National Guard Personnel, Air Force

INTRODUCTION

This appropriation provides military personnel funds for the Air National Guard (ANG). The FY 1990/FY 1991 Biennial Budget request is based on an average of 115,600 Guardsmen in FY 1990 and 116,100 Guardsmen in FY 1991 who will be assigned to ANG flying and mission support units. In addition to annual 15-day tours and 48 drill periods; additional flying training periods, training period preparation assemblies, and school and special tours of active duty will provide additional training for a limited number of personnel. This appropriation also includes funds for ANG personnel called to full-time active duty.

FY 1990 reflects an overall average strength increase of 678 from FY 1989. Average strength increases in Active Guard and Reserve, mostly in Direct Unit Support and United States Air Force Mission Support, and in Pay Groups F and P to achieve end strength growth. FY 1991 includes an overall average strength increase of 500 (mostly the result of prior year hiring) and several School Training program changes.

As a result of a large number of conversions in FY 1990, School and Special Training will increase and Pay Group A participation rates will increase.

In FY 1990 the School Training program Initial Skill Acquisition and Refresher and Proficiency training increases. Increases to Undergraduate Pilot Training (UPT) and Navigator Training are a result of a policy change requiring all UPT candidates to attend initial flight screening, and increasing UPT quotas required as Vietnam era pilots retire. Unit Conversion Training increases are due to the increase in the number of unit conversions. During FY 1990 increases to Special Training are a result of backlog of Exercise training caused by deferring FY 1989 training due to funding constraints. (KRC)

The FY 1991 School Training program increases as the requirements for UPT quotas continues to increase. Initial Skill Acquisition training increases mostly to support advanced enlisted avionics training. Unit Conversion training decreases reflect a return to a more normal aircraft conversion level.

- Combat Communications Operations Manpower. Funds authorizations to support workload increases in combat communications units.
- Air Traffic Control Specialists. Provides full-time air traffic control specialists to absorb doubled workload.
- Combat Control Teams. Provides manpower to establish three combat control teams.
- Forces. Aircraft modernization reduces the officer requirement by eliminating the need for weapon systems officers when converting from F-4 to F-16 and A-10 aircraft. The tactical airlift force is modernized by replacing C-130A/B aircraft with C-130Es accomplished by reducing two sixteen Primary Aircraft Authorized (PAA) units and standardizing C-130 units at eight or twelve aircraft each. The above decreases are offset by a six PAA build of A-7s, an additional detached alert, and the establishment of a rescue mission in Alaska. Also robusts three KC-135 units.
- Air Support Operations Center (ASOC). Completes the manpower required to support the Army's close air support requirements.
- Strategic Air Command War Planners. Provides full-time military capability to Strategic Air Command gained units which have a conventional wartime tasking.
- Intelligence Manpower. Funds an intelligence manpower position for each tactical control group and one for the 154th Composite Group.

PART I - PURPOSE AND SCOPE

This budget activity provides for pay and allowances, retired pay accrual, clothing, subsistence and travel for Air National Guard officers and enlisted personnel assigned in Pay Group A. These personnel are authorized 15 days paid annual training and 48 paid inactive duty drill periods each fiscal year, additional flying training periods for personnel on flying status, and training period preparation assemblies for traditional Guardsmen with trainer responsibilities.

The combined Pay Group A and Active Guard/Reserve (AGR) end strength of 112,925 for FY 1990 will provide for an overall manning level of 93.6 percent. In FY 1991, the end strength of 112,725 equates to a manning level of 93.7 percent.

Program Growth:

- Medical Growth. Continues the build of officer and enlisted personnel for the purpose of establishing a second echelon of medical care in Air National Guard (ANG) medical units (+840 Average).	+4,278
- Impact of annualization of Prior Year Growth. Officer gains in FY 1989 will require a higher average strength in FY 1990 (+122 Average).	+1,114
- Annual Training participation rate increase. Due to the volume of unit conversions, activations to more highly sophisticated Weapons Systems, and increasing gaining major command training requirements, more training is required to meet minimum levels of proficiency. Further, Total Force commitments are increasing. In the past, due to fiscal constraints, most members were limited to 15 days Active Duty for Training in either annual training, special training, or school status, or a combination thereof. Today most special training resources are used for Total Force requirements causing almost total reliance on annual training for normal training requirements. To meet all training and Total Force mission requirements, more members need to be able to perform annual training in addition to school and/or special training.	+1,014

National Guard Personnel, Air Force
Training, Pay Group A (Continued)

- Unit Training Assembly participation rate increase. Due to the volume of unit conversions and activations to more highly sophisticated Weapons Systems ranging from Switch Board Communication Networks to F-15 and F-16 aircraft, more unit hands-on training is required to meet minimum operation proficiency in addition to increasing gaining major command training requirements. Therefore, unit commanders will reschedule Unit Training Assemblies to accomplish specific training opportunities that might otherwise be missed, affording individuals more hands-on equipment training.	+620	
- Weapons Systems Security. Funds a gradual increase in security police in order to provide wartime weapons systems security in place of previously contracted Air Force civilian personnel (+156 Average).	+583	
- Clothing. Returns to a more normal replacement program.	+350	
- Congressionally added Operational Support Aircraft (OSA). Provides drill positions in concert with the full-time positions authorized for maintenance and crews in support of the support aircraft being placed in the Air National Guard (ANG) (+51 Average).	+228	
- North Atlantic Treaty Organization Air Base Satellite Squadron. Continues the build of drill personnel required to operate and maintain the satellite equipment being placed in the ANG (+58 Average).	+220

- Forces. Aircraft modernization reduces the officer requirement by eliminating the need for weapon systems officers when converting from F-4 to F-16 or A-10 aircraft. The tactical airlift force is modernized by replacing C-130 A/B aircraft with C-130Es accomplished by reducing two sixteen Primary Aircraft Authorization (PAA) units and standardizing C-130 units at twelve or eight aircraft each. Subsistence of Enlisted Personnel: These funds provide for subsistence-in-kind to enlisted personnel on active duty training and inactive duty training for eight hours or more in any one calendar day. Subsistence-in-kind requirements are based on active duty and inactive duty workdays as programmed for each fiscal year. Appropriate deductions are made for enlisted personnel who will receive a monetary allowance in lieu of subsistence. The FY 1989 rates were adjusted for inflation to defray the cost of operating Air National Guard (ANG) messing facilities on a part-time basis during the fiscal year. The rates for FY 1990 and FY 1991 include a price growth of 3.6% and 3.3% respectively. Meal authorization chits, contract catering, operational rations, field dining halls, and other service mess halls are also used for individuals and units performing duty at locations where ANG dining halls are not available.

PART I - PURPOSE AND SCOPE

This budget activity provides for pay and allowances, including Government's Social Security contributions, retired pay accrual, clothing, subsistence, and travel for Air National Guard enlisted personnel assigned to the non-prior service program. The purpose of this program is to recruit and train non-prior service personnel to fill specific unit vacancies not attainable from prior service enlisted sources. Individuals receive basic and technical and/or on-the-job training, depending upon their aptitudes and Air Force specialties.

The FY 1990 and FY 1991 input into the non-prior service program will be 5,100. This input is the annual requirement which, when added to drill strength and Active Guard/Reserve (AGR), will man the ANG units programmed for FY 1990 at an overall unit level of 96.6 percent. In FY 1991, the combined strength equates to a 96.7 percent manning level.

Pay, Inactive Duty Training. Enlisted: These funds provide for pay of enlisted personnel attending inactive duty for training while awaiting initial active duty training. Basic pay, retired pay accrual, and the government's Social Security contributions are included in computing requirements. Military pay increases and the government's Social Security contribution changes are reflected in the FY 1989, FY 1990, and FY 1991 rates.

Part I - Purpose and Scope

This budget activity provides for pay and allowances, retired pay, clothing, subsistence, travel, and per diem for Air National Guard officers and enlisted personnel performing tours of paid active duty for formal school training. This program is designed to increase the mobilization potential and readiness of Guardsmen through training at military service schools. This school training improves individual proficiency and cross trains individuals into critical skill career fields. The length of each course includes the actual period of instruction, travel time as prescribed by appropriate travel regulations, and accrued leave at a rate of 2-1/2 days per month when training is in excess of 30 days.

School tours are programed and budgeted in seven separate categories as follows:

- (1) Career Development Training
- (2) Initial Skill Acquisition Training
- (3) Officer Candidate School
- (4) Refresher and Proficiency Training
- (5) Retention Training
- (6) Undergraduate Pilot and Navigator Training
- (7) Unit Conversion Training

The following pages present the requirements for each of the seven categories and describe more precisely what is included in each category.

DETAIL OF REQUIREMENTS--SCHOOL TRAINING
(Amounts in Thousands)

Initial Skill Acquisition Training: This program provides training necessary to acquire initial military and/or military specialty skills. It includes the initial training of newly commissioned officers, initial skill training of officers and prior service enlisted personnel and the retraining of officers and enlisted personnel into another military specialty. The average length of training is 71 days for officers and 82 days for enlisted. FY 1989 decreases in officer and enlisted personnel reflect reductions in programed growth of medical readiness units as well as additional reductions in non-rated officer and all enlisted skill training due to real world fiscal constraints. FY 1990 increases are for combat communications, mobile radar, and language training. Also supports add-back of deferred FY 1989 training. FY 1991 increase is mostly for advanced avionics training. The average rates used in computing the requirements include pay and allowances, retired pay, clothing, transportation and per diem as authorized. Military pay increases, appropriate Variable Housing Allowance changes, government's Social Security contributions changes, and price growth for commercial transportation are reflected in the FY 1989, FY 1990 and FY 1991 rates.

Officer Candidate School: This program includes the commissioning programs of the Air National Guard (ANG) Academy of Military Science (AMS). The source of officer candidates is either directly from civilian life or prior enlisted service. The average length of training is 44 days, 39 days as an enlisted and 5 days as an officer. The average rates used in computing the requirements include pay and allowances, retired pay, clothing, subsistence-in-kind, transportation and per diem, as authorized. Military pay increases, appropriate Variable Housing Allowance changes, government's Social Security contributions changes, and price growth for commercial transportation, subsistence-in-kind, and clothing are reflected in the FY 1989, FY 1990 and FY 1991 rates.

Refresher and Proficiency Training: This program provides training necessary to attain and maintain the needed level of proficiency in the military specialty for which a member has been initially qualified. The average length of training is 31 days for officers and 44 days for enlisted personnel. Decreases to aircrew and non-rated officer proficiency training, enlisted aircrew proficiency training, and enlisted aircraft maintenance and combat-communications and civil engineering new equipment training are required in FY 1989 due to fiscal constraints. Increases in FY 1990 reflect the add-back of deferred FY 1989 training. Increasing training requirements for aircrews in modern fighter aircraft and increased language proficiency training requirements make the add-back absolutely essential. Fiscal reality dictates the return to a constrained level in FY 1991. The average rates used in computing this requirement include pay and allowances, retired pay, clothing, transportation and per diem as authorized. Military pay increases, appropriate Variable Housing Allowance changes, government's Social Security contributions changes, and price growth for commercial transportation are reflected in FY 1989, FY 1990 and FY 1991 rates.

Retention Training: This program provides training to personnel to enhance their capabilities in recruiting and retention. The average length of training is 6 days for officers and 14 days for enlisted personnel. Decreases in officer and enlisted retention training program in FY 1989 are due to fiscal constraints. In FY 1990 and FY 1991 the program returns to normal levels with the add-back of deferred training. The average rates used in computing the requirements include pay and allowances, retired pay, transportation and per diem as authorized. Undergraduate Pilot & Navigator Training: This program includes the initial flying training programs for Undergraduate Pilot Training (UPT), Undergraduate Navigator Training (UNT) and Undergraduate Helicopter Training. The average length of training is 316 days for officers and 24 days for enlisted personnel. Increases in FY 1990 and FY 1991 are caused by two reasons. First, a policy change that requires all UPT candidates to complete initial flight screening prior to enrollment. Second, more UPT candidates are required as Vietnam era veterans retire. The average rates used in computing the requirements include pay and allowances, retired pay, clothing, transportation and per diem as authorized. Military pay increases, appropriate Variable Housing Allowance changes, government's Social Security contributions changes, and price growth for commercial transportation and clothing are reflected in the FY 1989, FY 1990, and FY 1991 rates.

DETAIL OF REQUIREMENTS--SCHOOL TRAINING
(Amounts in Thousands)

Unit Conversion Training: This program provides for training as a result of changes in the type of aircraft, type of unit, changes in unit mission, or new equipment. Examples include officer and enlisted advanced and lateral training, aircrew qualification training, combat crew training, and Field Training Detachment (FTD) training. The average length of training is 47 days for officers and 55 days for enlisted personnel. Decrease in program in FY 1989 reflects reductions in aircrew training. Tactical airlift unit conversions will be unable to reach mission capable status in minimum time due to these real world fiscal constraints. FY 1990 increase reflects add-back of deferred FY 1989 requirements as well as a dramatic increase in unit conversions. In FY 1991 requirements return to a more normal aircraft conversion level. The average rates used in computing the requirement include pay and allowances, retired pay, transportation and per diem as authorized. Military pay increases, appropriate Variable Housing Allowance changes, government's Social Security contribution changes, and price growth for commercial transportation are reflected in the FY 1989, FY 1990 and FY 1991 rates.

PART I - PURPOSE AND SCOPE

This budget activity provides for pay and allowances including retired pay, government's Social Security contributions, subsistence, travel and per diem for Air National Guard (ANG) officers and enlisted personnel who will perform tours of paid active duty other than those covered by Pay Groups A, P, P and School Training. These tours include ANG Air Defense and Strategic Air Command Alerts, Joint Chiefs of Staff Exercises, United States Air Force Mission Support, conversions and other special training necessary to improve combat proficiency or to increase mobilization readiness of Air National Guard units.

The special tours are programed and budgeted in seven categories as follows:

- (1) Competitive Events
- (2) Command/Staff Supervision
- (3) Exercises
- (4) Management Support
- (5) Operational Training
- (6) Service Mission/Mission Support
- (7) Unit Conversion Training

The following pages present the requirements in each of the seven categories and describe more precisely what is included in each category.

Competitive Events: This program provides support for Air National Guard (ANG) participation in service sponsored competitions. The average length of each tour is 10 days. Decrease in FY 1989 is related to decreased tactical airlift participation due to fiscal funding constraints. In FY 1990 and FY 1991 the program will be left at the FY 1989 reduced levels so additional resources can be applied to higher priority programs. The rates used in computing the requirements include pay and allowances, retired pay, transportation and per diem as authorized. Military pay increases, government's Social Security contributions changes, and price growth for commercial transportation are reflected in the FY 1989, FY 1990 and FY 1991 rates.

Command/Staff Supervision: This program provides workdays for conferences, seminars, and visits made by headquarters personnel to subordinate units. Includes planning, orientation and training conferences. The average length of tour is 5 days for officers and 4 days for enlisted personnel. FY 1988 reduction for State Headquarters Staff visits to converting units and decrease support for Pre-Operational Readiness Inspection planning due to fiscal funding constraints. In FY 1990 and FY 1991 the program will be left at the FY 1989 reduced levels so additional resources can be applied to high priority programs. The rates used in computing the requirements include pay and allowances, retired pay, transportation and per diem as authorized. Exercises: This program provides training required for Air National Guard (ANG) participation in joint training exercises. The average length of training is 15 days. In FY 1989 three F-16 units are not participating in planned Overseas Deployments, degrading the Air National Guard's readiness posture. In FY 1990 and FY 1991 add-back of deferred training returns the program to normal levels. The rates used in computing the requirements include pay and allowances, retired pay, transportation and per diem as authorized. Military pay increases, government's Social Security contributions changes, and price growth for commercial transportation are included in the FY 1989, FY 1990 and FY 1991 rates.

Management Support: This program supports activities not directly related to other special training categories such as special physicals, accident boards, special investigations, base defense, disaster preparedness, and airlift support. The average length of tours is 7 days for officers and 4 day for enlisted personnel. FY 1989 reflects decreased support of special administrative and technical aspects of medical Air Force Specialty Codes and Airlift support for Senior Management sponsored events due to fiscal constraints. Increases in FY 1990 reflect the add-back of deferred FY 198 requirements for support to Senior Management sponsored events and increases in medical readiness training. These programs continue through FY 1991. The rates used in computing the requirements include pay and allowances, retired pay, transportation and per diem as authorized. Military pay increases government's Social Security contributions changes, and price growth for commercial transportation are reflected in the FY 1989, FY 1990 and FY 1991 rates.

Operational Training: This program provides training for individuals to achieve and maintain a level of readiness commensurate with demands of programed wartime taskings. The average length of training is 4 days for officers and 5 days for enlisted personnel. FY 1990 requirements increase to support restoral of deferred training. Funding constraints require the FY 1991 program to be reduced again to below the already constrained FY 1988 and FY 1989 levels. The rates used in computing the requirements include pay and allowances, retired pay, transportation and per diem as authorized. Military pay increases, government's Social Security contributions changes, and price growth for commercial transportation are reflected in FY 1989, FY 1990 and FY 1991 rates.

Service Mission/Mission Support: This program provides direct Air National Guard support of the active military forces. Included are functions such as Air Defense Alert, Strategic Air Command (SAC) Alert/Tanker Task Force, A-7 and C-130 Rotations and United States Air Force mission support. The average length of tours is 32 days for officers and 15 days for enlisted personnel. In FY 1989 an additional Air Defense Alert increases officer requirements. FY 1990 reflects an increase in detached alert requirements increasing maintenance support. The rates used in computing the requirements include pay and allowances, retired pay, subsistence-in-kind, transportation and per diem as authorized. Military pay increases, government's Social Security contribution changes and price growth for commercial transportation and subsistence are reflected in the FY 1989, FY 1990 and FY 1991 rates.

- Combat Communications Operations Manpower. Funds one additional authorization per combat communications unit to support workload associated with increases in communications security (COMSEC) equipment in conjunction with the allocation of new Tactical Air, Land, and Sea (TRI-TAC) systems.
- Air Traffic Control Specialists. Provides a fulltime air traffic control specialist for seven tactical control squadrons and six tactical control flights for managing and directing both the radar and the communications operations sections in which responsibilities and workload has doubled.
- Combat Control Teams. Provides manpower to establish three combat control teams allowing increased training opportunities for the airlift forces and at the same time provide Military Airlift Command with essential wartime assets in the air traffic control and command and control communications link to airlift forces during airborne operations.
- Forces. Aircraft modernization reduces the officer requirement by eliminating the need for weapon systems officers when converting from F-4 to F-16 and A-10 aircraft. The tactical airlift force is modernized by replacing C-130A/B aircraft with C-130Es accomplished by reducing two sixteen Primary Aircraft Authorized (PAA) units and standardizing C-130 units at twelve or eight aircraft each. The above decreases are offset by a six PAA build of A-7s, an additional detached alert, and the establishment of a rescue mission in Alaska. Also robusts three KC-135 units.
- Air Support Operations Center (ASOC). Completes the manpower required to support establishment of an Air Support Operations Center in support of the Army's close air support requirements.

- Strategic Air Command War Planners. Provides seven fulltime military conventional war planning personnel at the Air National Guard Strategic Air Command gained units which have a conventional wartime tasking. These seven units were originally tasked to perform Single Integrated Operational Plan (SIOP) tasking; however, tasking has increased to include conventional capability.
- Intelligence Manpower. Funds an intelligence manpower position at each of the three tactical control groups and one for the 154th Composite Group. The three positions will sustain intelligence operations at three tactical control groups, three control and reporting posts and seventeen forward air control posts. The 154th Composite Group position completes the funding of one intelligence officer per each flying unit.
- North Atlantic Treaty Organization Air Base Satellite Squadron. Provides three full-time manpower authorizations at three locations in order to maintain equipment and conduct training for drill personnel on the satellite equipment being placed in the Air National Guard.
- Annualization of Prior Year Increases.
- USAF Mission Support (+132 workyears).
- Flight Line Security. Provides full-time security police for ten high threat continental United States Air National Guard bases.

PART I - PURPOSE AND SCOPE

Funds are for payment to the Department of Defense Education Benefits Fund, a trust fund. The program is governed by Title 10 U.S.C., Chapter 106. This program will fund educational benefit payments in their entirety for eligible individuals in the Selected Reserve. This program is budgeted on an actuarial basis. Actual payments to individuals are made by the Veterans Administration from funds transferred from the trust account.

PART II - JUSTIFICATION OF FUNDS REQUESTED

All individuals enlisting, reenlisting, or extending for not less than six years in the Selected Reserve after July 1, 1985, except those who have received a commission from a service academy or completed an ROTC scholarship program, are eligible to receive educational assistance unless they are entitled for assistance under Chapter 30 of Title 38 U.S.C. The individuals must also meet initial training and high school diploma or equivalency requirements. Cost estimates are actuarially based and reflect eligibility estimates adjusted by an estimate of ultimate benefit utilization and partially offset by an estimate of interest earned on investments of the Education Benefits Fund. The program will provide for funds adequate to allow for one of three levels of assistance. These levels are \$140.00 per month for full-time educational pursuit, \$105.00 for three quarter time pursuit and \$70.00 for half time pursuit. The maximum total benefit that can be paid is \$5,040. The estimates represent variable per capita costs from \$627 in FY 1988 to \$616 in FY 1989, to \$609 in FY 1990, and FY 1991.

The following table displays the actuarially based estimates:
