(202) 767-4912 or AUTOVON 297-4912

INTRODUCTION

This Research Proposal Status Report is published quarterly as of March, June, September, and December of each year. It lists all the research proposals received by the Air Force Office of Scientific Research (AFOSR) in the six month period prior to the date of this report. Normally, decisions and actions are made within six months after receiving a research proposal. The action taken (i.e. Initiated, Declined, or Withdrawn) will be listed in this Report. The report is divided into two parts: Part I is the Institution Index which lists the proposals received, alphabetically by Institution. Part II is the AFOSR Directorate Index in which the proposals received are listed alphabetically by Directorate and alphabetically by AFOSR Program Manager within the Directorate. Any questions regarding this report, please contact Ms. Debra Tyrrell at (202) 767-4912 or Autovon 297-4912.

PURPOSE

The purpose of the quarterly report is to inform other Government sponsoring agencies of the proposals received by the AFOSR and the action taken on these proposals. Users of the report should read and clearly understand that:

Declined proposals should not necessarily be considered as scientifically unacceptable since many declinations result from a lack of funds or from special programmatic emphasis.

AFOSR MISSION

The Air Force Office of Scientific Research (AFOSR) is the single manager of the Air Force Defense Research Sciences Program (Program Element 61102F) and the primary Air Force agency for the extramural support of fundamental scientific research. The AFOSR is organized under the Director of Laboratories, Air Force Systems Command.

AFOSR awards grants and contracts for research in areas of science relevant to the needs of the Air Force. Research is selected for support from unsolicited proposals originating from scientists investigating problems, involving the search for new knowledge and the expansion of scientific principles. Selection is on the basis of scientific potential for improving Air Force operational capabilities, originality, significance to science, the qualification of the principal investigators, and the reasonableness of the proposed budget.

KEY TO READING THE DATA

TITLE - The title of the research proposal

INSTITUTION - The organization, i.e., College/University, Company, etc., at which the research will be conducted.

INVESTIGATOR - The Principal Investigators proposing the research.

TYPE - N indicates a new research effort.

- R indicates a continuation of an ongoing research effort.

MONTHS - The duration of the research proposal.

RECEIVED - The month and year in which the AFOSR received the proposal.

AMOUNT - The funds requested of the AFOSR for support of the research proposal.

STATUS - A = ACCEPTED indicates that the review has been completed and the proposal recommended for funding.

- D = DECLINED indicates the proposal has been reviewed but will not be funded by the AFOSR.

- BLANK SPACE = indicates the proposal is being reviewed.

- W = WITHDRAWN indicates that the proposal submitted was removed from further consideration at the proposers request.

PROGRAM MANAGER - The AFOSR scientific staff member assigned the responsibility for the technical evaluation of the proposal.

PROPOSAL # - An AFOSR Directorate assigned control number to uniquely identify the research proposal.

INITIATED - The proposal has been recommended to the AFOSR Directorate of Contracts for the amount and duration.

START DATE - The recommended date for commencement of the research.

TOTAL AMOUNT - The estimated number of dollars recommended for support of the research effort; the actual amount is subject to negotiation.

EFFICIENCY OF THE BROAD-BAND EMITTING MATERIALS BOSTON UNIVERSITY	LEMPICKI ALEXANDER	N 36 24/04/89 \$384,576	SCHLOSSBER 89-NP-178	
SELF ENERGY APPROACH TO QUANTUM ELECTRODYNAMICS UNIV OF COLORADO	BARUT A.	N 12 02/05/89 \$180,716	D SCHLOSSBER 89-NP-180	
THEORY/ELECTROMAGNETIC WAVES PROPAGATING IN NONLINEAR ANISOTROPIC OPTICAL MATERIALS/ANALYTICAL SOLUTIONS TO MAXWELL EQUATIONS KENT STATE UNIVERSITY	DAVID MOROI	N 36 03/05/89 \$224,691	SCHLOSSBER 89-NP-182	
STUDIES OF ELECTROMAGNETIC COUPLING AT ULTRAHIGH INTENSITIES UNIV OF CALIFORNIA	RHODES	N 12 03/05/89 \$200,000	SCHLOSSBER 89-NP-184	
CONFERENCE ON NONLINEAR OPTICS INST. OF ELECTRICAL & ELECTRONICS ENGRG	WANGEMANN ROBERT	N 06 03/05/89 \$10,000	SCHLOSSBER 89-NP-185	
RESEARCH WITH SCANNING TIP MICROSCOPES UNIV OF ARIZONA	SARIC DROR	N 36 04/05/89 \$399,751	A SCHLOSSBER 89-NP-189	\$45,000 15/09/89 \$397,751
US/USSR SYMPOSIUM ON THE PHYSICS OF OPTICAL PHENOMENA AND THEIR USE AS PROBES OF MATTER UNIV OF CALIFORNIA	MARALUDIN ALEXEI	N 06 04/05/89 \$25,650	D SCHLOSSBER 89-NP-191	

REPORT DATE 07/17/89

PROPOSAL STATUS REPORT (1 APR 89 - 30 JUN 89)
AIR FORCE OFFICE OF SCIENTIFIC RESEARCH
DIRECTORATE OF PHYSICAL AND GEOPHYSICAL SCIENCES
