materials for training and in preparation for mobilization.

Budget Activity: 2 - Maintenance

- I. Narrative Description: Fifth echelon maintenance of Marine Corps Reserve major end items of equipment is accomplished on a scheduled basis by the depot maintenance activities at the Marine Corps Logistics Base, Albany, Georgia and Marine Corps Logistics Base, Barstow, California. Depot repair and rebuild has proven to be an effective program whereby major end items of equipment can be sustained and operated for their maximum useful life.
- II. Description of Operations Financed: The requested funding is required to insure that major end items are available to meet unit training and mobilization requirements. Items programmed for repair have been screened to insure that a valid requirement exists and that repair and rebuild is the most cost effective means of satisfying the requirement.

Program Package: Base Operations

Budget Activity: 3 - Other Support

I. Narrative Description: This program package supports base operations functions for Marine Corps Reserve training facilities.

Base operations funding for these training facilities is generally for costs of a recurring nature. The funds provided to the Commanding Generals, Fourth Marine Division and Fourth Marine Aircraft Wing are managed so that requirements for operation and maintenance are met in the most economical and effective manner. The commanders are afforded flexibility in administration within materiel allowances, personnel ceilings, and broad policies established by the Commandant of the Marine Corps.

During Fiscal Year 1989, all operations are planned to support only essential facilities required to train and support mobilization readiness of Marine Corps Reserve units.

II. Description of Operations Financed: The operations financed include, in the administrative services category, such functions as financial and military/civilian manpower management, automatic data processing and related systems support, printing and reproduction services, uniform alterations, travel, purchase of minor items of office equipment, and other local administrative support.

The specific services category finances organic supply operations, operation and maintenance of assigned military vehicles, and maintenance of materiel.

The facility services category makes up the remainder of the functions provided by this program package. This category consists of the maintenance and repair, minor construction, operation of utilities and other engineering support necessary to operate and maintain 194 training centers and the Headquarters of the Fourth Marine Division and Fourth Marine Aircraft Wing.
